LIBRARY LEGISLATIVE ASSEMBLY.

EDWARD REX DIPLOMAT

King's Visit to Spain and Italy Fraught With Great Import

His Majesty Thought to be Engaged in Forming a Lation Union for Maintaining Status Quo in Mediterranean

London, April 20.—While the officials here minimize the importance of king Edward's tour of the Mediterranean, it cannot be denied that the visits to Cartagena and Gaeta were more than exchanges of courtesies between the monarchs of three great powers. The presence of sir Charles Hardinge, permanent under secretary of the foreign office, and king Edward's personal advisor in foreign affairs, stamps the meetings as being more than acts of civility. Sir Charles joined the king upon his majesty's departure for Biarritz and has been at his side ever since and besides, he has had conferences with the foreign ministers of Spain and Italy.

That The Hague peace conference has been one of the subjects discussed cannot be doubted, but it probably will be found that the main interest lies in another direction. As a prominent diplomat expressed it today:

"Recent events point to the restoration of the Mediterranean to its old primacy by which the relations between the great powers were determined."

What king Edward is aiming at seems, well-informed persons contend, to be a Latin union, supported by Great Britain for the maintenance of the status quo in the great inland sea. Whatever connection Italy has with the plans must have arisen since king Edward's departure from England, as it was not until after his arrival at Malta that his majesty instructed the foreign office to arrange a meeting with king Victor Emmanuel. Whether there will be other conferences has not been made public, but it is certain that king Edward's tour, which commenced with a friendly call on king Alfonso at Cartagena, has been gathering importance as it progressed and the British, with the greatest confidence in the diplomacy of their king, are looking forward to announcements of agreements, such as that entered into with France.

QUEENSLANDERS COMING

WILL PLAY FOOTBALL IN B. C. THIS FALL.

TOUR OF EASTERN CANADA MAY BE ARRANGED.

Ottawa, April 20.—Tom Godfrey, of the Rough Riders Football club, has received a letter from secretary Davidson, of the Quebec Rugby union, requesting him to discuss the feasibility of playing a game between the Rough Riders and the Queensland, Australia, team which is to visit eastern Canada shortly. The matter will be brought to the attention of the club officials in a few days.

The following letter was received by Mr. Davidson from William Unmak, who is American representative of the Queensland team:

Dear Sir,—I have been appointed official representative of the Queensland, Australia, Rugby team in the United States. Queensland is sending a representative team over here to play California, British Columbia, and other teams. I would like to place the matter before your union with a view of the team playing a series of international matches in Quebec province with representative teams. I am also in communication with Kingston, Winnipeg, Hamilton, etc. I would very much like to take the team east in Canada, as I am sure thew will there meet teams able to give them a good, strong, friendly fight. They will be a strong team in every department of the game. Queensland was the only Australian state that had the honor of defeating the last English fifteen that toured Australia. The expenses for such a long trip will be very heavy and if you are in favor of the international matches with the Australian team, I would like to hear what your union could do in the way of financial inducements. The Vancouver union and the British Columbia union have both made very substantial cash guarantees and a hadsome gate percentage as well. The California universities have all made extraordinary inducements and it is due to these institutions that the team is coming over this year. I think it would be a pity for them to have to return to Australia without playing some of the representative teams in Canada. Trusting to hear from you at your earliest so that I can communicate your views to Australia immediately, I remain wours sincerely, (Sgd.) Wm. Unmak.

P. S.—Team will arrive in Vancouver about September or October.

LONE BACHELOR DEAL CLOSED

Sandon, April 20—A syndicate of Cleveland capitalists has concluded a deal for the purchase of the Lone Bachelor, the figure paid being $80,000. A large force of men has been put to work and development upon a big scale will be actively prosecuted from now on. The owner of this property was George W. Petty.

The rich strike of ore on the Elkhorn is proving permanent as the drift is extended. A carload shipment is about to be made and this will be duplicated by many others when stoping begins. Four men are at work.

WEEK'S ORE SHIPMENTS

RECORD TONNAGE SHIPPED FROM THESE DISTRICTS

REMARKABLE RUN OF THE GREENWOOD SMELTER

Two mines were added to the list of shippers this week; the B. C. Copper smelter at Greenwood has made a record run, close on to 10,000 tons, and the record mark in shipments for this district, over 43,000 tons, has been reached. A temporary set back will ensue over the unfortunate conditions in the coal districts but if these are speedily adjusted it is more than likely that both records esablished will be passed before many weeks.

Appended will be found the ore shipments and smelter receipts in detail for the past week and year to date in tons

BOUNDARY SHIPMENTS

MINE	Week	Year
Granby	19,836	178,060
Mother Lode	6,806	53,649

The total amount of receipts reported from the local and foreign mines for the past week were 42,655 tons and for the year to date 414,310 tons.

BANKHEAD MINERS QUIT WORK LAST NIGHT

Otherwise Situation in Coal Fields is Unchanged--Representatives of Men View With Approval Mackenzie King's Visit--Outlook for Speedy Settlement Very Hopeful

The Daily News is authorized to state that the men have expressed confidence in deputy minister of labor, W. L. Mackenzie King, who was requested by their representatives to come to Fernie. Recent meetings between the operators and representatives of the employes have been very cordial and both seem prepared to act reasonably and facilitate an early settlement of the existing dispute.

(Special to The Daily News)

Fernie, April 20.—The situation in the trouble between the Coal company and employes remains unchanged. The fans and the pumps at the mines are still in operation but no miners are working and not an ounce of coal is coming out. The result of the meeting between the operators and the union officials which is to be held on Tuesday is awaited with anxiety, though the general feeling is that a solution of the present difficulties will be found and that operations will soon be resumed. While a great many miners are applying for their time upon careful investigation at the railway offices it is found that no considerable number have left the camps permanently, and should work be resumed at an early date the tonnage would not be decreased to any appreciable extent. Vice-president Lewis of the U. M. W. of A. will be here on Tuesday and the public feel confident that with his broad views and thorough grasp of industrial disputes, he will be able to accomplish much in the way of an early settlement.

Rossland, April 20.—The last of the coal mines to close down in B. C. and Alberta, was the Pacific Coal company's collieries at Bankhead, Alberta, where the men quit today. W. H. Aldridge, managing director of the Pacific Coal company will leave tomorrow for Fernie to attend the conference of mine operators and employes held for the purpose of endeavoring to end the dispute. The C. P. R. has given notice, owing to shortage of coal because of the trouble, that it will handle no more freight and today refused small and large shipments of freight, consigned from Rossland to Greenwood, Trail and other points. The road has only enough coal for its passenger trains. If the trouble continues for any length of time it will completely paralyze the mining, smelting and lumbering industries of the interior of British Columbia, and inflict large financial losses upon the people. A. B. Meckenzie, secretary of the Rossland board of trade, was interviewed here today in regard to the coal mine trouble and situation, and in response to inquiries said:

"I cannot understand the statement made by the Hon. Rudolphe Lemieux, minister of labor, in the house at Ottawa yesterday, that there was no coal strike or lockout. There is certainly a strike in all of the coal mines in eastern British Columbia and Alberta. I see the statement is made that the difficulty has arisen out of the posting of certain notices. So far as the facts now appear the only notices posted were by the Crow's Nest Pass Coal company at Fernie and the International Coal & Coke company at Coleman. As there are nine independent companies involved, the collieries being located many miles apart, no notice posted by one company could cause the men to quit work on others, if there were not some reason for quitting work other than the notice referred to.

Mr. Mackenzie further said that no good purpose could be served by the board of trade sending a representative as proposed, to the conference of mine operators and mine employes to be held at Fernie on the 23rd instant. The parties who will necessarily be there are fully alive to the importance of the questions involved and are both anxious to arrive at a settlement of their differences. Until they have failed to agree it would be injudicious for others, no matter how much interested in the result, to attend the conference and the council of the board of trade has decided not to at present send a delegate.

(Special to The Daily News)

Grand Forks, April 20.—At a largely attended meeting of the board of tarde this afternoon strong resolutions were wired to the minister of labor, and the member for Yale-Cariboo. It was also unanimously decided to send a delegate to Fernie, representing the absolute need of a settlement of the coal situation.

(Special to The Daily News)

Phoenix, April 20.—Regarding the situation of Boundary mines and smelters, as affected by the coal situation in the Crow's Nest Pass and Alberta, the following sums up the case as far as the three large companies operating in this section is concerned.

