

NOT OUT OF
THE WOODSSchool Trustees May Not
Get Money for New
Building.Have Ignored City Council's Committee in
Accepting Plans—Contractors Propose
Closing Down Power Plant.

At the regular council meeting last night a lot of routine business was transacted during a two and a half hour session. A long discussion ensued over the tangle between the Allis-Chalmers-Bullock, Ltd. over the completion of the power plant. The company wants a 30 day close down about the end of August to inspect the gates of the turbines. This would cost the city \$2000 and the council declined to consent to this and notified the contractors that they must put in a new governor at once. The council found grave fault with the plans for the new building without any notice to the council's committee. There will be trouble in selling the \$20,000 debentures if the school board do not act differently in the future.

Ald. Annable was the only absentee. Rev. J. T. Ferguson, on behalf of the library board submitted a note that there were 174 subscribers to the library and last year 16,000 visits were made to the free reading room. The total income last year was \$278, including the city grant of \$400, and the \$1200 raised by Kirmess. The total expenditure was \$1234, including \$642 for salaries, \$220 for rent, fuel \$23, books \$224 and incidentals \$112. Mr. Ferguson said he had asked for \$500 but the board could probably manage with less.

In answer to Ald. Selous, Mr. Ferguson said that last year about 60 individuals used the free reading room. This year the number had increased.

In answer to the mayor, Mr. Ferguson said that if \$500 were granted it might suffice. The Kirmess was a great success last year, but it rather exhausted local effort.

Ald. Selous moved, seconded by Ald. Irving, that a grant of \$500 be made, \$175 forthwith and the balance in three months. Carried.

Mr. Ferguson expressed his thanks and those of the library board and withdrew. The finance committee recommended the payments of sundry accounts, including the pay roll for the past fortnight. The report was adopted and the checks ordered to be made out.

The 30,000 club asked for the city's contribution of \$200 to the general funds of the club as promised, the specific amount being wanted for the club's folder. On motion a grant of \$200 was made.

The Allis-Chalmers-Bullock, company, through Mr. Zavitz, the local representative, wrote the council regarding the apparent great delay in completing the city's power plant; the writer states that the company intended installing an entirely new governor, but on making a further examination came to the conclusion that friction with the gates of the turbine was the main cause of the trouble. This can only be remedied when the level of the water goes down, some time in August. The writer asks that the plant be shut down in August so as to allow of the change being made.

The clerk also read a telegram from the company, dated May 27, saying that a new governor would be installed in six months' time.

The mayor said the new move might be a move to delay the installing of the new governor.

Superintendent Smith said the close down asked for by the company should only be 30 days. The mayor said the company asked for a close down of thirty days.

Ald. Irving—We must wait until low water to find out if the fault is with the turbine gates and if not we have to fall back on the governor. We should not pay them a cent in the meantime.

The mayor—I think we should insist on a completion of the contract. This council should close up the whole matter. The delay has been unreasonable and the matter should not be allowed to drift along. No payment has been made to the company.

Ald. Rose—The cost to the city of closing down for 30 days, would be what?

The mayor—In round figures, \$200.

Ald. Irving—And then we may find that the trouble is not with the gates.

Ald. Selous—Don't hunt trouble; we can't find out what is the trouble until the water drops.

The mayor—Shall we consent to the close down; that is what the company wants to know?

Ald. Selous—It is most unsatisfactory. We don't care to close down. What is wanted is a new governor. Closing down will cost us too much money.

The company will be written to saying that the council decidedly object to the close down proposition and to the continued delay in finishing the contract.

The mayor brought up the question of paying the company \$400 a month towards the operating of the plant. Mr. Nezas has gone east and only a single shift is maintained. The council agreed that under the existing conditions a change should be made and his worship will take up this feature with the company right away. If a single shift is continued the amount will be reduced.

Superintendent Smith wrote re complaints

made about the light service in Fairview. A new transformer was wanted.

H. and M. Bird, C.P.R. land agents, wrote offering the lots on which the court house now stands for \$2500, the option to stand for 30 days. The council decided that the lots were not wanted at the present at the figure mentioned. The city is paying \$120 a year rent for the lots. The letter was filed.

The chief of the fire brigade asked by letter that the duties of building inspector be defined so as to make it clear that these duties fall upon the city engineer. Ald. McMorris moved that the city engineer be appointed building inspector; Ald. Irving seconded and the motion carried.

The mayor had a letter written by him to Dr. Arthur, read, asking if the school board had designedly ignored the special committee of the council in deciding upon plans for the new building, as the committee had never been notified of the board's meeting at which the plans had been selected.

Dr. Arthur replied that the board had been pressed for time and had acted as they did. The plans were available and could be seen.

The mayor said he and the other members of the special committee had been ignored once the bylaw was carried. The meeting in question was the most important one held.

Ald. Selous—Why of course; what else did you expect?

The mayor—The plans may exceed the amount available. As mayor of the city I propose to know what is going on or know the reason why.

Ald. McMorris—They should certainly treat the council with ordinary courtesy. The committee should have been notified. The mayor—I propose to see that courtesy is shown the council.

Ald. Rose agreed that the board had shown grave discourtesy.

The mayor said he was absolutely in the dark as to what the school board had done or were doing in regard to the plans in question. His worship added, very significantly: "Let me say, gentlemen, that the \$20,000 debentures have not been sold yet and they won't be until we know what is going to be done by the school board. We have a good deal to say in this matter."

Ald. McMorris introduced a mild resolution, protesting against the action of the school board and asking what the board was doing.

Ald. Selous pointed out that the mayor's letter and the secretary's reply covered the ground.

Ald. Rose—No; Dr. Arthur's letter ignores the whole question raised by his worship.

The mayor—I don't think you will get any satisfactory reply. I have fully made up my mind as to the correct course for me to pursue under the circumstances, and I shall certainly follow it.

The resolution was passed and will be sent to the school board.

James Harris, in the water works department will get \$90 a month in future.

Superintendent Smith said in answer to Ald. Hume that passengers on the street cars were only charged for parcels, when the parcels went on the fender or took up seating accommodation.

The city engineer complained of some repairs being made to a Baker street hotel clearly against the fire bylaw. He was told to summon the offender before the police magistrate.

A discussion was held with regard to the public portion of the city cemetery, which is admitted to be in a very bad condition. According to the bylaw, the caretaker is responsible for the keep of the whole cemetery. He gets a private allowance as well. His attention will be called to the present state of the graveyard.

At 10:45 the council adjourned until Wednesday, July 3.

WAS FATAL FIST FIGHT

TWO ENGLISHMEN SETTLE QUARREL
IN NATIONAL MANNERWITH RESULT ONE HAS NECK
BROKEN IN FIRST ROUND

Stratford, Ont., June 17.—Henry Lockey is in jail here, charged with murder, as a result of an altercation Saturday night with Noah Hill. Lockey and Hill had been drinking more or less Saturday and had a quarrel at one of the city hotels and were turned out. They decided to settle the quarrel by fighting it out with fists "for points," as is alleged by Lockey, the one with the least points to buy the beer. The men determined to fight on the hay market, but as that was too public the rear of the skating rink was decided upon. Repairing there and diving themselves of surplus clothing, and shaking hands the contest commenced. Hill, the taller man, got in a blow on Lockey's breast. The latter retaliated with a blow on Hill's jaw, breaking Hill's neck. Lockey claims that Hill stumbled and fell and that the blow he received was but trifling. Prominent medical men say that while this is hardly possible it may be the cause of death.

Coroner Devlin was soon on the scene and also Dr. Rankin. Hill was found dead and death was determined to have been instantaneous, the neck being broken. Coroner Devlin decided upon an inquest.

