TROUBLE IS NOW OVER

Company and Union Come to Terms Pending Ratification

General Manager Lindsey Returning From England Shortly--Mass Meeting of Coal Miners Will be Held Today

(Special to The Daily News)

Fernie, Aug. 21.—Copies of The Daily News containing the report of the mass meeting in Stork's hall on Saturday morning were much in demand after the arrival of the eastbound flyer last evening. Not a copy was to be had in half an hour after delivery. Much favorable comment has been passed on the enterprise shown by The Daily News and the full reports given covering the whole situation of the strike. Some amusement was expressed at the heading of the Spokesman-Review in relation to the strike, attributing the trouble to the removal of a man named McGinty.

Yesterday there were many reports current which had no foundation whatever that the differences had been settled, and these reports went even so far as to give the exact basis on which an understanding had been arrived at. This morning anxious enquiries have been put to your correspondent at frequent intervals as one likely to know as to whether these reports were true. Business men and commercial travellers were both much interested in the situation as a prolonged strike means serious trouble to many of those in business.

This morning the streets of Fernie presented quite a holiday appearance, thronged as they were by miners dressed in Sunday attire and collected in small knots discussing the situation. It was with a breath of relief that the public learned at 11 o'clock that a conference was being held between the executive committee and manager Drinnan, on the part of the company, with a view of settling their differences. That conference is now ended.

The committee and Mr. Drinnan met at 11 o'clock. Placed in the position in which he was, by the absence of general manager Lindsey, Mr. Drinnan explained his great responsibility. The following agreement was arrived at which is to continue in force until the arrival of the general manager in Fernie, he being at present in England, and subject to the ratification of a mass meeting of the miners to be called for 10 o'clock tomorrow (Tuesday) morning.

1. That $3 be paid for the moving of the McGinty and its setting up as at present in use in the Coal creek mines, with the exception of what is known as the "jig" in use at the Michel colliery, for the moving and setting up of which $1.50 is to be allowed, and all payments which have been made for the first mentioned McGinty at the rate of $1.50, to be made up to $3 from the signing of the original agreement.

2. That blacksmiths (as claimed to be such by the union) be paid at the rate of $3.50 per day, and all back pay deficient in this respect be made good.

3. That car repairers be paid at the rate of $3 per day and all deficiencies in back pay be made up.

4. That the tipple engineer at Michel be paid at the rate of $3 per diem and all deficiencies in back pay be made up.

5. That the erection of cogs be paid according to the length of the timber used in their construction; $1 for three feet and 33 1-3 cents per foot for length over that and back pay made up.

The committee speak in high terms of the manner in which they were received by Mr. Drinnan. In agreeing to these terms, Mr. Drinnan explained the responsibility which he assumed in the absence of the general manager, and the agreement could only be binding until the arrival of that gentleman in Fernie in the near future. It is expected that the agreement as arrived at will be ratified at the mass meeting in the morning, a full report of which will appear in The Daily News.

FIRES RAGING NEAR FERNIE.

National Slavonic Society Parade the Streets With Flag.

[Special to The Daily News]

Fernie, Aug. 21.—The National Slavonic Society paraded the streets this morning on their way to the Roman Catholic church to have their new $90 silk flag blessed.

The fires on the other side of the Elk river are burning today with increased power. There is a high southerly wind which is assisting in spreading it to teh north and west and there is every prospect of it extending into valuable timber.

A fire is also raging to the north of Coal creek. It has been slumbering for some time.

DEATH OF MRS. DODGE.

New York, Aug. 21.—Mrs. Mary Mapes Dodge, editor of St. Nicholas magazine, author of several stories for children, and poet, died at her summer cottage in Onteora Park, Tannersville, New York, today. Mrs. Dodge has been ill for several months. She has been editor of St. Nicholas since its foundation in 1873.

MUST OBEY THE LAW.

More New York Theatres Closed for Non-Compliance.

New York, Aug. 21.—C. E. Payton's Lee avenue theatre and the Unique theatre, both in Brooklyn, were closed by the city health authorities, commissioner Darling, today, because there were no skylights over the stage, as required by the regulations, gave notice to the management that no performance could be given until the skylights were provided. The audiences, which were assembled, were dismissed.

MURDER OF AUDETTE.

Cabinet Council Today—Visit of Prince Louis of Battenberg.

(Special to The Daily News)

Ottawa, Aug. 21.—The Premier and his fellow members of the cabinet are returning for a council tomorrow.

Three tramps, calling themselves John King, Arthur Labelle and John Ames were arrested today under instructions from detective McCaskill in connection with the murder of Audette, Canadian Pacific station boy at Farnham. All three are French Canadians.

Prince Louis Battenburg is to visit Ottawa on Thursday.

FRATERNITY ASSIGNS.

Cannot Carry Out the Insurance as Was Planned.

Chicago, Aug. 21.—The United States courts have been appealed to for the appointment of a receiver for the National Creation Society of the United States, a fraternity insurance society. The receivership proceedings are the result of internal disagreements, which threatened the finances of the association.

STRIKES ON MAMMOTH

GROUP OF MINES AT CAMBORNE SHOW HIGH VALUES

MANAGER E. BAILLIE DOWN WITH RICH SPECIMENS

The properties of the Edward Baillie Syndicate, Ltd., round Camborne known as the Mammoth group, are showing splendid values on development. The properties that compose the group are the Mammoth, Empire, Crescent, Sirdar and Sirdar fractional, running in the order named up a hog back, with a continuous vein running through them all. Edward Baillie, manager came down from the north last night with a magnificent specimen of silver-lead ore, carrying carbonates and black sulphides. Mr. Baillie is elated at the present developments. He said: "Things never looked better. On Aug. 11th a strike was made in the Crescent tunnel of ore from 12 to 18 inches wide, 150 feet in. There are five men at work on it now. A new strike on the Sirdar, too, is a dandy. We have two men sacking ore and opening up, one is hauling timber; altogether we have now nine men at work developing.

"I expect to hea any day now of the discovery of a large ore body on the Crescent. There has never been a richer showing anywhere in British Columbia. The vein on the Sirdar, from which I have brought this specimen, is uncovered for 20 feet; it is from 4 inches to 12 inches in width and has been proved for 300 feet. It is very high grade.

"One carload of ore, already nearly all sacked, will be packed down. The balance of the season's output will be rawhided down during the winter. A carload shipped last year netted $100 to the ton. This seasin's output should run a great deal higher than that.

"At the surface the vein was hardly visible, being extremely narrow, but when uncovered, it widened immediately. We may not have found its extreme width yet.

"There are no promoters in this company; it is co-operative. Officers expenses are kept down to a minimum. The Mammoth stock is divided into 400 shares of $100 each. At par I think it is the best mining investment in the country."

