KASLO'S FAIR

District Prize is Won By Grand Forks

KOOTENAY BELL A WINNER

COMPLETION OF THE LIST OF THE PRIZES WON BY EXHIBITORS OF FRUIT—NELSON MEN SECURE MANY ADDITIONAL RECOGNITIONS.

(Special to The Daily News)

Kaslo, Sept. 25 — The second day of Kaslo's second fair passed off successfully, the attendance being good and although not as numerous as on the first day. The chief feature of the day was the racing, but there was a good deal of interest taken in the sports and pastimes provided generally. The weather was ideal and added zest to the enjoyment of the holiday makers. The bannock making contest was extremely diverting and was won, amid great applause, by J. W. Cockle.

The quarter mile dash was won by Kootenay Belle, the race being run in three heats resulting as follows: First heat, 1st Kootenay Belle, 2nd, Kirke; 3rd, Colonel. Second heat, 1st, Kirke; 2nd, Kootenay Belle; 3rd, Colonel. Third heat, 1st, Kootenay Belle; 2nd, Kirke, 3rd, Colonel.

The district prize was won by Grand Forks, there being only two competitors, Grand Forks and Kaslo. Grand Forks' win was by a majority of 28 points out of a possible total of 375.

The following prizes were adjudged last night and this morning in addition to those already published:

WILL HAVE TO FAST.

Ottawa, Sept. 25.—The attention of the Hon. R. Wescott, secretary of state, has been called to the fact that Thursday, October 31st, the day fixed for Thanksgiving, immediately proceeds All Saints day, and is therefore a "fast" day in the Roman Catholic church. This will preclude the members of that church enjoying their usual Thanksgiving turkey. It is improbable that the date will be changed for this reason.

CAN'T AGREE

The Proceedings at Hague Conference are Making no Progress

The Hague, Sept. 25—Joseph H. Choate, head of the American delegation in the peace conference is ready to acknowledge the defeat of his pet scheme for the establishment here of a permanent court of arbitration but he and James Brown Scott, solicitor of the department of state at Washington, and a member of the delegation, are doing everything possible to induce the majority of the delegation to adopt Mr. Choate's last proposal, namely, the election of 15 judges of the court by direct vote of the governments, in the forthcoming plenary sitting of the committee on arbitration.

Sir Edward Fry, Great Britain, opposed the American plan, and suggested that the project be submitted to the governments for study.

Dr. Rur Barbosa, Brazil; M. Merry von Kaposmere, Austria; and baron Marschall von Bieberstein, Germany, maintained that it is impossible to agree on the election of the judges and that it is unfair to recommend to the governments a scheme which the committee has approved only conditionally, subject to a solution of the question of the election of the judges.

GREAT TUNNEL ACCIDENT

FRENCH EXPRESS TRAINS RUN INTO ONE ANOTHER.

AWFUL PANIC ENSUES IN THE SMOKE AND DARKNESS.

Mantes, France, Sept. 25.—The trans-Atlantic train carrying first-class passengers from Paris to Cherbourg, where they were to embark on the White Star line steamer Adriatic, was telescoped today in the Breval tunnel. Twenty persons were injured.

The train taking passengers to Cherbourg from embarkation on the North German Lloyd steamer Crown Prinz Wilhelm, which was following the train having on board the Adriatic's passengers, proceeding to her destination by another route.

The disaster is said to have been due to the negligence of the crew carrying the trans-Atlantic passengers, as no lights were burning in the rear of the train and no torpedoes were placed on the track behind it as required by the regulations when a train halts in a tunnel. This neglect caused another train to run into the passenger train bound for Cherbourg. The train with the Adriatic's passengers left Paris in two sections. The first containing the second-class and baggage and stopped just beyond the Breval tunnel, owing to an accident to her locomotive. The second section containing the first-class passengers was stopped by a signal when in the middle of the tunnel. The regular train from Rouen followed the second section of the passenger train for Cherbourg, and although there was a red signal up at the entrance of the tunnel, it only reduced its speed and entered while going at the rate of twenty-five miles an hour. The collision followed.

The Rouen train crashed into the rear car of the trans-Atlantic train, causing a horrible wreck. The locomotive of the Rouen train completely telescoped the rear coach of the trans-Atlantic train and in the smoke and darkness an awful panic ensued. It was a miracle that nobody was killed. Nineteen persons were taken out of the wreckage. Several of them were suffering from broken bones, but no one was fatally hurt. An American girl, who was going home with her mother was caught in the wreckage and pinned down by some iron work. Hours elapsed before the girl was extricated from her painful position. Her mother escaped uninjured.

The Adriatic's male passengers after they had recovered from the panic following the collision went manfully to work in aiding in the rescue of the injured who were taken to the hospitals at Mantes and Bonnieres. Thanks to the officers of the prefect of Mantes and the railroad authorities a new train was soon made up and the Adriatic's uninjured passengers proceeded to Cherbourg.

Paris, Sept. 25.—The names of the persons injured in the wreck in the Breval tunnel were not obtainable this evening at the office of the White Star line, where official dispatches without details, had been received up to 4:30 p. m.

OFFICIALS EXONERATED

Toronto, Sept. 25—Premier Whitney today handed out a statement as to the reports and recommendations of A. J. Russell Snow,, as a result of the investigaton into the management of the institute for the deaf annd dumb at Belleville and the institute for the blind at Brantford. In the former case the investigation was ordered as a result of the charges made prior to the resignation as principal of R. Mathieson, now the supreme secretary of the Independent Order of Foresters. The commissioners' report reflects great credit on Mr. Mathieson's conduct of the institution and as for the charges which were of a trivial nature, they were dismissed in words that only add to Mathieson's good record. In regard to the institute for the blind, of which H. F. Gardiner is principal, some charges against him are unfounded, others are not of importance and are treated as they deserve. Changes in the staff are recommended. One member is mentioned as having actively assisted in elections.

It is understood that the recommendations made in respect to both institutions with a view to bettering their accommodation and efficiency have been considered and will in the main be carried out. The government regards the reports as exonerating both men, whose conduct was questioned.

MANITOBA LEGISLATURE

To Meet Early in January—Massage Healer Fined in Court

Winnipeg, Sept. 25—The local legislature will be called together on the second Thursday in January.

Hon. Maurice Raymond Gifford, C.M.A., and Mrs. Gifford, are in the city. Hon. Mr. Gifford is a son of the late lord Gifford, chief justice of the common pleas in England, and is an old time western Canadian settler, having farmed and ranched in the early 80's in the Qu'Appelle valley.

"Dr." Axtell, a local massage healer, was fined $25 this afternoon for violating the medical act.

MUNICIPAL OWNERSHIP

Edmonton Street Railway to be Sold to English Capitalist

Edmonton, Sept. 25—A special meeting of the city council was held tonight to discuss the sale of the street railway to Geo. Baker an English capitalist, provided a satisfactory offer was made. On account of the shortage of money to carry on the city, the municipal ownership idea is apparently falling through and all the aldermen are in favor of selling the street railway, with the exception of alderman Walker. He stated that he thought the city had a good thing in the street railway line and that they should hold on to it at all costs.

WANT SKILLED LABOR.

Toronto, Sept. 25.—Both Dominion and Ontario governments were subjected to criticism at this morning's session of the Canadian Manufacturers' Association. The general ground for complaint was that both governments were not encouraging the emigration of skilled labor.

NEW ATLANTIC SERVICE.

Montreal, Sept. 25.—When seen tonight, sir Thomas Shaughnessy stated that the question of a twenty-two knot service on the Atlantic was a vital one and a live issue for the C. P. R. The question had come up at the last annual meeting and today's report was a further step in the negotiations for the improvement of the Atlantic service and the transferrence of the present Atlantic Empresses to the Pacific route. The new vessels projected will make the distance from Halifax to Liverpool in four day and eight hours, giving a much shorter time between Europe and America.

