MID-OCEAN TELEGRAPHY

Practical Demonstration of Marconi System in Nelson

Messages Will be Sent From Strathcona to Launch up the Lake and Replies Received

G. H. Munroe of the New York firm of Munroe & Munroe, underwriters for the Marconi Wireless Telegraph Company of Canada, who intended to give a free exhibition o fthe workings of the wireless system at the Success Club last evening, was prevented from doing so by the late arrival of the Crow steamer on which Mr. Munroe was a passenger, the steamer not reaching the city wharf until nearly 10 o'clock. Mr. Munroe has decided to remain over in the city until next Tuesday morning, and will give two free exhibitions at the Success Club room this and Monday evening, commencing at 8 p. m. All today and Monday the instruments used in the Marconi system will be on view at the Success Club rooms and a demonstrator will be on hand to explain to the public their working. The lectures will be given by G. H. Robinson, who accompanies Mr. Munroe.

The local fleet of launches has supplied Mr Munroe with an inspiration, and on Sunday he proposes to send out a launch that has been kindly placed at his disposal, some five miles up the lake. The boat will be fitted with one of the Marconi instruments, while another instrument will be placed in the parlor of the Strathcona hotel. Mr. Munroe will communicate from the hotel to the boat and receive messages back, giving an excellent example of how the system works at sea today.

That sturdy old seafarer, purser Graham of the Cunarder Campania, gives examples of the wonderful workings of the Marconi system, which conclusively prove that it can perform its allotted tasks as well in the inventor's absence as when his subtle hand is manipulating the apparatus. "I well remember one of our trips when we were but a day out from Queenstown, that we got in communication with an eastward-bound liner and were warned by wireless to look out for a derelict when we neared Cape Cod, as one of those terrible menaces to the navigator had been sighted in our path. Sure enough, we found the partly submerged hulk where it might easily have done us a frightful injury if we had not been warned, for it was thick weather and could have escaped the eye of even a careful lookout." Further questioning elicited the information that this warning was but one of countless cases where the Campania had received or given valuable information in regard to a lurking danger along the regular lane of travel.

"I owe wireless a personal debt of gratitude," continued the genial purser, "for it saved me a goodly percentage of my monthly income on one occasion, at least. We had been out a day from Liverpool when I discovered that some of our crew had deserted. I notified the home office by wireless in time to prevent their families from collecting their month's pay, which would have come out of my own pocket if my failure to advise the company had resulted in its being imposed upon.

"You know that the new turbine boat Victorian of the Allan line started on her maiden voyage bound for Halifax, just about as we left Liverpool on this trip. We were in constant communication with her by wireless, and any delay owing to weather or favoring her new machinery would have been reported to shore by us, so that her many anxious friends would have been freed from worry and would have attributed her delay to unexisting danger or accident.

"You will recall the period in February when a dense fog settled down on all English sea ports and held shipping fog-bound off the harbor of Liverpool. The Slavonia and a number of other boats, fitted with wireless, arrived off the mouth of the Mersey, and had to anchor for a day or more, but they kept up an uninterrupted talk with shore, and friends knew exactly what the true situation was. The Celtic, of the White Star line, was one of the boats held at anchor, and it was not fitted with wireless. The passengers on board and the friends on shore were as wretched as people lost in a forest, and it was not long after that experience that the White Star line followed the example of the other great companies and had the Marconi system installed on all their fleet.

"We come into port having all the details as to landing, mails, health reports and a thousand and one other things determined upon long before reaching the harbor. Before we had wireless, we had to delay until a boat came down the harbor with instructions and the inconvenience and loss of time in a year represented a very material loss to the company as well as to the passengers. If the passengers' convenience and needs were removed from the consideration, wireless would more than ay for itself in the net results and savings to the company. Yes, it would do it many times over in a single year. I am convinced that Mr. Marconi will, in time, be able to navigate ships by wireless. I mean by that that a vessel coul be safely cross the ocean without a compass or other instrument aboard."

The Marconi Wireless Telegraph Company of Canada is in receipt of large sums of money from both the Dominion and Newfoundland governments, as initial subsidies.

It is in the enjoyment of contracts with both governments above named, guaranteeing substantial revenues from the operation of these stations. The income derived from these sources must inevitably afford a most satisfactory revenue to the copany, exclusive of the many other sources as yet undeveloped.

It is earning from its commercial operations, aside from the government contracts enumerated, very considerable revenues, demonstrating beyond doubt the profitable nature of the future operations of the company.

Its operations are already on a self-sustaining basis, although its sources of revenue are only partially developed.

Its stockholders include bankers, merchants, lawyers, doctors, teachers, clergymen and wage-earners, from Halifax to Victoria and from Montreal to New Orleans, men of acumen, energy and foresight, who recognize in the new system of wireless communication a revolutionary element which is certain to result in a complete reorganization of the land and marine telegraph systems of the British empire, of which Canada is the largest, most important and enterprising field.

Some of the things accomplished by the Marconi system are:

Sent and received messages over 3,000 miles.

Transferred money between passing ships.

Enabled passengers of passing ships to engage in games of chess.

Served the London Times with press reports from the United States.

Message sent by lord Minto to king Edward from Glace Bay to Poldhu.

A speed of 35 words per minute in transmission and receipt of messages.

Reported wreck of a Stockholm steamer on Ratel bank via S.S. Clementine.

Communicated from Cornwall, England, to Gibraltar, over land and over sea.

Furnishes a means of communication between private yachts and the homes of their owners.

Sent and received messages across the continent of Europe from England to Kronstadt, St. Petersburg, Russia.

Sent and received greetings and congratulations of president Roosevelt to king Edward from the United States to England.

Supplies news for the publication of daily newspapers on board trans-Atlantic steamships from time of departure to moment of arrival.

Has been ordered under contract by the English government to install its system in the light houses lying off the English coast, and has proven a valuable supplementary aid to this form of navigation protection.

What the press, great men, and governments think of the Marconi system:

It is adopted by the British navy.

Endorsed by the shipping federation of Canada.

It is officially adopted and subsidized by Canada and Newfoundland.

It is used exclusively by all departments of the Italian government.

It is adopted exclusively by Lloyds, the greatest shipping agency in the world.

It is endorsed by the world's greatest scientists, lord Kelvin, Thomas A. Edison, M. I. Pupin, and others.

Endorsed by the association of chambers of commerce for the United Kingdom in convention at London.

London Times says: "We can communicate with every ship on the Atlantic (by Marconigraph) as well as with its opposite shores."

Pronounced "man's greatest achievement" by 38 out of 70 leading scientists, jurists, lawyers, financiers, collegians, and educators in the United States, in answer to an inquiry of the New York World.

The New York Sun: "It is a peculiarity of signor Marconi that he does things first and talks about them afterward. . . . From the time the big ship left the other side until the pilot came aboard near Sandy Hook the passengers found the news of the world in condensed form beside their napkins."

James Gordon Bennett says: "Newspaper offices in a hundred cities of the United States will soon be equipped with apparatus for receiving messages by Marconigraph from a central station." For over two years the New York Herald has been printing shipping news from the Marconi Nantucket station, oftentimes a day ahead of all contemporaries.

Andrew Carnegie: "Marconi has already done a life-time's work, but he is going to do another. He is a wonderful young man. I believe in him most thoroughly."

The New York Herald: "When the land lines could not withstand the storm and Nantucket was isolated, the wireless system between Siasconset and South Shoals worked perfectly."

The New York World: "Harder work in promotion has seldom been required than that which was necessary to form a company for the exploitation of the telephone. . . . After the same fashion the Marconi invention is set aside as an 'interesting scientific experiment.' But it is more than interesting." Later the World pronounced the Marconi system a commercial success.

Joseph F. Frye: "Wireless telegraphy in its commercial and financial aspect is the most attractive and promising investment before the public today.

PEACE IS ARRANGED

Announcement Likely Not to be Delayed Beyond Monday Next

Czar Has Definitely Committed Himself and Only Too Severe Conditions Will Mean Continuance of War

St. Petersburg, June 9th, 6:15 p. m.—Ambassador Meyer, was in constant communication with Washington this morning. He received a long cipher dispatch and soon afterwards hurried to the foreign office where he had half an hour's conference with foreign minister Lamsdorff concerning the information transmitted to him. Extreme reticience is manifested but it is apparent that the great announcement for which the world is waiting will not be made from here or from Tokio, but from Washington. It is not likely to be delayed beyond Monday at the latest. No hitch has occurred and the outlook continues favorable to peace.

M. Boutiren ,first secretary of the French embassay had a long conference with foreign minister Lamsdorff this afternoon and M. Boumpard ,the French ambassador is hurrying back from Paris, instead of displaying jealousy at the initiative taken by president Roosevelt with view to bringing Russia and Japan together for peace, has apparently warmly welcomed it, and will give his co-operation.

The statements in the dispatches that the president's sole aim is to bring the waring powers together in direct negotiations have been confirmed. There has been an effort on his part to apprise Russia of the Japanese terms, in order to furnish a preliminary basis for negotiation. The main obstacle to the president's efforts has been removed with the emperor's acquiescence in his initiative and negotiations are probably now proceeding at Tokio. When the question of naming peace plenipotentiaries is raised the name of George De Staal, who preceded count Benkendorff as Russian ambassador at London, and who was president of the peace conference at the Hague in 18999, at once occurred to every Russian.

