A WINNIPEG BOMBSHELL

Candidates for Board of Control Voted More Than Once

Actions Commenced Against Them--Attempt Made to Unseat Mayor Elect Ashdown

Winnipeg, Dec. 15.—A bombshell was thrown into civic circles this afternoon when an action was entered in the county court by a well known firm of lawyers, for clients, against five candidates who ran for the board of control, three of whom were elected, and J. W. Harris, city assessor. The charge is that all voted more than once for mayor and controllers at last week's election.

A scrutiny of the poll books shows that J. W. Cockburn, Henry Sandison, James Burridge, William Carson, Johnson Douglas and J. W. Harris received ballots at more than one polling booth for mayor, controllers and bylaws. The penalty for such acts is disqualification for two years and a fine of $50 for voting more than once for mayor, and $20 for voting more than once for controllers.

An effort is also being made to unseat mayor-elect Ashdown on the ground that the city rents rooms in his block and that a bill of $38 for firemen tearing down the walls after the destruction of his store two years ago, is still unpaid, J. H. Ashdown & Co. stating that it is Mr. Ashdown's personal account. These pecuniary relations with the city, it is asserted, constitute grounds for disqualification.

ROARIN' GAME STARTS

STANDS GLIDED AND BESOMS PLAYED LAST NIGHT.

OPENING MATCH WON BY J. H. FOX'S RINK.

The local curling season opened last night with an exciting game between rinks skipped by Judge Forin and J. H. Fox. This is the earliest date for the roarin' game on record, say local enthusiasts. As it was ex-mayor John Hamilton was the first man on the ice and J. H. Fox made the first shot. Iceman Booth has been nursing the ice for some time back and has good foundations. Last night the one rink in commission, although a little rough, was keen and the curlers report a royal night's sport. The rinks and scores are given below:

J. Christie, A. J. Dill, D. Booth, J. H. Fox (skip) 14.

Geo. Wells, Geo. Nunn, Harry McIntyre, Judge Forin (skip) 10.

The judge was one up on the first end and the game was closely contested right through and was anybody's game till the last shot was made.

THE GREAT McEWEN.

An Up-to-date Performance at the Opera House This Week.

There is nothing supernatural about the work of McEwen, the Great, who is to appear here Monday night. He is a scientist and accounts for everything he does upon the natural laws, and the feats or whatever they may be called, he accomplishes, may all be explained in a natural way. They are not of a character that gives one the creepy, crawling feling, and sends one home believing in ghosts, spooks and the like. They are, however, more wonderful, because they are real, performed by a power which, though we do not understand, is as fixed and as much a rail of nature itself as the law of gravitation and other known forces.

While magic will constitute the major portion of the performance, still enough time will be given to hypnotism to thoroughly delight those enjoying this humorous exhibition, and also prove to scientific minds his complete control of the highest forms of mental philosophy.

McEwen will be supported by a company of clever entertainers, including several headline vaudeville acts, and his whole performance will be clothed in new and special scenery. He comes to Sherman's opera house for three nights beginning Monday Dec. 17.

CRUSHED BY ROCK.

Michel Miner Seriously Injured Under a Slide.

(Special to The Daily News)

Michel, Dec. 15.—George Skuko, a Slav miner, was seriously injured early yesterday morning by a fall of rock, resulting in serious bruises on the back of the head and shoulders and a broken arm. Skuko was assisting Barney Farmer as shot lighter in No. 8 mine when the accident occurred. The rocks had evidently been loosened by a shot. The unfortunate man was at once taken to the hospital where the wounds were dressed by Dr. McSorley.

A large skating rink has just been completed to the joy of the skating fraternity of Michel. The rink is public property, the work having been done by donation. It is the intention of leading spirits of the hockey club to have some matches pulled off here during the season.

BRITISH LABOR DEMANDS

London, Dec. 15.—The Amalgamated Society of Railway Servants, representing all the trades unions in this country connected with the railways, has approved the national program, and the executive officers propose to present their demands simultaneously to all the companies early next year. The chief demands are an eight hour day, an improvement in wages, and recognition of the society.

FINDS HIGH GRADE ORE

DIAMOND DRILL DOES GOOD WORK ON SKYLARK.

MANAGEMENT PLEASED WITH SUCCESS OF EXPERIMENT.

(Special to The Daily News)

Phoenix, Dec. 15.—For some weeks past the management of the Skylark mine, located some two or three miles below Phoenix, has been doing some prospecting on the property witha diamond drill—something not often done on high grade claims. The report now comes that the results have been highly satisfactory, and before taking out the drill from the mine, it has been decided to put in a hole on the 75-ft. level, where it was evident that the lead had faulted. After boring about 20 feet, the drill broke into a fine body of high grade silver ore, tests of which ran as high as $200 per ton, and which is expected to average fully $150 per ton by the carload, the management being much pleased at this unexpected result.

The Skylark, it is said, never looked better, the work being done by the force of some 20 men, steadily employed under foreman Rowe for over two years past. The final payment on the Skylark bond, amounting to $3000, is expected to be in the bank next month, though not due till March 1. This mine has practically paid for all development as well as having taken care of the payments on the bond. It is therefore confidently anticipated that the new year should see the beginning of the distribution of profits by the owners, the Skylark Development Co., Ltd., nearly all Phoenix men.

BICYCLE RACE ENDED

SIX DAY GRIND AT MADISON SQUARE GARDEN

ROOT AND FOGGLER WON FIRST PRIZE AGAIN.

New York, Dec. 15.—Root and Foggler, first; Downing and Hopper, second; Rutt and McFarland third.

This is the order of finish of the first three teams in the six day bicycle race, concluded at Madison Square Garden tonight. The last mile was ridden by Foggler, Downing and Rutt respectively, for the three first teams. The time was 2.17. The distance covered by the eight surviving teams was 2,292 miles and 2 laps. At the finish the riders were 441 miles and 2 laps behind the record set by Miller and Waller for the same number of hours. The same team won last year's race, Root making the final dash.

NELSON'S NEWS OF THE DAY

At the police court yesterday morning a vag named Gow was given a chance to go to work. A couple of Chinamen who had neglected to pay the provincial poll tax thought better of it when summoned and produced the where with all.

