A PROBLEM SOLVED

In the Boundary Success Is Crowning Miners' Efforts.

The Cheapest Mining and Smelting in the World.

Captain John R. Gifford, manager of the mining department of the Hall *Mining and Smelting Co., limited*, has returned from an extended trip through the Boundary country and to the section in the vicinity of Republic. In speaking about the trip yesterday Captain Gifford said: "In the Boundary they are about ready to smelt a larger quantity of ore than ever. The plants are being added to and at the Granby they are now reducing 1,100 tons a day and will soon be in a position to reduce 1,500 tons in the same period. There is no place in the world that I know of where they have got *smelting and mining* down to a lower point than they have in the boundary. The problem there was how to reduce large bodies of low grade ore at a profit and they have successfully solved it by adopting the most scientific methods and all possible labor saving devices. The ore is handled by hand as little as possible. The plant at the Granby is as fine a one as I have ever seen. To be sure nature has given them a self fluxing ore. The smelter at Greenwood is up-to-date in a number of particulars. Good results are being secured from both these plants. Besides this they have a converter which is turning out blistered copper, 98 per cent. fine.

"The towns in the Boundary are on the mend and lately there has been a distinct improvement in Grand Forks and Greenwood. The entire Boundary, in my opinion, has a great future and there cannot fail to be important towns there. There are a number of owners of mining properties there who have been watching the outcome of the wonderful enterprise of the Granby Consolidated and the British Columbia Copper Company who will now go ahead with their plants, as these companies have paved the way and shown that the ore can be successfully and profitably reduced. The Montreal and Boston Copper Co. presents an instance of this. This company has purchased the smelter owned by the Standard Pyritic company, near Boundary Falls, and will have it in operation in about three weeks. The Montreal and Boston company will go ahead and smelt its own ores. They have the Sunset mine well developed and there should not be the slightest trouble in outputting the 450 tons of ore required each day to keep their plant in operation.

"The Snowshoe Mines, limited, is talking of erecting a smelter to treat the ores from their property in the Phoenix camp. At present the company is shipping to the Greenwood plant, but there is no doubt that ere long it will erect a smelter of its own. "The Dominion Copper Co., which owns the Snowshoe, Stemwinder and other properties in the Phoenix camp, will, I believe, ultimately erect a plant of its own. The properties of this company have been extensively developed and could, I believe, keep a smelting plant in operation.

"A good many mining enterprises have been waiting for putting in machinery for the completion of the plant of the Cascade Power and Light Co. It is now certain that this company will be ready to furnish power by June 1st, and it is the intention immediately this materializes to equip several properties with electrical plants. There is no question now but that all of the power the company can generate will be taken.

"The Hot Air and the V. V. and E. railways will have reached Republic in about six weeks, and there is plenty of ore at that town ready for transportation. The ore is highly silicious, and the question of the best method of treating it has not yet been determined. The region is in the same condition as the Boundary ore a few years since. Then it was not known whether or not the Boundary ore could be profitably treated, but that question has been favorably determined now. The question will be solved very shortly as to Republic ore and to the satisfaction of the mine owners, I believe, too."

HUNTER FOR CHIEF JUSTICE.

Official Statement of Government's Intention to Appoint the Barrister.

Ottawa, Feb. 28.—It was officially stated today that Mr. Gordon Hunter, K. C., Victoria, will be the new Chief Justice of British Columbia. His appointment has not yet been made, but it is considered that there is no question that it will be made within a few days. The official statement is that this decision has now been reached.

It has been suggested, in view of the claims of Vancouver, in connection with the appointment, that Mr. Hunter be requested to reside in the Terminal City. Whether the government will take official action regarding this is not definitely stated. As the largest city in the province, it is agreed that Vancouver should be the permanent residence of one of the Supreme court judges, if not the chief justice. The contention that the chief justice should reside at the capital cannot bear much weight, seeing that the last chief justice lived in New Westminster. Moreover, it is stated here that Mr. Hunter has expressed himself as quite willing to live in Vancouver, in view of the appointment being made.

IS THE WAR EAGLE SOLD?

A Rossland Rumor Says The Snowshoe Has Acquired It.

Rossland, Feb. 28.—There is a well authenticated letter in the city stating positively that the War Ealge mine has been sold to the Snowshoe people. The correspondent is in a position to know that which he is talking about but being necessarily, for the purposes of publication anonymous, despite the fact that he is willing to invest on the strength of his knowledge, the testimony can by no means be accepted at present as conclusive without corroboration. It is known that Messrs. Gooderham and Blackstock have both visited London for the purpose of placing their property advantageously if it could be done and that the latter gentleman is still in England. It is further stated that A. J. McMillan, who is also in England, has been the medium through which the alleged sale has been made. Both Manager Kirby and A. J. McMillan's brother profess ignorance of the transaction.

SETTLERS FOR SKEENA.

Contract Let For Pacific Cable Station on Vancouver Island.

Victoria, Feb. 28.—Another schooner has returned to the west coast harbor in distress. This time it is the sealer Mary Taylor of this port, which has been sealing off the Californian coast. She lost her head stays and side lights.

The provincial government has made arrangements to place 100 settlers in the Buckley valley near the Skeena river. They will be given 100 acres of land each and will be allowed to pre-empt another 220 acres at $1 an acre. This is one of the richest sections of the province and a railway is projected through it.

Joshua Holland, of this city has been awarded the contract for the erection of the Pacific cable station on the west coast of the island.

Late this afternoon a bark passed up the straits with some of her rigging gone.

MANY MINERS KILLED.

Snow Slide Does Terrible Damage at Liberty Bell

Telluride, Colo., Feb. 28.—The most terrible snow slide ever known in Colorado caused the death of from 30 to 75 men at the Liberty Bell mine on Smuggler mountain today. Although the scene of the disaster is scarcely two miles from this place, information is difficult to obtain on account of the precipitous character of the roads and the vast amount of snow. Nearly all the buildings near the Liberty Bell mine were carried down by the slide. All the books which show the number and names of the men employed are lost, so that the death list can hardly be known for many hours; possibly not until the rescuers shall have removed the immense quantity of snow, rocks and logs from the canyon where the victims lie buried. It seems that the two slides occurred practically in the same place, the second burying those who were trying to rescue the rest.

FRESHETS DO MUCH HARM

Eastern States Suffer Very Heavily at Many Points.

In Some Places Inhabitants Have to Remove From Houses.

