

WILD SCENES
OF VIOLENCEStrike on Chicago's Street
Railway LinesCompany Plays for Federal
Interference

Chicago, Nov. 12.—At 4 o'clock this morning the strike of the union employees of the Chicago city railway company began, and when the residents of the south and southwest sides of the city started for their places of business they were without their usual transportation facilities.

Beginning at midnight the trainmen gradually took their cars to the several barns of the company scattered throughout the system, and left them there. In the shops, barns and power house the union workers laid down their tools and quit, declaring that they would remain idle until the company consents to arbitrate the issues that brought on the controversy.

Notwithstanding statements by officials of the company that no attempt would be made to run cars today except for postal service, a few passenger cars were started this morning on various lines. The result was trouble almost instantly, the first instance reported being the intimidation and flight of a non-union crew on the Cottage Grove avenue line. The cars were without passengers.

It soon became apparent that a determined effort was being made by the company to break the strike at the inception. Passenger cars on the Cottage Grove and Wentworth avenue lines came along quickly as soon as the mail cars were out of sight. The policemen riding in the cars, which were almost invariably empty, patrons apparently preferring to walk, making long detours to steam and elevated lines rather than risk injury. The first passenger car on the Wentworth avenue line carried two women. Strikers saw the women were put there by the street car company to test the attitude of the union towards passengers. This was the car which was so promptly blockaded by teamsters.

The strike was ordered with only four dissenting votes. It is to enforce a demand for a wage increase of 25 per cent and recognition of the union. About 3000 employees are involved, and 220 miles of surface track, part cable and part electric. Officials of the union fearing interference with the operation of the United States mail service, said it would result in the calling in of troops from Fort Sheridan to protect the cars, and have instructed motormen on mail cars to report for duty as usual. Union men who reported at the various barns to take out mail cars were told by barn bosses, it is said, that they must take off their union buttons if they intended to work. This a number of men refused to do.

The railway company refused the services of a union crew for a mail car sent on 63rd street. The union crew reported for work and were told by the barn boss they were not wanted. The car was manned by a non-union crew and the strikers said the company had played one of its strongest cards for federal interference.

SCENES OF DISORDER.

Chicago, Nov. 12.—Constant scenes of disorder over a district of approximately 50 square miles resulted today from the inauguration of a strike on the Chicago city railroad, companies in the city. All along the lines, wherever cars were started, strike sympathizers made desperate onslaughts on the crews. The tie-up through the south side to the business district, where the company operates, was complete. A number of cars were wrecked, and that no person was killed is no fault of the rioters.

One man had his back broken, and the first shot of the strike was fired at Wentworth avenue and 69th street. A mob of several hundred persons tried to hold up a train. Many persons, chiefly non-union carmen, were injured by missiles and flying glass. Two women were among the injured. Except a few dozen passengers, who had to flee from the cars, 300,000 daily patrons of the company were forced to use all sorts of devices to get down town and back. Under orders from mayor Harrison, whose pronouncement purpose was to preserve an impartial attitude, the police confined their efforts to clearing the sidewalks and crowds from the streets. Developments, regarding the attitude of the municipal administration, hinge largely upon a new official, Herman F. Schuetzler, who today became assistant chief of police. Schuetzler was in direct charge of the police arrangements during the strike. Schuetzler has a record teaching the Haymarket rioters a lesson and in sending Lucretia, the sausage maker, to death under conviction wife murder. He also has a remarkable record for personal daring.

DECISION NOT BINDING.

amous Anthracite Strike Commission Had No Legal Status.

Sunbury, Pennsylvania, Nov. 12.—Judge Austen has rendered an opinion which he decides that in the eyes of the decision of the anthracite strike

commission is not binding on either miners or operators. This is the first legal decision on the subject. The matter was brought up before the court by the Lehigh Valley Mining Co. The company refused to pay the back wages allowed by the strike commission, and the miners of the Royal Oak colliery brought suit before justice of the peace Lloyd for wages. The justice gave judgment in favor of the miners. The company then began mandamus proceedings against justice Lloyd, and the court decided in favor of the company.

Boston, Nov. 12.—After reading the Sunbury, Pennsylvania, dispatch concerning the court finding that the decision of the anthracite strike commission is not binding, either to the miner or operator, John Mitchell, president of the United Mine Workers of America said today:

"The award of the commission created an implied contract that the decision would be lived up to; I cannot see why the finding does not bind parties to the proceedings."

Mr. Mitchell did not wish to express an opinion on the question whether, in fact an implied contract was created.

DUNDONALD TOURING WEST

DISPLAY OF CANADIAN GRAIN AT ST. LOUIS FAIR.

INCREASE IN IMPORT AND EXPORT TRADE OF CANADA.

[Special to The Daily News.]

Ottawa, Nov. 12.—Lord Dundonald started on Monday on a tour of the west. He will visit Winnipeg, Calgary and Edmonton and before resuming his journey to the coast may have some duck shooting at Poplar point. The general had arranged to make his trip some time ago but was compelled to postpone it owing to unforeseen engagements.

It is intended to have an exceptionally good display of grains in the Canadian exhibit at St. Louis, in fact it is proposed to send the best that has ever gone from Canada. Samples will be collected from along the route of the proposed Grand Trunk Pacific railway and, in order to show how far north cereals can be raised, the exhibit will include grain from the Fraser river district and the Yukon.

The import trade of Canada for the four months of the fiscal year to the close of October totals \$38,551,514, an increase of \$17,578,378 over the corresponding period of last year, and the domestic exports total \$33,284,191, an increase of \$2,150,845.

