THE DAILY NEWS

VOL. 2 NELSON. B. C.. WEDNESDAY, NOVEMBER 11, 1903 NO. 176

MARTIN NOT NOMINATED

n Interests of Party He Refused to Accept

aptain Duff Stuart Choice of Convention

[Special to The Daily News.]

Vancouver, Nov. 10.—The new liberal ub rooms overflowed this evening with embers of the party who after a comehensive discussion of the issues cre- ed within the past few weeks decided contest the bye-election next Wednes- y week necessitated by the acceptance the attorney-generalship by the hon. harles Wilson. Captain Duff Stuart, seph Martin, James McGeer, Dr. Mc- nes, ex-lieutenant governor, T. S. axter and captain Hart-McHarg were minated.

In the interests of the united party r. Martin declined the nomination, as so did Mr. Baxter and Captain Hart- cHarg, and a ballot being taken cap- in Duff Stuart secured a large majority votes, being subsequently made the nanimous nominee.

Captain Stuart is a successful and opular young business man, and with nited liberalism at his back will in all kelihood head the poll over Mr. Wilson, ven although the latter seek the suff- ages of Vancouver with the prestige of portfolio in his hand.

A MARINE MISHAP.

Scow Loaded With Coal Wrecked on the Coast.

[Special to The Daily News.]

Vancouver, Nov. 10.—Another marine ishap, as a result of Wednesday's torm, is reported from Ladysmith. The teamer Alice left there on Wednesday, owing a scow loaded with coal, for Van- ouver. When about 20 miles from Van- ouver she encountered a terrific gale, he scow getting beyond control and eing necessarily abandoned. The scow as found this morning upside down in illes bay, Texada island. The scow and he coal were worth $2500. She is the roperty of Champion & White, Van- ouver, whose steamer Champion was urned to the water's edge at Ladysmith ast month.

BATTY GEORGE BRENT.

Soaked His Clothes With Gasoline—And Lit a Match.

[Special to The Daily News.]

Winnipeg, Nov. 10.—George Brent, a ailor, today had an accident which night have proved fatal. He cleaned his oat and vest with gasoline and put the garments on while they were wet. Then e lit a match and instantly was in lames.

It was only at the expense of a fur ined coat which was thrown over him hat he escaped. As it was he was ainfully burned.

CANNOT GET AT IT.

Wreck of Condor Will Not Be Moved Till Spring.

[Special to The Daily News.]

Vancouver, Nov. 10.—In consequence of the prevailing storms, H.M.S. Grafton finds that it is unable to carry out the contemplated exploration of the wreck at the entrance of Barclay sound, off Amphitrite point, supposed to be that of H.M.S. Condor, lost with 100 and more brave seamen over a year ago. The deep diving operations must necessarily be postponed until dependable fair weather comes, possibly with the spring.

CASHIER IN TROUBLE.

Embezzled $35,000 of the Funds of a Bank.

Washington, Nov. 10.—The comptroller of currency has received information of the arrest of Henry J. Hoover, former cashier of the People's National Bank, of Newark, Ohio, charged with embezzling $35,000 of the bank's funds. It is claimed he secured the money by manipulating the certificate of deposit system. It is said that the bank is not involved by the alleged defalcation.

MUST NOT ORATE.

Emperor's Throat Trouble Caused by Public Speaking.

Berlin, Nov. 10.—The emperor will be obliged to abstain from much public speaking in the future. The growth on the vocal chord appears to have been caused by straining the voice. Professor Orth's laryngoscopic examination showed that the dark matter found originated from a profuse bleeding within the polypus. The bleedings were almost certainly caused by loud speaking.

TWO SERIOUS CASES.

[Special to The Daily News.]

Vancouver, Nov. 10—Two serious cases made their appearance in the police court this afternoon, Frank Findlay Cobell being arraigned for administering noxious drugs to a hapless deaf and dumb girl, an orphan, with the object of procuring an abortion. Sarah Elizabeth Matthews is charged, on information from Valparaiso, with bigamy. The complainant is Thomas William Matthews, who has followed her here.

A VERDICT TODAY.

Fate of Galician at Winnipeg Charged with Murder to be Decided.

[Special to The Daily News.]

Winnipeg, Nov. 10.—The trial of Lucas Kyryk for the murder of a fellow Galician, Paul Wojciechowski at Brokenhead in July last, was continued today. A verdict is expected tomorrow.

Forty-three candidates are writing here in the preliminary and qualification civil service examinations.

THE FAMOUS MILLER CASE

IT IS NOW BEFORE THE FEDERATION OF LABOR.

PROMISES TO CUT A FIGURE IN PROCEEDINGS.

Boston, Nov. 10.—President Gompers called to order the delegates to the convention of the Federation of Labor today. Rules making the hours of the convention 9 to 12 and 2 to 5.30, except on Sunday, were adopted. James Duncan, of Washington, District of Columbia, first vice-president of the federation, then read the annual report of the executive council of the organization. The report was emphatic in its disapproval of the internal troubles of the federation, arising from different conceptions as to what trades came within the jurisdiction of the various unions.

The report contained all the correspondence in the famous Miller case at Washington, arising from the question of the employment of non-union labor at the government printing office. It has been understood that this case will be brought up later before the convention.

The committee on credentials made a supplementary report on the cases of protested credentials, recommending the International Union of Bakers and Confectioners to be entitled to one delegate, instead of three; that C. E. Jones, representing the Central labor union of Burlington, Vermont, be not seated, since his election was irregular, and that the United Textile Workers be entitled to three, instead of four delegates. The committee also reported that delegate L. F. Whiteside, of the Central labor union, be seated.

HELPED HIS RELATIVES.

Canadian Finds Wealth After a Long Search.

Montreal, Nov. 10.—Twenty-four years ago Joseph Lapierre left his native village of Matane, near Quebec, to seek his fortune in Central America, which at that time was attracting much attention.

To the Canadian lad it seemed that the countries of Colombia, San Salvador and Nicaragua would to him part with some of those marvellous resources of which the newspapers talked so enthusiastically. But there were years of vicissitude to encounter, disappointment and distress to negotiate. However, he rose to it, and now he has the satisfaction of finding himself in possession of that fortune he desired.

During all these years his relatives heard nothing of the boy who had gone away until a couple of months ago. Mr. Alex. Fraser, seigneur of Matane, received a letter from him asking if any were alive.

Mr. Fraser at once replied that a brother and sister were still living at Matane, but were in poor circumstances. Since then Mr. Lapierre has again written and enclosed a cheque for $6,000 to be divided between the brother and sister.

NO FAST SERVICE FOR CANADA.

Until New Turbine Type of Steamer Is Tested.—Supreme Court Cases.

[Special to The Daily News.]

Ottawa, Nov. 10.—A dispatch from London says that Galway has been chosen by the Canadian authorities as the port of call for vessels to be employed in the proposed fast service between Great Britain and Canadian ports.

Inquiries in official quarters go to show that the report is without foundation. There will be no fast service from Canada till the turbine vessels have been tested, to see whether they are capable of better time than the type of steamers now in service.

In the supreme court today the appeals were allowed in North Vancouver vs. Tracey, and Doherer vs. MacGaw.

WILL AID LEAD MINERS.

No Duty on Product Made of Canadian Minerals.

Ottawa, Nov. 10.—An order in council has been passed permitting the entry into Canada free of duty, of orange mineral, dry white lead and dry red lead, made from lead produced from Canadian ores. In the refining process the substances mentioned are extracted, and it is felt only proper that Canadian products of this kind should be allowed to come into the country again free, as there is no refinery in the dominion.

TROUBLE IN SOUTH AFRICA.

Hottentots Have Risen and Severe Fighting Is Expected.

Kenhardt, Cape Colony, Nov. 10.—Hottentot rebels numbering about 1500 men are approaching the border. Police have been dispatched to the scene. The volunteers have been called out, and severe fighting is expected.

