HOT AFTER ANARCHISTS

Inflammatory Editorial Leads to the Arrest of Herr Most at New York.

Emma Goldman Will Probably Be Released Today.

New York, Sept. 12.—Johann Most, one of the most widely known of New York anarchists and editor of the "Freiheit," the organ of anarchists, was arrested tonight by Central office detectives Krauch and Frencisen. The arrest was made in a saloon. Herr Most objected volubly to the arrest, but to no purpose and he was locked up at police headquarters as a "suspicious person." Captain Titus refused to allow him to see any one or to make a statement. The captain declared he would not allow the prisoner to pose as a martyr. The complaint against him, which covers 5½ typewritten pages, is based on and quotes in full an editorial which Most printed in his paper on September 7.

It reads in part: "The greatest of all follies in the world is the belief that there can be a crime of any sort against despots and their accomplices. Such belief is in itself a crime. Despots are outlaws; they are in human shape what the tiger is among the beasts; to spare them is a crime. As despots make use of everything, treachery, poison, murder, so everything should be employed against them. Yes, the crime directed against them is not merely a right; it is also a duty of everyone who has the opportunity to carry it out and will be his glory if it is successful. Revolution is nothing but defense, murder as an instrument of defense is not merely allowed it is a duty towards society when it is directed against a professional. We know our enemies, we know them all and every where personally. There can be no absolute success if they are again spared. Whatever stands on the other side of the line which divides the camp of ruling possessors of power from that of the people has come under the ban, let the people carry out the sentence. We say, murder and murder. Save humanity by blood and steel, poison and dynamite."

After Most was locked up, Captain Titus displayed the editorial and said. "There is a place on North Brother island for those suffering from contagious diseases and other places for those who are insane and those murderously inclined and we believe we can find a place for men who publish such articles."

Most protested to the captain that he had committed no crime, and that all that had appeared in his paper was simply opinions in a new guise that had been printed and voiced thousands of times in the last fifty years. Herr Most's residence is in Brooklyn. The police records show he was arrested in 1886 for making inflammatory speeches in this city. Recorder Smythe sentenced him to one year's imprisonment and a fine of $500. He served his sentence at Blackwell's Island. In 1887, he was again arrested and charged with the cause of an unlawful assembly and inciting to violence. He was found guilty by Judge Cowing and sentenced to one year's imprisonment,. He appealed, but was not successful and served his time. In 1891 he was again arrested but not convicted. Captain Titus spent several hours at police headquarters today, which is contrary to his usual custom. When asked if he expected more anarchists to be brought in he said he did not know.

Buffalo, Sept. 12.—The district attorney here announced this afternoon that he had no evidence against Emma Goldman and that unless something turned up no requisition upon the State of Illinois would be made for her.

This does not mean that the bottom has dropped out of the conspiracy theory as some are disposed to hastily assume. It simply means that no evidence has yet been secured to connect her with the crime. If she is released, she will be kept under the closest surveillance and it will be

Continued on Fourth Page.

THE WORST IS NOW FEARED

Shortly After Two O'clock This Morning President McKinley Took a Turn for the Worse and It Was Expected That He Would Drop Off at Any Moment.---Heart Trouble Gave Attending Physicians Gravest Fears.---Scenes at the Bedside.

The following bulletins were received by The Miner this morning:

2.40 a. m., Sept. 13.—Drs. Mynter and Mann have just come to the Milburn House. It was stated that their call had no special significance although it was known that they were sent for. The summoning of the physicians at that hour was regarded as significant but no statement as to its purpose was obtainable.

2.45 a. m.—Abner McKinley, brother of the President, was called to the house at 2.40. He came by carriage and pressed into the house at once. A messenger was dispatched at the same time to summon two absent nurses. The impression is created that the President has taken a serious turn for the worse, but an expression from those within the house was unobtainable.

2.58 a. m.—President McKinley experienced a sinking spell shortly after 2 o'clock. The physicians are administering restoratives to him with the hope of reviving him.

A general call has gone out to the physicians and the members of the cabinet now in the city. Dr. Parke reached the house at 2.50 and shortly after him came Secretaries Hitchcock and Wilson.

The Associated Press has been authorized to say that President McKinley is critically ill.

At 3 o'clock all of the physicians were gathered at the bedside of the President. It was stated that digitalis was being administered to the President.

Several messengers were hurried from the house and it was understood that they carried dispatches to the resident members of the cabinet and the kin of the President.

Additional lights burn in the Milburn home and the household is astir.

3.10 a. m.—Beyond the statement that the President is critically ill no further announcement has been authorized, but it is manifest that the wounded President faces a grave and menacing crisis. Alarm can be ready in the actions of those to whose nursing and care he is committed. The scene about the house is a dramatic one. Attendants can be seen hurrying about behind the unshaded and brightly lighted windows and messengers come and go hastily through the guarded door. Outside half a hundred newspaper correspondents are assembled awaiting a word that may carry sorrow to a nation.

3.16 a. m.—It is understood that aside from digitalis no other restoratives have been used.

3.25.—The following bulletin was issued by the President's physicians at 2.50 a. m.: The President's condition is very serious and gives rise to the gravest apprehensions. His bowels have moved well, but his heart does not respond properly to stimulation. He is conscious. The skin is warm and the pulse small, regular, easily compressible and 126; respiration 30, temperature 100.

3.35 a. m.—Secretaries Wilson and Hitchcock, Abner McKinley, Dr. Baer and Private Secretary Cortelyou were all assembled in the main drawing room and it was understood that none of them had to that time been called to the sick room. The gravest anxiety was pictured on their face.