ANOTHER PREHISTORIC RACE

TRACE OF BYGONE PEOPLE DISCOVERED AT VANCOUVER

RELIC IS A STONE PIPE OF ORIENTAL WORKMANSHIP.

[Special to The Daily News.]

Vancouver, Nov. 12.—Remarkable evidence of a prehistoric people dwelling where Vancouver now stands in the days when the earth was young, was uncovered by city workmen this morning in excavating for a new street.

It is a bowl of the stone age weighing three pounds and was firmly imbedded in the earth, six feet below the surface, at the roots of a giant Douglas fir which timbermen declare to be upwards of a thousand years old.

The bowl is of brown sandstone, ten inches long and three wide, divided into two sections by a thin slice of the stone. The lower or ornamental part is a fairly clear carving of a bear's head, and it bears unmistakable signs of oriental authorship.

FINDLAY FINISHES.

Causes of Several Powers Heard by the Venezuelan Commission.

The Hague, Nov. 12.—Solicitor-general Findlay concluded his reply for Great Britain before the Venezuelan arbitration tribunal today, claiming that the payment of the amounts allowed by the mixed commission out of the 30 per cent of the customs would take too long to permit 30 per cent being considered as an adequate guarantee of the payment of the claims of the blockading powers. The term "adequate guarantee," therefore signified the 30 per cent given to the blockaders as preference.

Minister Bowen read a telegram announcing that the mixed commission had awarded Spain \$395,000 and Sweden and Norway \$34,850.

Professor Pierantoni then concluded Italy's case. Señor Pardo, for Mexico; Herr von Weckerlitz, for the Netherlands; and Sweden and Norway, and senior Clunet, for Spain. M. Muraviev, president, said he hoped the replies would all be concluded tomorrow morning.

GOLD FROM LONDON.

New York, Nov. 12.—Lasard Ferres announced an engagement of \$1,500,000 gold from London. It is probable that the gold is now on the way.

New York, Nov. 12.—The National City Bank announces another engagement of \$500,000 gold in London.

FIRE AT HAMILTON.

Hamilton, Ontario, Nov. 12.—Fire at an early hour this morning did damage to the extent of \$35,000 to the stock of the Hamilton Brass Manufacturing Co.

BANK OFFICIALS ARRESTED.

Port au Prince, Hayti, Nov. 12.—M. Delanyre, director; M. Ohlrich, past director, and M. Depuy-Baudet and Tip-

penhauer, chiefs of departments of the National bank, have been arrested on the charge of complicity in the issuing of fraudulent bonds of that institution early in the year, which has already caused the arrest or flight of many public officials.

"DEATH TO THE AMERICANS"

CARTAGENIANES EXCITED OVER PANAMA SECESSION.

SAY THEY WILL WIN BACK THE LOST TERRITORY.

Colon, Nov. 12.—The royal mail steamer Orinoco arrived here this morning bringing news of general Torres and the Colombian troops who took the town of the proclamation of the republic of Panama. On the arrival of general Torres and his troops at Cartagena, the news of the events on the isthmus quickly spread, and the general and his officers were threatened with arrest as traitors. The threat was not put into effect. The populace, greatly excited, crowded the streets crying "Down with the Americans." United States consul Ingersoll, fearing violence, remained in the consulate. The excitement at Barranquilla increased with the spread of the news of the secession of the isthmus which was supplemented by exaggerated accounts of the alleged part played by the United States. Panama's declaration of independence was read from a newspaper by the prefect to a crowd in the plaza and was greeted by furious outcries and shouts of "Death to the Americans!" and "Death to the Americans!" The prefect followed the reading by a speech in which he declared that the Colombian government would never permit the loss of the isthmus and would win back the lost territory at any cost. The crowd in the plaza indulged in many extravagant threats.

When most important all officers of the present situation on the isthmus of Panama is the complete success of the secession movement and the orderly continuance of affairs since the change of government. The successful execution of the secession plan shows that the work was that of masterful minds. The municipal and provincial laws and regulations which were enacted under the Colombian rule have been continued. With few exceptions all the civil employees of Colon and its neighborhood have taken the oath of allegiance to the new republic. Those who refused, are being sent to Savannah. Everything has assumed an everyday quiet here.

For the Malendos, the new governor of Colon, today expressed full realization of what Panama owed to the United States, calling that country "the new republic's powerful and generous benefactor."

General Melendez said: "Panama will be able to raise between 6000 and 9000 troops, partly armed, in case the necessity arises to resist a Colombian invasion. I do not believe that any such necessity will ever arise."

The governor said it was impossible for Colombia to send troops overland to the isthmus. It is apparent that United States warships will not permit any movement by sea of armed forces.

GOSPIP OF GREENWOOD.

Winter Has Set In—The Sully Mine—Work on the Bank of England.

[Special to The Daily News.]

Greenwood, Nov. 12.—Late arrivals from Beavertail on the west fork report the mining properties in that section as looking well.

Wherever work has been done on Wallace mountain this year the results have been most gratifying.

Messrs. Cummings and Schenck are down with very fine ore taken from a big ledge on the Napolean, Nelson, or Greenwood gets enthusiastic reports and samples come in from the Rambler.

Robert Wood's last doubt as to the value of the Sully has been dispelled by returns received by the superintendent.

The Sully has a large lead of very rich ore, and the value of ore blocked out runs up into the figures easily.

A trail has been run out from the Sully to the Beavertail townsite and with the arrival of plenty of snow, the ore will be hauled to the town and thence freighted to Midway.

