READY FOR WAR GAME

French Population in the Throes of the War Fever

Able to Put a Million Men in the Field at the Outbreak of Hostilities--Diplomats Try to be Reassuring

Paris, June 24.—For the first time since the Fashoda incident the French people are in the throes of the war fever. Whether it will result in anything serious depends on Germany's response to the French note on Morocco, but without considering the exact status of the diplomatic negotiations, a large element of the public and press seriously discuss the possibility of a *resort to* arms.

Army circles are particularly active and in the military clubs the officers are mainly engaged in making comparisons of the forces of France and Germany. While the financial leaders scout the idea of war, yet the speculative element has been quick to seize the opportunity to raid French rentes which, when they closed tonight, showed a fall of one franc, eight centimes within the week. The official view is that the situation, while *delicate, does not present any* appearance of danger or of a crisis involving a rupture of relations. This is the governmental view and naturally presents the most favorable aspect of the controversy. However, the ambassadors of the leading powers express impartial opinions fully sustaining the view of the government. It is pointed out in diplomatic circles that the worst aspect of the Moroccan question does not present a crisis. An analysis of the controversy shows that the sultan of Morocco invited the powers to a conference. Germany urges the powers, including France, to accept. Premier Rouvier's latest note shows the willingness of France to consider a conference if Germany explains her purposes but even should France decline to accept, this refusal of the invitation does not constitute a cause for war.

A diplomat summed up the situation by saying that the complete failure of the present negotiations would not mean war as the controversy then would proceed along new lines. It would doubtless lead to direct appeals to the sultan with a view of securing the upper hand in Morocco. While the pessimistic element forsees that Germany will seek a pretext for trouble, yet the actual state of affairs does not warrant such gloomy forebodings.

The controversy attracts all attention to the complete state of readiness of the French military system. The present peace footing of the army is 550,000. This force is organized on an elastic basis whereby the doubling and tripling of the strength of each company doubles and triples the aggregate army. The first and second reserves are made up of trained men who have completed the military service which the state requires all citizens to complete. The equipment of the reserves is always kept in readiness at the barracks. Military experts say that the calling out of the first reserves to the colors would probably furnish an immediate force approximately of *a million trained men* and thereafter the second reserves and the territorial militia would permit of much further expansion. The system of mobilization and equipment has undergone great improvement as the result of lessons learned during the last war.

Annual manoeuvres which constitute mobilization on a small scale are frequent and tests of mobilization occur at various districts in which the full strength of horses, wagons, trains and equipment are quickly assembled. This military preparedness has no direct bearing on the present German controversy but the military critics cite it as evidence that France is not likely to again suffer from the confusion and delay at the beginning of the last war.

La Liberte tonight began the publication of a series of articles from the frontier showing the excited state of public feeling and the activity of the military forces, which are alleged to be constandy drilling and undergoing inspection.

The tenor of the articles is similar to that of those that have appeared here before, which showed the high military spirit along the border, and the precautionary measures adopted on both sides to keep the forts in a state of preparedness.

The diplomatic situation remains unchanged as Germany has not yet presented her answer to the French note. Officials say the negotiations are taking the usual normal coruse without at present any indication of a marked change.

It is definitely known that the French ambassador to Germany was cordially received by chancellor von Buelow on Friday.

This is considered to be a most reassuring symptom of Germany's conciliatory intentions.

WINS TENNIS CHAMPIONSHIP

Philadelphia, June 24 — Miss Elizabeth Moore of the King's County tennis club, New York, today won the championship of the United States in the woman's singles by defeating Miss Helen Homans of the West Side tennis club, New York, 6-4, 5-7 and 6-1, in the final round of the tournament. Miss May Sutton, last year's champion is in England and lost the championship by default.

IMPOLTANT MINE DEAL

DOMINION COPPER COMPANY PURCHASES MANY CLAIMS

ACQUIRES INTERESTS OF THE MONTREAL & BOSTON CO.

(Special to The Daily News)

Phoenix, June 24—Definite information has been received here that the deal which has been pending for some time, and which was announced in The Daily News on Wednesday last, by which all the property of the Montreal & Boston Consolidated, is sold to the Dominion Copper company, Ltd., has been finally consumated in the east, and that the latter company now owns the Boundary Falls smelter, the Sunset and Morrison groups of mines in Deadwood camp, the Athelstan group in Wellington camp, and the important Brooklyn group of six claims in Phoeniz camp, besides an interest in some other claims. The Brooklyn group was owned by the Dominion Copper company, and an agreement had been made to purchase by the Montreal & Boston Consolidated, and close to $200,000 was paid on the agreement for about $480,000—the purchase price of the Brooklyn group.

While this was being paid in monthly installments during the last ten or twelve months, the properties here were actively operated and some 95,000 tons of ore taken out and shipped to the smelter from the Brooklyn and Rawhide mines. A month ago the smelter and mines were closed, pending a reorganization of the company in the east. This has now been successfully accomplished in Toronto and New York, and the Dominion Copper company will issue bonds to supply a large amount for development and take up outstanding obligations, according to the previously announced intentions.

While particulars as to all the officials of the new company have not been received here, it is known that D. D. Mann of Toronto, has been elected president and W. H. Moore, secretary. As to the operating officials, nothing is yet known. It is, however, well known to be the plan to resume operations at mines and smelter at no distant date, and to double the capacity of the reduction works as soon as possible, making it have a capacity of four blast furnaces, together with a converting plant.

CRESTON SCHOOL CLOSING

Successful Year Celebrated—Citizens all Take Part

[Special to The Daily News]

Creston, June 24—The public school here closed yesterday. The citizens gentrally took great interest in the event and attnded the ceremonis in force.

The promotion lists include the following: First to second primer, E. Din, W. Arrowsmith, W. Long; 2nd primer to 1st reader, S. Henderson, L. Timmons, E. Johnston; 1st reader to 2nd reader, E. Hendren, J. Duncan; 2nd to junior 3rd, E. Huscroft, J. Ryckman; junior 3rd to senior 3rd, E. Ryskman, E. Arrowsmith, J. Din, A. Hendren; junior 4th to senior 4th, G. J. Huscroft.

Honor rolls were awarded as follows: Proficiency, G. J. Huscroft; regularity, and punctuality, E. F. Arrowsmith; deportment, S. Henderson.

The school room was beautifully decorated for the occasion with flowers, flags and bunting. The school trustees were present and took part in the closing exercises. The secretary conducted an examination in mental arithmetic. An examination in freehand drawing was won by John Duncan. George Huscroft won the prize for arithmetic, and James Hunt one for spelling. Annie Ryskman was awarded a special prize for writng.

As the teacher, Miss J. Moore, is leaving for England to be married, a farewell address was read by E. Mallendaine, J.P., *and a silver coffee set was presented* by J. Hobden, both of the board of trustees. Speeches appropriate for the occasion, were made by J. Compton and E. Mallendaine. The closing ceremonies were attended by all the citizens of Creston, who joined heartily at the close in singng God Save the King.

BREAKING AUTO RECORD

Runs Over a Thousand Miles in Twenty-Four Hours

New York, June 24—Guy Baughan, who started yesterday at the Empire track at Yonkers in his second attempt to break the thousand mile automobile record, has covered 850 miles at 9:40 a.m. This is two hours, four minutes and fifty seconds ahead of the record established last april by Charles G. Wridgeway at Brighton Beach track. Vaughan completed the run shortly after 1 o'clock, breaking the record by two hours, sixteen minutes and forty-one seconds.

Vaughan completed the 1000 miles in 23 hours 33 minutes and 20 seconds, and at *the end of the 24th hour had covered* 1015 5-8 miles. The previous record for 24 hours made by Wridgeway was 913 miles.

AN EARLY MARRIAGE

Bellingham, June 24—On request of the parents of Emma Maybrick, 16 years of age, was arrested here when she arrived on the boat from Everett today. Taken to the police station she claimed she was married to a man living here under the name of Hary Smith. He was found by the police and produced a marriage certificate bearing the names of Frank B. Dirds and Miss Emma Smith, under which certificate the couple claimed to have been wedded when the girl was only 15.

HENLEY REGATTA

London, June 24—The entries for the Henley regatta this year constitutes a record, there being 57 against 44 in 1904. The entries for the Grand Challenge cup are the crews from Philadelphia, Christ college, Cambridge; the Belgian crew; Jesus college, Cambridge; the Leanders, and the London and the Thames boat clubs.

CELESTIALS IN EARNEST

Hongkong States Boycott on United States is Certain

Portland Chamber of Commerce Wires President Roosevelt Who Takes up the Case With Members of His Cabinet

Washington, D. C., June 24.—That the threats of the commercial guilds of China to boycott American made goods has raised a serious question in the minds of the United States business men and manufacturers, is indicated by a telegram received today by president Roosevelt from the Portland, Oregon, chamber of commerce. The president authorized the publication of the telegram, which follows:

Portland, Ore., June 23.—The president, Washington, D. C.: The Portland chamber of commerce respectfully urges immediate action on your part with respect to this country's relations with China, the first consideration being a regard for the nation's honor which demands a faithful and fair performance of its treaty obligations.

Secondly, our commercial interests are *seriously threatened by the severe* manner in which our present laws regulating the admission of the Chinese into this country are executed which seem, in their practical working, to contravene treaty obligations. We earnestly recommend that a more liberal interpretation of the laws be enjoined upon the immigration authorities and meantime the announcement of the appoinment by your excellency of a commission to enquire into the present exclusion laws and the method of their enforcement *with instructions to report to congress* such legislation as shall promote increased harmony between the two nations would have a beneficial effect.

We are advised today by cable from Hongkong that immediate action is necessary by our government or a boycott of American products will follow."

Portland Chamber of Commerce, per William D. Wheelwright, president.

The subject already is under consideration by the president and members of his cabinet and a solution of the problem, it is regarded, is certain to be worked out.

Secretary Metcalf had a long conference today about the matter with the president.

ROSSLAND IS SURPRISED

Felt Sure That the Amalgamation Was Going Through

Rossland, June 24—The news that the Gooderham-Blackstock syndicate had sold out its control in the War Eagle, Centre Star and St. Eugene mines to a syndicate headed by Messrs. Osler and Matthews of Toronto, who have associated with them in the deal Montreal and New York capitalists, caused considerable surprise here, as it was unexpected at a time when the proposed amagamation of the mines was in progress. The reason for the sale is thought here to be owing to the death of George Gooderham and the illness of T. G. Blackstock and the belief of the latter and the heirs of Mr. Gooderham, that such a course would prove to the best advantage of the other shareholders and to the miners and business men of the Kootenays for whom it is important that these mining interests should be controlled by people not only strong financially but in close alliance with one or the other of the great transcontinental lines.

