THE DAILY NEWS

VOL. 5 NELSON, B. C., SATURDAY, MAY 12, 1906 NO. 17

HORSES ARE ABANDONED

Train Robbers are Being Closely Pressed by Sheriff Wood

Are Located on Campbell's Range Not Far From Kamloops--Bloodhounds are Sent Under Charge of Constable Young

(Special to The Daily News)

Kamloops, May 11.—A camp of the train robbers was found on Campbell's range yesterday morning and it was reported that two horses were captured, with full equipment of saddles and provisions.

This morning, under date of last night, constable Pearse sent in a message that after they had left the camp found in the morning, one of the robbers came down from Big hill, which is a long high mountain south of Campbell's meadows, and entered the camp. The Indians with Pearse think the man returned up hill where Pearse supposed their camp to be located. It was too dark to do anything last night when the discovery was made. Blood hounds from Nelson, in care of constable Young, are now on the way and will be on the ground in the morning.

There was some excitement here last night as it was reported the robbers were coming down the Thompson river in a boat. Indians from ambush fired on the boat, which they thought contained three men, but it turned out to be a resident of Kamloops, out fishing. No one was hurt.

(Special to The Daily News)

Kamloops, May 11.—(1.30 p. m.)—Sheriff Wood has just returned from Campbell's meadows. He was interviewed before he alighted from his horse. He said it was thought last night, when Pearse sent in his message, that one of the robbers had visited the camp and returned to Big hill. Investigation this morning satisfied the Indians that the man did not go back and the track coming down the hill may be an old one. Wood does not think the men are there at all. They have found three camps all told. One on the first day, an old camp, which had evidently been headquarters while the bandits were preparing for the robbery, as there is a well beaten track from it to the railway. The one found yesterday morning, when they got the two horses, was higher up the hill and the posse passed within one hundred yards of it the night before. They must have disturbed the robbers, who shifted their position to another camp, found at 5 o'clock this morning, and where they found a handkerchief, a piece of candle and a scrap of letter, and a piece of the Manitoba Free Press, of April 10th.

At the camp found yesterday, they found besides the two horses, a $30 saddle, flour and other provisions, clothing, etc. The horses were hobbled American fashion, one hind and one fore foot. The same horses were seen earlier in the week, on Monday, by cowboys, several miles away and the supposition is that they wandered farther from the camp than the robbers anticipated, and when they wanted them they could not find them, otherwise they would have been farther away. They found several stakes near the old camp showing where horses had been tethered, but the feed was not very good and the robbers had been obliged to hobble them to give them a better chance to feed.

This morning, when hunting for tracks, they came across some leading into the valley. These they followed for two miles, still with tracks in view.

The pursuers are now resting waiting for the blood hounds, not wishing to disturb the tracks and spoil the scent.

Wood says a fire is raging on the mountains so that escape that way is impossible and the only way out is the Grand Prairie road. He is satisfied that one man at least is in there and that with further hunting other caches will be found of supplies and probably mail stolen.

The camp found this morning is on the highest pinnacle of the mountain, a good lookout place. It is on the tracks found this morning in the valley that the blood hounds will be put as soon as they arrive.

Constable C. W. Young left last evening for Kamloops with his blood hounds, the order rescinding the prohibition of this method of tracking down criminals having been received from superintendent Hussy in time to permit of his departure by the 7.15 train.

The following is a description of the train robbers:

The Leader—A man about 5 ft. 6 in., fairly well built, apparently young, dressed in old sweater.

Second Man.—Height about 5 ft. 6 or 7 in., about same build, probably between 40 and 50 years of age, shabbily dressed in old dark suit.

Third Man.—About 5 ft., 9 in., slim, with red moustache, wore dark suit.

All three had soft felt hats and were shabbily dressed.

STANDARD OIL ENQUIRY

Chicago, May 11.—Nearly every railroad running south, north and west, from Chicago, was represented before the interstate commerce commission when the Standard Oil hearing was resumed today. Attorney C. C. Maforge, representing the Standard Oil company of Kentucky, opened the proceedings by a cross examination of Maywood Maxon, of Illinois who testified yesterday.

DUNSMUIR IS GAZETTED

NUMEROUS BILLS REPORTED IN PARLIAMENT

BIG YUKON FORAGE CONTRACT LET AT LOW PRICES

(Special to The Daily News)

Ottawa, May 11.—The bill to incorporate the Vancouver, Fraser Valley & Southern railway, was reported at the railway committee today. The bill was in the charge of R. G. Macpherson.

R. Collister, Hull inspector at Victoria, has resigned and the two marine boiler inspectors at Victoria and Vancouver, J. A. Thompson and F. M. Richardson, have been named to temporarily do the work that Collister has been doing. An examination of candidates will be held soon and a successor to Collister will thereafter be appointed.

Captain Troup, manager of the C. P. R. steamers, will be appointed Pacific coast representative on the light house board. There is no salary attached, the position being purely advisory. The captain will be looked to for advice in respect to aids to navigation in British Columbia.

The Pacific bank bill has been reported. The name is changed to the United Empire Bank of Canada.

The bill extending the time for the Farmers' Bank to start has been extended six months.

The Union Trust company's bill, with the head office at Winnipeg, has been reported on.

The Yukon forage contract goes to H. A. Munn of Victoria, the lowest tenderer, excepting for oats for Whitehorse, which contract goes to P. Burns & Co. Munn's contract will amount to over $40,000. The prices are the lowest at which forage was ever purchased by the government.

An order in council has been passed appointing Hon. James Dunsmuir of Victoria, lieutenant governor of British Columbia in the place of Hon. sir Henri Joly de Lotbiniere, whose term of office expired some time ago.

The committee having in charge the Lord's Day Observance bill report that they were unable to arrive at any mutually satisfactory arrangement with the Lord's Day Alliance representatives in the matter of modifications to the bill. So far as the amendments asked for by the transportation companies are concerned the Alliance would only agree to the following concessions:

(1) To allow all freight trains in transit when Sunday began to continue to destinations; (2) to allow the loading and unloading of merchandise at intermediate points for passenger boats and trains; (3) to allow railway companies to keep their tracks clear from ice and to patrol permanent way; (4) to allow the Sunday loading and unloading of ocean steamers where necessary tod avoid interfering with schedule sailings; (5) to permit yard crews to work under certain restrictions, and provide that the man working on Sunday be guaranteed by statute one day of rest per week and double pay for any Sunday work.

BOUNDARY PAY DAY.

Over $125,000 Paid Out, at a Conservative Estimate—The Details

(Special to The Daily News)

Phoenix, May 11.—At most of the prominent mines and smelters in the Boundary the 10th of the month is the regular pay day. Consequently the pay for April was distributed yesterday. Without having official figures to quote, a close estimate places the amount paid out by the three large companies operating in the Boundary at $126,000, and there is every reason to believe that this estimate is conservative. The figures, on this basis, would be divided about as follows among the three large companies: Granby, $75,000; B. C. Copper Co., $26,000; Dominion Copper Co., $25,000; total, $126,000. This does not include the payroll for the work being done on new construction, nor that for the many smaller high grade mines being operated in different camps in the Boundary.

In Phoenix camp, there was paid out yesterday nearly half of the above amount, namely $60,000. This was paid to the mine employees of the Dominion Copper Co. and the Granby Consolidated, and is a little less than for the previous month on account of one furnace of the battery of eight being out of commission at the Granby smelter for most of March, while repairs and enlargements were underway. The June 10th pay day should exceed that for May 10th by quite a little.

DR. TELFORD'S CASE.

Medical Council Declined to Consider Application For Reinstatement

(Special to The Daily News)

Victoria, May 11.—The medical council of British Columbia today considered the application for reinstatement to practice of Dr. Robert Telford, of Vancouver, whose name was struck from the rolls as a result of the investigation into the death of Miss Hattie Bowell. Dr. Telford appealed to the supreme court and Mr. justice Morrison sustained the appeal. The full court, however, annulled the decision of the single judge and sustained the medical council.

The council today announced that they were not sufficiently seized of the facts to take further action and adjourned the application for re-enrollment until next year. Dr. Telford is an ex-Manitoban.

HOLD-UP IN BOUNDARY

HIGHWAYMAN AT GRAND FORKS IS EVADED BY WOMEN

LADIES SCREAMED SO LOUDLY AS TO FRIGHTEN ROBBER

(Special to The Daily News)

Grand Forks, May 11—Midway is not alone with respect to holdups. Last evening about 9 o'clock Mrs. Simard and Mrs. Galloupy, wives of employees of the smelter, while returning home from the city, were held up on the river road, near Miss Walker's boarding house. The highwayman, who is described as of medium height and wearing no mask, stepped in front of the frightened women and ordered them to throw up their hands, at the same time pointing a revolver at their heads. The terrified women instead of obeying the order, imfediately commenced to scream, and ran, the highwayman being so intensely surprised at the sudden action of his victims that he remained motionless on the road watching the fleeing women, who did not stop until they had gained a nearby residence, where they sought protection.

The city police were notified and a search party was sent after the highwayman at once but were unable to find any trace of him. Yesterday was smelter payday, and both of these ladies had just cashed their husband's checks, and had, it is reported, over $100 on their persons. Undoubtedly it was the sudden action of the ladies in uttering such piercing screams that completely astounded the robber and prevented his relieving them of the money.

METHODIST CONFERENCE

STATIONING REPORT FOR THE KOOTENAY DISTRICT

REV. W. L. ASHLEY MALL TO COME TO NELSON.

(Special to The Daily News)

Victoria, May 11.—The general conference of the Methodist church in British Columbia opening here today promises to be the most important denominational convention of the kind ever held in the province.

Last evening Rev. Dr. Robson preached his jubilee sermon and farewell to the active ministry ater 50 years of uninterrupted service. His superannuation is to be marked by the erection of a Robson memorial church at Epworth, his last charge, in the suburbs of Vancouver.

Among the radical changes proposed to the conference in the series of more than 120 resolutions now before the various committees, are: The increase of the ministerial salary standard ,the abolition of the time limit in stationing ministers (now under four years), the inclusion of laymen upon the stationing committees, the rendering of women eligible for all church offices and the advocacy of a truly British Columbian university, failing which, Columbian college, New Westminster, will be brought into yet closer relationship with Toronto university.

This morning the conference officers for the ensuing year were elected as follows: President, Rev. S. J. Thompson, Centennial church, Victoria; secretary, Rev. A. E. Roberts, Nanaimo; assistant secretary, Rev. R. T. Stillman, Chilliwack; journal secretary, Rev. T. H. Wright, Cowichan; statistical secretary, Rev. G. R. B. Kinney.

Upon the suggestion of the Victoria Tourist association, the conference unanimously passed a resolution urging the general conference of the church in Canada to be held in Victoria in 1910.

The first draft of the stationing committee for the Kootenay district is as hereunder; Nelson, W. L. Ashley Hall, B. A., B.D.; Ymir, (pastor wanted); Kaslo, Samuel J. Green; Poplar, Sandon, New Denver, Slocan City, all to be supplied; Rossland, John D. P. Knox; Trail, Joseph W. Winslow; Grand Forks, Elihu Manuel; Greenwood, Henry S. Hastings; Phoenix, Charles W. Whittaker; Walter W. Baer, left without station.

One of the committee of the conference vested with heavy responsibility is that which has in review grave charges affecting ministerial character. Today the case was under consideration of Rev. W. W. Baer, of Nelson, a former well known pastor of this city and Nanaimo, and the inventor of the automatic return typewriter carriage. He had been tried by the constituted district tribunal of the church and convicted of drunkenness. The evidence taken at the inquiry preceeding suspension is now being gone over by the committee, the defense being largely a denial of the correctness of the past proceedure. After completing the abstract of evidence, legal advice will be taken before the conference action, which may be either endorsement of disallowance of the suspension, or even dismissal from the ministry.

A second case of even greater gravity may be said to be not yet before the conference proper, although it has been discussed in the ministerial session, but rather before the Victoria district church authorities to which Rev. W. J. Stone is subordinate. The accusation is that Rev. Stone, who is a missionary engaged on the west coast of the island, is guilty of the ruin of his own 17-year-old daughter. He has been requested to attend and defend himself from the terrible charges and if he answers the summons promptly, the conference will be able to deal with the matter by review during the present term. Should Rev. Stone insist upon his right of a fortnight's notice the review will go over to next conference. The charge is accompanied by a request for the missionary's expulsion from the ministry and the church.

SIGN OATH AND RETIRE

First Meeting of Russia's Real Rulers at the Winter Palace

Count Witte is Formally Appointed a Member of the Council of Empire--Splendidly Clad Body of Courtiers

St. Petersburg, May 11.—The formal opening of the reorganized council of the empire, or upper house of parliament, took lace this afternoon in the hall of the nobles at the Winter palace. The ministers wore their full regalia, the members of the chancellery wore court dresses and swords. The doors were guarded by servants in picturesque livery and the boxes were occupied by diplomats and high officials and richly dressed women and though a number of elective members were not in uniform the colored smock and kaftan of the peasants and the high boots and rough coats of the workmen were not in evidence. The majority of the elective members, indeed, who came from the landed nobility and upper ranks of commerce, vied with the appointives in the number and richness of their decorations.

The only sturdy little group of liberal professors, pledged to move that the sentence of death be imposed upon the existence of the legislative body to which they were elected, came in democratic simplicity, their civil garb not being relieved by a ribbon or a medal.

While the lower house is distinctively a body of new men, the names of the members of the council of the empire can be found in the index of Russian history of the past century, including Ignatieffs, Alexieffs, Pobedientseffs and the Doulogoukoffs of the old regime, a mass of retired ministers, soldiers and statesmen of the past, the heads of many of Russia's noblest families. Though picturesque as a pageant, today's ceremony was uneventful and unimportant historically.

After count Solsky, the president, had declared the session opened, the transaction of business began. It consisted of the announcements of the appointments of officers and the signing of the oath of office. The only surprise was the reading of an announcement that count Witte was a working member of the council, the omission of his name from the previous list having been interpreted as a deliberate slight, which the czar evidently took pains to correct.

The unexpected appearance of the tall form of the former premier at the door was the first intimation of the czar's action and it created a buzz of excitement. The explanation of his appearance came later when a ukase was read appointing count Witte and M. Manukhin, former minister of justice, to be members of the council of the empire. The organization of the council was preceded by a religious service. After the members had signed the oath, the body adjourned.

TURKEY WILL CLIMB DOWN

London, May 11.—Diplomatic activity seems to foreshadow an amicable settlement of the Tabah difficulty. Both at London and Constantinople Turkey is seeking to make an arrangement. The latest despatches from Constantinople state that the sultan's advisors counsel yielding to the British demands and that on Thursday Turkey offered to evacuate the disputed points on conditions that were not acceptable to Great Britain. Meanwhile the British naval preparations are proceeding. The Mediterranean fleet is ready for departure. The great size of the British fleet in Turkish waters is due to the probable necessity of providing landing parties should Turkey continue obdurate. It is practically certain that there will be no attempt to force the Dardanelles or to make a demonstration before Constantinople.

UNION LIFE'S STATEMENTS

Analysis Shows Deficits Where Large Surplus Had Been Claimed

Toronto, May 11—The analysis of the annual statements of the Union Life Assurance company by consulting actuary M. M. Dawson of the dominion insurance commission, shows deficits each year where the company itself claimed a surplus. The result of the examination by Mr. Dawson of the insurance company's reports was embodied in a question which Mr. Shepley put to the secretary of the assurance company, H. Symons, K.C., yesterday. The result attained by Mr. Dawson in figuring up the assets and liabilities of the company was an annual deficit of from $38,000 to $101,000. The Union Life was paying a dividend of 10 per cent per annum, until the appointment of the insurance commission was broached, when the dividend was reduced to 7 per cent. Where Mr. Dawson found a deficit of $100,000, the statement of the Union Life disclosed a credit balance of $51,883 over all liabilities.

