PROVINCIAL LIBRARY

VOL. 5 NELSON, B. C., FRIDAY, SEPTEMBER 21, 1906 NO. 130

ALL RECORDS ARE BROKEN

Second Day of Exhibition Witnessed Unprecedented Attendance

Building and Grounds Thronged all Day by Delighted Crowds—Fine Program of Sports—Attractions for Today

TODAY'S PROGRAM

9 a.m.—Exhibition buildings and grounds open to the public.
1.30 p.m.—Baloon ascension.
1.45 p. m.—Baseball match, Kaslo Juniors vs. Nelson Juniors.
2 p.m.—First heat, open ¼ mile race for purse of $100.
2.30 p.m.—Indian foot race ¼ mile.
2.45 p.m.—Second heat, open, horse race.
3 p.m.—Cricket Match, Nelson vs. All-comers.
3.15 p.m.—First heat, consolation horse race.
3.30 p.m.—Footrace, 100 yds., amateurs.
3.45 p.m.—Second heat, consolation horse race.
4. p. m.—Impromptu Indian sports.
During the afternoon the Smi-Letta troupe will appear at intervals, introducing several new features.
7.30 p.m.—Smi-Letta Troupe.
8.30 p.m.—Japanese Parasol and Fan Musical Drill.
9 p.m.—Opera House, "Alphonse and Gaston."
10 p.m.—Grand Carnival.
10.30 p.m.—Close of the exhibition.

A record attendance of 7000, an ample and excellent program carried out without a hitch of any kind, and magnificent summer weather, tells the story of the second day of Nelson's fourth annual fair.

No such crowd as passed through the doors of the main entrance and filled the buildings, the grand stand and all available points of vantage on the terrace ever assembled in Nelson before. The mistakes and misadventures of the first day were amply redeemed, and it is hoped, forgotten. The building was thronged all morning and from 10 o'clock till after 5, every department was crowded, while the onlookers at the sports and special attractions numbered many hundreds of persons.

Until the close of the lacrosse match there was not an idle moment for the spectators and a really very creditable program was promptly and efficiently carried out.

In the evening there was another immense attendance and every thing worked smoothly and satisfactorily. Appended will be found in detail the award of the judge in the special prizes not heretofore given, and in case of the district competition, the blue ribbon of the fair. A detailed account of the races, baseball match and the lacrosse game will also be found hereunder.

The exhibition given before the grand stand, afternoon and evening, by the six members of the Smi-Letta troupe, three of either sex, evoked the warmest applause of the largest audience ever gathered here. It is a rarity to witness an exhibition of the kind given, acrobatic, slack wire, aerial trapeze, swings, balancing and the bars, of so universally high a degree of excellence throughout.

Today, children's day, will be one of the best of times to visit the fair. The program printed above will give a good general idea of what can be seen and doubtless the attendance will be very large. Special attention is directed to the grand carnival tonight. Any number of fancy dresses can be loaned out from the fair secretary and there is sure to be plenty of fun over the affair. Those in costume will parade on Baker street at 9 p.m., and proceed to the fair building where they will be admitted free.

Children under 12 years, accompanied by parents with membership tickets, will be admitted free all day. Those over 12, at half price.

FURTHER PRIZES

Omitted from the prize list published yesterday morning were the following:

Onions, multipliers—Mrs. John Bell.
Peaches, not preserved—Mrs. John Bell.
Umbrella Plant—F. Bacom.
Bouquet Wild Flowers—N. M. Cummins.
Tobacco on Stalk—John Miles.
Sunflowers—1st, D. Maglio; 2nd, W. J. Astley.
Rhubarb—Mrs. T. Marquis.
Canteloupes—G. Hallett.
Cherries, not preserved—Mrs. D. C. McMorris.
Peppers on Tress—D. Maglio.
Red Currants on plates—1st, J. G. Palmer; 2nd, Mrs. M. S. Davys.
White Currants on plates—N. M. Cummins.
Gooseberries, on plates—Mrs. M. S. Davys.
Collection of Vegetables grown from Burpee's Seed—Mrs. D. C. McMorris.
Hanging Basket—Mrs. D. C. McMorris.

Display of Winter Apples, 1st prize, 30 Newton Pippin trees, Mrs. J. McPhee; 2nd prize, 20 Newton Pippin trees, J. Johnstone; donated by Oregon Nursery Co.

Collection of apples, fall and winter, 10 varieties, 5 of each, 1st prize, nursery stock, Mrs. J. McPhee; 2nd, prize, nursery stock, J. Johnstone; donated by the Riverside Nurseries.

Best general exhibit of fruit grown in British Columbia, the fruit to become the property of donor, cash prize, donated by Canadian Pacific Railway company—North shore of Kootenay lake, No. 3 district.

Best display of vegetables grown from seeds purchased of M. J. Henry, spring of 1906, donated by M. J. Henry—1st, J. M. Fraser.

Collection of vegetables grown from Burpee's seeds—Mrs. D. C. McMorris.

The Dominion Express company's cup, for the best collection of fruit packed, ready for shipment—1st, F. M. Black; 2nd, James Johnstone.

DISTRICT PRIZE

The president's cup for district showing the largest and best display of fruit and vegetables, was won by district No. 2, comprising Ainsworth, Kaslo and points north of Kaslo. The $100 donated by the C.P.R. for fruit only in district exhibit, was awarded to district No. 3, comprising the country on the north side of the arm of Kootenay lake, from Hoover's ranch to Ainsworth.

HORSE RACES

"Scotty" Macdonald Wins Two Exciting Events—Victory Very Popular

The horse races yesterday proved one of the most popular events of the afternoon, the crowd growing wildly excited over "Scotty" Macdonald's double victory.

During the running of the several heats all else was forgotten for the moment and even the baseball players stopped their game in progress to watch the finish.

There were two events, the second one growing out of the result of the first.

The first race was a quarter mile open dash, once around the course, for horses owned in the Nelson district. For this there were four entries, as follows: Scotty Macdonald's Buckskin; O. Harris' Jerry; George Ferguson of the Nelson Transfer company's Minnie and Chestnut. Scotty rode his own horse; Harry Ferguson, Chestnut; Jim Davidson, Minnie, and E. Carroll, Jerry.

In the first heat George P. Wells, the starter, had some difficulty in getting the horses in line, but after a number of false starts, the four got beautifully in line and started off on equal terms. Buckskin jumped to the front, closely followed by Minnie, with Chestnut next and Jerry bringing up the rear. The whole race was easily between the first two horses. Young Jim Davidson rode his mount well, but he could not pass Buckskin at any point on the course, and the two slid past the judges' stand with just a little daylight between them, followed closely by Chestnut and Jerry, in the order named.

In the second heat Buckskin led all the way and at about three-quarters of the way round, Minnie bolted over the ropes, despite every effort of Davidson to keep her on the track. Buckskin won with something to spare, Chestnut getting second and Jerry third money, Minnie being disqualified.

While the crowd was shouting its approval of Scotty's victory, George Ferguson came out with a challenge for another race for $50 a side. The offer was at once accepted and the owner of Minnie proceeded to impress Indian Tom into his service as jockey. When marshall Waterman announced the arrangement the crowd applauded its approval vigorously, and presently when Minnie sidled along the course with the Indian up, bareback, excitement rose to fever pitch.

After one breakaway the pair got off on equal terms. Then Buckskin began to creep in front despite every effort of the Indian. The two closed to the rope with Buckskin in front and the Indian pressing close after him. Around the course they sped, Indian Tom sitting his mount beautifully and striving hard to get in front. The horses came together repeatedly but finally Buckskin drew well ahead and finished a length or so to the good.

The pair went around the course again for the second heat, resulting in Scotty crossing the line again in advance. The heat was ruled out and another one started. This time Jim Davidson rode in place of the Indian, but at the three-quarter's distance Minnie again bolted over the rope and the heat and race were awarded to Buckskin.

For the first race Fred Starkey, S. S. Taylor and Blake Wilson were the judges, and G. P. Wells, the starter. In the second race Mr. Taylor took Mr. Wells place, the latter being engaged umpiring the ball game.

CITY OF SEATTLE STRANDED

Ran on Rocks off Trial Island—Failed to Float at High Tide

Victoria, Sept. 20—The steamer City of Seattle, en route from Sound ports to this city, ran on the rocks off Trial Island at an early hour this morning. Arrivals this morning state that at the time the City of Seattle struck the rocks the weather was clear. The vessel went on at low tide and the cargo is being lightered and it is expected that at high tide tonight the vessel will be floated. The passengers remained on board, the sea being perfectly calm. Neither the fog alarm nor the light on Trial Island were going at the time the steamer hit the rocks, but the former soon afterwards.

