MEETATMOYIE

Tenth Annual Convention of Associated Boards

ADDRESS OF PRESIDENT

COVERS THE WHOLE OF THE WORK OF THE PRECEDING YEAR—TIMELY WARNING ON FOREST PRESERVATION—QUESTION OF LEAD BOUNTY.

(Special to The Daily News)

Moyie, B. C., Jan. 22.—The meeting of the Associated Boards of Trade of Eastern British Columbia convened here this afternoon at 3 o'clock, and was called to order by president G. O. Buchanan.

The delegates in attendance are as follows: Cranbrook, J. A. Harvey, M. A. Beale; Greenwood, James Russell; Kaslo, G. O. Buchanan; Moyie, E. O. J. P. Farrell, R. Campbell; Nelson, S. S. Fowler, I. G. Nelson, F. A. Starkey; Rossland, L. A. Campbell, A. B. MacKenzie; Trail, J. D. Anderson, G. F. Wier, F. W. Guernesey.

An address of welcome was made by president Campbell of the Moyie board.

The Moyie Miners' union showed a splendid spirit by turning their hall over to the delegates in which to hold their sessions.

The first business transacted was the presentation of the president's and vice-president's reports, given in full hereunder:

ADDRESS OF THE PRESIDENT

Gentlemen: The year with which it is my lortune to deal in my present report has been one of exaggerated features and sharp contrasts.

The machinery of finance has run as if without a balance wheel.

Enormous expansion of business—the spirit of enterprise never more dominant—production of commodities upon an immense scale—prices reaching record figures—a demand for labor that could not be satisfied—a rush of population into Northwest America, and especially into our own northwest, including British Columbia, and succeding to this healthy state of affairs—or perhaps brought about by it, a sudden drying up of the source of money supply, a sudden call upon the producing and speculating classes for the replacement of borrowed money upon which their operations were dependent—a sudden suspension of many lines of industry—followed by reduction of wages—dearth of employment, and the sacrifice of commodities and commercial securities in the effort to meet the demand for cash.

It is true that the vortex of these disturbances was not within our own borders, and that the scale of our operation is not yet large enough to constitute us an influential factor in bringing about such a state of things, but dependent as we are upon the markets of the world for the sale of our products, we share the general fortunes, and profit by or suffer from conditions in the creation of which we have had little influence.

In copper, the chief item of our metallic production, prices have ranged from 26 cents per pound in March to 11 7-8 cents in October. The average for the year has been 19 1-2 cents, a normal price being about 17 cents.

In lead, an important item, the range has been from £21 5s in June to £13 in December.

Silver has graduated throughout the year from 70 1-8 cents per ounce in January to 52 1-2 cents in December, a loss of 25 per cent in its value.

I have the satisfaction of mentioning, however, that prices in the present month (January, 1908) show signs of recovery. Copper has been quoted at 13 13-16, silver at 58 3-8 and lead at £14 12s 6d.

In the production of coal and coke there has also been much irregularity.

The mines and coke ovens of the Crow's Nest Pass were shut down for two months in the latter part of 1905 owing to disagreements in regard to wages. In consequence, we entered upon a winter, which happened to be one of exceptional severity, with depleted stocks. The difficulties of transportation were great. There was some suffering and great inconvenience in regard to fuel for domestic use, and some of the smelters were for a time idle.

In the spring labor troubles at the coal mines again became acute, there was a protracted period of idleness reserve stocks everywhere exhausted, with the result that for a time a number of stacks were idle for lack of coke.

In deference to representations made by some of the smelter managers backed up by some of our local boards, an enquiry was instituted by the provincial government with a view of ascertaining whether coke was being exported to the detriment of our own industries. The result of this enquiry has not as yet been made public, nor is it at present a matter of consequence. The conditions are now quite reversed, the supply of coal and coke is ample and reserve stocks are again accumulating.

LABOR CONDITIONS

In the spring of 1907 there appeared to be a scarcity of labor, especially of good miners. Wages were generally raised to a higher rate than had hitherto been paid in the country.

With the phenomonal fall in metals in the latter part of the season came a demand for a readjustment of wages. This delicate operation has at this date been submitted to and in a manner, on the whole, creditable to all parties.

In the Rossland camp a settlement was made by friendly conference. In the Boundary district the mines and smelters were generally closed down, and a new scale of wages was offered which, after some demur, was accepted.

At the St. Eugene mine, Moyie, both parties asked for a reference to a board of arbitration, constituted under the Lemieux Labor act. This board, which consisted of P. E. Wilson, Esq., judge of county court, chairman; S. S. Taylor, Esq., representing the employees, and J. A. Harvey, Esq., representing the company, went very fully into all aspects of the case and unanimously recommended a schedule arranged as maximum, medium and minimum scales, to come into force according to the varying prices of metals.

After some informal negotiations between the men and the company the recommendations of the board have gone into effect.

It seems likely that until conditions have radically changed this schedule will be a standard not only at the mine directly concerned with its formation, but also at all mines throughout our district. I am attaching a copy to my report in order that it may be printed for convenience of reference.

I have endeavored to ascertain the views of all parties as to the working of the new "Industrial Disputes Investigation Act 1907" and I have heard stated as suggestions for the possible improvement of the act the following points:

(a) That application for the appointment of a board should be possible, without a declaration that a dispute has actually occurred.

(b) That permanent boards of arbitration should be appointed, or in the alternative, that at least the chairman of the board should be a non-resident of the district in which he acts.

(c) That the clauses under which men are forbidden to quit work or employers to suspend operations during the pendency of an investigation, should be amended to exempt from their operations metalliferous mines.

BUREAU OF MINES

Some results of the establishment of the Dominion Bureau of Mines are apparent.

Mr. R. R. Hedley, a gentleman whom we have often welcomed as a member of these conventions, has been employed throughout the year in the collection of material for a report covering the whole field of the present condition of the mining industry in British Columbia. It is understood that this report will at an early date be printed and circulated as a government bulletin. Mr. Hedley's report will no doubt stand as a record of permanent value of the present day status of our development and will in the mean time afford an advantageous medium through which we may call the attention of the world to our resources as a mining country.

Mr. Einer Lindaman, a Swedish expert in iron, has also been employed during the summer in the examination of the iron ores of the province for the purpose of reporting to the bureau upon the supply and suitability of such ore as a basis for the establishment of the iron smelting industry.

MINING DEVELOPMENT

The Hosmer Mines company has carried on extensive development work at their coal properties at Hosmer during the year. This company expects to have its product (of coal) in the market in the latter part of this year, and will proceed to the installation of coke ovens at an early day.

The first of all our mines, the historic Blue Bell at Kootenay lake, has been systematically developed during the year, and has concentrating works of large capacity installed. This mine has in sight a large tonnage of lead and zinc ores.

The establishment at Nelson of works for the electric smelting of zinc ores is an enterprise of public consequence, and one, the success of which, will solve the difficult problem of the treatment of our zinc ores. The works are under the auspices of Mr. F. T. Snyder and his associates.

THE LUMBER INDUSTRY

The lumber industry has been severely affected by the shadow of financial stringency which fell upon the provinces. The demand for house lumber suddenly fell off, and our mill men were compelled to meet the changed outlook by curtailment or suspension of milling and logging.

The sawmills have generally been idle since September, and a small cut of logs is proposed for this winter.

Railway ties for local use and for shipment to the prairies are in active demand, and their manufacture and shipment is at the present time affording employment to many of our lumbermen.

The subject of forest preservation and the economical treatment of our timber resources we have frequently had before us.

The feature of the past year in this particular has been the withdrawal in December last of all timber lands of the province from every form of alienation.

It is understood that the government contemplates radical changes in the system heretofore in vogue, with a view to the conservation of our forest wealth.

The question is one that is far from having received the attention it demands. It is a large and difficult question. The whole revenue of the province might be appropriated, and the whole population might be constituted forest wardens, and still the service of forest preservation and culture be inadequately performed. The subject is fundamental. The continued habitability of the earth, the continued existence of the human species, depend upon the care of trees. The migration of men from older to newer countries, the wars of invasion and conquest are the outcome primarily of the willful waste of forests. The countries that were the birthplace of the race and the cradle of civilization have been for thousands of years deserted. The Holy Land, once favored, as we are taught: "With God's peculiar smile," is almost without inhabitant, or the capacity to sustain life, and a representative of the aboriginal race of America was long ago poetically depicted as warning those who have displaced his people that

"The land his tribe was crushed to get
Will be a barren desert yet."

The degree of mental culture to which men have attained is measured by their capacity for forethought, their power to postpone a present enjoyment or relaxation for a greater future good, and viewed from this standpoint, there is no duty before the peole of British Columbia comparable in importance to that of the formulation and afterwards the rigid persistence in a policy calculated to preserve for the future, unimpaired, their forest wealth.

As a preliminary to the adoption of a permanent policy it would, it seems to me, be well that the legislature should authorize the creation of a commission charged with the duty of:

1st. Investigation of the timber resources of the province, and an approximate determination of their value, especially as to unalienated lands.

2nd. Investigation of the methods adpoted for forest preservation, reproduction and utilization in Sweden, Germany, the United States and India.

