WEALTH OF MANITOBA

Her Farmers Will Have the Sum of $40.000,000 to Divide.

French Shore Matter Now Considered of Importance.

Winnipeg, Jan 3.—Taking the government crop report as a basis on which to figure, it is estimated that the cash value of Manitoba's products to the farmer is in the neighborhood of $40,000,000. These figures are obtained by taking the total yields of the different varieties of grain and potatoes, together with the quantity of poultry and dairy products and figuring out the value at the prices estimated to have been paid to the farmer. The revenue derived from the sale of stock, hay or roots is not included in this estimate as there are no quantities given, but these, of course, materially increase the assets of the Manitoba farmer and give him a large additional revenue.

PREMIER ROSS SILENT.

Appreciates the Earnestness of Prohibitionists But Promises Nothing.

Toronto, Jan. 3.—Premier Ross received a deputation from the Dominion Alliance and the Methodist church today anent prohibition. In reply Mr Ross said he appreciated the earnestness of the prohibitionists and their appreciation of the gravity of the situation. All that had been said would receive the careful attention of the government. The house would meet at an early date. That was as far as he was prepared to go at present.

The Evening Telegram's London cable says: "Interest in the Newfoundland and the French shore question is awakened by the reply received from one of the highest officials of the Newfoundland government in regard to the long standing controversy.

The Daily Express considers the reply a remarkable arraignment of the colonial office. It goes on to say: This country is surely not a people to condone the perpetration of insult and injury to loyal British subjects as a sop to the unconscionable pretensions of a foreign nation.

The Morning Post observes that the French government has more than once shown a disposition to make concessions which have not always been appreciated by the people of Newfoundland.

Hon. J. I. Tarte is in town, today, looking over public buildings preparatory to making up the estimates. It is understood that some substantial appropriations will be made for Toronto.

FATALITIES IN NOVA SCOTIA.

Two Drown at Lobster Traps—Two Killed in a Mine.

Halifax, Jan. 3.—Clarence and Arnold Goodwin, sons of Capt. W. H. Goodwin, Argyle, Yarmouth County, were drowned today while hauling lobster traps

D. Melausen and James De Grasse were killed at Springhill mines this morning by a heap of stone falling on them.

GAS GENERATOR EXPLODES.

Owen Sound, Jan. 3.—The acetylene gas generator in the C. P. R. round house exploded at 7 o'clock this evening. Thos. Gordon was so badly injured that if he lives he will be crippled for life. The explosion was felt all over town and wrecked most of the windows in the Pacific hotel.

FIRST HOCKEY GAME.

Winnipeg, Jan. 3.—The Winnipeg Victorias defeated the Winnipegs 8 to 3 in the first senior hockey game of the season played at the Auditorium rink tonight. The Stanley Cup holders are in fine form and promise to make it interesting for the Toronto Wellingtons when they come west for the cup.

WANTS CANADIAN SCOUTS.

Ottawa, Jan. 3.—The War office today cabled accepting offer of Canadian government to send five Canadian nurses [illegible] Governor-General asking him to arrange to send out some trained scouts.

DISCUSSING IMPROVEMENTS.

Large Sums to Be Spent by the C.P.R. in the West.

Montreal, Jan. 3.—R. Marpole, general superintendent of the Pacific division of the C. P. R. arrived here tonight to take part in the annual conference of superintendents of the company at which improvements to be made during the coming summer are discussed. It is understood that the improvements west of Winnipeg will be very heavy next summer.

ELEVATOR FOR QUEBEC.

Quebec, Jan. 3.—Capt. Wolvin, of Duluth, and G. Smith, of Buffalo, had a conference with the harbor commissioners as a result of which the latter granted to a syndicate organized by Capt. Wolvin, a site for an elevator on the Louise embankment for shed accommodation. The estimated cost is $1,000,000. One year is given for getting the plant in working order.

CRIMPING AT PORTLAND.

French Papers Urge Diplomatic Action to Prevent Abuse.

Nantes, France, Jan. 3.—Le Petit Phare published a leading article today entitled the "White Slave Trade," in which the paper follows up the charge of crimping methods employed at Portland, Oregon, contained in a letter signed by eight French captains and dated Portland, November 22nd, and published by this paper on December 28th in which the writers ask the French consul-general at San Francisco to intervene and demanded a government inquiry into the subject. Today's article contains extracts from the letters of the French captains showing that 87 French sailors were beaten and deserted their ships at Portland during the month of November. Le Petit Phare urges that French diplomatic action be taken in this matter and says: "This scandal must cease. It extends even to San Francisco. It is not worth the trouble for the French parliament to vote premiums to our merchant marine simply to fatten these pirates and permit them to sell French sailors like cattle at a fair."

THEY SHUT THEIR EYES.

Crowd With Shot Guns Surround Burglars But All Escape.

Camden Point, Mass., Jan.3.—Four masked robbers entered the Bank of Camden Point and wrecked the vault with dynamite early today. A. P. Sarrhurst, assistant cashier, and H. F. Rixey, a local merchant, returning from a country dance passed the bank just as the explosion occurred. Hastily arming themselves with shotguns and summoning a small posse, they surrounded the bank and opened fire on the robbers. After a fusilade lasting several minutes in which one of the robbers was shot in the shoulder the burlgars retreated from the bank, ran to the railway tracks and escaped on a hand car. They secured no booty. Several armed posses are searching for the robbers.

EXPRESS CASHIER MISSING.

Cincinnati, Jan.3.—John G.Thomas, cashier of the Wells, Fargo Express Co. in this city, was reported to the police today as mysteriously missing since Monday night. An examination of his books and accounts shows every thing correct and there is no clue to the cause of his absence. He came here 12 years ago from St. Louis where his parents live.

WATCHING SOUTH AMERICA.

Saturday Review Sees Danger in United States Aggression.

London, Jan. 3.—The Saturday Review will print a remarkably free spoken editorial in which it strongly advises Great Britain to form a working alliance with Germany in order to check the continued and apparently inevitable advance of the United States into South America.

A PRINCELY GIFT.

Sir Ernest Cassol Places £200,000 at the King's Disposal.

London, Jan. 4.—Two hundred thousand pounds have been placed at King Edward's disposal for charitable or utilitarian purposes, according to the Daily Mail, by Sir Ernest Cassol, a merchant and financier who was prominent in Egyptian finance and who was made a Knight Commander of St. Michael and St. George for his services in that field.

King Edward has decided to devote this gift to a sanitarium which will accommodate 100 patients. Twelve of the beds are to be reserved for wealthy sufferers, while the remainder will be for those who are only able to afford a small fee. King Edward has appointed an advisory committee in this matter.

Three prizes of £500, £200 and £100 respectively, have been offered in connection with this scheme for the best essays on and plans for the construction of the sanitarium and the advisory committee will be guided by the result of this competition in the execution of His Majesty's wishes. The competition is open to medical men of all nationalities. Sir William Henry Broadbent, when interviewed on this subject, explained that it was intended to employ the open air treatment for consumptives, the success of which he said was now absolutely established. Sir William was unable to give details but said he believed the sanitarium would be within easy distance of London for it had been shown that the open air treatment could be conducted almost as successfully in England as in Switzerland.

The papers all publish editorials applauding King Edward's purpose and the noble gift which was enabled His Majesty to carry out the idea which he has so much at heart.

