TROUBLE IN TOKIO

Mob Destroys Christian Churches and Insults Americans

Martial Law Proclaimed and Troops Are Called Out--Official Residence of Home Secretary is Torn Down

Tokio Sept. 7 — For the last four days the city has been in the hands of the rioters who are attempting to force the Katsura ministry into advising the emperor to refuse ratification of the treaty. Many of the police stations have been burned down, the official residence of the home secretary has been destroyed, ten Christian churches and one mission have been torn down and Americans have been insulted on the streets. Martial law was proclaimed late last night and the national troops called out. In the meantime the police reserves are doing their best to hold the mob in check.

On Tuesday morning detached mobs attacked and demolished and burned 11 outlying police sub-stations. They easily disposed of and disarmed the small guarding forces and the work of destruction was accomplished without serious personal violence.

Yelling crowds of sightseers mingled with the rioters, filled the main downtown streets.

During the evening detachments of imperial guards were ordered to central parts of the city to assist in protecting government buildings and officials. Blockades were established around the buildings and the public excluded. Street car traffic was suspended in the troublesome districts on account of inability to move cars.

Wild rumors swept through the city, and it was impossible to accurately gauge the situation, and the extent and seriousness of the crisis. Until Tuesday's events the majority of the conservative element seemed to be accepting the Portsmouth results. Then the aspect changed.

A furious attack was made upon the residence of the home secretary who is charged, along with the other ministers and elder statesmen, of having advised the acceptance of the terms as offered by the Russians. The place was set on fire and the police reserves were called up, who charged the crowds, using their swords freely, but the mob rallied from several quarters and stoned the firemen when they arrived. The members of the minister's household were rescued and carried to the Imperial hotel.

Accurate figures of the casualties in this attack are not obtainable, but it is known that one man was killed and 14 mortally wounded by sword thrusts and also that many persons were bruised with stones.

Another demonstration is planned for September 8th, and it is believed that the strongest measures will be necessary to prevent serious rioting and bloodshed.

Wednesday morning found the crowds still gathering in the streets and threatening and ugly looks and words were interchanged between the police and the mob. A sudden attack was then made upon the offices of the Kokunin Shimbun but as it was known that general dissatisfaction had been apparent because of its advocacy of the government side, the newspaper was prepared and the police drove off the rioters.

Threatening demenstrations then occurred in the neighborhood of the official homes of premier Katsura and baron Komura, foreign minister, who is now in the United States, but the police succeeded in preventing injury to the occupants or damage to the houses.

Throughout the day a series of demonstrations occurred in the neighborhood of a home mission building and late in the afternoon the mob attacked the house, swept the police away and battered down the gates. The police and servants resisted stoutly but the mob surged forward and entered the house. One of the mob leaders, carrying an arm full of burning straw, gained an entrance and depositing his bundle in the lightly built mission of paper and bamboo instantly the whole place was in flames with the mob jeering and hooting outside yelling abusive epithets at the Christians.

From this point the mob rushed on and in different parts of the city presently ten Christian churches could be seen in flames.

Others devoted their attention to the destruction of the police patrol or sub stations the wrecking of which as a sign of their disapproval of the acts of the government had been started on the previous evening. This continued until midnight. It is impossible to ascertain the exact number destroyed but it is estimated that 15 were wrecked. Two larger police stations were also destroyed. The mobs generally prevented damage to the adjoining private property by dragging the police kiosks into the middle of the streets before applying the torch.

Shortly after midnight another attempt was made against the Kokunin Shimbun offices but the police dispersed the attackers killing one. The fact that the man was cut in the back angered the crowd which demanded the arrest of the policemen.

At this stage proclamations everywhere declared that an imperial ordinance established martial law and the national troops which were mobilized on account of the war now ceased were called out. In the meantime the situation was threatening. Turbulent crowds filled the streets throughout the night and it was feared that much damage to property would be accomplished under cover of darkness. All the police reserves were out heavily guarding dangerous spots. The streets in the neighborhood of the Kokunin Shimbun, were closed and 200 police formed a cordon around the offices.

This morning president Harriman of the Southern Pacific Railway system of the United States was seen in the streets of Tokio in the vicinity of the Imperial hotel, and the mob, taking him to be a representative of the United States government, which is blamed for the peace along with the Katsura ministry, was hooted by the populace and so threatening a demonstration was made that Mr. Harriman had to take refuge in the hotel, heavily guarded by the national troops.

A member of the mob which burned the home minister's residence said to the representative of the Associated Press:

"We burned the house for the purpose of attracting the attention of the emperor. We want him to refuse to ratify the treaty. We believe that those surrounding him prevent him from correctly understanding the popular attitude toward the disgraceful humiliating peace."

CENSORING TELEGRAMS

Peking, Sept. 7.—Messages received here from a good source at Tokio, represent the situation there as grave. The Japanese government is apparently censoring telegrams.

NOTHING PERSONAL.

New York, Sept. 7.—At the Southern Pacific office it was said that no word had been received from Mr. Harriman at Tokio. His associates were of the opinion that the hostile demonstration was in no sense personal. Mr. Harriman's visit to Japan, it was declared, was entirely for recreation and pleasure.

MISSIONARY VERSION.

Boston, Mass., Sept. 7.—Rev. James L. Barton, secretary of the American board of commissioners of foreign missions, said today of the news from Tokio that Christian churches had been burned by a mob: "There are over a hundred places of worship in the city of Tokio. Our board has organized and helped along a half dozen churches there but now they are all independent and self-supporting, so that we no longer have any pecuniary interest in them. At the outbreak of the war the Japanese were inclined to be suspicious of all Christians, because they know the Russians to be Christians, but I understood that feeling had long ago died away."

IS IMAGINATIVE.

English Correspondent on the Trouble in Tokio.

London Sept. 7.—The Tokio correspondent of the Daily Telegraph attributes the disorders in the Japanese capitol to the arrest of five leaders of public opinion. He says that representatives from the whole of Japan met Wednesday night and resolved to organize a national move from Hokkaido to Formosa and to memoralize the throne and the government against the ratification of the treaty of Portsmouth.

The correspondent says that he anticipated an imperial manifesto to the people. He describes the rioters as composed mostly of fanatics hired by agitators. He believes the object of the mob is to deprive the city of light and then to liberate the prisoners in the jails.

CUNNINGHAM IS DRASTIC.

Condemns Two Hundred Boxes of Fruit In Vancouver.

Vancouver Sept. 7.—Two hundred boxes of local grown fruit were condemned today by Thomas Cunningham, provincial fruit inspector, on his finding it badly affected with fungus. The fruit was in the hands of wholesale and retail merchants. Mr. Cunningham said in justification of his drastic action:

"This fruit comes from orchards west of the Rockies and is dumped here because it cannot be sold anywhere else. it is in a mess and it is not good for the large numbers of tourists now in Vancouver to look at. This province now has a reputation to sustain, and the department is determined to keep the fruit clean. The Vancouver dealers, of all persons should not display fungus affected fruit. In fact it will not be permitted."

