ROSSLAND'S CELEBRATION

Eleventh Anniversary of Miners' Union Happily Commemorated

Speeches by Mayor McDonald, J. A. Macdonald, M.P.P. and J. H. Hawthornthwaite, M.P.P.--Athletic Sports

(Special to The Daily News)

Rossland, July 16.—The first day of the two days' celebration in honor of the 11th anniversary of the founding of Rossland Miners' union, No. 38, W. F. M., proved entirely successful and was heartily enjoyed by a large number of visitors from outside points.

The first event of the celebration was the parade which, under the direction of marshall J. A. MacKinnon, and his five aides, formed in line and started from the Miners' union hall at about 9.30 a.m. The parade was headed by two members of the union carrying a large Union Jack, immediately followed by the Greenwood concert band, in their trim uniforms of dark red. Next following their standard, came the members of Rossland Miners' union, No. 38, of the Western Federation of Miners; then the Rossland band and the ladies' auxiliary of the local union. The parade contained in all over 700 persons, and was one of the largest ever seen in the history of Rossland. After the parade the speakers of the day took the platform.

President Stewart, of the Miners' union, introduced the speakers, and in his opening remarks referred to the twofold object of the celebration, viz., to commemorate the 11th anniversary of the founding of the local miners' union, and to bring into closer relationship the working men and the business men and citizens of the community generally.

His worship, mayor McDonald, was then called upon, and he expressed his pleasure at seeing such a large turn out and so many visitors from neighboring towns. His worship stated that harmony and honesty of purpose were absolute necessities in the upbuilding of our city, the hub of Golden Kootenay. In his conclusion, he extended to the visitors a hearty welcome and the freedom of the city.

J. A. Macdonald, M.P.P., was next introduced and expressed his thanks for the opportunity of addressing such a large audience on this, the greatest celebration ever held by the Rossland Miners' union. Mr. Macdonald briefly reviewed the unhappy differences in the past, as caused by the strike of 1901, and also pointed out that the chief drawback to our community in the past few years was not the strike alone, but the mismanagement, and in some cases the dishonest management of our large mines. To this must be added the unfair way in which the stocks of Rossland mines were handled on the London market. But all this belongs to the past, and today's celebration indicated that Rossland has safely entered upon a new era of prosperity. Referring to the constitution of the Rossland Miners' union, Mr. Macdonald highly commended the principles of conciliation and arbitration as laid down in the laws of this union. He further suggested that the preamble of that constitution be spread among the public generally, in order that they might have a better understanding of the aims of this organization. As a closing word of encouragement Mr. Macdonald expressed as his firm belief that this camp and its mines would once more command the interest of the outside world, which it did up until six years ago.

The next speaker called upon was W. Davidson, M.P.P., of Sandon. He emphasized the vastness of the organization of which the Rossland Miners' union is an important unit. He said that each member of that organization was pledged to do all in his power to better the condition of the wage-earners, the wealth-producers of the world. Mr. Davidson referred to the leaders of the W. F. of M., who were at present held in prison in Idaho, stating that the local union was just one of scores of such unions that expressed their firm belief in the innocence of these two men; that their only crime was loyalty to their organization and to the great body of working men throughout this continent.

The last speaker introduced was J. H. Hawthornthwaite, M. P. P. for Nanaimo. The speaker first extended praise to the Rossland fire department, for it was owing to their faithful service of last Saturday that Rossland was today a city of rejoicing instead of one of mourning. Her too, spoke of the innocence of the members of the W. F. of M. now imprisoned in Idaho. Many false rumors had been spread regarding the anarchistic propensities of some of the members of the organization, but this morning he had made a thorough search of the miners' union building half expecting to find, hidden, quantities of pistols, ammunition, bombs, etc., but the search had been fruitless for all he could find that might prove dangerous was a number of pretty young women of the local ladies auxiliary, and they, of course, would prove dangerous to the young bachelors only. Mr. Hawthornthwaite combatted some of the hopeful prophesies of the previous speakers, by claiming that the return of prosperity to our camp was for all but the working men, that their only hope for the betterment of their condition lay in the united political action of the working classes.

After the speechmaking came the sports, the results in some of the chief events being as follows:

Wood-Sawing Contest—First prize, Ben Williamson; second prize, Harry Duke.

Wood-Chopping Contest—First prize, Jos. Couture; second prize, Harry Duke.

The drilling contest resulted as follows:

John Post and Caesar Polesto, 20½ inches.

Caesar Gillan and Robert Lennox, 21½ inches.

James and George Foulds, of Greenwood, 27 3-16 inches.

John Klemon and Eric Tokol, 19½ inches.

The down holes only were drilled and the drilling of the up holes will take place tomorrow. Should the Foulds brothers do as well with the up holes they will win first prize and should Gillan and Lennox make as good a showing with the up holes tomorrow as with the down, they will be entitled to second money.

The mucking contest was won by John Covello in 12 minutes, 29 seconds, with A. C. Andrews second in 14 minutes and 40 seconds. There were six entries.

In the tug of war contest between the Josie and the Le Roi teams, the Josie won after a hard pull of half an hour, by two and a half inches.

O'BRIEN HARD PRESSED

CALIFORNIAN AMATEUR, SAM BERGER PUT UP GREAT FIGHT.

HEAVYWEIGHTS IN FAST AND FURIOUS SIX-ROUND FIGHT

Philadelphia, July 16.—Sam Berger, the Californian amateur heavyweight, gave Philadelphia Jack O'Brien the hardest six-round battle of his career tonight. Notwithstanding that O'Brien frequently sent his right and left to the neck and chin, Berger came back and forced the fighting in every round.

O'Brien had all the advantage in the opening round. His foot work seemed to dazzle Berger, but as the fight progressed the Californian immediately improved.

In the second round Berger opened up a deep gash over O'Brien's eye, and the Philadelphian had Berger bleeding from the nose. Both men were covered with blood as they went to their corners.

The third round was one of the fastest ever witnessed in this city by heavyweights. O'Brien was forced to use all his cunning to avoid Berger's rushes, and the latter again opened up O'Brien's damaged eye with a vicious right. Just at the close of the round O'Brien's short arm jolt to Berger's jaw made the latter's knees knock together.

The fourth round was a repetition of the third. Berger had the Philadelphian worried in the two closing rounds. When O'Brien led, he would invariably jump in the air and swing his left around Berger's neck. When the fight ended both men were covered with blood and the referees shirt was crimson from his efforts to separate the contestants. When they rushed to a clinch, it was several seconds before the referee could make them break clean.

The men entered the ring in perfect condition, and as they agreed to fight at catch weights, announcement was made of their respective weights. Berger's manager said the Californian weighed about 200 pounds, while O'Brien weighed close to 175. No decision is allowed in bouts in this city, but it seemed to be the consensus of opinion that O'Brien had a slight advantage.

Berger, however, surprised the sports by his cleverness and also his gameness. He always came back after the Philadelphian no matter how often O'Brien sent his left to Berger's jaw.

The fight by rounds:

First Round—All in favor of O'Brien, who landed almost at will.

Second Round—Berger opened a gash in O'Brien's left eye, and Jack had Berger bleeding from the nose. Both men were covered with blood as they went to their corners. The round was slightly in favor of Berger.

Third Round—Berger opened up the cut over the left eye, and O'Brien had Berger's left eye almost closed.

Fourth Round—This was the most vicious round of the battle and honors were even when the gong sounded. Up to this time the fight had been one of the fastest in this city.

Fifth Round—O'Brien had the advantage in this round. He repeatedly landed his left on Berger's chin and wind and had the latter tired at the gong.

Sixth Round—O'Brien had a slight advantage in the closing round. He landed repeatedly, but his blows did not have sufficient force behind them.

Berger was cheered as he left the ring.

WALFRED GROUP BONDED

Wellington Camp Properites Secured By New York Capitalists.

(Special to The Daily News)

Grand Forks, July 16.—Captain Rogers just closed a deal for his group of gold-copper properties known as the Walfred group to a New York syndicate for a sum reported to be about $100,000. This group consists of four claims called the Walfred, St. Lawrence, Silverton and V. A. They are located on Fourth of July creek in Wellington camp and have had a great deal of development work done on them in the way of sinking shafts and driving tunnels, over 1000 feet of diamond drilling also having been done, with excellent results. This group was located in 1895. By the terms of the bond work on the group must be carried on continuously for 12 months.

W. H. Covert, the veteran fruit grower of southeastern British Columbia, is authority for the statement that at least 70 tons of Italian prunes will be grown this year on the Covert estate. He also says that other fruits will yield proportionately large craps.

J. W. Shaw has just arrived here today from the C. P. R. group of claims in Franklin camp and reports that at a depth of only 15 feet on the C. P. R. claim a two foot seam of high grade ore was encountered, samples of which have just been assayed by a well known Spokane assayer, and showed returns of $4.68 in copper, $1.32 in silver and $41.43 in gold, making a total assay in all values of $47.43. This group consists of five claims called the C. P. R., Victor, O. K., Gold Finch and I. S. This promising group is owned by J. W. Shaw, Sam Horner and others.