It is understood that King Edward will be compelled, much against his wishes, to ask parliament for a grant towards the Queen Victoria memorial. The hope that enough money for this purpose would be raised by public subscription has not been realised. Only £185,400 have thus far been subscribed and this sum will not nearly suffice.

MINISTRY FAVOR SALE.

Probability Good For Sale of the Danish West Indies.

Copenhagen, Jan. 3.—The Dannenburg, owned by the minister of justice, publishes an editorial today deprecating the demand for a plebiscite on the subject of the sale of the West Indies based on the same privilege being claimed for Schleswig. It says the inhabitants of Schleswig (Prussian province of Schleswig-Holstein) are Danes by origin, language, education and sympathy, while the people inhabiting the Danish West Indies are mostly negroes not even speaking Danish and adds that such a comparison is injurious to the Schleswig cause.

The editorial, however, accepts the Monroe doctrine being applied to the Danish West Indies and does not favor the proposal to transfer the islands to Germany in exchange for Schleswig. The ministry is united in favor of the sale. The Landsthing or upper house is controlled by the opposition but it will undoubtedly consent to the sale of the islands. The Rigsdag, or Danish parliament, reassembles on January 10th.

STATEMENT OF CLAIM.

Germany Has Handed Venezuela a Demand For Settlement.

Berlin, Jan. 3.—It has been officially announced here that the German charge d'affaires at Caracas, Herr Von Pilgrim-Balazzi, has handed President Castro a note in which the German claims against Venezuela are clearly defined and in which a limit of time is set for President Castro's answer thereto. This unofficial announcement at the same time, points out that the handing of the note in question to the Venezuelan president cannot be considered an ultimatum from Germany, since the note does not contain any reference to Germany's future action with regard to Venezuela.

ANOTHER SMALLPOX CASE.

Recent Entrance Examination Saves the Rossland High School.

Rossland, Jan.3.—The total amount expended by the city on street work during the year just closed was $6,903.44.

Ten pupils from the public school passed the high school entrance examination recently held. These will bring the attendance at the high school above the minimum limit required by the School act.

Another case of smallpox was discovered today, a man named Wood living on First avenue. There is no knowedge of how he contracted the disease, unless it was in the Central hotel. The two cases reported yesterday are rather severe.

GOES DOWN IN OPEN SEA

Str. Walla Walla Sinks a Few Minutes After a Collision.

Twenty Persons Drowned. Remainder Have Narrow Escape.

San Francisco, Jan. 3.—A collision at sea early on Thursday morning between the steamship Walla Walla and an unknown sailing vessel resulted in the sinking of the steamer and the probable loss of at least 20 lives. The Walla Walla is owned by the Pacific Coast Steamship Company and sailed from San Francisco on January 1st for Puget Sound ports. She carried 36 first class passengers, 28 second class and a crew of 80 men. When off Cape Mendocino on the California coast at 4.10 o'clock on Thursay morning, an iron bark, believe to be French, looms up in the haze and crashed into the Walla Walla's bow. Then the sailing vessel slid off into the darkness and was seen no more. All the passengers and crew of the Walla Walla except the few on watch, were asleep but were aroused by the crash. The steerage quarters were in the bow and it is believed some of the steerage passengers and crew were crushed to death. A big hole was made in the steamer's bow and she sank in 35 minutes. The officers and crew maintained strict discipline and boats and life rafts were lowered. All who were not killed in the collision got off except Capt. Hall who went down with his ship. He was picked up later by one of the boats uninjured with the exception of a few bruises.

A choppy sea was running and the small boats could not make a landing on the shore a few miles distant. They drifted about all day and finally 65 people were picked up by the steamer Dispatch which took them to Eureka Another boat under command of Engineer Brown and containing 13 persons attempted to land at Trinidad and was swamped. John Wilkinson, quartermaster; William Martol, fireman; L. Drube, passenger and three unnkown men were drowned. Those in the boat who were saved were Engineer Brown, Fireman John McClelan, Coal Passer William Shinn, Sailor O'Leary, Chief Cook Marshall and passengers Wm. B. Smith and Wm. Morehouse. When the Dispatch reached Eureka this morning with the survivors, tugs were immediately sent out for the missing boats. The tug Ranger picked up one containing eleven passengers and three of the crew.

The Walla Walla was valued at about $250,000. She was formerly used as a collier and about 10 years ago was converted into a passenger vessel at a cost of $175,000. The vessel was insured for about $200,000.

Eureka, Cal., Jan. 3.—The tug Ranger has arrived with a boat containing 11 passengers and three of the crew of the Walla Walla. One boat with seven people in it, arrived at Trinidad, 30 miles north of here.

As soon as the crash occurred boats and life rafts were launched and under the direction of Capt. Hall and his crew, most of the passengers were placed safely on the rafts and life boats, but it is believed, that the loss of life will be considerable. Tugs have been sent from here to the scene of the wreck. The Walla Walla carried 26 first class passengers, 28 second class and a crew of 60 men.

The following passengers were booked for Victoria: Mrs. Capt. Johnson, E F Adams, L Hanselman, Mrs Hastings, E J Hastings, W Tubler, R Nevans. For Vancouver: J H Brown and wife, Mrs R S Edgar, W B Moire.

Capt. A. L. Hall, master of the wrecked steamer, gives a graphic account of the disaster. He says: We left San Francisco on Wednesday being bound for Victoria and Puget Sound points. The weather thickened as the night advanced and on Thursday morning a heavy fog accompanied by a light rain set in about 4.10 a. m. I was suddenly awakened by an awful crash on the port side, well forward. Second Officer Luke was on watch at the time. The housing, especially in the vicinity of my cabin was shattered, the main force of the collison striking her just forward of my stateroom. My bunk was struck and thrown across the room on my table.

After the crash the vessel, which I think was a French bark, judging from the language used by her sailors, rebounded and grouped alongside. I called to her to stand by. She drifted by and was lost to view. I could not tell how badly she was injured but I do not imagine she was severely hurt as she struck us bow on, and though her forward rigging must have been broken, it is not likely her hull suffered materially.

Those of the passengers who had not been awakened by the crash were aroused at once. The vessel began to fill immediately and she sank in 35 minutes. There was no confusion on board. The officers and crew kept the passengers from becoming panic stricken. The crew was immediately ordered to man the life boats and rafts and an effort was made to save the baggage. This was given up, however, the vessel filling at such an alarming rate that no thought was given but for the safety of the passengers.

I gave orders to have the port boilers blown out, that being necessary to give the vessel a list to keep the gaping hole in her side out of the water. In a few moments all the lifeboats and rafts were out with the exception of two which were smashed. One of these boats contained nine or ten passengers. All were thrown into the water but managed to board a life raft which had been launched a few previously. The second boat was smashed by striking a heavy object in the water, but all the passengers were rescued by another life raft.

We had 65 first and second class passengers on board and 160 souls all told. We had no knowledge of the vessel which struck us, the weather being so thick she was not seen until we had been struck. It was very dark at the time and the uncertain light interfered to a great text with the rescue of passengers. I remained on board assisting them. I went down with the ship. After I had been down, I don't know how long, the social hall deck broke off and I floated to the surface with it. Sighting a life raft I commenced swimming and succeeded in reaching it after a hard struggle and was pulled on board by the three occupants. We floated about all day and early in the evening were picked up, two miles to the north of the wreck by the steamer Dispatch which was proceeding to Seattle.