Buffalo, Feb. 28.—Heavy rain and warm weather today changed insignificant streams throughout New York and Pennylvania into raging torrents which overflowed their banks and caused floods in the two states. Two lives were lost in Scranton, Pa., and three persons perished in the raging waters near Wilkesbarre, Pa. Reports from various points at midnight indicate that the worst has not yet been experienced and that a further rise in the water may be expected tomorrow. In this city a large area of South Buffalo is under from two to four feet of water. Twenty-five blocks on Seneca street are flooded to a depth averaging five feet.

BRIDGES GO OUT.

Some of the Railroads of New York State Are Tied Up.

Elmira, N.Y., Feb. 28.—The eastern end of the city is under water and a portion of the western part also. The Lackawanna tracks are under water and eastbound trains are suspended.

The Erie is running no trains east or west. Nine hunrded feet of Erie track has been washed away at Canistoo. The Northern Central railway is washed out near Montour Falls and the iron bridge over Seelick creek, eight miles south of here, went out at 10.15 o'clock tonight. The Erie and Northern Central tracks are under water for two miles south of this city. Traffic has been suspended on the Central since 2 p. m. The Central will not open for southbound traffic for several days. The Lehigh valley is tied up, on its Elmira, Cortland and Northern divisions, several bridges are cut and it may not be opened for a week.

ANOTHER VENICE.

Streets of Watkins, N.Y., Are Canals and Boats the Only Vehicles.

Watkins, N.Y., Feb. 28.—Montour Falls is suffering from the worst flood in its history, more than half of the village being under water. Bridges are gone and buildings washed from their foundations. Hundreds of families have been driven into the upper stories and boats are used to navigate the streets. Railway traffic is suspended.

THE TOWN INUNDATED.

Hoosick Falls, N.Y., Feb. 28.—The Hoosick river reached high water mark in several places this afternoon and streams in the Hoosick valley generally are at high water mark. At 5 o'clock today the lower portions of Lyman and Water streets were inundated, also Haynes flats with the meadow lands nearby and tonight the power house and buidings of the Hoosick Falls Water Supply company are surrounded by water.

TRAINS BEING HELD.

Binghampton, N.Y., Feb. 28.—On the main line of the Erie and Lackawanna, trains are running all right from the east, but the bridges nine miles west of the city are in bad condition and no through trains were allowed to pass after 6 o'clock. Trains from New York are being held here on both roads.

FRESHETS ARE FEARED.

Saratoga, N.Y., Feb. 28.—A heavy rain is falling tonight throughout the lower Adirondacks and freshets are feared inside of the next 24 hours.

KILLED BY STREET CAR.

Halifax, Feb. 28.—James G. Harris, manager of the Nova Scotia nursery, was killed this evening while crossing the car tracks at Russel street. He was struck by an electric car and badly cut.

J. F. Kenny, a prominent citizen of and son of the late Sir Edward Kenny, died this morning, aged 60.

GIVE CANADA A FREE HAND

Important Communications Passing as to Alaskan Boundary.

Britain Accused of Sacrificing Colonial to Imperial Interests.

Montreal, Feb. 28.—The Star's London cable says: It is stated that important communications are passing between the Imperial and Canadian governments regarding the Alaskan boundary. It is declared that the Canadian ministers have plainly told Chamberlain that Canada has got to about the end of her tether in giving concessions to the United States.

The London correspondent of the pro-Boer Manchester Guardian adds a gloss of his own and says: Though Canada had on many occasions not received justice, Sir Wilfrid Laurier thought it would be possible to preserve friendly relations with the United States but that it required the exercise of patience. This is true, but Canadians are beginning to see that patience is required more with the British government, which, in its soaring imperialism, is always obligingly ready to sacrifice colonial interests to an important foreign power, than with the United States. Canadians understand the ways of Americans and can drive a hard bargain, as well as they can, if left to themselves.

STOLE AN INFANT.

Romantic Servant Girl Afraid She Would be Separated From it.

Montreal, Feb. 28.—The directors of the Dominion Iron and Steel company, were to have met today to take action on the dividend on the company's preferred stock. Owing to the absence of Hon. George A. Cox the meeting was adourned till tomorrow.

Mrs. E. J. Wayland left her two children in her home on City Hall avenue yesterday afternoon in charge of her servant who had given her name as Audley Earle. When she returned, she found her eldest child sitting on the steps crying bitterly. He imparted the information that the girl had gone off with some of Mrs. Wayland's clothes, a valise and the baby. The police at once started an energetic search and tonight found the girl and baby in a house on St. Paul street. The only explanation the girl would give is that she loved the baby and feared she might be parted from it. It turned out that her right name is Ethel Young and that she is passionately fond of novels, as indicated by her assumed name.

The Canada Paper company's issue of $275,000 of 7 per cent. cumulative preferred stock was over-subscribed four times. The allotment will be made next week.

SAVED THE SITUATION.

Canada Alone Made the Pacific Cable Scheme Possible.

Toronto, Feb. 28.—The Evening Telegram's London cable says: Sir Edward A. Bassom spoke yesterday before the London Chamber of Commerce on telegraph line of the empire, concluding he said: "I cannot bring this lecture to a close without bearing testimony to the great efforts made by Canada to advance the cause which I have had the pleasure of interpreting to you. But for the tenacity of purpose shown by Canada, and sacrifices she has willingly made, there is little doubt but that the Pacific cable scheme would have come to nothing."

WISH BONDS GUARANTEED.

Manitoba Legislature Propose to Aid Canada Northern.

Winnipeg, Feb. 28.—A bill respecting the construction of certain lines of railway and the guarantee of the bonds of the Canadian Northern Railway company secured thereon, introduced in the legislature today, provides for guarantee bonds to the extent of $8,000 per mile on branch lines of the C.N.R. within the province of Manitoba. On some of these lines the province had already agreed to guarantee bonds. The act provides for aid to certain additional lines. It is uncertain whether the company really intends to build the lines, or whether the legislation is obtained to be used as a weapon against the promoters of other lines.

SENATORS CENSURED.

Tillman Thought His Apology Sufficient And a Scene Followed.

Washington, Feb. 28.—Senators McLaurin and Tillman, of South Carolina, were severely censured today by the United States senate for the sensational personal encounter between the two senators on the floor of the senate last Saturday during the consideration of the Philippine tariff bill. The adoption of the resolution of censure probably closes the incident so far as Mr. McLaurin is concerned.

Immediately after the senate convened Mr. Burrows, chairman of the committee on privileges and elections, to which the McLaurin-Tillman controversy had been referred, reported the resolution of censure framed by a majority of the committee. Accompanying the resolution was a report setting out the conclusion of the majority. Practically there was no debate on the resolution and it was adopted by a vote of 52 to 12.

