PRODUCED THE NOTE

Slip Handed to Thaw by Wife Night of the Tragedy

Jerome Submits it to Court at Request of Defence—Witness Says Thaw Is Crazy

New York, Feb. 11.—Answering a hypothetical question covering every detail of the testimony up to this time in the Thaw trial, including Mrs. Evelyn Nesbit Thaw's narration of her life history to the defendant, Dr. George O. Wagner, superintendent of the state hospital of the insane at Binghamton, declared on the witness stand late today that, in his opinion, Harry K. Thaw did not know that the act was wrong when he shot and killed Stanford White in Madison Square garden.

Dr. Wagner stepped aside for cross-examination later by district attorney Jerome, and, as court adjourned for the day, it was announced that the defence will proceed with the testimony of other alienists tomorrow. Dr. Wagner's opinion on the hypothetical question, the man under consideration on that question being the author of letters introduced as emanating from Harry Thaw during the period of his estrangement with Evelyn Nesbit, after their return from Europe in 1903, followed a day of almost continuous legal sparring between Mr. Delmas for the defence and Mr. Jerome for the prosecution.

Mr. Jerome effectually blocked the completion, for the time being, of the direct testimony of Mrs. Evelyn Nesbit Thaw. He insisted that, before she went further, competent testimony as to Thaw's unsoundness of mind should be placed before the jury. Mr. Delmas tried to carry forward the young wife's story but the district attorney was ready with an objection to every question asked. Mrs. Thaw was recalled as the third witness of the day. One of her predecessors was J. D. Lyon, vice president of the Union National bank of Pittsburg, who testified that he received Harry Thaw's will from the latter's own hands some time prior to April 1, 1906, and held it in a safe deposit box until late in November last, when he directed his secretary to forward it to John D. Gleason, of Thaw's counsel. Mr. Gleason followed Mr. Lyon on the stand and said he received the will by mail on December 11, 1906, and that absolutely no changes had been made in the instrument during the time it was in his possession. Mr. Jerome admitted the transfer of the will from Lyon to Mr. Gleason and obviated bringing into the case the former's secretary as a witness. Mr. Delmas did not offer the will in evidence today, however, because it has not in its entirety been proved as having been legally executed by Thaw.

When young Mrs. Thaw was called to the stand she was dressed precisely the same as when she occupied the witness stand last week. As she was taking her seat, Mr. Delmas turned to the district attorney, renewed his demand of Wednesday last that the note which passed between Mrs. Thaw and her husband at the Cafe Martin the night of the tragedy be produced. Mr. Jerome, upon the occasion of the first demand, remained silent, but today he arose at once, and said that he would send for the slip of paper. It was brought from his office, was identified by Mrs. Thaw and was then read by Mr. Delmas:

"The b——— was here a minute, but went out again."

The contents of the note caused a surprise only as to the exact wording. It had been generally supposed that the note read: "The b——— is here." Mrs. Thaw testified today that the "b———" means blackguard, as Thaw had always referred to Stanford White, whom he had seen on the balcony of the cafe. The only essential point Mrs. Thaw was allowed to bring out in her testimony was that the defendant never carried a pistol except when in New York city.

She was asked many other questions by Mr. Delmas ,embodying various stories she discussed with Thaw, including the alleged fate of a girl known to Thaw as the "pie girl" at the hands of Stanford White, but Jerome nullified every one of these questions with sustained objections . After compelling the defence to resort to expert testimony as to Thaw's insanity by objections to Mrs. Thaw's testimony, Mr. Jerome proceeded to bar the testimony of Dr. Wagner as to the results of his six visits to the defendant in the Tombs and his testimony as to the mental condition of Thaw. Dr. Wagner was not allowed to go into the conversations he had with the prisoner, nor the conclusions he reached from these conversations. He was confined by Jerome's fusilade of objections to testifying to what he had actually observed. He declared his observations were so closely related to the questioning of the defendant that he did not know whether he could differentiate them. A long argument over the point resulted in Mr. Delmas withdrawing any further questions as to the tests and his contenting himself with asking Dr. Wagner for his opinion upon the hypothetical question covering the evidence in the case.

The question was almost record breaking in length, a comprehensive resume of the entire case, including Mrs. Thaw's personal narrative. In this hypothetical question, Mr. Delmas accused Stanford White of having "drugged" Evelyn Nesbit and of having attempted renewed "communication or relations" with her subsequent to her marriage. Mr. Jerome objected to these features of the question and it was amended to embody the evidence on record as to the disputed points. It was on the amended question that Dr. Wagner offered the opinion that Thaw did not know, because of defective reasoning, that his act in killing Stanford White was wrong. Here the expert's direct examination ended and he stepped aside for cross-examination later. When he is taken in hand by Mr. Jerome he will have to detail reasons for his opinion.

Dr. Evans, of the New Jersey state hospital for the insane, will be the first witness for the defence tomorrow. A new rule by justice Fitzgerald barring from the court room all women except those engaged in active newspaper work, went into effect today. Many of those who, bedecked in gay costumes, occupied front seats during the trial last week, were on hand bright and early this morning but to no avail. The court officers had direct orders this time, and obeyed them implicitly. As a result there were empty benches in the court room all day.

TROUBLE WITH THE U.S.

MAY RESULT FROM DISPUTE OVER TWO ISLANDS.

THEY LIE ON BOUNDARY BETWEEN U. S. AND CANADA.

Cincinnati, Ohio, Feb. 11—The attempt of the United States to secure possession of islands numbering 1 and 2, in the straits of St. Mary, by suit to quit title has failed, a decision of the circuit court of appeals announced today sustaining the district court of the western Michigan district in favor of the Chandler-Dunbar Water company.

The islands are in the line of the boundary between the United States and Canada and, combined, have an area of two acres . Improvements valued at $100,000 have been made by the water company, which claimed title from the government since 1883. It is understood that international complications may result.

VENEZUELA'S REVOLUTION

Paredes Said to Have Captured a Number of Coast Guardsmen.

Caracas, Feb. 9 (via Williamstad, Feb. 11.—General Antonio Paredes, who for some time past has been preparing a revolution against president Castro, is said to have captured a number of coast guardsmen and to have impressed them into service. Later he is said to have proceeded toward Maturin the capital of the state of Maturin, in which Pedernales is situated.

Caracas, Venezuela, Feb. 11.—Rudolf Dolge, the ex-American consular agent here, director of the Orinoco Corporation, and secretary of the U. S. commission on Venezuelan affairs, has filed with the government an exposure of the complicity of certain prominent officials in attempting to rob the corporation of its valuable rights in the Orinoco delta. In order to avoid causing any embarrassment at Washington, Mr. Dolge has presented his resignation as consular agent at Caracas. Mr. Dolge recites a long list of wrongs, blaming prominent politicians for them. He complains that the authorities consented to the transfer to the Orinoco Lumber Co., of New York, of part of the property which, according to the decisions of both the Venezuelan supreme court and the international arbitration commission of 1903, belongs to the Orinoco corporation.

MUST NOT FIGHT.

Honduras and Nicaragua Told to Quit Sparring and Talk Sense.

New York, Feb. 11.—This despatch has been received from president Zelays, of Nicaragua:

"To the Associated Press, New York: Nicaragua is being provoked by Honduras, which is preparing to repeat her aggression."

Washington, Feb. 11.—The statement was made at the state department today that at a conference held between assistant secretary Bacon and the Mexican ambassador, it had ben decided that Mexico and the United States would unite with Salvador, Costa Rica and Guatemala in making identical representations to Honduras and Nicaragua to the effect that they would be expected to settle their differences without resort to war, and that the arbitration commission which was recently terminated at San Salvador must be reconvened in order that the issues between the two countries may be peacefully settled in accordance with existing treaties.

CAUSE OF COLLISION

Ossining, N.Y., Feb. 11—At the coroner's inquest into the causes of the wreck of the Montreal express Friday night, witnesses testified that the freight train which collided with the express, ran on the express train's track, despite the signals and the trains could not be stopped in time, owing to slippery rails. The engineer of the freight was still held in $3500 bail.

CRUSHED HIS SKULL

Boston, Feb. 11—One person was killed, two others somewhat overcome and the lives of 180 placed in jeopardy by a small but stubborn fire in the Waverly house, a large hotel at Charleston, tonight. One-third of those in the hotel found the usual means of escape cut off and were forced to gain the street by the fire escapes or over ladders which the firemen raised to the second and third story windows. The dead man was John Harrigan. He fell from the fourth story window to the sidewalk and his skull was fractured.

FROZEN TO DEATH.

Winnipeg, Feb. 21.—Word was received tonight by the Hudson Bay company from Fort Churchill to the effect that surgeon Moody, of the R. N. W. M. P., had been frozen to death near the Fort on November 3. He lost his way while hunting about 12 miles in the forest.

A FEARFUL EXPLOSION

WRECKS ARSENAL AND MAGAZINE AT WOOLWICH.

PEOPLE FRIGHTENED FOR FORTY MILES AROUND.

Woolwich, England, Feb. 11.—A huge hole in the ground is all that marks the chemical research department of the Woolwich arsenal and the cordite magazine, which exploded early this morning with such terrific force that the concussion was felt in towns 40 miles away and the whole country side was thrown into a panic owing to the belief that a violent earthquake had occurred. There was no loss of life but buildings for miles around were wrecked to a greater or less degree by the explosion.

Within a few minutes after the explosion thousands of terror stricken people, many of them half clad, thronged towards the arsenal. There were large holes in the walls of neighboring houses and on all sides shattered doors and windows and wrecked roofs testified to the appalling forces of the explosive chemical and cordite with which the arsenal and magazine were stocked. These buildings were practically swept away, the big blocks of stone of which they were constructed being scattered for hundreds of yards on all sides. Yesterday being Sunday, there was no night shift working, hence the absence of casualties. The people of Braintree, 40 miles away, were thrown into a panic by the shock of the explosion, while nearby towns had windows shattered and chimneys destroyed. The cause of the disaster is not known.

FORTUNE FOR HUGHES

ZINC ORES TO ENTER STATES DUTY FREE.