An emergency meeting of the school board was held last night. Mrs. Pearcy will be offered the room she is now in charge of and the new class to be opened in Fraternity hall was tendered Miss Abercrombie of Vancouver. Teachers will also be interested in knowing that the payroll was passed so that funds may be available for Christmas.

Lower Josephine street was the scene of mild excitement yesterday afternoon, when Mrs. Litchfield, who was coming from the doctor's office where she had had her finger lanced, fell on the street in a faint. She was carried into the office of the Allis-Chalmers-Bullock Co. and Dr. Hall summoned, who readily brought the patient round.

The Nelson-Bruce company concluded their engagement at the Sherman opera house yesterday with a double bill of romantic dramas, "A Soldier of Fortune" in the afternoon and "The Prisoner of Zenda" in the evening. Both surged with good red blood and were put on in a manner quite in keeping with the high reputation enjoyed by the company in this city.

GOOD FOR C. P. R.

Company's Stock Passes 200 Mark—New High Record Made

Montreal, Dec. 15—There was decided excitement on the stock exchange when the price of Canadian Pacific stock for the first time in its history, reached the 200 mark and attained a new high record by selling as high as 201. The last sale was made at 200 3-4 and the stock closed strong at 201 bid and 201 1-4 asked. Nearly 2000 shares changed hands on the advance.

SENSATION IN FRISCO

Rumor That U. S. is to Rush Troops to Honolulu

Story is That Two Regiments Are to be Sent to Head Off Japanese Invasion

San Francisco, Dec. 15.—The Examiner publishes this despatch from Honolulu today:

The officers of the transport Thomas have announced that two regiments are to be rushed immediately to the island in anticipation of trouble with the Japanese. It is understood the Mikado is extremely anxious to secure possession of the island of Lanai, which is private property. The island is 50 miles from Honolulu and could be used as an excellent naval base. It has two splendid harbors, of sufficient depth to accommodate a large fleet of vessels. Last night attorney George Gear secured an injunction against governor Carter and land commissioner Pratt to prevent their selling the island to a syndicate. It is understood that the syndicate represents the Japanese government or persons who ultimately expect to dispose of the island to Japan.

Washington, Dec. 15.—It is stated at the war department today that no order has been issued for the despatch of additional troops to the Hawaiian islands, nor is there any such order contemplated.

APPLICATIONS GRANTED

Ymir Licence Commissioners Say Yes To Applicants.

At the meeting of the board of licence commissioners for the Ymir district held at the court house yesterday noon there were present: Chairman J. A. Kelly, commissioners J. G. Dewar and C. F. Wier, and inspector W. H. Bullock-Webster. All the applications reported in yesterday's Daily News were granted with the exception of that of Fred Adie of Waneta, who withdrew his.

The inspector reported that public convenience was not served by the Grove hotel, and that in regard to the application of E. McArthur of the Northern hotel, Salmo, the place was neither required by public convenience nor was the place itself or the proprietor deserving of a licence. Some discussion developed out of the McArthur case but after a short adjournment McArthur was granted his licence.

THAW IS SUFFERING

Prisoner Wants Immediate Trial or Else Have Murder Charge Dismissed.

New York, Dec. 15.—Clifford W. Hartridge, attorney for Harry K. Thaw, applied to justice O'Gorman, in the supreme court today for an order to show cause why the indictment against Thaw for the murder of Stanford White should not be dismissed, unless a speedy trial is granted.

The affidavits set out that Thaw's trial was set for December, when, because of the application to take testimony of witnesses outside the state, the trial was put over, and that other prisoners arrested since, have been granted trial. The papers cite that Thaw has now been in prison for 172 days, and not only is his health being impaired, but also the health of his wife and mother, through anxiety over the "undue and unnecessary delay."

WEEK'S ORE SHIPMENTS

FIRST SUBSTANTIAL INCREASE SINCE COAL STRIKE.

QUEEN VICTORIA DEAL GROWS IN IMPORTANCE.

The ore shipments during the past week, except to the Hall Mining & Smelting company's plant, show a substantial increase over the previous weeks during the coal strike and just after the settlement. The smelters are all said to be fairly well supplied with coke, but there is still a shortage of coal at some points.

The Tail smelter has two furnaces in operation and others are to be blown in this week. The manager of the Le Roi smelter at Northport has announced that he will commerce smelting during the coming week.

The further developments of the Queen Victoria deal at Beasley fully bear out the good expectations that were expressed in these columns a weeks ago and a great deal is expected from this property during the coming year.

Some complaint has been made at the close of the week by mining men over the Hall M. & S. Co. refusing to purchase certain classes of ore. The company's statement in the matter was published yesterday. The La Plata, Silver Cup, the Queen, Kootenay Oil Co., and some other mines are shipping to either

MUNICIPAL 'PHONES

Winnipeg, Dec. 15.—In an interview, premier Roblin today announced that the government had accepted the vote in Winnipeg on municipal phones as a mandate of the people and would at once call for tenders for building thousands of miles of telephone lines in the province next year. He declares he will cut the Bell rate in two. The government also announces it will fix a heavier tax on loan companies doing business in the province. Last year the revenue from such sources was $8000. The government has decided to inaugurate its flag-flying-over-school policy on Victoria day the inability of school trustees to secure poles in time for January 1, the date originally fixed, being the chief reason for the delay.

Trail or Northport in place of the local plant.

In addition to the shipments as given below it is stated that the Second Relief and the Queen mine both made shipments to the Northport smelter during the past week.

The output of the various mines and the receipts at the several smelters for the past week and year to date in detail, are appended:

BOUNDARY SHIPMENTS

	Week	Year
Granby	13,543	778,769
Mother Lode	2,970	94,732

Sullivan	600	26,120

The total amount of receipts reported from local and foreign mines for the past week were 25,165 tons, and for the year to date 1,440,046 tons.

ROSLAND MNIES

Good Ore Found in the Le Roi on Lower Levels—Shipments Increasing

Rossland, Dec. 15—Ore shipments continue to increase with the capacity of the smelters to take the ore. A couple more furnaces will shortly be blown in at Trail and more ore can be sent there for treatment.

