SITUATION IN EGYPT

Sir Edward Grey Makes Important Deliverance in Commons

Says Recent Attack on British Not Accidental, But Deliberate, and Drastic Measures May Be Necessary

London, July 5.—Parliament and the country were given a surprise tonight by an unexpected and sensational speech by sir Edward Grey, the foreign secretary, on the situation in Egypt.

An interesting debate on foreign affairs had been anticipated when the house of commons took up the foreign estimates, but on account of Russia and the Congo affairs rather than Egypt.

All other subjects, however, were temporarily forgotten when the house realized the momentous character of sir Edward Grey's deliverance with regard to Egypt.

Speaking in a solemn tone, and amid a tense silence, the minister declared that the recent attacks on British officers at Tantab, were not accidental, but a deliberate manifestation of the garrison in Egypt, and he added that unless the authority of lord Cromer and the Egyptian government were strongly upheld it might lead to a situation requiring the adoption of such measures to meet the emergency as would be especially distasteful to the liberal government.

During the consideration of the foreign estimates several members offered criticisms and especially urged that a fleet be not sent to Cronstadt.

John Dillon, nationalist, strongly denounced what he termed the brutal barbarism of floggings and executions in Egypt, accusing sir Edward Grey with a desire to cloak the affair.

Sir Edward Grey in a general reply stated that all foreign relations were friendly. With regard to the Egyptian affair, he accepted full responsibility and pointed out that danger might arise when dealing with eastern peoples through discussions of this kind. The secretary proceeded to refer to the growth of fanatical feeling in Egypt and throughout North Africa recently, which might necessitate even further measures to protect Europeans in Egypt and, speaking in a solemn manner, said:

"As things are now, I say deliberately, and with a full sense of responsibility, if parliament desires at this moment to weaken or destroy the authority of the Egyptian government, you will come face to face with a very serious situation. For should fanaticism get the better of constituted authority, there might arise the necessity for extreme measures."

Dealing with the Congo question, the foreign secretary said he distrusted the proposed reforms, because the system was wrong. He disliked trading companies, and believed the root of the whole mischief was in the system under which the state itself was a trading company and monopolist companies held administrative power.

If other powers would join Britain in insisting upon reforms the government would welcome them. If the Congo state talked of its right, sir Edward said Great Britain also had rights. The question of the reservation of areas for private properties must be dealt with.

He believed it would be beneficial to resume British consular jurisdiction, but it would be discouraging Belgium from taking over the Congo government and therefore he thought the government should wait, but they could not wait forever.

With reard to the proposed visit of a British fleet to Cronstadt, the foreign secretary said he felt assured that the central government of Russia neither was aware or or had connived at the recent unfortunate occurrences.

No interference from the outside would strengthen a reform party, but rather the reactionaries, or revolutionaries. As a British fleet was in the Baltic last year and had not visited Russian ports, it would be remarkable if the fleet should not do so this year. He hoped the usual civilities would be observed. The fleet would go entirely without reference to Russian internal affairs. It would be impossible to make a change now without giving color to the suspicion that Great Britain was taking sides. The visit would be in a friendly spirit to pay compliments to emperor Nicholas and the Russian nation. Sir Edward said he could not imagine the Russian parliament interpreting the visit as taking sides. The only safe rule in the present Russian trouble, he added, was to avoid comment and interference. Through all that was happening there were signs that the vitality, energy and character of a great people were working to a great end.

TO ARBITRATE TROUBLES

Guatemala and Salavador Make Overtures to United States

Washington, July 5.—Guatemala and Salvador are making overtures for the arbitration of their troubles resulting from the alleged activity of Salvador in supporting the revolutionary movements against general Cabrera, of Guatemala, and it is likely that the United States will be selected as the country in whose the board of arbitration will meet. The American state department has been advised of the desire of the two countries, which are almost at the point of making war against each other, to have their difference settled by arbitration and there seems to be but little doubt that an amicable settlement finally will be effected.

At the first intimation of outside interference in Guatemalan affairs, the state department sent the Marblehead from Panama to prevent meddling and Mexico and the United States both made it clear that they would look with disfavor on any combination of central American powers to overthrow president Cabrero of Guatemala.

PREPARING FOR REGATTA

BIG EVENT TO TAKE PLACE ON JULY 27 AND 28.

NELSON BOAT CLUB OFFICIALS GETTING BUSY.

The boat club officials, who have charge of the N. P. A. A. O. regatta on the lake on July 27 and 28, have at last got down to work and active preparations for this big event are now under way.

An important meeting was held in the Nelson Boat club last evening when matters were put in something like definate shape.

The following officials and committees were appointed to take charge of the events:

Comomdore—A. Whealler.
Vice-Commodore—Dr. Hall.
Ensign—C. Waterman.
Umpire—R. C. Hart.
Starters—F. D. Arundel and L. B. DeVeber.
Judges—Capt. Gore, A. H. Buchanan, W. H. Kent.
Official Timekeeper—A. Ker.

COMMITTEES

Entertainment — Messrs, Smyth, Wragge and Arundel.

Finance—Messrs. Fraser, Teague, Wragge.

Program—Messrs. Nott, Manhart and Sharpe.

Course—Capt. Gore, Messrs. Hunter, Larsen, Manhart and McIntosh.

Decorations—Messrs. A. Perrier, Fotheringham, Hopkins, Hearn, Bell, Johnstone, Ledwell, H. Manhart, Patenaude, Bell Cummins Geo. Gore and W. Davidson.

Reception—Messrs. H. Briggs Buchan, deVeber, Beattie, Gillespie, Gibbs, Procter, Robinson, Gillam, Kurtz, Leith, Seatle, McLean and chief Deasy.

It was decided to allow no members on the club float during the regatta days without the production of their membership cards. Those who have not yet received their cards should apply to the secretary at once for them.

For the ladies it was decided to hold double and single canoe and skiff races as part of the program.

Members who intend to participate in the club races during the regatta must enter their names with the secretary before Saturday.

The crew to represent the local club in the fours will be composed of the following: F. Nott, stroke; N. McIntosh, R. Sharp and Archie Bishop.

Should it be possible to secure a second shell a second crew to be picked from the following will be entered: Messrs. Arundel, Manhart, Poole, Teague, Johnstone and H. Bishop.

It is expected that the Vancouver, James Bay (Victoria), and Portland clubs will enter both junior and senior fours, and also doubles and singles from each city.

Portland is training hard. Gloss and a couple of university of California oarsmen are acting as coaches and Fred Smyth, sporting editor of the Telegram, says that the four from the American city will take some beating.

The committees have been a long time in getting down to work and they should realize that it will require steady work from now on to be ready in time and to have the regatta properly arranged and advertised.

RECORD MOUNTAIN CLIMB

Rome, July 5.—King Victor Emmanuel today received a telegram from the duke of Abruzzi, a cousin of his majesty, filed at Nganda, Central Africa, announcing that on June 18, he had succeeded in reaching the summit of Mount Ruvenzori, which had never been climbed. The mountain is situated between Albert Nyanza and Albert Edward Nyanza and is about 18,000 feet above the level of the sea. The king sent the duke a message warmly congratulating him upon his latest achievement.

FROM OLDEST TO YOUNGEST

London, July 5.—A large number of signatures of members of parliament have been obtained to a message to the Russian parliament, extending the congratulations of the oldest to the youngest parliament, and expressing the hope that some of the members of the latter will attend the international arbitration convention here in July.

OVERRATES LLOYDS' A1.

John A. Thomson, steamboat inspector of the Dominion marine and fisheries department, stationed at Victoria, spent yesterday in fully inspecting the C. P. R.'s new steamer Kuskanook at this port. Inspector Thomson stated last evening that the new steamer overrates Lloyds' A-1 and fully satisfies the department's requirements in all respects. One result of Mr. Thomson's inspection, and the subsequent issue of his certificate will be that the Kuskanook will be available for next Sunday afternoon's excursion up the lake from 2 to 6 p.m. No doubt a large crowd will take the opportunity offered of taking in the first sail under commission. Whether the 20,000 club have been able to obtain the steamer for an excursion next Thursday afternoon, or on just what date the new steamer will start on her run to Kootenay Landing was not announced last evening.

NO FAVORS TO BE SHOWN

PROSECUTION OF STANDARD OIL WILL BE GENUINE

SUITS WILL BE BASED UPON MASS OF EVIDENCE.

Minneapolis, July 5.—Milton J. Purdy, assistant attorney general of the United States, has arrived here from Washington, for a few days' rest before entering into conference with the attorney appointed by the government for the investigation of the affairs of the Standard Oil company.

In an interview Mr. Purdy said: "I am really not yet in a position to give out anything very definite in the way of news, but I can say this much, and that is that when the evidence in the case of the government against the Standard Oil company is all in, and those appointed for the purpose, have decided as to the nature of the suits to be instituted, that there will be no favors shown to anybody.

"We intend to go after everybody who has violated the law, no matter how high up in that corporation their stations are. That is to be a part of our campaign and we intend to perform it to the very best of our ability.

"Frank B. Kellogg of St. Paul, and O. K. Morrison of Chicago, have been engaged by the government as counsel in this case, and I am to be associated with them on account of the fact that I have been going into these matters almost from the beginning of my term at Washington.

"James R. Garfield, commissioner of corporations in Washington, has been going into the affairs of the Standard Oil company for over two years, and has submitted a great mass of evidence and testimony, which we will proceed to go over next week. I shall probably remain here for at least two weeks, until we get through our work. Mr. Morrison of Chicago, will probably get here in a day or two, and we will then get busy.

"I do not think it is necessary to make any statements in regard to the attitude of Mr. Roosevelt, more than has already been said, to the effect that this matter will be pressed to a conclusion. Our work at present is merely to find out from this testimony what suits and what kind of suits shall be instituted."