F. Johnson, foreman of the right of way of the Kettle Valley railway, has been summoned to appear before the police magistrate charged with an infraction of the Provincial Bush Fires Act, it being alleged that he started a fire near Bannock City.

TO MAKE JOHN D. QUAKE

Cleveland, Ohio, July 16.—The Plain Dealer tomorrow will say: Basing his opinion upon the testimony already submitted to the federal grand jury in this district, attorney-general Moody believes that the government has at last secured the evidence which will lead to the bringing of the Standard Oil company to its knees.

The return of district attorney Sullivan from an all day conference with the district attorney-general at New York will make a complete change in the plans of the government in connection with the fight to stamp out trade discrimination by the gigantic corporation.

MOTHER NOW IN CHARGE

MRS. WILLIAM THAW WILL LOOK AFTER SON'S DEFENSE.

AFFECTING INTERVIEW AT THE TOMBS YESTERDAY

New York, July 16.—Immediately following her first interview with her son, Harry K. Thaw, in the Tombs today since her return from Europe on Saturday, Mrs. William Thaw assumed full charge of the defense and arranged to retain the services as counsel of the firm of Black, Olcott, Gruber and Bonynge, who were dismissed by young Thaw a few days ago. This action is taken to mean that Harry K. Thaw's desires and opinions regarding the defense will be ignored.

The meeting between Mrs. Thaw and her son in the Tombs was a most affecting one. After the first greeting they were left alone to converse through the bars of the cell for half an hour. During the interview the prisoner's wife stood in silence in the corridor a few feet away from the cell door, awaiting her turn to speak with her husband. No words were exchanged between Mrs. Thaw and her daughter-in-law.

SENATOR BOSTOCK.

Work of the Senate—Forestry Convention—Sir Wilfrid Not Able to Attend

Senator Bostock arrived in town last evening on his way home from Ottawa. He will go over to Rossland this morning and leave for Revelstoke in the evening.

Speaking of the work of the past session, Mr. Bostock said he thought careful review of what had been accomplished in the senate would justify the belief that that body was serving a useful purpose. There had been a lot of talk about reforming the senate, but the only reform feasible, in his opinion, must be brought about by the senators themselves in the greater attention devoted to the work, some if it very important, that come before them. Last session the senate got through a great deal of really useful work. This was due largely to the fact that there are now in the senate a number of energetic, hardworking men, who devote themselves assiduously to whatever comes up. Mr. Bostock considers the senate's work in connection with railway legislation of special importance.

As is pretty well known in the interior, senator Bostock is an enthusiast on the subject of forestry. He anticipates a splendid gathering in Vancouver on September 25 and 26, at which the governor-general will be present, as well as forestry experts from all parts of Canada and the United States. He is afraid that sir Wilfrid Laurier will not be able to make the trip to the coast this fall.

CANADIAN CRACK SHOT.

Sergeant Simpson At Long Branch Scores 104 Out of Possible 105

Toronto, July 16.—Sergeant J. H. Simpson, of the Grenadiers, shooting for the sergeants' inter-regimental Stimson trophy, at Long Branch rifle ranges on Saturday, made 104 out of a possible 105, seven bulls each, being made at 200 and 500 yards, and six bulls and an inner at 600 yards. Simpson is an old Wimbledon and Bisley representative of Canadian marksmen.

APPEAL REFUSED

London, July 16—The privy council today refused the appeal of Youdall vs. Toronto and British Columbia.

PASSED INTO HIGH SCHOOL

Every One of Nelson's Candidates Secured Necessary Marks

Richard M. Ferguson Among Winners of Governor-General's Bronze Medals- Results in all Up-Country Centres

(Special to The Daily News)

Victoria, July 16.—The high school entrance examination results were issued by the department of education today. The governor-general's bronze medals were won by up-country pupils as follows:

Grand Forks—Ida Hartinger.
Kamloops—Maud Davis.
Nelson—Richard M. Ferguson.
Revelstoke—Charles Gordon.
Rossland—Eva M. Doell.
Kaslo—Clare M. Stephenson.
Trail—Delbert Brown.
Fernie—Viola White.
Vernon—Jessie Kennedy.

Results by centres are as follows:

TROUBLE IN EGYPT

London, July 17.—The correspondent at Cairo of the Express learns that in view of the rapidly increasing fanaticism of the natives, elaborate plans for strengthening the army occupation have been prepared by lord Cromer, the British agent and consul-general of Egypt, and his advisers.

NELSON'S NEWS OF THE DAY

Judge D. H. Carey of Colville, is at the Hume.

C. de S. Batchelor, ore buyer of Spokane, is at the Strathcona.

The Club hotel is under new management, Joseph Sturgeon, who formerly owned the Sherbrooke hotel, taking charge yesterday.

The baseball match at Trail on Sunday between the Nelson intermediates and the local juniors resulted in a win for the home team by a score of 14-7.

D. W. Moloney, formerly of Rossland, but now residing in Spokane, spent last evening in the city and will return south this morning, when he will be accompanied by his son W. D. Moloney of this city.

Sunday's afternoon concert at the park was very largely attended and proved the most successful one yet held, both cars running and the weather at the park being ideal for an afternoon's outing.

On Sunday the thermometer ranged between 89 and 52, and up to last evening the range was 87-64. Sunday night was a record warm one this year, the glass not going below 64, 62 some nights ago being considered an unusually warm night.

P. Ryan of New York, son of the insurance magnate, who has been visiting the Franklin camp, passed through the city Sunday on his way east in a special car. With the party was P. A. O'Farrell, well known to all western mining men.

Thomas Parker of this city, provincial inspector of weights and measures for the Kootenay, was in Saturday's Rossland fire, being a guest at the Windsor house at the time. He lost a suit case and a lot of personal belongings, but his books and papers were saved.

CANADIANS AT BISLEY

Team Scoring Has Been Poor Except in Kolapore Cup Contest

Bisley Camp, July 16—The weather today was warm and the light conditions for shooting were poor. Scores in the Alexandra match at both 200 and 600 yards were poor. Total scores of 61 will likely be among the prize winners.

The following are the aggregate scores of Canadians: Pte. Allen, London, 56; Pte. Blackburn, Winnipeg, 61; sergeant-major, Caven, Victoria, 61; Pte. Drysdale, Montreal, 55; major Dillon, Oshawa, 52; captain Forest, Vancouver, 64; sergeant Gilchrist, Guelph, 57; sergeant Huggins, Hamilton, 57; sergeant Hayhurst, Hamilton, 59; sergeant Kerr, Toronto, 61; Pte. Leask, Toronto, 63; piper Leask, Toronto, 51; sergeant Mortimer, Ottawa, 62; sergeant Nichols, Toronto, 59; Pte. Pinard, Ottawa, 56; lieutenant Semple, Truro, 65; sergeant Bayles, Toronto, 58; captain Mitchell, Toronto, 61. Private Smith, captain Skeddon, Hamilton; sergeant Whitley, Toronto, and corporal Youhill, Winnipeg shot at the 600 yard range only. Their respective scores were 27, 29, 29, 33.

Canadians did poorly in the Graphic Daily Graphic and Daily Telegraph competitions on Saturday. The Daily Graphic is fired at 200 yards, seven shots. Sergeant Hayhurst finished in 45th place and sergeant-major Caven of Victoria, in 54th place, each winning £3.

The Graphic is at 500 yards. In this match the Canadian prize winners were captain Skeddon of Hamilton, who won a framed sketch and 100 shillings; major Dillon, who was in 45th place and captain Mitchell, who was in 53rd place, each winning 58 shillings.

In the Daily Telegraph, 500 yards, none of the Canadians figured in the prize list. Unless the work of the team picks up, its showing will, with the exception of the Kolapore cup, be poor.

The Prince of Wales and Alexandra matches, both at 200 and 600 yards were fired today. The first stage of the king's prize opens tomorrow.

In the first stage of the Alexandra competition, seven shots at 200 yards, sergeant-major Caven, Victoria, made 30 and captain Forest, Vancouver, 32. At 600 yards Caven scored 31 and Forest 32.

In shooting for the Prince of Wales' prize, first stage, 10 shots at 200 yards, Caven scored 45 and Forest 47.

QUEER MISSION TO WASHINGTON

Gourdain Seeks to Have Penitentiary Sentence Enforced

Joliet, Ills., July 16—Louis A. Gourdain arrived in Joliet today accompanied by his wife and son. His baggage was labelled "penitentiary annex." Gourdain took a carriage for the street corner nearest the main entrance to the prison and prepared to establish his family in quarters outside the gates of the institution. He left this afternoon for Washington to plead with the United States supreme court that the penitentiary sentence hanging over him be enforced. If he fails in this effort, Gourdain said today he would build a prison here and immure himself.

Gourdain was convicted of conducting a lottery and sentenced to four years' imprisonment. He was released from jail on July 13, pending an appeal to the supreme court. Gourdain, however, insisted on serving the sentence in the state prison, saying the Cook county jail was too noisy for him.

CRANBROOK OUTPLAYED

DEFEATED BY LETHBRIDGE BY SCORE OF 5 TO 1.