MEANS INCREASED ACTIVITY IN KOOTENAY.

A. D. Wheeler was at the Strathcona last night and referring to the zinc decision just made by the United States customs authorities, mention of which was made in Sunday's issue, he said:

"The appraisers to the United States treasury have been taking testimony for some time at Kansas City as to what, if any, duty should be charged on zinc ores imported into the states. They reported to Washington with the result that an official announcement has been made that "colamine" embraces, carbonate, oxide and silicate of zinc and is therefore dutiable. What affects B. C. the most, however, was the further decision, also officially announced, that sulphide of zinc, known as Black Jack, was not a mineral within the meaning of the American customs regulations but must be classed as crude ore and as such is not liable to any duty. This means a great deal for holders of zinc producing mines here. In George Hughes' case I think it means he has a comfortable fortune in the Lucky Jim. Other zinc mine owners are of course greatly interested and the decision should mean increased activity in mining circles."

C. P. R. DIVIDENDS

After Payment There Remains Surplus Over All of $6,600,000.

Montreal, Feb. 11.—At a meeting of the board of the Canadian Pacific Railway company today, a dividend of 2 per cent on preferred stock and three per cent on common stock was declared for the half year ending December 1st, payable on the second of April next; and it was also decided that at the same time a further sum equal to one half of one per cent should be paid on the common stock out of the interest on the proceeds of land sales. After the payment of working expenses, fixed charges and the dividend now declared, there is a surplus for the half year of $6,600,000.

CONSTABLE DROPS DEAD

(Special to The Daily News)

Vancouver, Feb. 11.—Provincial constable Jones, one of the best known officers of the northern coast, dropped dead from heart disease at his home on Valdez island.

ANOTHER TRUST COMING

Sault Ste. Marie, Ont., Feb. 11—The bridge trust is about to invade Canada and will establish a big plant here under the name of the Algoma Bridge company.

FIRE AT BRANTFORD

Brantford, Feb. 11—Fire in the Goold-Shapley-Muir factories here today caused $35,000 damage, fully insured. The flames were stopped by fireproof walls,

AN EMPIRE CONFERENCE

Four Ministers Will Accompany Laurier to London

Canadian Delegation Will Side With Newfoundland in the Fisheries Debate

(Special to The Daily News)

Ottawa, Feb. 11.—Sir Wilfrid Laurier will be accompanied to the colonial conference in April by Hon. Messrs. Fielding, Paterson, Brodeur and Borden. These ministers will be entitled to participate in the conference discussions, but upon any question being put to a decisive vote, Canada will have but one ballot, which sir Wilfrid Laurier will cast. The premier has received a statement of the questions proposed for discussion, which include trade matters and imperial defense by land and sea. Canada contributes nothing to the list, but will make her views on the questions coming up known emphatically. Her delegates will also introduce into the trade discussions proposals for preferential trade with Australia and possibly other points in the empire. The Newfoundland fisheries will come before the conference, and Canadians will doubtless lend support to the island premier in the fight he is making for his rights under the treaty of 1818.

The railway comission has for a couple of months, to the limit of its powers, been urging and pressing the railway companies in the west, especially the C. P. R. and C. N., to strain every nerve and resource to supply the fuel so urgently needed at many points in the western provinces, in some cases with admittedly satisfactory results and in a considerable number of instances with results not yet what they should be.

The act respecting proprietary and patent medicines, to be introduced this session, provides that no such medicine shall be sold or offered for sale unless a sample has been submitted to the minister of inland revenue for registration, accompanied by an affidavit as to whether it contains alcohol or poisons and the percentages. Every bottle must have the inland revenue stamp thereon. If the analysis is found incorrect, or the minister considers the medicine unfit for use, the dealer will have an opportunity of presenting his case, after which the department may, if deemed advisable, prohibit the sale of the medicine.

MARPOLE'S NEW DUTIES

HAS SPECIAL CHARGE OF VANCOUVER ISLAND EXTENSIONS

WILL ALSO TAKE OVER WORK OF LAND COMMISSIONER DENNIS

(Special to The Daily News)

Vancouver, Feb. 11.—R. Marpole, western general executive assistant of the C. P. R., arrived this morning. He stated that extension of the lines on Vancouver island would be started this year, but nothing is as yet certain as to the routes to be followed.

Construction of the line from New Westminster along the North Arm of the Fraser to Eburne was assured, and this line, in conjunction with the line from New Westminster to Westminster Junction, would be handed over to the B. C. E. R. Co. for electrification and operation.

As soon as possible, surveys will be started in the Nicola country with a view to further extensions there. The former surveys have been rendered out of date because of new mining developments, and these will now be taken into account.

Mr. Marpole's headquarters will remain in Vancouver. His new duties will especially have to do with the Vancouver island extensions, and here he will take over the duties of land commissioner Dennis. Mr. H. J. Cambie will be the engineering member of his staff.

CONTRACTS FOR G. T. P.

Morse Announces That Five Districts Will Be Let at Once.

Montreal, Feb. 11.—While there was general belief that contracts for five districts of the transcontinental division of the Grand Trunk Pacific would be let at once, the matter was not actually settled until Saturday evening, when Frank W. Morse, vice-president and general manager, announced that the G. T. P. would be in the field giving out contracts for five divisions of the road. This means an expenditure of $25,000,000 and probably more, as there are several subsidiary lines to be built. One of these will be an entirely new road of about 200 miles, which will connect Montreal directly with the transcontinental. It is pointed out by the board of trade council that if Montreal does not wake up, it will suffer and Toronto, Quebec and Winnipeg will benefit. Quebec will be in direct communication through the Latuque branch, of which 150 miles is already built, and tenders called for another 15 miles. Toronto will reach the line direct through the Abitibi branch which, with an extension of only 40 miles, will join the transcontinental. Winnipeg, with its 200 miles built by J. D. McArthur, will join the road direct. The eastern provinces will have Moncton as their terminal, so that all Canada will be in practically direct communication except Montreal.

CHAMPION OF ENGLAND

London, Feb. 11.—In a twenty-round boxing contest for the lightweight championship of England, and a purse of $1500, at the National Sporting club tonight, Jack Goldswain, of London, knocked out Pat Daley, an American, in the fifth round.

AFFAIRS OF THE CITY

REGULAR MEETING OF COUNCIL LAST NIGHT

WATER, LIGHT, AND SEWER SYSTEMS TO BE EXTENDED

The mayor and all the aldermen were present last evening at the regular fortnightly meeting of the city council. A good deal of routine business was transacted and incidentally it was decided to extend the city's water, light and sewer systems at once.

The minutes of the last regular meeting were read and approved.

The report of the finance committee recommending the payment of sundry accounts, was presented and adopted. The payments included: Court house payrolls $702.35; repairing plaster, $71; electric light payrolls, maintenance, etc., $525.15; total payments, $1298.50.

The report of the fire, water and light committee made several recommendations and was read clause by clause and explained by the chairman of the committee, Ald. Selous. Regarding street lighting, the committee advised the placing of a cluster of three lights at the following points: Four on Front street; one on Lake street; one on Silica street; one on Latimer street; three on Hoover street; one on Robson street; three on Gore street; three on Innis street, and two on Houston street.

Clause two of the report suggested that customers in stores and offices be supplied with meters on request.

The committee also advised that the fire bell be kept for fire and curfew purposes only, that is, to do away with ringing the bell at 7 a.m., noon and 6 p.m. Ald. Selous added that the committee would like to make arrangements with the Roman Catholic church to use their bell for curfew purposes, keeping the bell at the fire hall for fire purposes only.

The purchase of 600 feet of new fire hose was advised as was also the turning over of 200 feet of hose to the committee for flushing the sewers, etc. The report was adopted without amendment. Ald. Selous explained that it was intended to improve the lighting of Baker street, but to substitute the cluster of lights for arc lights about the city.

The city engineer submitted two reports on the sewer system of the city and personally explained the working of the septic system. Both reports were referred to the board of works, the mayor remarking that something must be done regarding the extension of the sewer at the foot of Stanley street, and that as this could only be done during low water, the board of works should lose no time in taking the matter up.

Ald. Irving said that some step regarding the extension of the Stanley street sewer must be taken by the board at once and it was agreed that the board would at once take action and report to the council without delay.

The Canadian Zinc company wrote asking if the council intended extending the city water system to the east, and if so when this would be undertaken. The matter was referred to the fire, water and light committee. The opinion was expressed that the system should be extended, as there were several large consumers just outside the city limits.

The public and high school estimates for the year were submitted by the secretary, Dr. Arthur. Referrerd to the finance committee.

The estimates included Salaries, $13,655; rent, $445; fuel, $800; furniture, supplies and miscellaneous, $1650; total, $16,550.

The chief of the fire brigade submitted his report for the month of January. Fires and alarms, 5; estimated loss, $75; drills, 3; firemen absent from fires, 3. The services of one fireman were dispensed with for failure to report for duty and E. N. Lanchester was appointed to the vacancy. Another fireman absented himself on two occasions from the fire hall all night and the chief submitted the correspondence in the matter showing that he notified the offender that a repetiiton of the offence would mean dismissal from the service. The report was adopted.

Chief Deasy also submitted the estimates for the fire department for the current year. These included: Salaries, $5,145; maintenance and supplies, $1433; total, $6578. Referred to the finance committee.

Superintendent Weeks of the tramway system sent in his resignation as his application for an increase of salary was refused. The council accepted the resignation unanimously.

Driver Murphy of the fire team asked for an increase of wages, but the council refused to grant it.

The council will advertise for a working foreman of the tramway system.

There were nine applications for the vacant position of caretaker for the city cemetery, caused by the resignation of Alex. Allan. The council strongly favored one applicant but it was generally felt that he was not physically strong enough for the work. Two ballots were taken and on the second ballot Duncan McCuaig was declared the choice, by a vote of 4 to 3.

The city clerk presented a list of those in arrears for licenses, electric light rates, and water rates. The totals are: Licenses, $1385; light, $1500; water, $4500; grand total in arrears, $7,385. A long discussion followed and finally, it was decided to refer the matter to the finance committee with instructions to report at the next meeting of the council.

