## GOVERNOR'S FAREWELL

### Earl Grey Wrote Note of Appreciation to the Mayor

**Party Will Reach Vancouver Tomorrow Evening—All Were "Sorry to Leave Nelson"**

Their excellencies, the governor general and lady Grey, and the rest of the vice regal party, left the city on Sunday night at 8.30, the regular evening coast train being held here an hour as the up river steamer was late. At Robson the party boarded the steamer Rossland and started off for Revelstoke. They are due to arrive in Vancouver tomorrow evening. Superintendent J. S. Lawrence accompanied the party to Robson. The special train taking the party across the continent, which has been lying here since Wednesday last, was sent to Arrowhead via Slocan lake early Sunday morning and on this train the party will journey to the coast.

Quite a crowd assembled at the station on Sunday night and just before the train pulled out earl and lady Grey came out on the rear platform. "I am sorry to leave Nelson," said his excellency, addressing the crowd generally. "We have enjoyed our stay here immensely, and will be glad to come again."

Then R. R. Hedley proposed three cheers and these were heartily given by the crowd as the train moved out. Lady Grey stood by her husband's side till the train was well away.

The earl bowed repeatedly to the crowd and his wife waved her farewell with a bunch of Nelson's best flowers, presented to her before leaving by aldermen Selous.

On Sunday lady Grey attended the morning service at St. Saviour's church and afterwards called on the mayor and Mrs. Gillett. His worship and Mrs. Gillett dined with earl and lady Grey at the Strathcona on Sunday evening.

The governor general carried away with him a very handsome mountain goat rug presented to him by Nelson's first citizen. In addition to a formal acknowledgment with thanks, for the gift sent to him through captain Trotter, A.D.C., the mayor received a kindly worded letter from the governor general personally.

Before leaving his excellency sent his worship the following letter:

Strathcona Hotel,
Nelson, Sept. 9, 1906.

Dear Mr. Mayor: I can not leave the beautiful view in front of my balcony without writing one line to convey to you, and to your city, my very sincere thanks, and those of lady Grey and of every member of my party, for the most kind hospitality with which you, in the name of the city, have so generously welcomed us.

Although I have been greatly disappointed at being prevented, by an unfortunate attack of influenza, from visiting the several points of interest in your neighborhood which I was most anxious to see, I have yet seen and heard enough, both of your district, and your people, to be satisfied that I am abundantly justified in entertaining the roslest hopes for your future. That these hopes may be fully realized is the sincere wish of yours truly,

GREY.

In his letter acknowledging the mayor and Mrs. Gillett's gift earl Grey wrote: "Lady Grey and I are both delighted with it. It will be greatly admired at government house, Ottawa. Thanking you again for this interesting souvenir of our very happy visit."

His excellency overlooked no one at the hotel Strathcona and in saying good bye to Mr. Tomkins complimented him on the excellent accommodation of the house, and presented him with a gold pin, the head of which was made up of his excellency's monogram "G.G.," surmounted by a crown.

## EARL GREY'S PRESENT

CUP COMING FOR AGRICULTURAL ASSOCIATION

SATURDAY NEXT CLOSING DAY FOR ALL ENTRIES.

As was confidently hoped he would, earl Grey will present a prize cup to the Nelson fair.

His excellency had a long chat with captain McMorris on Saturday and before leaving wrote the captain a personal note saying that the fair directors would be formally asked to accept a cup, to be competed for next year and thereafter, to that member of the association who, in the opinion of the directors, is best entitled to it by reason of the excellence of his orchard during the preceding year.

The cup will be included in next year's prize list and it is hoped that earl Grey's gift will be of silver "mined, smelted and refined" in British Columbia, as is the handsome cup presented to the association the other day by sir Thomas Shaughnessy, and now on view here.

In his note to captain McMorris earl Grey lays stress upon his being unable to be here during the fair and the fact that other engagements rendered it impossible for him to open the exhibition.

The secretary received word from the Revelstoke lacrosse team yesterday that they will play here during the exhibition.

The collectors for fair funds will shortly go their rounds and expect a generous response from all good citizens.

Mrs. Melville Parry has completed her list of those who will engage in the Japanese parasol drill before the grand at the fair. Last night another rehearsal was held in Fraternity hall, and excellent progress was made.

Intending exhibitors are reminded again that all entries must be in by the end of this week, Saturday next, September 15th, being positively the last day when entries will be received.

### HUGGED BY BEAR.

Grand Forks, Sept. 10—(Special)—While two performing cinnamon bears were giving an exhibition on the streets this evening, several small boys pushed James Gilmore, aged about 10, over on to one of the bears. The bear at once grabbed the boy and started to embrace him with great severity. The boy, while screaming, was only freed from the death grip of the bear by the keeper's presence of mind. Although Gilmore was badly shaken up, it is thought no bones were broken. The bears were brought here from Nelson today.

## KASLO'S FIRST EFFORT

FRUIT FAIR TO BE HELD ON FRIDAY NEXT.

SPECIAL TRANSPORTATION FOR THE DAY.

Kaslo's first exhibition will be held in the armory in that city on next Friday, September 14. The C. P. R. will issue excursion tickets to Kaslo and return for a fare and a third. The Moyie will leave Nelson at 7 a.m. on Friday, returning will leave Kaslo at 3.15. The Kokanee will leave Kaslo on Friday evening at 7. 30, running as an extra boat.

This arrangement will allow visitors to see the fair and to take in the afternoon sports, which include baseball, Kaslo vs. Nelson juniors, and prospectors' bannock baking and packing contests. "A local M. P. is anxious to enter the prospectors' contest in order to show "How we did it in the early 90's."

The decorated baby carriage parade and the children's decorated doll carriage contest promise spirited competition. All the games, parades and contests take place in the afternoon.

The local exhibit of fruit and flowers promises to be excellent and it is expected that many of the fruit ranchers along the lake will send in good exhibits and stimulate a healthy rivalry which doubtless Kaslo will gladly meet and respond to.

Keen interest is being taken by the ranchers on the Duncan river in the cash prize of $50 given by the K. & S. railway company, and the $50 medal given by Henry Birk for the best collection of apples.

The fair directors have wisely decided that where entries are made of varieties of fruit, flowers, or vegetables, other than those enumerated in the prize list, these shall be open to competition and will receive equal prizes to those allotted to the section in which they would appear. The reason for this decision is that there are so many varieties of fruits in the district which are not included in any of the published lists of the exhibitions to be held in the province during the next few weeks.

No doubt a large delegation from Nelson will go up to Kaslo on Friday, and it is hoped that most of the prize fruit exhibited at Kaslo will find its way in due course to the Nelson fair on September 19, 20 and 21.

### MAY MISS THE GALLOWS

Seattle Murdress to be Examined for Sanity

Seattle, Sept. 10 — Esther Mitchell and Maud Creffield, jointly charged with murder in the first degree for killing George Mitchell last July, will be examined by a medical commission on Wednesday in the superior court to determine their sanity. Attorneys for the two women declare they are insane and have been for years. The appointment of the commission was secured upon a petition from the women's council and was opposed by the prosecuting attorney. If the women are found to be insane they will be sent to the asylum at Steilacoom and this will end the criminal prosecution.

### APPEAL FROM CHILE

New York, Sept. 10—The American Red Cross today made public a telegram received from the national secretary of the society in Washington, which read: "American minister, Santiago, Chile, cables the state department that suffering as a result of the earthquake is very great. Action of the Red Cross should be prompt." The Red Cross has renewed its appeal for assistance for Chile.

### PRESENT TO THE POPE

Rome, Sept. 10—The pope has received in private audience Mgr. Kennedy, rector of the American college in Rome, who presented his holiness with ten large, beautifully illustrated volumes containing a history of charitable institutions in New York. The books were sent by archbishop Farley.

## WM. MULOCK FOR LEADER

### Ontario Liberals Turn to the Ex-Postmaster General

**Toronto News Says a Serious Movement is on Foot to Have Him Displace Ross**

(Special to The Daily News)

Toronto, Sept. 10.—The Toronto News, which is not regarded as friendly to the late Ross liberal government, says that a serious and well defined movement is under way to induce sir William Mulock to accept the position of leader of the Ontario liberal opposition. If the party leaders can persuade sir William Mulock to take the leadership, it would clear the air, simplify the position, and seriously weaken premier Whitney's hold on the province.

The conference of provincial premiers with the dominion government will take place in Ottawa on October 8. Notices to this effect have been sent the different premiers of the provinces. All the provinces will be represented.

Sir Wilfrid Laurier opened the Canada Central fair at Ottawa at 2.30 today. In an address presented to him by the president of the fair, it was suggested that next year the exhibition should get the dominion government grant of $50,000 which this year goes to Halifax and last year went to New Westminster. This would be a fitting time, as next year will be the 50th anniversary of the selection of Ottawa as the capital and the 40th year of Canadian confederation.