Wm. Carter, who secured a bond on the Bank of England, in Phoenix camp recently caught much more, 1500 tons. This is recent conference on the steel prices, which has resulted in reducing the price of steel billets to \$23 per ton and steel bars to \$19.30 base per 100 pounds, other steel prices remaining unchanged.

The statement says, while it is a fact that there has been a decrease in the volume of business during the last few months, yet it is also true that a substantial tonnage is being booked at the present time and the general opinion seems to be that the outlook is quite promising and improving.

The Livingston medal was founded by a daughter of the late Dr. Livingston.

PRICES OF STEEL.

New York, Nov. 12.—Wills L. Ming, vice president of the Jones and Laughlin Steel company of Pittsburgh, gave out today an official statement of the outcome of the recent conference on the steel prices, which has resulted in reducing the price of steel billets to \$23 per ton and steel bars to \$19.30 base per 100 pounds, other steel prices remaining unchanged.

The statement says, while it is a fact that there has been a decrease in the volume of business during the last few months, yet it is also true that a substantial tonnage is being booked at the present time and the general opinion seems to be that the outlook is quite promising and improving.

The Livingston medal was founded by a daughter of the late Dr. Livingston.

PEABODY GIVE A MEDAL.

London, Nov. 12.—Commander Peary, the Arctic explorer, was presented with the Livingston gold medal by the Royal Geographical society at Edinburgh tonight, and at the same time was made an honorary member of the society in recognition of his work in Arctic exploration.

The Livingston medal was founded by a daughter of the late Dr. Livingston.

THE OPEN
SHOP ORDERFederation of Labor Takes
Issue With RooseveltResolution Against Order
Introduced Yesterday

Boston, Nov. 12.—At today's session of the American Federation of Labor convention, a resolution bearing on the question of the open shop order in the government printing office case, involving the decision of president Roosevelt that the government could not discriminate between union and non-union help was presented. The resolution was to the effect that the "so called open shop" whether under private or under government control, cannot be recognized by organized labor, and the committee recommended that the matter be referred to the committee on the councils reports.

First vice-president James Duncan, of Washington, advocated the acceptance of the committee's report.

Delegate J. Mahlon Barnes, of Philadelphia, president of the Cigar Makers' International union, said that president Roosevelt's decision that the "open shop" must be maintained in all cases of federal employment was a "slap in the face" for laboring people.

A motion that the matter be re-committed to the committee on resolutions was finally adopted.

Several measures were reported upon unfavorably, and the convention concurred.

An unfavorable report upon the resolution that the federation donate \$5000 to the Western Federation of Miners was followed by a protracted debate, and the resolution was finally referred back to the committee.

A resolution was adopted that the federation renew its demand that in future all United States ships shall be built in government yards.

A resolution compelling a St. Joseph's local union to affiliate with the Central Labor Union aroused much discussion, delegates declaring that to establish such a precedent would be dangerous.

J. Mitchell, speaking for the miners, declared that if the federation endorsed such a policy, so that it would affect the entire country, many of the miners' local unions might lose their charters. A substitute measure was passed, providing that the end sought be brought about by correspondence and other measures.

Delegate Draper, of Toronto, placed before the convention the fact that a number of bookbinders had been imported from England into Toronto and were ready to take the places of union bookbinders, should they happen to strike. International delegate O'Grady, of the British Trades Congress, said that his organization would certainly investigate the whole subject.

A BEER TRUST ROW.

Some of the Stockholders Opposed to Issuing New Stock.

New York, Nov. 12.—At the postponed annual meeting of the American Malt Co., in Jersey City today, a contest developed over the plan of reorganization proposed by the president, involving the issue of an additional \$10,000,000 preferred and \$10,000,000 common stock. The stockholders opposed this plan, attacking the present management and nominating a ticket of directors in opposition to those now in control, but the present board of directors, with one exception, was re-elected.

SEALING SCHOONERS WRECKED

The Libbie Arrives at Vancouver With News of Two Disasters.

Victoria, Nov. 12.—The sealing schooner Libbie, which was storm bound on the Vancouver island coast, returned today, bringing news that the schooner C. D. Rand was wrecked at Kyquott, where she drove on a reef during the recent gale. No lives were lost.

The schooner Penelope lost her foremast, and is anchored at Kyquott. The Libbie brought the skins of both vessels, about 1000 in number.

TO COVER EXTRADITION.

Washington, Nov. 12.—Representative James, of Kentucky, today introduced a bill amending the extradition section of the revised statutes so as to require state officials to arrest and deliver persons who are fugitives from justice from other states upon the presentation of proper warrants, signed by the governor of the state making the requisition. The bill is intended to cover the case of former governor Taylor, of Kentucky.

BIRTHDAY OF THE KING.

Boston, Nov. 12.—The birthday of king Edward was observed tonight by the Victorian club and the British naval and military veterans. At the Victorian club dinner in discussing the Chamberlain proposals, Harvey Shepard said that if Great Britain desired to hold Canada, a duty on the Canadian grain would be necessary.

GARDNER GOT DECISION.

Lansing, Michigan, Nov. 12.—Gus Gardner won the decision over Dick Fitzpatrick in the tenth round of their fight here tonight. Gardner had the best of the fight all through.

GERMAN ELECTIONS.

Berlin, Nov. 12.—One hundred and seventy electoral districts out of a total of 279, elected 27 conservatives, 27 free conservatives, 77 clericals, 51 national

MANGLED BY A TRAIN.