THEY CONSIDERED PANAMA

ROOSEVELT'S CABINET GO OVER ISTHMIAN SITUATION.

PRESIDENT CONFERS WITH THE LEADERS IN CONGRESS.

Washington, Nov. 10.—For the first time since last June all the members of president Roosevelt's cabinet were present today at a formal meeting. The Panama situation occupied most of the time and the whole situation was considered thoroughly. Cordial approval of the course of the president and secretary of state Hay in the matter was given by the cabinet ministers. It is understood that no further statements concerning the organization of a new republic or the negotiations between Panama and the United States regarding the construction of the isthmian canal will be made at this time.

The president tonight had a conference with a number of leaders in both houses of congress. Those who called on him at the White house were secretary of the navy Moody; speaker Cannon; senators Allison, Aldrich, Platt, Spooner, Hanna, Hale, Lodge and Watmore and representatives Payne, Dalzell, Tawney and Hemenway. The conference began about 9.30 o'clock and those who called professed not to know the purpose of the gathering or what questions were to be considered.

WILL NEGOTIATE A TREATY.

Panama, Nov. 10.—Dr. Manuel Amador, Frederico Boyd and Carlos Constantin Arosmana left today for Washington with instructions from the provisional government to negotiate a canal treaty with the government of the United States.

CAPTURED A TOWN.

Colon, Nov. 10.—The steam launch sent to Bocas del Toro on Thursday last to capture that place in the name of the new republic of Panama, has returned here, and the officers report that the place was captured and the flag hoisted without a shot being fired. No difficulties whatever were encountered. The people of the town were jubilant with the situation.

The provisional government at Panama has received a telegram from president Marroquin, of Colombia, giving assurances that the Panama canal bill would most certainly pass congress next August, and that general Reyes was on his way to the isthmus to make proposals looking to peace and the saving of the national honor. The provisional government has sent a letter to general Reyes, which will reach him upon his arrival at Savinalla, advising him that it is useless for him to come to Panama.

TROOPS MUST NOT LAND.

Washington, Nov. 10.—Upon receipt of a report of the American state department that several British vessels were to be chartered by the Colombian government to take troops from Buena Ventura to the isthmus, the United States navy department today ordered the Boston to proceed off Buena Ventura, and, in the event that the troops start for the isthmus, their commanders will be informed that they cannot land. The navy department announces that no attempt will be made to interfere with British vessels on the high seas.

IMPERIAL DEFENCE.

Aylesworth Demands a Scheme at National Club Dinner.

Toronto, Nov. 10.—A. B. Aylesworth, K. C., one of the Alaskan boundary commissioners, and colonel G. T. Denison were the chief speakers at the king's birthday dinner at the National club last night.

Aylesworth spoke strongly in favor of the advantages of British connection and said that a feasible scheme for imperial defence should be prepared.

CRESCEUS NOT SUCCESSFUL.

Failed to Break the Trotting Record.—Conditions Were Unfavorable.

Kansas City, Missouri, Nov. 10.—Crescens this afternoon failed in his attempt to break the world's trotting record of 2:08 for a mile on a half-mile track, making no better time than 2:12 1-4. Conditions were unfavorable. Besides the fact that the wind was blowing hard and the track not perfect, the stallion was slightly lame.

STEAMER BURNED.

Northern Navigation Company's Atlantic Is Totally Destroyed.

[Special to The Daily News.]

Collingwood, Nov. 10.—The Northern Navigation Co.'s steamer Atlantic was burned this morning at the dock, inside of Red Rock, on the Georgian bay, while bound for Byng inlet. The passengers and members of the crew were all saved and are now at Parry Sound. The steamer was fully insured.

WIDOW GETS DAMAGES.

Montreal, Nov. 10.—Judge Pagnuelo today awarded $6,000 damages to Mrs. Isidore Drouit and her children against the Dominion line, now owned by the Morgan combine. Drouit was killed while working on the company's steamer Dominion.

TORONTO GAS WORKS BURN.

Toronto, Nov. 10.—Fire did $50,000 damage at the premises of the Consumers Gas Co. this afternoon. The fire was confined chiefly to the coal supplies of the company, and will not interfere with the lighting service.

GRANBY MINES DIVIDENDS

DIRECTORS EXPECT TO PAY 4 PER CENT ON PAR VALUE.

SMELTER WILL BE ENLARGED TO TREAT 5000 TONS DAILY.

Grand Forks, Nov. 10.—Jay P. Graves, general manager of the Granby Consolidated Mining & Smelting company, after an inspection of the smelter here and the mines at Phoenix, had this to say respecting the enlargement of the reduction plant:

"The directors have decided to run the smelter at least six months with its present equipment of six furnaces in order to demonstrate our ability to successfully produce and treat a tonnage of 2100 tons daily, and to secure sufficient labor and coke as well as to test the ability of the railway to handle the tonnage involved. If those conditions all work out in practice the question of making a further addition to the smelter will be determined. Every time we have increased our tonnage we have found that some of these factors has been lacking and it has in each instance usually taken from three to six months before things ran smoothly. This time we will make a crucial test before elaborating our plans for further expansion of our operations.

"The ultimate claim of the Granby is to treat all the tonnage our group of mines can produce. These mines are now equipped to handle 5,000 tons of ore daily, and, of course, we expect to treat that amount of tonnage at Grand Forks some day, whether one year or three years hence. The policy of the board is to pay a portion of the earnings in dividends instead of putting everything into equipment as has been done in the past. This is what we expect to do soon, as the present plant of six furnaces goes into operation and is in smooth running order.

"The directors are also of opinion that they will pay a dividend of not less than 4 per cent per annum payable quarterly, I mean a four per cent dividend on shares of the par value of $10 each, or 10 per cent on the selling price of the Granby stock, which is at present quoted at $4 per share."

THEY ARE HARD TO RESTRAIN

PEOPLE OF JAPAN EAGER TO BATTLE WITH RUSSIA.

JAPANESE PREMIER SAYS SITUATION IS CRITICAL.

Tokio, Japan, Nov. 10.—There is a strong inclination in well-informed circles to doubt the pacific forecasts issued in Europe. It is believed here that peace will only be made possible by Russia's complete acceptance of Japan's claims regarding Manchuria. The Japanese government finds it increasingly difficult to restrain popular sentiment. At an important dinner this evening at the Imperial hotel at which over 250 persons were present, representing all sections, a resolution was adopted, amid the greatest enthusiasm, declaring that the continued delay was detrimental to the national interests and to peace in the far east, and urging the government to take prompt and decisive action.

SITUATION CRITICAL.

Premier Katsura today received a deputation of the anti-Russian league. He impressed the delegates with the necessity for complete unity and solidity among the people in the face of the existing situation which, he declared, was most critical.

WRITES IN PEACEFUL WAY.

Port Arthur, Nov. 10.—The Novi-Krai, the official organ of the viceroy, writes in a peaceful strain. It denies that admiral Alexieff wants war, and further declares that Russia does not object to foreign trade with Manchuria, or to Japanese imigration to Corea, provided Corean independence is not menaced.

FROM PANAMA TO THE POLE.

Lieut. Peary's Idea of Boundaries of the United States.

London, Nov. 10.—Commander Peary, U.S.N., lectured before the Royal Geographical society tonight and, after reviewing his previous attempts to reach the north pole, said his future plans were based on the belief that the Smith sound route was the only practicable one.

He wished to win the pole for America because it was the last great geographical prize the world had to offer, and it was peculiarly an object of American pride and patriotism. America was now negotiating for the isthmus of Panama. The other natural geographical boundary to her destiny was the north pole.

He hoped by winning the pole for his country to appropriately crown her for centuries of struggle, heroism and achievement.

A SINISTER SCHEME.

A French Minister Suggests an Impossible Alliance.