Frank Pedley, deputy minister of Indian affairs, leaves Ottawa tonight for Victoria, B. C. He goes to meet Hon. Wm. Templeman and endeavor to arrange with the Indians to remove from the Songhees reserve to some other point. This reserve is encroaching on the city of Victoria and efforts have been made for some years to have another one selected.

The time for the tenders for St. Andrews rapids dam, was up today. Tom Kelly, of Winnipeg, one of the tenderers is in Ottawa. The contract is to construct a dam so as to give navigation from Winnipeg and Red river through to lake Winnipeg.

Alphonse Verville, M. P., of the plumbers' union; J. E. C. Tardiff, president of the Montreal Trades & Labor council; Gustav France, of Jacques-Cartier Typographical union; and Anderson, of the Amalgamated society of carpenters, left Montreal last night for Victoria, B. C., to attend the coming convention of the trades and labor congress of Canada. The labor men were given a send-off at the station. It is feared that western men will make a united effort to commit the congress to the principles of socialism. The Montreal men will fight for pure and simple trade unionism.

## WITHOUT OPPOSITION

TWO LIBERALS RETURNED FOR QUEBEC LEGISLATURE.

BY-ELECTIONS CAUSED BY CHANGE IN CABINET.

Lachute, Que., Sept. 10.—Hon. W. A. Weir, liberal, minister of public works for the province of Quebec, was re-elected by acclamation in Argentuell county today.

Knowlton, Que., Sept. 10.—W. F. Villas, liberal, was elected by acclamation in Brome county today. The vacancy was caused by the elevation of Hon. J. C. McCorkill, provincial treasurer, to the bench.

Montreal, Sept. 10.—Nominations for the by-elections for the Quebec legislature, rendered necessary by the recent changes in the cabinet, were held today in Argentuell and Brome counties. In Argentuell, Hon. W. A. Weir, minister of public works, was returned by acclamation. In Brome W. F. Villas, candidate of the liberal convention, was expected to be opposed by E. W. Westover, whom he defeated for the nomination in the legislature and who announced his intention of running as an independent liberal.

### FAREWELL TO MR. GIBBS

Popular Representative of Brackman-Ker Co. Given Gold Watch.

A pleasing presentation and a banquet were tendered Frank B. Gibbs at the Hume last evening on the occasion of the popular local representative of the Brackman-Ker Milling company taking his departure for his new position with the company at Calgary. Mr. Gibbs has resided here for many years and his presence will be missed by a wide circle of friends.

About 9 o'clock last evening a party of Mr. Gibbs friends entertained him at an informal banquet in the dining room of the Hume hotel and subsequently presented him with a handsome gold watch and chain. Among those present were Joseph Waixel, John Teague, George Kurtz, W. Walker, H. Ewert, R. Andrews, R. Hood, T. Morley, Frank P. Walsh and the guest of the evening. Telegrams regretting their inability to be present were read from W. B. Grant and P. William Gordon, both of whom were at Fernie last evening. Speeches were made regretting Mr. Gibbs' departure and wishing him every success amongst the farmers.

Mr. Gibbs in replying to all the kind wishes showered upon him, expressed his appreciation of the compliments paid him and returned thanks for the handsome gift presented him in a neat speech.

Mr. Gibbs has hitherto represented the interests of his company in the Kootenays and he now goes to the two new provinces with headquarters at Calgary. He leaves this morning via Spokane for Victoria where he will attend the general meeting of the company on September 15, subsequently he will go to Calgary and assume his duties there.

### A FOOLISH REPORT

A rumor, originated and circulated by irresponsible parties, says that Nelson and surrounding districts were visited by frost Sunday night. If true, it would be foolish to give publicity to such a statement for the meaning and import would probably be injuriously distorted by people at a distance who are unacquainted with Nelson's beautiful climate. But since it is untrue, it is much less excusable. The official readings show that the lowest point reached by the mercury indicated a minimum temperature of 36 four degrees above the frost point. The temperature during the twenty-four hours in question (that including Sunday night) varied from 36 to 68.

## NELSON'S NEWS OF THE DAY

A card case was left at this office on Saturday, having been picked up on the street. The cards bear the name of Mr. and Mrs. J. Cayley. The owner can have the case upon application.

M. H. Farrar of Saskatoon, representing the large real estate firm of Fisher, Hamilton and company of Winnipeg, has taken a residence here and will look after the company's western fruit land department. Mrs. Farrar accompanies her husband.

City engineer McCulloch has undertaken to try and change the date of the coming here of the Canadian civil engineers' party from Sept. 21 in the evening to the morning of the 19th in order that the party may take in the exhibition. Mayor Gillett is assisting in the matter and it is hoped the change can be made.

J. M. Lay and T. G. Procter were out yesterday soliciting subscriptions to the banquet to be tendered the visiting members of the Spokane chamber of commerce in the armory on next Wednesday evening. They are anxious not to overlook anyone and state that those desirous of joining in the banquet may obtain tickets and all information from S. M. Brydges, secretary of the board of trade, the banquet being given under the auspices of the board.

An important meeting of the 20,000 club's executive committee will be held in the board of trade rooms this evening at 8:30. This will be the last meting before the fair and arrangements for helping out the reception of the Spokane party on Thursday, and the Canadian civil engineers' party next week will be considered. In addition a lot of unfinished work requires attention, so a large turnout is specially requested.

Ed. J. Smith, says the Phoenix Pioneer, returned from his unpleasant trip to New Westminster hospital for the the insane, whither he took Murdock McQuarrie from Nelson, who lost his mind. Mr. Smith says he had very little trouble with the unfortunate man after getting him on the boat at Robson, till near his destination. There McQuarrie put his head through a car window and nearly succeeded in dashing himself out of the moving train, when he was stopped. At the hospital McQuarrie also playfully kicked one of the physicians in the head.

J. O. Gillice, local manager for the Allis-Chalmers-Bullock company, stated yesterday that all the machinery for the city power plant was moving towards Nelson. Two carloads of electrical machinery have already arrived and a third has been reported passing through Moose Jaw. Mr. Bullis, the company's electrical engineer, is in the city for the purpose of installing the electrical machinery and the company's hydraulic engineer is expected to arrive here today. Mr. Gillice is of the opinion that there will be no further delay in getting the plant installed.

### SERIOUS TRAIN WRECK

Southern Pacific Cars go Over Sea Cliff Near Santa Barbara

Los Angeles, Sept. 10—The second section of the Southern Pacific coast line passenger train, No. 10, southbound, was wrecked at Sea Cliff siding, 20 miles south of Santa Barbara, this morning. Three coaches left the track and rolled into the ditch. Information from the Bard hospital at Ventura states that the injured are being brought to that place. A relief train has been sent out from Santa Barbara. According to the latest information from the wreck 25 persons are injured, most of them but slightly; no one killed, but one or two said to have been fatally injured. The baggage and mail cars and two coaches left the rails and went over the embankment. Physicians have been sent from Ventura to the wreck, which is ten miles west of that place, and the injured are expected there at any minute.

## CLOUDBURST OVER COAST

### Water Stands Twelve Feet Deep on Squamish Roads

**Millions of Salmon Eggs Washed Away From Hatchery by the Flood—Crops Are Ruined**

Vancouver, B. C., Sept. 10—The ranching section of the Squamish valley is in flood as a result of a cloudburst which ruined crops to the estimated value of many thousands and covered the roads with twelve feet of water. Several houses at Britannia mines were wrecked. A number of bridges were swept away.

Serious loss is reported through the washing away of 6,000,000 salmon ova at Bon Accord fish hatchery during the recent heavy rains. Freshets washed away all the fish pans.

A Japanese fireman on the steamer Cassiar, Yamagota by name, is in jail, charged with attempted murder of the second officer, William Jarvis. The Japanese stabbed the officer when the steamer was near Rock Bay, B. C., on her northern run. The cause of the assault was the refusal of the Japanese to work and the attempt of several officers to make him resume his duties.

## PALMA GETS ANGRY

REVOKES AMNESTY AND JAILS ALL LIBERALS.

CONSTITUTIONAL GUARANTEES HAVE BEEN SUSPENDED.

Havana, Sept. 10.—President Palma tonight decreed the suspension of all constitutional guarantees and revoked all offers of amnesty. He issued an order suspending all constitutional guarantees in the provinces of Pinar del Rio, Havana and Santa Clara. The law enforcing public order, which is equivalent to martial law, is put in immediate effect in the three provinces named.