Harold W. Southam Meets a Fearful Death at London, Ont.

[Special to The Daily News.]

London, Ont., Nov. 11.—Harold W. Southam, fell while attempting to board a train this evening, and was carried about 90 yards before the train was stopped. His body was horribly mangled, portions being scattered all over that distance. The deceased was the eldest son of Richard

Southam, of the Southam Printing company, and nephew of William Southam, of the Hamilton Spectator, and Ottawa Citizen. He was about 30 years of age and most popular, particularly in athletic circles. His wife and two children survive.

WERE MURDERED BY TURKS

ARMENIAN RELIEF PARTIES ARE BUTCHERED BY TROOPS.

THEIR MONEY AND EFFECTS CONFISCATED.

Pittsburg, Nov. 12.—Ara B. Chutjian, of Pittsburg, brother of Rev. Q. B. Chutjian, who was murdered in the streets of Odessa, Russia, last June, and leader of the local Hunchakian revolutionist branch of the Armenian patriots, today received advice of another massacre by Turkish soldiers of bands of Armenians in Asia Minor. The atrocities occurred, according to Mr. Chutjian, about eight days ago in Bayazid near the foot of Mount Ararat. In discussing the assassinations Mr. Chutjian said the first band of Armenians, which was about one hour in advance of the second band, was attempting to reach Asia Minor to afford relief to the suffering Armenian farmers. It was made up of some fifteen members.

"The Turkish soldiers were informed that the advance body was coming by a number of the opposition party of our society. When the band arrived at a block house in one of the passes all were killed. It was simply cold blooded butchery. The second band halted some distance away, fearing that their friends had fallen into the hands of the Turkish soldiers. The latter went out to meet the second expedition and killed many of them. Much money and everything intended for the Armenian relief was confiscated by the Turkish soldiers."

Mr. Chutjian explained that the relief of suffering Armenians in the Mount Ararat district was the only intention of the bands.

FIVE SITES RECOMMENDED.

Out of These a Naval Station Will Be Selected.

Washington, Nov. 12.—The board composed of rear admiral Taylor and lieutenant-commander Winslow appointed to select a site for a naval training station on the great lakes has made its report to secretary Moody. The board selects five sites, the first choice being Lake Bluff, 32 miles north of Chicago; the second is Racine, Wisconsin; third, Muskegon, Michigan; fourth, Milwaukee, and fifth, Michigan City. The report has been transmitted to congress.

RIDGETOWN GAS EXPLOSION.

One of the Victims Leaves a Wife and Three Children—Sad Coincidence.

London, Ontario, Nov. 12.—George W. Atkinson, who was killed in the Ridgetown gas explosion last night, was circulation solicitor for the London Advertiser. He had only been in the employment of the Advertiser for a year, and left Chatham yesterday morning for Ridgetown. He leaves a wife and three children. Mrs. Atkinson received word of her husband's death two hours after she had received a letter from him dated Chatham.

MANITOBA RETURNS FOUR BRITISH COLUMBIA PRISONERS.

SENT EAST FOUR YEARS AGO—PRISONS OVERCROWDED.

[Special to The Daily News.]

Winnipeg, Nov. 12.—Guard Champion of Stony Mountain penitentiary arrived here this morning with instructor Doyle of New Westminster penitentiary, four British Columbia convicts whom the latter is escorting to New Westminster. They were brought in with about twenty others from the coast four years ago, when the New Westminster institution was badly overcrowded. Similar conditions now prevail at the Manitoba penitentiary and in consequence some of the coast criminals are to be taken west.

Two of those going in charge of Inspector Doyle are under life sentence, one is for twenty years and the term of the other expires in three years.

FIRE IN MAIL CAR.

Millions of Dollars Worth of Valuables Destroyed on a Russian Train.

St. Petersburg, Nov. 12.—Fire in the mail car on the St. Petersburg and Moscow mail train Saturday night is reported to have destroyed valuables estimated at \$500,000. The postoffice authorities attribute the outbreak to spontaneous combustion and say 47 foreign papers, a number of foreign mail, etc., were destroyed. The contents of thirteen bags of securities and bank notes was mostly saved.

NATIONAL FOUNDERS ADJOURN

Washington, Nov. 12.—The sixth annual convention of the National Founders' association adjourned today. Among the members of the executive committee were W. F. Angus, Montreal, and Frederic Scholles, Toronto. The matter of wage equalization was left in the hands of the executive council.

CHINESE GUARDING PASSES.

London, Nov. 13.—The Standard's Tien Tsi correspondent says that Chinese troops are guarding all the passes to Manchuria. The correspondent says that governor Yuan Shi Kai has imported nine automobiles, which will run between Peking and the summer palace.

TWENTY-TWO KILLED.

Salonica, Nov. 12.—During fighting in the village of Timova on November 7th 22 persons were killed. It is reported that Boris Sarafatoff, leader of the Macedonian revolutionists, arrived here today for the purpose of planning fresh outrages. The police are searching for him.

COLORADO STRIKE UNCHANGED.

Denver, Colorado, Nov. 12.—The coal strike situation in Colorado is practically unchanged. Rumors of a conference between operators and union leaders looking towards a settlement lack confirmation.

GIOLETTI WON'T RESIGN.

Rome, Nov. 12.—Premier Gioiotti, yielding to the insistence of king Victor Emmanuel, has abandoned his intention of resigning.

FIRST GERMAN LOCOMOTIVES.

Boston, Nov. 12.—The first German locomotives to be imported to this country have arrived here. They are eight in number and weigh forty tons each. Most of the engines will be shipped by rail to Montreal.

