VOL. 6 NELSON, B. C., TUESDAY, FEBRUARY 4, 1908 NO. 244

POWER PLANT

Lorne Campbell Makes an Offer to the City

CANADA ZINC FRANCHISE

BY-LAW WILL BE SUBMITTED TO THE PUBLIC AT AN EARLY DATE — PETITION FROM OUTSIDE RESIDENTS AS TO THE CHARGES FOR LIGHT AND WATER.

The city council held another long session last night at which the principal matters discussed were the power plant and the necessity for compulsory vaccination.

An offer from manager Campebll was read charging the city several times what he had done previously for supplying of an auxiliary service which was not seriously considered. All the council was in attendance wit hthe exception of Ald. Procter, who is confined to his house.

The first matter dealt with was the report of the finance committee. The committee recommended the passing of the regular accounts but also went into some matters of routine. In this regard it advised the giving to the city clerk the power to employ extra clerical assistance whenever he deemed it necessary. Also that all copies of letters written by the heads of the various departments should be filed at the city hall with the clerk. The report was adopted.

Alderman Stead reported for the tramway committee as to whether the tramway service should or should not be continued. Alderman Stead said that the committee was of the opinion that any saving that might be made by closing down of the tramway would be far more than offset by the loss of prestige. By paying proper regard to the running of the tramway, as to its operation, Ald. Stead was of the opinion that the loss to the city should not exceed $1.00 to $1500. There should be a slight alteration in certain cases as to the schedule so as to accommodate pas- not exceed $1200 to $1500. There should be also a closer tab kept upon the payment of fares and also upon the checking of parcels carried.

The following statement was submitted by the city clerk as to the receipts and expenditures for the past two years of the tramway. This shows that the chief months of revenue were when there were many passengers going to and from the city park.

1906

Repairs, maintenaance, stock	$ 1,768.94
Insurance	670.23
Printing and advertising	100.01
Telephone	36.91
Power	2,412.04
Wages	5,362.5
Total	$10,360.6

RECEIPTS

January, $39.80; February, $147.25; March, $395.55; April, $550.30; May, $590.40; June, $862.70; July $1044.65; August, $1018.80; September $890.05 October, $618.60; November, $510.15 and December, $540.65 ..... $ 7,058.99

Which includes $123.05 for advertising and sale of wire.

1907

Repairs, maintenance, including $1400 for stock	$ 3,279.65
Insurance	711.40
Printing and advertising	198.73
Telephone	48.00
Power	2,109.00
Repairs to road bed	2,467.30
Wages	6,6822.66
	$15,496.74

RECEIPTS

January, $365.90; February, $371.60; March, $182.90; April, $848.90; May $791.50; June, $902.15; July, $1194.25; August, $868.70; September $920.95; October, $687.05; November $541.50; December, $571.40 ..... $ 8,539.39

Which includes for advertising $259.50, and parcel tickets, $82.35.

At this juncture a letter was read from Ald Procter, giving many particulars and suggestin that the boat club be asked to shift its quarters to the city park, the city to give every facility possible.

Re Board of Works Expenditure—The chairman and his committee met last week re closing down the tramway and no doubt he will have submitted his report for our consideration. After a lengthy meeting and going into facts and figures we decided it unwise to do so, and I strongly urge the recommendation be accepted. You will see that the receipts for 1906 were $7058.90 and expenditures $10,360.60, a loss of $3301.70. The receipts for 1907 were $8539.39 and expenditures $15,496.74; this contained an item of $2467.30 repairs of roadbed. Also the repairs, maintenance and stock for 1907 is $3279.65, as against $1,768.94 for 1906, the large increase being for supplies. Now, gentlemen, I claim that the two sums, repairs to roadbed and stock, should be divided over the past years and not charged to last year, and if this were done the loss would be considerably under $4000, instead of $7000. We, your committee feel sure the tramway can be run at less than a $3000 loss.

It must be remembered that the lease of the tramway expires at the end of the present year and if not renewed by the city the lines, cars, etc., had to be put in repair, this having been done, why not take advantage and make use of same. We have also to keep men at the substation whether using the cars or no.

I think the revenue can be increased if our park be made more attractive and bathing booths erected; the right for doing this could be leased for a nominal sum. I should also recommend that a committee interview the Nelson boat club and try and induce them to move their boat house to the park, the city giving them privileges needed. It is a much more suitable place in all ways for regattas, etc, and the tramway would certainly receive a benefit.

With the above remarks I sincerely hope the tramway will continue to be operated.

The report was thereupon adopted.

The report of the fire, water anud light committee was then read. Ald. Hale explained that the arrangement now made was in consequence of the objection raised at the last council meeting.

This reads: "That the privilege be granted the Canada Zinc company to build, maintain and operate a power transmission line along the streets of the city of Nelson set out and described in the application made. The said privilege to expire in ten years from the date of the granting of the privilege, and subject to the following conditions: (a) The Canada Zinc company shall forthwith build and shall exclusively own the said power transmission line during the continuance of the said privilege; (b) The said power transmission line shall during the continuance of the said privilege be used and operated exclusively by the said company and exclusively for the purposes of their smelter plant * * * * * and for all additions to and extensions of the said smelter * * * Provided however, that nothing herein shall be constructed to require continuous use or operation of said power transmission line by said company; (c) The said power transmission line shall be at least 45 feet above the ground, the poles shall be straight and placed in line and shall be suitably dressed. Where the said power transmission line crosses over light, power or telephone line, proper precautions shall be taken by the Canada Zinc company to prevent contact with said light, power or telephone lines in case of breakage or other accident to the said line * * * * (d) The said line shall be constructed as a 20,000 volt line and the voltage transmitted over the said line shall not exceed at any time 20,000 volts; (e) The Canada Zinc company shall be responsible for the proper construction and maintenance of the said line and also for all accident or damage to person or property caused in any way by reason of their negligence and the said company shall indemnify the city of Nelson against all loss, costs or damage occasioned by the negligence of the said company in respect of the construction, care and maintenance of the said power transmission line, being, however, confined to damage arising out of or by reason of the negligence of the said Canada Zinc company; (f) In case of fire, and it becoming necessary or expedient to cut the said power transmission line, in order to control or put out the fire or fires, then the city shall be at liberty to cut said line or to cut off the current upon the same * * * * and the company shall provide a suitable cut off switch at a suitable place for such purpose, provided, however, that before cutting * * * * suitable notice shall be given to the said Canada Zinc company."

This part of the report was adopted. Permission will be given as soon as the necessary bylaw is pased by the public.

A further part of the committee' report dealt with the supplying of the Canada Zinc company with water. The amount needed is 50,000 gallons and it was recommended that the rate charged should be settled by the mayor and the chairman of the committee. This was also adopted.

The committee also recommended the obtaining of certain estimates with regard to the construction of water gates for the municipal power plant. This clause was adopted.

The board of works recommended the construction of a sewer from the lanenorth of the Bartlett house, down to Baker street. This part of the report was adopted. The other part of the report dealt with other sewers and was referred back.

The agreement between the city and the Allis-Chalmers-Bullock company was then read. The expense of reinstalling the draft tube is to be borne by both parties. The agreement, however, provides for a shut down of the plant during the reinstallation.

In this connection mayor Taylor said a letter had been received by the standing committee on this question from L. A. Campbell, manager of the West Kootenay Power and Light company, demanding a retainer of $3407.75 per annum, instead of $1000 and of two cents per kilowatt hour. This latter figure electrician Brown explained as meaning about $150 a day for power. This would not provide power for running the tramway. The former figure was $100 per day, including power to run the tramway.

Mayor Taylor then went on to explain that these figures were impossible. They were higher than the interest on the sum necessary to install a second unit. Mayor Taylor said he had tried to see whether Mr. Campbell would supply power during the closedown necessary for the installing of the draft tube. So far Mr. Campbell had not been heard from. If he would agree there would be no trouble. If he would not there might or might not be trouble. A shut down might be averted until a second unit had been installed when it would not matter inasmuch as one unit could be run while the other was being repaired. There had been no trouble in the past year and there might be no trouble in this year to come. If trouble did come then the direct acting plant of the city, the old plant, would supply lighting. Motor power could be had from water service. The whole matter was referred back to the committee, the mayor intimating that a special meeting of the council might be called during the current week to deal with further questions arising. The committee will also take up the matter of getting a report upon the installation of the water gates and upon other parts of the plant by some well known engineer.

It was also brought out during the discussion that difficulty would arise in the taking over of the municipal power plant from the Allis-Chalmers-Bullock company if the draft tube were not installed at once. The mayor, however, did not say that this difficulty would not be insuperable.

The chief of the fire department reported for last month—three small fires; also that the owners of the opera house had again been called upon to comply with the fire

(Continued on Page Eight.)

CEDIO CAUGHT

Italian Who Caused Death of Louise King

MADE FULL CONFESSION

IS FOUND AT SALT LAKE CITY AFTER A LONG CHASE—BLEW UP THE CANADIAN HOTEL AT NIAGARA ON NOVEMBER 18, 1906—WILL COME TO NELSON.

A despatch from Salt Lake City. Utah, announces the arrest there of Francisco Cedro, charged with causing an explosion at the Canadian Hotel, Niagara, ten miles west of Grand Forks on November 18, 1906, whereby the hotel was wrecked

Cedio, it is claimed, has made a full confession.

[redacted]

Cedio was taken into custody by a Salt Lake City constable, accompanied by provincial chief constable William Devitt of this city.

Chief Devitt learned some time ago that Cedio had been seen or heard of in Spokane and he went to that city some days ago. He did not find Cedio in Spokane but got on his trail and following that found his man in Salt Lake City as stated. It is understood that Cedio will waive extradition, and will come back to stand his trial at Greenwood for wiitul murder.

