VOL. 7 NELSON, B. C., TUESDAY, JUNE 2, 1908 NO. 33

BAD HEADWAY

Dominion House Making No Progress

WELL ORGANIZED FACTORY

SIMILE USED BY PREMIER IS OBJECTED TO BY FOSTER—THE AYLESWORTH BILL LIKELY TO BE DEFERRED UNTIL AFTER ELECTIONS.

(Special to The Daily News.)

OTTAWA, June 1.—During question time in the house today, W. D. Staples was informed that there was no order in council authorizing the stoppage for medical fees from Transcontinental workmen's wages. The amount was only 50 cents monthly.

When the premier moved for morning and Wednesday evening's sittings for government sittings, Sproule objected, saying that it was a little early for the motion ,especially with many members electioneering in Quebec and Ontario. It was only fair the motion should stand over for a week.

The premier said that matters in which absentees were interested might be left over, but the extra sittings provided for the despatch of general business.

Borden and Foster objected to suspending the Wednesday evening rule, pointing out that several committees were not through with their labors, the latter pointing out that, with heavy government legislation, it would require at least three weeks.

Hon. W. S. Fielding compared parliament to a well organized factory which when crowded with orders, worked overtime.

Foster: "But this is not a well organized factory."

Fielding retorted it would be if the opposition recognized their responsibilities. Throughout the session there had been a full supply of government legislation ready, and it was not the fault of the government that there had been poor headway.

Mr. Roche thought it unfair to propose morning sessions at this stage, with the opposition forces divided on committees, still sitting. He thought it advisable that the government should drop some of the contentious measures and mentioned the Manitoba boundaries as probably contentious.

E. M. McDonald, Pictou, said the opposition argued for lots of work; and he therefore would not stop working. He deprecated the tendency of the Ontario members to run home, attending to their own business and delaying the house.

R. S. Lake moved an amendment that the motion should not apply to Wednesday next.

The premier expressed his willingness to withdraw that part of the motion dealing with Wednesday.

George Taylor, Leeds, resented the charge that the opposition were obstructing business, but added that they were willing to stay until Christmas rather than see Clauses 1 and 17 in the election bill become law. He had been among his constituents and they were willing to pay his board til then. Liberals had done the most talking.

Kennedy, New Westminster, however, had been counting the pages of Hansard and said that the opposition were still 82 columns ahead.

Finally Lake's amendment was agreed to and the house will sit mornings, but not Wednesday morning for the present at least.

Hon. G. E. Foster, again, on a question of privilege, challenged the statement of the minister of militia, averring that he (Foster) had neither bought lands for the Union Trust company nor paid for lands with moneys of the Union Trust company, nor received a dollar of commission. The minister's statement was absolutely untrue.

Sir Fred Borden: "Since the honorable gentleman says my statement is incorrect and that he did not do the things charged, I cheerfully withdraw the statements."

On motion to go into supply, colonel Hughes made a plea for duty on United States lumber, which now comes in free, whereas Canadian lumber pays 2 per M. on entry into the United States. The lumber industry employed 75,000 men and wages had fallen $35 to $50 per month with a prospect of a further fall. It was a dangerous situationd an he hoped the government would provide a remedy.

On a question of privilege, J. B. Kennedy, New Westminster, denied the statement made last Friday, that in the matter of Fraser, the defaulting subcollector of customs at Huntington, he was overruled by the machine in the matter of prosecuting and restitution; the whole matter was left entirely to the government.

In committee, the G. T. P. branch lines bill was taken up. John Crawford, Portage la Prairie, said the amdenment of Lennox and the sub-amendment by the minister of railways were unnecessary. They were not asked for by the company and should be dropped.

After some discussion, Hon. Wm. Pugsley said that as he understood it, the Lennox motion made it possible for the government to take over all paying branches at the end of 50 years. He thought this unfair and therefore moved a sub-amendment that if the government took over the main line it should also take over all branches.

Regarding the clause extending the construction of branches till 1913, R. S. Lake, Qu'Appelle, said there was considerable feeling in the west owing to the failure to commence the branches of the G. T. P. He urged the necessity of pressure on the company for early construction.

R. L. Borden pointed out that until the branches were constructed, important places, such as Regina and Prince Albert, would have no direct connection with the G. T. P.

The premier agreed as to the importance of these centres being tapped, and he therefore thought the company could be depended on to build the branches without delay. The bill was reported and read a third time.

A. A. McLean, P. E. I., complained of the manner in which the inland revenue inspected tobacco factories. A Charlottetown manufacturer had been fined only $200 instead of being prosecuted, and he, McLean, expressed the opinion that the lenient treatment accorded this manufacturer arose from the fact that he was president of the liberal association.

The house went into committee of supply at 10:30, taking up the customs estimates.

The house adjourned at 2:10 a. m, after passing $239,500 of the customs estimates.

It is the general opinion that the Aylesworth election bill will not be heard again until after the provincial elections in Ontario and Quebec next Monday.

REVELSTOKE WANTS IT

BASE OF SUPPLIES FOR G. T. P. CONSTRUCTION CAMPS

BOARD OF TRADE HAS TAKEN UP THE MATTER

REVELSTOKE, June 1.—A great deal of interest is being aroused in this city over the likelihood of the Big Ben and Canoe river route from Revelstoke to the scene of the Grand Trunk Pacific railroad construction and Tete Jaune Cache being chosen as the best route for the transportation of supplies for contractors. Already a number of contractors interested in connection of the interior sections of the G. T. P. have been visitors to Revelstoke and have men now in the north reporting on the feasibility of the Revelstoke route north for supplies for construction work . So far they are well pleased. Revelstoke is only 180 miles from the G. T. P. route, and 140 miles of this is of navigable water, leaving only about 40 miles of wagon road to be built.

The board of trade is interesting itself and the provincial government has promised assistance as soon as it will be needed to help in constructing roads, etc. A deputation consisting of G. S. McCarter and A. McRae will visit the wholesale merchants at Vancouver to solicit their support in making the scheme a provincial one.

The Columbia river, with the exception of three miles, is navigable to the mouth of Canoe river, which itself is navigable for about 40 miles. The S. S. Revelstoke makes semi-weekly trips from here for 45 miles up river to a good landing. There is no doubt that this will be the supply route for the whole of the interior construction of the G. T. P., owing to the nearness and accessibility of the route. A party of six men have been north of Revelstoke for a month inspecting the route and are expected to return any day with a favorable report.

MAURETANIA'S TIME

Broke Her Own Record Over Long Westward Ocean Course

NEW YORK, June 1—Breaking her own record by two hours and forty-one minutes over the long course from Queenstown to New York the Cunard line leviathan Mauretania came up to New York's gateway tonight and anchored, ending a most remarkable attempt to hang up a new trans-Atlantic record for the long westward voyage to this city from the Irish coast.

With only three of her four propellors in operation during the voyage the vessel covered 2889 miles between Daunt's Rock and the Sandy Hook light ship in 4 days 21 hours and 18 minutes, which is only 56 minutes behind the best record made over the course, made by her sister ship the Lusitania, which covered the distance in 4 days 20 hours and 22 minutes, with an average speed of 24.83 knots. The Mauretania's speed averaged for the trip 24.64 knots. The Mauretania's best previous time over the course was made on a voyage which ended on April 15. She then covered the entire distance in 5 days 13 hours and 59 minutes.

HEARST'S RECOUNT

Has Made a Gain of 89 So Far—Many More Ballots

NEW YORK, June 1.—The contents of 26 ballot boxes had been recounted today when the work of counting the ballots cast for W. R. Hearst and G. B. McClellan in the mayoralty election ended for the day. The net result was a gain of 89 votes for Mr. Hearst. In the presence of the court 10 boxes of the ballots were counted, giving Mr. Hearst a gain of four votes for the day. More than 1900 boxes remain to be counted.

KINGSTON CELEBRATES

Roosevelt Pressed the Button and the Fun Commenced

WASHINGTON, D. C., June 1.—President Roosevelt, at 11 o'clock today, pressed an electric button which gave the signal in Kingston, N. Y., to start the parade in celebration of the 250th anniversary of the founding of that town. An extended celebration of this event is in progress in Kingston, of which the parade that the president set in motion is a part.

FINLAY MINERS

Making $30 and $40 a Day on the Workings

DIFFICULTY AS TO WATER

PROVINCIAL LIBRARY. AGAINST VANCOUVER. ESTRICTING BRIDGE BUILDING—HOW AN IRATE HINDU SOUGHT HIS REVENGE.

VANCOUVER, June 1.—A. E. Johnson, the first man to arrive here from the Finlay river gold diggings, was a passenger from the north this morning. He states that the ground is very rich, much better than was supposed. On McConnell creek it runs from six to seven cents per pan or $40 to $50 per day per man at the sluicing. The flatness of the country renders it almost impossible for a poor man to secure an adequate water supply, and for that reason he thinks that large companies will get the best results. He considers that intelligent prospecting on neighboring creeks will be richly rewarded.

An important application was made before the supreme court today, it being an attempt to get an injunction restricting the city from going on with the construction of the bridges across False creek, the cost of which will be about three quarters of a million. The property owners affected are contesting the point. Judgment was reserved.

An employee of the Columbia River Lumber Company at Golden, B. C. who arrived in the city today states that last week some Hindu workmen becoming angry at being reprimanded seized the foreman and were about to place him where he would be cut in two by a circular saw. Another white man used a piece of board with such good effect that the foreman was rescued.

WHAT'S DOING IN CANADA

THE DOMINION FROM THE ATLANTIC TO THE PACIFIC

ITEMS OF INTEREST FROM YESTERDAY'S WIRES

WINNIPEG, June 1—George F. Galt of the wholesale grocery firm of G. C. & J. Galt of this city, has been appointed by the Ottawa government on the board of conciliation to settle the dispute between the C.P.R. and their shop mechanics.

J. T. Black, a widower, with a family, committed suicide this morning by taking carbolic acid. He was despondent and out of work.

OTTAWA, June 1—The public works department will have to pay between $1o0,000 and $200,000 for dredging contracts in Ontario and Quebec this year.

The railway commission has decided that the C.P.R. and G.T.R. cannot be compelled to issue through tickets along their lines to points reached by the Canadian Northern and the Ontario railway in the Muskoka district. In case the points reached only by the C.N.R. and O.R., however, the board directs that through rate tickets shall be sold by the other companies.

TORONTO, June 1—During the past month the customs receipts of this port decreased by $344,931 as compared with the same month a year ago, the figures being $626,960 for 1908 and $971,891 for 1907.

After a journey of over 6000 miles Aaron Garvey of Vancouver, appeared in the police court this morning charged with obtaining two suits of clothes valued at $87 from C. A. Deaks, tailor, King street. Garvey was not defended by counsel and reserved election and plea and was remanded until tomorrow.

Rain fell in torrents yesterday and the fall amounted to an inch and a quarter, one-third of the average rainfall for the whole month of May.

PORTAGE LA PRAIRIE, June 1—Mrs Mary J. McCarthy of Rivers, Sask., died suddenly here today.

PETERBORO, June 1—Word has been received here of the terrible experiences of Samuel Long, a Peterboro man, who has been employed as a cook in a lumber camp in Algoma. Leaving the camp on a fishing trip he lost his way and for 16 days wandered about in the woods without food. At the end of the tenth day his boots gave out and he tore pieces from his trousers and shirt and wrapped them about his feet. At the end of the 16th day, on May 25th, he came upon a lumber camp and was looked after. Long has a wife and family residing here.

KENORA, June 1—The little son of R. Cuthbert was drowned at Keewatin yesterday afternoon. With a companion he was out on one of the islands putting in drift wood. The lad had gone in bathing and got beyond his depth.

REGINA, June 1—The new liquor legislation to be brought down by the government will be introduced in the house on Wednesday according to the statement of the attorney general.

CALGARY, June 1—Yesterday afternoon Lawrence Chouquette and his wife and Pierre Germonan were horribly burned by a gas explosion. The explosion took place in their workshop on 17th street. The building was totally wrecked. Mrs. Choquette will likely die.

HAMILTON, June 1—Farmers from the Niagara peninsula predict that the fruit crop this year will be the greatest in history and claim that there is no variety of fruit that will be an exception. Cereals and hay are also exceptionally heavy in this district.

