VOL. 6 NELSON, B. C., TUESDAY, APRIL 21, 1908 NO. 310

HIS FINAL REST

Death of Judge Drake on Sunday Last

WRECK STILL MYSTERIOUS

NO CLUE HAS AS YET BEEN OBTAINED TO THE IDENTITY OF THE VESSEL WHICH RECENTLY WENT ASHORE NEAR CARMANAH POINT.

(Special to The Daily News)

Victoria, April 20.—Departing "as if overcome by sleep," the honorable and useful career of the Hon. Montague William Trywhitt-Drake ended yesterday at his home at Point Ellice, Victoria.

Of all the pioneers of British Columbia none was more highly respected than this departed parliamentarian, councillor, educationalist and jurist. He served Victoria and the province with fidelity during half a century, as mayor of Victoria in her early days, as a member of the legislative council anterior to to and after the confederation, as a member of the colonial board of education, as a member of the provincial legislature and the provincial government, in each capacity gaining a reputation for thoroughness and devotion to his conceptions of duty alike creditable to himself and inspiring succeeeding generations. His death was not unexpected, the retired justice having been failing rapidly during several months past. The deceased was 79 years of age, and but four years retired from the bench. He was descended from an ancient English family, the Tyrwhitt-Drakes of Shardlives, Bucks. He himself was born at Gingswalls, Herfordshire, and educated at the Charter House school. He was admitted as a solicitor of the superior courts of England in 1851 and came to British Columbia in 1863, shortly thereafter beginning to take an active part in colonial public affairs, upon his elevation as a member of the legislative council as representative of Victoria, which office he continued to hold until 1870. He was a member of the board of education from 1872 to 1879, mayor of Victoria in 1877, and returned to the legislative assembly for Victoria in 1882. He was president of the council from January, 1883, to October, 1884. Mr. Drake was called to the bar of British Colubia in 1887, appointed a Q. C. in 1883, and elevated to the bench in 1889. The last important case at which he presided was the Hopper vs. Dunsmuir will trial, heard by him only a few months before his retirement. This trial proceeded for weeks without intermission and although the veteran jurist had then reached his 75th years he asked for no adjournments. Indeed, he kept the trial progressing with more than ordinary expedition. His judgment was sustained successively through all the courts of appeal to and including the judicial committee of the privy council.

(Special to The Daily News)

Victoria, April 20.—Search of the beach west of Carmanah today disclosed further wreckage, including a considerable quantity of fresh vegetables, lettuce and cabbages, which appear to upset previous theories and peave a more perplexing mystery than ever, the identity of the large wooden vessel which went to pieces in the fierce gale of Thursday.

The flotsam previously reported most nearly tallied with the known construction and appointments of the W. F. Babcock, some 80 odd days out, coke laden, from Newcastle for Crofton. Anxiety for her safety has grown consequently, and cannot be set at rest even by the latest discoveries, although they indicate some outbound instead of incoming craft as the more likely victim of misadventure. The item of the fresh vegetables disposes of the suggestion that the accumulating wreckage has come from the derelict Galena, Peter Irdale, Emily Reed or the Hartfield, none of which vessels would, moreover, provide the structural and equipment features indicated by the debris recovered, the same applying to the more recently disappeared schooner Rosamund.

The shore line from Carmanah eastward to Port Renfrew will be systematically searched tomorrow for bodies or wreckage capable of positive identification, and the Tees, leaving tonight for west coast poris, has orders to maintain an efficient watch for any significant flotsam, a similar lookout being maintained by the Quadra, which leaves for the vicinity of the finds on Wednesday.

Additional wreckage floating ashore today included, besides the significant vegetables, a sugar pine mess table, some eight feet long by three, with mahogany battens and painted lead color. On Sunday a second mahogany cabinet door with maple panels was added to the tell-tale exhibits. The arrival of the Adderlie, Alex. Gibson, Marshall de Castries and Manx King today, greatly relieves a large portion of the marine community as well as the interested underwriters.

NEW COAST STEAMER

Large Vessel Purchased by Union Steamship Co. for Northern Service

(Special to The Daily News.)

Victoria, April 20—The Union Steamship company of Vancouver is reported to have purchased at Liverpool a new steamer, larger than any of the steamers now used in the British Columbia coast service. The new steamer was bought by Gordon T. Legg, manager of the company, who went to the old country on business with regard to the construction of the company's new steamer Cariboo, built at Ayr, Scotland by the Ailsa Shipbuilding company. The Cariboo which is similar in construction to the Camosun though larger than that vessel, has left the Clyde for Victoria and is expected to arrive here about July 1, when the Camosun and Cariboo will run alternately in a twice a week service to Prince Rupert and way ports. The new steamer is said to have been purchased from a firm of shipowners operating a line from Liverpool in the British coasting trade. With the new steamer Cariboo and Camosun and another larger passenger steamer added to the Union Steamship company's fleet that line will be well equipped for the growing trade of the northern British Columbia coast ports. The report is current that an arrangement is pending whereby the Union Steamship company will enter into an arrangement with the G.T.P. to operate a British Columbia coast service as a feeder to the new transcontinental road, similar to the C.P.R. British Columbia coast service in connection with that system.

CONDEMN GOVERNMENT

MASS MEETING AT VANCOUVER LAST NIGHT

TUPPER AND FOLEY JOIN IN THE ATTACK

(Special to The Daily News)

Vancouver, April 20.—Twelve hundred citizens, at a meeting tonight, heard sir Charles Hibbert Tupper and Christopher Foley, a member of Laurier's Chinese commission of 1902, condemned the Laurier government for what Tupper described as its gross negligence and blundering on the Asiatic immigration question.

The meeting then adopted a resolution calling for the abrogation of all immigration privileges in Japanese territory and for the immediate enactment of measures to exclude Japanese effective upon breach by Japan of the Lemieux arrangement and asking for the publication of the details of that arrangement; also for the enactment of legislation to exclude Hindus effectively immediately it becomes apparent that the imperial government will not prohibit their emigration from India or other British possessions; the adoption of an act based on the Australian restriction act and the abolition of the refund of tax to Chinese immigrants attending school in Canada. This resolution also set out, as a reply to sir Wilfrid Laurier, that the head tax had not the restrictive effect that he had declared; also that the objection to the Japanese treaty was, that it left it to Japan and not to Canada to enforce restrictive measures and that no provision had been made to meet any change in the recent immigration policy of the Japanese government.

RATE WAR

Travel Around the Sound Will Be Cheap This Summer

Vancouver, April 20.—Tthe war cloud has again settled over the passenger-carrying fleet on Puget Sound and tourists and sightseers will again this season profit by cut rates. Last summer it was from Seattle to Vancouver alone, but this time it will apply to Victoria, and probably Vancouver as well.

The Inland Navigation company invited the struggle by reducing their rate to Seattle to 50 cents on February 16. The C. P. R. at the time made no cut, but some weeks ago put in force the summer week-end rate of $2 return, good from Friday to Monday.

Today the Canadian Pacific announced a 50-cent rate from Seattle to Victoria, with the intimation that the reduced fare would be in force all summer.

Now that they have met the Inland Navigation company's rate there promises to be a supreme struggle for the trade previous to the opening of the summer season, when the Princess Victoria goes on the triangular run.

The C. P. R. has taken the ground up to the present that it was worth the difference in rate to travel by their boats, which are much finer vessels than those of the Inland Navigation company engaged in this trade, and the amount of business they have been doing showed that a large portion of the travelling public agreed with them.

The cut of the Canadian line came as a surprise to Seattle shipping interests, as there was no intimation that it intended to make any change in its rates, as while its Victoria and Seattle business is important, its through traffic in connection with the railway service in the summer months practically fills the steamers both ways.

C. G. Coker, traffic manager of the Inland Navigation company, replied with the declaration that the American company would not only keep up the 50-cent rate between Seattle and Victoria, but that it would probably make a reduction in the rate to Vancouver and would also likely carry the war into Africa by buying a British steamer and putting her on the run from Victoria to Vancouver in opposition to the Canadian Pacific.

HAVING A GOOD TIME

Los Angeles, April 20 — A long day of merrymaking by the sailormen of the American battleship fleet, boxing matches, bar becues, baseball games, and wild west shows being included in the entertainment provided by the city, was brought to a close tonight with two big banquets, one to the petty officers, in the largest cafe in the city, and the other to the admirals and commanding officers of the fleet and members of their staffs.

SCRIP IS SOLD

School Debentures Have Found a Market

MAYOR TAYLOR SUCCEEDS

FAVORABLE DEAL TO THE CITY CLEVERLY PUT THROUGH BY MIGHTON & CAVANAUGH — POWER DEBENTURES WILL BE CONSIDERED.

Thanks to the untiring efforts of the mayor, Nelson is now in a position to have a school building worthy of the city this year. The whole issue of the school debenturese have been taken up at terms which are favorable to the city, especially when the state of the financial market is taken into consideration.

The buyers of the school bonds are the Wood Gundy company, financial brokers of Toronto. They take the whole issue at 95, from April 18. The interest before that date is payable by the buyers. Furthermore, they will consider the further issue of $85,000 for the power bonds.

As was generally known, the school bonds of $60,000 were in the hands of Aemilius Jarvis & company of Toronto. They had an option upon the sale, which was extended until April 15. At that date they reported that they could not take the bonds but later might consider an offer of the power and school bonds taken together.

In the meantime for the previous two months Messrs. Mighton & Cavanaugh of this city had been pushing the sale of the bonds through the Wood Gundy company of Toronto, the head of which is an old-time friend of B. B. Mighton. Just as soon as it was learned that the option to Aemilius Jarvis had expired Messrs. Mighton & Cavanaugh secured a five-day option for themselves and clients, extending from April 16 to 21. Almost immediately they reported that Wood Gundy company would take $40,000. Then a telegram was received from Aemilius Jarvis, who possibly had learned of the placing of the loan with the other Toronto firm, asking for a renewal of the option. This could not be given owing to the action taken by the Nelson brokerage firm, who in turn pressed their clients. Finally, yesterday, word was received that the Wood Gunry company would take the whole issue and would also be willing to consider the other debentures for the power plant whenever issued. Accordingly the deal was closed and now Nelson has the money to proceed with its school improvements, delayed for three or four years.

As to the power debentures, mayor Taylor, who is going east about the middle of May, says that he thinks the city should have better terms. To this Mr. Mighton assents, saying that the conditions in the financial market are rapidly improving and with Nelson's reputation in the east for wise progressiveness there should be no trouble in getting even better rates on its next venture into the money markets.

AMERICANS POURING IN

Winnipeg, April 20.—Immigration officials report an increase of 60 per cent in the American emigration to the Canadian northwest for the first quarter of the current year as compared with the first quarter of last year. The outlook for the present year is that the Canadian west will receive 70,000 settlers from the United States.

DESTROY THE RAILROAD

ATTEMPT TO INJURE PRINCE ITO IS PREVENTED

JAPANESE APPOINTMENTS THAT ARE ANNOUNCED

Tokio, April 20—An attempt to destroy the railroad leading from the coast to the capital on the morning of April 16, was discovered before any serious damage had been done and prince Ito arrived at Seoul on schedule time.

Baron Kato starts today for St. Petersburg to arrange for Russian connections with both the Japanese railroads in Korea. Two experts will accompany him.

Baron Hayashi, Japanese minister to China has been ordered home from Pekin and will be sent to Rome. Baron Ijuin, now counsellor of the Japanese embassy at London, will proceed to the vacant place in Pekin. Baron Chinda will go to Berlin and Baron Ishii will succeed him as vice-minister of foreign affairs. These appointments are soon to be officially announced.