DEATH OF EX-M. P.

Hamilton, Sept. 25.—Major Frank M. Carpenter, ex-M. P., died suddenly this morning aged 53 years. He was in usual health when he arose and was dressing when he fell over dead. Major Carpenter entered political life in 1889 and for thirteen years represented South Wentworth in the house of commons.

BANK MANAGER HOPEFUL

JUST A HEALTHY CONTRACTION OF CREDIT.

COUNTRY ADJUSTING ITSELF TO BETTER BASIS.

Winnipeg, Sept. 25.—Mr. Balfour, general manager of the Union Bank, when asked as to the general conditions of business said, that after his trip through the west, which had occupied about seventeen days, he felt more hopeful regarding the state of affairs than he did before making the trip. As to collections, Mr. Balfour thought they were fair, considering the weather and the general financial conditions.

Regarding the tightness of money, respecting which there has been so many complaints, Mr. Balfour appeared to regard it as a healthy contraction of credit. When the country had adjusted itself to a better basis of doing business it would be able to do a great deal more business upon the same amount of money. Regarding the future Mr. Balfour was quite hopeful. The reports received regularly from the various branches of the bank indicated that in places where in the latter part of June no crop was expected, from 12 to 15 bushels are now being obtained. At the present prices obtained Mr. Balfour is of the opinion that the cash proceeds of the crop will not fall far short of the total of last year, that is if present prices hold good.

ROOSEVELT AT WASHINGTON.

Washington, Sept. 25.—After an absence of three and a half months from Washington, president Roosevelt returned here from Oyster Bay at 5:57 o'clock this evening.

The president sent word to all newspaper men that he had no appointments for the evening but would spend the time with his family. The announcement was made through secretary Loeb that no cabinet meeting would be held on Friday but that the president would have individual conferences with the cabinet officers who are here.

THIS SEASON'S SHORTAGE

Fort William, Sept. 25—Recently the Lake of the Woods Milling company shipped back from their elevators at Fort William to their mills at Keewatin some 250,000 bushels of wheat and state dthat they will ship back 250,000 bushels more. This would apparently show that the company prefer to make sure of enough old grain to see them through any shortage which may arise on this season's crop.

CLEVER MOVE

Effectual Stop Placed on Jap Influx

MUST ALL GET PASSPORTS

PAPERS MUST BE MADE OUT FOR CANADA SPECIFICALLY—HOLD IS THEREBY OBTAINED UPON GOOD FAITH OF JAPANESE GOVERNMENT.

(Special to The Daily News)

Vancouver, Sept. 25.—Dominion immigration officer Monro has put an effectual stop to the arrival of Japanese from Honolulu by notifying all steamship and transportation companies engaged or likely to be engaged, in such business that no Japanese will hereafter be admitted into this port unless possessing a passport made out specifically for Canada.

This action strikes at the immigration of Japanese also by enabling a strict count being kept, thus noting whether Japan is adhering to the treaty limiting immigration.

Qyuang King, Chinese vice consul states that the actual damage to the property of his countrymen during the recent riot will be $5,000. In addition the Chinese will make a claim for consequential damages, due to loss of business resulting from the riot.

GALLIHER RETURNS.

W. A. Galliher, M. P., came in last night from the east accompanied by Mrs. Galliher. Seen last night at the Hume hotel by a Daily News reporter Mr. Galliher expressed himself as thoroughly satisfied that the Dominion government would do everything possible to restrict Japanese immigration and that he thought that the action reported to have been just taken by Mr. Scott, the superintendent of immigration, to confine all landing of Japanese to those individuals who possessed imperial passports, would test the bona fides of the Japanese government as to the restricting of emigration from their own country to Canada under the previous arrangement. This was to allow one passport to one individual from each of the forty provinces of Japan per month. Should this course fail to be satisfactory to Japan the much graver question of reconsidering the treaty is one which the Dominion government will have to entertain

UNDER ALIEN LABOR ACT

IMPORTANT JUDGMENT GIVEN AT MONTREAL.

DOES NOT APPLY WHERE LABOR CANNOT BE GOT HERE.

Montreal, Sept .25.—Judge Choquette this morning rendered judgment in two important cases under the alien labor act.

Two prosecutions for infraction of this law were instituted before the court of special sessions by Gustave Francque, president of the International Trades and Labor Council and seven actions for seven penalties of one thousand dollars each were instituted by the same complainant in the sperior court against the Dominion Car & Foundry Co., Limited, and its officers. The company defendants pleaded that the establishment of a plant for building steel cars was a new industry in Canada and that skilled labor for that purpose could not be obtained in Canada and that they were consequently exempted from the provisions of the act and obliged for the prosecution of such industry to bring skilled steel car builders from the United States.

Judge Choquette maintained this defense and held that the manufacture of steel cars was a new industry in Canada, that the defendants had advertised in the Montreal newspapers for hammer riveters and made inquiries through their officers to obtain skilled labor for the purpose without avail. The learned judge held that while the importation and employment of aliens was prohibited for the protection of the Canadian workman, the application of the act could not be pressed so far as to cripple another new industry established in Canada requiring employment of skilled labor and that it was not shown that any Canadian workingmen skilled in this work had been prevented or deprived from obtaining employment.

BIG STRIKE.

Halifax Dry Dock Employees Go Out for Higher Wages.

Halifax, Sept. 25.—A big strike is on at the dry dock where repairs are being made to the Oscar II. The men went out this morning for an increase of wages, demanding $3.50 per day and $2.50 per day for helpers. The whole trouble has been the importation of workmen from England, but the new men have joined the local union and are standing in with the Halifax machinists. They allege they were hired in England and the local unions' lawyers are looking into the case. Ninety men in all are out and as the dock expenses are high the situation is serious.

CIVIL SERVICE.

Dominion Commission Hear Deputation at Toronto.

Toronto, Sept. 25.—The Dominion civil service commission commenced its sessions in Toronto this morning and heard deputations representing the letter carriers association, the railway transfer agents and the railway mail clerks.

The letter carriers asked to be placed on the same basis as third class clerks with promotion according to efficiency. They also asked for superannuation after twenty-five years service. The railway transfer agents wanted the same salaries as paid in the United States, where they range from $600 to $1200. The railway clerks asked for a maximum salary of $1500 instead of $1200 as at present.

RAILWAY MEN PROTEST.

Toronto, eSpt. 25.—A deputation of railway men waited on atorney general Foy this morning to protest against the activity of that official in regard to criminal proceedings against railway men after wrecks. The suggestion was made that the government should employ an expert on railway matters who would conduct an investigation after a wreck and give his opinion to the jury.

CHARGED WITH IMMORALITY

Lincoln, Neb., Sept. 25—The trial of Rev. Wilbur P. Ferguson, pastor of the University Place, on charges of immorality, began in St. Paul's Methodist church this afternoon, before a jury of 13 Nebraska ministers. The Rev. J. T. Roberts of Table Rock, presided in place of bishop McDowell, who is presiding over the conference. Ferguson is charged with improper conduct with Mrs. E. A. Cross, who is the principal witness for the prosecution. The first charges were filed with the presiding officer of this district on July 11 and the official investigation took place on July 15. The Rev. Ferguson was suspended from the ministry pending the action of the conference. He was formerly a pastor in Los Angeles and Newark, N.J.

MARRIED FOR LOVE

London, Sept. 25—The countess Montagnoso, ex-crown prince of Saxony, and Signor Hoselli, the music teacher, were married today at a registry office in the Strand in this city.