OWEN SOUND, June 1—Mail clerk R. E. Curran, who was injured in a collision near here on Friday night, caused by a runaway engine, died in the hospital hee yesterday. This makes the second victim, engineer Boskell dying of injuries on Saturday.

CHATHAM, June 1—Wm. Scott, colored, aged six years, son of A. V. Scott, Chatham township, was killed by lightning on Saturday while upstairs in his bedroom alone. The mother and two other children in a room across the hall, were unhurt. All the windows of the house were broken.

GORRIE, Ont., June 1—Major John Kaine of Riverview farm, died suddenly this morning after a few hours illness from pneumonia. He was 81 years old and was up to a few years ago prominent in municipal and military circles.

Nelson's Share

The city that sent a contribution to suffering San Francisco will add its mite to the Champlain tercentenary fund. The school trustees and the officers and men of the 102nd regiment have arranged for an entertainment in the armory on the evening of Jun 22 in aid of the Quebec Battlefields' association. Full details of the program will be announced later.

MURDER IN PARIS

Noted Painter and His Wife's Mother Are Strangled

APRIS, June 1—The Paris police seem far from a solution of the mysterious murder of the noted painter Adolphe Steinheil and his wife's mother Madame Japy, which occurred in the artist's residence in the Rue de Bauird in the early hours of Sunday. The examining magistrate before whom the preliminary proceedings in the case have been brought, spent all the afternoon in the house on a mission of investigation. He found finger prints on a small crystal clock which was handed over to experts for examination. It is thought that this may prove to be a valuable clue in running down the assassin. The police gave out a statement at a late hour tonight to the effect that the day's investigations establishes that the original intention of the persons who entered the house was burglary, the lowest type of criminals who expected to find the family absent and the house in charge of only the servant. Neighbors of the Steinheils declared that they had discovered three men, two well dressed and the other roughly, prowling around the house for the past month. An invitation to M. Steinheil's exhibition of paintings was found in the subway station at Pere la Chaise on Sunday morning and it has furnished a clue to the police.

During the course of the day Madame Steinheil retracted her statement in which she said she believed that she recognized the woman assailant as her husband's model, saying that in her first agitation she thought she had, but was now convinced that she was mistaken. Madame Steinheil gave the police a minute description of the woman, who she said had red hair and of a bearded man, which chief of detectives Hamard thinks will result in the apprehension of the murderers. The police are convinced that the assassins thought the Steinheil family had gone to visit the country and that only a servant was present. The police examination of the scene of the crime indicated that the murderers first attacked Madame Japy, thereby awakening M. Steinheil, who rushing to his mother-in-law's assistance, was struck down and strangled with a cord.

FOR THE NORTH

Cut Rate Fight Now on—Many Passengers on Steamers

VICTORIA, June 1 — The Norwegian steamer Transit left tonight for Nome with 500 passengers, many of them employees of the N. A. T. & T. company, most of them brought from Seattle by the Princess Victoria, which landed at 4:35 this afternoon. The Transit which is under charter to the Mackenzie Steamship company, is going to Nome under arrangement with Schuback & Hamilton, carrying passengers at a cut rate in a fight inaugurated by Schubach & Hamilton against the Alaska Steamship company.

The steamer Amur which sailed tonight inaugurated a direct service to Queen Charlotte and the island ports, going direct to Skidegate from Vancouver. Previously the island ports were touched only after the calls at various northern settlements.

LOCOMOTIVE ENGINEERS

Officials Chosen by Brotherhood Convention at Columbus

COLUMBUS, June 1—Corrigan of Hills boro, Texas, was today chosen as assistant grand chief of the Brotherhood of Locomotive Engineers to fill the last of the two positions of that title which the convention created. The office carries with it a salary of $3500 a year with travelling expenses. William Ryan withdrew his name. Harry Murray of San Luis Uotosi, Mexico, will be elected first grand assistant engineer to succeed R. W. Botterell of Ottawa.

LEAD BOUNTY

Notice of Motion Before the House

MEASURE IS EXTENDED

BOUNTY WILL NOT BE LIMITED AS HERETOFORE TO HALF A MILLION A YEAR AND WILL BE PAYABLE IN A LARGER PROPORTION THAN BEFORE.

(Special to The Daily News.)

OTTAWA, June 1—Hon. W. S. Fielding, minister of finance, has given notice of a resolution extending the period under which the bounties on lead can be paid for five years from June 30.

Under the present act which came into force on June 30, 1903, the bounties are regulated by the standard price of pig lead in London. When the price reached £12 10s. per ton of 2240 pounds, the bounties commenced to shrink and were wiped out when lead reached £16. Owing to the continued high price of lead out of $2,500,000 available for bounties during the five years less than $700,000 has been paid.

The new act will provide that the bounties will not commence to decrease until the price of lead has reached £14 10s. and that payments shall not be limited to half a million a year, providing that the sum paid during the five years, from June 30, 1908 to June 30, 1913 does not exceed $2,500,000.

TRAMWAY'S RESUMPTION

STANDING COMMITTEE'S REPORT IS ADOPTED

MEETING OF THE CITY COUNCIL LAST NIGHT

At the meeting of the city council last night was discussed merely routine business with the exception of the adoption of the recommendations of the tramway committee with a view to as early an opening of the tram line as might be found possible.

There were present D. C. McMorris in the chair as acting mayor, aldermen Procter, Kerr, Hale and Stead.

After the reading of the minutes of the previous meeting and their adoption the payments on civic account recommended by the finance committee were passed.

The tramway committee reported that they had authorized the city solicitor to wire the tramway company to send out a representative at once; to write the company that the city is willing to give them free power for a certain length of time, that is to be agreed upon later; that the tramway receipts have increased every year up to the time of the shutdown; that the population is increasing steadily in Nelson and the real estate men have sold more lots in Fairview this spring than in the last three years; that there is a reduction works about completed at the east end of the car track and it is almost assured that there will be a large sawmill erected there next summer. This report was adopted unanimously.

W. W. Beer made application for a sidewalk on the north side of Silica street, east of Hendryx street.

H. A. Stewart and C. Maglio applied for a sewer on Observatory street, asking for an exception from taxation if ing for exemption from taxation if they were to do the work.

Acting mayor McMorris said this could not be done as it would necessitate the submission of a special bylaw to the citizens. He proposed that the city should supply and lay the pipe if the applicants would excavate and do the filling in after its laying.

There was some demur but the proposal was finally agreed upon.

Chief Deasy submitted his monthly report on the work of his department. He recommended the purchase of a dozen fire alarm boxes. There were only ten boxes now on the system.

Acting mayor McMorris said the Hume hotel would purchase two and perhaps some of the other hotels would also require some.

Ald. Procter moved and Ald. Kerr seconded that the boxes be purchased. Carried.

The fire chief recommended that the firm alarm box near the new fire station on Observatory street be removed to the corner of Observatory and Josephine streets. This was also agreed upon.

There was some discussion as to when the band should play, and the matter was left in the hands of the works committee.

Ald. Kerr obtained leave of absence for two months, to go to Toronto. He is leaving on Tuesday evening. Leave was granted.

R. A. Brown, city electrician, reported that the test was half finished in the power plant and that a report would be prepared for the next meeting of the council.

The question of the cemetery road then came up as to its straightening and there erection of a pole line thereupon for a telephone line. It was thought best to have a survey made of the road in order that a proper location might be made. The provincial government might be asked to open it up.

R. A. Brown asked permission to keep the power shut off for four hours on Wednesday morning in order to make an efficiency test. He was informed that if he thought it necessary he could take the responsibility of doing so.

The council then adjourned until Monday evening next.

ONTARIO AND QUEBEC

SEVEN CONSERVATIVES ELECTED BY ACCLAMATION

ALL BUT TWO QUEBEC RIDINGS CONTESTED

TORONTO, June 1—Today is nomination day throughout Ontario and as far as heard from seven conservatives are elected by acclamation while in six or seven constituencies liberals dropped out leaving the fight between conservatives and independents.

MONTREAL, June 1—Nominations for the province of Quebec took place today and as far as heard from, contests are likely in 72 out of 74 ridings. Only two of the old members, Walker of Huntington and Mackenzie ,of Richmond were elected by acclamation.

KENORA, June 1—H. E. Machin, conservative, and A. E. Annis, liberal, were nominated today for the constituency of Kenora in the Ontario legislature.

FORT WILLIAM, June 1—Nominations for the new constituency of Fort William were held today, Dr. T. S. Smellie, conservative, and Dr. W. H. Hamilton ,liberal were nominated.

PORT ARTHUR, June 1—Mayor Carrick, conservative, George Mooring, independent and Leo T. English, socialist, were nominated today to contest Port Arthur for the Ontario legislature.

MONTREAL, June 1—Dr. Pelletier, Sherbrooke, was elected by acclamation. Henri Bourassa, former member of parliament for Labelle, is opposing the premier in St. James division, Montreal and is also running as a nationalist candidate in St. Hyacinthe in opposition to Jos. Morin, the old member.

TORONTO, June 1—Nominations for the provincial elections took place in Ontario today and resulted in the return of six conservatives by acclamation, one of them being Col. Matheson, being a member of the government. The others were Mr. Mahaffay of Muskoka, Paul of Addington, Prest of East Durham and Carnegie of East Victoria. In three other ridings the fight is confined to straight conservative candidates, these being Grenville, Prince Edward annd North Hastings. In several other ridings there are no straight liberal candidates. in West Middlesex alone, the government is without a candidate and the fight there is between a liberal and a labor man. The election takes place next Monday.

MONTREAL, June 1 — Nominations took place today throughout the province of Quebec and resulted in the election of five government candidates by acclamation and contests in the remaining 69 constituencies, either between straight liberals and conservatives or between liberals and the nationalist party led by Henri Bourassa. The ridings in which elections were held by acclamation are Huntingdon, Sherbrooke, Richmond, St. Sauveur and Gaspe. At the last general election in 1904 the conservatives allowed the government to carry 50 seats by default as against five this year. The conservatives in 1904 elected six out of 24 candidates placed in the field and they claim that at the worst they will do as well proportionately next Monday as they did in 1904. The claim is made, of course that they will defeat the Gouin government, but non-partizan observers consider the government safe but that the parties will be more evenly divided. Much interest centers in the St. James division of Montreal, where Henri Bourassa is running against premier Gouin. Both the premier and Mr. Bourassa are candidates in other constituencies, premier Gouin in Portneuf and Mr. Bourassa in St. Hyacinthe.

IS ALIVE

Defence Declares Mrs. Guiness Is Not Dead—Letters Received

CHICAGO, June 1.—A despatch to the Record-Herald from Laporte, Ind., says: Herman W. Worden, of counsel for Ray Lamphere, held on the charge of murdering Mrs. Guiness and her three children by setting fire to their home, in a statement yesterday, indicated that the defence would make a determined effort to prove Mrs. Guiness alive. "We have every reason to believe that she is alive," said Mr. Worden. "I expect letters tomorrow which will indicate the readiness of the men who received a letter from Mrs. Guiness as late as May 4 to come to Laporte to prove the fact."

TRAIL WON

Defeated Nelson at Baseball by Score of 13 to 7

(Special to The Daily News.)

TRAIL, June 1—At a baseball game here yesterday Trail had rather an easy time of it disposing of Nelson, winning by a score of 13-7 in rather a loosely played game. Nelson's team displayed a lack of practice and coostly errors at critical moments cost them the game. Trail out-batted the boys from the lake city and had nine hits to their credit. On the other hand Nelson appeared to have difficulty in finding Fries and only had three hits to their credit. J. R. McDougall umpired the game to the satisfaction of both teams.

For Higher Pay

ST. George, N.B., June 1—The granite works here were closed today, the men going on stike for higher pay and an 8-hour day.

IS OPTIMISTIC

Shaughnessy on the Finances of Canada

STRONG BRITISH MARKET

LIKELIHOOD OF DEVELOPMENT OF ALL-RED ROUTE IN CONJUNCTION WITH C. P. R.—FASTER BOATS UPON THE ATLANTIC OCEAN.

