## IS CONCLUDED

### John D. Rockefeller's Examination at an End

### RAILWAY INVESTMENTS

**OIL MAGNATE, AFTER MUCH HESITATION, TELLS THE ROADS HE IS INTERESTED IN—SAYS COMPANY LOANS ONLY THIRTY-TWO MILLION DOLLARS.**

NEW YORK, Nov. 24 — Closing his estimony in the federal suit to dissolve he Standard Oil company, John D. ockefeller threw some unexpected ght on the long popular question of hat chanels of investment he turns is tremendous earnings from the oil ombination.

Mr. Rockefeller was loth to state the ames of the railroads in which his nvestments were made, but did so after ntering his objection. He declared his oldings in railroads consisted chiefly bonds. After some legal contention y counsel, Mr. Rockefeller said he held ock in the Delaware, Lackawana & estern, the New York Central, the ennsylvania, the Maryland, the Missouri Pacific, the Texas & Pacific and e Colorado Southern.

John D. Archbold, vice-president of e Standard, proved a mine of detailed formation under the direction of the mpany's counsel, regarding the early oduction of oil and the development the pipe line system. It is not unkely that an adjournment will be ken tomorrow night until next Monay.

Mr. Rockefeller testified today that the time of the organization of the andard Oil company of New Jersey in 99, he owned 256,854 shares of its ock out of a total issue of 983,383 ares.

Mr. Rockefeller was asked about the ge amounts of money the Standard had loaned on Wall street and reed that the Standard could not alys obtain the amount of money it ired from banking interests and that necessity it kept a large amount of ney which it loaned out but which uld always be obtained. He underod that the company loaned out about ,000,000 but no sum larger than that. I should be protesting about my diends if this company kept a large plus beyond the necessary need."

Mr. Rockefeller, in reply to a quesn said: "I may be a director in some roads in the United States, but at moment I do not recall a railroad which I am a director."

Are you largely interested in railds over which the Standard Oil comy is doing business?"

I am an investor. I may have stock a railroad company over which oil ments are made."

Mr. Kellogg asked Mr. Rockefeller if was interested in the Wisconsin railand other railroads in which cerdirectors of the Standard were also ctors.

own bonds in the Wisconsin railad."

What railroads are you now interestn?"

bjection was made by counsel and Rockefeller said he could not give a ement about his holdings of bonds, dded: "I do not buy stocks and perently hold them as I do bonds. I e no large holdings in railroad stocks y except in two or three railroads. y are held for investment."

Are you not generally interested in the railroads of the country?"

am grateful to say a good many of n I am not interested in."

Mr. Rockefeller concluded his testiy shortly after the recess.

### KOOTENAY RANCHES

**sh Ex-army Officer Pleased With Outlook Here.**

INNIPEG, Nov. 24—On his return a tour of British Columbia, Col. S. ordon, retired, of London, said he accompanied R. Marpole, executive ct of the C.P.R., to British Columbia ake a report as to whether British mbia was a good place for retired sh army officers to settle. He elled all over Vancouver island and fruit growing districts of Okanagan, tenay and Nelson districts. He was favorably impressed and while he ot want to give his report prema, he expressed the hope to induce r British army officers to settle ritish Columbia and on the island. dy in British Columbia there are retired army officers settled on farms and ranches.

### FE-BEATER AND MURDERER

**n Shoots Two Men Who Interfered in Family Quarrel.**

LKESBARRE, Pa., Nov. 24—Two who attempted to stop Andrew Das, an Italian of Pittston, near here beating his wife, were shot today e infuriated husband, one of the dying instantly and the other beseriously wounded that he is not ted to live. The dead man is es Bagotas, a brother of Andrew as, and the other victim is John .

two men were borders in the as house and heard Mrs. Bagotas calling for help. They went to her assistance and, when they entered the room where the woman was screaming, they found Bagotas beating her in a terrible manner. Both men rushed at the husband and without warning, Bagotas threw the woman to the floor drew a revolver from his pocket and fired several bullets in rapid succession at both men. One bullet entered his brother's head and he dropped to the floor dead and another load of the missle pierced the breast of Hanso, inflicting a serious wound.

The infuriated husband did not stop to see the result of his terrible temper, but rushed from the house and has not since been seen. The local police, aided by state troopers are searching for him. Mrs. Bagotas was not badly hurt, but is suffering greatly from the shock.

## JAPAN AND THE STATES

**ALLEGED NEW TREATY HAS BEEN SIGNED**

**AMERICAN SECRETARY DENIES THE STATEMENT**

HONOLULU, Nov. 24, via San Francisco, Nov. 24—The Hawaii Shinto, the leading Japanese daily newspaper published in Hawaii, has received from its Tokio correspondent what purports to be the text of a treaty concluded between Japan and the United States regarding coolie immigration. It is said that the signing of the treaty is not to be anounced until next February. The treaty provides as follows:

"The high contracting parties agree in their desire for the independence of the Chinese empire and believe in the preservation of the territorial integrity of that empire and believe that equal opportunity for commerce should be enjoyed there by all foreign nations and that equality of treatment should be accorded all such foreign nations, agree with each other to protect the principal of Chinese independence and by peaceful means to guard the existing situation in China; that neither government shall allow the immigration of laborers among their population to the country of the other until a further understanding in the matter be reached, believing and agreeing that the employment in the country of the laborers of the other tends to impair the existing friendly relations between the two governments."

