NEW DIVIDEND

Granby Company Distribute $405,000

ABOUT $3,000,000 ISSUED

DESPITE TROUBLES OF LAST FEW MONTHS GRANBY COMPANY HAS BEEN ENABLED TO ISSUE ITS EIGHTH DIVIDEND TO ITS SHAREHOLDERS.

(Special to The Daily News)

Phoenix, Sept. 6.—Information was received here today that the directors of the Granby Consolidated, at a meeting held on Tuesday of this week at the New York offices of the company declared the regular quarterly dividend, amounting to three per cent on the outstanding capital shares of the company. The declaration, like those previously made this year, is announced as two per cent regular and one per cent extra. As there are 135,000 issued shares of the Granby Co., of the par value of $100 each, this makes this dividend, like the last six declarations of the company, amount to $405,000. This will be dividend No. 8, and is payable from the offices of the company in New York on September 30th. With the payment of this dividend, the Granby Co. will have distributed among shareholders a total of not quite $3,000,000, all but $103,630 having been declared and paid in about eighteen months. Following are the dates and amounts of the Granby dividends:

No 1.—December, 1903	$ 133,630
No. 2.—January, 1906	405,000
No. 3.—May, 1906	405,000
No. 4.—September, 1906	405,000
No. 5.—December, 1906	405,000
No. 6.—March, 1907	405,000
No. 7.—June, 1907	405,000
No. 8.—September, 1907	405,000
Total	$2,968,630

The annual meeting of the Granby Co. has been called for October 1st at the New York office, when the reports for the company's fiscal year, ending June 30th last will be made public. Notwithstanding the great drawbacks of fuel shortage last winter and spring, curtailing operations at mines and smelter to a considerable degree, the report is expected to make a favorable showing when everything is considered.

NO FEAR OF FUEL FAMINE.

Northern Pacific Has Plenty of Cars and Large Stock of Coal Available.

St. Paul, Sept. 6.—J. F. Hannaford, vice-president and traffic manager of the Northern Pacific and Charles W. Bunn, general counsel for that road, assured interstate commissioner Lane today that there is little probability of a car shortage and coal famine in the northwest this winter. The railway officials told Mr. Lane that about 38,000 cars would be needed to move the wheat and the company has about 43,000 of its own cars on its lines, and 1,000 foreign cars.

New elevators with a capacity of 1,160,000 bushels have been built along the line, said the railway officials, and elevators with 320,000 bushels' capacity are now being built. They said that the company had taken all possible precautions to prevent a coal famine. There are now two million tons of coal at the head of the lakes and three months more of open water.

C. N. P. COAL AND COKE EXPORTS.

Customs Returns for Past Six Months and for Last Fiscal Year.

Rossland, Sept. 6.—A special to the Miner from Ottawa says: Departmental returns show that the following were the coal exports for the Crow's Nest Pass, which were passed by the customs house at Nelson for the first six months of the current year:

January, 33,290 tons value $76,405.
February, 31,955 tons, value $63,919.
March, 51,905 tons, value, $105,875.
April, 13,984 tons, value, $27,898.
May, 9,276 tons, value, $19,692.
June, 28,236 tons, value, $56,059.

Coke from Crow's Nest passed by the Nelson customs house for export for the first six months of the year was:

January, 3,131 tons, value, $13,333.
February, 3,716 tons, value, $18.528.
March, 7,132 tons, value, $32,519.
April, 2,581 tons, value, $13,407.
May, 950 tons, value, $4,121.
June, 3,083 tons, value, $13,869.

July and August returns are not completed. Totals for fiscal year ended June 30, 1907, are as follows:

Coal, 282,598 tons, value, $590,117; coke, 22,907 tons, value, $106,398.

MORE TROUBLE FOR S. O.

Jamestown, N. Y., Grand Jury Returns New Indictment.

Jamestown, N. Y., Sept. 6.—An investigation which was begun before the federal grand jury here early in July was concluded today and the jury discharged. The jury found four indictments, one each against the Standard Oil company, the New York Central Railroad company, and one against the two railroads jointly. The first three indictments contained 128 counts each and that against the railroads jointly contained 54 counts, all of them charging the accepting or granting of rebates on oil shipments from Olean to points in Vermont.

FORTUITOUS CONCOURSE.

Presence of Many Railway Presidents Has no Significance.

New York, Sept. 6.—Informal gatherings this week of the presidents of several western railroads, who have been in this city attending board meetings gave rise to a well-defined report late today that certain of them had met in quiet conference at the Waldorf-Astoria to discuss the new law under which the railroads have been forced to charge to operating expenses certain items that heretofore had been charged to construction.

It was further reported that one or more of the presidents had a telephone conversation with president Roosevelt's secretary at Oyster Bay. Presidents of several trunk lines denied tonight that any such conference had been held. Presidents Ripley of the Santa Fe, Earling of the Chicago, Milwaukee & St. Paul, Hughitt, Chicago & Northwestern, Harris, Chicago, Burlington & Quincy, and Stevens, Chespeake & Ohio, left for their homes yesterday.

Oyster Bay, N. Y., Sept. 6.—The report that the railroad presidents had been in communication with Oyster Bay was denied by secretary Loeb tonight.

BLOW UP BANK VAULT AND SAFE

Bold Work of Burglars Who Escape on Hand Car with $8000 in Cash

Frankfort, S.D. Sept. 6 — The James River bank at this place was dynamited this morning between 4 and 5 o'clock and the robbers escaped with $8000 in cash and with valuable papers. Seven charges of dynamite were used in blowing up the vault and safe. Persons who were aroused by the explosion were prevented from interfering by the guards who were stationed at the front and rear doors of th bank. Frank Fitzpatrick a hotel guests, who sought to break through the line of guards was shot; his wound is not considered fatal. Many shots were fired to hold the onlookers at bay. After looting the bank the robbers broke into a section house on the Chicago and Northwestern railway and secured a handcar on which they made their escape.

A posse has been organized and is seeking the robbers.

TO FIGHT BUBONIC PLAGUE.

Washington, Sept. 6.—By direction of surgeon-general Worman, of the public health and marine hospital service, Dr. Rupert Blue, director of the Jamestown exposition, is now on his way to San Francisco to take charge of the campaign in that city against the bubonic plague.

MOORS MUST BE PUNISHED

FEELING IN SPAIN THAT EUROPEAN PRESTIGE IS SUFFERING

MOROCCAN WAR MINISTER PROPOSES SUMMARY TRIBUNALS

Tangier, Sept. 6—Responding to a request of the diplomatic corps that he take steps to arrest the needless exodus of people from Tangier, caused by the prevalence of local disorders and the circulation of false and alarming reports ,the Moroccan minister of war, El Gabbas, today proposed the institution of a summary tribunal before which malefactors and persons guilty of circulating damaging and exciting rumors could be brought. A note setting forth the purposes of the proposed tribunal was sent to the legations and all representatives of foreign powers, with the exception of the Spanish minister signed it. Fearing that the terms of the note might conflict with the wording of the Algeciras convention, the minister of Spain, requested to be allowed to submit the document to the authorities at Madrid before giving his adhesion to it.

A despatch to the Temps from Madrid, says that premier Maura has expressed a desire to co-operate with the French in the organization of the international police, under the new conditions.

The premier is quoted as adding: "Spain an other powers signatory to the Algeciras convention understand that events have sensibly modified the situation as considered at Algeciras in 1906."

The correspondent says that the opinion is gaining ground in Spain that the Moors should be punished as otherwise European prestige will suffer. There are several Spanish warships at Cadiz ready to sail for Morocco and enforce the new policy of the powers.

ELECTIONS IN RUSSIA

Constitutional Democrats Issue a Manifest Claiming Support

St. Petersburg, Sept. 6—It was announced today that the preliminary election in Moscow and Tver provinces will take place on Sept. 15 and in the other provinces soon afterwards. The constitutional democrats have issued at manifesto setting forth that partys' claims for popular support, repeating the old arguments and declaring that through flagrant violation of the fundamental laws the government on July 16 gave the electoral power into the hands of a handful of wealthy landlords. The manifesto further expresses confidence that the government's plans will miscarry, but in view of temporary governmental success, the constitutional democrats appeal to the rich merchants and landlords to resist the government's efforts to ensnare them.

EASTERN STAR ORDER

Milwaukee, Sept. 6—At the closing session of the general grand chapter order of the Eastern Star, Mrs. Retta Mills was elected right worthy conductress. The next triennial convention meets in Jackson, Fla

STANDS FIRM

Premier Visits Scene of Quebec Disaster

BRIDGE MUST BE REBUILT

FAULT APPARENTLY LAYS WITH BRIDGE COMPANY WHICH WILL BE HELD RESPONSIBLE—GOVERNMENT MAY ITSELF TAKE OVER CONSTRUCTION.

Montreal, Sept. 6.—Sir Wilfrid Laurier, accompanied by Hon. L. O. Davis and others, paid a visit to the scene of the Quebec bridge disaster on Tuesday last. The premier was deeply moved by what he saw and expressed himself in feeling terms both to officials and to relatives of the men who had lost their lives in the catastrophe. Though no formal offlical announcement has yet been made in this connection, it is stated on high authority that the dominion government will take a very firm and definite stand in its attitude towards the Phoenixville Bridge company. Present indications tend to show that as the result of the official investigation proves that the piers had nothing to do with the disaster, the government will hold the company fully liable and will insist upon the re-building and completion of the bridge as though no accident had occurred. The government will also insist upon the enforcement of all penalty clauses, if the company is shown to be responsible under the law.