MONTREAL, June 1 — Sir Thomas Shaughnessy, president of the C.P.R., has returned home after a trip of six weeks in Great Britain, undertaken partly for business and partly for pleasure. Sir Thomas is much improved in health and in a most optimistic form of mind with regard to Canada and everything Canadian. He was much impressed with the strong position held by good Canadian securities in Great Briatin despite the cycle of depression that has affected the dominion during the past few months.

Asked about the position of Canadian interests in British financial circles, sir Thomas expressed the conviction that ample sums would be forthcoming for everything in the way of sound, legitimate enterprise and added that as the British investor wanted to feel that he was reasonably sure to get a return, even if but a moderate one on his investment, he hesitated about providing new capital for railway works that are being pushed on with undue rapidity. There must be a stoppage of capital for such expenditure until portions of the work already completed were yielding revenue sufficient to warrant expenditures on further extensions. The British investor has no use for the promoter and speculator who has everything to gain if his schemes materialized and nothing to lose if they proved failures. Notwithstanding the falling off in railway earnings, the stock of the C.P.R. had during the past six weeks advanced in price, a clear indication, said sir Thomas, that the people with money in Great Britain have the same implicit faith in Canada's future as those of the United States who thoroughly understand the situation.

Sir Thomas expressed himself as very much gratified by the excellent crop conditions in almost every section of the country and said he looked forward to a bountiful harvest and a return to a rational business activity.

Regarding the All Red scheme sir Thomas said there was no doubt that the imperial government is willing to co-operate with Canada and the Australian commonwealth in securing a more rapid route between Great Britain and the British possessions in the east by way of Canada than at present exists and apparently information is being accumulated with a view to determine a sound and rational policy with reference to this matter. He had the honor of appearing before a committee of the imperial cabinet to give his views and generally he took the ground that it would be a mistake at this juncture to undertake a faster service on the Atlantic than 21 knots and on the Pacific than 18 knots. The enormous cost of 24 and 25 knot boats seem to put them out of the question as a business proposition, while an 18-knot boat on the Pacific would furnish everything that could be desired until the traffic is built up to such a point as would warrant faster boats. The Black Sod scheme was mentioned, but to his mind there were insuperable objections to its adoption.

Concerning the All Red route, the Witness says editorially:

For some time past the executive of the C.P.R. has had in hand the project of equipping both its Atlantic and its Pacific fleets with larger and faster vessels than any which have ever run to Canadian ports. The development which has been talked of is to place the Empresses on the Pacific and to build two or even four vessels equal to anything running into New York for the Atlantic business.

Decision in the matter, however, has been delayed because of uncertainty as to what action the British government was prepared to take in the matter of a subsidy and also in regard to the Black Sod Bay project.

Sir Thomas has always maintained the great difficulty of making a fast all-red route successful is the question as to whether it is commercially practicable. He is said to have declared to the British government in the most emphatic terms that the C.P.R. would make such a project commercially successful, pointing out that the C.P.R. with its 13,000 miles of railway is a unique traffic producer and could bring to such a line of fast steamships traffic that could be gained by no other means. He has, moreover, made a strong point of the fact that the C.P.R. already has an all-red route in operation and therefore as the pioneer of this difficult enterprise, is entitled to first consideration. He also made the announcement that whatever the British government considered was necessary in the matter of equipment either on land or sea, the C.P.R. was prepared to provide, subject, of course, to a satisfactory agreement as to subsidy.

It is probable that no decision will be come to in the matter for some time, but the prospects are considered excellent for the fast all-red scheme being developed in conjunction with the C.P.R.

Cotton Congress

PARIS, June 1.—The first international congress of cotton spinners and manufacturers opened in this city today.

THE POLITICAL CONSCIENCE

In connection with the provincial elections in Ontario, the nominations for which were made yesterday, the Montreal Star pokes fun at what it terms "the famous Ontario conscience."

Stirred to life by the action of the New Brunswick people at their late elections when they met together and agreed to obey the law, no matter if such unwonted strictness did "hurt the party," the "Ontario conscience" is begining to feel in spots that it can do no less, says the Star. There are some consciences which would not need a special effort to reach the high resolve to keep the law of the land; but the political conscience—whether it be Ontario or otherwise—is not of this kind. The political conscience usually proposes to itself to break the law if it can do so in safety. It is a tough proposition, is the political conscience. So up in Ontario, the grits are proposing to the tories, and the tories are proposing to the grits in a certain few constituencies that they get out of the class of law breakers for a few brief weeks. They propose nothing so drastic as that they shall keep the law all the time; but they suggest a sort of truce to anarchy which they will bind themselves to observe, and then appoint a committee to watch them and see that they do observe it. That is, they will give their word of honor that they will not steal votes; and then they will put up deposits and name joint committees and possibly employ detectives to make sure that they do not break their word of honor and steal all the same. Politics is a pretty business, is it not?

The country will be the better for a few successful experiments of this sort. If we can "point with pride" to some honest elections thus obtained, with proofs that they were really honest or that the vigilance committee detected and punished *dishonesty*, we will have made a start. The New Brunswicker plan of setting aside a fund to employ detectives was a good one, and might well be copied. It looks like business, and is more likely to have a deterring effect upon election "sharps" than any number of strongly worded resolutions or indignant committeemen who do not know where to look for the concealed "African." In any case, we wish the "Ontario conscience" success. It has a reputation to maintain, and an example to set.

EDITORIAL NOTES

Referring to the recent visit of premier McBride and some of his colleagues, the Cranbrook Herald, liberal, says: "The Herald is pleased to see a meeting of this character in honor of the visiting ministers of the province. Messrs. McBride, Young and Bowser have displayed good judgment in making this tour of the upper country for the purpose of ascertaining the needs of the various districts regardless of political conditions, and the conservative party of Nelson is also displaying more excellent judgment in making the public reception and public meeting absolutely a non-partisan affair. There should be more of this kind of work on the part of public ministers and the people, as it would result in increasing benefits for the province. Premier McBride evidently appreciates the fact that in his whole official position he represents the whole people of the province, and is governing himself accordingly on this tour."

Sir Wilfrid Laurier is a master of fence, and every now then he rebukes an opponent in the house in his own masterly way. In a vigorous defense of the minister of militia the other night in the commons he turned on the honorable George E. Foster and declared that he was too prejudiced to properly construe a letter written by the honorable Sydney Fisher, and he added that he did not know any one with so loose a tongue and so thin a skin as the honorable member for north Toronto.

"I think, if I had my life to live over again, I should again like to spend the days of my youth in the big and democratic dominion. The whole history and social structure of Canada tends to encourage and never to discourage or depress a boy or a girl."—Hamar Greenwood, M. P. for York in the British commons, barrister at law and Canadian born.

The Vancouver World says that the obstructive tactics now being pursued at Ottawa by the opposition were at first observed with some amusement by the country at large, and adds: "The matter, however, has now gone beyond a joke." The trouble with the World and some other liberal papers is that the matter of trifling with the preparation of election lists is considered a joke. When liberal newspapers thoroughly understand that under any and all circumstances the lists should be sacred from party warfare and should be wholly non-partisan, they will perhaps understand that the opposition is fighting for something more than a joke. The very fact that the premier has offered to materially amend the act and change it from the objectionable form in which it was introduced, would strike most people as being significant. It is quite possible to sympathize with the situation in which the premier now finds himself, and at the same time to insist that the act should never have been introduced in the shape that it was. Whatever may be the outcome of the struggle the preservation of the voters' lists from partisan control is well worthy of a supreme effort by the opposition even if the business of the house suffers in consequence.

It would rather appear as if Clifford Sifton is the main difficulty in settling the trouble over the Aylesworth election bill. It is asserted in eastern papers that Mr. Sifton absolutely refuses to consent to terms being inserted in the objectionable measure that the premier would like to see ther. Whether this be the case or not, up to the present time practically no progress has been made in the house towards a settlement and each time the question comes up further time is asked by the government for more consideration and there the matter stands.

WEATHER CONDITIONS

Meteorological Observations Recorded During Past Month of May

In some degrees the month of May was an abnormal one as far as the rain was concerned, it being 50 per cent more than usual, but, on the other hand the average temperature was much the same as usual although there were not the same ranges of heat and cold. May, 1908 was not nearly so hot nor nearly as cold as were most of its predecessors. Cloudy days and gloomy weather took the place of the bright sunshine, intermingled with sharp showers, which are the normal conditions.

According to the observations taken at the local substation of the government meteorological bureau the mean day, or maximum, temperature for the month was 63.55 degrees, or 3.5 degrees lower than the average. The mean night temperature was 42.84 degrees, or 2.09 degrees warmer than the average. The mean temperature for the 24 hours was 53.19 degrees which is only .75 of a degree less than the average of the preceding four years.

The warmest day was May 23, when the temperature went up to 76 degrees while the record temperature for May is 84 degrees, recorded in 1905. The coldest day was May 18 when the thermometer did not rise above 56 degrees. The coldest night experienced was on May 19, when the thermometer went down to 34 degrees. Now, the coldest on record for May is 29 degrees, recorded in 1904. Thus the extreme range between the greatest heat and the greatest cold during the past month was therefore 42 degrees. The mean range for the month was 20.70 degrees, 5.6 degrees less than average. The greatest range on any one day was observed on May 6, between 75 and 39 degrees, or 36 degrees, while the least range was observed on May 7, between 58 and 51 degrees, or 7 degrees only.

There were 81 hours of actual rainfall which is only one and a half hours more than usual. On the other hand the precipitation totalled 3.41 inches or 1.14 more than the average. The days of rain amounted to 13, one more than the average, while the days of sunshine were 19, seven less than the average. It was the infrequency of the sunshine, rather than the abnormal quantity of rain which made the month remarkable.

VADERLAND ALL RIGHT

Rumor of Serious Accident Prove Untrue—Only Slight Mishap

DOVER, June 1—The agent of the Red Star line here, states that he has received a despatch from Antwerp that the steamship Vaderland is anchored in the river Scheldt, repairing a defect in her machinery. Considerable anxiety was felt here on account of rumors that the Vaderland had gone ashore or been in collision on account of the fog that has prevailed in the English channel for the past 36 hours. Evidently the steamship met with some mishap after her departure from Antwerp as she sailed on Saturday and was due here on Sunday. The nature of the mishap at present is unknown.

ANTWERP, June 1—The accident to the Red Star line steamer Vaderland was very slight, consisting of a simple disarrangement of her machinery. The steamer returned to Flushing after repairs had been completed and left this port at 1:15 o'clock this morning for Dover and New York.

MUNICIPAL BILLS

House at Regina Goes Into Question of Tax Exemptions

REGINA, June 1—The committee on municipal bills occupied the whole of the afternoon session of the house and dealt with the towns bill. Properties to be exempt under the town act, were discussed and in addition the usual exemptions it was decided to add property and buildings. The Young Men's Christian association exemption and the exemption of grounds of agricultural societies from school taxes were raised and it was decided that these should be exempt.

BROOKLYN HANDICAP

J. R. Keene's Colt Won Classic Event With Ease Yesterday

NEW YORK, June 1—Cheered by more than 25,000 people, Celt the three year old colt bearing the popular colors of James R. Keene won the 22nd running of the Brooklyn handicap one of the classic events of the American turf on the Gravesend race track today. He did it easily and at the same time made a new record for the race at Gravesend track stepping the distance one mile and a quarter in 2:04 1-5. Fair Play August Belmont's gallant three year old which ran a fine race against Colin on Saturday in the Belmont stakes was second and Master Robert ws third. The course was thronged with people anxious to see the running of the handicap which with the Suburban and the Futurity is regarded as one of the greatest contests of the year for thoroughbreds. The weather was clear and pleasant and the track was fast.

POPULARITY CONTEST

STANDING OF THE CANDIDATES LAST EVENING

MISS GILCHRIST POLLED A HEAVY VOTE YESTERDAY

The Daily News popularity contest is exciting as much interest as ever in the city and some good work was done on behalf of both candidates yesterday. Miss Gilchrist's friends working especially hard and thereby succeeded in reducing the lead obtained by Miss McGregor on Saturday night last by 3400 votes. In the Boundary country, Miss Bessie Coutts, who is the sister-in-law of John Marshall, of the Brooklyn house, Phoenix, was credited with two votes, but just as soon as a new candidate enters the field, the voting will become more lively in that district.

