MINES OF FRANKLIN

Great Activity Prevails in New Camp North of Grand Forks

Principal Property is Well Known McKinley Mine, Now Under Bond to Augustus Heinze

(Special to The Daily News)

Phoenix, June 7.—No undeveloped part of the Boundary mining district is today attracting the attention of the world at large equal to that of Franklin camp, located some 40 or 50 miles due north of Grand Forks, at the headwaters of the north fork of Kettle river—a section that has up to the present been entirely without railway communication of any kind, and to which a wagon road is only just being completed by the provincial government.

Your correspondent has just returned from a trip to this camp, where he noted the activity that is now beginning to be felt there, due to the universal belief that the mineral discoveries made there will prove to be of the first importance, with adequate development.

Franklin camp, according to the map compiled by professor R. W. Brock, of the dominion geological survey, who spent some time in field work in that section with a force of assistants, has a mineralized area about 13 miles by five miles, and is one of the largest mineralized areas in British Columbia. This, much of the drainage area of the north fork has been proved, though it is known to extend much farther. The geological formation is lime, porphyry and conglomerate surrounded by granite hills, and, the ledges mostly have a northerly and southerly trend. Locally the district may be said to be divided into three smaller camps, known as McKinley, Banner and Mineral Hill with others springing into prominence as development proceeds.

Generally speaking the ore of Franklin camp is a sulphide copper, carrying rather higher values than most of the mines of other parts of the Boundary. In addition they carry some gold and silver values, and in some parts of the camp galena and zinc have been found in considerable quantities. But it is great ledges of copper ore, self-fluxing like that of Phoenix and Deadwood camps that are relied upon to give the camp a large tonnage when the railway is constructed and development is sufficiently advanced.

DISCOVERY OF FRANKLIN CAMP

In the year 1892 Frank McFarlane, while hunting and trapping on the north fork waters, picked up a sample of ore on what is now McKinley mountain. This sample he brought to Grand Forks and showed it to a number of his friends, who made up a party and decided to prospect McKinley mountain with a view to making locations where the copper sample was found. The trip was postponed, however, till 1896, when McFarlane located the ground where the ore was found, locating the first claim in the camp, and calling it the Alpha, the McKinley and other claims being located that same year.

Scores of claims have been located since that time, all over the district, and many of them have been developed, with the primitive means at hand, so far from transportation or a wagon road, to the stage where they can be made to join the shipping list at a comparatively early date.

The leading mine of Franklin camp is the McKinley, both by reason of the amount of development so far done and because of the immense showing of copper ore made on the property. This is the mine that R. Aug. Heinze, of Butte, made his record breaking trip to inspect last fall, resulting in the Heinze interests taking a bond on the McKinley, Hanna and Munster at a price said to approximate $200,000. The McKinley is located on the mountain of the same name, and the development consists of about 350 feet of tunneling, which has proved an ore body some 200 feet in width thus far. In addition to this a large amount of stripping and ground sluicing has been done on the surface, proving up the continuity of the ledge. This work was all done in charge of A. D. McPhee, the superintendent, who is still there.

This spring a diamond drill and portable boiler were packed to McKinley, with much difficulty, and the Spokane Diamond Drill Contracting Co. began work on an extensive contract of several thousand feet, to test the ore bodies of the McKinley. Thus far about 600 feet of drilling have been done, with the result that the width of the ore body has been found to be much larger than before. The work is still being continued. The ore, generally speaking, carries from three to ten per cent copper, and gold and silver values, being an excellent fluxing ore, common to many Boundary mines. It is understood that the same interests have also options on several other claims.

OTHER MINES OF PROMISE

Franklin camp has many mines that give promise of being large producers besides the McKinley, though not having as much development done on them. Prominent among these is the Gloucester group, including the Gloucester, G. H., G. H. fraction, and Ophir, located in what is now called Gloucester camp. This group was bonded a few days ago by the owners, Thomas and James Newby, and Lee Mercer, of Grand Forks, to the Dominion Copper Co., Ltd., the property being examined by the manager of the company, T. R. Drummond. The Gloucester has a 50 foot shaft in a good grade of ore, and a tunnel in some 250 feet, intended to strike the ore body. The price of the bond is understood to be in the neighborhood of $110,000, the payments extending over 18 months.

Last week the Maple Leaf group, including the Maple Leaf, Twilight and Bacon claims, was bonded for a sum, said to be $60,000, to H. W. Warrington, superintendent of the Kettle River Valley lines, and others, by the owners, Fee brothers, of Grand Forks, and M. Young, of Vancouver. The work so far consists of large open cuts, showing a large body of excellent copper sulphuric ore. Development work was started that week.

On Mineral Hill, opposite the Gloucester group, the Mineral Hill group of 11 claims is owned by Hill and Minion of Grand Forks. There is a 200 foot tunnel and many open cuts, with a tremendous ore showing, much like the McKinley, it being one of the largest propositions in the camp.

The Banner is located on Gloucester hill, and is owned by Frank McFarlane, Wm. Spier, A. E. Smith, Dr. Kingston and others, of Grand Forks. It has a tunnel 200 feet in length with some 30 feet of a crosscut, and a 30-foot shaft. The ore is concentrating copper, with four feet of galena running $60 per ton. It is the intention to further explore this property shortly with a diamond drill.

On McKinley mountain is also located the Jumbo group, including the Jumbo, I.X.L., and Manhattan, and situated one and a half miles west of the McKinley, having the same formation, same capping and same class of ore as the McKinley. The work done is largely open cuts.

Other important and promising claims, on which considerable work has been done are the following: Morelli group, Dane group, C. P. R. group, Cap. Rogers group, Pollard group, Copper group, Mammoth group, Bullion group, Hit or Miss, M. S., Mere Mention, Monterey, Elgin, Alpha, Aspen, Nancy Hanks, Aldie, White Bear, Tiger, Bystander, Gold King, Pay Ore, etc. The M. S. was recently bought by A. Erskine Smith, of Grand Forks and is now being developed. The Mountain Lion, owned by H. Sheads and H. Waterland, was recently bonded to the Dominion Copper Co., for about $7000.

Many of these properties will be worked this summer, and some of them are now being operated, with the prospect of immediate railway connection by way of the Kettle Valley lines, the contract for 50 miles of which was let this week to W. P. Tierney, of Nelson.

PASSING OF PIONEERS

DEATH OF G. R. G. O'DRISCOLL AND ROBERT WOOD.

FAMILIAR FACES THAT WILL BE MISSED IN NELSON.

Two pioneers of the Kootenays passed away to their long rest yesterday. G. R. G. O'Driscoll died at the Kootenay Lake general hospital, where he had been a patient for the last three weeks, a little after 6.30 last evening; and the lifeless body of Robert Wood was discovered at his hotel near Granite about 3 o'clock in the afternoon.

The late Mr. O'Driscoll was one of the best known residents of this city, noted for his kindly humor, and only last St. Patrick's day presided over the annual banquet of his fellow countrymen in Fraternity hall, as president of the local St. Patrick's society, making easily the most wittyand acceptable speech of the evening.

The deceased was the elder son of the late G. A. O'Driscoll, some time rector of Conneen parish, county Fermanagh, Ireland. He was in his 56th year and is survived by a younger brother, now in Australia. His only other known relative is an aunt in Northumberland, England. He was at one time in the service of the Bank of Ireland, but in 1888 came to Victoria, where for some time he was secretary of the Union club. In 1892 he had a severe illness and upon his recovery came to Nelson for the benefit of his health. He was engaged in the local mining recording office for some time and was on the Hall Mines staff for a short period. Recently and up to the time of his death Mr. O'Driscoll filled an important position at the Hall Mining and Smelting company's works, not in the employ of the company, but as the trusted confidential assay checker and representative of the various mining companies shipping ore to the smelter. He was an ardent fisherman and took a keen interest in sports of all kinds. He had been in ill health for some time this spring and was induced to enter the Kootenay Lake general hospital by some of his friends some three weeks ago. At his own urgent wish no mention of his illness was made in these columns. Doctors LaBau and Wilson were in attendance, but from the first they held out little hope of the patient's recovery. Intestinal trouble was the cause of death.

M. S. Davys, his closest friend here, was with him constantly at the hospital and had only left the sick man's bedside a little while last evening when the end came.

The funeral will be held from St. Saviour's church, of which the deceased was a member, on next Saturday afternoon at 2.30.

In the passing away of "Bob" Wood, the proprietor of the Thistle hotel at Granite, Nelson looses one of its oldest citizens, a kindly hearted old Scotchman, who was born in Aberdeen 73 years ago. He came to America before the gold rush of '49, and crossed the plains to California in that year. He mined in Montana, Idaho and Cariboo in the early days. He came here about 1890 and built his little hotel down at Granite when the Poorman first started up. He has lived there ever since, coming regularly to the city from time to time. Possessed of small means, he was generous to a fault, particularly with all mining men, and had a horror of going into debt, and had the reputation of invariably most honorably discharging any money transactions he was at all liable for.

Some few days ago he was called as a witness here against a man named Cann who was accused, with a woman companion, of breaking into the Thistle hotel on May 24. The whole matter completely upset the deceased, and on Thursday last when chief constable Bullock-Webster visited him at Granite, he found the old man ill and quite unnerved and in bed as the result of the worry caused by the Cann incident.

Yesterday afternoon about 3 o'clock two miners, friends of the deceased, called at the Thistle to enquire how the old man fared, as they knew he was not feeling well. They found him with his coat and vest off, lying in bed and upon closer examination ascertained that he had been dead for some hours. The miners at once telephoned the news to chief Bullock Webster and during the afternoon constable C. W. Young and coroner Arthur drove down to the hotel and viewed the remains. Dr. Arthur said Wood had probably been dead 24 hours when the miners first found the body. There was no suggestion of foul play or violence of any kind and no inquest will be held. The deceased has been in the habit of late of taking a nap early every afternoon and it is supposed that he passed quietly away on Wednesday afternoon while asleep.

DROWNING AT AINSWORTH

PIERRE GIGUERE FELL FROM ORE CHUTE INTO 50 FEET OF WATER

BODY WAS RECOVERED SIX HOURS LATER BY GRAPPLING.

(Special to The Daily News)

Ainsworth, June 7.—A drowning accident occurred here this morning, the victim being Pierre Giguere, a young man in the employ of the Canadian Metal company at the United mine. He was engaged in loading ore from the bins to a barge with two other men. They were on the chute, when the barge for some cause or other moved away and allowed the chute and men to fall into the water, which at the spot was forty feet deep.

