ELSON LOST BY ONE

cal Team Put up Strong Lacrosse Against New Westminsters

e Stood Three to Four at Conclusion f the Playing---Other Sports at Kaslo Celebration

e celebration of Empire Day at o yesterday was a great success in particular. Over 500 people from n took advantage of the excursions this city, and there were also num- representatives from the smaller s of the district. The day was a one as to weather, and left nothing e desired while the program of s provided at Kaslo, under the dir- n of the energetic members of the ration committee who had the mat- charge, was a first class one. The events commenced with a march the city wharf at Kaslo of the Nel- nd Kaslo aeries of the Fraternal r of Eagles, who were headed by the n City band under bandmaster Ir-

noon a number of foot races were on Front street, the winners being llows:

Yard Hurdle Race—Two entries; . Ferguson, of Rossland, was the one to finish; J. Gusty, of Sandon, other contestant stumbling at the hurdle, and falling out of the race.

Yard Dash—Three entries—1st, ouglas; 2nd, H. W. Ferguson.

Yard Dash—Three entries—1st, Fer- n; 2nd, Douglas.

Yard Race, boys under 16—Three es—1st, L. Jackson; 2nd, A. Jack-

Yard Race—Boys under 12—Eight es—1st, G. Gore; 2nd, H. Wilkin- 3rd, F. Miller, (all of Nelson), 4th, chaer, Kaslo.

g of War—Kaslo vs. Nelson Eagles, by the latter team.

ap Shooting—1st event, 25 targets, ntries, won by C. D. Goepel and G. ey, Nelson, with a score of 22 ; 2nd event, 15 targets, 7 entries— Goepel, 12; P. Nelson 12; 3rd event argets, 7 entries—C. D. Goepel, 16; esmond, 16; 4th event, 7 entries— Goepel, 11; T. Melrose, 10.

ie lacrosse game at Kaslo in the rnoon between the New Westmin- and Nelson teams was a first class bition and although the result, 4 to favor of Westminster, was some- t disappointing to the spectators this city, all were satisfied that it an even chance to the last as to ch team would come out ahead. The lo grounds are not well adapted to game, being rough and hilly, and times spoiled some good plays on sides.

he following shows the players and r respective checks, as lined up on field:

Nelson Goal	Westminster
	Miles
cher	Debeck
hibald	Lynch
rd	Gifford
	Feeney
lliamson	Latham
mpson	centre Turnbull
Nabb	C. Galbraith
ckwood	Peel
Nicholl	Rennie
icon	R. Galbraith
's	Cheyne
	Gray
Westminster Goal	

Referee—Dr. Doherty.

Timekeeper—O. Becker.

Goal umpires—J. Neelands, J. Bun-

The game opened at 2.36 with a smart h towards the Nelson goal by Turn- ll, who was checked by Fox, and the ll intercepted by Archibald. From the ter it was worked down through the er defence of the New Westminsters, checked at goal by Gray. A sharp immage took place after this to the ht of the flags, and McNicholl getting ball out of the tangle of legs and cks, drove it towards the goal. Gray ain struck it and sent the rubber fly- g over the fence, necessitating a wait a couple of minutes while it was be- g found. After this it ravelled up the ld as far as centre, but was worked ck by excellent passing to McNicholl io passed to Jeffs, the latter shoot- g it into goal.

This first success for Nelson was eeted with a tremendous wave of eering, the good play displayed in its inning being considered a presage of e ultimate success of Nelson. The st of the quarter the ball stayed as ar the Nelson goal, as it had done in e preceding portion to Westminster's d after ten minutes of hard fighting, rnbull succeeded in sending it past iles. The quarter ended with a goal ored by each of the teams.

The second quarter saw both of the ams getting down to the fastest and rdest kind of work. Twice in the rlier part of it the ball was thrown r the New Westminster goal by Nel- , coming within an inch of scoring, e attempt sending it just along the ter side of the net, with the result at the spectators thought Nelson had ored another point, till undeceived by the continuation of the game. Finally, 14 minutes after the quarter had opened McNicholl sent the ball with a clean drive just over Gray's shoulder, making one of the prettiest plays of the game. A lost ball twice interrupted the last minute of play left, getting the time down to 20 seconds without decisive play. Turnball then made a clever run, passing Nelson's outer defence. He was checked by Peard and passed to Gifford, and the latter shot on goal. Just as Gifford took the ball however, time was up, and Becker called "Time," not being provided with a whistle. The Nelson players who were at the goal facing up heard him, but the New Westminster men kept on so that the ball was shot and landed in the net. The goal was allowed at the moment by the referee, Dr. Doherty, but an investigation showing clearly that the ball had been thrown after time was called, the goal was cancelled.

The opening of the third quarter was marked by the Nelson men working the ball from their end of the field clear down to their opponents flags and finally in Every foot of the way was contested, and when the goal was finally reached Gray and Cheyne of the New Westminster team, and McNicholl and Deacon, of Nelson, went into the net with it. The time was 30 seconds. There was practically no passing in this part of the game, the ball being worked down nearly the whole length of the field, no one having possession of it long enough to throw it any distance. When the whistle sounded again it looked for a moment as if Nelson would succeed in repeating the previous performance but a clever stop by Galbraith took it away from the Westminster flags, and a moment later it went sailing half way up the field to be caught by Latham. The latter was checked by Archibald and the ball sent across the field, where a scrimmage took place which ended with another lost ball. After this the ball was driven for goal by Debeck, but stopped by Miles. Again it started down the field, but was caught by Turnbull and sent in, the time being 4 minutes. Nine minutes later Lynch succeeded in scoring again for New Westminster.