RATE ON CANADIAN SILVER

Seattle, April 20—Seattle clearing house banks have agreed to reduce discount rates on Canadian currency one half. Hereafter the discount will be one half of one per cent on sums not over $100 with a minimum of ten cents. On any sum over $100 the charge will be one-eighth of one per cent. The new charges are just sufficient to cover actual cost of shipping the currency back to Canada and getting returns.

SERIOUS DAMAGE IS DONE

LINE BETWEEN ROBSON AND BOUNDARY IS BLOCKED

WILL BE CLEARED NOT LATER THAN THURSDAY NEXT

In consequence of the heavy thunderstorm of Sunday night, which seems to have swept the district from west to east, there will be no trains running between Robson and the Boundary country until Thursday next. Up to 10 o'clock on Sunday night the track was clear but the thunderstorm in the mountains, coupled with the warm night, brought down the torrents in full bore. At several places along the track between Shields and Paulson damage was done. At Shields a portion of the bridge was washed out. At Paulson a slide covered the track and has indeed swept it away for something over 100 feet. Between the two places a couple of culverts have gone out.

Early yesterday morning the work of reconstruction began. There is a construction train working at either end and superintendent Coleman is on the ground pushing the work under his personal supervision as expeditously as possible.

Still there is over 20 miles of road between Paulson and Shields and as the construction train from Nelson cannot pass Shields to get at the big damage at Paulson until the bridge is repaired, the work of reconstructing the track at Paulson is necessarily slow. The Shields bridge will probably be passable this morning and in the meantime gangs have been sent ahead to take up the work at the culverts beyond. The Nelson construction train will probably get through to Paulson some time today. In the meantime the work is being pushed from the Grand Forks side and the line will probably be in a state of repair some time tomorrow night or the following morning.

WHITE MAN'S TOWN

Contractor Stewart Talks About G. T. P. Work at Prince Rupert

(Special to The Daily News)

Victoria, April 20—Foley, Welch and Stewart, the big contracting firm which will build the first hundred miles of road out of Prince Rupert has begun work. J. W. Stewart, one of the partners who is in personal charge of the work, is on a flying visit to Victoria on business, and gives the latest news of the new town.

"We have started cutting the right of way," said Mr. Stewart, "and have two or three hundred men at work already. We have established camps as far as Aberdeen which is 27 miles from Prince Rupert, and the men are doing the preliminary work, but as the river is not yet open we have been unable to establish our other camps as yet. We shall do so as soon a condition permit. Our contract is for 100 miles of road, which must be completed by August next. It is a heavy job with a great deal of rock work. There are lots of people in Prince Rupert already though I should not like to estimate the population. They are living in tents and shacks dotted about everywhere. The railway company has two big hotels finished there but they are not open yet to the public and I understand they are not furnished although ready for the furniture.

"Prince Rupert is essentially a white man's town. There are no Hindus or China men there and very few Japanese. We have not a single oriental working for us and do not expect to employ any. We find that this year we can get all the white men we want. The labor market is in a very different condition to what it was a couple of years ago."

Mr. Stewart said he did not know whether the new survey of the town according to the plans of the landscape architects had yet been completed and that he had no information as to the exact date when the lots would be placed on the market. He is only down for a short business visit and expects to go north again almost immediately.

FATAL COLLISION

Bad Railway Wreck in Australia—Forty-One People Killed

Melbourne, Australia, April 20—Two trains from Ballarat and Bendigo respectively, collided last night at Braybrook junction, about eight miles from Melbourne. Forty-one persons were killed and 60 injured. The Bendigo train with two heavy locomotives, crashed into the rear of the Ballarat train The wreckage took fire and was almost completely consumed. Many of the bodies were unrecognizable when recovered.

The Bendigo train suffered but little damage but the two engines were piled upon the rear coaches. Terrible cries followed many of the injured being caught in the wreckage and were with difficulty rescued. It was a long time before doctors and nurses arrived on the scene and in consequence intense suffering prevailed among the injured.

WILL PROSECUTE THEM

St. Petersburg, April 20—The authorities of St. Petersburg have decided upon the prosecution of the leaders of the notorious "Johnnaite" sect, whose practices have brought the name of Father John of Cronstadt into evil repute. Followers of the supposed saint assumed such sacrilegeous titles as the Holy Ghost, the Virgin, Archangel Michael, Mary Magdalene, John the Baptist and the designation of other apostles. They will be prosecuted for blasphemy and secret and illegal practices under the laws of religion, also forgery, blackmail and a number of other crimes committed under the cover of religion.

ITALIAN KILLED

Coleman, Alta., April 20.—While John Mission, an Italian, was putting some supports under the floor of the lime house of the Summit Lime works, the logs supporting the floor broke, falling upon the unfortunate man and killing him instantly.

ARE PRESSED

Russians Are Surrounded in Trans-Caucasia

REINFORCEMENTS WANTED

GRAND DUKE NICHOLAS IS DESPATCHED TO THE SCENE—MANY REGIMENTS ARE BEING RUSHED TO THE FRONT—RAILWAYS CROWDED.

Tiflis, April 20.—An alarming report has just been received here setting forth the critical situation of the Russian expeditionary force to Persia, which is menaced by a vastly superior body of Persian brigands.

The Russian commander has sent out a messenger demanding reinforcements of infantry and artillery. The Persians who have been joined by warlike tribe of nomads, have surrounded the Russians. Yesterday the Russians had three men killed and ten wounded and various other minor engagements with the Persians.

St. Petersburg, April 20.—Associated Press despatches setting forth the grave situation of the Russian detachment in Persia are fully confirmed tonight by official reports received at the foreign office from the Russian commander at Yellsavetol, in Trans-Caucasia, 90 miles from Tiflis.

Grand duke Nicholas Nicolavitch departed quietly from here today for the Crimea, travelling incognito in a reserved compartment of an ordinary coach instead of by private car. The trip ostensibly is for personal reasons and is is said will be of short duration.

It is reported that the grand duke is really on his way to the Caucasus to make a personal inspection, both of the Persian and the Turkish frontiers, where the situation is arousing considerable apprehension. Despite diplomatic denials, Russia continues to forward reinforcements and munitions of war to the Caucasus. An American traveller returning from that territory says that he saw train after train loaded with soldiers proceeding in a southerly direction and the railroad to Kars is so swamped with military stores that it is unable to accept private freight. The European military attaches, especially the German, are evidencing keen interest in the general situation and have made a number of official enquires but the general staff reiterates that the measures are purely precautionery on the part of Russia and are designed to repair the negligence of past years to put the Turko-Persian frontier in a normal condition for defense.

CARON IS DEAD

Montreal, April 20.—Sir Adolph Caron died at the Royal Victoria hospital today. He was minister of militia at the time of the Northwest rebellion in 1885, and for his services in suppressing it was knighted by queen Victoria.

TAP NORTHERN WILDS

CANADIAN SYNDICATE FORMED TO BUILD ROAD

NORTHERN PACIFIC SUPPOSED TO BE INTERESTED

(Special to The Daily News.)

Cardston, Alta., April 20.—E. Hoffman, who gives his post office address as New York city, is at the head of a Canadian syndicate formed to secure incorporation for the purpose of building a railway from the American boundary to the southeast of this town to Dawson City, opening up a wild and practically unexplored country. The Northern Empire R. R. Co. is the title under which this syndicate will build and permission is being south to bond the railway to the extent of $30,000 per mile. Fro mthe boundary it will run almost directly to Lethbridge and from thence to Fort McMurray, far beyond the pale of railroad transportation, and then by a more or less circuitous route to Dawson City. In the south the richest of the grain raising districts will be tapped and farther north the line will run through mineral districts, from which fabulous reports of the richness of the deposits are frequently being brought down to civilization. Associated with Mr. Hoffman are the following gentlemen: H. Roy and R. Balfour, Ottawa, Ont.; J. J. B. Gosselin, Notre Dame de Stanbridge, Que.; J. J. Flutot, Frank, Alta. Arrangements will be made with the Canadian Northern, Grand Trunk Pacific and Canadian Pacific railways to cross their tracks and it is expected preliminary surveys will be started at once so that actual construction work may be commenced this fall.

The real backers of this enterprise are not known and the supposition is that it is the Northern Pacific people at the back of the line, endeavoring to secure an entry into the northern wilds of Canada, which will at once be productive of heavy traffic with the completion of the first railway because the country is pratically worthless at the present time owing to the lack of transportation facilities. In that part of Canada many rich mineral deposits are laying in idleness because the nearest railroad is too far distant to enable the ore to be shipped out and for the same reason the farmers do not raise more grain than they require for their own use. Surveys have shown that the northern country above Alberta is good farming land and only needs a railroad for settlers to flock in by hundreds.

MINING MAN SUICIDES

JUMPED OVERBOARD FROM THE QUEEN CITY

INVESTIGATION BEING MADE INTO THE MATTER

(Special to The Daily News)

Victoria, April 20.—A mysterious suicide, the victim being C. Best, a mining man, occurred from the steamer Queen City while she was making her regular voyage from Vancouver to Nanaimo yesterday evening. Best was seen to throw himself overboard when the steamer was two hours out from Vancouver. An alarm was promptly given and the steamer stopped and boats lowered, but without any sight of the unfortunate man being had in an hour devoted to search. The suicide was deliberate, a steward seeing Best climb to the rail and plunge into the sea. The case is under investigation.

TRAFFIC AGREEMENT CEASES

V., W. and Y. and Great Northern—Route of G. T. P.—Murder Case

Vancouver, April 20—John Hendry, president of the V., W. and Y., has served notice on the Great Northern railway that all traffic arrangements come to an end at midnight tonight.

C. C. Vanarsdol, chief engineer in charge of the western division of the Grand Trunk Pacific, will reach Edmonton tomorrow on his way north. He was preceded today by several assistants. He will inspect the survey made from Kitselas canyon on the Skeena river, to Hazleton and Bulkley valley, as well as the proposed cutoff from the Skeena river via the Copper river route, before recommending the final adoption of a route. The Copper river route it is said, will effect a saving of 50 miles.

Rev. H. J. Underhill, rector of St. Paul's Anglican church, west end, has resigned.

An Indian from Smith Inlet, charged with the murder of his father during a family row last November, was brought to Vancouver last night from the north. According to the evidence in the hands of the police, the alleged murderer, a youth of 21, quarrelled with his father while both were on a spree. The father, it is stated, was lying down in his shack when the son went in and started beating him with the butt of a rifle. It is charged that as a result of this beating the man died a few days later.

PRESIDENT OF GUATEMALA

An Attempted Assassination—Details are Lacking as Yet

San Francisco, April 20—A message from Guatemala City was received tonight by the Guatemalan consul here stating that an attempt was made last night to assassinate Emanuel Estrada Gabrera, president of Guatemala. Many shots were fired at him but only one struck his hand. Other particulars were not contained in the message.

SWITCHMAN SHOT

Buffalo, April 20—Patrick McKeown, 29 years old of this city, a switchman for the Lehigh Valley, was shot and fatally injured in the William street yards of the Lehigh railway by Dan Reardon, a Lehigh Valley detective. It is claimed that McKeown was on his way to a restaurant for his lunch when Reardon fired at him. Immediately after the shooting Reardon made a statement in which he said he discovered MeeKown and two other men pilfering a car.

ONTARIO NOMINATIONS

Paris, April 20—John H. Fisher has been renominated for the legislature by North Brant conservatives.

Dundas, April 20—North Wentworth libehals have resominated R. A. Thomson for the legislature; East Wellington, McKinnon of Erin, liberal; West Durham ,Thos Baker of Soline, liberal; Dufferin, C. R. McKeown, M.P.P., conservative.