The Northport smelter, it is announced, will be blown in on Monday. There are 22,000 tons of ore there ready to be smelted. Fuel is coming in every day and there will be plenty in future to keep the plant in continuous operation. The Le Roi ledge where it was found in the Black Bear territory, west of the Josie dyke, has been opened up on the 800, 900 and 1000 foot levels and there is shipping ore on each level. This ledge promises to be one of the best assets of the Le Roi.

IS OPPOSED BY CANNERS

Clause of New Pure Food Bill Raises Strong Objections

Claimed That Compulsory Stamping of Date of Pack on Cans Would Ruin the Industry

(Special to The Daily News)

Vancouver, Dec. 15.—Local canners are making strong representations at Ottawa with regard to certain features of the pure food bill to be introduced by Hon. Mr. Fisher. They are unanimous in the opinion that the enactment of the clause making compulsory the stamping of the date of pack on the can would mean the ruin of the industry. It is feared that purchasers would refuse any but the last pack, without paying any attention to the quality. The result would be that canners would put their stock on the market at slaughter prices to clean out, and would thus stampede the market. There could be no gauging of demand or supply under the proposed provisions. It is claimed impossible to show that the properly canned product deteriorates with age in the least.

The clause concerning government inspection of canneries is well received, the canners believing that public confidence will be increased by the attachment of the seal of approval.

SERIOUS FUEL FAMINE

CITIZENS OF BRANDON ARE IN A DESPERATE PLIGHT

U. S. ARMY TO BE EMPLOYED IN NORTH DAKOTA.

Brandon, Dec. 15.—The fuel situation here is hourly growing worse, and unless aid soon comes, conditions here will be very critical. Beyond six cars of anthracite coal for the C. P. R. and one car for a local dealer yesterday, and two cars of soft coal for local dealers this morning no fuel whatever reached the city for three days past. Nearly all the city hotels are running very short of coal. The hospital has less than a week's supply as has also the Brandon college and the electric light station. The jail is out of coal, entirely, but has about two weeks supply of wood. Most of the churches have no coal whatever as far as the private supply is concerned a good many people have been burning old fences and any other wood procurable. The Canadian Northern railroad has plenty of cars loaded with wood at Edrans, but cannot get them through on account of storms. There are 20 cars of hard coal on the G. N. R. line but traffic there is completely blocked too. The situation with the C. P. R. remains just as serious as ever. The general manager of the Souris Coal Co. at Beufel on the Souris branch, was communicated with, but answered that he could do nothing as storms for three days had entirely blocked freight traffic in that section and on the mine tracks. The C. P. R. has promised, however, to help him out as much as possible with the engines, snowploughs, etc. It is fortunate for the city that the weather is still continuing rather mild, but should a cold spell come on the condition of the people, destitute entirely of coal, and wood only as gathered, would be terrible. As a prominent dealer remarked this morning, the fuel situation in the city of Brandon, at present, is by far the most serious in the history of the municipality.

Washington, Dec. 15.—Senator McCumber today received this telegram from J. P. Whittemore, dated at Galesburg, N.D.: "The United States army could not be better employed than in compelling and assisting these railroads to drop everything and haul us coal. Half the northwest will be freezing in a week, and the whole of it in two weeks."

Mr. McCumber announced his intention of forwarding the telegram to the president, as the commander-in-chief of the army.

ALBERTA'S CATTLE EXPORT

Calgary, Dec. 15—The shipment of export cattle from Alberta and Saskatchewan for 1906 has eclipsed all previous years. Last year 50,000 head were shipped to Nov. 30. The reports are not all in for this year, but the total will exceed 70,000, practically all from Alberta.

BIG MILLS SOLD.

Hundreds of Thousands Concerned in Vancouver Deals.

(Special to The Daily News)

Vancouver, Dec. 15.—Two deals in mill properties were announced here this afternoon, involving the exchange of $650,000. The first is the acquisition of the Canadian Pacific mill at Port Moddy from Paterson and others by sir Hibbert Tupper and Mr. McCormick, the present manager of the Pacific Coast mill, for $350,000. The latter will assume charge of the plant. Extensive timber limits figure in the deal. The second is the reported passage of a controlling interest in the Pacific Coast company's plant here to a local syndicate, headed by mayor Buscombe, for a figure about $300,000. This purchase includes timber limits sufficient to keep the mill going for the next 25 years.

VICTORIA MAYORALITY

Victoria, Dec. 15.—(Special)—T. W. Paterson, M.P.P. for Islands, formerly of the railway building firm of Larkin, Connolly & Paterson, of St. Catherines, is a candidate for the Victoria mayorality against the present mayor, Morley.

BOMBS AND REVOLVERS

ATTEMPTED ASSASSINATION OF RUSSIAN ADMIRAL.

TERRORISTS FAILED AND WERE ARRESTED.

St. Petersburg, Dec. 15.—Another attempt on the life of admiral Dubassoff, ex-governor general of Moscow, was made today, but he escaped with slight injuries. Dubassoff was driving in Sergyewiskia street on his way to the Taurida palace when the attack was made. Only slight wounds were inflicted upon the admiral. The would-be assassins were arrested.

The terrorists made a determined attempt upon the admiral. One man approached him and fired several shots at him with a revolver, but missed. The terrorists then threw a bomb at Dubassoff, which exploded and wounded him in the leg. A bystander seized the admiral's assailant, whereupon a second terrorist appeared and went through exactly the same performance. The second bomb thrown, however, did not explode and Dubassoff, although injured, closed with the terrorist and held him until he was arrested.

Admiral Dubassoff was appointed governor general of Moscow in December, 1905. Several attempts have been made upon his life. His health broke down and he resigned his post. He is an aide-de-camp to the emperor and a member of the council of the empire. When the admiral become governor general of Moscow the revolutionists entered into a conspiracy to abduct him. The plot failed. In January Dubassoff was advised that an attempt would be made at the ceremony of the blessing of the waters to assassinate him, and princess Koslovska was arrested and charged with being an accessory to the conspiracy.