All parties to the unfortunate affair are Englishmen, recently out from the old land. Hill was about 45 and leaves a wife and several children. Lockey is also married and has a family.

SCHMITZ DEPOSED.

San Francisco, June 17.—Former mayor Schmitz has been removed from office in San Francisco. Supervisor James Gallagher was named as acting mayor in his place.

ORCHARD AT
CALDWELLHis Trial Postponed Until
After Close of Trial of
W. F. M. Officials.Understood Now That State Will Not Call
Steve Adams—Orchard to Be Recalled
This Week for Redirect Examination.

(Special to The Daily News)

Boise, Idaho, June 17.—Today there was no session of court, it being necessary for Judge Wood to go to Caldwell to postpone the Orchard case. The prisoner was taken down under heavy guard. There was no special incident connected with the proceedings. A large crowd had assembled to see the man who had told such a terrible story on the witness stand. By agreement of attorneys, the case was continued and the term of court adjourned. F. T. Wyman was substituted as attorney for Orchard, C. B. Cox asking to be relieved in view of the fact that his former partner, E. L. Bryan, had been chosen as judge of that district.

There has been no developments in the Haywood matter today. It is not likely the state will complete the introduction of its evidence in chief before the end of the week, it being very probable Orchard will be put on in redirect examination about Thursday. It seems well settled that the state will not put Steve Adams on the stand.

Nothing has been made public on that point, but that seems to be the conclusion reached.

In connection with the case it is well for the reader to understand the law of conspiracy in this state upon which the state relies. This is to the effect that if such conspiracy is formed as is charged in this case and the fact is proved, each member of the conspiracy is guilty of each overt act done in pursuance thereof. Providing the conspiracy and Haywood's connection with it, the state will claim Haywood's guilt is established even though there be no more direct connection established as to his part in the murder of governor Steunenberg.

Caldwell, Idaho, June 17.—Harry Orchard, the self-confessed murderer of former governor Steunenberg and 18 other men, was brought today to the scene of the crime which finally landed him within the clutches of the law and taken before Judge Wood at the county court house. The Haywood case at Boise was adjourned over today to enable Judge Wood to come to Caldwell and enter an order formally adjourning Orchard's trial for the present term of court. The proceedings began at 11, Judge Wood arriving at that hour. Orchard was brought over on an early train in custody of warden Whitney, of the state penitentiary, and several deputies and detectives. The trip was without incident. The prisoner was attired in a natty new brown suit and attracted considerable attention.

The local attorney, Mr. Cox, who has been the attorney of record for Orchard in this county, was relieved from further duty by Judge Wood this morning and with the consent of the prisoner, Frank T. Wyman, a Boise attorney, was appointed in his place.

"I presume you desire a continuance of counsel," said Judge Wood to the prisoner.

"Yes, sir; if it please your honor," replied Orchard, who until the formal appointment of Mr. Wyman was without a legal advisor in the courtroom. The date of Orchard's trial will not be set until the cases against Haywood, Moyer and Pettibone at Boise are disposed of, Orchard being the state's principal accusing witness against the miners' officials.

Orchard was taken back to the penitentiary at Boise this afternoon.

GRAFT IN THE CHURCH.

St. Thomas, June 17.—William Kettlewell, pastor of the Central Methodist church, is going to abandon preaching and devote himself to a more paying business. His term expires this month and he prefers to be left without a station rather than accept the small and unimportant station of Lambeth, which has been offered to him by the stationing committee. He says he has been jockeyed out of a better station by "the scramble of members of the stationing committee to improve their own condition at the expense of those whose terms have expired by limitation."

In his statement to his congregation he added: "Many ministers of my meagre financial resources would have been compelled to submit to a conspiracy of selfishness, fortunately, like Paul, I have had a business training. I can make tents as well as preach sermons, that is what I intend to do this year. I may whisper to you that I have already had two good offers from the heads of two good business concerns and these are a fresh illustration of the inadequate salary that ministers receive compared with brain workers in other walks of life."

P. E. I. DROWNING FATALITY

Charlottetown, June 17.—A drowning accident occurred in St. George's, King's

county, Sunday. Three daughters of Michael McDougald went out with a hired boy in a flat bottom punt for a row on the river. The boat upset. The younger girl, 12 years old, managed to cling to the boat and grasped her eldest sister, aged 22, and at the same time had presence of mind enough to signal for help. Before help came Justice, aged 20, and the hired boy were drowned.

FOR DOMINION DAY

Sports Committee Report Progress—Some of the Events Finally Settled.

A meeting of the Dominion day sports committee was held last evening with W. R. McLean in the chair, those present being Messrs. McLean, Webb, Wells, Ward, Walley, Porter, Irvine, Wright, Deasy, Thomas, Swan, Harper and Travis.

Substantial progress was reported from the various subcommittees.

Mr. Wells said he had arranged while in Spokane for a complete outfit of fireworks that would eclipse anything ever seen in the Kootenay.

There will be 50, 100 and 200 yard foot races, a mile run, broad and high jumps, pole vaulting, hurdle races, putting the shot, fat man's race and an old man's race for 50-year-olds or better, and a greasy pig.

Entries for lawn tennis have come from Trail and Rossland and others are expected from Fernie and Cranbrook.

Male and female Indian races in war canoes will take a prominent place in the water sports.

Several entries for log rolling have already been received by Gossell and Malone, who are in charge of the event.

At the request of some of the visiting teams the rules for the horse racing contest will be relaxed to permit of 12 men or less running on a team. The committee will meet again on the call of the chair.

SERIES OF FATALITIES

SEVERAL VIOLENT DEATHS IN
WINNIPEG ON SATURDAY.AREA UNDER CROP IN PRAIRIE
PROVINCES.

(Special to The Daily News)

Winnipeg, June 17.—A series of fatalities marked the week end in Winnipeg. At the beach on Saturday, David Phillips let go his hold of a boat and sank to the bottom. Clarence Fleason, son of a city druggist, while canoeing on the Red river was accidentally drowned.

A Winnipeg street car going south on Saturday on Main street, while opposite the Commercial club killed a man named P. Schelder of Pacific avenue. The unfortunate man attempted to board a moving car and fell between the motor car and the first trailer, his right leg being torn from the trunk before the car could be stopped. The leg was carried about half a mile and found by a constable on the street. Death was instantaneous.

An accident by which an unknown man had his heel cut off occurred at River park this afternoon.

The circular sent out by Frank Fowler, of the Northwest Grain Dealers' Association shows that in the three western provinces 8,155,457 acres are under crop. The wheat average is the same as 1906, all other grains show from 12 to 16 per cent increase. He estimates 5,800,000 bushels of wheat still in farmers' hands.

COAL CREEK HOLDS THE LEAD.

Defeats Fernie at Football on Saturday

—Race Riot at West Fernie.

(Special to The Daily News)

Fernie, June 17.—One of the largest crowds ever assembled on the recreation grounds here was present at the football match between teams from Coal Creek and Fernie on Saturday evening, and were treated to a good exhibition of the game, the result being a victory for Coal Creek by a score of 4 to 1.

An elaborate program of sports has been arranged for Dominion Day, July 1, in this town, the prizes offered for the various events being of an especially attractive order, and it is expected that the attendance will be greater than at any previous occasion.

The Italian band under the leadership of professor Pasta gave their usual Sunday open air concert this afternoon, which was enjoyed by an immense audience. This excellent band is holding a smoking concert on Friday which will be largely attended by the citizens who appreciate the efforts of the Italian colony in supplying the citizens with such excellent music for which they receive no financial aid or support.