A little less than a minute after the fourth quarter opened Lynch scored the fourth goal for New Westminster. After this despite the hardest work on the part of both teams no more points were scored The Nelson men put in their hardest licks, and succeeded in keeping the ball in the close vicinity of their opponents' goal, but that was as far as it got. The New Westminster defence in this portion of the game was simply superb, and defeated every effort made to pass them. Up to the last second of play the chances of Nelson for at least making the score a tie looked very good but it ended there. The best of feeling was displayed throughout the game. there being no unnecessary rough play, and all of the players coming through without any serious damage. Rennie and Peel each received accidental blows on the right knee, but were unable to resume play after a couple of minutes' rest.

Summary—

First Quarter—
Nelson—4 min., scored by Jeffs.
Westminster—1 min., Turnbull.

Second Quarter—
Nelson—14 min., McNicholl.

Third Quarter—
Nelson—30 seconds, Deacon.
Westminster—4 min., Turnbull

Fourth Quarter—
Westminster—9 min., Lynch,
Westminster—50 seconds, Lynch.
Total—Westminster, 4; Nelson, 3.

Of the individual players of the two teams all played a clean, quick game. Of the new players on the Nelson team Deacon who played inside home, showed up very well, and was frequently cheered for some of the neat checks and passes he made. Miles made a good goal keeper and stopped a number of swift balls. Hatcher and McNabb, who also played on the team for the first time put up a creditable game. Of the old players, Williamson, as an all round good player, never put up a better game than he did on this occasion His checking and catching especially were good, and were of the greatest benefit to his side on numerous occasions. Thompson, as usual put up a strong, clean game, and was one of the most popular players on the field. Blackwood, Fox, McNichol, Jeffs, Archibald and Peard, distinguished themselves frequently, the individual playing altogether leaving nothing to be desired. The only weak point in the Nelson play appeared to be occasionally in the defence combinations, where the team were not able to act together with the almost machine-like regularity of their opponents. This, the result of their lack of practice, of course could not be prevented, and undoubtedly was the cause of their not winning the game. There was a perceptible improvement shown in this respect over the last game they played with the coast team, but it will be necessary for them to mix up in a few more first class games before they can become thoroughly accustomed to working in concert properly.

For the New Westminster team the best individual playing was probably that put up by Turnbull, Cheyne, Gray and Latham, although the uniformity of play of all the members of the team made it hard to pick out anyone for special mention. Turnbull and Thompson, who were opposed to each other at centre, were beautifully matched, and were cheered impartially by the supporters of both teams for the many excellent plays they made.

Dudley Blackwood, captain of the Nelson team is to be congratulated on the big improvement shown in his team as a whole over last year, in the way of combination work. While there is room for still further advance in this respect, yet the progress made is most encouraging, as showing what even a little practice and plenty of enthusiasm has done in the face of adverse circumstances J. Hawkins and G. McLaughlin officiated at field captains respectively for the Nelson and New Westminster teams and did good work throughout.

A NOTABLE DISCOVERY

SOFT SCHIST IN THE POPLAR CAMP CARIES FREE GOLD.

IT IS AS RICH AT DEPTH AS IT IS NEAR TO THE SURFACE.

"To my notion, the most important event that has taken place yet in the history of Poplar," said Frank Holten, of the Great Northrn Mines, yesterday, "is the discovery that the soft grey schist found there contains gold in what appears to be paying quantities. While the quartz ledges carry the gold in nugget form it is now believed that the soft schist, of which there are million of tons, have pay values; if it comes up to expectations, which can only be determined by exploratory work, Poplar will make one of the largest free gold camps on the continent.

"On the Lucky Jack claim the soft schist, which grows softer with depth, has been sampled on the surface for a width of 300 feet, and yields a number of colors when panned. The schist does not carry its gold values evenly, but some rich shoots are disseminated amongst it. In the tunnel driven in on the ledge at a depth of 150 feet from the surface on the Lucky Jack, the soft schist carries the same values as on the surface.

"We have sampled the soft schist belt on the Swede group and have obtained exactly the same results there on the surface as we did on the Lucky Jack, and for the same width.

"It has surprised us how well the values hold out. From a panfull we have obtained as much as 20 cents in gold. The results are so satisfactory that the determination is to further prospect these schists at depth just as soon as we are able to do it. If the result is as we anticipate they will be, the Poplar camp will make a wonder. The schist belt extends for a distance of 50 miles and is fairly uniform in its characteristics.

"At the Oyster-Criterion mine and mill matters are moving along satisfactorily. The last gold brick from the mill went $4,000 and was the result of a ten days' run. When the mill was first put in operation we put through the ore which was taken out in developing and the grade was not very high. At present the ore from the Criterion ledge is being reduced and the result is much more satisfactory, as it is of a higher grade. What we want and what we must have is a larger mill, say 30 or 40 stamps, and then the Great Northern Mines will be heard from in no uncertain way. The intention is to put in additional stamps."

PAID MORSE A TRIBUTE

CLARENCE MACKAY EULOGIZES INVENTOR OF TELEGRAPHY.

THOUGHT HE COULD SEND ELECTRIC SPARK AROUND GLOBE

New York, May 24.—Clarence H. Mackay, president of the Postal Telegraph Cable company, gave a dinner this evening to the heads of his organization in commemoration of the 60th anniversary of the first telegraphic message sent between Baltimore and Washington, and the 25th anniversary of the opening of the Postal building.

The guests numbered all of the general and many of the assistant superintendents from all sections of the country. Mr. Mackay made an address in which he said:

"In October, 1832, when professor Morse was crossing on the packet ship Sully, the conversation one evening turned upon recent discoveries in electric magnetism and the experiments of Ampere with the electric magnet. Some one asked if the velocity of electricity was retarded by the length of the wire. Dr. Jackson, who was present, answered that electricity passes instantaneously on any known length of wire.