WASHINGTON, Nov. 24 — United States secretary of state Root, tonight denied that a treaty had been signed by the United States and Japan regarding the protection of the principle of Chinese independence and the regulation of immigration between the two countries as stated by the Hawaii Shinto and he added that no such treaty was in contemplation. The report of the signing of the treaty regarding Chinese independence probably has its basis in the publication respecting diplomatic negotiations with Japan on the proposed restatement of the positions of both the United States and Japan regarding China. As for the immigration question the present understanding with Japan is working satisfactorily in keeping down Japanese immigration.

### DEAN FARTHING ELECTED

**Is Chosen Bishop of Montreal After Long Fight.**

MONTREAL, Nov. 24—Dean Farthing of Kingston, was elected bishop of Montreal on the 11th ballot of the diocesan synod shortly after 6 o'clock this afternoon. Up to the 10th ballot Dean Evans of Montreal had a majority of the clerical ballots, while Dean Farthing had a majority of the lay vote. On the 10th ballot the Evans forces showed signs of breaking up and the end of the fight came with the 11th ballot when a sufficient number of clerical delegates deserted Dean Evans to elect Dean Farthing.

The election was the most difficult in the history of the diocese. When the synod met on Oct. 28, six ballots were taken without a choice being made, Dean Evans and Dean Farthing being the leading candidates. On the seventh ballot the bishop of Stepney was elected. He declined the honor the following day by cable, his appointment a fortnight later as archbishop of York following. The synod then adjourned until this morning when the balloting was resumed, the result being the election of Dean Farthing on the fourth ballot of the day and the eleventh of the election.

**Want Two Cent Rate.**

BERLIN, Nov. 24—Various chambers of commerce, in Germany are petitioning the imperial secretary of posts to establish, in the interests of trade, a two cent postage rate between Germany and the United States, such as now exists between England and the United States. The chamber of commerce of Elberfield today passed a resolution expressing its ardent desire that the empire follow the example of Great Britain and close such a convention with the United States. Business houses in Germany today send their packets for the United States by mail to England to be reposted there under the lower rate.

**May be Divided.**

JEFFERSON CITY, Mo., Nov. 24—A possibility that the electoral vote of Missouri may be divided between Taft and Bryan, arose yesterday when it was discovered that one Bryan elector received more votes than the lowest Taft elector. Whether Bryan will be given this vote in the electoral college depends upon a decision which governor Folk now has under advisement.

## LOSS OF LIFE

### Tornadoes Do Great Damage in Arkansas

### COUNTRY IS LAID WASTE

**HURRICANES SWEEP ALL BEFORE THEM IN DIFFERENT PARTS OF THE STATE—REPORTS DIFFER AS TO NUMBER KILLED BUT PROPERTY SUFFERED HEAVILY**

LITTLE ROCK, Ark., Nov. 24—Two tornadoes, one north and one southbound, swept over west Arkansas yesterday, destroying many lives and property. All means of communication were destroyed and nothing definite has so far been heard from the region visited by the tornadoes.

One tornado started in the extreme southwestern part of the state and went northward, following the second tier of counties from the western boundary line, the other started in the northwestern corner of the state and went south following the third tier of counties.

According to advices received here the storm was at its height when it swept through Piney, a German settlement on the Iron Mountain railway between Knoxville and London. Late reports from Russellville, the nearest town with which communication can be had, are that between 12 and 20 persons were killed and about 30 injured at that place. Five lives are reported to have been lost ten miles from Mulbury, where one of the tornadoes did great damage. Strips, from two miles to a half wide were swept clear through towns and open country.

From Knoxville a despatch received this morning partially confirms the report that the village of Barr, four miles from that place, was totally destroyed. Section men who went to the scene state the entire intermediate country has been laid waste by the wind and hail which followed, the latter in some places falling to a depth of six inches. Physicians and nurses hurriedly made up relief parties and were sent from Knoxville to both Barr and Piney.

LITTLE ROCK, Nov. 24—Later—Last reports from western Arkansas tonight show that although first reports of the number of lives lost in yesterday's tornado was exaggerated, the property loss will be greater than expected. The reports so far give the names of four known persons dead and about 15 known to be injured. Seventeen other deaths are reported but no names are given.

## FIGHTING AT NANKING

**DISORDERS ARE REPORTED FROM CHINESE CITY**

**FOREIGNERS SEEK PROTECTION ON BRITISH GUNBOAT**

PEKIN, Nov. 24—The situation at Nanking where a mutiny on the part of the Chinese troops broke out Nov. 19 is grave. There has been fighting in the streets of the city and the major portion of the foreign residents have taken refuge on board a British gunboat. Others of the foreigners preferred to remain on shore.

This informatiton was conveyed to Pekin today in official telegrams to the legations here. There is also a German gunboat off the city.

The American residents asked for a gunboat for their protection, but in view of the assurances given yesterday by Yan-shi-kai, one of the grand councillors, that the situation was quiet and the incident of mutiny closed, this requestt was not forwarded. The information coming in here contradicts the representations being made by the foreign office and the legations have requested the board to supply them with further news.

The war board announced today that it had 1000 troops at Nanking pending the conclusion of the manoeuvres. The new government at Nanking is firmly established and foreigners there do not fear an insurrection. Trouble, however, is being closely watched for it is feared that they may follow the battery of artillery and the squardons of cavalry who hung up the banner of revolt last Saturday. The native press intimates that the trouble in Nanking can be traced to opposition to missionaries, but this charge is without substantiation.