The President is so weak that he does not appareatly suffer much, strychnine, digitalis and other powerful heart stimulants do not produce effects and the worst is feared. His death might occur at any time from heart exhaustion. Mrs. McKinley has not yet been informed of the change for the worse.

3.40 a. m.--The physicians have come down stairs except Drs. Rixey, Mann and Stockton and carriages are arriving at the residence at a gallop.

3.42 a. m.—Secretary Cortelyou says he does not consider the President in extremis but that the worst is feared from weakness of the heart.

3.55 a. m.—The physicians were still assembled at the bedside of the President. They were administering digitalis and strychnine.

The physicians looked for a rally but up to that time no word of hope came from them to those who were in waiting. None of the President's family or members of the Cabinet have beenadmitted to the bedside.

4 a. m —No word of encouragement has come from the Milburn house.

4.02 a. m.—Dr. Mann says the President has rallied somewhat.

4.03 a. m.—Drs. Mann and Mynter left the house at 4 o'clock. The latter said: "The President is in better condition than he was an hour ago. We have not given up hope. He has raillied somewhat and we are going home."

Dr. Mann also said that the President had rallied but both declined to go into details concerning the character of the heart stimulants administered or the cause of the collapse.

4.17 a. m.—The rally at 4 o'clock was very slight. At 4.15 Secretary Cortelyou and Mr. Milburn emerged from the house and walked up the sidewalk inside the roped enclosure. Secretary Corteyou said the President was resting, that four physicians were in the sick chamber but he offered little in the way of encouragement.

Milburn House, Buffalo, Sept. 12.—The following bulletin was issued by the physicians at 12 oclock (midnight): "All unfavorable symptoms in the President's condition have improved since the last bulletin. Pulse, 120. Temperature, 100.2. (Sgd.) P. M. Rixey, Eugene Wasdin, Chas. G. Stockton, Geo. B. Cortelyou, Secretary to the President"

BAD NEWS EXPLAINED.

Milburn House, Buffalo, Sept. 12.—The slight alarm which was felt when the afternoon bulletin appeared was increased when the physicians assembled for their evening consultation. The cheeriness of the morning was succeeded by apprehension, and a dreary rain which began to fall added to the gloomy feeling which prevailed. The bulletin was personally delivered to the members of the press by Secretary Cortelyou, and the frankness with which the physicians announced to them that the President's condition was not so good, disquieting as it was, was a relief. It was explained to the Associated Press that the trouble which existed is due to the fact that the food taken this morning had not agreed with the President. It had not been disposed of, and the rise in his pulse was attributed to that fact. It was stated quite positively that the consulting physicians did not believe that the failure to digest the food was due to the condition of the wounds in the sides of the stomach, which were believed to be practically healed and so pronounced by Dr. McBurney and his associates. The fact that the food would not agree with the President could not have been anticipated, so it was stated, but as soon as it was found that it had not, the administration of food by the mouth was discontinued. The problem which now confronts the physicians is to dispose of this undigested food in the stomach. Dr. Mann, who is considered chief surgeon in the absence of Dr. McBurney, is confident that the undigested food will pass away during the night. The fatigue of the patient during the afternoon continued during the evening and several times the President murmured, "I'm so tired."

Dr. Charles Stockton, who has a fine reputation as a general practitioner here, was called in at the evening conference. The problem now is one for the physicians rather than the surgeons. After the bulletin was issued two of the physicians slipped away through the side entrance, thus escaping the newspaper men. It was understood that Dr. Mann and Dr Stockton remained at the Milburn house.

Milburn House, Buffalo, Sept. 12.—The president's condition continues unfavorable and the alarm is increasing rather than diminishing. A bulletin is expected shortly.

Milburn House, Buffalo, Sept. 12.—The following bulletin was issued by the physicians of the President at 9.30 a. m.: The President has spent a quiet and restful night and has taken much nourishment. He feels better this morning than at any time. He has taken a little solid food this morning and relished it. Pulse, 120. Temperature, 100.2 degrees.

Milburn House, Buffalo, Sept. 12.—The following bulletin was issued by the President's physicians at 6 30 p. m.: "The President's condition this evening is not quite so good, his food not agreeing with him and has been stopped. Excretion has not yet been properly established. The kidneys are acting well. His pulse is not satisfactory, but has improved in the last two hours. The wound is doing well. He is resting quietly. Temperature 100.2. Pule, 128. (Sgd.) D. M Rixey, M. D. Mann, Rosewell Parke, Herman Mynter, Eugene Wasdin, Chas G. Stockton, Geo. B. Cortelyou, Secretary to the President.

HOW THE NEWS CAME.

It was half past twelve this morning when the first alarming bulletin was brought to The Miner office by Charley Milward. Immediatey after "30 on A. P.," which means the last of the regular news service, came in and Vancouver ticked "Good night," to the night operator, O. T. Skerratt of the C. P. R. But before the telegragraph office was closed more alarming bulletins commenced to come in so The Miner immediately made arrangements to have the Vancouver wire kept open all night. The Miner's night men were kept at their posts to put into type the latest news from the bedside that holds a nation's attention.

The Miner will post the latest news at the office today and if the President should pass away an extra will immediately be issued announcing it.

SHAMROCK IN DANGER

Nearly Collides With a Steam Yacht and Narrowly Escapes Injury.

Then Runs Into a Big Squall But Successfully Outrides the Storm.