3rd. The recommendation of the best practicable policy applicable to the cir-

SOCIALISTS IN GERMANY

STORMY SCENE YESTERDAY IN THE REICHSTAG

HERR BEBEL, SOCIALIST LEADER, BECOMES ABUSIVE

Berlin, Jan. 22—Chancellor von Buelow refused categorically in the reichstag today to reply to a socialist interpellation on the subject of the Prussian suffrage. This precipitated a deafening uproar of the members during which all the ministers left the house. The debate was then continued. Trouble with the people had been expected, particularly since the street disorders of yesterday and in order to be prepared for a recurrence of the violent encounters between the police and the populace, the houses of parliament were surrounded today with a large force of police armed with pistols and sabres. The principal thoroughfares of Berlin are being patrolled continuously by police, both mounted and on foot.

The chancellor trembled with indignation when he referred to the terrorism which he declared had been introduced into the capital. He stigmatized the street demonstrations as dangerous to the country, and he looked directly at the socialist members when he announced that the organizers would be held responsible. He was compelled to pause for several minutes because of the outbreak of rounds of derisive laughter from the socialist benches.

Herr Fisher, socialist, in the course of a speech, accused the police of infamously utilizing the services of detectives, thus creating a cause for the intervention of their uniformed comrades.

Herr Kreth, conservative, aroused an uproarious tumult among the socialist bench when he said that the leaders of the party were more prominent by their absence from the streets during the demonstration which they had misled others into making, even advising the participants to take their wives and children with them as a protection against the police. When Herr Kreth finished the statement, loud cries were heard of "vagabond," and "slanderer."

During the tumult Herr Bebel, the socialist leader, advanced to the tribunal and shrieked at Herr Kreth: "You miserable scoundrel," while Herr Stathagen called him a miserable vagabond and police spy. Amid cries of "get down from the tribunal," Herr Kreth concluded his remarks by saying: "I propose an encounter with Herr Stathagen at which the police shall not be present."

Herr Traeger, radical, spoke in support of the interpellation and declared that in spite of the declaration of the chancellor, hewould sustain the demand for suffrage in Prussia. The possibility of the socialists entering the Prussian diet was no argument againt granting the suffrage he declared, and it was impossible to prevent this powerful party forever from participating in parliamentary efforts in Prussia. To do so would be unlawful and unskilful; parliament should include representatives of all shades of opinion.

Prince Zu Hohenlohe of Langenburg, then praised the work of the authorities during the recent rioting and argued that Germany did not want politics carried into the streets as was the custom in America. After several other speakers had been heard, the debate adjourned until tomorrow.

SOCIALISM THEIR OBJECT

Hull, England, Jan. 22—The delegates to the conference of the labor party, who are now holding a session here and who yesterday voted down the resolution binding the party to socialism, today passed a motion declaring socialism to be the definite objective of the parties. Delegates representing over half a million members of the party favored the resolution which was passed amid a scene of great enthusiasm.

U. M. W. OF A. CONVENTION

Indianapolis, Jan. 22—The convention of the United Mine Workers of America today adjourned until tomorrow after hearing the committees named. The committees at once began work.

LAND SURVEYS

Dr. Kergin of Skeena Advocates Opening Country

RESERVATION OF TIMBER

DEBATE ON THE ADDRESS STILL PROCEEDING IN PROVINCIAL HOUSE—CRITICISM OF WORDING OF NATAL ACT BY W. J. BOWSER.

(Special to The Daily News)

Victoria, Jan. 22—Press Gallery, Legislative Assembly—Today's proceedings in the legislative assembly consisted almost entirely of the adjourned debate on the address which was largely of a technical character, the principal participants being the attorney general, John Oliver, with occasional remarks from the premier or the leader of the opposition.

The committees were published today.

The railway assessment act is objected to by the opposition because it gives the lieutenant governor in council, or rather the government, the power to discriminate in favor of certain railways. The coal tax bill if passed, will increase the tax 10 cents per ton on coal and on coke, 18 cents, both of which will be added to the cost to the consumer. This will be strongly opposed.

Energetic defense of the government by the attorney general shows that the question of constitutionality has given the government an occasion for serious reflection.

Mr. Olvier called attention to the return of correspondence, etc., brought down and containing only one communication from the lieutenant governor to the acting premier and asserted that a telegram passed between the secretary of state and the lieutenant governor. He claimed that the house is entitled to a full return and expressed the hope that "we are not returning to 1903, when it was necessary to put officers of departments on oath as to documents on file."

The premier admitted that the newspapers contained certain dispatches but claimed he had no responsibility for them, they being in the control of the federal government. The instructions to the governor are also in the control of the government.

In reply to the leader if the opposition the premier stated that he was not in a position to supply a copy of the instructions given the lieutenant governor when sworn in.

Continuing the debate on the address and amendment, Dr. Kergin (Skeena) advocated a complete survey of all lands open for entry to enable settlers to find them, also approved of provision for the disabled. While praising what had been done for the preservation of game he asked for the appointment of more game wardens and an increase of the bounty on wolves so as to stop the destruction of deer by these animals. The reservation of timber lands he considered of great importance, but deplored the throwing out of work of an army of hand loggers. The small mills he maintained cannot afford to maintain timber limits.

W. H. Hayward (Cowichan) said on the oriental immigration question that it was the government at Ottawa, who for years past vetoed the Natal acts, who are responsible for the existing state of things. They are now doing what should have been done 18 months ago.

Referring to the fisheries act of 1901, he congratulated the government for putting it into force. The total fisheries of B.C. amounted to $8,500,000, principally salmon. The fisheries require further regulation as the pack is rapidly decreasing and has been for the last eight years. The dominion government has been merely trustees of provincial property, including the fisheries, which had been horribly mismanaged. Instanced Cowichan bay, V.I. and river where a license was given to Victoria supporters to fish at the mouth of the river with nets.

Indian reserves he said had been a source of annoyance to almost every district. Indian lands should be reduced to correspond with the actual necessities of Indians.

He claimed the timber lands alienated are not being cut off but will be a source of valuable assets in the shape of royalties. The agriculturalist was also to be considered; the government should take a more active interest in the egg and poultry farmer who now has to dispose of his eggs in trade while the province pays for an immense number of imported eggs. He advocated the establishment of egg stations as in Ontario.

Stuart Henderson (Yale) referring to the speeches of yesterday characterized those of the government as markd by hysteria and insincerity; accused the government of playing Bowser a rather nasty trick by allowing the bill to stand which they knew could not become law.

For the benefit of the attorney general he quoted authorities on the construction of bills which allowed the words showing the true intent of the bill to be inserted. Amid laughter, he said he quoted these in order that the attorney general should have these to fall back upon in future.

The opposition had expected, he said, that the premier having visited Ottawa and England would have learned moderation, yet his speech of Monday was one big tirade against the opposition and liberal members at Ottawa.

Referring to Asiatic immigration, Henderson said the Chinese have much the same system of government as Japan, but the Japanese could control their people. Japan would not stand the same treatment as could be offered to China. The government at Ottawa had relied upon statements from Japanese high officials, and the statement of the Hon. Mr. Fisher and the undertaking of Japanese consul that they would see everything done. The Japanese immigration must be checked and a continuation of the present system would be disastrous. What is the best thing to do? Is it better to leave in the hands of Ottawa where it must ultimately rest.

On the constitutional question, if the premier's contention were correct all British statesmen have been fighting to obtain was in vain. As far back as 1760 records and authorities showed that any official could be dismissed, which the premier knew perfectly well. The premier had not exhibited the same manliness exhibited by the duke of Wellington under similar circumstances. He claimed that the Colonist left out a portion of the extract read by the premier which shows the responsibility of all lieutenant governors, is the same to his ministers as the king's to his minister.

Enquiring what the government is going to do about Indian reserves, the speaker pointed out there is a law and court to go to but that year after year the government mutter but never taken any steps. The government of the day is neglecting its duty by not going to the court and establishing its claims.

Premier McBride replied that with regard to the Indian reserves this government had made representations to Ottawa which will lead to the settlement of the question. So it is on the shoulders of his (Mr. Henderson's) friends at Ottawa. Mr. Henderson, expressing some doubt of the statement of the premier, the latter protested and Henderson withdrew the objectionable expression at the call of the speaker. Continuing Mr. Henderson referred to the taxation of the Columbia and Western which the premier had promised during the campaign to have looked into and asked what he intended doing.

Continuing the speaker declared that if the premier had resigned when assent was refused he would have brought to a crisis the whole Japanese question and he missed a great opportunity. Everything done since would not then have been needed.

W. J. Bowser spoke at length, but first as to his bill (described as a wasp without a sting) he declared the mistake accepted it after leaving his hands. As far as Indians were concerned there had been no case in which the reversionary interest of the province could be brought into the courts.

He proposed to assert the position of the province in the fisheries by the issuing of licenses. The fisheries, he charged had been used at Ottawa for political favorites.

The courts and privy council will decide whether we have the right of control. He extended compliments to the leader of the opposition on his clear and lucid argument of the constitutional question yesterday. But the question had arisen over an agitation which took place in the great liberal party as to whether Mr. Macdonald should lead them or not, as a result a liberal convention was called at Vancouver. It was not a love feast; political manna is a great thing, when the liberals cannot be supplied with it they are much disappointed. The leader of the opposition said if votes are not sufficient to put me in office I will bring on an agitation against the government in relation to the Natal act.

