DEMOCRATS' CONVENTION

Russian Liberal Party is Hopeful of the Duma Session

Think That Privileges Sought Can be Attained Constitutionally--New Premier Reassures the Public

St. Petersburg, May 4.—A spirit of enthusiasm and resolution marked the opening this afternoon of the convention of the constitutional democrats, which assembled to discuss the party's progress and the tactics in parliament. Besides two hundred members of parliament belonging to the party, there were present as spectators sixty per cent of the other members. Many of the latter appeared awkward and timid, never before having been admitted to such a gathering. Nevertheless, earnestness shone in their faces. Altogether, the gathering was an impressive sight. It was evident from the temper of the speeches of the leaders that, while resolutely determined to secure the fruits of their victory at the polls and force the government eventually to yield a constitution along the lines which they demand, they will try to avoid an open conflict as long as possible.

Professor Milukoff, who sounded the keynote, spoke in a surprisingly hopeful tone, believing it possible that parliament will accomplish something and that the government dare not go too far in thwarting the wishes of the people.

Prince Paul Dologoroukoff, who will be the first prime minister, in case of a complete victory of the party, was chosen president amid rousing cheers.

In a brief speech he urged the necessity of not playing politics but to go in seriously for the work. Then if the government stupidly attempted to frustrate the people, the responsibility would be on its own hear.

Professor Paul Milukoff, editor of the organ of the constitutional democrats, outlined the tactics of the party in a general way. The first necessity of the situation, he said, was that the members bury their individual differences and present a solid front. The country, especially the peasants, was expecting results. If the sympathies of the people were to be retained, it was necessary to accomplish something before the government dispersed parliament. There were two questions, he asserted, upon which the party could not flinch—an immediate general amnesty for political offences and the abolition of the death penalty. There should also be a parliamentary enquiry into the administration for the purpose of punishing those guilty of abuse of powers. He considered the downfall of the Witte-Durnovo cabinet to be proof that the court camarilla wanted to avoid a fight. He believed that a legislative way was now one for the realization of the two principal points of the program of the constitutional democrats, namely real representation of the people based on universal suffrage, and proper guarantees of personal liberty, to neither of which in his opinion the government now dared to oppose itself. The agrarian problem was the most vital question and naturally toook the first place. The future largely depended on the record the party made on that question.

M. Schwanebeck, former minister of agriculture, controller in the new cabinet, and premier Goremykin's chief lieutenant, sent for the Associated Press correspondent today and requested, on behalf of the new premier, that it be announced to the world generally, in the following official note, that the new ministry does not mean reaction.

"His majesty, the czar, and the premier, M. Goremykin, have full and honorable intentions of carrying through the idea of national representation with all it implies. There is no intention of dissolving parliament. Naturally unforeseen circumstances may arise, as in any government, which might force such an unhappy event. But we do not anticipate such a misfortune, as the majority of the members of parliament are lovers fo their country and we do not believe they are desirous of forcing a conflict. The government's purpose will he to work with the parliament."

RUSH FOR DOMINION LANDS.

Record Number of Homestead Entries Secured by Battleford Office.

Battleford, Sask., May 4.—Battleford hold the record for the number of entries made at any dominion land's office during the month of April, securing the splendid total of 1615. The rush has kept up steadily and the small staff has been working night and day. At 4 o'clock every morning the crowd of homeseekers begin to congregate and as soon as the doors open at 9, an eager and anxious crowd at once flooded the office and numbered on the average, during the time the office was open, 40 per hour. Two or three men have been carried out in a fainting condition, also the assistant land agent. During the month the floor of the office had to be shored up from below to prevent caving in. The correspondence work was also very heavy. The number of letters received for the month totalled almost 1000 and the number sent out 3000. The bulk of this work has been performed by a staff of five clerks, two members not coming in until the end of the month. Despite the fact that the proxy business is now done away with the rush still keeps up and in the first two days of May 98 entries were made.

PHOENIX CELEBRATION

Large Sum Subscribed—Success of Event is Now Assured.

(Special to The Daily News)

Phoenix, May 4.—At the second meeting of the local Dominion Day celebration committee, the first report on progress along financial lines was made, to the effect that over $1000 had been subscribed by business men and citizens in a few hours, with quite a number yet to hear from. The city council this week made a grant of $100 to the celebration committee, and a number of others did likewise. The success of the occasion is now assured, and the committees are getting to work as rapidly as possible. Following are chairmen of the several sub-committees: Hose racing, O. N. Galer; horse racing, W. R. Williams; baseball, V. M. Sherbino; log rolling, R. V. Chisholm; caledonian sports, H. A. Munro; drilling contests, John McInnes.

Much interest is being taken in the coming celebration, and arrangements are being made to have special trains operated to Phoenix over both railways at that time.

LATE CANADIAN SPEAKER

DEATH OF PETER WHITE MOURNED BY FORMER COLLEAGUES

SIX YUKON MINING CONCESSIONS HAVE BEEN CANCELLED.

(Special to The Daily News)

Ottawa, May 4.—Sir Wilfrid Laurier, in the house today, referred to the loss parliament had sustained by the death of ex-speaker Peter White. The premier said that after being in the house for more than thirty years, during which time many able speakers had been in the chair, yet White as a speaker was peer of them all.

R. L. Borden added his tribute to his late colleague.

Six Yukon mining concessions have been cancelled. Notices have been sent out by the minister of the interior to six companies holding hydraulic mining leases in the Yukon notifying them that these leases have been cancelled. These companies will be allowed certain portions of the concessions upon which work has been done providing that they waive all legal claim to the property, if not, then the concessionaries will be allowed to take suit in the court against the government. In this way those who follow will not be troubled with litigation. The six concessions which have been cancelled are as follows: Bronson and Ray, Anderson, Herman, Quartz creek, Eureka Creek and Soroggie. They have got 60 days from today to step out, if they do so, waiving all rights to the property, they will get a certain number of mining claims in return for whatever work they have done. The Anderson people will make five mining claims, Quartz creek, five; Herman, four; Eureka, four; Soroggie, four; Bronson and Ray, three. If this compensation is not accepted within the sixty days' period, then proceedings for ejectment will follow. The reason for cancellation is that the companies have not carried out the terms of the lease in regard to the amount of work done on the concession.

Dr. Rutherford, at the agricultural committee today, said it was the intention to erect at Vancouver the same kind of a quarantine station as at the boundary line. This would be done as soon as the location of the stockyards was decided on. The doctor's evidence was in connection with the glanders epidemic. He said that the new policy which the department has adopted would result in eradicating glanders from Manitoba.

Quarantine stations will be established at Princeton and Grand Forks.

NELSON'S NEWS OF THE DAY

The last issue of the Motor Boat, an illustrated twice a month publication, issued in New York and devoted to motor boats and their use, has a cut of part of the Nelson fleet together with a brief but excellent write up of the local launch club.

Despite the recent notice as to fires issued by the municipality chief Deasy had in more than one case last night to warn people that fires must not be kept alight after sundown within the city limits, nor may they be lighted in the daytime without special permission.

Although some of them may lose time by it the members of the city band yesterday decided to parade today and take part in the launching program. The band tender their services gratuitously, and their playing will add greatly to the festivity of the occasion.

PROCLAMATION.

At the request of a large number of citizens I hereby proclaim a half holiday this afternoon between the hours of 1 and 4 o'clock, in order that all who desire to attend the launching of the steamer Kuskonook at the shipyards may have the opportunity of doing so.

Nelson, B. C., May 4th, 1906.

W. G. GILLETT, Mayor.

SANTA ROSA LOSSES.

Oakland, May 4.—Governor Pardee has received a despatch from Santa Rosa stating that the property loss caused by the recent earthquake will amount to $2,000,000 and that it will cost at least $150,000 to clear away the wreckage.

OAKLAND'S LOSSES.

