VOL. 6 NELSON, B. C., FRIDAY, NOVEMBER 29, 1907 NO. 190

POWER PLANT

Where the City is Standing Today

REPORT BY THE COMPANY

MUST BE A CLOSE DOWN FOR A MONTH—NELSON MUST FALL BACK UPON W. K. P. & L. CO.—VERBAL BARGAIN FOR A RETAINING FEE.

There was a protracted and fully attended special meeting of the city council held last night to consider the situation of the city's power plant. R. H. Zavitz of the Allis-Chalmers-Bullock company, was present and presented a report and at a later time Lorne Campbell of the West Kootenay Power and Light company was also present. Certain difficulties were outlined and the council adjourned until this evening at 8 o'clock in order to deal with the matter, the meeting of last night being only an informal one.

Manager Zavitz reported that he had made during the past few weeks a thorough examination of the city power plant and had come to the conclusion that there was nothing wrong with the governor but that the water gates required adjustment. These gates fitted so tightly as to set up a friction that the governor could not well overcome and in consequence as soon as the load amounted to 300 kilowatts, less than half of the capacity of the plant, the plant began "hunting," that is to say, varying in speed. He wanted the city to close down for a period of from 21 to 30 days and to do so at its own expense or, at all events, to meet the installing company in the matter.

On being questioned, Mr. Zavitz could not explain why A. Pfau, the expert who had examined the faulty machinery earlier in the year, had said nothing about the water gate, but had merely stated that a more powerful governor was wanted although he admitted that Mr. Pfau was probably one of the designers of the governor.

Mr. Zavitz maintained that the city should pay its proportion of the expense of shutting down the plant on the ground that there were certain arts which were defective which the city must make good. These Mr. Zavitz declared would take nearly if not quite as much time as the adjusting of the water gates. The defective parts alluded to were the strengthening of the supports of the main shafting, which Mr. Zavitz asserted were not according to the plans, and the reinstalling of the draught tube which had gone out because the grouting which the city had done was defective and because the draught tube had not been anchored, as had been called for by the plans.

On behalf of the city it was asserted that the supporting of the main shaft was done by the city according to plans, that the grouting of the draught tube was certainly defective. On the other hand while the draught tube should have been anchored, but as the produced plans showed, there was no anchoring called for.

The city electrician was of the opinion that the grouting referred to was not good that the draught tube should be anchored and could not well be shortened and that it could be put in place inside of ten days. The strengthening of the supports of the main shaft could be done within two or three days. On the other hand the adjustment of the water gates could be done within 14 days.

Mr. Zavitz pointed out that the company had not asked the city to take over the plant, as it was incomplete, and therefore were within their rights in asking for a shut down as there had been no time limit set to the finishing of the contract.

After Mr Zavitz withdrew the council asked the attendance of Lorne Campbell of the West Kootenay Power and Light Co. In the meantime the city electrician maintained that Baker street could be served by the rehabilitation of the old direct power plant. Mr. Brown admitted that the wires had been taken away and some of the brushes and instruments had been taken away and the plant neglected and further conceded that it would be a costly job to put it in working order again

In reference to another matter, Mr Brown said that he was satisfied that the city, if the plant were completed, would be in a position to supply the Canada Zinc comany with 650 h.p. daily, and yet keep up the ordinary service of the city, the only time there would be any trouble being between dusk and six o'clock in the evening and according to Mr Brown's estimates of the possible overload on the power plant and the time which that overload could be carried, with the plant properly completed, there should be no difficulty in doing this

It then transpired that 650 h.p. was what the zinc company, which assured the council that it would be in operation in February next, wants as an initial load, but that further on in the year it will probably be in a position to take very much more power and therefore be in a position to guarantee the city practically the expense of putting in a second unit and thus having a margin of safety in the municipal power plant In return the city is to furnish power at $15 per horse power per month.

At this juncture Mr. Campbell came in and in reply to a query, said that he was prepared to give the city all the power it wanted for any length of time at $45 per horse power, about $3000 per month, as long as the city paid him a retainer of $1000 a year for keeping his power plant as an auxiliary to the city.

This demanded an explanation and it transpired that early in the year ex-city electrician Dickson had recommended that the West Kootenay Power and Light Co. be paid such a sum as a sort of insurance against any accident happening to the city plant, it not having a second unit that Aid Selous had thought favorably and still thought favorably of the scheme and that a verbal arrangement had been entered into between the mayor and Mr. Campbell, which verbal arrangement both gentlemen admitted, that this retainer of $1000 should be paid from year to year, from council to council.

On the other hand it was urged that during the past year while the city had sometimes used the power of the West Kootenay Power and Light Co., yet on other occasions the company had done the same with the city. Mr. Campbell admitted this but said that as no charge had been made on either side the benefits might be said to be reciprocal, but for all that he had at all times, under the idea that he was to receive his $1000, held his plant an auxiliary to the city. When the Hall Mines smelter had closed down he had first endeavored to get information from them as to whether that shut down was temporary or permanent and failing definite information had acquainted the city that four months after date, that is to say on January 21 next, he could not keep up the arrangement whereby he paid half of the cost of the substation. He was still paying half the cost under his contract, quite distinct from the auxiliary idea, although the smelter is no longer running, but was not kicking on that account.

Mr. Campbell went on to say that he intended to make his line from Bonnington and his apparatus at the substation pay for themselves by business, but did not wish to be understood that he was seeking that business in Nelson.

Ald. Selous was of the opinion that if the city were driven to it, it could run on gas, kerosene and candles during the shut down of the power plant and that the motor users could fall back on water Incidentally it was said that the city electrician had been asking for a couple of tons of copper wire which had been offered him at 16 cents a pound f.o.b. Boston.

Having all these facts before them, the city fathers adjourned at 10:30 o'clock until this evening at 8 o'clock in the city hall.

JAPAN WILL NEGOTIATE

MINISTER HAYASHI IS ANXIOUS TO PROCEED

AWAITING ARRIVAL OF ISHII AT TOKIO

Tokio, Nov. 28—Hon. R. Lemieux, Canadian postmaster general and commissioner of labor, who is on a mission concerning emigration, had an audience with the empress at the palace today. The usual ceremonies were observed. The emperor was afflicted with a cold and was unable to be present. Mr. Ishii, chief of the bureau of commerce of the Japanese foreign office, is expected on the 20th of November. After his arrival it is believed, negotiations concerning emigration to America will proceed more rapidly. It is understood that viscount Hayashi, minister of foreign affairs, has assured Mr. Lemieux that the Japanese government is prepared to meet the views of Canada regarding limitation of immigration.

It is understood that the United States ambassador, Mr. O'Brien has officially called the attention of the Japanese government to the great increase in the number of Japanese arriving on the Pacific coast. He presented the views of the state department that this cannot be considered in accordance with the promises of the Japanese government and therefore requested a rigid investigation with prompt measures to prevent the immigration into America of any person who entered as a student who might afterwards become a laborer. There is reason to believe that the immigration companies in Japan are taking advantage of the laxity of inspection qualification for emigrants and becoming bolder in practising fraud, hence a meeting of the emigration companies has been called for Dec. 3.

At the foreign office it was stated to a correspondent of the Associated Press: "We are now considering the best methods of controlling and further limiting immigration and correcting any mistakes which may have occurred lately. Conditions here are different from those in America. Japanese students who have reached a certain grade in the Japanese schools desiring to visit America, register as students in good faith. But, reaching America, they secure work to enable them to prosecute their studies. It is quite prboable that frauds have been committed, but without the cognizance of the government. We are using every precaution to prevent the recurrence of such frauds."