Sir Wilfrid is determined that the bridge shall be rebuilt and the government will, it is stated, press the company to the fullest extent of its obligations on the contract. Should there be a failure on the part of the company to complete its contract the government will take the matter in hand and see to the completion of the bridge itself.

It is probable that a federal grant will be made in aid of the survivors and those bereft of their support by the death of the workmen.

OCEAN RACE.

Liverpool, Sept. 6.—When the new Cunard steamship leaves Liverpool tomorrow, bound for New York, her departure will mark the greatest event in maritime history. Great enthusiasm is manifested here in the trip of the largest steamer propelled by the greatest marine turbines yet constructed, and elaborate exercises will mark the beginning of her maiden voyage. Special interest attaches to the event because the Lucania will leave port for New York at the same time, and the passage of the Atlantic will develop into a speed contest such as has never before been known. Both vessels are booked full up and the offices of the steamship company are being besieged by homeward-bound Americans, anxious to cross on the Lusitania.

TAFT'S CAMPAIGN.

Thinks United States Afflicted With Plethora of Millionaires.

Portland, Ore., Sept. 6.—Secretary Taft and party, en route to the Philippines, spent today here as the guest of Theodore B. Wilcox, president of the Oregon Development League. Mr. Taft took breakfast at the home of Mr. Wilcox, then went to Vancouver barracks. At a luncheon at the Portland hotel, Mr. Taft said that he was firmly convinced that the country is tired of the plethora of millionaires and their influences and that it had been demonstrated that the business of the nation should be run on the principle of special privileges to none, be he rich or poor. That, he said, had been the principle of the present administration and it would be the republican administration to come. Secretary Taft speaking tonight under the auspices of the Oregon Development League addressed over 5,000 people at the armory.

C. P. R. LOSES OLD OFFICIAL

St. Paul, Sept. 6—J. G. Thompson, for 16 years in the employ of the C.P.R., the major portion of the time being spent in Chicago, and recently acting in the capacity of agent for the Soo line, with headquarters in Winnipeg, has been appointed traveling passenger agent for the Chicago, Milwaukee and St. Paul, with headquarters in this city, succeeding L. W. McConnell.

BANK CURRENCY.

Emergency Schemes Submitted by U. S. Mint Directors.

Pittsburg, Sept. 6.—Before the Pennsylvania Bankers' Association here today, Charles H. Treat, of the U. S. mint, submitted a plan for a emergency bank currency. He described it as "an amendment to the national bank act, permitting any national bank that has not less than 50 per cent of its capital invested in U. S. bonds; that the issue shall be made on five, six and nine months dating from August 1st or September 1st or any other date, according to the needs of the crop movement period; state or municipal bonds ,according to the standard of the states of New York and Massachusetts for savings bank investments. These securities to be accepted at 70 per cent of their market value, and the United Staees government to guarantee the payment and redemption of all notes so issued at a charge of one percent.

"The acceptance of other than U. S. bonds makes them more easily attainable for banking purposes, they can be easily secured from private individuals at a very moderate charge, probably not exceeding one per cent. The matter of working out the details is of little moment if the principle is recognized."

MORE GORE FOR ROOSEVELT.

Organizing Wild Boar Hunt in Southern Texas for His Benefit.

Houston, Texas, Sept. 6.—Reports have reached here from San Antonio that a wild boar hunt with javelins for weapons instead of rifles is being planned for president Roosevelt. An experimeutal hunt with javelins will shortly be made in the district south of San Antonio. Several of president Roosevelt's acquaintances are authority for the statement that if the sport proves good, the president promised to join in a hunt during his coming southern and western tour.

NORTHWEST HARVEST

Montreal, Sept. 6—F. W. Thomson, vice-president and general manager of the Ogilvie Milling company, speaking of the conditions in the Northwest stated that the weather during the past ten days had been generally favorable and good progress had been made, especially with the late maturing grain. According to reports received up to last night in some districts where crops and soil are light, from 60 to 70 per cent of the crop has been cut, but taking the country as a whole, estimates indicate that about 30 per cent has been harvested to date.

COWARDLY DYNAMITER.

St. Louis, Sept. 5.—A special to the Republic from Little Rock, Ark., has the following: Dynamite placed at the front gate of the home of attorney general F. W. Kirby, presumably by a man seeking the official's life, was found by Mr. Kirby's five year old son this morning and exploded while the boy was playing with it, mangling both the child's hands and driving part of the tube into his body, causing wounds probably fatal.

TO WED LORD CROMER'S SON

Second Daughter of Lord Minto Engaged to be Married

London, Sept. 6—Lady Ruby Elliot, whose engagement is announced to viscount Errington, lord Cromer's son, is the second daughter of lord Minto. During lord Minto's term as governor general of Canada, his three daughters, fond of skating before they went to Canada, speedily became very expert on the ice. Lady Eileen is the eldest daughter and Lady Violet the youngest. All three are charming. Like lady Minto and her sisters, lady Antrim and lady Victoria Dawney, lady Ruby Elliot has a very pretty complexion and her beauty is of the petite description.

Lady Ruby came from India at Easter with lady Minto and her eldest sister but she remained on in England when her mother returned to join lord Minto in Simla.

Lord Errington, the eldest of lord Cromer's three sons, is nine years the senior of his fiance, being just 30. He is following in his father's footsteps by adopting a diplomatic career. No date is announced for the wedding but lady Ruby may have to be married in her father's absence, as it is unlikely that lord Minto will be able to leave India even for a flying visit to England for some time.

ALLEGED LUMBER COMBINE

Opening of Preliminary Hearing in Case Against Alberta Retail Lumbermen

Edmonton, Sept. 6—The preliminary hearing in the case instituted against the Alberta Retail Lumbermen's association for alleged combine in restraint of trade, by the government of Alberta, opened yesterday in the mounted police barracks before inspector Worsley. S. B. Wood, deputy attorney geneeral, appeared for the prosecution and R. B. Bennett of Calgary for the lumbermen. The charges are for the indictable offense of conspiring to unduly limit trade and for combining with the British Columbia lumber manufacturers to restrain trade. All the members of the association mentioned in the summons, were present with the exception of F. D. Becker, who now resides in British Columbia. Witnesses subpoenaed are Messrs. Grogan, Wells, Alexander, Anstie, McNicol, Ambrose, Skead, Taylor and Fitzless. By agreement of counsel, the charge against one of the defendants was taken up as one against the association.

A. M. Grogan, secretary of the association, was then called to the stand. He gave particulars of the organization, his duties as secretary of the association, and of the meeting held in January, 1906. Examination was continued by Mr. Wood until adjournment. A feature of the first session was a lively tilt between Mr. Bennet and the magistrate, the former insinuating that Mr. Clark was being prosecuted on account of politics and that the present court was not the proper one to try the case.

A PIONEER RETURNS.

Montreal, Sept. 6.—There is at present in this city no less personage than a man who was colonial secretary of British Columbia, at the time of confederation forty years ago. Sir Arthur Birch, K. C. M. G., who arrived in this city last evening from Quebec. He is on his way to the coast to once again visit the scenes of his former activity, which he has not seen for many years. He is accompanied by Miss Birch.

PALMA MATCH

Great International Rifle Contest Today

KEENEST RIVALRY SHOWN

FOUR STRONG TEAMS ENTERED, REPRESENTING CANADA, AUSTRALIA, GREAT BRITAIN AND UNITED STATES — CANADA'S CHANCES GOOD.

Ottawa, Sept. 6.—Crack marksmen of Uncle Sam and John Bull, including the best rifle shots of Canada, Australia, England and the United States, are assembled today at the Rockliffe range, near Ottawa, to engage in the international match for the Palma trophy. Teams of eight men each, represent the fou rcountries, the aggregation constituting what is probably the most expert company of riflemen ever assembled. The Palma trophy is now in the hands of England's marksmen, but it appears probable that they will have to break all previous records to retain it.

The Rockline range is one of the best in the world for such a competition. The fire is delivered northeast on fifty targets set in one line. Behind the pit is a high stop butt, painted black, which minimizes the effect of the early morning light. Against this backstop the targets show up with great distinctness, insuring a great degree of accuracy. The firing points lie one behind the other, the longer ranges being slightly elevated. On the left is the Ottawa river, running at the foot of a high bluff, while the range is bordered with forests. Street cars run to the club house on the grounds, making the range easy of access for the riflemen.

The conditions of the Palma match provide for teams of eight men each, shooting with the service rifle of their country, fifteen shots at 800, 900 and 1,000 yards. Any ammunition suitable to the rifle is allowed.

The contests for the Palma trophy have always aroused a great deal of interest on both sides of the Atlantic. It was won by the British team in 1902, at Ottawa. In the following year the United States marksmen obtained possession of the trophy at Bisley, scoring 1,570 points against Great Britain's 1,555. Later the trophy was returned to the British team by the United States Association of Riflemen, owing to the fact that the American team had used a rifle barrel with a special grooving and not the service weapon of the United States army. Believing that they had committed a breach of the conditions of the contest, the American marksmen voluntarily returned the trophy for another contest.