B. C. GOVERNMENT REFUSED

To Assist in Construction of Life Saving Trail.

Victoria, Dec. 15.—A letter from Hon. L. P. Brodeur, minister of marine and fisheries, says that he will press upon the council of the dominion government for an appropriation for the building of a trail on the West Coast for the benefit of shipwrecked crews. As soon as the money is voted for the purpose Hon. Mr. Brodeur says that the work will be undertaken.

Hon. Mr. Brodeur says that the matter of building this trail was taken up with the provincial government and co-operation sought on the grounds that the trail could be used for colonization purposes as well, but Hon. Mr. McBride's government declined to give assistance. Failing in this Hon. Mr. Brodeur indicates that he will now press for the construction of the trail as a dominion government work.

COAST RAILWAY FIGHT.

Vancouver Moves to Head Off New Westminster.

(Special to The Daily News)

Vancouver, Dec. 15.—The trades and industries committee, a semi-municipal body has sent to the city council a recommendation as an offset to the offer of New Westminster to the V. W. & Y. This contemplates granting a portion of False creek flats to the company for car shops, etc., on terms to be agreed upon. A conference to settle disputes between the city and the company is to be held.

BILL GATES DIVORCED.

Latest Wife of Eccentric Miner Gets Her Freedom.

Seattle, Dec. 15.—Kittie C. Gates, the most recent wife of Swiftwater Bill Gates, Alaska's most eccentric character, obtained a decree of divorce from the Alaskan miner in superior judge Frater's courtroom this morning. Although the suit was originally started by Gates to secure a divorce from the woman upon statutory grounds, and although he spent several hundred dollars in securing evidence that would aid him in obtaining a decree, he was not present in court this morning to answer the cross-complaint filed by his wife.

TO THINK IT OVER

Toronto, Dec. 15—The church union committee has adjourned until the second Wednesday in September, 1907. Several changes were made in the report of subcommittees on doctrine for greater clearness and simplicity.

LIBERAL NOMINATED

Winnipeg, Dec. 15—Alex. Dunlop, editor of the Neepawa Press, was nominated liberal candidate in Beautiful Plains.

MINISTRY OF MINES

Templeman to Introduce the Bill After the Holidays

Hon. Chas. Hyman is Seriously Ill and His Resignation Must be Accepted

(Special to The Daily News)

Ottawa, Dec. 15.—Hon. Wm. Templeman's bill to create a separate mines department under the control of a member of the privy council as minister of mines, will be introduced at an early date after the holiday recess. It is understood the new department will have control of irrigation affairs and it is suggested that this department may have a very important bearing upon the irrigation problems of British Columbia.

The latest reports fully confirm sir Wilfrid Laurier's recent statements regarding the health of Hon. Chas. Hyman, who is now in a very critical condition. The acceptance of his resignation as a member of the cabinet is unavoidable, and the appointment of his successor is likely to be announced shortly after the house re-assembles on January 9. Speculation is rife as to who will be called upon but so far no name can be mentioned with any degree of authority.

The number of companies incorporated under a provincial charter during the past week makes the record. Sixty-seven organizations have been recorded of which 24 were mining companies. The total capitalization is $31,000,000.

The following passed the federal civil service preliminary examinations held in Vancouver: Peter Barth, James Beckett, Frank E. Carr, Harry E. Dixon, Alex. Davidson, William R. Flumerfelt, Harold Hargraves, William J. Keyes, Gordon S. McCree, Herbert S. McEwen, Hugh Lyon, R. E. D. Simpson, S. Smith, Thomas F. Taylorson.

Assurances which have been received from the Indian government indicate that steps will be taken to end the movement of East Indians to British Columbia.

A motion has passed in the house that parliament adjourn on December 20, and reconvene on January 9. The day originally fixed was the 8th, but this has been changed.

The findings of the royal commission on insurance will be presented after the holidays.

CARNEGIE'S VERY LATEST

SAYS RICH MEN SHOULD NOT BE QUEATH WEALTH.

ESTATE SHOULD BE BROKEN UP AT THEIR DEATH.

New York, Dec. 15.—Andrew Carnegie, in an address before the National Civic Federation, said that he believed the major portion of the estates of enormously wealthy men should go to the state upon the death of the possessor of the fortune. Carnegie opposes a graduated income tax.

Melville E. Ingalls, of Cincinnati, former president of the Big Four railway, before the National Civic Federation, addressed himself to the subject of an income and inheritance tax especially with a view to limiting the large accumulations of wealth in the possession of individuals. He said that there had been in the last few years three prolific sources of multi-millionaires which are open to criticism.

These were the tariff, illegal favors and contracts given to shippers by the railways, and the securing, by means which were questionable, of contracts at nominal prices for the use of the streets in various cities, for the purpose of transportation and lighting. Ingalls said that illegal favors had been in many cases wrung from the railways by the shippers and that this form of evil had been used in combination wit hthe tariff Ingalls also favors the enactment of legislation so that no man should have the right to dispose of a bulk of his property by will; but that when he dies, it shall be divided among his heirs. He said that a man's wealth should be broken up at his death and distributed.

CONVICTS MUTINY

Cut Guard's Throat and Break Sergeant's Arm.

Jackson, Miss., Dec. 15.—The convicts at Oakley prison farm in this county mutinied this afternoon and killed guard J. M. Buckley by cutting his throat, broke the arm of sergeant Dodds, in charge of the farm, and then barricaded themselves in the building, defying the regular guards. Governor Vardaman and the members of the local military company left for the scene this afternoon on a special train.

INCREASED WAGES

Providence, R.I., Dec. 15—Mill owners in this state, employing about 25,000 hands, today announced that they would grant an increase of 7 1-4 per cent in wages.

We Again Desire to Emphasize

the fact that we want your mail orders. We make ordering by mail as easy as a personal visit to our stores. Let us suggest that before you begin your Holiday purchasing, you write to us for prices, or you order what you want on approval. OUR MAIL ORDER SERVICE is of much importance to our customers, especially when some one of the "scarce" articles is wanted, which is not in the usual local stocks. We make it a point to fill these special orders if what is wanted is to be found anywhere

So many customers have been successful with the aid of our mail order system, that there is no earthly reason why you should not be among them.