"Professor Morse, who had been listening intently, remarked: 'If the presence of electricity can be made visible in any part of the circuit, I see no reason why intelligence may not be transmitted instantaneously by electricity.' The idea took root in Mr. Morse's brain and going up on the deck he paced up and down until the early hours of the morning. 'If the spark,' he reasoned, 'will go ten miles without stopping, I can make it go round the globe.' How true this prophesy proved you will all remember, when on the fourth of July last year president Roosevelt sent a message on the completion of the Pacific cable, containing 31 words, which traversed the globe, 28,974 miles of wire, in 12 minutes, at the rate of 2,415 miles per minute. My answer to the president of 42 words, occupied nine minutes over the same distance, or 3,219 miles per minute. Gentlemen, let us bow to the memory and genius of professor Morse, whose name, in the annals of this country has found its rightful place among those of the immortals."

SUMMONED TO ROME.

Philadelphia, May 24.—Monsignor Bigneord Falconio, the apostolic delegate to Washington, will sail for Rome on Saturday, having been summoned by the pope, and may not return to the United States.

AFTER PORT ARTHUR

Active and Careful Preparations for Its Reduction

A Specially Chosen Force of Japanese Veterans and Heavy Artillery are to Be Used

London, May 24.—The Daily Mail's correspondent at Shimonseki, Japan, cabling under date of May 24th, asserts that active preparations are in progress for the reduction of Port Arthur and that these preparations will be entrusted to a carefully chosen force of veterans forming part of the third army. Very heavy artillery, the correspondent says, is being landed on the Liao Yang peninsula.

Despatches to the Daily Telegraph show that on May 16th the Japanese army attributes this to the necessity for joint action with the Japanese army which has landed at Pitsewo. They explain that communication had not yet been established between the two Japanese armies, but that it is expected to be affected within a few days. The despatches say that the telegraph lines between Feng Wang Cheng and the south have been cut by the Russians disguised as Chinese. A Russian transport is moving from Liao Yang in the direction of Mukden, but it is not known whether this means a retirement of the army or merely the removal of winter clothing, which no longer is needed.

The movements of the war correspondents, the despatch says, are limited to a radius of a mile and a half from Feng Wang Cheng.

The Daily Telegraph's New Chwang correspondent declares that general Kouropatkin is determined to check the Japanese advance at Liao Chang, where probably the greatest battle of the war will be fought. He adds that the Japanese land operations against Port Arthur are meeting with little success, and that lieutenant-general Stoessel and major general Fook continue to make well directed but desperate sorties against the advance of the Japanese, who are fighting with stubborn determination

KIN CHAU BESIEGED.

Reported That Russians Have Been Defeated at Yin Kau.

London, May 24.—The Seoul correspondent of the Daily Telegraph says that Kin Chau is being besieged by the Japanese and its surrender is momentarily expected.

The Standard's Tien Tsin correspondent asserts that the Chinese government is still levying heavy military contributions from the provinces and thinks this accumulation of silver at Pekin foreshadows some foolhardy action by the Chinese.

It is reported from Brussels that the Russian government is making great efforts to buy 30 large steamers from Belgium and Holland to accompany the Baltic fleet as colliers.

Included in a score of rumors is one sent by the Shanghai correspondent of the Morning Post to the effect that the Russians have been defeated near Yin Kau, abandoning 50 guns and that general Kouropatkin has been advised by viceroy Alexieff to retreat to Harbin.

The correspondent of the Morning Post at Mukden under date of May 24th, says it is reported there that general Rennekampf's Cossacks captured two Japanese transport columns thus leaving the Japanese army, without supplies in a difficult country.

CONTINUED SKIRMISHING.

Russian Cavalry and the Japanese Have Frequent Meetings.

Liao Yang, May 24.—There is continual skirmishing between the Russian cavalry and the Japanese. Cossacks are harassing the Japanese in the hills and driving them back. The general plan of the Japanese has not yet been divulged. They apparently are marking time, awaiting the advance of reserves from Korea, who have been delayed owing to bad roads. The Japanese are sending all invalids in the direction of the Yalu to a central hospital.

The Chinese report the destruction of another Japanese battleship off Port Arthur, but the report is unconfirmed. Several Japanese who landed from junks near Port Arthur and started toward the town with the intention of dynamiting the docks were captured and shot. The Russian wounded are recovering rapidly. Several wounded soldiers deserted from the hospital and stole back to the fort. A typhoon is raging off the coast.

THOSE FLOATING MINES

U. S. Naval Attaches Requested to Report on Them.

Washington, May 24.—Through American ministers abroad, the naval attaches of the United States have been instructed to report upon the number and danger to neutral shipping, of war mines floating off the Manchurian coast. The information will be placed in the hands of the naval general board, who will submit its views to the president and some representations made to the belligerents.

PLENTY OF ORE IN SIGHT

RELIANCE CO. WILL BE TURNING OUT BULLION IN 90 DAYS.

THE COST OF MINING AND MILLING WILL BE VERY LOW.

Yesterday Jahn A Turner, one of the directors of the Reliance Gold Mining & Milling Co., in talking about the recent visit of the directors to the property of the company on Forty-Nine creek said: "We visited and inspected the group, which consists of the May and Jennie, Red Top, Tip Top, Gold Hill, Gold Note and Golden Giant. The other directors and myself were surprised at the quantity of work done and the large amount of ore in sight. The development, which is quite extensive and includes about a half mile of workings, has chiefly been done on two levels. The surface has been explored for a distance of 2,000 feet exposing the ledge and proving it to be very strong. On No. 1 level a crosscut tunnel has been driven for 100 feet and has tapped the vein, which has been drifted on both north and south for a distance of 700 feet. For the entire distance drifted there is ore. For 200 feet he ore is of low grade, which, however, will pay to mill. The rest of the distance is in ore of a high grade. The width of the ledge on this level is from 12 to 19 feet, with places which are 25 feet wide.