The Italian was known as "Frank Painblanc." On the books of one railway contractor he was "F. Agilio," but his real name was said to be "Francisco Cedio," the one he now gives.

[redacted]

ing

The account of the occurrence published at the time continues:

"King is a French Canadian, his real name being Pierre Roi. He came from Quebec and has only been running the hotel for four months. His wife was from Montreal. King is burned in various parts of the body, though not seriously, but the drums of his ears are injured and he hears with difficulty. His story may be summed up as follows:

"On Sunday noon owing to slackness of trade he had made up his mind to get rid of his regular boarders, who consisted of some six Italians. He told them he could not board them any longer and would give them till next day to find another place. After dinner he gave them a drink a piece, and three of them left the place, the others staying round the hotel. There was an outside stairway to the upstairs part of the house, and about 5 o'clock a big noise was heard in the room occupied by Frank Plainblanc or "white-bread," as he was called. This man's real name appears to be Agillio. King, accompanied by Agilio's partner Rovello, took a lamp and went up stairs. As they entered Agilio smashed the lamp with his gun and King ran down stairs. 'They were after me,' said King, earnestly, 'and I was scared.' One of the men followed flourishing a poignard and knocking the chairs about the barroom. King left the hotel and only returned when he was assured that things had quieted down. Later on he closed up the hotel, and refused to let Rovello and Agilio in, though during the next hour or two the two men were heard going up and down the outside stairs.

"It seems that the men were not drunk and when King was asked as to the cause of the trouble he thought it partly from his having turned the men away, and frankly admitted that Rovello had been pressing his attentions on his wife and that he was anxious to be rid of him on that account, and it is possible that some motive of revenge on this score actuated the final crime. King stated that there was a crack in the ceiling and that he had been afraid he would be shot by Agilio through this opening which communicated with the Italian's room. Shortly after 8 o'clock, including the Kings, there were eleven people in the hotel, Mrs. King and her daughter being in the kitchen. Soon after 9 one of the Italians wanted to go away and King lighted the lantern and went to the door with him to let him out. As he placed his hands en the door he notice flames showing through the crack in the ceiling, and shouted, 'Fire, boys!' The words were hardly out of his mouth when the whole house was shacken by a terijic explosion, and King knew little of what happened afterwards.

"It appears as if there were two explosions, one rapidly succeeding the otner, and that the girl was killed by the falling timbers of the first explosion. King seems positive that Agilio placed the powder under the house, and started it with a fuse ,and it seems probab.e that more powder had been placed in the room above and that the second explosion was the one from this source."

At the inquest, only a few charred bones of what had been Louise King, were placed before the jury.

F. S. Hussey, superintendent of the provincial police, came to Grand Forks at once and took the matter up. On his advice the provincial authorities offered a reward of $1,000 for the capture and conviction of Cedio, alias Agillo, alias Painblanc.

The coroner's jury found that the death of Louise King was caused by the blowing up of the Canadian hotel at Niagara on Nov. 18, by dynamite or some other explosive deliberately used by Frank Painblanc, alias Cedio, who was assisted by Sam Rovello.

Rovello and another Italian, Frank Colistro, both gave evidence showing plainly Cedio's guilt. Rovello was the man who kept the key of the powder house, Cedio being his helper.

When Superintendent Hussey retired from Grand Forks in the case, W. H. Bullock-Webster, the chief of provincial police here, who was at Tacoma on another matter, was recalled and put in charge of the case. On Mr. Webster's advice, Sam Rovello was charged before stipendiary magisthate W. B. Cochrane at Grand Forks with the wilful murder of Louise King, and sent up for trial. Rovello was brought here and lodged in the provincial gaol in December, 1906, and his case came up before Mr. Justice Clement and the grand jury at the spring assizes at Grand Forks last year. A true bill was returned but the crown entered a nolle prosequi, and Rovello was allowed to go.

Mr. Webster subsequently traced Cedio to Spokane but here all traces of him disappeared. Cedio and another Italian stole a C. P. R. speeder at Grand Forks and made their way to Marcus, taking the train from there to Spokane, where they were seen to step off the train but until this last arrest nothing more had been heard of Cedio. The authorities have had wires out all over the west ever since the explosion and murder, and doubtless have so been enabled to get on Cedio's track at last. Cedio's statement that he got away in a load of hay is apparently just a dream .

Chief Devitt will bring his prisoner here and he will be lodged in the provincial gaol until the next Greenwood assizes this coming spring, when he will be taken to the Boundary for trial for the murder of Louise King.

Cedio was indicted along with Rovello before the Grand Forks gand jury last spring, and he can now be brought to trial without any preliminary examination.

IS ONCE MORE AT HOME

E. E. PHAIR TAKES OVER HOTEL STRATHCONA.

WILL CONDUCT HOUSE ON MODERN AND GENEROUS PRINCIPLES

E. E. Phair is known all over British Columbia and the neighboring states and everyone who knows the boniface will be more than pleased to learn that he is once more back at the hotel Phair, or as it has been known since Mr. Phair's retirement from it some four years ago, the Strathcona hotel.

The house changed hands again last evening when the papers in the matter were duly executed. J. C. Bonneau, the last purchaser, retires and the property passes to the management of Mr. Phair, its former proprietor and manager, who so successfully and satisfactorily conducted the well known hostelery from its opening until four years ago.

Mr. Phair has a legion of friends all over Canada and the United States who will undoubtedly be glad to learn of his return and doubtless in the future, as during his previous management, Mr. Phair will conduct the Strathcona upon modern and generous principles, making it once more the same old "Hotel Phair."

INTERCOLONIAL RAILWAY

Ottawa, Feb. 3—Mr. Emmerson for over two hours in the house this evening, pleaded with the government to make the Intercolonial what the fathers of confederation intended it to be "a truly national work and not the plaything of the maritime provinces." The ex-minister paid a glowing tribute to sir Charles Tupper for his prophetic foresight regarding the government road, and hoped he would live to see the day when the Canadian government would take up the I.C.R. as a national undertaking and bring it into its own.

MONTREAL SPORTS.

Montreal, Feb. 3.—The surprise in the contests for the amateur speed skating championships of America, held here today, was the victory of O. B. Bush, Vancouver, B.C., in the 220 yards, which he won from Fred Logan and Robson, of Toronto, with comparative ease.

LISBON QUIET

Revolutionary Movement is Still Under Surface

NEW CABINET IS FORMED

DICTATOR FRANCO HAS RESIGNED. ANOTHER ASSASSIN HAS BEEN IDENTIFIED—FURTHER PARTICULARS OF MURDER OF THE KING AND CROWN PRINCE.

Lisbon, Feb. 3.—Under a new regime with a new king and the establishment of a new cabinet, Portugal seems to be for the moment at peace. There is an underlying current of revolution, however, and the strictest measures are being taken to preserve order.

At noon today an official statement was given out that perfect order existed throughout Portugal.

Franco, the once dictator, was forced to resign because of the bitterness of the people against him and the new cabinet will strive for the welfare ef the fatherland under the presidency of rear-admiral D'Amaril. Another official statement was given out that the president of the cabinet will be supported by all the groups of monarchists who have agreed to forget previous differences.

The situation for premier Franco after the assassination of the king and crown prince became impossible.

During the days which preceded the tragedy and during the tumuituous manifestations on the street, was the later discoveries of vast stores of arms and bombs, public opinion backed him in his efforts to obtain order but the murders changed the entire complexion of the situation. He has not been seen on the street since his meeting with the king immediately after the latter's arrival from Villa Vicosa, but all possible places where he might be have been closely watched and guarded.

The new cabinet which is composed of the strongest members of various factions, but all opposed to Franco, has drawn to it a strong patriotic supporting movement. During the night admiral D'Amaril and the chiefs of the monarchists held a session and laid out a program looking to the pacification of the people. Word has been received here that a number of vessels, the exact number not being stated, passed Oporto this morning bound for Lisbon.

The investigations of the police show that the murders were very carefully planned. On Sunday the assassins met secretly in the back room of a cafe and there laid out every step of the plot which they were enabled to do as all the details relating to the home-coming of the king had been made public. To each was assigned a post in the work of shooting down the members of the royal family but lots were drawn for the selection of each particular victim. Those who drew queen Amelie and prince Manoel failed to carry out their bloody work.

The chamber in the palace where repose the bodies of king Carlos and the crown prince has been draped in mourning and arranged to represent a chapel. The biers are surrounded by lighted candles. Queen Amelie, widow of the king, and the dowager queen Maria Pia, his mother, watch continually at the side of their dead.

The body of the king is clad in the uniform of the commander in chief of the army, while the prince wears a uniform of a captain of the second Lancers. Several masses for the repose of the souls of the departed have been sung in the mortuary chapel. The funerals will be held on February 8th, and the bodies will lie in state, probably beginning tomorrow. It is expected that the funerals will be attended by the prince of Wales, prince Charles of Bourbon, the duke of Aosta, the cousin of the king, king Victor Emmanuel, a special French embassy and detachments of the foreign regiments of which the late king wa honorary colonel.

The condition of queen Amelie, contrary to rumor, is relatively good. The duke of Oporto, brother of the late king, has established his residence at the palace where he will remain for a time.

Little by little Lisbon is regaining its normal aspect, although al lthe public buildings and palaces are still guarded by cordons of soldiers and detachments of municipal guards. A number of newspapers of the city have suspended publication.

The identity of the third dead assassin has been established. He was a Spaniard named Cordova. This man was partially identified soon after the tragedy and his identification now has been confirmed.

From an account given by an eye witness it appears that the queen owes her life to the courage of a soldier who grappled with Buica as he was taking careful aim at her, leaning his carbine against the colonnade.

