VICTORIA, B. C. JUL 2 1908 Legislative Assembly

VOL. 7 NELSON, B. C., SUNDAY, JUNE 28, 1908 NO. 56

CLOSE ENDING

Miss Gilchrist Wins by Narrow Margin

BIG POPULARITY CONTEST

EAST KOOTENAY RETURNS YET TO BE MADE UP—MISS TANHAUSER OF CRANBROOK HAS BIG LEAD—MISS PEARL M'GREGOR'S LUCKY GUESS.

The popularity contest in the Nelson district closed at 12 o'clock midday to the second, as previously advertised, and one of the most exciting events in the lives of two of Nelson's popular young ladies was brought to a close thereby. Miss Louise Gilchrist won the coveted prize,—true it was by a very narrow margin, but it was a win in a contest that was so close that right up to the counting of the last ballot there was nothing certain as to the outcome. The vote polled yesterday was over twice as high as any Saturday vote yet recorded, each candidate getting over 55,000 votes.

At 12:05 Miss Gilchrist received a wire from outside forwarding 5200 votes, but these were not counted as they arrived too late.

In the Boundary Miss Coutts, of Phoenix, added to her already large vote, and Miss Tanhauser, of Cranbrook, now has a big lead over her opponent, Miss Brown, of Fernie, but the outcome in the East Kootenay district will not be decided until the arrival of the Crow boat on Monday evening.

The vote for the week in the Nelson district was:

	Miss McGregor	Miss Gilchrist
Monday	1,443	2,120
Tuesday	534	2,679
Wednesday	2,426	3,969
Thursday	17	4,726
Friday	1,848	3,037
Saturday	55,817	55,235
	61,585	71,766
10 per cent Bonus		7,176
Total for week		78,942

Totals

Miss Gilchrist	187,262
Miss McGregor	182,592

Boundary

Miss Coutts	142,195

Crow's Nest

Miss Tanhauser, Cranbrook,	19,208
Miss Brown, Fernie	3,005

The contest, although at all times very keen, has been noticeable from its inception by the spirit of great feeling prevailing between the candidates and their friends, and The Daily News takes this opportunity of thanking both young ladies and their friends for the kind interest displayed and hopes to merit the confidence expressed by its many readers in their splendid support in the competition, and although the original rules do not permit of all contestants winning and taking the trip, in wishing the successful ones bon voyage, we want the unsuccessful ones to know that their efforts are greatly appreciated by us.

Miss Gilchrist has the following kind words to say to her many friends, and The Daily News:

"I take this opportunity of expressing through the medium of the best newspaper in British Columbia, my sincere thanks to all who so effectually contributed to my success in The Daily News popularity contest.

"LOUISE GILCHRIST."

It is said lightning never strikes the same place twice. However that may be, it come very near doing so yesterday. The Daily News popularity contest excited such keen interest that another contest being conducted in the city was almost lost sight of. The prize in this contest was also a trip to the Calgary fair and the way to win was to make the nearest guess as to the number of beans contained in a jar at the Alice roller rink. Miss McGregor came within 4670 votes of winning The Daily News prize, but made even a closer run in the guessing contest, as she came within three of the exact number contained in the jar. George Horstead was the judge and he found that there were 1059 beans in the jar and Miss McGregor had the number nearest, 1056. So she will also receive a free trip to view the Dominion exhibition at Calgary. There were a large number of guesses, ranging all the way from 200 to 40,000, and Harry Gibson says that if The Daily News contest had not been on he would have probably the biggest bunch of guesses ever collected in one pile.

CENSUS OF VANCOUVER

POPULATION NOW CLAIMED TO BE 90,000

ATTORNEY GENERAL'S VIEWS ON WALKEM CASE

VANCOUVER, June 27.—The white population of Vancouver has increased by no less than 16,507 since the last issue of Henderson's directory in 1907.

However much it might be possible to juggle with figures, a calculation based on the minute and accurate information that this directory presents, precludes exaggeration. Last year the figures stood at 63,006 whites and 6,850 Asiatics and Indians. This year the whites number 79,513 and the others 7,500, or altogether 87,013. This places the population in round figures in the vicinity of 90,000.

This result is arrived at only after a most critical cmfw shrdl hrdlushrd lu a most careful analysis and from a long experience gained in estimating the populations of rapidly growing cities. This year instead of using the usual multiple of three for each address Henderson's have used only two and seven-eights, as they wished to be as conservative as possible. The figures appear to have surprised the compilers of the directory themselves and in consequence they were all rechecked.

From 1902 to 1907 the individual names appearing in the directory increased by about 200 a year. This year they have increased by no less than 6,655. The increase in the number of firms doing business here is one hundred and thirteen.

Glancing at the last issue and noting the enormous number of corrections and additions in this year's issue, it shows how useless a directory becomes unless it is kept up to date. The growth of a new country is extremely well illustrated when such a comparison is made and the individual growth of Vancouver is from these figures surprising even to the most optimistic.

The directory this year is a substantial volumne of 1,258 pages. It includes streets, individual names, and a business directory. It gives full information regarding the provincial and dominion legislatures, the city council, and other departments of civic government.

Interviewed this morning as to what action the crown intended to pursue in the Walkem case in the light of the judgment of the full court, Hon. W. J. Bowser, attorney-general, said:

"With all due deference to the majority of the judges of the full court, we hold a very strong opinion as to the correctness of the judgment given, and as some very important points have been decided, which not only affects this trial but also other criminal trials, as minister in charge of the administration of justice in British Columbia, I have come to the conclusion that I must have the very highest judicial authority before accepting the judgment of the full court; on that account I have decided to appeal to the privy council.

"In deciding to appeal the government feels justified, not only in the protection of the public and to have determined the supremely important issues raised, but also in the protection of any unfortunate person who, in the future, may be charged with crime—in the case, say, of an acquittal. In connection with the administration of justice it is essential that it should be decided by the highest tribunal whether our full court here has given a proper decision on this application which has resulted in a new trial being ordered.

"If counseling in Canada an offence to be committed in some other country is not a crime it simply means that all sorts of crime could, with impunity, be counseled in Vancouver and committed in Seattle. From the point of view of the protection of the public this is a point of the greatest importance and one which cannot be permitted to remain in doubt. The question of corroboration in the case in question is also a matter which demands determination at the hands of the highest judicial authority."

"Is there any means provided for appeal?" he was asked.

"It is quite true that under section 1025 of the criminal code there is no appeal from a criminal case to the privy council, but there still remains the king's prerogative, which is exersised by judicial members of the privy council to hear any appeal as a matter of right from any subject of the realm. I am very strongly of the opinion that when the attorney-general of any colony or province of the empire makes an application as a matter of right to be heard the judicial committee will grant the request.

"I therefore propose at the present sitting of the privy council to make application that leave be granted to appeal. Under the circumstances of the case I must secure leave to appeal and if leave is granted the case will come bfore the privy council at the sitting next fall."

SPORTS YESTERDAY

Toronto Badly Beaten at Ottawa by Capitals—Other Games

TORONTO, June 27.—At lacrosse today the Tecumsehs defeated the Cornwall team by a score of 5 to 4.

OTTAWA, June 27.—The Capitals of this city today defeated the Torontos by a score of 12 to 3.

MONTREAL, June 27.—The lacrosse match here today between the Nationals and the Montreals resulted in a win for the former, who scored 11 goals to Montreal's 8.

NEW YORK, June 27.—At the Crescent Athletic club's grounds at Brooklyn today the Crescent lacrosse team defeated the twelve from the Toronto Athletic association by 9 goals to 1.

DELIBERATELY WRECKED

Spikes Put on Track and Engineer of Express Was Killed

HAZLETON, Pa., June 27.—A Pennsylvania railroad train, which left Pottsville at 5:30, was wrecked at Lofty on the mountains near here at 6:30 a. m., and the engineer was killed and several passengers hurt. The engineer is under the wrecked engine.