The shipments for the week were as follows: Le Roi, 1930 tons; Centre Star, 1779; War Eagle, 1000; Le Roi No. 2, 90; Jumbo, 300; Spitzee, 30; Gopher, 60; Homestake, 30; total, 5210. The total for the year to date is 162,404 tons.

TREATING JEWS MORE KINDLY

But Russia Cannot Give Equal Rights To All.

St. Petersburg, June 24.—Emperor Nicholas last Wednesday approved of the recommendation of ministers of the revision of laws dealing with Jews. The committee was of the opinion that it would be detrimental to the interests of the remainder of the population to give Jews legal equality and might lead to outbreaks of popular ill-will.

It is therefore decided to leave the revision of the laws to the forthcoming representative assembly but recommended the appointment of a special official conference to consist of members to be nominated by the emperor and the representatives of the authorities to arrange the preliminaries.

LONDON MONEY MARKET

Somewhat Nervous Over the War Scares in Europe

London, June 24—The stock exchange early in the week lapsed into dullness and later was somewhat nervous over the position of the Moroccan question, which unsettled the continental Bourses and caused moderate selling here. The strong position of the bank of England, combined with cheap money and the fact that the majority of brokers here were not alarmed at the political situation, prevented any pronounced break. The decline in Paris checks allowed the supply of gold in the open market to be purchased for France instead of the bank of England. Americans were the brightest section of the market.

WARSAW EMULATES LODZ

SIMILAR SCENES APPARENTLY IN PROGRESS.

ARMED CONFLICTS BETWEEN MOB AND MILITARY.

Warsaw, June 24.—Riots commenced here tonight. The gendarmes charged a crowd and infantry patrols fired two volleys. Three men were wounded. The crowd was also armed and fired upon the troops. A secret police agent was stabbed.

Processions were formed at Pere and marched with red flags down Grsybowska street. At Wronia street a mounted patrol crossed the procession and one of the marchers threw a bomb which exploded and wounded two gendarmes. The man who threw the missile escaped. All the shops are closed and intense excitement prevails. Disturbances similar to those at Lodz are feared.

LOOKS LIKE ACQUITTAL

STAR WITNESS BREAKS DOWN AGAINST MITCHELL.

ADMITS SENATOR DID NOT RECEIVE MONEY CLAIMED

Portland,, June 24.—On the cross-examination of judge Tanner, former partner of senator Mitchell and the star witness of the prosecution, he admitted that the senator had warned him against ascepting compensation on behalf of the services Mitchell might perform in Washington, D.C.

He further admitted that the senator had never received the check from Kribs on which the claim of the indictment is based, and that he did no more for Kribs than for many other residents of Oregon from whom he received no compensation.

ACKNOWLEDGES A HITCH.

Washington at Last Sees Dimly the Russian Intrigue.

Washington, June 24.—In diplomatic circles Russia's delay in announcing her peace plenipotentiaries has aroused a feeling of apprehension. There is no lack of confidence on the part of the president in Russia's sincerity but this delay in the preliminary negotiations may have an exceedingly bad effect upon public opinion in Japan.

The visit of the French ambassador *to the White House yesterday* and his presence there again tonight at dinner leads to the belief in official circles that the assistance of France will be at the command of the president in expediting the negotiations.

In view of the fact that the negotiations thus far have for the most part been directly with the emperor, count Lamsdorff having been consulted about details rather than principles, members of the diplomatic corps are at a loss to understand why the illness of the min*ister for foreign affairs should block* the selection of the plenipotentiaries.

The European ambassadors and ministers at St. Petersburg, as a result of the feeling of anxiety in Washington tonight are being put on the lookout for developments there which may explain the delay.

STRIKE IN POLAND

Called in Sympathy for the Massacres in Lodz

Warsaw, June 24—The *social democratic* party of Poland and Lithuania has issued a proclamation calling out workmen as a protest to the Lodz massacres.

The men in the shops of the Warsaw and Vienna, and the Vistua railroads have struck.

MORE MEN FOR MANCHURIA

St. Petersburg, June 24—Preparations for mobilizing troops in the Moscow district have been completed. There will be a medical examination of 48,000 men, from whom 20,000 will be selected, not for service in the far east, but for incorporation in the reserves.

TROUBLE IN LIBAU

Libau, June 24—The convicts in the prison here mutinied today and with the assistance of a mob of roughs, demolished eight cells. The police and military restored order using their swords. Twe.ve persons were wounded.

JAPS GAIN A CRUISER

Tokio, June 24—The Japanese commander at Port Arthur reports that the Russian armoured cruiser Bayan has been successfully floated.

FIRE AT WINNIPEG

Winnipeg, June 25—Cortiss hall and several residences at McGregor are on fire at 3 o'clock this morning. The English church will probably be destroyed.

HAMBURG REGATTA

New York, June 24—John F. Mulcahy and William Harley, champion double scull oarsmen of America, sailed on the steamer Patricia today to compete in the Royal international regatta at Hamburg.

MONTREAL WINS

New York, June 24—Montreal defeated the Crescents at lacrosse at Bay Ridge today by a score of 7-5.

LONDON STILL BEING INVADED

London, June 24—During the past week the foreign invasion of London has surpassed all records. Every hotel is filled to its utmost capacity.

REVOLT IS RAMPANT

Poland Now Aflame With a Very Passion of Patriotism

Women and Children With Revolutionary Leaders--Appears to be Beginning of the End--Capital is Alarmed

Lodz, June 24.—Since the arrival of reinforcements this morning actual fighting in the city has stopped but the outbreak is by no means quelled and fresh collisions are expected at any moment. The city resembles a shambles and the terrible scenes of the last two days will never be wiped from the memory of the Polish people.

Altogether there are ten regiments encamped in Lodz. The fighting spirit of the people is fully aroused. They have tasted blood and want more. Certainly the revolutionary spirit is abroad and it remains to be seen whether the military measures will have the same effect as they previously did. Today at a suburb of Lodz four Cossacks were killed and 16 wounded by a bomb which was thrown into their barracks. Twenty-three of *their horses were killed.*

Occasional volleys are still fired by police or gendarmes in response to shots from houses. The soldiers are showing what appears to be wanton cruelty. Late this afternoon they shot and killed two women, a mother and her daughter. The funerals of the victims of the shooting of Tuesday and Friday took place today in various outlying villages.

It is quite impossible to give the exact number of killed and wounded, as reports vary according to the quarter from which they come. Certainly the killed will be over 100, possibly 200, and the wounded five times as many. An official report says that the number of casualties was largely increased by the neglect of persons to remain indoors, and who insisted upon looking out of doors and windows when volleys were being fired by soldiers on rioters. Residents of the city say they received no orders to stay indoors.

The present trouble began at Lodz last Tuesday after the funeral of the victims of the conflict between troops and socialists of the previous Sunday. The Christians were permitted to bury their dead, but the Jews were prohibited from doing so and the police secretly interred the bodies of the Jews at night, which excited the indignation of the socialists. Riots were initiated on Thursday. The most serious phase of it was when the crowd deliberately pillaged liquor shops and numbers of persons, inflamed by drink, led a crowd of at least 50,000 to further and more serious attacks. The police and military were attacked whenever they appeared in small force, and many individual members were killed. After pillaging liquor shops the crowd set fire to them and prevented the firemen from putting out the blaze. This was done deliberately at many times.

On Friday the fury of the mob found full vent and then children, caught by the contagion, were seen kissing red flags and heard swearing that they were ready to die for liberty. A Jewish girl mounted a box in the market square and addressed a large crowd. The police appeared and fired a volley and the girl fell dead. Market gardners coming in were stopped and their carts were used in building barricades. Wires were stretched in front of these barricades, and the cavalry were unable to charge. Meanwhile the mob had secured arms, and revolvers were freely used. Finally the military secured the upper hand but not without considerable losses to themselves and fearful slaughter to the rioters. *The soldiers exhibited* the utmost carelessness as to whether they killed peaceful persons or rioters and as a consequence many women and children were among the dead. The streets on Friday resembled a battlefield, the houses were barricaded with boards and mattresses and for hours volleys and individual firing was heard in every quarter of the city. Until late at night the Cossacks were busy collecting bodies of the dead and picking up persons seriously wounded. The bodies were carried off in carts to neighboring cemeteries. Socialists are energetically fomenting agitation among the soldiers by distributing revolutionary proclamations and pamphlets, but their efforts are without effects.

Shooting was renewed this evening. Cossacks are robbing the dead of jewels and money. A factory owner named Laumann has been shot by the strikers.

St. Petersburg, June 24.—The picture of Lodz "black Friday" fully as appalling as that of St. Petersburg's "red Sunday" is presented in the reports that are filtering into St. Petersburg with painful slowness. The number of dead and wounded is unknown here and the reports differ widely. An account taken to Warsaw by courier gives "several hundred" working people and six soldiers killed on Friday, while a despatch from Lodz to the official news agency says 20 persons were killed outright and 40 died from their wounds, and that 165 persons were wounded.

The despatch admits that there were other casualties, and it is thought here that a correct estimate is probably somewhere between these two accounts. That the situation is extremely serious and the feeling still tense, is shown by the despatching of a division of infantry and another of cavalry to reinforce the already large garrison at Lodz.

St. Petersburg, June 25.—(3.20 a.m.)—St. Petersburg is without a line of definite news of the happenings on Friday and last night at Lodz and there is the keenest apprehension that Saturday may have been marked by a renewal of the battle of Friday, the dead of which are apparently numbered by the hundreds.

Nothing approaching the disorders, which passed far beyond the scale of recent demonstrations and aproximated the dignity of actual insurrection, recalling the days of the Commune in Paris, has been recorded in Russia since the street fighting in Warsaw during *the Polish revolutions of 1830 and 1863.* The events of January 22 in St. Petersburg—"red Sunday"—were merely the dispersal of unarmed crowds by soldiers, but at Lodz the troops were desperately opposed by an army of 60,000 workmen, many armed with revolvers, defending substantial barricades with bullets and showers of paving stones and other missiles, and even bombs.

The city was largely in the hands of the rioters and the task of the troops was akin to that of the Russian soldiers in the war in Turkestan when towns had to be stormed street by street, almost house by house. The demolition of the barricades at Lodz required regular sapper work under the fire of revolvers and showers of missiles from windows of houses and by which the troops suffered heavily. The military governor had at his disposal four regiments of infantry and two of cavalry. The last barricades were taken at 4 o'clock Saturday morning. A despatch by way of Warsaw estimates the number of slain indefinitely at "several hundred" workmen and sixty soldiers."

WAGON ROAD TO McKINLEY

Absolutely Necessary For Proper Development of Mines.