Mr. Carrie, bookkeeper for the Union Life, said Mr. Dawson could not intelligently analyze figures "without the key to the groupings," but Mr. Shepley told him that he was not in the witness box to criticize other people.

CANADA'S TRADE REPORT

INDUSTRY AND TRADE ACTIVE IN BRITISH COLUMBIA

ALL BANK CLEARINGS SAVE ONE SHOW INCREASE

Montreal, May 11—Bradstreets tomorrow will say:

Cool weather has been a drawback to Canadian trade this week, but despite this the tone of trade is very cheerful and a large future business is looked for. Seeding has been very general under excellent conditions. Ocean navigation is open at Montreal and cattle and flour shipments have been heavy. Collections have improved. Easier prices for dairy produce are noted as the result of new crop arrivals.

Toronto reports that trade in summer goods has been affected by cold weather but trade is generally brisk. Large shipments by water route are reported.

Trade at Winnipeg is satisfactory. The marketing of last year's crop and the large arrivals of immigrants, who seem well supplied with money, help trade and collections in the northwest. Seeding is practically finished.

Industry and trade is active in British Columbia and collections are good.

Failures for the week number 28, as against 20 last week and 18 in this week a year ago.

The following are the weekly bank clearings in Canada as compiled by Bradstreets for the week ending May 10, showing percentages of increase and decrease as compared with the corresponding week of last year:

		Inc.	Dec.
Montreal	$30,486,622	18.8	....
Toronto	26,319,326	31.8	....
Winnipeg	4,488,179	19.4	....
Ottawa	2,830,232	30.2	....
Vancouver	2,338,935	29.9	....
Halifax	1,758,118	....	6.4
Quebec	1,976,716	18.3	....
Hamilton	1,720,933	16.0	....
St. John	1,134,197	1.1	....
London	1,340,004	25.6	....
Victoria	251,656	4.6	....
Calgary	273,257	....	....

MEETS IN NELSON IN '07

William Irvine Elected Grand Commander K. of P.—Other Officers

A despatch from Nanaimo states that at the meeting of the grand lodge of the Knights of Pythias held there, the following officers were elected for the ensuing year: G.C., Wm. Irvine, Nelson; V.C., George Malloy, Kamloops; G.P., Geoffrey Hammer, Grand Forks; G.K.R.S., Emil Pierdner, Victoria; G.M.E., Thomas Walker, Victoria; G.M.A., H. A. Brown, Revelstoke; G.I.G., Robert. A. Townley, Vancouver; G.O.G., John Thompson, Cumberland.

It was decided to meet next year in Nelson, the session to commence on May 3.

The grand lodge wired San Francisco grand lodge its sympathy in their recent disaster and voted them a substantial sum of money.

The British Columbia lodge of Rathbone Sisters also met, a large number of delegates being present. All reports received showed the order to be in a flourishing condition. The Rathbone Sisters elected the following officers for the year: Grand chief, Ida M. Roberts, Rossland; grand senior, Margaret Nelve, Nanaimo; grand junior, Minnie Engnew, Revelstoke; grand M. of R. C., Vene M. Collins, Rossland; grand M. of F., Cora Manly, Grand Forks; grand manager, Mary Harries, Ladysmith; grand P. of T., Annie Wilson, Nanaimo; grand G. of O. T., Elizabeth Campbell, Trail; G.P.C., Laura Chappel, Grand Forks; supreme alternate, Rhoda J. Pelky, four years, Vancouver; Laura Chappel, two years, Grand Forks.

AMERICAN IMPORTS

Big Increase During Last Month at Port of New York

New York, May 11—The appraiser of the port states that the total appraised value of importations during the month of April was $66,280,605.91, an increase of about $6,000,000 in comparison with the same month of last year. The imports of precious stones during April amounted to $1,614,982, an increase of $1,185,000, as compared with the same month of last year.

One hundred and fifty-two automobiles valued at $508,000, including 15 domestic cars, were imported in April, as compared with 62 cars in the same month of 1905. Four hundred and fifty-two automobiles, including 25 domestic cars have been imported in New York since Jan. 1. In the same period last year 234 cars were imported, including 16 domestic.

TO INSPECT GRANBY

President Langeloth Expected at Phoenix Today on Annual Visit

(Special to The Daily News)

Phoenix, May 11—Jacob Langeloth of New York city, president of the Granby Consolidated, is expected to reach Phoenix tomorrow on his annual trip of inspection of the properties of the company, and may remain here several days. Mr. Langeloth will be accompanied by Mrs. Langeloth, Jay P. Graves, general manager of the Granby company, and by A. B. W. Hodges, general superintendent of the company. Mr. Langeloth is president of the American Metal company of New York, and is one of the several New York copper men who bought into the Granby company two years ago. He was chosen president of the company when S. H. C. Miner of Granby, Que., retired.

GLOUSTER GROUP

Inspected by Frederic Keffer for B. C. Copper Company

(Special to The Daily News)

Grand Forks, May 11—Frederic Keffer, chief engineer of the British Columbia Copper company, accompanied by Mr. Johnson, formerly superintendent of the Emma mine, has just completed an extensive examination of the Glouster group of properties, recently transferred by George A. McLeod to the B. C. Copper company. No definite information has yet been announced regarding the conclusion of this deal, but it is expected that the company will do some extensive development work on the properties this summer.

ROYALTY UPSET

Berlin, May 11—The dowager queen of the Netherlands, mother of queen Wilhelmina, was thrown from an automobile today at Steinfort, Westphalia, where she was attending the wedding of prince and princess von Bentheim-Steinfort. The machine struck a butcher's wagon, ejecting her majesty and prince von Bentheim-Steinfort. The queen mother was bruised, but resumed her journey.

HOMESICK EMIGRANTS

Toronto, May 11—Thomas Southworth, director of immigration for the Ontario government, denies the report that 300 English emigrants were returning home dissatisfied. He says a few scattered ones may have returned, mostly through homesickness. Some 20 English families passed through Ontario on Wednesday en route home, but every one of these came from United States points west of Detroit.

CAPACITY IS DOUBLED

RECENT IMPROVEMENTS AT THE TRAIL REFINERY.

PREPARATIONS TO DEAL WITH INCREASED OUTPUT OF MINES

(Special to The Daily News)

Trail, May 11.—A new electrolytic generator, which will have the effect of more than doubling the capacity of the electrolytic refinery of the Canadian Reduction works here, which was installed having the capacity of 15 tons of lead daily, has been ordered from the Canadian General Electric company's works at Toronto and should be here for installation sometime about the end of next month. The new set is rated at 400 kilowatts. There are two sets of generators in use each being rated at 122½ kilowatts. The new set is, therefore, more than 2½ times the capacity of those in use. The plant ordered will cost in the neighborhood of $20,000, when installed, but of course, more tank room will have to be prepared and more cthodes. The horse power is 600.

DOWIE VERY ILL.

Is Likely to Die Within the Next Ten Days.

Chicago, May 11.—John Alexander Dowie is critically ill in bed and his strength is said to be falling rapidly. Dr. Blanks, who has been in constant attendance on Dowie since his return from Mexico tonight said that Dowie might live ten days, but that a fatal termination of the disease within two or three days would not be surprising.

HER MAIDEN VOYAGE.

C. P. R. Steamer Empress of Britain Passed Cape Ray.

Montreal, May 11.—A Marconi message to Cape Ray reports the Canadian Pacific liner Empress of Britain 100 miles southeast at 10 a.m. A dense fog with a strong east wind prevails.

Later.—The C. P. R. steamship Empress of Britain passed Cape Ray this afternoon and is due at Quebec tomorrow.

FRESHETS DELAY CONSTRUCTION.

Vancouver, May 11.—The Canadian Pacific Railway company has been very unfortunate in the construction of the Nicola Valley railway. First, the shortage in railway ties, and now the freshets have come, and it is not likely that the road will be open for traffic till late in the fall or about December 1.

When work was first commenced on the line it was intended to open it for traffic by May 1, but although trains are running on construction work along various parts of the road, the bridges are not all up, nor can they be erected until the present high water abates.

COAL MINES BILL PASSED

London, May 11.—The Coal Mines bill, the object of which is to gradually reduce the hours of work, till they reach the eight hour limit in 1909, without reducing wages, was passed unanimously on the second reading in the house of commons today. The bill affects 670,000 persons. Previous parliaments had rejected the same bill four times, although it passed on second reading an equal number of times, twice by large majorities.

PROHIBITION IN P. E. I.

Charlottetown, P. E. I., May 11.—King county yesterday voted to repeal the Scott Act and to bring the provincial prohibitory law into operation. Queen's county will vote on June 7, and will likely follow the lead of King, thus placing the whole island under the same law.

INVESTIGATE HILL'S CONDUCT

New York, May 11.—An investigation into the relations of former senator David B. Hill with the Equitalbe Life Assurance Society, was begin today by a special sub-committee, appointed by the rievance committee of the New York Bar association.

ARCHBISHOP OF NEW ORLEANS

Washingeton, May 11.—Rt. Rev. James H. Blenk, bishop of Porto Rico, has been appointed archbishop of New Orleans to fill the vacancy created by the death of archbishop Chapelle.

CARLOAD OF HORSES CREMATED

Treherne, Man., May 11.—A car containing 13 imported horses caught fire while in transit near here today, and was destroyed together with the animals.

McMILLAN GETS SECOND TERM

Winnipeg, May 11.—Lluetenant governor McMillan was today appointed for a second term. He is decidedly popular and the appointment gives universal satisfaction.

TRAMP WAS WEALTHY.

Napanee, Ont., May 11.—A tramp, begging around town, was arrested today and found to have $780 in his possession. The magistrate fined him $50.

PRESIDENT LOUDEN RESIGNS

Toronto, May 11.—President Louden, of Toronto university has resigned. No reason is given for his resignation.

BILLIARD TOURNAMENT

Chicago, May 11—George Suton tonight defeated Louis Cure in the sixth innings of the billiard tournament here by a score of 500 to 237.

SITUATION IN NATAL

Thousands of Zulus Now on Their Way to Join Chief Bambaata

Colonial Troops Hurried Forward to Prevent Junction--Rebel Warriors Anointed With Blood of Children

Durban, May 11.—Thousands of Zulus from chief Kulas' kraal are reported to be on their way to join the rebel chief Bambaata, and colonial troops are being hurried forward to prevent their junction.

Chief Kulas, who is suspected of dissatisfaction and was recently arrested, was placed in jail at Pietermaritzburg today. It is presumed that it was the arrest of this chief which led to the rising of his followers.

Natives captured by colonial forces report that witch doctors are sacrificing children in order to render the rebels immune from British bullets. Before a battle they kill a girl and concoct "medicine" from her body with which they anoint the warriors.

WOMAN MINER

Has Made Success of Property on Prince of Wales Island

Seattle, May 11.—Mrs. Tola Wyman sailed for Prince of Wales island on the steamer Dolphin last night, after having received reports on the assay of 141 tons of copper ore from her island properties. The ore ran $27.96 to the ton and an assay she secured from a new ledge uncovered at the 100 foot level showed $67.75. And so Mrs. Wyman went back to Prince of Wales island happy over the prospect and insistent that within a few months more her mine would become one of the best known properties in southeastern Alaska.

The Wyman, or Red Wing mine has been opened and developed by a woman. When Mrs. Wyman bought into the property several months ago it was an abandoned property apparently hopelessly involved in litigation and of little apparent value. She bought out all the interests and went north to make good.

Mrs. Wyman has owned, managed and developed mining properties in Utah, Colorado, California, Old and New Mexico and the Alaskan proposition was not a serious one to her. She has been directing the work at the mine and conducting a store at Copper City as a side issue. The fact that the mine is succeeding is indicated by the assays and the announcement that the Al-Ki will make monthly calls for ore.

"I have every confidence in my property," said Mrs. Wyman just before returning to the north. "Within seven weeks I have taken out $7000 worth of ore and the property looks better the farther I go. It is taking time to develop the fine, but I am confident of its becoming famous within three years more. We have been working on a vein that run from 22 inches to 7 1-2 feet in width. It was from this vein that I shipped 141 tons of ore to the Tacoma smelter on this trip out. This shipment netted me $3,502.93 after smelting and certain other charges.

TO CELEBRATE VICTORY

Japan Will Hold a Great Industrial Exposition at Tokio

Seattle, May 11—Japan will celebrate her victory over the Russian Bear with a big industrial exhibition to be held in Tokio, near the Hibiya park, opening next September and continuing for three months. The exposition will be under the auspices of the government and foreign countries have been invited to make entries in the various classifications of industries and manufactures to be represented.

A letter has been received by the Seattle chamber of commerce from the fair commission of which count Masawoshi Matsukata is president, asking that Seattle merchants and manufacturers be invited by the chamber in the name of the fair commission to make entries in the various exhibits.

The exposition which will be called the Goni fair, will be maintained by the government and after the three months exhibition period as many exhibits as can be retained will be grouped into a permanent exposition and museum.

The communication calls attention to the fact that there is now a great field for American products and manufactures in Japan and the orient and solicits any correspondence seeking information as to the character and classification of the exhibits.

FUNERAL DRIVERS' STRIKE

New York Can't Bury Its Dead and Great Disorder Prevails

New York, May 11—The strike of 100 funeral drivers ordered last night crippled the undertaking business in New York city so completely that about 140 bodies remained unburied today. Hearses and carriages were driven away from the churches, mourners were kept waiting all day in homes of death, and in several instances non-union drivers of hearses and carriages were attacked in the streets and police protection had to be called.

In many cases undertakers appealed to the board of health for permits to postpone burials beyond the four day limit while others asked for permission to convey bodies to the cemetery on trucks or street cars under police protection. In every case permission to use street cars for funeral purposes was denied, but in cases where death had occurred from contagious diseases and immediate burial was required undertakers were forced to make use of their coffin wagons, or such vehicles as they were able to procure with drivers. The strikers declared tonight that their fight for $14 per week instead of $12 is in earnest. Their employers, the coach owners' association met tonight and decided not to grant the increase.

PARDON CAME TOO LATE

Kingston, May 11.—William Ross, of Port Hope, serving a five year term in the penitentiary, received a pardon today. He was being transferred to the civic hospital when he died of heart failure from which he had suffered for some time.

THE HILL INVASION

In view of his prospective visit to Winnipeg, the Tribune of that city, sent a representative to St. Paul to interview J. J. Hill, the president of the Great Northern railway.

The Tribune representative enjoyed a three hours' chat with the great railroad magnate and his report of the interview, as it appears in the Tribune of May 8, makes one of the most interesting and instructive articles upon western railroad development that has ever appeared in the public press.

It would be impossible in the course of a brief article to deal at all adequately with the many topics pertinent to the subject that J. J. Hill touched upon, but some few extracts from the published interview will serve to indiate the true inwardness of the "Hill invasion" and to give some idea of J. J. Hill's views on such interesting phases of the railway question as subsidies, over-capitalization and rates.

Speaking first of his plans to build a line from Vancouver to Winnipeg Mr. Hill said:

"As you of course know, we have bought our terminals right into the heart of the city of Winnipeg, and we shall lose no time in getting our connecting line from the boundary into the city constructed. It should be finished next fall. Then we are now pushing forward the grading on the branch lines from Gretna to Portage la Prairie and from Bottineau via Boissevain and the Souris to Brandon, having secured terminals in both Brandon and Portage la Prairie."

"And what about the main line?"

"Yes, that is important. We have fully decided on that. As you know, we have a line in British Columbia to Fernie, and we propose, without unnecessary delay, to push that line across the great western prairie until Winnipeg is reached."