Only three witnesses were present at the marriage which was surrounded with profound secrecy. The couple who have been staying at an obscure London hotel, left the city immediately after the ceremony.

EMINENT EXPERT ENGAGED

Ottawa, Sept. 25—Leon F. Messieff, engineer of the department of bridges, New York City, has been appointed by the Dominion government to inspect and report on the collapse of the Quebec bridge.

CALL OUT ALL OPERATORS

NEW YORK TELEGRAPHERS TO TAKE ACTION.

WANT PRESS AND BROKERS' MEN TO QUIT.

New York, Sept. 25.—The New York local of the telegraphers union voted tonight to call out all leased wire operators employed by the press and broker offices in this city, if such action shall be sanctioned by the national officers. Action by the national officers will be awaited before anything further is done. It was voted also to ask the national officers to issue a call for the brokers and press telegraphers throughout the country to quit work. The demand upon the men who are now working under contract is made in the interests of those who have struck against the Western Union and the Postal Telegraph companies and the Associated Press.

PURE FOOD CAMPAIGN

Lincoln ,Neb., Sept. 25—Food commissioner Johnson is beginning a campaign against the packing houses which are offending against the pure food law. Packages of meat must hereafter have the net weight stamped upon them. To start his campaign for packages of honest weight Johnson today ordered the country attorney of Douglas county to institute proceedings against the South Omaha packing houses. It is alleged that packages of bacon are wrapped in paper or cloth until 5 or 6 per cent of the stamped weight is thus accounted for.

UNLUCKY SPORTSMEN

Quebec, Sept. 25—Athelston Gaston, a retired merchant of Meadsville, Pa., was shot and almost instantly killed on Monday by Johnson of Spruce Lake. Both men were hunting in the Trenton club's preserves, 90 miles north of this city. They wounded a moose and Johnson and the guides pursued it for a while leaving Gaston in a boat on the lake. After a while they abandoned the chase, returning to the place where Gaston had been left. Johnson thhgeuoht qUaatak shrdl cmfwy cmfw thought he saw a caribou in the bushes and fired twice. The second shot killed Gaston.

THE FATAL CROSSING

Kenora, Sept. 25—About 2 o'clock this morning a fatal accident occurred at the C.P.R. crossing at Norman. Two young men, Otto Olson, proprietor of the Stockholm restaurant and Charles Dalkrist, were returning from a Swedish dance at Norman and were crossing the track when their rig was struck by a switch engine and both were instantly killed. The rig was reduced to matchwood but the driver, Harry Hayden, though thrown some 200 feet escaped with a few bruises. He was conveyed to the Jubilee hospital. The team of horses were uninjured. Coroner Chapman was notified and an inquest will be held.

NINE HOURS AND MORE PAY

Winnipeg, Sept. 25 — Having completed their negotiations wth the boiler makers and the machinists, the officials of the C.P.R. are today dealing with the blacksmiths, who are asking for a new schedule corresponding to those which have been been granted to the other departments. It is conceded that the men will be granted the 9-hour day with a slight increase in the daily rate of pay. The negotiations will probably occupy two or three days.

SALE OF LA ROSE MINE.

Toronto. Sept. 25.—It is reported in mining circles that La Rose mine has been sold to English interests. The exact price could not be learned, yet it was said the mine would be underwritten in England for $50,000,000.

TEN YEARS FOR ROBBERY

Montreal, Sept. 25—Robert Hazelton, the St. Croix bank robber, was yesterday sentenced to ten years in St. Vincent du Paul penitentiary.

SIGNIFICANT STATEMENT

ANGLO - RUSSIAN CONVENTION MADE PUBLIC.

TRADE IN PERSIAN GULF TO BE MAINTAINED.

London, Sept. 25.—The text of the Anglo-Russian treaty was made public by the foreign office tonight in conformity with an agreement for the simultaneous publication in St. Petersburg and London. The time originally fixed for this publication was September 26th but it was found advisable to hasten it by one day. A letter from sir Edward Gray, the British foreign secretary, accompanies the text. It points out that the arrangements respecting "Persia is limited to the regions of that country contiguous to the frontiers of Great Britain and Russia in Asia, and as the Persian gulf is not a part of these regions, it is therefore not considered necessary to introduce into the convention a positive declaration with respect to Great Britain's special interests in the gulf, which are an outcome of British action in these waters for more than 100 years."

Continuing the foreign secretary says his majesty's government will continue its direct efforts for the preservation of the status quo and the maintenance of the British trade in the Persian gulf, but it does not desire to exclude the legitimate trade of any other power.

In diplomatic and political circles that statement of the British position in considered significant.

NEW WORLD POWER.

Russian Paper Warns Country of America's Evident Intentions.

St. Petersburg, Sept. 25.—The Novoe Vermya today published an article entitled "The new world power," picturing the marvellous growth of America as a sea power during president Roosevelt's administration, warning Russian diplomacy not to be caught unawares by coming events, and adding that the day when the United States' fleet passes out of the Strait of Magellan and sweeps proudly into the waters of the Pacific will open a new era for the eastern world. Official courtesies and the temporary lull in war talk do not disguise the fact that America is reaching out for the mastery of the Pacific, and already is strong enough to attain it. She entered the race for it in the spring of 1903, when congress voted the navy bill and the Panama bill, both essential to the object in view. Without any noise except the ceaseless rumble of machinery, the mighty nation succeeded in forging a sea power already including 25 battleships and having its docks crowded with many more vessels. The American people are not lured by the glamor of mere display. Their purposes are deeper. Kindred of England the American creed is that commerce follows the ag. Her object is incompatible with mere desire for the trade in the far east. England won the throne of the Atlantic from Spain, Holland and France. America is about to challenge her rival for the throne of the Pacific.

HELD RESPONSIBLE

Montreal, Sept. 25—The coroner's jury today held three men criminally responsible for the death of Alfred Robertson, who was killed in a collision between Grand Trunk trains at Vaudreuil on Sept. 20—They are Clarence Powell, brakeman on one of the trains; Loyal Sheets, operator at Vaudreuil and S. Stata, operator at St. Dominique. Conductor Cameron who was seriously ill at the time, was exonerated.

BORDEN AT VICTORIA.

Victoria, Sept. 25.—R. L. Borden, leader of the opposition in the federal house was the guest of honor of the Canadian club at luncheon today. Mr. Borden visited the fair this afternoon and was greatly pleased with the exhibition. He addressed a public meeting at the theatre this evening.

WINNIPEG FIRE.

Winnipeg, Sept. 25.—The Waldorf hotel at Winnipeg beach today was destroyed by fire. The loss on building and contents is $15,000. Joseph Reed of Vancouver owned the building and his loss will be several thousand dollars.

TO ARBITERS

Disputing Companies Should Submit Their Case

EARL GREY'S PROPOSITION

EMINENT BANK MANAGERS MIGHT ADJUDICATE IN DISPUTE OF WARRING STEEL AND COAL CONCERNS — GENERAL NEWS NOTES OF OTTAWA.

Ottawa, Spet. 25.—Writs for the bye-elections in London, East Northumberland and North Wellington, will be issued in a day or two. The nominations will likely take place on October 17th and the polling a week later.

Sir Wilfrid Laurier goes to Toronto tonight to attend the banquet of the Canadian Manufacturers' Association on Thursday evening.

The government printing bureau is making good progress on preparation of annual departmental reports.

The Canadian club of Ottawa have invited Rudyard Kipling when here to speak at one of their luncheons. It is thought he will accept, but wireless message from him on board the Empress of Ireland this afternoon expresses his thanks for the invitation but adds that his dates and plans for his Canadian visit are as yet uncertain.

