EUROPEAN NEWS.

Sir Julian Pauncefort the New British Minister to Washington

WILL LEAVE ENGLAND SATURDAY

An Englis Aristocrat Fatally Shoots Himself And His Mistress—Parnell Commission.

LONDON NEWS.

London, April 9.—A short time ago Goldsmith Hunt, a relative of Lady Scott, engaged rooms for himself and mistress, a noted soubrette actress named Maria DeBrahams, in a house on Mansfield Road. The couple appeared to be on the best of terms with one another till Monday, when they quarrelled, the dispute ending in Hunt's shooting the woman and himself dead. The affair created a tremendous sensation, but the police are trying to hush it up on account of the prominence of the families with which Hunt was connected. Hunt was wealthy and accomplished, and married to a charming woman, but for several years has been very dissolute, and his family relations became strained.

Count Poppenheim, formerly Adjutant to the late Ludwig, of Bavaria, has absconded to America, with funds which he obtained by the sale of his estates, leaving a large number of creditors to bewail his flight.

Sir Julian Pauncefort, the new British Minister to Washington, will sail for New York on Saturday. He goes alone and will return in the autumn to escort Lady Pauncefort to the American capitol.

THE PARNELL COMMISSION.

London, April 9.—Ser Charles Russell continued his address before the Parnell commission to-day, confining his remarks to a review of the evidence furnished by the Times.

Agnes Robertson, the divorced wife of Dion Boucicault, made an application in the divorce court to enforce the payment of alimony awarded in court in 1888, from the proceeds of Boucicault's British copyrights. Boucicault averred that the copyrights were no longer his, but were assigned in 1886 to one Codogen, of New York, in behalf of his present wife. The Judge doubted the existence of Codogen and declared the assignment fraudulent and void. He then ordered that copyright moneys in possession o the court be paid to the plaintiff.

ROULANGER'S TRIAL.

Paris, April 9.—A bill describing the manner of conducting General Boulanger's trial by the Senate, was discussed to-day in the Chamber of Deputies. M. De Lafosse denounced the bill as an insult to the public conscience. He declared that a political body like the Senate could not render an impartial decision. This objection raised great disorder in the Chamber and it was with great difficulty that ths President could restore order. M. De Lafosse said that Boulanger ought to be tried at the assizes, otherwise it would be a disgrace to the Senate.

BOULANGER'S PUNISHMENT.

Paris, April 9.—In consideration of the bill providing for the proper punishment of Gen. Boulanger, in the chamber of deputies to-day, the proposal of M. Ribot that a majority of seven twelfths of the senate should be necessary to make a sentence valid was rejected. The bill as originally introduced was then passed by a vote of 318 to 205.

WILL CHALLENGE TEEMER AND O'CONNOR.

Sydney, N. S. W., April 9.—Scarle, champion oarsman of Australia, will sail for England next month. When he arrives in England he will issue a challenge to Teemer and O'Connor offering to row them for £500 each and the championship of the world. The contest to take place on the Thames.

ON HORSEBACK TO PARIS.

St. Petersburg, April 9.—Four Russian military officers have wagered that they will cover the distance between St. Petersburg and Paris on horseback within forty-five days. The wager has been accepted, and the officers will start on their journey some time during May.

FIRE AND CHOLERA.

London, April 9.—The recent fire at Surat, India, rendered 15,000 persons homeless. Cholera has since made its appearance in the same district.

A FALSE REPORT.

Brussels, April 9.—The Independence Belge prints a dispatch from Zanzibar, which says that the report that Henry M. Stanley and Emin Bey are on the march towards Zanzibar is a story invented by the Arabs.

BOULANGER'S INDICTMENT.

Paris, April 9.—The indictment of Gen. Boulanger is directed against Count Dillon, M. M. Laguery, Rochefort and Dabarail and two Parisian journalists.

BOULANGER WARNED.

Brussels, April 9.—The Government has warned Boulanger to abstain from political agitation, and promises not to expel him from Belgium if he complies.

Letters From the People.

OUR LAND POLICY.

EDITOR COURIER:—I read with a mingling of pleasure and regret the resolution of the Vancouver Board of Trade, with regard to our land policy. I am greatly pleased that an influential body like the Vancouver Board of Trade should, no matter how dim the vision may be, begin to recognize the evil of land grabbing. Why that body is so zealous about agricultural land I cannot see, unless it possibly springs from the widespread and generally accepted idea that land is something peculiarly agricultural. This is too narrow a view of the land question, and I have not the least doubt but what the Board in question will, on thinking the matter over, see the injustice in all land grabbing. Mr. Keith tells us of men that are holding five and six thousand acres out of all use, for the avowed purpose of higher prices; acres, no doubt, capable of supporting many families. But has Mr. Keith not seen one acre or less held out of use for the purpose of higher prices; one acre or less, capable, in many cases, to support hundreds of families.

The popular remedy of limiting land ownership which, no doubt, was in the minds of the gentlemen of the Board of Trade is wholly inadequate; does not, in fact, go to the root of the evil.

Allow me, Mr. Editor, a little extra space in your valuable journal for the purpose of pointing out a few inconsistencies in limited land-ownership.

