VOL. 6 NELSON, B. C., SUNDAY, NOVEMBER 3, 1907 NO. 108

IS CONFIDENT

Boundary Country Purchases Local Copper Stock

GREAT ACTIVITY AT GRANBY

WITH EXCEPTION OF DOMINION COPPER ALL BIG PROPERTIES ARE SHIPPING REGULARLY—DEVELOPMENT WORK SOMEWHAT CURTAILED JUST NOW.

(Special to The Daily News)

Phoenix, Nov. 2.—While the Dominion Copper company at both mines and smelter, is marking time at present, awaiting the coming of the company official from New York, who have been announced as on the way, all the other large shipping properties in the Boundary are keeping up the regular shipments of ore to the smelters of the district and to Trail smelter. Under the low price of copper that has prevailed of late, development has been curtailed considerably ,and not as many men are now employed in the large mines on this account; but the turn for the better in the last week in the price of the red metal has made a more hopeful feeling.

At the Granby mines there is the greatest activity prevalent, and it is an unusual day when the full complement of 3,000 tons of ore is not sent down the hill to the reduction works of the company by the two railways. The Mother Lode mine of the B. C. Copper Co. continues to send out from 500 to 600 tons daily to the company's smelter, and the Snowshoe, in Phoenix camp, has never shipped more heavily than at present both to the B. C. Copper Co's smelter and to the company's own smelter, that of the Consolidated Mining and Smelting company of Canada, at Trail.

A noteworthy feature of mining conditions in the Boundary is the fact that, while Boundary copper stocks have been slumping on the New York and Boston exchanges, in sympathy with the securities of all kinds, many residents of this district have been picking up these shares more heavily than ever in the last two or three months as an investment. Knowing the properties as they do intimately, they are satisfied that the outcome will be all that could be wished.

MAY BE A CANDIDATE

PHOENIX MUNICIPAL ELECTIONS LOOMING UP

REGISTRATIONS SHOW INTEREST IS BEING TAKEN

(Special to The Daily News)

Phoenix, Nov. 2—The municipal registration list, which closed this week for the Phoenix city election, to be held in January shows that more interest will be taken in the election than ever before in the history of the city. The list of householders registered shows that 189, including three women, took the trouble to register and to pay the $2 road tax to qualify therefor. This is nearly five times the number on the list for 1906. To these must be added those placed on the list by the city clerk through property qualifications and it is anticipated after the court of revision sits, there will be about 300 names on the voters' list of Phoenix, or doubl ethat on the list last year.

G. W. Rumberger, who had been chosen mayor for seven consecutive terms, was beaten last winter by D. J. Matheson, the present mayor. Mr. Rumberger may again become a candidate and both he and the present mayor have friends who wish them to run for the office. If both should enter the race again it will result in an exciting contest, with every vote brought out that is possible.

STORM IS OVER.

American Advices Show that Financial Situation is Improving.

Washington, Nov. 2.—Treasury officials are agreed that the financial situation is distinctly improving day by day and advices from financial centres today were of a reassuring character. News of the opening today of the banks of Oklahoma and New Mexico, was received with general satisfaction and there is said to be abundant evidence that the fear of disastrous conditions is subsiding. National banks everywhere are arranging to increase their circulation.

BOOTH IN NEW YORK.

Says Worldly Socialism is Either Too Late or Too Early for Practical Use.

New York, Nov. 2.—General William Booth, founder and head of the Salvation Army, is here today from Philadelphia for what is probably his last visit to New York. He is feeble and has been in poor health since his arrival in America and his ailment puzzles physicians and himself.

"I have now resumed my program," he said, "and I have grown stronger and stronger. This is an exemplification of my theory that work is the great remedy for all human ills. I have been in this country five weeks today and our meetings have been marvelous and have been attended with wonderful success. We have grand receptions by enormous crowds."

Quoting one who had said, "today's rich man cannot enter the kingdom of Heaven," the general observed: "It all depends upon what he does with his riches. If he would send some of it to the Salvation Army, I would speak a word to Peter for him."

He continued: "The best form of socialism is a celestial creed professed and so practiced, its basis is loving your neighbor as yourself. Worldly socialism is either too late or too early. It should have come before Eden, or should come after the judgment day."

General Booth will preach at the New Amsterdam theatre tomorrow morning and afternoon and in the evening he will address a mass meeting at Carnegie hall on "The Secret of the Success of the Salvation Army."

NEW SMELTER MANAGER.

Thomas Kiddie to Take Charge of Le Roi Plant at Northport.

Thomas Kiddie has been appointed to the management of the smelting works of the Northport Smelting & Refining company at Northport, Washington, in succession to Albert I. Goodell, who has resigned to return to Colorado.

Mr. Kiddie's ability as a metallurgist is well known in the Kootenays. He designed and erected the Tyee Copper company's smelter at Ladysmith, and successfully operated it until he resigned to accept the management of the Britannia Smelting company's works at Crofton. Last year he was appointed manager of the Alaska Smelting and Refining company's smelter at Hadley, Southwest Alaska. Just about the time this company's affairs became invovled financially and a receiver was appointed, the offer of change of the Northport works was made to Mr. Kiddie and he accepted it. His many friends in the province will be pleased to learn of his having received this important appointment and will wish him abundant success in his new sphere of labor. He will relieve Mr. Goodell on December 1. Meanwhile he will probably visit the smelters in the Boundary district.

INFLUX OF SETTLERS

FERNIE ENJOYING A PROSPEROUS SEASON

GREAT WANT OF ACCOMMODATION FOR NEWCOMERS

(Special to The Daily News)

Fernie, Nov. 2—The influx of visitors to the town during the last few months has been so great that the hotel accommodation has been found entirely inadequate to meet the demand and it has been with difficulty that room has been found for those seeking quarters. Railroad construction and the location of new industies in the neighborhood coupled with the expansion of existing concerns has resulted in a large increase in the permanent population, and though building operations have been active all summer, any families find it impossible to secure houses and are compelled to find refuge in hotels thus limiting the accommodation for the travelling public. A large up to date hostelry is an urgent necessity as the district is experiencing an unprecedented era of prosperity, a condition which is bound to continue for a long period and provision will have to be made for the comfort and convenience of the public if they are to be attracted to the town.

The Ladies' Aid society of the Methodist church gave a most successful and enjoyable thanksgiving day dinner last night and notwithstanding the inclemency of the weather a large gathering was present and the exchequer of the society was enriched by about $100.

The work of opening up the coal mines at Carbonado is progressing satfactorily, two new tunnels being driven and coal will soon be coming out. It will be remembered that these mines were closed down nearly two years ago, since which time Morrissey townsite and Carbonado have been practically deserted. Their opening will therefore be good news to those who own property in the vicinity and the neighborhood will now become as prosperous as any in the Pass.

WINNIPEG HOCKEY.

Winnipeg, Nov. 2.—Jack Winchester, the famous goal tender, formerly of Pittsburg and considered the best man in the business arrived in the city yesterday to be on hand for the opening of the hockey season. With his arrival the Strathconas have now their full defense. Winchester, goal; Bird, point; Chambers, cover—a combination difficult to beat. Manager Percival is straining every effort to get together the fastest team ever seen in the west.

ALLIANCE IS SATISFIED.

Ottawa, Nov. 2.—The Lord's Day Alliance, on the whole, is satisfied with the working of the new Lord's Day Act and will not ask parliament to pass any further legislation during the approaching session.

WADE RETURNS.

Winnipeg, Nov. 2.—F. C. Wade, K.C., Mrs Wade and son are here. They are on their way to Vancouver after seven month's absence in Europe, most of which time was spent in Germany.

EX-M.P.P. DEAD.