M. Shipoff, former minister of finance of Russia, arrived here today from Manchuria. His visit is of an unofficial character, but it understood that he will confer with the minister of foreign affairs, Hayashi, and will be given an audience with the emperor.

LUMBER COMBINE

Edmonton, Nov. 28—The taking of evidence in the lumber combine case was concluded yesterday. In the afternoon S. B. Woods attorney general, addressed the court for an hour and fifty minutes, referring particularly to the salient features brought out in the evidence. Mr. Bennett, counsel for the defence spoke for an hour. It has not been announced when a decision will be given in the case by chief justice Sifton.

RUSHES WORK

Construction Starts on Eastern End of G. T. P.

COMPANY LETS CONTRACTS

CONSUL MORIKAWA UNDER FIRE IN THE MACKENZIE KING ENQUIRY—COMMISSIONER OF THE OPINION HE HAS NOT STEPPED OUTSIDE HIS OFFICE.

(Special to The Daily News)

Vancouver, Nov. 28.—J. B. Harstone, superintendent for Foley Bros. and Larson, contractors for the Kitamaat branch of the G. T. P., are sending a hundred men north on Sunday and several hundred more next month. A sleigh road will be built and work rushed throughout the winter. Next spring work will be provided for thousands of men as soon as it is possible to take in supplies by river. The firm is employing no Orientals.

It is announced that a contract will be let for the section of the G. T. P. extending 120 miles west of Edmonton on December 23 and that tenders will then be called for the next 125 miles covering the distance to the Yellow Head Pass. Twelve survey parties are now in the field between the Rockies and the coast.

Japanese consul Morikawa's name figured again at commissioner King's investigation today. Immigration officer Monro, in testifying about the arrival of three hundred Japanese on the French steamer, said he permitted a hundred and fifty to land who had not the requisite twenty-five dollars, his protection being a bond from local boarding house keepers for three thousand dollars, which was endorsed by Morikawa, that they would not become dependent on charity. Later he learned that passports for these men had been handed by Morikawa to a boarding house keeper who had collected five dollars from each of the men before giving up the passports. Mr. King thought the examination was getting beyond the scope of the commission, but Charles Wilson said: "Morikawa has posed as one desiring of stopping the influx, particularly om Hawaii, and I think the evidence tends to show that he has been making a profit out of it, at least that he took advantage for his own profit, unless some explanation is made and I do not say an explanation cannot be made." Mr. Monro said he did not think Morikawa made any profit out of the transaction, but added that thereafter he informed the consul that all passports would be returned to immigrants through the immigration commissioner's office. Mr. King stated that Morikawa did not appear to have acted in a manner inconsistent with his office, and the matter dropped.

The mainland is now connected with the island by wireless telegraphy, dominion commissioner Doutre having exchanged two thousand words between the Point Grey and Victoria stations. The system will be extended to Prince Rupert later.

KAUFMANN THE WINNER

AWARDED DECISION AT THE END OF 25 ROUNDS

TWIN SULLIVAN SHOWED GREAT GAMENESS

San Francisco, Nov. 28—Al. Kaufman of this city was awarded the decision over Jack "Twin" Sullivan, of Boston at the end of the 25th round at the Colma athletic club this afternoon.

The fight up to the tenth round was practically an even affair, after that, however, Kaufmann forged to the front and was never in danger again. Sullivan did his best work in the early rounds and for a time it looked as though he might win. It was a give and take affair up to the tenth round, with Sullivan having the better of it. In the sixteenth round Kauffman forced Sullivan from one end of the ring to the other, landing almost steadily with lefts and rights to the jaw. He tried to put Sullivan out and in so doing weakened himself and showed that he lacked the one requisite of a knock ous punch.

From this time on, one round was a repetition of the other. Sullivan showed that he is a game fighter. In almost tvery one of the subsequent rounds it seemed certain that he must go to the mat from the gruelling shower of right and left hand swings to the jaw, but he took the scratch each time but was in great distress. He stalled continually to save himself from punishment. Kauffman thereafter devoted himself to Sullivan's anatomy and in the last few rounds got in several vicious punches, any one of which seemed powerful enough to put out an ordinary man.

The fight so far as Kaufmann was concerned was a great disappointment to the spectators, as it showed that the Californian does not display the championship calibre that he has been credited with. The fight also showed that Kauffman lacked both vim and viciousness.

After the fight Sullivan said that he injured his right hand in the sixth round, but if such was the case it was not apparent to the spectators. Kauffman very clearly outfought Sullivan in all but a few rounds.

The men entered the ring at 2:15 p.m. The audience numbered about 6000. Billy Roche was the referee. Time was called at 2:20 p.m. The men sparred cautiously for a few moments and Kauffman sent a good right to Sullivan's ear and they clinched. More sparring followed, each man landing several blows; Sullivan appeared the more clever in the fir tsround.

The second round was Sullivan's, Kauffman going to his corner with his nose bleeding freely. Kauffman, however, appeared to have a shade the better of the third round There were several exchanges in the fourth and Sullivan staggered his man with a straight left to the jaw. The round closed about even, as did the fifth.

Sullivan had the upper hand in the sixth but Kauffman, from whom the blood was again flowing freely, got in some hard blows. They exchanged vicious blows at close range in the seventh, Sullivan having the better of the rally. Kauffman went to his corner again with blood coming from his nose. Sullivan had a slight advantage in this round. The eighth round was a strenuous one, both men giving and receiving considerable punishment. Kauffman had the better of it. At the close of the ninth Sullivan was backed to the ropes and looked worried. The tenth was also Kauffman's round. Sullivan had his nose bled as he went to his corner. In the 11th Kauffman seemed much the fresher of the two but Sullivan got him against the ropes and sent in some hard swings to the jaw. It aws Kauffman's round as was the 12th

Sullivan braced himself considerably in the 14th and had the better of it. Kauffman rushed Sullivan Sullivan, but was punished when they came to a clinch. The 16th was fairly even, but the 17th was Kauffman's by a considerable margin.

Just as the gong sounded Sullivan ducked into a left which jarred him. Kauffman said "You are not Jack O'Brien." Kauffman landed several blows on the head in the 18th; Sullivan became groggy and was almost out but made a wonderful rally. Sullivan was outboxed and outpunched in the 19th, his opponents greater reach and height and weight proving of value Both men were very tired when the round closed In the 21st Sullivan stalled all over the ring at every opportunity. The next round was Kauffman's. The 23rd round was ame, but Sullivan was cheered because of his uphill fight Sullivan smiled and winked at his seconds in the 24th, but it was Kauffman's round In the 25th they fought fast and hard and Sullivan slipped to his knees momentarily. Kauffman followed Sullivan, anding lefts on the jaw at will. Sullivan held in the clinches but fought back. Sullivan was carried to the ropes. They were in a clinch at the close of the round and the fighe.

As the referee rendered the decision in favor of Kauffman, Sullivan threw his arms around Kauffman and kissed him on the check.

Al. Weeks, the British welterweight, and the sparring partner of Owen Moran of England and the "Congo Coon" of San Francisco, furnished the preliminary which was scheduled to go eight rounds. Weeks was awarded the decision at the end of the 8th round. It was a tame affair. Weeks was the heavier by 20 pounds.

TRAIL IS NOW IN LINE

SMELTERMEN VOTE TO ACCEPT REDUCED WAGES.

