Legislative Assembly FEB 12 1907 PROVINCIAL LIBRARY VICTORIA, B. C.

MAKES GAIN OF 3 SEATS

Election Gives McBride Three More Supporters

Government Ranks Increased From 23 to 26—Parties Now Stand 26 to 13

Vancouver, Feb. 4.—Practically speaking, the net results of the election give the McBride government 26 seats in the house. Of the seats in doubt on Saturday, the liberals take Lillooet, Alberni and Chilliwack, and the conservatives The Islands and Saanich. Hon F. Carter-Cotton is safe in Richmond. The standing of the parties in the house will be conservatives 26; liberals, 13; socialists, 3.

The conservatives have carried 26 seats, the liberals 12, and the socialists three, and one, Skeena, is in doubt.

The conservative seats are:

Atlin, Columbia, Comox, Cowichan, Dewdney, Fernie, Islands, Kamloops, Kaslo, New Westminster, Okanagan, Richmond, Revelstoke, Saanich, Similkameen, Slocan, Vancouver (5), Victoria (4)—26.

The liberal seats are:

Cariboo (2), Chilliwack, Cranbrook, Delta, Esquimalt, Greenwood, Lillooet, Nelson, Rossland and Yale.—12.

The socialist seats are:

Grand Forks, Nanaimo, Newcastle.

In doubt: Skeena, but Dr. Kergan, liberal, has a big lead over Lord, conservative.

Complete figures for Similkameen, Okanagan, Dewdney will not be obtainable for several days, but they have undoubtedly returned conservatives.

John Oliver secured a majority of 70 over his conservative opponent in Delta.

Munro holds Chilliwack for liberalism by the narrow majority of 20.

A. E. McPhillips defeated Paterson in the Islands by the bare majority of 6.

Dr. Young holds Atlin for the McBride government by a majority of 58.

Cowichan is captured from the liberals by Hayward with a majority of 50 over Evans, and D. M. Eberts wins Saanich for McBride by a majority of 27. Mark Eagleson is leading in Lillooet, with only one poll to hear from, which is not likely to reduce his majority.

Newcastle, which on Saturday night was reported to have gone liberal, has returned socialist Parker Williams, Cairns, the conservative candidate losing his deposit.

Later returns from Kaslo riding make the election of Neil McKay a certainty.

The latest figures received are as follows:

	McKay	Keen
Trout Lake	43	10
Ferguson	10	25
Silver Cup	9	11

These returns increase McKay's former lead by 16. On Saturday night erroneous returns were received from Ainsworth, showing .. votes for Keen and 0 for McKay, whereas McKay actually secured 10 votes there. His present lead is now about 50 with only two or three unimportant polling places to hear from.

(Special to The Daily News)

Vancouver, Feb. 4.—It is reported among conservatives here that premier McBride will make a complete reconstruction of his cabinet after next session. It is probable that a change will be made involving the appointment of a minister of lands, dividing the field formerly occupied by the chief commissioner of lands and works. It is not thought likely that Manson will be offered another seat as the opposition against him was not deemed especially strenuous. For the new speaker Eberts and Carter-Cotton are prominently mentioned.

Among friends of McBride here it is said he will resign his Victoria seat. Conservatives will claim the right to name a local man for the place.

McInnes announced today that he would open a law office in Vancouver at once. It is also reported that Henderson will engage in private practice in partnership with D. G. MacDonell.

WHEAT IN THE NORTH

Edmonton, Feb. 4—Fred S. Lawrence, who grows wheat farther north than any other man in America, is in the city today from Vermillion, on the Peace river. It took him 23 days to make the 700 mile trip. He is going east to Chicago and St. Louis and it is understood that he has something big to lay before the eastern capitalists. He reports the wheat crop at Vermillion this year will total 22,000 bushels.

A BOGUS ARCHBISHOP

Montreal, Feb. 4—The so called "archbishop Villate," who attempted to hold religious service in Paris yesterday, which ended in a riot, was well known in Montreal, where he attended St. Laurent college and was refused a gown owing to his inability to learn Latin. He later entered McGill university to study law, but quit. He returned here seven years later and claimed he had been ordained a Greek bishop. He applied to Rome to abjure the Greek schismatic church, but wanted to retain his rank. Investigation failed to justify his claim to ordination. He later went to Cleveland and took charge of a Polish anti-Catholic church, but after a number of years he was obliged to quit over trouble with his people.

CAN'T FOOL CANADA

Ottawa, Feb. 4—With regard to the report that the United States Steel corporation is about to establish a large plant at Sandwich, Ont., it is authoritatively announced that in the event of this or any other corporation producing steel in Canada for export abroad the bounty resolution now before parliament will not apply to the exported product.

THE JAPANESE BOGEY

Honolulu, Feb. 4—Six hundred Japanese immigrants arrived today on the steamer Siberia. A number wore the full Japanese military uniform and two captains, besides being clother in the uniform of their rank, wore war medals.

PROTEST FROM THE WEST

Portage la Prairie, Feb. 4—A strongly worded protest has been wired from the local board of trade against the dominion government's proposed new arrangement re the parcel post, the grounds alleged being that it would discriminate against the smaller local merchants in favor of the city departmental stores.

ROAD TO HUDSON'S BAY

ELECTION CARD OF MANITOBA'S TORY GOVERNMENT

INTENDED TO OFFSET LIBERAL CRY OF PUBLIC OWNERSHIP

Winnipeg, Feb. 4—From a source which has always proved absolutely reliable, it is learned that the Manitoba government is preparing to make an announcement to the effect that they will finance a railway line direct from Winnipeg to a port on Hudson bay, thus making a short route to the European markets. The line will run from the city in an easterly direction for a few miles, and then direct north and will be the shortest of Hudson bay routes.

At present nothing definite has been arranged as to who will build the line but it is reported that a company will likely be organized for the purpose, the government not being altogether satisfied with the way Mackenzie and Mann have been conducting the railroad business recently.

This important announcement will be made directly the date of the provincial elections is given out, which is expected to be within the next two or three weeks, as both sides have been preparing for the fray for some months.

Confronted with the liberal policy of government ownership of grain elevators, the present government realised that something out of the common was necessary to get the votes of the people, and knowing the whole province will heartily support the government pledged to rush to completion a road to Hudson bay, this was decided upon.

To the people of Manitoba it will mean a saving of several million dollars yearly, the water route being a considerably cheaper way to ship to Europe, and doing away with the long train haul across the continent, entailing heavy freight rates. Reports from explorers who have spent much time around Hudson bay show open water there for at least six months in the year, and only last winter an ice-breaking ship from Liverpool arrived at Fort Churchill a week or so after Christmas, showing the bay to be navigable for a much longer period than was supposed.

Promise of the early construction of this line will return the government to power with a larger majority than it now enjoys and its plans contemplate commencement of the work on the line immediately thereafter, so as to cut out possible competition of other lines chartered to build to the bay from points in Saskatchewan. It sounds a tremendous undertaking, but a glance at the map shows it to be but six or seven hundred miles from Winnipeg to York Factory, though the country is a difficult one for railway building owing to the many muskegs, sloughs and rivers.

MUST WITHDRAW OPERA

NEW YORKERS OBJECT TO PRODUCTION OF "SALOME."

USE OF "JOHN THE BAPTIST'S" HEAD CAUSES A STORM.

New York, Feb. 4.—Announcement is made that Heinrich Conried, through members of his executive committee, has acceded to the demand of the Metropolitan Opera and Real Estate company, to withdraw "Salome" from the stage. This course will be pursued, provided the protesting directors have not changed their attitude toward the Richard Strauss's Oscar Wilde work. That attitude, as expressed in a letter to Mr. Conried on Friday, was that the further production of "Salome" would be "detrimental to the best interests of the Metropolitan opera house.

The main objection pointed out was the scene in the last act, where Salome kisses and caresses the head of John the Baptist, while she sings passionately to his dead eyes.

Before the decision of the Conried directors to consent to a withdrawal of the opera, it was intimated that stout resistance would be made to the demand of the real estate directors, headed by G. G. Haven, president of the company. It was said by a representative of Mr. Conried that some concession might be made in the way of modifying the scene that had raised such a storm, but that he would not consent to taking off the opera.

Mr. Conried's health, as well as the powerful forces behind the demand to withdraw "Salome," made the condition of a prospective conflict too unequal.

OTTAWA IN MOURNING

Death Visits Home of His Excellency, Earl Grey

Lady Victoria Grenfell, Eldest Daughter of the Governor General, Died on Sunday

(Special to The Daily News)

Ottawa, Feb. 4.—The house of commons adjourned until tomorrow owing to the death of lady Grenfell. Sir Wilfrid Laurier referred in feeling terms to her death, pointing out how their excellencies mingled more among Canadian people than any of their predecessors, and consequently the people sympathized with them in their sad bereavement. Borden seconded the motion to adjourn.