First—Where agriculture is carried on for profit it is absolutely necessary that it should be on a large scale. An agriculturist cannot avail himself of the inventions and improvements which mark our century, if by law compelled to limit the operation of his capital. The introduction of steam and electricity have made an epoch in farming as well as other lines of production.

Second—I would draw your attention to the fact that a ten-acre holding in the centre of the business part of the terminal city, or any other city of importance, is a far greater monopoly than fifty thousand acres on the Skeena River, or the north end of Vancouver Island.

Third—If A, B, C and D pre-empt or purchase 160 acres each, and thereby become the exclusive owners thereof, what is to prevent me from buying out the whole four?

No, Mr. Editor; if we admit that land can rightfully be private property, then it is wrong of society to limit or otherwise interfere in the management of land.

But land being a natural element, a gratuitous offering of the Almighty Father of us all, can never rightfully be private property. John S. Mill says "Its appropriation is wholly a question of general expediency. When private property in hand is not expedient it is unjust. The monopoly of land is only defensible as a necessary evil." H. Spencer says: "Equity does not permit private property in land. If landowners have a valid right to its surface, all who are not landowners have no right at all to its surface. Hence such can exist on the earth by sufferance only. It is manifest that an exclusive possession of the soil necessitates an infringement of the law of equal freedom. For men who cannot live and move and have their being without the leave of others, cannot be equally free with others," Now the vexed question arises, how are we to secure to each an equal share in our heritage? An equal division of land will manifestly not do. When one hundred men own a railroad, steamboat or a mine, each does not operate his own fraction of the whole, but it is operated in common and the profit divided. In the same way can society operate its land, by simply appropriating economic rent for common purpose, or in other words, abolish all taxes but one single tax on land values?

X

PERSONAL.

Messrs. J. W. Carter, A. Shaw, R. Scoular, and R. Evans went to Victoria by yesterday morning's train.

Miss A. Fiddick went to Victoria by the same train.

Messrs. A. Haslem and J. Wilson arrived by the mid-day train yesterday.

Mr. J. Dunsmuir of Dunsmuir & Sons, returned to Nanaimo yesterday.

Mr. M. Skinner, C. E., arrived here last night on the steamer Amelia on his way to Comox.

Mr. E. McDonough, the rustling sewing machine and organ man, left for Comox this morning on a business trip.

Rev. Father Durand left last night on the steamer Amelia for Comox. He takes the good wishes of every one hers to his new home.

Frank Clemons, of Alberni, is registered at the Central Hotel.

Mr. L. Neubert, of New York, and Mr. G. Phillips, Victoria, are staying at the Royal Hotel.

Woman in Fiction.

It is women who write most of the English and American novels, though men still ply that industry, and it is women who are most popular in their novels. What has sold so well as "Uncle Tom?" Who in France was read as much as George Sand? or in England as Charlotte Bronte and George Eliott? or in Sweden as Fredrika Bremer? or in America as Miss Alcott, or now in all countries as Mrs. Ward? No wonder that these great successes and many others that could be named tempt women to write many poor novels and some good ones, the majority being mediocre, however, or neither good nor bad. But mediocrity in a novel is now much higher in quality than it used to be, the novel-writing talent having grown by cultivation, until the fourth-rate novelist can write better than any but the first-rate auther could fifty years ago.—Springfield Republican.

The first of the season Riverside oranges, navel oranges and new cabbages can be obtained at George Cavalsky's. *

UNITED STATES NEWS

Coal Mines in Pennsylvania Resuming Operations and the

PROSPECTS MORE ENCOURAGING.

No More War Vessels to be Sent to Samoa, Until After the Berlin Conference.

NO TROUBLE IN PANAMA.

Washington, April 9.—The state department learned through Lieut Adamson, consul general at Panama, that the disturbances which were feared owing to the stoppage of work on the canal, have not occurred and that good order prevails in that locality. The laborers who were thrown out of work were rapidly leaving, whites going to Chili, and negroes to Jamaica. Mercantile failures have necessarily been numerous and many solvent houses there closed their affairs, as business could be no longer continued with profit. Many merchants were turning their attention to Porto Rico, where the railroad works are giving employment to many hands, while others are going to Nicaragua. The consul also reports that a great many railroads are soon to be built in Chili, and that in Jamaica, American capitalists are projecting extensive enterprises of a similar nature. During the past year not less than 10,000 laborers have left the canal. The officers of the company have directed the continuance of the work at several points on the line, but it is thought this is only to prevent questions arising from its total abandonment, and to protect property which has already suffered from the depredations of thieves, till purchasers can be found.

SAMOAN AFFAIRS.

Washington, April 9.—State department officials were very reticent to-day when asked about the report, that an agreement had been reached between Germany and the United States, that no war vessels are to be sent to Samoa until after the result of the Berlin conference is announced here. There is little doubt, however, that both governments are already committed to such an agreement. It is well understood that the proposition to leave Samoan waters unguarded by Germany and the United States, and just as they were after the typhoon had wrecked and disabled the vessels of both governments, came originally from Bismarck, and he was promptly met half way by our government and that proposition was accepted. This will leave matters in statu-quo and the British government alone to protect those waters, and lookout for German, American and British interests until the Berlin conference settles affairs.

