THE DAILY NEWS

VOL. 2 NELSON. B. C., FRIDAY, JUNE 26, 1903 NO. 57

HUNDREDS ARE RUSHING IN

Stampede to Poplar Creek in Full Swing

Further Reports Anxiously Looked For

[Special to The Daily News.]

Kaslo, June 25.—Captain Angus Campbell, of the steamer Hercules, has just returned here from Lardo where he went with a load of gold-hunters, bound for Poplar creek.

He states that the Lardo has become very busy as a result of the excitement. Stock that had been turned out on the meadows of the Duncan and Hamill rivers, are being brought in and every available animal is being bespoken for packing supplies to Poplar creek.

Business men are replenishing their already depleted stocks and rush orders for large quantities of new goods are being placed. Captain Campbell says that there was no news from the immediate vicinity of the find, as every one is going in and none coming out.

Many amusing incidents took place between Lardo and the creek. J. Burns and C. Donnelly tried to get in by way of Duncan City and, not knowing the country got lost, and meeting a rancher known as "Spud" Murphy, were sent up the Duncan river, and only returned when their supplies ran out.

The Kootenay and Arrowhead railway company are rushing repairs on the railway and bridges with all possible speed and it is expected that trains will be running in another week. As the railway runs through the rich ground, transportation will be most convenient.

The C. P. R. steamer Kokanee ran through to Lardo last night and was loaded with men, horses and supplies. It is expected that she will make an extra trip tonight as traffic is increasing with astonishing rapidity.

Colonel William Brayton came in today and will proceed at once to a group of claims he has been operating in the same belt about six miles from the big find with the object of more thoroughly prospecting his ground. He is very enthusiastic, and is emphatic in his statements that the goods are there. It is quite true the district has been prospected but very little although comparatively easy of access.

Later reports from the vicinity of the crek are anxiously awaited. It has been stated that from five to six hundred men went in by way of Lardo alone, during the last two days as well as a large number from the west side.

As early as the year 1892 the section of the Lardeau lying between the head of Kootenay lake and the foot of Trout lake gained prominence for its mineral showing. In 1892 and the following year considerable excitement prevailed and many claims were located. But the lack of transportation facilities and the coming to the front of other sections more accessible caused most claim owners to let their property lapse. Again in 1897 considerable stir was created by reported rich finds, but the Klondike excitement succeeded in drawing the attention of the public, and not until 1899, when construction on the Lardo-Arrohead railway was begun, did the prospector again turn his attention to this section. In that year many claims were staked, but owing to the difficulty of getting in supplies very little work beyond the necessary assessment work done until last year when, on completion of the railway from Lardo to Gerrard, more extensive development work was possible. This year will probably see a number of properties added to the shipping list.

On Poplar creek, on the south slope of the Lardo river, Marquis and Gilbert's recent strike running up in the thousands of dollars to the ton in gold is causing a stampede, and will mean increased activity throughout that section.

The Spy Glass claim, belonging to J. Winquist, is also situated on Poplar creek, and assays from it give 3,740 ounces in silver and $120 in gold to the ton.

On Tenderfoot creek, about five miles from Poplar creek, towards Gerrard, the Lardeau Valley Mines, Limited, of which J. Rutherford, Kaslo, is manager, have extensively developed the 'Maggie May group, assays from which give values of from $50 to $90 in gold and silver.

On Canyon creek, near Gerrard, the Senorita group has been developed to an advanced stage, and assays give good values in gold silver and lead.

On the north bank of the Lardo river, opposite, and about two miles from Poplar creek, is situate Johnson's Basin, in which the following groups of claims have been developed during the summer months for some years past: The Three Lakes group, owned by Green Bros., Kaslo; the Porcupine group, owned by J. C. Rady, Trout Lake; North Star group, owned by Hillman & Co., Trout Lake; Rio Grande, owned by Frank Barber, of Trout Lake, and Thomas Taylor, M.P., of Revelstoke, and the Nelson group, owned by H. A. Mills, W. J. Hill, and W. G. McMorris, of Nelson.

The development so far accomplished on these claims has been, for the most part, open-cut work. The Three Lakes group was located in 1892 and the assessment work has been done each year since that time. The majority of the other claims' were located in 1899 and 1900. The surface croppings are exceptionally large, and show quartz carrying galena, which runs well in gold and silver with a small percentage of lead.

At the head of Lake creek is situated the Gertrude group, operated by the Gold Hill Mining Co., of which James Anderson, of Kaslo, is manager. This property has a splendid showing and assays give good values in free milling gold.

On Haley creek, opposite Tenderfoot, is situate the Abbott group of claims, which, it is stated, is one of the most promising in the Lardeau district, and has only been awaiting the necessary transportation facilities to become a steady shipper.

HUDSON'S BAY COMPANY.

A Very Favorable Annual Report Just Issued in London.

London, June 25.—The annual financial statement of the Hudson's Bay company was issued to the shareholders today. The report is a most favorable one and indicates a progressive though conservative policy. For the past financial year there was a trade profit of $710,000, compared with $342,000 the previous trade year. Next year's fur sales promise to be up to the average.

The statement shows that 368,678 acres of farm lands were sold as compared with 196,844 acres last year, realizing $2,086,603, or an average of $5.66 per acre, compared with $999,685, the previous year, and averaging $5.08 per acre. The sale of town lots realized $686,755, compared with $57,082 in the previous year. The board says there is every prospect that the land balance next year will enable the company to make a further repayment of capital by $5 per share, reducing the shares to $50 and the capital to $5,000,000.

BOUNDARY SHIPMENTS.

Phoenix, June 25.—This week ore shipments from the Granby mines in this camp have been increased to a point that they have not reached in many weeks hertofore. At present 36 cars, or over 1,000 tons of ore daily, are being sent to the company's smelter at Grand Forks, requiring the employment of an additional train crew on the Phoenix branch of the C. P. R. Last week the force of men employed at the Granby mines was somewhat reduced, as the ore bins were full to overflowing, but now more men are being used again.

The increase in shipments and ore treatment is due to the fact that the company has begun to receive a part of the alternative coke supply from Fairfax, Washington, and last Monday blew in another furnace, making three now in commission. With the two at the Greenwood smelter and one at the Sunset smelter at Boundary Falls, this makes five blast furnaces now in operation in the three boundary smelters

NEW POSTAL ISSUE.

Ottawa, June 25.—On Dominion Day the postoffice department will issue new postage stamps, and those who have had the opportunity of seeing copies of them speak most approvingly, both of the design and workmanship. The stamps bear the likeness of the king, copied from the latest portrait of his majesty, being the one painted since his accession to the throne and representing him in royal robes of scarlet and ermine and now in York house, the London residence of the prince of Wales. In each of the upper corners of the stamp is a Tudor crown and in the lower corner a maple leaf, with a numeral indicating the denomination. The picture of the king is a striking and admirable likeness of his majesty.

AN EXPERT'S VIEW.

New York, June 25.—John Hyslop, for many years official measurer for the New York Yacht club, has this to say of the America cup challenger: "There is no question that she is an easy boat to drive, and does not show all the power she possesses. I am amazed at the difference between her midship section and the midship section of the Reliance. She has tremendous strength forward and is not at all likely to pound in a sea, so there is nothing to kill her speed. Shamrock III. will heel very easily, and when she does she will sail on a long flow. She is wonderfully fair and beautifully finished."