The Granby Co. has about a ten days' coke supply at the smelter for operating six furnaces of the battery of eight. The C. P. R. having refused to accept ore for shipment, the Great Northern is doing it all, and yesterday took out some 2300 tons of Granby ore. This railway will probably be able to handle the Granby output as long as the stock of coke lasts.

Manager Thomas, of the Dominion Copper Co., who was here yesterday, stated that Sunday evening his company would be obliged to blow out the two furnaces at its Boundary Falls smelter, having neither coke nor ore, nor being able to get either hauled. It is his intention, however, to keep the full force of miners at work, though some of the muckers will be laid off. There is plenty of development work that he wishes to go ahead with and will proceed with that work from this on, getting the mines in better shape to maintain even heavier shipments in the future, with the new furnace, now about installed, also to feed with ore.

The B. C. Copper Co. is, in some respects, in the best position of the three large smelting concerns in the Boundary. Manager McAllister states that he has coke sufficient to last for three weeks, if he can persuade the C. P. R. to raise the present embargo on freight of every kind, manner or shape, and haul Mother Lode ore the short three or four miles requisite between mines and smelter. It is understood that, to enable the company to do this, the B.C. Copper company has offered to let the C. P. R. have 15 cars of coal which one former has at its various mines and smelter, provided the railway will use that coal to haul B. C. Copper ore. It is not known yet how the matter will come out.

Manager Biesel, of the Snowshoe, like all other mines served only by the C. P. R., has had to suspend shipments entirely but will proceed with development, as usual, and put the mine in the best shape possible for increased output when ore can be handled again, having considerable new work on hand, as well.

All of the mine managers will keep all the men possible at work, and of the 2000 men, approximately, employed directly in the mining and smelting industries in the Boundary, thus far there is no record of any being laid off. Of course, some of the muckers are likely to receive a vacation before long.

Not a pound of general freigh is being handled by the C. P. R. in this section at present, the company declining to receive anything whatever.

(Special to The Daily News)

Ottawa, April 20.—In the house during the discussion on the coal situation in B. C. and Alberta, in which the western members called for immediate action to prevent a recurrence of such a state of affairs as prevailed last winter, Borden declared that if necessary the government itself should take over the operation of the mines.

In a letter received from Eckstein, the board representative of the miners, that gentleman says: "As indicated in my letter, the situation here is very grave and requires the utmost tact as well as promptness of action on the part of the board to avert the closing down of nearly all the mines in Alberta and those of the Crow's Nest Pass Coal company. Notwitnstanding the efforts which have been made by the executive officers of the United Mine Workers of America, and also by myself to allay their fears, a large majority of the men seem to view the notice served by the respective operators of an intended change of conditions to take place on May 10, as capable of coming into operation on that date. I am told that such changes of conditions would create about a 20 per cent reduction in wages. These notices have been printed on cardboard and posted up in conspicuous places and have been very generally read by the men. They do not read anything outside of the notice and therefore take it for granted that what is notified to them in this way will surely take effect.

PROROGATION WEDNESDAY

Victoria, April 20.—(Special)—The legislature held two sittings today and advanced private bills in the hope of getting business completed by Wednesday. The immigration bill passed its third reading, the educational test being amended so that ability to read and write in any language of Europe is sufficient to pass the immigrant.

FROZEN MUTTON TRADE

ENORMOUS SHIPMENTS FROM NEW ZEALAND TO ENGLAND

B. C. MARKET SUPPLIED BY CHRISTCHURCH FIRM

Winnipeg, April 20.—G. G. Stead and Isaac Gibbs, from New Zealand, are in the city. Mr. Gibbs is the general manager of the New Zealand Shipping company, operating the Miowera and the Aorangi, between New Zealand and Vancouver, and also steamers between New Zealand and London. Mr. Stead is the vice-president of the company operating the electric tramways in Christchurch, New Zealand, director of the Christchurch Frozen Meat company, and interested in other important commercial enterprises in the country.

Speaking of the development of the shipment of frozen mutton to Great Britain, Mr. Stead stated that the company operating in Christchruch was the largest meat freezing plant in the world and that in the past year they had frozen and shipped to Great Britain one and one quarter million carcases. The business was increasing from year to year as the facilities for the handling of the business were being improved. On the steamer on which the gentleman had come from New Zealand to Vancouver a large consignment of frozen mutton for British Columbia which they were able to lay down in Vancouver for eight cents per pound, had arrived. It did not seem impossible that frozen mutton might be shipped from New Zealand to Winnipeg. The steamer had also brought a considerable quantity of sugar from Fiji, which was refined in Vancouver.

HARRY K. THAW'S CONDITION

Rumored Break Down Denied—His Mother to Find Bail in Any Amount.

New York, April 20.—Dr. Smith Eli Jelliffe, one of the alienists wha testified for Harry K. Thaw in his recent trial, called on Thaw in the Tombs today and as a result it was immediately rumored that Thaw had broken down This point was positively denied by Daniel O'Reilly, now acting as the prisoner's chief counsel. Thaw, he said was in the best of condition, both physically and mentally, and showed absolutely no change in his condition since the case was ended. Thaw and Dr. Jelliffe, Mr. O'Reilly explained, have become very close friends and the doctor's visit was a personal rather than a professional one. Mr. O'Reilly also took occasion to deny rumors that Mrs. William Thaw was in financial straits and might not be able to raise bail for her son, even if the court should admit him to bail, Mrs. Thaw was ready, he said to offer bail in any amount. The application for bail, however, he did not expect would be made until the middle of next week.

LOSS OF E. STEWART

Forestry Expert Who Quit to Engage in Private Business.

Ottawa, April 20.—Hon. G. E. Foster, in connection with the resignation of E. Stewart from the position of superintendent of forestry, in the house today said it was poor economy to allow a few thousands of dollars to stand in the way of retaining the services of a competent expert. The house should never be cheese paring in a case of that kind.

Hon. Frank Oliver thanked Mr. Foster for his boservations. If the services of the best men are to be retained then they would have to be paid well. In Mr. Stewart's case, the financial inducement were so great that the government could not have met him without disarranging the entire service.

MONTREAL'S LUCKY ESCAPE

Half of Population Might Have Been Poisoned by Canned Salmon

Montreal, April 20—That half of Montreal's population was not poisoned is not the fault of certain dealers in canned salmon at present unknown. Thmere were 50,000 tins shipped to Montreal from Toronto for sale by auction. Alderman Gallery was told they were bad and he informed the food inspector who found the fish decomposed and that every can contained poison. Had the 50,000 cans of poisoned fish been put into as many homes, at least 200,000 people would have been poisoned. The auction was about to begin when the health officers interferred. These officers and the police are at work on the case. Thy suspect that the reason the salmon was shipped here was that it was known to be bad.

WHOLESALE LIQUOR HOUSE GUTTED

Montreal, April 20—Fire badly gutted the wholesale liquor and grocery house of Messrs. M. Quintal and fils, St. Paul streets, today. The stock was valued at $100,000 and is fully covered by insurance. The fire damage to the building will be a good deal under that figure. The fire is believed to have originated from the furnace in the basement. By the tim ethe firemen arrived the flames were in full control.

RUSH OF IMMIGRANTS.

Winnipeg, April 20.—Word was received today by the immigration department that 1250 immigrants were on their way from Montreal. Two hundred left on a special, their nationalities are unknown. At 2 p.m. a special left carrying 450 Galacians, 100 Germans, and 50 Hebrews. Another special left at 9 a.m. with 300 Galacians, 100 Germans and 50 Belgians. They are due Monday night or Tuesday morning.

MARINE OFFICERS TO STRIKE

New York, April 20.—Unless a ten percent increase in pay for first, second and third officers in coastwise steamers running out of New York is granted by May 1st, there will be a strike. This was the ultimatum sent tonight to the representatives of 18 steamship lines by Luther B. Dow, general manager of the United Harbor No. 1, American Association of Masters, Mates and Pilots. Mr. Dow said tonight that the men are thoroughly organized and unless the increase in granted they will surely strike.

CEDE CONGO TO FRANCE

ALLEGED OBJECT OF LEOPOLD'S VISIT TO PARIS.