(Special to The Daily News)

Grand Forks, June 24.—A special meeting of the Grand Forks board of trade was held yesterday afternoon in the city hall, president W. K. C. Manly, in opening the meeting stated that it had been called for the purpose of urging the provincial government to complete the wagon road to the McKinley mine in Franklin camp. There are yet some nine miles to build and the McKinley Mining company agrees to build some three miles of this leaving only six miles for the government.

A strong resolution was therefore moved by mayor Hammer, and seconded by Ed Davis urging the government to complete the road at once.

George A. McLeod, general manager of the McKinley Mining company, was present and stated that his company was prepared to spend $50,000 on the McKinley property if the road was completed at once so that machinery could be brought to the mine. He stated that it now cost $18 a foot to drive the tunnel, but he felt sure that upon the proper representations being made to the government through our local member, the necessary appropriation would be made. He further added that an expenditure now of some $5000 would complete the road. Secretary J. A. McCallum was instructed to forward a copy of the resolution to the chief commissioner of lands and works at Victoria, and also to Geo. A. Fraser, M.L.A.

PLAGUE AT PANAMA.

Fatal Case Reported Coming From South American Port.

Panama, June 24.—A fatal case of bubonic plague is reported to have occured at La Boca yesterday. The constant arrival of steamers from infected South American ports, which are received at La Boca without any extra precautions being taken, are thought to be the source of the contagion.

The dead man had been working on board the British steamer Chili, which the authorities at Guayaquil would not allow to enter that port. The companions of the deceased laborer have been isolated. Rats taken from the steamer Chili are now being examined at Ancon.

BOUNDARY MINES OUTPUT.

(Special to The Daily News)

Phoenix, June 24.—The ore shipments from the Boundary mines for the current week were:

Granby mines to Granby smelter, 12,518 tons; Mother Lode to B. C. Copper smeter, 3,584; Mountain Rose to B. C. Copper smelter, 264 tons; Emma to Nelson smelter, 381 tons; Oro Denoro to Granby smelter, 132 tons; Bonnie Belle to Trail smelter, 20 tons; Skylark to Granby smelter, 30 tons. Total for the week, 16,879 tons; total for the year, 442,038 tons.

Boundary smelters this week treated: Granby smelter, 12,660 tons; B. C. Copper smelter, 3,935 ton. Total for the week, 16,595 tons; total for the year, 453,945 tons.

DAILY SKIRMISHING

General Oku's headquarters in the field, June 22—Nothing important has recently occurred except the daily skirmishes between the outposts of the two armies. Hot weather has arrived and general Oku's entire army has been newly clothed in khaki.

ENDORSED BUSCOMBE

Vancouver, June 24 — By an almost unanimous vote the Vancouver property owners' association passed a resolution at a special meeting endorsing the stand taken by mayor Buscombe and the members of *the city council with regard to the dispute* with the Telephone company.

FORM NOT SUBSTANCE

Character of Parliament Graciously Created by Czar

Lower House the Humble Slave of Emperor and His Council. Have Not Power to Make Deliberations

St. Petersburg, June 25.—Russia's coming national assembly, if forecasts that are appearing in newspapers are correct, will be controlled by parliamentary machinery and procedure profoundly intricate and unworkable from the standpoint of western countries. Everywhere checks will be *introduced upon* the power of the Gosudarstvennaia Douma, or popular house of the legislative assembly, and arbitrary methods will be evolved for sweeping aside its objections when they become troublesome or too insistent. It measures fail to reach the council of the empire or the upper house within a certain time the consent of the lower house will be assumed to have been given. Bills introduced must be supported by 30 members and then go to the minister whose *department is affected, who exercises* a sort of preliminary veto power which can only be broken down by a vote of two-thirds of both houses and with the approval of the emperor. Even then, it will only have the effect to compel the minister to introduce a project of law to meet the views of the assembly within a year.

The lower house has not the power to initiate revenue legislation. The budget is to be introduced by the minister of finance annually on November 11th and must go through committee in ten days and be passed by December 5th. All items provided for in existing laws or relating to the established budget of the army and navy cannot be struck out and the machinery practically insures acceptance of the budget by providing for a motion for striking out an item to follow the same procedure as new legislation.

Throughout the council of the empire, nominated by the emperor, exercises a prepondering influence over the lower house. The president of each house is clothed with power not only to keep debate within bounds but to suspend sittings. Ministers are to be interpellated in camera and only such portions of proceedings in executive sessions may be published as the president approves.

Press representatives are limited to open sessions but their accounts are censorable.

WANT NO ARMISTICE

Proposal Not Favored By Neither Russia Nor Japan.

Washington, June 24.—Peace negotiations between Russia and Japan have come to a dead halt on account of the illness of count Lamsdorff, the Russian minister for foreign affairs. It is explained officially that nothing like a hitch has occurred.

Count Cassini called upon president Roosevelt today but he had no additional important advices from his government to communicate. They discussed informally the peace situation.

It is learned that up to this time suggestions for an armistice have not been received with absolute favor by either Russia or Japan.

NEWSPAPERS SUSPEND

Trouble is Brewing in Moscow As Elsewhere.

Moscow, June 24.—There was a demonstration here today by persons waving a red flag, but there was no bloodshed. Crowds are assembling in several localities east of the city and their attitude is menacing and the public is uneasy.

The working class is inflamed by the news of the massacre at Lodz and demonstrations are frequent. Workmen are wearing mourning for those killed at Lodz. All the street railways, except on the principal thoroughfares, have been stopped and the newspapers have suspended publication.

DESPATCHER IS BLAMED.

Jury Finds Fault With Train Orders in C. P. R. Accident.

Winnipeg, June 24.—The coroner's jury which was empaneled at Kenora to inquire into the causes of the fatal accident on the Canadian Pacific, has brought in a verdict blaming the Fort William despatcher or the operator at Rennie. The verdict is as follows:

"That the said John Perry and the said Martin F. Stacey came by their death by the collision of train No. 97 and an extra stock train at Kalmar, on June 20 at 16.53 o'clock, through the negligence of G. S. Morris, despatcher at Fort William, or of operator William Bowen of Rennie, or both."

FATALLY BURNED.

London, Ont., June 24.—William T. S. Lobb, foreman of the Canada Chemical *company, has been fatally burned by* falling into a vat of sulphuric acid.

THE PASSING OF GOODERHAM.

The passing of the Gooderham-Blackstock mining interests in this province, as stated in the special despatch from Toronto published in these columns yesterday, closes an eventful chapter in southern British Columbia's mining annals.

T. G. Blackstock, barrister of Toronto, a son-in-law and understudy of the late George Gooderham, came to Rossland in the fall and early winter of 1896. The Rossland boom of that period had attracted Mr. Blackstock's attention and he induced his father-in-law to enter the mining industry, an entirely new venture for the Toronto millionaire, who was, however, sufficiently wealthy to risk the experiment.

Drawn by the magic of Mr. Gooderham's name, many Toronto and Montreal people, most of them persons of moderate means, eagerly gobbled up the stock of the War Eagle and Centre Star companies when they were incorporated early in 1897. The Gooderham interest following a practice long adhered to, retained the control of both companies, but a generous public rushed up the balance of the stock, notwithstanding the heavy capitalization of both companies, to most extravagant figures.

In the summer of 1897 Mr. Gooderham personally visited Rossland for the first time, and a great future was predicted for the two properties named. It should be remembered to Mr. Gooderham's credit that at this time he raised a warning voice as to the inflated value of the stock. He did this through the medium of the Associated Press and a long and carefully prepared statement was sent out from Rossland to the Canadian press in the shape of a personal interview. The public simply laughed and declared that Gooderham wanted to keep a good thing to himself, and the stock went higher than ever.

One other instance of Mr. Gooderham's desire to do what he thought was right and just should be mentioned. His son-in-law had appealed to him to erect and operate a large departmental store, in Rossland at first, and later at other points in Kootenay branches were to be established. It was shown Mr. Gooderham that he would realize 12 per cent on his capital so invested, and the miners employed by his companies would be able to get the full benefit of good wages by being enabled to purchase all they required cheaply.

A site was secured in Rossland, a manager was engaged and a start was just about to be made when an appeal was made personally to Mr. Gooderham on behalf of the local merchants who proved to him that his intended venture spelled ruin to them. Once assured of this Mr. Gooderham immediately ordered that the matter be dropped, and although strong pressure was brought to induce him to go on with the project he declined.

The buying in of the control of the St. Eugene in East Kootenay came long after the start made at Rossland. When the collapse came over the Centre Star and War Eagle inflation, Gooderham turned his back on mining and Mr. Blackstock alone took personal charge. For some years Mr. Gooderham has not even been present at the annual meetings of the companies held in Toronto, and whenever any statement was made to the shareholders or the public, it was Mr. Blackstock who did the talking.

The deal by which the Gooderham-Blackstock interest in the War Eagle, Centre Star and St. Eugene has been transferred to Messrs. Osler, Hosmer and Matthews, is the natural result of Mr. Gooderham's death. Whatever he might have been willing to do, his heirs want the money coming to them and desire that the estate be freed from any further expenditure.

The total capitalization of the three companies is $9,000,000, made up as follows: War Eagle, $2,000,000; Centre Star, $3,500,00; St. Eugene, $3,500,000. The controlling interest in these three companies is what has now been sold for $825,000. A reorganization will probably take place and it is more than hinted at that capitalization of the new concern will be on a moderate basis, so that dividends may possibly be looked for in good time. The position of the St. Eugene mine is fairly well understood. The Centre Star company owns but the one claim, but it was asserted recently that the property could pay a dividend at the present time. The War Eagle company owns several properties on Red Mountain and elsewhere, but it will take time even with reorganization to get the mine in dividend paying shape.

One result of the combination just effected will probably be to end for the present, at all events, the proposed merger with the Le Roi company. It is understood that James Cronin will have the superintendency of the three mines. His policy is now pretty well understood and indications point to the opening of a new chapter in Kootenay mining under happier auspices than the one just closed.

EDITORIAL NOTES.

The citizens' committee are to be heartily congratulated upon the excellent program they have arranged for the last two days of this week on Nelson's annual celebration of Dominion Day. All the sports are well represented and while every interest has been carefully considered no favoritism has been shown. At first the committee was not supported as enthusiastically as the occasion deserved, but their labors have finally been rewarded. Fine weather is all that is now necessary to make the celebration wholly successful.

The Gooderham interest has passed out of British Columbia, but the name will be with us still—in spirit, if not in mining.

The fact that a carload of Nelson strawberries, as the fruit coming from this district is now known, was wired for from Winnipeg yesterday is proof that the local fruit has made good its footing in the Manitoba market. The fruit is in demand this year because it is the best obtainable and being properly packed arrives in good condition.