MARCONI'S NEW SCHEME.

Rome, Nov. 12.—Signor Marconi will be working soon on the immense power station near Pisa from which it is expected administration will be established with the Argentine republic.

liberals, 20 Richtersites, four Barth liberals, 2 Danes, and 3 independents. The national liberals lost one and won five seats. The Richtersites won five and lost six seats. The free conservatives won one and lost five seats, and the conservatives lost two and won three seats.

SANTOS DUMONT OUTDOONE.

Lebaudy Brothers Achieve Splendid Triumph in Aerial Navigation.

Paris, Nov. 12.—One of the greatest triumphs of dirigible ballooning was achieved today by the Lebaudy brothers who in one hour and thirty minutes covered the 45 miles separating Moissao and the Champs de Mars, Paris. The balloon attained an extraordinarily high speed. Dashing through the air sometimes at the rate of two-thirds of a mile a minute, the mean speed being 29 miles an hour. For some time the Lebaudy's had been preparing balloons for the voyage and were determined to exceed any performance made by Santos Dumont.

SCHEME IS FAR REACHING

PREMIER COMBES OUTLINES GOVERNMENT'S POLICY.

DIVORCE OF CHURCH AND STATE CONTEMPLATED.

Paris, Nov. 12.—In the senate today premier Combes announced the government's intention to project a law forbidding primary, secondary and superior teaching to all congregation members, but as to the secular clergy the government reserved its position. The government's proposition revealing a separation of church and state had been expected. Mr. Waldeck Rousseau, former premier, included in his opposition to the government's proposition, to forbid teaching by those who had taken the vow of celibacy, when Mr. Combes spoke. Mr. Combes added that one of the features of the government's law would be the conferring on the executive power to close by decree teaching institutions which might be considered contrary to the laws or morals. He pointed out that the government's proposition was not a law, but a decree, and that the government's proposition was not a law, but a decree, and that the government's proposition was not a law, but a decree.

OUR CONVICTS RETURNING

MANITOBA RETURNS FOUR BRITISH COLUMBIA PRISONERS.

THE BUSIEST PLACE.

Campbell Sweeney, manager of the Bank of Montreal at Victoria, recently made a tour of the Kootenays, and on his return to Victoria was interviewed by the Times. Mr. Sweeney was evidently favorably impressed with what he saw here, for he said to the Times reporter: "Nelson was about the busiest place encountered during my recent trip, and things are very bright there."

Mr. Sweeney could not more accurately in a single sentence have portrayed the situation here, which is so apparent even to a transient visitor.

For every cause there is an effect, however, and this city has peculiar advantages which combine to make it the busy centre that it is.

Nelson's geographical location is such that it is practically the hub of the Kootenays, as there are important mining centres, north, east, south and west of it.

Nelson enjoys an extensive and growing wholesale and retail trade. When one portion of the Kootenays may be inactive, another, owing to some advantage or other, is lively. All the camps are not quiet at one time. This fact makes the aggregate of the trade which Nelson does so large that the merchants as a rule are prosperous. With the improvement that is apparent in the Kootenays—in Rossland, the Boundary, the Slocan, the Ladoc and east Kootenay all have an upward trend—the trade should grow in a marked degree. That this trade is large is shown in the well stocked stores, the busy salesmen and the many other signs observable which show that considerable business is being transacted. Where in the Kootenays can you find such elegant and well stocked stores with seasonable goods as here?

A look through the terminal yards of the railroad here shows facilities for handling many hundreds of cars and from these yards many freight and passenger cars are sent to various points in the mining districts each day.

A walk along the waterfront shows that Nelson has frequent steamboat communication and does a good business with points on Kootenay lake.

The manufacturing interests are also of considerable importance, and they are increasing in size and give promise of being added to a considerable degree in the immediate future. The sawing of lumber promises to be among the most important in this line.

Then we have the big Hall Mines smelter, an institution which runs night and day and furnishes employment to a large number of men the year round.

The mines that are directly tributary to Nelson form a valuable element in its material welfare.

Another valuable asset is the fact that Nelson is a very pleasant residence place. The arm of the lake in front of the city makes a pleasant and desirable recreation place for those fond of aquatic pastime. The scenery is inspiring and the location of the town picturesque. There are various other reasons which could be given for the prosperity of Nelson.

Should Mr. Sweeney again visit the city in a year or two from now we believe he would see a still busier and brighter place than was the case during his recent visit, for we are sure we have just got started in the proper way and that from now on Nelson will flourish and grow. With so many favorable factors there is no good reason why Nelson should not be a much larger and more prosperous place than at present. This growth will come as a natural result of the expansion of the mining and lumbering industry which are both on the upward wave at present.

ALL-CANADIAN RAILWAY.

There is no doubt about the ultimate building of the all-Canadian railway to the Yukon. Sir Wilfrid Laurier has said that the time has come for the construction of such a line and his statement is

utterance has found a patriotic response all over Canada. The boards of trade at the coast are agitating for a line which will benefit their towns more than any other portion of the province. They hold if the Yukon line is so located as to cut off the coast cities from direct connection, and so as to give Winnipeg and eastern points more direct connection with the northern part of the province and the Yukon very great injustice will be done them. We hold that a line constructed northward from Revelstoke would give the coast as direct connection with the northern part of the province and the Yukon as they need, and at the same time it would not give Winnipeg and other eastern centres more direct connection than the coast cities would have. The advantage of a line extended north from the centre of the province over one close to and paralleling the coastal line are obvious to anyone who will examine the map. The principal advantages in the one would be to develop the coast cities and a narrow strip adjacent to the coast, while the other would be a great advance step in the direction of the development of the entire province.

