BOUNDARY IS RESTRICTED

Want of Coke Severely Felt at Granby Smelter

Two Additional Furnaces to Be at Once Put In

Grand Forks, Nov. 15.—The coal miners' strike at Michel has already had the effect of restricting the shipments of coke to the smelters in the Boundary district, and the reserve supply at the smelters is limited.

The Granby plant, which for weeks past, owing to low water, has been running only two furnaces, will blow in two additional furnaces on Wednesday or Thursday next, provided the coal miners resume work in the meantime. It is obvious that the plant cannot be operated at its full capacity of 1,500 tons per day unless a supply of coke is assured. A portion of the coke used in the Boundary comes from Michel. However, the biggest tonnage is from Fernie. The battery of ovens at Morrissey is not completed, and, besides, the mines there are only tapped by the Great Northern, which does not yet enjoy direct connection with the Granby smelter. Recently the C. P. R. could not effect an arrangement with its rival respecting the interchange of traffic at Morrissey.

The transformers for the sub-station of the Cascade Power company at the Granby plant have arrived from Phoenix and are being installed with all possible speed. The work will be completed early next week to enable the entire plant to be operated, provided coke is forthcoming.

The renewed activity here means the addition of about 100 men to the smelter payroll, and to provide the increased tonnage an additional 200 men will also be added to the payroll of the Granby mines at Phoenix. There is an actual scarcity of labor both here and at Phoenix, many skilled man having left the country during the dull season.

Jay P. Graves, general manager of the Granby Mining & Smelting company, arrived here today from Spokane on his usual trip of inspection. He will also visit Phoenix, where Porter brothers, the contractors, have just completed the initial task of stripping the ledge on the surface of the Knob Hill preparatory to opening up the new ore quarries.

It is understood that Mr. Graves is taking steps to order two additional furnaces for the Granby smelter, thus increasing the number of furnaces to six, with a total capacity of 2,200 tons daily.

THE CORK MINE.

Will Become One of the Largest Silver-Lead Producers in the Slocan.

Kaslo, Nov. 15.—(Special to The Daily News.)—Reports from the south fork of the Kaslo river confirm the statement that the Cork mine will shortly become one of the largest producers in the Slocan.

Some 1,200 feet of a crosscut is being actively prosecuted, and water power is being developed for the purpose of running a power and concentrating plant, preparations for the installation of which are now being made.

There is also some talk of the company establishing an electric tram line from their mine to Kaslo, which would not only be beneficial to themselves, but also be the means of opening up numbers of the other mines and claims of the gulch.

RAILWAY FOR NICOLA.

B. C. Southern Will Apply for an Extension of Time.

Ottawa, Nov. 15.—(Special to The Daily News.)—Application will be made at the next session of parliament for an act to incorporate as a dominion railway the Nicola, Kamloops & Similkameen Coal & Railway company, and to construct and operate an extension of the line from Nicola valley along the Nicola river, to connect at or near Hope, and thence to Chilliwack, with power to construct a bridge over the Fraser river.

The B. C. Southern Railway company will apply next session for an extension of time for the commencement and completion of its railway.

HIGHEST PRICE PAID.

Twenty-Five Thousand for a Seat on Montreal Exchange.

Montreal, Nov. 15.—Messrs. Simpson, Garland & Co., stock brokers of this city, paid $25,000 for a seat on the Montreal stock exchange yesterday. This is the highest price ever paid for an exchange seat in the dominion, while New York is the only place that leads Montreal.

W. R. Miller paid $23,500 for a seat on the Montreal exchange two weeks ago, and that price was then the record. Previously $20,000 was the top price reached.

THIRTY-NINE YEARS KING.

Denmark's Popular Ruler Celebrates Another Anniversary.

Copenhagen, Nov. 15.—King Christian was the recipient of congratulatory messages today from nearly all the courts of Europe, the occasion being the 39th anniversary of his accession to the throne. Though nearing his ninetieth year the venerable ruler continues to enjoy excellent health, and is as vigorous mentally and physically, as many men of 60.

At the recent autumn review king Christian appeared on horseback at the head of a column of royalty, the white haired king sitting his horse like a man of 30. Only a few weeks ago, while out riding, his horse became frightened and bolted. After a mad race of nearly a mile the horse jumped a stone wall, but through it all king Christian sat as though glued in the saddle. Through his entire life his horses have been his chief delight. Each weekday he spends an hour or more at the riding academy instructing his grandson in the art of horsemanship. At night, when the customary family party has dispersed, the king never fails to pay a visit to the royal stables before retiring, feeding his favorites with sugar loafs from his own hand. In recent years the king has become more simple in his habits, though he never was inclined to the display of pomp and ceremony usually associated with royalty. It was only recently that he remarked to his valet, who was about to give him a helping hand in dressing, that he was still able to look after himself, and would not require the services of his attendant until he grew older. His only constant attendant, in fact, is his Great Dane dog, which never leaves his side.

ROSSLAND'S ORE SHIPMENTS

OUTPUT OF CENTRE STAR AND WAR EAGLE INCREASED.

TOTAL TONNAGE FOR WEEK WILL BE UP TO THE AVERAGE.

Rossland, Nov. 15.—The ore shipments for the past week amount to 7,305 tons, a slight increase over the previous week's output.

Both the Centre Star and the War Eagle increased their shipments. The combined output amounted to very nearly 4,000 tons.

Notwithstanding the fact that the Le Roi No. 2 is out of the weekly list, the total tonnage makes a good showing, and is above the average.

The shipments during the week from the local mines in detail are as follows: Le Roi, 3,170 tons; Centre Star, 2,640; War Eagle, 1,320; Giant, 75, and Velvet, 100. Total for the camp during the week, 7,305 tons, and for the year to date, 296,910 tons.

MARRIED FOR LOVE.

Had Only $15,000 a Year and Will Now Try for More.

New York, Nov. 15.—Mrs. Fannie McComb Herzog, wife of a Philadelphia artist, who she married after a judge had told her the way to test her father's will was to become Mr. Herzog's bride, began suit at White Plains today to contest the will.

Her father was the late J. J. McComb, of Dobbs' Ferry, who left an estate valued at many millions. The contest is made on the grounds that the testator was of unsound mind. Five days before Mr. McComb's death a codicil to his will was made which provided that if his daughter Fannie should marry Herzog she should have only an annuity of $15,000, but that she would receive her propr share of the estate if she did not marry him.

KRUGER'S BOOK IS OUT.

London, Nov. 15.—The autobiography of former president Kruger was issued simultaneously today in England, Germany and other countries. It is a volume of 100,000 words, and tells the story of Kruger's life from his babyhood to the negotiations for peace. The early chapters describe Mr. Kruger's youth, education, hunting adventures, and the succeeding chapters contain accounts of expeditions against the Kaffir chiefs. He tells of the civil war, the diamond mines, the dynamite monopoly, and the railway interests, closing with a long account of the Jameson raid and the subsequent conflict with England.

TO RECEIVE IRISH ENVOYS.

Baltimore, Maryland, Nov. 15.—The sons of Erin are expected to gather in force at Ford's opera house tomorrow evening on the occasion of the big meeting to be held in honor of Messrs. Blake and Dillon, the Irish members of parliament, who are touring America in aid of the Irish cause. Former governor Whyte and Hon. Isidor Rayner will deliver addresses, and cardinal Gibbons will grace the meeting with his presence.

REPUBLIC SHIPMENTS.

According to the Grand Forks News-Gazette the ore shipments from Republic camp for the past week were: Black Tail, 56 tons; Morning Glory, 28, and Quilp, 328 tons, making a total output for the week of 412 tons.

SMALLPOX IN ONTARIO.

Toronto, Nov. 15.—The provincial health officer has been advised that three families in Erindale township, Peel county, and two in Elgin county, have smallpox.

LUCANIA AGROUND.

New York, Nov. 15.—The steamer Lucania, which went aground in Gedney channel this morning, was cleared shortly after 5 p. m. and started up the bay.

PIETRO ON DECK.

Boston, Nov. 15.—Pietro Mascagni, the composer and leader, resumed his tour this afternoon with a concert in Symphony hall.

PRICE OF SILVER.

New York, Nov. 15.—Bar silver, 49.

