DEMAND FOR THE MILITIA

Employers Fear Police Cannot Cope With Riotous Strikers

Streets of Chicago Crowded With Unruly Mobs--Mayor Dunne Claims Order Can be Preserved

Chicago, May 3.—The first rifle shot fired during the teamsters' strike went whizzing through a crowded thoroughfare today. The shot was fired by a guard on a wagon of the United Express Company while he was passing through a crowd of strike sympathizers at State and Randolph streets. The driver of the wagon reined his horses suddenly. A guard within the wagon poked his head from the wagon and seeing a street car conductor stooping as though to throw a missile, fired. No one was hit. The conductor was throwing a switch.

Rioting in the streets today was so prolonged and so fierce that a committee of members of the employers' association left for Springfield to request governor Dineen to call out the state troops.

The mobs that filled the streets in the business quarters today were larger and uglier in disposition than those of yesterday. There was fighting in all parts of the downtown quarter throughout the day and a dozen times policemen were compelled to use their clubs, and wagon guards with heavy canes swung them whenever they were threatened. There were a number of instances where mobs boarded street cars and attacked people sitting within them, giving as a reason later, that they were strike breakers. W. Jamieson and Edward Bosweil, the latter a negro medical student were two sufferers of this class. Up to seven o'clock tonight a score of men have been taken to hospitals with all sorts of injuries. Besides there were fully two score who were injured in the various fights of the day and whose names could not be learned. The total injured is estimated at 75.

Mayor Dunne declared the emergency has not arisen requiring the presence of troops and chief of police O'Neill says he is confident he has the situation under control.

Despite the orders of mayor Dunne, many wagons of concerns against whom strikes have been declared were handled today by men armed with rifles and shotguns.

The request of the employers made today that the police be allowed to ride on their wagons was refused by the chief of police.

MayorDunne said tonight: "We have by no means reached the limit of resources. I am empowered to call in every able bodied citizen over the age of 18 years. If necessary I could call in the hundreds of employees of the water pipe extension department as they are employees of the city, and sworn to protect its interest. This would give a large additional force. There are also a large number of ex-militia men in Chicago to whom I could appeal. In fact, I find I could get plenty of men of good character who would be willing to respond to a call to preserve peace. I do not want to humiliate our city in the eyes of the world by saying that we cannot preserve order in our streets. When we must cry for help, when we find ourselves unable to cope with the situation then the appeal to the state or the national government should be made. But for the honor of Chicago the city should not make this application until its resources are exhausted."

Chicago, May 3,—Riotous scenes this afternoon were witnessed by hundreds of persons from windows in the Great Northern and Majestic hotels, the Marquette Faid and other structures. The cause was the delivery of coal from wagons to the Majestic hotel.

The wagons on leaving the hotel under heavy guard were followed by excited thousands, hooting and yelling defiance at the wagonmen and their escort. Turning east into Madison avenue, the wagons were halted in front of McVickers' theatre. F. K. Buckminster, a private detective, who furnished the escort, was here recognized, attacked and beaten, together with the greater part of his men. The attack became so fierce that the guards were forced to seek refuge in the express building. When, finally, under redoubled police convoy, the colored teamsters reached Michigan avenue, where another running fight ensued for several blocks, through the crowded shopping district. Policemen, arriving in many patrol wagons as the result of the riot calls, charged the mob. The fight lasted for many minutes, during that time many persons who had no part in the fight were struck. With the help of the police the wagons in the end reached their stables, completing one of the most exciting trips made during the present strike.

Brutality in the strike today began with a fight and a panic in a crowded street car. Two men mistaken for strike breakers were assaulted and so severely beaten that they had to be taken to a hospital.

The affair occurred on a Twenty-sixth street car at Stewart avenue. The victims are Edward Boswell, a colored medical student, and W. Jameson, also colored. The men who committed the assault escaped.

The shooting occurred at Franklin and Madison streets, when a caravan manned by colored drivers and guards were attacked by a big crowd. The negroes opened fire at once. Harry Williams and Fred Smith, white men, seated on a paper-laden wagon, narrowly escaped death. A bullet passed through Williams' coat and another through Smith's hat. After the shooting the caravan proceeded on its stormy route.

While driving a wagon load of coal at Franklin and Madison streets Jos. Scott, a non-union colored driver, was shot in the right shoulder.

Each driver of the F. E. Scott Transfer and Teaming Company was accompanied by a man armed with a rifle. Two policemen followed each wagon.

"I am going to operate my wagons at any cost," said Mr. Scott, "if more rifles are required to protect my drivers, I have plenty in store."

Employees on wagons of the United States Express Company today wore revolvers in holsters at their sides. Deputy sheriffs armed with rifles acted as escort to fourteen delivery wagons of the Siegel Cooper Company.

In one of the street riots were Isaac and Samuel Ferter, brothers, of Mendola, Illinois, who had just left the Great Northern hotel. They met a crowd of negroes following a wagon and escort and were attacked. Many other disinterested pedestrians had the same experience.

A joint meeting of the executives of the employers' association and the employing team owners' association discussed the question today: "Can the police control the situation and bring about the free resumption of business or ought troops to be demanded at once?"

The conservative members of the association thought the police appeared to have control of the situation. Those who favored a demand for state troops declared that the longer a settlement of the strike was delayed, the more inflamed the public mind would become and that more serious out-breaks than had yet taken place might be expected.

T. C. Carlson, who has had charge of the auto trucks for Montgomery, Ward & Company, where the strike first started, was probably fatally injured in front of the teamsters' union headquarters today by a brick thrown from a window.

He was picked up unconscious and taken to a hospital. He has concussion of the brain.

A rifle man on a wagon owned by the Adams Express Company held at bay a crowd of one thousand persons at Jackson boulevard and the Chicago river. As the wagon proceeded without police guard along Jackson boulevard toward the river, a crowd rapidly gathered. The appearance of the rifle man in the rear of the wagon kept the mob at a distance until the wagon reached the Jackson boulevard bridge, where a stop was necessitated by an open draw. The crowd quickly increased and finally a rush was made toward the wagon. Rifle at shoulder, the man calmly stood up and commanded the mob to stop. This they did at once and later dispersed, while the wagon disappeared across the bridge.