Oakland, May 4.—Estimates of the damage wrought by the earthquake in this city total two million dollars according to a report submitted to mayor Mott by building inspector F. Towle.

STRIKE MAY BE AVERTED

Miners Convention is Still Undecided as to Its Course

Final Decision is to Take Place Today--Doubt as to Whether Operators Will Concede Anything Further

Scranton, May 4.—The United Mine Workers' convention of delegates from the three anthracite districts which have been in session here the past two days considering the refusal of the mine operators to grant the demands of the mine workers, will declare itself finally and definitely tomorrow.

This is the only thing that can be said with any certainty tonight. The entire convention decision is believed to rest with president Mitchell, although it is in the hands of the general schedule committee. The convention this afternoon decided to refer the entire question to the general scale committee, with instructions to report recommendations to the convention tomorrow at 10 o'clock. The conference brought into the situation a possible suggestion of peace, though it is generally believed tonight that the majority of the delegates will favor a strike. At the close of the afternoon session of the general scale committee president Mitchell announced the entire matter had been referred by the general committee to the sub-committee.

Indianapolis, May 4.—The members of the sub-committee in addition to president Mitchell are district presidents Nicholls, Delaney and Fahey, and Diston Dempsey, Gallagher and Hartlin. The sub-committee met tonight. Mr. Mitchell said that the committee would submit regulations and recommendations to the convention tomorrow. Secretary treasurer Wilson made a long speech at the afternoon session but no official statement concerning the nature of his remarks has been given out. It is said that Mr. Wilson came here to give the leaders of the organization some definite information concerning its financial condition at the present to put them in close touch with the situation in the bituminous coal fields, where he has been for the past few weeks. He said that if a strike of the anthracite miners is called a majority of the bituminous workers will demand the same scale of wages. The committee will do one of three things which are set forth in the scale.

This report says: "You will observe that your committee has made every possible effort to reach an agreement, as to wages, conditions of employment, etc., and they propose to submit to your approval an arbitration of the difference, that our proposals hae been rejected and that our offer of arbitration upon a basis just to us and fair to them has been declined.

"If it is true, and we believe it is, that the operators have made their final proposition there is nothing for us but to accept for a period of three years the conditional and restricted methods of arbitration proffered by the operators or to work until be secure better conditions than we are now offered."

Philadelphia, May 4.—Representatives of ten of the principal coal and coke companies in the central Pennsylvania bituminous or Clearfield district, whose employees have quite work, pending a settlement of the differences, have decided to fight it out at whatever cost. The operators are making preparations to open their mines next week.

LAND FRAUDS.

Prominent American Bankers and Lumbermen Arrested.

Oshkosh, Wis., May 4.—Five lumbermen and bankers, representing an aggregate wealth of over $1,000,000, were arrested yesterday by federal officers on the charge of conspiracy to defraud the government by means of alleged land frauds in Oregon.

The men arrested are: L. Choate, Jas. M. Bray, Benj. Doughty, and Thos. Daly. Each was placed under bonds of $2000 and the hearing adjourned to May 11. The charges contained in the federal grand jury indictments, under which the men were arrested, is conspiracy to defraud the federal government by having furnished money to Oregon parties to make entries and buy homesteads in Oregon. T. Daly is cashier and other defendants are stockholders of the commercial national bank of Oshkosh.

Portland, May 4.—In addition to the Oshkosh capitalists, who either have been or will be arrested in connection with the movement against land frauds in Oregon, Summer K. Parker of Ashland, Oregon, has also been arrested under the same indictment. This indictment, which was one of the most important that has been returned by the present federal grand jury, charges that, under the name of the Oshkosh Lumber company, the accused acquired 160,000 acres of land in Klamath and Lake counties, by inducing residents of Ashland and Medford, Oregon, to file upon the land, upon the understanding that it was to be transferred to the Wisconsin men as soon as the final papers should be secured.

LONGSHOREMEN'S STRIKE.

No Change in Situation—Traffic is All Tied Up.

Cleveland, May 4.—It was reported in shipping circles today that not less than fifty vessels, with approximately 400,000 tons of ore on board, are now lying at the various lower lake ports, awaiting to discharge their cargoes, which, owing to the strike of the Longshoremen's union, cannot be done. There is apparently no change in the strike situation today. Reports indicate that very few of the mates have joined in the movement.

Detroit, May 4.—President Livingstone, of the Lake Carrier's association, today declined to discuss the Longshoremen's strike further than to say that everything was progressing satisfactorily from the association's standpoint. President Keefe of the Longshoremen's union, and president Livingstone differ widely as to the number of mates who obeyed the strike order. "We have positive and accurate reports that 80 per cent of the mates have walked out," said president Keefe today. "We have the number of boast and their names."

"Not more than 10 per cent of the mates left their boats," was president Livingstone's reply.

CANADIAN TRADE REVIEW

IMPROVED CONDITIONS REPORTED FROM ALL SECTIONS.

B. C. WHOLESALE TRADE IS BEST OF THE SEASON.

Montreal, May 4.—Bradstreet's trade review says: Canadian trade is now about in full swing. Crop reports are good, retail country trade is better, collections show some improvement, the opening of water navitgation swells the movement of freight, building trade is active and much building is in progress.

Montreal reports good orders from the country, cotton and woollen goods prices are strong and hardware is especially active. New butter and cheese are coming in and prices are easing. Large exports of cattle have been made on the first steamships sailing.

Trade is active in all lines at Toronto. Favorable weather for seedings is reported, manufacturers are getting out goods on orders more freely and heavy demands for building materials and house furniture are noted.

Business in the northwest improves as the season advances. Crop reports are encouraging and retail trade is brisk.

In British Columiba wholesale trade is the best of the season. The lumber trade expects still better conditions when the rebuilding demand in San Francisco starts.

LE ROI NO. 2 DIVIDEND

DIRECTORS DECLARE A PAYMENT OF £12,600.

MINE NOW IN POSITION TO MAKE LARGER PROFITS.

Rossland, May 4.—Word reached here today that an interim dividend of two shillings a share has been declared by the directors of the Le Roi No. 2 company. The total of the dividend is £12,600.

The Le Roi No. 2, owing to the finding of valuable shoots of high grade ore, is in a position to make larger profits than in 1905, when it paid dividends to the extent of four shilling a share.

MONDAY'S CONCERT.

All Arrangements Concluded for Great and Popular Performance.

A final meeting of the committee having in charge the great popular concert of the 20,000 club in aid of the San Francisco sufferers on Monday night in the opera house, was held at manager Buchan's office yesterday afternoon. All arrangements were completed and a splendid program is assured.

The city band has volunteered its services and will give an open air concert in the band stand before the regular performance commences.

In all there will be 19 numbers in the program and owing to the length of the bill offered, the cutain will rise at 8:30 to the minute, by which time it is hoped all the audience will be seated. Positively no encores will be permitted and the whole program will be run through promptly without any delays.

Mrs. Thomas Parker, formerly of Rossland, now a resident of this city will make her debut before a Nelson audience. The Nelson ladies quartette and the male quartette are both on the program.

The full program will be published in Sunday's issue of The Daily News.

The sale of tickets at popular prices, 25 50 and 75 cents, will open at Rutherford's this morning. Get there early and avoid the crush.

Attention is drawn to the generous way local merchants have used up their advertising space in booming the entertainment.

PRESENTS AN ULTIMATUM

Great Britain Demanding Instant Evacuation of Tabah

Delay on the Part of the Porte Will Result in the Despatch of the Mediterranean Fleet to Constantinople

London, May 4.—The British ambassador at Constantinople, sir Nicholas O'Connor, yesterday presented a note to Turkey demanding the prompt withdrawal of the Turkish troops from Egyptian territory. The note is practically an ultimatum and constitutes Great Britain's last word in the encroachment of Turkey on the Sinai peninsula.