CONTINUOUS OPERATION NOW ASSURED.

(Special to The Daily News)

Trail, Nov. 28.—The smelter employees were in session last evening for several hours discussing the wage reduction question. Today a vote was taken of all the men which resulted in a two-thirds majority in favor of returning to the wage scale in force prior to May 1st of this year.

This result of the referendum at Trail, together with that at Rossland, ensures continuous operations at Rossland mines and at the Trail smelter.

In today's Rossland despatch re wage scale in that camp another error appears, it being stated that the wages of machine men would be $3.75 per day instead of $3.50, the rate in force prior to July 1.

LONDON BRIBERY TRIAL

Toronto, Nov. 28—In opening the case for the defense in the London bribery case before judge Winchester this morning, E. F. B. Johnston, K.C., took up the affidavit of James Farr, in which Farr denied that certain things had been done in the West Huron election. This affidavit Farr subsequentlyq denied in the witness box and in another declaration. Johnston brought out evidence to the effect that Farr had sworn to seeing the document made before Henry Myrte, a Toronto barrister, though Thomas Reid had drawn up the document Both Myrte and Reid stated on the stand this morning that Farr appeared perfecty sober at the time the affidavit was made. A large number of deputy returning officers who did duty in London in 1905 were called and in the majority of instances they swore that they knew of no wrong doing.

WANT CARS

Toronto, Nov. 28—Apple exporters claim that a million dolars worth of apples is being held in Ontario because of the lack of transportation facilities. They have organized an association to be known as the Ontario Apple Shippers' association and will go to Montreal to see the chief railway officials and if necessary, afterwards to Ottawa, to see the railway commission and dominion government.

BUSY SESSION

Big Program Before Canadian Parliament

SPEECH FROM THE THRONE

BRIEF RESUME OF LEGISLATION TO BE EXPECTED—NEW TARIFF WITH FRANCE—BILL TO REGULATE TELEPHONE AND TELEGRAPH COMPANIES.

(Special to The Daily News)

Ottawa, Nov. 28.—Apart from the introduction of the new members the only matter of importance which occurred in the house this afternoon was the reading by the speaker of a message from his excellency the governor general, transmitting a copy of the tariff convention between Canada and France.

The treaty which Mr. Fielding subsequently laid on the table of the house, was arranged by the negotiators, viz, sir Francis Berti, hon. W. S. Fielding and hon. L. P. Brodeur, on behalf of his majesty and by J. Vailliaiuex, Gaston Doumerge and J. Fuau on behalf of the French government.

Under the treaty about 150 items of Canadian goods are to be admitted to France under the minimum tariff of that country. On the other hand about one hundred items of French goods will be admitted to Canada under Canada's intermediate tariff. Under a special tariff about ten items of French goods will be admitted to Canada. The advantage given to French goods will in some cases be equal to the British preference and in a few instances will be actually lower than the British preference. In reference to these items the minister of finance has already announced that the British preferencial list will be amended in cases where it is known to be seriously affected by the treaty with France. The usual most favored nation clauses are incorporated in the treaty and it is provided that to obtain the benefit of these reductions, goods must enter either country direct from the other without transshipment.

Ottawa, Nov. 28.—The first real snow storm of the season signalized the opening of parliament this afternoon. The number of out of town visitors for the opening ceremonies was exceptionally large. His excellency was escorted to parliament buildings by princess Louise, Dragoon Guards under command of lieutenant C. J. Burratt. As the carriage entered the parliament grounds a salute rang out from the guns of Nepean Point battery, the firing party being under command of captain McLaren. The usual guard of honor from the governor general's foot guards was in front of the parliament buildings to receive lord Grey.

The speech from the throne was as follows:

"Honorable gentlemen of the senate, gentlemen of the house of commons:

"Again in greeting you at a period most convenient for the despatch of business, it gives me great pleasure to be able to congratulate you on the remarkable expansion of the trade of Canada with other countries, the total trade of the past year far exceeding that of any of its predecessors. A gratifying result of this expansion was that the revenue of the last fiscal period of nine months was more than sufficient to meet the expenses of the consolidated fund, national continental railway capital and special outlays, all expenses of the dominion of every kind, and leave a balance of over three million dollars to be applied on the reduction of the public debt.

"The stream of immigrants coming to Canada continues to increase in volume, the year now drawing to a close showing a larger number than any preceding year, and it is gratifying to observe the many coming from the British islands. The dominion has been blessed by a long series of prosperous years and though at the present moment its business is being restricted by the financial stringency which prevails throughout the world I feel assured that the unfavorable condition will be temporary and that the illimitable resources of Canada and the world wide recognition of them give us ample guarantee of continued material progress.

"The conference held in London in the months of April and May last between the government of the United Kingdom and the governments of the British dominions beyond the seas satisfactorily dealt with many subjects in which the empire at large is interested. A copy of the minutes of the proceedings will be laid before you.

"Two of the ministers duly authorized by his majesty, for the purpose of acting in conjunction with his majesty's ambassador at Paris, have recently negotiated a convention with the government of the French republic respecting the commercial relations between Canada and France, subject, however, to the approval of the French chambers and the Canadian parliament. A copy of this convention will be submitted to you immediately and you will be asked to give it your sanction.

"The government of Newfoundland, having become involved in a controversy with the government of the United States as to the true meaning of the article of convention respecting fisheries, concluded in the year 1818 between the United Kingdom and the United States, and Canada being also interested in the question at issue, the government has joined with the government of Newfoundland in an agreement to refer all matters arising out of said article to the Hague tribunal.

"The difficulty of obtaining labor and materials at a time of great business activity has somewhat retarded the construction of the Trans-continental railway. Nevertheless great progress has been made both on the eastern division and on the prairie section of the western division. A section of the latter of about two hundred and fifty miles has been available for handling the traffic of the present season. Contracts for the portion of the prairie section west of Edmonton are about to be let and immediate steps will be taken for the commencement of work at both the eastern and western ends of the mountain division. Thus in a very short time the whole work from Moncton to the Pacific ocean will be under organized construction.

"The unexpected influx of immigrants from Oriental countries into Canada aroused a strong feeling of opposition. A member of my government has been deputed to proceed to Japan to confer with the Japanese government on the subject.

"The sudden and unexpected collapse of the great cantilever bridge in course of construction across the St. Lawrence in the vicinity of Quebec, may be regarded as a national calamity and the event has evoked much sorrow for the lives that were lost on that occasion. A commission has been appointed to inquire into the causes which led to the disaster. When received the report of the commission will be laid before you. It will be necessary to devise means for the completion of the bridge within a reasonable time.

"It is most gratifying to find that notwithstanding the large reduction of postal rates which have been made the revenue of th post offic department has continued to increase rapidly. The large receipts of this branch of the government business will enable the department to make still larger provision for the extention of the postal facilities throughout the dominion.

"The time has arrived when public interest requires that telegraph and telephone companies holding federal charters should be placed under government control. A bill will be introduced for that purpose.

"Gentlemen of the house of commons, the public accounts for the nine months ending 31st March last will be laid before you without delay. The estimates for the coming fiscal year will be submitted for your approval at an early day.

"Hon. gentlemen of the senate, gentlemen of the house of commons, among the measures to be submitted to you is a bill for the extension of the boundaries of Manitoba and other provinces, also a bill for the issue of government annuities for old age. A bill respecting insurance and bills of amend the election act and the dominion lands act.

