BARRICADED IN BARRACKS

Mutiny Breaks Out Among Regiment of Cavalry at Tambov

Most Serious Affair Since Sebastopol Outbreak--Proclamation to Peasants on Land Question

Tambov, July 9.—A mutiny broke out July 7 in the Karsarav regiment of cavalry and during the melee a soldier of the Negini regiment was killed. The mutineers have barricaded themselves in their barracks.

St. Petersburg, July. 9.—The news of the mutiny at Tambov, which apparently is the most serious of such affairs since the Sebastopol affair, is confined to the bare details of a censored agency despatch, showing the mutineers, when attacked by loyal troops, offered armed resistance before retreating to their barracks, where they are now barricaded.

St. Petersburg, July 9.—The initial steps towards the adoption of a direct address to the country to counteract the impression the government's communications with regard to the settlement of the agrarian question is making among the peasantry, were taken up in the lower house of parliament today, when the interpellation was introduced regarding the dissemination of the government's proclamation to the peasants. This proclamation sets forth the emperor's solicitude for the peasants and denied that the government was opposing expropriation in the interest of the landlords, concluding with an expression of the vital necessity of maintaining the rights of property as being the foundation of the state.

INSPECT NORTHERN FISHERIES

Professor Prince and Rev. G. W. Taylor Leave Today on D.G.S. Kestrel.

Victoria, July 9.—Professor E. E. Prince, chairman of the fisheries commission, will tomorrow proceed north in company with Rev. George W. Taylor, another member of the body. The trip will be made on the dominion government steamer Kestrel and a thorough inspection of the fisheries of the north will be made by them.

The German steamer Mariechen, now in the Esquimalt drydock, has been sold to W. Thomson, of the Centennial flour mills, Seattle, who will have the vessel repaired in this city. The Mariechen, which was wrecked in Alaska waters, was salved by Messrs. Bullen brothers, of this city, and brought to Esquimalt several weeks ago. Finding that the expense of repairing the vessel would be greater than he anticipated, the owner in Germany decided to sell her. Bullen brothers have the contract for repairing the vessel.

INTERNATIONAL CRICKET

Canadians vs. All-Philadelphia—Result of First Day's Play.

Philadelphia, July 9.—Under ideal conditions the annual international cricket match between the United States and Canada began today on the grounds of the Germantown cricket club, and when stumps were drawn at 6.30 p.m. for the day, the home players had scored 274 runs for their first innings and the visitors 31 for the loss of five wickets.

The American eleven is made up of players selected from local clubs.

The Americans won the toss and elected to bat first. Seven of the home players reached double figures.

J. B. King made the top score today —63 runs.

By comparison the batting of the Canadians was rather weak against the splendid bowling of King, Clark and Greene.

DISTRICT 18, U. M. W. of A.

(Special to The Daily News)

Coleman, Alta., July 9.—The election of officers for the ensuing term took place at Coleman union hall on Saturday evening, when the following were duly elected:

President, H. E. Grewcutt; vice-president, R. Rees Morgan; recording secretary, J. H. Hutton; treasurer, J. Stephenson.

Much satisfaction was shown by the withdrawal of resignation as checkweigher by Charles Brooks, and he was again elected to that office by a vote of acclamation. Since his election in 1905 he has fulfilled his duties in a very able manner, and every confidence is placed in him by the mine workers at Coleman.

STAGE ROBBER ARRESTED.

Fresno, Cal., July 9.—If the surmises of the authorities be correct "Jack Sweet" of Grub Gulch, held up the five Yosemite stages Saturday night. He is said to be under arrest on the charge and has been taken to Wawona for identification.

Sweet owns a small tract of land, and works as a laborer in the mines. The news was brought here by a man named Graham from Wawona, and all depends upon the possibility of identification which several of the passengers say they are able to make.

JUSTICE FOR DREYFUS

Paris, July 9.—The supreme court held a long and secret session today and adjourned without announcing its decision in the Dreyfus case. It is generally expected that the decision of the Rennes courtmartial will be annulled, but the court is understood to be divided upon the question of quashing the verdict, or of ordering a new trial. The Dreyfus case is re-awakening intense bitterness, and has already resulted in one dual.

SUNDAY CARS RUNNING

WINNIPEG'S FIRST EXPERIENCE OF THIS CONVENIENCE.

THOUSANDS TOOK ADVANTAGE OF THE INNOVATION.

Winnipeg, July 9.—For the first time in the history of this city electric cars were seen on the streets on Sunday, the service starting at 7 o'clock yesterday morning and continuing all day. From early morning until late at night the cars were crowded more by people to ride for the novelty of the thing than for any business they might have had. Many visited the parks which were filled with people all day and efforts will be made to hold sacred concerts in several of the parks during the summer months. An important feature in connection with the Sunday car service is the doing away with double fares after 11 o'clock in the evening. According to the street railway company's franchise the company is obliged to run all night cars when the city has attained a population of 100,000 and as that mark has been passed several months ago the city council will at once take steps to compel the company to inaugurate an all night system.

SENATE AND SUNDAY BILL

Parliament May Prorogue Before It is Passed—Intercolonial Surplus.

(Special to The Daily News)

Ottawa, July 9.—From the way the senate is approaching the Sunday Observance bill it looks as if parliament would prorogue without passing it.

Hon. R. W. Scott moved the second reading and strongly supported the bill. Senator Choquette attacked the bill and said if the clause forbidding games on Sunday for a fee were not struck out he would oppose the whole bill. This made senator McMullen say that he could not see how Choquette could keep the Sabbath holy and advocate horse racing on Sunday. Senator Cloran added that McMullen was going too far.

Sproule asked in the house if the report in the press were correct that the governor general had been bestowing titles and honors without the consent of the government.

Laurier said the report was without foundation.

Hon. R. W. Emmerson said today in the discussion on railway estimates that the year's operations of the Intercolonial would show a surplus of $100,000.

COTTON OPERATIVES STRIKE

Reasonable Requests of Men—Do Not Ask for Recognition of Union.

Magog, Que., July 9.—There is no change in the strike situation in the works of the Dominion Textile company here. About 900 are out in all, these including the hands employed in the print works.

The men are now asking an increase of 20 per cent in wages, providing further, that no head of a family shall receive less than one dollar, and no children less than 50 cents a day. Also that all employees be reinstated. They do not ask the company to recognize the union in any way, but insist upon the liberty of anyone joining it, should they see fit.

SCARCITY OF LABORERS

High Wages No Inducement—Industrial Activity the Cause.

Winnipeg, July 9.—Immigration officials report a remarkable scarcity of farm laborers, and they are quite unable to supply the demand. The remarkable industrial development and activity in all lines of construction work, but especially that of railroading, are responsible largely for existing conditions. Thirty-five a month on contract is offered experienced men, but fails to attract sufficient numbers.

FAMILY FAILING.

Parents and Children All in Jail or at Reform School.

Evansville, Ind., July 9.—Jonah Williams, his wife, Minerva Williams, and their son, Wesley Williams, were sentenced to prison for life today for the murder of James Light at Booneville, last spring. Andrew Williams, another son, is serving a jail sentence for a petty crime, and two smaller children are in the reform school.

CLEANING UP PACKINGTOWN

Secretary Wilson Finds Things in Good Shape at the Stockyards

Chicago, July 9—After conferring with the chiefs of the packing establishments at the stockyards today, secretary of agriculture Wilson said: "I find the general conditions at the stockyards to be good and everything being hurried to place the yards in first class shape, and every effort being made to comply with the law fully. Tomorrow I will confer with some 30 government inspectors from various cities having packing industries. I shall confer with them as to the time of putting the new law into effect. They will have to make some changes in their operations to comply with this and I am willing to grant them sufficient time to get ready."

SEATTLE HAS SENSATION

EX-JUDGE EMORY KILLED BY A LOVE-SICK BOY.

SHOT DOWN SATURDAY EVENING AND DIED YESTERDAY.

Seattle, July 9—George Meade Emory, former superior judge and one of the most prominent members of the King county bar, is dead from gunshot wounds received at his home on Saturday evening last.

The shooting was done by Chester Thompson, nineteen-year-old son of Will H. Thompson, the well known lawyer, and nephew of the late Maurice Thompson, the famous author and poet.

Coatless and hatless, Thompson forced has way into the Emory home, at 229 Denny Way. Judge Emory, his wife and some guests were seated on the veranda. The judge quickly rose and following Thompson into the house ordered him out; an angry word or two was passed and a new pistol flashed from its holster on Thompson' hip. Three shots were fired and judge Emory fell to the floor. One bullet penetrated the left lung, another tore its way through the left hip, while the third went wild.

Murder in the first degree will be the charge against Thompson according to a statement made today by the prosecuting attorney. The plea of the defense will be insanity, based partly upon the infatuation of the accused for Charlotte Whittlesey, niece of judge Emory, and partly on Thompson's eccentricities recently.

Thompson's version of the affair is given in the following statement made by him after his arrest:

I went to Emory's house to ask Charlotte Whittlesey to marry me. If she refused I was going to leave her, go away and blow out my own brains. I love that girl.

I have been in love with Charlotte Whittlesey for nearly a year. Yes, I have kept company with her. Three weeks ago she told me that she did not love me. She told me she could never learn to love me. She told me that she did not want to see me any more. She ordered me to keep away from her.

I did not believe that she meant what she said. I was sure that if I could tell her how much I really loved her that she would change her mind and marry me. I decided this afternoon to go out to the house. I knew that judge Emory did not like me and I was afraid that if I went to the house he might do me some bodily harm

To protect myself I bought a revolver this afternoon. Before I went out to the house I rang up on the telephone. Judge Emory came to the telephone. I asked him if Charlotte was in. He recognized my voice. He told me that my sweetheart did not want to have anything to do with me. He said that Charlotte had told him that she was through with me. He said also, "I don't want to see you either. I feel as Charlotte does. I want you to keep away from her and never set foot in my house."

I had to see the girl. I did not believe that she was telling me the truth when she told me that she did not love me. I could not sleep without asking her; so, I went to Emory's house. I saw him reclining on his porch. I did not want any trouble so I rushed past him into the house thinking that I would find Charlotte upstairs.