STILL THEY COME

Winnipeg, April 20 — A special from St. Paul says: To accommodate the increasing travel from St. Paul and Minneapolis to Canadian points in the northwest, the Soo Line has put on a new passenger train to Portal on the boundary. Travel on the Soo line is very heavy. Practically every train that leaves for Winnipeg and North Portal carries one or more extra coaches filled with emigrants and homeseekers bound for the Canadian west.

WANT HARBOTTLE

Edmonton, April 20—Information has been sworn out here for Capt. Neville Harbottle, the missing collector of inland revenue. An investigation shows that the amount not accounted for is $6912. Capt. Harbottle is a brother of Colin Harbottle, of Toronto, arrested in Havana for embezlement in Toronto.

OUT OF DANGER

St. Petersburg, April 20—General Linevitch, according to the latest reports from the bedside, continues to grow stronger. His heart no longer requires constant stimulation, his temperature tonight is about normal. The physicians report that the danger has been passed.

FATAL HICCOUGHS

Cobourg, April 20—John Benson ,Hamilton township, is dead as a result of hiccoughs. He was 83 years old.

IS MUCH WORK

Ottawa Session Is Likely to Be Prolonged

CONTENTIOUS LEGISLATION

REVISION OF ELECTORAL LISTS IN THE WEST MEETS WITH DETERMINED OPPOSITION BUT LIBERALS DECLARE IT SHALL BE DONE.

(Special to The Daily News.)

Ottawa, April 20.—Members of parliament, who have returned for the third and last stage of the present session, seem to be of the opinion that the earliest they will get away will be the end of June, with the pleasant possibility of the session running to the middle of July or even later.

The general impression is that the bill to amend the Franchise Act, providing for the revision of the electoral lists in Manitoba, British Columbia and the unorganized portions of New Ontario, is the piece of legislation most likely to prolong the session.

Conservative members declare that the house will sit till August or September, if Aylesworth's bill is pushed, while the liberal members are equally determined that it shall become law, even of the session is so prolonged.

The fight over this measure promises to be about the most interesting of the session. Apart from highly contentious matters, there is still a great deal of legislation to be disposed of, including insurance bills, Graham's bill in respect to the railway commission, the amendment to the banking act bill, foreshadowed by Hon. W. S. Fielding in his budget speech; a bill to extend the boundaries of Manitoba and in all probability, an important amendment to the Civil Service Act. Besides, not more than 35 per cent of the estimates have as yet been voted on and it is hardly possible, even if things go more smoothly than present appearances indicate, that the work of the house can be found up within ten weeks.

IN A TANGLE

Queer Mixup at San Francisco—No Law to Punish Sailor

San Francisco, April 20—Is a man under quarantine on a British ship in this port, amenable to the laws of California, the United States or those of Great Britain, or is he free to do as he chooses without being liable to punishment under the laws of any country. This is the question that is worrying Capt. Wm. Rae of the British ship Allerton, which has been in port for a month, and United States district attorney Devlin, commissioner Peacock and British consul general Walter Sisley Hearn, have been called upon to give an opinion as to the law in the case.

At midnight Sunday night Albert Prusanscky, a sailor on board the Allerton, who is under quarantine because he is infected with trachoma, stabbed Rudolph Rudan, another sailor, in the back, wounding him seriously and now Prusanscky sits on the rail of the ship and defies any one to arrest him.

A few minutes after the stabbing two policemen arrived at the ship to arrest Prusanscky, but on learning that he was under quarantine for trachoma, they refused to remove him to the station, because it would be a violation of the federal law to do so. Capt. Rae then started to put the would be assassin in irons but the sailor quoted British law, preventing the captain of any British ship from detaining a sailor on board a ship in port. Capt. Rae was forced to admit that the man was right and did not wish to risk having his license taken away from him for violation of the laws, under which he sails. This morning Capt. Rae visited Walter R. Hearn, British consul general at this port and put the case before him.

"I don't see what you can do about it," was all the help that Hearn could offer. "The man is not under the jurisdiction of the Californian courts until he lands on Californian soil and is not permitted to land while he is under quarantine. I think the only thing you can do is to wait until you get to a British port and then have him arrested."

District attorney Devlin and shipping commissioner Peacock were then approached but neither one could see any way out of the dilemna and both are unwilling to allow the man to be taken from quarantine.

TEMPEST IN TEA POT

Trouble Between Italy and Turkey is Now at an End

Rome, April 20—The threatened trouble between Italy and Turkey apparently has ended as a tempest in a tea pot and for the present at least there will be no demonstration by Italian warships in Turkish waters. Indeed, it now seems likely that the incident will produce a better feeling between Constantinople and Rome, leading to an agreement by the two countries on many differences which heretofore have been the cause of not a little friction. The Turkish government has given its permission to Italy to establish postoffices in the Turkish cities where the other powers have like institutions and in like manner has met the Italian demands with regard to other nations. Especially is this the case with regard to Tripoli, which Italy does not wish to occupy but merely wishes to be open to peaceful setetlement by Italians. The fleet will now remain in Italian waters and the incident practically is regarded here as closed.

TYPOGRAPHICAL UNION LABEL NELSON, B.C.

A VETERAN JOURNALIST

The Toronto papers to hand contain long and interesting sketches of the late Charles Lindsey, for years registrar of deeds for Toronto, and in earlier days editor of the Leader. Mr. Lindsey was in the west recently with his son, George Lindsey, K. C., president of the Crow's Nest Pass Coal company, but it is with his earlier record as a journalist that the Toronto papers refer to chiefly.

The Star, for instance, has the following brief reference, editorially: Reading the newspaper accounts of the career of Mr. Charles Lindsey, one regrets that the veteran journalist did not publish a volume of his reminiscences. Judging by his Life and Times of William Lyon Mackenzie and other publications, the work would have been done well, and his experience would have furnished him with splendid material. It was his good fortune to arrive in Canada during the struggle for responsible government, and his first work in journalism was in support of that principle. There probably never was a period in Canadian history when the two parties were more clearly distinguished upon a vital public issue. The argument was worthy of a larger forum, for the reformers of that day laid down the principles upon which not only Canada but Australia and South Africa are governed today; the principles by which imperial unity is reconciled with complete self-government in the colonies.

In course of time the defects in the old legislative union gave rise to another great issue, the federation of the North American colonies, and here again Mr. Lindsey was on the progressive side, and by his strong and moderate writing helped to guide public opinion toward the momentous change that was made in 1867. Again in 1874, while there was no change in the constitution of the country, there was a quickening of the thought and a movement toward independence in politics, and a consciousness of national life which found expression in the Canada First Party, the publication of The Nation, and the founding of the National club. In this movement Mr. Lindsey took a prominent part.

The spirit of the Canada First movement is now the dominant spirit of Canada, but its leaders were a little ahead of their time, and some of the old stagers were afraid of it, just as old-fashioned loyalists were afraid of responsible government. But Mr. Lindsey was one of the genuine reformers. His heart was always young, and his mind always hospitable to progressive ideas. No journalist or public man could ask for a better record than to have worked for a responsible government, to have aided in the movement that resulted in confederation, and to have thrown his influence on the side of those generous enthusiasts who 30 years ago helped to awaken Canada to a sense of national life and national opportunity.

FOR SALE

One of the best ranches in East Kootenay—250 acres bottom land, 100 tons hay cut every season, and this could be doubled with a little clearing; Mower, Rake, Wagon, etc. Small frame house and 12 head young stock, several fresh cows.

Price $20 per Acre

C. A. KING, M.D.

THE INTERCOLONIAL

So decidedly a conservative journal as the Toronto World, the property of W. F. Maclean, the tory M. P. for South York, has a good word to say for Hon. G. P. Graham and his administration of the Intercolonial railway.

The World strongly favors the idea of public ownership and contrasts the success of the Temiskaming and Northern Ontario railway, in Ontario, with the admitted defects in the management of the Intercolonial, declaring that the success of the former undertaking is a strong argument in favor of public ownership.

The success or failure of any large corporation, says the World, depends entirely upon the management, and the difference in the financial statements of the two lines is attributable entirely to the manner in which they are operated, the Intercolonial being directly under the control of the government, while the T. & N. O. is controlled by a commission appointed by the government. In both cases the government must assume responsibility for success or failure of the enterprise. Two facts were clearly established in connection with the Intercolonial railway: (1) The necessity of a better supervision of the accounting department; (2) the need of a change in the operating department. The irregularities in the accounting department and the failure to move traffic promptly in the operating department are entirely due to incompetent management; there is no other reasonable explanation to offer for the remarkable state of afairs shown to exist..

Turning to Mr. Graham the Toronto paper declares: The present minister of railways has taken hold of his department with perhaps a better comprehension of the right of the people to protection of their interests than was evidenced by any of his predecessors, and he has on several occasion expressed the idea that it might be well to place the Intercolonial in the hands of a commission of one or more, so as to test whether or not the line can be placed upon a fair paying basis. It has been clearly established that political management of this line under either party has been a failure, and there can be no question or doubt upon that point. It would be a wise move on the part of the government to give commission management a trial. The result cannot be more disastrous than has been experienced under the political regimes, and should it prove successful, as we firmly believe it would, it could fairly be placed to the credit of the government.

Use Shiloh's Cure for the worst cold, the sharpest cough—try it on a guarantee of your money back if it doesn't actually CURE quicker than anything you ever tried. Safe to take,—nothing in it to hurt even a baby. 34 years of success commend Shiloh's Cure—25c., 50c., $1. 315

P. O. CLERKS NOT PLEASED

Toronto, April 20—An increase of $100 a year to each of the clerks in the general postoffice and general substation, with another $100 additional to employees in the registered letter and money order departments is the proposition laid before the employees of the post office department as a result of the recommendation for an advance made by the civil service commission. The clerks are not satisfied with the proposed increase. They want the government to act upon the commission's recommendation of a general increase of 15 to 25 per cent.

HAS BODY GUARD

Rockefeller Escorted to Church by Six Detectives—Fears Black Hand

New York, April 20—The Herald says: In place of the one man who did guard service on Sunday of last week, six private detectives acted as a body guard for John D. Rockefeller yesterday when he walked with his two grand children Fowler and Muriel McCormack from his home, to the Fifth avenue Baptist church. The guard was maintained on the return home from church, the detectives walking a short distance behind Mr. Rockefeller and the children who were in the care of a nurse. In view of these extra precautions it was thought that the Black Hand threats regarding the children recently received by Mrs. Harold McCormack, their mother, together with demands for money, had been renewed.

When You Buy Fruit Land

It is well to remember that what is important is NOT the first cost of your fruit farm, but the amount of profit which your farm will yield year by year.

DON'T be attracted by cheaper, inferior or inaccessible lands which exist in the Kootenay, as elsewhere—but get the best. Take advantage of a double selection.

1. Our selection was made with the utmost care at a time when we had the whole district to pick from.

2. Your selection—made from ours—thus you get the benefit of a double and cumulative selection.

FURTHERMORE, remember that to be successful the following five qualities are absolutely essential:

(1). Title; (2). Soil; (3). Water; (4). Accessibility; (5). Transportation.

WE SELL OUR OWN LANDS. We own over 20,000 acres, title perfect.

THE SOIL is deep loam with clay subsoil, free from stone.

THE WATER on these lands is pure and abundant both in running streams and numerous springs.

THE MARKET for your product is right at your door on existing lines of transportation.

BUT when you buy an orchard tract you want more than soil; more than pure water; more than transportation; you want A HOME—A place to live in—THAT IS WHAT WE HAVE FOR SALE.

Postoffice with daily mail service; express trains, stores; schools—A home every few steps. You get the comforts of civilization combined with the pleasure of a profitable, healthful and beautiful rural home.

Terms $10 cash and $10 per month for 10 acres, with liberal discount for larger payments.

Write or call for maps, photographs and all information.

