PREPARING FOR DUMA

Republican Leaders Will Refrain From Hostile Demonstrations

Elaborate Precautions Taken to Protect Czar From His People--Open Slight to Late Premier Witte.

St. Petersburg, May 9.—The dread that some unforunate event might occur to mar the solemnity of the great day of Russia's new birth was dissipated today when the members of the radical revolutionary parties of St. Petersburg issued an announcement declaring their intention of refraining from attempting demonstrations tomorrow and calling upon their fellows not to display red flags or sing the Marseillaise and avoid all conduct that would tend to bring about a conflict with the police.

The participants and assessories to the historic ceremony of the opening of the first Russian representative assembly of Russians have all gathered in St. Petersburg and only the czar and the imperial family are awaited. They are expected in the morning from Peterhof to which place they were removed from Tsarskoe-Selo. The czar's personal escort of picked Cossacks arrived by a special train today. Other trains brought a mixed battalion, composed of detachments from all the guard regiments who are to keep watch over the czar and those of the ladies and gentlemen of the court who are to take part in the reception tomorrow.

The name of count Witte is absent from the list of appointive members of the council of the empire and this would seem to indicate an open slight on the part of the czar. It is understood count Witte will leave immediately for a foreign country. It is not known whether he will participate in tomorrow's ceremony.

According to the plans of the democratic leaders the first session will accomplish nothing beyond the election of officers which, under Russian procedure, will be a long drawn out affair. M. Muromstseff is the unanimous choice of the party for president.

Although the problem of the oath to be administered has been disposed of, a small body of recalcitrants, mostly of revolutionary peasants, elected from the interior provinces, have decided, as a mark of disrespect to the czar, not to attend the reception at the winter palace. Other members of the assembly declare they will not wear evening dress, which is the correct apparel for the ceremony but will appear in the high boots and colored smocks of the peasant costume.

SIR THOMAS INTERVIEWED.

Glowing Prospects of Western Canada—Financial Policy.

London, May 9.—Just before sailing for Canada on one of the new Empress steamers, the Empress of Britain, sir Thomas Shaughnessy was interviewed by one of the financial dailies touching the outlook in the dominion at the present time.

Asked as to whether there is not some risk of the Canadian British being swamped by the influx of Americans, sir Thomas' answer was interesting.

"I have not the slightest fear of the Canadians being swamped. I happen to have been born in the United States myself, although I went to Canada early in life. As I decided to settle down there I became a British subject. That is quite in accordance with American ideas and American practice. If a man goes to the states and makes his home there, gets his living there, and becomes one of the permanent community, without becoming an American citizen, he is apt to be looked upon with a certain suspicion. Americans have a great idea that a man should accept the duties of citizenship in the country where he gets his bread and butter. That is almost a dogma with the citizens of the republic. Consequently, when American farmers come across the boundary and settle in Canada there is no doubt they will become nationalized, and, I should say, prove good and loyal subjects. Besides which, it must not be forgotten that a considerable number of those coming from the states are Canadians by birth who have come back again."

"It has been suggested in some quarters that the completion of the Grand Trunk Pacific railway will be the signal for a rate war as between that company and the Canadian Pacific. Is there any prospect of that?"

"I don't think so for a moment. There is very rarely any sort of friction between the two managements, and I fail to see why there should be in this case. The relations between us are quite friendly, and there is plenty of room for us both. We are constructing new lines pretty rapidly, and I think about 850 miles of permanent way will be added to our system this year."

Touching upon the fiscal policy of Canada, sir Thomas declared his belief in the necessity for and advantages of a protective tariff.

"If Canada had adopted a policy of free imports, her population would have remained a purely agricultural community. This is clearly shown by the whole economic history of the United States and of Canada. It was imperative that our industries should be protected from the competition of the United States. But I am strongly in favor of British imperial unity, and there is every reason for adopting preferential principles. I admit that the Canadian manufacturers will not allow preference to be carried so far as to prevent the expansion of Canadian industries, but at the same time I think it quite feasible to so frame a tariff that important preference should be given to British gods. We import annually about 40 millions sterling worth of good from the states. A great deal of this trade, perhaps the bulk of it, might be done with the United Kingdom. It is in that direction that there is scope for much closer trade relations between Canada and the old country."

METROPOLITAN RACE

Roseben is Picked Out as a Likely Winner.

New York, May 9.—Nineteen horses are carded tonight to start in the Metropolitan handicap, the first of the classic spring races of the eastern turf at the Belmont Park track tomorrow. The historic race at one mile will be run over a heavy track, a steady rain today having made fast going practically an impossibility, despite a prediction of fair weather for tomorrow. This will be the second time the Metropolitan has been run over the magnificent course at Belmont Park, the race prior to 1905 being the feature of the year at the Morris Park track, in the Westchester Mills.

The horses entered for the Metropolitan are somewhat disappointing as far as class is concerned, many of the more famous racers including Hermis, Delhi and Sysonby, having been declared out on various accounts. The Metropolitan this year will be worth nearly $14,000 and it looks tonight as though the first big purse of the season will go to the owner of Roseben, David C. Johnston.

PEREMPTORY MINISTER

GERMANS DEAL HIGH-HANDEDLY WITH SUBLIME PORTE.

BUT ARE MET BY APOLOGIES AND EXPLANATIONS.

Constantinople, May 9. — The arbitrary detention of a German sailing ship the Odysseus, by the Turkish authorities, recently threatened friction between Turkey and yet another European power but the energetic action of the German ambassador quickly solved the difficulty. The Odysseus was discharging her cargo at Chibuklu when she was boarded by the authorities and removed to Kavak where she was anchored beneath the batteries, the Turks falsely claiming the vessel had explosives on board. The ambassador protested urgently but unavailingly, whereupon he took a few sailors from the German guardship here, the Lorelei, boarded the Odysseus, hoisted the diplomatic flag and tok the ship from under the guns of Kavak to her dock at Chibuklu, where a guard was kept over her, while she completed the discharge of her cargo. On returning to the embassy, the ambassador found a state councillor awaiting him with apologies and explanations.

The records available do not refer to a German sailing vessel named Odysseus but there is a German steamer of that name and she was in the Mediterranean recently.

BRITISH ULTIMATUM.

Turkey Will Probably Yield at Last Moment.

Constantinople, May 9.—Frequent conferences have been held during the last few days between the members of the cabinet in connection with the Anglo-Turkish dispute. An official of the foreign office today had a long interview with sir Nicolas O'Connor, the British ambassador, but up to the present there are no indications to show what course the Porte will decide to pursue. The general opinion here is that the Turkish troops will exacuate Tabah before the British ultimatum expires.

REBATE PROSECUTION.

New York Railway Officials Plead Not Guilty.

New York, May 9.—Nathan Guilford and F. L. Pomeroy, respectively vice-president and general traffic manager of the New York Central and Hudson river Railroad company, today pleaded not guilty to the indictments handed down by the April grand jury under the Elkin's law govening rebating. They were admitted to bail in $10,000 each, which they furnished. The pleadings were held before judge Thomas in the criminal branch of the United States circuit cort. Pleas of not guilty were also made by counsel representing the New York Central and Hudson River railroad and the American Sugar Refining Co.

STEAMSHIP ARRIVALS YESTERDAY

New York—Potsdam, Bologne; Kaiser Wilhelm der Grosse, Southampton.
Boston—Canada, Liverpool.
London — Anglian, Boston; Menominee, Philadelphia.
Liverpool—Bostonian, Boston.
Moville—Pretorian, Halifax.
Havre—La Provence, New York.

FATAL RAILWAY WRECK

San Jose, May 9—A serious wreck occurred at Edfale, near here today when the Southern Pacific overland limited west bound, running 50 miles an hour, was ditched. A tramp was killed and 30 or 40 passengers, mostly Chinese, were more or less seriously injured. The accident was due to a truck jumping the track. The engine, tender, baggage and mail cars were piled in a heap.

HOLD-UP ON THE C. P. R.

Transcontinental Express is Stopped by Three Masked Men

Registered Letter Bags Rifled but Large Sum in Bank Notes Overlooked--Reward of $11,500 is Offered

(Special to The Daily News)

Kamloops, May 9.—A daring hold-up of the west bound C. P. R. passenger train occurred at 11.30 last night some 16 miles east of Kamloops, and four miles west of Ducks' station.

All the robbers got was some registered mail which they carried off with them.

A combined reward of $11,500 is offered for the apprehension of the two men who held the train up.

At the time the hold-up was carried out the passenger train in charge of conductor Elliott and with J. Callan, engineer, and A. Ratcliffe, fireman, all of Revelstoke, was running along at about 15 miles an hour.

Suddenly two masked men climbed over the tender and entering the engine cab together told the engineer, "We're here to hold up this train." Callan took the matter as a joke and made an off-hand reply, but after the train had run nearly a mile the robbers tapped the engineer and fireman on the shoulder, saying: "Here is where we stop."

On looking around the trainmen found themselves covered by revolvers in the hands of the masked robbers, and realizing that the robbers meant business, the engineer slowed down the train. When a stop was finally made, a third man, also masked, climbed up into the engine bringing with him a sack containing dynamite.

At the muzzle of a revolver the fireman was forced to uncouple the mail car from the rest of the train, and all getting on board, the engineer was directed to pull the car some distance up the track. Then the three robbers made the engineer and fireman go back with them to the car. The clerk in charge was commanded to open the car door, and this being done one of the robbers proceeded to go through the mail, while the other two stood guard outside and held up the engine crew and the postal clerk.

The robbers were evidently keenly disappointed in not finding some express matter which they evidently were on the lookout for. The old style of car combining both mail and express was no doubt what the robbers expected, but as only the first car was cut off all they could get was mail matter. They went through this and sorted out all the registered mail.

By this time a number of passengers had become aroused and were looking out of the car windows. They promptly withdrew, however, on being warned by the robbers that it was not healthy for them to watch what was going on.

After getting the registered mail the robbers coolly bade the engineer and fireman good night, told them to take good care of themselves and departed. While on the mail car the robbers who were a well dressed trio, talked freely all the time.

The place where the hold-up took place is open country and the bright moonlight made the night almost as light as noontide. That the robbers had carefully planned their work is evidenced by the fact of having a confederate stationed at the place selected in advance of the task. In all probability the three men had horses at hand and must be thoroughly acquainted with the surrounding country to hope to get away.

The alarm was given as soon as the train arrived at Kamloops. At 2 o'clock this morning a special engine and caboose were rushed up the line with engineer Callan and provincial constable Pearse to the scene of the robbery. At the same time provincial constable Fernie went up the north side of the river on horseback.

A full description of the three men has been sent all through Nicola and Okanagan and along the main line and a determined pursuit is being made. It is expected that Indians will be put to work at once and it will be a strange matter if the robbers manage to escape.

Later—Pearse and Callan have returned but found no trace of the robbers.

Elliott says that when the train stopped he went forward to learn the cause and was told by one of the masked men to go back and get inside or he would have a bullet through his head.

Kilpatrick and Elson were at the scene of the robbery this morning and Indians and others have been sent out on a hunt in all directions.

The dominion government offers a reward of $5000 for the apprehension of the robbers and the C. P. R. company has offered an equal sum. The provincial government have added an additional $1500, making the total reward offered for the apprehension of the robbers, $11,500.