Notwithstanding the progress already made a great deal of skepticism is manifested in certain quarters as to the result of president Roosevelt's overtures. The public seems reluctant to believe that the emperor could have assented to anything like a movement toward peace. Some cynics even try to create the impression that Russia is only seeking to ascertain Japan's terms and then by flaunting the hard conditions imposed in the faces of the representatives of the people when they meet, arouse the whole nation to resist them. Such talk, however, is mere chatter. The emperor has cast the die and will make peace if Japan's terms be such that Russia can accept them with dignity.

HYDE LEAVES EQUITABLE

CONTRADICTED ASSERTION THAT HE IS SELLING HIS STOCK.

BIG ASSURANCE COMPANY SOUGHT AFTER BY GOULD SYNDICATE

New York, June 9.—A conference has been held, says the World, lasting until an early hour this morning, at which negotiations for the purchase of the stock control of the Equitable Life Assurance Society, owned by James H. Hyde, were made by George J. Gould, on behalf of a syndicate of financiers and business men. When the conferences ended, the World asserts, satisfactory progress had been made and it is expected that the sale of Mr. Hyde's stock will be ratified before the meeting of the Equitable directors, which will take place at 1 p.m. today.

The greatest secrecy concerning the conference was maintained.

With reference to the World's assertion, the folowinlg statement was given out today at the Equitable Life Assurance Society's office, on behalf of James H. Hyde: "Any statement to the effect that I have, or intend to sell my stock in the Equitable is untrue."

Notwithstanding Mr. Hyde's denial, it is learned that negotiations for some form of transfer of the Hyde holdings are in progress.

BRADSTREET'S REPORT

Canadian Conditions Are Looking Bright for the Season

New York, June 8—Bradstreet's State of Trade tomorrow will say: The situation this week may be summed up in the phrase "better feeling," which is predicted on rather more seasonable weather allowing better crop progress. A larger volume of retail trade and remit trade, and improved reorder business at wholesale. These in turn are reflected in a more assured tone as to fall business in distribution lines. The features in distributive trade this week are the better orders received at Chicago for light summer goods, but the teamsters' strike there still hurts local trade and iron buying is light.

Backward weather is the main cause of complaint in Canada trade circles, but because crop prospects are very good, immigration into the dominion is heavy, and unparalelled expenditure for railway building is projected. A very large movement of dairy products favors good export trade but at lower prices. Montreal reports spring trade in dry goods backward, but other lines show improvement. Toronto reports wholesale trade as showing more activity, especially in hardware, but cold weather affects summer goods. Winnipeg reports better conditions in trade and excellent crop prospects. Failures number 25 against 18 in this week a year ago.

SINKING OF GRACE M.

Dominion Cruiser Vigilant Exhonerated by Investigation.

Port Stanley, Ontario, June 9.—The department of justice sent John Farley, K. C., of St. Thomas, here yesterday to hold an investigation on the sinking of the tug Grace M., of Loraine, by the Dominion cruiser Vigilant on Wednesday. It was established beyond doubt that the Grace M. was poaching in Canadian waters and the evidence went to corroborate dispatches already published that no blame can be attached to captain Dunn of the Vigilant. The tug was owned by captain Galbraith and engineer Rulleson. The two men lost were married.

END OF THE STRUGGLE

JAMES HYDE RESIGNS PRESIDENCY OF THE EQUITABLE

PAUL MORTON, SECRETARY OF U.S. NAVY, NOW IN CONTROL

New York, June 9—Paul Morton, who retires as secretary of the United States navy on July 1, was today elected chairman of the board of directors of the Equitable Life Assurance society. His election marks the first and most important step in the reorganization of the society, and was followed by the resignation of president J. W. Alexander, C. J. Hyde, vice-president; G. E. Tarbell, 2nd vice-president; G. T. Wilson, 3rd vice-president; and Wm. H. McIntuyre, 4th vice-president.

Mr. Morton, as explained to Chauncey Depew, was the unanimous choice of the board of directors of the Equitable, although the meeting was not altogether harmonious. It is known that Cr[illegible]on and Charles Stewart Smith, who from the outset of the controversy were on the side of the conservative element, protested against some of the proceedings of the meeting, and are believed to have voted against Mr. Morton's election.

The new chairman, further quote senator Depew, did not consent to take office until he had received assurance that he would have a free hand as to measures and men.

Mr. Hyde "divested" himself of the majority control, but as made clear in his letter to the board, retains a substantial interest in the society. All the resignations submitted to the meeting are subject to the pleasure of chairman Morton, and none have as yet been accepted.

Just what action Mr. Mor[illegible] will take as to these resignations was not disclosed but it was strongly intimated that president Alexander, and vice-presidents Tarbell, Wilson and McIntuyre retired with the belief that their relations with the Equitable had ended.

ALBERNI BYE-ELECTION.

Liberal Nomination on the 14th—Tories Have Named Manson.

Victoria, June 9.—The Liberals of Alberni are to hold a convention in Alberni on the 14th instant. Among those seeking nomination will be Rev. Elliott S. Rowe and colonel Gregory of Victoria, and J. F. Bledsoe of Alberni.

William Manson, for four years mayor of Nanaimo, received the conservative nomination at the convention held at Alberni, and will contest the seat in the bye-election made necessary by the resignation of the Hon. W. W. B. McInnes, now commissioner of the Yukon. The nomination was unanimous, Mr. Manson being the only candidate proposed.

Vancouver, June 9.—J. A. Macdonald, liberal leader in the provincial legislature, who has been attending the sittings of the full court here, before leaving for home, said to a local reporter concerning the bye-election in Alberni: "With regard to Alberni I have nothing to say except this, that I believe the members of the legislature on both sides of the speaker will sincerely regret the disappearance from among us of Mr. McInnis, and this notwithstanding that he has been appointed to a most important and distinguished position. With regard to the selection of his successor, I have every confidence that the liberals of the constituency will take care that the chair occupied in the past by Mr. McInnis will not be removed across the floor of the house.

"I have not taken, nor do I intend to take, any part in the selection of the liberal candidate. I regard this as a matter for the liberals of the riding alone to decide, and have no doubt that the selection will be a wise one."

SUICIDE OF YOUNG GIRL.

Tacoma, June 9.—Colin Ray Beloir, 21 years of age, shot herself last night while despondent over ill-health and died in a few hours. Her father is marine engineer on the United States government snag boat Skagit.

STRUCK DEAD BY LIGHTNING.

Billings, Montana, June 9.—Martin Miller died here this afternoon from effects of a lightning shock received last evening.

RIOTING AT MINSK

London, June 10—The Times St. Petersburg correspondent reports that there has been severe rioting in Minsk, during which nearly 100 persons were shot.

KING OSCAR STUBBORN

Royal Houses of Denmark and Sweden Refuse Norway a King

Bjornstjerne Bjornsen Declares the Dissolution of the Union a Blessing for the Entire North

Copengagen, June 9.—All hope that king Oscar or crown prince Gustave will yet yield to the request of the Norwegian Storthing, to place a prince of the house of Bernadotte on the throne of Norway has now disappeared, according to a high authority. The Danish royal family has also set the stamp of disapproval on the acceptance of the throne by a Danish prince.

It is understood that arrangements are actually being made for a national convention in Norway and this, it is believed, will inevitably result in the declaration of a republic.

Christiana, June 9.—The Norwegian tri-color was hoisted this morning throughout the country instead of the union flag. The action was attended by great ceremony here. The members of the Storthing were assembled and 30,000 of the public witnessed the event from points of vantage. The garrison was paraded in front of the members of the council and the commanding officer read the resolution of the Storthing dissolving the union with Sweden.

Baron Von Wadwell Jarlsberg, who has been the minister of Sweden and Norway at Madrid, and who is a Norwegian, is leaving the Spanish capital today for Christiana. He has telegraphed asking to be immediately relieved of his post owing to the dissolution of the union. His example will be followed by the ministers at Washington and Rome, both of whom are Norwegians.

A telegram from Bjornstjerne Bjornsen, the Norwegian dramatist and statesman, published here today sums up the popular feeling asg follows:

"The address to the king is an expression of the will of the entire Norwegian people. The dissolution of the union is a blessing for the entire north."

HAD ROYAL GOOD TIME

KING ALFONSO LEAVES ENGLISH SHORES TODAY

EXTENDS INVITATION FOR KING EDWARD AND QUEEN ALEXANDRA

London, June 9—The ceremonies attendant upon the visit of king Alfonso of Spain ended tonight with a dinner at Marlborough house, and a state ball at Buckingham palace, which latter was the most brilliant function of the program. In the afternoon king Edward, king Alfonso and their suites visited Windsor castle where the Spanish king for the first time saw the magnificent pile. He visited the royal apartments and became enthusiastic over the splendid views. His majesty was given an enthusiastic welcome by the boys of Eton college. He afterwards drove to Frogmore to visit the tomb of queen Victoria.