Nursing Mothers and Over-burdened Women

In all stations of life, whose vigor and vitality may have been undermined and broken-down by over-work, exacting social duties, the too frequent bearing of children, or other causes, will find in Dr. Pierce's Favorite Prescription the most potent, invigorating restorative strength-giver ever devised for their special benefit. Nursing mothers will find it especially valuable in sustaining their strength and promoting an abundant nourishment for the child. Expectant mothers too will find it a priceless boon to prepare the system for baby's coming and rendering the ordeal comparatively painless. It can do no harm in any state, or condition of the female system.

Delicate, nervous, weak women, who suffer from frequent headaches, backache, dragging-down distress low down in the abdomen, or from painful or irregular monthly periods, gnawing or distressed sensation in stomach, dizzy or faint spells, see imaginary specks or spots floating before eyes, have disagreeable, pelvic catarrhal drain, prolapsus, anteversion or retro-version or other displacements of womanly organs from weakness of parts will, whether they experience many or only a few of the above symptoms, find relief and a permanent cure by using faithfully and fairly persistently Dr. Pierce's Favorite Prescription.

This world-famed specific for woman's weaknesses and peculiar ailments is a pure glyceric extract of the choicest native, medicinal roots without a drop of alcohol in its make-up. All its ingredients printed in plain English on its bottle-wrapper and attested under oath. Dr. Pierce thus invites the fullest investigation of his formula knowing that it will be found to contain only the best agents known to the most advanced medical science of all the different schools of practice for the cure of woman's peculiar weaknesses and ailments.

If you want to know more about the composition and professional endorsement of the "Favorite Prescription," send postal card request to Dr. R. V. Pierce, Buffalo, N. Y., for his *free* booklet treating of same.

You can't afford to accept as a substitute for this remedy of *known composition* a secret nostrum of *unknown composition*. Don't do it.

TREMENDOUS RESOURCES

CANADA'S NEW TERRITORY TO BE OPENED UP

HUNDREDS OF MILES OF GOLD BEARING ROCK

(Special to The Daily News)

Winnipeg, April 20.—Referring to the deposits of the Athabasca, Dr. R. Bell has reported, "that the deposit is of the Cretaneous age, but rests directly upon limestone of the Devonian system. The bedding of the latter undulates gently, while the asphalt sand lies in thick horizontal layers upon its surface and in some cases fills fissures in the upper part of the limestone. The asphaltic matter has no doubt resulted from petroleum rising up from the underlying Devonian rocks, in which evidence of its existence can be traced. In descending the Athabasca river it was first noticed a few miles above the junction of the Clearwater river, below which it becomes more conspicuous, forming the whole bank of the stream, with the exception of a few feet of limestone at the base, for many miles. These banks are sometimes 150 feet in height and frequently maintain an elevation of 100 feet for considerable distances. A thick tar is often seen draining out of the deposit and in numerous places on the ground at the foot of either bank, or on terraces lower than their summits, this tar collects in pools or flows in sluggish streams to lower levels amongst the peaty materials in the woods. The surface of these accumulations of tar is usually covered with a thick and pitchy crust. The boatmen on the river bank break through this crust to obtain the softer surface beneath with which to caulk their boats after boiling it down. Some parts of the banks of this river are rendered plastic en masse from being saturated with the asphalt, and in warm weather they slide gently down into the river, collecting the small boulders and gravel en route."

As regards the utilization of these substances, the most appropriate application of the former and that for which it would appear to be admirably adapted, would be for asphalting purposes. It has one of the most important qualifications of a good bitumenous concrete, viz., intimate combination of the mineral and organic constituents, and this in a degree which no artificial preparation of the kind could be expected to possess. It will be found, in all probability, that very slight treatment will render it suitable for employment in the construction of roads, footpaths, floors, etc. Should it be deemed expedient to separate the bitumen this may be done by simply boiling the material or dousing it with hot water, causing the bituminous matter to rise to the surface as a scum and can then be removed with skimmers, whilst the sand falls to the bottom of the vessel. An experiment was made by Dr. Bell recently to ascertain the greatest state of purity to which this bitumen could be brought by this method and it was found that of the 81.73 per cent sand 69.26 per cent had been removed, the extracted bitumen containing 50.1 per cent sand and it is question if the purification by this method could be pushed beyond this point. The sand separated by this process, when carefully conducted, is free or almost free from bitumen, and might, after being heated to a redness in a reverberatory furnace—to destroy any little remaining bitumen—be advantageously employed for the manufacture of the better qualities of glass. The above treatment requires but the simplest apparatus and could be conveniently carried on at the deposits.

Nearly everyone has heard that gold is to be found along the Peace and Laird rivers but it will be news to hear that at the headwaters of the Peace, Laird and Peel rivers there are from 160,000 to 200,000 square miles which are considered by geologists to be gold bearing, while Canada possesses west of the Rock mountains a metalliferous area, principally of gold bearing rocks, 1300 miles in length with an average breadth of from four to five thousand miles, giving an area far greater than that of the similar mining districts in the United States. In addition to these auriferous deposits, gold has been found on the west shores of Hudson's bay, and is said to exist in certain portions of the

DOMINION AMMUNITION

Suffered 20 Years

"Fruit-a-tives" Cured in 2 Months

St. Raphaels, Ont.

For over twenty years I suffered from Chronic Constipation of the bowels, and I could get no medicine to cure me. I tried doctors and every known purgative, or laxative, medicine known but I was no better. Sometimes, if I did not take medicine, I would go four or five days, without any action of the bowels. During all this time I was weak and suffered from Indigestion constantly.

About a year ago a friend advised me to try "Fruit-a-tives" as they had helped her. I began taking "Fruit-a-tives" and from the outset I began to feel better, and inside of a month the pains were almost gone and the Constipation relieved. In two months I was perfectly well again, no pains, no constipation, and my complexion had lost all that sallow appearance.

(Sgd) MARY A. McDONELL.

"Fruit-a-tives"—or Fruit Liver Tablets—are the only remedy known to science that actually cure Constipation. They do this by making the liver healthy and active—thus causing more bile to *flow into the bowels.* 152

"Fruit-a-tives"—or "Fruit Liver Tablets" are sold by dealers at 50c a box—6 for $2.50—or will be sent on receipt of price. Fruit-a-tives Limited, Ottawa.

NOTICE

PUBLIC NOTICE is hereby given that the Canadian Pacific Railway Company (as Lessee and exercising the franchise of the Columbia and Kootenay Railway and Navigation Company) has this day deposited in the District Land Registry Office at Nelson, in the Province of British Columbia, a plan, profile, and book of reference, showing a proposed branch line from the Slocan Lake Branch of the said Columbia and Kootenay Railway and Navigation Company for the Patrick Lumber Company Limited, situated two decimal seven miles north of Slocan Junction in the District of West Kootenay in the Province of British Columbia aforesaid and that the said Canadian Pacific Railway Company will, as soon after the expiration of four weeks from the first publication of this notice as the application can be heard, apply to the Board of Railway Commissioners for Canada for approval of the said branch line in accordance with the provisions of the Railway Act.

Dated this ninth day of December, 1907.

R. MARPOLE,
General Executive Assistant

Barren Lands. There is silver on the Upper Laird and Peace rivers and copper upon the Coppermine river and in other parts of the country. Large blocks of pure copper are to be found along the banks of the Coppermine river. The Indians and Eskimos carve crosses and ornaments from this copper. Iron ore is also found on the northeast side of Lake Athabasca and Great Slave lake in considerable quantities, and also in various other localities; in fact, traces of it can be found almost anywhere.

There are very extensive petroleum areas south of Lake Athabasca and west of Great Slave lake. These are now being exploited but with what success has not been announced, but oil experts from California who have been over the country state they are confident a vast body of oil exists from the International boundary between Alberta and Montana far into the north country and with development will produce sufficient oil to supply the entire dominion. The senate committee of 1888 appointed to enquire into the resources of the Mackenzie river basin recommended that an area of 40,000 square miles be reserved from sale until the value of the petroleum deposits might be ascertained by explorations and practical tests. The evidence adduced by that committee pointed to the existence in the Athabasca and Mackenzie valleys of the most extensive petroleum fields yet discovered. In southern Alberta, within four miles of the international boundary, four companies are boring for oil and following directly north for at least a thousand miles over a dozen companies in active operation would be encountered. Recently one of these companies boring for oil in the vicinity of Lake Athabasca struck a bed of salt which subsequent borings showed to extend over an area of some 400 square miles and is of great thickness.

Ever since the first white man travelled this northern country reports of valuable mineral discoveries have been made, but almost invariably those making the discoveries were not well versed in mineralogy, in fact, but few who know the commonest minerals at sight have ever visited that portion of Canada.

BOUNDARY SOCIALISTS

Member for Grand Forks Puts Blame on McBride Government

(Special to The Daily News)

Grand Forks, April 20.—Verging on the sensational was a meeting held here when John McInnis, the socialist member for this district gave an account of his stewardship. After being preceded in a short address by Charles Bunting, chairman of the meeting, the member for the Grand Forks electoral district dealt with several public issues. He said that if the people of this district did not receive sufficient public appropriations for the required roads and bridges of the district they should not blame him, but the McBride government. He condemned strongly the old system that to the victor belongs the spoils. Mr. McInnis did not take much stock in the Hon. Mr. Lemieux' verbal agreement with the government of Japan, and stated that as yet the public were in ignorance of the terms of this agreement. The member for Grand Forks spoke for about an hour in all, and closed his remarks by attacking the Granby smelter and superintendent Hodges for the manner in which men were being discharged by the smelter company, alleging that it was because they belonged to a labor union. The sensational part of the meeting was when the speaker denounced Mr. Hodges in emphatic terms, and stated that he (McInnis) was in the country before Mr. Hodges and that he would be here when Mr. Hodges was away back in Missouri picking pumpkins. At this meeting the attendance was small, a few ladies being in the audience.

From Orient, Wash., comes the word Toulou mountain is turning outetao soin that the First Thought property on Toulou mountain, is turning out very well. It is stated that for 30 feet across the face in one of the stopes no ore less than 10 ounces to the ton in gold is found. This property is owned by Pat Burns, the cattle king.

The work of enlarging the Granby smelter will be started at once. Already a large portion of the material is on the ground.

The delegates elected by the conservatives of this district recently have been instructed to vote and work for Martin Burrell as candidate at the next dominion election. This is reported to be in opposition to Mr. Burrell's wishes, that his name be dropped as the conservative nominee.

HINTS TO ADVERTISERS

Want ads. initiate and promote neighborhood events—the coming of the new cook, the new boarders, the new tenant, the new employee, the new neighbors.

The lure of the "new"—of the "something different—whether in something to eat, to wear, to read, to use, to see, to hear; or in a place to live, or to work, is not to be denied. And the ads are the sponsor of all that's new.

When the wife shows more ability and management in spending than the husband does in earning the income, the family prospers; when she shows less poverty begins. No one knows the stores or how to buy "right" in this city who has not read the store ads, for a month.

A woman's judgment as to values—as to bargains—determines the uses to be made of a goodly part of her husband's earnings. It therefore comes to be essential that she study the ads.

NOTICE

PUBLIC NOTICE is hereby given that the Canadian Pacific Railway Company (as Lessee and exercising the franchise of the Columbia and Kootenay Railway and Navigation Company) has this day deposited in the District Land Registry Office at Nelson, in the Province of British Columbia, a plan, profile, and book of reference, showing a proposed branch line from the Slocan Lake Branch of the said Columbia and Kootenay Railway and Navigation Company to W. C. E. Koch's Sawmill, situate nine decimal two hundred and twenty seven miles north of Slocan Junction in the District of West Kootenay, in the province of British Columbia aforesaid; and that the said Canadian Pacific Railway Company will, as soon after the expiration of four weeks from the first publication of this notice as the application can be heard, apply to the Board of Railway Commissioners for Canada for approval of the said branch line in accordance with the provisions of the Railway Act.