When I reached the house Emory jumped up and ran in after me. He made a rush at me, saying, "Didn't I tell you not to come around here?" I thought he was going to beat me, so I pulled my revolver from the holster and shot him. I fired in self-defense.

It was Emory's fault. He had no right interfering with me. The girl would have married me had it not been for Emory. He was always interfering. The girl loved me all right but Emory told her I was no good. I know he meant to beat me, so I shot him.

When I fired the shots I heard some one on the porch holler. I believed that I would be lynched. I ran upstairs to save my life. I ran into a room in which were two of Emory's children. I pulled the bed up against the door to keep it closed. I sat on the bed with the two children sitting by me. When they came to the door I said I would surrender to my father because I knew they would not lynch me if he was there.

I did not hurt the children. I intended to shoot them and blow out my own brains if the police tried to break in to lynch me. When I heard my father's voice at the door I knew everything was all right. I opened the door and gave myself up.

I only did what was right. I wanted to see the girl and Emory tried to beat me. I shot him in self defense.

BRYAN IN LONDON.

London, July 9.—Mr. Bryan today visit premier Campbell-Bannerman at his official residence in Downing street, and remained with him an hour.

C. A. Pearson, the well-known publisher, gave a dinner in honor of Mr. and Mrs. Bryan this evening.

ELEVATOR BUSINESS TIED UP

Chicago, July 9—The grain elevator business in South Chicago was brought to a standstill today when 250 employees of the elevators went on strike, demanding an increase of wages to 35 cents an hour from the present scale of 27 to 32 cents. Six firms are affected by the strike.

CHAMBERLAIN ANNIVERSARY

Birmingham Still Celebrating Joseph's 70th Birthday

Justifies His Coat Turning Proclivities by Gladstone's Dictum That "Change is Life"

Birmingham, July 9.—The celebration in honor of Joseph Chamberlain's attainment of 70 years was continued tonight when 10,000 persons assembled in Bingley hall to witness the presentation of 120 addresses of appreciation of Mr. Chamberlain's political services.

The addresses came from various parts of the United Kingdom. Replying to the speeches, Mr. Chamberlain entered on a political retrospect. Alluding to the charge that he had changed his opinions, Mr. Chamberlain quoted William E. Gladstone, who once said that the change was a sign of life, and it was only the dead who remained the same.

Lord Strathcona pays Chamberlain this tribute: "Mr. Chamberlain is unquestionably one of the ablest statesmen of the day. He has done much, perhaps more, than any other man in bringing the mother country into closer touch with the colonies, strengthening the ties of friendship that happily exist throughout the empire. I most cordially join with other friends in wishing him many happy returns of his birthday."

NELSON'S NEWS OF THE DAY

Mr. and Mrs. C. M. Fraser leave this morning for a fortnight's camping out near Slocan City.

The police commissioners held their regular quarterly meeting yesterday afternoon but no business of importance was transacted.

Mr. and Mrs. R. W. Grigor and family of Rossland, who has been spending a few days with the mayor and Mrs. Gillett, will return home this morning.

W. A. Jowett left yesterday morning for New York, from whence he will sail for England on a business trip. He expects to be away for several weeks.

J. A. Matheson has purchased the lock and gunsmith business of Elliott & Morrison, which he will hereafter conduct, adding thereto the repair of gasoline engines.

A. Sullivan returned last evening from Kaslo, where he has been conducting the high school examinations. He leaves for the east this morning by the Crow boat.

Dr. J. H. Hamilton, formerly resident physician at the Kootenay Lake general hospital here and now in charge of the Arrowhead hospital, spent yesterday in the city.

Rev. E. H. Shanks has gone to New Westminster to attend the Baptist conference which opens in that city today. The reverend gentleman will return to the city at the end of the week.

Miss S. E. Porteous, Kootenay street, who was called to Alberta six weeks ago by the serious illness of her father and brother, returned to the city last evening, both her relatives having completely recovered.

The Rossland celebration committee last night telephoned the local lacrosse officials that the lacrosse match between the Nelson and Rossland teams will be played on the afternoon of July 16 in Rossland during the Miners' union celebration.

The executive committee of the 20,000 club will hold its regular fortnightly meeting in the board of trade rooms this evening at 8:30, when it is hoped there will be a good attendance as there are several matters of importance to be talked over and arranged.

T. A. Brydon and J. C. Metcalfe returned Sunday evening from their official visit to Creston and Cranbrook. At both places they addressed good meetings of fruit growers. Special interest was taken in their meeting at Creston, where there was a large attendance, James Compton presiding. Messrs. Brydon and Metcalfe spent yesterday visiting some of the lake ranches and in the evening left for Revelstoke.

Alderman Irving yesterday received word of the death from consumption of his niece, Miss Mabel Irving, at Napanee, Ont. The young lady was in her 20th year and came to Nelson in 1903 to spend a year with her uncle for the benefit of her health which was then far from good. It was hoped that her visit here might stay the coming of the white plague, but for some months past it was evident that the end was approaching, and the announcement that reached Mr. Irving yesterday was not unexpected.

F. A. Acland, formerly city editor of the Toronto Globe, and now a staff correspondent for that newspaper, spent yesterday in the city, leaving last evening for Rossland. Mr. Acland has been making an extensive tour of Manitoba, the new provinces and British Columbia, sending back intensely interesting letters to the Globe, setting out the conditions and progress of the west as the writer sees them. Mr. Acland will return here on Wednesday and spend another day in Nelson before leaving for the east.

The 20,000 club's double excursion on the Kuskanook next Thursday afternoon and evening promises to be very largely attended. The steamer will leave at 1:30 sharp for the first trip, running to Procter and then going out into the main lake. The start home will be made from Procter about 5 o'clock and the boat is expected to reach here not later than 6:30. The evening excursion will start at 7 o'clock and arrangements have been made for a dance at Procter, returning to the city about 11 o'clock. Music will be provided on both trips.

At a meeting of the special committee of the university club, appointed to consider the best means of advertising the endowment of a provincial university, held in Dr. Arthur's office yesterday afternoon, the report presented to the club at the last meeting and published in these columns, was adopted with some slight verbal amendments. The report will be communicated, together with a resolution of the club, to each of the religious denominations in the province and the law society, the medical council and all bodies of graduates, whose endorsement and cooperation will be asked in having a memorial presented to the government.

McKANE QUITS SCHWAB

FORMER ROSSLANDER QUARRELS WITH STEEL MAGNATE

IS NOW OUT OF HIS $50,000 A YEAR JOB

San Francisco, July 9.—Wealthy Nevada mining men are waging a bitter war in mining stock circles because Charles M. Schwab, former president of the Steel trust, has refused to become a citizen of Nevada and make a fight for the United States senatorship against senator Francis G. Newlands, whose term expires in 1908. Because of his refusal Schwab has made enemies of former friends and business associates who are said to have desired increased political and social prestige through a program they had mapped out for Schwab.

They had influence enough to get senator George S. Nixon of Nevada to try his persuasive powers on Schwab and get him to contest for the toga with Newlands. Nixon and Newlands are political enemies and the former would like to see Schwab defeat Newlands. When he failed to interest Schwab in the political game Nixon stood to one side and is now a spectator of the fight between the former steel trust magnate and his erstwhile associates.

John McKane, the shrewd and wealthy Scotchman and mining engineer, who induced Charles M. Schwab to invest in Nevada gold mines and made for him $15,000,000 in the past three years, has quarrelled with him, so the story goes. As a result Schwab has displaced McKane as his Nevada mining representative at a salary of $50,000 a year and has given the position to William Gillis, a Pittsburg man and an old friend.

The McKane crowd appear to have the better of the fight against Schwab at present, but in making their fight they have succeeded in demoralizing the mining market for the so-called Schwab stocks in this city, Denver and New York and have injured financially many innocent investors.

McKane is a millionaire, picturesque, shrewd, ambitious and extravagant.

TUNNEL BERING STRAITS

GREAT UNDERTAKING PROPOSED BY AMERICAN ENGINEERS

RUSSIAN GOVERNMENT IS FAVORABLE TO THE PROJECT.

Berlin, July 9.—According to a despatch from St. Petersburg, the American syndicate of civil engineers, of which Loleq Lobel is president, has almost succeeded in arranging with the Russian government for the construction of a tunnel under the Behring strait, connecting Siberia with Alaska.

This tunnel will be of immense commercial importance. If one looks at the map of Asia and draws a line from Irkutsk to Wierschinickotymk, the capital on the eastern shore of the Behring strait, and from there to Nome, on the opposite side of the strait in Alaska, one has the route of the suggested line.

The American engineers state that the railroad through Russian territory can be built for 1,250,000,000 francs, and they have laid before the czar detailed plans for a tunnel under the strait, which is 61 kilometers wide and about 50 metres deep. The tunnel is to consist of three sections, each of 20 kilometers in length and this is made possible because of two small islands which are situated in the strait.

The syndicate has promised to turn over the tunnel to Russian government without any remuneration. It does not ask for any interest on the capital which it intends to invest and which amounts to about $10,000,000 a year, and will even bind itself to order from Russian steel manufacturers structural steel amounting to the value of 300,000,000 francs, and to give employment only to Russian laborers and mechanics during the construction. All that the syndicates asks in return is a ninety-year franchise, so the Russian government shall be able to buy them out at the end of 30 years.

The syndicate furthemore promises to build a phone line all the way through Siberia which is to be controlled by the Russian government, and to found a large Siberian bank for the purpose of advancing money to colonists willing to take up land in the district through which the road will run.

In return for this it asks to be granted a strip of land on each side of the road 12 kilometers wide.

The plan has the endorsement of the former minister of railroads, prince Chilkof, the inspector general of the railroads, Gorozakow; and former minister of agriculaure Jeremolow, and the czar is expected to affix his signature to the document granting the franchise and the privileges asked for by the American syndicate before leaving on his cruise in the Baltic.

TORONTO MAN DEFAULTS

PERTH FIRM INVOLVED TO TUNE OF $50,000.