LOSS OF GRAND CHALLENGE CUP

Causes Britishers to Wonder if Their Rowing Methods are the Best

London, July 5—The capture of the grand challenge cup by the Belgian crew, representing the club Nautique, provokes much newspaper comment and searchings of heart on the debatable question of British and foreign styles of rowing. The majority of rowing men appear to still pin their faith to the Eton swing as against the Belgians' short stroke and are inclined to think that had the Leanders been able to put in a representative crew to defend the cup, the Belgians would have been defeated.

The Daily Graphic thinks the incident is likely to accentuate the anti-foreign agitation and express the hope that if any change is made it will be in the direction of providing and endowing an extra national race at Henley, and not for the exclusion of foreigners, adding that in case the proposal of Mr. Fletcher, the Oxford coach, that in future no entries for the Henley regatta from any American rowing club be accepted, should be adopted, it would be almost a national calamity.

The Times expresses the hope that the stewards will discover a less drastic way out of the difficulty than coach Fletcher's harsh and invidious proposal to exclude Americans.

YMIR NEWS NOTES

(Special to The Daily News)

Ymir, July 5—W. Skoeing of Boundary, Wash., has secured from G. H. Barnhart a contract to run 100 feet of tunnel No. 4 at the Porto Rico mine, the price being in the neighborhood of $13 a foot.

John Sinclair, who for 17 years has run on the S. F. & N. railway as conductor, has taken a six months' lay off, during which time he will act as trainmaster for D. C. Corbin on the Spokane & International. Mr. Sinclair was one of Corbin's first employees.

John Lang, who had his left hand blown off at Salmo yesterday by giant powder, is doing nicely and bids fair to make a speedy recovery. At the Ymir general hospital there are now eight patients and the staff is kept busy.

Mrs. A. B. Buckworth has returned from a vacation at Vancouver.

Saturday the Ymir public school closed for the summer vacation. An examination was held on Friday and Saturday and the children had a picnic. Principal J. N. McDonald during the short time that he has been in charge of the school has worked a great improvement with his scholars, particularly along the line of discipline. It is to be hoped that his services can be secured by the trustees for the coming term.

EASY MONEY FOR WIRE TAPPERS

Detroit, July 5—A gang of wire tappers cut in on the Windsor race track wire today and intercepted and changed the result of the second race. Confederates in Cincinnati, Chicago, Louisville and other cities all over the country won large sums of money on the horse sent over the wires as the winner of the race.

An attempt was made to make another haul on the third race, but the operator at the race track discovered that some one had tampered with the wires.

MORE TROOPS DISAFFECTED

Two Regiments at Samara Mutiny and Refuse to Return to Duty

Ferment Among Soldiers and Sailors at Odessa and Sebastopol---Rioting Reported at Vladivostok.

St. Petersburg, July 5.—Despatches received here today from Samara state that two regiments garrisoning that important provincial capital had mutinied and presented a series of political and service demands. The officers promised to satisfy the service demand if the mutineers would return to duty, but the men replied that they would be satisfied only with compliance with all of their demands.

The mutineers still command the situation, but are not indulging in excesses. The situation is complicated by the fact that in Samara, the revolutionists are pushing a movement to proclaim a republic in case a general strike is declared.

The ferment among the soldiers and sailors at Odessa and Sebastopol continues. No inkling of the reported rioting and pillage at Vladivostok has reached the Russian public but the military authorities who control the telegraph would be able to withhold for days any news of such conditions as they did of the last uprising there.

London, July 5.—The correspondent at Tokio of the Daily Telegraph reports that the East Asiatic Steamship company's steamer Colon, which left Vladivostok on account of disturbances, reports that store houses in Vladivostok were closed by police orders and that on June 30 thirty ringleaders of the rioters were arrested and eight big cases of dynamite seized by the Cossacks.

The same correspondent states that the Russian volunteer steamer Killa, laden with military stores, struck a mine in Possiet bay and sank.

The executions in Harbin in connection with the revolutionary movement, the Daily Telegraph's correspondent further says, numbers 600.

St. Petersburg, July 5.—Today M. St. Chepkin presented the Bialystok report. In a speech accompanying it, he emphasized the inefficiency of M. Stolypin's measures in the early stages to stop the rioting and said that police lieutenants and other organizers of the rioting at Bialystok acted under secret inspiration and influences more powerful than the minister, thus plainly indicating general Trepoff, although his name was not mentioned.

He enumerated the following assertions.

First—That no religious prejudice existed to warrant the measures.

Second—That the rioting was deliberately prepared by accusing the Jews of being revolutionists.

Third—That the day of the riot was announced in advance by the authorities.

Fourth—That the administration and the troops acted lawlessly in permitting the systematic killing of Jewish peasants, including women and children, under the guise of suppressing a revolution and that six of the military and civil authorities not only assisted but participated in the murders, tortures and robberies.

In conclusion M. St. Chapkin presented the resolution of the committee that interior minister Stolypin and war minister Rudiger be interpellated, asking if steps have been taken to prosecute the guilty civil and military officials.

St. Petersburg, July 5.—The council of the empire spent the whole of the day discussing rules of order. The relative strength of the reactionary and liberal wings was shown on the vote on the proposition to deprive members of the council of the right of popular petitions which was rejected by a large majority after a warm debate.

The fall of the Goremykin ministry is probably postponed because of the refusal of the constitutional democrats to participate in a coalition cabinet.

The double method the government is adopting to counteract the revolutionary spirit among the workmen is illustrated by a proclamation issued today by the prefect of police of Moscow. While prohibiting under heavy penalty open meetings, the carrying of arms and the inciting of strikes, it orders employers of manual artisans, such as bakers and shoemakers to introduce the 10 hour day instead of the 12 hour day, not to require Sunday labor and to improve the feed and lodgings of employees.

The prefect also has ordered that striking building trades employees shall be expelled from Moscow.

The Moscow city council has decided the relief of unemployed shall not be extended to strikers.

Police activity against the "patriots" who are trying to incite anti-Jewish uprisings, is reported from various sections of the country. The local authorities evidently have taken warning from the change in sentiment in official circles at St. Petersburg since publicity was given to the Bialystok events. The policeman of Bialystok who was caught firing revolver shots which were ascribed to a Jewish revolutionist, precipitating a renewal of the massacre there, has been dismissed. He pleaded that he was drunk.

The projected visit of a deputation of the lower house to the interparliamentary conference at London probably will be abandoned. Representative men cannot be spared at present and the leaders are afraid of the irresponsible utterances of "featherweights."

PASSED TO HIGH SCHOOL

SUCCESSFUL SCHOLARS IN EAST AND WEST KOOTENAY.

RESULTS OF EXAMINATIONS AT RURAL SCHOOLS.

In the rural centres of the province 227 candidates entered for the high school entrance examinations last month. Of this number 140 passed and are now qualified to attend a high school. Fernie and Golden occupy first place in successful competitors, as the whole number entered in each instance passed.

Results in inspectorate No. 3, embracing east and west Kootenay—Number of candidates, 49, passed 35.

Cranbrook Centre.

Cranbrook—Number of candidates, 6, passed, 2. Louis W. Stewart, 588; Gladys M. Gaskill, 558.

Fort Steele—Number of candidate 1, passed 1. Walter G. Tannhauser, 600.

Moyie—Number of candidate 3, passed, 1. Arthur F. Crowe, 667.

Wardner—Number of candidates, 1; passed 1. Muriel I. Sheppard, 576.

Fernie Centre.

Elks—Number of candidates, 1, passed 1. Inez B. Holbrook, 586.

Fernie—Number of candidates 7; passed, 7. Viola White, 689; Margherita Carosella, 678; Bessie Hazell, 668; Raymond Giddings, 639; Leota Pollock, 636; Euphernia McCliment, 601; Harry Pollock, 599.

Greenwood Centre

Boundary Falls—Number of candidates 4, passed, 0.

Greenwood—Number of candidates 3, passed 3. Dorothy S. Yates, 702; Ray Parker, 649; Lila E. Rowe, 576.

Midway—Number of candidates 2; passed 2.—Kathlee S. Ferguson, 736; Idelle Scott, 664.

Golden Centre.

Galena—Number of candidates, 1, passed 1. Mary H. McIntosh, 645.

Golden—Number of candidates, 7; passed 7. Dorothy C. Jones, 831; Margaret Nealon, 723; Owena Starforth, 700; Joseph Nealon, 685; Katie R. Kenny, 649; Minnie Adams, 583; Arnold Hanna, 562.

Wilmer — Number of candidates, 1, passed 1. Celestia Bennett, 734.

New Denever Centre.

New Denver—Number of candidates, 1, passed 0.

Sandon—Number of candidates 3, passed 2. Neil McIntyre, 607; John Cumming, 597.

Slocan—Number of candidates 7, passed 6. Mary Binnish, 741; Alma Baty, 679; Annie Rae, 626; Charles A. Tipping, 605; Ellen Terry, 599; John W. Baty, 591.

Three Forks—Number of candidates, 1; passed, 0.

MAPLE LEAF ORE BODIES

(Special to The Daily News)

Grand Forks, July 5.—Word reached here today from Franklin camp that while doing development work on the Maple Leaf property immense ore bodies, of a size and character which have never been equalled in the Boundary, were uncovered. A. F. Stewart has been stripping two leads on each side of a porphyry dyke. Each of these leads is at least 100 feet wide and have been opened up on the surface for a distance of 2000 feet. The longest open cut is 90 feet long, driven across No. 1 ledge, and is in copper ore assaying from 5 to 20 per cent, with $3 in gold and silver. Everywhere any stripping has been done the same character of ore is exposed.

ALICE IN PARIS

Paris, July 5—Representative and Mrs. Longworth have arrived here and were met at the station by ambassador McCormick and the staff of the American embassy and representatives of president Fallieres and the foreign office.

The crowd at the station showed much curiosity to see president Roosevelt's daughter, lining the platform and saluting respectfully. The party were escorted to the American embassy where they are the guests of Mr. and Mrs. McCormick. Several interesting functions will be given in honor of Mr. and Mrs. Longworth, including a reception by president Fallieres.