From the information I have concerning the rescue of the passengers and crew I am not able to state how large the death list will be but in my opinion it will not be less than 20 and possibly may reach 40 or more. A number were injured by the falling timbers. It is almost certain a number of the steerage passengers perished in this manner. The housing of the forward part was split into matchwood. While not very rough, the sea was nasty and choppy and the continual wash over the rafts was a hardship especially to the ladies, many of whom were nearly in the last stages of exhaustion when picked up by the Dispatch.

The list of survivors at Eureka includes the following first cabin passengers: AB McLellan, San Francisco; Mrs C Hastings, Victoria; Mrs R F Edgar, San Jose; Mr and Mrs Jacob Miller, Seattle; Joseph Roberts, San Francisco; Miss Gertrude A Cadien, San Francisco; Mrs J L Timmons, Dawson; Chas. P West, San Francisco; F W Daly, Everett, Wash.; Theo Naight, Los Angeles; Dr F F Adams, San Francisco; Albert Meydenbauer, Lakeport, Cal.; John Gilbert, San Francisco; J A Sell, Tacoma; Mrs A F Stream, E Stern and wife, Tacoma; Mrs Meydenbauer, Lakeport, Cal.; Miss Rose Peters, F L M Smith, F L Stream and wife, J H Brown and wife, Miss Williams, Miss Millogan, W P Sanders, San Francisco.

At 10 o'clock tonight it is impossible, owing to the confusing lists of survivors received from Eureka, to determine the names of the lost and missing in the wreck of the steamer Walla Walla. According to the compilations of the Pacific Coast Steamship Co. all but 27 have been accounted for. The known dead are seven, as follows: John Wilson, quartermaster; Wm Barton, fireman; L Brule, a passenger, and four others whose names have not been learned. The remainder are supposed to be adrift at sea in three boats and two rafts. Fourth Officer Brown, Third Officer Holdren and a boatswain are in charge of the boats. First Officer Nelson and Second Officer Luke are each in charge of raft. News of their being picked up by passing vessels is expected at any time.

PROBABLY THE EUROPE.

Portland, Jan. 3.—Shipping men here believe that the vessel which was in collision with the steamer Walla Walla is the four masted French bark Europe. The Europe left here December 11th for Queenstown, with a cargo of wheat. Under ordinary weather conditions the Europe would have been further on her journey, but for several weeks the weather has been rough and it is very probable, shipping men say, that the Europe was the vessel in collision. She carried a crew of 30 men.

MAY VIEW THE CORONATION.

Two Officers to Accompany the Civilian Representative.

Washington, Jan 3.—It is understood that a way may be found by which two naval officers of high rank will take part in the coronation ceremonies at London The question of selecting officers for this service has not yet been considered by the president and the secretary of the navy, but the prospect that such selections will be made has caused much speculation in naval circles. The present indications are that the president will select a civilian representative for the coronation and also one officer of the army and one officer of the navy to accompany this civilian. Quite apart from this the navy will be represented by a squadron in English waters, with a rear admiral in command. The effect of this arrangement will be to place two naval officers of high rank in service in connection with the coronation.

PART OF THE UNITED STATES.

Will Establish Civil and Criminal Courts on Canal Belt.

Wshington, Jan. 3.—Some of the main features of the protocol between the United States and Nicaragua referred to in President Zelaya's message to his congress, have been made known in recent press despatches from Managua. But there are many other important features which have not yet been disclosed, one of these being the complete American jurisdiction and the establishment of American courts, civil and criminal, throughout a zone six miles wide and extending from ocean to ocean, and including the proposed termini, Greytown on the Atlantic, and Brito on the Pacific. The entire policing of this large tract also is placed in the hands of the United States, so that it has the power to preserve order and after that to issue judicial process extending throughout this zone.

THE COLORED MAN LEADS.

St. Louis, Jan. 3.—At the end of the second day of the go-as-you-please match, Shelton, the New York colored man, still leads. Cartwright, the Englishman, is second and Trace, of Kinderhook, is third. At 10 o'clock the score is: Fleming 147.1; Carwrigh, 216.1; Tracey, 212.1; Cavanaugh, 180.13; Hegelman, 182.7; Noremac, 200.1; Hart, 206.1; Guerero, 122.9; Shelton, 225.10; Kid West, 134.13; Richardson, 147.1.; Loeslein, 187.9.

FINISHED THE 1,000 MILES.

Boston, Jan. 3.—At the close of the day, the 50th hour of the six day bicycle race, the following leaders had made 1,000 miles 7 laps: Freeman and Munroe, McLean and Butler, McFarland and Maya, Gougelt and Simar, Leander and Butz, King and Samuelson. The scores of the others were: Fisher and Chevalier, 1000.5; Krebs and Keegan, 1000.4; Muller and Jaak, 1000.

ASSERTED HIS INNOCENCE.

Seattle, Jan. 3.—W. K. Seaton was hanged today for the murder of his uncle Daniel Richards, on Dec. 6th, 1900. Seaton died asserting that he was not responsible for the killing of his uncle. Seaton, armed with an axe brained his sleeping uncle, Daniel Richards, severely wounded Myrtle Hapgood, aged 7, and Hazel Hapgood, aged 5, and seriously cut his sister Mrs. Roy Clarke, aged 22. He slightly wounded a neighbor, John Kennedy, and received a pistol wound in the neck while resisting arrest.

PORTUGAL SYMPATHISES.

Lisbon, Jan. 3.—The House of Peers today passed a resolution of condolence on the death of the late President McKinley.

BOER PLAN OF CAMPAIGN

Will Desperately Resist Further Building of Blockhouses.

General Bruce Hamilton Captures Another Boer Laager.

Pretoria Jan. 3.—General Dewet has ordered the Boer comamndants to retard at any cost the work of extending the British block houses. Further fighting may consequently be expected.

General Bruce Hamilton has captured another Boer laager and 22 prisoners on the Swaziland border.

LORD ROBERTS' STATEMENT.

Boer Women Have Not Been Ill-treated by British Troops.

London, Jan. 4.—Lord Roberts has issued an official contradiction of the stories circulated on the continent of the violation of Boer women by the British troops in South Africa and the employment of Boer female refugees for immoral purposes.

A REVERSE FOR HEINZE.

Injunction Affecting Boston and Montana Affairs Dissolved.

Butte, Jan. 3.—Judge Knowles in the United States court has dissolved the injunction which John MacGinnis, a minority stockholder of the Boston and Montana Mining company had objected to the payment of dividends to the Amalgamated Copper company and to prevent the latter and its officers from voting stock and controlling the affairs of the Boston and Montana company. Several million dollars in dividends were tied up by the injunction.

ANOTHER VICTORY FOR GANS.

Baltimore, Jan. 3.—Thomas Broderick, of Yonkers, was knocked out tonight by Joe Gans, of Baltimore, in the sixth round of a fight scheduled for 20 rounds at the Eureka Athletic club. Broderick was the aggressor for the first two rounds and knocked the negro down in the second with a ring swing on the jaw, Gans staying down the limit. Then Gans went in to finish his man but Broderick was shifty. There was lively infighting in the fifth round and a stiff uppercut on the chin sent Broderick down for the limit. Just after the beginning of the sixth Gans shoved back Broderick's face with his left and landed a hard right chop on the jaw which put the Yonkers man out.

FOUGHT A DRAW.