It is alleged that the tracks of the three men were discovered today leading to the river, but Callan says this story cannot be true as the ground is too hard to show and traces.

Ratcliffe says that while he was uncoupling the mail car the mask slipped off the face of one of the robbers and he is confident that he can easily recognize this man if he is captured.

(By Associated Press)

Vancouver, May 9.—The C. P. R. fast transcontinental express, No. 97, was held up by three masked men, at 11 o'clock last night. The robbery was an utter failure for only seven registered letters, all for Victoria, were stolen.

The train had left Ducks, a small station 20 miles east of Kamloops, and and was running west when the engineer happened to look around and found that he was staring down the barrel of a big revolver. In obedience to the order of one man, who was backed by two others, he brought the train to a standstill. The robbers then compelled the fireman to go back and uncouple the combination mail and express car, and with this, the engine ran down the track for a mile, leaving the passengers in their berths undisturbed. On robber carried a big package of dynamite which was undoubtedly for the purpose of blowing open the safe. The oldest man was evidently in command of the robbers and when the engine and car had come to a standstill he started through the mail car. He asked especially for registered mail for San Francisco and was evidently much disappointed when what he called striped sacks were not in sight.

Just as he was going through the mail section of the car one of the other robbers informed him that this was not the express car at all, and that the safes had been left in the other part of the train. The chief robber received this information with an oath.

The dynamite was left unused beside the track. After thoroughly searching the car, the robbers ordered the engineer to run another mile down the track. This was done and the robbers came to a place where they had evidently left their horses and they went off with a parting injunction to the train crew to hurry back to the other cars. This was done and the train only delayed half an hour.

The most amazing feature of the affair is that the robbers overlooked $40,000 in small bank notes and gold, contained in several packages and plied on the shelf in the car. The chief robber looked at these packages but they were so carelessly plied that he did not even inquire about them.

The robbers are undobtedly the men who robbed the C. P. R. train between Mission Junction and Vancouver on September 2, 1904. The mask fell off the oldest man's face, and showed him to be about 50 years of age, and mail clerk Thorburn, who was in the former holdup recognized him as the same man. Thorburn has been shown pictures of Bill Miner, the desperado who was blamed for the first job, and declares that this man is certainly Miner.

The C. P. R. authorities believe that all three men have been working on the construction of the Nicola line and have worked north from there.

The C. P. R. company have offered a reward of $1000 for each of the robbers or $5000 for all three. The notice issued reads that the reward will be paid for the men "dead or alive."

The dominion government offers $5000 and the provincial government $500 for each of the men.

The robbers fled towards the south but could hardly reach the United States boundary before tomorrow night. If this is Bill Miner, he probably has a cabin somewhere in the mountain fastenesses and likely has it well provisioned. Posses, aggregating 100 men, made up of cowboys and Indians left Kamloops this morning in pursuit. There will be a battle if the desperadoes are caught up with before night.

FOREST FIRE NEAR YMIR

FIERCE CONFLAGRATION STARTS AT PORTO RICO LOGGING CAMP

FEARS THAT S. F. & N. TRACK MAY BE DAMAGED

A forest fire of very serious proportions is raging two miles this side of Ymir, in the vicinity of the Porto Rico logging camp. The fire broke out yesterday morning shortly after the south bound train passed and it is supposed that sparks from the engine started the blaze. However it started, it very quickly spread and when the train from Spokane passed last evening the flames had spread for fully half a mile on either side of the track. It was feared at first that the train would be unable to get through so great was the heat and so dense the smoke. The train got through all right, but passengers who were standing on the rear platform had to get inside the car, the heat being more than they could stand. The men employed at the Porto Rico camp were out fighting the fire and they were joined later by volunteers from Ymir and by the men employed at the sawmill.

It was feared last night that the track would be injured and at a late hour it was considered doubtful if this morning's southbound train would be able to get through.

REPATRIATION OF CHINESE

Johannesburg, May 9.—A local statement that the imperial government has peremptorily ordered the issue of proclamations regarding the state aided repatriation of Chinese coolies is causing some uneasiness. The statement is premature neither the imperial government nor the local authorities having definitely decided upon the terms on which applicants may secure their return to China. The chamber of mines will discuss the matter with the lieutenant-governor.

STORM ON GREAT LAKES

Cleveland, May 9—The schooner Algeria sank about two miles off the harbor of Cleveland this morning. It is thought that three men were lost. The schooner Iron Queen is in a sinking condition, outside the breakwater and the crew of eight were taken off by the members of the life saving crew. The storm last night and early today with the heavy sea it has kicked up, was a menace to shipping outside the harbor.

STRIKE IS ALL OVER

Longshoremen Go Back to Work Upon the Old Understanding

Further Conference Will Decide as to the Future Relations Between Men and Employers Upon the Great Lakes

Cleveland, May 9.—Following conferences between president Keefe of the Longshoremen union and allied labor interests, and representatives of the dock managers, it was announced tonight that the strike of the longshoremen on the lakes has been settled, The men will go back to work on the basis of last season's wages, pending another conference.

The strike was inaugurated at midnight May 1, by the longshoremen for recognition of the mates' union. Tug firemen, oilers and water tenders also quit work with the longshoremen and as a result the lake carrying traffic has been interrupted ever since, with the exception of a few boats which have cleared from here and other lake ports with non-union men. Dozens of ships have been tied up here, at Buffalo and other ports, and no effort made to discharge the cargoes; in consequence, it is generally conceded, that an increased charge for freight transportation will follow, temporarily at least.

During the progress of the strike the best of feeling has prevailed between the conflicting elements and no sort of disorder has occurred. President Keefe of the longshoremen arrived yesterday from Detroit. At that time it was said the longshoremen were dissastisfied by the showing made by the mates. Today all of the negotiations looking to the peace which has been patched up were conducted with great secrecy. The strike involved fully 20,000 men. The passenger lines were not affected by the strike, and this class of boats have made regular trips on schedule time.

CORONER UNDECIDED.

Death of Charles L. Spier Still Under Investigation.

New York, May 9.—Following the funeral today of Charles L. Spier, the traction manager, who was found dead at his home on Staten Island Monday morning, following an alarm for burglars, a second autopsy was held and one bullet extracted. The bullet was located in the back, under the left shoulder, but in its course through the body it had penetrated the heart. The physicians and officials at the autopsy declared themselves puzzled as to how Spier could have staggered or walked the distance he did after the bullet had pierced his heart. His body was found fully 18 feet from where the first blood spots in the hall way of his home were noticed.

Having been shot with his own revolver, it is the theory of the family that Spier grappled with the burglar and the man turned the gun against the owner. Strong objections were made by Mrs. Spier today to a second autopsy, which she declared would prove nothing, but coroner Cahill would not give a burial permit until the bullet had been extracted. Consequently the funeral went forward and the body was placed in a vault. After a short wait it was removed and the autopsy begun in the presence of county officers and representatives of the Spier family. No final report has yet been agreed upon by the authorities who appear at odds as to whether the case is one of suicide, a murder, or an accident.

HOW SHERRING LOOKED

Could Have Run the Great Race a Second Time at the Finish

Montreal, May 9—The correspondent of the Star at Athens says:

Immediately after the victory I saw Sherring, who was astonishingly fresh and in excellent humor. He said he had just received from one of the spectators a diminutive white kid, which symbolic gift much delighted him.

I said: "You seem extremely well, Sherring?"

"Are you a doctor?" he asked.

When I replied "a journalist," he willingly accorded an interview.

He said: "I am exceedingly pleased with the success, but I should be better pleased to have had a better record which would have been the case if it were not for the burning heat and dust of which my mouth is full. I feel so fit, that I am ready, if necessary, to repeat my run. Seing my rivals lagging I did not hurry over the last stages, and was able to joke with my trainer. I arrived at the stadium calm and smiling and my first thought was to bow before the king. My next thoughts were with my compatriots to whom I waved a Canadian flag, which I held in my hands. Naturally I am very gratified; and I am especially delighted with the statuette of Minerva, my prize. The reception accorded to my victory was very flattering."

Sherring, when he returns to Canada will be accompanied by his goatlet, whereof he has made a great pet.

HEINZE IN THE NORTH

Two of His Representatives off for the Bulkley Valley District

Vancouver, May 9—Is F. Aug. Heinze, the Butte copper magnate and millionaire, preparing to invest extensively in Bulkley valley coal and mineral properties?

Such would seem to be the case in view of the fact that the Butte magnate is sending two expert mining engineers north to examine and report on a number of extensive properties on which Mr. Heinze is said to have secured an option recently.

Registered at the Commercial are Patrick Carmody of Butte and Thomas Newson of Seattle. They are bound for the north on the steamer Camosun. While they will not generally admit the fact, it is understood from personal friends of the two mining experts that they have been and are still in the employ of F. Aug Heinze, and are going north at present on a mission for him. They will go to Hazelton and then strike inland to Bulkley valley, where they will spend some time making a thorough survey of a number of very promising coal and copper-gold properties.

HOPPE DEFEATS SUTTON

Chicago, May 9—In tonight's billiard game Hoppe defeated Sutton, 500 to 226.

VISIT OF YMIR MASONS

An emergency meeting of Nelson lodge No. 23 A. F. & A. M. last evening was of unusual interest. In the first place Ymir lodge, No. 31, was represented by all its officers and several members, a delegation of 15 in all. Then again the district deputy grand master, R.W. Bro Geigerich, was present, paying an official visit. Other notable visitors were R.W. Bro. Grimmett of Sandon and W. Bro Goodenough of Kaslo.

The officers of Ymir lodge present were: W.M., Wm. Clark; S.W., P. J. Gleazer; J.W., D. Grobe; S.D., N. Oates; J.D., E. Vandebogart; treasurer, J. Fraser; secretary, U. S. T. Ross; stewards, James Stewart and Alex. Odle, and M. of C., A. B. Sloan.

At the conclusion of the work in lodge a most enjoyable banquet was served, followed by speech making, which lasted until the early hours of this morning.

HOUSE IS PROROGUED

Alberta Legislature Adjourns After an Unusually Busy Session

Edmonton, May 9—The legislature was formally prorogued this afternoon. The order paper was cleared last night after a very busy sitting. The pile of bills presented to the lieutenant governor for assent this afternoon was about as formidable an array of legislation as has ever been passed by a provincial legislature in a single session, and when it is considered that order papers were absolutely cleared and that every bill that was tested one way or another, notwithstanding that almost all private bills were practically remade in committee, it is evident that the members of the legislature have been doing something to earn their indemnity. Altogether 77 bills passed exclusive of supply.

NEWS OF THE DOMINION

YESTERDAY'S HAPPENINGS ALL OVER CANADA.

RECENT OCCURRENCES OF VERY GENERAL INTEREST.

Montreal, May 9—In spite of inclement weather his royal highness prince Arthur of Connaught observed the program which had been mapped out for him. The last day of his visit was grey, cold and wet, but in spite of the weather he failed in none of his appointments, and, moreover, he observed that quality punctuality, which, according to the illustrious Bourbon monarch, is the politeness of royalty. In the morning, under the guidance of sir Montague Allan, colonel Hanbury Williams, and his equerry, captain Wyndham, he paid visits to various places of interest, and in the afternoon, after lunch at the Hunt club, the horse show claimed him. In the evening, after a farewell dinner tendered by sir Montague Allan, before embarking he again visited the horse show. Tomorrow at daybreak he sails.