The assassin fought desperately to accomplish his purpose. Apparently there was an interval between the shooting of the king and the crown prince, during which the queen was trying to push from the step her husband's murderer and the crown prince was firing his revolver at the band of murdrers. Suddenly Buica stepped from behind the colonnade a short distance from the street and shot the prince. He then prepared to pick off the queen and prince Manoel when he was frustrated by a soldier named Valentine, whom he wounded. The aide-de-camp Figuera and a policeman dispatched the assassin with revolvers.

Lisbon, Feb. 3—Premier Franco has relinquished power and a committee has been formed with admiral Ferreire d'Amaril as its president in the place of the late dictator. This step signalized the practical withdrawal from power of Franco. He agreed to this measure as one calculated to pacify public opinion where only a spark was needed to inflame the whole country and drag it headlong into revolution. It is believed that Franco will be "the man of power" but his officials are at least shorn of real power.

The opening was held today. King Manoel II. appeared before his ministers and with a voice vibrant with emotion said:

"I am yet without experience either in sovereignty or in politics. I place myself entirely in your hands believing in your patriotism and wisdom."

The new cabinet is made up of a coalition of elements in the hope of reconciling the many disturbing elements. Some of the new ministers have been notably opposed to the iron rule. Not one of the Franco ministers remain in office, so that his regime disappears with him.

The notable changes are those of the president and minister of justice, the latter, Senir Alpoim, having been foremost in opposition to the Franco regime. The city is still in the throes of intense excitement and the authorities continue to follow unceasingly the details of the plot which culminated in the assassination of the king and heir. The newspaper notices says that one of the regicides who was killed was a Spaniard and was taken into custody recently in connection with the discovery of bombs, but was later released. Of the men now under arrest one is an Italian who played in the orchestra at Lisbon. This man is in an extreme condition of hysteria. His food in the prison is served him without knives or forks for fear that he will kill himself.

After the list of new cabinet officers was given out it was announced that these selections were not final and that changes were possible.

Portugal today saw the establishment of a new regime. Premier Franco has resigned office and within 48 hours of the assassination of king Carlos his dictatorship is at an end, at least for the present, Franco resigned for fear that his continuance in office would plunge the country into rebellion.

TAX ON COAL JUSTIFIED

BILL PASSES SECOND READING AT VICTORIA.

PROCEEDINGS IN LEGISLATURE YESTERDAY.

(Special to The Daily News)

Press Gallery, Legislative Assembly.—Victoria, Feb. 3.—Contrary to expectation the resolutions of Messrs, Hawthornthwaite and Oliver, asking for the dismissal of the lieutenant-governor, did not form the principal subject of discussion today.

The first named was absent and Mr. Oliver's motion stood over at the request of the premier, who probably desired to clear the way for the university bill, on which at its second reading, Dr. Young, provincial secretary, made a most interesting speech full of statistics which proved the forwardness of the province in educational matters, even with its present limited facilities.

The other business done consisted of some bills which passed a stage or finally passed, such as the oaths' act, one to regulate the purchase of stocks of goods in bulk, the farmers' institute co-operation act, and the bush fires act, which is made to apply to corporations as well as to individuals.

The railway assessment act and the coal tax act had their second reading.

There was a resolution by Mr. Oliver for a return of all correspondence, etc., between the government and any person or persons in respect to the acquisition of Indian reserve lands in the vicinity of Port Rupert by the G. T. P. railway company. Mr. Oliver suggested that the premier take the house into his confidence and the premier responded so far as to state that negotiations have been going on for some time with representatives of the G. T. P. railway with a view of having a settlement made in so far as it affected the reversionary interest in that portion of the Tsimpsean reservation in which the province is concerned, and he hoped to be able to make an announcement to the house in a few days.

In the adjourned debate on the second reading of the act amending the railway assessment act, Parker Williams said the railways had already received consideration enough from the hands of the government, stating that the E. and N. Alberni extension and the Columbia and Wsetern were to receive relief from taxation while improving the land already belonging to them. The G. T. P. had also received favors enough. He asked that the house should have the agreement between the E. and N. before it, and until so brought down, proposed to vote against the bill.

The premier stated that there was no agreement or document of that nature. Some correspondence had passed disclosing nothing new but he did not object to the adjournment of the debate, which Brewster had moved.

The coal tax bill, known as No. 13, the minister of finance said in moving the second reading, was a proposal to increase the tax on coal from five to ten cents per ton,, and was justified by the large profits made on the slackened dross of which coke was made, which had hitherto escaped and on the large profits made by the companies on export of their coal, that is those who, unlike the Crow's Nest Pass Co., had not to sell at a fixed price. He showed that British Columbia coal was sold in San Francisco cheaper, after paying duty, wholsesale, than in this province, the coal production being a little over nine million dollars.

Mr. Oliver urged that in 1900 when the tax was first placed upon coal, the result was that the dealers advanced the price 50 cents, paying the tax within the province and for export also. The local consumer got a ton of 2000 pounds, while the San Francisco buyer got 2240 pounds. He considered there should be a thorough inquiry into the matter to see how in British Columbia, where the coal belongs to the province, the people have to pay from one dollar a ton more for their coal, than our cousins in the states, and most of the collieries now charge anything they liked. The bill was read a second time.

FOR OLD AGE

Wanted a Committee on Pensions for Aged

ARGUMENT IN THE HOUSE

GOVERNMENT WILL APPROACH THE SUBJECT WITH OPEN MINDS—RALPH SMITH TAKES VIEW PENSIONS SHOULD NOT BE CONFINED TO THE POOR.

(Special to The Daily News)

Ottawa, Feb. 3.—In the house this afternoon the premier said that the estimated obligations in connection with the trans-coninental railway were approximately $38,000,000, while the total disbursements to January 28 were $21,364,000.

Hon. Frank Oliver, minister of the interior, could not definitely tell R. S. Lake, (Qu'Appelle) when the report of th e royal grain commission would be ready. He referred him to the clerk of the house.

McCarthy was informed by the premier that action had been taken by the government to s ecure compensation from the states for the seizure of the steamer Coquitlam, also that a request had been made for a settlement of all outstanding claims against the states by Canadian sealers.

In reply to a query, George Taylor, the conservative whip, was informed by Hon. A. B. Aylesworth, that judge T. Fraser Forbes, possessed all the qualifications for his appointment and no question was raised as to his fitness. A third question as to whether the department was aware at the time of his appointment that a matter affecting Forbes was reported in the territories, and whether action had been taken with regard thereto, subsequent to June 11, 1907, and if so with what result, and where the record was to be found, brought an answer that the department was unable to say.

Hon. Frank Oliver informed Marshall, (East Elgin) that he had no information as to general Booth's statement that in response to an enquiry the government of Canada had cabled him (Booth) that out of 20,000 army immigrants, not a hundred could be found unemployed.

H. B. Ames (Monteral) was informed that during 1906-07 the timber licenses including renewals, in Manitoba and the Northwest territories, issued numbered 69. Renewals covered 1896 square miles, and the new licenses 69.

R. A. Pringle (Cornwall) conservative, moved for the election of a committee of nine to inquire into and devise means of state aid, or otherwise to provide for aged and deserving people. He questioned senator Cartwright's statement that it would discourage thrift. Banks and railway corporations did not think so, nor governments who pensioned employees. In New Zealand the old age pension act had proved a most popular measure. In Canada poverty was rather an exception, therefore the grant necessary would not likely be a burden. Poverty would not burden the state or the municipalities. Ontario had expended two millions in poor houses. A pension would retain a desirable class in this country, not assir Wilfrid Laurier had stated to labor representatives, an undesirable class from the states. If the country could raise thirteen millions for bounties, something could be raised for aged persons. The imperial parliament was unanimous for old age pensions last year, and the chancellor of the exchequer was pledged to introduce a bill.

Ralph Smith (Nanaimo) favored the plan, but took a view of British trade unions that pensions should not be confined to the poor. He would like to see a commission. He argued that over 75 per cent of the aged, over 65 years, were unable to support themselves.

The premier in accepting the motion expressed the opinion that it would take the committee the entire session to gather sufficient information. He denied the accuracy of the report quoted by Pringle. He frankly told labor men that the matter was beset with serious difficulties, but that the government were disposed to approach the whole matter with an open mind. The necessity for providing for the helpless aged was universally recognized, but as to the best plan there was scope for differences. Personally he did not agree with Smith's universal old age pensions scheme, but thought that provision should be made only for the helpless. An objection had been taken to the proposal that the participants should contribute to the scheme, but he considered this an incentive to slovenliness and idleness.

Hon. G. E. Foster followed. He did not approve of a fixed age limit. A man incapacitated at 40 was entitled to aid just as much as at 65.

Celebrated Stetson Hats

In the Latest Styles

MADE EXPRESSLY FOR THE HUDSON'S BAY STORES

Has been received direct from the factory. It is unnecessary to dwell upon the quality of these hats—the name of STETSON is sufficient to warrant their superiority.

We have SOFT HATS in black, fawn, brown and pearl shades, and in different shapes.

Stiff Hats are in black only. We would draw special attention to the

Flexible Stiff Hats

Which adjust themselves to the shape of the head, and prevent that unpleasant feeling of tightness which makes some people dislike hard hats.

We carry also a large assortment of Winter Caps.

An inspection of these goods is respectfully invited.

BOWSER AND ROSS.

Attorney-general Bowser affects to be greatly perturbed over the statements recently made by Duncan Ross, M. P., in parliament regarding his (Bowser's) connection with certain Japanese contracts, which were really responsible for the large influx of Japanese last year. Mr. Bowser may have a grievance, but he will receive very little sympathy for his own conduct in connection with this whole Japanese business has been of such a questionable character that no one is justified in placing any confidence in what he says.