Earl Grey has submitted to the presidents of the Dominion Coal and Dominion Iron & Steel companies a proposition to arbitrate their disputes by reference to some impartial tribunal, and following the suggestion, his excellency names E. S. Clouston, general manager of the Bank of Montreal and Byron E. Walker, president of the Canadian Bank of Commerce. It has also been suggested that his excellency add three more names, viz., those of sir Thomas Shaughnessy, president of the C. P. R., sir George Drummond, president of the Bank of the Bank of Montreal, and Hon. Mr. Fielding, minister of finance.

John McTierman, in jail at Bryson, Quebec, awaiting trial for manslaughter, died in his cell yesterday in presence of his brother Robert, the coroner and jail physician.

Sir Wilfrid Laurier and his cabinet have approved of the plans of the G. T. R. submitted to them. This means that the $1,000,000 new central station and the $1,500,000 hotel to be put on Major Hill park, owned by the government, are to be started within three months. The government will get $100,000 for the land and the city will grant certain fixed assessments.

The earthquake which is thought to have occurred some place on the Pacific coast and to the south, was registered on the seismograph at the Dominion observatory here at 8 p. m. on the 23rd instant. When the Dominion astronomers examined the seismograph yesterday afternoon they stated that it did not indicate anything severe and in a rough estimate they thought it might have been not much over two thousand miles from here.

The labor department have been notified of the wrap dressers strike in Almonte. The strikers having learned that the department would act if a petition were signed, they consulted the overseers but so far they have refused to sign, claiming that there is nothing to arbitrate. The effects of the lockout are being felt and some of the operatives are leaving Almonte.

The poor pay of teachers throughout Ontario is driving men out of the business this year. Out of 102 teachers in training at the provincial normal school here only six are men.

The minister of justice has been applied to for the release of Mark Reid of Hamilton, the Grand Trunk engineer who was recently sentenced to nine months imprisonment for breach of rules, which resulted in the collision at Gourock.

Col. Godeaux, deputy minister of marine and fisheries, has received reports from captain Holmes Newcombe, master on the Canadian government steamer Kestrel, which gives information about two dangerous uncharted rocks off Banks' island, by Barkley sound, on the west coast of Vancouver island. As a result, detailed information regarding both of them has been issued to mariners so they can avoid these shoals in future. It is also announced by the department that a combined gas whistle and bell buoy has been established by the Canadian government off Swiftsure bank at the approach to the Juan de Fuca straits. This was instituted as a result of reports from the agent at Victoria, B. C. Several other gas burners have been established on the British Columbia coast for the guidance of mariners.

WANT MORE WAGES.

Montreal, Sept. 25.—With the appointment of the board of commissioners to arbitrate the dispute between the C. P. R. and their telegraphers comes the announcement that the Canadian Northern railway operators are also asking for an increase in wages.

GRAIN RECEIPTS

Winnipeg, Sept. 25—Grain receipts at different points on the C.P.R. lines on Monday amounted to 79,000 bushels, 76,000 bushels of wheat and 300 bushels of other grain. The total grain receipts to date since Sept. 1 amounted to 693,000 bushels of wheat and 75,000 bushels of other grains.

TIMES ON SOCIALISM.

The London Times of September 7th gives over three and a half columns to a summary of the reports submitted to the recent socialist congress at Stuttgart from the several countries represented at the meeting. The Times is the only paper which published any such summary. It also had a leade... this long article.

This article, says the Times, "gives a condensed account of the present position of the socialist movement all over the world, with the exception of Great Britain, and we agree with the writer, who was himself one of the British delegates to the congress, that a careful study of the facts will serve a useful purpose. Attention to facts is always advisable ,though socialists rarely follow the precept themselves, unless the facts are agreeable to their own views.

"The first thing to notice is the very widespread character of the movement. It embraces mankind, if not from China to Peru, at least from Japan to Chile, which is much the same thing. It includes new worlds and old, little countries and big, democracies and autocracies, peoples rich and poor ,agricultural and commercial, cultured and rude, intellectual and ignorant. In a word, it is world-wide ,and growing—undoubtedly growing. To ignore the fact would be foolish. But the cool observer, who is not yet convinced that the infinitely complex structure of economic relations —the slow organic growth of centuries —can be suddenly destroyed and superseded by an artificial system based on superficial and illogical theories, will not be disturbed by what he sees when he looks the facts in the face. . . .

"The international solidarity which is an essential condition for their success has only a nominal existence. Socialists may come together from all parts of the world and call themselves by the same name, but what does the name mean? It covers innumerable shades of opinion and differences which are irreconcilable at bottom. . . . Behind this happy reunion lies a far more ominous difference, which is passed over with studied reticence. It touches what is the most interesting feature of the present situation in all the more important countries—namely, the relations between organized labor and organized socialism. The real strength is with the trade unions ,alike in England, Germany, France, and the United States, though the power and character of unions differ greatly in each. They represent a real interest; they have numbers and they have means, more or less considerable. Socialists merely represent a theory, and their membership, which is numerically small, is drawn chiefly from the bourgeois, not the proletarian class. Socialism has now for many years been trying to capture the trade unions, and very substantial progress as it has made has been achieved through them. Its success varies widely in different countries.

"In Germany it is, perhaps, greatest, but even there a vigorous trade union movement is being directed against socialism. . . . In France there is at present active antagonism on the part of an important section of organized labor. The Confederation Generale du Travil, a central organization to which some 2000 unions with 300,000 members are affiliated, will have nothing to say to the socialists, who are accused of being mere politicians and not representative of the labor interest at all. But whereas in England and Germany the trade unions are the more conservative element of the two, it is not so in France. The Confederation Generale is imbued with anarchical sentiments, and relies on direct action, which means the threat of a general strike, to get what it wants."

The First Great English Novel That Has Appeared in the Twentieth Century.

Such is the term applied to

JOSEPH VANCE

By William DeMorgan.

"It is a book, not of the last year but of the last decade; the best thing in fiction since Mr. Meredith and Mr. Hardy, a book that must take its place by virtue of its tenderness and pathos, its wit and humor, its love of human kind and its virile characterizations, as the first great English novel that has appeared in the twentieth century."

MINARD'S LINIMENT CO., Ltd.

Dear Sirs—While in the country last summer I was badly bitten by mosquitoes, so badly that I thought I would be disfigured for a couple of weeks. I was advised to try your liniment to allay the irritation and did so. The effect was more than I expected, a few applications completely curing irritation and preventing the bites from becoming sore. MINARD'S LINIMENT is also a good article to keep off the Mosquitoes. Yours truly,

W. A. V. R.

NEWFOUNDLAND FISHERIES

St. John, Sept. 25—An imperial rescript forbidding the service by any colonial authority of any legal precess regaring fishery rights aboard anw American vessel and suspending all the colonial statutes authorizing colonial officials to seize American vessels for alleged fishery offences was proclaimed here today. This it is believed, will make it practically impossible for premier Bond to carry out his recently announced decision to enforce the colonial fishery laws.

Washington, Sept. 25—Great Britain having entered into a modus vivendi with America, continuing the rights of American fishermen to ply their vocation in Newfoundland waters, pending a special determination of these rights by the decision of the Hague arbitrators, according to the view of the officials here, the British government to keep good faith, could do no less than intervene by an order in council to prevent sir Robert Bond, the Newfoundland premier, from carrying out his alleged policy. It is stated here that when sir Robert Bond went to London recently he was fully acquainted with this purpose by the British government. His threat to enforce colonial laws was passed with the deliberate intent of depriving American fishermen of what is regarded here as their treaty rights, and is looked upon by Washington officials as a bluff.