GOOD GAME IN WHICH VISITORS WERE FAIRLY BEATEN

(Special to The Daily News)

Lethbridge, July 16.—Cranbrook beaten by five goals to one is the verdict in favor of Lethbridge and it about fairly represents the merits of the teams on the day and as the game was played. The visitors were beaten fairly and squarely and on the merits in open play, in combination and most certainly in defence. The Lethbridge team on their own ground was about the equal of the Cranbrook team on their home territory, and the real tug of war will come when they meet for the rubber on neutral territory.

There was a really splendid gathering in the park to witness the match, the ladies' white frocks and the Lethbridge combination of red, made the border of the field like a parterre of flowers.

At times the play was pretty fierce, Robinson of the home team was badly cut about the lip and then to even up matters Jamieson of the Cranbrook team, got a swipe from Barney Scott, which laid his scalp open for six inches. Dr. Coffin had to put five or six stitches in the wound. No possible fault could be found with the manner in which order was kept and the fairness displayed the visitors. It was a good, hard game and the better team won.

TO DEVELOP C. P. R. COAL LAND

Work Now in Progress at Hosmer—Italian Assault on Chinese.

(Special to The Daily News)

Fernie, July 16.—The combined Sunday schools will hold their annual picnic on July 26th to Elko as usual and have chartered a special train to accommodate the children and the large number of friends who have expressed their intention of accompanying them.

It is evidently the intention of the C. P. R. to develop their coal areas at Hosmer as soon as possible. Already John Brown, the engineer in charge, has a large gang at work and it is proposed to drive a 3000 foot tunnel. The coal will be hauled 1200 feet by tramway to the C. P. R. line.

W. T. White, accountant in the local branch of the Bank of Commerce, has returned to Fernie with his bride and has rented Mr. Liphardt's house on Riverside avenue for the summer.

An unknown Italian made a brutal assault on Lee Wing, a Chinaman, last evening, striking him several times over the head with a club rendering him unconscious, and inflicting a deep gash across his forehead which required several stitches. He fled before the police could be summoned, but another Italian, who interfered with one of the pursuer's was arrested and lodged in the provincial jail. A good description of the fugitive has been obtained, and his arrest is only a matter of a few hours.

Members of the Kootenay rifles turned out in goodly numbers yesterday afternoon at the Rifle range where there was keen competition for the silver spoons donated by captain McEvoy.

The league football match between Coleman and Fernie on Saturday resulted in a draw.

BAMBAATA'S HEAD.

Body Was Decapitated For Identification Purposes Only.

London, July 17.—The correspondent at Pietermaritzburg of the Mail gives to that paper this morning what purports to be the official story of the decapitation of the Zulu chief Bambaata's body and its exhibition to the natives.

According to this version, a rebel prisoner reported the death of the chief, and guided a doctor and two natives to where the body was lying for the purpose of bringing it into camp for identification.

The body presented a ghastly spectacle, decomposition having begun, and the stomach having previously been opened by Bambaata's men in order to allow the evil spirits to escape, in accordance with the superstitious belief of the natives. Terrified at the sight, the native guide and the two natives with him, fled.

The doctor thereupon severed the head from the body, and took it to headquarters, where it was identified, photographed and then returned and buried with the body.

The correspondent denies that the head was exhibited.

CONGRESS OF ARCHITECTS

London, July 16.—The international congress of architects opened here today with a reception at the Grafton galleries by president Belcher. About a thousand delegates were in attendance.

The United States was well represented as were all the European states and most of the British colonies. The inaugural meeting was held this afternoon at the Guild hall, under the presidency of the duke of Argyll.

PITTSBURG MAN SUICIDES

Kingston, Ont., July 16—George Snider of Pittsburg, after drinking heavily at Battersea, where he was summering, cut his throat from ear to ear on Sunday. He was 36 years old and was a clerk in the Carnegie steel works.

MAY ARRANGE PEACE TERMS

United States and Mexico to Arbitrate Central American Feuds

Roosevelt Arranging for Peace Negotiati Between Salvador and Guatemala to Which Honduras Will Assent

Oyster Bay, July 16.—Peace negotiations between Salvador and Guatemala are being arranged today by president Roosevelt and acting secretary of state Bacon at Sagamore Hill. The question is not yet settled whether Honduras will become a party to the negotiations at this time. It is reasoned here that it would hardly be fair to compel Guatemala to face two former foes in a peace conference at one time. Honduras will probably agree to the settlement arranged by the two states primarily involved. The negotiations, it is believed, will doubtless be held on board the American cruiser Marblehead, now in Guatemalan waters. The arbitrators on behalf of the United States and Mexico will be the Mexican minister to Central America, Mr. Combs, U. S. minister to Guatemala, and Mr. Merry, U. S. minister to Salvador. The date and details of the proceedings beyond this has not been arranged.

Washington, July 16.—The navy department was informed by cablegram from commander Mulligan of the arrival of his ship, the Marblehead, at La Libertad. Before sailing from Panama, commander Mulligan was instructed to report to the American minister, Mr. Combs, at La Libertad. In the absence of Mr. Combs, Mr. Brown, the American charge, will communicate with commandant Mulligan and the officer will place his ship at the disposal of the American legation, so that Mr. Brown will be in a position to carry out the instructions which were cabled him today from Washington, to proffer to the governments at Salvador and Guatemala, the use of his ship as a place of meeting for the peace commission. It is believed that the Marblehead will take on the Salvadorian commissioners at La Libertad and then proceed to San Jose, where the agents of Guatemala will board the ship which will then go to sea beyond the three-mile limit until the conferences are over.

The important development of the day aside from the offer of the Marblehead, was an assurance from president Cabrera that Guatemala would refrain from further hostilities if Salvador would undertake to do the same, which news was promptly communicated to minister Merry at San Salvador, in order that he might transmit the proposition to the government at that place. The prospect of peaceful termination of the difficulty is believed to have brightened.

New York, July 16.—The Associated Press has received the following telegram from the president of the republic of Honduras:

Tegucigalpha, Honduras, July 16.—Honduras has not declared war. Guatemala, without justification or reason, has invaded the territory of this republic and the whole country has come to the national defence.

San Salvador, July 16.—Guatemala is fighting Salvador and Honduras at four points on Guatemalan and Honduras territory. Both sides fought bravely with uncertain results. Peace is possible in the near future, through the efforts of the United States government, efficiently aided by the Mexican government.

Panama, July 16.—President Cabrera's plan seems to be to attack Salvador by the Guatemalan and Honduras frontiers, concentrating his efforts on the Honduras side so as to enable general Ribas, the Salvadorean who has taken part with Guatemala, and who is in command of a division, to enter the eastern Salvadorean provinces where he enjoys much prestige, in order that they may start a revolution there against president Escalon of Salvador.

SALISBURY TRAIN WRECK

Salisbury, Eng., July 16.—The coroner's jury found that the derailment of the express was due to the high speed at which the train was running.

Counsel for the London & Southwestern railroad announced that the railway accepted the full responsibility for the accident, and all the legal consequences resulting from it, and adding that he hoped this statement would reduce the time occupied by the inquest.

DEATH OF AGED ODDFELLOW

Montreal, July 16—George Outram, the oldest member of the Manchester Unity of the Independent order of Oddfellows, in this city, is dead, aged 93 years. He had been a member of the order for over 70 years.

RIGHT OF APPEAL GRANTED

(Special to The Daily News)

Victoria, July 16.—The full court today granted right of appeal to the privy council to the provincial government in the case of Emerson vs. Skinner, provincial timber inspector.

THE TWENTY THOUSAND CLUB.

Few residents of Nelson, outside of those actively identified with the work, probably appreciate at all adequately the excellent work being done by the Twenty Thousand club.

The thorough manner in which the resources and attractions of the entire Kootenay district are being advertised throughout eastern Canada, the United States and Great Britain can only be appreciated after examining the correspondence files of the secretary and going over the lists of the institutions, newspapers, and private individuals to whom copies of all publications issued by the club are forwarded regularly.

For instance, upwards of two hundred of the leading newspapers of America and Great Britain are provided with a regular weekly circular covering the mineral output of southern British Columbia.

These circulars are being made use of by the press and the publicity thus secured for the Kootenay mining industry is simply invaluable.

Thousands of handsomely printed and illustrated folders, descriptive of the fruit growing industry and its possibilities in southern British Columbia have already been placed where they are calculated to do most good. Additional pamphlets are being prepared and at every agricultural exhibition in the prairie provinces during the next few weeks these pamphlets will be distributed.

In other directions the club is doing good work. Representations made to the C. P. R. officials are bearing fruit in the shape of special excursion rates to Kootenay points from eastern Canada and in the publication of Kootenay literature by the C. P. R. publicity bureau.

The club is taking active measures to ensure the success of the Kootenay fruit exhibit at Winnipeg's big industrial fair and also to advertise the coming regatta on Kootenay lake.

The work being done is, we are particularly pleased to note, carried on with entire absence of any petty sectionalism. Every part of the Kootenay district is being kept to the front and whilst Nelson naturally, and rightly, figures as the chief centre, no attempt is being made to give undue prominence to this city. It is felt by those actively concerned in the work that Nelson's future prosperity depends upon the advancement of the entire Kootenay district and that money and time devoted to making known to the outside world the attractions and resources of every section of southern British Columbia will prove, in the long run, a profitable

YOUR HAT

May Be a Stylish One, But It Makes Trouble.

