VOL. 7 NELSON, B. C., THURSDAY, JULY 30. 1908 NO. 83

CALLED AWAY

Sudden Death Yesterday of A. S. Farwell

NOTED MAN OF PROVINCE

WAS CONNECTED WITH ITS HISTORY FROM THE BEGINNING OF THE KOOTENAY—END CAME SUDDENLY AND UNEXPECTEDLY WHILE ASLEEP.

Nelson people received a painful shock yesterday morning when the sudden death of A. S. Farwell, the well known dominion land surveyor and long time resident of this city, was announced.

The deceased gentleman had retired to rest shortly after midnight and his friend, Harold Selous, not seeing him about as usual yesterday morning, went to his residence about 10:30 and quickly discovered that Mr. Farwell was dead.

As ascertained a little later, Mr. Farwell had gone to bed and as usual had read a little before going to sleep. Then he had extinguished his light and closed his old eyes for the last time.

According to Dr. Hawkey who was at once called in, the end came very quietly and painlessly between 4 and 5 o'clock yesterday morning.

The deceased had been complaining a little of late of indigestion and it was known that his heart was not strong, but otherwise he was hale and hearty for a man of his years, and his sudden taking away was most unexpected by those closest to him.

Mr. Farwell's death became very generally known by noon and was the chief topic of conversation on the streets of the city on which he had been so familiar a figure from and before the commencement of things in Nelson.

The cause of death was failure of the heart.

The funeral will take place this evening at 7:45, city time, from the funeral establishment of D. J. Robertson, on west Baker street. Rev. F. H. Graham, rector of St. Saviour's church, will hold the funeral service at the graveside.

Arthur Standhope Farwell, was born in Brixham, on the coast of Devonshire, England, 67 years ago, the son of an English church rector.

He came to British Columbia via the Isthmus and San Francisco in 1862 and resided at Victoria for many years.

Shortly after this province was taken into the Canadian federation he worthily filled the office of surveyor general under the first two provincial administrations.

In the early eighties he acted for the government of the dominion and the Canadian Pacific railway in locating the line of road through Rogers' and Eagle passes in the Rockies.

In 1884 he located and laid out the town of Farwell, now the city of Revelstoke, and for ten long years carried on, what became an historical law suit with the dominion government over the lands referred to, finally winning his case.

Early in the eighties Mr. Farwell, in company with Gilbert Malcolm Sproat, now residing at Victoria, visited the Kootenays and reported on the situation here to the provincial government.

Coming to what is now the city of Nelson in 1888, he camped out on Squire's point, and later surveyed and laid out the first eight blocks of the Nelson townsite and the following year he took up his residence here, spending the winter months with his friends at Victoria.

He was an active member of the executive committee of the Provincial Surveyors' association and was looked up to by all the profession, the public and the authorities at the coast for advice, and as the court of last resort in all matters concerning surveying and the laying out of lands in B.C.

Mr. Farwell was a conservative and in 1890 contested West Kootenay in the provincial legislature in company with Kelly ,Haskins and Brown. He was defeated by Kelly by one vote. In July, 1898 he again sought election but J. Fred Hume defeated him by a small vote and the following year in a bye-election, caused by Mr. Hume's resignation, Mr. Hume again defeated him.

The deceased gentleman was president of the Nelson club for a term recently and was a member of the Union cub, Victoria.

So far as could be learned last evening Mr. Farwell left no relatives in this country but had a brother, a married sister and Mr. justice Farwell, a cousin, in England.

The Daily News, through its Victoria correspondent, endeavored last night to obtain some authentic particulars of Mr. Farwell's long residence in B.C. and of his valuable services to the province from Mr. Sproat, but unfortunately that gentleman was out of Victoria last evening and could not be communicated with until this morning.

On Tuesday evening F. J. Deane spent several hours with Mr. Farwell at the Nelson club chatting over old times in Koo.enay and at the coast. Mr. Farwell seemed in good health and spirits and Mr. Deane yesterday when he heard of the sudden death, spoke feelingly of the previous night's pleasant conversation, referring to Mr. Farwell's splendid memory for past and gone events in B.C. and what a well stored mind he had.

At about 1:30 yesterday morning the two men separated after their long chat, and Mr. Farwell retired to take what subsequently proved to be his last long sleep.

Not seeing his friend about yesterday morning, and feeling a little anxious about him, knowing that he had been ailing a little of late, Mr. Selous went to his bedroom about 10:30. Mr. Farwell was in bed and apparently asleep. A book that he had evidently been reading, his spectacles and his watch were on the table at his bedside and it was only when Mr. Selous leaned over and looked more closely that he saw what had happened.

Dr. Hawkey was at once called in and later Dr. Arthur was summoned. Death, the doctors agreed, had come quietly, about five hours previously, or somewhere between 4 and 5 o'clock a.m., and the cause was failure of the heart.

YOUNG CONSERVATIVES

TONIGHT'S MEETING FOR THE PURPOSE OF ORGANIZATION

POLITICAL SITUATION EXCITES DEEP INTEREST

All arrangements have been completed for the formation of the Young Conservative club of Nelson and Fraiview Electoral Districts. The organization meeting will be held in the dining hall of the Alice Roller rink, and will be called to order at 9 o'clock, city time (8 o'clock, C. P. R.,), and those interesting themselves in the forming of the club say that they have received the most enthusiastic support in the initial canvass and that the future success of the club is assured beyond a doubt. These clubs of young men who evince a desire to learn more of the politics of their country are being looked upon with great favor by the older generation of politicians, as it augurs well for the future of the country when the young men show a decided inclination to take a real interest in the serious affairs of the nation.

LOOKING UP

United States Steel Corporation Reports Increased Business

NEW YORK, July 29.—An increase of business during the month of July is reported by the United States Steel corporation. The directors today declared the regular dividend and gave out a statement showing that the corporation's net earnings for the second quarter of the year exceeded those of the first quarter by $167,730.

The following statement as to increased bookings during July were given out: The average daily booking for the first 24 days of July are in excess of 26,000 tons per day, equivalent to 72 per cent of full capacity. This tonnage is well distributed, being composed of all grade of finished steel, with the single exception of rails, of which, up to the 24th inst., there has been no material increase in sales.

FIRST FATAL ACCIDENT

ALLAN M'PHEE KILLED ON THE NEW LINE

A FALLING TREE SMASHED HIS HEAD TO A PULP

(Special to The Daily News.)

MICHEL, July 29—The first fatal accident on the Eastern British Columbia railway, known as the Corbin road, now being built from the Crow's Nest line to the Flathead occurred yesterday morning at o'clock, claiming as its victim Allan McPhee, a native of Nova Scotia, aged 27 years.

McPhee had started to work in Murphy & Miller's camp at 7 in the morning and with other men was engaged in cutting down trees clearing the right of way, when a sudden gust of wind prematurely blew down a large tree that was being cut down by some of the men. When warned by the other men McPhee jumped, but instead of getting away from the falling tree he jumped right in its path. The falling trees smashed his head to a pulp, killing him instantly. The accident happened eight miles from the railway and his body had to be brought out over an old prospectors' train and was brought here for interment.

The deceased has no friends or relatives here and nothing is known of him except that he is from Nova Scotia.

CRISIS NOT OVER

Demand for Dismissal of Turkish Officials is Very Pressing

CONSTANTINOPLE, July 29.—The crisis in Turkish affairs is by no means over. The demonstrations that have been in favor of the sultan may at any moment turn against him if he does not yield to the demands of the constitutional party for the dismissal of the palace camarilla. It is believed that the sultan will make these concessions, although it will prove a difficult thing to do. Some of the officials already have been removed and it is believed that others will either flee the country or seek refuge at one of the foreign legations. It is apparent that the sultan is becoming uneasy. Troops yesterday prevented further demonstrations in front of the palace.

Chamberlain Ill

LONDON, July 29—Rt. Hon. Joseph Chamberlain, who arrived from the continent on Tuesday, is remaining in London for a few days, on his way to Birmingham. He is reported to be in a very grave condition.

SCHOLES LOST

Rowed Himself to a Finish at the Last

WAS DEFEATED BY GAZA

ARGONAUTS WIN THEIR HEAT IN COMPETITION WITH NORWAY—LEANDERS SO FAR GET THE [illegible] HEATS IN THE OLYMPIC EIGHTS.

(Canadian Associated Press.)

HENLEY, July 29—Lou Scholes of Toronto, was beaten here today by Von Gaza of the Viking club, Berlin, whose time was 9:47. Scholes got the water first and led for the first quarter, steering a fine course, but on passing the island he steered somewhat widely. Gaza held Scholes well and at half distance had a slight lead. From this out, it was a magnificent race, but Scholes was finally beaten. He spurted splendidly but could not reduce Gaza's lead. The time at half distance was 4:38. Scholes defeat has caused great sorrow in Canadian circles here. A large amount of money was lost on him. Scholes was confidnt of winning but at th finish he seemed dead to the world. Scholes remembers nothing about being helped out of his boat, in fact his hearing was defective for two hours after the race.

In the singles Hungary beat Italy in 10:06, and Leander beat Hungary two and a half lengths in 8:10 in their race. Bowler of Toronto and Blackstaff were equal at the end of the island, but the latter gradually got away a length or more. When 750 yards from the start, Bowler ran into a pile and after extricating himself, had another mishap a few yards further, running again into a pile and falling out of his boat. Blackstaff waited for him on the first mishap, taking the opportunity to blow his nose, but seeing Bowler fall from his boat, he pulled away leisurely. Bowler was rescued by a punt. The time of the winner was 10:03.

The Argonaut eight oared crew of Toronto, this morning won the first victory for the Canadian oarsmen in the Olympic regatta when they won their heat against Norway. They led from the start and were never hard pushed in any portion of the race. Their time was 8:06 for the full course and 3:55 for half the distance.

In tomorrow's program for eights, the Begians have the Berks' side and Cambridge the Bucks', in heat A. In heat B., the Argonauts have the Berks' side against the Leanders. The latter heat will be started at 1:15.

CANNIBAL FEAST

Three Boys Captured and Eaten by Natives in South Seas

VICTORIA, July 29—News of murders and cannibalism in the Bismarck archipelago followed by a German punitive expedition in which some villages were burned and the capture of a trading schooner and murder of Oliver Burns, a Sydney trader, in the Solomon group, was brought by the steamer Aorangi, which arrivd from Australia tonight via Honolulu.

Three mission boys were victims of the cannibalistic affair, in the Bismarck group, which is under German control. Rev. W. Dank's mission station was attacked at Baining and the three boys captured were killed and their bodies carried to the hills where a feast was held. The remains were roasted and devoured. Evidences of the feast was found by an expedition sent to punish the natives, one of the party, a German trader named Schmidt, was mortally wounded by a spear. The same mission was the s ene of a massacre in 1904 when the mission was rushed and five missionaries and teacher and five sisters were massacred. Oliver Burns, a victim of the natives in the Solomons, had a trading station at Marova Lagoon. His trading schooner, anchored off the coast was seized and looted and he was killed. Two blacks boarded the schooner to trade and while Burns was stooping down to pick up some goods he was struck from behind with an axe. The trader's rifle was then seized and the native crew of the schooner, three or four in number were killed. Kerosene was found in the vessel and it was scattered about and the schooner set on fire after being looted. The natives then robbed the dead man's store of everything and burned it.

Morava Lagoon is the headquarters of several traders, being a large copra base, and was formerly the headquarters of bands of head hunters. Arrivals from the islands, at Sydney, say that the repatriated islanders from Australia have reverted to savagery, having gone back to the vices of the white man without his redeeming points and settlers in the South Seas have estimated that a thousand repeating rifles have been secured by the blacks in various looting expeditions, and the settlers have had to arm themselves for protection in consequence.

Vancouver Suicide

VANCOUVER, July 29.—Allen Reid, manager of the Anchor Investment company of Winnipeg shot and killed himself in a fit of depression today. Deceased was employed at a salary of $100 per month, one-half in cash and the balance in shares, but the company failed to send the money and he was unable to meet obligations. The coroner's jury severely censure dthe company for neglect.

Cheering Reports

WINNIPEG, July 29—The Free Press received reports from over 200 correspondents today on harvest conditions in the Canadian west.

Cutting will be general from the 15th to the 20th of August.

Ninety per cent of the wheat has passed the blossom stage and is filling well.

The general opinion is that western Canada will reap a good average crop on six million acres.

Coarse grains are doing well and considerable barley is already cut.

Reports say the harvesting of winter wheat is general in southern Alberta, the returns exceeding expectations every where.

RELIGION AS AN ISSUE

TAFT'S UNITARIANISM CAUSING SOME ALARM

SOME REPUBLICANS ARE UP IN ARMS ALREADY

WASHINGTON, July 29.—"Unitarians teach today what the deists, such as Tom Paine, taught a century ago. Unitarians are no more Christians than are agnostics. Thousands of people throughout the country understand this and they will no more vote for judge Taft, who is an Unitarian, than they would have voted for Colonel Ingersoll."