Winnipeg, Nov. 2.—Thomas Kellam, ex-M.P.P., and a well known commission merchant and former member of the grain exchange died this morning. He leaves seven children.

COLORED BOXER WINS

FLYNN EASILY KNOCKED OUT IN THE ELEVENTH ROUND

JOHNSON TOYED WITH OPPONENT THROUGHOUT

San Francisco Nov. 2—Jim Flynn, the Colorado fireman, was knocked out today at Colma in the 11th round of a 45 round fight, by Jack Johnson, the colored heavyweight, with a straight right to the jaw. It took four minutes to resuscitate Flynn. Throughout the contest Johnson toyed with his antagonist and only once did he suffer a telling blow. Efforts will be made at once to match Tommy Burns and Johnson for the heavyweight championship.

The heavyweight pugilists Jack Johnson and Jim Flynn met today in what was to have been a 45 round glove contest. The attendance was the largest at the Colma arena since the Burns-Squires fight, several months ago. There was considerable betting at the ringside, the odds varying from 10 to 5 and 10 to 6, with Johnson the favorite. Johnson's weight was announced as 194 pounds and Flynn's at 176 pounds.

Time was called for the main fight at 3:02 and the heavyweights immediately clinched. Johnson upper cut with his right to the stomach and Flynn drove the colored fighter to the ropes with short arm jolts to the body. Just before the round closed Johnson closed Flynn's eye. Johnson had a decided advantage.

In the second round they fought at close quarters, Johnson getting in several short arm jolts to the body. Johnson jabbed twice with his left to the face, and then sent a straight right to the same place. Flynn tried close quarters but failed to land. Johnson clearly out boxed and out generalled his man.

In the third round Johnson landed right and left swings on the head, Flynn rushed in as usual but failed to land. He butted the colored man unintentionally and quickly shook his adversary's hand. Johnson shot two right hooks to the jaw as the round ended. Flynn rallied and landed left and right on the face. Johnson, however, had a lead.

The fourth round was very tame. Johnson was tame and seemed to be biding his time to land a decisive blow. Flynn fought desperately in the fifth but the round ended in Johnson's favor.

Neither man had any apparent advantage in the sixth. Flynn's left eye was closed with a right swing in the seventh. Johnson sent Flynn to the floor by the whole weight of his body in the eighth and was jeered by the crowd. Wrestling and clinching characterized the ninth round. Flynn was almost out when the bell rang.

In the tenth round Flynn rushed in but Johnson landed a succession of blows to the face. In a clinch Flynn butted Johnson viciously with his head and was warned by the referee. It was Johnson's round by a wide margin.

"Come right on," yelled Johnson as they began the 11th round. Flynn tried close quarters and tried to reach Johnson's body, the latter flooring him with a straight right to the jaw. Flynn went to the mat like a log and had to be carried away by his seconds.

DRINNAN GOES TO HOSMER.

Former General Superintendent For C. N. P. C. Co. Enters C. P. R. Employ

(Special to The Daily News)

Hosmer, Nov. 2.—John Brown, erstwhile superintendent of the C. P. R. coal mines at this point, has resigned and will be replaced by R. G. Drinnan, formerly general superintendent of the Crow's Nest Pass Coal company's mines. Mr. Drinnan is well and favorably known as a coal miner throughout the Crow's Nest district. He is a practical miner, thoroughly understands every branch of the operating department and has gained an enviable reputation as a manager of men, largely due to the fact, no doubt, that he has worked his way to the top through every grade.

The Hosmer mines are being got into shape for a large output, just so soon as the company is free to ship.

MISSIONARIES STONED.

Anti-Foreign Element Make Most Unfounded Charges.

Hongkong, Nov. 2.—The Scandinavian mission in the district of Nampoi has been attacked by the anti-foreign element of the population. The missionaries, Misses Wendell and Erickson, were stoned by the Chinese who alleged that native women were forced to become Christians and were kept for immoral purposes. The magistrate at Nampoi succeeded in restoring order.

SIMPLY PAGANISM.

Spokane, Nov. 2.—The biennial meeting of the board of bishops of the Methodist Episcopal church opened its work here today with twelve bishops, picked from all parts of the civilized world.

Bishop William Bure at a banquet last night declared that Christianity in Roman Catholic countries is simply paganism and is not to be judged by conditions here. "On the continent the work of our church meets with great difficulty because they come face to face with these beliefs."

EDMONTON'S PROGRESS.

Edmonton, Nov. 2.—The customs returns for October show entries to the amount of $19,243.09, as compared with $12,945.13 for the same month last year.

NOT GUILTY.

Winnipeg, Nov. 2.—After being out an hour and a quarter the jury in the Choney murder trial brought in a verdict of "Not Guilty" yesterday afternoon.

LIMIT OUTPUT

Butte Copper Output Shows Marked Decrease

DROP OF 84,000,000 LBS.

NONE OF THE SMALL COMPANIES AMONG PRODUCERS AND LEASERS STORED THEIR OUTPUT—OCTOBER OUTPUT SMALLEST IN HISTORY OF BIG MINES.

Boston, Nov. 2.—The production of copper by the Butte mines in October was but 8,376,200 pounds, 2,953'600 less than the estimated output for September and 16,787,600 pounds less than the monthly average of 27,541,200 pounds for the first six months of 1907.

The October output was the smallest in the history of the big mines. None of the small companies produced any copper and very few leassers shipped any ore, though a number have been mining and storing their output, as for example the operators in the east Butte group. The La France and Pittsburg and Montana plants have been closed for nearly two months.

The October production was but 32 per cent of the average for the first half of the year. For the first ten months of 1907, the output of the Butte camp shows a decrease of nearly 84,000,000 pounds or nearly 27 per cent from the production in the same period of 1906.

NO MORE RESTRICTIONS

BRINGING RAILWAYS TO TIME IN NEW YORK.

UNIFORM RATE OF TWO CENTS A MILE DEMANDED.

Albany, Nov. 2.—Every railway operating in New York state will be summoned before the public service committee on November 25 to show cause why they should not be directed by the commission to issue interchangeable mileage books of 1000 and 500 miles at uniform rates of 2 cents a mile and without many of the restrictions now placed upon the sale of mileage books by some of the larger companies.

HARD SWEARING

Toronto, Nov. 2—Judge Riddell expressed the opinion this morning that perjury is alarmingly on the ncrease in Ontario and that all legitimate means should be taken to prevent it.

GOLD FOR AMERICA

London, Nov. 2—The bank of England's stock of gold was further depleted by £220,000 in bar gold and £109,000 in American Eagles, which were withdrawn for shipment to the United States.

NELSON NEWS OF THE DAY

During this week there will be no less than three annual meetings: One of the Young Liberals on Tuesday night, another of the Fruit Growers' association on Wednesday night and the third that of the Nelson Agricultural and Industrial society, which will take place on Thursday night.

Captain Paddon of Crawford bay is delighted with a new launch which has just been built for him locally. The hull has been constructed by F. W. Hale on very fine lines and the boat has been engined by W. Astley with an 11-h.p. engine. A speed test of at least ten knots is expected of his purchase by the buyer. Characteristically it has been named the "Baleka," which is just Zulu for "The Fast One."

D. Davies, who for many years has filled the position of comptroller of the Crow's Nest Pass Coal company, has, according to the Fernie Ledger, resigned that position and will be succeeded by A. Klauer, heretofore chief clerk in the company's office. The Ledger also confirms our report from Hosmer of R. G. Drinnan's resignation from the company's employ. It is also currently reported that other changes in the company's office staff at Fernie will shortly take place. An Illinois man is spoken of as the probable successor to Mr. Drinnan. General manager Lindsey is now in the east and nothing definite regarding the other changes will be known until his return.

LOYAL SUPPORT.