R. MARPOLE
General Executive Assistant

LITTLE GLADYS ELLIOTT.

HEAD, ARMS AND LEGS COVERED WITH ECZEMA

Mrs. L. Elliott, of 41 Henry St., St. Catharines, Ont., says: "My little daughter Gladys, 4 years of age, was badly troubled from infancy with eczema on the back of her head, under her hair, the joints of her arms and on the back of her legs. This terrible disease first broke out on the side of her head in the form of a red rash and pimples which, if rubbed or scratched sent forth a watery substance, and which later spread to the back of her head, joints of her arms and back of limbs. This proved a rather obstinate case and the child suffered intensely from itching and pain and was very restless and peevish. We tried all kinds of preparations, soaps, etc., but failed to bring about a cure. At last a friend who had been using Zam-Buk for small sores and wounds gave me a portion of her box to try. This seemed so good and showed such an improvement so I bought a supply, and thro' perseverance in using, the disease was soon checked and finally cured. I feel very grateful for the cure Zam-Buk has brought about."

Zam-Buk Cures cuts, burns, chapped hands, cold sores, itch, ulcers, eczema, running sores, catarrh, piles, bad legs, abscesses and all diseases of the skin. Of all druggists and stores, 50c., or post paid upon receipt of price from Zam-Buk Co., Toronto. Good also for rheumatism, neuralgia, etc., when well rubbed in.

A most beautiful collection of fancy black dress voiles, poplins, panamas, shadow stripes, and silk ribboned effects at all prices and qualities.

New Light Washable Dress Fabrics

A very beautiful stock to select from, all latest new bright washable materials, every yard this season's best styles, which to describe the daintiness of these goods is an impossibility, but it can safely be said that our reputation for having the newest and best lines in all things is fully maintained this season.

New Easter kid gloves, long and short. Latest millinery at most reasonable prices.

FRED IRVINE & CO.

"Sunshine" Furnace

Where Shaking is Respectable

A Draft off furnace dome, with no other assistance, is powerless to overcome the dust nuisance in shaking time. Only surplus dust rises of itself above the fire. Great bulk descends into ash-pit, and unless legitimate outlet is therein provided, dust will escape through ash-door slits and into operator's face.

In "Sunshine" Furnace the legitimate dust outlet is provided. It's a great big dust-pipe running straight from ash-pit to dome, thence to chimney. When big pipe damper is opened, all dust in ash-pit ascends to dome; then, when direct drafts are opened, all dust passes up chimney.

Always the clean and quick dust route in "Sunshine" Furnace — via grate, to pan, to dust-pipe, to dome, to chimney, to open air.

Write to us for "Sunshine" testimonials received from your own townspeople.

MONTANA MINE OWNERS

SECURE CONTROL OF IDAHO SMELTING AND REFINING CO.

WILL HANDLE ONE THOUSAND TONS OF ORE DAILY

(Special to The Daily News)

Spokane, April 20 — The Montana mine owners' association, composed of 300 active operators and shippers and representing a combined capital of $1,000,000, secured control of the Idaho Smelting and Refining company's Panhandle smelter at Ponderay, Idaho, north east of Spokane, following a conference of eight hours in this city. The capacity of the plant, now 250 tons, will be increased to handle 1000 tons of ore daily and employment will be given to from 200 to 400 men. One hundred thousand dollars will be expended in improvements. The plant will be equipped for the treatment of copper and a refinery is to be added. It is purposed also to enlist every independent mine owner in Montana in the association. The name will be changed to the Montana and Idaho Smelting company.

As an impetus to mining development in the northwest the advent of the Montana Mineowners' association into the smelting field is of vast importance. It means that the smelter trust, which controls practically the big smelters in the northwest, except those owned by the Amalgamated Copper company, will have active opposition. Mineowners and operators have long had grievances against the methods of the trust, which not only regulates the price of ore, but practically makes the prices on the metal market.

The chief reason for taking over the plant, which was established six years ago, is to protect the mineowners of Montana against the smelter trust. The membership of the association includes such operators as W. A. Clark, largest individual mine operator in the world; W. G. Conrad, Owen Byrnes, Dr. Peter Musicboard and Thos. L. Greenough. Marcus L. Hewett of Basin, representative for senator Clark, is president of the association and former governor A. E. Spriggs of Butte, is chairman of the executive committee. The properties owned and controlled by members of the association produce 30,000 tons of dry silver-lead and gold ore per month, besides vast quantities of copper.

These officers and directors were elected at the session following the conference: President, J. Herbert Anderson; vice-president, Marcus L. Hewlett; secretary-treasurer, S. B. Phillips; directors, A. E. Spriggs, chairman, W. A. Clark, Butte; W. G. Conrad, Great Falls; Thomas L. Greenough, Missoula; Albert Wunderlich, St. Paul; C. C. Titus, formerly with the American Smelting and Refining company, will be general manager of the smelter.

By the terms of the contract to take over the smelter an option for five years is taken on the property which may be taken up the first year for $1,050,000 and at a gradual increase during any of the next three years until the fifth year, when the price will be $2,100,000. Immediate voting control of 55 per cent of the stock in the company for 15 years by the association, which will operate the plant on a basis of 15 per cent minimum profit to the stockholders on all the ore treated. The townsite property, mines and fluxing fields of the Idaho Smelting and Refining company thus passes *to the control of the association.*

J. Herbert Anderson, who owns a controlling interest in the Idaho Smelting and Refining company, is credited with bringing to a successful issue the affairs of the Panhandle smelter, which has had a checkered career. Mr. Anderson bought control of the company a year ago, and expended $40 in repairing and completing the smelter and $50,000 in acquiring fluxing properties. The smelter was operated six months as a test, treating Montana ores. The capitalization was $5,000,000 when he took charge, and believing this too big, he reorganized under the name of the Idaho Smelting and Refining company, with a capital stock of $2,000,000, the old stock being exchanged for new and the property was bonded for $500,000.

Mr. Anderson said that the opposition of the smelter trust was a handicap for a time, adding: "An idea of their system may be gained from the fact that they were acquainted with every step I took and did all they could to put obstacles in the way. Some of my experiences would sound like pages from a novelEvery independent man in the Coeur d'Alenes I approached to interest *in the smelter plan was immediately* visited by minions of the trust, who tried either by persuasion of by threats to discredit me. Then we received the information that the mine owners of Montana had organized and had subscribed $100,000 towards the building of a smelter. William A. Nicholls of Spokane, who is interested in our plant, went to Helena to interest the new association in the smelter, and negotiations continued with the result already given."

The Panhandle Smelting company is ideally located. It is on lake Pend d'Oreille, and has connection with the Northern Pacific, Great Northern and Spokane International, two of which tap the big rich mining fields of Montana and one the still richer Coeur d'Alenes. These roads also connect with the Spokane Falls and Northern railroad which brings coke from the collieries at Fernie, B.C. There are also lime and iron beds owned by the company which will supply fluxes for 50 years. The wet ores of the Coeur d'Alenes and the dry ores of Montana are essential to the smelting process used at the Panhandle. The *smelter was started six years ago, but for* lack of capital was not completed until Mr. Anderson acquired the controlling interest a year ago.

Test Gin Pills at Our Expense

A CURE—OR MONEY BACK

We don't ask you to buy GIN PILLS—but to try them. We simply want you to see for yourself what GIN PILLS will do for you. A cent for a post card is the only expense. Simply write us, mentioning this paper, and saying you want a free sample of GIN PILLS. If you are satisfied that GIN PILLS are doing you good, get a box at your dealer's, on our guarantee that they will continue to help you. Take GIN PILLS regularly and faithfully, and they will cure you of Backache, Rheumatism, Sciatica, and every trace of Kidney and Bladder Trouble. If you are not perfectly satisfied—you have only to return the empty box and your dealer will promptly refund the money.

We know that we have, in GIN PILLS, the greatest cure in the world for Kidney and Bladder Troubles, and Rheumatism. No other medicine in the world is so widely known and so highly praised.

Starrat, Ont., Feb. 16, 1906.

Inclosed please find $1.00 for two boxes of your "Gin Pills" as I am nearly out. The drug store at Burks Falls, where I got my supply, was burned down a couple of weeks ago, and I do not know where to get them except by writing to you. Hoping you will please send them by return mail as I am nearly out and can't do without them.

Yours truly,
JOHN BLACKMORE, Postmaster.

Don't put it off. Write us to-day and let us send you the free sample of GIN PILLS to try. The Bole Drug Co., Winnipeg. 50c box—6 for $2.50. 85

RELIABLE, NEAT AND SECURE WORKMANSHIP

TO START AT ONCE

Ottawa, April 20.—The investigation to be conducted by Mr. justice Cassels into the charges of wrongdoing in the marine and fisheries department will commence this week. Hon. Mr. Brodeur is taking every step to facilitate a thorough and exhaustive investigation, according to the regular procedure governing the taking of evidence by a royal commission. It is understood that the government will appoint counsel to assist the commissioner in having all the facts brought out and the witnesses adequately examined.

GET IN TOUCH WITH MODERN WAYS OF DOING THNIGS

Merchants have, nearly all of them, learned that advertising is necessary to them. Not all of them, who advertise have learned hof to advertise adequately, persistently, improvingly. But they are learning these things and are profiting in the knowledge.

Now it follows that every reason which makes it wise for a merchant to advertise is an equally good reason why the reader of a newspaper should read its advertisements. An ad is a mutual affair. It benefits the merchant only as it benefits the reader. His ad. will not pay the merchant unless he can maye it pay you to read and answer it. This he does, can do, will do —always.

Perhaps you have lond realized that a store cannot succeed without advertising. Now, try to realize the related truth that you cannot succeed fully in this day of the *world unless you read and answer ads.*

RESULT OF BOYCOTT

Vancouver, April 20—The sailing of the R.M.S. Empress of India and the Japanese steamer American Maru of the Toyo Kisen Kaisha, from Hongkong on Saturday, indicate by their passenger lists the effect of the boycott arranged by the Chinese of the south against Japan in consequence of the action of the mikado's government regarding the seizure of the Tatsu Maru. A despatch from Hongkong says:

As a result of the Chinese boycott the Japanese steamer American Maru left here for San Francisco without a single package of Chinese cargo and only 25 passengers as compared with 720 by the British steamer Empress of India, which cleared for Vancouver.

The Japanese steamer Aki Maru which left Victoria on Tuesday for the orient, is already feeling the effects of the boycott. Some time before the vessel was ready to sail Chinese merchants in Hongkong cabled their correspondents on this side of the ocean not to ship by the Japanese vessel.

Local Chinese have as yet taken no action it having been decided to wait until what action the other Chinese communities on the coast took was seen before anything was done. There is a belief among local Chinese that if the boycott is successful it will have the effect of bringing about a serious situation for China.

KING LEAVES ENGLAND

London, April 20—King Edward and queen Alexandra left London this morning for a visit to Copenhagen, Stockholm and Christiania.

