MITCHELL'S MANDATE

Confirms Burke's Settlement and Orders Men Back to Work

Feeling of Relief Pervades Fernie and Everyone Looks Forward to Speedy Return of Prosperity

(Special to The Daily News)

Fernie, Nov. 19.—The last act in the strike drama was concluded today when Gladstone local union received a wire from president Mitchell at Minneapolis informing them that the international union confirmed the settlement made by representative Burke and ordering the men back to work.

The following is a copy of the telegram received by general manager Lindsey and W. H. Moore, president of the local union:

"Minneapolis, Nov. 18, 1906.—Agreement made by Burke recognized by international union and men will return to work. (Sgd.) John Mitchell."

It is now confidently expected that the miners who have declined to return to work until instructed to do so by the international president will at once apply for their old places, and that the collieries will soon be in a position to relieve the present coal famine.

A feeling of relief pervades the town since the receipt of the telegram from John Mitchell, president of the U. M. W. of A., confirming the settlement of the strike arrived at by representative Burke, and once more the public are looking forward with renewed hope and confidence to the era of prosperity which had begun before the disastrous strike was called, and which has been so seriously threatened. Since Mr. Burke's authority to settle the trouble was called in question, there has been but one opinion here as to the ultimate result and that opinion has been confirmed by president Mitchell's wire ordering the men back to work and supporting the action taken by the duly accredited representative. The honor of the great organization over which Mr. Mitchell presides has been proved and not found wanting, and the Crow's Nest Pass district has been saved and retained to the U. M. W. of A. by the honorable, broad-minded and courageous attitude of the men to whom was delegated the delicate task of dealing with the trouble. It is not, humanly speaking, possible to please everybody in pronouncing judgment on a struggle such as the recent one here has been but when sober second thought has had time to do its work, those who now may feel embittered at the decision arrived at by Mr. Burke and concurred in by Mr. Mitchell, will then be free to admit that the decision rendered was the only just one and the one best calculated to conserve their future interests.

Interviewed by The Daily News with regard to the settlement of the strike and Mitchell's wire to the men to return to work, W. M. Dicken, late president of Fernie local union, had the following to say in answer to the questions put to him.

"Mr. Mitchell's confirmation of Burke's settlement with the company was just what I expected and what I was sure would be the result when he was possessed of all the facts in the case.

"What will be the result? The men in future will be very careful to demand a full investigation before a step is taken that will cause a strike like the present one. They will demand a ballot of all the men that are working, and will not leave it in the hands of one man to post a notice calling the men out. They will want a secret ballot and will not allow a strike unless there is a two-third's majority in favor of it and then no outsider would be justified in saying that half of the men did not want to strike.

"Do I think the majority of the men were in favor of a settlement? Oh, yes, I believe that all right, and I think a lot of the men would have voiced their feelings only they though the company would have demanded damages, but on the other hand there are a few who didn't want a settlement, men without sense or reason.

"What support will president Sherman receive after this? That is a hard question to answer. He still has a certain following, but my experience has been that when a man suffers humiliation, those who have been his fastest friends turn their backs on him when they see the crowd changing its attitude, and I have no doubt the same thing will happen to Sherman; but I do not wish to express any harsh opinion. I am only sorry that such things should have to happen.

"What do I think of the position of the U. M. W. of A. in the Pass now? I believe the action of Burke will strengthen that organization both among the men and the operators because the most honorable thing a man can do for any organization is to admit that 'right is right' and not uphold wrong in anyone, even a high official. I am convinced that Burke's settlement has strengthened the men's confidence in the U. M. W. of A. and that the formation of a new union, which has been rumored, would meet with no success.

"As to my own position? I feel that my course has been vindicated. Those who wanted to strike on any pretext will not favor me, but the more thoughtful, right thinking men, will appreciate the stand I took from the beginning."

Minneapolis, Minn., Nov. 19.—President Mitchell, of the United Mine Workers, today said that whatever the difficulties existing between the operators and miners in the Crow's Nest Pass bituminous coal fields of British Columbia, they are all over now, and that the men will go back to work.

President Mitchell declines to say what side won in the strike, but says the men will work under their old agreement with the operators.

TWO SHILLINGS A SHARE

LATEST DIVIDEND DECLARED BY LE ROI MINING CO.

PRESENT CONDITION OF MINE IS VERY SATISFACTORY.

Rossland, Nov. 19.—A cablegram received today from London states that at the annual meeting of the Le Roi Mining Co., held there, a dividend of two shillings a share was declared. The report of A. J. McMillan, managing director, was read and it gave a most favorable account of the condition of the mine. The present dividend is for $100,000. This added to what already has been paid, $1,377,000, gives a grand total of $1,477,000. The condition of the mine, owing to the discoveries west of the Josie dyke, which makes the Le Roi practically a new mine, and owing to the important discoveries of ore in the old workings, is most favorable. There is more ore in the mine than ever in its history. Already its gross yield has been $18,000,000 and the probabilities are that in the next ten years it will yield twice that amount.

THREE YEAR'S LEASE.

Hall M. & S. Co. Obtain Lease of B. C. Standard Property and Stock.

At a meeting of the B. C. Standard Mining company yesterday it was unanimously decided to lease the company's properties at Ymir, including the Hunter V. and the Double Standard, to the Hall Mining & Smelting company for a period of three years.

The Hall M. & S. Co. have had the properties under lease for the last year and the agreement has nearly expired. The new agreement entered into yesterday carries with it an option on a large block of B. C. Standard Mining company's stock. Under the new lease the Hall M. & S. Co. will run a long development tunnel on the Double Standard and will thus do away with the subsidiary tramway now in use. More men will be employed and the properties will be actively worked. A little over a wek ago shipments from the Hunter V. were recommenced they having been stopped by the partial burning of the tramway last summer by bush fires. About 100 tons were sent to the Le Roi smelter at Northport and it is stated that the output of the mine will continuously be kept up to this point.

LATEST RAILROAD MERGER

Burlington and Great Northern to Form One System, with Hill in Control

Omaha, Nov. 19—The Bee today says: "Within one week the equity which the Northern Pacific now holds in the Burlington, will pass into the hands of the Great Northern, and within 15 days the Burlington and Great Northern will be merged into one vast system with James J. Hill in control. This statement was made to a reporter of the Bee today by a man closely connected with the official department of the Hill roads who has just returned from Chicago, where the intricate operations of this gigantic transaction are now being perfected."

REGINA HOTEL BURNED

Early Morning Blaze in Which Several Lives are Lost

Regina, Nov. 19—The Windsor hotel, the largest in the city, was burned to the ground early this morning. Two guests were fatally burned. There were 65 guests in the hotel.

L. and W. Musseter, manager and assistant manager of the Regina planing mill, were suffocated in their room. W. Johnson, well borer, went back to rescue a woman, and was never seen again. Walker and Jones, hotel employees, jumped from the third storey. They are now in the hospital and will die.

STRIKE FOR EIGHT HOUR DAY

Victoria, Nov. 19.—Members of Victoria No. 191, brotherhood of boilermakers and iron shipbuilders of America, numbering 84, this morning struck for recognition of the 8 hour day at the current nine hour scale, vis.: $3.50. The interests affected are the B. C. Marine railway, Victoria and Vancouver; the Victoria Machinery Depot, Ltd., and the Marine Iron Works, Ltd.

ABOUT TIME HE DID.

London, Ont., Nov. 19—It is stated in liberal circles that Hon Charles Hyman will resign his seat here and seek re-election as the result of the bribery charges.

FERNIE NEWS NOTES

(Special to The Daily News)

Fernie, Nov. 19—R. W. Coulthard, general sales agent of the coal company, was presented on Saturday with a well filled purse of gold by the office staff on the occasion of his approaching marriage, which is to take place in Winnipeg on Wednesday, Nov. 21.

Members of Gladstone local Miners' union turned out in large numbers on Sunday afternoon to pay their last tribute of respect to their late brother, J. Kent, who died in the general hospital on Friday, from blood poisoning. Rev R. S. Wilkinson conducted the services.

PRAYS FOR PERPETRATOR

BOMB THROWER AT WORK IN ST. PETER'S AT ROME.

POPE PIUS IMPLORES MERCY FOR THE MISCREANT.

Rome, Nov. 19.—The outrages of the desperate anarchist band now terrorizing Italy reached a climax Sunday morning in a bomb explosion in St. Peter's cathedral, at the vatican, just at the conclusion of the morning mass.

It is a miracle that hundreds were not trampled to death in the wild stampede to leave the great church immediately after the explosion. The explosion made a thunderous report, which echoed and reverberated in the immense auditorium with a deafening volume of sound. The church immediately filled with smoke. The nave was crowded with worshippers, among whom were many women, and an indescribable panic developed. Men shouted wildly that the roof was falling and without heed for others rushed madly toward the exists. The utmost confusion prevailed for many minutes.

There is reason to believe that a most carefully planned attempt was made to assassinate the pope while he was at mass.