**Doukhobors at Waterloo.**

The Doukhobor society at Waterloo have their sawmill now in operation and houses are being erected to be ready for an additional 1000 settlers to arrive in the spring from Saskatchewan. There is a postoffice there, the name being "Brilliant," mail leaving and being received there three times a week. The residence of the society will be on the first bench back from the river. The houses will all have stone foundations, will be heated by hot water and will have modern plumbing. Each house is designed to hold about three families. They use a traction engine for hauling logs to their mill. In addition to fruit growing and vine culture they intend to go considerably into stock raising and have purchased 3000 acres of pasture land up Pass creek, north of the Kootenay river, for this purpose.

**DUNCAN IS AFTER IT**

OTTAWA, Nov. 24—Duncan Ross, ex-M. P. for Yale-Cariboo, is in this city and it is stated he is looking for the vacancy on the railway commission rendered vacant by the death of Hon. Thomas Greenway.

## NEW HALL FOR EAGLES

**WORK IS BEING PUSHED RAPIDLY AHEAD**

**REPORT ON PROGRESS WILL BE PRESENTED TONIGHT**

The Eagles at their meeting tonight will hear a full report from the committee in charge of the construction of the new hall on Baker street and for this reason a special request is being made to all members to attend. The building of the new hall is being pushed rapidly ahead and its early completion is assured.

On the second floor will be situated a lodge room and a main hall. The lodge room is to be 23 by 48 feet, with two ante rooms of ample size, and six lockers to accommodate the paraphernalia of the different lodges meeting therein, and extends across the entire front of the building.

The main hall is 34 by 62 feet, and is situated on the east side and end of the building, with team room and refreshment room at the rear, and also has six lockers and ample ante rooms, situated at the front. On the west side of the second floor a banquet hall or parlor, 13 by 38 feet, is provided for.

The ceilings in the lodge rooms and parlor are eighteen feet high, and over the team rooms and ante rooms extends a mezzanine floor, making an excellent gallery in connection with the main hall.

The ceilings of both the first and second floors will be metallic, and the floor of the main hall of the finest maple.

Dressing rooms and lavatories for ladies and gentlemen, and a first-class kitchen are also provided or in connecttion with the lodge rooms.

The building will be heated with one of the most modern steam heating plants, and is to be provided with an up-to-date ventilation system.

The Aerie is building under the charter issued to them by the provincial government on July 21, 1908, and the powers conferred by this charter, incorporated under the Benevolent Societies act.

**Is Not Retiring.**

NEW YORK, Nov. 24—Since Mme. Eames, the operatic star, announced that she would not return to New York opera next winter reports have been in circulation that she intended retiring from the stage. It is now announced Mme. Eames has no intentions of giving up her operatic career. Her plans for New Year are not yet matured, but will be made public later. Following the close of her operatic engagement for this season, Mme. Eames, will make an extended concert tour including cities in the west, south and Canada.

**Strain on Imperialism.**

(Canadian Associated Press.)

LONDON, Nov. 24—Referring to the Sikh immigration to British Columbia, the Globe says: "So far as treating him as a subject of the same empire the Canadian often is ignorant enough to treat the Sikh or Hindu as "Nigger." The Canadian is putting a pretty hard strain on imperialism when he begins to treat the Indian as a man utterly beneath himself while he still asks that the Indian civil service should be open to himself and his sons and that Indian trade should be free to Canadians."

**Fire on German Balloon.**

BRESTLAU, Nov. 24—A German balloon that passed over Russian territory last Saturday was fired on by Russian frontier guards near Zerow. No less than fifteen shots were fired and this in spite of the fact that the balloon was flying the German flag when the bullets hissed all around the airship and one of them pierced a sack of ballast and was lost in the sand. The aeronauts made a hurried descent and succeeded in landing on German territory. They were not hurt.

**Three Youths Kill Man.**

VINELAND, Nov. 24—The coroner's jury today rendered the verdict that William Reid who was found murdered in the home of his daughter, Mrs. W. E. Copper, on Nov. 13, came to his death at the hands of three youths, Walter Seller, Cline Keller, and Bert Grigg, one of them his grandson, who are under arrest charged with the crime.

**Kaiser is Indisposed.**

POTSDAME, Nov. 24—Emperor William, has cancelled all his engagements for today on account of a cold. On the advice of his physicians, he is keeping to his room.

## FOR ALBERTA

### Premier Rutherford Declares Railway Policy

### GOVERNMENT ASSISTANCE

**IS URGING OTTAWA TO GUARANTEE BONDS OF NEW LINES REQUIRED BUT IF HE CANNOT SUCCEED IN THIS THE PROVINCE WILL ACT.**

(Special to The Daily News)

EDMONTON, Nov. 24—Hon. A. C. Rutherford, premier of Alberta, today announced an advanced railway policy which will cover the province with lines and open up the north. A department of railways is to be established in charge of the premier, who has asked Ottawa to guarantee the bonds of railways undertaking the building of the desired extensions.

"If Ottawa refuses, we will do it ourselves," says the premier.

He said: "I have now decided upon a policy of railway extension throughout all parts of the province. I intend to establish a department of railways and make it one of the most important departments of the government and one which I will personally look after.

"There are districts in Alberta where extension is absolutely necessary. Then there is the rich unopened north country whose resources and agricultural possibilities are now attracting the most profound attention in Europe and the eastern half of America. We will see to it that this country receives its share of attention.

"Men will not build railways in a new country without government asssitance. They will demand that their bonds be guaranteed. We have been for some time asking the federal government to extend this assistance and we will continue to do so, but if Ottawa will not help us we will do it ourselves.

