BIG MERGER COMPLETED

Long List of Copper Mines Now Consolidated at Phoenix

Area Involved Comprsies Over 200 Acres and Includes Valuable Mineral Territory—Details of Deal

(Special to The Daily News)

Phoenix, Aug. 24.—A short time since announcement was made that a consolidation of several important mining claims in this camp would be made, including the War Eagle group, the new corporation to be called the Phoenix Amalgamated Copper Mines, Ltd. Information has now been received here that the consolidation has been carried into effect and takes in the War Eagle, Red Rock, Lulu, Bald Eagle, Dandy Fraction, Missing Link No. 2, Pinhook and World's Fair Fraction, contiguous claims, that immediately adjoin the Granby Consolidated group on the south. The area of the properties is 210.30 acres, and comprises mineral territory that is favorably thought of by many who are familiar with the ground.

The Phoenix Amlagamated Copper Mines, Ltd., has been incorporated under the laws of British Columbia, with a capital of $5,000,000, having 500,000 shares of $10 par value each. Of this number 200,000 shares have been placed in the treasury of the company, the executive office of which is at Sherbrooke, Que., and the mine office at Phoenix.

The first board of directors of the new company is as follows: N. P. Buck, C. H. Fletcher and C. A. French, of Sherbrooke, Quebec; George Vandyke, Boston; H. P. Buck, New York; W. J. C. Wakefid, Spokane, Wash.; George R. Naden, Greenwood; Charles Riordan, St. Catherines, Ont.; R. Bence Jones, Lisselan, Clonakilty, Ireland. The officers are F. P. Buck, president; C. H. Fletcher, vice-president; A. F. Fraser, secretary.

The work done so far is largely on the War Eagle, one of the original locations of this camp, which mine has a good machinery plant and mine buildings, used when the property was being operated several years ago. It has a working shaft 100 feet deep, with considerable drifting at this level. The location of the War Eagle is said to cover the Old Ironsides and Knob Hill veins, and what is supposed to be the Victoria vein, Granby properties. The outcrops on the surface are large, and in appearance identical with the Granby outcrops. The values are low like others in this camp, yielding from one-half to three per cent copper, and from $1 to $4 in gold per ton. In the workings of the property, in the raise from the 100 foot east crosscut, some of the best values were encountered, assays giving $21 in copper and $1 in gold per ton. Less work has been done on the Red Rock, Lulu and Bald Eagle than on the War Eagle, but the veins are strong and the claims, together with others of the group are considered of great potential value, having a continuance of the large veins of the War Eagle, common to this camp.

The properties of the company are well situated for economic mining by the quarrying system, while tunnels and shafts will also be used. Either of the two railways, it is stated, are ready to build spurs to the property, when shipments are ready.

F. P. Buck, president of the Phoenix Amalgamated, has been interested in this camp for many years. He was one of the organizers and president of the Knob Hill Gold Mining Co., one of the companies which were afterwards merged into the present Granby Consolidated, but disposed of his interests and formed the War Eagle, Red Rock and Bald Eagle companies. For a year or two the War Eagle was operated, about 1900, but since that time has been idle up to the present. The Sherbrooke and other men associated with Mr. Buck are gentlemen of standing and responsibility, and they propose to give the properties a thorough test from this one. Mr. Buck is expected to arrive in the Boundary some time in September, when arrangements are to be made for the starting of active work on the group.

INSURGENT FORCES GROWING

Cuban Government Admits Seriousness of Situation.

Havana, Aug. 24.—Unofficial advices received from the western part of the province of Pinar del Rio, are to the effect that the insurgent forces now concentrating west of San Juan de Martinez are far more formidable than had been supposed and are also better supplied for a campaign and a long campaign is looked for. A prominent resident of Havana after three days in the vicinity of San Juan de Martinez and San Luis, said that Pino Guerra's following in Pinar del Rio is from 1500 to 2000 men. He has sufficient ammunition and is abundantly supplied with every possible necessity. The behaviour of his forces is excellent. All the tobacco plantations owned by Americans and other American property are flying the American flag, and are not being molested.

San Juan de Martinez, Cuba, Aug. 24.—This town, which on Thursday was occupied by a band of insurgents under command of Pino Guerra, again is in possession of the constituted forces of the reupblic. At 5.30 o'clock this evening the troops under command of colonels Bacallao and Evalo, arrived here from Pinar del Rio, but news of their coming had preceded them by several hours, and by noon the last of Guerra's men had left, taking with them all the forces they could gather. Guerra's movement westward is not a retreat, nor is it with the purpose of occupying Guanes. That town, in fact, is already practically occupied by resident insurgents. Guerra's purpose is to effect a junction with several hundred insurgents who are moving eastward from Guanes.

Havana, Aug. 24.—Colonel J. Estrampes, with 45 recruits from Savana, was fired upon by 80 insurgents and ambushed behind a well near Guines. The recruits were routed and three of them were killed and six wounded.

WILL BAR THE HINDU

R. G. MACPHERSON, M. P., PROPHESIES PROMPT ACTION.

SUPERINTENDENT OF IMMIGRATION EN ROUTE TO INVESTIGATE

Vancouver, Aug. 24.—The Hindu invasion of Canada is to be checked just as soon as the machinery of the federal government necessary to this end can be set in motion. That such action is to be taken was admitted yesterday by Mr. R. G. Macpherson, M. P.

"Mr. W. D. Scott, superintendent of immigration for the federal government, is coming to the coast in connection with this Hindu immigration," said Mr. Macpherson. "I succeeded in having him come here in connection with this matter. I expect that he will be in Vancouver this week."

"There is a certain section of the act respecting immigration and immigrants passed at the last session of the house giving the governor general in council power to shut out undesirable immigrants, is there not?" was asked.

"Yes," replied Mr. Macpherson; "there is and it is very wide in its scope, and can be quickly made to apply during periods when parliament is not sitting."

This section reads as follows, and its aid in shutting out the Hindus may be successfully invoked:

"The governor in council may, by proclamation or order, whenever he considers it necessary or expedient, prohibit the landing in Canada of any specified class of immigrants, of which due notice shall be given to the transportation companies."

STORY IS CONFIRMED

CHINESE ADMIT CONTROL OF THE VICTORIA COLONIST.

SAY TIME WILL SHOW WHAT THEIR POLICY IS TO BE.

Vancouver, Aug. 24.—Confirmation of the story that the Chinese had purchased the controlling interest in a British Columbia newspaper has been received from one of the leading Chinese merchants of the city, who is also an agent for the Canadian Pacific railway company. This gentleman, Mr. Yip Sang, is a pioneer resident of the city and a business man of unqualified good standing. He is the head of the well known Chinese firm of Wing, Sang & Wo. He was asked directly if he knew that the Chinese had purchased a controlling interest in a well known British Columbia newspaper. He said that he knew of it.

"Have you any stock in the company?"

"A little, not much."

"Is it true that the paper will continue a campaign in favor of the abolition of the Chinese head tax."

"Watch a little while and you will see what we will do," were his parting words.

From another source came the information that the three leading Chinese shareholders allegedly are Messrs. Lee Gee Wing, Lee Mong Kow and Tai Yuen.

Mr. Lee Mong Kow is one of the best known Chinese residents in Victoria, having been for years customs interpreter and interpreter for the transportation companies, besides being very wealthy, and, if reports are anywhere near true, as good a poker player as ever sat into a little game of draw.

MAY BE KING DAVID SKELETONS.

Victoria, Aug. 24.—The belief is growing here that the eight skeletons found in the cave on the shore near Carmanah are the remains of some of the crew of the ship King David, and not those of Valencia victims. The King David was lost last December, and a small boat containing eight men was sent to Cape Beale for assistance. This boat was never heard of afterward.

APPLES GROW ON PRAIRIES

Brandon, Man., Aug. 24.—The annual exhibition of the Brandon Horticultural and Forestry society was held here today. The showing made of fruits, especially of apples that were grown in this country, was very interesting, and proved that the difficulties experienced in fruit growing in this province were being overcome.

U.S. TROOPS FOR MEXICAN BORDER

Austen, Tex., Aug. 24.—It is reported that a battalion of the troops at camp Mabry will leave in an hour for the Mexican border. While the reason for the issuance of such orders is not positively known, it is rumored that there has been a recurrence of the trouble at Brownsville, and that the troops are to go to this point.

CABINET IS SUMMONED

Hasty Call Sent Out From Ottawa to Ministers on Holidays

Hon. Wm. Templeman Stopped at North Bay on His Way to the Coast—Something Important in the Wind

(Special to The Daily News)

Victoria, Aug. 24.—A telegram was received from the Hon. W. Templeman at North Bay yesterday stating that he had been recalled to Ottawa by the premier. The banquet, therefore, to be held on Monday night, has been postponed.

(Special to The Daily News)

Ottawa, Aug. 24.—A call has gone out for an urgent meeting of the Canadian cabinet at Ottawa next week, and a number of ministers who were out of town have been recalled from their vacations.

Speculation associates the meeting with the present visit of sir Mortimer Durand to Quebec, where he met earl Grey and sir Wilfrid Laurier. It is known that the British government and sir Mortimer himself are axious to settle all questions upon which differences are likely to arise between Canada and the United States, and it is conjectured that the ambassador may have submitted to the government and earl Grey a proposition for an amicable adjustment of outstanding questions on the lines of the joint high commission of 1896.

The report, however, cannot be confirmed until sir Wilfrid Laurier, who is at his country home in Arthabaskaville, returns to the city.

Comptroller White left today for Dawson.

Under the new census, Saskatchewan and Alberta will have its representation in the commons doubled.