His companions were rescued, but Giguere sank to the bottom and it was not until some six hours later that his body was recovered by grappling. Giguere was 24 years old and came to British Columbia from Minneapolis. He was on Oddfellow and a member of Nelson Miners' union.

Frank Phillips, secretary of Nelson Miners' union, will leave this morning for Ainsworth with a casket and will make arrangements for the funeral.

CONNAUGHT NOT COMING

HIS REPORTED VISIT TO CANADA WITHOUT FOUNDATION

DUKE'S' SECRETARY AND CHIEF OFFICER INTERVIEWED.

London, June 7.—With reference to the talked of visit of the duke of Connaught to Canada, a representative of the Canadian Associated Press called at Clarence house this morning and was informed by Andrew Murray, secretary to the duke, that he knew nothing whatever about the rumored visit to Canada and suggested that the interviewer call at the Horse Guards to see sir John Maxwell. He did as suggested and sir John said that the duke had not the slightest intention of visiting Canada.

He had heard positivity nothing about such a visit and authorized the Canadian Associated Press to deny the story.

Sir John Maxwell is inspector general of forces and is the duke of Connaught's chief officer.

NO MONOPOLY OF PASSES.

Text of Clause Inserted in British Columbia Railway Bills

(Special to The Daily News)

Ottawa, June 7.—The Yukon placer mining bill was read a third time and passed today.

In the senate railway committee this morning a number of bills for lines through the Rocky mountains which have been standing for some days for a clause to prevent monopoly of passes were reported on. A clause was inserted in each bill giving the railway commission authority to grant any other company running rights over any portion of the line when, owing to the configuration of any portion of the country, it is impracticable or unduly expensive to build more than one line.

The bills reported with this amendment were the Pacific Northern, the Kamloops & Yellow Head Pass, the Ashcroft, Barkerville & Fort George, and the Kettle River Valley.

R. L. Drury, M.P.P., Victoria, was here today and was in the speaker's gallery during the afternoon proceedings of the house.

CALGARY'S CLEARINGS

Calgary, June 7.—Clearing house returns for the week ending at noon today are $1,044,607.

FIGHT TO A FINISH

Conference of Miners and Operators of Ohio Ends in Disagreement

Miners' Convention Decided Unanimously to Stand Out for 1903 Scale -Coal Company's Stores Will Close at Once

Columbus, Ohio, June 7.—The joint conference of Ohio miners and operators ended today in a disagreement and both sides declare tonight that the fight is now on to a finish.

The miners' convention decided unanimous decided to stand out for the 1903 scale.

The operators also held a conference and chairman Winder announced that there would be no wavering among them.

The Sunday Creek coal company, of which Mr. Winder is manager, decided to close all the stores operated by the company in the Hocking Valley at once.

Up to this time the stores have been kept open and the striking miners allowed a limited credit.

PROVINCE ON MONTREAL

Montreal, June 7.—Because of the refusal of the legislature of Quebec to treat Montreal city council's applications from time to time to alter the city charter to permit of improvements, etc., a move is on to petition the federal government to take action so that the British North America Act could be amended and the whole island of Montreal made into a province in its own right.

EXCHANGED KISSES

Emperor William Takes Affectionate Leave of Emperor Joseph

Vienna, June 7—Emperor William's visit to Vienna was greatly curtailed by the cold weather and unceasing rain. The principal feature of the visit was the exchange of telegrams between the sovereigns of the nations in the triple alliance, which generally are attributed to the initiative of the German emperor, and the marked attention which emperor William paid to Dr. Wekerle, the Hungarian preacher. This latter apparently has borne fruit in the more appreciative editorials printed in the Hungarian newspapers with regard to the Austro-German alliance.

King Victor Emmaunel's reply to the telegram from the two emperors is considered to have been hardly as warm as emperor William could have desired, but it is held to have counteracted the danger of the visit being regarded as a mere Austro-German demonstration to the exclusion of Italy, and according to the Nieue Frie press the imperial speech to to delegates will refer in warm tones to the incident as strengthening the triple alliance.

Emperor William departed for Berlin at 9:30 p.m.. The two emperors at the station exchanged kisses many times.

QUEEN OF THE CARNIVAL

All Interior Towns to Take part in Selecting Presiding Beauty at Fernie's Fete

(Special to The Daily News)

Fernie, June 7 — Preparations for the Eagles' big carnival, July 3 and 4, are now well in hand and an exceptionally fine program is promised. One of the chief features of the carnival will be the election of a queen, who will be voted for by the people of all the interior towns. The elected queen will be paid all her expenses whilst in attendance at the carnival and will be presented with a handsome diamond ring as a souvenir of the occasion.

Other attractions will be a balloon ascension, a street parade and a great variety of athletic sports.

Fernie people intend to make the carnival as attractive as possible as they hope to induce people from all parts of the interior to visit their city. Whilst visitors will be assured of a good time, Fernie citizens are anxious that they should have an opportunity of seeing how the city has grown and what extensive improvements have been made in recent months.

TUCKER MUST PAY FULL PENALTY

Boston, June 7—Charles Louis Tucker of Auburndale, convicted of the murder of Mabel Page at Westerly in 1904, will be electrocuted in the state prison at Charlestown during the week beginning June 10. Governor Curtis announced at a late hour tonight that he had decided not to commute the sentence to one of life imprisonment.

PHILLIPS RETURNS TO JAIL

Toronto, June 7—Joseph Phillips, former president of the York County Loan company, is again in the cells. Thomas Walker, one of his bondsmen for $2500, became uneasy and consulted crown atorney Drayton. Phillips will now have to find new bondsmen.

FIRST HALF HOLIDAY

The first half holiday of the season was very generally observed yesterday, nearly all the local merchants closing down at the noon hour. The Grocers met the All Comers at football in the recreation ground at 2:30 and the former defeated the latter by one goal to none. The game was won in the first half when the grocers got the better of their opponents by one goal. During the second half both teams played hard but no goals were scored by either side. There was a fair attendance of spectators and the game was thoroughly enjoyed by everyone.

ABOLITION OF REBATES

VICE-PRESIDENT OF PENNSYLVANIA THROWS LIGHT ON SUBJECT

MORE EVIDENCE REGARDING COMMISSIONS ON FUEL COAL

Philadelphia, June 7—New light was shed today on the motives leading to the abolition of freight rebates by the railways when James McCrea, first vice-president of the Pennsylvania company, which operates the Pennsylvania railway lines west of Pittsburg, appeared as a witness before the interstate commerce commission. Mr. McCrae expressed himself in favor of publicity in the rating of mines and the distribution of cars. He surprised the commissioners and the counsel by announcing that for nearly two years and up to the time of Cassat's departure for Europe, the board of directors of the Pennsylvania railway, of which he is a member, had been considering means for eliminating the private car from the lines of the company. He declared that they had contended that the use of these cars was unwise. Towards the conclusion of his testimony Mr. Glasgow asked Mr. McRae when president Cassat decided to stop rebating.

"Just as soon as he got control of the Pennsylvania railway; that was in 1899," said Mr. McCrae.

"Simultaneously the community of interest plan was adopted, was it not?" was Mr. Glasgow's next question.

McCrae said he was not certain as to that. He then entered into an explanation of the rebate system and declared that the directors of other roads were pleased with the idea of abolishing it when the subject was brought to their attention. He said he thought it questionable if rebating would been voluntarily stopped by the railroads.

After replying to humorous questions, Mr. McCrae admitted frankly that the rebating stopped when the community of interests plan started. He asserted that the shipper was never so fairly treated as now. He has stable rates and is placed in a fair position with his competitors.

Mr. McCrae also told the commission that he had resigned from the investigating committee appointed by the directors of the Pennsylvania, following the revelations of the commission. He declared himself opposed to officials or employees holding any personal interests which may clash with their official duties.

Joseph K. Akin, chief clerk to A. G. Mitchell, superintendent of the Monongahela river division of the Pennsylvania railway, admitted owning stock in numerous coal companies, some of which was given to him, while for the other shares he paid a privilege price. He also testified as to having paid to Joseph Boyer, formerly chief clerk to A. W. Gibbs, five cents a ton commission for fuel coal which one of his companies furnished to the railroad. It was simply a business transaction.

OVERCOME BY COAL GAS

OUTBREAK OF FIRE IN MONTANA MINE PROVES FATAL

ONE MINER KILLED AND SEVERAL OTHERS MAY HAVE PERISHED

Red Lodge, Montana, June 7—At least one man is dead and several others are in a serious condition from asphyxiation in the Northern Pacific railway's Rockyford coal mine.

Fire, which broke out in the mine several days ago, was supposed to have been extinguished, but today the flames broke out again. Several men were overcome and a rescuing party of 50 volunteers entered in search of their comrades. Many of htese men also were overcome by gas.

Joe Bracey is dead, and Thomas Skelly, Al. McFarl, Tony Fleming, William Bailey and Thomas Atherton are in such a serious condition that recovery is doubtful.

It is believed that there are several miners still in the mine, about 70 feet below the air fan, and that they have perished.

TELEGRAPH OPERATOR BLUNDERS

Eastbound Pennsylvania Limited Runs Into Construction Train.

Lancaster, Pa., June 7.—Running at the rate of 40 miles an hour, the eastbound Pennsylvania limited at 2.40 this afternoon, through a blunder of a telegraph operator, crashed into the Parkburg construction train on the Pennsylvania cutoff a mile east of the city. Three members of the crew of the limited were injured. The operator, Ralph H. Erb, had just backed the Parkburg construction train from the main line to the east bound track on the cutoff to permit a freight train to pass. Before he could close the swith the limited express, which should have taken the west bound track, ran throught the open switch and crashed into the construction train. Both engines were thrown into the air but none of the cars were derailed. Engineer McCauley of the limited, applied his air brakes when he saw the collision was inevitable and stuck to his post. His fireman jumped and was caught under the wreckage. None of the passengers were injured.

MANITOBA FISH IN EUROPE

Pickerel From Lakes Manitoba and Winnipeg Shipped to Germany

Winnipeg, June 7—J. H. Davis of this city, has just sold four carloads of fine pickerel, or yellow pike, caught in Manitoba and lake Winnipeg for distribution in the European markets.

One of the largest fish dealers in Germany came especially to this country from Hamburg to make the purchase. He assured Mr. Davis that pickerel caught in the lakes of western Canada would ere long be a toothsome delicacy throughout Europe and that he personally considered pickerel caught in lake Winnipeg and lake Manitoba as tasty a fish as could be caught anywhere.