Chicago, Nov. 2.—A payroll to meet is not among the cares today of Henry M. Dawson, manufacturer of mantels. A score of his employees, all workingmen, yesterday surprised him by offering enough currency, about six thousand dollars, to carry him through two pay days. If Mr. Dawson shall need more money before the flurry in the market is a thing of history, the men on the other side of his desk will bring more. Last week Mr. Dawson made several deposits which would have carried him through if he had kept the money in his own safe.

WEEK'S ORE SHIPMENTS

COPPER RISE WILL STIMULATE FUTURE PRODUCTION

ACTIVITY IS SHOWN IN FREE MILLING DISTRICTS

Rossland camp, as far as the Le Roi is concerned is maintaining a rate of 300 tons a day, which rate is hardly likely to be exceeded as long as copper remains at its present low figures. As large sales are reported in Europe this does not seem likely to be long delayed. In the meantime, however, the plant at Boundary Falls is closed and several Boundary mines are remaining idle. On the other hand there is reported a great deal of activity in gold quartz mining in several directions, notably in the vicinity of Ymir and Salmo and also in the Lardeau. The Slocan is prospering and several new strikes have recently been reported, while some of the smaller properties are beginning to ship the proceeds of their summer work.

Appended will be found the ore shipments and smelter receipts in detail for the past week and year to date in tons.

BOUNDARY SHIPMENTS

Mine	Week	Year
Granby	19,989	583,912
Mothe Lode	3,440	197,362

Marysville, B. C.

Sullivan	600	26,400

The total amount of receipts reported from the local and foreign mines for the past week were 38,648 tons and for the year to late 1,377,622 tons.

GRAINMEN'S TROUBLES.

Crystal City, Man., Nov. 2.—The grain buyers of Hannah and Sarles, N. D., are unable to buy grain owing to lack of funds, caused presumably by the stringency in the money market. Many Canadians from this section who are accustomed to ship wheat in bond from these points just across the boundary, have been obliged to draw their grain back again to the Canadian side, shipping from Crystal City and other points. Difficulty in the car supply contributes, according to the reports, to the difficulty in marketing grain across the border.

DETERMINED TO DIE.

MacLeod Nov. 2.—A Peigan Indian, anxious to go to the happy hunting grounds, loaded up a shot gun yesterday, laid himself down on his bed and after pointing the gun towards his head, tried to pull the trigger with his moccasined feet. Failing to catch the trigger he got up, cut away the moccasin so that the big toe protruded, laid down again and this time succeeded in his purpose. When found the top of his head was completely shot off, death having been instantaneous. A coroner from Pincher Creek viewed the remains but decided that an inquest was unnecessary.

UNREST IN INDIA

Bill to Prevent Seditious Gatherings has Been Adopted

Simla, India, Nov. 2—The legislative council adopted a bill today designed to prevent seditious gatherings. The measure empowers the provincial authorities to proclaim any given district as one in which public meetings will not be allowed without written permission under penalty of fine or imprisonment. Lord Minto made a speech in support of the bill. It was, he said, impossible to ignore warnings of recent months, the riots at Lahore, Pindi and elsewhere the insults to Europeans and the attempts to inflame racial feeling and tamper with the loyalty of the Indian army. He said that Lord Kitchener, commander in chief of the British forces in India, would convey to the troops the thanks of the king and the government, for the contempt with which these overtures had been received.

SLEEPING SICKNESS

Patient Dies of African Malady in a New York Hospital

Paterson, Nov. 2—Physicians here today are discussing the case of Joseph Korsignos who died yesterday in a hospital after having slept seven weeks. Death resulted from exhaustion due to lack of nourishment. The young man was brought to the hospital from the Franklin furnaces and two days after his arrival fell asleep. He did not wake for two weeks, when he took some nourishment and went to sleep again. He woke again last Thursday but after 20 minutes, returned to sleep and did not again awaken. Electric applications and hot and cold water treatments were applied without effect. At the hospital it was said today that the symptoms were those of the African sleeping sickness.

STOCKS FOR THE WEEK

IMPROVED CONDITION OF FINANCIAL SITUATION

FIRMER PRICES PREVAIL AND MORE TRADING

(Reported by Mighton & Cavanaugh)

With the improved condition of the financial situation throughout the east, and the advance in the price of copper, mining shares throughout the west generally show a great improvement resulting in firmer prices and more active tradings. This reaction affected copper stocks more than any other securities as the rapid decline of such stocks was in a great measure due to the drop in copper, and with the slight advance in the metal, investors who were awaiting the turning point immediately came into the market.

B.C. Copper gained a few points with each day's tradings, selling from $4.25 to $4.75 on the asked market price. Dominion Copper showed but little change, holding firm about $2.12 1-2. Snowstorm and others of the better securities of the Coeur d'Alene made a slight gain with a larger demand than for some time.

Both Alberta Coal and International Coal showed a decline, selling down several cents from last week's close. Galbraith Coal remained firm, all offerings under current quotations being quickly taken. Diamond Vale Coal and Diamond Coal, and Western Oil remained weak and inactive.

Consolidated Smelters and Canadian Goldfields continued firm and almost unchanged. American and Canadian Marconi were strong and in great demand at the opening but with the report of the impossibility of utilizing this invention for some time yet a weakening was noticeable. Rambler-Caiboo, Sullivan and Tel-Kwa Mines continued inactive and unchanged.

Following are the approximate quotations for the week ending yesterday:

	Asked	Bid
Alberta Coal and Coke	$ .38	$ .36
American Marconi	35.00	27.00
B. C. Copper	4.00	...
Breckenridge-Lund	.55	...
Canadian Marconi	2.75	2.00
Consolidated Smelters	110.00	95.00
Canadian Goldfields	.5	.3
Dominion Copper	2.50	...
Diamond Vale Coal	.16	.15
Diamond Coal	.50	.45
Granby	90.00	77.00
Galbraith Coal	.28	.26
International Coal	.91	.88
North Star	.11	.8
Panhandle Smelter	.3	.2
Rambler-Caiboo	.24	.21
Royal Collieries	.25	.20
Sullivan	.7	.4
Snowstorm	1.13	1.10
Tel-Kwa Mines	.11	...
Western Oil, ordinary	1.15	.90

DOCTORS UNION.

Toronto Medical Men Follow Example of Trades Unions.

Toronto, Nov. 2.—The doctors of this city, west of Yonge street, have formed a union under the name of the No. 11 territorial division of the college of surgeons and physicians. The objects of the organization are to improve the conditions of the profession, fight against quacks, and establish a minimum fee for minor operations, which has been fixed at $10, that for major operations being placed at $50. For the first visit to a patient hereafter $2 will be charged and $1 for subsequent visits while the fee for night visits will be double. One dollar will be the charge for an office visit and $5 for administering anaesthetics.

STANDING PAT

Mackenzie King Pursues His Investigations

LEMIEUX TO BE SUSTAINED

GOVERNMENTS PROBABLY IN IGNORANCE OF MISCHIEF BEING EFFECTED—GREAT NORTHERN INTERESTS IN AND AROUND VANCOUVER.

(Special to The Daily News)

Vancouver, Nov. 2.—John Hendry this afternoon retired from all ownership in railway lines south of Burrard Inlet, the control of the V. M. and Y. railway, all Vancouver rights and terminals, both on False creek and the Inlet, being passed over to the V. V. and E. railway. All Hendry's company now has is the right to construct a road from North Vancouver to Fort George. The V. V. & E. railway has also taken over the New Westminster Southern Railway and the Victoria and Sidney line on the island. Special meetings for completing the deal were held last night and today. A. H. MacNeil of Rossland, representing Great Northern interests. It is stated that Mr. MacNeil will shortly take up his residence here.