TO ASSASSINATE A KING

An Anarchist Fires Three Shots at Leopold of Belgium Without Scoring a Hit

BRUSSELS, November 15.—Three shots were fired at the king of the Belgians this morning as his majesty was proceedings to the cathedral to attend a Te Deum in memory of the late queen Marie Henriette. No one was hurt. A man, named Rubino was seen to fire the shots, and was promptly placed under arrest.

That Rubino intended to assassinate king Leopold seemed fully established this evening by the prisoner's confession to the police. The latter at first denied all the reports to the effect that the revolver contained ball cartridges, or that Rubino was connected with anarchists, but they finally admitted that the prisoner had confessed that he intended to shoot king Leopold, and that he held anarchistic beliefs.

The self confessed would-be-regicide is a small, bald-headed man, with a heavy black moustache. He maintained perfect calm during his interrogation by the police. He informed the police that he came from London, where he went on a futile search for work. There he obtained assistance from the Italian embassy, and was temporarily engaged to watch anarchists. He was dismissed, however, as the embassy officials discovered that he sympathized with the anarchists. It was then that he bought a revolver and 50 cartridges and came to Brussels.

Failing to find work, Rubino said he "determined to act," and went to the cathedral with the intention of shooting the king, but as already stated, he did not fire. Then he proceeded to the Rue Royale, where he awaited the cortege. The royal carriage containing the king passed before he was able to draw his revolver, hence the shots only hit the carriage following.

In Rubino's pockets were found picture post cards bearing portraits of king Leopold, prince Albert and princess Elizabeth. The prisoner said he procured the cards so as to be able to recognize the members of the royal family, and expressed the hope that others would be more successful than himself. He also said that he did not regret his act, and would fire at any monarch, at the king of Italy as readily as at the king of the Belgians, because monarchs are tyrants who cause the misery of their people. Finally he declared he hated socialists because they were friends of the police and asserted that he had no accomplices.

The police are tonight engaged in scouring the anarchist resorts here on a search for possible accomplices of Rubino. One arrest has already been made of a noted Belgian anarchist named Chapelie. Many other arrests will probably follow. Several persons who were near to Rubino when he fired the revolver, assert that he was accompanied by another man who escaped among the crowd. It is thought possible that this party was an accomplice who carried off the revolver, which the police have not yet found. Rubino, who has a wife and a child in London, continues to affect a profound indifference as to his fate, which cannot be death, since the fatal punishment has been abolished in Belgium.

KAISER GUEST OF LONSDALE

GERMAN EMPEROR FAVORS OWNER OF LOWTHER CASTLE.

EARL RECEIVED EVERYWHERE IN GERMANY WITH DISTINCTION.

London, Nov. 15.—Emperor William has concluded his visit to the king at Sandringham and next week will be the guest of lord Lonsdale at Lowther castle, near Penrith. The earl of Lonsdale enjoys particular favor with the emperor, in fact he is the only British nobleman whom the emperor honors with a visit, and it is needless to say that no expense has been spared in providing entertainment for the imperial guest. On the occasion of the emperor's four day visit to Lowther castle in 1895 it is known that lord Lonsdale expended close upon a million dollars and there is reason to believe that an even larger sum will be spent on the present occasion. Lord Lonsdale owes his favor with the emperor chiefly to the fact that he was the first member of the British nobility to display an active interest in German affairs other than political. He was one of the first of British yacht-owners to go to Kiel and to join the imperial yacht club, and as he has a beautiful craft the emperor frequently visited him on board, sailed with him and became his friend. Each year since then lord Lonsdale has been invited to Germany for the army manoeuvers, where, no matter how many German and foreign kings, rulers and princes of the blood may be present, the earl always is accorded a place in the very front rank, with officers and servants to wait on him and imperial horses and carriages at his disposal.

The marked distinction with which the earl is received everywhere in Germany has had the effect of greatly raising his social prestige in England. Prior to the time the emperor made his acquaintance he cannot be said to have enjoyed either the regard or respect of his countrymen. He had been mixed up in all sorts of queer affairs and unsavory scandals, in controversies and brawls (notably his fistic encounter with sir George Chetwynd in Hyde park on the subject of Mrs. Langtry), so much so, indeed, that on one occasion the curate of a well known and fashionable parish actually was dismissed by his rector for having been seen in the earl's company. The emperor's friendship, however, has resulted in people in England looking upon the earl with a good deal more favor and indulgence.

Lowther castle, where the earl will entertain his imperial guest and the brilliant party that has been invited to meet him, is one of the most imposing mansions in the north. Its great terrace is nearly a mile in length, and is carried along the brink of a steep cliff, which overlooks a part of the park, with forest trees of immense growth and well replenished with deer. The park of the emperor of China, at Gehol, is called "the paradise of ten thousand trees," and lord Macartney, ambassador to China, in one of his letters says: "If any place can be said in any respect to have similar features to the western park of Van Shoo Yeen, it is at Lowther."

GOSSIP OF GREENWOOD.

Greenwood, Nov. 15.—(Special to The Daily News.)—The statements lately sent out from Grand Forks relative to the charge recently brought by the crown against John Manly, of that town, in connection with the burning three years ago of a large hotel in Columbia, the adjoining and at which time the rival town of Grand Forks, do not represent the position as it actually is. The actual facts are that before the recent prosecution was instituted the crown was satisfied that evidence had been obtained that appeared to connect the accused with what was believed to have been a conspiracy to burn the hotel which was then an active competitor with the larger hotels of Grand Forks. When the preliminary hearing came on the persons who were expected to appear and give evidence referred to did not do so, and since they were not in Canada when wanted they could not then, nor can they now be compelled to attend a Canadian court and give evidence. Far from the case having collapsed, as stated in the Grand Forks despatches, your correspondent has been assured that it will be brought on again imediately the evidence the crown is depending on shall be available. If, however, the persons required to testify will not attend and do so the prosecution will not be able to make any advance in the direction of sifting this matter to the bottom..

A dance was held at Anaconda last night, the object of the promoters having been to raise funds for paying for the services for a janitor for the public school in that town. There was a numerous attendance and the proceedings were very enjoyable, besides which the object in view was attained.

S. Barry Yuill, watchmaker, has acquired the business of Watson & Currie's cigar and candy store in Greenwood, which he will conduct in conjunction with his own trade.

IN THE YMIR DISTRICT

THE FOG HORN AND THE GOLDEN MONARCH PROPERTIES.

COMPRESSOR, CONCENTRATOR AND TRAMWAY NEXT SPRING.

Spokane, Nov. 15.—(Special to The Daily News.)—Conrade Wolffe has returned from the Ymir district and states that John Sibbeld and associates of Rosalia, have opened up a fine body of ore on their property, near the Golden Monarch. The property has been worked for six or seven years with but poor results. About two weeks ago the men ran into exceptionally good ore. The lead has been opened up at places for a length of 400 feet, and at one place the ledge is solid ore for a width of 12 feet. All the width is in good values with a paystreak on the hanging wall that assays $65 to the ton.

The Fog Horn mine, owned by the Golden Monarch company of Spokane, intends to erect a concentrator next spring. The property is located in the Ymir district and has plenty of ore in sight. The company now depends upon sleighing to ship the ore and this can be done much more cheaply if the ores are first concentrated.

A short time ago a rich strike was made on the property in the long tunnel. The drift has been run for a considerable distance on the ore shoot and it is improving. The drift has been in ore for the entire distance.

The tunnel has also been continued for the big vein, which the company will cut at a considerable depth. The tunnel has now come into ore again. There is also a heavy flow of water, which shows that a good sized ore body is at hand. It is thought to be a blind ledge.

The road from Ymir to the mine has been completed and as soon as the snow is deep enough regular shipments will begin. The company expects to ship about 500 tons of ore this winter, which will average $25 to the ton. A compressor plant and an aerial tramway will be erected in the spring.

AN ENGLISH OPINION.

Must Keep Our Young Men in the Country Rare Stamps.

Toronto, Nov. 15.—The Evening Telegram's London cable says: "The Morning Post in regard to the complaint that the Canadian Northwest is becoming Americanized, says but little attention will be paid in England to these complaints, until Canada establishes western immagration for her own benefit, instead of systematically exporting her young men to the United States."

A Canadian twelve penny, 1851, black, lightly cancelled postage stamp sold in London yesterday for £75, and a New Brunswick, mauve, of the same year brought £14.