IS EXASPERATED OVER PARLIAMENT'S OPPOSITION

Paris, April 20.—A despatch received here from Brussels says the journey of king Leopold to Paris has been postponed until Monday. This trip of the king of the Belgians has arousel much comment and speculation in political circles. The explanation thereof, which finds the most credence, but which, is impossible of confirmation, is that king Leopold will offer to cede the Congo Free state to France at this interview with president Fallieries. France had enjoyed the right of pre-emption in the Congo up to the signing of the treaty of Berlin and this treaty gave king Leopold power to dispose of the Congo state during his lifetime. It has always been his majesty's intention to turn over the Congo to Belgium, but exasperated by the opposition of the Belgian parliament to his views concerning the future government of the state, it is said he would prefer to hand it over to France than abandon his position.

The king is unalterably opposed to annexation of the state to Belgium, and for the time being seems complete master of the situation. His refusal to permit the Congo administration to furnish information concerning the finances of his African state to the parliamentary commission of the country of which he is the constitutional king, practically checkmates the parliament.

Public opinion in Belgium is divided on the question. There is a natural antipathy on the part of many to Belgium embarking upon a colonial policy. There is a large body of stockholders in the concessionary companies who are content to receive big dividends and no question asked. The commercial class generally reap indirectly large profits from the wealth coming out of the Congo, and the mass of the people, dazzled by the prodigality of the monarch, his manifold gifts, the magnificent structures he is constantly building, are indifferent or on the side of the king. Nevertheless, sentiment in favor of annexation grows constantly.

In parliament the majority is strongly convinced that the destinies of the immense black population of the king's African possessions, comprising 900,000 square miles, demand that a civil administration amenable to public opinion and a cabinet responsible to parliament should be substituted for the irresponsible will of one man.

Whether the stories of atrocities and awful exploitation of the helpless blacks are exaggerated, the existence at various times and places of the most revolting abuses has been established, and the advocates of annexation argue that it is impossible to prevent their recurrence as long as the administration and exploitation of this vast territory and population is conducted secretly with the aid of half savage black native levies.

BREAKS WORLD RECORD.

Princeton, N.J., April 20.—Lee J. Talbot, of Mercersburg, Pa., academy, whose home is in Kansas City, Mo., broke the world's inter-scholastic record in throwing the 12-pound hammer here today in the 11th annual interscholastic track meet. He made a throw of 190 feet 9 inches. The previous record was 187 feet 9 inches. Talbot also broke the inter-scholastic record in the 12-pound shot event, with a put of 49 feet 8 inches, beating J. R. Dewitt's record of 48 feet, 4 inches, at Lawrenceville, N. J., academy in 1900.

SNOW IN COLORADO.

Denver, April 20.—According to the local weather bureau's measurements, 18 inches of snow, equivalent to 1.44 inches of rain, fell here during the storm which came from the north yesterday and passed off to the southeast today. Heavy precipitation was also general in Colorado, benefitting the grain crops which were threatened by drought. Freezing weather is anticipated, but little damage will be done as vegetation is covered with snow.

EXPECTING AN HEIR.

Madrid, April 20.—Queen Victoria, whose expected confinement is a matter of deep and widespread interest in Spain, continues in the best of health She drove out again today, twice, in the morning and in the afternoon.

RED RIVER OPEN

Winnipeg, April 20.—The ice broke up in Red river today and is running out very strong. The ice tore off the iron on two breakwaters at the bridge, but no serious damage is anticipated. It was April 4th last year when the break up came.

CHILDREN BURNED TO DEATH

Port Huron, Mich., April 20.—Ethel Douglass, aged 5, her brother Paul, aged 6, and their six months' old baby sister, were burned to death in their home today by the explosion of a gasoline stove, which the two older children had attempted to light in the absence of their parents.

IMPERIAL CONFERENCE

Name by Which Colonial Conference Hereafter to be Designated

Imperial Military Organization Agreed Upon and Plan to Create General Staff for Empire Tabled

London, April 20.—At today's session of the colonial conference it was unanimously agreed to change the title to "imperial conference." The conference will be held every four years to discuss the common interests of the empire. The premier of the United Kingdam will be ex-officio president of the imperial conference and the premiers of the colonies and the colonial secretary will be ex-officio members. The various governments will appoint other members but except with the special confirmation of the conference not more than two representatives of each government shall participate in the conferences. Each government will have two votes. This department of the colonial office is created with a permanent secretary and staff which shall be charged with the duty of obtaining information for the use of the conference and dealing tentatively with such matters of general imperial interest as arise in the intervals between the conferences. It was further decided that when matters arise requiring the consultation of two or more governments which cannot conveniently be postponed until the next conference, a subsidiary conference will be held between especially chosen representatives of the governments concerned.

The earl of Elgin, secretary of state for the colonies, referring to the matter of military defense, outlined the general principles of an imperial military organization and the premiers concurred in his views. The premiers then explained the defense organizations of their respective colonies and the extent to which the general organization could be put into practice. The draft of a resolution creating a general staff for the empire was tabled. It was resolved that the colonies be authorized to refer to the committee of imperial defense for advise on local questions in which expert assistance was desirable.

INTERNATIONAL AFFAIRS

WOULD ABOLISH WARS OF PASSION BY "COOLING" PROCESS.

ROOSEVELT WANTS TO LIMIT SIZE OF VESSELS OF WAR.

Washington, April 20.—Somewhat critical reviews of recent developments in international affairs took place at the speechmaking session of the American society of international law, which concluded its first annual meeting here today. Ex-secretary of state Richard Olney was perhaps the most caustic in his interpretation of the policy of the United States regarding San Domingo and the acquiring of the Panama canal zone without compensation to Colombia.

Ex-secretary of state John W. Foster announced that president Roosevelt has proposed to some of the leading nations of the world, "that we at least make a limitation on the size of vessels of war that shall be built in the future."

Mr. Foster called attention to Russia's changed attitude on the question of disarmament. He said she favored it at the first Hague conference, but opposed it now.

Prof. O. Wolseley, of Connecticut, argued that wars of passion could be abolished if international law provided that all wars begin with a proclamation that a "cooling" time of thirty or sixty days intervene between the proclamation and actual hostilities. Such an arrangement, he said would have obviated the South African war and the Russo-Japanese war.

ELECTIONS IN SPAIN.

Madrid, April 20.—The elections for members of the chamber of deputies which commence tomorrow promise to be prolific in disorder, particularly at Barcelona, and in the four Catalan provinces, owing to violent dissensions in the republican party. The attack at Barcelona yesterday on senor Salmeron and a number of his friends in which senor Catallo was mortally wounded, served to increase the ill-feeling and today the government is taking further measures for the maintenance of order. The electoral struggle will be particularly fierce in Gadauljara and other provinces.

TOO STRENUOUS LOVER

Ottumwa, Iowa, April 20.—Because he thought his brother had gained the affections of Mrs. Sally Morgan, to whom both had been paying attention, Ovitt Thompson, of Bedford, Iowa, today shot and killed the woman, mortally wounded Roscoe Thompson, and committed suicide. The woman has been separated from her husband for some time and both the Thompsons had been paying her attention. This afternoon Ovitt found his brother and Mrs. Morgan together and immediately began shooting.

Prospectors', Lumbermen's, Miners' and all Campers' Supplies

TENTS in all sizes and weights.
RUBBERS and OIL SKIN CLOTHING.
OVERALLS and JUMPERS.

THE COAL SITUATION.

Whilst there is nothing new to report as to the situation in the coal fields this morning, save the fact that the Bankhead men have quit work, we are authorized, by the executive of the miners' union, to state that the men welcome the intervention of deputy minister of labor, Mackenzie King, and that everything points to an adjustment of the present dispute at the forthcoming conference between the operators and the representatives of the men.

We cannot concur in Mr. A. B. Mackenzie's view that no good purpose will be served by sending delegates from B. C. boards of trade to confer with the parties to the dispute at Fernie next Tuesday. Mr. Mackenzie says that the parties to the dispute are fully alive to the importance of the questions involved. That may be the case, but so far neither party to the dispute has evinced any special consideration for the public's interests in the situation. What is desired is that the business men delegated to confer with the representatives of the operators and of the employes, should forcefully present to them the point of view of the great public, whose interests are jeopardized by these repeated disputes between the operators and their employes. Perusal of the statements given out by the operators and by the men's representatives fails to disclose a single suggestion of any regard for the public's interests. The public "be d——d" is, in effect, the attitude of both parties to the dispute and the sooner they become wise to the fact that the public can exercise very potent influence in matters of this kind, the better it will be for all concerned. Never before in the history of Canada has the federal government acted so promptly and with such determination as in the present situation and this action is undoubtedly in large measure prompted by the unmistakable tone of public opinion. When we find the leader of the conservative party advocating government operation of the mines, failing a speedy settlement, we may be sure that public sentiment has reached a point, of which it would be dangerous for either party to the dispute to fail to take cognizance and act accordingly.