A supplemental decree has ben issued suspending the decree of August 28, concerning important rebels, and ordering that the liberals be brought back and jailed. Both decrees have been communicated to all officers in the district. Tonight the government also ordered the arrest of practically every prominent liberal. Alfredo Zeyas, president of the liberal party, and several others, have disapeared.

Among other liberals elected are congressmen Florencio, Villuendas, Borges and Varona. When the news of the issuance of these decrees reached the veterans' peace committee, which was in session at the home of general Menocal, there was intense denunciation of president Palma and other members of the government.

For a while tonight the prospect for peace looked decidedly more hopeful, the result of the arrival here of one of the peace commissions, which had visited the insurgent leader, with the news that Guerra had formally consented to a suspension of hostilities pending negotiations. But within an hour it became known that at a special meeting of the cabinet tonight it has been decided to declare all peace projects off.

## SHOT GIRL PRISONER

COWARDLY CRIME OF RUSSIAN MILITARY GUARD

REMAINING PRISONERS REVOLT AND EXPEL WARDENS

St. Petersburg, Sept. 10—There was a revolt today in the central detention prison in consequence of the death of Mlle. Semenova, a young girl of 18, and an enthusiastic social democrat, who was shot and killed instantly by a sentry when she showed herself at her cell window overlooking the court yard. The furious prisoners expelled the wardens, barricaded the prison and laid the corpse of Mlle. Semenova upon an improvised bier in their central cell, refusing to deliver it to the authorities and swearing they would die rather than surrender it. Troops were summoned but the authorities, fearing bloodshed, temporized and sent for the brother of Mis Semenova to whom the insurgents delivered the body.

Grand duke Nicholas, after an investigation of the affair personally, ordered the dismissal of the officer of the guard, which was drawn from the unpopular Seminovsky regiment. Mlle. Semenova was a medical student and was seeking to divide with the prisoners some sugar which she had surreptitiously obtained when she has shot.

A court at Cronstadt will take up tomorrow the process against Monipoko, the peasant leader in the outlawed parliament, and the three civillans.

St. Petersburg, Sept. 11—3:30 a.m.—Advices from Seidlce received during the night are to the effect that the fighting and bombarding of houses which ceased about midday on Monday was resumed late in the afternoon, opparently in consequence of governor Engelk's demand that Jewish and Polish populace deliver up to him the members of the Jewish self protection association. The Bundists, preferring death in the open to a tame surrender, resumed the battle. Artillery was again brought into action. It is not known if the fighting still continues. It is impossible to obtain full details of the events at Seidlce, as the authorities absolutely forbid all communication and turn back all correspondents. At Rudgusowska, 40 miles east of Warsaw, scenes similar to those enacted at Seidlce were witnessed. The soldiers are said to have killed 40 persons Fugitives from Seidlce report that governor Engelk issued an ultimatum declaring that he would bombard the whole town unless the terrorists surrendered. In consequence of the pillage and destruction the citizens are suffering for food and water. The number of victims is unknown but it is placed at 100. Most of the corpses are hidden in the ruins of houses.

Warsaw, Stpt. 10—A bomb was thrown in the market square of Rudgesewaka, province of Warsaw, this afternoon, killing one policeman and wounding another Later another bomb was thrown at the entrance of the Zirardow spinning works in this city, severely wounding a police man and a janitor. The troops thereupor fired in all directions, and killed or wounded 40 persons.

### ARE DUE TOMORROW.

The Dominion Railway Commission were in Edmonton at the close of last week. It is stated that they will reach Nelson tomorrow, but no definite word was obtainable last night locally. Presumably the board of trade will make arrangements to present any pressing questions before the commission and the wholesalers' association may be expected to follow suit.

## IT IMPLICATES HERING

PAPER FOUND IN BANK SHOWS CASHIER'S GUILT

FURTHER EVIDENCE OF LOOTING IS UNEARTHED.

Chicago, Sept. 10.—Secret memoranda, covering illegal transactions in the Stensland bank, were found yesterday by police inspector Shippy among the effects of Frank Kowalski, the teller who suicided shortly after the disclosure of the bank's condition. The record kept by him, it is alleged, indicated apparently that in much less than a year Henry W. Hering, the imprisoned cashier, personally obtained $110,800 of the money of depositors by the same means adopted by Stensland in his systematic looting of the vaults. In four months, by the use of cash tickets which he placed in the drawer, he obtained $6000 more according to Kowalski's schedule, and in another month $10,000. The discovery of Kowalski's tell-tale figures was a result of the opening yesterday of a wooden cupboard in one of the bank's vaults, which had remained unnoticed since bank examiner Jones took charge of the institution on August 4th. When it was forced open in the presence of attorneys Weirsenback and Loeb, representing the receiver, a bundle of forged notes was found, the existence of which had not been suspected and which will increase materially, it is believed, the total amount stolen from the bank. There was also a memorandum, in the handwriting of Stensland, which tallied closely with the memorandum of Paul O. Stensland's forgeries and which he left behind when he fled from Chicago. The forged note was for $5000.

## HOT FIRING IN 'FRISCO

UNIONISTS ATTACK A PARTY OF STRIKE BREAKERS

LATTER WERE EMPLOYED BY THE STREET RAILWAY

San Francisco, Sept. 10—As an aftermath of the recent strike on the United Railways, a riot broke out tonight when the street car company started to march about 200 strike breakers from the car barns to the Ferry building. Many shots were fired by the armed guards escorting the men and half a dozen persons are reported injured. The strike breakers are guarded in the Ferry building by the police and 12 men have been arrested. A large mob is in front of the Ferry building waiting for the police to bring out the prisoners.

### FRISCO STRIKE TROUBLES

San Francisco, Sept. 10—The question of the enforcement of the open shop rule was presented to the Carmen's union by the United Railways this afternoon in a manner that provoked street disturbances. An electric car was run out of the Filmore street car barn with a non-union crew and four armed guards. When the car reached the street a cry of "Scab" was raised and a crowd of men started in pursuit. The car was overtaken and the crowd swarmed aboard, broke off the trolley arm and demolished the windows. The crew and guards were left in the car when the mob took possession. A second car in charge of non-union men was then taken out of the barn with the object of bringing back the disabled car. After it had taken the wrecked car in tow, it was also attacked and both were finally ran into a brick pile in adamage d condition. Later the company succeeded in removing both cars to the Oak street barn.

### AMERICAN AUTHORESS DIES

New Haven, Sept. 10—Miss Rose Porter, widely known as an authoress, ded at her home here today, aged 66 years. She was born in New York. Her burial will take place Friday at Catskill, N.Y.

## TOOK THEM FOR BEARS

### A Careless Hunter Fired Twice at Nelson People

**Mr. and Mrs. Ellstone Had a Very Narrow Escape From Death on Sunday Afternoon**

Mr. and Mrs. Ellstone of this city had an unpleasant experience on Sunday afternoon last, and one which they are not likely to forget in a hurry.

They reside at the residence of John Roche at the corner of Hall and Silica streets, and on Sunday went up to Cottonwood lake on a fishing excursion. They got out on the lake on a small raft of logs that is sometimes used by fishing parties and were enjoying themselves thoroughly when, suddenly, about 3 o'clock the report of a rifle shot rang out and a rifle bullet whizzed between them, burying itself in the water a little ahead of the raft.

Mr. and Mrs. Ellstone were just congratulating themselves upon their narrow escape, attributing the affair to some sportsman on the adjacent hills who had fired at some game without knowing that a pair of human beings were in line, when a second report was heard and a second bullet just grazed Mrs. Ellstone and struck the water close to the raft.

Thoroughly alarmed Mr. Ellstone began shouting and waving his handkerchief and hat in an effort to call the attention of the sportsman. In a moment or so a man was seen clamboring down the hillside and later he hailed the pair on the raft.

"Say," he shouted, "are you hurt. I fired at you twice thinking you were a pair of bears."

On being told that no actual damage had been done, the sportsman turned off with the remark:

"Well, I've had enough for one afternoon. I'll go home," he started off for the city.

Mr. Roche and his wife sometimes indulge in a little fishing on Cottonwood lake and they hope sportsmen in the future will make sure of what they are shooting at before they shoot. The temptation to "plug" at any thing that moves, is strong with some shooters, but if the season is to pass off without any fatalities more care will have to be exercised.

## GOMPERS' FIGHT LOST

CONGRESSMAN LITTLEFIELD IS RE-ELECTED.

PROHIBITION HOLD ON MAINE SEEMS TO BE WEAKENING.

Portland, Me., Sept. 10.—Governor William T. Cobb, republican, running on a platform devoted almost exclusively to a continuance of the prohibitory law of the state, was re-elected today by a plurality of less than 8000 which, with but few exceptions, is the smallest margin of votes ever given a republican governor in Maine. Circus Davis, the democratic candidate for governor, polled one of the largest votes in the history of the party in this state.