TRIED TO KILL HIMSELF

LUNATIC SEEKS TO END HIS LIFE ON KUSKANOOK.

IT TOOK SIX MEN TO HOLD HIM WHILE HE STRUGGLED

Three deliberate attempts to commit suicide were made on board the Kuskanook yesterday morning, and it took the united efforts of six men to control the would be suicide and convey him to the provincial jail.

Murdock McQuaid, a miner of Phoenix, and a member of the Knights of Pythias, showed symptoms of insanity recently and the man's friends, as well as the members of the order, decided to send him to his old home in the maritime provinces, somewhere in New Brunswick. McQuaid was fairly well supplied with money and E. J. Smith, of Phoenix undertook to see that he arrived safely in his old hame, accompanying him all the way.

The pair arrived here from Phoenix on Thursday night and obtained a stateroom on the Kuskanook intending to start out for the east on the steamer in the morning. McQuaid, while very restless on Thursday night, behaved himself quietly enough and Mr. Smith did not anticipate any trouble. Early yesterday morning before the steamer started out McQuaid demanded to be taken back to Phoenix and on being refused, suddenly became very violent Evading his companion he tried to end his life with a penknife on two different occasions, and on the knife being taken away from him, did his best to jump into the lake from the steamer dock. So violent became his struggle that it was clear he could not be taken safely on the long journey to the Atlantic coast and it was decided to take him to the provincial jail and obtain a medical opinion as to what was the best course to follow.

In order to control McQuaid it took the united efforts of six men thirty minutes hard work, but eventually he was installed in the jail.

Drs. Hall and Rose examined the man during the day and joined in giving a certificate of his insanity. Smith then decided that he had better take McQuaid to New Westminster until his friends in the east could be communicated with and he applied to Mr. McQuarrie, of Taylor & McQuarrie, for advice as how best to get the patient to the coast.

T. H. Williamson finally agreed to assist Mr. Smith, and last evening just before train time a hack was taken to the jail and after a good deal of persuasion McQuaid was induced to enter the carriage along with Smith and Williamson. Later he was safely placed on the train for the coast, under the impression that he was being taken back to Phoenix. Once in the train the man was well ironed and it is expected that he will reach the coast all right. In searching through the man's effects, Mr. Smith was unable to find the name of any one in New Brunswick to telegraph to as to McQuaid's condition. Until further instructions are obtained McQuaid will be detained at New Westminster asylum as a private patient.

ATTACKED BY PANTHERS

ARROW LAKE RANCHER VANQUISHES THREE VICIOUS BRUTES

WERE WITHIN TWENTY FEET OF HIS BACK WHEN DISCOVERED

Were it not for his steady nerve, presence of mind and trusty rifle, Mr. Anders, the well known Arrow lake rancher who lives just above Fire Valley, would not be in the land of the living today. Lying behind a log, intently watching for the approach of two marauding deer, he was attracted by a noise behind him and, turning his head, found his blood run cold as he caught a glimpse of three panthers, crouching within twenty feet, and apparently ready to spring. As quick as a flash, Mr. Anders threw his magazine rifle to his shoulder, pulled the trigger thrice, and had the satisfaction of seeing two of the brutes roll over dead while the third sprang away into the bush. It was not until next day that he discovered that it, too, had been killed, its strength after receiving the fatal wound only sufficing to carry it out of sight.

It appears that captain Fraser, of the steamer Kootenay who owns a ranch on the Arrow lake near Mr. Anders' place, had been troubled by the unwelcome visits of a couple of deer which frequently came under cover of night and did considerable damage to the fruit trees. Captain Fraser enlisted the assistance of Mr. Anders, and the latter set out in the evening with his rifle determined to put an end to his neighbor's trouble. He took up a secluded position behind a sheltering log, and settled down to await the coming of the deer—little dreaming of the dramatic ending his nocturnal hunting trip was to have. The night was wearing on and Mr. Anders possessed his soul in patience and listened with keen ears for the first sound that would warn him of the approach of his intended prey. His concentration was finally rewarded,—but not as he expected

Hearing a sound behind, he glanced around carelessly, only to be transfixed by the steady gaze of three pair of gleaming eyes. What his thoughts were when he finally found the mountain lions so close to him and apparently so intent upon making a meal of his flesh, need not be the subject of any serious debate, for he acted so promptly that his brain had little time to pay attention to anything besides the stern business in hand. Fortunately for him his rifle was of the modern magazine variety, and he himself was an adept in its use. With remarkable command over his nerves he emptied three shells—and every bullet, as it afterwards proved, found its intended billet.

Two of the panthers' hides are now in Nelson, the property of Mr. McQarrie, of Taylor & McQuarrie, who intends to have them cured.

SALE OF HUME HOTEL

SYNDICATE BEING FORMED TO CARRY OUT DEAL.

FORMER ROSSLAND HOTELMAN HEADS CONCERN.

Has the Hume hotel been sold? J. Fred Hume, when asked the question seemed a little skeptical, but admitted the possibility of the deal.

The Rossland Miner says: "N. A. Burritt, of the Windsor hotel, of this city, has purchased from J. F. Hume, of Nelson, the Hume hotel, and will shortly take possession of it. The Hume is one of the largest hotels in the Kootenays, and has yielded a large profit for the past eight years. The profits lately, it is claimed, have been from $500 to $750 a month. Mr. Burritt is a first class hotel man, and is certain to make the Hume popular with the public. If there is a possibility of the profits being increased he may be relied on to bring about such a result."

Mr. Hume has advertised his well known hotel property for sale in these columns for some time, and he has already stated that his reason for wishing to sell was a dislike for the business as it called for his continuous personal attention at all times, and he was anxious to be more at leisure and to devote more of his time to other and more congenial affairs.

Asked about the deal last night Mr. Hume smiled and said: "Mr. Burritt has inspected the Hume and has my figure and the only terms upon which I am willing to sell. He has not closed the deal I do not know whether he will do so or not."

Work on the Hume hotel was commenced in the fall of 1897 and it was opened to the public on March 17, 1898. It was run by a company at first under H. D. Hume, brother of the present proprietor. J. Fred Hume subsequently acquired the ownership and after running the place under various managers, took charge himself about four years ago. The property is one of the best and most favorably known hotels in the province.

From private sources it was learned last night that Mr. Burritt is forming a syndicate to purchase and run the Hume.

ANTI-BETTING BILL PASSED

Sydney, N.S.W., Aug. 24—After an all night session the assembly of New South Wales, by a large majority, passed a gaming and betting bill, proposing to close all betting shops and reduce the number of race meetings.

TWO REGIMENTS MUTINY

Odessa, Aug. 24—The 11th and 12th sapper battalions, encamped at Moorzovka, near Odessa, mutinied last night. They met and passed a resolution not to fire on the revolutionists if called on.

REVEREND FINANCIER

Congregational Clergyman Faced With Serious Charges

Arrested at Portland for Skipping Board Bills and Fleecing a Widow, He is Reminded of Nelson Episodes

(Special to The Daily News)

Portland, Oregon, Aug. 24—When Rev. E. H. Holman, pastor of the Congregational church at Ontario, Oregon, reported at the police station today after being released on his own recognizance, he found that the charges of jumping his board bill at Ontario, and of being concerned in swindling a widow of Caldwell, Idaho, out of $1100, were not the only ones.

Another surprise lay in store when a stranger confronted him with the accusation that he had defrauded a number of people at Slocan and Nelson, British Columbia, and that the authorities badly wanted him for a series of enterprises in "frenzied finance" on a small scale.

With Holman is involved a man named Wing, who has fled.

Rev. Mr. Holman is duly ordained but is said to be addicted to the use of profanity and cigarettes.

Rev. E. H. Holman was the last pastor of the Congregational church in this city, and since his departure the edifice on Stanley street has remained closed. While in Nelson the reverend gentleman warmly espoused the cause of socialism and announced sensational headings for his sermons each Sunday. The destruction of the notice board on his church on one occasion and the subsequent appearance of several citizens in the police court in connection with the matter will be recalled.

Finding it a difficult matter to finance his position here Mr. Holman went into mining and personally worked on at least one property. Having no luck in mining he left the city about 18 months ago, leaving, it is asserted some unpaid mining debts. The reference to "frenzied finance" in the above despatch presumedly refers to Mr. Holman's brief and somewhat erratic experience in the mining field at Slocan and hereabouts.

BROKE INTO STATION

C. P. R. DEPOT AT MORRISSEY ENTERED BY ROBBERS.

AMOUNT OF MONEY STOLEN WAS ONLY $4.35

(Special to The Daily News)

Fernie, Aug. 24.—The C. P. R. station at Morrissey Junction was broken into by thieves early yesterday morning and the till robbed of its contents, which only amounted to the small sum of $4.35 and some postage stamps. The robbery was reported to the provincial police of this town and chief McMullin despatched an officer to investigate the affair.

Mr. and Mrs. G. G. S. Lindsey, Mr. and Mrs. V. B. Wadsworth and Mr. Charles Bethune leave by the C. P. R. express tomorrow morning for Nelson and the coast, and expect to be absent for two weeks.

The protested football match between Coal Creek and Michel will be played on the Michel grounds on Saturday evening. A special train will leave Fernie at 5 o'clock to accommodate the large crowd of enthusiasts who intend accompanying the Coal Creek players.

The car situation at this point has been somewhat relieved during the past few days, the C. P. R. having supplied the mills with a larger number of empties than usual. No yard engine has yet made its appearance, but the shippers are still living in hopes that this inconvenience also will soon be remedied.