The syndicate is composed mainly of Rossland men, who got the property at a low figure and put up the money for the development.

Mr. Baillie, when questioned about Poplar creek, said that the surface showings were marvellous, but he knew nothing of the value of the ore at depth. Poplar camp, he said, is very quiet at present.

Mr. Baillie leaves for Rossland this morning and will return to the north in a week.

SENSELESS TACTICS

Attempt Made upon Life of Queen Margherita of Italy

Milan, Aug. 21—An attempt was made today by sime unknown parties on the life of queen Margherita of Italy, who is now touring the Alps in an automobile. While ascending the St. Bernard pass, at a sudden turn of the road, a stone barricade was found to have been erected. There was no time to avert the collision although every effort was made and the car came violently into contact with the obstruction and was immediately overturned throwing out queen Margherita and her four companions of the party. Luckily no one was seriously hurt.

The police are nivestigating the matter but up to the present no clue to the perpetrators has been discovered.

THREATENING THE TOWN

Ainsworth is in Danger Over the Spread of Forest Fires in the Vicinity

Ainsworth, Aug. 21—Fire which started at 10 o'clock this morning in the timber near the Highlander mine, fanned by a heavy southerly wind, is fast travelling towards the town in a diagonal direction, which may clear the city. Most of the people are packing up their valuables to prepare for eventualities. Crews of miners from the Highlander, Glengarry, Krao and United mines are fighting the flames.

ROOSEVELT HAS HOPES

Keeps in Constant Touch With Peace Mission at Portsmouth

Peace or War Will be Definitely Settled by This Evening--Preparation of Protocols is Now in Progress

Portsmouth, Aug. 21.—President Roosevelt has not abandoned hope of a successful issue of the peace conference. He has not relaxed his efforts to prevent a rupture between the conconference when the conference meets tomorrow. On an early morning train baron Kaneko, a confidential representative in this country of the Japanese government, arrived at Oyster Bay, quite unexpectedly. That he was the bearer of important information is known, but the nature of his messages is not disclosed. He remained with the president three quarters of an hour.

Following baron Kaneko's visit to president Roosevelt had his acting secretary Mr. Barnes with him for two hours.

Late in the day important messages were received from here, the responses to which occupied the president's attention for a considerable time. The president, acting as an intermediary between the two warring governments, feels that secrecy is even more incumbent upon him than if the matter related wholly to him personally, or to the United States.

Baron Kaneko said he had no information as to the attitude of the Russian government toward the proposition made by president Roosevelt to baron Rosen. He intimated that Japan might regard the proposition favorably, but could not say so definitely. "I think we will know tomorrow afternoon at 3 o'clock when the plenipotentaries meet," he said. "By that time they will have determined the matter."

"Do you mean that they will have heard definitely from their governments by that time." "Yes, I assume so," the baron replied.

The Japanese today notified the firm from which they had received a combination safe for their papers to have it removed and render the bill for its hire this afternoon.

The Japanese and Russian missions have been busily engaged during the whole day finishing the protocols which are to be presented at the final meeting of the conference tomorrow. The feature of the protocols is the setting forth of the views of each side and their reasons for divergence.

As to the cession of Sakhalin the Japanese protocol will maintain that they are entitled to its possession both from their actual occupation and from the historical interest of the Japanese in the island.

On the other side the Russian protocol sets forth that in 1850 the Japanese laid no claim to the island and there were only resident 25 unmarried Japanese fishermen and those on the south end of the island only resident during fishing season. In 1854 the Japanese, upon the visit of admiral Peoutiatine, said that the inhabitants of the islands, the Ainos, were identical with the original Japanese race. In 1859 M. Mouravieff tried to persuade the Japanese to surrender their claim to the southern half of the island but failed, owing to the diplomatic help afforded by the United States.

Russian consuls in Sakhalin, during the year 1870 reported that the Japanese efforts to colonize the southern portion of the island had failed altogether.

In 1875, after 20 years of negotiations, Japan yielded the whole island to Russia.

The indemnity also serves as the subject of the protocols. Japan bases her claim for indemnity on the assertion that she has a right to be reimbursed her expenses as she has been victorious at all points.

On the opposite side the Russian protocols will state that Russia does not acknowledge defeat and only appears at the conference because of her love for peace. Russia goes further and attempts to show by historical precedent that she has never paid a war indemnity, not even when Moscow was captured by Napoleon.

With regard to the interned war vessels Russia claims that the demand to be unprecedented.

As to the limitation of Russian naval power in the far east, while Japan states that this alone can insure the permanence of peace, Russia declares that the whole object is one of humiliating her, while promising not to make her policy in the far east aggressive.

London, Aug. 21.—It is denied that president Roosevelt has asked British services in bringing pressure to bear upon the belligerents. The foreign office declares that it would be impertinence for it to ask Japan any modification of its demand, especially as it is the opinion in Great Britain that the terms are moderate.

Berlin, Aug. 21.—It is pointed out here that if the negotiations were progressing at all favorably there would be no necessity for the interference of president Roosevelt and his interference is, therefore, looked upon as a sign that the peace mission will be abortive.

Paris, Aug. 21.—A French cabinet council has been hastily summoned and every effort is being made for the prevention of the breaking off of the peace conference at Portsmouth.

CROSSING HOPE RANGE.

Hope, Aug. 21.—(Special to The Daily News.—A large party of Great Northern surveyors are at work locating on an old survey line the extension of the V. V. & E. railway from Princeton west. A camp is established near the summit of the Hope range and locating is going on both ways.

WHITEWASH BENNINGTON

BUT DEFECTS IN BOILERS PRACTICALLY ADMITTED

NO ALLUSION MADE TO CHARGES PREFERRED

Washington, Aug. 21—Secretary of the United States navy Bonaparte today received and made public the proceedings and findings of the court of inquiry, which investigated the explosion on the gunboat Bennington, at San Diego on July 21.

The findings were a complete surprise, for they at once set at rest stories to the effect that the Bennington's boilers and perhaps those of other naval vessels of the same age, were defective. The court found the explosion resulted from the closing of a valve which connected the exploded boiler with its steam gauge so that the pressure on the boiler may have been several hundred pounds to the square inch when the accident occurred.

The opinion of the court follows: "The court is of the opinion that the explosion was caused by excessive pressure on boiler "B" which came about, first, by shutting the valve connecting the boiler with its steam gauge instead of the valve on the air cock alone as was intended, so that the steam gauge did not indicate the pressure in the boiler.

Second, by unusual and heavy firing in the boiler to get up a pressure which the gauge failed to show.