The mate of the Seattle came ashore when it was found that the ship could not be budged and telephoned for assistance and it was arranged that the Salvor, the Pilot and the Lorne should proceed to the stranded vessel and offer all possible assistance.

LATER—At high tide this evening an attempt to haul the stranded vessel off failed and at 10 o'clock the City of Seattle was still fast on the rocks.

VIEWS OF AN EXPERT

Martin Burrell Talks to The Daily News of the Fruit Exhibits

Educative Influence of the Exhibition and Valuable Service it Renders the Entire Kootenay Districts

Martin Burrell, of Grand Forks, enthusiastically interested in fruit culture, and an admittedly practical authority on fruit growing generally, was asked by The Daily News for an expression of opinion as to the fruit shown at the Nelson exhibition and the general result of this year's fair so far.

In reply Mr. Burrell said: "As to the general success of your exhibition this year there can be little question. No doubt the splendid weather has contributed not a little to the result, but the excellence of practically all the departments has much to do with it. Of course the gate receipts are a substantial proof of success and I understand they are away ahead of previous years. Living in a country where mining is, and must be for some time, the chief industry it was gratifying to see an exceptionally good representation of the typical ores of the district. The silver-lead ores were a splendid collection, and our own section was well represented, though I regretted not to see a larger exhibit of our Boundary copper-gold ores. Perhaps we shall astonish you another year in this respect."

"How does the fruit section compare with previous years" Mr. Burrell was asked.

"Well, naturally I am more interested in this particular department, and one can only congratulate Nelson on the showing made. I understand from Capt. McMorris that the plate exhibits were fifty per cent more than last year. Looking back to your first exhibition in 1903 one can see a wonderful evolutionary process. At that time I had the somewhat arduous task of judging. I say arduous, because, as in all initial efforts, there was considerable confusion in varieties, and classification, a confusion which always exists in districts where fruit growing is in the pioneer stage. This year the advance is wonderful. Not only are the varieties on the whole more correctly named, but the competition is much keener, and it has become no easy task to win a "first" at Nelson. It all shows the educational value of the exhibition, and I doubt whether one could exaggerate the value of the exhibition of the kind to the whole Kootenay country."

Asked as to any special features in the fruit exhibit, Mr. Burrell said that the apples class was exceptionally fine. Both in the matter of size and coloring it would be difficult to eclipse the showing made, and in classes such as Gravenstein, Duchess and Wealthy the plates were close enough to bother any judge in awarding the prizes. "In plums," he added, "I might especially mention the excellence of the Yellow Eggs, and Pond's Seedling and the larger types.

Flemish Beauties and Bartlett Pears were good, though I do not think the latter varieties were quite up to the standard, but in a comparatively new district we have much to find out as to the desirability of varities from a commercial standpoint. The crabs were a notably good class, and peaches were fairly well represented. In grapes the exhibits only go to prove what I have always contended, that this is not strictly speaking, a grape country, and that any efforts we make in this direction must be confined to early varieties, such as Campbell's Early, Moore's Diamand, Moore's Early, and so on. The work in grape culture so far hardly warrants any man in growing grape vines extensively."

"What about the district exhibits?"

"The district exhibit section," was the reply," I have always regarded as one of the most important features of the fair, and here again a great improvement was noticeable. Kaslo had a splendid collection, well arranged, and deservedly won the cup. Perhaps I am touching a ticklish subject as I believe a little friction has existed in this department, but frankness is the best policy in these matters, and particularly in this case, becuse I am a firm believer in the immense value to the whole country of a hearty co-operation of all sections in advertising our horticultural resources. Kaslo seems to feel that Nelson sections were taking unfair advantage by making up plates later than the regulations called for, while some Nelson men appeared to feel that Kaslo was prepared not to be satisfied with anything. These rivalries of neighboring sections we are all familiar with, and it is up to every man to look at matters in the broadest possible light, and expend his energies in other directions by making the outside world believe that in the Kootenay and Boundary we have a country which can take as high a place for its horticultural products as for its mining products. Of course, regulations must be respected, but I know how difficult it is to adhere to the letter of the law and the main thing is to produce a good exhibition and give everybody a fair field and no favor. In the long run each section must stand or fall on its natural merits, and Kaslo has shown clearly that it has very strong horticultural merits. Its fair last week was a good thing in that it provided just the necessary stimulus to the people of that district. We in Grand Forks want precisely the same stimulus. Our people are too apathetic in these matters and fail to realise the advantages of getting a wholesome local enthusiasm aroused. Later on these local fairs may be dropped, having served their purpose, and centralization will serve the common good better. But to achieve the desired result there must be the broadest possible spirit, and in saying this I might add that I am sure that Nelson people recognize clearly that their exhibition has now arrived at the stage when it not only advances local interests but serves a very much wider purpose."

"Have you any suggestions to make as to the future?"

"Well, Nelson has done so well during the past four years that one hesitates to offer advice, but personally I feel strongly that in the district exhibits vegetables might be cut out. They take up a lot of room, and there is no special reason for advertising ourselves as squash and carrot growers, but there is a very strong commercial reason why we should advertise very strongly our fruit growing resources. With less dissipation of energy we could, I am sure, make a display of fruit from the various Kootenay districts which would do credit to any part of the continent, and I would in such a case lay stress on the importance of having all varieties named, and include a department of fruit packed for shipment. You are doing excellent work, and Nelson may well feel proud of the increasing success achieved by those who are responsible for the establishment and maintenance of your annual fair."

UNIONS AND POLITICS

LABOR CONGRESS BROACHES THE MOMENTOUS SUBJECT

ALSO CONDEMNS APPOINTMENT OF HON. JAMES DUNSMUIR

Victoria, Sept. 20—The Trades and Labor congress re-assembled for work today. The resolution that letter carriers be paid not less than $800 annually for eight hours' work in the postoffices was approved. The congress went on record as opposed to aiding immigrants from Great Britain. It was urged that if the unemployed came from England, they could not in any numbers be settled on the land; they would merely flood the industrial communities. Assisted immigrants would not have the backbone to do well in Canada.

The movement in favor of raising the Chinese head tax to $1000 was also approved. To the executive was delegated the matter of dual organization among the plumbers.

On the motion that the congress endorse the label of the international cigarmakers' union, delegate Serges of Vancouver, brought up the Industrial Workers of the World, believing that it was one of the associations referred. He said it was not an unfair society. Delegate Hungerford rose to a point of order. He thought it was not right for an organization opposed to the congress to be advocated before it.

James Simpson, who was in the chair, said the delegate was in order, as a bona fide delegate from a union affiliated with the congress. Delegate Grey of Victoria, appealed from the ruling of the chair. He explained that delegate Serges was advocating the Industrial Workers of the World and thought the fight on that organization should be brought on here and now. A vote was then taken; 43 delegates supported the chair and 25 were against the ruling. A motion was then put that all union labels be endorsed. Only a solitary voice voted in its favor. Delegate Simpson asked to be included as voting in favor of the blue label. The motion supporting the blue label was then put and carried, almost unanimously. The secretary submitted a resolution, the last two clauses of which read; "That immediately upon the adjournment of this convention, the provincial executives of this congress take the preliminary steps to summon a convention of the trade unionists of their respective provinces, and those in sympathy with organized labor, for the purpose of forming the necessary association to carry on thereafter the work of electing labor men. That upon such conventions being summoned and convened the functions of the provincial executive in this regard shall cease."

This was referred to a committee. The resolution requesting the dismissal and if necessary, the prosecution, of Mr. Preston, late dominion government immigration agent in England, was adopted unanimously, as was also one condemning the selection by the dominion government of the new lieutenant governor of British Columbia on the grounds that the official referred to was a large employer of Chinese and was a well known opponent of unions.

FOR CO-OPERATION.

Police of the Interior Form Association For the Prevention of Crime.

Yesterday morning in the city hall, chief of police W. R. Jarvis met the chiefs of police of the various towns in the interior in consultation and as a consequence an association for the detection and prevention of crime was formed, under the style of "The Police Association of the Interior of British Columbia."

It was unanimously resolved to form an association and this was done, with the following officers: Honorary president, F. S. Hussey, Victoria, superintendent of provincial police; president, W. R. Jarvis, Nelson; vice-president, M. McKenzie, Greenwood; secretary-treasurer, T. H. Long, Rossland; members of the executive committee, W. J. Devitt, Trail; J. Barron, Cranbrook; T. Bain, Revelstoke.

AN ATTACHE FOR CANADA

Dominion Wants Representative at United States Capital.