The fish will be shipped to New York and thence by refrigerator to Hamburg. The purchaser also told Mr. Davis that he intends pushing the sale of Canadian fish on the European markets, which will have a tendency to raise the price of this class of fish in the west.

SKILLED MINERS WANTED

LARGE NUMBER COULD FIND WORK IN BOUNDARY MINES

GRANBY AND B. C. COPPER COMPANIES BOTH SHORT HANDED

(Special to The Daily News)

Phoenix, June 7—There is at present a large demand for good miners in the big mines in the Boundary country, and probably at least 100 men could find positions here without delay in the several properties. The pay is the standard, $3.50 per day for miners underground, and $3 for muckers, eight hours being the rule.

Superintendent Hodges of the Granby company, said today: "There is a scarcity of good miners in the country, and we could employ from 25 to 50 more good men for mining and mucking."

This is also confirmed by Frederic Keffer, engineer for the B. C. Copper company's Mother Lode mine, who could use as many more, the preference being given to men of experience in mining. In the other low grade properties of this section, as well as in the high grade mines, which of course, employ a less number of men, there is a steady demand for men who understand their business.

TIERNEY IN WINNIPEG

CONFIRMS REPORT OF SIGNING BIG RAILROAD CONTRACT.

IS PURCHASING SUPPLIES TO BE USED ON CONSTRUCTION

(Special to The Daily News)

Winnipeg, June 7.—W. P. Tierney, railroad contractor of Nelson, B. C., is registered at the Leland hotel, on his return from Toronto, where he signed an extensive railroad contract to extend the Kettle River line from Grand Forks, B. C., along the north fork of Kettle river to the famous McKinley mine, a distance of 50 miles.

Mr. Tierney states that his contract covers all work, clearing, bridging, grading, tracklaying and ballasting. As it is all mountain work it will average $25,000 per mile, making a total of $1,250,000 for the contract.

Mr. Tierney will remain in the city for a few days purchasing supplies and he says that all supplies and machinery used on the job will be bought in Winnipeg and Vancouver.

Asked who were behind the deal, the C. P. R. or the G. N. R., Mr. Tierney would not say; but as he has been doing all the C. P. R. work in the Kootenay and Boundary country for the past five years, it is supposed that it is a branch of that company's lines, which will ultimately be extended to Spokane to connect with the Corbin road, which has been extended from Yahk to Spokane.

CLOUDBURSTS AND TORNADOES

Work Serious Damage and Loss of Life in Pennsylvania, Michigan and Kansas

Johnstown, Pa., June 7—Thunder showers, electric storm and heavy downpours of rain that have prevailed throughout Pennsylvania during the entire week, culminated today in cloudbursts in Westmoreland, Somerset and Butler counties, that caused the rivers and creeks to overflow, flooding the streets in many communities and creating general flood scares. Tonight, however, reports from the various sections affected during the day indicate that the waters are receding, the weather is clearing and all danger is past. Probably $50,000 will cover all losses.

Plainwell, Mich., June 7—Sweeping a path a mile and a quarter wide for a distance of three miles early tonight a tornado that struck the villages of Martin and Monteith, near here, killed William West, a farm laborer, seriously injured several other persons and did much damage to stock and farm buildings and uprooted a number of orchards.

Electric storms were prevalent in many parts of Michigan today. At Mount Mortys Alexander Ferguson, a farmer, aged 70 years, was killed by lightning.

Hillsboro, Kansas, June 7— Atornado struck Goessel, a German Mennonite settlement, 15 miles southeast of here today. About 30 persons were injured. The tornado laid waste to a strip 200 yards wide. Several stores and 20 residences were demolished and every house in the town was damaged. The large Mennonite hospital was only slightly damaged. The injured were taken there.

McGILL MEDICAL GRADUATES

Montreal, June 7—The results of the medical examinations in the finals at McGill were announced tonight. There are 22 graduates, among them being D. P. Hannington of Victoria, H. E. McEwen of Nanaimo, T. C. Mercer of Chilliwack and Samuel Petersky of Vancouver. Hannington is the seventh man on the honor list.

PRESBYTERIAN GENERAL ASSEMBLY

London, Ont., June 7—The Presbyterian general assembly opened here yesterday. Dr. Falconer of Pictou, N.S., was elected moderator.

RE-ARREST BROTHIER

Vancouver Criminal May Be Brought Back From Montreal or Quebec

Deputy Attorney-General McLean Promises That He Shall be Prosecuted on Untried Charges if Captured

Vancouver, June 7.—Energetic steps were taken in the city yesterday to secure the re-arrest of Desire Brothier on the indictments on which he has not yet been tried. While stay proceedings were entered on these charges it is stated by legal gentlemen that they can be taken up again at any time at the option of the crown.

A number of citizens represented the case yesterday to Hon. R. G. Tatlow and W. J. Bowser, M.P.P. These gentlemen at once undertook to wire the attorney general, urging the importance of re-arresting Brothier, if possible, before he left the country.

Later in the day a telegram was received from deputy attorney general MacLean stating briefly that proceedings were being taken to arrest Brothier.

Last evening, also, a telegram was received from superintendent Hussey, of the provincial police, by the city police force, saying that he had wired Montreal and Quebec to arrest Brotheir if possible and asking that his description should be sent to these two places. Descriptions were telegraphed by sergeant of detectives Mulhern immediately, who from the copious information in the rogue's gallery had no difficulty in finding material.

It was stated that one of the conditions imposed on the first of Montreal lawyers who obtained Brothier's release, was that they should see him safe on board an outgoing ship, so that it is presumed that he would have left Montreal yesterday on the turbine liner Virginian. If so he could be arrested when the steamer put in at Quebec, but of course there is a strong probability that he may have gone on to New York and taken the steamer La Lorraine, which sails direct for Havre, France.

Stay of proceedings against Brothier was entered in no less than eight cases, two of theft, five of forgery and one of procuring, so that there will be a plentiful array to bring up against him should he be brought back.

Montreal, June 7.—Desire Brothier, exconvict, who was released last week from the British Columbia penitentiary on pardon by the minister of justice, arrived here yesterday.

Brothier's release was effected through the representations of a firm of lawyers of this city. Assistance of members of parliament representing Quebec and this city was obtained, and the pardon was secured.

It is understood that various firms of Vancouver lawyers have at different times been retained in an effort to secure a rehearing of the charges against Brothier, but it is asserted on authority that no Vancouver lawyer at any time asked for a pardon for the felon or attempted to secure anything more than a new trial for him.

The Montreal firm which took up the case acted, it is understood, after being retained by relatives of the convicted man in France. They were also consulted by the alleged wife of Brothier, who came here from the coast to further the arrangements looking to his freedom.

It was a part of the arrangement with the department of justice at Ottawa that the Montreal legal firm should see Brothier aboard a steamer for France. In fulfillment of this arrangement Brothier came to this city yesterday.

[Desire Brothier was convicted in Vancouver two years ago upon several counts, involving the vilest crimes. He was sentenced to seven years in the penitentiary and his release the other day has aroused a storm of indignation in Vancouver, a feeling that is heartily sympathized in by everyone conversant with the facts.]

DEATH OF MISS ALEXANDER

(Special to The Daily News)

Kaslo, June 7—This community is greatly distressed over the sad death of Mr and Mrs. George Alexander's young daughter, Nell, which ocurred at 7 o'clock this morning.

She was operated upon for appendicitis last Tuesday week by Drs. Hall and Hartin, and, apparently, the inflamation was never checked. She died of peritonitis.

She was nearly 15 years of age and for the past two or three years had been at school in England, returning with her parents a month ago.

Arrangements for the funeral have not yet been completed.

A message was sent to Dr. Hall of Nelson, during the night. He came to Procter by the Moyie, where he was met by the tug Hercules, and arrived here an hour after the death of his patient.

The greatest sympathy is felt for the bereaved parents.

C. P. R. DEFAULTER ARRESTED

Montreal, June 7.—David Hobbs, ex-C. P. R. customs agent, who absconded with $60,000, was arrested in New York last night.

THE HUDSON'S BAY CO.

Spring Poems and

Maple Syrup

These are now in season, but whilst the product of the spring poet is usually flat and tasteless, the pure product of the

SUGAR MAPLE TREE

is healthy and deliciously toothsome. So much adulterated stuff is on the market now, that we feel proud to be in a position to offer

Pure Maple Syrup

specially made for us in the Province of Quebec. The first shipment direct from the Habitant's Camp in the sugar bush has just arrived.

Our Price is $1.50 per reputed gallon tin

PROVINCIAL SUBSIDIES.

The Victoria Colonist would have its readers believe that the provincial elections now in progress in Nova Scotia are being fought out on the issue of "better terms." In fact, the Colonist goes so far as to say that premier Murray's appeal to the country is mainly based on this issue. The object of the Colonist in thus misrepresenting the situation in Nova Scotia is to bolster up the partisan efforts of premier McBride in the late local elections to make "better terms" an issue.

There is no issue in Nova Scotia on this question, neither is there one in this province. The Colonist quotes premier Murray's manifesto on the subject and we cannot do better than reproduce it here, as it deals with the subject in a sensible manner without the least suggestion of any deliberate attempt on the part of the federal government to withhold from the province its just dues. Premier Murray simply points out, the facts, states that a conference of provincial premiers is about to be held, and asks the people of Nova Scotia to express an opinion as to the justice of the claims of the province.

In this province, the legislature by unanimous vote expressed its views regarding the question of "better terms," and it must be recalled that the resolution adopted was one framed by the leader of the opposition. In the press, on the public platform, and in the legislature, liberals have uniformly supported all reasonable demands for an increase in the provincial subsidies. What has been been deprecated, and what will persistently be condemned, is the attempt of premier McBride to make party capital out of the question, to seek to persuade the electorate that British Columbia was not receiving the attention in this matter that the other provinces were receiving.

The question of increased subsidies to the provinces is one that must be dealt with in the interests of all the provinces. British Columbia cannot expect exceptional treatment, and fair minded men do not want it. Sir Wilfrid Laurier has promised that a conference shall be held, that the claims of the respective provinces shall be carefully considered, and that ample justice shall be done.

This conference will be held in the course of a few months and if premier McBride and his colleagues approach the subject in the right spirit and prepare their case properly there can be no doubt that British Columbia will receive generous treatment.