"On the No. 2 level a crosscut tunnel was driven for 400 feet to tap the vein and then the ledge was drifted on for 750 feet. The width of the ledge on this level is from 15 to 30 feet. The ore for 200 feet is of low grade and the balance is of a good milling grade. At many points in the tunnel ore when horned shrows well in free gold.

"With so large a vein of ore that can be easily mined and cheap water power available, the expectation is that the ore can be mined and milled for from $1.50 to $2 per ton. The ore is a soft, decomposed quartz that can be almost mined with a pick. In crosscutting from No. 2 tunnel in ore two men ran 14 feet in two days. In the main drift two men made four feet per day.

"There is ample water power. A flume has been built to a penstock and from the penstock a ten-inch steel pipe line has been made to the millsite, and there is a head of 450 feet. The water power insures the cheapest sort of milling. The excavations for the foundation of the mill have been made, the timber for the mill structure is framed and ready to put up and some of the machinery for the mill is now on the way. We expect to be turning out bullion within the next 90 days."

VICTORIA DAY AT YMIR

RESIDENTS AND VISITORS HAD A VERY PLEASANT TIME.

RESULTS OF THE BASEBALL, ROCK DRILLING AND OTHER EVENTS

[Special to The Daily News.]

Ymir, May 24.—Victoria Day at Ymir was certainly spent in a manner worthy of mention. The day opened fine, the weather being not too warm, and an invigorating breeze circled around the town coming direct from the snow capped peaks surrounding. At an early hour the different places of business were busy decorating and when the Nelson train pulled in the burg presented a very smart appearance. Unfortunately, owing to the Kaslo celebration, the number from Nelson was not as large as expected, but some 100 Nelsonites got off the train headed by the Nelson City band.

Patrick Daly, president of the celebration committee, delivered an address of welcome as follows:

"Ladies and Gentlemen,—As chairman of the celebration committee I take great pleasure, on behalf of the people of Ymir, in extending to our friends and visitors here today, a hearty welcome to this, our Victoria Day celebration. It is hardly necessary for me to state, that the freedom of the town is yours today, for that goes without saying.

"If our visitors will only make themselves at home with us, I am confident that our people will see to it that they enjoy a day's entertainment which will long be remembered by them.

"As our celebration committee has provided an extensive program, which will occupy the entire day, including foot races, baseball, horse races and a complete list of Caledonian games, they concluded to omit all formalities in the line of speech-making. Most of you are familiar with the origin and history of the day we are about to celebrate.

"But as I see mingled with the audience, Harry Wright, the member for the district, I will ask that gentleman to take the platform and say a few words, as I am sure our friends will be pleased to hear from him, and I am sure that Mr. Wright would like to avail himself of the opportunity to address an audience of this kind on such an important occasion. In conclusion I might say that committees have been appointed to conduct the various sports, and as time is speeding, we will commence the program."

Mr. Wright then took the platform and said a few words, after which footracing of all description and jumping contests took place till noon. Commencing sharp at 1 o'clock the following horse races followed:

Quarter Mile—(Open)—Heats—Willis of Salmo entered "Steptoe," and Kirkpatrick of Ymir entered "Buckskin," the former winning.

Quarter Mile — (Local) — Kirkpatrick and Oddle, of Ymir, entered their horses. Kirkpatrick's animal won.

At 2.35 p.m. sharp the following teams lined up for baseball.

Nelson Intermediate — Hemery, 1st base; Steele, pitcher; Sickle, left field; Miller, 3rd base; Kelley, right field; Avery, catcher; Nelson, 2nd base; Stanford, shortstop; Freese, centre field.

Ymir—Cawley, 1st base; Anderson, pitcher; Robert, left field; Therein, 3rd base; English, right field; Blanchard, catcher; Sheedy, 2nd base; Carney, shortstop; Watt, centre field.

Ymir won easily with a score of 19 against7. Blanchard, Therein and Cawley, of the Ymir team, are players of merit and their good work aroused considerable enthusiasm.

There were a number of entries for the Quoit match, and in the finals played between Wallace, of Nelson, and Harbottle, of Ymir, the latter won, the score being 21-16.

For best ore specimens there were two prizes donated by assayer Widdowson, of Ymir. First prize was obtained by G. T. Demaine of Nelson, for a silver speciman, while foreman Barker, of the Arlington mine, at Erie, obtained second prize with a piece of Arlington ore. The prizes were $3 and $2.

The rock drilling contest was greatly enjoyed by all who witnessed it, the skillful handling of the hammer and the quick changes brought much pleasure.

The teams entered were: McGillivray and Brown and Antle and Wray, both from the Ymir mine, the former team winning, their drilling in hard granite being 42 3-4 inches. The latter team made 34 inches. They however, met with hard luck, their steel breaking off, which lost them considerable time.

Fireworks were set off during the evening and at 9 o'clock a grand ball in the Miner's union hall wound up the day's sports.

A thoroughly good time was enjoyed by all who came to Ymir.

VICTORIA DAY.

How the 24th Was Celebrated In and Around the City.

In common with the rest of the empire, Nelson loyally observed Victoria day yesterday. Practically all the places of business were closed and until evening the streets wore a deserted look. Flags were flying all over the city and at night some fireworks were set off.

The Kokanee and the Kaslo each carried about 220 excursionists to the Kaslo celebration, a good sized party journeyed to Ymir, and there were any number of picnics, fishing, launch, boating and sailing parties out on the lake from early morning. Every available craft was pressed into service and the boatmen did a thriving trade. Fishing parties were scattered all along the lake and river from Procter to West Robson, and although no very wonderful catches were reported all seem to have enjoyed the outing greatly.

The weather was bright and fairly warm, all that could have been desired and captain McMorris, who has the local weather bureau in charge, is to be sincerely congratulated upon the sunshine and temperature dealt out yesterday.