FOR SALE **T. G. PROCTER** FOR SALE

30 Acres on Kootenay Outlet, opposite Procter, nice river front. 10 Acres under fence and in orchard; seeded down to clover—ground well fertilized. 600 3-year old trees in first class shape. EDITORIAL NOTE.

With this issue The Daily News enters upon its sixth year of publication. The past five years have been of th lean variety and it has been a problem of considerable magnitude to make both ends meet. As a matter of fact, that problem was not satisfactorily solved until within the past few months, when *something* like equilibrium between operating expenses and earnings was established. The wretched, but very expensive, telegraphic service supplied by the C. P. R., make it a very costly business to publish a live daily newspaper in the Kootenays, as this service has to be supplemented by "specials," from all over the country if our readers are to be kept properly informed as to what is doing. The outlook for the immediate future is more hopeful and in order to keep pace with improved conditions, The Daily News expects shortly to make certain mechanical improvements that will permit of the publication of a more attractive looking paper. In the course of a few weeks we shall be moving into new quaarters and a new press will be installed that will permit us to publish an eight-page paper daily, doing away with the inconvenient and by no means attractive insert now in use. We are stating but the plain fact, when we say that The Daily News expends more money for telegraphic news than any other paper in the province. It has been the policy of the management, since the first issue of this paper, to endeavor to give the people of Kootenay a live newspaper and to that end an expense has been incurred that past conditions, so far as available business returns were concerned, did not warrant. But we had an eye to the future and this expenditure has been justified by a steadily growing circulation, so that today there is not a section of the Kootenay country where The Daily News is not eagerly looked for on the day of publication by every person who desires to keep abreat of the news of the day.

THE MYA QUEEN

Arugment of the Cantata to be Performed on Wednesday Next

The cantata The May Queen, to be presented on Wednesday night next at the opera house in this city, is distinctly English in its character. The following is a brief outline of the plot;

In the midst of a May merry making near the Thames the lover of the May Queen appears deeply depected complaining of the fickleness of his lady. Robin Hood, captain of the royal foresters, makes love to her so boldly that her lover intervenes with a blow. This throws the merry makers into confusion and grief, the legal penalty for such an offence being the loss of the hand that struck the blow. At this moment the pageant of the queen of England draws near and the sovereign calling the combatants before her, rebukes them and orders the now remorseful flirt to wed her true love next day. The bridal rejoicings immediately begin.

In addition to the cantata, choruses selected from various operas of Wagner will be rendered. The bridal chorus from "Lohengrin"; the spinning chorus from "The Flynig Dutchman," and the grand march and chorus from "Tauchhauser" form the selections. Mrs. Briggs, who has always been so closly identified with the work of this society, will contribute a solo.

FOLWLER GLORIES IN HIS SHAME

Gloats Over Mischief He Has Accomplished by Malicious Gossip.

Ottawa, April 20.—Geo. Fowler, M.P., addressed the young conservative club here last evening, along the line of his "wine, women and graft" speech. He said Aylesworth went gunning for Foster and shot Emmerson. He handled the insurance commission without gloves.

"I was summoned on the investigation," he said, "but I think now they would be as well pleased if they had not found me. I think they picked up a live wire in me. They have not got over the shock yet. One man has had his nerves so shocked that he has sought rest at home, and another is in a sanatarium at Boston. His resignation was accepted instanter."

McDERMID & McHARDY

WOULD IGNORE BARGAIN

NORTHERN INDIANS RAISE PRICE OF LAND TO G. T. P.

SPEEDY RETRIBUTION OVERTAKES QUARTERMASTERS OF CASSIAR

(Special to The Daily News)

Vancouver, April 20.—Advices from the north by steamer Camosun are to the effect that the Indians are refusing to carry out the contract made with the G. T. P. last year for the sale of lands adjoining Kalen island at $7.50 per acre. Morrow, the Indian agent at Port Essington, recently received the company's check for $98,500 for the land. When payment was offered the chiefs at a council, they flatly refused acceptance. They stated they wanted $15 per acre, pointing to the present high prices about Prince Rupert.

The local carpenters are expected to go to work on Monday morning. The basis of the proposed settlement is said to be that the men work until September 1 at the old rate of $4. Then the rate is to be $4.25 to April 1 of next year, after which the $4.50 rate shall prevail. Contractors claim this will give them a chance to figure according to a sure basis. The men generally are in favor of the offer.

The local branch of the Salvation Army is planning a new hospital in the east end of the city as part of its work. It is expected that Dr. Ernest Hall, of Victoria, will be superintendent.

The Australian line has announced that a new steamer, the Mirama, now on the ways at Greenock, will be put on the Vancouver-Sydney run next spring to accommodate the growing trade.

Ortago and Edwards, quartermasters of the steamer Cassiar, arrested as noted yesterday, for enticing two girls to go north, were sentenced this morning to two years in the penitentiary for the offense.

The league baseball season opened here this afternoon. Aberdeen defeated Vancouver by a score of 12 to 5.

RUSH FOR FRUIT LANDS

Settlers on Line of N. & F. S. Are Improving Their Lands.

(Special to The Daily News)

Ymir, April 20.—Rev. J. Blake, of Dryden, Ontario, arrived here yesterday to take charge of the Presbyterian church.

The ranchers between Erie and Champion have had a school district established to be known as Meadow school district, a school house is being erected close to Barkley's ranch and a teacher will be engaged and the school opened forthwith.

Work on the Yukon fraction group of claims on Dundee mountain is progressing satisfactorily. A baby tram is being erected from the mouth of No. 3 tunnel to a point on the Dundee road, known as the half way spring, being about one and a half miles from Ymir. Ore can be handled easily from this point and the hauling will avoid a number of switchbacks which lie farther up the road.

Mitchell Tait, licence commissioner and road superintendent, has resigned from the first mentioned office.

The fruit lands along the line of the Nelson & Fort Sheppard railway have all been taken up and a large number of settlers are improving their property. The lands in question are exceedingly well situated and are first class in every respect and within a few years large fruit shipments can be expected from these points.

FERNIE HAPPENINGS

(Special to The Daily News)

Fernie, April 20.—A party of prominent Great Northern railway officials visited the town on Friday, on a tour of inspection. They consisted of F. H. McGuigan, first vice-president; F. E. Ward, general manager; F. C. Patterson, assistant chief engineer; Geo. H Emerson, superintendent of motive power; J. R. M. Davis, superintendent of maintenance and ways, and J. H. O'Neil superintendent of the Kalispell division. Mr. Ward is escorting Mr. McGuigan over the system as this is the first time the new first vice-president has been over this section of the Great Northern.

The dance given by the junior ladies guild of Christ chruch Thursday night in the opera house was an unqualified success, being very largely attended and a handsome sum realized which will be applied in a reduction of the debt on the church.

The new postoffice is now under way, the contractors breaking the ground for the foundations Thursday. The work will be rapidly pushed and the building when completed will be a credit to the town.

TWO TRAINMEN DEAD.

Engineer Evans Dies of His Injuries and Brakesman Foley is Crushed.

(Special to The Daily News)

Gand Forks, April 20.—Dan Evans, one of the men injured in the Great Northern wreck on Thursday died at the hospital late last night. The other men are doing well.

A brakesman named Foley was caught between two cars on the Great Northern near Curlew and killed today.

SLOCAN NEWS NOTES

(Special to The Daily News)

Slocan, April 20.—Messrs. George Henderson and Neil Gething, of Slocan, have sold their ranch about three miles from town for $8000. The Anderson ranch about six miles from town, was also sold this week, the price paid being $9000.

Mr. and Mrs. W. H. Brandon, who spent the winter in Guelph and Winnipeg, returned to their home in Silverton this week. While in Winnipeg, Mr. Brandon put through several important deals in Slocan real estate.