Third, by the failure of the sentinel and safety valves to lift at the pressure for which they were set and the pressure increased without relief until it was beyond the strength of the boiler, which gave way in its weakest part, afterwards found to be the corrugated flue of No. 2, the lowest or middle furnace, which collapsed.

CIVIL LAW IS RESTORED

MARTIAL LAW ABROGATED IN THE HERREROS COUNTRY

BUT ANOTHER GUNBOAT AND MORE TROOPS ARE SENT

Berlin, Aug. 21—Civil government which has been superseded for more than a year by martial law in German Southwest Africa will soon be restored. The resignation of colonel Leutwein, the governor, whose functions were taken over by lieutenant general von Thorea, commander in chief of the military forces, has been accepted, and Herr von Lindequist, consul general at Capetown, has been appointed in his stead.

Major von Goetzen, governor of German East Africa, sends a despatch denying the report received here that Monseigneur Shies, a Roman Catholic bishop, and two missionary brothers and two members of a religious sisterhood, were murdered by natives. The cruiser Thetis, now on the east Asiatic station, has been ordered to East Africa to co-operate with the cruiser Zeidler in landing a detachment of troops.

IN CHAMBERS

Applications Disposed of Before Judge Forin Yesterday

The following chamber motions were heard before his honor judge Forin yesterday morning:

Caldwell vs. Luffman. McAnn, K.C. for plaintiff, applied for payment out of $500 paid into court by defendants other than Luffman. Taylor, K.C., for Luffman, contra. Issue directed to be tried at Kaslo.

In re J. H. Nolan deceased. Crease for Mrs. Annie Nolan, the widow, obtained an administration order. Personal estate is valued at $5000, real estate at $1300.

Hird vs. Silver Crown Mining company. Wragge for plaintiff obtained an order confirming the registrar's report.

Milton vs. Davis. Johnson obtained an order of service of writ out of the jurisdiction.

Winlaw vs. C.P.R. Taylor, K.C. for plaintiff; Macdonald, K.C. for defendants. Case stands for three weeks.

In re Abbie Frances Colwell, O'Shea obtained an administration order.

The next sittings of the county court having been fixed for Oct. 3 and the supreme court sittings coming on at the same time, his honor has adjourned the county court sittings until Monday, Oct. 30th.

SUICIDE AT WINNIPEG

Winnipeg, Aug. 21 — E. J. Jenkins, a young Englishman, committed suicide this morning at the C.P.R. depot here by shooting himself in the right temple. It is supposed he was suffering from a fit of temporary aberration. Jenkins arrived here yesterday from the east. During the day he bought a return ticket for the old country, saying he intended leaving tonight.

AN ONTARIO FATALITY

Goderich, Aug. 21—Three fishermen by the names of Ferguson, Wood and Bailey, residents of Bayfield, 12 miles south of Goderich, while out raising their nets on Saturday were suddenly caught in a fierce wind and were blown out into lake Huron. Their boat was picked up yesterday. The three men evidently perished.

MAY YET GIVE WAY

Russia Now Concedes Ten Points of Japanese Peace Terms

Willing to Pay an Indemnity Under Some Other Name--Island of Sakhalin is Alone the Impossible Point

St. Petersburg, Aug. 22.—The Russian government's final communications to M. Witte outlining the course that he shall pursue at the re-opening of the peace conference at Portsmouth, are still in process of being put into cipher prior to being forwarded to America. With the receipt of St. Petersburg's last message the brief breathing spell will have ended. St. Petersburg leaves the final word with her representative at Portsmouth.

The Associated Press is in a position to state that when the nature of these communications become generally known it will be seen that in a sincere desire to effect a satisfactory settlement the government has gone as far as its extremely vital state interest will permit. It can further be said that for this reason the government is firmly convinced that in case of failure of the negotiations the responsibility will not rest with Russia, who has conceded much already.

While it is impossible to learn the actual contents of the government's communications to M. Witte, it can be declared the requirements of state make concessions on the questions of indemnity and Sakhalin, as those questions were originally presented by the Japanese impossible. It is certain that in the matter of concessions the four points now in dispute have been considered and studied here in the list of concessions Russia already has granted on the other eight articles. The foregoing is brief but accurate outline of the platform upon which M. Witte will meet the Japanese plenipotentiaries today.

It is believed that the questions on the surrender of the interned war ships and the limitation of Russia's naval power in the far east will be satisfactorily settled. There remains then, the questions of the payment of indemnity and the cession of Sakhalin by Russia. The first may be overcome by Russia following Japan's lead in avoiding the use of the word "indemnity," but consenting to make certain payments to Japan on other scores, the chief of these being Japan's bill for keeping 100,000 prisoners, which is expected to be heavy. The sums mentioned as the possible payment on account of these prisoners range from $5,000,000 to $15,000,000.

ANOTHER INFERNAL MACHINE

Attempt to Kill New York Policeman, Captain O'Reilly

New York, Aug. 21—An infernal machine disguised as a gift cigar box, was received today by precinct police captain O'Reilly. This is the third instance of a deadly machine being sent through the mails in the last four days the other two being received last Saturday by Jacob J. Schiff, the banker and M. Guggenheim and Sons.

Mr. O'Reilly received a cigar box today. Unusually heavy and tenacious nails fastening down the cover caused the first suspicions. When the box had been opened at the ends, the cover was found to be glued to its inner surface in such a manner that it would be ignited in any effort to raise the lid. The police quickly secured proofs that the flare of merely one out of the half dozen matches would have caused the death of captain O'Reilly.

A detective carried a tiny portion of the guncotton which was inside, and powder which nearly filled the box, into the cellar and there touched a match to it. The resulting explosion was heard on the upper floors of the police station.

EXPERIMENTAL FARMS

Two Will be Opened Shortly in the New Provinces

Victoria, Aug. 21—Dr. Saunders, Ottawa, director of experimental farms, arrived from the east yesterday and will leave for New Westminster tomorrow, where he will arrange for the space to be occupied by the Agassiz experimental farm exhibit at the dominion exhibition. He will afterwards proceed to Agassiz on his annual trip of inspection, and subsequently will go to Edmonton and Calgary. It is proposed to establish one or two experimental farms in the new province of Alberta, probably one in the north and one in the south, and the doctor will collect all the information possible in regard to available sites before returning to Ottawa.

GRAND FORKS NEWS NOTES

(Special to The Daily News)

Grand Forks, Aug. 21—A party of Swedes were held up last Friday evening near Midway by a gang of Italians who were really laying in wait for the Boundary license commissioners who were returning that evening to this city after holding a meeting at Midway. The commissioners are congratulating themselves upon their escape which they put down to the fact of their returning by the upper instead of the usual lower railway grade.

