VICTORIA, B. C.

VOTE FOR HALL, HUME AND KEEN AND ELECT A PEOPLE'S GOVERNMENT INSTEAD OF A C. P. R. GOVERNMENT

26 SEATS ARE SURE

Liberals Will Have Good Working Majority in House

Careful Review of Situation Indicates That Defeat of Government is Certain

Today closes the most strenuously contested provincial political campaign in the history of British Columbia.

By 10 o'clock tonight it will be all over, the ballots will be counted and it will be known whether or not the McBride government is to be continued in office.

From reports received during yesterday afternoon and evening, the inference is entirely justifiable that the McBride government's career will be terminated today and the administration of provincial affairs entrusted to the liberal party, under the leadership of J. A. Macdonald, of Rossland.

Reviewing the prospects in nearby constituencies and commencing with Nelson city electoral district, it may be said that the election of Dr. G. A. B. Hall is practically a foregone conclusion. Dr. Hall will be Nelson's next representative at Victoria and he will be returned by a substantial majority.

The liberal leader, J. A. Macdonald, is absolutely sure of re-election. A very bitter fight has been put up against him, largely because of his firm stand against land and cash subsidies for railroads, his avowed intention of compelling the railroad corporations to pay legally due taxes, which the McBride government has not collected, and his attitude on the 8-hour bill for smelter men. Mr. Macdonald has repeatedly proclaimed throughout the campaign that if the liberal party be sustained at the polls, his government will at the earliest opportunity enact a measure to assure to smelter workers the 8-hour day. Despite the bitter fight put up against him, the liberal leader is stronger than ever in the confidence of his Rossland constituents and will be re-elected by a handsome majority.

In Ymir riding the contest will be a close one between James Schofield and J. Fred Hume. Hume will get a very considerable majority vote outside of Trail and the question is whether or not this majority will suffice to counterbalance the majority Schofield will certainly secure in his home town. Liberals of Trail believe they can keep Schofield's majority at that joint down to 50. In that event, Hume will win easily. This is a three-cornered fight, John Houston figuring in the contest as an independent. Houston's friends claim that the ex-mayor of Nelson will poll a big vote in Trail. Should this prove to be the case, it will make victory for Hume certain.

In Slocan riding, the outlook has markedly improved in the past few days for A. B. Docksteader, the liberal candidate. Slocan City and Slocan lake points will give Docksteader a substantial majority, with which to meet the majority that Wm. Hunter, the McBride government candidate, will certainly poll at Silverton. Here again there is a three-cornered fight, Davidson, the socialist candidate, securing his principal support in Sandon. The outcome in this riding is extremely doubtful, although A. B. Docksteader is perfectly confident that he will win out and late advices from the chief polling points in the riding, indicate that he has good grounds for confidence.

In Kaslo, liberals are confident that John Keen will be their next member. John Keen is an old timer, he is known to and liked by every miner and prospector in the district, and they will rally to his support almost to a man. Moreover, many conservatives and all the independent voters in the district appreciate the fact that John Keen is eminently the best fitted of the two candidates to represent the Kaslo district at Victoria and to undertake the rigid investigation into the lands and works department that every elector in B. C. knows to be necessary, if the full measure of the McBride government's maladministration is to be guaged. Keen will undoubtedly be elected today by a substantial majority, although full returns may not be obtainable before Monday.

Over in the Boundary district the prospects for liberal candidates are of the brightest. Even that tory stronghold, Grand Forks, is not considered safe for the McBride government. Miller, the government candidate has very little prospect of success. Either Gregory, liberal, or MacInnes, socialist, will head the poll.

In Greenwood, very little doubt is entertained that G. R. Naden will head the poll, although the socialist, Dynes, will likely run him close.

In Similkameen, Smith Curtis, is generally conceded to be sure of election.

From Okanagan comes this report: "After a most arduous campaign, the liberals in the Okanagan, on the eve of the election, are confident of success tomorrow. This has probably been the greatest fight in the province, but it is believed a certainty that Dr. K. C. Macdonald will head the poll."

In East Kootenay, liberals are sure of the return of Dr. King for Cranbrook, and are hopeful of victory for Wm. Dicken in Fernie. In the event of Dicken not heading the poll it is predicted that Moore, the socialist candidate, will win out. In Columbia, W. C. Wells' return is a foregone conclusion. Nothing can beat him in that district.

From Vancouver and the Island have been received the most encouraging predictions of liberal victories. Liberals in Vancouver claim they will carry all five seats and secure a majority of the lower mainland seats. Victoria liberals express the utmost confidence in being able to hold what they have heretofore held on the Island and of capturing at least two more seats, Comox and Esquimalt.

Private advices from Kamloops and Cariboo point to the defeat of attorney-general Fulton in the former riding and to the election of both liberal candidates in old Cariboo.

Stuart Henderson expresses entire confidence in his re-election. From Revelstoke word comes that the outcome is extremely doubtful. Taylor may be defeated.

On the whole, it is fairly safe to claim that the liberals will carry at least 26 seats and probably 28. This would ensure J. A. Macdonald a good working majority over any combination that could be formed by the elements capturing the other 14 or 16 seats.

If attorney-general Fulton be defeated in Kamloops, it will mean the defeat of two cabinet ministers at least, for Carter-Cotton is surely defeated in Richmond.

THE MEN TO SUPPORT.

ROSSLAND—J. A. Macdonald.
NELSON—Dr. G. A. B. Hall.
YMIR—J. Fred Hume.
KASLO—John Keen.
SLOCAN—A. B. Docksteader.
GREENWOOD—Geo. R. Naden.
GRAND FORKS—H.W.Gregory
CRANBROOK—Dr. J. H. King
REVELSTOKE—R. Caley.

YMIR AND THE SLOCAN

BOTH CONSTITUENCIES FAIRLY SAFE FOR LIBERALS

NO ENTHUSIASM AT HUNTER'S LAST MEETING

(Special to The Daily News)

Slocan City, Feb. 1—William Hunter, McBride government candidate for Slocan electoral district, held a meeting here last night at which all three candidates were present. R. M. Macdonald of Nelson, represented Mr. Hunter, and F. J. Deane of Nelson, represented Mr. Docksteader.

The meeting was largely attended and the several speakers were given a courteous hearing. There was no enthusiasm for the government candidate and the meeting broke up at a late hour without even a cheer for Hunter or the McBride government.

The candidates were limited to ten minutes each, with the exception of Mr. Davidson, who was given half an hour in which to state his case. After Mr. Davidson, Mr. Deane spoke in behalf of Mr. Docksteader for half an hour and Mr. R. M. Macdonald closed the meeting.

From the expressions heard after the meeting, it could easily be gathered that the liberal candidate will poll a strong vote in this section. Mr. Docksteader is personally known to most of the electors hereabouts and is greatly respected. This remark applies also to Mr. Hunter, who is an old resident and who is certainly liked and respected by everybody. But Mr. Hunter has espoused the cause of the McBride government and that cause is not a popular one. Mr. Docksteader can count on a very fair majority from Slocan City and Slocan lake points, a majority, it is thought here, that will be sufficient to place him at the head of the poll tomorrow.

(Special to The Daily News)

Ymir, Feb. 1—Tomorrow will tell the tale. Hume, Houston and Schofield have been along this line and have presented their views before the electors. The two former gentlemen have held public meetings but Schofield did not, his campaign has been conducted in the nature of a still hunt and a large number at Ymir and Salmo wonder if Schofield is a platform speaker or not? The liberals are working hard and feel confident that their man will be elected by a handsome majority. Hume is a hard man to beat, as his record is clean and the fact that he was the introducer of the law that gave miners an 8-hour day underground, is appreciated and the rank and file of the working men are with him. They know that Mr. Hume can be depended on to safeguard their interests and feel that he is a tried friend and they do not care to take any chances with a stranger.

DR. G. A. B. HALL

Electors of Ymir: Vote for Fred Hume

Electors of Kaslo: Vote for John Keen

M'BRIDE MINISTRY IS ANTI-8-HOUR MINISTRY

Four Ministers Out of Five Have Gone on Record as Opposed to the Eight-Hour Law, and Voted Against it in the House

When the 8-hour bill came up in the legislature for second reading, there were six members in the McBride government—Hon. Messrs. McBride, Green, Wilson, Fulton, Tatlow and Cotton. The ministers voted thus:

For the Bill—Hon. Messrs. Wilson and Green.—2.

Against the Bill—Hon. Messrs. McBride, Cotton, Tatlow and Fulton.—4.

Since the vote was taken, two of the then members of the ministry have been shelved in silence.