The pope was engaged in his regular noon hour devotions when the bomb went off. He heard a muffled sound, which surprised but did not harm him. Monsignor Misciatelli, sub-prefect of the apostolic palace and monsignor Bisleti, major domo of the vatican, at once hurriedly entered the pontiff's chamber. They were so pale that the pope immediately asked, "What has happened?"

"Do not be alarmed, holy father," was the answer. "A bomb has exploded in the basilica, but fortunately there are no deaths to deplore, and no one has been wounded."

The pontiff asked anxiously if the church had been damaged. Upon being reassured, he fell upon his knees, saying he must implore mercy for the misguided perpetrator of the deed.

GOOD NEWS FOR BRYAN

New York, Nov. 19—William Randolph Hearst, who is now en route to Monterey, California, in discussing his future course in reference to politics in New York, said: "I shall never again be a candidate. However, I shall continue to reside in New York, and advocate and support the principles of reform which I have always stood for; but these principles are now sufficiently understood by the general public for it to be no longer necessary for me to be a candidate. You probably know it is by no means pleasant to be a candidate. I am glad in the future it is to be my privilege to stand for the principles of government which I have always advocated, without being a candidate for office and on that account attacked with bitterness."

HEIR TO A MILLION

Ottawa, Nov. 19.—An evening paper prints a story to the effect that Mitchel Laffey, one of the passengers injured in the C. P. R. wreck at Kamloops, is heir to a million dollars if he lives until January 16, when he comes of age.

Laffey was on his way to Ottawa to visit his fiancee, whom he was to marry in May. The alleged fortune was to come from Dublin where Laffey was born.

CAPTAIN HICKEY EXONERATED

Victoria, Nov. 19.—Captain J. P. Hickey and the officers on watch at the time of the accident to the steamer Princess Victoria, were today cleared of blame for the stranding of the vessel on the 16th of October last by the court of inquiry, consisting of captain James Gaudin and two assessors, captains J. G. Cox and J. Goss. In its finding, the court says proper care appears to have been exercised in the navigation of the vessel.

U. M. W. of A. OFFICIALS.

Indianapolis, Ind., Nov. 19.—Nominations have closed for the election of officers by the United Mine Workers of America. John Mitchell, for president; T. L. Lewis, for vice-president, and W. B. Wilson, for secretary-treasurer, have no opposition.

SUNK IN LAKE SUPERIOR

Sault Ste Marie, Nov. 19—The steel steamer Theano of the Algoma Central Steamship company, ran on Shaughineaux island, three miles east of Thunder cape on lake Superior Friday night and sank in sixty feet of water early Saturday morning. The crew got off safely.

PEACE IN PHILIPPINES

Victoria, Nov. 19—Hon. Dean Worcester, of the Philippine commission, on his arrival here from Manila, told of preparations for the institution of representative government and the end of all hostilities in the islands.

NOVELIST'S WIDOW DEAD.

Washington, Nov. 19.—Mrs. Frank R. S. Stockton, widow of the novelist, died at her home here tonight.

DEATH OF SENATOR VIDAL

Sarnia, Nov. 19—Senator Vidal, died yesterday afternoon after an illness of a few weeks.

TAKING THE INVENTORIES

Government Commissioners Supported by Strong Show of Force

No Such Resistance as Offered Last Spring Anticipated—Inventory of St. Augustine's Taken Peacefully

Paris, Nov. 19.—The taking of the inventories of the 3500 churches which were not entered last spring, owing to resistance and disorders, was begun simultaneously throughout France today. Troops everywhere were held in readiness to support the prefects, it being the intention of the government not to hesitate before resistance, but no repetition of disorders upon the scale of those of last spring is anticipated although considerable trouble is expected, especially in the departments of Aveyeron, Vendee and Finistere.

The first resistance reported was at Villelongue de Langue, in the western Pyrennees. The clericals there, after carrying away the sacred emblems, barricaded and locked themselves in the church.

The inventory of the church of St. Augustine was taken today without a repetition of the violent demonstrations of last spring, when the church was occupied and held by a determined body of parishioners. Several priests and the church wardens assisted the government commissioners in the operation today. The doors of the edifice were barred and a party of 20 persons who were attending a baptism were turned out. The clergyman conducting the ceremony protested against the commissioners and refused to hand over the books. The officials then burst open the safe, secured the registers and other documents, completed their inventory and retired. They met with no resistance. St. Augustine's is the last church in Paris in which an inventory will have to be made.

Reports from other parts of the country show that few inventories were taken today and there was no serious trouble. Most of the day was taken up with military and civil preparations for the prevention of disturbances.

ELECTIONS IN JANUARY

Victoria, Nov. 19.—(Special)—The decision has been reached by premier McBride to hold the provincial elections early in January, as soon after the New Year as possible. There will be no session of the legislature before the elections. Notice of dissolution may be looked for any day now. This information comes from an authoritative source and will be officially confirmed probably tomorrow, but at any rate before many days elapse unless some new and wholly unexpected incident arise to necessitate further delay.

NELSON'S NEWS OF THE DAY

N. S. Fraser has returned to the city after a month's visit to the coast.

A meeting of all those interested in the support of hockey during the coming season will be held in Alex. Fife's barber shop this evening at 8 o'clock.

John Lang, the one handed miner, has completed his prize woollen bed spread and will raffle it at his store adjoining the Kootenay hotel this evening at 8 o'clock.

As will be noted by the advertisement in another column of this issue the city authorities are calling for tenders for the removal of the court house building to its new site.

Queen City Rebekah lodge, No. 16, I.O. O.F., will confer the initiation degree this evening and other matters of importance will be dealt with at the meeting. A full attendance of officers and members is requested.

Tomorrow the Catholic Ladies' Aid will open a sale of useful articles in the building formerly occupied by the Queen Studio on West Baker street. Lunch and dinner will be served at the noon hour and in the evening.

A former resident of Revelstoke who has been gradually getting into a foolish way of living hereabouts, was apprehended by the police and will be sent on to the northern city this morning with a warning to amend his ways in future.

Thomas Luscombe of this city, a well known veteran of the Crimean campaign and the Indian mutiny, who already receives a pension from the British government, received the welcome news yesterday that the Indian government had awarded him a monthly pension of £2 17s. 6d., exclusive of any pension he now receives. Mr. Luscombe recently applied for the announced pension through the military bureau at Ottawa, and his application has now been granted. The veteran has not been in very good health of late but the welcome recognition of his services by the Indian government has greatly cheered him up.

The buildings and grounds fronting on Front and Water streets, in the east end of the city and known as the Home hospital, have been purchased by Dr. Rose. The change in ownership it is understood will in no way affect the conduct of the hospital which will continue as at present.

R. H. Sewart, manager and John M. Turnbull, mining engineer for the Consolidated Mining company's Rossland mines, were at the Strathcona last night on their way up Kootenay lake. They leave for Kaslo and Sandon this morning presumably in connection with the company's properties near Sandon.

Word comes from Winnipeg that C. N. Aldrich, president and manager of the J. Y. Griffin company, has resigned his position and disposed of his interest in the company to the same parties to whom Mr. J. Y. Griffin sold out some months ago. Mr. Nicholson, formerly in the employ of Swift and company at St. Joseph, Mo., will succeed to the offices held by Mr. Aldrich.

The local fire laddies have formed a firemen's relief association with chief Dean as president, F. Bell and W. Pearcy trustees and W. Davison secretary. Monthly meetings will be held and a series of entertainments arranged for whereby funds may be raised for the relief of injured and sick members. W. Phillips, W. Hipperson and R. Sharp have charge of the entertainment end of the organization.

"Yes," said a local curler yesterday, "both the curling club and the skating rink people have missed the opportunity of getting ice early in the season. If both rinks had been ready we could have had curling and skating today. People complain about the short season for both sports, but every year the first cold snaps are allowed to slip by before the rinks are prepared, and it is often late in the season before ice can be got."

R. W. Hurlbert, formerly editor and proprietor of the North Battleford News, is spending a few days in town looking over the situation. Mr. Hulbert informs The Daily News that the reports of gold discoveries west of North Battleford at Birling and Maidstone should receive no serious attention. No gold has been discovered, there is no real excitement and the whole affair may be regarded as the work of either very ignorant or decidedly unscrupulous men. Careful investigation into the alleged gold discoveries prove conclusively that gold in paying quantities was never found and does not exist in that section of the country.

H. L. Palmer, a local artist, whose mural paintings adorn some of the city saloons, induced a local hotelkeeper to cash two checks of $10 each last week. Later the hotel man found that Mr. Palmer had no account at the bank on which the checks were drawn. He hunted up Palmer and obligingly gave him a day to settle up. Palmer evidently thought it wise to seek fresh pastures and he left for Spokane on Saturday morning. On Sunday morning the police were notified, but beyond ascertaining Palmer's whereabouts the authorities not having been notified in time, declined to take further action.