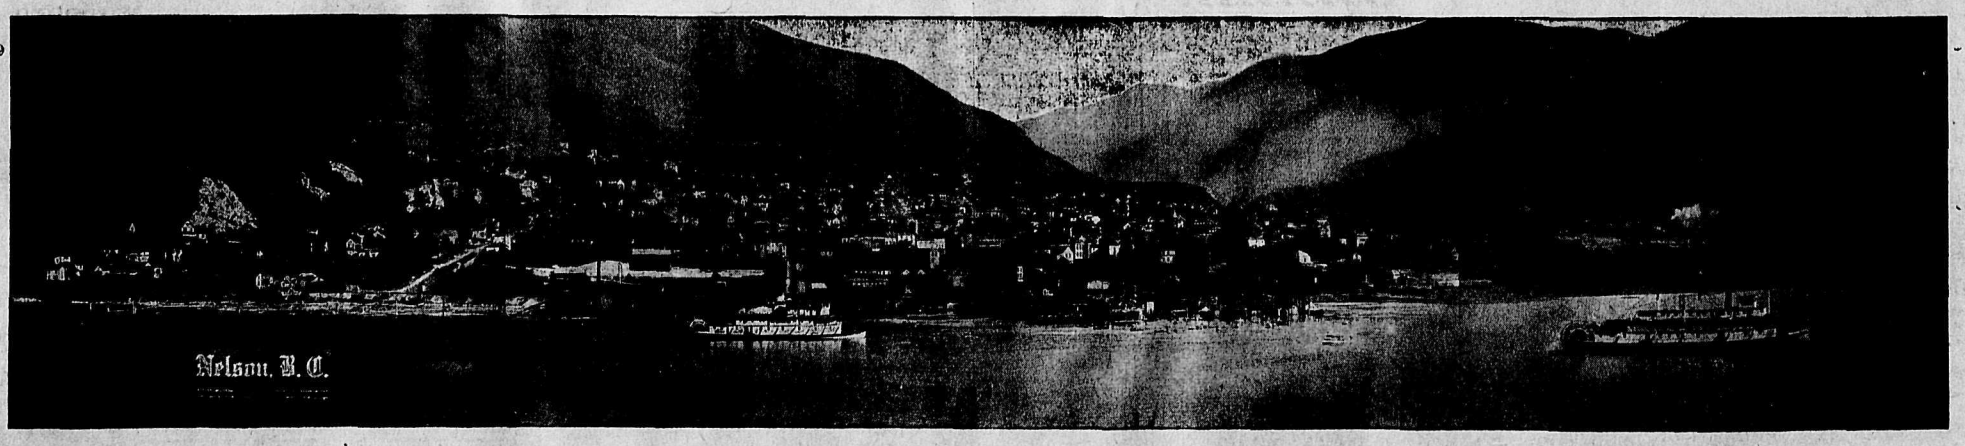
THE HOME CITY OF THE DAILY NEWS



NICE PLACE, ISN'T IT? ALWAYS ROOM FOR MORE ENTERPRISING CITIZENS

SOME FACTS ABOUT NELSON, B. C.

NELSON, the capital city of the Kootenays, situated on the West Arm of Kootenay Lake, is the commercial and judicial center of Southeastern British Columbia, and is a clean, prosperous, healthy city with a population of between six and seven thousand people.

Nelson is the trading center of one of the finest fruit growing districts in British Columbia.

The mining and smelting industries of the Kootenays are equal to the best, and Nelson gets a large share of the business connected therewith.

Nelson is the most important manufacturing and industrial center in the Kootenays.

Nelson has lacrosse and hockey, tennis, cricket, football, baseball, rowing, launching and shooting clubs, and the citizens go in for all outdoor sports, while the fishing is superb, and second to none in British Columbia.

Nelson has six churches, a Salvation Army citadel; public and high schools, private schools and kindergartens.

Nelson is the wholesale center of Southeastern British Columbia.

Nelson has four chartered banks; and the best general stores between Calgary and Vancouver.

The postal revenue of the Nelson post office is over $21,000 annually, making Nelson rank as the third city in British Columbia.

Nelson has the best hotels in the interior of British Columbia.

Nelson owns and operates its own electric light and power plant, having, during the past year, completed at a cost of about $250,000 a hydro-electric plant on Kootenay river, nine miles below Nelson, and at present have installed one unit with a capacity of 1250 horse power, but have made provision for the developing 6000 h. p. when needed. Incidentally, Nelson is the best lighted city in British Columbia.

Nelson has leased and operates two decimal five miles of street railway.

Nelson owns and operates its waterworks system, and has fifteen miles of water mains.

Nelson has eighteen miles of sidewalks.

Nelson has ten miles of sewers and on account of the gradual slope the drainage is perfect.

Nelson has a paid fire department, with a central hall and three sub-stations, with the Gamewell fire alarm system installed.

And with these Nelson has scenic attractions which make it the best residential city in British Columbia today.

The Daily News has a telegraph service equal, if not better, than any paper published in British Columbia. Maintains special correspondents at all important points in Canada and contains the announcements of representative city manufacturing firms, merchants and real estate firms of the city.

NELSON NEWS OF THE DAY

R. Tyler is leaving today for the prairie country.

John R. Wallace of the Fernie Free Press, is in the city on business.

James T. Martin, local manager for the Canadian Fairbanks company, has gone to the coast on business.

Queen City Rebekah lodge No. 16 I.O.O.F. will confer the initiation degree at their regular meeting this evening. A full attendance of officers and members is requested.

R. R. Bly has purchased the Silver Grill Cafe and has had the place thoroughly renovated and decorated. He expects to open today a first class restaurant. It will be known in future as Bly's Restaurant.

The special committee of the board of directors of the Nelson Agricultural and Industrial society, appointed to take charge of the Nelson exhibit at the Calgary fair, will meet in the city hall this afternoon at 3 o'clock.

The company publishing La Patrie yesterday held a reception in Montreal, on the occasion of the opening of their splendid new building. The Daily News was kindly honored with a formal card of invitation.

A meeting of the local branch of the Canadian Bible society, will be held in the Congregational church building this evening at 8 o'clock. An address will be given by Rev. R. J. Bowen, district secretary for Alberta and British Columbia. The bible society is endeavoring to supply the settlers in Canada with the bible in 70 different tongues. Everyone interested in the Christian work is cordially invited to attend the meeting this evening.

In the circular just issued calling an extraordinary general meeting of the Kootenay Fruit Growers' association, a typographical error makes the date of the meeting Tuesday, April 30; it should have read Thursday, April 30.

At a cavein yesterday afternoon in the digging of the sewer just in front of the Bartlett house, one of the civic employees was buried under the dirt. There was no particular harm done, the employees escaping without even his spectacles being broken.

The annual general meeting of the Nelson lacrosse club will be held in Alex. Fife's barber shop tomorrow night at 8 o'clock. A turn out of all lacrosse men is urged, as in addition to the election of officers for the year, arrangements will be discussed for matches for the coming season and particularly a game at Kaslo on Victoria day, Monday, May 25.

There was a bad outburst of the storm drains on Sunday evening at the corner of Hendryx and Silica street, which was followed by another yesterday morning at the corner of Ward and Mill streets and by yet another on the Hall Mines road. The ubiquitous city engineer managed to remedy the trouble before any damage was done in any particular case.

There was a practice game of football yesterday afternoon on the recreation ground.

The thermometer yesterday varied between 48 and 62 degrees and on Sunday between 41 and 44 degrees. On Sunday there was a bad thunder storm which cut out the lights in the upper part of the town. The total precipitation for the 48 hours was slightly over half an inch.

Corporation of the City of Nelson

NOTICE

NOTICE is hereby given that under the provisions of Bylaw No. 80, "Pound and Dog Tax Bylaw," it is unlawful for any person to suffer any horse, mule, bull or cow, sheep, goat, pig or other cattle, or poultry to run at large within the limits of the City of Nelson.

Every owner of a dog in the City of Nelson is required to pay annually a tax of two dollars for each dog owned by him.

No person shall suffer or permit his dog to run at large in the City of Nelson for which such person has not paid the tax required of him and unless such dog shall have around his neck a collar or strap to which shall be attached a metallic plate to be supplied by the city on payment of the said tax.

Warning is hereby given that any person guilty of an infraction or violation of any of the provisions of the above named bylaw is in addition to the fees and charges set forth therein, liable upon summary conviction to a penalty of One Hundred Dollars and the costs of prosecution and in default of payment to imprisonment for a term not exceeding two months. By Order.

W. E. WASSON, City Clerk.
Nelson, B.C., April 8th, 1908

NOTICE TO CREDITORS

IN THE SUPREME COURT OF BRITISH COLUMBIA

In the Matter of the Estate and Effects of Charles C. Clark (deceased.)

NOTICE is hereby given that all creditors and others having claims against the estate of the said Charles C. Clark, deceased, who died at Nelson, British Columbia, on the 13th day of September, A.D., 1907, are required on or before the 10th day of May next to send by post, prepaid, or deliver to the undersigned, their Christian and surnames, addresses and descriptions, the full particulars of their claims, the statement of their accounts and the nature of the securities (if any) held by them:

And Further Take Notice that after such last mentioned date the administrator will proceed to distribute the assets of the deceased among the parties entitled thereto having regard only to the claims of which he shall then have notice, and that the said administrator will not be liable for the said assets or any part thereof to any person or persons of whose claims notice shall not have been received by him at the time of such distribution.

Dated at Nelson, B.C., this 10th day of April, A.D., 1908.

CHAMBERLAIN'S HAS THE PREFERENCE

Mr. Fred C. Hanrahan, a prominent druggist of Portsmouth, Va., says: "For the past six years I have sold and recommended Chamberlain's Colic, Cholera and Diarrhoea Remedy. It is a great remedy and one of the greatest patent medicines on the market. I handle some others for the same purposes that pay me a larger profit, but this remedy is so sure to effect a cure, and my customers so certain to appreciate my recommending it, that I give it the preferences." For sale by all druggists and dealers.

SHOP, VICTORIA ST., OPPOSITE OPERA HOUSE P. O. Box 496

Choice Fruit Lands

1. About 30 acres easily cleared with water running all through it, and part of which is good bottom land, lying on the north side of the Granite wagon road and about two miles from the city. Price $800.00, terms offered.

2. About 25 ares lying directly opposite the above on the south side of the wagon road, with ample water supply for all purposes. There is some excellent land on this piece. Price $600.00, terms offered.

3. About 25 acres adjoining the above and to the west of it, on which there is some choice land for fruit growing, and is easily cleared, there being little else but small brush. This piece is also well watered. Price $600.00, terms offered.

4. 11½ acres of excellent land, very level, with 2 acres cleared, 125 fruit trees planted, well fenced with three strands of barb wire; log cabin, stable and chicken house. Price $1500.00, terms. This property is only 20 minutes walk from the City. Full particulars can be obtained from.

R. J. STEEL

HUDSON'S BAY BLOCK NELSON, B. C.

Fruit Ranch for Sale

125 acres, only two miles west of Nelson on Kootenay Lake and the Canadian Pacific Railway. 25 acres set out in apples, cherries, plums, peaches, pears and other small fruits. 40 acres more can be planted.

1000 trees now bearing and 1200 more will bear in one and two years; also 500 trees in nursery. This is the oldest fruit farm in the district and considered the best.

For price and terms, apply to owners, McCALLUM HILL & CO, Regina, Sask., or to W. R. HULBERT, at the ranch, Nelson, B. C.

AMERICAN SONS OF ERIN

DUBLIN HOME RULE MEETING TODAY

TO FOLLOW LEAD OF VISITING DELEGATES

New York, April 20.—From every land where the memory of the Emerald Isle is kept green, loyal sons of the old sod have come to take part in the deliberation of the Irith Party's international conference, which will open tomorrow in Dublin. The meeting will be the most important in the history of the party, since the delegates will be caller upon to decide between the policies of conciliation or continued warfare with Great Britain. In settling this momentous question, it is generally admitted that the delegates from America will cast the deciding votes, and all eyes are one the men who represent the Irishmen of Uncle Sam's land in the conference.

