VOL. 6 NELSON, B. C., FRIDAY, NOVEMBER 1, 1907 NO. 166

RECORD SALE

Nearly Seven Thousand Acres in One Deal

SETTLERS ON ARROW LAKE

MORE INTEREST THAN EVER IS BEING TAKEN IN KOOTENAY FRUIT LANDS AND ENQUIRIES ARE MORE FREQUENT NOW THAN EVER BEFORE.

A land deal of the greatest importance was closed out locally yesterday, a deal that probably ranks as the largest turnover during what has been an exceedingly profitable season for real estate agents.

J. E. Annable of this city has had the matter in hand for some time but it was only concluded yesterday.

The acreage sold was 6,727, the largest yet recorded. The lands are all situate on the lower Arrow lakes and comprise some of the choicest locations at Deer Park, Fire Valley and Burton City.

The greater portion of the lands sold yesterday, was selected by the fortunate vendor some considerable time ago, before the Arrow Lake district became famous as a great fruit raising section of the Kootenays.

Yesterday's sale was made to eastern capitalists, represented here by Y. S. Sheppard of Lethbridge.

The purchasers propose to colonize the lands acquired with well-to-do English speaking settlers, many of whom will go on the lands early next spring.

Local real estate agents, all of whom have done remarably well this year in handling fruit lands, were of the opinion that the last of the fall would witness a quieting down of interest in Kootenay lands, but the contrary appears to be the case and enquiries from would be purchasers of large blocks, as well as from bona fide settlers, are more in evidence now than ever before. Particularly is this the case in Manitoba and the northwest provinces, many persons writing from these sections, or coming in to personally inspect the lands here.

The influx from Manitoba and what used to be the territories, at the coast, so marked at the present time as noted in a special dispatch from Vancouver, published in these columns a day or two ago, is reflected by the situation here, and doubtless other large deals will be closed before the end of the year.

COAL COMPANY FINED

HILLCREST CONCERN VIOLATED LEMIEUX ACT.

LOCKED OUT MINERS PENDING ARBITRATION.

Lethbridge, Oct. 31.—The Hillcrest Coal & Coke company has been fined $200 and costs by inspector Beleher, J. P. at Frank, for locking out some hundred or more miners while an arbitration board was still sitting for the purpose of settling the dispute between the company and the men.

The company on October 11 and 12, closed down their mine and posted a notice requesting their employees to either come to an agreement or to remain idle. This, the men claim, was a breach of the Lemieux Act and as such was illegal, and they brought proceedings and obtained this conviction, the first conviction under the Lemieux Act obtained in the west if not in the whole of Canada. W. C. Ives of Lethbridge conducted the prosecution for the men.

BRAKEMAN KILLED.

Freight Backed Into Caboose on Main Line at Lethbridge.

Lethbridge, Oct. 31.—William Fraser, brakeman, was killed in the yards here last night, dying in the hospital this morning, two hours after the accident. He was on the back of his train on the main line track when an east-bound freight backed in crashing into his caboose, cutting off both his legs and pulling his right arm off at the shoulder. Deceased was a Nova Scotian, 22 years old and unmarried.

After being out nearly three hours, the coroner's jury have found that William Fraser came to his death by a freight train backing into an unprotected caboose, standing on the main line.

MONEY IN NEW YORK.

Fifty Million Will be Paid Out Today by the Gotham Banks.

New York, Oct. 31.—Fifty million dollars will be paid out by New York banks tomorrow in taking up the issue of 4½ per cent notes issued by the Pennsylvania company, and which fall due at midnight. In order to lighten the strain which the payment of so large an amount as $50,000,000 would impose on the money markets, the banking house of Kuhn, Loeb & company has taken up, at par accrued interest, $10,000,000 of the note issue.

The Pennsylvania company now has on deposit with the banks in New York and Philadelphia funds with which to take up the $50,000,000 of notes, having recently obtained the greater part of the money from the Union Pacific in payment for the Pennsylvania holdings of Baltimore & Ohio stock. The banks have these deposits out in loans, and have had to call these loans in order to turn the proceeds over to the Pennsylvania tomorrow. These transactions, it is feared, will lead to a temporary disturbance of the money market, but the situation, it is thought, will be materially helped by hte Kuhn, Loeb transaction. This firm is also the Pennsylvania's banker, and as payments will undoubtedly be made through it the return of the money to ordinary banking channels will be expedited.

BIG STRIKE THREATENED.

Nine Thousand Cotton Operators Object to One Man's Dismissal.

Lawrence, Mass., Oct. 31.—The discharge of Fred Hardy a second hand, precipitated a strike of nearly 2,000 operators at the Arlington cotton mills yesterday and the other 7,000 hands employed threaten to join the strikers if their demands are not granted. The strikers demand the reinstatement of Hardy and the discharge of overseer John Boulton. It is asserted that the discharge of the second hand was brought about through Bolton who succeeded Hardy's father as overseer of the weaving department some months ago.

WINNIPEG'S FINANCES

MAYOR ASHDOWN'S PROPOSITION TO THE COUNCIL.

ONLY PRESSING WORK WILL BE UNDERTAKEN.

Winnipeg, Oct. 31.—The following are the recommendations submitted by mayor Asndown to the city council on the financial situation as a result of his consultation with financiers in Great Britain, which will be considered at next Monday night's council meeting:

First: That legislation be obtained at the earliest possible moment.

(A). To allow the city to issue its securities in the form of stock for such terms as may be decided on, up to 50 years.

(B.) To allow of the city accepting the surrender of debentures now in the hands of investors and exchange stock for same.

(C.) To enable the city to issue further securities to cover the amount of any discount from the face value of those sold, charging the same against the property charged with the original amount.

Second: That the city appoint a financial agent to represent it in the city of London for such period of time and on such terms or rate of remuneration as may be agreed on.

Third: That in view of the large amount of securities to be disposed of and of those outgoing, which may be said to be for absolute necessities, it be postponed till the permanent securities are disposed of.

Fourth: That no money by-laws be submitted to the people at the coming election that are not within the category of necessities and that any submitted be with a thorough understanding that the work would not be undertaken until the present indebtedness is covered and arrangements made for the money required for the new work.

Fifth: That the question of entering into a contract for the construction of the Winnipeg river power scheme be postponed until the same time and on the same conditions as to the money for that work, as just stated.

Sixth: That no purchases be made, or work undertaken, looking to a payment of the same in the securities of the city, if the doing of such would necessitate those securities being sold on the market in competition with our own offerings, as this would have a very unsettling and detrimental effect.

INSANITY PLEA.

Thaw's Defense in Second Trial for Murder of White.

New York, Oct. 31.—The announcement was made today that insanity is to be the lea in the defense of Harry Kendall Thaw, whose second trial for the murder of Stanford White will begin on December 2 next. Martin W. Littleton, chief counsel for Thaw, it is stated, has decided on this course. He is said to be convinced that Thaw is insane.

STRIKERS HOLD OUT.

Huntington, Pa., Oct. 31.—The tie-up of freight transportation on the Huntington and Broadtop railroad continues. The engineers, firemen, conductors and brakemen who struck nearly a week ago for wages equal to those paid by the Pennsylvania railway company, are determined to hold out until their demands are acceded to. All the bituminous coal mines in the Broadtop region are idle. The force of the state constabulary is being augumented, although no violence has occurred.

KNOWN IN NELSON.

St. Paul, Oct. 31.—Charles E. Hamilton was apointed as the British vice-consul here today, succeeding John W. Robinson. Mr. Hamilton at one time practiced law in Winnipeg. He was a member of the Norquay administration from 1885 to 1888, holding the portfolio of attorney-general.

LIBERAL CONVENTION.

Medicine Hat, Oct. 31.—The convention of liberals for the riding of Medicine Hat to select a candidate for the federal house will be held here on Tuesday, November 6.

IS DIFFICULT

Appointment of Sir Robert Hart's Successor

CAUSES TROUBLE IN CHINA

AGITATION HAS BEEN GROWING FOR SOME TIME AGAINST SIR ROBERT BREDON TEMPORARILY FILLING POSITION—CHINA HAS FIRST SAY.

Pekin, Oct. 31.—The British newspapers published in China have joined the campaign against sir Robert Bredon, who has been administering sir Robert Hart's office as inspector-general of the Chinese customs.