UNION LABEL

EVADING THE ISSUE.

Briefly summing up the examination of recent political history in which The Daily News has been indulging during the past week, we find several fundamental propositions standing out conspicuously as the framework upon which the whole argument has been built. These are:

First, the government of the day is soon to appeal to the electorate for an extension of its office tenure.

Second, the government must make that appeal on some definite ground—must present some specific platform for the approbation or rejection of the voters.

Third, it has, through its organs, selected its "record" as the one particular thing on which it wishes to be judged.

Fourth, that record forms a concrete issue, and readily lends itself to criticism and defence. The facts concerning it are easily attainable, and, in general, are already well known. Hence all that remains to be done is to so collocate those facts and disclose their mutual relationships as to render possible accurate deductions concerning their merit or demerit.

Fifth, the record in question is either good or bad, according to the influence the individual transactions therein contained as integral parts exerted on the welfare of the province as a whole.

Sixth, selecting several of these transactions, notably those connected with Kaien Island, with Kitimaat, with the Midway & Vernon, and with the proposed gift to the C. P. R. of a one and one-half million dollar bonus, the opposition has criticized the government's course and has pointed out, in a business like way, wherein it thinks that course has not been in the interests of the people; or, stated as a corollary, has insisted that these transactions formed a distinct and flagrant betrayal of the trust confided by the people to the government.

Seventh, that the government, if it hopes to emerge successfully from the trial at ballots it must soon perforce enter upon, must convincingly refute the arguments of the opposition, not by mere denial and abuse, but by a logical defence of its own course and a dispassionate portrayal of the business principles on which its policy is based.

So simple and straightforward does the direct issue, as thus presented, appear, that it is difficult to see why either party to the debate should seek to evade it—granted, of course, that both parties have full confidence in the justice of their respective causes and are honestly convinced that their opponent's position is unsound. But, incredible as it may seem, the government's apologists, in practice, at least, are certainly seeking to evade the issue and, in doing so, are indulging in a lot of heated talk that can not, by any degree of twisting, be expected to assist the electorate in reaching a sound decision on the grave problems which confront it. The Daily News has taken the specific incidents referred to above, and has pointed out the grounds on which it claims that they were inimical to the general welfare; and it has followed this up by asserting that, unless the government could amply justify its course in each and every case, these transactions in themselves formed an arraignment against the McBride ministry so severe and damaging that the people could not possibly, in face of it, return that ministry to power. The only rejoinder has been that we are "raising dead issues," (or, paraphrasing this, that we are returning to an examination of past deeds); that we are perpetrating "fictions fabrications and falsehoods," and that our case is so puerile it is not worth while answering it. Not a single effort is made to justify on business grounds the government's course in the transactions assailed, nor, if we have erred in our statements, is it specifically pointed out on good and responsible authority, wherein our fault lies.

Let us examine this retort. The charge that we are raising dead issues is not a serious one; it merely means that we are criticising incidents in the government's history which the government's apologists would prefer to see left alone. It indicates, too, that on these counts the government has no good and sufficient defense available, for, if it had, it is reasonable to suppose that they would make use of it. Again, as we have already pointed out, if any act of the government forms a "dead issue," all must fall into the same category; and if the "dead issues" are removed from the field of controversy, the whole of that "record" on which the government so prides itself at once disappears. We approach then, a reductio ad absurdum—a government inviting the critical attention of a people to an issue which it itself claims is non-existent!

Let us take another step. We have asserted that the Kaien island deal was bad business—a betrayal of public trust; and that the Kitimaat, Burnaby, Midway & Vernon, and other similar incidents fell within the same category; and we have tried to demonstrate the grounds on which we made these statements. In reply, we are told that we are telling falsehoods! Surely, if we are doing anything so foolish, it would be an easy matter to present the facts and convict us. A mere assertion that we are not confining ourself to the truth is not convincing; it is not even an argument, especially when it comes from an irresponsible source; and the only source from which it could come, and which would not be irresponsible, would be the persons who had intimate first hand connection with the transactions under discussion. The fact that an irresponsible third party profers a denial without disclosing the grounds on which that denial is based, means nothing. It is not even amusing. Indeed, in so serious a case, it is pitiful.

In review we have thus briefly traversed the whole argument as it has been presented to date. Other counts will be advanced later, and we will also have frequent occasion to return to the subjects already opened. In doing this we will feel confident that when the whole record of the government has been threshed out and the truth of each individual incident disclosed, the mass of the people will, by their votes, vindicate the position we have assumed and will decide that the government is no longer worthy of being entrusted with the responsibilities of office.

WAREHOUSES FOR SALE

I have two good warehouses on C. P. R. tracks for sale cheap. For further particulars apply to

T. G. PROCTER, Agent, Nelson

Fire, Accident and Employers' Liability Insurance.

In TOYS and GAMES

There is such an endless variety that we can only make individual mention of a few of our special numbers.

MECHANICAL TOYS—In mechanical toys there are several new things this year that are especially good.

ATTACHMENTS FOR STEAM ENGINES, consisting of Pumps, Hoisting Buckets, Emory Wheels, etc., etc., that can be connected to Steam Engines 50c, 60c and up.

BOATS fitted with steam engines that you can get up steam in—$1.40 and $1.50.

BATTLESHIPS, TORPEDOES, Etc., fitted with screws, will run in the water, 75c and up to $4.00.

TORPEDO FLEETS with manoeuvering charts, etc.,—$2.50.

ELECTRICAL TOYS—

MOTORS—$2.25 and $3.00.

TRAM—with electric motor and track—$8.75.

STEAM ENGINES—Upright and horizontal—60c, $1.10, $2.40, $3.00, $4.75, $6.00.

MAGIC LANTERNS at 45c to $10.00.

GAMES

We have an exceptionally strong line of games this year, including the best of the new ones. We will not attempt to list them because you have to see them to get any adequate idea of what they are. One of the best means of keeping the boys and girls at home in the evenings is to provide them with some means of amusement, and a dollar or two spent for a good game is MONEY WELL SPENT.