If the four American delegates, James O'Callaghan of Boston, Michael J. Ryan of Philadelphia, James Fitzpatrick of New York and John Finnerty of Chicago decide for conciliation, nothing can prevent the beginning of a new era in Irish politics, the acceptance of half home rule as better than no home rule at all.

Should the Americans declare for war the extremist wing of the nationalists will continue to wage their campaign in the house of commons with greater vigor than ever. In the meantime the rival factions have agreed to a temporary peace.

Tomorrow's convention will be of historical interest. Both sides are prepared for a hard contest. John Redmond, the home rule or nothing leader, is battling for his political life. If he is overthrown William O'Brien will succed him.

What the Americans' attitude will be no one knows. Perhaps they will make the situation even more confusing than now by showing sympathy with the Sinn Fein movement in favor of abandoning parliamentary agitation and withdrawing the Irish representation from the house of commons.

The Sinn Feiners are not to be admitted to the convention at all, and, if rumors that their views are being favorably accepted in the United States proves true, a three-cornered fight may follow, which will tear the Irish party to pieces.

Without American support the Redmonites cannot continue their campaign. America practically supports the parliamentary party. The O'Brienites can do without financial aid from abroad, several rich Irishmen being included in their membership—among them lord Dunraven, lord Castletown and lord Limerick.

Without America's moral support, however, they cannot do anything, the Americans having behind them all the Irish parties in the British colonies. The latter will unquestionably follow American lead in the coming convention.

APRIL ROD AND GUN

With the advent of April the majority of sportsmen turn their thoughts to fishing and Rod and Gun and Motor Sports in Canada, published by W. J. Taylor, Woodstock, Ont., has published a spring fishing number. There are stories of fishing in Ontario, Nova Scotia, New Brunswick, Alberta and British Columbia, while an article descriptive of Kalliki—the new rod wood—is of deep interest to fishermen. A fine survey of the whole matter of international control of waterways by C. H. Wilson is worth careful study, embodying, as it does a long and careful study of the whole question from both sides. A paper on Guides and Their Patrons, written from a guides' point of view by a veteran guide ought to lead to a controversy as exciting as that on dogs vs. still hunters. Wolf hunting, deer hunting and deer preservation are but a few of the many good things in the number, while How One Settler Helps the Deer, should prove as widespread in its interest as the former paper by the same settler on How One Settler Treats the Deer. Indeed the many excellencies of the number are apparent from the opening paper to the closing page.

"ONE TOUCH OF NATURE MAKES THE WHOLE WORLD KIN."

When a rooster finds a big fat worm he calls all the hens in the farm yard to come and share it. A similar trait of human nature is to be observed when a man discovers something exceptionally good—he wants all his friends and neighbors to share the benefits of his discovery. This is the touch of nature that makes the whole world kin. This explains why people who have been cured by Chamberlain's Cough Remedy write letters to the manufacturers for publication, that others similarly ailing may also use it and obtain relief. Behind every one of these letters is a warm hearted wish of the writer to be of use to someone else. This remedy is for sale by all druggists and dealers.

IF YOU WANT A HOUSE

Don't think prices will ever be lower in Nelson. If you are looking for a home it will pay you to call and see what I have. The very thing that suits you may be on my list. Some of the terms are exceptionally easy, for instance, a small cash payment just to bind the bargain and the balance monthly should suit most people, better than renting as you are making a good investment for the price of rent. If you have cash a liberal allowance will be made on purchase price.

However, if you would sooner rent I will have some houses about May 1 and would advise you to leave your name as soon as possible; they won't go begging for long.

HUGH W. ROBERTSON
322 Baker St. P. O. Box 534

Position Vacant

Applications will be received by the undersigned up until 5 o'clock on Friday, the 24th inst., for the position of Chief of the Nelson Police Force. Applicants to state qualifications and experience.

W. E. WASSON, City Clerk.

Quebec, April 29—Nearly 4000 performers will be required for the grand pageant on the Plains of Abraham next July to represent the leading and heroic events in Canadian history. The grand stand, from which the pageant, with its background of river and battleships and distant hills, will be viewed, will accommodate 15,000 people. To enable all who desire to see the pageant to do so, several performances will be given.

At the state representation before the prince of Wales the tickets will probably run from $1 to $10 each, for it is intended to secure as large a return as possible of the cost for the benefit of the battlefields project. The public will be able to see the other performances for 10 to 50 cents each.

Mr. Larcelles, master of the pageant, has given out the list of scenes to be produced It includes Jacques Cartier planting the cross near the banks of the St. Charles; his carrying away of the Indian chief Donnaconna; the court of Francis I., when Cartier by the command of the king, relates his discovery of the western country; Champlain receiving his commission at the court of Henry IV.; another scene in the life of Champlain at Quebec; Mother Marie Incarnation, teaching the Indian children; Mgr. Laval receiving the marquis Tracy and his brilliant suite; Daumont de St. Lusson taking possession of the western country for the king of France; Frontenac receiving the message of sir William Phipps at the Chateau St. Louis; Domard and his 16 followers defending themselves against the Iroquois, and finally a grand tableaux of all the historic personages, troops, etc., with warships of different nations in the background, saluting the whole, and making what Mr. Lascelles declares will be such an assemblage as neither the old world nor the new has ever seen.

RICH ORE OF WESTMONT

VERY SATISFACTORY RETURNS OF SHIPMENT

EASTERDAY AT SLOCAN AND OTHER HAPPENINGS

(Special to The Daily News)

Slocan, April 20—Smelter returns from a shipment of 23 tons of ore from the Westmont show the ore to have contained something like 400 ounces of silver and $1 in gold per ton. This shipment was mined and sent to the smelter in 30 days by a crew of seven men, and after paying total expenses of about $1500 nets the owners $3500 or a little over $150 per ton. There is lots more of the same sort in sight and the expense bill on future shipments will be reduced by half. The Westmont is the 10-Mile property on which Frank Griffiths worked single handed and alone for ten years before making the first shipment of two tons that netted him just $75.

Archdeacon Beer of Kaslo, held Easter services at the church of England yesterday. The church was prettily decorated with white carnations and tulips. Appropriate music was rendered including a solo by Mr. Watson. The ladies of the church have organized a Guild with Mrs. E. W. Ham as president. The Guild is arranging to give a concert in the near future.

The usually small stream which supplies Brandon's and East Slocan's waterworks and breaks into picturesque falls as it plunges over the cliffs bordering the town, has been swollen by the melting snow and springs into a raging torrent, threatening serious damage to nearby houses and already destroying one or two gardens. Men are now working to save adjoining orchards and gardens.

Capt. McLellan has been transferred to Arrowhead. Capt. Kirby, late pilot of the Minto, is in charge of the steamer Slocan.

Misses Mabel and Lottie McVicar of Nelson, spent Easter with their aunt, Mrs. McVicar here.

Mr. Perkins of Alberta, is visiting Mr. and Mrs. W. Clough.

Kirt Zimmerman who has been in Spokane all winter, has returned to Slocan.

"Yes, Alice He Is My Son"

Scene from Wm. Faversham's great play "The Squaw Man." Sherman's Opera House, Friday and Saturday, April 24 and 25.

STRIKE IS OVER

Cumberland, April 20—The street railway strike, inaugurated Saturday morning on the refusal of the company to reinstatae two of the men discharged on account of gambling in the company's car barn, was amicably settled last night. The company agreed to reinstate the men on the condition that there would not be a repetition of the abuse complained of and that there would be hereafter a strict enforcement of the rules of the company against drinking, gambling, etc. It was agreed that should there be hereafter any disagreement on the part of either the company or the men, the company will settle with a committee of the men.

MONTREAL SUICIDE

Montreal, April 20—Henry McKinnon, marine engineer of Perth, West Australia, committed suicide in St. James hotel here today by swallowing a dose of cyanide of potassium. Drink and separation from wife and children are believed to have been the cause. McKinnon appears to have been well connected in Australia.

REAL TRAGEDY

London, April 20 — "Parsifal, Parisfal, your mother is dead." At the Grand theatre Saturday night Miss Keating in the role of Kundy, in Parsifal, was compelled to repeat the above line three times. There was a real tragedy behind these words. Just before the curtain went up Miss Keating had received a telegram from Chicago announcing the death of her mother. The strain was too much for her and she fainted three times. She left for Chicago after the performance.

RHEUMATIC PAINS RELIEVED

Mr. Thomas Stenton, postmaster at Ponty Pool, Ont., writes: "For the past eight years I suffered from rheumatism and during that time I used many different remedies for the cure of rheumatism. Last summer I procured a bottle of Chamberlain's Pain Balm and got more relief from it than from anything I have ever used and cheerfully recommend this liniment to all sufferers from rheumatic pains." For sale by all druggists and dealers.

GALLIHER'S RETIREMENT

At a meeting of the local Liberal association of Cranbrook, the following resolution was unanimously adopted:

"That this association learns with deep regret that the present member in the dominion house, W. A. Galliher, M. P., proposes to retire from public life at the close of the present term and will not offer himself as a candidate at the ensuing elections; that we place on record our appreciation of the valuable services rendered to this constituency and to the province and country generally by Mr. Galliher during the past eight years, particularly in reference to his efforts in securing the bounty on lead ores resulting in great benefit to this community; in procuring for the community an improved mail and telegraph service and in the establishment of much needed public works and buildings throughout the constituency.

OLYMPIC GAMES

Great Preparations Being Made for Coming Events in London

London, April 20.—With the closing of the entries in racquets today, and the beginning of the competition next Monday, the Olympic games to be held in London during the spring and summer are fairly on. While the racquets contest is a minor event in the long list of international championships to be decided, widespread interest is being manifested in it by tennis players and the prospects are good for a large field.

The great stadium which has been erected by the British Olympic association at Shepherds Bush is now nearly complete and is the most magnificent edifice ever built for an athletic carnival.

This stadium has been designed to accommodate 70,000 spectators, and, besides, contains rooms for the competitors officials and general public and a lot of sporting implements.

The centre is a turf arena 700 feet in length by 300 feet in width, around which has been laid a running track, having three laps to the mile, and outside of this again a cycling track, having 2 3-4 laps to the mile. The turf and tracks were laid last fall and are already in splendid condition and have been declared the best in England.

Alongside the arena is a swimming pond 100 metres in length, with a deep space in the middle for high diving and water polo, events which the committee believes will be among the most interesting of the meeting.

Entries for the various sports close as follows: Today, racquets; April 28, covered lawn tennis; April 30, gymnastics; May 11; lawn tennis; May 23, golf; June 1, rifle shooting, clay bird shooting, polo, rowing (except Belgium, Canada, Germany, Holland, United Kingdom); June 6, grass court lawn tennis; June 12, athletics, archery, cycling, swimmin, wrestling; June 15, fencing; June 27, motor boat races; June 28, yachting; June 30, rowing, (Belgium, Canada, Germany, Holland, United Kingdom).

Competition in the various sports is scheduled as follows: April 27, racquets; May 26, covered court lawn tennis; May 18, lawn tennis; June 1, golf; June 2, golf (continued); June 15, polo; June 20, final polo match; July 6, grass court lawn tennis; July 8, rifle shooting as Bisley, clay bird shooting at Uxendon; July 9, rifle shooting at Bisley, clay bird shooting at Uxendon (continued); July 10, rifle shooting at Bisley, clay bird shooting at Uxendon (continued); July 11, motor races; July 13, Olympic games in Stadium; July 27, yacht races; July 28, yacht races (continued), Olympic regatta at Henley; July 29, yacht races (continued), Olympic regatta (continued); July 30, Olympic regatta at Henley (continued).

GOT NO CLUE

London, April 20—Not a single clue has been found of private Moyer, who shot and killed Sergt. Lloyd at Wolseley barracks on Friday night. Moyer is an old soldier and was a private in the old Gordon Highlanders. He fought with his regiment through the Boer war. He also saw service on the frontier. He always carried firearms and it was said he would shoot on provocation.