This statement, privately made by the rector of one of Washington's leading churches, reflects sentiments that are now being heard on every side. The religion of judge Taft promises to become a campaign issue of considerable magnitude. The Rev. U. G. B. Pierce, pastor of the Unitarian church of which judge Taft is a member, has received hundreds of letters inquiring about the candidate's views on spiritual matters. Judge Taft, too, daily receives many communications of this character, and some of them are of an abusive character.

Some of Mr. Taft's friends are inclined to be alarmed by these attacks, which are constantly becoming more frequent. Reports have been received here that evangelists in various sections of the country have denounced Taft for his religious views and urged their hearers not to vote for him. A majority of Washington politicians, however refuse to consider these attacks seriously. They point out that Jefferson, Adams Lincoln and Grant were all unorthodox in their religious views, but that attempts to defeat them on those grounds failed miserably.

All Soul's Unitarian church, of which Mr. Taft is a member, is an attractive but not impressive looking structure, covered with ivy, and of pleasing architecture. In its steeple hangs a historic bell. This was cast in 1822 by Paul Revere, the famous bell founder, whose midnight ride set all New England in a blaze against the British. It was hung in its belfry almost a century ago and for many years was the only bell in the city, and was the only bell of any size. It was used not only by the Unitarians, but by other denominations, and pealed out equally to call the people to holy day celebrations or church festivals or to warn the city of fire.

Men famous in the history of the country have been members of this church and have attended divine services there. John C. Calhoun was a communicant; also Daniel Webster, John Quincy Adams, justice Morrill, J. D. Long and George Bancroft, the historian. Rear admiral Evans is a member, as is the Rev. Edward Everett Hale, who frequently occupies the pulpit.. Other co-members with Mr. Taft are Dr. Truman Abbe, representative Mann of Illinois, Ainsworth R. Spofford, former librarian of congress, and John W. Weeks of Massachusetts.

D. Pierce, the pastor, is a young man, a native of Providence who was raised a Baptist He went to school as a boy in Boston and took a post-graduate course at Harvard. He was called to All Soul's some eight years ago and in that time has become one of the foremost pastors of the city.

About the time he first entered the pulpit as a Baptist preacher he began reading Darwin and Huxley and re-adjusted his religious views to conform with the more advanced teachings of science. Then he turned to the Unitarian church.

So far as All Soul's is concerned it is a practical church. Its members believe in doing practical things. Its charities are many. It maintains for one thing, annually, a visiting nurse, paying all the expenses, and is the only church of any denomination in Washington which does this. Its membership embraces some of the most progressive citizens of Washington, people of culture and refinement. On its roll are those who have been previously Methodists, Baptists, Catholics, Presbyterians —in fact all creeds are represented. As Dr. Pierce says, the Unitarian church does not ask a man his religion any more than its asks his politics. It is a church of freedom.

CANADA'S MISSION

London Telegraph on Quebec Battlefields Celebration

LONDON, July 29.—The Telegraph says today: "The Quebec battlefields are hallowed ground, consecrated forever to the genius of the Canadian nationality within the empire, which one day will play a great part in the world's affairs. The highest mission of Canada is to stand between Great Britain and the United States, holding each by the hand."

IS IN TROUBLE

Lloyd George Concerned As to the Kaiser

STUPENDOUS WAR WASTE

CHANCELLOR OF THE EXCHEQUER DEALS WITH EUROPEAN COSTS OF WAR AND REGRETS POSITION INTO WHICH GERMANY IS PLACED.

LONDON, July 29—Addressing a meeting at Queen's hall last night in connection with the international peace conference, David Lloyd George, chancellor of the exchequer, dealt at considerable length upon the scare rumors concerning the relations between Great Britain and Germany.

"It is not to be wondered at," the chancellor declared, "that Germany was nervous at alliances and understandings concluded abroad, when her position between two powerful military nations was considered.

"It is deporable," said the chancellor, "that two great and progressive communities like Germany and Great Britain should not be able to establish a good understanding, such as we have concluded with France, Russia and the United States. We are spending each year £60,000,000 preparing for war, which is a stupenduous waste."

To preserve the discipline of the navy, sir Percy Scott, whose command of the cruiser squadron has still a year to run, has been appointed to command a small squadron which will visit South Africa in the autumn during the sitting of the convention of the federation of the South African colonies. The appointment is evidently made to remove the possibility of further friction between sir Percy Scott and lord Charles Beresford.

IS PRACTICALLY OVER

QUEBEC RETURNING TO NORMAL EXISTENCE ONCE MORE

SAILORS AND SOLDIERS DEPART FOR HOMES

QUEBEC, July 29.—With the departure of the prince of Wales at daybreak this morning, Quebec's tercentenary celebration is practically concluded. The harbor is emptied of the splendid fleet of warships with the exception of the two French vessels, which probably will remain until the official closing on Friday.

The military camps are likewise deserted. The last of the army on the ground that were under canvas at Savard park entrained today and were carried back to their homes in three special trains over the C. P. R. line. The 5th field ambulance corps left for Montreal this morning, the 21st Windsor regiment and the Canadian army service corps left for their respective destinations in the afternoon. Tomorrow's departures from the camp of the permanent forces on De Salaberry street will include the northwest mounted police which acted as the prince's personal escort and the Royal Canadian Dragoons with the Toronto and St. John's detachments.

The R. C. H. A. will be the last of the military forces assembled for the celebration to break camp, their departure being fixed for August.

With sailors and soldiers gone and the population almost normal, Quebec life is drifting back to its former channel. The decorations are still there, the brilliant illuminations continue to shed their bright light over the city by night, but the life and soul of the celebration went out when the prince and his warships sailed away this morning.

Today's events consisted of another performance of the pageants, the second last of the series, a day fireworks display at Victoria park for the children and this evening a civic reception at the city hall. There was a fair gathering at the pageant grounds and an enormous crowd at the French-Canadian playground for the fireworks display. The civic reception in the evening was carried out on an elaborate scale and close to 2000 citizens paid their respects to mayor Garneau in the course of the evening, his recent knighthood being the subject of warm congratulations. The exterior of the building was brilliantly decorated with flags, bunting and thousands of electric lights. For this evening's function an elaborate scheme of decoration was carried out within the building, the council chamber, where mayor Garneau received the guests, showing an especially fine effect of the decorations.

MANY DROWNED

Devasting Typhoon Caused Heavy Damage and Loss of Life

CANTON, July 29.—In a devasting typhoon here yesterday morning, thousands of native craft, including the entire fleet of flower boats and many launches, cargo boats and lighters, were swamped, many people being drowned. The British gunboat Robin and the French river gunboats Argous and Vigilante went adrift and were considerably damaged. The West river steamer Tung Kong foundered, the officers of the steamer Chay Sang rescuing the captain and his crew, 78 in all. In the city numerous houses collapsed, entombing the occupants. The public gardens were wrecked.

HE WAS SANE

Unusual Marriage at Cripple Creek—Tried to Save Him

CRIPPLE CREEK, July 29.—A marriage at the county jail took place under unusual circumstances last night, when Prof. Hans Albert, a musician, formerly of Omaha, and Miss Grace Hadsell, of Ottumwa, Iowa, daughter of the United States marshal at that place, were declared man and wife by the Rev. Mr. Inman, a Methodist minister of Goldfields, Col. The arrest of Albert was caused on Saturday to prevent the marriage, the charge being insanity.

INVITED TO EDMONTON

ALL THE WEST WANTS TO GREET LORD ROBERTS

NEW PORK PACKING PLANT WILL START SEPTEMBER

EDMONTON, July 29.—This forenoon mayor McDougall received a telegram from premier Rutherford at Quebec stating that earl Roberts had definitely decided to accept the invitation of the president of the C. P. R., sir Thomas Shaughnessy, to come west as far as Banff and suggesting that he should be invited to visit the capital of Alberta. This afternoon mayor McDougall wired an invitation to visit Edmonton to the great field marshall, who will leave Quebec in the course of a few days en route for western Canada.

The J. Y. Griffin Co. stated that the price paid for hogs to the farmers will rise just as soon as the pork packing plant is in a position to commence operations. It is the intention of the company to ensure a steady supply of hogs at the packing plant by making the raising of hogs more profitable to the farmers. The plant of the J. Y. Griffin Co. will be in operation by September 1st according to the present expectations of Mr. Burkhart. It is the intention to kill 200 head of cattle, hogs and sheep per day, from the start, if that much stock can be secured. The company has at present a number of buyers out on the road in the province arranging for supplies of stock.

HARVESTERS IN DEMAND

RECOURSE MAY HAVE TO BE MADE TO GAOLS

LARGE ARMY OF MEN ABSOLUTELY REQUISITE

WINNIPEG, July 29—"The demand from all parts of the province for harvesters at the present time," said provincial immigration agent Burke, this morning, "is enormous. I can place at least 1000 men at present. This shows the anxiety of the farmers to secure their help in time to save the crop, which by all accounts will be fully matured before the middle of August.

"We have of late been sending out men in all directions and while there were many unemployed a week ago, now we cannot meet the demand. However, I may say this, that there are large numbers of men holding back, speculating on receiving higher wages, or at least they give that as their excuse for not going out and it is peculiar to see some of them who have called daily at this office begging for work, now that they have a chance to go out, making excuses, when opportunity offers."

"How many men will be required for the harvest in the west?" Mr. Burke was asked.

"My estimate is about 36,000; that is 19,000 for Manitoba and 17,000 for Alberta and Saskatchewan."

"This would be a proper time," Mr. Burke went on, "for releasing the better class of prisoners from the jails on parole to assist in the harvest. There will be work for them. This system has been adopted more than once in the United States and proved most successful. Of course, the men would have to be weeded out as you would weed good weeds from bad weeds, by selecting the best. There is no doubt that this would have a good effect, as the men would rather work than return to their cells."

As an instance of the demand, Mr. Burke referred to the village of Strassburg, Sask., a new settlement, where there is at present a demand for 100 men.

VANCOUVER FIRE

Loss About $10,000—Deal Closed Up by Great Northern

VANCOUVER, July 29.—Fire did $10,000 damage about 9 o'clock this evening to the Woods and Spicer mill near the Cambie street bridge, False Creek. The dry kilns were burned to the ground and a large quantity of shingles lost.

The Great Northern has formally taken over the holdings of the V. W. & Y. in the city and along the waterfront. The operations of the latter company on the second narrows bridge and along the north shore of the Inlet will be begun ere long.

MORE COKE OVENS

C. N. P. C. Co. Starting to build Fifty New Ovens

FERNIE, July 29.—The Crow's Nest Pass Coal company have commenced the construction of 50 additional coke ovens to supply the growing market. Twenty-eight will be built at Fernie and 22 at Michel.

Nearly on Top

SPOKANE, July 29—In the league baseball game here today Vancouver scored 11 to Spokane's 6 . This leaves the standing of Vancouver only three points behind Spokane, which heads the list in the Northwest league.

NEW BILLETS

Who Are Now to Fill the Fresh Appointments

A LIBERAL OPPORTUNITY

QUESTIONS OF PATRONAGE NOW BEING DISCUSSED AT OTTAWA —W. GALLIHER MAY POSSIBLY BE NAMED AS RAILWAY COMMISSIONER.

(Special to The Daily News.)

OTTAWA, July 29.—Hon. F. Oliver, minister of the interior, will leave for an extended visit to the west in about a fortnight.

At the series of cabinet meetings which will commence on Friday next a number of important matters will have to be disposed of and general appointments which cannot be long delayed will probably be made. These will include the two civil service commissioners who will be responsible for the carrying out of the new act, which comes into force on September 1. There are thee new posts on the railway commission to be filled, in connection with which the names of W. A. Galliher, M. P., Hon. W. B. Emmerson, Wm. Whyte of the C. P. R., mayor Darcy Scott of Ottawa, and several others have been mentioned.

Other appointments which must be made soon include a king's printer to suceed Dr. Dawson; a law clerk of the house of commons to succeed the late A. McCord, and two purchasing agents for the departments.

Less urgent appointments include new lieutenant governors for Quebec and Ontario, and a senator for Nova Scotia. The commissioners to rebuilt the Quebec bridge are also to be named and a staff of officials appointed to put into working order the government old age annuities scheme authorized by the legislation of the recent session.

GANS AND NELSON

Forty-Five Round Bout Fixed for September at San Francisco

SAN FRANCISCO, July 29.—James Coffroth last night arranged for a 45-round bout between Joe Gans and Battling Nelson, to take place on the afternoon of September 9 at the Mission street pavilion, the scene of Gan's defeat July 4. Forfeits of $2500 a side are to be posted. Articles were signed by Ben Selig for Gans, Willis Britt for Nelson and Coffroth. According to the articles 70 per cent of the gate receipts will go to the fighters; 60 per cent of that to the winner and 40 per cent to the loser. The weight will be 133 pounds at the ringside, stripped.

FREIGHT RATES

Arbitration Postponed on Eastern Trunk Lines

NEW YORK, July 29.—Announcement was made yesterday that a committee of arbitration to decide the differences between the eastern trunk lines and bodies of manufacturers and shippers which have arisen over the proposal to increase the rate on class freight is now in process of formation. The committee will consist of 15 men named by representatives of 20 business associations of the west and middle-west, and 15 business men selected by the railroads.