The agitation has been in progress since Hart's return from the seashore in September, when he informed the Chinese authorities that ,on account of ill health, he would be unable for some time to fully resume the work of his office. He is still convalescing.

The object of the present agitation is to force Great Britain to interfere in the situation on account of the uncertainty regarding succession to the inspector-generalship demoralizing the customs service, the personnel of which distrust all the candidates for the position which Hart created, and which exercises despotic authority over the fortunes of the customs employees.

The conviction has spread that Hart will not resume his duties as inspector-general. The English papers, in their campaign, are in no way deterred by the fact that the initiative regarding the succession belongs to China and that Great Britain is not likely to interfere while the inspector-general is a British subject.

NATIONAL CALAMITY.

Brewers Raise Price of Beer in the United States.

St. Louis, Oct. 31.—Following close on the financial panic, the people of the United States will soon be called upon to face another national calamity. The price of beer is to be raised! This action has been decided upon by the leading brewers of St. Louis and the west, and will probably be ratified at a meeting to be held here tomorrow. It is expected that similar action will be taken by the big brewing companies of Milwaukee and other cities. As a result, smaller glasses of the joy-inspiring extract of hops will be dispensed over the bars of the country, and a considerably increased expenditure will be necessary to acquire a "souse" by the beer route.

The contemplated raise is from $6 to $7 a barrel. The increased cost of hops and other materials, and the larger payrolls demanded by brewery workmen, is given as the reason for the raise. Leading brewers here state that such a raise is necessary if the brewing corporations are to receive a fair margin of profit on their investments. It is pointed out that while the price of all other necessities and luxuries of life has greatly increased within the last few years, the price of beer has remained stationary.

BOURASSA AND TURGEON

CONTEST IN BELLECHASSE IS A VERY HOT ONE.

LIBERAL VICTORY REGARDED AS PROBABLE.

(Special to The Daily News)

Ottawa, Oct. 31.—A telegram has been received from speaker Sutherland that he has received the resignation of Henri Bourassa, the dominion member for Labelle, who, on Tuesday, was placed in nomination in Bellechasse for the local legislature in opposition to Turgeon. It is probable that Bourassa has resigned to two members, as provided by law, if not he is not eligible to be a candidate in Bellechasse.

Reports from Bellechasse are that the contest there is a very warm one. Mr. Turgeon is being supported by premier Gouin and many less prominent speakers, while Mr. Bourassa's chief supporter is N. K. Laflamme, the Montreal lawyer, who defended Mr. Asselin in the Nationaliste libel suit which was the cause of Mr. Turgeon's resignation.

Mr. Turgeon was elected by acclamation in 1904 and 1900. In 1907 he had a majority of 434. In the dominion elections of 1904 O. E. Talbot, liberal, carried the county by 862. Mr. Turgeon's election by a considerable majority is regarded as the probable outcome of the present contest.

AN INDIAN "BATTLE."

Washington, Oct. 31.—In a battle betwe nethe United States troops and Indians, which occurred in southern Utah, several days ago, three persons were killed and another wounded, all are believed to have been Indians. The news of the occurrence as conveyed to the Indian bureau in a telegram from superintendent Shelton of the San Juan agency, which, though dated yesterday, was not received until today.

LAST CHANCE.

Owing to yesterday being a public holiday the city clerk announces that he will accept declarations from householders for registration purposes until 5 p. m. today. Any man or woman entitled to be on the city voters' list and who has not yet registered, should do so today without fail.

POPULATION GROWING.

Winnipeg, Oct. 31.—The population of Saskatchewan has increased 70,000 during the past year. The homestead entries totalled 20,401. The total population is now estimated at 325,000.

HIGH DISCOUNT RATE.

London, Oct. 31.—The rate of discount of the Bank of England was raised today from 4½ to 5½ per cent.

ATTENDANCE AT SCHOOL

RETURNS FOR THE MONTH JUST COMPLETED.

NO LIST OF THOSE ATTENDING REGULARLY.

Owing to the fact that the public school was closed for a fortnight during last month no list of pupils regularly attending in October has been made out.

Appended will be found the figures for the ten divisions in the public school, giving in each case the number enrolled, the actual average attendance, and the percentage.

	Enrol.	Att.	P. C.
Division I	28	26.71	95.39
Division II	30	28.14	94.52
Division III	39	36.71	94.14
Division IV	42	38 67	92.71
Division V	50	47.71	95.42
Division VI	40	37.39	93.47
Division VII	38	33.50	88 15
Division VIII	53	47.93	90.43
Division IX	34	30.92	90.96
Division X	50	42.42	84.85
Total	404	370.19	91.60

The figures for the High School and the Hume School were published yesterday.

OVER HUNDRED MILLION

CANADA'S REVENUES CONTINUE TO GO UPWARDS.

ALL RECEIPTS SHOW A STEADY INCREASE.

(Special to The Daily News)

Ottawa, Oct. 31.—Canada's revenues continue to go upward.

The customs receipts of the dominion for the current month are more than a quarter of a million greater than for October of last year. For the seven months of the current year the increase is over six millions and a half.

The receipts for October were $4,930,031, an increase of $273,590 and for the seven months the receipts were $36,342,766, an increase of $6,690,790.

Al lrevenue from all sources for the year will be over the hundred million mark.

TRIPLE MURDER CASE.

The Three Remains Brought to Lethbridge—Inquest Tomorrow.

Lethbridge, Oct. 31.—The dead bodies of three Indians, a man, his wife and a boy, were found on Sunday by some children, in the neighborhood of Fvemile lake. The children thought that the Indians were drunk and did not go near them. Yesterday the children told a boy named Taylor of their adventure, who informed his father, who went to the spot and found the dead Indians. After seeing for himself, Mr. Taylor went to Raymond and telephoned the mounted police at Lethbridge. Coroner Rivers of Raymond was sent to the scene and found the bodies covered with a cloth. There was every indication of murder, the man's head being blown off as with a shot gun. All of the bodies bore marks of violence. An inquest was ordered for Saturday. Superintendent Wilson of the Royal Northwest Mounted Police, says it is certainly a case of murder, but, further than that, he will not say anything. An Indian who was camping near the murdered family on Saturday, is suspected of the crime.

PORT ARTHUR DISASTER.

Port Arthur, Oct. 31.—A coroner's inquest was held into the cause of the collapse of the warehouse belonging to mayor Clavet, which resulted in one death and injury to several other workmen. The jury was called at the instance of crown attorney Langwith. After the jury was sworn in, with Robert Shofford as foreman, they viewed the remains of the deceased, also the wrecked building and then adjourned for another week. A searching enquiry will be prosecuted.

GRAND TRUNK

Great Strides Taken by New Transcontinental

CREATING A CIVILIZATION

DIRECT AND LEVEL ROUTE IS BEING MADE AT GREAT EXPENSE FROM ONE SIDE OF THE DOMINION OF CANADA UNTO THE OTHER.

(Special to The Daily News)

Winnipeg, Oct. 31.—The vastness of the Grand Trunk Pacific railroad undertaking is not fully realized by the general public. Already some 300 miles of the new transcontinental is completed and will shortly be in operation. Millions of dollars have already been expended upon the projects and millions more will have to be spent before the line is completed and in operation from coast to coast. East of Winnipeg alone, on the J. D. McArthur contract, which connects this city with the great lakes the wages amount to some $16,000 per day and a small army of sub-contractors are employed on the work.

It is the intention of the officials of the company to have the section between lake Superior and Edmonton, Alberta, in operation in time to assist in moving out the crop of 1908 and the work is being rushed for this purpose. Hidden back in stretches of country where people never travel, unless they have some particular business, graders and surveyors are working on the new transcontinental railroad system. A trapper in quest of furs come across a surveyor's camp hundreds of miles from civilization and he begins to realize how his favorite fur bearing districts are being brought into the pale of civilization and the Royal Northwest Mounted Police realize that their work will be less with the opening up of the country.

The line now under construction is pronounced by experts to be the finest piece of railroad ever built on the American continent. Mountains are being tunnelled, muskags filled and dozens of huge rivers bridged to make the shortest and most level route possible across the dominion. The reason for this is that the heavy initial expense will be counter balanced by the cheaper operating expenses by reason of the low grades and level roadway. At the present time some 2500 miles of the line is under contract and the company is prepared to let another contract west of Edmonton to the Rock mountains.