According to a report to the department of state sir James Winter, who preceded sir Robert Bond as premier there, in an interview, said: "The feeling in the colony is either one of indifference and even ignorance of the whole question, and with a part of the population, even strong antagonism to premier Bond's policy. The only fisheries in the colony which are directly affected by the present question are those which are much better served by being left alone, that is, not interfered with by sir Robert Bond, fisheries which are accordingly preserved and conserved by the modus vivendi.

AFTER THE RAILROADS

Washington, Sept. 25—Unite dStates attorneys in various parts of the country today were instructed by Attorney general Bonaparte to institute suits against a large number of railroad companies to recover penalties incurred by them for alleged violation of the safety appliance law. The department of justice and the interstate commerce commission have decided upon a rigid enforcement of this law. The facts upon which the prosecutions are to be based were developed by inspectors of the commission. The number of violations aggregate 287. Among the lines made defendants, together with the number of violations charged against each company, are: Great Northern, 22; Illinois Central, 4; Chicago R.I. and Pacific, 36.

NURSES ON STRIKE

St. Paul, Sept. 25—Eight of the eleven nurses at the city hospital went out on strike yesterday alleging harsh treatment by Mrs. Campbell, the matron. The nurses claim that unless they were critically ill, they were not allowed the services of a physician and in one case they say, one of their number had a temperature of 104 4-5 and yet was denied attendance and the nurse reporting her condition was reprimanded. Many other grievances are claimed to exist. The hospital management, however, say it is simply a case of insubordination.

BOOTH AT HALIFAX.

Halifax, Sept. 25.—General William Booth was accorded a fine reception at the city hall yesterday afternoon. Lieutenant-governor Fraser, premier Murray and judge Longley, and other dignitaries of state and church being present. A special meeting of the city council was called and an engrossed address was presented on behalf of the corporation. The general in replying, outlined the work of the Salvation Army and referred to many important recent innovations. After the reading of the address and th ereplying thereto this afternoon, a largely attended informal reception was held. In the evening general Booth lectured to a large audience.

COMMISSIONER TO ORIENT

SPECIAL ENVOY WILL BE SENT AT ONCE.

CHINESE WANT ADMISSION TO VICTORIA SCHOOLS.

Ottawa, Sept. 25.—The government has under consideration the question of sending to the Orient a special commissioner to investigate and report on the whole problem of Asiatic immigration in Canada and also to urge personally at Tokio, Canada's request that an annual limit of about 600 be placed by the Mikado's government upon the number of passports issued to immigrants bound for this country.

It is felt that the Canadian view-point in regard to Japanese immigration can be more effectively brought before the attention of the Japanese government by direct presentation of the case in personal interviews with the ministers at Tokio, than by formal exchange of correspondence.

Mr. Ishii, the Japanese envoy who was recently in Ottawa, will of course report to his government, but a strong Canadian representative, to impress upon the members of the government at Tokio, the representations made to Mr. Ishii by the Canadian ministers, will undoubtedly have a stronger influence toward bringing about the arrangement desired by Canada.

The government also realizes that the problem of Oriental immigration is bound to become an increasingly important one, as Canada's advantages and opportunities become known in Japan, Chian and India.

To deal with it, it will require a thorough knowledge of the character of the Asiatic people and adaptability of discrimination with the population on this side of the Pacific, conditions as to the direct overflow of the people from Asia to this continent, and the best means of checking and controlling that immigration. The economic aspects of the porblem must also be studied at first hand.

The responsibility of the commissioner to be charged with this task is evidently very great and his mission will require thorough statesmanship and a fine diplomacy. But who will be sent is not definitely decided upon, but according to the present views of the ministers here no time will be lost in appointing and sending a commissioner. The government is thus perparing to solve in a statesmanlike manner one of the most difficult and complex questions now confronting it.

A monster petition signed by hundreds of British Columbians in now on its way to the premier, sir Wilfrid Laurier. It prays that, regradless of foreign countries and all sentimental and political considerations, the government immediately pass such legislation as may be requisite to insure the absolute exclusion of the Orientals from the Dominion of Canada. Sor far, the Japanese government has made no claim on the Dominion government for damages on account of the Vancouver troubles.

Victoria, Sept. 25.—The local Chinese have determined to ascertain what their rights are under the provisions in the Dominion law in regard to students entering Canada as students. The law reads that a Chinese entering Canada as a student must pay the usual head tax of $500, which however he can get back at the end of the year by presenting a certificate that he has attended school for that length of time. Several new Chinese arrivals have applied to the school board recently to attend classes but were refused admittance, the board holding that the presence in the classes of Orientals not able to talk English would affect the progress of other pupils of the class. The only other alternative was to fit up a separate class room with a special teacher for the Chinese. This the board did not feel disposed to do. The Chinese have given notice of legal action to force the board to admit them to the schools. The provincial government will defend the case for the city school board.

NOTICE TO DELINQUENT CO-OWNER

To James Livingstone, or any other person or persons to whom he may have transferred his interest in the Alberta Mineral claim, situated on the First North Fork of Lemon Creek, in the Slocan City Mining Division of West Kootenay district, and recorded in the Mining Recorder's office at Slocan, B.C.

You, and each of you, are hereby notified that I have expended the sum of four hundred and ten dollars ($410.00) in labor and recording fees upon the above named mineral claim in order to hold the same under the provisions of Sec. 24 of the Mineral Act; and that if, within 90 days from the date of this notice, you fail or refuse to contribute your proportion of the aforesaid expenditure, which is two nundred and five dollars ($205.00) for the four years ending the 12th day of July, 1907, together with all costs of advertising, your interest in the said claim will become vested in the undersigned, under Sec. 4 of the Mineral Act, Amendment Act, 1900.

Dated at Slocan, B.C., this 15th day of July, 1907.

HON. R. L. BORDEN

The local conservatives have about completed arrangements for the meeting in the opera house on Saturday night, at which R. L. Borden, Hon. Richard McBride and other prominent conservative speakers will be present to address the public. Accomodation is being made on the stage for seating visiting delegations from the outlying districts, so that none need miss the opportunity of hearing Mr. Borden and those who accompany him on his tour. It is expected a large delegation of the faithful will be present from Rossland, Trail, Kaslo and the Slocan district, as well as from Ymir and other points along the line of the N. & F. S. railway. Convention rates have been secured from the C. P. R. from all stations on their lines in the Kootenay district, which will enable visitors to secure a low transportation rate if they will remember to apply to the agent for a standard certificate when purchasing their tickets. These certificates will require to be endorsed by the secretary of the local association to secure the advantage of the low rate for return. Mr. Borden and party will reach Nelson about 8 p. m. Saturday, by special service from Nakusp via Roseberry and Slocan lake. They will spend Sunday in Nelson, leaving for Grand Forks on Monday morning, where a meeting will be held the same evening.

THE STRUGGLE FOR LIFE

TRADE UNIONISTS ARE TIRED OF SOCIETY AS IT IS

VAGUE DISCONTENT ABROAD IN ALL CLASSES

"The pronouncement of the British trades unionists in congress assembled that they 'are tired of society as at present constituted' is of singular significance, following so closely as it does upon the great upheaval which marked the general election," says a writer, "Politicus," in the London Daily Mail. "It raises the question as to whether a very large part of the population of these islands does not desire some revolutionary change in the conditions of life. For it is not only the trades unionists who are dissatisfied.

"There is a vague discontent abroad in all classes—a feeling that the prizes of life are very few and the blanks many, that the times are out of joint, that to raise from the humbler walks of life is becoming increasngly difficult and that the masses of mankind are condemned to labor for the benefit of a few who reap in ease all the advantages from their toil and do not share their sufferings. The poor man who is in the vast majority, so far as voting power is concerned, appears to hold that society 'as at present constituted' means wage servitude for life with little chance of independence, and none of affluence. The middle class are as vaguely discontented as the workers, but their discontent is less articulate because they are not organized and have no leaders.