The team from the United States, headed by lieutenant colonel N. B. Thurston, of New York, as captain, is admittedly one of the finest bodies of marksmen ever selected for such a contest, and unprejudiced military authorities believe it has a good chance of winning the trophy. Lieutenant colonel Thurston has been captain of the rifle team of the New York state militia for many years, and has been successful in a number of interstate contests.

The Canadian team is composed of the best riflemen in the dominion, and they face their expert competitors from other lands with a confidence that is shared by many who have witnessed the men in practice.

The British team has been selected from the best marksmen in the royal army and navy volunteers and includes the pick of English riflemen. It is under command of colonel Hopton, one of the greatest living match rifle shots. He has shot for England in the Elcho Shield competition twenty-two times, has won the gold jewel of the English VIII eight times and the Albert trophy three times. Major P. W. Richardson, of the Northumberland Fusiliers, is shooting captain. Immediately after the Palma competition the British team will journey across the continent and on September 13th will sail from Vancouver for Australia, where they will take part in friendly competitions at Sydney before returning home. The Englishmen will be accompanied on the journey by their Australian competitors for the Palma cup.

The Australian team is now homeward bound o na trip that will have extended completely around the world. The men left Sydney on May 14th and have since taken part in numerous matches, their total winnings so far aggregate nearly $7,000. The records of the team show it to be a dangerous competitor for the Palma trophy, and there would be little surprise if the marksmen from the antipodes won the prize. The team failed to secure the Kolapore cup only because of a technical ruling. While in England, one of the members, lieutenant W. C. Addison, won the King's prize, the highest individual award in the British empire, with a score of 318 out of a possible 355 points. Another Australian, W. H. Cutler, was the winner of the Prince of Wales prize.

For several days all the teams have been engaged in practice, in order to become familiar with the range, and all will enter the contest in the best of condition, promising the keenest rivalry that has been seen in an international rifle contest in many years.

DUCHESS OF BEDFORD

Fear Expressed That Expedition has been Lost

Edmonton, Sept. 6—Fred Harrison of the Royal Geographical society, and other explorers and trappers have reached this city, having been in the north exploring for the past two years. Concerning the Anglo-American expedition which set out last year from Vancouver he said:

"When Steffenson, who was studying Esquimax life, arrived at Herschel Island from Flaxman island, he reported that the Duchess of Bedford expedition ship, had been frozen in the ice last winter at Flaxman island, 16 miles west of Herschel island. The ship was broken and filled with water and now only the hull remains. All supplies were removed from the ship to the land.

"Captain Mikkelson, commissioner of the expedition Norse, an explorer noted in Europe for his scientific work, set out in February with Mr. Leffingwell, an American, to explore land supposed to be in the north. They went over the ice and on the last report at Herschel island before I came out, nothing had been heard of them. They were only ten days overdue, but since nohting seems to have come by boat or telegraph from Point Barrow concerning them, I am afraid nothing ever will be heard of them."

TAKES LIQUOR CURE

Fargo, Sept. 6—There are some tragic incidents connected with the murder and suicide at Worthington, Minn., in which a man named Walsh killed Mrs. Dayton before taking his own life. Walsh was a Soo line brakeman charged with the responsibility for the terrible wreck at Enderlin last winter. Mrs. Dayton formerly lived at Esmond, this state, where her husband was a barber. She induced him to come to Fargo and take a liquor cure and he died here after a protracted debauch.

TOOK NO CHANCES

Kingston, Sept. 6—Henry Nicholson, a marble cutter, committed suicide this afternoon. His body was found in a block house by some children playing near. The pistol with which he did the deed was lying near. No cause is apparent for the deed. He was to have been married in Montreal in a few days.

WHEAT STEAMER LOST

Kingston, Sept. 6—The steamer Edmundston, with 75,000 bushels of wheat from Fort William to Montreal, ran aground and sank last night at the narrows near Brockville. The Donnelly wrecking crew left today to lift the freight.

SENATOR McKEEN RETIRES

Sydney, Sept. 6—Hon. senator McKeen has resigned from the directorship of the Dominion Coal company.

HIS WIFE IS A DRUNKARD

HUSBAND CHAINED HER UP WHILE HE WENT TO WORK

WOMAN GOT LOOSE AND IMBIBED TOO FREELY

Montreal, Sept. 6—With a chain tightly wound about her waist, Mrs Edward Quinn was taken in an intoxicated condition last night to the Chenneville street police station. It was not until the woman had been seven hours in the cells that the chain was discovered so tightly was it wound around her waist and so securely was it padlocked that the police had to file it open.

She told the police that she was married to Edward Hamilton Quinn, an employee of the Bell Telephone company who boarded at 93 St. Alexander street. Her husband was jealous she said and had chained her to a bedpost to prevent her from going out. She had two children, one was nine years old, a boy, who was still at home, and the other a six months old baby which had been suffering from hip disease ever since its birth and was now being treated in the hospital.

"This morning," she continued, "while my husband was out at work I declared to myself that I would stand it no longer. I filed open the chain which kept me to the bed, and at first I intended to go to the police station and report the case, but thought that if it were known my husband would lose his job and my children would have to be sent to an orphans' home, so I started to drink. I never used to drink, now I am just as glad the whole thing has been found out."

The case was reported to secretary Skroder of the society for the prevention of cruelty to women and children, and a warrant issued for Quinn's arrest. When he appeared he put a new light on the story. His wife is a drunkard. He has had her committed to several institutions in the hope of reforming her but without success.

"I have no doubt," he said, "this world will say I have done wrong but what I did was done with good intention. It may seem cruel to chain one's wife up but I can assure you there was no cruelty in it at all. The chain was about ten feet long, it was light, not heavier than an ordinary dog chain, she could move about the room as much as she liked."

"How was the chain fixed on Mrs. Quinn, was it above her clothing?"

"It was above her nightdress, and was so slack that she could undress. There is a story about that when the chain was taken off in the police station that there were red marks underneath, but they were not caused through me; they must have been caused by my wife putting on tight corsets over the chain."

"And why did you put the chain on at all?"

"It was drunkenness. We were married eight years ago and for seven years she has been addicted to drink."

TRAIN WRECK

Bad Collision on the Rock Island Railroad

ELEVEN LIVES ARE LOST

NORTHBOUND EXPRESS DERAILED COLLIDES WITH FREIGHT ON SIDING—SEVEN MORE ARE REPORTED AS INJURED—CAUSE OF DERAILMENT UNKNOWN.

Waterloo, Sept. 6.—Twelve people were killed and twelve injured in the wreck of an express train on the Rock Island railway at Norris, Iowa today. The train which was northbound jumped the track while going at full speed, and oclilided with a freight train standing on a siding.

The dead: P. D. Oliver, Waterloo; Will Goodman, Waterloo; J. N. Watson, Waterloo; C. L. Landphere, Shell Rock, Iowa; W. Ray Johnson, Waterloo; Dr. Christer, Minneapolis, Minn.; Lepovan Toja, Hammond, Ind.; laborer, unknown, Hammond, Ind.; W. H. Meyers, baggage man, Burlington, Iowa; three unidentified men.

Injured : J. A. Newell, Illinois Central conductor, Waterloo, Iowa; John Shaw, Waterloo; Dr. C. J. O'Keefe, Marble Rock, Iowa; J. H. Douglas, Watreloo; Thomas Evenson, Mora Minns, C. H. Martin, mail clerk, West Liberty, Iowa; Edward St. Pierre, Minneapolis, Minn.; Torcorn Crisnen, St. Paul; H. McMahon, fireman; Albert Mason, engineer; A. L. Wellover, F. Kinch, engineer, all four of Cedar Rapids, Iowa.

Waterloo, Ia., Sept. 6.—Eleven known dead, three of whom have been identined and seven or more injured, is the result of an express train northbound being derailed on the Rock Island railroad at Norris, Ia., and colliding while going at full speed, ten minutes behind schedule time, with a southbound freight train standing on a siding. The collision occurred shortly before noon today. The injured were brought to Waterloo and placed in the hospital. All of the dead and injured were in the smoking car which was immediately behind the baggage and mail cars. The smoking car was completely demolished, there not being one piece of wood left large enough to make a top for an ordinary kitchen table. The dead and injured were strewn about among the wreckage.

The northbound express was ten minutes late leaving Norris siding and there, a southbound freight train was awaiting the express which came thundering along at a terrific speed in an effort to make up time. Just as the engine of the express was about to pass the freight engine, the trucks of the express engine jumped the track and the engine crashed with terrible force into the engine of the freight, wrecking both engines and telescoping baggage and mail cars and demolishing the smoking car in which a number of men were riding.

It was among the occupants of this car that the only injuries and fatalities occurred. The passengers in the two day coaches following the smoker escaped with only a violent shaking up. Rescuers were immediately attending to care of injured and taking dead from among the wreckage. Physicians and hospital attendants were hastily brought to Norris on a special train made up in this city. Owing to the delay in the arrival of the county coroner it was impossible to identify the dead and only the names of those known to the excited spectators were secured.