DEMAND PARTIALLY MET.

Montreal, Nov. 15.—It was announced today that the demands of the firemen and engineers of the Grand Trunk railway for increased wages have been met to the extent of from 15 to 25 per cent.

PRINCESS ALICE OF ALBANY

MAY BE MARRIED TO THE GERMAN CROWN PRINCE.

WHETHER SHE LOVES HIM OR LOVES HIM NOT.

Berlin, Nov. 15.—One of the objects of emperor William's visit to king Edward was to discuss the betrothal of crown prince Frederick William and the princess Alice, of Albany, who is a charming girl 19 years of age. The duchess of Albany went to England on the imperial yacht Hohenzollern and proceeded to Sandringham with the emperor. Princess Alice and the crown prince are second cousins. The princess has been quite Prussianized by having lived in Germany the greater part of the last three years with her mother, and has been under the close observation from time to time of the emperor and empress. A dynastic alliance such as this is, on the political side, regarded as likely to bring Great Britain and Germany closer together and might from that standpoint be unpopular in Germany. Princess Alice's brother, the young prince of Coburg, is a thorough little German. He is now in the military school near Potsdam.

IN WINDERMERE DISTRICT.

Good Progress on the Paradise Property.—Machinery Coming in.

Actual development work on the Paradise mine started just about two and a half years ago, and now there is over a mile of tunnels, shafts, etc., on the property, and preparations are now under way to work the mine on a larger scale than ever, says the Outcrop. The Spring creek wagon road now under construction will enable the management to take up tram rails with comparative ease, and when it is completed a tunnel will be run in 1,000 feet, which will give a depth of over 700 feet. Thus showing up a body of ore, it is fully believed, that will justify still greater development and the installing of a reduction plant at a convenient point. The ore is not high grade and that fact means that a great army of workers will be employed that large bodies of ore may be shipped to return profits to the investors.

New and commodious buildings are in course of erection at the tunnel mouths, and a great deal of work has been accomplished inside the tunnel. The new road of about three and a half miles has a splendid grade. A great deal of rock work has been done, and there remains but little more rock work to be done, and if it is found the wagon road cannot be completed this year, it will be easy to make a sleigh road the balance of the distance which will answer all purposes until next spring.

A carload of machinery has arrived at Golden for the Ptarmigan mines, weighing 68,000 pounds, consisting of wire cables, buckets, etc., for a tram. Teams are being hired to haul it up.

THE REVOLUTIONISTS.

After Five Hours Fighting Government Troops Captured Coro.

Caracas, Venezuela, Nov. 15.—President Castro's first lieutenant, Leopoldo Baptista, sailed yesterday morning from Puerto Cabello, with three warships and a force of 1,500 men to occupy to town of Coro, situated about three miles northwest of Caracas, which has been in the possession of the revolutionitss.

A battle between the rival forces took place today and lasted five hours, with the result that the government troops captured the town. The revolutionists, who numbered about 350, have escaped in the direction of Sabanita, closely pursued by Baptista's troops.

C. P. R. IMPROVEMENT.

It is now practically decided that the C. P. R. will make a start in the spring with the new piece of road at Field to do away with the "big hill." The new piece of road will be run as a loop up the north fork of Kicking Horse. Much of the work will consist of cutting through solid rock and will take a large force of men. The new route will give a 2 1-2 per cent grade between Field and Hector. It is stated the C. P. R. will bring in 4,000 men from the east for the work, so that Field should be one of the most busy places on the road while the work lasts.

THE CANADIAN PATRIOTIC FUND.

The first report of the Canadian Patriotic Fund association has been issued. The report shows that up to March 31st, 1902, the receipts were $338,498, made up of the following subscriptions: Canada, $312,429; Great Britain, $22,539; United States, $2,999; other countries, $530. The disbursements total $195,546. Balance of subscriptions unexpended, $143,951, to which interest on deposit added, brings the total in bank to $157,422.

AMERICAN FOOTBALL.

Princeton, New Jersey, Nov. 15.—Yale defeated Princeton in their annual football game, 12 to 5. It was estimated that about 18,000 people were watching the big game.

Cambridge, Massachusetts, Nov. 15.—Harvard defeated Dartmouth, 15 to 6 today.

THE CORPORATION LAWYERS

HAVE ANOTHER BUSY DAY WITH JOHN MITCHELL.

HE WILL LIKELY BE UNDER FIRE ALL NEXT WEEK.

Scranton, Nov. 15.—President Mitchell, of the Mine Workers' union, occupied the witness stand throughout both sessions of the coal strike commission today. David Wilcox, general counsel for the Delaware & Hudson company, and Wayne MacVeagh, of Philadelphia, who is representing the Pennsylvania Coal and the Hillside Coal & Iron companies, were the principal questioners. Mr. MacVeagh questioned Mr. Mitchell on the demand for an increase in wages, the demand for a shorter work day, and the weighing of coal by the ton of 2,240 pounds, and then took up the demand of the men for trade agreements, which practically means the recognition of the union. He asked Mr. Mitchell what sort of a contract he would draw up, and the latter replied he would favor an agreement as outlined in his suggestions to the commission yesterday. After going over the demands of the miners, Mr. MacVeagh took up the conditions existing in and about the collieries of the companies he represented and tried to show that the conditions spoken of by Mr. Mitchell were not borne out by investigation. The constitution of the United Mine Workers of America was also taken up by the lawyer, and he and Mr. Mitchell several times sparred for points regarding the references contained in it. To the question of whether he, as president of the union, had a right to curtail the hours of employment each day of the miners, Mr. Mitchell said he thought he had. During Mr. Mitchell's examination by Mr. Wilcox, the fact was brought out that if the increase in wages was granted it would increase the expenses of the companies $12,000,000 a year. In regard to child labor, Mr. Mitchell said he was in favor of a state law which would make the minimum age for a boy to go to work at the collieries 14 years instead of 12.

The commission adjourned until Monday, with Mitchell still on the stand. It is possible Mitchell may occupy the witness box for several days next week.

IS CHAMBERLAIN RESPONSIBLE?

London, Nov. 15.—The recent depreciation in the price of silver is attributed somewhat to the appointment by colonial secretary Chamberlain on November 5th, of a committee to report on the expediency of establishing a gold standard in the Straits Settlement and the neighboring Malay states. The success attending the action of the Indian council in fixing the value of the rupee in India caused a movement in the eastern trading countries in favor of currency based on gold.

POET'S HOME DESTROYED.

New York, Nov. 15.—Scores of men and women whose names are familiar in society strove in vain today to save from the flames the old home of the poet William Cullen Bryant, at Roslyn, L. I. All the furnishings of the house including rare paintings, and the original library of the poet were saved, but the house and some valuable contents were destroyed.

PROPOSALS ACCEPTED.

Toronto, Nov. 15.—The Ontario cabinet has accepted the proposals of a syndicate, represented by J. E. Egan, of Rock Island, Ills., and Judge Cult, of Chicago, to place 12,000 American settlers on two million acres of agricultural crown lands in Ontario and the agrement will be signed in a few days.

A SUDDEN DEATH.

Tilsonburg, Ontario, Nov. 15.—Mr. Rafferty, an employee of the Wimb Engine & Motor company, of Toronto, engaged on a tank on the Tilsonburg & Lake Erie railway here, died suddenly in the Arlington hotel yesterday.

SMOTHERED TO DEATH.

Kincardine, Ont., Nov. 15.—Harry Ross, twenty-one years of age fell into a grain chute while in a fit today and was smothered to death.

TRACKMAN KILLED.

Pickering, Ont., Nov. 15.—R. D. Benson, a trackman, was run down and killed by a fast express train while spiking the track here last evening.

TWENTY-FIRST ANNIVERSARY

Of the American Federation of Labor

Message Sent to Laboring Men of the World

New Orleans, Louisiana, Nov. 15.—"Resolved that we declare our unfaltering fealty to trade labor movements of our country, devoting our best efforts to the uplifting of the wage earners of our country, giving them hope and encouragement, and appealing to them to unite with organized workers so that the fraternity of man, of the world, may be achieved at the earliest possible date."