At Prince Rupert, the Pacific coast terminus, a large gang of men are at work on the terminals but so far nothing definite has been announced regarding the building of the line in British Columbia, where the greatest difficulties of the whole undertaking will be encountered owing to the wild and inaccessible nature of the country through which the line will travel. Fleets of steamers will be built by the company on each coast and branch lines will run to all the principle towns in the dominion, making a system with some 4000 miles of track. Subsidary companies have already been formed to build telegraph lines, elevators and hotels from one end of the railroad to the other, equalling, if not surpassing any railroad system in America.

CONDUCTOR ARRESTED

RESUUT OF C. P. R. WRECK AT REGINA.

INJURED ARE DOING WELL AND WILL RECOVER.

Winnipeg, Oct. 31.—A warrant was issued today for conductor W. Alexander of the wrecked passenger train, charging him with unlawfully causing the death of Brett, the fireman killed in the wreck. Alexander was brought before magistrate Trant at Regina but allowed to go free on bail, conductors Prosser and Shand going security in $2500 each and Alexander himself in $5000, or $10,000 in all. The case was then enlarged until Thursday, November 7. No warrant has so far been taken out for any other members of the crews.

Enquiries at the hospital at Regina elicited the fact that both enginer Hinchley and mail clerk Emsley, are doing well.

An inquest on the two victims of the wreck opened this afternoon at Regina. Norman McKenzie has been retained to watch the interests of conductor Alexander.

The engineer of the passenger train has been with the company for the past twenty years and was recognized as one of the most trustworth of the employees on the western lines. Conductor Alexander is in the tenth year of his service and is equally well known and trusted. Seaborn Emsley, the mail clerk resides in Winnipeg at 364 Broadway. His two brothers, Joseph and Walter Emsley are residents of Calgary.

An employee of the postoffice department was sent west last night to see that everything possible was done to make him comfortable. Dr. Leech, a personal friend from Brandon is in attendance on him with the local doctors. He is 24 years of age and has been in the service for the past three years.

Nelson J. Robinson, resided with his family, a wife and two children at 339 Redwood avenue. H was 29 years of age and came from Toronto with his parents about four years ago. His brother, W. J. Robinson, is in the grocery business in Toronto. He was a member of the congregation of the Macdougall Memorial Metnodist church and during his residence in the city he surrounded himself with a large circle of friends.

Edmund Brett, who was killed in the train wreck , was born in England and has been in Canada nearly four years. He had worked as a fireman on the C. P. R. ever since coming from England. For a time he ran out of Winnipeg, but went to Moosejaw about three years ago. Engineer Hinchley, who was scalded and cut seriously, some years ago ran out of Ignace. He is one of the oldest men on the road. Of the injured A. L. S. Emsley is a son of the Rev. W. H Emsley, formerly of Brandon, but now of Napanee, Ont. The mail clerk is injured the worst. He has some bad cuts about the head and his back is badly scalded. The engineer, George Hinchley, is badly cut about the head. He also has some bad bruises on the legs and arms but the doctors think he will recover.

SAVED THE CHILDREN

HEROIC CONDUCT OF PRINCIPAL OF SCHOOL.

HEADED OFF RUNAWAY TEAM JUST IN TIME.

Saskatoon, Oct. 31.—A serious accident was narrowly avoided here today by the heroic conduct and great presence of mind of principal Irvine of the King Edward school. As the children from this school, some three or four hundred in number, were about to cross the railway track on Twenty-third street on their way to participate in the opening ceremonies of the Alexandra school in Saskatoon, a team of runaway horses was noticed heading at breakneck speed straight in the direction of the group of school children. Mr. Irvine at once seized a large Union Jack, which one of the pupils was carrying, and pushing his way toward the horses, vigorously waved it before the animals with such good effect that they swerved around and headed in another direction. The horses had almost reached the children and had it not been for the prompt action of the principal there is not the least doubt but that there would have been a dozen or more seriously and perhaps fatally injured, if not killed outright.

GRUESOME STORY.

Italian Digs up Body of Sweetheart and Keeps it in His Rooms.

Naples, Oct. 31.—A particularly gruesome story has come to light in this city. Eliza Saolisi, a beautiful young woman, was engaged to be married to a young man named Alessandro, but she died a few days before the date set for the ceremony and was buried in a local cemetery. Alessandro was heart broken over his bereavement and one night he dug up the body and carried it to his lodgings. He embalmed the corpse of the young woman, dressed it in its bridal clothes and kept it in his rooms for a fortnight. Neighbors finally grew curious from the fact that the young man never went abroad, and peeping one day through his shuttered window, they saw Alessandro seated alongside the dead body of the woman who was to have been his wife, affectionately holding her hand. The police were informed and Alessandro was arrested. The body has been buried a second time.

NO FURTHER DETAILS.

Russia Declines to Send Relief Expedition to Stricken Town.

St. Petersburg, Oct. 31.—The Russian government is taking no steps to send a relief expedition to Karatagh. To do so would be contrary to the Russian policy of non-interference in the internal affairs of Bokhara and would involve a journey of over five hundred miles through mountains from the nearest Russian point. It is not known here what steps the Bokharan government is taking to send relief but it would appear to be acting with the usual and characteristic Asiatic fatalism and procrastination. Newspaper correspondents at Samarakend, Tashkend, Bokhara and Kokand have not been yet able to supply further details of the disaster.

MORAL REFORM.

Important Interdenominal Conference at Toronto.

Toronto, Oct. 31.—An important interdenominational conference on moral reform took place this afternoon in St. James Square church when thirty ministers and laymen agreed upon concerted action in several directions along lines of social and moral movements.

The churches represented were the Anglican, Baptist, Methodist and Presbyterian. Rev. Mr. Silcox was to represent the Congregationalists but was detained at another meeting. The subject of church operation in general for social and moral reform was considered at length and a motion was unanimously carried appointing a committee with Rev. Dr. W. G. Sherer as convener, an assisting chairman and secretary and two other representatives of the moral refom committee.

WAS STARVED

Death of a Half Breed Woman in Winnipeg

TERRIBLY DESTITUTE HOME

HORRIBLE CASE OF A NEGLECTED FAMILY JUST BROUGHT TO LIGHT IN THE HEART OF THE FLOURISHING CAPITAL OF MANITOBA.

Winnipeg, Oct. 31.—Mrs. Pringle, a half breed woman, was found dead in a room at the corner of Rupert and Main streets today. The furniture of the room consisted of two beds and a small table. There was no stove in the room, no lamp and no chairs. Beyond the light of the garish street, the Pringle family had sat nightly in darkness. Apparently the only heat enjoyed by them was that which penetrated the walls from adjoining tenements. And in this hovel the woman had lain for weeks, slowly dying of consumption.

Two little children and a husband had shared the mean room with the woman, the little girl, three years of age and a boy nine or ten. Another child between fifteen and sixteen had left the family circle and his whereabouts is unknown. When coroner Inglis visited the scene, he found that the woman had been dead some hours. In fact rigor mortis had set in. In the way of food, the room contained a couple of crusts. The doctor said the children believed their mother was asleep and had gone in and out, as was their wont, without trying to wake her.

The father of the family is apparently one of life's failures. He has had intermittent employment and intermittent drinking bouts, principally the latter. It is stated that when he returned home and found that his wife's body had been removed, he started off on a round of the undertakers and found it. Both the mother and the children were in an emaciated condition. The nurses of the Margaret Scott home and the officers of the Salvation Army have given the family occasional attention. It was a nurse of the Margaret Scott home who discovered the death when visiting the family. Officers of the Salvation Army have, from time to time, cleaned up the room and supplied food and clothing. They found that the complete wardrobe of the little girl was one ragged dress and they brought the child some more apparel.

LATEST GIGANTIC GUNS

MADE BY ARMSTRONGS FOR THE BRAZILIAN NAVY.

MARK A NOTABLE ADVANCE IN ARMAMENT.

London, Oct. 31.—It was rumored here recently that the new British battle ships of the Dreadnought type were to have 13.5 inch instead of 12 inch guns. It was known that such guns were being constructed. It now appears however, that they are for the two Brazilian battle ships, the orderr for which have been placed with the Armstrongs. These gigantic guns mark a notable step in naval construction and armament. They will be mounted on special barbettes and so arranged that they will be able to concentrate their fire on either broadside. It is declared that the piercing power of the shells thrown by these great guns will be greater than that of any other gun now in use.