A couple of small children strayed off during the day but later were found by their distracted parents. About 5 o'clock a heavy wind squall struck the city, causing some slight apprehension for the large number of persons out boating, but no accidents or casualties of any kind happened, always a matter of congratulation, and generally the day passed off successfully.

BAPTISTS ON RECORD.

Opposed to Divorce Except on Scriptural Grounds.

Cleveland, Ohio, May 24.—The Baptists put themselves in line with the other great Protestant denominations by the action taken on the divorce question at the meeting of the American Baptist home mission today. A resolution was unanimously passed, declaring that the country ought to have a uniform law upon the subject of divorce, based upon scripture teachings; that the Christian ministers and Christian churches of all names ought to be courageous and positive in their adherence to the instructions of the scripture concerning the marriage relations. It is pointed out that while the individual members can only advise, there is no question that the Baptist ministers, the country over will stand with the other ministers in making it difficult for people divorced on unscriptural grounds to gain the sanction of the church for re-marriage.

TO UNITE CHURCHES IN JAPAN

Washington, May 24.—A plan is afoot to unite the six Methodist bodies in Japan—the Methodist church of Canada, Methodist Episcopal church, Methodist Episcopal church south, United Brethren church, Methodist Protestant church and Evangelical Association—and form one strong Methodist church among the Japanese. The matter was brought up before the general conference of the Methodist Protestant church, which opened in this city today, by Rev. Dr. E. B. Van Dyke, president of the Methodist Protestant conference of Japan. It is believed that favorable action will be taken on the matter, as a majority of the bodies have already declared in favor of it.

If the union is brought about the united church will have a membership to begin with of about 20,000 Japanese. There will be four or five annual conferences, and in the future there will be a general conference for Japan. By the union, the various missions will not lose their identity, but the missionary work will be greatly strengthened.

METHODISTS ON DIVORCE

Los Angeles Conference Against It Except for One Cause

An Endeavor to Include Desertion and Extreme Cruelty as Grounds Was Defeated

Los Angeles, Cal., May 24.—The Methodist general conference today spent much time balloting for editors of the eleven church publications and hearing the report of the committee on the consolidation of benevolent societies of the church. The committee recommends that the several benevolent societies shall be consolidated into three under the following names:

First.—The board of foreign missions of the Methodist Episcopal church.

Second—The board of home missions and church extension of the Methodist Episcopal church.

Third—The board of education of the Methodist Episcopal church, or the board of education for freed-men, and Sunday schools of the Methodist Episcopal church, as the general conference may determine.

Several matters of material importance to Methodism have been passed on by the standing committee on state of church, and its recommendations on the subject will be reported to the conference, where in all probability they wil be fully sanctioned by a majority of the delegates.

Most important of these many matters are those of divorce, Romanism, Mormonism, the bible in the public schools, and regulation of church membership. The question as to what shall constitute the recognized grounds for divorce was the cause of a spirited contest in the committee. The committee voted to make the crime of adultery the sole legal reason for separation recognized by the church. Final desertion and extreme cruelty were additional grounds urged for adoption as a part of the discipline, but these were opposed by a majority of the committee. The resolution on Mormonism asks congress to enact a constitutional amendment that will make impossible certain practices of Mormonism in anp part of the United States or any country subject to its jurisdiction. Another resolution denied the charge that the teaching of the bible in the public schools without note or comment was a sectarian act, and deplored the repeated efforts of the Roman Catholic church to secure a division of the public school system, and called on congress to provide an amendment to the federal constitution which will forever make impossible the accomplishment of such an object.

The resolution also provided for the extension of every aid and support to the Methodist missionaries engaged in the propogation of Protestant faith in Roman Catholic communities.

A resolution regulating the membership of the church also was adopted. It provided that those who, failing in their duties of attending services and paying their share towards church expenses, may be dropped from the roll of membership by the pastor of the church, after he has made due investigation, with the provision that on demand they may secure regular trial.

PHOENIX ELECTION.

[Special to The Daily News.]

Phoenix, May 24.—Acting under a warrant received from the lieutenant-governor for that purpose, D. J. Matheson, city clerk, who has been appointed returning officer, has given notice to the electors of Phoenix that nominations for five aldermen will be received on June 4th, and that an election, if needed, will take place on the 7th of June.

It will be remembered that the five aldermen resigned some two months ago as a protest against a decision of the police magistrate, W. B. Willaims, who dismissed a case brought against the chief of police, C. H. Flood, by a woman of the half world. The police commissioners sustained the police magistrate, and the resignation of five members, of the council followed as a protest. They and their friends assert that no council can be obtained till both police magistrate and chief of police are let out.

WEDS FRENCH DIPLOMAT.

Washington, May 24.—In the presence of a brilliant company that completely filled St. Matthew's church, Miss Ivy Langham, of Kentucky, sister-in-law of the German ambassador, became the bride today of lieutenant commander de Faramond, of the French embassy. The ceremony at the church was followed by an elaborate wedding breakfast and reception at the German embassy.

ALMOST BEHEADED.

Winnipeg, May 24.—Fred Attwood, a young Winnipegger, was killed by an electric car this afternoon. He tried to get aboard a trailer, but slipped under the wheels and his head was almost severed from his body. Attwood was 26 years of age and married.

EDITORIAL NOTES.

It is satisfactory to note that the matter of the site for the Nickel Plate smelter at Hedley City has been finally disposed of in such a manner as will ensure the erection of the smelter within the province. The Daily News took this matter up some time ago and pointed out that there was a likelihood of the smelter being erected on the American side unless some arrangement could be come to with the Indian department whereby the management of the Nikel Plate mine could secure a portion of the Indian reserve at Hedley City or a smelter site, this being the only ground suitable for that purpose in close proximity to the mine. Duncan Ross, the liberal candidate for Yale-Cariboo, interested himself in the matter and upon the occasion of his recent visit to Ottawa laid all the facts before the minister of the interior and with his thorough knowledge of the situation was able to convince the minister of the reasonableness of the request made by the management of the Nickel Plate mine. This question of a smelter site being happily disposed of, it is assumed that development of this great mining property will proceed apace and that the Similkameen district will soon boast of one of the chief ore producers in the province.