This is the message sent out by the American Federation of Labor on the 21st anniversary of its birth to laboring men throughout the world. The last session of the day was within a few minutes of the close when delegate Andrew Fursteth said that November 15th, 1902, was the 21st anniversary of the American Federation of Labor, and gave a short sketch of its history and its aims. Later in the day there were two animated debates, the first over the resolution declaring against the ship subsidy bill, and the second over that declaring against the construction of the Isthmian canal. The committee on resolutions reported favorably on the motion declaring against the subsidy bill, and the convention was about to adopt the report when W. J. Gilthorpe, of the Brotherhood of Boilermakers and Iron Shipbuilders, took the floor to speak in its favor. He declared that the American merchant marine requires protection, and he urged that the report of the resolutions committee be not concurred in. When he took his seat a storm broke loose. President Gompers gave the floor to James O'Connell, president of the International Association of Machinists, who delivered a vehement address, declaring that no greater combination existed in the United States than that of the great ship yards, and that union labor had no more relentless foe.. Andrew Fursteth, of the Seamen's union, spoke at great length against Mr. Gilthorpe's attitude. At the final vote the resolution was adopted. The resolution declaring against the Nicaragua or Panama canal came next, and on this the resolutions committe reported adversely, and a motion to adopt the report was made at once. After much discussion the matter was laid upon the table.

This comprised the work of the afternoon and an adjurnment was taken until Monday.

Among other resolutions reported were the following: For the calling of a convention comprising delegates from the central bodies in all cities over 50,000 inhabitants to consider the conditions peculiar to large cities which may be oppressive to the laboring people, the best interests of the proletariat to be the first consideration. The convention to be under the auspices of the American Federation of Labor; that all local bodies must affiliate with the state federation.

The executive council held a protracted meeting tonight, to consider the differences between the Brotherhood of Carpenters and Joiners and the Amalgamated Wood Workers. A report will be made later to the convention.

A NEW MANAGER.

Albert Hill Coming to Take Charge—Petition Dismissed.

Rossland, Nov. 15.—(Special to The Daily News.)—An Englishman named Albert Hill has sailed from the old country and is coming direct to Rossland to take charge of the old B. A. C. concerns, which include the Le Roi No. 2, Rossland Great Western, and Kootenay mines, all of which are at present under the control of Messrs. Macdonald and Thompson. Mr. Hill is expected to arrive here very shortly.

Word was received here this afternoon from Vancouver that C. R. Hamilton on behalf of the Le Roi company succeeded today in quashing the petition of the War Eagle, Centre Star people and the Le Roi No. 2 to wind up the affairs of the Rossland Miner and appoint A. B. Barker as liquidator for the concern.

CHAMPION TO FIGHT O'KEEFE.

Chicago, Nov. 15.—A battle of considerable prominence is promised at the American Athletic club on Monday night when "Young Corbett" the featherweight champion, meets Jack O'Keefe. O'Keefe has made a good record as a fighter in Chicago and vicinity and though hardly to be considered in the champion's class he is expected to give a good account of himself. Admirers of "Young Corbett" find grounds for complaint in the fact that the champion is not keeping himself in good fighting condition and consequently is taking an unnecessary risk in engaging in the numerous contests he has of late.

INDICTED FOR MURDER.

Montreal, Nov. 15.—The Hull coroner's jury last night found that the cause of the death of J. B. Renaud, was caused by cerebral hemorrhage caused by a blow struck by Michael Ryan on November 5th. Ryan will be indicted for murder.

THE FARTHEST NORTH.

Stockholm, Nov. 15.—The most northerly railroad in the world, the Riksgraenbanan, was inaugurated today in the presence of the Norwegian and Swedish authorities.

TYPOGRAPHICAL UNION LABEL NELSON No 340

TORONTO, THE GOOD!

Hon. Sam Blake has been visiting the Toronto city lock-up. He found a state of affairs prevailing which impelled him to enter a vigorously worded protest addressed to mayor Howland. After describing the cells, too vile even for hog pens, he says:

If I had not visited this scene I should have believed it impossible in this city of churches, benevolent institutions, religious teaching and Christian people, to find such a pit. How small would be necessary an expenditure to give these unfortunates one more chance for life. Separate cells, an opportunity to sit down quietly and think. Some one present with the spirit of the Master to breathe a word of sympathy, hope, love and guidance. Will you use the power you have as chief magistrate of our city to have this disgrace removed. "In prison and ye visited me not." Will you not next Saturday night visit this place between 9 and 12 o'clock, and see for yourselves this vile blot and this wrong done to our fellow men and women?

Toronto sets itself up for being the most Christian community in Canada. It may certainly lay claim to the distinction of making the greatest parade of sham Christianity of any town on the American continent. It is packed full of churches, it is the great Christian society convention gathering place of the east. But religion is largely a matter of business in Toronto. It pays. There is probably less of the true spirit of Christianity in Toronto than in any other place of its size in America. This fact is strongly impressed upon visitors, not only by such conditions as Sam Blake refers to, but by the prevalence of vice in its meanest and most degraded forms, largely the outcome of the Pharisaical spirit that is so thoroughly characteristic of the community. This spirit dominates the press, presides over all commercial undertakings, and meets one in almost every place of business, even in those where the wages paid the employees necessitates their recourse to vicious practices to pay their weekly board bills.

Charitable work, so-called, is organized with a view to publicity. The ordinary Toronto "Christian" would hesitate to lend a helping hand to anyone in distress if he were not guaranteed its advertising value in the daily papers.

And yet there is no place in the dominion where the wickedness of the west is more unctuously denounced than in this whited sepulchre of Toronto. There is not a western town that could not give Toronto lessons in the practice of the teachings of Christ, though it must be admitted that the western man's conception of Christian doctrine and that of the Toronto religionist are as wide apart as the poles.

MAX O'RELL'S RETORT.

It seems to be the fate of some people to never say a good word of anyone with whom they are not in perfect accord; others never appear to take hold of anything by the right end. They are rather uncomfortable people to deal with, and, strange to say, many clergymen belong to this class. We have had instances in this province where ministers have said things about us, with the best intention in the world, perhaps, that were absolutely untrue. In their zeal to prove a point or to adorn a tale they go to extremes, and a case in point is that of the Rev. Dr. Crafts, who, when giving an address in a church in Toronto, sought to extol the virtues of the Anglo-Saxon by speaking disparagingly of other nations. There is enough international prejudice in the world without having clergymen encourage it. As men whose professed aim is to have peace on earth and good will among all men they would be better employed in seeking to promote a feeling of good fellowship among the nations of the world. There is not a people but has its virtues, and much as we may deride some of them, because we are so puffed up with our own vanity that we fail to realize we have many huge beams in our own eyes, it would be well to take heed of what there is of good about those whom we so readily belittle. Max O'Rell has made an excellent reply to the parson referred to above, and what he says is worth reproduction. It is his duty to teach, he says, that the English are the most persevering, wise and free people in the world; that the Americans are the most intelligent, amiable and enterprising; that the Germans are the most economical and hard working; that the French are the most happy and disinterested; that they open their schools of art free to all foreigners; that a French savant, the late Pasteur, invented a cure for the disease of cattle, a cure for the disease of vines, a cure for hydrophobia, that he discovered the cause of disease, bacteria and bacilli; that he innoculated or had innoculated at his institute thousands of sufferers, foreign and French, and that he never charged one cent to any patient, being of opinion that such discoveries as his were not made to amass wealth, but simply to benefit the human race. It is his duty to teach them that "physically dead" France is at the head of nations in the fine arts, science and literature; and nine out of every ten great inventions of the last century have been made by Frenchmen and improved by Americans. It is for him to understand that international prejudices are all founded on ignorance; that the day on which nations know and can appreciate one another all feelings of jealousy and hatred will disappear and the peace of the world will be assured.

EDITORIAL NOTES.