GREEK CHURCH BURNED.

Handsome Alberta Edifice and Costly Contents Destroyed.

Edmonton, Oct. 31.—The handsome edifice of the Orthodox Greek church at Wostok was burned to the ground at 9 o'clock yesterday morning. The origin of the fire is unknown. The loss is $10,000 and insurance $3,000 on building. The entire furnishings of the church were destroyed, being estimated worth at least $4,000 Three was no insurance on the furnishings which included costly altar appointments, four silver and gold sacrament goblet, priest's vestments, a dozen costly oil paintings recently purchased in Russia and three bells costing over $250, besides pews and their appointments The building was the first to be erected in Canada by the Orthodox Greek church. It was built nine years ago.

WHYTE COMES WEST.

Winnipeg, Oct. 31.—Second vice-president William Whyte of the C. P. R., left last night for Calgary and Edmonton on a trip of inspection, also in connection with various other matters of the business of the road He will be absent about a week.

HARVEY GRAHAM DEAD.

Halifax, N. S., Oct. 31.—Harvey Graham, assistant general manager and a director of the Nova Scotia Steel & Coal company, died this morning He leaves four children, and two sisters and two brothers.

A MINISTER OF LABOR.

The high estimation in which the work of the labor department created by the Laurier government in 1900, is held by those whose interests it was established is made manifest by resolutions adopted at the twenty-third annual convention of the Trades and Labor Congress of Canada, held at Winnipeg recently, and by the National Trades and Labor Congress of Canada at their fifth annual meeting held at Glace Bay, N. S. It was the general opinion of both congresses that a separate portfolio for the minister of labor should be established and this opinion was set forth in concrete form in the following two resolutions, the first by the Dominion Trades and Labor Congress, the second by the National Trades and Labor Congress of Canada:

"That this congress records its appreciation of the valuable services rendered to the workingmen of Canada by the dominion department of labor since the establishment of the department in 1900. The congress believes that the continuous growth and expansion in the department's work during the seven years of its existence is an evidence of the increasing importance of this branch of the administration. Whilst recognizing the able manner in which the present minister of labor and his predecessors have discharged the duties of their office as ministers of the department, the congress believes that the scope of the department's work and its efficiency and usefulness would be greatly increased were a minister of labor appointed who could give undivided attention to the work of the department. In the interests of the country as a whole, no less than to its working classes, this congress would recommend that the dominion government add to the present portfolios that of a minister of labor, who shall be assigned control of the department of labor as a separate and distinct branch of the administration."

"That the government be urged to separate the department of labor from the postoffice department. This has become necessary in the opinion of this congress owing to the great increase of business in the department of labor, and, further, a minister of labor, acting solely in that capacity would be in a better position to give greater attention to the demands of the workmen."

A WELL-KNOWN MAN.

Minard's Liniment Co., Limited.

Dear Sirs,—I can recommend your Minard's Liniment for Rheumatism and Sprains, as I have used it for both with excellent results.

Yours truly,
T. B. LAVERS,
ST. JOHN.

EDITORIAL NOTES.

Prince Rupert Empire: The Nelson Daily News was fighting for its life when the Canadian Pacific arbitrarily cut off its Associated Press dispatches, yet it did not get much sympathy from newspapers that pretend to be conservative. The reason will not be understood by readers of conservative newspapers, but it will be understood by every newspaperman in Canada. The Canadian Pacific stands behind the leaders of of the conservative party, and no conservative newspaper—unless it is one whose owner is wholly independent of the C. P. R.—dares utter a word in criticism of the Canadian Pacific at any time or under any circumstances. Yet men are proud of being loyal to the conservative party and its leaders!

TWO SLOCAN STRIKES.

Rich Ore on Highland Light and on the Ottawa—Personals.

(Special to The Daily News)

Slocan, Oct. 31.—Messrs. Swan and Clough have made a strike of good ore on their property, the Highland Light, at Eight-mile. Three men are at work on the claim.

It is also reported that the Ottawa company have made a good strike in the long tunnel which they are driving on their ledge.

James Rae, freighter and packer, has just returned from Oregon, where he purchased four fine horses to add to his stable here.

Mrs. H. J. Robertson of Vancouver, visited friends in Slocan this week.

Mrs. McAllister and Miss Hope of Cody, are visiting Mrs. Joseph Law here.

EMPLOY WHITE LABOR ONLY.

When at Edmonton recently "Jack" Stewart, of the railway building firm of Foley Brothers, Larson and Co., stated, and he wanted it understood, that his firm would follow their invariable practice of engaging white labor exclusively on any contract the firm got from the Grand Trunk Pacific railway. His firm is the only one that has a grading contract on the G.T.P. in British Columbia and they have 200 to 300 men at work near the mouth of Copper river, 100 miles east of Prince Rupert and 70 miles up Skeena river from Fort Essington.—Prince Rupert Empire.

LAST DAY TO REGISTER

CITY VOTERS' LIST WILL CLOSE TODAY.

LAST CHANCE TO REGISTER FOR HOUSEHOLDERS.

Owing to yesterday, the last day in October, being a public holiday, the city clerk announces that he will receive declarations from householders and others for the purpose of registering and getting upon the civic voters list, until 5 p. m. today, when the list will positively close.

The following are entitled to have their names inserted on the voters' list for the city for the year 1908.

Any British subject, male or female of the full age of 21 years, being,

1. An owner of real estate of the assessed value of not less than $100.

2. A resident authorized representative of an incorporated company which is the assessed owner of land or of improvements of lands within the municipality.

3. The owner of a trade license the annual fee of which is not less than $5.

4. A householder, "Householder" shall mean and include any person of full age of twenty-one years who occupies a dwelling, tenement, hotel or boarding house, or any part or portion of a dwelling, tenement, hotel or boarding house and who shall, unless exempt by statute of municipal by-law, have paid directly to the municipality rates, taxes or fees of not less than two dollars for the current year.

The names of property owners, as above, will be taken from the assessment roll and inserted on the list.

Representatives of incorporated companies must hand in their authority to the city clerk before their names can be inserted.

License holders and householders must make the statutory declaration during the month of October, and hand the same to the city clerk within 48 hours after it is made. All declarations must be handed in by 5 p.m. on Friday, November 1, today.

Forms of declaration can be obtained at the city clerk's office until 5 p.m. today.

HOW TO CURE A COLD.

The question of how to cure a cold without unnecessary loss of time is one in which we are all more or less interested, for the quicker a cold is gotten rid of the less danger of pneumonia and other serious diseases. Mr. B. W. L. Hall, of Waverly, Va., has used Chamberlain's Cough Remedy for years and says: "I firmly believe in Chamberlain's Cough Remedy to be absolutely the best preparation on the market for colds. I have recommended it to my friends and they all agree with me." For sale by all druggists and dealers.

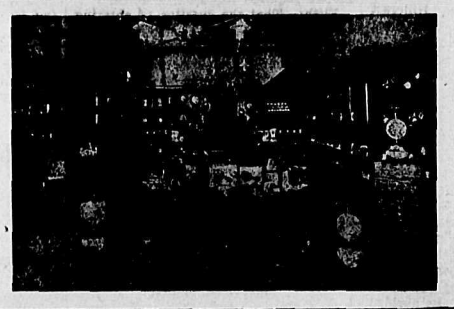
THE STORE WHERE WISE BUYERS PURCHASE CHRISTMAS GIFTS

YOU!

Will want to procure some small gift to send to your relatives and friends at a distance. Do not leave it too long. Come now while we can give you our best attention.



NOW!

Is the time to inspect the splendid stock we have provided for the holiday trade. You will not be crowded or hurried, and you will be able to make a better choice.

It is our intention during November to offer special inducements in holiday goods to early buyers, thereby lessening the pressure of the usual December rush. Each week we will tell you of the lines we are offering at greatly reduced prices, and if you study your own convenience and pocket-book you cannot afford to miss our daily announcements. Read, heed, and you will have sufficient left after your gift purchases to eat, drink and be merry.

Some New Lines for Holiday Trade

Silverware

Breakfast Cruets, something entirely new, consisting of Pepper, salt and Mustard Holders on Silver Stand, with Silver Handle, from $2.50 to $5

Sugar and Creams, quadruple plate, new and dainty designs, $5 a Set

METALLURGY OF ZINC

THE IMPROVED USE OF MAGNETIC SEPARATORS.