There is practically no sea food to be had in Chicago. Produce commission men are facing a loss amounting to hundreds of thousands of dollars. No express goods were received by the produce merchants today. All the green goods and fruit they received came by freight, which meant a loss in perishable goods, because the fruit and vegetables deteriorate in transit.

HILL ON FREIGHT RATES

PREDICTS REDUCTION TO HALF CENT A TON PER MILE

WITNESS BEFORE SENATE COMMISSION ON INTERSTATE COMMERCE

Washington, May 3—James J. Hill, president of the Great Northern railway, was heard today before the senate commission on interstate commerce, Mr. Hill said there was only one safe basis on which a low rate could be had and that was the cost of producing the transportation. The value of the service is determined by the density of the traffic and that makes the rate. Rates vary with conditions.

Discriminations were necessary, declared Mr. Hill. Speaking of the great tonnage of the railroads, Mr. Hill warned the committe to be careful and not cripple the mittee to be careful and not cripple the selves," he added, "because before you got down to us there would be a great many corpses about the country."

He spoke of the congestion of freight at eastern ports and said business was going to the Gulf, although shipping rates to Europe from the Gulf were very much higher. Roads east of Chicago would have to raise their rates in order to get means to build more extensive terminals.

He told of the shipment of locomotives from Philadelphia to Yokohama by his company at a rate equal to what another company charged for transporting locomotives 500 miles. "This is a case," he remarked, "for the interstate commission to take up and investigate. They would find somebody was charging too much."

"Give the roads fair treatment," said Mr. Hill, "and in 20 years I think the rate would come down to half a cent a ton per mile."

WORK RESUMED ON ALICE

Manager John Hampson Considers the Outlook Bright

John Hampson, manager of the Alice mine, near Creston, and his brother, Jas. Hampson of Chester, England, arrived last evening and are at the Hume. Of the operations of the mine Mr. Hampson said: "The Alice was closed down all winter. It is high up on Goat mountain and there is too much frost to permit of winter operations. We reopened a little after the middle of March and have been working ever since. There is no particularly new development. The mine is fulfilling its promise and everyone interested in it is quite satisfied. It looks at least as well now as it ever did.

TRIBUTES TO SUTHERLAND

Late Minister of Public Works Eulogised by Party Leaders

Laurier and Borden Testify to His Noble Qualities---Parliament Adjourns for the Funeral

(Special to The Daily News)

Ottawa, May 3.—Hon. James Sutherland, minister of public works, died at his home in Woodstock at 2 o'clock today. He had been ill for several months.

When the house met today sir Wilfrid Laurier said he had received a telegram announcing the death of Hon. James Sutherland. It was with the greatest difficulty that the premier made the announcement. So visibly affected was the first minister that he was hardly able to control himself.

"I have to say," said Laurier, "that in the death of Hon. James Sutherland I have lost one of the truest friends I ever had."

He said Sutherland was a valued member of the house and he could not meet the views of the house better than by asking that when it adjourned tomorrow it should remain adjourned until Monday next to permit of the members attending his funeral. Laurier finished with an eloquent tribute to his true and valued friend.

The leader of the opposition spoke of the friendship which had existed between himself and Sutherland since 1896, when he (Borden) first came to Ottawa. He referred to the work of the committee on which he and Sutherland were engaged in in regard to the redistribution of constitutencies, and remarked that what otherwise might have created considerable feeling was disposed of quietly through the tact and kindness of the deceased.

The motion to adjourn for the funeral carried, after which Fitzpatrick, minister of justice, resumed the debate on the autonomy bill.

MAN AND WIFE SUICIDE

DEAD BODIES FOUND IN FIELD IN SUBURBS OF BLACKPOOL.

WERE ABOUT TO LEAVE ENGLAND FOR PHILADELPHIA.

Blackpool, England, May 3.—The bodies of Robert Rushton Shaw, an Englishman who formerly lived at Burnley and inherited a small fortune from his father, and his wife Elizabeth, to whom he was married in Philadelphia about five years ago, were found in a field in the suburbs of this town early today. Both had been shot and there was a revolver beside the bodies. It is believed to be a case of double suicide. It is stated that the couple intended to sail today for the United States on a visit to Mrs. Shaw's mother in Philadelphia. They leave two children. The tragedy unfolds a pitiful story. After five years of happy marriage, it is alleged, Shaw discovered a fortnight ago that his wife was involved in an intrigue two years before her marriage. According to the story he taxed her with the offense and as a result of her admissions he told her to prepare immediately to sail for Philadelphia, leaving their children at Blackpool. They started on Tuesday, seemingly reconciled, but Shaw's mother was suspicious and caused neighbors to follow them. Shots were heard and the bodies were discovered, Each was shot through the mouth. The indications being that it was by mutual agreement, the woman having carefully remove dher hat and placed it beside her husband on the grass. A double ticket for New York by the steamer Majestic was found in Shaw's pocket.

FERNIE SEWERAGE SYSTEM.

Fire Boss Charged With Breach of Coal Mines' Regulations Act.

(Special to The Daily News)

Fernie, May 3.—Geo. O'Brien, fire boss in No. 9 mine, Coal Creek, was charged on the information of Thomas Morgan, inspector of mines, with having violated the Coal Mines' Regulation Act by lighting a shot in No. 9 mine with a lucifer match, the act providing that a shot shall not be fired except by a shot lighter's lamp of a pattern approved of by the inspector, or by an electrical firer or other means approved by the inspector, O'Brien entered a plea of "not guilty." Inspector Morgan appeared for the government, E. P. Ecstein for the United Mine Workers of America, and Mr. Herchmer for the defence, A number of witnesses were examined on both sides. Hearing adjourned.

Col. Tracy, C. E., of Vancouver, is at present engaged in laying out a system of sewage for this city as it at present stands, but it will be capable of extension. The sewage will be conveyed into septic tanks where it will be filtered and thence conveyed to the Elk river. Preparation of the plans will take about a week and will give the data on which to frame an estimate to be submitted in the form of a by-law for the approval of the ratepayers.

DOCKET FILLING UP.

List of Criminal Cases for Assizes—Civil List Incomplete.

Five civil cases were set down for trial at the spring assizes yesterday. More applications will be made before judge Forin today and tomorrow. Notices of motion for juries have been filed in connection with several of the civil cases.