BOND PAYMENT MET

DOMINION COPPER CO. READY FOR CALL ON GLOUCESTER GROUP

IS PURSUING ENERGETIC DEVELOPMENT POLICY AT PHOENIX

(Special to The Daily News)

Grand Forks, Aug. 24—An event of some importance took place yesterday when the Dominion Copper company deposited in the bank the first payment of $3000 due on the bond taken on the Gloucester group of claims in Franklin camp. As is well known the Dominion Copper company is pursuing an energetic policy in the development of its Phoenix properties, and will shortly be smelting 1200 tons a day at the Boundary Falls reduction works. Like all Boundary companies the Dominion Copper people are on the lookout for good fluxing ores, and the Franklin camp, when once values at depth are proved, offers a highly promising field in this respect. The Gloucester group was located in 1898 by T. Newby, H. Garnett and L. Merson. It consists of four claims, the Gloucester, the G.H., the Ophir and the G.H. fraction. Development work was confined practically to the Gloucester claim on which a shaft of some 50 feet in depth was sunk, disclosing a fine grade of copper ore in the form of chalcopyrite, running from 7 to 10 per cent copper. A tunnel was then driven 215 feet with the intention of striking the ore at depth. This was how matters stood at the close of the year.

In February of this year the group was bonded to George A. Macleod, who subsequently turned over the bond to the B.C. Copper company of Greenwood. The latter company, however, allowed the time limit for the first payment to expire and in May last Thomas Newby and his associates bonded the group to the Dominion Copper company for $110,000. Early this year a series of open cuts have disclosed other good copper showings. After examining the property thoroughly T. R. Drummond, superintendent of the Dominion Copper company, put a force of men to work in the tunnel, upraising at an angle of 60 degrees, and cleaned out and retimbered the shaft. Yesterday the first payment fell due, and the payment of the money was arranged for by the company.

In reply to a question on the results of the work since the company took hold, Mr. Drummond said: "No; we have not yet seen indications of ore, but I do not expect to until we break right into it. The footwall is well defined, the ore not being frozen to it, the selvedge permitting a clean break of the ore from the footwall." He laughingly admitted that it showed a large faith in the camp for them to make the payment under such conditions. "However," he added, "this will give us lots of time to do development work before the payment in February falls due, and we shall keep the force on and continue work in the tunnel."

This substantial payment by the Dominion Copper company is a source of gratification here as being one of the many indications that strong outside companies regard the mineral resources in the camp as of a highly promising character. Thos. Newby, who owns a third interest in the group, is an old timer of this place. Leander Merson owns another third; H. Garnett of Sprague, Wash., owns a sixth interest and Frank Loehr of Walla Walla, holds the remaining sixth interest.

On Tuesday last a valuable strike of galena ore was made on the Union claim by Mike McDonnell and Pat Maginnis. The ore is the best of its type yet uncovered in Franklin. The claim adjoins the Maple Leaf and is owned by Maginnis, McDonnell, J. C. Henderson of Phoenix, and Lewis Johnson, who have a fourth interest each.

Negotiations have just been completed whereby Hunter Bros. of Rossland, and Norman L. McInnes of Nelson, purchase the Hunter-Kendrick business in this city. Mr. McInnes, who for eight years was manager for Hunter Bros. at Rossland, and later with J. Y. Griffin and company, in Nelson, will be in charge. C. D. Hunter of Phoenix and W. T Hunter of Greenwood, have thus severed their business connections with this city.

Contractor Creelman is at the coast arranging for the heavy timbers for the two bridges about to be constructed by the Kettle Valley railway, one over the main river here at Third street, and the other across the North Fork about ten miles from the city. The timbers will run from 16 to 60 feet in length. Those over 30 feet long will be procured at the coast and W. P. Tierney states that it will take nearly 40 carloads. Piles, smaller timbers and other material will be produced locally. Counting the abutments, approaches and so on, Mr. Tierney figures that the cost of the two bridges will be between $25,000 and $30,000. The grading of the new road up the North Fork is progressing rapidly, the cool weather providing favorable conditions for expediting work.

NELSON'S NEWS OF THE DAY

There will be two sessions of the Farmers' Institute on Monday next in the board of trade rooms at 2 and 8 p.m.. Addresses will be given by Frank T. Shutt, M.A., chemist at the central experimental farm, Ottawa, who will arrive in this city tonight, and J. R. Anderson, deputy minister of agriculture, Victoria. The public is cordially invited to attend the meetings.

G. G. S. Lindsey, third vice-president and general manager of the Crow's Nest Pass Coal company, Fernie, arrived at the Hume last night and spent the evening in the city. With Mr. Lindsey is his wife, Mr. and Mrs. V. B. Wadsworth of Toronto, and C. J. N. Bethune of Ottawa. The party leave for Rossland this morning and then go up the river en route to Vancouver.

The Canadian society of civil engineers are coming west, leaving Montreal on Sept. 8. They will leave Vancouver for Nelson and the Boundary on Sept. 19, and will be here for the fair. City engineer McCulloch is endeavoring to arrange for the entertainment of the party here, but civil engineers hereabouts are not numerous and the matter will have to be taken up by the 20,000 club and others. The party comes in a special train and numbers about 150.

Chairman Taylor of the 20,000 club's entertainment committee, announces that the final dance of the season at tramway park next Thursday evening, will be a truly great affair, far outshining anything attempted this summer. A meeting of the committee will be held at 9 o'clock this morning at the Standard Furniture company's office, when arrangements for the dance will be fully discussed. A double street car service after the dance will be a special feature, and the dancing will be kept up a little later than usual.

D. C. Wilson, past worthy president of the Nelson aerie F.O.E. returned to the city yesterday from attending the annual convention of the order, held this year in Milwaukee, Aug. 14-20. Mr. Wilson says the convention was the most successful and most largely attended one ever held by the order. There were 1200 delegates present, representing Canada, Alaska and every state in the union. The whole city was elaborately decorated in honor of the occasion and the speakers who made the chief addresses were very able and eloquent. At a fair estimate there were 2500 Eagles in line in the monster procession.

NORTHPORT TO RE-OPEN

Anthony McMillan Makes a New Deal With the Trail Smelter

Consolidated Company Buys the Iron Mask Mine at Rossland—All Involved in New Smelter Deal Satisfied

Anthony J. McMillan, managing director of the Le Roi company, has at last got matters his own way once more. The three years' contract between the Le Roi company and the Trail smelter, whereby the latter was to obtain the whole output of the mine has been cancelled, a new deal has been made, and the Northport smelter is to be reopened at once.

Incidentally the Consolidated Mining & Smelting company has purchased the well known Iron Mask mine at Rossland.

W. H. Aldridge, general manager of the Consolidated company was spoken to yesterday about both deals. Mr. Aldridge was, as he always is, very reticent, but he frankly admitted that the old arrangement with the Le Roi company for the total output of the mine was cancelled and a new deal had been made, whereby the Trail smelter would get a portion of the Le Roi tonnage for some little time yet; eventually the whole tonnage will go, as of old, to Northport.

"I think that as the new arrangement appears to be satisfactory to all concerned," said Mr. Aldridge, "there is nothing more that I can add. In any case we will have all the ore coming to us that we can handle with all our furnaces at work. Yes, we have purchased the Iron Mask on Red mountain. No, I can not name the price. We will mine the property in good time when we get matters arranged."

A. J. McMillan is now in Rossland, but he declines to speak for publication, although pressed to do so. It is understood, however, that the directors of the Le Roi are a unit on the subject of re-opening the company's Northport smelter. Just what means were used to bring about the concelation of the agreement entered into, after so much fighting, in London a little over a year ago, whereby for three years all the tonnage from the Le Roi was to be smelted at Trail, can not even be guessed at, much less known. The fact, however, remains that the Northport smelter will reopen as soon as possible under the charge of A. L. Goodell, the former manager.

The Iron Mask will be operated from the War Eagle workings already connected. D. C. Corbin offered the property to the late T. G. Blackstock some years ago for $500,00, the price for which the company was stocked, but the Gooderham people declined to deal for any such figure. Corbin subsequently sold out the company by foreclosing for monies advanced to develop the property. A great deal of work has been done in the past but the mine is not timbered and will have to be thoroughly overhauled before it is in shape to make returns. The mine has always been well thought of by well informed mining men and for many reasons it is of more value to, and can be worked to much greater advantage by the Consolidated M. & S. co., than by anyone else.

The purchase of the property is easily along the lines of the announced policy of the Consolidated company at its last general meeting in Montreal, and is just one more step in the direction indicated by James Cronin in these columns when he announced his resignation. "I think in time," he said, "that the Consolidated company will become one of the greatest mining corporations of the west, of the American continent, and one of the world's greatest mining concerns."

ROOSEVELT'S NEW SPELLING

Strenuous President Takes up the Phonetic Method

Oyster Bay, Aug. 24—President Roosevelt has endorsed the Carnegie spelling reform movement. He issued orders today to public printer Stillings that hereafter all messages from the president and all other documents emanating from the White House shall be printed in accordance with the recommendation of the spelling reform committee, headed by Brander Matthews, professor of English in Columbia university.

This committee has published a list of words in which the spelling is reformed. The list contains such words as "thru" and "tho" as the spelling for "through" and "though." The president's official sanction of this reform movement is regarded as the most effective and speediest method of inaugurating the new system of spelling throughout the United States.

WILL BACK THE CZAR

St. Petersburg, Aug. 24—The organization of the nobility through the executive committee has formally decided to actively support the government in the war upon the revolutionists. This is the first tender of open support the government has received.