AWAITING RATIFICATION

Russia Prepared to Carry Out Spirit of The Treaty.

St. Petersburg, Sept. 7.—Russia is determined that the work commenced yesterday in administrative circles towards putting into effect the articles of the peace treaty shall be carried on in a spirit of fairness and equity and with the desire to avoid all possible friction or misunderstanding.

This work includes a new treaty of commerce with Japan, the establishment of a line dividing the island of Sakhalin, the definition of the Manchurian frontier, the cession of Russian privileges in Manchuria, a working arrangement whereby through trains and freight may pass from the Russian to the Japanese section of the railroad, the return of the Japanese prisoners to Russia and vice versa the payment for the maintenance of the same by each country etc.

The resumption of actual diplomatic relations between the two countries will greatly facilitate these works and personal relations can be resumed immediately after the exchange of telegraphic notification from St. Petersburg and Tokio of the ratification of the treaty.

MUNICIPAL OWNERSHIP

Mayor Dunne's Convention at Work Today in Chicago

Chicago, Sept. 7—The heads of municipal governments of several hundred American cities are assembled in Chicago to attend a conference which has been called by mayor Dunne and the Municipal Ownership league of this city, for the purpose of discussing the subject of municipal ownership from every imaginable point of view. The object of calling this conference was to spread the doctrine of municipal ownership broadcast over the country and thus to strengthen the position of the advocates of the doctrine, who won such an overwhelming victory at the last election in the city. Among the chief executives who attended the opening session of the conference today are many enthusiastic advocates of municipal ownership, but the discussion disclosed the fact that there are also some who have not much faith in the feasibility of the doctrine. The difficulties with which the municipal administation of Chicago has to contend at the very outset in its attempt to carry out the doctrine of municipal ownership of street car lines to a practical test, are used effectively as arguments by the opponents of municipal ownership. The discouraging reports from some of the cities in Europe and in this country where the system was tested for some time are also used with considerable force, but it is doubtful if the opposition will be able to dampen the enthusiasm of the pro-ownership mayors. The conference will last two days and during that time the visiting mayors will be rayoll entertained and given an opportunity to study the street car problems confronting the Chicago administration by personal observation. Tonight the vicitors were entertained at a banquet.

CASE OF FORGERY

Seventeen Year Old Vancouver Lad is Arrested

Vancouver, Sept. 7—A sad case of "gone wrong" has come to light in the arrest of Charles Taylor, a 17 year old lad living here.

The charge is that of forgery. It appears that Taylor worked for a day, or a part of a day for the Vancouver Lumber company and asked for his check, which amounted to $2.50 or thereabouts. The bookkeeper, by mistake, says he gave him a check belonging to another employee of the company, P. T. Taylor, for $52.50. Charles Taylor took the check, endorsed it in the name of P. T. Taylor and cashed it. The Vancouver Lumber company, immediately upon discovering the circumstances, tried to locate the young man and give him an opportunity to set himself right, but Taylor kept away. Following this a warrant was isued and this morning the young man was arrested on Dupont street. He had $31.60 on him at the time of his arest.

EXTRAVAGANT ESTIMATE

British Columbia Not in the Running With the Northwest

Winnipeg, Sept. 7—According to professor Shaw, a member of the American agricultural educational party, which has been touring the west, the first foot of soil in the three provinces of Manitoba, Saskatchewan and Alberta, is worth more than all the mines in the mountains from Alaska to Mexico and more than all the forests from the United States boundary to the Arctic sea. The educationalists are simply entranced with what they have seen.

RYRIE BROS. ROBBED.

Toronto, Sept. 7.—Thieves got away with jewelry valued at $5000 from the big store of Ryrie Bros. yesterday afternoon. The valuables were not missed until 6 o'clock, when the trays were being put into the safe. There is no clue to the thieves.

BURNED TO DEATH

Montreal, Sept. 7—Fire this morning destroyed two buildings in Boulevard St. Paul, near Lachine canal, rendering two families of about 20 persons homeless and caused the death of two boys named Minguy, aged five and seven years.

COMMITTED FOR TRIAL

Norwood, Ont., Sept. 7—Charles Gobween was committed to stand trial at Peterboro on Sept. 9 for shooting a lad named Tommy Hill, inDummer township.

ANGLICAN DIVORCE

Quebec, Sept. 7—The lower house of the Anglican synod last night received a message from the upper house in favor of a canon prohibiting clergymen of the Church of England in Canada from solemnizing marriages between divorced persons.

MAY AMALGAMATE

Toronto, Sept. 7—The National Retail Furniture Dealers' association of Canada at its annual meeting yesterday adopted resolutions empowering the executive to discuss an amalgamation with the Retail Merchants' association of Canada.

ANGLO-JAPANESE TREATY

London, Sept. 7—The substance of the Anglo-Japanese treaty has been communicated by the foreign office to the state department at Washington through the British representatives at the different capitals. No details of the contents of the treaty have yet been given out here.

BURNED AT THE STAKE

Fort Worth, Texas, Sept. 7—Sam Davis, a negro, 20 years old, was burned at the stake for assaulting Mrs. S. H. Norris, near Waxahachie. He was identified and confessed his guilt.

DEATH OF JUDGE ROBERTSON

Hamilton, Sept. 7 — Ex-judge Thomas Robertson is dead, aged 78 years.

FIRED BY TARTARS

Transcaucasia a Prey to Bands of Pitiless Robbers

Murder and Rapine Hold Unchallenged Sway Over the Country--Russian Government Declares Itself Powerless

St. Petersburg, Sept. 7.—Though the despatch from Tiflis and current reports in St. Petersburg say that the oil works and tanks at Baku have been entirely consumed and the town practically wiped out, according to a despatch to the Nobel company from Baku this is an error and the loss, though enormous, is not complete. This despatch stated that the firing in the town had ceased and that incendiarism had been checked. The fate of the tanks and works, which are not yet on fire, depends on the wind, which is blowing a hurricane. Unless it changes and sweeps the fire back on the unaffected district there is hope of saving some of the properties. The sender of the despatch was unable to give details of the property destroyed.

The St. Petersburg press attacks the government for its indecision in handling events in the Caucasus, and its neglect to take measures to reconcile the Armenians and Tartars and declares that the ruin of one of the most important industries in Russia and immense losses to industrials and commerce are the fruits of the governmental disregard for years of the most legitimate and practical suggestions of the oil men, especially the government's refusal of their request for authority to establish a local organization for self-protection against the excesses of the natives.

The authorities of the Caucasus would seem to have been taken completely by surprise by the Tartars. It is not doubted it had long been planned and organized and it is completed with the separatists movement. The operatives of Tiflis say they have unmistakable proof that the movement has been fanned by the Turkish emissaries and agitators bearing a green standard, who are raising the whole country. The Tartars the officials add, intend laying a regular siege to Baku, Shusha and other places, and they have already laid many villages in ruins and have pitilessly massacred the inhabitants.