New York, Sept. 12.—The Shamrock went out for a trial spin today and got into two ticklish positions before returning to her anchorage. The first was a narrow escape from collision with the steam yacht Giralda, and the second was a ten minutes experience with a forty-mile squall. The challenger had gone out past Sandy Hook at a 12-knot clip, striking several small squalls which put her ice rail under water. She had eased sheets to starboard for a reach home when the Giralda's captain, evidently not realizing her great speed, attempted to cross her bow. Captain Sycamore of the Shamrock was unable to keep the yacht off because of the Press tug Unity under her lee. After he cleared the latter the Giralda was right under his lee starboard bow. To clear her he almost had to gibe the yacht. The men jumped for the preventer backstays to slacken them, the main boom was already swinging over, when the Giranda under full speed fairly crossed the Shamrock's bow and the danger was over. Not more than fifty feet separated them and if the Shamrock had hit her she would undoubtedly have sank her. The new jib was the broken out and the Shamrock headed seaward again. On her way back a heavy squall struck the Shamrock off the Hook. For ten minutes the wind blew a forty-mile gait and the yacht heeled over to it in an alarming manner. The stay sail was quickly lowered and the yacht heaving to, outrode the blow in safety, the big mast standing the strain wonderfully well. Before she was really safe, however, she came dangerously near running aground inside buoy No. 6. Sir Thomas Lipton was an anxious observer of this affair. The yacht was taken in tow immediately afterwards and hauled back to her anchorage in Sandy Hook Bay.

SHOWS FREE GOLD.

(SPECIAL TO THE MINER.)

Vancouver, B. C., Sept. 12.—Mr. Boley who owns properties near the Fire Mountain Mines in Harrison district has never lost faith in the country though thousands of dollars have been dropped in the vicinity by capitalists who have vainly attempted to find gold in paying quantities. Mr. Boley says that he has been quietly working away on his property since the Fire Mountain claims were temporarily abandoned and has got a depth of 200 feet on his five foot vein and every foot of the way he has found visible free gold across the face of the ledge.

AND THERE YOU ARE.

Rossland, B. C., Sept. 12.—Vice-President Macdonald of the Rossland Miners' Union, has made an affidavit that at no time did he make any statement that might be construed that he believed the union was in danger of losing the strike under way here. To this the morning Miner retorts with two affidavits to the effect that Mr. Macdonald told Frank Vaughan, chief of police, that the game was up so far as the union was concerned but that he did not want the boys to go back to work at once.

GOV'T. WANTS FAST SHIPS.

Halifax, N. S., Sept. 12—Hon. W. S. Fielding in an interview here today gives the impression that the Dominion Government is inclined to assist in steel ship building in Canada and intimates the desire of the Government to have fast Atlantic liners built in Canada should the project become an accomplished fact which he thinks is within the possibilities of the near future. He would, however, not disclose the secrets of the Government in this connection, any more than by saying that the Canadian public would have no reason to feel ashamed of the service should it be inaugurated.

STILL TALK OF PEACE.

Pittsburg, Pa., Sept. 12 —The air is again full of rumors today that the strike had been settled. The absence of President Shaffer from the Amalgamated headquarters all day up to 4 p. m. lent color to the report. By many Mr. Shaffer was supposed to be in New York in conference with President Schwab and others conceed that he was in conference with the American Tin Plate officials discussing a proposition to call the strike off so far as that company was concerned. When President Shaffer finally appeared he dispelled all hopes by saying there was no change in the situation. Immediately after arriving at the office Mr. Shaffer called the National officers to his room for a conference which lasted 40 minutes It was impossible to learn what the talk was about. It was said at Amalgamated headquarters today that the steel combine has refused to entertain any further propositions of settlement from the Amalgamated Association.

SUICIDE AT MONTREAL.

Montreal, Sept. 12.—H. A. Allan was today elected President of the Montreal Telegraph Co., succeeding his late father, Andrew Allan.

Miss Laplante, a trained nurse, shot herself at her boarding house on St. Catherine street this afternoon. The bullet entered the left side and so far the doctors are unable to extract it. She will probably die. No cause is known.

HIS LIGHT WENT OUT.

Father Point, Sept. 12.—The S. S. Lake Champlain, Captain Stewart, Liverpool for Montreal, arrived, and reports the death of the lighthouse keeper at Belle Isle last Sunday.

MUST PAY UP.

Hamilton, Sept. 12.—Members of C battery held a meeting last night and decided to refuse to go to Hamilton to receive medals from the Duke of York unless the Government grants them their back pay.

DROVE THE BOERS OUT.

Mafeking, Cape Colony, Sept. 12.—The British casualties in the Great Maries valley, September 6 and 8, when General Methuen was engaged with Vantander and Delarey, driving the Boers from a strong position was 25 killed and 30 wounded, including Captain Croft.

FIVE KILLED.

New York, Sept. 12.—Three explosions occurred in the works of the American Schultz Powder company in Oakland, N. J., today. Five men were killed and three fatally injured. One man had his head completely blown off.

KILLED ON THE TRACK.

(SPECIAL TO THE MINER.)

Grand Forks, B. C., Sept. 12.—A C. P. R. westbound freight last night ran over and killed an unknown man between here and Cascade. The victim had evidently fallen asleep on the track.

FULL PRECAUTIONS.