HARRY W. BRICK DEPARTS FOR PARTS UNKNOWN.

Toronto, July 9.—Harry W. Brick, a working chemist in the employ of Henry W. Wampole & Co., of Perth, has disappeared with defalcations said to amount to between $40,000 and $50,000.

Brick was formerly a Toronto man, but upon the removal of his employers' factory to Perth last winter, he made the latter place his home. He came to Toronto on Saturday, June 30, leaving here Monday, July 2, for an unknown destination.

The firm states the money will be paid.

ENGAGED ON LONG WALK

TO COVER 30,000 MILES IN THREE AND A HALF YEARS.

LONG DISTANCE PEDESTRIAN NOW IN VICTORIA.

Victoria, July 9.—Nicholas George, a Greek, who started from Budapest a year ago, to walk 30,000 miles in Europe, Africa and America within three years and a half for a wager, is in Victoria, having arrived from South Africa via Australia. He will leaves for San Francisco on Wednesday by steamer to walk from San Francisco to New York. George has a book with signatures of consuls, etc., secured when walking in Europe and Egypt, and tells of walking from Cairo to Cape Town, through the central African deserts, encountering many adventures in route.

FINDS ANOTHER ROSTAID

Sarah Bernhardt Listens to Unknown Poet's Play.

Paris, July 9.—Sarah Bernhardt, with a pocketful of money, and a heart full of charming recollections, has brought back an "enthusiasm for that dear America" and has gone to her country home on the coast of Britnay to give it vent and to recuperate her strength by running barefoot over the rocks.

Her first act on her return was characteristic. She consented to receive a young unknown poet and listen to a play of his. The favor from a woman so pursued by literary fiends was beyond comprehension. Rene Fraudet, the poet in question, was fully aware of this, and, wholly confident of his play, was in no mind to lose one jot of the opportunity. Sarah believed she could dismiss him after the first act, but his fire was irrepressible. He was not to be put off. Wearied from a long day's manifold undertakings, she found herself becoming engrossed. But if the first act held her, the second fascinated her. She urged him on, and at the close the pair wept and embraced each other, and Bernhardt declared she had found another Rostand.

RIVALS CHICAGO.

Berlin, uly 9.—A despatch to the Tageblatt from Duisberg, Prussia, today announced that the customs authorities of Duisberg, as the result of the discovery that inferior Russian meat was being shipped across the frontier into Germany, seized a consignment, which proved to be the carcasses of unborn calves, which a witness testified that a number of large firms were regularly importing.

STRIKE AT LUNDBRECK MINES

(Special to The Daily News)

Fernie, July 9.—Word has been received that the men have gone out on strike at the Lundbreck mines. They claim the ventilation in the mines at that place is bad, and the safety lamps in use faulty. Several miners have been seriously burned during the last few weeks and on that account the men decline to go to work till this is remedied.

GENEROUS COLLECTOR.

Grimsby Park, Ont., July 9.—Over $8000 was taken in in cash and subscriptions at a meeting of the Christian mission here yesterday afternoon. It followed an address by Rev. A. B. Simpson, of New York, who appealed for funds to carry on the work of the mission. This is the largest sum collected by any Canadian alliance.

CHEAP FARES FOR EMIGRANTS

Bremen, July 9 — The North German Lloyd Steamship company today reduced the steerage rate to New York $2.50.

Hamburg, July 9—The reduction in emigrant passage rates announced by the North German Lloyd Steamship company is that company's answer to the Hamburg-American lines' cut of the same amount last week. The situation begins to look like a rate war between the lines.

REFUSE U.S. CANNED MEAT

British Blue Jackets Not Anxious to Contract Tuberculosis

Orders Issued That Hereafter Australian or N. Argentine Meat Shall be Supplied--Boost for New Zealand Products

London, July 9.—As a result of the refusal of one of the ships of the British Atlantic fleet to take on American tinned meats during the recent naval manoeuvres, the admiralty directs that ships companies be supplied with Australian or Argentine brands in lieu of American. The remainder of the supply of American tinned meats now on hand is being returned to the victualling yards and no longer will be a compulsory ration for the navy.

Winston Churchill, under secretary for the colonies, in an official communication to William Redmond, nationalist member of parliament for the east division of Clare, says he is informed that special care is exercised by the New South Wales government that only absolutely healthy beeves are slaughtered for food, and that every precaution is taken at freezing, and canning work to insure a cleanly method.

Where any breach of the regulations regarding cleanliness is proven, the license is immediately withdrawn. A person slaughtering a diseased beast is liable to imprisonment for two years and the seller of diseased meat is liable to imprisonment for a longer term.

Government inspectors report weekly. Twelve hours' notice must be given of intention to slaughter and where no such notice is given a penalty of $25 a head may be imposed.

ALIENISTS WILL SWEAR TO IT

Harry K. Thaw Was Temporarily Insane When He Killed White

New York, July 9—That Harry K. Thaw was temporarily insane when Stanford White is the defense will be settled upon by the prisoner's lawyers, after Dr. Allen McLane Hamilton had reported to former judge Olcott of Thaw's counsel, the results of his long and searching examination of Thaw on three occasions in the Tombs prison.

Emotional insanity will be the prop of the defense. This means that while Thaw is now sane he was temporarily out of his mind when he slew White. Five eminent alienists, each renowned all over the country, have been summoned by the Thaw interests to sustain Dr. Hamilton's contentions as to Thaw's state of mind when he killed White.

PREHISTORIC REMAINS

Latest Discovery on a Farm in New York State

Syracuse, July 9—A special to the Post Standard from Watertown says: In the vicinity of Redman, in this county, they are digging up the remains of a prehistoric people. Within a few days 18 skeletons have been unearthed on the farm of Homer J. Heath.

H. R. Harrington, field archeologist for the Peabody museum of Harvard university, has been directing the examination work in a hillside pasture. The bones will be placed in a museum.

BIG LOAN PLACED IN PARIS

Between Twenty-Five and Fifty Millions for American Railroads

New York, July 9—Negotiations for an important American railway loan by a number of French capitalists were concluded today in Paris. No details of the loan have been obtainable so far, but it is generally understood that the loan is for the Chicago, Milwaukee & St. Paul. The sum is variously estimated at from 25 to 50 million dollars.

FERNIE HAPPENINGS

(Special to The Daily News)

Fernie, July 7—The funeral of the late Duncan McKay who died on Friday after a two days' illness, took place at 4 o'clock Sunday afternoon from the undertaking parlors of Scott & Ross, to the Fernie cemetery, and was largely attended by the friends of the deceased. Rev. Mr. Grant of the Presbyterian church officiated.

Rev. E. P. Flewellyn, rector of the Anglican church, Cranbrook, very acceptably occupied the pulpit at both services in Christ church yesterday.

The Fernie football team was defeated in a game played at Coal Creek on Saturday evening, the score being Coal Creek, 3; Fernie, 1.

The league football game between Michel and Coleman, which was played on the grounds of the former club, resulted in a tie. Score, Michel, 1; Coleman, 1.

A garden party and ice cream social will be given on the beautiful grounds surrounding the home of H. W. Herchmer, on Tuesday evening, July 24, the proceeds of which will be donated to the Roman Catholic church.

ROYAL FEASTINGS

Trondhjem, July 9—Emperor William and king Haakon lunched today at the mountain hotel of Fjeldsaeter, returning to the palace for tea.

King Haakon tonight dined on board the Hamburg. Emperor will sail northward tomorrow, the Norwegian royal family southward.

BANDS OF ADVENTURERS.

Local apologists for the Kaien island land deal tell us that the band of adventurers connected with that transaction were actuated by the same motives that actuate "the band of adventurers who publish The Daily News," they looked upon their negotiations as "a business proposition first, last and always."

We may pass up the reference to the individual who publishes The Daily News as "a band of adventurers" and proceed to consider the comparison.

It is probably correct to describe the publication of a daily morning paper in Nelson as in the nature of an adventure. The publisher has certainly found it attended with a good deal of financial worry and anxiety, and not a little excitement, and the outcome of the venture is still problematical.

But in these respects the publication of The Daily News differs from no other ordinary business undertaking.

The Daily News has no exclusive privileges, has no cinch upon the public, or upon any individual, corporation or government. It cannot compel the public to become subscribers, neither can it force business men to use its advertising columns. The adventurer publishing this paper, he hardly feels justified in referring to himself as a "band of adventurers," has risked his money and time in the venture. If he can publish a paper that the people will read the businessmen who look to these people to purchase their wares will advertise in his paper. In no other way can this venture prove a profitable undertaking. A paper must be published acceptable to a sufficient number of people in southern British Columbia to induce business men to use its advertising columns as a medium for reaching those people. Consequently The Daily News is absolutely dependent upon the public for its existence. If, as a newspaper, it does not meet with the favor of the public it will not hold the circulation upon which advertising values are based and it will have to cease publication. It is clear, therefore, that no matter what the motives of the adventurer publishing this paper may be he has got to give what the public consider value or suffer the loss of his investment and the time devoted to building up the business.

Is the Kaien island land deal on a similar basis?

In the first place Messrs. Bodwell, Larsen and Anderson risked no money and devoted only such time to the transaction as was necessary to secure from the McBride government what amounted to a cinch upon the Grand Trunk Pacific Railway company, and we know from the sworn evidence of premier McBride, chief commissioner Green, ex-attorney general Wilson and present attorney general Fulton, that this was disposed of in comparatively short order. Having been accorded special privileges, having been placed in a position to negotiate the sale of public lands in which they had no more legitimate interest than any of the readers of this paper, for instance, they were enabled to carry out their adventure successfully; that is to say Mr. Bodwell was able to get the ear of the Grand Trunk Pacific Railway company with a view to future retainers or a solicitorship, his client Larsen was enabled to approach the company on a friendly basis with a view to construction contracts and Mr. Bodwell's other client, Anderson, was enabled to deposit to his credit in the bank several thousand dollars and to secure from the company a promise to pay an additional sum of $40,000.