Ald. McMorris asked what steps, if any, were being taken to extend the street car system at the southern terminus.

The mayor replied that it was a matter for the finance committee.

Ald McMorris asked that a report be got from the finance committee. The mayor agreed and added that the estimates for the year should be brought down by the committee at as early a date as possible.

The council then adjourned at 10:10 p.m. until Monday evening, Feb. 25.

NELSON'S NEWS OF THE DAY

W. B. DeWitt will commence operations at the Fern mine this morning and will stope ore for the balance of the winter. He has shipped in about a ton of supplies for the men.

Last night the local fuel situation was worse than at any previous time with no particular promise of immediate relief. The railway officials find great difficulty in getting sufficient coal for the locomotives for passenger service and coal trains are few and far between.

The annual meeting of the Nelson Young People's union will be held in the Methodist church this evening at 8 o'clock when the election of officers will take place. His honor judge Forin will give a brief address and a short musical program will follow, then refreshments will be served. All interested are cordially invited to attend.

Several days' delayed mail matter reached the postoffice yesterday and more is expected today. The coast mail reached here at 3:40 yesterday afternon and a second about 11 p.m. No connection was made at Spokane from the west. It is expected that the Sandon and Lardo branches will be running today and that communication will be maintained with Arrowhead.

The dance given at the armory last evening by the officers and men of No. 2 Co. R.M.R. proved a most enjoyable and successful affair. Over 200 persons participated and an excellent program of dance music was gone through to the very end. Shortly after midnight refreshments were served and the dance broke up at an early hour this morning.

The Ladies of the Maccabees will hold their installation tomorrow evening. Each member has the privilege of inviting two lady guests. The regular lodge meeting will open at 7:30 sharp, when all business will be transacted. At 8:30 the doors will be opened to admit the guests and the officers for the ensuing year will be installed, later refreshments will be served.

A passenger who left Vancouver last Tuesday and who reached this city yesterday afternoon on the delayed C.P.R. train at 3:40, said that at Arrowhead yard both engines were ditched and the snowplow was badly broken up. They started out for Nakusp on Sunday night but lost their way and tied up for the night, coming on down the river yesterday and reaching here as stated.

Opinion was divided last night as to why the street illuminations were turned on. The recent conservative victory, Dr. Hall's election and Chinese New Years, were in turn suggested but the mayor set the matter at rest during the council meeting by stating that for the first time the city power plant was supplying light all over the city as well as running the street cars, so Baker street was lighted up. His worship added that the lights would burn each night for the future.

At 11:40 last night an alarm was turned in from box 35, corner of Mill and Hendryx streets. Upon the brigade arriving upon the scene it was found that an electric light globe had set fire to some window curtains and a blind at the residence of A. H. Gracey. Both Mr. and Mrs. Gracey were at the armory dance but a lady in the house gave the alarm and F. M. Black came to the rescue. Mr. Black called out the brigade and proceeded to tear down and throw out the remnants of the burnt curtains and blind, so that when the firemen arrived the blaze was extinguished. The loss will only be $10 or $15.

APPEAL FOR HELP

Montreal, Feb. 11—The Gazette publishes today an appeal from Nicola Shishoff to the English and American people for assistance to sufferers from the famine in Russia. He states that in 25 provinces crops have been far below the average and in eight or ten, there has been virtually no harvest whatever, and says that the grain gathered during the summer would just about keep the people alive for five and a half months, or until the first of the year; after this they must subsist on government or private assistance. The present famine is more widespread and intense than the one of 16 years ago. Owing to the recent war Russian people have been crippled. An appeal to England and America is necessary.

SIFTON'S NEW PARTNER

Ottawa, Feb. 11—John Bain, assistant commissioner of customs and secretary of the tariff commission, has resigned from the government service. He intends going into business and will be associated with Hon. Clifford Sifton. Mr. Bain joined the government service in 1896, when he became private secretary to Hon. Wm. Patterson.

GETS LIFE SENTENCES

St. Petersburg, Feb. 11—Klimova and Teretiava, implicated in the plot to blow up premier Stolypin on Aug. 25, 1906, were today sentenced to hard labor for life.

MAY BUILD NEW CHURCH

Methodists Find the Present One Too Small

Effort Recently Made to Purchase Unused Congregational Edifice Has Failed

The officials of the local Methodist church find themselves confronted with a serious problem—one which will have to be solved as quickly as possible, and which, in its solution, may entail the building of a new church. For some time the present edifice has been badly crowded. On Sunday night it was filled to the doors and chairs had to be requisitioned to seat the throng in attendance. Moreover, the building now in use is an old and unsatisfactory one, and can be used to advantage neither for general congregational worship nor for the Sunday school, which holds its sessions in the main body of the church.

More than a month ago, when the problem first began to present itself and take shape in the minds of the officials, it was thought that an easy solution might be found in the purchase of the unused Congregational church, which, by the expenditure of a little money, might easily be put into shape for immediate use. Tentative negotiations were opened, but when the price at which the Congregational mission board held its property was learned, it was at once seen that the same amount of money could be invested to better advantage in a new building. Accordingly, the negotiations were dropped.

But the subject of a new church for local Methodism is as live as ever. Members of the board of trustees feel that they are in a good position to go ahead with the work at an early date; for the congregation is out of debt and the weekly revenue is very encouraging. After lost night's service, trustee McHardy said that in his opinion there was no doubt something would have to be done at once

It is anticipated that the official boards of the church will soon mature their plans; whatever their decision, it is probable that Nelson will soon be able to boast as modern and complete though not as large a Methodist edifice as is to be found in British Columbia.

AT THE THEATRE

"Scarlet Mysteries" Provided an Excellent Program—Will Appear Again Tonight

The "Scarlet Mysteries" last night attracted a good audience at the opera house but, judging by the uproarious applause, that audience will not be a circumstance to the one which will greet the red cloaked musicians this evening. From many points of view the kaleidoscopic variety of the performance was of the best that has visited the city. The acts were of grave, serious, gay and other import. Sometimes the audience was treated to brilliant playing by a youthful Rubinstein and then this was varied by a high chevalier with his donah, but who the donah was is also a mystery. According to a bewilderingly phrased program there were none but male performers and suddenly was evolved a daughter of Eve in evening dress. Nor were the acts all musical; some were allegedly so, some were professedly not. Indeed, one elderly gentleman proved his acquaintance with the Renaissance, not of music, though that was also illustrated, but with painting. Turner certainly could never have executed his best (or worst) impressionist sketch in 60 seconds. This was not only attempted but was done.

There was not a bad number through the whole bill of fare, any little impression on that line being instantly apparent to be merely farcical. It was declared that there will be a change of program this evening but the Mysteries need not be afraid of the result if the program of last night were again produced in its entirety, for not one in the audience who was there on the first occasion of their playing, will fail to go and see and hear them tonight.

FUNERAL AT FERNIE

(Special to The Daily News)

Fernie, Feb. 11—One of the largest and most impressive funerals which has taken place in Fernie for some time was the double one yesterday when the remains of Charles Douglas, the victim of the snowslide, and George Prid, who was killed on the railway at Coal Creek on Saturday, were removed from the undertaking parlors of Scott and Ross to the Miners' union hall at 2:30 p.m. where the beautiful burial service of the church of England was read by the Rev. R. S. Wilkinson, rector of Christ church, and the Salvation army band rendered sacred music. The members of the local union turned out in large numbers headed by the officers of the district board and the local union, and many other citizens joined the sad procession to show their respect for the two unfortunate victims, who were deservedly popular with their comrades and friends.

SPEND HALF A MILLION

Winnipeg, Feb. 11—The Canadian Pacific has decided to increase the amount to be expended on additions to the shops here this year to half a million dollars.

IS THE PRESS DEGENERATING?

In returning to a further discussion of certain statements made in the course of the debate on the relation between "ethics and politics" held by the University club Saturday night, we beg the indulgence of those of our readers whose patience may not be inclined to brook a second reference to a subject which may seem somewhat academic. We recognize the fact that, with a general election just over, the pendulum of public interest must rapidly swing away from matters political. But, in spite of this, we hold that the charges made on Saturday by certain members of the University club against the press, against the party leaders and against the general electorate form so severe an arraignment of the public life and public men of today that they should not be passed over too lightly or too hurriedly. If they are founded on fact and form an accurate interpretation of existing conditions, too much attention cannot be given them. If true, they present a problem stupendous enough to stagger the most daring and resourceful reformer; if false, they do an injustice to those who have been indicted—an injustice for which reparation cannot be too amply or too speedily made. We have already admitted, in a previous article, that with the first indictment, that made by Rev. Mr. Graham against the great political parties of British Columbia, we agree—namely that they are not now divided by devotion to opposing opinions concerning great ethical principles and that in their recent campaigns they neither raised nor debated issues of more than very minor importance. This much we concede; and we acquiesce in the assertion that until more vital problems separate the parties, British Columbian politics will not be raised very far above the level of personal abuse and attack on administrative method to which they have descended.

But at this point we stop momentarily in our admissions, and take issue with Dr. Arthur over the second indictment made in the course of Saturday evening's debate. For the unfortunate conditions existing, Dr. Arthur holds the press mainly responsible. He asserts that the press of today is a degenerate press,—that it is conducted with less ability and with less honesty than was the press of five decades ago. He cites the instance of the Globe in its early years when, under the editorship of its founder, Geo. Brown, its thunder reverberated from bound to bound of the dominion as it laid stinging controversial lashes over the back of John A. Macdonald; and he compares the Globe of George Brown's palmy days with the Globe of 1907, edited by J. A. Macdonald, much to the disadvantage of the latter. He condemns the intemperate language used by journalistic writers of today, particularly those who conducted the publicity end of the recent campaign in British Columbia, and credits them with mean motives and little ability, finding his evidence in the fact that they grounded their whole campaign on charge, counter charge and petty accusations of maladministration rather than on the discussion of vital issues.