A party of C.P.R. officials inspected the Granby smelter on Friday last.

A rich find of gold and copper has been made by captain Disbrowe on Welsher mountain.

Road supervisor Spraggett has returned from Pass creek where he has finished this season's work upon the wagon road.

John Lind has retuned here from a trip to Spokane, bringing back his bride, Miss Holden Swansen of Sweden.

Eight hundred speckled trout were bagged in a six day fishing trip up the north fork of the Kettle river, 15 miles from Grand Forks, by Robert Graham.

GIFT TO EMPLOYEES

Miners at Arlington Share Good Fortune of the Owners

Profit sharing on mine dividends has not been frequent in British Columbia. The management of the Arlington mine at Erie has made a beginning.

In consideration of the faithful and efficient work that enabled the company recently to pay a dividend of $15,000, the Hastings Exporation Syndicate, through the manager, Leslie Hill, has offered to the men in its employ two and a half days off with full pay at the time of the Nelson fair. Those who do not wish to attend the fair may work, and receive two and a half days' pay extra. Foreman Barker has been even more generously dealt with.

The Arlington is now on a good basis with excellent prospects. Three years ago the mine was condemned as valueless. The present management by hard and patient work has demonstrated the worth of the property. Mr. Barker has been in Nelson since Saturday night. He returns to the mine this morning.

VIOLATED ALIEN ACT

Toronto, Aug. 21—Tre Menzie Wallpaper company, through its superintendent Herman Felzing, was found guilty by magistrate Ellis, of violating the Alien Labor law, and fined $50 and costs. The prosecution was brought by the union which is out on strike. The company will appeal.

AGED SENATOR DEAD.

Senator David Wark, of Fredericton, who died at his home on Sunday had for many years been the oldest legislator in the world. He was born near Londonderry, on February 19th, 1804.

He was always a liberal in politics. He was a member of the provincial ministry of New Brunswick from 1858 to 1862. At confederation he was appointed to the senate of Canada.

He took an interest in all matters affecting the welfare of his province. He was a member of the senate of the university of New Brunswick.

YELLOW FEVER INCREASE

STATE OF PANIC DEVELOPS IN NEW ORLEANS.

EXTRAORDINARY PRECAUTIONS TAKEN AGAINST OUTBREAK.

New Orleans, Aug. 21.—Fever took a bound forward today in New Orleans and the situation in the state is far from satisfactory. The official figures for New Orleans show a material increase in new cases and disease centers. Nine persons succumbed, more than any day since August 14th, when 12 died.

Health officers explain the report as always higher on Monday because of unavoidable laxity in reporting on Sunday.

Prisoners, court attaches and hangers on at the second criminal court were thrown into something of a panic today when a genuine case of yellow fever was discovered in the dock. The man was found ill among a number of prisoners, and the doctor who was called, promptly diagnosed the case as yellow fever. The screened ambulance immediately carried him into the emergency hospital. A flying squad was sent for and the dock and court room were thoroughly disinfected. The patient was an Italian who was arrested on Sunday night and remained in prison until today. The jail will also be fumigated.

Unusual precautions under the supervision of the marine hospital service or otherwise are to be taken to prevent a recrudescence of the fever next spring. It has been demonstrated by naturalists that the stegomyia mosquito hibernate. A vigilant watch will therefore be kept when the winter passes for any cases which may then appear in the south.

A COPPER EXPERT

Visiting the Boundary Mines and Looking Over the Situation

(Special to The Daily News)

Phoenix, Aug. 21—J. Parke Channing, president of the Tennessee Copper company, was a visitor in this camp last Saturday, being accompanied by J. E. McAllister, superintendent of the British Columbia Copper company's smelter at Greenwood. Mr. McAllister had charge of the smelter of the Tennessee Copper company previous to accepting his present position more than two years ago. Mr. Channing has also visited the properties of the British Columbia Copper company and is today taking a look at the smelting works of the Granby company at Grand Forks.

In the last few years the Tennessee Copper company has forged ahead as a producer of copper ore. Last year above eight million pounds of refined copper was produced by the company; this year it is likely to be about ten million pounds, and next year, owing to improvements and enlargements, it is expected to be close to twenty million pounds. The company's copper mines and smelter are located near Copperhill, Polk county, Tennessee, and employ about 700 men. The mines are developed to a depth of some 600 feet, and have nearly three million tons of ore blocked out, the ore being low grade, running from two to four per cent copper. The smelting plant was designed by Mr. Channing, and consists of three water jacket blast furnaces, with a capacity of some 1500 tons of ore daily. The company operates its own railway from the mines to the smelter, which are close to the state line of Georgia.

Mr. Channing was much interested with what he saw of the practice of mining and smelting in the Boundary, of which he had previously heard a good deal.

KITCHENER IS VICTOR

Lord Curzon of Kedleston Resigns Viceroyalty of India

Found it Impossible to Work With Kitchener Without Friction--Native Comment Upon Commander-in-Chief

London, Aug. 21.—The resignation of lord Curzon of the viceroyalty of India was finally accepted today and lord Minto appointed as his successor. While the immediate cause of resignation was the refusal of the cabinet to appoint the military member of the Indian council, major general sir Edmund Barrow, recommended by lord Curzon, the actual fact is the disagreement existing between the viceroy and the commander-in-chief, lord Kitchener.

By an order in council, last June, lord Kitchener was granted certain powers in India which lord Curzon opined would interfere with the supreme authority of the viceroy and he thereupon; after vainly objecting, resigned. At the request of premier Balfour he withdrew his resignation and set himself to come to an arrangement with lord Kitchener. After a good deal of correspondence and much friction in India between lord Curzon and Kitchener, it was definitely stated that the final say in matters military should remain with the viceroy and his council but that the latter should be governed by the advice of the military member of the council, who should not be the commander-in-chief. This practically meant that the control would remain in the hands of a majority of these three men, the military member, the commander-in-chief and the viceroy. Lord Curzon openly said in a letter to secretary Brodrick, now published with other correspondence upon the subject, that he was certain that conflicts would arise between the commander-in-chief and the rest of the government of India. He then recommended the appointment of general Barrow, and on this being refused insisted on his resignation being accepted, saying that he regretted "with sorrow how little justification there has been for the claim that you (secretary Broderick) have rendered me your constant support."

Simla, Aug. 21.—Among the public general sympathy is being expressed for lord Curzon of Kedleston viceroy of India who for eight weeks has been confined to his bed whence he conducted his fight single handed against the cabinet. There is widespread regret that he has felt himself obliged to resign despite the almost unanimous support of the press and commercial bodies.

The friends of lord Kitchener are jubilant and the commander-in-chief of the forces now stands as the de facto viceroy with his prestige greatly enhanced. In the opinion of the natives lord Kitchener's power is supreme.