"I suppose your route will be via Lethbridge and south of the C. P. R. main line?"

"Not by any means," answered Mr. Hill emphatically, going over to a map of western Canada which showed all the railway lines. "We do not consider that (running his index finger across the territory south of the C. P. R. from Lethbridge to near Weyburn) very good land and we propose to cross the C. P. R. and run a line considerably north of it, where the country is A-1 and where the local traffic is sure to be heavy."

"Where would you cross the C. P. R. —at Medicine Hat"

"Well, that we cannot say at present. That is a detail which will have to be settled after the fullest investigation of the country's resources."

"Then you are not thinking of the most direct transcontinental route in order to capture passenger traffic?"

"No, we are not so much concerned in that as in tapping a territory prolific in agricultural resources."

In the above connection Mr. Hill spoke of the great coal deposits of the Crow's Nest and the lumber resources of this province, remarking:

"The two great needs of the settler of your vast country are shelter and warmth. Providence made magnificent provision for both, if care is but taken to see that they are made available. The forests of British Columbia will furnish all the lumber necessary for homes if this great resource is husbanded, and the Crow's Nest possesses all the fuel necessary to keep the teeming millions of the centuries to come, warm. But your people should see that both these prime necessaries are supplied to the masses at the lowest cost. For our part we shall do our best to help the settlers out with low rates for lumber and coal."

On the subject of subsidies, over-capitalization and rates Mr. Hill said:

"There will soon be an end to your subsidy policy. It is entirely unnecessary. With the country developed as it is railways should be built without costing the people a cent. That is the policy we have followed in our country, and that it has paid handsomely I can easily prove.

"We propose to build our Canadian system at the lowest possible cost consistent with excellent work and thorough equipment, for, as you must have gleaned from the tenor of my policy, I am a believer in the best road bed, the lowest grades, the biggest engines and the largest capacity in rolling stock.

"In Canada we do not propose to bond our roads for a dollar. We shall just issue stock representing the actual cash outlay and as we have never figured on receiving more from the people than an average of seven per cent on our outlay you will see that the burden upon the people will be light. Our policy will enable us to set a new pace in the matter of rates, and I think you can mark it down that as a result of our advent into your splendid territory an effective period will be put to the bonusing or subsidy system. I should scarcely think the public men would care to propose subsidies, and that companies would have the hardihood to ask them in face of the facts."

"What do you estimate will be the cost of your line from Winnipeg to Vancouver when completed?"

"We have gone pretty carefully into estimates and the most rational conclusion we have been able to reach is that it will cost in the neighborhood of thirty millions."

Questioned as to the opposition developing in eastern Canada to his invasion of western Canada and with regard to the diversion of trade, Mr. Hill replied:

"Why, there's absolutely nothing to it. We have no intention whatever of invading eastern Canada, and under no circumstances can we divert trade. The tariff effectively prevents any diversion even if that were a possible aim. No, what we want is to provide a system of railways in your country to carry your products for you, to help develop and build up your country; that is our sole aim. We will undoubtedly prove a great feeder for the C. P. R. and Grand Trunk Pacific, and they will no doubt be glad to handle what we feed them."

"How about incoming freight?"

"Well, with a line of our own to Chicago, and with our connection, we will of course be an active competitor for freight from eastern to western Canada, and we hope to get a good share of it. But so far from that being any injury to the country it will be a distinct advantage, if we are able to carry it at just rates. No," added Mr. Hill, "there is nothing whatever to be alarmed at, and I am not losing sleep over any criticisms on that account. We know from what origin they spring. The people need our system and judging by the nature of the encouragement we are receiving on all hands the people want it and are unanimously in favor of having it."

RAIN SAVES SITUATION

FOREST FIRES NOW BELIEVED TO BE UNDER CONTROL

CHIEF DEASY AND ASSISTANTS DO GOOD WORK

While the rain storm of yesterday did a great deal of good in checking the progress of forest fires in the neighborhood, it is improbable that the fires have been completely put out anywhere. A burning log or stump may continue to be a source of danger for many days and may easily retain fire until the sun has again dried the brushwood.

All danger of the fire across the lake from Nelson spreading nearer the city or endangering north shore ranches, may however be considered over for the present at least.

Yesterday morning mayor Gillett took over a force of men and put them at the disposal of chief Deasy of the fire brigade. The work accomplished, and the present situation are fully described in the report handed to the mayor by the chief last night, as follows.

His Worship Mayor Gillett, Nelson, B.C.

Dear Sir—I have the honor to submit the following report with reference to the bush fires on the west side of Kootenay lake:

After leaving you at Mr. Hoover's farm at 8 o'clock this morning, the working party climbed the hill side and found the fire extending in a northerly direction. Three Chinamen, sent up by Mr. Hoover, were at work. We shovelled and cut away the underbrush and confined the fire within an area. Men patroled certain limited districts and during the morning the fire was kept in check. In the afternoon the rainstorm helped to keep the fire down. The danger of a general conflagration on the hillside is over, provided two or three men are kept constantly on the lookout to prevent the fire spreading over the paths which now have been cleared of underbrush.

Mr. A. Wright was the only volunteer present during the whole day and he promises to be on hand at daylight tomorrow. Mr. Hoover, assisted by three men he hired, was also of great assistance. The corporation workmen, Messrs. Foote, Deacon and Glover, worked hard to suppress the fires. The men sent over, Messrs. S. Osborne, H. Warn, W. Wallace and F. Fear, rendered all the assistance in their power.

After thoroughly going over the ground it is my opinion that at least two reliable men should be kept on watch, from daylight to dark, every day, and they should patrol the paths, clearing away every piece of burning rubbish near the limited area now on fire. The rain will do some good but there is danger from the many burnt ing stumps and trees. The men might fill in with earth all places where roots are burning and cover over any burning timber that has fallen. Two or three men can do this work and put a stop to what might be the cause of a great deal of trouble throughout the summer. Your obedient servant,

THOMAS DEASY,
Chief of Fire Department.

Nelson, May 11, 1906.

South of Nelson, along the line of the S. F. & N. railway the rainfall was heavier than in the immediate vicinity of the city, and its effect on the fire correspondingly greater. Members of the crew of the Great Northern train which arrived in the city last night, thought the fires round Ymir and Porto Rico were extinguished.

ST. EUGENE 'GRUB STRIKE'

Statement of Manager Cronin and Further Explanation by Phil McInnis

In reply to a query as to the present status of the alleged strike at the St. Eugene mine, manager Cronin telegraphs:

"Report in The Daily News is misleading. There is no strike at the St. Eugene. The Miners' union has nothing to do with this repeated boarding house trouble. The foreman, for personal reasons, influenced the men to back him in a demand which amounted to dictating the business of the company. This being refused, the men unwillingly quit work."

With further reference to this "grub strike" The Daily News has received the following communication from Phil McInnis, one of the St. Eugene miners, at present in town:

Editor The Daily News—In your issue this morning I read an account of the grub strike at the St. Eugene mine, Moyie.

As one of the committee of miners, appointed to interview James Cronin, I would like to make a few corrections.

In the first place, the Miners' union of Moyie had nothing whatever to do with the recent grub strike at the St. Eugene. The men refused to be starved any longer and simply walked out.

In the interview Mr. Cronin did not promise a change on the 15th. He promised nothing definite. He said; "We will run this to suit ourselves," meaning by "we" no doubt, himself and Wm. O'Rourke, the boarding house boss, who is a nephew of Mr. Cronin. I will not enter into a description of the grub, which was a disgrace to the management and an insult to an honest working man.

In connection with this trouble, I may say that a warrant was issued in the name of the constable at Moyie yesterday for the arrest of O'Rourke, the boarding house boss, charging him with intimidating men by a display of firearms. He was going to make them eat the grub and say they liked it, and produced a six-shooter as a persuader. It may be interesting to know that this is the third gun play made within six months in the company's office, by Wm. O'Rourke.

In conclusion I may say that the hungry miners of the St. Eugene will be very grateful for space alloted to these corrections and explanations in your paper.

Yours respectfully,
PHIL. McINNIS.

The Daily News endeavored to ascertain last night from Moyie whether or not Wm. O'Rourke had been arrested and the nature of the charge preferred against him, but the only reply elicited was to the effect that the story of the trouble at the St. Eugene had been exaggerated.

DOMINION COPPER

Consulting Engineer Well Pleased With Inspection—Doubling Capacity

(Special to The Daily News)

Phoenix, May 11— M. M. Johnson, consulting engineer for the Dominion Copper Company, Ltd., left yesterday for his home in Salt Lake City. Mr. Johnson came to consult with the resident manager, Thos. R. Drummond, regarding the extensions and improvements which the company has already under way or has ordered. He is well satisfied with what is being done at the several mines of the company as well as with the results being obtained in the smelting of the ores.

In the course of 30 days active work will be under way on some of the improvements which include preparations for doubling the smelting capacity to 1200 tons daily and the installation of the new Z-drill electric driven air compressor at the Idaho mine in Phoenix camp. Some time early in the fall, if machinery contracts are lived up to, these improvements should be completed, and in the meantime the mines of the company are being placed in position to furnish the increased output needed to keep the enlarged smelter busy. At mines and smelter the company is now employing approximately 300 men, and the smelter is turning out about a carload of copper matte every other day.

SPIER'S AFFAIRS INVOLVED.

Had Been Gambling in Exchange With Borrowed Securities.

New York, May 11.—Investigations which followed the mysterious death of Charles L. Spier, confidential agent for H. H. Rogers, who died from a bullet wound several days ago, disclosed the fact that his financial affairs were more involved than at first thought.

Exert accountants who have been appointed to investigate Mr. Spier's books have unearthed some startling discrepancies and today it is found that Spiers has been dabbling in the stock market for some months, and that securities owned by Mr. Rogers had been deposited. One lot valued at $180,000, which had been deposited with the brokerage firm of Kersch, Lowe & Co., figured most prominently in today's discoveres. These securities, a member of the firm said, were returned to Spier upon his promise to replace them. The promise was not kept. It has been developed by the present investigation that Spier had been pressed by Mr. Rogers for the securities, who said that when Spier got these securities from the brokerage house and returned them to himself, he had entrusted Spier with $840,000 worth of bonds of a new company. The investigation of Mr. Spier's accounts has not yet been completed, and it is not yet known whether his shortage will exceed the $180,000 already found.

F. B. Kersch, of the firm of Kersch, Lowe & Co., made the following statement tonight: "As statements of our possible loss through the late Charles Spier have been greatly exaggerated, we wish to state that the maximum loss possible to us is $57,000."

SENATE REFORM.

New York Comment on the Canadian Upper Chamber.

New York, May 11.—The Sun says: "Canada is considering the question of senate reform. It may be said in strict confidence, that a similar proposition has been made in this country with regard to a corresponding institution. There is, however, a distinct difference between Canadian and American bodies. Few ever hear of the Canadian senate, while many think they hear only too much of the American senate. Roosevelt would be a happier but a less busy man if he could swap Aldrich and those other fellows for the Canadian organization. The Canadian premier is evidently not a candidate for admission to the noble order of "muck rakers." Canada's decision upon the matter will be interesting if she adopts a system more nearly resembling our own. There appears to be no disposition whatever to elect the senate by popular vote."

SLOCAN MINES

Ore Shipments from the Midnight—Rich Workings of the Meteor

(Special to The Daily News)

Slocan, May 11—A carload of ore has been shipped from the Midnight. Several men have been added to the force and other ore shipments will soon follow.

At the Meteor the ledge has been struck in the lower tunnel, and it is as rich as in the upper workings. The lessees now have about 50 feet of fine ore to stope out.

At the Ottawa operations are in progress for the construction of the new compressor.

Neil McMillan and his father have returned to Sandon.

Capt. McClellan and family have removed to Arrowhead. Capt. McKinnon is now in charge of the steamer Slocan.

C. D. Cross and family, for a long time residents of Silverton, have removed to Victoria.

Born, in Silverton on April 30, to the wife of William Hunter, a son.

YOU would soon get rid of a servant who did only half the work in double the time of a capable one.

Then why continue using a flour that gives half the nourishment and double the work to digest?

Royal Household Flour

is made from selected spring wheat—a wheat that is rich in nutriment. It is the whitest and finest flour made; it makes fully one-third more bread to the pound than any soft wheat flour and is more dependable in every respect.

Ogilvie Flour Mills Co., Limited

STOCKS ARE NOW SOARING

PRICES HAVE FULLY RECOVERED FROM LATEST PANIC

PROVISION MARKET STRONG — ALL COMMODITIES ADVANCE

Quotations on the stock exchange today regained their last high figures of the week before the San Francisco calamity which sent all the securities down. The only stock which is still low is C.P.R. and that circumstance is fully accounted for by the recent issue of new stock and the fact that the shares now on the market do not convey the right to acquire any part of the new issue.

The opening today was on the average about $3 a share above Thursday's close. From opening the bulls had everything their own way, and the result of the day's trading was a net advance of nearly $2 per share over the high opening figures. The leaders in the upward movement were C.P.R., St. Paul, Union Pacific and Reading., A few stocks, among which were Sugar and Atchison, suffered fractional declines.

The Chicago provision market also advanced. Wheat, corn and pork for July delivery all attained their highest figures for the month and closed strong.

STOCKS—Sugar opened at 135 1-2, closed 135 1-4; Amalgamated Copper opened at 106 1-2, advanced to 107 7-8, closed 107 3-4; Steel common opened at 41 1-8, advanced to 42 at close, preferred opened 105 7-8, advanced to 106 1-2, closed 106 3-8; Tobacco opened at 83, advanced to 84, closed 83 1-2; St. Paul opened at 168 1-2, closed 170 1-8; U.P. opened at 149, advanced to 151 3-8, closed 151 1-4; L. & N. opened at 144 3-4, advanced to 146 1-4, closed 146; Atchison opened at 90 7-8, sold to 89, closed 90; Erie opened at 43 3-8, advanced to 43 3-4, closed 43 3-8; C.P.R. opened at 159 3-4, advanced to 161 5-8 at close; Penn. opened at 135 1-2, advanced to 136 3-4, closed 136 1-2; Reading opened at 129 1-2, advanced to 132, closed 131 1-2.

PROVISIONS—July wheat opened at 80, advanced to 81 1-2 at close; July corn opened at 46, closed 46 1-2; July pork opened $15.20, closed $15.25.

Reported by Sharp & Irvine, May 11.

ECHO OF FAMOUS CASE

Taxation of Costs in Star vs. White Now in Progress—The Appeal

Before the local registrar of the supreme court there has been in progress this week an interesting taxation in the famous mining case of the Byron N. White company and the Star Mining & Milling company, which recalls the several trials here of the greatest extraterritorial rights case ever heard in British Columbia, which involved the boundaries of two well known Slocan mines, the Reco and the Slocan Star.

Chief justice Hunter finally decided that the celebrated "black fissure" put forward by the Star M. & M. company was a myth and a sweeping judgment was given in favor of the Byron N. White company.

Many elaborately prepared models, maps and plans were produced at the trial and several eminent mining experts were examined and as the trial or series of trials here lasted at different times for many days in addition to expert and other examinations of the mine workings, the bill of costs presented by the victors is an unusually large one, $23,000 being claimed. Mr. Bowman, the registrar, has been engaged in taxing this bill for some time, with Taylor & O'Shea representing the attacking forces and R. S. Lennie defending and upholding the various items so charged. It will still take further time before the taxation can be closed up. N. J. Cavanagh of Sandon and Oscar White have been in attendance as witnesses in support of the bill and so far Mr. Cavanaugh has been examined. J. M. Harris has been here all week, an interested spectator of the taxation at Mr. Taylor's elbow.