Chicago, Sept. 6.—Only meagre details have been received, but it is believed that the majority of the people injured were passengers in the smoker. The wrecked train was passenger No. 31, a local express. While passing through Norris in some unknown way, the locomotive struck a portion of a freight train standing near a switch, the engine of the passenger train was thrown from the rails and overturned, telescoping the smoker which was immediately behind. Norris is a small station with no telegraph facilities and the number of injured is not known, except that baggageman Meyers is said to be missing.

DEATH OF MRS. J. DRURY.

Vancouver, Sept. 6.—In a recent telegraphic dispatch, the death was announced of the mother of Dominic and Patrick Burns, millionaire packers. This message was misleading in that the lady who died was not the mother of Burns Bros., but the mother-in-law of Thomas Burns of Calgary. Her name was Mrs. J. Drury and her home was at Kirkfield, Ont. She died while en route to Calgary in a Pullman car, and was accompanied by the Misses Mollie and Stella Burns, daughters of Thomas Burns.

MUNICIPAL OWNERSHIP

Sherbrooke, Sept. 6—The shareholders of the Sherbrooke Power and Light company held a meeting today and decided to sell out to the city for $190,000, the city to assume the bonded indebtedness. The city has offered $170,000 for the plant and to assume the bonds.

We are now opening up a large shipment of

THE RAILWAY COMMISSION.

Writing in the Engineering Magazine for August, J. G. G. Kerry contributes an interesting article on the Canadian Railway Commission. He says that Canada's board of Railway Commissioners is a notable example of a comprehensive effort to control transportation corporations. Under what is known as "The Railway Act of 1903," the board enjoys power and jurisdiction. This act is a complete revision of the existing railroad laws of the dominion. During the debate thereon railroads were freely consulted and given every opportunity to be heard. As a result the commission is a logically empowered body, created to try certain cases which arise out of the construction and operation of railways. In particular it has jurisdiction over matters concerning:

(1.) The construction details of new roads or of the improvements undertaken by the existing lines.

(2.) The crossings of highways, railways, power lines, and drainage mains by railways.

(3.) The rates that may properly be charged for the various services rendered to the public by the railways, the express companies, and the telephone companies.

The commission is also charged with the collection of statistics of operation, investigations of the operating of the roads, in particular of the accidents occurring on them, and with inspection of equipment. To some extent, also, it has become customary when public outcry is made concerning any particular item of railroad practice, for the government to request the commission to make a report upon the matter, even if it does not lie within the ordinary field of the commission's activities. It acts as a special adviser to the government in matters involving the details of the art of railroading.

These duties call for moderation, good temper, plenty of thought, hard work, and heavy traveling; for it conducts its hearings at the place where the complaint originates. No attempt has been made to invest its decisions with a political character, and appeals therefrom have been few. In conclusion, he says:

"It may be said that the board is to be regarded as an experiment in government, made by a rapidly growing country in an endeavor to provide that its railways shall be intelligently built with due regard to public safety and the general advantage; that they shall be properly equipped and efficiently operated, and that the charges for transportation shall be reasonable and free from all suspicion of manipulation in favor of private interests. The Railway Act, under which the board exercises its authority, is a recent compilation and will be subjected to much amendment. The board itself has been in active service for only a little over three years, and its staff is not yet fully organized. It would be, therefore, entirely premature to express any opinion as to the ultimate success of this particular method of corporation control, and all that can be said at present is that the board has so performed its duties that the Canadian people as a whole are entirely content that the experiment shall be continued."

DR. JOS. AUG SIROIS.

EDITORIAL NOTES.

It is suggested that tory leader Borden's proposed election law should include a provision that the spending of money in elections must be confined to people who are not in public life. Such a provision would be in accord with his recommendations for the handling of campaign funds in the province of Quebec at the last general elections.

It would appear that a little ventilation into the city power question would be opportune. If the local marble works has cause of complaint for being cut off water supply a day or two ago, whilst other firms still have that privilege, how about those firms that were deprived of water more than a month ago and forced to expend large sums of money, practically at a moment's notice, to replace water wheels with electric motors?

SCOTSMAN FIRST AGAIN

London, Sept. 6—The first application for a marriage license under the new deceased wifes' sister law was made in Aberdeen yesterday. The license was granted.

LAME BACK.

This is an ailment for which Chamberlain's Pain Balm has proven especially valuable. In almost every instance it affords prompt and permanent relief. Mr. Luke LaGrange of Orange, Mich., says of it: "After using a plaster and other remedies for three weeks for a bad lame back, I purchased a bottle of Chamberlain's Pain Balm,, and two applications affected a cure." For sale by all druggists.

LIMITED

Capital $800,000, 80,000 Shares, Par Value $10 Share.
Fully Paid, Non-Assessable.
22,500 Shares Subscribed. 57,500 Shares in Treasury.

Incorporated under the laws of the state of Deleware, U. S. A., and registered in British Columbia as an Extra Provincial Company.

OFFICERS:

President, JOHN MOODY, of the Moody Corporation, Limited, New York.
Vice-President, J. WARD WARNER, Member New York Produce Exchange.
Secretary, E. L. PHILLIPS, Consulting Engineer.
Treasurer, OLCOTT PAYNE, Silverton, B. C.

Operating the well known Hewitt and Lorna Doone Silver-Lead mines near Silverton, B. C. They also have under lease and bond the Silver Wedge Group of three claims on the Hewitt-Vancouver vein; the Reid and Tenderfoot Group of four claims on Wakefield Mt.; and the Wakefield mine and concentrator.

Over 100,000 tons of ore in sight in the Hewitt-Lorna Doone ground that will net the stock holders at least $12.00 to $15.00 per ton. This great mine has been developed and put in its present condition by the intripid energy of one man. He took it over when mining in the Slocan was at its lowest ebb and made a fortune on its development. Fifty thousand dollars in net returns from the sale of ore and the sale of the mine to the present company.

Taking into consideration the modest capitalization, the extent and value of its ore reserves, and the condition of the metal market, we know of no mine in British Columbia that is better shape or in a more advantageous position to reimburse its stock holders.

If you are at all doubtful read the report of reputable mining engineers contained in our booklet; or visit the mines in person where every opportunity will be given you to investigate conditions for yourself.

The first block of this stock is being offered through us at the extremely low price of $5.00 per share. To parties wanting small holdings we will sell in blocks of five or over. We will, on application, be pleased to send you a booklet giving the history of the property, amount of ore shipped and the value thereof; and full details of the mine workings.

The skin rids the system of more urea than the kidneys?

Nearly one fifth of the waste products of the body is eliminated by the skin. Suppose there is some unsuspected, unseen skin trouble—the pores are closed—the skin is unable to rid the system of its share of the waste.

Then the blood carries this waste product to the kidneys—immediately they are overworked—they strain to throw off the extra load. What the kidneys can't possibly eliminate, the blood takes up again and deposits on the nerves.

Then come the dull aches in back, hips and head—the nerves unstrung and irritated—the urine charged with impurities and highly colored—and you fear you have "Kidney Trouble."

Nonsense. Your kidneys are overworked—not diseased. What you need is "FRUIT-A-TIVES" to act on the skin.

Fruit-a-tives

(or Fruit Liver Tablets)

open the clogged pores—start up healthy skin action—and let the skin perform its natural function. This instantly relieves the kidneys of overwork—the back-aches stop and the complexion is beautified. There is no excessive waste matter in the blood to bring dull headaches—the urine is cleared—the bowels are opened and regulated—and the kidneys strengthened.

"FRUIT-A-TIVES" act directly on the three great eliminating organs—Skin, Kidneys and Bowels—make them well and keep them well. That is why "FRUIT-A-TIVES" cure so many cases of apparent kidney disease that are really skin troubles.

"FRUIT-A-TIVES" are fruit juices—in which the natural medicinal action of fruit is many times increased by the secret process of making them. Valuable tonics and antiseptics are added and the whole made into tablets—the finest formula known to medicine.

Buy them—try them—and cure yourself at home. 50c. a box—6 boxes for $2.50. At all druggists or sent on receipt of price. 108

TORY ELECTION METHODS

INTERESTING ECHO OF LAST GENERAL ELECTIONS.

HUGH GRAHAM'S CONTRIBUTION OF $29,000 FOR QUEBEC DISTRICT.

Leader Borden in his tour of Quebec was met with some interesting reminiscences of tory electoral methods in that province, methods, which according to the sworn testimony of Hugh Graham, of the Montreal Star, had the approval of the same Mr. Borden. It is certainly appropriate that the electors of Canada should have some clear conception of what tory leader Borden means by purity in elections. The following synopsis of the documents in the case of L'Evenement company versus Hugh Graham, of the Montreal Star, throw a flood of light upon the standard of electorial purity aimed at by the tory leader. His position was that money for election purposes must not be handled by men in the party in public life, but by friends acceptable to the party.

The whole story, as the Montreal Herald remarks, may be accepted as a valuable contribution to the science of winning elections with prayers:

On December 24th, 1904, the L'Evenement company, of which senator Landry was managing director, took action against Mr. Hugh Graham of the Montreal Star, to recover the sum of $2,389.33 for certain services rendered to the conservative party during the electoral period which ended on November 3rd, 1904.