"To my mind there are three main reasons for the extension of railway service in Alberta. One is that in the older districts the present service is becoming yearly more inadequate; another is that competition is needed and the third is that if we do not soon build more railways, settlers will cease to come into the country. To get homesteads today they have to go forty to sixty miles from railways. That is much further than the 20th century settler is willing to go. It is up to us to make conditions possible for rapid settlement."

## DONE IN JUSTICE NAME

**THREE NEGROES MURDERED BY WHITE MOB**

**GIVEN MOCK TRIAL AND PUT TO DEATH**

UNION CITY, Tenn., Nov. 24—Tiptonville, bordering on Reel Foot lake, which recently has been the scene of many stirring incidents, today witnessed the "legalized" lynching of three negroes who were arrested this morning for murdering on Saturday, special deputy sheriff Richard Burras and wounding John Hall, a deputy sheriff.

To give the execution a semblance of legality a "trial" was hurriedly arranged with the understanding that the men would be condemned to death as soon as the trial was over. The negroes lynched were Marshall, Edward and James Stineback. The brothers created a disturbance at a religious meeting near Tiptonville on Saturday night. When officers Burras and Hall attempted to arrest them the negroes shot the officers and escaped.

A posse from Tiptonville and surrounding towns started in pursuit but did not locate them until this morning in a swamp. The negroes, covered by a hundred guns, were easily captured since they were out of ammunition. The news of the capture spread rapidly and soon the jail was surrounded by a mob which had no hesitancy in making a lynching at once.

One of the few citizens to mount the steps of the jail and to appeal to the mob to disperse was J. L. Burnett, a lawyer, who recalled the recent night rider outrages which disgraced the region. He begged his hearers to let the law take its course promising that full justice would be done the three black men. This met with a long growl of dissent and Mr. Burnett, evidently seeing that his remarks were of no value, pleaded with the men to wait until night fall. Tyler Hall, a brother of the wounded sheriff agreed that a postponement until night would be satisfactory to him. The mob however was restless.

As a last resort justice Leo Davis agreed to open court at 5 o'clock, summon a jury and allow the negroes after all the available evidence was heard to be duly sentenced to death.

Meantime governor Patterson was advised by telephone of the situation and he ordered a company of militia to proceed from Union City with all haste to Tiptonville to see the three negroes and conduct them to a place of safety. The troops started at once but failed to arrive in time to prevent the lynching.

At the "trial" all of the evidence of those who had seen the killing was heard and in an incredibly short time the "case" was given to the "jury" which in a few minutes "returned" a verdict of guilty. The "sentence" had been barely passed when the mob with a hoop and yell seized the prisoners, rushed them to a round tree and sentenced them to death by hanging, volley after volley were fired into the air as the bodies were drawn up from the earth.

## LORD ROBERTS' SPEECH

**GERMANS CONSIDER THAT IT WAS ILL-TIMED**

**OFFICIAL QUARTERS PRESERVE COMPLETE RESERVE**

BERLIN, Nov. 24—The speech delivered in the British house of lords yesterday by field marshall Roberts, in which the speaker, hinting at the possible German invasion of England, said that a million men will be needed on shore to protect England from such a contingency, has aroused considerable interest here. The most complete reserve, however, is maintained in official quarters.

Certain newspapers consider that lord Roberts could have chosen a better time than the present to further the propaganda for his favorite idea, namely, the introduction of universal military service in England, because efforts are now being made to bring about less distrustful relations between the two countries and these might suffer from the emphasis laid upon the necessity of British armaments against a possible invasion.

### TO IMPROVE BANKING

**United States Commisison Has Subject Under Consideration.**

WASHINGTON, Nov. 24—That the monetary commission has undertaken the most comprehensive financial inquiry in the history of the country was apparent at the conference abroad held in London, Paris and Berlin, during which the members of the commission were received by the most eminent authorities on currency and economic topics.

A sub-committee of the commission met after the regular meeting yesterday and began work on the questions. The full commission expects to meet directly for about a week but it is not intended that the testimony taken abroad shall be presented to congress before the first session of the 61st congress. The investigation of foreign financial systems will be extended to Scotland and Canada before the report is made.

One of the most important matters to be considered in connection with the bill amending the laws relating to actual banking will be the question of bank examination. It has been pointed out lately that, in the event of infractions of banking laws, the comptroller of the currency has practically no recourse other than closing the institutions. The effect of such a step is to injure many innocent persons. Members of the commission hope to work out some less heroic treatment in order that the comptroller of the currency shall have the authority to administer punishment to fit the crimes committed.

### STUDENTS IN RIOTS

**Germans and Italians at War at Vienna University.**

VIENNA, Nov. 24—The German and Italian students attending the university of Vienna came into serious collision in the university grounds yesterday and before the police drove the demonstrators away revolvers had been freely used and a number of the young men were wounded.

The trouble was occasioned by Italian demonstrations in favor of the establishment of an Italian university at Trieste. The opposing factions totalled 1200 men and they sang themselves into the fight with stirring patriotic airs. The fighting started with fists, sticks and stones, but revolvers finally appeared and a number of shots were fired.

The Italians were driven from the building and gathered in the street outside. At this stage the police appeared and promptly dispersed the rioters.

### VICTORIA MAN KILLED

**Ernest Pendray Meets Death on Way Home to Lunch**

VICTORIA, Nov. 24—Ernest Pendray, oldest son of W. J. Pendray and a partner with his father in the Pendray soap works, was instantly killed today at noon by being thrown from the seat to beneath the wheels of the wagon in which he was driving home to lunch.

The horses drawing the wagon took fright at an auto when the latter passed. They shied and jerked Pendray from the seat and he fell to the ground where the wheels passed over his head.