About twenty people received injuries, none of them very serious. The Pennsylvania uses the Lehigh Valley railroad tracks between Della junction and this city. The superintendent of the Lehigh Valley says his men found two spikes on the track placed in such a manner as to leave no doubt that they had been put there to deliberately wreck the train.

BIGGER STEPS

New Mining Record for This Year

EXTENSIVE IMPROVEMENTS

KOOTENAY MINES NOW SEEM TO BE SETTLING DOWN TO A PROLONGED AND CONTINUOUS PERIOD OF PROSPERITY—SHIPMENTS FOR THE WEEK.

PROVINCIAL LIBRARY.

The shipments the past week fall slightly below the total of those for the week before. As, however, this week will see the blowing in of the Dominion Copper company's plant at Boundary Falls, it is not again likely this year that the output of the country will fall below 40,000 tons. This figure, it should be remembered, even 12 months ago, would have been considered a large one.

Increasing shipments are coming into the country from mines south of the line, in many of which, however, Canadians are largely interested. Extensive improvements are in progress at the Granby mines and by the end of the year a record tonnage of at least 50 per cent over the total of this week, the last of the first six months of the year, is likely to have been established.

[In an effort to catch the Crow steamer this morning, leaving for the first time at 4 a. m., it was found necessary to omit details of shipments, which will be found in the next issue of The Daily News.]

LONG FIGHT WILL END

MODERATE MEN AT OTTAWA WILL ACCEPT TERMS

WESTERN LIBERALS GIVE WAY WITH GOOD GRACE

(Special to The Daily News.)

OTTAWA, June 27.—There appears good reason to believe that Monday will see the end of the struggle between the government and the opposition over the disputed clauses of the election bill. The arrangement reached between sir Wilfrid and Mr. Borden, it is expected, will be acceptable to the moderate men of both parties and will satisfy in substance the claims of Manitoba conservatives for the use of the provincial lists in the federal election. At the same time a judicial revision will amply safeguard these lists. The chief obstacle to a settlement is reported to have been the determined opposition of the western liberal members to the acceptance of the Manitoba lists, but these have now given way with good grace.

MRS. MANLY DEAD

Funeral Will Take Place at Grand Forks Monday Afternoon

(Special to The Daily News.)

GRAND FORKS, June 27.—The many friends of Mrs. Eliza Manly were very much grieved today to learn that she had died last night. Mrs. Manly had been ailing for some time past and the end was looked for but not expected to sudden. The deceased lady was 83 years 10 months old, and was the mother of Dr. Manly, of Republic; John Manly, of Chicago, and W. K. C., L. A., and J. L. Manly, of this city. Her son John arrived from Chicago a few days ago. The funeral will be held from the Methodist church on Monday afternoon at 1:30.

GOOD SPORTS

Excellent Program for Dominion Day

WILL BREAK ALL RECORDS

FINANCE COMMITTEE REPORT LITTLE TROUBLE COLLECTING—CRACK SHOTS ARE PRESENT—ILLUMINATIONS ON THE SECOND NIGHT.

Everything is now pointing to one of the best celebrations that Nelson has ever had on July 1 and 2 since the time of its first observance here eighteen years ago. The finance committee declare that they are having an easy time with their collections, the circus will not be here to interfere with the receipts of the second afternoon but the famous Kilties band will be present on both nights to add to the enjoyment. The illuminations of the city and of the lake will be on a better scale than hitherto atempted and as the country is fuller of people than it has ever been before the crowds coming to Nelson will be far larger than usual.

Last night there arrived from Tacoma Frank C. Riehl of the Remington company one of the best professional trap shooters on the continent. With him also came up E. S. McColl of the same company from Spokane, another professional and there is also expected today from Portland W. A. Robertson of the Dupont company, a third professional. All three will take part in the trap shooting here on the two days of the celebration but, of course, are not in the competition. Nelson will have competitors in plenty however who are not professionals and if it manages to carry away any of the prizes it will have to shoot very well. There are known to be coming John Mocine of Wallace, a crack shot, E. J. Chingrin of Spokane who took everything at the trap shooting in Walla Walla last month and who is looked upon as quite equal to the best professional. Another good man will be G. Britton of Vancouver, who is about the best in that city. The local men, such as C. H. Ink, G. P. Wells, C. D. Blackwood, Archie Bishop and George Tierney will be hard put to it.

Each day there are ten events varying from 10 to 25 birds apiece aggregating 150 birds. Besides the entrance money, which will be $10 a day for the ten events there will be $150 added money. Moreover there are several cups offered, the principal one of which is the Ink & Ward cup, to remain the property of the gun club and to be held by the winner for one year only, for the best aggregate for the two days. Then there is also offered the Wells gold medal for the marksman who breaks the highest number of pigeons consecutively. Altogether this feature of the celebration is sure to attract a great deal of attention.

For the children's parade which, apart from the trap shooting, really opens the first day of the celebration, J. E. Annable has arranged a special program which he will have distributed. The junior lacrosse game between Nelson and Rossland will be the feature of the morning and should prove interesting. The pony races, which also take place in the morning, will be confined to local ponies. As there are several good horses in the city some good racing is to be expected. The old time fire team rivals, Rossland and Nelson, will also be to the fore that morning in the hub and hub race and a keenly contested event is to be looked forward to. Just how many teams will enter is not at present known.

The afternoon opens with a football match between Nelson and Coal Creek and the latest advices are that the Crow men will be here in full strength and mean to win the game. However, the Nelson boys will have a little to say in this matter.

The next event of the afternoon is a lacrosse match between Rossland and Nelson. Rossland has five new players this year and the Nelson team will have its work cut out to win. The launch races will come off about 4 o'clock in the afternoon and arrangements have been made for a barge on the lake front for the reception of visitors. Some good prizes are being put up and a lot of good races are to be looked for. At the same time will come off the log rolling contest. A. McIver, the champion log roller of Michigan has entered for this, as have also Shorty Dunn and a couple of other local men and there should be some fun developed.

At 7 o'clock will be laid the corner stone of the new Methodist church, which will be the finest edifice of its kind in the Kootenay and the laying of the corner stone is therefore an event of some importance. At the same time will come off the wet test firemen's races, on Baker street. For this there will be the Nelson and Rossland teams entered and also, possibly, Grand Forks and Fernie. For the evening the attractions will be the Kilties in the fair building and a big dance at the Alice roller rink.

Nor are the attractions of the second day at all behind those of the first. The day begins with trap shooting and a long list of caledonian sports in which many noted outside athletes are entering and in which there will be a number of the Kilties dressed in Highland costume. A game of base ball with the Spokane juniors will be another attraction for the morning. Yet another feature of the forenoon is the log chopping. Luke McGlue, champion of Wisconsin, is one of the entries while W. Watson who won last year, and Shorty Dunn, will well represent local talent.

In the afternoon the Kilties will parade down to the recreation ground and the members of that famous band will engage the local players at a game of base ball and expect to lay it all over Walmsley's stellar constellation. There will be also that afternoon open events for all horses. Horses are entering from Colville, Cranbrook, Northport and Rossland and there should be seen some very good racing.

Then comes the big drilling contest when a number of the very best drillers from the Slocan, from Butte and the Coeur d'Alenes will show their strength and skill and will no doubt draw the biggest crowd of the celebration. In the evening comes the Kilties again in the fair building and there will be attempted a better series of illuminations upon the lake, with a torchlight and lanterned procession of boats than Nelson has as yet witnessed. For the still indefatigable the evening and celebration will end by a dance at the Alice rink.

INSPECTION AT FERNIE

KOOTENAY RIFLES REVIEWED BY INSPECTOR GENERAL

BRANCH OF BLACK HAND FOUND IN EAST KOOTENAY

(Special to The Daily News.)