A meeting of committees and those interested in the forthcoming St. Andrew's banquet was held in A. K. Wattie's office last night. The meeting was well attended and reports handed in indicate the success of the banquet. Arrangements are now practically completed and a full attendance is requested for next Friday evening at 8 o'clock in Mr. Wattie's office. The number of tickets already disposed of may warrant the securing of a larger banquet hall. The refreshment committee promises a treat which will excell other previous efforts. The entertainment committee is securing Nelson's best talent to entertain the guests during the evening.

HAS ANOTHER THINK COMING

Liverpool, Nov. 19.—Referring to a cablegram received by lord Strathcona, the Canadian high commissioner in London, from Hon. Frank Oliver, regarding the discovery of copper in New Ontario and investments in the Yukon district, the Daily Post-Mercury says there is a good deal of lead and some gold in Rossland and Nelson districts of British Columbia, but the mines there, from a financial point of view, can scarcely be described as prosperous.

NEWS OF PEARY'S STEAMER

New York, Nov. 19.—A telegram has been received by the Associated Press, dated Point Armour, announcing the passing of commander Peary's Arctic steamer Roosevelt.

Point Armour is a headland on the southeast side of Forteau bay ,Labrador, and at the southwest extremity of the straits of Belle Isle. It is 70 miles south of Chateau bay from which place the Roosevelt was reported as having sailed on November 16.

FATAL AUTO ACCIDENT

New York, Nov. 19.—Tom Cooper, the well known bicyclist and automobilist, was instantly killed in an auto acident at Central Park tonight. While riding in company with Miss Margaret Vernon, of Jersey City, and Miss Helen Hall, of this city, his automobile ran into another automobile standing still awaiting a supply of gasoline. Cooper was hurled 20 feet and struck on his head. His lady companions were also thrown out and seriously injured.

NEW YORK HORSE SHOW.

New York, Nov. 19.—Equine quality in all gradation, and society leaders and the votaries of wealth and fashion in this and many other cities combined in making the opening of the horse show at Madison Square Garden a splendid spectacle of life, light and color, this evening. Gay with trappings of orange and black, the Garden was well filled at 9 o'clock tonight when a bugle call announced that the exhibition had begun, with a list of entries of almost 2000 horses. The honor of having the largest number of entries is held by Alfred G. Vanderbilt, with his brother Reginald a close second.

ROOSEVELT IN TROUBLE

HIS SUMMARY DISMISSAL OF COLORED TROOPS THE CAUSE.

PROTESTS POURING IN AND HALT CALLED TO DISCHARGES.

New York, Nov. 19.—Resolutions disapproving the action of president Roosevelt in dismissing from the army without honor, three companies of negro soldiers, who were members of the 25th infantry, were adopted today by an organization known as "The colored Baptists ministers of Greater New York and vicinity."

Washington, Nov. 19.—Acting under orders of United States secretary of war Taft, major general Ainsworth, the military secretary, has directed that further discharges of the men of the negro companies of the 25th infantry, on accounting of the shooting at Brownsville, Texas, be suspended until further orders. The action, it is stated tonight, is in order to await the return of secretary of war Taft to Wishington tomorrow, and is pending further advices from president Roosevelt, who has been communicated with on the subject. The war office has been deluged with protests against the order directing the discharge of the three companies. It is reported tonight that a further investigation will be made and that certain officers may be called upon for an explanation in connection with the movements of these men at the time the Brownsville incident occurred.

ANNA GOULD CHARITABLE

WILL PROVIDE FOR BONI'S ACTUAL NECESSITIES.

COUNT IS NOW SOCIALLY AN. POLITICALLY DEAD.

Paris, Nov. 19.—Details of the court's decision in the Castellane divorce suit show that in addition to securing an absolute divorce and the custody of the children, the countess is under no obligation to make any settlement, in a lump sum, or annually, upon count Boni. He is allowed to see the children for a week at Easter and at Christmas time and to have their company for a month in the summer. The children are to visit their grandmother, the Marquise de Castellane, on Thursdays and Sundays.

The only apparent concession to count Boni is the provision that the children shall not be taken out of France without the father's consent, but the court decree provides in case he makes any unreasonable opposition the mother may apply to the tribunal and receive a court order to take the children away.

The count's demand for an "alimentary allowance of $50,000 a year" is denied on the ground that the guilty party in a divorce case loses all the advantages accorded either by a marriage contract or the course of married life and consequently the court refused to allow not only the count's original claim for $50,000 a year but the $50,000 which the countess offered and which it now seems the count claimed to have accepted October 25.

It is understood that Mme. Gould will make no fixed allowance to the count, but may provide for his needs from time to time, always contingent upon his good behavior.

Count Boni has disappeared. In political circles the comment is that he will not dare appear again in his seat in the chamber of deputies. He is utterly without means or credit to maintain his impeccable cut of coat and shed princely tips as he steps from his motor car. What, then, is there in political life for count Boni? Without money or reputation, as this divorce decree has left him, his career, socially, as well as politically, seems to be ended.

It is the intention of Mme. Gould to educate the children in France after the manner of all young French noblemen. Though she herself has lost a title the children are heirs to the Castellane name and titles.

The judgment is given with costs against the count. The court appointed the president of the court of notaries to liquidate the affairs of the husband and wife.

WILY UTE INDIANS

Cheyenne, Wyo., Nov. 19 — A despatch from Sheridan, Wyo., says that part of the panb of Ute Indians, who are being escorted to Fort Meade by United States troops, escaped and are believed to have gone to the Sioux reservation. The Utes objected to the immediate presence of the cavalry and troops were ordered to keep at a certain distance. This gave the Indians an opportunity to escape, of which a number took advantage.

FAYETTE FIRE SWEPT

Jackson, Miss. ,Nov. 19—Practically the entire business section of Fayette, Miss., was destroyed by fire tonight, entailing a los of about $50,000. The fire originated in McKinn's store about 8 o'clock. The Western Union wires being grounded, make it hard to get details.

HOTEL WAS DYNAMITED

Eighteen Year Old Daughter of Proprietor Blown to Pieces

Several Others Injured, One Fatally—Italian Laborer Employed on P[illegible] Way Construction Suspected

(Special to The Daily News)

Grand Forks, Nov. 19.—An appalling crime was committeed last night at Niagara, ten miles from here, on the west side of the north fork of the Kettle river.

An Italian laborer who has been working on the grade of the Kettle Valley Lines, broke into the powder magazine and for purposes of revenge, apparently, took two or three cases of powder and secreted them in the Canadian hotel, the license of which was owned by one Blanchette, the hotel being run by a man named King.

Between 9.30 and 10 o'clock a terrific explosion took place which wrecked the building, setting fire to the debris and doing ghastly damage.

King and his wife and an 18-year-old daughter were standing together at the time of the explosion. The girl was literally blown to pieces. Mrs. King, with the exception of severe damage to the hands, escaped. King, himself, was seen shortly afterwards running towards one of the contractor's camps, half clothed.

An Italian laborer who had [illegible] minutes before the tragedy been put [illegible] bed drunk, by King, was badly burned. Another Italian was brought to the hospital here by Dr. Dickson who was summoned to the scene and arrived shortly after midnight. The injured man will hardly recover as has five ribs fractured, a bad fracture of the skull, and a lung puncture.

It is thought that the powder was placed between the first and second floors as most of the injuries received were near the head. Nine other people were more or less injured.

Some idea of the terrific force of the explosion may be gathered when logs a foot and a half through and 20 feet long were thrown one hundred yards away from the wrecked building. The bed clothes of the girl were blown to an adjoining building which they set on [illegible].

Dr. Dickson states that on the way up he heard a horse pounding along the grade towards this city, and it is believed that the criminal escaped this way though so far no trace has been found.

The building was a two and a half story structure.

Dr. Kingston left this morning to hold an inquest and Constable Dinsmore has been on the scene since last night.

(Later).—The charred remains of the King girl were brought here this afternoon. The Italian, who was sleeping in the building at the time of the explosion and who was badly burned, has turned up, and King also has arrived here very seriously unnerved by his awful experience, although not severely hurt physically. Constable Dinsmore has one man under arrest on suspicion. The inquest will probably open here tomorrow afternoon.

HARRY K. THAW'S TRIAL.

New York, Nov. 19.—District attorney Jerome today served notice upon counsel for Harry K. Thaw, that the prosecutor would appear in court tomorrow and ask for a special jury before recorder Goff on December 3 to try Thaw for the murder of Stanford White. The panel of 150 names will be requested. Mr. Jerome adds that the case is one that requires attention and despatch. Thaw is charged with murder in the first degree.

None of Harry K. Thaw's counsel would discuss the preparation of his case, but it was learned that the unusual plea of justification will be their main reliance. Every vengeance executed in the last forty years under circumstances similar to those which induced Thaw to slay Stanford White is to be cited, beginning with that of Gen. Sickles, who killed Key, and ending with that of David Mann. No plea of justification without the saving clause of emotional insanity has been offered in the courts of New York state with success in the last fifty years.

BAVARIAN FLOATED.