TALKS TO RETAILERS.

Advantages of Educational Advertising Examples of System.

Bargain day and special sale advertising is that class of publicity which takes advantage of general demand already created, and attracts because of price.

Selling goods because of attractive prices is a necessary part of every business because it is the means of bringing new buyers to your store. The advertising which increases the purchase of your present customers must be of a different nature. It must educate; it must affect the desires of your trade; it must make their necessities more numerous.

Educational copy is responsible for the enormous increase in both manufacturing and retail business. This creative advertising has made, the breakfast food, mineral water, coffee cereal, meat sauce, salad dressing, and a hundred other table necessities.

The first collar factory was established but 71 years ago. Custom tailors have been known in the United States but three or four generations. Talcum powder, tooth paste, and many other toil et preparations have sprung into daily use. The bicycle, automobile, piano player, and talking machines are examples of names unknown a few years ago.

Invention was the beginning, but educational advertising whether through newspaper advertising or magazine copy was the medium that made known these articles and their distinctive merits.

Educational advertising by the manufacturer has placed two packages in the pantry of every home where formerly there was one, two bottles on the boudoir table where but one was thought necessary before. It has placed the motor and touring car besides the carriage in every complete stable.

Educational advertising by the retailer has not been so strong a factor in the enlarging of his business as it has for increasing that of the manufacturer. One reason for this is readily attributed to the fact that the retail store is the house through which the manufactured article reaches the consumer.

There are, however, nearly as many if not more, possibilities for creative advertising by retail stores as by manufacturers.

You ask me now what you can place in your copy that will educate. It's a big question ,the possibilities of which must, in a large measure, be though out by yourself because of your knowledge of present conditions in your particular line of business.

The desire for many articles sold by grocers can be enlarged by appealing to the taste senses, by wording your advertisements in such a way that the reader can imagine she tastes their delicious sweetness. Mere names of fruit and the price cannot accomplish this.

When advertising articles of dress for children, appeal to the sense of pride mothers should have in dressing boys and girls properly.

The dry goods men should certainly have little instructive talks that tell of the proper styles and dictates of fashion for different occasions.

The haberdashers should show the practical uses of the articles he advertises, their wearing qualities and proper dress.

The restaurant man can appeal to family trade by advertising his sanitary methods of preparing his foods, the saving of work by the housewife, and the question of saving in living expenses.

The jeweler can show the style and propriety in wearing a stock pin with the man's cravat, and tell how different styles of pins will look with different kinds of ties.

And so in every line of business appeal to those senses which increase the variety of the customer's desires; give talks that will make the family of lesser means want those things the people of wealth consider necessities.

GERMANS ARE STUDYING

ROUVIER'S NOTE IS NOT EASILY ANSWERED.

BERLIN FEARS INDIGNATION OF THE FRENCH PEOPLE.

Berlin, June 24.—Foreign office officials are busy studying the French note on Morocco, the unusual length of which will necessitate delay in its answer. Emperor William's absence at Kiel, the foreign office says, will cause no delay in the negotiations inasmuch as he is duly informed on all points and his decisions are promptly given.

As the study of premier Rouvier's answer progresses, the fact becomes evident that he has left many points open to discussion, on which further negotiations can continue. The greatest difference now seems to be in agreeing whether Germany and France shall seek to reach a separate agreement before meeting a conference, thus eliminating many matters from international action. Germany apparently holds the view it would be an act of discourtesy to the powers which have already agreed to attend the conference if she arranged any matters beforehand with France.

Official circles here continue to follow the affair with keen interest, but without anything like excitement, much less bellicose inclinations. They watch closely the hovements of public opinion in France. While it is recognized that the French people at large have grown much less Chauvinistic toward Germany in the past few years corresponding to the waning influences of the nationalist clerical and military combination in French politics, anxiety still prevails in Berlin lest the leaders of the opposition to the French government again succeed in inflaming the passions of the people and arouse a storm which Republican leaders would be unable to withstand.

FRICTION STILL EVIDENT

Fear in Norway of the War Party in Sweden

Christiania, June 24—The feeling aroused in Stockholm against king Oscar and the Swedish government has caused some uneasiness here. There is anixety lest the riksdag should yield to and revoke the conciliatory policy outlined by king Oscar, but among those best informed it is believed the majority of the members of the riksdag will remain firm and follow up the policy of peace.

The movement among the Norwegians in the United States to petition president Roosevelt, asking him to recognize the independence of Norway, is favorably commented on here.

A despatch from Stockholm to the National Tidende says that president Ramstedt of the riksdag, has tendered his resignation, but that king Oscar, backed up by members of the cabinet, has requested him to withdraw it.

JUST WHAT EVERYONE SHOULD DO

Mr. J. T. Barber of Irwinville, Ga., always keeps a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy at hand ready for instant use. Attacks of colic, cholera morbus and diarrohea come on so suddenly that there is no time to hunt a doctor or go to the store for medicine. Mr. Barber says: "I have tried Chamberlain's Colic, Cholera and Diarrhoea Remedy which is one of the best medicines I ever saw. I keep a bottle of it in my room as I have had several attacks of colic and it has proved to be the best medicine I ever used." Sold by all druggists and dealers.

CANADIANS AND G. N. W.

IMPENDING DANGER TO OUR TELEGRAPH SYSTEM.

PREMIER PROMISES ALIEN LAW WILL BE CONSIDERED.

F. D. Monk brought up in the commons on Wednesday last, the question of what he described as "an impending danger to the Canadian telegraph system by the Americanizing of a portion of that system in violation of the provisions of the Alien Labor Act." He referred particularly to the Americanizing of the G. N. W. Telegraph company. About twenty years ago that system had been formed by interests controlled by the Western Union Telegraph company by an absorption of the Montreal, Dominion and Mutual Union Telegraph companies in this country. A certain dividend was guaranteed, and the new company had operated the system ever since. Not much attention was paid to it at the time but within the last two or three years the attention of the American capitalists interested had been directed anew and since that time they had undertaken to completely Americanize the system, and in doing so they were violating the Alien Labor Act. Mr. Monk quoted newspaper clippings relating to some of the appointments of Americans recently made by the company. These included the dismissal of Thomas Rodgers, chief operator at Montreal, and the probable withdrawal of manager Powell and the chief accountant; the appointment of I. McMichael, of Minneapolis as general manager, to succeed H. P. Dwight, and S. B. McMichael of Chicago, as superintendent at Toronto. The attention of the department of labor was drawn to this, but when they looked into it, S. B. McMichael was temporarily withdrawn, said to have been owing to illness. Later F. R. Carney of Chicago, was appointed manager at Ottawa, in place of Mr. Bethune, and Mr. Callaghan of Chicago was brought to Montreal as cashier. Several minor appointments had also been made, and he had been informed that it was in contemplation to bring linemen from Boston to Montreal to operate there in place of the present employees. Mr. Monk said it was not in the interest of Canadians that the service of that company should be placed in the hands of aliens, as he had indicated. If the law was being violated there should be a prompt remedy. If Mr. justice Anglin's decision was well founded it might be necessary for the government to make some changes in the law to protect Canadians. It was, of course, hostile legislation, but it had been commenced by the United States, and, as long as they enforced it, it was the duty of the government to protect labor in our own country.

Sir Wilfrid Laurier said it had been understood when the G. N. W. Telegraph company was incorporated that a large amount of American capital was being invested in it. It had not been, however, provided that a certain proportion of directors should be British subjects.

Mr. Monk interrupted to say he thought there was a provision that a majority of the directors should be British subjects. At all events there were only two American directors—I. McMichael and B. Brooke. The Canadian directors are H. N. Baird, W. C. Matthews, Adam Brown, James Hedley, and, until he died recently, Hon. Wm. McDougall. The board were not, however, consulted in regard to these changes.

"Then," commented sir Wilfrid, "these offences have been committed, or at all events sanctioned by the Canadian directors." Sir Wilfrid said there appeared to be a misapprehension in regard to the matter. From information which he had received only one of the officials mentioned by Mr. Monk had been replaced by an American, Mr. Bethune, at Ottawa. The others had all been replaced by Canadians. However, the government would look into the matter. "We had an alien labor law three days ago, but it is a question if we have one now," sir Wilfrid added, smiling.

"Is there no appeal from that?" asked Mr. Foster.

"The judge says not," observed Mr. Fitzpatrick.

"I am not sure; all these things will have to be looked into," the prime minister added. "It was taken in self-defence, and I hope we still have the act."

Mr. Monk concluded the discussion by repeating the firm belief in the truth of the statements made, saying there was no doubt about the facts.

NEW YORK FASHION LETTER

New York, June 24—It is safe to say that the dressmaker, particularly the one employed by the day, has had more complaints this season because of the length of time required for finishing gowns and the consequent size of her bills than for many a year. Handwork was never more lavishly employed on women's garments than now, although in recently passed seasons, it may have been more conspicuous. To take a simple gown and have it meet the requirements of the woman who demand perfect work, requires time. The sewing machine is of little use except for sewing seams in making the filmy afternoon and evening frocks that all summer girls and women must have. It cannot put on lace, it does not stitch ruching and puffs on well, it is not used for the tiny braids that are employed so abundantly, nor for a hundred other purposes that enter into the making of feminine frocks and frills in this fur-below period. Besides all the little shirrings with the pick-me-up heads, the hand-run pinch tucks that bedeck chemisettes and other accessories, the girdles that must have every line right or mar rather than beautify the costume, the hundred and one details that sink into obscurity in the finished work, all consume days where simple styles might want hours. The best dressmakers, like the best of all sorts of people, are not perfect, and even she loses time now and then by ripping out work in which she finds imperfect lines. There is only one way for a woman to become a just employer—to do the work once for herself and learn all the exigencies that it entails.

Ribbon trimmings are a very strong factor among this season's embellishments. Combined with the airy, supple materials of the season the effects of their glossy surfaces are one of the prettiest notes. In a charming gown of moussline and lace ribbon is an important detail, forming the girdle, swathing the waist and decking both it and the skirt with bows. The skirt has the dip at the back, and entrance wedge of the train, which, unless signs fail, will be back in full length before long. Skirts remain long at front and sides. The skirt mentioned has lace V's of alternating depth at front and sides. The summer dance frock is not the comfortable round skirt affair of last year. It has taken on a train, abbreviated still to be sure, but a train nevertheless that needs to be cared for.

The airy fabrics of the season are not at their best unless made in a way to appear fluffy when finished. For slight figures many of the skirts are shirred in several rows at the top, leaving tiny little heads to each row of the gathering. The petticoats for all the season's thin materials need to be plentiful and to be properly cut, fitting glovelike at the top and falling into voluminous ripples at their hems. Many a chiffon silk and satin mousseline gown is ruined in appearance through ill fitting or too few skirts under it.

