THE DAILY NEWS

VOL. 4 NELSON, B. C., TUESDAY, JULY 11, 1905 NO. 67

CHARMED BY NELSON

American Correspondents are Delighted With Surroundings

Entertained by Cruise in Launches and Shown Fine Fruit Ranch--Astonished at Glories of Climate

Nelson made a distinctly favorable impression upon her American visitors yesterday afternoon and evening. After a hot journey by rail through mountain valleys where the heat seemed greater than on the prairies, the cool evening breeze off Kootenay lake was pronounced delicious. The discovery that a country of sunburnt rock contained a paradise where they had opportunity and permission to pick cherries off real trees, nearly tempted some of the members to play truant and drop behind the party.

The benefit to Nelson of the impression made on so influential a body of visitors is bound to be very great. Each correspondent is accumulating material for a Canadian article. The treatment of Nelson by each of them cannot fail to be very generous.

After spending the morning at Rossland and Trail and the afternoon at Slocan Junction, the party of Washington correspondents on tour through the Canadian west, arrived in Nelson yesterday afternon at 5.35. They were met at the station by J. M. Lay, James Johnstone, T. G. Procter and C. St. Barbe, of the board of trade, H. E. Macdonnell, of the C.P.R., and representatives of the local press. After greetings all round the program decided upon was dinner in their special dining car a launch excursion at 8 o'clock, two hours rest, then on to Procter at 10 o'clock.

The party included: Cy Warman, Arthur W. Dunn, Arthur J. Dodge, Henry Hall ,Gilson Gardner, Richard L. Jones, W. W. Jermane, James S. Henry, E. C. Snyder, Harris M. Cvist ,Richard L. Fearn, John S. Shiver, N. O. Messenger, Jackson Tinker, Thomas F. Dawson, Jon Snure, James P. Hornaday, Robert L. O'Brien and C. Arthur, Williams, all of Washington. They are accompanied by George Ham, literary agent of the C. P. R., and D. W. Bole, of Winnipeg, president of the immigration society of Western Canada.

The newspaper men represent most of the leading journals of the United States. They are the news gatherers at the capital. Many of them are authorities on special subjects, and the names of a few of them are as well known in the realm of fiction as in the soberer sphere of newspaper work.

As they stood on the platform at the railway station and looked round on the lake and mountain scenery, many exclamations of admiration were heard. They were further pleased when they were informed that a fleet of launches was ready to take them for a refreshing cruise on the waters of the west arm.

The correspondents are very quiet excursionists. One of their number remarked that there was not a roisterer in the crowd. Most of them have been engaged in newspaper work for over 10 years, a few for over 20 years. They are keen observers and untiring questioners. It is safe to say that each of them learned more about Nelson in the few hours they were in the city than the average man would learn in as many weeks.

Every member who spoke of the trip expressed regret that the time they were able to devote to British Columbia was so brief. They have visited only four cities, Victoria, Vancouver, Rossland and Nelson, and the time that could be spared to each was regrettably short.

They were unanimous in expressions of delight and admiration of the magnificent and varied scenery through which they have travelled from Victoria to Nelson. The variety appeared infinite in contrast with the monotonous stretch of prairie over which they travelled before reaching the Rockies.

While they are enjoying something of the freedom and exhilaration of a holiday trip, the news instinct remains strong. They know the value of time to a nicety, and are seeing and hearing all they can of the country in the time at their disposal. Each man is gathering material for a descriptive sketch of Western Canada for his own paper. Nelson will probably, get more advertising from the few hours' visit of the American newspapermen than a year's work of all the local bodies could accomplish. The beauties of Nelson and of Kootenay lake will be told in half a hundred of the leading daily papers of the republic ,and will be read by millions.

The party is well looked after by Messrs. Ham and Bole. After introducing the members of the reception committee to the visitors, one by one Mr. Ham turned to the Nelson men and said: "Now call them all by their first names; they like sociability." Whether the members of the board of trade remembered a score of Christian names distinctly enough to obey the injunction or not, is uncertain, but it is certain that there was no lack of sociability.

The visitors were taken across the lake to James Johnstone's ranch. There they were astonished beyond measure to find fruit such as they thought could not grow west of the Mississippi, except in California, when they were invited to climb the trees and pick the ripe cherreis their delight became positively juvenile. They then began to ask questions and when told of the quantity and quality of fruit produced in the Nelson district, some of them thought for a moment that their hosts were imposing on the proverbial credulity of newspaper men.

On the return trip the visitors found the lake breezes so refreshingly keen that they regretted not having their overcoats. They explained that in Washington a summer night does not differ materially in temperature from the day. They expressed the opinion that if the wealthy residents of Washington and other eastern cities where the residents suffer through the hot night, only knew that British Columbia contained a beautiful town beside a lake, where even after the hottest days, the nights were cool and refreshing, Nelson's present hotel accommodation multiplied four-fold, would be found inadequate for visitors during July and August.

After a cruise in the launches the party returned to the city and the Nelson club became the headquarters for an hour, which was pleasantly spent in interchange of ideas.

At 10 o'clock all were on hand at the station to say goodbye to their hosts and take the train for Procter to begin the return journey. Whether it was dictated merely by courtesy or not, the expression of regret was general that the schedule was so arranged that an extra day could not be spent in Nelson. All were charmed with the beauties of the lake and would gladly have enjoyed a leisurely exploration.

'HURRY, WATER GAINING'

LAST MESSAGE OF IMPRISONED CREW OF FARFADET.

FRENCH EFFORTS TO RAISE SUBMARINE STILL UNSUCCESSFUL

Paris, July 10.—Despatches reaching the ministry of marine show that the authorities at Bizerta, Tunis, continue the efforts to raise the submarine boat Farfadet with the expectation of taking out the corpses of the imprisoned crew.

Cables were again passed under the boat today but the rescuers were unable to bring her to the surface. The futile efforts to rescue the inprisoned men shook up the boat, loosening the cap and permitting water to enter the interior orifice for the admission of air. One of the last messages from the interior of the Farfadet was: "Hurry, water gaining."

The ministry of marine still withholds a definite announcement that the crew are dead.

TWO IMPORTANT APPOINMENTS

Collingwood Schreiber and M. J. Butler Take Large Responsibilities.

(Special to The Daily News)

Ottawa, July 10. — Collingwood Schreiber is to be appointed consulting engineer of the department of Railways and Canals and M. J. Butler, who recently resigned from the position of assistant engineer of the National Transcontinental railway, is to be made deputy minister of railways and chief engineer of canals.

Mr. Butler has been connected with many prominent works in Canada and is a good man. One problem he will have to face is the changes which are necessary to put the Intercolonial on a better financial footing. Mr. Schreiber will have charge of the location plans and terminals of the National Transcontinental and Grand Trunk Pacific.

OPENED THE SEACOCKS

Mutineers Send Kniaz Potemkine to Bottom of the Harbor.

Kustenji, Roumania, July 10.—The announcement that the battleship Kniaz Potemkine sailed with rear admiral Kruger's squadron yesterday evening turns out to be incorrect.

Before leaving the Kniaz Potemkine the mutineers opened the seacocks and flooded her hold. She is now lying at the bottom of the harbor, but it is expected she will be floated in time to leave for Sebastopol on July 12 th.

NO RAILWAY SUBSIDIES.

All Legislation Has Now Been Brought Down by the Government.

(Special to The Daily News)

Ottawa, July 10.—Sir Wilfrid Laurier informed Mr. Borden in the house today that there would be no railway subsidies this session and that all legislation is now down excepting certain resolutions which have now been prepared.

TAKEN ILL EN ROUTE.

(Special to The Daily News)

Fort William, Ont., July 10.—Frank E. Hebden, a plumber at Nelson, who went east a short time ago, arrived here on the C. P. R. steamer Manitoba today. On the trip up he received a sunstroke which deranged his mind. Upon arriving in town he acted in such a manner that his friends will send him to Guelph by tomorrow's boat for treatment.

DIED FROM SUNSTROKE.

New York, July 10.—During the 24 hours ending last night at 12 o'clock, four deaths from excessive heat and a large number of prostrations have been reported in this city.

MUNICIPAL OWNERSHIP

Fernie is Now Puzzling Over Water Works System

Public Meeting Held to Discuss Proposal of Private Ownership Advocated by Mayor Comes to no Conclusion

(Special to The Daily News)

Fernie, July 10 — On Saturday evening Stork's hall was comfortably filled with ratepayers and residents of Fernie interested in the municipal water supply and gathered at the invitation of the mayor and council to discuss a communication on the subject from G. G. S. Lindsey, manager of the Crow's Nest Water, Light and Power company.

On the platform were mayor Stork, in the chair, and aldermen Wallace, Cree, Herchmer, Trites, Tuttle and Robins.

In opening the meeting the mayor declared that he had received a communication from manager Lindsey, a day or so before the last meeting of the council and in consequence the city council and he had gone to see Mr. Lindsey in the offices of the Crow's Nest Pass Coal company where the whole subject of water supply had been discussed at length. In consequence of that discussion the following letter had been written by Mr. Lindsey to the city council:

"Dear Mr. Mayor—As a result of the conference which I had the pleasure of having last night with yourself and all the members of the municipal council of Fernie, I am disposed to make the following suggestions for your consideration:

"Please understand that these are made subject to the approval of my board of directors, but, I think that you may confidently feel that the directors will endorse whatever I suggest.