FERNIE, B. C., June 27.—The two local companies of the Kootenay rifles were inspected last night by major general Lake, inspector general of the Canadian forces, accompanied by colonel Holmes, district officer commanding, and major Eaton. The C. P. R. express from Nelson was an hour late in arriving and the party drove immediately to the rink where the manoeuvres were held. The companies paraded at 8 o'clock and upon the arrival of the inspecting officer were put through the usual company drill, which was performed most creditably. The parade state was not as large as in former years, nor as large as might be desired, but the reason was not difficult to discover. For two years or more the government have not seen fit to erect an armory or drill hall for the accommodation of the companies and the members of the militia have had to put up with the greatest inconvenience and discouragement and it was only the enthusiasm of the officers and non-commissioned officers under adverse circumstances that has held the organization together. The military spectacle drew a large crowd to the rink notwithstanding the wet weather, and the good work of the company was frequently applauded. After the inspection was over Gen. Lake congratulated the officers and men for the creditable showing they had made and said he was well pleased with the efficiency of the companies. The following officers were in command: Captains J. H. McMullen and G. G. Moffatt, lieutenants W. S. Keary, G. H. Boulton and S. D. Wark.

The provincial police have discovered a branch of the Black Hand society in Fernie which has recently been organized among a certain class of the Italian colony here, and have already gathered into the toils eleven suspects. The organizers of the society have recently arrived from Denver, Colorado, and have been enlisting a number of young men and were carrying on an active propaganda. There is no room for that work here and it is hoped that the arrest of the unwelcome visitors will stamp the society out as far as this district is concerned.

The big bush fire which did so much damage in west Fernie yesterday was completely extinguished by the heavy rain which commenced to fall this morning and lasted all day. The damage was greater than at first reported but it is fortunate that the flames were conquered when they were or the loss might have been tremendous.

A wedding of especial interest to Fernie people took place in Elko Wednesday afternoon when Miss Mary Isabella Todhunter, daughter of John Todhunter, formerly superintendent of the coke plant here, was united in marriage to Harvey Percival Crosby, late student in the law firm of Ross & Alexander, Fernie, but now of Spokane. The ceremony was performed at the residence of the bride's parents, Elko, by the Rev. R. S. Wilkinson of Christ church, Fernie.

FOR OLYMPIAN GAMES

AMERICAN ATHLETES START OFF FOR ENGLAND

THEY ARE OUT TO WIN FOR THE UNITED STATES

NEW YORK, June 27.—Nearly all the members of the Olympic team, which sailed for England today, gathered in the gymnasium of the New York Athletic club last night to receive final instructions. Barlow S. Weeks, representing the American Olympic committee, addressed the men at some length, telling them that they must remember that in the great games they were not representing a college, a club or a country, but were out to win for the entire United States. His speech was loudly applauded and then the men drew lots for staterooms on the steamer Philadelphia on which they sailed for England today.

Commissioner Bingham decided to grant sixty days leave of absence to New York's three policemen who sailed with the American team. They are: Martin Sheridan, the all-round champion; John Flanigan, champion hammer thrower, and Mike McGrath, Flannigan's pupil and former champion with the 16 pound hammer.

RUSSIA ACTIVE

Taking Principal Part Today In Persia

ASQUITH IS CRITICIZED

TIMES CORRESPONDENT WRITES A SIGNIFICANT LETTER—HARVARD CREW CANNOT ENTER FOR OLYMPIC GAMES—ARREST OF R. SIEVER.

LONDON, June 27.—The Times correspondent's at Teheran says that the Shah's proclamation claims that Persia has been under martial law from June 22nd and that General Laikoff, commander of the Cossacks, has a free hand to deal severely with the people.

The assembling of the people and the carrying of arms is prohibited on pain of death. Several members of the assembly are in chains in the royal camp. The others are scattered and their whereabouts is unknown. The number of prisoners in the camp is increasing hourly. Those detained are being subjected to the worst of ordeals. Messages from the provinces are being censured, thus severing the provinces from communication with the capitol. It is difficult to pass judgment as yet, the Times correspondent adds, but undoubtedly the feeling is that what is regarded here as the inactivity of Great Britain and the activity of Russia will probably result in restoring the shah's autocracy. The correspondent also says that it is reported from Tabriz that the governor of that city has taken refuge in the Russian consulate there.

At one of the largest and most enthusiastic meetings of the Pan-Anglican conference the question of socialism came up for discussion, and at one time the chairman had to ask the audience to cease cheering in order to save time.

The Mail says the meaning of the meeting, if it has a meaning, must be to show the church that there is far more sympathy with the most advanced social ideals than many of her nearest friends hitherto supposed.

William Waldorf Astor has given $5,000 to assist the British school at Athens in carrying on its excavation in Greece.

There is little prospect of the Harvard varsity eight that vanquished Yale at New London on Thursday, getting a race in England this year. The Harvard crew cannot row in the annual Henley regatta, as the stewads have determined not to accept entries from foreign crews to compete in the regatta of 1908, and they are too late to enter for the Olympic race to be held in July 28th, entries for which are now closed.

A great sensation has been caused throughout England by the arrest today of Robert Sievier, editor of "Winning Post" and one of the best known sportsmen in this country, on the charge of attempting to blackmail Jacy Joel, a nephew of the late Barney Barnato, the "diamond king." Sievier was arrested at the Sandon track during the afternoon's racing and brought to Bow street in a motor car, where he was remanded to appear for a hearing on Monday. He is charged with having threatened to publish a defamatory article about Joel unless the latter paid him $25,000.

SANDON IS ABANDONED

K. AND S. LINE WILL OPERATE TO M'GUIGAN

KASLO CITIZENS HOLD MEETING AND PROTEST

(Special to The Daily News.)

KASLO, June 27.—It is reported that the K. & S. railway intend shortly to operate the line only as far as McGuigan, cutting off Sandon entirely. A meeting of citizens, which was largely attended was held last night to protest vigorously against the intended change.

The last of the Kaslo contingent attending the inspection of the 102nd regiment in Nelson, arrived home yesterday evening. The boys enjoyed the outing immensely and speak highly of the good treatment given them by the Nelson companies.

D. McPhee, who lost his right leg in an accident recently at the Rambler mine, has so far recovered as to leave for home, accompanied by Mrs. McPhee and his brother J. A. McPhee, the Dr. left yesterday for Colfax, Washington. He is as jolly as ever and treats his misfortune lightly.

A good crowd of Kaslolites intend taking in the Nelson celebration on Monday next, for which the C. P. R. offer a $1.25 rate for the return trip.

Competition is getting keen as the time closes for the Rambler gold medal fishing contest, which ends in a few days. So far Alfred Coolidge of Spokane leads with a 17½ pounder.

The city council is about to submit two by-laws for the sanction of the ratepayers. One is for the purpose of borrowing $1,000 to buy block 12 from the K. & S. Co. and to turn it into a park and exhibition grounds. The other is for the borrowing of $5,00 to fix up the sidewalks of the city. Both are expected to meet with general approval.

CANADA'S CENTURY

New Yorkers have become alarmed over the transfer of the grain trade to the Montreal route but in this business geography fights on the side of the Canadian sea port and this advantage can never be entirely overcome by artificial aid.

If one will study a map on Mercator's projection which shows the relative postions of the countries and not with the curvature of the ordinary map, he will see that Canada lies literally between the wheat-growing district of the American west and Europe, says the Montreal Star. For the wheat from the American west to go by way of New York, is to go out of its road; and no cargo can afford to do this when the cost of carriage gets down to anything like a level rate per mile by the two competing routes. Eventually the water way from Chicago, Duluth and Port Arthur to the port of Montreal—whether by way of lake Erie or Georgian bay—will be the commanding route for western grain.

The New York Sun, in discussing the situation, recalls the Canadian claim that, while the nineteenth century belonged to the United States, the twentieth would be the Canadian century. It points out that the two and a half cents saved on each bushel of grain shipped by way of Montreal, is now decisive; and wonders if the American railways can do anything to win the traffic back. "Yet," it concludes, "if the national advantages are with the Canadan port the effort to compete with it by means of artificial stimulation is not likely to be successful in the long run. Has Canada's century begun?"