"I commend to your thoughtful consideration the several subjects to which I have referred and I trust that in your deliberations you may be guided by Divine light."

Paris, Nov 28—The government gave out the text of the Franco-Canadian treaty, which, when ratified by the respective parliaments, will replace the treaty of 1893 and will operate for ten years Each party to the agreement, however, has the right to withdraw on a year's notice.

By the treaty France gives Canada a minimum tariff on horses, cattle, poultry, salted meats, canned goods, eggs, cheese, butter, fresh and salted fish, wheat, oats, barley, rye, maise, potatoes, fruits lumber vegetables, fodder, coal and metals

Canada gives an intermediate tariff on meats, poultry and game, cheese, fruits, trees, medicinal wines, soap, potatoes, locomotives, glass, automobiles, laces and cotton thread, dress goods and woolens.

The signatories reciprocally agree to extend the most favored nation administrative treatment in connection with all commerce between the two countries.

NELSON NEWS OF THE DAY

Born, at the Maternity hospital, New Denver, on Nov 27, to the wife of C. Brown Rosebery a son

Owing to yesterday being a public holiday in the United States, Thanksgiving day, no copper stock or metal quotations were obtained

The city engineer walked over the Anderson creek flume yesterday and says that while its condition is not satisfactory it is still bringing in a supply of water.

As will be seen by an announcement in this issue the local milkmen have raised the price of milk on and after Sunday next to 12 1-2 and 10 cents per quart for less or more than two quarts

There was a rumor freely circulating yesterday afternoon that Monty Davys had again taken a lease on the Silver King mine On the matter being referred to J. J. Campbell, who is managing the property for the company, the reply was given that there was no truth in the statement

STANFIELD'S MAJORITY.

Truro, N. S., Nov. 28.—Complete returns from Colchester show that Stanfield, conservative, has a majority of 198 over Hill, liberal, in the bye-elections for the house of commons.

GOOD MONEY

Province Benefits by Financial Stringency

LOAN IS NEARLY REPAID

TIMBERMEN WILL PRESENT MANY PETITIONS ASKING FOR LONG TENURE OF PRESENT LICENCES UNDER PENALTY OF SERIOUS DISTURBANCE.

(Special to The Daily News)

Vancouver, Nov. 28—R. G. Tatlow, provincial minister of finance, yesterday paid back half a million on the million dollar loan negotiated by the province three years ago Three annual payments of a hundred thousand dollars and interest had previously been made, so only $200,000 remains The half million payment was made to the Canada Life Assurance company, the province taking up its bonds at par The action was rendered possible by the condition of the money market which made the assurance company willing to forego several years' running of the bonds at 6 per cent to obtain ready cash The province wins out on the deal as the money in the bank would only have drawn three per cent interest

Julison F Clark, secretary of the newly organized lumbermen's organized lumbermen's associationmens' association, said today that representations and petitions of the strongest kind will shortly be presented to the government urging that the tenure of all timber licenses be lengthened. As a practical forester, Clark says that the present situation will undoubtedly lead to a slaughter of timber by the present holders of licenses unless some such action is taken The enormous number of claims granted in the last 18 months will certainly bring about the time when the owners will log to the limit to protect their interests toward the close of their tenure The result will be a slaughter of timber and a drop of prices in the general run of the market He says there is sufficient timber on the coast now under license to run all the mills now existing for 100 years. He believes that the holders of licenses will welcome the action if the continuance of leases is granted at the same annual fee now existing.

The total revenue of the province from all branches, covering timber rights from last June to October, inclusive is $366,073.77.

ANTITUBERCULOSIS BALL

Dance Tonight at the Armory Will be the Biggest of the Season

It is expected that there will be quite 400 people attending the dance at the armory this evening, which is being given in aid of the Tranquille sanitarium for tuberculosis patients There are several patients in the city who ought to be sent there at once and no effort should be spared by the public to make the proceeds of the dance as large as possible The management is not sparing of its efforts in this direction Supper will be served from 11 to 1 o'clock as it is impossible to serve more than 100 guests at one time in the supper room and each relay will take up at least half an hour The music is provided by Irwin's orchestra A feature of the ball is the voting for the most popular lady, the winner to get a chocolate set, which is being presented by the Canada Drug and Book company

Evening dress is not necessary to obtain admittance. Dancing will start promptly at 9 o'clock

FUEL QUESTION

Farmers in West Have Laid in Coal for the Winter Season

Winnipeg, Nov. 28—C.P.R. officials state that a large measure of success has attended the efforts of the company to persuade the consumers of the west to buy their coal during the summer. Hundreds of farmers throughout Manitoba and Saskatchewan who at this time last year were without fuel of any kind have now their supplies of coal for the entire year in their barns and the situation this year will be to this extent relieved. This is especially true of those districts which suffered most last year. Farmers in these areas are determined that they will not be caught in the same predicament and the dealers have been called upon through the summer to furnish fuel, which they were able easily to do. W. B. Lanigan, general freight agent of the C.P.R. states that many times the amount of coal has been sold throughout the west to consumers that was sold during the previous summer.

THREATENED STRIKE BREAKER

Kingston, Nov. 28.—Police magistrate Farrell at noon today, fined Geo. Leader and W. J. Robinson, $100 or one month in jail, for intimidating John Martin, a strike breaker tailor. The strikers called him a (scab and threatened to kill him if he did not get out of town.

PECULIAR FATALITY.

Winnipeg, Nov. 28.—A peculiar fatality occurred in the Y. M. C. A. building this afternoon when A. B. Jones was drowned in the swimming tank while trying to learn to swim, during absence of the attendants.

THE SPEECH FROM THE THRONE.

The speech from the throne at the opening of the dominion parliament yesterday will be read with keen satisfaction by Canadians from one end of the dominion to the other. His excellency's references to the expansion of Canadian trade and the statement that, "A gratifying result of this expansion was that the revenue of the last fiscal period of nine months was more than sufficient to meet the expenses of the consolidated fund, national continental railway capital and special outlays, all expenses of the dominion of every kind, and leave a balance of over three million dollars to be applied on the reduction of the public debt," are particularly pleasing and certainly afford the most effective answer to the tory charges of extravagance and mismanagement.

The reference, also, to the Grand Trunk Pacific railway and the definite statement that contracts for the work at both the eastern and western ends of the mountain division are shortly to be let, will be most gratifying to the people of this province.

Another eminently satisfactory feature of the speech is the promise of legislation to bring the telephone and telegraph companies, having federal charters, under government control.

It has already been intimated that the railway commission is to be enlarged and if it be the intention of the government to place the telephones and telegraphs under the control of that commission, such an enlargement will be imperative. We should like to see an auxiliary commission of two or three appointed, with headquarters at Winnipeg, whose special duty it would be to deal with all matters affecting western interests.

Official Liquidator,
The Last Chance Mining Company, Ltd.
Sandon, British Columbia.

EDITORIAL NOTE.

The announcement from Vancouver that the G. T. P. contractors are commencing active construction operations on the Pacific coast end, to be continued throughout the winter months, comes as a very welcome supplement to the announcement contained in the speech from the throne that work on the B. C. end of the new transcontimental line is to be vigorously pushed, It is satisfactory, too, to note that the G. T. P. people are employing no Orientals on construction. In this connection it is worth while drawing attention of the complete refutation of the tory canard, circulated just about election day in the last provincial elections, that the G. T. P. had contracted for 50,000 Japanese to work on construction. This canard, circulated at the last moment, too late for the liberals to effectively reply to, undoubtedly exercised a powerful influence against liberal candidates in certain districts, particularly in the coast cities. The sworn evidence before the enquiry being conducted by deputy minister of labor Mackenzie King has completely exposed the falsity of that canard. The tories benefitted by the circulation of this wilful falsehood, but it is questionable if hereafter they will not pay a heavy price for the temporary advantage thus gained, the electors will hesitate to accept in good faith any last moment announcements emanating from tory sources.