Montreal, Nov. 19.—The Allan line steamer Bavarian, which went ashore on Wyerocks below Quebec in October, 1905, was successfully floated this evening by wreckers engaged by the underwriters to whom the steamer had been abandoned. She will be taken to Quebec for temporary repairs.

BILLIARD CHAMPIONSHIP

New York, Nov. 19.—The American short stop billiard championship at 18 inch balk line, 2 shots in, was begun here tonight. Albert G. Cutler of Boston, and Charles Peterson, of St. Louis, met in the initial game, and the Boston man won out 400 to 151.

Hudson's Bay Stores

We Now Offer Several Carloads of

FLOUR AND FEED

We quote:—

BRAN, per 100 lbs	$1.30
SHORTS, per 100 lbs.	$1.40
PASTRY FLOUR, per 49 lb. sack	$1.50
OATS, elevator cleaned, last year's crop, and of the very choicest quality, per 100 lbs.	$1.50
BARLEY, per 100 lbs.	$1.50
WHEAT, of the best quality, per 100 lbs.	$1.75

SPECIAL PRICES ON ALL FOR TON LOTS.

TIMOTHY HAY, none better ever offered, per 100 lbs,	$1.25
Per Ton	$23.00

A Word About Our Bran and Shorts

These come from a small mill where they DO NOT have all the latest patents to take out the very last particle of flour, and to leave nothing but the woodly fibre of the shell, which is ALRIGHT FOR THE MILLER but ALL WRONG FOR THE BUYER of Bran and Shorts.

EXAMINE OURS. It contains twice as much flour as the ordinary article in the market.

ELECTIONS IN JANUARY

The Daily News learns from an authoritative source that the decision has been reached by premier McBride to hold the provincial elections early in January, as soon after the New Year as possible. It has been finally settled that there shall be no session of the legislature before the elections and an announcement of dissolution may be expected within the next day or two.

INTERNATIONAL LABOR UNIONS

Our correspondent, "H.W.", opens up a fruitful subject of discussion in his communication dealing with the recent strike of coal miners. His remarks as to the need of some legislative machinery, to prevent the recurrence of these industrial disputes are timely, but it is still a moot point as to whether or not the solution is to be found in compulsory arbitration. The experience of compulsory arbitration has not proved an unqualified success in New Zealand and many labor leaders and students of social economics are openly opposed to this method of dealing with industrial disputes.

His references to international labor organizations and the control of Canadian unions thus placed in the hands of aliens will certainly appeal to a great many people, particularly those who feel that Canada has reached a stage in national growth when such control of a very important factor in the country's prosperity should not be vested in residents of a foreign country. But we cannot take a narrow view of this question. Whilst labor forms international relations, capital does likewise, and whilst it may cause the patriotic an unpleasant sensation to realize that a resident of Indianapolis has the final say as to whether or not coal miners working in the Crow's Nest Pass shall return to work, we must not forget that passenger and freight rates on our Canadian railways are largely dictated by Americans and that the prices of many commodities are fixed by the heads of American trusts and trade combinations. Men engaged in every line of trade in Canada experience frequently the control exercised by foreigners over the goods they handle or the machinery they use in their factories.

Apart, however, from this phase of the question, we have often asked ourselves whether the advantages of international organization repay Canadian trades unions for the obvious disadvantages.

We understand that the chief argument in favor of internationalism is that Canadian industries are as yet organized on too small a scale to give a purely Canadian trades union the numerical and financial strength essential to successful negotiation with large employers of labor. But we have never heard of any considerable financial assistance being forthcoming for the needs of a Canadian union engaged in a struggle, from the American headquarters of the international organization, neither have we heard of any sympathetic strikes on the American side to help out a Canadian strike. The formation of purely Canadian unions does not necessarily imply any hostility to the American organizations. Cooperation would still be possible and might in many instances prove decidedly effective.

EDITORIAL NOTES.

The little man from Ymir has been telling the Vancouver Province what he thinks he knows about the attitude of interior electors towards the McBride government. In a glowing period he tells the coast people that "the general public are not blind to the wisdom of the policy the conservatives initiated three years ago." He descants upon the remarkable outburst of popular enthusiasm over McBride's handling of the "Better Terms" case and the admiration expressed on all sides for the great achievements of the McBride government in the way of improving the agricultural and mining industries of the country. Really "Harry" can be quite eloquent at times. Still we shall not be surprised to learn that Harry Wright decides not to contest the Ymir district again.

We were advised by the newspaper organs that defended the Kaien island deal to wait until the publication of the evidence in full before forming any conclusions as to the propriety or otherwise of the deal. For several days now printed copies of the evidence have been in the possession of these newspapers, but so far the only papers that have quoted therefrom have been the Cranbrook Herald and the New Westminster News, both liberal and opposed to the deal. In connection with the publication of the evidence in this case it is significant that the findings of the minority are *omitted, whilst the findings of the majority* are given in full.

And now the Nicola Star takes up the *"Better Terms" question and proceeds* to throw new light upon the subject. By the time the country tory organs have got through with their explanations those who have wasted time reading them will be in a sad state of mental confusion. The Star asserts, with that reckless disregard of the truth that characterizes the utterances of a section of the ill-informed conservative press, that liberal papers have condemned premier McBride for not accepting the offer of $100,000 a year for ten years, in addition to the permanent increase in the allowance to the province of $125,000 a year, as a final settlement of British Columbia's case. No liberal paper has condemned premier McBride on those grounds. The censure passed *upon the premier was because of the* way in which he jeopardized British Columbia's interest by quitting the conference without making an honest effort to secure really better terms. The official records show that even after the conference had decided that the best that could be done for this province was to recommend that an additional million dollars, over and above the proposed increase of $125,000 a year, that finance minister Fielding urged premier McBride not to withdraw altogether. He undertook to induce the conference to reopen the question with a view of a re-adjustment by which some further concessions might be secured. Fielding's proposal was to replace the million dollars to be paid in ten years by an arrangement to increase British Columbia's annual allowance by

NELSON, B. C.

a further sum of $30,000 in perpetuity and, in addition to grant $30,000 or even $40,000 a year for a period of ten years. This in itself was a very considerable improvement over the conference resolution, but premier McBride would not consider it and consequently the opportunity of reopening the case was lost. The province would have benefitted materially had Fielding's suggestion been adopted by conference and in the reopening of the question there is no knowing what fresh beneficial results might have ensued. But premier McBride apparently realized that such a settlement might be arrived at as would deprive him of a grievance in the approaching provincial campaign and he preferred to return to Victoria and pose *as the valiant fighter who singlehanded* opposed the onslaughts of the wicked Grit government.

SEED LABORATORY

New Establishment at Calgary for Testing Farm Seeds

J. R. Anderson, deputy minister of agriculture *has received the following notification* from W. C. McKillican of Calgary, Alberta:

I have recently received word from the seeed commissioner at Ottawa that a seed laboratory was to be established under my charge at Calgary, for the purpose of testing the purity and vitality of farm seeds. Testing will be commenced on Jan. 1, 1907. Seeds sent in by farmers or seed merchants and addressed to the dominion department of agriculture, seed laboratory, Calgary, will be examined free of charge. Regular postage rates must be paid on samples sent to Calgary; samples sent to the central seed laboratory, Ottawa go postage free. All samples should be marked "purity" or "germinatin," or both, according to what the sender wishes them tested for.

The establishment of this substation will save seven days in the time required to send seeds from Alberta and British Columbia to Ottawa and to return the report *to the sender. It will* also lessen the delay in having the testing made, as the central seed laboratory is often overcrowded with work during the seed season on account of the great number of samples sent in by the large eastern seed wholesalers.

MINING RECORDS

Three Locations And Two Certificates of Work Recorded Yesterday.

At the mining recorder's office on November 19, certificates of work were issued to Nikolay Paskewsi on the *Boyan* and on the Nelson.

William Kennedy, agent for Sidney Ross, recorded the location of the Fanny on Sheep creek.

William Kennedy, agent for John Benson recorded the location of the Gold Hill on Sheep creek.

John S. Johnson recorded the location of the Dentist No. 2 on Six Mile creek, about 3½ miles *from Kootenay* lake on the north side of the creek, an extension of the Dentist.

INTERNATIONAL UNIONS

SOME REFLECTIONS ON THE RECENT COAL MINERS' STRIKE

CANADIAN OR IMPERIAL LABOR ORGANIZATIONS.

Editor, The Daily News: There can be no possibility of successfully controverting the fact that the recent settlement of the Fernie coal strike is a victory in which all right thinking individuals, be they miners or mine owners, can heartily rejoice. Citizens too who *belong to neither the one class nor the* other, but who have the true interests of the province at heart, may also rejoice in the settlement effected by the shrewd diplomacy of manager Lindsey and the good sense of representative Burke. There appear to be a few disgruntled individuals who are not satisfied with the settlement of the strike, but these belong to the hopelessly prejudiced type of strike fomenters and company haters; and their action in trying to block the agreement is to be severely reprobated; while all good citi*zens must earnestly hope that their ap*peal to president Mitchell may be a dismal and deserved failure.