UNION SECRETARY ARRESTED

New York, July 5.—Samuel Platt, secretary of the Housesmiths and Bridge men's union was held in $2,500 bail in the police court today on a charge of grand larceny.

Louis Miller swore to a warrant on which Platt was arrested, that he had paid Platt $200 for credentials certifying that he (Miller) was a member of the Housesmiths' and Bridgemen's union

TOUCHED AMERICAN HEARTS

London, July 5—Ambassador Reid has sent a letter to queen Alexandra's private secretary saying that her majesty touched all American hearts by the sorrow which she manifested and her tender sympathy with the suffering survivors and the bereaved relatives and friends of those who were killed in the recent railroad wreck at Salisbury.

AFTER ICE DEALERS

Little Rock, Ark., July 5—Attorney general Rogers today filed suits against local ice dealers under the anti-trust law and alleges combination to prevent competition. The attorney general asks for an assessment of the penalty of $5000 against each for every day since March 25.

Suits were also brought against Morris and company of New Jersey, packers and dealers for a penalty of $1,915,000 and costs for alleged complicity.

PROROGATION IN SIGHT

PARLIAMENT PROBABLY ADJOURNS ON WEDNESDAY NEXT

RETAIL MERCHANTS WANT SAME RIGHTS AS LABOR MEN

(Special to The Daily News)

Ottawa, July 5—About 200 members of the retail merchants association of Ontario and Quebec waited on premier Laurier and Hon. A. B. Aylesworth today and asked that leave be given them by amendment to the criminal code to meet and combine together to discuss trade matters in the same way as labor men do. The delegation asked that the word "unlawfully" be placed in section 520 of the code before "conspire" and "unduly" before "restrain" so that it would only apply to those who unlawfully conspired to unduly restrain trade. Laurier said he would consider the matter.

Killiman, chairman of the railway commission, will go to the Yukon in August when the question of rates on the White Pass railway will be enquired into.

Prorogation is expected on Wednesday next.

NELSON'S NEWS OF THE DAY

Maxwell Smith, J. C. Metcalfe and T. A. Brydon, the three speakers at last night's meeting in the board of trade rooms left this morning for Creston where they will speak today. Tomorrow there will be a meeting in Cranbrook and then the coast party will return west, Mr. Smith going into the Okanagan country, and Messrs. Brydon and Metcalfe going to Revelstoke, where they will address a meeting on their way home. Mr. Smith is really engaged in making a tour of all the fruit growing sections of the province in order to make up a report for the dominion authorities and his joining in with the provincial men has been merely incidental.

J. P. McGoldrick arrived up from Spokane yesterday and will return this morning. Asked about the plans for the new sawmill that is to be erected on the old tramway park land, Mr. McGoldrick said: "I have nothing new to tell you. I do not expect that we can start until next year. My only object in coming here at this time is to consult with Mr. Procter and go over the plans and surveys of our timber limits that are being prepared by W. S. Drury. As to the erection of the new mill I can tell you nothing except that we are too busy in Spokane at present to give our attention here just now; possibly later in the season I can speak more definitely, but I do not think we will begin operations at the mill here until next year. I return to Spokane this morning."

Yesterday was a record breaker this year so far as hot weather is concerned. The representative of the dominion weather bureau here certified last evening that the glass reached 94 yesterday afternoon between 2 and 3 o'clock. This point was reached but not exceeded here in 1904, '05 and '06, so that yesterday's figure is only a record for this year so far. The thermometer from which the figure given was taken, was supplied by the dominion weather bureau stationed at Toronto. It hangs in a specially contrived and ventilated box and the glass itself being carefully marked, it is supposed to be as nearly correct as it is possible to get. The glass ranged yesterday for the 24 hours ending at 10 p.m. from 56 to 94. Quotations have appeared in these columns earlier in the week from the glass hung out in front of the Canada Drug and Book company's store on Josephine and Baker streets. Usually this glass has recorded 2 degrees higher than the official one, but yesterday its highest point was 91, or 3 degrees lower.

RAIN MAKER FAILED

Yukon Hydraulic Works Closed for Want of Water

Dawson, July 5—Hatfield's rainmaking contract is cancelled. Subscribers to the Hatfield fund will call a meeting and disclaim further connection with the transaction. All subscribers have decided that he has not delivered the goods and it is foolishness to temporize further. All hydraulic works are closed for want of water.

Peter Smith, a well known saloon man, is held without bail on a charge of perjury. Smith was a witness in the theft case against Violet Barnett, who was alleged to have stolen $80 from a miner, but was discharged for want of evidence.

On Dominion day the first passenger train on the Klondike Mines railway left here on an excursion to Grand Forks.

Information has been laid against detective Welsh of the Mounted Police by Jos. Clarke, a barrister. He is charged with receiving money from gamblers in 1903. Welsh was represented by George Black. He urges a speedy trial. Judge Dugas fixed his bonds at $2000.

The Dewey cigar store was raided early yesterday morning by the police. The proprietor and 30 players were warned to appear in court and were fined $20. The proprietor was fined $30.

CYCLONE STRIKES CANNES

Cannes, July 5—A destructive cyclone swept over this section today and railroad traffic has been stopped owing to the tracks being blocked with trees Many houses were unroofed and many fishing smacks were dashed to pieces on the rocks.

CAPITALIST'S SON DROWNED

Ashland, N. H., July 5.—H. McK. Twombly, Jr., 18 years old, and the only son of H. McK. Twombly, a well known New York capitalist, was drowned while swimming in Big Squam Lake, Holderness, N. H., today.

MISCARRIAGE OF JUSTICE

Anti-Semitic Hatred Was Cause of Conviction of Dreyfus

Eloquent Plea by Advocate Monard That Verdict Against Unfortunate Jewish Officer Be Quashed Without Retrial.

Paris, July 5.—M. Monard, counsel for captain Alfred Dreyfus, before the court of revision, today made his closing address on behalf of his client. It was a strong appeal for the annulment of the original verdict without another trial.

The advocate gave a new phase to the proceedings by cutting loose from historical details and asserting that anti-Semitic hatred had been the primary cause of a miscarriage of justice. He argued that Dreyfus had been convicted not as an individual officer, but because he was a Jew. Even before the charge of treason first arose anti-semitism had reigned supreme not only in military circles, but in the whole of France. The ideal of the superior officers at that time was to exclude Israelites from the higher military grades, the same as had been done in Germany. However, the continuous and unrelenting attempts of generals to prevent Dreyfus becoming a member of the army staff were unsuccessful. Dreyfus passed brilliant examinations in the staff college and entered the ministry of war. There he found fanactical anti-semiticism equally rampant. His brother officers treated him from the beginning as likely to be a traitor. Every act of his was regarded with suspicion, merely because he was an Israelite.

Eventually, when the affair of the treason occurred, the resemblance of handwriting was regarded as sufficient proof of guilt. During the first trial and the revision by the military judges, the witnesses started with the fixed idea that, being a Jew, Dreyfus necessarily was a traitor. The witnesses did not hesitate to suppress evidence in his favor and even committed forgeries in order to establish his guilt. Monard, however, said he relied upon the present judges to act without bias and quash the verdict without a retrial.

WASHED DIRTY CITIZEN.

Port Jervis, N. Y., July 5.—There has been a good deal of excitement in Callicoon, N.Y., caused by the formation of a cleansing committee organized by its citizens to keep one or more of its citizens clean. One in particular was Obadiah Osterhout, one time an officer of police. Obadiah had a bad habit of not washing and wearing too many shirts. When one shirt became dirty, instead of taking it off and substituting another, he slipped another one over it. Yesterday the "working force" of the cleansing committee seized Obadiah and hustled him down to the Callicoon creek, despite his vigorous protestations. They soused and scrubbed the man thoroughly until it is said that he shed twelve old shirts.

GOSSIP-MONGERS BUSY

New York, July 5—Conflicting stories as to the existence of an affidavit made by Evelyn Nesbit in a breach of promise suit which, it is claimed, she took steps to bring against Harry Thaw prior to her trip to Europe and marriage later to the young Pittsburg millionaire, were told today by persons interested in the investigation of the Thaw-White murder.

Early in the day assistant district attorney Gavan was quoted as saying that there was no truth in the story that he expected to come into possession of the alleged affidavit and further that he had no reason to believe that such a paper existed.

CANADA'S FAIR FUTURE.

London, July 5.—Of Canada's birthday the Times says: "Never have the auspices of Canada's future been fairer than today; never have the patriotic faith and confident assurances of the late sir John A. Macdonald and his fellow workers found a more triumphant vindication. The dis heartening winter of neglect is at last breaking up and today Canada bids fair to justify the proud boast that the twentieth century would belong to her." The Times also points out the growth of imperial sentiment.

G. T. P. ROLLING STOCK

Winnipeg, July 5.—Arrangements are being completed by the Grand Trunk Pacific railway for the transportation of 289 cars, engines and steam shovels from Montreal to Portage la Prairie, the point at which the construction of the new transcontinental line commences. These cars and locomotives form Grand Trunk Pacific rolling stock, and their movement to the west means the inauguration of advanced construction work.

NEW TALKING RECORD

Washington, July 5—The past was the "gabbiest" session of congress since the foundation of the government. There has been more talk within a shorter space of time than ever before.

THE IRRESPONSIBLES

In referring to the address given in this city by J. H. Hawthornthwaite, leader of the socialists, a local apologist for the McBride government designated him "the leader of the independents." Just why he should have been so designated is not clear, save on the supposition that the new title is more palatable to the conservatives, but in view of Mr. Hawthornthwaite's words and actions, would it not be more in order to designate him the leader of the "irresponsibles."

He told his Nelson audience that "the question of taxes does not affect the laboring class. As a class they don't pay taxes. Nor has a land grant question any interest for the laboring class, they don't as a class own land. They are not concerned about railroads either, for they don't own railroads. All they have to do is to live and keep on producing for the capitalistic class. They pay no taxes, own no lands or railroads, nor ever will under capitalistic production. These things concern only the capitalistic class and such questions, when they are raised by politicians, are only raised to fool the laboring class at election times.'