Philadelphia, Jan. 3.—Bobby Thompson, of Toronto, and Billy Devine, of this city, fought six fast rounds to a draw tonight at the Central Athletic club. Both men were in fine condition.

James Ferns, of Kansas City, knocked out Jack Bennett, of McKeesport, Pa., in the second round tonight at the Industrial Athletic club. The fight was to have gone six rounds.

OTTAWA'S RICH ORE.

Up to Saturday night the drift on the Ottawa had penetrated the ore chute 21 feet and there was no diminution in size, while the ore, if anything, was getting richer. A test sample of the paysteak was sent to the Trail smelter and the returns showed 1,329 ounces silver, 1 1-2 per cent. copper and 1-8 of 1 per cent. lead. In the 21 feet driven the average width of the shipping ore is 2 1-2 feet and the above assay, the bonders assert, now represents the value of the entire streak. Another assay upon 37 sacks of sortings from the first-class ore gave 222 ounces silver. Supplies and several thousand feet of lumber are being taken up for the building of a new messhouse and ore shed, as the lessees expect shortly to increase the working force. Ore is being sacked up daily and two carloads are to be sent out by January 20th. Some of the ore is valued at $1 per pound. The lessees have become most enthusiastic over their holding and are asking $100,000 for their rights.

AN EVIL TO BE REMEDIED.

There has been considerable objection to government by injunction both in Canada and the United States. In the latter country it has asumed the proportions of a national evil and the hue and cry against it has been long and loud. It has been the practice, principally of the United States judiciary, to issue injunctions, which were sweeping in their character and covering a multitude of acts; some of these acts were not in the statute books, but were made criminal acts by the mere dictum of the judges. Those violating the letter or spirit of these orders was brought into court charged with contempt of court and without the option of trial by jury were found guilty and sentenced to such terms of imprisonment as the courts might dictate. At times the courts, it is claimed, have been arbitrary in the exercise of the extraordinary power. One trouble has been that the United States Supreme court, which is the appelate court of the United States Circuit and District courts, apparently jealous of the scope of the powers of the Federal judiciary, has sustained the latter courts in what a number of eminent jurists considered was an usurption of powers, which they did not really possess under the constitution The principal and most valid objection to this form of government by injunction is that it takes away the right of trial by jury. This right was first granted by Alfred the Great in the Ninth Century and though subsequent kings sometimes tyrannically set the right aside it continued intermittently in force until the Barons compelled King John to sign the Magna Charta in 1215. From that time the right of trial by jury has been the bulwark of the liberties of the English speaking peoples. In the United States this right was copied into the Federal constitution and is one of its strongest articles. It is also a part and parcel of the constitutions of the states. It is, therefore, held and rightly, too, that under the cloak of contempt of court proceedings the judiciary has exercised powers which have been denied to powerful English kings—the right to try and condemn without trial by a jury.

The injustices which have been perpetuated by government by injunction, which set aside the liberties of the people and placed them at the mercy of egotistical and tyrannical judges and under which considerable wrong was inflicted on the people, has finally attracted the attention of the lawmakers of the United States and a bill has been introduced which it is thought will remedy the evil by Representative C. L. Bartlett, of Georgia, in the house of representatives.

This bill divides contempt of court into two general classes, direct and indirect contempt. For contempt of the indirect class, that is contempt not in the court room, all persons thus charged are to have the right of trial by jury, which is denied them under the existing laws. For direct contempt, that is, contempt committed in the court room, the judge may punish summarily.

This law should and doubtless will be adopted by the American house of representatives and the senate and it will do away with government by injunction and prevent further wrongs which have grown up under the system. The attitude of some of the judges is like that in the story of the American backwoods justice of the peace who was drinking at a bar when he fancied that he had been insulted by a fellow inebriate and said to the offender, "I fine you $5 for contempt of court." "The court is not in session and you can't fine me," said the ruffler of judicial dignity. "I want you to distinctly understand," replied the court with all the dignity that was possible under the circumstances, "that this court is always an object of contempt—no matter where it may be."

THE MINERAL PRODUCTION.

The Miner's estimate of the mineral production of Yale and Kootenay has caused considerable dicussion and the more it is discussed the more its approximate accuracy becomes apparent. The estimate of the production of Nelson district is below the actual output rather than above. That for Rossland is calculated at $13 a ton which is low enough when it is remembered that all the ore shipped from the Centre Star has averaged upward of $16 a ton and that from the Le Roi No. 2 upward of $17. Though these mines have not been such large shippers as the Le Roi has been, taking the value of the ore from the latter as given in the reports of the managers, namely in the vicinity of $12, each ton of ore from the Centre Star raises the average of three tons of that from the Le Roi $1, and each ton of Le Roi No. 2 on five tons. The average from the smaller mines of the Rossland camp has been high, that from the I. X. L. and the Velvet being particularly so. The shipments from the I. X.L. averages over $100 to the ton.

At to the Boundary though $6 ore can be profitably worked, in quarrying out as large a body as that of the Knobhill and Old Ironsides much of a higher grade is encountered, while the average of the other mines is very much higher, particularly that of the Mother Lode and B. C., and their output alone would raise the average of all Boundary ores, taking that of the Granby properties at $6, to $9. In The Miner the Boundary output was calculated at $9.

Some very high grade ore has been shipped from the Slocan, higher than the owners usually care to admit, and this will bring the actual output up to all The Miner claims it to be. In the Slocan there are several mines which have made small shipments, generally of very rich ore, whose names do not appear in the list of shippers published but the value, though the quantity is small, helps to swell the total. It must be remembered that there are two mines in the Lardeau which are producing ore at the rate of about 125 tons a week and as none but high grade ore from this district will pay with present means of transportation, the increase over last published returns is considerable. The isolated mines are usually so far from railway communication that again only high grade ore can be shipped with profit.

The output of the lode mines for 1900 was upward of $10,000,000 and the increase in the quantity mined in Rossland and the Boundary alone would make the amount of the increase in value which The Miner estimates. The Lardeau in 1900 exported almost none so that these districts alone can account for the larger ouptut. The Miner aimed at having its estimate below rather than above the actuality and is firmly confident that it is very near the mark.

ENLARGING CENT BELT.

Copper cents are not much in evidence in Western Canada. They are freely used in the Eastern portion of the Dominion and a few have crept into circulation in Manitoba. Further west, however, they are looked down upon and derided so much that it will take some time before they are regularly recognized as a circulating medium. Here in the Kootenays we have not very much love for the nickle. In Dawson quarter of a dollar is the smallest change recognized, and anyone attempting to circulate coppers would be thought to be a fit subject for public scorn and contumely. The West has not yet reached the cent era, but doubtless in the due course of time they will circulate quite as freely, as they do in the east.

An attempt was recently made to introduce coppers in Calgary and it has met with conside able opposition. The Calgary Herald raises its voice as follows against the innovation: The Herald's protest against the introduction of coppers in Calgary by the Bank of Montreal has aroused numerous comments from the Western press. The Edmonton Bulletin, Frank Oliver, M. P., editor-in-chief, says: "Possibly the bank did it to meet a supposed popular demand, but it acted on misinformation." The Bulletin adds the following naive remark: "What the Bank of Montreal or any other bank should do to be popular is to introduce large numbers of five dollar bills in circulation, the more the better, and still better if they made them tens. It is the large change we want and plenty of it." Another paper says the introduction of coppers is "an insult to the spirit of the West." The Alberta Plaindealer, published in Strathcona says: "Coppers may be very useful in a staid old province like Ontario, but in the West we want none of them. Silver is cheap enough for us." Other papers have copied the Herald's remarks approvingly. From the opinions expressed by business men and others in the city, the introduction of coppers is looked upon with unmitigated disgust, and if the management of the Bank of Montreal do not wish to deliberately run foul of public sentiment in this city and district, they will reconsider the matter and withdraw the obnoxious copper from circulation.