READY FOR TODAY'S RACE.

Poughkeepsie, N.Y., June 25.—Everything is in readiness for the intercollegiate rowing races here tomorrow when the picked crews of Columbia, Cornell, Pennsylvania, Georgetown, Syracuse and Wisconsin will contest for the supremacy. Confidence appears to be felt in all of the camps and from all indications the races will be among the most interesting ever pulled off over the famous Poughkeepsie course. The West Shore road will run its customary observation train and other arrangements are being made to accommodate an unusually large number of spectators.

FOR JEWS NOT NEGROES.

Washington, June 25.—The president has decided to transmit to the Russian government the petition presented to him by the executive council of the Bnai Rith, regarding the treatment of Jews in Russia. This action has been taken after mature consideration. At first it was decided that the petition should not be presented because it might be resented by the government of Russia and lead to a response that would cause a break in the relations of the two countries. However, the first conclusion has been reconsidered, and on the action of the president, the petition will now go forward.

TAFFY FROM WILLIAM.

Kiel, June 25.—"I shall telegraph to the president today telling him in what perfect condition I have found your ship," said emperor William in parting with rear admiral Cotton and captain Hemphill on board the United States flagship Kearsage today after he had spent an hour and a half looking over the battleship as thoroughly as any naval inspector could have done, working the turrets, examining the quarters of the men, and talking familiarly with some of the sailors.

HEAVY SILVER-LEAD OUTPUT.

El Paso, Texas, June 25.—The heaviest single consignment of foreign silver-lead ores which ever passed through El Paso was received yesterday, in bond. The shipment was composed of 52 carloads of ore from Chili and was destined for the Colorado smelting plants of the American Smelting & Refining Co. The gross value of the consignment was $8,000,000.

HE AGREED TO APOLOGIZE

WAS CALLED TO THE BAR OF THE ONTARIO LEGISLATURE.

SAID HE WAS SORRY AND THE HOUSE FORGAVE HIM.

[Special to The Daily News.]

Toronto, June 25.—In the legislature today, Colonel Gibson called the attention of the house to the fact that a member of the press gallery had sent an offensive letter to Mr. Pettypiece, after the latter had finished his speech. He stated that instead of it being necessary to summon the offender to the bar of the house, the latter would come voluntarily. Mr. Whitney concurred.

When the house resumed in the afternoon the bar across the entrance was placed in position, and colonel Gibson drew the attention of the speaker to the fact that a member of the News' staff, referred to earlier in the day, was present, and that he desired to make a statement at the bar of the house.

Charles Worth, of the News, then presented himself at the bar of the house and made the following statement "With reference to the letter addressed by me to the member for East Lambton, on which I appear. In justification I can say that the communication was an attack on his ideals as a journalist, and not upon his conduct as a member of this house; that it was a personal communication, passing between old and intimate acquaintance, containing but one offensive word, which I should not have used under any circumstances; and that it was written under what I deemed extreme provocation. Since I am advised that it was offensive to the general honor of the house, I desire to apoligze for it, and to express my regret for this occurrance."

The speaker then said "On behalf of this assembly, I accept the apology of the gentleman, and I hope that nothing of the sort will ever occur again."

Charles Worth then withdrew.

Toronto, June 25.—It was stated in the legislature this morning that Mr. Gamey would again take part in the debate on the bribery commission report. Conmee, liberal, speaking this morning argued that there was conspiracy between Gamey and Sullivan.

A YALE DAY.

Defeats Harvard Easily in the Three Principal Events of the Regatta.

New London, Conn., June 25.—Yale won the Varsity eight oared race today by about four lengths.

The official time was Yale, 20.19 1-5; Harvard, 20.29 3-5.

The Varsity four oared race was won by Yale by three lengths. Time, 10.59 2-5.

Yale also won the freshmen's race by two lengths. Time, 9.43 1-5.

The oarsmen of Yale today demonstrated their superiority over those of Harvard by winning in spurt style all the events.

The Yale four took the first race by three comfortable lengths while the New Haven freshmen in a close race finished a length and three quarters ahead of Harvard's youngsters.

In the big race of the day Harvard after leading for a mile went down to defeat at the hands of Yale. It was the first time that Yale has won all three events since the present programme has been in force. There were no accidents to mar the day's sport.

SUDDEN DEATH.

C. W. Taylor of the Toronto Globe Dies From Heart Failure.

Toronto, June 25.—Charles W. Taylor, business manager of the Toronto Globe, died suddenly this morning of heart failure.

Charles W. A. Taylor, the well known business manager of the Globe, Toronto, died suddenly early this morning at his residence, shortly after getting up for the day. Heart failure was the cause. Mr. Taylor was the oldest employee on the Globe staff, and had worked his way from the position of office boy under the late George Brown to the business managership, having been with the Globe thirty-five years. He was about 50 years of age.

HERE IS AN OMEN.

Baby Elephants Named After Racing Yachts—It was "Reliance" That Died.

New York, June 25.—"Big Liz" one of the Coney Island elephants, gave birth to twins yesterday. The twins weighed five hundred pounds. One of them died shortly after its birth. It weighed two hundred pounds. When the twins arrived Henry Tudor, one of the managers of the Coney Island resort, where Elizabeth is on exhibition, named the larger one "Shamrock III," and the little fellow "Reliance." It was "Reliance" that died.

GUILTY OF NEGLIGENCE.

Coroner's Jury on Scoville Accident Blame C. P. R.

[Special to The Daily News.]

Rat Portage, Ont., June 25.—A coroner's jury sitting here, enquiring into the death of engineer Johnston, tonight brought in a verdict to the effect that the C. P. R. were guilty of negligence in allowing trains to run across the bridge at Scoville before it was in a safe condition, thereby endangering the lives of their employees as well as the traveling public.

KICKED OUT FOR A YEAR.

New York, June 25.—Henry W. Warner, was suspended from the stock exchange today for one year. He was found guilty of trading with and carrying the account of an employee of another member of the exchange without the consent of that member.

"LET 'EM ALL COME.

Portland, Oregon, June 25.—Owing to the large number of suburban trolley cars which have been held up by highwaymen recently, the Oregon Power and Railway company, has armed all its conductors and motormen with revolvers.

CROWD DEFIED THE POLICE

ANARCHY REIGNED LAST NIGHT AT WILMINGTON.

AFTER FIVE HOURS OF RIOT THE LYNCHER WAS FREED.

Wilmington, Del., June 25.—Anarchy reigned here last night when a mob of more than 5,000 persons surrounded the city hall, where Arthur Corwell, who was arrested on a charge of being concerned in the lynching of George White, was locked up, and demanded his immediate release.

They came from all over the city, and word being passed around that an attack was to be made on the police station, unless Corwell was let go at a certain time.

After the crowd had howled and yelled for five hours, beating negroes and defying the police, Corwell was released on $5,000 bail.

It is openly declared that no will be kept in jail or be allowed to suffer for the part he took in the lynching.