King Alfonso today was decorated with the royal Victorian order by king Edward and the members of his suite received a number of high orders.

The royal visitor will leave London tomorrow, Saturday, morning and will sail at noon from Dover. King Edward has accepted from king Alfonso the colonelcy in chief of a Spanish regiment.

King Alfonso has invited king Edward and queen Alexandra to visit Spain at their earliest opportunity, and it is probable the invitation will be accepted for 1906.

INCREASE IN BOUNDARY OUTPUT

Large Additions to the Granby Smelter are Nearly Completed

(Special to The Daily News)

Phoenix, June 9—Jay P. Graves, vice-president and general manager of the Granby company, arrived in camp last night, accompanied by general superintendent Hodges of Grand Forks. Mr. Graves has just returned from the east, where he met the directors of the company. He says that the new three compartment main working shaft, which it is estimated will cost the company $100,000 when completed and equipped, will be started shortly and will be so situated and arranged that the ore can be delivered to either the C.P.R. or Great Northern for transportation to the company's smelter at Grand Forks. It will be located somewhere back of or between the Granby and the Old Ironsides hotels.

It is the intention to equip the headworks at the shaft with the latest and best hoist to be had, together with an ore crusher similar to the two now in use at this company's mines, which will have a capacity of about 1500 tons daily.

On being asked regarding the progress of the increase of furnace capacity, etc., at the smelter, Mr. Graves stated that the new work was progressing satisfactorily, the machinery for the two new furnaces is on the ground and being set up, the brick for the new smoke stack and flue dust chamber is practically all burned and being laid, and that some time the latter part of July the complete battery of eight furnaces would be in working order. With the new electrical equipment needed, the works will use up ore at the rate of from 75,000 to 80,000 tons monthly, and turn out copper bars at the rate of 60,000 to 75,000 pounds per day, besides the gold and silver values.

This week the Granby company sent out the first ore from the recently acquired Monarch claim, about 100 tons having been shipped to the smelter. At present the ore for these small shipments is being taken to the C.P.R. by wagon, but it is expected to construct a tramway a little later for the economical handling of the ore from the Monarch.

ZEMSTVO INSISTS ON CONFERENCE

Will Endeavor to See Czar Personally on Monday Next

St. Petersburg, June 9—The important fact developed today that the Moscow meeting of zemstvoests and mayors has not finally but merely temporarily adjourned to await the emperor's answer to the deputation despatched to him with the sensational address telegraphed from Moscow yesterday, demanding the immediate convocation of a national assembly. Count Hayden, who heads the deputation, is here trying to arrange for its reception which he would like to occur on Monday, when the other members arrive. They are all of the nobility and all, therefore, by an ancient law of Russia, are entitled to be present.

PRESBYTERIAN SYNOD

IMPORTANCE OF THEOLOGICAL COLLEGES IS EMPHASIZED

SPECIAL NEED FOR SUPPORT OF INSTITUTION AT MONTREAL

Kingston, June 9—At this morning's session of the Presbyterian assembly the report of the trustees was presented. The receipts for the schemes of the church were greater than for many preceding years, and amount to nearly half a million dollars. The report recommended further efforts on the part of the churches toward systematic giving, which would largely increase the results. It also recommended that Rev. Dr. Warden, who had been seriously ill, be granted leave of absence and that his son, Alexander Warden, be appointed deputy agent and treasurer. The report was adopted.

Much of the time of yesterday afternoon was spent in considering college reports. The speakers all urged strengthening of the halls of learning to make them halls of life, lifting and spiritual. It was declared that Canada could not have too many of these theological institutions.

Principal Patrick called for vigorous help for the Montreal Presbyterian college, declaring that Protestantism has to stand strong in that city. Remove Montreal college, he said, and Presbyterianism would lose ground not only in that city but throughout the dominion.

Home missions was the subject of the evening session.

DROWNED IN GASOLINE LAUNCH

Marsfield, Oregon, June 9—James Costello, an Oregon pioneer, and W. Harris, a young man, were drowned off the mouth of Coquille river, yesterday by the wrecking of a gasoline launch. They were bound for the deep sea fishing grounds when heavy waves disabled the engines of the craft and carried it on the rocks.

ST. PETERSBURG IN LINE

Will Join the Moscow Deputation to Emperor Nicholas

St. Petersburg, June 10—The municipality of St. Petersburg has decided to give its adhesion to the address to emperor Nicholas adopted by the all-Russian congress at Moscow, and has appointed a number of its members to join the deputation from the Moscow congress which will present the address to the emperor.

PHILIPPINE LEADER KILLED

Another Revolutionary Chief Joins the Great Majority

Manila, June 10—Enrique Daguhob, leader of the insurrection movement in the island of Samar, was killed together with 39 of his followers on June 4, according to advices just received.

CHICAGO EMPLOYERS FIRM

Chicago, June 9—That the teamsters must meet all of the conditions laid down by the employers or declare the strike off without making any settlement, now seems from the employers' standpoint to be the logical outcome of the struggle. Another attempt to arrange for a new peace conference has resulted in a reiteration by the employers that they will make no further concessions.

BURNED TO DEATH.

Myrtle Creek, Oregon, June 9.—Miss Hattie Dement, one of the proprietors of the Overland hotel here, wsa burned to death yesterday in a fire that destroyed the building and endangered the lives of many guests, who escaped by jumping from windows. The blaze is believed to have been of incendiary origin.

LET THE RUSSIAN ESCAPE

London, June 9—The Tokio correspondent of the Daily Telegraph says that some of the Japanese torpedo boat destroyers which were chasing the Russian cruiser Izumrud were ordered back, the Japanese allowing the cruiser to scape.

EXHUME CHIEF JOSEPH'S BODY

Wilbur, June, 9—Indians are gathering at Nespelim, for ceremonies attending the exhuming of the body of their late chief, Joseph. The remains will be permanently buried.

POLICE CHARGE MOSCOW RIOTERS

Moscow, June 9—The police with drawn swords charged a mob of 2000 workmen and wounded many of them. The mob stood fire from revolvers which were loaded with blank cartridges, but scattered when the police charged them with swords.

MENACING SITUATION

International Conference of Powers is Still Bone of Contention

France Will Not Accept German Interpretation of Treaty of Madrid--British Ambassador Received at Fez

London, June 10.—The correspondent of the Times at Tangier reports that Germany has notified her acceptance of the invitation to the proposed conference on the Morrocan situation. This is believed to mean that no negotiations for a mutual arrangement between Berlin and Paris is now possible.

Fez, June 9.—Gerrard Lowther, British minister to Morroco had an hour's private audience with the sultan this morning, and the political situation was fully threshed out. The cordiality of the sherifian ruler noticeably differed from his attitude at the official reception of the British minister. It is still hoped here that an agreement will be reached directly between France and Germany as otherwise a long diplomatic struggle, disadvantageous to all, is foreseen.

Paris, June 9.—Germany's note to the powers proposing an international conference on the subject of Morroco is regarded in the highest quarters as renewing the gravity of the situation almost to the point of making it menacing. France has received a copy of the note showing that Germany has acted openly in appealing to the powers notwithstanding the official statement from Berlin that Morroco invited the conference.

The officials here interpret the German note as showing that Germany is the real upholding of the conference. The text of the note shows that Germany relies mainly on article 17 of the treaty of Madrid, signed July 3rd, 1880, which recites that Morocco recognizes the most favored nation treatment in the case of all powers represented at the conference. The German note holds this gives the powers equal rights to consider the affairs of Morocco.

The French answer is as follows: "Article 17 refers to the preceding articles which deal solely with the protection of the lives and property of foreigners residing in Morocco. Therefore article 17 gives the powers dual treatment concerning the protection of lives and property but does not allow the German claim that the powers agreed to exercise equal political control of Morocco."

It is desired that Washington and other capitals receiving the German note observe the application of 17. A cabinet council on Morocco will consider the note. The nature of France's official answer is still in doubt owing to premier Rouvier's desire to avoid widening the breach between Germany and France.

MILLION TONS A YEAR

GROWING OUTPUT OF BOUNDARY DISTRICT MINES

DEFECTION OF AN IMPORTANT MINE NO LONGER AFFECTS SHIPMENTS

(Special to The Daily News)

Phoenix, June 9—Shipments of ore from the mines of the Boundary for the month of May show the total to have been almost exactly what the output was in the month of April. The total for May is given as 80,044 tons, while that for the preceding month was 80,102 tons or at a rate of nearly a million tons per annum. In the month of April 13 mines contributed to this total, while 11 of the well known mines are on the May list. Owing to the closing of the Montreal and Boston mines for the time being, the June total will doubtless be short, but with the blowing in of the two large new furnaces at the Granby smelter soon, the July total should again be well up.