A RELIABLE REMEDY FOR CROUP.

Mrs. S. Rosinthal, of Turner, Michigan, says: "We have used Chamberlain's Cough Medicine for ourselves and children for several years and like it very much. I think it is the only remedy for croup and can highly recommend it." For sale by all druggists and dealers.

YOUR BEST CHANCE

to find out what people all over the earth are doing; to glean the best thoughts of the best editorial writers; to read a score of literary masterpieces, on romance, art, religion, adventure, travel, etc., and to laugh at the humorous skits of America's leading comic artists—ordered from your newsdealer in advance, a copy of next Sunday's New York World.

THE TWO ORPHANS.

Drama to be Produced at Sherman's Opera House on Monday Next.

Not a great many there are who have not seen a performance of "The Two Orphans," while few there are, indeed, who have not read the charming novel. East Lynne was undreamed of when this drama was first produced, and "Uncle Tom's Cabin" was only becoming known in book form. Throughout this great span of time, "The Two Orphans" was sending forth its powerful moral, to thousands nightly, not only in America but in almost every country where the theatre is known.

It holds the record of being translated into more foreign languages than any other play and today its immense popularity stands preeminent. This is the play's intensely human story, told in a language that is powerful in its simplicity. Its characters are from real life, while the scope grandeur of elaborate costuming and gorgeous scenic effects in the drama have made it a production that one remembers when all others are forgotten. This beautiful play will be given a superb production by the Dominion Stock company next Monday evening at Shermans' opera house, the advance sale is now open.

Minard's Liniment Cures Diphtheria.

LINGERING COLD.

Withstood Other Treatment But Quickly Cured by Chamberlain's Cough Remedy.

"Last winter I caught a very severe cold which lingered for weeks," says J. Urquhart, of Zephyr, Ontario. "My local dealer recommended Chamberlain's Cough Remedy and Entrusted it, so I gave it a trial. One small bottle of it cured me. I believe Chamberlain's Cough Remedy to be the best I have ever used." This remedy is for sale by all druggists and dealers.

FULL COURT

Text of Decision in Case of Star vs. White

JUDGMENT OF IRVING J

FINAL INSTALMENT OF JUDGE'S FINDING—JUDGEMENT OF MR. JUSTICE MORRISON WHO IS IN FAVOR OF DISMISSING PLAINTIFF'S APPEAL.

(Conc'uded from Yesterday)

Leaving that subject and turning to Mr. Fowler's testimony as to the work from C to D27, which he visited in July, 1905, just a day or so before giving his evidence at the second trial, he says, 1927: "From B to C you are crosscutting the black fissure. The new drift was on its left hand side going in a wall or plane and between this wall and the old drift there is a pillar some six or seven feet, separating the old drift from the new drift. Near the wall of the b'ack fissure." This hanging wall of the blac kfissure." This hanging wall he says passes across the old and new drifts and goes on to the north.

Now I turn to Mr. Oscar White on this point. It is another instance of his willingness to m'slead the court and will be found at pp. 1687 and 1688.

eH was again crossexamined (July, 1905) as to the new work C to D27, and having stated (1675 that there was only one wall, which was on the left hand side going in, that is on the south side; then at p. 1687, he is asked: "Are you sure the wall is not on the right side of the drift as you go in?" To which he replied: "Yes; I am sure." I now give the questions and answers.

Q: There is no wall on the right hand side as you as you go in from C?
A: What kind of wall?
Q: Well you have said there was only one wa'l; I want to know what side it is on?
A: On the left hand from C, going in.
Q: And that is the only wall?
A: Where we started at C there is—
Q: There is a wall on the right hand side as well as the left?
A: Yes.
Q: And when you get a little way in the wall on the right hand side disappears?
A. We didnt follow that.
Q. When it d'sappears on which side is it
A: The right hand side.
Q: It goes out on the right hand side?
A: Yes.

Now, why did he deny that there were two wa'ls revealed by this work? The significance of his suppression of the existence of this wall was shown to some extent when Fowler and Sizer gave their evidence in July, 1905. Sizer's is as follows:

Q: You heard Mr. White's evidence in which he said there was something that had the appearance of a wall running off out of this new drift to the north. What is that?
A: That is the hanging wa'l of the black fissure.

In connection with this subject it will be convenient to give Mr. Elmendorf's evidence, p. 1765.

Q: Did you find another wa going off to the south in that drift?
A: Going off to the south in that drift?
Q. Yes; north I mean
A: At what point?
Q: At any point?
A: No sir; there is nothing I consider a wall crossing that drift to the north, if that is what you mean.
Q: You saw nothing that looks as much like a wal' as what you call a wall?
A: No sir; there is a block of porphyry in there, but nothing that looks like a wal' going in that direction.

Oscar White saw the wall, denied its existence, but afterwards acknowledged it.

Mr. Elmendorf, after demanding particulars, is able to say "there is nothing there that I consider a wa'l."

The evidence given before this court after the work was done by Zwicky shows every reason for believing that there was a wall. And it is by the light of that evidence that I think it was so unfortunate that Mr. Oscar White allowed the crosscut B to X to be blocked up, right on the eve of the trial in July, 1905.

There seems to me to be established an absolute cut off between th's wall which the plaintiffs call the hanging wa l of the black fissure and all west of it. Mr Fowler's evidence is most clear on that point, and I accept it.

To the chief justice at the mine in July, 1905, he said: "There is absolutely no connection between the plane under which the new drift has been run, and what was to the east of the hanging wall of the black fissure."

Crippled With Rheumatism

CURED BY GIN PILLS

Mr. Derraugh certainly did have a hard time of it, winter before last. Caught cold, and it settled in his kidneys. First thing he knew, he was in bed with Rheumatism. He nearly went mad, the pain was so intense. The doctors gave him the usual treatment—and pretty nearly burnt his legs off with liniments and blisters—but the Rheumatism went right on aching.

Then a friend stepped in and said, "Why don't you try GIN PILLS?" After a great deal of persuasion, Mr. Derraugh did try GIN PILLS. You never such a happy man in your life, after he had taken two boxes. Pain all gone—stiffness and lameness completely left—that ache in back and hips disappeared—and he was well in no time. That was two years ago and he has been in perfect health ever since.

Contracted a severe cold. Rheumatism followed and the sharp pains took me so often and were so severe that I had to take to bed. For several months I could get no relief, until I started to take "Gin Pills." In five days I was up and around the house. My pains are gone and I have not had a return of the old trouble since. I wish also to say that "Gin Pills" gave me the first painless passage of urine I have had in two years.
KONT. DERRAUGH, Winnipeg.

How about you? Haven't you suffered enough without going all over it again this winter? Get Gin Pills now—and cure yourself at home. Mention this paper and we will send you a free sample to try. The Bole Drug Co., Winnipeg. Only 50c. a box—6 boxes for $2.50. 87

Synopsis of Canadian Homestead Regulation

ANY available Dominion Lands within the Railway Belt of British Columbia may be homesteaded by any persons who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres, more or less.