This is a question worthy of the consideration of the people and of the boards of trade of the interior, and they should be heard from in the matter.

Joseph Aubin, put up \$2,000 for the costs of the appeal, which was successful, Caza eventually recovering his liberty. Aubin removed to McGregor, near here, and opened a hotel, while Caza went to South America, Aubin losing all trace of him. The other day Aubin was surprised to receive a letter from him, containing a draft for \$50,000. Caza had been in his new home, and desired to return for what his half-brother had done for him. He also sent an invitation to visit him at his home in which will be accepted.

explain to many of the miners. Briefly, it hinges upon this. While it seems apparent to the miners that at the present price the company is paying for lead we are making great profits upon that metal, nothing is farther from the truth; for it must be remembered that we dropped the price of treatment to an unreasoned figure. When silver went down so low we let our price of treatment drop also, so that the mines could be kept running. We never dreamed that the price of silver would fall as we are treating them today. So when you take that into consideration you can see that what profit there is in lead is far more than what there is in silver. Moreover, we will take the matter under advisement and it will be up to the directors.

Commenting on the future of the copper market, Mr. Guggenheim said that to assume that the withdrawal of the Amalgamated company's output would other than advance the price of copper is ridiculous. The supply at this time, indeed, has been reduced to a point that is uncomfortable near the line of danger and with the consumers running in to stock, there is no doubting what the effect upon the price of the red metal would be. In his opinion the outlook for copper was never so assuring as at present.

A TIMELY SUGGESTION.

This is the season of the year when the prudent and careful housewife replenishes her supply of Chamberlain's Cough Remedy. It is certain to be needed before the winter is over, and results are much more prompt and satisfactory when it is kept at hand and given as soon as the cold is contracted and before it has become settled in the system. In almost every instance a severe cold may be ward off by taking this remedy freely as soon as the first indication of the cold appears. There is no danger in giving it to children, for it contains no harmful substance. It is pleasant to take—both for adults and children like it. Buy it and you will get the best. It always cures. For sale by all dealers and druggists.

PLACERS OF THE YUKON.

Area of Pay Ground is Constantly Being Added to.

News from the Yukon from time to time shows that locations of the auriferous area are being considerably extended, and there is every appearance that the more the country is explored the greater will be the additions to the "pay" ground. Besides this, however, there is an element of surety about what has already been discovered, which was absent at first. On the creeks that have already been proved to be gold bearing there is not the loss of time and effort that characterized the earlier operations. The fact, the Bonanza Record says, has as much to do with mining being a paying business as the lowered price of provisions, which is usually the reason given for the increased returns. "Fewer miners," it says, "are operating on the Klondike now than in the days of '98 and '99, but they are working far more effectively because they know what they are doing, in the sense of most of them working on prospected ground. The business is no longer new to them, and they accomplish a great deal more for various reasons. A great deal of winter work will be done on claims this year, and the Record predicts a surprise when the results are known with the advent of summer."

FOR A BAD COLD.

If you have a bad cold you need a good reliable medicine like Chamberlain's Cough Remedy to loosen and relieve it, and to allay the irritation and inflammation of the throat and lungs. The soothing and healing properties of this remedy and the quick cures which it effects make it a favorite everywhere. For sale by all druggists and dealers.

HAS A DEAL ON

Montreal Syndicate is to Take Over Fidelity Group.

The Fidelity group consists of six claims situated on the Silver Cup mountain on the slope of Trout Lake, says the Trout Lake Topic. The owners are J. W. Westfall, C. H. Abernethy and G. Young, all of whom reside at Trout Lake. Several strong leads crossing the property only one (the main lead) of which has been developed. The development consists of 800 feet of stripping and open cut, and is fully nine feet wide with a vertical depth of about 40 feet. The lead at the top is fully nine feet wide with 18 to 20 inches of clean ore and carbonates. There is also about seven feet of good concentrating ore. Assays from this lead give values as follows: Gold from \$1 to \$2, silver 60 to 120 ounces, lead 30 to 70 per cent. This would give an average value for shipment of about \$20 per ton. The situation of the property is very convenient being only about three miles from Gerrard on a wagon road grade. Mr. Westfall has a proposition now on by which Montreal capitalists will take over the property and thoroughly explore it. In any event the owners will put a good crew of men at work early in the spring and develop the property. There is at present quite a tonnage of shipping ore in sight and the owners seem confident that a very small sum would make the Fidelity self-sustaining.

SPENT OVER \$200 DOCTORING.

Mr. Joseph Pomville, of Stillwater, Minn., after having spent over \$200 with the best doctors for stomach trouble, with out relief, was advised to try a box of Chamberlain's Stomach and Liver Tablets. He did so, and is a well man today. For sale by all druggists and dealers.

WILL FITZSIMMONS WIN?

Some Local Sports Have Their Doubts About It.

Despite the fact that the coming match between George Gardner and Robert Fitzsimmons is not a championship affair, it is attracting considerable interest throughout the country and there promises to be a good attendance from cities on the Pacific coast at San Francisco, Wednesday evening, November 25th. The fight is not picked by all of the local experts to win, for the reason that he is older than when he won the championship titles, and that Gardner is younger and gives great promises of what he can do.

It is said that Fitzsimmons is proving himself a glutton for work at his quarters in Alameda, Cal., where he is getting into shape for his approaching battle.