As Mr. Hawthornthwaite claims to represent the laboring class in the legislature, this view of what really concerns the interests of that class certainly absolves him from any great measure of responsibility for legislation that may be enacted. The time of the legislature is very largely devoted to consideration of measures dealing with taxation, land laws and railroad construction and control. As the class he represents have no interest in these matters and really do not care whether or not taxes be raised, land be given away to corporations and speculators, or opened for settlement, or railroads be permitted to charge just what freight and passenger rates they please, Mr. Hawthornthwaite is free to do as he pleases when such measures arise.

It must be admitted that this position of irresponsibility is one that fits in with his predilections admirably and that since his assumption of the leadership of the socialist party he has taken full advantage of it to aid and abet the "hoary headed old tories" in their work of increasing taxation, alienating the public lands for the benefit of corporations and speculators, and generally playing the game of the hated capitalistic class.

When the liberals sought to amend the Assessment Act so as to equalize the incidence of taxation and, in particular, to relieve the farming industry of what were held to be undue exactions, the socialist leader was pronounced in his support of tory finance minister Tatlow's measure.

When the liberals sought to prevent the free gift of 800,000 acres of the public lands to the Columbia & Western Railway company, the socialist leader was strong in his support of the measure to make this free gift to the railroad corporation. And when, later, seeing that the McBride government was determined to relieve the necessities of the C. P. R. at the public expense, the liberals endeavored to secure some quid pro quo, some measure of protection for subsequent purchasers of those lands, and some guarantee that this corporation would be called upon to pay taxes in the same way as individuals in humbler walks of life, the socialist leader spoke and voted against any such restrictions being attached to the gift.

But it is when we come to the Kaien island deal that the irresponsibility of the socialist leader is most clearly demonstrated.

He tells us, "the deal that was made for the Kaien island lands was an excellent one. I had nothing to do with the people concerned in it or their dirty ways. My concern was only with the deal and as it was an excellent one I supported it. It is the best deal of the kind I ever knew. From a capitalistic viewpoint the deal was all right and the socialist party was not in a position to make any other fight."

Let us briefly examine some of the facts in connection with "the best deal of the kind" the socialist leader ever knew of.

We have the sworn testimony of certain parties to the deal that they entered into it solely with a view to enriching themselves. Mr. Bodwell swore that his idea in working up the deal was to establish friendly relations with the Grand Trunk Pacific Railway company with a view to favors to come. On behalf of Peter Larsen, Mr. Bodwell swore that that gentleman's object in being a party to the deal was also to establish friendly relations with the Grand Trunk Pacific Railway company with a view likewise to favors to come. James Anderson swore that he went into the deal because he realised that there was a chance to make a nice sum of money for himself and friends. Now in order for these gentlemen to secure their ends it was necessary that they should enjoy privileges denied the rest of the people of this province and they could only get into this desirable position by the connivance of the government. We have the sworn testimony of the premier and the chief commissioner of lands and works that these special privileges were accorded these gentlemen and we know by sworn testimony that, so far as the Andersons and their friends are concerned at least, they obtained what they were after. Whether or not lawyer Bodwell obtained the ear of the big railroad corporation, or whether or not contractor Larsen got what he was after, are facts that the evidence did not disclose. We can see that this was an excellent deal from the Andersons' point of view, and, under certain circumstances, we can see that both Bodwell and Larsen would consider it an excellent deal, but what we fail to appreciate is the excellence of the deal from the standpoint of the taxpayers of the province.

But admitting that the deal was an excellent one, why should the individuals mentioned have been given preference in the matter? The government did not have to deal with the Bodwell-Larsen-Anderson combination. The government could far better have dealt direct with the Grand Trunk Pacific Railroad company. The sworn testimony of ministers and other witnesses shows that no effort was made to deal direct with the company; that not so much as a scratch of the pen was ever exchanged between the government and the company throughout the negotiations and that the only evidence the government possessed that the company was interested in any way in the deal was a copy of a telegram from one of the officials, addressed, not to any member of the government, but to Mr. Bodwell, which telegram read as follows:

"Will be glad to have you act on Mr. Stevens' communication in regard to Lima Harbor in such a way as to fully protect our rights for the time being and until definite plans can be determined on without, however, committing us irrevocably."

And at the time it was sent Mr. Bodwell was the solicitor for Larsen and Anderson and not for the Grand Trunk Pacific Railway company and, moreover, by this time the deal had all been cut and dried.

Negotiations had been underway for months, matters that were declared to be executive secrets and could not be disclosed to the elected representatives of the people were freely discussed with these outsiders, who, with their friends, were allowed to take advantage of this special inside knowledge, and did so take advantage of it to their very material enrichment, and yet we are told that the deal was an excellent one, that the representatives of the laboring class could not do otherwise than vote approval of it.

It is advanced in defense of the Columbia & Western land grant by the McBride government organs that railway legislation of preceding governments created a situation that made it impossible for the Columbia & Western Railway company to carry out their contract in its entirety and that consequently there was no alternative for the McBride government but to grant the C. & W. the lands demanded, notwithstanding failure to comply with the terms of the contract. To disabuse the minds of the public of this idea it is only necessary to call attention to the petition filed by sir Thomas Shaughnessy in 1901, asking for an amendment to the Act of 1896, extending the time in which the line of railway should be completed, and to the Act passed in that year, 1901, so extending the time. From then on nothing arose to prevent the company from carrying out their end of the contract, save the nefarious negotiations to acquire the valuable coal and oil lands in southeast Kootenay, negotiations which no public man, no honorable man, dare advance as an excuse why the Columbia & Western Railway company should be given 800,000 acres of the public lands. And unless this attempt to rob the province be advanced as an excuse there is not a shadow of justification to be urged in support of the grant made last session by the McBride government with the hearty approval and endorsation of the socialist members of the legislature.

IT IS FOR LADIES, TOO.

They Can Stop Their Hair Falling Out With Herpicide.

Ladies who have thin hair and whose hair is falling out, can prevent the hair falling out, and thicken the growth, with Newbro's "Herpicide." Besides, Herpicide is one of the most agreeable hair dressings there is. Herpicide kills the dandruff germ that eats the hair off at the root. After the germ is destroyed, the root will shoot up, and the hair grow long as ever. Even a sample will convince any lady that Newbro's Herpicide is an indispensable toilet requisite. It contains no oil or grease, it will not stain or dye. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

FRIDAY=Economy Day

This is the store of economy and Friday is the day of economy. "Economy," says Poor Richard, "consists in saving as well as in getting. Look well to your Outgoes and your Incomes will take care of themselves." Whatever fabrics are right—whatever colors are good are the ones on sale on Fridays at our store. Come on Friday and be there early.

We will sell Summer Muslins in fancy colors, regular prices 25c, 35c, and 45c per yard, on sale Friday at 15c per yard

We dislike the word "bargain" when applied to these goods but there is no word which better expresses the combination of price lowness and quality highness which these offerings represent. The stock is large and varied but at this low price they wont last long. Come early and avoid the rush.

These Prices for Friday Only

IN CHAMBERS

Absent Liquidator of Wilcox Mine Sued—Other Applications

His honor Judge Forin disposed of a number of applications in chambers yesterday under the increased jurisdiction given him by the amended rules of court.

In the DesBrisay Jobbing company vs. Stephen Bywater, the question of the affairs of the absent liquidator of the Broken Hill Mining company was revived. The plaintiffs sued Bywater for some $200 for goods supplied him while at Ymir and Hall obtained an order for service of the writ on the defendant at his home in Moab, Wash. The Wilcox mine was handed over to the care of Bywater last year as official liquidator. Early last winter Bywater left for his home in the states and has never returned. Proceedings on the part of the shareholders are pending but nothing definite has been accomplished so far. In the meantime writs are being issued against Bywater personally by creditors and the suit commenced yesterday is one of them.

Hall obtained letters of administration in the estate of C. M. Cort, G. S. McCarter of Revelstoke being appointed administrator.

Gibson vs. Canadian Metal company. Motion for payment out stands for a week.

Bartlett vs. Hamilton. Stewart for plaintiff applied for payment of money out of court. Johnson for Canadian Metal company. Ordered that $40 be paid to defendant and balance to plaintiff.

Power vs. Cortiana. Macdonald obtained an order for payment out of monies in court.

Western Warehouse company vs. Adams. Wragge for plaintiff, O'Shea for defendant. The plaintiff obtained an order for payment out of monies in court, less $40 to be paid to defendant.

Bell Trading company vs. Walmsley. Wragge for plaintiffs. Order made for payment out, but $25 to be paid to defendant's wife by plaintiffs' solicitor.

McLaughlin vs. Reid. Application for payment out enlarged and notice of motion directed to be served.

TRIBUTE TO SEDDON

Letter Addressed to Pember Reeves by Rt. Hon. Jos. Chamberlain

Mr. Chamberlain has addressed the following letter to W. Pember Reeves, the high commissioner for New Zealand, in London:

"Dear Mr. Reeves—I have seen with the deepest regret the news in the papers of th sudden death of my friend the late prime minister of New Zealand. I have ventured to cable a short message to Mrs. Seddon, but desire, through you, as the official representative of New Zealand in this country, to express my keen sense of the great loss the colony has sustained by the death of its able and patriotic leader.

"On the various occasions on which I had the pleasure of noticing him I formed the highest opinion of his ability, courage and devotion to the interests of New Zealand, while I had full opportunity of recognizing his far seeing appreciation of the privileges and responsibilities of the empire in which he so earnestly desired that New Zealand should take her appropriate part.

"At the time of the South African war he was the first to appeal to his fellow colonists to give a practical proof of their sympathy with the mother country in her time of trial, and he induced New Zealand to offer a larger material assistance both in men and money than any other British colony in proportion to their wealth and population.

"I beg you to accept the assurance of our most heartfelt sympathy with his family and with the colony which he served so well.

"Believe me, yours very truly.
"J. CHAMBERLAIN."