Ottawa, Feb. 4.—The sudden and lamented death of lady Victoria Grenfell has plunged the city into mourning. Her ladyship, up to yesterday afternoon, had made splendid progress towards recovery; so much so that her homeopathic specialist from Toronto, Dr. Tyrrell, had returned home. Last evening, however, a relapse set in, and lady Victoria gradually failed till her collapse, which occurred shortly before midnight. The remains will be taken to England for interment, leaving Ottawa on Friday next. Her husband, Arthur Grenfell, and probably lady Grey and her two daughters, will accompany them.

The deceased, who was married to Mr. Grenfell in 1901, leaves three small children. This first bereavement in the vice regal household in Ottawa will put an end to all sessional galeties. Dinner parties and other functions for the week were all cancelled today.

The commons this afternoon, on motion of premier Laurier, seconded by R. L. Borden, adjourned for the day out of respect to their excellencies. Telegrams and messages of condolence from all parts of the dominion poured into government house today, while scores of members of parliament sent their cards or called personally.

THREE FROZEN TO DEATH.

Saskatoon, Sask., Feb. 4.—A report is current here that three men have been found frozen to death in their shacks one hundred miles from Dundurn. A relief party is being sent to the scene.

BANKS SOUND WARNING.

Toronto, Feb. 4.—Settling day at the various drygoods houses and at the banks was, on the whole, satisfactory and papers were promptly met from most points in Ontario. There is a feeling of uneasiness regarding the northwest, and there are many aplications for renewals as a result of the hard weather and the railways' failure to move crops. Some banks hesitate to express opinions about the outlook. Two Canadian banks have nearly four million dollars tied up in produce that cannot be moved for some time. Merchants write from all parts of the northwest stating their circumstances. It is an old story. Farmers have been unable to obtain cash to meet their obligations. Ranchers will lose heavily and reports have reached here of one whose loss will be close upon a hundred thousand. Bankers say that a tremendous amount of money is tied up in real estate, and that many banks refuse to touch this class of security, for the reason that if the markets and boom go the right way, the holder of the land makes big money. If the tide goes the other way the bank loses its money.

FEET WERE FROZEN

Winnipeg, Feb. 4.—With his feet wholly devoid of any covering and frozen white, Paul Mondar, a nephew of the proprietor of the St. Boniface hotel, walked into the sitting room and fainted as the warm air of the stove came in contact with the frozen members. He was immediately removed to St. Boniface hospital, and given proper attention. In spite of all efforts made to save the feet, they were amputated just above the ankles. A party of friends went back and found that Mondar had walked almost two miles in his bare feet to his uncle's house.

FACE CRUSHED IN.

Montreal, Feb. 4.—Michael Thomas McGrail, 89, died in the hospital as a result of an accident this morning when he was knocked down by a milkman's sleigh in front of his own door. McGrail had attended holy communion in the Franciscan chapel and was crossing Dorchester street after coming from service, when he was knocked down. Before the driver could stop the horse, the animal stepped on the prostrate man's face.

IMMIGRATION INCREASING

Montreal, Feb. 4.—Immigration to Canada from trans-Pacific countries increaser to such an extent during the past year that the facilities for handling immigration at Victoria, B. C., have proved utterly inadequate to the amount of traffic handled. This announcement was made by J. Obed Smith, commissioner of immigration, who returned last night from a three weeks' sojourn at the coast city. While there, he made arrangements for a consolidation of all the different immigration offices in one large building similar to the Winnipeg immigration hall. Victoria's new immigration hall will be located near the outer wharf, where steamers arrive, so that the immigrants may be easily disembarked. The old site was not large enough for the purposes required and a piece of land adjoining has been purchased. The hall will not be as large as the Winnipeg building, but will contain inspection and detention rooms, and also a main hall.

STRIKERS BREAK RANKS

Toronto, Feb. 4.—Striking Bell telephone operators, to the number of 380, applied for their old positions to manager Dunstan today, having decided to return to work pending the finding of the royal commission. Manager Dunstan did not accept their services, but took their names and addresses and said he would send for such as are wanted to complete the service.

MINE EXPLOSION.

Elkins, W. Va., Feb. 4.—The third mine explosion in West Virginia within two weeks, occurred this morning at the Davis coal and coke mine 25, near here, and 25 or 30 miners are said to have been killed. Late today the first rescuing party entered the mine. The bodies of six foreigners were recovered, but a point of poisonous fumes enveloped the rescuing party. Before the party could reach the surface, one of its members, Jones died from suffocation. Tonight efforts are being made to enter the mine again, but in vain. There is no possible hope that the men still in the mine are alive. There are pitiful scenes around the mouth of the mine tonight.

NELSON'S NEWS OF THE DAY

R. F. Green came down from Kaslo last night and this morning will leave for the coast.

Mrs. Pearcy's class at the public school had to be dismissed yesterday morning owing to the want of heat in the school room.

His honor judge J. R. Brown of Greenwood, recently elevated to the county court bench, spent yesterday in the city and returns to the Boundary today.

P. Chapman of Vancouver, who was here with A. Macdonald and company two years ago, is a guest at the Queen's. He is on his way east.

The city authorities are advertising for a caretaker for the cemetery. All applications must be in the city clerk's hands by noon on Feb. 11.

The Crow train was cancelled last night and no passengers will be taken east over this line this morning. A slide is said to have blocked the road but particulars are wanting.

There will be a meeting this morning in Taylor and O'Shea's office of those interested in the Five Metals Mining company, preparatory to a general meeting of all shareholders to be held shortly.

For the first time in 13 years Slocan lake froze over on Sunday for a mile and a half north of Slocan City. The ice was a couple of inches thick and a tug was sent out to break a way for the steamer.

Contractor Burns had a gang of men yesterday removing the remaining building on the bank of Commerce new building site on Baker street. Mr. Burns expects to commence excavating for the foundations at once.

Queen City Rebekah lodge No. 16, I.O.O.F., will confer the initiation degree at their regular meeting this evening and other matters of importance will be dealt with. A full attendance of the officers and members is requested.

A voter on Saturday, who had indulged rather freely and then voted, came back later in the day and insisted that he had been personated and had not voted. He was induced to leave the opera house without much trouble and when the count was made his ballot was noticed from the fact that he had written his own name on the back of it and so spoiled his vote.

DYMENT IS DEAD

Barrie, Feb. 4—N. D. Dyment, the millionaire horseman and lumberman, died this morning.

FIRE FATALITIES

Winnipeg, Feb. 4—A double fatality resulted today from a fire in the residence of Norman Macdougall who, with his little daughter, were overcome by smoke and suffocated before the brigade arrived.

SEVEN MINERS KILLED

Des Moines, Feb. 4.—Seven miners were killed tonight and a dozen injured in the wreck of a coal train on the Chicago & Northwestern railway near Des Moines. A car in the middle of the train left the track, and ditched the cars behind it. The victims were all buried under wreckage and coal which later caught fire, making the rescue work difficult.

THAW'S PLEA IS INSANITY

Trial of White's Murderer Commences in Earnest

Case for the Crown Presented Briefly, and Defendant's Counsel Replies

New York, Feb. 4.—The state laid bare its case against Harry K. Thaw today; a bald, unemotional story of the shooting on the Madison Square Roof garden, leaving the motive to be inferred from the act, and the defence replied with a plea of hereditary insanity. It was asserted that Thaw, in slaying Stanford White, believed he was acting as an agent of Providence, that real or fancied wrongs committed against him by the architect and former friend of his wife seethed in his brain until at last there came the explosive impulse to kill. When the act was accomplished, Thaw made no move to escape its consequences, but, holding the fatal revolver aloft, he stood as if mutely proclaiming to the world, "The deed is done; it was right; it was not wrong." Thus Thaw's counsel outlined his case to the jury this afternoon, after the prosecution had occupied less than two hours of the morning sitting of the court through eye witnesses giving the narrative of the tragedy. When the defence had interposed its plea and outlined its case, an adjournment was taken until tomorrow morning. Then the first witnesses in Thaw's behalf will be heard.

"You will hear the story of this man's insanity," attorney John R. Gleason, for the defense, promised the jury, "from his mother, from his wife, from his relatives and from his physicians. You will judge him by his acts, and when you come to judge him you will say to yourselves that his act may have been one of insanity, but it was not one of crime."

That Thaw's wife was to be one of his important witnesses has been long known; that his mother, Mrs. William Thaw, of Pittsburg, was to take the stand became known positively only today, when the court excluded from the courtroom all witnesses save experts. Thaw's mother, at the command, left the room after a moment's hesitation. She seemed unwilling to be parted from her son in the hour of his need.

His wife, too, reluctantly left the room, bestowing a last radiant smile of courage and hope upon her prisoner husband. May McKenzie was the third of the women who have been daily in the Thaw party to leave the court room. Thaw seemed affected. Many times last week, during the dull days of selecting a jury, he turned to his wife for comfort and found her every ready with a quick responsive smile.