The Mine Owners' association of the state of California have been holding their annual congress the past week at San Francisco. In addition to the ordinary executive work for which the association was originally formed ,a new departure has been taken this year by having open sessions, at which papers have been read by well-known mining men, on subjects of general interest to the profession, and care has been taken to make the open session popular not only with mining men but with the public generally. What is to prevent the mine owners of British Columbia as a whole from following the good example of their Californian brethren? The Provincial Mine Owners' association in order to successfully carry out its mission, should embrace all the mining interests of the whole province, metalliferous, coal and any other allied industry. If such an association could be worked up by a good executive officer, its deliberations and expressed opinions could not fail to have weight with both the provincial and federal governments on all matters reasonably coming within its scope, and while the executive deliberations for the most part would be held in secret session, there is no good reason why the California plan of holding additional open meetings, where papers could be read and instructive discussion follow should not be adopted. Local mining men of repute have on more than one occasion expressed their regret that there was not more opportunity for conference on many mining matters of importance, and which might be had to the mutual benefit of all concerned. One matter which the association could well take in hand would be the class of information dealt out to the press, and with this end in view it would be desirable that the chief executive officer of the association should in addition to having an intimate knowledge of the mining situation in the province also have a close connection with and understanding of the provincial press. Such a man, if he can be found, could do good work in building up the association and placing it in a position of great usefulness to the mining industry, particularly in its present shape in this province.

It is asserted by those who do not wish to see in the result of the preference given to British imports any evidence of an increased trade between Great Britain and Canada, that so far from the preference having done anything of the kind that it has had a contrary effect, and that what increase there has been is only part of the general increase all along the line, and that the United States still continues to be the main source of our supplies. It is true enough that the imports both from Great Britain and the United States have increased since the preference was given. But, and this is the test, it must be remembered that until the preference was made, the value of imports from Great Britain had steadily fallen off, the decline going on persistently for a number of years, and it was only after giving of the preference that the trade gave signs of a recrudescence, signs that have materialized and brought the imports from Great Britain up to a figure which, though not yet all that we hope it will ultimately be, is nevertheless much more satisfactory than it was from five to ten years ago. It is not that the trade has simply been increased. The decline has not only been stopped; it has been converted into an increase; from a steadily growing loss there has sprung an increasing gain. Figures for the last ten months show that the increases from Great Britain are very substantial and will amount to probably ten millions more than last year. On the other hand our exports to Great Britain have increased, the chief being bacon $1,250,000, butter $1,090,000, cheese $1,560,000, wheat $4,205,000, wheat flour $1,190,000, lumber $1,353,000, hams $600,000. These are not the total values of the exports, but of the increases over last year only. The year has yet two months to run, and during that time we may reasonably expect that they will be added to to a material extent. These increases speak for themselves and should satisfy the most exacting that the trade relations between Canada and the mother country are in a satisfactory condition.

CHEAP EUROPEAN SYMPATHY

LONG ON BOUQUETS AND KISSES AND SHORT ON CASH.

POOR RESULT OF BOER GENERAL'S BEGGING TOUR.

It has already been stated in cable dispatches that the Boer generals were much disappointed by the results of their appeal to Europe for contributions. British journals to hand contain fuller statements on the subject.

Speaking at Brussels in reference to the £3,000,000 which the British government agreed to devote to the relief of the Boers, general Dewet said:

"Of what use is three millions to us when our losses are estimated at seventy-five millions? It would have been more honest on the part of England to pay us the whole than to fling a mere beggar's pittance in our face."

Three millions given by the conqueror to the vanquished a beggar's pittance! The Kolnische Zeitung may well say that there is no satisfying rustic rapacity.

Let us see how much the Boer generals have got towards this seventy-five millions. Here are the amounts subscribed as the result of their appeal and their lecture tour:

Holland and Belgium	£21,477
Mr. H. Phipp, U. S. Steel Trust	20,000
Paris visit	400
Berlin visit	3,100
	£44,977

These figures are not, of course, issued by the Boer generals; they are sent by the correspondents abroad as the result of enquiries.

There are some interesting items in the foregoing amounts. For instance, at the meeting of the Hall of the Grande Harmonie, Brussels—where the enthusiasm was so great that Dewet asked why, in the presence of such a display of sympathy, there was no intervention—only thirty-six pounds was realized by the sale of tickets. Then the wealthy stock-brokers of Brussels only managed to scrape together eighty pounds among them.

The great meeting in the Nouveau theatre, Paris, where they were presented with bouquets and wreaths which vied with those presented by the French to Mr. Kruger in point of size, only realized £235.

As was anticipated, the generals did better in Berlin. The big meeting in the Philharmonic hall brought them £600, monster wreaths, kisses, and a display of Teutonic frenzy.

There were other sums given to the Boers; but these were collected by the various pro-Boer funds on the continent, which carried on operations during the war. It is, therefore, a mistake to assume, as will be assumed in some quarters, that they form part of the total collected by the generals as the result of their appeal. Here are such of the totals as have been announced:

Switzerland	£50,000
Remainder of French sou fund	3,000
German Boer League gift	10,000
Total	£63,000

It comes to this, then. As the result of the Boer generals' begging tour in Europe they have collected money contributed before the war and after they made their appeal to the world to the amount of £107,977. That is the extent of Europe's sympathy for the Boers.

There is a phase of this Boer appeal which general Botha took care to din into the hearers' ears at well-nigh every meeting he addressed. Mr. Kruger, it seems, is financially interested in the generals' begging tour. He lent the Boers £44,000 to carry on the struggle, and presumably this amount will have to be paid back, as the world has been sorrowfully informed that the ex-president is ruined, that all he has to live upon at Mentone, where he is keeping up a suite, including a doctor and two private secretaries, is the rent of two farms.

It is a deplorable fact, but there is no getting away from the result of a little arithmetical exercise—if £44,000 is taken away from the proceeds of the lecture tour (£44,977), only £977 is left for the ruined burghers.

And then it is only natural that Dr. Leyds should expect some consideration for his services as the lecturers' advance agent. He expected great things in Paris, where he personally conducted the generals, and secured for them unparalleled cheering— and £400.

A sorry tale could be evolved from the continental figures. Briefly told, it is this—the Boers made an egregious error in going to the continent before throwing themselves on the generosity of the British people. They had their opportunity. London went wild after them on their arrival there from South Africa. The country was mindful of the assistance they had given in calling the Boers in to surrender their arms; and had they appealed to Great Britain instead of relying on the broken reeds of the continent, they would have fared infinitely better than they have done. Cheers, wreaths, bouquets, kisses, and £44,977!

BEST IN MANY YEARS.

Toronto, Nov. 15.—The November statement of the Ontario department of agriculture states that the past season has been on the whole the best which the farmers of the province have had for many years.

AGED PASTOR GONE.

Port Perry, Ontario, Nov. 15.—Rev. J. W. McMechan, for nearly half a century engaged in the pastoral work of the Presbyterian church in various parts of Ontario, is dead here.

DEATH OF J. L. SCARTH.

Toronto, Nov .15.—James L. Scarth, commissioner of the Scottish Ontario & Manitoba Land company, died last night of paralysis. He was a well-known financier.

No True American

is ever satisfied except with the best. The oldest is not always the best, and is seldom the strongest. In this case, however, the best is the oldest and strongest. Let figures speak:

The Assets of The Mutual Life Insurance Company of New York (organized 1843) exceed those of any other life insurance company in existence. They are over

$352,000,000

It has paid Policy-holders over

$569,000,000

which is more than any other life insurance company in the world has disbursed.

A policy in The Old Mutual gives a man or a woman *that sense of assurance* which cannot be enjoyed under private investments.

NEW YORK FASHION LETTER

New Yorp, Nov. 15.—Fur is so indispensable an item of fashion that it must be included in every smart wardrobe this year, if only in a touch of trimming.

In the latter guise it is extremely effective, lending at the same time elegance and warmth to gowns worn without wraps. A glimpse at many of the frocks which will be worn at the Horse Show next week reveals the fact that fur will certainly be the trimming par excellence at the exhibition. The new effects are mainly employed and combined with laces and appliques in the most incongruous and exquisite fashion.

One of the smartest of the gowns which will be worn is developed in rich dark blue cloth with close fitting skirt trimmed with seemingly numberless little bands of chinchillas. A flounced effect is gained by a very full flare at the bottom of the skirt with the bands of fur stitched on in graduated style. At the back the fulness is gathered into two inverted plaits whose effect is maintained to the very end of the demi-train.

The bodice is laid in tiny box plaits at and back and these are piped with tiniest cords of blue silk. At the belt line the waist is cut round and short at the back, but lengthens at the front until just a wee bit of a Marie Antoinette dip is gained.

The effective feature of the bodice, however, is the arrangement of the vest. This is composed of white chiffon laid over a foundation of cream-white satin and embroidered in light blue and pale yellow designs the borders of which are outlined with the most delicate chenille threads in black and white to produce the effect of chinchillas.