Unless sufficient troops are available promptly to suppress the outbreak in the Caucasus which the news from Baku would show not to be the case, the whole of that part of the country will be devasted and the populations of the towns and villages butchered. The situation is viewed in St. Petersburg with the utmost alarm. The managers of oil works at Baku,, despairing of the arrival of reinforcements of troops, have telegraphed direct to the emperor. The latest despatches from Baku give gruesome details of the carnage. No quarter was asked nor given by the insurgent troops. In the suburbs of Baku, the flames have spread by a high wind, one burning building after another collapsing. Pillaging and murdering have been going on everywhere.

In various parts of the Caucasus bands of peasants have organized against the nobles and are invading their domains and seizing all the firearms.

Tiflis, Sept. 7.—All the spirit distilleries and silk weaving works in the district of Shusha have been burned by the Tartars. Part of the workmen succeeded in escaping to the mountains, but the remainder were killed. Orders have been given to send wheat to Shusha to relieve the starving.

The town of Tiflis is full of refugees from Baku, who have abandoned all their belongings. A deputation from the great petroleum works has asked military protection for twenty-five million pounds of combustible liquids, contained in the reservoirs at Baku.

SURROUNDED BY TARTARS.

St. Petersburg, Sept. 7.—The desperate condition of affairs at Baku is shown by a telegram from the governor of Baku, who has sent an urgent despatch to Tiflis, saying that his troops are surrounded by Tartars and will be inevitably overwhelmed unless immediately relieved.

BRITONS ARE SAFE.

London, Sept. 7.—Telegrams from Baku received in London this afternoon say that the British subjects connected with the oil works there numbering 90 to 100, are all safe.

A HUGE UNDERTAKING.

Preparing Plans For Tunneling Northumberland Strait.

Ottawa, Sept. 7.—Chief engineer Lafluer of the public works department, is engaged in the preparation of a report upon the cost and feasibility of tunneling Northumberland strait to connect Prince Edward island with the adjacent mainland of New Brunswick. The minister of public works will present the figures to parliament at its next session. The island people are agitating for the construction of the tunnel, as nothing else, they say, will make good the dominion's promises of a steady means of communication which was one of the terms on which Prince Edward Island entered confederation.

The estimated cost of the tunnel is ten million dollars.

GREAT TRADE INCREASE.

United Kingdom's Trade Report Shows Values Greater Than 1904.

London, Sept. 7.—The report on the United Kingdom's trade which has just been issued shows that Great Britain's exports and imports for this year have been far greater than they were in 1904.

The value of imports for July last was £44,741,838, an increase of no less than £3,785,237 over the value for the corresponding month last year and the exports show an increase in value of £3,517,223.

The increase in imports for the seven months ending this July, compared with last year's corresponding period, is even greater, the increase being close on £5,000,000, and exports show an increase of £18,000,000 over the same period—more than £14,000,000 of which is on British exports.

TRANSFER OF HALIFAX.

Delay in Britain's Answer Has Caused Trouble To Ottawa Officials.

(Special to The Daily News)

Ottawa, Sept. 7.—The war office has cabled the dominion government that the transfer of the Halifax fortifications will take place on September 15th. In the meantime Canada had asked leave to postpone it until October 15th, thinking that Great Britain was so long in answering that she was not ready. Now, sir Frederick Borden is on his way to the Pacific coast and the officials here are in a quandry.

THE FIRST SOD.

The Premier Will Start the G. T. P. At Port Arthur Today.

(Special to The Daily News)

Ottawa, Sept. 7.—Sir Wilfrid Laurier on his way home from the Northwest will turn the first sod of the Grand Trunk Pacific on Friday at Port Arthur.

TAKES SECOND THOUGHT

SULTAN OF MOROCCO APOLOGIZES TO FRANCE

MAKES FULL REPARATION AND PAYS INDEMNITY

Paris, Sept. 7—The foreign office was highly gratified this morning to receive a despatch from the French minister at Fez announcing that the sultan had yielded all points demanded in the French ultimatum. The despatch says that Sept. 4, the day preceding the expiration of the ultimatum, the grand vizier, sir Fedeoul Garnit, accompanied by a retinue, went to the French legation, where he was greeted by the French minister and his staff and a number of officials.

The grand vizier then publicly presented a formal apology for the arest of the French Algerian citizen, and handed the minister the amount of the indemnity demanded for the imprisonment, also presented a letter from the Moroccan minister of foreign affairs announcing that the kadi (native judge) responsible for Bouzian's arrest had been removed.

The French minister answered, accepting the excuses and reparation given and thereupon the preparations for the departure of the legation preliminary to the enforcement of France's demands were suspended. The foreign office here says the reparation is complete on all points and that the incident is closed, thus terminating the anticipated resort to coercion through the military and naval branches of the service.

HAS NO SIGNIFICANCE

Tokio Will Not Prevent Ratification of the Treaty

New York, Sept. 7—Baron Komura said today that his coming inteview with the United States secretary of state, Root, which he expected would occur in New York either Friday or Saturday of this week, would be purely a formal exchange of courtesies and that their meeting had no other object.

The baron denied emphatically the rumor that the emperor of Japan had not yet given his assent to the peace treaty, or that the powers of the Japanese envoys were so limited that there was, at this late hour, still a possibility that the emperor would fail to ratify the treaty. The present disturbances in Tokio, he said, "cannot in the least degree influence the emperor's determination to ratify the treaty when he receives an official copy of it."

Baron Komura reiterated his opinion that the disturbances in Tokio were directed against the local branches of the government.

LUMBERMENS' APPEAL

Preparing Strong Case for the Tariff Commission at the Coast

Vancouver, Sept. 7—British Columbia lumbermen have resurrected the fight for a protective tariff on lumber, and a strong case is to be presented to the tariff commission.

T. F. Paterson, who has large lumber and logging interests on the coast, has been appointed by the British Columbia Lumber and Shingle Manufacturers' association to prepare the case of the lumbermen. He is already energetically at work and expects to be able to present the commission with a strong argument, backed up with an imposing array of facts and figures and witnesses.

Mr. Paterson is hopeful concerning the outcome of his labors for he says the lumbermen have a very strong case.

While Mr. Paterson is an ardent advocate of the imposition of an import duty on lumber in order to protect Canadian industry against undue and ruinous competition on the part of the Puget Sound mills, he does not look favorably upon the prevention of the export of logs from British Columbia to the Sound. Mr. Paterson believes that it is better to sell British Columbia "cull" cedar to the Americans than to allow it to rot in the woods. There is a market in the United States for lumber manufactured from such timber, but there is no market on this side of the line for it. Consequently the question is whether it is better to realize on the poor quality timber or allow it to decay in the forests.