The Nelson Hardware Company will keep their store open every night until after Xmas, to accommodate those working late.

IN PRAISE OF CHAMBERLAIN'S COUGH REMEDY

There is no other medicine manufactured that has received so much praise and so many expressions of gratitude as Chamberlain's Cough Remedy. It is effective, and prompt relief follows its use. Grateful parents everywhere do not hesitate to testify to its merits for the benefit of others. It is a certain cure for croup and will prevent the attack if given at the first appearance of the disease. It is especially adapted to children as it is pleasant to take and contains nothing injurious. Mr. E. A. Humphreys, a well known resident and clerk in the store of Mr. E. Lock, of Alice, Cape Colony, South Africa, says: "I have used Chamberlain's Cough Remedy to ward off croup and colds in my family. I found it to be very satisfactory and it gives me pleasure to recommend it." For sale by al idruggists and dealers.

Minard's Liniment Cures Dis'emper

Holly, Mistletoe and Cut Flowers for Christmas. Henry's Greenhouse Vancouver, B.C.

NO OPIUM IN CHAMBERLAIN'S COUGH REMEDY

There is not the least danger in giving Chamberlain's Cough Remedy to small children as it contains no opium or other harmful drug. It has established a reputation of more than 30 years as the most successful medicine in use for colds, croup and whooping cough. It always cures and is pleasant to take. Children like it. Sold by all druggists and dealers.

Minard's Liniment Cures Distemper

C. S. RASHDALL, FOR 13 YEARS A resident of West Kootenay, will attend at the Hall Mines Smelter on behalf of shippers and see to weighing and sampling of ores consigned to the smelter. Address P.O. Box 624, Nelson, B.C.

The Hudson's Bay Co.

NELSON, B.C.

is dug in this soil until it is exhausted, when the soil is removed to a neighboring stream, where it is mixed with water and passed through an ordinary hand salve, the stuff that is left is then carefully examined for rubies. No artificial or mechanical processes for the washing of the soil have as yet been introduced, nor have the gems been discovered in fissure veins of soft material imbedded in the rocks, or in crystal form. The ruby of "pigeon's blood" color is rarely if ever met with in these diggings The color of the Siam ruby being a light red of a dull hue. Rubies have also been reported from other localities, the massive varieties being common in the *crystalline rocks of southern India*, whilst ruby mines have been worked in Afghanistan.

The spinel-ruby is a compound of alumina and magnesia. Its hardness is only 8, and its specific gravity 3.5 to 4.1. It is either reddish or clear red; is either transparent or translucent; sometimes sub-translucent. The red color of this class of stones is supposed to be due to the presence of chromium oxide. They may be distinguished from true rubies by testing them before the blowpipe flame, when they will change to a brown color, sometimes becoming black and opaque as the temperature increases and on cooling first become green, and then nearly colorless and at last resumes its red color. The "true" ruby does not vary before the blowpipe flame. The spinel-ruby is a common associate of the true ruby both in Ceylon and Siam, and other eastern countries, where it occurs of beautiful colors as rolled pebbles in the channels of the rivers.

Artificial rubies are made, having a composition nearly equal to the true stones. In the most successful method, the rubies were obtained in an earthern crucible by the raction at a very high temperature of a mixture of alumina with more or less potash, upon barium fluoride with bichromate of potash as coloring matter. They are well crystalized clear and of a brilliant color.

Rubies of pure color and fair size are the most valuable of all gems. The largest ruby known was found in Mandalay; it weighed about 304 carats, and was found in 1890.

Rubies are known to exist in British Columbia both in the gravel in the streams and in the solid formation. They have been found in the gravel of the Slocan river, as well as in several creeks in East Kootenay in the neighborhood of Fort Steele. In the solid formation they are found near Slocan Junction, and also at points near the Slocan lake. In the later place they are dark red ruby, and occur in an orthoclase rock; whilst at Slocan Junction they are of the "pigeon's blood" variety and are found in a schistose rock.

CORRESPONDENCE.

H.C., Moyie, B.C.—The sample you send for examination is too small to state anything definite about. We have put it through a series of tests and are rather under the impression that it contains oil of some character, whether mineral or vegetable oil it is impossible to state from this sample. A thing like this may be of considerable value to you larger sample when we could give you a better opinion than from so small a sample as this.

M. M., Camborne, B.C.—It will be difficult for you to even get a rough estimate of the quantity of silver in your ore without having an assay made. It might be done roughly by weighing out half an ounce of powdered galena ore, mixing it with flour, placing in a pot with three nails and then heating for about half an hour in the blacksmith's forge. You would then have the silver in the lead button. It would be necessary for you to drive the lead off before the blowpipe flame, which would be a long and tedious job, but in the end you would have the silver contents left. The silver button left, you would have to weigh or judge by other buttons. Any assayer will provide you with a set of silver buttons of known weight so you could judge approximately by this method.

H. J., Nelson, B.C.—Your sample is a plain piece of white quartz with some hematite on one side. It will most likely only contain small values in gold.

S. P. J., Slocan, B.C.—Your rock is of a feldspathic nature. It is very doubtful whether it will contain any nickel. The fee for a nickel-cobalt determination is $5.00. Send a larger sample if you wish to have it assayed.

J.C., Rossland, B.C.—Your No. 1 sample is *chalcocite* in quartz. This is a rich copper sulphide of a lead-gray color with a bluish tinge; which when pure carries about 80 per cent copper. No. 2 is quartz with copper pyrites and bornite present. No. 3 (the wall rock) is a slatey-schist. Assay Nos. 1 and 2 for gold, silver and copper.

N. S., Kimberley, B. C.—The white crystals you refer to in the rock sent us are cerussite. This is a carbonate of lead and usually carries silver values similar to the galena that it is connected with.

A. Boyd and F. J. Sammons, thence 40 chains west, along the C.P.R. right of way; thence 10 chains south; thence 20 chains east; thence 10 chains north to post of commencement, containing 40 acres, more or less.

Nelson, B.C., Dec. 15, 1906.
GERALD S. REES.

THE GREAT McEWEN

FLORENCE McEWEN

Sherman's Opera House, Nelson, B. C.