During the roll call when Mr. Tillman's name was called, he added a new sensation to the proceedings by rising and saying with ill concealed emotion: "Among gentlemen an apology for an offense committed under heat of blood is usually considered sufficient." Mr. Tillman's words induced Mr. Keen, of New Jersey, to rise at the conclusion of the roll and said: "Having heard the senator from South Carolina again insult the senate, I change my vote from aye to no." At the request of Mr. Burrows, the statement of Mr. Tillman was read by the clerk. Instantly the South Carolina senator disclaimed any intention of being offensive to the senate and said if they were so considered he would withdraw them.

The chairman, Mr. Frye, said that by unanimous consent they might be withdrawn but Mr. Dietrich (Nebraska) objected. The incident was closed without further comment.

FIRED ON THE POSSE.

Rival Factions Combine Against the Sheriff's Men.

Campton, Ky., Feb. 28.—Sheriff Stamper and posse had a pitched battle at Vortex today with a gang that had previously engaged in a fight in Mrs. Faulkner's yard at Harris' distillery, in which Napier and his followers and Faulkner and his followers had shed blood. The sheriff followed the trail of blood to the distillery where he found 14 men of the two factions dressing the wounds of Napier and Faulkner who had dropped their quarrel. The sheriff and posse rushed at them with drawn weapons and were fired on by the gang. The fire was returned by the sheriff's posse and six of the men were wounded. Two of the sheriff's posse were slightly wounded. The men were caputred and brought here and placed in jail. Four of them, Buck Wooten, Jeff Townsend, Clay Napier and John Faulkner were left, as their wounds were severe. Wooten and Townsend are expected to die. There are indications of mob violence and a hundred armed men are guarding the jail.

FILIPINOS STILL FIGHT.

Small Isolated Bodies of Troops Subjected to Attacks.

Manila, Feb 28.—The United States Philippine commission has ordered that medals of honor be bestowed on Inspector Knauber and two other members of the Filipino constabulary. The three men were going from Cavite to Magallanes, in Cavite province, when they were attacked by eight members of Ramos' band. Knauber telegraphs that he and his companions killed the eight insurgents and captured two Mauser rifles, one Remington, one revolver and three bolos.

Two hundred bolomen in the island of Samar recently attacked a scouting party of friendly natives and a detachmet of the first infantry. Eighty of the bolomen were killed and one of the friendly natives was severely injured.

WANTED FOR LARCENY.

Edmonton, N.W.T., Feb. 28.—J. W. Riner was arrested by the police here on Wednesday evening suspected of being the party of the same name wanted by the authorities at Redfields, S. D., on the charge of grand larceny. Sheriff Bing, Redfields, wired last night asking that the prisoner be held until his arrival.

LIVE ISSUES DEALT WITH

Associated Boards of Trade Pass Important Resolutions.

Views Expressed on Fuel, Representation and Taxes on Mines.

Kaslo, Feb. 28.—The Associated Boards of Trade of Eastern British Columbia concluded its labors today, and will meet next year at Fernie. The proceedings closed with a banquet tendered by the Kaslo board.

This morning, the board passed the following resolutions: Urging the Dominion government to make an immediate selection of the government reserve of 50,000 acres of coal land and lease them with such safeguards as will absolutely preclude now and in the future, the possibility of the amalgamation with, or control by the Crow's Nest Coal Co., or any allied corporation, and that the maximum price to be charged for coke be $3.50 per ton f.o.b. and the maximum price for 3-4-inch screend coal be $1.75 per ton f.o.b. This was an amendment by the Rossland delegates, to the original resolution offered by the Greenwood board, which simply called for the throwing open of these lands under proper restrictions from the government.

A resolution was passed asking that the Yale-Kootenay-Cariboo federal distirct be divided at once on the line of the Columbia river and that an election for a member of the Dominion parliament be immediately held in the new district thereby created west of the Columbia river.

The following resolution was passed in reference to the mineral tax:

That whereas there is now imposed by the government of British Columbia tax of 2 per cent. on the gross value of all ore after deducting the charge paid for transportation and smelting, and whereas, the prosperity and growth of the mining industry of this province largely depends upon the possibilities of profitably working the low grade ore deposits of the country, and

Whereas the incidence of the tax as at present levied is considered to be unjust, bearing unequally upon mines having different conditions as to value of ore and cost of production, and taxing all the labor and supplies expended in ore production, and

Whereas, it is believed that a considerable portion of the revenue which it may be deemed equitable to levy upon the mining industry, could be derived (1) from the tax already legally collectible upon crown granted claims, upon which less work than to the value of $200 annually is done, if such tax were systematically and promptly collected, or in default thereof, if the said crown granted mineral claims were to be sold by the government to the highest bidder, and (2) by changing the conditions in regard to such crown granted claims, so that work to the value of $400 annually should be required, or failing that, a tax of 50 cents per acre be imposed, and (3) by requiring that instead of work to the value of $100 being the annual assessment conditions on non-crown granted claims, work to the value of $80 be accepted, with an increase of the fee for recording assessment work to $12.50 with no increase in the number of assessments before the issuance of crown grants, and by these means the development of the resources of the country be stimulated.

Be it resolved that the government be asked to look to the means herein suggested for a portion of the revenue from the mining industry, and to reduce by so much the amount to be derived from the tax on mineral produced and to change the incidence of the tax by deducting from the taxable value of the ore the cost of mining, exclusive of capital expenditure and head office expenses, such deduction to be subject to the jurisdiction of such official as the government may designate.

IS A FORCED PLANT.

The fact that the C.P.R. was enabled to get a resolution through the Associated Boards of Trade in favor of a reduction in the price of coke and coal by the Crow's Nest Pass Coal company shows the power of that company when it has any ulterior purpose in view, and the necessity for curbing an influence which has become overshadowing and which is selfish in the extreme. That every town and almost every interest in the province can be browbeaten into carrying out its wishes is evident by the action of the Associated Boards of Trade. The merchants, financiers and business men who to a large extent made up the personnel of the membership of the Associated Boards of Trade, though they may not all acknowledge it, bow to its influence principally through fear because they are more or less dependent on it and think they cannot afford to offend it.