The wide box plaits which turn away from the vest are appliqued with medallians of heavy guipure and these hold in place tiny bunches of fur tails. These same litle ornaments complete the decoration scheme around the brim of a deep blue French-felt hat, supplemented by an immense ostrich plume.

An unusual fashion, yet an elegant one is shown in a gown composed entirely of mink-skins. Eight hundred of the little animals were sacrificed to satisfy this demand of my Lady Modish, but when it is considered that she accompanies the demand with a check for $10,000 something of the worth of minks even when sold in large numbers may be imagined.

Black gowns, too, go well with chinchillas, while brown is reserved with green for the sables. Ermine is used in large quantities upon evening wraps and dresses, but generally speaking the more familiar furs are restricted to linings.

Collars and cuffs of sable upon wraps of cloth or velvet are a splendid recourse for the woman who can ill afford an entire fur garment. Combined with heavy Dutch and Rusisan laces they are particularly smart for street wear, while the points and finer laces are employed for more formal occasions.

However elegant the fur, it is seldom that itis used alone as a trimming this season. There is no abatement for the luxurious craze for combinations and all sorts of rich materials are associated to satisfy this vogue.

The result of the strain upon the furriers' ingenuity to supply new designs shows well this season, not in that they have found new animals, but rather because they have treated so variously the materials at their disposal. For instance there is displayed in ultra-smart shops what the inexperienced would call a new dark sable, so pretty is the coloring and soft the fur, but in reality this is no more or less than the dear little squirrel skin of old, dyed a rich brown.

It is much used as a trimming and for short jackets. In the later style it is not infrequently appliqued with rich brocades and trimmed with another, a lighter fur.

Although seal skin has stood proof against imitation exceptionally well—even considering the electric counterfeit, there has come out this winter a new effect so amazing in its imitation that even experts have been baffled by it. The very shade of the roots has been duplicated and in consequence the demand for real skin has been lessened.

The skin used for the counterfeit is musquash, a fur which also lends itself to the imitation of moleskin, sable and Russian beaver.

Gold is making a vigorous re-appearance in the embroideries used with fur, fur coatees, boleros and long wraps showing delightful notes of the richly effective decoration.

The drooping trimming which has been the distinguishing rear-end feature of fashionable hats during the fall is gradgradually disappearing. Fashion's elite will not tolerate a mode that becomes universal and the new effects in headgear which show entirely their outline are a relief to the eye as cell as a triumph of artistic taste.

Some of the new turbans are composed of moleskin, squirrel, ermine and chinchilla ornamented with military braid; others depend upon the natural beauty of the fur for their effect unless relieved by a pom pom of chiffon or of ostrich feathers. They come in a new rounded shape with rather high crown that is strikingly becoming to oval faces.

No feature of fashion is subject to as many and as frequent variations as sleeves. There is no discontinuance of the generous allowance below the elbow, but the newest designs introduce many novelties in the way of cuffs. Sometimes this is cut deeper, extending to within a few inches of the elbow. Then below the close fitting band the puff droops in fanciful effect, according to the manner in which it is shirred.

One very pretty sleeve shows the snug upper part extending well below the elbow and so sharply curved on the inside that it is exactly elbow-length by the time the semi-circle is completed at the back. At this point there is tacked on a bow of ribbon with long loops and ends. The puff, emerging from the upper part is composed of chiffon shirred in three rows, then gathered into a wrist-band of embroidered cloth.

Another smart design is stitched directly up the back, with the seams overlapping about two inches. The upper side of the seam which is slightly stiffened to insure its standing erect, is faced with white panne velvet—the sleeve being black—and stitched with black silk. Above and below the elbow three and four large cut steel buckles, respectively are sewed on.

Many of the smartest sleeves are seen upon shirt waist suits of velvet and velveteen which are not only smart, but about the most serviceable dress one could have, excepting the tailor-made gown.

MAUDE GRIFFIN.

GANS BEATS SEIGER.

Baltimore, Maryland, Nov. 14.—Joe Gans, the lightweight champion, got the decision over Charley Seiger, of Hoboken, tonight, after 13 fast rounds of hard fighting. The colored champion was called upon to do some very hard work to best the Hoboken boy, who was no match for Gans in sparring or roughing it. Gans blocked many swings, but found that Seiger was taking a remarkable amount of punishment.

DOMINION TRAVELLERS.

Montreal, Nov. 14.—All the officers of the Dominion Travellers association have been elected by acclamation this year, a circumstance unprecedented in the history of the organization. The officers for the ensuing year are as follows: President, J. Robinson, re-elected; vice-president, George A. Mann, re-elected; treasurer, J. S. N. Dougall, re-elected. Directors, J Patterson, A. D. Call, P. J. Paradis, R. Booth, Jr., S. A. Agnew.

Curse of DRINK

CURED BY

COLONIAL REMEDY

No taste. No odor. Can be given in a glass of water, tea, or coffee, without patient's knowledge.

Colonial Remedy will cure or destroy the diseased appetite for alcoholic stimulants, whether the patient is a confirmed inebriate, "tippler," social drinker or drunkard. Impossible for anyone to have an appetite for alcoholic liquors after using Colonial Remedy.

INDORSED BY MEMBERS OF W.C.T.U.

Mrs. Moore, Superintendent of the Women's Christian Temperance Union, Ventura, California, writes: "I have tested Colonial Remedy on very obstinate drunkards, and the cures have been many. In many cases the Remedy was given secretly. I cheerfully recommend and indorse Colonial Remedy. Members of our Union are delighted to find a practical and economical treatment to aid us in our temperance work."

Sold by druggists everywhere, and by mail.

Price $1. Trial package free by writing or calling on Mrs. M. A. Cowan (for years member of the Women's Christian Temperance Union), 2204 St. Catherine St., Montreal.

Sold in Nelson, B. C., by J. H. Vanstone, Baker Street.

IN THE SUPREME COURT OF BRITISH COLUMBIA.

In the matter of the "Winding Up Act and Amending Act."

In the matter of The Tribune Association, Limited, in Liquidation.

Pursuant to the order of the Honorable Mr. Justice Martin dated 16th day of October, 1902.

Tenders are invited for the purchase of the assets of the above named association, consisting of four presses with belting and shafting, two water motors, paper cutter, binding machinery and stock, a large quantity of type, stationery, one Taylor safe, office furniture, etc., including all stock generally used in a first-class printing office.

Tenders will be received en bloc or separately up to 12 o' clock noon of the 6th day of December next, addressed to the official liquidator, at whose office, Baker street, Nelson, B. C., an inventory may be seen, and the stock may be inspected on the premises where the "Tribune," was formerly printed now occupied by the "Daily News."

Dated this 31st day of October, 1902.

A. G. GAMBLE,
Official Liquidator.

Elliot & Lennie, Solicitors for Official Liquidator.

CANCELLATION OF RESERVE, KOOTENAY DISTRICT.

Notice is hereby given that the reserve which was established in pursuance of the "Columbia & Western Railway Subsidy Act, 1896," notice whereof was published in the British Columbia Gazette and dated 7th May, 1896, is cancelled in so far as, but no further than, it relates to a parcel of land in Kootenay District lying within the following boundaries, viz.:

To the west of Lots 230 and 4598; to the north of the northern boundary of Townships 8A and 9A, and to the south of the southern limit of the right of way of the Columbia & Western Railway.

W. S. GORE,
Deputy Commissioner of Lands & Works.
Lands and Works Department.

Corporation of the City of Nelson

BY-LAW NO. 122.

A By-law fixing Electric Light Rates.

The Municipal Council of the Corporation of the City of Nelson, in Council assembled, enacts as follows:

1. The rent or charge to be charged and payable by all persons for the use or convenience of use of electric light or power within the limits of the City of Nelson shall be those set forth in the schedule annexed hereto, subject to the discounts set forth in the said schedule annexed hereto. Provided, however, that the Corporation may at any time on giving 30 days notice to persons using electric light in the City of Nelson, make all rents or charges for light, payable by meter rate, as in said schedule fixed.

2. All electric light rents or charges shall become due and payable monthly at the City Offices on the first day of each month for the month immediately preceeding.

3. This By-law shall be known as "By-law fixing Electric Light Rents or charges, of the City of Nelson."

Done and passed in Council assembled, this day of , 1902.