Congressman Littlefield's candidacy was the subject of bitter antagonism by Samuel Gompers, president of the American Federation of Labor, who sought his defeat on the grounds that he had voted against organized labor and that he opposed certain labor measures at the last session of congress.

The issue between Gompers and Littlefield was taken up by the congressional committee and for three weeks the district has seen a hard fight with secretary of war Taft, senator Lodge, senator Beveridge and several congressmen pitted against the head of the Federation of Labor.

Mr. Littlefield's plurality was estimated tonight at about 1000. Congressman Edwin C. Burleigh, of Augusta, republican, was re-elected in the third district, and congressman Llewellyn Powers, of Houlton, republican, in the fourth district by a plurality estimated at 2000. The re-election of congressman A. L. Allen, of Alfred, in the first district, is claimed by the republican leaders. The legislature will be republican by a safe margin.

### TOPEKA STRUCK A ROCK

San Francisco, Sept. 10—The Pacific Coast Steamship company's steamer City of Topeka, bound from Eureka to San Francisco, struck on a rock at Point Arena early yesterday morning. The vessel had been moving slowly through the dense fog and it was owing to this circumstance that a total wreck was avoided. The steamer struck the rocks a glancing blow but succeeded in reaching the open water, when it was seen that very little water was making way in the hold. The captain headed for this port at full speed and arrived at dock shortly after 1 o'clock yesterday afternoon. An examination of the ship at the Broadway dock showed two big holes made by the treacherous rocks. The one on the starboard side is about 12 inches and the other on the port side about six inches.

## FRENZIED INTERNATIONAL FINANCE

Coupled with the announcement contained in another column that Kühn, Loeb & Co., the financial firm of New York, had engaged $2,500,000 of English gold for export to the United States, comes a statement from Leroy-Beaulieu, the French political economist, to the effect that France is losing her position as the chief financial centre of Europe. At first sight these two items of news may appear to have little bearing upon each other; but on closer study it will be seen that they are vitally connected. France has long been proclaiming her wonderful financial vitality, and has pointed with pride to the fact that her frugal population, in spite of the almost overwhelming political and military cataclysms through which the country has gone during the last century, has invariably, after each setback, recovered a position of affluence in a remarkably short space of time and has always been ready to advance foreign loans when other countries hesitated to do so through fear of the security offered or monetary stringency. A striking example was given during the recent Russo-Japanese war, when France poured treasure in uncounted millions into the war chests of both parties and immediately afterwards, when the banks of the United States appeared to be facing a financial crisis, came to the aid of secretary Shaw with a heavy deposit of gold. Leroy-Beaulieu, however, points out that a turn in the tide has now set in and that the embarrassment of the national exchequer will soon be reflected on the French money market. He observes that out of thirty budgets only two have shown the smallest excess of revenue over expenditure. There has been continual waste of various kinds. There is now greater difficulty in balancing the national accounts than there has been at any time during the past forty years. There is a prospect of new expenditure to the amount of 370,000,000 francs which is the inevitable and automatic result of legislation, plus another 180,000,000 francs for the intended development of the services thus created. To this must be added 200,000,000 francs, the contribution of the state towards the old age pension scheme, if this "folly," as Leroy-Beaulieu calls it, comes into effect. To meet all these additional charges there is a stationary population, a slackening in the accumulation of wealth, and a tendency on the part of capital to take refuge beyond the frontiers, which may, in part, account for past eagerness to make foreign loans. A complete change of conduct, Leroy-Beaulieu says, is necessary.

In the meantime, England is manifestly regaining the position she long held as the financial hub of the world—a position from which she was temporarily displaced by what now appears to have been a false acticity on the part of French money lenders.

## A NEW "PROBLEM"

Commenting on the recent census revelations in Alberta and Saskatchewan, the Toronto News points out that no census has been taken in British Columbia since the last decennial one in 1901. The News estimates, however, that, with the expansion of Vancouver and some of the cities in southern British Columbia, the population is not far short of 250,000. These figures, if correct or nearly so, would give a total population to the western provinces of 1,100,000 and the calculation probably will prove to be fairly accurate. If there should be the same proportionate increase for five years, Manitoba would then show a population of 700,000, Saskatchewan of 1,200,000, Alberta of 600,000, and British Columbia of 500,000. It has also to be remembered that owing to the westward movement the growth of population in older Canada will be very much less rapid than in the west, and hence the prediction that within ten years the majority of the people of Canada will be west of lake Superior is within the realm of probability. This means, also, the transfer of political dominance to the west, with many new problems and enormously wider interests for the Canadian people.

Contemplation of these figures stirs up the Mail and Empire which states editorially:

"As a result of their increasing population Saskatchewan and Alberta have claims for a larger representation in parliament. This fact, together with the possibilities of the not distant future, is likely to lead to a strange situation at Ottawa. Quebec has 65 members always, and the other provinces are entitled to representation equal to that of Quebec. Under this arrangement it is possible that some day we shall have a house of 800 or 900 members. It stands to reason that when we have twenty-five or thirty millions of people here the size of parliament, regulated as it is by the population of Quebec, will become enormous. This position will be a puzzle for the political parties, for they will not care either to reduce the representation of Quebec or to keep the representation of other provinces below their constitutional limit."

Certainly the field seems to be opening for an interesting constitutional controversy. However, the only sensible solution must eventually prove to be the very thing the Mail and Empire thinks politicians will hesitate to suggest—a reduction of Quebec's representation and a corresponding re-arrangement of the delegations from the other provinces. Quebec would have as much influence with 30 members in a house of 200 as with 65 in one of 435.

## SOLDIERS ON RAMPAGE

INFURIATED REGIMENT MERCILESSLY KILLS HUNDREDS.

UNHAPPY JEWS THE VICTIMS OF THEIR SAVAGERY.

St. Petersburg, Sept. 10.—The police department declares that the fighting at Siedlce has come to an end.

Siedlce, Poland, Sept. 10.—A Jewish massacre, surpassing in seriousness all previous ones in this vicinity, took place here Saturday and Sunday. It was carefully planned beforehand, the soldiers warning all of the Christian population in advance to hang their ikons so that they might remain undisturbed. Saturday night some three persons killed two soldiers and thereupon the Libau regiment broke forth in unrestrained fury. They began murdering Jews on every hand and then robbing. Another slaughter commenced at midnight Saturday night and lasted all day Sunday. The ghastly work of murdering and pillaging continued until early today when governor general Skallom telegraphed for permission to use the artillery. Four batteries of artillery opened fire down Piennka, Warsaw and Alcina streets which were inhabited by thousands of Jews. The destruction was horrible; as a result of the general slaughter it is estimated that fully 200 Jews have been killed and 1000 wounded. There are 10,000 prisoners in custody, a great many of whom are wounded. Not a soldier was killed. This morning squads of soldiers were parading through the streets selling pillaged watches and jewelry. The army officers openly countenanced the selling of these goods. The local governor took no steps to prevent the robberies.

Siedlce, Sept. 10.—Six buildings in the big bazaar of the city are now in flames, adding another terror to the killing and plundering which has been going on here for the last 36 hours. Frequent shots and occasional volleys are still heard in different parts of the town, but because of the general panic it is difficult to learn accurately just what is transpiring. As far as it is possible to learn, there have been up to the present time about 60 persons killed and 200 wounded.

Hundreds of Jews are assembled today at the railway station awaiting chances of getting away. The town is surrounded by troops who do not permit exit or entrance. Field guns are posted on the principal streets. There seems to be no doubt that the terrorists are responsible for provoking the massacre by their firing from the roof and windows on Saturday against soldiers and policemen who were patrolling these streets. Troops surrounded the houses from which this firing came and poured volleys through windows and doors. This was followed by a search of the premises, which soon developed into wholesale plundering and subsequently into a massacre and slaughter throughout a large portion of the town. Almost all the Jews' houses were looted. Owners who defended their property were killed or wounded. Any person seen leaving a house or looking out of a window was shot without mercy.