Towns have felt the weight of the railway's displeasure. Grand Forks refused to give the management of the road as large a share of the townsite as the greedy monopoly desired and the result was the place was sidetracked and an endeavor made to build up a rival city, which was only partially successful, owing to the enterprise and energy of the citizens and not to any lack of a desire to injure Grand Forks on the part of the railway management. Fort Steele suffered in the same way because it refused to be "held up" by the C.P.R. and the result was that the town is now suffering for daring to oppose the imperious wishes of the C. P. R. The management evidently does not care what private interests are trampled on and injured when it wishes to accomplish its purposes. It is no wonder, therefore, that the representatives of some of the towns, who knew what the weight of the displeasure of the C. P. R. means, rather than subject themselves to it, did as they were asked to by the representtives and organs of the railway.

No resolution was adopted, however, to the effect that the price paid to the C. P. R. for the haulage of coke and coal from the Crow's Nest Pass to Nelson, Grand Forks and Greenwood should be less than it is. Every delegate present knows that it costs more than the coal does in the Crow's Nest Pass to transport it from there to Nelson, Grand Forks and Greenwood and yet no resolution setting forth this fact and asking that a reduction be made to a certain fixed figure was adopted. It is known that the prices of both coke and coal are higher at the coast collieries and coke ovens than is the Crow's Nest Pass and yet not a voice was raised in favor of a resolution asking that the coast companies lower their prices on these products. Yet there would be just as much justice in the one case as in the other.

As the expression of the Associated Board of Trade was forced by what we believe to be a campaign of misrepresentation which lasted for nearly two months, during which every newspaper in the province that could be secured to publish the literature furnished by the C.P.R. bureau was used, and a small army of henchmen and employes of the railway company sent hither and thither to assist in the distortion of facts Even when the delegates were on the way to the meeting of the Associated Boards they were waylaid, wherever the opportunity presented itself, by the strikers of the C. P. R. and told that the country would go to the dogs unless the above mentioned and another resolution adopted were passed. It is plain, therefore, that the resolution anent the price of coal and coke was not a free and untrammelled expression of the views of the people of the Kootenays and Yale, but was rather forced by the pressure of the domineering monopoly and hence the Dominion authorities should not pay the slightest attention to it.

ON CIRCUMSTANTIAL EVIDENCE.

The conviction of C. B. Bullock for the murder of Leon Stainton at Edmonton, Alberta, is a verification of the old adage that murder will out. The credit, however, of running down the murderer is due largely to the splendid detective work of Sergeant Hetherington, of the Northwest Mounted Police. The clues which he had to work on were of the most vague kind. The body of a man was found near Ponoka, Alberta, with a bullet wound in the skull. Many examined the body but none could identify it, and it was evident that the murdered man was a stranger in that section. Sergeant Hetherington found marks upon the clothing which led him to infer that they had been purchased in Kalamazoo, Mich. Inquiries were made there and it was learned that Stainton was missing. Further investigation lead to the disclosure that Stainton had left a place in Wyoming with Bullock, who was later arrested near Great Falls under an assumed name. With these materials at his command Sergeant Hetherington wove the meshes of evidence so closely around the accused and established so strong a case that the jury found Bullock guilty of murder and he has been sentenced to be hanged on the 20th of March. The evidence was nearly all circumstantial, but as the learned judge before whom the case was tried said in charging the jury: "The crown has told you that a prisoner is rarely committed by direct evidence. In this case almost all of the evidence is circumstantial, but, such eivdence, if of the right kind, may be even stronger than direct evidence." The accused protested that he was innocent when asked to stand up in order that sentence might be pronounced. Few could, however, read the eivdence and not believe him guilty. In this case no one saw the murder committed. After Bullock and Stainton left Calgary no one saw them together and yet it is morally certain that Bullock murdered his friend and companion and simply for the purpose of robbing him of a few dollars and his personal effects, some of which he had with him when arrested.

EXTERMINATE THE PESTS.

Wolves and coyotes annually destroy more deer than hunters in the Kootenays as there is no closed season for them. Game is a valuable asset of the province and should be protected, if possible, from becoming the prey of the wolves and coyotes. A well known mining man informs The Miner that while comnig from a mining property on the east slope of the Ymir range he found on the trail within a mile, at a point near Kootenay lake the half, eaten carcasses of four deer. The deer had been killed by wolves and their bodies partially devoured. This incident shows that the number of deer killed by wolves must be large each year, and that the destruction goes on during all the four seasons. Were it not for this form of destruction the number of deer would be much larger. It is said that the wolves are equally destructive to caribou and elk. If the wolves could be exterminated, and the game laws rigidly enforced game of all kinds would be more plentiful. Owing to the mountainous nature of the country and the difficulties experienced in getting into the remote haunts of wild animals there should be always an abundance of game, provided the animals that prey on they are got rid of. One method of accomplishing this would be to increase the bounty paid by the government. Such a course would greatly stimulate their destruction and in a year or two they would become scarce. This is a matter of importance in view of the proposed tourist association which is to be formed here and the one that is already organized in Victoria.

EDITORIAL NOTES.

The barbers of Rossland are agitating in favor of having the legislature exercise control over their business by requiring parties entering the business to pass an examination as to proficiency and ability to keep their places of business in a clean and sanitary condition. Poor Rossland, no sooner does she emerge from one trouble than another looms up.

The richest man in all the world today is an American miner, says the Black Hill Mining Review. He has made every dollar he is worth working mines. He is not yet much past the prime of life, and he was elected to the United States senate from Montana only a few months ago. His name is William A. Clark. He went to the Rocky Mountains about thirty-five years ago, with no other capital than good health and a pretty fair education, and today he is the richest man in the world—has more wealth than any other individual in all the world has ever possessed—has so much wealth that the Rothchilds, the Vanderbilts, and the Carnegies are poor men compared with him. He made his great wealth in Montana, but it is the United Verde mine in Arizona that constitutes the bulk of his fortune. It is claimed to represent a calculable gross value today exceeding five billions.

ASTHMA CURE FREE!

Asthmalene Brings Instant Relief and Permanent Cure in all Cases.

SENT ABSOLUTELY FREE ON RECEIPT OF POSTAL

WRITE YOUR NAME AND ADDRESS PLAINLY.

There is nothing like Asthmalene. It brings instant relief, even in the worst cases. It cures when all else fails.

The Rev. C. F. WELLS, of Villa Ridge, Ill., says: "Your trial bottle of Asthmalene received in good condition. I cannot tell you how thankful I feel for the good derived from it. I was a slave, chained with putrid sore throat and asthma for ten years. I despaired of ever being cured. I saw your advertisement for the cure of this dreadful and tormenting disease, Asthma, and thought you had overspoken yourselves, but resolved to give it a trial. To my astonishment the trial acted like a charm. Send me a full size bottle.