On Friday night a small sized riot occurred at the Cedar Valley mill, West Fernie, between the Japanese and white labor. Bad blood has existed for some time between the two classes, which came to a focus on Friday and resulted in trouble. No one was seriously hurt and the management have taken the necessary precaution to prevent future friction.

LONGBOAT A. D. AND D.

Hamilton, June 17.—Thomas Longboat the great Indian runner appeared before the magistrate in the police court this morning and was fined \$5 for drunken and disorderly conduct. Harry Rosenthal, his manager, was present and paid the fine. The trouble occurred at the G. T. station Sunday night and Longboat was lucky to get off as lightly as he did. Only his reputation saved him from a charge of assault on officer Mills.

TOLSTOI'S HEALTH IMPROVED.

Nasani, Poland, June 17.—Count Tolstoi has recovered from the attack of influenza which aroused much apprehension on account of his advanced age. He is still confined to his house.

COUP D'ETAT
MAY FAILRussia's New Election Law
May Restore Old Status
of Douma.

Premier Stolypin in Bad Odor With Reactionaries—Dissolution Accepted Philosophically by Country.

St. Petersburg, June 17.—The chances of the proclamation of a general strike in answer to the government's coup d'etat are steadily lessening. The question is now under discussion at a secret conference of the central committee of the social democrats, which is being held in Finland, but a strong current of opposition is known to prevail not only on the part of the moderate leaders, but also among the adherents of the radical members. A fraction of the moderates urge that the government is now so strongly entrenched that a strike would be futile and only weaken the prestige of the party and involve the rank and file and the industrial proletariat generally, in a series of reprisals and immense pecuniary loss.

The conference, which is attended by all members of the lower house, probably will content itself with issuing a series of proclamations addressed to the peasantry, army and navy and the workmen, accusing the government of violating faith with the country by altering the election law in defiance of the imperial pledges and appealing to the masses to continue the fight to overthrow the existing regime.

The socialist revolutionists at a conference held last night declared against the proposed strike and appointed a committee to draft an address to the peasantry, the army and navy and the workmen. Telegrams from practically every city in the empire announce that the news of the dissolution of parliament was received quietly and with almost an entire absence of demonstration. Even at Odessa and Kiev, on disturbances occurred. The prefect of Kiev issued orders that no demonstrations on the part of reactionists would be permitted.

The course of general Drachefski, prefect of police of St. Petersburg, in prohibiting hostile criticism of the government was followed almost universally by the liberal governors general throughout Russia, completely muzzling the liberal press. The feature of the newspapers appearing here today is that they make extremely guarded comments upon the situation, the radical paper contenting itself with expressing the hope that two election campaigns in one year will widen the political horizon of the people and make them firm adherents of the idea of parliamentarism.

The Novoe Vremya, which has lined up with the reactionists, attacks the new election law as a half way measure affording the possibility that the revolutionary elements will again be able to enter parliament. The close study of the new election law, which is a bulky book of 30 pages of complicated phrasology, has somewhat dispirited the feeling of gloom in liberal circles. The idea is gaining ground that the government has failed in its intention and that there is a possibility there will be an opposition majority in the third parliament as in the case of its predecessors. Even under the law it is thought that the constitutional democrats will retain control of the city or perhaps they will be swamped by the social democratic proletariat. The constitutional democrats also hope to return a considerable number of the 60 2nd and 3rd deputies, whom the government believed would be exclusively conservative.

According to the opinion of a foreign diplomat who is in close touch with the court, the government has done either too much or too little. It has violated the fundamental laws or constitution and laid itself open to the charge of accomplishing a coup d'etat without altering the election law sufficiently to produce the desired results.

The feeling in court circles against premier Stolypin, who has undertaken full responsibility before his majesty for the present basis of suffrage, is said to be bitter and he is alleged to be the object of a strong reactionary intrigue. The grant of strong parliamentary representatives to the Armenians and Tatars was decided upon at the last moment. The original plan was to disfranchise the Caucasus entirely, but this was abandoned owing to the representations of count von Vorenzoff Dashkoff, viceroy of the Caucasus, who is now fighting here to save his political head. The holy synod has ordered the imperial manifesto to be read in all the churches next Sunday. The committee of the lower house of parliament, consisting of 22 members appointed to investigate the charges against the social democratic delegates, decided to make his posthumous report. It came to the conclusion that the evidence was too weak to justify the suspension of any of the accused delegates. Even the delegates, like Prof. Kuzmin Karaviev, the democratic reformer, who favored the surrender of any of the culprits against whom there was definite grounds for suspicion, acquiesced in this finding.

St. Petersburg, June 17.—From a well informed source the Associated Press hears that the decision to dissolve the douma and abolish the former election law was due to the initiative of the emperor, whose original intention went far beyond the steps taken. His majesty wished to pro-

rogate parliament a fortnight ago and prolong the interval by the convocation of a new assembly, thinking that this would permit the agitation throughout the country to subside. He was encouraged in this attitude by the court but finally yielded to the arguments of premier Stolypin, who strongly advocated the convocation of the douma in the autumn. The premier also succeeded in having stricken from the electoral law provisions increasing the educational and property qualifications for suffrage and raising the age limit of voters from 25 to 30 years, working on the majesty by what is sarcastically described by one of his opponents as the bugaboo of reaction. It is believed that the manifesto was drafted at Tsarkoysdoe a fortnight ago, only a few minor changes being introduced Saturday night. Copies of the manifesto reached the papers with the date Tsarkoysdoe uncorrected. It is stated that the emperor was one of the most vicious enemies of the douma. The conservative deputies held an all night fete at the conservative club in celebration of the emperor's decision. Champagne was served to all comers. The emperor's decision was hilariously cheered and ultra-right speeches were delivered. Ex-minister Yermoloff, hitherto considered a moderate liberal, in an oration glorified the change in the douma as rescuing Russia from the hands of aliens and Jews and restoring to power the classes which heretofore ruled the empire.

NEW INDUSTRY FOR B. C.

COLONEL MARKHAM TO GROW OYSTERS AT ESQUIMALT.

IMPORTING LARGE QUANTITIES FROM P. E. ISLAND.

Winnipeg, June 17.—Colonel Markham, of Victoria, is here from Prince Edward Island, where he spent last week in endeavoring to secure a carload of oysters for his new enterprise at Esquimalt. He found that owing to the rapid depletion of the Prince Edward Island oyster beds, the government had extended the close season, prohibiting fishing from April 1 to October 1, instead of from May 1 to September 1 as formerly.

On this account there will be very few oysters shipped from the island this year. Previous to April 1 nothing could be done because of the presence of ice, after October 1, the weather will be too stormy for any extensive work.

Colonel Markham met several of the larger shippers, had conversations with Mr. Kemp, the government expert, and enjoyed the trip immensely. In the western end of the island he came across some curious, one was a bar of iron about a yard long covered with oysters, another a lady's shoe in which two of the bivalves had found resting places, and third a piece of metal heavily encrusted. He is taking three and a half million oysters back for planting around Vancouver Island.

FUSHUIMI AT BROADVIEW.

Distributes Flowers and Sweets to Gathering of Children.

Moosejaw, Sask., June 17.—A large and enthusiastic crowd greeted the arrival of the imperial train at Broadview last evening. The station was very tastefully decorated and a very hearty reception was accorded the prince when he appeared on the platform. An instant of the prince's warm hearted thoughtfulness occurred at this point.

Noticing a large number of children who had gathered with their parents to give him welcome, the prince at once sent for flowers, cracker mottos, sweets and other trifles and distributed them to the little ones.

The delight with which the youngsters and their parents received this mark of the prince's kindness was evidenced by the hearty cheer which went up when the train moved.