Diplomatic Incident Proves the Necessity —Australia and the Preference—Record Mineral Output for 1905

(Special to The Daily News)

Ottawa, Ont., Sept. 20.—For many years past the suggestion has been made that Canada should be represented by an attache at the British embassy at Washington. The necessity of this was recently expressed by the president of the United States himself. When Mr. Roosevelt was addressing the Canadian section of the waterways commission at Washington, he spoke, of the roundabout way in which he was forced to communicate with Canada's prime minister and government, and asked why it was that Canada was not represented by an attache at the British embassy. The president was afraid that the invitation to go to Washington would not have been received in time by the commission at Ottawa because it had to go by way of London. However, an unofficial message, sending an intimation of the meeting, came to hand and was accepted.

It has always been regarded here that something in the line of what the president of the United States suggests should be done so as to save much valuable time, but this is the first public intimation that the United States government would welcome it. In June last the United States made an appropriation for a commission to consider the St. John river disputes. Canada was informed of what was being done through the international waterways commission, and put an estimate through parliament for a similar commission. Word of the action taken by the United States in June was officially received here from the colonial office a couple of weeks ago, months after the whole affair had been disposed of.

A cable despatch says that premier Deakin, of Australia, complains that he got no answer to two letters of his in connection with the subject of a preference between Canada and Australia. The exact position of affairs will be shown when the whole correspondence is presented to parliament next session. It is, however, well known in Ottawa that Australia got an offer of a preference in the first instance ten years ago, and did not accept. There has since been a standing offer to the colonies. New South Wales came under that offer and got the preference. When New South Wales was absorbed in the commonwealth, the general tariff then framed was such as not to entitle it to the preference. Later on Canada endeavored to arrange a preference with Australia. Trade commissioner Ross was specially instructed to carry on negotiations and had done so. He was on the spot. It loked at one time as if Canada were to succeed, but instead the duties were raised against her. Australia knew that Canada was anxious for a preference but, instead of offering one, a higher tariff was extended to the Dominion. This, briefly, is how the matter stands.

A summary of the work done by the geological survey during 1905 shows the mineral production of Canada for the year to be $68,574,707, an increase of eight and one half million dollars over 1904 and of two millions over the output of 1901, the best previous record. The output for 1905 consisted of $37,150,830 worth of metallic, and $31,123,877 of non-metallic minerals. The gold product amounted in value to $14,486,833 of which the Yukon furnished $8,327,200.

BASEBALL MATCH

Rossland's Phenomenal Pitcher Baffles Boundary Players.

In the person of pitcher Bryan of the Rossland baseball team, a Nelson audience had yesterday the pleasure of seeing a player with easily the best control of a baseball of any one who has ever played on the local diamond. Mr. Bryan is a graduate of Princeton university, a man of private means, now studying practical mining at Rossland in the employ of the Consolidated M. & S. company, and is an ex-pitcher of the Princeton team. He has a marvelous control of the ball when pitching, and his work yesterday delighted all lovers of the game, who witnessed the Rossland aggregation get away with the team from Phoenix. In the early portion of the game Bryan pitched faultlessly, but slackened up a little in the closing innings. At no time, however, could the Boundary visitors find the Rossland pitcher with any certainty at all. The delivery varied so greatly that the Phoenix players remained guessing when the game was over. Bryan varied from exceeding pace to almost a slow ball with a tantalizing drop that baffled the batters completely. He fanned out 15 of the Phoenix players and but two safe hits were made off him in the game, while no second or third baggers were made at all.

Rush, for Phoenix, a league pitcher, did very well and pitched hard and faithfully. Outside of Bryan's pitching the teams were fairly equal with the odds, if anything, a little in favor of the Rossland players, but the latter with their prize pitcher were invincible and while making 11 runs, never allowed a Phoenix player to reach the home plate.

For the Rossland players, Harding made 3, Bryan and Nissen 2 each and Holland, Gibson, Costello and Preston 1 run each. The Phoenix team were somewhat disheartened by their failure to score and it affected their fielding, but they played a plucky heart-breaking game to the end.

The line up of the teams was as follows:

Rossland		Phoenix
Holland	c.	Sidell
Bryan	p.	Rush
Gibson	1stb.	Sherbanaugh
Fuller	2ndb.	McClurg
Brown	3rdb.	Bishop
Costello	ss.	Dill
Preston	lf.	McAstocker
Harding	cf.	McKelvey
Nissen	rf.	Kelly

RUNS BY INNINGS

	1	2	3	4	5	6	7	8	9	
Rossland..	1	4	2	2	1	1	0	0	0	—11
Phoenix...	0	0	0	0	0	0	0	0	0	— 0

George P. Wells umpired the game to everyone's satisfactaction, not one of his decisions being for a moment questioned or disputed."

EXTEND PASTORAL TERM

COMMITTEE DECIDES AGAINST INCREASE TO FIVE YEARS

NO HELP AS YET FOR B. C. PROVINCIAL UNIVERSITY

Montreal, Sept. 20—Judging from the tone of the discussion in the education committee of the Methodist general conference this morning, the request from British Columbia for aid in the establishment of a provincial university, is not likely to be entertained at present.

The temperance, prohibition and moral reform committee, in its recommendations to conference, urges Methodists to attend primary meetings and put forth every effort to secure the return of parliamentary candidates who favor temperance, prohibition and moral reform. The committee declares against compensation to the liquor trade out of the public funds, and also declares that every municipality should have the power to rid itself of the liquor traffic, by a simple majority vote of the electors. It regrets the increased spirit of gambling in Canada, a notable instance of which it finds in the prevailing custom of ladies spending much time playing games of chance under unhealthy excitement to the loss of money and other valuables, and the serious neglect of home life. The committee calls upon parliament to enact legislation against the gaming houses and race tracks of the dominion.

The book and publishing committee, after a hot discussion, decided to recommend the organization of a church organ in Winnipeg, which will be devoted to the interests of the church in western Canada. This discussion was brought about by the Manitoba delegates, who, securing the support of sufficient eastern delegates, managed to get the committee to alter its decision of yesterday in favor of improving the Guardian and the appointment of a western man as assistant editor.

The superannuation committee decided to recommend to conference a decrease in the superannuation allowance for ministers who have served under 35 years and an increase in the allowance for minsters who have served over 50 years.

The itinerancy committee decided to recommend that there be no change in the pastoral term of four years. The election of officers which was to have taken place this afternoon, was postponed.

LACROSSE MATCH

Revelstoke Defeats Local Players By a Score of 11 to 3 in Good Game

The lacrosse match between Revelstoke and Nelson yesterday afternoon resulted in a win for the visitors, who had the best of it all the way through the match, by the decisive score of 11 to 3. The scoring was done principally in the second and last quarters. During the first quarter the play was very fairly equal, but throughout the balance of the game the vistors outplayed the local team at every point. The visitors played a good combination game, passing easily and quickly, while the Nelson boys played up and down the centre of the field and did a great amount of unnecessary running, tiring themselves out.

Some ill-feling was caused by the appearance of Jamieson on the Revelstoke team. It was stated that earlier in the day he had offered to play for Nelson if paid for doing so. His offer was refused and his appearance later on the visitors' team suggests the view that Revelstoke accepted what the home players refused. The situation was rendered more acute towards the close of the first quarter when Jamieson hit Arthur Perrier over the head inflicting a bad looking scalp wound from which Perrier bled more or less profusely for the balance of the match. Later on Jamieson encountered Joe Thompson and for a time trouble threatened, but the matter finally passed off.

The line up was as follows:

Revelstoke		Nelson
	Goal	
Dickey		W. E. Davison
	Point	
McCorvie		Al. Jeffs
	Cover	
Dunne		C. Jeffs
	Defence Field	
Jamieson		Thompson
Edwards		F. Bell
Spring		B. Davison
	Center	
Knight		Bishop
	Home Field	
Barber		Steele
Hillier		R. Bell
Kerfoote		Steed
	Outside Home	
Woodland		Perrier
	Inside Home	
Bryson		Manhart

In the first quarter no scoring was done and the teams played on equal terms.

In less than a minute after play started in the second quarter, Bryson scored for the visitors and half a minute later Perrier did the trick for Nelson. Kerfoote scored twice for Revelstoke in the next four minutes and just before the whistle blew for half time Bryson scored again, the game then standing Revelstoke five, Nelson one.

The third quarter was a long hard fight for the home team and just before it ended Spring scored for the visitors.

In the last quarter the visitors had mostly their own way scoring five times, while Nelson got between the poles twice leaving the total score Revelstoke 11, Nelson 3.

CHOICE OF LIBERALS

Dr. G. A. B. Hall Probable Party Candidate in the Coming Campaign

Receives Unanimous Nomination of Nelson Liberal Association at Representative Meeting Held Last Evening

Subject to ratification by a mass meeting of the liberal electors of this city, to be held at a later date, Dr. G. A. B. Hall will be the liberal candidate in the Nelson city electoral district in the forthcoming provincial general elections.