EARL GREY COMING WEST

Prince Albert, Sask., Aug. 24.—Mayor Bradshaw received a telegram today from D. D. Mann, stating that earl Grey will visit Prince Albert on August 30th, and will be in the city from 4 to 8 p.m.

MODERN PERSECUTION

The recent persecution of an Ontario doctor, who dared to advertise, by the Ontario Medical association has aroused a storm of protest in the eastern press and from the enlightened sections of Toronto, Montreal and other centres where the tyranny of the "doctors' union" is little appreciated. In a caustic article, Toronto Saturday Night tells a story that is scarcely credible in these so-called days of liberty and progress.

A number of years ago a young fellow came up from the country to secure an education at Toronto university. He took courses in arts and medicine and in due time graduated with credit to himself, receiving a degree as Bachelor of Arts, and a diploma in medicine and surgery. He had spent years in qualifying himself to receive from the state a license to minister to the sick, and having received it the young doctor left town and for a generation has lived the life of a country doctor—up early and down late, answering urgent calls in every kind of weather, rattling over the dusty roads of summer, dragging through the deep muds of spring and fall, and the storms and snowbanks of mid winter. He has been paid where pay could be had, but has worked much for nothing. Leaving houses of mourning he has stood under the stars and cursed the pitiful smallness of human knowledge in matters of healing. He was the doctor, using his art or his science, coaxing the dying back to life by one subterfuge or another—by the hocus-pocus of fluids, by the witchcraft of Latin prescriptions, by the sage frown, by the wise pursing of the lips, by the confident prediction that recovery would be certain. Great or small his skill, yet he was the doctor, learned in the knowledge of the universities, trained in the hospitals, licensed by the state to practice the art of healing. He saw young men sink and die and old men rally and grow strong again, and experience taught him much not written in books. He was one of hundreds of country doctors, who go their way and play their part in the great scheme of things.

This doctor, after all these years, is ordered to go no more among the sick He is no longer to practice his profession; he must turn to and make a living in some other way, for the medical degree he got from the university, the license to practice medicine that he got from the province, have been cancelled by a committee of other doctors. These doctors have found him guilty of "infamous and disgraceful conduct." It seems that he advertised. It is the crime of crimes. This, and this only, is infamous in the practice of medicine, and disgraceful in the practice of surgery.

His name is Dr. Crichton, of the village of Castleton. The committee of doctors who tried and condemned him was the Medical Council. His livelihood is to be taken from him because he sent out printed circulars extolling a mixture he offered for sale as a cure for la grippe. This is a violation of the rules of the Doctors' Union, the medical men's combine. They have a regulation forbidding any member to advertise. Dr. Crichton advertised. Therefore he was yanked before the rulers of the association, and a sentence of capital punishment passed upon him. The law confers on this organization the power to cancel the license of any medical practitioner found guilty of infamous and disgraceful conduct. The purpose of the state in conferring this power on the Medical Council may be readily inferred. It was in order that the guardians of the profession should keep its ranks clear of scoundrels, betrayers of women, destroyers of homes, workers of abortion, and skilled poisoners. In the trial of Dr. Crichton one member of the organization after another stood forth and testified that they had read his advertising circulars, and considered his conduct "infamous and disgraceful." Swift sentence was passed on him. Yet if Dr. Crichton's advertising was "infamous and disgraceful" it is only so in the opinion of the members of the Doctors' Union, or all advertising in infamous and disgraceful. What these doctors really mean is that it is infamous and disgraceful for a member to violate a regulation of their association, and so they behead this offender.

Should the province longer leave in the hands of these men a power which they so abuse? They take away a man's profession, practice and livelihood because he has not respected one of their regulations. They make a criminal offence of that which is no crime in the sight of the law. For those doctors who are actual offenders against, the criminal laws, the state has to do its own hunting, and the poisoner and abortionist are not stripped of their diplomas until they are stripped of their clothes to fill cells in the penitentiary.

It was never contemplated by the state that the power conferred on the Medical Council should be put to its present uses. This abuse of the power could not be defended for a moment in the legislature, and that which cannot be defended there should not be permitted to continue after the next session. If doctors who were conducting unlawful practices were being weeded out of the profession by the Medical Council, they might be doing the state a service, but they use the authority conferred on them almost entirely in such cases as that of Dr. Crichton of Castleton. They suppress only the crime of advertising. For this they sternly behead offenders. At the next session of the legislature the law should be so amended as to prevent this abuse of authority.

SOFTNESS OF SEALSKIN,

Is Rivaled by Human Hair Where Dandruff is Eradicated.

Sealskin is admired the world over for its softness and glossiness; and yet the human hair is equally as soft and glossy when healthy; and the radical cause of all hair trouble is dandruff, which is caused by a pestiferous parasite that saps the vitality of the hair at its root. Newbro's Herpicide is the only preparation that is fatal to the dandruff germ. Without dandruff there is no falling hair, but a luxuriant growth of glossy, soft hair is certain. Scouring the scalp won't cure dandruff. Kill the dandruff germ. Thousands of women owe their beautiful suits of hair to Newbro's Herpicide. Sold by leading druggists. Send 10c. in stamps to The Herpicide Co., Detroit, Mich.

EDITORIAL NOTES.

Two German professors have solved the problem of how to live on "nothing a day." They are at present leading an exceedingly simple existence in Kabakon, a small island in the Bismarck Archipelago, in the South Seas, where their food consists only of cocoanuts, their clothes of loin cloths, and their amusement of sitting in the sea reading, or watching native dancers. The discovery of how to live on nothing was made by professor Engleheart, of Munich and Erlangen universities. He suffered from ill health from his childhood, and nine years ago he started experimenting with a fruit diet. He was soon convinced that the fruits obtainable in Europe were not most suitable, and in 1901 he left for Ceylon, and after experimenting there and in Kabakon, he has come to the conclusion that the cocoanut is the original, and therefore the most suitable food for man. The professor was joined fifteen months ago by Dr. A. Bethmann, and the two are now living on cocoanuts at a cost of nothing per day.

A suggestion made some time ago by Harold Sands, the Vancouver author and journalist, has just been taken up and pressed by the Victoria Times. It was, as far as can be gathered from Simon Fraser's Journal, July 1st, 1808, that he reached the present site of New Westminster on his memorable trip whereby the river named in his honor was discovered. Certain it is that on July 2nd he sighted the sea and, for the first time, found the river he had been following from May 22nd was not the Columbia. Such an event, think both Mr. Sands and the Times, should not go unhonored in the Royal City. From the wealth derived from the Fraser and the product of its forests New Westminster has been largely built up and some suitable celebration should mark the centenary of Simon Fraser's first landing where the city now stands. Such a centenary is an epoch in the history of the province and New Westminster is the proper place to mark the occurrence.

FRENCH MEAT SCANDAL

PARIS PAPER CALLS PRODUCERS THIEVES AND ASSASSINS

HORSEMEAT FOR LARKPIE BUT A SAMPLE OF WHAT GOES ON.

Paris, Aug. 1.—The Matin published yesterday a leading article, with a map showing the chief supply centers of all France, and declaring that the elementary produce furnished by the majority of them have been of a death bearing character. The Matin points out that this horrible condition will be remedied by law, the form of which will be shaped by M. Ruan, the minister of agriculture. The paper does not hesitate to say that the people who furnish these products can be divided into two classes which it frankly describes as thieves and assassins.

The Matin characterizes the thieves as those who have been selling olemargarine as butter, shop sweepings as pepper and horse meat as lark pie; and as assassins those who have been selling skimmed milk as the anti-septicised article and thus robbing mothers and murdering infants, the latter to the number of 50,000 a year. The paper says that of the 38,000,000 French people, 33,000,000 have no protection against the food adulterators who have enjoyed a liberty that has been nothing less than charming. The Matin names 15 cities which have municipal laboratories for testing food and calls attention to the fact that the following large cities are without them: Marseilles, Bordeaux, Nantes, Caen and Amiens.

The Matin gives assurance, however, that as in the case of the American laws, the inspection of canned meats for France's hitherto unprotected 38,000,000 will, under Mr. Ruan's law, be provided for.

KOOTENAY PRESBYTERY

CALL OF ST. ANDREW'S CHURCH IS SUSTAINED.

SEMI-ANNUAL MEETING AT CRANBROOK ON SEPTEMBER 4.

At a meeting of the Presbytery of Kootenay, held in St. Paul's church in this city, there were present, Rev. R. J. Douglas, clerk of the Presbytery, Trail; Rev. Forbes, Slocan City; Rev. J. T. Ferguson, Nelson; John Shaw, elder, Rossland, and captain D. C. McMorris, elder, Nelson.

Rev. Mr. Forbes acted as moderator, in the absence of moderator Rev. J. C. Brown, of New Denver. The meeting was for the purpose of considering the call of St. Andrew's church, Rossland, to Rev. T. J. Robinson, ordained missionary at Ashcroft. The Presbytery sustained the call and arrangements were made for the induction services at Rossland on September 13th in St. Andrew's chruch, at 8 p.m. Rev. Mr. Ferguson will address the minister. Moderator Brown will conduct the induction service and preach the sermon, and Rev. Mr. McLeod will address the people.

The semi-annual meeting of the Presbytery of Kootenay will be held at Cranbrook on September 4, at 8 p.m. and will last until the 6th. Rev. A. E. Cameron, missionary at Ymir, will be ordained at the Cranbrook meeting.

Are you going to exhibit at the Nelson fair? If so do you want a pictorial design? Or any original design illustrating your business. There's an eastern artist working at the Klondyke hotel who can do it right. See him while there's time.