In order to ensure a quiet night's rest the train was moved out to Oakahella. This morning the prince and the party enjoyed a brisk walk on the prairie, an opportunity taken advantage of under the prince's instructions to obtain several photographs of the train and party.

The weather is much cooler but continues fair and is very agreeable for traveling.

DINNER AT 49 CREEK.

A very enjoyable afternoon was spent on Sunday last at the 49 creek placer works. Some 30 guests of Jensen and Pellet's sat down to a dinner at the camp and later were shown over the workings. Then some valuable nuggets were displayed and numbered and a drawing took place in which each lady won a nugget. The owners of the placer works, Jensen and Pellet are both old California placer miners and they have been preparing for substantial work on 49 creek for the past three years and are now getting in machinery and lumes and look for good returns this season.

ALBERTA UNIVERSITY

Edmonton, June 17.—The Alberta government today purchased a site of 250 acres for the provincial university.

GOVERNMENT DEFEATED.

Paris, June 17.—The government was defeated today in the chamber of deputies on the sugar clause of the wine bill designed to prevent fraud. Finance minister Caillaux insisted on a supplementary tax of 65 francs per hundred kilos on sugar used in the manufacture of certain wines, but the chamber rejected the proposition by 33 to 55 votes, whereupon the session was suspended.

WINNIPEG'S BUILDING BOOM

Winnipeg, June 17.—Building permits for the season now total three and a half millions.

VAST RAIL-
ROAD SCHEMEAmerican Company to
Build From Cardston
North to Ft. McMurray.Project Thought to Be Backed by Northern
Pacific Railway Company—Will Be
Very Costly Undertaking.

(Special to The Daily News)

Cardston, Alta., June 17.—American railroaders are beginning to realize the possibilities of the Canadian northwest and numerous plans have been prepared to cover the country with a network of lines between Winnipeg and the Pacific coast. The Northern Empire Railroad Co. is the latest aggregation of Americans organized for the purpose of building a railway into Canada. From the route map already prepared it is evident this company has enormous capital at its back for it proposes to build a line some 2,000 miles in length through the wildest and most unknown country in western Canada. It will cross the international boundary near Cardston, Alberta, and from thence will run due north to Fort McMurray on the Athabasca river and en route tap the rich wheat lands of southern Alberta and in turn go through the coal country and, on the prospect of the oil discoveries in Athabasca proving valuable, make a bee line from Fort McMurray to Fort Vermilion, directly through that country in which several dozen parties of Americans are now boring for oil, gas and asphalt. The gigantic nature of the work requires apparent upon leaving Fort Vermilion, for then the real troubles of the contractors begin. Mighty rivers and the difficulties of the Rocky mountains have to be overcome and it is estimated the work on this section alone will average fully \$100,000 per mile, but in return the promoters will derive the benefits from tapping one of the richest mineral districts in the whole Dominion, left dormant for years owing to lack of transportation. Along the route almost every mineral known on the American continent exists in paying quantities and some of the deposits are fabulously rich.

J. B. T. Caron, an Ottawa solicitor, is acting for the applicants, and so far the names of the principals have been kept in the background, but it is the general belief the new company is a Northern Pacific branch, that company having been particularly anxious to get back into Canada ever since its lines in Manitoba were bought out by the Canadian Northern some six years ago.

SMALLPOX IN SPOKANE

BAPTISTS ADVISED TO KEEP AWAY FROM CONVENTION.

PROVINCIAL DENTAL LAW SAID TO BE ULTRA VIRES.

(Special to The Daily News)

Vancouver, June 17.—Because of a large number of smallpox cases reported by Spokane health authorities during the last few months, medical health officer Underhill has notified the local Baptist congregations of the danger of delegates attending the international convention of the Baptist Young People's Union at Spokane, announced for July 4 to 7. Provincial health officer Fagan has also been requested to similarly advise all parts of the province.

The B. C. dental association this morning instituted proceedings against two students practicing in local offices. In defending the former a attorney-general Wilson declared that the provincial dental law was ultra vires since it created an offense, a prerogative of the Dominion alone. Decision on

Prospectors', Lumbermen's, Miners' and all Campers' Supplies

TENTS in all sizes and weights.
RUBBERS and OIL SKIN CLOTHING.

McBRIDE IN LONDON.

Despatches telling of the discussion in the imperial house of commons over the resolutions from the dominion parliament in reference to provincial subsidies appear in coast papers just to hand. For some inexplicable cause these despatches were not furnished The Daily News in its regular A. P. service, doubtless owing to the fact that the Boise story proved too much for the C. P. R. news handlers.

These despatches contained information of importance to our readers to the effect that under colonial secretary,

Winston Churchill, in deference to representations made by premier McBride, announced that the imperial government would strike out of the dominion parliament's resolutions the words "final and unalterable," a concession that may prove of considerable value to this province in prosecuting its demands upon the dominion government for more generous treatment.

This course on the part of the imperial government, will meet with general approval, in fact, it was the only course open to the imperial authorities to take, for no act of parliament can be final and unalterable and doubtless these words would have been stricken from the resolution even if premier McBride had not visited London. However, we do not wish to detract in any way from any credit due the premier for his course in this connection. He has certainly scored a point in the game, although it carries with it nothing of immediate moment or at all in consonance with his professed wishes in the matter. The liberal party and press throughout the province will accept this decision of the imperial government as a further endorsement of the wisdom of the policy

of their leader J. A. Macdonald. It will be remembered that immediately upon the publication of the text of the dominion government's resolution re the subsidy changes, Mr. Macdonald telegraphed to sir Wilfrid Laurier, urging the striking out of the words "final and unalterable." Again in the legislature he moved a resolution, which received the unanimous support of his followers, to the following effect:

"That this house regrets the inability of Hon. Richard McBride, premier of British Columbia, to secure better terms for British Columbia at the recent Ottawa conference of provincial premiers; and that this house is of the opinion that the proposed additional allowance of one hundred thousand dollars annually for ten years as compensation for the recognized claims of British Columbia is inadequate and cannot be accepted as a final and unalterable settlement."

The essential portion of the despatch dealing with Winston Churchill's statement in the commons reads as follows:

He referred to the action of the British Columbia legislature in protesting against the proposed settlement being "final and unalterable," and in this connection spoke as follows: "The prime minister of Quebec, also sir Wilfrid Laurier and Hon. Mr. Fielding, have made personal application to the colonial secretary or myself on this question. On the other hand, Hon. Mr. McBride, prime minister of British Columbia, has also stated his case very fully to us. He has, with great frankness and much force, placed us in possession of the views and grievances of British Columbia. While we are unable to accept his opinions entirely, we have endeavored as far as possible to make the legislation agreeable to him and we have not introduced into the legislation the words "final and unalterable," which it had been proposed to introduce, and which would have prejudiced British Columbia's chance of making some other friendly arrangement in the future with the dominion and with the other provinces."

EDITORIAL NOTES.

We pointed out the other day an opportunity for attorney-general Fulton to get busy in connection with a recent fatality at Cranbrook, whereby a railroad man lost his life, leaving a widow and child without means of support. The man was killed by having his foot caught in an unprotected frog. We remarked at the time, the Railway Act makes it an offense on the part of a railway company not to adequately block all frogs. Mr. Fulton knows this and he also knows that it is his duty to put the law in motion against the C. P. R. company. He has made no move in this case yet and is not likely to. He is a C. P. R. solicitor and would not

MINARD'S LINIMENT is the only Liniment as far as my store and the only one we keep for sale.

All the people use it.
HARLIN FULTON.
Pleasant Bay, C.B.

dream of prosecuting a charge of any kind against that corporation. We learn, in this connection, from the Moyie Leader, that the coroner who investigated this fatality was also a C. P. R. employee. It is little short of scandalous that the provincial coroner at an important railway center, like Cranbrook, should be a C. P. R. employee.

