CHANGE IN THE FOLDER

Twenty Thousand Club Gets Advice From Victoria

Effort Will be Made to See if Request of Trades and Labor Council Can be Carried Out

There was only a small attendance at the monthly meeting of the 20,000 club's executive committee last night in the board of trade rooms. T. G. Procter presided and the question of issuing the club's new folder occupied the chief attention of the meeting. The matter was finally left with the advertising committee with instructions to consult the local printing offices and see if the work could be done in the city.

In opening the meeting the chairman said there were several important matters pending and he regretted extremely the small attendance. The club's booth at the fair, and the approaching visit of the Canadian society of civil engineers were pressing matters that should be discussed at length.

Regarding the club's booth at the fair, the office of the club will be moved temporarily to the booth in the main building. The Agricultural association will grant $25 towards moving V. Hyde Baker's collection of curios to the club's booth, and the club will add another $25 for this object which is deemed sufficient to obtain the collection, said to be easily the best of its kind in the west.

Secretary Chadbourn will have charge of the booth and will arrange about the guessing contest and other attractions. E. W. Widdowson's scheme for the guessing contest was adopted and that gentleman was asked practically to run the matter with the help of the entertainment committee.

City engineer McCulloch, who was present addressed the meeting regarding the approaching visit of the civil engineers. He said he could report no progress as in reply to his wire asking for a change of date in arriving here from September 21 to September 19, he had received a wire saying: "Sorry we can not change to suit you. Leave Vancouver Sept. 19, arrive in Nelson Sept. 23."

The reply makes matters more mixed than ever. Originally according to announced schedule the party reached Rossland on the night of the 18th and after visiting the Boundary reached Nelson on the night of Sept. 21. Mr. McCulloch was told the club would gladly assist him in looking after the party in every way and the city engineer agreed to continue his efforts to bring the party here for the fair if at all possible.

The report of the advertising committee was then made by chairman Brydges who read the following letter respecting the publication of the club's new folder:

E. O. Beeston, Esq., care 20,000 Club, Nelson, B.C.

Dear Sir—We are duly in receipt of parcel containing photographs for your proposed booklet. We have gone carefully into the whole matter. We have also asked the Colonist Printing company here to give us a figure on printing 10,000 and 20,000 copies of your booklet as suggested. Our proposal would be to make all the half tone cuts on satin finished copper, 140 line screen; the corner cuts where advisable to be vignetted, the work in every respect to be first class. We presume that the dummy you sent is intended to represent actual size of the cuts. We cannot urge you too strongly not to reduce your photographs too much, and there is absolutely no self interest in this recommendation, because the difference in cost to you would be immaterial, whereas, the effect of reducing a photograph, or a group of photographs, to the size designated on your dummy, would be fatal to their effectiveness in a scenic way. It so happens that the standard size of paper stock would not cut to advantage to a 16 page folder, such as you have in mind, and we find that you can print a 24 page folder for no greater outlay for stock and a little more for composition than you can a 16 page folder, because in the 16 there will be, as you suggest in your memorandum, considerable waste. If you enlarge your book, say to 24 pages, you can afford to make the cuts considerably larger than they are indicated in the dummy and we feel sure you would feel well repaid for making the change. We asked the Colonist to make up a dummy of 24 pages, showing proposed way of binding same. A folder which opens out in the form in which you have made up your dummy is not popular now, because, as you are aware, only one man in ten will refold it in its original form and the result is that after a few times it becomes so crumpled that it is thrown away, whereas a booklet bound in the center, according to sample, never gets out of shape and is many times as valuable because it is longer lived than the other form. We will try and enclose one or two booklets recently done by us where the benefit of cuts of sufficient size and of binding of the character we speak of is apparent. In the photographs submitted there will be a little retouching necessary, particularly on the fruit views, and this work together with the grouping, making of cuts, etc., exclusive of the topographical map now going through on a separate order, will amount to approximately, $100. The cuts could be considerably increased in size without affecting that figure. We think a very nice cover could be made along the line suggested in your dummy and we will have a sketch prepared at once and forwarded for your consent and approval. Estimate for printing booklet is enclosed. We wish also to draw your attention to the fact that 7a of the list of photographs is not inclosed in the bundle. According to inventory, this is of four small photographs of dwellings to surround Baker street view. Will you be good enough to include these with the other photographs included in your inventory but not sent with the bundle just to hand.

In regard to the time required to turn out the cuts, we can put them in hand at once and they should be completed in a fortnight. It would be unnecessary for anyone to come down to superintend the work as proofs of the cuts could be forwarded to you when completed and also a rough dummy sent up in advance of the actual job.

We have taken the liberty of making the foregoing suggestions in regard to changing the form of your booklet because you have invited same and because we are anxious that you should get the very finest job possible for your money. Yours truly,

B. C. ENGRAVING CO.,
John Nelson, Man. Dir.

N.B.—We have just received tender from the Colonist as follows: 24 page folder on 80 lb. snowflake paper, with green ink, 10,000 copies, $215; 20,000 copies, $375.

Victoria, B.C., Sept. 6, 1906.

Mr. Procter said that the whole question of whether the work could be done here or not was settled by the advertising committee long ago. He understood that the work could not be done here as wanted.

M. S. Parry said the work done here in the past had not been satisfactory.

S. M. Brydges said the work here had not ben first class in the past. They had to compete with other folders properly printed in outside offices, and the work could not be done here in the shape wanted.

W. H. Jones said that he and Mr. Draper, of The Daily News, had agreed that the work could not be done in the shape and size asked for in town, but it could be done if the size and shape were changed. The local offices would work under serious disadvantage.

He declined to say whether the work could be done here as well as elsewhere, or not.

It was decided to leave the matter in the hands of the advertising committee, to interview the local firms as to the possibility of having the work done here as well as it can be done elsewhere, a representative of the trades and labor council to be invited to be present at the interview. The matter to be pressed on as rapidly as possible.

Votes of thanks were passed to Messrs. Patenaude, Walker and Ewert for the prizes presented by them to the entertainment committee for the pavilion dancing competition. A special vote of thanks was also passed to Mr. Taylor and the entertainment committee for their successful work this past season.

After disposing of some routine matters the meeting adjourned.

RELEASED: REARRESTED

ADAMS FREED ON ONE CHARGE, LOCKED UP ON ANOTHER.

WANTED AS WITNESS AGAINST MOYER, HAYWOOD, PETTIBONE

Boise, Idaho, Sept. 11.—Steve Adams, who has been held here since Saturday, charged with the murder of Lyte Gregory, in Denver, was discharged in the justice court this afternoon on motion of the county attorney. Adams was immediately re-arrested by sheriff Sutherland of Shoshone county, Idaho, charged with the killing of "John Doe" Tyler, in St. Joe county, Idaho, in August, 1904. Tyler was found murdered on his timber claim. Adams was taken back to the penitentiary, detective McPhartland accompanying the officers who had him in custody. If Adams can be held under this charge he will be kept in the custody of the Idaho court and will be available as a witness against Moyer Haywood and Pettibone, charged with the murder of former governor Frank Steunenberg.

BREWER'S WIFE DEAD

London, Sept. 11—Mrs. John LaBatt, wife of the well known brewer of this city, died last night after taking some medicine, which had been prescribed by her doctor. A mistake is said to have been made in the prescription by a local drug clerk.

Byron E. Walker, of Toronto, general manager of the Canadian Bank of Commerce left home on a trip through Manitoba, the new provinces and British Columbia on Aug. 30, and he is expected to visit this city on Saturday, Sept. 21. Mr. Walker is not merely one of the best known Canadian financiers both in and out of the dominion, but he has unbounded faith in the great future in store for British Columbia and has time and again made his views on this subject very clearly known whilst speaking publicly in the east. His visit to Nelson will be looked forward to very keenly, particularly in view of the erection of a new Bank of Commerce building in this city, reported at length elsewhere in this issue.

D. B. Wilkie and Charles Cockshutt, both of Toronto, will arrive in the city this evening. Mr. Wilkie who is no stranger in Nelson, and whose visits here are always welcome, is the president and general manager of the Imperial Bank of Canada. On more than one occasion as business men know, the general manager of the Imperial bank has shown his deep interest in the Kootenays and his faith in the future of this district. He will come here this year at the close of what is now recognised to have been the best summer season from a business and financial standpoint, this city has ever known, and no doubt the good impression made in the past will be considerably deepened by what he learns whilst on the present trip. Mr. Cockshutt, who accompanies Mr. Wilkie, is a director of the Imperial bank.

CITY ONLY TOO GLAD

Will Agree to Anything to Hasten Work on Courthouse

If the Government Means Business no Obstacle Will be Placed in Its Way

His worship mayor Gillett held a conference yesterday afternoon with gold commissioner R. A. Renwick, concerning the removal of the present court house building during the erection of the promised new structure. Mr. Renwick has received back the plans of the new building duly approved by the provincial lands and works department at Victoria and it is understood that tenders for construction will be advertised for shortly.