THESE TWO WERE THE MEN WHO VOTED FOR THE 8-HOUR LAW, MESSRS. GREEN AND WILSON.

There are now five ministers in the cabinet, Hon. Messrs. McBride, Cotton, Tatlow, Fulton and Manson.

Of these five, four have gone on record and have voted against the 8-hour bill. The fifth, Hon. Wm. Manson, was not a member of the government when the bill was before the house.

Should the McBride government be sustained, Wm. Bowser is to be taken into the cabinet, to fill its depleted ranks and take the portfolio of attorney general. Wm. Bowser likewise voted against the 8-hour bill. From the public platform he said that in his opinion a workingman who received $35 a month should be satisfied.

So well known has this remark of his become that he is now generally recognized as "$35-A-MONTH-FOR-WORKINGMEN BOWSER."

At New Westminster on Wednesday night, amidst the jeers and hoots of the labor men present, he stated emphatically that the government would not pass labor legislation, because it considered labor legislation class legislation.

Are YOU going to vote for an anti-8-hour government? An anti-labor legislation government? A Bowser-socialist government?

J. A. Macdonald, the liberal leader voted for the 8-hour bill. In his address to the electorate he incorporated the following pregnant clause, which should appeal to you workingmen:

"No alliance with those revolutionists who would destroy our system of government and haul down our flag; but on the contrary, co-operation with that great body of labor which would reform abuses in a constitutional way."

CAMPAIGN POINTERS

ELECTION RETURNS.

The Daily News has for several days been trying to make preparations so as to be able to throw the election results, as they are received this evening, by stereopticon on a screen to be hung on Baker street opposite the Canada Drug & Book Co.'s store. After a great deal of trouble and several refusals a lantern has been secured; but, unfortunately, it seems impossible to find lighting attachments available for use. Though there are several in the city, for various reasons they cannot be rented or borrowed. The purpose was to have a special telegraphic wire run into Dr. Hall's office (whence the lantern would be operated) giving a bulletin service announcing the results in the ridings all over the province as rapidly as they could be gathered by the C. P. R. telegraphic staff and The Daily News' special correspondents. But without a strong lantern it will be impossible to carry out this program. A final effort will be made today to get things in readiness. If it is successful, the screen will be in position early in the evening; if not, there will be no screen. By this sign citizens may know whether or not the returns are to be flashed over Baker street tonight.

The best evidence of the confidence Vancouver liberals have of electing their full ticket, is disclosed in a telegram received yesterday by the secretary of Dr. Hall's campaign committee in reply to a wire sent by him notifying the Vancouver liberal campaign committee that there were Vancouver liberal voters in this part of the country and asking if they should be sent down. The Vancouver liberal campaign committee replied: "Don't bother to send them down. We can guarantee you five straight liberals without their votes."

* * * *

The polling place at Fairview will not be in the vacant room next to C. Jiszkowicz's store, where polls have been held for several elections. The room is a large one, well lighted and comfortable in every way. The polling place is to be in a small and dark room near the Castle brewery. Was the change suddenly made to gain one vote for Mr. Schofield of Trail?

* * * *

About that $37,000 stock given by Caron: McBride says Green took it; Green says McKay took it; McKay says—nobody took it. Which do you believe?

* * * *

Tatlow, the expert finance minister of the McBride government, tried to raise the taxes on workingmen until they would have to hand over an income tax on every dollar they earned over $41.66 a month. At the same time he let the C. P. R. escape the payment of hundreds of thousands of dollars of overdue taxes. This is a sample of McBride justice. It is on a par with the vote against the 8-hour law and Bowser's famous "$35-a-month-for-workingmen" dictum.

* * * *

"Leave well enough alone" is the Tory campaign cry. Well enough—for whom? The C. P. R.?

* * * *

Have you read anywhere a list of liberal members from Ottawa coming to B. C. to fix the elections? Have you noticed the names of Ralph Smith, Wm. Sloan, and R. G. Macpherson therein? Not one of these has come to the coast nor has one of them turned a hand to influence the result of the elections. Time has proved the value of the story told by the conservative press. But what do you think of papers that will resort to such lies?

* * * *

All kinds of election bets were made locally yesterday but last evening it was difficult to encounter anyone willing to wager on Kirkpatrick's chance of beating Dr. Hall. On the contests in Ymir, Kaslo and East Kootenay and on general results, bets of all kinds were flying about, and no doubt further wagers will be made today.

* * * *

Dr. Hall will secure the votes of many men who do not proclaim themselves liberals. Today citizens of Nelson will elect a candidate to represent this city in the new legislature and believing that the new legislature will be largely liberal and controlled by a liberal administration, many independent voters will mark their ballots for the candidate of the liberal party. They will vote for a man who will be in a position to do things for the city of Nelson.

* * * *

No one who attended the rally in Dr. Hall's committee rooms last night could have formed any other conclusion than that Dr. Hall will head the polls in this city, when the ballots have been counted this evening. There was a splendid gathering of men with votes, men determined to elect the liberal candidate, prepared to give their time today to see that every liberal vote is polled. There were several short addresses given by active party workers, the keynote of them all being "get out the vote." Dr. Hall went home last night thoroughly confident that before another 24 hours have elapsed he would be the elected member for the city of Nelson in the new legislature. He expressed the opinion that his majority would be a substantial one and if every vote promised was polled, that it might run into three figures.

CANADIAN WORLD'S FAIR

Ottawa, Feb. 1.—Walsh, M.P., (Huntington) will move a resolution in the house, declaring that it is expedient for the dominion government to organize a world's fair to properly celebrate the centennial of peace between the two great English speaking nations of the western continent.

TELEGRAPHIC SUMMARY

Toronto, Feb. 1—The court of appeals has reserved judgment in the case of C. M. Hays of the Grand Trunk, for not giving a two cent passenger rate in accordance with the road's charter.

Kempin, Bavaria, Feb. 1—Two houses in a valley near Mittelbach were crushed and 15 persons were buried by an avalanche of snow yesterday. Eight of them were taken out dead today.

Charleston, Feb. 1—Twenty-four mangled bodies have been removed from the Stewart mine at Oak Hill. The total number of explosion victims will probably be between 75 and 80.

Toronto, Feb. 1—All the telephone operators went out on strike from the Bell telephone exchanges today, and 400 girls answered the roll at the strikers' meeting. A slow service is being given by the strike breakers brought in from surrounding towns.

New York, Feb. 1—The Thaw trial jury was completed late today. The election of the twelfth juror came as a surprise at the end of a long and tedious day—the end of the eighth of the trial—and immediately after he had been sworn in justice Fitzgerald ordered an adjournment until 10:30 Monday.

Ottawa, Feb. 1—The report of the district superintendent of the N.W.M.P. at Calgary advises the government that the salutary punishment dealt out to train robbers in B.C. last year has been an object lesson to the train robbing fraternity of the states. For years it has been an open secret that these gangs contemplated operations on this side of the line, but the drastic punishment sure to be meted out now renders certain safety for Canadian lines for a generation.

RESULTS OF THE CANVAS

Vancouver May Surprise Itself by Electing 5 Liberals

Statement Issued by Organizer Shows Number of Pledged Votes—Victoria's Review

(Special to The Daily News)

Vancouver, Feb. 1.—Liberal organizer Garvey issued a statement of the city canvas tonight, showing that the party has 4376 pleged votes. As the total enrollment is 9600, and twenty per cent is the usual number not voting, the liberals seem assured of victory. When Macpherson was elected, the party had pledges of 3463 votes, and the thoroughness of the work was demonstrated when the poll showed within twenty per cent of that number polled. With the machinery in better working order than ever, the margin tomorrow will be even less.

(Special to The Daily News)

Victoria, Feb. 1.—The Victoria Times tonight epitomizes the situation as follows: The campaign just closed has proved:

That everything that has been published about the Kaien Island deal is absolutely true and according to the records.

That the Kitamaat scandal, involving the transfer to favorites of reserved lands on what was expected to prove the terminus of a transcontinental railway, was even more scandalous in some of it's features than the Kaien Island affair.

That there was no justification whatever for the bestowal of 800,000 acres of public land upon the Columbia & Western Railway company, because that company had neither moral nor legal right to such a grant.

That the treatment of the Midway & Vernon Railway company was clearly unjustifiable and was dictated by the great corporation which, in company with the socialists, fashioned the policy of the government.

That the late chief commissioner of lands and works, accepted a handsome consideration from a conservative politician of his own type, which consideration was bestowed for corrupt purposes.

That every single member of the government was aware of the acceptance of $37,000 worth of shares by Mr. Green and sat with him in council for months after becoming cognizant of the facts, and therefore, is equally responsible with Mr. Green for the acceptance of the shares, knowing the purpose for which they had been proffered and accepted.