**Rebuilding of Fernie.**

FERNIE, Nov. 24—After a week of incessant rain it has cleared up although it remains cloudy. Streets are very muddy and building is going ahead with vigor. The new brick building of the Crow's Nest Trading company is nearing completion and should be ready to open first of the month. A large number of men are engaged installing the new telephone system and taking out old poles. Work will be rushed along to hurry completion. The new freight sheds of the C. P. R. will be completed about Dec. 1. They are much larger than the old ones and should take care of the increased traffic at this point.

## ST. JOHN NOW

### Marine Enquiry is Sitting There

### LOANS TO THE OFFICIALS

**CONTRACTORS SWEAR TO HAVING GIVEN MONEY TO EMPLOYEES OF DEPARTMENT—INSPECTOR OF STEAMERS ASKS TO HAVE THIS FACT COVERED UP.**

(Western Associated Press.)

ST. JOHN, Nov. 24—The marine enquiry opened here this morning, Charles McDonald, manager of the St. John Iron Works, was the first witness. He had repaired government steamers and buoys and supplied buoys. All were products of his factory. Some of this work was received by tender and some was ordered by agents.

He once loaned Capt. Smith, inspector of government steamers, $100. He produced a telegram requesting the loan and a letter showing that Capt. Smith had not repaid the money. The loan appeared in the company's books. He had previously loaned Capt. Smith $50. There was no entry of this, however.

Mr. McDonald stated later that he had received a note from Capt. Smith covering the loan. Capt. Smith's letter and note were sent for and when read the former was found to refer to the enclosed ninety days' note, with the expression that he hoped this would enable Mr. McDonald to state that there was nothing between them. Mr. justice Cassels had a copy of the note made.

The witness also gave evidence regarding other small payments and Mr. justice Cassels remarked that these were simply to grease the hands of officials. Mr. McDonald denied that a $125 entry was a present to Mr. Harding, marine agent here. He thought it was for material.

Mr. Moore, a tug owner and lumber merchant, had lent in the neighborhood of $3000 to the agent last year. Agent Harding gave him a note for $1800 on Nov. 4 of the present year. This was a personal transaction and was not entered on the books. Mr. Moore said the money was loaned as an accommodation and he would loan it to him in any case.

ST. JOHN, Nov. 24—One of the most interesting features of the sitting of the marine enquiry here today was the letter of Capt. Smith, inspector of government steamers, to Charles A. McDonald, a government contractor, regarding the covering up of the fact that he had loaned him money. Smith wrote that he had been under fire in Quebec and he thought he "had better come up." Mr. McDonald also said he had swapped checks with marine agent Harding here. Mr. Harding cashed Mr. McDonald's check for $375 but Mr. McDonald had taken Mr. Harding's collateral but had not cashed it. So far this year he had paid Mr. Harding $760. Last year it was $9000. He could not remember 1905, but in 1906 it was about $1000. He had also given presents to other officers of the marine department.

ST. JOHN, Nov. 24—As a result of the marine inquiry which opened here this morning, it is understood tonight that Hon. Mr. Brodeur has suspended F. J. Harding, agent of the department at St. John, and Malcolm A. Morris, engineer of the fishery protectiton steamer Curlew.

### SCARED TO DEATH

**Sight of Mouse Has Fatal Effect on Young Woman.**

FLORENCE, N.J., Nov. 24—Having a horror of mice since early childhood, Miss Mary Isabel Mead of this place, died of fright yesterday, when a mouse pursued by the family cat, darted across the kitchen floor in her home.

Seeing the mouse Mis Mead shrieked with fear and was carried in a state of collapse to a lounge by her mother. Shortly afterwards she complained of a pain in her heart. Her mother hurried to a medicine chest to procure restoratives, but when she returned the young woman was dead.

**Copper Company's Deal.**

NEW YORK, Nov. 24—Directors of the Tennessee Copper company announced today that they have closed a contract with the newly incorporated Independent Fertilizer company for the sale of the copper company's sulphuric acid. Under the terms of the contract in addition to the price to be paid for the acid, the Independent Fertilizer company is to pay the Tennessee Copper company the sum of $5,000,000. A substantial payment of this sum was made by the Independent Fertilizer company upon the signing of the contract today.

**Charged With Murder.**

ROCHESTER, Nov. 24—Mrs. Georgina Sampson, of Palmyra, widow of Harry Sampson, nephew of the late admiral Sampson, was arrested today, charged with the murder of her husband whose death was at first said to be suicide.

## NEWS OF THE DOMINION

PORT ARTHUR, Nov. 24—A. Waller, a deckhand on the steamer Fairmont, fell into the hold of the vessel and was killed.

REGINA, Nov. 24—The election of A. E. Whitmore, who defeated Hon. J. A. Calder in Milestone in the local elections, will be contested by the liberals.

SYDNEY, N.S., Nov. 24—The rail mill of the Dominion Iron and Steel company has been put on a 24-hour shift, every available steel worker here being employed. Work is being rushed on the Punjab, India, and New South Wales orders.

OTTAWA, Nov. 24—J. D. Laske, the Canadian trade commissioner in Sydney reports that the New Zealand government has made a contract for steamship lines to Tahiti where connection will be made with the line for San Francisco. This would enable mails to be carried from Sydney to San Francisco in 19 days.

PORTAGE LA PRAIRIE, Nov. 24—In the course of his sermon Sunday night Rev. A. E. Smith, pastor of the Methodist church, caused a sensation by the statement that at a 5 o'clock tea held here a few days ago, a purse had been stolen off one of the guests. The preacher's comment was: "Thank God that someone dared to be natural at one of these 5 o'clock teas." "Society is a mush of confession," was another of his declarations.