It is perfectly obvious that this "band of adventurers" would have been unable to do any of these things without the connivance of the McBride government. Kaien island was public property, it was held under a reserve and no one could acquire any right to dispose of it without the permission of the government of the day. It may fairly be advanced that it was good business on the part of Messrs. Bodwell, Larsen and Anderson to seek to make easy money, or its equivalent, by such a transaction, and if it be conceded that it is good business to take advantage of the weakness or the incapacity of a government to enrich oneself at the expense of the public, then Messrs. Bodwell, Larsen and Anderson must be absolved from all blame in the matter. But the government that through weakness, inability to resist the persuasions of real estate speculators, or incapacity, inability to negotiate the sale of public lands direct, cannot be held blameless and will not be so held by the great bulk of the electorate of this province.

The government of British Columbia, in one way and another, purchase a large quantity of supplies. If the government of the day would enter into an agreement with the adventurer who publishes The Daily News to purchase only such goods and from such firms as he suggests, so that he could compel firms desiring to sell goods to the government to advertise in his columns at his rates, then there might be some justification for the comparison instituted between the morality of the Kaien island deal and the publication of The Daily News.

EDITORIAL NOTES.

The anti-usury bill as passed by the house of commons limits to twelve per cent the rate of interest chargeable on loans not exceeding $500. After judgment has been obtained in court on such a debt the interest must be cut down to 5 per cent. The Toronto News thinks that this measure should afford protection to an unfortunate class of borrowers who have heretofore been robbed right and left by the money sharks. No act of parliament would wholly abolish the evil, but the new legislation puts a lever in the borrower's hands. If the lender is charging him more than 12 per cent, all he has to do is to go to court and have the rate reduced to 5 per cent. This danger constantly suspended over the usurer's head may incline him to keep within the legal limit.

It is advanced by way of glossing over the Kaien island deal that the McBride government reserved each quarter section of the land so that the province will share in any rise in values by reason of railroad construction. This statement is misleading. By the statute law of the province, enacted before the Kaien island deal was contemplated, it was provided that in all subsequent townsite sales one quarter of the land should be reserved for the province. It is further stated in palliation of this deal that the government made provision for the reservation of each fourth thousand feet of foreshore. The fact of the matter is that this provision reads that the foreshore lands shall be divided into blocks of not less than 1,000 feet, consequently the company might divide it into blocks of one mile each and the government foreshore lands would be practically "frozen out" of participation in wharfage and railway terminal facilities.

The Victoria Colonist takes the position that a sufficient answer to all opposition criticism of the McBride government is to be found in the fact that finance minister Tatlow is able to declare a surplus. If the securing of a surplus be an achievement of so great merit, why is it that the Colonist and other provincial conservative papers, that follow its lead, do not enthuse over the brilliant series of surpluses secured by federal finance minister Fielding? It is admitted that provincial finance minister Tatlow has secured his surplus by increasing taxation and decreasing expenditures on public works; in fact the suggestion is ridiculed that a surplus could be obtained in any other way. Now then if finance minister Tatlow be entitled to great credit for his achievement, why is it that these conservative papers do not hasten to eulogise finance minister Fielding? Mr. Fielding has secured splendid surpluses in face of decreased taxation and increased expenditures on public works. He has, in effect, accomplished what one sapient tory sheet declares to be impossible. Prior to 1896 we all know that deficits were the rule at Ottawa. Since Fielding took charge of the finances there has been a complete change and now surpluses are the rule. Since 1896 the tariff has been materially reduced, thereby reducing the indirect taxation of the people, and yet Mr. Fielding has provided for larger expenditures on public works than were ever before known in Canada. The Colonist should be consistent and when tempted to criticise the liberal administration at Ottawa it should recall the fact that there was a surplus last year and withhold its unkind remarks.

A fruit grower, resident not a great distance from Nelson, whose name we are not at liberty to publish, has this season cleared $3500 from a three and one-fifth acres patch of strawberries. The crop was below the average owing to the frosts in the early spring. The demand for strawberries is far in excess of the present capabilities of Kootenay fruit growers to supply and no field of enterprise offers more profitable returns and, generally speaking, more pleasing conditions of labor, than the cultivation of fruit..

KUSKANOOK'S FIRST TRIP.

Pleasurable Run to Procter, Pilot Bay and Ainsworth and Back.

The new C. P. R. steamer Kuskanook carried its first load of passengers on Sunday afternoon when some 300 persons enjoyed a trip up the arm to Procter, where a brief stop was made, then a fine sail across Kotenay lake to Pilot Bay was taken and the steamer headed north skirting the eastern shore as far as the Blue Bell mine, where the boat re-crossed the lake to the western shore and passing Ainsworth made for Procter once more and then came on to Nelson.

The steamer got fairly started about 2.10 and reached Procter in an hour and twnety minutes. On the run home from Procter the engineer let her "go" a little giving those on board some idea of the boat's real speed. The 21 mile run in was made in about an hour and 10 minutes notwithstanding that the steamer slowed down a good deal after making a spurt or two, and generally was running under very easy steam. During the four hours and twenty minutes which the trip occupied, the steamer covered 70 miles.

Notwithstanding the number on board there was plenty of room for every one, though a smaller boat would have been uncomfortably crowded. The city band accompanied the excursion and played several selections very acceptably during the afternoon. The day was an ideal one for the trip and the shower which drenched Nelson during the afternoon was not encountered by the steamer. There was just a pleasant breeze all during the trip, making it delightfully cool. Everyone on board was in high good humor when port was reached at 6.15, and it is hoped that the Sunday excursion can be repeated before the steamer goes on her regular route.

MINING RECORDS.

At the mining recorder's office on July 9th two transfers, 14 certificates of assessment work and six claims were put on record.

A transfer was recorded from John Waldbeser conveying the Lone Star mineral claim on the divide between Lost and Sheep creeks to P. Burk of Waneta, consideration $1. A transfer was recorded from O. K. Ogelvie of the state of Washington to J. R. Williams, of an undivided half interest in the Hot Day mineral claim, situate at the head of Burnt creek, consideration nominal.

Certificates of work were issued to M. Egan on the No. 2 to Wm. Allen on the Dollie Varden and Zulu King, to J. and J. Perkins on the Selma and the Pelton, to J. R. Williams on the Hat Day, to John Helm on the Maggie, to H. Nixon on the Waverley, to Janet Stewart on the Iron Cliff, to Sam Thomas on the Wendigo and the Rhoderick Dhue, to August Johnson on the Josephine, to M. S. Davys on the Stillwater, and to the Active Gold Mining Co. on the Admiral Mayer and the Bernard.

Kate D. Green recorded the Surprise No. 2 on Craig mountain; C. E. Wilson and J. Bernard recorded the Scerro Verde an Salmon river; Thomas Brown recorded the Black Prince on the Kootenay river; E. Ballinger and Kate McEvoy recorded the Wolverine near the head of Whiskey creek; A. L. Stewart recorded the Silver Bell on Rover creek; J. F. McMillan and A. Matheson recorded the Crown on Goat river.

A Few Things for Summer Wear

Perhaps you have forgotten to purchase your summer belt, or some dainty underwear or some little thing that did not occur to you when you were in the store yesterday.

DAINTY UNDERWEAR—What woman doesn't like all here underwear to be dainty? What true woman doesn't like ribbons and laces and ruffles, even though they be out of sight. We have some dainty underwear—just the thing for the summer time. The ladies should come in and examine them as they will delight every female heart in Nelson.

BELTS—All dry-goods houses carry belts of course, but all houses do not carry the assortment that we do. We can sell you belts in almost any color with plain or fancy buckles. The prices vary according to the quality of the belt but they are all excellent value.

CUSHION-COVERS, DAINTY HANDKERCHIEFS, and hosts of other things to delight the ladies. We take great pleasure in showing our goods and invite your inspection.

C. P. R. AGAIN IN THE LEAD

Made Greater Gain in Earnings Than any Other Road

Many railroads close their fiscal year on June 30, and of those that did the Canadian Pacific takes the lead with an increase of no less than 21 per cent.

The Hill system is next with 15 per cent and Atchison and Baltimore & Ohio tie at 14 per cent. Here are the results for the year:

	1906	Gain	p.c.
C. P. R.	$61,5.00,000	$11,618,115	21.3
Atchison	78,300,000	9,924,115	14.5
*Hill System	196,500,000	25,300,000	15.7
St. Paul	55,500,000	5,615,886	11.3
L. & N.	41,750,000	3,232,929	8.4
B. & O.	77,250,000	9,500,000	14.0
South. Ry.	54,000,000	5,854,862	10.0
Erie	50,300,000	4,575,263	10.0
**Harriman	162,000,000	14,000,000	10.0
Total	$766,100,000	$89,081,204	13.0

*C. B. & Q., Great Northern and Northern Pacific.

**Union Pacific and Southern Pacific.

Coupled with this gain in gross business there has been one of the mildest winters in recent years so that as a rule gains in the surpluses for dividends have been relatively much larger than the gains in gross earnings.

Minard's Liniment Cures Colds, etc.

MODEST CLAIMS OFTEN CARRY THE MOST CONVICTION

When Maxim, the famous gun inventor, placed his gun before a committee of judges, he stated its carrying power to be much below what he felt sure the gun would accomplish. The result of the trial was therefore a great surprise, instead of a disappointment. It is the same with the manufacturers of Chamberlain's Colic, Cholera and Diarrhoea Remedy. They do not publicly boast of all this remedy will do, but prefer to let the users of it make the statements. What they do claim is that it will positively cure diarrhoea, dysentery, pains in the stomach and bowels and has never been known to fail. For sale by all druggists and dealers.

CAUSED BY HOT SPELL

Ranchers and Their Troubles Gently Dealt With by the Court

J. A. Kelley and C. W. Bourke, two well known local ranchers aired their differences before stipendiary magistrate Crease yesterday morning in the court house, when the former charged the latter with assaulting him.