Premier Murray's manifesto on the subject says:

"This question, which has from time to time engaged the attention of the various provincial governments, demands consideration. The provision made at the time of confederation for the support of provincial governments may have been sufficient, but experience has shown that it did not take into account the future needs of various sections of the dominion. It is difficult to show satisfactory reasons for the limitations which were placed upon the allowances to the provinces. It cannot be questioned that as the population of the respective provinces increases and larger public expenditures become necessary, there should have been provision for a proportionate increase in the federal allowances in aid of provincial government. The reasonableness of this view has been strongly impressed upon it, and representations have been made from time to time to the federal authorities with a view to obtaining their co-operation in the seeking of such an amendment to the British North America Act as would make a fairer allowance to the provinces. In common with the governments of sister provinces, we have recently urged this matter upon the consideration of the government at Ottawa, and we have been informed that for the purpose of careful consideration of this and any other matters that may arise between the dominion and the provinces a conference of the dominion and provincial ministers will be summoned to meet at an early day. While we have been able owing to the great success of our mining policy to make generous allowances to most of our public services there are fields of useful work into which we might enter if our revenues would permit us to do so. I entertain the strongest hope that the result of that conference will be to bring about a more satisfactory settlement of the financial and other questions between the dominion and provinces, and that as a result we shall be able to carry out on a still larger scale the progressive policy which we believe the province requires. A strong expression of public opinion as to the justice of the claims of the province in the readjustment of the provincial subsidies will strengthen the government in the position it is taking on this important question."

KEEP YOUR HEAD UNCOVERED.

The Constant Wearing of a Hat Propogates Dandruff Germs.

There are many men who wear their hats practically all the time when awake, and are blessed with a heavy shock of hair; yet if the scalps of these same men once became infested with dandruff germs, the parasites would multiply all the quicker for lack of air. Baldness would ensue as the final result. Newbro's Herpicide kills these germs and stimulates unhealthy hair to abundant growth. Herpicide is a pleasant hair dressing as well as a dandruff cure and contains not an atom of injurious substance. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

P. BURNS & CO.

Nelson, B.C. and Branches.

part to "escape' responsibility for the expression of opinion that Mrs. James Anderson must have had access to the secret documents of the lands and works department before she could have been in a position to say to Mr. P. R. Brown, "Your friend (meaning Pendray) will have to put in a higher bid for those lots if he wants to get them." With this part of the story the Colonist does not deal. It ignores Mrs. Anderson's statement entirely. It does not refer in the remotest manner to the fact that Mr. R. P. Brown is ready to testify to the truth of our charge; nor does it allude to the remarkable coincidence that the second bid for the same lots topped Mr. Pendray's by just $100. Again, it makes no mention of the shameful attempt of a "band of adventurers, male and female," to hold up an enterprising manufacturer, desirous of retaining an important industry at Victoria, by making him pay $15,000 for lots not worth $2000, but which they knew he must possess for the advancement of his business. We have asked frequently and we now repeat the question, How was Mrs. Anderson placed in a position to know what the Pendray bid was? What connection was there between her statement to Mr. Brown and the lady who later sent in the $100 tender? And from whom did the conspirators, who were behind the highest tender, get their cue and know what to bid? As these questions, with many others, must soon be answered, it would be only an act of decency were our capital contemporary to refrain from further comment, as we propose to do for the present. Surely, pending an inquiry the Colonist might at least try to be good."

It will be a fortunate moment for the province when this interchange of compliments between the coast papers is put a stop to by the investigation promised by the Colonist some days ago.

Speaking at Cranbrook the other evening, premier McBride quoted the Vancouver World with evident approval. He at least believes the World to be a reliable newspaper. That being the case he should lose no time in having the grave charges preferred by that paper against the administration of the lands and works department fully investigated.

EDITORIAL NOTES

The text of the customs union convention provisionally agreed to by the representatives of the South African colonies at the Pietermaritzburg conference has been issued. Article 3 provides that a rebate of customs duties shall be granted on goods and articles, the growth, produce, or manufacture of the United Kingdom, imported thereform into the union for consumption therein. Article 4 provides that a rebate similar to that for which provision is made in the preceding article, shall be granted in like manner and under like provisions to goods and articles, the growth, produce, or manufacture of any British colony, protectorate, or possession, granting the equivalent reciprocal privileges to the colonies and territories belonging to the union, provided that no such rebate shall be granted in the case of any particular colony, protectorate, or possession until on and after a date to be mutually agreed upon and publicly notified by the parties to the convention. The introduction of prison and penitentiary made goods into the union is prohibited, so, also is the introduction of opium, except for medical purposes.

The exposures just made in connection with Chicago meat packing methods may result in the diversion of a large share of the packing business to some western Canadian firm. A representative of Armour's is reported as saying: "In the event of the failure of the Chicago packers entering the west, the time is opportune for Pat Burns, of Calgary, or the Gordon-Ironsides people to build a big general plant on the Bow river. Years will pass before the confidence in American meat products is restored and fortunes await the builders of a plant near the Canadian ranches. The British press yesterday made a demand for colonial meat. Canada has cattle and

LANDS AND WORKS "LEAKS"

Says the Colonist:

"It requires more than the insinuations of the Vancouver World to make people believe that there are "leaks" in the department of lands and works, and it is incumbent upon those who make the charges of that kind to be manly enough to offer proof. That a higher tender was submitted to the government for the lots than the one put in by Messrs. Pendray & Son is surely not evidence that some one in the government service disclosed the amount of the latter, otherwise every contract let on the basis of competition would be open to be attacked in the same way. However, we have no doubt the World will have ample opportunity given to it to prove its statements and if the editor can make his case good, we shall not hesitate in demanding that such an offense against public ethics as it would involve, should be punished, no matter whose honor is at stake."

To this the World replies:

"It is painful to witness the efforts of the Colonist to place the World in a pusillanimous position with respect to the charges that have been preferred through this paper against the lands and works department in the matter of the Pendray lots. Nothing we have written can be construed into an effort on our transportation facilities to deliver to the Occident and Orient. Better, the country has a reputation for honesty."

"MOVE TO CANADA"

Advice Given to Heroes By Leading New York Newspaper.

(Editorial from New York Mail)

Have you noticed the difference in the way they do things in Canadian athletics and the way we handle 'em here. One Billy Sherring, of Hamilton, won the Marathon race at the Olympic games in Athens. He got back home Tuesday. When he left for Greece he was brakeman on the Grand Trunk. When he returned he was made a present of an aggregate of something over five thousand dollars and a title to a house and lot. The Canadian government took judicial recognition of the importance of his feat and appropriated $500 out of the treasury. The city council of Hamilton, Ontario, did the same.

Then to top it all, the dominion government, benignant in the reflected glory of her plucky son, has appointed the racer to an inspectorship at a salary of about $750 a year.

All honor to Sherring. He deserved all he got. If you don't believe it go out and try to run 25 miles. Then recall that Sherring not only ran 25 miles, but raced the whole distance and won from the best long distance runners of the whole world—all for the glory of Canada.

Sherring won but one race. All along the route through to Montreal, and other towns he was greeted by cheering mobs, who surrounded his train much as they do the president's special in the southwest.

Today our own athletic team returned from the Olympic games, where they made almost a clean sweep of the events in which they competed. Sheridan alone won several world's championships. Yet how do we greet them? One lone Coney Island steamboat, chartered by the Irish-American Athletic club, goes down the bay and barks a hello at the conquering heroes. Saturday night the Irish club will give them a banquet at the Hotel Astor. That's about all.

As yet there is no sign that the world's premier athletic organization, the New York Athletic club, will take any notice of the team, notwithstanding they had nine men on it, the largest representation of any one club. It is too much to expect our municipality to sit up and take notice. It is too busy defending graft charges.

Therefore the peerless American athletes, as fine a body of men as ever walked forth to battle and delivered the goods, return to their native heath practically unheralded.

Moral: When about to be a hero, move to Canada.

Young Girls

Many a girl who graduates from high school or female college with a brilliant record and high standing is broken down before she is twenty.

Nowadays girls are pushed to the limit of their endurance both in school and society.

They must make a success —even if they are forever unfitted for the larger school of life and debarred from the happiness of motherhood.

Avoid The Dangers and Sufferings of Womanhood

At this time of life, when just entering upon womanhood, nature makes heavy drains upon the vitality, especially at each monthly period,

Lydia E. Pinkham's Vegetable Compound

the most wonderful of all tonic restorative medicines for women, will tide a young girl over this trying time and bring her safely into strong, noble, beautiful womanhood.

Experience of a Beautiful High School Girl

Her First Letter.

MY DEAR MRS. PINKHAM:—I write to see if you can suggest some means to cure me. A little more than a year ago I was unwell for the first time and since then I have been sick all the time in some way or other and suffered with painful and irregular periods. I went to a summer resort for my health and was doctored all summer, but to no effect. I have not been unwell for two months and thought I would see if you could do me any good. I attend High School and would not like to miss any time if it is possible. MARION BARBER, North Adams, Mass.

Miss Barber writes again after two years

MY DEAR MRS. PINKHAM:—Sometime ago I wrote to you for advice, being troubled with irregular and painful periods and female troubles. I began taking Lydia E. Pinkham's Vegetable Compound and Liver Pills and using the Sanative Wash, and I am glad to say I am completely cured and have not had any sickness since. I wish to thank you for your kind advice and shall recommend your medicine to my girl friends. MARION BARBER, 101 Bracewell Ave., North Adams Mass.

Free Advice for Young Girls

All young girls are earnestly urged to write to Mrs. Pinkham, at Lynn, Mass., for advice. Mrs. Pinkham is daughter-in-law of Lydia E. Pinkham, and for twenty-five years under her direction, and since her decease, she has been advising sick women free of charge. Thousands of women are well, strong, and beautiful to-day because they made a confidant of Mrs. Pinkham and followed her instructions at this critical time of their lives.

That's one reason why every pound of Blue Ribbon Tea has a uniform richness of flavor not found in any other kind.

You are sure to enjoy it.

BIBLE IN THE SCHOOLS

SYNOD DEALS WITH QUESTION OF RELIGIOUS INSTRUCTION

APPOINTMENT OF OFFICIALS AND CLOSE OF SESSION

The proceedings of the seventh synod of the diocese of Kootenay came to a close shortly after 5 o'clock yesterday afternoon when the lord bishop pronounced the benediction and the assembled clergy and laity departed. In closing the bishop warmly thanked the synod members for their attendance and for the courageous yet kindly and sympathetic manner in which the several debates on important matters had been carried on by all concerned. Yesterday the chief interest centered in the discussion on religious education in schools, a live question which occupied a great deal of time and which finally resulted in the passing of a strong report in the matter although definite action on one section of the report was delayed until next year.