London, Nov. 10.—The Tokio correspondent of the Daily Mail says he is informed that the French minister to Japan in an interview has denied that he has been instructed to mediate between Japan and Russia. The minister characterized the Anglo-Japanese alliance as a diplomatic failure. The minister, according to the Daily Mail, said in this connection: "Why should not Japan join Russia and so inflict a crushing blow on England in the far east?"

WILL KEEP ITS HANDS OFF

GERMANY WILL NOT INTERFERE IN COLOMBIA.

HER INTERESTS THERE ARE NOT VERY LARGE.

Berlin, Nov. 10.—The Colombian commission, if it comes here, will receive no consideration from the German government. A correspondent today called the foreign office's attention to the statement made yesterday by Arture DeBrigard, the Colombian consul-general in New York, that Colombians were clamoring for a German protectorate over their country, and that the Colombian government had been asked to send a commission to Germany to offer emperor William certain pieces of land on both seas in return for Germany's protection. The reply was: "We have heard nothing on the subject, but if a commission comes with such a proposition it would not be entertained for one moment. We have no intention of mixing ourselves in the affairs of the isthmus states. We are still without any communication from our consular representatives in regard to the revolution, or asking protection, hence we have omitted to ask the United States to look after Germany's interests. Statements regarding our commercial interests in Colombia and Panama have been much exaggerated, but we hope to see our trade there prosper after the United States builds the canal."

THE VENEZUELAN AWARD.

A Number of the Claims Have Been Adjusted.

The Hague, Nov. 10.—Judge Penfield, a solicitor for the United States department, continued his arguments today before the Venezuelan arbitration tribunal declaring the blockading powers were satisfied with the protocol of February 13th and the compromise of May 7th in which there was no stipulation of preference. The United States never consented to the action of the blockading powers. Dr. Jose Paulatone of the Venezuelan representatives, on the mixed commission and representative and counsel for Venezuela, said Venezuela accepted responsibility for all of minister Bowen's acts in behalf of Venezuela from December, 1092, to the present. He reviewed the awards of the commission and said those admitted should be paid in three years. Dr. Paulatone said the mixed commission had examined a majority of the claims and had made the following awards:

To France, $540,000, as against the claims of $3,360,000.

To Germany, $384,000, as against a claim of $1,200,000.

To Great Britain, $120,000, as against a claim for $225,000.

The claims of Great Britain for compensation amounting to $1,500,000, is respect to railways, was still under examination.

The mixed commission awarded Spain $380,000, though that country claimed $2,500,000.

The United States claim was for $15,390,000 but $513,000 was awarded, while the examination of a portion of the claims amounting to $6,270,000 has not been as yet completed.

Dr. Paulatone said that Venezuela opposed the payment of the Mexican debt of $525,000 and of the Belgium claim of $2,575,000 out of the assigned 30 per cent of the customs duties, these being part of Venezuela's public debt. Taking the annual yield of 30 per cent of the customs at $1,600,000 the claims admitted would be paid in three years.

REVOLUTIONISTS WON.

San Domingo Has Capitulated—Jiminez President.

San Domingo, Republic of Santo Domingo, Nov. 7.—The revolutionary forces which now surround this city attacked San Domingo last night using artillery, but no damage was done. The revolutionary commander sent a message under a flag of truce to demand the surrender of the capitol, which was refused, and hostilities were resumed. San Domingo is strongly fortified.

Cape Haytien, Nov. 10.—A despatch from Monte Cristo says it is reported that San Domingo has capitulated to the revolutionists and that general Jiminez has been proclaimed president of the republic.

Washington, Nov. 10.—The American state department tonight received a cablegram from United States minister Powell at San Domingo, dated at 4 p.m. today, reporting the situation at San Domingo to be extremely serious. The despatch, it was stated, was the first which the department has received on the day it was filed since the disturbances began.

AMERICAN CROP REPORTS.

Yield is Slightly Lower Than It Was Last Year.

Washington, Nov. 10.—Preliminary returns to the chief of the bureau of statistics to the United States department of agriculture on the production of corn in 1903 indicate a total yield of about 2,313,0000,000 bushels or an average of 25.8 bushels per acre, as compared with the average yield of 26.8 buscls a year ago. The general average as to quality is 83.1 per cent as compared with 80.0 last year. This estimated that about 5.2 per cent of the corn crop of 1902 was still in the hands of the farmers on November 1st, 1903.

The preliminary estimate of the average yield per acre of tobacco is 786.3 pounds, as compared with the final estimate of 797.3 pounds in 1902. The average as to quality is 85.9 per cent and the preliminary estimate of the yield of buckwheat per acre is 17.7 bushels per acre, as compared to 18.1 bushels in 1902.

HELD A SHORT SESSION.

American Congress Listens to the President's Message.

Washington, Nov. 10.—The house was in session less than half an hour today, early adjournment being taken out of respect to the memory of two deceased members. The president's message was read and referred to the committee on ways and means. The speaker announced the code of rules and mileage. Aside from making the provision for the payment of mileage of members no further business was transacted. The senate was in session about 15 minutes to listen to the president's message.

SUGAR MILL STARTS.

New Enterprise in Alberta Opens Up With 150 Men Employed.

Raymond, Alta., Nov. 10.—The sugar mill started its first run yesterday morning. There are five thousand tons of beets in the sheds, and one hundred and fifty men employed, seventy-five on the day and seventy-five on the night shift. The mill is working perfectly.

The seasons run will extend to fifty or sixty days and will give two and a half million pounds of sugar to the west. Sharp bids are coming in for the whole product by both local and outside dealers but so far it has not been learned that the product has been parted with.

AFTER THE SICK MAN.

Austria and Russia Renew Their Demands On Turkey.

Constantinople, Nov. 10.—The ambassadors of Austria and Russia personally communicated to Tewfik Pasha, the foreign minister, the reply of their governments to the Porte's answer of November 2nd to the note of the two powers on the subject of reforms in Macedonia, receiving unfavorably some of the points projected. Austria and Russia now announce that they renew the recommendations contained in their memorandum of October 22nd.

CONCESSION DUE FROM U.S.

TO SECURE CONTINUANCE OF THE PRESENT CANADIAN TARIFF

JOHN CHARLTON, M. P., SPEAKS AT CHICAGO BANQUET.

Chicago, Nov. 10.—At the banquet of the Illinois Manufacturers' Association tonight John Charlton, M.P. for North Norfolk, Ontario, made the principal address dealing chiefly with the relations between Canada and the United States. After referring to the "drastic tariff" of the United States, Mr. Charlton said:

"The substantial continuance of present Canadian tariff concessions on the part of the United States and the question of adopting reciprocal free trade in natural products is one that will claim the attention of Americans as upon this basis satisfactory conditions for the present may be obtained. Formerly the American farmer and lumberman opposed the policy of free admission of Canadian natural products into the markets of the United States believing that the effect would be to depress prices in the home market. This is a mere bugbear; when a careful comparison of the relative volume of American productions and Canadian exports for consumption in the United States is made it will be found that the volume of exported quantities is so small compared with the volume of domestic production in the United States that it would be absurd to expect the imports from Canada for consumption in the United States could do more than produce an infinitesimal influence upon prices.

"Free trade in natural products is beyond question fully earned by Canadian tariff considerations. The sooner it is arranged the better for the interests of both countries. Now, if the Canadians buy heavily they ask the privilege of making proportionate sales in return. The present state of trade relations is absurd. The time is ripe for a display of liberal spirit on the part of the United States. If that country has the wisdom to display this spirit toward its northern neighbor the result will be vastly more satisfactory than the continuance of present conditions."

FIERCE NEWFOUNDLAND GALE

Rages Along the Entire Sea-Board—Many Vessels Wrecked.

St. Johns, Nfld., Nov. 10.—A fierce gale has been raging along the entire seaboard for the past two days and several vessels have been driven ashore. The American steamer Edith Emery has been lost at Port au Basque and the Canadian schooner Florence is ashore at Forteau.