A man usually buys a hat that's "in style," but the modern hat for men has lots to answer for.

Baldheads are growing more numerous every day. Hats make excellent breeding places for the parasitic germs which sap the life from the roots of the hair.

When your hair begins to fall out and your scalp is full of Dandruff it is a sure sign that these countless germs are busily at work.

There is but one way to overcome the trouble and kill the germs—that way is to apply Newbro's Herpicide to the scalp—it will kill the germs and healthy hair is sure to result.

Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

investment for Nelson.

We hope the good work commenced will be steadily maintained and that the efforts of those who are giving so freely of their time to forward the development of the great Kootenay district will continue to be generously supported by the public at large.

It may be a good many years yet before there are twenty thousand people resident within the city limits, but every new settler on the adjacent fruitlands and every capitalist or corporation interested in our mineral and timber resources will hasten the day when that goal can be reached and in the meantime this city and all the surrounding towns will be benefitted by the club's campaign of publicity.

EDITORIAL NOTES

Walter Scott, premier of Saskatchewan, in an interview with a Toronto Globe representative, thus refers to the alarmist articles in the Chicago papers declaring that the Hill roads are a peril to the unity of Canada: "If all this is intended to lead up to the announcement that the west must not have the advantage of any railroad that offers to reduce transportation rates it is absurd. It is no doubt true that the building of the C. P. R. held the east and west together, but you remember what Manitoba said to the dominion when the federal government insisted on retaining that feature of the C. P. R. contract forbidding connection with roads from the south. Manitoba said, 'Contract or no contract, we will not stand for that.' The connection was made. Is Manitoba any less loyal to the dominion because of that, or are people along the Niagara frontier less loyal than you in Toronto because there are railways crossing the river to the United States? No; Hill's road and others that may come in will actually benefit eastern Canada. Reduced rates mean more population; more traffic; more work for Ontario's factories. Take the opening of the Kootenay. Corbin's little road up from Spokane, an American line, was the first in there and it was said that Canada had lost the prospective trade of that region. The fact is, that Kootenay trade is now one of the chief factor's of Alberta's prosperity. The suggestion that settlers from the United States are laboring for annexation is scarcely worthy of an answer. American settlers soon after they come in, express entire satisfaction with out political system. It is a common remark that our laws are not different from those on the other side of the border, but that there is quite a difference in the manner of carrying them out. Not publicly, but in individual conversations they will tell you that the courts in the United States are in bad condition, that money is some cases can buy a decision. They admit that this is not the case in Canada. There may be occasionally feeling regarding the political trials in the west as in the east, but there is the most absolute confidence in the integrity of our judges. Looking at the whole question, I believe that the settlers from the United States are likely to become most enthusiastic Canadians."

Once again it is in order to extend very hearty congratulations to the teaching staff of Nelson's public school. It will be seen by the report appearing elsewhere in this issue that of twenty-two Nelson scholars who wrote in the high school examinations, twenty-two passed. This is, indeed, a splendid record, one of which teachers, scholars and parents may be deservedly proud.

In the retirement of James Cronin from active participation in the management of the Canadian Consolidated Mining and Smelting company's properties, Kootenay loses one of its most successful and generally popular mine managers. His long connection with the St. Eugene mine, and, latterly, his management of the War Eagle-Centre Star properties in the Rossland camp, made James Cronin one of the most conspicuous mining men in the province, and notwithstanding the important interests entrusted to his charge and the large measure of success attending his work as a mine operator he was always one of the most modest of men. Mr. Cronin has earned a rest and his numerous friends will hope that he may be spared to enjoy many years of ease, although there are but few who imagine he will not soon again be actively interesting himself in the exploitation of the mineral wealth of some section or other of this great Kootenay country.

MINING RECORDS.

At the mining recorder's office on July 16, certificates of assessment work were granted to J. R. Hunnex on the Clarendon, Legal Tender, Gordon and St. Louis.

F. P. Drummond and C. E. Bennett recorded the Daisy, Golden Bell and Beaver, and F. P. Drummond, the Montezuma and C. E. Bennett the Bonanza, all on Sheep creek.

TORONTO CIVIC SCANDAL

LEADING FIRMS INVOLVED IN THE CROOKED DEALS

LIST OF THOSE WHO WILL APPEAR IN POLICE COURT TODAY

Toronto, July 16—As a result of the report of judge Winchester, crown attorney Corley has issued informations against the following parties alleged to be involved in the civic scandal:

Puddy Bros., conspiracy.
George B. Elliott, bribery.
Ex-alderman Lynd, accepting the bribe.
Edward J. Lennor, obtaining $300 by false pretences.
Edward J. Lennox, Joseph Wright and Samuel S. Clarke, general charge of conspiracy.
Bennett & Wright Co., plumbing conspiracy.
Bennett & Wright, Asa Matthews, the Wheeler & Bain Metallic Roofing Co., galvanized iron vent pipe conductors for city hall, conspiracy.
Chas. Rogers & Son Co., Ltd., Office Specialty Co., Ltd., Canadian Office and School Furniture Co., G. N. Reynolds, portable furniture, conspiracy.
A. B. Ormsby & Co., W. B. Hutton & Co., Asa Matthews, Pedlar & Co., Thos. Douglas Metallic Roofing Co., Wheeler & Bain, contractors on new St. Lawrence market, conspiracy.
Metal Shingle and Siding Co., metal roof, manufacturers, building, conspiracy.

In all there are 19 individuals and firms contained in the charges.

The information reads as follows:

"George Puddy, Henry Puddy, that they incited George B. Elliott to commit an indictable offence to wit, offering money to a member of the muncipal council to procure a permit for Puddy Bros'. abattoir on Paton road; Edward J. Lennox, being the architect for the city hall, that he unlawfully by false pretences obtained $300, the property of the city, over the city hall contracts; Edward J. Lennox, for committing perjury before judge Winchester by swearing that the payment of the sum of $75 made by Arthur Dennis to Ald Lynr was not made on the request and suggestion of Lennox; Ex-alderman, A. Lynd, for accepting a money consideration to vote in favor of the permit for the Puddy abattoir site; Edward J. Lennox, Samuel S. Clarke, Joseph Wright, on a charge of conspiracy to defraud the city out of large sums of money; Bennett & Wright company, plumbing city hall; Bennett & Wright, Asa Matthews, Wheeler & Bain, Metallic Roofing Co., galvanized iron vent pipe conductors, city hall; Charles Rogers & Co., Office Specialty Manufacturing Co., Canadian Office and School Furniture Co., and George N. Reynolds, portable furniture in city hall, for conspiracy to raise prices; A. B. Ormsby, W. B. Hutton & Sons, Asa Matthews, Pedlar & Co., Thos. Douglas, Metallic Roofing Co., and Wheeler & Bain, metallic roof for St. Lawrence market, the same charge; Metal Shingle and Siding Co., Ltd., metal roof for manufacturers building at exhibition, same charge."

The defendants are to appear in the police court tomorrow morning.

BATHING FATALITIES.

Man and Boy Drowned—Woman Loses Life in Attempt to Rescue Girl.

Halifax, July 16.—A tragic drowning occurred on Saturday near Stellarton, Pictou county, when Roderick McKenzie, 27, and Lee Fraser, 7, lost their lives.

McKenzie was bathing with some boys. One of the youngest of them was Lee Fraser. McKenzie took him on his back across the river, but on returning, in mid-stream McKenzie either took a cramp, or the boy so tightened his grasp around his neck as to cause the swimmer to sink. Whatever the cause, both were drowned, and they were not taken out of the water for 20 minutes, when life was extinct.

At Middletown, some children were bathing, when one of them, a daughter of L. S. Shaffner, got in too deep. Mrs. Arbe went to her assistance, but losing her footing, and becoming confused, was drowned. The girl was rescued.

GOOD MOVE IN ONTARIO

Establishment of Primary Classes in Agriculture at Collegiate Institutes

Toronto, July 16—The education department and the department of agriculture are conjointly arranging a program which may be regarded as the initial step in the government's policy of a series of agricultural schools throughout the province. In brief the proposal is the establishment of classes in agriculture in the collegiate institutes of the province, particularly those in essentially agricultural districts. It is thought this can be so arranged that a great deal of primary fork now done at the Ontario Agricultural college at Guelph, can be taken at schools by pupils desiring it, thus relieving the college of pressure now very great, to that extent. The curriculum of classes would be uniform. All classes would be affiliated with the college and scholars would matriculate from them to the institution at Guelph, where they would graduate.

WHISKEY KILLED THIS BOY

Orillia, Ont., July 16.—Daniel Fountain, a lad of ten years lies dead as a result of drinking whiskey. He was brought home Thursday in a paralyzed condition, and after suffering from convulsions died last night. It is said he found a flask of liquor secreted in a lumber pile. The circumstances of the boy's death will be investigated by the coroner's jury.