Rev. F. H. Graham as convener of the special committee appointed last year to report on the question of religious education in the public schools presented the following report: "Your committee has held only one meeting; the rest of the work has been done by correspondence. At the meeting, held shortly after the last synod, the convener was instructed by the committee to draft a letter to be sent to all the clergy in the diocese asking them to interview the ministers of the various denominations in their respective districts and solicit their co-operation in making a strong appeal to the proper authorities urging that arrangements be made for systematic Scripture teaching in the public schools of the province. The convener drew up a letter upon these lines, and sent one copy to the bishop for his approval. Another copy was sent to the Rev. Mr. Bartlett, at that time rector of Fernie, and a member of the committee, and Mr. Bartlett was asked, during the absence of the convener from the diocese, and upon receipt of the bishop's approval, to make copies of the letter and send them to the clergy. The bishop, however, did not find it possible to give the draft letter his approval, and so Mr. Bartlett was unable to take further action. The bishop did not suggest any other method of procedure, and as he shortly afterwards left for England, where he remained all winter, your committee was not able to carry its labors any further. They beg, therefore, to report progress, and at the same time desire to express their deep sense of the importance of this matter and the necessity of action being taken by synod."

An animated debate followed in which the bishop urged that efforts should be directed to having hours set apart for the religious teaching of the children in the public schools by duly authorized qualified persons. Defective as the existing system is, his lordship said he would prefer it to the introduction of a system of Bible instruction by unqualified teachers.

The report was adopted and it was resolved to form a society for the promotion of religious teaching in public schools. In order to make a start in the matter a committee was appointed to draw up a scheme. This committee, consisting of George Johnstone, chairman; Arthur F. Venables, C. W. Busk, E. A. Crease and Rev. F. H. Graham, subsequently brought in the following report:

"The committee beg to recommend that the incumbent of every parish and mission at once form a society in his parish or mission of which the members thereof shall pledge themselves to support in elections the electoral candidate who would pledge himself to bring forward in the legislature an amendment to the School Act by which pupils shall obtain religious education; that the synod duly accredit a suitable delegate who shall attend the sessions of the several synods of the church of England in this province, the synod of the Presbyterian church and the conferences of the Methodist and Baptist denominations, and the authorities of the Roman Catholic church, to enlist their co-operation by which such religious education shall be imparted, and to formulate and prepare a suitable syllabus or lesson scheme."

This report was finally adopted and approved, after an interesting discussion, but it was decided to defer for another year the appointment of the "duly accredited delegate," referred to in the report.

A resolution was adopted on the motion of W. A. Jowett and E. A. Crease, that this synod recommends to the executive committee that the stipend of the clergy shall, as soon as possible, be fixed, in the case of missions, at not less than $900, and in the case of rectories at not less than $1200 per annum.

The election of officers and committees for the year resulted as follows:

Executive committee: Appointed by the bishop—Rev, J. A. Cleland, C. W. Busk; elected by synod—clergy, Revs. T. Green, C. A. Procunier and H. Steele; laity, George Johnstone, A. F. Venables, Fred Irvine.

Auditors: H. Bird and T. B. Baker.

Diocesan Treasurer, J. M. Lay.

Diocesan court of discipline—Revs. T. Green (convener), J. Lambert, and J. F. Armstrong, Geo. Johnstone and F. Fraser.

Committee on Canons—Archdeacon Beer, Revs. C. A. Procunier, E. P. Flewelling and H. Bird, T. Taylor and E. A. Crease (convener).

Committee on religious education—Revs. F. H. Graham (convener), C. A. Procunier, T. Green, J. A. Cleland and Geo. Johnstone, A. F. Venables, E. Elwell, T. W. Stirling, C. W. Busk and E. A. Crease.

Delegates to general synod—Rev. F. H. Graham, C. W. Busk.

Committee on depository—Archdeacon Beer (convener), Rev. F. H. Graham, and E. A. Crease, T. Morley, R. W. Hannington.

Committee on church hymnal—Revs. F. H. Graham, J. Lambert and W. A. Jowett.

Committee on bishopric endowment—Rt. Rev. bishop Dart, archdeacon Beer, J. M. Lay and E. A. Crease.

Foreign district committee, S.P.C.K.—Archdeacon Beer, Revs. C. A. Procunier and H. Steele.

Representatives to missionary society of Canadian church—Archdeacon Beer, Rev. F. H. Graham, C. W. Busk and C. A. Cook.

In the published account of the first days' proceedings of synod, the name of Arthur F. Venables, delegate from Vernon, was inadvertantly omitted from the list of delegates. Mr. Venables, who was present with his son, Rev. F. V. Venables, is the first representative sent by Vernon to the synod.

The following notice of inhibition, dated June 1st, was read at the synod:

"The Rev. Arthur de Brissac Owen, late vicar of Surrey Centre, in the diocese of New Westminster, having left the church and joined another religious body, has been inhibited by me from the performance of clerical functions within the dioceses of New Westminster and Kootenay. (Signed) John New Westminster and Kootenay."

Hearty votes of thanks were passed unanimously and with applause, to the rector and church wardens of St. Saviour's church, for kindly services rendered; to Rev. C. A. Procunier for his able and eloquent sermon at the special choral evensong service; to E. A. Crease for his valuabe services in several capacities and to the city press.

The synod then adjourned.

NOTICE

In the matter of the Companies Winding Up Act, 1898, and amendments, and
In the matter of the B. C. Standard Mining Company, Limited.

NOTICE is hereby given that the creditors of the above named company are required, on or before the 30th day of June, 1906, to send their names and addresses and the particulars of their debts or claims and the nature of the securities, if any, held by them, and the names and addresses of their solicitors, if any, to George P. Player of Nelson, B.C., liquidator of the said company, and, if so required by notice in writing from the said liquidator, are by their solicitors, to come and prove their said debts or claims at such time and place as shall be specified in such notice, or in default thereof they will be excluded from the benefit of any distribution made before such debts are proved.

Dated this 15th day of May, 1906.

R. M. MACDONALD,
Mara Block, Baker street, Nelson, B.C.,
Solicitor to the above named liquidator.

Corporation of the City of Nelson

COURT OF REVISION

NOTICE is hereby given that the first sitting of the annual Court of Revision of the municipality of the City of Nelson will be held in the Council Chamber of the City Hall, Nelson on Wednesday, the 27th day of June at 10 a.m., for the purpose of hearing complaints against the assessment for the year 1906, and for revising and correcting the assessment roll.

W. E. WASSON, City Clerk.
Nelson, B.C., May 23, 1906.

DR PRICE'S Cream Baking Powder

Greatest in leavening strength, a spoonful raises more dough, or goes further.

Working uniformly and perfectly, it makes the bread and cake always light and beautiful, and there is never caused a waste of good flour, sugar, butter and eggs.

With finer food and a saving of money comes the saving of the health of the family, and that is the greatest economy of all.

PRICE BAKING POWDER CO. CHICAGO.

NOTE.—Many mixtures made in imitation of baking powders are upon the market. They are sold cheap, but are dear at any price, because they contain alum, a corrosive poison.

ATTACKS UPON SIFTON

TEN YEARS OF FRUITLESS EFFORTS TO DISCREDIT HIM

HIS SPLENDID WORK FOR THE WEST SPEAKS FOR ITSELF

(Winnipeg Free Press)

For nearly ten years the political enemies of Clifford Sifton have been trailing him with Indian-like persistency and malignity; and at not infrequent intervals they have set upon him with shrill war *whoops*, determined to make an end of him. Their ten years' campaign has brought them no results. Mr. Sifton is still a great political force in the community; and every attempt to besmirch *his character by the imputation* of political wrongdoing has met with complete failure. Of the thousand and one stories against him, set afloat by his pursuers not one has been shown to have *a colorable imitation of the truth*; and the public now very justly give his foes the alternative of establishing some sort of a case against him or being placed in the unenviable position of common slanderers.

The current session of the dominion parliament was evidently planned by the opposition to be a grand assault upon Mr. Sifton. Behind the attacks there must have been deep resentment arising from the encounters of the past, because Mr. Sifton is no longer a member of the government; and had every insinuation preferred against him been proved the government could have escaped a large measure of the responsibility by a simple repudiation. Even though Mr. Sifton is out of the administration and has shown no intention of resuming his former political activity, the opposition evidently considered that it would be time well spent if they could destroy his reputation.

They have been working assiduously on this job for the past two months or more, with what measure of success can be inferred from Mr. Foster's chastened demeanor. The great lode which they imagined they had struck in the North Atlantic Trading company, has pinched out. There is not a person who has followed the discussion and the investigations who has even the slightest suspicion that Mr. Sifton had any relationship whatever to this company. It is to be noted that his very emphatic challenge to Mr. Foster has not been taken up. As for the Saskatchewan Valley Land company, it requires no defence; its explanation is its justification. More than any other individual act by Mr. Sifton during his tenure of office as minister of the interior, this arrangement tended to the settlement of the west.

The latest line of attack upon Mr. Sifton is that Mr. Burrows, M.P., his brother-in-law, has during the past ten years received leases of timber land from the department of the interior. That Mr. Burrows got them is true. He had to get them or go out of the business of lumbering in which he has been engaged all his life. The point is, did Mr. Burrows, because he was a brother-in-law of the minister, get more favorable treatment than he would have got had his name been John Smith, and his politics ultra conservative The answer is, No. The policy of the present government, which has never been varied, has been to dispose of the timber lands only by public competition after due advertising. This is in strong contrast with the policy followed for years by the conservative government of making these timber limits a present to their friends. The conservatives disposed of the rights of cutting timber over an area of 29,500 square miles receiving on an average only $4 per acre; while the liberals during the first eight years of office received an average of $64 an acre, with prices steadily rising as, of course, they should. Mr. Burrows got timber rights from the conservatives for nothing; and any he has obtained from the present government he got by public competition paying more for the cutting rights than any other lumberman offered. No just criticism can be applied to him, to the minister of the interior, nor to the policy of the department.

The net result of the concerted plans of the opposition to discredit the work of the department of the interior under liberal management has been to draw public attention to that work. The liberals can well afford to have it so; for though doubtless many minor mistakes were made, the general policy of the department has operated to the incalculable advantage of Canada. Plenty of strong tongued men in easy circumstances in the west, who spend their spare time in damning the liberals and Clifford Sifton in particular, are indebted to the policy they denounce and the public men they hate for every dollar they have got. The public at large, are not, however, so ungenerous; and they have on various times and *occasions* displayed their appreciation of the labors of Mr. Sifton and his colleagues who backed up his efforts. Their verdict will be repeated in the future if the conservatives are unwise *enough to force the fighting* on that issue.