RAIN SOAKS HOMELESS

HEAVY DOWNPOUR MAKES LIFE IN VALPARAISO UNPLEASANT

HEALTH OFFICERS FEAR A RESULTANT EPIDEMIC OF DISEASE

Santiago, Aug. 23—10 p.m.—Delayed in transmission—Another severe earthquake has just occurred here.

Valparaiso, Aug. 24—4 a.m.—There were two slight earthquakes here last night. Rain began falling, increasing the sufferings of the thousands living in tents. Many of them sought refuge from the rain in houses without walls, which are in a dangerous state of ruin. It is believed that if the rains continue a serious epedimic is sure to break out here.

Santiago, Aug. 24—Delayed in transmission—The news received here from Valparaiso continues to prove the worst impression of the situation there. As a result of the strenuous measures taken to preserve order at least 150 robbers have already been shot. Bodies are still being taken out of the ruins and thus far about 700 have been buried. It is stated that an epidemic is almost certain to occur at Valparaiso as a result of the unsanitary conditions existing there.

The houses here are being more and more damaged by the continuing earthquakes. In addition to the one which occurred about 10 o'clock last evening, there was another shock this morning.

Valparaiso, Aug. 23—Delayed in transmission—About 10,000 workmen are employed in clearing away the ruins here and in searching for bodies. In the ruins of a house today workmen found a child alive in a barrel, which had protected it from harm. The naval school which it now appears was only partialy destroyed, is to be reconstructed and it is expected that cadets will be able to resume their usual studies there in about two months.

The sale of articles of living by merchants here is strictly supervised by the city and government officials to prevent any abuses in the direction of increase in the prices. Merchants detected in the act of selling goods above a fixed price are compelled to close their stores. A complete drainage system has been constructed at all the spots where the population is living in tents, so as to guard the people as much as possible from suffering during the heavy rains. President Riosco has visited all the tented parts of the city in his efforts to do everything possible to encourage the homeless people. The commercial houses and the banks will pay their employees tomorrow their full month's wages in order to assit them in their present hardships. The government will also pay its employees the same day. Depots for the delivering of food have been established, the main features of which are immense cauldrons from which under the supervision of young women of the highest society, food is distributed to the poor.

Many of the highest families of this city have decided to go to Europe and stay there during the rebuilding of Valparaiso in general and of their own residences in particular. Material for the construction of temporary homes or sheds is being distributed by the local authorities here, and by the Chilian government officials.

The government of Ecuador has ordered the commander of the Ecuadorian cruiser Maranon, to disregard his order to cruise along the coast and to place his vessel at the disposal of the Chilian government to transport refugees from Valparaiso to various points.

In addition to money received here from various parts of Chile for the relief of the sufferers, $35,000 has been received from San Francisco. The government of Chile, in reply to cable messages received from Chilians abroad, offering to collect funds for the relief of the sufferers, has thanked them but has not given any of them any authorization to collect in the name of the government, as Chile has sufficient reserves to care for the homeless.

With the exception of the Mercurio which publishes a small sheet once per day, the newspapers here have not yet been able to resume publication.

VIOLIN LESSONS

Anyone wishing to learn the violin call on Mr. D. W. Curtis, rooms over Ludwig's Harness Store, on Hall street Mr. Curtis has just recently come to Nelson and is highly recommended by the local musicians. He studied under several of the greatest masters in New York and Boston and has had 12 years' experience as a teacher and performer in the large cities of the United States and Canada. Mr. Curtis may be heard each evening at the Strathcona hotel during the dinner hour.

HONORABLE JOHN COSTIGAN

New Brunswick's "Grand Old Man" comes out strongly in favor of "Fruit-a-tives."

Who has not heard of the Honorable John Costigan? He is to-day one of the most powerful, as well as one of the oldest, figures in Canadian politics. He was one of Sir John Macdonald's ablest lieutenants, and for nearly 20 years held various portfolios in the cabinet.

To-day at the age of 71, he is the idol of the electors of New Brunswick, and a power to be always reckoned with in Parliament.

His rugged eloquence—biting sarcasm—and ready repartee—make him at once the dread of his opponents and the delight of his confreres.

When a public man of the Hon. John Costigan's position voluntarily testifies to the marvelous cure effected by "Fruit-a-tives," it is bound to carry convincing weight with the whole Canadian people.

OTTAWA, ONT.,
232 Cooper St., Jan. 8th, 1906.

You know what fearful trouble I have had all my life time from constipation. I have been a dreadful sufferer from chronic constipation for over thirty years and I have been treated by many physicians and I have taken many kinds of proprietary medicines without any benefit whatever. I took a pill for a long time which was prescribed by the late Dr. C. R. Church, of Ottawa. Also for many months I took a pill prescribed by Dr. A. F. Rogers, of Ottawa. Nothing seemed to do me any good. Finally I was advised by Dr. Rogers to try "Fruit-a-tives" and after taking them for a few months I feel I am completely well from this horrible complaint. I have had no trouble with this complaint now for a long time, and I can certainly state that "Fruit-a-tives" is the only medicine I ever took that did me any positive good for constipation. I can conscientiously recommend "Fruit-a-tives" to the public as, in my opinion, it is the finest medicine ever produced.

(Signed)

JOHN COSTIGAN.

Was ever medicine put to a severer test than this?

Here was a great Public Official, who had suffered for more than 30 years with Chronic Constipation. The leading physicians of Ottawa prescribed for him without affording any permanent relief. Finally, as a last resort, "Fruit-a-tives" were ordered. And in THREE MONTHS, Mr. Costigan WAS WELL.

"Fruit-a-tives" did in THREE MONTHS, what doctors and drugs failed to do in THIRTY YEARS.

"Fruit-a-tives" are the most perfect combination known to medical science. They are fruit juices, concentrated and combined with tonics and internal antiseptics.

Unlike liver pills, anti-bilious pills and all preparations containing calomel, cascara, senna, licorice, etc.—"Fruit-a-tives" act like fruit DIRECTLY ON THE LIVER. They arouse this organ to vigorous health—strengthen it—and increase the flow of bile. It is the bile, given up by the liver, which enters the bowels and makes them move.

Unless the liver is active and excretes sufficient bile to move the bowels regularly and naturally every day, there is bound to be Constipation. And the only remedy that will cure Constipation is one that puts the liver in a healthy, active condition as "Fruit-a-tives" do.

Do you suffer with Chronic Constipation?
Are you bilious?
Is the liver inactive?
Is the stomach out of order?
Does the head ache?
Do your kidneys trouble you?
Is the skin disfigured with pimples?
Is the appetite poor?

Take "Fruit-a-tives." They sweeten the stomach—regulate the liver, kidneys and bowels—clear the skin—and build up, strengthen and invigorate the whole system.

One box will prove their value. 50c. a box or 6 boxes for $2.50. Sent on receipt of price if your druggist does not handle them.

BACKS TARIFF REFORM

COL. GEO. DENISON SAYS CHAMBERLAINISM IS STILL ALIVE

BELIEVES IT MUST EVENTUALLY WIN ITS WAY

Toronto, Aug. 24 — Undismayed by the sweeping liberal victory in Great Britain in January, Col. George T. Denison has returned from a two months' visit to the old country, more convinced than ever of *the ultimate triumph of tariff reform.* During his stay in the old country Col. Denison took part in the meeting of the chambers of commerce of the empire which passed resolutions favoring preferential trade by 105 chambers to 41. In that connection *the colonel referred to the excellent* case put forward by George E. Drummond, F. W. Cockshutt, M.P., sir Charles Tupper and A. L. Johnson of Winnipeg. The Canadian delegates were united, and when towards the close of the discusion *the tariff reform leaders sugested* a compromise amendment, Mr. Drummond, Mr. Cockshutt and himself, at a hasty conference, decided to reject it, though they had no hope of carrying their own resolution as it stood.

"Then Chamberlainism is not dead?" the colonel was asked.

"No; it is as live as ever it can be," was the reply in tones that have made many a prisoner at the bar shiver.

"We were told by some," he added "that *tariff reform was dead and settled at the* last election. I called out that that election was fought out on 'termological inexactitudes and other things.' I did not feel, however, in view of the result of the election, we could carry our resolu*tion at the congress, and was astonished* when it passed. Thirty English chambers supported it and 28 opposed it, the remaining chambers voting being from the colonies. I was delighted with the result for it showed that the business people were with *Chamberlain.*

"The thing is moving," the colonel went on, his eyes kindling with enthusiasm. "I can se it moving. The men who were for it were aggressive and they had vigor and vim. It is an onward movement and *those opposed to it cannot stop it by* standing in front of it and putting up their hands and shouting that it is contrary to theories. They cannot stop it; they will only get run over."

Col. Denison added in reply to a juestion that Britain was prosperous, but the prosperity was only temporary, as there had been a great demand for British goods recently to evade hostile tariffs shortly to be enforced by several countries, and the close of the Japanese war had stimulated trade. There would be a reaction and the working people would soon see the disadvantage under which their country labored.

Col. Denison added that he had talked with Mr. Chamberlain, who appeared to be in excellent health; bright, alert and full of energy.

ARE INVESTING MILLIONS

GUGGENHEIMS AFTER TREASURE IN THE NORTH

ALASKA, THE YUKON AND ATLIN GOLDFIELDS

The Guggenheims are investing millions in the north, Alaska, the Canadian Yukon and Atlin.