Before criticising Dr. Arthur's laudation of George Brown and his disparagement of the press writers of today, we wish to eliminate from consideration one important factor. It is granted from the start that George Brown dealt with bigger political problems than do present day papers; but we can not forget that he did so under the stress of circumstances—that important issues then faced the country crying for solution; and that since his day practically all the problems with which he struggled have been satisfactorily settled and duly shelved. There are no clergy reserves today over which to fight; for the reserves were long ago secularized, as George Brown wished them to be. There is now no unjust system of parliamentary representation to be righted by a fight for representation by population, for representation by population is an established fact. There are now no independent provinces to be confederated, for the magnificent opportunity which could come to the Canada's but once in the whole course of their history was seized when George Brown was on the stage, and was so effectually handled then that the question has since been entirely removed from political fields, both academic and practical. This being the case, we maintain that the subject matter of the newspaper campaign discussions of 1907 cannot fairly be compared with those of the fifties and sixties. At neither period could the press stipulate that subject matter, or even exert much influence in framing it; for invariably, both then and now, it has been and is the party leader, the party convention or the party caucus which settles the nature of the issues to be raised. Unless the party consents, the press cannot commit the party; and for a paper, or a number of papers, to wage a campaign on behalf of a party on a platform to which the party refuses to be bound would be ridiculous in the extreme.

We grant, as we have said above, that George Brown dealt with bigger things than do the writers of today. Now, granting this, it is reasonable to hold and to advance as an observation quite apropos to the subject in hand, the view that two men of equal ability, one writing on a lofty theme and the other struggling with petty scandal, will naturally and inevitably produce very unequal results. The man who deals with big topics should write in a big strain, while the man who is confined to the meaner subject is very apt to fall into a meaner and less creditable method of thought and argument. Having a poor case, he is practically compelled in spite of himself to adopt an abusive style as the only one at all likely to furnish an effective weapon. This being the case a great deal should be expected of George Brown, who had to discuss great principles of government concerning which different and equally defensible opinions could be and were held—certainly much more than can be asked of the writers of today who are, by their party leaders, too often set none but sordid topics in practical politics on which to enlarge. And it must be conceded that both in argument, exposition and attack George Brown certainly made much with the press as with the political parties; and the remedy is not to be found in a return to Geo. Brown's methods, but in the appearance on the public horizon of issues worthy of the name. Give the editors of British Columbia a fair fight to wage, and we believe that they will acquit themselves with credit. But give even a George Brown nothing but an administrative record with no sign of a featured policy to attack, and he will descend to the level of the subject he has to handle.

If Dr. Arthur, the members of the University club and public spirited citizens generally wish to correct the spirit of the press and elevate the tone of political controversy, they can accomplish their end by no other means so quickly as by suggesting, and using their influence to secure the adoption by the parties of, big policies, with issues big enough to allow honest differences of opinion.

HELPS CANADA'S TRADE

SUCCESS OF EXHIBIT MADE IN NEW ZEALAND.

CANADIAN MINERAL DISPLAY THE BEST THERE.

Ottawa, Feb. 11.—Further advices from the Canadian commercial agent in Australia, Mr. Lake, give added information concerning the success of Canada's big exhibit at the New Zealand International exhibition, now in progress at Christchurch.

The high standard and quality of the goods are favorable commented upon. The attractiveness of the court, as well as the high class of the exhibits, will do much to improve our trade with New Zealand. The sympathy and sentiment of New Zealanders is all towards Canada and the Motherland, to the exclusion of all other countries. The proximity of Canada to New Zealand as compared to Great Britain is also a strong point in favor of Canadian goods and the direct steamship service between Canada and New Zealand is proving to be a means of diverting a large business to Canadian factories.

New Zealand is a sale market for our manufacturers to exploit. The numerous wholesale houses are large in buying capacity, and their business integrity and financial strength will compare with that of any other part of the world. New Zealand is not a consignment market, the wholesalers placing direct orders, paying for same against the usual bank documents.

Apart from the exhibit of manufactured articles the Canadian government has installed several exhibits illustrating the natural resources of Canada, such as minerals, agriculture, fruit, maple syrup and honey. These exhibits are very much admired. The apple exhibit consists of thirty-seven varieties, the quality of which is very much admired. There is no doubt that there is a good market in New Zealand for our British Columbia apples. With a direct steamship connection fruit can be landed in New Zealand during the early spring months. Californian apples were bringing 8d per lb. in October and November.

The Canadian mineral exhibit is the largest and most comprehensive collection of economic minerals at the exhibition, and is proving to be one of its most educational features, the arrangement being altogether different from any of the others.

Where possible the metallurgical and other products are shown, illustrating the ore as it comes from the mine, the different stages of smelting and refining and the manufactured products.

The visitors are more particularly impressed with our exhibits of asbestos, mica, corundum and nickel, these being to a certain extent new minerals to them.

The Cobalt nickel silver ores from Ontario also attract much attention, especially the slab of native silver from the Trethewey mine.

The mineral exhibit occupies a space of 4391 feet and consists of 35 pyramids and stands and 19 table cases.

Among the more prominent exhibits are gold quartz from Nova Scotia, Ontario, and British Columbia; nuggets from Quebec, British Columbia and the Yukon; gold-copper ores and silver-lead ores from British Columbia; copper ores, Nova Scotia, Ontario and British Columbia; zinc ores, Ontario and British Columbia; mercury, British Columbia; antimony, Nova Scotia and New Brunswick; nickel and copper ores, Sudbury, Ont.; iron ores from Nova Scotia, Quebec, Ontario and British Columbia; metallurgical products from the Trail smelter, Trail, B.C.; exhibit of ferrochrome, ferro- silicon, ferro, phosphorus, by the Electric Reduction Co., Buckingham, Que.; manganese, Nova Scotia; chromic iron, Quebec; molyodenite, Quebec, Ontorio and British Columbia; tungsten, British Columbia; coal, Nova Scotia, Alberta and British Columbia; petroleum and products, Imperial Oil Co., Sarnia, Ont.; apatite, Quebec; iron ochre and paints, Canada Paint Co., Montreal; said, Canadian Salt Co., Windsor, Ont.; corundum, Craig mine, Roglan, Ont.; corundum wheels, Hart Corundum Wheel Co., Hamilton; asbestos from the Thetford and Black Lake mines, Quebec; mica, Quebec, Ontario and British Columbia; graphite, Ontario and Quebec; felspar, Quebec and Ontario; building stones, granite, syenite, sandstone, limestone and dolomite; ornamental, stones, serpentine, marble, jaspar, conglomerate, sodalite, etc; marls, clays, infusorial earth, barite, magnesite, cement, talc. In front of each stand is a sign giving statistics and other information regarding the minerals.

ELECTRIC PIANO

The Kootenay hotel has a new attraction in the shape of an electric piano, made by the Regal Piano company of New York. The instrument is the first of the kind shown here. It plays 200 pieces of the latest music. Mrs. Mallette, the proprietress, will be pleased to have callers hear this novelty at any time.

WON'T BE SECOND FIDDLE

HEARST REFUSES TO BE BRYAN'S RUNNING MATE

IF BRYAN WINS HE WILL WAIT HIS TURN

New York, Feb. 11 — Everywhere the question is being asked as to what Mr. Hearst is doing—what his political plans are—whether he will be a candidate for the nomination for president in 1908 against William Jennings Bryan as he was a candidate for president in 1904 against judge Alton B. Parker.

For four years—in fact ever since his first election to congress—Mr. Hearst has been quite a prominent figure in the political world. Ten years ago at Buffalo in 1896, when Mr. Bryan was a candidate for president on a free silver platform, he really wanted a nomination for governor, but upon examining into the requirements found that the constitution of the state required a man to be a resident for five years. As soon as he had complied with that requirement he commenced to importune former United States senator David B. Hill to give him a nomination.

Senator Hill would only shake his head and say: "Get a record first." The opportunity of getting a record seemed to have been afforded when controller Bird S. Coler was nominated for governor. It was at first supposed that Arthur Brisbane would be nominated for congress from the district for which Mr. Hearst was finally named and from which he was afterwards elected a second time—a district which he still represents, though only a few days ago he made his first appearance on the floor of congress for the present session.

The talk that leader Murphy was planning to nominate Brisbane for congress from the west side district, was merely in the nature of a feeler—something to draw the fire of any possible opposition, for at the last moment Brisbane withdrew in favor of his chief—an arrangement and understanding which had probably been entered into from the start.

In addition Mr. Hearst was at one time a minority candidate for United States senator, receiving a number of votes given him by men who have since proved his bitter enemies.

Of course this was merely honorary since the legislature was republican in both branches and there was not the slightest chance of either a radical democrat or a conservative democrat being elected.

But it all goes to show that Mr. Hearst public career is in one way one of the most remarkable on record. In public life really less than four years, in that time he has held just one office, that of congressman, having been twice elected—from a democratic district, it is true, but by majorities and percentages unheard of in any city if not in the state.

But during the time since he was first elected to congress, less than four years ago, he has been a candidate for United States senator, a candidate for president of the United States, a candidate for mayor of New York and a candidate for governor of a great state like the Empire state. While holding one office he has been a candidate at pretty nearly every election that has come off; in fact every election that has come off for something higher and better.

It will therefore be conceded by his enemies as well as his friends that Mr. Hearst is a very ambitious man, and it is not likely that he will allow any grass to grow under his feet in the future.

Whether he will be a candidate for president in 1908 or whether he will be willing to fall in line behind a radical democrat like Mr. Bryan is something which the future alone will probably decide.

The suggestion that Mr. Hearst might be named on the ticket with Mr. Bryan and that Bryan and Hearst would sweep the country, is not likely to go through for the reason that Mr. Hearst is not the kind of a man to play second fiddle to any man.

From the running of a newspaper to the running of a ball game, if it is a proposition in which he takes any interest at all, it is a proposition which he insists upon controlling absolutely.

He appears to be more of a military man than a politician, in that his mind works along military lines rather than along the lines of a series of compromises. And politics is, after all, only a series of compromises.