A ROYAL SANITARIUM.

King Edward has received a gift of £200,000 or $1,000,000, from Sir Ernest Cassel, a merchant and financier, which can be used for charitable or utilitarian purposes and has decided to devote the sum to a sanitarium which will be devoted to the cure of those afflicted with consumption. The king has for a long period taken a deep interest in the cure of the dread disease consumption and had for some time desired to see what could be accomplished in a properly equipped sanitarium and now the gift made by Sir Ernest Cassel will give him an opportunity of carrying his good intention into effect. Doubtless in an establishment like that which the king will found, important discoveries in the way of successful treatment of the disease will be made. Actions like this on the part of His Majesty show that he has inherited the humane characteristics of his great and good mother, that he is like her in many ways and give assurance that his reign will be a wise and beneficent one to the people he has been called on to govern. That His Majesty is broad and has nothing provincial or insular about him is shown in the fact that the medical men of all nationalities will be allowed to compete for the three prizes which he has offered for the best essays on the plans for the construction of the sanitarium.

Any person owing postoffice box rent for 1901, will please pay it at J. A. Gilker's store.

ASTHMA CURE FREE!

Asthmalene Brings Instant Relief and Permanent Cure in all Cases.

SENT ABSOLUTELY FREE ON RECEIPT OF POSTAL

WRITE YOUR NAME AND ADDRESS PLAINLY.

There is nothing like Asthmalene. It brings instant relief, even in the worst cases. It cures when all else fails.

The Rev. C. F. WELLS, of Villa Ridge, Ill., says: "Your trial bottle of Asthmalene received in good condition. I cannot tell you how thankful I feel for the good derived from it. I was a slave, chained with putrid sore throat and asthma for ten years. I despaired of ever being cured. I saw your advertisement for the cure of this dreadful and tormenting disease, Asthma, and thought you had overspoken yourselves, but resolved to give it a trial. To my astonishment the trial acted like a charm. Send me a full size bottle.

Rev. Dr. Morris Wechsler.
Rabbi of the Cong. Bnai Israel,
NEW YORK, Jan. 3, 1901

DR. TAFT BROS. MEDICINE CO.,
Gentlemen: Your Asthmalene is an excellent remedy for Asthma and Hay Fever, and its composition alleviates all troubles which combine with Asthma. Its success is astonishing and wonderful. After having it carefully analyzed, we can state that Asthmalene contains no opium, morphine, chloroform or ether. Very truly yours,
REV. DR. MORRIS WECHSLER.

AVON SPRINGS, N. Y, Feb. 1, 1901.

DRS. TAFT BROS. MEDICINE CO.
Gentlemen: I write this testimonial from a sense of duty, having tested the wonderful effect of your Asthmalene, for the cure of Asthma. My wife has been afflicted with spasmodic asthma for the past 12 years. Having exhausted my own skill as well as many others, I chanced to see your sign upon your windows on 130 th street, New York, I at once obtained a bottle of Asthmalene. My wife commenced taking it about the first of November. I very soon noticed a radical improvement. After using one bottle her Asthma has disappeared and she is entirely free from all symptoms. I feel that I can consistently recommend the medicine to all who are afflicted with this distressing disease.
Yours respectfully, O. D. PHELPS, M. D.

DR. TAFT BROS, MEDICINE CO, Feb. 5, 1901.
Gentlemen: I was troubled with Asthma for 22 years. I have tried numerous remedies, but they have all failed. I ran across your advertisement and started with a trial bottle. I found relief at once. I have since purchased your full-sized bottle, and I am ever grateful. I have a family of four children, and for six years was unable to work. I am now in the best of health and am doing business every day. This testimony you can make such use of as you see fit.
Home address, 235 Rivington street, S. RAPHAEL,
67 East 129th St., New York City.

TRIAL BOTTLE SENT ABSOLUTELY FREE ON RECEIPT OF POSTAL.

Do not delay. Write at once, addressing DR. TAFT BROS, MEDICINE CO., 79 East 130th St., N. Y. City.

JANUARY APPEALS.

Some Interesting Kootenay Cases to Be Heard in Victoria Next Week.

In the case of Marino vs. Alexander Sproat, and McInnes, the appeal will be heard at the sitting of the Supreme court at Victoria next week. This appeal came up at Vancouver in November when it was adjourned to January 7th for hearing to permit of the plaintiff cross-examining the defendants. Affidavits were made that alleged the discovery of important documents which it was charged that Marino had kept secret at the time of the trial. The cross-examinations have been held and the appeal will now be heard. Sensational developments are stated to have taken place with regard to the lost documents in the cross-examinations. The appellant Sproat will be represented by S. S. Taylor, K. C., while E. P. Davis will represent the appellant, McInnis. The respondent plaintiff will be repesented by C. Wilson, K. C., L. P. Duff, K. C., and John Elliot.

In the re Florida Mining company—Appeal number 3.—The preliminary appeals 1 and 2 were allowed at the last sitting of the court, and the principal appeal now comes up for hearing. It is to reverse the decision of the Mr Justice Irving ordering this company to be wound up, and includes the discussion of the laws of British Columbia as to how far a compulsory winding up can be operative in this province. S. S. Taylor for the appellant company, E. P. Davis for respondent petitioners.

In N. F. McNaught vs. the Van Norman-Harvey company and Balfour and Co.—The defendants are appealing from the judgments of Mr. Justice Irving discharging the executions against the Hampton mine and ordering the sheriff out of possession. This is the famous interpleader action respecting the estate of J. A. McKinnon, and involves the question of the rights of a sheriff when the free miner's certificate of a debtor has lapsed. Sir Charles Hibbert Tupper will appear for the appellant Van Norman Harvey Co., Chas. Wilson and John Elliot for appellant Balfour and Co., and S. S. Taylor for the respondent N. F. McNaught.

The Star Mining Co. vs. the Byron N. White Co.—Defendants are appealing against the order of inspection granted by the chief justice at Rossland, and this appeal will settle the form of order that will be granted in every similar case, as well as the rights of a mine owner to investigate the workings of an adjoining mine when he suspects that such workings extend into his property. E. V. Bodwell, K. C., will represent the defendant appellant, and S. S. Taylor the plaintiff respondent.

Stops the Cough and Works off the Cold.

Laxative Bromo-Quinine Tablets cure a cold in one day. No Cure, no Pay. Price 25 cents

Next week will be the week of prayer in the churches with services to be held every evening except Saturday. The following is the programme arranged: Monday: Methodist church, Rev. Wm. Munroe subject, The Church; Tuesday: Presbyterian church, Rev. J. H. White, subject, The Church's Duty to the Home and School; Wednesday: Congregational church, Rev Dr. Wright, subject, Christian Citizenship; Thursday: Baptist church, Ensign Scott, subject, The Church's Duty to Non-churchgoers; Friday: Salvation Army Barracks, Rev. J. B. Morgan, Prayer for the Reviving of the Spirit. All meetings begin sharp at 8 o'clock.