KILLED ON THE TRACK

Montreal, July 16.—The remains of a man were found scattered along the Grand Trunk, near Dorval, this morning. An identification card in the pocket of his coat gave his name as Joseph M. Fulton, and his address as 1424 Seventh avenue, Seattle, Washington, the finder being asked to notify Mrs. Vandyne. Nothing is known as to the manner in which he met his death.

THORPE'S LITHIA delivered to your home, 2 doz. pints, $1.75.

ARCTIC IN TROUBLE AGAIN

Quebec, July 16.—The government steamer Arctic arrived in the harbor last night, and some hours latter she collided with the Norwegian collier Elina, and was slightly damaged. The Arctic was lying at anchor in the harbor opposite King's wharf, when the Elina, en route to Montreal, ran into her, carrying away her bowsprit and otherwise slightly damaging her.

We work all the time to please more and get rid of causes of complaint. That's one reason why our trade is so large. Canada Drug & Book Co.

SHOULD BE CULTIVATED

SETTLERS FROM MANITOBA FOR THE KOOTENAYS

PASSENGER AGENT McPHERSON'S SOUND ADVICE.

"From a passenger traffic standpoint everything looks exceedingly well to us from Winnipeg west," said C. E. McPherson yesterday to The Daily News. Mr. McPherson, who is accompanied by his wife and E. J. Coyle of Vancouver, is the C. P. R. general passenger agent for lines west of Winnipeg, and spent Sunday and yesterday here conferring with J. S. Carter, the passenger agent for the Kootenays. E. J. Coyle is the passenger agent for the Pacific division.

Asked about tourist travel this year, Mr. McPreson said it was better than ever before. "So far as we are able," he said, "we specially direct the attention of travellers crossing the continent to the scenic beauty of Kootenay and the great advantage of returning through the Kootenay section. We have this year advertised the Kootenays extensively at all our hotels and will continue to do so. It is, of course, to our interest that people, lots of them, all that it is possible to get hold of, should come here and see the country and we are willing to do all that we can to draw attention to this section.

"About circulating Kootenay tourist literature? We have some of our own, but if your tourist association or your 20,000 club would send me copies of folders, I will be delighted to see that they are well circulated where they will do the most good. Some copies would, of course, be sent east but there is good work to be done for your people in the west. Manitoba farmers and ranchers, and city people as well, have all been making money and they are favorably impressed with British Columbia. Many of them will come here to live or to invest. They want something to do and fruit ranching sounds very pleasant to them, when they can be near a commercial and social centre as well. So that a lot of your literature can be used to very good advantage right in Manitoba at the present time. When the Winnipeg fair is over, and again when the harvest is all in, there will be many parties coming through here to look over this section, and it will be up to your people to take the best of care of them, use them well, as I'm sure you will, and supply them with all possible information.

"It will pay you to cultivate this particular line of travel closely and continuously for many obvious reasons, principally, perhaps, because of the number of permanent settlers and investors you are likely to get.

"The east should not be overlooked and I will be glad to send your publications to selected points, once the literature is sent me. If there is anything else that I can do to help out any local effort I will very gladly do so if written to in the matter.

"We are always advertising special trips and rates to the Kootenays, and doing whatever is necessary to attract travel your way. Later on no doubt a great deal of travel will be attracted here from the south when Americans more fully appreciate the great advantages of a summer outing in the Kootenays. This will all come in time, and I think in a short time."

Mr. and Mrs. McPherson leave for the east on the Kuskanook this morning.

FOR BREACH OF PROMISE

Bank of Commerce Manager at Penticton Defendant in Suit For $23,000

A Montreal despatch says: An action for breach of promise of marriage is being taken by Miss Emma Cushing of this city against J. M. Christie, formerly manager of the Canadian Bank of Commerce branch near here, but now manager of their branch at Penticton, B. C.

Miss Cushing claims $23,000, and presents a more or less itemized account of the manner in which she estimates her losses at that amount from laceration of feelings, to gifts to the defendant and an item of $15,000 for loss of support of defendant during the prospective life of 25 years. She also took action to attach Christie's moneys and interest in the Bank of Commerce, claiming that he had left this province for the purpose of defrauding his creditors and her claim in particular.

This, however, was refused by justice Lorangea, who held that the defendant had not left the province for this purpose, but simply in the ordinary course of bank business. Miss Cushing alleges that in September, 1899, Christie asked her to marry him, and repeated his suit several times, until on April 16, 1900, he was accepted by herself and her parents as her future husband. The wedding day was fixed for December 7, 1904. Unfortunately just at that time Christie was seized with appendicitis, and had to be operated upon, so that although all was in readiness for the ceremony, it had to be postponed until he could regain his health.

Subsequently the defendant, it is alleged, cooled in his matrimonial ardor, although requested to carry out his promises.

Last February the matter came to a climax, when he finally refused to marry Miss Cushing.

CAMPBELL GROUP SOLD

The Campbell group of claims situated on Salmon creek about one mile from Beaton has been sold to the Madison Mining Co., of Elwood, Ind., for $3000. The deal was put through by George Goldsmith who spent the greater part of last winter in the east working on this and other proposition, says the Camborne Miner.

Geo. W. Yeo, who is interested in the above company has been here during the last week completing arrangements for the transfer of the property, and is now preparing to have the property reported on by a mining engineer after which a few men will be put on to commence development.

Mr. Yeo is not in a position at this time to state the future plan of operation, but after the report of the engineer is received a definite plan will be decided upon.

The Campbell group of claims has been held for some time by Joe Campbell, whose friends are pleased to hear of his success and wish that he will live long to enjoy the fruits of his labor.

SLOCAN PICKING UP

The news published elsewhere in this issue, of the starting up of the Last Chance mine, on Monday next, combined with many other items recently published, all pointing to a revival of mining in the Slocan, will go far to sustain the opinion recently expressed that by the end of the year, this district will be the scene of great mining activity.

At the Whitewater mill nearly 1000 tons of ore have been treated and the Cork mill is also enjoying an unusually successful run. It is stated that the Ruth mill will start operations this week and that work will be re-started on the Montezuma on the south fork of Kaslo creek by H. Giegerich.

These are a few mining items not included in the general mining review of the renewed activity in this section published last week.

Gin Pills Cure Sick Kidneys

OR YOUR MONEY BACK.

This is the guarantee with every box. That shows our confidence in Gin Pills. That proves, too, that it won't cost you a cent if Gin Pills fail to bring relief. Buy them with that understanding.

"Sept. 30th, 1904.

"I have been troubled with rheumatism, bladder trouble, and pain and weakness in my back for several years. I sent for a sample of Gin Pills. The rheumatism left me at once. I now send for a full box, and if they prove as you say you will hear from me again.

"P. C. SMITH, South Orrington, Me."

And we did hear from Mr. Smith again:

"Nov. 7th, 1904.

"Enclosed I send P.O. order for $2.50 for 6 boxes of Gin Pills.

"Yours truly, P. C. SMITH."

We know your experience will be just like Mr. Smith's—because we know what Gin Pills can do. They never fail, even in the most severe cases. No matter what your experience has been with doctors and medicines, don't give up until you try Gin Piles. It is because they are different that they cure. Try them and get relief. If you will send us the name of the paper in which you read this we will send you a sample box of Gin Pills absolutely free. You can thus test them and see for yourself whether or not they are all we claim for them. They are for sale at all druggists. 50c a box—6 boxes for $2.50. The Bole Drug Co., Winnipeg, Man.

DEATH OF ALFRED BEIT

WELL KNOWN SOUTH AFRICAN MILLIONAIRE PASSES AYAY

WAS REPUTED TO HAVE BEEN THE RICHEST MAN IN LONDON

London, July 16—Alfred Beit, the well-known South African financier, died today. He had been in bad health for some time.

Mr. Beit, who was born in 1853 in Hamburg, was a life governor of the DeBeers Consolidated Mines, a partner in the firm of Wercher, Beit and company and a director in the Rand Mines, Rhodesia Railway, Bechuan Land, Railway, Trust and Consolidated company and the British Chartered South African company. He was reported to have been implicated in the Jamieson raid, and testified before the Jamieson commission, resigning from the board of directors of the British Chartered South African company, but his resignation was not accepted at the time. Later a suit was brought against Mr. Beit on the ground of complicity in the raid and his prosecution was demanded by Dr. Lleyd, the representative in Europe of the Transvaal, and in 1896 his resignation from the board of directors of the British Chartered South African company was accepted.

When Cecil Rhodes died in 1902 it was found that Mr. Beit was appointed one of his executors, and the latter thereupon returned to the board of directors of the British Chartered South African company. Early in 1903 Mr. Beit had an apoplectic stroke in Johannesburg, and it appears that he never fully recovered his health.

Since that time he has lived in London.

Mr. Beit, who is said to have been the richest man in London, and who controlled the output of gold in South Africa, was at one time alleged to be forming a "gold trust," in which the names of prominent American financiers were mentioned. Mr. Beit gave large sums of money to the Red Cross and other institutions and recently donated $500,000 to a university in Hamburg.