MILITARY FEMALE SPY

Amazing Charge of Espionage Preferred Against War Office

Dramatic acusations against the British military system of administration were made by Dr. Miller Maguire at the Hotel Cecil, London, where he delivered an address on "The Lawless and Capricious Treatment of our Soldiers."

Dr Maguire had a good deal to say about female influence in the army—and not wholly in the direction of wire pulling. His most startling indictment was concerned with what was known as the female espionage case, which, when the true history of the war office come to be written, he said, would be a horrid blot on the English escutcheon, and the more so as some of the officers concerned are veterans in war and of unimpeachable honor in the Indian army till they came under the blighting influence of Pall Mall.

"In public daylight in Pretoria a female 'agent provocateur' was driven about by officers of the intelligence department, and introduced to our officers, who were led to believe that she was a spy on the Boers and she was furnished with data by our authorities and with cyphers and codes to try to entrap officers by these means."

"I can give," said Dr. Maguire dramatically, "the names of all concerned in this horrid infamy. It is to the credit of the mass of our officers that this plot did not succeed. Ten members of parliament took an interest in the case, but it was hushed up. Our military code is based on the idea that officers are fools, sergeants knaves, and privates ruffians. The members of our army have no legal rights and they are grossly betrayed when entering the service under conditions in the royal warrant, whic hnot one in ten understand, and several paragraphs of which are inconsistent and absurd.

QUAINT QUAKER MARRIAGE

London, July 5—The village of Yealand Conyers, in North Lancashire, was the other day the scene of a wedding solemnized according to the simple ritual or usage of the Society of Friends. The bride was Miss Gwendoline Priestman, only daughter of Mr. and Mrs. Arnold Priestman of Bradford, and the bridegroom Allan Claude Rowntree, eldest son of Allan Rowntree of Scarborough. The meeting house where the marriage was solemnized is nearly 300 years old.

There were no hymns and no officiating minister. After a short meditation the bridegroom and bride arose and the former said: "Friedns, in the love of God, I take this my friend, Gwendoline Priestman, to be my wife, promising through divine assistance to be unto her a loving and faithful husband until it shall please the Lord by death to separate us."

The bride made a similar declaration. A certificate, embodying these declarations, was read by the contracting parties and witnessed by those present.

Minard's Liniment Cures Diphtheria

MODEST CLAIMS OFTEN CARRY THE MOST CONVICTION

When Maxim, the famous gun inventor, placed his gun before a committee of judges, he stated its carrying power to be much below what he felt sure the gun would accomplish. The result of the trial was therefore a great surprise, instead of a disappointment. It is the same with the manufacturers of Chamberlain's Colic, Cholera and Diarrhoea Remedy. They do not publicly boast of all this remedy will do, but prefer to let the users of it make the statements. What they do claim is that it will positively cure diarrhoea, dysentery, pains in the stomach and bowels and has never been known to fail. For sale by all druggists and dealers.

Sunlight Soap is better than other soaps, but is best when used in the Sunlight way. Buy Sunlight Soap and follow directions.

ACCOMMODATION FOR ATHLETES.

Dressing Room and Place to Store Athletic Outfits Required.

The need of some sort of a dressing room for the athletes at the recreation grounds was amply demonstrated during the recent celebration when tents had to be erected to accommodate the players.

Mayor Gillett has become interested in a move to erect a small pavilion at the grounds for the purposes of a dressing room and as a place to store athletic outfits. As things are now there is no place to keep these articles in safety as the boys break into the cases which are now used by one or two of the clubs and steal the goods.

Should it not be found practicable to erect a pavilion it is suggested that an excavation be made beneath the grand stand and dressing rooms constructed in the space thus obtained. However, it is thought that the expense of this would be far greater than to erect a neat pavilion. Such an one could be erected at a cost of a couple of hundred dollars and the various clubs who would use it could each contribute their share of the cost.

The mayor has stated that unless the boys behave themselves, he will close the recreation grounds until the contractor completes his work, for complaint is made that the boys hide his tools and otherwise cause him trouble. They recently took the cricket club's case and threw it out of the grand stand and stole a lot of the equipment, and the tennis club have reported two thefts of a dozen new balls each from their grounds.

SURPASSED ALL RECORDS

EAGLES' TWO DAY CELEBRATION AT FERNIE.

CRANBROOK LACROSSE PLAYERS BEAT FRANK.

(Special to The Daily News)

Fernie, July 5.—The Eagles' grand carnival is a thing of the past and it is no exaggeration to say that a more successful two-day celebration has never been held in East Kootenay than the one just concluded. If the weather had been made to order a more perfect brand could not have been supplied, while the attendance at the sports and games was far in excess of the most sanguine expectations of the promoters. All the events on the program were keenly contested, and from beginning to end nothing occurred to mar the enjoyment of the record crowds which filled the town, and the citizens feel that the energetic committees in charge of the arrangements are to be heartily congratulated upon the excellent manner with which they performed their onerous duties.

The second day's program was commenced at 10 o'clock sharp on the mill pond of the Elk River Lumber Co., when interesting log rolling, log loading and log sawing contests took place, after which horse races, pony races, throwing the weight, jumping and other sports were carried out on the main street of the town. The most interesting event in the afternoon was the lacrosse match played between the Frank and Cranbrook clubs, in which the boys from the latter town proved their superiority over the former by the score of 10 to 4. The Cranbrook team impressed the local enthusiasts as the strongest exponents of the national game west of Winnipeg and it was no reflection on the prowess of the players from Frank to be vanquished by so fast and expert an aggregation.

The hose reel races proved another attractive feature of the afternoon but in them the Cranbrook team had the misfortune to lose the chance of adding another win to their victories by the falling of the man whose duty it was to connect the hose to the hydrant at the end of the race.

The day's program was concluded in the evening by an exciting and closely contested football match between Coal Creek and Michel, which resulted in a victory for the former by the score of 2-0. The following are the results of the second day's spots:

Log Rolling Contest—Martin Koulitze
Log Loading—Elk Lumber Co.
Log Sawing—Draw.
Horse Race—1st, A. Sutherland, Cowley; 2nd, Geo. Chamberlain, Fernie.
Pony Race, (boys over 16 years up)—1st. H. Pollock; 2nd. W. Streeter.
Pony Race (boys under 14 years up)—1st. Wolsan; 2nd, Quaig.
Putting the Shot—1st. W. Renwick, 40ft., 8 in.; 2nd, R. W. Black, 40 ft. 6 in.
Standing Jump—1st. Renwick, 9ft. 11 in.; 2nd, Black, 9 ft. 4 in.
Running Jump—1st, Renwick, 15 ft. 8½ in.; 2nd, McConnell, 14 ft. 11½ in.
Running Hop Step and Jump—1st, Renwick, 41 ft. 6 in.; 2nd, Black, 38 ft. 11½ in.
Lacrosse Match—Cranbrook, B.C., 10; Frank, Alta., 4.
Tug of War—Elk Lumber Co. team.
Hose Contest—Moyie.
Football—Coal Creek, 2; Michel, 0.

During the evening fireworks were indulged in all over the town till a late hour and combined with the strings of artistically arranged electric lights made an attractive and pleasing scene.

Notwithstanding the large influx of visitors it is gratifying to state that not one arrest was made, nor was there the slightest disturbance of any kind.

The Cranbrook lacrosse team will try conclusions with the Lethbridge club on Saturday next at the latter town and have chartered a special train to accomodate the large number of their fellow townsmen who have signified their intention of accompanying them.

Mrs. Corsan, wife of Dr. Corsan, and children, has left for Vancouver, to spend the summer.

Synopsis of Regulations Governing the Disposal of Dominion Lands Within the Railway Belt in the Province of British Columbia.

A license to cut timber can be acquired only at public competition. A rental of $5 per square mile is charged for all timber berths, excepting those situated west of Yale, for which the rental is at the rate of 5 cents per acre per annum.

In addition to the rental, dues at the following rates are charged:

Sawn lumber, 50 cents per thousand feet B. M.

Railway ties, 8 and 9 feet long, 1 1-8 and 1 3-4 cents each.

Shingle bolts, 25 cents a cord.

All other products, 5 per cent. on the sales.

A license is issued so soon as a berth is granted, but in unsurveyed territory no timber can be cut on a berth until the licensee has made a survey thereof.

Permits to cut timber are also granted at public competition, except in the case of actual settlers, who require the timber for their own use.

Settlers and others may also obtain permits to cut up 100 cords of wood for sale without competition.

The dues payable under a permit are $1.50 per thousand feet B.M., for square timber and sawlogs of any wood except oak; from 1-2 to 1 1-2 cents per lineal foot for bulling logs; from 12 1-2 to 25 cents per cord for wood; 1 cent for fence posts; 3 cents for railway ties, and 50 cents per cord on shingle bolts.

Leases for grazing purposes are issued for a term of 21 years at a rental of 2 cents per acre per annum.

Coal lands may be purchased at $10 per acre for soft coal and $20 for anthracite. Not more than 320 acres may be acquired by one individual or company.

Royalty at the rate of 10 cents per ton of 2,000 pounds is collected on the gross output.

Entries for land for homestead purposes may be made personally at the local land office for the district in which the land to be taken is situated, or if the homesteader desires, he may, on application to the minister of the interior at Ottawa, the commissioner of immigration at Winnipeg, or the local agent for the district within which the land is situated, receive authority for some one to make entry for him.

A fee of $10 is charged for a homestead entry.

A settler who has received an entry for a homestead is required to perform the conditions connected therewith under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year during the term of three years.

It is the practice of the department to require a settler to bring 15 acres under cultivation, but if he prefers he may substitute stock; and 20 head of cattle, to be actually his own property, with buildings for their accommodation, will be accepted instead of the cultivation.

(2) If the father (or mother, if the father is deceased) of any person who is eligible to make a homestead entry under the provisions of th Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of the Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of the Act as to residence may be satisfied by residence upon the said land.

Application for a patent should be made at the end of three years before the local agent, sub-agent or a homestead inspector.