It was attorney-general Bowser who gave voice to the barefaced falsehood that the Grand Trunk Pacific Railway company was about to import 50,000 Japanese coolies to work on construction, with the knowledge and approval of the Liberal party. He made this absolutely false statement on the eve of the last provincial elections and had it circulated throughout the province, with the effect of creating a bitter sentiment against the Liberal candidates in every constituency and seriously diminishing the Liberal vote. Now that Mr. Bowser's statement has been proved to be a wilful and malicious lie, Mr. Bowser seeks to excuse himself on the plea that he got his information from a "prominent liberal." Mr. Bowser knew at the time he made the statement in question that it was not the G. T. P. company that were seeking to import Japanese, but that it was the C. P. R., the big corporation, whose chief officials in this province were straining every nerve to bring about the return of the McBride government. Mr. Bowser knew of the efforts being made to circumvent the Dominion government's legislation and immigration regulations, framed with a view to exclude as nearly as possible Oriental laborers, and with this knowledge he deliberately attempted, and succeeded in so doing, to mislead the electorate by the circulation of a falsehood. How can he expect any intelligent British Columbia elector to sympathize with him when Duncan Ross administers a severe castigation? We do not know the source of Mr. Ross information, but at least it could not have been less trustworthy than Mr. Bowser's "prominent Liberal."

Until Mr. Bowser apologises fully for the slanderous attack he made upon the Liberal party, based upon wholly false charges, and, too, charges known to be false, he cannot look for any confidence to be placed in any utterance he may make upon public affairs. He stands convicted of gross, wilful and malicious misrepresentation and until he has atoned for this glaring offense he merits the contempt of every right-thinking man, irrespective of his party affiliations, for decent Conservatives cannot tolerate lying abuse of their opponents.

By resort to a despicable falsehood attorney-general Bowser scored some temporary advantage for his party in the last provincial elections, but he paid a very high price for it in the contempt of all decent men, who despise a public man who will resort to such lengths to gain a political advantage.

Duncan Ross, M. P., has performed a useful service by thus concentrating the limelight of publicity upon Bowser's turpitude. It required just such vigorous handling as Duncan Ross administered to bring home to the people of this province the gravity of Bowser's offense.

EDITORIAL NOTES.

Whatever chance there was of Portugal becoming a republic has vanished into thin air, for the time being at all events, in the light of what happened on Saturday when king Dom Carlos and his eldest son were assassinated. With all his faults, the Portuguese are said to have loved their king and the royal family generally and Saturday's assassinations are sure to bring about a strong reaction even in republican circles. Premier Franco has resigned, it is true, but he will undoubtedly remain the man of the hour in whatever capacity he acts. Manoel II., a lad of nineteen, is now king and very little is known of his character but he is said to be unusually popular, and under the coalition government formed yesterday, Portugal may have a quiet and prosperous time for some years to come, in place of the revolution which has almost daily been expected for the last month.

Speaking of the king as a diplomatist Isaac N. Ford, writing in the New York Outlook from England, declares that London, and not Berlin, is now the diplomatic capital of Europe. Paris held first place when Bismark entered upon his series of machinations and triumphs, but for seven years Berlin has been the centre of European diplomacy. Thanks to the efforts of the king, all conditions have been transformed and London easily leads Europe today. Speaking of the king as he stands today, Mr. Ford says: "The king has taken a more active interest in foreign affairs than in any other branch of state business. Diplomacy has become with him little short of a ruling passion. His success in it is due in large measure to his honesty and sincerity. He is trusted at home and abroad. He has his mother's instinct for going straight and keeping faith with men and nations. He plays an honest game of diplomacy, with the cards on the table in plain view, and with motives, methods, and objects frankly disclosed. To truthfulness is added the sovereign's representative character. He represent England—its conservatism, its respect for established order, its conciliatory disposition, and its practical instincts. He is in sympathetic relations with his subjects. He has the incomparable gift of forecasting the trend of forces of public opinion." King Edward, concludes the writer, is "a master workman in a progressive world."

The Secret of Secrets

In Store Advertising

One of the wisest men wrote:

"Suffer any person to tell us his story, morning and evening, for but a twelve-month, and he will become our master!"

In the above sentence we have, in a nutshell, the innermost secret of successful advertising—frequency, and persistency, and unvarying continuity in the telling of the store or enterprise. There are other things to be said of successful advertising, but in the above quotation is found the real philosophy, the real secret,—

The Heart of the Whole Matter

When you wish success in your advertising campaign use

The Daily News

the paper with the largest circulation, and the best telegraphic and news service in the Kootenays.

IN THE GAZETTE.

Appointments Announced of Interest in the Kootenays.

Rossland, Angus McLeod. Fernie, John Podbielancik. Slocan, W. Lovett. Burton, T. H. Wilson, Silverton, George Fauquier. Needles, J. J. Atherton, New Denver.

The H. S. Wallace company has been incorporated at $20,000 to take over the stationery business of H. S. Wallace, Rossland.

INSTANTLY KILLED

Vancouver Man Accidentally shot down by Neighbor—Queer Story

(Special to The Daily News)

Vancouver, Feb. 3—Charles Massender was shot and instantly killed by Oscar Buise here on Saturday night. Buise brought out a rifle to scare off a young man who had been paying attentions to his girl, and whom he had warned to keep away. The young man hastened down the street but Buise fired, he says in the air. The bullet went across the street and through the door of a house and struck Massender who was just hanging up his coat in the hall.

When detectives arrested Buise he was dumbfounded when told that he had killed a man. He is now under arrest on a charge of murder but it will probably be changed to manslaughter.

EAT ORANGES

IF YOU WANT TO KEEP WELL

Careful tests have proved beyond question that orange juice has clearly defined medicinal virtues. Those who suffer with Indigestion—are compelled "to diet"—find that after eating oranges regularly for breakfast there is no distress, no palpitation.

Where there was a tendency towards constipation, the eating of oranges regulated the bowels.

In skin troubles, those who began the morning meal with an orange were noticeably improved.

There is, however, a quicker way to get better results. This is to take one or two "Fruit-a-tives" tablets at bedtime in addition to the juice of an orange before breakfast the next morning. "Fruit-a-tive" are the juices of oranges, apples, figs and prunes, in which the medicinal action is many times intensified by the special way of combining them. Valuable tonics are then added.

Take the juice of an orange before breakfast—take "Fruit-a-tives" at night—and you will quickly be rid of Indigestion, Stomach Troubles, Constipation and Biliousness. "Fruit-a-tives" are sold by all dealers at 50c a box—6 for $2.50. Sent on receipt of price by "Fruit-a-tives," Limited, Ottawa.

FORMER COAST JOURNALIST

Died in England From Exposure on Saturday Last

(Special to The Daily News)

Vancouver, Feb. 3—T. Lockhart Graham, one of the best known journalists of the coast several years ago, died in England on Saturday. Death was due to exposure while he was acting as representative of the London Daily News on a record auto run from Monte Carlo to London.

GET READY FOR SPRING

TIMELY SUGGESTIONS FOR LOCAL FRUIT GROWERS

WORK THAT SHOLUD BE STARTED VERY SHORTLY

As soon as the spraying machinery is cleaned up and in the best working shape, clean up the orchards, if such has not already been done. Cut out and burn all dead branches or limbs having large canker spots. They are sources of infection for the rest of the tree and also for neighboring trees. Run the cultivator through the orchard and turn under the leaves and weeds which are harboring insects and spores of fungi. This will materially reduce the amount of damage which may be done to the trees. Any wounds made on the trees by removing large limbs, by all means should be painted. There are many materials useful for this purpose, such as grafting wax, pine tar, linseed oil or paint and sundry other substances. In my experience nothing is better than white lead and linseed oil, made up in a good thick paint. This, when applied to a large wound is very conspicuous for a long distance and I prefer to darken the paint with some such substance as lamp black or other. A generous application of this paint will last for a couple of years and need not be made more than once unless the wound is very large.

When it comes to the work of spraying there are three things which it seems to me every orchadist should keep constantly in mind: (1) spray early in the season; (2) spray often and thoroughly, and (3) don't get discouraged and stop spraying. It seems to me that on these three principles depends the success in spraying. In this section of the country, the most important application of a fungicide is one to be used just before the buds begin to swell. For this the best material to be used is simply a solution of copper sulphate made from dissolving from three to five pounds of copper sulphate in 50 gallons of water. Of this material only one application is needed to entirely prevent peach leaf curl and it will very materially aid in keeping under control the very destructive apple scab. If the weather be rainy it may be better to use strong Bordeaux mixture (the 6-4-50 formula) as it is not so easily washed off as is the copper sulphate solution. In making this application do it thoroughly, put plenty of materials on the trees, cover both upper and lower sides of every twig, branch and limb and let plenty of the solution fall on the trunk. This solution fall on the trunk. This solution does not cost much and a fruit grower need not be stingy of it; the greater expense is putting the spray on the trees but a few dollars spent now will increase the money received at harvest time and it is poor economy for one to be saving of spray mixture.

When the flower buds are out and just ready to open make another application, this time using the standard Bordeaux mixture, containing Paris green or some other poison to kill the codlin moth. Put on plenty of the spray and be sure that plenty falls in the salyx or blossom end of the young trees as this is the best time of year to head off a crop of wormy fruit. Get plenty of the spray on the topmost branches and on the limbs and leaves in the center of the tree. Be thorough in the work, see that every limb and branch, both sides of every limb and branch, both sides of every lead and each young fruit has a thin film of spray mixture over the entire surface, for then and only then has the work been thoroughly done, and one can feel certain of a bountiful harvest of good clean fruit.