Mr. Paterson is of the opinion that if an import duty of $2 per thousand feet is placed on rough lumber, one resultant effect will be the shutting out of cheap lumber from the United States, and then the British Columbia mills will have an opportunity of manufacturing from the poorer quality of timber now left standing during logging operations.

DECLARATION OF WAR

Typothetae Wants Open Shops and no Eight Hour Limit

Niagara Falls, N.Y., Sept. 7—The United Typothetae of America today unanimously adopted a resolution by which its members pledge themselves singly and collectively to resist any movement on the part of the International Typographical union to bring about an eight hour day. The resolution as adopted maintains the right of each member to keep an open shop. The use of the union label was counselled against, and members were urged to refuse to use it. Some members of the Typothetae say they will begin with the Typographical union by throwing their shops open immediately. President James M. Lynch of the International Typographical union, has been advised that the United Typothetae will not now or at any future time, consider propositions for an eight hour day.

The Typothetae closed its convention this afternoon by the election of officers. G. H. Ellis of Boston, was elected president, and Wm. Green of New York, vice-president.

A FRAUD ON CONSUMERS

AUSTRALIA WON'T HAVE OUR INFERIOR FISH.

FALSE LABELS THE CAUSE OF ALL THE TROUBLE.

Ottawa, Sept. 7.—Ross, of Melbourne, writing to the department here, says that the action of the Vancouver board of trade in reference to salmon labels has caused considerable comment.

Some canners say that the terms "Skeena River" should be used and recoguized now, as a description of the standard quality, rather than of any particular river. Salmon is labelled to order of purchasers, and here the divergence come in.

Some firms put on whatever label is asked for, and others will not. The honest intention of the labels should be to describe the locality of production. False labelling is a fraud on consumers. Australia does not want inferior fish palmed off on consumers and will assist the Vancouver board of trade against improper labelling.

LOUISIANA LOTTERY

Branch Office Raided by Police Officers at Niagara

Niagara, Falls, Ont., Sept. 7—The police raided a branch of the Louisiana Lottery at Fort Erie yesterday and this morning the men pleaded guilty to the charge of running and abetting a lottery concern, contrary to the law of Canada.

The manager was fined $1000, Joseph Norris, his assistant, fined $500, and two other assistants $300 each. A frequenter was fined $5 and the others were allowed to go.

PEKIN IS ASTONISHED

Thinks There Must be Some Private Arrangement Made

Pekin, Sept. 7—The absence of fuller knowledge of the peace terms leaves the community much astonished as to the terms of the settlement. There is a general feeling that some understanding exists between Japan and Russia that cannot be published.

NO ARMY MANOEUVRES

Outbreak of Cholera in Galicia Prevents Its Assembly

Vienna, Sept. 7—The autumn manoeuvres of the army corps in Galicia have been stopped. It is said that this is on account of the cholera, several new cases having appeared, though it is unofficially reported that the authorities say that the manoeuvres were stopped as a precautionary measure only.

BUILDING COLLAPSED

Twenty Men are Reported to Have Been Buried in the Ruins

New York, Sept. 7—At least two persons were killed and several seriously injured by the collapse of a three storey tenement building at Grand and Mott streets late today. It is reported that 20 men who were tearing down the building, are buried in the ruins, and many ambulances were summoned to the scene.

YELOW FEVER

New Orleans, Sept. 7—The yellow fever returns up to 6 p.m. today are as follows; New cases today, 35; total to date, 2177; deaths today, 6; total deaths to date, 304; new foci, 9; cases under treatment, 308; cases discharged, 1565.

CHOLERA IN BERLIN

Berlin, Sept. 7—An official bulletin just issued announces that 15 new cases of cholera and six deaths were reported during the 24 hours ending at noon today, making a total of 105 cases and 32 deaths.

THANKSGIVING SERVICE

St. Petersburg, Sept. 7—A thanksgiving service commemorative of the conclusion of peace was ceelbrated at Peterhof this afternoon in the presence of emperor Nicholas and the state dignitaries.

REVISION OF TARIFF

Commissioners Hold the First Meeting in Winnipeg

Decision Made to First Visit British Columbia Before Taking up Hearing of Representations of Northwest

Winnipeg, Sept. 7.—The first sittings of the dominion tariff commission were held today with Hon. W. S. Fielding, Brodeur and Paterson present. A. L. Johnson, president of the board of trade, having welcomed the commission, asked that the commissioners arrange later meetings on their return for the west, to meet the farmers and others now busy with harvesting. This Mr. Fielding promised to take into serious consideration.

Several Winnipeg residents were then heard. The fruit dealers asked for lowering of duties, while store dealers want a higher tariff. At the conclusion of the days session, the following official statement was given out:

"In view of representations made as to the inconvenience to farmers and business men generally in attending meetings of the tariff commission at present, the ministers have decided to suspend their enquiries after today's (Friday) meeting, until they reach British Columbia. Dates for that province will be fixed immediately and announced.

It is the intention of the commission to return to Manitoba and the Northwest territories in November, at which time they are assured it will be convenient for all classes to attend. It is desired that farmers' associations and all others who wish to present their views should in the meantime prepare for the next meeting, of which more exact notice will be given at a later date.

"The ministers contemplated holding meetings at quite a number of points in Manitoba, Saskatchewan and Alberta, and would be able to do so at once if this were convenient to the people. When they return in November it is probable they will be more pressed for time, and it will hardly be possible for them to hold meetings at many points. It is likely that two principal points in Manitoba and about three in the territories will be named, and it is hoped that all parties concerned will find it convenient to make representations at such points."

RETALLACK SUCCEEDS GARDE

Change in Personnel of Zinc Commission Ordered by Dr. Haanel.

(Special to The Daily News)

Kaslo, Sept. 7.—John L. Retallack, of this place, today received telegraphic instructions from Dr. Haanel, dominion superintendent of mines, to report to Phillip Argall as assistant to the zinc commission in place of A. C. Garde. It is understood here that this change has been made in deference to the wishes of the principal mine owners who did not consider Mr. Garde the right man for the position and who had expressed a determination not to accord him the facilities for carrying out the investigation which alone would ensure its success. Mr. Retallack's appointment has been well received here, his past work on behalf of the mining industry being regarded as a guarantee that he will spare no pains to make a success of the zinc investigation.

Mr. Retallack's instructions include authority to establish at Nelson an office for free assays of zinc ores during the enquiry.

VISITORS IN WINNIPEG

Price of Flour Takes Big Drop Because of New Wheat

Winnipeg, Sept. 7—There was a drop of 15 cents a sack in the price of the first three grades of flour today. This has been expected for some time, owing to the new crop being about due.

Among the distinguished visitors within the gates of the city are: Sir Wilfrid Laurier, Hon. W. S. Fielding Hon. L. P. Brodeur, Hon. Wm. Paterson, sir Gilbert Parker, sir Frederick Borden, major general Lake, Hon. R. Harcourt, Prof. Shaw of Dakota, Prof. Mackay of Iowa, president Wm. Mackenzie, senator McMullen, and Byron E. Walker.

