VOL. 7 NELSON, B. C., SUNDAY, JULY 12, 1908 NO. 68

SCORES A WIN

American Team This Year is Victorious

BISLEY CAMP SHOOTING

RIFLE USED BEING BETTER THAN THAT IN THE HANDS OF THE BRITISH AND CANADIAN MARKSMEN IS DECLARED TO BE THE CAUSE.

LONDON, July 11—The great international team match, the most important event in the Olympic rifle contests, has been won by the United States and the American marksmen thus become the champions of the world. Their aggregate score was 2531; that of the British team 2496 and that of the Canadians 2439. Starting with a lead at the end of the first range, the Americans were never displaced and with the exception of the contest at the next 100 yard range, scored higher totals for each of the six distances than any other teams, representing Canada and all Europe. Many experts consider the outcome a victory not only for the men but for the rifles. They declare that the American short barrel new Springfield rifle proved itself a far better arm than the new short barrel Lee-Enfield rifle in use in the British service.

The revolver team competition was won today by the United States, Belgium being second and England third. The aggregate scores were: United States, 1974; Belgium, 1868; England, 1816.

When the last bullet in the international match had sped to its target lord Cheylesmore rushed forward to general Drain and warmly congratulated the captain of the American team. The crown prince of Sweden came up while the general was still pointing proudly to the members of his team who had made particularly brilliant records and he also congratulated the general. For a quarter of an hour the general held a reception on the range, everybody wanted to congratulate the victors.

The American marksmen were individually surrounded by little groups of Englishmen and foreigners, including many British army officers, who closely examined the new Springfield rifle. They expressed admiration for the many good points of this weapon.

In the revolver contest which occupied most of the day, the Americans scored another victory. They defeated the teams composed of four men each of the United Kingdom, Sweden, France, Belgium, Holland and Greece. The American team was composed of Gorman, Axtell, Calkins and Dietz. With a grand individual aggregate of 501 Gorman beat the Belgian Vanae Brock, who was the winner in yesterday's individual competition, but today was only able to pile up 493. The aggregate team scores were: United States, 1914; Belgium, 1868; England, 1816.

General Drain in an interview said he was not surprised at the curiosity of British marksmen.

"I have the greatest faith in our new *Springfield rifle and the ammunition we use*," he said, "and I certainly think our rifles and our powder gave us an advantage over our rivals. From the commencement we felt, in consequence of the lack of skill of the continental shooters at the long ranges, that the real contests would be between Canadians, Englishmen and ourselves.

"I cannot say too much of the sportsmanlike attitude of the competing teams. All, of course, were anxious to win, but all were desirous that every team be given equal opportunity. I consider the English combination to be one of the strongest teams ever known.

"The weather continued windy, making shooting difficult, and I am confident that the English and American teams in normal weather would have shattered every record made by service rifles for the distances. The arrangements for the competition gave us great satisfaction. We were afforded every facility for practice and everything was done to make us comfortable. According to shooting etiquette, the honor of the highest individual score goes to W. F. Luerhner of New York, who scored a greater number of points up to the longest distance than major W. B. Martin of New Jersey, who tied him in the 1000 yard range.

PUBLICITY CAMPAIGN

Republican Nominee Anxious That All Election Funds Would Be Credited

HOT SPRINGS, July 11.—That the publicity campaign fund is to be made a feature of the federal campaign has been made very clear today. Mr. Taft had extended talks with chairman Hitchcock and with Geo. B. Sheldon, treasurer of the national committee who arrived here, and the necessity for the strictest possible compliance with the New York law in relation to the publicity of the campaign of the national committee, was the chief topic.

LAKE OF OIL ON FIRE

Covers an Area of More Than a Mile Square—Causing Great Excitement

CHICAGO, July 11.—A despatch to the Tribune from Mexico City says: "A lake of oil covering an area of more than a square mile and of unknown depth, in the state of Vera Cruz, is on fire. It has been burning for five days and has created the wildest terror among the natives of that section. The blaze can be seen for more than 200 miles at sea, according to mariners who have arrived at Vera Cruz. The scene of the fire is about 75 miles east of Tampico. It is remote from any river. An oil field was being developed at that place by the Pennsylvania Oil company, which is composed of Pittsburg men. The company had bored a number of wells and all of them were flowing oil in large quantities. The product was placed in earth in storage tanks preparatory to shipment."

Coast Lacrosse

VANCOUVER, July 11—In the league lacrosse match today the Maple Leafs walked away from the Victoria team by a score of 11-2.

AMERICANS MAY OBJECT

STILL MAINTAIN THAT LONGBOAT IS A PROFESSIONAL

FORMAL OPENING OF OLYMPIC GAMES TOMORROW

LONDON, July 11.—The most elaborate arrangements have been made for the formal opening of the Olympic games on Monday by the king. Before his arrival there will be a grand cycling races and gymnastics and the first heat of the 1500 meter race will be run off. Regarding the present plans of conducting the vaulting and high jumping contests, the Americans contend that vaulters must be allowed to dig a hole for the pole and that the ground on further side of the bar must be dug up to lessen the shock of alighting. The Canadians and some others are objecting to these conditions, asserting that there should be no hole for the pole and that the jumpers should alight on turf.

The drawing for heats also has been the cause of objection. The committee in charge of this detail decided that the drawings should be made from a hat but the Americans have pointed out that this might lead to all the men of any one country being drawn for the same heat.

A greater difficulty faces the management on the question of whether Tom Longboat, the Canadian Indian, shall be allowed to compete in the long-distance events. The Americans hold that he is a professional, but have not yet entered a formal protest against him. A meeting of the American committee has been held upon what action shall be taken in this matter. The members of the committee are strongly opposed to doing anything that is likely to interfere with the success of the games, but they contend that they cannot allow their men to jeopardize their amateur standing by competing against a professional.

S. A. VETERANS

Discussion in the Commons on Land Grant Bill—Some Amendments

(Special to The Daily News.)

OTTAWA, July 11—The house spent several hours over the South African veterans' land grant bill last evening. The bill as drafted confined grants to residents of Yukon and the prairie provinces, but on Col. Hughes pointing out that he had been excluded from going with the Canadians by general Hutton, and consequently was not eligible for a grant, although he had gone on his own initiative to the war, the resolution was extended to all Canadians.

There was considerable criticism of the clause permitting veterans to assign their lands or accept scrip, but the minister was firm and was upheld by the house.

J. G. Turriff objected to limiting assignments to British subjects, urging that a declaration of intention should be sufficient.

The minister informed Herron that the mounted police were eligible.

W. D. Staples read a petition for grants to western pioneers, who had served the country by operating the land.

The minister said this was worthy of consideration but was not relevant to the bill.

Herron's motion to abolish the requirements that the two quarter sections must be adjoining was defeated.

Herron withdrew his motion to exempt incapacitated veterans from homestead duties, on the minister's suggestion that *this be left to the governor in council*, lest it encourage frauds.

R. E. Lake moved to confine all scrip to residents of the Yukon territory was negatived.

The minister explained that the bill would affect 7000 of the population.

The bill was left in committee for further consideration.

SHUNS THE PUBLIC

Ex-Mayor Joins a Trappist Monastery—Would Blot Out Past

CHICAGO, July 11.—A despatch to the Tribune from Dubuque, Iowa, says mayor H. A. Schunk, who disappeared recently, was yesterday found in the Trappist monastery, 18 miles from here. Troubles in legal and political affairs are assigned as the reason for his desire to shun the public. He is following out strictly the rigid discipline of the monks.

HONORABLY ACQUITTED

Dr. Chapman of Winnipeg Commended by Judge Walker

WINNIPEG, July 11—Dr. F. S. Chapman was this morning honorably acquitted by judge Walker of the charge of performing an illegal operation, and also was commended for his actions throughout the whole affair.

LONDON TOWN

Doings of the Metropolis of the Empire

NO PROTECTION IS NEEDED

LIBERAL GOVERNMENT AND THE DYING HOP

RESS OF THE OLYMPIC ATHLETIC FUND—BALL AT BUCKINGHAM PALACE.

LONDON, July 11.—Donations continue to float into the Olympic fund for the entertainment of the foreign athletes. The latest subscription is from lord Strathcona, who has given $1000. The committee has arranged a special reception for the officials and athletes at the Grafton Gallery in Bond street tomorrow night. In practising at the Stadium yesterday, John Flannigan, of New York, threw the 16-pound hammer 173 feet, 2 feet and three-quarters of an inch behind the world's record. A number of Canadians ran over the Marathon course, from Windsor Casle to the Stadium, today. They declare there is not a better course in the world.

At the Stadium this afternoon H. S. Porter, one of the American Olympic contestants, cleared six feet one inch in an exhibition high jump. This is two inches better than the jump made by Leahy, one of the British entry, at the championship meet last week.