RAISING GRADE OF UNROASTED ZINC ORE.

(The Mining Reporter.)

I have been asked to tell you something of the efforts we have been making to improve the metallurgy of zinc. As some of you know, we are responsible for the design and development of the high intensity magnetic separators which are now operating on a large basis at Leadville, Colo., and at Valardena and Santa Barbara in Mexico, raising the grade of unroasted zinc ore.

It was while confronted by the difficulties of this seperation that it occurred to us to strike directly at the root of the principal troubles of zinc reduction (the clay retort) and attempt to put the extraction of zinc on the basis of large stock furnaces. Iron-copper-lead are smelted in bulk in single furnaces, putting through from 200 to 500 tons in each 24 hours. The reason why zinc ore cannot be smelted in an iron or lead blast furnace is well known—the oxygen of the blast burns the reduced zinc back to oxide as fast as it is formed. In such furnaces the object, and the only object, of the blast, is to furnish heat by burning the coke in the charge. If this heat be put into the stack by means of an electric current, as it is put into the filament of an incandescent light, the blast is not required and zinc as reduced will remain metal and may be condensed and removed.

Without going into the technical details of this electric stack method, I may say that these furnaces look substantially like an ordinary lead or copper water-jacketed furnace, but are provided with electrodes for carrying in electricity ,in place of the tuyeres for carrying in a blast. The ore is fed in at the top and is entirely melted down, the residues being tapped as slag. The zinc condenses on the inside of the walls as spelter and runs down and is drained off. No blast is used, all the heat being put in with electric current.

This solution, simple as it is, required an unexpected length of time to put into practical operation apparatus, but has now reached a form where we are warranted in considering what it means commercially to the mine owner. It is an economic truth that in the long run improvements in process accrue to the benefit of the owners of raw material. Excessive smelting profits soon attract new capital, which reduces the net return to a normal interest basis. But no amount of investment can increase the grade of mineral in a deposit. To render the lower grade available for shipment a reduction must be made in the total cost of extracting and delivering the contained metal to the consumer.

For the purpose of arriving at definite figures, we can consider the result of two plants, each of 25,000 tons annual capacity, operating under equivalent traffic conditions, in the Illinois coal field, one using retorts and the other an electric stack furnace. Incidentally it may be remarked that single electric zinc furnaces of 50,000 tons annual capacity now appear practical.

The first cost of the present type of retort plant, including land, buildings and machinery but excluding working capital, will be some $400,000. The equivalent first cost of the electric stack plant, including steam-driven electric generating machinery, will be substantially the same. Of this, $160,000 is the cost of the stack plant and $240,000 the cost of the electric generating plant. Where current can be purchased from an existing power plant the total cost of the electric stack plant is considerably less than half the cost of a retort plant.

General operating cost items for salaries, interest and depreciation are substantially the same for the retort plant and the electric stack furnace.

The operating cost item of labor in a modern retort plant burning coal with mechanical roasters may be taken at $1 per ton of raw ore. The labor in a stack plant may be kept well under $3 per ton. While this result might naturally be expected from using one compact vertical iron-jacketed furnace in place of 2,000 horizontal clay retorts, it also depends on items not so obvious. The area of the stack plant is much smaller and distances over which material has to be handled are less and the continuous treatment admits the introduction of ore-handling machinery. With

NELSON DAILY NEWS

Nelson, British Columbia

Baker Street. Phone 144

the electric stack furnace the sulphur does not have to be roasted as low as with retorts; 6 per cent of sulphur in the electric stack furnace will give as good an extraction or zinc as 1 per cent sulphur with retort furnace. This practically doubles the duty per square foot of hearth area of the roasters. The weight of the stack slag is less than one-half the weight of the retort residues and less than one-quarter of the bulk. The results of operating the electric stack furnace are to a large extent independent of the skill of the furnace men, being determined, as in lead and copper smelting, by the metallurgist. This renders the electric stack plant, when starting up or in the event of labor troubles, much less dependent on a supply of specially skilled employees.

Considering fuel, it may be taken that a regenerative retort plant will burn 4,200 pounds of coal per ton of raw ore. Of this 600 pounds will be used in roasting. With the electric stack furnace it takes 1,200 horse-power hours of electricity per ton of raw ore, or 50 horse-power per day of 24 hours. The Fisk Street station of the Chicago Edison company is delivering one horse-power for one hour in electricity at the switchboard with the consumption of less than 1½ pounds of medium grade coal. This amounts to 1,800 pounds of coal per ton of zinc ore and is practically constant whether the ore is high or low in zinc. So, aside from roasting the electric stack plant uses one-half the coal that a retort plant uses. Its roasting for stack smelting takes less than one-half the coal that roasting for retort work requires, the total coal consumption of the electric stack plant is not more than one-half that of the retort plant. The saving is substantially one ton of coal per ton of ore, amounting to 75 cents.

With the retort plant 800 pounds of reduction material will be used per ton of raw ore; with the electric stack plant 200 pounds, assuming in each case a furnace charge carrying 55 per cent of zinc. With normal prices this saving amounts to 55 cents per ton of raw ore.

With the electric stack plant there are no clay retorts and all cost items incident to their manufacture are absent. The items involved in the supply of new retorts amounts to 40 cents per ton of raw ore. With a stack plant, however, an item of expense is present which is absent in a retort plant. To smelt 25,000 tons of ore will require 100 tons of electrodes, costing $50 per ton delivered, which is equivalent to 20 cents per ton of raw ore.

Repairs and renewals on iron work and machinery will be substantially the same in each plant.

Summing up these differences of operating costs it appears that the electric stack plant costs $2.50 less per ton of raw ore to operate than the retort plant.

When we consider the results of operation, the electric stack plant produces results of equal interest. With reference alone to the zinc tenor of the ore, the lower the grade of the ore the more slag produced, and the higher the grade of the ore the higher zinc percentage will the slag contain. Within practical working limits, changes in these items substantially counterbalance each other. In other words, the amount of zinc lost per ton of ore is a fixed amount, independent of the grade of the ore, and is less than 60 pounds per ton of ore. With a retort plant it is also substantially independent of the grade of the ore and with good work may be 150 pounds. The increased recovery due to the stack plant, with zinc at 4 cents, will have a value of $4.00 per ton of ore.

With the electric stack plant, iron in the zinc ore improves the operation of the stack furnace. Up to a point where the percentage of iron equals one-half of the percentage of silica, iron is required in the stack furnace charge and has to be added if absent. With an ore running 50 per cent in zinc ,and no lime, this means that an electric stack furnace requires an iron contents of 8 per cent. The higher iron limit with the stack furnace, as compared with the retort furnace, will in some properties render it possible to cut out magnetic separation and in any event renders rougher concentration practicable.

With the electric stack furnace, any lead in the ore is reduced and saved separately, at the same time as the zinc. This makes it practicable to do rougher concentrating work and let the lead go in with the zinc, taking out only the gangue. With zinc concentrates containing 3 per cent of lead, 50 pounds per ton of raw ore, or 2½ per cent, will be saved in electric stack smelting and lost in retort smelting. At 4 cents per pound, this is an item of $2.00. In addition, the lead penalty will be saved to the owner of the ore.

Lime is required in the charge in an electric stack furnace and is permissible in the roasting, as low sulphur is not required. With limey ore this saves the penalty to the mine owner. It also makes a saving of zinc, as with no lime penalty, close work is not so imperative, and less zinc is lost in the mill tailings. These items may reach $1.50 per ton.

Summing up these savings of metals in the electric stack plant over the results of a retort plant, makes a total of $7.50 per ton of shipping ore. This, taken together with the reduction of operating expenses, makes a net difference between the retort plant and the eletcric stack plant of $10.00 per ton of ore. This is the direct result of using electricity for heat in place of coal, and involves no other important changes in the present metallurgy of zinc. This $10.00 does not include the present smelting profit, but is in addition to and independent of the profit which the zinc smelter now makes. In other words, a smelter using electric stack furnaces can afford to pay the mine owner $10.00 more for each ton of zinc ore than can a zinc smelter using retort furnaces.—Frederick T. Snyder.

PHIL. BOSBY, Agent.

NELSON NEWS OF THE DAY

Born in this city on October 30th, to the wife of Fred Stephenson of Silica street, a son.

The offering for the Children's Aid society of Vancouver, at St. Paul's Presbyterian church yesterday amounted to $20.