Fire this morning did damage to the extent of $40,000 to the dry goods store of Ether and company on St. Catherines and Iberville streets. Gilbert Gibeau, an employee, was badly burned.

Toronto, May 9—Tired of Canada two hundred English emigrants left Toronto this afternoon for Montreal, intending to take steamer back to the old country. These were mostly young men with a few women. Conditions here did not suit them they said.

Shareholders of the National Agency company had had power to vote at annual meetings or to give proxies, but they were now so bound up, that every right had been taken away from them. This fact came out in this morning's session of the insurance commission, together with details of the methods by which the shareholders of the National Agency company, which controlled the Union Life Insurance company, were jockeyed out of a right to a voice in the affairs of that company.

Kingston, May 9—Charles Bran, alias Chartrand, who escaped from the penitentiary insane asylum yesterday is still undiscovered. He cut two bars of his cell, also two bars in the the window of his ward, three stories above the ground level. A steel saw was used. In the cell was found a dummy made of flower pots and other articles. The make up was sufficient to deceive the officials. The warden says the guard at 5 o'clock spoke to Chartrand or rather to the form representing him in the cell, which looked quite natural.

Dunchurch, Ont., May 9—Joseph Caron, his brother Angelo and two Italians were instantly killed on Monday on the James Bay railway construction here. The bodies were terribly mangled. A shot in two boxes of dynamite had missed fire previously and the victims were working over them and accidentally discharged them. Had the accident occurred 30 minutes earlier 15 men would have probably shared the same fate.

Peterboro, May 9—The Canadian General Electric company want a fixed assessment from the city. They promise to erect additional buildings at a cost of $300,000 or $400,000 which will practically double the number of men at present employed, who now number about 1000.

CALGARY CATTLE SALE

Many Transactions and Excellent Prices Realized—Best on Record

Calgary, May 9—The sale held in connection with the annual exhibition of the Alberta cattle breeders' association was concluded this afternoon. Never before in the history of the cattle industry in Alberta was there a better class of animals shown and never before were better prices realized for pure bred bulls. Ninety-four Short Horn bulls were sold at an average price of $94; 36 Herefords averaged $130 each; 8 Aberdeen Angus averaged $138 each. Only two Galloways were put up for sale and they brought $85 each. The grand average for the total number of bulls sold amounts to $108. A vast majority of the animals put up for sale were yearlings and two year olds.

No stallions were put up for sale by auction, but there has been a brisk demand for Clydes, Shires, Percherons and Hackneys by private sale. Good animals in each class realized good prices and many sales were made during the past three days. The heavy classes are in best demand. Expert horsemen have declared Coddington Magnifico, an Alberta bred Hackney, to be one of the best in his class in Canada.

MINING FATALITY

Manager of American Boy Meets Sudden Death in Mine

Thomas McGuigan, One of Few Pioneers Remaining in the Slocan, Killed by Fall of Hanging Wall

(Special to The Daily News)

Sandon, May 9.—Thomas McGuigan, manager of the American Boy mine, an old timer and one of the earliest locators in the Slocan district, was killed by a fall of rock in the mine at 2 o'clock this afternoon.

The fatal accident occurred while manager McGuigan was inspecting an upraise preparatory to putting in the timber. A portion of the hanging wall fell on the manager, crushing him badly about the head and shoulders. He only lived a few minutes after the accident.

The deceased came to the Slocan in 1891 and was one of the original locators of the Noble Five mine. He has been in charge of the American Boy property since 1895. He leaves a wife and grown up family in Spokane and had intended leaving the property and joining his wife and family very shortly. The body will be sent to Spokane for burial.

Thomas McGuigan was one of the pioneers of Sandon camp, having arrived there shortly after the location of the Payne in 1891. He has remained with the camp ever since and has taken part in the development of many of the best known mines of the district.

His brother, John McGuigan, from whom McGuigan Basin takes its name, met death by accident a few years ago in Portland by falling from a second story veranda in an hotel.

Thomas McGuigan was about 45 years of age. He leaves a wife and several children, who are now in Spokane. His death removes one more from the now rapidly diminishing number of the miners who made the Slocan district famous.

MAY BE ROBBERS

Two Men Arrested at Phoenix—May Be the Characters Wanted Here

A report reached the city last night that an important arrest had been made at Phoenix in connection with the recent hold up in the C. P. R. yards here. Two men answering the description of the men wanted for the outrage were found in an incoming box car and were unable to give a satisfactory account of themselves. They have been jailed by the Phoenix authorities pending further examination.

PAYS AN INDEMNITY.

Hongkong, May 9.—The viceroy of Canton has paid to the American consul at Canton, Julius G. Lay, the sum of $60,000 as indemnity for the mission building and personal property of the missionaries and the claims of converts, as a result of the destruction of property during the rioting at Lungchao in October last.

FIRE INSURANCE IN LINE

New York, May 9.—Officers of the Continental Insurance company today announced that the company has withdrawn its resignation from the New York fire exchange, and had agreed to maintain the high rates adopted by that organization last week.

DOUBLE DROWNING

Soo, Ont., May 9.—Mrs. Bell and her little daughter, were drowned today at Searchment, 30 miles from here.

TO POPULARIZE HORSE FLESH

Berlin, May 9—Major general Zobel, president of the newly formed society for the Protection of Horses, delivered an address on the aims of the society in the Berlin Rathhaus. Chief among these aims he announced is the endeavor to remove the prevailing prejudice against the use of horseflesh as food for human beings, in order that in future horses no longer capable of work may be fattened and slaughtered for the table, instead as at present frequently undergoing torments before death releases them. With this object in view the society intends shortly to give a supper, at which the chief dishes will be horse flesh prepared in different ways in order to show Berlin housewives what excellent food is furnished by horses which have been properly dealt with.

It is noteworthy that at Potsdam the number of swine slaughtered during the first quarter of this year is 13 per cent less than during the corresponding quarter of 1905, whereas the number of horses slaughtered during the same period has increased by 25 per cent.

B. C. METHODIST CONFERENCE

Victoria, May 9—Many prominent divines and lay members of the Methodist church are gathered in this city for the annual British Columbia conference. The formal opening takes place in the Metropolitan church tonight and the sessions are to continue for one week. The provincial branch of the Women's Missionary society is also in annual conference, its session being held in the Centennial church. The two gathering have attracted an unusually large number of visitors.

BILLIARD TOURNAMENT.

Chicago, May 9.—George Slosson defeated Louis Cure in the billiard turnament here today 500 to 219.

THE HUDSON'S BAY CO.

Highest Possible Quality At Lowest Possible Prices

Hudson's Bay Baking Powder—None Better

CANADIAN CAPITAL IN MEXICO

The Mexican Herald comments with a gerat deal of satisfaction upon the very large investment of Canadian capital in Mexico. In a recent editorial the Herald says:

"One of the notable features of present-day progress in Mexico is the heavy investment of Canadian capital in this country. The Canadian colony here is not a numerous one, but its members make up in enterprise what they lack in numbers. They are a most welcome addition to the growing foreign population here, for they bring good sense, industry, and alert minds. It is certainly most remarkable that a country with some 6,000,000 people should be rich enough to finance great undertakings in Cuba, Rio de Janeiro, and the city of Mexico. It is, however, well known that the Canadians are, per capita, the greatest buyers of foreign products and wares in the world. Their trade is immense in comparison with their numbers. This, we must explain, is due to their energy and their possession of a country abounding in resources, and to their intelligent exploitation of those natural elements of wealth."

It is, of course, gratifying to learn that Canadians have money to invest in such generous proportions in Mexico, but when such splendid opportunities abound at home for the investment of capital, it does seem too bad that this money should go abroad.

There are opportunities for investment in the province of British Columbia which should appeal to the monied men of the older provinces. The Canadians with money to invest in Mexico are undoubtedly men who are largely interested in the trans-continental railroads and the great manufacturing concerns of Toronto, Montreal, and other eastern points. Money invested in the development of the latent wealth of British Columbia would not only earn safe and substantial direct dividends, but would materially assist in swelling the revenues of the railroad companies and manufacturing concerns mentioned.

Capital is not patriotic, otherwise we would not have our Canadian capitalists investing their surplus wealth in Mexico when money is urgently needed for the development of the natural resources of western Canada. But if capital be not patriotic, it is certainly ever keen upon earning the largest dividend possible, and it ought to be practicable to convince eastern capitalists that wise investments in British Columbia will in the long run prove in every sense more profitable than even the best Mexico can offer.

The point to be grasped by our boards of trade, population clubs, and similar organizations, whose aim is to attract people and money to this province, is that there is money for investment, but that just at present Mexico is preferred to British Columbia. This unfortunate state of affairs has to be remedied. Judicious and persistent publicity will go a long way towards educating the eastern capitalists. We must keep everlastingly hammering into the eastern mind that British Columbia, particularly the southern portion, offers unequalled opportunities for the profitable investment of capital.

Owing to its exceptionally favorable location, the city of Nelson should be a hot favorite with capitalists, and surely will be when the facilities it affords for industrial enterprises of various descriptions become properly known.

There is good work being done just now by the 20,000 Club. Advertising schemes now being matured will help immensely in the work of opening the eyes of eastern investors to the advantages of the Kootenay and Boundary districts. This work should be kept up, and those who are devoting time and attention to it should be heartily supported and encouraged in their efforts by the public at large.

EDITORIAL NOTES

Canadian judges all over the dominion are speaking out very plainly on several matters coming before them. Chief justice Hunter recently denounced the prevalence of perjury most vigorously and insisted that some active steps should be taken to prevent what had become a very common every day offence. Chief justice Meredith at Toronto, has on several occasions of late referred very sharply to lawyers incurring unnecessary costs, and Mr. justice Anglin in a case last week declared in a pending matter, "It is a perfect scandal for cases which are all on the same question to be tried separately with the result that clients are heavily burdened with unnecessary costs." If the judges desire to they can very effectively call attention to abuses of the law in their courts. If they do the Canadian Press will continue the good work by publishing all the details.

The Constant Wearing of a Hat Propagates Dandruff Germs.

There are many men who wear their hats practically all the time when awake, and are blessed with a heavy shock of hair; yet if the scalps of these same men once became infested with dandruff germs, the parasites would multiply all the quicker for lack of air. Baldness would ensue as the final result. Newbro's Herpicide kills these germs and stimulates unhealthy hair to abundant growth. Herpicide is a pleasant hair dressing as well as a dandruff cure and contains not an atom of injurious substance. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

are generally the full value of the property. There are many copper prospects available, some of which will make good mines, and if the investor would be content to seek and purchase a prospect he might have hopes of successful negotiations and a fair chance to make a large profit on his investment. "Good" copper mines, or in fact "good" mines of any kind are not today a drug on the market, and the eastern buyer should realize this if he does not want to continue to be the object of more or less amusement among the western mining men.