The Times' correspondent at Teheran says that two of the shah's ministers, tomorrow, will go to the British legation formally to apologize for the disrespect to the British flag during the trouble.

The last state ball, held here last night in Buckingham Palace, was a very brilliant affair. Every available member of the royal family except the duchess of Albany was present.

The select committee recently appointed by the house of commons to consider means for rehabilitating the hop industry issued a report last night. It says that in view of the fact that the importation of foreign hops during the last 30 years has a tendency toward decline, the committee does not consider that foreign competition is so potent a factor in the causes of depression as to demand exceptional treatment. The committee does not favor the levying of a duty on hops or other measures to restrict the importation, but it recommends the application as far as possible of the laws relating to the marking of hops to foreign products and that the use of substitutes be prohibited by parliament.

The duke of Norfolk, lord Roberts and a distinguished party sailed today from Liverpool on the Canadian Pacific liner Empress of Ireland for Quebec to attend the Tercentenary celebration and the Founding of Quebec by Champlain.

A report is in circulation here that lord Clancarty will marry a Mrs. Marcus, widow of a wealthy American banker. In response to an enquiry by the Associated Press, lord Clancarty said: "*The announcement is premature* I cannot at present deny nor confirm it, and so cannot give the name of the lady"

The singles in the lawn tennis at Wimbledon, in connection with the Olympic games, were concluded here today. J. M. Ritchie, the English contestant, won the gold medal, and Frolzheim, Germany, the silver medal. Ritchie's score was 3-0.

BIG FIRE AT WARDNER

ENTIRE BLOCK OF BUILDINGS IS CONSUMED

BLAZE SUPPOSED TO BE OF INCENDIARY ORIGIN

(Special to The Daily News.)

CRANBROOK, July 11 — An entire block including the Central and the Union hotels, and a very considerable number of stores and dwellings were wiped out by fire at Wardner, near here at 1 o'clock this morning.

The fire started in an unoccupied room in the Union hotel and as the buildings were all flimsy structures and no water being available, the whole block was a roaring mass of flames in five minutes. No lives were lost but one man named McPhail was very severely burned in trying to escape by the window of his bedroom. He was removed to the Cranbrook hospital for treatment.

A week ago a quantity of rags and paper soaked in oil was found blazing against the back of the Union hotel, in time to extinguish the flames. As the fire in that case was deliberately set and as the fire this morning started in a vacant apartment, the opinion is that the outbreak was of incendiary origin.

The loss will run about $70,000 and the insurance so far reported will amount to only about $7000.

TO FIGHT IN FRISCO

Ketchel and Kelly Matched for Twenty Rounds on July 31

SAN FRANCISCO, July 11.—Stanley Ketchel and Hugo Kelly were yesterday matched to fight 20 rounds on July 31 at the Coliseum in San Francisco for the middleweight championship of the world. This match is to be substituted for the proposed Ketchel-Flynn match, which has been declared off.

QUEBEC TERCENTENARY

A MODEL STAGE FOR A GREAT PAGEANT

PROCESSIONS AND TABLEAUX OF THE FETE

QUEBEC, July 11—This city will attract thousands of visitors from all over the British empire from July 19 to 31. The celebration will be the biggest of the sort the dominion ever undertook, and the present outlook is for a unique and wonderfully spectacular event.

In some quarters some prominence is given to the idea that Canada proposes to celebrate chiefly the battle in which Wolfe defeated the French on the Plains of Abraham. The event to be celebrated is the settlement of the country in 1608—the begining of Canada—by Champlain, the discoverer of St. John.

French Canadians, therefore, may well *join heartily, as they are doing*, with their fellow citizens in support of the project and may take full pride in its scope, its significance and its success.

The coming of the prince of Wales, the presence of a British fleet, the assembling of squadrons representing the nations of the world, will contribute to the listinguished and striking nature of the gathering.

The world has no better scene for such an event. Quebec's magnificent situation, its romantic history, its picturesque features, the sweep of the noble river—these things make the ancient capital a model stage for a great pageant.

THURSDAY'S PROCESSION

The order of the historical procession through the streets on Thursday, July 23, will be as follows:

1—The men of the watch and heralds at arms.

2—Jacques Cartier, accompanied by his sailors, preceded by a cross with the arms of France.

3—Francis I., king of France and his court.

4—Demonts, Champlain, Pontgave, the the three chiefs of the expedition, followed by the crew of thee Don de Dieu.

5—Henry IV., Sully and the court of France.

6—Dollard and his 16 French comrades at the Long Sault.

7—Discoverers and founders of towns of Joliette, Lasalle, Maisonneuve, etc.

8—Cavalcade representing De Tracy with his suite, composed of 24 guards and four companies of the regiment of Carignan-Sallieres.

9—Duluth and the coureurs de Bois.

10—Frontenac, with sovereign council and his guards and staff, and the militia men of Robineau de Becancour, of Iberville and other chiefs.

11—Mdlle de Vercheres, accompanied by brothers and followers, and groups of Indians.

12—Montcalm and Levis at the head of their regiments, the La Sarre, Languedoc, Bearn, Guienne, Royal Roussillon, Berry, Marine, troops, Canadian militia and Indian allies.

13—Wolfe and Murray and their regiments; Amherst, Anstruthels, Lascelles, Kennedy, Bragg, Otway, Louisborg Grenadiers, Scotch Highlanders and Royal American.

Guy Carleton and the principal officers of the regular troops and the Canadian militia, defenders of Quebec in 1775.

15—De Salaberry and his 300 Voltigeurs de Chateauguay.

At the head of each group, pages will walk with banners, giving data and short description of the group.

THE HISTORIC PAGEANTS

First pageant—1535, Jacques Cartier; 1st tableau, the Village of Standacona; 1536, 2nd tableau, Jacques Cartier plants a commemorative cross on the bank of the river Lairet, and takes possession of Canada; 3rd tableau, the carrying off of the Indian chief Donnacona; 4th tableau, Jacques Cartier at the court of Francis I., giving an account of his discovery.

Second pageant — 1608, Samuel de Champlain, 5th tableau, Champlain receiving his instructions from Henry IV.; 1609, 6th tableau, battle of lake Champlain, Champlain's first meeting with the Iroquois.

Third pageant—1639, Mother Mary of the Incarnation and the Jesuits; 7th tableau, arrival of the Hospitaliere and Ursuline Nuns at Quebec. They are officially received by the governor, Hault de Montmagny, knigth of Malta; 8th tableau, Mother Mary of the Incarnation and the Jesuits catechising the Indians.

Fourth pageant——1660, 9th tableau, Dollard des Ormeaux and his companions in arms at the Long Sault.

Fifth pageant—1665, Laval and Tracy, 10th tableau, Mgr. de Laval, officially receiving M. de Tracy, lieutenant general of Louis XIV.

Sixth pageant—1670, 11th tableau, Daumont de Saint-Lusson takes possession of the western country in the name of the king of France.

Seventh pageant—1690, 12th tableau, Frontenac receiving the messenger of sir William Phips at the Chateau St. Louis.

Eighth pageant—1759 and 1760, 12th tableaux, grand final scenes; Montcalm and Levis, Wolfe and Murray, with their respective regiments represented in a parade of honor, marching and countermarching on the Plains. General salute of the troops answered by the guns of the warships; grouping of all the historical characters of the procession and the pageants.

IN BELFAST

Three Days' Clebration of the 12th Commenced Yesterday

BELFAST, Ireland, July 11.—A three-day celebration of Orangemen's Day, which falls on Sunday, commenced in Belfast today. It is estimated that 100,000 Orangemen are participating in the merrymaking. Extra police are on duty and troops are held in waiting at their barracks, but no serious trouble is anticipated.

GOOD MARKET

Kootenay Berries are Liked in Winnipeg

HEAVY CROP THIS SEASON

DESPITE MANY ADVERSE CONDITIONS GOOD PROFITS ARE BEING MADE BY MEMBERS OF KOOTENAY FRUIT GROWERS' ASSOCIATION.

That which is not generally understood especially by the older residents of this city, is the money that there is in fruit. Taking one crop alone, that of strawberries, which crop, as the orchards grow older, will not loom so largely in the percentage of fruit exported from the Kootenay as it does at present, and there has been a remarkable showing this season although the berry days are now but half over and the period of high *prices is yet to come.*

Now, there have been several things militating against the berry grower. Some of these have been the case from the very start of the industry and had their origin in ignorance of the conditions, and others were special to this year, such as the lateness of the crop at the coast and on Hood river bringing the periods of their berries, which are generally over before that of the Kootenay berry begins. This last was a serious drawback as a large consignment to Hood River berries in none too good a condition, got into Winnipeg at the same time as the first of the Kootenay berries. Hence there was a glut on the market and a slump in prices, the good suffering with the bad.