A LITTLE THING

Changes the Home Feeling.

Coffee blots out the sunshine from many a home by making the mother, or some other member of the household, dyspeptic, nervous and irritable. There are thousands of cases where the proof is absolutely undeniable. Here is one.

Mrs. C. K. Larzelere, Antigo, Wis., says, "I was taught to drink coffee at an early age, and also at an early age I became a victim to headaches, and as I grew to womanhood these headaches became a part of me, as I was scarcely ever free from one.

About five years ago a friend urged me to try Postum Food Coffee. I made the trial and the result was so satisfactory that we have used it ever since.

My husband and little daughter were subject to bilious attacks, but they have both been entirely free from them since we began using Postum instead of coffee. I no longer have any headaches and my health is perfect.

If some of these nervous, tired, irritable women would only leave off coffee absolutely and try Postum Food Coffee, they would find a wonderful change in their life. It would then be filled with sunshine and happiness rather than weariness and discontent. And think what an effect it would have on the family, for the mood of the mother is largely responsible for the temper of the children."

FROM OVER THE OCEAN

W. A. Jowett Returns After a Two Years' Stay in England.

British Columbia Mines Are Not In Very High Favor.

W. A. Jowett is back in Nelson after an absence of two years in the Old Country. He spent the major portion of the time while away in and about London, but made jour eys to Paris, Berlin and other places on the continent, and has come back for an extended stay.

He says that on account of the manipulations of Whitaker Wright and others and the losses occasioned to British public through their investments here the province is in disfavor and it is next to impossible to secure a favorable hearing for any B. C. mining proposition. Hon. J. H. Turner, the agent-general for British Columbia in London, has opened an office in the Salisbury House, Finsbury's Circus, which is within five minutes' walk of the Bank of England, and in a favorable location. The offices of the Le Roi and other British Columbia enterprises are situated in the same building. Mr. Jowett had several conversations with Mr. Turner during which he expressed the opinion that he would be able to do good work for British Columbia, but he thought it would take some time and considerable hard work to turn the tide of British sentiment in favor of the province. Recently the agents-general of all of the colonies approached the directors of the Royal Exchange, whose building is opposite to the Bank of England, for the purpose of inducing them to allow an exhibition of colonial products to be placed therein. This institution has never been used but by Lloyds and other leading underwriters and financial institutions. Sentiment was so universally in favor of the colonies for their patriotism and for the help they are affording the Empire during the war that the request was granted and an exhibition is to be held there. The exhibit from British Columbia which has been at the Paris and Glasgow exhibitions is to be used to form the nucleus for the exhibition here. Mr. Turner would be greatly pleased if all interested would supplement this display as much as possible. The display, located, as it is, in what is the financial heart of the city, should do much in the way of attracting the attention of capital to this province.

As far as the war is concerned, Mr. Jowett said, the minds of the British people is firmly made up and the determination is that nothing but unconditional surrender will satisfy them. They have got to the point that they feel that it should soon be brought to a close, but at the same time they fully realise the difficulties and are prepared to pay the necessary cost, and to wait for a considerable period, if needs be.

While at home Mr. Jowett represented the Nelson Board of Trade at the sessions of the International Chamber of Commerce. The meeting was held in London in June of last year and there were over 600 delegates from all parts of the world in attendance. Canada was very strongly represented. The various meetings were addressed by some of the most eminent business men in London. Lord Camborne, Mr. Ritchie, president of the local government board, Lord Avebury, Lord Strathcona and other prominent men were among the speakers.

Mr. Jowett says he is glad to be back among his Nelson friends and to see the large number of improvements that have been made. The number of residences that have been erected since he left for England, he says, is surprising.

NELSON. B. C.

Show Room for Mason & Risch pianos

THE CITY

A daughter was born to the wife of Constable Allan Forrester, of Robson, yesterday.

The customs collections for the year ending December 31st, 1901, at the port of Nelson were $182,803.10.

B. C. Riblet, contractor for the Silver Hill mine tramway, and H. Roy went up to the mine yesterday.

John McKane leaves today for the Lavina mine on Duncan river. Ore is being rawhided from the mine down to the lake shore.

Percy Chapman, manager for A. McDonald and Co., returned last evening from a trip to Winnipeg which he has not visited for six years.

J. Elliott left last night for Victoria, and S. S. Talyor leaves today to attend the sitting of the Supreme court. They will be away about a week.

The ladies of the W. C. T. U. will meet in the class room of the Methodist church on the afternoon of Monday next, January 6th, at the usual hour.

J. Johnson, who has been running a timber camp up the lake, was brought to Nelson yesterday for medical treatment, a falling limb having give him an ugly gash on the head.

The unseasonable weather being experience at the present time is a great disappointment to the curling, hockey and skating enthusiasts, all of whom were looking forward to a very lively season.

The following are the Inland Revenue collections for December, 1901: Spirits, $2,115.63; malt, $253.50; tobacco, $52.50; raw leaf tobacco, $72.50; cigars, $223.80. Total, $2,717.93.

J. Newman, who had his skull fractured at Robson on Thursday by falling from a car, has improved considerably since he was taken to the hospital, but is still in a semi-conscious state.

Rev. Mr. Frew has signified his intention of not returning to Nelson at present, as his health has not improved as he thought it had. Rev. Dr. Wright has returned to Nelson and will remain a month at least.

A peculiar thing about the customs returns for the past three months is that the importation of general goods has increased considerably while the amount of liquors brought into the city during the same period show a marked decrease.

The Kokanee yesterday brought down a carload of ore from the Molly Gibson for the Hall Mines smelter. The bad state of the roads at present make it necessary for the ore to be hauled the last few miles to the landing on wagons, sleighs being used above.

Pastor Morgan who has been confined to his home for over a week past, hopes to be sufficiently strong to take his services in the Baptist church tomorrow. In this case his subjects will be those announced for last Sunday, namely, Forward at the morning service, and Numbering Our Days, for the evening. Everybody welcome.

Tomorrow at Emmanuel church Rev. Wm. Munroe will preach both morning and evening. At the morning serivce the subject of the sermon will be Following Christ, and the sacrament of the Lord's supper will be observed. The subject of the sermon for the evening will be New Year Ideals.

Men in general and women in particular enjoy a toothsome nourishing breakfast food and they find it when they try

Grape-Nuts

The ladies of Emmanuel church will meet on Tuesday afternoon at the home of Mrs. Cameron, corner of Lake and Park streets. All friends are invited to be with them and enjoy a social hour. Mrs Cameron, the hostess, will serve refreshments.

At the record office yesterday J. McRae transferred a one-half interest in his one-third interest in a half interest in the Summit, Sydney, Great Divide, Victoria, Regina and Hardscrabble mineral claims, known as the Summit group, near Summit station on the N. and F. S. railway, to Angus G. Shaw, consideration nominal. J. J. Driscoll transferred an undivided interest in the Lookout mineral claim to J. McRae, consideration nominal; P. Bonnet transferred an undivided interest in the Vetta Tyler claim to A. Goyette, consideration nominal, and also an undivided interest in the Napoleon Bonaparte claim, consideration nominal.