The following are the shippers for May:

Granby mines	55,420
Mother Lode mine	13,600
Brooklyn	7,002
Rawhide	2,110
Mountain Rose	485
Dominion Copper company	410
Oro Denoro	387
Emma	278
Providence	40
Skylark	50
Last Chance	207
Miscellaneous	75
Total	80,044

FERNIE APPEAL CASE DISMISSED

Before the full court at Vancouver on Thursday last, the appeal in the case of Lee vs. the Crow's Nest Pass Coal company, was dismissed. The case is an appeal from an arbitration award at Fernie in June last, under the Workmen's Compensation act. Robert Lee was a shot lighter, who was killed in the mine of the C.N.P. Coal Co., near Michel. His widow made claim for $1500. The matter was tried before a county court judge as arbitrator and he awarded the full amount of the claim. The company appealed against the arbitration. The court held that there was no reason for interfering with the arbitrator's decision, and dismissed the appeal with costs.

Delicious Creamery Butter

Our own Brand. Shipments every three days direct from the Creamery.

1 lb Bricks
14 lb Boxes

TYPOGRAPHICAL UNION LABEL NELSON NO. 340

CENTRAL ASIAN QUESTION

There are many alarmists in the public press and upon the public platform who have expressed the opinion that Russia, turned from Manchuria and an ice free port (at the expense of Japan), will endeavor to force a way through Persia to the head of the Persian gulf and there find that port (at the expense of this empire). Without going into the question of the strength of the Indian garrison, or that of the relations of the kingdom of Afghanistan with the great satrapy of Hindustan sufficient comfort should be found if those alarmed will merely reflect that a bankrupt nation, for that will be the position of Russia after an emergence from the present war with a huge indemnity saddled upon the country, a nation whose people are on the verge of revolution, a nation whose rule in Asia has been the power of the sword, and who, therefore, with a lost prestige, will find it difficult to keep a hold on the hard won oases of Central Asia, a nation whose fiefs of Finland and Poland are almost in open insurrection, will be in no position to force a way through the tableland of Persia to the valley of the Tigris and Euphrates. Russia is hardly the dominant factor in Central Asia today and it will tax the powers of the Muscovite to even retain what they there hold.

EDITORIAL NOTES.

The by-law for the administration of the city fire brigade, approved and passed, by a majority of the city council at yesterday's special meeting, appears to be an excellent measure and one which will meet with the strong approval of a large majority of Nelson ratepayers. While maintaining the authority of the council over the chief and all the members of the brigade the chief is given a sufficiently free hand to warrant the hope that the management of the brigade for the future will be on non-partizan lines. The by-law, we think, will also meet with the strong approval of the insurance underwriters, association who may be induced to favorably consider a reduction of rates provided the terms of the by-law are lived up to by the council.

The treaty of commerce between Great Britain and Cuba has been signed at last, after pending for a year. President Palma refused to have inserted in that treaty the most favored nation clause, openly taking the ground that Great Britain should not be expected to be placed on an equality with the United States. The incident will be used, more or less effectively, by both opponents and supporters of Chamberlain's fiscal policy.

The Turkish government, having learned that there were four British men of war at the head of the Persian gulf, lately instructed the Turkish minister in London to ask for an explanation. Lord Lansdowne, however, merely said he "was without information" on the subject and declined to discuss it. It is evident that the Sublime Porte has just awakened from a Rip Van Winkle sleep. Russia asked a similar question several years ago and had nothing to say when the late Marquis of Salisbury most unequivocally replied.

To battle for nine years against a trust with unlimited resources would be an achievement for a great commercial company, says the San Francisco Bulletin. No one would expect a single individual, and a woman at that, to make such a struggle and survive. Yet that is what has been done by Mrs. Fiske, the wonderful actress and wonderful woman, who has come to San Francisco to present the dramatic success of the year "Leah Kleschna." The history of the stage contains no parallel to Mrs. Fiske's fight for independence. Pitted against her are a band of money wolves who have shown no mercy. Every obstacle has been placed in her path. Although the press and public agreed and still agree that she is the greatest American actress of her time, theater after theater has closed its doors against her. Discomforts and hardships have been her portion, but she has fought for the freedom of art and her courage has never failed her. To day she is battling on, confident that the people will soon see the light. On them she relies. She knows that when they become aroused they will put to rout the commercialists who would turn a temple of art into a department store.

Coast papers are poking fun at the mayor of Nelson and his alleged fear of assassination. The Vancouver World thinks that the mayor is chiefly anxious to advertise himself. It does not agree with those who are inclined to question his worship's sanity and concludes a humorous editorial on the "assassination" episode by saying: "But John Houston does not stand in any danger of assassination. People do not take him seriously enough for that. In fact, the only man who takes John Houston at all seriously is John Houston himself. So no one need feel alarmed lest the peace of British Columbia may be disturbed by a fell crime in Nelson."

The enormous advance made of late in wireless telegraphy is hardly realized by the average reader of the daily press. The local lecture and practical demonstration of the working of the Marconi system which Mr. Munroe gives today, and the free exhibition at the Success club this evening should be largely attended. We are all more or less interested in what promises to accomplish a revolution in the way of quick intercommunication without the use of wires. The opportunity should, and probably will be seized upon by a large number of citizens to see for themselves how the system works from a commercial point of view.

Colds

It should be borne in mind that every cold weakens the lungs, lowers the vitality and prepares the system for the more serious diseases, among which are the two greatest destroyers of human life, pneumonia and consumption.

Chamberlain's Cough Remedy

has won its great popularity by its prompt cures of this most common ailment. It aids expectoration, relieves the lungs and opens the secretions, effecting a speedy and permanent cure. It counteracts any tendency toward pneumonia.

Price 25c, Large Size 50c.

"Where is there a better place than Manchuria? That is beyond the sphere of European influence and is practically neutral territory. It is in direct communication with the respective capitals. Linevitch and Oyama confronting each other upon the field where they fought could arrange the preliminaries. Once the main principles as to indemnity, the status of Sakhalien and Vladivostok, and the question of the Russian ships in neutral waters in the far east are adjusted, all other questions could easily be settled."

ANOTHER RED CROSS SCANDAL

Russian Thieves Appropriate Tobacco Intended For Soldiers.

Kazan, European Russia, June 9.—Another Red Cross scandal has developed through the discovery that a donation of tobacco intended for distribution among the soldiers is now on sale at Harbin.

A FOOL AND A FIREARM.

Son Kills His Mother Through Playing With Loaded Rifle.

Amsterdam, N. Y., June 9.—Irvin Blood, aged 22, shot and instantly killed his mother, Mrs. Wesley Blood, at their home in the town of Florida, this afternoon. The family had just finished dinner, and the young man was handling a rifle when it was accidentally discharged.

RUSSIANS INTERNED AT MANILA.

Washington, June 9—Secretary Taft has received the following cablegram from governor Wright at Manila: "The Russian warships did not leave the harbor within the required 24 hours, and as a result, are now in custody of admiral Train, who informs me he has taken necessary steps to intern them. They are now behind the breakwater under the guns of the Ohio and Monadnock. He has doubtless reported full details to the navy department.

MICHIGAN FLOODS.

Grand Rapids, Mich., June 9.—The crest of the Grand River flood has passed and although the river remains practically stationary, a scarcely perceptible fall is reported by the weather bureau. A continually increasing proportion of the west side is being flooded by water which is backing up from below. Hundreds of residences are surrounded which were high and dry yesterday. The prospect is that the flooded area will extend greatly today, even with the river receding.

CHICAGO STRIKE MAY SPREAD

Peace Negotiations Failing the Trucksters May Now Fall in Line

Chicago, June 8—Peace in the teamsters' strike seemed today as far away as ever. Settlement with the express companies and a demand that the police be withdrawn from the wagons and the calling off of the strike were apparently insuperable obstacles to an adjustment.

With peace efforts again coming to naught, the prospective spread of the strike to the trucksters employed by members of the team owners' organization, was today again a vital isue.

OROVILLE BOOMS

Oroville, Wash., June 8—The confluence of Okanagan and Similkameen rivers in eastern Washington, is a scene of a great boom owing to the approach of the Victoria, Vancouver & Eastern railway, now headed for it. A short time ago Oroville had only a general store and a saloon. Now it contains half a dozen hotels, three banks, ten saloons, and is building up with great rapidity.

It will pay you to keep Chamberlain's Colic Cholera and Diarrhoea Remedy in your house. It only costs a quarter. Sold by all druggists and dealers

VICTUALLERS ASSOCIATION.

Harmoniously in Favor of Proposed License Legislation.

(Special to The Daily News)

Grand Forks, June 9.—At an adjourned meeting of the Provincial Victuallers' Association held this morning an unanimous vote was taken in favor of the proposed rural and city license legislation introduced at the last session of the Provincial house.

It was also decided to hold the next annual meeting at Revelstoke on the first Saturday after the second Tuesday in June, 1906.

PEACE NEGOTIATIONS.

Will Take Place, if At All ,Upon Manchurian Soil.

St. Petersburg, June 9.—The ambassador of one of the great European powers has expressed the opinion to the Associated Press that the exchange of peace proposals would not occur at Washington or at any European capital, but upon the battlefield of Manchuria. "Russia and Japan desire to conduct the negotiations," said the ambassador.

MAYOR DESERTS COUNCIL

FIRE BY-LAW PASSED BY MAJORITY OF ALDERMEN.

COULTER AGAIN REINSTATED AND AGAIN SUSPENDED.