St. Petersburg, Sept. 10.—The predictions made in a despatch of August 23 of a Jewish massacre at Siedlce, Russian Poland, unhappily have been justified by the fighting which broke out Saturday night and developed yesterday into a carnival of discriminate slaughter and pillage, in which the soldiers and the mob took part. Unfortunate Jews were shot and bayonetted in the streets of the town. The houses and shops were broken into and sacked. Valuables were carried off and offered for sale by soldiers to passengers on passing trains. In addition to the Jews, a number of Christians and even some officers met their death in the fighting. The number of victims has not yet been ascertained but a conservative estimate places it at 140. The Jewish fugitives who thronged the railroad stations at Siedlce are in a state of panic. Reports received here from Moscow, Warsaw and other towns in the vicinity of Siedlce, place the number of victims at several hundred. The early reports of the Siedlce massacres put the responsibility at the door of the terrorists, but fugitives declare that the soldiers never would have been allowed to get so completely out of hand without the connivance or the actual direction of their officers. The first reports received of the Bialystok massacre last June said the terrorists were to blame there also. It is difficult to obtain details of the trouble at Siedlce as the town was surrounded yesterday by soldiers and nobody was allowed to enter. Passengers, however, who arrived at Warsaw during the night gave the following account of the slaughter. After the murder of a policeman by terrorists on Saturday night and the firing of a volley by the troops into an assemblage which resulted in the killing of two citizens and the wounding of many, the terrorists held a meeting and decided to exact vengeance by inaugurating a campaign against the police and the troops, similar to the recent activity along the same lines in Warsaw. During the course of Sunday morning twelve patrolmen and soldiers were killed. As a result of this, the Libau regiment, in a state of infuriated anger, left its barracks in the afternoon and marched into the Jewish quarters, shooting right and left as it went. The troops were joined by crowds of hooligans who co-operated in the plundering and wantonly destroyed everything they were unable or undesirous of carrying away. The sale of booty by the soldiers went on under the very eyes of their officers. At a late hour in the afternoon the Kaluga regiment arrived on a special train from Biala and measures were instituted to put a stop to the program. In spite of this, however, the shooting continued up to a late hour last night. A correspondent of the Associated Press who was not able to get into Siedlce yesterday, started for there a second time this morning. Siedlce is a town of 30,000 people, half of whom are Jews.

Warsaw, Sept. 10.—Artillery was used in Siedlce this morning. Buildings on Piennkna, Warsaw and Alcina streets have been destroyed. According to reports received here, 200 Jews were killed and 300 were wounded.

# BILIOUSNESS AND INDIGESTION.

These two ailments often accompany each other. When bile gets into the stomach it causes nausea. When in this state, if you get heated, you may turn sick. If you hurry—say to catch a street railway car—sick again. When you walk quickly, dizziness may overcome you. You may imagine you could relish food, and when it is placed before you, be obliged to turn away in disgust! Store girls, stenographers and women who spend a good deal of time indoors are particularly prone to biliousness and indigestion, and find Bileans a veritable boon.

EXTREME CASE YIELDS TO BILEANS.

Even extreme cases of biliousness and indigestion yield readily to Bileans. Don't think therefore that because up to now you have not found a cure that your case is beyond the power of Bileans! Mrs. A. Laverack, of Wakefield says:—"I had biliousness and indigestion very bad. Every day I was tormented with attacks of nausea and retching. All my friends thought I was almost beyond cure and I was as yellow as beeswax. Headache continued unceasingly, and then I began to have attacks of ague and trembling fits. My tongue was thickly coated, my eyesight dim, and I always woke in the morning with a bitter taste in my mouth. This was my state when a neighbor advised me to try Bileans, saying they had cured both herself and husband of liver complaint and constipation. I got a supply and to my delight they soon began to do me good. I persevered with them and within a few months I was quite restored to health. I owe my wonderful recovery entirely to Bileans, and I shall never again be without a supply as long as I live."

FREE SAMPLE BOX.

Cut this out and post to Bilean Co., Toronto, with cent stamp to pay return postage, and free sample will be sent you.

which the original inhabitants of the country have enjoyed from the beginning of time? If the Canadian people desire to interfere in the domestic affairs of the Babines, let them approach them through representatives in the regular way and make the treaty with them.

"It would be exceedingly costly to send an armed force to the Babine and Carrier Indians, and what is more important, the Indians are in the right in the matter. It is a matter of life and death to them, and if the government wishes them to do otherwise, it must make some arrangement with them."

"Can anything be grown up in that country?" was asked the missionary.

"Yes. Much can be grown. We can grow very fine potatoes, and excellent vegetables of all sorts. The government of the province is now endeavoring to direct immigration into the Buckley valley, a large and fertile district in our part of the province. The mountain scenery of the district is indescribably beautiful. The Indians are natural mountain climbers, moving about the towering rocks with all the agility of the mountain goats. I made many ascents of the highest points under the guidance of the Indians who drew me up with a rope at points where I could not make the ascent unaided. I also made many very long journeys in the country in the interest of science, doing work especially in ethnology, anthropology and in geography. I have now in course of preparation an entirely new map of the country on the scale of eight miles to the inch. This map is being brought out in B. C., and will contain much information which is entirely new."

WAS A VERY SICK BOY

But Cured by Chamberlain's Colic, Cholera and Diarrhoea Remedy

"When my boy was two years old he had a very severe attack of bowel complaint but by the use of Chamberlain's Colic, Cholera and Diarrhoea Remedy we brought him out all right," says Maggie Hickox of Midland, Mich. This remedy can be depended upon in the most severe cases. Even cholera infantum is cured by it. Follow the plain printed directions and a cure is certain. For sale by all druggists and dealers.

Minard's Liniment Cures Distemper

## BABINES ARE SATISFIED

ACCEPT THE PROMISE OF THE CANADIAN GOVERNMENT

FATHER MORICE CHAMPIONS HIS INDIAN FRIENDS

(Special to The Daily News)

Vancouver, Sept. 10.—Private word has been received here from the north to the effect that the Babine Indians are quite satisfied with the promises made to them by the Ottawa authorities, and that there will be no further trouble over the removal of the obstacles they had erected in the river. It is asserted on rumor that one cannery representative who was over zealous in his efforts to enforce "the law" was seized by a number of Indians and ducked in the river.

Winnipeg, Sept. 10.—Father Morice, O. M. I., the celebrated British Columbia missionary and author of a history of the interior of British Columbia, has issued an appeal to the press on behalf of the Babine Indians who he believes are being unjustly treated. These Indians are among the least known of the many tribles of American Indians. They inhabit a tract of country, several hundred miles in extent in the central portion of the western province. They number about 600 souls in all. Father Morice has been a resident among them for the past 27 years. Among them and the neighboring tribes he has succeeded in having fourteen churches built. He has been in very close communication with the tribe from the beginning of his life among them, and is supposed to understand them better than any other living man. He is in the city at the present time on the way to Quebec.

"The Babine Indians are being greatly wronged," says father Morice. "The entire question is one of salmon fisheries. The first I heard of the trouble was when I received a letter signed by some of the chiefs, the letter being written in the characters which I myself had taught them. In order that you may understand this letter, I will need to explain that from time immemorial the Babine Indians have subsisted on the salmon taken from the streams in northern British Columbia. In order that sufficient of the salmon may be secured to give a supply for a year, it is necessary that the Indians should use the weir, into which the fish naturally enter, when ascending or descending a stream. In this manner a large quantity of fish are taken, which are then cured in the sun and by the use of artificial heat and smoke. With the net only enough fish can be secured to supply the needs of the Indians from day to day or a little more. I need scarcely explain to you that the salmon means everything to the Babines. It means more to them than bread and meal do to us. Dried salmon is the staple of Indian life in the country, as it is the real staple of white life also in that country at the present time. In the letter which I received from the chiefs it was stated that officers of the government had appeared in the country stating to the Babines that they must discontinue at once the use of the weir in fishing. When I received this communication, I paid no attention to it, being persuaded that the people were unnecessarily alarmed. Some time later I received a second letter from the chiefs, repeating the statements contained in the former. Again I passed the matter by. Finally I noticed the item in the Winnipeg Free Press, stating that there was open conflict between the officers of the law and the Babines and that a request had been made for the services of 100 men, to compel the Indians to obey the law. I wrote then to a good friend of mine in British Columbia, and I found that the statements of the Indians were only too true.

"The great injustice of the situation consists of the fact that the Canadian government has no treaty with these people. What right can the government have to interfere with the rights

## IN SPORTING CIRCLES

LONDON STILL COMMENTING ON DEFEAT OF HARVARD

FIGHT EXPERTS SAY BATTLING NELSON IS A "CUR"

*New York, Sept. 10*—Twenty-eight contestants finished in the long distance endurance swimming race of the New York athletic club, from Travers island to Huckleberry island yesterday. The course in a straight line, is 1 3-4 miles, but the swimming distance is about two miles. "Bud" Goodwin finished first in 46 minutes and 46 seconds.

London, Sept. 10—All the morning newspapers devote much space to reporting and commenting on the Harvard-Cambridge boat race and while glorying in the sustained prestige of English oarsmanship, they pay high tribute to Harvard's pluck and sportsmanship. The Daily Mail says *the Americans proved gallant losers* and merited the universal admiration they received, adding: "It is pleasant to discover that there are some things we on this side of the Atlantic can still hold as our own, despite the steady loss of much of our best blood to the United States and the colonies."