Returning to the constitutional question the honorable member quoted many authorities in support of his contention that the lieutenant governor is not bound to take the advice of his ministers or have instructions from Ottawa.

The reservation of consent could be done in two ways. If it is a fact that the lieutenant governor must receive instructions from Ottawa, there is an end to constitutional government. Suppose a governor appointed, opposed to the government in power, reserved his assent to some simple bill like the Wig bill, then according to the leader of the opposition the government must resign. There is no other constitution quite like that of Canada and Todd must be taken as speaking generally.

Mr. Macdonald interrupted to say that Todd deals expressly with government of colonies.

Mr. Bowser then enumerated the many occasions in which lieutenant governors had taken the stand, notably in Nova Scotia, in 1868, governor Dewdney in this province and MacIntosh in the Northwest, did not take advice and there was no question of resigning. This too was a private bill and not one in which the government took its life in its hands. We have to take the practice and experience of past governments. It was a matter entirely with the lieutenant governor and governing power. He wished to be understood as saying he had no communications or telegrams, and whether received or not, is a matter entirely between the lieutenant governor and the governor general as a federal officer.

There could be no doubt that the telegram asking "Can I rely on this assurance?" of which so much had been said, conveyed instructions to disallow. The full responsibility has been taken by the government at Ottawa who were known to have disallowed such bills before. Such instructions need not necessarily be formal they might be verbal. On Ottawa the responsibility now rests.

John Oliver in criticism of the last speaker, said he had adopted his usual tactics. He had quoted a great many precedents where bills had been reserved; most of thm were of very ancient character but had omitted one or two special points which were the very crux of the question.

One is whether the lieutenant-governor had reserved his assent by virtue of instructions from the governor general, and whether the minister of the crown had disclaimed responsibility. The government had had months to consider these questions but the attorney general had not cited one authority in support of the position he now assumed.

The whole thing, in the report of David Mills, cited by the attorney general, turned on the question of instructions.

The speaker proposed to carry this into the enemy's territory. The premier left the matter open. Was that dealing frankly with the people of British Columbia.

The attorney general had said in Victoria that there would be an influx of 50,000 Asiatics to work on the G.T.P. The premier left with a full knowledge of this. Before he left the lieutenant governor informed him he would not assent, but he did not take the house into his confidence. He took no steps to avert the crisis. A large influx of Japanese took place, but the government took no steps to appoint a commission. But the government at Ottawa did and the provincial government offered no evidence before that commission but they did appoint one legal agent to attend.

There was not a particle of evidence to connect Kelly, Russell or Hays with the introduction of these Japanese, but the evidence disclosed that the Canadian-Nippon Supply company had been formed to defeat the restrictions and he believed the two white men connected with the company were supporters and constituents of the attorney general. He must come to the conclusion that the attorney general was deliberately misleading the people of British Columbia in his statements.

The debate adjourned and the house adjourned.

STANSTEAD STAYS LIBERAL

Montreal, Jan. 22.—In Stanstead today C. H. Lovell, liberal, was elected by a majority of 280 over A. H. Moore, conservative. The liberal majority in 1904 was 273. The new member is a son of the late member for Stanstead, Henry Lovell.

SOUTH HURON REGAINED

LIBERAL ELECTED IN PLACE OF TORY BY GOOD MAJORITY

THE LAURIER ADMINISTRATION STRONGER IN ONTARIO

Toronto, Jan. 22.—M. Y. McLean, liberal, was elected today in South Huron by a majority of 150 over Horton, conservative.

South Huron has seized the earliest opportunity of returning to its former allegiance. Prior to 1904, South Huron had been consistently liberal since confederation. In the general elections of 1904 the seat was captured by the late B. B. Gunn, conservative, by a majority of 111, so that there is substantial turnover in favor of the liberal government, a pretty effective answer to the scandal mongers. M. Y. McLean is a newspaperman and is well known throughout Ontario as a public spirited and enlightened politician.

IS DRAWING TO A CLOSE

RAPID PROGRESS BEING MADE IN SECOND THAW TRIAL

PRISONER'S MOTHER AND ANTHONY COMSTOCK EXAMINED

New York, Jan. 22—The end of the second Thaw trial is fast approaching. This fact was indicated late toady when Dr. Charles Wagner, the first of the alienists to be called by the defense, took the stand for his preliminary examination.

Anthony Comstock, vice-president of the society for the suppression of vice, had been heard as a witness early in the day and Mrs. Wm. Thaw, mothe. of the defendant had completed her testimony. The kindergarten teacher who had charge of Harry Thaw as a lad of six, also testified and the day marked a long stride towards the conclusion of the case.

Mr. Comstock's testimony, while new, had been discounted by the known facts of Thaw's appeal to him to assist in closing the house where Stanford White was alleged to have maintained elaborately furnished apartments and where young girls were said to have been mistreated. A dozen letters that Thaw wrote to Comstock regarding the matter and giving a description of the 24th street house, were admitted as evidence and read to the jury.

District attorney Jerome seemed to be as well pleased as the defense with the letters and the latter read into the record himself most of Comstock's replies to Thaw. The witness intimated in testimony that nothing had ever come of the complaints, legal evidence being lacking.

Mrs. Wm. Thaw, still unable to walk unaisted, because of her recent illness, was not long on the stand. She told of the early life, of influences before his birth and of the mental unsoundness of two of her brothers. There was no cross-examination. Mr. Jerome contenting himself by reading to the jury the affidavit the elder Mrs. Thaw made last year, when the question of her son's sanity was pending before the lunacy commission. In that affidavit she swore that in the direct line of descent there had been no insanity in the Harry Thaw family for four generations. As to the collateral cases Mrs. Thaw said there were but two and they were easily accounted for. In her statement to the commission Mrs. Thaw also resented the insinuation that she had been made to suffer because of newspaper reports of insanity in the family and declared there were no family secrets to hide and no skeletons to be bared.

Mr. Littleton may continue with expert testimony tomorrow or he may offer as witnesses the doctors from Rome, Paris and London who are to tell briefly of attending Thaw in those cities. Another doctor is expected to tell of an outbreak on a train and that will end all but the expert testimony.

Today the codicil to Thaw's will was put in evidence but the will itself was ruled out because of insufficiency of evidence showing its custody since 1905. Mr. Littleton said he would supply this tomorrow or Friday.

ELECTIONS ACT

Alicorn of P.E.I. Introduces Sweeping Measure

BASED UPON ENGLISH LAW

YESTERDAY'S PROCEEDINGS AT OTTAWA—FISHING ON PACIFIC COAST — SIX MONTHS' TEST WILL SHOW VALUE OF MISSION OF LEMIEUX.

(Special to The Daily News)

Ottawa, Jan. 22.—Alicorn, conservative (Prince Edward Island), today introduced a bill to amend the Dominion Election Act among the suggested provisions being further restrictions as to expenditures by candidates, forbidding hiring cabs on election day and making it an offense to give free tranportation on railways. The bill further provides for more general distribution of forms of oaths at election time. It provides in certain constituencies, where it has been the practice to hold elections one week subsequent to the general election, that nominations shall occur a week earlier than in other constituencies and be held on the same day. An amendment is suggested imposing heavy fines on corporations or directors of corporation contributing to election funds. In the case of the corporation the fine will be $5000, and anyone accepting money from a corporation will be liable to imprisonment or a fine of $1000. Government officials who contravene the act are also liable to fines and imprisonment. The bill makes it an offense for an official to act as the agent of a candidate. Many clauses, including the declaration of election expenses, are almost identical with the English act.

During the question time Dr. Schafner was informed that the trout fishery hatchery on Lake Winnipeg is idle this season on account of the failure to secure spawn. An investigation is being made as to why it was not secured.

Herron was informed that the government is not granting aid to any cold storage plants now in course of construction in Alberta. Application was made by the Edmonton Produce company for aid through T. S. Williamson, who died since, and nothing more was heard in connection with the matter.

Herron was also informed that in July, 1896, and January, 1908, the government granted fishing leases in the west (exclusive of British Columbia) to Coffey and Merriti, Winnipegosis; (2) F. H. Markey, (3) J. K. McKenzie, Selkirk; Archie McNee, Windsor.

The rest of the sitting was taken up with resolutions. J. H. Sinclair(Guysboro, N. S.) moved for the appointment of a select standing committee of the house on fisheries, basing the plea on the importance of the fisheries, and pointing out the Scotch fisheries board as an example of what might be done done to promote these interests. An educational propaganda should be inaugurated to teach the conserving of the fishing industry.

Kennedy (New Westminster) supported the resolutions. He thought more officials of the department should be placed in British Columbia because it was so far from headquarters.

R. L. Borden also supported the resolution and suggested that the committee be also charged with the consideration of all matters respecting forests and mines.

Debate adjourned.

The senate resumed this afternoon.

Senator Scott read a letter from baron Hayashi promising restriction of immigration, and he expressed the conviction that a six months' test will show the success of the Lemieux mission.

Senator Lougheed said the government was not the less to blame for the trouble which occurred. They were warned of the possibility of an influx before the treaty was adopted. It was extraordinary to rely on Japanese statements which Japan could change at any time. He complained because Scott had not stated the proposals to which Japan refused to agree. The duty of the government was to give information.