Certain remarks in these columns recently anent the possibility of the discontinuance of the publication of a daily paper in Nelson, have given rise to a good deal of comment in outside papers and to some criticism locally. The outside comment has been, on the whole, favorable to the view expressed by us, that The Daily News had "made good" and that consequently it was up to the business men of Nelson to show by their patronage whether or not they really desired to have a daily paper published in the city. The Vancouver World, one of the latest papers to comment upon the situation, says: "There is great danger of Nelson losing its bright daily paper, The Daily News. It appears that at present the paper is not receiving the measure of advertising patronage in the Kootenay capital that warrants its continued publication. If that is so, and there seems no reason to doubt that it is, The Daily News is not receiving the measure of advetising patronage that it deserves. The disappearance of The Daily News would be a loss to British Columbia journalism. It would be hard, indeed, to find a more ably conducted or more enterprising daily paper published in any town of similar size in the British empire." Whilst, outside of Nelson public opinion appears to regard the claim advanced by The Daily News for more generous patronage as reasonable, we are informed that locally this claims regarded as anything but reasonable, that business men resent the suggestion that the advertising patronage that would keep a good weekly going will not sustain a good daily. The object in drawing attention to this matter was to ascertain directly what the feeling of Nelson business men really was in the matter of a daily newspaper. It was considered to be more fair to the local business interests to frankly state the facts of the case before suspending publication, than to simply announce that on and after a certain date publication of a daily paper would be suspended. Whilst the publication of a newspaper is an ordinary business undertaking and is usually conducted along ordinary business lines, still it occupies a place in the commercial life of the community that is not entirely comparable to that of a store or a manufacturing concern, and its success or failure is not so entirely a matter of individual concern. As has been stated frequently before, we believe that there is room in Nelson for a live daily paper and that if those business men, who today refuse to take advantage of the opportunities a daily paper affords for increasing their profits, would shake off their apathy there would be no probability of Nelson losing its daily paper.

CRICKET MATCH ARRANGED

Nelson Cricket Club Will Play Rosslanders on Empire Day in Golden City

At a meeting of the cricket club held last evening in the offices of its captain, C. Morrison, definite arrangements were made as to the match with Rossland which is to be pulled off in that city on Empire Day, May 24.—It is reported that the Rossland team has greatly improved since last year when Nelson won an easy victory. It is possible that the Nelson team will leave here on May 23 so as to have the whole day before them in Rossland. Practice will now be assiduous between this date and that of the coming match. A special practice is being arranged for next Saturday afternoon when it is particularly requested that members of the club will turn out in force, especially those lately joined, as on the next meeting of the cricket club, Wednesday evening, May 16, a team will be chosen to play Rossland.

Kokanee creek is desirous of arranging a game with the Nelson team at an early date. Several of the members of the Kokanee team were playing first class cricket last year in the old country and it is thought probable that the Kokanees will prove an even stronger aggregation than the Procter team showed itself to be.

FRISCO LOSSES.

British Company Increasing Its Capital To Meet Situation.

At the annual meeting of the London and Lancashire Fire Insurance company, held at London, the chairman announced that the catastrophe at San Francisco had swept half the reserve fund, which a week ago stood at $10,788,675. He counselled the shareholders to accept the situation with calmness. A resolution was adopted increasing its capital to $15,000,000 by the creation of 20,000 new shares of $125 each. It is understood that these shares will not be issued immediately.

Miners's Liniment Lumberman's Friend.

REFORMED SPELLING

Cambridge Professor Thinks Time for a Change Has Come

Professor Skeat of Cambridge university, addressing the British academy last week vigorously championed the spelling reform movement. He said the real obstacle to reform lay in the ignorance of its opposers. He recalled that the partial reforms recommended by the Philological society in 1881 were ridiculed to death by writers for the press, who were not only ignorant of etymology and phonetics, but were totally unaware of their ignorance.

He contended that the present absurd contradictions in the spelling of English were not warranted, either by history or common sense. Many spellings were entirely arbitrary. He instanced the final "e" in such words as have, live, solve and saxe. He traced historically how this and other anomalies had entered the language, including comfort, money and donkey, instead of cumfort, muney and dunkey. He was particularly scornful of the English people for insisting on inserting "u" in such words labour and colour, and opposing its omission as an American innovation. He pointed out that the words referred to were habitually spelled with a "u" before Columbus was born.

Professor Skeat scoffed at objectors complaining that the revised spelling was ugly and said they were slaves of an idle habit which leads them to judge by the eye instead of the ear. The only true spelling of any word was that which reasonably gave it sound. All reform ought to be based on the correct pronunciation of the Latin vowels. In Chaucer's time Latin was spelled as it was pronounced in Italy, and the vowel sounds were the same as the vowel sounds in English. The latter was then spelled as pronounced. A return to this method ought to be the first step in reform.

IT IS DANGEROUS TO NEGLECT A COLD.

How often do you hear it remarked: "It's only a cold," and a few days later learn that the man is on his back with pneumonia. This is of such common occurence that a cold, however slight, should not be disregarded. Chamberlain's Cough Remedy counteracts any tendency of a cold to result in pneumonia, and has gained its great popularity and extensive sale by its prompt cures of this most common ailment. It always cures and is pleasant to take. For sale by all druggists and dealers.

MINING RECORDS

Two locations and two transfers were recorded in the Nelson mining office on May 9.

James Miller recorded the Little Gem, situated on Coon creek, a tributary of Sheep creek, located April 24.

Frank D. Collins recorded the Gold Hill situated on Coon creek, adjoining the Last Dollar and the Summit, located April 25.

John McLeod transferred to John McAlman for a nominal consideration, the Storm King and Seattle claims, situated eight miles west of Nelson and south of Kootenay river.

John McAlman, for a nominal consideration transferred to Charles-Munroe a half interest in the Storm King, Seattle and Kaslo claims.

NOTES OF THE CAPITAL

MANY DEPUTATIONS WAIT ON THE GOVERNMENT.

MEMBERS RAGE AT TREATMENT BY RAILWAYS

Ottawa, May 9.—Judge Hatton, of Grey county, has been appointed surrogate judge in admiralty for the counties of Grey, Bruce and Simcoe.

The capital stock of the Canadian Westinghouse company has been increased to five million dollars; the McGregor-Gourlay company, to six hundred thousand dollars, and the Mexican Consolidated Electric company from one to eight million dollars.

A deputation representing the national labor unions has interviewed premier Laurier and asked for increased duty on American shoes, a fair-wage schedule to be placed upon all contracts where workmen can see it, and for a scaffolding inspector.

In regard to the Lord's Day Act, they opposed legislation which would prevent excursions, debarring labor men recreation.

Sir Wilfrid said that the question of the imposition of duties was now in the hands of the tariff commission, the appointment of scaffolding inspectors rested with provincial government, and as for the other requests he would have great pleasure in referring them to the departments interested.

The shadow of the great beyond sat upon the house last week. For a fleeting moment the members sat with hats removed and silent. Political cleavage was obliterated while the entire chamber joined in tribute to the memory of a Canadian pioneer and the veteran of many political campaigns. The heavy perfume of lilies and tuberoses permeated the chamber. Across the black-draped desk of the late Hon. Peter White in the front rank of the opposition side lay a large wreath, the official tribute of the house to the memory of a departed member; and while the premier and Mr. Borden voiced the sentiment and regret of the house, the house sat in impressive silence. Eloquent though both leaders were they were incapable of adequately expressing the desolation of the house. Hon. Peter White commanded the respect of both sides. Every staunch, fearless, honest legislator must gain the respect of his bitterest opponents. Hon. Peter White possessed that measure of respect and confidence.

Sir Wilfrid Laurier could have said more, but mere words could not have embellished the eloquent reverence in his tone. Nor did the house require it. The older members knew, by experience, and the young members by reputation, the worth of this departed member of the late sir John A. Macdonald's famous "Old Guard."

"In my thirty years' experience in the house I have set under many able speakers, but I can say without fear of contradiction that the late Hon. Mr. White was the peer of any," said sir Wilfrid. "Firmness, impartiality, unfailing courtesy, and fairness characterized his career as speaker in this house."

Illustrating his moral fibre as speaker, sir Wilfrid related a personal anecdote. The premier had been ruled against on a point of order. After the adjournment he waited upon the speaker, stated his belief that the speaker was wrong, and exhibited his authorities.

"He reversed his judgment, thereby exhibiting moral courage most commendable," said the premier. "I am sure the house will join most heartily in an expression of sincere regret to the bereaved family."

The grief of the opposition on the loss of a seasoned conservative was expressed by Mr. Borden.

"His public career and public character were characterized by strength, courage, and dignity," said Mr. Borden. "His demise is a loss to parliament as a whole and to the country. The memory of such a man is an inspiration. I called upon him during his last illness, and was impressed by his singular courage and fortitude, for the hand of death was upon him. I have a tender recollection of his unfailing courtesy and the support he gave me. We most sincerely mourn his loss."

A session without a draped desk is a rarity, and members have frequently said that the late hours, irregular meals, and the nervous strain of important and protracted debates hurried some members to their graves, and grinds years off the allotted span.

The session was unduly subdued. It may have been out of respect to the late ex-speaker, or, because the North Atlantic Trading Co. contract and the sessional indemnity debates of the last two nights had used up all the surplus energy, but at any rate the clauses of the railway bill which stood over were discussed quietly and in a thoroughly businesslike fashion. There were no forensic frills. The feature of the discussion was the announcement by Hon. Mr. Emmerson, the minister of railways, that the government would bring down a bill placing telegraph, telephone, and express companies under control of the railway commission. This step has been expected. It has developed piecemeal during the past couple of weeks. It simply means thorough control of rates and connections and will embody all the regulations and powers proposed in the original bill.

The efforts of J. Harvey Hall of Toronto, the railway men's representative, to have the maximum penalty to which railway men connected with the running of trains were liable for intoxication reduced from ten years to five years, were successful. This clause was warmly contested in committee, and passed, but in the house, after it had been criticized by Mr. Ingram and Mr. Lancaster, it was modified. The original clause, however, only imposed the penalty upon conductors, engineers, train despatchers, operators, station agents, and switchmen, but at Mr. Lancaster's request it was broadened so that any railway man having anything to do with the movement of trains is liable to the same penalty. The only other important addition was one which gives general power to the board to make orders in specific instances and to compel the railways to carry out such specific orders. This power is granted in all cases where the board now has power to make a general order.

Another clause provides for the regulation of switching charges. Sometimes switching charges overshadow haulage rates of even up to a hundred miles.

The bill was droning along toward an amiable conclusion when Dr. Reid of Prescott took it into his head to raise a quiet protest because he had been continually compelled to sleep in an upper berth in a sleeping car. He thought that there was design in the treatment he received. "Surely not," said Hon. Mr. Emmerson, but he was suddenly deluged by similar complaints. One member after another reiterated the same complaint until a red-hot little indignation meeting was in session. "Well, I am astounded," finally exclaimed the minister in genuine surprise. Evidently he is so well known that even the black monarchs of the Pullmans are afraid to put him to sleep under the eaves.

"We are not treated the same as passengers holding first class tickets," said A. E. Kemp of Toronto. "It is an indignity. If we cannot have full privileges the pass system should be wiped out altogether." He said he had found that a superabundance of "uppers" came his way.