VISITING SILVER DOLLAR

Ohio and Indiana Capitalists in the Lardeau District

A party of shareholders of the Elwood Tinworkers Gold Mining company arrived on Friday for the purpose of looking over the Silver Dollar group and the several improvements that are being wrought theron. The party consisted of Newton W. Emmens, Pittsburg; J. R. Bottorff, Elwood, Ind.; H. R. Manning, F. H. Taylor, Middleton, Ohio; Geo. Hillman, Canton, Ohio; ; M. E. Haddock, Zanesville, Ohio. The first named gentleman is the consulting engineer of the company while the second mentioned is the secretary, a position he has held since the organization of the company. The other gentlemen are either business men or hold responsible positions in their respective towns, says the Comborne Miner.

Since their arrival here they have gone over the Silver Dollar and found affairs in excellent condition, in fact everything was exactly as they expected to find it. The mine is in a good state of development, the compressor, mill, flume, aerial tram site, pipe line, etc., being well advanced and going ahead to their satisfaction.

The stock of the Elwood Tinworkers company is held principally in the states of Indiana and Ohio, and it is customary for some of the shareholders to come and see how matters are progressing on the property each year. Developing a property to a permanent ore producing state is a slow task as only a limited number of men can work at a time, and it is hard for a person not acquainted with mining to understand the many difficulties that have to be overcome, more especially when heavy mining machinery has to be transoprted over a narrow trail for some distance. They can now converse intelligently with their fellow shareholders on the subject, and from what they have seen they could say nothing but the very best for the Silver Dollar camp in general.

Mr. Emmens notices a great improvement in the camp since his last visit, and feels more than ever that Camborne is destined to be a great ore producing section. His calculations on the Silver Dollar have turned out to a letter and he has advised further development work to open up large ore bodies which he believes to exist. Mr. Emmens will spend several weeks in examination of other properties before his departure.

Mr. Bottorff also remarked on the decided improvements noticeable here, and expressed great faith in the Silver Dollar and its future.

MINNEAPOLIS' RECORD

Twenty-Three Murders in a Year and a Half—Three Convictions

Minneapolis, July 16—Twenty-three murders in Mineapolis since Jan. 1, 1905.

For this number of murders three persons are now serving sentences in Stillwater and two are awaiting trial. Arrests have been made in two other cases but the suspects have not been brought to trial.

This is the record disclosed by the books of coroner Kistler. Minneapolis has acquired the unsavory reputation of having more murders than any other city in the country in proportion to population.

The Minneapolis police department has made but few arrests in connection with these crimes. Three persons, Mrs. Stella Brennan, against whom the evidence was especially strong, Joe Devine and Walter Webb, were arrested and sent to Stillwater. Alex. McEwen and Stephen Shurba now await their trials. But for the other murders no one has been caught who could be held for trial. One murderer saved the police trouble by taking his own life.

There have also been several attempted murders in the city during the past year and a half and for these few arrests have been made. The most notable of these attempts was that of Harry Spencer, who shot his wife in Minneapolis last winter and escaped from the police, not being heard from since. Several other murders have been attempted but in many instances the would-be murderers have killed themselves.

Minard's Liniment Cures Diphtheria

SAVED HIS COMRADE'S LIFE

"While returning from the Grand Army encampment at Washington City, a comrade from Elgin, Ill., was taken with cholera morbus and was in a critical condition," says J. E. Houghland of Eldon, Iowa. "I gave him Chamberlain's Colic, Cholera and Diarrhoea Remedy and believe saved his life. I have been engaged for ten years in immigration work and conducted many parties through the south and west. I always carry this remedy and have used it successfully on many occasions. For sale by all druggists and dealers.

YMIR NEWS NOTES

(Special to The Daily News)

Ymir, July 16—The school election Saturday to fill the places occupied by A. C. O'Neill as trustee, and Dan Campbell as auditor, resulted in the return of A. C. O'Neill for a three year term, and W. B. Meisaac was elected auditor. The Ymir school district is now assessed for $1000, which will mean that the ratepayers will have to provide a further six mills in the form of taxes in addition to their regular taxes.

Jos. Irwin, who has been teaching in the Hume Addition, has been engaged for the coming term at the rate of $75 per month.

Walter J. Hughes and Joe Black left this morning for a prospecting trip in the Panhandle, Idaho.

Saturday's morning train for Salmo had no less than two newly married couples. Robert Evans and wife and George Bell; the former gentleman brought his bride from England, while Mr. Bell went back to Nova Scotia for his. As is usual under the circumstances a royal welcome was accorded them by Salmoites.

John Philbert of Ymir, who has been prospecting in the Cobalt district, is back. Mr. Philbert does not seem to be very enthusiastic about that section of Canada.

Minard's Liniment Cures Colds, etc.

MODEST CLAIMS OFTEN CARRY THE MOST CONVICTION

When Maxim, the famous gun inventor, placed his gun before a committee of judges, he stated its carrying power to be much below what he felt sure the gun would accomplish. The result of the trial was therefore a great surprise, instead of a disappointment. It is the same with the manufacturers of Chamberlain's Colic, Cholera and Diarrhoea Remedy. They do not publicly boast of all this remedy will do, but prefer to let the users of it make the statements. What they do claim is that it will positively cure diarrhoea, dysentery, pains in the stomach and bowels and has never been known to fail. For sale by all druggists and dealers.

WINNIPEG EXHIBITION

Winnipeg, July 16—Several hundred more entries have already been received for the annual exhibition than were ever received before. These entries have come rfom all quarters of the dominion, from the Maritime provinces to the Yukon, and from the southern states to the northern wilds of the great unknown. This year everything will be in readiness for the opening on the morning of July 23, a most unusual thing for the Winnipeg fair, but this is largely due to the management and organization of Dr. Bell of Toronto, who this year has sole control of everything pertaining to the exhibition. Some friction exists between the racing board and the Winnipeg horsemen and in consequence some of the fastest horses will be conspicuous by their absence.

We stand back of everything sold in our stores. If there is any dissatisfaction we want to know it and make it right. Canada Drug & Book Co.

JAMES CRONIN RESIGNS

WELL KNOWN MINE MANAGER WILL TAKE A HOLIDAY

IS SUCCEEDED BY R. H. STEWART, CONSULTING ENGINEER

The Moyie Leader announces the retirement of James Cronin from the management of the Canadian Consolidated Mining & Smelting company's properties. He is succeeded by R. H. Stewart, the company's consulting engineer.

In making the foregoing announcement, the Moyie Leader says:

Thirteen years ago last month James Cronin, in company with father Coccolo and an Indian named Peter, staked the St. Eugene property. Then the work of converting the prospect into a mine was begun. There was no railroad to Moyie and no Cranbrook then, and every pound of grub and supplies had to be packed from Fort Steele, 30 miles away. Cronin and Pete Oleson comprised the first working force. They each took turns at holding and hammering the drill, as well as doing the cooking, sharpening the steel, etc. Then payday would come, and Cronin would pull out a roll of bills from his pocket and pay Oleson for his month's work. There were no labor troubles or grub strikes at the St. Eugene in those days. Then the force was increased, and Peter Lynch, W. P. White, Wm. and James Mills, the Hamilton boys and John Bakke were hired. White is now superintendent and Bakke is foreman.

Now, after 13 years of continuous management Mr. Cronin has tendered his resignation, which the company has reluctantly accepted. Mr. Cronin took the St. Eugene when there was nothing but the cropping of a ledge. He leaves it the second largest silver-lead mine on the American continent, and he has made for himself a reputation as a mining man that anyone might envy. Not only that, but he has accumulated a comfortable fortune.

Thursday he was arranging his fishing outfit, had two of his dogs tied and was ready to go on a trip with J. C. Drewry to Old Man river in Alberta, when a representative of this paper called on him.

"Yes, it is true I have resigned. I did so some time ago, but it is only now that I am able to get away. I was never better pleased with the St. Eugene, and I am holding all my stock in it. Being still a director I shall come to Moyie quite often, probably once a month, and look over the property. The mine is in good hands and will run very nicely without me. R. H. Stewart, consulting engineer for the company, will have charge of the affairs of the company here, but of course Mr. Aldridge is general manager.'

Mr. Cronin's family is living in Spokane, and Mr. Cronin will spend most of his time there. It is said that he and his family intend taking a trip to Ireland this summer.

UNIVERSAL CHRISTIAN CHURCH

A. J. Balfour Says Ideal is Neither Probable nor Desirable

London, July 16—The realization of the ideal of one universal Christian church is, according to former premier Arthur J. Balfour, neither probable nor desirable.

"There was a time," said Mr. Balfour, "when the natural and obvious ideal of Christendom was to assume that Christians should belong to one ecclesiastical organization.

"That ideal was great, simple and easily intelligible, but more than a thousand years have passed since it was apparently shattered hopelessly, and we have to face the fact that, be it for good or for evil, the universal church is divided into various ecclesiastical organizations.

A similar problem has arisen in the secular sphere of affairs. Whereas the theorists in the middle ages dreamed of a universal empire which would embrace all civilized mankind, we in these days have to face and to reconcile the fact that mankind is divided, and will divide in various nations, and that yet our duty to humanity is a universalism.

"One race, many opinions; a universal church, many ecclesiastical organizations—those are the facts we have to take and make the best of. I do not know that the difficulties in practice need be greater if we only approach both problems, secular and spiritual, in the spirit of charity, affection and mutual sympathy.