Scott replied that Canada's proposals could not be made public. Such action would not conform with the custom in international negotiations. Canada was satisfied with the willingness and ability of Japan to control emigration to Canada. If the treaty were not lived up to it could be denounced on six months' notice.

In the senate today senator McMullen, introduced a bill to increase to $500 fine or six months' imprisonment, the penalty for selling liquor to a railroad man on duty.

It is understood that a bill to settle all questions of jurisdiction of federal and provincial authorities regarding railway matters will contain the following:

That the incorporation and control of street railways and purely local lines should be left to the provinces, that authority, however, to incorporate other railways, whether operated by electricity or other methods, should remain in the hands of the federal parliament; that in all matters affecting the rights of municipalities, railways incorporated by the federal parliament shall be under control of provincial authorities. That in respect of rates ,however, uniform train rules, matters of equipment, etc., they shall be under control of the do-

THE HUDSON'S BAY STORES

A Large Shipment of the

Celebrated Stetson Hats

In the Latest Styles

MADE EXPRESSLY FOR THE HUDSON'S BAY STORES

Has been received direct from the factory. It is unnecessary to dwell upon the quality of these hats—the name of STETSON is sufficient to warrant their superiority.

We have SOFT HATS in black, fawn, brown and pearl shades, and in different shapes.

Stiff Hats are in black only. We would draw special attention to the

Flexible Stiff Hats

Which adjust themselves to the shape of the head, and prevent that unpleasant feeling of tightness which makes some people dislike hard hats.

We carry also a large assortment of Winter Caps.

An inspection of these goods is respectfully invited.

TIMBER RESOURCES

J. A. Macdonald, leader of the opposition, has rendered a valuable service to the province in bringing so forcibly to the attention of the people, the question of the proper conservation and administration of our forest wealth.

The government's policy, ruinous as it has undoubtedly been, has escaped severe criticism or denunciation mainly because of the condition of finances when they took office. Finances were not in a healthy condition and the government at once took such actions as created the impression that the province was on the verge of bankruptcy and by playing into the hands of the Canadian Bank of Commerce they certainly showed that so far as they were concerned they considered the financial situation helpless. Consequently when by their policy of disposing of the timber wealth of the province, the revenues were rapidly and largely increased the public were more relieved at the prospect of quick relief from threatened provincial bankrupty than they were concerned as to the wisdom of the course that so rapidly filled the treasury. It is beginning to be realized now that to get in money quickly the government has sacrificed literally invaluable natural resources. Timber lands have been alienated that, properly administered, would have returned to the province millions where thousands have been received.

Moreover, the future of the lumbering industry has been to a certain extent jeopardised by the policy of allowing the timber resources to pass into the hands of speculators.

It is not likely that the government will admit of any error in judgment, or that their press apologists will take seriously the criticisms of the leader of the opposition. But, happily, the public is becoming aroused to a proper sense of the situation and we may confidently anticipate that the public clamor for a more businesslike administration of the provincial timber assets will be so pronounced that the government will be compelled to adopt a different policy in the future. The leader of the opposition is doing good and useful work for the province when he forces upon public attention a momentous matter such as the ruinous dissipation of the timber wealth of the province.

EDITORIAL NOTES

The Canadian Courier makes some timely remarks anent the Lemieux mission to Tokio. The Courier says: The conservative editors do not seem to have realized that when Mr. Lemieux took ship for Tokio, he ceased for the time being to be a liberal leader and became a Canadian diplomatic representative. It would be as good patriotism to keep up a running fire of ridicule and belittlement and prediction of defeat on a Canadian regiment marching into battle because it happened to be led by a liberal officer, as to assail Mr. Lemieux in this way during his diplomatic errand. Diplomacy is a civilized substitute for war. When a nation has to send a diplomatic representative to the court of another nation, he is as much the national repreesntative as is the general of an army in the field. And to shoot at him from behind is just as cowardly and treasonable. Several journals have pointed to this humiliating policy of the conservative press as an evidence that Canada has not yet attained mature stature. It would be fairer to say that we have not yet become accustomed to transacting national business. Some of us still think that our petty party squabbles are the greatest struggles in the round world. We can hardly talk of a European war without wondering chiefly what effect it will have on the various "votes" of European origin in this country of ours. Our fault is not that we have not risen to a national stature, but that we have risen far beyond it to the stature attained by conceited boyhood. Most of us remember what we thought of ourselves and our affairs when we were in our 'teens. Then we were the centre of the world. It made more difference what happened on our school ground than what happened in all the rest of the nations taken together. That is to some extent the national attitude of Canada—or, rather, the attitude of some of our people. We are quite conscious of our nationhood. It is our relative position among the nations that we have failed to perceive. We will have to learn to recognize the fact that, when the authorized government of the dominion sends a national envoy to a foreign court, he carries upon his shoulders the honor, the prestige and future respect of the Canadian nation. To criticize him captiously—to ridicule him at all—to treat him with scant respect—is to insult Canada. For the moment, he is Canada. For any one to assume that he will blunder, is to assume that the nation will be disgraced, and to take one's place among the critics of another nation which might like to see us disgraced. We must stand by our own man through thick and thin, under such circumstances, precisely as we would stand by our soldiers, even if they did make mistakes in tactics or found themselves outmanoeuvred. They are our own in any event. A diplomat is a symbol of his nation just as the flag is; and we might as well spit on the flag as wantonly ridicule our own diplomat. If he fails through his own fault, we shall have to deal with him at home, gravely, reluctantly, and as much as possible in domestic privacy. But this will come after he has laid down his commission. So long as he carries it, his person is sacred. We never hear of the British press ridiculing ambassadors while they are in the midst of their duties.

What's the matter with South Huron? No sign there of that predicted landslide to the tory party. One interesting feature of the contest in South Huron was that it was largely fought out on scandal charges. The tories went into the constituency and did their best to fill up the electorate on the sort of scandal-mongering they have been indulging in for months past, in and out of parliament. The liberal candidate and his platform supporters appealed to the electors to give a decision on these charges, to show by their votes whether or not they took stock in the tory mud-slinging campaign and the verdict is that South Huron has no use for politicians whose tactics do not rise above those of the bar-room loafer. South Huron, which went tory in 1904, goes liberal in 1908. Four years of tory representation was all that constituency could stand.

HON. RODOLPHE LEMIEUX
Postmaster-General and Minister of Labor

Hon. Rodolphe Lemieux, Canada's ambassador to Japan, whose successful mission has brought him very prominently before the Canadian people, is a young man, having been born in Montreal in 1866. He is a lawyer by profession, but for some years was engaged in newspaper work, as assistant editor of La Patrie. He was elected to parliament as member for Gaspe, Que., in 1896. In 1904 he became solicitor-general and in 1906 succeeded Hon. A. B. Aylesworth as postmaster-general and minister of labor.

MEETATMOYIE

(Continued From First Page.)

cumstances of the province, as the basis for future legislation.

I think we should do everything possible to create a public sentiment against the wasteful exploitation of our timber, and in favor of its judicious preservation, even at the cost of some present self-denial.

FRUIT

We have a growing reputation as fruit producers. At the recent convention of fruit growers of the northwest, held at Vancouver, collections of fruit from our district gained the highest awards. From the old country we continue to gather gold medals and the warmest enconiums. The axiom that vegetable products attain a maximum of perfection near the northern limit of their growth, is strikingly exemplified in our case.

The whole province may be made an orchard, and the elevated and more northerly tracts are found to excel at least in quality of fruit grown, the warmer and more humid zones.

The Dominion Department of Agriculture had had, during the year, an investigation made upon the subject of an experimental farm, or at least sub-station, to be established at some interior and elevated point. We will do well to press for the carrying out of this project.

The best experimental farm is, however, the privately owned orchard or farm made commercially profitable, and the man who creates such is a public benefactor.

I hope to secure for our publication this year a few photographs illustrative of the success as horticulturists that some of our neighbors have attained.

THE ALASKA-YUKON EXPOSITION

The province has here an opportunity such as has not heretofore occurred for advertising her wares.

Hundreds of thousands of people whose attention we most desire to catch will be brought to our threshold.

We should make a supreme effort to be represented adequately at Seattle in 1909.

Failing ample provision, it would perhaps be as well to do nothing. At Portland the British Empire had about 2500 feet of floor space, and of this British Columbia had an insignficant corner, while the states of Idaho, Washington and California had imposing buildings and elaborate displays.

The appropriation of the State of California was $100,000, and carloads of oranges and champagne were distributed to the visitors to her pavilion.

The duty of providing funds and efficient management devolves upon the provincial government, but the work of collecting and forwarding exhibits from our different localities should be undertaken by the boards of trade, and an intimation from our boards of their willingness to co-operate in this way, would probably be timely.

TELEPHONE AND TELEGRAPH LINES

Government acquisition and operation of these services is one of the recommendations that is to come before us.

The Province of Manitoba has purchased the telephone lines within her borders, and the provinces of Saskatchewan and Alberta are preparing to follow the example thus set.

It is but a matter of time for us. These means of commercial intercourse which are but extensions of the post office system must in the near future be administered for the common good, at the minimum of cost. Vested rights can be extinguished now at less cost than later.