"I never had to go upstairs to bed except at the old farmhouse and in my hotel," said David Henderson of Halton, but he lost sight of the fact that his genial David Harum appearance would get him anything in the line of privileges.

Andrew Broder of Dundas, always found himself tucked away in the "sky parlor bedroom," and young Alfred Lefurgey, from Prince Edward Island, too, had often exhibited his agility in climbing a step-ladder when the train was hitting a 50-mile clip and doing a serpentine dance around some of the Meapedia valley curves. The Prince Edward man said that once in Montreal he had been refused a reservation of any sort until traintime, and the agent told him he was acting according to the orders of general manager Hays.

"Well, I'd just like them to try it on me," belligerently exclaimed Haughton Lennox. "I'd have a writ out inside of an hour; I'd show them."

Port Mulgrave, June 5, 1897.

P.O. Box 588, Baker St. West, Nelson, B.C.

—"We should bring in legislation compelling a reduction in price for upper berths," said Thomas S. Sproule of East Grey.

W. F. Maclean predicted a powerful lobby if any remedial legislation were introduced, but Hon. Mr. Emmerson promised an enquiry. "A clause dealing with this complaint may be necessary," he said. A special committee will look after the railway bill.

Col. Sam Hughes was bothered about the attempt of the city of Detroit to secure possession of the two ritish gunboats sunk in the Thames near Chatham in the war of 1812, but Hon. Mr. Hyman told him that the imperial authorities had given the submerged relics to Canada, and that the city of Chatham was a standing guard over them.

"They shall not be removed to the United States either entire or piecemeal," he declared.

Minard's Liniment is used by Physicians.

BALLOON VIEWS OF 'FRISCO

San Francisco, May 9—The signal corps of the United States army is photographing the ruins of San Francisco from balloons, a series of pictures is being taken to be kept on file by the war department in Washington. Several hundred pictures have already ben taken of the different buildings and an order sent for three more balloons so that a complete panoramic picture of the city can be had.

SCIATICA CURED AFTER TWENTY YEARS OF TORTURE.

For more than twenty years M. J. B. Massey, of 3322 Clinton street, Minneapolis, Minnesota, was tortured by sciatica. The pain and suffering which he endured during this time is beyond comprehension. Nothing gave him any permanent relief until he used Chamberlain's Pain Balm. One application of that liniament delieved the pain and made sleep and rest possible, and less than one bottle has effected a permanent cure. If troubled with sciatica or rheumatism why not try a 25 cent bottle of Pain Balm and see for yourself how quickly it relieves the pain. For sale by all druggists and dellers.

MUSIC LESSONS

MISS HAZEL PILL, graduate of Trinity College, London, England, is prepared to give lessons on the pianoforte. For terms and particulars apply Mrs. Partington's, Victoria street.

THE END OF MONOPOLY

PUBLIC OWNERSHIP SCHEME IS DEVELOPING.

STEADILY GAINING GROUND ON THIS CONTINENT

Corporation monopoly holders and hunters are falling into evil times. That it so happens, is a simple measure of retributive justice due to their own flagrant disregard of the public interest and contemptuous flouting of public opinion. Fortunately for the people at large the greed and rapacity of the present-day capitalists know no bounds. Bit by bit they have built up a colossal fabric founded on corruption and maintained by intrigue. Legislatures and governments have yielded to their nefarious arts and forgotten the first principles of political honesty. Thus securely entrenched, the exploiters of public services deemed themselves secure from serious attack, and in many ways schemed to make still greater inroads upon the franchises rightly belonging to the citizens, whose enterprise and industry created them and daily increases their value.

It has taken a long time for the people of this continent to realize the true situation. They are doing this now, thanks in great measure to the recklessness with which trusts, combinations and corporations of all kinds have pursued their campaign of spoliation. The great educator has been the growing burden of excessive rates and charges, of imperfect service, of refusal to meet reasonable requirement, of open disregard of clear and fair obligation. Hence the demand for public ownership and operation, as the only means for providing a cheap, efficient and honest service.

Intimately associated with the rising public interest displayed in government and municipal ownership and operation of monopolies is the revolt against the tyranny of private corporations. No movement on this continent has been so remarkable and significant or so widespread. Only the other day an office was opened in London, by a United States commission acting for the National Civic Federation. The investigating committee consists of over 100 well-known citizens, who have been specially appointed to enquire into public ownership and operation in America and abroad. Ten of them, including engineers and accountants, are at work in Britain, and have started with an investigation of the municipal gas service of Leicester, the municipal electric lighting undertaking at Glasgow, and the municipal tramways of London. They hope in the course of the next four months to include the best and most representative municipal services in Britain.

The federation states its aim to be the getting at facts rather than the proving of any particular argument. The scope of the enquiry is extensive, and the commission is following three main lines of investigation—tramways, electricity and gas. It will cover the relative advantages of municipal ownership as compared with privgate ownership, the cost and character of the services, wages and conditions of labor, effect on rates, the standing of the officers and members and the extent, if any, of municipal corruption. While the greater part of the investigation is to proceed in the United States, valuable information is expected to be got in the United Kingdom, and on the continent of Europe. If this investigation is conducted thoroughly and impartially its results cannot fail to be instructive and valuable.

Meantime public ownership is steadily gaining ground in the United States, as it is in Canada. The latest evidence of the extent and volume of the current of popular opinion in its favor is offered by Omaha, Nebraska, hitherto a republican city. This year the democratic platform was municipal ownership and for the first time in years that party won a notable victory. Again, in Denver, Colorado, the municipal ownership league, at an enthusiastic convention, placed a ticket in the field for the municipal election. Speaking of the ticket the Denver Times remarked: "This ticket is emphatically a people's ticket, owing no allegiance to any party or interest save the people themselves. It stands for the application of business principles to municipal affairs, for the ownership by all the people of all the public utilities." What is wanted to give the electors everywhere an earnest and abiding interest in municipal affairs is just this principle of public ownership. With the passing of the private corporation will depart the chief agent in the carnival of corruption which has brought city government on this continent into such well merited contempt.—Toronto World.

THE NEW MOTOR.

The Days of the Steam Locomotive Are Numbered—Electric Gasoline Power

The steam locomotive has reached its limit of development. Its driving wheels are of the maximum size, and the stroke cannot be increased. It cannot be safely run longer than 150 miles with a train, and it must eventually take a back seat for the electric-gasoline power. The latter is practically unlimited in development. Gasoline engines are now built of 1600-horse power, and it may not be many years before heavy trains are pulled by these engines. The self-contained car, by which I mean one which supplies its own power as it travels, seems to be an ideal car of the future. The idea, now in its infancy, may be expanded in a few years, until long trains are pulled instead of a single car.

The self contained car is here to stay. It will be improved and developed from time to time until it displaces the steam and trolley systems. Requiring stops only to replenish its supply of gasoline, these cars can run 200 or 300 miles, effecting an enormous saving in locomotives. At present two engines are required to run between Chicago and St. Louis. The electric gasoline car will make that run from one great terminal to the other, cutting the number of locomotives used squarely in two, while the saving in the cost of operation will be tremendous.

The steam railroads of this country, where paralleled by the trolley interurbans, are compelled to meet the competition. They are turning to the self-contained car as their means to the end. If the trolley companies had been wise, they would not have invited this warfare and competition. They should have avoided the right of way of the steam roads and built up new business independent of the steam roads. It would have been a simple matter for them to diverge from the steam roads, touch towns not reached by the steam lines, and develop others in favorable localities. By this policy they would have found co-operation from the steam roads instead of enmity. It is now a war to the death.—W. R. Everrett, in the Interurban Railway Journal.

FOR V. V. & E.

Hill's Rails Will Be Sent Here Via the Horn to Save Freight Rates.

The Montreal Star learns that the orders for rails received by the Dominion Steels Co. from James J. Hill amount to practically 6000 tons.

This means that Mr. Hill has now ordered 26,000 tons from Canadian mills, as it will be recalled that he gave the "Soo" company an order for 20,000 tons for the Great Northern.

The 6000 ton order to be filled by the Sydney concern is for the Victoria, Vancouver & Eastern railway, and these rails are going to have an interesting journey before they land at Vancouver.

As the railroad freight rates from Sydney to Vancouver were found to be too high, the Sydney company decided that it would charter a ship and send them away around by the Horn.

The trip will take three months, but in spite of that several thousand dollars will be saved on freight.

MARKET STILL RISING

STOCK QUOTATIONS ARE STEADILY ADVANCING AND FIRM

PROVISIONS DULL — WHEAT, CORN AND POR KDECLINE

The stock exchange today was again strong. The opening prices were generally at the high mark of Tuesday and the majority of the list made small advances. There was no decided movement, however, many stocks were stationary, and a few, among which Reading was the most conspicuous, suffered losses. The industrial securities were the leaders, Sugar, Copper and Steel averaging a little more than five points advance. The market has now almost entirely recovered from the effects of the recent break. While no immediate further advance is looked for, it is believed that for a time at least stability may be expected.

Everything declined on today's provision market. Favorable reports throughout the country on all the chief commodities are having the effect of steadily lowering the prices. Wheat and corn declined only slightly but pork lost heavily.

STOCKS—Sugar opened at 133 3-4, sold to 134 5-8, closed 134 1-4; Copper opened at 105 1-8, advanced to 106 5-8, closed 105 7-8; Steel common opened at 40, advanced to 41 1-4, closed 41, preferred opened at 105 1-2, advanced to 106, closed 105 7-8; B.R.T. opened at 82 1-2, advanced to 83 5-8, closed 81 3-4; St. Paul opened at 168 1-2, advanced to 169, closed 167 1-4; U.P. opened at 147 1-4, advanced to 148 1-8, closed 147 7-8; Atchison opened at 90, advanced to 90 3-8, closed 89 7-8; L. & N. opened at 144, sold to 144 3-4, closed 144; C.P.R. opened at 159 1-2, advanced to 160 1-4, closed 159 1-2; Penn. opened at 135, advanced to 135 1-4, closed 135; Reading opened at 131 1-4, sold to 129 5-8 at close.

PROVISIONS—July wheat opened at 79 advanced to 7 7-8, closed 79 1-2; July corn opened 45 3-4, advanced to 45 7-8, closed 45 1-2; July pork opened at $15.17, closed $14.97.

Reported by Sharp & Irvine, May 9.

HALF HOLIDAY ARRANGED

Nelson Merchants and Their Employees Will Rest on Thursdays

The summer half holiday of Nelson merchants and their employees will be taken on Thursday afternoons during the months of June, July, August and September. All whose cooperation is considered important agreed yesterday.

When the question of a weekly half-holiday was first mooted, Thursday afternoon was suggested, as that had been the day taken last year. Several merchants suggested closing Saturday afternoons instead, and keeping open Friday evenings instead of Saturday.

The idea found favor at first but objections soon developed. The great trouble is that there is a large class of citizens whose only available time for shopping is Saturday night. They are the C.P.R. employees on the Boundary Slocan and other branch lines which are not operated on Sunday. They arrive in Nelson Saturday afternoon or evening and are then free till Monday morning. Naturally the merchants with whom they deal are unwilling to risk losing their trade by closing their stores that night.

After many conferences those who had suggested the Saturday closing finally agreed to accept Thursday. The last to demur gave their consent yesterday afternoon.