There are four criminal cases to be tried, those of T. H. Atkinson for arson, Antonio Fera for perjury, J. Roberts for attempt to murder, and J. Regan for robbery.

The civil docket is still incomplete and is likely to be a very long one. Sittings begin Tuesday morning, May 9th, probably before chief justice Hunter.

ROBLIN VS. ROGERS.

Winnipeg, May 3.—A battle is raging between premier Roblin and Hon. Rogers for supremacy in the local cabinet. So acute has the crisis become that politicians look for a dissolution of the cabinet any day. Rogers has embarked on an anti-Catholic agitation. Premier Roblin is opposed to the bringing of religion into politics, but he stands alone in the cabinet. Rogers has the support of McFadden, Agnew and Campbell.

TO ENCOURAGE FINE ARTS.

Paris, May 3.—M. Jusserand, the French ambassador at Washington, has advised the foreign office that James Stillwell, of New York, the banker, has given $100,000 to establish prizes for the school of fine arts here.

THIRTY VICTIMS BURIED

CUSTOMARY FUNERAL SERVICES NOT PERMITTED.

WARSAW STILL IN CONDITION OF INSURRECTION.

Warsaw, May 3.—A large crowd of students and others assembled during the afternoon in the neighborhood of the old house once occupied by the Polish patriot Kalinski, a prominent figure in the revolution of 1794, and attempted to start a demonstration but they were dispersed by Cossacks, who freely used their whips. The bodies of thirty victims of Monday's shooting were removed at three o'clock this morning from the police station to Brudno cemetery. Police and soldiers closed the streets around the station during the removal and arrested several loiterers. The committee of the social democratic party of Poland and Lithuania has issued a circular urging everybody to observe tomorrow as a day of general mourning because the police did not permit the bodies of those killed in the disturbances of May 1st to be buried with proper ceremonies.

St. Petersburg, May 3.—In order to avoid exciting the populace and possibly creating sympathetic trouble in Russian centers, the newspapers have been forbidden to publish accounts of the rioting in Poland.

St. Petersburg May 3.—Reports of slight disturbances in various places of European Russia during Easter Monday are now coming in. The gravest occurrence in that part of the empire was at Militopol, where a mob for several hours held high carnival and burned a portion of the town.

At Nishni Novgorod a regular battle occurred between soldiers and the crowds on Millionaire street. The soldiers fired, killing one person and wounding many.

The reports received by the embassies here substantially agree in saying that the number of persons killed at Warsaw Monday was forty to fifty. The figures given of the wounded vary from sixty to two hundred.

EXCHANGE NAVAL VISIT.

Brest, May 3.—The naval authorities here have received information to the effect that the French fleet will visit Spithead during the Cowes week in return for the visit which the British fleet is to pay to Brest.

The coming exchange of naval courtesies has occasioned the liveliest satisfaction here, and it is common knowledge that no effort will be spared on the part of the French authorities to make the Brest visit a pronounced success. Great activity is being displayed in the arsenal here in fitting out and repairing French war vessels.

CASHIER GOLT IS CAUGHT.

Chicago, May 3.—Henry G. Golt, absconding cashier of the First National Bank of Milwaukee, was arrested at the Dakota hotel here today. He had been at the hotel four days and was registered under the name of A. C. Smith. Golt was arrested by detectives who tracked him from Milwaukee, The missing cashier made no protest when arrested. He said he was willing to go back to Milwaukee. He refused to be interviewed and was taken to Milwaukee late today.

C. P. R. EARNINGS.

Montreal, May 3.—The Canadian Pacific Railroad Company's statement of earnings and expenses for the month of March, just issued show that the net profits for the month amounted to $1,182,827.04, against $850,854.28 for the same month last year. The gain in net profits for the past month over the same period last year is therefore $331,-972.76.

JURY AGAIN DISAGREE

Nan Patterson's Third Trial Ends as Did Two Former

Show Girl Completely Prostrated by Unexpected Climax--Not Likely Case Will be Tried Again

New York, May 4th, 2:30 a. m.—Having failed to reach a verdict and declaring that they were hopelessly disagreed the jury in the Nan Patterson case was formally discharged at 2:30 this morning. The jury was given the case at 1 o'clock yesterday and after deliberating 12 hours came into court at 1:30 this morning and informed recorder Goff that they had failed to reach a verdict. The jury declined the recorder's offer of service on any point of law regarding which they might be in doubt and were sent back to continue their deliberations.

At 2:20 o'clock the jury again entered the court room where the recorder and other court officials were in waiting and the foreman announced that they had failed to agree on the verdict. He added that their disagreement seemed hopeless of adjustment. Upon this announcement recorder Goff formally discharged the 12 men composing the third jury that has considered this celebrated case. It is understood that a majority of the jury was for acquittal, but in what proportion they stood cannot be ascertained.

Miss Patterson collapsed on the jury's announcement and fainted dead away.

She was assisted from the court by one of her counsel and several court attendants and revived in the anteroom.

On the second return of the jury, recorder Goff made a personal appeal to the foreman to endeavor again to reach a verdict. The foreman entered the jury box and polled the jurors in open court but they were not able to agree. The recorder then asked them again if there was not some point in law or something he could do by which they might be able to reach a verdict, but the jurors remained steadfast and finally declared their verdict a disagreement.

Recorder Goff, before dismissing the jurors, cautioned them not to tell how the stood. Future procedure in the case is uncertain. It has been intimated by the district attorney's office that the people probably would not attempt another trial. Should this be the case, Miss Patterson would be released either in nominal bail or under her own recognizance and the indictment eventually be quashed.

New York, Mak 4th, 2 a. m.—At 1:30 o'clock this morning the jury in the case of Nan Patterson, on trial for the third time on the charge of the murder of Caesar Young, was called into the court room by recorder Goff. When the 12 men were at their places and the court officials had arrived the recorder asked why the defendant had not been brought into court. A deputy sheriff replied that she had been ill and had retired but was then being dressed.

After a wait of 12 minutes, Miss Patterson appeared looking pale and in a highly nervous state.

"Gentlemen, have you been able to reach an agreement," asked the recorder.

"No, sir," replied the foreman. "Is there any question of law or evidence in which I can instruct you? Is there any way in which the court can help?"