Yesterday's vote stands as follows:

Nelson District
Miss Gilchrist 4670
Miss McGregor 1253
Boundary District
Miss Bessie Coutts 2
The total vote to date is:
Nelson District
Miss McGregor 43,223
Miss Gilchrist 35,897
Boundary District
Miss Bessie Coutts 2

Born in Iowa.

Our family were all born and raised in Iowa, and have used Chamberlain's Colic, Cholera, and Diarrhoea Remedy (made at Des Moines) for years. We know how good it is from long experience in the use of it. In fact, when in El Paso, Texas, the writer's life was saved by the prompt use of this remedy. We are now engaged in the mercantile business at Narcoossee, Fla., and have introduced the remedy here. It has proven very successful and is constantly growing in favor.— Ennis Bros. This remedy is for sale by all druggists and dealers.

NO MORE RHEUMATISM

"FRUIT-A-TIVES" CURED HIM

Christopher D. Graham is a well known citizen of Ottawa—formerly in the City Hall and largely instrumental in forming the Ottawa Hunt Club. Mr. Graham's voluntary testimonial as to the great benefit he received from taking "Fruit-a-tives" will carry conviction.

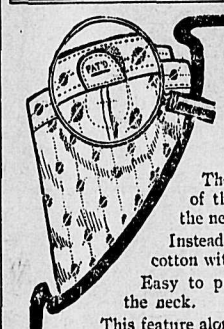
Ottawa, Ont. Nov. 26th, 1907.

Dear Sirs:—

I have been a sufferer from Rheumatism for a long time — pains in my shoulder and joints practically all the time. I tried various treatments without benefit and then I was recommended by a friend to try "Fruit-a-tives." I took several boxes of the tablets and now, for a long time, I have been entirely free from all rheumatism and rheumatic pains.

I wish to state, also, that I suffered from haemorrhoids, or piles, for years, I used all kinds of ointments and treatment and nothing did me any good, but after taking "Fruit-a-tives" for my rheumatism I am entirely cured of these dreadful piles. (Sgd) C. D. GRAHAM.
149

"Fruit-a-tives" — or "Fruit Liver Tablets" are sold by dealers at 50c a box —6 for $2.50—or will be sent on receipt of price. Fruit-a-tives Limited, Ottawa.



Tooke SHIRTS

The button hole for the stud, in the back of the neck in our shirts, is not placed in the neck-band as it is in all other shirts.
Instead, there's a small flexible tab of stout cotton with a button-hole in it, as illustrated.
Easy to put in the stud, and it cannot chafe the neck.
This feature alone should make every man give Tooke Shirts a trial—after that the shirt will do its own talking.
Tooke Shirts are the only shirts that have this tab feature.

CALGARY'S RAPID RISE

FROM JUST "COW TOWN" TO BUSY METROPOLIS

SOUTHERN CAPITAL OF ALBERTA TWENTY-SIX YEARS OLD

(Special to The Daily News.)

CALGARY, June 1—The rapid rise of the western towns of Canada and America is a matter of surprised comment to the people of the old world, but, from a collection of tents, the living quarters of a few cowboys, to a thriving metoropolis of 24,000 people has caused even America that country of the "quickest and biggest things on earth," to stop and wonder. Such is the record of Calgary, the southern capital of Alberta, in a comparatively short period of 26 years. The growth of the little city which nestles in the foothills of the Rockies has been exotic and unaffected by booms, but showing a yearly steady increase in population, business enterprise and its consequent general prosperity. Ten years ago Canadians would have laughed at the idea of the Dominion Fair being held in Calgary but so steady and rapid has been its growth that the dominion government was forced to recognize its claim for the annual event, showing the best which can be produced in the dominion from the Atlantic to the Pacific. So Calgary will be en fete this year from June 29 to July 9.

There is not a man in Calgary today who is not ready at any moment to discuss the merits of his city. The business man will lay down his pen and will tell you that already this year buildings costing some million and a half dollars are in course of erection and everyone anticipates that the amount of buildings for the year will amount to six or seven million dollars.

During 1907 some 70 million dollars passed through Calgary's clearing house, attended to by 13 branches of chartered banks.

One hundred and fifty commercial travellers make Calgary their headquarters and travel east and west and south and north disposing of the goods manufactured by the firms they represent. Calgary is also one of the principal western stations of the C.P.R. and the company employs more than 1000 of its citizens whose annual payroll is close to two million dollars.

Besides these facts which go to prove that its prosperity is not fleeting, its natural advantages must be taken into consideration. At an elevation of 3889 feet, Calgary has an ideal climate, good water and sanitation and splendid transportation facilities, in fact, to make an all round statement, she is well supplied with all the elements which make for the comfort, health and religious and educational welfare of her citizens. There are churches of all denominations, some of which would fitly make a matter of pride to a city ten times as large. There are also ten public schools, equipped with all the modern applicances for training the young and with an energetic and painstaking staff of teachers.

As a commercial center Calgary is well to the front. Her business community contains wholesale houses whose range of trade extends to Vancouver on the west and Winnipeg on the east, dealing in, amongst other articles the following: Groceries, dry goods, men's furnishings, boots and shoes, fruit, and produce bread, biscuits, candy and confectionery, furniture, agricultural implements, harness and saddlery, paints and oils, glass, wagons, hardware, lumber, building materials, rubber goods, stoves, cigars and tobaccos, liquors, meats, brick, flour, etc.

Calgary is also the home of the famous Alberta Red Wheat, a cereal which in a few short years has made for itself a marked place in the world's markets. The cultivation of this wheat is especially alluring to the practical farmer who is in possession of some capital and who seeks a warmer and more equitable climate than that of Manitoba and eastern Saskatchewan. But granted that the capital is forthcoming the farmer finds that he is engaged in the production of a high class and high priced article, which commands an ever increasing market. The industry is still young as will *be seen by comparing the figures of the* years 1902 and 1907 and noting how it increased by leaps and bounds. For in 1902 only 2444 acres were sown with the red kernel. In 1903 this area produced no less than 82,429 bushels, an average of 23.86 per acre. In 1904 the area under cultivation had more than doubled and in the succeeding year the total product of Alberta Red was 150,000 bushels. In 1907 the yield was far over the million bushel mark.

The growth of Alberta Red demands methods of cultivation to which the average British farmer is a stranger but the man who studies the business may confidently rely on an average of from 35 to 50 bushels per acre. Sown nearly a 12-month before, by the coming of the first snow the wheat has reached a height of from six to eight inches. It weathers the mild southern Alberta winter, and, of course, by the coming of the spring, is quite two months ahead of the *general crop. Besides the initial ad*vantage of having no fear of frost the crop does not shell and drop to the ground, a total loss when over ripe.

Farm labor is plentiful and although a number of the farm hands are foreigners they are honest and steady workers and evince a desire to become British subjects. Most of them believe that a desirable step to this end may be taken by changing their unpronouncable names to English patronymics. This, in itself, is a good move, but it must be taken with deliberation and judgment. In one case the 13 heads of families in a Ruthenian settlement hitched up their buckboards and drove into the town to the registrar of titles to consult him as to the best methods of changing their surnames. The official informed them that, under the Canadian laws, a man is at perfect liberty to change his name without let or hindrance or fee, whereat the Ruthenian gentlemen visibly rejoiced. The registrar enquired whether his visitors had selected their names; they had. What were they? "Robinson." "What! Not all of you?" "Yaas, boss; Robinson good name. He our homestead agent. We all be Robinsons." How the registrar fixed it is another story but it is certain that in the settlement today there is a Laurier, a Fielding, a Borden and, in fact, nearly every federal minister has a namesake.

Calgary is only an example of the general prosperity of the last west, for dozens of little towns are springing up each year from the prairies, prospering and in an incredibly short space of time become modern cities in every sense of the word. A party of settlers go off into the unknown. They are followed by a branch line from one of the transcontinental railway systems and Canada hears of another new town with a population of some hundred people. Daily the expansion is going on and the railroads are tapping the wilds, opening up new territory and rushing in settlers and their effects, forming new farming regions virtually on the fringe of the Arctic, and Calgary is the western distributing center of these new settlements.

KILTIES BAND

Calgary Will Give the Scotchmen a Great Reception

(Special to The Daily News.)

CALGARY, June 1—The Masonic and other orders here have combined in having the Kilties band play three concerts in Calgary. The 100,000 club and the board of trade are presenting a banner with the city coat of arms. Arrangements are being made for a public holiday and the closing of the schools on the occasion of the visit.

Festival of Roses

PORTLAND, June 1—"Roses fragrant, roses rare, roses, roses, everywhere." Truth and poetry meet in this jingle of a local bard, for Portland has today fully justified its claim as the "rose city." Thousands upon thousands of the beautiful blossoms have been used in the decorative effects for this week's great floral carnival, which opened today and will undoubtedly attract large crowds of visitors from every part of the northwest Numerous magnificent floats have been constructed for the great pageant which will be the feature of the jubilee.

INVADE CHICAGO

Annual Convention of American Medical Association

CHICAGO, June 1—Thousands of physicians, including some of the most distinguished exponents of the healing arts in the world, are gathering in Chicago today to attend the 59th annual convention of the American medical association. Problems of medicine and surgery will be discussed by foremost authorities. It is believed that no less than 10,000 physicians will take part in the sessions during the week.

The work mapped out for the convention has been divided into 12 sections, comprising the entire range of medical *knowledge and the sections have* been assigned headquarters in various parts of the city where departmental meetings will be held. Daily sessions of the entire body will also be held at which addresses will be delivered by eminent medical authorities. Among those who are to deliver addresses are Charles E. Deever, London; Prof. Brauer and Ernest Ferdinand Saucerbruch of Marburg, Prof. A. Schefer of the university of Edinburgh and Johanner Pfannenstiel, professor of obstetrics at Kiel.

Of equal magnitude are the plans for the social entertainment of the guests. There will be a smoker at the Coliseum at which 12,000 doctors are expected to be present, there will be reunions of medical college alumni and alumnae and there will be innumerable receptions, teas, theatre parties and a lot of organized automobiling about the city.

From a scientific viewpoint the gathering will be an event of world wide importance. Many physicians will remain for a fortnight after its close in order to attend the clinics and other demonstrations to be given in the Chicago medical schools and hospitals.

The general headquarters are at the 1st regimental armory, where there is an extensive commercial exhibit of drug preparations, books, instruments, office furniture, hospital paraphernalia, ambulances, automobiles and other accessories to the profession .

FREE

A 10 Days' Vacation Trip

For Three Popular Young Ladies

TO THE

Dominion Fair at Calgary

June 29 to July 9

The Daily News will supply return railway tickets, berths on train and boat, $3.00 per day expense money, and free admission to the Dominion Fair Grounds at Calgary, June 29 to July 9, to the most popular young lady in the following three sections:

District No. 1

Nelson District, including Kaslo, Rossland, Trail, Ymir and Nelson, with surrounding towns in Slocan and Lardeau districts.

District No. 2

Boundary Country, including Grand Forks, Greenwood, Phoenix, and all surounding towns.

District No. 3

East Kootenay, comprising towns of Cranbrook, Creston, Moyie, Fernie, and all other towns on the Crow's Nest branch.

Description of the Trip

*Leave Nelson July 1st at 6 a. m. on Steamer Kuskanook; after beau*tiful sail on Kootenay Lake take train at Kootenay Landing, passing through the wonderful scenery of the Crow's Nest Pass, arriving at Calgary July 2nd.

The return trip will be over the main line of the C. P. R., leaving Calgary any time desired within the time limit of the tickets, with a stop-over at Banff, the Canadian National Park, for one day, giving a chance to see the magnificent scenery of the mighty Rockies.

Get to Work Girls and Secure a Nice 10 Days' Outing Without One Cent of Cost to You

Conditions of the Contest

For THE DAILY NEWS Trip to the Dominion Fair at Calgary

∴ June 29th to July 9th, 1908 ∴

Every candidate must be nominated by blank printed in any issue of The Daily News. There are no restrictions as to the number of candidates in each district. The more the merrier, married or single. Only ladies over eighteen years of age are eligible. Nominations may be signed by parents or friends. This is insisted upon so that The Daily News can trace up each nomination.