R. S. Lennie appeared for Mr. Kelley and R. W. Hannington for Mr. Bourke. Mr. Kelley entered the box and told his story and then the magistrate took hold of the case. The trouble, he said, was evidently brought about by the hot weather, when people found it difficult to keep their tempers all the time. The matter was really not one for the court to adjust, and he was satisfied the two men and their lawyers could settle the affair between them much better than any one else. He suggested that a written agreement should be entered into to prevent future misunderstandings. The idea was favorably received and in a short time a treaty was drawn up and signed, and the case dismissed by the court.

Minard's Liniment Cures Diphtheria

SAVED HIS COMRADE'S LIFE

"While returning from the Grand Army encampment at Washington City, a comrade from Elgin, Ill., was taken with cholera morbus and was in a critical condition," says J. E. Houghland of Alden, Iowa. "I gave him Chamberlain's Colic, Cholera and Diarrhoea Remedy and believe saved his life. I have been engaged for ten years in immigration work and conducted many parties through the south and west. I always carry this remedy and have used it successfully on many occasions. For sale by all druggists and dealers.

AVERAGE WAS $7.12 AN ACRE

The Hudson Bay company's land sales for the year ending March 31 last comprise 226,198 acres for $1,611,627, an average of $7.12 per acre, compared with 114,298 acres for $705,690, an average of $6.17 per acre for the year preceding. The sales of town lots amount to $342,317, compared with $122,712 for the previous year. The total sales in the land department amount to £401,495, as compared with £170,219, and the receipts to £297,000, compared with £335,740 last year.

BOWEL COMPLAINT IN CHILDREN

During the summer months children are subject to disorders of the bowels which should receive careful attention as soon as the first unnatural looseness of the bowels appears. The best medicine in use for bowel complaint is Chamberlain's Colic, Cholera and Diarrhoea Remedy, as it very promptly controls any unnatural looseness of the bowels. For sale by all druggists and dealers.

NEW WHITE LEAD PROCESS

The new English process of making white lead by precipitation is being adopted in Canada. A 5-ton plant will be in operation near Toronto in a few weeks by a company for whom machinery and appliances for a 50-ton plant are being made.

Sunlight Soap is better than other soaps, but is best when used in the Sunlight way.

To appreciate the simplicity and ease of washing with Sunlight Soap in the Sunlight way you should follow directions.

After rubbing on the soap, roll up each piece, immerse in the water, and go away.

Sunlight Soap

will do its work in thirty to sixty minutes. Your clothes will be cleaner and whiter than if washed in the old-fashioned way with boiler and hard rubbing. Equally good with hard or soft water.

Lever Brothers Limited, Toronto 153

A DOLLAR PER MONTH FOR SHOES.

THAT is about all it should cost you!

But—it depends upon the Sole leather in the shoe as to what it actually does cost you.

Some shoe Soles wear only forty days.

Others wear one hundred and forty days.

Some shoe Soles soak water through to your feet in less than one hour's walking.

One other kind—"Quick-Oak" Soles—can't be soaked through in less than four hours steeping in a basin of water.

How are you to know which kind of Sole leather you are getting in shoes.

Well,—the Slater Shoe Company control the new process "Quick-Oak" brand of Sole leather for Canada.

You may test this leather in a basin of water, and prove what is claimed for it.

It is the toughest, close-textured, wire-fibred and most water-resisting Sole leather ever tanned.

It is used in genuine Slater Shoes, and in no other shoes.

If you find the slate-frame trade-mark of "The Slater Shoe" woven on the lining of the shoe top, with the retail price ($4.00 or $5.00) you'll know positively that you are then getting "Quick-Oak" Sole leather, and the most reliable shoemaking in America.

"Quick-Oak Soles" have been worn *nine months* continuously on actual test.

LORD'S DAY OBSERVANCE

BILL PASSES THIRD READING IN THE COMMONS

LIST OF EXCEPTIONS NOW INCLUDED IN MEASURE

The Sunday Observance bill has passed its third reading in the commons and has been sent up to the senate.

There was a lively conflict before the bill got a third reading, necessitating an all night session.

Mr. Martin (North Wellington) moved an amendment to prevent golf, cricket, and all ball games by club members, where an annual fee is charged. Mr. Bourassa said if the working man was to be deprived of his enjoyment, swells should also be forbidden to go to clubs and play and drink all they liked. Mr. Taylor (Leeds) spoke strongly in favor of the amendment.

Col. Hughes moved an amendment which was lost and Mr. Martin's amendment was carried by 53 to 42. The government as a body voted against the amendment. Mr. Monk introduced an amendment to permit of the operation of the Montreal Park and Island railway, which has a dominion charter. He proposed to effect this by including suburban as well as interprovincial railways. Mr. Bourassa moved an amendment to make it unlawful for any person on the Lord's day to use as a beverage any alcoholic liquors on railway train cars, steamboats or public places. He claimed that the use of liquors in this manner was one of the worst ways in which the Sabbath was disturbed.

The amendment was defeated by 62 to 4..

The amendment of Mr. Pringle to permit freight trains to run through to their destination on Sunday was rejected. The bill was then reported. Mr. Aylesworth moved to refer the measure back to the committee to strike out the clause prohibiting Sunday golf, cricket, etc. A spirited debate followed but eventually the motion carried by 74 to 42. Five liberals Guthrie, Martin, Bourassa, Lavergne and Kennedy (Westminster) voted with the minority, while three conservatives, Monk, Perley and Pauquet with the majority. In committee the clause was struck out by 80 to 38. Once more the measure was reported and Bourassa, after a vigorous speech, moved that the bill should not take effect in any province till the legislature of such province had so enacted.

Mr. Bourassa's amendment was defeated at 2:30 a.m. by a vote of 104 to 15. Mr. Monk then moved that while recognizing the sanctity of the Lord's day and necessity of securing its proper observance by appropriate legislation, the house was of the opinion that the question should be left at present to the various provinces of the dominion and that the order for the third reading be discharged in consequence but this amendment was defeated by 102 to 15. The minority were Messrs. Bourassa, Lavergne, Bergeron, Hughes ,Taylor, Fowler, Seagram, Leonard, Monk, Morin, Porter, Paquet, Walsh, Verville and Beauparlant. Mr. Borden then moved an amendment forbidding Sunday games for gain or reward and exempting Sunday religious services from the operation of the act. This was defeated by 97 to 39 and the bill then at 4:25 was read a third time and sent to the senate.

So many changes and amendments were made to the bill in its passage through the house that the publication hereunder of the amended list of exemptions will be of interest. It will be noted that the exemptions have grown appreciably. The bill, if adopted by the senate, is not to come into effect until March 1, 1907. The exemptions now are as follows:

(a) Any necessary or customary work in connection with divine worship.

(b) Work for the relief of sickness and suffering, including the sale of drugs, medicines and surgical appliances by retail.

(c) Receiving, transmitting or delivering telegraph or telephone messages.

(d) Starting or maintaining fires, making repairs to furnaces and repairs in case of emergency, and doing any other work when such fires, repairs or work are essential to any industry or industrial process of such a continuous nature that it cannot be stopped without serious injury to such industry or its product or to the plant or property used in such process.

(e) Starting or maintaining fires, and ventilating, pumping out, and inspecting mines, when any such work is essential to the protection of property, life or health

(f) Any work, without the doing of which on the Lord's day, electric current, light, heat, cold air, water or gas cannot be continuously supplied for lawful purposes.

(g) The conveying of travellers and work incidental thereto.

(h) The continuance to their destination of trains and vessels in transit when the Lord's day begins.

(i) Loading and unloading merchandise, at intermediate points, on or from passenger boats or passenger trains.

(j) Keeping railway tracks clear of snow or ice, making repairs in case of emergency, or doing any other work of a like nature, without the doing of which on the Lord's day, the traffic on any transportation line cannot be safely carried on.

(k) Work before six o'clock in the forenoon and after eight o'clock in the afternoon of yard crews in handling cars in railway yards.

(l) Loading, unloading and operating any ocean going vessel which otherwise would be unduly delayed after her scheduled date of sailing, or any vessel which otherwise would be in imminent danger of being stopped by the closing of navigation; or loading or unloading before seven o'clock in the morning or after eight o'clock in the afternoon any grain, coal or ore carrying vessel after the fifteenth of September.

(m) The carrying of milk, cheese and live animals, and the caring for perishable products arriving at any point on the Lord's day.

(n) The operation of any ferry or boat, authorized by competent authority to carry passengers on the Lord's Day.

(o) The hiring of horses and carriages or small boats for the personal use of the hirer or his family for any purpose not prohibited by this act.

(p) Any unavoidable work after six o'clock in the afternoon of the Lord's day in the preparation of the regular Monday morning edition of a daily newspaper.

(q) The conveying His Majesty's mails and work incidental thereto.

(r) The delivery of milk for domestic use and the work of domestic servants and coachmen.

(s) The operation by any Canadian electric street railway company, whose lines are interprovincial or international, of its cars, for passenger traffic, on the Lord's day on any line or branch now regularly so operated.

(t) Work by any person in the public service of his majesty, while acting therein under anw regulation or direction of any department of the government.

(u) Any unavoidable work by fishermen after six o'clock in the afternoon of the Lord's day in the taking of fish.

(v) All operations connected with the making of maple syrup and maple sugar in the maple grove.

(w) Any work which the board of railway commissioners for Canada, having regard to the object of this act, deem necessary to permit in connection with the freight traffic of any railway. The costs of all persons of applications to the board under this paragraph shall be borne by *the applicant, and if more than one,* equally. Notice of application, in which the reasons to be relied on shall be fully set out, shall be given to the perartment of railways and canals. In all other respects the procedure under the Railway Act, 1903, shall, so far as applicable, apply.

Except in cases of emergency, it shall not be lawful for any person to permit any employee engaged in the work of some industrial process or in connection with transportation, to do on the Lord's day the usual work of his ordinary calling, unless such employee is given during the next six days of such week, twenty-four consecutive hours without labor.

It is also provided that "no action or prosecution for a violation of this act shall be commenced after the expiration of 30 days from the time of the commission of the alleged offence."

Help for the Kidneys Through Gin Pills.

A GUARANTEED CURE.

Read this letter. Read it twice. You have never heard such good news before—if your kidneys are sick. It tells how to be free of pain—how to have all your old-time health and vigor.