But what, I ask, should president Mitchell have to do with either the settlement or the ordering of such strikes? It is an outrage on the Canadian people that any foreigner should have the power to stop the wheels of our industries, or even to start them revolving again. I am not one who objects to the union of any class of workers for their own material or intellectual benefit, but I do as a Canadian most strenuously *object to any subordinate connection* with such unions in a foreign country. All such organizations in Canada should be purely and distinctly Canadian, and should be subject to Canadian laws and to these alone. But there is need of further legislation in order to meet and prevent such crises as that by which the industries of southern British Columbia have been imperilled by the tyrannical action of a few schemy individuals "dressed in a little brief authority."

What should be the nature of such legislation? Obviously there should be enacted laws that would prevent either strikes or lockouts, and which would ensure the submission of all disputes between employers, under public franchises, and their employees to compulsory arbitration. *Conductors of* merely private industries might possibly claim exemption, but should not. Those, however, who are carrying on enterprises of a public or semi-public nature have no reason to object to legislative interference in the public interest. During the progress of this unfortunate strike the question of arbitration was more than once suggested, but as such arbitration could only be had by the voluntary action of both parties to the dispute the suggestion was without result. The "Arbitration and Conciliation Act" *now on the statutes of the* province is defective in that it fails to provide for compulsory arbitration in the interest of the public; but at the time of its passage (under the late colonel Baker, 1893) it went as far as the sentiment of the legislature and of the people of the province was prepared to go. It should be amended and strengthened without delay.

It is well understood by the public, who have anxiously watched this dispute, that there would have been no strike had the matter of complaint or the object sought to be attained been submitted to a mass meeting of the working miners, or had our Canadian laws, as they should, prohibited the official, and especially all foreign official "ordering" of strikes. Such "ordering" by officers or so-called leaders is sheer tyranny and is totally opposed to the genius or spirit of Canadian free institutions. It may be "the thing" in the adjoining republic, but should be an absolute impossibility under our more equitable Canadian laws. Equally impossible should it be for a union to increase its membership by any sort or form of compulsion directed against the worker who prefers to retain his freedom and his manhood. This division of society into so called workers and capitalists is a socialistic mistake, for most capitalists in this country at least, have risen from the ranks of labor, and have risen because of their industry and attention to duty, and never cease to be workers in the truest sense. Inherited wealth is a different matter and needs other and special treatment by society. But the worker is not he only whose labor is solely muscular. He whose work is more largely mental is no less entitled to the name of laborer. But I must not pursue this line of thought further at present. My desire is simply to suggest a method of averting these disastrous strikes, and at the same time making our labor unions purely Canadian (or perchance imperial), but at any rate to release them from subjection to the dubious methods of Unistatian demagogues.

WASHING WITHOUT WATER

Is Like Trying to Get Rid of Dandruff Without Herpicide.

Did you ever see any one trying to wash themselves without soap or water?

If you did what would you say of him?

It is every bit as foolish to try to get rid of Dandruff and to prevent Baldness by feeding the germs which cause it, with Canthrarides, Vaseline, Glycerine and similar substances which form the principal ingredients of most so-called Hair Vigors.

Newbro's Herpicide is successful because it attacks and kills the parasitic germ which feeds on the hair roots.

It is the original and only genuine scalp germicide manufactured.

Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

INDIGESTION

A FARMER'S PAIN ENDED.

Have you digestive trouble in any form? If so, why do you overlook the fact that Bileans are specially compounded for your case? Purely vegetable, they contain no alcohol no harmful drugs, no poisonous compounds, nothing to create the pill habit! They are Nature's own remedy. Read this farmer's testimony.

Mr. T. J. Richardson, of Grandsen, says: "For months I had indigestion and endured great pain. No matter what kind of food I took it seemed to cause wind and give rise to agony. This sort of experience, so long continued, brought on very depressed feelings. My strength failed and altogether I was reduced to a very low and weak state. When I stooped I hardly knew how to raise myself, the pain was so acute. All the remedies I tried proved useless until one day I saw a report about Bileans and tried them. Before I had finished the first box I felt a great deal better, so I persevered, and after taking several boxes the ailment left me entirely. Now I feel as well as I ever did in my life."

A FREE BOX will be mailed if you send this ad to stamp to BILEAN CO., Toronto

Bileans also cure headache, constipation, piles, liver trouble, female ailments, skin eruptions, biliousness, sick headache, bad taste in the mouth, foul breath dizziness, fainting, buzzing noises in the head, wind pains, anemia, debility, rheumatism etc. Obtainable from all druggists and stores at 50 cents per box, or direct from the Bilean Co., Toronto, upon receipt of price. 6 boxes for $2.50.

POLICEMAN WAS KILLED

FATAL FIGHT ON STAIRWAY OF ELEVATED RAILWAY,

ROBBER RIDDLES POLICE OFFICER WITH BULLETS.

Chicago, Nov. 19.—Policeman Luke Fitspatrick is dead and Charles Hanson, an ex-convict, is dying in the hospital as the result of a fight which took place early today on the stairs of the elevated railway at Prospect street and Madison avenue.

Hanson and a companion last night entered a grocery store in Hammond and blew open the safe and escaped with several hundred dollars in money and some negotiable paper. Officers of the Hammond police force pursued the robbers out of town, but they escaped after exchanging several revolver shots with the policemen. They boarded an electric car bound for Chicago and the conductor who had heard of the robbery, being suspicious of them, as soon as they reached Chicago, informed officer Fitzpatrick who was standing near the foot of the railway stairs leading up to the elevated station. The robbers had already mounted the stairs and Fitzpatrick and the conductor followed them. Fitzpatrick ordered them to halt and they at once opened fire on him. Fitzpatrick was struck several times and fell, but raised himself on his elbow and emptied his revolver at Hanson who was running up the stairs in an effort to escape. Hanson fired several shots at the officer and when Fitzpatrick was taken to the hospital he was found to be suffering from seven wounds. He died in a short time. Policeman Birch and Wilson, who had heard the shots, hurried up as Hanson was running away and Birsch shot him through the back inflicting a fatal wound. After being taken to the hospital Hanson admitted that he had taken part in the robbery of the grocery store and some of the papers and money were found on him. His companion escaped by sliding down one of the supports of the elevated railroad.

LITTLE MAN FROM YMIR

INDULGES IN POLITICAL PROPHECIES ON THE COAST

TELLS OF RUSH OF LIBERALS TO SUPPORT McBRIDE

Harry Wright, M.P.P., the little man from Ymir, enters the field as a political prophet. "Harry" does not often favor the legislature with his views on public affairs, in fact his oratorical efforts have been confined to minor motions, save *in one historical case when he made his* ever memorable speech, "I object," but when he finds himself in the editorial sanctum he can talk fluently and allows his fertile imagination free rein. For instance, here is what he had to say to the Vancouver Province the other day. It will be noticed that in his election forecast he modestly refrains from any mention of the probable outcome in the Ymir district. Possibly, though, the negotiations for the transfer of that seat have not yet been satisfactorily arranged:

"If premier McBride decided to go to the country again, it is my opinion that he would be returned to power by a handsome majority."

This statement was made by Harry Wright, M.L.A., of Ymir, who is visiting this city, says the Vancouver Province. He says that the stand taken by the premier in the recent conference held for *the purpose of considering better terms* is endorsed all through the interior. In every riding the plucky fight for the just rights of the province has aroused the admiration of the electorate. Among the conservatives it has made their allegiance to the government stronger than ever, while many of the liberals are commencing to show signs of abandoning their prejudices and supporting the McBride administration. "Of course," Mr. Wright went on, "I am referring to the broad minded liberals. The supporters of the party, who are sufficiently liberal in their views to be open to conviction, and not to be dyed-in-the-wool grits."

Shortly before coming to the coast Mr. Wright made a trip through several of the districts in the neighborhood of Ymir and so is in a position to speak of the prevailing sentiment from a political standpoint. Not only are the people impressed *with the determined struggle the premier* and his colleagues are making for the recognition of British Columbia's claim for adequate better terms, but they appreciate the present government's wise financial policy and the judgment displayed in dealing with other public questions which have brought about the prosperity now being enjoyed throughout the west. While the liberals are inclined to give the federal authorities the credit for the marked advance which has been evident during the past few years, even they are forced to acknowledge, says Mr. Wright, that the provincial government has had considerable to do toward bringing about the improved conditions. Throughout all classes, whether of pronounced conservative or liberal leanings, there is a constantly growing feeling that the administration is to be congratulated upon having carried the country through a critical period in its career so successfully that it is now on the highroad to marked commercial and industrial expansion.