The first three allegations made in the statement of claim show the nature of these services.

"1.—At the beginning of last October in the city of Quebec the plaintiff agreed to publish and distribute on account of the defendant, his newspaper *L'Evenement in eight pages instead of* in four pages, and that from October 12th until November 3rd inclusively.

"2.—The defendant agreed to pay for the said publications and distributions, the sum of $400 a week for the first five thousand and $300 for each other additional 5,000, the whole to be paid on November 4th.

"3.—The plaintiff had accordingly published in Quebec and had distributed 10,000 copies of L'Evenement in eight pages during three weeks and two days, which, on the basis of the price agreed upon, made a total of $2,333.33.

Mr. Hugh Graham, the defendant, contested the claims of the "Compagnie de L'Evenement" and, on February 22nd, 1905, pleaded, among other *things, that:*

"7.—The defendant and Mr. L. P. Pelletier, both belonged to the conservative party and in last September and October met each other several times and, in view of the approaching federal elections, busied themselves in organizing the conservative party in the district of Quebec.

"8.—As a considerable sum was needed to organize the struggle in the interest of the conservative party in the district of Quebec, of which the said Mr. Pelletier was the organizer-in-chief and called himself such, the said Mr. Pelletier asked the defendant for the *funds which he alleged to have needed* to organize the election with any chances of success for his party in the district of Quebec.

"9.—The defendant was strongly attached to the conservative party, whose success he wished to assure and after a number of pourparlers with the said Mr. Pelletier they both drew up a statement showing the minimum and the maximum needed in each county of the district of Quebec in order to have any chance of success in the struggle.

"10.—The said Mr. Pelletier furnished these figures, very high, for that matter, to the defendant and they included all that was to have been necessary to organize the fight in the district of Quebec, including L'Evenement, *the official organ or other expenses of* the same nature that he said Mr. Pelletier would deem proper or necessary.

"11.—As soon as the defendant and the said Mr. Pelletier came to this agreement, the latter began to draw on the defendant and obtained very large sums from him.

"12.—Not only did the said Mr. Pelletier receive in this manner the minimum amount agreed upon, but he exceeded by $3,800 the maximum amount fixed by himself as heretofore mentioned for all the needs of the district of Quebec."

On March 7th, 1905, the "Journal" of *Montreal, in taking leave of its readers,* shot the following shaft among the readers of L'Evenement: "We have not, as has L'Evenement, any claims to make against the conservative party for services rendered others. Where loyalty has a price one must needs be at least indulgent."

Mr. Hugh Graham was examined under oath on May 29th, 1905, by Mr. L. P. Pelletier, counsel, from which examination the following are extracts:

"Q.—You took a prominent part in the organization of the conservative party during the last dominion elections? A.—I assisted to the utmost of *my extent and ability.*

"Q.—In what capacity A.—Oh, in a general way, principally making them gifts of money.

"Q.—There was a cipher code used for these communications between yourself and Mr. Pelletier, was there not? A.—Yes.

"Q—Will you kindly tell us what is the word representing your name and signature? .A—As I recollect it was 'Zandray.'

"Q.—Do you remember the word representing Mr. Casgrain's name? A.—I do not; but you have got a copy of it.

"Q.—It was 'Zandrank'? A.—I can tell you in a minute if you will allow me to look at it. (After consulting code book) 'Zandrank.'

"Q.—Mr. Pelletier's name was, if I mistake not, 'Zandring?' A.—'Zandring.'

"Q.—B. A. MacNab's name was? A.—'Zandride.'

"Q.—Yourself and Mr. MacNab were working together at this L'Evenement contract, were you? A.—We were working in some cases together, and Mr. MacNeb was representing a parliamentary committee in Ottawa in some matter.

"Q.—Oh, we are not with the parliamentary committee at the moment. I, a masking . . . A.—I think that Loranger *matter has got something to do* with the parliamentary committee, if I mistake not.

"Q.—Now, Mr. Graham, you allege in your plea in this case that you have sent a certain amount of money to Mr. Pelletier. Will you tell us what amount you sent to Mr. Pelletier? A.—Mr. Pelletier and his friends, and——.

"Q.—Well, my question is, Mr. Pelletier? A.—And his associates.

"Q.—I want the answer to go, for Mr. Pelletier, because that is my question? A.—Mr. Pelletier received $10,381.70 directly, and $19,000 at the disposal of the committee which he was asked to represent him.

"Q.—My question is, how much money did you send to Mr. Pelletier, Mr. Graham; that is a very clear question? A.—I have answered it.

"Q.—No; I want to know what money was sent direct by you to Mr. Pelletier; now that is a very clear question? A.—Mr. Pelletier received $10 381.70 directly in his name, and $19,000 placed at the disposal of the committee which he appointed to represent him.

"Q.—But that is the committee which you mean in your answer? A.—No; the committ—perhaps I better do into a detailed explanation of the matter, because it is a little involved unless it is so. About the 24th of October—23rd or 24th of October—I received a letter from Mr. Borden, the chief, telling me that moneys must not be handled by any person, I believe—I won't quote the exact words, but to the effect that moneys must not be handled by men in the party, in public life, or words to that effect, and that it was better to have, in each province, persons appointed who were in every way acceptable to the party, locally. I sent a copy of that letter to all the different provinces where I was giving my assistance.

"Q.—What business has Mr. Borden's name to do with that? A.—With what?

"Q.—With the committee in question? A.—Mr. Borden asked persons to be appointed who were acceptable to the local friends."

DOES THIS INTEREST YOU?

A prominent physician, famous for his success in the treatment of kidney and bladder diseases, attributes a great deal of his success to the following simple vegetable prescription:—

One ounce Fluid Extract Dandelion;

One ounce Compound Salatone;

Four ounces Compound Syrup Sarsaparilla;

Mix, shake well, and take in teaspoonful doses after each meal and again at bedtime.

Your druggist can supply the ingredients, and the mixture can be prepared at home at very little expense.

This, the doctor says, acts directly on the kidneys, assisting them to filter the poisons from the blood and expel same in the urine, at the same time restoring the kidneys to healthy, normal action.

We feel that a great many readers will be pleased to learn of this simple prescription, and knowing the ability of the physician whose formula it is, we do not hesitate to recommend it to any sufferer.

NOTICE TO DELINQUENT CO-OWNER

To James Livingstone, or any other person or persons to whom he may have transferred his interest in the Alberta Mineral *claim, situated on the First North* Fork of Lemon Creek, in the Slocan City Mining Division of West Kootenay district, and recorded in the Mining Recorder's office at Slocan, B.C.

You, and each of you, are hereby notified that I have expended the sum of four hundred and ten dollars ($410.00) in labor and recording fees upon the above named mineral claim in order to hold the same under the provisions of Sec. 24 of the Mineral Act; and that if, within 90 days from the date of this notice, you fail or refuse to contribute your proportion of the aforesaid expenditure, which is two nundred and five dollars ($205.00) for the four years ending the 12th day of July, 1907, together with all costs of advertising, your interest in the said claim will become vested in the undersigned, under Sec. 4 of the Mineral Act, Amendment Act, 1900.

Dated at Slocan, B.C., this 15th day of July, 1907.

J. T. BEAUCHESNE.

PRINTERS AND PUBLISHERS

SUITS TO THE COLONIES

and thousands of Canadians are yearly dressed in the latest and most approved styles and fashions through the modern and up-to-date system which we have inaugurated on behalf of Colonials. It is no mere flight of fancy but an actual fact that you can be attired in a dressy Suit of West End style and cut as produced by us for our English customers; or you may have your suit cut and tailored in the latest New York styles. In either case the cost is the same, though the prices are always dollars cheaper than you would pay locally. Our materials are all English woven, and naturally far superior to anything produced locally. Does it sound impossible? Well, we can assure you that it is an actual and certain fact, and one that is greatly appreciated by Canadians. Our great speciality is our Canadian trade, our most developing feature is our Colonial business, and this could not be so were our performances not equal to our promises. All we say we do, and you would do well to consider the wonderful tailoring advantages now placed within your reach, and then to send for our samples and particulars as per offer below. Your satisfaction will be the same as that of hundreds of others. People don't write us letters like those we print here without having the best of reasons, and we have hundreds of other letters in just the same strain. Follow their lead—let us link you up with London; let us clothe you in whatever smart and stylish fashion you prefer—London or New York—at prices far less than you have ever paid before and with a guarantee of satisfaction.

SEND MORE PATTERNS.

(COPY.) Box 733, Moose Jaw, Sask., Canada.

DEAR SIRS,—Will you kindly forward me, at the above address, a few samples of cloth, first quality, stating prices and terms to Colonial customers. During my stay at Penzance, Cornwall, England, I had several parcels from you, with which I was very pleased; in fact, one coat I am still wearing for rough work here, though I wore it for two years in the Oil Country to business, and have now been in this country nine months.

Hoping to hear from you at an early date; needless to say I should want Spring Suitings.—I remain, dear Sirs, yours truly, (Signed) J. A. BERRY.

(COPY.) VALUED AT $30.

Canadian Bank of Commerce, Leavings, Alta, Canada.