Now that Canada's great west is commencing seriously to enter into the business of supplying grain to the world, it is fitting that the great shipping port of the Dominion should participate in the movement.

EDITORIAL NOTES

A report in the coast papers states that the bar association of Vancouver met last week and considered the best means to be taken to bring about relief of the congested state of litigation in the Vancouver courts. Over an hour was taken up in canvassing the situation but in the end nothing was done. While the lawyers are interested in the situation, the general public and particularly the public mixed up in litigation, are much more deeply interested and unless something is promptly done to change the present unsatisfactory state of affairs, those in authority are likely to receive a pretty plain intimation that it is time for a change. If the proclaiming of the new court of appeal will help the situation, and this is said to be the case, then there should be no delay in doing this as quickly as possible. At its best, law with all its delays, is most unsatisfactory, but with the added burden now imposed, the situation has grown intolerable.

When premier McBride visited Nelson last month he laid particular stress in his speech at the rink, to the "quiet" vote, so often overlooked even at election times, until the ballots are counted. The premier made an appeal to those whose interest in British Columbia was greater than their party feeling, and asked them to judge his administration fairly when election time came around and vote accordingly. In almost every constituency in this province it is the "silent" voter who turns the scale on election day and Mr. McBride made no mistake when he appealed for support from the source he did. The Toronto News in a lengthy article on the political situation all over the Dominion today takes much the same view as Mr. McBride did here, on the independent voter's position. Says the News, concluding the article in question:

MINARD'S LINIMENT CO., LIMITED.
Gents,—I have used your MINARD'S LINIMENT in my family and also in my stables for years and consider it the best medicine obtainable.
Yours truly,
ALFRED ROCHAV,
Proprietor Roxton Pond Hotel and Livery Stables.

All over this country there are young men, yet full of the eager and disinterested enthusiasm of youth, and inspired by high and ingenuous zeal to conquer a proud destiny for the land of their birth and affection, who may be enlisted in this contest. To these may be joined the increasing number of Canadian citizens in all the provinces who have grown restless under the slavery of party when party means an agency of extravagance and jobbery and a refuge for abuses. United in a generous determination to restore conditions of political equality, to estblish the independence of the civil service, to end party ownership of the public offices and the public resources, and to establish equal and honest dealing with public supplies and public contracts, they can hold the balance of power and determine the electoral result in two-thirds of the constituencies of Canada.

WILL BE A LARGE PARTY

PROMINENT MINING MEN TO VISIT KOOTENAY

RECEPTION AT NELSON TO BE ARRANGED FOR SEPT. 17

There was a special meeting last night of the local branch of the Canadian Mining institute held in the Publicity Bureau to which were invited others interested. The meeting took up the matter of the entertainment of the party of mining engineers which is to visit Nelson on or about September 17 next. There were present E. W. Widdowson, J. C. Dufresne, F. A. Starkey, W. J. Wilson, A. B. W. Hodges, Leslie Hill, R. S. Lennie, I. G. Nelson, A. M. Kelly, E. K. Beeston and mayor Taylor.

Mr. Hodges, as president of the association, addressed the meeting and explained that during the summer there would be an excursion throughout the mining districts of Canada of 15 representatives of the mining societies or Europe, three English, one Scotch, one Belgic, one French and one German society would be represented. These were coming through as the guests of the Canadian Mining institute, which would defray their expenses from Europe and back. Towards these expenses the federal government had granted $10,000 and the province of Ontario $3000. The B. C. government will also be approached for an appropriation. The 15 guests, however, will not represent the total number of visitors. Other members of the European institute will also join the party, but at their own expense. In addition, there are several newspaper men coming from the European journals. On leaving the eastern provinces for the east the party will be swelled by eastern members of the Canadian institute and altogether it may be expected that there will arrive in Nelson a party numbering betwen 100 and 150 persons. A special train will be at the disposal of the visitors, consisting of three sleepers, a dining and a baggage car. The party will come to Nelson from Trail on the night of September 16 and will leave for the Boundary on the morning of September 18, spending the whole of the 17th in this city. Special lunches and banquets have already been arranged at Rossland, Trail, Bonnington, Grand Forks and Phoenix, and it is up to Nelson to do its part.

The question of whether it would not be possible to get the visitors here during the fair week was taken up but it was considered that the party would be given a better time if they did not come at that holiday.

The Canadian Mining institute's local branch then appointed three of the local members as a committee to arrange for the reception of the party. These are Leslie Hill, S. S. Fowler and W. J. Wilson. They will meet on Tuesday morning next with the president of the board of trade and the mayor of the city and arrange for a joint committee made up of all three bodies and go into the details of the manner in which the party is to be made welcome.

PARIS SCANDAL

Astounding State of Affairs in Home of Wealthy Banker

PARIS, June 27.—The arrest in this city of the butler Renard, charged with complicity in the murder of August Remy, a wealthy retired banker, who was stabbed to death June 6 in his home in Paris, has revealed the existence of an astounding state of affairs in the banker's household prior to the assasination.

The banker's nephew, named Raingo, after a severe examination, told the magistrate that Renard had killed his uncle. Then breaking down completely, Raingo explained that after years of service in this house Renard had become complete master of the establishment, gaining ascendency over the banker's wife to such a point, that the keys to her money and jewel boxes were always in his possession. Continuing, the young man confessed that he and Renard had had relations similar to those which created the recent so-called "round table" scandal in Germany.

Remy often complained of Renard's growing domination in his house, but his wife defended the butler. The clash came the day before the assassination, and when the banker discovered his nephew and Renard together, he then informed his wife that he would no longer tolerate the situation, and he intended to send his nephew to disciplinary school and that he was going to discharge the butler.

High words followed this announcement. Dame Remy refused to believe the stories told and and finally, in company with her maid, she left the house. That same night, Raingo declared, Remy and Renard quarrelled during the dinner and Renard killed the banker by stabbing him with a dessert knife. After killing the old man the butler arranged the house and dining room in such a manner as to give support to the theory that the crime had been committed by burglars.

NEW DENVER SCHOOL

A Successful Midsummer Holiday Entertainment Was Given

(Special to The Daily News.)

NEW DENVER, June 27.—Yesterday evening the school children of New Denver gave one of their entertainments for which they have such a reputation. The Bosum hall was well filled by a most appreciative audience.

The chairman of the trustees was able to congratulate the scholars and teachers on the most successful year that the New Denver schools have ever had. There has been a record atendance and a very high standard of efficiency.

The problem of a high school education for the children of this and similar districts was mentioned as with the large class New Denver has sent in for the entrance examination the question is growing acute. T. T. Rankine our popular head master, who is a close student of and authority on methods of education, advocated the establishment of efficient central high schools with government aid to the pupils attending them rather than the creation of a number of small and oftentimes inefficient local schools.

The children gave a most excellent and varied entertainment, rousing choruses, witty dialogues, drills, solos, recitations, even a Highland fling and a most amusing sketch of an Irish schoolmaster holding a class.

The entertainment closed with three cheers and a tiger for Mr. and Mrs. Rankine and Miss McVicar to whose skill and industry the great success of the concert and of the schools is due. The proceeds of the concert will be used to purchase an organ for the use of the schools and all who heard the concert will agree that the children thoroughly earned their organ.

KIEL REGATTA

German Emperor's Yacht Came InSecond in Schoomer Race

KIEL, June 27.—The races for schooners run today in connection with the Kiel regatta, was won by the Hamburg, a German yacht. The Meteor, with emperor William personally at the helm finished second, 16 seconds behind the Hamburg.

The Germania, owned by lieutenant Krupp von Bohlennder Halbach, the husband of Bertha Krupp, was a disappointment. Much had been expected of this yacht but she lost her first race by more than five minutes.

No Danger of Poor Tea If You Use

Blue Ribbon

Carefully watched from Plantation to Home, it never varies—is always Rich, Strong, Fragrant.