During the opening address by Mr. Gleason, in which he entered the defense of insanity, Thaw sat with flushed cheeks which at times he covered with his hands. He sat with downcast eyes. He seldom looked up, just a fleeting glance now and then at the man who was making the first plea for his life and freedom. Not once did his eyes wander to the jury box, in which the twelve men, with grave faces, listened intently to every word of Mr. Gleason's somewhat lengthy speech.

There was another period, during the morning session, when Thaw again looked only at his hands, clasped before him on the table. This was when Lawrence White, a 19 year old son of Stanford White, was on the stand as the first witness for the prosecution. Young White, wno is a Harvard student, was not a material witness. He was with his father at dinner the evening of the tragedy, but left him before he went to Madison Square garden. White was alone, it was testified, when Thaw approached from behind, wheeled, faced him and sent three bullets into his brain and body.

Then counsel told the story of the prisoner's love for the girl he made his wife. He met Evelyn Nesbitt in 1901 and there began in him an honorable regard and love for the girl. He told her mother of that love. The girl was in a precarious condition, following a serious operation in a sanitarium, and Thaw suggested to her mother that she take Evelyn abroad to recuperate.

It was arranged that Thaw should accompany the two as the avowed suitor of Miss Nesbit. In 1903 he asked her to marry him and she refused.

"The reason for this refusal you will hear from her own lips," announced Mr. Gleason.

"Suffice it to say the reason had to do with an incident in her life with reference to Stanford White."

Thus laying the foundation for the plea of insanity, he defendant's lawyer declared brain diseases laid hold of Thaw some three or four years ago. He said that there had been many instances of a person being insane upon one subject and that alone.

Mr. Gleason cited instances of temporary insanity, evidenced by a single act.

"We will not base our plea, however, upon a single act," he went on; "it will be shown that there was insanity on both sides of this defendant's family. Hereditary has made us what we are; hereditary has made the living world. Our case is far removed from the much discussed defense of emotional insanity."

"You must disabuse your minds of all you have read in the newspapers and especially of the idea that has gone abroad that we are to rely upon some higher or unwritten law.

"We rely upon the constitution and laws of the state of New York and upon them alone. You will understand this man's insanity. It will not require experts to tell you of it. It is within your province to judge him, and you will say from the evidence that when he killed Stanford White, he was an insane man."

He declared that Thaw labored under the delusion that his life was always in danger when he was in New York city, in that he believed threats had been made to kill him.

This accounted for the fact that, after January, 1904, he always carried a pistol. He had placed it in his overcoat pocket the night he went to the Madison Square Roof garden. There he turned suddenly and saw what he thought was a demon glowering at him. The impulse came, he felt that to kill White would be an act of providence and, so believing, he set deliberately at his task. It was the work of an insane man, Mr. Gleason said, the delusion of a disordered brain.

Counsel told the story of Thaw's defence in a conversational way, as if he were taking every juryman into his confidence. They listened intently. Mr. Gleason was twice interrupted by district attorney Jerome, on the ground that he was arguing the case from the evidence instead of plainly stating what the case was to be. The interruptions caused Mr. Gleason to repeat in some instances, but his remarks did not seem thereby to lose weight.

In adopting a calm, dispassionate manner on addressing the jury, Thaw's attorney followed the example set by assistant district attorney Garvan, who opened for the prosecution at the beginning of the day's session. The rumors that there were to be further changes in the jury box were not downed until Mr. Garvan actually began speaking. It was said that district attorney Jerome had brought all the pressure and persuasion at his command to gain consent for the removal of one or two of the men, but Thaw's counsel resolutely and successfully resisted all pleading for a further revision of the trial panel.

Mr. Garvan, in telling the story of the alleged murder, occupied less than ten minutes and the prosecution's entire side was kept within two hours.

Except young White and the coroner's physicians who performed the autopsy and described the wounds in White's body, the only persons called to the stand by the state were five witnesses. They were cross-examined briefly by attorney Delmas of the defence, who for the first time participated actively in the proceedings. Witnesses told nothing that has not been known to the reading public ever since the night of the tragedy. They related the deliberate way in which Thaw approached White, faced him and fired. They repeated Thaw's assertion, "He ruined my wife," and Mrs. Thaw's remark to her husband, "Yes, but look what a fix you are in now."

To this last remark Thaw replied, "Dearie, I have probably saved your life." It was brought out that Thaw looked back at his victim as he walked out "with a staring look in his eyes."

Mr. Garvan's outline of the state's side was of the briefest. He told of Mr. White dining at the cafe Martin with his son and a college mate of the latter on the evening of the tragedy. He related how White went to the roof garden on Madison Square to see the original production of a summer musical comedy called "Mamselle Champagne" and then related in simple, unembellished language how he was killed.

FACED DEATH TOGETHER

MAN AND WOMAN STOOD IN PATH OF TRAIN

MET THEIR END CLASPED IN EACH OTHERS' ARMS

Camden, N.J., Feb. 4—Shrouded in white in the Camden morgue is left the body of a young woman whose face shows more than the average of beauty and refinement.

In the bed of Newton creek, somewhere near the trestle of the Pennsylvania Electric line, lies the broken body of the young woman's companion, a man, who, with her faced an onrushing train without flinching.

These two, the unidentified woman and the man, appeared suddenly in the brilliant circle of an electric train's headlight about 1 o'clock this morning. They were on the bridge over Newton creek that marks the dividing line between Camden and Gloucester. John Burden, the motorman, blew a shrill whistle, warning them. The couple were less than 100 feet away and the train had such momentum it was impossible to bring it to a stop short of where they stood. Burden saw their faces. They were looking squarely into the headlight. A step would have placed them out of danger. The step was not taken.

The woman's arms, which were around her companion's shoulders, tightened convulsively. He kissed her hair and her head sank low upon his breast as though she would shut out the fierce death that was near. Burden screamed, his voice vieing with the whistle. The power was shut off with a snap and the air brakes applied. A sickening wait and then an impact that told Burden that the car had struck them.

The love pact, if love pact it was, had ended. Upon the bridge lay the motionless body of the woman. A brief examination showed that she was dead, the fatal injury, and the only one, being a fracture of the skull. At one side of the bridge a hole in the ice showed where the man had been flung and where his body had been hidden.

GROUND TO FRAGMENTS

Frightful Death of C.P.R. Brakeman at Phoenix

Ore Train Ran Away and He Was Crushed Under Wheels—Remains Gathered in a Blanket

(Special to The Daily News)

Phoenix, Feb. 4.—The worst wreck and fatality that ever happened on the Phoenix branch of the C. P. R., occurred late Saturday night, when one man was killed outright and a loaded runaway train of ore was demolished in the twinkling of an eye, the brakeman killed being literally ground to little pieces.

The train consisted of nineteen cars, one of which was the coach used on the Phoenix passenger run, the crew being the passenger crew, which does general work on the hill when not on the passenger run. "Shandy" McGuire was the engineer, James Fraser the conductor, with two brakemen and a fireman. When the train left the water tank in the Phoenix yards a little after 10 o'clock, and started down the hill, the air was tested and found to work all right. When trains get just outside the Phoenix yards proper, the descent is rapid, and shortly after reaching this point the engineer discovered his air did not work well. Then, as a final resort, an attempt was made to set the brakes more firmly by hand, but it could not be done fast enough, and the train was steadily gaining in speed and was out of control. When it passed the Snowshoe mine it must have been travelling at a 50-mile gait, and at the Rawhide the momentum is thought to have easily exceeded 75 miles per hour on a three per cent grade. Half a mile below the Rawhide mine the wreck occurred. Engineer McGuire stuck to his post till it was sure death to stay one minute longer, and with the fireman and one brakeman jumped to safety, having a narrow escape from death as it was. Fraser was in the coach, which stayed on the track.

The other brakeman, Howard Rushton, was trying to get down from an ore car to jump, when he evidently slipped and fell and was rolled over and over and ground to little pieces by the flying ore train, the snow for 50 yards being spattered with his blood. Both feet were cut off, his head was split in two, the body badly mangled and severed, and the track was littered with particles of clothing, bones, etc., a blanket being required to get the remains together after the fatality.

The locomotive, No. 1384, one of the heavy simple engines, with two air pumps, left the rails before getting through the rock cut, then skidded along and when out of the cut went down the bank 25 feet, where it now lies with drivers in the air. Fourteen of the loaded ore cars piled up in an almost inextricable mass in the cut, being one heap of copper ore, iron and wood, many of the ore dumps being of steel.

Superintendent J. S. Lawrence, with the entire wrecking crew, was on the scene early yesterday from Nelson, starting at clearing it away, aided by roadmaster Yeo, of Eholt and the section men of this district. It was found needful to use dynamite to handle it at all and make progress so that traffic could be resumed, the location of the wreck being such that a track could not be built around the wreckage to advantage. Ore traffic is, of course, at a standstill, but a day or two will see the wreck cleared away to permit passage of trains.

Rushton was on his first day as a brakeman on the Phoenix hill, having come here from the Kamloops or Revelstoke sections of the road. He was a man of about 33 years.

McGuire has the reputation of being a good engineed. The wreck, outside of the loss of life, will probably cost the C. P. R. $15,000 or $20,000.