That Mr. Green would still have been a member of the government but for the action of certain conservatives of Vancouver, who became aware of what had occurred and insisted that the cabinet should be purged of a portion of it's unclean elements on pain of exposure.

That there is reason to believe that only a part of the corruption that has been going on in the lands and works department under Mr. Green's administration has been exposed.

That the whole administrative career of the McBride government has brought the province into disrepute and disgrace and that it is now high time the tide of infamy should be permanently stemmed.

That even if the liberal party, under Mr. J. A. Macodnald, had no other policy than a policy of cleaning the lands and works department, the people of British Columbia would be justified in supporting and electing the candidates of that party.

That the liberal party has a strong policy which has been clearly outlined during the campaign.

That the liberal party has in the field today a strong force of the ablest men that ever asked for support from the electors of British Columbia.

That the liberal party will have in the legislature a contingent of the brightest minds that ever assembled to do business on the right hand of Mr. Speaker.

EDITORIAL NOTES

When casting your ballot today, remember that a vote for a conservative candidate is a vote approving of the alliance between the government and the socialists.

Is it pleasant to think that a man like J. W. Hawthornthwaite—who openly advocates hauling down the British flag and who, for political purposes, is a revolutionary socialist, is the most influential figure in the legislative halls of British Columbia? And that he has that influence simply because premier McBride needs his support in order to control, first, the house, and, second, his own turbulent supporters?

Can you point to another incident in constitutional history where two important cabinet ministers were dropped with such mysterious silence as that which surrounds the "resignations" of Messrs. Green and Wilson? Do you know what the technical phrase, "dropped in silence," means?

Have you ever heard of an ex-cabinet minister appealing to electors to return him as a supporter of a government from which he has been fired or out of which he has dropped unwillingly, and at the same time refusing to tell them why he left the cabinet? That is what Charles Wilson is doing. Wilson will not tell why he resigned. McBride will not tell. No one will tell. Is this not asking the confidence of the electors and insultingly refusing to give confidence in return?

The McBride government sold 10,000 acres at Prince Rupert to the G. T. P. for $1 an acre. It says the land was worth no more. Before 1907 is over, single lots in Prince Rupert will be selling for $10,000. And this would have been the case no matter what the government had done. There is no other terminal harbor site on the coast which the Grand Trunk Pacific would have considered under any conditions. It simply had to go to Prince Rupert. Had the interests of the province been watched carefully by those in charge of the public business, it would gladly have paid a sum nearer $10,000,000 than $10,000 rather than be shut out of Prince Rupert.

The government organs say that any person could have bought Prince Rupert from the government at $1 an acre. Strange indeed! A number of persons tried it, staking the land under South African scrip, which by law was legal tender to the government at $1 an acre. Yet they were refused. And there was no reserve on the land, either, when their applications were turned down.

Has British Columbia had a "nest of traitors" incident? and are the "traitors" inside or outside of the government. R. F. Green could tell. But will he?

If there was nothing behind the resignation of Messrs. Green and Wilson than honest differences of opinion regarding public policy; or if the pressure of private business compelled either one to quit his post, what has the government to fear from making a frank and manly explanation of the incident?

Is the silence of responsible ministers concerning matters which deeply interest the people and the details of which the people have a right to know, a sign that everything is right within the treasury circles at Victoria?

R. F. Green says a new scandal is to be charged against him—one concerning the issuing of South African war scrip. What does he mean? Is there some guilty knowledge behind what he says? Does he fear an exposure which he knows should come if the facts were known?

Premier McBride says he dealt directly with the G. T. P. in making the sale of Kaien island, 10,000 acres of land bound to be the site of a big city, for $10,000 He says the man he carried on the negotiations with, E. V. Bodwell, was the authorized representative of the G. T. P. Bodwell, in his sworn evidence, said he was not the agent of the G. T. P. He was acting, he stated, for the Larsen-Anderson syndicate; he recognized no other principals, and he took his instructions from no other parties.

Suppose John Houston were elected in Ymir and J. A. Kirkpatrick in Nelson; what would happen? Can you foresee the possibility of such an undesirable combination without doing everything in your power to prevent it?

Have you ever tried to purchase land from the government? Did you find it an easy task? Was all the information desired available? Could you tell whether or not there were previous applications for the land you wanted? Did you find that any government surveys had been made to help you in the location of your property? In fact, did you discover that anything whatever had been done to make it easy for you to settle on crown lands? If not, who was at fault? The McBride government has been in power for over three years, and yet not a single move has been made to improve the existing conditions. Will you vote to retain such men in office?

Lorne Campbell, the conservative candidate in Rossland, is fighting Nelson tooth and nail. He has fought the workingmen of Nelson in the past; and if he ever gets a chance he will fight them again. Will you stand by a party which will put up such a candidate as Lorne Campbell simply because he has money at his back?

Candidly, which of the three local candidates is the most likely to reflect credit on Nelson if elected? Which has done the most for Nelson? And which is more likely to serve Nelson faithfully and to stand for its interests in spite of the cajoling of a party caucus to give way? There can only be one answer. The man is Dr. G. A. B. Hall.

Did you ever compare the sterling mental capacity and real ability of J. A. Macdonald with the jolly, good natured, boyish weakness of Richard McBride: The jollyer is the more popular in an election campaign, but which will prove the abler administrator under the responsibilities of public office? Who would you rather have look after your business for you—an honest, able, quiet man, or a genial, hail-fellow-well-met who is incapable of serious work.

Do not make a mistake—you are not electing a government because you think it is composed of nice men to meet, but because you want it to look after public business honestly, efficiently and progressively. Has its record tended to confirm any suspicions you ever had that the McBride government was honest? Has it shown any signs of ability? Where are the marks of legislative progress?

Do you believe in a system of free public education wherein the state bears all responsibility for maintaining a proper standard and supplying funds? Or do you prefer the McBride idea of going back to the petty, parochial plan?

What do you think of the Midway & Vernon affair? The railway, as the courts later decided, had earned the promised subsidy. On the strength of the subsidy work was going ahead. The C. P. R. did not want the Midway & Vernon built—it wanted to supply the district with its own lines. At the C. P. R.'s suggestion, Capt. Tatlow, minister of finance, told Montreal bankers, who told the New York capitalists, that the subsidy would not be paid by the government unless the company went to the courts to collect it. This threw the backers of the Midway & Vernon, who had already sunk a lot of money, into a panic. They refused further funds; work stopped; bills were unpaid; workmen had to go without their wages; great suffering followed; and the road is not yet built? What do you think of that for prostitution of the functions of a government to the services of a big corporation?

Have you ever taken the trouble to note in the pages of the B. C. Gazette the surprising number of applications made for timber leases by American capitalists? Hundreds of thousands of square miles have been staked and secured for 21 years. And under the terms which the government granted in its timber act, the royalty on the timber cut from the land cannot be increased more than ten cents a thousand in all that time, no matter how high the price of lumber may go or how great the profits of the American speculators. Do you consider this good business?

Can you name one administrative principle for which the McBride government stands? Think a minute. Does it stand for developing the resources of the country? For a provincial system of education? For low taxation? For careful regulation of immigration, insofar as the provincial power will permit? For aid to intending settlers? For helping men who wish to make the soil productive in clearing their heavily timbered homesteads? For improving the civil service? For shrewd progressive encouragement of railway construction? For advanced labor legislation? For the eight hour law? For an irrigation policy. No, not for one of these. Does it stand for high taxation? Yes. For corporation domination? Yes; note the C. & W., the Midway & Vernon and the Spence's Bridge-Nicola incidents. For socialistic principles? Yes; note the Hawthornthwaite alliance.

Will premier McBride follow J. A. Macdonald's lead, and say that, if returned to power, the C. P. R. will not get another grant from the government? Well, hardly. That campaign fund has yet to be made good.

You do not like scandals, of course. But how do you like the conduct of men in government offices whose peculiar methods give rise to the scandals? McBride sold Kaien island to the Larsens, who resold it to the G. T. P., making a profit of $30,000. And then McBride said he dealt directly with the G. T. P. Is that not enough to give rise to suspicion of queer dealing? R. F. Green, as the premier says, accepted valuable stock from a company that had secured favors from the department over which he presided and that was seeking to secure others. Is that not enough to suggest a scandal? Green may have been honest at heart; but if he was honest, he was foolish. Can a man who is either dishonest or a fool, be a credit to the province? With such remarkable things happening at Victoria would the opposition be doing its duty if it did not call attention to them?