The mayor has suggested to the department that the city move the present building to the foot of Ward street, the government to make good all necessary repairs and any temporary alterations necessary to make the building habitable on its new site. The government to have the use of the building and to maintain it until the new court house it available for occupation, after which time the old building to pass into the possession of the city.

This suggestion of the mayor's is now at Victoria and a reply is expected here today. If the plan is accepted there will still be room for a drive way on either side of the building on its new site at the foot of Ward street.

The building must be moved from its present site before building operations on the new court house are commenced, and the mayor's suggestion is one way out of the difficulty.

PLANS FOR DECORATING

COMMITTEE PREPARING GROUNDS FOR THE FAIR.

CHAIRMAN MAKES A REQUEST FOR SUGGESTIONS.

The fourth annual fair of the Nelson Agricultural and Industrial association will open one week from today, on Wednesday, September 19, and will remain open for the whole of the next two days September 20 and 21, day and evening.

All entries must be in the hands of the secretary, captain D. C. McMorris not later than Saturday next September 15. Exhibitors are warned that the rule in this respect will be strictly adhered to.

Thomas Morley, chairman of the decoration committee has already commenced to lay out his work and he desires that all possible assistance be given him in order that the building and grounds may be properly dressed up for the occasion.

Exhibitors who have been allotted space in the main building are requested to at once get their stalls in shape in order that they may not conflict later on with the exhibition committee's arrangements.

It was announced yesterday that the directors had succeeded in obtaining the services of professor W. R. Brock, of the dominion geological survey department, now at work on the formation of the Rossland camp, to act as judge of the mineral exhibits. With professor Brock will be associated R. J. McPhee, manager of the well known Ottawa mine at Slocan City.

Charles L. Lundy, lawyer, of Seattle, and western representative of many eastern sporting papers, has accepted the judgeship for the bench show. Mr. Lundy is well known to dog fanciers all over the west and his appointment will be received with pleasure and confidence by all exhibitors. J. C. Gordon is looking after the local arrangements for the dog show and he will be able to offer Mr. Lundy invaluable assistance when the latter reaches this city for the fair.

J. O. Patenaude finished the gold medal yesterday offered by the Canadian Bank of Commerce for the best mineral exhibit by an individual prospector. The medal is about the size of a $20 gold piece, is made of B. C. gold and is very handsomely and massively gotten up. Mr. Patenaude has also turned out another gold medal presented by assayer E. W. Widdowson of this city for the best district mineral display. It is made from gold taken from the well known Second Relief mine of which A. B. Cooper is manager, and consists of a miniature prospectors' pan with some nuggets in it and a miners' pick and shovel crossed.

R. M. Palmer will be here in a few days and will act as judge in the fruit department. Mr. Palmer's attendance here is a compliment to the provincial importance of the Nelson fair.

J. C. Dixon, commission merchant, of Vancouver, will arrive in the city shortly and will act as judge of the poultry section. Under the direction of chairman Pearcy, the coops for the poultry are now being put in place in the poultry annex lately finished and added to the association's building this year.

The grounds are already in good shape and only need a few finishing touches to be completed for all fair purposes.

The directors urge on citizens generally to get their flags ready for the exhibition days. There should not be a vacant flag pole in sight on September 19, 20 and 21. On past gala days three of the principal buildings on Baker street have displayed handsome flag poles but no flags. One at least is owned by a Winnipeg resident and his local agent should look after the flag question speedily. The other two are owned locally and there should be no trouble about having past neglect remedied next week.

The collectors for fair funds start out on their rounds today and look for a hearty response in aid of the best advertisement this city and district has ever had.

EARL AT NORTH BEND

North Bend, B. C., Sept. 11.—The vice regal train reached North Bend from Revelstoke at 7 this evening. It will remain here over night and leave at 8 o'clock in the morning for Vancouver. His excellency and party are in good health and spirits.

GERMAN FLEET SCORES

TORPEDO BOAT FLOTILLA REACHES ENGLAND UNOBSERVED.

SENSATIONAL FEATURE OF THE NAVAL MANOEUVRES.

London, Sept. 12.—According to the correspondent at Hamburg of the Daily Mail, during the German naval manoeuvres on the night of September 3rd, thirty-six torpedo boats accomplished the extraordinary feat of dashing for the British coast and returning without being discovered. The nominal purpose of the raid across the North Sea was to search for the German fleet, which, however, the torpedo boat officers knew was lying off Heligoland.

SPOKANE PARTY STARTS

HAS LEFT FOR NELSON IN A SPECIAL OF FIVE CARS.

EXCURSIONISTS, BOTH MEN AND WOMEN NUMBER 118.

Spokane, Sept. 11.—(Special)—The party of Spokane business men and their wives have left Spokane in a special train of five coaches for a three days' excursion to Rossland, Grand Forks, Nelson, Kootenay lake points, and other cities of British Columbia. The party, which consisted of 118 persons, left the city at 10.45 this evening and will take breakfast at Republic, the first stop, tomorrow morning. The train is decorated with banners advertising the Spokane interstate fair, September 24 to October 6.

RAILWAY COMMISSION

WILL REACH THE CITY THIS AFTERNOON.

NO COMPLAINTS READY FOR AN INVESTIGATION.

The board of railway commissioners of Canada will reach this city this afternoon and will stay the evening here at the Strathcona, going to Rossland tomorrow morning where they will hold a session.

The board is composed of Hon. A. C. Killam and Dr. James Mills; with the party is A. D. Cartwright and W. Robertson.

It is stated that no session will be held here because Nelson merchants either through their wholesalers' association or their board of trade have filed no complaints with the commissioners or have made no requests for investigations of any sort.

This statement reverses the position taken locally that no complaints have been made because it was not known when the commission would visit Nelson to enquire into the situation.

The commissioners apparently are men busily engaged in their special work and find plenty to do enquiring into matters submitted to them without hunting for trouble.

Rossland has filed a complaint and the commissioners are going to that city to enquire into matters complained of there. Possibly if local men had been wise in their generation a formal statement of facts complained of with regard to freight rates, unfair discrimination, etc., would long ago have been sent to the commissioners and an investigation would now have been in order.

The commissioners will be here tonight and will doubtless be glad to receive any information offered them.

NEW BANK BUILDING

Handsome Edifice to be Erected by Bank of Commerce

Deal for Block on Baker Street Closed—Building Operations Will be Commenced at Once

The Canadian Bank of Commerce has purchased 50 feet frontage on West Baker street and will at once proceed to erect a handsome stone or brick office building on the land so purchased.

The lot bought by the bank was owned by J. Laing Stocks and consists of 50 feet front by 120 feet on the north side of Baker street immediately east of the Standard Furniture company's brick block. The buildings on the property are now occupied by Stanley's news store, the Queen Studio, Hansen & Hermanson's shoe store, and the Singer Sewing Machine store.

All the tenants received notice to vacate the premises yesterday and were busy looking out for other places. Mr. Stanley has already arranged to take the premises at the northeast corner of Baker and Ward streets formerly occupied by the Great Northern railway offices.

The purchasers declined to state what had been paid for the property and it is stated that the deal was finally closed on a compromise basis, the purchasers not paying the full price originally asked but in the end giving more than they originally offered.

The new building will be either of stone or brick with stone dressing. It will be two stories high and wholly occupied by the bank, as offices and staff quarters, like the bank of Montreal.

From present indications Nelson has a building boom in sight of which the present instance is merely the forerunner. Other buildings are already spoken of that have been under consideration for some time, and which are more than likely to be started shortly, now that the Bank of Commerce has led the way.

U. S. WAITS A CHANCE

READY TO INTERFERE IN CUBA IF "NECESSARY"

CRUISER DES MOINES GOES SOUTH FOR AN EMERGENCY

Havana, Sept. 11—The government now views with suspcion not only its political opponents, but also many of those whom it has hitherto trusted in the field. The Associated Press is informed on the most reliable authority that the government has suspected for several days past that even some of the members of the veterans' peace committee desired to turn their peace making into a practical liberal victory. The veterans, however, deny these insinuations. General Menocal, questioned on the subject today, said he had received a telegram today from Pino Guerra, expressing that leader's willingness to accept terms to which the government did not previously object. Rumors persistent are rife that the government was assured of the backing of the United States before the issuance of the fresh declaration of war, but this cannot be confirmed in any quarter. On Sept. 14 congress will take up a stringent bill for the enforcement of public order.

Several arrests were made today but many of the alleged conspirators cannot be found. The peace committee will issue a manifesto this evening setting forth its position. It is learned that the proposition submitted to the government by the rebels was that half the senators and half the representatives resign and that new elections be held to fill their positions. President Palma and the members of the cabinet were to hold their positions. New general elections also were to be held and new municipal laws were to be provided.

All the men remaining in the towns of San Jose and Las Ojas, near Cienfuego, have joined the rebels. Baldermo Acosta, a prominent resident of Havana, whose loyalty to the government has been questioned at various times, and who denied his disloyalty, joined the rebellion today with 100 followers. Acosta and his men started for El Cano, in Havana province. The Liberal, a daily newspaper, has been suspended by order of the government and the editor has been arrested.