DEAR SIRS,—I thank you for your promptness in making and sending me suit as ordered some *time ago. It is in every respect* very satisfactory, and I am very well pleased with it. Everyone who has seen it was loud in its praise, and when I told them the cost they were more than surprised. A suit like that out here would cost $30 anyway.

I am, yours faithfully
(Signed) E. R. MACKENZIE.

OUR SUIT, guaranteed made to measure, at $5.14 is a TRIUMPH OF VALUE.

NELSON NEWS OF THE DAY

Born to the wife of S. Blaylock on Thursday morning last, a daughter.

A telegram, directed to M. Egan, care of 20,000 club, is awaiting a claimant.

Messrs. Starkey and Busk were active yesterday in collecting funds for the fall fair.

The closing of the municipal bars does not affect Fairview where there is one hotel, the Grove, which may be expected to do a big business.

Edwin Flick of Addy, Wash., and Miss Minnie Waddell of Nelson, were married on Sept. 3, at the residence of the bridegrooms' father in Addy, by Rev. G. H. Wilbur.

City clerk M. M. Stevens of Phoenix, came in yesterday with a prisoner, T. Swanson, who has been sentenced to two months' imprisonment for persistent disorderly conduct.

Notices of closing on Sunday were yesterday served to all hotels and saloons in the city, the time of closing being between 11 p.m. on Saturday night until 1 o'clock on Monday morning.

The temperature yesterday was warmer than usual, the thermometer varying between 51 and 75 degrees. During the thunderstorm on Thursday night between 8 and 1 o'clock, although the lightning was incessant and the downpour apparently heavy, only .18 inch was percipitated.

Copies of Messrs. Peach's new price list can be obtained at this office. Their advertisement of ideal home decorations appears in another column.

MINING RECORDS

Record have been made of the location of the Lulu fraction at the head of Fawn creek by G. Matthews of the Tona on Crown mountain by B. Devlin; of the Oban on Lost creek by W. H. Wilson; of the Bank on Bear creek, by Frank Collins; of the House of Commons on the divide between Barrett and Hall creeks by A. J. Campbell; of the House of Lords in same place, by E. Peters and of the Royal Flush on Siwash mountain by G. G. Peters.

Certificates of work have been granted on the Belcher to J. Johnson; on the Summit to F. Collins, for the recorded owners; on the Bergen and Summit No. 2, to T. Holland for the recorded owners; on the Rising Sun and Rising Star to E. Chape, to apply for five years, for work done on the Rising Sun; on the Davenport, Rock Island and Moline for work done on the Davenport, to U. W. Keech, for the recorded owner; on the Gold Bar to E. Harkness for the recorded owner.

Bills of sale are recorded in favor of the Elsie Honis Mining company of the whole interest in the G.R.T., Elsie Honis and Mertice mineral claims situated on Duck creek, by G. P. Towne, L. J. Hunner and H. A. Pizer.

C. P. R. TIME TABLE

New Schedule for Kootenay District to Take Effect Tomorrow.

Commencing Sunday, Sept. 8th, the following changes in the schedule of the Kootenay district will take effect:

Train No. 41 for Midway will leave Nelson at 9:45 instead of at 8:10 as at present. It will arrive at Midway at 17:00 instead of at 15:00.

Train No. 43 for Slocan City will leave *Nelson at 9:00 instead of at 9:25, and train* No. 44 returning will arrive at Nelson at 18:00, instead of 17:20.

Train No. 45, for the coast and Rossland will be a straight passenger train instead of a mixed train, and will leave Nelson at 19:00 instead of 19:15. It will arrive at west Robson at 20:25 and leave for Rossland as a straight passenger train at 20:45, arriving at Rossland at 23:00 instead of 23:20.

Train No. 42 will leave Midway at 14:50 instead of 15:10, will be allowed 35 minutes for transfer at Robson and will arrive at *Nelson at 22:20 instead of at 22:05.*

Train No. 61 will leave Rossland at 8:40 instead of 7:00 and will arrive at Nelson at 12:35, instead of 11:00.

Train No. 62 for Rossland will leave Castlegar junction at 11:00 instead of 9:35 and will arrive at Rossland at 13:40 instead of at 12:20.

On the Phoenix branch the northbound train will leave Phoenix at 14:40 nstead of at 15:50 as at present. The southbound train will leave Eholt at 16:00 instead of 14:05.

*The Columbia river boat will leave Ar*rowhead at 10:35 and will arrive at Robson at 20:25 instead of at 20:35.

The steamer Kokanee on Tuesdays, Thursdays and Saturdays will leave Kaslo as at present, but will arrive at Nelson at 16:30 instead of 16:00.

It is hoped that these changes will insure the night trains arriving at Rossland and Nelson on their regular schedule.

SUING TELEGRAPHERS UNION

Chicago, Sept. 6—The Postal Telegraph company *today began suit against the Com*mercial Telegraphers 'union of America on the grounds that the latter had refused to pay for transmission of messages. According to offficials of the telegraph company no answer was made when bills for the telegrams were presented to the union. Upon enquiry they were told that the union declined to make payment unless the telegraph company would certify that the messages had reached their destination, by sending a "chaser' 'after each message. The company refused. The company re*fused. The messages in question were filed* with the company since the strike began. The case was set for Sept. 15.

The Worth of Advertising

YOUR Message to the public is intended to increase your custom; you, therefore, desire to make as good an impression as possible and you study carefully the words in which you shall make your announcement. Having arranged these to your satisfaction, the next precedure is to have your advertisement appear in a paper that has a circulation.

TIMBER NOTICES

NOTICE is hereby given that 30 days after date we intend to apply to the Hon. the Chief Commissioner of Lands and Works for a special license to cut and carry away timber from the following described lands, situated in West Kootenay district:

No. 1 Limit—Commencing at a post planted one mile up and on the east side of the first south fork of Poplar creek, marked "C. O. Woodrow's and Jack Portgal's N.W. corner post," thence 80 chains south; thence 80 chains east; thence 80 chains north; thence 80 chains west to point of commencement.

Located April 9th, 1907.

C. O. WOODROW,
JACK PORTGAL.

NOTICE is hereby given that 30 days after date I intend to apply to the Hon. the Chief Commissioner of Lands and Works for special licenses to cut and carry away timber from the following described lands, situate in the West Kootenay district:

Location No. 1—Commencing at a post planted about 20 rods west and 350 paces north of the confluence of the South Fork of the Salmon river and Wilson creek, about 14 miles south of Salmo, B.C., thence west 80 chains; thence south 80 chains; thence east 80 chains; thence north 80 chains to point of commencement. Said point of commencement can be reached from the said confluence of the South Fork of the Salmon river and Wilson creek by going west up a gulch about 80 rods to a point where a trail, running in a northerly direction, has been blazed for about 350 paces.

Located March 9, 1907.

Location No. 2—Commencing at a post planted about 20 rods south and 80 chains west of the confluence of the North Fork of the South Fork of the Salmon river, and the South Fork of the Salmon river, about 20 miles south of Salmo, B.C., thence north 80 chains; thence east 80 chains; thence south 80 chains; thence west 80 chains, to point of commencement. About 700 paces north of said point of commencement will be found an earth slide about 50 feet in height, where the said South Fork of the Salmon River makes a turn, and where a small creek from the southwest flows therein.

Located March 16th, 1907.

Location No. 3—Commencing at a post planted about 20 rods south and 80 chains east of the confluence of the North Fork of the South Fork of the Salmon river, and the South Fork of the Salmon river, about 20 miles south of Salmo, B.C., thence south 40 chains; thence west 160 chains, thence north 40 chains; thence east 160 chains to point of commencement.

Located March 16th, 1907.

PHIL BOSELY, Agent.
N. BANGS.

Dated April 21th, 1907.

NOTICE is hereby given that 30 days after date I intend to apply to the Chief Commissioner of Lands and Works at Victoria, B.C., for a special license to cut and carry away timber from the following described lands:

No. 1—Commencing at a post planted on the east boundary of block 5817 and marked "C.S. northwest corner post, limit No. 1," on the west side of Deer creek, running as follows: 80 chains south; thence 80 chains east; thence 80 chains north; thence 80 chains west to point of commencement.

No. 2—Commencing at a post planted at the northwest corner of C.S. No. 1 limit, marked "C.S. S.W. corner post," thence 80 chains north; thence 80 chains east; thence 80 chains south; thence 80 chains west to point of comment.

No. 3—Commencing at a post planted on the northern boundary of C.S. limit No. 2, marked "C.S. S.W. corner," thence north 80 chains; thence east 80 chains; thence south 80 chains; thence west 80 chains, to point of commencement.

No. 4—Commencing at a post planted on the northern boundary of C.S. limit No. 3, marked "C.S. S.W. corner," thence 80 chains north; thence 80 chains east; thence 80 chains south; thence 80 chains west, to point of commencement.

No. 5—Commencing at a post planted on the northern boundary of C.S. limit No. 4, marked "C.S. S.W. corner," thence 80 chains north; thence 80 chains east; thence 80 chains south; thence 80 chains west to point of commencement.

No. 6—Commencing at a post planted at the southeast corner of C.S. limit No. 5, marked "C.S. S.W. corner," thence 80 chains east; thence 80 chains north; thence 80 chains west; thence 80 chains south, to point of commencement.