We characterize the statement that G. T. P. officials approached the government with an offer to see that certain liberal candidates dropped out of the election contest if a grant of land were given to the company, as a direct lie. We further challenge the conservative press to name the parties to the offer and the time and place where it was made. Campaign lies have been numerous during the past week or two, but this is the most unblushing of all.

"The B. C. Mining Exchange would consider the defeat of the McBride government a calamity." We quote from a government organ. Of course it would. But to say that it would, means no more than to say that the Victoria Colonist, the Vancouver News-Advertiser, or the Rossland Miners holds the same views. The Mining Exchange is a conservative paper.

"A reliable man, conversant with details closely in touch with Peter Larsen," has given some interesting fictionary information concerning the Kaien island deal. Remarkable what indefiniteness there is about his identity, especially in view of the fact that the name of a responsible party attached to such a tale would prove of inestimable value to the government. Strange, too, the modesty which prevents a man who knows so much from letting the world know who he is.

"If you want to preserve the country for the people, vote to maintain the McBride government" is one of the conservative campaign cries. Exactly. Selling 10,000 acres of land for a terminal townsite at a dollar an acre; that is one of the McBride methods of preserving the country for the people. Giving the C. P. R. 800,000 acres of unearned lands. That is another. If you approve of such methods, certainly vote to maintain the McBride government in power.

The government apologists assert that it makes no difference whether Green accepted stock from Caron or not. We beg leave to hold contrary opinions. It does make a great deal of difference wnether or not cabinet ministers conduct their business so as to keep their names clear of suspicion of bribery and corruption.

A record of political treachery is charged against judge Henderson, one of the Vancouver liberal candidates. Do those who make the charge remember what they thought and said when McBride formed his government in the spring of 1903? And do they remember how disgusted they were when he made his famous socialist alliance in the fall of the same year, breaking his pre-election pledges and committing the conservative party to entanglements absolutely foreign to its very nature? Judge Henderson was in politics in the days before party lines were drawn, when liberals and conservatives on one side were opposing liberals and conservatives on the other. He could not have belonged to any party then without fighting side by side with conservatives. But McBride has made his record since the party system was introduced and in the face of the fact that he himself was partly responsible for its introduction.

Do you want a real story of political treachery? Ask Charles Wilson, ex-leader of the conservative party, ex-minister of the crown, and ex-member for Vancouver. He can tell one that reflects honor neither on the premier nor on any of his colleagues save Wm. Manson, who in the days of Mr. Wilson's troubles, was not a serious factor in the conservative party.

The only members of the McBride government who voted for the 8-hour law have been shelved. The other four, who voted against it, are still in their old places. They, with the addition of Wm. Manson, an entirely harmless man, now form the ministry. These four are premier McBride, Hon. F. J. Fulton, Hon. Capt. Tatlow, and Hon. F. L. Carter-Cotton. Do you want the anti-8-hour cabinet to think that it has your support?

Kirkpatrick, Schofield and McKay are supporting the McBride ministry, of which four members out of five have gone on record as opposed to the 8-hour law. If elected, they will back that minsitry through thick and thin. A vote for any one of them is a vote against the 8-hour law.

Free Treatment for Sick Kidneys

WRITE FOR GIN PILLS

If you have suffered for years with kidney trouble—if you know your kidneys are sick, but have not been able to find anything that will help you—or if you suspect that you have kidney disease, write for a sample of GIN PILLS, the pills that cure. We don't ask you to spend a single penny, or promise to spend any. Simply take the box of pills which we send you free of charge. We leave it to you whether or not you will take any more after the sample box is gone.

RAT PORTAGE, October, 1905

I was troubled for about two years with kidney trouble, so common among railway men. I doctored in the regular way and took a great deal of medicine, but received no benefit. My fireman recommended Gin Pills, and I am pleased to state that after taking the first box I got relief, and while I am not taking them regularly, if I feel any indications of a return of the trouble, a few doses puts me all right again.

CHAS. SIMMONS, C.P.R. Engineer.

This letter is the experience of hundreds. They try doctors and drugs without relief, but they find the cure for their trouble in GIN PILLS. Take advantage of our generous offer. Mention in what paper you saw this, with your name and address, and we will send you, absolutely free of charge, a sample box of GIN PILLS. They are sold by all druggists at 50c a box, or 6 boxes for $2.50.

Every Nurse will tell you "Invalids require nourishment that's easily digested, for in cases of sickness the gastric juices are so weakened they cannot act properly on ordinary foods."

Some stimulation is also required, but it must be **stimulation without reaction.** Tea, coffee, spiritous drinks and similar preparations, are stimulants —stimulants that react.

Beef tea and meat extracts are also stimulants, but with this difference, they don't react. Yet while they have stimulating properties, they are practically devoid of nourishment.

"Bovril" not only stimulates but nourishes as well, for in it the nourishing qualities of beef, fibrine and albumen are fully preserved.

CAPITAL REGULATION

CHANCELLOR DAY IS AGAINST ANY INTERFERENCE.

WAR AGAINST TRUSTS WILL BLOW OVER.

New York, Feb. 1.—Chancellor James R. Day, of Syracuse university, made a characteristic speech last night at the banquet of the Manufacturers' association at the Union League club, Brooklyn. He said:

"No individual can use such capital or furnish the executive ability for such achievements as the times now demand. Men must be incorporated and money massed into thousands of millions for such purposes. And it is folly to expect to reverse it. The man who is shouting himself hoarse over trusts and corporations and swollen fortunes will take his place in history with the men who smashed Arkright's loom and Whitney's cotton gin and the phamphleteers who ridiculed Geo. Stephenson's locomotive.

"But we are told that there is no disposition to destroy the great forms of business, but just an attempt to regulate them. It makes little difference whether you destroy them by direct enactment or regulate them to death. We will make a public sentiment that will encourage every man who attempts to mulct them; we will sow dragons teeth of hate in every corporation plant, among the working men; we will brand every corporation, aggregation of capital and corporate wealth as an octopus or a criminal corporation; we will talk of 'predatory wealth' a silly jingle of words.

"We will urge upon careless thinking people that wealth is grinding them and that corporation is synonymous with tyranny, oppression and gigantic theft—thrift and theft meaning the same thing; and then we will smile upon our breasts pharisaically, and say; 'Ah, no, we do not oppose the natural and proportionate methods of the twentieth century. We want to regulate them only.'

"But as long as the people are taught —wickedly taught by the agitators of various types—that corporations have for their purpose the robbing of the people and the oppression of the poor, business will be obstructed and the people will suffer a severe penalty for their folly.

"Such attacks, persistent and unreasoning, are not only destructive, but the people have to pay for the damage. They pay it in increased price of the commodity if not in decreased wage.

"The mechanic's and workingmen's interests are being imperilled by the spirit of rampant investigation and business persecution today far more than are those of the great corporations.

"The reason given for attacks upon corporate business is that it crushes out the individual and makes it impossible for small forms of business of flourish. In this statement, it is assumed that this is an evil. But we contend that it may be, and for the most part is, a positive good. The big ship swallows up the little ships and the dangers and discomforts of the sea; and the big trunk line absorbs the little railways and tickets you through. Twenty little shops or stores fighting each other at a loss appear in a great factory with profits.

"Men are incorporated and the man of a small business becomes the superintendent or manger of millions of invested capital. Instead of crippling the individual, the corporations have promoted him.

"It is a piece of insolence for the individual to insist that the corporation shall be disbanded because it sells the goods cheaper than he can. We cannot change the order of things. The law of human progress is not a statute to be revised by congress. Do you think that men who have to have opportunities made for them by removing other men out of their way are going to use their opportunities after they are made for them?

"This new doctrine that you can legislate successful men out of success is a piece of imbecility that does injustice to our twentieth century.

It is argued that rich men receive more from the government and therefore should be taxed more. But rich men do more for the country by developing and extending its commerce over the seas, by opening up territory, by providing vast employment.

"We want a few plain, simple laws that help men in all kinds of business to remember honesty.

"Our corporate forms of manufacture and commerce are in their infancy. We are making ourselves a laughing stock for coming generations by our panic over the magnitude of present enterprises.

"Gentlemen, the source of fear, which cannot be exaggerated is the entrance of labor unionism into politics and its adoption of socialism and anarchy as a creed and doctrine. It is a despotism which threatens our democratic institutions. It clutches by the throat our plainest and most fundamental liberties. It makes the absurd boast of having produced the wealth of the world by the labor of the hand.

The labor of this world today is brain labor, and the hand toiler has the easier job a thousandfold. Everybody will sympathize with the organization of the workingmen for the improvement of their condition. But all men should resist the tyranny which oppresses both business and free American citizens who choose not to organize."