The Daily News believes that the Cambridge victory was not so much that of men as of method and the well known oarsman, B. Etherington Smith, writing for the Daily News, says he feels confident that Harvard had far more latent pace in their crew than the Cambridge men, *and if taught by one of the few good English coaches*, it would be hard to find a crew to beat them

The Daily Telegraph, in an editorial article, says: "It was a most fortunate coincidence, after the regretable circumstances which led to the suggestion that Americans in the future would not be welcome at Henley, that Harvard should have overcome it this summer and shown Englishmen that there are true amateurs in America."

Guy Nickalls, in the Morning Post, finds among the lessons taught by the race that "the days of the professional coach are over, for it is self evident that a man who *has never himself rowed* in a really good eight can possibly teach eight men how to row or how to get a boat along in a way most advantageous to themselves. Wray had under him as fine a lot of men as ever sat in an eight. We have never seen greater physical perfection in a crew, yet they were outclassed."

Mr. Nickalls calls attention to the fact that the crew was not allowed to row themselves out in practice, which is characteristic of every crew visiting England and always has fatal results. He says that Harvard lost lengths by her boat alone. "You had only to look at her to see that she was no traveller; she was not built on travelling lines."

The foregoing are fair samples of the *comments on and criticisms of the race*, but all writers hope that international races will become more frequent and that Yale will send a crew to England if she wins next year at New London.

Draper's dogs, the famous canines that have won a reputation for themselves by their ability to track murderers and other criminals, will give an exhibition of their wonderful skill the first afternoon of the Spokane Interstate fair, Sept. 24. This will be one of the most exciting scenes at this year's fair. The entire procedure, with all its exciting incidents will be illustrated by the dogs, police and an imaginary murderer.

Two men in front of the grandstand will get into an argument over a race, will fight, and one will pretend to shoot and kill the other. The police will rush out and an ambulance will appear and carry off the murdered man, while the murderer makes his escape down the track, but drops his hat in getting away. Within a few minutes Draper and his famous bloodhounds *are brought to the scene*, get a whiff of the outlaw's hat and start upon the trail. These dogs and the man who will do the deed are practicing daily in Spokane. The dogs are not allowed to run free, but are held in leash by Draper. If they were allowed their freedom *they would tear the man to pieces.*

By the time the dogs are brought to the scene, the man has a good start and has gone half way round the track, crossing and recrossing the track of many horses and men in his flight. There is great excitement as the two hounds with their awful baying, start in pursuit. The fleeing murderer passes around the far side of the track, then crosses over to the stables, darts in and out among the people, swings around to the north end, and comes back to the grand stand. When *he reaches this he jumps the fence*, and dodges under the platform where the vaudeville performances are given, crawls clear under this, comes out at the farther side of the platform and ascends a framework which is used for the performers.

It is much of a question whether the dogs will be able to follow the scent and catch their victim in spite of the crowd that will be on the ground. Draper declares they can and will do it, but many wonder if it is possible.

*In connection with the recent Gans-* Nelson fight, the San Francisco Examiner made a remarkable record in reporting. The Goldfield-Frisco telegraph facilities are uncertain, and the stories of the fight which appeared in the Examiner the next morning might still have been trickling over the wires, had not their writers been taken to Frisco several hours sooner than any other witnesses of the fight could arrive. It was arranged that the Examiner special should pull out of Goldfield at 11 o'clock Monday night, and that it should *be made up of a locomotive and a sleeping* car. This left eight hours to get to Hazen, and meant an average speed of only about 40 miles an hour. But the fight was so prolonged that the six Examiner men could not get their work in Goldfield done in time to get away at eleven, and as the regular fight specials from Reno and Truckee were scheduled to leave close behind the Examiner spcial, there was a good deal of speeding about in automobiles of anxious railway officials in Goldfield before the tangle of delay was finally put *straight. And when the Examiner special* at length scurried out into the moonlit desert it hit a pace that on the down grade approximated 60 miles on hour. The fight staff, the only passengers, had flattered themselves that they would have a night of peaceful sleep, but found instead that they were very busy holding on to things. The sleeping car rocked and bounded and seemed to leap from one high place to another, the locomotive flew ahead, belching a long streamer of smoke and sparks. Switches were taken on the jump, water *was taken in gulps*, coal melted away like ice cream on a hot griddle. But the special got to Hazen just ten minutes ahead of the Limited, and just six hours sooner than the other specials got there.

Incidentally it is interesting to note the fierce denunciation of Nelson's "yellow streak" from the pens of the Examiner experts.

Karl Von Herrmann writes: When Battling Nelson crawled wearily under the ropes of the Goldfield arena at the end of his inglorious fight with Joe Gans he numbered *among his losses only one* which will be remembered as a badge of shame. The fight was lost, and he deserved to lose it, but the bravest and best have fought and lost fights that changed the map of the world without reproach. He lost the championship title that he coveted, no less deservedly, yet might have held his head high deprived of that distinction. But in losing his reputation for pluck he lost something beyond price and beyond redemption. It would have been better for him had he been beaten down and out in *the first round, better for him* had he yielded the purse and palm by being battered helpless to the mat, if only he had fallen like a man. A yellow streak is a miserable decoration.

Eight thousand people saw Nelson strike the craven blow that gave his negro opponent, prone in pain, the final victory. It was as spectacular an opportunity for a man to show his mettle as can easily be imagined. All those eight thousand gathered in that roaring mining camp from every quarter of the country, came prepared *to cheer with their eight thousand* throats for both winner and loser. There was a compliment in the assembling of so great a throng in such a far corner of the world that ought to have spurred even a despairing combatant to splendid victory. No actor, no preacher, no statesman, no singer, no orator now wearing laurel crown of fame could have drawn so many pilgrims from such tedious distances. Moreover, this crowd *was* different in many pleasant ways, than the crowd attracted to any previous fight in the history of pugilism. *To win its plaudits*, whether as conqueror or conquered, would have been something well worth doing. And to rouse it to hissing indignation, as Nelson roused it, ought to be like a drop of poison in the bitter cup of defeat.

The condemnation of W. W. Naughton, the Examiner's sporting editor, is just as severe: "Was it a fight?" he asks, and then answers:

It was not. There was *plenty of fighting* spirit shown, but the work done was of a patchy character. The chances are that *each man would have done* better if he had had a few pounds more of flesh on his frame. This thing of a pugilist naming a certain notch, knowing it will weaken him to make it, but figuring that it will weaken the other fellow a great deal more, should be frowned down, and the men who offer the purse should have something to say in regard to the weight conditions. Only then will champions and would-be champions *hew to rational lines* and the public get fair value for the money it pays for ring entertainment.

*Gans for a couple of weeks* had been telling how easily he made 133. He promised to give Nelson as good a fight as he gave Mike (Twin) Sullivan. Why, if Gans last Monday had had the strength and dash he displayed in the Sullivan fight the whole thing would have been over in four rounds.

With Sullivan, Gans had to fence and parry and study his subject before cutting loose. In the *Nelson affair it was not necessary* for the negro to make a feint at any stage of the game. All he had to do was to lash out with either glove and Nelson's face was there. What was lacking was knock out force, and it wasn't lacking in the bout with Sullivan.

It may be urged that Nelson is harder to hurt than Sullivan. For the sake of argument, granted, but isn't he easier to hit? And doesn't constant dropping wear away a stone? It is safe to say that Gans landed three blows on Nelson for every *one he landed on Sullivan.* The reason he knocked out Sullivan and failed to knock out Nelson is he was heavier and huskier when he met the Irishman than when he *boxed the Dane.*

As for Nelson, he didn't have half the zip he had in the go with Britt, while his ring manners were of the worst. Everyone remembers how he stooped and lifted Britt after the knockout blow and acted throughout the fight like a battler who possessed the chivalry that is always associated with true courage. Had it been his luck to put Gans to the floor up in the sage brush country I believe he would have jumped on the negro with both feet.

It savors of throwing water on a drowned *rat to be reverting to Nelson's foul tactics* when so many critics are taking a fling at him, but I desire to show thatt it was low condition possibly that soured the Dane and made him mean. In the Britt contest he finished as fresh as he begun, while in the bout with Gans he was a bedraggled looking Norseman before many rounds had passed. His ribs showed through his hide and there was sullenness and not animation in his look when he sat in his corner before the contest.

The watches ticked off 42 rounds, as everyone knows, but the *fighting* that took place might have been compressed into a dozen rounds without overcrowding them with action. And one of the main reasons for this was that the fighters had very little ginger left after the drastic preparation in the desert climate. Gans began to slow up very early in the game, his vim appearing to lose in edge after four rounds of brisk boxing, during which he simply toyed with the man before him. After that the colored lightweight loafed or spurted just as the notion took him, sometimes holding himself in reserve for two-thirds of a round and then starting a rally that lasted to the end of the round.