The French and Russian ambassadors at Constantinople are supporting the British contentions. Should the ultimatum fail to have the desired effect the British Mediterranean fleet will take the measure so often employed by the powers in recent years, as the result of disputes with the Sultan, and a naval demonstration, it is anticipated, will quickly bring about the evacuation of Tabah which is unquestionably Egyptian territory. The sultan is given ten days in which to comply with the British demand for the withdrawal of his troops from Tabah and other points on the Sinai peninsula, pending the delimitation of the frontier by a commission.

Paris, May 4.—It is officially confirmed that France is supporting Great Britain's demands at Constantinople in connection with the Tabah incident. The influence of Italy and Russia is also given to Great Britain. The officials here expect an adjustment without a serious Anglo-Turkish breach.

London, May 4.—The correspondent at Constantinople of the Times, telegrophs as follows: "There is absolutely no evidence here of any German intrigue. In fact on more than one occasion the German ambassador has told the grand vizier that the only sensible thing for the Turks to do was to evacuate Tabah as speedily as possible."

DIVISION OF WATER POWERS

Agreement Reached By the International Waterways Commission.

Toronto, Ont., May 4.—Under the agreements signed by the International Waterway commission at Buffalo yesterday, Canada will secure 3600 cubic feet of water per second at Niagara Falls and the United States 18,500 per second. At Sault Ste Marie the water power is to be divided equally. The Canadian section recommends that this agreement be limited to 25 years.

The question of the division of other waters, such as St. John river, has not been made the subject of any agreement, although the Canadian section lays down certain principles in regard to these. The United States' commissioners took the ground that they had not the power to deal with this latter phase of the question. The complete report, which is a very bulky document, will be submitted to the governments of both countries for ratification as soon as possible. It is understood the United States commissioners will ask their country for power to deal with all questions recommended by the Canadian commissioners.

FATAL COLLISION.

Altoona, Pa., May 4.—The Chicago Mail, westbound and the Chicago and St. Louis express, eastound on the Pennsylvania railroad, running at full speed, met head-on near Springfield furnace on the Petersburg, cut off, eighteen miles from this city, at 11 o'clock tonight. It was at first reported that three persons had been killed and 27 injured, but later reports indicate that the casualties were under-estimated.

TO ABANDON THE BAVARIAN (

Quebec, May 4.—T. N. Armit, representative of the British East Coast Salvage company, who came to Quebec some weeks ago to investigate the condition of the Allan liner, Bavarian, stranded on the rocks at Grosse island, received a cablegram today advising him that the underwriters had decided to abandon the vessel unless he would undertake to raise the vessel at his own risk. This would cost $100,000 and it would take a further sum of $500,000 to reconstruct the ship. He will not undertake the risk so the vessel will be abandoned.

BIG POWER MERGER.

Forty Million Dollars Paid for Portland Companies.

Portland, May 4.—The Oregonian today says that a deal involving a consideration of over $40,000,000, on every light, power and traction company in the lower Willamette valley, including Portland, using electrical energy, was consolidated yesterday. Telegrams confirming the merger were received from New York by the heads of the local companies.

The purchasers are E. W. Clark, E. and W. Selligman & Co. and Pratt & Co., New York. The various companies absorbed and the estimated value are: Portland General Company, $10,000,000; Portland Railway Company, $12,000,000; Oregon Water Power and Railway Company, $5,000,000; Carsons Light and Traction of Salem, $5,000,000; Vancouver Light and Power Company of Vancouver, $300,000 and the Union Light and Power Company of Silverton, Woodburn and Mount Angelo, $100,000.

BOUNDARY STRIKES.

No Settlement in Sight at Greenwood or Anaconda.

(Special to The Daily News)

Greenwood, May 4.—There is little change in the strike situation here, except that the men on Creelman's carpenter work, who struck yesterday morning, went back to their places today. These men had really no grievance as they had been getting the union scale since May 1st, and in many individual instances since March 1st. W. P. Tierney's men are still out and there seems little chance of an immediate settlement.

The excavation work is at a standstill and the progress of the work on the smelter additions is being seriously handicapped. It looks at present as if the contractors will have to hire new men to proceed with the work.

The work on the British Columbia construction and distributing company's substation is also at a standstill. The men there refuse to return to work unless their demands are submitted to. Lorne A. Campbell, the manager of the company, arrived here yesterday but when seen by a Daily News reporter today he professed total ignorance of the situation except that the men had quit work. He had not seen any representative of the men and was disinclined to discuss the matter.

WELL PAID LEGISLATURE.

Regina, Sask., May 4.—The sessional indemnity for Saskatchewan legislators was today fixed at $1,000 by the casting vote of the chairman of committee of the whole. Haultain moved to have it cut to $700, and was supported by two ministers and one other liberal.

NEWS OF THE DOMINION

RESOLUTIONS PASSED BY TORONTO TRADES AND LABOR COUNCIL.

FUNERAL OF LATE PETER WHITE TO TAKE PLACE MNDAY.

Toronto, May 4.—Mr. Shepley closed the examination of Mr. Papps, actuary for the Manufacturers' Life at the investigation this morning. He read from the Manufacturers' Life statements showing that the expenses had increased from $394,0000 in 1904 to $482,000 in 1905, and Mr. Papps said that the increase in the cost of operation was due to the larger amount of business in force, the greater volume of new business in 1905, and considerable amount spent in opening and extending business in new fields.

Quebec, May 4.—Prince Arthur of Connaught, who reached here from St. John last night, visited Montmorency falls this morning, returning to the city at noon, where he was presented with address of welcome by mayor Garneau on behalf of the aldermen and citizens of Quebec.

Hamilton, May 4.—The carpenters held a meeting with the masters this morning, failed to agree, and a strike was ordered. The masters refused to bind themselves to employ only union men when others were available.

Pembroke, May 4.—The remains of the late Hon. Peter White will arrive here from Clifton Springs, New York, by C. P. R. train at noon tomorrow. The funeral will take place on Monday.

Brockville, May 4.—Yesterday afternoon Mrs. Kate Northway, of Windsor, a customs inspector, met arrivals by the steamer Riverside from Ogdensburg, N. Y., and invited sixty-eight ladies to her private apartments, all of whom were thoroughly searched and many articles confiscated. One lady had a number of small dishes in her stockings and clothing.

Toronto, May 4.—Rev. George Bond, editor of the "Christian Guardian," the organ of the Methodist church of Canada, has decided to tender his resignation on account of ill health.

Toronto, May 4.—Rev. Dr. W. R. Parker, one of the best known ministers of the Methodist church died here yesterday.

Toronto, May 4.—The Toronto trades and labor council at a meeting last night passed resolutions censuring the dominion government for its transaction with the North Atlantic Trading Company. Another expressing want of confidence in the government's immigration policy and demanding the discharge of W. T. R. Preston, immigration agent in London, was also passed.

FEARS GREAT SUFFERING

GENERAL GREELY REPORTS ON 'FRISCO CONDITIONS.

NUMBER OF DESTITUTE IS STILL VERY LARGE.

Washington, May 4.—The question of caring for the destitute in San Francisco is causing the officials there great anxiety as shown by the following telegram from general Greely yesterday and received at the war department over night: "The number of destitute being so enormous, aggregating today, as just reported, 191,858 in San Francisco alone and apparently conservative estimate places destitute refugees at not less than 40,000 at Oakland and Berkley. How these terrible conditions are to be met is subject of most earnest consideration between Devine, finance committee and myself. While the exertions of the army to reduce this aid to smallest possible limit has effected important changes, yet the solution of the situation, without enormous suffering, appears impossible. While hoping for great decrease in number of destitue I am not confident. The far reaching extent of this disaster cannot be appreciated without personal observation."

PALMA IS PRESIDENT.

Havana, May 4.—The Cuban congress today canvassed the electoral returns and proclaimed Tomas Estrada Palma and Mendex Campote unanimously elected president and vice president respectively.