RAILWAY AFFAIRS.

Chicago, April 9.—The first meeting of Inter-State Commerce Railway Commission under the chairmanship of Mr. Walker, was held here to-day. The session was almost entirely consumed in consideration of the Kansas City fast train question. Receiver McNulta, of the Wabash, proposed that extra fare should be charged for extra service, or that a differential rate be allowed to roads which did not have fast service to Kansas City. Under the rules the matter was referred to a committee of the managers. General discussion on the Inter-State Commerce act followed, it being unanimously decided to enforce its provisions, and learn by experience whether or not it is practical. The meeting then adjourned to the second Tuesday in July.

PRESIDENTIAL APPOINTMENTS.

Washington, April 9.—The President to-day made the following appointments: Frank P. Lumley, of Vermont, United States Attorney for the District of Vermont; George A. Knight, of Texas, United States Marshal for the Northern District of Texas; Leo H. Bennett, Indian Agent at Union Agency, in the Indian Territory; George B. McDowell Register of the Land Office at Huron, Dakota.

INCREASE OF RAILWAY RATES.

New York, April 9.—The trunk line presidents to-day adopted a resolution recommending an increase of east-bound livestock rates from 22½ to 26 cents, and a reduction of car rates; also an increase of rates, for carrying dressed beef. Final action was deferred until the western roads pass the resolution. The passenger agents met and discussed emigrant rates, but took no action in the matter. The New Jersey Central joined the association.

A SHARP TRICK.

Shamokin, Pa., April 8.—Daniel Keller, a wealthy farmer living in Bear Gap Valley, was robbed of $4,000 yesterday afternoon by two strangers, who called on him and commenced dickering for the purchase of his farm. The sharpers engaged the old gentleman in a game of cards and induced him to bet the above sum on a card. Mr. Keller deposited the money on the table whereupon one of the sharps covered him with a revolver while the other scooped the farmer's cash up, and both then made their escape.

RESUMING OPERATIONS.

Pittsburg, April 9.—After a shut down of only a week's duration, all of the Monongahela River Coal Works resumed work, with the exception of Hosmer & Roberts, yesterday. Six thousand men are thereby given employment. The prospects for the river coal trade are now much more encouraging than they were a week ago.

A FURIOUS STORM.

Baltimore, April 9.—Reports of disaster from Saturday's storm come in from Cape Henry and show that it was the worst in ten years. It is hard to state exactly the number of lives lost [illegible] vessels ashore or sunk, [illegible] that between fifty and [illegible] sels were damaged by the storm near the cape. The arrivals in this port to-day numbered only three ocean steamers, and one of them has been due three days. Details of the storm are coming in very slowly. The steamship Caspian, from Glasgow, reports that on Monday morning she sighted a bark sixty miles southwest of Cape Henry. Her foremast and main topmast were gone. It may have been the bark Albert Ross, which broke adrift on Saturday, and whose crew were landed at Port Royal on Monday by the steamer State of Texas. The Caspian also reported a schooner ashore at the cape and another ten miles below. The steamer Westmoreland reports that in Rappahamock River a number of wharves have been washed away, and the low lands along the river covered with water.

THE FIRE FIEND.

Louisville, April 9.—The Louisville Bridge and Iron Company's works, the largest establishment of the kind in the South, was destroyed by fire last night. Loss, $150,000.

TRAIN ROBBERS CAPTURED

Albuquerque, N. M., April 8.—The men who a month ago robbed the train at Canyon Diablo, have been captured. The sheriff telegraphed from Knaubell that one was caught on the 1st instant and two on the fourth, and that he is on his way to Milford with his prisoners.

SHIPPING NEWS.

V. C. CO.

The ship Wilna is loading coal at the company's wharf.

The Southern California is expected to arrive to-morrow.

WELLINGTON.

The steamer San Mateo cleared from San Francisco last Monday for Departure Bay.

FOR TEXADA.

The steamer Rustler sailed last night for Texada with the following passengers: R. Brown, B. C. Bound, W. Tree, J. McMillan.

FROM THE NORTH.

The steamer Amelia sailed last evening for Comox and northern ports with the following passengers:

Father Durand, W Beveridge, W Dunn, F J Tilden, E M McDonough, E Skinner, C E, and party. Father Durand took up his horse and buggy.

FROM VICTORIA.

The steamer Amelia arrived yesterday afternoon from Victoria with the following passengers. Mr. E. Skinner, C. E., and party, en route for Comox to survey in that district, Mrs. Booth, and Mr. J. Phillips. Consignees.—N. E. P. Society, C. Karst. Sabiston & Wilcox, S. Brightman, W. Badcock, J. Shaw, J. Kilpatrick W. Parkin, R. Watkins, G. Bevilockway, A. R. Johnston & Co, Palmer & Rey, A. A, Henderson, E. Pimbury.

THIS AND THAT.

Some simple country peasant came to a celebrated sculptor in Vienna and ordered a statue of St. Francis

"Do you want him dead or alive?" asked the sculptor.

"Well you can make him alive, and if he don't suit it will be an easy matter to knock him in the head."

Visitor at a school—"Little boy, you can cypher remarkably well."

Little boy—"Humph! you oughter see me eat."