MENTALLY INCAPABLE

Embezzler Adjudged Insane Despite Physicians' Finding

PENSACOLA, Fla., July 29.—The hearing of the testimony presented in the criminal court in the case of George C. Scudamore, alleged embezzler of $70,000 from the Pensacola Bank and Trust Co., ended last night. The court decided Scudamore to be mentally incapable of handling his defense. The defendant was adjudged insane some months ago and sent to the asylum. There the physicians, who were with him for a number of weeks, declared him to be feigning and dismissed him from the asylum.

COAL MEN RIOT

Montenegrians Hold Law Officers at Bay—Order is Restored

WHEELING, W. Va., July 29.—In a riot today at the Providence coal mines, in Belmont county, Ohio, 30 Montenegrians, employed as miners, held 400 native and foreign miners at bay until the arrival of sheriff Amrin and a posse, when, after a brief but fierce struggle, peace was restored temporarily at least. Four persons, including superintendent Thomas, were injured. The Montenegrians were discharged yesterday because they loaded inferior coal on mine cars.

THAT TYPHOON

Later Accounts Say Heart-Breaking Scenes Were Enacted

HONGKONG, July 29.—Reports from Nanton say the scenes following the typhoon of Monday night last are heart-rendering. Thousands of persons were drowned. The typhoon, in its loss of life and damage to shipping, eclipsed the typhoon of 1906. Details received here show that the loss to European shipping was less, but that over 100 native vessels were wrecked.

TO CLEAR

All our two piece Summer Suits at a Special Discount of 20 per cent off ordinary prices.

These suits are mostly Irish Homespuns, unshrinkable and all wool, others are Fancy Tweeds and Flannels.

OVER THE DIVIDE

The death of Arthur Stanhope Farwell, the well known dominion land surveyor, in this city early yesterday morning, came with a suddenness that shocked and pained the dead man's many friends and acquaintances, not only in Nelson, but throughout the province of British Columbia, where the deceased and his life's work were widely known and recognized.

A simple English gentleman, and the son of one, it would be difficult to name a personal enemy of the deceased's. Of a taciturn but extremely kind hearted disposition, a man of the world, well read and with a well stored mind, Mr. Farwell was a most delightful companion. Generously disposed when necessity called, a good and kindly friend to a few intimates, he won the unqualified respect and regard of a wide circle of acquaintances, and his well known tall figure, slightly bowed, at times, with increasing years, will be honestly and sincerely missed in this city.

MINARD LINIMENT CO., LIMITED.

Dears Sirs: This fall I got thrown on a fence and hurt my chest very bad, so I could not work and it hurt me to breathe. I tried all kinds of liniments and they did me no good.

One bottle of MINARD'S LINIMENT, warmed on flannels and applied on my breast, cured me completely.

C. H. COSSABOOM.

Rossway, Digby Co., N. S.

So far as the interior of British Columbia is concerned, a pioneer of pioneers, in his day and generation, Mr. Farwell did the work that came to his hand with an exactness and completeness that was above reproach. He had nearly reached the Psalmist's alloted time span of three score years and ten, and the end came as he would have wished it.

A DAY'S JAUNT

Truly Kootenay is a country of rapid growth! Few of the Argonauts who, some 15 years ago or more, came into Nelson via the old 49-creek trail in search of gold and silver, enduring the hardships incidental to the early trail blazers, had the temerity to suggest that in this short space of time a wagon road would replace the old prospectors' trial, and least of all the possibility that that wagon road would lead to two large hydro-electro plants one owned and operated by the city of Nelson and the other supplying power and light to mines and smelters in the Kootenay and Boundary that bid fair to be numbered among the largest in their particular line on the continent of America. And still fewer of those early pioneers ever even thought that along that 10 miles of wagon road would be dotted fruit ranches and truck gardens supporting many happy and prosperous families.

The majority of Nelson residents have for the past few years devoted a great deal of their attention to the fruit growing industry and its progress along the west arm towards Procter, but a very small portion of the population has been aware of the fact that along the Granite road between Nelson and Bonnington Falls a steady influx of settlers has been rapidly transforming the wildness of early days into one vast orchard tract and farm area.

A drive from Nelson over the wagon road to Bonnington Falls will show that that section of country is keeping pace with the west arm of the lake in the matter of clearing and settling homesteads.

Between Nelson and the old Poorman mine there are no less than from 25 to 30 settlers who have houses built, areas cleared and planted of from one to ten acres, and in the vicinity of Granite there are at the present time no less than seven dwellings in the course of completion, and many acres of land are being prepared for planting.

All of these newcomers are in direct touch with the business firms of Nelson and will, as years roll on, be an added asset of immense importance to the city trade.

Apart from the satisfactory signs of settlement, the drive in itself offers one of the prettiest pieces of scenery to be found in the vicinity of Nelson, as at all times one is in sight of the Kootenay river, with its swiftly running rapids, and the magnificent Kootenay falls, which in themselves will repay the time and expense of the drive, and it is safe to say that when the public becomes better acquainted with the possibilities of the Granite wagon road, for a holiday outing, and for a good day's fishing, many will avail themselves of this as a change from the usual pleasure jaunt in rowboat or launch on that beautiful stretch of water known as the west arm of Kootenay lake.

THE COLUMBIA

Professor Lyman's Forthcoming Book on the Famous River

The Daily News received yesterday from Prof. W. D. Lyman, of Whitman college, Walla Walla, Wash., a call. Prof. Lyman is also corresponding for the Spokesman-Review of Spokane. He is engaged in the preparation of a book on the Columbia river as one of a series being brought out by G. P. Putnam's Sons of New York and London, known as "Historic Rivers of America." This is the first effort to present a book distinctively on the Columbia river. As a leading literary undertaking it is one of much interest, and cannot fail to excite the interest of this region. It is the intention of the author and publishers to give some special prominence to Nelson and the magnificent lake district by which it is surrounded. As the joint possession of the U. S. and B. C., and as the grandest scenic river of the continent, as well as most interesting historically, the Columbia is worthy of special attention.

Prof. Lyman expressed himself as surprised and pleased at the remarkable development of Nelson and vicinity. Being himself from Walla Walla, Wash., one of the finest fruit and garden regions of the west, he was much interested in the remarkable showing of the Kootenay and Arrow lake regions in those lines.

KETTLE VALLEY FARMERS

Largely Attended Institute Meeting Held at Grand Forks

(Special to The Daily News.)

GRAND FORKS, July 29.—At the largest attended meeting of the Kettle Valley Farmers' Institute ever held in this city, Prof. Thornber, horticulturist of the Washington State Agricultural college, Pullman, and W. H. Doble of Victoria delivered addresses last night. Mr. Doble spoke on fertilizing the soil—the three principle plant foods—nitrogen, potash and phosphoric acid. The speaker pointed out that it was one of these three elements which exists in the smallest quantity that will measure the crop, and that the abundance of any one of these elements cannot compensate for a deficiency of any one of the others. Experiments were advised to find out what were the requirements of the various soils and numerous names were given of those who had used commercial fertilizers successfully in this province. Prof. Thornber took up the mistakes in planting orchard fruits and the necessity of growing few varieties and good sellers, the thorough cultivation and management of the orchard, systematic and regular pruning, and the necessity of cover crops to add humus to mature the trees before winter. The professor then referred to the common orchard pests, the necessity of thinning most fruit trees, the making of an honest pack and the maintaining of a market once secured. Several questions were put to the speakers during the evening by the ranchers in this valley, and no doubt but what considerable good will come of last night's meeting.

What might have been a serious accident occurred at the Granby smelter here last evening about half past six. While dumping hot slag over the dump the track gave way and four of the large pots which convey the red hot slag from the furnaces to the dump went down the embankment, a distance of between 60 and 70 feet. The dinkey engine, which was being run by T. Hickey, narrowly escaped following the pots, only hanging on by the hind wheels. All the men who could be got at the time were rustled from the city to work on the wreck.

Cedio, the Italian who was sentenced to be hanged at the last assizes at Greenwood for the wilful murder of Louise King in November, 1906, is to be executed at Kamloops on Friday, the 31st instant.

Rol Sibert of Republic was shot by a one-armed half breed named Charles Phillips about five miles out from Republic on Saturday last. The two men had some trouble at the celebration which was held in that city on the Fourth of July and the half breed threatened to kill Sibert the first chance he got. Some years ago Phillips shot a policeman in Seattle and in attempting to make his get-away his arm was shot off. He served a term in the penitentiary for this crime and has always been considered a bad man ever since his release. The commissioners of Ferry county have offered a reward of $250 for the capture of Phillips, dead or alive, but so far nothing has been seen or hear dof the breed.

Jack Coryell, who for some years has been residing in South Africa, has returned to his home in this city and expects to remain here.

HARROP NOTES

Small Fruit Season Now Over—May Build Second Church

(Special to The Daily News.)

HARROP, July 29.—The small fruit season in this district is now practically over and with its close the busiest and most productive season ever known in this settlement can be recorded.

Extensive clearing is now being done in the vicinity. Messrs. McKenzie, McAstocker and Motion have let contracts for the clearing of the whole of their properties.

A dance was held here on Friday evening which was highly successful, almost all the residents being present.

Church and Sunday school services are now held regularly and it is highly probable that a second church will be erected before the fall as a committee are now at work arranging for the purchase of a site. A church picnic is to be held two weeks hence.

Mr. and Mrs. P. Southworth spent Monday and Tuesday in Nelson.

Dr. La Bau was a visitor here yesterday.

Mr. Rodgers of Creston who recently purchased the Southworth ranch here, arrived here today and will arrange for several improvements upon the property.

BY PURE LUCK

Well Kniwn Coast Hunter and Miner Nearly Dead in Bush

(Special to The Daily News.)

VICTORIA, July 29.—Wandering for four days in the woods near Scotia bay, John Sen, a well known hunter and miner, nearly came to his death from starvation but by superhuman efforts managed to reach civilization before collapsing, and after a day's rest at Atlin is now quite well.

The steamer Gleaner recently brought twelve head of cattle from Cariboo Crossing and landed them at Tagish lake, from which point Mr. Sen undertook to drive them over the two-mile portage to Atlin lake. On arriving at Scotia bay, Atlin lake, the cattle had a run in the water, and on coming out stampeded and took to the woods with Sen in pursuit. He tracked them until dark, when he found that he was lost without rifle or food of any description. For four days he dragged out an existence on unripe berries, and on the third day caught a moose calf, but was too weak to hold it. By pure luck he wandered in the right direction, and was picked up outside the camp in a state of complete exhaustion.

FRIGHTFUL ACCIDENT

Step-Son of W. K. Vanderbilt Killed in Automobile Mixup

PARIS, July 29.—M. Sands, a step son of W. K. Vanderbilt, was killed in a frightful automobile accident which occurred at 7 o'clock this morning near the Chateau St. Louis De Polssy, 20 miles from Paris. Mr. Sands was riding alone with the chauffeur when the automobile which was spinning along at a fairly high rate of speed, left the road and struck a tree with terrible force. The car was overturned and Mr. Sands and the chauffeur were pinned under the wreckage. The gasoline tank exploded and the wreck caught fire. As soon as help arrived Mr. Sands and the chauffeur were extricated but they had been horribly burned and maimed. They were carried into the Chateau, where Mr. Sands died at 9 o'clock. The chauffeur is still alive, but his injuries will probably prove fatal.

Mr. Sands' mother, Mrs. Vanderbilt, his step father and his brother were at the Chateau when the accident occurred. Mrs. Vanderbilt was almost distracted when her son was borne tenderly in doors. He did not regain consciousness before edath.

The members of the family were apprised of the accident by telegraph. George W. Vanderbilt is at Dinard. Harold S. Vanderbilt left here this morning for London. W. K. Vanderbilt, Jr., is at Aix Des Baines. G. Winthrop Sands, was a son of the present Mrs. W. K. Vanderbilt by her first husband, Samuel Sands, who was killed at the Meadowbrook hunt some years ago. Mrs. Sands Rutherford was married to Mr. Vanderbilt in 1903.

THE TRIUMPH OF "FRUIT-A-TIVES"

These Wonderful Fruit Juice Tablets Are Now Used and Praised in Every Section of the Dominion

A 25c. TRIAL SIZE HAS JUST BEEN PUT OUT SO THAT EVERY FAMILY IN THE LAND MAY GIVE THEM A TRIAL

"Fruit-a-tives" have been a wonderful success because they have proved their value in every case. Whether it was Constipation or Biliousness—Headaches or Neuralgia—Rheumatism or Sciatica—Indigestion or Dyspepsia—Sallow Complexion or Eruptions on the skin—Pain in the back or other indications of Kidney Trouble—"Fruit-a-tives" have never failed to give the promised relief. People tell about their cures and write to the company about them. Thus, the good news has spread that here was a medicine that actually cured—that did more than was claimed for it. And more people tried "Fruit-a-tives." To-day, "Fruit-a-tives" are the acknowledged success in the medical world and are known from ocean to ocean. Some wholesale druggists order 100 gross (14,400 boxes) at a time. Practically every druggist and general store in Canada sells them.

The new trial box at 25c will make "Fruit-a-tives" more popular than ever because it gives everybody the chance to try them.