The Messrs. Guggenheim have just come down from the north and in an interview granted a coast paper Mr. Guggenheim stated: "Our interests are widespread in the north comprising many extensive propositions from Atlin northward into the Yukon. The main difficulty which has delayed development in the past has been the shortage of water. After careful investigation and careful consideration of the difficult problem and the measures proposed for its solution, we have decided upon a scheme whereby an adequate supply of water will be brought a distance of 50 miles by artificial means sufficient for all purposes at a reasonable cost.

"We have introduced dredging and hydraulicing where more primitive methods *prevailed before and, in short,* we have transformed these northern gold fields which are now no longer a poor man's proposition but the rich man's concern available under scientific conditions to rich and poor alike.

"We *have also acquired several other* large properties in Cariboo on which a large amount of money will be spent as soon as Mr. Hobson has time to complete the present large undertaking at Bullion."

A railway is being built from Valdez to the Copper river mining section where the firm has large mining interests—and has likewise taken up a large portion of the claims near Dawson, meaning an investment of some $15,000,000. Besides this the famous Treadgold concessions have been acquired in the Canadian Yukon.

At Atlin the firm is undertaking a large hydraulic development, and in Cariboo has acquired the Consolidated Cariboo Hydraulic Mining company, with J. B. Hobson, the well known hydraulic mining engineer in charge. They are now putting in an increased supply of water and are spending some $750,000 on canals and ditches.

PLAYED A BLUFF GAME

TACOMA SWELL PRETENDED TO BE SON OF C. P. R. OFFICIAL.

MADE THE MONEY FLY FOR A WHILE—THEN WAS ARRESTED

Tacoma, Aug. 24.—While speeding along A street in an automobile, a young man who has been stopping at the Tacoma for the past few days, registered under the name of J. W. Whyte, and posing as a son of the second vice-president of the Canadian Pacific Railway, was arrested by detective D. O. Smith, and is being held at police headquarters, charged with passing worthless cheques.

Whyte is a well-dressed young man, and is fully up to date in the modern way of entertaining his friends by treating them to a spin in an auto, and by giving dinners at which nothing is lacking that money can buy. Whyte is accused of passing worthless cheques aggregating $200. Who the victims are the police decline to say just now.

In Portland Whyte cut quite a dash under the name of J. H. Drinkwater, and there is a warrants out for his arrest in that city, where he ran auto *bills* ranging from $40 to $110 per day, and claimed to be at the head of the special advertising department of the Canadian Pacific road, and to be ahead of a number of Canadian Pacific men who were coming to the coast on a publicity mission. The Portland warrant against Whyte was sworn out by C. H. Snyder, a salesman for the Covey & Cook Automobile company there, and it accused the alleged son of the railway magnate with larceny. He is said to have secured about $1000 in Portland.

The checks were lithographed copies of the Canadian Pacific cheques and were drawn on the Royal Bank of Canada, and signed by the name of J. H. Drinkwater, manager of the Canadian Pacific advertising department. The Tacoma police received their first intimation concerning Whyte from Portland. He posed also as a Canadian Pacific detective here, and was wearing one of the company's badges when arrested. The police are said to know Whyte's right name and who his parents are, but decline to reveal it. He claims his home is in Montreal.

"The matter will be fixed up tomorrow. I have wired by folks at Montreal, who are wealthy and they will come to my assistance at once," said the young prisoner. "The cheques are worthless, but the people who accepted them will *lose nothing, as I will pay up every cent.* There is no such amount as a thousand dollars that I owe, as has been said."

Minard's Liniment Cures Distemper

UNNECESSARY EXPENSE

Acute attacks of colic and diarrhoea come on without warning and prompt action must be taken. There is no necessity of incurring the expense of a physi*cian's services in such cases if Chamber*lain's Colic, Cholera and Diarrhoea Remedy is at hand. A dose of this remedy will relieve the patient before a doctor could arrive. It has never been known to fail, even in the most dangerous cases *and no family should be without it.* For sale by all druggists and dealers.

Sunlight Soap is better than other soaps, but is best when used in the Sunlight way. Buy Sunlight Soap and follow directions.

What People You Know Say About Gin Pills

THE GREAT KIDNEY CURE

Jan 23rd, 1904.

THE BOLE DRUG CO.,
Winnipeg, Man.

GENTLEMEN,—

I cannot refrain from writing you as to the great benefit I have derived from "Gin Pills." The true facts of my case are as follows:

"Last fall, while in the employ of the C.P.R., between Winnipeg and Brandon and also on the Souris branch, I was on the verge of giving up from a severe pain in the small of my back. I tried a menthol plaster without any relief. I afterwards bought a bottle of ——Oil and used it nearly all with no better results. Then one of the Conductors said to me: 'Why don't you try Gin Pills?' I purchased a box from a store at Douglas, on the main line near Brandon, and before I had taken the half of them the pain began to subside. I continued until all the box had gone with the result that the pain entirely left my back, greatly to my relief. I am sending in this testimonial unsolicited, hoping others will benefit thereby. For any disorder of the kidneys there is nothing can hold a place with Gin Pills.

Yours faithfully,
J. C. TAYLOR.

Sold by druggists, 50c a box, or 6 boxes for $2.50. We send sample free if you mention this paper.

Synopsis of Regulations Governing the Disposal of Dominion Lands Within the Railway Belt in the Province of British Columbia.

A license to cut timber can be acquired only at public competition. A rental of $5 per square mile is charged for all timber berths, excepting those situated west of Yale, for which the rental is at the rate of 5 cents per acre per annum.

In addition to the rental, dues at the following rates are charged:

Sawn lumber, 50 cents per thousand feet B. M.

Railway ties, 8 and 9 feet long, 1 1-2 and 1 3-4 cents each.

Shingle bolts, 25 cents a cord.

All other products, 5 per cent. on the sales.

A license is issued so soon as a berth is granted, but in unsurveyed territory no timber can be cut on a berth until the licensee has made a survey thereof.

Permits to cut timber are also granted at public competition, except in the case of actual settlers, who require the timber for their own use.

Settlers and others may also obtain permits to cut up 100 cords of wood for sale without competition.

The dues payable under a permit are $1.50 per thousand feet B.M., for square timber and sawlogs of any wood except oak; from 1-2 to 1 1-2 cents per lineal foot for building logs; from 12 1-2 to 25 cents per cord for wood; 1 cent for fence posts; 3 cents for railway ties, and 50 cents per cord on shingle bolts.

Leases for grazing purposes are issued *for a term of 21 years at a rental of 2* cents per acre per annum.

Coal lands may be purchased at $10 per acre for soft coal and $20 for anthracite Not more than 320 acres may be acquired by one individual or company.

Royalty at the rate of 10 cents per ton of 2,000 pounds is collected on the gross output.

Entries for land for homestead purposes may be made personally at the local land office for the district in which the land to be taken is situated, or if the homesteader desires, he may, on application to the minister of the interior at Ottawa, the commissioner of immigration at Winnipeg, or the local agent for the district within which the land is situated, receive authority for some one to make entry for him.

A fee of $10 is charged for a homestead entry.

A settler who has received an entry for a homestead is required to perform the conditions connected therewith under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year during the term of three years.

It is the practice of the department to require a settler to bring 15 acres under cultivation, but if he prefers he may substitute stock; and 20 head of cattle, to be actually his own property, with buildings for their accommodation, will be accepted instead of the cultivation.

(2) If the father (or mother, if the father is deceased) of any person who is eligible to make a homestead entry under the provisions of th Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of the Act as to residence prior to obtaining patent may be satisfied by *such* person residing with the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of the Act as to residence may be satisfied by residence upon the said land.

Application for a patent should be made at the end of three years before the local agent, sub-agent or a homestead inspector.

Before making an application for a patent, the settler must give six months' notice in writing to the Commissioner of Dominion Lands at Ottawa, of his intention to do so.

W. W. CORY,
Deputy of the Minister of the Interior

TO WORKINGMEN

NOTICE

Whereas, at the Last Chance and Surprise mines, Chinese kitchen help is at present empoyled, to the exclusion of White labor.

Therefore, be it resolved that this organization, Sandon Miners' union No. 81 of the W. F. of M. reaffirming its opposition to the employment of Orientals within its jurisdiction, strongly condemns the position taken by the management of the properties in question, and counsels workingmen everywhere and those favorably disposed toward organized labor to be governed by this action.

SANDON MINERS' UNION
A. SHILLAND, Secretary.

CUSTOMS BROKERAGE

I have opened an office in the Nelson Electric Messenger Despatch building, Stanley street, where I shall conduct a general customs brokerage business. Telephone 44. A. K. Wattie.

The hard work of bread-making should be done in the flour mill—not in the kitchen.

When it is necessary for you to make bread by main strength you can rest assured that the miller hasn't done his part. His flour is not fine enough.

Royal Household Flour

is made from hard Spring wheat—a wheat that is capable of finer grinding than any other variety, and milled by a process that insures not only the finest, but also the whitest, purest and most nutritious of flours. Get enough to try from your grocer.

"Ogilvie's Book for a Cook," contains 130 pages of excellent recipes, some never published before. Your grocer can tell you how to get it FREE.

REVOLUTION SPREADING

SHARP ENCOUNTER TAKES PLACE IN SANTA CLARA.

FORMER PRESIDENTIAL CANDIDATE LOCKED IN JAIL.

Havana, Aug. 24.—The first encounter in Santa Clara province occurred this morning. A detachment of rural guards attacked an insurgent band, commanded by Manuel Gonzolez, between Santo Domingo and Colon. The insurgents were scattered and some of their arms and ammunition was captured.

Campos Marquette, a radical liberal member of congress for Artenia, province of Pinar del Rio, has joined the insurgents.