Minard's Liniment Cures Garget in Cows

FOLOWED HIS BROTHER

Philadelphia, Feb. 1—Edward P. Hipple, a brother of the late Frank Hipple, who ended his life last summer after wrecking the Real Estate Trust company of this city, of which he was the president, committed suicide at his home here today with a revolver. Mr. Hipple's family was at breakfast when he committed the deed. His wife heard an usual noise and sent her son up stairs to investigate and he found his father in the bedroom with a bullet wound in his head. He was hurried to a hospital but died on the way. Mr. Hipple was about 70 years old and had been in the real estate business all his life. The police believe that brooding over the tragic ending of his brother's life caused him to kill himself.

INTENSIFIED FRUIT JUICES AN IMPROVEMENT ON NATURE

A Discovery that is Revolutionizing Medicine.

Remarkable Success Attends the Finding of a New Medicinal Compound by Combining the Juices of Apples, Oranges, Figs and Prunes.

Fruit helps to keep one healthy. Fruit, in itself, will not cure disease. The medicinal principle—or that part of fruit which has a curative effect—is in such infinitesimal quantities, that it is unable to overcome a diseased condition of the stomach, liver, bowels, kidneys or skin.

Just here is where science stepped in. An Ottawa physician did what nature could not do. He first found that some fruits were stronger medicinally than others—and that apples, oranges, figs and prunes contained all the healing properties of other fruits. There are two principles in fruit juices—bitter and sweet. After extracting the juices of the four fruits mentioned, this physician succeeded in replacing one atom of the sweet principle by one of the bitter. This resulted in an entirely new combination being formed. This new compound was many times more active medicinally than the fruit juices. Where eating fruit only helped to keep one well, this compound actually cured disease.

To make it more valuable still, this physician added the finest tonics and antiseptics, and then, by evaporating the entire compound to a powder, made it into tablets.

This, in short, is the method of making "Fruit-a-tives"—these wonderful tablets — the most reliable cure for Constipation, Biliousness, Stomach Troubles, Kidney and Bladder Disease and Skin Affections. Being made from fruit, "Fruit-a-tives" may be taken by women and children without fear of ill-effect.

Don't take a substitute. If your druggist does not handle them, send 50c for a box to Fruit-a-tives Limited, Ottawa.

BRAVE CONDUCTOR'S FATE

Missoula, Mont., Feb. 1—Two engines, on which were riding a large number of men who had been engaged in breaking thhe snow blockade near Saltez, Mont., plunged over an embankment two miles west of Deborgia yesterday, killing two men and injuring nearly a score of others. The dead are D. P. McDonald, conductor and Levi Burdidis, fireman.

Conductor McDonald's death occurred last night after he had laid for ten hours pinned beneath a boiler with his body partially submerged in the icy waters of the river. His fellow workers were able to keep his head above water until he died. He steadfastly refused to have his limb amputated.

CLARK'S LUNCH TONGUE

Open the tin, serve and enjoy it, makes a perfect sandwich.

SEALED TENDERS addressed to the undersigned, and endorsed "Tender for Post Office, Fernie, B.C.," will be received at this office until Monday, February 18, 1907 inclusive, for the construction of a Post Office, etc., building at Fernie, B.C.

Plans and specifications can be seen and forms of tender obtained at this Department and on application to Robert A. Kerr, Esq., Clerk of Works, Fernie, B.C.

Persons tendering are notified that tenders will not be considered unless made on the printed form supplied, and signed with their actual signatures.

Each tender must be accompanied by an accepted cheque on a chartered bank, made payable to the order of the Honorable the Minister of Public Works, equal to ten per cent (10 p.c.) of the amount of the tender, which will be forfeited if the party tendering decline to enter into a contract when called upon to do so, or if he fail to complete the work contracted for. If the tender be not accepted the cheque will be returned.

The Department does not bind itself to accept the lowest or any tender.

By Order,
FRED GELINAS, Secretary.

Department of Public Works, Ottawa, January 18, 1907.

Newspapers inserting this advertisement without authority from the King's Printer will not be paid for it.

Gregory's Platform

TO THE ELECTORS OF GRAND FORKS RIDING:—

Gentlemen,—As the unanimous choice of the Liberal-Labor convention in Grand Forks Riding, I am before you as a candidate for election to the next provincial legislature.

In this connection I desire to solicit your votes and influence in my behalf.

As a Liberal-Labor candidate, I will, from my independent position, be ready to support measures that work for the common good, and all measures introduced to benefit the true interest of labor will have my undivided support, irrespective of whatever party may introduce such measures.

I am in favor of the following:

1. The creation of a department of labor and immigration, as suggestion by J. A. Macdonald.
2. A railway policy without granting land or cash subsidies but with equal privileges to all and special privileges to none.
3. To have the Elections' Act amended providing that no elections shall be called without giving the electors an opportunity to register in time to secure their votes.
4. Trunk roads and trails should be built and maintained at the government's expense.
5. Exclusion of Asiatic labor.
6. Eight-hour day for all classes of labor.

Yours respectfully,
HERBERT W. GREGORY.

NOTICE

TO CONTRACTORS AND THE PUBLIC

At a meeting of the Nelson Union of Carpenters and Joiners, held Jan 16th, it was unanimously decided that after March 1st, 1907, they would accept no less than $4 per day of 8 hours, except for work on contracts which have been tendered for prior to Jan. 18th, 1907.

As the cost of living has considerably increased since the present standard of wages was established, the union believes the contractors and public will readily endorse this action.

THOMAS LAWSON, President.
J. W. BENNETT, Secretary.

To the Electors of the Ymir Riding

Gentlemen:

As the unanimous choice of the liberal convention in the Ymir riding I am before you as a candidate for representative of the Ymir riding in the next provincial legislature.

In this connection I desire to solicit your votes and influence in my behalf. I will visit all parts of the riding between now and election day, time permitting.

Believing that every candidate should place himself on record on the main issues, I take this opportunity of stating that I am in favor of the following:

(1.) All public lands should be held for actual settlement, lands suitable for agriculture should be surveyed and plans of same kept at the government office of the district for the information of intending settlers.

(2.) I am not in favor of granting land or cash subsidies by the provincial government to aid the building of railroads that when built are owned by soulless corporations.

(3.) Prevention of the importation into the province of Chinese, Japanese, Hindus or other Asiatic peoples for the purpose of competing with white labor.

(4.) The eight hour day for men working in metalliferous mines and smelters is now generally acceptable as legislation in the right direction and I will oppose any legislation that would repeal the penalty clause, or in any way impair the effectiveness of said law.

(5.) Mining, agriculture, and the timber industries must not be hampered in the way of unjust taxation, which should be based on the treatment and manufacture within the province.

(6.) Trunk roads and trails should be built and maintained at government expense, and the cost of roads and trails to isolated mines and communities should be borne in part by the province. Yours respectfully,

J. FRED HUME.

To the Electors of the Nelson City Electoral District

Gentlemen:

At the *unanimous* request of the liberals of this constituency I have allowed myself to be a candidate in the approaching election, I do so because I *believe the interests of the interior* are and have been in the past sadly neglected and although Nelson is the most central and the chief inland city has *fared the worst of any constituency in* the province.

Although I am a liberal, I am not such a strong partisan that I cannot *see faults in my own party and those* who know me must admit that I have the courage of my convictions and wherever I see errors or injustices I will *do my utmost to correct them.*

Pre-election promises I do not believe in, for in a young and growing country conditions may so change that *to carry them out would not be to* the best interests of the province.

The following are some of the principal things that should receive immediate attention:

To assist the development of our mineral resources.

A labor bureau and immigration policy as suggested by J. A. Macdonald is a capital idea.

Full information with maps and plans for intending settlers should be supplied.

A railway policy without bonuses by cash or land but by giving equal privileges to all and special privileges to none.

Our civil service should be taken out of politics and put on a sound basis.

Our timber resources shoud be carefully guarded.

In short our natural resources should be preserved and developed for the people.

I believe in a progressive policy but at the same time maintaining an equilibrium between revenue and expenditure.

Yours respectfully,

G. A. B. HALL.

Synopsis of Canadian Homestead Regulations

ANY available Dominion Lands within the Railway belt in British Columbia, may be homesteaded by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres, more or less.

Entry must be made personally at the local land office for the district in which the land is situate.

The homesteader is required to perform the conditions connected therewith under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year for three years.

(2) If the father (or mother, if the father is deceased), of the homesteader resides upon a farm in the vicinity of the land entered for, the requirements as to residence may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements as to residence may be satisfied by residence upon the said land.