"There is no use in a communication of this kind of entering into the merits or demerits of the present water controversy. Suffice it to say that two water systems will not pay either party in Fernie. As we have a system and are unwilling to sell it, I am prepared to make the following proposition, in consideration of the municipality refraining from installing water service during the period covered by this agreement.

"1 I will furnish free water for as many hydrants as the municipality cares to attach to our system, the municipality to purchase existing hydrants.

"2. I will furnish free, sufficient water to flush the sewers, provided that the amount required is not excessive. I should like to be advised what the water requirements for this purpose will be, but do not anticipate any difficulty in giving you all your requirements.

"3 I will furnish water from the hydrants for street watering purposes at the rate of $10 per month per hydrant.

"4. I guarantee to have before the first fo October an eighty pound pressure water service throughout the thickly settled portions of the municipality.

"5. I am prepared to sell all our water system in the city of Fernie at the end of ten years from the first day of July, 1905, at a price to be fixed by arbitration, if the parties cannot agree. The municipality is not to be obliged to take over any portion of the water service outside the municipality, and I would free them from any bonus which the existing statutes would require them to pay for the purpose of taking over the service.

"6. By that time you will probably wish to bring your water supply from Fairy creek, and I will undertake to give you an easement of use of right of way from the bank of the Elk river to the limits of the municipality, as then existing, provided the route is left to the selection of this company. I may say in this connection, however, that I think it would be well to determine what this route shall be because of possible settlement along the proposed line of this easement.

"I am not prepared to make any undertaking with regard to water rates, further than to say that the present rates may be reasonable, and I do no know of any reason why these rates should in future be increased. I think you can safely rely upon it that they will not be increased.

"If the ratepayers should wish it, I am prepared to undertake that the water supply for the town shall come from above the mines.

"G. G. S. LINDSEY, General Manager.

"Fernie, July 4."

Mayor Stork went on to say that in order to prevent any misconception on the part of the public as to the contents of the letter just read, he and the council had determined to lay it before a public meeting and had now done so.

As far as he was personally concerned he was in favor of the acceptance of Mr. Lindsey's offer, with a few slight modifications. The city was young and to build a new waterworks system at the present time would tax the borrowing powers of the municipality.

The speaker regretted that there had been a meeting called by certain aldermen a night or so before.

He and the aldermen had come to no agreement with Mr. Lindsey. They had received a certain proposal and that proposal was now before the public. The previous meeting was therefore uncalled for.

Mayor Stork then went on to point out the trouble and the expense to which the city would be put did it begin expropriation proceedings for the present waterworks. But it was a mistake to accuse the city council of having abandoned the idea of owning the water supply. They had not changed their opinions but to his mind the present proposal laid before the public was a better solution to the problem than that which would involve the expenditure of a large sum of money before the same result was obtained. The company had promised to furnish a sufficient water supply for fire purposes, free of cost and otherwise to improve the system. Mr. Lindsey had undertaken to give a free right of way for the pipes should the city, at the expiration of ten years, wish to purchase the supply and further the city would not be obliged to purchase the conduits from the upper dam of the present system on Coal creek. In concluding his worship said he would be glad to hear any remarks that anyone in the meeting would care to make, and extended a general invitation to the platform for this purpose.

Several of the aldermen then spoke in the same strain commending the proposals of Mr. Lindsey.

L. P. Eckstein then gave a history of other waterworks in other municipalities where the service had been originally owned by private parties and subsequently taken over by the city. He instanced the case of Vancouver and New Westminster in which latter case he himself had drawn up the papers and paid the money, $20,000 for the city. Mr. Eckstein also referred to the city of Grand Forks. All these cities had paying concerns in their waterworks and the rates charged were much less than those paid in Fernie and advised the citizens to build their own works and expropriate any that prevented them from making their own a success.

Aldermen Robins, Herchmer and Tuttle followed Mr. Eckstein and spoke in favor of the acceptance of Mr. Lindsey's offer but the last named qualified by declaring that he was not there to carry out his own views, but rather those of the ratepayers.

D. V. Mott attacked the whole proposition as an abandonment of the principle of municipal ownership. He complained of the excessive rates and was of the opinion that the waterworks as a municipal concern, should be gone into in spite of opposition. If the money, said Mr. Mott, is not forthcoming, then the citizens should be called upon to furnish it by means of increased taxation.

L. P. Eckstein then moved, seconded by D. V. Mott, that a committee of five be appointed to assist the mayor and council with their advice.

Dr. Bounel objected to the resolution as being practically a vote of want of confidence in the mayor and aldermen. The resolution was voted down; and the meeting adjourned.

PANAMA RAILROAD COMPANY

Official Report of U. S. Government Made Public.

Washington, July 10.—The report of Joseph Bristow who was appointed a special commissioner to investigate trade conditions and other matters affecting the Panama Railroad and Steamship Company was made public today. The report discusses what policy should be pursued by the government in the management of the railroad and makes a number of important recomendations. Among these are the continuance of the railroad as a comercial line with improved facilities for handling commerce, including double tracks and re-equipping the line with modern rolling stock. The enlargement of its facilities, the retention of the steamship line between New York, the cancellation of the contracts with the Pacific Mail Steamship Company, and the South American lines, the opening of the ports of Colon and Panama to all steamship lines on equal terms, and, in certain contingencies, the establishment by the railroad of steamship lines between Colon and gulf ports and Panama and important United States Pacific coast ports.

It is also recommended that in traffic conditions American steamship lines are favored as far as consistent with the treaty obligations of the United States. Mr. Bristow spent several months on the isthmus in his investigation. His report reviews the entire history of the railroad and discusses allegations that its local freight and passenger charges were excessive and its traffic contracts with steamship lines monopolistic. The report was made to secretary Taft who transmitted it to the president with a letter commending its thoroughness.

DISPUTE IS SETTLED.

Vancouver Council and B. C. Telephone Co. Come to Terms.

Vancouver, July 10.—An agreement has been arrived at between the city and the B. C. Telephone company, which was submitted to the city council this evening and practically approved of. The company will in the future work in harmony with the city officials and in the event of a difference of opinion the matter is to be settled by arbitration.

The company agrees that within two years it will remove all the overhead telephone wires on Hastings street and place them underground.

The company further agrees that within five years it will place underground all the wires at present overhead on the downtown business streets.

The company also agrees that within two years it will have installed a new switchboard, so that its whole system, instruments included, will be absolutely modern.

UNIVERSAL SUFFRAGE.

Demanded by Prince Troubetskoi For People of Russia.

St. Petersburg, July 10.—Prince Troubetskoi, the president of the zemstvos congress of Moscow, is quoted in an interview today as strongly opposing the principle of class representation in the coming national assembly.

He declares that only universal suffrage whether direct or indirect will satisfy the masses of the people as well as the leaders of the reform movements.

The recommendation of the governor of Irkutsk that general amnesty be granted to political prisoners in Siberia has been rejected.

DIPLOMACY WINS OUT

France Remains Victor in The Contest With Germany

Kaiser's Interference Has Resulted in His Recognition of the Supreme Interests of France in Moroccoan Affairs

Paris, July 10.—The documents covering the Franco-German Moroccan agreement are three in number and they are all dated July 9th. In the first premier Rouvier wrote to prince von Radolin, the German ambassador at Paris, saying that the French government, through the discussions that had taken place between the representatives of both countries in Paris and Berlin, had reached the conclusion that as the conference proposed by the sultan of Morocco was directed toward no aim opposed to the interests of France in Morocco France gave her assent to the conference with the fundamental principles recognized, namely, the sovereignty and independence of the sultan, the integrity of his kingdom, the usual economic freedom, the necessity for police and financial reform and their introduction for a short period on the basis of an international agreement and the acknowledgment that France had special interests in having orderly rule in Morocco because of the long frontier between Algeria and Morocco and the resulting neighborly relations.

Prince von Radolin replied that his government authorized him to confirm his oral representations that the proposed reference would not follow aims in opposition to French interests, continuing to the end of the note in the precise language quoted by M. Rouvier. The document is a joint declaration signed by M. Rouvier and prince von Radolin that the two governments had agreed to recall their legations at Tangier so soon as the conference met at Fez, and to jointly advise the sultan to prepare a program to be laid before the international conference in accordance with the principles set forth in the letters exchanged between M. Rouvier and prince von Radolin.

Premier Rouvier submitted to the chamber of deputies today the notes exchanged between him and prince von Radolin constituting the Franco-German agreement relative to Morocco. He followed the reading of the note with a detailed explanation of the negotiations. He declared that the understanding was reached between Germany and France, was formed upon the essential principles, and fully recognized the special interests of France. He added:

"The accord thus realized leaves intact the arrangements France had previously concluded with other powers. At no moment did the discussion turn upon the Anglo- French agreement or the Franco-Spanish agreement. The declarations made in the notes and the formal assurances from representatives of the German government, permit me to affirm that Germany does not question our accords with Great Britain and Spain. The chamber can felicitate itself on the happy result of the negotiations between France and Germany, thanks to the sincere efforts of both governments."

M. Rouvier's statement was applauded on both sides of the chamber and the agreement brings a deep sense of relief to the entire country after many weeks of tension.

Germany's contention for a conference receives the final adherence of France, but premier Rouvier has secured the safeguards which he insisted, at the preliminary conference with prince von Radolin, were indispensible.