TRAPPED IN AN AMBUSH

British Magistrate Killed by Zulu Followers of Bambaata

General Uprising Against the Whites in South Africa is Now a Pressing Danger--Movement is Termed Ethiopianism

Peitermaritzburg, Natal, May 4.—An outrage which may have serious consequences has occurred in Zululand. Mr. Stainban, the British magistrate at Mahalbitini, Zululand, has been killed by Zulus while collecting taxes near that place.

Mr. Stainban and party including Mrs. Stainban, the magistrate's wife, a lady companion, and some mounted police, were caught in an ambush by hostile natives, who fired a volley at them. The magistrate and one of the policemen were mortally wounded. Mr. Stainban and the two ladies managed to reach Mahalbitini, where the magistrate died of his wounds.

Mahalbitini lies to the westward of the forests where Bambasta, insurgent chief formerly the regent of the Greytown district, Natal, who has been in arms against the Natal authorities for a month past, had been in hiding, and it is asserted here there seems to be no doubt that he has succeeded in inducing another tribe of Zulus to join in the revolt.

London, May 4.—The disturbances in Natal have been causing considerable uneasiness in Great Britain. The movement was started by what is known as the Ethiopian church and, according to advices from Natal, and elsewhere, appears to have spread through large parts of South Africa. In brief the natives are agitating in favor of "Africa for the Africans."

Premier Smyth of Natal, about two months ago, denounced Ethiopianism as the primary cause of the present disaffection of the natives. He said it was calculated to destroy European rule and appealed for public support to make a clean sweep of the disaffection, even though bloodshed must follow.

ALL ANARCHISTS JAILED

STRONG MEASURES TAKEN BY PARISIAN POLICE.

NUMBER OF STRIKERS SAID TO BE NOW DWINDLING.

Paris, May 4.—The body of an unknown man of the Russian type of features and having a revolver wound in his head was found in the doorstep of the church of Vincennes today. It is believed he was an accomplice of the two anarchists who went to the forest with bombs yesterady. After that bomb explosion prefect of police Lepine ordered the arrest of a number of agitators. Twenty-six of these were taken into custody during the night and three more today. M. Lepine has also ordered the arrest of all persons interfering with liberty of work.

Several small provincial disturbances were reported today. Two dynamite cartridges were exploded at Leba, department of pas de Calais, causing much damage to the houses of two non-striking miners. There are now only 1,500 miners on strike. The printers, carpenters, tinsmiths and furniture workers of this city have determined not to return to work until their remand for an eight hour day is granted.

FRISCO REAL ESTATE.

Values on the Upgrade Despite Disastrous Conflagration.

San Francisco, May 4.—The U. S. mint, which is now being used as the general clearing house for the banks, has paid out between seven and eight million dollars to depositors since it opened on Tuesday last. The savings banks will not open for two weeks. The local syndicate which owns the Lick house site on Montgomery streets, between Post and Summer, has been offered $750,000 more than they paid for the lot and hotel building about two years ago and have declined to sell.

REDUCING FREIGHT RATES.

Chicago, May 4.—An important conference of the executive committee of the American shippers association will be held here today. The result of this meeting will be awaited with interest by railway men because it has been heralded as the start of a movement for a general reduction of freight rates throughout the country. It is the first concerted movement of its kind of a national scope.

EMPLOYERS STAND TOGETHER.

Chicago, May 4.—Hope of an early settlement of the bridge structural ironworkers strike came to an end yesterday after a joint meeting at which employers in every branch of the trade were represented. It was decided, under no consideration, would an increase in wages be granted the strikers.

SETTLERS FOR CANADA.

Montreal, May 4.—The Canadian Pacific liner Lake Manitoba will arrive at Quebec early on Saturday morning. Owing to the great number of steerage passengers to be disembarked at that point she will in all probability not arrive in Montreal until Sunday morning. The Lake Manitoba has 1,418 passengers on board.

COLLIDED WITH ICEBERG.

London, May 4.—The British steamer Anglo-Peruvian, captain Curtis, from Shields, April 11th, for Philadelphia, foundered recently in the Atlantic as the result of a collision with a niceberg. All the members of her crew were picked up by the British steamer Mohawk.

THE BRITISH EMPIRE

The work of analysing and tabulating the figures of the census of the British empire, commenced five years ago, has just been completed and the results published.

Commenting upon the marvellous extent of the British empire as disclosed by the census returns, the New York Tribune quotes Webster's eulogy, "A power to which for purposes of foreign conquest and subjugation Rome in the height of her glory is not to be compared," and remarks that the census affords an impressive reminder and justification of the American orator's tribute. Webster had in mind the Britain of a century and a third ago, before the Union Jack had been planted at the Cape of Good Hope, before even a penal colony had been settled in Australia, and when there was only a small and uncertain foothold in India. If the words were true then, with ten times greater force do they apply today. Beyond all question the British empire is the most extensive in the world, probably the most populous, and undoubtedly the greatest in every important sense of the term. In the matter of territory none can rival it. Twelve million square miles of the earth's territory is British soil. Russia, the next largest land owner, has only 8,660,395 square miles, and the French republic 4,277,170. China comes fourth with about 20,000 square miles less than France and it followed by the United States with 3,693,169 square miles. Next is Germany, far below, with less than a million and a quarter square miles. The British empire is almost as large as her nearest two rivals put together and more than three times as large as the United States. If the quality of the land owned by the various nations were compared, Britain's advantage would be still more marked, while Russia's showing would be less favorable. As regards population the Tribune is of opinion that the British empire is the greatest, although China claims 407,000,000 to the British 400,000,000. It is suspected, however, that the Chinese census has been padded. Third place goes to Russia with 142,000,000. France governs 93,000,000 people, the United States 88,000,000, and Germany 74,000,000. Three-fourths of Britain's 400,000,00 are Asiatics, but there are about 57,000,000 civilized white people in the British empire.

Of the variety of climes and peoples that are under British jurisdiction there is no end. Every habitable latitude and longitude in the world has its British subjects. Men of every known race, every tongue, and every religion, dwell under the British flag. More than 200,000,000 are Hindoos and nearly 100,000,000 are Mohammedans, and there are 58,000,000 Christians. Of the business transacted in this empire one can but say that everything that is done under the sun, everything that is bought and sold in the world, is done and bought and sold under the British flag. To British commerce there is no rival, nor has there ever been a rival. In manufactures, in agriculture and pastoral pursuits the British empire is first. In naval power afloat it has no peer, and in military resources it is alone. One might continue at the work of piling greatness upon greatness, but words can hardly give one a real grasp of the subject. As the years go on the difficulty of realizing the full meaning of the simple word "British" will increase. Another hundred years will add perhaps another hundred million population to the empire in Canada alone. The territory cannot possibly be greatly increased, nor can it be appreciably lessened. But its wealth will be doubled and quadrupled over many areas, and the real power and influence of the British people will grow in proportion. The Tribune's words in conclusion are worth quoting: "With such a statistical showing, there need be no hesitation in reckoning the British empire the greatest the world has known, and the greatest of which the world gives promise, save in some respects only—the great republican realm, which is an offshoot of the same British stock."

EDITORIAL NOTES.

From July 1, 1905, to March 31, 1906, the net profit earned by the Canadian Pacific Railway Company amounted to $16,505,041, a gain of over five million dollars over the profits of the same period of last year. With a showing like this the C. P. R. should not worry greatly over the threatened Hill invasion. *Profits in excess of sixteen million dollars* earned in nine months ought to ensure peace of mind to sir Thomas Shaughnessy in spite of Hill's schemes. If out of these handsome profits the C. P. R. directorate would appropriate, say half a million, for the erection of a string of tourist hotels throughout the Kootenay district those of us who are not shareholders would feel almost as much satisfaction as the latter will when they receive their dividends.