Notice of appeal from chief justice Hunter's decision to the full court has been given and the appeal has ben set down for hearing but owing to the absence of Mr. justice Martin in Ireland, it has not been possible to get the appeal heard, nor will it be until after the long vacation.

In the meantime an application before the full court, made on behalf of the Star M. & M. company, for leave to do certain explanatory work, is also pending. It is asked that the extension south of the black fissure at the point where it is claimed that it cuts off the Slocan Star vein, be determined by further actual development. This was refused by the chief justice. If the full court allows this work to be done, the result may open up the whole case once more. The main appeal stands pending a decision on the motion to be allowed to do more work.

Her Husband no longer gets Intoxicated—Samaria Tasteless Remedy Cured Him.

This lady says: "For the first time since I have been married I can be happy and content—my husband is cured of his bad habit of drinking. Several months ago you sent me a free sample of your remedy at my request, and without my husband's knowledge I gave it to him in his tea and food. I then got a full treatment and gave it regularly. It worked wonderful, and I cannot sufficiently thank you for the blessed change it has brought to my home."

Free Package and pamphlet giving full particulars, testimonials and price sent in plain sealed envelope. Correspondence sacredly confidential. Address: THE SAMARIA REMEDY CO., 105 Jordan Chambers, Jordan St. Toronto, Canada.

MRS. W. M. CANNON, Hair dressing Manicuring, Shampooing, Vibratory and Automatic Massage. Graduate of Moler College, Minneapolis, Minn. Over Queen Studio, Baker street.

NO CITY BOULEVARDS

MAYOR GILLETT THINKS COST IS PROHIBITIVE AT PRESENT

ANOTHER PRACTICAL SUGGESTION—CLEAN STREETS CHEAP

The suggestion that the city construct boulevards for all property owners who will undertake to look after them is not likely to be carried out during the present year. Financial considerations will probably preclude its consideration. The sum voted by the council on motion of alderman Annable for the purpose of providing free shade trees was definitely limited to $250. A similar amount would not go very far towards the construction of boulevards.

Mayor Gillett, when asked his opinion on the subject yesterday, said:

"Personally, while I approve of every step towards beautifying the city and would like to see well kept boulevards on all residential streets, I think the city's present financial position makes it impossible to consider the question, even of giving financial aid to householders for that purpose. But I think I can safely say that every other possible aid and encouragement is being given and will be given. Instructions have been given to the police force and I believe they are being carried out efficiently, to put an end to the menace to lawns and boulevards from straying cattle and poultry. Those who will make boulevards for themselves may rest assured that their improvements will be protected and preserved for them."

A prominent citizen who was present and heard the mayor's remark, offered another suggestion for improvement, which has the double merit of being easy of fulfilment and costing nothing or all.

He said: "Every morning, if you walk along Baker street, as places of business are being put in order for the day, you can see scraps of paper and little piles of dust swept on to the street from a majority of the stores and offices. It would require no expenditure and very little trouble for everyone to cease from offending in that particular, and the difference would certainly be marked. It can not be denied that at present the business streets of Nelson present a very untidy appearance, which is due to nothing but carelessness and thoughtlessness on the part of the merchants and their employees.

Not in the Same Class

A Warning to Ladies Who Use Package Dyes

Notwithstanding the unanimous verdict of the world's most eminent color chemist that it is impossible to color animal (wool and silk) fibres, and vegetable (cotton and linen) fibres with the same dye, we find speculators who are jealous of the world wide success of the DIAMOND DYES, putting up, and offering for sale worthless package dyes which they represent will color any material with one dye. This cruel deception has caused serious losses to many a home in Canada.

The DIAMOND DYES, the world's great leaders, give to the ladies special dyes for wool and silk, and special dyes for cotton and linen and all mixed goods, guaranteeing perfect color results.

The ladies will insure and protect their interests if they avoid all merchants who sell the crude and worthless package dyes recently put on the market. In every case ask for the DIAMOND DYES, and see that each packet bears the words "DIAMOND PACKAGE DYES." Please send your name and address to Wells & Richardson Co., Limited, Montreal, P.Q., and you will receive free of cost New Instruction Book for Home Dyeing, Card of Dyed Samples, and story in verse entitled "The Long-Johns' Trip to the Klondike."

MINING RECORDS

One certificate of work and one transfer were the only entries in the Nelson mining office on May 11.

R. R. Shrum was granted a certificate of work on the Good Hope claim, situated on Porcupine creek.

Angus Campbell of Kaslo transferred to R. P. Green for a nominal consideration a one-sixth interest in the Sunset and Moonshine claims situated on the east side of Kootenay lake.

Port Mulgrave, June 6, 1897.

MINES ARE IN FINE SHAPE

ROSSLAND NOT RECEIVING DUE CREDIT FOR CONDITIONS

NEARLY ONE THOUSAND MINERS ARE AT WORK.

(Rossland Miner)

In the effort to depreciate the value of Rossland's mineral resources, it used to be a common expression in eastern Canada, that the people of Montreal and Toronto had lost ten million dollars in our mines. As a matter of fact, this expression was simply used to cover the "bad buys" which these people had made of each other. If they exchanged ten million dollars with each other, it was not in Rossland mines, but simply represented an interchange of cash that passed from the pockets of the Montreal speculator to those of the Toronto vendor, and vice versa. The money did not go into Rossland mines. Men were eager to get rich quickly, and purchased anything that was offered, depending in a large measure on the ability of those in control to bear or bull their holdings. Many of the companies never got beyond the stage of incorporating the company and floating the stock, with little or no effort at development. The few Rossland properties which have been practically and systematically worked have proven themselves, and Rossland is today able to offer to the investor such values in mining resources as are not often encountered. We have passed that state of speculation, and have reached the stage of development where properties are being worked for the purpose of mining ore, and not of manipulating stocks.

Rossland today is not receiving due credit in the outside world. There exists too strong a remembrance of the alleged ten millions which changed hands in eastern Canada to the detriment of our mines. People will continue to invest in unknown and untried ventures, simply because the inducements in print look glittering, and they are willing to take a chance. If true conditions were known, there is not a mining camp in the United States or Canada with more permanent, promising and profitable investments than Rossland offers in such mines as the Le Roi, Le Roi Two, War Eagle and Centre Star.

The Le Roi keeps up its reputation as an ore producer, and never, probably, in its entire history has there been any more ore in sight than at the present time. Strikes of importance have been made in the last few months on the several levels of the mine, and the output is running up to over 12,000 tons a month. The monthly profit is so large that if the same ratio is kept up for the balance of the year, as for the past two months there will be a profit of about $400,000 for the year's operations, and out of this substantial dividends can be paid.

The Le Roi Two is in better shape than it has been since work was started upon it. It has the longest continuous ore shoot, 1200 feet, in the province, and the ore is of ane exceptionally high grade. It is making a substantial profit each month, and there is sufficient ore in sight to pay dividends for at least three years, should no new shoots be found in the interim.

When manager Cronin took charge of the War Eagle and Centre Star, about a year ago, there was approximately $25,000 worth of ore in sight in the first mentioned property, and $50,000 in the second. Today they show more ore than at any time in their history, and together with the St. Eugene and Trail smelter, constitute one of the soundest and most promising industrial investments in Canada. In the lower levels of the Centre Star extensive bodies of rich ore have been encountered, while below the eighth level, the War Eagle is practically a virgin mine, with great ore bodies on each level. In fact, in these two properties, there are three ore shoots, for every one that is being worked.

The big companies are all prosecuting their development work with a harmony that has permitted connections on the lower levels that materially aid in ventilation and safety. Nearly one thousand men are on the payrolls of the companies cited, and when it is remembered that at the height of Rossland's prosperity, when a dozen other properties were under development, only about 1200 men were employed, it will be seen how actively the present companies are engaged in taking out ore.

RAILWAY COMMISSION

Its Scope Will Be Extended at Present Session of Parliament.

The institution of a railway commission in Canada has been so thoroughly justified that a bill is now before the federal parliament extending the scope of its powers. Judge Killam, the chairman of the commission, has forwarded to Mr. Emmerson some suggestions for additions or changes in the act for the purpose of making the powers of the commission specific where they are now general. Suggestions coming from the chairman of the commission covering points where practice has discovered weaknesses cannot fail to be of the highest value. Development in this direction was to have been expected, and we may look for a steady strengthening and solidifying of the commission's powers.

Among the powers which will undoubtedly be conferred on the commission in the new amendments will be that of regulating the tolls and operations of telephone companies. The charges of telegraph and express companies may also be made subject to the control of the commission. Parliament seems inclined to exhaust the possibilities of public regulation before thinking of the serious step which is sometimes urged upon it of nationalizing the railways and telegraph and telephone lines of the country. It is probably the part of wisdom to ascertain if it is not possible to combine in the operation of these natural monopolies the excellency and economy of private ownership and operation, with sufficient public oversight and control to save the patrons of the companies from partial, arbitrary, or extravagant charges. If public regulation fails it will be time enough to resort to something more drastic. That appears to be the attitude of parliament on both sides of the house to that class of questions. The working of the railway commission has gone a great way towards fostering the belief that public regulation is the best solution in sight. There is fortunately no doubt as there is in the United States, of the power of parliament to enforce regulation.—Toronto Globe.

INSURANCE INVESTIGATION

Peculiar Methods of Union Fire and Life Companies Exposed.

Toronto, May 11.—How it is possible for insurance policy holders to be in the hands of a group comprising the board of directors who can alone direct the fate of their investment, was made plain at the sessions of the dominion insurance commission here. By the laws of the National Agency company, the business end of the Union Life Insurance company and that of the Union Life were subjected to analysis by the investigation counsel and it was found that the shareholders in the agency company, while nominally possessing the right to participate in the proceedings of a general meeting, in reality found themselves stripped of every right when it came to the meeting, unless they had over come numerous restrictions first. The directors who founded the companies created new laws, that no resolution could be offered by shareholders unless notice of their intention was given three months prior to the meeting, no proxies could be given within sixty days, and there could be no transfers of stock within ten days of the general meeting. If an obnoxious director, say one who represented the shareholders, came on the board the other directors had power to vote him off immediately.

Holman Evans, president of the National Agency, and manager of the Union Life who was the chief witness, testified to purchasing stock in the Agency company at par, giving his note and after disposing of the stock at considerable advance, taking up his note.

The Ontario government has heartily approved of the resolution passed in the house of commons inviting the king and queen to visit Canada.

UNDERESTIMATE THE WEST.

Regina, May 11.—Hon. Mr. Motherwell, in discussing a resolution condemning professor Mavor, said it must be remembered that others besides professor Mavor had made the mistake of underestimating the capabilities of western Canada. He believed that the full possibilities of this country were not yet known and predicted before long winter wheat would be grown in central Saskatchewan.

Haultain endorsed the remorks of the previous speaker, pointing out that the wheat growing belt is still being extended every year and adding that he hoped before long professor Maver's report would have its contradiction in the reaping of harvests far greater than the limit which he had placed upon the capabilities of the country.

SCIATICA CURED AFTER TWENTY YEARS OF TORTURE.

For more than twenty years M. J. B Massey, of 3322 Clinton street, Minneapolis, Minnesota, was tortured by sciatica. The pain and suffering which he endured during this time is beyond comprehension. Nothing gave him any permanent relief until he used Chamberlain's Pain Balm. One application of that linament delieved the pain and made sleep and rest possible, and less than one bottle has effected a permanent cure. If troubled with sciatica or rheumatism why not try a 25 cent bottle of Pain Balm and see for yourself how quickly it relieves the pain. For sale by all druggists and dealers.

PANAMA CANAL.

Washington, May 11.—A demand is being made by the house committee on appropriations for the estimates for work on the Panama canal to carry on the work during the next fiscal year. Secretary Taft has evplained that it will be impossible to submit detailed estimates until the arrival here of chief engineer Stevens, who is now on his way from the isthmus. The total to be asked for is said to aggregate $26,000,000.

NOT IF AS RICH AS ROCKEFELLER

If you had all the wealth of Rockefeller, the Standard Oil magnate, you could not buy a better medicine for bowel complaints than Chamberlain's Colic, Cholera and Diarrhoea Remedy. The most eminent physician can not prescribe a better preparation for colic and diarrhoea, for both children and adults. The uniform success of this remedy has shown it to be superior to all others. It never fails, and when reduced with water and sweetened, is pleasant to take. Every family should be supplied with it. Sold by all druggists and dealers.

HARD COAL STRIKE.

Scranton, May 11.—President Mitchell, of the United Mine Workers, closed his headquarters here yesterday and left for Indianapolis. Owing to an apparent misunderstanding of the orders of the convention the men did not respond generally to the breaker whistles yesterday. It is expected they will all be on hand today.

IT IS DANGEROUS TO NEGLECT A COLD.

How often do you hear it remarked: "It's only a cold," and a few days later learn that the man is on his back with pneumonia. This is of such common occurence that a cold, however slight, should not be disregarded. Chamberlain's Cough Remedy counteracts any tendency of a cold to result in pneumonia, and has gained its great popularity and extensive sale by its prompt cures of this most common ailment. It always cures and is pleasant to take. For sale by all druggists and dealers.

Minard's Liniment is used by Physicians.

A plate of Quaker Brand canned fruits makes a delicious ending to the sumptuous meal, and a pleasing dessert, without any trouble. Can be had at all grocers at a very low price.

If you eat to live you can get the necessary ingredients at the Dollar Grocery.

Beware of breaks in your larder by stocking up at the Dollar Grocery.

Cheap drugs are no good—nothing but the best stocked by the Canada Drug & Book company.

ST. CHARLES EVAPORATED CREAM

The most delicious ice cream you ever tasted is made by adding two parts of good dairy milk to one part of St. Charles Cream, adding sugar and eggs in the proportion of ¼ pounds of sugar and two raw eggs, well beaten, to one gallon of the mixture. Flavor to taste, and freeze slowly.

This is not the only purpose for which St. Charles Cream is better than even the best of the ordinary dairy product. It is not only the best food for infants and invalids. It makes better milk and better cream than your milkman can furnish. Simply add pure water. It is absolutely pure, and it never curdles.

Sold by best grocers everywhere.

VEXATIOUS PROCEEDINGS

AMERICAN OBJECTS TO SEIZURE OF FISHING BOATS

WILL TRY A DIRECT APPEAL TO GREAT BRITAIN.

Washington, May 11.—The seizure by Canadian cruisers of the fishing smacks Rayman of Boston and Parthia of Gloucester, adds another to the many vexatious cases of this kind regarding which the state department is now preparing to negotiate directly with the British government, through ambassador Durand, upon his return to this country, from England. It is pointed out, however, that, from the press reports, these new cases appear to differ essentially from those of the Gloucester boats seized a month ago off the Newfoundland coast and brought into St. John.

While it is a debatable question as to whether the Newfoundland authorities were within their rights in arresting the Gloucester fishermen who were there under the terms of the treaty of 1818, granting them equal privileges with British subjects in the shore waters, no such claim in made by the state department here as to the waters of New Brunswick or Nova Scotia. North American fishermen have the right to trawl herein, with the consent of the authorities. It is conjectured that this case, however, may involve a construction of the old and long disputed "headland" claim and that the American fishing boats, while within an imaginary line drawn from headland to headland on the Nova Scotia coast, near Cape North, were actually more than a marine league distant from the nearest shore and so were within their rights. This is a question to be determined by the court before which the captains of these seized vessels will appear and these facts must be awaited by the state department before it undertakes to make any representations in the case.

PARISIAN BOMB THROWERS

Paris, May 11.—The Russian ambassador M. Nelidoff, discredits the reports that bombs recently seized by the police here were intended to be used in an attempt upon his life and the police deny the sensational report that two arrests have been made on suspicion that the bombs were designated for attack on grand duke Vladimir.