The pointed bodice which began its revived career in the present fashions as an adjunct of evening toilets, is very much in evidence this season in any display of costumes that has any claim to elaborateness. Prophets, indeed, are predicting that before the effect leaves the old fashioned basque will again reappear. As yet, however, there is no more evidence of such a return than there was a year ago, when some ultra-fashionables actually appeared with severe tailormades, which had bodices cut on the plan of the pointed basque.

The girdle is having a prolonged vogue and in the majority of pointed bodices it is it, in effect or in fact, which gives the point at the front. The point on this season's gowns is now exaggerated in sharpness and depth, as it was in the evening gowns some months ago. Evening gowns, in fact, have lost much of the antique steeled stomacher effect which prevailed when the pointed bodice and girdle first came back into use.

Silk petticoats that do not cut through or wear out after a few weeks' use have at last been discovered and are being made of China silk as fast as the manufacturers can turn them out. When women realize that these can be laundered like nainsook, and that they last until literally lorn out, China silk skirts will be generally worn.

Synopsis of Regulations for Disposal of Mineral on Dominion Lands in Manitoba, the Northwest Territories and the Yukon Territory.

Coal—Coal lands may be purchased at $10 per acre for soft coal and $20 for anthracite. Not more than 320 acres can be acquired by one individual or company. Royalty at the rate of ten cents per ton of 2000 pounds shall be collected on the gross output.

Quartz—Persons of eighteen years and over and joint stock companies holding free miner's certificates may obtain entry for a mining location.

A free miner's certificate is granted for one or more years, not exceeding five, upon payment in advance of $7.50 per annum for an individual, and from $50 to $100 per annum for a company, according to capital.

A free miner, having discovered mineral in place, may locate a claim 1500x1500 feet by marking out the same with two legal posts, bearing location notices, one at each end on the line of the lode or vein.

The claim shall be recorded within fifteen days if located within ten miles of a mining recorder's office, one additional day allowed for every additional ten miles or fraction. The fee for recording a claim is $5.

At least $100 must be expended on the claim each year or paid to the mining recorder in lieu thereof. When $500 has been expended or paid, the locator may, upon having a survey made, and upon complying with other requirements, purchase the land at $1.00 per acre.

Permission may be granted by the Minister of the Interior to locate claims containing iron and mica, also copper in the Yukon territory, of an area not exceeding 160 acres.

The patent for a mining location shall provide for the payment of a Royalty of 2 1-2 per cent of the sales of the products of the location.

Placer Mining—Manitoba and the N.W.T. excepting the Yukon Territory—Placer mining claims generally are 100 feet square; entry fee, $5; renewable yearly. On the North Saskatchewan River claims are either bar or bench, the former being 100 feet long and extending between high and low water mark. The latter includes bar diggings, but extends back to the base of the hill or bank, but not exceeding 1000 feet. Where steam power is used claims 200 feet wide may be obtained.

Dredging in the rivers of Manitoba and the N.W.T., excepting the Yukon Territory—A free miner may obtain only two leases of five miles each for a term of twenty years renewable in the discretion of the Minister of the Interior.

The lessee's right is confined to the submerged beds or bars of the river below low water mark, and subject to the rights of all persons who have, or may receive entries for bar diggings or bench claims except on the Saskatchewan River where the lessee may dredge to high water mark on each alternate leasehold.

The lessee shall have a dredge in operation within one season from the date of the lease for each five miles, but where a person or company has obtained more than one lease one dredge for each fifteen miles or fraction is sufficient. Rental $10 per annum for each mile of river leased. Royalty at the rate of two and a half per cent collected on the output after it exceeds $10,000.

Dredging in the Yukon Territory—Six leases of five miles each may be granted to a free miner for a term of twenty years, also renewable.

The lessee's right is confined to the submerged bed or bars in the river below low water mark, that boundary to be fixed by its position on the first day of August in the year of the date of the lease.

The lessee shall have one dredge in operation within two years from the date of the lease, and one dredge for each five miles within six years from such date. Rental $100 per mile for the first year and $10 per mile for each subsequent year. Royalty same as placer mining.

Placer Mining in the Yukon Territory—Creek, gulch, river and hill claims shall not exceed 250 feet in length, measured on the base line or general direction of the creek or gulch, the width being from 1000 to 2000 feet. All other placer claims shall be 250 feet square.

Claims are marked by two legal posts, one at each end, bearing notices. Entry must be obtained within ten days, if the claim is within ten miles of a Mining Recorder's office. One extra day is allowed for each additional ten miles or fraction.

The person or company staking a claim must hold a free miner's certificate.

The discoverer of a new mine is entitled to a claim 1000 feet in length, and if the party consists of two, 1500 feet altogether, on the output of which no royalty shall be charged, the rest of the party ordinary claims only.

Entry fee $10. Royalty at the rate of two and a half per cent on the value of the gold shipped from the Yukon Territory to be paid to the Comptroller.

No free miner shall receive a grant of more than one mining claim on each separate river, creek or gulch, but the same miner may hold any number of claims by purchase, and free miners may work their claims in partnership by filing notice and paying fee of $2. A claim may be abandoned and another obtained on the same creek, gulch or river, by giving notice and paying a fee.

Work must be done on a claim each year to the value of at least $200.

A certificate that work has been done must be obtained each year; if not, the claim shall be deemed to be abandoned, and open to occupation and entry by a free miner.

The boundaries of a claim may be defined absolutely by having a survey made and publishing notices in the Yukon Official Gazette.

Petroleum—All unappropriated Dominion Lands in Manitoba, the Northwest Territories and within the Yukon Territory are open to prospecting for petroleum, and the Minister may reserve for an individual or company having machinery on the land to be prospected, an area of 1920 acres for such period as he may decide, the length of which shall not exceed three times the breadth. Should the prospector discover oil in paying quantities, and satisfactorily establish such discovery, an area not exceeding 640 acres, including the oil well, will be sold to the prospector at the rate of $1 an acre, and the remainder of the tract reserved, namely 1280 acres, will be sold at the rate of $3 per acre, subject to royalty at such rate as may be specified by Order in Council.

J. S. CARTER, D.P.A., Nelson. W. P. F. CUMMINS, Gen. Agt., Winnipeg

The Mainspring of the body

Health Depends On The Blood—and "Fruit-a-tives" Insure Pure, Rich Blood.

Correct time hinges on the mainspring of your watch. Gold cases and jeweled monograms look handsome—but it is the homely old steel mainspring that sends you to work on time, and prevents you from missing the train.

Blood is the body's mainspring. People lose arms and legs—eyes and ears—even the entire stomach. But you've got to have good red blood, to have good health. Fruit-a-tives give it to you.

Just see how necessary the blood is. Every organ in the body depends on the blood for its nourishment. It supplies gastric juice to the stomach to assist digestion. After food is properly digested, it takes up nourishment from the intestines and builds up flesh and strength. Prick the skin at any point, and blood will flow.

But—if the bowels don't move regularly, they keep food there until it decays—ferments. Instead of blood taking up nourishment, it carries this decaying matter—poison—all over the body.

The stomach wants clean gastric juice and gets poison.—

—indigestion, sour stomach, heartburn, coated tongue.

The kidneys want pure blood to help them, and get poison

—pain in the back and then kidney disease.

The muscles want nourishment so they can grow strong. They get poison instead

—rheumatism and sciatica

The blood makes a vain effort to get rid of the poison and carries it to the skin

—pimples, blotches, sallow complexion.

Fruit-a-tives clean the stomach, and make sure that food is digested properly. They go after the lazy liver—and stop those "bilious attacks." They tone up the bowels—strengthen and invigorate them so they move regularly every day. They keep the kidneys working properly. With all the impurities of the body gotten rid of as Nature intends, there's none left to taint the blood.

That is the Fruit-a-tives way of cleansing and purifying the blood—and it is the only way to get the pure, rich blood that every man and woman and child must have to be well and keep well.

—if you have not your healthy color

—if pimples and blotches mar the complexion

—if the skin is sallow

—if the head aches

—if the tongue is coated and breath bad

—if the stomach is all upset

—if there is distress after eating

—and especially if Constipation is becoming chronic, start NOW on Fruit-a-tives.

One 50c box of Fruit-a-tives will show you how easily and quickly these troubles can be cured, now that you know the right remedy to take. Your druggist has them.

Fruit-a-tives

Purify the blood because they first of all cure CONSTIPATION, which is at the root of the trouble.

"I find Fruit-a-tives to be the best medicine I have ever taken for my trouble. I have been a sufferer from Constipation for five years and until I used Fruit-a-tives, could find nothing that did me any permanent good. Other remedies helped for a time but the trouble always returned. I find the Fruit-a-tives pleasant to take, and instead of increasing the dose as I had to do with all other medicines, I have steadily lessened it. One Fruit-a-tives tablet every two nights is sufficient now to make my bowels move regularly each day. All my visitors now hear about my new cure for Constipation."

Mrs. L. KINDREY, Treherne, Manitoba.

Manufactured by FRUIT-A-TIVES LIMITED, OTTAWA.

Carnefac Stock Food IS THE BEST

NOW I notice a decided improvement in the cultivation of tobacco in Cuba.

The soil is artificially fertilized and the plants regularly tended by experienced men to keep down the destructive caterpillar—and keep the plant nipped back so that only as many leaves are left on the plant as nature will allow it to properly mature—consequently the quality of the tobacco has so improved that when I buy the well matured and well cured leaves I obtain the choicest smoking material the world produces.

J. BRUCE PAYNE, Limited, Granby, P.Q.

The celebrated Broadleaf, grown in Connecticut, I use as binder, and a genuine clear leaf Sumatra, I import from Amsterdam, Holland, completes my Pharaoh and makes it a delicate, charming smoke.—J.B.P.

SLOCAN AND LARDEAU

NEW POPULAR MINING CONCERNS INCORPORATED.

ORE SHIPMENTS AT KASLO AND OTHER NOTES.

In its weekly mining notes the Kaslo Kootenaian says that the lessees of the Jo Jo on the north fork of Carpenter creek shipped another car of rich ore last week.

Robert Macpherson is working steadily on his property on the north fork of Carpenter creek.

The lessees of the Payne shipped two more cars of ore to Nelson last week.

The lessees of the Mountain Boomer, near Silverton, are working on a nice body of ore rich in ruby silver.

The Flint mine on the south fork of Kaslo creek has a fine body of ore partially developed which the lessees have struck in two tunnels. In the lower tunnel it is much richer and wider than in the one above. It is the intention of the lessees to add a few more men to the force at the mine. They will also contract two miles of tunnel without delay.