Rev. Dr. Morris Wechsler.

Rabbi of the Cong. Bnai Israel,

NEW YORK, Jan, 3, 1901

DR. TAFT BROS. MEDICINE CO.,

Gentlemen: Your Asthmalene is an excellent remedy for Asthma and Hay Fever, and its composition alleviates all troubles which combine with Asthma. Its success is astonishing and wonderful.

After having it carefully analyzed, we can state that Asthmalene contains no opium, morphine, chloroform or ether. Very truly yours,

REV. DR. MORRIS WECHSLER

AVON SPRINGS, N. Y, Feb. 1, 1901.

DRS. TAFT BROS. MEDICINE CO.

Gentlemen: I write this testimonial from a sense of duty, having tested the wonderful effect of your Asthmalene, for the cure of Asthma. My wife has been afflicted with spasmodic asthma for the past 12 years. Having exhausted my own skill as well as many others, I chanced to see your sign upon your windows on 130 th street, New York, I at once obtained a bottle of Asthmalene. My wife commenced taking it about the first of November. I very soon noticed a radical improvement. After using one bottle her Asthma has disappeared and she is entirely free from all symptoms. I feel that I can consistently recommend the medicine to all who are afflicted with this distressing disease.

Yours respectfully, O. D. PHELPS, M. D.

DR. TAFT BROS, MEDICINE CO, Feb. 5, 1901.

Gentlemen: I was troubled with Asthma for 22 years. I have tried numerous remedies, but they have all failed. I ran across your advertisement and started with a trial bottle. I found relief at once. I have since purchased your full sized bottle, and I am ever grateful. I have a family of four children, and for six years was unable to work. I am now in the best of health and am doing business every day. This testimony you can make such use of as you see fit.

S. RAPHAEL,
Home address, 235 Rivington street. 67 East 129th St., New York City.

TRIAL BOTTLE SENT ABSOLUTELY FREE ON RECEIPT OF POSTAL.

Do not delay. Write at once, addressing DR TAFT BROS, MEDICINE CO., 79 East 130th St., N. Y. City.

Sold by All Druggists.

MINING NEWS.

The Marion has made another shipment of 40 tons of ore, and another 100 ton shipment is being brought down from the mine, says the Sandon Mining Review.

A new crossut tunnel was commenced last week on the Silversmith ground to tap the Slocan Star vein. It is calculated that the ledge will be intersected at 500 feet.

The celebrated suit between Coplen and Callaghan over the Cube Lode and Cody and Joker is again in evidence at Victoria. In all this has involved 13 actions. So far Callaghan has had the best of it in the contention that he owned the ground claimed by Coplen for the Cube Lode, in the Cody and Joker claims. The courts have all along decided the Cube Lode is invalid in that it overlaps the others registered previous to it.

The Sandon Paystreak says that the owners of the Donnelly group, who have been working so long on that property have at last opened a showing which justifies their faith in the property. In the old Donnelly tunnel they have opened up a seven-inch streak of high grade galena which is staying with them. The Donnelly claims belong to the Urban Mining company, a corporation of local people, who have put considerable money into the ground, but until recently have never had a return in sight. The stock, which has been a drug for many months, may now become valuable.

C. Hungerford Pollen, manager of the Estrella mine, is now at the coast on business connected with the mine, says the Fort Steele Prospector. The Estella is a big mine. Over 2,000 feet of tunnels, shafts and adits have been run. They have a large ore body on which drifts have been run for a long distance that will run well in silver, lead and copper. The company operating this property is of the right sort, they are blocking out ore and developing the mine without making any effort to ship. There is sufficient ore blocked out to warrant the construction of a large concentrator to treat the product of the mine. The ore is an excellent concentrating ore, it will concentrate three into one making a most desirable product. It has long been the impression that the Estella was a great mine, and under the management of C. Hungerford Pollen, F.G.S., will turn out one of the best properties in the district. Twelve men are at work on a contract, running five hundred feet of tunnel.

SOCIALIST WORK CUT OUT.

The programme committee of Socialist Local No. 46, met last night at the home of J. Coxhead, when the following subjects were selected for debate during the next three months: 1. The relation of trade unions to socialism. 2. The coal fields of B. C. and the peoples' right thereto. 3. Organization, provincial and national. 4. Direct legislation. 5. An administrative government, what it means. 6. A Sunday of entertainment; readings, recitations and songs of socialism. 7. The age limit of man's usefulness, and old age pensions. 8. What an education may mean under socialism. 9. Unjust laws and our duty towards them. 10. Co-operative societies—German and Belgian. 11. The family, Is it threatened with destruction by our industrial system? 12. Will socialism destroy the incentive to progress. 13. A comparison between ancient and modern prohets, such as Elijah, Isaiah, Jeremiah, Amos, Hosea, etc., and Ruskin, Carlyle, Morris, Tolstoi, Mark, Bellamy, Herron, etc.

Today's topic will be conducted by John Roberts, and should be of deep interest to every union man. These meetings will be open to the public, as usual, every Sunday afternoon at 3 o'clock in the Miners' Union hall, and will, if possible, surpass the previous efforts of this club in presenting the new gospel Industrial Redemption.

Trunks, valises—The Wallace Miller Co.

TO PROTECT GAME.

Association Formed to Preserve the Fish and Game.

An association for the protection of fish and game was organized at a meeting held yesterday afternoon in the office of Macdonald and Johnson. Those present were: H. E. Croasdaile, who was chosen chairman; C. D. Curtis, who was requested to act as secretary; Rev. H. D. Graham, Dr. Hawkey, E. R. Woakes, A. E. Eskrigge, V. Hunt, H. A. Stewart, John Patterson, A. M. Johnson, C. B. Winter, and W. Beaven.

Some discussion took place as to what could be done toward the protection of the fish in the lakes and streams of the interior and W.H. Bullock-Webster, of the provincial police, who was present, made some valuable suggestions, being thoroughly conversant with the regulations as they now stand. He pointed out that under the present regulation, which are those of the Dominion government, it was not contrary to law to catch trout at any season of the year, the provincial game act not having provided for these fish. After discussion it was resolved to instruct the secretary to write to W. A. Galliher, member for the riding, to ask him to use his influence to have the order-in-council of March 3rd, 1894, making fishing regulations for the province of British Columbia, amended so as to provide a close season for charr, rainbow trout and land locked salmon.