Before making an application for a patent, the settler must give six months' notice in writing to the Commissioner of Dominion Lands at Ottawa, of his intention to do so. W. W. CORY,

Deputy of the Minister of the Interior.
Ottawa, February 14th, 1906.

Improved Ranch For Sale

STORMY SCENE IN DUMA

INTERIOR MINISTER STOLYPIN IS SHOUTED DOWN

EMPEROR'S LATEST STEP TO QUELL "DSORDERS" IN ARMY

St. Petersburg, July 5—There was a stormy scene at the opening of the lower house of parliament today which further emphasizes the split between the constitutional democrats and their radical allies and the group of toil.

M. Sidelnikoff, a radical Cossack member of the house, was beaten while in the hands of the police last night, after having been arrested for exhorting a crowd of people to resist the police, who were breaking up one of the meetings which are becoming more frequent. When M. Sidelnikoff was searched at police headquarters, a revolver was found in his possession. He was released later in the evening. When the house opened today M. Sidelnikoff gave his version of the affair and proposed that the house interpellate the minister of the interior, asking what methods had been taken to punish the policemen who were guilty of assaulting a member of parliament and to prevent a recurrence of such incidents in the future.

M. Alladin, the fiery Danton of the house then made a wild harangue in denunciation of the government for permitting such violations of the inviolability of the persons of the members. He declared that he expressed the views of the group of toil when he announced that if such an incident recurred no ministers would be permitted to speak in the house, and he could not even answer for their personal safety.

The statements of M. Alladin became so violent that president Mouromtseff repeatedly called him to order, and the speaker was finally forced, amid a loud tumult, to leave the house.

Interior minister Stolypin who happened to be present in connection with the Bialystok affair, boldly explained, amid constant interruptions from the left, that the chief of police had telephoned him last night regarding the incident.

His account differed so widely from that given by M. Sidelnikoff that he must have time for further investigation. The minister, however, gave the house his personal assurance that ample measures would be taken to insure the inviolability of members, and if the police were guilty in this instance they would be punished.

The statement of M. Stolypin was greeted with cries from the left, "Resign and take the chief of police with you," which finally compelled the minister to cease speaking. In spite of this, M. Stolypin's frank manner for the first time provoked a counter demonstration in his favor. After saying quietly, when the tumult had ceased that it was impossible to proceed while the passions of the members on the left were lowering the dignity of the house by such demonstrations, his reproof was vigorously applauded by the constitutional democrats and the members on the right. Several members in succession took the tribune, and while supporting the interpellation, they condemned the intemperate utterances of the members of the "group of toil," declaring that the menaces which M. Alladin had indulged in were unseemly.

The interpellation eventually was adopted unanimously.

The members of the group of toil in parliament are secretly elaborating a plan to force matters to a head. As a first step they propose that the members of the lower house adopt a resolution declaring that the country is not obliged to pay its obligations to the government so long as the emperor refuses to yield to the demands of parliament. If the constitutional democrats then refuse to join them in the program of repudiation, the group of toil propose to issue a manifesto to the country. Their purpose plainly is to compel the government to attempt to dissolve parliament and thus force a rupture.

The issues of five newspapers of this city were confiscated last night. Over 200 newspapers in the interior were seized during the last fortnight.

Emperor Nicholas has taken the almost unprecedented step of publicly directing grand duke NicholasNicholaivich, commander of the forces in the military district of St. Petersburg, to investigate and take measures to stop the "disorders" among the troops. Accompanying these instructions were orders relieving prince Vassili chikoff, commander of the guard corps, from duty and dismissing in disgrace general Oseroff, commander of the first guard division, and general Dagan, commander of the Peobrejensky regiment, the first battalion of which was recently disgraced for expressing sympathy with parliament and protesting against doing police duty. Dagan is said to be a descendant of an American named Gordon, the name having been Russianized by lapse of time.

All attempts to purge the army of the spirit of disloyalty, now that it has invaded the pampered regiments of the guard, will however probably prove futile.

The gravest news regarding the rebellious spirit among the troops in the Caucasus continue to arrive here.

Tiflis, July 5—The military situation in the Caucasus is exceedingly grave. Disaffection has appeared among practically all the troops, including even the Cossacks. Two battalions of infantry and four machine guns have been sent to Batoum to aid in the supression of the mutiny there. Murder, robbery and general lawlessness are increasing throughout the mountains. Thirty newspapers have been suppressed in Trans-Caucasia in the last five months.

Two battalions of the Kurds' regiment, who are thought to be reliable, have been introduced into the Tiflis garrison in the hope of over-awing the mutinous troops.

A general strike has been ordered by the proletariat organizations of this city in sympathy with the demand for the pardon of the 27 soldiers who have been sentenced to be shot because they refused to fire on the populace during the disturbances here last March. The troops are greatly excited and if the condemned men are shot a revolt of the garrison is feared.

Bialystok, July 5—General Bogalevski, temporary governor general of Bialystok, which is still under martial law, has dismissed the mayor because he refused to accept a petition from the inhabitants asking for the convening of an extraordinary session of the town council to deny the accuracy of the report of general Badock, the former governor general, on the recent massacre of Jews here. Twelve policemen have been indicted for participating in the rioting here.

Minard's Liniment Cures Colds, etc.

SAVED HIS COMRADE'S LIFE

"While returning from the Grand Army encampment at Washington City, a comrade from Elgin, Ill., was taken with cholera morbus and was in a critical condition," says J. E. Houghland of Eldon, Iowa. "I gave him Chamberlain's Colic, Cholera and Diarrhoea Remedy and believe saved his life. I have been engaged for ten years in immigration work and conducted many parties through the south and west. I always carry this remedy and have used it successfully on many occasions. For sale by all druggists and dealers.

KIER HARDIE AND THE ZULUS

London, July 5—James Kier Hardie, the socialist and independent labor leader and member of parliament, has addressed a letter to Zulu subjects in Edingurgh in which he says the wholesale massacre of natives now going on in South Africa under the pretence of suppressing a rebellion which does not exist, fills one with shame and horror. "I hope," Mr. Hardie wrote, "the day will speedily come when your race will be able to defend itself against the barbarities now perpetrated against it."

BOWEL COMPLAINT IN CHILDREN

During the summer months children are subject to disorders of the bowels which should receive careful attention as soon as the first unnatural looseness of the bowels appears. The best medicine in use for bowel complaint is Chamberlain's Colic, Cholera and Diarrhoea Remedy, as it very promptly controls any unnatural looseness of the bowels. For sale by all druggists and dealers.

Thorpe's Lithia, 2 dozen pints, $1.75, delivered.

ITS MERIT IS PROVED

RECORD OF A GREAT MEDICINE

A Prominent Montreal Woman Tells How Lydia E. Pinkham's Vegetable Compound Completely Cure Her.

The great good Lydia E. Pinkham's Vegetable Compound is doing among the women of America is attracting the attention of many leading scientists, and thinking people generally.

The following letter is only one of many thousands which are on file in the Pinkham office, and go to prove beyond question that Lydia E. Pinkham's Vegetable Compound must be a remedy of great merit, otherwise it could not produce such marvelous results among sick and ailing women:

Dear Mrs. Pinkham:—

"Soon after my marriage my health began to decline, My appetite failed me: I was unable to sleep, and I became very nervous and had shooting pains through the abdomen and pelvic organs, with bearing-down pains and constant headaches, causing me much misery. The monthly periods became more and more painful, and I became a burden and expense to my family instead of a help and pleasure. Lydia E. Pinkham's Vegetable Compound cured me within three months. Soon after I began using it I felt a change for the better, and at the time of my next period I noticed a great difference, and the pain gradually diminished until I was well. I am stronger and look better than I did before I was married, and there is great rejoicing in the house over the wonders your medicine worked." Mrs. M. A. C. Letellier, 732 Cadieux St., Montreal, Quebec.

If you have suppressed or painful periods, weakness of the stomach, indigestion, bloating, pelvic catarrh, nervous prostration, dizziness, faintness, "don't-care" and "want-to-be-left-alone" feeling, excitability, backache or the blues, these are sure indications of female weakness, or some derangement of the organs. In such cases there is one tried and true remedy—Lydia E. Pinkham's Vegetable Compound.

LISTEN TO GOOD ADVICE

FRUIT GROWERS HOLD QUARTERLY MEETING.

SUCCESSFUL GATHERING IN THE BOARD OF TRADE ROOMS

The quarterly meeting of the B. C. Fruit Growers' association was successfully held at the board of trade rooms last evening. James Johnstone, president of the local association, presided, and there was a gratifyingly large attendance of local fruit growers.

The chief speakers of the evening were T. A. Brydon, J. C. Metcalfe and Maxwell Smith, all of whom were listened to attentively and plied with many questions by those present.

At 5 o'clock in the afternoon there was a well attended meeting at the residence of J. A. Kelly, Fairview, where Mr. Brydon gave a practical demonstration of orchard pruning, taking a tree and cutting it down to what he declared it should be. In addition many practical questions were asked and replied to.

Before the actual business of the meeting commenced H. E. Croasdaile asked president Johnstone if he would call a special meeting of the local association at an early date. There were matters of urgent importance that required attention.

Mr. Johnstone said that he would call a special meeting if asked to by a signed requisition as provided by the rules. Fruit growers were all very busy just now and it was doubtful if a good meeting could be held unless very good reason was given people for attending.

Mr. Croasdaile said the obtaining of labor for cultivating and operating the ranches was a very important one and some action should be taken by the association on the subject.

The chairman said that if a requisition was sent to him properly signed he would at once comply with the request and call a special meeting of the association.

The chairman then introduced Thomas A. Brydon, the president of the British Columbia Fruit Growers' Association.

Mr. Brydon said that all engaged in the fruit growing business were very much engaged at this time and he was delighted to see such an excellent attendance. When he was in Nelson last there was no idea of fruit growing thereabouts and he was glad to see that such good progress had been accomplished of late years. The association desired to do what might be called foundation work for the fruit growers and to point out mistakes to be avoided and the best way of carrying on the industry.