But Mr. Hearst is not the kind of a man who will compromise with anybody or anything. Instead of consenting to run for vice-president on the ticket with Mr. Bryan Mr. Hearst is more likely to finally consent to once again run for governor of the state of New York at the election in the fall in the event of his defeat and Bryan's election, taking a post like that of ambassador to England or France as a reward for party services, and then waiting for something to turn up which would permit him to return to this country as James Buchanan did frm England just in time to receive the presidential nomination at some future date.

GEO. G. McLAREN,
Baker Street

The only complete and perfect food is milk. In it are flesh-formers and heat makers in the right proportions properly balanced.

Milk taken every morning and evening in conjunction with Orange Meat which, according to Prof. Harcourt's determination, is 50% more valuable as a food than bread, supplies the most perfect and evenly balanced food that human subject can secure. Build up children on Nature's food.

But it would not be in keeping with Mr. Hearst's style of doing business to allow himself to be sidetracked by a vice-presidential post where he would become responsible for the mistakes of an administration like the Bryan administration and where he could not receive the rewards and the glories of office. Under the circumstances, therefore Mr. Hearst's present movements become interesting because they tend to throw some light upon the problem of what Mr. Hearst may be expected to do in the future. There are hundreds, if not thousands, of strikers and political hangerson, who are extremely anxious to know whether Mr. Hearst is planning an invasion of other states with his Independence League. Here are the facts in the case as they exist today:

Mr. Hearst's friends and advisers, and Mr. Hearst himself, are convinced that he was in reality elected governor of the state of New York as well as mayor of New York city. But the fact that he was defeated on the face of the returns by over 50,000 and the fact that he was defeated on the face of the returns by McClellan for mayor by a small figure, made the mayoralty contest appear the line of least resistance. And Hearst in politics follows the line of the least resistance.

He knew that it was good politics to demonstrate to the people of the country that he was a good loser, by gracefully surrendering to the situation and appearing to welcome Hughes without a contest. And yet there are in Mr. Hearst's possession reports and tabulated figures based upon his investigations made in connection with the mayoralty contest and in connection with the election last fall—returns based upon the results in Brooklyn alone, where senator McCarren, the democratic leader, is alleged to have spent $250,000 to defeat Hearst in Kings county—returns which have convinced Mr. Hearst and those in his confidence that not only was he elected governor of the state of New York, but mayor as well. In other words Mr. Hearst's investigations show that there are 50,000 fake, crooked, fraudulent votes cast in New York city alone in any election. Just at the present time, therefore, Mr. Hearst is following the line of the least resistance by paying very little attention to municipal ownership clubs and Independence leagues, and by paying a great deal of attention to the courts and the present legislature in an effort to open the famous ballot boxes of 1905.

Gin Pills Help You As Nothing Else Will

ONTARIO PROOF

GIN PILLS cure all Kidney ills from simple backache to diabetes pain in the small of the back and through the hips —swollen feet and hands—burning urine —constant desire to urinate—dizziness—headaches—spots before the eyes—with loss of appetite, sleeplessness and nervousness — disappear under the healing, soothing powers of GIN PILLS.

Men and women who have any kidney or bladder trouble are throwing away their one chance of health and happiness by not writing for a free sample.

OWEN SOUND, ONT., March 10th, 1905.

Having used a sample box of Gin Pills, and finding them give me great relief, I sent my father-in-law, A. McDermid, of Keady, a box; he having for years been used up with kidney and bladder trouble, and unable to get relief from the urinary remedies used. The Gin Pills gave him relief before half the box was used. He is now entirely cured, and I believe Gin Pills a great cure.

JAMES LODGE.

Do as Mr. Lodge did. Simply write us for a free sample box of GIN PILLS and try them at our expense. If you feel better in every way, and know that GIN PILLS are doing you good, surely you will continue using them until cured. That is why we will send you a free sample box if you write and tell us in what paper you saw this offer.

GIN PILLS are sold by druggists everywhere, 50c a box, or 6 for $2.50.

THE BOLE DRUG CO. - WINNIPEG MAN.

No water quite equals York Springs Water for table use. It is a natural water, bottled at the Springs for surety of purity; it has no salty taste whatever; and it reaches you sparkling, crisp, refreshing—a safe and satisfying water for you and your family. Your dealer will supply you if you insist.

York Springs Water

is better—yet costs no more

APPEARING OLD

Acts as a Bar to Profitable Employment.

You cannot afford to grow old.

In these days of strenuous competition it is necessary to maintain, as long as possible ones youthful appearance.

It is impossible to do this without retaining a luxurious growth of hair.

The presence of Dandruff indicates the presence of a burrowing germ which lives and thrives on the roots of the hair until it causes total baldness.

Newbro's Herpicide is the only known destroyer of this pest, and it is as effective as it is delightful to use

Herpicide makes an elegant hair dressing as well as Dandruff cure.

Accept no substitute—there is none.

Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

Two sizes—50 cents and $1.00.

BIGGEST RANCH KNOWN

IS OWNED BY MRS. KING, A WOMAN OF TEXAS

AREA IS OVER A MILLION ACRES—HAS 100,000 CATTLE

Kingsville, eFb. 11—Owning a ranch of one million acres, twice as big as the state of Rhode Island, and as large as the entire state of Delaware, Mrs. H. M. King is one of the wealthiest women in the world. By the purchase of the Los Laureles ranch, which is adjacent to her own ranch, Mrs. King becomes the largest ranch owner on the globe. The Los Laureles ranch consists of 170,000 acres. Mrs. King has more than 100,000 head of cattle and the St. Louis, Brownsville and Mexico railroad runs through her property for more than 100 miles. During the last year she has given away 65,000 acres—30,000 for the building of the railway and 35,000 to the town of Kingsville, named after her husband. It is estimated that it is 50 odd miles from her doorway to her front gate.

Mrs. King's ranch is the Santa Gertrudes, and is an enormous revenue producer. While most of her land is used for stock raising, practica ly every acre of it is susceptible of the highest cultivation. In the last few years the land has increased in value from 10 or 15 cents an acre, to $15 and $20. It is all in the artesian water belt and can be irrigated. Such land under cultivation is selling at $150 per acre. It is Mrs. King's plan to reclaim all of the grazing kind she owns, and by boring artesian wells irrigate it, and rent and lease it to progressive and practical farmers.

LOOSENS EMPIRE BONDS

BRITISH COLONIAL POLICY IS CRITICIZED.

SPEECH DELIVERED BY PROFESSOR OF HARVARD.

Toronto, Feb. 11.—Professor de Sumichrast of Harvard university, president of Boston's Victorian club, and known as "the representative of the British interests in Massachusetts," addressed the Canadian club recently upon "The British Empire Without and Within." He is almost Kiplingesque in the treatment of his subject; indeed, the influence of his real laureate of Greater Britain is to be seen in many of his expressions. He preaches the doctrine of imperial unity and arraigns the government as fearlessly as his poetical prototype. He seeks colonial representation in the affairs of Greater Britain, either through an imperial parliament or a national council.

Professor de Sumichrast lived for a number of years in Canada, coming to King's college, Windsor, N. S., from England, his home. He went later to Halifax, and from there to Harvard, where he has been for the past twenty years.

In dealing with his subject this afternoon, he stated that the empire should mean something more than a peg on which to hang striking words. With over four hundred millions of people to rule and guard, Great Britain had a vast responsibility. In this Greater Britain, welded firmly togetner, lies the hope of that Anglo-Saxon supremacy, which can no longer look to the United States to permanently uphold it. Foreign immigration to that land is gradually overwhelming the Anglo-Saxon stock.

The professor set forth the principle that British colonies, so-called are really states, and cannot be disregarded with safety in settling matters of empire of vital interest to themselves. He instanced the Alaskan award and the Newfoundland fisheries difficulty as illustrative of the lack or harmony now existing. The colonies should learn to regard matters from an imperial standpoint, and Great Britain should realize that consultation with the colonies is necessary when questions affecting them are to be settled.

"They are loosening the bonds that keep the empire together," declared the speaker, arraigning the government of Britain. "The empire cannot be held together unless there is colonial representation. We lost the United States by taxation without representation. We run the danger, perhaps, not of losing, but certainly of exasperating the great powers of the empire by action without consultation. We should have representatives of the colonies in the imperial parliament, or such a council as might well eventuate from the present imperial conference, erroneously called colonial. But these representatives should be as truly chosen by the colonies as the members of colonial parliaments are chosen. It is not sufficient that they should be nominated by the crown, though the crown might ratify the appointments.

"A government of timidity and irresolution," was professor Sumichrast's characterization of the British rulers of today. "It backs down all the time," he said, "before foreigners as before its followers. It indulges in bursts of repression, of nagging, interference, of pin pricks, of intolerable neglect of vital questions. It threatens the house of lords, for it is brave in words. For Heaven's sake, leave the blessed lords alone and pay some real attention to the empire.

"It is for the imperial government," he went on, "to study, in conjunction with representatives of Greater Britain beyond the seas, the pressing problem of imperial unity and consolidation. What we call for, what we have the right to call for, Britons born in the old land and Britons born in the new, is that we shall not see repeated what Egerton has so well recalled, as English policy in Canada, 'A vain attempt to shirk issues which in the end have to be faced.' We have the right to insist that, ere many years be past, we may rest assured that not only are we ourselves actually but that our sons after us, through the centuries, shall be citizens of the United Empire of all the Britains."

NEW LONDON THEOLOGY

SERMONS BY REV. R. CAMPBELL STIR UP A COMMOTION

ALL DENOMINATIONS CRITICIZE THE MOVEMENT

London, Feb. 11—Great commotion has been created in Congregational and other non-conformist circles by the Rev. R. J. Campbell's expounding of the "New Theology." Campbell fills the pulpit of the City Temple, the church associated with the fame of the late Dr. Parker and is a man of great personal magnetism, sincerity and force of character. His doctrines have been widely denounced as a revival of the Pelagian heresy. Others claim they are a most insidious form of atheism.

While Campbell's congregation has not yet formally considered his new departure, no protest has been heard during the three years in which he gradually led up to the present position. It is therefore probable that the church will stand by him.

The Rev. J. Guinness Rogers, a veteran Congregational minister, says: "Campbell's views seem to abolish the church and the bible altogether. He must have had a revelation of his own."