We again call attention to the forthcoming irrigation convention to be held in Calgary next month. The secretary of the convention writes us, pointing out the importance of the convention and urging that British Columbia take an active part therein. It would be advisable for the board of trade and the agricultural society to take early steps to arrange for representation at the convention. A similar course should be adopted by the public bodies of East Kootenay and the Boundary districts. The convention will be an important one and southern British Columbia should be well represented thereat.

JAPAN'S ATTITUDE

Constitutional Party Adopt Moderate Resolution re Outrages
Tokio, June 15—The text of a resolution which has been adopted by the constitutional party is as follows:

"The persecution of our compatriots is deeply to be regretted, for the sake of both America and Japan, but we must not forget that there exists between the two nations the closest friendship, which might almost be called an alliance. In the face of the professions of the government at Washington and the American people in general, such incidents as are reported to have occurred must not be taken as expressions of their will. It is believed, therefore, that the question, if properly handled, is capable of a just and intelligent solution. We must refrain from becoming excited over unlawful conduct on the part of the people and thus injuring the national cause. We expect that a proper settlement will soon be reached through peaceful diplomacy."

McDERMID & McHARDY

BIG CROPS ARE ASSURED

FINEST WEATHER POSSIBLE FOR
LOW LATE SEEDING

WHEAT YIELD MAY RUN TO 150,000,000
BUSHELS

(Special to The Daily News)

Winnipeg, June 17—Late seeding has had a most beneficial effect upon the crops of the Canadian northwest. Since seeding warm rains and hot days have followed each other as though ordered expressly for the farmers and the result is the crops are now growing as though they were in some huge hotbed. From all over the country come reports of the wonderful prospects for the coming harvest and in many places the wheat is already a foot above the ground and looking as well as it has seldom looked before. Usually the seeding has been followed by cold spells but this year this has not been the case. In fact the weather from Winnipeg to the Rocky mountains could not be more favorable for the growing crops. Several weeks ago many were of the opinion that the wheat acreage of 1937 would fall far below that of 1936, but government and railroad returns show there is an increase in this cereal, slight in Manitoba, larger in Saskatchewan and Alberta it is estimated at anywhere from 25 to 35 per cent. Now that seeding is completed the farmers can devote themselves to hauling wheat to the markets and consequently getting the benefit of the higher prices which did not prevail several months ago when they were anxious to sell, but were unable to do so on account of the car shortage, railroad blockades, bad roads and the general adverse conditions of the severest winter on record since the first white man landed on the fertile prairies of western Canada. If the present weather continues until after harvest time the wheat crop of western Canada should amount to some 150,000,000 bushels of wheat in addition to a record quantity of oats, barley and flax, for many farmers have sowed increased areas of these latter cereals fearing they would not have time to sow the usual amount of wheat. However the increased area under cultivation this year will make up for this deficiency as far as wheat is concerned and everything indicates a new high mark for the crops in western Canada.

MINING RECORDS.

Option Granted on Erie Properties—Locations Recorded.

At the mining recorder's office on June 17 certificates of work were issued to John W. Harkness on Gold Crown and Middy; William Maher on the Sunshine and the Blue Bird, and to Ernest Ballinger and Katherine McEvoy on the Wolverine.

An option was recorded on a three-quarters interest in the Kentucky Boy, Prince Henry, Harriet, Calumet, and Second Chance, giving the right to purchase or \$15,000 at any time within three years from June 15, 1937, from Katherine and John McEvoy to Ernest Ballinger of Erie.

A bill of sale was recorded from John Benson to H. S. McCaslin, conveying the Lucky Boy on Sheep creek, consideration nominal. Another bill of sale from John Donaldson to Gus Schwinke conveys a half interest in the Sable on Sheep creek, consideration \$1.

The following locations were recorded: William Maher, the Sunbeam and the Sundown on the North Fork of Summit creek; Walter Scott, the Sunrise Fraction on the North Fork of Summit creek; Ernest Ballinger and Frank Collins, Leadville and the Monument on the South Fork of the Salmon river; Katherine McEvoy and Frank Collins, the Bonanza King and the Bonanza Queen on the South Fork of the Salmon river.

EVERY MAN HIS OWN DOCTOR

The average man cannot afford to employ a physician for every slight ailment or injury that may occur in his family, nor can he afford to neglect them, as so slight an injury as the scratch of a pig has been known to cause the loss of a limb. Hence every man must from necessity be his own doctor for this class of ailments. Success often depends upon prompt treatment, which can only be had when suitable medicines are kept at hand. Chamberlain's Remedies have been in the market for many years and enjoy a good reputation.

Chamberlain's Colic, Cholera and Diarrhoea Remedy for bowel complaints. Chamberlain's Cough Remedy for coughs, colds, croup and whooping cough. Chamberlain's Pain Balm, an antiseptic liniment for cuts, bruises, burns, sprains, swellings, lame back and rheumatic pains. Chamberlain's Stomach and Liver Tablets, for constipation, biliousness and stomach troubles. Chamberlain's Salve for diseases of the skin.

One bottle of each of these five preparations costs but \$1.25. For sale by all druggists and dealers.

Keep Minard's Liniment in the house

GRANTED TEMPORARY FREEDOM

San Francisco, June 17—Judge Lawler today signed an order permitting mayor Schmitz to leave the county jail this afternoon in the custody of sheriff O'Neill to visit the office of his attorneys to consult with them regarding his appeal from the verdict of conviction. The order specifies that the consultation shall be for private business only, and that at the conclusion Schmitz shall be returned to the county jail. The order was made by Judge Lawler, owing to the absence of Judge Dunne, who is resting in the mountains.

THE MEASURE OF A MAN

One Can Find It Out From His Exact Height and Weight

If a man tells you his weight and his height, then his exact measurements can be figured out. That is the algebra of physiology—and this simple science is the basis of the physique type system of Semi-ready tailoring. The seven types of man are based on the height and weight and the variations from normal are met in the finishing by expert tailors in every Semi-ready store.

H. I. H. PRINCE FUSHIMI

HEAD OF ONE OF THE IMPERIAL
FAMILIES OF JAPAN.

HAS HAD A LONG AND DISTIN-
GUISHED MILITARY CAREER.

Prince Sadanaru Fushimi, a prince of imperial rank in Japan, who is now crossing the continent in a special C. P. R. train and who is on his way home after representing Japan at the court of St. James, returning the visit paid by prince Arthur of Connaught to the Mikado, is a comparatively young man, being still under fifty.

His imperial highness is the head of one of the imperial families and of that which ranks highest among them. Prince Sadanaru is a son of the late prince Kunikida, and was born on April 28th, 1858. He wedded the princess Toshiko, a daughter of the late prince Trisugawa, who visited this country in 1905. Prince Fushimi's eldest son, the prince Hiroyasu, is married to a daughter of prince Tokukawa Keiki, the last of the Tokukawa line of Shoguns. Prince Hiroyasu is a commander in the navy and was wounded while with admiral Togo on board the Mikasa in the battle of the Yellow sea on August 10th, 1904.

Prince Sadanaru Fushimi has had a long and active military career, and has rendered conspicuous service to his country. In Japan all officers of the army have on joining to serve one year in the ranks, the next three months as corporal, and so on, and prince Fushimi might in due course have been seen drilling, rifle in hand, and knapsack on shoulders, side by side with men of the humblest rank, during his first year of military service. In the Japanese army the only difference made between the son of a marquis, for example, and the son of a small shopkeeper, it may be, while undergoing their first twelve months' training, is that the youth who is to hold officer's rank is invited to mess with officers of the regiment from the outset. The imperial princes all go through this routine of training precisely as did the sons of the people, and possibly these early associations have something to do with the strong attachment that exists between the rank and file and those who lead them in battle.