EXPRESS TRAINS COLLIDE

Two People are Killed and a Score or More Injured

Newcastle, Pa., Sept. 7—A collision of express trains has occurred on the Western New York and Pennsylvania railroad at Wilmington Junction, ten miles north of here. Though only two persons were killed it is reported that a score or more are injured. All the ambulances in the city and medical assistance were summoned and the injured brought to the hospitals.

CHALLENGES FOR CANADA CUP

Rochester, Sept. 7The Royal Canadian Yacht club of Toronto, has challenged the Rochester Yacht club for the Canada cup and would like to race next year. Heretofore it has been the custom to hold races every second year and it is hardly likely that the Rochester club will care to build another defender next year.

THE TARIFF COMMISSION.

The tariff commission, consisting of Hon. W. S. Fielding, minister of finance; Hon. W. Paterson, minister of customs, and Hon. L. P. Brodeur, minister of inland revenue, is now in session in Winnipeg and its itinerary as far west as Regina has been arranged.

So far as can be ascertained no definite arrangements have as yet been made for sessions of the commission west of Regina. As announced at the time of its appointment, the commission is to sit in this province to hear any recommendations for tariff reform that British Columbia boards of trade, industrial organizations, and others interested may have to present.

A session of the commission should certainly be held in the Kootenay district. In recent years various applications have been made to the dominion government on behalf of Kootenay industries for tariff changes, notably in regard to lead and lumber, and it would appear to be eminently desirable that advantage should be taken of the visit of the tariff commissioners to take up these and other matters with them on the spot.

Apart from the special interest attaching to the approaching visit of three members of the dominion cabinet, it would be very unfortunate if they were permitted to pass through this province without being afforded an opportunity of inspecting the chief mining and smelting undertakings of the Kootenay district, as well as of seeing something of the extensive lumbering operations. A strong effort should be made to impress these ministers with the extent and importance of Kootenay's chief industries and with that object in view plans should at once be perfected for the profitable employment of such time as they may be able to devote to this part of the country.

The program should at least include inspection of the coal and coke industry at Fernie and vicinity, a visit to the chief sawmills in and around Cranbrook, a visit to the Marysville smelter, a stop at Moyie to see the St. Eugene mine, inspection of the Hall Mines, Trail and Boundary smelters and a visit to the big mines of Rossland, Phoenix and Greenwood. We would urge upon those chiefly concerned, particularly the boards of trade, the importance of at once getting into communication with the members of the tariff commission and of making early arrangements for their visit, so that Kootenay may benefit to the full from the opportunity now at hand of enlightening some of the chief members of sir Wilfrid Laurier's cabinet

Eyes Should be Examined Every Two Years

A Woman of the World. By Ella Wheeler Wilcox Her Counsel to Other People's Sons and Daughters

This is the author's latest and best book of prose. It is in the form of letters of advice on the all important subjects of love, marriage and other problems of daily life which confront all classes of people. Timely, brilliant and powerful. Everyone should read these letters with their solution of so many perplexing problems. Price, cloth, $1.50.

W. G. THOMSON, Bookseller and Stationer PHONE 34.

as to the resources and requirements of southern British Columbia.

THE ZINC ENQUIRY.

Dr. Haanel, dominion superintendent of mines, who, under the department of the interior, has charge of the zinc investigation, has authorized a change in the personnel of the commission entrusted with the work, Mr. John L. Retallack, of Kaslo, being substituted for Mr. A. C. Garde, of this city, as assistant to Messrs. Ingalls and Argall.

The appointment of Mr. Garde in the first place was made by Dr. Haanel on his own responsibility and without consulting those best acquainted with the requirements of the case. This ill-advised action of Dr. Haanel was most unfortunate as it places Mr. Garde in an invidious position wholly undeserved. It is quite intelligible that mine owners and those directly concerned in the present zinc investigation should, with their intimate knowledge of the local situation, expect to be consulted in reference to the choice of the member of the commission upon whom would necessarily involve the work of organizing the enquiry. Had they been consulted at the outset recommendations would have been made that would have obviated the present unpleasant contretemps.

Mr. Retallack's appointment we understand to be entirely acceptable to the mine owners, and this means a very great deal for the success of the enquiry, for upon the cordial co-operation of the mine owners depends in large measure the efficiency of the investigations to be made by the experts. Mr. Retallack can be relied upon to do his part in a painstaking and thorough manner. He has devoted a great deal of time in the past few years to the earnest advocacy of the claims of the mining industry and his work at Ottawa in connection with the lead bounty and more recently, in assisting to secure the appointment of the zinc commission, with which he is now connected in an advisory capacity, is a guarantee that he will do all in his power to see that the investigation is carried out and the government advised in the best interests of the communities concerned.

Dr. Haanel's prompt compliance with the request that arrangements be made for free assays of zinc ore specimens at Nelson during the enquiry is entirely satisfactory. Those arrangements will be completed with as little delay as possible and should prove of very great advantage to claim owners and prospectors.

In this connection it may be well to point out that there never has been any design to bring in an assayer from the east or elsewhere to do this work. There are competent assayers residents in Nelson and once the necessary authority was obtained for the establishment of an office for free assays steps were to be taken to organize the work with the assistance of local men. This course will now be adopted.

It is to be hoped that the zinc investigation will now proceed satisfactorily and expeditiously. A great deal is looked for from the work in hand and with everything running smoothly anticipations should not be disappointed.

MINING RECORDS

At the mining recorder's office on Thursday a bill of sale was recorded from Pete Santine to Joseph Sturgeon, conveying the Sunset mineral claim situate three and a half miles west of Hall Siding; consideration nominal.

Certificates of work were issued to Napoleon Pratt on the Independence and to to Neil Gething on the Granby at the head of Grohman creek.

CELEBRATE TRAFALGAR

SONS OF ENGLAND TAKE THE INITIATIVE

PROPOSAL FOR A GENERAL CIVIC HOLIDAY

At a meeting of the Sons of England, held in the hall of the Knights of Pythias last evening, it was decided that the society, in common with the lodges of the fraternity all over the Dominion and everywhere, indeed, under the British flag, would celebrate the 21st of October next and would welcome the co-operation of any citizens who desire to take part in this patriotic holiday.

The occasion is, of course, the centenary of the victory of admiral Horatio Nelson over the combined French and Spanish fleets one hundred years ago. The victory came in the middle of perhaps the darkest period the empire has every known. Seven years before the bank of England had suspended cash payments and consols were at their lowest ever known. Just before the battle consols were sold at 53 3-4, and money could be borrowed only at most exorbitant rates of interest.

After Trafalgar all fear of invasion was lost and from that date to this Great Britain has ruled mistress of the seas without question. Never again did consols touch so low a point. It is the remembrance of these things that has created a movement to celebrate the centenary of the hero who lost his life while winning the battle which is embracing the whole empire. In Great Britain a national holiday has been proclaimed and this has also been done in different parts of the empire.