The general public, Mr. Wright claims is not blind to the wisdom of the policy the conservatives initiated upon coming into power. It remembers that the province was heavily involved financially when the present government assumed control, and it recognizes that the premier and his able colleague, Hon. R. G. Tatlow, the finance minister have piloted the country through so skilfully that today there is a surplus instead of a deficit in the treasury. All these points, Mr. Wright says, are known to the electors of the interior. Taken in conjunction with the advance that has been made along the lines of agriculture, in the development of the mining resources of the province, and also the able and reasonable attitude assumed in respect to better terms the conservative party has won favor everywhere and is now stronger than ever before in the history of the west. This is the opinion of Mr. Wright and he expresses it as one with a thorough personal knowledge of the conditions.

Referring to the different constituencies, Mr. Wright says that Revelstoke is sure to return a conservative, while Cranbrook will go the same way. Fernie he believes will send a candidate to the capital to support the McBride government. He thinks Rossland, the stronghold of the liberal leader, J. A. Macdonald, M.L.A., is becoming imbued with the opinion that the country is safer in the hands of a tried conservative administration than if placed in those of uncertain quality. In fact, all through the interior the feeling is in favor of the party which has so successfully conducted the affairs for the past three years.

The Royal Sells Up-to-Date Footwear

IN TIME OF PEACE

In the first months of the Russia-Japan war we had a striking example of the necessity for preparation and the early advantage of those who, so to speak, "have shingled their roofs in dry weather." The virtue of preparation has made history and given to us our greatest men. The individual as well as the nation should be prepared for any emergency. Are you prepared for a successful combat with the first cold you take? A cold can be cured *more quicky when treated as soon as it* has been contracted and before it has become settled in the system. Chamberlain's Cough Remedy is famous for its cures of colds and it should be kept at hand ready for instant use. For sale by all druggists and dealers

MOVING PICTURE SHOW

Russian-Japanese War Scenes at Opera House Tonight and Tomorrow

The latest moving pictures of the Russian-Japanese war, together with some Chinese and Japanese scenes will be given at the opera house this evening and tomorrow night. Mrs. Yamamoto will deliver a lecture each evening. There are 70 different war scenes and 12,000 feet of films are used.

Of the pictures, the Nome Nugget says: "Scenes from the Russo-Jap war were well reproduced, all the films being good. Not the least pleasing feature of the entertainment was the quaint and ingenious way in which the little Japanese lady described the scenes depicted on the canvas."

Minard's Liniment Cures Colds, etc.

Synopsis of Canadian Homestead Regulations

ANY available Dominion Lands within the Railway belt in British Columbia, may be homesteaded by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres, more or less.

Entry must be made personally at the local land office for the district in which the land is situate.

The homesteader is required to perform the conditions connected therewith under *one of the following* plans:

(1) At least six months' residence upon and cultivation of the land in each year for three years.

(2) If the father (or mother, if the father is deceased), of the homesteader resides upon a farm in the vicinity of the land entered for, the requirements as to residence may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements as to residence may be satisfied by residence upon the said land.

Six months' notice in writing should be given to the Commissioner of Dominion Lands at Ottawa of intention to apply for patent.

Coal lands may be purchased at $10 an acre for soft coal and $20 for anthracite. Not more than 320 acres can be acquired by one individual or company. Royalty at the rate of 10 cents per ton of 2000 pounds shall be collected on the gross out-

TO WORKINGMEN
NOTICE

Whereas, at the Last Chance and Surprise mines, Chinese kitchen help is at present empoyled, to the exclusion of White labor.

Therefore, be it resolved that this organization, Sandon Miners' union No. 81 of the W. F. of M. reaffirming its opposition to the employment of Orientals within its jurisdiction, strongly condemns the position taken by the management of the properties in question, and counsels workingmen everywhere and those favorably disposed toward organized labor to be governed by this action.

SHERIFF'S SALE

BY VIRTUE OF a writ of Fi. Fa. issued out of the Supreme Court of British Columbia, Vancouver Registry, on the 26th day of October, 1906, between A. G. Rebagliatti vs. Trustees Dredging Company and to me directed in the above named suit for the sum of $538.82 and costs of execution, besides sheriff's fees and poundage, and all other legal incidental expenses, I have seized and will offer for sale by public auction, at the office of the above company by public auction, at the office of the above company at Lillooet, B. C., at the hour of eleven a.m., on Tuesday, the 4th day of December, 1906, all rights, and title to the following goods and chattels belonging to the above named company to satisfy the judgment, debts, taxes and expenses: One dredge, said to be the latest type of gold dredge, New Zealand pattern, capable of treating 4000 cubic yards per day of 24 hours; one Vertical Compound Engine 75 horse power; one boiler 100 hores power; one dynamo and engine; one 75 foot foot Bucket Ladder, with 37 buckets; feed pump, pump engine, winches, chains, wire cables, 12 Gold Tables, Gold Screen, blacksmith and carpenter tools, nails, oils, assorted bar iron, small tools, etc., together with office furniture consisting of stove, two office tables, two desks, typewriter desk with Remington Typewriter, two letter cabinets, letter press, chairs, gold scales, 2 iron bedsteads with springs and mattresses, two lamps, seven lanterns, etc. Also those certain dredging leases, two in number, on the Fraser river, Lillooet District.

D. W. ROWLANDS.
171-24 Deputy Sheriff of Cariboo.

OTTAWA, ONT.

232 Cooper St., Jan. 8th, 1906.

You know what fearful trouble I have had all my life time from constipation. I have been a dreadful sufferer from chronic constipation for over thirty years and I have been treated by many physicians and I have taken many kinds of proprietary medicines without any benefit whatever. I took a pill for a long time which was prescribed by the late Dr. C. R. Church, of Ottawa. Also for many months I took a pill prescribed by Dr. A. F. Rogers, of Ottawa. Nothing seemed to do me any good. Finally I was advised by Dr. Rogers to try "Fruit-a-tives", and after taking them for a few months I feel I am completely well from this horrible complaint. I have had no trouble with this complaint now for a long time, and I can certainly state that "Fruit-a-tives" is the only medicine I ever took that did me any positive good for constipation. I can conscientiously recommend "Fruit-a-tives" to the public as, in my opinion, it is the finest medicine ever produced.

(Signed)

JOHN COSTIGAN.

IN THREE MONTHS "Fruit-a-tives" did what Doctors and drugs failed to do in THIRTY YEARS.

"Fruit-a-tives" cured the Hon. John Costigan of the worst case of chronic Constipation that the leading physicians of Ottawa ever saw. "Fruit-a-tives" gave this famous statesman what he had not had for 30 years—perfect health.

Mr. Costigan gives the credit where credit is due—to "FRUIT-A-TIVES"—the one remedy that can, and does, cure Constipation.

Fruit-a-tives
OR FRUIT LIVER TABLETS

are the only remedy in the world really made of fruit. Juices of fresh Apples, Oranges, Figs and Prunes are so combined that the well known medicinal action of the fruit is increased many times. Tonics are added, and the whole pressed into fruit liver tablets.

"Fruit-a-tives" owe their wonderful power, and their wonderful success, to the fact that they are made of fruit—that they ARE fruit, INTENSIFIED.

It is the medicinal principles of fruit that can restore the great eliminating organs—the Kidneys, Bowels and Skin—to their normal condition. That is why "Fruit-a-tives"—made of fruit—cure Constipation and cause the bowels to move naturally—correct all Stomach, Liver, Kidney and Skin Troubles—and build up the entire system.

If you are suffering as the Hon. John Costigan did—CURE YOURSELF as he did—with "Fruit-a-tives."

50c. a box—or 6 boxes for $2.50. Sent on receipt of price if your druggist does not handle them.

ZINC RESOURCES OF B.C.

COMPILED FROM REPORT OF ZINC COMMISSION.

ZINC IN THE INTERIOR OF BRITISH COLUMBIA.

XII.

Arrow Lake Mining District—The "Big Ledge" situated on the west side of the Upper Arrow lake has been reported as probably the largest zinc deposit in the province of British Columbia. According to the mining recorder—Walter Scott of Nakusp—this deposit extends the length of 23 claims. These are situated on Bald mountain on the west side of Pingston creek, almost opposite Halcyon Hot Springs, about 3000 feet above the upper Arrow lake. They are reached by a wagon road about 8 miles in length, starting from the mouth of Pingston creek.

The claims mentioned by Mr. Scott, on which the deposit is well exposed, are the White Heather, Empress, Delanger, Anna S., Maple Leaf, Ontario, Forest Chief and Monarch, which belong to Messrs. Savage, Symons and others.

Mr. R. W. Brock, of the Geological Survey department, visited these claims in 1898, spending, however, only a few hours in the examination of the Excelsior and Iron Cap claims. His description is as follows:

"The rocks are crystalline schists and limestones, cut by gneissic granite. The "Big Ledge," where seen, occurred in a quartzose schist. Near the deposit the rocks are highly decomposed. On the east side of the ledge a massive-looking rock, which might be a decomposed granite, appears to cut the schists. The ledge consists of a considerable width of solid sulphides, pyrite, pyrrhotite, sphalerite, galena and chalcopyrite, with blebs of quartz and grains of a green mineral, apparently hornblende. The contact with the schists is indefinite, the sulphides gradually becoming less abundant and occurring as almond-like patches, then finely disseminated in a highly siliceous matrix and finally giving out. Where massive the sulphides are covered by three or four feet of gossan. The rocks nearby are also decomposed to a rusty product, in cavities of which iron stalactites of fantastic form are present.