The speaker then devoted his remarks to "planting and pruning orchards." If the ground was well prepared fall planting was advocated, but if the ground had to be drained or otherwise made ready spring planting should be done.

"Go to a good honest nurseryman for your trees. The one nearest your ranch will know the best varieties to recommend you. Tree pedlars were not all dishonest but you will do well not to be taken in by fine plates and prettily made up catalogues when you start in to buy your trees."

In planting, a hole of about 4 feet in circumference and about 15 inches deep with the ground loosened up with a pick for a short distance down below the 15 inches. The trees should be planted leaning a little towards the direction from which comes the prevailing wind. The best tree to plant was a one-year-old tree whenever it could be obtained. In answer to several questions the speaker reiterated his advice that all things being equal he recommended fall planting. "No," he added, "I would not advise planting trees that would have 'wet feet' all winter."

Turning to pruning Mr. Brydon said that locally not half enough pruning was done. "I want to say it very gently that your are spoiling your trees around here by not pruning them down Don't be afraid of using the knife and keeping your trees down particularly at first. You will find that if you prune well you will have strong healthy trees. I am only giving you my own ideas and you must apply your own common sense in your own particular case to all that I say."

Keeping the trees well down not only kept them strong and healthy but was to be advocated on the score of convenience in handling both the tree itself and the crop it is to bear. The spring pruning was most important as the healthy growth of the tree through the growing season was thus regulated.

The fruit should be thinned down so as to have an even distribution of fruit all over the tree. Some authorities insisted that at least six inches should intervene between each apple for instance, but he would not lay down this as an absolute rule.

After Mr. Brydon had replied to several questions put to him he resumed his seat amid hearty applause.

J. C. Metcalfe, who was president of the B. C. association last year, was then introduced by the chairman. He spoke briefly on the cultivation of small fruits. Rhubarb planting and growing was advocated from a commercial standpoint, it being easy of cultivation and a great money maker, the chief necessity being very rich ground. Touching on strawberries Mr Metcalfe said the first thing was to get the ground in the very best shape, too much trouble could not be taken preparing the ground. Planting on clover soil as a rule was not advocated. The hedge row system was the best planting. The best varieties to plant depended entirely on local conditions, soil and climate being considered. Much depended upon whether the berries were to be grown for home consumption or for export to the new provinces and Manitoba. As to picking the berries, the pickers should be kept right at their work and not allowed to bring in their trays, that being done by someone else. The deeper boxes in place of the shallow ones were recommended for shipping. Propogation beds were advised, the runners to be taken from the first year plants. If plenty of land was available, the speaker advocated planting for the year only.

Raspberries were then dealt with interestingly. They are easily cultivated and handled. The Cuthbert was usualy admitted to be the best all round variety to plant. The old canes were taken out in the fall and all pruning was done in the spring. Paris Green and bran, and plenty of it, was recommended for cut worms. The cultivation of the Logan berry was touched on shortly. They are new, but so far have done well and have become popular. Like strawberries, the best varieties of raspberries, Logans and cane blackberry, to grow, depend largely on local conditions.

Currants and gooseberries were then dealt with and several questions were answered. "Get down to growing the same varieties in large as well as in small fruits for commercial purposes," concluded the speaker as his last piece of information.

Maxwell Smith, whom the chairman introduced as "one of our best friends in the past and at the present time," referred to the time when the idea of Kootenay being a fruit producing section of the province was heartily laughed at by coast people, and the tremendous change that had taken place in the last few years.

The speaker objected to the absence of ladies from the meeting but was told by the chairman that the ladies were busy picking and packing fruit and so could not attend the meeting. Then Mr. Smith drew attention to the great growth of land clearing and land cultivation for fruit growing purposes that had taken place along the Kootenay lake ranches within the last 24 months. It was simply astonishing and had to be seen to be appreciated. Whatever might be said about the British market, the natural market for B.C. fruits, however, was the prairie provinces. The speaker explained how and in what way the people of the prairie provinces had at length had their eyes opened as to the real merit of the B.C. fruit. "Don't dwell on the beauty of the green hills far away, when you have at your doors the finest market for your fruits in the world," said the speaker amid applause.

Speaking on the cultivation of the orchard Mr. Smith said thorough clearing and deep plowing were necessary first steps. Intelligent irrigation was a great aid to fruit growing, and at some time or another almost every ranch in this section would require irrigaiton, and it should be obtained whenever possible. Some people further west were taking in tenderfeet at the present time by selling them mountain lands that "would not need irrigation." Time would clearly prove the need of irrigation, not necessarily in any one year, but in some seasons. After touching on many matters of interesting detail Mr. Smith came upon the question of "Legal Berry Boxes," and said that this year the legal boxes were coming into very general use and that next year prosecutions would follow the use of non-legal boxes; the question of weight was not involved, it was the size that governed. The local boxes were too shallow. Next year the law must be compiled with. Non-legal boxes must be plainly so stamped. The law regulating the size of the minimum apple box had been altered and arranged to meet all requirements and would have to be used in future. With a warm compliment to the Kootenay fruit growers for their progressive action to date the speaker took his seat amid applause.

An unanimous vote of thanks to the speakers of the evening was then passed, and the meeting adjourned.

Minard's Liniment Cures Colds, etc.

CHANNEL TUNNEL PLANS

ANGLO FRENCH ENTENTE MAY RESULT IN REVIVAL.

TUNNEL WOULD BE AN IDEAL ONE TO DRIVE.

The plan for tunneling from France to England underneath the Straits of Dover, which was abandoned about 30 years ago owing to the opposition of the English authorities, has recently been revived by the establishment of friendly relations between Great Britain and France, and the promoters of the project will make another effort to obtain the sanction of the British government. Says the Scientific American in its editorial columns:

"The Societe Francais du Tunnel Sous-Marin was incorporated in the early seventies for the purpose of carrying out this great work. A shaft was sunk on the French side of the Channel at a point about six miles from Calais, and the English terminus was fixed near Dover. A considerable amount of tunneling was done by the French company but after they had spent about half a million dollars, the British government put a stop to the work on the English end, ostensibly for the reason that a tunnel beneath the Channel would destroy the security which Great Britain's insular position afforded, and would render her liable to attack by an invading army.

"Engineers of the Northern railway of France have recently made an investigation of the abandoned works and found them to be in good condition, and it is probable that the present session of parliament will witness the introduction of a bill for permitting the work to proceed on the English side. The tunnel would be an ideal one to drive, as practically the whole of its 23½ miles of length will pass through a firm but easily quarried chalk, which it is believed is free from faults. This would make it possible to drive the tunnel without the use of the pneumatic process or the necessity for serious pumping operations. Apart from military considerations, which, in themselves, can not have much weight because of the tunnel's limited capacity and ease of destruction, there is much to be said in favor of the proposed tunnel. The Dover-Calais passage is notoriously rough and uncomfortable, and the substitution of an all-rail route between London and Paris would be a decided boon to hundreds of thousands of travelers between England and the Continent."

The question of tunneling the Channel was introduced recently by lord Fitzmaurice when welcoming the members of the French Academy on their visit to London. He declared humorously, as reported in The Westminster Gazette (London):

"I have no right to reveal the secret mind of the government even if I knew it, but there is one great obstacle in the way of the realization of that project. Every nation has its phantom, and England's is a military one. Formerly it was feared that a French army might creep into England through the hole of a Channel tunnel, then it was a German army that was feared, then a Russian. But today it is the Chinese army. We have been assured in the newspapers—and the newspapers never lie—that a Mongol army, after crossing Asia, burning St. Petersburg, destroying Berlin and the University of Paris, would occupy the pierhead at Calais, and, entering the tunnel, emerge at Dover. But those who have conjured up this dreadful picture forget the French army which in the vast plains between Tours and Poitiers would defeat this army and deliver us from a Tartar invasion."

Sir W. Holland, M. P., on being interviewed by a representative of The Daily Mail (London), expressed a hope that parliament would eventually sanction the tunnel, whose military danger he had a plan for obviating, which he thus explained:

"I have a scheme which I hope to see adopted by the powers and that is that the tunnel should be denationalized—that it should be made neutral territory. The French government supports the scheme, and I have no doubt that before many years are over the tunnel will be an accomplished fact."

BIG OFFER FOR GOLD MINE

Fort Francis, July 5—An offer of $850,000 has been received for the now famous Laurentian mine and its owners refused to part with the property at this price, in fact they are holding out for $1,500,000. This mine is by far the best gold producer in the Rainy River district, containing several veins in which almost solid gold exists. Anthony Blum, a well known mining man is the principal owner of this property and it was through his efforts that the mine was reopened after being left idle for over three years.

BELGIANS WIN EASILY

Grand Challenge Cup to Leave England For First Time.

Henley, July 5.—The crew representing the Club Nautique de Gand (Belgium) today defeated Trinty Hall, Cambridge, by three length in the final for the grand challenge cup. Time, 7 minutes, 9 seconds.

The cup thus leaves England for the first time in its history, and for the next 12 months at least will adorn the headquarters of the Belgian rowing club.

The ease with which the Belgians beat the crack British crew was a rather rough shock to the complacency of the home oarsmen and their belief in the hitherto unshakable invincibility of their methods of rowing. Apart from a momentary advantage at the start, Trinity Hall was never in the race.

SHEARER IS SATISFIED

Is of Opinion that Lord's Day Bill is Not Materially Weakened

Ottawa, July 5—Rev. Mr. Shearer, secretary of the Lord's Day Alliance, who has been following the Sunday observance bill in all its phases since its presentation to the house, declared today that in his judgment the amendments made to clause 2 are very far from nullifying the force of the whole enactment. In practice the only provinces in which they are likely to have any effect at all are Quebec, and possibly British Columbia, and it will remain for the courts to say whether any exemptions that those provinces may enact come within their jurisdiction. In other words there will have to be another pronouncement from the judicial committee of the privy council before it is determined how far the provincial legislatures may modify the terms of the dominion Sunday observance bill.