If you only know "Fruit-a-tives" by reputation, the 25c trial size enables you to test them at a very small cost.

Write direct to Fruit-a-tives Limited, Ottawa, Ont., if your dealer does not have both the 25c and 50c boxes.

WON BY EIGHT WICKETS

EXCITING CRICKET MATCH OF YESTERDAY AFTERNOON

A. C. BUTLER COMPILES A SPLENDID INNINGS

The most exciting game of cricket ever played in this city, a game whose issue remained doubtful up to the last minute, was played on the recreation grounds yesterday afternoon between the combined teams of Castlegar and Robson and the Nelson eleven. Nor has ever before been witnessed in the city a finer exhibition of clean hard batting than that given by A. C. Butler during the last part of the game.

Shortly the history of the game is that the visitors went in first and made 36 runs, being mowed down by the fast bowling of Crozier Bourke in particular. Nelson replied with 54, two of its best bats getting out with nothing to their credit and the only good innings being that of H. King with 21, not out.

At a quarter to five o'clock the visitors went in to their second innings and this time the home eleven were deprived of the services of Bourke, who had to retire, being out of condition because of his recent long journey, his place being taken by J. Kayton. E. Hacking and H. Foxlee went in to bat and before they could be separated the score ran up to 52 when Foxlee was bowled by Smith. Hacking was joined by L. Miller and another 15 were added before King dismissed Hacking's partner for four. H. Miller then came to the bat and at five minutes to six o'clock the score had been run up to 80. As the visitors had now a total score of 116 Nelson would have to make an additional 63 to win and it was thought possible that they might all be got out within the hour before making such a score and if this were done then Castlegar-Robson would win. On the other hand if the visitors contined their innings and Nelson were not allowed an opportunity of playing, the home eleven would win by virtue of the first innings, no matter how big a score the visitors piled up in their second. Hence W. J. Farmer, captain of the visiting team declared his innings closed, 80 runs for the loss of two wickets.

It was anybody's game. Nelson could win in one of two ways, one by hitting out and making the runs necessary, running the chance of losing their wickets and the match, and the other by not trying to hit but keeping up their wickets so that the visitors would not succeed in getting all the wickets before stumps were drawn at seven o'clock, thus winning on the result of the first innings.

H. King and E. Mason went in to bat at 6:57 p. m. and Mason was dismissed for three before eight minutes had elapsed, the total score being seven. If the others could keep up their wickets as well Nelson would win on time. Butler succeeded Mason and playing the first four balls, scored a three on the last of the over. The second ball of the next over he sent for three more and King hit the fifth for four. The next two overs were uneventful, merely adding a couple to the score, both by Butler, who *scored a third three off the first of the over* succeeding and then King fell to a well placed ball by Laurie and the score run 22 and only 44 minutes left to play. Butler at this time had only scored 11. He was joined by Partington and then succeeded as fine an exhibition of cricket as has ever been seen in Nelson. In the next 18 minutes Butler put on 36 runs, Partington contributing 8. The winning hit was made in the last over, Butler driving the fourth ball of the over for four after having sent the *third for four and the second for six*, a clean left right across the race track to the west of the field, up against the fence, driven from the far or east wicket, thus winning the match for Nelson by eight wickets and with 26 minutes to spare, the over was bowled out, Butler getting another single and Partington losing his wicket to the last ball.

The game on both sides was a great improvement of the earlier game in the season between practically the same elevens. Both sides were good in the field, visitors alike in both innings and the home team in the first. In the second there were costly misses which ran up the score for the visitors. For Castlegar, G. McLean as wicket keeper did splendidly, while L. Miller and E. Shand were star fielders. Bourke contributed not a little to the success of the home team by his bowling, although the match was won on the second. Indeed the change bowling in the second innings of the visitors was treated by them with not a little disrespect. *This, however, was* amply made up for by Butler, who in a score of 47 not out, made one six, three fours, six threes, three twos and only five ones. Many of those ones would have been more, being mostly straight, hard drives through long grass.

Appended is the score:

CASTLEGAR-ROBSON—FIRST INNINGS.

H. Foxlee, b., Bourke	4
E. Shand, lbw., Bourke	5
H. Miller, lbw., Bourke	0
L. Miller, b., Bourke	0
G. McLean, c., Bourke, b. Mason	1
J. Lawrie, b., Mason	5
E. Hacking, c., Coppen, b. Bourke	8
J. Burkfield, c., King, b. Bourke	4
W. J. Farmer, lbw., Bourke	4
J. Johnson, not out	1
O. Wheeler, b., Walton	3
Byes	3
Leg byes	1
No balls	1
Total	36

SECOND INNINGS.

E. Hacking, not out	44
H. Foxlee, b., Smith	27
L. Miller, b., King	4
H. Miller, not out	2
Byes	2
Leg byes	1
Total	80

NELSON—FIRST INNINGS.

A. H. Coppen, b., Foxlee	0
J. Hawkins, run out	8
C. T. Partington, b., Foxlee	6
A. C. Butler, b., Lawrie	4
H. King, not out	21
E. Mason, b., Foxlee	7
C. Bourke, b., Foxlee	0
A. Tregillus, c., Hacking, b. Foxlee	0
H. Edwards, b., Lawrie	0
S. W. Smith, b., Lawrie	2
W. Walton, lbw., Lawrie	2
Byes	4
Total	54

SECOND INNINGS.

H. King, b., Lawrie	7

A. C. Butler, not out	47
C. T. Partington, b., Lawrie	8
Byes	1
Total	66

BOWLING ANALYSIS.

Bowler	Runs.	Wkts.	Ave.
Bourke	19	7	2.78
Foxlee	32	5	6.4
Smith	8	5	8.0
King	8	1	8.0
Lawrie	72	7	10.1
Mason	25	2	12.5
Walton	18	1	18.0
Butler	9	0	....
Coppen	17	0	....
L. Miller	13	0	0..
Tregillus	5	0	....

Of the above bowlers Coppen took four overs, Miller, Smith, King and Butler three each and Tregillus only one, the brunt of the bowling falling on the others, especially upon Lawrie, who took 20 overs and Mason 17, Foxlee 15, Bourke 10 and Walton 6.

HOW THEY GOT THEM

Black Hand Suspects Gave Battle Before Being Captured

(Special to The Daily News.)

FERNIE, July 29.—Later reports of the capture of the Black Hand prisoners by members of the provincial police at Elkmouth on Sunday morning, give some idea of the difficulties encountered by the constables in effecting the arrest of at least one of the gaol breakers. During the fight in the darkness of *the early morning one* of the Italians, named Sontors, leaped into the river and swam to an island at the junction of the Elk and Kootenay rivers and from that vantage point opened fire on his pursuers, but thanks to the darkness of the night his shots failed to take effect, though one bullet buried itself in a tree stump three or four inches from constable William Lacey. At daybreak constables Lorsch and Lacey swam over to the island and after two hours work discovered their quarry hidden *in the bush and soon* overpowered him. To get him to the mainland they cut down a large birch pole to which they securely fastened him and each taking an end of the stick they swam through the swift current and safely landed their prisoner. No trace has yet been found of the only missing prisoner, who escaped to the bush, though a constant search is being carried on. It is not thought that he was injured by the shots sent after him by the officers, though there is a possibility that he may be wounded.

Shortly after 6 o'clock Saturday afternoon fire was discovered in the lumber on the Elk Lumber company's premises in West Fernie, and as a gale was blowing at the time there was danger of a serious conflagration. The mill whistle sounded the alarm and the employees were soon on the spot and extinguished the blaze before much damage was done. It is supposed to have been caused by sparks from the smoke stack.

Rev. R. S. Wilkinson, rector of Christ church, left by the C. P. R. express this morning with his family for North Vancouver on a vacation. He will remain at the coast for about three weeks.

Mrs. Gourlay and child, accompanied by her sister, Mrs. Sherwood Herchmer, left this morning for the coast, where they will visit relatives.

FIRE LIMITS

Practically All Grand Forks Business Section Is Included in Bylaw

(Special to The Daily News.)

GRAND FORKS, July 29—At the last meeting of the city council the fire limit bylaw was finally passed. The limit practically includes all of the business section of the city, taking in from the north fork on the east to the west side of Third street, and from the main river on the south to Victoria avenue on the north. Now that the fire limits have been finally decided on and a bylaw passed building operations will commence immediately, as property owners have nearly all had their premises cleaned up and were only waiting the council to take some definite action in this matter. A proposition is also up before the council for the installation of a sewer system for the city and a committee has been appointed to look into the matter.

At the meeting of the business men of the city last night for the purpose of organizing a board of trade an organization was perfected, the following officers being elected: President, A. B. Hood; vice-president, W. K. C. Manly; secretary, S. T. Hall; an executive comprising 15 members, was elected. It is expected that an organization of this kind can be of much assistance to the city, and as the men at the head of it are all business men who have heavy interests here, it will no doubt assist in the rebuilding of this city on a finer and more substatial basis.

During the past week, as shown by the mining records in the government office at this point, there were six locations made, 40 certificates of work recorded and three transfers made. The transfers were a quarter interest in the Blue Grouse, Burnt Basin, from J. McNeely to C. Shearer; half interest in the Eclipse in Summit camp, from J. F. Cunningham to W. T. Smith; C. C. Marsh transferred his interest in the Jumbo, Franklin camp to his co-partners.

Constable I. A. Dinsmore of Greenwood is in the city today. Mr. Dinsmore reports a holdup in Greenwood on Sunday night last. Two masked men entered the Vendome hotel about 12 o'clock and made six persons who were in the bar at *the time throw up their* hands and face the wall. One of the holdup men then proceeded to go through the per ons lined up while the other kept a revolver covering them. Then they proceeded to rifle the cash register, securing agout $125 out of it. After searching all the drawers back of the bar to make sure that no firearms were secured in them the bandits backed out of the side door and made their escape. So far no trace of the fugitives has been found, but it is stated for a fast that they have left Greenwood. The total money obtained was about $140.

More proof that Lydia E. Pinkham's Vegetable Compound cures female ills.

Mrs. John Scott, 489 Grand Trunk St., Montreal, writes Mrs. Pinkham:

"I was very much run down in health from a female trouble, was thin, nervous, and very weak, and suffered from bearing-down pains. Indeed I did not care whether I lived or died, I felt so badly sometimes.

"Lydia E. Pinkham's Vegetable Compound completely cured me of all my troubles. I gained in flesh, and am free from backache, female trouble, sick headaches, and nervousness.

"I heartily recommend Lydia E. Pinkham's Vegetable Compound for all women's ailments, knowing what it has done for me."

FACTS FOR SICK WOMEN.

For thirty years Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, has been the standard remedy for female ills, and has positively cured thousands of women who have been troubled with displacements, inflammation, ulceration, fibroid tumors, irregularities, periodic pains, backache, that bearing-down feeling, flatulency, indigestion, dizziness or nervous prostration. Why don't you try it?

Mrs. Pinkham invites all sick women to write her for advice. She has guided thousands to health. Address, Lynn, Mass.

GIVEN SIX MONTHS

Rolled a Drunken Man in Wardner—Given Time to Repent

(Special to The Daily News.)

CRANBROOK, July 29.—Fred Langdon, alias Sullivan, Dempsey, etc., rolled a drunk a few nights ago in Wardner, B. C., found one dollar and fifty cents on his victim, and now will have six months of hard labor in Nelson gaol to think over the folly of his ways.

Langdon was charged with the offence before stipendiary magistrate Armstrong on the information of constable Adney of Wardner. Percy Keller, bar tender at the hotel, desposed that he saw Langdon put his hand into the pocket of Tim Cronin, who was drunk and asleep, and take out a silver dollar. Thomas Phillips swore that Langdon put his hand twice into Cronin's pocket, taking out the first time a silver dollar, which Langdon kept, and the second trip taking 50 cents which he spent in buying a drink. Langdon is a man with an unsavoury record against whom there is another and more serious charge pending. He got the maximum sentence permitted under the section governing the offence.

THE SECOND ANNUAL CONVENTION OF THE

Western Canada Irrigation Association

WILL MEET IN VERNON, B. C.—AUGUST 10 TO 15

A number of expert irrigationists will be in attendance, a most interesting program of papers and addresses on various phases of the subject of irrigation has been arranged for, the vital question of water legislation will receive full ventilation, and much valuable information will be put forth.

An attractive feature of the entertainment provided will be the three day

EXCURSION ON OKANAGAN LAKE

visiting the various irrigation systems of the valley.

The following organizations are entitled to send delegates: Three each for all irrigation and irrigation and colonization horticultural, forestry and live stock associations; five each for all cities, to be *appointed by the mayo* ; two each for the boards of trade or kindred associations, to be appointed by the president of the organization; two each for all towns, villages and rural municipalities, to be appointed by the mayor, overseer or reeve; two each for all Canadian clubs, to be appointed by the president of the club; three representatives from other irrigation associations to be appointed by their presidents.

Members of the federal and local legislatures are also entitled to be present.

It is earnestly urged that interested organizations, which we have been unable to reach by special circular, will accept this intimation, and proceed without delay with the appointment of delegates. Delegates will please send their names to the secretary at the earliest possible date.