STRIKE AT FRANK.

(Special to The Daily News)

Frank, Feb. 4.—Last Wednesday the merchants of Frank called a meeting to discuss the feasibility of adopting the cash system of doing business. Some $2500 has been lost in the last month by persons skipping out without paying their store bills. A committee was appointed to confer with the merchants of Coleman and Blairmore to induce them to join the association. Another meeting will be held on the 6th inst.

A strike of the railway men operating the Grassy Mountain railway running from Frank to Lille, occurred Saturday, the men demanding the same schedule as the C. P. R. are paying. The matter has not been settled and communication between Frank and Lille is now only by horse conveyances.

NEW DOMINION LINER

Montreal, Feb. 4—The Dominion line has given a contract for a 14,000 ton steamship for the St. Lawrence route. The vessel will be built by Harland and Wolf, Belfast. She will be 550 feet long, 64 feet beam, and will have a sea speed of 16 knots. Her name is to be the Alberta. This will make her as fast as any steamship operating in the St. Lawrence as far as Montreal.

EARL GREY'S LOSS.

The news received from Ottawa of the untimely death of lady Victoria Grenfell, eldest daughter of earl and countess Grey, will be received on every hand throughout the broad dominion with sincere expressions of regret. The first word of lady Grenfell's illness came early last week when, on the opening night of the musical festival held at the capital under the auspices and at the instance of earl Grey, the governor-general and his wife were compelled by the serious condition of their daughter's health to remain away from the performance. Later in the week an improvement in lady Grenfell's condition was reported; and the air of depression that had for several days hung over the social circles of the capital was at once lifted. But unfortunately, the rejoicing proved to be premature; for, suffering a relapse, lady Grenfell passed away suddenly on Sunday. Canadians generally will feel deep sympathy with their excellencies in the irreparable loss they have suffered, and will commend the action of the leaders of parliament in adjourning house yesterday as a mark of respect for the dead and for the sorrow of her unnappy parents. Earl and lady Grey have mingled with the people of the dominion as few of their predecessors ever did; they have travelled from ocean to ocean, have taken a keen interest in everything they have seen and every place they have visited, and have become known to and liked by thousands of private citizens who seldom aspire to the honor of meeting and talking with occupants of the vice regal office. It is natural, then, that their loss should evoke more widespread expressions of sincere and personal sympathy than might otherwise be the case.

FOR SALE **T. G. PROCTER** NOW SALE

NELSON CITY PROPERTY AND FRUIT LANDS. Improved and unimproved, consisting of Business Blocks, Building Lots, and some of the best ranches on Kootenay river. Nothing offered the public can touch.

DR. HALL'S MAJORITY.

The official count of the vote cast in Nelson on Saturday was made yesterday by returning officer Hunter, and, when the tally was completed, it was found that Dr. Hall, the liberal candidate, had been returned by a majority of two votes over J. A. Kirkpatrick, the conservative nominee. Several disputed ballots were passed upon by the returning officer. One, unstamped on the back, but marked for J. A. Kirkpatrick, was passed and counted. There is little doubt that, under a judicial scrutiny, this would have been thrown aside. Two, intended for Dr. Hall, were rejected. On one the liberal candidate's name had not been printed, and though a cross, properly made, was in the space opposite where the name should have been had the pressman not made a mistake, it was not accepted. In deciding thus, the returning officer was undoubtedly right, for the ballot certainly was not a legal one. Still, it is unfortunate that a candidate should have to suffer as a result of the carelessness of the deputy returning officer who allowed such an imperfect ballot paper to be given out. Another ballot, intended for Dr. Hall, was marked in the proper place, but with a straight stroke instead of a cross. In every other respect the ballot was perfect. The intention of this voter could not possibly be doubted; he wanted to vote for Dr. Hall and he did vote for Dr. Hall; but he used a single stroke instead of a cross. Such a ballot would in all probability be accepted by a judge were a recount demanded. However, the few votes thus affected could not alter the result; Dr. Hall is elected, though by a very narrow majority, and has received official notice from the returning officer of his return at the head of the poll. As member for Nelson, he will command general respect. He is a clean man and has the confidence of both parties. As his campaign was carried on without bitterness, his victory will not be marred by the sting of enmities engendered in the heat of conflict. He has succeeded in retaining the friendship of his opponents, to whom he has been uniformly courteous and from whom he has received nothing but the most gentlemanly treatment. On every score Nelson is to be congratulated upon the character of the electoral battle that has been waged during the last two weeks and also upon the excellent choice it has made in picking Dr. Hall to represent it at Victoria for the next four years. The conservative candidate, Mr. Kirkpatrick, has suffered the easiest form of defeat—defeat by a very narrow margin. He has every reason to be proud of the run he has made and to feel elated at the splendid support he received from his own party.

EDITORIAL NOTES.

The defeat of Hon. Wm. Manson of Alberni, provincial secretary in the McBride ministry, did not come exactly as a surprise. Liberals had been hoping that Alberni might be redeemed and the event proved that their hopes were well founded. But, however welcome the redemption of Alberni may be from a party point of view, his many liberal friends will regret to see Mr. Manson removed from the house. It is understood that, although either Victoria or Dewdney must be opened for a by-election, Mr. Manson will not have an opportunity of re-entering parliament through either constituency.

Since the McBride government had to be returned, it is well that it has succeeded in electing a party contingent strong enough to give it effective control of the house. Better, far better, a strong conservative ministry than a hybrid government dominated by socialistic leeches, who see their own opportunity in the premier's extremity.

The provincial treasury has been enriched by a number of lost deposits—the socialists being the chief contributors. Two conservatives, those in Nanaimo and Newcastle, have lost their deposits, and it seems altogether likely that when the complete returns are in a third, Lord, of Skeena, will be found to have followed their example. Three liberals, those in Grand Forks, Slocan and Fernie are in the same box, although the first only fell short one ballot. John Houston in Ymir and a long string of socialists and labor candidates complete the list.

Victoria's defection to conservatism was not altogether unexpected. Victoria wants the C. P. R.—wants it as it wants nothing else—and the C. P. R. it hopes to find behind the McBride government. In this it is not likely to be disappointed. What Victoria would not elect to please the C. P. R. and coax it to make its Pacific terminus on the island, would be difficult to imagine.

For Vancouver, there is no excuse. The personnel of the liberal ticket was unrivalled; the opposition candidates there probably formed a quintette of the strongest men who could well have been picked out anywhere in the province. On the other hand, the government slate was headed by W. J. Bowser, a clever talker and an excellent politician, but a shallow legislator. His four colleagues were personally very weak. Yet the whole conservative five were not only elected, but were elected by majorities ranging close around the thousand mark. And this in the face of the fact that Vancouver is a liberal city! Liberalism in Vancouver has suffered so complete an eclipse that it is evident there were some strong undercurrents at work. What they were it is difficult at this distance, and without more complete and detailed information than that as yet received, to estimate.

In reviewing their position after the election, the liberals of B. C. must be forced to one conclusion—namely, that while the numerical strength of their elected representatives has been reduced, their leader, J. A. Macdonald, has come out of the contest with honor and with an enhanced reputation as a vigorous campaigner. He has done in the interior what his lieutenants on the coast failed to do—for he has more than held his own. The whole province has learned to respect Mr. Macdonald's sterling worth and real ability; and while, in the disappointment of the hour and under the shadow of defeat, the party prospects seem far from bright, he really faces a greater opportunity now than he did when the recent campaign opened—great as that opportunity then appeared to be. He enters upon the work of the new parliament well known in every riding in the province; and he has but to conduct himself as ably as he has done in the past to weld the party firmly together, strengthen the hands of the weaker local leaders, and prepare the electorate for the next test of strength. Though his party is beaten, Mr. Macdonald himself is neither beaten nor weakened. He has greater personal strength throughout the province today than he ever had before, and he is better understood. Mr. Macdonald's career as a public man, we venture to predict, is only beginning.

With three defeats in quick succession—those in England, Germany and British Columbia—revolutionary socialists should commence to pause and reflect. Big talk will sometimes temporarily stampede a crowd of uneducated men, but time and experience are bound sooner or later to cool their tempers and give them a saner view of life. Socialism from the hands of revolutionists, of demagogues, of wild ranters, the world will never accept; but it may in time yield to the milder though more persuasive tones of reason. If socialism is ever to prevail, it must win its way through the minds of earnest men—not through the flag-insulting heroics of scheming politicians. Socialists who are true to the principles of socialism rather than to false though ambitious leaders will find the present juncture an opportune one at which to stop to reconsider their methods of warfare.

JAPANESE IN HAWAII

Are Becoming a Large Factor in the Population

Washington, Feb. 4—Dominance of the Japanese in Hawaii, so far as numbers go, is shown in a report being prepared for the federal government. The orientalization of these nearby islands under the American flag show the danger to the Pacific slope unless Japanese immigration be restricted.