MACARONI

Don't simply order "Macaroni" when shopping — say "Ramsay's Macaroni." You'll appreciate the difference immediately if you have been using any other kind.

"Ramsay's Macaroni"

is made in Vancouver from specially imported macaroni flour. A trial will convince you of its merits.

When you realize that ninety-nine hair preparations out of a hundred, depend almost entirely upon Tincture of Cantharides for any good they may do, is it any wonder that people fail to get beneficial results from them.

Tincture of Cantharides is made by soaking foul smelling green bugs or flies—that have first been dried and powdered—in alcohol and filtering out the sediment. The practice of using Cantharides began centuries ago, when it was thought that a diseased scalp required an irritant. The utter uselessness of continuing to put these dead bugs into hair remedies, became apparent when the European *Dermatologist, Dr. Unna (ask your doctor about him) discovered that dandruff is caused by a germ* or microbe; in reality an invisible growth, that can be passed from one head to another.

An authority says, "Any successful scalp treatment must be based on the recognition of the microbe theory," and *further, "What on earth gave Cantharides its reputation in hair remedies, is more* than I know. It is a tradition of a century and it is all nonsense. Cantharides cuts into the scarf skin and causes inflamation. It is made of dead bugs, and it furnishes exactly the element of decomposition that scalp microbes thrive upon."

Newbro's Herpicide, the ORIGINAL Remedy that "kills the dandruff germ," contains no Cantharin any form whatsoever. It is made upon the known principle that dandruff, itching scalp and falling hair, as well as dull, brittle and lusterless hair, are caused by a germ or microbe that finds lodgment in the sebaceous glands of the hair follicles in the scalp.

It should be understood that Newbro's Herpicide does not instantly destroy all the thousands of colonies or microbes in a diseased scalp, as a live electric wire might be expected to destroy its victims. The microbic growth occurs just beneath the surface of the scalp, therefore, patience and *reasonable intelligence are required*, but under such conditions Newbro's Herpicide gives results that are often almost marvelous. Even in ordinary use it gives more actual and positive benefit than do *all other hair remedies combined. It stops itching of the scalp almost instantly.*

Dr. V. T. McGillycuddy, Medical Inspector Mutual Life Ins. Co., N. Y., of Denver, Colo., writes as follows:

"Knowing the composition of Herpicide I can state that it contains nothing injurious. Its use will *cure and prevent a recurrence of dandruff. It is an elegant and ideal hair dressing."*

DURING THIS HOT WEATHER people who take pride in extreme cleanliness will find Newbro's Herpicide a positive delight. It cools and comforts the skin and at the same time is highly detergent and sanitary. It is indispensable to sufferers from excessive prespiration or prickly heat. Newbrow's Herpicide conttains no oil or grease. It will not stain or dye.

Revolutionary Leaders Subjected to Severe Torture—Fighting Continues

TIFLIS, June 27.—Fighting is going on between the followers of the shah and factions opposed to him at all points in Persia along the Russian frontier. The encounters have been bitterly fought, but the partizans of the shah are said to have gained the upper hand. It is reported that in several cases revolutionary leaders who were captured were subjected to severe torture.

The shah has caused to be posted throughout the provincial cities copies of a decree ordering the people to surrender their arms to the government arsnals and threatening drastic punishment for failure to do so. Vigorous action against the press of Teheran has been adopted. All printing offices in the capital are kept closed.

GRAND FORKS ORCHARD LANDS

Grand Forks fruit captures Gold Medal in competition with all British Columbia, Washington and Oregon, also First Prize Nelson Fruit Fair, 1907. This is proof enough that Grand Forks can grow the best. The market is always brisk for a first-class quality.

Our land is subdivided in 5 and 10-acre tracts, all cleared, cultivated, ready to plant and abundance of water. Joins the city of Grand Forks, having city conveniences, schools, etc. Also good pastures for stock.

For further particulars apply W. J. BROWN, over Imperial Bank, Nelson, B. C., or American Trust Co., Grand Forks, B. C.

To Investors—One More Chance

An 8-roomed house and one lot, close to car line, with city water, newly painted outside and thoroughly renovated inside; fruit trees in garden, and bringing a rental of $25.00 per month; taxes less than $10.00 yearly; a bargain at the price, only $1300.00.

A small cash payment down, balance in monthly payments to suit.

SHERIFF'S SALE

By virtue of a Writ of Fieri Facias issued out of the Supreme Court of British Columbia, in an action whereof the Western Lumber and Pole Company is plaintiff and W. R. Kinney is defendant. I have seized and taken into execution all the right, title and interest of of the said defendant, W. R. Kinney in a quantity of telegraph and telephone poles and piling, now situate along the line of the Bedlington and Nelson railway, in three lots, at the Kinney landing, the English landing and Smith landing, so called, between Creston and Port Hill Idaho, amounting to all 14,666 poles, more or less, in lengths from 25 feet to 85 feet, in 5 feet increments, and also 15,123 lineal feet of piling, more or less, at the Kinney landing and English landing.

All of which I shall expose for sale at public auction, or sufficient thereof to satisfy said judgment debt and costs, at my office in the City of Nelson, B. C., on Monday the 29th day of June, 1908, at 12 o'clock noon.

The poles and piling may be inspected upon the ground where situate, and a statement of the approximate number of poles of each length at each landing, may be seen at my office.

Dated at Nelson, B. C., 13th, June 1908.

S. P. TUCK,
44-13 Sheriff of South Kootenay.

LAND REGISTRY ACT

TAKE NOTICE that an application has made to register Noah F. McNaught as the owner in Fee Simple, under two several Tax Deeds from R. J. Stenson, Deputy Assessor and collector of the Slocan Assessment District, to Noah F. McNaught, being dated the 27th day of December, A. D. 1907, of all and singular those certain parcels or tracts of land and premises situate, lying and being in the District of Kootenay, in the Province of British Columbia, more particularly known and described as—

All minerals precious and base (save coal and petroleum) under Lots 3023, "Prescott" Mineral Claim, and 3029 "Prescott Fractional" Mineral Claim, both in Group One, in the District of Kootenay.

You and each of you are required to contest the claim of the tax purchaser within fourteen days from the date of the service of this notice upon you, and in default of a caveat or certificate of lis pendens being filed—and in default of redemption—within such period, you will be forever estopped and debarred from setting up any claim to or in respect of the said land, and I shall register Noah F. McNaught as the owner thereof.

Badly Sprained Ankle Cured.

Three years ago our daughter sprained her ankle and has been suffering terribly for two days and nights—had not slept a minute. Mr. Stallings, of Butler, Tenn., told us of Chamberlain's Pain Balm. We went to the store that night and got a bottle of it and bated her ankle two or three times and she went to sleep and had a good night's rest. The next morning she was much better and in a short time could walk around and had no more trouble with her ankle.—E. M. Brumitt, Hampton, Tenn. 25 and 50 cent sizes for sale by all druggists and dealers.

Royal Entertainers

The Kilties band which was selected from all the bands of Europe by his majesty, King Edward, VII to celebrate his royal birthday at Sandringham, England on Nov. 9th, 1884, will give one of their famous concerts in here on July 1st and 2nd.

This will be the farewell appearance of Canada's pride; as they sail to visit our sister colony Tustralia from Vancouver, B. C., on July 19th.

During this tour which will embrace a period of four years, Australia, New Zealand, South Africa, India, Japan, China, Russia, Norway and Sweden will be visited.

The band, forty strong, is augmented by the celebrated male choir, the famous Clan Johnstone troup of pipers and dancers, and two giant drum majors, each over seven feet tall.

No Need of Suffering From Rheumatism.

It is a mistake to allow rheumatism to become chronic, as the pain can always be relieved, and in most cases a cure effected by applying Chamberlain's Pain Balm. The relief from pain which it affords is alone worth many times its cost. It makes sleep and rest possible. Even in cases of long standing this liniment should be used on account of the relief which it affords. 25 and 50 cent sizes for sale by all druggists and dealers.