The most important of these safeguards is that the conference shall not convey any prejudice to the Anglo-France or Franco-Spanish ententes.

While Germany does not specially assent to these agreements, she formally withholds dissent.

Both countries agree as to the sovereignty of the sultan, the independence of Morocco, and the open door without inequality.

This appears to put at an end the prospective submission of the sultan's monarchy among European powers.

On the other hand the agreement recognizes France's special interest to country, due to the geographical proximity of Algiers, and its right thereby to police the frontier and maintain peace and order.

It still remains for the sultan to arrange the program of the conference and it is pointed out that the sultan of Morocco's position is weakened by the negotiations, as the entire question of regulating Morocco is now practically taken out of his hands for determination elsewhere.

OFFICIAL REPORT.

How the Japs are Overrunning the Island of Sakhalin.

Tokio, July 10.—The following report has been received from the Japanese army headquarters on Sakhalin island:

"Our army with much resistance occupied Korsavovsky early on July 8. The enemy burned the town and retired to positions eight miles north where they resumed resistance. We dislodged them and are now in pursuit.

"At 11 a.m. on July 8 the enemy had retreated to a point 22 miles north of Korsavovsk. We captured two 12 centimetre guns, two 12 pounders and also an amount of ammunition. We suffered no losses."

FAMILY IS PROSTRATED.

American Banker Has to Pay $20,000 to Bandits in Cuba.

Santiago de Cuba, July 10.—Julian Cendoya, a wealthy American banker, and agent of the Ward line, while dining with his family last night at his home across the bay, was attacked by eight bandits who covered the members of the family with fire arms and searched the house.

The bandits presented a written demand for $30,000 and seized Mr. Cendoya as a hostage until the amount should be paid. After parleying Mr. Cendoya agreed to pay $20,000 and the bandits withdrew. This morning Mr. Cendoya came to the city and secured the money which he turned over to the bandits at a rendezvous in the bay.

According to reports the bandits are all Spandiards and desperate looking. One of them has been recognized as a boatman who was formerly engaged in the work of salvage on admiral Cervera's battleships. Mr. Cendoya has demanded the protection of the Cuban government as well as that of the American consul.

His family is prostrated.

PRUSSIAN MINE DISASTER

Spectacular Scenes Around a Burning Mine in Germany.

Dortmund Phussia, July 11.—A fire has broken out in the Borusia coal mine caused by the careless handling of a lamp by boys. The lamp exploded igniting the timbers of the shaft which burned rapidly.

Two hundred and fifty miners escaped throug the air shaft, but 39 were cut off, and death is regarded as certain.

The work of rescue is attended with great danger owing to the escape of poisonous gases, and all of the rescuers are reported missing. The ground over the mine is sinking gradually with a sound like that of thunder, as the supporting timbers of the mine are being burned away. Great crowds of women and children are standing about the mine in a drenching rain, hoping for the rescue of husbands and fathers.

CLEARING THE WAY.

Contractors At Work For New Power Line in Boundary.

(Special to The Daily News)

Phoenix, July 10.—A firm of Phoenix contractors, Elliott, Woodward & Logue, has just been awarded the contract for the clearing of the balance of the right of way for the high tension pole line of the West Kootenay Power & Light Co., for its extension from Bonnington Falls into the Boundary. The contract calls for clearing the right of way for a distance of over 12 miles, running from Hardy Mountain back of Grand Forks to the town of Anaconda, adjoining the city of Greenwood. The firm is now advertising for 100 men to put at work at once on the contract, which must be completed inside of three months .

NANAIMO CLOSED UP

United Mine Workers on Top—Politics in Alberni

Nanaimo, July 10 — The United Mine Workers have succeeded in closing up the Brechin mine in spite of the Western Federation opposition. The Western Fuel company has recently installed coal cutting machinery and expected to have 200 men working shortly. Nanaimo is now completely tied up.

Politics are getting red hot in Alberni now. At Alberni the premier and Hon. R. F. Green and Mr. Manson, the candidate, have addressed the electors at Parksville. H. Aitken, the liberal candidate and John Oliver delivered addresses. Attorney general Wilson was at Parksville in the interests of Mr. Manson.

AT THE THEATRE

Good Play Well Put on by the Sherman-Platt Co.—Tonight's Bill

The Sherman-Platt Stock company put on an excellent performance at the opera house last night with Hayden Stevens in the leading roll. The support accorded Mr. Stevenson was uniformly good and the play was well staged. Between the acts the ushers passed around with ice water for the playgoers, free of charge, and the ventilation of the house was excellent, keeping the audience cool and in good humor to enjoy the drama. Joe Lyons and his wife did some good vaudeville scenes between acts and altogether the show presented is well worth a visit.

This evening the play "Shall We Forgive Her" will be repeated.

DETERMINED SUICIDE.

Clifton Springs, N. Y., July 10.—Walter Smith a resident of New Brunswick, N.J., and connected with the Metropolitan Life Insurance Co., committed suicide here today.

After waiting for the approach of a New York Central train at a crossing, he sat down on the rails when the locomotive was but a few feet away and was instantly cut to pieces. Mr. Smith came here about a week ago for treatment at the sanitarium.

NEW QUEBEC BRIDGE

Quebec, July 10—The approach to the new Quebec bridge has now been completed all except the filling in of the embankment and the Phoenix Bridge company will at once start work on th work of erecting the chain work, much of which is on the ground and ready to be placed in position.

ARMAMENT NECESSARY

Earl Roberts Says That England is Unprepared for War

Great Debate in the House of Lords--Government Acquiesces in a Sweeping Motion by Earl of Wemyss and March

London, July 10.—Field marshal lord Roberts created a sensation in the house of lords this evening when in a lengthy and well considered speech he deliberately expressed his opinion, as a practical soldier, that the military force of Great Britain was inadequate, imperfectly trained and totally unfit to uphold Great Britain as a first class power.

Lord Roberts did not blame the government, which he said was actuated by a national feeling but he scathingly attacked the people of England, whom he said showed no national feeling towards the military until danger arose.

The speech was made in connection with a motion introduced by the earl of Wemyss and March, a conservative, traversing premier Balfour's statement regarding the impossibility of the invasion of Great Britain and urging the necessity of keeping up sufficient land forces to repel any possible invasion.

Lord Roberts said the lessons of the South African war had been forgotten, and the armed forces of Great Britain were now as much unprepared for war as when the South African trouble broke out.

He declared emphatically that the choice lay between conscription, or some practical system of universal training and that only by such means would it be possible for Great Britain to possess armed forces organized and trained to meet the demands of the empire in the event of war.

His lordship said that any discussion of Great Britain's military position within the limits of the motion proposed by the earl of Wemyss and March would be entirely unavailing. The country had to deal with a question of the life or death of the empire. The issue of which depended upon Great Britain being ready to defend her eastern possessions and at the same time to take part in any affair nearer home, either of which necessitated the placing in the field of an army as large and efficient as that of any European country, all of which might be regarded as nations in arms.

Lord Roberts appealed to the country to awake to its danger and to take care of the army as a great issue upon which the existence of Great Britain depended.

The discussion of the motion continued for some time, the speakers complimenting lord Roberts for the stand he had taken.

Lord Lansdowne, the foreign minister, defended premier Balfour. He said that Mr. Balfour never had maintained that the defence of the country depended solely on the navy. The committee on defence had taken every possible phase in consideration and would, he hoped, be able to work out the problem to the satisfaction of everyone.

The government decided not to oppose the motion of the earl of Wemyss and March which was passed without division.

EMPRESS OPPOSES PEACE.

Peace Plenipotentiaries Favor the Views of the Court.

St. Petersburg, July 10.—The Associated Press has high authority for the statement that M. Witte, president of the committee of ministers, was strongly urged upon the emperor for head of the peace conference.

The emperor, however, flatly declined and personally chose M. Muravieff, the ambassador at Rome.

Two of the five councillors to the plenipotentiaries, M. Potokiloff, minister to China, and M. Shipoff, director of the imperial treasury and former president of the zemstvos, are distinctly Witte men.

Muravieff saw the emperor today for the purpose of discussing the question of peace and learning his majesty's views. According to the gossip of the imperial entourage, the empress is opposing the conclusion of peace.

ON THE IMPERIAL LIMITED

Another Determined Attempt at Suicide by a Scotch Immgrant

Winnipeg, July 10—A Scotch emigrant named Alex. Anderson attempted suicide on the Imperial Limited at Dexter this morning, gashing his throat so badly that th wind pipe was nearly severed. Before doing so he threw his pocketbook containing a draft for $500 out of the window, and it has not yet been recovered.

Medical aid was sumomned at once and the man was brought to the general hospital here for treatment. He is accompanied by his wife and child.

WINNIPEG NO. 1 HARD

Winnipeg, July 10—Winnipeg samples of barley sown on May 5, were exhibited here oday the stocks being 5 feet 6 inches in length. It is unusually well headed out.

We are just unpacking a shipment of

China, Glassware, Crockery

We are showing all the latest designs and offer

A ROMANCE OF THE SEA

Since the historical mutiny on the Bounty no such romance of the sea has been recorded as the revolt on the Kniaz Potemkine and the subsequent cruise of the mutineers now brought to a dramatic end by the scuttling of the battleship in a Roumanian harbor. Had Jules Verne told us of a battleship which mutinied, held a city in awe and returned defiant answers to a powerful fleet which summoned it to surrender he would have added to his vogue as a first class romancer.