The first half holiday will be Thursday afternoon, June 7. It is not yet decided whether a series of sports will be arranged as was done last year or not.

TIMBER NOTICES

Notice is hereby given that 30 days from date William C. Read will apply to the chief commissioner of lands and works, Victoria, for special licences to cut timber on the following described lands near Dog creek west of the Lower Arrow lake.

Licence No. 7: Commencing on the west boundary of lot 5817 about ten chains north of the North fork of Dog creek; thence west eighty chains, thence south forty chains, thence east forty chains, thence south eighty chains, thence east forty chains, thence north one hundred and twenty chains to the place of beginning.

No. 5: Commencing where a post has been planted about twenty chains due west of the N. E. corner of the No. 7 licence, thence forty chains north, thence a hundred and sixty chains west, thence forty chains south, thence a hundred and sixty chains east to the place of beginning.

No. 6: Commencing at the N. W. corner of the No. 5 licence, thence west one mile, thence south one mile, thence east one mile, thence north one mile to place of beginning.

No. 1: Commencing one mile west of the N. E. corner of the No. 5 licence, thence two miles north, thence half a mile east, thence two miles south, thence half a mile west to the place of beginning.

No. 2: Commencing one mile west of the N. E. corner of No. 5 licence, thence north two miles, thence west half a mile, thence south two miles, thence east half a mile to the place of beginning.

No. 3: Commencing two miles west of the N. E. corner of licence No. 5, thence north two miles, thence east half a mile, thence south two miles, thence west half a mile to the place of beginning.

No. 4: Commencing two miles west of the N. E. corner of licence No. 5, thence north two miles, thence west half a mile, thence south two miles, thence east half a mile to the place of beginning.

Dated April 22nd, 1906.

A. W. McVITTIE, Agent.

NOTICE

Sixty days after date I intend to apply to the Hon the Chief Commissioner of Lands and Works for permission to purchase the following described lands: Starting at a post marked "J. R. McBain's Northeast corner post," on the south bank of 6-Mile creek, about two miles from Kootenay lake; thence 40 chains west; thence 40 chains south, more or less; thence 40 chains east; thence 40 chains north, more or less to point of commencement.

Dated this 22nd day of March, 1906.

J. R. McBAIN.
W. T. BUGGINS, Agent.

NOTICE

Sixty days from date I intend to apply to the Honorable the Chief Commissioner of Lands and Works for permission to purchase the following described lands; Situate on the south side of the West Arm of Kootenay Lake, about one mile from Nelson, commencing from southwest post of Lot 909, west 20 chains, then north 20 chains more or less, then east 20 chains, then south 20 chains more or less to point of commencement.

Dated this 24th day of March, 1906.

FRED STEVENSON, Locator.
WM. T. BUGGINS, Agent.

NOTICE

NOTICE is hereby given that 60 days after date I intend to apply to the Hon. the Chief Commissioner of Lands and Works for permission to purchase the following described lands in West Kootenay district: Commencing at a post marked "Florence Billings' northeast corner," about one mile east of Joseph Genelle's purchase claim on the southeasterly bank of the Columbia river, thence south 80 chains and 2 links; thence east 54 chains and 12 links; thence north 40 chains; thence west 80 chains and 20 links more or less to the bank of the Columbia river; thence following bank of the Columbia river 20 chains more or less in a southwesterly direction to the place of beginning, containing 200 acres more or less.

Dated this 29th day of March, 1906.

FLORENCE BILLINGS.
KENNETH L. BURNETT, Agent.

NOTICE

NOTICE is hereby given that 60 days after date I intend to apply to the Hon. the Chief Commissioner of Lands and Works for permission to purchase the following described lands in West Kootenay district: Commencing at a post marked "Mary Tireman's N.E. corner post," on the southeasterly bank of the Columbia river, one mile east of Joseph Genelle's purchase claim, thence south 57 chains and 46 links; thence west 40 chains; thence north 13 chains and 21 links more or less to the bank of the Columbia river; thence northeasterly following said bank 60 chains more or less to the place of beginning, containing 130 acres more or less.

Dated this 29th day of March, 1906.

MARY TIREMAN
KENNETH L. BURNETT, Agent.

NOTICE

NOTICE is hereby given, that 60 days after date, I intend to apply to the Hon. the Chief Commissioner of Lands and Works for permission to purchase the following described lands, situated on the south side of the West Arm of Kootenay Lake, about 10 chains east of pre-emption 606, commencing at a post marked "M. M. Winter's S.W. corner post," thence east 40 chains, more or less; thence north 10 chains, more or less; thence west 40 chains, more or less; thence south 10 chains to point of commencement.

Dated this 23rd day of April, 1906.

M. M. WINTER.

NOTICE

NOTICE is hereby given that 60 days after date the undersigned intend to apply to the Honorable the Chief Commissioner of Lands and Works for permission to purchase the following described lands: Commencing at a post planted at the southwest corner of Thomas Greenwood's application to purchase, and being on the eastern boundary line of Lot 329, G.I., Kootenay District, thence south 20 chains, thence east 40 chains, more or less to the western boundary line of Lot 306, G.I., Kootenay district, thence north 20 chains, thence west 40 chains more or less to the place of commencement.

FRED J. SAMMONS.
GEORGE ADAMSON.

Dated at Procter, B.C., this 2nd day of March, 1906

NOTICE

Notice is hereby given that the Canadian Pacific Railway Company have this day filed in the district land registry office at Nelson, a plan, profile and book of reference showing proposed location of a branch line to the West Kootenay Power & Light Company's works near Bonnington and that four weeks after this date the said Canadian Pacific Railway Company intend to apply to the board of railway commissioners for Canada, under section 175 of the Railway Act, for authority to construct the said branch.

Dated this 23rd day of April, 1906.

R. MARPOLE, General Superintendent.

NOTICE

Sixty days from date I intend to apply to the Hon. the Chief Commissioner of Lands and Works for permission to purchase the following described lands: Commencing at the northwest corner post of Lot 6900, in West Kootenay district, west 20 chains, thence north 40 chains, thence east 40 chains, thence west 20 chains, thence south 20 chains to the point of commencement.

Dated this 5th day of May, 1906.

J. J. CAMPBELL.

Synopsis of Regulations Governing the Disposal of Dominion Lands Within the Railway Belt in the Province of British Columbia.

A license to cut timber can be acquired only at public competition. A rental of $5 per square mile is charged for all timber berths, excepting those situated west of Yale, for which the rental is at the rate of 5 cents per acre per annum.

In addition to the rental, dues at the following rates are charged:

Sawn lumber, 50 cents per thousand feet B. M.

Railway ties, 8 and 9 feet long, 1 1-4 and 1 3-4 cents each.

Shingle bolts, 25 cents a cord.

All other products, 5 per cent. on the sales.

A license is issued so soon as a berth is granted, but in unsurveyed territory no timber can be cut on a berth until the licensee has made a survey thereof.

Permits to cut timber are also granted at public competition, except in the case of actual settlers, who require the timber for their own use.

Settlers and others may also obtain permits to cut up 100 cords of wood for sale without competition.

The dues payable under a permit are $1.50 per thousand feet B.M., for square timber and sawlogs of any wood except oak; from 1-3 to 1 1-2 cents per lineal foot for building logs; from 12 1-2 to 25 cents per cord for wood; 1 cent for fence posts; 3 cents for railway ties, and 50 cents per cord on shingle bolts.

Leases for grazing purposes are issued for a term of 21 years at a rental of 2 cents per acre per annum.

Coal lands may be purchased at $10 per acre for soft coal and $20 for anthracite. Not more than 320 acres may be acquired by one individual or company.

Royalty at the rate of 10 cents per ton of 2,000 pounds is collected on the gross output.

Entries for land for homestead purposes may be made personally at the local land office for the district in which the land to be taken is situated, or if the homesteader desires, he may, on application to the minister of the interior at Ottawa, the commissioner of immigration at Winnipeg, or the local agent for the district within which the land is situated, receive authority for some one to make entry for him.

A fee of $10 is charged for a homestead entry.

A settler who has received an entry for a homestead is required to perform the conditions connected therewith under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year during the term of three years.

It is the practice of the department to require a settler to bring 15 acres under cultivation, but if he prefers he may substitute stock; and 20 head of cattle, to be actually his own property, with buildings for their accommodation, will be accepted instead of the cultivation.

(2) If the father (or mother, if the father is deceased) of any person who is eligible to make a homestead entry under the provisions of th Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of the Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of the Act as to residence may be satisfied by residence upon the said land.

Application for a patent should be made at the end of three years before the local agent, sub-agent or a homestead inspector.

Before making an application for a patent, the settler must give six months' notice in writing to the Commissioner of Dominion Lands at Ottawa, of his intention to do so.

W. W. CORY,
Deputy of the Minister of the Interior.
Ottawa, February 14th, 1906.

NOTICE

NOTICE is hereby given that 60 days after date I intend to apply to the Hon. the Chief Commissioner of Lands and Works for permission to purchase the following described lands in West Kootenay district: Commencing at a post marked "O. A. Maybee's northwest corner," at the northeast corner of Joseph Genelle's purchase claim on the southeasterly bank of the Columbia river; thence south 20 chains and 86 links; thence east 40 chains; thence north 54 chains more or less to the Columbia river; thence following said bank of Columbia river in a southwesterly direction 50 chains, more or less to the place of commencement, containing 155 acres more or less.

Dated this 29th day of March, 1906.

O. A. MAYBEE.

NOTICE

NOTICE is hereby given that 60 days after date I intend to apply to the Hon. the Chief Commissioner of Lands and Works at Victoria, for permission to purchase the following described lands, situate in West Kootenay district, commencing at a post marked by name "Gerald Rees N.E. corner post," at northwest corner of the purchase claim staked by E. A. Boyd and F. J. Sammons, thence 20 chains west along the C.P.R. right of way; thence 10 chains south; thence 20 chains east; thence 10 chains north to point of commencement, containing 20 acres, more or less.

GERALD S. REES.

Nelson, April 24, 1906.

NOTICE

NOTICE is hereby given that 60 days from date the undersigned intends to apply to the honorable the Chief Commissioner of Lands and Works for permission to purchase the following described lands. On the West Arm of Kootenay lake, starting from location post west 35 chains, running along J. Harris' north survey line, north 40 chains more or less, thence east 35 chains, then south to point of commencement.

Dated this 21st day of March, 1906.

JOHN E. TAYLOR, Locator
M. R. McQUARRIE, Agent.

NOTICE

Sixty days from date I intend to apply to the Hon. the Chief Commissioner of Lands and Works for permission to purchase the following described lands: Starting from W. BZ. Pollard's S.W. corner post, situate on the north side of lot No. 1073, on the north side of the West Arm of Kootenay lake, about two miles from Procter, thence 20 chains east more or less to the N.E. post of L. 1975, thence 20 chains more or less to N.W. post of L. 6498, thence east 20 chains more or less to N. Clark's S.W. post, thence north 20 chains more or less, thence west 20 chains more or less, thence south 30 chains more or less, thence west 20 chains more or less, thence south 20 chains more or less to point of commencement.

Dated this 31st day of March, 1906.