Native Hawaiians in 1872 numbered 49,994; in 1884 the native population amounted to 40,014 and the Japanese population to but the trifling total of 116. Twelve years later, in 1896, there were but 31,433 native Hawaiians in the islands in toto against 22,329 Japanese. The native born Hawaiians decreased approximately 1000, or to 29,787 in the next four years, while the Japanese population rose to the astonishing total of 61,115. In 1872 the total number of people of all races was 56,897, of which number 1839 were orientals; in 1900 the total number of all races was 154,001, of which number 87,053 were pure orientals, who had come into the islands in this brief period of 28 years. Thus the dominant race who people this land was reduced from statistical or numerical first place to a minor position and the total population, including whites acquired by immigration, was approximately 20,000 less than the oriental population, i.e., orientals, 87,530 against all other races, including native Hawaiians, 66,471.

One other point of interest is the fact, in the face of U.S. occupation and government of these islands, and in the light of their supposedly being Caucasion to all intents and purposes, is the fact that in the year 1900 but 7283 whites of all races were born, while there were born 4681 Japanese children, to say nothing of the 4021 sons and daughters of the "Flowery Kingdom" who entered this "vale of tears" under the American flag in this territory.

There are 457 American children in public schools in Hawaii against 3518 Japanese. To look at the private school side there are 502 American children taking private tuition, while there are 718 Japanese children. To teach all of these children there are but nine Japanese teachers against ten American teachers.

As to the diligence of the oriental in his institutional fidelity, or integrity to his old home customs, but one set of figures is needed. Out of the 67,388 people who go to church in the Hawaiian islands, 40,000 of them are Buddhists.

A Swell Little Home

FOR $800.00

Within one block from car line, four roomed cottage consisting of large parlor, dining room, bedroom and kitchen with lean-to. Nice chicken house and poultry run. Fine lawn and several fruit trees, raspberries, etc. Grounds well fenced and cottage wired for electric light. Also good woodshed on property.

McDERMID & McHARDY

BRET HARTE'S DAUGHTER

IS IN AN ALMSHOUSE AT PORTLAND, MAINE

HAS A MANIA FOR SPENDING MONEY LAVISHLY

Portland, Feb. 4—In very comfortable quarters in Portland's almshouse, Mrs. Jessamy Harte-Steele, daughter of Bret Harte, is accepting her sudden poverty stricken condition almost philosophically. The "Overseers of the Poor" have been very kind to her and all her wants are attended to by the motherly head nurse of the hospital.

Mrs. Steele was given the warmest and sunniest room in the building. When the Associated Press representative called, Mrs. Steele was engaged writing a play. In her four days' stay at the almshouse she has almost completed the four act drama. The authorities here think Mrs. Steele has a mania for spending money; on this one subject they do not consider her quite rational. She herself says: "This is but a temporary embarrassment. I intend to go on the stage soon and besides my play ought to bring me in something."

When asked about her debts, she said: "Oh, I owe a little money; but it is a mere pittance, some $500 or so." Her only assets are magnificent gowns.

"I am not poor," she continued, "but my father's estate is so tied up that my mother is able to send me but little. I have left my husband and so cannot expect anything from his. But I shall soon have plenty of money."

Mrs. Steele's extravagance seems to be limited only by the purse strings of friends and acquaintances. She seems to regard it as her due as the daughter of so distinguished a father. No word has yet been received from her husband but several New York friends, including Elanor Robson, have wired for information.

COLLINS SEES LOOPHOLE

RECORDS IN HIS CASE DESTROYED BY EARTHQUAKE.

SEIZES TECHNICALITIES TO SECURE HIS RELEASE.

San Francisco, Feb. 4.—George D. Collins, who has shouted long and vehemently for a speedy re-trial on the perjury charges that grew out of the exposure of his bigamy, was on hand with a new line of technicalities in superior judge Lawlor's court this morning, aiming to block the restoration of records in his case. With perhaps in his pocket the very copy of the points upon which a restoration of the minutes of his former trial would be sought, he raised the objection that such a copy had inadvertently not been filed with the clerk at the time the petition for their restoration was filed. This placed him in the position to say that he had not seen this document, although assistant district attorney William Hoff Cook in person handed another and unofficial copy to Collins several weeks ago.

One point, however, the bigamist was given time to submit authorities upon. It related to the petition for the restoration of the indictment. Collins demands that the district attorney restore all of the formal motions made by the defendant, which were all destroyed in the conflagration, except those copies which Collins now has himself.

The point raised by Collins was that a record must be restored as a whole and not in part. He maintained that the obliterated part of the record might represent rights of the defendant that the prosecution had overlooked.

Cook had offered two petitions, the first asking for the restoration of a certified copy of the indictment; the second of the minutes of Collins' former mistrial, in substances and effect. But no sonner was the first petition read than Collins arose with his objections.

The reply of Cook was that the two petitions are based upon separate sections of the burnt record act, which provides that records may be restored by producing certified copies or by establishing the substances of the record.

"What difference would it make," asked judge Lawlor, "if only the indictment were restored, as the issue may be joined and the trial proceed as in the first instance?"

Collins, however, returned that there were questions of extradition of great importance to him contained in the destroyed records. The bigamist then proceeded to state hypothetical instances to show how a defendant might be greatly injured if Cook's petitions were granted.

Your Doctor

Can cure your Cough or Cold, no question about that, but—why go to all the trouble and inconvenience of looking him up, and then of having his prescription filled, when you can step into any drug store in Canada and obtain a bottle of SHILOH'S CURE for a quarter.

Why pay two to five dollars *when a twenty-five cent* bottle of SHILOH will cure you as quickly?

Why not do as hundreds of thousands of Canadians have done for the past thirty-four years: let SHILOH be your doctor whenever a Cough or Cold appears.

SHILOH will cure you, and all druggists back up this statement with a positive guarantee.

The next time you have a Cough or Cold cure it with

SHILOH

DEATH VALLEY BLIZZARD

SUN PARCHED PLAIN NOW LIES UNDER SNOW DRIFTS.

WHOLE FAMILY IS LOST IN THE TERRIBLE STORM.

San Francisco, Feb. 4.—The picture that comes before the imagination at the mention of Death valley is a level, sun-blistered waste of sand, the heat quivering as it radiates from the plain, and the glare of the sun reflecting on the bleached bones of horses and men that have died of thirst. It has remained for the unusual severity of this winter to change the scene to the other extreme and disclose a blizzard-swept plain on which a family is somewhere lost and probably frozen to death ere this.

W. N. Parker of Goldfield, brings an account of the unprecendented rigor of the storm that has swept the gold country.

"Why," he says, "there are ten inches of snow at the bottom of Death valley—a thing that was never before heard of. I went down into Ely about two weeks ago and could not get out again for five days, even though I had my own team. You simply couldn't move. The whole country was snow bound. A family of four—I have forgotten their names—left Lida and started across Death valley for colonel Posey's copper camp. The storm came on and they were not heard of. The fears of their friends were aroused and a party started out to search for them. When I left Friday they had not yet been found."

The Glass Blowers, an instructive exhibition for ladies, gentlemen and children.

CHURCH RELENTING

Rome, Feb. 4—The vatican authorities are understood to consider the circular sent by M. Briand, French minister of education, to prefects throughout France instructing them that contracts for releasing the church offered by the parish priests are acceptable, with modifications, provided they do not vitiate the rights of the state, as being a step towards pacification.

The weather was milder yesterday, the temperature varying between 17 and 24 degrees above zero.

What People You Know Say About Gin Pills

THE GREAT KIDNEY CURE

Jan 23rd, 1904.

THE BOLE DRUG CO.,
Winnipeg, Man.

GENTLEMEN,—

I cannot refrain from writing you as to the great benefit I have derived from "Gin Pills." The true facts of my case are as follows:

"Last fall, while in the employ of the C.P.R., between Winnipeg and Brandon and also on the Souris branch, I was on the verge of giving up from a severe pain in the small of my back. I tried a menthol plaster without any relief. I afterwards bought a bottle of ——— Oil and used it nearly all with no better results. Then one of the Conductors said to me: 'Why don't you try Gin Pills?' I purchased a box from a store at Douglas, on the main line near Brandon, and before I had taken the half of them the pain began to subside. I continued until all the box had gone with the result that the pain entirely left my back, greatly to my relief. I am sending in this testimonial unsolicited, hoping others will benefit thereby. For any disorder of the kidneys there is nothing can hold a place with Gin Pills.

Yours faithfully,
J. C. TAYLOR.

Sold by druggists, 50c a box, or 6 boxes for $2.50. We send sample free if you mention this paper.

THE BOLE DRUG CO. · WINNIPEG, MAN.

C. P. R. CARRIED FERNIE

W. R. ROSS WINS OUT BY SUBSTANTIAL MAJORITY

SOCIALIST CANDIDATE MOORE MADE CLOSE RUN.