Then there was the question of soft berries. Now, soft berries may be the best for home consumption but they are certainly not the best for shipping. In fact they will not ship at all. Hence they have to be sold locally and if the men who do not belong to the fruit growers' association cut prices the men *of the association, through that associa*tion, will have to cut prices also. Hence the spectacle that was afforded during the week of good berries being sold at 85 cents a crate. It was just as easy for the grower to have planted a variety which would have borne export and so have netted many times the profit. However, every berry grower has to learn by experience. This fall will be planted berries which will ship and there will be no more sacrifice sales of such a nature.

Again, there have been quite a number of berries returned to the packers because of the bad packing or grading. This has been hard on the individual grower but has been better for the district as a whole. Advices from Winnipeg state that the Kootenay berry is the best berry on the market. That was not said a year or so ago when complaints were general as to the condition in which the berries arrived. All these things have meant loss to the grower and if they had been eliminated there would have been an even bigger showing than is the case at the present time.

There has been one thing, however, among many others, in which an improvement has been shown. That is that the Kootenay berry for points east of Macleod have either been shipped in refrigerator or in ventilated cars. Now, to be able to ship thus enough berries must be handled by one person, or association of persons, to hire the whole car. A refrigerator car will not be sent away unless 600 to 650 crates are presented for shipment while a ventilator car takes a minimum of 600 crates. Hence the fruit growers association has enjoyed a *big advantage over individual growers*, an advantage which they have not been permitted to enjoy locally in shipping to distant points. For the individual grower can seldom or never have sufficient berries to hire a refrigerator or even a ventilator car. And it is abroad, not locally, that the big prices are commanded.

In illustration of this may be quoted the following telegram from G. Ford, the general western manager of the Dominion Express company, which is handling the transportation of Kootenay berries, to F. H. Smith, the local agent here. Mr. Ford says: "Berries shipped in refrgerator cars have reached here in splendid condition; in ventilator cars in very good condition; in regular working cars in soft condition. Berries netted to growers from $1.65 to $2.40 a crate. Average $1.90 a crate. Strongly recommend shipment of all berries by refrigerator cars."

To understand the telegram it must be remembered that the average price is taking into consideration the berries shipped by the ordinary cars which only *brought* $1.65 and up, whereas the other berries commanded the better prices. Hence the recommendation made. Now, the fruit growers' association has shipped no berries whatsoever to points east of Macleod by other than refrigerator or ventilator cars, and hence the lower rates quoted by Mr. Ford do not concern them. They do concern those persons not belonging to the association who have to ship in ordinary cars. This is one of the advantages gained by the association and as time goes on, yet other advantages will be shown which, doubtless, will increase the growers' profits.

Up to date there have been shipped away six refrigerator and ten ventilator cars to points east of Macleod. These berries have all arrived in "very good" or in "splendid" condition. The price, according to Mr. Ford, has been over $2 a crate. Hence as there have been some 9000 crates shipped, the value of the shipments to the grower has been $18,000 This is not counting berries sold by the association to points west of Macleod, nor the berries sold locally, nor does this figure take into account the berries that have been sold locally or elsewhere by growers who live in the Kootenay but who do not belong to the association. Hence, it is a conservative estimate to place the value of the strawberry crop sold to date at $25,000. Yet the season is only half over. The Hood River and the coast berries are finished. Picking has there ceased. Hence the latter half of the season is the season of high prices. The value of the strawberry crop alone this season should be well over $50,000. Only a few years ago it was $5000.

Then, take into account the other small fruits and the bigger fruits yet to come and some idea will be had of what fruit growing in the Kootenay really means.

Elections in Fall

OTTAWA, July 11—There is a prospect that prorogation will take place a week from today. Rumor likewise has it that the general elections will take place this fall.

BIG STRIKE ANNOUNCED

RICH LEDGE LOCATED IN THE BROOKLYN MINE

DISTINGUISHED MINING MEN AT PHOENIX CAMP

(Special to The Daily News.)

PHOENIX, July 11.—A rich strike has been made at the Brooklyn mine of the Dominion Copper company, a ledge of excellent showing in copper-gold. The value of the assays have not been given out, but it is understood the extent and value of the ore body makes it the most important find that has yet been made on the companys' properties.

H. H. Melville, vice president, and M. M. Johnston, consulting engineer, of the Dominion Copper company, arrived from Spokane on Thursday evening and expressed himself as greatly pleased with the results of the smelter and mines since the company resumed, the big furnace at the mines now treating from 600 to 650 tons daily and is running in clocklike fashion. Speaking of the new aerial tram line from the Idaho to the Stemwinder, Mr. Melville stated the plans would no doubt be carried out and the installation would commence in a few weeks.

August Raht, of New York, formerly consulting metallurgist for the American Smelting & Refining company, was in the camp on Thursday, leaving on the afternoon train for Trail. Mr. Raht spent about an hour at the Granby mines, but when interviewed afterwards said he had no opinion to offer in *connection with what he had seen.* "One cannot express an intelligent opinion after having only seen the surface of a mine," he said. "I came to the Boundary principally to see the Granby smelter, where they do things very differently to what we do. I am simply off on a holiday, and will do more fishing than inspecting of mines." Mr. Raht declined to predict for the future of metals anything definite, declaring he knew no more about it than anyone else.

PAY DAY IS POSTPONED

ONE RESULT OF THE BIG FIRE AT GRAND FORKS

PLEASING PRESENTATION MADE TO I. A. DINSMORE

(Special to The Daily News.)

GRAND FORKS, July 11.—Yesterday was payday at the Granby smelter in *this city. Checks were issued to the* employees, but owing to the fact that the Eastern Townships bank's vaults had not sufficiently coiled to allow of it being opened, payment by the bank will not be made until Monday. The Eastern Townships bank are having one of the stores in the brick block on Winnipeg avenue fitted up for them, and will open for business at that place on Monday.

At the last meeting of Gateway lodge No. 45, I.O.O.F., I. A. Dinsmore was presented with a past grand master's jewel and an address. Mr. Dinsmore is now chief of police for the city of Greenwood.

BISHOP CURTIS DEAD

Was Formerly a Priest in the Protestant Episcopal Church

BALTIMORE, July 11.—Right Rev. Alfred A. Curtis, Roman Catholic bishop of Willmington, Del., died here at 8:45 a. m. He was vicar general of the arch diocese of Baltimore. He had been under treatment for cancer of the stomach and his death has been for some days momentarily expected. Bishop Curtis was born in Maryland in 1831, and became a clergyman of the Protestant Episcopal church. After nearly a decade of service at Mount Calvary church in this city he resigned and going to England was received into the Roman Catholic church by the late cardinal Newman.

AMALGAMATION

Steamship Lines at Montreal Join Forces—Official Announcement

MONTREAL, July 11—The full amalgamation of the business interests between the Thomson and Cairn lines of steamships, resulting in the strengthening of the former by 30,000 tons, is announced.

IN GOOD TRIM

Many Mines Getting Ready to Ship

SEVERAL DEALS PENDING

STRIKES REPORTED DURING THE PAST WEEK—OPERATIONS ON THE YMIR AND NUGGET—IMPROVEMENTS IN SHIPMENTS WILL COME.

There has been a good increase in the shipments from the Boundary and from the Slocan during the past week with a likelihood of a yet larger tonnage being put out in the near future. Generally speaking there have been many mining deals in the air, some of which have been consummated, such as the Nugget mine, but there are quite a number of other properties which are being leased, bonded or sold *at the present time* although arrangements in most cases have not as yet gone so far as to permit of the publication of the news that the deal is actually through.

The Blue Bell mine has made some good shipments of late and may be expected to prove a yet larger shipper, when everything has been so adjusted in the fitting of the machinery to the ore in the milling of the product of the mine.

Also during the week a good strike was made on the Rambler-Cariboo and upon the Hewitt mine at Silverton the ore has been come upon at a part of the vein hitherto unexplored and at a depth of 820 feet below the surface.

The Ymir mine is apparently entering upon a new lease of life and some $30,000 will be spent between this and the end of the year in fitting up the mine and developing the newly discovered ore shoots.

The mill ordered for the treatment of the product of the Nugget mine in Sheep creek valley, was purchased lately in Victoria by A. H. Gracey, and is now on the way from the coast. As soon as it is received it will be installed and operations will be begun. The mill is one of four stamps, and has for about ten years been the property of the bank of Montreal. It was operated for a short time prior to that at the Alberni Consolidated mines. The machinery is in excellent shape.

Following are the shipments from the various mines and receipts at the smelters for the past week and year to date.

BOUNDARY SHIPMENTS

Mine	Week	Year
Granby	17,399	560,744

THE PRESS AND THE PUBLIC

The duties and responsibilities of the press continue to be discussed in many Canadian newspapers. For a time the coast newspapers contained long editorial references to the matter and now eastern publications are discussing the situation with a refreshing frankness.