The districts are simply given to divide the country into sections. Votes can be sent in from any district for a candidate in another district but no candidate will be permitted to transfer votes to another contestant after the entries are made at The Daily News office. The right is reserved to withdraw the offer from any district where only one candidate is nominated or voted for. For this reason: The Daily News has decided to have no time limit on the nominations. Of course, it is advisable to nominate a candidate early, so that her friends can start collecting ballots for her and help her in the campaign.

A coupon will be printed each day in The Daily News good for one vote.

There will be special ballots issued to subscribers who pay in advance. The subscriber can retain the ballot until the time limit marked thereon and *turn it over to his or her favorite in the race. Either the* candidate or the subscriber must turn the ballot into the circulation department of The Daily News before the expiration of the time limit, otherwise the ballot will not count. This is done to avoid extra clerical work in the last week of the campaign. These special ballots cannot be replaced if lost. The best plan is to immediately turn them over to The Daily News when the subscription is paid, writing on the ballot the name of the candidate to be favored. Candidates themselves will probably solicit subscriptions and make colections in advance. This may be done for either old or new subscribers, who will receive official recepits when the money is turned over to The Daily News. Rural subscribers and candidates are requested to make remittances by postal note or money order.

Subscribers to The Daily News will receive the paper by carrier where this system is established and by mail where there is no carrier service.

Special Ballots for Paid Up Subscriptions Will Be Credited as Follows:

NELSON—BY CARRIER.			ALL CANADA—BY MAIL.		
1 month,	$ .50	50 votes	1 month,	$ .50	50 votes
3 months,	1.50	200 votes	3 months,	1.25	150 votes
6 months,	3.00	500 votes	6 months,	2.50	400 votes
1 year,	6.00	1200 votes	1 year,	5.00	1000 votes
2 years,	12.00	3000 votes	2 years,	10.00	2500 votes

It should be understood that any reader may renew his or her subscription and turn the ballot, corresponding to the amount paid over to any candidate in the contest. It matters not whether the paid up subscriptions are for old or new subscribers.

To make the contest fair and above board, no nomination will be accepted of any member of The Daily News staff. The Daily News reserves the right to reject any nominations.

Subject to the approval of The Daily News, any successful candidate has the right to name a substitute, if she is, through illness or any other valid reason, unable to go on the trip herself. Such substitute must be named on the day following the close of the vote.

The Daily News desires to be perfectly fair in this contest, and all candidates accepting nomination must agree to abide by the terms herewith set forth.

The contest will close at 9 o'clock Friday, June 26, and ballots will be received up to Saturday noon, June 27, and from outside points till 12 p. m., June 29.

Just fill in the attached nomination blank with your favorite's name, have her sign it, and send or deliver to The Daily News, where temporary receipts and special ballots will be supplied.

THE JEWELER

GOOD CROP PROSPECTS

NEWCOMERS MOVING INTO THE CANADIAN WEST

BEAUTIFICATION OF NEW TOWNS A FEATURE

F. J. Deane returned from a two weeks' trip to Winnipeg and other prairie points last night. Mr. Deane reports that crop prospects were never brighter. Seeding was completed earlier than usual and since then perfect weather conditions have prevailed from the grain grower's point of view. Crops are well advanced and thoroughly healthy and there is every reason to anticipate a splendid harvest. The utmost optimism as to the future prevails through the prairie provinces and whilst the money stringency still exists, everyone is so confident of the future that there is not the slightest indication on any hand of depression. New comers are pouring in to Winnipeg and Regina and there is a noticeable predominance of desirable settlers, families, with small means, prepared to go on to the land at once, and young, able-bodied, men, well suited for work on the farms and in the railway construction camps.

On all sides, and in Winnipeg in particular, great interest is displayed in the Kootenay fruit industry, and it is a safe prediction that if the crops this year prove as bountiful as is now anticipated, there will be a big rush of prairie farmers to the Kootenay and Okanagan districts next fall and spring. Wholesale and commission fruit dealers speak eulogistically of Kootenay fruits, but express the opinion that more attention should be paid to packing. When told of the enterprise of the Kootenay Fruit Growers' association in engaging the services of an expert horticulturist to instruct and advise their members in the science of fruit growing, picking and packing, they were enthusiastic in their expressions of appreciation.

One noteworthy feature of the development now so conspicuous in the chief prairie towns, is the attention being given to the beautification of the streets and gardens. Tree planting is being carried on on quite an extensive scale and householders appear to be competing with one another in an efffort to beautify their gardens by laying out fine lawns and the cultivation of flowers, trees and shrubs. The result is entirely delightful, the prevalence of trees and lawns adding greatly to the attraction of the towns.

HINDUS GIVEN WORK

WANT TO GET MONEY TO GET BACK HOME

COAL MINERS' EXAMINATIONS TO BE HELD

(Special to The Daily News.)

FERNIE, June 1.—General regret was felt here that the Hon. Richard McBride and his colleagues Hon. W. J. Bowser and Hon. H. E. Young were unable to spend more time in the city. Owing to the pressure of other important engagements they were only able to remain in town a few hours, arriving by the C. P. R. express at 6:30 and leaving by the Soo-Spokane Flyer at 2 a. m. After the close of the splendid meeting in the opera house many of those present took advantage of the opportunity to meet the premier personally and to discuss matters of local interest.

There has been a little friction at the Elk Lumber company's mill in west Fernie between the management and the employees over the question of wages. The company wanted the men to work on the night shift at the day rate, which they declined to do, and decided to quit work. It is understood the matter has been amicably adjusted, and that the men have returned to work.

Owing to the epidemic of scarlet fever among the children, it has been found necessary to close the public school for the present. There are over 20 cases reported, and it was thought wise to take this actioon, in order to prevent the further spread of the disease. Miss Robinson, one of the teachers has contracted it.

In the assizes court the case of Rex v. Powers has been in progress since Thursday and will probably occupy the attention of the court for some days yet. There are still several criminal and civil cases to be heard and it will be a week or more before the work of the court is concluded.

A party of Hindus has applied to the mayor for work, to secure sufficient money to enable them to leave town. They will be given work at the new septic tank.

Andrew Patterson, a miner who was indicted for rioting during the strike at Coal Creek mines in 1903 and who skipped his bail and was recently arrested here and again let out on bail, failed to put in an appearance when his case was called at the assizes court last week. A bench warrant has been issued for his arrest.

During the past week the city authorities have been greatly improving the business streets by filling in the roadbeds with cinders. The heavy rains had made the roads a sea of mud, but a plentiful supply of cinders has greatly improved their condition.

The examinations for first, second and third class certificates of competency under the provisions of the Coal Mines Regulation Act will be held there on June 16, 17 and 18. A larger number of candidates than usual will present themselves for examination.

OFFICERS ELECTED

Knights of Pythias and I. O. O. F. at Moyie

(Special to The Daily News.)

MOYIE, June 1.—The following are the newly elected officers of St. Eugene lodge No. 37, K. of P.: C. C., C. H. Livesley; V. C. C., B. E. Taylor; prelate, A. S Roberts; M of W., W. J. Feltham; K. of R. and S., E. A. Hill; M. of E., C. A. Foote; M. at A., Hugh McDonald; I. G., P. J. McAlpine; O. G., C. J. White. These officers will be installed at the first meeting in July

The following officers were elected at the last meeting of Wildey lodge No. 44, I. O. O. F.: N. G., H. Salt; V. G., C. J. White; secretary, F. J. Smyth; treasurer, N W. Burdett. These officers will be installed at the first meeting in July.

Ask for Minard's and Take no Other.

The Farmer's Wife

Is very careful about her churn. She scalds it thoroughly after using, and gives it a sun bath to sweeten it. She knows that if her churn is sour it will taint the butter that is made in it. The stomach is a churn. In the stomach and digestive and nutritive tracts are performed processes which are almost exactly like the churning of butter. Is it not apparent then that if this stomach-churn is foul it makes foul all which is put into it?

The evil of a foul stomach is not alone the bad taste in the mouth and the foul breath caused by it, but the corruption of the pure current of blood and the dissemination of disease throughout the body. Dr. Pierce's Golden Medical Discovery makes the sour and foul stomach sweet. It does for the stomach what the washing and sun bath do for the churn—absolutely removes every tainting or corrupting element. In this way it cures blotches, pimples, eruptions, scrofulous swellings, sores, or open eating ulcers and all humors or diseases arising from bad blood.

If you have bitter, nasty, foul taste in your mouth, coated tongue, foul breath, are weak and easily tired, feel depressed and despondent, have frequent headaches, dizzy attacks, gnawing or distress in stomach, constipated or irregular bowels, sour or bitter risings after eating and poor appetite, these symptoms, or any considerable number of them, indicate that you are suffering from biliousness, torpid or lazy liver with the usual accompanying indigestion, or dyspepsia and their attendant derangements.

The best agents known to medical science for the relief of the above symptoms are contained, as shown on the wrappers of leading druggists and practitioners of all the several schools of medical practice, have been skillfully and harmoniously combined in Dr. Pierce's Golden Medical Discovery. That this is absolutely true will be readily proven to your satisfaction if you will but mail a postal card request to Dr. R. V. Pierce, Buffalo, N. Y., for a free copy of his booklet of extracts from the standard medical authorities, giving the names of all the ingredients entering into his world-famed medicines and showing what the most eminent medical men of the age say of them.

NOTICE.

NOTICE is hereby given that application will be made to the Legislative Assembly for the Province of British Columbia at its next session, for an Act to incorporate a Company with power to build, equip, maintain and operate a line or lines of railway of standard or narrow gauge, to be operated by steam or electricity, within a radius of ten miles of Goat River Canyon, in the District of Kootenay, for the development and economic operation and marketing of agricultural and other products of the said area, and the carrying of passengers and freight from place to place therein, and to connect with the line of railway from Creston to Kootenay Landing, operated by the Canadian Pacific Railway Company; with power to construct and operate telegraph and telephone lines for the purpose of its business and for the public; with power to own, use and operate water powers convenient to the road for railway, agricultural and irrigation purposes, and with power to supply electric light, heat and power to the residents in the said area; and with power to construct and operate electric and other works, canneries, sawmills and other industries; and with power to exercise such powers as are granted by the Water Clauses Consolidation Act and Amendments, the Land Clauses Consolidation Act and Amendments and the British Columbia Railway Act, and the Companies Clauses Act; and to acquire and receive from any Government, corporation or persons, grants of lands, rights of way, money bonuses, privileges, or other assistance in aid of the construction of the Company's undertaking; and to connect and enter into traffic or other arrangements with railway, steamboat, electric, water or other companies for all rights, powers and privileges necessary, usual or incidental to all or any of the aforesaid purposes.

Dated the 23rd day of May, A. D. 1908.

IN THE MATTER OF THE "MECHANIC'S LIEN ACT" AND AMENDING ACTS.

TAKE NOTICE, that having bestowed money and skill upon the chattels herein after mentioned, I will pursuant to the provisions of the above Act, sell at Munro Hotel, Creston, B. C., on the 8th day of June, 1908, at 3 o'clock in the afternoon, the following described chattels, viz. Poles and Piling now being in my possession and lying on land known as Rykert's preemption near Kinney's Siding on the Kootenay Valley Railway in Kootenay District, British Columbia, more particularly described as follows:

501 poles 25 feet long, 631 poles 30 feet long, 74 poles 35 feet long, 497 poles 40 feet long, 375 poles 45 feet long, and 307 poles 50 feet long. Said poles were cut and got out by me for one W. R. Kinney and one A. B. Joslyn and they are indebted to me in connection therewith to the amount of $1434.88, and upon such sale I will apply the proceeds first in payment of the amount due me and costs of advertising and sale and pay over the surplus (if any) to the person entitled thereto.

Dated this 18th day of May, 1908.

J. C. ENGLISH,

NELSON NEWS OF THE DAY

Several good catches of fish were reported on Sunday.