NEW YORK FASHION LETTER

NEW YORK, N. Y., June 27.—Under the head of shirt-waists are included all those waists and bordice accessories to which the well-dressed woman gives so much attention and which are so necessary to her good appearance.

The new materials that the vogue has brought in are well adapted to these models. The soft silks with their folds and gathers, and frills; the pongees and rajahs, foulards and chiffon cloths with their tucks, applied flat folds and fine stitchings; and the sheer muslins, lawns, linens, batistes and summer silks, which may be made plainly or elaborately according to the purpose it may serve.

There must be a number of these separate waists, those for the morning, those for the tailored suit, those for business; there are others for the afternoon, for dressy evening wear—all to be planned out in appropriate materials and styles.

The following design will appeal to the well-dressed woman as an excellent medium for smart tailored shirt-waists *to be worn with the morning or* business suit. The fabric used was a mercerized French gingham, a popular material for these waists. The back is peculiar in that it extends a trifle *over the front on top of the shoulders,* and the full fronts are gathered to it; especial favor is shown to the shallow yokes that face the backs of the new shirt-waist models, which idea is used in this case. A simulated plait marks the front closing, and regulation bands complete the neck, finished with tapes and buttonholes so that any style of collar or neckpiece may be worn with it. The sleeve is long finished with a link-cuff, though it may be finished in any style desired by the wearer provided it is not a too dressy mode.

French dress linen was used for an excellent model for a tailored waist, which is entirely dressy in appearance because of its much fine stiching and hand-embroidered cuffs and collar, making it suitable for a morning lecture or club meeting. The front is laid in plaits which are stitched near the outer edge, the fulness being left free below yoke depth when preferred, or the stiching continued to the lower edge. A simulated plait cover the front closing and the regulation band finishes the neck, with which is worn hand-embroidered turnover collars, and the turnovers on the link-cuffs may also be embroidered. A group of plaits at the back centre relieves the plainness. Many other materials will be found suitable for this model; such as checked nainsook, striped taffeta, rajah, spotted foulard, French pique and pongee.

A fine Irish dimity was used for a pretty shirt-waist which was made dressy by the addition of crochet lace applied between the tucks to the collar and wide cuffs, though the lace may be *omitted and fine linen cuffs and collar* used with a ribbon puff-bow. Groups of tucks in each front are stitched to yoke depth, those in the back extending to the lower edge of the belt. The full upper sleeves have tucks on the outer side which lends a desirable change in the style of sleeve trimming. Between the groups of tucks are bands of lace, and the collar is of lace and tucks and deep-fitting cuffs finish the sleeves. A belt made of lace between two groups of tucks, laid length-wise and mounted on canvas to give it body would carry out the design to a nice finish. Suitable reproductions could be got from embroidered voile crepe de Chine, figured Swiss, checked batiste, and many of the silk fabrics on the market and the mercerized materials would make up beautifully into wash waists.

All the women who adopt the new skirt will have to practice walking and sitting in it before they will be able to act naturally and gracefully. It is claimed that the effect, when one becomes accustomed to it is charming. Most women will have to watch actresses and study their management of the "trouser" skirt, but society women will probably master it immediately because they make it their business to be able to wear novelties with ease at the first trial.

It is not to be wondered at that the smart-gowned woman is being driven *almost to destraction by the fashions.* No longer the frou-frou of underskirts is heard, silk petticoats are scorned by the up-to-date woman. Fashion now permits only tights underneath and an unlined skirt, *so scant and tight-fitting* that it falls almost like a pair of trousers. This may be a comfortable fashion for summer, but it is a trifle disturbing to the modest maid and matron. With this often is worn the directoire coat with tails almost as long as the skirt. A high, stiff ruff encircles the neck. It is in a brilliant color or plain white with shaded edges, wired up stiff and high, with a ribbon through the middle tied in a big bow.

From this Pierrot ruff emerges a dimly pale face, for it is considered unfashionable to have color. With bright red, rouged lips, the resemblance to Pierrot is heightened. A huge hat touching the ruff at the back, finishes the grotesque picture of the summer girl of 1908.

CATHERINE MANN-PAYZANT.

NOTICE

IN THE COUNTY COURT OF EAST KOOTENAY HOLDEN AT CRANBROOK.

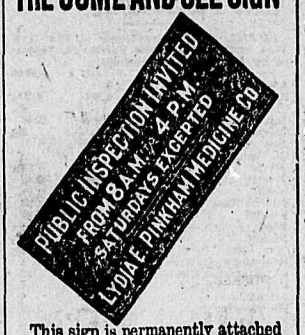
THE COME AND SEE SIGN



This sign is permanently attached to the front of the main building of the Lydia E. Pinkham Medicine Company, Lynn, Mass.

What Does This Sign Mean?

It means that public inspection of the Laboratory and methods of doing business is honestly desired. It means that there is nothing about the business which is not "open and above-board."

It means that a permanent invitation is extended to anyone to come and verify any and all statements made in the advertisements of Lydia E. Pinkham's Vegetable Compound.

Is it a purely vegetable compound made from roots and herbs—without drugs?

Come and See.

Do the women of America continually use as much of it as we are told?

Come and See.

Was there ever such a person as Lydia E. Pinkham, and is there any Mrs. Pinkham now to whom sick woman are asked to write?

Come and See.

Is the vast private correspondence with sick women conducted by women only, and are the letters kept strictly confidential?

Come and See.

Have they really got letters from over one million, one hundred thousand women correspondents?

Come and See.

Have they proof that Lydia E. Pinkham's Vegetable Compound has cured thousands of these women?

Come and See.

This advertisement is only for doubters. The great army of women who know from their own personal experience that no medicine in the world equals Lydia E. Pinkham's Vegetable Compound for female ills will still go on using and being benefited by it; but the poor doubting, suffering woman must, for her own sake, be taught confidence, for she also might just as well regain her health.

GOOD SHOOTING

Chauncey Powers Got 96 Without Making a Miss

COLUMBUS, Ohio, June 27.—Fred Harlew, of Ohio, won the grand American handicap shoot today. Shooting from 16 yards he got 18 out of 20. Wolford Henderson of Kentucky from 19 yards, got 17. In the professional shoot Fred Gilbert ran off his string of 20 without a miss. Barber of Iowa got 17. The highest score for the shoot went to Chauncey Powers of Decatur, Illinois, who got 96 without a miss. George Maxwell, a one armed man, broke more targets than any other, he accounted for 499 out of 540.

Born in Iowa.

Our family were all born and raised in Iowa, and have used Chamberlain's Colic, Cholera, and Diarrhoea Remedy (made at Des Moines) for years. We know how good it is from long experience in the use of it. In fact, when in El Paso, Texas, the writer's life was saved by the prompt use of this remedy. We are now engaged in the mercantile business at Narcoossee, Fla., and have introduced the remedy here. It has proven very successful and is constantly growing in favor.—Ennis Bros. This remedy is for sale by all druggists and dealers.

12 Reasons Why You Should Buy Burton City Fruit Lands

1. It is good soil, clay loam.
2. It is free from stone.
3. It is level land.
4. It is well watered; running water can be put in every house.
5. The blocks front on the lake.
6. The best of transportation; two boats daily.
7. You are close to good hunting, boating and fishing.
8. The land is easily cleared.
9. It is the centre of the fruit growing district of British Columbia, with orchards on the adjoining blocks.
10. The title is good.
11. It is close to town and market.
12. Our price is low and terms easy.

We quote below some of our large tracts of Fruit Lands which we are offering at wholesale prices.

These will be money makers for any one looking for an investment.

These lands are located on Lower Arrow Lake.

234 acres at Syringa Creek with 3-4 of a mile of lake shore. On this property there is a water record of 50 inches.

73 acres 10 miles above Robson on the lake shore.

450 acres on east side of Deer Park with water front.