It is the fashion in these times to denounce the press as the embodiment and patron of vugarity and the source of many michiefs and abuses, says the Toronto News. Some of this criticism is deserved; much of it is thoughtless, irrational and unjust. This is an imperfect world, and it has yet to produce a perfect human institution No doubt the press adds to the noise, the haste and the fever which are the unwholesome characteristics of modern communities. The newspaper will always be the expression of the spirit of its age and will represent both its virtues and its vices. The fair test of its value may be had by a frank consideration of what would be lost or gained by its suppression. This is inconceivable, but the supposition will answer the purpose.

There is no doubt that press criticism is often ill-informed, demagogic, ignorant and violent. But that the press has a declining sense of fairness and responsibility, and is peculiarly blameworthy for the barrenness of public life, if true at all, is true in such slight degree that the argument is not worth serious consideration. The press, like any other human institution, has its seasons of barrenness and inefficiency, its times of violence and irresponsibility, and these are likely to correspond with seasons of popular unrest and general unsteadiness and confusion of public opinion. Generally however, it stands for public decorum, public order and public spirit, and its substantial virtues far outweigh its follies and vanities. The newspaper becomes ridiculous when it poses as an infallible censor of morals and manners, when it denies its commercial instincts, or puts on the cloak of perfection. But we think it will be admitted that it is the friend of every organized charity and benevolence, the eager ally of the church, the school and the university, the powerful agent of commercial enterprize and national consolidation. It will, however, continue to study the temper of its community, to look on human happenings as marketable commodities, and to dress its material in the fashion which the time demands.

MINARD'S LINIMENT CO., LIMITED.

Gentlemen,—Last August my horse was badly cut in eleven places by a barbed wire fence. Three of the cuts, (small ones) *healed soon*, but the others became foul and rotten, and though I tried many kinds of medicine they had no beneficial result. At last a doctor advised me to use MINARD'S LINIMENT and in four weeks' time every sore was healed and the hair has grown over each one in fine condition. The Liniment is certainly wonderful in its working.

JOHN R. HOLDEN.

Witness, Perry Baker.

EDITORIAL NOTES

At the request of the signers of a protest against what was alleged to be the use of unnecessary force by the city police on Friday night, space was given in these columns yesterday to a written statement. In all fairness to the police, the men who signed the document in question should at once lay the matter before the police commissioners. Had The Daily News not perfect faith in the city officials concerned their side of the occurence would have been obtained and published alongside of the protest. It would be most unfair that a charge of the character made should be published broadcast and that no formal complaint should be made to the police commissioners. The five men whose names were published should follow the matter up or make an immediate public apology. The matter is referred to in the news columns this morning.

Canadian newspapers have been commenting on the hysterical actions of good sound common sense Americans, carried away for the moment, at the republican and democratic conventions. Americans are rather given to flying off the handle on some occasions and the Toronto News gives the following instance, adding a word of approval for Canadians under similar circumstances: In Toronto last week a tallyho load of Americans yelled themselves hoarse when they caught sight of the American flag depending from the window of the United States consulate in The Saturday Night building. When some Canadians drove past the British embassy at Washington they quietly raised their hats in token of their homage to the imperial ensign. The two incidents are perhaps more or less characteristic of the two peoples. The Canadian method of showing their loyalty in a foreign land will appeal to thoughtful Americans as the more seemly and as the more likely to promote amity between neighboring nations.

Nelson is not the only city in the west where strong complaints are made against "unnecessary noise. The Vancouver Province ends a lengthy editorial on "Outrageous Noises" in this fashion: "Most of the noise they make is all to *no purpose—it is just noise for the sake* of making it—to show they are there forsooth. But is the convenience and peace of the great mass of the inhabitants of this city to suffer because a conceited skipper wants to emphasize the fact that his room, which we desire so much more than his company, is again occupied? The expression of a strong public opinion against all unnecessary noise of these kinds, is the first thing towards ridding ourselves of it. Noise is a disability and a thing to be done without as far as possible. Some of it we have to bear. With regard to unnecessary noises let us say that we will bear them no longer."

"We will shortly have a penny-a-word cablegram. I am confident that with the assistance of great electricians *whom we have interested in the matter* it will soon be successfully accomplished." This statement was made by Mr. John Henniker Heaton at the dinner of the American Society on Saturday evening. Mr. Henniker was the first to announce the conclusion of a penny postal arrangement between Great Britain and the United States.

Looking for the Leader of Many Attacks—Officers Murdered

MANILA, July 11—A telegram received last night from Lieut. Ahearn says: "While returning with the remains of Everett and Wakeley our party found their last camp in the Bayaual mountains. At first the guides were apparently afraid to lead us near the camp. Luckily we at length secured guides acquainted with Ayaho, the leader of the murderers. Ayaho, it was explained, while gambling with the guides while he was a member of the party, one night drugged the whole party with the fumes from a plant and then with his followers killed five guides. It was stated that the reason given for committing the crime was that Ayaho felt like killing someone when he found the botanical poison and the other desire for the equipment and Everett's money. Ayaho's position was abandoned on our approach and we were obliged to discontinue the search for Ayaho. He is reported to be in the mountains with many followers. *We are short of rations, the trails are* bad, the rivers rising and becoming dangerous. Our guides deserted us in the mountains."

WHAT'S DOING IN CANADA

ITEMS OF INTEREST FROM YESTERDAY'S WIRES

THE DOMINION FROM THE ATLANTIC TO THE PACIFIC

LINDSAY, July 11—George Brimwell's sawmill was burned to the ground this morning with a loss of $7000.

WOODSTOCK, July 11 — Broadway school was destroyed by fire this morning with a loss of $12,000; insurance, $7000.

KINGSTON, July 11—Ross and Kenneth Davey, 15 and 11 years old respectively, were drowned at Enterprise while bathing today.

QUEBEC, July 11—The steamer Lake Champlain has arrived from Liverpool and landed her passengers at 6 o'clock this morning.

ST. JOHN, July 11—Fire broke out on Nare's wharf at 10:30 last night and did damage to the extent of $3500. A blaze started where the big fire began in 1887.

TORONTO, July 11—It is understood that a bill under the double liability clause is to be made at an early date on the shoreholders of the defunct Ontario bank.

MONTREAL, July 11—Fire last night did damage to the extent of $30,000 to the foundry belonging to J. Rheaule on Cartier street, in the north end of the city; insurance $12,000.

MONCTON, July 11—The New Brunswick Petroleum company shareholders are today considering the offer of an English syndicate to buy oil from Merimack and Dover. The sale is considered as likely.

MONTREAL, July 11—The earnings of the C.P.R. for the first week of July totalled $1,399,000 as against $1,542,000 a year ago. The G.T.R. earnings for the same week totalled $728,831 as against $861,384 last year.

WINNIPEG, July 11 — Twenty-four million pounds of binder twine will be required in western Canada for the crop and there are grave prospects of a shortage. This is allowing that there are 9,600,000 acres of grain in crop in the west which, owing to exceptional conditions will require two and a half pounds of twine per acre. The price, however, remains steady at 1 1-4 cents per pound wholesale, less than last year and the best authorities state that the supply is likely to cause more trouble than the price, despite the shortage.

CHATHAM, July 11—Dolson's cemetery on the banks of the Thames river, is being gradually washed into the river and many skeletons are exposed to view. The attention of the proper authorities has been called to the matter.

BRITISH POLITICS

The Effect of the Recent Bye-Election for Pudsey Division of Yorkshire

(London Financial News.)

George Whiteley's peerage costs more than ever Hugh Lea can have estimated. It cost the government the seat for the Pudsey division in which a liberal majority of 3502 has been turned into a unionist majority of 113 on a record poll. By an increase of 50 per cent in a unionpoll a constituency which has hitherto been consistently liberal has gone over to the opposition. It is a staggering reply to Mr. Asquith's challenge at Birmingham. If he really means to stand or fall by the policy he has proclaimed it is clear that sooner or later he must fall by it. The Pudsey result will not encourage him to create more parliamentary vacancies or to hasten a general appeal to the constituencies. He may indeed be trusted to hold on to office as long as he can keep a majority in the house and there is no reason to doubt that he will do this for a long time since most of his supporters know that for them dissolution must mean their disappearance from parliamentary life. There is nothing they would not face rather than dissolution. After Pudsey they may, in spite of the premier's emphatic assurances, have to fact the virtual abandonment of the licensing bill, and we may hear any day that "the demands upon the time of the house" have compelled the government to postpone the committee stage until the autumn session. The opposition will, of course, rejoice over the grave reverse that the government has sustained. It should also rejoice in the knowledge that it will tend to retard rather than hasten an appeal to the country; for although, no doubt, the country is ready for a change the unionist party is far from being ready to assume office. The action of the unionist leaders during the debate of the old age pensions in "walking out" and leaving their supporters to adopt a program of "go as you please" showed that it is not only in respect to tariff reform that the unionists feel the want of effective and vigorous leadership.