"I have been for years a sufferer with pain in the back and across the kidneys. There was scarcely a minute, day or night, that I was free of pain, and when I attempted to pass urine, the pain was almost unbearable. A friend of mine in Portage la Prairie, who was similarly afflicted, strongly advised me to try Gin Pills, as they had cured him. I bought a box of Gin Pills, and in less than a week, to my great delight, found myself without pain. I have had to go as often as every 20 minutes to urinate and several times during the night. Since taking Gin Pills, I sleep through the entire night and am not more than ordinarily inconvenienced during the day. I can earnestly recommend Gin Pills to anyone suffering from pain in the back, kidneys or bladder.

Mr. G. O. C. GOWLER, Portage la Prairie."

Your druggist has Gin Pills, or will get them for you. 50c box—6 for $2.50.

If you will send us your name and address and tell us the paper in which you have read this we send you a trial box of Gin Pills absolutely free. You will get such relief that you will gladly continue the treatment until cured. Do it to-day—now—and start to cure yourself.

A Great Heat Radiator

"Sunshine" furnaces have a large, heavy sheet-steel dome and radiator, with a wide space between them for the circulation of air.

This gives an immense radiating surface, and means that every atom of heat from the fire is used for heating purposes, and forced through hot-air pipes into the house.

If you need a furnace, you should examine the "Sunshine"—it will save you untold expense, worry and work.

Sold by enterprising dealers everywhere—booklet free.

WHERE CANADIANS LEAD

OCCUPY FOREMOST POSITIONS IN UNITED STATES.

OVER MILLION OF OUR PEOPLE ON AMERICAN SIDE.

To the Political Science Quarterly, S. Morley Wickett, of Toronto, contributes a statistical article on Canadians in the United States. Time was when this subject was a painful one to us. Canada felt somewhat ashamed of the fact that so many of her sons had chosen to go abroad, and contribute to the prosperity of a rival, though friendly, nation. Now that the tide has turned and these expatriated Canadians are flocking home by the thousands, bringing with them Americans who are to become valuable Candian citizens, we can afford to be interested in the figures Mr. Wickett presents.

In 1900 there were 1,181,255 Canadians in the United States, rather more than 11 per cent of the total foreign-born population. More than 750,000 were of English stock, the remainder being of French extraction. Figuring on a probable 450,000 children being born to these Canadians, the total becomes almost a million and three quarters. Of American children who have one Canadian parent there are 813,350 more, but these are not claimed for Canada. Mr. Wickett calculates a grand loss of 2,200,000 citizens to Canada, represented by $1,650,000,000 in real money. The Canadian census of 1901 shows 127,899 American-born citizens living here, whose value must be deducted from the bill Canada has against the United States. This leaves almost $1,500,000,000 to be collected, by arbitration or arms, whichever the Americans may choose.

The article goes on to locate the Canadians, most of whom are to be found in the New England states. This is especially true of the French-Canadian-Americans, 77 per cent, of whom live along the North Atlantic, three-fourths of the number being found in seven eastern manufacturing cities. This holds good, to a lesser degree, of the English-Canadians, although there are just about as many of them in the northern central states as in New England. More than half of the Canadian-Americans live in the country, and in the smaller towns, less than 40 per cent *living in the 160 largest cities.* Nevertheless Boston has 65,000, Chicago 55,000, Detroit 45,000, and Buffalo 30,000 citizens of pure Canadian stock.

Mr. Wickett gives nine reasons why the Canadians who go to seek their fortunes in the United States enjoy high reputations. Everyone of them is good, and all might be summed up in a tenth reason, which he fails to mention—because they come from Canada. Their occupations are various, not fewer than 145,000 being generally classified as engaged in trade and transportation. There are only 781 journalists, although at the same time there were only 786 journalists in Canada. There were 2533 bartenders of Canadian club origin in the United States in 1891, and only 1553 left to minister to the wants of their fellow-countrymen in Canada. Of lawyers there were 1891; clergymen, 2000; wholesale merchants, 900; physicians, 3800; teachers and college professors, 13,000; literary and scientific people, 528.

"Who's Who" throws a good deal of light upon the careers of Canadians next door. It is interesting to find from it that the dominion has given to the United States two archbishops of the Roman Catholic church, six Protestant Episcopal bishops, and three Methodist Episcopal bishops. The archbishops are the most Rev. James E. Quigley, of Chicago, and the most Rev. Patrick Riordan, of San Francisco. Mgr. Quigley was born at Oshawa. Arichbishop Riordan comes from New Brunswick. The Protestant Episcopal prelates are bishop Niles of New Hampshire, a native of Hatley, Que.; Rt. Rev. Arthur Williams, of Owen Sound, coadjutor bishop of Nebraska; Rt. Rev. Charles P. Anderson, of Kemptville, coadjutor bishop of Chicago; Rt. Rev. Peter T. Rowe, of Toronto, a graduate of Trinity university, bishop of Alaska; bishop Scadding, of Oregon; and Rt. Rev. Chas. H. Brent of Newcastle, Ont., bishop of the Philippine islands. Among the Methodist Episcopal bishops are Rev. Charles E. Smith, of Colborne, Ont., now of Detroit; Rev. Charles Fowler, of Burmord township, now of Buffalo; and Rev. Frank W. Ware, missionary bishop to India. Other celebrities of Canadian origin are Rev. Francis E. Clarke, a native of Aylmer, Que., who founded the Christian Endeavor movement, and Rev. John E. Ferguson, of Lonsdale, Ont., who is president of the Nanking university, and has charge of the Central China mission.

Dr. Bell, the telephone inventor; Jas. J. Hill, and S. R. Calloway, the railroad men; president Schurman, of Cornell; Montague Chamberlain, the greatest of American ornithologists, are a few of the Canadians living in the United States, and a score of successful novelists might be mentioned. The Canadians in political life are numerous. One of them is United States senator J. H. Millard, formerly of Hamilton, now the representative of Nebraska at Washington. He has as a colleague Thomas Kearns, of Woodstock, Ont., who sits for Utah. In the house of representatives there are James T. McCleary, born at Ingersoll, a member from Minnesota; Philip P. Campbell, of Cape Breton, representing a district in Kansas; James A. Hughes, a native of Ontario, sitting for West Virginia, and Alfred Lucking, of Ingersoll, representing the first district of Michigan. The assistant postmoster general of the United States is Edwin C. Madden, formerly of Montreal. It is well for the national pride of the vents an alien from mbecoming president. There is no other way to keep some Canadian out of the position.

OPERATION AVOIDED

EXPERIENCE OF MISS MERKLEY

She Was Told That an Operation Was Inevitable. How She Escaped It.

When a physician tells a woman suffering with serious feminine trouble that an operation is necessary, the very thought of the knife and the operating table strikes terror to her heart, and *our hospitals are full of women coming* for just such operations.

There are cases where an operation is the only resource, but when one considers the great number of cases of menacing female troubles cured by Lydia E. Pinkham's Vegetable Compound after physicians have advised operations, no woman should submit to one without first trying the Vegetable Compound and writing Mrs. Pinkham, Lynn, Mass., for advice, which is free.

Miss Margret Merkley, of 275 Third Street, Milwaukee, Wis., writes:

Dear Mrs. Pinkham:

"Loss of strength, extreme nervousness, shooting pains through the pelvic organs, bearing-down pains and cramps compelled me to seek medical advice. The doctor, after making an examination said I had a female trouble and ulceration and advised an operation. To this I strongly objected and decided to try Lydia E. Pinkham's Vegetable Compound. The ulceration quickly healed, all the bad symptoms disappeared and I am once more strong, vigorous and well."

Female troubles are steadily on the increase among women. If the monthly periods are very painful, or too frequent and excessive—if you have pain or swelling low down in the left side, bearing-down pains, *don't neglect yourself:* try Lydia E. Pinkham's Vegetable Compound.

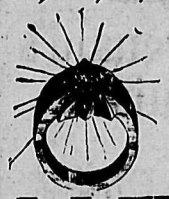
Diamonds and Precious Stones



Would you like to save money and at the same time maintain a prosperous appearance? If you would, buy diamonds. They are steadily advancing in price and a diamond is always as useful as its value in ready money. It does not depreciate in value. Call at Walker's and inspect the stock of diamonds and other precious stones. You can have them mounted to suit yourself and the price is as low as in any store on the coast. A diamond is a sign of prosperity. See that you get one.

HOT WEATHER SESSION

CITY COUNCIL'S REGULAR MEETING LAST EVENING

PLENTY OF ROUTINE BUSINESS WAS TRANSACTED

Notwithstanding the excessive heat last night the city council at its regular fortnightly meeting wrestled with many minor municipal problems, but no question of very great importance came up for discussion.

When the council came to order shortly after 8 o'clock, aldermen Kirkpatrick and Annable were the only absentees.

After the reading of the minutes of the previous meeting and the confirmation of the same, the report of the finance committee recommending the payment of $215.15 for electric lighting, etc., was approved.

The report of the fire, water and light committee recommending that the city main be extended to the Eagles plot at the cemetery and that all churches and societies be charged a water rental of $5 annually. The report was concurred in.

The improvements on Josephine and Hall streets which have been discussed at previous council meetings and which chiefly relate to new sidewalks, were agreed to upon motion of alderman Rose, seconded by alderman Selous.

Chief Deasy's report of his department for the month of June showed that there had been no fires and no alarms had been turned in. The change in the driver of the fire team, already reported, was touched on and the chief asked for new mattresses for the men's beds at the fire hall. On motion of alderman Irving the report was concurred in.

Ald. Selous asked that some repairs be made to the floor of the fire hall, principally in the horses' stalls and also that a telephone left in the house that the chief has moved into be retained for the chief's use. Mr. Selous also asked that a new hydrant be placed at the corner of Carbonate and Stanley streets. On motion of alderman Irving the three requests will be granted.

Ald. Selous brought up the question of water pressure and asked that the indicator now in possession of the city be properly installed. "We are living in a fool's paradise," said the alderman, "thinking that we have plenty of water, and we may wake up some day and find we are out of water. The indicator should be put up at the reservoir. At present the pipes may be full and the pressure look all right, while as a fact there might be no water in the reservoir at all. Ald. Rose seconded the motion which carried.