These three early sprayings are of the greatest importance in controlling diseases and one can well afford to go to greater expense to do the work well. In general four or five subsequent sprayings at intervals of ten days or two weeks are necessary and should be as carefully done as were the earlier applications.

HOW DIPHTHERIA IS CONTRACTED

One often hears the expression "my child caught a severe cold which developed into diphtheria," when the truth was that the cold had left the little one particularly susceptible to the wandering diphtheria germ. When Chamberlain's Cough Remedy is given it quickly cures the cold and lessens the danger of diphtheria or an yother germ disease being contracted. For sale by all druggists and dealers.

Farm Wanted

Anyone having a good farm for sale in western Canada may find cash buyer by writing at once, giving price and description, to Buyers' Co-Operative Company, Minneapolis, Minnesota.

CERTIFICATE OF THE REGISTRATION OF AN EXTRA-PROVINCIAL COMPANY

"Companies Act, 1897"

I HEREBY CERTIFY that the Snowdrift Gold Mining Company, Limited, has this day been registered as an Extra-Provincial Company under the "Companies Act, 1897," to carry out or effect all or any of the objects of the Company to which the legislative authority of the legislature of British Columbia extends.

The head office of the Company is situate in the city of Spokane, state of Washington, U.S.A.

The amount of the capital of the company is twelve thousand five hundred dollars, divided into one million two hundred and fifty thousand shares of one cent each.

The head office of the company in this Province is situate at the town of Koch's Siding and Noah Eastman, lumberman, whose address is is the same, is the attorney for the company.

The time of the existence of the company is fifty years from the first day of June, ninteen hundred and seven.

The company is specially limited under section 56 of the above act and no liability beyond the amount actually paid upon shares or stock in the company by the subscribers thereto or nolders thereof shall atatch to such subscriber or holder.

Given under my hand and seal of office at Victoria, Province of British Columbia, this fifth day of July, one thousand nine hundred and seven.

S. Y. WOOTTON,
Registrar of Joint Stock Companies.

The objects for which the company has been established and registered are:

1. To own, purchase and otherwise acquire, mines and mining properties, and to sell and otherwise dispose of mines and mining properties, in any part of the state of Washington, United States of America, and in the Province of British Columbia, Canada.

2. To purchase, lease and otherwise own, control and sell such real and personal property as may be necessary to the due prosecution of the business of this corporation.

3. To purchase, appropriate and otherdise acquire and to sell and dispose of, and to maintain such water rights and water power as may be necessary to the due prosecution of the business of this corporation.

4. To develop and operate mines containing precious metals, and to sell the products thereof.

5. To construct, maintain, purchase and otherwise acquire any and all buildings, devices, structures, machinery and improvements essential to the due prosecution of the business of this corporation as above set forth.

6. To build and construct flumes, dams and other structures for the creation of water power and to maintain the same, such as may be essential to the conduct of the mining business of this corporation.

7. To mortgage and issue mortgage bonds upon any of the foregoing kinds, classes and descriptions of property that may be by this corporation owned and acquired.

RECIPE FOR DIAMONDS

STRANGE CASE NOW IN ENGLISH COURTS

FRENCHMAN'S CLAIM TO BE INVESTIGATED

London, Feb. 3—No more strange story has been told for many years than that relating to the alleged discovery of a recipe for diamonds by M. Lemoine, a French engineer. The latter is in custody in Paris on a charge of defrauding sir Julius Wernher, director of DeBeers Diamond company of £64,000. This money was obtained at a time that sir Julius was convinced that Lemoine could really make the gems he claimed he could. Later the financier became of another way of thinking. The result was the sudden arrest of the engineer about a month ago and now a trial which is exciting world wide attention

The mystery is made deeper by the attitude of Lemoine who claims that he is no charlatan but a maker of real diamonds. Moreover he asserts that his prosecution is really an attempt to force him to give up his gem making formula which lies as security against sir Julius Wernher's advances, in a sealed envelope in the Union of London and Smith's bank. Mme. Lemoine has been in London with Maitre Dazet, a clever French counsel, to make sure that the precious paper is not interfered with, and the bank has been warned not to part with it or to allow it be touched.

So the drama is being played out, the principal characters in it being Henri Lemoine, engineer and professed diamond maker; sir Julius Wernher, diamond magnate; Percy Jackson of Victoria street, Westminster, who also negotiated with Lemoine; Mr. Feldenheimer, diamond merchant of Holborn viaduct, who introduced Lemoine to sir Julius, and is joint prosecutor with the latter; Jocelyn Brandon, L.C.C., a London solicitor, who introduced Lemoine to Mr. Feldenheimer, and Mr. Hoats, colleague of sir Julius on the DeBeers' directorate, and expert in diamonds.

ROSSLAND CARNIVAL

Thirteenth Annual Sports Commence this Evening

This evening will see the beginning of Rossland's carnival, an extensive and comprehensive program having been arranged by the committee in charge, which has worked harmoniously and faithfully. The first event will be a masquerade in the skating rink, at which a gorgeous array of fancy dress will be seen. On Wednesday morning there will be a ski jumping contest at which attempts will be made to beat the present Canadian record of 92 feet held by Torgal Nelson. Should the record be broken a gold medal will be presented by the carnival association to the winner, and if the second best jump is over 50 feet a second prize will be given. There will also be ski jumping for boys and exhibition jumping by some of the many experts who will compete. In the afternoon there will be a one mile skating race, followed by an intermediate hockey match in the open challenge cup tournament.

Thursday morning there will be a seven mile ski race over a difficult course, and it is expected that there will be 16 contestants. There will also be a junior hockey match and a number of snowshoe races for boys and girls and men. The afternoon will be given up to horse races—two running and one harness—and skating races for boys and girls at the rink. In the evening there will be a snowshoe and torchlight parade, followed by another game in the open challenge hockey tournament and the Eagles' smoker.

Friday morning a three mile snowshoe race will be run over the "Father Pat" course and there will be miners' and prospectors' snowshoe races and a lumbermen's log rolling and chipping contest. In the afternoon there will be an intermediate championship hockey match and in the evening the final in the open challenge cup competition.

Saturday morning will be given up to ski racing and junior hockey and the evening to a hockey match between Nelson and Rossland for the championship of British Columbia. Harry Dickson of the Giant Powder company has offered a $200 silver cup to be competed for at the winter carnival. This will replace the present cup as soon as it is won outright, Nelson having won it once, Rossland twice and Vernon once.

In Heart Of City

Notice to Contractors

Tenders will be received up to 12 o'clock noon, Monday, 10th February, 1908 by the Trustees of the Methodist church, Nelson, B.C., through its secretary, Charles F. McHardy, for a stone church building to be erected on the corner of Silica and Josephine streets, Nelson, B.C.

plans and specifications may be seen at the office of McDermid and McHardy, Baker street, Nelson, B.C., or at the office of Hooper and Watkins, Architects, Victoria and Vancouver, B. C.

Lowest or any tender not necessarily accepted.

The successful tenderer will be called upon to provide a bond satisfactory to the trustees.

HOOPER AND WATKINS,
Architects.

THE FIRST WHITE SETTLER IN PRINCE ALBERT

45 YEARS SKIN TROUBLE BAFFLED THE DOCTORS

ZAM-BUK SUCCEEDED

Mr. James Isbester, Teacher, Stoney Reserve, Battleford, Sask., claims the honor of being the first White Settler in Prince Albert, and built the first shanty in June, 1862. This was 45 years ago, and all that time he has been *suffering from a skin disease which baffled the doctors.*

He says: "Zam-Buk cured me of a skin disease of 45 years' standing which no doctor had been able to cure. When I heard of Zam-Buk I carefully followed the instructions, and applied Zam-Buk to my hands before going to bed. The next morning to my surprise my hands looked as if there had been nothing the matter with them. I continued the same treatment to my legs, and the end of the week found the same result. I could scarcely believe myself the cure was so rapid. I became so enthusiastic that I began using Zam-Buk on others, always with the same result. I am thoroughly convinced that no salve can be used on sores that will act as quickly and effectively as Zam-Buk, and, therefore, recommend it to everybody, and would not be without it."

Writing at a later date, he says: "I have tried Zam-Buk on many suffering from skin diseases and it has always proved successful. I have even used it on my "Sore-eyed Indians" and it cured every time."

TRIAL BOX FREE

A dainty sample will be sent you if you cut out this coupon and send it with 1c. stamp to The Zam-Buk Co., Toronto.

2K1

McLATCHIE IS VERY ILL

WELL KNOWN LOCAL SURVEYOR IS AT CALGARY

HE WAS NOT EXPECTED TO LIVE LAST NIGHT

The very serious illness of John McLatchie, the well known land surveyor, will be learned with great regret.

Mr. McLatchie left here for Ottawa some two weeks ago, but stopped over at Calgary on some land business. Whilst at Calgary he was taken ill with inflammation of the bladder and went into the Calgary hospital to undergo an operation. He was operated on immediately and no further complications were looked for. At the end of last week he took a turn for the worse and yesterday his assistant, H. C. Black received a wire that the patient would probably not survive the night.

Mr. Black leaves for Calgary this morning over the Crow line.

Mr. McLatchie came to Nelson in 1897 and is perhaps the best known of all interior land surveyors. He did a great deal of work for the dominion government and during the past 12 months had more work on hand then he could possibly attend to. His son spent last summer here but returned to the family home at Ottawa, where Mr. McLatchie's wife and daughters reside. It was stated yesterday that two of Mr. McLatchie's brothers and some other relatives reside at Aylmer, near Ottawa. Mr. McLatchie is about 65 years of age and has done an immense amount of field work all over the Kootenays and elsewhere in the west.