The rebels under Guzeman have been breaking telegraph apparatus in railroad stations in Santa Clara province. They have also seized a train of foodstuffs.

Washington, Sept. 11—That the critical situaton in Cuba is absorbing the attention of the administration to the exclusion of all other foreign topics, is indicated by the activity of the officers in the state, war and navy departments. President Roosevelt at Oyster Bay, is keeping close touch with every development of the revolutionary movement in Cuba, and is in constant communication by wire with the officials here, who are in receipt of detailed instructions from him as to what they shall do.

Mr. Morgan, the American minister, is understood to be hastening from Europe, where he has been on a vacation, to the Cuban capital, and Mr. Sleeper, who is acting as charge, is supplying the state department with a daily bulletin. It is realized, however, that Mr. Sleeper is apt to accept the official rendition of daily collisions between president Palma's troops and the insurgents in the field. He has no means of hearing the rebel's statements of these occurrences and in view of the attitude of the officials, there is good reason to believe that the whole truth is not disclosed by either side.

It is the purpose of the administration to proceed with great deliberation in dealing with the question and it is said on the highest authority that there will be no intervention by the United States unless the rebellion assumes the proportions of a general conflagration. It is further stated that there has been no further application for intervention from any authorized party.

Another interesting statement from official sources was to the effect that careful enquiry had satisfied the administraton that none of the great American capitalists interested in Cuban plantations and properties had expressed a desire for intervention. These people seemed to be adverse to such action, believing that it would precipitate the destruction of their property during the long guerrila warfare that might follow.

The development of the day was the admission that the American cruiser Des Moines, which sailed yesterday from Norfolk, had gone southward to Key West, with the ultimate purpose of proceeding to Havana if developments within the next day or two should warrant. At Key West the Des Moines will be about eight hours' run from Havana and while waiting there commander Halsey will be in close communication with the navy department, prepared to immediately carry out any request from the department of state.. If the navy is making ready in other respects for contingencies in Cuba, it is carefully concealed, but it is believed that there will be no difficulty in dispatching almost immediately from the home ports, any naval force that might be required in Cuba.

For its part, the army is prepared to answer any call, though there are absolutely no orders yet from the president or secretary of war. The individual officers responsible for campaign are merely making ready for emergencies without specific instructions.

FIRE CHIEFS DISPERSE

GRAND FORKS CHIEF RETURNS FROM CONVENTION

CALGARY GAVE VISITORS SOME REAL FIRE TESTS

(Special to The Daily News)

Grand Forks, Sept. 11—Fire chief A. E. Savage has just returned from attendance at the convention of the Pacific Coast Fire Chiefs' association, held at Calgary at the end of August. Seventy-five chiefs were present. Papers were read of the most valuable character by authorities on fire fighting from prominent centers such as Philadelphia, Washington, San Francisco, etc. A test of the waterless engine was made, gasoline being used and the pumping being done out of a tank with a lift of 15 feet at a pressure of 150 pounds, and throwing two one inch streams. The test of the Hartley nozzle, used with very satisfactory results by the Winnipeg fire department, was an interesting part of the practical work. The nozzle delivers a 1 3-4 inch stream, throwing it 90 feet high under a pressure of 120 pounds.

There happened to be three fire calls during the convention, giving the visitors the opportunity of seeing the work of the Calgary department. Calgary uses a combination chemical engine and hose wagon, and chief Stuart states that 90 per cent of the fires are put out with the chemical.

One of the interesting discussions of the convention followed the reading of an excellent paper by chief Cook of Seattle, on "Hydrants and Size of Water Mains for Fire Service." Great importance was attached by those present to the placing of hydrants on alleys to enable the back of large buildings to be effectively reached. Chief Savage was enabled to point out the value of such a course in the case of a fire which occurred in Grand Forks in July, 1905, when the use of a hydrant placed at the corner of an alley on First street, was the means of saving one of the business blocks.

The next convention will be held at Centralia, Wash. The election of officers resulted in J. H. Watson of Victoria being elected president. The vice-president for British Columbia is chief Kerr of Kamloops. Calgary treated the visitors royally and much valuable information was carried oway by the various delegates.

A RECORD SHIPMENT

TWENTY-FOUR CARS OF LAMBS FOR CHICAGO.

C. P. R. GETS TIDY SUM FOR FREIGHT RATES.

Grand Forks, Sept. 11.—A valuable consignment of live stock left here today for Chicago in the shape of 7000 lambs, consisting of Cotswold grades. The lambs were purchased from F. P. Farnsworth of Republic by Smythe & Co. of Arlington, Oregon. Both the Great Northern and the Kettle Valley lines were working hard to secure this nice slice of freight to the great meat centre of the continent, but the Kettle Valley lines, in conjunction with the C. P. R. managed to secure the prize. It took 24 double deck cars to fill the bill. The C. P. R. "Soo" line, over which the consignment will go, is 120 miles nearer Chicago than the Great Northern route, and the advantage was too much for the rivals to get over. The freight on the consignment comes to the tidy sum of $5560.

BIG LAND FRAUD ENQUIRY

Boise, Idaho, Sept. 11—When the federal court convened here today a grand jury was impanelled and the investigation of the Idaho timber land frauds began. More than 50 witnesses have been brought here to testify in relation to land matters.

BANQUET TO THE LEADER

Victoria Liberals Honor British Columbia's Minister

Hon. Wm. Templeman Says He is Opposed to Influx of Cheap Chinese Labor

(Special to The Daily News)

Victoria, Sept. 11.—About 150 young men of Victoria banquetted Hon. Wm. Templeman, minister of inland revenue, tonight at the Victoria hotel. The affair went with a swing; music song and recitations preceding the heavier part of the program, which consisted of speeches by Hon. Wm. Templeman, Ralph Smith, Senator Riley, R. G. McPherson, M. P. of Vancouver; Cameron, M.P.P., R. L. Drury, M.P.P., McMiking, McNiven, M. P.P., and others.

Hon. Mr. Templeman's speech was upon general lines, but he made reference to the demand of the Kootenay fruit growers for Chinese labor and said that no one should be allowed to come into Canada who would not make a good Canadian citizen. Neither did he welcome those who settled in communities.

Ralph Smith, speaking of the forthcoming trades and labor congress, said that the liberal party in ten years had done more for the industrial classes than the labor party of England could hope to accomplish in 20 years.

(Special to The Daily News)

Ottawa, Sept. 11.—The cabinet today fixed the bye-elections for East Elgin and North Renfrew for October 4th, with nominations on September 27th. The dates for the elections in other vacancies are not yet fixed.

Dr. William Saunders, director of experimental farms, telegraphs to the deputy minister of agriculture from Humbolt as follows:

"Have seen the crops from Calgary to Edmonton, thence to Lloydminster, Battleford and Saskatoon, also to Prince Albert, Melfort, Warman and Humbolt. The wheat is all saved and in good condition. The crops average well. The grain is of fine quality. No injury suffered from frost. Threshing is now proceeding rapidly. The weather is very favorable."

From Calgary to Edmonton (northward) is about 175 miles; from Edmonton to Saskatoon (eastward) and from Saskatoon to Prince Albert (northeastward) and down to Humbolt is about 500 miles.

W. A. McKinnon, Canda's commissioner of commerce at Bristol, writes to the department that to remove all suspicion against Canadian meats, it ought to have government inspection. Trade in canned goods is utterly dead. In addition to government inspection, he says that the date of inspection should be placed on canned meats as well as a statement that it is of Canadian production and manufacture.

The exchequer court yesterday began the hearing of the case of Bow and MacLachlan against the ship Camosun. The plaintiffs built the ship at Paisley, Scotland, for the Union Steamship company for £28,000 to be paid in instalments. The first was paid in full and the plaintiffs took proceedings for balance in the admiralty court. The court released the ship on bail. The defendants have a counter claim, hence the appeal to the exchequer court.

The time for receiving tenders for the work at St. Andrew's rapids was up yesterday. Tom Kelly, of Winnipeg, who is building the Vancouver postoffice, is one of the tenderers, and is in the city. The contract is to construct a dam so as to give navigation from Winnipeg and Red river through to lake Winnipeg.

ANOTHER BANK SCARE

'FRISCO CONCERN IS THE VICTIM THIS TIME.

PEOPLE WILDLY CLAMORING FOR THEIR MONEY

San Francisco, Sept. 11.—For some unknown reason, some of the depositors of the Hibernia Savings bank started a run on the bank today. The Hibernia is the biggest savings institution on the Pacific coast. It has 86,000 depositors, and the deposits amount to over $30,000,000. The bank has always been noted for conservatism and regarded as a strong institution. When the run started today, the police were called to keep the people in line and depositors were paid off as fast as they applied for their money. Five paying tellers were kept busy and no advantage was taken by the bank of its rules requiring a notice before deposits could be withdrawn. Jos. S. Tobin, one of the officers of the bank, stated that he knew of no cause for the run. He said the bank was able to pay all its depositors who applied for money, and that the crowd in front of the bank would be paid off before the close of business today.