Notwithstanding the many adversities that appear to have waylaid us in 1907 the statistics of production in our territory show an advance of one million and three quarters of dollars over those of last year.

We have good reason to hope for a greatly increased output, at least as to quantity, for 1908. With such improvement in prices as I confidently expect to see, we shall again establish a record.

I am, Gentlemen, Yours Faithfully,
G. O. BUCHANAN.

APPENDICES

Estimated value of mineral and lumber products of Southern Kootenay and Southern Yale for the year 1907.

Appendix to the report of the Associated Boards of Trade for the year, 1908:

Gold, 220,000 ounces at $20	$4,400,000
Silver, 2,800,000 ozs., at 65 1-2c	1,834,000
Copper, 38,000,000 lbs. at 19 1-2c	7,410,000
Lead, 24,334 3-4 tons at $80	1,946,735
Coal, 876,730 long tons at $3	2,630,000
Coke, 207, 879 long tons at $2.50 add	519,697
Total, mineral	$18,740,622
Lumber, 150,000,000 feet at $14	2,100,000
Total mineral and lumber	$20,840,622

The Le Rôi Mining company has employed throughout the year a naverage of about 245 men, and has paid in wages $316,720.

Total tonnage, dry ore has been, 110,410; gross value, $1,081,007; lineal feet of shafting and tunnelling, 4799 feet; diamond drilling 3740 feet.

The Consolidated Mining and Smelting Co., of Canada, has raised at its mines ore as follows:

St. Eugene, 134,626 tons, producing 23,068 concentrates; Centre Star, 133,311 tons; Snowshoe, 126,674 tons; Richmond-Eureka, 23 tons; tons smelted at Trail, 282,323.

METALLIC PRODUCTION

Gold, 87,371 ozs.	$1,791,310
Silver, 1,959,796 ozzs.	1,243,874
Copper, 4,241,063 lbs.	811,139
Lead, 30,094,080 lbs.	1,237,501
Total	$5,085,824

Men employed, 1400; annual payroll, $1,600,000. Since June 30, 1907 this company has declared one quarterly dividend of 1 1-4 per cent.

The Crow's Nest Pass Coal Co., Ltd., has employed in 1907, 2290 men; wages paid, $1,962,799.79; coke mined, 876,730 long tons; coke made, 207,879 long tons. The capital of the company is $3,727,500 and dividends pad in 1907 have been $355,178.98.

The Hosmer Mines Co., have expended to date $1,500,000. Shipments of coal will begin in 1908 and will be increased as the market requirements justify to 3,000 tons a day. The first installation of coke ovens will have a capacity of 300 tons a day.

VICE-PRESIDENT'S ADDRESS

Gentlemen—President Buchanan has covered in his very able address the whole field of work of last year and has pointed out to us the direction in which our energes should be directed at this convention. Still there are some points to which I would like to call particular attention. The first of these is the lead bounty.

Most of the boards represented here have passed or have endorsed resolutions as to the extension of this bounty. The lead mine owners, some of whom I am pleased to see are present., desire that the lead bounty should be extended from the time of its expiry in June next, to June, 1913 and that the bounty shall be payable upon lead at or under £18 instead of £16 pounds as now prevailing. I will not anticipate their arguments and will content myself with pointing out that while this matter was taken up last year, this year it is of more pressing importance. I may say that the lead mine owners have sent a petition to Ottawa to be presented by Messrs. J. L. Retallack and L. Pratt. These gentlemen have been accredited by the Nelson board of trade as their delegats on this question and I am of the opinion that some such similar step should be taken by this convention.

The next subject I have to refer to is the survey of available agricultural lands by the provincial government in the Kootenays. The legislature seems likely to take up this matter at this session and if the convention presses the point it is probable that with this backing the provincial government may take the definite and early proceedings so much needed.

A resolution with regard to an improved press service, passed last year will be again presented. I may say in this connection that during the past 12 months other boards in various parts of Canada have passed similar resolutions and that moreover, a couple of visits from British journalists has strengthened British opinion upon this matter.

Another subject is that of the working of the Lemieux act, a resolution on which will be presented. The administration of this act in many instances during the past year has been shown to be beneficial. Any suggestion which this convention may be able to offer will doubtless be welcomed by the dominion government in furtherance of the objects of this law.

I am sorry to say that there has been little advance since we last met on the freight rate question despite the unremitted activity of the Nelson board of trade in this regard. A resolution will be brought up, not upon the agenda, and therefore, subject to future ratification, dealing with the subject from the point of view only of the lowering of rates over the whole of Kootenay. I am, however, personally of the opinion that the Kootenay cannot expect much if any assistance from the remainder of Canada unless the whole subject is approached on the basis of a charge according to mileage.

During the year much more work was accomplished in building roads and trails and bridges than was anticipated by us in Greenwood last March. Still the work done, although valuable, has not been sufficiently systematic to give the relief to our pressing necessities as the large sum expended would warrant. I therefore again bring to the attention of this convention the need of elaborating a system of opening up the country and then pressing such a scheme upon the provincial government.

The Kootenay has as yet not had given to it an experimental farm but it may be thankfully noted that both the dominion and provincial governments have evinced much interest in the development of Kootenay fruit culture, by the sending of many experts into the country for the instruction of the ranchers and by the dispatch of experienced ranchers to Great Britain to inform the people of the old country as to the capabilities of this province.

The last subject to which I wish to refer is that of the Alaska-Yukon exposition tl be held in Seattle this year. I think that if the Kotoenay desires to be adequately represented at this exhibition it must, through this convention, formulate some scheme of representation to the provincial government asking at the same time for a large enough appropriation to cover our needs .

F. A. STARKEY, Vicepresident.

The election of officers followed the reading of the above reports, G. O. Buchanan being re-elected president, F. A. Starkey, vice-president and A. B. Mackenzie, secretary-treasurer.

The extension of the bounty on lead was the only other matter dealt with this afternoon. From present indications the work of the board will be completed tomorrow morning and the delegates will leave for their homes on the east and west bound trains. The delegates were entertained tonight at the Central hotel by the people of the town.

NELSON NEWS OF THE DAY

Judge Forin will hold chambers this morning.

The thermometer yesterday varied between 14 and 32 degrees.

The regular meeting of the L.O.L. will be held in the K.P. hall on Friday night at 8 o'clock.

Archie Cunningham was fined $5 and costs yesterday morning by police magistrate Crease for furious driving .

The regular meeting of the Pythian Sisters will be held tonight in the K.P. hall. All members are requested to attend.

Notice has been sent out that the bonspiel will commence tomorrow morning so as to take advantage of the cold weather. A telegram has been sent to F. A. Starkey, attending the associated board convention at Moyie, asking for his speedy return.

The Nelson hockey club has in contemplation a minstrel show to be held at the opera house some time in the near future. There will be a meeting tonight at the Hume hotel at 8 o'clock for the purpose of getting the matter in shape and all supporters of the team and lovers of good sport are invited to be present to help out with their suggestions. Edgar Mason has kindly consented to do his best to develop the latest talent and will give instructions to those who desire to become more proficient in the art of entertaining. If there be any good buck and wing dancers or any with other star minstrel stunts, that the committee has not discovered, they will be made welcome at the meeting tonight.

Get your ticket for the great hockey game at Rossland, Friday night; excursion train leaves Nelson at 1:15 p.m. and starts back as soon as game is over. Return fare $2.50 Get them from Manager McQuarrie.

The annual Congregational meeting of St. Paul's church will be held in the church hall this evening at 8 o'clock. At the close refreshments will be served by the ladies.

Don't miss the sport! Rossland-Nelson hockey game, Rossland, Friday evening, train leaves at 1:15 p.m. Round trip tickets $2.50. Get them from manager McQuarrie.

Arrangements have been completed for a hockey match between the junior teams of Rossland and Nelson to take place in this city on Saturday evening at the Stanley street rink.

At the regular meeting of Queen City Rebekah lodge No. 16 I.O.O.F. held on Tuesday evening, the following officers were duly installed: N.G., Miss Gussie Langord; V.G., Miss Grace Irving; R.S., Miss Frances Bacom; F.S., Mrs. Fish; treasurer, Mrs. Batting; warden, Mrs. Brown; O.G., George Steele; conductor, Mrs. J. Bulger; I.G., Mrs. Kennedy; R.S., N.G., G. W. Hale; L.S.N.G., Mrs. J. F. Kilby; chaplain, Mrs. Geo. Keyes. The installation ceremonies were conducted by D.G.M., Mrs. J. F. Kilby, assisted by Miss Frances Bacom, grand marshall and the following grand officers: G.W., Mrs. J. Bulger; G.R.S., Mrs. F. J. Squire; G.F.S., Mrs. Fish; G.T., Mrs. W. Ball; G.G., Mrs. Brown.