Schooners Trefoil, Jalet, Anthusa, and a number of other Newfoundland vessels also have been wrecked. Two boats were driven to sea from Lafleme. A tug was sent after them but it is feared that the occupants will have perished.

QUEEN VISITS WASHINGTON.

Liliuokalini, of Honolulu, Seeks Recompence For Loss of Crown.

San Francisco, Nov. 10.—Former queen Liliuokalini, of Hawaii, arrived yesterday from Honolulu. She will stay in this city a few days before starting for Washington to prosecute her claims against the United States government.

A recent senate committee reported favorably on a bill to award the former queen $200,000 damages on account of the loss of her crown lands. Congress failed to act favorably upon the measure but Liliuokalini expresses the hope that she will be successful at the present session.

SMALL LUMBER CUT.

In Georgian Bay District—Monster Moose Shot Near Parry Sound.

Toronto, Nov. 10.—Lumber dealers state that the cut in Georgian Bay district this winter will be one third smaller than last year. Labor is scarce and only 8,000 men will be employed instead of the usual twelve thousand. It is also expected that the American demand will be much smaller

The carcass of a bull moose weighing 1,475 pounds, reached here today. It was shot 50 miles north of Parry Sound by catain J. B. Miller. The skeleton will be stuffed and set up.

CHINESE MINERS.

Government is Prosecuting Those Who Employ Them.

[Special to The Daily News.]

Vancouver, Nov. 10.—It is reported from Cumberland that inspector Morgan, acting under instructions from the minister of mines, will proceed with another prosecution tomorrow against the Union Colliery company for employing Chinese underground. Fifty separate informations will be laid and tried separately. Summonses are now in preparation.

LADY MINTO RETURNS

From Trip to Japan—Was Royally Entertained There.

Victoria, Nov. 10.—Lady Minto, wife of the governor-general of Canada, and party, ladies Ruby and Eileen Elliott, and captain Bell, A.D.C., who have been touring Japan, returned tonight by the steamer Empress of China.

They were entertained and feted by the emperor and empress of Japan, and several fetes were held in their honor at different Japanese cities.

SAGE MUST GIVE UP.

Miserly N. Y. Financier Gets Soaked in the Courts For Breach of Contract.

New York, Nov. 10.—A jury today returned a verdict for the full amount claimed against Russell Sage in a suit by the Roberts company, brokers, to recover $2,500 which it was asserted, the company lost by reason of the failure of Mr. Sage to deliver 400 shares of the stock of the Terre Haute and Indianapolis railroad company in January, 1901.

SWINDLER SENTENCED.

New York, Nov. 10.—Albert S. Brown, the man who impersonated J. Pierpont Morgan, Jr., and other wealthy men on several occasions and in that way secured considerable jewelry in this and other cities, was sentenced today on his plea of guilty to state prison for three years and three months.

THE LIMIT OF DEVOTION

Midshipman Shows Himself to Be a Hero

Strips Himself to Save His Superior

[Special to The Daily News.]

Vancouver, Nov. 10.—Details of the death of lieutenant Pearce in northern waters, brought by the return of his ship, H.M.S. Flora, reveal the possession of heroic qualities in his companion, midshipman McGuire, which show how worthily he upheld the traditions of the service. The Flora had called at the Queen Charlotte islands to obtain some samples of coal to forward to the admiralty. She had gone up Skidegate inlet, which separates Moresby from Graham island, intending to remain several days. While the ship lay there, sub-lieutenant Pearce and midshipman McGuire took leave one afternoon, intending to hunt up the inlet.

During their absence a storm arose, and after an exciting chase the two attempted to return to the ship, but miscalculated the treacherous currents, were carried on a low reef in midchannel where the fragile boat was dashed to pieces.

They clambered on a rock, but from it there was no escape. Pearce was physically much less robust than his companion and was chilled to the bone by the piercing winds and breaking surf. McGuire stripped himself of almost all his clothes to protect his superior. All through the night he vainly strove to keep warmth in his companion's body, by wrapping his own clothes around him. When found in the morning by an Indian McGuire was exhausted, helpless and naked, and beside him Pearce lay wrapped in his clothes, but dead.

HENDRYX PROCESS AT ROSSLAND.

May Be Applied to Monte Cristo and Columbia Mountain Mines.

[Special to The Daily News.]

Rossland, Nov. 10.—The possible introduction into the Rossland camp of the Hendryx electro-cyanide process of treating low grade ores has created widespread interest throughout the community. When the magnitude of the deposits of heavy iron sulphide ores in the developed mines of Monte Cristo and Columbia mountains is realized it is not surprising that this should be the case.

The characteristic ores of Red Mountain are siliclous and amenable to concentration. That has been worked out satisfactorily in the case of the Le Roi No. 2 and War Eagle-Centre Star mines. The iron ores of Monte Cristo and Columbia mountains will not concentrate for obvious reasons, consequently some other method of extracting the values must be obtained before the properties in the big iron belt can realize on the large investments already made. Any process adopted must handle the product on a low per ton basis, and this is claimed for the Hendryx system, together with the advantage of special value locally that the process can be installed at a low cost of construction and equipment of plant, a comparatively insignificant consumption of water as compared with water concentration and a high percentage of recovery in values. From the local viewpoint the cardinal advantage of the Hendryx system does not appear to have been emphasized heretofore, viz., that a large percentage of the cyanide employed can be regenerated or recovered and used over again. The principal objection to the employment of cyaniding in the past has been the excessive cost of the cyanide solution, and it is claimed for Dr. Hendryx' system that this is largely overcome in the manner specified.

There are on Monte Cristo and Columbia mountains in the Rossland camp at least a dozen properties on which considerable sums have been expended in development work and in which extensive bodies of ore have already been blocked out. With one exception—the Kootenay—these mines have been closed down for three years or more because the ore was just under the minimum average profitably amenable to ordinary mining and smelting operations. The owners of the mines are naturally anxious to realize on these investments and have been quietly awaiting the juncture when matters would take a turn in the mining industry that would enable them to market the ore blocked out in their mines. If what is claimed for the Hendryx system can be applied locally, and the tests now under way in Spokane will prove this sufficiently to justify the erection of the first plant, the process is assured of wide vogue. Incidentally the camp will be very substantially benefitted by reason of the large increases in working crews that would naturally follow, hence the keen interest manifested in the experiments. The issue is really as important as that involved in the solution of the concentrating problem, and is somewhat of a coincidence that what is hoped to be the right method of handling Rossland's iron ores has cropped up within so short a time of the successful adaption of milling to the pyritite and chalcopyrite ores of the camp.

SEASON IS NEARLY OVER.

New York Canals to Be Closed on the 28th November.

Albany, N. Y., Nov. 10.—Superintendent of public works Boyd today announced that the New York state canals will be closed to navigation at midnight of Saturday, November 28th. The past season has been a very prosperous one for the canal men and it has been the desire of superintendent Boyd to make the season as long as possible.

OFFER TO REDUCE TARIFF.

Ottawa, Nov. 10.—Cape Town exhibition promoters offer in case Canada erects its own building to reduce the tariff 75 per cent. If the general exhibition buildings are used they will have a reduction of 25 per cent off tariff. The proposed exhibition will last from November, 1904 to January, 1905.

FERGUSON THE WINNER.

Boston, Mass., Nov. 10.—Sandy Ferguson was given the decision over Joe Walcott tonight, after 15 rounds of fast clean fighting before the Criterion Athletic club. Ferguson showed superior form.