This was decided at the annual general meeting of the Nelson Liberal association held last evening in the board of trade rooms.

Despite the attractions of the exhibition, the performance at the opera house and the dance in Fraternity hall, there was a splendid attendance at the meeting, indicating unmistakably the keen interest the liberals of this city take in the campaign, which cannot long be deferred and which may be brought on before many weeks elapse.

The board of trade room was literally crowded to overflowing when the ballot was taken on the momentous question as to who was to be the association's nominee for party standard bearer in the next contest.

There were just two names before the meeting, those of Dr. G. A. B. Hall and J. Fred Hume.

At the last regular meeting of the association Dr. Hall and J. Fred Hume had been placed in nomination and last evening's meeting was to decide as to which of the two should be finally recommended to the public ratification meeting of the liberal electors of the city, to be held when the date of the next general elections was definitely known.

On the ballot being taken Dr. Hall was declared the choice of the meeting and J. Fred Hume thereupon moved that the nomination be made unanimous and the motion was adopted by every one present rising to his feet and applauding vociferously.

There were no nominating speeches and the two nominees very briefly addressed the meeting before the vote was taken.

J. Fred Hume said he was not anxious to receive the nomination and believed that Dr. Hall would make the strongest candidate. He knew that politics would greatly interfere with his business and on personal grounds would prefer to remain at home. If, however, he were the choice of the meeting he would undertake to do his utmost to carry the liberal standard to victory and if elected would, to the best of his ability, strive to serve the interests of the city of Nelson. He hoped Dr. Hall would get the nomination and promised to give him his hearty support in the campaign.

Dr. Hall said he had given a great deal of consideration to the question of entering politics. He realized that it meant a good deal of sacrifice on his part, but, whilst not running after the nomination, he would be proud to be the nominee of the liberals of the chief city of the interior and would be prepared to devote his time and best efforts to the advancement of liberal principles and the promotion of the welfare of the city and province in so far as that might be possible. The doctor closed his remarks by pledging his hearty support to Mr. Hume in the event of the latter being the choice of the meeting.

Preceding the vote for candidate the election of officers for the ensuing year took place, the result being as follows:

Hon. President—W. A. Galliher.
President—A. B. Docksteader, unanimously reelected.
Vice-President—Thomas Madden.
Secretary—D. H. Proudfoot, unanimously reelected.
Treasurer—John Hamilton, unanimously reelected.
Executive Committee—Dr. Arthur, W. W. Beer, F. J. Deane, W. Ebbs, W. G. Gillett, Dr. Hall, J. Fred Hume, W. S. Pearcy, Fred Smith, S. S. Taylor, J. H. Vanstone and A. K. Wattie

Hudson's Bay Stores

Cool nights are now in order. They will invite pleasant dreams of

Hudson's Bay Blankets

We have plenty of them in red and blue.

3 1-2 Points, weighing 10 pounds, $7.50 per pair
4 Points, weighing 12 pounds - - 8.50 per pair

These blankets are justly celebrated for their excellence. We alone carry them in this city.

Also complete lines of white and gray all wool and union blankets, different sizes and weights from

$2.75 to $7.00 per pair

Headquarters for Campers, Miners, Prospectors and Lumbermen.—Pillows, Comforters, Gloves and Mits, Socks, Shirts and Underclothing, Oil Clothing, Sweaters, Miners' and Prospectors' Boots and Shoes and Rubbers. Groceries and Provisions. Everything of the best quality and prices surprisingly low.

THE LIBERAL NOMINATION

At the annual general meeting of the Nelson Liberal association, held last evening, Dr. G. A. B. Hall was formally adopted as the association's choice of a candidate to contest the city of Nelson in the forthcoming provincial general elections.

This choice has to be ratified by a mass meeting of the liberals of the city at a later date, but in view of the thoroughly representative nature of last evening's meeting and the fact that the choice was made unanimous upon the motion of the only other man whose name has been mentioned in this connection, it may be taken for granted that Dr. Hall will be the liberal standard bearer in this city in the coming campaign.

OUR TIMBER WEALTH.

It is gratifying to note that the McBride government's timber policy is receiving the attention of some of the leading coast papers. The New Westminster *News* and the *Victoria Times* are doing good work in focussing public attention upon the scandalous dissipation of our timber wealth made possible by the regulations framed by the McBride government.

In discussing this subject the Times says:

On the 26th day of the present month a convention will meet in Vancouver to seriously consider the important question of forest conservation. In the eastern portion of the continent the matter of the timber supply of the future has already become a serious problem. Up to a comparatively few years ago the chief end men kept in view was to get the timber cleared off the virgin soil for the benefit of ambitious agriculturists. Now past prodigality is the subject of general lamentation. The value of wasted timber resources is beginning to be appreciated. All the talk is of reforestration. No doubt some of the members of the provincial government will attend the convention in Vancouver and deliver thoughtful addresses on the necessity for economic administration of the timber resources of the province. But we should like to know what practical action the government is taking to carry out a policy of which it approves so unreservedly in the abstract. The New Westminster News has been giving *some attention to this subject of wilful*, extravagant dissipation of one of the most valuable of our provincial assets, and its conclusions seem to be substantiated by the columns of advertisements appearing in government organs giving notice of the intention of applicants to take up timber claims, largely, it is to be feared, for purely speculative purposes. Our contemporary says: "Only 407 timber licenses were issued from the lands and works department during the month of July last, and there are only fifty new applications for timber licenses in this week's Gazette. Please put the emphasis on the "only," and ask yourself how long the timber land of this province will last, as a possible provincial asset, if this sort of thing is to go on. Is the government, which has been taxing everything in sight and starving the agricultural and other interests by the inadequate appropriations for public works, and all on the plea of poverty, going to allow the timber wealth of the province to pass into the hands of speculators on terms which manifestly afford a margin for a big speculative profit."

EDITORIAL NOTES.

Some one has suggested that a composite exhibit made up from the various fruit displays at the local fair should be sent to New Westminster next week, there to prove to the people of the coast that the Kootenays can vie with the Okanagan in the production of the choicest fruit grown in Canada. Vancouver smiled not long ago when the World, of that city, published an excerpt from The Daily News intimating that the people of the interior were commencing to take seriously the claims made by some enthusiasts in the districts contiguous to Nelson that they *possessed fruit lands of unsurpassed* excellence, and the cynical air then assumed has not yet been dissipated. It would be an excellent object lesson if the local producers were to get together, pick the best of the splendid lot of fruit now on display at the fair, and send to New Westminster a Kootenay exhibit that would open the eyes of the coast and, incidentally, perhaps, snatch premier honors from the Okanagan.

The Victoria Times is by no means prepared to accept either premier McBride's or the Colonist's denial of the probability of an early appeal to the country. Says the Times: "Nevertheless and notwithstanding, we reiterate that which has already been stated in our columns: that the government will not again meet the legislature; that an understanding has been reached with the lieutenant governor and that a dissolution will be granted when it is asked for; that every possible preparation has been made for a general election, and that the constituencies will be appealed to before the end of the present year." The Vancouver News-Advertiser, on the other hand, is equally positive that there is to be no dissolution before another session of the legislature and, furthermore, hints at the possibility of the general elections being held off until the spring of 1908. After citing reasons why, in its opinion, tehre is no occasion for an early appeal to the country, the News-Advertiser goes on to say: "Under such circumstances it is inexplicable why it should be supposed that the government intends to disturb matters by the turmoil and confusion incident to a general election. Certainly its own supporters would not thank it for such a wanton disturbance of business and enterprise as a general election would entail. Under the provisions of the constitution the existence of the present parliament might be prolonged until well on in the spring of 1908, so that if it was decided to let it extend for its full legal term not only one but two more sessions might be held before another appeal is made to the electorate."

TELEGRAMS OF THE DAY

Buenos Ayres, Sept. 30.—The customs dock, which was destroyed by fire yesterday, contained 30,000 tons of merchandise. The losses are estimated at $1,200,000. The origin of the conflagration is not known. Five clerks and seventy workmen have been arrested. Five firemen were injured. The dock and storehouses erected by the government at a cost of $400,000, were destroyed.

New York, Sept. 30.—A Huntington, W. Va., despatch to the World says that "Cap" Hatfield, the state's most famous outlaw, who has spread terror among the natives in Virginia and Kentucky border, especially the McCoy family, is dying at Wharncliffe, Mango county, the result of two bullet wounds inflicted, it is charged, by Dr. Elias R. Hatfield his youngest brother. "Cap" and the young doctor had not been on the most friendly terms for a few weeks, but why no one may ever know. They met yesterday on the railroad track below Wharncliffe. "Cap", as usual, carried a Winchester rifle, while the doctor had a pistol. The men began shooting when within 40 yards of each other and the young doctor proved the better marksman and it is alleged put two bullets directly through the chest of his outlaw brother. "Cap", it is said, had killed more than a dozen men. Dr. Hatfield has surrendered to the Mango authorities. He is 26 years of age and is a graduate of the Louisville medical college.