Prince Fushimi has the typical face of the Japanese patrician. Sharp, but

whimsical, almond-shaped eyes, a well-set and determined mouth, a long, rebellious-haired moustache, and a very short-cropped head of iron gray hair are the most noticeable features of this popular prince. He is forty-eight years of age and has had a brilliant military career. At the terrible battle of Nansan, during the operations in the Russo-Japanese war, he commanded the first army division, and was promoted to general for his fearless and clever work. He is now a member of the Japanese supreme council of war.

Prince Fushimi paid a recent visit to America, and at Fort Meyer, Virginia, inspected a troop of cavalry. The members of the troop still speak with pride of the "Japanese Bobs." Never before had they been called upon to stand such an ocular fire. The prince scrutinized them from top to toe, and gave them an uncomfortable overhauling. Suddenly he reached the holster of a big cavalry man and drew out the revolver. Opening it, he minutely examined the mechanism, ran a white gloved forefinger along the barrel and about the other parts in search of dust. Finding none he replaced the weapon. He examined the carbines in the same careful way. Then he deftly removed the bridle from one of the horses, and tested its weight and workmanship. He jerked open the mouth of one of the horses to see if the bit had caused any soreness. Next he unsaddled a horse and minutely examined the saddle, passed his hand over the horse's back to see if it was chafed, and satisfied himself of the weight of the saddle and the texture of the other gear, and expertly replaced everything as he found it. Then he examined the troopers—clothes, teeth, eyes and muscles all came in for a thorough survey—and all was done so simply, so earnestly, and so unpretentiously that only discipline prevented the cavalrymen from breaking into appreciative cheers. The prince is not without experience of great court ceremonies, for ten years ago he attended the coronation of the czar, Nicholas II, as special representative of Japan.

Prince Fushimi graduated from the military school and obtained his first commission as lieutenant in 1875. From that time he steadily ascended the ladder of promotion until he attained his present status of full general in the imperial army, having also been appointed a member of the supreme council of war. As major-general, he commanded a brigade in the northern part of Japan in 1892, and subsequently in the Japan and China war of 1894-5, when he fought in the Wei-Hai-Wei region, as well as in the island of Formosa, being awarded at the close of the campaign the order of the Golden Kite, the decoration most coveted by those who are in the military and naval service of Japan. When this order is conferred upon any one below commissioned rank it corresponds in Japan to the V. C. of the British services, being then a recognition of exceptional valor. The prince was promoted in 1898 to be lieutenant-general, and became commander of the Tenth division, stationed at Himeji in southwestern Japan, and later of the First division at Tokyo. In this position he went to the front during the war with Russia, his division forming part of the Second army, and he was engaged in the severe struggle at Nanshan, and afterwards with the third army in the attack on Port Arthur. It is almost needless to say that he was exposed equally with his officers and men to the risks which were attendant upon all these engagements in a critical stage of the campaign.

As in war, so also in peace, the prince has rendered the emperor important service. He represented his majesty at the coronation of the czar of Russia in 1896, and was specially despatched by the emperor to the international exposition held in St. Louis in 1904.

J. H. WALLACE

Kootenay Fruit Lands

Burton City and Fire Valley Fruit and Farm Lands are the best sellers now.

15 months ago I purchased from original locators about 5000 acres of Fruit Lands near Burton City. Since then I have been getting the titles and having them subdivided into 10, 15 and 20 acre blocks. One month ago I began to advertise them and have disposed of nine 15 acre blocks and twenty-one 20 ac. blocks, averaging more than one block per day.

The reasons why Burton City lands sell so readily are as follows:

- 1-The land has a good surface loam with a clay subsoil.
- 2-It is free from stones.
- 3-It is nearly level and has a gentle slope, none of it being more than 100 feet above the lake.
- 4-The public know I can furnish a good title at once.
- 5-They know I have had a wide experience in fruit lands and am prepared to prove any statements mentioned here.
- 6-Because I am a practical fruit grower, having over 2500 fruit trees on my home farm, and buyers get the benefit of my experience.
- 7-I am also prepared to clear land, plant it and care for it until such time as my customers are prepared to take it over.

A SNAP

one improved 20 acre fruit farm for sale fronting on the lake, has a nice beech and in a good locality, 2 1-2 miles north of Burton City. 5 acres cleared and ploughed, 175 fruit trees, a nice creek runs through the property soil is good and no waste land. Daily boat service. This is one of the prettiest places on the Arrow Lakes and will make a nice home in the heart of the fruit growing district. Price \$100 per acre, 10 per cent. down, balance can be arranged.

Synopsis of Canadian Homestead Regulations

ANY available Dominion lands within the Railway belt in British Columbia, may be homesteaded by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres, more or less.

Entry must be made personally at the local land office for the district in which the land is situated.

The homesteader is required to perform the conditions connected therewith under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year for three years.

(2) If the father or mother, if the father is deceased, or the homesteader resides upon a farm in the vicinity of the land entered for, the requirements as to residence may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements as to residence may be satisfied by residence upon the said land.

Six months' notice in writing should be given to the Commissioner of Dominion Lands at Ottawa of intention to apply for patent.

Coal lands may be purchased at \$10 an acre for soft coal and \$20 for anthracite. Not more than 320 acres can be acquired by one individual or company. Royalty at the rate of 10 cents per ton of coal pounds shall be collected on the gross output.

Deputy of the Minister of the Interior N.B.—Unauthorized publication of this advertisement will not be paid for.

A TRULY IDEAL WIFE HER HUSBAND'S BEST HELPER

Vigorous Health is the Great Source of Power to Inspire and Encourage—All Women Should Seek It.

One of the most noted, successful and richest men of this century, in a recent article, has said: "Whatever I am and whatever success I have attained in this world I owe all to my wife. From the day I first knew her she has been an inspiration, and the greatest helpmate of my life."

To be such a successful wife, to retain the love and admiration of her husband, to inspire him to make the most of himself, should be a woman's constant study. If a woman finds that her energies are flagging, that she gets easily tired, dark shadows appear under her eyes, she has backache, headaches, bearing-down pains, nervousness, irregularities or the blues, she should start at once to build up her system by a tonic with specific powers, such as Lydia E. Pinkham's Vegetable Compound.

Following we publish by request a letter from a young wife:

Dear Mrs. Pinkham:

"Ever since my child was born I have suffered, as I hope few women ever have, with inflammation, female weakness, bearing-down pains, backache and wretched headaches. It affected my stomach so I could not enjoy my meals, and half my time was spent in bed.

"Lydia E. Pinkham's Vegetable Compound made me a well woman, and I feel so grateful that I am glad to write and tell you of my marvelous recovery. It brought me health, new life and vitality."—Mrs. Bessie Ainsley, 611 South 10th Street, Tacoma, Wash.

What Lydia E. Pinkham's Vegetable Compound did for Mrs. Ainsley it will do for every sick and ailing woman.

If you have symptoms you don't understand, write to Mrs. Pinkham, daughter-in-law of Lydia E. Pinkham, at Lynn, Mass. Her advice is free and always helpful.

"Baby's Own" Soap

—is made right with the right ingredients for a perfect soap.

It gives a rich creamy lather beautifully foamy & fragrant;—it improves the complexion;—it cleanses and soothes the skin;—and protects it from hard water, strong sun or wind.

"Baby's Own" is the best soap for every toilet purpose.

Albert Soap Co. Ltd., Montreal.
Beware of imitations and substitutes.