POINTERS

A good many people think of a drug store simply as a place where one may buy any article not found elsewhere. As a sort of "everything else" store. This store is all that—but more, too. Many things, besides drugs which you can get at other places, you can get to a better advantage HERE

Our Idea
Of a drug store is that it should, more than any other store whatever, be actually devoted to the public service.
And to sell a stamp amiably, to answer a night bell amiably, to give information amiably, is to enhance the public usefulness of a store.

Toilet Articles
For people of exacting tastes and ideas! "Exclusive" sort of things—things that were made by people who had ideas—and pride in their work—and conscience!

If
You can't get what you want here it's because it's not on the market.

The Compounding of Prescriptions
Is work not only for a man who KNOWS, but for a man who CARES!
WE KNOW AND CARE

Keep
It it in your minds that the Popular store is here for you—for we keep it in OUR minds.

NELSON NEWS OF THE DAY

J. C. Bonneau of the Strathcona hotel left for Vernon last night.

Owing to the heavy fall of snow the tram cars were not running yesterday.

A. Pitchford has been appointed gaoler in the provincial gaol here.

The Nugget mine of Salmo has shipped four cars of ore during the last few days.

Louis Hartwiche, formerly of the Hall Mines smelter, and a member of the Salvation army, is dangerously ill with an attack of pleurisy.

There will be a meeting of the executive of the Nelson Agricultural and Industrial society this evening at 8 o'clock in the offices of the secretary.

The dance of the rejected takes place this evening at the Alice roller ring, being the first dance on the new hardwood flood. The dance of the rejecters will be heard of at a later date this month. There is in fact a dispute as to whether the latter dance should take place on St. Valentine's day or on Feb. 29. Strong arguments are being used on either side by the spinsters.

At the young people's society meeting this evening in St. Paul's church hall at 8 o'clock a discussion will be held on the important subject as to whether the Protestant churches of Canada can do better work united or apart. The chair will be taken by J. Hamilton and it is hoped there will not only be a large attendance of members and friends, but that many will come prepared to take part in the debate.

J. E. Jones of Camborne has been appointed official liquidator for the Silver Dollar mine and mill, owned by the Elwood Tin Workers Gold Mining company.

The carpenter work on the court house has been about finished. The woodwork is now nearly ready for the plasterers, just as soon as the weather moderates active work will be recommenced.

The concert to be given by the Baptist young men's bible class is creating a good deal of interest. The sale of tickets was started yesterday and already a goodly number have been sold.

The Kootenay Engineering works are installing their portion of the machinery for the Canada Zinc company. Just now the roaster is being rivetted and the whole plant should be in readiness by the end of the current month.

Police magistrate Plewman of Rossland sent over R. Burns under charge of chief T. H. Long of the Rossland police force to serve one month in the provincial gaol for theft. This is the first sentence imposed by Rossland's new magistrate.

C. Mackay was in from the Cambrian mine at Moyie yesterday for the purchase of supplies. Mr. Mackay says that sinking is still going on but the ledge, but the ledge which runs from the St. Eugene to the other side of the lake has not been reached.

The thermometer yesterday varied between 18 and 24 degrees and on Sunday between 4 and 24 degrees. There was a light fall of snow early on Sunday morning but the day broke clear only to be overcast in the afternoon. At daybreak yesterday the snow began to fall and by dusk a fall of five inches had been recorded.

A special turnout is requested of the junior hockey players this evening at the Stanley street rink. On the results of the evening practice will largely depend the make up of the junior Nelson hockey team which is to be sent from this city on Thursday evening next to compete for the B. C. championship prizes at the Rossland carnival.

Three Angora goats one male and two females reached here by express on Saturday night from Montana. They are consigned to C. E. Bailey, Claresholm, Alta., and were shipped east over the Crow line today. Many people inspected the animals yesterday at the American Express company's office and the wish was frequently expressed that some local ranchers would import some of the goats. The two she-goats were comportably fixed in their cases but the unfortunate billy-goat could apparently neither stand nor lie down on account of his horns, and must suffer considerably before he reaches his destination. His travelling cage should have been double the size.

The Bishop brothers have secured two great skaters for an exhibition tomorrow. These are Norval Baptie, champion skater of the world, assisted by Gib Bellefeuille, champion of Canada, who are touring Canada and the United States giving exhibitions in fancy, trick and stilt skating, also a series of racing forward and backward, with local skaters. Norval Baptie gives an extraordinary exhibition in fancy skating, also figure work on stilts. Baptie and Bellefeuille have won every race in the eastern states of any note for the last four years and expect to compete in the big races in Cleveland and Pittsburg in the early part of March. Norval Baptie is the present holder of all fast records on ice from one to five miles, both indoors and out, having defeated every fast skater in Montreal and Saranac lake since 1904, and holds the record for the mile straight-away in 2:08; also of 1.05 for the half mile. The public will be allowed to skate before and after the exhibition, also between parts.

Insure yourself against hard times. Learn millinery at the Boston Millinery School and be ready for the spring season. Positions guaranteed those finishing before April 1st. For particulars apply 422 4th avenue, Spokane, Wash. Save this ad. it will apply the same as $5 on tuition.

There will be a raffle at the Cabinet cigar store of a $100 case and a $50 case of pipes, the property of E. E. Greenwood, tonight after 8 o' clock.

Special instructions in art and elocution, while all students are required to take physical training with all the privileges of a well equipped gymnasium. For calendar address Columbia College.

Synopsis of Canadian Homestead Regulation

ANY available Dominion Lands within the Railway Belt of British Columbia may be homesteaded by any persons who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres, more or less.

Entry must be made personally at the local land office for the district in which the land is ituate. Entry by proxy may, however, be made on certain conditions by the father, mother, son, daughter, brother, or sister of an intending homesteader.

The homesteader is required to perform the conditions connected therewith under one of the following plans:

1. At least six months' reidence upon and cultivation of the land in each year for three years.

2. If the father (or mother, if the father is deceased) of the homesteader resides upon a farm in the vicinity of the land entered for, the requirements as to residence may be satisfied by such person residing with the father or mother.

3. If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements as to residence may be satisfied by residence upon the said land.

Six months' notice in writing should be given to the Commissioner of Dominion Lands at Ottawa of intention to apply for patent.

COAL—Coal mining rights may be leased for a period of twenty-one years at an annual rental of $1 per acre. Not more than 2560 acres shall be leased to one individual or company. A royalty at the rate of five cents per ton shall be collected on the merchantable coal mined.

W. W. CORY,
Deputy Minister of the Interior.

Change of LIFE

Need Not Bring Suffering and Misery

This perfectly natural change in a woman's life is too often accompanied by painful, distressing symptoms due to female troubles and slight irregularities in her delicate organism.

The woman who passes this change without the development of tumors, cancers, or chronic invalidism enters a new field of happiness and usefulness in the domestic circle and in social activity. Her physical system should receive the necessary assistance at this critical period.

Lydia E. Pinkham's Vegetable Compound

is exactly suited to woman's needs at this time. It strengthens and cures all derangements of the female organism, it overcomes the hot flashes and dizzy fainting spells, and all other distressing symptoms.

Woman's Friend During Change of Life

Dear Mrs. Pinkham:—I owe my splendid health to Lydia E. Pinkham's Vegetable Compound. I am the mother of three children, have safely passed the change of life, and feel as young and strong as I did twenty years ago, and this is all due to your friend of women, Lydia E Pinkham's Vegetable Compound. I took it before my children were born, and it greatly assisted nature and saved me much pain, and during change of life I took it off and on for four years, and had but little trouble and sickness such as most women have to endure. MRS. JAMES K. MANN, 806 Bathhurst Street, Toronto, Canada.

The whole secret of safety at this time of life is thorough preparation before the change begins. Fortify the system with a course of Lydia E. Pinkham's Vegetable Compound. This wonderful medicine has carried thousands of women through this danger period.

No such helpful advice to women who are sick can be had anywhere as will be received free by addressing Mrs. Pinkham, Lynn, Mass. Mrs. Pinkham is daughter-in-law of Lydia E. Pinkham, and for twenty-five years under her direction, and since her decease, she has been advising sick women free of charge.

Lydia E. Pinkham's Vegetable Compound Cures Where Others Fail

Tooke

SHIRTS

There are reasons why Tooke Negligee Shirts are the best shirt value ever offered to the public. The material used in them is made specially for us.

The patterns on all Tooke Shirts are designed, controlled and registered by us.

Our colored shirts are made with soft, pleated, and short and stiff bosoms.

Tooke Shirts are made in a clean up-to-date plant where the floors are scrubbed daily—not made in sweat shops.

The Neglige Coat Shirt is becoming very popular. It wears longer, looks better, and gives more comfort than any other. 17

TOOKE BROTHERS, LIMITED · MONTREAL

CRISIS IN PORTUGAL

REVIEW OF THE SITUATION BEFORE THE TRAGEDY

THE NATION SAID TO LOVE THE ROYAL FAMILY

The assassination of King Carlos and his eldest son makes the following review of the political situation in Portugal, written recently, of interest.

The cause of Portugal's crisis has always been the same. It has always been the result of parliamentary impotence, the consequence of the errors of the two great parties so long in power. From a political point of view—and at present no other point of view would be practicable—according to an article in the Revue Generale, of Brussels, Portugal's institutions are similar to the institutions of the other constitutional monarchies of the old continent, but the governmental methods are very different and the executive and legislative powers of Portugal clash more frequently than the corresponding powers of other countries.