Today being All Saints Day there will be a celebration of holy communion this morning in St. Saviour's church at 10.30 o'clock.

The new sidewalk which has recently been put in between Baker and Vernon streets on the east side of Hendryx, coming out almost facing the rink is supplying a long felt want.

There are a great number of new improvements which have been put through in Fairview during the past summer, as a walk through that suburb of Nelson will show to the observer.

Householders and license holders can register today at the city hall up to 5 o'clock p.m. This is the last opportunity to get on the voters' list to be used in the municipal elections next January for mayor, aldermen and school trustees. Every man or woman entitled to be on the list, who has not already registered, should register today before 5 p.m., when the list will positively close.

For a few days more the Canada Drug and Book company will continue their discount sale of beautiful, artistic china and glassware. These fine class goods are being offered practically at cost, and the goods and the prices have to be seen to be appreciated. Any bargain hunter who views this stock will not leave the store without purchasing. The space occupied by this china and glassware is pressingly needed for the company's large stock of holiday goods and for that reason discounts of 30, 25 and 15 per cent will be given. The china includes beautifully artistic patterns in Haviland, Limoges, Royal Doulton, Royal Crown Derby, Colport, Wadgewood and Belique. The lines offered as great bargains range from full dinner sets to odd pieces of all sorts, plates, jugs, individual cups, etc.

Extraordinary Shooting

The three Targets shown above were made this spring at The Dominion Gallery, Hamilton, Ont., by Mr. George Beattie, whose portrait is shown.

Mr. Beattie used Dominion 22 short Cartridges, made by the Dominion Cartridge Co, Ltd., Montreal, and placed six shots in each target.

Range 40 feet—Every shot inside ¼ inch circle. 18-07

UNITED WIN THE GAME

THANKSGIVING FOOTBALL MATCH ON RECREATION GROUNDS.

SILVER KING MEN DEFEATED BY SCORE OF THREE TO ONE.

The first football game of the Nelson United showed that new team to be a strong one. A few of the older hands went down to scoff but confessed before the game was through that there was some good football shown. Of course, with so new a team, playing against another team every whit as new, there was much faulty work. The kicking was often wild, the passing was anything but unexceptionable, a few players played too ladylike a game and there were several points on which a football coach would find plenty of room for animadversion. The stronger aggregation was that of the Nelson United, who played, generally speaking, a much better tactical game than their opponents, the men of the Silver King. Still the back of the Kings, Ledingham, and the goal keeper of that eleven are hard to beat. The Nelson United won by a score of three goals to one, but would have won by a greater number had it not been for the strength of the defence of the Kings, principally maintained by the men named.

The game was cleanly played. There were one or two trips which were promptly penalized by the referee, and one man, Warren, of the Nelson United, had his collar bone broken and had to retire in the second half of the game. Still the injury came from quite accidental causes and it was a fluke that Warren was injured at all. Indeed it seemed to the spectators that his tackle, who went over and then turned a somersault on his bald head, to the amusement of the grand stand, had the worst of the encounter. This, however, was not the case and for one-third of the time the Nelson United played one man short. It was during that time that the Kings made their only point in a rush in goal, Watterson scoring.

The game began sharply on 3 o'clock with only a sparse attendance in the grand stand. From the very first the game went wholly in favor of the Nelson United who kept the ball in the enemy's ground for nearly the whole of the time. A goal was scored by Brown for the United early in the first half and not very long afterwards another goal was obtained which the referee, W. Mathews, ruled off side. There followed a strong attack upon the Kings goal but lack of decent passing, wild kicking and bad shooting were not equal to the defence put up by the King goal keeper and the back Ledingham. The United failed to score again during the first half and when half time was called the score stood one to love in their favor.

After changing ends the game was still in the ground of the Kings and after some ten minutes play Cameron scored a second goal for United, the goal keeper slipping on the clayey ground, worn bare of grass near the goal posts. Then the accident to Warren happened and the play was a little more even, Daniels doing good work for the Kings. By and by, with a rush and a scrimmage in goal the Kings forced the pigskin through and there seemed to be a chance of evening up the score with yet ten minutes to play. But the determined work of Hopkins, of McKenna, of Harper and others kept the Kings at bay nearly the whole of the time, till finally, within a few minutes of the calling of time the United's centre forward, Waters, had an easy opportunity and just kicked out of reach of the active King goal keeper who sprawled at full length in his attempt to stop the ball. Score three to one in favor of the new team.

Social Tragedy

Women Who Brave Death for Social Honors.

In the midst of one of the most brilliant social functions of the season, a noted society woman started suddenly from her chair with a scream of agony and fell insensible to the floor.

A few hours later the distinguished physician told her anxious husband that she was suffering from an acute case of nervous prostration brought on by female trouble, and hinted at an operation. Fortunately a friend advised her to try

Lydia E. Pinkham's Vegetable Compound

The result was that she escaped the surgeon's knife and to-day is a well woman.

The derangement of the delicate female organism sets every nerve in the body quivering with pain. Headaches, backaches, torturing bearing down pains and dragging sensations make women nervous and hysterical.

Mrs. T. E. Gillis, of Windsor, N. S., writes:

DEAR MRS. PINKHAM:—When I commenced to take Lydia E. Pinkham's Vegetable Compound I was suffering with weakness and female trouble, headaches, backaches, and that worn-out, tired feeling. I have only taken the Vegetable Compound a few short weeks, and it has made me well, strong and robust. I believe that Lydia E. Pinkham's Vegetable Compound is without equal for female troubles.

Mrs. Laura Emmons, President Loyal Home Workers, Walkerville, Ont., writes:

DEAR MRS. PINKHAM,—I am enjoying such good health that I feel it a duty to write and thank you for what Lydia E. Pinkham's Vegetable Compound has done for me. I suffered for more than five years with functional troubles, causing an unpleasant discharge and weakness which no amount of medicine, diet or exercise seemed to correct. Your Vegetable Compound, however, reached the root of my trouble, cured me and made me strong, healthy and well. I want to say to every suffering woman, don't dally with medicines you know nothing about, but take Lydia E. Pinkham's Vegetable Compound.

Mrs. Pinkham's advice is free to all. Her address is Lynn, Mass.

Lydia E. Pinkham's Vegetable Compound Cures Where Others Fail

Columbian College

NEW WESTMINSTER, B.C.

Founded 1892 Incorporated, 1893

Provides a home for students of both sexes at moderate rates. Has a preparatory class for junior students taking public school work. Does high school work and prepares for provincial teachers' examinations. Teaches all branches of a practical business course, and confers diplomas. Imparts a liberal education in its collegiate course and in the ladies' course for M.E.L. and M.L.A.. In theology confers the degree of B.D. In university work can take students through the complete Arts course, for the B.A. degree of Toronto university, with which the college is in full affiliation. In science teaches the first year of Toronto School of Science and has a special engineering course adapted to practical engineering work in this province. In music, a complete course in theory, voice culture, and piano and organ in conjunction with the Toronto College of Music. Special instruction in art and elocution, while all students are required to take physical training with all the privileges of a well equipped gymnasium. For calendar address Columbia college.

P. BURNS & CO., Limited

NELSON, KASLO, ROSSLAND and BOUNDARY.

HAS INVADED CANADA

STANDARD OIL COMPANY NEAR EDMONTON.

EXPECT TO STRIKE OIL THIS MONTH.

(Special to The Daily News)

Edmonton, Oct. 31.—Under the name of the American-Canadian Oil company, the Stadard Oil company has invaded the Canadian oil fields and is now boring for oil at Morinville, a short distance from this city. Drilling was commenced last June. Natural gas was found at a depth of 300 feet and at a depth of 550 feet the pressure was 400 pounds to the inch. The company expects to strike oil at a depth of about 1000 feet and government reports bear out these expectations. The drilling is under the personal supervision of H. L. Williams, president and manager of the company, who is known from the Atlantic to the Pacific as an oil expert. It was at Summerlands, California, where he drilled the first sub-marine oil wells in the history of the petroleum industry. Borings in the same strata to the south have showed natural gas, asphaltum and petroleum.