Elizabeth F. Ferrier was last night fatally injured by a tram car of the B. C. Electric railway. She had alighted from the car and was struck while crossing the other track by a car coming up to her suddenly. This is the second fatality of the kind in the last ten days and a coroner's jury tonight declared the company guilty of criminal negligence in not providing sufficient cars and in maintaining runs which could not be covered in scheduled time with regard to the speed bylaws.

Mackenzie King this morning took up the question of the enquiry into the methods of the Japanese emigration companies in Vancouver and Victoria, expressly in view of the editorial expression that Lemieux's mission to Japan would be endangered by such action. He said he should certainly report his opinions to the government as he believed that both Tokio and Ottawa should be fully conversant with affairs. It seemed to him to be up to the province to demand an inquiry inasmuch as both governments were probably in ignorance of what was going on. If the methods were not stopped the immigration might continue, no matter how successful Lemieux was.

COMPROMISE PROBABLE

MAY AVERT THREATENED RAILWAY STRIKE IN BRITAIN

CONFERENCE WITH LLOYD-GEORGE ON WEDNESDAY

London, Nov. 2—The prospects that the president of the board of trade, Mr. Lloyd-George, may be able to avert a general railroad strike by arranging a compromise, were brighter today. A full meeting of the executive committee of the amalgamated society of railroad servants was held this morning and it was decided to postpone action on yesterday's resolution in favor of a strike until after the conference which is to take place with Mr. Lloyd-George on Nov. 6, to which he has invited the society to send representatives. Richard Bell, M.P. and general secretary of the strike movement will probably be the leader of the delegation.

Public feeling against the strike is so strong that the men are bound to move slowly so long as the companies show any disposition to arrive at a compromise agreement. Railroad shares fell slightly at the opening of the stock exchange, but rose later to their normal quotations, thus reflecting the belief in a peaceful outcome of the situation. The railroad men have decided to hold a mass meeting at Albert hall, here on Sunday night at which deputations from all parts of the United Kingdom will be present.

DOUBLE LYNCHING.

Mobile, Ala., Nov. 2.—Abe Sumroll and Hank Lucas, two negroes, were lynched today at Viengar Bend, Ala., near here. Sumroll murdered Julio Boaz, a young Cuban, on Monday night. Boaz was trying to arrest Sumroll for burglary. Lucas' crime was the protecting of Sumroll from the police and a posse.

SUDDEN DEATH.

Brandon, Nov. 2.—Murdock McLennan, a guest at the Windsor hotel, died suddenly yesterday while eating his dinner. He was seized with a fit of coughing and expired in a few minutes. Deceased was a man of about 40 years of age and came from Wingham Ont. An inquest will be held.

NO MORE ALCOHOL

Helsingfors, Nov. 2—The diet today approved unanimously without a roll call, the alcohol bill prohibiting the manufacture of alcohol in Finland or its importation into Finland. In view of the passage of the bill temperance celebrations are being held in every part of the country.

THE RAILWAY COMMISSION.

The creation of the Railway Commission has proved one of the most useful acts of the Laurier administration. The Commission has done and is doing excellent work for the people of Canada. But there is too much for the Commission as at present constituted to do. The Commission will either have to be enlarged or a new Commission, with jurisdiction in western Canada, established.

The west has not received anything like the attention from the Commission its requirements warrant, and this has not been because of any desire upon the part of the Commission to neglect the west, but simply because of pressure of business in the east.

It having been clearly proved that the Railway Commission is a potent factor for good in the control of railway affairs throughut the dominin, it is not asking too much to suggest that parliament at its coming session should create a new Commission on the lines of the present one, whose special duty it would be to deal with complaints and grievances arising in the west.

If, as is generally anticipated, the telegraphs be placed under the control of the Railway Commission, the present congestion will be greatly accentuated and some relief must be afforded.

It may be deemed impracticable to divide the territory over which the Railway Commission has control. In that event a new Commission should be established, which would have jurisdiction in certain matters, such as express rates, the telegraphs, etc., thus relieving the original Commission from much of the work that must otherwise hinder its movements and so minimize its usefulness.

This matter is one that should receive the earnest consideration of parliament this coming session. Everyone concedes that the institution of the Railway Commission has proved a splendid success, but it is only too obvious now that its powers for good are greatly lessened by reason of the multiplicity of matters with which it is called upon to deal.

EDITORIAL NOTE.

The city electric light and power service is in anything but a satisfactory condition just at present. No one seems to know where the fault lies and apparently no serious effort has been made to ascertain the cause. It may be impossible to remedy the defective light service that consumers have to put up with and pay for just now, but that fact should be definitely ascertained at once and the reasons explained. The city has expended a very large sum of money on the new power plant and citizens quite justifiably expected that once it was in operation a good light and power service would be regularly supplied. For some cause or other this expectation has not been realized and the months pass by without any decided action being taken to improve matters. This is a most unsatisfactory state of affairs and by no means conducive to enthusiasm over municipal ownership and operation of public utilities. If the city has made a bad bargain and installed a plant that cannot deliver the goods, the ratepayers should be so informed. If, on the other hand, it is simply a case of incompetent management, the city council should take immediate action to secure efficient management, even if it be necessary to call in an outside expert to report upon the situation. The policy of doing nothing, of letting things slide, is wholly indefensible.

HARROP NOTES.

(Special to The Daily News)

Harrop, Nov. 2.—At a well attended meeting of the West Kootenay Farmers' Institute in the store here interesting lectures were delivered by Miss L. Rose and T. A. Brydon. Both speakers dwelt on subjects of an instructing character to the settlers here and it is hoped that an opportunity of hearing them again in the near future will occur.

The church finance committee have decided to accept Mr. Allan's generous offer of 100 square feet of his newly acquired property which is a part of the Porter pre-emption for a new church site. The land is centrally located and specially suitable for a church site.

A telegram received recently announced the arrival at Hong Kong of Lenox McClure John's elephant en route for Nelson.

Work on the wagon road between here and Proctor is progressing favorably, but it is doubtful if it will pass Thomas Greenwood's ranch this fall.

E. P. Southworth is spending a few days in Pincher Creek, Alta.

Alec Clarke intends building a substantial residence on his property this fall. Mr. Clarke will be joined by his brother shortly.

Extensive clearing is going on around here and the consumption of stumping powder is consequently excessive.

FERNIE TOPICS.

(Special to The Daily News)

Fernie, Nov. 2.—The C. P. R. have just completed the erection of a new and up-to-date water tank at the local station to replace the one that was damaged by fire some months ago.

W. S. Keay, sub-collector of customs, who has most acceptably filled the position of his post for some years, has resigned and G. G. Henderson appointed to the office.

G. G. S. Lindsey, general manager of the coal company, has left for Toronto and will be absent for a couple of weeks.

LINGERING COLD.

Withstood Other Treatment But Quickly Cured by Chamberlain's Cough Remedy.

"Last winter I caught a very severe cold which lingered for weeks," says J. Urquhart, of Zephyr, Ontario. "My local dealer recommended Chamberlain's Cough Remedy and guaranteed it, so I gave it a trial. One small bottle of it cured me. I believe Chamberlain's Cough Remedy to be the best I have ever used." This remedy is for sale by all druggists and dealers.

FINE SHOWING.

Montreal, Nov. 2.—According to the annual report issued today the Montreal street railway, during the year, carried 115,416,468 passengers an increase of nearly 15,000,000 over 1906. The gross earnings increased during the year by $403,156, or 13 per cent. The operating expenses were $253,933,-45, or 13.72 per cent. The net earnings were $149,223.10 or 11.94 per cent.

THE McAULIFFE CO.