G. M. Keefer and M. Monaghan, who are working the Little Joe claim, which adjoins the May and Jennie mine, took down a quantity of supplies yesterday preparatory to recommencing work on the tunnel that they are engaged in driving. They state that the property is looking very good. A crosscut tunnel is being driven and has penetrated the lead 26 feet without reaching the farther wall and they calculated that the lead is about 45 feet wide from the surface indications together with the results achieved so far. The ore carries $10 in gold values and also some native copper. It is the intention of the owners to complete the crosscutting before closing down for the winter. In the spring they with a number of other prospectors from this vicinity, intend to try their luck at the Horsefly placers.

A fine line of Imported and Domestic Cigars, Peterson's Patent Pipes, Lowe and B. B. B. goods—at Thurman's.

HAS NOT WITHDRAWN.

The rumor was prevalent yesterday that Dr. LaBau had retired from the contest for the mayoralty. Interviewed at a late hour last night, he stated that such was not the case, and that he was in the contest to stay till the end.

COMEDY OF "CONFUSION."

It Was Finely Presented by the Rossland Amateurs.

Last evening at the Nelson opera house the comedy "Confusion" was presented before a good sized audience. The presentation was an artistic one and reflected credit on the people who produced it. The play abounds in whimsical and ludricrous situations which are built up around the misconceptions which arise over the ownership of a baby. In the hands of a skilled playwright, like the one who wrote "Confusion," it is wonderful how many laughable scenes, incidents and sensational climaxes can be made. The members of the company have the true spirit of comedy and brought out all the lights and shadows, the mirth and the pathos with more than ordinary fidelity and the result was a very satisfactory performace, for amateurs, and one which was somewhat better than those often given by some professional companies.

A word as to the personnel of the company, Jackson Rigby as Mortimer Mumbleford, had rather a difficult role, that of a husband who thought he had been wronged, to play, and he did it full justice. Mrs. J. M. Fitzpatrick gave a graceful and correct enaction to the character of Rose Mumbleford. R. H. Hughes brought out the comedy elements in Christopher Blizzard with the ease of a veteran on the boards. Mrs T. B. Linton played the whimsical old maid character of Miss Lucretia Tickley true to life. Harold M. Ellis, who was cast as Rupert Sunbury, a dudish Britisher, had a part that suited him well and there were times when he certainly held to advantage the centre of the stage. He would make a success as a professional. Miss Lillian Renwick was sympathetic, graceful and artistic as Violet. W. J. Nelson gave an ornate rendition to the part of Dr. Bartholomew Jones, and was heartily received when he first made his appearance. Thomas Lewis was seen to advantage as the policeman in plain clothes. Paul Renwick gave a creditable enaction to James, the servant, and the father of the baby that caused so much trouble. Mrs. R. H. Hughes won applause as Jane, and her coon and other songs and in the duet with Mr. Ellis, were well received.

ROSSLAND'S FIRE LOSSES.

Rossland, Jan. 3.—In his annual report to the city council for the year Chief Guthrie states that during the past year there have been 33 alarms of fire as follows: Box alarms 25, telephone alarms 5, still alarms 3.

Cause—Stovepipes 10, chimneys 6, lamp explosion 1, gasoline 1, candles 2, electric light wires 2, stoves 3, ashes 1, cigars 1, locomotive 1, unknown 3, suspicious 2. Total loss by fire, $10,115; total insurance, $6,750. Loss over insurance, $3,365.

TYPOGRAPICAL UNION BANQUET.

Rossland, Jan. 3.—The fifth annual banquet of Rossland Typographical Union No. 335 was held at the Kootenay Hotel Thursday evening. The president of the union, Mogan O'Connell, occupied the chair and H. W. C. Jackson was one of the invited guests. The dinner was served in the Kootenay's best style and the songs and speeches of the evening were all well rendered and well received.

THE BLACK HUSSAR.

Frank Provost came in from the Black Hussar, on the first north fork of Lemon creek on New Year's day, says the Slocan Drill. He and J. Radcliff, the owners, have been putting their camp into shape for active work. They have sent up supplies and intend to do considerable development. The main work will be centered on the crosscut being run to tap the lead, which cut will open up a large amount of stoping territory. The property has excellent outcroppings of ore, chiefly galena, and it is looked upon as a shipping proposition.

NO ENMITY FOR AMERICA.

Rome, Jan. 3.—The Giornale di Italia of today publishes an interview with M. Delcasse, the French Minister of Foreign Affairs in which he refers to the friendly relations of France with the United States and Great Britain. He says: These are our best markets and we welcome the riches of America which has need of our articles of luxury. With regard to the American invasion, M. Delcasse said the best course is to seek to copy American systems.

PREPARING FOR INTERVENTION.

Paris, Jan. 3.—The Courier du Soir publishes a report this evening to the effect that the United States is preparing the way for intervention by the powers in South Africa.

DON'T LET THEM SUFFER.

Permanent Cure for Catarrh. That is What a Well-known Toronto Gentleman Says About Japanese Catarrh Cure.

Mr. John Sloan, 78 McGill st., Toronto, writes: "I have had catarrh in the most disagreeable form for years; have at times got remedies which would relieve me, but nothing to cure me completely, until I tried Japanese Catarrh Cure. From the very first it gave me much relief, and every day's use showed a marked improvement. I used in all six boxes, and it has completely cured me. It certainly does all claimed for it, which I cannot say for scores of other remedies tried, and I feel it my duty to attest my appreciation of anything so worthy. All druggists, price 50 cents, or mailed by the Griffiths and Macpherson Co., Limited, 121 Church street, Toronto.

NOTICE

TO THE ELECTORS OF THE CITY OF NELSON:

In response to the numerous requests from property owners, and ratepayers, I offer myself as a candidate for Mayor of the City of Nelson, at the approaching Municipal Election. Very respectfully,

D. LABAU.

Jan. 2nd, 1902.

Corporation of the City of Nelson.

NOTICE

Public notice is hereby given to the electors of the Municipality of the City of Nelson that I require the presence of the said Electors in the Council Chamber at the City office on Josephine street in the City of Nelson, on Monday the 13th day of January, 1902, at 12 o'clock noon, for the purpose of electing persons to represent them in the Municipal Council as Mayor and Aldermen and for the further purpose of electing persons to represent them in the Board of School Trustees for the City of Nelson.

The nomination of candidates shall be as follows: The candidates shall be nominated in writing. The writing shall be subscribed by two voters of the Municipality as proposer and seconder and shall be delivered to the returning officer at any time between the date of the notice and 2 p. m. of the day of the nomination and in the event of a poll being necessary, such poll will be opened on the 16th day of January, 1902, between the hours of 8 o'clock a.m. and 4 p. m., for the East Ward at the City office on the East side of Josephine Street, between Victoria and Baker streets and for the West Ward at the office of Ward Brothers, on the North side of Baker Street between Stanley and Kootenay streets, of which every person is hereby required to take notice and govern himself accordingly.

The persons qualified to be nominated for and elected as Mayor, shall be such persons as are male British subjects, of the full age of twenty-one (21) years and who are not disqualified under any law and who have been for the six (6) months next preceding the day of nomination, the registered owner in the Land Registry office, of land or real property in the City of Nelson, of the assessed value on the last Municipal Assessment roll of $1,000.00 or more, over and above any registered encumbrance or charge and who are otherwise duly qualified as Municipal voters.

The persons qualified to be nominated for and elected as Aldermen of the City of Nelson, shall be such persons as are male British subjects of the full age of twenty-one (21) years and who are not disqualified under any law and who have been for the six (6) months next preceding the day of nomination, the registered owner in the Land Registry office of land or real property in the City of Nelson, of the assessed value on the last Municipal Assessment roll of $500.00 or more, over and above any registered encumbrance or charge and who are otherwise qualified as Municipal voters.