Delegates must purchase first class full rate one way tickets to Vernon, and obtain certificates to that effect from their local station agent on standard certificate form. *On surrender of standard certificate to* the agent at Vernon, tickets for the return trip will be issued free. The wives of delegates are given the same rate privileges if provided with standard certificate.

W. R. MEGAW,
Secretary Western Canadian Irrigation Association.

WHAT'S DOING IN CANADA

ITEMS OF INTEREST FROM YESTERDAY'S WIRES

THE DOMINION FROM THE ATLANTIC TO THE PACIFIC

ST. CATHERINES, July 29.—A deposit of silica has been discovered on the farm of Charles Reef in Wainfleet township.

OTTAWA, July 29.—It is rumored in political circles that sir Wilfrid Laurier will be asked to accept the French liberal nomination for Ottawa city.

TORONTO, July 29.—George Taylor, conservative whip, today expressed the opinion that the general elections would be held in October, on or about the 15th.

SAULT STE. MARIE, July 29.—A jury has rendered a verdict holding Ikey Sciagliano responsible for the *death of Biago Paciocco, who was killed* in a fight in Little Italy on Saturday night.

QUEBEC,, July 29.—Charles A. McLean, of Toronto, was married to Mrs. G. A. Sheriff, daughter of the late senator Fulford, on the yacht Magedoma today at noon. The bride was given away by sir Wilfrid Laurier.

TORONTO, July 29.—Grand Trunk engineers, trainmen and conductors, held a conference with third vice president Fitzhugh and general manager Brownlee here yesterday. The men want increased wages, but the officials say this is impossible at present owing to trade depression.

GALT, July 29.—The fifth annual convention of the master painter and decorators' association of Canada opened here yesterday. About 250 delegates were in attendance from all over the dominion. In his address to the convention, president Booth, of London, lamented the tendency to disparity in contracts and expressed the opinion that the standard of excellence of workmanship was deteriorating.

ST. JOHNS, Nfd., July 29.—A brief despatch received today from Labrador says that the Labrador coast has been swept by a northeast hurricane which wrecked 17 vessels in one harbor. The name of the harbor is not given in the despatch. Other parts of the coast are as yet unheard from and grave fears are entertained here for the safety of sir William MacGregor, governor of Newfoundland, who is on an official visit to Labrador.

TORONTO, July 29.—A rifle competition by mail is being arranged between the public school cadets of Toronto and the cadets of King Edward school, Whiteley, Surrey, England. The competition is likely to take place on the September 6.

The local railway officials are busy preparing for the carrying of farm laborers to the west this year. The first *batch is likely to leave in two weeks.* Reports from different points in Ontario are encouraging so far as the supply of farm laborers is concerned and the railways anticipate carrying a larger number than in former years.

VICTORIA, July 29.—A number of American cracks appeared in the Victoria *open tennis tournament today.*

L. R. Freeman, of California, and T. Jordan, of Australia, defeated Meredith and Kirkbridge, Victoria, 6-1, 6-1.

R. H. Pooley and J. A. Rithet, Victoria, beat E. A. Remington, Tacoma, and B. Bell, Victoria, 6-0, 6-1.

In the men's singles, Remington beat I. A. Davis, 6-4, 6-4.

A. N. Gilliatt, Vancouver, beat D. Niles, Tacoma, 4-6, 6-4, 8-6. It was a close match. Niles outpointed his opponent in finish and style but was unable to maintain the pace.

Ray Thompson, Tacoma, beat A. J. Darcy, 6-4, 3-6, 715.

Miss Hotchkiss, California's champion, was not drawn but gave an exhibition in a mixed double with Gilliatt as a partner. They defeated Freeman and Miss Marion Pitts, holder of the Victoria cup, in one set, 6-5. Miss Hotchkiss displayed fine ability in her net work, volleying accurately and speedily. Her service was fast and sure and was much admired.

The C. P. R. have made arrangements to operate the steamer Princess Royal between *Seattle and Vancouver* exclusively, commencing tomorrow, the fare being 25 cents each way.

MYSTERIOUS MURDER

Body of Unknown Man Found in Gravesend Bay—Mistaken Identification

NEW YORK, July 29.—Although the body of a murdered man which was found in Gravesend bay last Sunday was believed to be that of Harry S. Cornish, one of the central figures in a mysterious murder case a few years ago, was subsequently disproved. Mr. Cornish, who would not be found at first, on seeing the published identification, called up the newspaper and asked *that the report of his death be de*nied. The mistaken identification was made by Mr. Crane, who was formerly employed as a detective in the murder trial. Cornish could not be found and the identification was accepted as authentic until he was heard from. The police have no clue to the identitfy of the murdered man.

FIRED AT TAFT

Steamer With Presidential Candidate on Board—Lady Injured

CINCINNATI, July 29.—The steamer Island Queen was fired upon during the trip up the Ohio river last night with judge William H. Taft and the notifying committee and guests on board. Mrs. C. B. Russel, of this city, standing on the hurricane deck directly under the seat occupied by the presidential candidate, was struck in the face and breast by a number of small shot. She was not seriously injured.

About Ourselves

Few of our readers ever give a thought to the splendid news service we are giving them from day to day. Prominent newspaper men in other cities have repeatedly remarked upon the excellence of the news *service supplied by* THE DAILY NEWS, and *it is a fact* that no other newspaper published in British Columbia has given its readers as good or as lengthy reports of the recent session of parliament at Ottawa, the Olympic games in England, of the Westminster-Shamrock lacrosse games, and in the same excellent manner in which we have covered these events, will we continue doing in all matters of interest to the public.

The Daily News

is enabled to supply this service, because we are members of and receive the reports of three newsgathering services—the

Associated Press
Western Associated Press
Canadian Associated Press

the three great news-supplying associations of Canada.

To Advertisers

We have today the largest circulation of any daily newspaper distributed in the interior of British Columbia, including especially, the Kootenay and Boundary districts, and for this reason THE DAILY NEWS is the best advertising medium in the vast and rapidly growing territory referred to, much of which is directly tributary to Nelson. This is proven by the increasing volume of advertising carried during the past year, and in advertising consistent success is the surest test, and proof of merit; therefore the increase shows that advertisers are getting direct results from their advertising campaign.

To Subscribers

As noted above THE DAILY NEWS receives and publishes the reports of Canada's three great news-gathering associations, and in addition supplies all local news events of the city, maintaining also paid correspondents in all the surrounding towns in the Kootenay and and Boundary. As special features THE DAILY NEWS publishes each week.

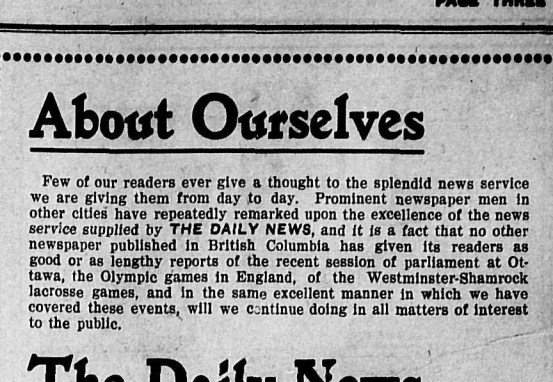
A Colored Comic Supplement

and starting on Tuesday, August 4th, will publish each day an installment of a new serial, a story that will appeal to all, as it is by that well known and popular writer, Rider Haggard, and is entitled

"The Yellow God"

As an extra inducement to subscribers we are offering a reproduction of the well known picture,

'Founders of the Dominion'



The Daily News Will Give One of These Pictures

19x25 inches, suitable for framing with, each one month's subscription to The Daily News.

Cut out the attached coupon, fill in and send to The Daily News:

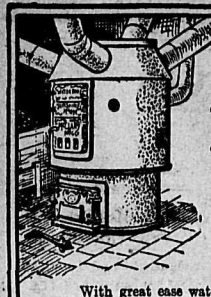
KASLO HAS MADE A REPUTATION FOR ITS HIGH GRADE FRUITS

A. J. CURLE, Kaslo, B. C.



A Story In Chapters

I.

Furnace properly and carefully installed.

II.

With great ease water is placed in water-pan, drafts opened and coal fire started. Fire soon burns up brightly, drafts are closed and check-draft opened. Immediately heat-power begins to penetrate dome and radiator surrounding dome. The incoming cold air immediately receives the energy of this heat-power, and by natural law ascends up the hot-air pipes, thence to rooms. No gas escapes into cellar or rooms because there is an automatic gas damper providing for its escape up the chimney.

III.

In the morning a gentle rocking of the lever removes all ashes from grates. No dust in operator's face, for he first opened damper into dust-pipe leading from ash-pit, then *direct* draft at smoke-pipe entrance, and all dust passed up dust-pipe to dome, then out chimney.

IV.

No need to shovel any ashes away. All nicely settled in ash-pan ready to be quickly and easily removed from pit. On coming upstairs operator finds that he requires no whisking off, and his wife don't scold him for "making everything white."

V.

Operator is delighted. When asked the name of his furnace, he proudly said,

BIDS GOODBYE

Prince of Wales Departs for England

TERCENTENARY AT QUEBEC

LAST DAY SPENT UPON CANADIAN SHORES BY THE ROYAL VISITOR WAS A VERY BUSY ONE—BEGINNING OF THE END OF THE FESTIVITIES.

QUEBEC, July 28—All the warships in the harbor again thundered forth the royal salute of the 21 guns last evening when the prince of Wales left Canadian soil and boarded the Indomitable, not to touch land again until he reached England.

The departure of the prince is really the beginning of the end of the series of festivities of the past ten days, though the tercentenary celebration will continue until the end of the week. The *holiday spirit has by no means* been used up yet. An interesting announcement made from the citadel last evening was that the prince of Wales on the eve of his departure, had presented to the people of Canada a chair which belonged to general Wolfe.

The prince's last day in Canada was a very busy one, and he was kept on the go all the time. In the morning he planted a tree in Victoria park, the ceremony being witnessed by a big crowd who were surprised at its dignified brevity.

In the afternoon the prince was kept occupied all the time. He first attended a gymkhana at the Qua grounds, where he stayed for some time, then left for the Plains where it was children's day and a gala performance was given, together with a display of brilliant fireworks. This was attended by upwards of 15,000 children of all ages and the performance proved a huge success. The prince was so pleased with the show that it was 15 minutes past schedule time before he left the grounds. After giving the younger generation a chance to cheer their future king, the prince drove to Spencerwood, the beautiful residence of lieutenant governor sir Louis Jette, where a delightful garden party was given in his honor, at which he spent an hour walking in the grounds, chatting with various friends in a most informal style. In fact, the prince had evidently planned to make his visit as free from fuss and feathers as possible, and he managed it so well that his arrival was almost unnoticed, as also was his departure, the only formalities attending either ceremony, being the attendance of the guard of honor and the hauling up and putting down of the royal standard.

On leaving Spencerwood His royal highness drove in state to the citadel, where he bade farewell to his friends. The streets leading from the citadel to the King's wharf had been lined with soldiers and every preparation was made to give the heir apparent a fitting salute as he left the soil of Canada. It was speedily known the prince was going to leave and the streets along the route were crowded. When the cortege appeared, preceded by officials in automobiles, the Prince's carriage guarded by two detachments of Royal Northwest Mounted Police, it was greeted with cheers, the prince having to repeatedly rise and salute during the entire distance. A picturesque feature was afforded when the National Anthem was sung tonight from above in the narrow streets of the lower town.

As soon as the prince's carriage came into view the crowd in the terrace, as though by a preconcerted arrangement, broke into a tremendous cheer and the prince rose in the carriage and took off his hat in acknowledgement of this compliment. A moment later the guard of honor from the garrison R.C.R. presented arms at the King's wharf and the National Anthem pealed forth, which was immediately taken up by band after band from the warships, the strains being borne in fleeting strains from all directions by the wind in picturesque and imposing confusion. The prince inspected the guard of honor, bade farewell to the officers in charge and boarded the pinnace from the Indomitable, which ran out to the big cruiser, followed by half a dozen other boats from the fleet. As soon as the prince reached the deck of the Indomitable the royal standard was hoisted from the foremast, and once again the war scarred heights of Quebec re ounded with the thunderous greetings of three nations to Great Britain's future king.

Every warship was fully manned, the rails being lined with blue jackets and marines waiting motionless as flashes and smoke filled the air. As soon as the report died away, the band on the Leon Gambetta was heard in the distance playing "God Save the King. Then the Admiral Aube took up the refrain, the American warship New Hampshire, followed and then in rythmic succession the British battleships, until the national paean died away across the river.

A solitary trumpet sounded from the deck of the Exmouth and a second later three thunderous cheers were given by the ten thousand sailors and marines, with a volume of sound that reverberated from shore to shore and was re-echoed by the crowds that lined the terrace. It was practically the farewell to the prince as well as to the fleet, and was well worthy of the occasion, the stately ceremonial and warlike salute, within the great national amphitheatre. Early this morning, in fact shortly before daybreak the British fleet sailed.