FATAL MINE ACCIDENT

Taber, Alta., May 11.—George Shorthouse was instantly killed in the Reliance mine near here today. The deceased mistook a signal from the engineer and instead of repeating or confirming it foolishly attempted to jump the descending cage and was crushed between it and the shaft wall.

CITY'S RECORDS INTACT.

San Francisco, May 11.—The main vault of the city auditors' office has been opened and everything contained therein was found to be intact.

TRYING A FINAL BLUFF

TEWFIK PASHA WISHES TO RETAIN PENINSULA OF SINAI

BRITISH AMBASSADOR WILL NOT RETREAT FROM ULTIMATUM

Constantinople, May 11.—Tewfik Pasha, the foreign minister, called at the British embassy yesterday and made proposals in regard to the Taba question which ambassador O'Connor unhesitatingly rejected. The Pasha was informed that any compromise suggestions were quite inadmissible and that nothing less than an absolute compliance with the British demands would prevent drastic action.

The ambassador warned the minister that the time was running short and counselled him to be under no misapprehension in regard to the determination of Great Britain to enforce the Turkish evacuation of Egyptian territory on the Sinai peninsula and a joint delimitation of the frontier. Tewfik Pasha returned to the palace and an immediate meeting of the council of ministers was summoned.

Cairo, May 11.—The belief is strengthening in official circles here that a satisfactory settlement will be reached in the Taba boundary dispute between Egypt and Turkey.

ARBOR DAY

An Example That Might Be Followed In British Columbia.

Providence, R. I., May 11.—In compliance with the proclamation issued by the governor, arbor day was observed today throughout the state. The children in the public schools met in their respective schools, where the teachers addressed them on the meaning and importance of the day. Then they were taken to the school yards, public parks and other places, where they planted trees and flowers under the direction of their teachers. Thousands of trees were planted all over the state, many of them by private citizens and civic societies. This is the first time that the day was observed generally in all parts of the state and that exercises were held in all public and nearly all private schools.

FORCE AN AMNESTY

Duma Will Follow Constitutional Methods.

St. etersburg, May 11.—The impression left by yesterday's historic day is on the whole, optimistic. Even the radical papers assumed a rather hopeful tone. Zeeh, the organ of the constitutional democrats, and now the most powerful paper in Russia, while not concealing its disappointment at the fact that the expected amnesty was not granted, expresses its satisfaction that the czar did not use the word "autocracy." It regards his majesty's speech as an adroit refusal to grant any further concessions, leaving the new fundamental law as the platform of the government, adding, "but the policy of marking time while events are marching so rapidly really means retreat."

The constitutional democrats, however, are in no wise dismayed at the prospect of having to continue the struggle. It is already apparent that they intend to nail the flag of a constitutional monarchy to the mast head but their first efforts will be directed to forcing a general political amnesty from the unwilling czar.

CRANBROOK HAPPENINGS

Owners of Impounded Cattle are Wrathy—Marysville Accident

(Special to The Daily News)

Cranbrook, May 11—In the days prior to the incorporation of the city, the cows of Cranbrook roamed at their will and plundered as they pleased in front gardens and back yards all over town. Their owners were not greatly concerned about the unfortunate people who were kept awake nights with the clanking of the bells of these privileged marauders, nor about the extent of their depredations. A city bylaw, recently passed, put an end to the nuisance but when the police proceeded to enforce the ordinance and impounded a few beasts, holding them at ransom in the city pound, a most violent milk pan storm arose. It raged round the table where the city council gathered, nor did it abate until the forenoon of yesterday when it was decided in effect, that the bylaw was law and that those who fell foul of it should pay therefor. Strange to say the owners of the errant stock seemed to consider the fact that their beasts were roped in by a colored man who recently forfeited his liberty to the city, added, in some way, a kind of insult to their injury. The net result of the whole matter is that bylaw is sustained and the city it some $30 richer from pound fees. It also illustrates that the law is all right as it is applied against the other fellow.

Jim Fraser, the driver of the Windermere stage is authority for the statement that the 10 miles of grading from Golden south on the Kootenay Central railway is finished, or practically finished. He also says the men have been paid off and the large number of teams engaged on the work are being shipped back to Alberta. The very large amount of employment given in connection with this 10 mile section gave some color to the report which was current here that the C.P.R. had let, or was about to let, another contract for 40 miles additional, but the information of Mr. Fraser proves that nothing of the sort is contemplated, at present at all events.

Louis Santoni, an employee of the Marysville smelter, met with a severe accident while engaged with another man in replacing a derailed C.P.R. car. As far as can be gathered from the injured man, who speaks indifferent English, he and his companion were getting the car back on the track when something slipped and caught him, breaking both the bones of his leg close below the knee. The man was brought into the St. Eugene hospital today in charge of Dr. Bishop.

The old and most inconvenient triweekly train service to Marysville and Kimberley has been discontinued. In the future the trains will run daily, leaving Cranbrook at 7:30 a.m. and being timed to arrive back at 3:15 p.m. Most commendably good time is being maintained so far.

BUILD UP NORTH FORK

Great Northern Official Makes Announcement—Prospects Brighten Up.

(Special to The Daily News)

Grand Forks, May 11.—Chief engineer Kennedy of the Great Northern railway, arrived here this afternoon and corroborated the previous report given out that the Great Northern would build up the North Fork. He says that work will be commenced as soon as men and outfits can be got on the ground. The present objective point of the Great Northern will be the Pathfinder mine, some 16 miles up the river.

Messrs Kellerschorn and Merrian, of Duluth, examined the McKinley mine in the Hill interest last fall, and recently Lewis S. Noble, the Great Northern geologist, accompanied by George A. McLeod, madea thorough examination of the Franklin and Glouster camps. In addition the Granby company, with which the Hill interests are closely allied, are prosecuting extensive development work at the Pathfinder mine.

Mr. Kennedy's announcement has created intense excitement here, as the Kettle Valley people are at present buying the right of way for their line. With two railways building up the North Fork this spring the outlook is excellent for an unusual season of unwonted activity.

WATER RIGHTS CASE

Trial Commences Today at Greenwood Before Mr. Justice Irving

S. S. Taylor, K.C., leaves this morning for the Boundary to attend the supreme court sittings at Greenwood which open today before Mr. Justice Irving.

One of the cases on the court list for trial is expected to result in a pretty thorough discussion of the law respecting water rights. This is the case of the Eastern Townships Bank vs. Vaughan, McInnes and the Granby company. Briefly the matter to be decided is the right to water on Fourth of July creek principally in connection with the well known Covert ranch. The bank has a mortgage on the land and has acquired whatever water rights were obtained by W. H. Covert. It is stated that Mr. Covert duly applied to the commissioner at Vernon for the water rights in question in October, 1887. Subsequently the commissioner apparently overlooking Mr. Covert's claim issued a permit of use to Vaughan and McInnis in November, 1888. Later on in March, 1889 Covert's license was issued, and across the face of it was written in red ink that it was of date October, 1887. McInnes has become insane and his rights are represented by a committee. The court will now be asked to adjust the water rights of the several claimants and an interesting trial is looked for.

S. S. Taylor, K.C., represents the plaintiffs and J. A. Macdonald, K.C., will appear today for the defendants.

RECEIVED BY THE KING.

London May 11.—Frederick W. Whitbridge of New York, appointed by president Roosevelt to represent the United States at the wedding of king Alfonso was presented to the king at Buckingham palace today by ambassador Reid. His majesty's reception of Mr. Reid and Mr. Whitbridge was of the usual cordial character.

Minard's Liniment Lumberman's Friend.

RAILWAY CEASES RELIEF.

Chicago, May 11.—The railroads ceased granting free transportation to San Francisco refugees yesterday, the privilege expiring by limitation last night. All refugees hereafter will be dealt with individually by the Chicago relief and aid society.

Minard's Liniment is used by Physicians.

Today you can find fish, principally in cans, at the Dollar Grocery.

A Grand Medicine for the Kidneys.

Don't suffer—don't experiment—don't waste money on unknown, untried remedies. There is one quick, sure, easy certain cure—one cure that everybody knows does cure Kidney Trouble. That's Gin Pills.

"I have been a sufferer with Kidney Trouble for years. Have tried medicines and doctors' prescriptions, but could get no permanent relief, my case being pronounced chronic. As it is generally known that the properties of gin without the alcohol is good for the kidneys, I decided to try Gin Pills, but must admit with very little faith. From the very first pill I got relief, and have since taken nearly four boxes and am COMPLETELY CURED, but am going to continue them a while longer. No dull, sickening pains in the back—no low spirits—am increasing in weight—and more vim and vigor than I have had for years—is what Gin Pills have done for me.

"H. P. HERBERT, Ottawa."

Be well and strong. Be free of pain. Be able to enjoy all the good things of life, with all your old-time vigor and enthusiasm. Gin Pills will cure those sick kidneys. Start now—to-day—and see how much better you feel to-morrow. 50c box—6 boxes for $2.50—and your money back if they don't cure.

Special offer: If you send us your name and address and tell us the name of the paper in which you read this we will send you a trial box absolutely free and post prepaid. Write today and get the medicine that cures.

NELSON, B. C.

FRUIT AND FARM LANDS

For Sale In the Famous Kootenay Valleys

I can sell you choice fruit lands in 10, 20, 40, 80, or 160 acre blocks at

Ground Floor Prices

I do not offer for sale any fruit land that I have not personally examined. I guarantee every block to be as good as represented, and having sold a large portion of the land now being brought under fruit cultivation in this district, I would be safe in offering any man his money back with 10 per cent interest, who is not satisfied with his purchase. Not one would do it, because they can double their money.

I have on my list many choice locations.

One 13 acre lot near Nelson, partly improved. Price $850.00.

5-Acre lot two miles from the city, $250.00.

10-Acre lot, partly cleared, waterfront. Price $50.00 per acre.

Three 20-acre lots near Slocan bridge. Price $25.00 per acre.

70 Acres at Beasley Siding at a bargain.

Improved farm of 100 acres, $7500.

Several choice locations on Slocan river.

Nine choice locations at Creston; good land near the station.

Two good locations on the Columbia river.

Four 40-acre blocks on Arrow lake.

I can give you choice, selected lands.

On Kootenay Lake
On Kootenay River
On Slocan River
On Arrow Lakes
On Columbia River

In Fire Valley and Creston

Districts, and several partly improved farms. Wild land suitable for stock ranges. Write me for free pamphlet and terms of payment, and

Don't Buy till you SEE ME

I have a fruit farm of my own located on the Kootenay river on which I have 1500 fruit trees, some of these are bearing. This is not for sale, but I have had experience in selecting lands, clearing lands, planting and pruning trees and I am prepared to make reports on land as to the location and desirability for fruit culture.

If You Buy Here

You're Safe

It's a great idea—when a merchant asks fifteen dollars for a suit—*the buyer offers twelve* and the merchant "takes him up."

If that merchant could afford to sell the garment for less than he asked why did he not name the lowest price at once?

We guarantee that you will pay here fully as much as your neighbor—and just as surely you'll pay just as little.

FIT REFORM SUITS

have the price on the inside breast pocket of the coat.

$15, $18, $20, $22, $25.

If you pay less elsewhere you'll get less value.

NELSON'S NEWS OF THE DAY

A want ad. acts as your proxy in the market place.

Why do you shun real publicity? Failure to use the ads, including the little want ads., sometimes really amounts to that.

"Everything new is beautiful" the Italians say. And in this city everything new is advertised—so that you will know where to find it.

The Rebekah drill team will meet in the lodge room this evening for practice. Those not attending tonight will forfeit their office.

If the "right chance" is advertised today in the want columns, there will be other people weighing and considering it—so do not let it "get past you."

Frank B. Gibbs, district manager of the Brackman-Ker Milling company, returned last night from a trip to Calgary, where the company is building a new brick mill.

A quantity of ham imported into Nelson from south of the border has been condemned by the city medical health officer, Dr. E. C. Arthur, and destroyed by his order.

Sheriff S A Elliott of Roger Mills county, Oklahoma, leaves this morning by the Great Northern train for Cheyenne, the county town, taking with him his prisoner, McGivern, alias Sam Green.

The regular meetings of the choral society for practice will be resumed Monday evening. A full attendance is requested by the executive on that occasion as the date for the production of the "May Queen" will be decided then.

In the city police court yesterday morning J. Calhoun, a companion of Sam Green's during his stay in Nelson before his arrest, was arraigned on a charge of defrauding the C. P. R. company. The charge was withdrawn and Calhoun was discharged.

At a meeting of the Nelson gun club held in C. D. Goepel's office last night a committee, consisting of C. D. Blackwood, G. P. Wells and C. H. Ink, was appointed to take charge of all arrangements for the club's Dominion day tournament.

The regular meeting of the Nelson university club will be held tonight at the usual hour and place. A discussion will take place on he newest phases of the provincial university question. W. J. Baird will read a paper on Positivism and its effect on later philosophies.

Local billiard players are taking a keen interest in the tournament now going on at Chicago. As an example of the sort of billiards some of the experts are playing it is stated that in one match Schafer executed a shot that seemed an impossibility. The object balls were lined up at one end of the table, while the cue ball was almost against the far rail in an almost straight line. Schafer played a masse the whole length of the table, hit the near ball on a curve, curved to the cushion and caught up with the red ball a foot and a half from the cushion, where it had been driven by the impact of the first ball.

The Winnipeg Jobbers' union has decided to form a transportation bureau to take up and push all claims and complaints against the railways, individual effort in the past having accomplished very little. Every concern in Winnipeg whose interests and business make it eligible for membership in the union, have been pressed to join the association.

G. C. Hodge, district superintendent of the B. C. Telephone company, who intended making a trip down to San Francisco and the coast cities, but who was detained at Vancouver by the telephone strike there, has gone off to Japan and expects to reach Nelson again about the middle of June. Mrs. Hodge and family are visiting in Victoria.

There was no docket at the city police court yesterday morning. The task undertaken by the police force of suppressing the nuisance of straying horses and cattle is slowly being accomplished. Already many horses have been impounded. Some have been redeemed by their owners, the others have been promptly sold by auction. Some residents near the city limits at the top of the hill are still suspected of pasturing horses and cattle on the roads and they will be attended to next.

The mystery surrounding the death of W. J. McGrath, the Rossland miner whose decomposed body was found two days ago near the old Crown Point mine workings, about half way between Trail and Rossland, has been cleared up by the statement of Joe Kassack, section boss at Tiger, on the C. & W. line. Kassack saw the last of McGrath on April 8. When under the influence of liquor he started off from near the section house, supposedly to go to Rossland. McGrath must have wandered along and fallen in the deep snow on the creek bank, which is at the bottom of the canyon between the two spurs of Lake mountain. There he fell asleep and froze to death.

RAILWAY CONSTRUCTION

Rails and Bridge Timbers are Coming into Midway.

Midway, May 11—Rails and bridge timbers are beginning to arrive in large quantities and it is stated that no time will be lost in preparing the grade to receive the track. This is no light undertaking, as there is considerable trestle work between here and Molson.

The trouble which arose last week when a number of Italians were paid off, seems to have but little effect on the work as the booming of shots continues as before.

Messrs. Porter & Stewart this week took up their headquarters in Midway, having opened up an office in the Riverside addition. The firm has the contract for the bridge work.

A number of heavy bridge castings are piled up in the yard, indicating preparations for a bridge of considerable proportions. Whether they are intended for the bridge over the river at this point or whether they are intended for use further west, has not leaked out.

THE HILL INVASION

In view of his prospective visit to Winnipeg, the Tribune of that city, sent a representative to St. Paul to interview J. J. Hill, the president of the Great Northern railway.

The Tribune representative enjoyed a three hours' chat with the great railroad magnate and his report of the interview, as it appears in the Tribune of May 8, makes one of the most interesting and instructive articles upon western railroad development that has ever appeared in the public press.