Rev. Mr. McKinnon recently arrived in Slocan from the Windermere district to take charge of Knox Presbyterian church.

Mrs. Calbick, wife of engineer Calbick, of the steamer Slocan, who spent the winter in Slocan, left this week for Revelstoke.

Paul Hanck left this week for the Coeur d'Alenes.

Mr. and Mrs. Pendry, who spent the winter on Kennedy and Cameron's ranch, returned this week to their home in Slocan.

SHERMAN'S OPERA HOUSE

One night only, Wednesday, April 24, the Nelson Choral Society will present Sir W. Sterndale Bennett's Pastoral entitled,

"THE MAY QUEEN"
with full chorus and orchestra.

Prices: 50c., 75c, and $1.
Seats on sale at Rutherford's Monday morning.

NELSON'S NEWS OF THE DAY

T. Meacham is spending a few days in Spokane with some friends.

Inspector Morris of the Canadian bank of Commerce, is in the city.

The thermometer yesterday afternoon reached 65 in the shade, the highest so far this year.

A fence is being erected around the site of the new court house and building is now in order.

Owners of fruit trees are reminded that trees unsprayed on the visit of the inspector are liable to condemnation.

A good attendance is specially requested for the rehearsal of the "May Queen" tomorrow evening.

There is a tentative offer to the Nelson lacrosse team to play a game against Revelstoke on Empire day at Kaslo.

The Nelson dramatic society is being asked to repeat the "Private Secretary" as a matinee some day this week, after the "May Queen."

The question of the incorrigible youth of Nelson, whose depredations recently have assumed serious proportions will be reopened on Monday morning before police magistrate Crease. Whippings by the police or heavy fines ensuring similar correction by the parents are remedies suggested.

WHEN ASKING FOR THE

RED LABEL

BE SURE YOU GET

Blue Ribbon TEA

The uniformity and superb quality of the famous Red Label package of Blue Ribbon Tea have made it very popular, and packers of other teas are now commencing to call their packages Red Label.

There is danger, therefore, of not getting the genuine Blue Ribbon Tea when you simply ask for the Red Label.

To avoid disappointment, ask for Blue Ribbon Tea, and see that the name "Blue Ribbon" is on the package.

THIRD FATAL ACCIDENT

GEORGE MINCHELL KILLED IN LOCAL SAWMILL

DEATH DEEMED TO BE RESULT OF PURE MISCHANCE

The third fatal accident in a fortnight occurred yesterday forenoon. The dogger at the Yale-Columbia sawmill fell from the saw carriage just before 12 o'clock and was instantly killed, his head being crushed between the carriage and the buffer at the lower end of the run. The unfortunate young man, George Minchell, was only 23 years of age and was well known as a bright, energetic young fellow who had been some three or four years with his present employers. The manner of the accident is at once apparent to anyone conversant with the method of running the mill but the exact circumstance was not seen by anyone. There are two men on the saw carriage, one at either end. The carriage runs between the saw and the skid behind on which the logs are placed. To prevent it running too far in either direction buffers are placed on the line. The carriage, which is moved by steam power, is brought down to the logs, one is rolled upon its front edge and is gripped by an apparatus and brought along to the saw, so adjusted that a slab is taken off. Running the carriage forward again the log in this manner is cut up plank by plank. It is not able to run too far beyond the saw as the buffer at that end stops it. In front of the two men on the carriage is the log and at either hand are the levers by which the machinery to catch the log are moved. There is no rail on the carriage at either end or back. It is therefore possible to fall off at either end or at the back.

Deceased was standing between his two levers at the lower end of the carriage some three feet or more from the end when last noticed by his companion. He was somewhat short armed, being a man of medium height, and had said that the stretch between the two levers was too much for him and he therefore had held on by one lever and a peevy, loosely standing ready in a socket. What is thought to have happened is that the carriage ran against the lower buffer causing deceased to lose his balance, trip against the guide rail of the gripping device, alongside his left foot, and fall lengthwise, his head and shoulders thus overhanging the edge of the carriage. This, in the interim, had rebounded from the buffer, which is fitted with a strong spring, and again moved toward it. It was during and because of the rebound that Minchell is supposed to have fallen. On the second impact, which was but momentarily separated from the first, the head of the unfortunate youth was caught and crushed.

Deceased lived a few minutes after the accident but never regained consciousness, probably never knowing what had happened to him. He had no relatives in this country, having a mother in Cape Colony and a sister on her way to Mexico.

The coroner has decided that in view of the circumstances the death could not be considered otherwise than a pure accident and is therefore not holding an inquest.

To prevent further accidents of this description a rail is being fitted partly along each end of the saw carriage and by widening the saw carriage and lining the wall of the building at the back it will hereafter be almost impossible for any one to fall from the carriage from ends or back.

CURED OF RHEUMATISM

Mr. Wm. Henry of Chattanooga, Tenn., had rheumatism in her left arm. "The strength seemed to have gone out of the muscles so that it was muscles so that it muscles so that it was useless for work," he ays. "I applied Chamberlain's Pain Balm and wrapped the arm in flannel at night, and to my relief I found that the pain gradually left me and the strength returned. In three weeks the rheumatism disappeared and has not since returned." If troubled with rheumatism try a few applications of Pain Balm. You are certain to be pleased with the relief which it affords. For sale by all druggists and dealers.

Minard's Liniment Cures Burns, Etc.

NEW YORK FASHION LETTER

New York, April 20—Better one good suit and several stunning waists, than many costumes and fewer, less impressive tops—especially if these latter are not the transferrable sort. When in doubt what to wear it is safe to select a lace waist made after a smart imported model. Not one of the cheap, elaborate sort that too many women wear, for a lace waist of this sort is one of the most hopelessly common looking garments in existence and should be tabooed by any woman with claims to good taste. The only desirable waist in the lace class that can be had ready made at a low figure is built of net, either plain Brussels, point de Paris or the square meshed "filet" net that just now holds the lead in fashionable favor. These waists can be had in excellent models at very moderate prices and can easily be made distinctive by the addition of trimmings of velvet ribbon, bits of embroidery or perhaps some sort of cloth that matches the skirt worn.

Very dainty petticoats are of cambric, with deep full flounces of washing tambour net, lavishly embroidered in colored linen.

Shades of rose, wine and purple are among the "beauty" veils of spring.

A white net evening gown is spangled in silver, and embroidered in trails of raised Valenciennes flowers, the leaves veined in shaded filoselis, to the full blown flowers of shaded pink and nacre sequins touched with bronze, and made over a white silk foundation, veiled in softest blush rose. The corsage, which was cut very low, was almost entirely of embroidery and was finished with an empire sash of knotted heseda satin. The blending of color is perfection.

Necklets and bracelets of coral are affected by decided brunettes or blondes. The smartest necklet is formed of a series of coral carvings strung together with gold links. The medallions represent roses or leaves and are delicately and skilfully wrought.

A China blue rajah has a beautiful cut but entirely plain skirt. The bodice had a square plastron of blue silk crochet lace engraming a chemisette of cream gupuire lace. A wondrous factor—a fantasy of cream and blue coque plumes forms the chief ornament of the cream chip hat that accompanies this costume.

A chiffon evening gown is of the new shade, known as Terre d'Egypte, made over white, the folded fichu and the center panel painted in flower of wedgewood blue and Romney pink, and outlined on each side by a panel of fine lace, a high sash of chene, reproducing the flowers in more vivid tones, the very fussy net and lace sleeves tied with gold tissue. Another evening gown was of white crepe de chine with a deep insertion of painted chiffon, the pink and yellow roses lightly touched with silver, giving the misty effect of moonlight sheen, the chiffon draperies of the decolletage drawn through two large diamond full half moons and foating sash of frilled white tulle, also drawn through a glittering horseshoe.

A lovely brey blue net gown is wrought at the hem with an embroidery of silver, oxidize and gold. It is veiled with chiffon, over which falls another embroidery carried out in clair de lune sequins, the whole suggesting delicate moonshine. The sequins appear also on the corsage.

CATHERINE MANN-PAYZANT.

For Baking—use WINDSOR TABLE SALT. Its fine salt-quality is needed in all biscuits, rolls and cakes. Never coarse. 150

MEN'S SPRING FASHIONS

GORGEOUS COLORS ARE TO PREVAIL THIS YEAR.