You can take that "trip round the world" you have wished for so long. Rates have been slashed to such a degree that this trip can be done on Thursday, Jan. 30 for $1. You can visit Canada, United States of America, England, Scotland, Ireland and Japan. The trip starts from the Methodist church at 4 o'clock on Jan. 30 and every half hour after until 8:30. Ask your friends about it and bring them with you. 233-8

Founded 1892 Incorporated 1898
Provides a home for students of both sexes at moderate rates. Has a preparatory class for junior students taking public school work. Does high school work and prepares for provincial teachers' examinations. Teaches all branches of a practical business course, and confers diplomas. Imparts a liberal education in its collegiate course and is the ladies' course for M.E.L. and M.L.A. In theology confers the degree of B.D. In university work can take students through the complete Arts course, for the B.A. degree of Toronto university, with which the college is in full affiliation. In science teaches the first year of Toronto School of Science and has a special engineering course adapted to practical engineering work in this province. In music, a complete course in theory, voice culture, and piano and organ in conjunction with the Toronto College of Music. Special instructions in art and elocution, while all students are required to take physical training with all the privileges of a well equipped gymnasium. For calendar address Columbia College.

Synopsis of Canadian Homestead Regulation

ANY available Dominion Lands within the Railway Belt of British Columbia may be homesteaded by any persons who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres, more or less.

Entry must be made personally at the local land office for the district in which the land is ituate. Entry by proxy may, however, be made on certain conditions by the father, mother, son, daughter, brother, or sister of an intending homesteader.

The homesteader is required to perform the conditions connected therewith under one of the following plans:

1. At least six months' reidence upon and cultivation of the land in each year for three years.

2. If the father (or mother, if the father is deceased) of the homesteader resides upon a farm in the vicinity of the land entered for, *the requirements as to residence* may be satisfied by such person residing with the father or mother.

3. If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements as to residence may be satisfied by residence upon the said land.

Six months' notice in writing should be given to the Commissioner of Dominion Lands at Ottawa of intention to apply for patent.

COAL—Coal mining rights may be leased for a period of twenty-one years at an annual rental of $1 per acre. Not more than 2560 acres shall be leased to one individual or company. *A royalty at the* rate of five cents per ton shall be collected on the merchantable coal mined.

W. W. CORY,
Deputy Minister of the Interior.

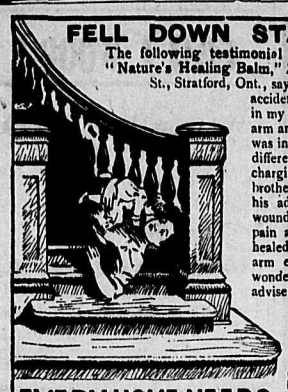
FELL DOWN STAIRS WITH CHILD



The following testimonial proves once again the superiority of "Nature's Healing Balm," Zam-Buk. Mrs. L. Spalding of 505 Erie St., Stratford, Ont., says: "Some time back I met with a peculiar accident while descending the stairs with a child in my arms. I slipped, falling heavily on my left arm and elbow, receiving a flesh wound. My arm was inflamed, swollen and very painful. I tried different preparations, but the wound kept discharging and refused to heal. About this time my brother suggested using Zam-Buk. I acted upon his advice. Zam-Buk thoroughly cleaned the wound, stopped all discharging and soothed the pain and in four weeks the wound was nicely healed. I have had perfect use of both elbow and arm ever since and owe this good luck to the wonderful healing balm Zam-Buk and would advise others to use nothing else." Zam-Buk cures cuts, bruises, burns, eczema, festering wounds and all skin diseases—of all druggists and stores—50c. box or post-paid from the Zam-Buk Co., Toronto. Send for sample and enclose 1c. stamp for postage.

MATCH WITH ROSSLAND

EXCURSION HAS BEEN ARRANGED FOR FRIDAY NEXT

NELSON HOCKEY TEAM HAS HIGH HOPES OF VICTORY

All arrangements for the excursion over to Rossland to see the hockey match between the Nelson and Rossland teams have been completed and the train will leave the Union Depot at 1:15 p.m. Friday.

The return fare has been fixed at $2.50 and those taking in the trip will have four hours to see the town and visit friends before the game begins at 8 p.m.. After the game sufficient time will be given for lunch before a start home is made.

There will be a good sized party of the supporters of the Nelson team go over, and there will be no lack of rooters to cheer the boys that wear the green and white, on to victory.

There have been some changes in the lineup of the team from that in the game played here last Friday evening, but it is thought that on the larger rink Nelson will have considerable of an advantage, and that they will be able to again best the players of the Golden City. The boys are in excellent shape and are practising daily, and as this will probably be the last game between the two teams until the carnival, when they will meet for the championship of B.C., there is sure to be some fast hockey.

The game is called for 8 o'clock and as the train from Nelson should arrive not later than 4 o'clock this will give visitors a chance of accomplishing whatever private errands of business or pleasure, they may have. The return train will pull out about 11:30 p.m. and the excursionists from *this city should be back home not later* than 2 o'clock on Saturday morning.

OF INTEREST TO TRAVELLERS

Smoker Seats a Convenience and Passengers May Be Ejected at Will.

Toronto, Jan. 21.—A judgment of interest to railway travellers has been given by Mr. Justice Riddell in the action of Albert Brazeau against the C. P. R. for $1000 damages. The plaintiff resides at Vanleek Hill, and on December 18 last, boarded the C. P. R. train running from Montreal to Ottawa at St. Euene. He proceeded to occupy a seat in the smoker, which four other passeners informed him beloned to another member of their party. As Brazeau insisted that he had a perfect right to take the seat, the conductor was appealed to, and after hearing the details of the incident requested Brazeau to take another seat. Brazeau refusing to move, the conductor caught hold of the collar of his coat and placed him on another seat. The plaintiff claimed that the lapels of his coat were torn in the operation.

His lordship after describing the manners of plaintiff towards his fellow-passengers as those of an ill-conditioned and selfish boor, said:

"There is no obligation on the part of a railway company to furnish smokers with a smoking car or with accommodation for playing bridge, or for curling hair, or for shaving. The company, for purposes of its own, adding a smoking car to a train, does not thereby become liable to allow any one to enter it."

Mr. justice Riddell dismissed the action with the remark that railway companies "must remain masters of their own conveyances for the sake of the public. That intolerance of personal restraint, so characteristic of our age and clime, cannot be permitted to interfere with the company's management of its traffic."

For purposes of appeal, damages were assessed at $5.40.

HOME-MADE MEDICINE

Said to Relieve Kidney Trouble and Rheumatism

One ounce Fluid Extract Dandelion;
One ounce Compound Salatone;
Four ounces Compound Syrup Sarsaparilla;

Mixed and taken in teaspoonful doses after meals and at bedtime, is stated by a prominent physician to give most excellent results in kidney or urinary afflictions, and also in rheumatism and sciatica. The mixture opens the clogged pores of the kidneys, thus assisting them in their work of filtering all waste and poisonous matter from the blood, and expels these in the urine. To allow this poisonous matter to remain means that it will settle in the muscular tissues or joints, and cause the untold misery known as rheumatism.

The mixture is composed of harmless vegetable ingredients which can be purchased at any good drug store, and mixed at home.

Anyone suffering from any of these afflictions will no doubt be pleased to learn of so simple and highly recommended remedy.

Minard's Liniment Cures Garget in Cows

WHEN TO GO HOME

From the Bluffton, Ind., Banner: "When tired out go home. When you want consolation, go home. When you want fun, go home. When you want to show others that you have reformed, go home and let your family get acquainted with the fact. When you want to show yourself at your best, go home and do the act there. When you feel like being extra liberal, go home and practice on your wife and children first. When you want to shine with extra brilliancy, *go home and light up the* whole household." To which we add, when you have a bad cold go home and take Chamberlain's Cough Remedy and a quick cure is certain. For sale by all druggists and dealers.

DOCTORS AND DRUGS FAILED HER

ECZEMA TORTURED HER.

Then She Tried "Fruit-a-tives" and They Cured Her.

Skin disease is always due to impure blood. It is the duty of the skin, bowels and kidneys to rid the system of tissue waste. When there is anything wrong with the kidneys or bowels, the skin tries to do extra work and breaks down under the strain. Sometimes the skin is attacked by germs, which, because of its weakened condition, it is unable to resist. Ointments and lotions, and dusting powders, and medicated soaps are useless in Eczema, because they treat only the outside skin. "Fruit-a-tives" cure, because they go to the root of the trouble, they purify the blood. They act on the liver—regulate the kidneys and bowels—soothe and stimulate the skin—and so purify and enrich the blood that disease germs are thrown off—the itching, bleeding surfaces healed—and the whole system is built up and strengthened.

"I had dreadful Eczema on my face, arms and head. I was advised to take 'Fruit-a-tives' to purify the blood and I am very thankful that I took this medicine. When I had taken two boxes, the rash was entirely gone, the pain in the back left, and my complexion is clearer than it has been for years. Before I used this medicine, I had used many kinds of salves and took quantities of medicines, but these did me no good. But 'Fruit-a-tives' at once did me good—and they entirely took away the fearful rash." Mrs. F. Mailhiot, 34 Union Street, Ottawa, 50c. At druggists.

ONE Insertion OF A Want Ad

DOES NOT ALWAYS CONSTITUTE A COMPLETE CLASSIFIED ADVERTISING CAMPAIGN — ALTHOUGH SOMETIMES IT DOES!

The first "try," in any line of effort, is not usually enough. "Try again" is a slogan as old as—experience of human affairs.

There is probably nothing else in which the first "try" is so often rewarded as in WANT ADVERTISING.

And there is surely nothing else in which reasonable persistence is so certain of a reward!