An odd incident occurred during the stay of the prince at Spencerwood. Lord Roberts, field marshal and idol of the British empire, had attended the reception of course in mufti, in which he looks differently from the "Bobs" of the chromo lithographs, and he drove back to the citadel in an ordinary carriage. In the meantime the streets had been lined with troops for the state departure of the prince and when lord Roberts' carriage reached the corner turning up from the Grand Alle to the citadel, it was held up by the line of troops. They failed entirely to recognize the field marshal and refused to let his carriage pass, although lord Roberts, who was in a great hurry, tried to convince them of his identity. "Bobs" finally had to get out, and started to walk up the hill to the citadel, when chief detective Duncan of Toronto and detective Carrington of Montreal in an automobile, passed the line with their "no hindrance" pass. They immediately recognized lord Roberts toiling up the steep ascent and hailed him to joint them. "Bobs" lost no time in accepting their invitation and was delighted with the incident, shaking hands with the detectives and chatting with apparent glee as the party covered the road to the citadel.

In commemoration of his visit, the prince of Wales yesterday assisted at a tree planting in Victoria park, the main city play ground in the lower eastern part of the city, where the population is exclusively French Canadians. The streets on the long route from the citadel to the park were crowded at every point, particularly in the Ste. Roche district, where the prince was making his first appearance on his present visit. While there was keen interest everywhere there was no great display of enthusiasm. One incident occurred on the way down, the children of the large convent of the Grey Nuns on Glacis hill, massing at the corner of Dalguilion street and cheering and waving flags as the royal carriage preceded and followed by men of the mounted police, passed by. At the park, the ceremony was brief and as usual in such ceremonies, not of striking interest. Near the monument erected to the memory of queen Victoria, the prince, the governor general and the few members of their suite who accompanied them, alighted and were greeted by mayor Garneau and and other civil officers. After the tree planting the prince spent a quarter of an hour chatting with friends and a few ladies who were presented to him by earl Grey.

The park is pretty and under the brilliant sunshine of the holiday, with perhaps 10,000 people at and near the scene, the ceremony, while not impressive, was a very pleasant one in its way. While the prince was at the grounds, a chorus of young women introduced an effective note of color to the function by singing patriotic French airs, concluding with the singing of "Dieu Sauve le Roi," the French version of "God Save the King."

Do You Open Your Mouth

Like a young bird and gulp down whatever food or medicine may be offered you? Or, do you want to know something of the composition and character of that which you take into your stomach whether as food or medicine?

Most intelligent and sensible people now-a-days insist on knowing what they employ whether as food or as medicine. Dr. Pierce believes they have a perfect right to insist upon such knowledge. So he publishes broadcast and on each bottle-wrapper, what his medicines are made of and verifies it under oath. This he feels he can well afford to do because the more the ingredients of which his medicines are made are studied and understood the more will their superior curative virtues be appreciated.

For the cure of woman's peculiar weaknesses, irregularities and derangements, giving rise to frequent headaches, backache, dragging-down pain or distress in lower abdominal or pelvic region, accompanied, oftimes, with a debilitating, pelvic, catarrhal drain and kindred symptoms of weakness, Dr. Pierce's Favorite Prescription is a most efficient remedy. It is equally effective in curing painful periods, in giving strength to nursing mothers and in preparing the system of the expectant mother for baby's coming, thus rendering childbirth safe and comparatively painless. The "Favorite Prescription" is a most potent, strengthening tonic to the general system and to the organs distinctly feminine in particular. It is also a soothing and invigorating nervine and cures nervous exhaustion, nervous prostration, neuralgia, hysteria, spasms, chorea or St. Vitus's dance, and other distressing nervous symptoms attendant upon functional and organic diseases of the distinctly feminine organs.

A host of medical authorities of all the several schools of practice, recommend each of the several ingredients of which "Favorite Prescription" is made for the cure of the diseases for which it is claimed to be a cure. You may read what they say *for yourself* by sending a postal card request for a *free* booklet of extracts from the leading authorities, to Dr. R. V. Pierce, Invalids' Hotel and Surgical Institute, Buffalo, N. Y., and it will come to you by return post.

COMMUNICATIONS

Letters to The Daily News on current topics are cordially invited, subject to the following terms:

The letters must be plainly written (typewritten preferred) on one side of the writing paper only, of reasonable length and must be signed by the writer for publication.

The Daily News is not responsible for the views expressed by correspondents.

EDITOR THE DAILY NEWS:

From the mayor's remarks, re last failure at the power plant, he ascribes cause to failure of lightning arrestors. Why do these arrestors fail. Because they are not properly installed, nor are they provided with proper grounds, the one at Bonnington being especially bad. Imporvements to this end were to have been made last September, but the last time I was at the plant nothing had been done and I question if anything has been done yet. It is a well known fact that the transmission line is badly protected, and until this is altered, it does not matter how many units you have in operation, you cannot expect anything but trouble. In view of the fact that the last years' council had this line defect pointed out to them, and suggested improvements made, I cannot understand why something was not done when repairs to plant were being made at the beginning of the year. A little of the money spent on other unnecessary improvements would have been well spent in perfecting the line protection. Moreover you had trouble with the breaker at the sub-station the other morning. I heard this switch arc and blow from my bedroom and saw it. The old trouble. Editor, do the ratepayers of Nelson know that these switches are condemned, being inefficient and unsafe. Some of your operators have had experience of that, so has the undersigned, and when I saw that switch arc, I concluded that the best thing to do was to call up that fire brigade and it took just ten minutes to get there. "Great was it." Yours,

J. W. BOYES,
An observant ratepayer.

Nelson, July 27, 1906.

CONCERT TONIGHT

Band's Program at the Garden Party This Evening

SYNOPSIS OF CANADIAN HOMESTEAD REGULATION

Any available Dominion Lands within the Railway Belt of British Columbia may be homesteaded by any persons who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres, more or less.
Entry must be made personally at the local land office for the district in which the land is situate. Entry by proxy may however, be made on certain conditions by the father, mother, son or daughter, brother, or sister of an intending homesteader.
The homesteader is required to perform the conditions connected therewith under one of the following plans:
1. At least six months' residence upon and cultivation of the land in each year for three years.
2. If the father (or mother, if the father is deceased) of the homesteader resides upon a farm in the vicinity of the land entered for, the requirements as to residence may be satisfied by such person residing with the father or mother.
3. If the settler has his permanent residence upon farming land owned by him in the vicinity of the homestead, the requirements as to residence may be satisfied by residence upon the said land.
Six months' notice in writing should be given to the Commissioner of Dominion Lands at Ottawa of intention to apply for patent.
COAL—Coal mining rights may be leased for a period of twenty-one years at an annual rental of $1 per acre. Not more than 2560 acres shall be leased to one individual or company. A royalty at the rate of five cents per ton shall be collected on the merchantable coal mined.
W. W. CORY,
Deputy Minister of the Interior.

NELSON NEWS OF THE DAY

Analyse the dullest day at the store—and you will resolve it into the net result of not enough advertising.

The Moyie will take the place of the Kuskanook on Sunday for one day's run in order to permit of the steamer being overhauled.

Keep your eyes open while going about town, answering ads., and you will be surprised to find what an interesting, busy, prosperous, "evoluting" city you live in.

Now that the berry season is practically over it is expected that the morning boat will revert to her former schedule as to the hour of leaving the city wharf in the morning.

Mr. and Mrs. J. K. Salter wish to express their thanks for the sympathy shown to them by many friends and acquaintances on the report reaching the city of the drowning of their son Frank, which report happily proved to be an error.

Major Stewart, commanding the local militia, F. Starkey of the board of trade and mayor Taylor have been taking measures to ask earl Roberts while visiting the west to include the city of Nelson within his itinerary. There are a great many old veterans, some of whom have actually served with the field marshal, in the city and surrounding district and a goodly number of ex-soldiers and military men generally could be got together to greet "Bobs."

There will be in atendance at the Altar Guild garden party of St. Saviour's church, at the residence of Mrs. Fletcher on Stanley street the city band and a mulifold list of atractions, including a quartette who have been practicing for the occasion faithfully, and an Indian dance. Refreshments will be served both afternoon and evening. The whole place is being tastefully decorated with electric lights and Japanese lanterns and altogether the ladies are to be congraulated on the way in which they made success certain.

Mme. Kathleen Noah, hairdressing and manicuring parlors, room 38, K. W. C. block 81-6t

Dow's Ale has a continental reputation and the Hotel Hume are the exclusive agents in Nelson. 80-tf

The Salvation Army will hold their annual picnic at the park on Wednesday afternoon, July 29th. The children are requested to be at the city wharf at 2 p. m., city time. 81-2t

For sixteen years the name "Salada" has stood for the maximum of quality, purity and flavor in blending Ceylon Teas, so that the only thing you need to look out for is the "Salada" label on every package of tea you buy.

Over Thirty-Five Years.

In 1872 there was a great deal of diarrhoea, disentery and cholery infantum. It was at this time that Chamberlain's Colic, Chlorea and Diarrhoea Remedy was first brought into use. It proved more successful than any other remedy or treatment, and has for thirty-five years maintained that record From a small beginning its sale and use has extended to every part of the Unitdd States and to many foreign countries. Nine druggists out of ten will recommend it, when their opinion is asked, although they have other medicines that pay them a greater profit. It can always be depended upon, even in the most severe and dangerous cases. For sale by all druggists and dealers.

The Hub Furnishing House

COLLARS THAT FIT

How about the Collar you have on?.. Did you pull and haul to get it buttoned?

Did it button easily and does it now wobble awkwardly?

Emory & Walley
Clothes, Hats and Toggery

Harry Gibson is giving a dance at the Alice Roller Rink on Friday evening, July 31st. Irwin's orchestra will be in attendance with some new and lively music. Special attention is being paid to the floor, and a good time is promised to all. Dancing to commence at 9 o'clock, C. P. R. time.

If you want any building or repair work, Phone A172 and estimates or contracts or jobbing will be cheerfully furnished by McDonald and Williams. Shop, Front and Ward Sts. opposite court house. P. O. Box 367. 271-tf.

Chamberlain's Colic, Cholera and Diarrhoea Remedy Would Have Saved Him $100.00

"In 1902 I had a very severe attack of diarrhoea" says R. N. Farrar of Cat Island, La. "For several weeks I was unable to do anything. On March, 13, 1907, I had a similar attack, and took Chamberlain's Colic, Cholera and Diarrhoea Remedy which gave me prompt relief. I consider it one of the best medicines of its kind in the world, and had I used it in 1902 I believe it would have me a hundred dollar doctor's bill." Sold by all druggists and dealers.

INDEPENDENT PARTY

Hisgen Got Nomination on Third Ballot—His Running Mate

CHICAGO, July 29.—Jno. Temple Graves was nominated for vice president on the first ballot by the indpendence party last night.
Hisgen was nominated for president on the third ballot. The vote was Hisgen 831, M. W. Howard, of Alabama 33, Graves 7, Hearst 2.

CANADA-WEST

July Issue Contains Leading Article on "Western Railroads and Prosperity."

Canada-West for July is interesting and timely in its matter, and artistic in its style. The leading article is by D. B. Hanna, on "Eastern Prosperity and Western Railroads," and deals with the growing importance of transcontinental railway development in the affairs of the east as well as of the west. Mr. Hanna points a moral which should appeal with peculiar force to all Canadians, more especially to those of the eastern provinces who are concerned with, or in command of, the development of western roads. This is that if the Canadians permit the American lines to pass them in energetic extension across the wheat areas of western Canada, the great and growing annual movement of grain to Europe may pass forever from Canadian hands. When the American waterway is open from the lakes to the gulf the American railways that are now vigorously invading Canada can offer a route to Liverpool that will be only about one-fifth rail, the rest water. This would be a low rate route, and the distance to Galveston from western Canada being about the same as to Montreal. Mr. Hanna hints a plausible prophecy that the Canadian grain exports may flow that way unless eastern Canada continues vigorously to promote the extension of the western railway systems, now, while the country is young. The article is lucid and opportune. Other features of the July number are "The Sieges of Quebec," a brilliant and beautifully illustrated series by D. W. LeSueur, L. D., F. R. C. S., Lawrence Burpee, T. G. Marquis, John Ridington and C. Fredrick Hamilton; S. E. Kiser's inimitable, 'Sonnets of an Office Boy," illustrated by Florence Pretz of "Billinkin" fame, and Dr. Shailer Mathews' third paper on "Modern Man and the Gospel." There are some verses by Cy Warman and Cecil E. Belwyn, a story by Elliott Flower and a number of other things good to read, as well as a very interesting and instructive set of photographs showing the different stages in the transfer of an entire colony of German Lutherans from Nebraska to Tramping Lake, Saskatchewan.

QUEBEC TECENTENARY

WHAT THE CELEBRATION MEANS TO CANADA

TRIBUTE TO SIR WILFRID BY COAST PAPER

(The News-Advertiser.)

The celebration of the 300th anniversary of the foundation of the city of Quebec, which has taken place during the last few days in the ancient capital, is an event of more than passing importance. The oldest of the great colonies of Great Britain owes as much to its French origin as to its English rule. Its changing history has given it a character which is separate and its own. The pageants enacted at Quebec symbolized much more than what is symbolized by flags and fireworks. It was an excellent recognition of France's grandeur, and England in honoring the achievements of Champlain honored herself. The ceremonies were, indeed, a double tribute to France and to England.