Boarder Jones—"Mrs. Flapjack, can't you put a stop to your two daughters playing four-handed at the piano?"

Mrs. Flapjack—"Why don't you marry one of them? That will put a stop to it right off."

He—"I don't think I'd care to marry a very learned woman."

She—"I dare say you are right. You don't want your wife to know too much. In fact, you don't care to have her know as much as you do."

"I don't say that. I don't want a stupid wife, either."

THE IRISH QUESTION.

The ordinary citizen of this country finds it extremely difficult to understand the utility of the methods adopted by the secret Irish societies that propose to liberate Ireland by the promiscouus use of dynamite. It is true there are some people who would be benefitted by the blowing up, say of London Bridge. The man who would get the fat contract to build it up again, no doubt would say that dynamite is not such a bad thing after all. If the benches and furniture in the House of Parliament are destroyed by dynamite, and in case some members are simultaneously exterminated, no doubt the carpenters who make the repairs, and the gentlemen who are elected to fill the vacancies, will say that it is an ill wind that does not blow somebody some good. To the English government, which is often solely pressed for pretexts to resort to violent measures, these dynamite explosions are godsends. Thev deprive the Irish cause of the sympathy of liberal minded people all over the world, and paralyze the efforts of Parnell and other recognized Irish patriots. They supply the oppressors of Ireland with ample justification to give the screw another turn. There is a slow, but infallibly sure liberal wave moving over Europe which will give the people all that they wish, probably without their having to fire a shot. The advent of this great event is retarded by the mere suggestion of blowing up English passenger steamers, or promiscuous murders in the streets of London. Verily, the worst foes of Ireland are those of her own household. However, the power of these secret organizations is limited, for it seems that every one of them is provided with a spy, who reports every movement to the British government before it can be carried out.

THE PROMISE OF SCIENCE.

Everybody knows that the world is wearing out—that the time is coming when we will have no coal to burn in our grates, and no iron to make our grates out of, even had we the coal. A close record of the output of the oil field discovers, says the Chicago News, the fact that the petroleum reservoirs are running dry and investors have not the faith in the inexhaustible flow of natural gas that the sellers of wells could wish. We know that precious metals are dug out in less quantities than formerly; that the diamond market, in spite of Kimberly, is cornering itself; that mahogany and pine will some day be things of the past, like the buffalo robe and dodo. We are confronted with the fact that the guano deposits will not last forever, that there is a human limit to the production of electricity, and that our children several times removed will have neither quinine, chloroform nor animal dyes.

Of course this general exhaustion of old earth's treasure house is some time ahead of us. It will not happen in our day nor in the next century. We can go on burning the candle at both ends for a few hundred years before humanity has to adjust itself to the newer or more economical conditions. But, despite the fact that the time of stress is so far ahead of us that we can look on to it jokingly, it is pleasant to learn that science is getting ready for the rainy day. We are on the eve of a new age and on the threshold of a new civilization. Aluminium according to nature, is making ready to take the place of steel, and it will be cheaper, lighter, stronger and 1,000 fold more plentiful and cheap. Heat and food, according to science we are to gather from the sea in proper fish culture and wise electrical work. The economist brightly believes that we will solve the labor problem before the middle of the twentieth century, and solve it to the satisfaction of both parties.

EDITORIAL NOTES.

Soft coal, it is said, can be prepared in such a way, at small cost, that there will be no accumulation of soot in the chimney, and that the under sides of the stove lids will be kept clean. Here it is: For a ton of coal buy a few cents' worth of common salt, make a brine of it and pour over the coal. The result may not be so effective as the promise, but it is worth the trying.

PRESIDENT Eliot, of Harvard College, formulated a great truth in forcible style when he said: "In spite of the familiar proverb, "threre is a royal road to learning; it is the road a royal teacher makes." If women come in the fullness of time to have a decisive voice in school matters they may do great things in devising means whereby children can be brought more directly into contact with wise and kindly teachers, so that the instruction may be more individualized and the same care taken to consider the personality of the little scholar in the class room that a wise mother gives to her own child in the nursery. Then children—being led, not driven—with new interest aroused and the peculiar needs of each considered, will find study a pleasure, and the way of knowledge a royal one indeed.

THE STATESMAN'S RETURN.

HOW HE WAS RECEIVED BY HIS DISAPPOINTED CONSTITUENTS.

"Yes, the Legislatur' has adjourned, and the statesmen hev returned to their constituents," he said in answer to the question. "Our statesman—our particular jim-dandy statesman—returned with the rest. He was sent down to represent our neck-o'-the-woods. He was supposed to be Dan'l Webster, Henry Clay and John C. Calhoun biled down and canned up. He was supposed to be sharper than razors and wiser than owls. He hollered for reform, bellered for improvements and shouted for glory. The cantankerous cuss was going to amend at least four hundred laws, reform every department of state, secure our county a hundred privileges; and knock the tar out of things in general. We were waiting for him when he returned. He was first struck by old Pete Jackson, who observed:

"'Look-a-yere, Johnson, whar's that law for my mill dam?'

"'Killed in committee of the whole,' was the reply.