Last year in Italy there was spent by travellers some fifteen millions of pounds sterling—such is the official estimate. Of this vast sum, according to the Health Resort, one-half was spent in railway and other travelling expenses, the other half in hotels and purchases. The nations, contributing these millions to Italian exchequers are chiefly England and Germany. If some of these millions could be diverted to British Columbia it would brighten things considerably and there is no doubt about it that the tourists would get just as good value for their money. Italian resorts go after the tourist business energetically and in British Columbia so far only a very feeble effort has been put forth to attract travellers from Great Britain and Europe.

The Victoria Colonist is devoting some attention to socialism these days, mainly with a view to justifying the McBride administration's alliance with the socialist party in the local legislature. The Colonist assures us that the members of the McBride government have no sympathy with socialism and that any little pandering to their demands has been influenced solely by the desire to hold their votes. This is probably true enough. Certainly no one could accuse finance minister Tatlow, or attorney general Fulton of socialistic leanings, and as for the president of the council, he is known to suffer intense mental anguish every time leader Hawthornthwaite rises in his seat to defend some government measure. It is just as well, though, that the chief government organ should clearly explain the nature of the relations existing between the McBride administration and the socialist members of the legislature. What the simon pure socialist will think of such an arrangement remains to be seen.

DISCRIMINATING LADIES.

Enjoy Using Herpicide on Account of Its Distinctiveness.

The ladies who have used Newbro's Herpicide speak of it in the highest terms, for its quick effect in cleansing the scalp of dandruff and also for its excellence as a general hair-dressing. It makes the scalp feel fresh and it allays that itching which dandruff will cause. Newbro's Herpicide effectively cures dandruff, as it destroys the germ that causes it. The same germ causes hair to fall out, and later baldness; in killing it, Herpicide stops falling hair and prevents baldness. It is also an ideal hair dressing, for it lends an aristocratic charm to the hair that is quite distinctive. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

NOT IF AS RICH AS ROCKEFELLER

If you had all the wealth of Rockefeller, the Standard Oil magnate, you could not buy a better medicine for bowel complaints than Chamberlain's Colic, Cholera and Diarrhoea Remedy. The most eminent physician can not prescribe a better preparation for colic and diarrhoea, for both children and adults. The uniform success of this remedy has shown it to be superior to all others. It never fails, and when reduced with water and sweetened, is pleasant to take. Every family should be supplied with it. Sold by all druggists and dealers.

AN EXCELLENT PERFORMANCE.

Mackenzie-Glover Concert of Last Evening Hugely Entertained the Audience.

The concert given by the Mackenzie-Glover company last evening in the opera house was one of the best things of its kind ever given in Nelson, since Mr. Mackenzie was here last. In fact there can be only one Wiliam Mackenzie. It is not only that he has a good voice, uncommonly distinct enunciation, a catholic taste in music which embraces both the classical and the modern schools, but his facial expression, his accent make the singing of such a song as the "Laird o' Cockpen" a delight that will not soon be forgotten by those who heard it. For this song in particular Mr. Mackenzie got a most unmistakable encore. From another point of view Pinsuti's "Raft" was Mr. Mackenzie's best while perhaps the Irishman would insist that the best of many good songs was "Off to Philadelphia." The duets between Miss Glover and himself were much appreciated. They were chiefly humorous but both singers appeared to great advantage in the pathetic ballad "Five Crookit Bawbee." In fact Miss Glover was as warmly applauded in this as in her her highly dramatic rendering of the poison scene from Romeo and Juliet, which latter was very effectively done.

Song and recitation, dramatic soliloquy and light comedy with a background of excellent pianoforte music, either as pure accompaniment or as a solo, by Miss Claire Rosseau, made up a most delightful evening. Tonight there will be some matermi changes in the program, not only in the character of the songs, though Mr. Mackenzie probably will not be permitted to eliminate his Scottish humor, which is evidently ingrained, reminding his aurience of a musical Dean Ramsay, but also in the personnel, as Mr. von Ravensberg will take part. Furthermore a taking little drama, "The Snowstorm" will be sustituted for the comedy of last evening.

Perfect Woman

You may have the Beauty of Perfect Health

The perfect woman is the woman who has perfect health. Beauty is more than skin deep. Beauty is as deep as pure blood and a perfect digestion. Especially is female beauty dependent on the perfect health of the delicate female organism.

If you wish to have the beauty and attractiveness of perfect health, if you wish your eyes to sparkle, your complexion to resume its brilliancy, and your whole body to thrill with the glow of renewed vitality, take that famous woman's medicine,

Lydia E. Pinkham's Vegetable Compound

If you have headaches, backache, organic pains, painful or irregular periods, or any female trouble, begin with Lydia E. Pinkham's Vegetable Compound at once. It will save you needless suffering. It will restore your womanly beauty.

Dear Mrs. Pinkham:—Soon after my marriage my health began to fail. I was unable to sleep, became very nervous and had shooting pains through the abdomen and pelvic organs, with bearing down pains and constant headaches, causing me much misery; my monthly periods became very painful and I became a burden to my family.

Lydia E. Pinkham's Vegetable Compound cured me within three months. I am stronger and look better than I did before I was married, and there is great rejoicing in our home for what your wonderful medicine has accomplished for me. MRS. M. A. C. LETELLIER, 732 Cadioux Street, Montreal, Que.

No woman, were she a Venus de Milo, could continue beautiful with a dragging down female complaint. Mrs. Pinkham invites all sick women to write to her for advice. For twenty-five years Mrs. Pinkham, daughter-in-law of Lydia E. Pinkham, has under her direction, and since her decease, been advising sick women free of charge.

Lydia E. Pinkham's Vegetable Compound Cures Where Others Fail

THE old-time miller did not concern himself much about the quality or purity of his flour.

He simply ground the wheat.

You would refuse to use his product to-day. The results would not satisfy you. You have advanced.

Yet it is possible that your advance has not kept pace with the advance in milling methods.

You may demand a better flour than your mother did and yet be satisfied with something inferior to what it is possible for you to get.

PLEASING PRESENTATION

RICHARD HELME IS HONORED BY EXPRESS EMPLOYEES

GIVEN HANDSOME CABINET OF *STERLING SILVER.*

Richard Helme, the new superintendent of the Dominion Express company's Pacific division received a very pleasant surprise last evening in the shape of the presentation of a testimonial from the company's Kootenay division employees.

Mr. Helme has been district route agent here for the past seven years and as already announced, has been promoted to the superintendentship of the of the company's Pacific division with headquarters at Vancouver.

A deputation representing the company's employees in the Kootenay division headed by Fred H. Smith, formerly local agent, who has succeeded Mr. Helme as assistant superintendent or district agent here, waited on Mr. Helme at his residence last evening and presented him with the following address:

To Richard Helme, Esq.:

Sir,—It is with mixed feelings of pleasure and regret the we, employees of the Dominion Express company, who have been under your direction during the past seven years view your promotion to a higher position in the company's service.

It gives us pleasure to know that your faithful service has met with the approval and reward of the directors and that you have been promoted to an office of considerable responsibility and power, and we are also pleased to think that while this promotion will cause you to remove your residence from our midst, you will still remain our official head.

It causes us feelings of regret in that we lose you genial smile and cordial presence which has made the intimate relation which has existed between us during the past few years so pleasant.

We wish you prosperity and unbounded success in your new sphere, and desire you to accept the accompanying cabinet of silver as a mark of the esteem in which you are held by the employees of the Kootenay division.

The cabinet of sterling silver which accompanied the address is a very elaborate and handsome affair obtained from the local jewelry establishment of H. Ewert. The cabinet itself is of polished mahogany beautifully silk-lined, and holding some 60 pieces of sterling silver of the English rose pattern. On the lid is a plate on which is engraved "Presented to Richard Helme by the employees of the Kootenay division of the Dominion Express company, May 4, 1906."

Mr. Helme, who was taken completely by surprise, replied to the address in feeling terms expressing his regret at leaving Nelson, referring to the pleasant relations which had always existed between the employees and himself during his seven years of office here, and finally expressing his satisfaction that he was to be succeeded by so courteous and capable an official as Fred H. Smith.