IDEAL RANCH

FOR A FRUIT GROWER AND SPORTSMAN

Nine Miles From the City of Nelson

on the West Arm of Kootenay Lake, consisting of 77½ acres of land, comfortable log dwelling, 2 cabins, stable, fowl-house and runs.

460 apples trees from 2 to 10 years old, also cherry and plum trees, strawberries and small fruits.

A very complete and valuable outfit of implements and tools, also some household furniture and a good row boat.

There is nearly three-quarters of a mile of water front, all good sandy beach.

There is $4000 of wood—on the stump—estimated by a timber cruiser of experience as follows: $1000 of good sawlogs and $3000 of good Cord Wood, and in addtion to this there is Cedar in abundance for fence posts and rails ready to hand.

There is Good Deep Soil--Clay Loam

There are about three acres of Meadow land that produces three tons of hay to the acre, consisting of Timothy, Clover and Red Top, and this acreage can easily be increased.

There is a splendid stream of water,recorded, runs through the property, capable of running an Electric Light Plant if desired. There are other streams on the property, not recorded.

Other Advantages on this Property Are:

It is protected from the East winds by Kokanee Point.
It is protected from the West Winds by Nine Mile Point.
It lies in a Bay and is sheltered from the East and the West.
It has a deep water steamboat landing that all the river boats can call at; there is nine feet of water at the lowest stage of the river. It is one of the finest fishing grounds on the river.
It is the sportsman's paradise, both with rod and gun.
PRICE $10,000 en bloc on easy terms, or can arrange to sell 20 acres at $100.00 per acre—having all the above natural advantages.

DAILY NEWS HOCKEY CUP

TROPHY OFFERED FOR COMPETITION AMONG LOCAL TEAMS

WITH VIEW TO ENCOURAGING INTEREST IN THE SPORT

With the idea of creating a larger interest in the game of hockey and giving the players of the city an incentive for more faithful practice, The Daily News offered the executive of the hockey club a cup, to be played for under any rules that to them seemed best. The executive, at a meeting on Tuesday night, came to the conclusion that if the cup were put up for competition among city teams, it would be of most benefit in furthering interest in the sport.

The idea is that there is material for two fast teams in the city, that two managers be appointed who will choose their players and hold matches every week when ice permits. The suggestion is made that H. Bishop, the star goal keeper of the Nelson seniors, be barred from the teams in the cup matches as the team on which he played would have too much of an advantage, and would almost be sure to win out, as it is not thought his equal could be found for the other side.

So far as The Daily News is concerned, any arrangement that in the opinion of those best able to judge will best serve to encourage hockey in Nelson, is acceptable. The cup will be provided and it is now up to the executive to arrange details. Our own idea is that the cup should be played for annually, being held in the meantime by the team winning the most of a series of games.

A HOME MADE HAPPY BY CHAMBERLAIN'S COUGH REMEDY

About two months ago our baby girl had measles which settled on her lungs and at last resulted in a severe attack of bronchitis. We had two doctors but no relief was obtained. Everybody thought she would die. I went to eight different store to find a certain remedy which had been recommended to me and failed to get it, when one of the storekeepers insisted that I should try Chamberlain's Cough Remedy. I did so and our baby is alive and well today.—George Spence, Holdly Springs, N.C.. For sale by all druggists and dealers.

ONTARIO LEGISLATURE

Toronto, Jan. 21.—The provincial legislature will meet for the concluding session of the present parliament on the 5th of February.

An official announcement of the intention of the government to call the members of the legislature together on that date was made at the close of the cabinet meeting.

We want good agents to represent us. Liberal commission. Pacific Steam Dye Works, Vancouver.

CERTIFICATE OF REGISTRATION OF AN EXTRA PROVINCIAL COMPANY

"Companies Act, 1897"

I HEREBY CERTIFY that the "Morning Bell Mining and Smelting Company" has this day been registered as an Extra-Provincial Company under the Companies Act, 1897, to carry out or effect all or any of the objects of the Company to which the legislative authority of the Legislature of British Columbia extends.

The head office of the company is situated at Spokane, Washington.

The amount of the capital stock of the company is two hundred and fifty thousand dollars, divided into one million shares of twenty-five cents each.

The head office of the company in this province is situate at the City of Creston, and O. J. Wigen, a fruit and produce rancher, whose address is the City of Creston, B.C. is the attorney for the company.

The time of the existence of the company is forty-nine years from the 15th of January, 1907.

The company is specially limited under Section 56 of the said Act and no liability beyond the amount actually paid upon shares or stock in the company by the subscribers thereto or holders thereof shall attach to such subscriber or holder.

GIVEN under my hand and seal of office at Victoria, Province of British Columbia, this 12th day of August, 1907.

S. Y. WOOTTON,
Registrar of Joint Stock Companies.

The objects for which the Company has been established and registered are restricted to acquiring, managing, developing, working and selling mines, mineral claims and mining properties, and the winning, getting, treating, refining and marketing of mineral therefrom.

Making Good.

There is no way of making *lasting* friends like "Making Good;" and Doctor Pierce's medicines well exemplify this, and their friends, after more than two decades of popularity, are numbered by the hundreds of thousands. They have "made good" and they have *not* made drunkards.

A good, honest, square-deal medicine of known composition is **Dr. Pierce's Golden Medical Discovery.** It still enjoys an immense sale, while most of the preparations that have come into prominence in the earlier period of its popularity have "gone by the board" and are never more heard of. There must be some reason for this long-time popularity and that is to be found in its superior merits. When once given a fair trial for weak stomach, or for liver and blood affections, its superior curative qualities are soon manifest; hence it has survived and grown in popular favor, while scores of less meritorious articles have suddenly flashed into favor for a brief period and then been as soon forgotten.

For a torpid liver with its attendant indigestion, dyspepsia, headache, perhaps dizziness, foul breath, nasty coated tongue, with bitter taste, loss of appetite, with distress after eating, nervousness and debility, nothing is so good as Dr. Pierce's Golden Medical Discovery. It's an honest, square-deal medicine with all its ingredients printed on bottle-wrapper — no secret, no hocus-pocus humbug, therefore *don't accept a substitute* that the dealer may possibly make a little bigger profit. *Insist* on your right to have what you call for.

Don't buy **Dr. Pierce's Favorite Prescription** expecting it to prove a "cure-all." It is only advised for woman's *special* ailments. It makes weak women strong and sick women well. Less advertised than some preparations sold for like purposes, its sterling curative virtues still maintain its position in the front ranks, where it stood over two decades ago. As an invigorating tonic and strengthening nervine it is unequaled. It won't satisfy those who want "booze," for there is not a drop of alcohol in it.

Dr. Pierce's Pleasant Pellets, the *original* Little Liver Pills, although the first pill of their kind in the market, still lead, and when once tried are ever afterwards in favor. Easy to take as candy—one to three a dose. Much *imitated* but *never equaled.*

There's no economy in buying "cheap" salt. At present prices WINDSOR SALT costs no more than imported salt. It is pure and never cakes.

The New B. & I. Corsets

The Only Bias Filled Corsets on the Market

It has been demonstrated beyond a shadow of a doubt that Bias filled Corsets are the best made. Bias filled Corsets are not only unique in construction but built upon a plan that entirely does away with the discomfort attendant upon the wearing of the other makes. Most straight filled Corsets either bend or break but Bias filled Corsets will not break or bend out of shape. They combine the three necessary features in all well-made corsets: COMFORT, STYLE and DURABILITY.

See them today. ALL STYLES AND PRICES.

NELSON NEWS OF THE DAY

Major J. G. Langdon of Toronto, is spending a few days in town.

There was a successful meeting of the Churchmen's club last evening.

Hugh Cameron, an old time resident of Nelson, came in yesterday from the east on a brief visit.

Mayor Taylor left this morning for East Kootenay on legal business. He expects to return on Saturday next.

It has been decided by the Nelson amateur dramatic society that the production of Our Boys, will be postponed until after Lent.

Aberdeen Hive, L.O.T.M. hold a practice this afternoon in the K. P. hall at 2:30 sharp. All officers and members are requested to be present.

The Eagles at their regular meeting last night had several initiations and after the order of business was over had a social evening, much enjoyed by all present.

A WELCOME BUTT-IN

Editor The Daily News—I have just read your editorial in the News of the 17th in reply to certain strictures made upon the News by *Harold Selous* in which that worthy gentleman expresses the belief that unless a man holds real estate in a city he can possibly have no interest in its advancement. You might have been less modest in your statements and have kept well within the truth. I wonder if the people of Nelson know that you are giving them a newspaper that far surpasses any paper published in Canada in any town twice the size of Nelson. The wonder to me is that you can afford to provide your readers with a telepragh service such as you are giving—the best by far in British Columbia. I have been a regular reader of the News ever since I left Nelson and while I failed where you have made good, I have watched your growth with extreme pleasure.

I was interested in your efforts to induce Mr. Taylor to become a candidate for mayor and was glad to see that for once at least Nelson acted wisely *politically* in choosing him as its chief executive.