(Special to The Daily News)

Fernie, Feb. 4—With the clearing away of the smoke of the political battle of yesterday it is recognized that the C.P.R. influences have triumphed in this riding as they have in many another and that that powerful organization can again claim a supporter from Fernie. W. R. Ross the conservative candidate will once more occupy his old seat in the legislative chamber at Victoria and his party friends now confidently expect that he will be elevated to the cabinet, after having retained the riding in the conservative column by a majority of 67. Though the day was bitterly cold it had no decerent effect upon the electors, who turned out in force to poll their votes, quite a number coming from a distance to do so. The small vote registered for W. M. Dicken, the liberal candidate was a surprise to many, as was also the large vote obtained by socialist candidate W. H. Moore, who headed the polls in West Fernie, Coal Creek, Michel and Baynes. However, it is too early yet to state the influnces at work to defeat the liberal nominee or to explain the substantial vote of the socialist party. Liberals are naturally disappointed at the results here and throughout the province, but in no way disheartened, and will profit by the experiences they have just passed through and will look forward with hopefulness to the next opportunity of redeeming the riding. The following is the result by polling sub-divisions:

	Ross	Dicken	Moore
Fernie	180	28	151
West Fernie	13	3	18
Coal Creek	24	14	47
Michel	39	8	53
Baynes	2	0	3
Morrissey	6	0	1
Elko	24	2	4
Hosmer	23	1	4
Sparwood	5	2	0
Krag	16	5	2
Jaffray	19	1	1
Total	351	64	284

Lieutenant colonel H. G. Langton, auditor of the Crow's Nest Pass Coal company, who has been here for the last three weeks, making the annual audit of the books of the company, has completed his work and leaves by the C.P.R. express tonight for his home in Toronto.

A. Stork has sold his opera house to Messrs Dobson and Willingham of this town, who will conduct it as an opera house and assembly hall as usual.

Minard's Liniment Cures Distemper

CHAMBERLAIN'S COUGH REMEDY A FAVORITE

"We prefer Chamberlain's Cough Remedy to any other for our children," says Mrs. L. J. Woodbury of Twinning, Mich. "It has also done the work for use in hard colds and croup, and we taken pleasure in recommending it. For sale by all druggists and dealers.

THE SCARLET MYSTERIES

The "Scarlet Mysteries," from London, England, who have been booked for a Canadian tour, are to appear at Sherman's opera house for two nights only on Feb. 11 and 12. This clever combination of artists have earned for themselves a brilliant reputation in England, where for six years they have enjoyed an unbroken record of successes. When this company was first formed in England it was the method of these eight gentlemen to travel incognito and hide their identity by wearing cloaks and masks, and this custom which is still adhered to entails rather an interesting episode relating to the origin and organization of the party.

It appears that during the summer season in London when the city theatres are closed a well known theatrical bureau had contracted to fill some provincial engagements with an entertainment which at the last moment disappointed them. They were driven to their wits ends to find another attraction to fill the gap. The dilemna was mentioned to several good artists who happened to be in the entrepreneur's office at the time, when one of them, with a fertile imagination, and a love for adventure, suggested that this being the "off" season at the city theatres, it would be interesting to experiment by getting together a company of the very best (unemployed) talent and hide their identity beneath masks. Under the style of the "Scarlet Mysteries" such a company was formed and the entertainment they provided proved such a success, that from an experimental stage, they became an established organization, and are now for the first time widening their sphere of action by visiting the colonies.

HE HAS NO GRIEVANCE

JOHN HOUSTON'S COMMENT ON RESULT IN YMIR

WILL RETURN IN FOUR YEARS TO RE-CONTEST THE RIDING

Editor, The Daily News: I am the one defeated candidate without a grievance against the newspapers of Nelson. I was neither praised nor abused. I was left strictly alone. Had the other candidates, both successful and unsuccessful, been treated with like impartiality, the people of Kootenay would today have a higher opinion of the newspapers of Nelson.

Returning to Nelson after an absence of a year and a half, and announcing myself a candidate after both the liberal and the conservative parties had made nominations for Ymir riding, which includes the city of Trail, in which I had not a half dozen personal acquaintances, fair-minded people will admit I was heavily handicapped, but the returns from the polling places in the old Nelson riding, which I represented from 1900 to 1903, show that I had 129 votes against 108 for the successful candidate and 148 for the liberal candidate, who had the prestige of not only a party nomination but the fathership of the 8-hour law for mine workers.

The result in Ymir riding shows two things very clearly, however:

1. The great influence of corporations;
2. The willingness of smelter workers to forget men who championed them when their cause had few champions in the legislature and not a single outspoken champion in Trail.

The defeat causes me no personal regrets, for I found that the men who supported me in my many political and municipal contests in the last ten years are still my friends, and that four years hence I will be better equipped to make a successful fight on the issues I presented in this contest.

In printing this letter, The Daily News gives me the only means at my disposal of thanking my political friends for their many acts of kindness during the two weeks I was among them campaigning.

JOHN HOUSTON.

Nelson, February 4th, 1907.

JAPAN IS NOT ALARMED

NO FEAR OF WAR OVER SAN FRANCISCO SCHOOL PROBLEM.

BOARD OF EDUCATION TO CONFER WITH ROOSEVELT.

Tokio, Japan, Feb. 4.—The war talk of the American press has been received here with great surprise and with sincere regret. The correspondent of the Associated Press has talked with several leading men, both in and out of the government. They concur in the opinion that the United States is the last country with which Japan would go to war. Besides both nations are unaggressive in their trade rivalries which seldom lead to war unless territorial acquisition is intended by either rival. In some quarters the belief is expressed that the misrepresentation that Japan is suffering from, on account of the San Francisco school question is the outcome of immunity shown disaffected war correspondents in the late Russian war. It is believed these correspondents are ever watching for occasion to victimize Japan. Even those inclined to be caustic ridicule the idea of a war with the United States. The Japanese press has been silent so far, apparently considering the matter unworthy of comment.

San Francisco, Feb. 4.—Mayor Eugene Schmitz and the members of the board of education left yesterday for Washington to confer with president Roosevelt in regard to the segregation of Japanese pupils in public schools.

The Japan and Korean exclusion league yesterday adopted resolutions demanding that the United States and the state of California maintain the right to exclude Japanese from schools used by white children.

The resolutions, which declared that the yielding of the United States to Japan on the school question was tantamount to taking vassalage, was dwelt upon by several of the speakers. President Roosevelt was severely criticized.

CANADIAN FUR CATCH SMALL

Edmonton, Feb. 4—The fur catch this year will be one of the smallest in recent years owing to the exceedingly heavy fall of snow. The trappers complain that snow has fallen almost every night during the present winter, making their traps as useless as though they had been sprung. On visiting their traps in the morning the trappers have discovered the traps buried several inches deep in snow, making them worthless as articles to catch fur bearing animals. Reports from the northern wilds in the early part of the season showed fur bearing animals of all descriptions to be very plentiful and a good season would have resulted with a normal fall of snow, but conditions are such that fur of all kinds will advance in price during the next few months.

LACTATED FOOD

IS A PERFECT SUBSTITUTE FOR

MOTHER'S MILK.

IT SAVES

BABIES' LIVES

ASK YOUR DRUGGIST FOR IT.

A WORD TO WOMEN

LISTEN! Are you listless, fagged and without energy

Have you headache, back pains or pains in the chest? Have you that "all-gone" feeling? Do you have fits of acute pain or wind after food?

If so remember that health depends on three main organs—liver, stomach and intestines, and Bileans regulate all three.

Bileans are purely herbal and Nature's remedies are always best. Don't daily! Write for sample box to "Bileans, Toronto," (sending 1c. stamp for return postage), or buy a box from your druggist.

Mrs. R. Saville, of Oakwood, Ont. says:—"For headache, debility, indigestion, and biliousness I tried many medicines, but I never met with anything to equal Bileans. They cured me.

Of all druggists at 50c. per box.

Bileans FOR Biliousness

Minard's Liniment Cures Colds, Etc.

Expert piano tuner and regulator, E. O. Windsor. Leave orders with Canada Drug and Book Co., or phone 282. P. O. box 631

COLDEST ON RECORD

Madrid, Feb. 4—The coldest weather experienced in a generation is prevailing in Spain. Railroad communication everywhere is interrupted.

Your digestion will be all the better, your blood all the cleaner, for a frequent glass of York Sarsaparilla. A beverage and a medicine, pungent, rich, aromatic and pure. Made of purest herbs and pure York Springs Water.

York Springs Sarsaparilla

is better—yet costs no more.

The Mineral Springs Limited, Toronto

Synopsis of Canadian Homestead Regulations

ANY available Dominion Lands within the Railway belt in British Columbia, may be homesteaded by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres, more or less.

Entry must be made personally at the local land office for the district in which the land is situate.

The homesteader is required to perform the conditions connected therewith under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year for three years.

(2) If the father (or mother, if the father is deceased), of the homesteader resides upon a farm in the vicinity of the land entered for, the requirements as to residence may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements as to residence may be satisfied by residence upon the said land.

Six months' notice in writing should be given to the Commissioner of Dominion Lands at Ottawa of intention to apply for patent.