Dated March 27, 1907.

CHARLES SCHWARTZENHAUER.

TORY ELECTION METHODS

(Continued from Page Four)

"A—In a letter dated 26th of August herewith filed, it was intimated by Mr. Pelletier that the party owed him nine hundred dollars. I called to see Mr. Pelletier early in September, I believe it was, and spoke to him about the work. He referred to his claim against the party. I assured him that in due time this would be righted and said; I believe it was nine hundred dollars. Oh, no, Mr. Pelletier said, drawing a memorandum book from his pocket, it has risen to $1381.70. I understood these were for disbursements, cab hire and such things. Well, I said, certainly you will have it Mr. Pelletier; and on the 8th of October I sent him $1381.20 to cover the $900 and the increase of $481 that had taken place in the following five or six days. On the 10th October $2000 directed to Mr. Pelletier; on the 17th, $3000 to the committee, to Mr. Pelletier's committee, through Mr. Giroux; 21st of October, $3000 in same way; 24th, $4000 in the same way; 25th, $5000 in the same way; 29th, $4000 in same way.

"Q.—Now, sir, as a matter of fact, to what credit were the amounts—to the credit of whom the amounts of the 16th October, 21, 24, 25 and 29, were deposited. A—They were instructed to be sent to Mr. Giroux, one of your committee.

"Q.—Were they sent to Mr. Giroux? A.—Yes, sir, as I understand it. I paid them. Any way I paid them. I paid the money out of my own pocket, personal means, but not party funds at all; my own private means. That is why I know.

"A—Mr. McNab was acting for a parliamentary committee from Ottawa. I do not know exactly the backers of it."

Text of letter produced by Mr. Graham, as exhibit II, 2:

Quebec, Aug. 29, 1904.

"B. A. McNab, Esq.,
Star Office, Montreal.

"My dear McNab—I have duly received your favor of the 25th instant and in answer I beg to say that I approve of the circular which you intend sening in my name about the circulationo of a French paper in the English provinces.

"I am of the opinion that the elections will not take place this fall and I have pretty good reasons to believe that.

"At all events I suppose it is better to be always ready.

"You say that you do not see me very often now.

"Did I not tell you that I had resigned as organizer of the province of Quebec. I was under the impression that I had told you so.

"At all events, if I have not it is on account of not having met you since, because you have inspired me so much with confidence, and I have kept of you such a good souvenir that I feel inclined to have no secret for you.

"Mr. Borden has understood my reasons and has consented to relieve me on condition that I keep the direction of the 20 counties of the district of Quebec, it being understood that my resignation is not to be made public, and that my name be used for such purposes, as the one you write me about today.

"The main reason why I took that course was because this organization has cost me so far $900 more than I have received and if there is one thing I dislike above all others, it is to be asking people for money all the time. Mr. Borden told me that something would be sent to keep things going in this district, but I have received nothing so far.

"I am doing my best without it, but of course I have to avoid everything exceeding trifling expenditure.

"You say that I do not write very often. I feel like returning the reproach. You may rest assured that I am always so glad to hear from you that you might write once and a while, and I will do the same thing. Yours truly,

"(Sgd.) LOUIS P. PELLETIER.

FINE WEATHER ASSURED

MEANS COMPLETE SUCCESS OF COMING FRUIT FAIR.

HENRY WADE HAS TAKEN CHARGE OF MINING EXHIBITS.

Consultation with the weather-wise elicits the prediction that fine weather will prevail during the week of the fair. This is a consummation devoutly desired, and will assure a complete success for the fair from every standpoint. No effort is being spared by the directors to carry out the plans arranged early in the year, and the indications are that all will be complete in plenty o ftime. The number of entires already in the hands of the secretary warrants the assumption that every available inch of space in the buildings will be reuqired for the display, and emphasizes the fact that before another exhibition is held adautional room will have to be provided. This is as it should be, and should encourage the directors in an endeavor to make provision for the extension necessary.

The floral exhibit this year promises to be larger and more magnificent than any heretofore seen in Nelson. All of Nelson's residents are lovers of and engaged in the cultivation of flowers, and many more than usual are taking an interest in the coming fair. Under the able and careful supervision of Mr. H. Selous, ample room has been allotted for the display in this department, and every provision is being made for the proper arrrangement of exhibits, without having to crowd them into a confined space. Professional florists are also taking an interest in the exhibition, and there is promise of some beautiful floral designs from outside points as well as from Nelson. Should the temperature continue mild, and no early frost intervene, this department will no doubt be one of the most admired in the building.

Mr. Henry Wade, well known to all the mining men in the district, has undertaken the task of collecting and arranging the mineral exhibits. Mr. Wade's knowledge and experience ensures success in this department, and the directors request that all to whom he may apply for samples will respond cheerfully and liberally, with the understanding that all samples will be returned if so desired.

The special prize list is worthy the attention of all intending exhibitors. It covers all departments, and the prizes offered are well worthy of competition and will no doubt be a source of pleasure and gratification to the fortunate winners. Some very handsome pieces of cut glass are offered by the Belding Paul Silk Co. for fancy work in silks manufactured by that firm. These prizes should appeal to the ladies, and will no doubt result in keen competition. The Corticelli Silk Co. also offer a handsome piece of cut glass for similar work. Particulars regarding the work, and the conditions governing these competitions will be cheerfully furnished by the secretary. As a matter of fact the directors appear to have had the ladies well in mind when arranging the special list, as the greater number and most valuable prizes are offered for exhibits in their lines of labor.

With the view of affording residents on the West Arm and Kootenay lake points an opportunity of attending the fair without having to remain in the city over night, the directors are endeavoring to arrange a special service to reach Nelson in the morning, returning to these points in the evening. Definite information will be given regarding this as soon as arrangements are completed.

There will no doubt be a large influx of visitors to Nelson during fair week, and as the hotel accommodation is likely to be overtaxed, the directors will consider it a favor if citizens who have vacant rooms, and who are willing to rent the same at reasonable rates, will notify the secretary as soon as possible.

Nelson's big fair—September 18-19-20. Don't miss it!

Minard's Liniment for sale everywhere.

ATTACK OF DIARRHOEA CURED BY ONE DOSE OF CHAMBERLAIN'S COLIC, CHOLERA AND DIARRHOEA REMEDY.

I was so weak from an attack of diarrhoea that I could scarcely attend to my duties, when I took a dose of Chamberlain's Colic, Cholera and Diarrhoea Remedy. It cured me entirely, and I had been taking other medicines for nine days wit out relief. I heartily recommend this remedy as being the best to my knowledge for bowel complaints.—R. G. Stewart, of the firm of Stewart & Bro., Greenville, Ala. For sale by all druggists.

PLANNING TO BUILD.
I want you to write for my new Book "COUNTRY AND SUBURBAN HOMES." It is especially prepared for prospective home builders and is full of valuable practical and useful information on the subject. Each residence is illustrated by half-tone plates of the original, showing exactly how the building will look when completed. There are complete descriptions of each home and accurate estimates of cost. This book will cost you nothing, but will be worth a great deal of money to you. Write to-day. I prepare at low cost special designs and plans for new work or for remodelling old buildings.
H. STANLEY MITTON, ARCHITECT, VANCOUVER, B.C.

Synopsis of Canadian Homestead Regulations

ANY available Dominion Lands within the Railway Belt of British Columbia may be homesteaded by any persons who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres, more or less.

Entry must be made personally at the local land office for the district in which the land is situate. Entry by proxy may, however, be made on certain conditions by the father, mother, son, daughter, brother, or sister of an intending homesteader.

The homesteader is required to perform the conditions connected therewith under one of the following plans:

1. At least six months' residence upon and cultivation of the land in each year for three years.

2. If the father (or mother, if the father is deceased) of the homesteader resides upon a farm in the vicinity of the land entered for, the requirements as to residence may be satisfied by such person residing with the father or mother.

3. If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements as to residence may be satisfied by residence upon the said land.

Six months' notice in writing should be given to the Commissioner of Dominion Lands at Ottawa of intention to apply for patent.

COAL—Coal mining rights may be leased for a period of twenty-one years at an annual rental of $1 per acre. Not more than 2560 acres shall be leased to one individual or company. A royalty at the rate of five cents per ton shall be collected on the merchantable coal mined.

W. W. CORY,
Deputy Minister of the Interior.

KOOTENAY FRUIT LANDS

A conversation heard on Baker street, Nelson, on August 30th, is as follows:

Q. Who did you buy your fruit land from?

A. Mr. Annable.

Q. Where is it located?

A. At Burton City.

Q. Why do you consider it the best?

A. Well, it is good soil, free from stone, the land is level and there is a nice stream of water which can be run over every block and you can have it piped into your house; and above all he has all the blocks laid out so that each one has a lake shore frontage, and it is close to town and there is a nice settlement, one 30 acre orchard and several smaller ones on the next lots.

Q. How is the price?

A. It is not any higher than others are charging for land away back from the lake shore.

Q. What communication?

A. Two steamers every day and daily mail.

Q. Well I am going to see that Burton City land before I buy. Where is J. E. Annable's office?

A. It is next to the postoffice in Nelson. Good-bye.

CORNISH MINER EARNS NEW V. C.