The inland revenue returns for the past month are as follows: Spirits, $2,281.75; malt, $480.00; Tobacco, raw leaf, $47.02; cigars, ex factory, $79.50; cigars, ex warehouse, $96.00; total $2,984.27.

The subject for discussion tonight at the young people's society in connection with St. Paul's church will be "Favorite Passages in Poetry and Prose", and all members and friends will be made welcome, and it is hoped that many will contribute to the discussion. The chair will be taken at 8 o'clock by Rev. J. T. Ferguson, who will give a short address.

The young liberals will hold their annual meeting this evening at 8 o'clock, in their new rooms over the old bank of commerce building at the corner of Baker and Stanley streets. Two rooms have been leased and will be ready for use tonight. The room fronting on Baker street will be used as a meeting room and as well a reading room where "liberal" literature can at all times be found by the faithful.

On Sunday evening three men had the happy experience of getting a good ducking in the lake near the Yale Columbia company's sawmill. Bent on having a little fun the three men had built a raft, or at least thought they had, and on it managed to get quite a distance out in the river when the raft suddenly collapsed as did also the men. Just how they felt at the time the raft collapsed cannot be learned but from all accounts they looked happy. Apart from getting a good soaking the party, fortunately, suffered no serious injury.

The sports committee will meet this evening at 8 o'clock in the office of Procter & Blackwood, when the following will report results of their enquiries: G. P. Wells, re trapshooting; J. E. Annable, children's sports; H. Selous, lawn tennis; C. Walmsley, baseball; J. Wilson, J. L. Porter and H. Gibson, horse racing; W. R. Jarvis, caledonian sports; C. D. Blackwood, firemen's sports; H. Bishop, lacrosse; F. A. Starkey and J. J. Malone, water sports; J. L. Meighan, football; Frank Phillips, rock drilling.

C. W. Busk came into the city last evening. He said that the correct name of the young English boy drowned at the ranch last week was James William Tullett, aged 14, from Blindley Heath near Godstone, Surrey, England. Mr. Busk said that the body had not yet been recovered.

Miss J. Thompson, Diplomas T. C. L. and L. C. M., formerly member of Incorporated Society of Musicians, Ireland, is forming a class in Pianoforte, Theory, Harmony and Counterpoint. Address 515 Carbonate St. Phone 244.

IN CHAMBERS

Several Applications Were Heard Yesterday by Judge P. E. Wilson

Judge P. E. Wilson held chambers yesterday morning when the following applications were heard:

Brydges v. Fisher; E. C. Wragge for the plaintiff asked for an order of service ex juris on R. Kenneth Lindsay at Winnipeg, granted.

Jessup v. Anderson; application by A. M. Johnson for the defendants that security be given for costs of appeal; order granted for $100.

McLachlan v. Goggins; W. H. Bullock-Webster for the plaintiff applied for substitutional service by posting; granted.

H. W. Whitelaw v. W. J. Toye; R. M. Macdonald for plaintiff and S. S. Taylor for defendant; in the matter of the Evidence act and in the matter of the Supreme Court act and action pending in Manitoba; order granted for the examination of certain witnesses.

Labrash v. Sellar; James O'Shea obtained an order for payment out.

MAGNIFICENT PARADE

Thirty Thousand German Soldiers in Parade Before Emperor William

BERLIN, June 1—Emperor William gave king Gustav and queen Victoria of Sweden, a magnificent military show today, the occasion being the annual spring parade of the garrisons of Berlin and the neighboring posts. Thirty thousand men of all arms of the service, about 8000 of that number being cavalry, manoeuvred on the two square miles of the Tempelhof parade field. The emperor with the king of Sweden reviewed the troops on horseback. The empress and the queen of Sweden in a six horse equippage were at the reviewing stand, where, drawn up in four lines were the carriages of the diplomatic corps and many distinguished vistors. As a result of the severe heat many of the soldiers were overcome, notwithstanding the severe training, consisting of 15 to 25 miles daily, which they underwent during the past three months.

SMART CLOTHES FOR YOUNG MEN

THE hardest sort of Suits to provide sucessfully are the Suits for the dapper Young Dresser, who wants the limit in style.

We've met with great success in Clothing these Young Fellows, because we study their wants.

There's always a "distinguished" air about the cut and the style of our Young Men's Garments.

We Call the Attention of Smart Dressers to Our New Spring Suits

The styles may be called extreme, because they are extreme. Every idea or kink, that's new, is shown here, while the fabrics are very swell.

Suits $18.00, $20.00, $22.00 and $30.00

There's much to see here that's new, and our time is at the disposal of the Young Man who is just looking about for the right Suit.

The Best Dressed Men in Nelson wear Fit-Reform Clothes. This may sound strong, but you can prove it out by inquiring of your Best Dressed friends.

For Good Clothes and Smart Toggery come to the Store from whence the Good Things come.

Fit-Reform

SERIOUSLY INJURED

Michel Miner Hurt by Falling Timbers—Is in Hospital

(Special to The Daily News.)

MICHEL, June 1—Wm. Stead, an English miner about 22 years old was today seriously injured while at work in No. 8 mine. He was engaged in putting up timbers when one of the props fell hitting him on the head and inflicting serious wounds. He was at once taken to the Michel hospital where he lies in a precarious condition.

LAND REGISTRY ACT.

TAKE NOTICE that an application has been made to register H. W. Kent as the owner in fee simples, under a Tax Sale Deed from R. J. Stenson, collector of the Slocan Assessment District, to H. W. Kent, being dated the 27th day of December, A. D. 1907, of all and singular that certain parcel or tract of land premises situate, lying and being in the District of Kootenay, in the Province of British Columbia, more particularly known and described as:

All minerals precious and base (save coal and petroleum) which may be found in veins, lodes and rock in place, under Lot 2102, Group One, District of Kootenay known as the "United Empire" Mineral Claim

You and each of you are required to contest the claim of the tax purchaser within fourteen days from the date of the service of this notice upon you, and in default of a caveat or certificate of lis pendens being filed within such period, you will be forever stopped and debarred from setting up any claim to or in respect of the said land, and I shall register H. W. Kent as owner thereof.

Dated at Land Registry Office, Nelson, Province of British Columbia, this 11th day of February, A. D. 1908.

H. F. MACLEOD.

To THOMAS DUNN,
ROBERT W. GORDON.

MORTGAGE SALE OF KOOTENAY FRUIT LANDS

Under the powers contained in a mortgage, which can be inspected at the Land Registry office, Nelson, British Columbia, (registered April 25th, 1908, No. 3345B.,) and a copy of which will be produced at the time of sale, there will be sold at Public Auction at the Court House, at Nelson, B. C., on Tuesday the 2nd day of June, 1908, at 2:30 o'clock p. m., the following lands, situate in West Kootenay district, British Columbia:

(a). The following sub-lots of Lot 4595, Group One (1), situate on the East Shore of Kootenay Lake, about three miles south of the City of Kaslo: Sub-lot number Ten (121.6 acres); sub-lot number Twenty-three (81.6 acres); sub-lot number Twenty-four (34.2 acres), and sub-lot number Sixty-one (536.076 acres).

b.) Sub-lot number Twenty-eight, of Lot 4598, Group One (1) situate about 2 miles East of Robson, on the line of the Canadian Pacific Railway, fronting on both the Columbia and Kootenay rivers, containing 554 acres.

(c). Sub-lot number Fifty-nine of Lot 4598, Group One (1), adjoining above mentianed sub-lot 28, on the north, fronting on the Columbia river, and containing 151.40 acres.

(d) Sub-lot number six of Lot 4599, Group 1, situate about 3 miles west of Robson, ¼ mile from the Columbia river, containing 320 acres.

(e). Lot 6591, Group 1, situate about 1 mile west of Robson, fronting on the Columbia river, containing 106.9 acres.

(f). Lot 6592, Group 1, adjoining Lot 6591, on the South, and containing 80 acres.

Full particulars and terms of sale can be had on application to the undersigned.

Dated at Nelson, B. C., March 9th, 1908.
ROBERT WETMORE HANNINGTON,
273-13. Solicitor for Mortgagee.

NOTICE.

NOTICE is hereby given that I will at the meeting of the Board of Licensing Commissioners for the City of Nelson, to be held on the 10th day of June, A. D., 1908, apply to have the retail liquor license for the premises known as the "Queen's Hotel" situate on Lot 11, Block 2, City of Nelson, in the Province of British Columbia, renewed in the name of A. Lapointe, owner of the said premises.

And further take notice that I will, at the same time apply for a permit from the said Board of Licensing Commissioners to enable Elizabeth C. Clarke, tenant of the said premises to sell spirituous and fermented liquors therein from the 15th day of July to the 31st day of August, 1908, both inclusive, the said 31st day of August, 1908, being the date of the termination of the tenancy of the said Elizabeth C. Clarke from me.

Dated this 5th day of May, 1908.
A. LAPOINTE,
13-30. By A. M. JOHNSON, his solicitor.

SYNOPSIS OF CANADIAN HOMESTEAD REGULATION

Any available Dominion Lands within the Railway Belt of British Columbia may be homesteaded by any persons who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres, more or less.

Entry must be made personally at the local land office for the district in which the land is situate. Entry by proxy may however, be made on certain conditions by the father, mother, son or daughter, brother, or sister of an intending homesteader.

The homesteader is required to perform the conditions connected therewith under one of the following plans:

1. At least six months' residence upon and cultivation of the land in each year for three years.

2. If the father (or mother, if the father is deceased) of the homesteader resides upon a farm in the vicinity of the land entered for, the requirements as to residence may be satisfied by such person residing with the father or mother.

3. If the settler has his permanent residence upon farming land owned by him in the vicinity of the homestead, the requirements as to residence may be satisfied by residence upon the said land.

Six months' notice in writing should be given to the Commissioner of Dominion Lands at Ottawa of intention to apply for patent.

COAL—Coal mining rights may be leased for a period of twenty-one years at an annual rental of $1 per acre. Not more than 2560 acres shall be leased to one individual or company. A royalty at the rate of five cents per ton shall be collected on the merchantable coal mined.

W. W. CORY.
Deputy Minister of the Interior.

N. B.—Unauthorized publication of the advertisement will not be paid for.

The attention of the Lands and Works Department having been directed to the fact that town lots in a townsite named Prince Rupert, being subdivision of Lot 642, Range 5, Coast District, situate on the mainland between the mouth of the Skeena River and Kain Island, are being offered for sale, it has been deemed necessary to, warn the public that the said townsite is not situated at the terminus of the Grand Trunk Pacific Railway, and is not the townsite which is owned jointly by the Government of British Columbia and the Grand Trunk Pacific Railway Company.

F. J. FULTON,
Chief Commissioner of Lands and Works
Lands and Works Department,
Victoria, B. C., May 1st, 1908
15-30

NOTICE.

Notice is hereby given that in pursuance of the notice signed by the Chief Commissioner of Lands and Works and published in the British Columbia Gazette from the 22nd day of June, 1899, to the 23rd day of June, 1900, all agreements for the sale of Crown lands in the town of Nelson under which any payments of purchase money were overdue and unpaid on the said 22nd day of June, 1899, and are still overdue and unpaid, will be cancelled on the first day of June, 1908, unless the balances of purchase money and interest due thereon are paid before that date.

ROBT. A. RENWICK.
Deputy Commissioner of Lands and Works
Lands and Works Department,
Victoria, B. C.
April 25th, 1908. 15-30

25 YEARS ECZEMA DEVELOPED BLOOD POISON

Theological Student Says Zam-Buk Saved His Leg.

The dreadful irritating skin disease Eczema includes amongst its victims the rich and poor, the student and the illiterate. Mr. Geo. E. Williams, who now resides at 69 Mutual St., Toronto, was intended for the Ministry, and to this end studied Theology at King's College, London Eng. He says: "Whilst there I began to suffer from Eczema. This was 25 years ago, and I concluded I was doomed to suffer for life. A few weeks ago I was called to Hamilton on business, and had not been there two days when I was forced to lay up, the pain in my legs was so severe. My wife examined the parts that were so painful, and discovered a patch of badly discolored skin. She did all she could think of to relieve me, but failed. We obtained advice, and it was found I was suffering from Blood Poison, and that I was in danger of losing my legs, if not my life. At this point I decided to try Zam-Buk which I had seen advertised. The first application gave me great relief, and the poisonous matter which came from the wounds convinced me that I was on the right track. I therefore persevered with this healing balm. The first two boxes had cleaned the sores and my legs looked as though they were full of holes. From this time on the healing work commenced, and I am thankful to say that after using 4 boxes of Zam-Buk all the wounds were healed and my legs cleared of the horrible Eczema that had affected me for 25 years."