GLOWING CROP REPORTS

ALL AGREE THAT PROSPECT HAS NEVER BEEN EQUALLED

RAILROADS PREPARING TO TAKE CARE OF GRAIN

(Special to The Daily News.)

WINNIPEG, July 11—All doubts of the success of the crop of 1908 throughout the Canadian northwest have been dispelled by the recent hot weather during which time the wheat fields have grown as if a huge hotbed. Every wheat raising district is sending in glowing accounts of the crop prospects and all agree conditions have never been equalled in western Canada before.

A conservative estimate places the amount of wheat which will be available for export at over 90,000,000 bushels, a greater amount than the entire crop of 1907. Within two weeks many of the farmers, especially those in southern Alberta, will have started their harvest and within a month harvesting will be general all over the Canadian northwest. The railroad companies are preparing to handle a record crop and the prospects have had a wonderful effect upon trade generally until the recent financial depression is a thing of the past. Every line of business is feeling the effect of the bumper prospects and even the banks are not keeping such a tight hold upon their resources.

Northern Moral

(Special to The Daily News.)

WINNIPEG, July 11.—Recent mail advices from Dawson City say: "Arrivals on the Hamilton from Fairbanks bring word that 130 arrests have been made there in the crusade against unlawful cohabitation. This would mean that 360 people have participated in the offence. Not all who have been charged are to be considered guilty, especially before trial, but the comment here is that if anywhere near the number charged are guilty, Fairbanks perhaps was not far behind Sodom and Gomorrah in the memorable days of Lot and his salt experience. A number suspecting that their names might be written on the pages fair and white did a quiet skidoo down the river in small boats by night, while others, not thinking they were suspected, were placed under arrest before they had time to disappear. It is said that amongst those arrested are many prominent married men from the coast cities, who have been living in town for some months past attending to their business there."

Fashionable Suits for Summer

Styles, Textures and Fit for the Fastidious

Mid-Summer Sale now on in Handsome Sack Suits. Cut Prices.

$15 Values Now $12.50

$18 Values Now $15.00

SEE DISPLAY WINDOW

Our Semi-Ready Clothes are made by the best tailors in Canada, designed by men whose models are accepted by high-class custom tailors throughout the Dominion..

The Foreign and Domestic Fabrics are thoroughly shrunk before they are made up and are the best obtainable.

Cheaper Fire Insurance

THE FIRE INSURANCE SPECIAL COMMITTE reported to the Board of Trade that they consider Fire Insurance rates from 30 to 50 per cent. too high—

MY COMPANIES REALIZE THIS FACT AND CAN SAVE MONEY FOR YOU.

Let Me Show You

You can keep from 10 to 20 per cent of your premium in your pocket. The standing of my companies is first class.

Take for example, THE ANGLO-AMERICAN FIRE INSURANCE COMPANY OF TORONTO have paid $2,000,000 in losses in 10 years and carry about $40,000,000 of risks on their books.

NEW YORK FASHION LETTER

NEW YORK, July 11—Just at present three women out of four seem to be wearing the wrong kind of belt. Here are a few recently seen. A girl in a white skirt with a Copenhagen blue hat, wore a bright red elastic belt. If her belt had been white she would have been well dressed. As it was the effect was hideous. A very thin girl was seen wearing a belt at least four inches deep with a black buckle at front and back. This accentuated her thinness. Very thin persons should wear narrow belts. Then a girl with a 28 inch waist wore a black elastic belt with a scroll design in steel beads. This made her look twice her size. As a rule the belt should *match the costume. There is nothing* so good with a white skirt and blouse as a white belt. If the skirt is colored the belt should match the skirt. Navy blue with a blue skirt and so on. The good tailors now always send home a belt made of the skirt material.

A waist that has been stained and resisted the efforts of the cleaner was made presentable and even pretty by marking on the material with a lead pencil a diamond large enough to cover the stain. Another diamond was made in exactly the same place on the opposite side, and the edge of each was buttonholed. The material was then cut from within and replaced with motifs of lace. The expert needle woman might embroider a pretty design in self colored *silk instead.*

Blouses suitable for morning wear are made in very simple style, with stitched plaits and strappings of the material. Carried out entirely in net lace mounted over colored and white silk slips are waists intended for more dressy occasions. Such a blouse may be pretty trimmed with motifs of heavy lace and black velvet ribbon. The best authorities from Paris say that a touch of black is essential to the fashionable toilette. This necessary touch is given in all sorts of ways and black crops out in the most unexpected places. Sometimes on the large picture hat, again at the waist line or *when this is not considered desirable* the band on the skirt will show a narrow piping.

Elaborate braidings are much in demand, both on fine cloth for home wear and on silk and crepe de chine. This form of trimming will be a feature of all the best spring models. An exceedingly pretty effect is obtained on colored materials by the use of narrow black soutache braid applied in a close design. A distinctive feature of the new braiding is that it appears on coats and waists arranged to form a yoke, bodice girdle or revers ;the same design is used on the band that finishes the bottom of the skirt.

Brussels net is used a great deal for all ties, frills and pabots and, as being somewhat newer than the other materials, is steadily increasing in favor for this purpose. For the long fluted frills this net bordered only with a narrow lace edging is most attractive, while one exceedingly pretty accessory for the collar was composed only of a huge bow knot of the net, the ends finished with a narrow Cluny edging. High stocks of unlined net, tucked or embroidered batiste, and chiffon, finished with stiff bow knots of lingerie or ribbon or with long full jabots are now worn quite as much as the stiff laundered collars of embroidered linen. The introduction of this style of neckwear before the arrival of the hot weather is a boon which can only be fully appreciated by those who suffered through last summer in collars as high and stiff as the fashion laws then demanded.

If the very stiff bows are much becoming than those of the softer net it is an excellent plan to purchase a yard of bride illusion, which while expensive is so very wide that from the one yard can be made innumerable bows and ties. This illusion loses its stiffness when laundered but when reckoned by the amount for each bow is not extortion*ately high priced and one bow can be* worn surprisingly often.

For midsummer wear there are such pretty printed white muslins, the printed border being olny on one side and very wide, consisting of stripes and Greek designs, printed geomerical and oriental patterns, some having, with stripes, quaint tapestry animals or awkward primitive flowers, copied from early Persian embroidery. This border is used on the tunic which hangs no further than the knee in front and thus the resign reaches almost to the hips. The underskirt is in lace trimmed muslin, or in absolutely plain musin hemmed with a *soft satin ribbon. Muslins with printed* borders in 18th century. Rococo patterns are used in the same way over a petticoat whose deep border, showing below the tunic, is in toile de Jouy of the same trellis or bouquet design as that printed on the muslin, but there is a little vestment in toile de Jouy bordered with black satin in scallops and having a huge black satin bow at the small of the back.

YALE COLUMBIA CO.

Improvements That Will Increase Cutting Capacity

Improvements recently completed at the Yale-Columbia Lumber company's local mill will, according to the local manager, have the effect of increasing the mill's cutting capacity from 38,000 to 45,000 feet.

A new engine and new boiler have been installed, a lot of new ground has been made and the arrangements for handling logs are much more convenient now than formerly.

The company has also purchased the tug Hercules for towing its logs from the limits near Rykert's, which is one mile north of Port Hill.

An important addition to the company's assets will be begun next week. This is the construction of six miles of standard gauge railway from Rykert's to Creston for the rapid carrying of logs. The railway will be equipped with a 36-ton Shay engine and 15 cars of the Russell patent, with air brakes. Altogether the equipment will be that of a thoroughly modern logging road.

Blue Ribbon TEA

Is Most Carefully Selected

Of all the countries in the world, Ceylon and India have proved the best adapted for producing good tea. So Indian and Ceylon teas are exclusively used for Blue Ribbon.

And as hill-grown leaf is superior to the coarse, rank growth of the lowlands, only "hill" tea is allowed in Blue Ribbon.

Of the hill plantations, a certain number of estates are especially noted for the unusual and uniform excellence of their product.

From these celebrated hill estates, the very choicest of the crop is selected and reserved for blending Blue Ribbon Tea. So it is unusually delicious and fragrant, with none of the woodiness or bitterness that spoils so many teas.

Just get a pound of Blue Ribbon Tea and see for yourself how good it is.

NELSON NEWS OF THE DAY

Roy C. Brock reports that the strawberry season is now about half over.

The Kootenay Fruit Growers' association held yet another auction sale yesterday and with success.

The thermometer yesterday varied between 90 and 52 degrees, the warmest day as yet on record during this summer.

G. Hallett was the winner of the prize for best packed crate of strawberries. It was on exhibit in A. S. Horswill's window yesterday.