"I confess that I have no hope that the divisions among us will be healed in the sense of ever being abolished. It seems easy, simple and obvious to say that the relation of every soul to his Maker is a matter between his Maker and the soul, and that the aid of these organizations is superfluous. But I believe that to be a profound error.

"We are all human beings and we must work under the conditions under which human beings alone can work, or, at all events work effectively—the condition of being organized.

"Therefore I have for myself to face the fact that Christianity is, and must remain, ecclesiastically divided, that the churches into which it is divided are necessary for the spiritual welfare of the world, and that what we have to do is to be able to see beyond the separate organizations to which we belong that greater whole of which we are all members."

UNDER COMPENSATION ACT

W. A. Nicholson of Greenwood Granted $10 a Week

His honor judge W. H. P. Clement of Grand Forks, county court judge for Yale, as arbitrator under the Workmen's Compensation act, has handed out his finding in the case of William Alexander Nicholson, a miner who lost his eyesight by an explosion in the Providence mine on March 1 last, briefly announced in these columns last week. Practically the award grants the unfortunate miner $10 a week until the sum of $1500 is reached, the limit under the terms of the act, the payments run from the time of the accident and the Providence Mining company pays both the award and the cost of the arbitration.

MEMORIAL DAY

Nelson Oddfellows Decorate the Graves of Departed Brethren

Notwithstanding the intense heat prevailing on Sunday afternoon there was a good turnout of Oddfellows for memorial day services.

Some 40 members of the order, including 15 lady members of the Rebekah lodge, assembled in the lodge rooms shortly after 1:30, and with J. W. Gallagher as noble grand and George Caldwell as chaplain, a procession was formed and marched to the cemetery where all the graves of departed brethren, some 18 in number, were profusely decorated with many floral emblems and cut flowers.

BATTLESHIPS FOR BRAZIL

Newcastle-on-Tyne, July 16 — Armstrong Whitworth and company, have contracted to build three battleships for Brazil, each to cost over $5,000,000.

WILL START ON MONDAY

LAST CHANCE MINE WILL BE ACTIVELY DEVELOPED

COURT'S CONSENT TO PROCEEDING READILY OBTAINED

Louis Pratt, liquidator of the Last Chance Mining company, was in the city yesterday on his way back from the coast, where he had been to obtain the formal sanction of the court for the immediate resumption of work on the Last Chance mine pending the completion of the liquidation proceedings.

As anticipated when a meeting of shareholders was held a fortnight ago to arrange for working the mine, the consent of the court was readily given and next Monday a force of 25 men will be put to work. As already announced in these columns, the policy of the management will be to properly and systematically develop the Last Chance and place it upon a thoroughly sound mining basis, but shipments will be maintained while development is being pushed, and by the time the liquidation proceedings are wound up, the mine should be in a position to give an excellent account of itself. It is stated that plenty of money is now available, and any difficulties that heretofore existed have all been satisfactorily settled so that by the end of the year good progress is looked for.

MANY NEVER WED

Suffragist Who Will Remain Single Until Women Get Votes

London, July 16—Miss Billington, the suffragist who is suffering imprisonment for her cause, is engaged to be married. But she refuses to be led to the altar until her war cry of "Votes for Women" passes into law. So that the date of the wedding day is doubtful.

"People ignorant of her heroic self sacrifice call her an Amazon," said Mrs. Rowe, a prime mover in the cause, yesterday.

"This is a wicked, cruel lie. She has been engaged for several years and could be married tomorrow if she liked, but until universal suffrage becomes past history, she intends to devote all her time to the cause."

In the midst of their general afflictions the suffragettes yet rejoice.

"Nothing will induce her to relent," said Mrs. Rowe, "but the question of her imprisonment will be brought before the house of commons, and a reduction of her sentence is almost certain.

"We can produce scores of witnesses to prove that Miss Billington was herself struck before she struck the policeman."

A true touch of feminity was shown by Mrs. Rowe when asked if Miss Billington's hair would be cut on her imprisonment: "Oh, no; surely not," she cried. "It would be a wicked thing to do. She has such beautiful hair."

Over the treatment of the suffragettes by the press and public at large Mrs. Rowe became very indignant. "They call us Amazons and disreputable women, who bring disgrace and shame upon our sex. They lie! We can be as gentle and refined as the highest lady in the land, but sixty years of gentle methods have shown us their utter uselessness.

"We have no hand in making the laws. Why should we be hounded down by them? If we are put outside the pale, then we are virtually put on a par with rebels, and as rebels we will act. Win we must and shall, and this is the only way to do it."

APPEAL TO NATURALISTS

Editor, The Daily News:—We should be greatly obliged if you would find room for this appeal in your journal. It is the first move to make a public living collection of the trees shrubs and wild flowers of the province for the information of students, visitors, and for all who care for these things. Yours respectfully,

THE NATURAL HISTORY SOCIETY, OF BRITISH COLUMBIA.

The Natural History Society has undertaken the work of establishing a wild flower garden in this city. We have secured a most eligible site in Beacon Hill Park, and the city authorities have promised to make us two small rocky ponds.

Our aim is to secure a representative collection of the many beautiful wild flowers and shrubs native to this province.

We now appeal to anyone who is interested in the flora of his particular locality to help us. We want this fall only those subjects that will thrive on rocks and in dry situations, as we shall not have water until next season.

Our funds are limited and we cannot offer to pay for plants, but will gladly pay freight charges. It is a labor of love on our part, and we shall be glad to hear from anyone able and willing to help us in the good work.

EDW. ALEX WALLACE,
President.

Victoria, B. C.

NEW HUME SCHOOL

Ratepayers Meet and Pass a Strong Resolution re New Building

There was a capital meeting of Hume Addition ratepayers last evening at the residence of E. A. Crease, to discuss the school situation. A strong resolution was passed, which will be acted upon immediately, and other matters were dealt with.

Hume Addition people know how to hold meetings and last night the trustees provided plenty of ice cream and cooling drinks after the work of the meeting was over. It is rather dark in the suburb after the sun goes down and the sidewalks and paths are not easy to navigate. Two of the rate payers in going home after the gathering was over came to grief in the darkness, one falling down a bank seven or eight feet high and another falling off a sidewalk where the railing was missing, a similar distance, but no bones were broken or serious harm done.

G. M. Gilchrist occupied the chair and G. H. Playle acted as secretary. There was a long discussion over the new school building for which tenders have been asked but which has apparently dropped out of sight at Victoria for some reason.

The following resolution was unanimously concurred in and will be acted upon at once: "Resolved that as the present school building has become uninhabitable through decay, that it cannot be kept clean, as no water is obtainable within a quarter of a mile, either for cleaning or drinking purposes, that it is insanitary for want of proper conveniences; a committee consisting of Messrs, Fleming, Pfeiffer, Chapman and the school trustees be and is hereby appointed to find and rent some suitable and convenient premises which can be used for school purposes until a new school is ready."

The salary of the new teacher will be $75 a month and he will be engaged for a term only.

G. G. McLaren was appointed auditor. Owing to the mistakes made at the coast the board has to make arrangements now for 18 months in place of 12.

After partaking of the refreshments referred to the meeting broke up in high good humor.

WINNIPEG FAIR

Arrangements for Kootenay Booth Are Nearly Complete

"I am very well satisfied with the efforts so far made to ensure a creditable showing for the Kootenay booth at the Winnipeg fair," said Ald. J. E. Annable yesterday. As already stated, Mr. Annable will have personal charge of the booth and of all exhibits, and will remain in Winnipeg from the opening until the close of the fair. Speaking of what still remains to be done, Mr. Annable said:

"F. S. Sammons, shipping agent for the Fruit Growers' association, will be at my office here, after I start for Winnipeg next Wednesday night, and he will see that all exhibits are promptly sent on and will give any desired information as to deatils. I have obtained some excellent samples of frout and have had them frozen and got ready for shipping. Some very fine roses in full bloom have also been frozen so as to preserve them through the fair. What I principally want now is more fruit on branches. Some ranchers do not understand and think only fully ripened fruit is asked for, whereas I want to show a quantity on branches coming up, and I'll take plenty more of the right kind along.

"I hope the ladies who are to be asked to furnish us with flowers for dressing up the booth will send plenty that our display will attract great attention. I have still la few jars left that are available for preserving fruits, application for which should be made at once, and ripe red and black raspberries should be sent to fill these jars with.

"I will go on board the Kuskanook on Wednesday night, leaving here the following morning, but Mr. Sammons will be on hand to attend to all local matters requiring attention at this end."

CONSULT THE PRINTER

Having made a contract for a certain amount of space, do not feel that it is your duty to use every inch of it—but give the printer some opportunity to exercise his craftsmanship to produce a good advertisement. Consult with him and take his advice on many things and when he has completed his work read the proof carefully, criticize it and make any change necessary and return it in time to have the corrections made. Display advertising contemplates the making of certain lines much more important than others and to carry it out there must be some white space used for effect, but this does not mean that white space should be wasted.

Every time that you purchase advertising space and tell the same old fish story over again you are wasting it.