Mr. Helme leaves this morning for Vancouver and his wife and family will follow in about a month.

LOCAL BOAT WANTED.

Steamer To Run Daily Between Nelson, Procter and Way Points.

The Kaslo Kootenaian says: "Now that the summer is coming on the trip between Kaslo, Lardo, Ainsworth, Pilot Bay and Nelsoin, is a tedious one and presents opportunities for good business to the owners of a small steamer plying between these two last named points could easily make two round trips daily which would be an immense boon to the residents on both sides of the outlet, and confer a great benefit to passengers on the larger steamers who have through tickets for the states and coast points. Fruits and vegetables could then be landed at Nelson or collected for transmission to outside points, and the interest of all conserved. It would certainly pay during the summer, and would perhaps, as population increases, pay at least expenses during the winter. Transportation companies might at least consider it, for be it remembered transportation facilities sometimes create a trade which would otherwise be dormant. Without the grand waterways we have, this country would have lain dormant many more years; now let us use it to its greatest capacity, then watch its financial effects."

A company was formed a year or so ago, headed by C. W. Busk to build and operate a steamer to run between Procter and Nelson. Possibly if there is an insistent demand for further and better accommodation along the arm than now exists, this company may be induced to put on a boat this summer.

CHANGE OF TIME.

New C. P. R. Schedule Comes in Force Tomorrow.

Travelers are reminded that the new C. P. R. time table goes in force tonight at midnight. The steamer for Kootenay Landing will start at 4.30 a. m. tomorrow and the Procter service will be discontinued. The Crow steamer is due to reach here at 6.10 p.m.

Going west and north, the train for the Boundary leaves at 8.10 a.m. arriving here at 10.05 p.m.

The Rossland trains leave at 8.10 a.m. and 7.15 p.m. arriving here at 10.37 a.m. and 10.05 p.m.

The train for coast—up river points—leaves at 7.15 p.m. arriving at 10.05 p.m.

The Slocan train leaves at 9.10 a.m. arriving at 4.30 p.m.

For Procter, Pilot Bay, Kaslo and way points the steamer will leave, Sundays excepted, at 8 a.m. and on Monday, Wednesday and Friday will go on to Lardo where connection is made for Trout Lake. On the trip south the steamer will reach this city on Tuesday, Thursday and Saturday at 3.15 p.m., and on the other week days at 6.25 p.m.

In the Matter of Infringements of Trade Marks in Canada.

$100.00 Reward

SO many complaints have been received from all parts of Canada from people who have been deceived in the purchase of shoes represented to be SLATER Shoes that we have decided to offer $100.00 reward to any person who will produce evidence which will result in the conviction of any dealer selling shoes and representing them to be

"Slater Shoes," "Slater Boots," "Slater Goods," "the Slater Shoe," or any other form of words calculated to deceive the public and lead them to believe that the dealer is handling Slater's Shoes.

It is our intention to actively prosecute imitators and infringers.

Such action is taken for the mutual protection of the public and of our Company. We are asking for the co-operation of the public. Our Inspector will be in this city shortly to investigate any information supplied.

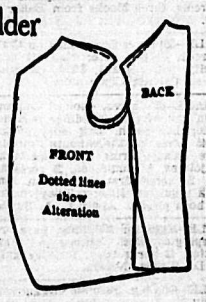
Every shoe made by the Slater Shoe Company can be known as genuine only when the name and price is stamped on the sole. This is your Seal of Certainty in collecting evidence. This stamp is further emphasized for your protection by the trademark on the lining of the shoe.

This is the Stamp on the sole—and with it you will always find the price stamped.

All communications will be treated as confidential.

(Signed) CHARLES E. SLATER,
President of the Slater Shoe Company
MONTREAL.

For the Sloping Shoulder



We do more than simply tailor to fit the sloping-shoulder type — we contrive to give the shoulders a broad, stalwart appearance.

Note the alterations in the pattern—the dotted lines show where the cloth is cut from part front and back and also where the arm hole is lowered.

By skilfully padding the shoulders, we remove the "sloping" appearance.

We can make the alterations quickly and easily because the coats are basted only—and the seams left with outlets.

THE LAUNCHING TODAY

ALL READY FOR THE CEREMONY THIS AFTERNOON.

GOOD LUCK TO KUSKONOOK'S FIRST DIP.

Everything is in readiness for the launching of the C. P. R. steamer Kuskonook at the shipyards this afternoon at 2.30.

The steamer Kaslo will obligingly be at the service of those who want to see the launching and a free trip will be made from the city wharf at 2.15 this afternooo. This kindly compliment from a rival line will be greatly appreciated and no doubt many will avail themselves of the offer.

Captain Gore said yesterday that the Moyie had been put in readiness to commence her regular trips on Sunday morning, and today the vessel will have steam up and will run a special free trip from the city wharf to the shipyards leaving at 2.15.

The street cars will take out an extra crowd and every launch and row boat available will be on hand.

Captain Gore has issued a special warning to all those who attend the ceremony in small boats to keep well away from the Kuskonook as she comes down to her native element. The steamer will slip down the ways sideways, and will probably make quite a little sea as she hits the lake, and the captain is anxious that the ceremony should not be marred by any accident.

Only a certain number of persons will be allowed on board the Kuskonook during the launching ceremony.

Permission to board the steamer can be secured from superintendent J. C. Gore, the members of his office staff or shipyard foreman J. M. Bulger.

Saturday afternoon is a half holiday with the banks and public offices and the merchants and business men generally have arranged for a close down of a couple of hours, so that everyone may go out to the launching. If the weather is fine a large crowd will undoubtedly witness the interesting event.

"Good luck to the Kuskonook."

COMPLIMENTS OF THE SEASON

(Cranbrook Herald)

The Nelson Daily News is four years old and the paper has reason to feel proud of the record made. Today it is, in the opinion of the Herald, the best daily paper published in a town the size of Nelson on the American continent, and of exceptional interest to the people, No matter where events take place, if there is anything of importance and of exceptional interest to the people, a full account will be found in the next morning's paper. So true is this, so regularly does it occur, that people have ceased to marvel at it, but take it for granted that it will be found in the News. F. J. Deane is to be congratulated on the enviable reputation that this paper enjoys, and it is a matter of regret that financially it has not been a great success. The people of Nelson should bear in mind that the best advertisement that town has is the News, and the benefits derived from that paper, direct and indirect, far supasses any other factor introduced by the board of trade, 20,000 club, or any other organization formed for the purpose of boosting the town.

Miserable Deception

PRACTICED BY

Certain Makers of Adulterated and Worthless Package Dyes

Notwithstanding the unanimous verdict of the world's most eminent color chemists, that it is impossible to color animal (wool and silk) fibres, and vegetable (cotton and linen) fibres with the same dye, we find speculators who are jealous of the world-wide success of the DIAMOND DYES, putting up, and offering for sale worthless package dyes which they represent will color any material with one dye. This cruel deception has caused serious losses to many a home in Canada.

The DIAMOND DYES, the world's great leaders, give to the ladies special dyes for wool and silk, and special dyes for cotton and linen and all mixed goods, guaranteeing perfect color results.

The ladies will insure and protect their interests if they avoid all merchants who sell the crude and worthless package dyes recently put on the market. In every case ask for the DIAMOND DYES, and see that each packet bears the words "DIAMOND PACKAGE DYES." Please send your name and address to Wells & Richardson Co., Limited, Montreal, P. Q., and you will receive free of cost New Instruction Book for Home Dyeing, Card of Dyed Samples, and story in verse entitled, "The Longjohns' Trip to the Klondike."

STOCKS ARE STEADIER

BROKERS ARE HOPEFUL THAT THE DECLINE IS ENDED.

GRAIN MARKET SHOWS SIGNS OF STRENGTH.