MINERS RETURN TO BOUNDARY

Big Pay Attracts Them Back From the American Side—Many More Wanted (Special to The Daily News)

Phoenix, June 12.—For the last two weeks miners have been returning to the Boundary on almost every train on both railroads, seemingly glad to assume their old positions at the increased scale of wages, which has been agreed upon between the unions and the mine managers. Men have returned from Butte, the Coeur d'Alene and from other mining districts whither they went when the coke shortage caused the mines to close. For the most part they seem to prefer the mines of the Boundary to those of any other section, and the forces are being gradually filled up at the mines and smelters.

Nevertheless, there is still a shortage of employees at the smelting works and shipping mines in the district, as they are all needing more than they did before the coke down took effect. As far as heard from there has been no increase in the cost of board at any of the mines or smelters in the Boundary, and it is hoped that sufficient men can be secured shortly to permit the operation of all the plants at their full capacity, which would mean a material increase in the present average output of from 200 to 400 tons of ore per day to 500 and 600 tons each 24 hours.

WILSON'S FLY PADS

Every packet will kill more flies than 100 sheets of sticky paper.

BUILD MILITARY ROAD TO PROVIDE ALL-CANADIAN ROUTE INTO KLONDIKE.

DOMINION GOVERNMENT CARRYING OUT IMPORTANT WORK.

(Special to The Daily News)

Edmonton, Alta., June 12.—An important work is being carried on by the Dominion government in the Canadian northwest concerning which people in general know but little about. This is the building of a military road from this city to the Yukon territory. For two years the construction has been under way in charge of the Royal Northwest Mounted Police. From Edmonton the road stretches 700 miles away to Fort St. John on the Peace river, and then takes an almost direct course over the Rocky mountains for 200 miles to Fort Graham in British Columbia, and thence in a northwesterly direction for 700 miles more to Atlin. This long trail of 1,600 miles lies through a region but little civilized, and where nature at times opposes her sternest barriers. It is not a wide road only eight feet, and at regular intervals of 20 miles small rude log houses are erected as halting places. The principal work so far has been from the eastern side of the Rocky mountains and last fall the construction party, under the command of Captain Camios, reached Fort Graham, where they have wintered. This summer another party of workmen under Inspector McDonald, of Whitehorse, will push the work from Atlin until the two forces meet, which they hope to do before winter. And the purpose of it is because one of Canada's richest treasure houses, the golden Klondike, lies cooped up beyond the great mountains. The two front doors to this country lie in the United States territory of Alaska; one opening in from Skagway by means of the White Pass & Yukon railway, the other farther north, the estuary of the Yukon river at St. Michael. Should these doors swing to, should international difficulties arise between England and the United States, and men of war of the latter country be off from Skagway and St. Michael what would happen to the Yukon territory? A blockade, starvation and who knows what?

THE LEGAL MILL

Cases Disposed of Before Judge Fortin Yesterday in Chambers

In chambers yesterday before his honor Judge Fortin quite a number of applications were disposed of.

Vesta vs. C. N. P. Lumber Co., O'Shea for the plaintiff, applied for an order for directions as to pleadings. Order made on consent; venue at Nelson.

Harrigan vs. Granby Consolidated; O'Shea for plaintiff, applied for directions as to pleadings. Lennie for defendant's. Order made on consent; venue at Nelson.

Ackett vs. Big Bend Lumber Co.; O'Shea moved to stay execution. Lennie for plaintiff raised the objection that no affidavit was filed supporting summons. Application dismissed with costs.

Lindsay vs. Brydges; O'Shea for plaintiff obtained 10 days further time to put in security for costs; Lennie for defendant. The action is brought for \$774 commission on sale of lands by Winnipeg broker.

Rietan vs. Egan and Kelly; Lennie for defendants applied for security for costs. O'Shea for plaintiff. Order made direct. That \$100 security be given. The affidavit of R. M. Macdonald, filed on the motion shows that the plaintiff is advertising of improvements on the Rio Tinto mineral claim, claiming the ground under a location known as the Lattessa, purporting to be located 15 Dec. 1896. Egan's claim was located on 7th March, 1899, and the assessment work has been duly recorded every year since that date. The writ of summons was issued on March 23, 1907, but has never been served on either of the defendants. The defendant Kelly has an option on the property for \$6000. Without being served with the summons both defendants have entered appearance to the action. The plaintiff is a homesteader in Alberta and lives there at least six months in the year. James O'Shea files an affidavit showing that the plaintiff is applying to have the attorney general made a party to the action and that this has caused delay.

The plaintiff's solicitor in Daniel Campbell vs. Wall and Greelman, file an affidavit that the defendants have paid the plaintiff \$4000.55, in full of the judgment for damages herein for loss of the left hand, obtained at the last sittings of the court.

COLIC AND DIARRHOEA

ASTLEY'S BOATHOUSE

Boatman Claims Advantage for Eclipse Motor—Peterboro Canoes

W. J. Astley is now the senior boatman of the city and is doing a great trade this season at his boathouses adjoining the city wharf.

Mr. Astley is the local agent for the Eclipse motor, built at Moncelona, Mich., and he speaks very confidently of the satisfaction given launchmen by the engine. It is built from 12 to 20 horse power, is very compact, occupying very little room in a launch, is adapted for high speed and can be regulated easily from one mile an hour up. One of its best features is the ease in starting it, the company supply no cranks and one little jerk of the fly wheel does the trick. The motor is run by gasoline.

Mr. Astley claims to own the speediest launch for hire on the lake. It is equipped with a 6 h.p. motor and holds from 12 to 15 persons.

Mr. Astley says he is too busy to do much boat building these days, but he has a fine stock of Peterboro boats and canoes for hire or for sale; these Canadian built boats, he says, he can recommend as the best in the market of their kind.

SUNSHINE FURNACE

The Sunshine is differently and better constructed than common furnaces. It's stronger, safer, more healthful.

The dome, the two sections of the fire-pot and the frame of the ash-pit are all securely fastened together by our famous "cup joint." Three "cup joints" in all, you see.

All sections, you will notice, fit together perfectly, and are lined with a layer of asbestos cement, which unites them so firmly together that they become, in every purpose, one solid piece of metal. Can never spring or fall apart.

And that's not all! The top of the dome is fastened to the sides with cement and boiler rivets, making the Sunshine just as smoke, gas, heat and dust tight as a steam boiler.

From a hygienic standpoint it takes precedence in the furnace world.

Notice, too, the Sunshine is equipped with an automatic gas damper. This damper automatically opens when the gas in the furnace reaches a certain pressure and allows it to escape up the chimney. Eliminates all danger of an explosion or gas escaping through the registers.

Safest as well as most healthful, easiest managed, cleanest, greatest labor-saving and fuel-economizing furnace you can buy.

If your local dealer does not handle the Sunshine write direct to us for free booklet.

IRRIGATION CONVENTION

SECRETARY WHEELER'S APPEAL
FOR PUBLIC SUPPORT.

CONVENTION MEETS IN CALGARY
ON JULY 17.

Editor The Daily News: I am sending you under same cover a copy of the official call for the first irrigation convention of western Canada to be held at Calgary July 17, 1907. This convention was arranged for at a meeting of the officials of the Dominion and provincial governments, April 24, 1907.

We hope that you will find it possible to give a great deal of publicity to this meeting which means so much to the promotion of agriculture in western Canada.

While the committee will make every effort to reach as large a part of the public as possible, they can only hope to make the work and efforts of this convention thoroughly well known through the Dominion by the aid of the newspapers. The newspapers can do more than any other agency in enlisting the sympathetic co-operation of the officials of the Dominion and provincial governments.