Plays, or technically speaking, productions of stories written by the clever authors of the age, such as, "Dens and Palaces," "The Voice of Nature," "Why Women Sin," "The Mining King," etc., which are the brains and penwork of standard playwrights, form the class of entertainments offered by the McAuliffe Co. The company is headed by the great singing comedian, Dere McAuliffe and the supporting company is a most capable one in every particular. A seven night and Saturday matinee engagement will be inaugurated at the Sherman opera house next Wednesday evening at which time will be presented as the initial play the great comedy drama, "A Daughter of the People."

NOTICE OF ASSIGNMENT

Pursuant to the "Creditors' Trust Deeds Act, 1901," and Amending Acts, notice is hereby given that Robert M. Hood of the City of Nelson, British Columbia, carrying on business at Nelson as a grocer under the firm name of Robert M. Hood and Co., has by deed of assignment, dated the 24th day of October, A.D., 1907, assigned all his real and personal property, credits and effects which may be seized and sold under execution, to Edward Blake McDermid, accountant of Nelson, B.C., in trust for the benefit of his creditors.

All persons having claims against the said Robert M. Hood are required on or before the 25th day of November, A.D., 1907, to send full particulars of the same, duly verified, together with the particulars of the securities (if any) held by them, to the said Edward Blake McDermid, addressed to him at Nelson, B.C., in care of McDermid and McHardy, on or before the 25th day of November, 1907. And notice is hereby given that after the said 25th day of November, 1907, the said assignee will proceed to distribute the proceeds of the estate having regard only to the claims of which he shall then have received notice, and that he will not be responsible for the assets or any part thereof so distributed, to any person or persons of whose debt or claim he shall not have received notice.

A meeting of the creditors of the said Robert M. Hood will be held at the office of Taylor and O'Shea, Houston block, Baker street, Nelson, B.C., on Monday, the 11th day of November, A.D., 1907 at the hour of three o'clock in the afternoon.

Dated this 26th day of October, A.D., 1907.

E. B. McDERMID, Assignee.

Minard's Liniment Cures Diphtheria.

STRAWBERRY CULTURE

TIMELY SUGGESTIONS BY EXPERIENCED GROWER

HINTS AS TO PICKING, PACKING AND MARKETING

The local weather during August, September and October has been exceptionally favorable for strawberry growers in developing the plant for next year's crop. Any deficiency in your strawberry plants now cannot be caught up with next spring either by nature or your own effort; as its condition is now so will be your next year's crop. If you have taken any interest in your strawberry patch in the past, have good healthy plants and from no run-out or exhausted stock, you should now be able to go out in your strawberry field and make a close estimate of your crop for the season of 1908.

If you do not mulch your strawberries, but have given them reasonable care up till now, you should be justified in expecting a crop of from 175 to 250 crates (of 24 pounds) to an acre, provided weather conditions are favorable until the crop is harvested.

If you mulch that same strawberry patch, or, in other words, insure your crop of strawberries, that patch should give you from 250 to 350 crates per acre, with no possible failure of crop, regardless of the weather conditions next spring. So much for mulching, which requires about four tons of hay or straw preferably per acer.

All this complied with is hardly one half of the conditions for your success in growing strawberries.

The other is the picking, packing and marketing of your berries in which most of the growers fail. Permit me for the benefit of my brother strawberry growers of the Kootenay lake district to point out some of the shortcomings and substitute improved methods, which if followed and improved upon as experience teaches you, will spell success in future beyond your expectation.

First your custom in paying your pickers by the crate, must be done away with. If you ship but ten crates during the season only one person should have the responsibility of seeing that every box is picked and packed perfectly, with no over ripe decayed or bruised fruit; boxes filled to about half an inch above the rim, and have crates to match when so filled.

Pay your pickers by the box. Imagine yourself, that three days from date of picking, you are in Brandon, with your family, buying some of your own berries for use on your own table and willing to pay the local dealers from 20 to 25 cents a box; this will help you in considering the consumer at the other end of the line when packing your berries for shipment.

Second, do not ship berries picked when the strawberry vines are wet from dew or rain.

Third, have your pickers engaged, if you need two or three, before picking begins; for this purpose co-operate with other strawberry growers in your locality, make an estimate of you combined need, advertise in your local paper, and have detailed instructions left at a central office for distribution of the pickers amongst the growers; if possible combine pleasure with profit for the pickers when white pickers are employed.

For the management of pickers use strict discipline when in the fields. If you employ six or eight pickers, have one person doing nothing but attending to and watching the pickers, making each one do as instructed. Throw away or put in a box separate all over ripe fruit; pick perfect but fully ripened fruit for local market only and the half or three quarter ripe fruit for long distance shipment. Half and three-quarter ripe fruit is judged by the amount of coloring. See too, that the pickers do not destroy with their feet or body as much as they pick with their nimble fingers. Also look out for careless pickers, breaking fruit clusters and destroying more berries than they pick and so clean your patch of berries in two or three pickings. Give each picker a ticket and when he has filled three or four boxes, punch the ticket for the amount, give them empty boxes and have the filled ones removed to a cool, shady place, where each box should be carefully looked over and properly filled by the packer in charge before being crated.

Berries picked between 11 o'clock a.m. and 6 p.m., during a hot summer day should be cooled off before crated. Put in the crates only the 12 bottom boxes, cover with wax paper 9x14 inches and set aside to be cooled. Late at night or early in the morning, before shipment, finish crating and protect same from the sun up to the arrival of the boat. Do not expect the transportation company to deliver fully ripened fruit, hundreds of miles away in the same condition as half or three-quarter ripe fruit nor berries picked when the ground is wet from dew or rain.

Fifth, marketing of strawberries—But one out of ten of our strawberry growers is expected to profitably market his crop of berries if left to shift for himself in a competing market. For this purpose you must co-operate with each other and from now until next spring is the proper time to perfect this co-operation. Each one make a conservative estimate of his expected crop before the snow covers the ground, then call a meeting of all strawberry growers in your locality (admit none but actual strawberry growers, tilling the soil with their own hands), pledge all your members to scrupulous honesty, then select one of your number, having no speculative interest outside of fruit growing, to represent you, and if he then does not know how best to proceed and he should wish to be acquainted with my experience in this line I should be glad to give such advice as will enable him to market your berries profitably.

No fruit will give the careful and conscientious fruit grower any thing near the financial profit that strawberries will, although I see that some of our brother fruit growers across the line have produced $3500 an acre from a 17 year old orchard. But it has taken 17 years to accomplish this, while strawberry culture will give you full returns the second year. Yours truly

Creston, Nov. 2. O. J. WEGAN

NEW YORK FASHION LETTER

New York, Nov. 2.—This is the month for the new hat.

The Mushroom has gone the way of all mushrooms. It did one good service for us, it lowered the height of all hats and broadened them out; so the hat most generally liked this fall will be a flatter, closer fitting and larger model. A great many long hats (front to back) are to be seen with broad fronts and for those that need a "built up" hat, there is a shape that comes with a slashed left side with the front lap turned up close to the brim, about which is massed many ribbon loops and ends, a flower or two, or some quills perhaps. For the woman who is aiming to heighten her appearance, there are some models with high crowns, trimmed in front with long narrow loops. Unfortunately for the short woman trimmings are at present more to the front, for it is the high back trimming that adds to our inches.

The sailor with a brim bent in becoming curves is still in favor, and to the round-face, still retaining an impression of youth, the sailor is exceedingly well suited.

The profusive use of flowers during the past summer has been extended into the Autumn millinery. The most popular flower is the peony and its favorite colors and purple and cherry, the fact is that the larger flowers, such as chrysanthemums, dahlias and asters are best liked; sometimes an immense single flower will be used, and again a number of smaller ones—violets are much favored, especially when used with other flowers. On many of the new imported models ostrich feathers are lavishly used, not one, but several being the rule. Other feather trimmings are also in vogue, such as marabout, coque, casoway and nackle feathers.