Montreal, Sept. 12.—The police here are taking extraordinary precaution to protect the Duke and Duchess of York on the occasion of the approaching visit. Tonight seventy-five warrants were issued in blank on which the police will arrest every suspect they come across. A remand of ten days will follow their appearance in court so that they will be kept entirely out of the way.

A BIG BOAT.

Collingwood, Ont., Sept. 12.—Seven thousand people witnessed the launching of the Heronic, the largest boat on Lake Huron, and the largest Canadian built boat ever launched. It is owned by the Northwest Transportation Co., of Sarnia. It is 325 feet over all and has a capacity of 3,100 tons.

OLDEST INHABITANT DEAD.

Sydney, N. S., Sept. 12.—Wm. Woodhill the oldest inhabitant in Sydney is dead, aged 93 years.

A CHANGE IN THE TUNE.

President MKinley has ever been the strong advocate of a high protective tariff and the bill which he introduced when he was in Congress in 1890, which was framed in the interest of the protectioninsts, and which bore his name, did more than any other measure which he advocated to make him twice president of the United States. The Republican party, too, owes its success at the polls to its advocacy of a high protective tariff and the tariff cry has served to rally the electors to its standard often when other issues failed so to do. It is notable that there is a change in the policy of the republican party in regard to the tariff, and now its members are in favor of reciprocity. This was plainly shown in the speech which Mr. McKinley delivered at the Pan-American Exposition on September 4th the dominant note of which was in favor of the adoption of reciprocity as a policy. He stated that isolation on the part of the United States was no longer possible or desirable and that no nation can longer be indifferent to any other. So far as the United States was concerned the period of exclusion was past. A policy of good will and friendly trade relations would have the effect, he thought, of preventing reprisals. It was his opinion that measures of reprisal are not in harmony with the spirit of the times and that reciprocal treaties are. He held that some of the tariffs of the United States are no longer needed for revenue nor to protect and foster American industries. From now on the policy with foreign countries should be more of the give and take order with advantages on both sides.

The American people, he said, must not think that they could forever sell everything and buy but little in return. "We should take," said Mr. McKinley, "from our customers such of their products as we can consume with out harm to our industries and labor. What we produce beyond our domestic consumption must have a vent abroad. The excess must be relieved through a foreign outlet and we should sell everywhere that we can, and buy wherever the buying will enlarge our sales and thereby make a greater demand for home labor."

This change in the policy of the republican party should be one of great benefit to Canada. We buy considerably more from the United States than they purchase from us and their tariffs have discriminated against this country. If a reciprocal policy is put into effect by the dominant party in the United States, as foreshadowed in the speech of Mr. McKinley, Canada could meet the United States half way, provided the advantage which the Dominion would gain would be equal to the concessions made to the Americans.

An equitable tariff arrangement, we believe, would work to the advantage of both countries, and would be of more benefit to British Columbia, Manitoba and the Northwest territories than it would be to the east. Canada heretofore has made all the advances in the direction of reciprocal overtures, but they were not received in the proper spirit by the protectionists in the Republic. Now, however, that the high tariff shoe is pinching the American foot the advances should come from the south of the line and when they do we will meet them half way.

HENRY BRATNBOER.

Considerable curiosity has been maifested of late as to who the Henry Bratnober is, who has been so frequently mentioned in the dispatches from Rossland, as being the representative of the London syndicate which recently secured control of the Le Roi.

Mr. Bratnober is a native of Germany, aged about 53 years. His parents emigrated from Germany to the United States when he was a child and settled in Galena, Wis. When a lad of 13 years he entered the union army and served through the war of the rebellion. When peace was declared and he was mustered out he came west and followed mining in Montana and Idaho and elsewhere, working both in placer and lode mines, where he gained much valuable experience. In 1882 he went to London in connection with the sale of the Drum Lummon mine of Marysville, Mont., to an English syndicate. It was here that he formed acquaintences which subsequently proved valuable to him. Two or three years afterwards when the Drum Lummon was in bad shape through mismanagement he was made its superintendent. This was the first good opportunity which came to him to show his capacity, and he took full advantage of it and soon had the property, for the first time, on a dividend-paying basis. For four or five years he held the position of superintendent of the Drum Lummon. In 1890 he formed the Mines Company, Limited, in London, for the purpose of handling mining properties and was the leading spirit in the enterprise. The Mines Company floated several companies and the most important of these were the Elkhorn of Montana, which paid a number of dividends, and the De Lamar of De Lamar, Idaho, which proved a very profitable venture.

Subsequently Mr. Bratnober became the confidential agent and mining expert of the Exploration Company of London, which is controlled by the Rothschilds and is said to be the strongest mining syndicate in the world. Since 1895 he has made his headquarters principally in San Francisco and has travelled in every quarter of the globe examining mining properties and making investments for his company. Mr. Bratnober is a good judge of a mine, is considered one of the most level headed promoters and enjoys the full confidence of the management of the Exploration Syndicate. By fortunate mining investments he has accumulated a fortune of between $3,000,000 and $4,000,000. Although he began life at the foot of the ladder he has forced his way to the top of a difficult profession by the sheer force of his native ability. It would be fortunate for the mining interests of British Columblia if Mr. Bratnober could be induced to favor investments here as it would result in a large influx of British capital, as he has behind him not only the Exploration Syndicate but also enjoys the confidence of a number of the larger London mining promoters. In short the better element of mining investors in London will follow wherever he will lead.

EDITORIAL NOTES.

The Slocan seems to be recovering from the many blows it has sustained in the past, and having had all the complaints a mining section is heir to it should now blossom into an era of prosperity that will give many of us an opportunity once more to feast our eyes upon a bank account before we hand our tickets to St. Peter, says the New Denver Ledge.