Committees have been appointed and the work started for the celebration of dominion day. Nelson in the past has given some good celebrations of the day and should not on the present occasion fall behind her previous record; on the contrary, an effort should be made to do better than on any previous occasion. The other towns of the Kootenays, like Rossland, New Denver, Kaslo, Ymir and other places are celebrating Victoria Day today. Nelson is sending delegations to each of these towns, and they in turn will reciprocate by coming to our celebration. Nelson is moving up with the new era of prosperity which the Kootenays is entering upon and can afford to loosen her purse strings and put a few extra dollars into the celebration fund and give the citizens and the visitors a couple of days' sport of the old fashioned kind. By pulling together and working hard, arranging a good program, hanging up good sized purses and prizes for the several events, a large throng can be attracted here and the celebration is certain to be a pronounced success.

EAST KOOTENAY LANDS.

It appears that premier McBride is anxious to defer settlement of the east Kootenay coal and oil lands tangle as long as possible. The end of June is the date now hinted at as the earliest upon which any definite action will be taken.

These delays are not due to any consideration for the interests of the taxpayer.

McBride is not burning the midnight oil studying ways and means of turning these enormously valuable assets to such account as will materially reduce the public debt or lessen the burden of taxation.

The delay is caused by the conflict of private interests in the issuance of licences.

So far as can be learned at present the intention is to issue licences to the parties represented by sir Hibbert Tupper, Fred Ritchie, of Rossland, and Fraser, M. P. P. of Grand Forks. These interests are to be protected in the first instance.

It is expected that immediately these licences are issued, legal proceedings will be taken by the representatives of other interests. In fact preparations for these proceeding are already cut and dried, counsel have been retained and the money deposited for the expenses.

Those who are behind the scenes intimate that the litigation that will arise out of McBride's proposed disposition of these lands will last for two or three years, entail an enormous expenditure and delay the opening up of the section of the country involved until the last case is disposed of.

One thing at least is clear. The government have no intention of safeguarding public interests in these lands in the slightest particular. Such trains as the government possess are being taxed to utmost capacity to solve the problem of disposing of these lands among a favored few so as to satisfy the most influential among their supporters. It is freely asserted that no matter what settlement the government may make it is bound to cause grave dissatisfaction in the party camp and that next session will witness the open revolt of those whose claims are to be ignored.

The unsatisfactory feature of this revolt, so far as the public is concerned, is that it will come too late to save to the province any share in the wealth of these East Kootenay coal and oil lands.

RIVALRY OF RAILROADS

CONSIDERABLE CONSTRUCTION IS PROMISED IN THIS SECTION

GREAT NORTHERN ACTIVITY CAUSING C. P. R. TO MOVE

That there will be considerable railroad construction is evident from movements that are now being made. The Canadian Pacific railway and the Great Northern railway have evidently renewed hostilities after a peaceful period which has lasted for some months. Everywhere that their interests clash along the frontier line between Canada and the United States there is a contest on.

The Great Northern has let the contract for a branch to Phoenix in the Boundary country. Patrick Welsh is on the ground at Grand Forks for the purpose of letting sub contracts and it is evident that actual construction work is to be commenced soon.

The Coast-Kootenay road will be a bone of contention between the two roads. It is said to be the avowed intention of the McBride government to let James J. Hill, of the Great Northern construct the line for the reason that he asks no subsidy from the province and all that he desires from it is the guaranteeing of the bonds.

The fear that the Great Northern may build this line, which will open up such a valuable country has aroused the Canadian Pacific to action. It is now said that Harry E. Macdonell, freight agent in the Kootenays for the Canadian Pacific railway, is to make a reconoissance of the country from Vernon to Hope in the interests of his road. He will travel on horse back and visit all the leading towns and mines in the Okanagan and Similkameen sections for the purpose of ascertaining the tonnage and traffic which is awaiting a railway. Then he will cross the mountains to Hope. The trip will occupy two weeks.

Although Mr. Macdonell is very reticent as to what his observations are to be used for, the knowing ones say that it will result, if the traffic and tonnage in sight warrant it, and the country is found to be in the advanced stage which its friends allege it to be, in the Canadian Pacific at once beginning the construction of a line westward from Midway and then will build through the Okanagan and Similkameen valleys and over the mountains to a junction with the main line at Hope. Whether this will result in heading off Mr. Hill from building the Coast-Kootenay road, or whether both the Canadian Pacific extension west of Midway and the Coast-Kootenay lines will be constructed remains to be seen. It is evident, however, that at least one of these roads will be built.

PROPERTIES

"May and Jennie," "Red Top," "Tip Top," "Gold Bell," "Gold Note," and "Golden Giant," all adjoining each other and all Crown Granted lode locations, free of encumbrance.

SITUATE

On Forty-Nine Creek, about nine miles by wagon road from Nelson, in the Nelson Mining Division.

The Directors have set apart for public subscription 50,000 shares at 35c per share to be used exclusively for the purpose of erecting plant, purchasing and installing mill machinery. Of the above the vendors have underwritten 25,000 shares and the company now offer the remaining 25,000 shares at the same rate.

DEVELOPMENT

Development exceeds one-half mile of undergraund work in addition to surface explorations.

Improvements consist of boarding and bunk house, office, saw mill, assay office and pipe and flume lines.

Estimated gold ore available for immediate treatment—approximately—60,000 tons.