Jose Miguel Gomez, who was a candidate for the presidency last fall, and who was arrested August 21 at his residence near Sancto Shiritus, province of Santa Clara, arrived here from Batabano on a special train early today and had been escorted to the city jail before his arrival in this city became known.

Orestes Ferrara, who was the campaign secretary of Jose Miguel Gomez and who was with him in New York several months ago, was arrested in the city of Santa Clara today on a charge of conspiracy. Ferrara is suspected of trying to secure arms and ammunition from the United States for the use of the insurgents.

All eyes in Cuba are turned towards the provincial capital of Pinar del Rio, for upon the ability of Pino Guerra to capture the city of Guanes depends, it is believed here, the outcome of the insurrection. The occupation by the insurgents of the towns southwestward of Pinar del Rio is regarded as only preliminary to a movement on Pinar del Rio. The outcome depends on the loyalty or disloyalty of the people. Guerra is gathering hundreds of veterans and others under his leadership and it is impossible to estimate the sincerity of the people in Pinar del Rio who have been looked upon as likely to support the government. A detachment of 20 Cuban artillerymen from Havana have reached Pinar del Rio where they will co-operate with the rural guards and volunteers. These artillerymen, however, can only act as infantry as they have not been trained to use field guns. A hospital corps and other details are following the artillerymen in readiness for what is expected to be a short and decisive campaign. In Santa Clara and Mantanaz provinces the rural guards and police and many volunteers are preparing to resist the insurgents. Considerable sympathy is developing in Havana for general Gomez, now in the city jail here, who is commonly believed to be too broad minded a patriot to mix himself up in revolutionary schemes. Gomez, in the jail, told a correspondent for the Associated Press that he was in no way concerned in the conspiracy, and added that he had been arrested because many of his friends were in camp.

Tampa, Fla., Aug. 24.—A private cablegram yesterday from one of the largest exporting firms in Havana to its correspondents here says the revolution in Cuba is assuming grave proportions. The information has caused much alarm here and it is noticed that all ships arriving from Havana are crowded with shipments of tobacco indicating that importers here feel great anxiety and are getting as much tobacco out of Cuba as possible before it may be impossible to bring shipments out of any Cuban port.

TELEGRAMS OF A DAY

BARON ARRESTED FOR STEALING JEWELS FROM HIS WIFE

EX-MEMBER OF BRITISH PARLIAMENT GETS OUT OF JAIL

Berlin, Aug. 24—The Lokal Anzieger today announced the arrest at Hamburg yesterday of a man who described himself as Baron Santos Von Dobroaski Donnersmark, said to be a metal worker named Konrad, who married an American girl of good family in Manila, and who is charged with having recently deserted her in Paris, taking with him jewelry belonging to her valued at $8000 and also a sum of money. The man's arrest is reported to be due to the American consul at Hamburg. It is added that the greater part of the jewelry has already been disposed of by the "baron" but the police secured the remainder.

San Francisc, Aug. 24—Southern Pacific officials state that the Salton sea in the Colorado desert is rising less than an inch a day now and that they expect in a few weeks to begin work on a plant by which the Colorado river will be once again restored to its old channel. This will probably cost the company $700,000. Engineers say that once the river is sent back into its old channel the water in the socalled Salton sea, notwithstanding it is 30 feet deep in many places, will through percolation and rapid evaporation, under the terrific heat of the dessert, all disappear within two or three years.

London, Aug. 24—The home secretary has decided to realese, upon the expiration of one year of his sentence, Hugh Wall, the financier and ex-member of parliament, who on December 21 last was sentenced to five years penal servitude for having incited hired agents to murder his divorced wife.

Odessa, Aug. 24—Robberies and murders having become frequent here the citizens have petitioned the governor to double the police force and compel every proprietor of a house to maintain three, instead of one, armed porters.

Warsaw, Aug. 24 — Revolutionists last night attacked the railroad station at Otweck, killed an employee and escaped with $4000. The troops arrested 11 suspects but when the train carrying the prisoners approached Warsaw, 60 armed men stopped it. Ten soldiers fired on the highwaymen, killing one, wounding one and arresting another. The other fled to a neighboring fort.

Cambridge, Mass., Aug. 24—A cablegram has been received at the Harvard college observatory from Prof. Kreuts of the Kiel observatory announcing that a comet, visible through a small telescope, was discovered by Prof Kopenfof, of the Heidelberg university on Aug. 23.

Toronto, Aug. 24—The sweltering heat which made dignity and comfort impossible, failed to spoil the luncheon given by the Ontario branch of the Dominion Alliance yesterday afternoon, which was a notable event in the British medical congress program. Luncheon was served at the university gymnasium and brought together many notable temperance workers, as well as distinguished physicians from Great Britain and the United States.

Honolulu, Aug. 24—The wrecked steamer *Manchuria, heavily anchored against any* further drift inshore, is believed to be safe from danger for months unless in case of storms. The steamer's bottom being deeply imbedded in the reef involves the grave possibility of her breaking up quickly during a northerly storm. Captain Saunders and the agents of the Pacific Mail company are, however, sanguine of being able to save the steamer.

Seattle, Aug. 24—The gunboat Princeton arrived from Vancouver last night, bringing the body of rear admiral Charles J. Train, late of the Asiatic squadron, who died at Chefoo, China. Admiral Swinbourn, commanding the Pacific squadron, went to Vancouver aboard the Princeton. The body was shipped east.

Madrid, Aug. 24—The newspapers of this *city yesterday printed the report of the* examining magistrates in the case of the coronation bomb throwing. The report of the magistrates say that by the explosion 25 persons were killed and 109 injured, of which latter number 14 are still convalescing. The report says that the evidence proves that Morales sent bombs from Barcelona to Paris to be used in an attempt on the life of king Alfonso, while he was in the latter city.

MAKE HAY WHILE THE SUN SHINES

There is a lesson in the work of the thrifty farmer. He knows that the bright sunshine may last but a day and he prepares for the showers which are so liable to follow. So it should be with every household. Dysentery, diarrhoea and cholera morbus may attack some member of the household without warning. Chamberlain's Colic, Cholera and Diarrhoea Remedy, which is the best known medicine for these diseases, should always be kept at hand, as immediate treatment is necessary and delay may prove fatal. For sale by all druggists and dealers.

RESCUED JUST IN TIME

DROWNING FATALITIES BARELY PREVENTED YESTERDAY.

FOUR PERSONS IN GREAT PERIL ON KOOTENAY LAKE.

There were two narrow escapes from drowning yesterday, one on the waters of the arm and the other on the main lake.

About 4 o'clock, W. G. Adams, the well known boat builder, and Rev. E. H. Shanks, pastor of the Baptist church, were on board Mr. Adams' launch, coming down the lake near the north shore just about opposite the ship yards.

Upon rounding one of the many rocky points that abound in the locality mentioned, the occupants of the launch came upon an overturned canoe with a lady and man clinging to it. There was a small boat attached to the launch, and Mr. Shanks quickly got this and hurried to the rescue. The lady, Miss Rebecca Boyes, of this city, who behaved most pluckily and quietly, was rescued by Mr. Shanks and taken to Mr. Hyslop's house nearby, where she was looked after and later brought to the city none the worse for her ducking. Mr. Hearn the other former occupant of the canoe was rescued by some one who came to his aid in a boat from the shore. The pair had not been in the water very long before they were discovered and safely brought to shore.

When the Kuskanook was steaming up Kootenay lake yesterday afternoon about 4 o'clock on her way from the Landing to this city, and just before turning into the Arm at Proctor, she was hailed by the two occupants of a small boat, who wanted to be taken aboard. The steamer slowed down and then stopped entirely waiting for the small boat to come alongside. When the small boat was quite close to the steamer it, in some way capsized and both its occupants were thrown into the water. The two were Charlie Stevenson, brother of Fred Stevenson, of the C. P. R., and Gordon Trenouth, both of this city. Stevenson has been in the hospital here for some time and is only commencing to recover his strength and health.

Instanly the upset took place the order rang out for lowering away one of the Kuskanook's life boats, and with commendable despatch the boat was lowered away in charge of the mate, who managed to rescue both Stevenson and Trenouth. The former had a close shave for it, and went down twice before he was hauled into the lifeboat. Life preservers and life buoys were thrown over to the struggling pair from the steamer deck but it was the clever work of the mate and those on the life boat that saved the pair and prevented a double drowning fatality. Passengers on board the steamer who witnessed the whole affair spoke very highly last evening upon the promptness shown in rescuing the two young fellows.

VANCOUVER STILL LEADS

EASTERN CITIES CANNOT EQUAL ITS BANKING INCREASE

BRADSTREET REPORTS CANADIAN TRADE HEALTHY

New York, Aug. 24—The following are the weekly bank clearings as compiled by Bradstreet's for the week ending Aug. 23, showing the percentages of increase and decrease as compared with the corresponding week last year:

		Inc.	Dec.
Montreal	$27,235,200	16.7	....
Toronto	20,234,478	10.5	....
Winnipeg	8,208,385	5.7	....
Ottawa	2,815,078	24.3	....
Vancouver	2,657,470	45.1	....
Halifax	1,647,260	15.2	....
Quebec	1,403,377	....	5.0
Hamilton	1,403,377	21.5	....
St. John	1,208,352	30.1	....
London	926,542	....	5.0
Victoria	740,202	18.3	....
Calgary	945,008	....	....
Edmonton	920,522	....	....

Bradstreet's tomorrow will say: Assurances of good crop yields help Canadian trade and dry goods and hardware lines are especially active, while retail trade is naturally quiet, pending the finishing of the harvest. The dairy product trade is large and export demand brisk, although results are smaller owing to failing pasturage.