"The foreman looked for a moment at his fellow jurors and then turned to the recorder and said, "No, sir; I don't believe you can help us."

"Then you will retire to re-consider the matter."

The jury filed out and the court room was cleared.

Recorder Goff remained in his chamber to receive a verdict if rendered or to further instruct the jury.

New York, May 3rd, 8:10 p. m.—The jury in the Nan Patterson trial have gone to supper, having been out since 1 o'clock. It is reported that if they fail to agree by 10:30 the court will instruct that the jury be locked for the night.

New York, May 3rd, 10:05 p. m.—A rumor spread through the court house that Nan Patterson would be brought into court. Assistant district attorney Rand has reappeared.

New York, May 3rd, midnight.—The jury has disagreed.

New York, May 4th, 1 a. m.—Recorder Goff has ordered the jury to return in a further effort to reach a verdict.

TO TEST BOULDER ORE

Shipment to Granby Smelter—If Satisfactory Mine Will be Worked

(Special to The Daily News)

Phoenix, May 3—Superintendent A. B. W. Hodges of the Granby company, has sent foreman John Rogers with a force of men to the well known Boulder claim near Eholt, where they will take out a couple of cars of ore for shipment and testing at the company's smelter. If results are satisfactory it is more than likely that the Granby company will take a bond on the property and work it.

The Boulder is owned by M. Gebo of Eholt and Charles Sanders of Grand Forks. It is located less than a mile from Eholt, towards Long Lake camp, and has a gigantic showing on the surface. Considerable work has been done on the property in the way of stripping and sinking shallow shafts, and there seems to be no question whatever of the tonnage being there if the values in the iron ore are satisfactory. The Boulder has been examined in the past by mining engineers, but this is the first time that shipments have been undertaken.

TEETZEL'S BIG DEAL

Purchases 10,000 Acres on Kootenay Lake From G. N. Railway Co.

Winnipeg Free Press, April 27—W. F. Teetzel of Teetzel & Bogle, returned yesterday morning from St. Paul where he closed negotiations with the Great Northern railway company for the purchase of 10,000 acres of land situated at the south end of Kootenay lake, which the company gained with the purchase of the Kaslo & Slocan railway. Mr. Teetzel states that he has been after this land for four months and has at last succeeded. In this he thinks himself fortunate as it is considered by many acquainted with the facts to be the finest tract of fruit land in British Columbia. It is the intention of Mr. Teetzel's company to divide it up into small tracts and place it on the market in the near future. The Kootenay country is becoming a very popular fruit growing district from the fact that irrigation there is unnecessary.

KASLO AND WHITEWATER

Revival of Mining Activities—Outlook for Season Very Cheering

Kaslo, May 3—Brighter prospects loom ahead of Kaslo and those in a position to know, believe that the near future will see a marked improvement in conditions here. The completion of the zinc separating plant is one factor of very considerable moment in this calculation. Another is the resumption of work on the Cork mine. It is believed that this property will soon be among the big shippers and if this should prove to be the case, the Province, another Kaslo owned property, will undoubtedly be heard from. It adjoins the Cork and is highly thought of. Another feature that makes for better conditions here is hte fact that several of our towns people are working successfully, on a small scale, properties that show every indication of being money makers. There is, too, a great revival of activity at Whitewater. This is now becoming quite a busy camp and promises to be one of the liveliest centres in this section of the province during the coming summer months. Kaslo has waited long and patiently for the turn of the tide. Our people have always had faith in the future and it looks now as if that faith were to be rewarded.

GREAT GOLF TOURNAMENT.

London, May 3.—The great professional golfing tournament, to be held at Bushy Hall, on May 19th and 20th, gives promise of being eminently successful. In any case it will rank as one of the most important events of the season. In addition to the record of $1,300 to be given in prizes as already advertised, two additional prizes of $25 each are offered for the best score of 36 holes returned by an apprentice, or professional of less than two years' standing. The professionals invited to compete number 58, including all the cracks and some who are yet scarcely known to fame.

SLOCAN STILL HOPEFUL

MINE OPERATIONS SUSPENDED UNTIL ROADS IMPROVE

LUMBER TRADE BETTER THAN IN ANY RECENT YEAR

In spite of the long period of depression faith and hope in the ultimate prosperity of their district survives among the people of Slocan City. They admit that things are very dull at present but they confidently expect a change for the better very soon.

George Nichol of Slocan, spent yesterday in the city. He is owner of the Cripple Stick and Tamarac properties, which F. Stock is working on a bond. When asked how business was in Slocan City, Mr. Nichol admitted that it was extremely dull. But in reply to a question as to the prospects of the camp and district, he said:

"The outlook is not bad at all. The mineral is there, lots of it, and high grade. The mines must pay some day. Even this summer if we could only get a little assistance from the government in the matter of good roads, there would be enough work done to cause a revival. The Pioneer and Ottawa had to stop shipping, the handicap of impassible mountain roads being too great. There are many other properties in the district in the same situation. However, the Ottawa will resume shipping next week, and the others will undoubtedly resume operations in June, whether the government does anything or not.

"There is already some sign of revival in the lumber business. The demand for it throughout the district has been greater this spring than for many years past.

"Slocan hasn't lost hope by any means. The town has reached rock bottom now. The next change must mean improvement."

BRICKMAKERS GET INCREASE.

Poughkeepsie, N. Y., May 3.—The striking employees from several brickyards between Dutchess Junction and Chelsea returned to work today and the plants resumed operations. In every case where the men returned to work the employers had granted an increase in wages amounting to twenty cents per day.

YUKON RIVER OPEN.

Dawson, Y. T., May 3.—The first craft to leave White Horse this season is a scow in charge of Andy Morsereau and it is now on the way up the river to this place loaded with freight. There are thousands o ftons now at White Horse ready for shipment and it is probable that the most of it will start within a week or so, as the river between here and Lebarge is about ready to break up.

KILLS WIFE, SHOOTS HIMSELF.

New York, May 3.—In ill health, and suffering from a nervous disorder, John Terhune, superintendent of schools in Bergany county, today shot and killed his wife, and then committed suicide at their home in Hackensack, N. J.

NEWMARKET RACES.

London, May 3.—At the Newmarket first spring meeting today Vedas won the 2,000 guineas stakes. Signorina was second, and Lagibby third. Fourteen horses started.