The Russian Black sea fleet has been put out of commission. In other words so near to a general mutiny did the voyage to Odessa and the sight of the Kniaz Potemkine's revolutionary emblem bring the squadron that the commander had to withdraw hastily to Sevastopol and disband his force, thus imitating the course of British officers who, at the outbreak of the Indian mutiny, quickly disarmed and dismissed native regiments, in one case under the menace of cannon shotted with grape. The Black sea fleet is no longer a fleet in being, its machinery is ungeared, its men have been sent ashore, and the inactive vessels are lying under the guns of Sevastopol.

The mutineers on the Kniaz Potemkine failed in an evident attempt to extend the operation of their revolt to the *rest of the fleet.* The revolutionary fire apparently did not burn with sufficient intensity to cause a general uprising but the hurried retreat of the fleet to Sevastopol showed how nearly the mutineers succeeded.

The statements of the whole affair as given out by the Russian authorities were absolutely untrue as succeeding events unquestionably proved. Admiral Kruger's humiliation has been complete and it is clear that with his formidable fleet he was unable to tackle this single battleship owing to the attitude of his own men.

It will be interesting to learn what happens to the victorious mutineers—will they suffer the extreme penalty of the Russian law or will they manage to escape scott free and live out their days in other lands?

EDITORIAL NOTES.

Thomas W. Lawson, of Boston, has plenty of fight left in him yet. In a lengthy speech delivered at Ottawa, Kansas, on Saturday afternoon, he described his battle for the robbed and against the robbers, up-to-date. In concluding his speech Mr. Lawson said: "Make no mistake. My crusade against Frenzied Finance and its votaries and their plundering, robbing game will be carried to a finish. I shall keep dinning into the ears of the American people the brutal facts of their injuries until I rouse them to action. I shall keep urging them to sell all their stocks and bonds until they sell them. I am on the trail—and if necessary, I shall tramp bare-footed summer and winter through every town and hamlet in the United States until I accomplish my purpose and complete this reform. If I live, the American people will sell their stocks and bonds. When the proper time comes to announce my remedy, I shall set it forth, shall operate it and prove its efficiency, though its practicality will be apparent at a glance. In operation it will benefit all alike, the farmer, the laborer, the producer and consumer first, and *the honest possessor of capital second.* The conditions of its application are such that no man can misuse it or turn it into an instrument for his personal benefit. This cannot be done at the beginning or at the end or at any time. I, its inventor, shall be as powerless to interfere, change or transmute as any one else. If eventually it should turn out *that there is nothing in my movement,* all that it is necessary for the people to do is to repurchase from the "System" the stocks and bonds they have sold."

The quarterly meeting of the Provincial Fruit Growers' Association to be held in this city next Saturday should be taken full advantage of by all the *ranchers in the district as well as those* indirectly interested in the promotion and advancement of the fruit industry. An excellent opportunity will be offered for an exchange of views among those busily engaged in building up the industry and in hearing experienced men deal with many known difficulties. The successful quarterly meeting held this time last year should be improved upon and the attendance should be large and representative.

The informal arrangements to entertain the visiting Washington Pressmen yesterday during their brief stay in this city were worthy of the energetic men who looked after the affair ,the board of *trade, tourist association, and Mr. Jos.* Carter on behalf of the C. P. R., are to be commended and congratulated for impressing upon the newspapermen the importance of this city and district from a commercial viewpoint, as well as making the visit here an enjoyable one. The only regret is that the pressmen could not prolong their stay.

Arrangements for holding Nelson's Fall Fair in the end of September have already begun. The prize list and program is now in the hands of the printers and will shortly be ready for distribution, while the secretary is busily engaged arranging for extra attractions. The fair will occupy three days this *year instead of two, this being found* absolutely necessary by the management owing to the increasing popularity of the exhibtion. Many more exhibits than in '03 and '04 are confidently expected and a great advance is looked for in many ways, over anything so far attempted. When the first Fall Fair was being got up there was a good deal of doubt expressed as to its ultimate success, and it was only the zealous work of a few plucky men that carried the fair of 1903 to a triumphant conclusion. Last year the main building was agreed upon and rushed to completion entirely through the efforts of local capitalists and the second fair passed the experimental stage successfully. The exhibition is now eagerly looked for all over the Kootenays as one of the chief events of the year, and the one to be held in September next should far excel its two predecessors.

CONVENTION ENDS.

Christian Endeavor Meeting Comes to A Successful Close.

Baltimore, July 10.—The closing sessions of the twenty-second international convention of the Christian Endeavor society were held today, and already many delegates are homeward bound, while others will leave tomorrow for Atlantic City, New York and other points along the coast.

While the attendance upon this convention has not been up to the high re*cord mark, among those who attended* were many of the most prominent members of the society and the addresses made and sermons delivered have been the highest order and in perfect keeping with the program, which leading members claim to have been the best ever presented to a convention.

The programme for the closing day began with early morning prayer meetings at several churches, and the daily *quiet hour service was conducted as us*ual by Rev. R. A. Hime, D.D., of India. From 9 to 10 o'clock this morning the school of methods was held. The remainder of the morning was taken up with a recognition service, presentation of banners, certificates and diplomas for successful work along increase lines and on evangelistic, missionary, citizenship, benevolence, committee work, etc.

The afternoon session in the Fifth *Regiment Armory attracted a large aud*ience and the proceedings were among the best of the series. The topic was Christian Endeavor and Reforms." The speakers were secretary of the navy Charles J. Bonaparte and Hon. Henry B. F. McFarland, commissioner of the district of Columbia.

President Francis E. Clark presided over the closing exercises tonight and his annual address was the principal feature of the session.

LONGSHOREMEN'S UNION.

Society is Increasing and on Excellent Financial Foting.

Detroit, July 10.—With nearly 200 delegates present from all parts of the country, the 14th annual convention of the international longshoremen and their employers on the Great Lakes, begun today with president William Livingstone of the Lake Carriers Association in the chair.

The secretary read his report showing the association to be in execellent financial condition with an increase of local unions during the past year.

GOLD FOUND IN ICELAND

Copenhagen, July 10.—Gold discoveries in Iceland have caused a regular gold fever in the island. Information from Rexkjavik states that prospecting in that neighborhood continues and that many finds are reported. An engineer has brought in a large nugget he dug up at Vestlander ,a place lying a considerable distance from Rexkjavik, where it is believed a new goldfield will be opened.

BIG LIST OF SHIPPERS

LEAD RECEIPTS AT HALL MINES SMELTER FOR YEAR

EIGHTY-FOUR PROPERTIES SENT IN OVER 8000 TONS

The total quantity of lead treated at the Hall Mines smelter during the fiscal year ending June 30, 1905, was over 800 tons. Of this total over 5000 tons were received from the St. Eugene. The number of shipping mines in the list is 84. The figures for each mine were as follows.

ST. EUGENE PAYROLL

For the month ending June 30th the output of the St. Eugene mine was 2750 tons of concentrates, says the Moyie Leader.

Monday was payday at the mine and the company distributed a little over $8,000. There are about 300 men on the payroll.

The machinery for the new 30 drill air compressor is being installed as rapidly as possible and an effort will be made to have it running by the 1st of August. The *company is behind with development work* and as soon as this machinery is ready to run, an additional 100 men will be put to work. This will bring the wages paid monthly up to nearly $10,000.

MURAVIEFF GOES LEISURELY

Rome, July 10.—M. Muravieff will, it is learned in official circles, sail for the United States on July 26th from Cherbourg on board the Kaiser Wilhelm der Grosse.

APPEARING OLD

Acts as a Bar to Profitable Employment.

You cannot afford to grow old.

In these days of strenuous competition it is necessary to maintain, as long as possible ones youthful appearance.

It is impossible to do this without retaining a luxurious growth of hair.

The presence of Dandruff indicates the presence of a burrowing germ which lives and thrives on the roots of the hair until it causes total baldness.

Newbro's Herpicide is the only known destroyer of this pest, and it is as effective as it is delightful to use

Herpicide makes an elegant hair dressing as well as Dandruff cure.

Accept no substitute—there is none.

Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

END OF THE AGITATION

PASSING OF AUTONOMY BILLS AT OTTAWA.

REVIEW OF THE SUBJECT THAT CAUSED LONG DEBATE.

The Winnipeg Free Press in reviewing the long discussion at Ottawa over the Autonomy bill says editorially:

The passing of the autonomy bills by the dominion house of commons by a large majority, with the acquiescence of the great bulk of the Canadian people, is a striking proof that Canadians at heart are wedded to those principles of honorable compromise which distinguish the politics of all truly British peoples. Our politics are periodically bedevilled by racial and religious outbursts, now from one camp of extremists, now from another; and these are so threatening in appearance that timid observers, unacquainted with Canada's past history take pessimistic views of the future of the confederation. ut given copable, judicious and firm leadership, the country emerges from each of these periods of excitement without mishap; and years of peace and prosperity follow, while the forces of bigotry and intolerance are gathering for another futile but picturesque explosion.

For forty years the common sense of most in Canada has held the fretful disturbers of the country's peace in check. In every case where a courageous public man has defied the extremists and pleaded for an honorable compromise, there has been an immediate and effective response. The successive victories which sir Oliver Mowat achieved in Ontario against combinations of religious fervor and racial hatred, which looked invincible on paper, should be alike a warning and an encouragement to our public men; but apparently the lesson has to be newly administered every ten years.