A word should here be said about veils. The newest ones are tight fitting and as a revulsion against the streamer. The veil itself may be gauze lace, chiffon, net or mull, but nearly all of them have borders of wrought lace, embroidered edges and often a silk ribbon edge.

A very handsome black hat intended for wear with a black velveteen suit was formed from a plaque shape, bent in a most becoming manner, which lifted it on the left side in a rounding arch filled in with velvet knots and a large white and purple peony. A twist of black velvet rested around the crown, and out from under a silver buckle and bow above the arch sprang three long black plumes, one falling to the left and two to the right side. The costume consisted of three pieces, a seven gored skirt, an over-blouse, and a cut-away coat, to the latter was given a very distinctive touch by the addition of a cream-colored point lace collar and cuffs.

A very natty hat was developed for wear with a two-piece morning costume of blue and green serge. The hat was of blue felt in a broad sailor, a green velvet fold decorated the upper side of the brim, about an inch from the edge. A narrow band passed around the brim ending in a long looped bow and knot in front, back of which crossed two long black quills. Such a hat must not be worn over a broad face, as front trimmings passing from left to right are inclined to give an extra broadness to a face.

A black velvet hat that somewhat resembled the old-fashioned poke in that its front lifted and extended over the face. The under side of the brim was covered with cream shirred silk. A flat band of velvet encircled the crown and over and back of the right side fell a mass of black hackle feathers dotted with white. This hat was to be worn ith a redingote costume of black serge ith velvet vest and fur collar. The skirt also had two narrow bands of black fur three and six inches from the lower edge.

White hats promise to be extremely popular during this coming season. It is a pretty style for the woman who can wear it. One of the white hats recently seen had a sailor crown and a wide brim inclined to droop. Its decoration while rich, was extremely simple, two pet hat pin heads on each side and a bunch of black and white heckle feathers in front. This would be a very serviceable hat when there were one or two suits for which one did not wish to supply each with a separate hat.

A young woman, a recent bride, has brought a pretty matinee dress and a hat to go with it. The dress was of blue pongee. The eight gored skirt in sweep length has a sheath like adjustment at the top and a graceful flare at the foot where it measures about five yards in the medium sizes. The over-blouse is made with Japanese sleeves and surplice fronts. The former are in one with the front and back of the blouse, while the long sleeves are inserted in the foundation on which a chemisette is faced. The blouse is plain in the back and the right front laps over the left side. Persian banding outlines the edges of the Japanese sleeves, the surplice front, bottom of the skirt, and is applied on the collar, cuffs and belt. The chimisette is of cream cluny lace. The hat was in a toque shape, the crown lace covered and embroidered in silver thread. The brim was of blue, crushed velvet. On the left side fell a full aigret over three large pink roses and their foliage. The same scheme could be carried on in grey or brown with pretty effect. The wrap for wear with this costume was a brown broadcloth trimmed with brown velvet mutled with tan. The skirts of the wrap are attached to an Empire yoke of the velvet and flow gracefully about the figure, and the full Japanese sleeves are bordered with the velvet. The design of the wrap is particularly a good one for wear over a nice dress of fine soft or easily crushed material.

—Catherine Mann-Payzant.

Who Is Taking Your Rent Money?

Are you your own landlord? If you are not what have you to show for all the money you have paid out? Why not put your savings into a home? No better way of saving a pile.

CONSIDER THESE FEW: THEY ARE ONLY FOUR OF WHAT WE HAVE.

5-Room Bungalow Cottage, all modern, well built and very prettily finished. There are three lots, cleared and planted, several bearing trees, chicken house, etc. There is a loan of $700 on this property payable off at $15 per month. The owner needs the money and although he has been asking $1600, has given us one week to sell it at $1300. The $600 outside the loan must be cash

5-Room House on Carbonate Street, all modern, electric light, bath, etc., cellar and verandah. Two lots, level, splendid location Owner at the coast and wants to sell. $1250 half cash, balance easy

5-Room House close in, finest location. This is a special beauty. All modern, nicely laid out, and well built. $2600. Terms.

Double 3-room house close in, choise location. City water and sewer. These two are renting at $10 each per month. This is a splendid investment, and easy terms for handling it. $1100, terms $300 cash and balance $30 per month.

A Good Selection of Houses for all

Have You Solved It?

We have had scores in to see how we can offer 10 acres of bearing trees, in such a beautiful location, with such good transportation facilities, for only $1000, and such easy terms. All are enthusiastic over the proposition. They say "it is the most practical method of obtaining a bearing orchard I have ever seen." Come in and let us explain to you.

NELSON NEWS OF THE DAY

The meeting of the city council tomorrow night is not expected to be a protracted session.

There will be a meeting of the Nelson choral society tomorrow evening at 8 o'clock in the K.P. hall. All members are earnestly requested to attend.

The first carload lot of home brewed beer ever sent out of this city will leave early this week for Keremeos. The consignment is from the Nelson Brewing company's plant.

The matinee of the Howard company yesyesterday afternoon at the opera house drew a fair audience. Ladies and children predominated but all seemed to enjoy the "Arabian Nights" with an up to date Khalif Harun-al-Raschil (naturally Howard himself) very much indeed.

The Great Northern train got in yesterday afternoon nearly ten hours late. The engine went off the tack at Summit and a nine hours wait ensued before two other engines could be obtained to pull it on the track again. An attempt was made with one engine, but failed.

A visitor to the city was seized with an epeleptic fit yesterday afternoon at 3:30 on Baker street, opposite P. Burns and company's store. A passing doctor rendered some assistance; and the man's parents were with him. He lay on the ground surrounded by a curious crowd for a quarter of an hour and then having recovered, was taken away by his parents.

The weather yesterday was somewhat abnormal. Commencing on Friday night at about ten o'clock there was a very heavy shower of rain lasting a couple of hours, followed at 5 o'clock yesterday morning with a hail storm lasting nearly an hour and a half. After that the day broke fine and remained so, despite a threatening barometer. The thermometer varied between 37 and 53 degrees.

TEN YEARS IN NELSON

The Jewelry House of J. O. Patenaude Has a Jubilee—Progress

Ten years age on the 16th of November, the firm of J. O. Patenaude opened its doors for the business of a watchmaker and optican, with the motto "Age Quod Agis," "Anything worth doing is worth doing well."

From the very start Mr. Patenaude had more work than he could do. The quality of his workmanship soon became known and more expert help was required year by year. The jewelry manufacturing department had to be founded and on it went until today the firm has five distinct departments, each one managed by an expert and each one thoroughy equipped to do the very best work that can be done. The staff numbers ten and all know their business. Mr. Patenaude fully realizes that the greatest share of success is due to the fact that he was successful in gathering around him an intelligent and active staff of business men and mechanics.

The stock of jewelry carried by the firm is equal in quality to any in the dominion; although comparatively small it is complete and the selling prices are as low as any that can be found in Canada. The head of the firm has seen the advantage of selling at a small profit in order to control the trade that used to go to eastern firms. The great success that has attended the firm's efforts is gratifying and will be celebrated during the coming week.

All are invited.

CHURCH SERVICES TODAY

The services announced for today in the churches of Nelson are as follows:

ANGLICAN—St. Saviour's church, corner Ward and Silica Sts. Twenty-third Sunday after Trinity. Holy communion, 8 morning prayer and holy communion, 11; Sunday school, 2:30 p.m.; evensong, 7:30 p.m. Rev. F. H. Graham, rector.

CATHOLIC—Church of Mary Immaculate, corner of Ward and Mill streets. Low mass, 8 a.m.; high mass, 10:30 a.m.; evening service 7:30, Rev. Father Althoff, priest.