The contract of B. Cortiana for the continuation of the Rambler long tunnel has been cancelled by the company on account of not making speed enough and the company will continue the work by day labor.

Tom Hawes, one of the lessees of the Whitewater mine reports that the returns from a recent shipment of 21 1-2 tons of silver-lead ore, averaged 110 ounces silver and 45 per cent lead.

The official administrator, J. F. Armstrong, Cranbrook, is calling for tenders for the interest of Archie Campbell, deceased, in the Liddie Burton, C. P., Little Jem, and Copper Queen mineral claims on Hamill creek. Tenders will be received up to noon, July 3rd.

D. Cosgrin has received a letter from G. S. Hawthorne, of Goldhill, stating that while doing rock work on the Cascade trail some very rich gold float was found on his claims, the Morning and Drumlomon, which adjoin the famous Swede group at Poplar. Enclosed with the letter was a small package of crushed quartz rock in which particles of pure gold—some as large as a pin's head—could be easily seen with the naked eye.

Theo. Adams is down from the Miner Boy. This property is located on the north fork of Carpenter creek above the Jo Jo and just across the divide from the Silver Glance. Adams Bros. own a half interest and have taken a lease on the other half. The work of packing in supplies to the property has been completed and work commenced immediately in driving the tunnel. They have one man besides themselves at work and intend to put another man on as soon as the work will permit. The ore is a very rich dry ore similar to that of the Jo Jo and other properties in the same locality. Mr. Adams reports many properties working on Carpenter creek and the district, including Whitewater, Sandon and Cody.

M. J. Halpin reports have shipped 35 tons of zinc ore from the Whitewater mine last week to Kaslo and has now over 100 tons of zinc stored at the sampler, besides 100 tons which have already been shipped to Pueblo, Colorado.

The Swede, Lucky Jack, Poplar Creek Mining & Development Co. has been incorporated in Spokane with a capital stock of $150,000. The incorporators are W. B. Pool, M. C. Conley, Charles P. Glenn and Philip O'Connor. The company will operate properties at Poplar.

The Laclede Mining Company, Ltd., has been incorporated with a capital of $150,000. This company is composed of parties who recently purchased the Mother Lode at Poplar, and will work that property. The directors elected are, president, H. I. Wiegar, Laclede, Idaho; vice-president, W. F. Henderson, Spokane, Wash.; secretary-treas., E. L. Masterson, of Poplar; managing director J. Y. Cole, Poplar; A. Hansen, Poplar; Andrew Christensen, Spokane. F. C. Elliott, of Trout Lake, was appointed solicitor for the company.

The shipments of ore through Kaslo for the week were as follows: Slocan Star, zinc concentrates to Pueblo, 195 tons; M. J. Halpin (Whitewater mine) to Kootenay Ore Co., 41 1-2; Reco to Nelson, 16 1-2; Rambler to Nelson, 24; Majestic to Nelson, 20; J. McNeil to Nelson, 4 1-2. Total 301 1-2 tons.

INTERNMENT IS POSITIVE

But Certain Liberties Allowed to Enquist at Manila.

Washington, June 24.—In response to a request cabled the war department by the governor general of the Philippines on behalf of the Russian admiral Enquist, to be allowed to return his sick and wounded officers and men upon giving their parole not to engage in hostilities during the war and to be allowed to bring certain material for repairing damaged ships, the secretary sent the following cable:

"You may allow Russian admiral to embark his sick and wounded officers and men on Russian hospital ships, daily expected, upon their giving parole not to engage in hostilities during the war. You may also allow them to bring from Shanghai material for repairing vessels, such as cordage, sailcloth, waste and old for machinery, etc., but the vessels are still to remain in internment."

CUBAN DIARRHOEA

U. S. soldiers who served in Cuba during hte Spanish war know what this disease is, and that ordinary remedies have little more effect than so much water. Cuban diarrhoea is almost as severe and dangerous as a mild attack of cholera. There is one remedy, however, that can always be depended on as will be seen by the following certificate from Mrs. Minnie Jacobs of Houston, Texas: "I hereby certify that Chamberlain's Colic, Cholera and Diarrhoea Remedy cured my husband of a severe attack of Cuban diarrhoea, which he brought home from Cuba. We had several doctors but they did him no good. One bottle of this remedy cured him as our neighbors will testify. I thank God for so valuable a medicine." For sale by all druggists and dealers.

NICHOLAS IS DISGUSTED

Washing His Hands of the Whole Manchurian Adventure.

St. Petersburg, June 24.—The announcement of admiral Alexieff's retirement was not accompanied by the usual rescript of praise and it bears all the earmarks of imperial displeasure. The retirement of grand duke Alexis as high admiral and of Alexieff as viceroy of the far east and the suppression of the far eastern committee, in quick succession, is the best evidence that Japan could need that the emperor has washed his hands of the whole Manchurian adventure.

LAME SHOULDER

There are three common ailments for which Chamberlain's Balm is especially valuable. If promptly applied it will save you time, money and suffering when troubled with any one of these ailments. For sale by all druggists and dealers.

JAPAN IS STUBBORN.

No Armistice Till Certain Matters Are Settled.

Washington, June 24.—M. Takahira, the Japanese minister, called at the White House tonight and conferred with the president for three quarters of an hour. When he left he was asked if there were any developments regarding an armistice between the armies of Japan and Russia. Mr. Takahira would not discuss the question but suggested that there were "some matters to be settled first."

SPRAINED ANKLE, STIFF NECK, LAME SHOULDER

There are three common ailments for which Chamberlain's Balm is especially valuable. If promptly applied it will save you time, money and suffering when troubled with any one of these ailments. For sale by all druggists and dealers.

In store for those who have never tried Clark's Lunch Tongues. They are delicately seasoned, good to use.

THROWS BLAME ON JAPAN.

Refusal of Armistice Means Sacrifice of Lives.

St. Petersburg, June 24.—M. Witte had a long conference with the emperor on Tuesday. A prominent Russian statesman who is convinced that peace will be the outcome of the Washington meeting said to the Associated Press today:

"Japan can surely no longer doubt the sincerity of the emperor's desire to conclude peace. Admiral Alexieff's retirement marks the final rout of the war party. For Japan to refuse an armistice and force another big battle now would make her responsible for the wanton sacrifice of thousand of lives."

BIG WINNIPEG SHEARING

Winnipeg, June 24—Fifteen miles east of Sterling, 75,000 sheep have been gathered for the shearing. Forty men will be engaged a month at the work.

Lever's Y-Z (Wise Head) Disinfectant Soap Powder is a boon to any home. It disinfects and cleans at the same time.

Newbro's Herpicide

VACATION TIME — Vacation time should bring rest, recreation and comfort; and comfort of the solid and pleasing variety means no high collar, no stiff hat and no—itching scalp. It is for this last discomfort that Newbro's Herpicide becomes a summer necessity, as it stops itching of the scalp and Prickly Heat almost instantly. Take Herpicide with you on your vacation.

SCALP WARNING—Itching of the scalp is not so much a punishment for past neglect as it is a warning for the future. It shows, almost conclusively, that the vinelike, microbic growth that causes dandruff, itching scalp and falling hair has entered the Sebaceous glands and unless this growth is stopped and kept out of scalp, baldness will follow.

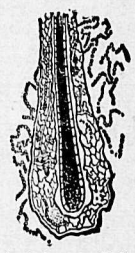
DANDRUFF IS CONTAGIOUS—The discovery by professor Unna (ask your doctor about him) that dandruff is a highly contagious disease, is now recognized by dermatologists everywhere. This important discovery, not only proves the worthlessness of "hair growers," but it offers an opportunity for scientific hair preservation, in the use of Newbro's Herpicide, the original remedy that "kills the dandruff germ."

WILL NOT GROW HAIR—Newbro's Herpicide is a "Hair Saver," it will not grow hair—nature does this—but by destroying the enemies of hair health, it enables the hair to grow as nature intended—except in chronic baldness. Save your hair with Herpicide. Wonderful results follow its use.

HOT WEATHER TROUBLES—During hot weather the minute sudatory glands of the scalp are called upon to perform an extra amount of labor. The perspiration that exudes in increased quantities must be handled promptly as it carries out poisonous and refuse matter that would otherwise clog up the pores of the scalp. Incomplete elimination of refuse matter produces a hot and feverish condition of the scalp, familiarly known as Prickly Heat, for which Herpicide gives immediate relief. Ladies will find Herpicide indispensible. It contains no grease, will not stain or dye. It is an exquisite hair dressing that COOLS, COMFORTS and DELIGHTS.

Destroy the cause—you remove the effect.

A Healthy Hair.



An Unhealthy Hair.

See Window Display at

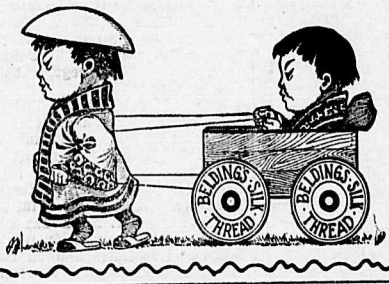
Canada Drug & Book Co.

Send 10c in stamps to The Herpicide Co., Dept. L., Windsor, Ont.

Make Sewing Easy.

The woman, who does her own sewing and embroidery, should insist on having Belding's Silks. They sew smoothly, easily—because they are free of kinks and knots. They won't break—because they are all pure, tough silk, evenly twisted and spooled.

Belding's Spool Silks



are the result of 40 years experience in making embroidery and sewing silks. When you buy Belding's, you get the best silks for hand and machine work.

At all dealers.

JACKSON HAND POWER ROCK DRILL

OVER 1000 IN USE

Choosing a Watch

Choose a watch as you would a friend—slowly, carefully, wisely. Its a good plan to shop around—visit all the jewelry stores in town—look up the pedigrees of stores and watches—make a note of qualities and prices. You will find at our stores, watches from America's highest grade factories—you will find watches at the lowest reasonable prices—You will find that our stores have a reputation as large as the Kootenays for square dealing.

NELSON'S NEWS OF THE DAY

The Imperial Bank of Canada is opening a branch at New Liskeard, Ont.

At the recreation grounds yesterday afternoon the Amateurs defeated the Crescents at baseball by a score of 18 to 8.

All members of No. 2 company R.M.R., are requested to parade at the armory tomorrow evening at 8 o'clock, when a special company meeting will be held.

The city band gave a concert from the Ward street bandstand last evening in place of the one that should have been given on Wednesday night.

Next Thursday evening a concert will be given by the pupils of St. Joseph's school to celebrate the beginning of their summer holidays. They will produce two one act plays, "The Dwarfs," and the "Train to Maurow." The rest of the program will consist of drills and choruses.