The people of Washington are displeased with the wanton waste of salmon by the individuals and companies owning the fish traps and their disregard of the rights of others. The papers there declare that the fish traps will receive some needed attention at the hands of the next Washington legislature. In British Columbia some of the canners are agitating in favor of traps, but it is not believed that the legislature will allow devices, which are so destructive of fish.

A Boer pastor writing over his own signature from Holland, Mich., to the New York Sun, illustrates the unconquerable ignorance of his people, says the Toronto Evening Telegram. The pastor arouses United States hatred of Britain with a few references to the employment of Indians to scalp American patriots in 1776. One falsehood is piled on top of another until the edifice of errors is crowned with the deliberate assertion that Boer patients are beaten black and blue with a leather strap in the British hospital at Johannesburg. When educated men like this refugee pastor can mistake their imaginings for truth, how can the unlettered burghers escape from falling into the ditch at the heels of such blind leaders of the blind?

MINING

Development work at the Queen Bess has placed that property in a most flattering condition, and there is every indication that within the next few months it will assume a position as one of the most extensive and richest producers in the Slocan, says the New Denver Ledge. Situated in the heart of this district, the Queen Bess has the distinction of being worked by English capital. The property was opened up some three years ago, when it was operated by the Dominion Development & Agency company. Since then the Duncan Mines, Limited, have assumed control, and the Queen Bess Proprietary Co. is a subsidiary to that undertaking.

The mine paid several dividends until it was decided to expend the whole proceeds in development, with a view to reaping enhanced benefits later. A deep tunnel was commenced in September last, and since then only enough ore has been taken from the upper levels to defray the cost of exploration work. A three drill compressor plant has been put in to facilitate driving, together with a large ventilating plant operated by water power. This main tunnel is now in 1,700 feet, and is seven feet by nine feet in the clear. A shaft was also started from the lowest of the previous tunnels, and this has been sunk 22 feet on the vein. The lode has been opened up at two stations below No. 5, that is Nos. 6 and 7, 100 and 200 feet respectively below No. 5. A raise has now been started from the main tunnel to connect with No. 7. This will be 185 feet long, and No. 8 station will be located half way up the raise. The lode has been proved at Nos. 6 and 7, and ore is being extracted at the present time. The lode at the level of the main tunnel has not yet been completed, and the vein in the lower level will then be explored. All ore from the upper levels will be handled through the main tunnel, thus expediting the work and reducing the cost of mining.

At the record office yesterday the following transactions were recorded: Locations, Forrest, about half a mile from the mouth of Porcupine creek, by D. E. Grobe; Summit, near the Forrest claim, by Ovid Poulin; Oregon, on Porcupine creek, by Ovid Poulin; Mayflower, on right fork of Sheep creek, by Ada Schwinke; Ida S., on right fork of Sheep creek, by W. Danielson; Lost Mine, on right fork of Sheep creek, by J. H. Benson; Vetta Tyler Fractional, near Craigtown, on north fork of Salmon river, by Paul Bonnett; Napoleon Bonaparte, near Craigtown, by Paul Bonnett; Duncan, at Craigtown, by Alexander McDonald; Myrtle, near Craigtown, by F. Coryell. Certificates of work were granted to Louis Tallifer on Joint Fractional and Champlain; to J. H. Taylor, on Alhambra, Marguerite; to J. F. Macfarlane on Aurora Fractional; to N. F. Town send on Ino; to J. Love on Rainbow; to A. McDonald on Promise. The following declaration was recorded by W. B. Townsend, acting as agent for J. W. Thompson stating that one John Allen has no F. M. C. for the current year and has forfeited his interests in all mineral claims, and requesting that the interest held by him in the Allen mineral claim be recorded in the name of the co-owner J. W. Thompson.

D. Wolsey returned this week from doing assessments on the claims in which F. McCarty is interested in Ground Hog Basin and on Camp and Graham creek slopes, says the Kootenay Mail of Revelstoke. He brought down some of the finest samples of ore that have been taken from the Big Bend. These show free gold, silver ores, galena and pyrrhite. This is the first occasion we believe in which silver lead ores have been found in place in that locality, but the discovery is the more important in that it reveals a body of pyrrhite ore in place. For some years boulders of this ore have been found in the wash on Raymond Allen's placer claim on the Columbia river, and Mr. Allen claims this to be the wash of the old channel of Camp creek. The country has been explored to endeavor to locate the ledge from which this ore has been derived but so far without success. The discovery made on Mr. McCarty's claims may prove the solution, as it was on a claim on the Camp creek slope that the ore was discovered.

Yesterday the first payment was made on a bond of the Iron Horse, Yellow Pine, Atlantic Cable, Comstock and Mayflower in the Osoyoos district, from Thomas Curry and associates of Beaverton, B. C., to J. B. Tierney & Co., of Nelson. The amount paid yesterday was $1,000, the balance of $49,000 to be paid in installments each three months for two years. The property comprised four claims, through which a 30-foot ledge has been traced by open cuts. On the dump at present are four carloads of ore and it is intended to commence shipments immediately. T. Curry, who will remain with the company to attend to the development of the property left for Beaverton yesterday, near which point the group is situated. The ore will be teemed forty-five miles to Midway and then sent to the Granby smelter at Grand Forks. It is a dry ore, carrying values in gold and silver.