Party government in Portugal had come to mean little more in 1906 than the control of public office exclusively for private "graft," with a working understanding between the two dominant parties whereby offices were openly bartered and sold. A third party, under the leadership of Senhor Franco, a vigorous young patriot, secretary of the interior from 1894 to 1897, became powerful during the past two or three years and finally secured the confidence of the king. During the past summer with the full knowledge and approval of king Carlos, Senhor Franco cut of parliamentary sinecures aggregating more than $2,000,000 annually. Some of this money has been diverted to the civil list of the king and some devoted to settling arrears of the always underpaid government employees and soldiers and sailors. The premier, moreover, has refused to summon parliament within the time prescribed by law and has suspended many constitutional guarantees, thus making himself virtual dictator. Those who are best informed on Portuguese conditions assert that his dictatorship is favored by the great mass of the population and is in the interest of justice and decent government. All report of a possible revolution against the king and dynasty are vigorously denied from Lisbon. Senhor Franco announces that he will prove the beneficence of his dictatorship by its success. If conditions are such as to justify it, the government it is announced will hold elections in April for the new cortez. If there is a revolution it will undoubtedly be one by the court and politicians. The people, 80 per cent of whom are illiterate, are indifferent to the contest between the politicians and the crown and the army and the navy, which profited by the discomfiture of the politicians, are not likely to respond to any invitations to revolt.

The prime minister is "solid" with the king, and, as a whole, the nation approves of him. The taxpayers attribute their unprecedented surplus to his excellent financial policy. The working people like him. The old ministers ignored the lower class. Under the new system the workingman is the object of high governmental attention. The people uphold the government because the government shows solicitude for them. Men who have few party interests stand for the Frankist government and against the conservatism of the ancient parties. The nation also loves the royal family.

"Portugal is in Africa," said a politician recently, "probably because the wealth of the colonies of Angola, Zambesi and Mozambique is so great that the main country might well live on what she draws from them."

"Baby's Own" Soap

—keeps its delicate fragance to the very last fragment, and it is so well made that it will wear to the thinnest wafer.

Albert Soaps Ltd. Mfrs., Montreal.

Beware of imitations and substitutes. 9-07

WHEN TO GO HOME

From the Bluffton, Ind., Banner: "When tired out go home. When you want consolation, go home. When you want fun, go home. When you want to show others that you have reformed, go home and let your family get acquainted with the fact. When you want to show yourself at your best, go home and do the act there. When you feel like being extra liberal, go home and practice on your wife and children first. When you want to shine with extra brilliancy, go home and light up the whole household." To which we add, when you have a bad cold go home and take Chamberlain's Cough Remedy and a quick cure is certain. For sale by all druggists and dealers.

No Misfires

When the rifle is perfect missfires are unknown with Dominion Ammunition—because we make our own primers and *adopt them carefully* to the powders which we use. (Our smokeless powders are made by the World famed firm of Nobel.)

Dominion Ammunition *magazines perfectly* in all popular fire-arms, and gives the best results.

Ask your dealer for Dominion Ammunition—if he won't supply you—write us—

A HOME MADE HAPPY BY CHAMBERLAIN'S COUGH REMEDY

About two months ago our baby girl had measles which settled on her lungs and at last resulted in a severe atttack of bronchils. We had two doctors but no relief was obtained. Everybody thought she would die. I went to eight different store to find a certain remedy which had been recommended to me and failed to get it, when one of the storekeepers insisted that I should try Chamberlain's Cough Remedy. I did so and our baby is alive and well today.—George Spence, Holdly Springs, N.C.. For sale by all druggists and dealers.

If You Read This

It will be to learn that the leading medical writers and teachers of all the several schools of practice recommend, in the strongest terms possible, each and every ingredient entering into the composition of Dr. Pierce's Golden Medical Discovery for the cure of weak stomach, dyspepsia, catarrh of stomach, "liver complaint," torpid liver, or biliousness, chronic bowel affections, and all catarrhal diseases of whatever region, name or nature. It is also a specific remedy for all such chronic or long standing cases of catarrhal affections and their resultants, as bronchial, throat and lung disease (except consumption) accompanied with severe coughs. It is not so good for acute colds and coughs, but for lingering, or chronic cases it is especially efficacious in producing perfect cures. It contains Black Cherrybark, Golden Seal root, Bloodroot, Stone root, Mandrake root and Queen's root—all of which are highly praised as remedies for all the above mentioned affections by such eminent medical writers and teachers as Prof. Bartholow, of Jefferson Med. College; Prof. Hare, of the Univ. of Pa.; Prof. Finley Ellingwood, M. D., of Bennett Med. College, Chicago; Prof. John King, M. D., of Cincinnati; Prof. John M. Scudder, M. D., of Cincinnati; Prof. Edwin M. Hale, M. D., of Hahnemann Med. College, Chicago, and scores of others equally eminent in their several schools of practice.

The "Golden Medical Discovery" is the only medicine put up for sale through druggists for like purposes that has any such *professional* endorsement—worth more than any number of ordinary testimonials. Upon publicity of its formula is the best possible guaranty of its merits. A glance at this published formula will show that "Golden Medical Discovery" contains no poisonous, harmful or habit-forming drugs and no alcohol—chemically pure, triple-refined glycerine being used instead. Glycerine is entirely unobjectionable and besides is a most useful agent in the cure of all stomach as well as bronchial, throat and lung affections. There is the highest medical authority for its use in all such cases. The "Discovery" is a concentrated glyceric extract of native, medicinal roots and is safe and reliable. A booklet of extracts from eminent, medical authorities, endorsing its ingredients mailed *free* on request. Address Dr. R. V. Pierce, Buffalo, N. Y.

ONE Insertion OF A Want Ad

DOES NOT ALWAYS CONSTITUTE A COMPLETE CLASSIFIED ADVERTISING CAMPAIGN — ALTHOUGH SOMETIMES IT DOES!

The first "try," in any line of effort, is not usually enough. "Try again" is a slogan as old as experience of human affairs.

There is probably nothing else in which the first "try" is so often rewarded as in WANT ADVERTISING.

And there is surely nothing else in which reasonable persistence is so certain of a reward!

NOTICE

NOTICE IS HEREBY GIVEN that all creditors and other persons having any claims or demands against the estate of Frank Elvery, late of the City of Nelson, in the County of Kootenay, deceased, who died on the tenth day of December, 1907, and to whose real and personal estate letters of administration were granted by Nelson probate registry on the seventh day of January, 1908, to Dudley James Elvery, are hereby required to send particulars in writing of their claims or demands to me, the undersigned, the solicitor for the said administrator, on or before the the eighth day of February, 1908, at the undermentioned address after which date the said admininstrator will proceed to distribute the assets of the said Frank Elvery, deceased, amongst the parties entitled thereto, having regard only to the claims and demands of which he shall have then had notice and the said administrator will not be liable for the assets of the said Frank Elvery, deceased, or any part thereof so distributed to any person or persons of whose claims or demands he shall not then have had notice.

Dated this 7th day of January, 1908.

EDWARD A. CREASE
of Griffin Block, Nelson, B.C., Solicitor for said Administrator.

CERTIFICATE OF REGISTRATION OF AN EXTRA PROVINCIAL COMPANY

"Companies Act, 1897"

I HEREBY CERTIFY that the "Morning Bell Mining and Smelting Company" has this day been registered as an Extra-Provincial Company under the Companies Act, 1897, to carry out or effect all or any of the objects of the Company to which the legislative authority of the Legislature of British Columbia extends.

The head office of the company is situated at Spokane, Washington.

The amount of the capital stock of the company is two hundred and fifty thousand dollars, divided into one million shares of twenty-five cents each.

The head office of the company in this province is situate at the City of Creston, and O. J. Wigen, a fruit and produce rancher, whose address is the City of Creston, B.C. is the attorney for the company.

The time of the existence of the company is forty-nine years from the 15th of January, 1907.

The company is specially limited under Section 56 of the said Act and no liability beyond the amount actually paid upon shares or stock in the company by the subscribers thereto or holders thereof shall attach to such subscriber or holder.

GIVEN under my hand and seal of office at Victoria, Province of British Columbia, this 12th day of August, 1907.

S. Y. WOOTTON,
Registrar of Joint Stock Companies.

The objects for which the Company has been established and registered are restricted to acquiring, managing, developing, working and selling mines, mineral claims and mining properties, and the winning, getting, treating, refining and marketing of mineral therefrom.

York Springs Water

will do your wife more good than medicine—and yet there is nothing medicinal about it. Few women drink enough pure water—the body needs ten glasses a day—less will not cleanse the system of its waste. Too little water causes indigestion, constipation, bad blood, nervousness—common ills with women. Needless ills, because drinking pure water will mostly prevent them. Women like York Springs Water because it is crisp and zestful to the palate, and entirely without the salty taste common to most bottled waters. Any dealer who discriminates can supply you with

York Springs Water

Wholesome — Limpid — Refreshing

FOR THE DAILY NEWS CUP

MOUNTAINS OVERWHELMED THE RIVERS.

FIRST CLASS HOCKEY PLAYED BY LOCAL TEAMS.

The Mountains rushed down like a veritable avalanche and rolled back the Rivers to the tune of 18 to 6 in the second game of The Daily News Cup series at the Stanley street rink last night.

The game was a splendid exhibition of hockey and was fast and furious, but devoid of rough play, at all times, and was truly a battle royal.

Probably acting on the testimony of well known hydraulic experts that "rocks do float" the Rivers opened their flood gates and made many an heroic attempt to hydraulic the Mountains off the map; but it was no use; the solid "phorphry" formation made stubborn and effective resistance, and although Thompson drilled hard and Patrick made many a balloon ascension and parachute drop, only six little chunks of "gutta percha" seeped through the crevices into the Mountains tunnel.

The general opinion was that the Rivers would have things rather easy, but the Mountains, acting on their experience with the Lakes on last Thursday evening showed that the stopping of fast-flowing water was simply a matter of letting it roll up hill and then letting it roll down again.