In the discussion of last evening it transpired that many of Nelson's citizens were in more than cordial sympathy with the idea and the committee which was appointed by the Sons of England to make the preliminary arangements were instructed to invite the co-operation of every citizen of Nelson. It was suggested that, following the precedent elsewhere, that a civic holiday be proclaimed, that the children hold their sports on this occasion, which is near the usual date, that patriotic speeches be made and national games played. It was stated that the Launch club would make the day a gala occasion and the statement was hailed by applause.

A banquet will also form one of the features of the occasion. The Sons of England in any case will celebrate but they have no doubt that this city of Nelson will not lose the occasion of celebrating Nelson's day.

FERNIE AGAIN UNLUCKY

ELK LUMBER COMPANY'S MILL IS BURNED TO THE GROUND

FIRE APPLIANCES WERE FIRST TO BE CONSUMED

(Special to The Daily News)

Fernie, Sept. 7—The Elk Lumber and Manufacturing company's mill was destroyed by fire early this morning. The fire originated somewhere in the back of the mill about 4:30 a.m., and it was only when the watchman was taking measures to get up steam, about 5 o'clock, that the alarm was given. By this time the greater part of the mill was enveloped in flames, which shot up into the air to a great height. This mill was supplied with everything of a modern character to fight fire. There was a splendid up to date pump and hose which would be sufficient to meet any emergency, but unfortunately at the time of the first alarm the flames had already enveloped that part of the mill which contained these requisites. The mill people were therefore powerless and the only thing they could do was to cut off the lately built planing addition. Fortunately there was no wind or the fire might have turned out much more serious than it was.

The plant was said to be the best equipped in eastern British Columbia. Some of the workmen lost their tools, one man losing over $100 worth. The mill was about finishing the summer cut and would have losed down in a week or two. Nobody seems to know anything regarding the origin of the fire.

The insurance is as follows: British American, $10,000; Royal, $3750; Phoenix, $12,500; Scottish Union and National, $5,000; and German-American, $10,000; total, $55,000. The loss was in the neighborhood of $100,000.

SMELTER BONUS

Grand Forks' Council Will Submit a By-law—Personal Mention

(Special to The Daily News)

Grand Forks, Sept. 7—A well known smelterman is authority for the statement that the building of the Dominion Copper company's smelter at Grand Forks is now pratically a certainty. All that remains now to be done is to have the proposed bonus bylaw, now before the city council, duly passed and voted on by the ratepayers. As soon as this is accomplished the actual building of the smelter will be commenced.

At a meeting of the city council last evening a bylaw was introduced which provides for the bonusing of the Dominion Copper company in the event of their erecting their smelter here. Although no sum has yet been inserted in the bylaw it is understood that the amount will be in the neighborhood of $30,000.

The liquor license bylaw, which provides fo only eight hotels in the city and the entire abolishment of saloons, has been laid over for further consideration.

Charles Livermore, an English capitalist, is paying a visit to his sister, Mrs. Lydia Knight of this city.

Messrs. Grubb and Wonder, formerly proprietors of the Nessler Brewing company at Provo, Utah, have taken over the Grand Forks brewery, having recently purchased the interests of the former proprietor, W. Graham.

Peter Nelson of the Klondyke hotel, Nelson, has been here for the last few days on a shooting expedition. He succeeded in bagging considerable game.

John Kirkup, the big provincial assessor, is here on official business.

SPEARING-LAWRENCE

Frank Spearing of Greenwood, and Bertha Mary Lawrence of Ely, Cambridgeshire, England, were married in Nelson yesterday by Rev. J. T. Ferguson.

DISCRIMINATING LADIES.

Enjoy Using Herpicide on Account of Its Distinctiveness.

The ladies who have used Newbro's Herpicide speak of it in the highest terms, for its quick effect in cleansing the scalp of dandruff and also for its excellence as a general hair-dressing. It makes the scalp feel fresh and it allays that itching which dandruff will cause. Newbro's Herpicide effectively cures dandruff, as it destroys the germ that causes it. The same germ causes hair to fall out, and later baldness; in killing it, Herpicide stops falling hair and prevents baldness. It is also an ideal hair dressing, for it lends an aristocratic charm to the hair that is quite distinctive. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

AND STILL THEY COME

HON. R. F. GREEN FOLLOWS HIS CHIEF IN PRIZE GIVING

NELSON BABY SHOW ENCOURAGED AND AIDED BY GOVERNMENT

The glorious success of the Nelson baby show is now absolutely assured. Entries are coming in fast and donations are actually jostling each other for prominent places.

There has not been time enough yet for a reply from president Roosevelt, but no one can doubt that his response will be favorable. A Roosevelt prize will be a magnificent attraction.

Mrs. Harris has received a letter from Hon. R. F. Green, chief commissioner of lands and works, in reply to an appeal to him for support in the project of encouraging the population of the district which he represents in the cabinet. Mr. Green disclaims any desire to secure political advertising out of his contribution. He doesn't like such methods of advertisement. But he is exceedingly willing, even eager, to assist Mrs. Harirs in her "very praisworthy undertaking." He has declared his readiness to assist to the extent of offering a cup for competition, and requests Mrs. Harris' advice as to the form his donation shall take.

A baby girl, 10 months' old, weighing 22 pounds, has been entered by Mrs. Florence Clark of Ainsworth, one of the oldest camps in Kootenay.

Mrs. Haris wishes it to be generally understood that there is to be no entrance fee for babies, and that mothers of babies entered are welcome to remain with their children throughout the contest.

The various subscription prizes are now practically completed. The prize list will be published in a day or two, wth classifications and regulations in full.

The accommodations at the opera house on the morning of the show will be of the best. The most particular attention will be given to the perfect comfort of the babies and their mothers.

The names of the judges will be kept an absolute secret until the event is over and possibly afterwards. The position is one of great responsibility, and the judges must be preserved from the danger of undue influence or intimidation beforehand, and physical violence afterwards.

Mrs. Harris is entitled to the heartiest congratulations for the organization and conduct of the show. She has secured unexpected support, moral and financial, for the great undertaking, without encroaching upon the cround of the canvassers for the general exhibition fund.

There is now no room for doubt that the surplus of revenue over expenditure from the baby show will form a substantial contribution to the assets of the society. The judgment of secretary Annable in his selection of a manager for his chief attraction, is already amply justified.

NELSON'S NEWS OF THE DAY

The election of officers for Nelson Miners' union, No. 96, W.F.M., will take place tomorrow.

C. A. Waterman and company will offer for sale today all the household furniture and effects of G. K. Tackabury, at the residence on Water street. The sale will commence at 2 o'clock p.m.

Fred Irvine and Company Ltd., have decided to retire from business. Whether there will be a reorganization of the concern later on is not announced but the existing combination is to be wound up.