"It is on such grounds as this that socialism sows its seed with such success. It is useless to abuse socialist without understanding exactly what are the causes of the discontent, what are the remedies the discontented would apply. What is it of which men are tired? What is it exactly that they propose to set up in its place? It would be of the deepest interest as a social study—as a means towards the true understanding of socialism—if the sufferers and the aggrieved would tell us. Let them set forth in plain terms what they desire and of what they complain.

"Among the causes of this outburst of discontent and pessimism appear to be the decline of the power of religion over the masses of men, the weakening of the family tie, and the want of discipline and restraint. The poor see, or think they see, in socialism a short cut to comfort and well being. They can take what they want from the rich, or from the very rich by using their votes and they imagine they themselves will be much better off and much happier, while the rich have so much to spare that they will not suffer. Such, at least is my reading of their view . . . .

"We cannot forget that the struggle for life is a hard and terrible thing. Even those who have succeeded in it can never desire to enter the battle anew. Yet if humanity is to progress this battle seems inevitable; each individual must pass through it to fall or conquer by his own efforts; and it may well be asked whether any attempt to remove it by making life easy for all would not inevitably and swiftly mean the destruction not merely of 'society as at present constituted,' but of civilization, of progress and of human character and true happiness."

A VERY SIMPLE TEST

TO FIND OUT IF THE KIDNEYS ARE AFFECTED

A HIGHLY RECOMMENDED PRESCRIPTION ANYONE CAN PREPARE

Here is a prescription that anyone can mix at home. Any good prescription pharmacy can supply the ingredients named at little cost; being composed of vegetable extracts it is harmless and inexpensive. Best of all, it does its work well, relieving even the worst forms of bladder trouble, frequent urination, backache, kidney trouble, and by its direct action upon the eliminative tissue of the kidneys, makes these most vital organs rid the blood and system of waste matter and uric acid which causes rheumatism.

Here it is; try it if you suffer: Extract Dandelion, one-half ounce; Compound Kargon, one ounce; Compound Syrup of Sarsaparilla, three ounces.

Shake well in a bottle and take in teaspoonful doses after each meal and at bedtime.

A well known local druggist is authority for the statement that one weeks'trial shows good results in nearly every instance, and such symptoms as lame back frequent desire to urinate, pain in bladder and even chronic rheumatism are generally relieved within a few days, the pain and swelling diminishing with each dose.

RICH FIND OF RADIUM

Geneva, Sept. 25—A newspaper states that professor Joly has completed a geological examination of specimens of strata collected from the borings from the Simplon tunnel. He found rich traces of radium indicating larger deposits than any hitherto discovered in Europe. He believes that the presence of these deposits cause the abnormal heat experienced in building the tunnel. He predicts that continued research will prove the world supply of radium is greater than was expected.

LAME BACK.

This is an ailment for which Chamberlain's Pain Balm has proven especially valuable. In almost every instance it affords prompt and permanent relief. Mr. Luke LaGrange of Orange, Mich., says of it: "After using a plaster and other remedies for three weeks for a bad lame back, I purchased a bottle of Chamberlain's Pain Balm, and two applications affected a cure." For sale by all druggists.

BISHOP INGRAM IN NEW YORK

New York, Sept. 25—The lord bishop of London who has come to this country to take part in the celebration of the 300th anniversary of the establishment of English Christianity upon American soil, at Richmond, Oct. 5, has reached New York from Montreal. The lord bishop will preach a sermon in Old Trinity church on Thursday at noon and will leave the following day for Washington to call upon president Roosevelt. Sunday he will address the annual convention of the Brotherhood of St. Andrew in session there and will preside at the laying of the corner stone of the cathedral of St. Peter and St. Paul. From the capital the bishop will go to Williamsburg, Virginia, and participate in the presentation of an elaborate Book of Common Prayer, the gift of king Edward to the old Bruton parish, which stands on the site of the old city of Jamestown. The prayer book will rest on a bronze lectern presented by president Roosevelt. On Oct. 2 the bishop will be in Richmond for the opening of the triennial convention at which the tercentennial of the establishment of the English church in America will be celebrated.

SAYS THIS IS BEST

A leading health journal in answering the question, "What is the best prescription to clean and purify the blood?" prints in a recent issue the following:

Fluid Extract Dandelion one ounce;
Compound Salatone, one ounce;
Compound Syrup Sarsaparilla, four ounces.

Shake well and use in teaspoonful doses after each meal and at bedtime.

A well-known physician states that these are harmless vegetable ingredients, which can be obtained from any good prescription pharmacy.

This mixture will clean the blood of all impurities. In just a few days the skin begins to clear of sores, boils and pimples. It puts vigor and energy into run-down debilitated men and women. For many years Sarsaparilla alone has been considered a good blood medicine. But while it built up and made new blood, the impurities remained within and the good accomplished was only temporary. Sarsaparilla, however, when used in combination with Compound Salatone and Extract Dandelion, works wonders. This combination puts the kidneys to work to filter and sift out the waste matter, uric acid, and other impurities that cause disease. It makes new blood and relieves rheumatism and lame back and bladder troubles.

NELSON NEWS OF THE DAY

A case of common assault between a couple of Nelson citizens will be aired in the police court this morning.

The city engineer is just now paying particular attention to the sidewalks which are being fixed up for the winter.

The weather yesterday still continued fair despite the equinox. The thermometer varied between 46 and 67 degrees, the day being somewhat cloudy.

City Engineer Lawrence went up on Sunday to the summit inspecting the repairs to the dam and flume of the city bringing water in from Cottonwood lake.

Yesterday were married by Rev. R. N. Powell, George Emrie, a locomotive engineer of Medicine Hat to Miss Jennie McDermid of Sterling, Scotland. The wedding breakfast took place at the residence of the brother-in-law of the bride, S. Barton, Victoria street. The married couple are leaving this morning on their honeymoon trip before taking up their residence at Medicine Hat.

'FRISCO BOODLERS.

San Francisco, Sept. 25.—The inner workings of the confessed boodlers who formerly administered the affairs of San Francisco as a board of supervisors, were laid bare yesterday afternoon during the trial of Tiery I. Ford, chief counsel for the United Railroads, on a charge of bribery.

Thos. E. Lonergan, former supervisor, told on the stand of receiving $4000 with the understanding that it was paid to influence his vote upon the application of the United Railroads for an overhead trolley franchise.

Jas. F. Gallagher, former chairman of the board, related how he had received the sum of $85,000 from Abraham Ruef after the latter had requested and urged him to ascertain how the eighteen members of the board stood with regard to the application for such a franchise and directed him to learn the price for which each member would return a favorable vote.

Lonergan's story was halting, his memory was often at fault, and under a lengthy cross-examination at the hands of Earl Rogers, he made several corrections and additions to his original narrative, but these were unimportant.

The direct examination of Gallagher had scarcely been ended when the day's session closed.

CHAMBERLAIN'S COUGH REMEDY ONE OF THE BEST ON THE MARKET.

For many years Chamberlain's Cough Remedy has constantly gained in favor and popularity, until it is now one of the most staple medicines in use and has an enormous sale. It is intended especially for acute throat and lung diseases, such as coughs, colds and croup, and can always be depended upon. It is pleasant and safe to take, and is unloubtedly the best on the market for the purposes for which it is intended. For sale by all druggists.

TRADE DISPUTES FIGURES.