"'You blamed reptile! Didn't we send you down thar to boss the committee of the hole and everybody else? I want that ar mill dam or blood?'

"And Hi Woods was next in line, and he said:

"'Look-a-yere, Johnson, where's that 'ere law to protect my fish pond?'

"'Crowded out by the bill on lighthouses.'

"'She was eh! Durn your pictur', but do you stand thar and tell me that you let some ramshackle lighthouse way off on Lake Erie knock the stuffin' outer my fish pond up yere! What did we send ye down thar' fur? What was you doin' all this time?'

"And the third man was Uncle Dave Baker, who led off with:

"'Look-a-yere, Johnson, whar's that neu skule district for my section?'

"'It was knocked out in trying to amend the title.'

"'She was, eh? Do you tell me you sot right thar and didn't have the title all right? That you let that 'ere House just up that bill and never go up and uttered one yell? Johnson, I kin lick ye with one hand tied to my foot, and I'll be durned if I don't do it!'

"There were twenty-seven of us between his house and the depot, all with a few remarks to make. About thirty waited on him next day, and on the next he broke for the woods and is at present located in a swamp about seven miles away. He may be in along towards corn planting, but if he is thar's about fifty more of our people waiting to interview him. We ar' bound to make him tired."—[New York Sun.

COULDN'T SURPRISE HIM.

Boarder, cracking an egg—"Well, I declare!"

Waiter, excitedly—"What is it?"

Boarder—"Why, this egg has a double yoke."

Waiter—"Pooh! that's nothin'—gen'lman's yistiddy had a chicken!"

RIGHT MAN FOR THE PLACE.

The new reporter, a calm, truthful-looking man of respectable middle age brought in his account of the inauguration. He estimated the throng around the Capitol at about 124,000,000; said there were 150,000 men in the procession, which was 895,000 miles long, and was witnessed by a countless throng of 765,000,000 of people. "For mercy's sake," gasped the night editor, "what did you use to do before you came on the paper?" "Lived in the observatory at Sirius University," replied the new man. "I'm an astronomer." They took him off the staff and put him on the circulation department right away.—[R. J. Burdette.

NOT INQUISITIVE.

There was dust on his back and grime of two weeks' standing behind his ears, and as he stood on a corner yesterday, he was heard to remark that he was from Lansing.

"What is the fare from Lansing to Detroit?" queried a dudish-looking bystander looking waggishly at an acquaintance.

"I dunno," was the reply.

"Don't know!" echoed his questioner, incredulously.

"Young man," returned the tramp, impressively, "when I want to go to a place by rail I get quietly on the train, and when it gets there I step off again, without ever asking any bloomin' fool questions."

A WARNING.

The modes of death's approach are various, and statistics show conclusively that more persons die from diseases of the Throat and Lungs than any other. It is probable that everyone, without exception receives vast numbers of Tubercle Germs into the system and where these germs fall upon suitable soil they start into life and develop, at first slowly and is shown by a slight tickling sensation in the throat and if allowed to continue their ravages they extend to the lungs producing Consumption and to the head, causing Catarrh. Now all is dangerous, and if all will to proceed will in time cause death. At the onset you must act with promptness; allowing a cold to go without attention is dangerous and may lose ... life. As soon as you feel that something is wrong with your Throat Lungs or Nostrils obtain a bottle of Boschee's German Syrup It will give you immediate relief.

WORTH THEIR WEIGHT IN GOLD.

Holloway's Pills & Ointment

THIS INCOMPARABLE MEDICINE has secured for itself an imperishable fame throughout the world for the alleviation and cure of most diseases to which humanity is heir.

THE PILLS

Purify, regulate and improve the quality of the blood. They assist the digestive organs, cleanse the STOMACH & BOWELS, increase the secretory power of the Liver, brace the nervous system, and throw into the circulation the pure elements for sustaining and repairing the frame.

Thousands of persons have testified that by their use alone they have been restored to health and strength after every other means have proved unsuccessful

THE OINTMENT!

Will be found invaluable in every Household in the cure of open Sores, Hard Tumors, BAD LEGS, OLD WOUNDS, COUGHS, Colds, Sore Throats, Bronchitis, and all disorders of the Throat and Chest, as also Gout, Rheumatism, Scrofula, and every kind of Scin Diseases.

Manufactured only at Professor Holloway's Establishment, 78 New Oxford St. (late 533 Oxford St.), London, and sold at 1s. 1½d., 2s. 9d., 4s. 6d. 11s., 22., and 33s. each Box and Pot.

BEWARE OF AMERICAN COUNTERFEITS. Purchasers should look to the Label on the Pot and Boxes. If the address is not 533 Oxford Street, London, they are spurious.

Dr. J. Collis Browne's
CHLORODYNE.

THE ORIGINAL and ONLY GENUINE.

Advice to invalids—If you wish to obtain quiet refreshing sleep, free from headache, relief from pain and anguish, to calm and assuage the weary achings of protracted disease, invigorate the nervous media, and regulate the circulating systems of the body, you will provide yourself with that marvellous remedy discovered by Dr. J. Collis Browne (late Army Medical Staff), to which he gave the name of CHLORODYNE, and which is admitted by the profession to be the most wonderful and valuable remedy ever discovered.