Chave, a new player in senior hockey in Nelson, having been "found" and signed by the Mountains in the game Saturday night between the Real Estate men and the Retailers, proved to be a strong acquisition and gave great assistance to A. Bishop, H. Bishop and Bellrose, on the forward line.

Patrick, Thompson and Hood for the Rivers, reached the high'water stage, time after time, but the on-rush of pent-up waters was effectively stopped by a Mountain barrier in the shape of Steed, Deacon and Greyerbeihl.

The Mountins developed the best combination play, and their work was of first-class order, causing wild excitement and applause among the enthusiastic rooters. The Rivers' forwards did not show as good combination work, and depended more on individual rushes to work the rubber into the Mountains' stronghold, but the brand of hockey dealt out by both sides was of the "red-hot" variety at all stages of the game.

The line-up was as follows:

McQuarrie's Mountains		Bosquets' Rivers
Greyerbeihl	goal	McLaughlin
Deacon	point	Patrick
Steel	cover	Wilson
Chave	rover	Thompson
A. Bishop	center	Hoods
Bellrose	right wing	Perrier
H. Bishop	left wing	R. Bell

Referee—Ferguson, of the Lakes.

SUMMARY

First Half.

1. Mountains, H. Bishop, 3 minutes.
2. Rivers, L. Patrick, 1 minute.
3. Mountains, A. Bishop, 3 minutes.
4. Mountains, A. Bishop, 1-2 minute.

NELSON NEWS OF THE DAY

The school at Williams' siding is closed owing to the somewhat serious illness of the teacher.

E. A. Crease leaves this morning for the coast for a fortnight's holiday. Rev. Father Althoff is a fellow passenger with Mr. Crease, also bound for the coast cities.

Drs. Rose and Hawkey were called into consultation yesterday at the bedside of Mrs. Gillett, who is seriously ill. The physicians would only say that the condition of Mrs. Gillett remains extremely critical.

The death occurred on Sunday night of the infant son of Mr. and Mrs. Wm. Johnston, Latimer street. The funeral will take place from their residence at 2:30 this afternoon.

The regular meeting of Queen City Rebekah lodge No. 16 I.O.O.F. takes place in the lodge room this evening at 7:30. After the general business is concluded the remainder of the evening will be spent socially. A full attendance of the officers and members is requested.

The series of hockey matches for the cup offered by The Daily News, is resulting in some splendid exhibitions of hockey that deserve better local support than they are getting. Last night, of course, it was stormy and the cars were not running, which would account for the small attendance, but people who are fond of good sport and who are missing the cup games are overlooking fine hockey to say nothing of not supporting the local players who this year are developing into the best lot of hockey players that Nelson ever had.

POWER PLANT

(Continued From First Page.)

bylaws. He also forwarded a request from his men that their salary be increased.

The matter was referred to the standing committee concerned.

A petition was presented signed by W. G. McMorris, M.s. J. H. Park, A. Campion and others of Addition A., asking that outside consumers of water and light do not pay 25 per cent extra for the service over and above the rate paid by those in the city.

Mayor Taylor agreed with the petitioners, pointing out that the matter was a business proposition and that the city did not supply street lighting, policing, etc. The petitioners had agreed to pay the 25 per cent extra if they did not pay in advance.

City clerk Wasson pointed out that the citizens of Nelson who were paying interest on debentures for the installation of these systems, were paying more than outsiders would pay even if they were charged 25 per cent extra.

Mayor Taylor said that the water and light systems not only paid for themselves but also met the expense of sinking fund and interest and at the same time give the city a surplus.

Ald. McMorris agreed and moved that outsiders be charged the flat rate charged citizens, and only pay the 25 per cent extra if not paid in advance. Ald. Kerr seconded and the motion carried.

P. Burns and company wrote to ask if the city was in a position to supply them with continuous power and if not asked for permission to obtain power from other sources. The letter was referred to the fire, water and light committee.

C. F. Morris wanted to know in the event of his building on Baker street this year whether the bylaws governing such building would be enforced. He understood the late mayor had not complied with these laws in the building of the court house and requested a similar privilege for himself.

Mayor Taylor said the city would insist on its bylaws being observed and thought the attack made uncalled for.

Ald. McMorris moved and Ald. Stead seconded that Mr. Morris be informed that the bylaws would be strictly enforced. This was carried, Ald. McMorris stating that he thought the charge cowardly.

Electrician Brown asked for power to act in the purchase of certain material for his department. The request was referred to the committee concerned.

Ald. McMorris gave notice of the introduction of a bylaw with reference to the franchise sought by the Canada Zinc company.

On the motion of Ald. McMorris seconded by Ald. Hale, E. K. Beeston was appointed city auditor at a salary of $25 a month, dating from Jan. 15, Mr. Beeston to present quarterly statements and to report and suggest regularly to the finance committee.

Ald. McMorris brought up the question of committee meetings being made open to the public and opined that they should be kept secret.

The mayor agreed and administered a slight rebuke to the press for the publication of certain reports regarding the tramway committee of last week.

Dr. Arthur reported, as health officer, that smallpox was spreading more and more largely every year in the United States; that this city was in danger from these conditions and suggested compulsory vaccination.

?Mayor Taylor said he ascribed, indirectly to the injection of serum for diphtheria, the death of one of his children and the illness of two others. He objected to the injection of diphtheria serum and others had similar objections to the smallpox vaccine.

Dr. Arthur retorted that it was not fair that the objections of these people should endanger the health of a community. He admitted however, that there were no cases at this present moment.

The council, adjourning, resolved itself into a board of health.

Dr. Arthur pointed out that compulsory vaccination might be unpalatable but what would prove far more unpalatable would be the occurrence of half a dozen cases of smallpox. That would tie up the city and would seriously hurt its finances. Spokane had been rife with smallpox for several years. It had spread into Phoenix twice and Cranbrook once. There were also other instances.

Mayor Taylor said the present danger did not seem pressing.

Dr. Arthur did not agree.

After some further discussion the board, while not at present wishing to enforce compulsory vaccination, strongly advised the vaccination of every citizen as a measure of precaution. The city clerk was further instructed to advertise that the city health officer would vaccinate every week day from Thursday next, between 4 and 5 o'clock at the city hall any person presenting himself. The city clerk was further instructed to obtain a supply of the purest vaccine points procurable.

ASSAILS THE GOVERNOR

ABUSIVE ATTACK BY MEMBER FOR NANAIMO

FREE USE OF BILLINGSGATE IS MADE

(Special to The Daily News)

Vancouver, Feb. 3—J. H. Hawthornthwaite, in one of the most strenuous addresses ever heard here last night attacked lieutenant governor Dunsmuir. He said that since he was not allowed to have his say in Victoria he would speak in Vancouver.

He said: "If his honor had any conception of honor, any common decency, if he had any sense of manhood, after what he knows what the people of this province think of him and his actions, he would demand an investigation and have judgment pronounced. But will he do this? Not on your tintype he won't. I know the man better than you do and I say that he will remain in power just as long as it is possible for him to hang on to authority."

Brute; inhuman monster; human hyena; smasher of unions; honorable scalawag, and similar terms were frequently applied throughout the address. He charged that Dunsmuir was practically breaking every labor law of the province in connection with his Ladysmith mines.

The address closed with an appeal to union men all over the province to close down all industrial plants for three days unless the Victoria representatives would support the speaker's "dangerous employment act," which he said would make places for ten thousand whites at once and prove a barrier to any more orientals coming.

AS VIEWED IN LONDON

SEVERE CENSORSHIP IMPOSED IN PORTUGAL'S CAPITAL

BRITISH PRESS SAYS THERE MUST BE SOMETHING TO CONCEAL

London, Feb. 3—The morning papers are practically without Lisbon dispatches today, except those supplied by semi-official news agencies. This indicates that a severe censorship has been imposed.

The Daily Mail's correspondent wired at 4 o'clock yesterday afternoon laconically "impossible to send news," and the Daily Mail explains that this is the only message it has received since Sunday afternoon, with the exception of a brief depatch announcing Franco's intention to support the new ministry. The inference drawn by the Daily Mail and the other newspapers is that there is something serious to conceal, otherwise there would be no need to maintain such a strict censorship.

Despatches to the Associated Press from Lisbon announce the completion of the ministry and the continuance of the preparations for the funeral and on the authority of the new war minister, deny that any revolution has broken out in Oporto or elsewhere.

Don Miguel, in a statement published here, expresses the conviction that the assassinations were the work of anarchists not republicans and declares his intention to abtain for the present from active politics. His son prince Franc Jose, who is staying at Monte Carlo, states that he considers the murder the result of premier Franco's wholesale imprisonment of republicans, but adds that his father's instructions have always been to await the nation's vote and avoid violence.

It has been rumored for some time past that Great Britain proposed to interfere to restore order in Portugal. As a friend of Portugal, Great Britain has been using her moral influence to end the unsettled state of affairs in that country and will continue to do so but as for any interference in the internal affairs of Portugal, that is out of the question. The foreign office has confidence that Portugal herself will be able to restore order. The British Atlantic fleet, which is now at Vigo, was to have visited Lisbon this week. To avoid the appearance that the British government is attempting to interfere in Portuguese politics, only the British flagship, the Exmouth, with vice-admiral sir Ashton B. Curson-Howe on board, and one cruiser will go to the Tagus.

SMART EFFECTS

It was no fool who said that "clothes makes the man." You know yourself that he was pretty near right. If they don't make him, they go a long way towards doing it, whether it be in a business or social sense. We are builders up of your reputation so far as dress goes, and we clothe you fit for the best kind of company. Let us have the pleasure of a call, and we will show you how neatly and correctly we can clothe you in the most fashionable garments for a comparatively small sum.