COAL STRIKE IS STILL ON

DECIDED HITCH IN PROPOSED SETTLEMENT.

MEN INSIST ON SAME TERMS AS BEFORE STRIKE.

[Special to The Daily News.]

Victoria, June 25.—A pause has been called in the negotiations for a settlement of the strike at Ladysmith. Yesterday all seemed bright for an adjustment of the trouble and there was every prospect of the mines at Extension immediately resuming work.

The few little differences which remained between the management and the men were discussed at a meeting in Ladysmith last night. The men then decided to pass them all over and demand as conditions of their returning to work, that the terms should be exactly the same as prevailed before the strike was declared. This was communicated to Dunsmuir, who promptly refused to accede to these terms in their entirety, as he had before refused to do and thus the matter stands tonight.

THE ROSSLAND CANNIBAL

IS SENT TO JAIL AND FINED SEVENTY-FIVE DOLLARS.

COURT DECLARED THE CHARGE WAS FULLY PROVED.

Rossland, June 25.—The War Eagle assault case, preferred by A. W. Dyer, of the World, against W. Ferguson, L. H. Sorenson and A. Hazard, of the War Eagle force, came to a termination this afternoon when magistrate Boultbee sentenced W. Ferguson to one months' imprisonment and a fine of $75, with another two months' imprisonment if the fine was not paid. The prisoner will also pay the costs of the prosecution. He was removed into custody.

The other participants, L. H. Sorenson and A. Hazard, were fined $15 each and costs.

In summing up the magistrate went into the evidence at some length and pointed out that while there was some conflict of testimony yet the complainant's story was practically uncontradicted, while that of the prisoner was unsupported. The witnesses for the defence had corroborated complainant's story. There was no doubt of the assault being premeditated, the evidence of J. F. Slatter on this point being uncontradicted. There was no doubt as to the biting and therefore he found the prisoner guilty.

FOR PREFERENTIAL TRADE

ENGLAND IS DEEPLY INTERESTED IN THE MOVEMENT.

THE COUNTRY IS FLOODED WITH CAMPAIGN LITRATURE.

London, June 25.—The discussion on the subjects of preferential trade union, and free trade has been temporarily removed from the floor of parliament to the chamber of commerce, and to public gatherings in the realm.

There is widespread interest in the question of fiscal union. Chamberlain's liberal unionist organization will seek to promote his policy by public meetings and by dissemination of literature. Some of his followers are not exactly certain of their position, unlike their leader, whose mind was made up on this question long ago. He is the one man who seems to have clear and strong views, hence his tremendous following.

The directors of the Manchester chamber of commerce, while welcoming full discussion and enquiry into the whole question raised by the colonial secretary, are of the opinion, that such would only prove that interference with Great Britain's free trade policy will tend to raise friction among the conflicting interests, and lead ultimately to the disintegration of the motherland and the colonies.

On the other hand, Glasgow's chamber of commerce is strong for Chamberlain. The real reason for the difference of opinion is, that if cotton, or wool materials were taxed many Glasgow industries would be helped and thus, thereby placed in a better position to compete with foreign competitors.

The imperial tariff league is distributing campaign literature in immense quantities. The first leaflet issued, asks why America is prosperous, and answers, because home makers are fostered by high tariff.

All the printing presses are gorged with ink. Tons of arguments for and against making any change in England's fiscal policy are being run off and will be distributed broadcast throughout the United Kingdom.

England is now fighting Canada's national policy campaign of 1878, over again.

BRITAIN TURNS US DOWN

AMERICAN CATTLE PURCHASED FOR BOER FARMS.

COULD BE BOUGHT IN CANADA TO BETTER ADVANTAGE.

[Special to The Daily News.]

Ottawa, June 25.—Hon. Mr. Borden in the house today read a newspaper despatch which said that large shipments of American cattle were being made from Galveston, Texas, to South Africa, it was said that the shipments were dairy cattle purchased by the British government to restock the Boer's farms in the Transvaal and Orange river colonies. Mr. Borden thought the cattle could be purchased in Canada, and that the government should make some representations to this effect to the imperial authorities. He asked if the government had taken any steps in the matter.

Hon. Sidney Fisher said that he had no knowledge of the consignment of the cattle referred to, but he assured the house that he had done all in his power to secure this trade for Canada. As soon as it was known that the Boer farms were to be restocked by the imperial government, the Canadian government had pointed to the home authorities that cattle could be purchased in Canada to advantage.

A reply was received that this would receive careful attention. Later on the Canadian cabinet called the attention of the colonial office to the fact that the purchases were being made in the United States but no attention was paid to this last communication.

BANFF NATIONAL PARK.

Ottawa, June 25.—Mr. R. Douglas, superintendent of the Banff National park, has just returned from New York, where he has spent some time studying the habits and mode of keeping wild animals, owing to the fact that it is intended by the government to stock the Banff park with all the animals native to the dominion as soon as it can be done. This is in connection with the plan of increasing the size of the park to about 20 times its present dimensions by taking in many of the surrounding valleys, mountains and lakes. The park will then be larger than the Yellowstone park, and will include many lakes and waterfalls of surpassing beauty; chief among these will be the Takakka fall, a glacial stream of one-fourth of the volume of Niagara that has a sheer drop of 2,300 feet. A great part of the water disappears beneaths the rocks and finally flows into the Fraser. Immense boulders are constantly ground out by the glacier and are hurled over the fall, causing the entire district to resound with the crash of their impact. The beautiful Yoho park will also be taken into Banff . These outlying portions will be retained as an immense game preserve, with only a few bridle paths through it. At present there are in the park 21 head of buffalo, nine elk, five moose and 17 Angora goats. Travel to the park has doubled in the last four years, and last year over 9,000 tourists, largely American, visited it. These spent in the park over $1,000,000. A stone weather observatory is now being constructed on Sulphur mountain, which is 8,500 feet high. Extensive improvements in the hotel accommodation of the park have become necessary and are now being made.

GIRLS TO BE SCHWAB'S GUESTS.

Atlantic City, N.J., June 25.—Through the generosity of Charles M. Schwab, president of the United States Steel Corporation, twenty young women are to have the time of their life at this resort during the next few days. The young women are composed of the class of '03 of the industrial institute of Homestead, Pa., and it is in celebration of their graduation that Mr. Schwab decided to give them an outing. The graduates arrived in Atlantic City today on Mr. Schwab's private car Loretto and during their stay they will occupy the finest apartments at one of the leading hotels.

CRAMPS TO INCREASE CAPITAL.

Philadelphia, June 25.—At a special meeting today the stockholders of the William Cramp & Sons' ship and engine building company, will complete the arrangements for an increase in capital as decided upon at the recent annual meeting of the company. It is proposed to raise the capital from $5,000,000 to $6,250,000 and to enlarge the bond issue from $1,800,000 to $7,500,000.

WHALEN MURDER CLUE.

[Special to The Daily News.]

Cobourg, Ont., June 25.—Chief of police Russell last night arrested a tramp who gave his name as William Armstrong. The man had in his possession a number of letters from Collingwood, and admitted having been in the vicinity of Collingwood recently.

He was committed to jail for six months as a vagrant.