MONTREAL, Nov. 24—Traffic earnings of the C.P.R. for the third week of November, showed an increase of $48,000.

TORONTO, Nov. 24—It is stated on good authority that the hardware business of Rice Lewis and company is to be taken over by H. S. Howland and company.

HAMILTON, Nov 24—Robert Gimbell, 20 years of age, pleaded guilty this morning to stealing mail bags from a transfer wagon and was sentenced to three years in the penitentiary.

LONDON, Nov. 24 — A resident of London went to the Grand Trunk ticket office yesterday and insisted on paying for a fare from Detroit to London for a ride he had stolen on the railway 18 years ago. The money was accepted.

WINDSOR, Nov. 24—According to despatches from La Porte Ind., J. Gould, attorney of Indiana Harbor will file proceedings this week in Essex, Ont. county court, claiming the possession on behalf of Indiana clients of ten acres of land originally belonging to the Labiedi family, and now occupied by the firm of Hiram Walker and Sons, distillers of Walkerville. When in possession of the Labiedi family the property was valued at $4000, but it is now valued at $8,000,000. Solicitors of Hiram Walker and ons say title is perfectly clear and no chance for suit.

HALIFAX, Nov. 24—George Wessels of Port Dufferin, was killed in Dartmouth yesterday while working on the water extension, by the premature explosion of a blast.

MONTREAL, Nov. 24—George S. Cantile has been promoted to the general superintendency of the car service of the C.P.R. with jurisdiction all over the company's lines.

WINNIPEG, Nov. 24—John A. Fraser, proprietor of Gordon Heights Dairy company, while driving home last night was run down by a train at Rugby Junction, on the outskirts of the city, and instantly killed.

ST. THOMAS, Nov. 24—H. Pook, a conductor on the Pere Marquette railway, was killed yesterday by a stake used for switching cars on the side track breaking and striking him on the head.

OTTAWA, Nov. 24—Ed. Brandenborg, of London, England, a mining engineer, who lost a foot as a result of a street car accident here last spring, has taken action against the Ottawa Electric railway for $50.000.

WINNIPEG, Nov. 24—The board of control last night decided to call for tenders for the electrical power works at Point du Bois. The amount to be expended next year will be $1.500,000 and the total cost will be $3,500,000.

PORT BURWELL, Nov. 24 — The plant of the Port Burwell News, owned and published by C. A. Burns, was destroyed by fire this morning, caused by the explosion of a gasoline engine. The loss is about $4000.

TORONTO, Nov. 24—Alfred Hopkins, 36 years old, died in the hospital this morning as a result of being run over by a train west of the Queen street subway, both legs having been severed. He is supposed to have been crossing the tracks in a short cut home.

SYDNEY, Nov. 24—G. H. Fergie, one time connected with the Dominion Coal company, is here examining coal properties in southern Cape Breton, in the interests, it is said, of the Canadian Pacific railway, that company being anxious to secure its own coal supply in eastern as well as central and western Canada.

LINDSAY, Nov. 24—So many complaints have reached the council of Victoria county that a resolution was passed yesterday deciding to petition the provincial government to have legislation passed prohibiting the running of motor cars on Sunday, and on one other day in the week. The councils of Durham and Northumberland have taken the same step.

OTTAWA, Nov. 24—The railway commission has established several divisions and has apportioned work among the inspection staff so that rolling stock and equipment may be carefully watched. Ottawa will be the headquarters for Ontario, Quebec for the maritime province; another division will be located for Manitoba and Saskatchewan, and another for Alberta and British Columbia.

CALGARY, Nov. 24 — The Calgary board of trade will shortly take up the question of the shipment of grain from Alberta to Liverpool by way of Vancouver and around Cape Horn. If this proposition can be worked out and satisfactory freight arrangements made, it would provide a new outlet for the annually increasing grain production of the province. This would relieve to a great extent the congestion at Fort William and Winnipeg. It would greatly add to the importance of Calgary and Vancouver, the former as a distributing center and the latter as an ocean port and be of great benefit to the farmers of the province.

## DIVIDEND FROM GRANBY

### COMPANY DECLARES PROFIT OF TWO PER CENT

### MAY SOON BE ANOTHER ISSUE OF STOCK

(Special to The Daily News)

PHOENIX, Nov. 24—At a meeting of the board of directors of the Granby Consolidated, held in the company's New York offices last week, a dividend of 2 per cent was declared out of the net earnings of the company, payable Dec. 15, 1908. This will be the tenth dividend paid by the Granby company. Of the ten dividends, seven were declared at the rate of 3 per cent. The first dividend was at the rate of 1 per cent and the last two at 2 per cent.

The company has no regular period for declaring dividends. The last payment was made on June 30 of this year which with the present $2 declared, makes a total of $4 per share for 1908, as compared with $9 in 1907.

As there are now issued 135,000 shares of a par value of $100, the dividend just declared amounts to $270,000. With this the Granby Consolidated has paid back to its shareholders, all told, the comfortable sum of $3,508,630, as follows: 1903, $133.630; 1906, $1,620,000; 1907, $1,215,000; 1908, $540,000.

The announcement of the present dividend will be particularly pleasing to shareholders, significant as it is following the recent visit of inspection to the mines and smelter here of president Langeloth and vice-president Graves, who is also the managing director. With the enlargement of the smelter to 5000 tons daily capacity in the course of a few months, and the upward tendency of the copper market, the prospects of the company for 1909 are particularly bright.