Rev. Mr. Jewett of Birmingham, one of the ablest Wesleyan divines, scores the new theolgy thus: "If Campbell is not snowed under by criticism his movement must prove one of far reaching importance. No middle course is possible."

PARTING THE MILLIONS

EDUCATION BOARD WILL SOON MAKE ALLOTMENTS.

COLLEGES TO BENEFIT BY ROCKEFELLER'S MUNIFICENCE

New York, Feb. 11—Within a few days the general education board will announce the partitioning of several hundred thousand dollars of the Rockefeller millions held in trust for the assistance of struggling colleges throughout the country.

Thursday the general educational board met in the permanent offices of the institution, No. 54 William street, to consider the claims of 500 colleges scattered from Maine to Florida and from the Atlantic to the Pacific. Present were such well-known educators and friends of education as Dr. Daniel C. Gilman, former president of Johns Hopkins university; Dr. E. Benjamin Andrews, president of the university of Nebraska; Dr. Harry Pratt Judson, dean of the faculty of the university of Chicago; Dr. Edwin A. Aledrman, president of the university of Viriginia; Dr. H. B. Frissell, president of Hampton institute, of Virginia; Dr. Walter H. Page, Morris K. Jessup, Starr J. Murphy, who is Mr. Rockefeller's personal representative; Robert C. Ogden, John D. Rockefeller, Jr., Dr. Albert Shaw, Hugh H. Hanna, F. T. Gates, who is chairman of the board; Dr. Wallace Buttrick, secretary and executive officer, and George Foster Peabody, treasurer.

Four times a year this board convenes from the four quarters of the country and deliberates upon the division of John D. Rockefeller's money. Thus far no college has received a penny of the $43,000,000 no wavailable since the donation of the last $32,000,000 announced this week, because up to the present time none has been able to comply with the requirements of the provisions. Several, however, have announced success and are about to receive sums varying from $75,000 to $150,000.

The wide scope ,great influence and commanding position of the general educational board is understood by a mere handful of educationalists. The public at large is entirely ignorant of the province, aims and assumptions of the board. Its very existence, notwithstanding the fact that it is the greatest concern of its kind in the world, is unknown to ninety-five per cent of the people.

On June 30, 1905, John D. Rockefeller handed over six checks, aggregating $11,000,000 to the board, the interest, about $500,000 a year to be devoted to the assistance of colleges maintaining classical collegiate courses. Following his usual custom, the gifts, which were to be absolute, were contingent upon the beneficiary institution securing a sum twice or thrice, as large as that given by the general education board, and that the money should not be used for clearing off mortgages or debts.

The fund was given to the board after three years of consultation and planning. While these consultations were in progress Mr. Rockefeller devoted $100,000 a year to the assistance of preparatory schools in the south, one-half of which was devoted to colored schools. In this manner to date $415,000 has been paid out.

But the plan for assisting southern preparatory schools was only secondary in consideration and involves only the disposal of $1,000,000 in ten yearly payments of $100,000 each. In order that the greater trust might be intelligently administered a vast amount of labor was entailed. Dr. Buttrick and his assistants were installed in a fine, large suite of offices at 54 William street. Correspondence was opened with every state and county and city superintendent of schools in the United States, with all presidents of colleges and with every possible source of information upon educational subjects.

Thus far $772,500 has been partitioned among thirteen colleges in Iowa, Kansas, Wiscounsin, Virginia, North Carolina, South Carolina, Georgia, Alabama, Mississippi, Louisiana and Tennessee. The colleges are pledged to raise about $2,250,000 so that the sum available for educational purposes, when the subscriptions are all in, will be about $3,000,000.

It is understood that six additional awards, aggregating something like $300,000 were made at the meeting last week. The names of the colleges thus far assisted are withheld by Dr. Buttrick.

At the last meeting Robert C. Ogden retired from the chairmanship and was succeeded by Mr. Gates, and Starr J. Murphy resigned from the board.

NEGLECTED COLDS THREATEN LIFE

(From Chicago Tribune)

"'Don't trifle with a cold,' is good advice for prudent men and women. It may be vital in the case of a child. Proper food, good ventilation, and dry, warm, clothing are the proper safeguards against colds. If they are maintained through the changeable weather of autumn, winter and spring, the chances of a surprise from ordinary colds will be slight. But the ordinary light cold will become severe if neglected and a well established, ripe cold is to the germs of diptheria what honey is to the bee The greatest menace to child life at this season of the year is the neglected cold." Whether it is a child or adult, the cold slight or severe, the very best treatment that can be adopted is to give Chamberlain's Cough Remedy a trial. It is safe and sure. The great popularity and immense sale of this preparation has been attained by its remarkable cures of this ailment. A cold never results in pneumonia when it is given. For sale by all druggists and dealers.

Montgomery's teas and coffees are the finest in the city.

TIMBER NOTICES

NOTICE is hereby given that 30 days after date we intend to apply to the Hon. Chief Commissioner of Lands and Works for a special license to cut and carry away timber from the following described lands, situate in West Kootenay District: Commencing at a post marked "Bowman Lumber Co.'s S.W. corner post," planted at the northwest corner of lot 789, about ones half mile north of Kootenay lake, thence north 80 chains; thence west 40 chains; thence north 40 chains; thence east 80 chains; thence south 120 chains; thence west 40 chains to point of commencement.

NOTICE

TO CONTRACTORS AND THE PUBLIC

At a meeting of the Nelson Union of Carpenters and Joiners, held Jan 16th, it was unanimously decided that after March 1st, 1907, they would accept no less than $4 per day of 8 hours, except for work on contracts which have been tendered for prior to Jan. 18th, 1907.

As the cost of living has considerebly increased since the present standard of wages was established, the union believes the contractors and public will readily endorse this action.

Synopsis of Canadian Homestead Regulations

ANY available Dominion Lands within the Railway belt in British Columbia, may be homesteaded by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres, more or less.

Entry must be made personally at the local land office for the district in which the land is situate.

The homesteader is required to perform the conditions connected therewith under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year for three years.

(2) If the father (or mother, if the father is deceased), of the homesteader resides upon a farm in the vicinity of the land entered for, the requirements as to residence may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements as to residence may be satisfied by residence upon the said land.

Six months' notice in writing should be given to the Commissioner of Dominion Lands at Ottawa of intention to apply for patent.

Coal lands may be purchased at $10 an acre for soft coal and $20 for anthracite. Not more than 320 acres can be acquired by one individual or company. Royalty at the rate of 10 cents per ton of 2000 pounds shall be collected on the gross out-

Deputy of the Minister of the Interior

To Consumers of Coal and Wood

The undersigned beg to notify the public that:

On and after the 1st February, 1907, orders for Coal and Wood will ONLY be executed when accompanied by CASH. This course has been rendered imperative owing to the largely increasing list of our customers and the fact that we pay IN ADVANCE for fuel (including freight.) We find we must either adopt the CASH SYSTEM or RAISE the price of fuel—the latter course we are reluctant to pursue.

Thanking our patrons for pash favors and trusting for a continuance of friendly relations. We are, yours obediently,

THE BOUNDARY OUTPUT

MONTH OF JANUARY POOREST FOR A LONG TIME.

THIS IS DUE TO FAILURE OF RAILROADS TO HANDLE TRAFFIC.

(Special to The Daily News)

Phoenix, Feb. 11.—The month of January, in point of tonnage output, has been the poorest experienced among the large producing mines of the Boundary for many months. While the several smelters of the district have now a maximum treatment capacity of about 5000 tons daily, and are prepared at this minute to handle that much ore, the January output has been but little over 2000 tons per day. This state of affairs is due, as is well known, entirely to the inability of the C. P. R. and Great Northern to handle the traffic, either the ore ready for shipment, or the coke and coal needed at the smelters and mines. The railways were unable to secure sufficient coal for the steady operation of their own trains, let alone furnish or transport it in desired quantities to patrons on their lines, due in part to the unprecedentedly severe winter experienced this season, coupled with the growing demand for coal and the fact that reserves had been entirely exhausted when winter set in.

All of the mines and smelters have been working from hand to mouth in these respects, and while most of them are or have already discarded steam for electricity, and are thus not in need of much coal, the reduction works themselves cannot get along without coke for fuel. The Dominion Copper Co.'s Boundary Falls smelter has been blown out for several days solely on this account, but the management hopes to resume there shortly. The British Columbia Copper Co.'s Greenwood smelter ,which had finally succeeded in getting two of the mammoth furnaces in blast for a few days, was handicapped because it could not get the fluxes in nor secure sufficient coke. At the Granby smelter manager Hodges has been able to keep but three furnaces in operation for the last week or ten days, and it was hand to mouth work at that, so far as coke was concerned. But he thinks he can continue at least that number of furnaces in blast, and a little later increase the number, when conditions improve, till he has the entire battery of eight doing business again.

For the month of January the Granby mines show less than one-third of what they are capable of and which the smelter can handle normally. The B. C. Copper makes a better showing than for some time because construction has been under way there. The Dominion Copper Co. handled but little more than half the regular monthly output of 20,000 tons. In detail the mines of the Boundary sent out the following amounts of ore during January:

	Tons
Granby mines	54,192
B. C. Copper Co. mines	12,230
Dominion Copper Co. mines	12,091
Snowshoe	3,830
Emma	759
Providence	150
Skylark	40
January total	63,292

CANADIAN INDUSTRIES PAY

Another Successful Year of a Leading Canadian Manufactory

The annual meeting of the shareholders of the Slater Shoe company was held at their offices in Montreal a few days ago. The address of the president laid stress on the continuous progress of the company's business since the standard price Slater Shoe became the feature of the business.

The Slater shoe company were the first Canadian manufacturers to adopt newspaper advertising as an adjunct to the more economical selling of their goods. In five years their business has more than doubled. In 1906 the increase over 1905 was exactly $200,000. While this year achieves the largest gross increase in a single year, it is also by far the largest percentage of increase in 12 months. The orders for the first two months of the present fiscal year exceed those of the corresponding months of the previous year by $159,000.