HOLDS THE RIGHT OF WAY

How Special Orders for Suitings are Filled by Semi-Ready Tailors

"What do you do when you run out of a popular line or style of suiting?" was asked the sales manager of the Semi-ready wardrobe.

"In our tailor shops in Montreal," he replied, "we have a special order department where your measure and physique type charts are sent by us, and you may have the suit back in ten days. Usually it takes a suit of clothes twice that long to go through the hands of the experts, but the red ticket on the 'special order' gives it the right of way, just as the fast express has priority on a railway."

ORE DISPLAY AT FAIR

A DESCRIPTION OF SOME OF THE BEST EXHIBITS

KOOTENAY'S MINERAL FAME IS WELL SUSTAINED

Recognizing the general interest displayed by the crowds of fair visitors in the splendid display of ores which form so striking a feature of the exhibition main building arrangements, The Daily News presents below an account of several of the exhibits. Considerable attention has already been given to the Boundary collection, brought by Mr. Cornish, and in subsequent issues the exhibits not dealt with here will be described.

LEAD ORE EXHIBIT

Easily the best collection in the mineral exhibit and that which is the most interesting to Nelson, is the silver-lead ores collected by H. M. Stevenson of Ainsworth and J. W. Cockle of Kaslo. This collection comprises specimens from 26 different mines, extending from Sandon and Cody, over Ainsworth, south fork of Kaslo creek, Slocan lake, Hamill creek, to the Bear tooth range on the east side of Kootenay lake. Mounted appropriately, grouped effectively, with the specimens clean and freshly faced, there was never any doubt as to its winning the cup presented by the Hall Mines for the best display of such ores. The collection is comprehensive but by no means exhaustive. There are yet many properties, shippers or more or less developed prospects which could be represented and probably will be in future years. This good as is the collection it can and will be extended. The varieties of ore, however, which occur through the lead-silver districts, are well enough represented.

How representative is this display can be gathered from the following details. Beginning with Sandon, the mines of that camp showing are the Great Western, Stranger, Payne, Miller Creek, Noble Five, Reco, Mercury and Trade Dollar. Of these the Payne has been the largest dividend paying lead mine in British Columbia, the amount up to date being about $1,600,000. It is at present under lease to Walker Smith who is extracting a shipping ore and sinking from the 800 foot level. The Noble Five had the first lead concentrator in the Kootenay country, a bottle of the original concentrates from the first run in 1894, being on exhibition. The Reco has been a large dividend payer and has probably shipped the richest ore in carload lots in the world. The first carload of Reco ore was packed out over the trail to Kaslo in 1893 and assayed 900 ounces in silver the ton.

Going on to Ainsworth; this camp is represented by the Black Diamond, Maestro, Spokane, New Jerusalem, Fourth of July, Little Donald, Mile Joint, Tamarac, Lost Paradise and Highlander. The Little Donald of these has the highest grade ore so far discovered in this camp, averaging about 55 per cent lead and from 90 to 100 ounces in silver, the clear ore going as high as 150 ounces in silver and 80 per cent lead.

Recent work on the Highlander, on the deepest levels of the camp, veins have been opened up from 1000 to 1600 feet below the surface showings, thus proving beyond question the continuity of the veins and ore bodies in the southern half of the district.

Cody is represented by the Last Chance and Kaslo. The former is working under the management of Louis Prott and has shipped heavy quantities of high grade ore in the past, with good prospects for the future.

In Jackson Basin, which is represented by the Alameda, Slocan Boy, Jackson, Dublin Queen, Utica and Lucky Boy, the Jackson can be taken as typical. It is the prominent mine of the district. This mine has a concentrator and has shipped large quantities of both lead and zinc ores in the past. The uncertainty of the zinc prospects is now preventing active development upon this promising property.

The south fork of Kaslo creek is showing the Granite King, Ben Hur, Liberty, Stockholm, Kimberley, Liberty Hill, Winthrop, Montesuma, Grey Eagle and Bismarck. Of these the Bismarck, Winthrop and Stockholm are high grade properties. The Montesuma is probably the largest of those mentioned. It has a concentrator which is at the present time being renovated; the tramway has been thoroughly overhauled and the mine has resumed work under the management of H. Geigerich.

McGuigan is represented by the Dardanelles, Rambler-Cariboo, Surprise, R. E. Lee, Congress and Antoine. Of these the Rambler-Cariboo has been most prominently before the public eye recently but, of the others the Antoine and Surprise have also been heavy shippers of high grade ore and may yet resume their old positions. The Surprise is now being developed under the management of Alex. Smith, by the extension of the deep level tunnel of the district, the Last Chance crosscut. The Rambler deep level tunnel, 1450 feet, has proved for the northern portion of the districts represented, what the Highlander tunnel has done for the south.

Whitewater is represented by four properties, the Whitewater, Whitewater Deep, Charleston and Sunset. All four have been shippers of high grade ore in the past. From the Charleston there has been shipped in small lots ore running as high as 1800 ounces in silver. The Whitewater and Whitewater Deep are now under lease to W. E. Koch, S. S. Fowler and John Retallack, and are both shipping with highly satisfactory results.

The only property from Slocan lake represented is the Hewitt, now being worked by M. S. Davys, and specimens from which mine of dry silver ore, has won a prize in another department of the exhibition.

Kokanee is represented by the La Plata on which many improvements have been made of late, causing the property to assume considerable proportions in public estimation and by the Mansfield group.

The Lucky Jim on Bear Lake, owned by George Hughes and John Wolverton, had been shut down because of its zinc, higher in grade than any other in the district, but taken over by its present owners about two years ago, was put in operation and during the first year of its work paid a profit of $80,000, principally from its zinc shipments. These shipments have had to be discontinued on account of the import duties enforced by the United States on zinc.

Hamill creek is represented by the Lavina and Dewey and Sampson group. These properties are not operating, yet the Lavina has large bodies of low grade ore in sight.

Woodbury creek shows the Grant, Scranton and C.P.R. The Grant has probably the highest grade ore of these, having shipped ore, averaging in carload lots, 450 ounces in silver. The Scranton has a good showing about 80 ounces in silver.

Also shown are Fourth of July, Zuni, and Carbinet, No. 2, from Springer creek; Great Hope, Hidden Secret, and X-Ray, from Crawford creek; Bear, from Duncan river; Milford Star, from Milford creek; Great Dane and Kaslo, from the St. Mary's country and the Dublin group. Treasure Vault and Florida, scattered over the districts represented. These are principally of the prospect class.

One most interesting feature of this exhibit is a collection of small samples of ores which are the original specimens brought in by the prospectors after their initial prospecting trips into the Slocan upon their return to civilization for the purpose of recording their locations. The first of these locations represented was from the Beaver claim, located on Schroder creek in the fall of 1891. This was the first location in that famous rush into the Jackson Basin; Northern Bell, Rambler and Best, in McGuigan; Sunset, at Cody; Lucky Jim, at Bear Lake; the Whitewater at Whitewater and the Bonanza King, Reco and Payne at Sandon.

COAL EXHIBITS

George H. Dickson, mining engineer for the International Coal and Coke company of Coleman, Alberta, whose exhibit of coal is attracting much attention in the mineral exhibit at the fair, said yesterday afernoon in reference to the coal that it was a part of a vast deposit extending as far as is at present known, as far east as Saskatchewan, north to Edmonton, and the new line of the Grand Trunk Pacific and as far west as the Rockies, the whole being of the cretaceous formation. The coal found to the eastward, such as Galt and Lethbridge, is a lignite. When the Rockies are reached it becomes more bituminous and grades into a semi-anthracite. The International Coal and Coke Co. has a position intermediate between the lignites and the semi-anthracites, having an excellent deposit of steam and domestic coal. The sample on exhibition is used for both purposes. The coke shown is made from another grade which is used entirely for coking. The deposit of domestic and steam coal occurs in a seam from 12 to 14 feet wide. The coking coal is in a parallel seam of about eight feet wide. The company has been in operation for nearly three years, the 22nd of October being Coleman's third anniversary. Coleman has now a population of about 1200 people, all of whom are dependent upon the mines. The output is now about 1400 tons a day, going principally to the railways, but there is a large domestic demand.