Hudson's Bay Stores

Cool nights are now in order. They will invite pleasant dreams of

Hudson's Bay Blankets

We have plenty of them in red and blue.

3 1-2 Points, weighing 10 pounds, $7.50 per pair

ARE THE ELECTIONS NEAR?

For some time, in spite of the ominous rumors from different quarters, The Daily News has been inclined to accept as straightforward and frank premier McBride's oft repeated assertion that it is not his purpose to spring a general provincial election this fall. But we now confess that the announcement made through the local government organ (if it is sincere and not merely a repetition of the old fashioned political promise wherein "immediately" means any time in the near or distant future) has re-awakened our suspicions. Neither premier McBride nor the chief commissioner of lands and works is of the type of politician who would be prepared to undertake serious public improvements without first nicely calculating their effect upon election results and so timeing them as to secure the greatest possible modicum of advantage therefrom. If the case of Nelson were an isolated one, it would not be worthy of very serious consideration, for, even with the pleasing prospect of the immediate construction of a new court house before their eyes, it is difficult to see how premier McBride can expect local electors to return a supporter of his to the house. He must know full well that no matter what government is in power, the court house is bound to be erected at an early date, and that, judging by past experience, the existence of a liberal ministry would be more favorable to its early completion than the continuance of the present weak and socialist-hampered administration.

But Nelson is not the only constituency before which the McBride government is just now posing as a paternal benefactor. The court house promise is just as virile and lively in Vancouver as it is in Nelson, and "plans" and "contracts," and "operations" are just as numerous there as here. The peripatetic politicians, too, are still on the move, as they have been for months, and are going about from town to town seeking whom they may beguile with a soft word, a winning smile or a generous promise. These practices in themselves we are not condemning for, while they do not argue the highest type of public office holder, they are but natural results of the present political system and of the "ruling desire to hold office." Well will it be for British Columbia if these are the only election tactics to which the parties will resort. The reason we lay emphasis on these signs of activity is not that we wish to condemn them but that we consider them, like a good weather vane, excellent indications of the direction in which the wind blows.

Women who make a business of beautifying other women come pretty near knowing what will bring about the best results. Here are letters from two, concerning Herpicide:

"I can recommend Newbro's "Herpicide," as it stopped my hair from falling out; and, as a dressing it has no superior.
"(Signed.) Bertha A. Trullinger, "Complexion Specialist,
"234½ Morrison St., Portland, Ore."

"After using one bottle of "Herpicide" my hair has stopped falling out, and my scalp is entirely free from dandruff.
"(Signed.) Grace Dodge, "Beauty Doctor,
"126 Sixth St., Portland, Ore."

Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

CANADA DRUG & BOOK COMPANY, Special Agents, Kootenay.

It may be, of course, that the promises now so lavishly squandered on Vancouver and Nelson will be kept in a state of continued animation until next spring and that then, simultaneous with the commencement of real construction work, the announcement of an early election will be made. But it is impossible for the lay mind to fathom the depths of ministerial wisdom with sufficient accuracy to predict that such a plan is entertained. It seems a probable one, to be sure, but then, appearances are deceptive, as many a man knows to his cost. It should also be borne in mind that six months is a remarkably long period for the ministers to look pleasant and maintain their paternal pose before a critical public. The limelight of modern politics, which they are switching on themselves by their remarkably significant activities, is very intense, and is sufficiently trying to turn the nerves of much stronger men than Hon. Mr. McBride and Hon. Mr. Green in far less than six months. Even Mr. Bryan, with his colossal assurance and 16 to 1 nerves, says he cannot mount the pedestal destined for the democratic martyr so early in the American presidential game as is the present fall, for fear he might not keep the correct beam on his countenance right up to polling day. And what Mr. Bryan cannot do for years, we do not see how premier McBride can do for even six months.

The load of a promise is but a light load with some, and its strain on the physical system is not great; but the pressure on a conscience, if it is to last for half a year, is a serious thing to contemplate. Still, that is a matter for the ministry to settle for itself; we do not have to share the responsibility and so we have no right to tender advice Seriously, however, The Daily News considers that it would be well for liberals to continue on their guard and to accept future government assurances with a great deal of reserve.

BRYAN'S STUMBLING BLOCK

In reviewing the financial market at the present moment, we call to mind the axiom frequently expressed in his bulletins to investors by Henry Clews, the New York broker, who says that the monetary situation is the governing element in the stock market. Last week witnessed exorbitant rates for money, and the end is not yet in sight. Canada and the United States are just entering upon a period of unusual trade activity, while the crops are large and will make a greater demand upon the banks than usual during the marketing season. Nevertheless, the New York banks, the recognized center of North American finance, enter the crop moving period with a surplus reserve of only $2,800,000, which is very much below the usual level at this date. The showing would be much worse were it not that manipulation conceals the real facts; for the reserve was only maintained by an artificial contraction of over $7,000,000 in loans and an increase in borrowings in Europe. Only today the announcement is made that the steamer Carmania has just sailed from Liverpool with $10,000,000 in gold in her treasure chest. And yet, in spite of these conditions, the Wall street leaders seem bent on forcing an active bull campaign, with a confidence and audacity that is astonishing when judged by ordinary standards.

What is the basis of this confidence, and what is the meaning of such boldness in movement? Why cannot these astute gentlemen wait until monetary conditions are more favorable a few months hence? The first question is readily answered, thinks Mr. Clews. It is based upon the practical certainty of a good harvest and continued business activity. This means, also, that other corporate properties which have been laggards in the matter of dividing profits will be obliged to join the dividend procession and give their stockholders some share in the country's prosperity. These increases in dividends afford a more stable basis than previously for higher valuations and enable a closer readjustment between market prices and rates for time money. The meaning of such boldness in forcing a bull movement in spite of high money rates is that the big leaders are extremely anxious to lessen their holdings and to distribute them while the public is tempted by prospects of increased returns. The reason they cannot wait until crop demands are satisfied, which may be only a few months distant, is that they fear to lose their market. Now, in their opinion, is the psychological moment. One thing at least is certain, warns Mr. Clews, and that is, that the big holders are gradually selling and that stocks are steadily passing from strong into weaker hands.

Apparently the market leaders are depending upon Europe to finance their operations, and, in accordance with the swing of the financial pendulum noted in yesterday's issue of The Daily News, are turning their attention to London. But this far gold imports have been disappointing, although the engagement of $2,500,000 by Kuhn, Loeb, & Co. and the consignment on board the Carmania materially alter the situation. Experts calculate that London could spare about $25,000,000 this season and Paris about $15,000,000. There are other important demands to be considered, such as the Russian loan and the Brazil coffee valorization scheme; but American and Canadian credit abroad is strong, and since the New York and Montreal banks are able to offer the best terms it is quite likely that they will be able to outbid other bidders for gold. No doubt it is their strength in this respect that gives the financiers such confidence in conducting a big bull market against conditions ordinarily deemed adverse.

C. C. RICHARDS & CO.

Dear Sirs—For some years I have had only partial use of my arm, caused by a sudden strain. I have used every remedy without effect, until I got a sample bottle of MINARD'S LINIMENT. The benefit I received from it caused me to continue its use and now I am happy to say my arm is completely restored.

Glamis, Ont. R. W. HARRISON.

Mr. Bryan's remarks about government ownership exerted only a temporary and almost imperceptible effect on the money market, for Mr. Bryan is not yet near enough to his goal for his statements to exert any great influence. Moreover, they are too visionary and impracticable to receive serious attention from those who appreciate the magnitude and complications of such a proposal. Mr. Bryan does not tell how he will finance the transfer of over 200,000 miles of railroad and near $14,000,000,000 of stocks and bonds; nor how he would adjust the differences arising from roads paying good dividends and those paying no dividends at all. This is not the first occasion on which Mr. Bryan has shown his incapacity as a financier.

EDITORIAL NOTES

One of the heavy losers in Saturday's conflagration at Lacombe, Alberta, (news of which it took the C. P. R. telegraphers two days to transmit to Nelson) was Mr. E. Titsworth, a man who for several years was a prominent resident of this city. Mr. Titsworth for some time conducted a wholesale fruit and produce business under the firm name of Hyde & Titsworth, which was finally sold out to Mr. Macdonald. In Lacombe, he has been running a fruit and billiard hall. His many Nelson friends will sympathize with him over the ill-fortune that he has suffered.

A sharp rebuke to conservative journalists of a certain type is contained in the comments of the Montreal Star on the Fielding case. The Star says: "There is no doubt that the government—and possibly the country—will suffer grave inconvenience if Mr. Fielding is precluded by the proceedings before the courts from taking his seat at an autumn session of parliament. Nothing like factious opposition to an early by-election should be offered; for the loss will be felt by public business much more than by any private or party interest." It is needless for The Daily News to tell its readers that the Star is one of the leading conservative journals in the dominion.