Further particulars or information may be obtained from the following Directors: Aaron H. Kelly, W. P. Tierney, John A. Turner, Bruce White, R. S. Lennie or W. J. (Blake) Wilson.

Intending investors are at liberty to inspect the company's properties upon application to Aaron H. Kelly, Managing Director.

Applications for shares will be received at the company's offices, Elliot Block, Baker Street, Nelson, B.C.

Corporation of the City of Nelson

BY-LAW NO. 145

A By-law Granting aid to a Sawmill to be Erected at Nelson.

WHEREAS, J. P. McGoldrick and other associates are about to undertake the erection of a certain sawmill at One Mile Point on Kootenay Lake, being about one mile from the City of Nelson

AND WHEREAS the Corporation of the City of Nelson is desirous of aiding the said sawmill by way of a grant of money.

AND WHEREAS a petition has been presented to the Municipal Council of the Corporation of the City of Nelson, signed by the owners of at least one-tenth of the value of the real property of the said City (as shown by the last assessment roll) requesting the said council to introduce a By-law to raise the sum of Five Thousand ($5000.00) dollars for the purpose of granting aid to a sawmill to be erected near Nelson, and within five miles therefrom

AND WHEREAS it is deemed expedient to borrow the said sum of five thousand ($5000.00) dollars for the purposes aforesaid.

AND WHEREAS the whole amount of rateable land of the said City, according to the last revised Assessment Roll is one million two hundred and forty-nine thousand three hundred and forty ($1,249,340) dollars.

AND WHEREAS it will be necessary to raise annually by rate the sum of four hundred and eighteen ($418.00) dollars for paying the said debt and interest.

NOW THEREFORE the Municipal Council of the Corporation of the City of Nelson enacts as follows:

1. It shall and may be lawful for the Mayor of the Corporation of the City of Nelson to borrow, upon the credit of the said Corporation, by way of Debentures hereinafter mentioned, from any person or persons, body or bodies corporate, who may be willing to advance the same as a loan, a sum of money not exceeding in the whole the sum of Five Thousand ($5000.00) dollars, and to cause all such sums so raised or received to be paid into the hands of the Treasurer of the said Corporation for the purposes and with the objects hereinbefore recited.

2. It shall be lawful for the Mayor of the said Corporation to cause any number of Debentures to be made, executed and issued for such sum or sums as may be required for the purpose and object aforesaid, not exceeding, however, the sum of Five Thousand ($5000.00) dollars, each of the said Debentures being of the denomination of One Thousand ($1000.00) dollars, and all such debentures shall be sealed with the seal of the Corporation and signed by the Mayor thereof,

3. The said Debentures shall bear date the first day of August A. D. 1904, and shall be made payable in twenty years from the said date in lawful money of Canada, at the office of the Treasurer of the City of Nelson, in Nelson aforesaid, which said place of payment shall be designated by the said Debentures and shall have attached to them coupons for the payment of interest and the signatures to the interest coupons may be either written, stamped, printed or lithographed.

4. The said Debentures shall bear interest at the rate of five per centum per annum from the date thereof, which interest shall be payable semi-annually at said office of the Treasurer of the City of Nelson, in Nelson aforesaid, in lawful money of Canada, on the first day of February and the first day of August respectively in each year during the currency thereof, and it shall be expressed in said Debentures and coupons to be so payable.

5. It shall be lawful for the Mayor of said Corporation to negotiate and sell the said Debentures or any of them for less than par but in no case shall the said Debentures or any of them be negotiated or sold for less than ninety-five per centum of their face value, including the cost of negotiating and sale, brokerage and all other incidental expenses.

6. There is hereby granted, and the Mayor and City Treasurer are hereby authorized to give and grant unto the said J. P. McGoldrick or his assigns the sum of Five Thousand ($5000) dollars for the purpose of aiding the said sawmill upon the following conditions:

(a.) The said bonus shall be paid to the said McGoldrick or his assigns as follows:

Two Thousand Five Hundred ($2500.00) dollars when the said McGoldrick or his assigns have let a binding contract for the erection of a sawmill at said One Mile Point capable of cutting one hundred thousand feet of lumber per day, and the balance of Two Thousand Five Hundred ($2500.00) dollars, when the said sawmill is complete and ready for operation as a sawmill.

(b.) The said McGoldrick shall covenant and agree to erect or cause to be erected with due diligence the said sawmill with the said capacity, and the necessary buildings, plant and other machinery on said lands, or lands adjacent thereto, for the purpose of manufacturing and selling lumber, and to begin the erection of said sawmill on or before January first, 1905, and the same on completion shall be operated as a sawmill as conditions permit.

7. An agreement embodying the provisions in this bylaw shall be forthwith executed by the Corporation of the City of Nelsoon and by the said J. P. McGoldrick, binding each of the parties hereto to the provisions of the Bylaw.

8. There shall be raised and levied in each year during the currency of said Debentures the sum of two hundred and fifty ($250.00) dollars for the payment of interest and the sum of one hundred and sixty eight (168.00 dollars for the payment of the debt due under the said Debentures by a rate sufficient therefor on all the rateable land in the said Municipality.

9. It shall be lawful for the said Municipal Council to re-purchase any of the said Debentures upon such terms as may be agreed upon with the legal holder or holders thereof or any part thereof, either at the time of sale or any subsequent time or times, and all Debentures so re-purchased shall forthwith be cancelled and destroyed and no re-issue of Debentures so re-purchased shall be made in consequence of such re-purchase.

10. This By-law shall take effect on the 1st day of August A. D. 1904.

Done and passed in Council at the City of Nelson on the day of A. D. 1904.

NOTICE

TAKE NOTICE that the above is a true copy of the proposed By-law upon which the vote of the Municipality will be taken at the City of Nelson on Thursday, the 2nd day of June, next, between the hours of 8 o'clock a.m., and 4 o'clock p.m., for the East Ward at the City Hall, on the south side of Victoria street, and for the West Ward at the Board of Trade rooms, on the corner of Victoria and Kootenay streets.