The persons qualified to be nominated for and elected as School Trustees of the City of Nelson, are such persons as are householders in the School District of the City of Nelson, who are British subjects of the full age of twenty-one (21) years and who are qualified by the Public Schools Act to vote at an election of School Trustees in the School District of the City of Nelson.

Given under my hand at Nelson, B. C., the 3rd day of January, 1902.

J. K. STRACHAN,
Returning Officer.

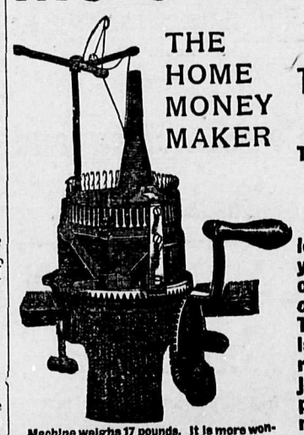
More Home Knitters Wanted



THE HOME MONEY MAKER

Machine weighs 17 pounds. It is more wonderful than a sewing machine, just as durable, and higher speed.

To Work at Their Homes Under the Direction of

The GLASGOW WOOLLEN CO.

37 MELINDA ST., TORONTO,

To Fill Large Contracts—Good Wages Easily Earned.

A Pair in 30 Minutes

We want a few more workers in this locality, at once, and in order to secure your co-operation without the delay of correspondence, we herewith explain our full plan in this advertisement. The work is simple, and the Machine is easily operated, and with the Guide, requires no teacher. If you wish to join our staff of Workers let us hear from you promptly with the Contract, order form, and remittance, as a guarantee, and we will send machine and outfit to begin work at once.

OUR METHOD OF DOING BUSINESS

We wish to secure the services of families to do knitting for us in their homes. Our method is the same as adopted in England. We are the introducers of this plan and the largest knitting concern in Canada.

After long experience, we have been able to produce an Automatic Machine by which all kinds of seamless knitting is now done by our Family Machine, thereby enabling anyone of ordinary intelligence to quickly learn to do the work from the Instruction Guide. All we require is that you use the machine according to directions. The Machine being made expressly for this purpose, and the operation so simple, it cannot possibly make a mistake in its work.

The great demand now is for Bicycle Stockings, Woodmen's Socks, and Motormen's Mittens, and as we are unable to supply the demand, have taken this method of advertising for more help.

The large export trade to the North-west Territories, British Columbia, and the British Colonies, furnishes an unlimited demand for our goods, and, with the combined cooperation of the many families we are employing, together with the large amount of knitting we are able to turn out, by which we save rents, insurance, interest on capital, etc., enables us to undersell any manufacturers of this class of goods, and we have sale for all the knitting we can have turned out.

The price we pay for finished bicycle stockings is $10.00 per hundred, or at the rate of 10c per pair; woodmen's socks, 5c, and motormen's mittens, 12c a pair. All other work in proportion to size.

The machine can be operated by any one of a family, and at our prices any energetic family should be able to sustain themselves comfortably, and in time be a source of independent comfort.

Our plan is to send out each machine to beginners with a sock or stocking partially knitted, and remaining in the machine ready to be continued, and also enough yarn to knit one pair of sample socks or stockings and a simple and complete Instruction Guide, showing how the work is to be done. When the samples have been finished and returned to us satisfactory, we send a quantity of yarn, which you knit and return likewise when finished. We prepay charges on all work one way, and our workers pay return charges. The work, as we have stated, is simple and rapidly done, the machine having a capacity of ten thousand stitches a minute. We have many persons now in our employ who can knit from twenty-five to thirty pairs of socks or stockings a day, and where the time of a family is devoted to the work, you can readily see that $15.00 or $20.00 per week can be easily earned.

We furnish our workers all the materials, yarn, etc., free, and everything that is necessary for the work. We are furnishing the machines only for the exclusive use of those desiring to take employment with us, who must, in order to become a member, send us this Contract Order Form, properly signed by them, and at least one good reference, and remittance accordingly, to give us the necessary assurance that the quantities of valuable yarn we may send from time to time will not be wasted or misappropriated. Our interests are mutual, and this confidence must be established if we are to succeed. We guarantee fair dealing and prompt payment for work, so do not ask us to deviate from our terms, as we cannot make a distinction with one and not another; besides, we are doing an extensive business, and must be governed by business principles.

The manufactured price of the machine is $15, and positively will not be sold to any others than those who will agree to do knitting for us.

If at any time after you commence, and have done an amount of work equal to the purchase price, and wish to discontinue, we will take back machine and refund the amount paid for same, after deducting cost of our expense only.

There is a Large Demand by the Trade for this class of work. Our workers can depend upon it year after year, and if you engage with us (whole or spare time) we will keep you supplied with work as long as you do it satisfactorily for us and return it promptly. We entrust our workers with large quantities of valuable yarn, and as we give references as to our honesty and integrity, we must ask you to do the same, in order that we may know with whom we are dealing.

We have, in as brief a manner as possible, endeavored to show you what our work is, and we simply say as to the machine, it is just what we represent it to be, and will positively do everything we claim for it, or refund the money. Each machine, securely packed with an outfit, is set up for work, thoroughly tested, and a sock or stocking partially knitted before boxing and shipping. Should you decide to engage with us, it will be necessary to send us Cash Contract Order Form, properly signed by you, and at least one good reference, together with the remittance, accordingly, upon receipt of which we will forward machine and outfit ready to commence.

Respectfully yours,

GLASGOW WOOLLEN CO., 37 Melinda Street, Toronto

Our References—Express Companies, Banks, or Toronto Business Houses.

If you wish to examine the machine and see the material before undertaking the work, you can do so by sending $3.00 as a guarantee of good faith, and to defray expense of shipping, and we will send everything to your nearest express company, leaving a balance of twelve dollars to pay the agent and 25 cents for the return charges on the money to us.

We are so frequently and unnecessarily asked if one can learn to knit without a teacher. We say, Yes; it requires no teacher; any person of ordinary intelligence who can read the Instruction Guide can learn to knit at once.

ORDER FORM

$15.00 Cash Contract Order Form.

To the Glasgow Woolen Co., 37 Melinda St., Toronto.

Gentlemen,—I desire to do the work as described in this advertisement, and enclose $15 to pay for one Automatic Knitting Machine, together with material, instructions, and everything necessary for the work, the same to be sent to me by Express, CHARGES PREPAID.

It is understood and agreed that any time after I have done an amount of work equal to the purchase price, $15, and wish to discontinue, that the Glasgow Woolen Co. will take back the machine and outfit, and after deducting their expense, refund me the amount paid for same.

Sender or head of family (if possible) must sign here:

Full name .....

P. O. ..... Street .....

County ..... Prov.....

Nearest Express Office is at .....

For reference I name the following person:

.....

.....

Be sure to use this form when spending your remittance for the machine and outfit, which you must fill in and have signed by at least one good reference in the proper place. Tear off and return to us, and also state here how much time you can devote to the work; also how you wish to be paid, weekly, monthly, or as you send in the work.

.....

.....

Send your remittance by Express, Money Order, Registered Letter, or Post-Office Money Order, and we will promptly forward machine, outfit, and simple guide for doing the work. This is the best offer ever made for the benefit of Canadians who want to work and make money at home.