MANITOBA ELECTIONS.

Winnipeg, June 25.—It is officially denied here that the Manitoba house has been dissolved and that the writs will be served forthwith.

It is expected nevertheless that dissolution is near at hand and July 17th is the probable date of the polling.

NOT FOR A LIBRARY.

Utica, N.Y., June 25.—President Stryker, of the Hamilton college, announced this afternoon that among the recent donations to the college was one for $100,000 from Andrew Carnegie.

FRANKLIN FILES DYING.

New York, June 25.—Franklin Files, the veteran dramatic writer and playwright, is dying at his home in this city. According to his physician he can live but a short time.

BOUNDARY CELEBRATION.

[Special to The Daily News.]

Phoenix, June 25.—Interest in the only Dominion Day celebration to be held in the Boundary country, namely, that at Grand Forks, seems to be increasing in this place, so far as the sports are concerned. The local baseball team expects to take part in the contest there, and a select hose team will go down to run in the fire team races. There are two hose teams in Phoenix, both equipped with the regulation apparatus, and both of which have recently been doing considerable practicing. Yesterday the two teams had a friendly wet test, the No. 2, or upper town, team being beaten by the No. 1, or lower town team, the time being 28 seconds flat, both carts carrying the usual amount of hose. Isaac Crawford is captain of the No. 1 team, and O. N. Galer of the No. 2 team. The city officials and residents generally are pleased to see the interest now being takn in the local fire brigade.

BOUNDARY LIBERALS.

Will Hold a Convention at Greenwood on July 17th.

[Special to The Daily News.]

Greenwood, June 25.—There was a numerous attendance at last night's meeting of the Greenwood Liberal association. President J. R. Brown was in the chair. Some twenty names were added to the membership roll. The chief business was that of arranging for a district convention for nominating a candidate for the electoral district of Greenwood at the ensuing elections for the provincial legislature. It was agreed, subject to confirmation by the Eholt, Boundary Falls and Midway associations, that the convention be held in the city hall, Greenwood, on the evening of July 17th, and that every member of the several associations shall be entitled to attend the convention and vote thereat. Voting by proxy will be permitted, but no member may vote as proxy for more than two other members. It was resolved that each of the four district associations appoint one representative to act on a committee to make arrangements for the conduct of the convention, these four to agree upon a fifth as chairman of the committee. The Greenwood association appointed Dr. H. S. Simmons as its representative.

GOSSIP OF GREENWOOD.

[Special to The Daily News.]

Greenwood, June 25.—Marriage licences have been issued by the registrar at Greenwood to Francis H. Greville-Mulliner, of Eholt, and Ethel Jane Banard, of Hartford Junction, and to J. Thomas Williams and Hannah C. Atkinson, both of Greenwood. The latter couple were married last evening at Grand Forks.

Dr. J. E. Spankie, of Greenwood, was married yesterday at Yonkers, N. Y., to Miss Grace Mulligan, of that place. The doctor left Greenwood about two months ago on a three months' trip east. He is well known and popular in this district, and during the past year has taken an active interest in public affairs. He is vice-president of the Greenwood board of trade, and chairman of the local conservative association. At the last municipal election he was a very energetic supporter of mayor Smailes, whose election was due largely to the efforts of Dr. Spankie and several other enthusiastic advocates for a change.

H. H. Shallenberger, who was married in Spokane last week to Miss Norene E. Pierce, of that city, with his bride arrived in Greenwood last evening. Mr. Shallenberger has mining interests in the district, with which he has been closely identified for a number of years. Since leaving Greenwood last year he has been in Minneapolis endeavoring to interest moneyed men in that city in the mining industry of the Boundary district.

AN ACTIVE BOARD OF TRADE.

[Special to The Daily News.]

Greenwood, June 25.—The Greenwood board of trade held its regular fortnightly meeting yesterday afternoon, with president Ehrlich in the chair. The secretary reported the recent visit of the dominion inspector of fisheries for the Pacific coast and what had been done to give that official full information upon the subject of stocking Long Lake with fish, and the necessity for the provision of fish ladders where asked for by the board. The committee having in hand the matter of endeavoring to secure an early closing by-law reported that one petition in favor and one against had been signed. The matter was left with the committee for further action and to report to the next meeting of the board. A discussion took place upon the desirability or otherwise of making representations to the provincial government regarding the difficulty in obtaining sufficient coke to keep the district smelters running at their full capacity, but the opinion of the majority of those present appeared to be that as the smelter companies, who are chiefly interested, had not asked the board to move in the matter it was not advisable to at present take any action.

ST. JEAN BAPTISTE.

End of a Great Celebration in Montreal. Tarte Makes Speech of the Evening.

Montreal, June 25.—The St. Jean Baptiste celebration was brought to a close tonight by a monster banquet at which over 3,000 people were present.

Speeches were made by Hon. Mr. Tarte, Hon. Mr. Prefontaine, Mr. F. D. Monk, M.P., and other leading French Canadians. Mr. Tarte made the speech of the evening and urged the French Canadians to devote more attention to practical education in order to keep abreast of the other nationalities.

CHIEF JUSTICE GIBSON?

Rumor That Attorney-General Will Preside Over the New Court.

Toronto, June 25.—It is rumored that Hon. J. M. Gibson, attorney-general, has been offered the chief justiceship of the new exchequer division of the high court of judicature of Ontario, and is considering the offer.

C. P. R. ENGINEER KILLED.

[Special to The Daily News.]

Regina, N.W.T., June 25.—A man named McKercher was killed on the C. P. R. tracks near here last night. He was sleeping on the track. Deceased was a C. P. R. engineer and was en route to Montreal to visit his wife.

LONG LIVE KING PETER

Servian Crowds Acclaim the New Monarch

European Powers Decline to Recognize Him

Belgrade, June 25.—Amidst great enthusiasm king Peter this morning took the oath before the skupshtina, subsequently he held a review of the troops.

Previous to the king taking the oath, there was a joint sitting of the senate and skupshtina attended by a religious service at which the metropolitan officiated. The president of the senate opened the joint session. After king Peter appeared, the metropolitan uttered a brief prayer and then read the oath which the king repeated in a firm voice. Loud cries of "Long live king Peter" punctuated the king's repetition of the oath.

After the metropolitan had bestowed the benediction, all present joined in singing the national anthem.

The enthusiasm of yesterday evening's demonstration before the palace and the warm welcome the king had received everywhere in the streets, are accepted as proof that he has gained the good will of the people and his seat on the throne may be regarded as secure.

King Peter this afternoon confirmed the appointment of the existing ministry.

Paris, June 25.—The French minister to Servia has reported the circumstances attending the departure of the ministers from Belgrade as follows:

"All the ministers received similar instructions to act together, accordingly an understanding was reached that they should depart, this step being regarded as the most emphatic method of expressing the powers' feelings against the assassination of the king and queen of Servia. The Russian and Austrian representatives apparently shared in the protest but did not withdraw because Russia and Austria were apprehensive that a united withdrawal of the entire diplomatic representation at Belgrade would precipitate another revolution."