LEPER QUESTION ENDED

HON. WM. TEMPLEMAN SAYS THEY STAY ON DARCY ISLAND.

SCHEME FOR WIRELESS TELEGRAPHS BEING WORKED OUT

Apropos the banquet given last night in Victoria by the Young Liberals to Hon. William Templeman, minister of inland revenue, the following report of statements made by the minister to the press on his arrival at the capital city will be of especial interest:

(From the Victoria Times.)

The representative of this province in the dominion cabinet, Hon. Wm. Templeman, minister of in land revenue, returned last evening after an absence of eight months at the capital. He intended coming west some time before, but had to postpone his trip to attend a special meeting of the cabinet which recalled all the ministers to the seat of government, with the exception of Hon. Mr. Oliver, who is in England.

Interviewed by a representative of the Times, the minister dealt with a number of subjects in which the public have manifested particular interest. Prominent among these were the bridging of Seymour narrows and the care of the lepers at Darcy island. Referring to the first question, he said:

"Four months ago the minister of railways and canals authorized H. P. Bell, the engineer, well known to Victorians, to prepare a report and an estimate of cost on the construction of a railway bridge between the head of Bute Inlet on the Mainland and Vancouver island, crossing Seymour Narrows. Mr. Bell has been continuously engaged upon this task, and before I left Ottawa he informed me that the report would be ready for submission to the minister of railways and canals in a fortnight. He did not make a special survey for the purpose of the report, but from data in his possession and that of the department he feels that he can make a satisfactory report. Necessarily the cost of such an undertaking would be large, seven or eight bridges being required at a high elevation for railway purposes. According to Mr. Bell's view, the main bridge would have to be a suspension bridge. When the report is presented to the minister of railways and canals a copy will be forwarded to the Victoria board of trade, at whose request it is being prepared.

"The rumor of a proposed change in the location of the lazaretto has excited considerable comment," the reporter remarked.

"There has been unnecessary alarm over that report," Hon. Mr. Templeman replied. "The best plans of superintending the lazaretto in order that the unfortunate occupants could receive better care and attendance were discussed by the officials of the department, and the idea of using Albert Head because of its convenient proximity to William Head, where Dr. Watt, quarantine superintendent, is stationed, was considered. The doctor will probably have supervision over the lepers and the idea that they be brought near his station so that they could receive constant attention suggested Albert Head as the location. But there was never any decision to remove them from Darcy island, and they will not be removed therefrom. This island was secured from the local government for use as a lazaretto more than a year ago, and except for the inconvenience and slight additional cost of visitation, can be conducted as cheaply as elsewhere. Being isolated, it is much better adapted for the purpose. Dr. Montizambert, in whose department these matters are, will be in Victoria in a few weeks, and will determine what change should be made in the island. Better accommodation will be provided for the unfortunate lepers where they are. In my opinion, Chinese so afflicted should be returned to China, and if this were done in newly discovered cases there would soon be no more leper patients in this province."

"Have you anything to say regarding railway construction in British Columbia?" the reporter asked.

"I was informed by the Grand Trunk Pacific people," the minister said, "that survey work in the province was proceeding as rapidly as possible. During the summer there were thirteen or fourteen parties at work west of Edmonton. Mr. Morse publicly stated the other day that construction operations would be commenced as soon as the surveys were completed and the line would be built to the Pacific in accordance with the terms of the contract, which required its completion by 1911."

"What is there to announce relative to safeguards to life on the coast?" Hon. Mr. Templeman was asked.

"There is no doubt," he replied, "that all necessary aids to navigation and protection for human life on the west coast of Vancouver island and the coast line of British Columbia generally will be provided by the minister of marine and fisheries as rapidly as possible. A number have already been constructed and I know that three or four more on the northern route were authorized a few days before I left Ottawa. The system of wireless telegraphy as already promised will be established and connection provided between Victoria and Vancouver and various points along the coast. The minister of marine and fisheries is giving this matter his earnest attention and has recently placed in charge of the dominion wireless telegraphy department a competent man who has given his personal attention to the inauguration of the system in British Columbia. There are many difficulties to be overcome and many things to be taken into consideration before the contract is made but these matters are nearly all adjusted now, I think, and there should not be much further delay in establishing the stations."

Asked about the reorganization of the mines department Hon. Mr. Templeman said he expected to be able to consolidate the geological survey with several kindred branches now in the interior department, for which purpose the necessary legislation would probably be passed at the next session. Among the important business that would come before parliament when it resumed, the minister observed, would be the revision of the tariff upon which the members of the cabinet on the commission, Hon. Mr. Fielding, Hon. Hr. Brodeur and Hon Mr. Paterson were now engaged. It was expected that the question would be ready for submission to parliament shortly after the opening.

"What about the report that a western man would get the vacancy on the supreme court bench?" the minister was asked.

"The vacancy will be filled probably before the November sitting of the court," he said, "and the claims of the west for a representative have not been overlooked."

Hon. Mr. Templeman expects to remain here a couple of weeks, after which he will proceed to Ottawa. He will be unable to pay a visit to the Yukon this year.

LAID TO REST.

Funeral of the Late W. H. Adams Was Largely Attended.

The funeral of the late W. H. Adams took place on Sunday afternoon at 2 o'clock from the family residence on Victoria street to the city cemetery.

There was a large attendance of friends of the deceased, and of the bereaved widow and family, at the residence. Many floral offerings were also sent in by sympathetic neighbors and friends. Rev. R. Newton Powell, pastor of the Methodist church, of which the deceased was a member, held a burial service at the house.

The pall bearers were Alexander Kerr, C. A. Benedict, Mr. Tait, of Greenwood; C. E. Miller, A. Sullivan and W. J. Bennett.

The funeral arrangements were in charge of D. J. Roberston and Co.

Great sympathy is felt for the widow and six children who survive the deceased.

CRUSHED BETWEEN CARS

Fernie Miner Meets With a Painful Accident

(Special to The Daily News)

Fernie, Sept. 11—Steve Kubshake, a Slavonian miner working in No. 9 mine, Coal Creek, was painfully though not dangerously injured yesterday by being crushed between two mine cars. Te was removed by special train to the Fernie hospital and it was discovered that his right arm was broken above the elbow and that his ribs and the upper portion of his body were severely bruised.

Mr. and Mrs. V. B. Wadsworth, who have been the guests of Mr. and Mrs. G. G. S. Lindsey for some weeks, left by the C.P.R. express last night for their home in Toronto

Two large bonds of Indians passed here on their way up the Elk valley in search of game. It is also reported that a number of bands from the territories are hunting in the same district, and game inspector Randall and H. W. Herchmer, president of the Fernie district game protective association, will take a trip into that part of the country to see that the game laws are observed.

General regret is expressed here that Mr. A. Joyce, deputy registrar, has decided to sever his connection with the government service. He settled in Fernie when the town first sprung into existence and soon became one of its leading merchants and gave up business two years ago to accept the position he has just resigned. He will carry with him to his new home on the prairies the heartiest wishes of his many friends for success in his new venture.

Synopsis of Regulations governing the Disposal of Dominion Lands Within the Railway Belt in the Province of British Columbia.

A license to cut timber can be acquired only at public competition. A rental of $5 per square mile is charged for all timber berths, excepting those situated west of Yale, for which the rental is at the rate of 5 cents per acre per annum.

In addition to the rental, dues at the following rates are charged:

Sawn lumber, 50 cents per thousand feet B. M.

Railway ties, 8 and 9 feet long, 1 1-2 and 1 3-4 cents each.

Shingle bolts, 25 cents a cord.

All other products, 5 per cent. on the sales.

A license is issued so soon as a berth is granted, but in unsurveyed territory no timber can be cut on a berth until the licensee has made a survey thereof.

Permits to cut timber are also granted at public competition, except in the case of actual settlers, who require the timber for their own use.

Settlers and others may also obtain permits to cut up 100 cords of wood for sale without competition.

The dues payable under a permit are $1.50 per thousand feet B.M., for square timber and sawlogs of any wood except oak; from 1-2 to 1 1-2 cents per lineal foot for building logs; from 12 1-2 to 25 cents per cord for wood; 1 cent for fence posts; 3 cents for railway ties, and 50 cents per cord on shingle bolts.

Leases for grazing purposes are issued for a term of 21 years at a rental of 1 cents per acre per annum.

Coal lands may be purchased at $10 per acre for soft coal and $20 for anthracite Not more than 320 acres may be acquired by one individual or company.

Royalty at the rate of 10 cents per ton of 2,000 pounds is collected on the gross output.

Entries for land for homestead purposes may be made personally at the local land office for the district in which the land to be taken is situated, or if the homesteader desires, he may, on application to the minister of the interior at Ottawa, the commissioner of immigration at Winnipeg, or the local agent for the district within which the land is situated, receive authority for some one to make entry for him.