TELEGRAPHIC TICKS

The earl of Romney died yesterday in London.

Martial law has been proclaimed in the province of Courland, Russia.

Quotations yesterday on the Paris Bourse were firmer than for some time past.

UNION LABEL

THE NEW PROVINCES.

It is now a foregone conclusion that the first general elections in the new provinces of Alberta and Saskatchewan will be conducted on party lines.

The liberals of Saskatchewan have made a wise choice in selecting Walter Scott, M. P., as their leader. Walter Scott has the respect and confidence of the electors of the new province to a quite remarkable degree. He is an energetic, resourceful politician, and without any showy qualities, has the faculty of arousing the enthusiasm, and, what is more important ,the zeal of his followers. Mr. Scott will undoubtedly be opposed in the race for the control of the government of the new province by F. W. G. Haultain, the present premier of the Northwest Legislative Assembly. Whilst Mr. Haultain avowedly stands for non-partisanship in provincial politics, he is an aggressive conservative, and if successful would certainly work hand in glove with the element in the Northwest which aims to make of the school question a weapon to embarrass the dominion government.

Late reports from Regina indicate that the liberals enter the campaign full of confidence that their leader, Walter Scott, will be returned at the head of a strong government.

In Alberta it is generally understood that A. C. Rutherford, M. L. A. for Strathcona, will be called upon to form the first government. Mr. Rutherford is generally popular, and is regarded as a safe man by the liberals. He has not the personal magnetism of Walter Scott, and he cannot be described as a particularly aggressive politician. He is a fair speaker, has a thorough grasp of Albertan affairs, and is everywhere looked upon as a clean, level headed man of business. R. B. Bennett, the well-known Calgary barrister, is to lead the conservative forces. Mr. Bennett is a popular platform orator, but has so far failed to impress the people of Alberta with the possession of any more serviceable quality. Victory for the liberals under Mr. Rutherford's leadership is assured.

It will be conceded by all dispassionate observers that the best thing that can happen in the new provinces is for both to secure governments that will devote their attention to the organization of local affairs on a businesslike basis. The threat of the conservatives to make the new provinces the scene of a bitter factional fight over the school question is alone sufficient to ensure their defeat. Nothing could prove more injurious to the new provinces than at the outset of their new political career to be plunged into a campaign of this kind. Alberta and Saskatchewan will, ere long, be among the most populous and prosperous provinces in the dominion and there is abundant opportunity for useful work on the part of local politicians in adjusting their respective provinces to the new conditions without undertaking to embroil them in a long and useless conflict with the federal authorities.

The new governments will be organized early next month and the elections will probably be brought on sometime in October.

Headaches Cured Without Drugs

Ninety per cent of headaches are the direct result of eyestrain. Drugs may relieve, but properly adapted glasses alone can cure. Have your sight made perfect; your headache will cease.

A WISE SETTLEMENT.

It is a matter of congratulation that moderation and wise counsel prevailed at Fernie and that a crisis has apparently been safely tided over, for the present at all events.

The friendly settlement reached yesterday afternoon between the union and the company is to be submitted to a mass meeting to be held this morning, but as the settlement in question has the approval of president Sherman and his committeemen, and of manager Drinnan, its acceptance by today's meeting is a foregone conclusion. The arrangement is a temporary one, to last only until the return to Fernie of general manager G. G. S. Lindsey who is now in England. Upon his return the whole matter involved is to be reopened and thoroughly gone into. In the meantime, provided today's mass meeting ratifies the settlement, all the men will at once return to work, a very satisfactory ending of the matter for the time being.

Such a settlement could only have been arrived at by the exercise of great patience, forbearance, and common sense of all those interested, and we think that when such a spirit of tolerance and fair play plainly exists on both sides, there will be no great difficulty in reaching a final adjustment upon a basis satisfactory to both the men and the company, upon general manager Lindsey's return.

EDITORIAL NOTES.

Whenever labor and capital have a dispute there are always some unpleasant busy bodies, generally in no way connected with either of the parties involved, who are anxious to make the most of the situation, and who do everything possible to widen the existing breach. That a long and costly strike may result, carrying endless trouble and ruin in its wake, makes no difference to these meddlesome mischief makers, who appear only too well pleased if they add fuel to the flames and help to make a friendly settlement impossible. The community should resent the action of such thoughtless and malicious people and make it abundantly clear to them that if they cannot help a dangerous situation, they should at least, leave matters severely alone.

Possibly the voluntary retirement of driver Coulter yesterday may be the last of a stupid municipal tangle that most people are heartily tired of. The courts have not passed upon the mayor's right to ignore the majority of the council, but under light of passed events his worship, when he returns, may not find it either necessary or advisable to raise the point again during the balance of the year, and the affairs of the city may be administered upon the lines followed in all well governed municipalities. The council has plenty of work cut out for it and it is to be hoped that the energies of the mayor and aldermen will be applied to the betterment of city matters during the rest of the year.

The world will look for news from Portsmouth today. Will it be peace or war? Will the Russian and Japanese officials take their departure without reaching any definite conclusion, or will president Roosevelt be able to suggest a solution of what now seems, to those well informed, an impossible situation. The Angel of Peace appears to be having a very uncomfortable time of it, but there is yet some possibility that a change for the better may come, and that a deadlock may be avoided. If not, the Japanese will certainly press on the campaign and the effacement of general Linevitch and his army will be the next move in the very near future.

A YMIR BLAZE.

China Town Goes up in Smoke—Work at the Ymir Mine.

(Special to The Daily News)

Ymir, Aug. 21.—With the continued blowing of the Porto Reco saw mill whistle and the ringing of the fire bell at 12:30 this morning, the citizens of the town were awakened from their slumbers to find that Chinatown and the red light district was on fire.

The fire started in a house kept by Virgie Stewart and originated by the explosion of a lamp. Within a few minutes the whole structure, which was nothing more than a shell, was on fire and ignited Quong Chong's laundry and cabin. The excited Chinamen were awakened by doctor Lee, a Chinaman who lives in a cabin opposite the laundry. Soon hordes of excited Orientals came swarming from their quarters carrying whatever articles their hands first reached. Very quickly the laundry was ablaze and soon caught Lee's cabin. In the meantime the fire department laid a line of hose and had a vigorous stream playing on the burning buildings, their main effort was directed to saving the Ymir mine bridge. In this they were successful. The occupants of all the buildings, four in number, lost practically everything.

William Coffey, a long resident barber of Ymir, left with his family for Edmonton, where he will reside. Mr. Coffey has not enjoyed the best of health for a long time and his medical adviser recommended his trying the northern climate.