CHLORODYNE is the best remedy known for Coughs, Consumption, Bronchitis, Asthma.

CHLORODYNE acts like a charm in Diarrhœa, and is the only specific in Cholera and Dysentery.

CHLORODYNE effectually cuts short all attacks of Epilepsy, Hysteria, Palpitation and Spasms.

CHLORODYNE is the only palliative in Neuralgia, Rheumatism, Gout, Cancer, Toothache, Meningitis, &c., &c.

From Symes & Co., Pharmaceutical Chemists Medical Hall, Simla, January 5th, 1880: To J. T. Davenport, Esq., 33 Great Russell Street, Bloomsbury, London, Dear Sir:—We embrace this opportunity of congratulating you upon the wide-spread reputation this justly esteemed medicine, Dr. J. Collis Browne's Chlorodyne, has earned for itself, not only in Hindostan, but all over the East. As a remedy of general utility, we much question whether a better is imported into the country, and we shall be glad to hear of its finding a place in every Anglo-Indian home. The other brands, we are happy to say, are now relegated to the native bazaars, and judging from their sale, we fancy their sojurn there will be but evanescent. We could multiply instances infinitum of the extraordinary efficacy of Dr. Collis Browne's Chlorodyne in Diarrhœa and 2nd Dysentery Spasms, Cramps, Neuralgia, the Vomiting of Pregnancy, and as general Sedative, that have occurred under our personal observation during many years. In Choleraic Diarrhœa, and even in the more terrible forms of Cholera itself, we have witnessed its controlling power. We have never used any other form of this medicine than Collis Browne's, from a firm conviction that it is decidedly the best, and also from a sense of duty we owe to the profession and the public, as we are of the opinion that the substitution of any other than Collis Browne's, is A DELIBERATE BREACH OF FAITH ON THE PART OF THE CHEMIST TO PRESCRIBE AND PATIENT ALIKE. We are sir, faithfully yours, Symes & Co., Members of the Pharm. Society of Great Britain, His Excellancy the Viceroy's Chemists.

CAUTION.—Vice-Chancellor Sir W. Page Wood stated that Dr. J. Collis Browne was, undoubtedly, the inventor of Chlorodyne; that the story of the defendant, Freeman, was deliberately untrue, which, he regretted to say, had been sworn to.—See "The Times," July 13, 1884.

Sold in bottles at 1s. 1½d., 2s. 9d., 4s. 6d., and 11s. each. None is genuine without the words "Dr. J. Collis Browne's Chlorodyne" on the Government stamp. Overwhelming medical testimony accompanies each bottle.

Caution—Beware of Piracy and Imitations.

Sole Manufactures—J. T. Davenport, 33 Great Russell Street, Bloomsbury, London

FOR COMOX.—The steamer Isabel had quite a number of Chinamen on board en route to Comox this morning.

STREET CARS FOR VANCOUVER.—It is expected that the Vancouver street cars will be running by July 1st.

MEETING.—The N. E. P. Society have given notice that a meeting will be held in the Society's hall next Saturday, the 13th inst,, at 8 p. m., when business of importance will be brought up. A large attendance is requested,

DISSOLVED.—The firm of E. R. Fraser & Co. has been dissolved, Mr. T. J. Manahan retiring from the firm. Mr. Fraser continues the business, and he will be pleased to see all his old customers and hosts of new ones.

PASSENGERS.—The steamer Isabel, Captaid Reveley, arrived yesterday afternoon from Victoria, with the following passengers: W. Hearn, J. Patten, W. Carr, F. Adams, N. Cunningham, W. Whitfield and G. A. McLaughlin.

SPRANG A LEAK.—The bark General Fairchild, bound for Departure Bay, put into San Francisco on Saturday in a leaking condition. She left San Diego seventeen days ago, and after being at sea a short time sprang a leak, since which time the pump had been used several hours a day to keep the hold free. She discharged ballast and went on the dry dock at San Francisco Monday.

A HANDSOME CASKET—The casket for the remains of the late G. B. Montobio was furnished by Mr. J. Hilbert, and is one of the most handsome design and finish. It was trimmed with black cloth and draped with black silk velvet and black chenille fringe, gold and silver mountings, with raised mouldings and pannelled lid, Mr. Hilbert's stock of undertaking goods is extensive, and his establishment is a credit to the city.

ANOTHER GOLD FIND—Mr. P. McGhran exhibited yesterday a fine specimen of native gold. The nugget was worth at least $20, and was a beauty. Mr. McGhran is very reticent as to the locality which produced the specimen, but he says that it was found in the "crevice of a rock on Vancouver Island." A soon as he has located the claim, he will make its whereabouts known. Truly, some one ought to strike it rich.

TO SURVEY INDIAN RESERVES—Mr. E. Skinner, C. E., and party of seven white men and two Indians, went North last night on the steamer Amelia, to survey Indian Reserves. The party will leave Comox for Bute Inlet, and afterwards return to Malaspina, thence to Alert Bay, and possibly to Seymour Narrows. The party will be absent about seven or eight months. They have taken their own canoes on board the steamer and will use them in changing camp and to make short trips.