The duration of the absence of the ministers from Belgrade is indefinite, and depends mainly on king Peter's course in the selection of his ministers and the terms of Servia's notification to the powers of the inauguration of the new reign.

WILL TALK IT OVER.

Sir Thomas the Guest of President Roosevelt at Luncheon.

Washington, June 25.—Sir Thomas Lipton came to Washington this afternoon accompanied by Wm. Fife, the designer of the Shamrock III.

Tomorrow sir Thomas and Mr. Fife will be the guests of president Roosevelt at luncheon at the White House. This evening he was entertained at a dinner by general and Mrs. H. C. Corbin.

ROWLEY CAME BACK.

Missing Manager of Defunct Elgin Loan Company Re-appears in St. Thomas

St. Thomas, Ont., June 25.—George Rowley, late manager of the Elgin Loan company, returned to this city last night and appeared before police magistrate Glenn this morning, and was remanded to Thursday, July 2nd. The charge against him is stealing $4,000 from the Elgin Loan company. He was admitted to bail in $8,000.

GETTING LEAD FROM B. C.

El Paso, Texas, June 25.—The American Smelting & Refining Co. is drawing heavily upon British Columbia and Chili for its supply of lead ores. The lead in such ores ranges from 5 per cent in the South American material to 50 per cent in the ores shipped in from British Columbia.

STRICTLY ON BUSINESS.

Grand Forks, June 25.—Hon. R. F. Green, provincial secretary, arrived here today and conferred with prominent members of his party including George A. Fraser, president of the Grand Forks conservative association. He leaves tomorrow for Phoenix and Greenwood.

A POOR ENDING.

[Special to The Daily News.]

Regina, N.W.T., June 25.—Thomas Barclay, of Maple Creek, committed suicide yesterday by taking carbolic acid. He had been employed for the last two months as a special constable of the N.W.M.P., assisting in the capacity of cook.

R. J. INGLIS DEAD.

Montreal, June 25.—The death occurred this morning of R. J. Inglis, one of Montreal's leading tailors. As contractor for the Canadian Pacific uniforms, for many years, he was known from the Atlantic to the Pacific.

NEWSPAPER CHANGED HANDS.

Ottawa, June 25.—The Free Press of this city is said to have passed into the hands of a syndicate backed by sir William Mulock and Hon. J. R. Stratton, provincial secretary in the Ontario cabinet.

GEORGE WON'T COME WEST.

[Special to The Daily News.]

Winnipeg, June 25.—George Riddle has definitely decided that he will not go to Vancouver for the C. W. A. championship races on Dominion Day.

A DESERTER OWNS UP.

Winnipeg, June 25.—G. F. Gordon, a deserter from the Northwest Mounted police, surrendered himself to the city police here yesterday.

UNION LABEL

IRON AND STEEL BONUS.

A few days ago Mr. Borden made an appeal for increased protection for the iron and steel industry, and offered a resolution dealing with it. All the fruit of his labor was the assurance of the government that the matter was being carefully investigated and until that enquiry was completed the government had no intention of saying what it intended to do. There is very little question as to the motive of the leader of the opposition. In effect the resolution was one of want of confidence and the house saw it in that light and promptly voted it down. The time chosen for making it was inopportune and it is probable that when the house goes into ways and means something more will be heard of it. As a matter of fact there is very little, if any, sympathy coming to the iron and steel trade. It is true that in 1897 the duties were lowered considerably but then the bounties were proportionately increased. Under that bounty system large sums have been paid out of the treasury to the trade, gradually increasing from $240,812 in 1898 to $791,089 in 1902, and this year the amount will exceed the million mark. In its prospectus the Dominion Iron & Steel Co. estimated that between 1901 and 1907, when the bounties are to cease, its earnings would amount to over $8,000,000. That company claims that it is in a position to and can make iron and steel more cheaply at its works at Sydney than can be done anywhere else, and if that is the case, what on earth do they want increased protection for? An industry that can avowedly turn out its product for a less cost than can be done elsewhere, that can produce more cheaply than its competitors, stands in need of no encouragement, and to insist upon increased protection for its benefit is neither more nor less than an admission that the object is simply to hold up the consumer in order to swell the revenue of the company, and that is not the object of the liberal government's policy.

AN UNBIASSED OPINION.

The critics of the liberal administration at Ottawa assert that under its regime the country is not enjoying that degree of substantial prosperity that the times warrant and although the trade returns show the absurdity of the claim and indicate that never in its history has the dominion been so blessed as now in all that tends to its development and well being, it is well to look to outside critics at times for some unbiassed expression of opinion as to Canada's condition. The London Saturday Review has just expressed its opinion on the methods of the Laurier government in advancing the prosperity of Canada in these words:

"No imperial business has been managed in a more businesslike way than the development of Canada. Of course, the essential cause of the increase in prosperity has been the natural capacity of the country for growing corn and the development of the corn growing industry has been only retarded by the lack of railways. But even railways and a gigantic corn area are more or less useless without men, and in the attraction of population the dominion government has shown admirable skill.

"The latest proposal is to send to all the schools of the United Kingdom a large map of Canada with abbreviated information at the foot. At the new emigration office in Charing Cross considerable numbers of people are continually gazing at the maps and the attractive photographs of homesteads; but the free offer of 160 acres of land, dangled daily before the eyes of children who are accustomed to regard a landed proprietor with respectful awe, is likely to have an effect out of all proportion to general and less intimate advertisements. The maps should be gratefully accepted."

EDITORIAL NOTES.

Notwithstanding the recent declaration of Englishmen of science that Marconi's system of wireless telegraphy had proved a practical failure, wireless messages are being sent daily from Table Head, Cape Breton to Poldu, Cornwall. The replies are still being received by cable owing to the installation of new machinery at the English station not yet being completed. Marconi is expected in Cape Breton next month and may then give a practical reply to his critics.

That professional after dinner talker, senator Chauncey Depew, has been turning his attention to Canada of late. At the Pilgrim dinner in London, referring to Anglo-American relations, Mr. Depew said that nothing now separated the two countries except a "spoiled child of the empire in the north," his reference being to Canada. This child was a very good fellow in his way, but like all pampered children, he was inclined to shake his fist in his elder brother's face, knowing that his mother was behind him, but the disputed matter had been referred to arbitration, and the decision must be awaited. Meanwhile the child would grow up, and the difficulties would disappear.

As a fact we do not indulge in "fist shaking," this side of the line, but we do rejoice over the fact that Mr. Senator's countrymen seem more or less to have abandoned "tail twisting," an amusement we are all familiar with—No, we do not indulge in it ourselves.

The Poplar creek strike in the Lardo-Duncan country is very good news not only to mining men, but to the whole community. The facts related have been authenticated, and a rush to locate properties in the immediate neighborhood is now on. The news will attract the attention of mining men the continent over and will result in shoving the district to the front as a rich producer. Further particulars will be awaited with keen interest.

CORRUPTING WORKMEN.

Walking Delegates and Their Many Temptations to Sell Out.

A good deal of comment has been made over the arrest in New York of Samuel Parks, business agent for one of the big mines in that city, on the charge of using his position to obtain blackmail from manufacturers and other capitalists. It appears that Parks admitted taking $2000 from the Hecla Iron Works at Brooklyn as the price of a strike settlement in April, 1902. He says, however, that the money was used for union purposes, and the charge is still pending.