A by-law dealing with a most important subject, the administration of the city fire department, was passed by the city council yesterday morning after the mayor had withdrawn from the meeting and summoned two aldermen to follow him. The three returned in time to adjourn. There were other features of the meeting. The mayor gave notice that he would nullify a resolution of the council dealing with civic finance.

Coulter for the third time S. E. Coulter was reinstated by the council as driver of the fire team. The mayor again announced that he would suspend him, and again declined to give any reasons.

On a recommendation contained in a report of the street railway, fire and light committee, it was decided to restore the 40 minute service on the street railway system, and to install a double car service on Sundays and whenever it was warranted by the traffic. A clause in the report declaring that no outsider should tampered with the fire team, but that the horses had suffered from lack of grooming, was rejected by the council. A motion to improve several streets, all above Silica, and Silica west of Josephine, was referred, after discussion to the public works committee.

The council convened at 10.30 with all the members present. A report was presented by the street railway fire and light committee, signed by aldermen Kirkpatrick and Malone. On motion of Aldermen Bird and Gillett it was considered clause by clause. The first four clauses were adopted. They recommended that the 40 minute car service be restored, that all cars run to the terminals and that time tables be posted in public places; that the large car be re-painted; that on Sundays the service begin at 1 p.m. and be doubled from 1 to 6 p.m., conductors and motormen to be allowed double time for all over-time on Sundays; that three pull-down hooks be purchased for the fire hall.

The fifth clause read: "We have investigated the charge that some outsider has entered the hall put vitriol on the horses' heads. We believe that the sores were caused by friction of the straps and lack of grooming. The horses are in better condition now than before."

Aldermen Annable and Gillett at once protested.

"The mayor—You disagree with two of your colleagues and prefer the opinion of the fire chief?

Ald. Annable—Certainly.

Ald. Macdonald—The fire chief said that his opinion was endorsed by a druggist and a veterinary surgeon who examined the horses at the time.

The mayor—I asked the chief of police his opinion. He smiled in a way that gave me the impression that he had no stock in it.

Ald. Malone—We examined the assistant chief. He says that he has seen similar head sores on the Spokane fire department horses. From the shape of the sores I think it must have been caused by the straps. Why not leave it to a committee of impartial and competent men to judge?

Ald. Annable—S. S. Taylor for instance.

Ald. Malone—No. There are plenty of teamsters in the city who understand horses. I think it is an insult to the city to suspect any one of such a dirty trick as putting vitriol on a horse's head.

Ald. Bird—I quite agree with you as to the character of the act.

The fifth clause was then rejected and the report as amended was adopted, aldermen Malone and Kirkpatrick dissenting.

Ald. Malone—I take it, that means that the council refuses to investigate?

Ald. Bird—Not at all. We would welcome an investigation.

Chief Sargent's report for May was then presented. He asked for several purchases for the fire hall. He reported that some persons had entered station No 3 and removed several articles. Three discarded bells had been disposed of. Many hydrants in the city above Victoria street, he reported, are overgrown with grass and weeds which should be removed. On motion of Ald. Bird the report was received.

The mayor reported that the claim of D. McArthur & Co. in respect of damages received from the bursting of the Ward street sewer, had been adjusted for $100. On motion of Ald. Bird, seconded by Ald. Macdonald, the settlement was declared to be satisfactory, and the amount ordered to be paid.

The mayor reported that the two steamboat companies has requested the city to put in two dolphins at the city wharf to improve the accommodation for steamers. After some discussion, Ald. Bird moved that the matter be referred to the public works committee.

The mayor—If anything is to be done, it must be done quickly. The work is being done now. The chairman of the public works committee and myself took the responsibility. If the council disapproves it will be stopped at once.

Ald. Bird—We don't wish to balk any useful work.

Ald. Gillett—A meeting of the committee should have been called.

Ald. Malone—The pile driving crew had just finished one contract. It was convenient to have this work begin at once.

The work was then ordered by an unanimous vote.

Ald. Bird—Will the mayor state what action has been taken towards reinstating S. E. Coulter?

The mayor—Mr. Coulter appeared when he was reinstated. I suspended him. I intend to keep on suspending him.

Ald. Gillett—On what charge?

The mayor—I don't have to give any reason.

Ald. Bird—Has the order of the council that a cheque be paid to Coulter for May been obeyed?

The mayor—No. I'll sign no cheque to a man who has done no service. I believe I am acting in the city's interest.

Ald. Bird—I entirely disagree with you.

A motion of Ald. Gillett, seconded by Ald. Kirkpatrick, for the improvement of Hall street between Silica and Carbonate, and of Silica street, between Josephine and Ward, was discussed at some length and finally referred to the board of works on the motion of aldermen Bird and Annable.

Ald. Annable then moved, seconded by Ald. Gillett, that "Owing to the refusal of the mayor to order a cheque to be issued to S. E. Coulter, as ordered by the council aldermen Bird and Macdonald be authorized to issue such cheque, and that the city clerk notify the Bank of Montreal under the city's seal of the issue of such cheque."

The mayor—This is out of order. The city seal will never be used for such purpose.

The resolution was adopted, aldermen Kirkpatrick and Malone dissenting. S. E. Coulter was then reinstated on motion of aldermen Bird and Annable.

Ald. Annable then introduced by-law 159, "to provide for the administration of the fire department. It received its first and second readings by title. The council then went into committee of the whole with Ald. Annable in the chair.

With the remark, "Well, consider it. I don't think I want to bother with it," the mayor rose and left the council chamber.

A moment later Ald. Malone was called out.

Ald. Annable—It is your turn next, Jack.

Ald. Kirkpatrick—I don't think so.

The summons came in less than a minute. As Ald. Kirkpatrick obeyed:

Ald. Macdonald—Will you be back, Jack?

Ald. Kirkpatrick—I don't know.

The by-law was then considered clause by clause. The full text appears elsewhere.

As the committee rose to report progress, the progressive mayor and aldermen returned.

The report was adopted, and the by-law received its third reading, the mayor instructing the acting city clerk to record him as opposing the by-law.

Ald. Annable gave notice that at the next meeting of the council he would move that the by-law be reconsidered, finally passed and adopted.

The council then adjourned to June 19th.

Following is the fire bylaw introduced at yesterday morning's session of the city council by alderman J. E. Annable. It follows the general lines of similar bylaws in all Canadian cities, and is in accord with the recommendations of chief Sargent in his first report to the council.

The municipal council of the corporation of the city of Nelson in council assembled enacts as follows:

1. (a). The fire brigade of the city of Nelson shall be composed of a chief, an assistant chief, a driver, and one permanent fireman, who will be on monthly pay, and six volunteers who will be known as callmen, of whom four will be required to sleep in the fire hall.

1. The chief of the department shall be head of the department and is charged with the duty of preventing and extinguishing fires and of protecting property from damage by water used at fires.

2. He shall, subject to the statutory power of the mayor, have control and direction of the department, and be responsible to the council for its proper management.

3. All other officers and members of the said department shall be appointed by him, with the approval of the council.

4. All officers and members who shall be employed in said department shall be subject to such rules and regulations, and shall perform such duties as shall be prescribed or required of them by the said chief.

5. Subject to the statutory power of the mayor, the chief shall have full control of the organization, government and discipline of the fire department, and all persons employed therein; and he may prescribe and establish from time to time such rules and regulations as he may deem advisable relating thereto, subject to the approval of the council.

6. He shall have the custody, subject to the direction of the council, of the engines, hose, wagons, trucks, ladders, horses and all other property belonging to the fire department.

7. He shall enquire into the causes of all fires which may occur in the city as soon as possible after they occur, and shall keep a record of all such investigations in his office.

8. He shall at least twice a year examine into the condition of the fire apparatus and fire halls, and shall report the same to the council on or before the first day of January in each year.

9. He shall at the same time submit a full report of the condition and efficiency of the department, giving in detail the position, location and date of the appointment of each member of the force and a detailed statement of the apparatus, equipment, appliances, horses, surplus stores and other property of the department.

10. He shall also at the same time make a full report of all fires that may have taken place in the city during the preceding fiscal year, with causes thereof as fully as they can be ascertained; the number and description of the buildings destroyed, and injured in connection with such fires, together with the names of owners and occupants; and of all accidents occurring to the employees of the department.

11. The chief shall determine all cases of violation of any rule, regulation of order of the department, or other breaches of discipline, and shall have power to punish the offending parties by reprimand, forfeiture, withholding pay for a specified time, or dismissal from the department, subject to the approval of the department.

12. If any charges are made against any member of the department the chief may suspend any such member from duty until such charges have been investigated.

13. The chief shall report monthly to the council in writing all appointments, promotions, transfers, suspensions, dismissals and other changes of the personnel or distribution of the force; all changes in apparatus, equipment and appliances used by the department, and the location thereof; details of all cases of breach of discipline in the force, without giving the names of the offenders, and generally all important matters of public interest relating to the department.

14. He shall keep a full and complete record of all transactions in said department of complaints against members, and of all property placed in his hands, and such other books and records as the business of the department may require.

15. He shall prepare on or before the first day of February in every year, an estimate of the whole cost and expenses of providing for and maintaining the fire department of said city during the current year, which estimate shall be in detail and shall be laid before the council.