A RUSH OF CHINESE COMING IN

Advices from the coast indicate that the Chinese are arriving in large numbers and a considerable increase in this class of immigrants is anticipated before the 1st of January, 1904. The reason for the increase in the arrivals of Chinese is that the act which raises the head tax on incoming Chinese from $100 to $500 goes into effect on January 1st next. We may expect to soon see in Victoria and Vancouver scenes similar to those enacted in San Francisco prior to the putting into effect of the provisions of the first U. S. exclusion act, which went into force about 23 years ago. For about three months before the law went into effect steamers of all sorts and kinds came into San Francisco harbor from the orient crowded with Chinese. In some instances, owing to the overcrowding and to the poor accommodations, sickness broke out and many died. One or two tramp steamers which came in had numerous cases of smallpox on board. It was stated that nearly 20,000 Chinese arrived in San Francisco in the three months before the restriction act went into effect. In the present instance there will not be so many arrivals, because each of the mongols who lands is compelled to pay $100 head tax, while in San Francisco they were admitted without the payment of a tax.

A REASONABLE DEMAND.

At the recent meeting of the British Columbia Lumber & Shingle Manufacturers' association the principal subject referred to was the import duty on lumber from the United States. Within a period, not far away, there has developed a market in Manitoba and the territories for the lumber of this province that has yielded a profit to our lumbermen. The trade within the last two years has grown to good proportions and the enterprising lumber interests of the province began to meet its growth by acquiring additional timber limits and in erecting sawmills of large capacity. The industry is in a condition to supply all of the lumber needed in the markets immediately east of the Rocky mountains, and should this field be left to them British Columbia would be the gainer by millions of dollars annually for lumber sold to the farmers and stock raisers.

Rough lumber is imported duty free, but dressed lumber bears a duty of 20 per cent. As a result of this condition the American lumbermen are swamping the markets of Manitoba and of the northwest with rough lumber and selling it at such prices as to seriously injure the trade hitherto enjoyed there by British Columbia lumbermen. The provincial sawmill men complain, and justly, too, that they are estopped from exporting their lumber to the United States by an import duty, but that the American lumberman can bring his rough lumber product into Canada duty free. They also declare that the Manitoba and northwest farmers are protected by a duty on their flour and other products, but think that lumber should be on the free list.

The party in power is pledged to give adequate protection to the manufacturing industries, and, as lumber is a product of one of these industries, its manufacturers should be protected from foreign competition just the same as the makers of mining, agricultural and other machinery are.

The request of the provincial sawmill men for an import duty on rough lumber seems to us to be so reasonable and so just, and so essential to the fostering of one of the most important industries of the province, that the federal administration should not hesitate long before granting what they ask for.

EDITORIAL NOTES.

British Columbia will soon be on a par with the South American republics in the frequency and violence of its political squabbles, says the Winnipeg Daily Tribune. The above sentence shows how the political affairs of the province are looked upon elsewhere and it also reveals the great necessity for a strong and stable government to take control of the affairs of the province and to restore its reputation for stability.

The territories are struggling against the bonds which keep them tied to the federal government and think that they are large enough and strong enough to be granted autonomy. Provincial autonomy is likely to be the chief issue from now on, as it is evident that an agitation will be kept up till what is so strongly desired is granted. The territories, owing to the heavy influx of farmers and others from the states and elsewhere during the past few years, are growing rapidly and it should not be long before they will be admitted into the sisterhood of provinces that make up the dominion.

A British title was united yesterday to American millions when the duke of Roxburghe and Miss May Goelet were united in matrimony in New York. It was a sort of merger by marriage in which the lady got the title and the nobleman the millions, and both will now proceed to enjoy what they married for.

Mary MacLane, a young Butte woman, who once created a mild sensation in a book she wrote by announcing that she was a genius, is about to take unto herself a husband. Miss MacLane's fame became so extensive that she was for a time in demand as a space writer on the New York sensational papers, and had a baseball nine nicknamed after her. The man who is to marry her will probably be known after the wedding as Mary MacLane's husband, as such is the fate of those who will marry feminine geniuses.

A writer in Nature wants to know why it is that "when a small magnet in my drawer has been ready to act on a compass any time during the last twenty years, and has not altered its appearance in any appreciable way, I ask, whence comes the continuous magnetic supply? Again, when a lady has had for a great many years a cedar workbox, which has never failed of its characteristic odor, it is a natural question to ask, whence comes the smell? The statement in books, both of physics and physiology, is that something material is given off from the wood which alights on the olfactory membrane of the nose. This is purely gratuitous, as the statement is without a shadow of proof, the box being to all appearances in no way diminished in size or otherwise altered. If the hypothesis, for it is nothing more, fails, how does the case differ in principle from that of radium?"

The government of Japan has decided to abandon its system of picture writing borrowed from the Chinese many centuries since, and substitute therefor Roman letters. The old system was cumbersome and did not adapt itself to modern ideas and conditions. It was most inconvenient to use in the form of movable alphabets and rendered the issuance of a paper difficult owing to the large number of characters in the picture wording. By adopting the Roman characters typesetting machines, like the Mergenthaler, can be used for the issuance of books, magazines, papers, etc. Under the new system the old literature of the country can be condensed and placed among the people. At the heels of the adoption of the alphabet will come the selection of a national language which will be a condensation of all that is best in the many colloquial dialects that prevail among a people made up of 40,000,000 persons.

CONSOLIDATED LAKE SUPERIOR.

Philadelphia, Nov. 10.—The committee having in charge the re-organization of the consolidated Lake Superior company, today announced that the time for payment of the first subscription of the stock and bonds of the proposed new company, which expired today, has been extended until November 17th. Subscriptions for the stock are coming in rapidly and the committee expect to be able to declare the new plan operative next week.

If, by this time, you are not convinced that Blue Ribbon Tea is the best on the market, it must be the fault of the advertising, not the fault of the tea, as you cant have tried it. Blue Ribbon is, and always will be, the best

Colds are quickly cured by Chamberlain's Cough Remedy. It acts on nature's plan, loosens the cough, relieves the lungs and opens the secretions, effecting a permanent cure. It counteracts any tendency of a cold to result in pneumonia. It is pleasant to take, both adults and children like it. Price 25c.; large size 50c.

BRINGS IN MANY MILLIONS

VALUE OF TOURIST TRADE TO SWITZERLAND.

SCENIC AND OTHER ATTRACTIONS A SPLENDID ASSET.

Some bearing on the value of tourist travel appears in a recent issue of the London Times. It says:

So far we have only knowledge, and that of recent date, as to how many people visit the Alps annually for mountaineering purposes. In July of last year a Berne physician made the necessary statistical inquiries, and established the fact that about 100,000 people go each year to the Alps. But, of course, as the doctor then pointed out, these figures form only a small part of the total number of annual visitors to Switzerland. Herr Freuler's carefully compiled statistics show that the actual number is no fewer than 380,000. It must, however, be borne in mind that Freuler's figures apply only to those who visit Switzerland for curative or recreative purposes. Further, we are also informed as to the average length of sojourn of each visitor, which, to put it briefly, amounts to from two to three weeks, thus making a total of seven or eight million days which visitors spend in Switzerland annually. The most interesting part of Herr Freuler's essap is that which refers to the financial and economical side of the hotel and similar businesses in Switzerland.

According to Herr Freuler the total amount of money paid over to the proprietors of hotels and pensions in the course of a year is between eighty-six and ninety-eight million francs, about 20 per cent of which comes from the pockets of the native population. We see, therefore, that foreign visitors spend about three million pounds sterling for board and lodging, and it is further calculated that they disburse sixteen to eighteen million francs—say 675,000 pounds—to the railway comanies, steamboat proprietors and owners of vehicles. Against this total sum of 4,475,000 pounds we have to place an expenditure on the parts of the caterers, railway companies, of fifty-two to sixty-two million francs, or at least 2,000,000 pounds. Herr Freuler goes on to point out that from this gross profit of 2,475,000 pounds as much as 1,300,000 pounds has to be deducted for depreciation and improvements, and that consequently the net profit on the capital outlay, which he estimates at a sum amounting to over 550,000,000 francs, is decidedly small. It follows, therefore, as Herr Freuler says, that visitors travel and are entertained very cheaply in Switzerland, and he goes on to remark:

"It must, however, be remembered that there are frequent, and on some occasions considerable fluctuations in prices, according to the season; that the demands made by visitors are not always justifiable; that various companies offering facilities for touring produce an unhealthy competition ,based on thoughtlessness and want of business principle; and further, that the competitive envy of some restaurant keepers leads to catering which is not in keeping with honest management.