You will excuse my "butting-in" but I could not refrain from sending you this note after reading your editorial above referred to. Yours very truly,

K. C. BEATON.
Editor The Seattle Star.

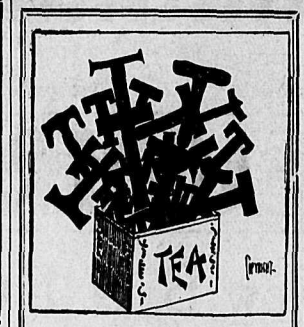
THIEVES INFEST FERNIE

(Special to The Daily News)

Fernie, Jan. 22—A gang of thieves are apparently operating in and around Fernie as many reports are being received by the *authorities of the loss of property.* This week a freight car in the C.P.R. yards was broken open and a quantity of miscellaneous merchandise stolen, no trace of the missing goods having yet been discovered.

Yesterday afternoon a man carrying a gun, terrorized several householders in the residential district by walking unannounced into their houses and demanding a meal. The police captured him at the residence *of a prominent lawyer, where he was endeavoring* to make himself at home. He is now in the Fernie gaol awaiting trial.

The young men of the Methodist church gave a very enjoyable entertainment last night, which was well attended.



T. & B. Tea

This is what one of our good customers writes about T. &. BM. Tea.

"My friends for Xmas are coming to see me;
What will the great treat be?
It'll not be porter nor barley beer,
But a jolly good cup of Benedict's Tea."

Sold only by

ELECTIONSACT

(Continued From First Page.)

minion board of railway commissioners.

The Brotherhood of Locomotive Engineers have asked the city to award them $8000 towards entertaining the delegates of North America at Ottawa *next July.*

About 100 railroad men, representing different organizations, convened here today to discuss the Lemieux act, and also the prosecutions that are instituted against railroad men under the criminal code. That convention, after a thorough discussion, will make representations to the government asking for redress of their grievances.

TRAGIC SCENE IN CAFE

WOMAN SHOOTS FORMER LOVER AND HERSELF

PUTS FIVE BULLETS INTO MAN AND THREE INTO HERSELF

New York, Jan. 22.—Sweeping through the crowded restaurant that occupies the eight floor of Macy's department store and into the Gentlemen's cafe today, a tall, stylishly dressed woman, bent for a moment over the shoulder of a diner, whispered something in his ear and then, drawing a revolver from her muff, emptied the five cartridges into his body. As the victim, M. Brady, an advertising solicitor, slipped and fell from his chair to the floor, the woman flung the weapeon from her, taking a second revolver from her muff, shot herself first in the head and then twice in the breast. She died half an hour later.

A note found in the woman's purse *proved* her to be Mrs. Mary Robert Clark, a manicurist, the widow of a police officer and stepmother of a six-year-old-son, Raymond. Brady was 30 years of age and the sole support of an aged mother, for whom he had made a home. The shooting was the culmination of a series of violent quarrels and, according to the woman's intimates, in fulfillment of a threat to murder him in a public place unless he renewed the attentions she claimed to have received when he was less prosperous and she was in a postion to be his friend. In the police office little difficulty in tracing the tragic story back from effect to cause was found. The suicide was about 30 years of age.

RIOTING IN IRELAND

Boyle, County Roscommon, Ireland, Jan 22—A force of 200 constabulary visited the Geevagh district today and took into custody 20 men charged with unlawful assembly and riot and with having interfered with the mails. The landlords of the Keogh and Knox valleys in this district have refused to sell their lands to the tenants and the latter consequently organized *a combination against the land*owners. The latter then sent out processes for rent to their tenants and it was the mails bearing these documents that were interfered with by the men gathered in today.

BRITISH-AMERICAN BANK

NEW FINANCIAL INSTITUTION TO OPEN IN SPOKANE

SAID TO BE BACKED BY WEALTHY BRITISH COLUMBIANS

(Special to The Daily News)

Spokane, Wash., Jan. 22.—The British-American bank has filed articles of *incorporation* at the Spokane court house. The institution is to begin business with a capitalization of $100,000, backed by several of the wealthiest men in British Columbia.

The principal incorporator is A. C. Flumerfelt, a prominent mining man of *Vancouver and Victoria, B. C., who is* also heavily interested in the International Coal company, with offices in Spokane. Other incorporators are D. M. Rogers and H. M. Galer.

The new bank will be opened early next spring, it is announced, and will *do a general commercial banking busi*ness and also have a savings department.

It is believed the company will have a chain of banks in various parts of the Inland Empire, with headquarters in Spokane.

GRAND FORKS CITY COUNCIL

(Special to The Daily News)

Grand Forks, Jan. 22—The first meeting of the new city council was held last night in the city hall, when mayor Fripp and all the aldermen were present. The meeting was opened by the mayor addressing the *council.* He was followed by *each member* of the board.

Mayor Fripp then appointed the standing committees for the year, which are as follows: Finance, H. E. Woodland, Fred Clark, Jas. McArdle; board of works, Geo. Rutherford, Frank Miller, P. T. McCallum; water and light, Fred Clark, Jas. McArdle, H. E. Woodland; health and relief, P. T. McCallum, Jas. McArdle, Geo Rutherford; cemetery, Frank Miller, P. T. MCacllum, *George Rutherford.* The appointment of these committees ended the business of the meeting. It is the general belief that th present city government will give a good administration and it enters upon its work having the good will of the community.

FATAL ERROR

Glenewen, Sask., Jan. 22—Through an error on their part on Monday last, three men from this community are dead. In mistake they all drank from a jug containing wood alcohol. The poison had got into their *systems* before medical aid arrived and despite the doctor's efforts, the victims succubmed. They are Dave Connor, who died this afternoon, his brother Frank who died yesterday morning; they are farmers and lived near here. Harry Conney, a nephew of the above men, a laborer, who died on Monday night. The fourth man, James Gunn, a farmer, just out of town, is very ill, but seems to be recovering. The avobe men were well known *in this district.* Dave and Frank Conner are pioneers of this place.

QU'APPELLE NOMINATION

Moosomin, Jan. 22.—James T. Brown, of Moosomin, and member for Souris in the local legislature, was today unanimously nominated by the liberals of the dominion constituency of Qu'Appelle for the next general election.

WANDERERS BEAT SHAMROCKS

Montreal, Jan. 22—The Wanderers defeated the Shamrocks tonight by a score of 3-1. At half time the score was one all. The game was rough in the second half but no player was seriously hurt.

SUTTON WINS AGAIN

New York, Jan. 22.—The 500-point game of 18.2 balk line billiards played here tonight between George Sutton and George Slosson was won by Sutton by a score of 500 to 374.

TO INCREASE TAXATION

COURSE NECESSARY TO PLACE FINANCES ON SOUND BASIS

AGREEMENT WITH CANADA ON EMIGRATION QUESTION

Tokio, Jan. 22.—The house of peers met this morning and was addressed by premier Saionji who, speaking of international relations, said that responsibility for the far east rested largely on the shoulders of the Japanese, who had attained such a high position as the result of a constant endeavor towards improvement on the part of its people.

Japan's relations with Korea were increasingly cordial. Regarding China, he said that while some question were pending, he expecaed that through mutual good will the questions would be satisfactorily solved.

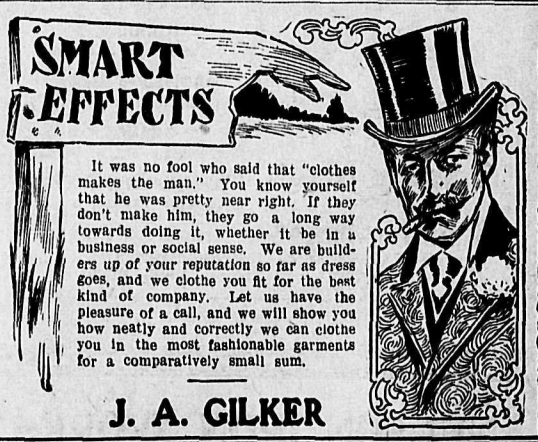
Marquis Saionji announced that an agreement had been reached between the Canadian government and Japan regarding emigration and the traditional friendship between the two counries remains unchanged, the negotiations being conducted in the most cordial manner. He further said that the government had found it necessary, in order to place the nation's finances on a secuse basis, to increase taxation and postpone expenditures. The session of the house lasted 30 minutes.

"RED SUNDAY" PASSED QUIETLY

St. Petersburg, Jan. 22.—The third anniversary of "Red Sunday," January, 22, 1905, has passed quietly. There were no demonstrations and the day attracted little general attention. Even the one-day strike of the workmen was not declared this year, the leaders of the socialist organizations deciding instead to ask the workmen to contribute each a *day's wages to a fund for the relief of* the unemployed.

SHIPBUILDERS ON STRIKE

Newcastle-on-Tyne, Jan. 22—The threatened strike in the shipbuilding industry in the Tyne district became a fact today. *Some 4000 men, who had refused the* proposed reduction in their wages, did not return to work. The employers declare this reduction is necessary owing to the depression in the industry. Some ports on the northeast coast are also affected.



It was no fool who said that "clothes makes the man." You know yourself that he was pretty near right. If they don't make him, they go a long way towards doing it, whether it be in a business or social sense. We are builders *up of your reputation* so far as dress goes, and we clothe you fit for the best kind of company. Let us have the pleasure of a call, and we will show you how neatly and correctly we can clothe you in the most fashionable garments for a comparatively small sum.