The steamer Kokanee yesterday brought down a carload of ore from the Little May group of claims near Ainsworth, the property of McLean Bros. of Ainsworth. The property was worked some years ago by the Lade brothers, who had it under bond for a time, when a shipment of five tons was made to the smelter at Pilot Bay, with which the Lades were then connected. With the closing of the smelter the bond on the group was thrown up, and the property has been idle until the former owners took hold of it again at the opening of the present season. The ore is dry, carrying good values in silver. The present shipment was sent to the Trail smelter over the C. P. R. from Nelson.

In the latest Grand Forks Gazette a notice is inserted that Ernest Mansfield and two business men of Nelson have located sixty-five square miles of coal lands north of Grand Forks. The reports from experts who have examined the property are of the most promising nature. With the taking up of this section practically all the coal lands in that district are now located. The portion taken adjoins twenty-five miles of lands belonging to the Granby smelter.

The mine manager of the Hall Mines cabled to London in the latter part of August as follows: "On No. 7 level south vein, east drift from the raise, six feet of rich ore has been struck."

The International yesterday brought down two carloads of ore from the Rambler Cariboo mine, which were shipped from Five Mile Point to the Selby smelter at San Francisco.

During last month the 80 stamps at the Ymir mill ran 729 hours. Estimated profit on operating is $26,000.

Have you seen Perle's Raincoats made in Serge, Worsted and Tweed. Every garment guaranteed. KERR & CO.

UNION ELECTS OFFICERS.

Phoenix, Sept. 11.—At the last regular meeting of the Phoenix Miners' Union, the following officers were elected: President, Henry Heidman; Vice-President, James Carson; Financial Secretary, John Riordan; Treasurer, John Swanson; Recording Secretary, Robert Carson; Assistant Recording Secretary, Ed O'Brien; Conductor, F. Inglis; Warden, Neil McBeath.

Have you used healthful Hygenic Baking Powder, the latest discovery in chemistry?

SERVES HIM RIGHT.

Victoria, B. C., Sept. 12.—The coroner's jury this morning found Eugene Brooks, a Zionite elder, and John Rogers, a clerk in The Hudson's Bay fur department, guilt of man slaughter, because they did not provide Roger's child, who was suffering with diptheria, with medical treatment, the child dying. Brooks offered prayers for the child's recovery. A second child also died and an inquest on it will also be held. This is the second time that Brooks has been committed for manslaughter, the previous case being exactly similar, but the Supreme Court judge let him off on a technicality. The Attorney-general's department has taken the matter up.

TO PICKLE SALMON.

Vancouver, Sept. 12.—A new industry is being established here by the B. C. Fish company, John Martin of the wholesale grocery firm of Martin & Robertson being president. They propose to pickle salmon and other fish whole by special process which enables them to put a fish on the market six months old in appearance and feel almost the same as a fresh fish just caught. They are erecting large establishments on Portier's Island and on the Skeena River. The fish will be pickled in bottles and jars as well as pickled whole. The success of the industry is already assured as large orders have been placed from samples in Scotland and England.

Hygienic BAKING POWDER

A TWENTY CENTURY DISCOVERY.

NO ALUM

Can be had from any Wholesale Grocers in British Columbia.

CROSSING THE LINE.
(SPECIAL TO THE MINER.)

Vancover, B. C., Sept. 12.—Colonel White of the U. S. Immigration department stated that Japs and Chinese returning to the States presumably from their labors on the Fraser are making things lively for him on the border. No arrests of importance have been made however. Opium smuggling still continues, but it is believed, on a small scale. The Chinese who carry on this trade make very little out of it, but seem to prefer to run the risks in connection with the illigitimate trade in the hope of making a trifle more than by conducting their business legitimately.

A POOR MILLIONAIRE

Lately starved in London because he could not digest his food. Early use of Dr. King's New Life Pills would have saved him. They strengthen the stomach, aid digestion, promote assimilation, improve appetite. Price 25c. Money back if not satisfied. Sold by Canada Drug & Book Co.

Perle's Waterproofs on display at KERR & CO.'S.

Wall Paper Remnants

We have on sale for a few days a line of Remnants of Wall Papers. The enormous sale of our well known WALL PAPERS has left us with a few odds and ends that we wish to clear out. The lengths vary from 2 to 6 Double Rolls, quite sufficient for a large as well as a small room. The prices range from 15c. per bundle up, but while the prices are low the grade of our WALL PAPER REMNANTS is as good as ever.

THOMSON STATIONERY Co. Ltd

NELSON. B. C.

Pianos to Rent at $7 per month.

THE CITY

The committee of the Nelson Operatic Society will meet at the office of Dr. LaBau at 8 o'clock this evening.

There was no session of chambers yesterday owing to the absence of Judge Forin, who has been out of the city for the last few days.

The Salvation Army band, fourteen strong, leaves for Spokane this morning, and will play at the fair at Spokane for the next four days.

Since last Sunday there has been a foot of snow on the prairies and foothills between Pincher creek and McLeod, immediately east of the Crow's Nest Pass.

The tug Ymir has been thoroughly overhauled and refitted at the Nelson yards, and will commence towing freight barges again from Kootenay Landing to Nelson.

Despite the bad weather of the past few days several good strings of trout have been landed lately near Nelson. Yesterday a handsome pound and a half trout besides several smaller fish were caught by a man fishing at the end of the city wharf, raw beef being the bait used.