Noble Binns of Trail spent Sunday at Ymir.

Miss Jean Clark opens the Ymir public schooi today. This young lady, a resident of Ymir and a late pupil of the school, recently passed her examination at the high school, Nelson, which enables her to teach.

Robert A. Renwick, government agent, accompanied by road superintendent Tait, paid a visit yesterday to the Dundee road to ascertain what repairs are necessary to place the road in shape. The late Bear creek fire badly wrecked the road and burned out a number of the bridges. Men were put to work on the road this morning.

The Ymir Gold Mines management have had for some time past a number of men working on the hill above their glory hole, with a view to locating a ledge from which a large amount of rich galena float from time to time has worked down the hill. Last week a huge boulder was uncovered and it is expected that the ledge will be struck very shortly. In spite of the report that the Ymir mine will close down, manager Hand advises that such is not the case.

WARNING TO MOTHERS

Too much care cannot be used with small children during the hot weather of the sumer months to guard against bowel troubles. As a rule it is only necessary to give the child a dose of castor oil to correct any disorder of the bowels. Do do not give any substitute, but give the old fashioned castor oil, and see that it is fresh, as rancid oil nausates and has a tendency to gripe. If this does not check the bowels give Chamberlain's Colic, Cholera and Diarrohea Remedy and then a dose of castor oil, and the disease may be checked in its incipiency and all danger avoided. The castor oil and this remedy should be procured at once and kept for an emergency, as soon as the first indication of any bowel trouble appears This is the most succesful remedy known and may be relied upon with implicit confidence even in cases of cholera infantum. For sale by all druggists and dealers.

The regular tuner for the Mason and Risch Piano, Mr. James R. Muir, is in town for a few days. Orders can be left at the Standard Furniture company.

Lever's 3-2 (Wise Head) Disinfectant Soap Powder is a boon to any home. It disinfects and cleans at the same time.

KIDNEY TROUBLES

Increasing Among Women, But Sufferers Need Not Despair

THE BEST ADVICE IS FREE

Of all the diseases known, with which the female organism is afflicted, kidney disease is the most fatal, and statistics show that this disease is on the increase among women.

Unless early and correct treatment is applied the patient seldom survives when once the disease is fastened upon her. Lydia E. Pinkham's Vegetable Compound is the most efficient treatment for kidney troubles of women, and is the only medicine especially prepared for this purpose.

When a woman is troubled with pain or weight in loins, backache, frequent, painful or scalding urination, swelling of limbs or feet, swelling under the eyes, an uneasy, tired feeling in the region of the kidneys or notices a brick-dust sediment in the urine, she should lose no time in commencing treatment with Lydia E. Pinkham's Vegetable Compound, as it may be the means of saving her life.

For proof, read what Lydia E. Pinkham's Vegetable Compound did for Mrs. Sawyer.

"I cannot express the terrible suffering I had to endure. A derangement of the female organs developed nervous prostration and a serious kidney trouble. The doctor attended me for a year, but I kept getting worse, until I was unable to do anything, and I made up my mind I could not live. I finally decided to try Lydia E. Pinkham's Vegetable Compound as a last resort, and I am to-day a well woman. I cannot praise it too highly, and I tell every suffering woman about my case." Mrs. Emma Sawyer, Conyers, Ga.

Mrs. Pinkham gives free advice to women; address in confidence, Lynn, Mass.

BACK TO SCHOOL AGAIN

LARGE ENROLLMENT OF SCHOLARS YESTERDAY MORNING

REPAIRS TO BUILDING BEGUN BY CONTRACTOR BURNS

The public schools of Nelson reopened yesterday morning after the long vacation of eight weeks and were in session from 9 to 11 a.m. During the short session the scholars were enrolled in their classes and told what books to get and assigned lessons for today.

Principal Sullivan has decided upon a rearrangement of the staff, which will be acceptable to all. The divisions are renamed so that the primary division is now the ninth.

In the first three divisions taught by principal Sullivan, Miss K. Scanlan and Miss M. H. Moody, no changes occur. Miss E. S. De Bou succeeds to the fourth division, lately taught by Miss Macleod. The new teachers, Miss L. Thomas and Miss M. L. Moffatt, take the fifth and sixth divisions respectively. Miss A. O. Barber will have charge of the seventh division, which will be located for a while in the basement of the Baptist church. Miss Shrapnel and Miss Thom will teach the junior divisions, the 8th and 9th, and assist with the drawing in the senior division.

About 350 pupils enrolled yesterday and many more will return from camps during the week. The new pupils number 50, of whom 26 are beginners.

Repairs to the building began yesterday morning under the supervision of contractor John Burns. There will be no delay, and as little inconvenience as possible to the teachers and pupils.

The high schools do not reopen until next Monday, Aug. 28th.

COLIC AND DIARROHEA—A REMEDY THAT IS PROMPT AND PLEASANT

The prompt results produced by Chamberlain's Colic, Cholera and Diarrohea Remedy together with its pleasant taste have won for it a place in many households. Mr. W. T. Taylor, a merchant of Winslow, Ala., writes: "I have used Chamberlain's Colic, Cholera and Diarrohea Remedy myelf and also with men on my place, for diarrohea and colic and it always gives relief promptly and pleasantly." For sale by all druggists and dealers.

NATURE SPARES

The Stricken Rose From Grief.

What a fortunate provision of nature it is, that deprives the rose of mental suffering; for how poignant would be its grief to discover, in the height of its blooming glory, that a canker fed at its heart, and that its beauty and fragrance were doomed forever. Nature always spares the suffering; she is a veritable store-house of pleasing rewards, for those who seek her aid. In the years gone by failing hair and grayness have cast a gloom over the lives of thousands of young women, but thanks to the investigations of scientists the true cause of hair destruction is now known to be a germ or parasite that burrows into the hair follicles. Newbro's Herpicide absolutely destroys this germ, thus permitting the hair to grow as nature intended. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

FIRE HALL CASE ENDED

COULTER RESIGNS, RECEIVING FULL PAYMENT TO DATE

CHIEF SARGENT INSTRUCTED TO ENFORCE FIRE ESCAPES ACT

At a special meeting of the city council held yesterday morning the last chapter of the dispute over the fire department was written. S. E. Coulter tendered his resignation which was accepted. It takes effect at once and W. J. Phillips succeeds him as driver of the fire team. Coulter was paid his salary for May, June, July and 21 days of August.

The only other business transacted was the issuing of instructions to the chief of the fire department to enforce the bylaw requiring provision of fire escapes on all hotel buildings.

All the aldermen were present and acting mayor Bird presided. The notice calling the special meeting "to consider matters relating to the fire department" was read. Alderman Bird stated that a letter from S. E. Coulter had been received by him as acting mayor, tendering Coulter's resignation.