Referring to the matter, the Philadelphia Record takes the view that, on the whole, the labor movement is singularly free from corrupt influences. It says: "Why should more be expected of the walking delegates, often needy workingmen, than is expected of other men in a like representative or judiciary capacity? Is their temptation to succumb to corrupting influences any less than that of members of state legislatures and city councils? When a workingman acquires influence as a leader and organizer among his fellows, it has long been the policy of industrial corporations to win him over to their own service by hook or by crook. A few years ago John Jarrett was a prominent organizer of the iron and steel workers in Pittsburg, but he soon obtained more profitable employment under the Tinplate association, which made him a useful agent to distribute campaign funds where they would do the most good in congressional districts represented by democratic opponents of spoilatory duties on tinplate. There are other instances of the same kind, but they are a good deal more rare than is imagined. The betrayal of the cause of labor is so rare, in fact, that there is an evident purpose to give as much eclat and dramatic effect as possible to this case of walking delegate Samuel Parks."

THE CHAMBERLAIN IDEA.

Details of the Scheme as Shown by Balfour and Chamberlain's Utterances.

From a collation of the speeches of Mr. Balfour and Mr. Chamberlain, the following points on which Mr. Chamberlain's scheme hinges may be gathered:

1.—We must pay for imports of the food and raw material we require by exports, and, since all civilized countries are doing their best to shut out our manufactures and make themselves self sufficing, the day is not far distant when payment will have to be made on "onerous terms," especially when the indebtedness of foreign countries to us for government and railway loans, etc., is discharged. If the empire is to be in a position to vie with the prosperity of the United States, it must also be self-sufficing. (Mr. Balfour.)

2.—At present we have no weapon with which we can defend ourselves or the colonies against such retaliation as Germany is now attempting against Canada. Preferential duties in favor of the colonies, or against foreign countries, is the only form of weapon available. (Both statesmen.)

3.—If we are to give the colonies an advantage, the duties against the foreigner must be imposed on those articles which the colonies do or can produce for export. Those articles are either the raw material for manufacturers or foodstuffs. It would be inexpedient to tax raw material, on general grounds, and also on account of the rebate which would have to be given on re-export of the material after manufacture. (Mr. Chamberlain), therefore the basis of preferential trade must be a tax on food. (Both statesmen.)

4.—Granted that the price of food would be raised by the imposition of duties, the balance would be more than redressed by the increase of wages brought about by the constant and increasing market for our manufactures in the colonies. There would also be a large fund available from the proceeds of the duties which will not be required for the purposes of normal expenditure. Three-fourths of this will be contributed by the poorer, and one-fourth by the richer classes. It is proposed that old age pensions and other social reforms. (Mr. Chamberlain.)

5.—Although the intention of the proposed tax is not protective, yet incidentally, it may have a protective effect in favor of agriculture. This, however, would not be "an unmixed evil." (Mr. Chamberlain.)

6.—Before definite proposals can be made, the country must pronounce in favor of the principle, for duties on food can only be introduced as part of a "great national policy." There will, therefore, be no attempt to deal practically with the question before the next general election. (Mr. Balfour.

When you want a quick cure without any loss of time, and one that is followed by no bad results, use

Chamberlain's Colic, Cholera and Diarrhoea Remedy

It never fails and is pleasant and safe to take. It is equally valuable for children. It is famous for its cures over a large part of the civilized world.

CELEBRATION IS BOOMING

ALL THE PREPARATIONS ARE NOW WELL ADVANCED.

PLENTY OF FLAGS, BUNTING AND ELECTRIC LIGHTS.

Instructions have been issued by the C. P. R. passenger department for the issue of transpartation for the different companies of the Rocky Mountain Rangers who will arrive in Nelson next Wednesday *morning to take part in the grand* parade and review. From now on the battalion will be hard at work practising for the affair which will really be the first turn out in a body that has occurred since the formation of the corps. There is no doubt but that a parade of this sort will have a very good effect in arousing interest in *the organization, and in bringing out* a desirable class of recruits for service when vacancies in the ranks occur. The Nelson company is in good shape, but there are still vacancies for several men. Each evening the men meet for drill at the armory, and any persons desirous of joining should send in their names at *once.*

Alderman J. A. Irving has been appointed acting treasurer of the celebration committee during the illness of Bruce Heathcote.

An interesting addition has been made to the program of the Caledonian games in the shape of a log chopping contest. This will be held both evenings on Baker street and a number of clever axemen will compete. An immense log has been donated for the purpose by the Kootenay River Lumber company, and this will be hauled up and set in place next Tuesday. This was first suggested by James McPhee, and was at once seen to be a good idea *by the committee. There are many* first class choppers in the city and when they heard that this was to be added to the program there was no lack of competitors. The Caledonian games will be held each evening on Baker street, commencing at 6.30, the foot races being carried on at the same time as the drilling contests. The *finishing line for the races will be the* corner of Josephine and Baker.

The decoration committee are working hard on their arrangements, and again request that the citizens will beautify their lawns and houses with as many Chinese lanterns, and as much colored bunting as possible. The different mer*chants of the city have laid in a good* stock of these articles for the occasion, and already there is a strong demand for them. Those wishing to have a good variety to select from should purchase at once.

Visitors to the city spending the evening on any of the business streets at pres*erally conclude that sports of different* sorts have plenty of admirers in Nelson. On Baker street crowds gather to watch the fire teams practising, while on Vernon street, the horses and ponies which will take part in the races during the celebration are industriously trying over the ground. At the recreation grounds if the *senior lacrosse or baseball teams are not* at practice there is sure to be two or three teams of intermediates or juniors at work. On Victoria street the armory is ablaze with lights each evening, where the Rangers are hard at drill going over the var*ious evolutions that will be carried out* next Wednesday. Further west, at the corner of Baker and Kootenay streets, there are generally a couple of quoit teams working away, the members without coats or hats, while from the little building to the south of Fraternity hall comes the sounds caused by the band practising the various selections that will be given next week. The youngsters are also taking a keen interest in the coming fun, and in the evening, till the curfew bell rings, there are not many residential streets where boys and girls are not racing, to get in condition for their portion of the entertainment.

On Stanley and other streets the fortunate possessors of handsome lawns and flower gardens, either personally or by deputy are working hard cutting and trimming and seeing that their place will not be outdone by its neighbor.

The installing of the 700 extra electric lights on Baker street by the city, as well as the extra hundreds that will be put in by the business men will be started on Saturday, and by Monday the decorating of the city will be well under way.

PROSPECTORS UP TO DATE.

Much has been written about the old-time prospector, the argonaut of the pick and shovel, the advance courier of civilization, the man of iron frame and undaunted type, but the prospector of the twentieth century is an altogether different genus homo. He is a man of iron still, but a velvet glove covers the steel gauntlet.