The alterations and repairs on Barge 16, which has been up on the ways at the shipyards for the last six weeks are nearly completed, and it will be ready for commission by the end of the week. Besides repainting and caulking, the sides of the barge have been heavily ironed, to guard against ice on the lake next winter.

On Tuesday evening next there will be an exhibition of Tissot's "Life of Christ," pictures at the Opera House, together with some good singing by the Emerald Duet. These pictures are said by all who have had the privilege of seeing them to be exceptionally fine as reproduced by the powerful limelight which is used. The entertainment is under the auspices of the Epworth League of the Methodist church.

F. S. Forrest, as superintendent of the Nelson & Fort Sheppard, Spokane Falls & Northern and Red Mountain railways, is in the city looking after railway affairs. He stated last evening that a buffet car had been sent for and was now on its way from the east. Just as soon as it arrives it will be placed in service between Nelson and Spokane. One buffet car is now run between Spokane and Northport. The company, he says, intends to replace the light 56 pound rails with 80 pound rails for a distance of 17 miles between Northport and Rossland. The ore is carried over this portion of the road from the Rossland mines to the smelter at Northport and the lighter steel is not heavy enough for the strain of such heavy traffic. Mr. Forrest leaves today for Spokane.

PASTY FOOD

Too Commonly Used.

The use of pasty cereals is not advisable. A physician says, "Pasty cereals are very indigestible and a bad thing for the stomach, causing a depressed feeling and quite a train of disorders, particularly of the intestines and nerves.

Cereals, such as wheat and oats, can be cooked long enough and well enough to fit them for human use but the ordinary way of cooking leaves them in a pasty condition."

A gentleman from Evansville, Ind., whose name can be secured upon application to the Postum Cereal Co., Ltd., Battle Creek, Mich., says: "My physicians prohibited the use of oats and wheat for I was in a bad condition physically, with pronounced dyspepsia. He said the heavy paste was indigestable but that Grape-Nuts, being a thoroughly cooked food and cooked in such a manner as to change the starch into grape-sugar, could be easily digested. I have become very fond indeed of Grape-Nuts and all the uncomfortable feelings have disappeared. I have gained nearly twelve pounds in weight and none of the distressed, full feeling after my meals that I had formerly. Grape-Nuts Food has done the work."

A concert and ice cream social in aid of the band was given last evening by the Salvation Army at the barracks.

The Bodega saloon yesterday changed hands being sold to Messrs. Davison and Walmsley by W. G. Robinson. The consideration was $6,000. Mr. Davison was formerly of the California Wine Company and Mr. Walmsley is part proprietor of the Gluepot saloon.

Five small boys have been summoned to appear at this morning's session of the police court to answer to the charge of having stolen property in their possession. A large number of sacks had been stolen from W Colbrick, of the Hume Addition, and the police traced them to the boys from whom they were all recovered.

A deal was closed yesterday whereby R. H. Williams, of the Nelson Transfer Company, purchased the business, goodwill and fixtures of the Pacific Transfer Co., from George Ferguson, for a consideration of $3,500. The stock comprises twelve head of horses and a number of wagons, busses and cabs, which will be removed to the premises of the Nelson Transfer Co. Mr. Ferguson will take a position with the purchasing company.

At the meeting of the license commissioners for Nelson district yesterday the application of James Anderson for a hotel license at Erie was refused, owing to the building not having been erected according to rules Anderson had not been aware of the requirements necessary and had gone back to have his building altered to meet them, and has also entered another application for a license which will come up at the next meeting of the board.

There will be a meeting of the Rocky Mountain Rangers and the Rifle association this evening in the armory. The subject to be brought before the rangers will be the proposed visit to Victoria for the purpose of participating in the ceremonies attendant upon the visit there of the Duke and Duchess of York. The members of the Rifle Association will discuss matters pertinent to their organization, including the arrangement of the datos for future target practise. Capt. Macdonald requests a full attendance of the members of the Rocky Mountain Rangers.

The dog poisoner, after a short period of rest, has started his work again. Yesterday morning about 9 o'clock a beautiful English setter dog was playing with a number of children on Silica St., near Stanley, when the animal was taken with convulsions and died. Before this poisoning is finished there is every probability that some dog in its death struggles will badly injure children with which it may be at the time. It is to be hoped that before this occurs the one responsible for the death of the large number of valuable canines that have been poisoned this season in Nelson will be caught and full justice dealt out to him.

Loose photos get damaged; Queen Studio will frame them.

PERSONAL

Mrs. J. M. Bulger left for Spokane yesterday for a week's visit.

Captain Fitzstubbs leaves this morning for Vancouver and Victoria.

Kirby Douglas who has been east visiting his relatives at Hamilton, Ont., returned to Nelson yesterday.

L. E. Beck, foreman of the Eva mine, in the Lardeau, and Mrs. Beck are in the city on a visit and will remain here for several days.

Mr. Thomas Curry, of Beaverton, B C., who has been in the city for a couple of days attending to a mining deal, left yesterday for the Boundary.

J. C. Eaton and wife of San Francisco, are guests at the Phair. Mr. Eaton was one of the original locators of the Whitewater mine out of which he made a large sum of money.

G. Ferguson who yesterday sold out his interest in the Pacific Transfer Co. had in the year and a half he was running the business worked up a good steady trade and made many friends in town.

William Gill, inspector of inland revenue for the province, and J. G Miller, inland revenue inspector at Vancouver, are at the Phair. They are making a tour of inspection of the inland revenue districts of the province.

AT THE HOTELS.

Children's Reefers and Fall Ulsters at KERR & CO'S.