D. C. McMORRIS, City Clerk.

Nelson, May 19th, 1904.

MUSIC LESSONS

HAS YOUR LOVE of Music died out because you cannot play the Piano as you used to do? Six lessons in McDonald Smith's system of Touch and Technique will more than restore your powers without any hard practice at the keyboard, and this, should your age be 16 or 60. Or, is your playing going off from lack of time to practice? A few lessons in the system will improve your playing to a degree you would hardly credit, though you should touch no keyboard for weeks. Complete course, $10 F. J. Painton, Corner Hall and Stanley.

PLUMBING

We are prepared to do all kinds of plumbing, steam and gas fitting on the shortest notice. Estimates given. E. K. Strachan & Co., Baker street, Nelson Phone 262.

NELSON'S NEWS OF THE DAY

H. A. Lacey and family, of Cranbrook, are in the city en route for the coast

W E. Zwicky, of the Rambler-Consolidated, is in the city on legal business.

Born in this city on Hoover street, May 23rd, to the wife of W. H. Dowsing, a daughter.

J. Macdonald, electrician of the West Kootenay Power and Light company, Rossland, is at the Strathcona.

Emile Ewert, manager of the Ewert Bros.' store in Rossland, is in the city on a visit to his brother, Henry Ewert.

Messrs. Wood, Vallance & Co., who purchased the stock of H. Byers & Co., are removing the stock of the store in Sandon to the Nelson establishment.

George Gillies, of Toronto, president of the Athabasca company, spent yesterday in company with manager Gracey in inspecting the mine and mill.

James Lawrence of the Ashdown Hard ware company returns to Calgary this morning. He has not definitely decided yet whether he will remain there permanently, or return to Nelson.

The Hudson's Bay Co. will erect a 40x90 foot warehouse on the C. P. R. flat just north of the warehouse of P. Burns & Co. It will be frame covered with corrugated iron

The sittings will re-open this morning at 10 o'clock when the case of Arnold vs Schaich, part of which was heard on Monday, will be proceeded with. It will probably last for the most of the day.

G. W. Hughes, manager of the Sunset, has just paid the stockholders of the Sunset a dividend of $6000. This is the eleventh dividend to date or a total of $66,000 which has been paid in profits to the stockholders.

Melville Parry left last evening on a tour of inspection of the Confederation Life Insurance agencies, on the main line of the C. P. R., and throughout the Cariboo, Okanagan and Similkameen districts. Mr. Parry expects to return in about five weeks.

The Nelson intermediate lacrosse team journeyed over to Rossland yesterday, tackled the senior players of that city, and were defeated by a score of 6 to 2. The Rosslanders were a much heavier lot than the visitors but the latter made a game fight and had the best of the last quarter, though they were unable to overcome their opponents lead obtained in the earlier stages of the game.

A lately arrived son of sunny Italy turned out the fire brigade yesterday morning by making a simple and rather excusable mistake. He has come from the east in the past few days and has been stopping in New York, Chicago, Montreal and other cities where post office boxes are in use. Wishing to post a letter yesterday morning he went to fire alarm box 25 at the corner of Baker and Falls streets, opened it, but not finding any means of depositing his epistle, pulled the hook hoping to open still another door which would disclose an aperture into which he could thrust his letter. A moment later when the brigade came tearing along they found the astonished Italian, letter in hand trying to understand what all the commotion was about. The police interrogated the man and being satisfied that he had made a mistake, explained matters and let him go.

A party of mountain climbers yesterday afternoon made the ascent of Nelson mountain directly across the lake from the city. The party consisted of W. and J. Jackson, Harry Salmon, Mrs. Salmon and Miss Nina Jackson. The ascent was made up the western slope in about two hours time. The party succeeded in reaching the highest peak at the western end of the mountain and there they fastened a large union jack to one of the tallest trees on the spot. There was plenty of snow on the summit, and a violent snow storm raged for a short time while the party were on the summit.

A MODEL TRAMWAY.

The Crawford Double Rope Aerial Tramway System at the K. E. Works

The Kootenay Engineering Works, of this city have just completed a full sized model of the new tramway handled by the Crawford double-rope aerial tramway system, limited.

The working model is now on exhibition in active operation at the company's works.

Several parties interested in aerial tramways have already inspected the model and pronounce it the most complete system put on the market.

The proprietors of the Kootenay Engineering Works will be pleased to have any persons interested in proposed tramways, call and inspect the new system.

PRINCE COMING TO CANADA

Is From Russia And Will Investigate the Doukhobors.

St. Louis, May 24.—Prince Hesper Oukhtomsky, editor of the St. Petersburg Viedomosti, the only Russian representative at the world's press parliament, is leaving here for Yorkton, Manitoba, to investigate the condition of the Russian Doukhobor settlement there. He will visit Montreal on June 1, returning to New York a few days latter for a brief stay in that city before his departure for Europe on June 14th.

A VERY SUDDEN DEATH.

New York, May 24.—Meyer S. Isaacs, president of the baron de Hirsch fund, and prominently identified with many other local and national organizations, dropped dead in a Broadway cafe this afternoon. He was 65 years of age.

BIG CANAL COMPANY.

Trenton, N. J., May 24.—The Lake Superior Corporation with an authorized capital of $40,000,000 was incorporated here today. The company is empowered to construct and operate canals, and do general construction work.

Handsome Home Clocks

The Clocks in a house are very potent in making the first impression when one enters. Think of this when you go calling again, and notice the CLOCKS in the houses you enter. You will be surprised how much they tell of the character of their owners. We want you to get interested in CLOCKS. They are very attractive and interesting in many ways, both useful and ornamental. We are clock wise and can tell you as well as show you all about them.