A fee of $10 is charged for a homestead entry.

A settler who has received an entry for a homestead is required to perform the conditions connected therewith under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year during the term of three years.

It is the practice of the department to require a settler to bring 15 acres under cultivation, but if he prefers he may substitute stock; and 20 head of cattle, to be actually his own property, with buildings for their accommodation, will be accepted instead of the cultivation.

(2) If the father (or mother, if the father is deceased) of any person who is eligible to make a homestead entry under the provisions of the Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of the Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of the Act as to residence may be satisfied by residence upon the said land.

Application for a patent should be made at the end of three years before the local agent, sub-agent or a homestead inspector.

Before making an application for a patent, the settler must give six months' notice in writing to the Commissioner of Dominion Lands at Ottawa, of his intention to do so. W. W. CORY,
Deputy of the Minister of the Interior.

NOTICE

The use of water in fountains or by jets, garden hose or sprinklers is limited by resolution of the City Council to between the hours of 5 o'clock p.m. and 8 o'clock p.m.

Anyone guilty of a violation of this resolution is liable to a heavy penalty. By Order.

A. L. McCULLOCH,
Water Commissioner.
Nelson, Aug. 20th, 1906.

TO WORKINGMEN

NOTICE

Whereas, at the Last Chance and Surprise mines, Chinese kitchen help is at present empoyled, to the exclusion of White labor.

Therefore, be it resolved that this organization, Sandon Miners' union No. 81 of the W. F. of M. reaffirming its opposition to the employment of Orientals within its jurisdiction, strongly condemns the position taken by the management of the properties in question, and counsels workingmen everywhere and those favorably disposed toward organized labor to be governed by this action.

SANDON MINERS' UNION
A. SHILLAND, Secretary.

Woman's Kidney Troubles

Lydia E. Pinkham's Vegetable Compound is Especially Successful in Curing This Fatal Disease.

Mrs. J. W. Lang and Mrs. S. Frake

Of all the diseases known, with which women are afflicted, chronic kidney disease is the most fatal. In fact, unless early and correct treatment is applied, the weary patient seldom survives.

Being fully aware of this, Lydia E. Pinkham, early in her career, gave exhaustive study to the subject, and in producing her great remedy for a woman's ills — Lydia E. Pinkham's Vegetable Compound—was careful to see that it contained the correct combination of herbs which was sure to control that fatal disease, woman's kidney troubles. Lydia E. Pinkham's Vegetable Compound is the only one especially prepared for women, and thousands have been cured of serious kidney derangements by it. Derangements of the feminine organs quickly affect the kidneys, and when a woman has such symptoms as pain or weight in the loins, backache, bearing-down pains, scalding or burning sensations or deposits in the urine, unusual thirst, swelling of hands and feet, swelling under the eyes or sharp pains in the back running through the groin, she may infer that her kidneys are affected and should lose no time in combating the disease with Lydia E. Pinkham's Vegetable Compound, the woman's remedy for woman's ills.

The following letters show how marvelously successful it is.

Mrs. Samuel Frake, of Prospect Plains, N. J., writes:

Dear Mrs. Pinkham:—

"I cannot thank you enough for what Lydia E. Pinkham's Vegetable Compound has done for me. When I first wrote to you I had suffered for years with what the doctor called kidney trouble and congestion of the female organs. My back ached dreadfully all the time, and I suffered so with that bearing-down feeling I could hardly walk across the room. I did not get any better, so decided to stop doctoring with my physician and take Lydia E. Pinkham's Vegetable Compound and I am thankful to say it has entirely cured me. I do all my own work, have no more backache and all bad symptoms have disappeared.

"I cannot praise your medicine enough, and would advise all women suffering with kidney trouble to try it."

Mrs. J. W. Lang, of 626 Third Avenue, New York, writes:

Dear Mrs. Pinkham:—

"I have been a great sufferer with kidney trouble. My back ached all the time and I was discouraged. I heard that Lydia E. Pinkham's Vegetable Compound would cure kidney disease, and I began to take it: and it has cured me when everything else had failed. I have recommended it to lots of people and they all praise it very highly."

Mrs. Pinkham's Standing Invitation.

Women suffering from kidney trouble, or any form of female weakness are invited to promptly communicate with Mrs. Pinkham, at Lynn, Mass. The present Mrs. Pinkham is the daughter-in-law of Lydia E. Pinkham, her assistant before her decease, and for twenty-five years since her advice has been freely given to sick women. Out of the great volume of experience which she has to draw from, it is more than likely she has the very knowledge that will help your case. Her advice is free and always helpful.

Lydia E. Pinkham's Vegetable Compound; a Woman's Remedy for Woman's Ills.

PACKERS MAKE MISTAKES

PROVISIONS OF FRUIT MARKS ACT NOT OBSERVED

CIRCULAR FROM OTTAWA POINTS OUT THE ERRORS

A circular received by The Daily News from the fruit division of the department of agriculture, Ottawa, sets forth

The reports of the fruit inspectors on the apples that have already gone forward, as well as the correspondence of the fruit division, show that there is a general misunderstanding of the amendments to the Fruit Marks act with reference to the marking of fruit packages. One of the marks, No. 1, No. 2, or No. 3, must be used in marking each package. Up to the present time the greater number of the packages have been marked with X's only. Shippers who do not use one of the marks, No. 1, No. 2 or No. 3, expose themselves to the liability of a fine of 25 cents per package for each offence. So as to avoid mistakes by employees and others, the fruit division advises shippers to destroy all stencils in their possession having the X's upon them.

There is also a misunderstanding with reference to the system of grading that is introduced by the new amendments. Formerly No. 1 constituted the only brand that was defined. Up to the passing of these amendments a No. 2 brand had no meaning except such as was given to it in each individual case. For the most part the No. 2 apple of former years was a good marketable apple, but too often the brand simply meant a lot of culls. The intention of the fruit men in asking for a definition of a number of brands was to secure at least two grades that could be easily packed in barrels, the best grades taking the apples that were practically perfect; the next grade to contain good marketable apples having some slight defects. The first brand is known as No. 1; the second as No. 2. All special packages of a poorer grade may be marked No. 3.

A careful reading of section 6, subsection (b) of the Fruit Marks act will show that a package containing No. 1 apples must consist of 90 per cent of fruit free from defects. To cover the exigencies of rapid work the act permits in every package 10 per cent of defective specimens, but these defects, it must be taken for granted, are all such as would be liable to miss detection in rapid work. It must be understood, too, that every apple in a No. 1 box must be sound, not less than medium in size, of good color for the variety, and of normal shape, and of the variety named on the package. Defects in size, color, shape and variety could hardly escape the eye of a packer except through inexcusable carelessness. A worm hole, however, or a slight bruse or a slight imperfection in growth might easily escape the attention even of a fairly careful packer, and it is for such mistakes that the ten per cent of defective apples is permitted. The standard, however, for No. 1 is very high.

A package marked No. 2 must contain 80 per cent of fruit free from any defects that will cause material waste. This, of course, would not exclude apples slightly affected with scab; nor would defects in color make material waste. On the other hand, a worm hole will cause material waste. Therefore, 80 per cent of the apples in a No. 2 barrel must be absolutely free from worm holes. A serious bruise would cause material waste. Therefore, 80 per cent of the No. 2 apples must be free from serious bruises. It must also be assumed that immaturity would cause material waste. Therefore, no immature apples will pass in this grade. The 20 per cent margin of defective apples will include all defects causing material waste, such as an excessive amount of scab, abnormal growths, bruises and worm holes. In the ordinary course of packing most of the apples included in this 20 per cent will have a certain value, and if packed by themselves, might possibly bring, we can suppose, from 50 to 75 per cent of the price of the rest of the barrel. It is improbable that even the worst pack would include more than ten per cent of wormy apples, because if there were more than 10 per cent of wormy apples there would be only 10 per cent left for other defective apples, causing material waste which would be a very small allowance. It is, therefore, presumed that the great bulk of the apples grown in the average unsprayed orchard will be classed No. 2.

In years of scarcity a great many apples of No. 3 grade will be packed and sold, although it is not recommended that any lower grade than No. 2 be exported. A careful examination of fruit in unsprayed orchards for a number of years has shown that not more than 25 per cent of the marketable fruit in these orchards will grade No. 1, leaving 75 per cent of No. 2's.

The fruit inspectors have been instructed to strictly enforce the new amendments for the present season. In making contracts for future sales dealers should bear the changed system of grading in mind, and not oversell No. 1 apples.

WAS A VERY SICK BOY

But Cured by Chamberlain's Colic, Cholera and Diarrhoea Remedy

"When my boy was two years old he had a very severe attack of bowel complaint but by the use of Chamberlain's Colic, Cholera and Diarrhoea Remedy we brought him out all right," says Maggie Hickox of Midland, Mich. This remedy can be depended upon in the most severe cases. Even cholera infantum is cured by it. Follow the plain printed directions and a cure is certain. For sale by all druggists and dealers.