The letter was then read by the acting city clerk. It was dated Aug. 19th and to take effect as soon as convenient to the council.

It was moved by alderman Gillett, seconded by aldeman Macdonald, that the resignation be accepted to take effect at once, and that Coulter's salary be paid for May, June, July and to the 21st day of August.

Ald. Malone—Why should he be paid for time when he rendered no service to the city?

Ald. Bird—He has held himself at the city's disposal, but has been persistently suspended by the mayor.

Ald. Malone—I maintain that he should not be paid for nothing.

Ald. Gillett—He has always been ready and willing to do the work. It isn't his fault that he hasn't done it.

Ald. Bird—He has been appointed by the council again and again, and continually pevented from doing the work.

In reply to Ald. Gillett the city solicitor stated that he had already given a written opinion that Coulter would have good ground of action against the city, if he were not paid.

Ald. Krkpatrick—Isn't the claim before the courts?

The city solicitor—No; it was withdrawn when the injunction was applied for.

The resolution was adopted, aldermen Malone and Kirkpatrick dissenting. Alderman Bird asked that he be recorded as in favor of it.

A motion by aldermen Annable and Macdonald that cheques be issued signed by the acting mayor and the city treasurer, for S. E. Coulter's back salary, was carried on the same division.

The application of William J. Phillips for a permanent position on the fire department was then read. The applicant stated that he was for 16 years a member of the Toronto fire brigade, as driver, fireman, hoseman and lieutenant in charge of the chemical engine. Accompanying the application was a letter of recommendation from chief Thompson of the Toronto fire department.

Alderman Bird explained that although the fire bylaw, referring such matters to the chief, was not signed, he had consulted chief Sargent, who knew Phillips and would approve of his appointment.

It was moved by alderman Annable, seconded by alderman Macdonald, and unanimously carried that Phillips' application be accepted, that he be appointed driver at a salary of $75 per month, and that chief Sargent be so notified.

Ald. Bird informed the council that chief Sargent had asked for formal instructions to enforce the fire escapes act and that he be furnished with copies of the act to serve on owners of buildings. The request was complied with on motion of aldermen Gillett and Macdonald. The copies of the act will be printed in Nelson.

The city engineer was informally instructed to make contracts with the successful tenderers for poles, and to secure a right of way for the line from each. The council then adjourned.

FOR MANITOBA COLLEGE

REV. PROF. BRYCE SEEKING SUPPORT IN BRITISH COLUMBIA

ACCOUNT OF HIS WESTERN ITINERARY—IN NELSON SUNDAY

Rev. George Bryce, D.D., LL.D., professor of English literature in Manitoba college, and a member of the board of examiners of the university of Manitoba, arrived in Nelson from Grand Forks Saturday night. Prof. Bryce preached in St. Paul's Presbyterian church yesterday at both services. He is on a special mission to British Columbia to seek financial support for Manitoba college. He reports having met with very fair success. He expects to secure subscriptions to the amount of $2000 a year.

He says that the university of Manitoba will soon make arrangements to hold examinations in connection with British Columba high schools.

To a reporter of The Daily News Prof. Bryce said: "I am in British Columbia at present on a special misson. As long as there is no provincial university in this province we expect Presbyterians here to support the nearest Presbyterian theological college, which is Manitoba college. The college got a little behind but it has been made up. I was appointed by the synod a special financial agent to canvass British Columbia and an itinerary was made out for me. I have almost covered it now. I have been in Victoria and up the island railway, in Vancouver, New Westminister, Ladner, Chilliwack, Kamloops, Vernon, Revelstoke, Rossland and Grand Forks. After Nelson I have only the Crow's Nest line to cover.

"I have met with very fair success. The British Columbia synod had already made a very favorable recommendation on behalf of the Manitoba college. I expect to secure promises of support to the extent of $2000 a year.

"Yes I am aware that some of the universities have offered special consideration to British Columbia students; Manitoba will do the same. We once had an alumni association in this province but it has not been very active lately.

"We are hampered to some extent by not being a provincial university. We have already held examinations in Vancouver. I expect that we shall soon be able to make arrangements to hold matriculation and first year examinations in any centre where students offer. In the meantime, however, any student presenting credentials or certificates will receive recognition for them on a perfectly fair basis."

Dr. Bryce also discussed the scheme for the endowment of Queen's university, with which he expressed his hearty sympathy, and many other subjects, including politics and politicians, but as his present mission is in connection with a theological college, he doesn't wish to publish his political views at present. He leaves Nelson this morning. While here he was the guest of Mr. and Mrs. A. L. McCulloch.

NOTHING ON THE MARKET EQUAL TO CHAMBERLAIN'S COLIC, CHOLERA AND DIARRHOEA REMEDY

This fact is well known to druggists everywhere and nine out of ten will give their customers this preparation when the best is asked for. Mr. Obe Witmer, a prominent druggist of Joplin, Mo., in a circular to his customers, says: "There is nothing on the market in the way of patent medicine which equals Chamberlain's Colic, Cholera and Diarrohea Remedy for bowel complaints We sell and recommend this preparation." For sale by all druggists and dealers.

MINING RECORDS

At the mining recorder's office on Monday Chas. Jensen recorded the Smiles of Fortune claim on 49 creek. Joseph Chipman recorded the Money Maker also on 49 creek. George Matthews recorded the Nugget on the head of Fawn creek, a tributary of Sheep creek. James A. Gilker recorded the Cayote on Fawn creek and Abel Swanson recorded the Bonanza on the north side of Sheep creek.

A certificate of work was issued to A. W. Engel on the Pooden.

BOAT CLUB'S FALL REGATTA

Seven Lapstreak Crews to Compete on Labor Day

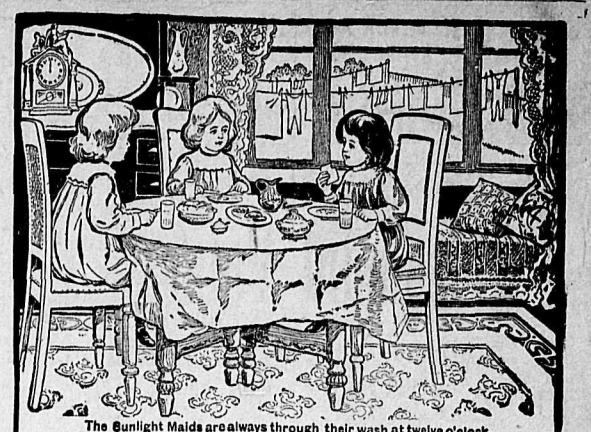
The fall regatta of the Nelson boat club will be held on labor day, Monday, Sept. 4. Seven crews are entered for the lapstreak events. A full regatta program will be prepared, but entries for other events will be taken at the post. The crews, named in order of bow, 2nd, 3rd and stroke are as follows:

H. Bishop, Nickerson, Bunyan, Teague.
Perrier, Johnstone, Sharp, I. G. Robertson.
Gallon, Marshall, Manhart, H. Robertson.
Davison, Ross, H. Bishop, Wragge.
Cummins, Fotheringham, Pool, Nott.
Swan, Campbell, Hall, Smyth.
Mawdsley, Gigot, McIntosh, Thomson.