Zam-Buk Cures obstinate skin diseases, spreading scabs, running sores, blisters, chafing, eczema, pimples, ulcers, festering sores, weak ankles, ringworm, bad legs, piles, swollen knees, inflamed patches, scalp irritation, poisoned wounds, sore faces, etc. Of all druggists and stores, 50c. per box or postpaid from the Zam-Buk Co., 36 Colborne St., Toronto. 6 boxes $2.50.

SAMPLE BOX FREE. Send this coupon with a 1c. stamp for postage, to the Zam-Buk Co., Toronto, for a sample free. 6K1

Zam-Buk

BRITISH NAVAL DRILLS

INTERESTING MANOEUVRES IN THE NORTH SEA

FLEET WILL CONSIST OF OVER A HUNDRED SHIPS

LONDON, June 1—Orders for the manoeuvres of the British fleet in home waters have been issued and indicate that a very important and interesting series of naval drills will be carried on in the North Sea in July. The number of ships engaged will be considerably over 100 including many battleships and cruisers and the flags of nearly a dozen admirals will be flying.

An instructive comparison may be drawn between the grand display of naval might in the vessels of the United States fleet which were reviewed by secretary Metcalfe on May 8, and the fleets which Britain and Germany respectively, are putting out for their manoeuvres during the next few weeks. At San Francisco there were present 44 vessels, including 18 battleships, 8 armored cruisers, as well as protected cruisers, destroyers and auxiliary vessels. These 44 vessels carried 22,876 officers and men and 592 guns of and above the size of a 4-inch, the heaviest gun being that of 12-inch calibre of which there are 48.

The British fleet which under lord Charles Beresford will assemble in the North Sea will consist of 104 vessels, including 2 battleships, 14 armored cruisers, as well as protected cruisers, destroyers and auxiliary vessels. These 104 vessels carry 25,592 officers and men and 631 guns of above the size of a 4-inch, the heaviest guns being of 13-inch calibre, of which there are 86.

The German high sea fleet will consist of 44 vessels, of which 18 are battleships. These 44 vessels will carry 17,413 officers annd men and 480 guns of and above the size of a 4-inch, the heaviest gun being a 11-inch calibre of which there are 32.

Such a comparison is, however, incomplete unless it is also pointed out that the United States has in the Pacific in addition to the fleet reviewed at San Francisco, a number of useful vessels, including a small squadron of cruisers and a second flotilla of destroyers. In regard to the British fleet, the strength of this will be diminished by the despatch of a greater portion of the Atlantic fleet with some fine armored cruisers to Canada with the prince of Wales. Nor have the reserves of the home fleet been taken into consideration.

On the other hand, Germany has some 50 additional torpedo destroyers in reserve, but very little else in the shape of heavier vessels which would be of value outside her defended ports until a decisive action had taken place between the main fleets.

The reserve is not called upon at all, but the ships are manned from the officers and men under instruction or in the depots. The nucleus crew for most of the reserve ships not only include all the principal officers and specialist ratings, but amounts to about 60 per cent of the full complement. In the others, the smaller craft such as destroyers, it amounts to 80 per cent.

If the nucleus crew ships are added to lord Charles Beresford's force, it means that he will be joined by 6 battleships, 3 armored cruisers, 8 protected cruisers, 14 auxiliary ships, scouts mine layers, and the like, and over 60 destroyers, exclusive of submarines and torpedo boats, with their attendant vessels.

Nothing has transpired as to the plan of operations, but it will surely possess both tactical and strategical characters and will include night attacks by torpedo boats. Usually half the period is devoted to tactical exercises, the handling and manoeuvring of various forces in the face of an enemy, and half to strategical work or the effort to gain advantageous positions for rapid and secret action.

Although the two accidents followed each other so quickly, the navy has enjoyed a comparative immunity from similar disasters and not more than one or two cases of the same nature have occurred during the many years that manoeuvres have been carried out with screened lights.

COSTLY STRIKE

Montreal Cotton Operatives Have Lost $80,000 in Wages

MONTREAL, June 1—Since the 5500 operatives of the Dominion Textile and Montreal Cotton companies have ceased to work, they have lost in the neighborhood of $80,000 in wages. As nearly as can be estimated the figures are as follows: Merchants' mill at St. Henri, 1400 out of work three weeks, averaging $10,000 a week; Valleyfield mills, 3000 operatives out for one and a half weeks, $35,000; St. Anne's and Hochelaga mills, 500 out for two weeks, $7000; Magog mills, 540 out for a week, $4000; incidentals, $2000.

SOCIETY'S LATEST FAD

BRITISH AND FRENCH WOMEN IN BALLOON RACES

LATEST AEROPLANE FEATS JUST ACCOMPLISHED

LONDON, June 1—Hurlingham, the erstwhile center of fashionable amusements, has now taken the lead in ballooning, society's latest fad and today was the scene of an interesting international aeronautic contest in which 12 British, 13 French, 3 German, 2 Belgian and 1 Swiss balloons competed.

The geographical conditions of the United Kingdom being such as practically to forbid a long distance contest, the committee in charge decided upon a point to point race. Maidenhead was chosen, a distance of about 30 miles. The most interesting feature of the contest was the number of ladies who made the ascension. In addition to the British women, who included lady Shelley, the Hon. Mrs. Asheton-Harbord, Mrs. and Miss Brabazon and Mrs. Capper, wife of Col. Capper, several French ladies specially crossed the channel for the purpose of making the trip in the air. The band of the Royal Horse Guards as each balloon was set loose, played the national anthem of the country which it represented.

The weather was hazy and the wind very light, making the race a competition of skill in the search for helpful currents in which the British competitors with their local knowledge had a distinct advantage. The balloons varied greatly in size from the Belgian Le Roi Telet, of a capacity of 250 cubic meters, to the French Cognac of 2000 cubic meters, but a valve defect kept the Cognac from ascending at the last moment. The largest English balloon was Pollock's Valkyrie of 698 cubic meters.

There was an exciting incident at the start of the race, the Belgian balloon Emulation de Nord striking a tree in the grounds. The pilot Albert Crombez instantly threw over all his ballast and succeeded in clearing the tree but the car took with it two large branches. The aeronaut pluckily continued the race.

The winner proved to be the Valkyrie which made the descent very easily about 300 yards from the winning post, Griffith Brewer's Lotus, also a British representative, finished second. Third prize has not yet been awarded.

GHENT, June 30—Harry Farman, the English aeroplanist today covered 1241 meters in his aeroplane with two men on board. His companion was M. Archdeacon. *The feat was performed in a* dead calm. By this performance Mr. Farman wins the bet of $1200 made by A. Charon in March of this year, who held than an aeroplane would not be constructed this year capable of carrying two persons, one of them to weigh not less than 132 pounds, a distance of 1000 meters.

PARIS, June 1—Wilbur Wright, one of the Wright brothers, the American aeroplanists, was informed that Leon Delagrage the French aeroplanist, had succeeded in flying 12,750 meters or 7.971 miles at Rome. He manifested considerable interest, but no anxiety, in his performance. "We are not worried," he said. "We already have trippled the distance made by Delagrage. Our confidence in our leadership rests upon the essential difference between our machine and those used in Europe. We have a practical aeroplane capable of flying in the wind."

CANADA'S DESTINY.

British Comment Over Judge Longley's Remarks at New York.

(Toronto World)

British comment is unnecessarily acrid over the opinion of Mr. justice Longley of Halifax, regarding the future relationship of Canada to the motherland. The nervous irritation much of it reveals is a curious commentary on the indifference with which the British people were long credited, towards foreign and colonial opinion. But its appearance and the evident care taken to scrutinize public deliverances made on this side of the Atlantic touching the destiny of the dominion shows a consciousness that an interior change is in progress which will radically alter the position of the overseas states of the empire. That change was bound to come. Vast countries like Canada and Australia and such as South Africa will be after federation, cannot forever remain in a state of dependence or even of tutelage. Canada is no longer a colony in the modern sense—she exercises complete control of her own internal affairs, regulates her tariff relations with other countries, including Britain and the other British states; she controls immigration, even that of British stock; she has established her right to be consulted in the negotiations of British treaties that affect her interests and indeed deals directly with foreign nations in several important directions. All these things are natural and inevitable and the process cannot be stayed.

Independence is not an absolute, but a relative term. No man nor state is independent in the sense of being free of limitations. Every man is bettered by the law, by the usages of the society in which he lives and by the rights of other men. Every civilized state must respect its obligations, its treaties and alliances, the provisions of accepted international law and its knowledge that arbitrary encroachment on the territory or possessions of another state involves the risk of war. When the anticipation is offered that Canada will some day be an independent ally of Great Britain, that may mean much or little. Alliances are limited partnerships—valid for their special purposes and during their existence. The relationship of the British states among themselves may well be that of perpetual and absolute alliance—in other wards the empire will be a partnership of free, self-governing communities, acting independently in matters that exclusively concern themselves and co-operating for the common good. But however and into whatever the empire will evolve, it will be a natural development, depending on its last issue on personal loyalty to the empire and the king as its visible head. In this period of transition forbearance and patience are especially required. Just now the new imperial idea is making satisfactory progress. To leave it alone and continue to work harmoniously together is the best way to achieve it.

Keep Minard's Linimnet in the House.

We Want Land

to sell to our settlers on our Colonization Plan.

Anyone having a good piece of land write us and we will see if the land is O. K. for our settlers.

The B. C. Colonization Agency

12 Reasons Why You Should Buy Burton City Fruit Lands

1. It is good soil, clay loam.
2. It is free from stone.
3. It is level land.
4. It is well watered; running water can be put in every house.
5. The blocks front on the lake.
6. The best of transportation; two boats daily.
7. You are close to good hunting, boating and fishing.
8. The land is easily cleared.
9. It is the centre of the fruit growing district of British Columbia, with orchards on the adjoining blocks.
10. The title is good.
11. It is close to town and market.
12. Our price is low and terms easy.

We quote below some of our large tracts of Fruit Lands which we are offering at wholesale prices.

These will be money makers for any one looking for an investment.

These lands are located on Lower Arrow Lake.

234 acres at Syringa Creek with 3-4 of a mile of lake shore. On this property there is a water record of 50 inches.

73 acres 10 miles above Robson on the lake shore.

450 acres on east side of Deer Park with water front.

1120 acres at Deer Park. The government wagon road runs through this property.

540 acres at Brooklyn, including the old town of Brooklyn; 30 acres cleared and over 40 buildings on the property.

712 acres opposite Edgwood Landing on the lake shore.

2200 acres in Fire Valley.

1860 acres south of Burton on the lake shore.

400 acres at Burton City.

320 acres, four miles above Burton City.

120 acres at Nakusp.

These lands have been selected by myself and while there is some waste land in places the surveys were made so as to cut out as much as possible those parts which were unsuited for fruit culture. In the above blocks there are 11 miles of shore.

Write for plan and prices if you are interested.

"Sunshine" Furnace

Where Shaking is Respectable

A Draft off furnace dome, with no other assistance, is powerless to overcome the dust nuisance in shaking time. Only surplus dust rises of itself above the fire. Great bulk descends into ash-pit, and unless legitimate outlet is therein provided, dust will escape through ash-door slits and into operator's face.

In "Sunshine" Furnace the legitimate dust outlet is provided. It's a great big dust-pipe running straight from ash-pit to dome, thence to chimney. When big pipe damper is opened, all dust in ash-pit ascends to dome; then, when direct drafts are opened, all dust passes up chimney.

Always the clean and quick dust route in "Sunshine" Furnace — via grate, to pan, to dust-pipe, to dome, to chimney, to open air.

Write to us for "Sunshine" testimonials received from your own townspeople.