W. B. POLLARD.

CANADIAN IMMIGRATION

DOMINION FARES BETTER THAN THE UNITED STATES

OUTLOOK IS FULL OF HOPE AND ENCOURAGEMENT

(Toronto Star)

There is a loose notion that the Canadian west is being filled up with "foreigners" and that its loyalty to the British empire and its standards of civilization are in danger. This impression is corrected in a paper read by Dr. Bryce, chief of the *medical inspection branch* of our immigration bureau, at the American Social Science congress at Washington. There is an estimated population in *Manitoba* and the territories of 1,117,000. Of these 775,00 are Canadians, 120,000 are natives of the British islands, 182,000 are Americans and 100,000 are continentals. All but 25 per cent are Canadians or British from across the sea; all but 10 per cent are English speaking people. Compare this with the *conditions* of the United States from Ohio to the Dakotas, where 26,000,000 people, or nearly one third of the population of the United States, are located. Of these 16 per cent are aliens born and 44 per cent are the children of aliens.

The influx of Americans into the west is an undoubted and important fact, but its relative extent has been exaggerated. At present the most noteworthy feature of immigration is the stream of arrivals from Great Britain. In 1904-5 there were 146,266 arrivals of whom 66,339 were British, 37,256 Continentals and 43,682 from the United States. In 1905 the British coming into Canada increased 15,000, or 30 per cent over 1904, while the continental increased seven per cent, and in the present year the influx of British is greater than ever.

The termination of the contract with the North Atlantic Trading company is likely to still further decrease the proportion of European immigrants. Still we ought not to fall into the narrow and illiberal mistake of supposing that everyone who does not speak the English language is a criminal, a weakling or an ignoramus. The Anglo-Celtic alliance is a good thing, but "there are others." Especially if you want farm laborers, the great source of that class of population is eastern Europe. Our guided and assisted immigration, criticise it as you will, has been better in that respect that the go as you please style flowing into the United States. Our immigrants from the continent of Europe have been mainly from the agricultural class, while out of a million immigrants who arrived in the United States in 1904-5 more than half remained in the great cities, only 20 per cent crossed the Mississippi and only 5000 went into the great state of Texas. In Canada the bulk of our immigrants go west and engage in farming.

Look at the record of the much abused Doukhobors. No community of farmers in the wrld has better labor saving machinery. During three years of community life they have purchased $400,000 worth of goods. They have adopted the most modern and businesslike methods. The advance made by the Doukhobors in five years, says the Winnipeg Free Press, is one of the sociological wonders of modern times. Whether we look at the arrivals from Great Britain or at the American farmers, or at the picked agricultural immigrants from the continent of Europe, and the steady growing population of the native Canadians, the outlook of the Canadian west is full of hope.

ADVERTISING NELSON

Twenty Thousand Club Further Extending Efforts to Attract Capital

At a meeting of the advertising committee of the 20,000 club, held in the offices of the club at 5 p.m. yesterday, several important steps were taken as to advertising the city. Particular stress was laid upon the mining industry. It was stated that there was more money invested in this than in any other form of enterprise in the Kootenays. If the facts were brought before the public in a proper manner the committee was of the opinion that great good would result. The first step t be taken to do this is to republish in papers outside of the district covered by The Daily News and its correspondents, the mining information as to the output which is given in detail each Sunday morning. An arrangement with The Daily News for this purpose was authorized.

Further, a pamphlet or folder, is to be got out at once which will give the latest information, official as far as possible, of the mining and its results, the capital invested, the men employed and all such similar statistics. This will be issued under the auspices of the club and will be sent out in the manner of other folders. Information will also be given by folder as to the extent of the lumber industry of the Kootenay and as to the power available for capitalists coming in and starting this or that minor or major industry.

EDMONTON NEWS

Charge of Murder Preferred—Large Plans for Alberta's Future

Edmonton, May 9—A charge of murder has been preferred against George W. McLean, companion of Mary Fortier, a young woman who was found dead near Bat creek on Friday. McLean, who has been held in custody by the police since his release from the hospital, had a preliminary hearing before magistrate Wade this afternoon. The coroner's jury implicated McLean as a party to the woman's death.

A. D. McLean, a young homeseeker from Canyon, Colo., who was accidentally shot while driving near Vegreville on Friday, died yesterday in the hospital where he had been sent from Vegreville. McLean, in company with another man, was driving north on the Vegreville trail on Friday, seeking a homstead. A loaded shot gun in the wagon was accidentally discharged and the contents entered McLean's thigh, inflicting a painful wound which caused death.

"Alberta Red" is due to become famous on the other side of the world. The Alberta Pacific Elevator bill which has been before the legislature for two or three weeks asking for a charter and which was last night put through committee of the whole, has some large plans for the future.

The Alberta Pacific proposes nothing less than to divert the trend of grain trade of the western prairies, making it flow west where it is now flowing east. They have secured from the C.P.R. a through rate from the Alberta grain fields to Hongkong, precisely the same as the wheat growers of Washington, Idaho and eastern Oregon are paying to the orient from the grain fields of the inland empire. This should bring the price of Alberta Red in the farmers' market up, and make it the same price in Calgary and Edmonton as it is in Winnipeg and Brandon. Heretofore the export price has not been a great factor in the northern Alberta wheat market. In future, however, there is bound to be a large surplus over the home demand, which circumstance will affect the export price of this grain. The company proposes constructing at once a 500,000 bushel cleaning and sorting elevator in Calgary and during the summer 15 or 20 farmers' elevators of 20,000 bushels capacity each, throughout this province. Last year they built 15 elevators of this class. Calgary is to be the main center of the grain trade. All grain for the orient will go through the Calgary elevator to be cleaned before being shipped across the mountains. Construction will commence at once on an elevator on Burrard Inlet or Coal Harbor, where grain will be loaded for export.

L. C. Strong, manager of the company said the investment in Alberta and on the coast for elevators would be not less than $1,000,000.

APPEAL ALMOST IGNORED

ONLY SEVEN CITIZENS OF NELSON FOR FIRE FIGHTING

THE SITUATION IN NEIGHBORING DISTRICT GROWS WORSE

Seven citizens of Nelson, out of more than seventy who promised their services, responded to the appeal of mayor Gillett and chief Bullock-Webster yesterday to fight the fire across the lake, and attempt to save the picturesque mountain side from being blackened and denuded. The seven were: J. J. Campbell, Dr. Campbell, S. S. Fowler, F. D. Arundel, H. J. Marks, F. Jowett and C. F. Rollings. Chief Bullock-Webster and constable Young, Messrs. Astley and Hoover, whose ranches are endangered, and four city employees sent by the mayor, J. Foote, F. Deacon, J. Harris and J. Murphy, made the whole force that could be mustered to save one of the most beautiful bits of scenery near Nelson.

Small as the party was it accomplished excellent work. Dr. Campbell and S. S. Fowler joined the party at noon, the others went over at eight in the morning. A start was made at once at the highest point reached by the fire. The method followed was to cut a broad trail round the fire by removing logs, brush and leaves, with axes and spades, and thus making an earth enclosure round the belt in which the fire must have its way. In many cases earth had to be carried many yards to complete the barrier. In others burning trees fell across the break. The flames had to be put out with earth and the charred logs thrown back within the fire belt.

The party worked from 8 to 1 when a brief pause was made for lunch. Then the work was renewed; the fire break was carried from the top for a mile and a half down to a rock bluff, and all danger of that particular fire spreading towards Nelson was removed. Trees are still blazing within the enclosure but the barrier is complete.

When the party reached the lower edge of the fire at 6 in the evening, exhausted with a long day of hard work, they saw a new fire further down the river and spreading along the bank eastward, constituting a new danger.

Chief Bullock-Webster said last night that had there been ten more men available the work could have been completed, including the checking of the new fire.

Even yet there is time for an adequate force of men to ensure the safety of the immediate environs of Nelson. Mr. Hoover will continue the work today and all who are really interested in preventing the destruction of one of Nelson's beauty spots, are invited to join him with spade or axe today. From his house the way over the ridge is unmistakeable and he will gladly direct the work. While the task is difficult it is not impossible. The fire can be absolutely checked if enough workers will turn out before it is too late.

In the meantime reports of fire are coming from all directions. The very dry spring has provided every condition for its rapid spreading.

Up the lake on the north shore the hillsides are covered with flames and clouds of smoke make it impossible to tell the exact location.

Round Ymir to the west of the S. F. & N. track the forests are on fire and there are no men available to attempt to control them. The ground is covered several feet deep with leaves and brush and fallen logs through which the fire spreads, regardless of the direction of the wind.

But the worst fire yet reported is nearer than Ymir. A mile below Porto Rico siding on the S. F. & N. line the woods are blazing on both sides of the track, and the flames are travelling rapidly northward up the valley. Clouds of smoke from that direction were visible from the city yesterday afternoon above the high mountains that intervene.

Passengers from Spokane last night said that the fire near Porto Rico was spreading faster than they had ever seen a forest fire travel before in a mountainous district and that it is rapidly sweeping northward.

GRAND FORKS NOTES.

Evidences of Mining Revival—Two Long-Idle Properties to be Worked.

(Special to The Daily News)

Grand Forks, May 9.—That there is a substantial revival in the mining industry in this section this spring is almost daily evidenced. The English and French Gold Mining company, which owns a group of six claims near Volcanac mountain, and which have been inactive for the last five years, will likely commence operations immediately. The directors of this company are considering the granting of a bond on the entire group to an American capitalist.

The whole six claims comprising this group have exceedingly fine surface showings of high grade copper ore and the properties are all crown granted. In addition comes word today that the Bonanza Gold Mining company, owning a group of several claims on Bonanza mountain will very shortly under new management, commence to develop their property. Both of these companies referred to are composed of local business men.

Sounding just taken at Christina lake have failed to reach bottom at a depth of 1500 feet. An effort will be made this summer to secure a sounding line to enable reaching a depth of at least 3000 ft.

Fred H. Knight, an old timer in the Boundary and a successful mining operator, returned yesterday from San Francisco, where he has been for some months past.

David Dixon, who resides at Christina lake, was charged in the provincial police court here today, with having stolen two bear traps belonging to one, Augustus Maserell, a professional trapper, who has made considerable money the last few months in trapping bear, marten, and lynx. The case was not concluded this morning.

THE CRAPSEY CASE

Verdict of the Court Likely to be Against the Clergyman—Roberts Bitter

Rochester, May 8—An exclusive despatch from Batavia to the Post Express at 4 o'clock this afternoon says:

The court in session here today in the Crapsey case has considered both charges and both specifications of the presentment and the vote throughout has been 14 against Dr. Crapsey.

As to the final decision, Dr. Dunham refused to accede to the findings of the court and will file a separate statement. Dr. W. C. Roberts, president of the court, was very bitter in his denunciation of Dr. Crapsey during the session this afternoon. He declared that Dr. Crapsey had gone into this matter with his eyes open and had set a whole diocese afire with the controversy.

Batavia, N.Y., May 9—The ecclesiastical court which tried Rev. Crapsey of St. Andrew's church, Rochester, on a charge of heresy, ended its work tonight when a verdict was reached and a document stating the findings of the court was drawn up and delivered to bishop Walker at Buffalo. Until the verdict has been reviewed by the bishop no information as to its contents can be secured. The opinion is that the court has voted 4 to 1 against Dr. Crapsey on both specifications, but this is declared to be guess work.