It would be impossible in the course of a brief article to deal at all adequately with the many topics pertinent to the subject that J. J. Hill touched upon, but some few extracts from the published interview will serve to indiate the true inwardness of the "Hill invasion" and to give some idea of J. J. Hill's views on such interesting phases of the railway question as subsidies, over-capitalization and rates.

Speaking first of his plans to build a line from Vancouver to Winnipeg Mr. Hill said:

"As you of course know, we have bought our terminals right into the heart of the city of Winnipeg, and we shall lose no time in getting our connecting line from the boundary into the city constructed. It should be finished next fall. Then we are now pushing forward the grading on the branch lines from Gretna to Portage la Prairie and from Bottineau via Boissevain and the Souris to Brandon, having secured terminals in both Brandon and Portage la Prairie."

"And what about the main line?"

"Yes, that is important. We have fully decided on that. As you know, we have a line in British Columbia to Fernie, and we propose, without unnecessary delay, to push that line across the great western prairie until Winnipeg is reached."

"I suppose your route will be via Lethbridge and south of the C. P. R. main line?"

"Not by any means," answered Mr. Hill emphatically, going over to a map of western Canada which showed all the railway lines. "We do not consider that (running his index finger across the territory south of the C. P. R. from Lethbridge to near Weyburn) very good land and we propose to cross the C. P. R. and run a line considerably north of it, where the country is A-1 and where the local traffic is sure to be heavy."

"Where would you cross the C. P. R. —at Medicine Hat "

"Well, that we cannot say at present. That is a detail which will have to be settled after the fullest investigation of the country's resources."

"Then you are not thinking of the most direct transcontinental route in order to capture passenger traffic?"

"No, we are not so much concerned in that as in tapping a territory prolific in agricultural resources."

In the above connection Mr. Hill spoke of the great coal deposits of the Crow's Nest and the lumber resources of this province, remarking:

"The two great needs of the settler of your vast country are shelter and warmth. Providence made magnificent provision for both, if care is but taken to see that they are made available. The forests of British Columbia will furnish all the lumber necessary for homes if this great resource is husbanded, and the Crow's Nest possesses all the fuel necessary to keep the teeming millions of the centuries to come, warm. But your people should see that both these prime necessaries are supplied to the masses at the lowest cost. For our part we shall do our best to help the settlers out with low rates for lumber and coal."

On the subject of subsidies, over-capitalization and rates Mr. Hill said:

"There will soon be an end to your subsidy policy. It is entirely unnecessary. With the country developed as it is railways should be built without costing the people a cent. That is the policy we have followed in our country, and that it has paid handsomely I can easily prove.

"We propose to build our Canadian system at the lowest possible cost consistent with excellent work and thorough equipment, for, as you must have gleaned from the tenor of my policy, I am a believer in the best road bed, the lowest grades, the biggest engines and the largest capacity in rolling stock.

"In Canada we do not propose to bond our roads for a dollar. We shall just issue stock representing the actual cash outlay and as we have never figured on receiving more from the people than an average of seven per cent on our outlay you will see that the burden upon the people will be light. Our policy will enable us to set a new pace in the matter of rates, and I think you can mark it down that as a result of our advent into your splendid territory an effective period will be put to the bonusing or subsidy system. I should scarcely think the public men would care to propose subsidies, and that companies would have the hardihood to ask them in face of the facts."

"What do you estimate will be the cost of your line from Winnipeg to Vancouver when completed?"

"We have gone pretty carefully into estimates and the most rational conclusion we have been able to reach is that it will cost in the neighborhood of thirty millions."

Questioned as to the opposition developing in eastern Canada to his invasion of western Canada and with regard to the diversion of trade, Mr. Hill replied:

"Why, there's absolutely nothing to it. We have no intention whatever of invading eastern Canada, and under no circumstances can we divert trade. The tariff effectively prevents any diversion even if that were a possible aim. No, what we want is to provide a system of railways in your country to carry your products for you, to help develop and build up your country; that is our sole aim. We will undoubtedly prove a great feeder for the C. P. R. and Grand Trunk Pacific, and they will no doubt be glad to handle what we feed them."

"How about incoming freight?"

"Well, with a line of our own to Chicago, and with our connection, we will of course be an active competitor for freight from eastern to western Canada, and we hope to get a good share of it. But so far from that being any injury to the country it will be a distinct advantage, if we are able to carry it at just rates. No," added Mr. Hill, "there is nothing whatever to be alarmed at, and I am not losing sleep over any criticisms on that account. We know from what origin they spring. The people need our system and judging by the nature of the encouragement we are receiving on all hands the people want it and are unanimously in favor of having it."

APPEARING OLD

Acts as a Bar to Profitable Employment.

You cannot afford to grow old.

In these days of strenuous competition it is necessary to maintain, as long as possible ones youthful appearance.

It is impossible to do this without retaining a luxurious growth of hair.

The presence of Dandruff indicates the presence of a burrowing germ which lives and thrives on the roots of the hair until it causes total baldness.

Newbro's Herpicide is the only known destroyer of this pest, and it is as effective as it is delightful to use

Herpicide makes an elegant hair dressing as well as Dandruff cure.

Accept no substitute—there is none.

Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

RAIN SAVES SITUATION

FOREST FIRES NOW BELIEVED TO BE UNDER CONTROL

CHIEF DEASY AND ASSISTANTS DO GOOD WORK

While the rain storm of yesterday did a great deal of good in checking the progress of forest fires in the neighborhood, it is improbable that the fires have been completely put out anywhere. A burning log or stump may continue to be a source of danger for many days and may easily retain fire until the sun has again dried the brushwood.

All danger of the fire across the lake from Nelson spreading nearer the city or endangering north shore ranches, may however be considered over for the present at least.

Yesterday morning mayor Gillett took over a force of men and put them at the disposal of chief Deasy of the fire brigade. The work accomplished, and the present situation are fully described in the report handed to the mayor by the chief last night, as follows.

His Worship Mayor Gillett, Nelson, B.C.

Dear Sir—I have the honor to submit the following report with reference to the bush fires on the west side of Kootenay lake:

After leaving you at Mr. Hoover's farm at 8 o'clock this morning, the working party climbed the hill side and found the fire extending in a northerly direction. Three Chinamen, sent up by Mr. Hoover, were at work. We shovelled and cut away the underbrush and confined the fire within an area. Men patroled certain limited districts and during the morning the fire was kept in check. In the afternoon the rainstorm helped to keep the fire down. The danger of a general conagration of the hillside is over, provided two or three men are kept constantly on the lookout to prevent the fire spreading over the paths which now have been cleared of underbrush.

Mr. A. Wright was the only volunteer present during the whole day and he promises to be on hand at daylight tomorrow. Mr. Hoover, assisted by three men he hired, was also of great assistance. The corporation workmen, Messrs. Foote, Deacon and Glover, worked hard to suppress the fires. The men sent over, Messrs. S. Osborne, H. Warm, W. Wallace and F. Fear, rendered all the assistance in their power.

After thoroughly going over the ground it is my opinion that at least two reliable men should be kept on watch, from daylight to dark, every day, and they should patrol the paths, clearing away every piece of burning rubbish near the limited area now on fire. The rain will do some good but there is danger from the many burning stumps and trees. The men might fill in earth all places where roots are burning and cover over any burning timber that has fallen. Two or three men can do this work and put a stop to what might be the cause of a great deal of trouble throughout the summer. Your obedient servant,

THOMAS DEASY,
Chief of Fire Department.

Nelson, May 11, 1906.

South of Nelson, along the line of the S. F. & N. railway the rainfall was heavier than in the immediate vicinity of the city, and its effect on the fire correspondingly greater. Members of the crew of the Great Northern train which arrived in the city last night thought the fires round Ymir and Porto Rico were extinguished.

ST. EUGENE "GRUB STRIKE"

Statement of Manager Cronin and Further Explanation by Phil McInnis

In reply to a query as to the present status of the alleged strike at the St. Eugene mine, manager Cronin telegraphs:

"Report in The Daily News is misleading. There is no strike at the St. Eugene. The Miners' union has nothing to do with this repeated boarding house trouble. The foreman, for personal reasons, influenced the men to back him in a demand which amounted to dictating the business of the company. This being refused, the men unwillingly quit work."

With further reference to this "grub strike" The Daily News has received the following communication from Phil McInnis, one of the St. Eugene miners, at present in town:

Editor The Daily News—In your issue this morning I read an account of the grub strike at the St. Eugene mine, Moyie.

As one of the committee of miners, appointed to interview James Cronin, I would like to make a few corrections.

In the first place, the Miners' union of Moyie had nothing whatever to do with the recent grub strike at the St. Eugene. The men refused to be starved any longer and simply walked out.

In the interview Mr. Cronin did not promise a change on the 15th. He promised no-thing definite. He said: "We will run this to suit ourselves," meaning by "we" no doubt, himself and Wm. O'Rourke, the boarding house boss, who is a nephew of Mr. Cronin. I will not enter into a description of the grub, which was a disgrace to the management, and an insult to an honest working man.

In connection with this trouble, I may say that a warrant was placed in the hands of the constable at Moyie yesterday for the arrest of O'Rourke, the boarding house boss, charging him with intimidating men by a display of firearms. He was going to make them eat the grub and say they liked it, and produced a six-shooter as a persuader. It may be interesting to know that this is the third gun play made within six months in the company's office, by Wm. O'Rourke.

In conclusion I may say that the hungry miners of the St. Eugene will be very grateful for space alloted to these corrections and explanations in your paper.

Yours respectfully,
PHIL. McINNIS.

The Daily News endeavored to ascertain last night from Moyie whether or not Wm. O'Rourke had been arrested and the nature of the charge preferred against him, but the only reply elicited was to the effect that the story of the trouble at the St. Eugene had been exaggerated.

SENATE REFORM.

New York Comment on the Canadian Upper Chamber.

New York, May 11.—The Sun says: "Canada is considering the question of senate reform. It may be said in strict confidence, that a similar proposition has been made in this country with regard to a corresponding institution. There is, however, a distinct difference between Canadian and American bodies. Few ever hear of the Canadian senate, while many think they hear only too much of the American senate. Roosevelt would be a happier but a less busy man if he could swap Aldrich and those other fellows for the Canadian organization. The Canadian premier is evidently not a candidate for admission to the noble order of "muck rakers." Canada's decision upon the matter will be interesting if she adopts a system more nearly resembling our own. There appears to be no disposition whatever to elect the senate by popular vote."

DOMINION COPPER

Consulting Engineer Well Pleased With Inspection—Doubling Capacity

(Special to The Daily News)

Phoenix, May 11— M. M. Johnson, consulting engineer for the Dominion Copper Company, Ltd., left yesterday for his home in Salt Lake City. Mr. Johnson came to consult with the resident manager, Thos. R. Drummond, regarding the extensions and improvements which the company has already under way or has ordered. He is well satisfied with what is being done at the several mines of the company as well as with the results being obtained in the smelting of the ores.

In the course of 30 days active work will be under way on some of the improvements which include preparations for doubling the smelting capacity to 1200 tons daily and the installation of the new 20-drill electric driven air compressor at the Idaho mine in Phoenix camp. Some time early in the fall, if machinery contracts are lived up to, these improvements should be completed, and in the meantime the mines of the company are being placed in position to furnish the increased output needed to keep the enlarged smelter busy. At mines and smelter the company is now employing approximately 300 men, and the smelter is turning out about a carload of copper matte every other day.

SPIER'S AFFAIRS INVOLVED.

Had Been Gambling in Exchange With Borrowed Securities.

New York, May 11.—Investigations which followed the mysterious death of Charles L. Spier, confidential agent for H. H. Rogers, who died from a bullet wound several days ago, disclosed the fact that his financial affairs were more involved than at first thought.

Exert accountants who have been appointed to investigate Mr. Spier's books have unearthed some startling discrepancies and today it is found that Spiers has been dabbling in the stock market for some months, and that securities owned by Mr. Rogers had been deposited. One lot valued at $180,000, which had been deposited with the brokerage firm of Kersch, Lowe & Co., figured most prominently in today's disclosures. These securities, a member of the firm said, were returned to Spier upon his promise to replace them. The promise was not kept. It has been developed by the present investigation that Spier had been pressed by Mr. Rogers for the securities, who said that when Spier got these securities from the brokerage house and returned them to himself, he had entrusted Spier with $840,000 worth of bonds of a new company. The investigation of Mr. Spier's accounts has not yet been completed, and it is not yet known whether his shortage will exceed the $180,000 already found.

F. B. Kersch, of the firm of Kersch, Lowe & Co., made the following statement tonight: "As statements of our possible loss through the late Charles Spier have been greatly exaggerated, we wish to state that the maximum loss possible to us is $57,000."

SLOCAN MINES

Ore Shipments from the Midnight—Rich Workings of the Meteor

(Special to The Daily News)

Slocan, May 11—A carload of ore has been shipped from the Midnight. Several men have been added to the force and other ore shipments will soon follow.

At the Meteor the ledge has been struck in the lower tunnel, and it is as rich as in the upper workings. The lessees now have about 50 feet of fine ore to stope out.

At the Ottawa operations are in progress for the construction of the new compressor.

Neil McMillan and his father have returned to Sandon.

Capt. McClellan and family have removed to Arrowhead. Capt. McKinnon is now in charge of the steamer Slocan.

C. T. Cross and family, for a long time residents of Silverton, have removed to Victoria.

Born, in Silverton on April 30, to the wife of William Hunter, a son.

YOU would soon get rid of a servant who did only half the work in double the time of a capable one.

Then why continue using a flour that gives half the nourishment and double the work to digest?

Royal Household Flour

is made from selected spring wheat—a wheat that is rich in nutriment. It is the whitest and finest flour made; it makes fully one-third more bread to the pound than any soft wheat flour and is more dependable in every respect.

Ogilvie Flour Mills Co., Limited

STOCKS ARE NOW SOARING

PRICES HAVE FULLY RECOVERED FROM LATEST PANIC

PROVISION MARKET STRONG — ALL COMMODITIES ADVANCE

Quotations on the stock exchange today regained their last high figures of the week before the San Francisco calamity which sent all the securities down. The only stock which is still low is C.P.R. and that circumstance is fully accounted for by the recent issue of new stock and the fact that the shares now on the market do not convey the right to acquire any part of the new issue.

The opening today was on the average about $3 a share above Thursday's close. From opening the bulls had everything their own way, and the result of the day's trading was a net advance of nearly $3 per share over the high opening figures. The leaders in the upward movement were C.P.R., St. Paul, Union Pacific and Reading. A few stocks, among which were Sugar and Atchison, suffered fractional declines.

The Chicago provision market also advanced. Wheat, corn and pork for July delivery all attained their highest figures for the month and closed strong.

STOCKS—Sugar opened at 135 1-2, closed 135 1-4; Amalgamated Copper opened at 106 1-2, advanced to 107 7-8, closed 107 3-4; Steel common opened at 41 1-8, advanced to 42 at close, preferred opened 105 7-8, advanced to 108 1-2, closed 108 3-8; I.M.M. opened at 83, advanced to 84, closed 83 1-2; St. Paul opened at 168 1-2, closed 170 1-8; U.P. opened at 149, advanced to 151 3-8, closed 151 1-4; L. & N. opened at 144 3-4, advanced to 146 1-4, closed 146; Atchison opened at 90 7-8, sold to 89, closed 90; Erie opened at 43 3-8, advanced to 43 3-4, closed 43 3-8; C.P.R. opened at 159 3-4, advanced to 161 5-8 at close; Penn. opened at 135 1-2, advanced to 136 3-4, closed 136 1-2; Reading opened at 129 1-2, advanced to 132, closed 131 1-8.