It is not improbable that stockholders will soon have an opportunity to subscribe for 15,000 shares of treasury stock which were authorized to be sold to pay for an interest in the Crow's Nest Pass Coal company, from which company the Granby secures its fuel supply.

## IS LARGEST ON RECORD

### AMOUNT OF ORE SHIPPED FROM PHOENIX THIS YEAR

### TOTAL SHIPMENTS OVER SEVEN MILLION TONS

(Special to The Daily News)

PHOENIX, Nov. 24—With this week's shipments of 36,674 tons, the total ore tonnage from Phoenix mines to date passes the seven million mark, the total output being 7.034,871 tons. The yearly records have been as follows: 1900, 96,600; 1901, 390,800; 1902, 508,876; 1903, 690.419; 1904, 829,808; 1905, 933,628; 1906, 1,161,537; 1907, 1,148,237; 1908, to date, 1,274.966.

As will be seen the shipments for each year up till 1907 showed a steady increase over those of the year preceding. Last year the strike troubles during the summer and the financial panic later, which occasioned the closing down of so many properties, resulted in the total for 1907 falling slightly behind those of 1906. The shipments for this year already exceed the 12 months' record of any other year, and will show a big increase at the end of the year.

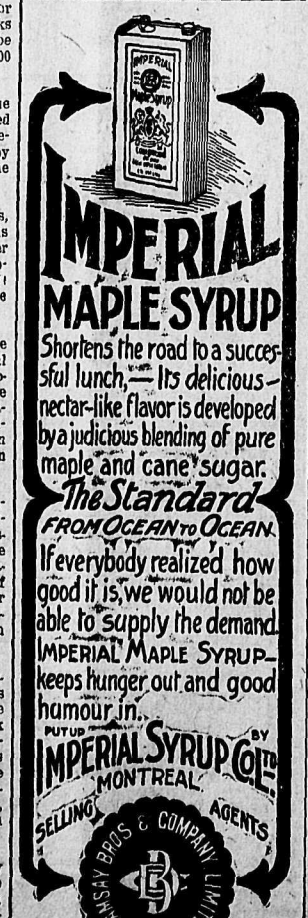
Of the 7,034,871 tons of ore from the Boundary mines in the past nine years, the Granby mines of this camp have shipped 4,546,868 tons, or about 65 per cent of the total output. The next biggest shipper is the B. C. Copper company's Mother Lode mine, which is the only other property in the Boundary that sent out ore every year since 1900. Mother Lode has shipped a total of 1,280,884 tons, or about 20 per cent of the Boundary output. Other mines which have figured prominently in the shipments are the Snowshoe, Brooklyn, Rawhide, Oro Denoro, Emma, B.C. and the Sunset.

A 500-foot tunnel is to be driven to tap several known veins on the Bell Mining company's properties on Wallace mountain. The veins carry ore in paying quantities on the surface and the intention is to tap the leads at a depth of 300 feet. Some 500 assays have been taken, 85 per cent of which ran over $30 per ton.

The Snowshoe's shipment of 2850 tons constitute its record weekly tonage since resuming operations last August; 1470 tons were shipped to the Trail smelter and 1380 tons to the Greenwood smelter.

The B. C. Copper company's smelter treated 12,677 tons of ore this week, as follows: Mother Lode, 10,227; Oro Denoro, 316; customs ore, 1603; other properties, 531.

Len Matthew, who recently purchased the Union Cigar Store, 315½ Baker street, has fitted up a cosy smoking room at the rear, and is now in a position to not only furnish his patrons with a high class line of tobaccos and smoking sundries, but also a comfortable place to enjoy them. 183-tf.



# Dr Price's CREAM Baking Powder

*Fifty Years the Standard. A Pure Cream of Tartar Powder. Makes finest cake and pastry, light, flaky biscuit, delicious griddle cakes —palatable and wholesome.*

**No alum, no lime phosphates**

NOTE.—Avoid baking powders made from alum. They look like pure powders, and may raise the cake, but alum is a poison and no one can eat food mixed with it without injury to health.

## Trademark Goods are Safe Goods to Buy

Manufacturers trademark only those goods which they are willing to guarantee.

No maker would go to the trouble and expense of registering a trademark—having the labels made and sewn in garments—unless the goods themselves had special merit.

Otherwise, the trademark would stand for poor quality and would be a warning—a danger signal to people—not to buy such goods again. The Knit-to-fit trademark identifies a brand of Underwear that is guaranteed to give satisfaction as regards comfort, wear and service.

Knit-to-fit REGISTERED & PATENTED

Look for this trademark when you go to buy your Winter Underwear.

*If your dealer cannot supply Knit-to-fit in all sizes and materials, write us for catalogue.*

THE KNIT-TO-FIT MANUFACTURING CO.
822 PAPINEAU AVENUE · · 8 · MONTREAL.

## BE UP-TO-DATE

Up-to-date boats at up-to-dat prices are only possible by the use of up-to-date machinery by up-to-date men.

We employ none but the bes men in the country and a complete outfit of first class machinery will be installed in our new factory in a few days.

Our boats are not racing machines but our guarantees as to speed are backed with good hard cash all the same.

The Smalley engines are guaranteed to develope more power per unit of fuel consumption than any other engine on the market. So much for efficiency.

And they are not expensive engines either. Now is the time to order if you would be sure of quick delivery.