Coal lands may be purchased at $10 an acre for soft coal and $20 for anthracite. Not more than 320 acres can be acquired by one individual or company. Royalty at the rate of 10 cents per ton of 2000 pounds shall be collected on the gross out-

NOTICE

TO CONTRACTORS AND THE PUBLIC

At a meeting of the Nelson Union of Carpenters and Joiners, held Jan 16th, it was unanimously decided that after March 1st, 1907, they would accept no less than $4 per day of 8 hours, except for work on contracts which have been tendered for prior to Jan. 18th, 1907.

As the cost of living has considerably increased since the present standard of wages was established, the union believes the contractors and public will readily endorse this action.

THOMAS LAWSON, President.
J. W. BENNETT, Secretary.

A Meal in a Moment

Bovril will do it for you

A meal prepared with the help of a chafing dish has a great fascination for many.

But the woman who uses a chafing dish and hasn't tried what the addition of a few drops of **Bovril** will do, has yet to find out how delightfully piquant and appetising, a chafing dish preparation can be made.

Not only does "Bovril" add to the richness and taste, but also very materially to the nourishing qualities, and that's best of all.

G. M. STURDY, Winnipeg

called Old Point Comfort and which to this day bears the name. This accounts for the date of the opening of the Jamestown exposition.

At Old Point Comfort the colonists remained in peace for several days and proceeded up the river that empties into Hampton Roads; first called Powatan river, but afterwards James river after the then ruling monarch of England. On landing at what eventually became known as Jamestown the crews disembarked and commenced the life of pioneers. Their tribuations and hardships and their eventual success are too well known to require especial mention here, even if want of space did not forbid.

It was at Jamestown that the white man first met the red man for settlement and civilization and where the trust and treachery alternated till the white man triumpned and the red man vanished from the scene; here for the first time in America an English marriage was solemnized; here the first English child in America was born; here the first trial by jury in this country was held. Here, too, the first legislative body in America convened, and here was laid the foundation of the two nations who control the dominion of Canada and the United States of America.

It is to commemorate all this and the phenomenal progress in aducation, art, science, manufacture and commerce, during the past three hundred years that the Jamestown Exposition will be held. Here on the placid waters of Hampton Roads the greatest naval and military demonstration the world has ever seen will be held this year during the exposition. There will be here as it were on dress parade the finest and most powerful war ship from the navies of all the great world-powers, parading their grandeur and prowess in friendly competition, while on the thirty-acre parade ground within the exposition boundaries the land forces of all important nations will vie with each other in gaudy uniform and brilliant accoutrements in competitive drill.

The United States has never hitherto permitted armed companies of foreign soldiery to visit this country, consequently for the first time visitors to the Jamestown exposition will see an international encampment and the size of this one may be imagined when one realizes that almost every country in the world will send one of its crack regiments and the United States will be represented by a division, while the different states of the union will send its quota of militiamen.

While the above deals principally with historical facts and a sketch of the naval and military display, art, science, agriculture and commerce will be represented in all their branches.

JAMESTOWN EXPOSITION

COMMEMORATE BEGINNING OF ENGLISH CIVILIZATION

INTERNATIONAL EXPOSITION ON SHORES OF HAMPTON ROADS

New York, Feb. 4.—The Jamestown International Exposition will open its gates to the world on April 26th next and will close Decemoer 1st. The site of the exposition is situated on the shores and waters of Hampton Roads, about eight miles from the City of Norfolk, Vo. The historic interest that attaches to the site and its immediate vicinity is well known, but a brief sketch of the facts are not out of place in this preliminary article.

It was here at Jamestown that the first English settlement was effected and which has resulted in the English virtually ruling or at least controlling the western continent.

It was early in December, 1606, that Raleigh's expedition left England in three small frigates, for the new world. It was not until the 26th day of April of the succeeding year that they passed in between the two Virigina capes, naming the southern Henry, after the Prince of Wales, and the northern Charles, after his brother. In all probability it was the mountain-like sand dunes that then stood guard back of Cape Henry, as they do today, that attracted the attention of the voyagers and prompted them to land at Cape Henry, but they were at once attacked by savages and driven off to their vessels. The next morning they proceeded to Hampton Roads and anchored just inside that world renowned harbor at a place they

one probably fatally while at work early this morning on the ruins of the Mead building on Railroad avenue, which was destroyed by fire last night. The dead are John Chester Cromwell, 32 years old, assistant cashier of the First National bank, of which institution his father is president; Charles E. Cooley, 30 years old, real estate agent, and Caleb Underhill, 32 years old, livery man. The injured are Emil Burgess, 34 years old, a cabinet maker, who it is feared will not recover; Chas. Sutton, both legs broken; Charles Armbuster, both legs broken, and Stephen D. Lyons, burned about the body.

JAP STRIKES IT RICH

DISCOVERER OF TANANA LOCATES NEW GOLD CAMP.

HAD NARROW ESCAPE FROM LYNCHING BY ANGRY MINERS

(Special to The Daily News)

Winnipeg, Feb. 4.—Mail advices from Dawson City say: "Wada, the Japanese, who is responsible for starting the original rush into the Tanana district, has struck it rich at Chandelar, the latest Alaska camp to attract the attention of prospectors and mining men, it is said Wada is enjoying himself immensely in bringing forth golden wealth from one of the richest claims in the diggings. In this connection the tale of the stampede caused by the little brown man into the Tanana is vividly recalled. Four winters ago, when the thermometer was 55 degrees below zero, Wada came into Dawson with wonderful tales of the great riches to be found in Tanana. The local papers printed a number of interviews with him giving detailed information of the various paystreaks to be found up there. In spite of the intense cold these reports started a horde of miners over the ice and snow, 500 miles away to where Fairbanks now stands. When the miners got there they failed to find the wonderful deposits which Wada claimed existed. Angry and disheartened they held a council of war and decided to mete out to Wada summary justice for betraying them into such a fruitless adventure in the dead of winter. Death by hanging was to be his fate and many of the miners considered that this was to good for him. He pleaded pitifully for his life and produced evidence that he had assisted in a famous expedition headed by captain Jarvis, a number of years before, to save the lives of a crew of American seamen from certain death near Point Barrow. As the miners were mostly Americans they relented and Wada was allowed to go. Since that time all of the many things he told about the Tanana have been proved true. Developments have uncovered even greater riches than Wada first reported and since that time the resourceful Japanese has figured in many adventures and he is now regarded as one of the hardiest men in the north, his latest success not being grudged him.

NEGLECTED COLDS THREATEN LIFE

(From Chicago Tribune)

"'Don't trifle with a cold,' is good advice for prudent men and women. It may be vital in the case of a child. Proper food, good ventilation, and dry, warm, clothing are the proper safeguards against colds. If they are maintained through the changeable weather of autumn, winter and spring, the chances of a surprise from ordinary colds will be slight. But the ordinary light cold will become severe if neglected and a well established, ripe cold is to the germs of diptheria what honey is to the bee The greatest menace to child life at this season of the year is the neglected cold." Whether it is a child or adult, the cold slight or severe, the very best treatment that can be adopted is to give Chamberlain's Cough Remedy a trial. It is safe and sure. The great popularity and immense sale of this preparation has been attained by its remarkable cures of this ailment. A cold never results in pneumonia when it is given. For sale by all druggists and dealers.

HALL'S MAJORITY TWO

OFFICIAL COUNT BY GEORGE A. HUNTER

CLOSEST CONTEST EVER HELD IN NELSON

Dr. G. A. B. Hall the liberal candidate has been declared elected by the narrow majority of two votes, by George A. Hunter, the returning officer. The official figures now stand:

Hall	311
Kirkpatrick	309
Phillips	95

All yesterday afternoon from 2 until after 5 o'clock, was spent in the land registry office, where the five ballot boxes were removed to after the election was over on Saturday night, going over each individual ballot, including the ones disallowed by the deputy returning officers on Saturday. A. M. Johnson represented Dr. Hall, who was present in person. R. S. Lennie and Capt. D. C. McMorris appeared along with J. A. Kirkpatrick and E. F. Phillips looked after his own interests. Dr. Hall's majority of 5 was reduced by 3, Mr. Kirkpatrick gained and lost one, leaving his total unchanged, and Mr. Phillips lost one. No difference was made in the actual figuring as made out by the deputies, the changes referred to coming wholly as the result of Mr. Hunter's ruling on disputed ballots.

In division 1, A to C,, a ballot plainly for Dr. Hall was rejected under peculiar conditions. The printer through some mishap had not printed Dr. Hall's name in silver on the darkened portion of the ballot, otherwise the ballot was in correct form and duly initialed by the deputy returning officer. The voter had placed his cross in the first disc showing plainly his intention. As a matter of fact the names of the candidates appeared none too plainly on any of the ballots, but in this particular instance Dr. Hall's name was omitted altogether and the vote was thrown out. A ballot marked for Kirkpatrick, but which lacked the D.R.O.'s stamp on the back, was allowed. A court count would probably result in Dr. Hall's ballot being counted and the one for Kirkpatrick rejected, just reversing Mr. Hunter's ruling.