A resolution was also passed asking the attorney-general to introduce a bill to amend the provincial game act changing the act so as to bring these fish named under the act and to add a clause to prohibit the sale or exposure for sale of trout at any time, and to provide a penalty for the offences. It was decided that the name of the association should be the Kootenay Fish and Game Protective Association, and the intention was expressed to procure the organization of similar associations at other points in the district. H. E. Croasdaile was chosen president, and C. D. Curtis, secretary, but the election of other officers was left over to a subsequent meeting.

A committee of Johnston, Curtis, Stewart, and Graham was appointed to draw up constitution and bylaws for the association. This committee is to prepare its report which will be submitted to a meeting to be called by the chair.

ASTHMA FOR 35 YEARS

Doctors Said They Could Only Give Him Temporary Relief. Clarke's Kola Compound Cured Permanently.

R. D. Pitt. Esq., Kamloops, B. C., writes: "For thirty-five years I have almost constantly suffered from asthma and difficult breathing. I spent a fortune on remedies and doctors. At last my doctor said I might get some temporary relief but would always be troubled. When first hearing of Clarke's Kola Compound I tried it. The first bottle did not relieve me much, but after taking four bottles I was completely cured. I can now breathe as freely as ever and asthma does not trouble me in the least." Clarke's Kola Compound not only relieves but permanently cures asthma. Sold by all druggists or the Griffiths & Macpherson Co., Limited, Toronto.
For sale by J. H. Vanstone, Nelson, B. C.

NOTICE

By a Resolution passed by the Municipal Council of the City of Kaslo, on the seventeenth day of February, 1902, a closet situate in the rear of the Slocan Hotel on Lot 1, Block 10, Map 393, in the City of Kaslo, was condemned as a nuisance and prejudicial to public health and ordered to be torn down and the pit cleaned and filled up.

This is to notify all persons concerned that unless said closet is pulled down and the pit cleaned out and filled up with earth within five days from the date of this notice, same will be carried out by the council at the cost of the owner.

A. W. ALLEN,
City Clerk.
Kaslo, B. C., March 1st, 1902

CHANCE FOR OUR HOCKEY TEAM

The championship hockey team from Calgary went to Medicine Hat last Friday to try and wrest the championship of the territories from the Assiniboias, of Medicine Hat, who have held the chapmionship for the past three years. The game opened with a rush by Calgary, but as quickly was the puck lifted by Cavanaugh. After some fast hockey Niblock passed to Creighton Turnbull, who scored first for the Hats. Calgary awakened up and Wilson scored for his team in four minutes. At half time the score as one to one. When game was resumed the Hats had everything their own way, scoring four more goals in rapid succession, leaving the score five to one in favor of Medicine Hat. For Calgary, Wilson and Crandall and their goal keeper are stars, but cannot touch the Turnbull triplets and Niblock for Medicine Hat. The Medicine Hat boys are desirous of having the Nelson team go to their town and play a series of games for the championship of the North West Territories and British Columbia. The Nelson boys owe Medicine Hat a game in return for the lacrosse of last summer.

A penny saved is a dollar earned. Save your pennies by burning Crow's Nest coal. Satisfactory and economical. Telephone 33. West Transfer Co., all kinds of teaming promptly and cheaply done.

EDGEWOOD DAIRY CO.,
LIMITED.
Head Office: Nelson, B. C. Ranch: Fire Valley,
Capital Stock, $25,000 in $1.00 Shares.
Subscribed Capital $18,000.
Now Offered for Public Subscription, $7,000.

A well equipped, well managed, up-to-date farm is not often seen in this district, in fact land suitable for farming is found in but small patches thoughtout the mountains. There is however, a tract of good tillable land in the beautiful Fire Valley, which extends to the Arrow Lakes, and is about 78 miles from Nelson. The above company have been unusually fortunate in securing 720 acres of this land and for the past 14 months they have been quietly working along clearing the land with a view to going into the dairy business on an extensive scale. Owing to the absence of heavy timber the cost of clearing is unusually small, averaging about $13 per acre. They already have over 100 acres cleared which will all be under cultivation this year and from which they expect to take a large quantity of hay, etc. Should the company see fit to market this it would pay a handsome dividend but such is not their intention, as they require it for their own stock which they will place on the ranch early in the fall when they will begin selling milk and other products and from which they expect to receive larger returns. As will be seen from the above only one-seventh of the ranch is cleared as yet. It is the intention of the company to vigorously push the work of clearing the balance of the ranch during the approaching season. So that a large part of it may be placed under cultivation next year.

In view of the high prices paid for farm products in this district, it is not difficult to see a bright future before the Edgewood Dairy Company, limited.

In order that anyone can take advantage of this opportunity to purchase some of the company's stock it has been decided to accept subscriptions for 100 (one hundred) shares or over at par. Applications for stock to be accompanied by a cheque payable to the Imperial Bank of Canada for 10 per cent. of the amount subscribed. The balance will be payable—10 per cent on allotment and calls of 20 per cent each, with not more then one call in any one month.

The company has requested E. B. McDermid to act as broker from whom application blanks, copies of last balance sheet, etc., etc., and any other particulars may be had.

The subscription list will close at 12 o'clock noon, on March 15th.

Address all communications to E. B. McDermid, accountant and assignee, Nelson B.C.

NELSON. B. C.

Show Room for Mason & Risch pianos

THE CITY

W. J. Astley is erecting a cottage on the lake shore opposite Nelson.

A daughter was born to the wife of T. Boynan on Friday, February 28th.

A. F. Rosenberger and A. C. Brock leave this evening for the Lardeau and will be away about a week.

At the record office yesterday certificates of work were issued to M. Egan on the Orinoco and Rio Tente.

The full court which was to have been held at Vancouver on April 1st has been adjourned until April 15th.

Parties holding tickets against the silk quilt are notified that it will be raffled on Monday night at the Grand Central hotel.

A. N. Williamson, librarian of the free library, reports that 282 books were loaned during February to subscribers and there were 1,772 visitors during the same period.

Kerr and Co. have added to their premises, taking in the store on Ward street formerly occupied by Lee and Burnett. The new portion will be devoted to their millinery department.

The services in the Methodist church will be conducted today by Rev. A. E. Green, of Vancouver. Mr. Green will address a mass meeting on Temperance in the Congregational church on Sunday evening after the regular service.

The Nelson hockey team will go to Sandon on Wednesday next to play a third game with the Sandon team, having defeated the Sandon boys once in Nelson and once in Rossland. The game is sure to be a hot one and will undoubtedly attract a large audience.