In dominion politics the one triumph of the extremists was short-lived and was followed by sharp retribution. In 1895 and 1896 the conservative government made itself the willing and obedient tool of the ultramontane hierarchy of Quebec. The fight against that tyranny was led by sir Wilfrid Laurier, a Roman Catholic; and he won the fight because his fellow-religionists in his own province followed him in place of taking instructions from their spiritual advisers. A very large proportion of the Protestants, including practically all of those who have lately been making themselves heard in condemnation of the educational clauses of the autonomy bills, were quite willing in 1895-6 that the dominion parliament should become a mere registering body to give effect to the deliberations of a council of bishops.

There is a widespread misapprehension as to the official attitude of the liberal party in the campaign of 1896. It never took the position that Manitoba must be left free to do exactly as it pleased in matters of education. The legal right of the dominion parliament to intervene in this province was not and could not be questioned. Sir Wilfrid Laurier took the position that the arbitrary course which the dominion government of that day preferred to take was not desirable in the interests of the country's peace; and was unnecessary, since a satisfactory compromise could be arrived at by friendly negotiations. The people of Canada agreed with sir Wilfrid and put him in power; the negotiations followed; and the school settlement of 1897 was the result. The official documents in that case make it clear that the settlement was virtually a treaty between the dominion parliament and the Manitoba legislature, whereby the former agreed to waive its powers to enact and enforce remedial legislation provided the province put into effect the arrangement arrived at. Should any of the privileges granted the minority in this province by the legislation of 1897 ever be withdrawn, the dominion parliament would resume its power of interference.

As for the territorial school question, it bore only the most remote resemblance to the Manitoba case, although superficial observers who did not want to see straight imagined that they were alike as two peas. Such real strength as the late agitation had was based upon the assumption that education was a right reserved to the provinces, and therefore the proposal by the dominion parliament to put on educational clause in the constitution of the new province was an unwarranted invasion of provincial rights. This assumption had not relation to actual facts. Education is distinctly one of the questions upon which the provinces are not free to do precisely as they please, as anyone can see for himself by a reference to the B. N. A. Act. Once the government cleared up the popular misconception on this point, the task of justifying the proposed legislation was greatly simplified. It then became necessary only to establish that the law in itself was reasonable and proper. This there was no difficulty in doing. The apparent acceptability of the law as it stands to the people of the new provinces had a powerful effect in calming the public mind; and Mr. Haultain's declaration, made before he recognized its political bearing, that, if given a dictator's powers, he would continue the territorial law in its present form, also did some good. There is pretty general agreement that there is nothing to which reasonable men can take objection in the moderate guarantees extended to the minority by the autonomy bills.

As a dominion issue we have heard pretty nearly the end of the discussion. All advices from Ottawa are that the tories are sick of the whole question; and angry that they allowed themselves to be persuaded to take the course they did. Their past history should have warned them against making the mistake they did. No political party in Canada has ever prospered by appealing for a sectional support; even if it gets it, it loses all the gain elsewhere and is no better off. The conservatives for ten years have been trying more or less openly to solidify the English-speaking Protestant vote of Canada against sir Wilfrid Laurier. The furious agitation which is now about over, was the latest development of this campaign. The thing will not work out, however. The liberal Protestants have not the slightest objection to following sir Wilfrid as leader; and the net result of the conservative policy is to put behind sir Wilfrid a solid vote that makes him invincible. Perhaps it will take another bad defeat to convince the conservatives that their policy is political foolishness; but there are signs that they are beginning to appreciate where they stand. One of the indications of returning sanity is a willingness to call off the agitation against the educational clauses of the autonomy bills.

The threat was made by Mr. Bennett and Mr. Haultain during the Ontario bye-elections that an agitation would be carried on in the new provinces against the limitations in their constitutions; but they have been very quiet since their return home. They probably appreciate the fact that public opinion in the territories would not be friendly to any course calculated to disturb the peace of the community. The people of the new provinces have something better with which to employ their time than the galvanizing of an Ontario-made agitation that has already run its course in the province where it originated.

You can make dirty picture frames, or any other such articles, look like new if you clean them the Sunlight way. Chop very finely a piece of Sunlight Soap and put it into a bottle with a teacupful of hot water, shaking it well and adding a wine glass full of spirits of ammonia. Paint the frames with this liquid, let it stay on a few minutes, then wash off with a soft brush and cold clean water, and polish with clean chamois leather. Sunlight Soap is the only soap that can be used successfully in every cleansing operation in the household.

CHOLERA INFANTUM

Child Not Expected to Live from Hour to Hour, but Cured by Chamberlain's Colic, Colera, and Diarrhoea Remedy.

Ruth, the little daughter of E. N. Dewey of Agnewville, Va., was seriously ill of cholera infantum last summer. "We gave her up and did not expect her to live from one hour to another," he says. "I happened to think of Chamberlain's Colic, Cholera and Diarrhoea Remedy and got a bottle of it from the store. We kept on giving it and before she had taken half of one small bottle she was well." This remedy is for sale by all druggists and dealers.

KING OSCAR MEETS KAISER.

Stockholm, July 10.—King Oscar and crown prince Gustavus will leave Stockholm on July 13th on the royal yacht to meet the German emperor at Gefl on the coast of Sweden.

ONE DOLLAR SAVED REPRESENTS TEN DOLLARS EARNED

The average man does not save to exceed ten per cent of his earnings. He must spend nine dollars in living expenses for every dollar saved. This being the case he cannot be too careful about the unnecessary expense. Very often a few cents properly expended, like buying seeds for the garden, will save several dollars outlay later on. It is the same in buying Chamberlain's Colic, Cholera and Diarrhoea Remedy. It costs but a fe wcents but a bottle of it in the house often saves a doctor's bill of several dollars. For sale by all druggists and dealers.

TO IMPROVE THE BREED.

Lexington, Kentucky, July 10—Representatives of the Japanese government purchased five high breed stallions here today. They are to be sent to the Royal stud in Tokio. Three are thoroughbreds and two are registered trotters.

BUY IT NOW

Now is the time to buy Chamberlain's Colic, Diarrohea and Cholera Remedy. It is certain to be needed sooner or later and when that time comes you will need it quickly. Buy it now it may save life. For sale by all druggists and dealers.

It will pay you to keep Chamberlain's Colic Cholera and Diarrhoea Remedy in your house. It only costs a quarter. Sold by all druggists and dealers

West Kootenay Butcher Co.

Synopsis of Regulations for Disposal of Mineral on Dominion Lands in Manitoba, the Northwest Territories and the Yukon Territory.

Coal—Coal lands may be purchased at $10 per acre for soft coal and $20 for anthracite. Not more than 320 acres can be acquired by one individual or company. Royalty at the rate of ten cents per ton of 2000 pounds shall be collected on the gross output.

Quartz—Persons of eighteen years and over and joint stock companies holding free miner's certificates may obtain entry for a mining location.

A free miner's certificate is granted for one or more years, not exceeding five, upon payment in advance of $7.50 per annum for an individual, and from $50 to $100 per annum for a company, according to capital.

A free miner, having discovered mineral in place, may locate a claim 1500x1500 feet by marking out the same with two legal posts; bearing location notices, one at each end on the line of the lode or vein.

The claim shall be recorded within fifteen days if located within ten miles of a mining recorder's office, one additional day allowed for every additional ten miles or fraction. The fee for recording a claim is $5.

At least $100 must be expended on the claim each year or paid to the mining recorder in lieu thereof. When $500 has been expended or paid, the locator may, upon having a survey made, and upon complying with other requirements, purchase the land at $1.00 per acre.

Permission may be granted by the Minister of the Interior to locate claims containing iron and mica, also copper in the Yukon territory, of an area not exceeding 160 acres.

The patent for a mining location shall provide for the payment of a Royalty of 2 1-2 per cent of the sales of the products of the location.

Placer Mining—Manitoba and the N.W.T., excepting the Yukon Territory—Placer mining claims generally are 100 feet square; entry fee, $5; renewable yearly. On the North Saskatchewan River claims are either bar or bench, the former being 100 feet long and extending between high and low water mark. The latter includes bar diggings, but extends back to the base of the hill or bank, but not exceeding 1000 feet. Where steam power is used claims 200 feet wide may be obtained.

Dredging in the rivers of Manitoba and the N.W.T., excepting the Yukon Territory—A free miner may obtain only two leases of five miles each for a term of twenty years renewable in the discretion of the Minister of the Interior.

The lessee's right is confined to the submerged beds or bars of the river below low water mark, and subject to the rights of all persons who have, or may receive entries for bar diggings or bench claims except on the Saskatchewan River where the lessee may dredge to high water mark on each alternate leasehold.

The lessee shall have a dredge in operation within one season from the date of the lease for each five miles, but where a person or company has obtained more than one lease one dredge for each fifteen miles or fraction is sufficient. Rental $10 per annum for each mile of river leased. Royalty at the rate of two and a half per cent collected on the output after it exceeds $10,000.

Dredging in the Yukon Territory—Six leases of five miles each may be granted to a free miner for a term of twenty years, also renewable.

The lessee's right is confined to the submerged bed or bars in the river below low water mark, that boundary to be fixed by its position on the first day of August in the year of the date of the lease.