"For the reception of visitors there are, according to the author, 1,896 hotels, pensions and private lodging houses, which together contain 104,800 beds. Having circularized all these places, the statistician is able to say that 945 of them are open only during the season, and that these contain 62,800, so we see that the 951 that are open all the year round only contain 42,000 beds. Herr Freuler also inquired as to the number of people employed at these hotels and pensions, and found that 22,000 are given full occupation, and that a further 5,000 are required irregularly, there being almost equal numbers of both sexes. There is, therefore, on an average, one servant to every four beds. On the whole, the hotel business gives direct or indirect employment to between 32,000 and 35,000 people at the height of the season, whose wages amount to from nine to eleven million francs, exclusive of both their board and residence, which Freuler estimates at from 7,500,000 to 8,500,000 francs, and of gratuities, which amount to as large a sum as from 3,500,000 to 4,000,000 francs.

As regards the nationality of the attendants, the author was able to ascertain that, with the exception of a small number—about 3,500,—they are all Swiss born. These figures alone are sufficient to show to what an enormous extent the financial and economical position of Ewitzerland is dependent upon the presence of foreign visitors.

IDAHO SHOOTING AFFRAY.

Miner Pulls His Gun.—Two Killed and Two Wounded.

Wallace, Idaho, Nov. 10.—Two persons were killed and two wounded in a shooting affray at the entrance of the Wallace opera house last night. The shooting occurred just as the theatregoers were leaving the theatre after a performance by the James O'Neill company. The dead are: Dr. W. F. Simms, shot through the head, and Ed. Cuff, miner, shot three times. The wounded: Chief of police McGovern, shot through the right hand; opera house police Rose, shot through the leg.

The trouble arose from Cuff's persisting in smoking a cigar in the gallery until he was put out. Cuff left the theatre vowing vengeance upon the police. He waited until the performance was over, and as Rose stepped outside, began firing. The first shot missed, and Rose returned the fire. Dr. Simms, who was escorting a woman, followed Rose out, and as he did so a bullet struck him in the head, killing him instantly. Other policemen appeared at this moment, and a general fusilade followed.

The panic stricken theatregoers rushed back into the foyer, men and women being trampled on in the mad rush back into the theatre. Cuff continued firing, wounding chief of police McGovern and officer Rose. He then tried to escape, but was intercepted at a side exit by policeman Quin, who kept up a running fire, three bullets taking effect. Cuff fell unconscious, and died in five minutes. A number of people were injured in the panic. Cuff was a miner and served in the Philippines with an Idaho regiment. Dr. Simms was a well known surgeon of Wallace, and leaves a family.

AT THE ST. EUGENE.

A small force of men is still at work for the St. Eugene company, doing general repair work, says the Moyie Leader. A gallows frame is now being erected in the shaft house at the No. 1 tunnel, and when this is completed there is likely to be some other work to be done. The indications seem very favorable for the big property resuming operations early in the spring.

ROOSEVELT MEETS DOWIE.

Washington, Nov. 9.—John Alexander Dowie called upon president Roosevelt today. Dawie said the call was purely a social one.

WANT ONLY $20,000,000

Belgrade, Nov. 9.—The government is making efforts to secure a loan of $20,000,000 to be used principally for the equipment of the army.

ALCOHOL EXHIBIT IN LONDON.

London, Nov. 9.—An alcohol exhibition opened in London today and will continue through the week. The primary purpose of the lexhibition is to show the evil effects of drink on the human body.

CONSERVATIVE NOMINATION.

Guelph, Nov. 9.—Hugh Guthrie was unanimously chosen by South Wellington conservatives in convention today, for representative in the dominion house.

FIRE AT STRATHROY.

Strathroy, Ont., Nov. 9.—The premises of the Cameron Dunn Manufacturing Company were destroyed by fire Saturday morning. Loss $20,000.

HON. L. R. MASSON DEAD.

Montreal, Nov. 9.—Hon. L. R. Masson, ex-lieutenant-governor of Quebec, died at six o'clock this evening at his residence in this city.

CUSTOMS COLLECTOR DEAD.

St. John, N. B., Nov. 9.—W. A. Albert Lockhart, collector of customs at St. John, since 1900, died this morning.

SPENT OVER $2,000 DOCTORING.

Mr. Joseph Pominville, of Stillwater, Minn., after having spent over $2,000 with the best doctors for stomach trouble, without relief, was advised to try a box of Chamberlain's Stomach and Liver Tablets. He did so, and is a well man today. For sale by all druggists and dealers.

SENATOR'S GOLDEN WEDDING.

Ottawa, Nov. 10.—Hon. R. W. Scott and Mrs. Scott, surrounded by their family, celebrated the fiftieth anniversary of their marriage on Sunday. The celebration was confined exclusively to a dinner at which their children and grand children were present. During the afternoon a large number of friends including sir Wilfrid and lady Laurier, called to extend congratulations.

BETTER THAN A PLASTER.

A piece of flannel dampened with Chamberlain's Pain Balm and bound to the affected parts is superior to any plaster. When troubled with lame back, or pains in the side or chest, give it a trial and you are certain to be more than pleased with the prompt relief which it affords. For sale by all druggists and dealers.

A CARD FROM MR. KELLY.

Editor, The Daily News,—I noticed that in the account of the meeting of the Agricultural association on November 5th reference was made to a lot that C. R. Forde had to say about eastern fruit trees imported to this district. Now, let me say that Mr. Forde does not know how to appreciate a firm that has tried to treat him right. He lost several plants and trees and the company replaced them free, even paying the freight on them. I will bet Mr. Forde or Mr. Tarry $100 (one hundred dollars) that I can prove that local stock such as is sent in here from the coast dies with black root, also I will bet $100 (one hundred dollars) that the local stock is not true to name, which is far more of a grievance to the ranchers than is a few small or poor trees.

J. A. KELLY.

FOR A BAD COLD.

If you have a bad cold you need a good reliable medicine like Chamberlain's Cough Remedy to loosen and relieve it, and to allay the irritation and inflammation of the throat and lungs. The soothing and healing properties of this remedy and the quick cures which it effects make it a favorite everywhere. For sale by all druggists and dealers.

JAPAN MAKES DEMANDS.

Follows Example of Western Countries and Asks Concessions in China.

Vancouver, Nov. 10.—Japan, always willing to learn from the United States and Europe, is borrowing another idea: she is asking China for big concessions. A Pekin despatch says one of the first official acts of the new ministry of commerce, or changpu, has been to consider a request from the Japanese for a camphor monopoly. Chungshan, viceroy of the Minche provinces, has asked the ministry for permission to close with an offer from the Japanese camphor expert to resuscitate the camphor industry in the prefectures of Changchou and Chuangchou, Pekin province. The business is in danger of extinction through the ignorance, laziness and want of money of the native monopolists, who obtained the privilege of farming out the industry.

The Japanese exerts offers to "lend" the government $200,000 without interests and a guarantee against loss for six years. A further sum of $100,000 is offered the government as "soladium" for the granting of a monopoly to Japanese. For each picul's weight of the manufactured article, $7 is to be paid to the government as duty, a certain sum is to be laid aside as a reserve to pay back the $200,000 loan, and the rest of the profits are to be divided among the Japanese, the Fukien government, and the employees.

WAKEFUL CHILDREN.