ONE MONTH FOR BORROWING

West and Roland Will Think Over Their Free Ride in Gaol

Paul Wranesich, Thomas West and John Roland, who were remanded Tuesday morning, came up for sentence in the city police court yesterday morning.

Wranesich's only offence was being found asleep in a box car Sunday morning and failing to give a satisfactory account of himself. As he had already spent three days in the cells the magistrate gave him two hours to leave the city.

West and Roland had borrowed a C.P.R. speeder without the formality of asking leave, to convey them from derrard to Lardo. As they had not damaged it and had left it at a section house, the magistrate thought one month in goal would be sufficient instruction in the laws of property.

WHITE CAPS

Six Hundred Fined for Intimidating Government Homesteaders

Jackson, Miss., May 9—Over six hundred citizens of Franklin county, charged with being members of an alleged "White Cap" organization, pleaded guilty to a charge of intimidating the government homesteaders, and were each assessed the minimum fine of $25 and three months in jail. The imprisonment was held up pending good behavior. The litigation has attracted much attention owing to the prominence of the parties involved. Among those indicted was the sheriff of Franklin county.

WHOLE LEGISLATURE

Charged With Bribery—Seventy-Five Members Summoned

Boston, May 8—District attorney Moran today announced his intention of summoning before the grand jury the entire membership of the Massachussetts legislature in connection with charges of bribery recently made over the defeat of the anti-bucket shop bill in the house of representatives. Already summonses have been issued for 75 members.

CONDITIONS UNCHANGED

Outlook at San Francisco Continues Fairly Good—Many being Fed

Washington, May 9—A despatch from general Greeley says: "Conditions materially unchanged as regards health, water supply, local transportation and business operation. All continue good. Mouths fed today numbered 223,915, a decrease of 10,000 but we hope for a more material reduction at an early date."

VISIT IS POSTPONED

J. J. Hill Unable to Reach Winnipeg Yesterday as Planned

(Special to The Daily News)

Winnipeg, May 9—J. J. Hill, who was to have visited this city today, and who would have been entertained at lunch by the local Canadian club has been obliged at the last moment to postpone his visit until next week owing to illness in his family.

WILL ADVANCE RATES

Chicago Insurance Company to Make Good San Francisco Losses

Chicago, May 9—The Tribune says today: Fire insurance rates in Chicago on all less desirable risks will be advanced 25 per cent or more to reimburse companies that have suffered loss in the San Francisco fire.

HUGE DEFALCATION

Philadelphia, May 9—The brokerage firm of Harrison, Snyder & Co. announced today that refalcations, amounting to at least $100,000, had been committed by Edwin S. Greenfield, a confidential clerk. The peculations have been going on it is said, for about six years. Greenfield has not been arrested but is under surveillance. The firm today filed a petition in bankruptcy and Richard M. Vellum was appointed receiver.

METHODIST CONFERENCE

Birmingham, Ala., May 9—Before an immense audience of delegates to the Methodist general conference of the south, Rev. W. J. Spalding, president of the Wesleyan college at Winnipeg, and Canada's fraternal delegate to the conference, delivered his fraternal address to the conference last night. It was full of stirring words of greeting from the Methodists of the north to those of the south and his words were frequently applauded.

BIG PRICE FOR RACER

New York, May 9—The Times says Demund, the most talked of two year old racer this spring, was sold yesterday at private sale. The price paid was not made public but report has it that Mr. Fenny paid $45,000 for the horse, which though he has won but a single race, and that an unimportant event at Aqueduct, has been the cause of much speculation and several efforts to purchase him at a large price.

LONGSHOREMEN'S STRIKE

Buffalo, May 9—Work on the coal docks, which has been idle since the longshoremens strike, was resumed at the Lehigh and Erie docks today. At the former the steamer Case is being loaded. At the Erie dock the men are on hand but there is nothing for them to do. An extra detail of police were stationed at this dock to preserve order, but their services were not required.

AMEER TO VISIT INDIA

Lahore, May 9—Mohammedans of high rank residing here have been notified that the ameer of Afghanistan, Habiluah Khan, will visit India next winter. In view of the political importance of the ameer's visit, steps are already being taken to give him a fitting welcome.

NOT IF AS RICH AS ROCKEFELLER

If you had all the wealth of Rockefeller, the Standard Oil magnate, you could not buy a better medicine for bowel complaints than Chamberlain's Colic, Cholera and Diarrhoea Remedy. The most eminent physician can not prescribe a better preparation for colic and diarrhoea, for both children and adults. The uniform success of this remedy has shown it to be superior to all others. It never fails, and when reduced with water and sweetened, is pleasant to take. Every family should be supplied with it. Sold by all druggists and dealers.

BERNHARDT AT SEATTLE

Seattle, May 9—Sarah Bernhardt played to 1500 persons in a concert hall in a park located three miles out of the city last night. The first ten rows of seats were chairs and the remainder camp stools.

Minard's Liniment is used by Physicians.

TRIAL GOES OVER

Toronto, May 9.—The trial of Joseph Phillips, former president of the York Loan & Savings Co., accused of conspiracy, was today traversed to the September assizes, in order that an audit of the books of the company might be made. Bail was renewed at $5000.

If you eat to live you can get the necessary ingredients at the Dollar Grocery.

A plate of Quaker Brand canned fruits makes a delicious ending to the sumptuous meal, and a pleasing dessert, without any trouble. Can be had at all grocers at a very low price.

FRUIT AND FARM LANDS For Sale In the Famous Kootenay Valleys

I can sell you choice fruit lands in 10, 20, 40, 80, or 160 acre blocks at

Ground Floor Prices

I do not offer for sale any fruit land that I have not personally examined. I guarantee every block to be as good as represented, and having sold a large portion of the land now being brought under fruit cultivation in this district, I would be safe in offering any man his money back with 10 per cent interest, who is not satisfied with his purchase. Not one would do it, because they can double their money.

I have on my list many choice locations.

One 13 acre lot near Nelson, partly improved. Price $650.00.

5-Acre lot two miles from the city, $250.00.

10-Acre lot, partly cleared, waterfront. Price $50.00 per acre.

Three 20- acre lots near Slocan bridge. Price $25.00 per acre.

70 Acres at Beasley Siding at a bargain.

Improved farm of 100 acres, $7500.

Several choice locations on Slocan river.

Nine choice locations at Creston; good land near the station.

Two good locations on the Columbia river.

Four 40-acre blocks on Arrow lake.

I can give you choice, selected lands.

On Kootenay Lake
On Kootenay River
On Slocan River
On Arrow Lakes
On Columbia River

In Fire Valley and Creston

Districts, and several partly improved farms. Wild land suitable for stock ranges. Write me for free pamphlet and terms of payment, and

Don't Buy till you SEE ME

I have a fruit farm of my own located on the Kootenay river on which I have 1500 fruit trees, some of these are bearing. This is not for sale, but I have had experience in selecting lands, clearing lands, planting and pruning trees and I am prepared to make reports on land as to the location and desirability for fruit culture.

If You Buy Here
You're Safe

It's a great idea—when a merchant asks fifteen dollars for a suit—the buyer offers twelve and the merchant "takes him up."

If that merchant could afford to sell the garment for less than he asked why did he not name the lowest price at once?

We guarantee that you will pay here fully as much as your neighbor—and just as surely you'll pay just as little.

FIT REFORM SUITS
have the price on the inside breast pocket of the coat.

$15, $18, $20, $22, $25.

If you pay less elsewhere you'll get less value.

London, May 9—Lead, —16 15s.; silver, 31.

NELSON'S NEWS OF THE DAY

James Cronin passed through last evening on his way from Moyle to Rossland.

The regular monthly meeting of the Nelson board of trade will be held this evening in the board of trade rooms at 8:30.

It is learned that Mr. justice Morrison will preside at the assizes opening in Nelson on May 18.

A merchant who can advertise but fears the expense is in danger of losing the opportunity and means before he loses the timidity.

Why be more reckless of time than of money. To postpone advertising is to be reckless of both.

A. B. Netherby of the staff of the Royal Bank, left last night for Vancouver where he has been appointed to the managership of the Mt. Pleasant branch.

The members of the Ymir lodge of Free Masons paid a fraternal visit to Nelson lodge last evening and exemplified the third degree. There was a large attendance of local masons.

It's not enough to have read the ads last week, nor to intend to read them next week. Today's reading of the ads is as essential as is today's reading of the news—if you would keep up with the times.

Silver and lead both advanced yesterday on both the London and New York markets. Silver rose two points on each market; the American price is now 67 cents. Lead advanced four points in London and is now £16 15s. a ton.

As one means of beautifying the town, the city authorities are having all the hydrants painted a red brown. The immediate effect is to make the hydrants stand out conspicuously, usefully so when a fire occurs.

One practical suggestion has been made by a citizen for beautifying the city. He suggests that the city construct boulevards for all householders who will undertake to care for them, as the shade trees have already been provided. He points out that the city can do the work at far less cost than private owners.

The Nelson choral society will meet next Monday evening at 8 o'clock in the Knights of Pythias' hall. The society is to produce the cantata "May Queen" at midsummer, and for its success full and regular attendance of members is essential. If the interest taken as shown by the attendance warrants it, the date of the production will be decided at Monday evening's meeting.

The regular monthly meeting of the University club will be held Saturday evening at 8 o'clock in the club parlors. W. J. Baird will read a paper on Positivism, dealing with its later developments and including a review of contemporary philosophy. The subject of the endowment of a provincial university will also come up for discussion. A full attendance of members is requested.

Today is the eighth anniversary of the first daily paper ever published in this city—the Nelson Miner—which started its career as a daily on May 10, 1898.

The coast train last night was nearly two hours late. The traffic on the main line is already very heavy. Tuesday's train out of Vancouver had to be divided into two sections.

H. E. Croasdaile has taken W F. Mawdsley into partnership in his real estate and insurance business. The name of the firm will be H. E. Croasdaile and company and their chief attention will be devoted to the sale and purchase of fruit lands.

PRESENTATION AT VICTORIA

Imperial Troops Given Magnificent Silver Cup at End of Service

Victoria, May 9—A farewell concert and presentation to the imperial troops of the Work Point barracks took place tonight at the drill hall. On behalf of the citizens, lieutenant governor sir Henri Joly presented a magnificent silver loving cup, standing three feet high, to the officer commanding the troops. The cup is engraved with the coats of arms of the various branches of the service represented in the garrison.

TORONTO STRIKE SETTLED.

Toronto, May 9.—The journeymen
Toronto, May 8.—The journeymen plumbers, who threatened a strike for an increase of five cents an hour have compromised with the bosses for a two and a half cents advance, making a minimum of 47½ cents.

FUSE

There are reasons why the Maple Leaf Brand Fuse is a superior article:—Examine a piece of this Fuse and you will find that four separate coverings are placed over the powder—that the quality of powder used is of the highest grade; insuring it to be absolutely waterproof, and every foot to burn at uniform speed—something that is essential when blasting on a large scale.

Stocks carried at Victoria, Nelson and Winnipeg.