The prospector of 1903 is, for the most part, a man with more than a superficial knowledge of chemistry and geology; he can at a glance distinguish between quartz and calcite, between shale and slate; realizes the value of porphyries in relation to copper will stain an acre of country rock, and that erosion and atmospheric action work radical changes in the appearance of croppings as related to the same class of ore found below surface disturbances; knows that vitreous quartz is practically valueless and that certain discolorations indicate the presence of ore bodies beneath the surface as surely as though the croppings dotted the progress of the ledge.

It has frequently been asserted that "no one but a fool, a drunkard or a tenderfoot could discover a mine." This is the same kind of argument that men use in asserting that "minister's sons are hard cases." When a preacher's son goes the gait and winds up disastrously, the papers promptly inform the world of the catastrophe; when a tenderfoot locates a pay proposition, the fact is thought worthy of wide publication, while the ne'er-do-well may get full of red-eye, beat the heads off his neighbors, require the combined police force to escort him to the lock up, and terminate his lurid career in the pen, and the world is none the wiser. Just so the practical prospector opens up hundreds of good properties, sells at a fair figure and recommences his methodical pursuit for blind leads or pay croppings, and the world is none the wiser.

The modern prospector finds he cannot be too well informed in geology, mineralogy, and chemistry, as they form an invaluable nucleus around which may be grouped the lessons learned from tough practical experiences gained while punching a burro up hill, or risking life and limb on the great mountain crags which conceal the treasure vaults wherein nature has made her rich deposits, ever since the wily serpent buncoed our Edenic ancestors.

Mining is the only legitimate pursuit in the world in which shrewd business men will permit themselves to engage without the slightest knowledge of its technicalities. They buy a block of stock in a new company in which there is no more chance of winning than in a game of brace faro.

There is but one successful method by which capital may be surely invested in mining ventures, when capital is ignorant of practical mining, and that is by combining sufficient capital to form a joint stock company which may employ an honest, thoroughly practical prospector, at a fair salary, to do the difficult and to them personally impossible labor of searching for and locating for them claims which he may deem worth their while to develop. Make him co-partner in all he successfully locates and relieve him from all anxiety as to when the next supply of frijoles and bacon may arrive, by paying him a liberal salary.

By this method, capital and labor, working in harmony, stand a maximum chance of winning out in the great game of speculation.—Cherry Creek (Nevada) Miner.

ZINC PRODUCTION.

The recent floods in the middle west have had their influence on the zinc and lead production of that region. The heavy rains have greatly hindered mining operations in the Joplin district and the smelters have encountered great difficulties in making deliveries of their products. The high water at Kansas City and at east St. Louis the past week have practically shut off spelter and lead shipments and judging from reports at this writing the conditions will be bettered little during the coming week. What makes the spelter situation even more serious is the marked rduction of output in the Joplin district. The spelter market can look for still higher prices on July deliveries.

If its a bilious attack, take Chamberlain's Stomach and Liver Tablets and a quick recovery is certain. For sale by all druggists and dealers.

TOO GREAT A RISK.

In almost every neighborhood some one has died from an attack of cholera morbus or colic, often before medicine could be procured or a physician summoned. A reliable remedy for these diseases should be kept on hand. The risk is too great for any one to take. Chamberlain's Colic, Cholera and Diarrhoea Remedy has undoubtedly saved the lives of more people and relieved more pain and suffering than any other medicine in use. It can always be depended upon. For sale by all druggists and dealers.

EVERYTHING FIRST-CLASS at the HOFFMAN HOUSE, ROSSLAND.

GREAT NEW YORK STRIKE.

New York, June 24.—It was announced tonight that all the trades interested in building operations in greater New York *would go out on strike tomorrow.*

Sixty-eight thousand men will thus be affected by the strike.

THE BEST LINIMENT

"I have derived great benefit from the use of Chamberlain's Pain Balm for rheumatism and lumbago," says Mrs. Anna Hagelgans, of Truckahoe, N.J. "My husband used it for a sprained back and was also quickly relieved. In fact it is the best family liniment I have every used. I would not think of being without it. I have recommended it to many and they always speak highly of it and declare its merits are wonderful." For sale by all druggists and dealers.

DOWNES' HOTEL, CRANBROOK. New, up-to-date sample rooms.

IT GROWS LARGER.

St. Thomas, Ont., June 24.—It is now expected that the shortage of Rowley, ex-manager of the Elgin Loan and Savings company will amount to $75,000 or $100,000.

One of the directors of the company still says that the depositors will not lose a cent.

NOTHING LIKE EXPERIENCE.

"One truth learned by actual experience does more good than ten experiences one hears about." Tell a man that Chamberlain's Colic, Cholera and Diarrhoea Remedy will cure cholera morbus, and he will most likely forget it before the end of the day. Let him have a severe attack of that disease, feel that he is about to die, use this remedy, and learn from his own experience how quickly it gives relief, and he will remember it all his life. For sale by all druggists and dealers.

TWO DOLLARS' WORTH FOR ONE DOLLAR at the WINDSOR, ROSSLAND

SMITH WANTS TO KNOW.

Toronto, June 24.—W. R. Smith, conservative, East Algoma, gives notice of motion in the legislature requesting the government to offer a reward of $10,000 for information as to the source of the $1,500 deposited by Gamey in the Traders' bank on September 11th last, and of the $500 produced by him in the legislature. The informant to be given amnesty from all proceedings against him.

NELSON'S NEWS OF THE DAY

Mrs. W. J. Toye left last evening for Seattle to visit her parents.

In the twenty-four hours ending at 4 o'clock yesterday the lake went down three inches.

Miss B. Thom leaves tomorrow for Russell, Manitoba, to spend the summer holidays with her parents.

The Nelson band will give an open air concert this evening on Baker street, commencing at 8.30 o'clock.

Miss E. M. Ferris, of the Home hospital staff, left last evening for Victoria, to spend a three weeks' vacation.

Dalton Marpole, son of the C. P. R.'s western superintendent, came in from Vancouver last evening, and is registered at the Phair.

A large consignme nt of machinery was received yesterday by the Nelson Steam laundry from the east, and will be installed at once.

There was no session of chambers yesterday morning at the courthouse owing to the absence of judge Forin at Golden. The applications that were to have come up, were held over till Monday.

At the record office yesterday the transactions were Locations, Mistake, on Quartz creek, by J. C. Anderson; Hoodoo, on Oregon mountain, by Theo, Berensen; transfers, Dixie mineral claim, from C. French to W. Allen, consideration $2.

John C. McAstocker, who has been attending Gonzaga college, Spokane, is spending his summer holidays with his father. He has been very successful in his studies having obtained the gold medal and five first prizes and one second for different subjects.

The infant son of A. J. Sutherland, eighteen months' old, yesterday morning tripped and fell against the sharp edge of a coal oil can, cutting a deep gash in his forehead over four inches long. The forehead had to be stitched the whole way across and before the operation was over the child lost a great deal of blood. Last evening he was progressing favorably despite the seriousness of the injury.

The public schools will close at noon today, the promotion lists being read out during the morning. From 11 to 12 a.m. the pupils will practice the patriotic choruses to be sung on the morning of Dominion Day under the superintendence of W. A. Jowett. There will be no other closing exercises. Besides the promotions the names of the pupils who have secured a place on the rolls of honor during the session will be read. The high school examinations will commence on Saturday, July 4th. A short program of songs and recitations was given yesterday morning in the preparatory department by the pupils of that grade.