For a long time the two year old child of Mr. P. L. McPherson, 59 N. Tenth St., Harrisburg, Pa., would sleep but two or three hours in the early part of the night, which made it very hard for her parents. Her mother concluded that the child had stomach trouble, and gave her half of one of Chamberlain's Stomach and Liver Tablets, which quieted her stomach and she slept the whole night through. Two boxes of these Tablets have effected a permanent cure and she is now well and strong. For sale by all druggists and dealers.

U. S. AID FOR CHINA.

Dowager-Empress Seeks to Gain Support of That Country and Japan.

Vancouver, Nov. 10.—Mail advices from Pekin, just received by the C. P. R. Empress liner, state that China has sought the aid of both the United States and Japan to secure the retirement of Russia from Manchuria. The dowager-empress has particularly instructed the high officials to obtain the intervention of the United States if at all possible. At a recent meeting of these officials at Pekin, both the dowager-empress and the emperor were present. Her majesty impressed it upon the council that the best course possible under the difficult circumstances, was to solicit the flood offices of Washington. She also instructed the responsible ministers again to urge Russia to evacuate Manchuria, "resecting the advice given in this regard by Great Britain and Japan."

An immediate consequence of this meeting, prince Ching forwarded an official note to M. Lessar, Russian minister to Pekin, requesting him to see to the prompt withdrawal of the czar's forces from Manchuria. The Russian minister answered that his country would never evacuate unless her demands upon China were fully met. The despatch adds: "Prince Ching immediately sent an official note to the Japanese legation, applying for Japanese help in relieving China from the pending difficulty.'

Another Pekin report says that, influenced by Russian emissaries, a number of Mongols belonging to the tribes inhabiting the eastern portion of Manchuria and Mongolia are rising against the Manchu rule. The widespread discontent has caused the hereditary princes much alarm, as they are absolutely unable to curb the restless tribes. Thep appealed for aid to Pekin but the Central government informed them that it could at present do nothing.

A TIMELY SUGGESTION.

This is the season of the year when the prudent and careful housewife replenishes her supply of Chamberlain's Cough Remedy. It is certain to be needed before the winter is over, and results are much more prompt and satisfactory when it is kept at hand and given as soon as the cold is contracted and before it has become settled in the system. In almost every instance a severe cold may be warded off by taking this remedy freely as soon as the first indication of the cold appears. There is no danger in giving it to children, for it contains no harmful substance. It is pleasant to take—both adults and children like it. Buy it and you will get the best. It always cures. For sale by all dealers and druggists.

NELSON'S NEWS OF THE DAY

A pair of twins, both girls, was born yesterday to the wife of S. F. Mackay, Hume Addition.

A carload of cable for the new tramway at the Idaho mine was shipped from Riblets factory at Nelson yesterday morning.

Bruce White, and W. McMillan left yesterday for Crawford Bay to visit the iron properties on Gray Creek in which they are interested.

The Success club will hold a progressive whist tournament and dance next Wednesday evening at the hall on Victoria street. Prizes for the best players will be given.

At a recent meeting of the teachers of the Methodist Sunday school it was decided to hold the annual Christmas tree entertainment on the evening of Wednesday, December 30th.

The funeral service of the late Miss E. M. McI. Johnstone will be held this afternoon at 2 o'clock at St. Saviour's church after which the interment will take place at the city cemetery.

The complaints of householders regarding the wetness of the firewood now being delivered in the city are waxing louder and louder. A not uncommon order now is a "cord of wood and a case of coal oil," as the first is not much use without the latter. The dealers apparently are not to blame in the matter, as all wood coming in seems to be in the same condition.

An item appeared in yesterday's issue which stated that a wedding had taken place at Creston on Friday night in which the contracting parties were stated to be W. French and Miss I. Johns. No such wedding took place. The statement that such a marriage had been consummated was telephoned into the office and was accepted in good faith by the employee of the paper who received the message. The Daily News deeply regrets the publication.

Frank Unfried, the "German Strong Boy," arrived in the city last evening from Rossland. On Thursday evening he will wrestle George C. McLaughlin, the inter-mountain champion. Mr. Unfried says he is in good trim. Since he accepted McLaughlin's defi he has been in active training and has wrestled each day with a stout Swedish friend who knows considerable about the game. He says he will render a good account of himself when he meets his adversary.

Considerable disappointement is felt in the city that word has not been received from Arthur Davis, who held an option on the civic debentures, issued for the erection of an electric power plant on the Kootenay river. In the last letter received from Mr. Davis he expressed himself as confident of floating the issue and, of course, it is still possible that his letter may be delayed in transmission. The option was good till Saturday night and it was expected that a cablegram would have been received here by Monday at the latest.

The lumber industry in East Kootenay is responsible for the springing up of many ne wand busy little towns, and the substantial growth of several of the larger ones. In the former class is the town of Ryan about five miles west of Tochty, on the Moyie river. A year ago the East Kootenay Lumber company began clearing a site for a mill there, and today has one of the most complete plants in the interior. A small army of men is employed at the mill and in the woods from which the supply of logs is drawn. The plant has a capacity of 40,000 feet of lumber and eight carloads of ties per day. An electric plant furnishes light for the place, and wires have been extended to the houses of the employees.

A railing for the city wharf would be a great convenience for passengers coming in on the steamers. At present when meeting a number of teams coming down the wharf a nervous person is frequently afraid to stand close to the unprotected sides of the structure, which is quite a height above the water. The subject has been taken up before both by the council and in the press, but so far nothing has been done, owing to the difficulty of meeting the high water conditions. To obviate trouble in this direction it has been suggested that a strong railing should be run along the east side of the wharf as far as the outer widening. Foot passengers could then keep to this side entirely.

At the record office on Tuesday certificates of work were issued to the Royston Gold Mines, Ltd., on Keystone Fractional and to Alex Long on High Ore and Gold Kate.

There will be a meeting of the executive committee of the diocese of Kootenay in St. Saviour's Sunday school at 4 o'clock this afternoon. Ven. Archdeacon Pentreath will preside at the meeting.

The worshipful master of Nelson Lodge No. 23, A. F. & A. M., requests that every member of the lodge together with all visiting brethren will meet at 1.15 this afternoon (Wednesday) at the Masonic Lodge rooms.

On Monday evening the Odd Fellows of the city held a social session at their lodge rooms in Fraternity hall. Besides the local members present there were delegates from Rossland, Grand Forks and other towns of the Kootenays. A very pleasant evening was spent.

Ulvin Bros., of Lardo, have given notice that at the next meeting of the license commissioners of the Ainsworth district, they will apply for a liquor license for the new hotel which they are opening at the town of Gold Hill, at the second crossing of the Lardo river.

G. H. Barnhart is in from the Porto Rico mine and states that everything there is in a most satisfactory state for the winter. The mill is running day and night on ore brought down from the mine. The snow at the mine is now over three feet deep, and has evidently settled down for the winter.

Word has been received from the coast that the plaintiff's appeal in the case of Leadbeater vs. Crow's Nest Pass Coal Company, before the full court at Vancouver has been allowed with costs. The appeal was from an order of Mr. Justice Drake setting aside the plaintiff's statement of claim. S. S. Taylor, K.C., appeared for the plaintiff, and Bodwell & Duff for the defendant company.

The provincial police have received a letter from Manchester, England, in which the writer states that the young Englishman who was drowned about a month ago in the Lardo river near its mouth was his brother. The name of the deceased was Harry Simpson, and he was thirty-one years of age. He had only been in the province since August, having come out to Canada in that month to seek employment as a joiner.

A renewal of the window breaking practices of certain small boys in the city led to an uncomfortable half hour for the participants yesterday when the police traced them out. While the boys caught escaped imprisonment through the fact that the windows they were pelting had been already partially destroyed, yet they were given a good lecture. Every effort is being made to catch some of the boys who have destroyed so much glass in vacant houses in this way, and an example will be made of the first caught.