Ottawa, Sept. 25.—Figures just issued by the labor department show that the number of trade disputes in Canada during the month of August was 26, a decrease of 6 as compared with the previous month. About 200 establishments and 6444 employees were affected. The loss of time was 99,860 working days. Of the 26 disputes in existence, settlements were reached in 7 cases, leaving 19 still unsettled at the end of the month. The employees were successful in 3 disputes, a compromise effected in 1, in another the occasion of the dispute was removed, and in 2 the results were indeterminate, the matters in dispute being left to arbitration and conciliation.

CONFLICTING STORIES.

Portage la Prairie, Sept. 25.—Collingwood Schreiber is quoted as authority for the statement that the Grand Trunk Pacific will be open for traffic between Winnipeg and Saskatoon this year. Locally however, this report is entirely discredited. Practically no steel is laid east of the city and very little grading is done. All the gangs are concentrated completing the line west, and no work at all is being yet undertaken east of here. From present indications it is extremely unlikely that any steel will be laid between here and Winnipeg until next season.

SOCIALISTIC COUNTESS.

New York, Sept. 25.—The Herald says that under the name of Mrs. Greville, the countess of Warwick, widely known for her socialistic work in England, is a passenger on the Campania due here on Friday. Her plans have been so carefully arranged that even in London, few, if any persons are aware of her departure from Great Britain. Her only companion on this voyage is a maid. Her object in coming is not known, except that in a praviate cable the countess stated that it was one of business. In her choice of a name she has chosen that of her husband's family. She is noted in England for her beauty as well as for her socialistic tendencies.

STEAMERS COLLIDE.

Halifax, Sept. 25.—The Allan steamer Mongolian, which was in collision with the steamer Hurona of the Thompson line, on Sunday, in the vicinity of the Straits of Belle Isle, was so seriously injured that she is compelled to return at slow speed to Quebec, with her 150 passengers. The Hurona is also returning to Quebec. The Mongolian sailed from Montreal last Thursday for Liverpool. The Hurona is a freight steamer and is from Middlesborough, England.

FOR FLOWER LOVERS.

New York, Sept. 25.—"Mrs. Theodore Roosevelt," a dahlia named after the president's wife, is attracting considerable attention at the fair of the American Institute in the Berkeley Lyceum. It is a magnificent blossom of flame color, five inches in diameter, and resembles a chrysanthemum, with the elongated jagged petals peculiar to that flower. Several thousand varieties of dahlias are exhibited.

KOOTENAY FRUIT LANDS

A conversation heard on Baker street, Nelson, on August 30th, is as follows:

Q. Who did you buy your fruit land from?

A. Mr. Annable.

Q. Where is it located?

A. At Burton City.

Q. Why do you consider it the best?

A. Well, it is good soil, free from stone, the land is level and there is a nice stream of water which can be run over every block and you can have it piped into your house; and above all he has all the blocks laid out so that each one has a lake shore frontage, and it is close to town and there is a nice settlement, one 90 acre orchard and several smaller ones on the next lots.

Q. How is the price?

A. It is not any higher than others are charging for land away back from the lake shore.

Q. What communication?

A. Two steamers every day and daily mail.

Q. Well I am going to see that Burton City land before I buy. Where is J. E. Annable's office?

A. It is next to the postoffice in Nelson. Good-bye.

Synopsis of Canadian Homestead Regulation

ANY available Dominion Lands within the Railway Belt of British Columbia may be homesteaded by any persons who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres, more or less.

Entry must be made personally at the local land office for the district in which the land is situate. Entry by proxy may, however, be made on certain conditions by the father, mother, son, daughter, brother, or sister of an intending homesteader.

The homesteader is required to perform the conditions connected therewith under one of the following plans:

1. At least six months' residence upon and cultivation of the land in each year for three years.

2. If the father (or mother, if the father is deceased) of the homesteader resides upon a farm in the vicinity of the land entered for, the requirements as to residence may be satisfied by such person residing with the father or mother.

ARREST BUNCO STEERERS

SERGEANT WIGHTMAN MAKES A CLEVER CAPTURE

THREE SWINDLERS ARE PROMPTLY BROUGHT TO JUSTICE

Sergeant Wightman of the city police force added yesterday afternoon, perhaps for the last time, yet another clever capture of criminals to the long list of which Nelson is already aware. The facts of the case are as follows:

Charles Mitchell, a beekeeper of Listowell, Ont., recently received a wire from the Boundary country saying that one of his two sons located there, was seriously ill. Instantly Mr. and Mrs. Mitchell made up their minds to come west and nurse their son. On Tuesday evening they arrived in Nelson and were leaving yesterday for Boundary Falls on the early morning train. While waiting at the union station Mitchell, who is an old man of some 60 years of age, got into conversation with a fair man who stated that his brother, who was a travelling jeweller, had been run over by a C.P.R. car a couple of days ago and had been killed. He had been wired to that effect from Spokane and had instantly come up to this city. Here he had recovered the body of his unfortunate brother, and was taking it down to Spokane for burial. On the same car in the train, the express car, he had some $3500 worth of jewelry belonging to the deceased and some $40 in cash, the property of his brother, which he was taking to Spokane. For safety's safe he had expressed the parcel containing this money and jewelry. Mr. Mitchell was interested and thought nothing particular of the matter, as he was not asked for any money.

"I am 60 years of age," said Mr. Mitchell to a Daily News reporter, "and never have I been done out of a five cent piece. But these men," continued Mr. Mitchell, shaking his head, "were too much for me."

It seems that the man followed Mr. and Mrs. Mitchell on to the cars and carried in a part of their luggage and sat down facing them. This just before the train started. At this moment in came No. 2, "a slick man," says Mr. Mitchell, who said he was the station agent and asked No. 1 for $18 to pay the transportation charges on the corpse down to Spokane. No. 1 fumbled in his pockets and said he had not sufficient money and anyway the charge was too much and would be met in Spokane. No. 2 insisted on prepayment and said that if the money were not forthcoming the corpse would be thrown out of the train. There ensued a wrangle and finally the pretended station master came down to $14 as the charge. No. 1 said that he could not give the money, but that he had far more than its equivalent in jewelry and more than the sum in question locked up in the express company's safe on the very next car and he could certainly pay the amount. No. 2 declared that he could not get that money in that way as the express company would not allow him access to either of his express parcels to Spokane, either of the corpse or of the jewelry and money, unless he first made the necessary prepayments.

"I thought the matter was straight enough," said Mr. Mitchell, "and offered to put up the necessary sum if No. 1 would instantly get the express company to open its safe and give back the jewelry and money package. But I said that I did not know either man and that the station master would have to assure me of the bona fides of the whole matter. No. 2 then left and came back to say that the station master was too busy to come. I would not give up my money, when presently a pug-nosed man came up, dressed very well and identified both No. 1 and No. 2. I then parted with my money, $15, which I gave to No. 2 who started to go away. No. 1 grabbed him and demanded the return of $1 as this was the difference between the $15 which I had given and the charge of $14 which he said was coming. Just then the train began to move. My idea was to hold on to the men until the safe was opened and I got my money back. I did not think they could get out of the train and that I was safe enough. But they did get away and jumped off the moving train. Then the conductor came along and I asked him as to the corpse but he said there was no corpse on board. Then I knew that I was done. The conductor advised me to get off the train and come back to Nelson and see what I could do. So after getting down two or three stations I bought a ticket back, leaving my wife to go on. When I got back to Nelson I went to the C.P.R. people and asked them what they meant by allowing their property to be a means of permitting swindlers to bunco the public. I could get no satisfaction out of them and so went to the police and told them all about it."