A tunnel had been started and for its entire length of 20 feet was in solid sulphides. The width of the ledge was, at the time of my visit, impossible to determine. It was said to be traceable throughout the length of 19 claims.

The iron sulphides formed the bulk of the "ore" at the points where the ledge was seen, but zinc blende ranked next in abundance, and it is not impossible, if the ledge has the dimensions popularly attributed to it, that at some points the zinc blende may assume commercial proportions."

Illecillewaet Mining Division.—Two mineral claims situated in this mining division have been brought to the notice of the commission by the Revelstoke board of trade as containing zinc in such quantities as to be commercially valuable. These claims are known as the Donald and Round Hill, and are situated on Flat creek about one and one-half miles directly north of the Canadian Pacific railway at an altitude of about 2900 feet above the track. They are reached by a trail about three miles in length. The Donald claim is owned by David Woolsey, William Elson, and John Lawson, all of Revelstoke, while the Round Hill claim is owned by A. G. H. Howard-Potts, of Victoria, B. C.

The Round Hill adjoins the Donald to the northeast. The ore occurs in two parallel veins which run through both properties in a northeasterly and southwestely direction. The vein on which most of the mining development work on the Donald has been done is stated to be 9 feet 8 inches in width with a dip at the surface of 71 degrees, although in going down this dip flattens out to about 40 degrees. The second parallel vein is situated 104 feet lower down the mountain and has a width of about 12 feet. The devolpment work consists of a shaft 84 feet in depth and a tunnel 800 feet in length, which should reach the vein at a depth of 325 feet. The buildings include a cabin and a blacksmith's shop. The information from which the above description has been prepared was supplied by Mr. David Woolsey, of Revelstoke.

The following is the result of analysis of a very pure specimen of zinc blende from the Donald mine by Mr. M. F. Connor of the Geological Survey department. The sample was received from an independent source:

Lead, 0.19 per cent; copper, none; zinc, 54.27 per cent; iron, 9.77 per cent; insoluble, 0.08 per cent; gold, none; silver, 0.30 oz. per ton.

Lardeau Mining Division—The mining recorder of this division writes from Camborne that two of the silver-lead properties show a considerable percentage of zinc. The Sirdar mineral claim on Goat mountain has 4 feet of zinc blende, assaying 52 per cent, while at the Beatrice mine on Mohawk creek, where considerable mining operations have been carried on, there are 3000 tons of zinc ore available, which will show an average assay of 33 per cent of zinc. It is stated that most of the ore from this mine contains from 14 to 20 per cent of zinc, some of the ore occasionally running as high at 35 per cent.

The mining recorder of Trout Lake mining division writes that the Silver Cup and Nettie L. mines, owned by the Ferguson Mines Co., Limited, of which Mr. George Alexander of Kaslo, is manager, are shipping ore which contains about 10 per cent of zinc.

The ore of the Triune mine of which Mr. John Morton of Ferguson, is manager, is said to contain about 15 per cent of zinc. A very small percentage of zinc occurs in the Lucky Boy mine.

On the Old Gold, situated on the west fork of Duncan river and on which considerable development work has been done, a large percentage of zinc is said to occur.

An undeveloped property known as the "J. C." situated at the head of Lake creek, is also said to contain considerable zinc ore.

Mr. William Simpson writes from Howser that the Irene mine on which between six and seven hundred feet of tunnelling has been done, has a considerable body of ore made up of galena and zinc blende. This mine is the property of the Irene Mining Co., of Wallace, Idaho, and is situated on the east side of Duncan river, about 10 miles above Healy's.

(To Be Continued)

Minard's Liniment Cures Colds, etc.

SELLS MORE OF CHAMBERLAIN'S COUGH REMEDY THAN ALL OTHERS PUT TOGETHER

Mr. Thomas George, a merchant at Mt. Elgin, Ont., says: "I have the local agency for Chamberlain's Cough Remedy ever since it was introduced into Canada and I sell as much of it as I do of all other lines I have on my shelves put together. Of the many dozen sold under guarantee, I have not had one bottle returned. I can personally recommend this medicine as I have used it myself and given it to my children and always with the best results." For sale by all druggists and dealers.

DROWNED AS IN A TRAP

FRIGHTFUL DISASTER TO PUGET SOUND FERRY

CROWDED STEAMER RUN DOWN AND IMMEDIATELY SUNK

Seattle, Nov. 19—Forty two lives were lost in last night's disaster off Alki point when the little steamer Dix was run down by the Alaskan liner Jeannie. Thirty-seven of the 59 passengers on the Dix were rescued. Of the five female passengers on the Dix, the only one to escape was Alice Simpson, a 15-year-old girl. She is believed to be the only person who escaped from the main deck of the steamer where more than half the Dix's passengers were shut in when the fatal crash came. She could not swim but her clothing kept her afloat until she was pulled aboard one of the life boats lowered by the Jeannie.

A revised list of the drowned passengers follows:

W. Bracewell, longshoreman, Port Blakeley.
D. Blier, filer, Port Blakeley mill.
Fred Hauley, filer, Port Blakeley mill.
Peter Bussetti, barber, Port Blakeley.
C. Byler, manager Port Blakeley mill.
Alex Carlson, planer, Port Blakeley mill.
Ralph Clark, clerk, Port Blakeley mill.
J. E. Conway, lumber surveyor, West Seattle.
Charles Dennison, mate, steamer Dix.
Mrs. T. C. Ford, wife of superintendent of Port Blakeley mill.
B. Garcia, Filipino, Port Blakeley.
Mrs. Granger, Spokane.
Martin Hanson, oiler, Port Blakeley mill.
Edward Jones, Port Blakeley.
J. S. Kennedy, United States hospital attendant.
John Keating, St. Paul.
Peter Larsen, oiler, Port Blakeley mill.
Wm. Mayers, caulker, Port Blakley.
Albert McDonald, lumber surveyor, Port Blakeley.
Frank McQuarie, clerk, Port Blakeley.
Albert Drummond, lumber surveyor, Port Blakeley.
August Nelson, Port Blakeley.
Mrs. Nelson, Port Blakeley.
Fred Piggott, filed, Port Blakeley mill.
Roland Price, son of postmaster at Port Blakeley.
Frank Parks, chief engineer steamer Dix.
Ivan Read, fireman, steamer Dix.
Smith, Japanese, Port Blakeley.
Mrs. James Smith, Port Blakeley.
Arthur Smith, Port Blakeley.
Swan Swanson, lead setter, Port Blakeley mill.
Charles Williams, sawyer, Ballard Lumber company.
A. Webster, lumber surveyor, Port Blakeley.
Dr. Hand, steamer Dix.
Five Japanese en route to Port Blakeley for work.
One Chinese.
One Filipino.

It is believed that the 37 passengers who were rescued included every person who was on the open deck of the little steamer Dix when she plunged down stern foremost into 100 fathoms of water.

It is doubtful whether she can be raised.

Seattle, Nov. 19—The steamer Dix, Capt. *Pleermon bound from Seattle to Port Blakley* with passengers, sank two miles north of Alki point, shortly after 7 o'clock last night, having collided with the steamer Jeannie, Captain F. H. Maosn of the Alaska Coast Co. Forty-three passengers and members of the crew of the Dix are missing and 36 were saved. The Dix is a total wreck. The Jeannie was not injured in the least. The master of the Dix was saved. The women, who had little chance for their lives, stayed with the sinking vessel and were drowned as in a trap.

"I got away from Smith Cove a little before 7 o'clock and laid a course for Tacoma," said captain Mason. "I had no passengers aboard. I saw the Dix headed for Port Blakeley and signalled to her. Soon she came in astern of men and s'arted directly across my bows. I signalled to the engineers for full speed astern, but we could not get out of the in time. The Jeannie was backing a little when we struck her, well abaft of amidships. The shock did not seem enough to have injured an ordinary launch. The Dix listed heavily to starboard, righted herself and then sank stern first."

Captain Pleermon, master of the Dix, told the story of the collision after arriving at Seattle: "I don't know how it happened," he said. "Charles Dennison, mate of the Dix, was at the wheel. We were just about two miles north of Alki point and running at the usual speed. It was a clear, night and the water was like a millpond. I had seen the lights of a steamer on our starboard quarter some time before, but had not paid any attention to them. There were 70 passengers and it was quite a task to get all the fares. I had been on that run for 13 years and knew everyone aboard. When I was in the ladies' cabin *I heard the bell signal to stop, and* I knew something must be wrong and hurried forward. Just as I got on deck I saw a vessel looming up on the starboard side and almost instantly she struck us. The jibboom crashed through the Dix just aft of amidships and hurled her over like a top. She lay there for a minute or two with the water rushing in all over. I was thrown against the deck house for an instant, the breath knocked out of me and I was almost paralyzed. The steamer lay on her port beam for what seemed to be about two minutes and then heeled back to starboard. There was another rush of water, cries and screams of men, women and children. From below came awful sounds.