RAINMAKER'S CONTRACT

TEXT OF AGREEMENT MADE WITH HATFIELD BY YUKON COUNCIL

IF SUFFICIENT RAIN PRODUCED HE WAS TO RECEIVE $10,000

The contract that was made in the Yukon with Charles M. Hatfield, the California rain maker, to increase the rainfall in the goldfields this summer, is in the following terms:

"And whereas, Mr. Hatfield has undertaken and agreed to increase the rainfall in such part or parts of the Yukon territory as may be indicated to him by the board hereinafter provided for, to an amount sufficient to insure, so far as rainfall will, a successful and prosperous summer for the placer mining industry of the Dawson district, to the satisfaction of the said board, on the following terms, that is to say: That he be furnished free of charge, transportation for himself and one assistant, and for said appliances from Los Angeles, Cal., to the part or parts of the Yukon territory so selected and from here back to Los Angeles, and living expenses for himself and assistant during their stay in the Yukon territory for the purpose of so increasing the rainfall. That if successful in increasing the rainfall in the Yukon territory in such part or parts thereof as aforesaid, and renewing such increase from time to time for a period not exceeding four months, as may be named by the said board, that he be paid in lawful money of the dominion of Canada the sum of ten thousand ($10,000) dollars less the cost of such transportation and living expenses.

"And whereas it is expected that the commissioner in council of the Yukon territory will vote the sum of $500 to be paid to the said party of the first part, if successful, to the satisfaction of the said board or a majority thereof, in increasing the said rainfall.

"And whereas the said sum of $5000 is to be collected by subscription, for the purpose of paying or of providing for the payment of the balance of the said sum of ten thousand dollars."

In consideration of one dollar the parties to the contract agree to abide by the provisions. The board referred to might be selected as follows: Three by the commissioner of the Yukon territory; three by the party of the first part; and one umpire to be selected by the six selected as aforesaid, and by the commissioner of the Yukon territory if said six within five days after appointment of the last of the six, fail to select one as an umpire. The boards decision was to be considered as final, and if, in its opinion Hatfield did not succeed in increasing the rainfall he promised, he was to get no pay.

The agreement was signed by Hatfield on the one side and by the following on the other side:

Norwood Water company, per H. H. Norwood, manager, $1000.

Anglo-Klondike Co., by George T. Coffey, manager, $1000.

O. R. Brenner, $500.

J. F. Burke, $500.

Canadian Klondike Mining Co., Ltd., per Geo. Hargreave, G.M., $500.

The White Channel Gold Hill Hydraulic, Ed. Simpson, manager, $500.

Bonanza Creek Gold Mining Co., Ltd., per. E. Weinham, manager, $500.

Max T. Keller, witness.

A. J. Beaudette, $200; J. N. Redmond, Frank, Redmond, witnesses.

W. F. M. RESOLUTIONS

Imprisonment of Head Officials and the Trouble at Cananea, Mexico

Denver, June 7—The convention of the Western Federation of Miners has adopted resolutions bearing on the imprisonment of their head officers in Idaho, and also the trouble at Cananea, Mexico. The former read as follows:

Whereas, The trial of Messrs. Moyer, Haywood and Pettibone has been postponed until December next, and

Whereas, The prosecution of the state of Idaho has had the trial postponed to find out whether they can legally hold the prisoners after having kidnapped them, and

Whereas, This body of delegates to the fourteenth annual convention have every confidence in the inocence of our officers; therefore be it

Resolved, That we, in convention assembled, condemn this high handed and damnable conspiracy on the part of governors Gooding and McDonald and the Mine Owners' association and demand that either the prisoners have a trial immediately, or be released on bonds. Be it further

Resolved, That a copy of these resolutions be wired to president Roosevelt and senator Patterson at Washington.

The resolutions on the Cananea trouble *follow:*

Whereas, The telegraphic despatches herald the fact that the Mexicans in the mines of Cananea, Mexico, ask for an increase in wages, and through these attempts for better conditions violence is now rampant in Mexico, and

Whereas, The Western Federation of Miners recognizes the class struggle throughout the world, and knows no race or creed in the battle for industrial freedom, therefore be it

Resolved, That while we deplore the loss of life and property, the Western Federation of Miners, in convention assembled, send greetings to the Mexicans, trusting that their efforts for a higher standard of living be crowned with success.

Keep Minard's Liniment in the House

THE VERY BEST REMEDY FOR BOWEL TROUBLE

Mr. M. F. Borroughs, an old and well known resident of Bluffton, Ind., says; "I regard Chamberlain's Colic, Cholera and Diarrhoea Remedy as the very best remedy for bowel troubles. I make this statement after having used the remedy in my family for several years. I am never without it." This remedy is almost sure to be needed before the summer is over. Why not buy it now and be prepared for such an emergency. For sale by all druggists and dealers.

JEWISH COMMUNAL COLONY

Fifty Families From England to Settle in Southern Alberta

Winnipeg, June 7—A unique communal colony is to be formed in western Canada in the near future by a number of Jewish farmers. A number of those who are organizing the colony are now touring Alberta for the purpose of selecting a suitable site. They have at present a location in southern Alberta and will probably settle there. The colony will be started by 50 families, the majority of whom are English. Many of them went to South Africa to farm but found the climate and general conditions there not suitable for communal farming and they were induced to try Canada. They have been favorably impressed with conditions in the west and have decided to locate there, the only question now unsettled being the site. Application has already been made for 73 square miles of land in southern Alberta and if this is granted in a suitable locality the 50 families will at once leave *England* for the western prairies.

Ask for Minard's and take no other

UNKNOWN FRIENDS

There are many people who have used Chamberlain's Colic, Cholera and Diarrhoea Remedy with splendid results, but who are *unknown because they have* hesitated to give a testimonial of their experience for publication. These people, however, are none the less friends of the remedy. They have done much toward making it a household word by their personal recommendations to friends and neighbors. It is a good medicine to have in the house and is widely known for its cures of diarrhoea and all forms of bowel trouble. For sale by all druggists and dealers.

LUSITANIA LAUNCHED

Glasgow, June 7—The new Cunard turbine steamer Lusitania, the world's largest liner, was successfully launched on the Clyde today, and was christened by dowager lady Inverclyde. The Lusitania is the first of the giant Cunarders to be launched. He sister, the Muritania,, will follow her into the sea in a month.

Notice is hereby given that the firm of McGregor & Towner, dairymen, has this day been dissolved, and persons indebted to said firm are required to make payment to A. C. Towner.

The business of the Pioneer Dairy will hereafter be conducted by the firm of Towner & Moore.

Dated June 1st, 1906.

E. J. McGREGOR.
A. C. TOWNER.

WANTS JEROME REMOVED

CHARGES PREFERRED AGAINST NEW YORK DISTRICT ATTORNEY

ACCUSED OF FAILING TO PROSECUTE CERTAIN TRACTION INTERESTS

New York, June 7—The removal of William Travers Jerome from the office of district attorney of New York, is demanded of governor Higgins in a complaint which has been filed by William H. Amory of New York.

Frank E. Perley, secretary to the governor, admitted tonight that such a complaint had been filed but he would say nothing as to the nature of the charges made against Jerome.

While nothing definite can be learned here as to the nature of the charges made by Mr. Amory, it is assumed that the complaint is the one which was threatened by a legislative committee last winter and based upon the charges he then made against Mr. Jerome of negligence in failing to prosecute persons implicated by Mr. Amory in his allegations against certain Metropolitan Traction interests. Governor Higgins is in Olean and expects to make a western business trip before his return to New York. He may not be here before June 15 and probably will not see the Amory charges before that time.

FAIR DIRECTORS MEET

Capitulate to Demand of Kirmess Managers—Arranging for Exhibition

A well attended monthly meeting of the directors of the agricultural society was held in the city hall last evening. There were present: J. J. Malone, president, in the chair; Capt. McMorris, secretary, T. Morley, A. B. Shannon, C. G. Broadwood, J. A. Irving, J. Hyslop, S. M. Brydges, J. McPhee and M. S. Parry.

Sundry small accounts aggregating $56.05, were referred to the finance committee, with instructions to pay them, if correct.

The secretary announced that the prize list was now well under way and would be ready for distribution in about ten days.

At the suggestion of alderman Irving the question of putting up permanent electric light decorations along Baker street, to be used for Dominion day celebrations and for all other festive occasions, including fair week, was left in the hands of the chairman of the decoration committee, T. Morley, J. A. Irving and J. McPhee to confer with the city council and the Dominion day celebration committee. The idea is to have these street lighting decorations put up for the season and turned on every Saturday night during the summer, the lights, etc., to be purchased outright and the cost to be apportioned upon shares to be subsequently decided on.

Fred Starkey explained that the directors were going to a good deal of expense in improving the grounds. Between $700 and $800 will be expended before the fair starts.

Some amusement was caused by Mr. Starkey's statement that the ladies in charge of Kirmess wanted to borrow the decorations of the main building for the entertainment this month. The directors finally capitulated and Mr. Morley, as chairman of the decoration committee, will allow the ladies to have the decorations asked for, upon the strict condition that they are taken good care of and taken down after the performance and returned in good shape. Mr. Morley accepted the responsibility with a mild protest and the ladies will have their way—as they generally do.

After some discussion it was decided that so far as the agricultural society is concerned there will be no flower show this year on Dominion day for the cogent reason that there will be no flowers in bloom at that date.

The 20,000 club will be allotted space for a booth during the fair, at Mr. Parry's request.

On Mr. Starkey's motion it was decided to have a masked carnival on the evening of the last day of the fair. Costumers will be asked to bring costumes here that can be rented out.

The exclusive privilege of selling refreshments on the grounds during fair time will be let by tender, the same to be duly advertised for and to go to the highest bidder, who is to be acceptable to the fair management.

The secretary announced that he had received an invitation from the secretary of the provincial exhibition, asking that the Nelson fair send entries to the Provincial show at New Westminster, at the expense of the Provincial society. He had accepted the invitation on behalf of the association. The secretary's action was endorsed.

Melville Parry was assured that the dog show at the fair this year would receive every encouragement.

The meeting then adjourned until next month.

RAILWAY CARMEN IN SESSION

Annual Convention of Brotherhood Now in Progress at Vancouver

For the first time the annual convention of the B.R.C. is being held west of Manitoba, this year's convention being now in progress at Vancouver.