The attendance was remarkably patient considering that so many of the rounds were made up of two parts wrestling and one part fighting. If an exhibition of that kind were put before a San Francisco gallery it is highly probable that a number of new expressions signifying *disgust would be coined.*

# What is a Backache?

IT IS NATURE'S WARNING TO WOMEN

Diseases of Woman's Organism Cured and Consequent Pain Stopped by Lydia E. Pinkham's Vegetable Compound.

"It seems as though my back would break." Women utter these words over and over again, but continue to drag along and suffer with aches in the small of the back, pain low down in the side, "bearing-down" pains, nervousness and no ambition for any task.

They do not realize that the back is the mainspring of woman's organism, and quickly indicates by aching a diseased condition of the female organs or kidneys, and that the aches and pains will continue until the cause is removed.

Lydia E. Pinkham's Vegetable Compound has been for many years the one and only effective remedy in such cases. *It speedily cures female organs and kidney disorders and restores the female organs to a healthy condition.*

Dear *Mrs. Pinkham*:—

"I suffered a long time with female trouble, having intense pains in the back and abdomen and very sick headaches every month. I was tired and nervous all the time and life looked very dreary to me and I had no desire to live until I began to take Lydia E. Pinkham's Vegetable Compound and to get some relief. My recovery was slow but it was sure, and I never regretted the money spent for the Compound as it *brought me back to good health.*

"It seems to be a medicine especially adapted to the ills of our sex and I am glad to say a good word for it."—Mrs. Albert Mann, 154 Gore Vale Ave., Toronto, Ont.

No other person can give such helpful advice to women who are sick as can Mrs. Pinkham, daughter-in-law of Lydia E. Pinkham. Her address is Lynn, Mass., and her advice free.

Synopsis of Regulations governing the Disposal of Dominion Lands Within the Railway Belt in the Province of British Columbia.

A license to cut timber can be acquired only at public competition. A rental of $5 per square mile is charged for all timber berths, excepting those situated west of Yale, for which the rental is at the rate of 5 cents per acre per annum.

In addition to the rental, dues at the following rates are charged:

Sawn lumber, 50 cents per thousand feet B. M.

Railway ties, 8 and 9 feet long, 1 1-2 and 1 3-4 cents each.

Shingle bolts, 25 cents a cord.

All other products, 5 per cent. on the sales.

A license is issued so soon as a berth is granted, but in unsurveyed territory no timber can be cut on a berth until the licensee has made a survey thereof.

Permits to cut timber are also granted at public competition, except in the case of actual settlers, who require the timber for their own use.

Settlers and others may also obtain permits to cut up 100 cords of wood for sale without competition.

The dues payable under a permit are $1.50 per thousand feet B.M., for square timber and sawlogs of any wood except oak; from 1-2 to 1 1-2 cents per lineal foot for building logs; from 12 1-2 to 25 cents per cord for wood; 1 cent for fence posts; 3 cents for railway ties, and 50 cents per cord on shingle bolts.

Leases for grazing purposes are issued for a term of 21 years at a rental of 5 cents per acre per annum.

Coal lands may be purchased at $10 per acre for soft coal and $20 for anthracite. Not more than 320 acres may be acquired by one individual or company.

Royalty at the rate of 10 cents per ton of 2,000 pounds is collected on the gross output.

Entries for land for homestead purposes may be made personally at the local land office for the district in which the land to be taken is situated, or if the homesteader desires, he may, on application to the minister of the interior at Ottawa, the commissioner of immigration at Winnipeg, or the local agent for the district within which the land is situated, receive authority for some one to make entry for him.

A fee of $10 is charged for a homestead entry.

A settler who has received an entry for a homestead is required to perform the conditions connected therewith under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year during the term of three years.

It is the practice of the department to require a settler to bring 15 acres under cultivation, but if he prefers he may substitute stock; and 30 head of cattle, to be actually his own property, with buildings for their accommodation, will be accepted instead of the cultivation.

(2) If the father (or mother, if the father is deceased) of any person who is eligible to make a homestead entry under the provisions of th Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of the Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of the Act as to residence may be satisfied by residence upon the said land.

Application for a patent should be made at the end of three years before the local agent, sub-agent or a homestead inspector.

Before making an application for a patent, the settler must give six months' notice in writing to the Commissioner of Dominion Lands at Ottawa, of his intention to do so.

W. W. CORY,
Deputy of the Minister of the Interior.

## TELEGRAMS OF A DAY

RUSSIAN VILLAGE WIPED OUT BY A MUD SLIDE.

SPANISH NOBLES MEET IN BLOODY DUEL

Tiflis, Russia, Sept. 10.—Practically without warning, the side of a mountain, rising above the the township of Kwarel, broke away and in a sea of semi-liquid mud and stones, swept down on the township and overwhelmed and obliterated it. Some 255 persons have been buried alive. Fifty-five bodies already have been recovered from the wreck, which is about six feet deep. In addition to the devastated country countless numbers of cattle perished and the crops were destroyed. Kwarel township covers an area of five kilometers in the district of Tela-Caucasus. Such slides are of common occurrence in Caucasian valleys.

Lacombe, Alta., Sept. 10.—A serious conflagration occurred Saturday in the down town business portion of Lacombe, which consumed the following places of business: The Adelphi hotel; Charles Atkinson, barber; E. I. Pool, barrister; N. I. MacDiarmid, druggist; A. McCampbell, general merchant; C. L. Darie, lawyer; John McKenty, real estate; E. Titsworth, fruit and billiard hall; Dr. Aunger, dentist; J. H. Rose, druggist; C. R. Denike, jeweler; Morrison & Johnson's warehouse; Electric Light company's office. The fire brigade did heroic services, and to their efforts alone is due the fact that the handsome Merchants' bank block still stands, also the Victoria hotel, A. C. Burdick's general store, and Morrison & Johnston's hardware store.

The citizens did splendid work assisting the fire brigade and forming themselves into a bucket brigade. It is estimated that the property and stock burned will amount to between $75,000 and $100,000. The amount of insurance carried on buildings and stock consumed cannot be stated.

San Sebastin, Sept. 10.—As the result of a violent scene over a trifle at the Hotel Palais, the marquis Viana, king Alfonso's master of horse, and the duke of Andria fought a duel with sabres at dawn yesterday. The marquis received a cut in the head, and one of the seconds stopped the fight. Previous to the encounter, the marquis handed his resignation to the king. The seconds were all well known members of king Alfonso's retinue.

Rome, Sept. 10.—Today's meeting of the society of Jesus was opened after a short prayer with a speech in Latin by father Wernse the newly elected general of the society, who summarized the program of the order in its complex fields of religious, moral and educational work. Father Wernse ended his address by conveying to all present the apostolic benediction, as he had been chosen to do by the pope.

Halifax, N. S., Sept. 10.—Most Rev. Dr. McCarthy was today consecrated archbishop of Halifax, the celebrant of pontificial high mass being monseigneur Sbarretti. Other church dignitaries present were Racicot, of Montreal; Casey, of St. John; Cameron, Antigonish; Varelly, Chatham; Enard, of Valleyfield; archbishop Duhamel, Ottawa, and Drs. Race and Sheehan, of Washington university. The clergy of the diocese presented the archbishop with a golden chalice, and the laity with a check for $2,125.

Quebec, Sept. 10.—M. Waddington, former premier of France, minister of foreign affairs of several governments, and at one time French ambassador to Great Britain, is at the Chateau Frantenac. He is accompanied by captain and madame Waddington.

Toronto, Ont., Sept. 10.—Fourteen employees of the Consumers' Gas Co. were severely burned at the works today. The men were engaged in raising the massive lid of a purifier box, when there was a sudden rush of flame which enveloped all those engaged in the task. The box had become overcharged with gas. James Fargeter, a machinist who was examining the box at the time, had a marvellous escape, getting off with inhaling some of the flames. Other victims were burned about the face, neck or lower parts of the arms, which were exposed to the sweep of the flames. The men suffered severely when removed to the hospital, and kept the entire surgical force of the institution busy for some time relieving their injuries. None of them will die.

Toronto, Sept. 10.—H. W. Brick, who left some weeks ago, a defaulter to the extent of between forty and fifty thousand dollars, from the Henry K. Wampole Co., is said to be in Japan and his arrest is expected daily. In addition to his shortage with the company by whom he was employed, Brick is said to be indebted to the Toronto Baseball club, of which he was secretary-treasurer last season, in the sum of $3000.

Hamilton, Sept. 10.—Rev. Thomas Geoghegan, rector of St. Peters' church, died last night.