MARYSVILLE EXHIBIT

The mineral exhibit of the St. Mary's board of trade has arrived and is on exhibition at the fair building in charge of E. J. Clayton. It can be found occupying a prominent position to the right of the main entrance. A number of properties of the Marysville district are here attractively arranged among which the sample of the Mystery group, owned by Robert Dewar, attracts considerable attention, as this is the claim to which the public eye has been attracted by an article appearing in The Daily News of the 18th instant, wherein it will be remembered this property was turned down by Colorado capitalists. The Victoria group of claims, situated on the west fork of the St. Mary's river, is also represented. This is a gold copper property but very little work has been done upon it as yet, despite the fine surface showings. Lack of transportations facilities is holding the whole St. Mary's country back. Some of these properties run very high in copper, indeed, the Mystery having had assays running as high as 19 per cent. In addition samples are on view from Chris Kolle's property. The Selkirk, on White Fish creek, is showing a sample running 11 per cent in copper; the Omenica has another of 4 per cent, the property being situated within a mile of Marysville. Also there is the Mclachite running as high as 35 per cent in copper. The copper veins are mostly situated on the north slope of St. Mary's valley, occurring in various widths, some being quite 20 feet wide.

But in addition to these the St. Mary's country is showing that it possesses other capabilities in ore. There is shown, for example, the ore from the Flying Cloud which is near St. Mary's lake. Here the values are given as 40 ounces in silver with 80 per cent lead. Another meritorious property is the Dominion group, which has also some fine specimens on view.

Mr. Clayton will be found at the exhibition and will be pleased to give any further information.

Minard's Liniment Cures Distemper

PAIN FROM BURN PROMPTLY RELIEVED BY CHAMBERLAIN'S PAIN BALM

A little child of Michael Strauss of Vernon Conn. was recently in great pain from a burn on the hand and as cold applications only increased the inflammation, Mr. Strauss came to Mr. James N. Nichols, a local merchant, for something to stop the pain. Mr. Nichols says: "I advised him to use Chamberlain's Pain Balm and the first application drew out the inflammation and gave immediate relief. I have used this liniment myself and recommended it very ofte nfor cuts, burns, strains and lame back, and have never known it to disappoint." For sale by all druggists and dealers.

Sunlight Soap is better than other soaps, but is best when used in the Sunlight way. Buy Sunlight Soap and follow directions.

NOTICE

NOTICE is hereby given that the Canadian Pacific Railway Company, as lessee of the Columbia and Western Railway Company, have this day filed in the District Land Registry Office at Nelson, a plan, profile and book of reference showing the proposed location of a branch line to the China Creek Lumber Company's timber limits near Castlegar, and that four weeks after this date the said Canadian Pacific Railway company intend to apply to the Board of Railway Commissioners for Canada, under section 175 of the Railway Act, for authority to construct the said branch.

Dated this 18th day of August, 1906.

R. MARPOLE, General Superintendent.

NOTICE

In the matter of an application for the issue of a duplicate of the Certificate of Title for Sub-Division 2 of Lot 381, Group 1, in the district of Kootenay, (Map 725.)

NOTICE is hereby given that it is my intention to issue at the expiration of one month after the first publication hereof, a duplicate of the Certificate of Title to the above mentioned lands, in the name of Henry W. Farrall, which Certificate is dated the 23rd day of Oct. 1902, and numbered 1864A.

H. F. MACLEOD, District Registrar.

TOYE & CO.

FRUIT LANDS AND REAL ESTATE

Woo See ranch, contains 55 acres, situated 13 miles east of Nelson, on Kootenay lake, fronting on the lake, 36 acres under cultivation, 300 fruit trees, 10 acres of strawberries, the yield of which was 1000 crates this season. Has waggons, farm implements, team of horses, uncompleted dwelling house of about 9 rooms, cost about $400 to complete this. Steamers pass this ranch four times each day, McCoy's Siding, a C. P. R. station, one-third mile from property. The price is $7500; one-third cash, balance in 1 and 2 years, with interest at 6 per cent.

50 acres of land 6 miles east of Nelson on Kootenay lake, one-quarter mile from the shore, good wagon road from lake past property, adjoining ranches all cleared and under cultivation; registered water right of 27 inches goes with the property. This land is good, and can be cleared very easily. Price $35 per acre; terms $750 cash, and balance on easy terms to suit purchaser. There is a good school one-quarter mile from this property.

10 acres of very choice land, adjoining the Woo See ranch; plenty of water. Price $75 per acre, reasonable terms.

17½ acres of land, water front property; railroad running through the centre of it, 13 miles east of Nelson; plenty of water. Price $75 per acre. Terms can be arranged to suit purchaser.

20 acres opposite Procter, in a thoroughly settled district, that has school and church; about 30 families; waggon road close to property; half mile in from shore of lake. Price $50 per acre; $250 cash, balance in 6, 12, months with interest at 6 per cent.

160 acres situated 8 miles west of Nelson, one mile from Beasley, a C. P. R. station; has 50 acres cleared, 8 acres plowed, 20 acres in grass, 60 fruit trees, ½ acre of vegetables, new dwelling house 17x25, chicken house 12x20, barn 16x30, partly fenced. Price $50 per acre, $1000 down, balance in payments extending over a period of three years with interest.

25 acres, 5 miles west of Nelson, on waggon road from Granite Siding, distance one mile; stream of water running through it, also good spring; adjoining property all settled on, and under cultivation. Price $30 per acre, $350 cash, balance in one year.

200 acres with about ½ mile water frontage, 1½ miles below Balfour, at $12.50 per acre.

47 acres, improved ranch, 1½ miles east of Nelson, on Kootenay river, 300 ft. river frontage, 200 small fruit bushes, 200 fruit trees, three years old, small house, about 8 acres cleared. Price $3000.

12 acres at 4-Mile Point, on Kootenay lake, water front property, at $110 per acre. Terms one-quarter cash, balance in 6, 8 and 12 months, with 7 per cent interest.

73½ acres, 18 miles west of Nelson, station right at the door, 20 inches water right, 18 acres cleared, 530 fruit trees, 300 bearing, one acre of strawberry plants. Price $4500. $2500 down, and balance in 6, 12 and 18 months with interest at 6 per cent.

160 acres of land on Pass Creek at $12 per acre; adjoining property is being offered at $40 per acre.

1200 acres in the vicinity of Deer Park, on the Arrow lakes, part of this water front property; also improvements, dwelling house, green house, and barns; considerable ground cleared and under cultivation. Price $12.50 per acre, one-quarter down, balance in 6, 12 and 18 months.

320 acres, with large barn, 7-roomed house well finished, with water in shed and at door, farm implements; 25 acres improved, 50 fruit trees out on it. Price $500, easy terms. Large beaver meadow; one of the best landings on the Arrow Lakes.

40 acres of good fruit land situated one mile from Creston, B. C. Price $30 per acre; can give terms.

320 acres at Creston, good waggon road to property; rich bottom land; adjoining ranch takes three crops of hay off in one year, for sale at $50 per acre in 10 acre blocks, and 40 acre blocks at $40 per acre. Special price for entire amount. Terms one-quarter down, balance in 2 years at 6 per cent. Close to this ranch there are 1000 acres of marsh, suitable for grazing.

350 acres, one-quarter mile from Tarry's flag station, with water right of 50 inches. Price $20 per acre in blocks any size to suit purchaser; can give terms.

About 3000 acres of land on Kootenay lake, containing a large amount of good fruit land; offers are requested for this land.

24 lots, one block from car line, would make a beautiful garden; first class land, plenty of water. Price $33.33 a lot.

Two complete small furnished houses and 2 lots, 15 fruit trees, a good crop of fruit and vegetables. Price $1300; can give terms.

320 acres on Kootenay lake, $7.50 per acre.

Corporation of the City of Nelson NOTICE

The use of water in fountains or by jets, garden hose or sprinklers is limited by resolution of the City Council to between the hours of 5 o'clock p.m. and 8 o'clock p.m.

Anyone guilty of a violation of this resolution is liable to a heavy penalty. By Order.

A. L. McCULLOCH, Water Commissioner.

Nelson, Aug. 20th, 1906.

TO WORKINGMEN NOTICE

Whereas, at the Last Chance and Surprise mines, Chinese kitchen help is at present empoyled, to the exclusion of White labor.

Therefore, be it resolved that this organization, 'Sandon Miners' union No. 81 of the W. F. of M. reaffirming its opposition to the employment of Orientals within its jurisdiction, strongly condemns the position taken by the management of the properties in question, and counsels workingmen everywhere and those favorably disposed toward organized labor to be governed by this action.

SANDON MINERS' UNION

A. SHILLAND, Secretary.

Change of LIFE

Need Not Bring Suffering and Misery

This perfectly natural change in a woman's life is too often accompanied by painful, distressing symptoms due to female troubles and slight irregularities in her delicate organism.