Ninety-eight new agencies were opened by the firm during the year. Orders came unsolicited from many foreign countries, including South Africa, the West Indies *and Newfoundland.* The president pointed out the need for more factory accommodation. "We have outgrown our present quarters," he said. The directors arranged to hold a special meeting to deal with factory requirements and extension.

The financial report of the secretary-treasurer, with a dividend of 7 per cent. on both the preferred and common stock, and a substantial balance added to the rest account, was received with approval by the shareholders.

The board of directors were elected as follows: Charles E. Slater, president; Wm. Starke, vice-president; A. McKim, J. N. McKim, W. F. Borland, William Smith, J. W. Woods and major Robert Starke.

IN CHAMBERS

Trial of McMillan's Case on the Krao Deal is Postponed

Before his honor judge Forin in chambers yesterday S. S. Taylor, K.C., on behalf of the plaintiff in McMillan vs. Wheeler, moved to postpone the trial of the action pending the issuing of a commission to obtain evidence in Butte, Montana. W. A. Macdonald, K.C., for the defendants, strenuously opposed the application but at the conclusion of a lengthy hearing, the learned judge granted the application with costs payable to the defendants in the cause. The action is based on a claim for $25,000 in connection with the sale of the famous Krao mine at Ainsworth and is on the list for trial at the sittings which open here this morning. The trial will now stand over until the May assizes.

E. A. Crease applied for the administration of the estate of Hugh McGarvey, deceased, who died from pneumonia last fall, after being brutally assaulted by Lachian Bruce, who is now undergoing sentence for the offense. Annie Hurley was appointed administratrix. The estate consists of $409 personal and $75 realty.

FEAR SPRING FLOODS

ALL WATER COURSES IN "THE PASS" ARE BADLY SWOLLEN

UNLESS SNOW MELTS SLOWLY, SITUATION MAY GROW SERIOUS

(Special to The Daily News)

Fernie, Feb. 11—A ball was given in the opera house on Friday night in aid of the new Home hospital and was, as it deserved to be, a most successful and enjoyable event, the public turning out in large numbers to patronize the worthy cause. The night was an ideal one for a dance and as the floor was in good condition the music excellent and nothing had been left undone that could minister to the comfort of the guests, it was voted by those present one of the brightest social events of the season. Two hundred dollars was realized for the hospital funds.

Grave danger still exists from further snowslides in this district, for though a great deal of snow has disappeared during the past few days, a large quantity still remains on the mountains and it is feared that it may come down at any time and cause serious damage and considerable inconvenience. Many residents at Coal Creek have vacated their premises temporarily as the risk of slides is too great to permit them to take any chances. *The rivers and creeks are much swollen* throughout the Pass and it is feared serious floods will occur in the spring if the snow does not melt and disappear slowly. Traffic was tied up Saturday on the Great Northern railway owing to a wreck at Swinton on the Fernie branch, and small snowslides.

A YEAR OF HARD LUCK

AFTER MANY MISFORTUNES, MINER DIES AT MICHEL

WAS INJURED BY FALL OF ROCK A YEAR AGO

(Special to The Daily News)

Michel, Feb. 11—Steve Majeski, a Hungarian miner, died at the Michel hospital at 3 o'clock yesterday afternoon, as the result of a complication of diseases due to an accident he met with about a year ago. He came here from the old country, securing work in No. 8 mine as a track hand. While putting in *his second shift, a large* quantity of rock fell on him, breaking five ribs and the right thigh. For a time it was thought that his injuries would prove fatal, but under the care of Dr. McSorley, and aided by a rugged constitution, he rallied. Though everything that science and medical skill could do to his leg was done, the fractured bones refused to knit. About four months after the accident it was found necessary to amputate the limb. After that he recovered rapidly and was able to be taken to the home of a brother who resides here. Two months ago he was seized with a severe attack of appendicitis. He was again taken to the hospital and an operation was performed to relieve his suffering. From this he recovered apparently all right, but a week ago he was again operated on this time for an abscess caused by his long and continuous sickness. To this he succumbed yesterday. His lot has certainly been a hard one since his arrival in this land. The funeral will be held today at Michel cemetery under the auspices of the Hungarian society, and the local Miners' union. The deceased leaves a wife and four children in the old country and a brother who resides here.

HART LEAVES ORIENT

He is the Irishman Who Created China's Customs Service

London, Feb. 11—It is announced that sir Robert Hart, director general of the Chinese imperial customs, will leave China for England at the end of February, on a two years' leave of absence and that he *is not likely ever to return. This is re*garded as the outcome of the appointment last summer of a Chinese commissioner.

Sir Robert Hart, who is an Irishman by birth, has been in the Chinese customs service since 1859. He became director general of the Chinese customs, inland as well as maritime, in 1901. The office was bestowed on him as a reward for services rendered the Chinese government in connection with the international settlement of the Boxer troubles. He created the customs service and gave China a tariff which at the same time was stable and comprehensive to the business men having commercial relations with China. He has been behind every commercial trade that China has made. Sir Robert also established the lighthouses off the dangerous Chinese coast and the postal stores, which are now being extended to all parts of China. He has received the highest honors in the gift of the Chinese government.

ROD AND GUN

Winter sports hold the pride of place in the February number of Rod and Gun and *Motor Sports in Canada, published by J.* W. Taylor at Woodstock, Ont. The introductory paper by Mr. F. W. Lees tells how thoroughly the inhabitants of the great commercial capital of the dominion enjoy the winter. At the back of Mount Royal they have established a slide that promises to become historic. The delights of snowshoeing in the country is dwelt upon with enthusiasm by Miss Merrill. The adventures of a party who spent a day hake fishing through the ice in the province of New Brunswick are well told by Mr. Charles McIntyre. A party of enthusiastic snowshoers tramp to a logging camp on one of the benches of the Selkirks, and amid such characteristic surroundings some capital bear stories are told, Miss Lang being the reconteur. All, however, is not given up to winter, Mr. Ernest McVeigh tells of the destruction wrought amongst the deer by wolves; there is a finely illustrated paper on the big game of British Columbia; while Mr. C. W. Young writes entertainingly of his splendid experiences in duck and chicken shooting on the prairies. A successful hunting trip *by a lady in New Brunswick, Beagles* in Nova Scotia, and numerous other papers make up a number contrasting favorably with its predecessors, excellent as these have been. The departments are alike complete, and every phase of outdoor life in Canada receives its due meed of attention.

SITTINGS OPEN TODAY

LIST IS SHORT AND SESSION WILL BE BRIEF

ONE SPECIAL JURY CASE WILL BE TRIED

The sittings of the supreme court for the trial of civil actions will open at the court house this morning at 11 o'clock with his lordship Mr. justice Clement presiding.

The learned judge has sat with the full court at the coast since his recent elevation to the bench, but the present occasion will not only be his first official visit here but will be the first time his lordship presides over a sittings of the supreme court. No doubt the matter will be the subject of some congratulatory remarks from members of the local bar when the court assembles this morning.

The following is the list of cases set down for trial:

Blomberg, et al. vs. Moyer, et al.; Highland vs. Maryland; McMillan vs. Wheeler; Snow vs. C.N.P.Co.; Curran vs. Gosnell; Ferguson vs. Prozesky.

Blomberg vs Moyer is an undefended case in which the plaintiffs, John Blomberg, Oscar Johnson and Mike Johnson, all of this city, ask to have a bond for the sale of the Star claim, lot 3687, Group 1, Kootenay district, set aside and cancelled on the ground of non-performance of the defendants, M. L. Moyer and George W. Stead, of Philadelphia, and H. L. Gilmour of Lansdown. The application today will be for a judgment on the pleadings.

In the second case, the Highland Mining company is suing the Maryland Casualty company for $480 paid to August Morisini and $125.70 incidental costs. Morisini was injured whilst in the em*ploy of the plaintiffs on Nov. 21, 1904.* The mining company paid the amount now claimed, for compensation and ask for repayment, the defendants having insured the company against loss. The defence is that no proper notice of the claim was given the defendants in writing.

McMillan vs. Wheeler, the action in which the plaintiff claim $25,000 in connection with the sale of the famous Krao mine at Ainsworth, order made yesterday postponing the trial until the May sittings.

Henry Snow lost his right arm whilst in the employ of the Crow's Nest Pass Coal company on June 5 last. He is suing the company for $7,500 compensation. The company defends the action at length and claims contributory negligence on the plaintiff's part. A special jury has been summoned to try this action.

E. J. Curran is suing Wm. Gosnell asking for a reconveyance of lots 5 and 6 in Block 47 in this city. The plaintiff claims that he only conveyed the lots in question as security for certain endorsation of notes, and that all the liability has been discharged. The defendant denies the claim and counter claims for $94.93, which he alleges is still due.

The last case on the list, Ferguson vs. Prozesky is an interpleader issue arising over indebtedness secured by promissory notes. It was stated yesterday that the action would probably go over till the May sittings.

The sittings will probably be concluded this week as none of the cases *are likely to occupy much time.*

EDISON TO QUIT WORK

SAYS HE HAS TOILED LONG ENOUGH FOR PROFIT

WILL NOW EXPERIMENT PURELY FOR PLEASURE

New York, Feb. 11—Thos. Edison, the inventor, is 60 years old today. In an interview yesterday he said it was now time for him to knock off work and play a little. "For forty years I have been making experiments with electricity," said Mr. Edison, "but all those years I have been turning these experiments over to commercial value so fast that I have had no opportunity to play with electricity for the fun of the thing, just to see how much I can find out about it; but from tomorrow I am going to give up the commercial end of it and I will work in my laboratory *purely for pleasure.*"

WESTERN STATISTICS

Ottawa, Feb. 11—A census blue book, giving the population of Manitoba and the new provinces by sexes and a summary of the statistics of field crops and stock for 1906, as compared with the census of 1901, was issued today. In Manitoba the census of last year showed 265,183 males and 160,506 females. Winnipeg has 50,461 males and 39,692 females; Brandon, 5765 males and 4652 females; Saskatchewan *has 152,793 males and 104,907 females;* Alberta has 109,131 males and 77,131 females. In 1906 there were in the three provinces 120,439 farms as compared with 54,645 in 1905, an increase of 65,814. Manitoba has 35,441 farms; Saskatchewan 54,787, and Alberta 30,211. The increase in the number of farms over 1901 were Manitoba 3629; Saskatchewan 41,407; Alberta 20,778.