Three Nights Commencing Monday, Dec. 17

Mr. C. P. WALKER Presents

The Great McEwen

And His Company of Vaudeville Stars

$15,000 invested in illusions and display. The world's foremost hypnotist, mind reader and master magician
Popular prices. Seats now selling at Rutherford's. Parties can have seats reserved by addressing Rutherford's or Sherman's Opera House

The Wonderful Yogis Temple Mysteries

One of the Great McEwen's non-equaled illusions, "The Great Yogis Levitation." On a brightly lighted stage a lady is raised from a casket high into the air. An iron hoop is passed entirely around her body, showing the absence of supports.

Another illusion invented and controlled by the Great McEwen is termed "Vanity Fair." The scene represents a ladies' boudoir; the lady enters, steps before a large mirror to arrange her hair and at a wave of the magician's wand seemingly disappears into the air. The fact that you can see above, below and all around the mirrow, and the quickness in which the disappearance is made, proclaims this illusion the greatest in the world of magic.

TELEGRAM, Oct, 2nd, 1906.

The demonstration of the power of mind over matter was the feature of an interesting entertainment at the Auditorium last evening, when McEwen, the hypnotist, did some mystifying turns before a well-filled house. Though McEwen has frequently held forth before Winnipeg audiences in the past, there did not appear to be any flagging of interest in the line of pastime which he had to offer and when he transformed several otherwise very animated human beings into a state of rigid indifference to anything going on around them except the will of the hypnotist, many who could give the late lamented Thomas cards and spades as doubters were forced to admit that the art had several new things. Besides the exposition of hypnotism the star of the evening gave some very clever examples of magic and legerdemain which the amateurs will endeavor to imitate for the rest of the winter at the house parties.

Bright vaudeville specialties were introduced during the evening. The stage settings were particularly effective. McEwen will put on his entertainment this evening and Wednesday, there being a change of program each night.

FREE PRESS, Oct. 2nd, 1906.

Since childhood's earliest hour has there ever been anything that attracted our attention like the things we did not understand? And today, is there a form of entertainment that proves as interesting as a well presented program of magical tricks and illusions? The Great McEwen, magician and hypnotist, opened a three nights' engagement at the Auditorium last evening, and at 11 o'clock sent home an audience filled with bewilderment, wonder and admiration. His performance, this season, is devoted more to magic, and he has improved in this art to such an extent that we doubt if he has a superior on this continent. His palming, passing and substituting, showed the height of dexterity; his productions were seemingly miraculous, and proved a strong argument in favor of the discarded beliefs in witches and wizards.

Probably the greatest attention was given the levitation not new to Winnipeg, but always puzzling. A lady is raised high in the air with no seeming props or supports on a brightly lighted stage, with no black drops or flaring lights. A hoop is passed over her entire body and thrown into the audience for inspection. Another remarkable illusion is produced by a large mirror from before which a lady disappears in a twinkling of the eye. These two acts alone will give a man something to figure on for some time to come.

McEwen's ability as a hypnotist is well known in Winnipeg, and last night his performance was up to its usual standard. The audience fairly screamed at the funny tests.

Mr. McEwen has departed from his former entertainments, in that he carries a very clever supporting company, and some highly appropriate special scenery. Florence McEwen has a good voice and sings in a pleasing manner; Joseph Aller tells some new stories well; while Brown and Wilmot do a dancing act that is truly clever and worthy of the applause they received.

In fact the entertainment given by this organization is varied and bright enough to please the most critical amusement-seeker. Aside from the mysticism of the magic and illusions, it furnished provocation for the heartiest sort of laughter.

The engagement is for two more nights, with a change of bill for each performance.

Prof. McEwen and his excellent company will offer an entirely new program at the Auditorium this, the second evening of their engagement. For two or more hours of hearty laughter their combination of clever magic and hypnotic demonstrations is hard to beat.

JOE ALLER.

Moffet's Best Flour

We would like you to try your first sack of "BEST" when cooking a

FUNCTION DINNER

That's when you're critical of flour quality. It's then "BEST" will tell your good judgment how very good a Flour it is. We know "BEST to be the only Flour justifying its name and filling its claims on the market. We know how it is milled. In fact we take more care in selecting and milling our wheat than seems necessary to other millers.

Columbia Flouring Mills Company, Ltd.

ENDERBY, B. C.

THE "VENTS" DISAPPEAR

The Reason of their Going Tersely Explained by President Mercer

"Why have the vents disappeared from the back of the sack suits?" was the question asked the president of the Semi-ready company, who is an admitted authority on men's dress, and the best original designer in America.

"Vents were put into sack coats when the coats were lengthened for the purpose of making the skirts more easily handled. When the sack coats are shortened, as they are this year, no vents are necessary."

The Semi-ready fall and winter sack suit is finished with a graceful flare at the bottom of the skirt and is shaped slightly to the form.

J. A. Gliker, the pioneer merchant of Nelson secured the agency for the incomparable Semi-ready.

KING OF ALL COUGH MEDICINES

Mr. E. G. Case, a mail carrier of Canton Centre, Conn., who has been in the U.S. service for about 16 years, says: "We have tried many cough medicines for croup, but Chamberlain's Cough Remedy is king of all and one to be relied on every time. We also find it the best remedy for coughs and colds, giving certain results and leaving no bad effects. For sale by all druggists and dealers.

OF INTEREST TO MINERS

RUBIES.

There are two distinct varieties of rubies, viz., the True or Oriental ruby; and the Spinel-ruby.

The true or oriental ruby is a species of corundum, having exactly the same composition as that mineral, that is an oxide of aluminium. It is the hardest stone known, next to the diamond, having an hardness of 9; and a specific gravity of from 3.95 to 4.10. In color it passes through the various shades of red to purple.