SCHEDULE REFERRED TO IN THE FOREGOING BY-LAW

FLAT RATES

The flat rate is for an incandescant light service from sundown till one o'clock a.m., and is based on a lamp or unit of 16 candle power. When lamps other than 16 c.p. are used, the total candle power used is divided by 16, and if there is a fraction remaining, the fraction shall be counted as 16 candle power.

BUSINESS HOUSES AND OFFICES

Each per month.

One to six lamps (inclusive.....$1.00
For additional lamps over six and up to fifteen (inclusive)..... .75
For additional lamps over fifteen..... .50

DWELLING HOUSES

Each per month.

One to six lamps (inclusive).....50c
For additional lamps over six and up to fifteen (inclusive).....37½c
For additional lamps over fifteen.....25c

HOTELS, BOARDING HOUSES, AND LODGING HOUSES

For lamps on first floors or in basements, same rate as for business houses and offices.

For lamps in use on floors above first floor, same rate as for dwelling houses.

PRIVATE AND DENOMINATIONAL SCHOOLS, THEATRES, DRILL HALLS, HOSPITALS, CHURCHES, AND HALLS OF FRATERNAL SOCIETIES AND LABOR UNIONS

For lamps when used less than three nights a week, one-half the rate charged for dwelling houses.

For lamps when used three or more nights a week, same rate as dwelling houses.

RAILWAY STATIONS, WAREHOUSES, AND BOAT HOUSES

Same rate as charged business houses and offices.

Offices, Buildings, Fire Halls and Schools owned or used by the City, and all street lighting authorized by the City Council, shall be free of charge.

MISCELLANEOUS.

Arc lamps shall be charged for at the rate of $7.50 per month per unit of 450 wats. When used between one o'clock a. m., and six o'clock p. m., 25 per cent. in addition will be charged.

Where light is used in business places kept open between one o'clock a. m., and six o'clock a. m., 25 per cent. in addition to the business houses and office rate will be charged.

A discount of 10 per cent will be allowed on flat rates if the rates are paid on or before the 15th of each month, for the month previous.

METER RATES.

Where meters are used the rates will be fifteen cents per 1,000 watt hours per month, with the following discounts, if the rates for each month are paid on or before the 15th of the month for the month previous:

For first 25,000 watt hours.....20 per cent
For second 25,000 watt hours....25 per cent
For third 25,000 watt hours.....30 per cent
For fourth 25,000 watt hours....35 per cent
For fifth 25,000 wat hours.....40 per cent
For sixth 25,000 watt hours.....45 per cent
For all over 150,000 watt hours..50 per cent

In addition to the above meter rate, a rent of 25 cents per month will be charged for a meter of five amperes or less, and 50 cents per month for a meter of over five amperes.

POWER

Electric current for operating motors will be as follows, a discount of 10 per cent. will be allowed on the rates, if paid on or before the 15th of each month for the month previous:

Per month.

For one horse power.....$5.00
For each additional horse power up to ten (inclusive)..... 3.75
For each additional horse power over ten and up to fifty (inclusive)..... 3.25
For each additional horse power over fifty 3.00

NOTICE.

Take notice that the above is a true copy of the proposed By-law upon which the vote of the Municipality will be taken at the City of Nelson on Thursday, the 20th day of November instant, between the hours of 8 o'clock a. m., and 4 o'clock p. m., for the East Ward at the City Police Court at the corner of Josephine and Victoria streets, and for the West Ward at the office of T. M. Ward, on the north side of Baker street, between Stanley and Kootenay streets.

J. K. STRACHAN,
City Clerk.

Nelson, Nov. 8th, 1902.

Corporation of the City of Nelson

BY-LAW NO. 121.

A By-law to extend the limits of the City of Nelson.

The Municipal Council of the Corporation of the City of Nelson in Council assembled, enacts as follows:

1. It is hereby declared expedient to extend the limits of the City of Nelson as such limits are now defined, by including within the City of Nelson, that portion or tract of land lying to the south and east of the said city, being a part of Lot 182, Group 1, Kootenay District of British Columbia, and described as follows: Commencing at a point at the eastern limit of the City of Nelson, where the same is intersected by the centre line of the lane in Block 21 of said Lot 182; thence north along the said eastern limit to a point where the centre line of Park street intersects the said eastern limits of the City of Nelson; thence south-easterly along the centre line of Park street to a point where the centre line of the lane in Blocks 22 and 23, continued to cross Park street, intersects the said line of Park street; thence north-easterly along the centre line of said lane intersecting said Block 23, to the centre line of South Cherry street, thence south-easterly along the centre line of South Cherry street to the centre line of Gore street, thence southwesterly along the centre line of Gore street to the centre line of Park street; thence north-westerly along the centre line of Park street to the centre line of said lane intersecting said Blocks 22 and 23; thence south-westerly along the centre line of the lane intersecting Blocks 22 and 21 to the place of beginning.

2. This By-law shall be cited as "City Extension By-law, 1902."

Done and pased in Council assembled, this d ay of , 1902.

NOTICE.

Take notice that the above is a true copy of the proposed By-law upon which the vote of the Municipality will be taken at the City of Nelson on Thursday, the 20th day of November instant, between the hours of 8 o'clock a. m., and 4 o'clock p. m., for the East Ward at the City Police Court at the corner of Josephine and Victoria streets, and for the West Ward at the office of T. M. Ward, on the north side of Baker street, between Stanley and Kootenay streets.

NELSON'S NEWS OF THE DAY

A daughter was born yesterday to the wife of Hudson Fotherby, of Observatory street.

M. S. Logan will be out from New York in the course of a few days to resume operations on the Juno, on Morning mountain.

The postponed general meeting of the Nelson operatic society will be held in the board of trade rooms at 8 o'clock on Monday evening next.

A parlor meeting of the W. C. T. U. will be held on Monday afternoon at 3.30 at the residence of Mrs. George Ritchie, corner of Ward and Latimer streets.

E. Woakes, managing engineer for the Duncan United Mines, leaves this morning for California, where he will attend the California Mining association meeting at San Francisco. He expects to be absent about three weeks.

The profits from the late ping-pong tournament amounted to close on $140, which will be turned over to the public library by the committee in charge. There is talk of another tournament being held by the tennis club at an early date.

The difficulty regarding the building of the road on the north shore of the lake has been surmounted, G. W. Taylor having consented to withdraw his opposition to its being run across his land close to the lake front. It is expected that the work will be completed before the snow comes to stay.

Hunters who have been out on the flats at Kootenay landing during the past week report poor shooting, although a few secured satisfactory bags. Several hunting parties are going out today, returning Monday, in the hope that the recent cold snap may have driven the birds from the north.

In the absence of the occupants of two rooms in the Macdonald block on Friday night, a thief went through several valises, searching for some valuables which he evidently thought were concealed there. Several small articles were taken. The police are hot upon the trail of the thief.

The schoolhouse at Creston is nearing completion. The C. P. R. have under way a new depot at this place, which will be a very great convenience to the settlers. Times are good around Creston these days, and everything points to this being one of the most substantial of the smaller towns along the line of the Crow's Nest.

A meeting of the general executive of the Success club of this city was held yesterday afternoon, to prepare for the general meeting on Monday evening. The Monday meeting is to be held at 8 o'clock in the hall adjoining St. Saviour's church. Already 80 names have been placed on the membership books of the club.

John West, of White Horse, has come down from the north on the Amur. He says that governor Ross is a sure winner in the northern campaign. Mr. West adds: "We have had a great season in the north, and the government has certainly done well this year in the development of roads and other public works. Governor Ross is very popular throughout the north, and everybody on the upper Yukon certainly is on his side. The new winter trail is certain to be a great success."

A meeting of the council of the board of trade was held yesterday afternoon to discuss the action of the Sandon mine owners in calling a meeting for November 20th. It was decided that the council cordially endorse the calling of the Sandon meeting, and a letter to that effect was dispatched to A. Garde, manager of the Payne mine. It is felt that the lead mine owners by having a meeting among themselves to discuss things and decide on their stand when meeting the smelting and other representatives at Nelson will materially assist in ensuring the success of the latter meeting.