In division 2, D to G, a ballot marked for Phillips with a blue pencil, was rejected. Two other ballots, marked for Hall and Kirkpatrick respectively, but each of which had a dot on the disc in addition to the regulation cross, were disallowed. They would both be allowed probably on a recount by the court.

In division 3, H to L, a ballot for Kirkpatrick, marked faintly and disallowed by the D.R.O., was allowed.

In division 4, M to P, a ballot for Dr. Hall and another for Kirkpatrick with dots as well as crosses, were disallowed. One for Dr. Hall, with a single stroke was also disallowed. One marked with two crosses, one for Kirkpatrick and one for Phillips, was rejected.

In division 5, O to Z, a blank ballot, a ballot marked for two candidates, a ballot marked plainly for Dr. Hall, but which had a smudge on the Kirkpatrick disc, and a ballot marked for Dr. Hall, but which had a small stroke on one of the arms of the cross, were all disallowed. Mr. Johnson claims the last two would be easily counted for Dr. Hall on a recount by the court.

If a recount is had before judge Forin Dr. Hall's majority should be increased by five or six votes.

Bohemian Rock Glass, with your name engraved, free, at the Glass Blowers.

WANT OUR ORE

Swansea Firm Would Like to Make Quotations on Kootenay Product

The sending out by the 20,000 club of the weekly ore shipments taken from these columns have attracted a good deal of attention from widely separated points.

The latest occurrence has been the receipt by secretary Chabourn of a letter from the well known Swansea firm of Bertie Perkins and company, who write as follows:

Dear Sir—We have to thank you for sending us the weekly returns of the Kootenay and Boundary, B.C. ore shipments.

We have received from you from time to time shipments of antimony ore, but receive little or no copper ore. Naturally you smelt in your country but you also ship and the object of this letter is to inform you that we are buyers for cash, on settlement of weights and assays, of copper, silver, gold ores, etc.

You probably know us by reputation but in any case we mention that our bankers in Swansea are Messrs. Lloyds' Bank, Ltd. If any of your mining friends have copper ore, etc. for sale, let them send us on samples, naming quantities available and we will, after assaying same, make them or yourself our best offers. Yours faithfully,

BERTIE PERKINS & CO.

Swansea, Jan. 15, 1907.

See the Glass Blowers afternoons and evenings; an interesting exhibition.

VETERAN JOURNALIST DEAD

Bridgeport, Conn., Feb. 4—David Peck Rhodes, one of the founders of the New York Tribune, and an associate and friend of Horace Greeley, died at his home in Stratford yesterday, aged 86. After leaving the Tribune Rhodes formed the New York News company, which he conducted for a number of years, until he sold out to the American News company and retired. He was a man of large means and influence. Death was the result of a shock caused by a fall suffered by him a week ago as he left the rooms of the Stratford social club, and organization of retired business and professional men in Stratford.

SMUGGLING IN CHINESE

El Paso, Texas, Feb. 4—On returning yesterday from a trip of investigation at Mexican ports and along the borders between the United States and Mexico, Marcus Braun found various schemes for smuggling Chinese into the United States. The investigation was undertaken for the personal information of president Roosevelt. Mr. Braun declined to give details as to his discovery. He said that one remedy would be to have mounted line riders in sufficient numbers to patrol the border.

HOLLAND'S CONSTITUTION

The Hague, Feb. 4—The state commission appointed to revise the constitution of Holland, in its report just issued, recommends the exclusion from succession to the throne of children born after the abdication of a sovereign and authorization for the state's general parliament to provide for the succession or alter it in case of emergency. The commission also proposes to make the approval of the states general essential for the conclusion of treaties, recommends the proportionate representation and liability of women for election to the states general, that the qualification of candidates be the same in the case of both chambers, and that the first chamber be granted the right to amend as well as approve or reject bills, except in the case of the budget.

ANOTHER WONDER OF SCIENCE.

Biology has Proved that Dandruff is Caused by a Germ.

Science is doing wonders these days in medicine as well as in mechanics. Since Adam lived, the human race has been troubled with dandruff, for which no hair preparation has heretofore proved a successful cure until Newbro's Herpicide was put on the market. It is a scientific preparation that kills the germ that makes dandruff or scurf by digging into the scalp to get at the root of the hair, where it saps the vitality; causing itching scalp, falling hair, and finally baldness. Without dandruff hair must grow luxuriantly. It is the only destroyer of dandruff. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

Two sizes—50 cents and $1.00.

CANADA DRUG & BOOK CO., Special Agents, K.W.C. Block

BANK CLOSED

Washington, Feb. 4—National bank examiner Sieby has advised the comptroller of the currency that he has closed the First National bank of Sicoti, S.D.

ADVISES RESTRAINT

Paris, Feb. 4—The republican press reproaches the militant Catholics with exhibiting a spirit of intolerance towards archbishop Villate yesterday on the occasion of the inauguration of the second of the new French Apostolic delegations, the church of the Holy Apostles, and pleaders it to be bad policy, adding: "Now, when a state religion no longer exists in France, it is advisable that all patient people respect the opinions of others if they expect their own to be respected."

Don't fail to see the Glass Blowers.

HAZELTON P. O. BURNED.

Hazelton, Feb. 4.—At an early hour this morning while the temperature was 53 below zero, the lowest point known locally in 20 years, fire broke out in the postoffice. The building and contents are a total loss, including the contents of the safe, the postal records, etc. The store of R. S. Sargent was also destroyed. Loss $10,000, with insurance $8000.

SNOW AVALANCHE

Tarbes, Feb. 4—Relief parties have been sent to the village of Bareges, near Lourdes, where the Casino and 20 houses were destroyed Feb 2, by an avalanche of snow. Details just received show that a number of persons were buried.

Bareges is a celebrated watering place of France. It has a number of sulphurous springs the waters of which are charged with a peculiar nitrogenous and oily substance known as Baragene.

INLNAD REVENUE

The receipts last month at the local inland revenue office were as follows: Spirits, $1936.78; malt, $90; raw leaf tobacco, $112.90; cigars, $219.60; total, $2,359.28.

NELSON'S NEWS OF THE DAY

Dr. Jaeger's traveller will exhibit samples of woollen goods in J. H. Wallace's store tomorrow.

The cold spell still hangs on. Yesterday the glass ranged from 4 to 15 above zero and last night the indications were for still colder weather.

R. Helme, Dominion Express superintendent for the Pacific division, stationed at Vancouver, and Mrs. Helme, are at present visiting in the city.

The city band will give a benefit concert in the opera house on Saturday evening next, assisted by W. J. White, entertainer, of Toronto.

Superintendent G. C. Hodge has returned from the Boundary where the B. C. Telephone line has been overhauled and a new switchboard installed at Greenwood.

The county court sittings will open in the court house at 10:30 this morning, but the session will be a very brief one. There are only two cases on the list, Scanlan vs. Reisterer, $92.92, and Calder vs. McCandlish, $90.

Agent general Turner has written James Johnstone suggesting an exhibit of Kootenay fruit for London flower shows next fall. Mr. Johnstone thinks a good showing can be made and will take up the matter at once.

The Venetian glass blowers are giving very interesting exhibitions in the opera house building every day this week from 2 to 5 and again in the evening from 7 to 10. Each visitor will receive a glass present free.

It is proposed to establish a permanent fruit exhibition in Vancouver. Inspector Cunningham has taken the matter up and James Johnstone, president of the B.C. Fruit Growers' association has been asked, and has consented to co-operate.

Four applications for naturalization will come up before judge Forin this morning. Joseph Tallerico, Frank Romano, Antonio Mirabelli and John Eric Nord. The first three are Italians, and register from Creston, while the fourth is a Swede, of this city.

The season is now here and you should be prepared for it.

The J. H. Ashdown Hardware Co., Ltd.
NELSON BRANCH

D. A. McFarland, formerly business manager of this newspaper, who came here from Blairmore for the elections, will be in the city today, being unable to return home owing to the block on the Crow line.

Yesterday was settling up day locally and a good deal of money changed hands. Most of it was wagered on the contest in Nelson but quite a few dollars changed owners on general results and on the contests in Ymir and Kaslo.

George Aylard, manager of the Standard mine, and agent in B.C. for Finch and Campbell, has fully inspected the Queen Victoria mine and presumably will report on the same to Spokane. Shipments will commence from the property as soon as the railway spur is completed.

The branch of the Bank of Toronto at Rossland has been closed down and the local staff will be sent to other points. J. H. Watson has been the manager for some time. The branch was opened in December, 1898. This leaves Rossland with the bank of Montreal, the bank of B.N.A. and the Royal.

At its meeting on Thursday evening the board of trade will be asked to take up the question of getting better rates for settlers coming here, than now exist. At present settlers get special rates from Portal west as far as Macleod, but if they want to come on to B.C. they have to pay the regular fare and excess baggage rates on their effects.