Entry must be made personally at the local land office for the district in which the land is situate. Entry by proxy may, however, be made on certain conditions by the father, mother, son, daughter, brother, or sister of an intending homesteader.

The homesteader is required to perform the conditions connected therewith under one of the following plans:

1. At least six months' residence upon and cultivation of the land in each year for three years.

2. If the father (or mother, if the father is deceased) of the homesteader resides upon a farm in the vicinity of the land entered for, the requirements as to residence may be satisfied by such person residing with the father or mother.

3. If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements as to residence may be satisfied by residence upon the said land.

Six months' notice in writing should be given to the Commissioner of Dominion Lands at Ottawa of intention to apply for patent.

COAL—Coal mining rights may be leased for a period of twenty-one years at an annual rental of $1 per acre. Not more than 2560 acres shall be leased to one individual or company. A royalty at the rate of five cents per ton shall be collected on the merchantable coal mined.

W. W. CORY,
Deputy Minister of the Interior.

NELSON DAILY NEWS

Nelson, British Columbia

Baker Street. Phone 144

To the chief justice at the trial he said in answer to the question:

Q: What in your opinion negatives conclusively the theory that this is a continuous vein C?

A: As far as I have seen the absolute disconnection between what lies west of point C and what lies east of point C by reason of that limiting plane which I find to continue across the old drift and the new drift ordered to be made by your lordship. That, to my mind, is the chief disconnection between everything to the west of what we call the black fissure and everything to the east.

He denies that there is any vein matter to be found west of C, although admitting that the new drift is run on a plane and that something in the nature of slickensides is to be found there.

He was then asked as to 43 to 50 and replied, p 1931. "I did not examine it particularly closely; I didn't see anything that was remarkable or worthy of any special attention at the time; I didn't see any vein matter.'

Q: From 43 to 50 is that tunnel or drift; that work from 43 to 50, is that in your opinion any part of the fissure which has followed down from the turn we call the black fissure.

A: Certainly not.

Q: Is that work from 43 to 50 and part, in your opinion, of the Silversmith vein, shown over on these workings in the Silversmith ground?

A: Certainly not.

It may not be out of date to mention that this examination of Fowler followed that of Sizer, who had just denied making the damaging admission imputed to him by Elmendorf, the order of events being as follows:

December, 1904, alleged admission by Sizer.

May, 1903, inspection by chief justice, and Fowler and Oscar White.

July, 1905, inspected by Elmendorf Fowler and Sizer. Whether Elmendorf and Sizer visited this mine together, I cannot say, but Sizer and Elmendorf did (1900). It is impossible to suppose that Sizer would not communicate to Fowler the fact that he had made the admission attributed to him, if he had indeed made it.

July 26th, Elmendorf gives evidence of alleged admission, "as he understands it." Sizer denies making such admission.

July 28, Fowler gives this answer as to the drift from 43 to 50: "I didn't examine it particularly closely."

This answer, to my mind shows that Fowler had not been made aware until after his inspection of the mine in July that this alleged admission had been made by Sizer. That fact and the simplicity of the answer strengthens my belief that Mr. Sizer never made or even supposed that he had made the admission imputed to him. Mr. Fowler, a mining engineer residing in this province since 1889, with nine or ten years' experience in the Slocan country, and who at one time was familiar with the workings of the Ruth mine, a mine only a few hundred feet to the north of the mine in question in this action, of all the witnesses, except Mr. Oscar White and Mr. Harris, whose experience in the Slocan country is also considerable, is, by virtue of his long familiarity with the surrounding country, entitled to speak with most weight.

For these reasons, I think the defendants' case has failed. Judgment should therefore be reversed, with costs here and below. The judgment should direct an enquiry as to the amount of ore taken, and contain a declaration that the Slocan Star location does not give to the defendants any rights to the west of the west end line of that claim, and that the vein or lode on the Silversmith location has not been shown to extend to the Rabbit Paw or Heber Fraction. There should be an injunction also, but the terms of the judgment had better be spoken of later.

(JUDGMENT OF MORRISON, J.)

The judgment of Mr. justice Morrison, wherein he dissents from a majority of the court and holds that the appeal should be dismissed with costs, is appended:

This is an action for damages and an injunction against the taking of ore from the plaintiff's mineral claims known as the Rabbit Paw and Heber fraction.

Markedly divergent theories were advanced at the trial, and when it was deemed advisable that the workings and condition of the mines should be inspected, the learned trial judge, accompanied by two engineers, selected by the two parties hereto, visited the mine, ordered certain additional work done, and then had a second view. From the voluminous evidence before us, I gather that a thorough inspection was made. At the close of the evidence following this view of the locus in quo counsel for the plaintiff requested that further work be done on the ground that not enough had been done to establish his theory, and that without additional work as indicated by him, it was useless for him to proceed with his case. This was refused, and the learned judge then gave the judgment appealed from, which is a result mainly of his inspections. Upon appeal to this court, however, such leave was given the plaintiff to have certaain further work done and to advance *if necessary, such further evidence as* the parties might be advised respecting the issues as developed at the trial. Pursuant to this leave, the work was done by a Mr. Zwicky, and in due course, his evidence and that of the chief witnesses at the trial, as well as the evidence of a Mr. *Boehmer, an American expert, was given* before us on this appeal.

From a close reading of the proceedings on appeal, Icannot discover any tangible evidence. It is all highly theoretical, not to say rhetorical, and the arguments of counsel were equally vituperative.

With regard to the position in which the plaintiff's counsel considered he stood at the close of the trial, it seems to me necessary for him to adduce evidence of a nature much stronger than before to establish his theory. If the new evidence does not add to it, but simply reaffirms the *previous evidence it is not enough.*

Otherwise, giving the fullest effect to both sides, apart from the question of onus, which I submit now is on the plaintiff, the net result would be as before, one theory opposed to the other. But with this difference, that the defendant is supported by the opinion of the learned trial judge, based mainly upon his inspection and so should prevail with us.

I joined in the order for the performance of the new work solely in the belief created by the strenuous argument of counsel that the new work would clearly demonstrate the contention of the plaintiff.

(Continued on Page Six)

If you want Fruit Land
That has soil—not sand or rock,
That is directly on existing lines of transportation,
That lies level—not mountain side or cliff,
See us.
We can give it to you.
We have ten-acre blocks which the intending settler can pay for at the rate of $10 per month.
We have large blocks suitable for colonization.
And our land has quality.

terday and conferred with mayor Gillett and with Mr. Zavitz.

A meeting of the executive of the Conservative association is called for this evening at 8 o'clock in Odd Fellows hall.

If you have not used a want ad. lately you must be getting "wedded" to the hardest way of doing things—or the habit of not doing them at all.

The thermometer yesterday varied between 36 and 30 degrees. Snow began to fall at day break and continued until 2 o'clock in the afternoon when it turned to rain. The precipitation up to six o'clock was two inches snow and .12 rain.

Men with two hands and one head can find work through a want ad., whether they are "skilled workmen" or not.

So mild has been the winter so far that ranchers report that growth has been made upon the trees continually for the past two months. The hard frost of a couple of nights ago was the first of the season, but no damage has been reported to the still green fruit trees. Sweetpeas and roses picked out of doors late last week are still blooming in the houses.

No householder can be "thrifty," nowadays, who does not study the ads.

Some of the real estate advertised in these columns today will have new owners tomorrow.

SLEEPER CAR IS BURNED

ACCIDENT AT TROUP YESTERDAY MORNING.