W. Kynoch and Mrs. Kynoch, who have spent several months in Nelson visiting their daughter, Mrs. A. L. McCulloch, leave tomorrow morning for their home in Galt, Ont. Mr. Kynoch has lived in many parts of North America and thinks Nelson's climate is the finest of all.

The Associated Press yesterday sent out a message confirming the sale of the Gooderham-Blackstock mining interests in the west to a syndicate of C.P.R. directors, as set out in a special despatch to The Daily News the day previous. Another special despatch to this paper received last night also confirms the first report and adds that the price paid, $825 000, carries with it real estate and government bonds aggregating half a million dollars.

E. C. Reeder, mining engineer, who has just been appointed representative of Allis-Chalmers-Bullock, Ltd., in this city, is a native of Michigan and received his education in the public schools of that state. He graduated later from the Michigan College of Mines, as a mining engineer, and supplemented his college work with courses in the Massachusetts Institute of Technology. He has several years' practical experience in Montana after graduating, where he worked as a miner and smelter man in the mines and smelters of Butte. Later he went to Utah, where he held responsible positions as foreman and engineer for several of the large mining and smelting companies of that city.

TRAMWAY PARK LAND

Editor The Daily News—The Fairview property to which the Royal Lumber Co., Ltd., holds indefeasible certificate of title, includes all the land between the railway and ordinary high water from a point some distance west of the park to Roberts' ranch on the east. The company's shore line is approximately attained by the present stage of the water, so that a landing at the park at the present time would probably have to be made on company's land. No application for foreshore rights, that is, for the land between ordinary high and low water has ever been made nor is there one in preparation. The assumption that anyone on behalf of the company has ever claimed such rights is merely one of the numerous questionable prerogatives that appear to belong to John Houston by sufferance of the community. The park tract extending from the tramway entrance to the Gilchrist place, containns 3.2 acres, more or less, and the entire property on both sides of the railway, 21 acres more or less. All streets and alleys within its boundaries have been closed by order of court. This property cost the company in the neighborhood of $13,000 nearly a year ago, since which time it has produced in revenue a grand total of $4. The above are statements of fact, the verity of which may easily be ascertained by anyone not hopelessly insane.

As to the bonus bylaw. I think the people are well enough acquainted with that ill fated instrument, and also with the subsequent attempts of the city council to dictate the policy of the company; certainly no explanation of these matters is due from the company or myself.

The vested interest of this "spectral" company in the West Kootenay district are worth over $200,000, and, needless to say, its members, most of who are more or less well known here, are substantial and honorable business men, not political mountebanks, fakirs and grafters. So far as my personal connection with the company is concerned, it is sufficient for the people to know that I am authorized to handle the Fairview property, including the park, as my judgment dictates. It is because I have dared to make an effort to secure from the city council a recognition of the company's unquestionable rights with respect to the park, that the cauldron of venom, always at boiling point in a certain quarter, is being ladled out.

In conclusion, I have to say, in all sincerity, that I regret exceedingly that the pleasure or convenience of the people is in any way involved, and would timidly suggest that while I shall brook no disregard of the company's rights, the difficulty could probably be speedily adjusted if approached in the proper spirit. The remedy is in the hands of the people.

J. F. MUSSELMAN.

Nelson, June 24, 1905.

SENTENCE TEN TRAMPS

City Council of Fernie Discusses Water Question

(Special to The Daily News)

Fernie, June 24—The recent robberies and holdups have led to a rounding up of all characters unable to give a satisfactory account of themselves. Fourteen of these appeared before the police magistrate, who convicted ten of them and discharged four. The majority of these vagrants claim to have come from Calgary, which leads to the belief that the authorities of that city have been active in clearing their municipality of all undesirables.

A meeting of the Fernie city council has been called for Monday morning at 9 o'clock to discuss the water service before any further steps are taken by the municipality in the direction of municipal ownership. The water service at present is given by the coal company and the water is taken from Coal creek. The intention of the council was to discuss at the next public meeting of the council, the question of putting debentures on the market in conformity with the bylaw recently approved by the ratepayers.

RUSSIANS MARKING TIME

PEACE NEGOTIATIONS SAID TO BE PROGRESSING.

LINEVITCH DECLARED NOT TO BE SURROUNDED.

St. Petersburg, June 24.—Information from the front is still scanty, while preliminaries are in progress and general engagement not yet begun. General Linevitch's lastest report is dated June 20th, but the Associated Press despatches from Godzyladani records reconnaissances in force against the Japanese right on June 21st. Rumors continue to circulate that Linevitch is surrounded but apparently they have no other base than the London Daily Telegraph despatches from Tokio. An optimistic feeling prevails at the offices of the general staff.

Negotiations for the meeting of the peace plenipotentiaries are proceding slowly. No developments today.

Foreign minister Lamsdorff is still ill and unable to see ambassador Meyer but they may hold a conference tomorrow. It is improbable that an armistice will be arranged until the plenipotentiaries have been named and time of meeting is fixed. The foreign office says it is now awaiting Japan's proposals on these points.

In connection with the present peace movements the newspapers are recalling that half a century ago there was much talk of Aemican mediation to end the Crimean war. St. Petersburg Zeitung reprints a despatch of June 24, 1855, conecting the arrival of former presidents Fillmore and Vanburen in London with a report that they were about to offer American negotiation between Russia and the western powers.

GRAND FORKS NEWS NOTES

Two Cases of Appendicitis—East Kootenay Coal

Grand Forks, June 24—J. Patterson, a young man residing on the Bassett ranch, some two miles from this place was thrown from his bicycle a couple of days ago and had his left arm fractured.

Andrew Hackett, of East Kootenay coal fame, arrived here yesterday. In speaking to your correspondent, Mr. Hackett said: "We have a deal on at present for the coal claims, the purchasers being Americans. When this is done, everything will come out all right."

Assistant electrician B. Clark of the Granby smelter, who was recently attacked with a severe form of appendicitis, left yesterday for California for medical treatment.

Linda McRae, the eight year old daughter of Peter McRae of this place, was another victim of appendicitis this week and was successfully operated on yesterday by Dr. Kingston at the Cottage hospital, and is now doing as well as can be expected.

Judge Leamy, accompanied by Mrs. Leamy returned yesterday from a month's visit to the coast cities.

FOOTBALL IN EAST KOOTENAY

Cranbrook, June 24—A close and exciting game of Association football was played here yesterday afternoon by the teams of Cranbrook and Fernie. Both teams displayed good form and a game well worth watching resulted. At the call of time the score stood one all. Two more quarters were played before the deciding goal was scored by Fernie.

In the evening the visiting team was entertained at a banquet at which many prominent citizens were present. Many pleasant remarks were made on the perfect good nature which is a notable feature of the rivalry in athletics between the two towns.

SIR CHARLES TUPPER RECOVERING

Montreal, June 24.—A special London cable says sir Charles Tupper has almost completely recovered. He has been able to pay several visits to his friends in London, but he has still to be careful, however, and refuses all evening engagements.

MAIL CONTRACT

SEALED TENDERS, addressed to the Postmaster General, will be received at Ottawa until noon, on Friday, the 14th July next, for the conveyance of His Majesty's Mails, on a proposed contract for four years, twelve times per week each way, between the Creston Postoffice and Crow's Nest Pass Railway Station, to commence at Postmaster General's pleasure.

Printed notices containing further information as to conditions of proposed contract may be seen and blank forms of tender may be obtained at the Postoffice of Creston, and at the office of the Postoffice Inspector.

Postoffice Inspector's office, Vancouver, B. C., 2nd June, 1905.

JOHN R. GREENFIELD.
Postoffice Inspector.

WHOLESALE SLAUGHTER

FIGHTING RENEWED AT LODZ BY THE STRIKERS.

COSSACKS TAKE A TERRIBLE REVENGE ON THE MOB.

Lodz, June 24.—Yesterday, "black Friday" in Lodz, surpassed all the horrors of "red Sunday" in St. Petersburg. While it is not yet possible to ascertain the exact number of victims, estimates place the killed and wounded as high as 2000.

The troubles here were initiated by the social democrats and Jewish bund, who determined to avenge their comrades killed in the rioting on Wednesday. Thursday the Feast of Corpus Christi passed off quietly, but during the night workmen attacked the patrols. In this fighting two officers and seven Cossacks were killed. One of the latter was shot by a girl of 13 years. At dawn on Friday commenced a day of terror. The city was given up to bloodshed and anarchy, and fierce street fighting prevailed all day. Barricades were hurriedly constructed in the Jewish quarter at dawn. Men climbed to the tops of houses, cutting telephone and telegraph wires to use for entanglements in the streets, while others cut down telegraph poles and used them in strengthening the barricades which already had been constructed, and in bunding others. Early in the day two bombs were thrown from the crowd into the barracks, killing or wounding 20 soldiers. This started the shedding of blood, which continued until after nightfall.

At 11 o'clock the factory hands struck and flocked into the streets. Cossacks, dragoons, and infantry charged the mob time after time, firing volley after volley into the crowd. The crowd returned the fire, while their comrades on roofs and in windows joined in the fusillade.

Some dashed vitriol from points of vantage upon the troops in the streets below. The burning fluid drove its victims into a frenzy, and led to scenes of a horrible character. Fighting continued throughout the day, and only diminished in its intensity at nightfall, when the city was plunged into utter darkness as practically all the street lamps had been destroyed. Even then occasional volleys and isolated rifle shots were heard in different quarters, the troops having received orders to shoot any person appearing in the streets. The dead were carted off to the cemeteries in military wagons, the troops acting as undertakers; but this morning many dead and wounded were lying in the streets and courtyards. Terrible indeed is the plight of the wounded, for medical aid is unobtainable, and many are dying for the lack thereof. There was a renewal of the bloodshed this morning. A regiment of dragoons and one of infantry have been ordered here from Warsaw.

All the hospitals of the city are filled to overflowing and owing to the insufficient number of beds, many wounded persons are lying on the floors. All the shops, stores and factories are closed, and business is at a complete deadlock. Rioters this morning attempted to fire the government offices, but were scattered by a strong force of troops.

Casualties up to noon today were 18 killed or wounded in addition to yesterday's appalling total, which was as far as ascertainable, 430 killed outright. Forty-one more died in the hospitals during the night. Of wounded only 32 sustained slight injuries.

GOODERHAM MINES.

Associated Press Confirms Deal From Toronto.

Toronto, June 24.—The largest mining deal in the history of Canada was consumated yesterday when the control of the War Eagle, Centre Star and St. Eugene mines of British Columbia, passed into the hands of a group of capitalists largely representatives of railway and smelting interests of the west. The price paid for the stock was $825,000. Among Toronto capitalists are E. B. Osler and W. D. Matthews, and the Montreal member of the new directorate will probably be C. R. Hosmer.