16. The chief or assistant chief in command may prescribe limits in the vicinity of any fire within which no person excepting those who reside therein, firemen and police, and those admitted by order of any officer of the fire department, shall be permitted to come.

17. The chief or assistant chief in command at any fire shall have power to cause the removal of any property, whenever it shall become necessary for the preservation of such property, or to prevent the spreading of the fire, or to protect the adjoining property.

18. The chief or assistant chief may direct the hook and ladder men to cut down or remove any building, erection or fence for the purpose of checking the progress of the fire.

19. The assistant chief shall perform all such duties as the chief may require, and in the absence of the chief shall perform all his duties.

20. He shall be constantly on duty at his headquarters, except when necessarily called elsewhere on department business, or when on leave of absence.

21. He shall see that the premises in which fires occur are left in such condition that they will not rekindle and cause further damage to life or property.

22. In the absence of the chief, the command and responsibility of the operations of the force at fires shall devolve on the assistant chief, or other senior officers present.

23. It shall be the duty of the assistant chief to cause order to be preserved in the department, especially when going to, working at, or returning from fires.

24. No officer or member shall engaged in personal altercation under any circumstances.

25. No member of the department shall take any part whatever in election matters, other than to vote.

26. No member of the department shall wantonly or maliciously make any false report of any other member, either as to any offence or as to the business of the department, calculated to cause disturbance, or to bring any member of the department into discredit.

27. No member of the department shall loan, sell or give away any public property; every member shall carefully protect such property from waste or abuse, particularly fuel, horse feed and forage, in quarters or elsewhere.

28. No member of the department shall at any time be under the influence of liquor of narcotics.

29. No member of the department shall be guilty of conduct unbecoming an officer or a gentleman, or of conduct in any way prejudical to the good reputation, the order or the discipline of the department.

30. No member of the department shall be guilty of any deception or evasion of any law, ordinance, rule, regulation or order, general, special or verbal.

31. No member of the department shall unnecessarily disturb any other men asleep in the dormitory.

32. All members of the brigade shall be British subjects.

33. This bylaw shall be cited as Fire Bylaw, 1905.

34. Section 21 of the Fire Limits bylaw, bylaw No. 74 of the bylaws of the city of Nelson is hereby repealed.

JUST WHAT EVERYONE SHOULD DO

Mr. J. T. Barber of Irwinville, Ga., always keeps a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy at hand ready for instant use. Attacks of colic, cholera morbus and diarrohea come on so suddenly that there is no time to hunt a doctor or go to the store for medicine. Mr. Barber says: "I have tried Chamberlain's Colic, Cholera and Diarrhoea Remedy which is one of the best medicines I ever saw. I keep a bottle of it in my room as I have had several attacks of colic and it has proved to be the best medicine I ever used." Sold by all druggists and dealers.

SCHOFIELD IN MANAGER.

Toronto, June 8.—G. B. Schofield was yesterday appointed general manager of the Standard bank, succeeding G. R. Reid, who has resigned.

LAME SHOULDER

There are three common ailments for which Chamberlain's Balm is especially valuable. If promptly applied it will save you time, money and suffering when troubled with any one of these ailments. For sale by all druggists and dealers.

LATEST JAPANESE LOAN.

New York, June 8.—It developed today that nearly $60,000,000 of the money raised in the United States by the sale of the last issue of Japanese imperial bonds will remain on deposit in this city for an indefinite period. The money will be allowed to remain in the banks and trust companies until gradually withdrawn in the course of regular financial operations.

THE SALVATION OF SHOES.

HAVE you ever yet worn out the upper part of a shoe? If you could get Soles that wore as long as Uppers wouldn't it cut down your shoe bill?

Well—here you are at last—"Quick-Oak" Sole leather, which is tough as rawhide, but almost as light as cork.

Soak it in water for four steady hours and it won't be wet through.

Put the highest priced regular Oak leather in the same vessel and it will be entirely water-soaked in one-fourth that time.

"Quick-Oak" is the safest sole leather that ever happened, because every sole of it can be relied upon for wear and water-resistance every time.

We had to sign a big contract to control "Quick-Oak" Sole for Canada, so that it can now be had only in the genuine "Slater Shoe."

These shoes are made by the Slater Shoe Company, and have stamped on the lining a slate-frame with the retail selling price, $4.00 or $5.00.

"The Slater Shoe" has always been a pretty safe thing to buy, but "Quick-Oak" Soles now make it safer, longer-lived, more damp-proof than ever.

ROJESTVENSKY THANKED

BOUNDLESS BRAVERY ACKNOWLEDGED BY THE CZAR.

ALLEGED MISBEHAVIOR OF CREW DISCOUNTED IN RUSSIA.

St. Petersburg, June 9.—Emperor Nicholas has cabled the following message to admiral Rojestvensky: "From my heart I thank you and all of the officers of the squadrons who have honorably done their duty, for your unselfish work for Russia and for me. By the will of the Almighty success was not destined to crown your endeavors but your boundless bravery will always be a source of pride to the country. I wish you a speedy recovery. May God console you all. (Sgd). Nicholas."

The serious wording of the message is attracting attention. The reception of the emperor's thanks to those honorably doing their duty is fanning the ugly reports regarding the surrender of ships and the conduct of some of the crews.

The messages of admiral Enquist and captain Chagin of the Russian cruiser Almaz did not contain any intimation of misbehavior on the part of the officers and crews and added that the officers and men may be consoled by the thought they have performed their sacred duty.

GRAND FORKS NEWS NOTES

Chronicle of the Doings of the Gateway City.

[Special to The Daily News]

Grand Forks, June 9.—The Yale Lumber company, over a question of disputed ownership, have caused the arrest of manager A. Boulais of the Danville sawmill at Danville, Washington. Mr. Boulais is charged with having stolen saw logs. He was committed for trial at Republic by the Danville magistrate, bail in $400 being taken.

Charles Peterson has left for Hedley where he will engage in the hotel business.

Alex Miller of the Greenwood Strathmore Mining company, has been in the city for the last few days visiting friends.

The police commissioners have decided to cut down the police force to one constable. The query now is—who is to be the lucky individual?

Robert Gow has returned from a three months' trip to Calgary.

Dr. G. W. Averill has left for California on a six months' trip.

General manager Jay P. Graves, of the Granby company, is here on a tour of inspection.

The McKinley Mining company are extending the government wagon road six miles further to their property. The provincial government may aid them in the work in order that it shall be completed this fall.

REGATTA IN AUGUST.

The meet of the North Pacific Amateur Association of Oarsmen will be held this year at Victoria, and the dates set are Friday and Saturday, August 4th and 5th. The races will be rowed on Esquimalt harbor, which, at that season of the year, is generally calm, although at any other time is very choppy.

The Vancouver club is making energetic preparation for the events, and has engaged as coach and trainer, as already mentioned in these columns, Chas. Stephenson, champion oarsman of New Zealand. He has been in Vancouver a few days looking over material available for crews and has expressed himself as well pleased with the way some of the men show up. He started in yesterday to coach, and gave some very good advice to the budding oarsmen. He has rigged up a rowing machine on the float and while the oarsman is to all intents and purposes pulling a boat at a great rate, he is really only making his oar act as a sieve for the water, there as so many holes bored in it. He, however, gets into the proper swing, the correct way to "feather" and how to keep time.

Nelson will be well represented at the regatta and the local men hope to make a good showing.

ARMIES IN MANCHURIA.

Japanese Obtain the Advantages in Outpost Skirmishing.

Tokio, June 9.—The army headquarters have given out the following statement: "A detachment of our forces which advanced from Leinshuichwan, two miles east of Chenchensu, dislodging one company of foot and fifty horse of the enemy occupying the hills north of that place, and at 3 o'clock on the morning of June 7th occupied an eminence east of Chapengam and four miles north east of Chenchensu. At 6 o'clock on the same morning, the enemy attempted an attack on Soufaugtao, ten miles north of Chengtu and on Taotun, five miles northwest of Changtu and on Shihtiuti, two miles north of Taotun. All attacks were repulsed.

DOWIE WILL INVADE PARIS

Engaged on a Mission to Drive Sin From That City

New York, June 9.—A Chicago despatch to the Tribune says that John Alexander Dowie will try to drive sin from Paris and is now engaged in gathering in Zion city, the legions for his "French restoring host," which will be sent on to the French capital as soon as Mr. Dowie can raise $200,000 and get together 3000 men. The invasion will be similar to the one in New York but no women will be taken with the party.

SPRAINED ANKLE, STIFF NECK, LAME SHOULDER

The Ways of a Watch

The ways of a watch are past finding out. Don't try. If your watch is lazy and won't run, let our repairer spur it up—W'll make it on time to a dot. Ten to one you've neglected it—let it get dirty; or rusty from lack of oil; may be given it to the baby to play with. We get plenty of watches bearing the tell-tale marks of little teeth.

Whatever's the reason, don't delay; delay costs money and spoils the watch. We give thorough examination and regulating free—anything more costs as little as satisfactory work can be done for.