The delegates present are Wm. Hannah, Vancouver; James Richardson, Nelson; H. Donnan, Eholt; A. Shankland, Cranbrook; Geo. Nicholson, Calgary; C. Wannop, Medicine Hat; C. Clarke, Moose Jaw; H. Deane, Brandon; James Hillis, Winnipeg; Wm. Neil, Kenora; E. Grey, Fort William; E. C. A. Ealey, North Bay; Thomas Broad, Ottawa; James Phillips, Carleton Junction; David Scott, Windsor; James White, Toronto; A. Chartrand, Montreal; J. Malloy, Farnham, and Dow Boome, Macadam Junction.

The brotherhood is international with headquarters at Kansas City and a total membership of forty thousand. It includes practically all the employees of the car department of the various railways. Since 1900, the date of its working agreement with the C.P.R. the organization has been a benefit both to its members and the company, which has always aided the well meant efforts of this, as well as the other branches of its employees. One of the chief objects of the brotherhood is to raise the character and increase the efficiency of the carmen by mutual interchange of ideas upon the best and most economic methods of labor.

CHILDREN IN COMIC OPERA

On Monday, June 11 the Pollard Lilliputian Opera company will begin an engagement at Serman's opera house. The Pollards are world famous and composed entirely of exceptionally talented juveniles, whose performances are perfect in every detail. The children, whose ages range between nine and fourteen, carry themselves and portray the characters in their extensive repertoire of comic operas and musical comedies, with all the aplomb of veterans of the stage. They are chosen for their particular line of work from among the hundreds of juveniles who apply at the Pollard Operatic School, Melbourne, Australia, and the chosen ones are carefully trained and educated for professional work. Charles A Pollard, who directs and controls this unique organization and who is the founder, is wonderfully gifted in developing the talents of children enclined along the operatic and stage lines. Mr. Pollard is credited with having brought out Melba, the great diva.

GANZINI'S EXPERIENCE

Wanted to Obtain Admission to Hospital by Force and is Fined Instead

(Special to The Daily News)

Cranbrook, June 7—Joseph Ganzini arrived two months ago in B.C., found work at once, got an attack of rheumatism, took his cheque and applied for admission to the St. Eugene hospital here while violently intoxicated. True it is that Ganzini had a ticket for admission, but it appeared, quite rightly, to the attendant that the ticket did not cover the case in its entirety. He requested that Ganzini present himself when sober, a course which Ganzini resented. He retired and returned armed with rocks and sought to thrust himself vi et armis, into the establishment armed as stated, and loaded with a fearful jag. Constable Morris was sent for and the end of the matter, at that stage, was that Ganzini found free lodging in the city jail for the night.

This morning he came up before police magistrate Henderson who fined him $15 of the currency of Canada. By the direction of the chief of police, R. F. Barron, the court interpreter, Odelli, explained to Ganzini, who found a friend to pay his fine, that in this country he cannot seek redress of his wrongs with knife, revolver, clubs, "nella del petra," which means, "with a rock."

"And this is a free country," commented Ganzini, in Italian.

"Bet your life sized enlargement it is," answered Odelli, "and if you don't take what you get of it, you'll find less." Good advice.

While Ganzini was on trial some noise in the inside of the jail attracted attention. It turned out to be a fellow named Otto E. F. Keohn, who was taken from the Royal hotel suffering from insanity yesterday, was trying to get away from some imaginary enemies, by hiding under his bunk. The man has been confined in various places for mental defects and is, it would appear, a hopeless lunatic.

ROJESTVENSKY TO BE TRIED

Russian Admiral Must Answer to Charges of Cowardice

St. Petersburg, June 7—The naval court of enquiry has presented an indictment against vice-admiral Rojestvensky, who commanded the Russian fleet at the battle of the Sea of Japan, and the officers of the torpedo boat destroyer who surrendered to the enemy after the battle. The indictment is a crushing arraignment of the demoralisation and cowardice of the officers, contrasting their conduct with that of the officers of the torpedo boat Gronzy, which in practically the same position as the Bedovi, engaged and sank a Japanese torpedo boat. The trial of the indicted officers has been fixed for July 4. The penalty is death.

WARNING TO PASSENGERS

New York, June 7—A formal warning to passengers to beware of professional gamblers on ship board, was published in the passenger list of the White Star liner Majestic, which arrived here today from Liverpool and Queenstown.

The warning reads as follows: "The attention of the managers has been called to the fact that certain persons, believed to be professional gamblers are in the habit of travelling to and fro on Atlantic steamships. In bringing this to the attention of travellers, the managers, while not wishing in the slightest degree, to interfere with the freedom of action of the patrons of the White Star line, desire to invite their assistance in discouraging games of chance, as being likely to afford these individuals special opportunities for taking unfair advantage of others.

WILL TRY IT ON HUMAN BEINGS

Chicago, June 7—Dr. Alexis Carrel and Dr. C. C. Guthrie, who have for more than a year conducted a series of important experiments at the Hull physiological laboratory, connected with the university of Chicago, believe that these experiments have demonstrated the possibility of substituting veins for arteries, and changing the whole circulation of the human body. Diseases that have hitherto been incurable and others that have in general been fatal in a large majority of cases, it is believed, may be cured by the reversal of the circulation of the blood. The experiments have, so far, been conducted on dogs, but they have now reached a stage where it is thought that the same tests may be safely tried on human beings. The discoverers of this new method are confident of success and believe that it will revolutionize surgery.

AUSTRALIAN PARLIAMENT OPENS

Melbourne, June 7—Lord Northcote, the governor general of Australia, in his speech at the opening of the federal parliament today, announced the immediate submission of a bill for the "preservation of the Australian industries and repression of destructive monopolies."

The governor general also stated that negotiations of the Australian government for new preferential trade treaties with South Africa, New Zealand and other quarters of the empire were far advanced.

WILL TRY FOR DIAMOND SCULLS

Philadelphia, June 7—W. B. West of the Undine barge club of this city, sails for England tomorrow to take part in the competition for the Diamond Sculls at the English Henley regatta. He is accompanied by Carson, his trainer, who will assist him with his advice.

SIR EDWARD CLARKE RESIGNS

London, June 7—Sir Edward Clarke, former solicitor general and one of the conservative members of parliament for the city of London, today resigned his seat as the result of the action of the city of London conservative association on May 30, inviting him to resign because of his attitude on tariff reform.

EARNINGS OF THE C.P.R.

OUTLOOK FOR FUTURE DISCUSSED BY WALL STREET JOURNAL

PROBABLE EFFECT OF INCREASED COMPETITION IN WEST

The Wall Street Journal publishes an interesting article on the Canadian Pacific, which read as follows:

It will be noticed that Canadian Pacific gross earnings for ten months ending April 30, are a little heavier than for the full year 1905, and are more than $4,000,000 ahead of the full year 1903. The net earnings for ten months are $3,400,000 heavier than for the full year 1905, and over $4,600,000 heavier than the full year 1904.

This growth of the Canadian Pacific seems to be an entirely healthy, if extraordinary, development. Throughout the year 1906 the company was operating close upon 10,000 miles of railroad, and earning in gross from $6100 to $6500 per mile. In 1905 the average operated mileage was 8568, and average earnings were $5892. In 1901, when the gross earnings were just half of what they will be this year, the average mileage was 7563, and the gross earings were at the rate of about $4000 per mile.

The growth of the Canadian Pacific appears therefore, to be of a two fold nature; first through the building of new lines throughout the Canadian northwest, and, second, through the development and expansion of commercial agricultural and manufacturing life along the lines already in existence.

To meet this growth this system has been obliged to spend an immense amount of money. In the five-year period, about $48,000,000 has been expended on equipment, workshops, reduction of grades, terminals, sidings etc. There is every probability that in the next five years at least an equal sum will be required. The largest part of this money is raised by the sale of stock and bonds and there is every probability that this policy will continue.

Canadian Pacific stockholders have been liberally dealt with. Their dividends and "rights" in the past five years have averaged over 10 per cent per annum on the stock. In spite of this liberality, or perhaps because of it the company is able to report at the end of the five year period that the gross and net earning capacity had been doubled in that period; and that even on the increased amount of capital outstanding earnings are sufficient to show a surplus of over 12 per cent.

It would be fatuous to conclude that the Canadian Pacific could keep on expanding its revenues at this rate. The expansion is the result of a marvellous economic development in the Canadian northwest, which might not be duplicated in that territory within the next hundred years. Moreover, this very prosperity and growth have already brought competition. Within the next five years, the Great Northern, Grand Trunk Pacific, Canadian Northern and Canadian Pacific will all be gathering traffic from the agricultural empire hitherto exclusively the domain of the Canadian Pacific.

Neither is it reasonable to suppose that this company can much further increase its common stock, without deteriorating the value of the outstanding shares. The stock holders have always been willing subscribers to new stock at par, and have freely endorsed the policy of the directors in issuing the stock. There must be a limit somewhere, and in all probability the present authorized issue of $150,000,000 will remain the limit, at least until such time as it is necessary to indefinitely expand the mileage.

ENDORSE PROPOSED UNION.

Memorial of Montreal Methodist Conference on the Subject.

Smiths Falls, Ont., June 7.—The Montreal Methodist conference today adopted the following memorial:

"That having read the outline of the conditions of the proposed organized union of Presbyterian, Congregational and Methodist churches, this conference, without endorsing every detail of the conditions, desires to transmit to the general conference its conviction that such conditions will conserve all that is essential to the mission of Methodism and will also tend to the enrichment of spiritual life in our community by fuller fellowship with Christians having other view points and traditions.'

SALE OF GRIFFIN BUSINESS

Deal Confirmed by J. Y. Griffin, President of the Company.

The Daily News announced through a Winnipeg despatch the other day the purchase of the J. Y. Griffin & Co., packing business by a big American firm. The Free Press just to hand gives the following particulars of the transaction:

A reporter of the Free Press called upon J. Y. Griffin, president of the company yesterday, and in reply to his enquiry, Mr. Griffin stated that the report of the sale was quite correct. "Mr. F. M. Griffin, of St. Thomas, Ont., and myself who were sole owners of the business, have sold our entire interests in J. Y. Griffin & Co., limited, not only at Winnipeg, but at all our branch houses taken over a few days ago."

"Do you continue in the management of the business for the present owners?"

"No, I do not. My agreement with the buyers to remain with them for one year expired May 31, and I have requested them to accept my resignation as president."

"Who will fill the position you occupied for so many years?"

"C. M. Aldrich, who has been in the employ of the company for the past year, will be appointed president and general manager."