There was some slight improvement in the stock market yesterday, but no upward movements in sight as yet, the prices however, closing higher than the day previous or the opening quotations yesterday. C. P. R. advanced one point over the opening quotation and amalgamated, which opened at 96 closed at 102 1-8.

Corn remained almost stationary but July wheat closed strong at 79 7-8, a slight advance on the previous day's closing.

Stocks: Sugar opened 128 1-2, advanced to 131 7-8, closed 131 3-4; Amal. copper opened 96, advanced to 102 1-2, closed 102 1-8, steel, common opened 37 3-8, advanced to 39 1-4, closed 39 1-2; Pref. opened 103 1-8, advanced to 105 at close; St. Paul opened 158, advanced to 163 7-8, closed 163 3-4; Union Pacific opened 141, advanced to 144 1-2, closed 144 3-8; Mo. Pacific opened 88, advanced to 89 1-2 at close; Erie opened 39, advanced to 40 5-8 at close; Can. Pacific opened 158, advanced to 159 at close; Reading opened 114 7-8, advanced to 120 3-8 at close.

Grain: July wheat opened 78 5-8, advanced to 80 1-2, closed 79 7-8; corn opened 46 5-8, advanced to 46 7-8, closed 46 3-4.

Reported by Sharp & Irvine, Nelson, B.C.

SCIATICA CURED AFTER TWENTY YEARS OF TORTURE.

For more than twenty years M. J. B. Massey, of 3322 Clinton street, Minneapolis, Minnesota, was tortured by sciatica. The pain and suffering which he endured during this time is beyond comprehension. Nothing gave him any permanent relief until he used Chamberlain's Pain Balm. One application of that liniment delieved the pain and made sleep and rest possible, and less than one bottle has effected a permanent cure. If troubled with sciatica, or rheumatism why not try a 25 cent bottle of Pain Balm and see for yourself how quickly it relieves the pain. For sale by all druggists and dealers.

CHEATED BY COUNTERFEITS.

Asks for Protection of Public Against Dishonest Substitution.

The Slater Shoe Company claim that many forms of substitution are practised in some towns and cities by shoe dealers who cannot get the Slater Shoe agency. Outside of three of the largest cities in Canada there is only one Slater Shoe store in each city. The Slater Shoe Store is easily known by the Slater Trademark. The president of the Slater Shoe Company in this issue offers a reward for the detection of any dealer who knowingly or unknowingly infringes their trademark. The law on this point is very explicit. The warning issued by the Slater Shoe Company will be followed by a vigorous prosecution in some of the cities. We cannot afford to have our patrons cheated by clumsy counterfeits, said Mr. Slater.

Lot No. 10, block No. 11, in the Subdivision of Lot No. 96, Group 1, Kootenay District, together with the buildings thereon, having a frontage of 60 feet on the north side of Baker street in the City of Nelson, between Stanley and Kootenay streets, and formerly known as the Mansfield property.

Upset price, $2900.00

For terms and conditions of sale apply to

ROBERT WETMORE HANNINGTON,
Plaintiff's Solicitor.

Approved: T. M. Bowman, District Registrar.

Synopsis of Regulations Governing the Disposal of Dominion Lands Within the Railway Belt in the Province of British Columbia.

A license to cut timber can be acquired only at public competition. A rental of $5 per square mile is charged for all timber berths, excepting those situated west of Yale, for which the rental is at the rate of 5 cents per acre per annum.

In addition to the rental, dues at the following rates are charged:

Sawn lumber, 50 cents per thousand feet B. M.

Railway ties, 8 and 9 feet long, 1 1-2 and 1 3-4 cents each.

Shingle bolts, 25 cents a cord.

All other products, 5 per cent. on the sales.

A license is issued so soon as a berth is granted, but in unsurveyed territory no timber can be cut on a berth until the licensee has made a survey thereof.

Permits to cut timber are also granted at public competition, except in the case of actual settlers, who require the timber for their own use.

Settlers and others may also obtain permits to cut up 100 cords of wood for sale without competition.

The dues payable under a permit are $1.50 per thousand feet B.M., for square timber and sawlogs of any wood except oak; from 1-2 to 1 1-2 cents per lineal foot for building logs; from 12 1-2 to 25 cents per cord for wood; 1 cent for fence posts; 3 cents for railway ties, and 50 cents per cord on shingle bolts.

Leases for grazing purposes are issued for a term of 21 years at a rental of 2 cents per acre per annum.

Coal lands may be purchased at $10 per acre for soft coal and $20 for anthracite. Not more than 320 acres may be acquired by one individual or company

Royalty at the rate of 10 cents per ton of 2,000 pounds is collected on the gross output.

Entries for land for homestead purposes may be made personally at the local land office for the district in which the land to be taken is situated, or if the homesteader desires, he may, on application to the minister of the interior at Ottawa, the commissioner of immigration at Winnipeg, or the local agent for the district within which the land is situated, receive authority for some one to make entry for him.

A fee of $10 is charged for a homestead entry.

A settler who has received an entry for a homestead is required to perform the conditions connected therewith under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year during the term of three years.

It is the practice of the department to require a settler to bring 15 acres under cultivation, but if he prefers he may substitute stock; and 20 head of cattle, to be actually his own property, with buildings for their accommodation, will be accepted instead of the cultivation.

(2) If the father (or mother, if the father is deceased) of any person who is eligible to make a homestead entry under the provisions of th Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of the Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of the Act as to residence may be satisfied by residence upon the said land.

Application for a patent should be made at the end of three years before the local agent, sub-agent or a homestead inspector.

Before making an application for a patent, the settler must give six months' notice in writing to the Commissioner of Dominion Lands at Ottawa, of his intention to do so.

W. W. CORY,
Deputy of the Minister of the Interior.
Ottawa, February 14th, 1905

REPLY TO W. J. BRYAN

FERNIE MAN TAKES UP CUDGELS FOR SOCIALISM.

ECONOMIC REVOLUTION THE ONLY MEANS OF REDRESS.

