#### THE SESSION.

Mr. Dunsmuir's first session as lead er of the Legislature has been a creditable one. It was not intended or expected that it would be distinguished by a great volume of legislation, prognostication can be made wi useful or otherwise. It was an emergency session, rendered necessary by some rather remarkable circumstances, with which the intelligent reader is already familiar. The Province was for the Provincial House the large left without supplies, and when the individual vote. It is useless to der verdict of the people last June put the control of affairs into the hands of the present Government they resolved day a greater political inflence that to summon the House to vote these and any other man in British Columbi to take up only such other legislation Those who imagine that he is a dea as the conditions rendered necessary As the session developed, however, it was found that these latter embraced It was a new Government, a new quit itself. Of the Government the conspicuous feature was its complete grasp of the situation and its readiness and capacity to face it. It is a business Government of intelligence, energy, and resolution, and was only a short time in that had been long absent. The Legislature has given promise of proving ed there would have been wigs on the green every day or two; but the gen tleman managed to contain himself and now there is the glimmering of a hope that he may yet prove himself a useful force in the public life of the Province. Of the member for Nelson it can only be said that he failed, ut terly and lamentably, to distinguish himself. This remark, as his friends will be the readiest to admit, applies even to his relations with Mr. Tolmie

#### NEW CODE OF MINE SIGNALS

The Government Will Endeavor to Establish an Uniform Gode of Mine Signals.

Mr. John A. Turner, the Gold Commissioner, has issued an autograph letter to the managers of mines announcing that the Minister of Mines has informed him that, at the next session of the Legislature, the Minister will recommend that the Government introduce a bill establishing a uniform code of signals to be used in all the mines in the Province. Mr, Turner has forwarded with each letter a copy of a code now in use in Montana, which he has been instructed to confer upon with the mine managers and to forward any suggestions they make to the Minister of Mines. The code in question is an excellent one and is giving great satisfaction where it is being used. Mr. Turner will be glad to hear from all the managers of mines in the district if they have any suggestions to make in connection with the matter.

#### BRIEF LOGALS.