FRENCH CANADIAN POET

DEATH OF DR. LOUIS FRECHETTE AT MONTREAL

HE WON HIGH DISTINCTION AT HOME AND ABROAD

MONTREAL, June 1—Dr. Louis Frechette, the distinguished French Canadian poet and literatteur, died last night at the deaf and dumb institute after an illness of less than 24 hours. He had been living in retirement for about a year and during the past few months had been in feeble health. Death was due to apoplexy. Canada loses one of her best poets and one of those who have become distinguished abroad as well as at home. Dr. Frechette is survived by a widow and three daughters. He was 68 years of age.

Louis Frechette, LL.D., D.C.L., D. Lit., C.M.G., Knight of the Legion of Honor, officer of the Academy of France, late president of the Royal society of Canada, member of the Academy of Rouen, and of the Societe Astronomique, Paris, was clerk of the legislative council of Quebec, and was born at Levis, Que., Nov 16, 1839. Called to the Quebec bar in 1864; M.P. for Levis in 1874. Edited Le Journal de Quebec, Le Journal de Levis and La Patrie. First verses published in 1863,

DIFFICULTY OVERCOME

American Entries Mailed Yesterday for Bisley Matches

LONDON, June 1 — The difficulty which threatened to deprive the rifle shooting contest of the Olympic games at Bisley this year of the presence of American marksmen, has been overcome and representatives of the United States will participate in the matches. Finding that the Olympic association was unable to prolong the date of the entry, the International Rifle association of America cabled its list of names and in reply the Olympic association cabled that it would accept the entries if they were mailed today on the regulation forms and this was done.

Badly Sprained Ankle Cured.

Three years ago our daughter sprained her ankle and has been suffering terribly for two days and nights—had not slept a minute. Mr. Stallings, of Butler, Tenn., told us of Chamberlain's Pain Balm. We went to the store that night and got a bottle of it and bathed her ankle two or three times and she went to sleep and had a good night's rest. The next morning she was much better and in a short time could walk around and had no more trouble with her ankle.—E. M. Brumitt, Hampton, Tenn. 25 and 50 cent sizes for sale by all druggists and dealers.

MINING RECORDS

Aside From the Advantages of Good Soil

Bearing Orchards, Good Roads and Transportation

Perfect Title and Plenty of Water, MIRROR LAKE is a gem of Scenic Beauty, with an area of about 17 or 18 acres and a depth of 70 to 100 feet. Never too rough for boating or fishing in summer and perfect for skating or any winter pastimes in winter. And to describe the "FALLS" would require the word painting of an artist. It is not a

Niagara

But a Cascade of more than ordinary interest and a volume of water sufficient for all the power and light required in the district.

Both Lake and Falls must be seen to be appreciated and they are both within a few hundred feet of the MAIN KOOTENAY LAKE. Within 2½ miles of the charming little city of Kaslo.

Kaslo

Telegraph and Telephone communication. NURSERY of 25,000 trees and plants with an experienced nurseryman at the head of it, located on

NELSON NEWS OF THE DAY

Judge Wilson will hold chambers tomorrow morning.

Mrs. G. A. B. Hall will not receive again this season.

A fine bear skin was purchased yesterday from an Indian visiting the city.

A drunk was fined $10 and costs yesterday morning by police magistrate Crease.

A operatic attraction for the near future is the visit of the Grace Cameron apera company.

The Nelson Associated Football club put in a practice yesterday afternoon, preparing for possibilities.

There is excellent fishing just now at Procter, a number of Indians recently having made extra good catches.

It is expected, with a little sun, that the first Kootenay strawberries will be on the morket by the end of next week.

A sketch plan of the Nelson building at the Calgary fair is to be seen at the office of Messrs. McMorris & Horstead.

The pupils of St. Joseph's school are practicing diligently for the breaking up entertainment which will be given before the summer holidays, probably about June 21st.

The fence around the recreation ground is now up and work has been started on the building up of the track so as to make it the best possible under the conditions, for horse racing.

The customs returns for the past month were $28,879.52 as against $31,608.23 for May 1907. The returns would have been in excess except that some heavy arrivals were too late to be passed the books.

A meeting of the general Dominion Day celebration committee will be held in the court house on Friday evening next at 8 o'clock, when it is hoped that all sub-committees will be ready with their reports.

The films for the moving pictures at the Alice roller rink, for some unexplained reason, not arriving, there was no exhibition yesterday evening, causing great disappoint ment to a number of people. It is hoped that everything will be in order by tomorrow night.

The Nelson Iron works is just in receipt of an order for the casting and turning of a new sheave wheel for the head works at the Centre Star. The wheel measures 11 feet 3 inches in diameter and hitherto has always been procured from outside points. This is the first time that a wheel of that size will have been cast and turned within the Kootenay.

M. E. McQuarrie and G. P. Wells, who are the special sub-committee on finance of the committee on the Calgary fair, started in yesterday collecting subscriptions for the exhibit. A goodly sum is wanted by the end of the week as the main committee are desirous of making the exhibit as big an advertisement for Nelson as can possibly be done. But they sapiently remark that nothing can be done without money and the more money the better. Thus the finance sub-committee are just now getting on a tall hustle.

J. H. B. Fitzpatrick who is the advance agent for the Norris and Rowe circus, stated definitely yesterday afternoon that his circus would be in the city on July 2nd and would show here on the C. P. R. flats. Mr. Fitzpatrick on being asked if the whole circus would be brought here or whether it would be split up declared that tent shows were never split and that his would be no exception to the rule. He siad indeed in set terms that the show which would come here would be the "Greater Norris and Rowe's circus, museum, menagerie, hipprodrome ond congress of nations."

Mrs. J. F. Kilby left yesterday morning for Cleveland, Ohio, where she will spend about three months visiting friends.

The thermometer yesterday varied between 62 and 50 degrees and on Sunday Between 65 and 45 degrees. There was .03 inches of rain recorded.

Despite the backwardness of the season a rancher over the lake reports that he has got sufficient goosberries on hand to be able to make pies grom the produce of his garden.

The secretary of the Fruit Fair is in receipt of a tasty cover for the prize list this year. It shows some Spitzenbergs, colored, on the one side and some cherries on the other. It is probably the best of the kind the Fair has as yet used.

Users of power are notifed that there is a possibility that power will not be available from the city power plant tomorrow morning between the hours of six and ten o'clock. An efficiency test is to be conducted between those hours.

The note in Sunday morning's issue of The Daily News as to the expiry of miners licences at midnight on May 31st brought many applicants to the mining recorder on Sunday, one arriving breathless at his residence five minutes before the stroke of midnight.

The Sherman theatre yesterday lost its name. It is now the Nelson Opera house, having been leased for one year with an option of purchase by Messrs. Willis and Cosgrove of Calgary. Mr. Cosgrove declares that he will do his best to see that Nelson is supplied with the best attractions which are going over his circuit.

The junior lacrosse players are endeavoring to arrange a game for Dominion Day celebration with Rossland. The matter will come up befor the sports committee. The bringing of a lacrosse team into the city is apparently an expensive matter for the youngsters and they are already contemplating the starting of a subscription. This, however, will be deferred until some arrangement can be made with the sports committee of the celebration.

The regular meeting of Queen City Rebekoh Lodge No. 16, I. O. O. F. takes place in the lodge room this evening at 8 o'clock. Business, election of officers and degree work. After the general routine of work the members will spend the balance of the evening socially. A full attendance of the officers and members is requested.

B. S. McGregor has taken over the photographic gallery of F. N. Gillies on Baker street. Mr. McGregor is just out from Aberdeen where he had a good reputation in his business. Mr. Gillis leaves this morning for Vancouver where he is taking an interest in an old established business. He has no intention of losing sight of this city and intends to return at some future date.

Nelson went to pieces in its baseball game with Trail on Sunday last. The Trail men improved the position they gained at Kaslo by defeating the green and white by a score of 13 to 7. Sturgeon was not pitching, Bluett being a good substitute. Nevertheless the Nelson men did not seem to be able to hit. They have not lost heart by any means and will go in for team play and intend to defeat Trail later in the season.

The Kootenay Orchard Association, Ltd., of this city has just got out from The Daily News Job depaitment a most excellent 12 page pamphlet on orchard homes in the Kootenay. Besides giving an immense amount of useful information of the district and climate the pamphlet is replete with illustrations including a map. The whole is a very creditable production and as many thousand of the pamphlets are being distributed at far distant points timely information regarding the fruit land situation hereabouts will be distributed where it will do the most good.

The liberals of the Kootenay electoral district hold their nominating convention in this city on Thursday afternoon next. The convention proper will open in the opera house ot 2 o'clock and in the evening the visiting delegates will be entertained at a smoking concert in the opera house. Delegates from outside points are advised to purchase single trip tickets and to secure receipts for same from the ticket agents, as a reduced return fare will be allowed upon the presentation of a sufficient number of tickets.

PERSONALS

H. Wynn, representing Kilgour Brothers, Toronto, is in the city on his periodical trip through this territory.

H. S. Bodmer is leaving next week for a two months' trip to the old country.

C. E. Smith, representing the W. V. Dawson paper company of Montreal, is in the city.

M. B. Chater leaves this morning for Liverpool.

F. J. Deane got back from Winnipeg last night.

Alexander Hill, consulting engineer to the Le Roi No. 2 of Rossland, arrived from England last night.

CHINESE MUTINIED

Attacked Watchman at Tacoma and Would Have Hanged Him

TACOMA, June 1—The refusal of Jas. Gainsford, special watchman on board the British steamer Suveric, captain W. Shotton, loading lumber here for Manila, to allow her crew of 72 Chinese to go ashore yesterday maddened them and they attacked him with hatchets and marline spikes, breaking one of his ribs and otherwise injuring him. But for the timely arrival of the ship's first mate and others of the white crew, the Chinese would have succeeded in lynching Gainsford with a rope that someone attempted to put around his neck. The aged watchman fought them off with his revolver and shot one of his assailants, inflicting only a flesh wound. No arrests were made but the incipient mutiny may be looked into by immigration offficials.

KILLED AT COBALT

J. C. Contractor Named Hayden in Explosion—Murder Reported

COBALT, June 1—A young contractor from British Columbia, named S. Hayden was killed at the Patterson mine this morning. The explosion which resulted in the death of Hayden and the injury of his partner, is supposed to have been due to a defective fuse.

Reports have reached the came of a murder at McDougall yesterday. The coroner and police left this morning to investigate.

TOMORROW'S DERBY

The King's Horse Perrier I Once More The Favorite

LONDON June 1—W. K. Vanderbilt's Seasick II., which yesterday ran a dead heat with M. Deschamp's Quintette II., for the French Derby at Chantilly, arrived at Epsom this evening. The horse is apparently none the worse for his hard race yesterday and is expected to go to the post in the Epsom Derby on June 3 in excellent fettle..

Today's betting against Seasick II. is 10 to 1. August Belmont's Norman III., after temporarily giving place to king Edward's Perrier, is again the favorite at 100 to 15 against, with Mountain Apple and Perrier close up to 7 to 1 and 15 to 2 against respectively.

PRETTY PROGRAM

Natives in Manila to Declare War—Rebel Leader Hanged

MANILA, June 1—The Moros on the island of Jolo are reported restless and one of the Dattos has vowed to personally kill 20 whites and 100 Chinese and then declare war. A sentry has been attacked and seriously wounded. The guard has been doubled. It has been reported that settlers have been attacked.

Faunstinc Allen, leader of the Dios-Dios movement ,who once assumed the title of pope of the island of Leyte and his principal followers, were hanged at the prison of Bilibid today. They were found guilty of several cruel murders. A strong effort was made to induce governor general Smith to commute the sentence, but he refused.

Emmerson Chosen

MONCTON, June 1—H. R. Emmerson was nominated this afternoon by the liberal convention for Westmoreland county.

No Need of Suffering From Rheumatism.

It is a mistake to allow rheumatism to become chronic, as the pain can always be relieved, and in most cases a cure effected by applying Chamberlain's Pain Balm. The relief from pain which it affords is alone worth many times its cost. It makes sleep and rest possible. Even in cases of long standing this liniment should be used on account of the relief which it affords. 25 and 50 cent sizes for sale by all druggists and dealers.

Commencing With Soup