Professor Weems, of the Iowa State College has analysed the Alberta asphaltum and found it to contain 21.17 parts of petrolene and 16.14 parts of asphaltum, which compares most favorably with tests he made of other asphaltums, his report being as follows:

	Petrolene.	Asphaltum.
Alberta asphaltum	21.17	16.14
Trinidad lake	22.73	18.85
Trinidad land	35.40	17.09
Texas asphaltum	7.54	1.60
Indian Territory	9.50	.99

From all over the surrounding country are coming reports of discoveries of natural gas and oil seepages, leading everyone to believe northern Alberta is exceptionally rich in all kinds of minerals, particularly coal products, and even coal itself has been discovered in large quantities around here and at the present time a profitable coal mine is being worked within the Edmonton city limits.

At the present rate of progress the company should strike oil within a month and permission is now being sought for franchises to supply several adjacent towns with natural gas. Although large sums of money have been expended on the oil properties in the southern portion of this province no definite results have been attained, the oil pumped from the wheels not being of sufficient quantities to make it a success from a commercial standpoint, but the companies boring there continue operations in the hopes of striking a large gusher in the near future, oil being known to exist there in paying quantities.

A CERTAIN CURE FOR CROUP—USED FOR TEN YEARS WITHOUT A FAILURE.

Mr. W. C. Bolf, a Star City, Ind., hardware merchant, is enthusiastic in his praise of Chamberlain's Cough Remedy. His children had all been subject to croup and he has used this remedy for the past ten years, and though they much feared the croup, his wife and he always felt safe upon retiring when a bottle of Chamberlain's Cough Remedy was in the house. His oldest child was subject to severe attacks of croup, but this remedy never failed to effect a speedy cure. He has recommended it to friends and neighbors and all who have used it say that it is unequalled for croup and whooping cough. For sale by all druggists and dealers.

Synopsis of Canadian Homestead Regulation

ANY available Dominion Lands within the Railway Belt of British Columbia may be homesteaded by any persons who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres, more or less.

Entry must be made personally at the local land office for the district in which the land is situate. Entry by proxy may, however, be made on certain conditions by the father, mother, son, daughter, brother, or sister of an intending homesteader.

The homesteader is required to perform the conditions connected therewith under one of the following plans:

1. At least six months' residence upon and cultivation of the land in each year for three years.

2. If the father (or mother, if the father is deceased) of the homesteader resides upon a farm in the vicinity of the land entered for, the requirements as to residence may be satisfied by such person residing with the father or mother.

3. If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements as to residence may be satisfied by residence upon the said land.

Six months' notice in writing should be given to the Commissioner of Dominion Lands at Ottawa of intention to apply for patent.

COAL—Coal mining rights may be leased for a period of twenty-one years at an annual rental of $1 per acre. Not more than 2560 acres shall be leased to one individual or company. A royalty at the rate of five cents per ton shall be collected on the merchantable coal mined.

W. W. CORY,
Deputy Minister of the Interior.

N.B.—Unauthorized publication of this advertisement will not be paid for.

Crippled With Rheumatism

CURED BY GIN PILLS

Mr. Derraugh certainly did have a hard time of it, winter before last. Caught cold, and it settled in his kidneys. First thing he knew, he was in bed with Rheumatism. He nearly went mad, the pain was so intense. The doctors gave him the usual treatment—and pretty nearly burnt his legs off with liniments and blisters—but the Rheumatism went right on aching.

Then a friend stepped in and said, "Why don't you try GIN PILLS?" After a great deal of persuasion, Mr. Derraugh did try GIN PILLS. You never such a happy man in your life, after he had taken two boxes. Pain all gone—stiffness and lameness completely left—that ache in back and hips disappeared—and he was well in no time. That was two years ago and he has been in perfect health ever since.

Contracted a severe cold. Rheumatism followed and the sharp pains took me so often and were so severe that I had to take to bed. For several months I could get no relief, until I started to take "Gin Pills." In five days I was up and around the house. My pains are gone and I have not had a return of the old trouble since. I wish also to say that "Gin Pills" gave me the first painless passage of urine I have had in two years.

ROBT. DERRAUGH, Winnipeg.

How about you? Haven't you suffered enough without going all over it again this winter? Get Gin Pills now—and cure yourself at home. Mention this paper and we will send you a free sample to try. The Bole Drug Co., Winnipeg.

Only 50c. a box—6 boxes for $2.50. 87

States grand jury early next month.

The journal published by Dyer is in advocacy of "scientific eugenics," or improvement of the race by methods similar to those advocated by adherents of the free love cult. Dyer is also a socialist. The letter has not been opened, the offense being in the address itself. Dyer declares he will "rot in jail" rather than recant his opinion of the president.

There's no economy in buying "cheap" salt. At present prices WINDSOR SALT costs no more than imported salt. It is pure and never cakes.

167 W

NOTICE OF ASSIGNMENT

Pursuant to the "Creditors' Trust Deeds Act, 1901," and Amending Acts, notice is hereby given that Robert M. Hood of the City of Nelson, British Columbia, carrying on business at Nelson as a grocer under the firm name of Robert M. Hood and Co., has by deed of assignment, dated the 24th day of October, A.D., 1907, assigned all his real and personal property, credits and effects which may be seized and sold under execution, to Edward Blake McDermid, accountant of Nelson, B.C., in trust for the benefit of his creditors.

All persons having claims against the said Robert M. Hood are required on or before the 25th day of November, A.D., 1907, to send full particulars of the same, duly verified, together with the particulars of the securities (if any) held by them, to the said Edward Blake McDermid, addressed to him at Nelson, B.C., in care of McDermid and McHardy, on or before the 25th day of November, 1907. And notice is hereby given that after the said 25th day of November, 1907, the said assignee will proceed to distribute the proceeds of the estate having regard only to the claims of which he shall then have received notice, and that he will not be responsible for the assets or any part thereof so distributed, to any person or persons of whose debt or claim he shall not have received notice.

A meeting of the creditors of the said Robert M. Hood will be held at the office of Taylor and O'Shea, Houston block, Baker street, Nelson, B.C., on Monday, the 11th day of November, A.D., 1907 at the hour of three o'clock in the afternoon.

Dated this 26th day of October, A.D., 1907.

E. B. McDERMID, Assignee.

WEATHER FOR OCTOBER

INDIAN SUMMER FAR MORE PROTRACTED THAN IS USUAL.

MONTH FAR MILDER THAN IS THE AVERAGE OF THE PAST.

The weather conditions during the past month o—f October have been in a way a record, the Indian summer having been a protracted one, lasting until the end of the month. There have been no severe frosts, only once the thermometer touching freezing point during the month. The precipitation has also been much less than usual, the days of sunshine being very much above the average.

The average of the maximum, or day, readings for the month were 69.9 degrees or 4.77 degrees above normal. The average of the minimum or night readings, were 37.6 degrees or 1.63 degrees above the normal. This shows that on the whole the days were much warmer than usual, taking the whole month through, but the nights were not much above the usual run. On the other hand the temperature at night has been little varied, the average of other Octobers in past years beng made up of some warm nights and some very cold.

The absolute maximum reading recorded during the month was 67 degrees, observed on two days, October 9 and 13. This is eight degrees below the record temperature for October. The absolute minimum was 32 degrees, occurring on October 18. This is 12 degrees above the lowest yet observed. In other words that whereas the record extreme range ever observed in Nelson for the month of October is between 75 and 20 degrees, or 55 degrees, the range for October last was only 35, between 67 and 32 degrees. The average range for the month was 22.3 degrees of 2.7 degrees more than the mean of other years. The greatest range, 31 degrees, between 67 and 36 degrees, was observed on October 9 while the least range, six degrees, between 51 and 45 degrees, was observed on October 29 and again on the following day.

The hours of precipitation were only 50 all told, that is to say, 61.7 hours less than the average. The total precipitation was 1.3 inch whereas the average for October is 2.67, or 1.47, less than half, below average. The days of rain were seven against the usual 13 while the days of sunshine were 26 against the normal for October of only 23.

Minard's Liniment Cures Dandruff

COLLINGWOOD LAUNCHING.

Collingwood, Oct. 31.—The steamer Collingwood, built here for the Farrar transportation company for the great lakes service, was launched here today in the presence of thousands of citizens. The vessel is 406 feet over all, breadth 50 feet.

QUINSY, SPRAINS AND SWELLINGS CURED.

"In November, 1901, I caught cold and had the quinsy. My throat was swollen so I could hardly breathe. I applied Chamberlain's Pain Balm and it gave me relief in a short time. In two days I was all right," says Mrs. L. Cousins, Otterburn, Mich. Chamberlain's Pain Balm is a liniment and is especially valuable for sprains and swelli—ngs. For sale by all druggists and dealers.