The ruby is essentially an eastern gem; the best of them coming from the mines in Upper Burmah, north of Mandalay, in an area covering about 25 to 30 square miles. They are also found in the marble hills some sixteen miles north of Mandalay. Rubies occur "in situ" in crystalline limestone, also in the soil of the hill sides, and in gem bearing gravel. When found in the rock they usually occur in nodules in seam and spots, and are easily worked. Ceylon is another of the chief sources from which rubies are obtained. In that country most of them are gathered from the gravel. Most of the work is done by the natives, who work in companies of six or eight, and pay one rupee (50c) per man per month, for the provilege of working a certain allotment, where they begin by marking off a square of about ten feet. After removing about 3 feet of soil a sounding rod is run into the ground to test the gravel; if successful, the digging is begun in earnest. The gravel is removed in baskets and placed in a pile, over which a watchman is placed, until the men are ready for washing it. This is done by using wicker baskets, a circular jerking motion being given to the basket which throws out all the surplus light stone and rubbish, till a good quantity of heavy gravel is left at the bottom, which is carefully examined. There is hardly a basketful which does not contain some gems of inferior value which are usually sold by the pound, fetching about nine rupees ($4.50). Should no valuable stones be found, another pit is sunk and so on till one or two really valuable gems are unearthed.

A lower stratum of earth is said to be richer in gems but is rarely worked on account of the difficulty of removing the water.

In Siam, the method of obtaining the precious stones is identical at all the diggings in the region of Bangkok, and is as follows: The intending digger, on entering the district, pays three "ticals" (about $1.25) to the headman appointed by the British legation, and beyond this there is no tax. Neither do the government claim any right to the gems found, or to purchase them at the market value, as was the case in Burmah.

The digger's first object is to find a layer of soft, yellowish sand, in which the rubies are deposited. This stratum lies on a bed of subsoil and varies in depth from a few inches to more than 20 feet; there are no precious stones found in this stratum, which is chiefly composed of oxidised corundum. A pit

Some Workingmen

kick about conditions and they have a very just kick coming too

But, my brother, did you ever consider how you can very materially improve conditions?

Do you spend all your cash with the big stores?

Do you send much of it out of town to the big department stores?

Have you ever patronized the small dealer who is struggling to get on and can hardly keep his head above water?

Did it ever occur to you that you can improve his condition and lighten his burden with part of your cash and thus bring joy to yourself?

Try this.

A Difference Where Difference Counts

Armour's Solid Extract of Beef

(POTTED IN CANADA)

is the Pure, Concentrated Essence of Prime Beef. Being solid, it cannot be adulterated, and is more economical, because it goes four times as far as other brands.

Other extracts and fluid beefs lack strength and quality. Fluid beefs contain water, salt and other ingredients.

Insist on Armour's, and you have what is best and most economical.

"CULINARY WRINKLES" is a booklet which tells numberless ways in which to use Armour's Extract of Beef. Send for it. It's free.

5000 Juno (B.C.) for $40.00

If you are interested in the above either buying or selling, wire us at our expense.

One of the greatest opportunities for making large profits in mining stocks is now offered to the public. The Coeur d'Alene mining district is rapidly becoming one of the greatest mining camps in existence. For every dollar expended twenty-five dollars has been taken out. Last year over $20,000,000.00 was produced from this district alone. This is not a new mining camp, but one that has been working for years, and the ore bodies are permanent, and increase in value at depth.

We wish to call your attention to a new stock, which has only appeared on the local market a week ago. It is the East Hercules Extension Mining Company. We sold over 50,000 shares in one day. The company is capitalized at $1,500,000 divided into 1,500,000 shares having a par value of $1.00 each. W. O. Greenough of the Snowstorm, is president; Dr. Setters, prominent physician of this city, is vice-president; Arthur Lewis, secretary, and Dr. I. L. Magee, manager. We have a special offering of any of 10,000 shares at 5 cents per share. We believe that this is the best speculation of any of the low priced stocks, and we are certain that it will double in price in 60 days.

If you are interested, write us for our Weekly Market Letter and Quotation Sheet, also Map of the Coeur d'Alene Mining District, which we will send free upon request.

We want agents in every city throughout Canada and the United States.

Fred Irvine & Co.

NELSON'S NEWS OF THE DAY

Born, in this city, on Dec. 15, to the wife of J. D. Wightman, Victoria street, a son.

W. J. Phillips, assistant chief of the Nelson fire brigade, has been appointed chief in Fernie. He will assume his new duties with the new year.

The big colored apothecary's globe that adorned the entrance of the Canada Drug & Book company's store, came into collision with a young lady in the crush yesterday afternoon, and is no more.

Price Macdonald of Sa...a, who was associated with C. L. Bake... and J. L. Burr in the sale of the Queen Victoria mine, recently sold to James Cronin, left for home yesterday morning.

Mrs. J. S. McLauchlan, who has been visiting in Ottawa, left Nelson to join her husband in Grand Forks on Friday morning. Yesterday J. A. McLauchlan of this city, brother-in-law of the lady, received an urgent wire from Grand Forks asking what had become of the lady, as she had not reached Grand Forks. No explanation had been received up to 10 o'clock last night.

NOTICE

NOTICE is hereby given that thirty days after the date hereof I shall apply to the License Commissioners in and for the City of Nelson, British Columbia for a transfer of my license for the Athabasca saloon situate on the southwest corner of Baker and Kootenay streets, Nelson, B.C., to Thomas Martin Ivens and John Philbert, both of Nelson.

Dated this 5th day of December, A. D., 1906. ANNA C. BROWN

The Nelson Hardware company has just opened a large shipment of English Cased Goods in Turned Oak including Smoker Sets, Butter Dishes, Biscuit Jars, Salad Bowls, Fruit Sets, etc. Choice goods for Xmas gifts.

A WOMAN TO BE PRETTY

Must Have Luxuriant and Glossy Hair, No Matter What Color.

The finest contour of a female face, the sweetest smile of a female mouth, loses something if the head is crowned with scant hair. Scant and falling hair, it is now known is caused by a parasite that burrows into the scalp to the root of the hair, ...s the vitality. The little ... that ... the germ throws up in burrowing are called dandruff. To cure dandruff permanently then, and to stop falling hair, that germ must be killed. Newbro's Herpicide, an entirely new result of the chemical laboratory, destroys the dandruff germ, and, of course, stops the falling hair, and prevents baldness. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co. Detroit Mich.