J. W. Leonard, well known in the west, has been promoted from the office of C.P.R. superintendent of construction at Montreal to that of general superintendent of transportation, rendered vacant by the withdrawal of C. W. Spencer to join the Canadian Northern.

Arnold's big tent show will arrive here this afternoon and will give an exhibition on the C.P.R. flats at 8 o'clock this evening. Tomorow there will be two performances at 2 and 8 o'clock p.m. There will be no street parade. A free exhibition will be given just before the opening hour by professor Harne's high diving dog, "Dollie."

This morning, says the Fernie Ledger, while Mark Drumm, editor of the Frank Paper, was sitting at his desk a gust of wind smashed the window hurling the fragments in his face. Mark had a tooth knocked out and received some severe cuts that required several stitches at the hands of Dr. Malcolmson. "This Drumm got a beating."

LEASING SANDON MINES

Business Improving—Good Inducements Offered Small Capitalists
(Special to The Daily News)

Sandon, Sept. 7—Things around Sandon are improving. A number of small leases have been let of late. This camp now should offer good inducements for persons wishing to take a chance on a lease and bond, the prices now being very reasonable, also terms, more so than one could get in a camp where there is a boom on. Should ore be found at the lower levels in the tunnels now being driven, the present prices on property will of course go up. Now is the time to get in cheap.

The Slocan Star shut down about a week ago, but they have left about 30 men on development. The low water was the cause of the company shutting down as early as they did. The company contemplates starting a lower tunnel this winter.

J. A. Whittier has a small force of men working on the Grey Copper. This property adjoins the Reco-Goodenough and the vein which is being worked is a parallel vein to the Reco-Goodenough. It carries high grade galena and zinc. Mr. Whittier expects to ship a car or two for a test in a few days. Mr. Whittier has also a couple of men at work on the Stranger, a property close to the Grey Copper, at the head of Jackson basin.

W. M. Bennett has taken a lease and bond on the Rowse Fraction group, up the north fork of Carpenter creek. This property is owned by W. Hunter and G. Fairbanks of Silverton and was worked by them last winter with fairly good success. It is not far from the Jo-Jo. It is a high grade dry ore property. Mr. Bigney has also leased the Excelsior group from J. Vallance of New Denver. This property is on the same creek as the Rowse Fraction group but on the other side of the creek. It was worked extensively by N. D. Moore and associates some years ago.

The Bachelor group is improving and the lessees have now about 14 men employed. They are building quarters for the winter and getting into shape to ship shortly.

Messrs. McMillan and Pound have the contract for building the chutes and ore bins for the Monitor Mines at Three Forks. They will be completed shortly. This company intends to move these dumps and have them treated at their mill at Rosebery. Work will also be resumed in the mine. This is the same company which recently purchased the Bosun mines.

Alex. Smith of the Surprise mine will take hold of the No. 3 tunnel in the Last Chance about the middle of the month and drive it through to his property, thereby gaining a great depth and being able to take his ore out on the Sandon side of the mountain and over the Last Chance tramway, thereby doing away with the very expensive mode of mining through the old workings on the McGulgan side.

STOCKS AND GRAIN

The opening on the stock market this morning showed a loss from last night's close of from one to two dollars per share. During the first hour the market had a rally but it weakened and the closing prices were at the low point for the day. The opening on C.P.R. at 162 1-2 showed a loss of 3-4 from last night's close; 161 3-4 was the low point for the day. After selling up to 163 1-4, it closed weak at 162 5-8. Reading opened at 117 1-4, breaking to 116 3-4, sold up to 118 3-8 and closed at 118. Sugar opened at 137 1-2, selling down a half closed at 137 1-2, a quarter lower than the high mark for the day. Amalgamated Copper opened at 79 3-4, closed at 80 1-4; St. Paul opened at 175 1-2, selling up to 176 3-4, closed at 175 1-4; U.P. opened at 129 1-2, breaking a point to 128 1-2, sold up to 129 7-8 and closed weak at 128 3-4; B & O. opened at 110 1-2, a loss of $1 a share from last night's close, selling up to 110 7-8, closed at 110 3-4, 1-2 higher than the low point of the day.

Grain—Liverpool grain opened, Dec. 1-2 higher. Our market opened strong and held firm during the session, closing nearly at the high point for the day. December wheat opened 82 1-4 @ 1-8 and closed at 82 1-4 @ 3-8. Sell wheat on all advances.

Reported by I. C. Major and Company, Nelson, Sept. 7.

NEW FAIR ATTRACTIONS

BUILDING OF GRAND STAND AND ADDITIONS IN PROGRESS

EVERY DEPARTMENT WILL SHOW NOVEL AND STRIKING FEATURES

Contractor James Dancey has been at work for two days with a good force of men on the preliminary work for the new grand stand in the exhibition grounds. The work will go on steadily and rapidly and before the opening day of the fair there will be a commodious and creditable building on the hill at the south side of the grounds west of the exhibition building.

Mr. Dancey has also been given the contract of adding 40 new coops in the poultry building. The poultry show will be a much more important feature this year than ever before. A number of experienced breeders have gone into the business since last year attracted by the high prices ruling for fresh eggs and poultry. Realizing that the best stock is the cheapest in the long run, they have imported none but first class. The eyes of the poultry judges this year will be delighted with the exhibit.

The manuacturers' and wholesalers' exhibit promises to be exceptionally attractive. A new breakfast food—and who is not interested in breakfast foods —of British Columbia design, will be served in the building, and the best method of preparing it will be demonstrated. Particulars will be published later.

Insurance companies, about which a great deal of public attention has lately been aroused, will be extensively advertised and local representatives will engage in a contest of eloquence to maintain the superior solvency of their respective organizations.

The finance committee is covering its work rapidly and efficiently. The subscriptions vary in amount from $100 to $10, those of three figures being quite numerous.

The semi-final meeting of the board of directors will be held in the city hall tonight at 8 o'clock. The program of sports will be finally determined and the list of judges for the different departments will be completed.

CANADIAN WANTS DAMAGES

Man From Winnipeg Brings Action Against City of Seattle

Seattle, Sept. 7—"Damp, dark, cold, vermin infested, filthy and in every way an improper place for the keeping of the person of a human being," is the way in which A. Nicholson of Winipeg, describes Seattle's city jail. Mr. Nicholson knows all about the place for he was there eight days and has now brought a claim of $5000 for false imprisonment against the city.

Nicholson was arrested on August 1 on suspicion of being implicated in a holdup here. Assault, with intent to commit robbery was the way the charge was read to him at police headquarters. According to his own story he was imprisoned for eight days on very slight grounds for suspicion, not given sufficient food and very badly treated generally b the police.

He was arrested by officer Martin. Nicholson says there was no reason why he should have been arrested, but Martin thinks that the police were justified in their action.