SALVATION ARMY—Barracks on Victoria street, west of Josephine. Special services will be held today. Knee drill, 7 a.m.; holiness meeting, 11 a.m.; praise meeting, 3 p.m.; evening meeting 8 o'clock.

BAPTIST — Stanley street, near Mill. Morning service, 11 a.m.; evening service at 7:30; Sunday school, 2:30 p.m. Rev. C. Padley in charge.

PRESBYTERIAN—St. Paul's, corner of Victoria and Kootenay streets. Morning service, 11 a.m.; Sunday school, 2:30 p.m.; evening service, 7:30 p.m. Rev. J. T. Ferguson, pastor.

METHODIST—Corner of Silica and Josephine streets. Morning service, 11 a.m.; Sunday school and pastor's bible class, 230 p.m.; evening service, 7:30. Rev. R. Newton Powell, pastor. Evening subject, "Barabbas or Christ, Which?" The sacrament of the Lord's Supper will be administered at the close of the morning service.

Provincial Press Comment...

Brandon Sun, Saturday, October 5: Last evening at the opera house the Nelson-Bruce company appeared in that highly dramatic tragedy "The Egyptian of Pompeii." The large and appreciative audience were delighted with the manner in which the piece was acted and staged. The scenery was most suitable and the costumes were characteristic of the period the play represented.

As Arbaces, Joseph de Stefani was splendid. His strong forceful character which was ever dominated by a cruel cunning, seemed to carry the audience with him. His part is made harder by the fact that his role called for all that which was hateful and diabolical. Still through it all, he controls his audience, and when at last he is killed by the eruption of Vesuvius, there is a feeling of pity rather than relief.

Arthur Cunningham, as Glaucus the rival of Arbaces, for the hand of Ione, was exceptionally good. He seemed to fit his part exactly. Tall and graceful, a typical Athenian, one could not help liking him. Yet he had strength of character equal to that of Arbaces himself and at the end stands the supreme test and scorns the offer of Arbaces of life in exchange for the love of Iona.

Miss Helene Scott, as Iona, the Neapolitan maid was chaming. She captivated the hearts of the audience immediately. Her graceful manners and winsome ways are dominated by a dignity that gives her the bearing of a queen. Her love for Glaucus does not falter for one instant, even when he is condemned of murder she still believes him innocent, and at length has her reward in seeing him triumphantly vindicated

Of the other characters, it would be a difficult matter to pick any particular star as each member of the company is equally strong in his or her part.

The play was a success from every standpoint and it is hoped that a return engagement will be booked for a very near future

Better Than a Gold Mine

A Fruit Ranch at Robson will be at its best when the gold mine is played out.

Better Than a Timber Limit

A Fruit Ranch at Robson will become more profitable every year, while the timber limits will soon disappear.

Better Than a Savings Bank

Just as solid and gives much greater returns.

Better Than Working for Wages

You receive greater returns for your labor. You are never "fired"—you are your own boss.

What Are You Doing With Your Surplus Wages?

Why not invest ten, fifteen or twenty dollars a month in a Robson lot and in a few years you will have an orchard which WILL PAY YOU A NET REVENUE OF FROM $2,000 TO $5,000 A YEAR.

There is no more delightful occupation than that of fruit growing.

NELSON, B. C.

STOCKS FOR THE WEEK

IMPROVED CONDITION OF FINANCIAL SITUATION

FIRMER PRICES PREVAIL AND MORE TRADING

(Reported by Mighton & Cavanaugh)

With the improved condition of the financial situation throughout the east, and the advance in the price of copper, mining shares throughout the west generally show a great improvement resulting in firmer prices and more active tradings. This reaction affected copper stocks more than any other securities as the rapid decline of such stocks was in a great measure due to the drop in copper, and with the slight advance in the metal, investors who were awaiting the turning point immediately came into the market.

B.C. Copper gained a few points with each day's tradings, selling from $4.25 to $4.75 on the asked market price. Dominion Copper showed but little change, holding firm about $2.12 1-2. Snowstorm and others of the better securities of the Coeur d'Alene made a slight gain with a larger demand than for some time.

Both Alberta Coal and International Coal showed a decline, selling down several cents from last week's close. Galbraith Coal remained firm, all offerings under current quotations being quickly taken. Diamond Vale Coal and Diamond Coal, and Western Oil remained weak and inactive.

Consolidated Smelters and Canadian Goldfields continued firm and almost unchanged. American and Canadian Marconi were strong and in great demand at the opening but with the report of the impossibility of utilizing this invention for some time yet a weakening was noticeable. Rambler-Cariboo, Sullivan and Tel-Kwa Mines continued inactive and unchanged.

Following are the approximate quotations for the week ending yesterday:

	Asked	Bid
Alberta Coal and Coke	$ .38	$ .36
American Marconi	35.00	27.00
B. C. Copper	4.00	...
Breckenridge-Lund	.55	...
Canadian Marconi	2.75	2.00
Consolidated Smelters	110.00	95.00
Canadian Goldfields	.5	.3
Dominion Copper	2.00	...
Diamond Vale Coal	.16	.15
Diamond Coal	.60	.45
Granby	90.00	77.00
Galbraith Coal	.28	.26
International Coal	.91	.86
North Star	.11	.8
Panhandle Smelter	.3	.2
Rambler-Cariboo	.24	.21
Royal Collieries	.25	.20
Sullivan	.7	.4
Snowstorm	1.13	1.10
Tel-Kwa Mines	.11	...
Western Oil, ordinary	1.15	.99

A GOOD LINIMENT.

When you need a good reliable liniment try Chamberlain's Pain Balm. It has no superior for sprains and swellings. A piece of flannel slightly dampened with Pain Balm is superior to a plaster for lame back or pains in the side or chest. It also relieves rheumatic pains and makes sleep and rest possible. For sale by all druggists and dealers.

WANT 8-HOUR DAY.

Moncton, N. B., Nov. 2.—Intercolonial railway machinists will ask for an eight-hour day when the schedule comes up before the railway department next April.

AT THE THEATRE

"A Western Girl" will be the opening attraction at Sherman's opera house on Monday evening, followed on Tuesday evening by the "Egyptian of Pompeii."

While this latter production is under the direction of Harold Nelson and Clifford Lane Bruce, they have spared no pains to make this new venture a success. A capable company of New York players have been chosen to fill the various roles to support Miss Helen Scott, who appears as Ione, the Neapolitan maiden. Miss Scott is too well known throughout the west to need mention, having appeared for so many seasons as leading woman of the Nelson-Bruce company. Her many friends and admirers will be pleased to welcome her after an absence of two years. Mr. Joseph de Stefani, an actor of great ability and long experience, appears in the role of Arbaces, which demands more than ordinary talent to portray. The play is a dramatization of Bulwer-Lytton's famous novel, The Last Days of Pompeii. Special scenery has been provided and the curtain descends upon the beautiful spectacle of Vesuvius in eruption.

INVEST IN ROYAL COLLIERIES COAL STOCK

IT IS A SAFE, SURE INVESTMENT.

This is the latest company organized and controlled by Messrs. A. C. Flumerfelt H. M. Galer and associates. The company control over 6000 acres situated at Lethbridge, Alberta. The property adjoins the famous Galt coal mine, which has shipped steadily for years.

The Royal ground is underlaid with a four foot seam of splendid domestic coal that mines in bright, clean blocks such as the bulk of the consumers demand in coal for household purposes. The company is already shipping in a small way from the Barnes mine, which forms part of the Royal Collieries.

At 25 Cents Per Share

The Royal Shares promise to return large profits. We believe that they are an excellent purchase, and any of our clients buying same at the above price will make handsome profits. For further information write us at once.