WAKEFUL CHILDREN.

For a long time the two year old child of Mr. P. H. McPherson, of Teaneck, N. J., would sleep but two or three hours in the early part of the night, which made it very hard for his parents. Her mother concluded that the child had stomach trouble, and gave her half of one of Chamberlain's Stomach and Liver Tablets, which quieted her stomach and she slept the whole night through. Two of these Tablets have effected a permanent cure and she is now well and strong. For sale by all druggists and dealers.

FOUND BY ACCIDENT.

Very Rich Ore Discovered on Mammoth Group.

While excavating a site for a blacksmith shop at the Mammoth group on Goat mountain, the men have discovered the richest silver-lead ore ever discovered in the area. The ore was taken out, says the Cambrian Miner. Foreman Sid Graham came to Cambridge to secure canvas sacks in which the ore will be stored as it is too valuable to be left loose in the ordinary fashion. Eleven assays of unselected samples of the ore have been made and the lowest gives values of \$36 to the ton while the others run all the way up to \$72. The Mammoth vein has been traced for a distance of 100 feet and it is expected that months work on the property has been

chiefly confined to the building of winter quarters, packing in of supplies and brushing out a raw hide trail.

The past season's work on the various silver properties on Goat mountain has been fruitful of several important discoveries, which make for belief that the section in question will be an important factor in the prosperity of the Camborne camp.

BETTER THAN A PLASTER.

A piece of flannel dampened with Chamberlain's Pain Balm and bound to the affected parts is superior to any plaster. When troubled with lame back, or pains in the side or chest, give it a trial and you are certain to be more than pleased with the prompt relief which it affords. For sale by all druggists and dealers.

O'BRIEN IS DETERMINED.

London, Nov. 12.—Replying to the Cork branch of the United Irish league, which requested him to withdraw his resignation as manager of the party in Cork county, Wm. O'Brien has refused to do so. He says he wishes to leave his enemies free scope to carry out their opposition to his policy and adds that he could not explain his reasons without publishing "horrid details."

The President of the Cork branch of the United Irish league replying, says he regrets Mr. O'Brien's refusal and adds that the national cause is "tottering to ruin in the south."

NELSON'S NEWS OF THE DAY

W. J. Harmon and wife, of Maple Creek, Assiniboia, are visiting Mr. and Mrs. W. C. McLean, of Nelson.

J. J. Walker, the jeweler, is first in the field with the new 1904 calendars. He has secured a very dainty and artistic series.

The Spokane Northern Telephone company has reduced Manitoba telephone rates from \$1 to 75 cents for ten words. The other rates are the same as heretofore.

The thermometer on Thursday night went down to fourteen above zero, the lowest temperature recorded this early that has been known in Nelson. Cold snaps commencing the middle of the month have not been uncommon, and when this has occurred December has generally been very mild.

The sale at the Hudson's Bay company stores is still attracting large numbers of buyers from outside the city, as well as local shoppers, the premises being filled all day long. Owing to the immense stocks carried in the departments which are being cleared out there is still plenty of bargains left.

On Saturday, October 31st, at the residence of W. Macdonald, manager of the Imperial Bank, Ferguson, Rhoda, third daughter of D. W. Macdonald, of New Westminster, was married to Robert Hodge, solicitor of the Great Northern Mines, Ltd., Ferguson. The ceremony was performed by the Rev. A. K. Sheppard, of Trout Lake.

Several prospectors who have been working on their claims on Road Mountain during the past summer have uncovered some handsome leads of ore. One property located a short distance from the Silver King will likely be worked during the winter, a deal being now on for its possession. A five foot lead of peacock copper ore was struck there recently, the values in which average very high.

The committee of the Success club having in charge the progressive whist tournament and dance to be held next Wednesday evening in the club rooms on Victoria street is making good progress both the arrangements. Twenty-five cents will be charged for gentlemen, ladies being admitted free. Handsome prizes have been selected for presentation to the winners in the tournament.

Since the publication of the item in The Daily News regarding the wet weather being sent into the city for the purpose of householders have called to tell of further causes for complaint against the chopers or parties that supply the local dealers. One man stated that out of six lots of wood he measured not one stick was over forty-five inches in length, although supposed to be forty-eight, the average being from five to six inches shorter than the standard.

While the supply of Okanagan apples lasted the Washington fruit was crowded out of the local market entirely, but the latter are now coming in again. The shipments of Okanagan apples this season have eclipsed all previous records, their high grade causing a big demand all through the territories. The local growers this season commenced to ship their apples but the orchards are yet so young that they will reach quite respectable proportions.

The Trades and Labor council's smoker on Saturday evening promises to be a most interesting entertainment and an interesting program has already been put together. Two features of especial interest will be the boxing bouts between the principals in the coming big event and their sparring partners. There will be a fencing bout and bag pipe solos. Harvey will give one of his excellent impersonations and the Human Frog has been engaged for a turn. The mayor will be in the chair and the city band will be in attendance.

The annual harvest of sleds is being gathered in by local police, who are already in custody and, unless there is a sudden and unlooked for change in small-boy nature, more will soon be added. While the police are anxious not to interfere with legitimate sport they feel it their duty to look to the safety of the citizens which is seriously menaced by the presence of sleds flying down the sidewalks with meteor

speed. Already one accident has occurred and more are likely to follow unless the sliding is regulated. Not the least of the dangers are those which menace the boys themselves from cars, teams and posts.