COMING SEA ENGAGEMENT

Will be Fought at Long Range in Opinion of Russian Expert

Rojestvensky's Prospects of Success Very Good According to Capt. Van Eassen, Hero of Port Arthur

St. Petersburg, May 4th, 2:10 a. m.—Captain Von Eassen, the hero of Port Arthur, and one of the ablest of Russian naval officers, discussing with the Associated Press the coming naval battle in the far east, took a rosy view of Rojestvensky's prospects and asserted that he had a great advantage in many respects over the original Port Arthur squadron. Captain Von Eassen declared that the engagement between Togo and Rojestvensky was bound to be at long range. He smiled at the idea that the Japanese might be able to disorganize or damage the Russian squadron by torpedo attacks, pointing out the impotency of such action.

He said: "We know Togo's ships were severely pounded in the battle of August 10th. Some of the smaller guns on the Japanese ships actually went to pieces during the engagement. After the battle we found a piece of the muzzle of one of the Japanese 13 centimetre guns on board the Sevastopol. The Japanese, however, were able to renew their secondary armament, having a plant capable of building such guns. The battle will be decided by the 12 inch guns," continued the captain.

"But may not Togo elect to conduct a harrassing warfare with his torpedo boats in the hope of sinking one of the Russian ships?" was asked.

"One of the lessons of the present war," replied captain Von Eassen, "is the ability of warships to defend themselves against topedo attacks during naval engagements. After the opening surprises the Japanese torpedo boat flotilla accomplished practically nothing until the last act of the naval drama, the torpedoing of the Sevastopol before the surrender of Port Arthur, and then it took five nights of continuous attacks under the most favorable weather conditions, snow squalls, etc., to get one of the hundreds of torpedos home against a stationary ship."

Captain Von Eassen commented on the high state of efficiency to which admiral Rojestvensky has brought his squadron during the long months of the voyage eastward and said that the results of target practice with the big guns corroborated the opinion of British critics that the markmanship of the Russians would be apt to surprise the Japanese.

WHEREABOUTS OF FLEETS.

Doubt as to Whether Rojestvensky and Nebogatoff Have Joined Forces.

St. Petersburg, May 3.—The admiralty here professes ignorance as to whether admiral Nebogatoff and admiral Rojestvensky have joined forces, but the impression prevailing in naval circles that the juncture has not been effected.

The admiralty officials vigorously deny any intention of sending the protected cruiser Askold and the torpedo boat destroyer Grozovoi, interned at Shanghai, to join admiral Rojestvensky, and some resentment is shown against the United States and Great Britain for having officially warned China on the basis of Japanese representations in this connection.

Amoy, China, May 3.—The provincial and military officials here, after an examination of this vicinity under orders from Pekin have found nothing to sustain the charge of the Russian consul at Foo Chow that the Japanese have a wireless station in the neighborhood to communicate with Formosa.

The Japanese claim that the Russian charge was made to secure privileges here for vessels of admiral Rojestvensky's squadron.

GATES' LOSSES

Chicago, May 3—Stories that John W. Gates has lost millions must be taken with reserve. Gates has certainly lost money in grain but he ha made up most of the loss in stocks. Foreseeing his difficulties in grain he went heavily short in stocks and came out about even. Gates is a slick article, and speculation is his business. There were signs a long ago as the middle of last week that a corner in May wheat had been abandoned, if it had ever been intended. At that time the millers throughout the country were sold all the wheat they could take. The millers by that way will probably have a hard time to get even on their spring flour. It may be that the Gates' party is now heavily short of July wheat. No one knows what their May wheat cost, or what it was sold for. Of course, the greater part of the loss was incurred by the host of small speculators who constitute the inevitable following of any campaign.

GOODERHAM DIED RICH.

Toronto, May 3.—A conservative estimate of the late George Gooderham's estate is $15,000,000. The Ontario treasury will be enriched by at least three-quarters of a million dollars in succession duties.

TYPOGRAPHICAL UNION LABEL NELSON No. 340

DEATH OF HON. JAS. SUTHERLAND

Death has removed one of the most popular members of the Laurier cabinet in the person of the late Hon. "Jim" Sutherland, minister of public works.

Few members of the dominion parliament were better known throughout Canada and none was more generally liked and esteemed than "Jim" Sutherland, who had represented the North Riding of Oxford continuously since 1880. He was not a brilliant speaker, but was a past master in the art of political organization and was a tower of strength to the liberal party. For eight years he was chief whip of the party. When Laurier came into office Sutherland could immediately have secured a place in the cabinet, but with characteristic unselfishness he waived his claims and continued to act, as in the days of opposition, as the chief whip. In 1900 he entered the cabinet as a minister without portfolio and a little later succeeded Hon. Louis Davies as minister of marine and fisheries. Upon the retirement of Israel Tarte he took over the portfolio of public works, which he retained until the hour of his death, although for several months past his health had prevented his attending either to his official or parliamentary duties.

His whole parliamentary career was signalised by sincere application to the various responsibilities attendant upon the offices he from time to time filled so admirably. In opposition he was the trusted adviser of the leaders of his party and the constant friend and helper of every member of the rank and file. Those well acquainted with the inside affairs of the liberal party, particularly when sir Wilfrid Laurier was first called upon, know and appreciate the splendid services he rendered. He was Laurier's most trusted adviser in Ontario, his entire lack of self-seeking and whole-souled devotion to the best interests of the party, rendering his advice at all times specially valuable.

As a minister of the crown he applied his really excellent business capacity to the administration of his department with exacting conscientiousness. He was never narrow in his views and in his handling of departmental affairs never allowed mere partisanship to influence him. He had the confidence of both sides of the house to an unusual degree and his death will be as sincerely regretted on the tory benches as among the liberals.

The late Hon. James Sutherland, always known among his parliamentary friends as "Jim," was of Scotsh descent, his father, Alexander Sutherland, migrating from Caithness-shire to Ontario in 1841. He was born in 1849, in the township of Ancaster, county of Wentworth, Ontario, and educated at the Woodstock Grammer school. He was actively identified with the business interests of Woodstock as merchant and manufacturer, and for several years was a member of the town council, serving as mayor in 1880. He was elected to parliament in that year for North Oxford and retained the seat at each subsequent general election.