VESTS WILL BE OF PARTICULARLY JOYOUS TINTS

New York, April 20.—The man who follows the ideas the clothiers, the skirtmakers, and the haberdashers have laid down as the rules of fashion this spring and summer, will appear in all the tints of the bird of paradise. Man's clothes, according to this season's dictates of fashion, will rival women's raiment in gorgeous colors. Everything will be conspicuous, from the hat to the shoes, between which two extremities will be shirts of gay hues, ties of lurid shade and stocking that are "just too cute for anything," suggesting the modern Beau Brummell. Of course these fanciful creations are for the most extreme dressers. Those of quieter tastes may select less conspicuous materials and still be in good form. Serge and the club check grays are running each other a close race, for the suit, which of course come first, for that is the biggest and most easily seen of the whole spring outfit. Dark gray, in the club checks, and fancy blue check serge, with blocks are the rule, but the really only correct shade, say the tailors, is brwon. Browns in different shades are back again for a revival, but the youth do not seem to take very kindly to them Blue serge has long been popular with the young men for spring and summer wear, but this year the fabric is more popular than ever. More suits are being made up in the fancy type of serge, but the plain blue still retains a good place in the favor of the well dressed young man. There is not a great deal of change in the cut of clothes except in coats, which are being made with a military and half military back. The pattern, which was so popular a few seasons ago, is being revived, and most men of erect figure are glad. The coats are being made 32 and 33 inches long, about the same length that has been prevailing. They are straight down the front, in single and double breasts, with two or three buttons, as the wearer may prefer. Finishing up the military back and carrying out the "cave-fin-the-back" impression, the bottoms will flare a trifle. Trousers are being made in pegtop. There are extremes in in pegtops, though, and the wearer may have them made as he likes. One style of trousers this spring gives one the impression that the wearer has inflated them for they stand out from the hips and taper to the bottom in a graceful curve that looks like a Dutch picture. All it needs is a pair of sabots to complete the likeness. Vests will be the strong points with the suits. Those that are made of the same cloth as the suit will be cut low, without collars. Some extremists are getting theirs with only three or four buttons. One or two of the tailors are making the vests with a double row of buttons. To him who sits long over the knives and forks this style of vest, which is loosened by letting out one row of buttons and fastening the other row, is readily appreciated. Fancy vests will be the vogue. Besides the usual pique waistcoats, flannel in many and variegated colors will be worn. Some are neat and tasteful with plain stripes running on a plain white or cream background. Others bear neatly embroidered flowers, and the colors of some of the extreme styles are amazing. Buttons, too, will come in for a great deal of consideration. One tailor has gotten a stock of buttons with a girl's picture inclosed in a gold frame. One or two waistcoats, with agate and horn buttons, have appeared in windows, but all the waistcoasts, buttons and all, will be of joyous tint.

Minard's Liniment Relieves Neuralgia

A WOMAN TELLS HOW TO RELIEVE RHEUMATIC PAINS

I have been a sufferer from the dreadful disease, rheumatism, for a number of years. I have tried many medicines but never got much relief from any of them until two years ago, when I bought a bottle of Chamberlain's Pain Balm. I found relief before I had used all of one bottle, but kept on applying it and soon felt like a different woman. Through my advice many of my friends have tried it and can tell you how wonderfully it has worked.—Mrs. Sarah A. Cole, 140 S. New St., Dover, Del. Chamberlain's Bain Balm is a liniment. The relief from pain which it affords is alone worth many times its cost. It makes sleep possible. For sale by all druggists and dealers.

Minard's Liniment Relieves Neuralgia

UNIVERSITY BILL PASSED

MACGOWAN, VANCOUVER, OPPOSED IT STRENUOUSLY.

HAWTHORNTHWAITE PREFERS SERIOUS CHARGE.

(Special to The Daily News)

Press Gallery, Legislative Assembly, Victoria, April 19.—In the legislature this afternoon Hawthornthwaite on the ground of the matter being of gave public importance had the question discussed of alleged strike breakers being brought to Victoria by the Salvation Army and being now in destitute circumstances. He introduced it on the ground that ten ship carpenters arrived the night before and more were coming and that this was the result of an agreement entered into between the government and the army. He read a statement by these men that they had been misled by the army and would not work here, having been assured no strike was on and were brought out for the marine works.

Hawthornthwaite wanted the matter investigated by the government and a return made to the men for their loss. He made a bitter attack on the government's policy in this matter.

Tatlow denied that there were any arrangements between the government and the army. Negotiations had been conducted but no arrangement was made and the government was in no wise responsible if the statements were true.

When the motion of Hawthornthwaite that the house adjourn until an investigation was put, only the socialists and Jardine voted for it.

Hawthornthwaite expresses the intention of pushing the matter still further and bringing in a resolution delaying business, if something be not done.

In committee the bill to confirm an order in council authorizing special licenses in Southeast Kootenay came up for discussion but was laid over again.

Macdonald thought that there were features in the bill which meant repudiation in case of those who applied as early as 1901 and yet were refused by the government the statutory privilege then in force. Longer time should be given to allow litiagtion to be disposed of, those interested could not be expected to comply with the act by putting in expensive machinery while the mater was in litigation. The bill stood over.

The university bill passed third reading at the evening session.

On report in the afternoon MacGowan (government) spoke against it. He contended that the bill was ill considered before being introduced. He also objected to commercial interests being overlooked by rejecting provision for a commercial faculty. He also thought it was not fair to the royal institution provided for last session.

He voted against the bill, but Munro (opposition) voted for it.

DOCTOR BRIGHAM SAYS

MANY PHYSICIANS PRESCRIBE

Lydia E. Pinkham's Vegetable Compound

The wonderful power of Lydia E. Pinkham's Vegetable Compound over the diseases of womankind is not because it is a stimulant, not because it is a palliative, but simply because it is the most wonderful tonic and reconstructor ever discovered to act directly upon the generative organs, positively curing disease and restoring health and vigor.

Marvelous cures are reported from all parts of the country by women who have been cured, trained nurses who have witnessed cures and physicians who have recognized the virtue of Lydia E. Pinkham's Vegetable Compound, and are fair enough to give credit where it is due.

If physicians dared to be frank and open, hundreds of them would acknowledge that they constantly prescribe Lydia E. Pinkham Vegetable Compound in severe cases of female ills, as they know by experience it can be relied upon to effect a cure. The following letter proves it.

Dr. S. C. Brigham, of 4 Brigham Park, Fitchburg, Mass., writes:

"It gives me great pleasure to say that I have found Lydia E. Pinkham's Vegetable Compound very efficacious, and often prescribe it in my practice for female difficulties.

"My oldest daughter found it very beneficial for female trouble some time ago, and my youngest daughter is now taking it for a female weakness, and is surely gaining in health and strength.

"I freely advocate it as a most reliable specific in all diseases to which women are subject, and give it honest endorsement."

Women who are troubled with painful or irregular periods, bloating (or flatulence,) weakness of organs, displacements, inflammation or ulceration can be restored to perfect health and strength by taking Lydia E. Pinkham's Vegetable Compound. If advice is needed, write to Mrs. Pinkham, at Lynn, Mass. She is daughter-in-law of Lydia E. Pinkham and for twenty-five years has been advising sick women free of charge. No other living person has had the benefit of a wider experience in treating female ills. She has guided thousands to health. Every suffering woman should ask for and follow her advice if she wants to be [illegible]

Synopsis of Canadian Homestead Regulations

ANY available Dominion Lands within the Railway belt in British Columbia, may be homesteaded by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres, more or less.

Entry must be made personally at the local land office for the district in which the land is situate.

The homesteader is required to perform the conditions connected therewith under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year for three years.

(2) If the father (or mother, if the father is deceased), of the homesteader resides upon a farm in the vicinity of the land entered for, the requirements as to residence may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements as to residence may be satisfied by residence upon the said land.

Six months' notice in writing should be given to the Commissioner of Dominion Lands at Ottawa of intention to apply for patent.

Coal lands may be purchased at $10 an acre for soft coal and $20 for anthracite. Not more than 320 acres can be acquired by one individual or company. Royalty at the rate of 10 cents per ton of 2000 pounds shall be collected on the gross output.

The Opportunity of a Lifetime

Fully Paid Non-Assessable

A Small Investment Will make You Independent for Life. Read the Proof. Read the testimony of eminent Canadian Government Geologists and other mining engineers.