The steamer Kokanee made a special trip yesterday morning from Kaslo in order to bring the delegates to the meeting of the Associated Boards of Trade through in time to catch the train for the Boundary or the boat for the Crow's Nest. Twenty-six delegates came down by the steamer.

Michael Egan, who was admitted to the Kootenay Lake General hospital a week ago last Tuesday, suffering from the effects of a premature explosion of a charge of powder on his claim near Beasley Siding was sufficiently recovered to leave the hospital yesterday. The sight of both eyes has been saved although he lost a finger and a thumb.

ANY ONE CAN

Prove the Value of Scientific Food.

A good straightforward test of food is worth much to humanity. The following is interesting:

Mr. T. K. Durboraw of Grenfield, O., say: "After 3 months' sickness with grip I found I had lost 42 pounds, with ilttle appetite and almost no digestion. Wife finally put me on Grape-Nuts and I actually lived on this food, taking it three times a day, and a cup of Postum Coffee at each meal for about four weeks.

When I began I was so nervous and weak and my srength was exhausted even by dressing,and, of course, I was unable to do the work loaded upon my desk, but I hammered away without any tonics or medicines only my diet of Grape-Nuts and Postum three times a day. I found at the end of 23 days my nervousness gone, strength greatly increased and that I had gained 16 pounds.

Finally, after getting back to good health again I, of course, took on different kinds of food, and, as a change, began using —— for breakfast. After a while some peculiar spells began to appear in the morning with deathly sickness and nervous lassitude. I took treatment for biliousness but that did not avail.

About a month ago I gave up the —— for breakfast and took on Grape-Nuts again. These morning attacks left me entirely in a day or two and I feel that I have had sufficient evidence of the scientific value of Grape-Nuts as a vitalizing perfect food, that does not require the heavy work of the stomach occasioned by the use of starch foods we use so much nowaday."

A. C. McDonald, representative of the Fairbanks Co., is at the Hume.

H. Van A. Switzer, the genial representative of the Wilks-Westwood Co., is a guest at the Phair.

Rev. Dr. Wright will conduct the service in St. Paul's Presbyterian church today. The subject for the morning sermon will be the First Martyrdom, and in the evening, The Sin for Which There is no Forgiveness.

J. G. Taylor, instructor in the American Association rules for the guidance of conductors and engineers is at the Phair. These rules went into effect on the Pacific division of the C. P.R. yesterday and Mr. Talyor is giving instructions in them to the trainmen.

The special semi-annual meeting of the Nelson Miners' union for the election of officers took place last night. The following were elected: President, John R. McPherson; vice-president, Samuel L. Peacock; secretary-treasurer, James Wilks; conductor, John A. Ritchie; warden, George Sheriff; trustees, Thomas Roynan, Richard Gaskill ad John A. Ritchie.

Tonight at Emmanuel church Rev. Wm. Munroe will preach on The Republic of Man. The music for the service will be anthem with tenor solo by G. Brown, Come Let Us Worship (Himmel); soprano solo by Miss Ida Hanson, Song Divine, (St. Ives); quartette by Miss Harvey, Miss Ewart, Geo. Brown and B. S Hebden, Guide Me, O Thou Great Jehovah, (Emerson). A cordial invitation is extended to everyone.

John P. Forestell, formerly proprietor of the Delmonico restaurant, writes from Silverton to The Miner, saying that he has some debts in Nelson as a result of the lack of profit while in the Delmonico, which he is paying off as fast as he can. Since he has been at work he has paid debts amounting to $67.85 and he is confident that he will be able in time to pay all that he owes here. It is his determination to work hard and to live economically until the last creditor is satisfied.

The name of Dr. Hall was omitted from the list of those present at the meeting of the School board on Friday night. The trustees state that the assignment of the teachers was not discussed at the meeting. The board is adopting the plan of having each teacher report on the number of pupils absent during the month and the reason for such absence. In case the board come to the conclusion that this irregularity of attendance can be prevented they may take such steps to do so as the appointment of a truancy officer.

Men's and boy's shirt waists and colored shirts, latest American styles, just received—The Wallace-Miller Co.

Yesterday morning about 8 o'clock a team of horses belonging to H. T. Steeper and attached to a delivery wagon in which were a number of trunks, took fright and made a wild dash from the corner of Mines Road and Kootenay streets, where they were standing, along the former street to Stanley down which they turned and continued their career to Baker street where they tried to turn. Their momentum was too great to allow this so instead they headed straight for Walker's store. A small boy was standing on the sidewalk directly in line, but fortunately the shout of a bystander aroused him to a sense of his danger. He rushed first into the doorway of Ferland's store and then as the team reached the sidewalk made another run for down the street. The team stumbled and fell on the sidewalk, sliding till their feet went through the transom that gives light to the cellar. The wagon swung around but fortunately did not reach the store. As the horses struggled to their feet and started to run again they were caught by S. Y. Brockman who happened to be passing.

MEETING HAS BEEN CALLED.

On Tuesday Night Practical Work to Begin by Tourist Association.

A meeting of those interested in the formation of a Tourists' association in Nelson is to be held next Tuesday evening. The place of meeting will be announced in The Miner on Tuesday morning. Since the matter was first spoken of there has been considerable discussion of its merits and the vast majority of comments on it have been favorable. One instance noted this week was that by a man who had described the advantages of the place to some friends in England, who had thereupon decided to include it in their list of places to visit last summer. In New York, where they landed, they asked for a ticket to Nelson, British Clumbia, but the ticket agent had never heard of such a place and tried to convince them that it was a town in Florida they meant, and it was only after considerable investigation that its whereabouts were ascertained. Another instance was of several visitors from Grand Forks who were saying that if it was only possible to rent summer cottages along the lake near Nelson that many of those living in the interior such as those at their own town and Sandon, Rossland and other places would be delighted to come and spend a month or two. If the Tourist Association is formed and a number of these three and four roomed cottages erected, there is no doubt but that it will be an easy matter to keep them occupied all summer

Another matter that can be handled by the association is the renting of steam launches and houseboats. Several persons have expressed their willingness to provide some of these which will be rented at most moderate rentals. The petitioning of the railway to provide railway cars more in keeping with the steamers and the town itself will also be a part of the programme as with these the trip to Bonnington Falls and other points of interest nearby would be a much more pleasureable affair than at present.