PROVISIONS—July wheat opened at 80, advanced to 81 1-2 at close; July corn opened at 46, closed 46 1-2; July pork opened $15.20, closed $15.25.

Reported by Sharp & Irvine, May 11.

ECHO OF FAMOUS CASE

Taxation of Costs in Star vs. White Now in Progress—The Appeal

Before the local registrar of the supreme court there has been in progress this week an interesting taxation in the famous mining case of the Byron N. White company and the Star Mining & Milling company, which recalls the several trials here of the greatest extradited rights case ever heard in British Columbia, which involved the boundaries of two well known Slocan mines, the Reco and the Slocan Star.

Chief Justice Hunter finally decided that the celebrated "black fissure" put forward by the Star M. & M. company was a myth and a sweeping judgment was given in favor of the Byron N. White company.

Many elaborately prepared models, maps and plans were produced at the trial and several eminent mining experts were examined and as the trial or series of trials here lasted at different times for many days in addition to expert and other examinations of the mine workings, the bill of costs presented by the victors is an unusually large one, $23,000 being claimed. Mr. Bowman, the registrar, has been engaged in taxing this bill for some time, with Taylor & O'Shea representing the attacking forces and R. S. Lennie defending and upholding the various items so charged. It will still take further time before the taxation can be closed up. N. J. Cavanagh of Sandon and Oscar White have been in attendance as witnesses in support of the bill and so far Mr. Cavanaugh has been examined. J. M. Harris has been here all week, an interested spectator of the taxation at Mr. Taylor's elbow.

Notice of appeal from chief justice Hunter's decision to the full court has been given and the appeal has been set down for hearing but owing to the absence of Mr. justice Martin in Ireland, it has not been possible to get the appeal heard, nor will it be until after the long vacation.

In the meantime an application before the full court, made on behalf of the Star M. & M. company, for leave to do certain explanatory work, is also pending. It is asked that the extension south of the black fissure at the point where it is claimed that it cuts off the Slocan Star vein, be determined by further actual development. This was refused by the chief justice. If the full court allows this work to be done, the result may open up the *whole case once more.* The *main* appeal stands pending a decision on the motion to be allowed to do more work.

NO CITY BOULEVARDS

MAYOR GILLETT THINKS COST IS PROHIBITIVE AT PRESENT

ANOTHER PRACTICAL SUGGESTION—CLEAN STREETS CHEAP

The suggestion that the city construct boulevards for all property owners who will undertake to look afteer them is not likely to be carried out during the present year. Financial considerations will probably preclude its consideration. The sum voted by the council on motion of alderman Annable for the purpose of providing free shade trees was definitely limited to $250. A similar amount would not go very far towards the construction of boulevards.

Mayor Gillett, when asked his opinion on the subject yesterday, said:

"Personally, while I approve of every step towards beautifying the city and would like to see well kept boulevards on all residential streets, I think the city's present financial position makes it impossible to consider the question, even of giving financial aid to householders for that purpose. But I think I can safely say that every other possible aid and encouragement is being given and will be given. Instructions have been given to the police force and I believe they are being carried out efficiently, to put an end to the menace to lawns and boulevards from straying cattle and poultry. Those who will make boulevards for themselves may rest assured that their improvements will be protected and preserved for them."

A prominent citizen who was present and heard the mayor's remark, offered another suggestion for improvement, which has the double merit of being easy of fulfillment and costing nothing at all.

He said: "Every morning, if you walk *along Baker street, as* places of business are being put in order for the day, you can see scraps of paper and little piles of dust swept on to the street from a majority of the stores and offices. It would require no expenditure and very little trouble for everyone to cease from offending in that particular, and the difference would certainly be marked. It can not be denied that at present the business streets of Nelson present a very untidy appearance, which is due to nothing but carelessness and thoughtlessness on the part of the merchants and their employees.

Not in the Same Class

A Warning to Ladies Who Use Package Dyes

Notwithstanding the unanimous verdict of the world's most eminent color chemist that it is impossible to color animal (wool and silk) fibres, and vegetable (cotton and linen) fibres with the same dye, we find speculators who are jealous of the world wide success of the DIAMOND DYES, putting up, and offering for sale worthless package dyes which they represent will color any material with one dye. This cruel deception has caused serious losses to many a home in Canada.

The DIAMOND DYES, the world's great leaders, give to the ladies special dyes for wool and silk, and special dyes for cotton and linen and all mixed goods, guaranteeing perfect color results.

The ladies will insure and protect their *interests if they* avoid all merchants who sell the crude and worthless package dyes recently put on the market. In every case ask for the DIAMOND DYES, and see that each packet bears the words "DIAMOND PACKAGE DYES." Please send your name and address to Wells & Richardson Co., Limited, Montreal, P.Q., and you will receive free of cost New Instruction Book for Home Dyeing, Card of Dyed Samples, and story in verse entitled "The Long-Johns' Trip to the Klondike."

MINING RECORDS

One certificate of work and one transfer were the only entries in the Nelson mining office on May 11.

R. R. Shrum was granted a certificate of work on the Good Hope claim, situated on Porcupine creek.

Angus Campbell of Kaslo transferred to R. F. Green for a nominal consideration, a one-sixth interest in the Sunset and Moonshine claims situated on the east side of Kootenay lake.

Port Mulgrave, June 6, 1897.

THE ALABASTINE COMPANY, LIMITED • PARIS, ONT.

MINES ARE IN FINE SHAPE

ROSSLAND NOT RECEIVING DUE CREDIT FOR CONDITIONS

NEARLY ONE THOUSAND MINERS ARE AT WORK.

(Rossland Miner)

In the effort to depreciate the value of Rossland's mineral resources, it used to be a common expression in eastern Canada, that the people of Montreal and Toronto had lost ten million dollars in our mines. As a matter of fact, this expression was simply used to cover the "bad buys" which these people had made of each other. If they exchanged ten million dollars with each other, it was not in Rossland mines, but simply represented an interchange of cash that passed from the pockets of the Montreal speculator to those of the Toronto vendor, and vice versa. The money did not go into Rossland mines. Men were eager to get rich quickly, and purchased anything that was offered, depending in a large measure on the ability of those in control to bear or bull their holdings. Many of the companies never got beyond the stage of incorporating the company and floating the stock, with little or no effort at development. The few Rossland properties which have been practically and systematically worked have proven themselves, and Rossland is today able to offer to the investor such values in mining resources as are not often encountered. We have passed that state of speculation, and have reached the stage of development where properties are being worked for the purpose of mining ore, and not of manipulating stocks.

Rossland today is not receiving due credit in the outside world. There exists too strong a remembrance of the alleged ten millions which changed hands in eastern Canada to the detriment of our mines. People will continue to invest in unknown and untried ventures, simply because the inducements in print look glittering, and they are willing to take a chance. If true conditions were known, there is not a mining camp in the United States or Canada with more permanent, promising and profitable investments than Rossland offers in such mines as the Le Roi, Le Roi Two, War Eagle and Centre Star.

The Le Roi keeps up its reputation as an ore producer, and never, probably, in its entire history has there been any more ore in sight than at the present time. Strikes of importance have been made in the last few months on the several levels of the mine, and the output is running up to over 12,000 tons a month. The monthly profit is so large that if the same ratio is kept up for the balance of the year, as for the past two months there will be a profit of about $400,000 for the year's operations, and out of this substantial dividends can be paid.

The Le Roi Two is in better shape than it has been since work was started upon it. It has the longest continuous ore shoot, 1200 feet, in the province, and the ore is of ane exceptionally high grade. It is making a substantial profit each month, and there is sufficient ore in sight to pay dividends for at least three years, should no new shoots be found in the interim.

When manager Cronin took charge of the War Eagle and Centre Star, about a year ago, there was approximately $25,000 worth of ore in sight in the first mentioned property, and $50,000 in the second. Today they show more ore than at any time in their history, and together with the St. Eugene and Trail smelter, constitute one of the soundest and most promising industrial investments in Canada. In the lower levels of the Centre Star extensive bodies of rich ore have been encountered, while below the eighth level, the War Eagle is practically a virgin mine, with great ore bodies on each level. In fact, in these two properties, there are three ore shoots, for every one that is being worked.

The big companies are all prosecuting their development work with a harmony that has permitted connections on the lower levels that materially aid in ventilation and safety. Nearly one thousand men are on the payrolls of the companies cited, and when it is remembered that at the height of Rossland's prosperity, when a dozen other properties were under development, only about 1200 men were employed, it will be seen how actively the present companies are engaged in taking out ore.

RAILWAY COMMISSION

Its Scope Will Be Extended at Present Session of Parliament.

The institution of a railway commission in Canada has been so thoroughly justified that a bill is now before the federal parliament extending the scope of its powers. Judge Killam, the chairman of the commission, has forwarded to Mr. Emmerson some suggestions for additions or changes in the act for the purpose of making the powers of the commission specific where they are now general. Suggestions coming from the chairman of the commission covering points where practice has discovered weaknesses cannot fail to be of the highest value. Development in this direction was to have been expected, and we may look for a steady strengthening and solidifying of the commission's powers.

Among the powers which will undoubtedly be conferred on the commission in the new amendments will be that of regulating the tolls and operations of telephone companies. The charges of telegraph and express companies may also be made subject to the control of the commission. Parliament seems inclined to exhaust the possibilities of public regulation before thinking of the serious step which is sometimes urged upon it of nationalizing the railways and telegraph and telephone lines of the country. It is probably the part of wisdom to ascertain if it is not possible to combine in the operation of these natural monopolies the excellency and economy of private ownership and operation, with sufficient public oversight and control to save the patrons of the companies from partial, arbitrary, or extravagant charges. If public regulation fails it will be time enough to resort to something more drastic. That appears to be the attitude of parliament on both sides of the house to that class of questions. The working of the railway commission has gone a great way towards fostering the belief that public regulation is the best solution in sight. There is fortunately no doubt as there is in the United States, of the power of parliament to enforce regulation.—Toronto Globe.

INSURANCE INVESTIGATION

Peculiar Methods of Union Fire and Life Companies Exposed.

Toronto, May 11.—How it is possible for insurance policy holders to be in the hands of a group comprising the board of directors who can alone direct the fate of their investment, was made plain at the sessions of the dominion insurance commission here. By the laws of the National Agency company, the business end of the Union Life Insurance company and that of the Union Life were subjected to analysis by the investigation counsel and it was found that the shareholders in the agency company, while nominally possessing the right to participate in the proceedings of a general meeting, in reality found themselves stripped of every right when it came to the meeting, unless they had over come numerous restrictions first. The directors who founded the companies created new laws, that no resolution could be offered by shareholders unless notice of their intention was given three months prior to the meeting, no proxies could be given within sixty days, and there could be no transfers of stock within ten days of the general meeting. If an obnoxious director, say one who represented the shareholders, came on the board the other directors had power to vote him off immediately.

Holman Evans, president of the National Agency, and manager of the Union Life who was the chief witness, testified to purchasing stock in the Agency company at par, giving his note and after disposing of the stock at considerable advance, taking up his note.

The Ontario government has heartily approved of the resolution passed in the house of commons inviting the king and queen to visit Canada.

UNDERESTIMATE THE WEST.

Regina, May 11.—Hon. Mr. Motherwell, in discussing a resolution condemning professor Mavor, said it must be remembered that others besides professor Mavor had made the mistake of underestimating the capabilities of western Canada. He believed that the full possibilities of this country were not yet known and predicted before long winter wheat would be grown in central Saskatchewan.

Haultain endorsed the remorks of the previous speaker, pointing out that the wheat growing belt is still being extended every year and adding that he hoped before long professor Maver's report would have its contradiction in the reaping of harvests far greater than the limit which he had placed upon the capabilities of the country.

SCIATICA CURED AFTER TWENTY YEARS OF TORTURE.

For more than twenty years M. J. B Massey, of 3322 Clinton street, Minneapolis, Minnesota, was tortured by sciatica. The pain and suffering which he endured during this time is beyond comprehension. Nothing gave him any permanent relief until he used Chamberlain's Pain Balm. One application of that liniament delieved the pain and made sleep and rest possible, and less than one bottle has effected a permanent cure. If troubled with sciatica or rheumatism why not try a 25 cent bottle of Pain Balm and see for yourself how quickly it relieves the pain. For sale by all druggists and dealers.

PANAMA CANAL.

Washington, May 11.—A demand is being made by the house committee on appropriations for the estimates for work on the Panama canal to carry on the work during the next fiscal year. Secretary Taft has explained that it will be impossible to submit detailed estimates until the arrival here of chief engineer Stevens, who is now on his way from the isthmus. The total to be asked for is said to aggregate $26,000,000.

NOT IF AS RICH AS ROCKEFELLER

If you had all the wealth of Rockefeller, the Standard Oil magnate, you could not buy a better medicine for bowel complaints than Chamberlain's Colic, Cholera and Diarrhoea Remedy. The most eminent physician can not prescribe a better preparation for colic and diarrhoea, for both children and adults. The uniform success of this remedy has shown it to be superior to all others. It never fails, and when reduced with water and sweetened, is pleasant to take. Every family should be supplied with it. Sold by all druggists and dealers.

HARD COAL STRIKE.

Scranton, May 11.—President Mitchell, of the United Mine Workers, closed his headquarters here yesterday and left for Indianapolis. Owing to an apparent misunderstanding of the orders of the convention the men did not respond generally to the breaker whistles yesterday. It is expected they will all be on hand today.

IT IS DANGEROUS TO NEGLECT A COLD.

How often do you hear it remarked: "It's only a cold," and a few days later learn that the man is on his back with pneumonia. This is of such common occurence that a cold, however slight, should not be disregarded. Chamberlain's Cough Remedy counteracts any tendency of a cold to result in pneumonia, and has gained its great popularity and extensive sale by its prompt cures of this most common ailment. It always cures and is pleasant to take. For sale by all druggists and dealers.

Minard's Liniment is used by Physicians.

A plate of Quaker Brand canned fruits makes a delicious ending to the sumptuous meal, and a pleasing dessert, without any trouble. Can be had at all grocers at a very low price.

If you eat to live you can get the necessary ingredients at the Dollar Grocery.

Beware of breaks in your larder by stocking up at the Dollar Grocery.

Cheap drugs are no good—nothing but the best stocked by the Canada Drug & Book company.

ST. CHARLES EVAPORATED CREAM

The most delicious ice cream you ever tasted is made by adding two parts of good dairy milk to one part of St. Charles Cream, adding sugar and eggs in the proportion of ¼ pounds of sugar and two raw eggs, well beaten, to one gallon of the mixture. Flavor to taste, and freeze slowly.

This is not the only purpose for which St. Charles Cream is better than even the best of the ordinary dairy product. It is not only the best food for infants and invalids. It makes better milk and better cream than your milkman can furnish. Simply add pure water. It is absolutely pure, and it never curdles.

Sold by best grocers everywhere.

VEXATIOUS PROCEEDINGS

AMERICAN OBJECTS TO SEIZURE OF FISHING BOATS

WILL TRY A DIRECT APPEAL TO GREAT BRITAIN.

Washington, May 11.—The seizure by Canadian cruisers of the fishing smacks Rayman of Boston and Parthia of Gloucester, adds another to the many vexatious cases of this kind regarding which the state department is now preparing to negotiate directly with the British government, through ambassador Durand, upon his return to this country, from England. It is pointed out, however, that, from the press reports, these new cases appear to differ essentially from those of the Gloucester boats seized a month ago off the Newfoundland coast and brought into St. John.