The woman who passes this change without the development of tumors, cancers, or chronic invalidism enters a new field of happiness and usefulness in the domestic circle and in social activity. Her physical system should receive the necessary assistance at this critical period.

Lydia E. Pinkham's Vegetable Compound

is exactly suited to woman's needs at this time. It strengthens and cures all derangements of the female organism, it overcomes the hot flashes and dizzy fainting spells, and all other distressing symptoms.

Woman's Friend During Change of Life

Dear Mrs. Pinkham:—I owe my splendid health to Lydia E. Pinkham's Vegetable Compound. I am the mother of three children, have safely passed the change of life, and feel as young and strong as I did twenty years ago, and this is all due to your friend of women, Lydia E. Pinkham's Vegetable Compound. I took it before my children were born, and it greatly assisted nature and saved me much pain, and during change of life I took it off and on for four years, and had but little trouble and sickness such as most women have to endure. MRS. JAMES K. MANN, 806 Bathhurst Street, Toronto, Canada.

The whole secret of safety at this time of life is thorough preparation before the change begins. Fortify the system with a course of Lydia E. Pinkham's Vegetable Compound. This wonderful medicine has carried thousands of women through this danger period.

No such helpful advice to women who are sick can be had anywhere as will be received free by addressing Mrs. Pinkham, Lynn, Mass. Mrs. Pinkham is daughter-in-law of Lydia E. Pinkham, and for twenty-five years under her direction, and since her decease, she has been advising sick women free of charge.

Lydia E. Pinkham's Vegetable Compound Cures Where Others Fail

TIME TESTED TEA

Teas May Come and Teas May Go But

Blue Ribbon

TEA has stood the test of years of actual use under all conditions. A large proportion of the most particular tea drinkers of the West have now tried it and been won by its uniformly high quality.

We want the rest to try it and judge it strictly on its merits.

Have you ever tried Blue Ribbon Tea? Its fine, rich flavor will delight you. Lead packets 50c a pound.

Premier Fruit Land

probably will amount to seven thousand."

Hong Kong, Sept. 20.—Sir Mathew Nathan, governor of Hong Kong, speaking to the executive council today, said he intended to appoint a committee to inquire into the charges made against the observatory that it had failed to give warning aof the coming of the typhoon. He said he was confident that the director could not be blamed.

Minard's Liniment Cures Garget in Cows

WAS A VERY SICK BOY

But Cured by Chamberlain's Colic, Cholera and Diarrhoea Remedy

"When my boy was two years old he had a very severe attack of bowel complaint but by the use of Chamberlain's Colic, Cholera and Diarrhoea Remedy we brought him out all right," says Maggie Hickox of Midland, Mich. This remedy can be depended upon in the most severe cases. Even cholera infantum is cured by it. Follow the plain printed directions and a cure is certain. For sale by all druggists and dealers.

BOY GRABBED LIVE WIRE

Seattle, Sept. 20.—Elmer Burton, seven years of age, was killed yesterday by grasping a broken telephone wire that had fallen across an electric light. The little boy's fingers on his right hand were almost burned off and a streak around the thigh of the right leg was burned to the bone.

Minard's Liniment Cures Distemper

CHAMBERLAIN'S COUGH REMEDY ACTS ON NATURE'S PLAN

The most successful medicines are those that aid nature. Chamberlain's Cough Remedy acts on this plan. Take it when you have a cold and it will allay the cough, relieve the lungs, aid expectoration, open the secretions and aid nature in restoring the system to a healthy condition. Thousands have testified to its superior excellence. It counteracts any tendency of a cold to result in pneumonia. Price, 25 cents. Large size 50 cents. For sale by all druggists and dealers.

FEARFUL LOSS OF LIFE

TALE OF HONG KONG'S DEAD NOT YET COMPLETED.

OVER FIVE THOUSAND NATIVES SAID TO BE DROWNED.

Hong Kong, Sept. 20.—The full extent of the typhoon catastrophe is not yet known but conservative estimates place the number of Chinese who lost their lives at 5000 and the total of material damage to the colony at $20,000,000. Word of the disasters at sea is also being received. The steamer Albatross with 150 passengers on board foundered near Autumn pass; only six passengers and two of the crew were saved. They swam ashore.

The steamer Hong Kong was lost and her entire crew is missing. The steamer Ying Fat, from Sam Chung, foundered and her 130 passengers and 10 of her crew are missing. Only two of the crew are known to have been rescued.

Mrs. Hoare and her search party have returned. They found no trace of her husband, Joseph Charles Hoare, Anglican bishop of Victoria, whose yacht was lost during the typhoon.

Captain Thomas, commander of the river steamer Falshun, whose Chinese crew clambered on board the French steamer Polynesian when the Falshun collided with her, saved his vessel and 150 Chinese passengers by splendid seamanship. Fortunately the engine room staff staid heroically with their post. Thomas was left almost single handed on deck. He took the wheel and navigated the Falshun for an hour and forty minutes through a tempestuous sea and finally beached the vessel safely. It is believed that she can be refloated without trouble.

The staff of the Jardine Matheson sugar refinery rescued two hunderd Chinese. The losses of the Kow Loon Godown (warehouse) company are estimated at $750,000. Forty thousand bales of yarn were in storage at Kow Loon and probably are irretrievably damaged. The beach is littered with valuable silks and many looters have been arrested here.

There were several hundred passengers on board the Heung Shan from Macao, which stranded off Lantao island. All the European passengers including three women were saved but many of the Chinese were drowned, and the total number of deaths is not known. The position of the Hueng Shan is hopeless.

The C. P. R. liner Monteagle has been floated.

London, Sept. 20.—Sir Matthew Nathan, governor of Hong Kong, has sent the following cablegram to the colonial office: "There is strong evidence that bishop Hoare, of Hong Kong, was drowned. The loss of life among the Chinese

BUY ROBSON LANDS

AND YOU WILL HAVE

FIRST CLASS SOIL	BEAUTIFUL LOCATION
MAGNIFICENT SCENERY	EXCELLENT FISHING
SUPERB BOATING	GOOD HUNTING

TRANSPORTATION—The best in the Kootenays. Rail and Steamer.

ISOLATION?—No! not at Robson.

WHY BUY Kootenay Fruit Lands that mean no near neighbors and poor transportation facilities when you can have both these advantages and many others—AT ROBSON.

WHAT OTHERS SAY

Brandon, Man., Aug. 31, 1906.

Messrs, McDermid & McHardy,
Nelson, B. C.

Gentlemen,—After spending a day in examining your Kootenay-Columbia fruit lands at Robson I am pleased to express the most favorable impressions of these lands. I am expressing that judgment by the purchase of three lots for myself and friends. The reasons of my selections of these lots are:

(1) The evidence of the suitable quality of the soil for raising fruits.

(2) The lay of the land—land level stretches, first on the lower river flat and then on the bench 400 feet above.

(3) The increased rain fall that makes artificial irrigation as a rule unnecessary, while yet there are ample possibilities for irrigation if it should ever be found necessary.

(4) The beauty of the scenery. From every part of the land the scenery is beautiful, but from the upper bench it is superb. The winding river and railway lines in the valley, with greenclad mountains all around make a scene of indescribable beauty.

(5) The extended area. Those who buy lots here will not find themselves isolated. There will be afforded in the hundreds of lots, joining each other without a break, advantages of a social, religious, and educational character that are invaluable.

(6) It is in the main line of travel to the east, via the Crow's Nest route, and to the west, via Arrow Lakes to Revelstoke. The facilities for getting fruit quickly to the market are unsurpassed.

Yours very truly,
(Signed)
A. P. McDIARMID,
Principal Brandon College.

PRIVATE TEST.
Dec. 26.

Dear Sirs:
The size 1 "MELOTTE" Cream Separator has given me entire satisfaction. I have been using it for one year and it runs easier and works better, if anything, than when I first got it. I had a trial of the "Alpha de Laval" for two months, but consider the MELOTTE much superior in every way.

Synopsis of Canadian Homestead Regulations

ANY available Dominion Lands within the Railway belt in British Columbia, may be homesteaded by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres, more or less.

Entry must be made personally at the local land office for the district in which the land is situate.

The homesteader is required to perform the conditions connected therewith under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year for three years.

(2) If the father (or mother, if the father is deceased), of the homesteader resides upon a farm in the vicinity of the land entered for, the requirements as to residence may be satisfied by residence upon the said land.

Six months' notice in writing should be given to the Commissioner of Dominion Lands at Ottawa of intention to apply for patent.