Next Sunday will be the two hundredth anniversary of the birth of John Wesley, the founder of Methodism, with its far reaching ramifications throughout the world. It is the purpose of the people called Methodists to celebrate the anniversary of this event with appropriate public services next Sunday throughout Canada, and special sermons will be preached dealing with the subject in preparation for a bicentenary campaign commencing on the first Sunday in October. The evening sermon in the Methodist church here will be in harmony with the occasion and the musical program likewise. Rev. W. W. Baer will preach on the motives which prompt men when they rise to greatness because of their deeds.

R. T. Lowery has given up his coast publication and will open an office in this city. He has rented a portion of the Tribune building and will publish a monthly paper in this city.

William Fleet Robertson, provincial mineralogist, passed through the city last evening on his way to Fernie. He will make an inspection of the present situation at Frank.

R. K. Keller, who has been manager ot the Hume hotel for the past year, has accepted the charge of the Ymir mine boarding house and stores, and leaves for his new position next Monday. F. P. Walch will succeed him at the Hume.

The Knights of the Golden Horseshoe will meet this evening in Odd Fellows hall at 8.30 for initiation ceremonies. Organizer Husted came over from Rossland last night for the occasion. There are a large number of candidates for admission this eevning.

The final game in the bowling series played between two local teams was finished yesterday. The scores given in by J. Neelands, who has been acting as scorekeeper for the series, were as follows: P. E. Wilson, W. W. Beer, J. A. Turner, J. Neelands, skip, 11; W. G. Gillett, J. Wallace, D. Booth, J. A. Macdonald, skip, 9. The correctness of these scores is denied by Mr. Macdonald, who claims that his side won by a score of ten to five.

St. JOSEPH'S SCHOOL.

The Holidays Commence Today—The Mayor Addressed the Children.

The closing exercises at St. Joseph's school, before the summer holidays took place yesterday afternoon. in the spacious lecture room of the institution. The session that has just closed has been a most successful one, the number of boarders attending the sechool having been greater than any year since it was opened. The parents of the pupils were not invited to attend the closing, the only guests present being mayor Rose and Rev. father Althoff.

In opening the program father Althoff said: I know you are more anxious for the holidays than to hear a speech, but I wish to say a few words before bidding you good bye for the summer. I hope that your holidays will be bright and pleasant and that you will return fresh for the new session's work next September. I know you will have certain duties to perform during the holidays, and I hope that these duties will not be pushed aside by pleasures. If you give each its proper share of time you will have better holidays than if the duties are overlooked. And now I will repeat what I said, that I trust your holdays may be bright and pleasant."

A pleasing musical program was then proceeded with and at its conclusion the prizes and testimonials won by the scholars were presented by the mayor, who concluded this ceremony by saying: "Rev. father, sisters and dear children, it affords me much pleasure to preside at these closing exercises and to witness such an excellent exhibition of work as has been given by the pupils, not only of the essentials of education but also in what might be styled the fine arts. The city of Nelson is to be congratulated on having such an institution which affords so many opportunities for progress in music and the other arts. I noticed as I came in that there was a chart of the metric system of measures. It is my intention to offer at the close of the next session a special gold medal for the child who shows the greatest proficiency in the study of this system. And now I hope that you will one and all join in our celebration on Dominion Day. The assembly will take place in the public school grounds on Wednesday morning and from there you will march to the recreation grounds where we hope to show in a satisfactory way how we can celebrate the thirty-sixth birthday of our dear country. Concluding, let me wish you all the brightest and happiest of holidays."

The prizes were then presented by his worship. A full list of the winners will appear in tomorrow's issue of The Daily News.

The testimonials presented consisted of first and second classes. The first were given to pupils who had taken over 95 per cent of marks in the promotion examinations and the second class to those who had taken over 85 and under 95 per cent. Twenty-three first class and forty-one second class testimonials were presented.

THE VOTERS' LIST.

So Far 335 Names Have Been Enrolled on the City List—Much Interest Taken

Up to and including yesterday afternoon 335 voters had registered their names at the Nelson office. The names are coming in steadily and before the date set for the closing of the lists pretty well all who have the right to vote will be gathered in. Both parties are actively working to see that all possible supporters who have the right to vote shall be registered in time, and as a close canvass of the city is being made it is unlikely that many will be overlooked.

During previous years, since the last redistribution bill, the changes made each season have embraced only the adding or erasing of names to the list, caused by the change in location of different voters. This year, however, the making out of totally new lists has entailed considerable work on the collectors of votes, and frequently since the lists were opened the office has been jammed with persons wishing to make certain that they would have the right to

cast their ballot next election.

The introduction of party lines in provincial politics has aroused far more interest in political affairs than has ever been the case before, and there is a general feeling that the next campaign will be a hot one. Persons who had lived under coalition governments in British Columbia so long that they had forgotten that they ever had any political leanings have suddenly wakened up, and although the election is still a long way off, it is already being warmly discussed on the streets and at hotels every day.

"A FATAL ERROR."

The Clara Mathes Company today is considered the strongest popular priced organization now playing the west. For the opening play at the opera house here next Monday evening Miss Mathes will present her latest and what is considered the strongest play she has ever had "A Fatal Error," written for her, and played only by Clara Mathes and the popular Mathes company. As is the custom with Miss Mathes' performances, high class and polite vaudeville will be introduced between acts, by carefully selected specialty artists, from the ranks of fashionable entertainers. Miss Mathes is supported this season by her talented sister Miss Emma Mathes, Mr. Dolphos Lawrence, Oswald Roberts, Frank Condon, Miss Estell Cleavland, Madeline Lawrence, Harry Rowe, Cleo Golden Smythe, M. W. Marsh, Thomas Elmore and professor H. Ende.

During the engagement all new plays will be presented with the latest vaudeville fads between acts.

THE WATERLOO MINE.

Camp McKinney Property Is Coming Along Well and Smoothly.

The development on the Waterloo mine, at Camp McKinney, which has been steadily progressing under the management of Denis Clark, is justifying the confidence which that gentleman has invariably expressed in the property. On the occasion of Mr. Clark's last visit he instructed the superintendent to sink a winze in the high grade ore at the 150-foot level. This winze is now down about 50 feet and is still in high grade ore, the vein being fully three feet wide and the values from $100 upwards. The exceptional richness of the ore shoot is a surprise to the most enthusiastic admirers of the property.

The mill, which has been entirely refitted is now running, the plates quickly showing the richness of the ore being crushed, the one drawback being the limited number of stamps, this, however, will be remedied as soon as the additional stamps can be got in place, there being sufficient power for ten stamps. A full supply of water has been ensured by the reconstruction of the flume and the laying of piping, in fact the whole mine and its equipment is running most smoothly.

A minute too late to catch the train, and all because your watch is out of order. Time lost cannot be regained.

Our staff of expert watchmakers is second to none in America for efficiency and is known to be so.

We have been forced to increase our staff on account of the great demand for reliable workmanship. Our latest acquisition is Mr. H. F. Langlord, of the Canadian Horological Institute, of Toronto. The best is always the cheapest.