RAILWAY EARNINGS

Montreal, April 20—Earnings of the Canadian Pacific railway for the week ending April 14th totalled $1,305,000, as compared with $1,479,000 for the same week last year. The Grand Trunk for the same period shows a decrease of $194,716, the figures being 1908, $694,285, and 1907 $89,001.

LAND NOTICES

NELSON LAND DISTRICT, DISTRICT OF WEST KOOTENAY.

TAKE NOTICE that A. F. Dudgeon of Nelson, B.C., occupation lumberman, intends to apply for permission to purchase the following described land:

Commencing at a post planted at the southeast corner of lot 1784, G 1, West Kootenay, B.C. ,thence east 80 chains; thence north 40 chains; thence west 80 chains; thence south 40 chains to point of commencement, and containing 320 acres, more or less.

Synopsis of Canadian Homestead Regulation

ANY available Dominion Lands within the Railway Belt of British Columbia may be homesteaded by any persons who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres, more or less.

Entry must be made personally at the local land office for the district in which the land is ituate. Entry by proxy may, however, be made on certain conditions by the father, mother, son, daughter, brother, or sister of an intending homesteader.

The homesteader is required to perform the conditions connected therewith under one of the following plans:

1. At least six months' reidence upon and cultivation of the land in each year for three years.

2. If the father (or mother, if the father is deceased) of the homesteader resides upon a farm in the vicinity of the land entered for, the requirements as to residence may be satisfied by such person residing with the father or mother.

3. If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements as to residence may be satisfied by residence upon the said land.

Six months' notice in writing should be given to the Commissioner of Dominion Lands at Ottawa of intention to apply for patent.

COAL—Coal mining rights may be leased for a period of twenty-one years at an annual rental of $1 per acre. Not more than 2560 acres shall be leased to one individual or company. A royalty at the rate of five cents per ton shall be collected on the merchantable coal mined.

W. W. CORY,
Deputy Minister of the Interior.

NELSON NEWS OF THE DAY

The public schools reopen this morning after the Easter holidays.

The city council will meet this evening at the city hall at 8 o'clock.

There was a fair muster at the first cricket game yesterday afternoon.

Charles Shannon has been appointed postmaster at Renata, the new postoffice on the Lower Arrow lake.

The water in the lake is now rising rapidly, there being between four and five inches of a rise recorded daily.

The annual ball will be given tomorrow evening in the Alice roller rink by the Ladies' Hospital aid society for the benefit of the Kootenay Lake general hospital.

Some very fair catches of fish were made on Sunday last, one party reporting three 2-pounders and an aggregate of 16 pounds of trout for two rods during the afternoon. The thunder storm of the evening spoiled the sport to some extent.

A sermon was preached at last night's service at the church of Mary Immaculate by Father Lawrence, O.M.I. This evening there will be preached the first sermon by the well known missionary, Father Fallon. For the remainder of the week there will be special mission services undertaken by these two clergymen, aided by Father Althoff.

W. F. Teetzel will hold his first meeting as commissioner to adjust squatters' rights at Creston on Thursday next at 10 a.m. Mr. Teetzel, as already announced will adjust the claims of squatters in occupation of lands embraced within the boundaries of the reserve situated on the Kootenay river in the vicinity of Creston. The meeting will be held in the office of the deputy mining recorder at Creston.

The promises to be a very large and representative attendance of Englishmen and their friends, together with those of English descent at the St. George's day banquet which is to be held at the hotel Strathcona on Thursday next.

To an extent which is not perhaps realized houseowners are improving their places and there is quite a lot of house building going on but not nearly as much as the needs of the city justify.

There was a large number of guests at the I'O.O.F. ball given last night in the Alice roller rink. The music was good and the refreshments excellent and altogether a very good time was had by those participating in the first dance after the Lenten season.

At a meeting of the freight rates committee of the board of trade a letter from the secretary of the board of railway commissioners for Canada was read and considered. The letter stated that the present commissioners were *willing to go on with* the case between Portage la Prairie and Winnipeg upon the stenographic notes left by the late chairman of the commission. If, however, any objection to this course were offered they would rehear the whole case. The Nelson board of trade replied pointing out the great expense and inconvenience to those concerned to go from Nelson to Ottawa and that a case had been prepared and was ready for submission to the commission for better rates generally to the Kootenay district and asking hat prospects there were of the commission commission coming to British Columbia in the near future. Pending the reply of the commission the action of the board in regard to the presentation of their case is deferred.

"IN MIZZOURI"

Good Company is Holding the Boards at the Nelson Opera House

In the company which last night presented the well known play "In Mizzouri" at the opera house probably has the best stock company which has visited it for some time past. If the city expects to have good companies visiting its first class opera house it must certainly support those who do come here who have any pretensions to being heard. Not that the new company had anything to complain of in the audience which they were confronted with last evening. There was a powerful counter attraction in the dance at the Alice roller rink, given by the popular Odd Fellows, but for all that the house was a good one. Tonight the play will be given again and there should be an even larger house as many who saw the play for the first time last evening will be pleased to see it again. In Mizzouri is a play which appeals to a good many people because of its pervading human interest. Many of those present last night had seen it before but the comparisons were in favor of the company now playing who did very well indeed. The melodramatic touch was never overdone.

A WORD OF CAUTION

People Who Rush off to Prince Rupert *Must Take Big Chances*

The Vancouver News-advertiser sounds a note of warning to those who think of going to Prince Rupert at the present time and the Prince Rupert Empire never fails to warn intending settlers of what they may expect to find in the new settlement. The News-Advertiser says:

A word of caution in regard to the rush of men to Prince Rupert would seem to be advisable and salutary. While there will undoubtedly be employment available for a large number of men later on, the demand for labor for some weeks to come at the site of the terminus of the Grand Trunk Pacific railway will be limited. Hotel accommodation at that place is also inadequate for the numbers now going up there and discomfort and inconvenience, if nothing worse, is likely to be encountered by many of the new arrivals. Nor for some time to come will there be much employment available for mechanics and tradesmen in *different lines. Until the surveys* of the townsite are completed—which is not likely to be before September, and probably later than that—there will be little or no demand for the services of carpenters and others. Even for laborers and rockmen on the grade of the railway, it will only be by gradual degrees that the contractors can give employment to large numbers of men. Under these circumstances men who have not the means to find board and lodging for themselves for several weeks will do well to postpone their departure for the north. Transportation companies and those engaged in the business connected with outfitting, naturally encourage the rush to the future railway terminue. But in the interests of intending emigrants to the north, this stotement of the situation may be timely.

TORY CONVENTION

No Definite Date Fixed Yet, but Will Be Held Here Shortly

W. A. Macdonald, K.C., returned from Halcyon on Sunday night after attending a meeting there of the executive of the conservative association of Kootenay. Those present were: R. S. Lennie and W. A. Macdonald, Nelson; R. B. McKibben, Rossland; N. F. Mackay, M.L.A., Kaslo; J. H. Schofield, M.L.A., Trail, representing Ymir; Wm. Hunter, M.L.A., representing Slocan; W. R. Ross, M.L.A., Fernie; Harry Parsons, M.L.A., Golden, representing Columbia; T. Taylor, M.L.A., Revelstoke, and L. E. Eaton, Conservative organizer for the province.

Mr. Macdonald said last evening that no definite date had been fixed for calling a nominating convention but one would be held in this city before long. A resolution was adopted protesting against the application to B.C. of the Aylesworth bill to amend the election act and a subcommittee was appointed, empowered to summon a convention speedily should occasion require it.

EDUCATIONISTS MEET

Winnipeg, April 20—The annual meeting of the Manitoba educational association opened in this city today with a good attendance. Hon. G. E. Coldwell, minister of education and J. A. McKercher, chairman of the Winnipeg school board, were speakers at the opening session. The convention will remain in session until Thurs. day.

RETAINS HIS TITLE

Abe Attell Defeated Eddie Kelly Yesterday at Sound Beach, Wash.

Seattle, April 20—Abe Attell retained his title as lightweight champion of the world at Sound Beach, Wash today, by defeating Eddie Kelly of Buffalo in the eighth round. Kelly was unable to land a damaging blow on the champion during the mill.

Attell gave a wonderful exhibition of footwork and cleverness and the Buffalo fighter tired himself out in attempting to land a knockout. In the seventh round Kelly went to his corner groggy from a series of hard rights to the jaw. In the first minute of the eighth, Attell floored his opponent with a right swing. A moment later the champion dropped Kelly again and referee John Reid stopped the bout giving the verdict to Attell. The fight was witnessed by 4000 persons.

EASTERDAY AT FERNIE

James McEvoy Resigns From the Service of C.N.P.C.Co.

(Special to The Daily News)

Fernie, April 20.—Easter Sunday was observed in the Anglican and Roman Catholic churches here in the usual manner by special services. The sacred edifices were tastefully decorated with a profusion of flowers and though the weather in the morning was showery and threatenoing the services were particularly well attended.

James McEvoy, chief engineer and land commissioner of the Crow's Nest Pass Coal co., has resigned his position here and will shortly sever his connection with it to accept a responsible one with the German Development Co., which owns and is about to develop extensive coal areas in the neighborhood of Calgary. Mr. McEvoy has been connected with the former company for a great many years in several capacities, as geologist, chief engineer, and land commissioner, and by his ability, conscientious devotion to duty, and general courteous manner, and the cordial and delightful way he and his wife have dispensed the hospitality of his charming home in the park has endeared himself to the people of Fernie. He has always identified himself with every movement that was calculated to advance the interests of the town and district and it is to his indefatigable perseverance that the Kootenay Rifles, of which he is the commanding officer, owes it existence and present high state of efficiency. While the people regret the loss of so public spirited a citizen they are delighted to hear of his well earned advancement.

VESTRY MEETING

Affairs of St. Saviour's Church Show Steady Progress

The annual vestry meeting of St. Saviour's church was held last night in the parish hall, there being a fair attendance, including a large proportion of ladies.

The rector reviewed the work of the church for the past year, which showed a healthy condition and a steady growth of the church's activities and expressed his gratitude to the officers of the various organizations for their help in carrying them on. The one matter at which he expressed regret was the lack of male teachers in the Sunday school.

The financial statement was presented by the people's warden, Mr. Geo. Johnstone, showing a general revenue of $3300 and other special income bringing the total up to over $5800. Certain repairs to the building which are urgently necessary were referred to by Mr. Johnstone, which occasioned some discussion as to means of providing for same, resulting in the appointment of a finance committee to prepare estimates for the coming year, to be presented to an adjourned meeting of the vestry, the committee consisting of Messrs. deVebber, Lay and W. Irvine, with the wardens and the presidents of the Woman's auxiliary, the Ladies' guild, the Altar guild and the Churchmen's club, Mesdames Bird, Bennett and Applewhaite, and Mr. Wye, respectively. The appointment of the poeple's warden was deferred to the adjourned meeting, which is to take place on Monday the 27th inst. The only other business completed was the adoption of the reports of the various guilds and societies and the reappointment of Mr. Fred Irvine as rector's warden and the election of lay delegates to the synod, consisting of Messrs. Geo. Johnstone, Fred Irvine and J. M. Lay, with Messrs. H. Bird, deVebber, G. H. Playle and J. E. Taylor as substitutes.

The rector made the pleasing announcement that the guarantee fund necessary for the appointment of a bishop for the diocese of Kootenay was nearly completed. Most of this money comes from the church societies in England and nearly the whole amount required had been arranged for so that the election of a bishop this year was probable.

Yes Mam

There's no better tea than T & B. Their Blend at 3 lbs. for $1.00 is a dandy.