PASSENGERS NARROWLY ESCAPE SUFFOCATION.

A further accident has occurred on the Spokane Falls and Northern line. Yesterday morning at 3.25 o'clock three coaches on the incoming passenger from Spokane were derailed at Troup junction and the sleeping car was burned, the passengers escaping without injury and coming into Nelson at a quarter to six o'clock in the morning.

The accident was occasioned by a broken rail on the loop connecting the tracks of the Spokane Falls & Northern and the C. P. R. at Troup Junction, five miles east of Nelson. How the rail was broken cannot be ascertained. It was certainly in place when the outgoing train passed over it at about midnight. Shortly after the wreck the weakness of the rail, teythe wreck it was found smashed in several places. Why it was broken is alleged to be from the weakness of the rail, the lake having risen over it during the summer and rust forming in consequence.

Yesterday morning as the train was rounding the curve the sleeper derailed, throwing the two day coaches off the track, both lying on their side. The majority of the passengers had left at the Mountain station. Engineer Bodey and conductor Votaw acted at once, turning on the air brakes and bringing the locomotive to a stand still within a car's length. In the meantime within the sleeper the porter, Taylor, did his best to prevent damage. He succeeded in extinguishing every lamp in the car with the exception of one which he could not reach. That, falling over, set fire to a pile of blankets and instantly the burning wool caused a suffocating smoke. A window was broken on the upper side of the car and within five minutes each of the eight occupants had crawled through, none having sustained any serious injuries beyond a few bruises. The personal effects of the sleeper passengers were all consumed, causing serious loss in more than one case.

In the meantime the locomotive, to which was still coupled the baggage car, underailed backed down the loop past the two day coaches, lying on the side of the track and a determined effort was made to put out the fire on the sleeper. This could not be done, but the effort was successful in preventing the fire catching the other disabled cars. As soon as the fire was under control, about two hours later, the locomotive took the passengers into the city.

There was no interruption of the service as an extra sleeper from Marcus was ordered for last night's train.

Minard's Liniment Cures Colds, &c.

A GOOD LINIMENT.

When you need a good reliable liniment try Chamberlain's Pain Balm. It has no superior for sprains and swellings. A piece of flannel slightly dampened with Pain Balm is superior to a plaster for lame back or pains in the side or chest. It also relieves rheumatic pains and makes sleep and rest possible. For sale by all druggists and dealers.

J. H. WALLACE

(Continued From Page Four)

and had I anticipated that the result would be to afford a breathing spell for a resumption of the wonderful display of theories as to the formation of the earth's interior by clever experts, I should have hesitated before concurring.

The leading respective experts appear to be men of ability who advanced diametrically opposite scientific theories. They assumed that position before the trial judge and maintained it steadfastly in giving their evidence on appeal.

The trial judge, however, not only heard their theories, but, as it were, saw those theories worked out. One who hears a man tell how he performed a certain piece of work is not in so favorable a position to determine the nature of the work performed as if he saw him do it or saw the work after it was done.

For my part, I find it as difficult to appreciate the value of the voluminous evidence in this case, as it is to understand the extent, trend and course of the different subterranean formations by handling the small fragments of "rock" produced as exhibits, and about which there is such a hopeless divergence of scientific opinion.

The proof must be clear and unmistakable. And in respect to this new work ordered by us to be done, I do not think it is either. The evidence is so perplexing that taking it alone one must arrive at the conclusion urged upon us by the plaintiff by a process of guess work and surmise. Indeed, so inclusive is this new evidence that a view by this court is as necessary as it was by the trial judge.

This may not be an inopportune time to emphasize the necessity for a change in the law whereby a view by the judge and two assessors shall be conclusive as to questions of fact, leaving an appeal only on questions of law.

I would dismiss the appeal.

CO-OPERATIVE MINING

HUSBAND AND WIFE WRESTING A FORTUNE.

MAN DEVELOPS MINE—WOMAN OPERATES THE MILL.

(Special to The Daily News)

Spokane, Nov. 28.—Out in the canyoned hills of Logan creek in the panhandle of Idaho, east of Spokane, John C. Moore and his young wife are wresting a fortune from the mineralized rock, found on all sides in big ledges. The man operates the mine, while Mrs. Moore does her share of the work by running the mill. Their earnings range from $30 to $35 a day or $11,000 a year. It requires capital to develop mines, even in Idaho, but the Moores could not put a crew of men at work, nor were they in position to install a stamp mill to treat the ore from the ledges, so they concluded to blast out the rock and handle it themselves. They built a log house, with two compartments under one roof. One of these is the living room for the couple and in the other is a one-stamp mill. Mrs. Moore is the superintendent, engineer and crew. Moore has run a tunnel into th hillside, and has connected this with his shack by a tramway. The water supply is furnished by a creek, from which is a self-feeder and requires only occasional attendance. It is a lonely place for a woman, but Mrs. Moore is contented and happy. There are no Sundays on Logan creek, so the brave woman and her husband toil seven days a week, turning the ledge into gold and working for the day they can put in a big mill and employ men on their mine.

A METHODIST MINISTER RECOMMENDS CHAMBERLAIN'S COUGH REMEDY.

We have usde Chamberlain's Cough Remedy in our home for seven years and it has always proved to be a reliable remedy. We have found that it would do more than the manufacturers claim for it. It is especially good for croup and whooping cough.

Rev. James A. Lewis,
Pastor Milaca. Minn., M. E. Church.

Chamberlain's Cough Remedy is sold by all druggists and dealers.

TRIAL OF PETTIBONE.

Boise, Idaho, Nov. 28.—A delay has occurred in selecting the jury for the trial of George A. Pettibone, charged with complicity in the murder of former governor Frank Steunenberg owing to the venire being exhausted and goes over until Monday morning. Seven jurymen have so far been chosen.

James H. Hawley is leading counsel for the state and Clarence Darrow will lead for the defence.

The band will be in attendance at the Alice Roller Skating Rink on Tuesday, Thursday and Saturday evenings. Children are requested on Saturday to come in the forenoon as the management cannot supply skates for them in the afternoon and evening. 190-tf

IN THE SUPERME COURT OF BRITISH COLUMBIA

IN THE MATTER OF "THE WINDING UP ACT"
AND IN THE MATTER OF THE METROPOLITAN GOLD AND SILVER MINING COMPANY OF LARDEAU, B.C., Limited (Non-Personal Liability)

Before the Honourable Mr. Justice Clement, Saturday, the 16th day of November, A.D., 1907.

UPON the petition of John E. Burchard of the City of St. Paul, in the State of Minnesota, in the United States of America, creditor of the above Company, which petition is dated the 25th day of October, A.D., 1907 and preferred unto this Court on the 28th day of October, A.D., 1907; and upon reading the said petition and the affidavit of the said John E. Burchard, sworn the 28th day of October, A.D., 1907 and filed in the Nelson Registry of this court on the first day of November, A.D., 1907, verifying the said petition; and upon reading the affidavit of service of said petition on the above Company of Samuel Parker Tuck, sworn the 6th day of November, A.D., 1907; and upon reading the appointment granted by His Lordship the Chief Justice dated the 5th day of November, A.D., 1907 and the affidavits of service thereof and of notice of the hearing of the said petition which notice is dated the 6th day of November, A.D., 1907, said affidavit of service being made by Walter Clayton on the 8th day of November, A.D., 1907, Mary E. Smith, sworn on the 8th day of November, A.D., 1907, and Fred C. Elliott, sworn the 14th day of November, A.D., 1907 (and leave having been given to read the said affidavits before filing); and upon the hearing having been adjourned on Friday, the 15th day of November, A.D., 1907, to come on for hearing before the presiding Judge in Court on the 16th day of November, A.D., 1907; upon hearing S. S. Taylor, K.C., of counsel for the petitioner;

THIS COURT DOTH ORDER as follows:

1. That the above named "Metropolitan Gold and Silver Mining Company of Lardeau, B.C., Limited," (Non-Personal Liability) be wound up under the provisions of the "Winding Up Act."