The Orangemen of Nelson will parade to the Methodist this evening at 7:30, where a special sermon will be preached by Rev. R. Newton Powell on the subject "Loyalty and Liberty."

The annual garden party under the auspices of the Ladies' Aid of the church of Mary Immaculate, will be held next Tuesday, July 14th, on the lawn in front of Rev. Father Althoff's residence. The city band will be in attendance.

Tenders for additions to two schools will be opened in this city at noon tomorrow. One is the Fairview, or Hume school, which, though only two years old, is already too small for the fast growing school population. The other is the school of the Sisters of St. Joseph. G. C. Egg, architect, is in charge of both.

Fred Nichols and family of Victoria, are spending a vacation with Mrs. Nichols parents, Mr. and Mrs. Wm. Batchelor in Fairview. Mr. Nichols was for a number of years connected with the office staff of the J. A. Sayward Lumber company in Nelson and is now chief accountant for the Lemon, Garrison Mill Company of Victoria.

At a meeting of ratepayers of Hume school district held yesterday, J. G. Hooper was elected trustee in place of G. H. Playle whose term expired. The other business was left over to Monday night the 13th inst., at 8 p. m. At the time the proposed arrangements for extending the school building will be laid before the ratepayers for confirmation, the assessment for next year will be fixed and other important business will be discussed. It is therefore important that all parents of school children and all ratepayers of the district be present. The meeting will take place in the school house, corner of Anderson street and Nelson avenue.

Graduate Cambridge University is willing to undertake private tuition in classes mathematics, French, etc. 15 years experience; highest references. Apply P. O. Box 784. 63-6

AT THE THEATRE

The Grace Cameron Opera Troup Which Opens Here July 15

The dainty little comic opera star, Grace Cameron, who is to appear with her big musical company at the opera house, has not only captured the hearts of the American people, but has almost as large a following in London, Berlin, Paris, Cape Town, Johannesburg and in fact, all the larger cities of the world, as she has in America. During her famous career with such celebrated organizations as "The Bostonians," "Foxy Quiller," Henry W. Savage's Grand Opera company, "The Telephone Girl," "The French Maid," "The Girl From Paris," "Nancy Brown," "When Johnny Comes Marching Home," "The Tenderfoot," "Piff, Paff, Pouff," etc., Miss Cameron has never played a part that she did not make a pronounced hit in and has never had or given a bad performance *in all her life. This is attributed as a good* and sufficient reason for her present popularity for as Edwin Booth often said "The success or failure of actors depends upon their ability and willingness to keep faith with theirwith the public."

The life of a conscientious actress is a most difficult one. Miss Cameron devotes her entire life to the public and her daily habits and routine of living is made to concede with her views to keeping faith with the public, so that she will never have to disappoint her audiences.

First is the delicate care of the throat, next the vigilance of keeping the tones of the voice properly placed, then there is the morning plunge, the regular massage, and the usual care of the health, the French, Italian and German lesson, and in fact the whole life of a conscientious prima donna is expended in the interest of the public and in the effort to keep faith with the public.

To the knowing ones, is it any wonder that celebrated prima donnas must necessarily draw handsome salaries.

HERE IS ENTERPRISE

Two Thousand Fowls Stolen by Automobile Thief in the East

UTICA, N. Y., July 11.—During the month of June more than 2000 fowls were stolen in Onieda county. Most of the thefts have been in the town of Sanferfield, where there are extensive poultry yards with so many chickens that a roll call is a big task for the manager's men. A farmer surprised a thief, and was in turn surprised when this fellow jumped into a big touring car and went tearing over the hills at a rate which made pursuit hopeless.

Over Thirty-Five Years.

In 1872 there was a great deal of diarrhoea, disentery and cholery infantum. It was at this time that Chamberlain's Colic, Chloreа and Diarrhoea Remedy was first brought into use. It proved more successful than any other remedy or treatment, and has for thirty-five years maintained that record From a small beginning its sale and use has extended to every part of the Unitdd States and to many foreign countries. Nine druggists out of ten will recommend it when their opinion is asked, although they have other medicines that pay them a greater profit. It can always be depended upon, even in the most severe and dangerous cases. For sale by all druggists and dealers.

SYNOPSIS OF CANADIAN HOMESTEAD REGULATION

Any available Dominion Lands within the Railway Belt of British Columbia may be homesteaded by any persons who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres, more or less.

Entry must be made personally at the local land office for the district in which the land is situate. Entry by proxy may however, be made on certain conditions by the father, mother, son or daughter, brother, or sister of an intending homesteader.

The homesteader is required to perform the conditions connected therewith under one of the following plans:

1. At least six months' residence upon and cultivation of the land in each year for three years.

2. If the father (or mother, if the father is deceased) of the homesteader resides upon a farm in the vicinity of the land entered for, the requirements as to residence may be satisfied by such person residing with the father or mother.

3. If the settler has his permanent residence upon farming land owned by him in the vicinity of the homestead, the requirements as to residence may be satisfied by residence upon the said land.

Six months' notice in writing should be given to the Commissioner of Dominion Lands at Ottawa of intention to apply for patent.

COAL—Coal mining rights may be leased for a period of twenty-one years at an annual rental of $1 per acre. Not more than 2560 acres shall be leased to one individual or company. A royalty at the rate of five cents per ton shall be collected on the merchantable coal mined.

W. W. CORY,
Deputy Minister of the Interior.

N. B.—Unauthorized publication of this advertisement will not be paid for.

BRYAN'S NOMINATION

COMMENT OF BRITISH PRESS ON CONVENTION'S CHOICE

DO NOT THINK DEMOCRATS HAVE CHANCE OF VICTORY

LONDON, July 11.—The London newspapers anticipate an interesting contest for the presidency of the United States. This they think will arise, not so much from the differences in the platforms of the opposing parties, as from the striking personalities of the candidates.

Mr. Bryan "having dropped the free *silver and other extreme planks*" is regarded as a valuable candidate, but is likely to stand little chance against "Roosevelt's nominee." His only chance, it is thought, would be from the support given him by the labor party, but this is expected to be more than balanced by the accession of the business community to Mr. Taft.

The Daily Chronicle regards Mr. Bryan's program the same as that of president Roosevelt, and says that it is only a question to which of the candidates its execution be entrusted.

The Saturday Review thinks Mr. Bryan has an advantage in being more prominent than Mr. Taft and suggests that the Nebraskan may obtain strong support from the Pacific coast by the adoption of congressman Hobson's naval views. The outlook, it thinks, shows that the odds against Mr. Bryan are so enormous that only a landslide, of which at present there is no sign, can wipe them out.

The *Times editorially says*: "It would be rash to prophesy, but it seems unlikely that Mr. Bryan will go to the White House. Still he has a personality *and real power amongst his own people* and the bulk of his party will fight strenuously for his success."

BERLIN, July 11.—All the newspapers this morning print the news of the nomination by the democratic national convention at Denver of W. J. Bryan for the presidency of the United States, but most of them without comment.

The Boursen Zeitung, a liberal paper, says Mr. Bryan on the whole has a very sympathetic personality. His great eloquence is due to his speaking his convictions. He is a man of weight and is a magnificent orator but hardly a statesman.

The Morning Post, the radical-democrats' organ, says Mr. Bryan is far below the late Grover Cleveland in statesmanlike capacity.

Boy's Life Saved

My little boy, four years old had a severe attack of dysentery. We had two physicians; both of them gave him up. We then gave him Chamberlain's Colic, Cholera and Diarrhoea remedy which cured him and believe saved his life.—Willing H. Strong, Carbon, Hill, Ala. There is no doubt but this remedy saves the lives of many children each year. Give it with castor oil according to the plain printed directions and a cure is certain. For sale by all druggists and dealers.

COMMUNICATIONS

Letters to The Daily News on current topics are cordially invited, subject to the following terms:

The letters must be plainly written (typewritten preferred) on one side of the writing paper only, of reasonable length and must be signed by the writer for publication.

The Daily News is not responsible for the views expressed by correspondents.

EDITOR THE DAILY NEWS:

In reference to the change of time in Nelson, it might not be amiss to call the attention of those who wish for a change, to a Statute.y enactment of the Province, which is known as the "Definition of Time Act, 1898." This Act was amended in 1899, and Section 2 now reads as follows:

"Where an expression of time occurs in *any act of the legislature, whether* heretofore or hereafter passed, or in any rule of court, by-law, deed or other legal instrument, whether heretofore or hereafter executed, or whenever any hour or other period of time is stated either orally or in writing, or whether any question as to a period of time arises, the time referred to or intended shall, unless it is otherwise specifically stated, be held to be what is known as Pacific standard time, reckoned as eight hours behind Greenwich time.

Thus the contemplated change will affect all banks in the city, the government and municipal offices, who have stated hours for business, and, as far as one can see now, only lead to confusion.