"Many of the passengers were penned *there and could not possibly escape.* The bow of the Dix began to rise and her stern went slowly down until until the bow was standing straight half out of the water. For an instant I clung to the railing. The sight filled me with terror. Lights were still burning and I could see people inside the cabin. The expressions on their faces were of indesvribable despair. They fought desperately to gain the deck and their shouts and cries were awful. People on deck slid off into the water and went down shrieking and desperately clutching at the water towards the Jeannie, which still loomed only a few yards away. Some of the passengers who had been on deck at the time of the collision, jumped to the rigging of the Jeannie's bowsprit and in this way clambered up to safety. When *the Dix began to go down I* leaped into the water and managed to keep myself afloat. All around me were floating heads and we watched the Jeannie as she slowly came to us and dropped boats which moved here and there picking up men in every direction. Finally a boat came to me. I had been in the water about ten minutes. When we were taken on board the Jeannie I found that 36 of our 79 passengers and crew had been saved. The rest were drowned.

"There was no sign of my little steamer. She was gone completely and before we left there was not even a ripple to show the place where the tragedy had occurred. I don't think she was very badly damaged by the collision. It was the keeling over on her port beam that caused her loss. She filled with water as soon as she went over and that took her down. As to the cause of the accident I cannot say. I was not on deck and don't know or understand how it happpened. This is the first accident that has happened on any ship of mine since I have been running on Puget Sound."

Dear Mother

Your little ones are a constant care in Fall and Winter weather. They will catch cold. Do you know about Shiloh Consumption Cure, the Lung Tonic, and what it has done for so many? It is said to be the only reliable remedy for all diseases of the air passages in children. It is absolutely harmless and pleasant to take. It is guaranteed to cure or your money is returned. The price is 25c. per bottle, and all dealers in medicine sell 3|4

SHILOH

This remedy should be in every household.

Do You Know

CRAPSEY IS SUSPENDED

BUFFALO DIVINE FINALLY CONVICTED OF HERESY.

WHAT HE BELIEVED TO BE TRUE CLASHED WITH CHURCH

Buffalo, Nov. 19.—Rev. Algernon S. Crapsey, D.D., of St. Andrew's Episcopal church, is condemned to suspension from the church as a result of the decision of the Protestant Episcopal court of review just made public here. The court of review sustains the decision of the lower court and the decision of the lower court was that Dr. Crapsey should be suspended for alleged heretical teaching.

The announcement of the decision was made as follows:

"The court of review has affirmed unanimously the decision of the lower court in the case of Rev. Algernon S. Crapsey, D.D."

The Crapsey case has attracted wide attention since the publication of Dr. Crapsey's book on religion and politics and also since he preached a number of sermons in which it is charged against him that he taught doctrines which were contrary to the faith of the Protestant Episcopal church. Dr. Crapsey in reply to these charges contended that he preached only according to what he believed to be the truth. He contested the proceedings against him vigorously and among the counsel he employed was Edward M. Shepard, one of the most noted lawyers in New York. The charges against him were first heard by an ecclesiastical court at Batavia and after a trial which attracted wide attention, the court reported a verdict sustaining the charges.

An appeal from this decision, which was immediately taken, and heard by the board of review of the Protestant Episcopal church, which met here in New York. The sessions extended over a period of several weeks and the noted counsel who appeared for and against Dr. Crapsey in Batavia again appeared and reargued the case. The final session of the board of review was held last week and at its conclusion the announcement was made that a decision had been reached. This decision, which was announced today, apparently brings the Crapsey case to an end.

MAIL SERVICE

Time of Arrival and Closing of Mails at Local Postoffice

The new winter schedule on the C.P.R. which went into force on Sunday last has made several alterations in the arrival and the closing hours for outgoing mails. Postmaster Gibson has supplied the following details which are worth cutting out and pasting up for ready reference:

Outgoing mail, hours of closing: For all points west of North Bay, Ont., 12 midnight daily.

For Kaslo, Ainsworth, Pilot Bay and Procter, 12 midnight, except Sunday.

For Lardo, Poplar, Gerrard, Trout Lake City and Gerguson, 12 midnight on Mondays, Wednesdays and Fridays.

For Slocan district and coast, 12 midnight, for coast daily, for Slocan district daily except Sunday.

For Boundary, 8 a.m., daily except Sunday.

For Rossland-Trail, 5:30 p.m.

For Willow Point, Kokanee Creek, Club's *landing, 6 p.m. Tuesday.*

For Crawford Bay, 12 midnight, Tuesdays and Saturdays.

For Balfour, 12 midnight, Tuesdays, Thursdays and Saturdays.

Incoming mail, time of arrival: From Crow's Nest railway, 5 p.m. daily.

From Kaslo, Ainsworth, Pilot Bay and Procter, 3:15 p.m., Tuesdays, Thursdays and Saturdays. From Kaslo, Ainsworth, Pilot Bay, Procter and Lardo, Poplar, Gerrard, Trout Lake City and Ferguson, 6:25 p.m., Mndays, Wednesdays and Fridays.

From Slocan district and coast, 7:45 p.m. daily from coast and except Sunday daily from Slocan district.

From Boundary points, 9:10 p.m., daily except Sunday.

From *Spokane* and eatsern and western connections, 6:55 p.m., daily af Mountain depot.

From Willow Point, Kokanee creek, Club landing, 10 a.m. Wednesdays and Saturdays.

From Crawford Bay, 3:15 p.m., Tuesdays and Saturdays.

From Rossland-Trail, 9:10 p.m. daily except Sunday, when mail reaches this city from Rossland at 5:20 p.m.

TERRORISTS BUSY IN WARSAW

Warsaw, Nov. 19.—A daring terrorist attack was made in the streets today on a collector of the government alcohol stores, who was escorted by two soldiers. The terrorists killed one soldier, wounded the collector and seized a bag containing $10,000. The remaining soldier fired wildly killing a passerby and wounding another, whereupon the terrorists dropped their booty and escaped.

The two leaders of the band of revolutionists and 20 others implicated in the train robbery at Rogaw on November 8, by which the revolutionists secured a sum of money said to amount to $650,000, have been arrested. All belong to the Polish socialist party.

Any Inexperienced Person Can Dye Successfully With

Diamond Dyes

There are no mysteries about the use and handling of DIAMOND DYES. The directions given on each package are so concise and simple that the dyeing of a dress, costume, blouse, jacket or suit of clothes is made easy and pleasant work.

We are aware of the fact that some ladies are badly disappointed after a trial of dyeing work. The reason is obvious; they unfortunately have used some make of useless dyes foisted on them by some unscrupulous dealer.

A child that can read can dye any article successfully with DIAMOND DYES. These world famed dyes are put up by experienced chemists, which accounts for their uniformity in quality, strength and brilliancy. When you buy DIAMOND DYES you get the world's best dyes.

Send to Wells Richardson Co., Limited, 200 Mountain street, Montreal, P.Q., for valuable Dye Book and card of dyed samples; FREE to any address.

IN CHAMBERS.

In chambers yesterday before his honor judge Forin, only one application was made. In the Highland Mining Co. vs. Maryland Casualty Co., Hall for the defendants asked for the delivery of interrogation. A. M. Johnson *for the plaintiffs consented.* Ordered accordingly.

TENDERS

We are instructed to call for tenders for the stock and fixtures and goodwill of **The Athabasca Saloon, of Nelson, B.C.** which will be sold as a going concern. Stock of liquors about $700; fixtures, $2500; total, $3200. Tenders will be received up to Nov. 26, 1906. For particulars enquire

McDERMID & McHARDY
Nelson, B.C. Financial Agents

Corporation of the City of Nelson

Winter Feeding
FOR RESULTS

Your chickens can't pick up bone, insects or green clover at this time of year. We have ground bone, oyster shells, beef scraps, Alfalfa meal, etc., to replace these things which are necessary for best results.

C.P.R. SCHOLARSHIPS

Notices regarding the two free scholarships in McGill university which the C.P.R. is offering to employees, under 21 years of age, and to the minor sons of employees, have been received at the office of R. Marpole, general superintendent of the C.P.R. They will be distributed among *the employees interested.*

The scholarships cover four years' tuition in the faculty of applied science of McGill university. They are subject to competitive examinations and are offered to apprentices and other employees enrolled on the permanent staff of the company and under 21 years of age, and to minor sons of employees. The competitive examinations which will be the regular entrance matriculation examinations provided for in the annual calendar of the university, will be held under the supervision of the faculty of applied science at the university of Montreal, beginning June 12, 1907.

Only Nova Scotia Wool
IN
Stanfield's Unshrinkable Underwear

Every part of Nova Scotia is near salt water and the gentle sea breezes impart to the wool a peculiar texture and softness. This wool is long staple and of great strength and elasticity. "Stanfield's" is the only Underwear in the world made from Nova Scotia combed wool.