The lessee shall have one dredge in operation within two years from the date of the lease, and one dredge for each five miles within six years from such date. Rental $100 per mile for the first year and $10 per mile for each subsequent year. Royalty same as placer mining.

Placer Mining in the Yukon Territory—Creek, gulch, river and hill claims shall not exceed 250 feet in length, measured on the base line or general direction of the creek or gulch, the width being from 100 to 2000 feet. All other placer claims shall be 250 feet square.

Claims are marked by two legal posts, one at each end, bearing notices. Entry must be obtained within ten days, if the claim is within ten miles of a Mining Recorder's office. One extra day is allowed for each additional ten miles or fraction.

The person or company staking a claim must hold a free miner's certificate.

The discoverer of a new mine is entitled to a claim 1000 feet in length, and if the party consists of two, 1500 feet altogether, on the output of which no royalty shall be charged, the rest of the party ordinary claims only.

Entry fee $10. Royalty at the rate of two and a half per cent on the value of the gold shipped from the Yukon Territory to be paid to the Comptroller.

No free miner shall receive a grant of more than one mining claim on each separate river, creek or gulch, but the same miner may hold any number of claims by purchase, and free miners may work their claims in partnership by filing notice and paying fee of $2. A claim may be abandoned and another obtained on the same creek, gulch or river, by giving notice and paying a fee.

Work must be done on a claim each year to the value of at least $200.

A certificate that work has been done must be obtained each year if not, the claim shall be deemed to be abandoned, and open to occupation and entry by a free miner.

The boundaries of a claim may be defined absolutely by having a survey made and publishing notices in the Yukon Official Gazette.

Petroleum—All unappropriated Dominion Lands in Manitoba, the Northwest Territories and within the Yukon Territory are open to prospecting for petroleum, and the Minister may reserve for an individual or company having machinery on the land to be prospected, an area of 1920 acres for such period as he may decide, the length of which shall not exceed three times the breadth. Should the prospector discover oil in paying quantities, and satisfactorily establish such discovery, an area not exceeding 640 acres, including the oil well, will be sold to the prospector at the rate of $1 an acre, and the remainder of the tract reserved, namely 1280 acres, will be sold at the rate of $3 per acre, subject to royalty at such rate as may be specified by Order in Council.

W. W. CORY,

Deputy of the Minister of the Interior.

READY FOR FALL FAIR

PRIZE LIST ALREADY IN HANDS OF PRINTERS.

EXHIBITION WILL COVER THREE DAYS INSTEAD OF TWO.

Secretary Annable of the Fall Fair is already beginning to wear a care-worn appearance. He has started to calculate the outgoings and receipts, problematical of Nelson's chief institution. Already the prize list, a voluminous document, is in the hands of the printer and in a short time will be published. The prizes this year are both greater in number and heavier in amount than the awards of the Fall Fair of 1904.

Among the new features of the fair this year is that it is to occupy three days instead of two. This is absolutely necessary, it is averred by the secretary, owing to the increasing popularity of the exhibition. It is a question too, whether the whole of the available space will not be taken up this year in a manner far exceeding that of last year. Before very long it will seem to be inevitable that the fair building will have to be much enlarged. The secretary expects that there will be a much more extended display of fruit and vegetables exhibited than was the case on previous occasions. This is not only due to the increased interest that is being taken in the Fair but also because of the greater number of people from districts outside of Nelson and its immediate vicinity who will enter. Yet another cause is the vastly larger increase of production of 1905 over 1904 than was the case between 1903 and 1904.

To attract as far as possible these outside districts in order than Nelson shall be in reality the centre of the great districts of Kootenay and Yale, prizes are being given which are substantial in character. The whole of the country surrounding Nelson has been divided into eight districts for Fair purposes. These district, as districts, will enter separately fruit and vegetables so that the one district shall compete against all the others. Not only then will an individual rancher make his personal entry but it is open to him also to make another entry for his district in any one of the classes which are open to him as an individual. Then the aggregate of exhibits, both as to quality and as to variety in each district will be judged and an award entered accordingly. This feature alone will take up a great deal of space.

Another feature of the Fair this year will be the probable introduction of chariot and pony races in the recreation grounds.

Secretary Annable has only just started upon his campaign. By the time he is nearing the goal a much larger variety of amusements, of entries and awards inevitably will have to be provided for. One thing is certain that the Fair now is only 10 weeks off falling on the Wednesday, Thursday and Friday of the third week in September, and that it will be larger and better than ever it was before, making a very good commercial thermometer of the growing enterprise and success of Nelson.

CHAMBERLAIN'S COLIC, CHOLERA AND DIARRHOEA REMEDY—THE BEST IN EXISTENCE

T. M. Wood, manager of the White county News, Beebe, Ark., is a representative southern business man, who does not hesitate in expressing his good opinion of a well known remedy. He says: "It gives me pleasure to recommend Chamberlain's Colic, Cholera and Diarrhoea Remedy, having used it myself and in my family with the best results. In fact I believe it to be the best remedy of the kind in existence." Sold by all druggists and dealers.

James Band, proprietor of the Grove hotel, Fairview, has had that favorite summer resort nicely fitted up. It is conveniently located within half a block of the street car line and good meals and the best of liquors and cigars make it a popular house of call. Drop in any time when passing and sample some of those choice thirst quenchers always on tap.

SAIL FOR JAPAN.

Prince and Princess Arisugawa Terminate Their English Visit.

London, July 10.—Prince and princess Arisugawa of the imperial family of Japan left London for Portsmouth today where they will spend a day, sailing for Japan tomorrow from Southampton. A number of prominent people was gathered to bid the prince and princess farewell which included the duke of Connaught, lord Lansdowne and baron Hayashi.

WILL DEVELOP MOTHER LODE

J. Y. Cole Raises Money in Spokane to Work Poplar Property

An early revival of gold mining at Poplar is assured. Most of the companies owning property in the district are getting ready to resume operations. One mine will be opened this week, the celebrated Mother Lode.

John Y. Cole, one of the owners and managing director, returned Sunday evening from Spokane where he had gone to raise money for development of the mine. Mr Cole did not wish to say much about the mine or his plans, but he expressed his general satisfaction with the prospects.

He was entirely successful in his financial mission. He did not have to mortgage his mine or sell a controlling interest. By showing samples of the ore and submitting them to assays, he convinced several Spokane men of the value of the property. He was then able to stil on good terms enough stock to raise the amount he considered necessary. What the amount was he would not say, but he is confident that he has enough to operate the mine until it is in a condition to pay its way.

MINING RECORDS

At the mining recorder's office on Monday H. A. Faulkner and Leon Lapsley recorded the locations of the Erie and Gussie half a mile east of Erie.

A certificate of work was issued to John Perkins on the Selina.

LAND NOTICES

TAKE NOTICE—Sixty days after date I intend to apply to the Hon. the Chief Commissioner of Lands and Works at Victoria for permission to purchase the following described land, begining at a post near the north bank of the Kootenay river, West Kootenay District, marked W. Clayton's southeast corner, thence west 40 chains, thence north 40 chains, thence east forty chains, thence south 40 chains to point of commencement, containing one hundred and sixty acres more or less.

W. CLAYTON.

Thrums Siding, May 24th, 1905.

BLAZE AT GRAND FORKS

EXCELLENT WORK OF BRIGADE PREVENTS CONFLAGRATION

PAY DAY AT GRANBY SMELTER—PERSONAL NOTES.

(Special to The Daily News)

Grand Forks, July 10.—One of the worst fires in the history of Grand Forks occurred on Saturday night. About 11 o'clock the fire started at the rear of J. Morehead's grocery on Bridge street, from some unknown cause, and in a few seconds had caught a quantity of empty fruit crates, that had been dried in the sun and these made a great start for the fire. As soon as the fire alarm was sent in the brigade responded promptly and although the fire quickly gained great headway, the fire fighters succeeded in keeping it well under control. The damage done was confined to Morehead's grocery, the Palm fruit store, and W. K. C. Manly's hardware store. It is not exactly known what the total damage will amount to, until the hardware stock has been overhauled, but it is generally considered that it will not exceed $3000 all told. The act of stopping a fire of this magnitude right in the center of a block of frame buildings was a great feat for the local fire brigade, and chief Savage in consequence of the good work done by his brigade is receiving congratulations everywhere. If the fire had continued along the block and wiped it out, the loss would have been at lease $75,000. The damage done is well covered by insurance.

Chief license inspector Darraugh has called a special meeting of the Boundary Creek license commissioners at Grand Forks on the 24th instant for the purpose of considering the application of L. A. Manly for a license at Midway as well as the application of Martin Dufour for a license at Myer's Creek.

Mrs. McKee and family and Mrs. Brown and family, have gone to Vancouver to visit relatives during the hot summer months.

D. D. Munroe, formerly a business man here who latterly held a position with Kelly, Douglas & Company of Vancouver, arrived here yesterday and will likely establish a new business in Grand Forks.

A reward of $100 has just been offered for information that will lead to the capture of the party who robbed the safe of the Kettle Valley line depot a few days ago. Up to the present time all endeavors to locate the burglars have been fruitless.

Max Kuntz, the well known expressman, has just returned from a two week's trip through the Similkameen. He says that the wheat crops in Anarchist mountain district are excellent, the wheat stocks growing to a height of five feet with heads some nine inches in length.

Chief engineer Kennedy, of the Great Northern, has returned from his recent official visit to the east and has gone on through to Midway which place he will make his headquarters this summer.