Scientific irrigation is of interest to every citizen of the Dominion, particularly in the western provinces, for it means the opening up of a country of the widest opportunities. The papers of the country can do no better work for the general public than in forwarding to its utmost interests of irrigation and the bringing about of general irrigation on wide spread scientific lines.

It is sincerely hoped that you will be able to attend this convention, and lend your personal support to the furtherance of the cause.

Thanking you in advance for the publicity I am sure you will give this great movement, I remain, yours very truly,
J. R. WHEELER, Secretary.
Calgary, Alberta, June 13, 1907.

The official call referred to in the foregoing communication was published in full in these columns a few weeks ago, but to refresh the memories of our readers, we reproduce below particulars of the basis of representation at the irrigation convention and an outline of the proposed program:

The basis of representation is as follows:

His excellency, the governor general of Canada.

The lieutenant governors of the provinces of British Columbia, Saskatchewan and Alberta.

All members of the Dominion parliament.

All members of the legislative assembly of the provinces of British Columbia, Saskatchewan and Alberta.

The deputy heads of the departments of agricultural and public works of the provinces of British Columbia, Saskatchewan and Alberta.

FOR SALE

170 acres, 80 acres cultivated and in crop. Good water supply; good log cabins, sheds and stables; a flock of chickens; some implements and tools; \$3000 cash.

GEO. G. McLAREN,
BAKER STREET WEST

Good Chances to Go East

TO OMAHA, COUNCIL BLUFFS,

NELSON'S NEWS OF THE DAY

G. O. Buchanan has returned from a prolonged visit to the coast and has gone to Kaslo.

W. A. Harkin, the well known Kootenay journalist, has retired from the Rossland Miner and gone to the coast.

The regular meeting of Queen City Rebekah lodge No. 18, I.O.O.F., will be held this evening in Fraternity hall.

Rancher Walter McGuire of Willow Point, claims to have placed the first local grown strawberries on the market.

W. C. Wells, formerly M.L.A. for Columbia, is spending a few days in town, the guest of his son, G. P. Wells.

St. Paul's Christian Endeavor will discuss a temperance topic at 8 o'clock this evening, "Who are slaves and who are free men?"

William Henderson, architect and inspector of buildings for the Dominion government, was in the city yesterday on his way from Fernie to the coast.

Yesterday the Kootenay Marble Works supplied contractor John Burns with a consignment of marble for the front of the Canadian Bank of Commerce new building.

E. W. Widdowson was hunting around town yesterday with a couple of mine operators, for miners and muckers to go on properties at Salmoe. He said it was very difficult to get men at any figure.

Any family having sleeping accommodation that will be available on July 1st and 2nd, will confer a favor on the celebration committee by notifying the secretary, George Horstead, as soon as possible.

One of the novelty features of Nelson's Dominion day celebration will be a log rolling contest for a purse of \$125; entries to be in the hands of the committee not later than June 23. There must be five competitors to ensure a contest.

The Nelson city band and orchestra will supply the music for the 20,000 club's moonlight excursion to Procter on the Kuskanoek next Thursday evening. The band is giving its services free of charge and a pleasant outing is contemplated.

The Fairview resident, who committed an assault on Saturday afternoon on Baker street, was before the police magistrate yesterday, charged with assault and with non-payment of a fine recently imposed. The man at first denied the assault or that he had been acting improperly, but on chief Jarvis' statement that an enquiry into his sanity was in order, he withdrew his plea of not guilty. Then he paid his previous fine and costs and agreed to be swished for the next 12 months. Under these conditions the last charge was not pressed.

Ask your physician to leave your prescription with us. We make a specialty of this work. Poole-Longhurst Co. 49-2

JAPAN AND CHINA.

Strained Relations Over Controversy About Manchuria.

Mukden, June 17.—A Japanese has been fired on and wounded by a Chinese member of the police on the Yalu, aggravating the controversy which is the principal cause of disagreement between China and Japan in Manchuria. The existing conditions threaten to cause the Japanese to begin the enforcement of a vigorous program. Following the visit of war minister Terauchi to Manchuria, the re-call to Tokio for a consultation of the counsel generals at Harbin and Mukden, both centers of foreign interests and also China's restrictions on the Manchurian executive, Hasabai, Japanese minister at Peking, whose proposals for a settlement of the differences with China were declined, has arrived here for the purpose of making an extensive investigation. The transfer to Mukden of the consideration of the questions involved, affects the entire position of Japan in Manchuria.

New York, June 13.—Silver, 67 1/2; lead, 55 1/2; electrolytic copper, 22 1/2 @ 23; casting copper, 22 1/2.

London, June 13.—Lead, 202 1/2, not confirmed; silver, 30 7/8.

NELSON'S NEWS OF THE DAY

Perpetual results cannot accompany occasional advertising. It is the persistent advertiser that reaps the large results.

The prison gang has been put to work on the recreation grounds, the city supplying an official to take charge of the men while at work.

J. A. Kelley of Fairview, who presided over a meeting of the YmC. board on Saturday, was taken ill on Sunday and was in a low condition last night.

The quotation of London lead published today, 220 1/2, is probably a mistake; confirmation could not be got. The last figure was 221 1/2, published Saturday morning.

John and Joseph Young are erecting two cottage residences at the corner of Carbonate and Hendryx streets. The foundations are in place and the frames will follow at once.

Thomas Morley was offered the position of secretary of the B.C. Fruit and Produce Exchange, with headquarters at Revelstoke, but he declined it, and L. M. Hagan has got the position.

P. Wade has been appointed general C.P.R. roadmaster of the third district, with headquarters here, and J. McGrath is made assistant roadmaster. E. L. Franson has been appointed assistant roadmaster at Enoch.

Yesterday afternoon at the residence of R. S. Wright, Victoria street, the death occurred of Mrs. J. R. Campbell, aged 53, the wife of J. R. Campbell, dining car conductor on the Crow's Nest line. The cause of death was an attack of erysipelas. The deceased came from California where her relatives reside. The body was re-

NELSON BRANCH

moved to the Standard Furniture company's rooms, where it will be embalmed and taken to Tacoma for burial. The bereaved husband will leave with the remains tomorrow.

There will be an important meeting of the Dominion day celebration committee at the court house at 8 o'clock this evening. The appropriations for the various sports will be passed upon, so that every member of the committee should make a point of attending.

Alderman T. M. Tennent of Port Arthur who was in the city, said yesterday that he had purchased sufficient ties to make up 1500 carloads to be used on the Grand Trunk Pacific line from Saskatoon west. The alderman is the timber agent for the G.T.P. road. The ties were purchased in this vicinity.

The second concert given by the band in the city park on Sunday afternoon proved very successful, there being a large attendance. A brief shower caused some trouble but it was quickly over. A double car service was run during the afternoon and was largely patronized. There will be a concert at the park every Sunday afternoon during the summer season.

The committee in charge of the launch races have laid out a fine triangular course for the Dominion day races, which will keep the competing boats in full view of the spectators during the races. The boats will start opposite the rowing club house, then to a buoy at Judge Wilson's and along to another buoy on the south shore, and back to the starting point. Messrs. Astley, Travis and Houston laid out the course. Launch owners should go over the course so that the handicaps may be made out.

Our night phone is No. 311. We are always ready to serve you. Poole-Longhurst Company.

BEFORE COAL COMMISSION.
Banff, Alta., June 13.—The coal commission today dealt with car shortage. General superintendent Jamieson, of the western division, C. P. R., and car distributor Harris appeared for the railway and pleaded the severe winter, but said the C. P. R. had done better than other roads. Mr. Jamieson thought strict observance of the Lord's Day Act would seriously interfere with cars being supplied to the mines. Dr. Richardson said that boys under 16 should not be employed in the mines and the miners should have regular meal hours.