A HIGH OLD TIME—The watchers on the street last evening were rather amused and a trifle concerned, to see two young men in an advanced state of inebriation, one armed with an axe and another carrying a six foot saw, wending their way towards Wharf street, evidently with the intention of taking a trip to a northern logging camp. With the usual habit of drunken men, they each endeavored to help the other, and the betting was about even as to whether the one with the saw would get his work in first, or if the man with the axe would cleave his friend. When last seen they were safe.

TOO-LIPPY.—"That a young lady was heard to remark yesterday afternoon that tu-lip salve possessed wonderful curative power for a cold sore, as she had proved by experiment," etc,, etc.—Free Press.

On reading the above our genial medical friend from East Wellington observed that young ladies would come to the conclusion that the "Old Man" was getting tu-lip-y (too lippy). Our devil on hearing this pun was taken with clamps; our book-keeper fell off his chair, and the rest of our staff were utterly prostrated. We arose from our chair, wiped our brow, and walked into the open air, observing that it must be 115 degrees in the shade.

IMPROMPTU CONCERTS.—A number of young men, possessing, good, strong, musical voices, gave an impromtu concert of sacred music on Beacon Hill on Sunday The sweet notes mellowed by distance rose clear and sweet on the still night air, and the fortunate residents of that locality hope the boys will "do it some more" at an early date.—Colonist. The young men of Nanaimo often treat the inhabitants to an impromptu concert too, mostly in the "wee sma hours ayont the twal," and yet a grateful public does not come forward and ask them to "do it some more." The sacred music chiefly selected in Nanaimo is, Climbing up the Golden Stairs, or We Won't go Home till Morning; that may account for the lack of appreciation by the public.

DEATH OF G. B. MONTOBIO— Mr. G. B. Montobio, an old and respected resident of Victoria, died of heart disease, after a week's illness, at the Palace Hotel, in this city, yesterday morning at eight o'clock. Mr. Montobio was a native of Genoa, Italy, and came to this Province in 1858, from San Francisco, during the Cariboo gold excitement. After a stay of a few years in Cariboo, Mr. Montobio went to Victoria, where he engaged in the grocery business on the corner of Store and Fisgard streets. He was successful in the business which he followed, and retired from it in 1886. Mr. Montobio was a member of the Masonic order, and also of the B. C. Pioneer Society. The remains will be taken to Victoria this morning for interment. Mr. John Hilbert, the Undertaker, has the direction of the funeral, and will accompany the cortege to Victoria. The deceased was the father-in-law of Mr. Morrello, and leaves an estate estimated to be worth $100,000.

CORTEZ ISLAND.—W. Blaney who owns a logging camp on Cortez Island, arrived down from that place last night, lumbering operations are active. Mr. Blaney will shortly remove his camp to Reed Island, when he has secured valuable timber limits.

NO SABE.—There are some things which no fellow can understand, and the COURIER man realized this yesterday afternoon, when he observed two Chinamen trying to unravel the mysteries of the "Missing Link" puzzle. After eyeing it for some time one of them exclaimed, "Velly good; white man heap smart; beat Chinaman all holle. No sabe. Good-day."

THE COURTENAY RIVER BRIDGE.—A correspondent tells us that the bridge over the Courtenay river near Comox, is in the same old delapidated and disgraceful condition. He says that it was condemned three years ago, and since then instead of being rebuilt, has only been patched. Our correspondent states as a fact that the farmers and others in that vicinity are almost afraid to trust themselves with a wagon and team on the bridge.

THE NEW THEATRE.—Work on the excavation for Alderman Mahrer's new theatre is steadily progressing. The theatre will probably be opened on the first of July. It is stated that there are several companies, amateur and professional, who have signified a desire to do the grand opening act. When this building is completed Nanaimo can reasonably expect to receive visits from first-class theatrical troupes.

NEW STORE—Mr. Wm. Dunn, brother of Mr. Robert Dunn, of East Wellington, went up to Comox last night by the steamer Amelia, to open a clothing store at the Union Mines for Messrs. Davis & Beveridge, the enterprising clothiers of this city. He was accompanied by Mr. Beveridge, who will introduce him to his host of Comox friends. Mr. Dunn has a large stock of goods with him, and we wish him success in his new undertaking.

AN ACCIDENT—Mr. George Grandon, of Little Qualicum, had a rather unpleasant experience yesterday morning. He was engaged in loading fish oil in A. Mayer & Co's. delivery wagon on Hirst's wharf, when the horse commenced to back, and Mr. Grandon, wagon, oil and horse were precipitated down the bank, a distance of some twenty feet. Mr. Grandon was severely cut and bruised about the throat. His wounds were dressed by Dr. Praeger, and it is expected that he will be around again in a few days.

ANOTHER NEW INDUSTRY—Nanaimo is soon to have a full-fledged boot and shoe manufactory, so it is stated. About $80,000 are paid each year for foot wear in this city, and there is no reason why the venture should not be a success. We have every facility for manufacturing purposes and ought to offer more inducements for such, than any other town in the Province. Were the money paid for boots and shoes kept at home, it ought to support a pretty respectable factory. We may be somewhat conservative in Nanaimo, but we will eventually arrive at a due sense of the important part we are destined to play as a manufacturing centre for British Columbia.