1120 acres at Deer Park. The government wagon road runs through this property.

540 acres at Brooklyn, including the old town of Brooklyn: 30 acres cleared and over 40 buildings on the property.

712 acres opposite Edgwood Landing on the lake shore.

2200 acres in Fire Valley.

1860 acres south of Burton on the lake shore.

400 acres at Burton City.

320 acres, four miles above Burton City.

120 acres at Nakusp.

These lands have been selected by myself and while there is some waste land in places the surveys were made so as to cut out as much as possible those parts which were unsuited for fruit culture. In the above blocks there are 11 miles of shore.

Write for plan and prices if you are interested.

COMMUNICATIONS

Letters to The Daily News on current topics are cordially invited, subject to the following terms:

The letters must be plainly written (typewritten preferred) on one side of the writing paper only, of reasonable length and must be signed by the writer for publication.

The Daily News is not responsible for the views expressed by correspondents.

EDITOR THE DAILY NEWS:

Having had on previous occasions the privilege to use your columns, I would respectfully ask that you allow me your paper to express an opinion on the recent trouble at Michel, and things which appear to be incidental to same. The Michel miners have always acknowledged that from an academical standpoint that probably they were wrong in taking the action they did, but they have always claimed and believed that the tie-up was simply the culmination of a policy pursued by the Coal Company's officials at Michel. Of course the local labor papers, who apparently wish to do the thinking for the miners, have howled themselves hoarse about the conduct of the local officers, in misleading the men. To pay attention to the snarls of these sycophants would be to honor them. However the worst they could say, was that we had broken faith with the coal company, that we had attempted to usurp the position of the district officers and that our disobedience must be disciplined. The history of this affair is too recent to go into it in detail again, sufficient be it to say that the district officers have refused to handle the cause of the first breach, viz H. Marchant case, on the grounds that he was a non-union mon. How any body of sane men reached that understand'ng passes my comprehension. Because a man has no transfer card he is not considered a union man, and is worthy of no protection. A transfer card in my opinion is only a medium of exchanging members from one uniot to another, an acknowledgement in lieu of initiation fees. This man, however, signed our check-off book, authorizing the company to deduct dues from his wages. This man expressed in this action, a desire to belong to the union fully ten days before any trouble arose. He had done all that was necessary for him to do, what had to be done afterwards devolved upon the local secretary, yet he was denied protection. The coal company have invaded a right which should have been jealously guarded and the district union has agreed with them. They have established a precedent, the results of which is hard to forecast. The local have appealed to International president Thos. Lewis on this point questioning its legality. We were told that even had our case been considered a good and sufficient cause, we did wrong in doing what we did. We were told that an agreement with the coal company was a thing that ought to be revered as sacred, something of the kind of an Ark, which, whereever the coal company took it we ought to have followed implicitly. Let us see how the coal company viewed this thing. On the 12th of August, 1907, the coal company agreed in the disputes committee at Banff to pay team drivers $3.25 per shift. On the 15th of March, 1908, the union forced from the coal company the first payments on these rates. I do not wish at this time to recount our trouble with the company, but all through the financial crisis the company took deliberate advantage of our men, who had no recourse, other than to grin and bear it. It was impossible to reason with most of the officials. They told the men if they did not like their terms, that there were lots of men for vacant jobs. The union did what it could, but got no satisfaction, and knew it would be folly to do other than what was done at the time It was a waste of time to talk to the officials; we might as well waste physic on dead cattle. However, when things brightened up industrially, we resolved to stop these practices, or go out of existence,and we have been successful. Of course we d'd not obey our officers, but we could not help ourselves. The supreme indifferences to district rulings, compelled us to take the bit in our teeth. And what if we did disobey? when was obedience good for mankind? Universal obedience is universal stagnation; at any time or at any place disobedience is the most potent factor that has made for the world's progress. How far would the world have been advanced if all had been governed by a sense of strict obedience. It was disobedience that won the magna charta from a king who claimed Divine right, and it was disobedience that has taken the Kingdom of Heaven from the parson's pocket and helped man to shred himself of his superstitions. However Mr. Editor there is one thing to be said of this affair, and of which I am almost sure, that had not general manager Hurd been surrounded by the kind of officers he was, this and other incidents would never have happened, and the miners would have received justice. He was to a certain extent the victim of circumstances, and also was president Sherman to some extent. However, I believe that a proper understanding has been reached, and that conditions will be better in Michel than heretofore. Appearing almost immediately after the men had returned to work, a statement appeared in the Lethbridge Herald, claiming that trouble was imminent in the Pass, and alleged corruption on the part of union officials. This statement was brought to my attention in the dirt place by a friend in Coleman, and I immediately wrote general manager Hurd in respect to same, both letters I enclose. Commenting on this statement, the editor of the Frank paper said, that, "it was the work of some hair-brained imbecile, and claimed that if the letters which contained and conveyed the statement to the Herald were found, it would bear the postmark of Michel." It seems to me sir, as though the editor of the Frank paper had fallen heir to some prophet's mantle. He should acquaint himself with history, and he would find that the occupation of prophets has been at all times detestable, and some times even dangerous. He should read of the incident of the Brook of Kishon!

The person who sent a statement of that kind and forgot to append his name, in addressing any respectable newspaper, was of the mose despicable kind, and spiral spined people of that caliber don't frequent Michel.

The editor of the Frank paper ought to have his revelation revised, and so rehabilitate himself in the eyes of the people, just as honorable and sensitive as those to the east of the Crow. As to whether or no, there has been an organized system of espionage in our union, is difficult to state, and no man is justified in making an infamous statement of the character unless he is prepared to prove it. It is easier to blast a man's character than it is to build it. If proof there had been, and whilst extending no commisseration to those cowardly enough to subvert their manhood for a corporation in this fashion; what language can describe those who offered and tempted?

There is one feature in our union which may promote this kind of thing; and one which ought to be ended, that is the holding in secrecy our meeting. The Twentieth Century is not the age for secret societies, and it places a bonus on treachery. What the miners dare not discuss in public, ought not to be discussed at all. In thanking you in anticipation for your courtesy, I would state that had it not been for the fact that I am leaving the organization, I would not have intruded myself upon your generosity, but feeling the delicacy of the situation arising out of the statement made in the Lethbridge Herald, I feel it incumbent upon me to take this course. So far as I have personal knowledge, the business transactions between the Crow's Nest Pass Coal Co. and the miners union has been perfectly straight, neither have I known of any overtures to the contrary. However, if there are any guilty, let them bear the onus.

We , at Michel, believe that after the lengthy explanations that have been made to general manager Hurd, that better times are ahead of Michel, in fact conditions that have been contentious for a very long time have been remedied by Mr. Hurd to the miners advantage, and the feeling between the company and the men, is more cordial now, than has been for a long period. If Mr. Hurd deals fairly with the men, and his letter leads to hope of that kind, the Michel men will deal fairly with him; but they will never stand to allow an agreement made a convenience to their disadvantage. Hoping that I have not imposed too far.

Yours very respectfully,
JAMES DOUGLAS,
Sec. Michel Miners' Union.

To J. D. Hurd, Esq., Gen. Mgr. Crow's Nest Pass Coal Co., Fernie.

Dear Sir:

Through conversation with president Sherman it has developed that some of your officials claim that at some time your company has been in the habit of distributing moneys to persons who have had, or who do have positions in the local union, for the purpose of ascertaining the position of the union on matters as they affect relations between your company and the union. A statement appeared in a Lethbridge paper declaring that it cost your company $900 per month, for the above mentioned purpose. I took the opportunity to ask general superintendent Limister, if there was any foundation for these statements, and although he admitted that some men in Michel had received tips, generally speaking he was non-committal and evasive. It has been stated that one recent unfortunate incident was in some way connected with this socalled breach between these paid informants and your company's officials. On behalf of the union officials at Michel and myself, I wish to emphatically deny any such collusion on our part, and assert that if a letter which was handed to the Fernie Ledger for publication had been published; it would have established that our grievances were real, and not imaginary, and that they were not created to serve any personal ends, as has been stated. The present officials of Michel wish to disassociate themselves as "particeps criminis" and would respectfully ask that if you have any evidence that would prove to the satisfaction of the Michel miners, that they have been betrayed it would lead to more harmonious relations between your company and its workmen. It would also clear, or condemn the present officers of these charges, which by implication they are contained in these statements.