TO FORM A PRESS ASSOCIATION.

A meeting of representatives of the press for the purpose of forming a press association will be held at Halcyon Hot Springs on Monday, September 30. The congress, the announcement states, will last from Saturday, September 28th till Tuesday, October 1st. The invitations to attend the meeting are being sent out by Thomas McNaught.

The latest styles and newest materials in Children's Ready-to-Wear Coats for fall and winter at KERR & CO.'S.

MAGNIER ARRESTED.

Absconding Waneta Express Agent Captured at Vancouver.

Vancouver, B. C., Sept. 12.—W. J. G. Magnier, Nelson & Fort Sheppard railroad agent at Waneta, has been placed under arrest at Vancouver and will be brought to Nelson, B. C., for trial. He is charged with the offence of stealing $900, the amount of a payment by Jesse Coulter, manager of the Second Relief mine, on account of import duties on machinery brought in from Spokane. Magnier decamped from Waneta on Sunday last and was arrested this morning.

Magnier, besides being ticket agent for the Nelson & Fort Sheppard railway, was also express agent and customs broker. On Sunday as express agent he received and signed for the parcel of money addressed to "W. J. G. Magnier, customs broker," and then signed for it a second time in his capacity as broker. The money thus was stolen from the Second Relief Mining Co., and not from the express company, which would give him a longer time in which to escape, as it would not be discovered as quickly as had it been taken as express agent. It is not known as yet how his other accounts stand, but the railway company immediately on receipt of the news sent up another man from Spokane to replace him and examine the books. He is the third agent to be situated at Waneta since December last, both his predecessors resigning their positions after a few month's work the post not being regarded as a very desirable one.

When Magnier was in Nelson he was asked as to how he liked his position which he had then only held a few weeks, and he replied that he did not care for it and did not expect to stay long. As he took the next train for the coast he evidently knew whereof he spoke. His case will probably come up for trial at the assizes here next month.

FIGHTING STAVE LAKE SCHEME.

(SPECIAL TO THE MINER.)

Vancouver, Sept. 12.—Messrs. Stone and Jackson of Boston are sending their representative to Vancouver to install the half million dollar plant of the Stave Lake Power company, 38 miles from Vancouver, which is to supply the city of Vancouver and Westminster with power. In this connection the B. C. Electric Railway who are the only people adversely affected by the Stave Lake proposition announce that as soon as they get the Coquitlam Lake water franchises from the Government they will at once install machinery to utilize 5,000 horse power. There will be much difficulty in getting this water, however, which is but 15 miles from Vancouver, as it supplies the City of New Westminster with drinking water and Aulay Morrison the member of parliament for Westminster is moving heaven and earth to prevent the power being given up by the Government, and is applying for all the Government lands adjoining the lake for the purpose of fencing them in and preventing the pollution of the water. The Stave Lake people claim that the B. C. railway people are simply making a bluff to prevent them getting certain franchises they are after and to delay their work. They further claim that next month they will start work and spend $100,000 by the 15th of November as they must do to hold their franchises from the city.

HIGHLY DIGNIFIED.

Toronto, Sept. 12.—The civic reception committee invited the citizens committee to name seven citizens to co-operate in the welcome of the Duke and Duchess of York. The citizens committee failed to raise any money for decorations, their time being occupied in squabbling over seven members to be added to the civic committee. Today the civic committee refused the invitation and in consequence there is much agitation in society circles. The city will spend $15,000 on the first day's welcome.

TUPPER TALKS.

Toronto, Sept. 12.—The Evening Telegram's London cable quotes Sir Charles Tupper as saying in an interview that England treats Canada as if the Dominion were Russia or some other foreign country.

HOT AFTER ANARCHISTS

(Continued from First Page)

easy for them to put their hands on her if she is wanted. There is a hope here, however that some way will be found to hold her, until investigations now in progress by the secret service in Illinois and all the principal cities where anarchists organizations are, are completed. She was arrested wholly upon the responsibility of the Chicago police under the general order sent out by General Bull to apprehend all persons who might have knowledge of the attempted assassination. While no evidence has been found against the Goldman woman, the Government is satisfied that Czolgosz crossed her path and in due time it is believed whatever connection if any there was between them will be disclosed. The secret service will trace Czolgosz whereabouts back. One of the things desired is a complete report of the lecture the President's assailant said inspired him to commit the deed.

MORE SCRAPPING.

Toronto, Sept. 12.—The city and Provincial Government are at loggerheads over the site for the statue to Queen Victoria which the Province will erect. The city refuses the site the government desires.

The Government threatens now to erect the statue in Guelph or Hamilton.

A NEW INDUSTRY.

Wiarton, Ont., Sept. 12.—The Colonial Construction Co. of Montreal, has been awarded the contract for the erection of the buildings and plant for the first beet root sugar factory in Ontario. The capacity will be seven hundred tons per day. The contract price was at $350,000.

NEWFOUNDLAND SUFFERS.

St. Johns, Nfld., Sept. 12.—The fire which broke out here yesterday resulting in a loss of about $500,000 was extinguished last night. The buildings destroyed were a coperage, five fish stores, eight houses and three oil vats.

BIG EXPLOSION.

New York, Sept. 12.—A despatch from Paterson, N. J., says that an explosion occurred in the powder works at Pompton, N. J., and that seven men were killed.

A GRACEFUL ACT.

Quebec, Sept. 12.—The French warship Destrees has arrived here to join in the welcome to the Duke and Duchess of Cornwall.