In many respects Samuel de Champlain must be regarded as a remarkable man in any age, but more particularly in that in which he lived. His ambition was not limited by the task before him. His vision went beyond; he saw larger schemes and longer routes. To him Quebec was but a fortified post on the high road to China. "Chaplain promiseth," said his companion Lescarbot, "never to give over until he has pierced as far as the western sea or that of the north to open the way to China—in vain by so many sought for." The centuries have shown Champlain to have been a wise prophet and what he dreamed the Canadian Pacific railway has accomplished. "Fearless in battle, a zealot in religion," Champlain was in every respect worthy to carry on the traditions of St. Louis and in the pathless forests of Canada he found the widest scope for his ambition.

To few men, even of the greatest ability or of the widest activity, is it given to achieve work that defies the assaults of time as that of Champlain has done. Quebec, his creation, is still French, still Catholic. In every feature it bears the impress of a past foreign to the soil of this continent. To walk down the Rue Champlain; to wander through the old streets and past the ecclesiastical or educational buildings so numerous in almost every quarter, and one can easily believe himself to be in an old French town. Anglo-Saxon prosperity is not represented there, although there is some thing comfortable and quaint that seems not to belong to the western world. Ancient history is written on every wall, while below flows the unchanging river, once in Jacques Cartier's day known as the Hochelaga, now the St. Lawrence. There floated the ancient French galleys; there the British boats that carried Wolfe's soldiers to his last and greatest achievement, and there now move the great steamships that follow the "way to China" of which Champlain dreamed. So is the past linked to the present and nowhere else in all this wide land could the interval of three centuries be so well bridged as in old Quebec, rich in ancient memories, yet confident that her part in the future will be worthy of her great traditions.

No happier method could have been devised of paying tribute to the memories, not only of Champlain but to those of other worthies whose work has laid the foundations of Britain's greatest over seas dependency than the consecration of the battlefield where the two great leaders, Wolfe and Montcalm, bore their part in the fight which settled Canada's destiny. If Champlain stands for the pioneers, Wolfe and Montcalm are names that are surrounded with the spirit of romance in Canadian history. Wolfe had the better fortune, but in every attribute of heroism and devotion to duty Montcalm can claim equal recognition from a generation which knows nothing of old animosities or the long past struggle of race against race for supremacy.

Nor is it less fitting that in the ceremonies which will make the past week one memorable in the history both of Canada and the empire, a French Canadian should be the first citizen of the dominion and the man to bid welcome to the heir apparent of the British crown. There is today no more picturesque figure in public life in Canada than sir Wilfrid Laurier, and that he is premier of the dominion when the tercentenary of the work done by the great Champlain is being commemorated, is at once a tribute to the stability of the great Frenchman's work and to the broadness and liberality of the institutions on which the foundations of the British empire are laid. Sir Wilfrid Laurier once said in an address in Quebec that while the French Canadians had lost their independence they had preserved their liberty and the present celebration at Quebec shows that in every incident in the proceedings, France, from which they came, had a representative to show her sympathy with the conditions that now prevail in Canada and the satisfaction that exists in France at the happy relations of the two races in the greatest dependency of France's partner in the entente between the two great powers of western Europe. Nothing could better exemplify the evolution that time has wrought in the relations of the English and the French people in Canada, and the manner in which the passage of years has caused ancient animosities to disappear, and the French Canadian to realize his share in the glories, the power and the potentialities of the British empire, than a remark in the address made by mayor Garneau of Quebec, on Friday, when he said that while in the old regime the people were accustomed to crown their rejoicings by loyal cries of "Vive la Roi, Vive le Dauphin," now as loyally to their new allegiance, as were their forefathers to the old, the French Canadians welcome the heir apparent with heartfelt acclaim—"God save the king; God bless the prince of Wales.

FEDERAL POLITICS

An Independent View of the Situation From Ontario's Standpoint

(Hamilton Herald.)

Within the past six months there have been periodical rumors that R. L. Borden, the opposition leader in the federal house, was negotiating to call to his aid a number of the provincial conservative leaders. At present the conservatives are in power in Ontario, Manitoba, British Columbia and New Brunswick, but the liberals hold Quebec, Nova Scotia, Prince Edward Island, Saskatchewan and Alberta. The time was when there was no connection apparently between provincial and dominion politics, when conservatives in Ontario, that is national policy tories, voted for the Macdonald government and did not think they were inconsistent when they voted for the Mowat government. There was also more independence in municipal affairs, more attention being paid to individual candidate than to their political complexion. In recent years there has been a decided change. There is still a large army of independent voters, but party lines have been drawn closer, and the bulk of the electors were either grit or tory all along the line. It is not in the interests of good government that such is the case, but that is the turn affairs have taken and there is no use beating around the bush. Better government would result if there was more independence, but partyism has a strong hold on the people. When a party fights to get control in municipal matters the object is to use the power secured to help the party in provincial politics, whether it is liberal or conservative, and in turn the provincial government—not openly, perhaps—renders what assistance it can in federal elections. In machine politics the plan to get into power at Ottawa is to control municipal councils, then the legislatures, then the federal house. It is a difficult matter to break up the organization, but that is the scheme the politicians have in view.

When premier Laurier got into power in 1896 the liberals had control of the legislatures, and when he assumed office he selected as cabinet ministers a number of provincial leaders, the strongest men available. Since then the conservatives have been paying some attention to provincial affairs and they have gained ground. It would not be surprising if leader Borden adopted the plan which sir Wilfrid Laurier found so successful. At first the names of premiers Whitney, Roblin and McBride were mentioned as those likely to enter federal politics, but so far none of the trio has officially announced his intention to give up a sure thing for an uncertainty. Hugh John Macdonald, who was a power in Manitoba, resigned to join hands with sir Charles Tupper, and the result was disastrous. Leader Borden may not induce the premiers, who have large majorities behind them, to give up provincial politics and enter the larger field, when the prospects of success are none too bright, but efforts are being made to get a strong conservative leader, whether he be premier or a cabinet minister, from every province to enter dominion politics. A recent despatch says that premier McBride has been asked to run for Vancouver now that sir Charles Hibbert Tupper is out of the way.

The aggressive fight put up by the conservatives during the last session shows that they are tired of being in the shades of opposition and that they are going to make a determined effort to defeat the Laurier government in the next elections. Whether they will be successful or not remains to be seen. They are encouraged by the success of the party in provincial politics. McBride has a united army behind him in British Columbia. Hazen won a victory in New Brunswick. Roblin is solid in Manitoba, some gains were made in municipal elections in Nova Scotia, and Whitney swept Ontario. There is still Quebec, with Laurier's personality, to be reckoned with. Even with the aid of Bourassa and other disaffected liberals, the conservatives, while they added to their representation in the house, did not succeed in turning the Gouin government out of office. The fact is that the conservatives have no leader in Quebec, like Chapleau and other able lieutenants who were with sir John Macdonald, to weaken Laurier's hold on the people. While the conservatives are making their big fight in Quebec, the Laurier government is likely to throw its influence in another quarter, feeling sure that his own people will be loyal to Laurier.

HARVESTING STARTED

Cutting Well Advanced in Southern Alberta—Great Yield Secured

WINNIPEG, July 29—Wheat harvesting started in southern Alberta last week. A despatch from MacLeod states that cutting is well advanced and that yields are exceeding the most sanguine expectations. Spring wheat harvesting will start about the 1st of August around Raymond and reports from both north and south Alberta are of a most optimistic character. Advices to the Canadian Pacific railway from their agents indicate that the movement of fall wheat from southern Alberta is expected to start about the 10th to the 15th of August.

WEEKLY LAUNCH RACES

A. LEAN WAS AWARDED FIRST PLACE YESTERDAY

FIFTEEN CRUISERS RUN AN EXCITING RACE

A very great deal of interest was taken in the weekly launch handicap race yesterday afternoon over the triangular course, about 2 5-8 miles.

There was a smart breeze blowing when the starting hour came along and there was plenty of "life" in the water, to brace the cruisers to their work. At the club house, at the city wharf and along the water front quite a number of spectators, including many ladies, were on hand, and as usual, the finish resulted in a very pretty water scene, the mosquito fleet passing the winning line almost in a bunch.

Some fifteen launches participated in yesterday's race but there should easily have been four times that number.

After the handicap figures had been carefully figured out the places were awarded as follows, the figures being the actual time taken in covering the course: First, Allan Lean, 22:40; second, B. C. Travis' Lady Laurier, 13:49; third, DeVeber and Hammond's Laugh-a-Lot, 8:05.

The first three boats to cross the line were Rutherford, Kurtz and Wolverton, Jr., in the order named but they were all disqualified for exceeding by more than 30 seconds their hadicap time, as taken previously.

In addition to the owners mentioned, the following took part: W. J. Astley, D. Herb, Thos. Sargent, Dr. Clayton, J. A. Gilker, Wm. Elford, R. Andrew, J. H. Christie and H. Pike.

Next Wednesday there will be a rowing regatta as well as the launch races and the double event should attract a large crowd.

RATE WAR ON COAST

No Indication of Approaching End—New Schedules Issued

(Special to The Daily News.)

VICTORIA, July 29—There is still no indication of the approaching end of the rate war for the past few months waged between the C.P.R. and the Puget Sound & Alaska Steamship company, for the British Columbia and Puget Sound passenger traffic. The war was initiated by the American company with their steamer Chippewawa, plying between this city and Seattle, which cut the single fare from $2 first to $1, and later to 50 cents and then to 25 cents, the C.P.R. following with a 50 cent rate by the Princess Victoria, which is the fastest steamer in Pacific waters and in all respects a much superior vessel to her rival in the trade. The instructions received by the western officers of the Canadian company from headquarters at Montreal, were to meet every move in the war and accept no compromise that might be suggested, the Seattle company having begun the fight and the Canadian being determined to give them enough of it. After the war had been on as regards the Victoria-Seattle run for a fortnight, the Seattle company announced that it would carry it further into the territory of the C.P.R., securing a vessel to be registered under the Canadian flag and ply between Victoria and Vancouvr at a cheap rate. This has not been done as yet, but taking the cue from the openly made threat, the C.P.R. reduced the rate from Vancouver to Seattle from $2 to 25 cents, at which it still remains. President Green of the American company states that the new steamer H. B. Kennedy, now building at Portland, will as soon as possible be registered in Canada, and give battle as promised on the Victoria-Vancouver route. As a counter move the C.P.R. will rush out the new Princess Charlotte and give her a place in the line of battle. Opinion on this side of the line at least, is that the C.P.R. will unquestionably win, most probably by bankrupting their rivals if the latter do not hoist the white flag in token of complete surrender.

FERNIE BASEBALL

Sport Has Taken Firm Hold—Fertility of East Kootenay Soil

(Special to The Daily News.)

FERNIE, July 29—Baseball has taken a firm hold on lovers of sport in Fernie and nearly every night a game is played on the recreation grounds between local teams and the grand stand is comfortably filled with enthusiasts. This evening a game was played between the Leans and the coal company and was one of the fastest of the season, resulting in a victory for the latter by the score of 10-7.

This summer has demonstrated in a most unmistakeable manner the fact that the soil in the Pass is capable of producing the finest vegetables and garden stuff and with a little care and attention every variety of vegetables can be grown with success. The gardens, especially in West Fernie, have done remarkably well and are proving a source of increased income to the owners and next year will probably see a much larger acreage under cultivation.

ROD AND GUN

August Number of Canadian Publication is an Excellent One

In the distinctive fashion which has gained for "Rod and Gun and Motor Sports in Canada," published by W. J. Taylor, Woodstock, Ont., the character of the best interpreter of the feelings of sportsmen throughout the Dominion, the opening article of the August number deals with yachting. At a time when everyone's thoughts are upon cool waters, this fine account, finely illustrated, of the Royal Cape Breton Yacht Squadron is most appropriate and will be read with sympathetic interest by many readers. The story of the first Rocky Mountain goat bred in captivity is one appealing even to a wider circle than sportsmen, and nature lovers of all kinds can be recommended to this article. "Cycling through British Columbia" opens up a new field and the account of a young employee reaching a remote Hudson Bay post on his wheel furnishes an interesting though not excitable account of an unusual trip. In the "Glow of the Camp Fire" recalls to mind pleasant evenings passed far away from civilization, its cares and troubles, and makes one wish for a repetition of the experience. "Big Game Conditions in New Brunswick," discussed by that veteran guide, Adam Moore, fishing in the Kootenay lake and river and an account of protective work in British Columbia show how thoroughly the whole Dominion is covered and sportsmen made cognizant, through the magazine, of conditions prevailing in the different provinces. There are other articles and stories in plenty and an open season table should prove particularly useful to both resident and visiting sportsmen. Whatever opinions may be held about dogs in deer hunting, the paper entitled, A Few Words on Behalf of Our Vanishing Deer, by James Dickson, O. L. S., should be read by all. The views of such an experienced veteran, however one may differ from them, are worthy of careful consideration. The whole number is amongst the best of many good issues.