SULTAN YIELDS TO GERMANY

Constantinople, Feb. 11—The special commission of inquiry ordered by the sultan to examine into the charges against Femi Pasha, chief of the secret police of the palace, who is alleged by the German embassy to have recently caused the seizure of a ship's cargo destined for Hamburg, has concluded its work. The German embassy, at the sultan's request, waived a public trial, but insisted that Femi Pasha be banished, which, it is understood, will be done because the sultan is convinced that emperor William is strongly backing up the German embassy's demand for the punishment of the offficial,

The Stanley street rink has been reserved by the skating club for Wednesday evening, when they will hold their fancy dress carnival, weather permitting.

Expert piano tuner and regulator, E. O. Windsor. Leave orders with Canada Drug and Book Co., or phone 202. P. O. box 631

STRUGGLE WITH LORDS

HOUSE OF COMMONS PREPARING FOR THE FIGHT.

SESSION OPENING TODAY WILL BE A STORMY ONE.

London, Feb. 11.—The re-assembling of parliament tomorrow February 12, is arousing intense interest here as the government intends to immediately inaugurate measures to check the powers of the house of lords and make it subordinate to the will of the people as represented by the house of commons. This is nothing less than a revolution in the present constitutional methods and foreshadows a bitter contest between the two houses. The government is already prepared for a dissolution and an appeal to the country upon the necessity of curtailing the power representing the aristocracy in the interests of the democracy. Recent councils of the ministers have determined the main lines of the government action which is expected to begin with a resolution laying down the house of commons' inalienable rights A similar historic resolution was adopted in the seventeenth century upon which the rights of the commons to control money matters was based. This will be merely preliminary to a series of measures by which premier Campbell-Bannerman proposes to frame a clear issue against the lords and then appeal to the people upon it. The determination to make the fight now is due to the defeat of the educational bill by the upper house, and the prospective defeat of all other features of the existing ministerial program.

It is seldom that a speech from the throne has been awaited with such eager interest, as it is asserted that the ministry has induced the crown to make *an allusion to the deadlock between the* lords and the commons. Whether king Edward is ready to take such significant action is open to doubt. It is probable that any reference his majesty may make on the subject of the house of lords will be couched in moderate, uncontroversial language, because the speech is addressed to both houses.

The proposed government resolution challenging the powers of the house of lords can have little effect in itself as the lords' powers remain despite the resolution, but the passage of such a resolution is destined to give the keynote of the ministerial plans. These will consist chiefly of sending the lords a number of popular measures, including a dristic land bill affecting the estates of peers and other members of the aristocracy. These measures are sure to be rejected by the house of lords. Members of the ministry openly anticipate the defeat of these plans and predict several dissolutions before a reform of the house of lords can become effective.

A BUSY DEPARTMENT

The following reports and catalogues have been published by the geological survey since Jan. 1, 1906:

No. 913—The mineral pigments of Canada, by C. W. Millmott (pp. 39.) Published (Feb. 18, 1906.

No. 914—Supplementary list of publications during 1904 and 1906 (pp. 11.) Published Feb. 20, 1906.

Mineral production of Canada for 1905 (pp. 16.) Published March 175, 1906.

No. 939—Preliminary report on Rossland, B.C. *mining district*, by R. W. Brock (pp. 40.) Published June 2, 1906.

No. 923—Report on Chibougamau mining region, by A. P. Low (pp. 61.)

No. 940—Report on Graham island, B.C., by Dr. R. W. Ellis (pp. 46.) Published July 20.

No. 888—The geology and petrography of Mount Lamaska, by G. A. Young, forming Pt. H. annual report, Vol XVI (pp. 43.)

No. 955—French edition of 923 (pp.57.) Published Aug. 2.

No. 947—Summary report of acting director, for 1905 (pp. 155.) Published Aug. 31.

No. 950—Palaeozoic fossils, Vol. III., part IV. (and last.) by J. F. Whiteaves (pp. 268.) Published Oct. 10.

No. 956—Catalogue of publications (pp. 129.) Sent to printer June 11. Signed for printing Sept. 21. Published Oct. 12.

No. 907—Annual report ,new series) Vol. XIV. (pp. 1193.)

No. 911—Annual report (new series) Vol. XV. (pp. 1025.)

No. 905—Cruise of the Neptune, by A. P. Low (pp. 355.) Published Nov. 19.

No. 928—Section of mines, annual report, 1904.

The following reports are going through the press:

No. 902—Report of Brome mountain, Que., by J. A. Dresser.

No. 942—Report on the Upper Stewart river, Yukon, by J. Keele and

No. 943—On the Peel and Windy rivers, Yukon, by C. Camsell.

No. 952—Annual report (new series) Vol. XVI., (pp. 733.)

No. 958—Annual report on chemistry and mineralogy, by G. C. Hoffmann.

No. 949—Cascade coal field, by D. B. Dowling.

No. 961—Reprint report on nickel and copper deposits of sudbury district, by E. A. Barlow.

No. 962—Reprint of report on the Nipissing and Timiskaming region, Ont., by Dr. E. A. Barlow.

RUSSIAN TERRORISTS

Moscow, Feb. 11—Another search for bombs at the Moscow female university has resulted in several unfilled ones being found. It is rumored that the eight girls, arrested on the charge of issuing the terrorist threat to execute death sentences upon count Ignatidueff, general Pavloff, general von DerLaunitz and governor Alexandrovsky, have been tried by drumhead courtmartial.

CANADA'S REVENUE

Ottawa, Feb. 11—The revenue of the dominion for the seven months of the current fiscal year to the end of January, totals, $50,658,693, an increase of six and a half millions. The expenditure on consolidated fund was $33,327,361, a decrease of six hundred thousand. The expenditure on capital account was $8,327,862, an increase of a million and a half.

A FINE PICTURE FREE

A collection of Charles Dana Gibson's best drawings has been secured by the New York World for its readers. These drawings have been reproduced on fine art paper, each suitable for framing and are now being given away with the New York Sunday World. These drawings would sell in stores for no less than 50 cents each, and often for $1. You may get them free with the Sunday World.

SAD NEWS AT YMIR

(Special to The Daily News)

Ymir, Feb. 11—The sad news was flashed this morning from Campbellton, N.B., to Mr. and Mrs. William Clark of Ymir, of the death of their daughter, Mrs. Jean McKenzie, who died this morning of pneumonia. The sympathy of the whole town is extended Mr. and Mrs. Clark in their bereavement. Mrs. McKenzie was married last spring and at once moved to New Brunswick. Before her marriage she was a teacher in the public school and was a favorite with all.

FOR RHEUMATIC SUFFERERS

The quick relief from pain afforded by applying Chamberlain's Pain Balm makes it a favorite with sufferers from rheumatism, sciatica, lame back, lumbago and deep seated and muscular pains. For sale by all druggists and dealers.

WANTED—Two good cash registers for general store. E. J. Clayton, Marysville, B.C. 251-3

NELSON'S NEWS OF THE DAY

His lordship Mr. justice Clement is a guest at the Hume.

T. H. Winter purchased yesterday through Toye and company, the residence of H. Pike on lot 3, block 16, in the Fairview addition.

H. W. Herchmer and J. P. Myers Gray, barristers of Fernie, and the members of the "Scarlet Mysteries" company are registered at the Strathcona.

The directors of the Kootenay Fruit Growers' association will meet in the secretary's office, Baker street, next Thursday afternoon at 2:30.

William Hunter, conservative member elect for Slocan reached the city last night and received the congratulations of his many friends on his victory.

The Industrial Workers of the World meet tonight in the Miners' union hall, when important business relative to other local unions will be taken up. A full attendance is requested.

The adjourned annual meeting of the Kootenay Fruit Growers' association will be held in the board of trade rooms at 2:30 on Friday afternoon, Feb. 22, to receive the auditor's report on the accounts of last year.

All Oddfellows and their wives and all members of Queen City Rebekah lodge No. 16 I.O.O.F., are requested to assemble in the lodge rooms this evening at 8:30, the occasion being the installation of the recently elected officers of Queen City Rebekah lodge.

Dr. Harry Hamilton now of the Revelstoke hospital, is visiting his parents here. The doctor says that the snowslide which came down at Arrowhead at the close of last week, swept over a mile and a half of level ground from the base of the mountain down which it came, and plunged into the river. It carried off one side of the bank at the railway cut where it crossed and piled up the snow in the cut eight or ten feet higher than the top of a passenger coach.

Chinese New Year commenced at midnight and in consequence local celestials set off many fire crackers and indulged in rejoicing and in the presenting of presents. The celebration will last a week.

R. J. McPhee received a wire from Pittsburg yesterday announcing the sudden death in that city on Sunday of T. A. Noble. The deceased was largely interested in both the Ottawa and Reliance mines and has visited this city several times including his trip here last summer. R. S. Lennie received word of the death yesterday from Mr. McPhee and also received a letter written by the deceased a few days before his death.

On Saturday afternoon the children of the Methodist Sunday school enjoyed a very pleasant sleigh drive, as the guests of Mr. George Ferguson, who provided three big rigs for the occasion. The little folk had a delightful time, making the air ring with the music of their multitudinous horns. At a meeting of the board of the Sunday school held yesterday afternoon, a vote of thanks was passed Mr. Ferguson for his kindness to the scholars.

GRAND CENTRAL—Mrs. Van Allen, Marysville; G. E. Hallett, Creston; F. A. Marasco, A. Spino, Fernie; R. Cooper, E. Woodside, H. Collins, Slocan; O. Winstead, Whitewater; A. G. Erickson, J. Grant, Grand Forks; A. G. Chadgren, Salmo; M. Talt, Ymir; W. J. Beaton, T. Miller, Fort William; C. Vroom, Medicine Hat.