Mr. Mitchell made his complaint to the police yesterday afternoon and sergeant Wightman instantly took up the matter. Within an hour he had all three men arrested, capturing two himself, upon the somewhat vague description supplied by the irate beekeeper. The three men captured are H. D. Hatch who was arrested on Vernon street, J. D. Johnstone, in the Kansas City club and the third, who refuses to give any name, on the lake front by acting patrolman Hardy. All three were confronted with Charles Mitchell, who identified them directly.

This is the first case of bunco steering which has occurred in this city for many years and the prompt arrest of the swindlers reflects great credit upon Sergeant Wightman, who displayed an acumen and a promptitude which makes his services doubly valuable to this city.

BORAH'S TRIAL.

Sensational Testimony of Perjured Witness.

Boise, Idaho, Sept. 25.—The first sensation in the trial here of senator William E. Borah came late today when Albert Nugent, the second witness produced by the government, admitted on cross-examination that he had committed perjury in taking out a timber land claim, admitted that he had been promised immunity by an officer of the federal government for testifying, that atthe request of the federal officer he had sworn to a complaint against a man whom he did not know, and lastly proclaimed that he believed it to be the part of his bargain for immunity that he should swear to any complaint against any person, regardless of any knowledge that he might have as to the person's guilt.

When the name of the federal officer who induced him to sign the complaint was asked by senator Borah's counsel, the witness swore that he could not remember it.

The day was given to the introduction of a mass o fpapers on file at the land office here at Boise and the evidence of the two men who said they received money from John I. Wells, with which to prove their timebr claims. Wells is one of the men indicted with senator Borah. Counsel for the latter did not object to this testimony on the understanding that the transaction in question would ultimately be connected in some way with the senator.

The defense scored its first point early in theexamination of the first witness, a man named Anderson. He was asked by special prosecutor Burch what his intent was when he took out a timber claim. Judge Whitson sustained a nobjection based on the ground that a man confessing perjury as Anderson did, could not properly testify as to any secret intent he may have had.

Anderson and Nugent both testified that they received from John I Wells $412 with which to prove their claims and each received $250 additional for transferring the claims to the Barber Lumber company.

Two bills, given to the men by Wells, and a letter were admitted in evidence. Anderson was not cross-examined but Nugent admitted that he had made no agreement to transfer his lands at the time he filed upon them. He said that there never was anything but a verbal agreement and he could not remember where ,or in whose presence such a contract was made. Nugent said he witnessed the papers filed by Anderson and was then confronted by a complaint signed by him charging Louis M. Pritchard with having conspired with Anderson to get a title to the land. Nugent said he did not know any such person nor anything about his connection with the alleged land frauds. He declared that all he knew was what he read in some newspaper that Pritchard was involved. Prosecutor Burch demanded to know of the witness if any officer of the government had ever asked him to swear falsely. Nugent replied that he had always been told to tell nothing but the truth. Mr. Burch said he had never heard of Nugent's connection with the Pritchard complaint and desired time to look into the matter. At this juncture court adjourned until tomorrow.

A Choice Improved Fruit Farm

Containing 41 acres on the east shore of Kootenay lake, not far from Earl Grey's ranch. The soil is a deep red loam with clay subsoil, practically free from rock and can be cleared thoroughly for $20 an acre.

A fine stream is running through the property, with water right of 12 inches. The neighborhood is well settled. As a commercial proposition this is cheap when compared with other land that has been sold nearby.

Eight acres are cleared, there being 500 apple trees, some cherry, plum and walnut trees planted. Also five acres partly cleared. The above description also applies to a ten and twenty acre block adjoining, except that the water record is three and six inches respectively.

Price of ten acre block $100 per acre and for the 20 acre block $80 per acre. Price for 41 acre block, $3500; terms to suit..

NELSON NEWS OF THE DAY

The Tremont hotel is putting in a new floor in its dining room.

J. F. Langan returned to the city last night after a six weeks 'absence.

The city band will give an open air concert this evening at 8 o'clock at the Ward stree band stand.

Mrs. W. O. Rose returned last evening from a three months' visit to her old home in Prince Edward Island.

The two sons of J. H. Wallace left yesterday for the east, the one to attend the medical college in Winnipeg and the other the Toronto university.

There occurred last night the best meeting of the Eagles that has taken place this year. Several new eaglets were admitted to the aerie and were afforded an opportunity of preening their new feathers.

A special meeting of the police commissioners is announced for this evening at 8 o'clock but no intimation has been made as to the course likely to be pursued regarding the present crisis in city police circles.

The friends of Mr. and Mrs. Wm. Irvine will be pleased to learn that Dr. Willson states that their child who was reported so dangerously ill recently was much better yesterday and there is every hope of his recovery if the next few hours are passed safely.

W. A. Galliher, M.P., will leave for the coast Sunday evening to attend the provincial liberal convention.

A good exhibit is going down from this city to the fair at New Westminster which has been arranged by J. Hyslop.

Purser Sherraden of the steamer International leaves tonight over the Great Northern for his old home in Kentucky.

While the accounts of the recent fair have not been as yet made up the directors report that there were over 7100 paid admissions during the four days of the fair to say nothing of the season ticket holders who numbered over 500.

While it is not probable that the contemplated addition to St. Saviour's church, an adition which will double the seating capacity of the edifice, will be undertaken this fall, it is certain that its enlargement will be proceeded with as early as possible next spring.

In the Bunyan-Jewell assault case, a summons was substituted for the warrant first issued and the matter came up before the police magistrate yesterday. No evidence was taken and the case was adjourned to allow of the attendance of an out of town witness. There is a possibility of the affair being settled out of court.

The many Kootenay friends of H. F. Mytton, now declared to be the most popular bank manager in Regina, where he is in charge of the affairs of the bank of Commerce, and who was formerly in Rossland as a pioneer as the manager of the bank of British Columbia and afterwards was in Greenwood as manager of the bank of Commerce, are now congratulating him on his approaching marriage.

The proposals as to the extension of the city wharf and its modification to meet the needs of the Canadian Pacific and Great Northern companies have been submitted to them accompanied by sketch plans. A glance at the plan of the foreshore as it will be after the greatly enlarged pier is erected and the new sawmill by J. Dewar completed, shows that the boat and launch clubs will be in a particularly restricted position. A suggestion has been made that a pleasure pier be built westward from the sand spit at the new city park and that these clubs be given place on the inside between the proposed pier and and the railway track.

"RECOGNITION OF THE UNION."

While there were a great many exhibits sent from Nelson to the Kaslo fair and a few from Kaslo to the fair at Nelson yet there was no official representative of either city at the other place. The president of the Fruit Growers' Association of this city explains that he request was not made to him until far too late, as the collection of an exhibit meant time and money and had therefore replied that while the Fruit Growers' Association would not be represented collectively yet individually there would be many exhibits sent. This promise was amply fulfilled. It might have been possible to send a district exhibit to Kaslo from the exhibits made at Nelson by various Nelson ranchers but in the first place this culling had already been undertaken in favor of New Westminster to which exhibition this city has contributed for many years past and secondly because Kaslo restricted the entries in apples to 20, whereas Nelson had more than double that number of varieties.

On the other hand Kaslo justifies itself in not having sent a district exhibit to Nelson on the ground that there had been no official notification to the Kaslo Fruit Growers' Association of the desire of Nelson to have Kaslo represented. The district exhibit is generally got up by one or more men looking after each district. Without consulting Kaslo Nelson had appointed Theo. F. Adams of Kaslo to get up the district exhibit. On his leaving the country Nelson had appointed, again without consulting Kaslo, A. Lucas, and on his failing them at the last moment had made a personal appeal to the secretary of the Kaslo Fruit Growers, but in his private capacity. The appeal however, had come too late and the Kaslo secretary opines that the application should have been made to the Kaslo Fruit Growers—a "recognition of the union."