FRANK MINES CLOSED

Completion of Work on New Tipple Causes a Shut Down

(Special to The Daily News)

Frank, Alta., Sept. 11—The Canadian American Coal and Coke company has closed their mines for ten days owing to the new tipple being finished. They are now at work installing new cables and connecting them with the tipple. They also intend to build a trestle over which the cars will run from the mine. There will be no mining until the work is finished. Lille, Coleman and Bellevue mines were closed two days last week for shortage of cars.

Information was laid by constable Hart of Lille against one S. Casino for shooting grouse out of season. He stated in the police court that he was ignorant of the law, but pleaded guilty and was fined $25 and costs.

Inspector Bilcher of the mounted police, has moved to Blairmore and will reside there instead of at Pincher Creek, where the former inspector, Kemmis, resided, Blairmore being more central. Couley and Lundbreck will be created outposts at once.

R. Steines, proprietor of the Imperial hotel, was the victim of a robbery Saturday night. Some miscreant obtained a key to the back door of the bar and tapped the cash register for some $26. No clew to the thief has been discovered.

Lille has a new hospital about completed and it will be ready for patients next week under Dr. O'Hagan, who has charge of the Lille camp.

C. Hill, president of the Hillcrest Coal mine has just returned from an extended trip east and the threatened strike which has been in abeyance until his return, will be settled on Saturday.

Minard's Liniment Cures Garget in Cows

PAIN FROM BURN PROMPTLY RELIEVED BY CHAMBERLAIN'S PAIN BALM

A little child of Michael Strauss of Vernon Conn. was recently in great pain from a burn on the hand and as cold applications only increased the inflammation, Mr. Strauss came to Mr. James N. Nichols, a local merchant, for something to stop the pain. Mr. Nichols says: "I advised him to use Chamberlain's Pain Balm and the first application drew out the inflammation and gave immediate relief. I have used this liniment myself and recommended it very ofte nfor cuts, burns, strains and lame back, and have never known it to disappoint." For sale by all druggists and dealers.

The Food That Builds

Maybe you think of Mooney's Sodas only as a toothsome tidbit. Don't overlook their food value

TELEGRAMS OF THE DAY

MINISTERS PROTEST AGAINST EXHIBITION OF PIGMY

DO NOT LIKE TO SEE LITTLE MEN IN CAGE WITH APES

New York, Sept. 11—The Times says a committee of the colored Baptist ministers' conference will call on the mayor today on behalf of Ota Benga, the African pigmy, who is being exhibited with the monkeys at the Bronx zological park. The ministers will ask the mayor to save the little African from what they term "the degrading exhibition" of a human being in a cage disporting himself with apes. This decision was arrived at yesterday after a conference at the Mount Olivet Baptist church. The committee is headed by J. H. Gordon, superintendent of the Howard orphan asylum in Brooklyn.

Gibraltar, Sept. 11—The steamer Prinz Adelbert, which is due here Wednesday, will call at Tangier to pick up and take to New York, Paul O. Stensland, formerly president of the Milwaukee avenue state bank of Chicago, who was taken into custody in Morocco.

Teheran, Sept. 11.—The shah has signed the reform ordinance demanded by the clergy and dismissed the ex-grand visier Ainend Dowleh. This action has put an end to the agitation and business is to be resumed.

Fort William, Ont., Sept. 11.—The White Mining and Milling company has been organized with a capital of one million dollars. The incorporators are J. A. Gilbert, of Detroit, president; colonel J. H. Buxton, vice president, and general manager; T. B. Taylor, secretary treasurer. The company will carry on a general mining and milling business. Active work has already been started on the company's mine near Atikone, Ont.

Wilmington, Del., Sept. 11—A. J. Moxham, the foundering of whose yacht Adel off the coast of Labrador with his family is reported from Sydney, N.S., is a member of the Dupont Powder company, and resides in this city. Today T. Coleman Dupont, head of the powder company, said that yesterday he had heard the rumor of the loss of the Adel off the Labrador coast. Later in the day, however, he received a telegram from Quebec signed by A. J. Moxham and reading: "We will be in New York on Thursday and in Wilmington on Saturday."

New York, Sept. 11.—Among the passengers arriving today on the steamer kaiser Wilhelm was colonel sir Howard Vincent, honorary colonel of the Queen's Westminster volunteers, who came to complete arrangements for the rifle contest at Creedmore with the Seventh regiment N. G. S. The team will come later.

Berlin, Sept. 11.—Albrecht, prince of Prussia, regent of the duchy of Brunswick, has had a stroke of apoplexy and as a result his condition is dangerous.

Havana, Sept. 11.—What appears to be positive confirmation has been received of the report that Alfred O. Hayas, president of the liberal party, and vice president of the Cuban senate, is among the group of prominent men who have joined the insurgents outside of Havana. The mayor of Moron, in the province of Puerto Principe, reports a fight in his vicinity of rural guardsmen and volunteers with a band of rebels. The latter were dispersed. The casualties of the affair are not known.

New York, Sept. 11—The independence league convention was called to order at 1 p.m. by chairman Ihmsen. Every mention of Hearst's name was enthusiastically cheered, the cheering following the first reference lasting full five minutes, while several delegations marched cheering around the hall.

Winnipeg, Sept. 11.—The Massey-Harris warehouse and several buildings in Pilot Mound business section were destroyed by fire early this morning. No fire apparatus was in town but Crystal City sent their brigade and after hard efforts the Queen's hotel and store house were saved. The loss is $20,000.

Stettler, Alberta, Sept. 11.—In December last the population of this town consisted in two families of ten persons in all. According to the census just taken it now has a population of 751 and judging from the large number of easterners and Americans daily arriving there will be over 1000 people here before Christmas. The census returns are for the number of actual bona fide residents, the enumerator refusing to count any transients or campers.

Winnipeg, Sept. 11.—William Sherring, champion long distance runner of the world has arrived here and will take part in the indoor western championships to be held in the Arena rink tomorrow evening. Sherring will endeavor to lower the Canadian records from one mile up to five and already a large number of tickets have ben sold. Some handsome cups have been donated by local sportsmen for the various events.

Cardston, Alberta, Sept. 11.—What will probably turn out to be a very important find has just been made in this district, consisting of a rich lead of copper mixed with gold. A well known prospector, J. H. Van Pelt, has for some time been trying out the rocks near the American boundary. Last year he found several small veins running in the same direction and he was of the opinion if these were followed they would lead to the mother lode. Work was started early in the spring with the result a few days ago some very rich copper ore was discovered which carried high values in gold. The find is on Kennedy creek, which runs into St. Mary's river just below the lake where the large dam is to be built by the American government. The location of the mine is about 25 miles southwest of this town. Work will be carried on with this prospect all winter and developments are expected which will surprise even the most sanguine. Copper finds have been reported in this district for many years past but this is by far the richest ever made and experts claim it is of great value.

Portage la Prairie, Man., Sept. 11.—Efforts are about to be made to increase the population of this town and for that purpose a 20,000 club has been started with the object of attaining a population of 20,000. W. Garland Foster is one of the prime movers in the project and already has commenced negotiations with several eastern firms to induce them to start industries here.

Winnipeg, Sept. 11.—Now that the Hon. Colin Campbell, attorney general, has returned from his trip to England, efforts will be made to do something in the line of government owned telephones as promised by the conservative party some few months ago. So far no active steps have been taken to this end, However, the local government is determined to go ahead with its scheme for the cheapening of telephone rates and it is expected the days of the Bell Telephone Co. in Manitoba will be numbered although the opposition is not so sanguine over the result.

Calgary, Alta., Sept. 11.—Rev. G. F. Johnston, pastor of St. Andrews church, Westmount, Montreal, died at Holy Cross hospital here this afternoon.

Tangier, Sept. 11.—The report published in United States and telegraphed here that Paul O. Stensland, president of the wrecked Milwaukee avenue state bank of Chicago, had attempted to commit suicide, is untrue.

New York, Sept. 11.—The Evening World today states it is informed, on reliable authority, that there will be a contest of the will of Hermann Oelrichs, which was filed for probate yesterday, and which left the bulk of the property to his blood relations and cut off his wife, Theresa Alice Fair Oelrichs, with the statement that she "had ample fortune of her own."

Liverpool, Sept. 11.—The Carmania left here today with a shipment of gold on board, valued at over $10,000,000.

Dublin, Sept. 11.—The Evening Mail says the government contemplates handing over the old parliament house on College Green, which is now being used as the bank of Ireland, as an assembly hall for the new Irish council.

Harbin, Sept. 11.—Five political prisoners have been killed and fourteen have been wounded in a fight with their guards. The prisoners obtained revolvers and overpowered the turnkeys. They then attempted to escape from the building and succeeded in forcing the gate. Once outside the patrol fired on them.