Woodstock, Ont., Sept. 10.—Rev. canon Farthing, rector of the new St. Paul's church in this city, has resigned to become rector of St. George's cathedral, Kingston.

London, Ont., Sept. 10.—Rev. J. E. Burgeon, for many years professor of classics in Western university here, has resigned to take up parochial work at Bothwell.

Mahoney City, Pa., Sept. 10.—After being idle since September 1, the '39 collieries of the Philadelphia & Reading Coal & Iron company in the Schuylkill field, employing 30,000 men and boys, resumed work today.

New York, Sept. 10.—Kuhn, Loeb & Co. today announced that they had engaged $2,500,000 in gold eagles in London for import.

CHAMBERLAIN'S COUGH REMEDY ACTS ON NATURE'S PLAN

The most successful medicines are those that aid nature. Chamberlain's Cough Remedy acts on this plan. Take it when you have a cold and it will allay the cough, relieve the lungs, aid expectoration, open the secretions and aid nature in restoring the system to a healthy condition. Thousands have testified to its superior excellence. It counteracts any tendency of a cold to result in pneumonia. Price, 25 cents. Large size 50 cents. For sale by all druggists and dealers.

STOPPED U. S. VESSEL

Mexican Gunboat Makes Captain Show His Papers

Galveston, Sept. 10—The American fishing smack *Hatteras, belonging to the Gulf* Fishery company of this port, reached here today from Mexican waters, where her commander states he was held up by a Mexican gunboat on August 25, while seven miles off Triangular reef, in the middle of the gulf of Campeche. Armed Mexican marines boarded the Hatteras and ordered the captain to show his papers and also to open his hatches and display part of his cargo of fish, which had been caught on the open sea on the passage down to the banks for a full cargo. The Hatterns was at the time a great distance outside the shore limit and under full sail for the fishing banks. Manager Munn of the Gulf Fishery company, wired the state department requesting immediate action for the necessary protection of American vessels while fishing in the open sea or proceeding to and from the common fishing waters.

**Gin Pills Cure Sick Kidneys**

**OR YOUR MONEY BACK.**

This is the guarantee with every box. That shows our confidence in Gin Pills. That proves, too, that it won't cost you a cent if Gin Pills fail to bring relief. Buy them with that understanding.

"Sept. 30th, 1904.

"I have been troubled with rheumatism, bladder trouble, and pain and weakness in my back for several years. I sent for a sample of Gin Pills. The rheumatism left me at once. I now send for a full box, and if they prove as you say you will hear from me again.

"P. C. SMITH, South Orrington, Me."

And we did hear from Mr. Smith again:

"Nov. 7th, 1904.

"Enclosed I send P.O. order for $2.50 for 6 boxes of Gin Pills.

"Yours truly, P. C. SMITH."

We know your experience will be just like Mr. Smith's—because we know what Gin Pills can do. They never fail, even in the most severe cases. No matter what your experience has been with doctors and medicines, don't give up until you try Gin Pills. It is because they are different that they cure. Try them and get relief. If you will send us the name of the paper in which you read this we will send you a sample box of Gin Pills absolutely free. You can thus test them and see for yourself whether or not they are all we claim for them. They are for sale at all druggists. 50c a box—6 boxes for $2.50. The Bole Drug Co., Winnipeg, Man.

## INQUEST ON McGARVEY

FINDING OF CORONER'S JURY AT CRESTON.

DEATH WAS AGGRAVATED OR CAUSED BY ASSAULT.

Coroner Arthur returned from Creston on Sunday evening, where he made a postmortem examination on the body of Hugh McGarvey, the C. P. R. night watchman, who died on Saturday morning last, after having been brutally assaulted by Lachlan Bruce earlier in the week.

At the inquest held in Creston by E. Mallandine, J. P., of Cranbrook, the jury found:

"That Hugh McGarvey died of pneumonia, aggravated or caused by the injuries he had received from Lachlan Bruce on the morning of September 4th."

Bruce is being detained in the provincial jail here and upon the return of chief constable Bullock-Webster from Midway, today or tomorrow, an information will be laid against him, presumably charging wilful murder.

CORINTHIANS WIN AGAIN

New York, Sept. 10—The association football game between the Corinthian team of London, England, and the picked team from the all New York Association, resulted: Corinthians, 13; New York, 0.

PAIN FROM BURN PROMPTLY RELIEVED BY CHAMBERLAIN'S PAIN BALM

A little child of Michael Strauss of Vernon Conn. was recently in great pain from a burn on the hand and as cold applications only increased the inflammation, Mr. Strauss came to Mr. James N. Nichols, a local merchant, for something to stop the pain. Mr. Nichols says: "I advised him to use Chamberlain's Pain Balm and the first application drew out the inflammation and gave immediate relief. I have used this liniment myself and recommended it very ofte nfor cuts, burns, strains and lame back, and have never known it to disappoint." For sale by all druggists and dealers.

## NOTICE

NOTICE is hereby given that the Canadian Pacific Railway Company, as lessee of the Columbia and Western Railway Company, have this day filed in the District Land Registry Office at Nelson, a plan, profile and book of reference showing the proposed location of a branch line to the China Creek Lumber Company's timber limits near Castlegar, and that four weeks after this date the said Canadian Pacific Railway company intend to apply to the Board of Railway Commissioners for Canada, under section 175 of the Railway Act, for authority to construct the said branch.

Dated this 18th day of August, 1906.

R. MARPOLE,
General Superintendent.

## Synopsis of Canadian Homestead Regulations

ANY available Dominion Lands within the Railway belt in British Columbia, may be homesteaded by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres, more or less.

Entry must be made personally at the local land office for the district in which the land is situate.

The homesteader is required to perform the conditions connected therewith under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year for three years.

(2) If the father (or mother, if the father is deceased), of the homesteader resides upon a farm in the vicinity of the land entered for, the requirements as to residence may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements as to residence may be satisfied by residence upon the said land.

Six months' notice in writing should be given to the Commissioner of Dominion Lands at Ottawa of intention to apply for patent.

Coal lands may be purchased at $10 an acre for soft coal and $20 for anthracite. Not more than 320 acres can be acquired by one individual or company. Royalty at the rate of 10 cents per ton of 2000 pounds shall be collected on the gross output.

W. W. CORY,
Deputy of the Minister of the Interior

## NELSON'S NEWS OF THE DAY

The Young People's society of St. Paul's church will not hold their usual meeting tonight, the meeting having been postponed till tomorrow evening.

Before police magistrate E. A. Crease yesterday D. Cameron was charged with neglecting his horses. The case was remanded for a week.

A meeting will be held in St. Paul's Presbyterian church hall tomorrow evening at 8 o'clock, which will be addressed by Miss Robinson, originally secretary of the Women's Home Missionary society of the Presbyterian church. The meeting will be open to all comers.

A quiet wedding was celebrated in the parlor of the Hume hotel on Sunday evening at 9 o'clock, when Rev. J. T. Ferguson united in marriage John Oliver Covington of Greenwood, and Miss Winifred Alberta Macmillan. The bride has been a resident of Slocan for a long time and will be greatly missed there. Mr. and Mrs. Covington leave for their home in Greenwood this morning.

Rev. J. G. Shearer of the Dominion Lord's Day Alliance, is expected to reach this city tomorrow night. He will address a meeting on Thursday evening in the Methodist church on the work of the Alliance in obtaining the Lord's day act at the last session of parliament and the practical working out of the measure. No doubt while he is in the city the reverend gentleman will be pleased to learn how the act in question is regarded locally and to explain further amendments sought by the Alliance.

### IN CHAMBERS

Application Disposed of Yesterday Before County Court Judge

Halpin vs. Fowler; R. M. Macdonald applied on behalf of the defendants for a stay of execution pending an appeal from a county court judgment recently given at Kaslo. C. W. McAnn, K.C., Kaslo, contra; order granted.

In re Malcolm McKinnon, deceased; C. W. McAnn, K.C., obtained an administration order. Estate placed under $225. The deceased was formerly purser on the steamer Kaslo, and met his death in the accident at Beaver canyon on the Great Northern in July last.

Sturgeon vs. Conway; J. O'Shea obtained an order for payment out of the monies in court.

Blomberg vs. Moyer; J. O'Shea obtained an order for substitutional service of writ of summons.

Elk Lumber Co. vs. C.N.P.C. Co.; R. M. Macdonald applied for security for costs of appeal. Order granted; security fixed at $150.

Scully vs. McBratney; J. O'Shea obtained an order for service of summons without the jurisdiction of the court.

Knestner vs. Martin; C. W. MacAnn, K.C., applied for payment out of monies in court. Stands a week for notice to be given.