Yours respectfully,
JAMES DOUGLAS,
Secretary.

The letter to the general manager of the C. N. P. C. Co. and Mr. Hurd's reply is appended.

James Douglas, Esq., Secretary Michel Local Union No. 2234, United Mine Workers of America, Michel, B. C.

Dear Sir:

Replying to your favor of June 16th, I beg to say that, inasmuch as the differences between your people and this company seemed to have been settled, it occurs to me that it will promote harmony to forget all the old troubles and all of us work together with a view to being good friends now and in the future.

I am unable to give you any authentic information regarding the truth of the rumors in question; I can state this positively, however, that during my administration, that is, from the 15th of November, 1907, there has been no graft of any kind paid out by this company to anyone; I do not believe in that kind of business, and I certainly shall not allow any practice of that kind while I am here. If anything of that kind has been done in the past, the present management had no hand in it, and it would seem to me to be too late to accomplish any good by stirring up the mud.

I leave here today for a two weeks' trip down east, where I go to close up some contracts for improvements at Michel; if you desire to take this matter up with me personally on my return, I shall be glad to talk it over with you. I trust, however, you will agree with me in the wisdom of letting the dead bury its dead.

Yours truly,
The Crow's Nest Pass Coal Co., Ltd,
J. D. HURD,
General Manager.

NELSON NEWS OF THE DAY

The moving pictures at the Alice rink will be discontinued next week.

The fireteam are now practising steadily and had a fine run last evening on Baker street.

Special programs are arranged for next week at the Arcade theatre in view of the coming celebration.

A new map of Nelson in a handy form showing the location of the streets and of the principal buildings is being projected.

Astley's water gauge shows that the water in the lake fell 3.5 inches yesterday, now registering 14 feet 11 inches above low water level.

A report has been submitted to the council condemning the old Miner building on Victoria street, which has moved 12 inches out of plumb and is in a dangerous condition.

The launches are getting together today and tomorrow to make a run over the course for the races on Dominion day with a view of getting the time limits taken.

All persons having rooms for rent during the celebration are requested to communicate at once with George Horstead, the secretary of the celebration.

Castlegar and West Robson played a great cricket match at Trail on the 25th, against the Trail team. Castlegar and West Robson won by 6 runs at the end of the first innings. The visiting team were hospitably entertained by the Trail club.

In view of a mistaken announcement saying that the corner stone of the new Methodist church would be laid on the second day of the celebration, people will do well to remember that the ceremony will take place at 7 o'clock in the evening of Wednesday, July 1.

At the meeting of the city council tomorrow night will be present the representatives of the Allis-Chalmers-Bullock company, who have been invited to attend in order to make some final settlement with the regard to the governor at the municipal power plant.

Today will be Patriotic Sunday in St. Paul's Presbyterian church and the morning service will be specially for young people and children. For today, the Sunday school will meet at 11 o'clock the regular hour for church service and not at 12:30 as usual.

The city band will parade with the Knights of Pythias and the Odd Fellows today at 2 o'clock on their way to the cemetery. Carriages will convey the Pythian Sisters from the K. P. hall and the Rebekahs from Fraternity hall at 1:25 p. m. The ladies have been busy collecting flowers for today's seremonies.

R. J. Steel, chairman of the entertainment committee compositely composed of the 102nd regiment and the school trustees, at the tercentenary entertainment this week at the armory reports that a sum of $85.50 was realized. He begs to thank all those taking part. The proceeds have been forwarded to the Quebec Battlefields Association.

In connection with the illuminated parade of launches, canoes, etc., on the night of the 2nd July, the committee has decided to award a first and second prize for each of the following Best decorated launch; best musicale vocal or instrumental, or both; best decorated row boat; best decorated canoe. Arrangements are being completed for the accommodation of sight-seers on steamers and barges, and on the wharves, particulars of which will be announced later. It is to be hoped every citizen will assist in making the water parade what it should be—the most attractive and entertaining feature of the celebration, a fitting finale of the two days' soprts to be provided. A well arranged pyrotechnical display will form an attractive feature during the time of the parade.

J. A. Macdonald, K. C., of Rossland has been appointed by the governor-general vice-president of the Quebec Battlefields Association. Mr. Macdonald was made aware of his appointment through a telegram sent by the governor-general of the Dominion to the lieutenant-governor of this province.

The first consignment of flowers for the Calgary fair went forward this morning. The committee desire to express their thanks to the citizens who were so liberal in their donations. It is desired that the contributions continue daily until Monday week, and all citizens are asked to do their best to see that each day a goodly number of flowers go forward.

The city engineer calls the attention of the public in general to the bylaws governing the erection or alterations of buildings. These provide that before commencement plans and specifications must be filed at the city hall and a permit taken out. Furthermore, that if the proposed building or alteration be within the fire limits, then the permission of the fire wardens must also be obtained.

The attention of launch owners is directed to the fine prizes put up for launch races, which are on exzition in the windows of F. Irvine & Co. It is necessary, before launches can enter for the various races, that they shall before the celebration go over the course marked out by white flags on the lake and report their time to either B. C. Travis or G. A. Munter in order to establish a time allowance. Either of these gentleman is willing to afford any information or to accompany any launch upon its trip.

GREAT RAID BY BANDITS

THEY PLUNDER AND BURN TWO MEXICAN TOWNS

WILD STORIES OF A REVOLUTION ARE DISCREDITED

CITY OF MEXICO, June 27.—Wild stories concerning a formidable and serious revolutionary outbreak in the northern part of Mexico were discredited yesterday by telegraphic reports received by governor Cardenas of the state of Coachuila.

According to the telegraphic advices which were received by vice-president Corral, one of the boldest bandit raids ever aetempted in the history of Mexico was successfully carried out when the town of Viesca was assaulted and looted Thursday.

The bandits, numbering fifty, well armed and mounted, swooped down upon the town without warning. A feeble resistance was made by the police of the place, but after three of them were killed and the same number wounded, the invaders had practically things their own way. They at first proceeded to the jail, releasing all inmates, some of whom joined the robbers. The bandits next headed for the bank of Neuva Leon, overpowered the employees there and robbed the bank. Going from there, the robbers with a hurrah, went to the government stamp office, looting it and doing great damage to the postoffice. They then turned their attention to the express office, robbing it.

By this time the whole of the townspeople were terrified. The bandits cut the telegraph wires and tore up some railroad tracks. However, before communication was interrupted, word was sent to the state capitol of the assault. When the bandits got word that troops were on the way to the scene, they fled, passing by way of the town of Matimoros De Lega. At that place they encountered the first detachment of troops sent to capture them. A lively fight ensued in which one trooper was killed and several wounded. The soldiers succeeded in capturing one of the bandits, but the remainder made their escape and are now in the wilds of the state of Durango.

CITY OF MEXICO, June 27.—Repeated efforts to obtain official confirmation of the attack on the border town of Las Vagas by bandits have met with failure. The office of the secretary of the interior has remained closed during the night and at the residence of minister Corral no visitors are being received.

The government say the raiders do not number more than fifty armed men, but other reports place their number as much larger. Troops have arrived in the city of Torreon and will spread over the northern country to form a net work for the capture of the mauraders.

WASHINGTON, June 27.—During a call at the United States state department today senator Codoy, who in the absence of ambassador Creel is representing the Mexican government at Washington discussed with acting secretary of state Adee the situation growing out of the revolutionary movements in Mexico. The Mexican government has requested that the United States assist in preventing violation of the neutrality laws.