"You will remember," said Mr. Shearer, "that the amendment made to the bill is limited to one feature of the proposed law. Under it no provincial legislature would have authority to modify the terms of the dominion law in regard to Sunday amusement, Sunday target shooting, the closing on Sunday of parks to which an admission is charged, the importation of Sunday papers, Sunday excursions, or the Sunday rest clause. I say again the provincial legislatures are given no power to interfere with any of these features of the dominion law. On these subjects there will be one law throughout Canada and in the opinion of some very competent legal authorities the effect of the modification in clause two that passed the house may be very different from what some people seem to suppose."

HUNTING UP EVIDENCE

Thaw's Lawyers Sparing no Pains to Work up Case for Defence

Philadelphia, July 5—Agents in the employ of the lawyers engaged in preparing the defence of Harry K. Thaw visited Philadelphia yesterday to investigate reports regarding the career in this city of Stanford White, of whose murder the young Pittsburg millionaire stands accused.

Both Philadelphia and Pittsburg are being raked over by representatives of both Thaw and the New York district attorney to provide evidence for the forthcoming trial. The Philadelphia witnesses sought are only three or four in number, but Pittsburg will not get off so lightly, as more than a dozen of the prominent men of that city, most of them millionaires, are likely to be disagreeably surprised by the appearance of a subpoenae server.

Two men widely known about town here are declared to be the best informed persons in the world upon a large portion of the life history of Evelyn Nesbit Thaw who, it is announced, will be the leading witness for the defence to be made by counsel for her husband.

Thaw's counsel is anxious to secure the evidence of these men to substantiate portions of the sensational evidence which it is believed Mrs. Thaw will give.

One of the new features regarding White's Philadelphia career concerns the frequent visits he was in the custom of making about ten years ago to the studio of a music teacher in this city.

In the third storey of a Walnut street building, near Tenth street, for several months White, it is said, presided at revels known as "Arabian Nights" twice each week.

ABYSSINIAN CONVENTION

Paris, July 5—The officials here consider that the Anglo-French-Italian negotiations relative to Abyssinia, are practically completed. The main features are guaranty of the integrity of the empire, the open door and commercial equality for all countries, and the French to continue the construction of the railway connecting Addisabbn, the capital of Abyssinia, with the coast, Great Britain and Italy naming representatives on the railway directorate.

Great Britain and France have already agreed to the foregoing features and Signor Ittoni, the Italian representative, has also agreed to them, but he is awaiting his government's approval of his course before signing the convention.

SUBMARINE MAKES LONG RUN

New York, July 5—After a run of 325 miles at sea under her own power, the submarine torpedo boat Lake which arrived here the other day, has continued its journey to Bridgeport, Conn. The feat of the Lake in sailing the high seas alone from Newport News to New York is said to be unparalleled. Propelled by her gasoline engines she came through from Newport News without the slightest mishap, in 44 hours. Captain Evans' log says that several vessels were passed during the cruise and the occupants looked down with great curiosity at the lonesome little speck on the waters. The Lake carries a crew of eight men. The craft is 85 feet long and is the largest submarine ever built in this country. Electric engines provide power when the boat is travelling nuder water.

What I am Doing

After much work, expense and travelling I have now in my hands for sale the greatest list of real bargains in fruit lands that I have seen.

I have opened an office on Baker St. and men looking for real snaps on Kootenay like, Kootenay river, Columbia river or Slocan river can not do better than look over my list.

I shall constantly revise my list and I want it to contain only such properties as are actually for sale at honest legitimate prices—prices as fair to the buyer as to the seller.

I seek only such properties—others I do not care for.

I have strong connections in the Northwest—where the buyers are—and I have several inquiries in my hands now for small blocks close to town—what have you to offer?

List your property with me now—I can make a sale of it for you and all I want is the regular commission.

TEA THAT NEVER VARIES

One reason most teas vary so much is that they come sometimes from one garden, sometimes from another. The difference of soil affects the flavor of even the same kinds of tea. There is no variation in

Blue Ribbon TEA

It is always selected from the same plantations, the best in Ceylon and India, the immense output enabling the packers to make favorable arrangements with the leading growers.

The special methods of blending and careful tests at every stage of the process make variation practically impossible, every pound must be exactly the same.

Finally, the lead packets keep out any foreign odors, and bring it to you clean, fresh and fragrant, and always with the same rich flavor as before.

Test it for yourself—50c a pound.

FOURTH OF JULY CASUALTIES

Chicago, July 5—The Tribune today publishes the ninth annual summary of the deaths and injuries caused throughout the United States by yesterday's celebration of the declaration of independence. The figures up to an early hour today were as follows:

Dead, 38; by fireworks, 9; by cannon, 1; by firearms, 11; by explosives, 7; by toy pistols, 4; by runaways, 1; by drowning, 5. Injured, 2789; by fireworks, 1099; by cannon, 261; by firearms, 393; by explosives, 697; by toy pistols, 304; by runaways, 35.

Fire loss, $66,450.

Last year 42 persons were kiled outright, but when the lockjaw and other diseases induced by injuries completed their work, over 400 lives had been sacrificed.

KITCHENER MAY RESIGN

London July 5—The difference of opinion between the India office, the war office and lord Kitchener, says the Liverpool Post's London correspondent, has developed to such an extent that lord Kitchener has offered to retire.

Mr. Morley, secretary of state for India, is more or less in sympathy with lord Kitchener's policy, but the military members of the advisory council are not.

NEGRO BOY TO HANG

Baltimore, July 5—Wm Lee, a colored youth, of 17 years, was tried in the circuit court here today and sentenced to be hanged for criminal assault on two white women six weeks ago. He confessed his crime.

NELSON'S NEWS OF THE DAY

Hadn't you intended to look over the want ads today?

In writing to your friends remind them that the dates of Nelson's big fall fair are Sept. 19, 20 and 21.

J. R. Dunlop of the C.P.R. freight department here has been transferred to the company's office at Greenwood and leaves this morning for the Boundary.

Thurman Bros. were busily engaged yesterday afternoon and last evening in unpacking and setting up their handsome new store cabinets, which have just arrived from the east.

To the woman who has to plan all the expenditures for the home, the store ads. are the most important—as they should be the most interesting—reading matter in the newspaper.

Messrs. Isaac and Hinton of the Nelson Iron Works in this city, have obtained from the Fraser-Chalmers company, the sole right to manufacture in Canada, the new improvement on the Challenger feeder for mills and mines, known as the "Nelson."

Mayor Gillett received word yesterday from the Allis-Chalmers-Bullock, Ltd., that the hydraulic machinery for the new power plant would be ready and shipped to Nelson by August 1. It was hoped to have the machinery here early this month and a penalty attaches if shipment is not made by August 1.

Travellers on the Nelson & Fort Sheppard railway from Spokane these days complain bitterly about the heat and dust. There was some talk a little while ago of putting on a night service between Nelson and Spokane. Now is the time for the change to be made. There would be a very marked increase in the travel to and from Spokane if during the summer months the trains were run at night instead of in the heat of the day.

The provincial police have ascertained that the bush fire 16 miles up the lake, complaints about which had been made, was the work of a party of Indians, engaged by a city resident to clear his ranch land. The fire was confined to the land of the rancher and the Indians were warned not to allow it to go further or they would be prosecuted. One of the Indians remarked as he reached for his coat and hat: "Humph, always the same. Indians start fire, policemen come after them; work no more."

There are hotter places than Nelson during the present warm spell, and not very far away either. J. P. McGoldrick, who came up from Spokane yesterday said it was 112 in the shade at Marcus yesterday and a freight fireman on the Great Northern who came in from the south last night said it was 104 at Northport yesterday afternoon.

The cricket club members have been having some steady practice lately and are now arranging matches. On Thursday afternoon, July 12, they will play a local match between the married and single members of the club. On the following Thursday they will meet the team from Kokanee and are arranging for a trip to the coast some week in August, the date to be fixed by secretary York of the Victoria cricket club.

George A. Fraser, M.P.P. for Grand Forks, was in town last evening on his way home from a business trip to Nakusp. Speaking of the business outlook in Grand Forks, Mr. Fraser said things were certainly lively just now in his home town. It is really astonishing, he said, the amount of business that is being transacted by the merchants. The satisfactory state of affairs is due primarily to the extensive railroad construction in progress in the Boundary district, but the mining excitement along the North Fork, particularly in Franklin camp, is acting as a wonderful stimulus to business in all lines. Mr. Fraser is able to speak of the mines of Franklin camp from personal observation. He knows all the mining camps of Boundary well and does not hesitate to express the opinion that the mines of Franklin camp, both as regards extent of ore bodies and value of contents, will shortly take first place among the big copper producers. Mr. Fraser added that further activity in Grand Forks was expected with the commencement of construction work on the Great Northern extension up the North Fork. Just how far this extension will run has not yet been disclosed but it is known that it will at least tap the Pathfinder mine, a distance of 15 miles form Grand Forks. Mr. Fraser returns to Grand Forks this morning.

LAKEVIEW—John Davisville, Slocan; H Whatcutt, England; G. Mayor, Spokane.

VISITORS

And the general public are cordially invited to visit us in our newly enlarged store and recently expanded manufacturing department. We are prepared to show you a stock of Cut Glass, Hand Painted China, Sterling Silver, Plated Ware, Watches and Jewelry, which is second to none. All our goods are of the best makes, and best quality. Our own manufactured jewelry is decidedly finding favor with lovers of fine jewelry.

In our Optical Department the eyes are most thoroughly examined and positively fitted. Broken lenses replaced on short notice. We grind our own lenses.

J. H. Wallace, Esq.:
Nelson, B. C.
Dear Sir:—
I see by the "Nelson News" that you are agent for the Kootenays, for the Jaeger Pure Wool Underwear, which I have been using for years.
Kindly send me two suits of D quality summer weight, size 38 shirts, 36 drawers. Yours truly,

P. S.—Will require two or three combination suits later.