Yours truly,
A. M. JOHNSON,

Nelson, July 10th, 1908.

Chamberlain's Colic, Cholera and Diarrhoea Remedy Would Have Saved Him $100.00

"In 1902 I had a very severe attack of diarrhoea" says R. N. Farrar of Cat Island, La. "For several weeks I was unable to do anything. On March, 18, 1907, I had a similar attack, and took Chamberlain's Colic, Cholera and Diarrhoea Remedy which gave me prompt relief. I consider it one of the best medicines of its kind in the world, and had I used it in 1902 I believe it would have me a hundred dollar doctor's bill." Sold by all druggists and dealers.

12 Reasons Why You Should Buy Burton City Fruit Lands

1. It is good soil, clay loam.
2. It is free from stone.
3. It is level land.
4. It is well watered; running water can be put in every house.
5. The blocks front on the lake.
6. The best of transportation; two boats daily.
7. You are close to good hunting, boating and fishing.
8. The land is easily cleared.
9. It is the centre of the fruit growing district of British Columbia, with orchards on the adjoining blocks.
10. The title is good.
11. It is close to town and market.
12. Our price is low and terms easy.

We quote below some of our large tracts of Fruit Lands which we are offering at wholesale prices.

These will be money makers for any one looking for an investment.

These lands are located on Lower Arrow Lake.

234 acres at Syringa Creek with 3-4 of a mile of lake shore. On this property there is a water record of 50 inches.

73 acres 10 miles above Robson on the lake shore.

450 acres on east side of Deer Park with water front.

1120 acres at Deer Park. The government wagon road runs through this property.

540 acres at Brooklyn, including the old town of Brooklyn; 30 acres cleared and over 40 buildings on the property.

712 acres opposite Edgwood Landing on the lake shore.

2200 acres in Fire Valley.

1860 acres south of Burton on the lake shore.

400 acres at Burton City.

320 acres, four miles above Burton City.

120 acres at Nakusp.

These lands have been selected by myself and while there is some waste land in places the surveys were made so as to cut out as much as possible those parts which were unsuited for fruit culture. In the above blocks there are 11 miles of shore.

Write for plan and prices if you are interested.

HOUSE WORK

Thousands of American women in our homes are daily sacrificing their lives to duty.

In order to keep the home neat and pretty, the children well dressed and tidy, women overdo. A female weakness or displacement is often brought on and they suffer in silence, drifting along from bad to worse, knowing well that they ought to have help to overcome the pains and aches which daily make life a burden.

It is to these faithful women that

LYDIA E. PINKHAM'S VEGETABLE COMPOUND

comes as a boon and a blessing, as it did to Mrs. W. Barrett, of 602 Moreau St., Montreal, who writes to Mrs. Pinkham:

"For years I was a great sufferer from female weakness, and despite every remedy given me by doctors for this trouble, I grew worse.

"One day a friend advised me to try Lydia E. Pinkham's Vegetable Compound. I did so, and am thankful to say that it made me strong and well."

FACTS FOR SICK WOMEN.

For thirty years Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, has been the standard remedy for female ills, and has positively cured thousands of women who have been troubled with displacements, inflammation, ulceration, fibroid tumors, irregularities, periodic pains, backache, that bearing-down feeling, flatulency, indigestion, dizziness, or nervous prostration. Why don't you try it?

Mrs. Pinkham invites all sick women to write her for advice. She has guided thousands to health. Address, Lynn, Mass.

A SEND OFF

Pleasant Social at Silverton to Two Departing Citizens

(Special to The Daily News.)

SILVERTON, July 11.—A very enjoyable social and supper was tendered last evening at the Victoria hotel here to G. Kidson and W. Lawson, two young men who are leaving for the Boundary. The Silverton city band furnished splendid music and the evening passed very pleasantly. The party broke up by singing "God Bless Mrs. Casey."

Minard's Liniment Cures Colds, etc.

FOR CEMENT SIDEWALKS

ABSENTEE OWNERS COMPLICATE QUESTION

BAKER STREET TENANTS ARE MUCH IN FAVOR

The question of replacing the wooden sidewalks on Baker street between Hall and Kootenay, must be decided within the next few days. Before action can, or will be taken by the council petitions must be presented to the council signed by the owners of more than half the property in each block along which such a sidewalk is required. So far no petitions have been presented, but at least one will be presented on Monday representing the owners of the property on the south side of the street between Josephine and Ward, for which W. J. Wilson and J. A. Gilker have been energetically working.

The present position may be summarized by stating that the proposal is favored by practically all of those who are occupying their own premises, and by all who are tenants. But only a small proportion of the property on Baker street within the area referred to is owned by those occupying it, and of the non-occupying landlords many, probably at least half the number are also non-residents. Even of the latter class, however, it is fairly certain that some possibly the majority, would favor the scheme.

Ex-alderman J. A. Irving seen yesterday by a reporter of The Daily News said: "Of course I am in favor of it, but I am a tenant, not an owner. I think the suggestion is an excellent one if the property owners can be induced to pay the cost. What should be done, in my opinion, would be that the city should put in the sidewalks and pay for them by debentures to be met by a special assessment to cover principal, interest and sinking fund, within ten years. If the work is to be done at all, it should be done as part of a complete scheme, and not depend to any extent on the ideas of individual owners, some of them non-resident and taking little interest beyond attending to the collection of rent."

A. Tregillus of the firm of Malone & Tregillus, proprietors of the Tremont, said: "We are in favor of the scheme. In fact, we already have a small stretch of cement in front of part of our property."

John T. Pierre at first demurred to the idea of the owners standing so large a share of the cost of work, the benefit of which will be to the community as a whole rather than to individuals, but hastily added: "However, I am not a kicker; I have never opposed any improvement yet and I don't intend to do it now. The more of them the better. It has been the lack of improvements that has kept a lot of Nelson property vacant for long terms. As soon as improvements are made property is easily rented.

G. W. McBride of the Wood-Vallance Hardware company: "We are not quite owners yet. That is the reason I have not cared to appear in connection with a petition. But we are heartily in favor of the scheme. From the tenants' point of view I cannot see any objection. The cost will not be great enough to cause any raising of rents."

For P. Burns and company, Blake Wilson has been the prime mover in promoting the petition. He was not in when the reporter called, but F. M. Black said: "You may say that we are tremendously enthusiastic in favor of the plan."

J. A. Gilker also declared himself entirely in favor of the proposal and hopeful for its success.

H. Byers of the Ashdown Hardware company: "We haven't thought very carefully over it yet, but on general principles we are in favor of all such improvements. Personally I would much rather see the work done altogether by the city as a public work and paid for by a special tax. Under the present arrangement there may be danger of alternate blocks of wood and cement.

E. F. Gigot of the Hudson's Bay company declared himself very much in favor of cement walks and quite certain that his company would not object to paying its share of the cost. He would even desire that the block on the south side of Baker, from Ward to Stanley, should have such a pavement even if it were the only one.

There are two blocks, the north side from Ward to Stanley and from Stanley to Kootenay, on which practically none of the owners are occupying their premises. The one exception is the Canadian Bank of Commerce and there is already a cement sidewalk in front of it.

The promoters of the petitions should lose no time tomorrow in securing the signatures of all the resident owners. According to the statement of mayor Taylor in yesterday morning's issue of The Daily News, it is already too late, if any action is to be taken during the present year, to wait to hear from the numerous absentees or attempt to secure their signatures.

Choicest Camping Lots On West Arm of Kootenay Lake

Monday Morning, July 30th

We will place on sale a subdivision of Camping Lots situated on the North Shore of the West Arm of Kootenay Lake, 3 1-2 miles east of the city. Every lot will have 75 feet of fine sandy beach, sloping gently from the water. Splendid supply of water from a mountain stream that runs along rear of lots. The woods have been cleared of underbrush—this subdivision is certainly the choicest spot for Summer Homes in the Kootenay.

ADVANTAGES

EVERY LOT FACES THE WATER.
EVERY LOT HAS A BEAUTIFUL GROVE OF TREES.
EVERY LOT CAN SECURE PURE WATER.
NO WASTE OR HILL SIDE.
ONLY 9 LOTS

Sale opens Monday morning. Come early and secure choice of locations.

Attach booklet "How to Make Tea" to this coupon. Nelson News.

BUSH FIRES

Fernie Blaze Dying Down—Customs Returns for June

(Special to The Daily News.)

FERNIE, July 11—The big bush fire which did so much damage in the vicinity of West Fernie yesterday and seriously threatened the Cedar Valley mill, was got under control today and is not likely to spread towards the city though it may burn in the mountains for some time yet, as the change of wind is driving it up the hillside to the west.

The customs returns for June indicate that Fernie is still enjoying a period of prosperity and expansion as will be seen from the following figures: Dutiable goods, $30,286; free goods, $5280; duty collected $8604.94.