LAURENTIAN GOLD MINES, LIMITED is the holding company of Anthony Blum Gold Mines Limited, owning and operating Blum's Famous Laurentian Mine, including 1,115 acres of mineral lands equal to 55 U.S. mining claims; title patented and guaranteed by the Crown, situated in Manitou Lake District, Kenora Mining Division, Ontario, about 25 miles south of Dinorwic and Wabigoon stations on the Canadian Pacific Railway.

THE LAURENTIAN MINE has a complete plant and equipment, including 20-stamp gold mill, cottages for employees and other necessary improvements. The mine is in successful operation and producing gold.

EMINENT CANADIAN GOVERNMENT GEOLOGISTS AND OTHER MINING ENGINEERS declare that the LAURENTIAN MINE has more gold in sight in the small space opened than any other mine in the world, and that the rich ore should continue in depth several thousand feet.

EXTRACTS FROM PRESS CLIPPINGS.

"GREAT EXCITEMENT OVER RICH STRIKE NEAR GOLD ROCK."

"Anthony Blum is destined to be one of America's mining millionaires. A short time ago a contract was let to sink 50 feet on one of his mining locations. At a depth of 25 feet or thereabouts phenomenally rich ore was struck, which produced the greatest excitement. The contractors endeavored to keep the matter a close secret until Mr. Blum (then in Boston) could be communicated with, but as is the case in the history of all great discoveries, the news leaked out, and now great preparations are being made to thoroughly prospect the unexplored territory of the district on the advent of spring. Independently of the rich strike at 25 feet, the quartz, which is of a dark blue color, had a fine grained texture, has panned very freely right from the grass roots."—Wabigoon Star.

Positively only $50,000 more of Canadian Laurentian shares will be offered by us. These shares will be advanced in price in one week. This mine is claimed to be the

RICHEST GOLD MINE IN THE WORLD.

and the shares may be worth $25.00 by midsummer, as well as paying large dividends. This is the one great chance to make an investment in Canada's Richest Gold Mine. A sane, safe investment for sane people. Call or send in your orders.

"BLUM'S RICH MINE."

"'I never saw richer samples of gold in my life,' said Mr. T. W. Gibson, director of the Bureau of Mines, today."—Toronto Star, Dec. 19, 1905.

ADDRESS ALL ORDERS TO

From the Wabigoon Star, Wabigoon, Ont., Thursday, March 29th, 1907:

MORE DISCOVERIES AT LAURENTIAN

Another Strike of Extraordinary Richness, equalling, if not Surpassing, Those previously Recorded in Manitou's Bonanza Gold Mines.

A telephone dispatch to this office from Gold Rock, announces that another extraordinary strike was made at the Laurentian mine on Monday last. The ore body uncovered is said to equal, if not eclipse, the phenomenal strikes recorded in this paper in December, 1905 and later in October, 1906, when samples of ore were brought in exhibiting masses of gold hanging together, with scarcely any rock to adhere to, representing thousands of dollars to the ton. It will be interesting to note that the strike of Monday was made in the foot wall of the raise, about 30 feet above the 200 foot level. The drifts, which have been recently driven under the direction of superintendent Nickerson, are in the hanging wall of the formation which may account for the nondiscovery of the wealth of ore before Monday. Whether or not the ore body is a continuation of the Bonanza vein of the 800 foot level, the enormous richness of which created such a sensation all over the continent, has not yet been ascertained. Possibly it may be another. But in any event a wealth of ore at depth is assured.

BLUM'S LAURENTIAN, NEAR WABIGOON, LINED WITH GOLD.

"The gold strike in Blum's Laurentian Mine surpasses in riches all previous discoveries. The raise from the first level is now 50 feet up, and ore continues all the way as rich as the ore on the first level, which astounded the world when the strike was made last December. The drift connecting the top of the raise with the main shaft is now being driven, in which massive gold was encountered, and which machine drills could not penetrate. A single blast broke down over $15,000 worth of gold. Three-fourths of the weight of ore is native gold, valued at over $300,000 per ton."—Sept. 27, 1906, Winnipeg Free Press.

"BLUM'S MINE PAYS $300,000 TO THE TON.

"Richer by far than any mine ever before discovered, the Laurentian, in the Rainy River District of upper Canada, owned by Anthony Blum, the Brookline prospector, has been made more valuable and richer still by the striking of a new drift, which has already assayed $300,000 to a ton, and is expected to grow wealthier in virgin gold as it sinks deeper into the earth."—Boston Journal, Sept. 29, 1906.

"Since the mass of gold was encountered in the sub-level, which the machine drills could not penetrate, the winze has been sunk deeper and penetrated the rich ore shoot. The rich gold ore is now known to exist from 30 feet to 270 feet—the bottom of the shaft."—Montreal Star, Nov. 3, 1906.

$100 invested in Crow's Nest Pass Coal in 1886 is now worth $285,000 Laurentian Gold Mine Shares should be as good, for it is claimed to be the Richest Gold Mine in the World

WHY THESE SHARES ARE BEING SOLD

Mr. Anthony Blum, who discovered the Laurentian Gold Mine, is well known to some of the largest business firms in Winnipeg. Mr. Blum decided that never would he let the Laurentian Gold Mine get into the hands of a few rich capitalists, as he believes the mines of a country belong to the people at large. Therefore, a limited number of shares are for sale in this territory at $7.50 per share.

TWO MILLION DOLLARS WAS REFUSED FOR THIS MINE

Hundreds of thousands of dollars have ben spent developing this mine and it is being successfully worked and producing gold which has panned $500,000 to the ton. Shares are worth, par value, $10.00. A limited number offered at $7.50 per share. These shares will soon be much higher. Better subscribe now and reap the profits of the advance.

CANADIAN TRADE REVIEW

BAD WEATHER AFFECTS THE RETAIL TRADE.

BANK CLEARINGS FOR PAST WEEK OF PRINCIPAL CITIES

Montreal, April 20.—Bradstreet's trade review says: In Canada unseasonable cold weather affects retail trade, but wholesalers and jobbers report trade still good, and complaints of slow delivery still general. Water navigation on the lower lakes is open but on the upper lakes it will not be open until May 1, large shipments of heavy freight, iron and hardware, are going forward. Canadian rail mills have their output sold for the entire year. One has a contract for 37,000 tons of 100 pound rails. Ocean navigation at Montreal is expected to open up May 1. Toronto reports little improvement in deliveries and higher prices expected for cotton stocks. Wholesale trade is brisk in Manitoba, but retail trade is slow because of bad roads, and the backward spring. Collections show little improvement.

Failures for the week number 18, and 22 in this week a year ago.

The past week's bank clearings with percentages of increase and decrease, follow:

		Inc.	Dec.
Toronto	$24,511,000	41.5	....
Winnipeg	10,558,000	40.2	....
Ottawa	3,063,000	42.1	....
Vancouver	3,473,000	90.8	....
Halifax	1,199,000	26.9	....
Quebec	857,000	47.9	....
Hamilton	1,629,000	44.1	....
St. John, N.B.	1,156,000	32.2	....
London	1,355,000	48.4	....
Victoria	997,000	84.8	....
Calgary	1,297,000	....	....
Edmonton	1,107,000	....	....

MOTHER'S SACRIFICE

Disposing of Her Real Estate to Provide Bail For Harry Thaw.

New York, April 20.—A despatch from Pittsburg says that when Mrs. William Thaw reached her Pittsburg home yesterday she collopsed and physicians were summoned. With her is her daughter, the countess of Yarmouth. This is the first time the countess has been in Pittsburg since she left here immediately after her wedding four years ago. Joshua Thaw, who accompanied his mother home, was very busy yesterday. Mr. Thaw went to the office of Frank Nempe, Jr., agent of the estate of the late William Thaw. Mr. Thaw and Nempe were closeted together until almost noon, and later Mr. Nempe acknowledged that he was going out of the city tonight on a secret mission for the Thaws. The work of converting part of the fortune of Mrs. William Thaw into cash will, it is stated, begin next Monday. Practically every piece of property owned outright by Mrs. Thaw will be sold, and the money received will be paid into a fund for bail for Harry K. Thaw.