2. That Edward Blake McDermid of Nelson, B.C., accountant, be constituted Provisional Liquidator of the affairs of the Company, without security, and power is given him to take and hold subject to further order of the Court, all the papers, books, books of account, titles, documents or other papers or books whatsoever of the said Company.

3. That 10:30 in the morning of Tuesday, the 3rd day of December, A.D., 1907, or so soon thereafter as Counsel can be heard at the Court house in Nelson, B.C., is hereby fixed as the time and place when and where an application will be heard for the appointment of the Official Liquidator of the above Company, and notice of such application shall be sufficiently given to all persons concerned and the said Company by advertisement of this order in The Nelson Daily News for seven days prior to the said 3rd day of December A.D. 1907.

4. That the costs of the petitioner be reserved until the appointment of the Official Liquidator.

By The Court,
J. C. DOCKERELL,
Deputy District Registrar

"W.H.P.C.," J.

NELSON, B. C.

THE DAILY NEWS CLASSIFIED ADS.

The best and cheapest means of reaching the people of the Kootenays. A small advertisement in these columns will bring big results.

RATES—One cent per word per issue; six insertions for the price of four is paid in advance.

Classified ads. will be received for insertion until 9 o'clock on the evening previous to publication. Phone 144.

ONE Insertion OF A Want Ad

DOES NOT ALWAYS CONSTITUTE A COMPLETE CLASSIFIED ADVERTISING CAMPAIGN — ALTHOUGH SOMETIMES IT DOES!

The first "try," in any line of effort, is not usually enough. "Try again" is a slogan as old as—experience of human affairs.

There is probably nothing else in which the first "try" is so often rewarded as in WANT ADVERTISING.

And there is surely nothing else which reasonable persistence is so certain of a reward!

FOR SALE

FOR SALE—Several blocks of fruit lands from 50 acres to 1000 acres near transportation, excellent land, well watered and very easily cleared in the vicinity of Kootenay lake. Price from $8 to $15 per acre. Will also guide mountain climbers, land seekers and fishermen. Apply or address *Lindsay's boathouse.* 173-25

Are You Traveling By Ox Team
ON THE
'ROAD TO MARKET?'

According to Franklin, the "road to market" was "plain" even more than a century ago.
The years have brought a succession of improved methods of travelling on this same old road, however; and now the former weary time and distance have been almost obliterated.
Just steam and electricity have shortened the distance between London and Lvierpool, Paris and Marseille, New York and Chicago, so has Newspaper Publicity shortened the distance between YOUR MARKET and YOU.
You can still travel from one city to another by ox-team, and have a fair chance of reaching your destination SOMETIME. But you would not willingly choose the ox-team for a thousand-mile trip if a fast express train were available!
So it is in travelling on this "road to market!" You might find your market SOMETIME by using the ox-cart sort of publicity—the poster and sign-board sort; but why not eliminate time and distance and annoyance and disappointments by taking the fast express to YOUR MARKET—which is typified by modern, aggressive and adequate newspaper advertising.

NELSON NEWS OF THE DAY

Henry Ewert and bride have returned to the city

The churches have begun to prepare elaborate services for Christmas time

Born, in this city at the Home hsopital, on Nov 28, to the wife of J Dann, Victoria street, a daughter

The Cottonwood dam has been repaired, ensuring a supply of water to the city in case of special need.

At a meeting of the executive of the Nelson Curling club yesterday afternoon, W. R. Richardson was appointed ice maker for the season.

The arbitration proceedings in the Consolidated case, adjourned from Moyie, will be continued in the court house this morning at 10 o'clock.

Charles A. Waterman will auction the furniture of Mrs. McIntosh at her residence at the corner of Mill and Josephine streets this afternoon at 2 o'clock.

W H Aldridge and F W Guernsey of Trail; R H Stewart of Rossland, and H. Kramm of Moyie came in last night for the purpose of attending the arbitration proceedings today

Some stupidly foolish boys yesterday amused themselves by dropping in some snowballs at the post office street letter box and as a consequence the addresses of several letters were almost smudged out of recognition Any parent who could bring this pieces of foolishness home to his youngster and adequately punish him would be doing a good service to the community If the authorities can detect the perpetrator, a sound birching will certainly follow

THE BOARDS OF TRADE

PRESIDENT BUCHANAN GETTING READY FOR SESSION.

MATTERS MOST LIKELY TO BE DEALT WITH.

As the local house will sit early in January and as the Associated Boards constitutionally sit on the Wednesday following the calling together of the house the president of that organization, G. O. Buchanan, has already started making preparations for the convention of next year, which is to take place at Moyie. He has instructed the secretary, A. B. Mackenzie of Rossland, to remind boards of trade affiliated with the organization of their resolutions which they may desire to bring up at the Moyie convention. Under the rules of the association every board shall send to the secretary copies of their resolutions which are to be brought forward. These copies must be in the hands of the secretary in such time as to give him an opportunity of sending them out to all the other affiliated boards apart from that which is gathering the resolutions and having them there ten clear days before the meeting of the convention. Under the constitution no resolution can pass the convention without further endorsement unless this procedure is adopted.

Mr. Buchanan has suggested to Mr. Mackenzie a variety of subjects which he thinks should or are likely to be taken up by the several boards. These include public ownership of telephones and telegraphs in this province; the elevation of the dominion mining bureau into a department with a minister at its head; the extension of the iron bounties for a further period, such extension, however, merely to apply to this province. Mr. Buchanan urges in support of this that the iron bounties have served their purpose in the eastern and maritime provinces but they did not help British Columbia as the time was somewhat early. The government has announced its intention of discontinuing them but there is no reason why a discontinuance in the east should be a discontinuance in the west. Yet other recommendations to the boards are the inclusion of express companies in the jurisdiction of the railway commission; the surveying of available fruit and agricultural lands in small holdings by the government which shall only be sold to bona fide settlers and not to speculators. Here again Mr. Buchanan holds strong views and thinks that the price of land is often a deterrent to the settler who has to pay a vastly higher price to the middle man than than middle man has paid the government. Yet a further recommendation is a law governing the reservation of timber in the province, something, Mr. Buchanan suggests, along the lines of the Ontario forestry acts which include the putting up of timber limits to sale by public competition. The boards are also called upon to offer suggestions as to the possible improvement in the working of the Lemieux act. The subject of the Alaska-Yukon exposition, which is to take place next May Mr. Buchanan also touches upon. By a resolution of the Greenwood convention each board was asked to report at the coming convention at Moyie what steps they were prepared to take for the getting togther of a good exhibit of the produce of Kootenay at Seattle.

The president also puts himself on record as advocating the passage of a resolution favoring such an amendment to the immigration laws of the dominion as will effectually shut out from Canada undesirable elements coming from any quarter.

Other subjects which are likely to be taken up, not spoken of by the president, are the zinc and lead bounties, the press service a Kootenay experimental farm and the establishment of a government purchasing station for gold and silver at Trail.