According to Nicholson his week at the jail was anything but pleasant. He was, he asserts, obliged to sleep on a cold damp and filthy cement floor, housed with the lowest criminals, eating disgusting food and without a bed or bedding. He thinks he was caused enough suffering to warrant the city giving him $5000.

Brutal and abusive answers and curses were handed out to him in bunches, Nicholson states, when he asked to communicate with the British consul or with a lawyer, and to cap the climax after his eight days of trouble he was simply let loose without any hearing being given, or an opportunity, according to his statement, of finding out with what offence he had been charged.

E. O. Windsor, the regular, independent piano tuner, is now in town for a few days only. Leave orders for him with the Canada Drug and Book company.

RECEPTION TO MINISTERS

BOARD OF TRADE WILL BANQUET TARIFF COMISSIONERS

COUNCIL PREPARE BUSINESS FOR MEETING NEXT WEEK

The forthcoming visit to Nelson of the dominion ministers composing the tariff commission, Hon W. S. Fielding, Hon. W. Paterson and Hon. L. P. Brodeur, will be probably made the occasion of a public reception. Nelson has, apparently no special grievance to lay before the tariff commission. It is possible that advantage will be taken of the opportunity by the board of trade to interview the finance minister, Hon. W. S. Fielding, in regard to the incidence of taxation and its effect on British Columbia industries.

The matter was discussed yesterday afternoon at a meeting of the council of the board of trade, attended by J. M. Lay, F. Starkey, W. W. Beer, F. M. Black, E. F. Gigot, J Drewe, and S. M. Brydges, secretary.

Notices to the board of the meeting of the railway commission in New Westminister and of the tariff commission in Nelson, were read. As Nelson's case was fully presented to the commission a year ago, the first communication was referred to the wholesalers' association.

The secretary was instructed to write the secretary of the tariff commission to learn when and by what route the members will arrive in Nelson. The precise form which the public reception to the ministers will take will be decided at the general meeting of the board of trade next Tuesday evening.

Another question discussed and which will probably be presented to the board for further action, was that of freight cars for ore in bulk. At present coal, and coke and ore sacked, are given preferential treatment over other freight in the matter of time of delivery. An extension of the accommodation to ore in bulk will undoubtedly be asked from the C.P.R. freight department.

SCOTT-HEWITT

At St. Paul's church Michel on Wednesday, Sept. 6, by the Rev. Aykroyd Stoney, Miss Mary Ann Hewitt of Lesbury, Northumberland, England, was united in marriage to James J. Scott of Michel.

Going for Chamberlain's Colic, Cholera and Diarrhoea Remedy.

Don't put yourself in this man's place, but keep a bottle of this remedy in your home. There is nothing so good for Colic, Cholera Morbus, Dysentery and Diarrhoea. It is equally valuable for Summer Complaint and Cholera Infantum and has saved the lives of more children than any other medicine in use. When reduced with water and sweetened it is pleasant to take.

You, or some one of your family, are sure to need this remedy sooner or later and when that time comes you will need it badly; you will need it quickly. Why not buy it now and be prepared for such an emergency? Price, 35 cents.

J. A. Gilker

PRICE OF METALS.

New York, Sept. 7—Bar silver, 62; casting copper, 15 5-8; electrolytic copper, 16 1-2, weak; lead, $4.85.

London, Sept. 7—Silver, 28 5-8; lead, £14.

NELSON'S NEWS OF THE DAY

H. Geigerich arrived from Kaslo yesterday and is at the Hume.

Mr. justice Morrison is spending his vacation in the territories.

A. C. Flumerfelt of Victoria, a frequent visitor here, has gone on a visit to England.

A. Macnider, inspector of the bank of Montreal is at the coast and is expected here shortly.

F. J. Squires has returned to Nelson, having abandoned the idea of locating in the Boundary.

E. M. Hand, manager of the Ymir mine, arrived in Nelson last evening from the mine and is at the Strathcona.

Mrs. W. J. Goepel returned to Nelson yesterday after a three months' trip to San Francisco, Portland and Victoria.

The price of lead dropped four points on the London market yesterday. Other metals remained practically the same.

Alfred McMillan of Rossland, representing the *Le Roi company at the Northport* smelter, was a visitor in the city yesterday.

William Hunter, merchant and mine owner, arrived from Silverton yesterday to spend several days in the city. He is at the Hume.

On Sunday morning the steamer Kokanee will replace the Moyie on the run to Kootenay Landing. It will leave Nelson at the usual hour, 4:30 a.m.

No particulars of the proceedings for contempt of court against the city or the power plant contractors have yet arrived. As late as last night no affidavits had been filed at Rossland.

Arnold's circus, which arrives here today will give a performance this evening and a special matinee for children tomorrow afternoon, as well as the other exhibition in the evening. The show has its own train and special cars and is said to be complete in every respect, carries no grafters and looks after the interests of its patrons in every way. The management gives its best attention to the performance and hence will not indulge in a street parade.

The tramway returns for last week again show a decline from those of the corresponding week of last year. The statistics are: Passengers carried, 1856; receipts for the week, $111.35; receipts for the year to date, $3975.15. The figures for the corresponding week of last year were: Passengers carried, 2836; receipts for the week, $147.80; receipts for the year to date, $3365.15. The week's receipts show a decline of $36.45; the receipts for the year todate are still $610 ahead of those of last year.

Christopher Robinson, K.C., of Toronto, accompanied by his wife and daugter, is stopping at the Strathcona. Mr. Robinson is a counsel of continental reputation. His appearance as senior counsel for the dominion before the Alaskan boundary tribunal will be readily recalled.

ATTACKING SALVATIONISTS

Pitched Battle Fought and More Trouble Looked for

Montreal, Sept. 7—The French Catholics in St. Louis de Mole, a suburb of Montreal, attacked the newly established Salvation army baracks there and seriously injured some of the Salvationists last night.

As the police force in St. Louis de Mole is small, some of the English speaking residents went to the rescue of the Salvationists and a pitched battle followed. More rioting is expected tonight, as the protestant residents are organizing to defend the Salvationists, and will be aided by members of some of the English Protestant militia corps.

ON THE LOOKOUT

United States Cruisers Watching for the Carmencita

Victoria Sept. 7—American cruisers are believed to be lying in wait somewhere off the Island coast for Captain McLean of the pirate schooner Carmencita now in Clayoquot wo has been ordered to report to collector Newberry here.

Should the Carmencita go outside the three mile limit there is every possibility the vessel will be captured. It is well known that rear-admiral Goodrich whose ships are at Port Angeles is keeping in close touch with the movements of captain McLean.

WINNIPEG BANK CLEARINGS

Winnipeg, Sept. 7—Clearing house returns for the week ending today, show $5,633,855, as against$4,012,353 in 1904, and $1,020,493 in 1903.

NOTICE

Election of officers for Nelson Miners' Union No. 96, W.F.M., will take place on Saturday, Sept. 9, 1905.