THE MORE DIRECT WAY

Go Right to the Fountain Head and Study the Styles

Learn to swim instead of devoting your energy to finding a suitable life preserver. You know you can get fine shoes in all sizes, shapes and widths. You can get fine clothes made to the trying on stage just as readily, and save the energy you waste in following old fashioned ways. No man can tell how a pattern cloth will look when its made up. A Semi-ready suit can be finished to your measure in two hours, and you can always prejudge the effect and suitability of the pattern, at the ready to try on stage.

J. A. Gilker, Nelson.

STOCKS FOR THE WEEK

PRICES ARE FIRM AND STOCKS VERY ACTIVE

APPROXIMATE QUOTATIONS FOR THE PAST SIX DAYS

(Reported by B. B. Mighton & Co.)

Locally the trading in stocks for the past week showed a great improvement, prices being firm and a large number of the stocks very active. The Spokane exchange reports business better than since last fall, with a probability of their sales increasing. The feature of the week's tradings was the rapid decline in International Coal and the flurry in Rambler. The former stock dropped to 44 cents, but within 24 hours gained about 7 cents, with thousands of shares dealt in. There is no doubt but that the investing public favor International Coal at any price below 65 cents, consequently should there be a probability of an early settlement of the labor trouble this stock will advance to this figure. The latter shares gained about 3 cents yesterday with a strong demand still manifested. This rise is accounted for by reason of the report of shipments being resumed almost at once. B. C. and Dominion Copper changed but very little throughout the week; this was rather surprising when considering the possibility of these companies being closed down for lack of fuel, and illustrates the faith of the investing public in these securities.

Consolidated Smelters weakened slightly and were in little demand. Western Oil Consolidated and Diamond Vale though changed but slightly were in good demand. White Bear was offered freely with but few buyers.

The following are the approximate quotations for the week ending yesterday:

	Asked	Bid
American Boy	$ .1¾	$ .1⅝
Alberta Coal	.32	.28
B. C. Copper, close	8.00	7.37½
Consolidated Smelters	150.00	110.00
Cariboo-McKinney	.3½	.3
Dominion Copper, close	5.75	5.60
Diamond Vale Coal	.27	.24
Giant	.3	.2½
Granby	145.00	130.00
Gerty	.18¾	.18
Idora	.21	.19
International Coal	.51	.45
La Plata Mines	.19	.17
Naboh	.35	.30½
Nicola Coal Mines	.6	.5
Rambler-Cariboo	.36	.33½
Sullivan	.8½	.7½
Stewart	2.62	2.50
Snowstorm	3.00	2.99
Western Oil Con.	1.85	1.80

DEGREES FOR METHODISTS

Toronto, April 20.—Three prominent clergymen of the Methodist chruch had the honorary degree of doctor of divinity conferred on them by the senate of Victoria college last evening. The newly elected divines are: Rev. Thomas Crosby, the well known missionary of British Columbia; Rev. James A. Rankin, pastor of Carlton street church, this city, and Rev. William McDonogh, of Stratford.

FOOTBALL ENTHUSIASM

One Hundred Thousand People Witness Final in English Cup Ties.

London, April 20.—Fully 60,000 enthusiastic admirers of football arrived in London today from as early as 3 o'clock in the morning on special trains to witness the final game in the English cup ties at the Crystal Palace between Everton, the holders of the trophy, and Sheffield. With the contingents from the south the managers estimated that fully 80,000 persons came to London to see the game. The metropolis furnished its full quota, bringing the total up to about 100,000. By the time the game was opened the standing room was packed. All the seating capacity at the grounds was sold a week ahead.

Sheffield kicked off and scored a goal within 20 minutes. Everton then became the aggressor but Sheffield put up a fine defence and it was not until just before the end of the first half that the holders of the cup were able to equalize matters.

At what is known in football here as "three-quarter time" the score was unchanged. During the last quarter both sides put in their best work. There were many exciting rushes but the teams were so evenly matched that neither was able to score for some time. Then one of the Sheffield forwards got the ball and with a well-directed kick won a second goal. Everton was unable to score after that and Sheffield captured the coveted trophy. The defeat of the holders of the cup, who were strong favorites, led to the wildest scenes of excitement. Lord chief justice Alverstone presented the cup to the winners.

ESTATE OF A. G. BLAIR.

St. John, N.B., April 20.—The estate of the late Hon. Andrew G. Blair will total not less than $200,000, according to information which reached St. John from a reliable source. The will has been entered for probate at Ottawa and the draft inventory fixes the value at about that amount, of which a considerable portion is life insurance. A probate has not ben granted because of a disagreement with regard to the succession tax, but it is anticipated that a settlement will shortly be reached. The bulk of the estate goes to members of the family.

CHURCH SERVICES TODAY

The services announced for today in the churches of Nelson are as follows:

Anglican—St. Saviour's church, corner of Ward and Silica streets. Third Sunday after Easter; holy communion, 8 a. m.; morning prayer and holy communion, 11; Sunday school, 2:30 p.m.; evensong, 7:30. Rev. F. H. Graham, rector.

NELSON'S NEWS OF THE DAY

"Miss Stuart's Legacy," by F. A. Steel, has been presented to the Nelson library by Mrs. A. L. McKillop.

The box plan for the "May Queen" opens tomorrow at Rutherfords. Tickets may be obtained from Fred Irvine and company.

The Ladies of the Maccabees at a meeting yesterday decided to hold their At Home as at first arranged, on Wednesday evening.

The preliminary hearing of the charge of attempted murder near Kootenay landing against Paul Mannarino will be taken up tomorrow morning.

Coyotes last week attacked and killed a horse belonging to the teams hauling ore form the La Plata mine, in the heavy timber about two miles below the mine.

Manager W. J. Trethewey of the La Plata mine, paid a flying visit to the city yesterday. He reports a number of slides on the mine tramway and below the mill but no serious damage has been done.

This evening in the Baptist church the pastor will tell the story of his mother's life, as an evangelist and Christian worker. The choir will sing "Guide me, O, Thou Great Jehovah," by Emmerson.

Lacrosse men say that the game has been scotched along the Crow by the introduction of professional abseball. Clubs may be organized this summer at Rossland, Revelstoke, Boundary and Cranbrook.

The funeral of the remains of George F. Mershall, not George Minchell, as elsewhere written, the victim of the fatality in the sawmill accident yesterday, will take place tomorrow afternoon from St. Saviour's church at 2 o'clock.

C. I. Norris of the famous Norris and Rowe's circus, was in town yesterday looking over the possibilities of bringing the whole of the big show here next month. The site looked at was that at the eastern end of the tram line, that on the C.P.R. yards being too small, except for a section of the circus, such as visited the city some years since.

NELSON BRANCH

Charles Walmsley gave evidence, corroborating that of G. Gunning in the case of theft, adjourned from last week, preferred against John Riley. The case was adjourned then for one week, when the defence will be taken up by W. A. Macdonald.

BLAME A POLICEMAN

New York, April 20.—District attorney Jerome today received definite information that the Thaw jury was approached by a policeman who informed one of the juror's that Thaw's father, William Thaw, was a member of the Mystic Shrine. Juror Charles E. Newton, himself a shriner, said today that the remark was made to him, and it is said that the policeman who conveyed the information was also a member of that society. Mr. Newton said he immediately told all the jurors what had been said to him. All the policemen who did duty with the Thaw jury at any time will be lined up in the district attorney's office on Monday and juror Newton will be asked to pick out the man who is alleged to have made the remark.

STRATHCONA—W. J. Trethewey, La Pata; F. W. Gurnsey, Trail; V. H. Williams, judge Wilson, Cranbrook; S. J. Russell, Bonnington; H. D. Fisher, New Denver; A. G. Donaldson, Mrs. C. R. Hamilton, and child, J. S C. Fraser, Rossland; F. S. York, Deer Park.

QUEENS—S. Gordon, F. Young, Grand Forks.

McDermid & McHardy

Is It Worth the Trouble?

Some people think that it is not worth the trouble and expense to procure a beautiful head of hair. But what is a little trouble or expense compared to a beautiful head of hair. Those who have used the Seven Sutherland Sisters preparations and see what grand results they give cannot understand how they ever got along without them. It will be to your advantage to call and consult with the Seven Sutherland Sisters' representative at the Canada Drug & Book Company's store, and to give the Seven Sutherland Sisters' Hair Grower and Scalp Cleaner a fair trial.