"Then you will have no further connection with J. Y. Griffin & Co., limited?"

"None whatever."

"Would you mind giving the names of the buyers?"

"For the present there will be no change in the name of the company," said Mr. Griffin. "In stock companies it is very often difficult to know who the real owners are. Such being the case, I think it better not to disclose the names of the parties to whom we transferred our stock."

"Are the parties to whom you sold packing-house people?"

"Yes, they are one of the largest corporations in the United States. Very strong financially and very progressive people."

"You think then as the business requires development and extension that the present company will keep to the front?"

"I am safe in saying that the business will be extended as fast as required at Winnipeg, Calgary, Nelson, Vancouver and Fort William, and new branches will be opened at western points as fast as required."

HOW TO BREAK UP A COLD

It may be a surprise to many to learn that a severe cold can be completely broken up in one or two days' time. The first symptoms of a cold are a dry, loud cough, a profuse watery discharge from the nose, and a thin white coating on the tongue. When Chamberlain's Cough Remedy is taken every hour on the first appearance of these symptoms, it counteracts the effect of the cold and restores the system to a healthy condition within a day or two. For sale by all druggists and dealers.

The cheapest thing is not always that which is lowest in price, but is that which gives the best satisfaction. Canada Drug & Book Co.

Thorpe's Ginger Ale makes happy homes.

Sunlight Soap is better than other soaps, but is best when used in the Sunlight way. Buy Sunlight Soap and follow directions.

MARRIED

DUTTON-CHRISTIE — At St. Saviour's church, Tuesday, June 5, Edward James Dutton of Medicine Hat, Alberta, to Lydia Reynolds Christie, sister of Mrs. J. A. Cryderman and Mrs. J. E. Annable of this city, by the rector, Rev. F. H. Graham.

DIED

O'DRISCOLL—At Kootenay Lake general hospital, Thursday afternoon, June 7, G. R. G. O'Driscoll, elder son of late Rev. G. A. O'Driscoll, some time incumbent of Coonneen Co., Fermanagh, Ireland.

The funeral will take place from St. Saviour's church at 2 o'clock on Saturday afternoon, June 9.

LAND NOTICES

NOTICE is hereby given that 60 days after date I intend to apply to the Hon. the Chief Commissioner of Lands and Works for permission to purchase the following described lands in West Kootenay District, east shore of Upper Arrow Lake, Commencing at a post marked "J. D. Coplan's S.W. corner," at the N.W. corner of L 863 and about 1 1-2 miles north of Nakusp, thence east 80 chains, more or less; thence north 80 chains, more or less; thence west 80 chains, more or less to the lake shore; thence in a general southerly direction along the lake shore 80 chains, more or less to point of commencement, containing 640 acres, more or less.

Dated this 22nd day of May, 1906.

J. D. COPLAN,
RALPH SLYE, AGENT.

NOTICE is hereby given that 60 days after date I intend to apply to the Hon. the Chief Commissioner of Lands and Works for permission to purchase the following described lands in West Kootenay District, west side of Upper Arrow Lake, about opposite Nakusp: Commencing at a post marked "William Maxwell's N.W. corner," thence south 60 chains; thence east 20 chains; thence south 40 chains; thence east 20 chains; thence south 40 chains; thence east 80 chains; thence south 20 chains; thence east 60 chains, more or less to the shore of Arrow lake, thence following said shore in a general northerly and westerly direction 160 chains more or less to point of commencement; 640 acres more or less.

May 29, 1906.

WM. MAXWELL,

Dated this 23rd day of April, 1906.

M. M. WINTER.

Sixty days from date I intend to apply to the Hon. the Chief Commissioner of Lands and Works for permission to purchase the following described lands: Starting from W. B. Pollard's S.W. corner post, situate on the north side of lot No. 1078, on the north side of the West Arm of Kootenay lake, about two miles from Procter, thence 20 chains east more or less to the N.E. post of L. 1078, thence 20 chains more or less to N. Clerk's S.W. post, thence north 80 chains more or less, thence west 20 chains more or less, thence south 80 chains more or less, thence south 20 chains more or less to point of commencement.

Dated this 31st day of March, 1906.

W. B. POLLARD.
J. E. TAYLOR, Agent.

Sixty days after date I intend to apply to the Chief Commissioner of Lands and Works, Victoria, to purchase 160 acres of land, commencing at a post planted on the south shore of Lower Arrow lake, marked "J.A.C., N.E. corner," at the west boundary of lot 4599 and running south 40 chains, more or less, to Columbia & Western railway; thence west along said railway 40 chains; thence north 40 chains more or less to the lake shore; thence east along the lake shore to place of beginning.

April 26, 1906.

J. A. CRYDERMAN.
J. E. ANNABLE, Agent.

NOTICE is hereby given that 60 days after date I intend to apply to the Hon. the Chief Commissioner of Lands and Works at Victoria, for permission to purchase the following described lands, situate in West Kootenay district, commencing at a post marked by name "Gerald Rees N.E. corner post," at northwest corner of the purchase claim staked by E. A. Boyd and F. J. Sammons, thence 20 chains west along the C.P.R. right of way; thence 10 chains south; thence 20 chains east; thence 10 chains north to post of commencement, containing 20 acres, more or less.

GERALD S. REES.

Nelson, April 24, 1906.

NOTICE is hereby given that 60 days from date I intend to apply to the honorable the Chief Commissioner of Lands and Works for permission to purchase the following described lands situate in West Kootenay district: Commencing at a post planted at the southwest corner of Lot 4024, marked "C.V.D.'s N.W. corner post," thence 80 chains east, thence 40 chains south, thence 80 chains west, thence 40 chains north to place of commencement, containing 320 acres, more or less.

C. V. DAKE.

June 5, 1906.

NOTICE is hereby given that 60 days from date the undersigned intends to apply to the honorable the Chief Commissioner of Lands and Works for permission to purchase the following described lands. On the West Arm of Kootenay lake, starting from location post west 35 chains, running along J. Harris' north survey line, north 40 chains more or less, thence east 35 chains, then south to point of commencement.

Dated this 21st day of March, 1906.

JOHN E. TAYLOR, Locator
M. R. McQUARRIE, Agent.

NOTICE is hereby given that sixty days after date I intend to apply to the Chief Commissioner of Lands and Works at Victoria for permission to purchase the following described lands in West Kootenay: Commencing at a post marked "V. Dynes, northwest corner," about six miles west of Columbia river, and three miles south of Mosquito creek, thence south 80 chains; thence east 80 chains; thence north 80 chains; thence west 80 chains to the place of commencement, containing 640 acres, being the same more or less.

V. DYNES

Dated at Nelson, B.C., May 22, 1906.

NOTICE is hereby given that sixty days after date I intend to apply to the Chief Commissioner of Lands and Works at Victoria to purchase 80 acres of land commencing at a post planted on the east bank of the lower Arrow lake, at a point known as Rock Slide, and marked "J.B.A. S.W. corner," running south 40 chains; thence east 20 chains; thence north 40 chains; thence west 20 chains to place of commencement.

NELSON'S NEWS OF THE DAY

Mrs. Gerald Neave left for England yesterday morning.

Before judge Forin in chambers yesterday A. M. Johnson obtained an order for payment out of money in court in Hicks vs. Salmons.

It has been officially announced that the next county court sittings at Kaslo will be held on June 26th and not on the 12th instant as previously arranged.

This evening at 7:45 sharp there will be a practice in the exhibition hall of the grand march for Kirmess and all who are to take part in the march are particularly requested to be promptly on hand.

Lord Aylmer, inspector general of the Canadian militia, is expected to arrive in this city on the 14th instant. He will inspect the local company of Rocky Mountain Rangers. On the 16th he will visit Rossland.

The secretary of the 20,000 club will be obliged if any one desiring to send away the club's folder and other descriptive literature will send in the necessary names and addresses. The secretary will address, stamp and post the publications.

The annual meeting of the provincial association of licensed victuallers takes place in this city this afternoon. Several members arrived in town last night from interior and coast points. The meeting will probably be held in the board of trade rooms, commencing at 3 o'clock.

The finance committee of the Dominion day celebration committee will report progress at the adjourned public meeting to be held this evening in the city hall at 8:30. A full attendance of all those interested in the celebration of July 2 and 3, is requested.

The appeal of the defendant Giegerich in Newswander vs. Giegerich, a case tried here in February last, was argued before the full court at Victoria on Wednesday, and judgment was reserved. S. S. Taylor, K.C., appeared for the appellant and E. P. Davis, K.C., for the respondent.

Two writs were issued yesterday for wrongful dismissal. In one J. J. C. Fernau claims $1234 for balance of salary, expenses paid out, and balance due on the books and unstated damages, from the Canadian Metal company, whose general manager the plaintiff was up until a recent date. In the other case Charles St. Barbe asks for $100 from the Nelson board of trade, claiming that his services last year as special correspondent for that body were dispensed with abruptly and without due notice. A. M. Johnson is acting for both plaintiffs.

At the regular monthly meeting of the Sons of England held last evening at 8 o'clock in the Knights of Pythias hall, there were six initiations in the Red Rose degree. After the regular session of the lodge there was a pleasant social held of the members present.

The Kuskanook was out yesterday for another run. The new steamer met the Kokanee at 9-Mile and turning back had a trial of speed with her. "It just looked as if the Kokanee was moored to her dock," said an old navigator who was on the new boat. "She seemed to stand still while the Kuskanook passed on."

Rancher C. G. Broadwood said yesterday that the success of the local strawberry crop depended largely upon fine weather for the next week. There has been too much rain and cold weather to date and there is a danger of much of the fruit rotting unless fine weather comes along now.

Six certificates of work were issued and one claim was recorded at the mining recorder's office on June 7. Joseph Sturgeon recorded the First Chance claim between Horse and Bear creeks. Certificates of work were issued to Francis Holland on the Good Hope; to Frank Seaman on the Royston and to Joseph Sturgeon on the Giant, Gigantic, Chahalis and First Chance.

The lecture by Austin Lewis last evening on the San Francisco earthquake and fire attracted a large audience to Fraternity hall. Those who had the good fortune to hear the lecture were thoroughly repaid. Mr. Lewis is an earnest, impressive speaker, and his account of the disaster, of which he spoke as an eyewitness, and the morals he drew therefrom, held the wrapt attention of every one present. Mr. Lewis confirmed the rumor that the loss of life by the earthquake and subsequent fire was greatly in excess of the official returns. He said that he was prepared to accept as correct even as high an estimate as 10,000.