Six months' notice in writing should be given to the Commissioner of Dominion Lands at Ottawa of intention to apply for patent.

Coal lands may be purchased at $10 an acre for soft coal and $20 for anthracite. Not more than 320 acres can be acquired by one individual or company. Royalty at the rate of 10 cents per ton of 2000 pounds shall be collected on the gross output.

Armour's Solid Extract of Beef

(POTTED IN CANADA)

is the only Extract of Beef potted in Canada by the makers. ARMOUR'S SOLID EXTRACT OF BEEF is simply the best extract of the finest beef. Absolutely pure and healthful.

There is no opportunity for adulteration in ARMOUR'S SOLID EXTRACT OF BEEF. Fluid Beefs are mixed with salt, water and other ingredients, and will go only one-quarter as far.

Write for free booklet "CULINARY WRINKLES."

ARMOUR LIMITED - - Toronto

CANADIAN FACTORY—77 FRONT STREET EAST 83

Do You Weigh Enough?

Everyone of average intelligence knows something of the immense value of Cod Liver Oil and Iron as remedial agents. Consequently no one would be surprised to hear that very satisfactory results had followed from giving "FERROL" (a perfect emulsion of Cod Liver Oil, Iron and Phosphorus) in cases where Iron and Oil appeared to be needed.

But, when we ask people to believe that in an actual and scientific test made by an eminent and well-known physician, twenty-five bottles of

FERROL

were given to ten patients and the result was a net increase in weight of ninety-five pounds, we are aware that we are asking a great deal; nevertheless we are prepared to prove that this is an absolute fact, by evidence that no reasonable person can reject. Moreover, this is no isolated instance, but only one of many equally remarkable.

Very few people properly appreciate the importance of maintaining their normal weight.

There is no surer indication of approaching disease than a considerable loss of weight and even where this is not the case, a man whose weight is not up to the average is always in danger of contracting any of the germ diseases which are unfortunately so prevalent. On the other hand, while his weight is well maintained, a man is practically proof against attack, and if disease is already present, the fact that the weight is being increased is proof positive that the disease is being overcome.

The desirability of maintaining the weight should therefore be apparent. In view of this we can confidently recommend "FERROL" as the surest, speediest and most effective medicine by which the weight may be maintained or restored.

INVEST CASH AT HOME

LIFE INSURANCE COMPANIES TOO VENTURESOME.

SPEECHES AT VARSITY DINNER IN NEW YORK.

New York, Feb. 1.—Fifty members of the university of Toronto club and their friends were present at the annual dinner of the association last night at the hotel Astor.

President Thompson of the club, in replying to the toast of "The President," said: "Who does not admire Teddy and his big stick. We drink to the third term for him."

Following the dinner the toasts to the king and president Roosevelt were drank, standing, to the strains of "God Save the King," and "The Star Spangled Banner," respectively.

Among the guests were professor John Galbraith, principal of the school of practical science at the university of Toronto; professor Alfred T. Lelaury, university of Toronto; Miles M. Dawson, actuary of the royal commission now in this city; Dr. Ferguson of the McGill university, Montreal; and Dr. McGammon, vice-president of Queen's university, Kingston. A letter of regret was read from J. P. Whitney, premier of Ontario.

Mr. Dawson, in his speech said that he had come to wonder during the Armstrong investigation, why the Canadian life insurance companies had found it necessary to invest a dollar outside of Canada. Seeking to find an outlet for investment had made them venturesome, but not more so, he thought, than American companies. "I can't for the life of me, see," he continued, "why with such a tremendous call for capital to build the great railways which are developing our country, the life insurance companies should have to seek foreign investment. The railroads' first mortgage bonds are safer than most of the securities they hold; yet they go to Europe for money to build the railroads and the life insurance companies send their money in some cases to Australia to invest. This will probably be a subject for legislation and first mortgage railroad bonds be permitted as insurance investments."

EATON'S WEALTH

Variously Estimated at from Two to Ten Millions—Funeral Tomorrow

Toronto, Feb. 1—Timothy Eaton, whose death was announced yesterday, was surrounded by his wife and family when the end came. The only near relative absent was R. Y. Eaton, nephew, who is in Winnipeg. The cause of death was acute pneumonia, resulting from a severe cold contracted ten days ago. It was only in the afternoon that his condition was deemed alarming. Dr. Edmund C. King, who was attending him, called in Dr. Caven, in consultation, but the patient sank rapidly and the relatives were telegraphed for. Mrs. Eaton, with her two daughters, Mesdames Burnside and Burden, and Mrs. R. Y. Eaton, were in Ottawa and they proceeded at once to Toronto, arriving in the morning.

The deceased was born in Clogher, Ireland, in 1836. He came to Canada as a young man, opening a small store at Kirkton. From there he moved to St. Mary's where he entered the dry goods business. In 1869 he started the beginning of his great store in Toronto. The allied industries and the stores here and in Winnipeg, London and Paris, employing 9000 hands, will be closed till Monday. His wealth is variously estimated at from two to ten millions. He was a Methodist in religion and a liberal in politics. The late Mr. Eaton leaves a wife and four children, J. C. Eaton, vice-president of the company; W. F. Eaton, manager of the works at Oshawa; Mrs. Burnside and Mrs. Burden, both of Toronto. The funeral will probably be held tomorrow.

VIVID DETAILS

Sir Alfred Jones' Version of Some Incidents During Earthquake

London, Feb. 1—Sir Alfred Jones, president of the Lievrpool chamber of commerce, John Hennaker Heaton, M.P, and other prominent men arrived at Bristol today on board the steamer Port of Kingston from Kingston, Jamaica. They gave vivid details of the earthquake and protested against the charges widely circulated that sir Alfred's party inhumanly treated Americans at Kingston. In an interview sir Alfred said it was a "monstrous" statement, adding: "The ship was crowded from end to end with dead and dying. In order to provide for these we had to keep all our passengers ashore at a hotel for two days. Several Americans who were hurt were aided by the Port Kingston and we provided other Americans, who sought shelter under the shed of our wharf with mattresses and supplies from the ship and an armed guard to insure their safety. Several Americans came and asked us what they had to pay and we told them they were welcome to everything we could do."

Sir Alfred said he considered the governor did everything possible under the extraordinary conditions incident to the earthquake and added: "I do not think the correspondence with admiral Davis was one that the governor thought would ever be published by the American admiral, who, of course, was anxious to help and did his duty in offering aid and when it was not wanted went away."

IRISH ARE NOT PLEASED

New York, Feb. 1—Twenty-two arrests were made last night at the Orpheum theatre in Brooklyn, owing to a riot during the performance by the Russel Bros. of a play called "The Irish Servant Girl." A number of Irishmen, who resented the alleged anti-Irish tone of the play began to pelt the performers with eggs. They were with some difficulty hustled out of the theatre by the police, but no one was seriously injured.

NEARLY A BAD BLAZE

LOSS WAS SMALL BUT DANGER WAS SERIOUS

NEGLECT TO PLUG CHIMNEY THE STARTING CAUSE

What might have proved an extremely dangerous fire, only prevented by the promptitude and bravery of the fire brigade, broke out yesterday afternoon at about 3:30 in the basement of the Tremont hotel, under the bowling alley, recently closed up. When first noticed the smoke was rising between the main building of the Tremont hotel and the erection to the immediate westward, separated at the back by a narrow alley. The alarm was promptly turned in and the fire brigade was quickly on the scene. Chief Deasy instantly saw that the fire was in the basement and forcing open the cellar door, opening on to the sidewalk, was encountered by dense volumes of smoke. It seemed impossible to get down but it was only too evident that if the fire were not checked at the spot, holding the central position in the block, that it would have disastrous results. Two lines of hose were taken down and the firemen, headed by chief Deasy, wormed their way into the cellar, crawling on their bellies to get at the fire, which could be seen dimly leaping through the dense smoke at the back. The way was obstructed by piled up quantities of shelving, broken planking, old tables, and other refuse, piled in the basement for safe keeping.

In the meantime mayor Gillett had penetrated into the alley between the buildings at the back and with the axe cut open the planking over the basement, which, built of stone, is covered with the ordinary jointing and flooring. Cutting right at the back of the flue which connects with the bar room of the Tremont, mayor Gillett made an opening right above the seat of the fire. Dense volumes of smoke immediately were vomited. The mayor then cut another opening a little further back, further relieving the smoke in the cellar.

This helped the fire fighters below and they began to play their hose on the conflagration, which now could be seen to have taken serious hold of a heap of lumber piled half way up from the floor to the ceiling. The chemical line was trained down from above through the freshly cut openings, and the fire was then extinguished, taking altogether nearly half an hour from its first discovery, the department being greatly hampered from the location of the incipient conflagration.