The result of the first shipment from the claims held by A. Macdonald and associates in Forty-Nine creek have been a satisfactory that work will be continued on the property. The lead from which the ore brought in was taken is three feet wide, and gives every evidence of permanence. The total return on the shipment from the smelter was \$302, the weight of ore being 1780 pounds. This would give \$30 to the ton. Of course the rock in this first shipment was picked, but the average returns have also been very high, and it is very likely that another good producer will be evolved there.

MR. BAER'S INVENTION.

Clever Idea of Methodist Minister Which is Being Taken Up in U. S.

The Rev. W. W. Baer has returned from Chicago where he spent about a month ago to get some capitalists to take up and put on the market his new patent typewriter attachment. Mr. Baer was successful in his mission and has made arrangements with a large manufacturer who has agreed to make the articles and dispose of them on a royalty basis.

"I had a busy time," said Mr. Baer yesterday. "I saw manufacturers, capitalists, typewriter experts, and typists till I finally convinced one large manufacturer of the value of my invention and he was most anxious to take it up."

The invention consists of a method for operating the typewriter carriage by means of compressed air. Hitherto the actuating power has been on all makes of machines, a strong spring against which the operator had to pull to get the platen back to the proper position for beginning a new line. This necessitated the cessation of work for a short space every few seconds and this stoppage totals a large amount of waste time in the course of a long day's work.

When operating a machine with the new attachment it is only necessary to touch a key similar to the other keys on the machine and the carriage instantly returns to position.

"By means of my invention," said Mr. Baer, "a saving in time of from 15 to 20 per cent can be effected and I am assured that if it secured a saving of only 5 per cent it would be a marketable production, so that its success is certain. Not only does it save time but it saves the interruption of thought and relieves the operator of a great amount of manual labor, the energy necessary to move the carriage by hand amounting in a day's work to four foot-tons."

While in Chicago I secured contracts from Marshall Field & Co. and Montgomery Ward & Co. to take a number of machines on trial and I estimate that by the first of January there will be 1,000 of them in use.

The attachment will retail in quantities at about \$10 and if, as at present there seems to be no doubt, it catches on, the royalties will be a handsome sum annually to Mr. Baer and the syndicate interested with him.

THE RIVAL BOXERS.

Curley Working Hard—The Silent One as a Fighter.

Jack Curley is in active training daily for his approaching contest with "Dummy" Rowan, which occurs on the 23rd in the Nelson opera house. Curley is being trained by Barney Mullin, the clever light-weight.

Curley takes an eight mile run every morning accompanied by his trainer and the afternoon between 2:30 and 4:30 spare for three or four rounds in his training quarters in the Tremont hotel. Yesterday he had a New England boxing match with one of the sparring bouts was witnessed by a number of spectators, as displayed it is evident that Rowan will have his hands full when he meets Curley on the 23rd. The latter is a heavy weight, and Curley weighs 160 pounds but will weigh in at the ringside at 158 pounds. It is fortunate for Curley that he has so clever and as able a trainer as Mullin, as the latter takes great interest in the work and says he will have his man in condition to win on the night of the 23rd.

At the "Dummy's" training quarters there is also a hot "go" every afternoon for the silent one is neglecting nothing that will help him in winning form by the 23rd. He spars with his brother every afternoon but does not go in for such heavy slugger as does Curley, partly because his sparring partner is so much lighter than himself, and also because he does not believe in working up to the limit while training. "Dummy" is going to prove a surprise in the way of quickness. He looks sluggish and moves slow but his different in the ring. He has been punched unmercifully when fighting bigger men than himself and has been knocked down several times without number by Kid McCoy but the beat Kid could do was that he did not get on points for "Dummy" never needed the count.

NELSON THE BUSIEST.

Campbell Sweeney, Bank Manager, Pays This City a Compliment.

Campbell Sweeney, manager of the bank of Montreal, has returned from a week's business tour of interior cities, says the Victoria Times. During his absence Mr. Sweeney visited Nelson, Rossland, Sandon and a number of other places in the interior, and reports that business prospects in the interior generally were looking much brighter than for some time. "In Rossland this was especially noticeable," said Mr. Sweeney. "The introduction of the Elmore process for the treatment of the low grade ores bids fair, from what I could learn, to be very successful, and a number of the leading companies are I understand about to introduce that process in the treatment of ore."

"Nelson was about the busiest place I encountered during my trip, and things are very bright there. Most of my time was taken up in visiting various branches of the Bank of Montreal in the interior, and on business matters generally."

CHEAP COLONIST RATES.

Will Be Withdrawn on the 30th of This Month.

The cheap colonist rates now in force from Ontario to the west on the C. P. R. and also on American transcontinental lines will be withdrawn on November 30th. It has been suggested that railways proposed to extend these rates indefinitely but no such intention has so far been manifested, and further it has been the policy of the C. P. R. to encourage settlers to come in the spring and not to arrive but not in winter when there is a slackness and scarcity of work.

For some time also it has been conceded

AT LAST IT HAS BEEN FOUND A PURE UNADULTERATED MAPLE SYRUP DIRECT FROM THE MAPLE GROVE

It is the best we have ever had, and with it goes our guarantee for purity and excellence.

DIAMONDS

Our constant vigilance and careful study of conditions in the world's diamond markets, convinced us some time ago that there would be a substantial advance in the price of these precious stones; and acting upon this belief we bought heavily, securing the choicest selections, and the large purchases and our ready cash enabled us to secure exceptional bargains.

This foresight now places us in position to offer to our customers the gems at the same prices which prevailed before the recent advance, and in view of another advance which present conditions indicate, wise buyers will do well to place their orders now.