The rate of taxation was fixed by the city council at their last meeting held this week, at 22 3-4 mills, being the same rate as last year. At the same meeting a committee was appointed to interview the lessee of the water rights at Fairy creek, the source from which it is proposed to obtain a water supply for the city in the event of the municipality deciding to operate their own waterworks system.

The action of the C.P.R. in conceding distributing rates to this town will result in giving the merchants here the control of the wholesale trade throughout the Pass and relieves them of the serious disadvantage under which they have hitherto been struggling in their competition with outside business concerns.

The Elk Lumber company is considerably improving their fire fighting equipment and have ordered a quantity of hose of the same size as that in use in town and with the same couplings.

Mrs. H. H. Depew of Victoria avenue, gave a delightful tea this afternoon in honor of her mother, Mrs. Neff of Ingersoll, Ont., who is paying her a visit.

NELSON NEWS OF THE DAY

Some more men are being put to work upon the Queen Victoria mine.

There will be a meeting of the city council tomorrow night at 8 o'clock.

Mrs. Ireland will sing a solo at the evening service tonight in St. Paul's Presbyterian church.

The band concert last night was much enjoyed by the hundreds of people thronging the sidewalks.

The semi annual meeting of the license commissioners will be held tomorrow evening at 6:30 o'clock in the city hall.

Constable Sampson of the Crow's Nest Pass passed through Nelson last night on his way to New Westminster in charge of a lunatic.

The services of St. Saviour's church will be held today in parish hall, the repairs to the church itself not as yet having been completed.

Thomas W. Wilson was brought in last night from Hosmer where he was committed to twelve months imprisonment in the Nelson gaol by judge Wilson for uttering a forged document.

N. J. Howley, of the Nelson Tramway company, did not leave for New York yesterday as he intended. Finding Nelson a good place for rest, or fishing, he has determined to stay over until Monday and enjoy the weather of glorious Kootenay while he has the opportunity.

The Daily News yesterday was able to present its readers with interesting cuts of the leading rowing men in the recent N. P. A. A. O. regatta on Lake Washington. The The Daily News has to thank that enthusiastic Nelson oarsman, G. C. Hodge, for his kind assistance in obtaining and sending on the cuts in question.

Mr. and Mrs. J. Fred Hume will be at home to their friends on Thursday, July 16th, at their summer residence across the lake, "Killarney." It will be 17 years on Thursday, July 16th since Mr. and Mrs. Hume took up their residence in Nelson, and it goes without saying that the occasion will be marked by a large gathering of the friends of pioneer days as well as of those of later years.

Regarding the kick registered in The Daily News yesterday against the mail service to Kaslo and Lardo it has been pointed out that the contract between the department and the C. P. R. calls for he C. P. R. to take the mail. The postal authorities have to send the mail by the C. P. R. steamers and cannot alter the route. The trouble, if any, is the C. P. R. time table and that has been rearranged lately in an effort to please the majority.

At a meeting of the executive committee of the Nelson Boat club held last night in the office of the secretary, J. Teague, it was decided to hold a smoker in honor of the club's victories at the annual regatta of the N. P. A. A. O., held last week in Seattle. The date fixed is Thursday night, July 16th. The city band will be present and render a short program. Light refreshments will be served and possibly some brief speeches made.

Word has been received of the death at Weston-Super-Mare, England, on June 14th, of H. C. Beeton, one of the pioneer business men of Victoria, who will best be remembered as the founder of the important wholesale house of Turner, Beeton & Co. to the old-timers, the figure of the estimable gentleman who has just passed away was a familiar one, though to a majority of the people now living in the capital he was unknown. Establishing a business 46 years ago for nearly 20 years he numbered amongst Victoria's prominent citizens, and frequently, in later years, visited the early scenes of his labors.

C. I. Archibald came back last night from a trip to the east, accompanied by his mother who will stay with him at his home here throughout the summer. Mr. Archibald says that the crops in Ontario are very good and better than that province has known for many a year. Times are better, also, than they have been for a long time past. In the northwest the feeling about the crops is at fever pitch. The wheat crop promises to be the best yet harvested. Some farmers in Alberta are already thinking of beginning to cut within the next week or so.

Particulars of the annual meeting of the executive committee of the N. P. A. A. O., held in Seattle on July 3rd, now to hand, show that the following officers were elected for 1908-9: president, R. W. Wilber, Portland; vice-president, D. O. Sullivan, Victoria; secretary-treasurer, H. W. Kent, Vancouver; executive committee, Lawson and Andrews, Victoria; Russell and Seymour, Vancouver; Hart and Patton, Portland; Hodge and DesBrisay, Nelson; Hughes and Goodfellow, Seattle. The Seattle Rowing and Canoe club is practically defunct and the Algonquin club failed to make good. Neither was represented. It was agreed that next year's regatta should be held in Seattle in connection with the world's fair, if a request be received from Seattle two months in advance; otherwise it will be held in Vancouver, and in any event the old arrangefent of regattas in the four cities, Victoria, Vancouver, Portland and Nelson, will be resumed in 1910.

PERSONALS

Miss Gilchrist returns tonight from her trip to the Calgary fair.

Murray McGuire came in last night from Westley and is at the Strathcona.

Miss Pearl McGregor returned last evening from her trip to the Calgary fair.

J. Kirkup, the Rossland gold commissioner, was in the city yesterday on a visit.

L. B. de Veber, of the Bank of Montreal, has returned from his trip to Hosmer.

Lorne A. Campbell, paid a flying visit to the Boundary yesterday and is at the Strathcona.

Wallace Murphy, representing Barber and Ellis company, Toronto, paper dealers and stationers, spent yesterday in the city on a visit.

Mrs. W. Barrowclough accompanied by daughter, of Woodstock, Ont., arrived via the Crow steamer last night, on a visit to her parents, Mr. and Mrs. W. H. Jeffs, Cedar street.

R. L. Reid, of the firm of Bowser, Reid and Walbridge, barristers, Vancouver, arrived by the Crow boat last night and will spend several days in the city. Mr. Reid associated with judge Howay of New Westminster, is an owner of some valuable Nelson real estate.

Mrs. D. Ackley and L. L. Ackley are paying a visit to L. W. Ackley and wife of 1013 Front street.

Miss Florence E. Porteous, of Ottawa, Ont., arrived from the east last evening over the Crow's Nest line, and will be the guest of her sister Mrs. R. D. McDonald, 301 Victoria street west, for the next couple of months.

CRIMINAL LIBEL

Editor of North American Charged by Mayor of Philadelphia

PHILADELPHIA, July 11—Mayor J. Reyburn of this city, today through A. S. Shield, his counsel, instituted proceedings against L. A. Vanvalkenburg, editor and proprietor of the North American, and six members of the staff of the paper, charging them with criminal libel. The charges are based on cartoons and articles appearing in the newspaper during the last two years.

Counsel for the mayor notified Vanvalkenburg's counsel of the action taken and fixed next Tuesday for a hearing on the charges before a magistrate.

THAT PROTEST

Police Officials Promptly Deny Any Ill-Treatment as Alleged

The chief of police was seen yesterday regarding the protest sent to The Daily News by R. J. McGregor, H. R. Gaston, A. E. Jones, J. F. Cavey and F. Brians, concerning the alleged ill treatment of a drunken man on Friday night.

The chief denied promptly any improper conduct in the matter, and added: "I met McGregor today; he comes from Pilot Bay. I told him that the published statement made by him was untrue and that I should insist upon his bringing the matter up before the police commissioners at once and added that I would bring the whole party and other witnesses before the commissioners and the whole affair should be gone into. I told him where to find both his worship the mayor, and Mr. Irvine, but I judged from what he said that he would make no formal complaint. I told him he must make good or apologize for what he said in the paper."

As far as The Daily News could learn last evening no formal complaint had been made and until the matter is brought before the commissioners and the police shown to be in the wrong, no attention should be paid to the published protest. There is no difficulty in finding at least one of the commissioners at any time of the day and it can readily be seen that anyone having a reasonable complaint to make should promptly lay the matter before the proper authority. It is always easy to attack officials, but if there is anything back of the complaint in question it can be quickly and easily ascertained. No one wants to unduly shield public officials, but they are entitled to at least fair play and if no complaint is made and followed up in the present instance, no attention should be paid to the original protest.

GUN CLUB SHOOT

Remarkable Score Made by A. Bishop at Yesterday's Practice

Some remarkable shooting was developed at yesterday's practice shoot of the Nelson gun club. Archie Bishop managed to get a score of 23 consecutive birds without a miss, particularly good in so young a shot. There was some very fair shooting all round. Subjoined are the scores. 50 birds. Bishop 46, Ink 41, Wells 38, Johnson 35, Ward 35, Choate 28, Hammond 23. At 25 birds. Devitt 16.