One of the suggestions that have been made by a Nelson business man who saw the practical working of a similar association abroad is that the picture postal cards to be got up be as large as will be permitted by the post-office authorities. One half the space both back and front can then be left for writing and the other half devoted to a picture of Nelson or surrounding scenery, with underneath a few lines giving a short list of the attractions to be found here, and stating that for rent of cottages, or other information to address the Tourist association. These cards could not only be for sale at the stores for private correspondence, but as many merchants as possible would be persuaded to use them. The booklets which would be got up could be placed in the reading rooms of the China steamers and also on the Atlantic liners running to New York and points north to Quebec. This all means considerable work, but if the matter is taken up by the proper parties there is no doubt but that the result will be an influx of visitors such as Nelson has never witnessed in the past and it will be the means of advertising the city and district everywhere.

Stop now, think it over, better examine our shoe stock—The Wallace-Miller Co., limited.

Anyone wishing stockings knitted or footed can have them done by applying on corner of Ward and Victoria street, opposite postoffice.

AT THE THEATRE.

The McKanlass Alabama Warblers are booked for the Nelson Opera house on the evening of March 10th, Monday week. The eastern press speak very highly of the organisation among them the Toronto World, which says "McKanlass with the Alabama Warblers is without doubt the finest colored organization traveling, a better show or finer singing has never been heard in Toronto."

On Tuesday and Wednesday, March 11th and 12th, Otto Fiechtl's Comic Players will fill a two night engagement at the Nelson Opera house, giving high class farce comedy, vaudeville and comic burlettas. This is strictly a specialty show introducing singing, dancing and acrobatic features, quartette and sextette singing.

The Georgia Harper company also wired for the same dates but as the dates were filled they will probably appear later.

Manager Annable has secured the Frederick Warde company for four nights in April. A great many requests have come from Rossland to have half the time filled in there, and arrangements are now being made to carry out this request. As Mr. Warde's company consists of 21 persons, some of whom draw the highest pay of any on the road, the actual expenses of the company in the Kootenays will amount to over $300 per day. The prices of seats will run from $1 to $1.50. Different plays will be put on here and in Rossland so that any wishing to see all the plays can do so by attending all the nights of the engagement. His repertoire consists of Horatius, The Montebank, King Lear, Virginius, and Julius Caesar. Those who have a preference for any of these plays may drop a post card to Manager Annable up to April 10th, and the plays will be put on for which most requests have been made.

You would be dollars in pocket had you used Crow's Nest coal. Never too late to mend. Good stock of fir and birch wood. Call up 33, West Transfer Co.

GUN CLUB SHOOT.

The Nelson Gun club held its opening shoot yesterday afternoon. It was such a miserable day for the sport that only three members turned out. The rain and the wind made the birds take difficult courses but the average was good. The following is the score, each man shooting at 25 birds, Sergeant system: G. Tierney, 15; C. D. Goepel, 19; H. W. F. Pollock, 15.

A sweepstake at five birds followed, Mr. Pollock winning. The club will hold a shoot this morning at 10.30 sharp. The first shoot for the Patenaude Handicap cup will take place on next Saturday afternoon.

Delmonico is now re-opened under new management. Open night and day.

A Flower Garden Free

We want 50,000 new customers to use our seeds. Send your name with **Ten Cents,** and state where you saw this advertisement, we will mail our Handsome Catalogue for 1902, and include, **Free of Charge,** our **Special 50 cent Flower Seed Collection**—*Asters, Giant Comet; Morning Glory, new Japanese; Sweet Peas, large flowering; Poppy, new double; Verbena, Mammoth,* enclosed in a **Coupon Envelope.**

Envelope Worth 25 Cents.

ROSSLAND SHIPMENTS.

Rossland, March 1.—The shipments of ore from the camp since January 1st are subjoined. While the shipments for the week can only be approximately given, those for the previous period have been corrected and give the gross wet weight in short tons of 2,000 pounds:

	Week	Year
Le Roi	5,171	37,805
Le Roi No. 2	1,250	9,438
Velvet	154	198
Totals	6,575	47,441

The shipments this week are about up to the average and until such time as the War Eagle and Centre Star can see their way clear to resume shipments the total output per week is not likely to be much larger for some time to come unless copper shows a marked improvement. Resumption of shipments from the second class dump of the Le Roi would swell the aggregate but even this is not likely to be done for exactly the same reason.

3,000 barrels of men's suits—The Wallace-Miller brand—your size, your price and pattern to please you are here. Call in.

HAIR NATURALLY ABUNDANT.

When it is Free of Dandruff, It Grows Luxuriantly.

Hair preparations and dandruff cures, as a rule, are sticky or irritating affairs, that do no earthy good. Hair, when not diseased grows naturally luxuriantly. Dandruff is the cause of nine-tenths of all hair trouble, and dandruff is caused by a germ. The only way to cure dandruff is to kill the germ; and, so far, the only hair preparation that will positively destroy the grem is Newbro's Herpicide—absolutely harmless, free from grease, sediment, dye matter or dangerous drugs. It allays itching instantly; makes hair glossy and soft as silk. "Destroy the cause, you remove the effect."—dandruff.

IN THE SUPREME COURT OF BRITISH COLUMBIA.

Between S. S. Bailey, Plaintiff, and Dellie Mining and Milling Company (Foreign), Defendants.

NOTICE OF SALE UNDER JUDGMENTS' ACT, 1899.

Pursuant to an order of the Honorable, Mr. Justice Martin, made in the above action on Friday, the 21st day of February, 1902, and of the registrar's directions dated the 1st day of March, 1902, and filed herein, there will be offered for sale with the approbation of the Deputy District Registrar at Nelson, by Samuel P. Tuck, Auctioneer, at the court house, Nelson, British Columbia, on Monday, the 17th day of March, 1902, at the hour of 11 o'clock in the forenoon, ALL AND SINGULAR that certain parcel and tract of land and premises, situate, lying and being in the Kootenay District of British Columbia, composed of Lot 241 in Group 1, and known upon the official plan or survey, of the said district, as the "Dilie" Mineral Claim, for the purpose of satisfying the plaintiff's judgment, which was obtained on the 15th day of February, 1902, for the sum of $5,761.97 and costs taxed at $24.14 with interest thereon at the rate of 5 per cent. per annum, since said date and the costs of these proceedings.

The purchaser will be required to make payment in cash at close of sale.

The purchaser will also be required to satisfy himself as to the interest and title of the defendants. The highest bidder will be the purchaser.

Further particulars may be obtained from the plaintiff's solicitors or the auctioneer.

Dated at Nelson, British Columbia, this 1st day of March, 1902.