GUN CLUB TOURNAMENT

SERIES OF SHOOTING CONTESTS TO BE HELD DOMINION DAY

RULES TO GOVERN EVENTS—SCORES OF YESTERDAY'S SHOOT

The Nelson gun club is preparing for the biggest shooting tournament ever held in Kootenay. Secretary George Tierney said yesterday that invitations were being sent to all the crack shots of neighboring towns who are known, and that any others who arrive will be welcome.

Two cups and merchandise prizes to the value of $200 are already available for prizes. As there is a balance in the club's treasury and the celebration committee has appropriated $25 for the tournament, no difficulty is anticipated in making the event entirely successful.

For several weeks past various members of the club have been working to improve the traps, which are now considered in good condition.

At the regular weekly shoot held yesterday afternoon the scores were as follows: Blackwood, 19; Brassfield, 18; Monk, 17; Porter, 6; Ink, 15; Irwin, 11; Robinson, 4; Elliot, 15; J. Thompson, 8; de Veber, 6; Tierney, 12; Macdonnell, 7; Drewe, 15; Ward, 7; Brassfield, 10; Tierney, 10.

The program for the tournament has been arranged as follows:

FRIDAY

First event, 25 targets, Patenaude cup and purse of $25; the cup to be shot for from year to year, the purse to be divided 40, 30, 20 and 10 per cent.

Second event, 15 targets. First prize, hunting boots, donated by R. Andrew and company; 2nd, set of G.B.D. pipes, donated by G. B. Matthew; 3rd, fountain pen, donated by Canada Drug and Book Co.

Third event, 20 targets. First prize, gold locket, donated by J. Fred Hume; 2nd, picture, "Ready for the Hunt," donated by the Standard Furniture company; 3rd, umbrella, donated by Emory and Walley.

Fourth event, 10 targets. Sweepstakes, entries 50 cents; divided according to the number of entries.

Fifth event, 15 targets. First prize, silver flask, donated by Ewert Bros.; 2nd, box of Kootenay Standard cigars, donated by J. C. Thelin; 3rd, fancy razor strop, donated by W. Rutherford and company.

Sixth event, 15 targets. First prize, set of carvers, donated by the Nelson Hardware company; 2nd, shooting sweater, donated by J. A. Gilker; 3rd, necktie, "The Latest," donated by Brown and company.

SATURDAY

First event, 25 targets. Ashdown Hardware company cup and purse of $25, the cup to become the property of any gun winning it two years in successi n; the purse to be divided 40, 30, 20 and 10 per cent.

Second event, 15 targets. First prize, dress suit case, donated by Fred Irvine and company; 2nd, Bissel's carpet sweeper, donated by D. J. Robertson and company; 3rd, box of cigars, donated by the Queen cigar store.

Third event, 20 targets. First prize, gold locket donated by the Dominion Cartridge company; 2nd, pair of wading boots donated by the Hudson's Bay company; 3rd, a year's subscription to The Daily News.

Fourth event, 15 targets. First prize, set of three brushes, donated by the Bell Trading company; 2nd meerschaum cigar holder, donated by W. A. Thurman; 3rd, two pints of Mumm's donated by Pither and Leiser.

Fifth event, 10 targets. Sweepstakes, entries 50 cents, to be divided according to the number of entries.

Sixth event, 15 targets. First prize, a fancy vest, made to order for the winner, by Taylor and McQuarrie; 2nd, two pewter mugs, donated by J. J. Walker; 3rd, box of Royal Seal cigars, donated by the Kootenay Cigar company.

The following rules and regulations will govern:

The tournament will be shot at the grounds of the Nelson Gun, the first event each day to begin promptly at 2 p.m.

Blue Rock targets will be used.

Shooting will be over one set of expert traps. All events will be shot with known traps and unknown angles.

All ties of cash prizes will be divided; ties for trophies will be shot off, miss and out.

A referee will be appointed, whose decision shall be final.

The official score shall be kept on score sheets..

Targets will be charged for at the rate of two cents each, in advance of each event.

Professionals and manufacturers' agents are invited to shoot, but may not compete for prizes.

The committee in charge is composed of W. A. Ward, C. H. Ink, and C. D. Blackwood.

VISIT OF MINING ENGINEERS

Local Members of Profession Will Entertain on Lake and River

On Tuesday morning the members of the American Mining Institute will arrive in Nelson by special train over the Great Northern railway. The train is expected to arrive between 7 and 8 o'clock. There will probably be about 100 visitors, many of the members being accompanied by their wives.

At 10:30 a.m. the visitors will become the guests of the local engineers and mine managers. The steamer Kaslo has been chartered for a trip to Procter and a sail on the main lake. Luncheon will be served on board. Returning to the city about 4 o'clock the party will take a special train to Bonnington Falls, near which supper will be served in picnic fashion if the weather conditions permit. Several hours will be spent enjoying the beauties of Kootenay river. The city will be reached again about 9 o'clock.

The excursionists will leave by special train about 11 o'clock for Rossland, where they will spend the following day. A letter of welcome from the board of trade will be presented when the party arrives on Tuesday morning but no formal reception will be tendered.

REMANDED TILL MONDAY

J. Deering Pleads Guilty to Charge of Entering Room and Stealing

In the police court yesterday morning before magistrate E. A. Crease, James Deering was accused of entering the room of W. Bathgate in the Madden house during Friday evening, and stealing a quantity of personal property.

The accused asked for instructions as to the pleas he might enter and the various modes of trial from which he might choose. Finally he pleaded guilty and elected for summary trial by the magistrate. He asked for a remand to Monday to allow him to bring witnesses as to his previous good character. The request was granted.

All that can be learned of Deering's career is that he has been a railway employee on the C.P.R. and that he worked for a short time early in the spring at one of the Sandon mines.

CHURCH SERVICES

Anglican—St. Saviour's church, corner of Ward and Silica streets. First Sunday after Trinity; holy communion, 8 a. m.; morning prayer and litany, 11 a. m.; children's service, 2:30 p.m.; evensong, 7:30. Rev. F. H. Graham, rector.

Catholic—Church of Mary Immaculate, corner of Ward and Mill streets. Low mass at 8 a.m.; high mass at 10:30 a.m.; evening service, 7:30 p.m. Rev. Father Althoff, priest.

NELSON'S NEWS OF THE DAY

John Boultbee of Rossand, is among the guests at the Strathcona, having arrived from Rossand last evening.

At the evening service in the Baptist church today the solo, "Flee as a Bird," will be sung by Mrs. E. H. Shanks.

Garfield A. King, principal of the Cranbrook public school, arrived in Nelson last evening en route to the coast.

Died—On Saturday morning, June 24th, at Nelson, Robert Courtenay, infant son of Robert Wetmore and Louise M. S. Hannington.

Melville S. Parry, Blake Wilson and Max McSwain returned to the city last evening from business trips through East Kootenay.

Mrs. E. Johnson, sister of W. Davis, foreman of the C.P.R. shops at Nelson, left Friday evening for a visit to her parents at Vancouver.

C. Fernau of Frank, manager of the zinc works now nearing completion, arrived in the city last evening, and is at the Strathcona.

The Nelson baseball team left for Rossland last night to play there today. Holland and Blanchard will be the battery for the Nelson team.

G. L. Pedlar, principal of the Fernie public school, arrived in the city last evening. He will spend several days here and the rest of his summer vacation in the Similkameen.

The Knights of Pythias will hold memorial services today and decorate the graves of deceased brethren. All members of the order are requested to be at the lodge room at 10 o'clock this morning.

All members of the Nelson choral society are requested to attend at the K. of P. hall tomorrow, Monday evening, at 8 o'clock for the rehearsal of the Rose Maiden cantata for Saturday evening's production.

There will be no band concert in Kootenay Lake park this afternoon, Bandmaster F. L. Irwin has received notice from F. J. Musselman, representing the Royal Lumber company, that the land is private property.

Rev. F. H. Graham and Mrs. Graham leave by the Crow boat tomorrow morning for a visit to Mrs. Graham's home in Montreal. Mr. Graham will probably make a brief visit to England during the summer. They will return to Nelson early in September.

The program of the Nelson gun club for the celebration, printed elsewhere in this issue is an extensive one and quite the most ambitious effort ever attempted in the Kootenays. In addition to providing good sport it should prove one of the best drawing cards for the celebration.

CHESS TOURNAMENT

Ostend, June 24—The chess experts began playing the tenth round of the international tournament in this city this morning. When time was called Wolf had beaten Tuebenhaus and Janowski had disposed of Leonhardt. The games between Blackburn and Schlecntar and Marco and Marshall were drawn. The other games were left unfinished to be resumed this afternoon.

In the afternoon session Tschigorin went down before Teichmann; Burns lost to Tarrasch and Allin was beaten by Marcozy. The latter thus maintains the lead of half a point over Janowski and Tarrasch, who have each scored seven points, while Marcozy's score reads 7 1-2.

NOTICE

All members of Nelson lodge, No. 25, K. of P. are requested to meet at Castle Hall, Vernon street on Sunday, June 25th at 10 a.m., for memorial services. Visiting members are cordially invited.

R. G. Joy, C.C.

DOMINION DAY DETAILS

Meeting of General Committee Last Evening for Final Decisions

An important meeting of the Dominion Day celebration committee was held in a private room at the Athabasca saloon last evening between 8 o'clock and midnight. There were present J. J. Malone, F. Starkey, F. Bosquet, J. A. Kirkpatrick, E. J. Grown, G. W. Bartlett and J. Dover.

It was resolved to sub-divide the program of sports so as to make one man responsible for each department The arrangement resulted as follows:

Lacrosse, baseball, football, J. J. Malone.

Foot races and Caledonian sports, E. J. Brown.

Greasy pig, horse races, mule race, F. Bosquet.

Firemen's sports, miners' sports, tug of war, Jacob Dover.

F. Starkey announced that the grand parade on the morning of Dominion Day would include all the school children, a squad of the Rocky Mountain Rangers, and two veterans of the British army with the colors.

It was decided that the original program for basketball should be adhered to, and the event was left in the hands of C. M. Fraser. The event is scheduled for 10:30 on Saturday.

In the rock drilling contests only miners of Yale and Kootenay, who have worked as miners for 60 days of 1905, are eligible.

The prize for the lacrosse tournament is a cup, valued at $50, donated by J. J. Walker.

A request from the intermediate baseball team for $25 for expenses to bring a team of the same class from Trail to Nelson, was favorably considered and left over for final decision until Monday.

The meeting was quite harmonious and ended in a general agreement on all details.