No Alarm Clock Needed Now---It's Joy's Blend Teas and Coffee

That are in the foreground. They are the kind that YOU like to linger over. One of our customers says that he rises half an hour earlier in the morning so that he can linger over his coffee. That is since he bought his coffee from Joys.

TRY SOME AT 40c AND 50c PER LB.

GOVERNMENT OWNERSHIP.

Toronto, Nov. 2.—The Ontario government is to undertake construction of electrical power transmission lines as soon as the municipalities concerned have passed by-laws agreeing to take various amounts of power from the hydro-electric commission.

WANT LAYMEN.

Ottawa, Nov. 2.—According to an announcement in the Canada Gazette, the Presbyterian church of Canada will apply to parliament for a change in the management of the ministers, widows and orphans funds, so that the adherents of the church may constitute the board of management and not all ministers, as heretofore.

A CRITICAL PERIOD

INTELLIGENT WOMEN PREPARE

Dangers and Pain of This Critical Period Avoided by the Use of Lydia E. Pinkham's Vegetable Compound.

How many women realize that the most critical period in a woman's existence is the change of life, and that the anxiety felt by women at this time draws near is not without reason?

If her system is in a deranged condition, or she is predisposed to apoplexy of any organ, it is at this time likely to become active and, with a host of nervous irritations, make life a burden.

At this time, also, cancers and tumors are more liable to begin their destructive work. Such warning symptoms as a sense of suffocation, hot flashes, dizziness, headache, dread of impending evil, sounds in the ears, timidity, palpitation of the heart, sparks before the eyes, irregularities, constipation, variable appetite, weakness and inquietude are promptly heeded by intelligent women who are approaching the period of life when woman's great change may be expected.

Lydia E. Pinkham's Vegetable Compound is the world's greatest remedy for women at this trying period.

Lydia E. Pinkham's Vegetable Compound invigorates and strengthens the female organism, and builds up the weakened nervous system as no other medicine can.

Madame Louis Belleau of 17 Ramsay St., Quebec, Que., writes:

Dear Mrs. Pinkham:

"Lydia E. Pinkham's Vegetable Compound assisted me to pass the change of life with but very little sickness and pain, and I am pleased to give it my endorsement, for I feel that it is the medicine which every woman should take. I am the mother of three children, and when I reached the age of fifty naturally my health was none too good, and I feel sure that if I had not taken your Vegetable Compound I should not have passed the climax safely. I took it off and on for two years and now find that I am in splendid health and strength and feel younger and better than I did ten years ago. Much praise to your medicine, and may all suffering women learn of its value."

For special advice regarding this important period, women are invited to write to Mrs. Pinkham, Lynn, Mass. She is a daughter-in-law of Lydia E. Pinkham and for twenty-five years has been advising sick women free of charge. Her advice is free and always helpful to ailing women.

Synopsis of Canadian Homestead Regulation

ANY available Dominion Lands within the Railway Belt of British Columbia may be homesteaded by any persons who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres, more or less.

Entry must be made personally at the local land office for the district in which the land is situate. Entry by proxy may, however, be made on certain conditions by the father, mother, son, daughter, brother, or sister of an intending homesteader.

The homesteader is required to perform the conditions connected therewith under one of the following plans:

1. At least six months' residence upon and cultivation of the land in each year for three years.

2. If the father (or mother, if the father is deceased) of the homesteader resides upon a farm in the vicinity of the land entered for, the requirements as to residence may be satisfied by such person residing with the father or mother.

3. If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements as to residence may be satisfied by residence upon the said land.

Six months' notice in writing should be given to the Commissioner of Dominion Lands at Ottawa of intention to apply for patent.

COAL—Coal mining rights may be leased for a period of twenty-one years at an annual rental of $1 per acre. Not more than 2560 acres shall be leased to one individual or company. A royalty at the rate of five cents per ton shall be collected on the merchantable coal mined.

W. W. CORY,
Deputy Minister of the Interior.

NELSON NEWS OF THE DAY

The classes in the public school will be resumed tomorrow morning at 9 o'clock.

Rev. Frith of Smith's Falls, Ont., is expected to arrive in the city this week to assume the pastorate of the Baptist church.

The Woman's Auxiliary of St. Saviour's church will attend their annual corporate communion at this morning's service, when the rector will preach a sermon referring to the work of the Auxiliary.

Shermans opera house will be open every evening this week, the first two nights by the Helen Scott-Stefani company and the other nights by the McAuliffe stock company. Matinees will be given on Tuesday and Saturday afternoons.

The Girl's Friendly society of St. Saviour's church will give a tea next Friday from 3 to 7 p.m. in the parish hall, to raise funds for the purchase of material to be used in their work of assisting the Children's Aid society of Vancouver, of which C. J. South is secretary.

Some excellent water colors by the well known amateur, Charles W. Young, are on view in the windows of the Poole-Longhurst company. The sketches represent local scenes, clothed in the warm beauty of the autumn tints. One picture of the mountain opposite the city with the reflected shadows in the lake, deserves special mention. The sketches should find a ready sale as they have only to be seen to be appreciated.

NELSON BRANCH

W. H. Aldridge of Trail was over here yesterday on a brief visit.

Mrs. Forin and Miss Isabel Forin have gone to Vancouver on a visit.

The ladies of St. Saviour's Guild will meet at the parish hall on Tuesday evening at 8 o'clock.

Cedar street has been opened up between Observatory and Robson and some clearing up of lots is now going on.

The funeral of Mrs. J. W. Gallup of Balfour will be conducted from the Presbyterian church, Nelson, on Monday morning at 10:30.

The regular monthly meeting of the Women's Hospital Aid will be held in the Presbyterian church tomorrow afternoon at 3 o'clock.

The local company of the R.M.R. is working hard in view of the inspection of arms and equipment which is to take place this week.

Six acres at 13-Mile were sold yesterday by Toye and company to W. Rutherford. The land is unimproved but will be immediately cleared.

Dr. Hamilton was in Nelson yesterday on his way east from Revelstoke. It is understood that this is the doctor's bachelor farewell to his old home.

Every lot in the Vancouver Addition, some 300 or more in number, which have been placed on sale here by Toye and company and in Vancouver by other agents, have been sold.

Thee is now almost a continuous sidewalk from Baker street to the reservoir on the way to the Mountain Station, the only exception being a half block missing within the city limits, between Latimer street and the lane between that thoroughfare and Hoover, on Cedar street.

What might have been a serious accident occurred on riday night at the top of Stanley street, little Charlie Riley, aged eight, having been confined to he bed ever since. He was riding in a rig when one of the reins broke and the horse ran into a telephone pole, throwing everybody out, the youngster right under the animal's feet. A hoof just grazed the breast. Dr. Rose, who was in attendance, does not fear any serious injury but thinks the boy had a narrow escape.

There was again a bumper house at the theatre last night to witness the farewell performance of the Howard company, "Hello Bill." Every seat was taken and there was only standing room left, which itself was largely taken advantage of. "Hello Bill" is a laughable extravaganza, hardly a comedy or even a farce and was hugely enjoyed by the audience. The travesty of an Englishman which appeared in one of the major roles, whose claims to his nationality appeared to subsist in a nasal accent and a reiteration of "Old Chap," divided interest with the title role, the redoubtable Bill himself. The Howard company will be welcomed back in legitimate comedy whenever they return.

The city electric lights were even worse than usual last night. They were atrociously dim and unsteady. It was stater that when the new transformers were put in place a notable improvement would take place, but the service is getting worse instead of better. The outlay per week for burned out lamps, caused by the irregular service supplied, in the Daily News premises has become a serious item of disbursement. Numerous complaints come from all over the city at the faulty service given. Nearly a year has elapsed since the lights were first turned on from the city plant and at no time has the service been a satisfactory one.

Wallace will continue his big sale in boy's clothing all this week.