It was afterwards seen that the cause of the fire had originated through casual oversight. The Tremont hotel is heated by a furnace. As the building has spread in the course of years the furnace heating has been principally directed to the upper stories and a flue was built in the west wall of the main building of the Tremont, running clear down into the basement, in order that whenever necessary a stove could be placed in the bar room and the lower floor thus heated. Before this year the flue had been only use once, five years ago, in a similar cold snap. At that time the ground floor and basement of the adjoining premises was occupied by a firm of grocers, Morrison and Caldwell, who had a stove connection to the flue in the basement. This winter the weather growing cold, a stove was again placed in the Tremont bar room but the proprietors overlooked the opening down in the disused basement, now used as a lumber rom. There had been no stopper put in place. Some sot igniting in the flue from the bar room stove fell down the flue and out at the basement connection, falling on the dry wood piled almost up to that opening. Hence the fire, which a ten cent stopper, such as those in general use everywhere, would have prevented.

J. J. Malone estimated the loss as trifling and thinks $50 will cover the bill, unless, indeed, the joists of the flooring are badly damaged, which does not seem to be the case, in which event the damage may run up to $200. The loss is fully insured, the group of buildings, known as the Tremont, having several policies in different companies covering the risks. Mr. Malone says that this is the first time since he built the hotel in 1891, that there was ever a fire of any description, not one even having occurred which could have been put out by a bucket of water.

LOSS OVER A MILLION

Big Fire at Harrisburg Destroys Many Buildings in Business Center

Harrisburg, Feb. 1—Eight buildings in the center of the business district of Harrisburg were destroyed or badly damaged by fire early this morning involving a loss estimated at one million dollars. The Grand opera building on Third and Walnut streets, in which there were five stores, was destroyed and nothing is standing but the walls. The Duncan building on the opposite side, occupied by three stores and a pool room was also badly destroyed. The Park hotel and the Columbus hotel were badly damaged by water and smoke. The United telephone company building, the Security Trust building, the Bijou theatre, Robson's photo studio, the College building, and the Harrisburg Gas company's building and the buildings occupied by the Harrisburg Cycle and Typewriter company, the Philadelphia and Albany dentists, and E. G. Hoover, jeweler were also damaged.

The fire started from an explosion in Pyne's hat store in the opera house building and within an hour had destroyed the building. The opera house was owned by a Harrisburg syndicate. While the thick clouds of smoke were coming out of the windows of the opera house, the firemen saw a figure at one of the big windows high up in the building. Then came a crash and what looked like a nude man crawled out on the sill. Standing on the window sill he shrieked for a ladder. "Don't jump, boy, hold on," cried the firemen, and he was subsequently rescued by Edward Holdert, a fireman. An hour after the fire started business had been suspended at the postoffice. The fire was under control at 4:30.

IMIGRATION TO CANADA

Very Satisfactory Figures for Last Year in report of Interior Department

Ottawa, Feb. 1—The annual report of the department of the interior has been issued today. There was an increase of $697,439 in the gross revenue of the department as compared with the previous year, and the area of land disposed of by land companies holding grants from the crown was nearly double the acreage sold in 1904-5. These results, the reports says, should be considered the strongest possible ground for prosecuting with increased vigor the land and immigration policy of the government.

The total revenue from dominion lands for the past decade was $13,139,941 as compared with $2,343,834 for the preceding ten years. The homestead entries in 1906 were 41,869, as compared with 30,819 for 1905. In 1896 the entries were 1857. The entries for the past year represent a total population of 105,420 souls, over 65,000 of those immigrants, who came to Canada last year and settled on government lands. The report says that a contract was entered into with the Robbins Immigration company of London, England, for the irrigation of 350,573 acres, laying to the west of Medicine Hat. This will greatly assist the district which requires irrigation to develop its full possibilities. The average price obtained for school lands in Alberta was $11.55 per acre and in Saskatchewan $14.32 per acre.

NEGLECTED COLDS THREATEN LIFE

(From Chicago Tribune)

"'Don't trifle with a cold,' is good advice for prudent men and women. It may be vital in the case of a child. Proper food, good ventilation, and dry, warm, clothing are the proper safeguards against colds. If they are maintained through the changeable weather of autumn, winter and spring, the chances of a surprise from ordinary colds will be slight. But the ordinary light cold will become severe if neglected and a well established, ripe cold is to the germs of diptheria what honey is to the bee The greatest menace to child life at this season of the year is the neglected cold." Whether it is a child or adult, the cold slight or severe, the very best treatment that can be adopted is to give Chamberlain's Cough Remedy a trial. It is safe and sure. The great popularity and immeuse sale of this preparation has been attained by its remarkable cures of this ailment. A cold never results in pneumonia when it is given. For sale by all druggists and dealers.

HUGE DRAINAGE SCHEME

Chicago Undertaking Will Cost Seventeen Million Under Revised Plans

Washington, Feb. 1.—If the Calumet river is to be turned backwards in its course from lake Michigan to form a drainage canal into the Mississippi as planned by the sanitary board of Chicago, the International waterways commission insists that the cost of the project shall be increased by five million dollars.

The Illinois engineers estimate that twelve millions dollars would cover the cost of the great work, but the international board regards that amount as insufficient to meet the needs of the fund. They say that the plan can scarcely dispose of the flood water of the section to be drained even in its present sparsely populated condition, while if the inhabitants multiply, as expected, the Calumet river, under the local engineers project, would actually be forced backwards and into lake Michigan just as it does now. The international board is prepared to recommend a project costing in the aggregate $17,000,000. While prepared to meet any decision on the part of congress or the war department as to the construction of this improvement, the international board is really much opposed to it, taking the grounds that there are better ways of successfully disposing of the sewage in the tract sought to be drained, than by the adoption of a plan which is certain to considerably reduce the level of lake Michigan and so injuriously affecting navigation in this and the whole chain of lakes.

HOCKEY TODAY

Nelson and Trail Juniors Will Meet at Rink this Afternoon

This afternoon the first junior match of the season will come off at the Stanley street rink, commencing at 2 o'clock, when the Nelson and Trail junior teams will play. The local team has practiced well, often playing with the seniors, and the visitors are said to be a fast team, so that a good game is likely. There will be skating after the match is over.

The lineup today will be as follows:

Nelson		Trail
Cummins	goal	Melligan
Jackson	point	Truswell
Bell	cover	Brown
Bergman	forwards	Swartz
McDonald		Morrow
Gore		Morgan
Miller		Driscoll

Vote For Dr. G. A. B. Hall

OTTAWA NOTES

Ottawa, Feb. 1—A conference has been arranged between the department of railways and the C.P.R. to consider the application of the company for running rights over the Intercolonial between St. John and Halifax. The meeting will take place about the middle of next week, probably on Wednesday. Hon. H. R. Emmerson, Mr. Butler and Mr. Pottinger will represent the Intercolonial and Sir Thomas Shaughnessy and some other officials of the C.P.R. will represent that company. The matter will be one of terms only, as the railway department will not refuse the principle. If the C.P.R. will pay the shot the application will be granted. The whole matter will come before the cabinet before any final action is taken.

In the house today A. C. Macdonell, South Toronto, learned from minister Lemieux that the government had under consideration the question of increasing the salaries of all post office employees and that the announcement will be made shortly.

Hon. Mr. Fielding has declined to accede to the request of western sheep breeders who claimed that the classification of wool was faulty. They were too drastic. Mr. Fielding said only the farmers of Calgary, in all Canada, had asked for a duty on wool. Knowles also urged protection to the wool growers of the west. He would like to see the duty higher than three cents per pound in the general tariff.

EARTHQUAKE IN SOUTH SEAS

San Francisco, Feb. 1—The Solomon islands in the South seas were visited by an earthquake several weeks ago, in which the earth opened and deep gorges were created. The entire appearance of the island was changed. There was no loss of life. The news was brought here by governor O. B. Moore who arrived yesterday from Samoa. He stated that a trading schooner came into Apia with the news shortly before he sailed. It is deemed probable that the earthquake was the one which recorded itself on seismographs in various parts of the world. According to the instrument at Apia, aSmoa, it lasted for several minutes and was said to be the heaviest shock ever recorded. It was thought at the time that it occurred some where in the South sea, but as no report came from any civilized island it was believed that it occurred at sea.

Total	19

Cabinet ministers against, four, McBride, Tatlow, Fulton and Cotton.

Cabinet ministers for, two, Green and Wilson.