"Jim" Sutherland served his country and his party well. His loss will be severely felt by the liberals and sincerely mourned by every Canadian who honors good citizenship.

New Wall Papers

A beautiful selection of this season's designs just received. My remnant sale cleaned out all the old patterns. I have nothing to show you but fresh new papers. For artistic design and beautiful coloring this season's product surpasses all previous efforts of the manufacturer. My stock as it now stands, is a choice selection from the product of the world's leading producers, and includes a wide range, from the everyday seller at 8 cents a roll, and up, to the high-class decorative novelties at $1 and $1.50 the piece. I am proud of my collection of wall papers, and would like to show them to you just for the pleasure of showing them, so come in and look at them, even if you have no idea of buying.

W. G. THOMSON, Bookseller and Stationer

EDITORIAL NOTES.

The enactment in England of legislation restricting the immigration of undesirable aliens will be a step in the right direction. England's hospitality has for many years past been unduly tresspassed upon to the very great detriment of the native wage earning clases. London has been crowded to excess by a very undesirable class of pauper Europeans, a class that has done more to perpetuate and expand the sweating system than any other factor in England's economic circumstances. The object lesson English statesmen have had in this influx of pauper labor should have opened their eyes to the greater evil of Mongolian immigration into British colonies and made them more responsive to the efforts put forth by those colonies to safeguard their people from what premier Balfour himself happily described as "unrestricted immigration that might become a great national evil."

The bill to authorize the acquisition by government of the railways of Italy passed the chamber of deputies by a vote of 249 to 45, the socialists voting against it. It passed the senate by a vote of 109 to 8 and was at once signed by the king. A noteworthy feature of the bill; and the one which caused the opposition of the employees, precipitating the recent strike, is that which provides that all employees of the railway, whatever their rank or the nature of their employment, are to be considered as public officials. Those who voluntarily abandon or do not accomplish their duties, or accomplish their duties in a manner calculated to interrupt or obstruct the regularity of the service, are to be regarded as having resigned their positions, or as having been dismissed from their posts. This provision also applies to the railways which remain the property of private companies, as well as to the state railways.

The Daily News has been asked if the sentence of sixty days imprisonment passed recently upon the self-confessed inmate of a disorderly house in this city is to be accepted as an intimation that similar treatment will at once be meted out to all other inmates of disorderly houses in Nelson. The Daily News is not in a position to answer this question. It is to assumed, however, that the police would not single out one unfortunate for this treatment and consequently it may be anticipated that steps in the direction suggested above will be taken in the immediate future.

COMPLAINT FROM W. K. P. & L. CO.

City Contractors for Power Plant Dumping Rock Into the River

Rossland, May 2nd, 1905.

The City Clerk, Nelson B. C.

Dear sir: The West Kootenay Power & Light Company, Limited, inform me that the city are depositing in the Kootenay river at the upper Bonnington Fall a large quantity of rock which has been excavated in the course of the construction of their power plant, and that they apparently contemplate depositing in the river further quantities of such rock. The result of such deposits of rock will be extremely injurious to the existing and contemplated works of the West Kootenay Power & Light Company, Limited, inasmuch as the rock will be carried by the stream down to the narrow channel which is below the fall, and further portions of it will be taken down to the canal of the West Kootenay company some distance further down the stream. It will be necessary for the West Kootenay company to remove this rock from the Kootenay river in order afterwards to carry on their works. I have therefore to call your attention to this matter, and to request that you will at once give me an understanding to desist from putting into the Kootenay river any more of the rock referred to. I am, yours truly,

A. H. MACNEILL.

The city's contention is understood to be that nothing is being done that in any way conflicts with any rights of the W. K. P. & L. Co., and consequently no notice will be taken of lawyer McNeill's communication.

WHY SUFFER FROM RHEUMATISM

Why suffer from rheumatism when one application of Chamberlain's Pain Balm will relieve the pain? The quick relief which this liniment affords makes rest and sleep possible, and that alone is worth many times its cost. Many who have used it hoping only for a short relief from suffering have been happily surprised to find that after awhile the relief became permanent. Mrs. V. H. Leggett of Yum Yum, Tennessee, writes: "I am a great sufferer from rheumatism, all over from head to foot, and Chamberlain's Pain Balm is the only thing that will relieve the pain." For sale by all druggists and dealers.

FIVE CLAIMS LOCATED.

Prospectors at Work in Creston and Ymir Districts.

Five mineral locations and one assessment were recorded on Wednesday. Three of the former were recorded by sub-recorder Wilson of Creston on Monday, and forwarded for entry in the Nelson office.

Joseph Sturgeon, through his agent, J. M. Lomprey, received a certificate of work on the Winedot. James A. Ryan, of Creston, recorded the location of three claims, the Ryan Mine, the Colt, and the Wild Horse, all on Goat mountain about a mile and a half from Creston and all located on April 28th. William Kennedy recorded the Cabinet on Wolf creek, two miles from the Queen mine, located April 25th. The Zalena claim, three and a half miles southwest from Ymir, was relocated by Robert B. Bell on April 21st and named the Good Friday.

NEW PLAN OF CAMPAIGN

SCHEME OF ADVERTISING ADOPTED BY TOURIST ASSOCIATION

WILL CANVASS MERCHANTS FOR NECESSARY FUNDS

The executive committee of the Tourist Association has held a meeting to discuss plans of campaign for the coming season. It was decided to make the work of the association more definite than it has been. Instead of advertising only or chiefly the attractions of Kootenay to tourists, an effort will be made to advertise widely the advantages of the district for permanent settlers. With this end in view the value and potential magnitude of the agricultural resources will be advertised as extensively as possible in the localities where it is felt that it will do most good.

Recent movements of population have seemed to indicate a desire on the part of many residents of the prairie districts of Canada and the United States for a country of greater variety of scenery and occupation, and of greater equality of climate. To such people, it is thought, the attractions of Kootenay, especially of the lake and river districts, should appeal very strongly.

The first aim of the association, to attract summer tourists, is not to be abandoned. Views and descriptions of the scenery of Kootenay will be placed on view in the coast cities and at important points on the transcontinental railways. Special arrangements have been made for circulating a moderate statement of the attractions of the district among the visitors to the Lewis and Clark exposition at Portland.