OUTBREAK IN RUSSIA

REFUGEE DESCRIBES SCENES IN STRICKEN SIEDLCE

SOLDIERS RANSACKED HOTEL AND GOT DRUNK

Warsaw, Sept. 11—The correspondent of the Associated Press interviewed a refugee of Siedlce this morning. The man said: "I was staying Saturday at the Kupiel hotel in Siedlce. Saturday at 9 o'clock in the evening I heard two shots which were at once followed by a volley. In a few minutes a number of Jewish women and children rushed into the hotel, pursued by soldiers. The shooting continued for an hour and then it came to an end. Then the only noise from the street was the crying and moaning of the wounded. At midnight several soldiers passed through singing martial songs. I learned that the troops had been searching the houses in an effort to discover members of the terrorist band. To this end they went through the hotel Wikotjar and pillaged the wine room. They got drunk rapidly and coming out on to the street began wholesale murder and plunder.

"At 2 o'clock Sunday morning some who were defending the street threw a bomb at the soldiers. Batteries were at once brought into play and bombarded houses on Plenkna and Warsaw streets. The hotel where I was staying was destroyed. Refugees were fleeing through the streets and as they ran soldiers were constantly firing volleys at them. I ran with the others and managed to reach a porch of a church in safety. Here 300 fugitives, most of them wounded, already had congregated.

"This was at 4 o'clock Sunday morning. I passed down Sokole street and found that the market place had been ruined. At the end of two days, lack of food and water forced the refugees in this church to leave it. We made our way through the streets covered with debris. There were many dead bodies and wounded people lying about. We finally reached the village of Roskosz. Most of the families at Siedlce who barricaded themselves in their houses out of fear of the soldiers have now been three days without supplies. The wounded have not been cared for as the soldiers will not permit physicians to enter the town."

The refugee would not give his name as he fears persecution at the hands of the police.

Other refugees declare that the principal plunderers were reservists who passed through Siedlce on Sunday on their way home. It was learned here today that the reign of bloodshed at Siedlce had ceased, at least for the time being. Troops are camped in the streets and a systematic search of houses and persons is being carried on. The authorities have opened an inquiry into the events which led up to the outbreak. There is great need of medical assistance for the wounded. According to the best information the number of persons killed at Siedlce is about 100. The number of houses burned reaches 27. Many persons managed to get out of the city and flee to neighboring villages.

Stravanopol, Sept. 11 — It is reported here by telegraph that the village of Shuiguti has been bombarded by artillery, in consequence of disorders which commenced there following the arrest of M. Onipke, the peasant leader in the outlawed parliament, who is to be tried by court martial for complicity in the uprising at Cronstadt last July. The inhabitants of the village fled and their houses were destroyed by the artillery, which, according to report, is now moving against the village of Petroffskaia.

Kamishin, Sept. 11—The arrival here of the governor and a strong force of troops from Saratov has resulted in the subduing of the uprising. The town had been given over to fighting for two days between the police and the mob. Taking advantage of the absence of the garrison to suppress the disorder in Nicholalevka, the revolutionists organized a revolt on Sunday. They freed a number of political prisoners and threw barricades across the streets which they held with success against the police. The number of persons killed or wounded has not been established, but in one hospital there are twenty wounded. The disorder in Nicholalevka also has been subdued.

Warsaw, Sept. 11—In a search for terrorists made here last night some 200 houses, located in different parts of Warsaw, were ransacked by troops. About 1000 arrests were made, most of the principals being Jews. Many children were taken into custody. They are employed by the terrorists to execute attempts upon government officials, because the movements of children do not awake suspicion as they are not liable to capital punishment. The authorities have ordered that all suspects be expelled from the city.

Bowel Troubles of Childhood

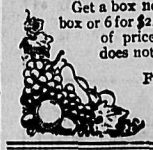
It is impossible to exaggerate the value of FRUIT-A-TIVES as a medicine for children. They contain no alcohol — no morphine or cocaine—no dangerous drugs of any kind.

Fruit-a-tives are fruit juices—concentrated and combined with the most valuable tonics and internal antiseptics known to medicine.

Fruit-a-tives are free of calomel, cascara, senna and the host of violent purgatives that simply act by irritating the bowels. Fruit-a-tives are made from fruit and tonics and are pleasant to take, and so mild in their action that they never gripe or pain.

During the summer, when children are so apt to eat improperly, mothers should have a box of Fruit-a-tives always handy.

At the first sign of Diarrhoea, Indigestion, Headaches, Biliousness, Peevishness, Vomiting — give Fruit-a-tives according to directions. These splendid fruit liver tablets will instantly correct faulty digestion—clean and sweeten the stomach—regulate the bowels, kidneys and skin — and so invigorate and strengthen the whole system, that the little ones can quickly throw off the temporary illness.



Get a box now—to-day. 50c. a box or 6 for $2.50 Sent on receipt of price, if your druggist does not handle them.

NOTICE

In the matter of an application for the issue of a duplicate of the Certificate of Title for Sub-Division 2 of Lot 381, Group 1, in the district of Kootenay, (Map 725.)

NOTICE is hereby given that it is my intention to issue at the expiration of one month after the first publication hereof, a duplicate of the Certificate of Title to the above mentioned lands, in the name of Henry W. Farrall, which Certificate is dated the 23rd day of Oct. 1902, and numbered 1864A.

H. F. MACLEOD, District Registrar.
Land Registry Office, Nelson, B. C.
Aug. 6, 1906

Synopsis of Canadian Homestead Regulations

ANY available Dominion Lands within the Railway belt in British Columbia, may be homesteaded by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres, more or less.

Entry must be made personally at the local land office for the district in which the land is situate.

The homesteader is required to perform the conditions connected therewith under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year for three years.

(2) If the father (or mother, if the father is deceased), of the homesteader resides upon a farm in the vicinity of the land entered for, the requirements as to residence may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements as to residence may be satisfied by residence upon the said land.

Six months' notice in writing should be given to the Commissioner of Dominion Lands at Ottawa of intention to apply for patent.

Coal lands may be purchased at $10 an acre for soft coal and $20 for anthracite. Not more than 320 acres can be acquired by one individual or company. Royalty at the rate of 10 cents per ton of 2000 pounds shall be collected on the gross output.

W. W. CORY,
Deputy of the Minister of the Interior

NELSON'S NEWS OF THE DAY

Twenty-four carloads of sheep passed through the city yesterday en route from Republic, Wash., to Chicago, over the C.P.R.

A rehearsal of those taking part in the Japanese parasol drill for the fair will be held tonight at 8 o'clock sharp in Fraternity hall.

Mr. Wallace Graham, the well known elocutionist, and teacher in the Brandon Baptist college, is a guest at the Strathcona for a few days.

Mrs. J. S. Lawrence, wife of the C.P.R. superintendent, and her son returned to the city last evening from an extended visit to eastern Canada.

At the meeting of the directors of the Kootenay Lake general hospital yesterday afternoon no final decision was arrived at concerning the appointment of a resident hospital physician to succeed Dr. Campbell.

Capt. and Mrs. Johnstone of the Salvation army, who went to Grand Forks to hold meetings there last night and tonight, will return on Thursday and will take charge of the Thursday evening open air meeting.

A treat is in store for local music lovers. The officials of the Methodist church have made a contract with Harold Jarvis, the famous tenor, who will visit and sing in Nelson early in November. Further particulars will be announced later as definite arrangements are made.

A meeting will be held in St. Paul's Presbyterian church hall this evening at 8 o'clock which will be addressed by Miss Robinson, originally secretary of the Women's Home Missionary society of the Presbyterian church. The meeting will be open to all comers.

The tender of the Women's Hospital aid society for supplying refreshments at the fair has been accepted by the directors and there will be a meeting of the hospital aid at H. Bird's residence at 4 o'clock this afternoon to make arrangements for supplying refreshments at the fair.

J. S. Lawrence, C.P.R. superintendent, received several messages yesterday concerning the arrival here of the Canadian civil engineers' party. The party is a day late on schedule time as announced, which would bring them here on the night of Sept. 22. The city engineer received a wire saying that the party would reach here on the 23rd and could not manage to take in the exhibition. The mayor has been applied to in the matter and possibly a way out of the tangle may be found today. The party ask for 45 rooms at the local hotels for two nights.

The funeral of the infant child of Mr. and Mrs. Byres of Fairview, will take place at 1 o'clock this afternoon from the family residence, Rev. R. N. Powell officiating. The little girl whose untimely end is thus recorded, passed away on Monday evening, and the sympathy of a large number of friends is extended to the parents in their sad bereavement.

Rev. Dr. Moore of Ottawa, the secretary and lecturer of the Canadian association for the prevention of consumption and other forms of tuberculosis, will deliver a lecture on "The Cause and Prevention of Consumption," in the opera house on Friday evening, Sept. 14 at 8 o'clock. His worship the mayor will take the chair. At the close of the lecture a collection will be taken in aid of the sanitorium building fund.

WIFE FLASHED A GUN

Winnipge, Sept. 11A negro named Hicks was shot at three times by his wife in a resort here tonight. Each bullet hit him, but he escaped with only slight flesh wounds.