Editor, The Daily News: I have been very much interested in reading W. J. Bryan's article reproduced by you, also your editorial on the same, and should like a little of your valuable space for comment. It appears to me that Mr. Bryan has been very unfortunate in his choice of a name for himself and the views he holds. It would be interesting to know how an individualist would run the immense industries, the ponderous and complicated machinery of wealth production, without the cooperation of his fellows, either as partners or wage-earners. Or possibly the writer of that article does not approve of modern, improved methods of wealth production in which case would he have us go back to the time when the workers owned their then simple tools of production? He says that the individualist believes competition to be not only a helpful but a necessary force in society. How far should such competition be allowed? Competition, I take it, means "the survival of the fittest" and its necessary corollary "the death of those not fit." What is here meant by "fitness?" Does it not mean that a man to attain this fitness must of necessity trample over the feelings, the rights of his fellows, it may be by physical strength, it may be by guile, it may be by his superior economic position, or it may be by working upon the hopes, fears, passions or ignorance of the workers. In any case, is it honest? We see this going on in the world of nature, trees crowding one another to death, the strong crushing the weak. Does Bryan consider it right to do this with men under this competitive system? Yet it is being done. We who work with our hands for our living know full well what the competitive system means to us; some of us also know what it means to our masters. If there is a scarcity of laborers we can demand and get better wages and may be better conditions, but if a lot of men are competing for jobs (as is more often that not the case) we have to put up with conditions that we hate. An earnest, thinking man or woman does not need to be a socialist to see the evils of the present competitive system; it forces itself upon us whether we look for it or not. When we see and know the horrible misery and degradation that seems to be a necessary corollary of this competitive system it is no wonder we are severe in our condemnation of a system that breeds such results. We are not reformers, we are revolutionists. How much better off will the wage-earners of Chicago be when they get municipal ownership? In what way will it affect the man without a job at all? How much better off are I. C. R employees than the C. P. R. employees Does a municipality or a government of necessity pay any better wages or give better conditions of labor than a private company? Until ge get national and international control of all the means of production and distribution, these so called reforms will be only a drop in a bucket. With regard to usury, if 50 per cent interest is wrong is not 5 per cent wrong? and if not, why not? The Bible condemns it (also private property in land) as also did the Roman republic, Aristotle, Cicero, Seneca, the early church and the Catholic church at one time refused the sacrament and Christian burial to the usurer. We condemn usury, not because it is condemned in the Bible but because it is wrong and opposed to the best and material interests of the worker. That we can, as a race, obtain our highest development under this competitive system, either morally, physically, or intellectually, I deny. How can a man's morals advance under a system that robs him of the greater part of what he produces. Is it possible to feel love and respect for those who rob us; or those we rob even? Even though it be with their consent we know it is immoral. It is not necessary that a man should be a good man morally, physically, or intellectually to get on in this life. In fact the more unscrupulous a man is the better he gets on, generally speaking; so long as he manages to keep just within the law. With regard to the assertion that socialism is founded on Christ's teachings or on the Bible I have yet to learn that I have read a few of the works of that great apostle of socialism Karl Marx and his coworker Engels and I fail to find where they ever attempted to appropriate Christ's teachings as a foundation for socialism. As a matter of fact, Marx was a Jew, and as such, would have, if anything at all, an antipathy to anything Christian. So far as I have read, Marx does not bother himself with the ethical part of the philosophy but mainly shows where it will affect the economic and material interests of the workers. His great work "Capital" is a masterly analysis of the methods of wealth production, its evils and abuse and also the way out of this competition system that our friend Bryan thinks so much of. If all that was necessary for the triumph of socialism was to prove its ethical superiority, it would have been established before this. That is the great trouble; most people think socialism is all right, but it is too ideal, then others think the time in not ripe for the change, and they are right to a certain extent. Until the people understand to a certain extent the principles of the socialist philosophy a cooperative commonwealth is impossible. Bryan says again "justice requires that each individual shall receive from society a reward proportionate to his contribution to society." What proportion pray? And what proportion will the man get who can't get work? I think I have heard of an unemployed problem. How does our friend propose to deal with it because it is here and has to be recognized? What are the immediate steps to be taken to make this competitive system "as good as human wisdom can make it?" And how long will it take? And what political party stands for such reform? Touch any of the special privileges of the capitalist and both liberal and conservative, democrat and republican, will raise a howl and to some purpose. And what is being done, while these reforms are being advocated (though our friend fails to point out what is necessary even) with the tens of thousands who die for want of the necessities of life. I should like to know how any law can bring the "competing parties upon a substantially equal footing." How can it make a man who has only his labor power to sell upon the same footing as a man who has a million dollars. The former has to work to live. The latter does not have to. Will he confiscate the latter's wealth to feed the former? Not much! Millions of human beings are working at the starvation point. How will he change those conditions? Force employers to give more wages shorter hours, etc.; force merchants to sell at a little above cost; force landlords to lower rent, etc., etc.? Instead of being selfish as Bryan alleges we think the worker is not selfish enough or he would demand all that he produces instead of a small fraction as at present. It will be left to the majority of workers to say what shall be done with what they produce and in what way compensation shall be made for work performed and not as at present, leave it to the men who produce nothing (but trouble). If a man "sold his services for what they were worth" (this is what he produced) what profit would that make for the man that buys his services? And if no profit is going to be made out of it the individualist wont employ him; they are not in business from philanthropic motives but economic. To go back a little, many of us have had to be in the mines or factories when we ought to have been in school(and that through no fault of either our own or our parents) and have had to work so hard that the body was exhausted to such a point that study was out of the question. Even here in this land of the free (?) many of us have to work so hard that all we desire after our day's toil is over is rest and sleep. Is this conducive to our physical and intellectual development. If not, how does he propose to remedy it? If we don't do it there are many others that will and take our places. What opportunity has the wage-earner to attain high intellectual development? I find it impossible to get as many books as I would like owing to economic conditions. I and many other wage-earners can appreciate good classical music both vocal and instrumental but that is a luxury that we can rarely avail ourselves of. We can appreciate works of art and paintings as well as the capitalist, but what footing would a wage-earner have to be on to acquire a Raphael or a Rembrandt? Some of us hunger and thirst to hear occasionally the world's best singers and players. But I must close with the earnest hope that both yourself, Mr. Editor, and every thinking man and woman will get in a do some serious thinking and reading on this problem. If I have made grammatical or other mistakes put it down to the competitive system which took me from school at 10 years of age. Would that I had the pen of Bryan to illustrate my thoughts. Thanking you in anticipation I remain, yours for the revolution,

W. H. MOORE.

IT IS DANGEROUS TO NEGLECT A COLD.

How often do you hear it remarked: "It's only a cold," and a few days later learn that the man is on his back with pneumonia. This is of such common occurence that a cold, however slight, should not be disregarded . Chamberlain's Cough Remedy counteracts any tendency of a cold to result in pneumonia, and has gained its great popularity and extensive sale by its prompt cures of this most common ailment. It always cures and is pleasant to take. For sale by all druggists and dealers.

NELSON'S NEWS OF THE DAY

Stop wishing it could be done—try a want ad.

The resident engineer of the C. P. R. at Cranbrook is advertising in this issue for tenders for enlarging the Moyie tunnel.

London lead advanced yesterday from £16, 1s., 3d., to £16 5s. Bar silver in New York retained its excellent standing or over 66.

"Self-help" will come to mean more to you than a pair of words yoked together, if you get into the habit of reading the want ads.

On Monday photographer Lane will start out in a launch from Procter and will take pictures of all the ranches between the outlet and the city. Look out for the launch with the red and black flag.

The police have already commenced their crusade against people who allow horses, *cows and poultry to stray on the streets.* A sale will be held at the city pound on Wednesday morning next of animals so far impounded.

There will be a judicial sale of some importance at the court house this morning at 11 o'clock when 50 feet on the north side of Baker street west, known as the *Mansfield property* will be offered for sale by public auction. The upset price is placed at $2,900.

One of the signs of the local prosperity of the present time was the arrival yesterday at Ewert's jewelry store of a polished oak cabinet of sterling silver, each piece of which had been specially selected for a local resident. The outfit which is an exceptionally fine one cost about $1,000.

Some times a merchant must "stretch his credit to the utmost limit," to secure enough advertising to reinstate in public interest, a store that has been losing ground. "There happen sometimes incidents in life from which it requires a degree of madness to extricate ourselves well."

The steamer Revelstoke will make her first trip this season up the Columbia river this evening. The officers in charge of the Revelstoke are the same as last year, namely, captain Forslund, purser Swanson, and chief engineer Colbeck. Tomorrow night the regular river trips will commence for the season from West Robson.

The steamers Kaslo and Moyie will leave the city wharf this afternoon at 2:15 for the convenience of all those who want to witness the launching of the Kuskonook at the shipyards. All passengers will be carried free on this occasion and an excellent opportunity will be offered of seeing the ceremony to advantage. People in launches and small boats are particularly requested to give the launching ways at the shipyards a wide berth this afternoon when the Kuskonook launching takes place.

Attention is directed to the generous way local merchants have used up their advertising space in The Daily News to boom the 20,000 club concert on Monday night in the opera house.

His worship mayor Gillett has proclaimed a civic half holiday this afternoon between the hours of one and four o'clock *in order that everyone may* take in the launching of the Kuskonook at 2:30.

The sale of seats at popular prices for the great concert to be given at the opera house on Monday night by the 20,000 club on behalf of the San Francisco sufferers, opens at 10 o'clock this morning at Rutherford's. Go early and avoid the rush.

A special C. P. R. train will leave the union station at 2:30 sharp this afternoon for the shipyards stopping at Hall street and city wharf returning at 4:25. No charge will be made for carrying passengers to and from the launching ceremony.