The mayor—How is the water Mr Munro?

Foreman Munro—There is plenty of water, but it was going down very rapidly.

Ald. Irving asked if it were necessary to shut off the whole of Baker street when there was a break in the water main, as occurred last week. He had heard many complaints about the matter.

Engineer McCulloch replied that there were no cutoffs in the main and consequently when a break occurred, all the street had to be cut off.

It was decided to ask the fire, water and light committee to report on the advisability of having valves put in.

George Horstead applied for leave to use space in street cars, inside over the windows for $15 a month. The council agreed to give Mr. Horstead the privilege asked for for the balance of the year, and to recommend the next council to continue the arrangement next year.

The council agreed to pay Dr. Arthur's coroner fee in connection with the McCuaig inquest held nearly two years ago. The matter in dispute was one of long standing and the provincial authorities declined to recognize any responsibility The city will now pay the account.

The city clerk read a letter from provincial superintendent of education Robinson addressed to Dr. Arthur, secretary of the Nelson school board, suggesting that in order to supply school facilities for children in Lot 182, just outside Nelson, the boundaries of the Nelson school district be enlarged so as to include this property and enable the city authorities to levy and collect rates from these people.

It was the sense of the council that the government could handle the matter much better and inexpensively than the city. Ald. Rose moved that the school trustees be informed that the school tax on the lands in question should be collected by the government and paid over to the city for the cost of education of the children in question.

Ald. Selous moved in amendment: That the secretary of the school board be informed that the city council has already refused to act on the suggestion of the superintendent of education and prefer to undertake the tuition of the children in Addition 182, the government paying a fair per capita.

Ald. Hume seconded the amendment, which was declared carried by the mayor after a tie vote of the aldermen.

The Kootenay Wire Works wrote complaining of the water pressure and asking when the council expected to be in a position to supply electric power for manufacturing purposes. The letter was filed.

The mayor—As to when we will have electric power, that is what I'd like to know myself. I have a letter stating that the hydraulic machinery will be shipped by August 1st. It can be installed I understand in about three weeks.

City engineer McCulloch reported that the water at the power site was going up rapidly and was higher now than it was at this time last year.

The city clerk was instructed to send a copy of the power bylaw, giving electric light rates, to the Kootenay Wire Works, and to say that it was hoped that by October the city would be in a position to supply electric power to manufacturers.

Ald. Rose asked when the city water main would be etxended to Nicolo Maglio's property on Hoover street. The matter had been before the council several times, said the alderman, but no progress was made.

The city engineer stated that the matter had not been brought to his notice by the fire, water and light committee. The water was wanted for garden purposes; no one was living on the property, there not being a house there at the present time. The city engineer will endeavor to arrange for a service.

Ald. Rose brought up the keeping of a lot of animals on Baker street, east. Many complaints had been made that the keeping of the animals in question had caused a lot of illness. The medical health officer reported that the place was clean and well kept and did not constitute a nuisance but this view was not borne out by many people who lived near the place in question. The matter was referred to the medical health officer to report at once to the council. The mayor said the matter would be looked after promptly.

The mayor reported that the old tramway, park had been cleaned up and further improvements would be made, including some new seats.

Ald. Selous asked if it would be of any use to ask the C.P.R. and Great Northern to run their steamers at half speed from one mile point to the city wharf. At present the waves thrown out by the steamers constituted a serious menace to those in small boats. He thought that there was every probability of there being a fatal accident here before long.

Ald Hume concurred and said if the attention of the steamboat authorities were called to the danger something might be done before some one was drowned. The Kuskanook's wave was a serious matter for all who went out boating when the big steamer was around. The mayor will consult with captain Gore and see what arrangement can be made.

The city engineer reported that the brick work at the power plant had been completed, otherwise he had nothing of importance to report.

The council will have a statement before it at its next meeting of all receipts and disbursements for the last six months.

The council then adjourned at 10:20 until Monday, July 23.

IN CHAMBERS

Three Motions Disposed of Yesterday Before Judge Forin

There was not much business doing in chambers yesterday, his honor Judge Forin merely disposing of three motions.

Gibson vs. Canadian Smelting company. Hall for plaintiff, applied for payment out of money in court. Order granted.

In the matter of Edith Week, an infant. Application for originating summons. O'Shea for applicant. Order granted.

In the matter of the estate of Kazmining Cizowski, deceased. Application for administration by S. P. Tuck, allowed.

City of Vernon, Oct. 16, civil and criminal.
City of Greenwood, Oct 16, civil and criminal.
City of Nanaimo, Oct. 18, civil and criminal.

THE SAN FRANCISCO HORROR

In these modern times there are inventions which are utilized for purposes undreamed of a few decades ago. The picture machines show realistic life motion pictures of happenings and in our own city we can see life like moving pictures of actual happenings and important events in distant places. The moving picture photographer, was particularly busy during the recent San Francisco disaster and it is from his work that we can get the best idea of the terrible calamity in the Golden Gate city last April. These pictures will be shown in Nelson for the first time at the Athabasca saloon tonight and Wednesday night. The admission is free and it goes without saying that there will be a large audience each night.

FRATERNAL INSURANCE

Now Being Investigates By Dominion Government Commission.

Toronto, July 9.—The dominion insurance commission resumed its sessions this morning in Toronto, and made its first inquiry into fraternal insurance. The Ancient Order of Foresters was selected as the first society to present details of its history to the commission.

William Williams, permanent secretary, gave evidence which was generally interesting as throwing light on the methods of fraternal assurance, but there were no revelations of improper transactions, such as were found in the history of some of the straight life companies.

FATAL RUNAWAY

London, Ont., July 9—Mrs. Alice Hoyt, of Westminster township, died yesterday in the Victoria hospital from injuries sustained in a runaway on Saturday afternoon, her horse having taken fright in passing another rig, and ran away, overturning the vehicle and throwing the occupant into a ditch.

BRITISH STEAMER WRECKED

Halifax, July 9 — The British steamer Harlyn from Trapani, bound to Gloucester, Mass., with a cargo of salt, was wrecked at Black point, Shelburne, yesterday. Captain Simmons and the crew of 19, landed safely in the ship's boats.

FINAL DIVIDEND

Toronto, July 9—The fifth and final dividend in connection with the Farmers' Loan & Savings company has been declared, and is payable at the office of the liquidator, Yonge street, Toronto, from Monday, July 16, to Thursday, July 19.

SAWMILL DESTROYED

Quebec, July 9 — Sampson & Renaud's sawmill at Petite Riviere, St. Francis, has been destroyed by fire together with a large stock of lumber and the output of the mills since last fall. The loss is about $20,000, with no insurance.

TO FLOAT THE BAVARIAN

Kingston, July 9—William Leslie of this city has been awarded a contract to float the Allan liner Bavarian, now on the rocks sixty miles below Quebec. He is sure he can accomplish the task.

SLAUGHTER OF ZULUS

Durban, Natal, July 9.—Natal troops have completely surrounded and defeated a rebel body in the Umvoti district. Seven hundred and forty-seven rebels were killed, and few escaped.

Sunlight Soap is better than other soaps, but is best when used in the Sunlight way. Buy Sunlight Soap and follow directions.

LOST—Child's purse, between Mill street and city wharf, containing $3.50 and one key. Return to Daily News office and receive reward. 67-1

ADMISSION FREE

NOTICE TO CONTRACTORS

TENDERS FOR RAILWAY TIES

SEALED TENDERS addressed to the undersigned, marked on the envelope "Tender for Ties, 1906," will be received at the office of the Commissioners of the Transcontinental Railway, at Ottawa, until 12 o'clock, noon, of the 12th day of July, 1906, for five hundred and thirty-five thousand (535,000) Railway Ties, in accordance with the specifications of the Commissioners.

SEALED TENDERS addressed to the undersigned, marked on the envelope "Tender for Ties, 1907," will also be received as above until twelve o'clock noon, of the 4th day of September, 1906, for one million and ten thousand (1,010,000) Railway Ties, in accordance with the specifications of the Commissioners.

Tenders must be made on the forms supplied by the Commissioners which, as well as the specifications, may be obtained on application to Hugh D. Lumsden, Chief Engineer, Ottawa, Ont.; to A. E. Doucet, District Engineer, Quebec, P.Q.; or to A. E. Hodgins, District Engineer, Kenora, Ont.

Full information in regard to deliveries required is given on form of tender.

Each tender must be signed and sealed by all the parties to the tender, and witnessed.

The successful tenderers will be required to sign a contract in form satisfactory to the commissioners, and to furnish an accepted cheque on a chartered bank of Canada, payable to the Commissioners of the Transcontinental Railway for a sum equal to ten per cent (10 p.c.) of the amount of the tender, as security for the due and faithful performance of the contract.

No tender for less than five thousand ties will be considered.

The right is reserved to reject any or all tenders.

By Order,
P. E. RYAN,
Secretary

The Commissioners of the
Transcontinental Railway,
Dated at Ottawa June 26th, 1906.

TENDERS FOR A LICENSE TO CUT TIMBER ON DOMINION LANDS IN THE PROVINCE OF BRITISH COLUMBIA.

SEALED TENDERS addressed to the Timber and Mines Branch, Department of the Interior, and marked on the envelope "Tender for Timber Berth No. 493," will be received at this department until noon on Wednesday, the 8th day of August, 1906, for a license to cut timber on Berth 493, comprising the South half and Northwest quarter of section 3, the northeast quarter of Section 4, the south half and the Northeast quarter of section 9, and the West half of Section 10, all east of the Columbia River, in Township 26, Range 21, West of the 5th Meridian, containing an area of 2.25 square miles, more or less.

The survey of this berth is to be made within one year of receipt of tenders.

The regulations under which a license will be issued, also printed forms of tender and envelope, may be obtained at this Department, or at the office of the Crown Timber Agent at New Westminster, B.C.

Each tender must be accompanied by an accepted cheque on a chartered bank in favor of the Deputy Minister of the Interior, for the amount of the bonus which the applicant is prepared to pay for a license.