Today is payday at the Granby smelter, and over $35,000 is being paid to the employees, the major portion of which is at once put in circulation in the city.

YOUR APPEARANCE

suffers bending over the cooking stove during hot weather. Try Clark's Canned Meats, wholesome, tasty and appetizing. It's a good change.

Lifebuoy Soap—disinfectant—is strongly recommended by the medical profession as a safeguard against infectious diseases. 12

Going for Chamberlain's Colic, Cholera and Diarrhoea Remedy.

Don't put yourself in this man's place, but keep a bottle of this remedy in your home. There is nothing so good for Colic, Cholera Morbus, Dysentery and Diarrhoea. It is equally valuable for Summer Complaint and Cholera Infantum and has saved the lives of more children than any other medicine in use. When reduced with water and sweetened it is pleasant to take.

You, or some one of your family, are sure to need this remedy sooner or later and when that time comes you will need it badly; you will need it quickly. Why not buy it now and be prepared for such an emergency? Price, 35 cents.

NELSON'S NEWS OF THE DAY

His honor judge Forin leaves for the Boundary this morning to hold court there.

There will be a meeting of the executive of the cricket club this evening at 8 o'clock in the office of R. J. Steel.

The temperature on Sunday ran up to 93 degrees Farenheit and yesterday registered 91, falling to 58 at 3 o'clock Monday morning.

The Canadian Pacific railway has ordered that in future Lancaster Spur, three miles west of Slocan Junction, be treated as a flag station.

Mrs. C. A. White and her son, Fred of Cranbrook, passed through the city last evening en route for the Baptist convention at Victoria.

Although the temperature for the present is high, even for summer weather, the average of the summer months so far is rather lower than normal.

The Sunday school of the Baptist church has been changed from 2.30 p.m. to 10 a.m. for the balance of the summer season. The midweek prayer meeting will be held every Wednesday evening at 8 o'clock instead of Thursday evening.

The management of the opera house has made several alterations to the building to ensure plenty of air and to keep the theatre cool. Patrons will be able to enjoy the play every evening this week regardless of the hot days.

Dr. F. E. Morrison and Mrs. Morrison leave today for a trip to Vancouver and Portland. Dr. Morrison will attend the conference of American dentists to be held there shortly. Dr. and Mrs. Morrison expect to return in about a fortnight.

A junior intermediate lacrosse game will be played on Thursday next at the recreation grounds here, commencing at 2:30 in the afternoon between Nelson and Rossland. This is the first game of the kind between these teams and the general idea behind the game is to educate the younger players so that they will be ready at any time to fill vacancies without having to import players and so spoil the game from an amateur standpoint.

A special meeting of the lacrosse club and their friends and supporters will be held at the Hume hotel this evening at 8 o'clock. Vancouver and New Westminster clubs wish to make arrangements for games with the local players and it is proposed that the Nelson team visit Revelstoke and Kamloops, Kelowna and Vernon. A game with Greenwood to be played here about July 20, is also under consideration. A full attendance is particularly requested this evening.

COOL ON THE LAKE

Popular Excursion to Procter on Sunday Afternoon a Success

The excursion advertised for Sunday afternoon on the Kokanee proved a great success and will probably be repeated. About 150 persons including many ladies and children, composed the party, all anxious to avoid the stifling heat experienced in the city. The steamer started a few minutes after 2 o'clock, and reached the city wharf shortly after 6 p.m. after a most delightful sail. A short stay was made at Procter where everyone went ashore, and then a turn was taken in Kootenay lake, the steamer crossing over to the Pilot Bay smelter, giving the passengers the benefit of the cool breezes sweeping up the lake. Apleasant breeze was encountered on the way home, making a delightfully cool trip back to the city. All the way out to Procter launches and row boats were in evidence and numerous camping out parties were seen.

The trip proved such a success and was so much appreciated by all those who took part in it that if the hot weather continues, another excursion will likely take place.

NEW SCHOOL FOR FAIRVIEW

Building to be Removed to Site Near Residential Streets

The Hume school is to be removed at once from its present unsuitable position to a corner in the residential part of Nelson's eastern suburb. G. H. Playle, secretary of the Hume board of school trustees, received official information yesterday from the superintendent of education that lots 1 to 6, block 6, of district lot 58A, in Fairview had been purchased for school purposes and that orders had been given in the lands and works department for the removal of the school building to the new site.

The action is the result of the efforts of successive boards of trustees continued through many years. The final effort was a strenuous one. A strongly worded and terse petition was drawn up and signed by every adult male resident in the school district. A mass meeting was then called at which Harry Wright, member of the legislature for the district, was present by special invitation. Strong resolutions were adopted unanimously and forwarded to the department of education. The petition was publicly handed to Mr. Wright to be presented to the government. Mr. Wright performed the request of his constituents and urged their claims upon the department. A month ago inspector D. Wilson received instructions to investigate and report. Yesterday's intimation that the request for a change had been granted by the department was the final result.

The consequence will probably be an early increase in the enrollment at the Hume school and greater regularity of attendance as many pupils, residing just outside the city limits have preferred attending the Nelson schools to making the toilsome climb to the school at the top of the hill. The trustees are gratified at their success and are confident that it will greatly increase the interest in the school and enable it to do work more efficiently.

COUNTY COURT

Cases Disposed of Yesterday—Uninteresting Session

Before his honor judge Forin yesterday the adjourned sittings of the county court were resumed and the list of waiting cases disposed of.

Magnuson vs. McKay. Perdue and Elliott claimants, an interpleader issue, involving a $1500 chattle mortgage was partly heard and adjourned to be brought up again on motion for argument. R. M. Macdonald for plaintiff; Johnson and Forin for the claimants.

Teeter vs. Shurpridge. Claim for $250, balance due under agreement. R. M. Macdonald for plaintiff; Forin for defendant. Case heard and judgment reserved.

Holt vs. Crilly. Application to take plaintiff's evidence de bene esse allowed and referred to the registrar, who will take the evidence. Taylor, K.C. for plaintiff; Hodge for defendant.

City of Nelson vs. Hip Chong and four other similar cases. Appeal by defendants from decision of police magistrate Crease, who on July 10th fined them $5 for non-compliance with the city bylaw in not connecting their laundries with the city water mains, resulting in an unsanitary state of affairs. Johnson and Forin for the appeal; Taylor, K.C., and Wilson for the respondents. Case heard and arguments adjourned to chambers on a date to be agreed upon.

WEST LAMBTON

Conservatives to make Another By Election Fight for a Liberal Seat

The conservatives are not satisfied with the bye-elections in London and North Oxford and they profess to look forward with joy to the approaching battle in West Lambton, rendered necessary by the death recently of Dr. Johnston.

The Toronto News voices the views of the opposition this way, through its Otawa correspondent:

"It is one of the misfortunes of politics that we must assompany our expressions of regret at the death of a public man with calculations as to the bye-elect on which that death entails. Dr. Johnston was an excellent type of western Ontario liberal—a thoroughly kindly man, a strong supporter of his party, but upon terms f unusual good will with the members of the opposition side. He is sincerely mourned, and yet it is necessary to note that western Ontario will be called upon once again to pronounce upon the policy of the government while it is still on the anvil.

The government will approach the bye-election in West Lambton with the advantage of a majority of 46 and the prestige of office in its favor. There are 8649 electors on the list. Of these 6421 cast their votes, or 73.3 per cent. Making allowance for 70 spoiled or rejectd ballots, 33.9 voted for Dr. Johnston and 292 for his opponent. Thus, last November 53.5 per cent of the effective vote was liberal, and 46.5 per cent was conservative, a preponderance of 7 per cent. The personal element may be set aside. Dr. Johnston was unquestionably popular, but as a set off must be mentioned the fact that his opponent was James Clancy, who was in a sense an adventurer in the riding, having been forced into it by the disappearance of his old seat of Bothwell. Both candidates at the bye-election may be new men, for Mr. Clancy is a Roman Catholic, and as such may not find himself altogether comfortable in the fight which the causes of the government has forced upon the opposition.

FERNIE POSTOFFICE

Price for Site Was $5000—Building Will Start at Once

The site for the government postoffice building has been purchased says the Fernie Free Press. W. W. Tuttle's corner on Cox street and Pellatt avenue 120 feet square, as was surmised some weeks ago, is the site selected and the department of justice is now at work gaining information as to title, etc. As a matter of fact the selection was practically made when Mr. Henderson, the government architect was last in Fernie. At that time he carried off the deed of the property. One of the chief reasons given for the selection is the large size of the site. By building on the corner there will be an open space on all sides, making the building much more imposing and decreasing the danger from fire.

The price paid for the site was $5.00, and it is believed the remaining $4 00 of the appropriation will be spent this year in building the foundations and basement.

Wm. Eschwig now figures on building an opera house on the opposite corner.

Alderman Robbins has presented Alderman Tuttle with a tall silk hat in payment of a bet upon the selection of the site. The bet was made some months ago when all information on the subject was merely conjecture.

TRAIL WINS AGAIN

Nelson Baseball Team Defeated in Loosely Played Game

Sunday afternoon before about 200 spectators the Trail baseball team defeated Nelson by a score of 16 to 11. The visitors outbatted and out-played the home players. The heat was not conducive to energy and the condition of the diamond makes work by the infield very uncertain. The score by innings was.