TWO DAYS CELEBRATION

DOMINION DAY SPORTS WILL COVER JUNE 30, AND JULY 1

LONG AND ATTRACTIVE PROGRAM TO BE PROVIDED

The general committee on Dominion Day celebration decided last evening on two days' festivities instead of one. The finance committee's success, and the number of acceptances received from outside athletic teams made the extension possible and desirable. The program is well under way and will be printed and distributed early next week.

Mayor Houston took the chair at 8:30. J. A. Kirkpatrick, F. Starkey, T. G. Procter, F. Bosquet, J. Dover, W. Irvine, G. W. Bartlett, J. J. Malone, E. J. Brown and W. R. Thompson were present. The minutes of the last meeting were adopted. W. Irvine, for the finance committee, reported that the collections would exceed $1000. T. G. Procter reported that the flower show committee has got from merchants sufficient prizes for the show. The sports committee presented a draft program calling for $1235. A discussion followed.

J. Dover—Mr. Chairman, celebration committee and gentlemen. I am of the opinion, and I think, and every gentleman will confirm; he'll agree with what I confirm; that's right. We want a good celebration. We got lots of money and we want a good celebration. I want to make that motion. I think everyone agrees with me. It doesn't matter if it takes three days.

The mayor—We have listened to Mr. Dover with pleasure. Now let us get down to business.

The estimates were then revised and finally adopted as follows:

Firemen's sports, two contests	$250
Lacrosse, three matches	150
Baseball, Nelson vs. Trail	100
Football, Nelson vs. Sandon	150
Horse races	50
Children's races	25
Caledonian sports	35
Basketball	25
Launch races	50
Rock drilling	150
Total	$1160

It was then resolved on motion of T. G. Procter to have two days of celebration.

J. J. Campbell and R. M. Macdonald who were present by invitation on behalf of the choral society, offered a performance of Rose Maiden the evening of Dominion Day, expenses, $165, to be a first charge, the surplus to be divided equally between the society and the committee. The offer was unanimously accepted.

The price of admission to the building and grounds during the celebration was fixed at 50 cents for the day and 25 cents for the evening, children between 10 and 15 years old, half price in the day time, children under 10, free.

A donation of wire for lighting from the Kootenay Electric Supply company was gratefully acknowledged.

The flower committee undertook the responsibility for the parade. Principals Fraser and Sullivan will assist. T. G. Procter was elected grand marshal. The meeting then adjourned.

GRAIN AND STOCKS

Chicago grain—Liverpool opened 1-4 lower and closed unchanged. Our market very quiet and sold within a narrow range, July opened 86, sold down to 85 5-8, up to 86 3-8 @ 1-2, and closed at that figure; Sept opened at 81 3-8, closed 81 3-4 @ 7-8. Corn, July showed some weakness today, opening at 51 1-2 and closing at 51 7-8; Sept. opened 50 3-8 and closed 50 5-8. Oats practically unchanged, July closed 31 1-4 @ 3-8; Sept. 29. July pork closed $12.55; Sept., $12.82.

New York stocks, very quiet, there being only 81,000 shares traded in up to noon. Copper opened 79 1-2, closed 80; U.S.S., 26 3-8, closed 26 1-2, preferred 93, closed 93 1-4; Peo. Gas., 100 1-2; Man., 164 1-4, closed 163 1-4; B.R.T. 62 3-4, closed 62 7-8; Met., closed 119; St. Paul, 172 3-4, closed same; U.P., 121 3-4, closed 122 1-8; Mo. Pac. 97, closed 98; L. & N. 145, closed 145 1-4; Erie 40, closed same; So. Pac., 61 3-8, closed 61 5-8; C.P.R., 147 1-2, closed 148; Penna., 134 1-8; B. & O., 108; Reading, 94 3-4, closed 94 1-2. In spite of the dullness the market did well, Mo. Pac. gaining 1 point; L. & N. 1 1-4 points; and Copper, 3-4. Money closed at 2-1-4 per cent.

Reported by I. C. Major and company, Nelson, June 9.

NELSON'S NEWS OF THE DAY

Practices for the reproduction of Rose Maiden is the next thing in musical circles.

Despite the highness of the water some good catches of fish are being made below the city.

After the late changeable weather holiday seekers are glad to note that the barometer is once more "set fair."

Tomorrow is Whit Sunday, the last great festival of the Anglican church, excepting All Saints, for the present ecclesiastical year.

The Bell Trading company give notice that they will close their store every Thursday at noon, during June, July and August.

W. J. Astley declares that he is picking strawberries in his favored residence across the lake. There ought to be a migration in consequence.

The working of the Marconi system will be demonstrated all today at the Success club rooms and this evening commencing at 8 o'clock Mr. Munroe will give a free exhibition to which the public is cordially invited.

James O'Shea lost his canoe recently, which was recovered by an incoming steamer in the middle of the lake. Naturally the report was circulated that it had gone to pieces in the rapids below the city.

Thinking that the visitors to the cricket club the other day demoralized his team, Ed. Mason has challenged all comers for this afternoon. His defeat on this historic occasion, he declares, was not according to form.

Tomorrow, Sunday, morning the steamer Kokanee will replace the Moyie on the run to Kootenay landing. The boat will leave tomorrow morning at 5:30 in place of 4:30. On Monday the Moyie will resume her run as usual, leaving at 4:30.

Melville Pary leaves for Spokane this morning on business connected with the Equitable Life association. Mr. Parry takes with him the latest photos of the local launches, and of the Tourist association, and he will have these distributed among the leading hotels of Spokane. Mr. Parry will be away about two weeks.

The provincial government offers $500 reward for such information as will lead to the arrest and conviction of the person or persons who murdered Michael Clark, on or about the 15th day of May, 1905, at the loop, near Rossland. Information should be given to John Kirkup, government agent, Rossland, or to W. H. Bullock-Webster, chief constable of Nelson.

DOMINION DAY FUND

Finance Committee Expects That Sum Will Reach $1200

By 5 o'clock yesterday afternoon the finance sub-committee of the Dominion Day celebration committee had received subscriptions to the fund amounting to $1050. There are still many who usually subscribe who have not been approached. The members of the committee expect to collect about $1200. So far the following have subscribed:

C. W. Buck, $5; F. J. Hume, $25; G. Erickson, $25; E. Ferguson, $10; Malone & Tregillus, $25; Pither and Leiser, $25; G. W. Bartlett, $25; T. Madden, $25; J. A. McDonald, $25; Klondike hotel, $25; J. Sturgeon, $10; E. J. Brown, $25; Strathcona hotel, $25; The Office, $25; P. Burns and company, $25; Imperial bank, $10; A. Macdonald and company, $25; J. Y. Griffin and company, $15; Brackman-Ker, $15; Bodega, $25; Ewert Bros., $10; Wood-Vallance, $15; Kootenay Laundry, $10; J. A. Irving, $10; J. T. Pierre, $5; J. A. Honeyman, $5; Emory and Walley, $5; J. Blomberg, $10; D. Maglio, $10; N. Mallette, $10; Bank of Montreal, $25; W. P. Tierney, $10; Bank of Commerce, $15; Tribune company, $10; T. Sproat, $10; F. T. Hebden, $5; J. O. Patenaude, $10; J. J. Walker, two cups and $5; Taylor and McQuarrie, $5; J. G. Whiteacre, $5; Standard Furniture company, $10; E. Sutcliffe, $2; G. Stanley, $5; Silver Grill, $5; Oxford Cafe, $5; J. E. Annable, $5; K. K. Bjerkness, $5; J. C. Thelin, $10; W. O. Rose, $5; Bell Trading company, $10; Ashdown Hardware company, $15; W. F. Smyth, $10; Enfield Co., $5; W. G. Thomson, $5; W. G. Gillett, $10; Canada Drug and Book company $5; P. Nipou, $3; A. W. Munro, $2; H. McCausland, $2; E. C. Traves, $5; F. McCandlish, $5; Silver King Mike, $5; E. K. Strachan, $5; G. F. Motion, $5; Taylor and O'Shea, $10; Manhattan, $10; W. A. Macdonald, $10; T. G. Procter, $5; E. A. Crease, $5; Club hotel, $10; M. Scully, $5; Kwong Wing Chong, $10; Kwong Lung, $2.50; Kwong Sang Wing, $2.50; Wo Kee, $2; Yick Lang Lee, $2.50.

CUBAN DIARRHOEA

U. S. soldiers who served in Cuba during hte Spanish war know what this disease is, and that ordinary remedies have little more effect than so much water. Cuban diarrhoea is almost as severe and dangerous as a mild attack of cholera. There is one remedy, however, that can always be depended on as will be seen by the following certificate from Mrs. Minnie Jacobs of Houston, Texas: "I hereby certify that Chamberlain's Colic, Cholera and Diarrhoea Remedy cured my husband of a severe attack of Cuban diarrhoea, which he brought home from Cuba. We had several doctors but they did him no good. One bottle of this remedy cured him as our neighbors will testify. I thank God for so valuable a medicine." For sale by all druggists and dealers.