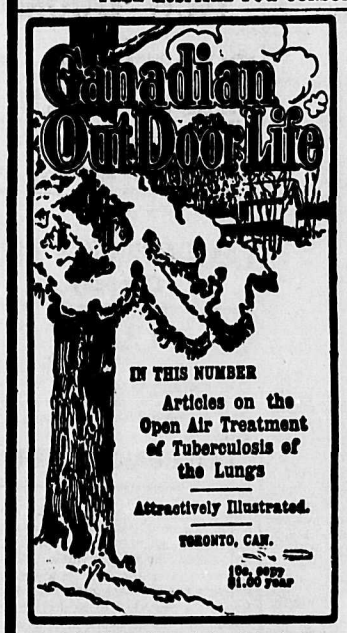
TAKE NOTICE that Henry Davis of McGuigan, B.C., occupation teamster, intends 60 days after date to apply for permission to purchase the following described lands: Commencing at a post planted at the south east corner of Lot No. 8025, G1, thence east 20 chains; thence north 40 chains; thence west 20 chains; thence south 40 chains to point of commencement, and containing 80 acres, more or less.

HENRY DAVIS.
Dated May 29th, 1907.

NOT A SINGLE APPLICANT HAS EVER BEEN REFUSED ADMISSION TO THE MUSKOKA FREE HOSPITAL FOR CONSUMPTIVES BECAUSE OF HIS OR HER POVERTY



Facsimile Cover Page (reduced in size) new Monthly Magazine of The National Sanitarium Association. Full size of page 10 x 7.

FORWARD STEP
IN THE INTERESTS OF
Muskoka Free Hospital for Consumptives

The National Sanitarium Association of Canada has undertaken to publish a monthly magazine devoted to the Outdoor Treatment of Tuberculosis, and the inculcation of Hygienic Methods of Living for the people generally. The first number was issued in November, 1906.

All profits from this magazine — from subscriptions and advertising—will go to the maintenance of patients at the Muskoka Free Hospital for Consumptives.

Any one contributing one dollar a year, or more, to the funds of the Hospital will become a subscriber to CANADIAN OUT-DOOR LIFE for one year.

No Father, No Mother, No Home—Worse Than a Prisoner

GARFIELD BRACEY, BERLIN, ONT.: Enclosed please find doctor's certificate and examination papers. Hope you will secure me a place in your Sanatorium. You will notice that my circumstances is a hard one; no father, no mother, no home—worse than a prisoner. Nobody wants me on account of my disease. Hoping you will have the charity and consider my position, and give me a position at once in your Sanatorium, I ever pray.

An Orphan, without Home or Means

DR. A. E. HANNA, PERTH: I have a patient here, a yeung fellow in whom I am greatly interested. He has tuberculosis. He is a poor young fellow, an orphan, out of home, without any means. If we sent him up would you take him in and do the best you can for him? I know how difficult it is to accommodate all who require treatment, but this is a special case.

It is always encouraging to have a letter from friends who kindly contribute. For the convenience of those who have not time to write, the following blank may be used:

SUBSCRIPTION BLANK.

£ .....190....

Dear Sir,

"DO IT NOW"

Is a business motto of this strenuous age that applies with tremendous force when it is a good act you should do.

"A child's kiss set on thy sighing lips shall make thee glad.

"A sick man helped by thee shall make thee strong.

"Thou shalt be served thyself in every sense of service which thou renderest."

"DO IT NOW".

All Subscriptions received will be acknowledged in the Toronto "Globe" and "News." Anyone subscribing one dollar or more becomes a subscriber to the Canadian Outdoor Life for one year.

"I WAS SPECIALLY PLEASED WITH THE ATTENTION PAID TO CONDUCT THE INSTITUTION CAREFULLY AND ECONOMICALLY."—Dr. R. W. Bruce-Smith, Government Inspector Hospitals and Charities.

NELSON NEWS OF THE DAY

C. B. Sword, dominion fishery inspector, arrived in town last evening.

The regular meeting of Court Kootenay Bell No. 723 C. O. F., will be held in K. of P. hall tonight. A full attendance is requested.

The new firm name of Mighton and Cavanaugh, stock brokers, formerly B. B. Mighton & Co., appears amongst the advertisements today.

Ernest Burden, who accidentally shot himself through the foot at Fruitvale the day before yesterday and was then taken to the Home hospital here, is doing well.

Peter Gibson, local representative of the Imperial Oil company, was married on Wednesday at Truro, N. S., to a Miss Craig. The newly married couple will return to Nelson shortly.

The dinner at the K. of P. hall last night given by the ladies aid of the Baptist church proved financially a success. The tables were prettily decorated and the menu was much appreciated by visitors.

The Order of Owls will meet at Fraternity hall at 8 p.m. tonight; all members are requested to be present. Anyone wishing to become a charter member must be at the hall or pay his membership fee, as the charter will be closed at the meeting.

W. C. E. Koch is putting on ten more horses to bring down the ore from the La Plata mine, the road from which is in a bad state at this season of the year. At one part of the road the mine is building shelters over the ore in transit, which cannot be taken down the heavy grades.

The J. H. Ashdown Hardware Co., Ltd.
NELSON BRANCH

A party of homeseekers came in last night from Elgin, Man.

Harry Gibson is pushing work on the new rink, the roof beginning to go up today.

Work is progressing quickly on the new courthouse, the outer walls now having reached the second floor.

The weather proved a little finer yesterday than on the day before though rain still fell at intervals during the day, the total precipitation being recorded .18 inch. The thermometer varied between 37 and 52 degrees.

Thanksgiving day was celebrated at St. Saviour's church yesterday by special services which were well attended. At the midday service the choir rendered Gounod's well-known anthem, "Praise Ye the Lord."

The "Ghost Walk" held by the Busy Bees at the residence of E. C. Traves last night was a decided success and a good sum was netted for the building fund of the Methodist church. The best ghost story told in a dim religious light, was the hair raising tale told by Miss Eva Hume. The two best male ghosts were a couple of young fellosw whos identity was concealed under two enormous hollowed-out pumpkins. A hearty vote of thanks was tendered Mr. and Mrs. Traves for the use of the residence.

Thanksgiving day passed off quietly enough. The feature of the day was the football match, but there were other methods in vogue for celebrating. There were a great many private dinners and parties, the youngsters celebrated with their usual pranks, the Methodist church bell being rung at midnight and fog signals being placed on the car tracks. The hotels all put on a special menu in which turkey naturally figured largely, the Hume hotel also illuminating for the occasion. Business was almost totally suspended.

"Standing room only" ten minutes before the curtain went up last night, on the fourth consecutive appearance of the Geo. B. Howard company at the opera house, told most eloquently of the favor in which this capable stock company is held in Nelson. "Charlie's Aunt," always a drawing card, was the attraction and the presentation of it by the Geo. B. Howard company hugely entertained the large audience. "Charlie's Aunt" is a sure laugh provoker and although last night's production left a goo ddeal to be desired it certainly kept the audience in a high state of merriment and probably that is all that could be expected. The company will give three more performances in the city. This evening they put on another comedy, "A Gold Mine." Tomorrow afternoon a matinee performance will be given, when "The Arabian Nights" will be put on and in the evening "Hello Bill," a comedy new to Nelson theatre goers, will be the attraction.

OLD CURIOSITY SHOP

THANKSGIVING SPORTS.

Montreal, Oct. 31.—The Herald road race over the mountain, a distance of almost ten miles, which was run today was won by D. H. C. Wood of the Harriers, who completed the course in 59 minutes and 44 seconds, C. Cote of the M. A. A. A. wassecond and J. Royal of the M.A.A.A. came in third. Over 200ff runners started and 161 finished. Wood took the race easily, distancing all the other contestants.

Toronto, Oct. 31.—The Argos went down to defeat today before the Montreal football team by a score of 9 to 7. The game was a hard fought one throughout. The result means that the Argos and Ottawa teams are out of the cahmpionship race and that it will lie between Montreal and the Hamilton Tigers, both of which have defeated the other on their home ground.

HUNTING BIG GAME.

Calgary, Oct. 31.—Lord Hawke, the popular captain of the Yorkshire County Cricket Club of England, is in the Rockies hunting big game