A recent copy of the Mercury, a newspaper published at Guelph, Ontario, contains an interesting account of the celebration of the 117th birthday of Mrs. M. A. Mills. This venerable lady, despite her advanced years, is in perfect health. She was born in county Fermagh, Ireland, in November of 1785, and has lived in the reigns of five English sovereigns. Several of her descendants reside in Nelson, Mrs. W. G. Brown being a granddaughter. Her recollection of the times of the Napoleonic wars and other stirring historical events is clear. She has resided in Canada close on a century.

KASLO MINING NOTES.

Ore Shipments for the Week.—High Assays Obtained on Shareholder.

The Kootenaian gives the ore shipments passing through Kaslo this week as follows: American Bay, to Everett, 20 tons, and the Soho, to Nelson, 21 tons. The total tonnage to date now amounts to 13,870, which is a considerable increase over the output for the same period last year.

A two-foot lead of galena has been uncovered for a distance of 20 feet on the Gillis group at the mouth of Hall creek. The property is owned by John M. and John A. Gillis.

The annual general meeting of the Globe Mining Company, Limited, will be held in their offices in Kaslo on Tuesday, December 2nd.

Some very high assays have recently been obtained from the ore on the Shareholder at Bear lake. Picked samples run as high as 2,130 oz. silver, and an average of the ore is 245 oz. The lead shows about 20 inches wide. The property adjoins the well known Silver Glance.

The Selina and Pelton are two claims located about two miles from Nelson, on which a strike of very good ore was made recently. A good deal of work has been done on the property, consisting of a tunnel 300 feet long on the Selina, which drifts on the vein in highly mineralized ledge matter for the entire distance. The vein has been exposed on the surface for a distance of 100 feet. In all of the workings an abundance of lead galena has been encountered. Good cabins, ore bins and other buildings have been built at the mine. It is estimated that about $8,000 worth of work has been done on the property. The recent strike of ore is a heavy galena, and shows every indication of holding out.

ROSE IS NOTIFIED.

That He Must Suffer the Extreme Penalty of the Law.

It was yesterday sheriff Tuck's painful duty morning to inform Henry Rose that the law would have to take its course in his case, the official word to that effect having been received late Friday night.

Rose received the information which destroyed all his hopes without a word of comment. He made no sign to indicate that he appreciated the momentous nature of the sheriff's communication. Ever since his conviction and sentence Rose has maintained the utmost composure. He has expressed confidence in being cleared of the crime of which he stands convicted, and has declared repeatedly that he would never be hanged. When the information had to be imparted to him that the minister of justice saw no reason to intervene in his behalf it was expected that his assumed indifference would break down. However, he heard the fatal message without a tremor, and is apparently prepared to meet his fate as coolly as he underwent the ordeal of the trial.

Radcliffe, the official executioner, will arrive in Nelson on Tuesday to prepare for the hanging, which will take place in the Nelson jailyard at 8 a. m. on Friday next. The scaffold which was last used for the hanging of Woods is now being placed in position.

NELSON SUCCESS CLUB.

Kootenaian Strongly Approves of the Proposed Scheme.

The new Success club at Nelson if managed on strictly parliamentary lines should neutralize many of the defects inherent to human nature and bring out a class of men who would be a credit to Nelson or any other city. Sir Edward Clarke, Jos. Chamberlain, John Bright, Charles Bradlaugh, Dr. Parker and many other men might be mentioned as illustrious examples of the products of debating societies when properly conducted, with strong discipline over the speakers, and these same speakers, though for the moment hate the strong hand of a powerful chairman, yet always admit the benefits they have received at his hands. We wish the Success club every good that it can and should accomplish, for they are real "man" makers. In 1893 Kaslo had her "mock parliament," of which the present high sheriff of Kootenay was "speaker." This institution should be revived again. It did good then and would be appreciated by the beneficiaries under the early closing movement and render many a man a good speaker who cannot now express his thoughts to an audience.

THE CALUMET & B. C.

Meeting of Shareholders.—Election of Directors and Officers Appointed.

The first general meeting of the Calumet & British Columbia Goldfields, Limited, was held yesterday afternoon in the office of the company in the K. W. C. block, and resulted in the election of the following board of directors: P. Lamont, W. W. Beer, E. A. Crease, A. H. Graham, W. C. Bailey, J. Laing Stocks and J. F. Musselman. Immediately after the general meeting the directors convened and appointed the following officers: P. Lamont, president; W. W. Beer, first vice-president; E. A. Crease, second vice-president; W. C. Bailey, secretary; J. Laing Stocks, treasurer; J. F. Musselman, managing director.

CHURCH SERVICES

Presbyterian—St. Paul's, corner of Victoria and Kootenay streets. Morning service ot 11; evening, 7.30; Sunday school, 2.30 p. m. Rev. Dr. Wright, pastor.

Methodist—Corner of Josephine and Silica streets. Morning service at 11; evening, 7.30; Sunday school, 2.30 p. m. Rev. J. H. White, pastor.

Congregational—Emmanuel, corner of Stanley and Silica streets. Rev. D. H. Reid pastor. Morning service at 11; evening at 7.30; Sunday school immediately after the morning service. Rev. D. H. Reid will preach in the morning and evening.

TWO IMBECILE WOMEN.

Create a Sensation at Sandringham By Asking to See the Queen.

London, Nov. 15.—Sensational stories were current at Sandringham today regarding the arrest of suspicious individuals in the neighborhood or the royal residence. Late tonight it was asserted that two men disguised at women, were intercepted by the police while on their way to the house. The facts are that two women believed to be lunatics, who wanted to present a petition to queen Alexandra, were detained by the police.

The two women detained for trying to approach queen Alexandra formerly lived in Brooklyn, N. Y., and they recently returned to England from a visit to Ireland. Their names are Mrs. Annie M. Ovington, and Sadie Ovington, her daughter. The mother, when examined by a magistrate, made a rambling statement to the effect that she was being pursued and therefore craved the protection of the queen. She was taken to the county asylum. The daughter apparently is an imbecile.

BAD FOR HIS HEALTH.

Appointment of Canadian Apostolic Delegate Suspended.

Rome, Nov. 15.—The appointment of an apostolic delegate to Canada to succeed archbishop Falconi made papal delegate to the United States, has been suspended. Mgr. Zalosi who was designated for the position sail the cold climate of Canada would be bad for his health which was injured by his residence of ten years in India. The most likely candidate is now said to Mgr. Sharretti who is in Washington awaiting a new appointment. Archbishop Chapelle warmly supports Mgr. Sharretti.

SULLIVAN IN VAUDEVILLE.

New York, Nov. 15.—Having grown tired of apearing as Simon Legre in an "Uncle Tom's Cabin" show John L. Sullivan has turned his attention to vaudeville. Monday night he will make his debut at the Harlem Music hall as a monologue artist, emulating the example of James J. Corbett.

Carbonate of lithia is more strongly recommended for rheumatism, indigestion, kidney trouble, etc., than any other mineral salt. It is more soluable in carbonic acid water than in any other fluid. Thorpe & Co.'s Lithia Water is prepared as carefully and as acurately as any mineral water in the world.

——— Landing,
Kootenay Lake, Nov. 6th, 1902.

T. S. McPherson & Co.

Dear Sir:—

Enclosed find amount of last month's account. Send by steamer Kokanee tomorrow:

1 bbl best Bread Flour
1-2 sack Sugar (white).
1 small box Butter
5-lb. tin Black Tea.
1 sack Table Salt
5 pkgs. "Force"
1 piece Bacon (Premium).

And oblige,
MRS. R. R———S.

P. S.—Be sure that the Tea is the same as the last; I think you call it "Imperial." I am a crank on tea, but this just suits me.

The Tables Have Turned

For years we have been telling the people of Nelson and vicinity that

Imperial Tea

was the best on the market. Now the people are telling us of its excellence.

Hardly a day passes but what someone remarks when buying that it is all right.

We have said it before.

We say it again.

That no house in Nelson can excel us in this line.

We import direct from the gardens.

"Imperial" is packed in our own establishment in ½-lb, 1-lb, and 5-lb tins.

The latter is a very attractive package, and the price is $2.25.

T. S. McPherson

MILLINERY

For stylish, up-to-date trimmed and dress hats go to MRS. ENFIELDS, Opera House Block.

While You're Looking

Do not overlook the fact that we fit eyes for all kinds of errors of refraction. Our stock of frames is most complete, therefore ensuring you a perfect fitting. Do not delay, but come while you have a chance to better your vision. Later may be too late.