It will pay you to keep Chamberlain's Colic Cholera and Diarrhoea Remedy in your house. It only costs a quarter. Sold by all druggists and dealers

E. O. Windsor, the regular, independent piano tuner is in the city. Leave orders for him with the Canada Drug and Book Company.

A little forethought may save you no end of trouble. Anyone who makes it a rule to keep Chamberlain's Colic, Cholera, and Diarrohea Remedy at hand knows this to be a fact. For sale by all drugists and dealers.



The Sunlight Maids are always through their wash at twelve o'clock.

SUNLIGHT SOAP

With ordinary soap a woman has to work so hard and so long on wash day she has no time for preparing any of the family meals. Wash day is a trial, and the good wife faces each with a sigh of despair.

Sunlight Soap makes all the difference in the world. No toiling—no rubbing—no boiling—less than half the labor with much better results. Most women are all through their wash by twelve o'clock when they wash with Sunlight Soap the Sunlight way. It makes child's play of work.

ASK FOR THE OCTAGON BAR.

Sunlight Soap washes the clothes white and won't injure the hands.

NELSON'S NEWS OF THE DAY

Mrs. O. J. Boucher has returned from Ottawa after a visit of eight weeks to relations and friends.

The library committee announce a summer dance to be given in the armory on the evening of Tuesday, Aug. 29.

This afternoon at 4 o'clock C. A. Waterman will sell by public auction on the launch club float, the gasoline launch Wilma, and the house in which it is kept.

Harold Nelson, with a new and stronger company, will play in the Nelson opera house the evenings of Sept. 20, 21, and 22, the dates of the fair. New plays will be presented on each occasion.

The ladies of the Presbyterian church have completed arrangements for their launch excursion and picnic at Glen Airey beach on Thursday afternoon. They offer a refreshing sail and a sumptuous supper.

J. Leonard Stamford, president and managing director of the Nothwest Coal and Coke company, returned last night from a four months' trip to England. He reports that Canadians are lionized in England and that interest in Canada is increasing.

The Wood-Vallance Hardware company has received six carloads of goods from the east in the last week. One was for Rossland and one for Bonnington. As far as hardware is concerned the two wholesale houses in Nelson control the distributing trade of the Kootenays.

In the police court yesterday morning "Red" McLeod, was charged with stealing a valuable diamond ring from W. B. Poole in the Bodega saloon, Sunday evening. He pleaded not guilty and the case was remanded until this morning. A drunk was allowed to go on paying costs.

Alfred Shrimpton of Wardner, who a week ago before judge Forin, pleaded guilty to forging a companions name to a time check during a drinking bout, and whose case stood over for a week, was yesterday sentenced by the court to three months imprisonment in the provincial jail, with hard labor.

J. E. Annable has completed the purchase of 350 acres of C.P.R. land, being a portion of the Columbia and Western land grant and comprising all that portion of lot 303, lying between Slocan Junction and the Slocan river and running along the railway line for two and a quarter miles from Slocan Junction. It is Mr. Annable's intention to use the lands for a stock farm.

Provincial constable Upper of Revelstoke, arrived in the city Sunday evening with James Gill, the Cranbrook embezzler, who has been brought back from Vancouver to face another charge of the same kind. Gill was tried here before judge Forin a week ago yesterday for taking $500, the property of V. Hyde Baker of Cranbrook. He pleaded guilty and owing to the strong plea made by W. R. Ross, M.L.A., on behalf of his wife and children, and of his aged parents, judge Forin released him on suspended sentence. The Cranbrook people apparently took offence at Gill's release, and a second charge has been laid, resulting in Gill's rearrest as mentioned.

The temperature yesterday varied between 82 and 47 degrees.

The hair bridle raffled at the Nelson hotel last evening was won by A. K. Wattie, holding ticket number 42.

Cozad's dog and pony show attracted fair attendances yesterday afternoon and evening and delighted the children who were present.

Ner Smith was in the city yesterday purchasing supplies for the staff at the White Grouse mines. He returns to East Kootenay this morning.

R. J. Steel yesterday completed the sale of two ranches, one on the Granite wagon road at $65 an acre, and one several miles back from the road at $10 an acre.

J. W. Laing, M.A., principal of the collegiate school, Victoria, is at the Strathcona, in the couse of a tour of British Columbia and Alberta in the interests of the school.

There will be a meeting of the Nelson cricket club this evening at 8:30 in the offices of the secretary, R. J. Steel, for the purpose of making arrangements for the reception of the Rossland team on its arrival on Thursday morning.

Senator W. Mitchell of New York, registered at the Hume last night. The senator is interested in mines in the Slocan and leaves this morning to visit them. He did not wish to speak for publication until he had visited the properties.

Mr. and Mrs. Edward Baillie and Miss Keptky of Poplar were in the city last evening on their way to Rossand. Miss Keptky, Mrs. Baillie's sister, is going on to Spokane but Mr. and Mrs. Baillie and their little daughter, Helen, will probably return and take up their residence here.

HUME—J. T. Marion, N. Smith, Rossland; H. Berry, H. A. Small and wife, C. E. Mellish, J. M. Fahey, A. Sullivan, C. H. Leep, Vancouver; T. A. Hollinrake, L. Cleghorn, Toronto; P. L. Sloat, Cranbrook; E. Baillie, wife and daughter, Miss Keptky, Poplar; W. E. Mitchell, New York; N. F. McNaught and wife, Silverton; C. W. McAnn, W. B. Strathearn, M. H. Holmes, Kaslo; M. Stevenson; Mrs. H. M. Stevenson, Ainsworth; R. S. Scott, R. Barker, R. A. Upper, A. Phipps, Revelstoke; R. H. Green Green City; J. J. McArthur, Ottawa; J. L. McIntosh, W. J. Nelson, Winnipeg; W. G. Boyd, J. C. Wright, Flesherton; S. Wright, sr., S. Wright, jr., Kincardine; E. Staples, C. Staples, Bayard; F. Stork, wife and son, Mrs. R. W. Wood, Fernie; P. Delorme, Keewatin.