No tender by telegraph will be entertained.

PERLEY G. KEYES,
Secretary.

Department of the Interior,
Ottawa, June 23rd, 1906.

WALKER HOUSE

GEO. WRIGHT & CO., Prop.
Late of Brandon and Winnipeg
T. M BAYNE, Manager

NOTICE

From and after this date the Recreation Grounds will be closed to the public. Those wishing to use them for practices, games or exhibitions, must first get permission to do so at the city offices.

Nelson, B.C., July 6, 1906.
W. G. GILLETT, Mayor.

TAKE NOTICE

That Kwong Sang Wing has no connection with the firm of Kwong Sang Wing & Co., and is not authorized to receive any monies for the said firm.

Synopsis of Regulations Governing the Disposal of Dominion Lands Within the Railway Belt in the Province of British Columbia.

A license to cut timber can be acquired only at public competition. A rental of $5 per square mile is charged for all timber berths, excepting those situated west of Yale, for which the rental is at the rate of 5 cents per acre per annum.

In addition to the rental, dues at the following rates are charged:

Sawn lumber, 50 cents per thousand feet B. M.

Railway ties, 8 and 9 feet long, 1 1-2 and 1 3-4 cents each.

Shingle bolts, 25 cents a cord.

All other products, 5 per cent. on the sales.

A license is issued so soon as a berth is granted, but in unsurveyed territory no timber can be cut on a berth until the licensee has made a survey thereof.

Permits to cut timber are also granted at public competition, except in the case of actual settlers, who require the timber for their own use.

Settlers and others may also obtain permits to cut up 100 cords of wood for sale without competition.

The dues payable under a permit are $1.50 per thousand feet B.M., for square timber and sawlogs of any wood except oak; from 1-2 to 1 1-2 cents per lineal foot for building logs; from 12 1-2 to 25 cents per cord for wood; 1 cent for fence posts; 3 cents for railway ties, and 50 cents per cord on shingle bolts.

Leases for grazing purposes are issued for a term of 21 years at a rental of 2 cents per acre per annum.

Coal lands may be purchased at $10 per acre for soft coal and $20 for anthracite. Not more than 320 acres may be acquired by one individual or company.

Royalty at the rate of 10 cents per ton of 2,000 pounds is collected on the gross output.

Entries for land for homestead purposes may be made personally at the local land office for the district in which the land to be taken is situated, or if the homesteader desires, he may, on application to the minister of the interior at Ottawa, the commissioner of immigration at Winnipeg, or the local agent for the district within which the land is situated, receive authority for some one to make entry for him.

A fee of $10 is charged for a homestead entry.

A settler who has received an entry for a homestead is required to perform the conditions connected therewith under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year during the term of three years.

It is the practice of the department to require a settler to bring 15 acres under cultivation, but if he prefers he may substitute stock; and 20 head of cattle, to be actually his own property, with buildings for their accommodation, will be accepted instead of the cultivation.

(2) If the father (or mother, if the father is deceased) of any person who is eligible to make a homestead entry under the provisions of th Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of the Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of the Act as to residence may be satisfied by residence upon the said land.

Application for a patent should be made at the end of three years before the local agent, sub-agent or a homestead inspector.

Before making an application for a patent, the settler must give six months notice in writing to the Commissioner of Dominion Lands at Ottawa, of his intention to do so.

W. W. CORY,
Deputy of the Minister of the Interior.
Ottawa, February 14th, 1906.

TENDERS FOR A LICENSE TO CUT TIMBER ON DOMINION LANDS IN THE PROVINCE OF BRITISH COLUMBIA.

SEALED TENDERS addressed to the Timber and Mines Branch, Department of the Interior, and marked on the envelope "Tender for Timber Berth No. 494," will be received at this Department up to noon on Wednesday, the 8th day of August, 1906, for a license to cut timber on Berth No. 494, comprising the West half of Section 26, Township 5, Range 7, West of the 7th Meridian, containing an area of 303 acres, more or less.

The survey of this berth is to be made within one year of receipt of tenders.

The regulations under which a license will be issued, also printed forms of tender and envelope, may be obtained at this Department, or at the office of the Crown Timber Agent at New Westminster, B.C.

Each tender must be accompanied by an accepted cheque on a chartered bank in favor of the Deputy Minister of the Interior, for the amount of the bonus which the applicant is prepared to pay for a license.

No tender by telegraph will be entertained.

PERLEY G. KEYES,
Secretary.

NELSON'S NEWS OF THE DAY

James Cronin arrived in town last evening from Sandon.

The Misses Macleod returned from Spokane Sunday evening.

Several replies to advertisements are at The Daily News office for "K.C." and "H.L."

The directors of the agricultural and industrial association will hold their regular monthly meeting at the city hall this evening at 8 o'clock.

George Ferguson of the Nelson Transfer company, arrived last night on the Crow steamer with a carload of light draught horses for the local market.

Nelson citizens when away from home during the next few weeks should register at hotels, "Nelson, B.C., September, 19, 20, 21." This will give the big fall fair a good boost.

Members of the several regatta committees are reminded of the general meeting of the Nelson boat club tomorrow evening at 8:30 at the club house. It is expected that the chairmen of each of the sub-committees will have their reports ready for the general meeting.

The strawberry festival under the auspices of the ladies of the Methodist church, announced for Thursday evening next, will be held tomorrow evening, Wednesday, so as not to clash with the 20,000 club excursion on Thursday. The city band will be in attendance and an excellent program is assured.

Captain S. Davey of the Salvation army, who was to have lectured last evening on the Boer war, arrived too late to carry out his engagement. He will lecture at the barracks this evening at 8 o'clock. Captain Davey was all through the Boer war, received 14 wounds and was captured by the enemy. His lecture is full of live interest and should attract a large audience.

On Sunday the weather conditions improved considerably, the range of the thermometer for the 24 hours being from 56 to 83. Yesterday the highest point reached was 90 and the lowest 56, but in the evening and through the early hours of the night it was excessively close and hot. The heavy thunder shower which hit the city on Sunday afternoon was purely local, not reaching even across the lake. Yesterday there were several heavy showers at points near the city but no rain fell here. Today promises to be a scorcher, with the probability of occasional heavy thunder storms. The barometer which fell on Sunday was again pointing high last night.

The high school and teachers' examinations which commenced a week ago, closed yesterday. The results will be announced from the coast at the end of the month. Principal J. W. Church who has been conducting the examinations and inspector David Wilson leave for Victoria this morning.

The annual garden party of the Altar Guild of St. Saviour's church is arranged for Thursday afternoon and evening, July 19. It will be held in the grounds of Wm. Irvine, Silica St., west, which have been kindly loaned for the occasion. The city band will be in attendance and in addition an attractive vocal and instrumental program will be provided.

"Housekeeper" writes to say that she saw a Chinaman picking up old berry cups that had been thrown out on the streets, in alleys and on muck heaps and utilising same for sale of fresh berries. She rightly says that this practise is a menace to health and should be put a stop to. A good move in the direction of putting down this disgusting practise would be for "Housekeeper" to notify the police of what she has observed and to give them as good a description of the Chinaman as possible.

GRAND CENTRAL—Mrs. P. C. Hartsell, Bolster; A. N. Huster, Republic; S. Belshaw, Cranbrook; J. H. Grasam, Ymir; H. E. Hughes, Moose Jaw; A. F. Berry, A. McNelli, Rossland; J. Gould, Grand Forks; C. Lager, Pohenix; C. Carlson and wife, Mrs. Ostend, Winlaw; A. A. McArthur, Pilot Bay; R. Ashley, Nova Scotia; A. Johnson, New Denver; B. Wilberg, New Westminster; T. H. Elsey, Pilot Mound; G. T. Malthoid Roofing

We can supply this celebrated roofing in four grades

½ Ply 1 Ply 2 Ply 3 Ply

We will be pleased to furnish all information and can only say that for a lasting, serviceable and fireproof roofing, it has no equal.

J. H. Ashdown Hardware Co., Ltd.
Sole Agents for Kootenay District.

Messrs. The J. H. Ashdown Hardware Co., Ltd.,

After considering the matter of roofing for the buildings in connection with the new power plant for the city of Nelson, I have decided that the Malthoid Roofing is the best and only roofing to meet all the conditions contingent upon the situation and elements to which these buildings are subjected, as this roofing not only is fireproof, but will withstand dampness and heat. Yours truly,

W. G. GILLETT, Mayor.

RINGS

Our Rings have been the most effective captors Cupid has ever beheld. They are winners. The beautiful hand-made settings, and rare shape, and the color and brilliancy of the fine Diamonds, Rubies and Emeralds leave nothing to be desired. We are always pleased to show our patrons the many nice combinations, as there is always a new one coming in. A few of our leaders are handsome Diamond Solitaires at $35.00, $40.00, $48.00, $50.00, but we can give you any value you wish.

JEWELRY MANUFACTURING.—Our little factory is always open to visitors. This is where many of our rings are made, and we do not hesitate to guarantee our work as first class. We keep a fine stock of loose stones and ring-making is one of our specialties. A trial order will prove to you our competence.

Mail orders receive special attention.

TOO HOT TO BAKE?

Then why not do as your neighbors are doing—get your bread, cakes and pastry from the Star Bakery.

Everythings is first class. We use only the best flour, etc., in our bakery and everything is clean and nice.

And it is cheaper to buy your bread from the Star than it is to bake it. Think of the time wasted which you could use to better advantage. Call us up—our phone number is 258—and we will be pleased to quote our prices. If you want some Ice Cream, don't forget that we sell it.

OSTRICH FEATHERS

Are in vogue. To trim a hat "up-to-date" requires Ostrich Feathers or tips. It's true they cost a shade more than customary trimming, but they last longer.

FEATHER TIPS

As well as other trimming accessories for hats can be had here at lowest prices. Our trimmings, like our hats, are always fashionable, good, and cheap.

Summer Dress Goods, Muslins, White Blouses, Parasols. Stockings special at 25c and 35c a pair. Corsets, Ribbons and Laces.