AT THE THEATRE

G. B. Howard Co.'s Good Performance—"At Cosy Corners" This Evening

The opera house was again well filled last night for the presentation by the eGorge B. Howard company of "Brown's in Town." The play is of the screaming farce comedy type in which the company is thoroughly at home. The impossibly funny situations and the clever nonsense of which the dialogue is made up, made a mirth provoking combination that carried the house by storm. The complications caused by the alternating Messrs. and Mesdames Brown are just great enough to lend interest to the development of a very simple plot, but not enough to confuse any who were present at the beginning—the only people with any rights to be considered.

Mr. Howard as the scapegrace son, Miss Adams as the cookery school undergraduate, and Miss Johnson as the boarding school Miss, were all very successful, and the support accorded by the rest of the company was distinctly good.

In his brief announcement Mr. Howard appeared in a new role, that of raconteur, and told a capital story in his usual successful manner. The bill for tonight is "At Cosy Corners," which is said by Mr. Howard to be the best in his repertoire.

SHOT DOWN BY POLICE

CHATHAM'S CHIEF'S FOOLISHLY FATAL ACT

WANTED TO SCARE HIS MAN BUT KILLED HIM

CHATHAM July 29.—Armed with a warrant for the arrest of William Healey, aged 25, married only three weeks ago, policemen Kindal of Leamington this morning proceeded to Tilbury to execute the document.

Healey had worked in Leamington and on leaving had given his boarding house mistress an order on his former employer for $2, which she could not cash. This fact led her to swear out the warrant. The chief of police located his man at the home of his mother-in-law and while going to the rear of the house he noticed Healey crossing the lawn in front. The officer ordered Healey to stop, but the latter continued on his way and started to climb a picket fence. At this juncture the officer shot at his man, inflicting a mortal wound, from which Healey died in twenty minutes.

Kindal was at once arrested and charged with manslaughter. He claimed that he merely wanted to scare Healey into stopping.

An inquest was held this evening. The jury after hearing the evidence, returned the following verdict: "That the said William Healey came to his death from the wound caused by a bullet from a discharged gun in the hand of Elliot J. Kindal while the said William Healey was running away to avoid arrest at the hands of the said Elliot J. Kindal, and that we would recommend that some restriction should be placed upon the carrying of firearms by constabulary."

The prisoner was remanded until Monday by police magistrate Calwood and he was taken to jail.

SMALL CANADIAN ITEMS

Tercentenary Medals—Whitney to Sail for England—Heavy Gales

HAMILTON, July 29.—It is said here that a special tercentenary medal is to be struck for the troops participating in the Quebec celebration and that every soldier there present will receive one.

LONDON, July 29.—Dr. J. H. Alexander, classical professor at Western University has resigned to accept a position in Alberta University.

TORONTO, July 29.—R. R. Gamey today stated that if Mr. Aylesworth runs in North York for the commons, he will oppose him.

TORONTO, July 29.—Sir J. P. Whitney, premier, will sail for England on provincial business about August 12 and will be gone about six weeks.

MONTREAL, July 29.—Reports received here by the Marconi company from its stations on the Labrador coast tell of a very heavy gale on Tuesday. At Indian harbor 27 schooners were wrecked, two of them being blown out to sea, while at Domino, three schooners were lost. So far no loss of life had been reported.

CASTRO'S METHODS

Great Indignation Felt in British West Indies Colonies

PORT OF SPAIN, July 29.—Following the issuance of a decree by president Castro last May prohibiting the despatch of vessels from Venezuelan gulf ports to Trinidad, cocoa and other Venezuelan products have been forwarded from these points to Grenada in the Lesser Antilles and then to Trinidad. President Castro has now issued a decree prohibiting the despatch of vessels with cargo for Grenada or other islands in the Antilles, thereby closing the gulf ports entirely to export trade with the West Indies. Great indignation is felt in the British colonies and it is expected that the aid of the British government will be sought to secure protection against the methods of president Castro.

A Breeze

WHEN YOU WANT IT
WHERE YOU WANT IT

That is what a good many people would like now.

We have in stock Portable Fans, which can be moved from one place to another, are attachable to ordinary keysocket, and will give you a breeze that will make the hottest place comfortable. Adjusted to five speeds and easy to handle.

BAPTIST S. S. FESTIVAL

LARGE ATTENDANCE AT ANNUAL PICNIC YESTERDAY

FINE SPORTS AND INTERESTING PROGRAM

The annual picnic of the Baptist Sunday school was held at Procter yesterday. The weather was most propitious, and there was a full attendance of members of the Sunday school, most of the congregation, and many others beside.

The majority of the children and their mothers went up on the morning boat at 9 a.m. and took advantage of the warm summer day. The Moyie was again comfortably filled when she left the city wharf at 2 p.m. with more ladies and children and most of the adult male members of the congregation.

At the grounds luncheon and tea were provided on a generous scale, and the usual summer picnic refreshments were available at all times.

The children's sports began in the morning under the superintendence of E. Chave, who made a most efficient director of ceremonies, ably assisted by J. Laing Stocks.

In the afternoon many novel contests for adults were devised, the most interesting and exciting of which was a towel washing contest. The instruction and demonstration in the art given by Mr. Chave for the benefit of the married ladies, were greatly enjoyed.

The program of sports and the winners in the various events were as follows:

Potato race, girls, May Manson; boys', Arthur Maurer.

All fours race—Bessie Wolverton.

Sack race—Girls, Katie Milton; boys, Elmer Anderson.

Cross country run—Jasper Wolverton, Jack Leslie.

Clothes line contest, wringing and hanging—Men, T. Waters; ladies, Polly Waters.

Wheelbarrow race—Jasper Wolverton, Elmer Anderson.

Peanut hunt, primary class.

Back to back race—Thomson and Holloway.

The final event was a big tug of war, five on a side, between men of the Baptist church and the crew of the Moyie, which was won decisively by the Baptists.

The Moyie left Procter for home at 7:45 and reached the city about 9:30, city time. The total attendance was between 225 and 250 and the excursion and picnic altogether formed one of the most successful and enjoyable outings ever held in connection with the Baptist church of Nelson.

BAD DEBTOR

Knocked Landlady Down When Asked to Pay Up

KENORA, Ont., July 29.—A young man named Johnson, who had been boarding with an English family named Humphry for some time and had got considerably behind in his board was notified by the lady of the house that he must settle or get another boarding house, attacked Mrs. Humphry and her sister with a hammer, fracturing the former lady's skull and badly injuring her sister. Mr. Humphry who appeared on the scene, was also savagely attacked and severely injured.

Mrs. Humphry and her sister are in a critical condition and will likely die.

FRENCH REGATTA

Lipton's Shamrock Wins 70 Footers' Race at Havre

HAVRE, July 29.—At the international regatta here yesterday, sir Thomas Lipton's Shamrock won the face for 70 footers.

WHOLESALE RETAIL

NELSON NEWS OF THE DAY

The temperature yesterday ranged between 79 and 49 degrees.

A good number of picnic parties spent yesterday afternoon at the city park.

Alex. Lucas, provincial assessor, arrived in the city last night from the Arrow lakes and leaves this morning on an official trip to the Boundary.

In the list of contributors to the Dominion Day celebration the name of the Nelson Hardware company for $10 was inadvertently omitted.

There will be a meeting this evening of the local union of bricklayers, stonemasons and plasterers at 8:30, city time, in the Miners' Union hall.

It is probable that J. McDonald, the local athlete will accept the challenge issued to him in the columns of The Daily News yesterday by W. Renwick.

Special attention is called to the article in today's issue announcing the organizing meeting of the Young Conservative Association in the dinning room of the Alice roller rink this evening.

The proprietor of the Outlet hotel and most of the other residents of Procter have adopted the Nelson time for all purposes, except of course of catching the C. P. R. and G. N. R. steamers.

At St. Saviour's church, Nelson, B. C., on Wednesday, July 28th, 1908, by the rector, Rev. F. H. Graham, Marcellus Byrne, of Nelson, was married to Miss Hattie Alma Earling, of Spokane, Washington.

Among Nelson's energetic merchants A. MacLachlan of the city wharf grocery probably ranks as the oldest. Mr. MacLachlan was born in Ontario on July 29, 1838, and thus celebrated his 70th birthday yesterday.

George B. French of Creston, B. C., arrived in the city on the Crow boat last night. He is an old resident of the Creston district, and is in this city for the purpose of laying in a stock of plumbing supplies as it is his intention to embark in the plumbing business in that town. Mr. French says the district is rapidly forging ahead, the fruit ranching industry and the lumber business giving promise of great activity and posperity.

The funeral of the late A. S. Farwell will take place this evening at 7:45, city time, from Robertson's undertaking establishment.

Married on July 28th at the residence of the bride's father, A. B. Shannon, Ferndale ranch, West Arm Kootenay lake, Miss Annie Mabel Shannon to Arthur Alexander Taylor of Nelson, by Rev. J. T. Ferguson.

A particular feature of the garden party of today is a bran pie in which guests are invited to dip, on the payment of a dime An entrance fee of 10 cents will be charged to the grounds while refreshments will be kept down to the moderate sum of 15 cents.

During the picnic at Procter yesterday afternoon J. Wales of J. O. Patenaude's staff, found a large and finely formed fungus near the beach and induced about 80 of the picnickers to sign their names on the white surface. He intends to keep it as a souvenir.

The attractions of the Outlet hotel at Procter as a summer resort are gradually becoming known outside of Kootenay. At present there are among the guests visitors from Pincher Creek, Alta. Near the hotel and picnic grounds several Nelson families are camping for the summer.

The managers of the Baptist Sunday school festival, held at Procter yesterday, desire to thank all those who kindly assisted, particularly the advertisers in The Daily News who freely gave their space and this newspaper for the time and trouble given.

The Granite road is now in good condition an doffers a great attraction for riding parties. After a few miles west from the city have been covered, natural picnic grounds may be found any place. One party that has taken advantage of the road during the present week consisted of Mrs. Dr. Willson, Misses Poppy and Greta Macdonald, Miss Hazel Gore and Mr. W. H. Swann.

Tickets for the Eagle's picnic to Procter, Wednesday, August 5th, are now on sale at the principal stores. Attached to each ticket is a coupon, which is to be retained by the purchaser for the free drawing. A gentleman's gold watch, a lady's gold watch and three other valuable presents will be given to the lucky holders of the coupons corresponding with the numbers drawn on the committee's plan. Everyone buying a ticket will have an equal chance for these presents.

A very interesting discovery has been made by chance near Nakusp. It is a cache of Indian relics of a very ancient type and wholly unlike any that have been considered characteristic of the Indians of Kootenay. The hiding place was a hollow near the beach concealed by a thick clump of trees and underbrush. It contains many relics of the usual kind of Indian stone ornaments and a large number of arrowheads of a green stone not found in the neighborhood. There are also stones of the same material that seem by their shape to have been intended, some for axes, others for hammers, and for other simple tools.

The visit of alderman D. C. McMorris and F. A. Starkey to the recreation grounds on Tuesday last was made on behalf of the Agricultural Association and for the purpose of consulting with the city engineer concerning the improvement of the race track and other portions of the ground for the approaching fair. On the special committee appointed to arrange for the extension of the grand stand Mr. Starkey represents the Agricultural Association and not the board of trade. The city council has tendered the services of the city engineer to the special committee appointed to supervise the extension of the grand stand and it is presumed that when the plans are ready tenders for the work will be asked for.

PERSONALS

Captain C. Paddon was in the city yesterday.

E. W. Ruff of Rossland registered at the Hume last night.

G. O. Buchanan of aKslo was at the Strathcona last night.

C. O. Rodgers, lumberman, arrived from Creston last night and is at the Hume.

H. E. Dill and family are in camp below Procter and will remain for another fortnight.

G. P. Wells and A. H. Gracey leave this morning for a visit to the Nugget mine in Sheep creek valley.

Harry Gibson is giving a dance at the Alice Roller Rink on Friday evening, July 31st. Irwin's orchestra will be in attendance with some new and lively music. Special attention is being paid to the floor, and a good time is promised to all. Dancing to commence at 9 o'clock, C. P. R. time.

RIVER LOOKS EMPTY

British Fleet Steal Out of Quebec's Harbor at Daybreak

QUEBEC, July 29.—The prince has gone, and with him departed all the floating citadel of the British fleet. Today the river looks empty and lonely, for of all the visiting ships, only the two French battleships and one or two small yachts now ride at anchor. The departure of the British fleet was stealthy and ghostlike, and only half a dozen newspaper correspondents and one or two enthusiastic visitors witnessed it from Dufferin terrace.

At 4 o'clock the flagship Exmouth, without a sound, began turning her nose down stream, executing the whole movement within her own length. Then silowly she began to move out to sea, her speed increasing every moment. Silent as death, and without scarcely making a ripple on the water, she sped away. One by one the great boats followed her, first the Russell, then the Duncan, Albemarle, Arrogant, and Venus.

IN TEXAS

Where Postmasters Must Be Careful or Take the Consequence

WHARTON, Tex., July 29.—R. B. Pointer shot and killed G. W. Jackson at Pierce, Tex., today following a quarrel over a one cent postage stamp. Jackson had mailed a letter with only a one cent stamp on it and Pointer, who had charge of the post office, called his attention to the matter.