The first snow has brought out the small boys and girls with sleds in large numbers, and on many of the sidewalks where there is a slope, pedestrians yesterday had to keep their eyes wide open for coasters. No accidents of any consequence have occurred although two or three people were run into and upset into the gutters, and a double sleigh on Carbonate street, with two boys on it ran into a single sleigh with the result that the trip ended against a telegraph pole, the passengers getting badly shaken up, although no bones were broken. The police stopped a good deal of the coasting, but as it was impossible for them to be at all the hills at once the youngsters did not suffer much from interference.

F. Byers, of Trail, who is spending a few days in the city says that the smelter city is the scene of great activity at present. The building of the big War Eagle concentrator, and the continuous operation of the smelter have caused a renewal of the busy times once common in Trail, and the merchants are feeling the good effects. The thirteen hotels and boarding houses there are all full, and it is likely that some of the old buildings which have been closed for six or seven years will be reopened as rooming houses. Since the incorporation of Trail big improvements have been made in the general appearance of the streets, a large amount of new sidewalks, crossings, and new roads having been laid.

SHE IS NOW A DUCHESS.

May Goelet Was Married to Her Duke Yesterday.

New York, Nov. 10.—Miss May Goelet was united in marriage at 2.30 o'clock today, in the Protestant Episcopal church of St. Thomas, to sir Henry John innes-Ker, duke of Roxburghe, marquis of Bowmont and Cessford, earl of Roxburge, earl of Kelso, viscount Broxmouth, baron Roxburghe, and baron Ker of Cassford and Cavertoun in Scotland, earl Innes in the United Kingdom, and a baronet of Nova Scotia.

CHIPPEWA LANDS OPENED.

St. Paul, Nov. 10.—Nearly eight hundred thousand acres of land in the Chippewa Indian reservation in the northern part of this state were thrown open to settlement today, and as a result there is a small-sized Cherokee strip opening. The tract constitutes a part of the Cheppewa lands segregated as the result of an examination by land experts from the timber lands. While there is considerable swamp land in the tract, the greater part of it is arable and as a consequence there has been a great rush of framers and other prospective settlers.

BRITISH CRUISERS RACE.

London, Nov. 10.—The race between British third class cruisers Medusa and Medea from Gibraltar to Portsmouth was won by the Medea by three minutes. The start to finish was most exciting. The breaking of the Medusa's fans handicapped her seriously. After the accident was repaired even the officers assisted in passing coal, but the lost time could not be made up.

A ROYAL ENGAGEMENT.

London, Nov. 10.—It is said that king Edward has approved the engagement of prince Alexander of Teck to princess Alice of Albany.

WILL REFUSE THE LOAN.

Winnipeg, Nov. 10.—A politician in the city from the west says that premier Haultain is likely to refuse the dominion loan of $250,000, and allow the territories to struggle along without it. This politician says that 5 per cent interest is regarded as unreasonable. Provincial autonomy is likely to be the chief issue in the territories. At the dominion general elections, Secord, fur trader, is likely to be selected as Frank Oliver's opponent, and R. B. Bennett will stand for the conservatives in the Calgary district.

ONTARIO FARMER SHOT.

Stray Bullet from Hunting Party Kills Him While Cutting Wood.

South Indian, Ontario, Nov. 10.—Noel St. Pierre, a farmer living at Wolfe creek, near here, was shot dead at his home on Saturday, supposedly by a stray bullet from a hunting party. St. Pierre had gone to the bush to cut cordwood and was felling a tree when he received the fatal shot.

Lever's Y-Z (Wise Head) Disinfectant Soap Powder dusted in the bath, softens the water and disinfects. 38

SNOW DRIVES THE DEER.

[Special to The Daily News.]

Vancouver, Nov. 10.—Thousands of deer are being driven from the mountains into the valley by the snow in the Comox district. One herd, numbering 27, was seen on Sunday.

Having purchased the entire stock of Messrs. Foubert & Co, wines, liquors and cigars, Vancouver, we are now offering the same at greatly reduced prices. Pither & Leiser, Victoria. Agent for Nelson, Chas. Burt, P. O. Box 711.

SPECIAL SESSION CALLED.

Helena, Montana, Nov. 10.—Governor Toole has called an extra session of the Montana legislature to consider the Montana industrial situation.

Mechanics, Farmers, Sportsmen!
To heal and soften the skin and remove grease, oil and rust stains, paint and earth, etc. use The "Master Mechanic's" Tar Soap. Albert Toilet Soap Co., Mfrs.

LADY MINTO IN JAPAN.

According to mail advices from Japan, lady Minto and suite paid a visit on October 15th to the ancient ruins at Militera and Karasaki, and then returned to Kyoto. She witnessed a tournament in old Japanese style at the Butokuden. The following day she paid a visit to the well-known temples of Kiyomidzu, Sahju-Sangendo and Chionin, after which she was present at an entertainment at Hiranoya, Maruyama, provided by members of the Kyoto Tea guild. On the 18th she proceeded to Kobe, and thence to Miyajima by train.

The wrestling match at the opera house tomorrow night will be one of the biggest sporting events of the season.

Diamonds, Rubies, Sapphires, Emeralds, Olivines, Opals, Pearls and Turquoises. Marquise shaped diamonds are the fashionable style and are very rare. To the lover of precious jewels they are more than fascinating. We are next to no one in precious stones, and our prices are lower. Quality the best.

Patenaude Bros.,
MANUFACTURING JEWELERS.

Liquid Extract of Malt

To Nursing Mothers — it excites a copious of milk, improves it in quality and supplies strength to meet the great strain upon the system at that period.

To Invalids — it acts as a tonic and is a most valuable addition in the restorative treatment required in convalescence.

35 Cents per Bottle — It is specially adapted for weak and delicate children and particularly to those unable to digest starchy food.

AN EXPENSIVE JOKE.

Assuming that a current newspaper story concerning Gustav Bach, of Duluth, Minn., is correct, it affords further proof that poking fun at the German emperor is mighty costly sport. According to the report, Bach recently received word from Germany that he had fallen heir to $23,000 through the death of a relative, and that although he is a citizen of the United States he dare not go back to claim the money for fear of being arrested on charges of lese majeste. It appears that a few years ago, while serving as an enlisted man in a Prussian regiment of infantry, Bach told a funny story at the expense of the emperor and that when it reached the ears of the officers of the command they reported it to his majesty. Upon learning that the emperor regarded such conduct as treasonable, Bach deserted, fled to America, became a citizen of the United States and engaged as a waiter in a Duluth restaurant where he is still employed. As the account stands now it is about as follows: "Dr. To one joke on his imperial majesty, $23.000."—U. S. Army Journal.

AMALGAMATED RESUMES.

Order Given for All Mines to Open Today
20,000 Men Return to Work.

Butte, Montana, Nov. 10.—In accordance with promises made by Amalgamated Copper Co. officials to the Butte miners that if governor Toole would call an extra session of the legislature to pass a "fair trial" bill the Amalgamated would at once resume operations in Montana, the order was given this evening for all mines to open tomorrow. The governor's action in calling the legislature is the result of petitions from various organizations.

The resumption of the Amalgamated properties means the return to work of approximately 20,000 men.

A wrestling match is one of the finest sights in the athletic world. There are no beter developed or more skillful exponents of the art than McLaughlin and Unfried who meet tomorrow night at the opera house.

DIAMONDS

Our constant vigilance and careful study of conditions in the world's diamond markets, convinced us some time ago that there would be a substantial advance in the price of these precious stones; and acting upon this belief we bought heavily, securing the choicest selections, and the large purchases and our ready cash enabled us to secure some exceptional bargains.
This foresight now places us in position to offer to our customers the gems at the same prices which prevailed before the recent advance, and in view of another advance which present conditions indicate, wise buyers will do well to place their orders now.