Reports of work carried on during the winter were presented by various committees. A great number of communications have been received and answered. They have been very various in kind, some, perhaps a majority, from people looking ahead for a pleasant place to spend a summer holiday, others from homeseekers, and capitalists looking for good land investments.

Active advertising has also been continued quietly. Large views of lake, river and mountain scenery, and enlarged photographs of the exhibit of fruit at the last Nelson fair, have been sent to all the C.P.R. company's hotels, to Spokane, and to the coast cities of British Columbia, Washington and Oregon. Well designed post cards have been printed and will be distributed among the members of the association for use in their outside correspondence. They are pretty enough for souvenirs, and striking enough to be effective advertisements.

Arrangements have been made for an illustrated article in the anniversary number of the Victoria Times. The issue will contain 10,000 copies, many of which will be sent to Portland for distribution at the exposition. Another illustrated article is being prepared for the Week of Victoria, which has already done much to advertise the resources of various districts of British Columbia.

A communication has lately been received from Teetzel and Bogle, real estate agents of Winnipeg. They suggest that the association cooperate with them in the preparation of a pamphlet advertising all the resources and attractions of the Nelson district. They recommend also that an illustrated article be placed in the Winnipeg Free Press, drawing special attention to the extent and productiveness of the fruit lands in the districts tributary to Nelson, Crowford bay, Creston, Slocan lake and river. With such statements they point out, might be included a brief and readable description of the climate, the scenery and the general advantages of Nelson as a residential city.

The letter was discussed at length and the committee decided to act on all the suggestions as soon as possible. It was resolved to dispose to the best advantage of all the views, pamphlets and post cards now on hand. A canvass of the merchants of Nelson, and the citizens generally, for financial assistance to carry out the different schemes was proposed and approved. It was pointed out that every business man and every property owner in the city would benefit by the successful prosecution of the plans of the association, and, therefore, that all should be called upon to assist in the work.

A sub-committee, consisting of P. E. Wilson, Melville S. Parry, T. G. Procter and J. Drewe, was appointed to undertake the canvass. They will begin their task at once and expect a generous response.

TRIBUTE TO LATE MEMBER

Young People's Society's Resolution of Regret and Condolence

The Young People's society of the Methodist church at its regular meeting Tuesday evening, adopted the following resolution:

That this Y.P.S. desires to express its sincere sense of loss at the decease of one of our late members, Miss Ida Terea Rammelmeyer, and alo to pay our tribute of esteem, respect and affection for the character of the one whom we have lost.

Especially at this time would we make mention of the sterling Christian qualities, together with her unvaried courtesy and sincerity, with her cheerful spirit, her unfaltering perseverance in whatever work was given her to do, all of which made her one of our most valued members and successful workers. We shall sadly miss her from the place she so admirably filled, and we bow to the inscrutable providence which has taken her away. We are consoled only with the thought that what earth has lost heaven has gained, and we bear our testimony to the value of her faith and love in all matters touching the kingdom of God.

We desire also to tender to Mr. and Mrs. E. Rammelmeyer, her parents, our heartfelt sympathy in their bereavement and we bear them in our prayers to the throne of Heavenly Grace, where they may find the consolations that are not of earth but from above.

ERNEST R. TENNANT, President.
WALTER CALDER, Secretary.
WALTER W. BAER, Pastor.

It was decided that a copy of the resolution should be sent to Mr. Rammelmeyer.

CHAMBERLAIN'S COUGH REMEDY THE VERY BEST

I have been using Chamberlain's Cough Remedy and want to say it is the best cough medicine I have ever taken," says Geo. L. Chubb, a merchant of Hanlon, Mich. There is no question about its being the best, as it will cure a cold or cough in less time than any other treatment. It should always be kept in the house ready for instant use, for a cold can be cured in much less time when promptly treated. For sale by all druggists and dealers.

MILLION DOLLAR HOSPITAL.

Toronto, May 3.—A million dollar general hospital is proposed in this city at the corner of College and University streets. The Ontario government has promised $300,000 towards it and it is proposed to have the city provide the site at a cost of another $300,000. Trustees will look after the balance.

A GOOD FAMILY LINIMENT

Every family should be supplied with a bottle of Chamberlain's Pain Balm. For cuts, bruises, burns, scalds and similar injuries, which are of frequent occurrence, it is the best. It soothes the wound and not only gives instant relief from pain, but causes the parts to heal in about one-third the time required by the usual treatment. As it is an antiseptic all danger from blood poisoning is avoided. Sold by all druggists and dealers.

For Hazelwood Ice Cream and Ganong's Choclates go to Seaney's, successor to J. A. McDonald & Co.

S. H. Seaney who has taken over J. A. McDonald's retail fruit and candy business, announces the opening of the Soda Water season. The fountain is now charged and ready for business.

It will pay you to keep Chamberlain's Colic Cholera and Diarrhoea Remedy in your house. It only costs a quarter. Sold by all druggists and dealers.

Use Lever's Dry Soap (a powder) to wash woolens and flannels,—you'll like it. 32

HEALTHY PLANTS

Require the Most Careful Attention as Well as Good Soil.

Did you ever see a rosebush which—despite the most beneficent environment of soil—of sunshine—and of atmosphere,—seemed never to achieve a healthy growth.

A ton of manure will not help a plant that has a canker eating out its heart.

You must destroy the cause before you can remove the effect.

You cannot cure Dandruff and Baldness by rubbing on hair lotions, and rubbing in vaseline, etc.

You must look to the cause of the trouble—it's a germ at the roots of your hair which causes it to fall out.

Newbro's Herpicide destroys the germ, and healthy hair is the sure result.

Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co. Detroit Mich.

STOP, WOMAN!

AND CONSIDER THE ALL-IMPORTANT FACT

That in addressing Mrs. Pinkham you are confiding your private ills to a woman—a woman whose experience with women's diseases covers a great many years.

You can talk freely to a woman when it is revolting to relate your private troubles to a man—besides a man does not understand—simply because he is a man

Many women suffer in silence and drift along from bad to worse, knowing full well that they ought to have immediate assistance, but a natural modesty impels them to shrink from exposing themselves to the questions and probably examinations of even their family physician. It is unnecessary. Without money or price you can consult a woman whose knowledge from actual experience is great.