Coal lands may be purchased at $10 an acre for soft coal and $20 for anthracite. Not more than 320 acres can be acquired by one individual or company. Royalty at the rate of 10 cents per ton of 2000 pounds shall be collected on the gross out-

STRIKE AT HILL CREST

ENGINEER MACLEAN GIVES COMPANY'S SIDE OF CASE.

ALLEGED MINERS WERE NOT DOING FAIR DAY'S WORK.

T. A. MacLean, chief engineer of the Hill Crest Coal and Coke company at Frank, Alberta, is in the city at the Strathcona hotel. He came in on Wednesday night for the purpose of meeting the members of the Canadian Society of Civil Engineers.

Learning that there was a strike on among the coal miners at the Hill Crest mine Mr. MacLean was seen and asked the cause of the trouble. He gave the following statement from the company's point of view:

"The difference between the company and the men began in May during the absence of the managing director, C. P. Hill in eastern Canada and the United States where he was endeavoring to sell stock and bonds of the company in order to raise money with which to continue development.

"To begin at the beginning of the trouble in the early stage of the development the company agreed with some of its miners, who were not then an organized body, to pay the contract prices demanded by them. This was for the sake of proving the quantity and quality of the coal and the capabilities of the property. During the continuance of these contracts the men working in the main tunnel face in the month of May mined 8 2-10 tons of coal per man per shift of eight hours. Under this arrangement the size and therefore the quality of the coal was sacrificed, being reduced to dust by the excessive use of powder, and to secure a fair test of the coal's actual value when properly mined, and fully aware also of the exorbitant nature of contract prices the company decided to cut out all contract work, and the men were placed on day's work on a scale of wages equal to and in some cases in excess of the union scale then and now in force in the district. Since that time the average tonnage of coal produced per shift for each man has been three and one-third tons, as against nine and two-tenths tons under the contract system referred to above. When 60 miners could turn out only 185 to 215 tons, or an average of three and one-third tons per man per day in a seam of coal ranging from 12 to 18 feet in thickness, the management decided that something must be radically wrong, therefore when A. L. Hill returned in September the men were called together on the 15th and openly accused by him of a concerted agreement among themselves not to mine more than the above quantity, thinking thus to force the company to execute a contract with the Miners' union and to accept a schedule presented by Mr. F. Sherman, the chief district officer of the United Mine Workers.

"The details of the case were very clearly and forcibly presented by Mr. Hill and each man present was bound to acknowledge the truth and justice of his statement, many of the men coming individually to acknowledge the facts, and claiming to have been persuaded into the deal by certain officers and organizers of the local union at Hill Crest.

"Mr. Hill took the stand that the good miners of the camp would not fall in line with the few loafers, agitators and trouble makers, who, while a disgrace to the union, sheltered themselves under its mantle, and that neither would John Mitchell, and other heads of the U. M. W. stand with them in imposing this outrage upon the pioneer developer of a property, which is bound, if development is allowed to continue, to make a mine that will eventually employ many hundreds of men.

"An unusual precedent was established by Mr. Hill when he refused to treat with a committee from the union and insisted on each of the 60 miners being present at the hearing, giving them the privilege of forming an investigation committee from among themselves, to be composed of men whose names had been on the company's payrolls for at least three months' past. This was for the purpose of reaching the men actually concerned that they might know and verify the facts as stated by him. Mr. Hill particularly claimed that the hard and fast conditions and rules laid down by the union should not be, and were never intended by its originators to be applied to a prospect at the stage of development reached by his property, and that if applied they tended to kill the efforts of the prospector and developer of mines in this country and to prevent his raising the necessary capital to continue operations in which, if successful, the miners would be able to participate; while his non-success would result in the lessening of the opportunities of the working men as well as of the capitalist and a consequent loss to the industries of the country. He explained that an expenditure of $500,000 was necessary to carry on the requisite development and to provide machinery, etc., and that it was ready on the ground if conditions were such as to encourage its immediate investment. He claimed that the company never objected to pay the union scale of wage, nor to carry out the spirit and intent of unionism, namely, a fair day's wage for a fair day's work, and no man at the hearing, though directly challenged to do so, attempted to deny that managing director Hill had carried out this principle during his twenty years of mining and developing mines in this and other sections of the country, and some of those present had worked under him at several and various times during the above period. Mr. Hill further explained to them that the plan of organization of his company was the outcome of his long experience and that each man interested paid the same price for his stock as he himself had paid, on the principle of equal rights to all and special privileges to none, and that it was open to each miner to invest his money in the enterprise on the same basis.

"Immediately after Mr. Hill's address he received the compliments and acknowledgements of some of his men, even of some of the union officials themselves, who all expressed themselves as deeply regretting the extremely awkward and unjust position in which they had placed him during his efforts to promote the concern and that it was only done for the reason that they were not familiar, until after hearing his address, with the absolute facts in the case, and that they were intoxicated with the apparent success of the mine and the admittedly high grade quality of the coal as it appeared to them underground.

"Sometime before this conference the president of the district had notified Mr. Hill and the company that unless a contract were executed with his union on or before the 15th a strike would be ordered. The company, therefore, called the men out on the 13th in order to make a full payment of the wages due.

"When I left there the strike was still on with the understanding that the men would have another conference, at their own request with Mr. Hill. They wished to have a continuation of the contract system, and, as stated by Mr. Hill, the property is not yet in a position for contract work, and the schedule presented by the president of the district was so exorbitant that the company could not possibly consider it."

DON'T WANT HINDUS.

Otawa, Sept. 20.—Messrs. R. G. Macpherson, M.P., and W. A. Galliher, M.P., have communicated to sir Wilfrid Laurier British Columbia's determined objection to Hindu immigration and the desire that this class of settlers be excluded from the country as undesirable. They were provided with particulars as to the number already landed and the burden they threaten to become on the hands of Vancouver and directed attention to the power given by the immigration law of last session to deny admittance to all undesirables at Canadian ports.

NELSON'S NEWS OF THE DAY

Miss Blanche Hobbs of Rossland, is a guest of mayor and Mrs. Gillett during the fair.

Today being the festival of St. Matthew, there will be a celebration of holy communion in St. Saviour's church at 10:30 a.m.

R. D. Smith, travelling engineer of the C.P...., Medicine Hat, accompanied by Mrs. Smith, is visiting with Mr. and Mrs. Fred H. Smith, Hall street.

Professor Bodmer delighted many visitors to the exhibition yesterday afternoon with his pianoforte recital at the New Art Bell piano booth.

The party which was to have been given by Queen City Rebekah lodge on Tuesday, Sept. 25, has been postponed. Notice will be given as to the date later.

Two features of the fair deserving special mention are the work of Charles Waterman as marshall and the very special services rendered daily and nightly by the city band.

Mrs. M. Squire of this city, who was awarded two first prizes at the fair for netting and old lace, is a lady passed her 81st birthday. Under the circumstances her work is a marvel.

The guessing contests at the 20,000 club's fair booth are both in full swing. Today being the last day of the fair a good opportunity is given of estimating what the total attendance this year will be and so winning one of the club's contests. Guesses are cheap and the prizes offered are valuable.

Appleton Bros. of 8-Mile point, have a highly commended exhibit at the fair, placed just outside the poultry building, and consisting of three Ohio Imported Chester pigs, one month old. The pigs come from registered stock of the Ohio firm of L. B. Silver and company. It was found too expensive to bring the old stock to the fair.

The ten drill compressor of the Argenta mines has been duly assembled. The machinery is working all right and at last the extensive scheme of development laid out by the company can go forward with greater celerity and certainty. Manager A. C. Garde of the property, who is in the city, says that it is too early as yet to say much about the prospects ahead of his property which Lardo men, however, say is one of the biggest things in the country.

Costumes for the carnival this evening can be rented from secretary McMorris at the exhibition building. The supply, which includes some very handsome makeups, is limited so that those desirous of attending in costume should apply early. Those appearing in costume will be admitted free to the carnival.

The visiting members of the Canadian civil engineers' party enjoyed their visit here so much yesterday that many of the party decided to remain here until the whole party's departure east on Monday morning. Yesterday in the morning a very enjoyable launch party was taken in the morning in the boats of Messrs. Erickson, Hunter, Seatle, Wells, Miller and Busk. A visit was paid to F. M. Black's ranch and then the visitors came to the fair. Another party went to the Hall Mines smelter in the morning and to the fair afterwards. The power plant at Bonnington was inspected in the afternoon and a section of the party went on to Rossland and Trail, the rest remaining here.

WRECK OF SCOTCH EXPRESS

London, Sept. 21 — Twelve persons are known to be dead and 17 injured in the wreck of the Scotch express on the Great Northern railway at Grantham yesterday morning, but it was stated late last night that there are other bodies under the wreck, which have not yet been recovered.