VERY MATTER OF FACT.—One of the Indian canoes which are to be found there at any hour of the day or night, was tied yesterday at the city landing. In one end of the canoe was seated a young and attractive klootchman holding a "tenas" Siwash in her arms. The little dusky urchin, who could not have been more than 5 years old, seemed possessed of a Stanley-like love for exploring, and his mother finally allowed him to crawl along the bottom of the canoe. This was all very well, until the youngster took it into his head to look over the side, in doing which he lost his balance and shot down in the water like an experienced diver. On rising he did not yell, nor attempt to, but merely struck out "dog-fashion," keeping himself afloat until his mother hauled him into the canoe, wrapped her shawl around him, boxed his ears, and apparently dismissed him from her thoughts again as she stowed him away in the stern.—Colonist.

A NEW SAWMILL.—Mr. McAulay, son of Mr. W, J. McAulay, of the Victoria Lumber Company, is in town. It is stated that the object of his visit is to look over the situation in this city for the purpose of erecting a large sawmill. It is the intention of the company to erect a mill having a cutting capacity of 400,000 feet per day, either in this city or at Comox, and the chances are that Nanaimo will be selected as the site. This company has entered into a contract with Messrs. R. Dunsmuir & Sons, to supply them with 35,000,000 feet of lumber each year for a period of thirty years. The contract is a large one, and they will immediately proceed to erect, as already stated, a mill either here or at Comox and another at Esquimault. It is to be hoped that this city will be selected as the place for the new enterprise, and we believe it would be to the company's advantage to locate here.

A PANTHER SHOT.—Mr. W. Chappel, of Gabriola Island, shot an enormous panther on Monday night on that Island. Mr Chappel says he was proceeding along not thinking of dangerous animals, and with only a bunch of flowers in his hand, when he suddenly saw what he took to be a deer behind a log. A closer investigation revealed the fact that he and an enormous panther occupied that part of the country, and Mr. Chappel says he would have been better satisfied to have had the company of a gun and a friend. He then struck out for home and procured a rifle and also asked a friend to come too. They had some dogs in case the animal had "treed" or gone into the thick bush. On arriving at the place where the panther was last seen, the dogs were laid on and very soon the panther took refuge in a tree. The sportsmen fired at the animal three times, each time causing it to fall to the ground, when the dogs rushed at it and it would again scramble up a tree. The third time Mr. Chappel's large dog hung on to it and was hurled several feet up by the panther, They eventually killed it and brought the skin and head to this city and it was to be seen at the Nanaimo hotel last night. The panther measures over 9 feet from tip to tip and weighed 275 pounds. The animal Mr. Chappel shot is undoubtedly the one that has caused such depredation among the sheep on the island and the farmers will probably pass a vote of thanks to the plucky sportsmen.

CHEMAINUS NEWS.—The Victoria Lumber Company, which recently purchased the Chemainus sawmills, is making extensive repairs on them. The capacity of the mills will be largely increased, and improved machinery will be placed in the mills. Chemainus is already feeling the boom and increased activity is apparent on all sides.

SKINNER STREET.—Skinner street from Bastion to Commercial is receiving a coat of gravel at the hands of the street committee. It is gravel now, but when the rains descend, it will be a sea of mud. Has there not been some talk of macadamizing the streets? It would certainly be a great saving of money in the end, and the streets would be vastly improved.

OUR SCHOOL GROUNDS.—We urge upon our Board of School Trustees to take measures to adorn and beautify our school grounds with shrubbery and flowers, as well as trees. Flowers of the rarest varieties will grow with but little care or attention, and the study of botany—that most fascinating of sciences—will receive an added stimulus from the growing of flowers about the school house. Methods of budding, grafting and propogating from seeds and slips, all could be so pleasantly inculcated that the pupils would scarcely be conscious that they were really studying.—Standard.

What's the matter with Nanaimo acting on the above suggestion?

THE BLUE GROUSE.—The blue grouse are now to be heard in the tops of the lofty pines. As most people in Nanaimo know at this season of the year they are called "Hooters," owing to their making a peculiar hooting noise supposed to be their idea of a love song. This is the time of the year that the pot hunter gets his work in. Several persons have complained lately of the destruction of this valuable bird by reckless hunters. In the spring when the blue grouse commences nesting the male bird is peculiarly subject to slaughter as he persists in keeping up his hooting, even after several shots have been fired at him. It is the close season for deer, and night hunting is prohibited at any season, yet we were told only last week that deer are being slaughtered by that deadly process, on the line of the E. & N. R. R. Game is very much scarcer now than it was only a few years ago, and in a very short time, if pot-hunters of this type are not looked after, it will entirely disappear.

The Cigarette.

Says a cigarette drummer: "The consumption of cigarettes has fallen off greatly during the last few years. The house I used to represent used to have a large trade in all the popular brands of cigarettes. It still sells large quantities of them, but not more than 60 per cent of as many packages as a year ago. A great many persons who used to smoke cigarettes have quit doing so and are now smoking cigars. The result is that while the cigarette trade has decreased the cigar trade has increased. I don't know how to account for this state of facts, unless it is due to the onslaught made during the last two years by the press and pulpit upon the cigarette habit."—New York Tribune.