Trail	.....	5	0	0	3	0	2	0	3	3—16
Nelson	.....	1	0	3	1	1	0	0	5	0—11

Each pitcher struck out seven men. Steele gave one base on balls and struck one batter. C. D. Blackwood umpired to every one's satisfaction.

SUSPECTED OF THEFT

President of Mining company Incurs Customs Officer's Suspicion

A prominent mining man and president of a company operating in Kootenay had a series of peculiar experiences last Thursday morning.

He had brought an umbrella from Spokane to Nelson where he already had one. When leaving Nelson to return to Spokane he had two umbrellas and a valise containing several suits of mining notes. The manager of the company, who walked with him to the Mountain station almost convinced him that he was stealing an umbrella from the secretary. He recovered from that shock and was happy until he reached Northport.

When the customs officer at the boundary saw four suits of clothes in one man's grip he sent for a detective. After being cross-examined most inquisitively for ten minutes the unfortunate traveler had to find some one in Northport to identify him. Had he failed he would probably still be in Northport jail as a suspect.

In telling his experiences he remarked: "I like Nelson, but I'll have to keep away if my visits here lead to charges of theft."

Your money back if Gin Pills do not cure.

Rheumatism

When the Kidneys fail to do their work of discharging the uric acid from the system, the result is rheumatism. Until the Kidneys resume this work in a natural healthy way no cure is possible.

Gin Pills

cure rheumatism quickly and for all time because they are the most perfect Kidney Corrective ever discovered.

SIMPSON'S
CHEMICAL ERASIVE
SOAP
— FOR —
CLEANING COAT COLLARS
And Extracting
Grease, Paint, Tar, Oil, Sperm and Kerosene from Silks, Cloths, Carpets, etc., of Fast Colors

Price - - 25 Cents

Directions for Use—Rub a little of the Soap on the spot or stain, dip a brush in warm water, and rub gently for a few seconds; then wipe thoroughly off with clean water and all will disappear. If the spots be hard such as paint or sperm, rub the garment together after applying the soap.

N. B.—Simpson's Soap removes Scruff from the head, Tartar from the Teeth, Fur from the Tongue, and cures Cuts, Sores, Ringworm, Chilblains, and Outward Piles by simply washing with it.

CAUTION—See that each cake bears the words "SIMPSON'S ERASIVE SOAP, REGISTERED," in raised letters, without which none is genuine.

If your druggist does not keep it, write for sample cake, enclosing 25 cents stamps or postal note, to Australian Agency, Room 1, (ground floor) Molson's Bank building, Vancouver, B. C.

Can be obtained at
The Canada Drug & Book Co's Stores
Nelson, B.C.

There Is Quick Relief From
TORPID LIVER
in Fruit-a-tives. And they are a positive cure for constipation and all blood impurities. Those who have used these marvelous little fruit liver tablets are the ones who praise them warmest. Here is one of hundreds of testimonials from those who owe their good health to Fruit-a-tives:—

"We tried Fruit-a-tives and like them exceedingly. We happened to need such a mild and harmless liver tonic and I shall keep Fruit-a-tives by me always, now that I have used them and find they do me so much good." Miss M. L. RICHARDS, Calgary, N.W.T.

Fruit-a-tives
or Fruit Liver Tablets.

AMERICAN WHIST LEAGUE

Fifteenth Annual Congress is Now In Session at Chicago.

Chicago, July 10.—The fifteenth congress of the American Whist League opened at the Auditorium today, starting play for the Brooklyn trophy in the afternoon session. The congress will be held until Saturday. Entries include players from all parts of the country.

The Brooklyn trophy is for the auxiliary associtions of the league, each of which are to be represented by 12 players.

Play in the main event, the Hamilton trophy, which carries with it the national team of four championships, will start tomorrow afternoon, while play for the Minneapolis trophy, representing the pair championship, will begin on Wednesday.

EUROPEAN HEAT IS TERRIBLE

Many Deaths Reported in Italy and Berlin is Deserted.

Rome, July 10.—Telegrams from the prefects of the various provinces to the minister of the interior announce a great number of fatalities due to heat.

In the province of Alessandria, Piedmont, 68 cases of sunstroke and 12 deaths are reported. At Palermo 28 sunstrokes and five deaths are reported. At Barie there have been eight sunstrokes and two deaths.

New York, July 10.—A Berlin despatch states that the record breaking heat has paralyzed all branches of trade. The schools are closed and 200,000 pupils have left the capital for cool summer resorts.

Use Lever's Dry Soap (a powder) to wash woolens and flannels,—you'll like it. 32

NELSON'S NEWS OF THE DAY

A. H. Wheeller has returned to the city after a three months' trip to England.

Harry and Archie Bishop received word last evening of the death of an elder brother at Niagara Falls.

Born, in this city on Sunday, July 9, to the wife of Thomas Murray, Delbruck street, a daughter.

The fire brigade held a practice run last tvening at the corner of Josephine and Baker streets, with a new nozzle, called a "controller."

G. H. Carlson, ex-mayor of Kaslo, arrived in Nelson from Spokane Sunday evening. During the last two years he has been working on railway contracts in Oregon.

Judge Forin is anxiously looking forward to the long vacation. Owing to the illness of his brother judges, his honor has been greatly over-worked for some months and needs a rest from his labors.

Mr justice Irving will arrive in the city this evening to hold the special sittings of the supreme court which open here tomorrow. Rooms have been engaged for his lordship at the Strathcona.

A fire that broke out in the galley of the Kokanee during the excursion of Sunday afternoon, was extinguished in less than three minutes by the crew with the Fyfside tquipment. Very few of the passengers knew anything about it.

Jack Meyers who wandered away from his camp near Slocan Junction last Friday evening has not been found. He is known to have been temporarily deranged. Search parties have been looking for him since Saturday morning, but so far without finding any trace.

Expert witnesses engaged in the case of the West Kootenay Power and Light company against the city, which will come up for hearing tomorrow are already in the city. G. A. Keefer, C.E., is at the Hume and Clemens Herschel of New York and H. W. Holgate of Montreal are at the Strathcona. E. V. Bodwell, K.C., who will conduct the case on behalf of the city, and Mrs. Bodwell are at the Strathcona.

F. S. Clements, D.L.S., accompanied by Mrs. Clements, returned to the city yesterday from a six weeks' trip to the Okanagan country, where Mr. Clements completed the survey of block 2711, along Okanagaan lake between Penticton and Kelowna for the C.P.R. Mr. Clements' party killed no less than 16 rattlers during their stay in addition to other venemous reptiles encountered.

EPOCH IN ODDFELLOWSHIP

Successful Double Installation Last Night of Oddfellows and Rebekahs

Last night for the first time in the annals of fraternal circles in this city, was brought about a double installation of corelated societies, the occasion being the joint installation of Kootenay lodge No. 16 and Queen City Rebekah lodge No. 16, of the Independent Order of Oddfellows. The function was so successful that it has been determined to make it a permanent feature of functions of a similar kind in the future.

The installing officer was D.D.G.M., Eli Sutcliffe assisted by Miss Frances Bacon, D.D.G.M. of the Rebekah branch of the order in this district, with grand marshal H. J. Rickard; G.R.S., George Steele; G.F.S., R. McLean; G.T., R. S. Irwin; G.C., H. E Dill and C.G., Angus Shaw.

The officers installed were — Kootenay lodge No. 16, noble grand, C. A. Longhurst; vice-grand, J. W. Gallagher; recording secretary, H. Laurence; financial secretary, F. Smith; treasurer, J. Procter; warden, J. H. Lemon; outside guardian, R. S. Irwin; conductor, Eli Sutcliffe; inside guardian, J. M. Christie; right supporter noble grand, D. H. Proudfoot; left supporter noble grand, William North; right supporter vice-grand, H. E. Dill; left supporter vice-grand, R. Andrew; right scene supporter, F. M. Chadbourn; left scene supporter, C. E. Benedict; chaplain, R. McLean; organist F. J. Painton.

Queen City Rebekah lodge—Noble grand, Miss Jackson; vice-grand, Mrs. Kelly; recording secretary, Miss Langford; financial secretary, Mrs. Watts; treasurer, Miss Irving; warden, Mrs Bulger; outside guard, brother Bjerkness; conductor, Mrs. Kilby; inside guardian Mrs. Phillips; right supporter noble grand, George Horstead; left supporter noble grand, Mrs. Squires; right supporter vice-grand, Miss Epperson; left supporter vice-grand, Mrs. Smith; right scene supporter, Mrs. Bjerkness; left scene supporter, Mrs. McLean; chaplain, Mrs. Munro.

After the installation there was a charming dance in Fraternity hall, of the lodge the ladies supplying ice cream, strawberries and cake, and the ladies had certainly royal ideas as to the quantity wanted and the men supplied—the partners.

TAKING POSSESSION.

Japanese Have it Their Own Way on Sakhalin Island.

London, July 10.—A despatch to the Japanese legation from Tokio announces that the Japanese force on the island of Sakhalin, which is pursuing the Russian troops, has captured four guns and a quantity of ammunition.

COTTON GARDEN HOSE

Many people have an idea that cotton covered garden hose is not as good as the rubber covered article. Still it is a fact that every fire department in every city in Canada uses cotton covered hose.

Our cotton hose is of exactly the same quality as high grade fire hose. We guarantee it to stand Nelson pressure for two years It is much lighter to handle and inexpensive. See our east window.