Mrs. Pinkham's Standing Invitation.

Women suffering from any form of female weakness are invited to promptly communicate with Mrs. Pinkham, at Lynn, Mass. All letters are received, opened, read and answered by women only. A woman can freely talk of her private illness to a woman; thus has been established the eternal confidence between Mrs. Pinkham and the women of America which has never been broken. Out of the vast volume of experience which she has to draw from, it is more than possible that she has gained the very knowledge that will help your case. She asks nothing in return except your good-will, and her advice has relieved thousands. Surely any woman, rich or poor, is very foolish if she does not take advantage of this generous offer of assistance.

If you are ill, don't hesitate to get a bottle of Lydia E. Pinkham's Vegetable Compound at once, and write Mrs. Pinkham, Lynn. Mass., for special advice.

When a medicine has been successful in restoring to health so many women, you cannot well say, without trying it, "I do not believe it will help me."

NELSON'S NEWS OF THE DAY

Harry Wright, M.L.A. for Ymir, arrived home from Victoria last evening.

T. G. Procter and W. W. Beer leave for Spokane this morning on a short business trip.

There was no session of the local stock exchange yesterday. Connections were not secured in time.

Thomas Gough, late superintendent at the Yellowstone mill, is now filling a similar position at the Granite mill.

The sale of household furniture at the late residence of Frank Fletcher will be begun this afternoon by auctioneer C. A. Waterman.

D J McNally, the builder of many bridges and other works in British Columbia and western states, leaves in a few days for Vancouver.

J. C. Moen, foreman of the Juno mine, came down from Sandon by way of Slocan yesterday afternoon. Work on the Juno will begin next Monday.

The dance given by the band in Fraternity hall last evening was a brilliant success. The attendance was large and the music excellent. The bandsmen proved capable hosts.

Robert Capstick, of the local auditing department of the C.P.R. service, has been promoted to the statistical department of the same company at Montreal. He leaves for the east on this morning's Crow boat.

A. C. Houghton of Crawford bay, spent yesterday in the city, completing transfers of fruit land in the neighborhood of Crawford bay, in connection with deals recently put through by J. E. Annable.

Two cases were called in the police court yesterday morning. One was that of a Chinaman, accused of peddling without a license; the other of a woman accused of disorderly conduct. The first case was adjourned, the second remanded.

The Southern Okanagan Land company, formed by Shatford brothers, which recently purchased the Ellis estate, have added to their holdings the townsite of Penticton, the vendors being the Yorkshire Guarantee & Securities Corporation.

J. T. Black, provincial constable, who has been stationed at Salmo for several weeks, passed through the city yesterday on his way home to New Denver. No trouble at Salmo is anticipated by the authorities, but two constables will remain for a while longer.

Ben Hur Sanctorum of the order of Humility and Perfection met last evening in the lodge room, James Neelands, grand Hyastytee, presiding. Six brethren were initiated, including two presented by Enterprise lodge of Trail. After the ceremonies of initiation, the moon feast was held.

The funeral of F. S. Roberts will take place Friday afternoon at 2:30 from the Standard Furniture company's undertaking parlors. Arrangements were first made for the funeral to take place this afternoon, but as some of Mr. Roberts' relations are on their way to attend it, a postponement was decided upon yesterday.

A surprise party "for men only" was given last evening at the residence of John A. and Dr. T. Gibson, upper Silica street. It was in the nature of a house warming and was a decided success. The program consisted entirely of selections on "the pipes." Every number was encored. Among the visitors from a distance was R. J. McPhee of Slocan.

A very successful practice of the Nelson Association football club was held at the recreation grounds last evening. The members showed excellent form. A meeting of players and their supporters will be held in the Athabasca billiard room at 8 o'clock this evening. The latest acquisition to the strength of the club is F. V. Thompson.

G. O. Buchanan arrived in Nelson yesterday to begin his monthly duties as lead bounty commissioner. He said that there would probably be no returns for lead treatment during April from the Marysville smelter. During March it was decided by the management of that plant to increase the capacity of the ore crusher, and the changes necessary were not likely to have been completed before the end of April.

FRUIT LAND MOVING

Many Transfers Reported Yesterday From Crawford Bay and Outlet

Yesterday was a busy day in real estate circles. J. E. Annable made several important deals in fruit land in the vicinity of Nelson, acquiring some lots and selling others. He and G. B. Matthew jointly purchased 26 acres of land on the north shore of the West Arm, directly opposite the city, from Onslow Newling's holdings. It is the intention of the purchasers to divide the land into five acre plots.

H. Richardson and J. Derbyshire of Michel, bought from J. E. Annable, 40 acres situated on Crawford creek. S. S. Fraser of Pincher Creek, bought 80 acres on Crawford bay from J. E. Annable and 100 acres near Balfour from Captain Gore, the latter known as the Fletcher ranch.

G. Alexander of Kaslo, bought from F. Brewer a block of fruit land contiguous to the Procter townsite, and extending along the south side of the West Arm.

T. G. Procter is also buying and selling fruit lands. One of his latest deals was the sale of 40 acres of improved orchard land, owned by J. Strank, to W. Walker.

BRICK BLOCK ORDERED

J. A. Mara will Build New Premises for Telephone Company

The Nelson branch of the Kootenay Lake Telephone company will soon be quartered in more convenient and attractive premises. The new structure will be of brick, one storey and basement, and especially designed for use as a central telephone office. During the recent visit here of J. A. Mara, arrangements were made between him and manager G. C. Hodge. The new building will be on the site of the company's present quarters and of the same frontage. Mr. Mara will have the building erected to rent to the telephone company. A. Carrie, architect, is preparing plans. Tenders for the building will be called for in a few days, and work will be begun within a month.

Flower Pots, all sizes. E. E. Richards, Stanley street, 'phone 145.

A GOOD SUGGESTION

Mr. C. B. Wainwright of Lemon City, Fla., writes the manufacturers that much better results are obtained from the use of Chamberlain's Colic, Cholera and Diarrhoea Remedy in cases of pains in the stomach, colic, cholera morbus by taking it in water as hot as can be drank. That when taken in this way the effect is double in rapidity. "It seems to get at the right spot instantly. For sale by all druggists and dealers.