TURBINES FOR ENGLISH NAVY

London, Feb. 1—In marine engineering nothing has made greater advances recently than the Parson turbine engine and there will be important developments in this line soon in the navy. In point of fact the admiralty has resolved that in future all British battleships will be fitted with turbine engines. This has been determined after the most complete investigation and trial, the decision being mostly due to the splendid success of the battleship Dreadnaught. The fact that turbines are being installed in the king's new yacht now under course of construction, indicates the drift of admiralty feeling, and with the exception of some unimportant craft, such as river boats, etc., turbines will be all powerful in the navy. Russia is reported to be laying down two huge turbine battleships.

UNREST IN IRELAND

London, Feb. 1—The Peace Preservation act (Ireland) of 1881, which is included in the Expiring Laws Continuation bill which was brought before parliament today, will be the cause of vigorous protests from the unionists, who believe the act as it stood was of vital importance to the loyal minority. When, during the committee stage of the bill last year, Mr. Flynn moved the ommission from the schedule of the Peace Preservation bill, on the ground that it was not only an indignity to Ireland, but a lasting stigma on the honor of the British ministers, Mr. Lond, the chief secretary for Ireland, reminded the house of commons that Mr. Morley had made it clear at the time that he occupied the same official position, the chief secretary of Ireland, that he regarded the measure not as a coercive act, but as a police regulation, and in the division which followed only two cabinet ministers supported Mr. Flynn.

GOVERNMENT AFTER COAL MINES

Winnipeg, Feb. 1—The Hon. W. R. Motherwell, provisional minister of agriculture, has held lengthy conferences with W. Whyte with regard to the coal supply of Saskatchewan province. Motherwell has appraised Whyte of the fact that the local government of Saskatchewan is profoundly interested in the fuel question, so much so that they are now considering the advisability of purchasing a coal area from the dominion for the purpose of operating it on the public ownership principle. Mr. Motherwell is still investigating the matter and the project is becoming more important every day. The further settlement of the country which is proceeding so steadily and speedily, will greatly depend on Mr. Motherwell's efforts.

BRITISH CABINET MEETS

London, Feb. 1.—The cabinet today held its first meeting since the prorogation of parliament. Premier Campbell-Bannerman presided. The ministers, besides framing the outlines of the speech from the throne to be delivered at the re-opening of parliament on February 12, will, it is understood, finally dispose of the incident involving governor Swettenham of Jamaica.

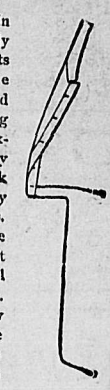
LEASE FRENCH CHURCHES

Paris, Feb. 1.—The parish priests are submitting to all mayors, 18 year contracts for the lease of the churches and are giving the officials four days in which to reply. The mayors of some of the Catholic communities immediately signed the documents, but the latter required to be signed by the prefects who are waiting the government's decision.

THE ZULU RISING

Capetown, Feb. 1.—It was announced here today that Dinizulu, the Kaffir chief, is marching on Rhodesia with 5000 Yulies. A disquieting feature of the situation is that frequent thefts of rifles have been made from the houses of settlers in Zululand.

Semi-ready dress clothes are the highest expression of art in tailoring



THE best tailor in town makes only 3 or 4 dress suits in a year. They are novelties with him, and their style and making are pretty much an experiment. That is why so many gentlemen look like waiters when they put on dress clothes.

The design of the Semi-ready dress suit is the work of a sartorial artist of the highest rank. The suits are tailored by men who do nothing else—they are specialists in the tailoring of dress clothes.

Semi-ready dress clothes are made of light-weight unfinished worsteds. The coat is delicately designed, as the parts are smaller than in any other style. The balance and lines are such as to show the figure at its best. The shoulders are broad yet natural form.

The Semi-ready dress suit is made with a longer lapel, rolling to within two and a half inches of the waist, with considerable convex on crease, and a softened point at bottom of lapel instead of the usual harsh point.

On account of the carefully designed lines, the coat adheres closely to the figure, the skirt is more shapely and sets smoothly over the hips.

The skirts are longer, tapering towards the bottom with slightly rounded corners. The illustration shows these lines.

If you wear a dress suit at all, it should be correct in style and tailoring.

We would like to show you how sumptuous the Semi-ready dress suit and tuxedo are. Will you call in?

is better—yet costs no more.

The Mineral Springs Limited, Toronto

SOFTNESS OF SEALSKIN.

Is Rivaled by Human Hair Where Dandruff is Eradicated.

Sealskin is admired the world over for its softness and glossiness; and yet the human hair is equally as soft and glossy when healthy; and the radical cause of all hair trouble is dandruff, which is caused by a pestiferous parasite that saps the vitality of the hair at its root. Newbro's Herpicide is the only preparation that is fatal to the dandruff germ. Without dandruff there is no falling hair, but a luxuriant growth of glossy, soft hair is certain. Scouring the scalp won't cure dandruff. Kill the dandruff germ. Thousands of women owe their beautiful suits of hair to Newbro's Herpicide. Sold by leading druggists. Send 10c. in stamps to The Herpicide Co., Detroit, Mich.

Two sizes—50 cents and $1.00.

NELSON'S NEWS OF THE DAY

All the bars and saloons in the city will be closed today until after 7 p.m.

J. S. Carter, C.P.R. passenger agent for the Kootenay, has gone to Montreal on a three weeks' visit.

The weather turned colder yesterday, the thermometer varying between 35 and 20 degrees above zero.

T. S. McPherson, liberal and H. M. Fullerton, conservative, both of whom are in Victoria today, have paired their votes.

N. L. McInnes is in from Grand Forks. He reports business in the Boundary country, despite the elections, to be very good.

G. M. Ross, formerly of the C.P.R. superintendent's office here, and recently in Summerland, has returned to Nelson to be chief clerk in J. S. Lawrence's office.

Herbert T. Irvine came in from Spokane last night in order to vote. Mr. Irvine says Spokane is taking a great deal of interest in British Columbia mining stocks.

Today being the festival of the Purification of the Blessed Virgin Mary, there will be a celebration of the holy communion in St. Saviour's church at 10:30 a.m.

At the Hume last night were W. J. and D. S. McLachlan of Vancouver and C. D. McLachlan of Missoula, Montana, three brothers, who have come to vote for Dr. Hall, the liberal candidate.

Ranchers on the Arm are expecting a record crop of strawberries this season. Many more acres are now under cultivation than was the case two years ago, the previous record for the season.

The Daily News is in receipt of an invitation from the mayor, aldermen and citizens of Rossland to the tenth annual winter carnival to be held in the Golden City on Feb. 12 to 16—, both inclusive.

The Daily News made every effort yesterday to complete arrangements for displaying the election returns by flash light tonight. A lantern was obtained but difficulties arose over the lighting arrangement and other lanterns were sought, without success. Further efforts will be made today to obtain the necessary fixtures and if they can be got, the returns will be flashed out as already announced.

It is announced that Walley's "Stars" and Fox's "Swaggerers" meet next week with rocks and besoms upon the ice. The vanquished entertain the victors at an oyster supper.

Rev. E. H. Shanks goes over to Grand Forks this morning to conduct a two weeks' revival service in that city. Rev. C. Padley will occupy the pulpit of the Baptist church here during the pastor's absence.

As the ballots cast today at the opera house are divided up among five booths, and as each deputy returning officer will count the ballots in his own booth, the final announcement should be out by 7:20 or 7:30 at the latest.

The adjourned roll call of Kootenay lodge No. 16, I.O.O.F., will take place in the lodge room on Monday evening, Feb. 4. A full attendance of all members is requested and visiting brethren are cordially invited.

J. P. Swedberg says he has several wild cats which will be sacrificed if he does not win his bets in the present election. Unfortunately for the development of these claims, Mr. Swedberg is betting on the wrong horses.

The grand officers and the officers elect and all members of Queen City Rebekah lodge No. 16, I.O.O.F., who are taking part in the installation ceremonies are requested to assemble in the lodge room this evening at 8 o'clock for practice.

The polls will open in the opera house at 8 o'clock this morning and close at 7 p.m. A. M. Johnson will represent Dr. Hall, the liberal candidate, as his legal agent, and in addition there will be five liberal scrutineers, one in each polling booth.

Rev. F. H. Graham, who has been confined to his residence for some days by an attack of la grippe, has recovered sufficiently to take the services tomorrow at St. Saviour's church. There will, however, be no 8 o'clock celebration of the holy communion.

MADDEN—N. Revelliard, Pilot Bay; W. Howarth, W. McWilliams, Rossland; H. Harris, Phoenix; W. Lockhart, Spokane; R. McAllister, Vancouver; H. Begg, Regina; W. Mayhew, W. Barrow, Slocan.