Risked Being Blown to Pieces by Dynamite to Save Comrades

It is not unlikely that the first recipient of the new order instituted by king Edward for deeds of bravery and self-sacrifice by miners will be William Pooley, a Cornishman, who works as a colliery sinker at Treherbert in South Wales.

This man deliberately risked death by dynamite in order that his five comrades might escape the effects of an explosion intended to bring down masses of coal.

Pooley was on the early shift in the shaft and with his comrades had charged six holes with dynamite and ignited the fuses. The whole party then got into the cage to ascend to the surface. The signal was given to haul up the cage, but the cage for some unexplained reason remained stationary.

Telling his story to an interviewer Pooley said: "I realized that the fuses were being consumed and that the shots would go off shortly, so I shouted, 'For God's sake, chaps, let's pull the primers (which are the means of exploding the dynamite charges) out.'

"I jumped out of the cage to the bottom of the shaft and commenced extracting the primers. While doing this the cage with the other men inside commenced to ascend and one of them shouted a signal to stop, so that I could jump in. I shouted in reply 'No, go on, I will try and manage,' and went on pulling out the primers. I succeeded in getting five of the six primers out and then, finding that I had no time to deal with the other one, I crouched up in the side of the shaft and threw my oilskins over my face to prevent my face and eyes being burnt by the explosion.

I had hardly done this when the charge went off and down came a lot of stones, some of which fell on my head and sides. The primers with the detonator caps which I had pulled out, also exploded about my feet. After all the noise was over I realized that I had had a marvellous escape with my life, and thanked the Almighty for sparing me to come back to my wife and children."

STRIKE OF TELEGRAPHERS

Company Officials Say it Does not Exist—Neill in New York to End it

New York, Sept. 6—Officials of the telegraphers' union state today that important developments in the telegraphers' strike may be expected next Tuesday when the directors of the Western Union hold their regualr quarterly meeting. Nearly 200 of the strikers have obtained other positions.

Officials of the Postal Telegraph company and the Western Union declare the strike is over so far as they are concerned.

Commissioner Neill is here to "end the strike of the telegraphers at once, and see that not only are both sides satisfied but that the interests of the public at large are safeguarded." It is declared by some that the instructions are from president Roosevelt.

SEARCHING FOR A VICTIM

Cleveland, Sept. 6—Today a former employee is suspected of having caused the death of John J. Phillips, coal operator and broker, who was shot and killed at his home in the aristocratic part of East Cleve land on Monday. At that time the crime was laid to a burglar but on Tuesday it was thought Phillips had committed suicide. On Thursday this theory was discarded and suspicion was directed against the widow, Charlotte Phillips, but now suspicion has shifted to an old employee.

CALGARY, ALTA.

A Choice Improved Fruit Farm

Containing 41 acres on the east shore of Kootenay lake, not far from Earl Grey's ranch. The soil is a deep red loam with clay subsoil, practically free from rock and can be cleared thoroughly for $20 an acre.

A fine stream is running through the property, with water right of 12 inches. The neighborhood is well settled. As a commercial proposition this is cheap when compared with other land that has been sold nearby.

Eight acres are cleared, there being 500 apple trees, some cherry, plum and walnut trees planted. Also five acres partly cleared. The above description also applies to a ten and twenty acre block adjjoining, except that the water record is three and six inches respectively.

Price of ten acre block $100 per acre and for twenty acre block, $8 per acre. Price for 41 acre block, $5500; terms to suit..

NELSON NEWS OF THE DAY

John Taylor of Wingham, Ont., father of Mrs. McCandlish of this city, died yesterday morning, aged 85.

L. McClure John has placed the building of his new house on his ranch at 13-Mile in the hands of T. Dancy who will start work early next week.

Rev. R. N. Powell returned from Spokane last night, where he had been attending the Methodist conference, and will officiate as usual in the Methodist church on Sunday.

A very attractive program is being prepared for the sacred concert at the Baptist church next Wednesday. The program includes a series of colored lantern slides copies of famous paintings of the life of Christ, interspersed with appropriate song and solos. Mrs. Shanks, Miss Johnson, Miss Ellis, Mr. Shanks, Mr. Sullivan, Mr. Brown and the Methodist quartette will participate in the musical part of the program. This will probably be the last opportunity of hearing Mrs. Shanks.

Judge Forin yesterday in the case of Lindsey vs. Brydges dismissed the claim of the plaintiff and the counterclaim of the defendant. He found in favor of the plaintiff on the sale of a ranch to the extent of $82.5, but on the other hand allowed the defendant $200 which had been paid on the commission for which he was being sued, thus finding in favor of the defendant for the difference, $117.50 Each side is to pay its own costs. A full judgment will be handed down later.

Captain Coppen of the local cricket team is getting together an eleven to play with Grand Forks and Castlegar next week if the games can be arranged. The idea is to leave here on Thursday morning next and reaching Grand Forks that afternoon, play that evening and next morning, returning on Friday afternoon as far as Castlegar, playing there on Saturday and returning to Nelson Saturday night. The secretary of the club is endeavoring to make the necessary arrangements. The names of the players selected will be given at a later date.

DISCRIMINATION CHARGED

Canadian Marble Works May not use Water While Others may Still do so

W. Shackleton of the Canadian Marble and Granite company, is a very angry man charges discrimination against his company by the city, in favor of other people. The other people he refers to are the Kootenay Engineering Works, which are still using water power despite the order of the city council to the effect that all power users are to use electric power and not water.

Mr. Shackleton said last night that he had been repeatedly warned to use electric powr and had actually installed one electric motor in consequence and had connected it. For the other side of his works he had another on the ground but had neither set it up nor had he connected it. He was of the opinion that as there was plenty of water running to waste there was no immediate hurry, especially as he was so busy as to have to run day and night. Moreover he noticed that other firms were still using water. Finally, he was warned on Friday of last week that the water would be cut off at noon on Monday. He then set up his motor but did not connect it, thinking that this was the business of the city. It was true that the other electric motor in use by his company had been wired by his firm, but the orders had not come through him. On Thursday last at about 1 o'clock a city official had arrived to turn off the water. Mr. Shackleton objected and asked the city to connect his electric motor. This he was then informed was his business and not that of the city. He got to work immediately on the necessary connection and at 5 o'clock closed down his motors, water and electrical. Then the water man came down and turned off the water although the water motor was not running, although there was no further purpose of running it again and although the workmen were then busy in connecting the substituted electric motor. Water was not turned on again until 9 o'clock on Friday morning. But the old electric motor was ready to run at 7 o'clock in the evening and the new motor was ready at 10 o'clock. Water, however, was not only required for running the motor, but also for wetting the work of the saws. Hence, without water, the whole plant had to shut down for a whole shift and part of another on the one side, and for a part of two shifts on the other side.

This coming at a time when the Canadian Marble Works was full of orders has caused grave inconvenience and, as Mr. Shackleton thinks that inconvenience was wantonly caused, he is very angry.

CANADIAN BANK CLEARINGS

New York, Sept. 6—Canadian bank clearings for the week total $70,556,000, as against $75,616,000 last week and $68,142,000 in the same week a year ago. The following is a list of the clearings in the chief cities:

		Inc.	Dec.
Montreal	$26,195,000	....	6.0
Toronto	17,958,000	.6	....
Winnipeg	10,540,000	18.2	....
Ottawa	2,528,000	2.1	....
Vancouver	3,880,000	4.09	....
Halifax	1,770,000	1.7	....
Quebec	1,848,000	....	.4
Hamilton	1,588,000	27.6	....
St. John	1,641,000	13.7	....
London	1,022,000	21.7	....
Victoria	882,000	19.4	....
Edmonton	1,032,000	101.5	....

The last two cities are not included in totals because comparisons are incomplete.

TO WORK ON FARMS

Chicago's Striking Telegraphers going to The Harvest Fields

Chicago, Sept. 6—A delegation of union farmers are in Chicago today seeking to hire 2000 striking telegraphers for farm hands in Wisconsin, Iowa, Minnesota, Kansas and North Dakota. The "Fresh Union eggs and butter' idea which the farmers hold out to the strikers, together with the offer of $35 a month and board resulted in the operators accepting the invitation. At the union headquarters it was said that between 100 and 20 strikers probably will leave for North Dakota in a few days. This will leave less than 1000 idle operators in the city.

ROBBED OCCUPANTS OF CHAIR CARS

Omaha, Sept. 6—Three men who had picked the pockets of a number of Rock Island passengers at the station in Lincoln attempted to continue their work on the train, and engaged in a desperate encounter with Harry Duvall on the Rocky Mountain Limited near Alvoss station early this morning. After standing off the conductor with a knife, the men leaped from the train and escaped in the darkness. Duvall discovered the men attempting to rob men who were asleep in the chair cars. The first reports were that the train had been held up.

MANY BANK ROBBERIES

Crookston, Minn., Sept. 6—The state bank at Donaldson was dynamited at midnight, the thieves securing $1300. Two suspects are being trailed to Canada. This is the fourth bank robbery in ten days.

HEAVY LOSS

Halifax, Sept. 6—The buildings of the Standard Drain Pipe company at New Glasgow, were destroyed by fire tonight. The loss is placed at $100,000, partially covered by insurance.