General trade is brisk. The tomato pack in Ontario is light, the crop being damaged. Collections are from fair to good at Toronto. Intense heat affects trade in the Northwest but Winnipeg reports that damage to wheat from this cause is not likely to be large.

Trade is active in British Columbia, where lumbering, mining and fishing are active. Salmon prices tend upward.

Failures for the week number 22, as against 22 last week and 14 in this week a year ago.

MEN'S LIKES ARE ALIKE

Young Men Want Smarter Designs Than the Elders in Clothes

Young men like the collegiate style of the Semi-ready tailoring, a very chic sack suit, but they want also the double breasted coat. Ask to see those when you look at the Semi-ready tailoring. They have a distinction all their own, and in the physique type method there is a perfect fit for every man—short or stout, tall, thin, slim, normal or abnormal—every type of manhood has its Semi-ready style of suit. The $15 Semi-ready suits have the same style and work on them as their $30 or $25 suits.

J. A. Gilker, Agent, Nelson.

SUMMER DIARRHOEA IN CHILDREN

During the hot weather of the summer months the first unnatural looseness of a child's bowels should have immediate attention, so as to check the disease before it becomes serious. All that is necessary is a few doses of Chamberlain's Colic, Cholera and Diarrhoea Remedy followed by a dose of castor oil to cleanse the system. Rev. M. O. Stockland, pastor of the first M.E. church, Little Falls, Minn., writes: "We have used Chamberlain's Colic, Cholera and Diarrhoea Remedy for several years and find it a very valuable remedy especially for summer disorders in children. For sale by all druggists and dealers.

CUBA'S APPEAL TO U. S.

CORRESPONDENT MISINTERPRETED THE SITUATION

CUBAN GUNS WILL MERELY BE MANNED BY U. S. SOLDIERS

Havana, Aug., 24—President Palma will personally defray the expenses of the rebel general Bandera's funeral. The members of the staff of colonel Maximo Gomez in the war for independence, met today and offered their services for the funeral.

Reports from the country districts say that the people generally have been influenced by the liberal leaders and are inclined to distrust the motives of president Palma's government. Therefore they very readily sympathize with the cause of the insurgents. In the cities there is much more approach to genuine patriotism, but the government's offer of $3 pay a day for all recruits, meets with slow response. Many men are interested in the crisis as onlookers, but a genuine, general desire to fight for the government is lacking.

Font Sterling, secretary of the treasury, late tonight cleared up in a statement to the Associated Press a misleading announcement made at the palace last night, to the effect that the Cuban government had asked the United States for eight rapid fire guns, manned by American artillerymen, to be used in the suppresion of the insurrection. The facts are, according to the secretary, that the government has ordered from an American arms manufacturing company, four rapid firing guns and that these will be manned by former members of the artillery branch of the American army now here. If these guns prove to be effective four or more additional guns will be ordered, and it is expected that experienced gunners can be procured in the United States to man them. The United States has not yet been asked to do anything in the premises. The subject of American intervention is not much discussed here, and is regarded as a remote possibility, there being general confidence that the government will be able to restore order in a short time.

The Platt amendment, the legislation which defines the conditions on which the United States should withdraw from Cuba and turn the island over to the control of the Cuban people, provided that part of the new republic's constitution should contain certain conditions concerning the relations of the United States with Cuba. These conditions were: "That the government of Cuba consents that the United States may exercise the right to intervene, for the preservation of Cuban independence, for maintenance of a government adequate for the protection of life, property and liberty, and for discharging obligations with Cuba laid by the treaty of Paris on the United States and now to be assumed and undertaken by the government of Cuba."

New York, Aug. 24—The Tribune says: "President Roosevelt is to be appealed to by local Cuban-Americans and Americans with commercial interests in Cuba, to use his influence to end the strife now in progress, before these interests are interfered with, as it is feared they will be."

Although it is not officially confirmed, it is reported here that the steamer Esperanza, which sailed for Cuba yesterday, carried in her hold a field battery of artillery consigned to the Cuban government. Captain Luis More of the Cuban artillery, who has been in the United States with his wife, on leave of absence, was recalled hurriedly to Havana and sailed on the Esperanza.

London, Aug. 24—The newspapers print editorials on the situation in Cuba and speculate as to the probability of the United States being obliged to intervene to restore order. However, it is generally admitted that the American government has no necessity to take any such a step, as it would mean annexation of the island. The Daily Telegraph says that intervention would create something like ferment throughout the Southern American republics and would be exceedingly malapropos so soon after the international American congress. However, South American interests are so great in the island that, malapropos or not, public opinion in the United States will not certainly tolerate a prolonged rebellion which would stultify all the good work accomplished there under American influence.

The Morning Post, arriving at a similar conclusion, suggests that the difficulty of the Spaniards dealing with the turbulent islands was greater than the Americans originally were inclined to believe.

The Daily Mail thinks it a mistake to suppose the rising can be easily or swiftly suppressed and that the United States will be obliged to intervene. "From a British standpoint, however," the Daily Mail says, "there is cause for dread of American annexation. British financial interests there are large and the island has become the field for Canadian investment, and once a stable and orderly government is established, Cuba will speedily attain undreamed of prosperity."

The Daily Mail says it thinks the situation in Cuba should be a warning to Great Britain to go slowly in the Transvaal.

JOHN BOULTBEE DEAD

Former Police Magistrate Succumbs to Bright's Disease at Rossland.

John Boultbee, ex-police magistrate of Rossland died at the home of his daughter, Mrs. G. Cruickshank, in Rossland. The funeral services were held in Rossland yesterday afternoon, and last night the remains were shipped to Vancouver, where they will be interred beside the body of the deceased's wife, who died about three years ago. Mr. Boultbee was born in Dundas, Ontario, 54 years ago. In 1876 he married Miss Hampton, of Hamilton. Over 20 years ago he came west to Vancouver and was police magistrate there for a time. In 1895 he went to Rossland and was appointed police magistrate there in 1899, a post he held until 1903. Of late years he suffered from Bright's disease and his death was not unxpected. He had been residing at the home of one of his daughters in Vernon until about a month ago, when he came to Halcyon Hot Springs, and later to Rossland. Mr. Boultbee leaves three sons and four daughters to mourn his demise. The sons are William, Herbert and Leonard, and the daughters are Mrs. G. Cruickshank, Mrs. F. A. Hewer, Miss Ethel and Miss Harriet.

NELSON'S NEWS OF THE DAY

H. S. Wallace, ex-mayor of Rossland, is a guest at the Strathcona.

Mrs. Starmer Smith returned last evening from a two months' visit to the coast.

E. E. Phair, who has been spending the last few days at the Strathcona, left yesterday morning on a visit to Winnipeg.

A rehearsal of the young ladies who are taking part in the drill for the fair, will be held in Fraternity hall this afternoon at 5:30.

The trustees of the Hume school district announce that the school will not reopen for the fall term next Monday morning, but due notice will be given of the time of opening.

John R. Green, the first male principal of the public school here, who left Nelson some years ago, and who is now residing in Moose Jaw, accompanied by his wife and family is a guest at the Queen's.

At the mining recorder's office on Aug. 24 Alice Broughton recorded the location of the John Peel on Goat mountain, north of Creston. N. Hartman and J. Waldbeser recorded the Solma and the Verona eight miles from Salmo.

Rev. I. G. Barlow, who, with his family, has been a guest of his brother-in-law, Mr. W. Rutherford will ocupy the pulpit of the Methodist church on Sunday evening next. Mr. Barlow has spent some years as a Methodist minister in Ontario and is now on his way to the coast to join the ranks of the ministers of the B. C. conference.

The Pringle company, with Miss Florence Pringle as leading lady, after notable successful engagements in Tacoma, Portland, Seattle and Spokane, will open a week's engagement at the Sherman opera house on Monday night. The opening play is one of the strongest and most effective on the company's extensive repertoire of highly interesting plays, "The Convict's Daughter," a comedy in four acts. There will be a change of play each night. Seats are now on sale.

James Bundock, the C.P.R. operator, who was so severely injured in jumping off the Boundary train above Robson a week ago, lying unconscious on a rock pile near the track all night, and not being discovered until the following morning, died at the Home hospital yesterday afternoon from an abscess on the brain. The remains were removed to Robertson's undertaking parlors awaiting instructions from a brother of the deceased who is expected to be in the city today.

Thomas Long, chief of police of Rossland, came over last night with "Silver" Skuleds, sentenced to four months in the provincial gaol for theft. Chief Long has another prisoner coming up in the person of Oliver Paul sentenced to three months in the goal here for selling liquor to a Siwasher Rosslander. Paul is not very well just now, but will come under warden Lemon's care a little later.

INK SPATTERS

Count much in one's advertising. See that it is spattered right. Use only printing that will speak for itself. Ours does.

The Daily News Job Dept.

A GENTLEMAN'S WANTS

FOOT COMFORT

is something that everyone is looking for. We can fit you out with a pair of the comfortable Walkover shoes and you will not be sacrificing style either. These shoes are the best on the market.

NECKWEAR

Distinctive—exclusive—new styles and at prices about a third less than you would pay elsewhere. An excellent assortment. See our window.

HATS

"Put on the lid." Step in and get a fine new straw or Panama Hat. Syles galore. Prices to suit.

SUITS

Semi-Ready Clothing is known all over Canada. It is just what it is named—tailored clothing all ready to be fitted to the man and completed in a few minutes. Why pay $30 for a made-to-order suit when $15.00 will buy one made-to-fit at our store.