Every time you pay money for advertisements that end with this line, "come in and get our prices," you are wasting your money. Stop it and the sooner the better.

Advertising is the very best adjunct to business, a necessity of the times and is one and practically the only way at your disposal in offsetting or trying to offset the retail mail order catalogues.

Use it hard but well. Work it over time but have some prices and some cuts.

MORE ADVERTISING

The 20,000 Club Will Issue More Literature —Winnipeg Fair

A special meeting of the advertising committee of the 20,000 club was hastily called for yesterday afternoon at 5 o'clock in the secretary's office.

Convener S. M. Brydges occupied the chair and there was a long discussion over further advertising efforts to be carried out.

C. E. McPherson, general passenger agent of the C.P.R. western lines, Winnipeg, was introduced to the meeting and he cheerfully agreed to back up the efforts of the club to advertise the resources of this district and the advantages of this section from a tourist standpoint in every possible way.

It was finally decided to issue at once 5000 more copies of the club's folder got up earlier in the season; the publication will be rushed and a number of the folders will be sent to Mr. McPherson as soon as possible.

The secretary was instructed to enlist a committee of ladies to assist in collecting roses and other flowers to be sent on to the Winnipeg fair and used in decorating the Kootenay booth during the fair.

CARIBOO MURDERER CAUGHT

Chinaman Captured—Fear War Between Rival Tongs at Victoria

(Special to The Daily News)

Victoria, July 16—Sam Look, a Chinese murderer of Cariboo, who slew a fellow countryman a few days ago, and escaped, is in custody of the police. The capture was made yesterday, but a despatch to superintendent Hussey from government agent Stevenson at Quesnel Forks does not state by whom the capture was effected. The capturer will secure $450, of which amount $300 was offered by the provincial government and the remaining $150 subscribed by the Chinese in the Cariboo on the understanding that a like amount be put up by the government.

Sergeant Murray has been dispatched to Cariboo as it is feared the capture of Sam may be attempted by open hostilities between rival Tongs of that district, the enmity between whom is responsible for the murder. There is a big colony of Mongolians on creeks and the partisans and enemies of Sam, the murderer, are believed to be equal in numbers.

DIED OF PNEUMONIA

(Special to The Daily News)

Phoenix, July 16—The funeral was held yesterday of Murdock W. McKenzie, a native of Richmond county, Quebec, who died at Phoenix general hosptial, after being from his work but eight days. The funeral was held at the residence of his brother, D. W. McKenzie on Granby place Rev. Samuel Lundie officiating, the interment taking place in the Phoenix cemetery.

Mr. McKenzie was 52 years of age, and had been in Phoenix about a year and a half, coming here from California. At first he was employed at the Granby mines but for some time at the Dominion Copper company's Rawhide mine. He was taken down with a cold last Wednesday week, and on Saturday was ordered to the hospital by his physician, where he eventually died of pneumonia in spite of all that could be done for him. Deceased was a member in good standing of Phoenix Miners' union No. 8, many members of which attended the funeral.

RAILWAY COMMISSION

(Special to The Daily News)

Ottawa, July 16—The railway commission is going west next month and will visit the Yukon. There are complaints from Calgary, from the Crow's Nest branch and from the Dawson board of trade. The latter alleges that the rates of the White Pass & Yukon railway are unreasonably high.

NELSON'S NEWS OF THE DAY

The regular meeting of Queen City Rebekah lodge No. 16, I.O.O.F. will take place this evening. As the officers recently elected will be installed, the members are particularly requested to attend.

Nelson will be represented at lacrosse in Rossland today by the following team, which went over last night: Greyerbiehl, W. Davison, A. Bishop, J. Thompson, captain, Steel, Stead, Ball, Bell, Perrier, B. Davison, Carroll, H. Manhart and A. Jackson.

Active operations are being resumed by the Reward Gold & Silver Mining company, near Ferguson. They are now calling for tenders for driving a tunnel for a distance of 1000 feet. An American company, headed by D. D. Forbes, a well known mining man, is now behind the company, and Mr. Forbes will likely move his family up from the states and make his home in Nelson. The company believe that they have a good property and will develop it to a considerable extent.

QUEENS—J. Morton, D. D. Forbes, St. Paul; R. Bell, Salmo; S. L. Roberts, J. L. Young, Spokane; F. E. Griffiths, Slocan; T. J. Graham, Kamloops; W. E. Gray, Mrs W. Hein, Miss Callohon, F. H. Young, Trail; A. B. Jones and family, Rossland; Mrs. J. Gray and son, Toronto; W. J. Keny, St. Catherines; A. Pester, Fernie.

NELSON—A. E Stacey and wife, Weiser; A. Sakris, Trail; D. McNinis, M. McNinis, Antigonish; W. E. Vinet and wife, Victoria; G. M. Booth, Seattle; M. S. Holt, Cranbrook; G. Luff, Westley, A. Busby, Fairmont.

At an early hour Sunday morning in the Home hospital death put an end to the sufferings of Eugenie Romano, the Italian workman at the Hall Mines smelter, who was so terribly burned while at work a few days ago. The funeral took place yesterday afternoon at 1 o'clock from the church of Mary Immaculate to the city cemetery. Rev. Father Althoff officiated and a number of the deceased's countrymen followed the remains to the grave. The deceased was 28 years old and had only been in this country about two months. He leaves a wife in Italy.

At a meeting of the executive of the Nelson cricket club held last evening the following team was selected to play the Kokanee ranchers next Thursday: A. H. Coppen, captain, H. E. Wade, C. T. Partington, E. J. Marks, R. Reid, G. S. Gregg, A. Tregillus, E. Mason, F. J. Sammons, B. Hardcastle, with F. C. Corry and L. Craufurd as alternates. The match will begin at 2 o'clock in the afternoon and stumps will be drawn at dusk. A cold collation will be served on the grounds to the players. F. W. Rolt will umpire. A resolution was passed by the committee charging an entrance fee of 25 cents a head to the general public.

Owing to judge Forin's absence yesterday no chamber session was held, but the judge will be in attendance this morning to hear any pending applications.

H. S. Taylor, representing the Mining World of Chicago, who is in the city, leaves for Kaslo this morning on a tour of inspection of the mining properties in the district.

Thursday afternoon next, the Altar Guild of St. Saviour's church will hold their annual garden party at the residence of William Irvine, Silica street. The city band will be in attendance and all kinds of seasonable refreshments will be served.

The installation of the recently elected Knights of Pythias officers will take place at the regular lodge meeting this evening at 8 o'clock. A full attendance of members is requested. Visiting brethren are cordially invited to attend.

E. M. Hand, manager of the Ymir mine, is at the Strathcona. He is still unable to get all the miners he wants, but is making good progress with the property. Yesterday work was started on a new 2500 foot flume that will be completed within the next 30 days and will materially increase the water supply at the mill during the dry season. Not being able to obtain sacks for shipping the ore Mr. Hand is having the output placed direct on the cars. About 90 tons daily is being treated at the mill and the mine continues to improve with further development.

LAKEVIEW—J. H. Magee, Boston; W. Hall, J. Harrison, Creston.

SHERBROOKE—P. Stark, Castlegar; A Brun, Koch siding; A. Bolleau, Kaslo; G. L. Callaghan, Grand Forks; G. Golimi, Shields; W. Brown, Rossland.

CLOCKS

Our stock includes Clocks of all kinds—Grandfather and Mission Clocks for the hall; Mantle Clocks for the parlor; Mission Clocks for the kitchen; small fancy Clocks for the bedroom; Alarm Clocks for the camp. No need to be without correct time. Our Clocks are reliable timepieces. We guarantee every one of them. One of our leaders is a good Mission Clock at $5.00

Our Optical Department

is again in good working order, and as in the past most successful results are obtained daily. Our facilities are the best, and charges are as low as good workmanship will permit. Satisfaction guaranteed or no charges are made.

Agents for Nettleton's, Slater's, Bell's

ICE CREAM

Our frozen dainties in Ice Cream goods touch the spot and please the palate without touching it. We cater to particular people and are prepared to furnish large quantities on short notice for parties, etc.

Ours is not the common kind and yet it is so good that it is more commonly used in Nelson than the common kind. All flavors.

LONGHURST'S

CIGARS

We handle the brands that never change—that are just as good today as when first put on the market. Come here for cigars and avoid disappointment.

The last whiff of one of our cigars is as good as the first. That's why good smokers buy and recommend them.

Cabinet Cigar Store

C. B. MATTHEW, Prop., Baker St.

Plumbers' Supplies

The largest and most complete line of Plumbers' Supplies carried by any firm in the Kootenays can be found in our store. The prices are right and the goods are the best.

Strachan & Hebden

We carry a full line of Plumbers' Supplies.

TOO HOT TO BAKE?

Then why not do as your neighbors are doing—get your bread, cakes and pastry from the Star Bakery.

Everythings is first class. We use only the best flour, etc., in our bakery and everything is clean and nice.

And it is cheaper to buy your bread from the Star than it is to bake it. Think of the time wasted which you could use to better advantage. Call us up—our phone number is 258—and we will be pleased to quote our prices. If you want some Ice Cream, don't forget that we sell it.