"THE HOTTEST COON IN DIXIE"

What is positively the best high class colored attraction that has visited the west is "The Hottest Coon in Dixie," the latest musical comedy which will be seen at the opera house Monday night, June 12th. This organization is by far the best of any colored organization on the road. The company includes in its personnel many of the foremost colored singers, comedians and specialty artists of that race, names that have been prominently identified with all the big "coon" shows in the east for the past five years. The famous "Clorinly" chorus of colored male and female singers, that for 16 weeks was the rage of the Casino roof garden in New York, is a feature of the performance. The costuming is rich and tasteful, and the girls pretty. The attraction all in all, will be found by far the best and most enjoyable thing of the season. Seat sale opens this morning at 10 o'clock at the opera house.

MINING RECORDS

At the mining recorder's office on Friday H. L. Jackson recorded the location of the Republic on the north side of Wild Horse creek, 7 miles from Ymir. John G. Dewar recorded the location of the Empire on the north side of Wild Horse creek near Ymir.

A certificate of work was issued to R. McCormick on the Fernie.

EASTERN EXCURSION RATES

The Canadian Pacific railway announce excursion rates to St. Paul and Duluth, $52.50; Chicago, $64; Winnipeg, $49.10; Fort William, $54.10, on sale June 14, 15, 16, 17. Tickets are first class and good for 90 days. On same dates reduced rates will be given to all points in eastern Canada via C.P.R. through Port Arthur, all rail or lake and rail. For full particulars apply local agents, or write J. S. Carter, D.P.A., Nelson.

BUILT UP HER HEALTH

SPEEDY CURE OF MISS ECCLISON

She Is Made Well by Lydia E. Pinkham's Vegetable Compound, and Writes Gratefully to Mrs. Pinkham.

For the wonderful help that she has found Zula Ecclison, 6 Erie St., East, St. Thomas, Ont., believes it her duty to write the following letter for publication, in order that other women

Zula Ecclison

afflicted in the same way may be benefited as she was. She writes:

Dear Mrs. Pinkham:—

"I heartily recommend Lydia E. Pinkham's Vegetable Compound as a uterine tonic and regulator. I suffered for four years with displacement of the uterus and no one but those who have experienced this dreadful agony can form any idea of the physical and mental suffering those endure who are thus affected. Your Vegetable Compound cured me. Within three months I was fully restored to health and strength and now my periods are regular and painless. What a blessing it is to obtain such relief when so many doctors fail to help you. Your medicine is better than any doctor or medicine I ever had"

No other medicine has such a record of cures of female troubles as has Lydia E. Pinkham's Vegetable Compound.

Women who are troubled with painful or irregular menstruation, backache, bloating (or flatulence), leucorrhœa, falling, inflammation or ulceration of the uterus, ovarian troubles, faintness, indigestion, nervous prostration or the blues, should take immediate action to ward off the serious consequences, and be restored to perfect health and strength by taking Lydia E. Pinkham's Vegetable Compound.

Mrs. Pinkham invites all sick women to write her for advice. Her experience is very great, and she gives the benefit of it to all who stand in need of wise counsel. Address, Lynn, Mass.

WAR SCRIP

We are in the market to buy or sell S. A. War Scrip. You will have to act quickly, as the time is getting short. They expire July 1st. Wire us.

WEEKLY BANK CLEARINGS

All Cities but Two Show Increase Over Last Year

New York, June 9—The following are the weekly bank clearings, as compiled by Bradstreet's, for the week ending June 10, showing the percentages of increase and decrease, as compared with the corresponding week of last year:

		Inc.	Dec.
Montreal	$27,063,335	12.5	....
Toronto	20,259,779	14.4	....
Winnipeg	6,494,879	13.9	....
Ottawa	3,578,815	55.8	....
Halifax	1,896,051	....	.1
Vancouver	1,860,188	12.0	....
Quebec	1,218,449	19.7	....
Hamilton	1,349,515	3.5	....
St. John	1,143,234	8.6	....
London	1,250,401	31.4	....
Victoria	739,061	....	26.7

BODY OF PAUL JONES

Paris, June 9—The French government has indicated its willingness to assign a torpedo boat to carry the body of Paul Jones down the river Seine from Paris to Havre where a French squadron will deliver the body to the American squadron.

WON'T DEFER THE HANGING

Albany, N. Y., June 9.—Judge Peckham, of the United States supreme court declined to grant a writ of error which would allow the case of Mrs. Mary Rogers, of Vermont, now under sentence for the murder of her husband to go to the United States court. The application was made before him at his office here today.

WINTER IN NEW ENGLAND.

Concord, N. H., June 9.—Passengers arrived here from the northern part of the state tell of wintry weather in the White Mountains. Five inches of snow fell yesterday at Fabyans. At Canaan, much farther south, the thermometer fell to just above the freezing point and a sleet storm was in progress for one hour.

DANGERS OF ICE CREAM

Nashville, Tenn., June 9.—Twenty-two guests of a local hotel were suddenly taken ill yesterday shortly after dinner. Ice cream was served at the meal and the physicians attributed it to be poison. Five doctors were called to attend the affected guests some of whom are in a serious condition.

Lifebuoy Soap—disinfectant—is strongly recommended by the medical profession as safeguard against infectious diseases.

THE REAL TEST

Of Herpicide Is In Giving It a Thorough Trial.

There is only one test by which to judge of the efficiency of any article and that is by its ability to do that which it is intended to do. Many hair vigors may look nice and smell nice, but the point is—do they eradicate Dandruff and stop falling hair?

No, they do not, but Herpicide does, because it goes to the root of the evil and kills the germ that attacks the papilla from whence the hair gets its life.

Letters from prominent people everywhere are daily proving that Newbro's Herpicide stands the "test of use."

It is a delightful dressing, clear, pure and free from oil or grease.

Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

NELSON'S NEWS OF THE DAY

Rev. J. A. Cleland, rector of St. George's church, Rossland will leave shortly on an extended trip to the old country.

S. E. Coulter received his fourth notice of suspension from the mayor yesterday within a few hours of his reinstatement by the council.

Mrs. D. C. McMorris left last evening on a short visit to Kamloops. Captain McMorris is greatly enjoying his stay in Kamloops and is steadily improving in health.

The promoters of the weekly half holiday are gratified at the general observance. They wish it understood that there will be no half holiday in any week containing a regular holiday.

Miss Margaret Keyes of Slocan Junction, died yesterday afternoon in the Home hospital. She had been ill with typhoid fever for a fortnight before medical aid was called. She was in her 17th year.

The librarian of the Nelson public library requests that owners of dishes, plates, glasses and other articles, left after the last library ball, call at the library and remove their property.

The city band will give another concert at the park tomorrow afternoon commencing at 3 o'clock. Judging from last Sunday's concert, the move is a very popular one and a large attendance is looked for tomorrow if the weather is fine.

The monthly meeting of the university club will be held this evening in the parlors of the Success club at 8 o'clock. The program will consist of a paper by S. S. Fowler on "The Building of the Ore Vein," and a discussion. All graduates and undergraduates in the city are cordially invited.

A circular letter from the provincial secretary encloses a copy of a letter to the lieutenant governor from H. W. Goode, president of the Lewis and Clark centennial exposition, containing the information that the week from July 3rd to July 8th, inclusive, has been set aside as a British Columbia week, and asking that the attention be drawn to the fact through the press of the province.

A. H. Kelly, president and managing director of the Reliance Gold Mining company, stated yesterday that the plant had been operated and found to work with perfect satisfaction. The crusher, the Chilian mill, the Hendryx process, the pumps and the electric lighting plant, all worked without a hitch. Everything is now complete but for one pulley. The entire plant will be in operation in a few days.

A. S. Gray of Kokanee creek, spent yesterday in the city. He is making arrangments to stock his ranch with 200 sheep.

A. H. Tuttle, manager of the Wilcox mine, Ymir, came into the city last evening on a business visit, and is registered at the Hume.

Pat Russell, one of Nelson's old timers arrived in the city last evening from Everett. He will spend several days in the city renewing old acquaintances.

By an error the appropriation for lacrosse in connection with the Dominion Day celebration, is given in another column as $150. The correct figure should be $350, apportioned as expenss to teams from Cranbrook. $125; from Fernie, $165; from Rossland $60.

James Cronin passed through Nelson last evening on his way to Moyie from Rossland, he having just returned from a visit to Toronto, where the question of the amalgamation of the War Eagle-Centre Star and Le Roi mines was discussed at length, and it is said practically concluded.

Accompanying W. H. Munroe, of Marconi fame, on the delayed Crow boat last evening, were H. G. Robinson, who will deliver the free lecture this evening at the Success club, and two Marconi engineers, who will assist in the practical demonstrations of the working of the wireless system tomorrow afternoon from the Strathcona hotel to a launch five miles up the lake.

FIRST SALMON SHIPMENT.

Bellingham, June, 9.—The first carload of spring salmon shipped from here this season was forwarded yesterday from Pacific American fisheries to Hamburg, Germany, in cold storage.

James Band, proprietor of the Grove hotel, Fairview, has had that favorite summer resort nicely fitted up. It is conveniently located within half a block of the street car line and good meals and the best of liquors and cigars make it a popular house of call. Drop in any time when passing and sample some of those choice twist growlers always on tap.