While it is a debatable question as to whether the Newfoundland authorities were within their rights in arresting the Gloucester fishermen who were there under the terms of the treaty of 1818, granting them equal privileges with British subjects in the shore waters, no such claim in made by the state department here as to the waters of New Brunswick or Nova Scotia. North American fishermen have the right to trawl herein, with the consent of the authorities. It is conjectured that this case, however, may involve a construction of the old and long disputed "headland" claim and that the American fishing boats, while within an imaginary line drawn from headland to headland on the Nova Scotia coast, near Cape North, were actually more than a marine league distant from the nearest shore and so were within their rights. This is a question to be determined by the court before which the captains of these seized vessels will appear and these facts must be awaited by the state department before it undertakes to make any representations in the case.

PARISIAN BOMB THROWERS

Paris, May 11.—The Russian ambassador M. Nelidoff, discredits the reports that bombs recently seized by the police here were intended to be used in an attempt upon his life and the police deny the sensational report that two arrests have been made on suspicion that the bombs were designated for attack on grand duke Vladimir.

FATAL MINE ACCIDENT

Taber, Alta., May 11.—George Shorthouse was instantly killed in the Reliance mine near here today. The deceased mistook a signal from the engineer and instead of repeating or confirming it foolishly attempted to jump the descending cage and was crushed between it and the shaft wall.

CITY'S RECORDS INTACT.

San Francisco, May 11.—The main vault of the city auditors' office has been opened and everything contained therein was found to be intact.

TRYING A FINAL BLUFF

TEWFIK PASHA WISHES TO RETAIN PENINSULA OF SINAI

BRITISH AMBASSADOR WILL NOT RETREAT FROM ULTIMATUM

Constantinople, May 11.—Tewfik Pasha, the foreign minister, called at the British embassy yesterday and made proposals in regard to the Tabah question which ambassador O'Connor unhesitatingly rejected. The Pasha was informed that any compromise suggestions were quite inadmissible and that nothing less than an absolute compliance with the British demands would prevent drastic action.

The ambassador warned the minister that the time was running short and counselled him to be under no misapprehension in regard to the determination of Great Britain to enforce the Turkish evacuation of Egyptian territory on the Sinai peninsula and a joint delimitation of the frontier. Tewfik Pasha returned to the palace and an immediate meeting of the council of ministers was summoned.

Cairo, May 11.—The belief is strengthening in official circles here that a satisfactory settlement will be reached in the Tabah boundary dispute between Egypt and Turkey.

ARBOR DAY

An Example That Might Be Followed In British Columbia.

Providence, R. I., May 11.—In compliance with the proclamation issued by the governor, arbor day was observed today throughout the state. The children in the public schools met in their respective schools, where the teachers addressed them on the meaning and importance of the day. Then they were taken to the school yards, public parks and other places, where they planted trees and flowers under the direction of their teachers. Thousands of trees were planted all over the state, many of them by private citizens and civic societies. This is the first time that the day was observed generally in all parts of the state and that exercises were held in all public and nearly all private schools.

FORCE AN AMNESTY

Duma Will Follow Constitutional Methods.

St. etersburg, May 11.—The impression left by yesterday's historic day is on the whole, optimistic. Even the radical papers assumed a rather hopeful tone. Zech, the organ of the constitutional democrats, and now the most powerful paper in Russia, while not concealing its disappointment at the fact that the expected amnesty was not granted, expresses its satisfaction that the czar did not use the word "autocracy." It regards his majesty's speech as an adroit refusal to grant any further concessions, leaving the new fundamental law as the platform of the government, adding "but the policy of marking time while events are marching so rapidly really means retreat."

The constitutional democrats, however, are in no wise dismayed at the prospect of having to continue the struggle. It is already apparent that they intend to nail the flag of a constitutional monarchy to the mast head but their first efforts will be directed to forcing a general political amnesty from the unwilling czar.

CRANBROOK HAPPENINGS

Owners of Impounded Cattle are Wrathy—Marysville Accident

(Special to The Daily News)

Cranbrook, May 11—In the days prior to the incorporation of the city, the cows of Cranbrook roamed at their will and pundered as they pleased in front gardens and back yards all over town. Their owners were not greatly concerned about the unfortunate people who were kept awake nights with the clanking of the bells of these privileged marauders, nor about the extent of their depredations. A city bylaw, recently passed, put an end to the nuisance but when the police proceeded to enforce the ordinance and impounded a few beasts, holding them at ransom in the city pound, a most violent milk pan storm arose. It raged round the table where the city council gathered, nor did it abate until the forenoon of yesterday when it was decided in effect, that the bylaw was law and that those who fell foul of it should pay therefor. Strange to say the owners of the errant stock seemed to consider the fact that their beasts were roped in by a colored man who recently forfeited his liberty to the city, added, in some way, a kind of insult to their injury. The net result of the whole matter is that bylaw is sustained and the city it some $30 richer from pound fees. It also illustrates that the law is all right as it is applied against the other fellow.

Jim Fraser, the driver of the Windermere stage is authority for the statement that the 10 miles of grading from Golden south on the Kootenay Central railway is finished, or practically finished. He also says the men have been paid off and the large number of teams engaged on the work are being shipped back to Alberta. The very large amount of employment given in connection with this 10 mile section gave some color to the report which was current here that the C.P.R. had let, or was about to let, another contract for 40 miles additional, but the information of Mr. Fraser proves that nothing of the sort is contemplated, at present at all events.

Louis Santoni, an employee of the Marysville smelter, met with a severe accident while engaged with another man in replacing a derailed C.P.R. car. As far as can be gathered from the injured man, who speaks indifferent English, he and his companion were getting the car back on the track when something slipped and caught him, breaking both the bones of his leg close below the knee. The man was brought into the St. Eugene hospital today in charge of Dr. Bishop.

The old and most inconvenient triweekly train service to Marysville and Kimberley has been discontinued. In the future the trains will run daily, leaving Cranbrook at 7:30 a.m. and being timed to arrive back at 3:15 p.m. Most commendably good time is being maintained so far.

BUILD UP NORTH FORK

Great Northern Official Makes Announcement—Prospects Brighten Up.

(Special to The Daily News)

Grand Forks, May 11.—Chief engineer Kennedy of the Great Northern railway, arrived here this afternoon and corroborated the previous report given out that the Great Northern would build up the North Fork. He says that work will be commenced as soon as men and outfits can be got on the ground. The present objective point of the Great Northern will be the Pathfinder mine, some 16 miles up the river.

Messrs Kellerschorn and Merrian, of Duluth, examined the McKinley mine in the Hill interest last fall, and recently Lewis S. Noble, the Great Northern geologist, accompanied by George A. McLeod, madea thorough examination of the Franklin and Glouster camps. In addition the Granby company, with which the Hill interests are closely allied, are prosecuting extensive development work at the Pathfinder mine.

Mr. Kennedy's announcement has created intense excitement here, as the Kettle Valley people are at present buying the right of way for their line. With two railways building up the North Fork this spring the outlook is excellent for an unusual season of unwonted activity.

WATER RIGHTS CASE

Trial Commences Today at Greenwood Before Mr. Justice Irving

S. S. Taylor, K.C., leaves this morning for the Boundary to attend the supreme court sittings at Greenwood which open today before Mr. Justice Irving.

One of the cases on the court list for trial is expected to result in a pretty thorough discussion of the law respecting water rights. This is the case of the Eastern Townships Bank vs. Vaughan, McInnes and the Granby company. Briefly the matter to be decided is the right to water on Fourth of July creek principally in connection with the well known Covert ranch. The bank has a mortgage on the land and has acquired whatever water rights were obtained by W. H. Covert. It is stated that Mr. Covert duly applied to the commissioner at Vernon for the water rights in question in October, 1887. Subsequently the commissioner apparently overlooking the commissioner apparently overlooking Mr. Covert's claim issued a permit of use to Vaughan and McInnis in November, 1888. Later on in March, 1889 Covert's license was issued, and across the face of it was written in red ink that it was of date October, 1887. McInnes has become insane and his rights are represented by a committee. The court will now be asked to adjust the water rights of the several claimants and an interesting trial is looked for.

S. S. Taylor, K.C., represents the plaintiffs and J. A. Macdonald, K.C., will appear today for the defendants.

RECEIVED BY THE KING.

London May 11.—Frederick W. Whitbridge of New York, appointed by president Roosevelt to represent the United States at the wedding of king Alfonso was presented to the king at Buckingham palace today by ambassador Reid. His majesty's reception of Mr. Reid and Mr. Whitbridge was of the usual cordial character.

Minard's Liniment Lumberman's Friend.

RAILWAY CEASES RELIEF.

Chicago, May 11.—The railroads ceased granting free transportation to San Francisco refugees yesterday, the privilege expiring by limitation last night. All refugees hereafter will be dealt with individually by the Chicago relief and aid society.

Minard's Liniment is used by Physicians.

Today you can find fish, principally in cans, at the Dollar Grocery.

A Grand Medicine for the Kidneys.

Don't suffer—don't experiment—don't waste money on unknowns, untried remedies. There is one quick cure—one certain cure—one cure that everybody knows does cure Kidney Trouble. That's Gin Pills.

"I have been a sufferer with Kidney Trouble for years. Have tried medicines and doctors' prescriptions, but could get no permanent relief, my case being pronounced chronic. As it is generally known that the properties of gin without the alcohol is good for the kidneys, I decided to try Gin Pills, but must admit with very little faith. From the very first pill I got relief, and have since taken nearly four boxes and am COMPLETELY CURED, but am going to continue them a while longer. No dull, sickening pains in the back—no low spirits—am increasing in weight—and more vim and vigor than I have had for years—is what Gin Pills have done for me.

"H. P. HERBERT, Ottawa."

Be well and strong. Be free of pain. Be able to enjoy all the good things of life, with all your old-time vigor and enthusiasm. Gin Pills will cure those sick kidneys. Start now—to-day—and see how much better you feel to-morrow. 50c box—6 boxes for $2.50—and your money back if they don't cure.

Special offer: If you send us your name and address and tell us the name of the paper in which you read this we will send you a trial box absolutely free and post prepaid. Write today and get the medicine that cures.

FRUIT AND FARM LANDS

For Sale In the Famous Kootenay Valleys

I can sell you choice fruit lands in 10, 20, 40, 80, or 160 acre blocks at

Ground Floor Prices

I do not offer for sale any fruit land that I have not personally examined. I guarantee every block to be as good as represented, and having sold a large portion of the land now being brought under fruit cultivation in this district, I would be safe in offering any man his money back with 10 per cent interest, who is not satisfied with his purchase. Not one would do it, because they can double their money.

I have on my list many choice locations.

One 13 acre lot near Nelson, partly improved. Price $650.00.

5-Acre lot two miles from the city, $250.00.

10-Acre lot, partly cleared, waterfront. Price $50.00 per acre.

Three 20- acre lots near Slocan bridge. Price $25.00 per acre.

70 Acres at Beasley Siding at a bargain.

Improved farm of 100 acres, $7500.

Several choice locations on Slocan river.

Nine choice locations at Creston; good land near the station.

Two good locations on the Columbia river.

Four 40-acre blocks on Arrow lake.

I can give you choice, selected lands.

On Kootenay Lake
On Kootenay River
On Slocan River
On Arrow Lakes
On Columbia River

In Fire Valley and Creston

Districts, and several partly improved farms. Wild land suitable for stock ranges. Write me for free pamphlet and terms of payment, and

Don't Buy till you SEE ME

I have a fruit farm of my own located on the Kootenay river on which I have 1500 fruit trees, some of these are bearing. This is not for sale, but I have had experience in selecting lands, clearing lands, planting and pruning trees and I am prepared to make reports on land as to the location and desirability for fruit culture.

NELSON'S NEWS OF THE DAY

A want ad. acts as your proxy in the market place.

Why do you shun real publicity? Failure to use the ads, including the little want ads., sometimes really amounts to that.

"Everything new is beautiful" the Italians say. And in this city everything new is advertised—so that you will know where to find it.

The Rebekah drill team will meet in the lodge room this evening for practice. Those not attending tonight will forfeit their office.

If the "right chance" is advertised today in the want columns, there will be other people weighing and considering it—so do not let it "get past you."

Frank B. Gibbs, district manager of the Brackman-Ker Milling company, returned last night from a trip to Calgary, where the company is building a new brick mill.

A quantity of ham imported into Nelson from south of the border has been condemned by the city medical health officer, Dr. E. C. Arthur, and destroyed by his order.

Sheriff S A Elliott of Roger Mills county, Oklahoma, leaves this morning by the Great Northern train for Cheyenne, the county town, taking with him his prisoner, McGivern, alias Sam Green.

The regular meetings of the choral society for practice will be resumed Monday evening. A full attendance is requested by the executive on that occasion as the date for the production of the "May Queen" will be decided then.

In the city police court yesterday morning J. Calhoun, a companion of Sam Green's during his stay in Nelson before his arrest, was arraigned on a charge of defrauding the C. P. R. company. The charge was withdrawn and Calhoun was discharged.

At a meeting of the Nelson gun club held in C. D. Goepel's office last night a committee, consisting of C. D. Blackwood, G. P. Wells and C. H. Ink, was appointed to take charge of all arrangements for the club's Dominion day tournament.

The regular meeting of the Nelson university club will be held tonight at the usual hour and place. A discussion will take place on the newest phases of the provincial university question. W. J. Baird will read a paper on Positivism and its effect on later philosophies.

Local billiard players are taking a keen interest in the tournament now going on at Chicago. As an example of the sort of billiards some of the experts are playing it is stated that in one match Schafer executed a shot that seemed an impossibility. The object balls were lined up at one end of the table, while the cue ball was almost against the far rail in an almost straight line. Schafer played a masse the whole length of the table, hit the near ball on a curve, curved to the cushion and caught up with the red ball a foot and a half from the cushion, where it had been driven by the impact of the first ball.

The Winnipeg Jobbers' union has decided to form a transportation bureau to take up and push all claims and complaints against the railways, individual effort in the past having accomplished very little. Every concern in Winnipeg whose interests and business make it eligible for membership in the union, have been pressed to join the association.

G. C. Hodge, district superintendent of the B. C. Telephone company, who intended making a trip down to San Francisco and the coast cities, but who was detained at Vancouver by the telephone strike there, has gone off to Japan and expects to reach Nelson again about the middle of June. Mrs. Hodge and family are visiting in Victoria.

There was no docket at the city police court yesterday morning. The task undertaken by the police force of suppressing the nuisance of straying horses and cattle is slowly being accomplished. Already many horses have been impounded. Some have been redeemed by their owners, the others have been promptly sold by auction. Some residents near the city limits at the top of the hill are still suspected of pasturing horses and cattle on the roads and they will be attended to next.

The mystery surrounding the death of W. J. McGrath, the Rossland miner whose decomposed body was found two days ago near the old Crown Point mine workings, abut half way between Trail and Rossland, has been cleared up by the statement of Joe Kassack, section boss at Tiger, on the C. & W. line. Kassack saw the last of McGrath on April 8. When under the influence of liquor he started off from near the section house, supposedly to go to Rossland. McGrath must have wandered along and fallen in the deep snow on the creek bank, which is at the bottom of the canyon between the two spurs of Lake mountain. There he fell asleep and froze to death.

RAILWAY CONSTRUCTION

Rails and Bridge Timbers are Coming into Midway.

Midway, May 11—Rails and bridge timbers are beginning to arrive in large quantities and it is stated that no time will be lost in preparing the grade to receive the track. This is no light undertaking, as there is considerable trestle work between here and Molson.

The trouble which arose last week when a number of Italians were paid off, seems to have but little effect on the work as the booming of shots continues as before.

Messrs. Porter & Stewart this week took up their headquarters in Midway, having opened up an office in the Riverside addition. The firm has the contract for the bridge work.

A number of heavy bridge castings are piled up in the yard, indicating preparations for a bridge of considerable proportions. Whether they are intended for the bridge over the river at this point or whether they are intended for use further west, has not leaked out.