## DATES FOR STANLEY CUP

### EDMONTON OBJECTS TO THOSE SELECTED

### WANTS MORE TIME IN WHICH TO TRAIN

OTTAWA, Nov. 24—The games between the Montreal Wanderers and Edmonton teams for the Stanley cup are likely to be played at the Arena, Montreal, on the nights of Dec. 28 and 30. Edmonton have telegraphed Stanley cup trustees Ross and Foran protesting against the dates as too early, but the games are likely to be ordered played on these days, regardless of whatever kicks the western challengers may make.

Edmonton were notified, but yesterday alderman Foran received a telegram from Edmonton saying that the dates were unsatisfactory. The Edmonton officers want to play in the first or second week in January, they having suggested January 6, 8 and 10. The E. C. H. A. objects to games for the trophy being played during its season, as they would interfere with the schedule.

Ald. Foran stated that the Edmonton team would in all probability be obliged to accept the dates as suggested by the Wanderers and set aside by the Arena. Edmonton, he thought, would have ample time in which to get in shape for the series. Wanderers, in his opinion, are quite within their rights.

### Y. M. C. A. RELAY RACE

**Silver Tube Delivered to President Roosevelt at Washington.**

WASHINGTON, Nov. 24—President Roosevelt at 6:45 o'clock last night received at the white house from the hands of Gordon Leech, the last boy runner in the relay run from New York to Washington, the silver tube containing a message to the president from Richard C. Morse, of the international Y. M. C. A.

"I believe in athletics as a means to an end, and I see no reason why men should have round shoulders," commented the president in accepting the massage. He characterized as particularly noteworthy the record made by the 200 Washington lads who brought the message here from Baltimore, a distance of forty miles, in three hours and ten minutes. The president after a brief conservation with the young athlete gave him one of his photographs bearing his autograph.

The message left New York Friday afternoon at 4 o'clock and reached Baltimore late Saturday night. It remained in Baltimore until 3 o'clock this afternoon when the run was resumed. About 1000 runners took part.

### AUTOMOBILE RACES

**Fast Time is Made in Trial Runs at Savannah**

SAVANNAH, Nov. 24—Although the fourteen foreign cars in the Grand Pacific railroad to be held here on Thursday are still the favorites over the six American rivals, the honor of the final practice over the 25-mile course, went to one of the American entries and the automobile enthusiasts who are anxious for an American victory over the flower of the foreign makes have grown decidedly more hopeful.

Willie Haupt, a young American driver, who began his racing career not more than two years ago and who has amazed some of the older men at the wheel by his seemingly reckless speeding around the turns, made one round of the course yesterday at an average speed of approximately 71 miles an hour. The unofficial timers caught the lap at 21.06. To gain this average over a course which has eighteen bank turns and twenty six flat curves it was necessary for the young driver of the Chadwick car to attain a speed of more than ninety miles in the straight stretches.

Louis Strang, a member of the Renault, French team, made three laps of the course in remarkably fast and consistent time. The first lap was made in 22.04 and the third in 22.05. This meant an average speed of about 68 miles an hour.

Earle of the Benz team, the German entrants, made one lap in 22.03 or a shade better than Strang.

The speed attained by the foreign and American drivers in the preliminary trials have lent renewed assurance of a new American record for racing on Thursday next.

### FIGHTER BADLY INJURED

**Fred Bradly Knocked Out and All Principals Arrested.**

PHILADELPHIA, Pa., Nov. 24—Fred Bradley, of Boston, was knocked out in the fourth round of a boxing bout with Al Kubiac, of Grand Rapids, Mich., at the West End Athletic club here last night. He became unconscious and was hurried to a hospital. Kubiac and Jack O'Brien who refereed the bout surrendered to the police.

Kubiac caught Bradley on the point of the jaw with a terrific swing which sent him to the floor. His head struck the boards with great force. After having been counted out Bradley revived sufficiently to drag himself to his corner where he again became unconscious.

Bradley is still in a critical condition in the hospital. He is suffering from concussion of the brain, and possible fracture of the skull. The physicians are doubtful whether he will recover. All the principals in the affair were arraigned before a magistrate today. Kubiak was committed to the county prison without bail to await the outcome of Bradley's injuries and "Philadelphia" Jack O'Brien the referee of the bout, John Kelly, manager of Kubiak, Jim Daily, manager for Bradley, and Frank O'Hara, Kubiak's second, were held in $800 bail each furnished by O'Brien. In the fight last night Bradley was beaten from the start. He was floored twice in the third round, the bell saving him from being knocked out. The blow in the jaw in the fourth round made him unconscious and he is still in that condition.

**Baseball in Tokio.**

TOKIO, Nov. 24—Before the presence of an enthusiastic crowd of more than six thousand persons, the American baseball team which came to Japan to play some of the Japanese universities teams, opened the season yesterday and defeated Wascada university five to nothing.

Count Okuma, the sage of Wascada university, wearing the cap and coat of one of the team, tossed the first ball across the plate. After the game the American players were the guests of the count at a garden party given by him in their honor.

**Battling Nelson Escapes.**

CHICAGO, Nov. 24—After two bull terriers had torn one another for 56 minutes and had been prevented from running into a death grapple by lightweight pugilist Battling Nelson, the trustees of the village of Burnham with a dozen armed deputies at their backs broke into the city hall in which the fight was being held. The five hundred spectators jumped to their feet and made a rush for the doors and windows. Several shots were fired in the air by the deputies but they could not stop the stampede. The trustees and deputies, however, managed to capture nine. Battling Nelson escaped the same fete by what his followers might call a neat exhibition of ring generalship. When the scramble began the battler bethought himself of a deputy's star presented him by an admirer in Mexico last year. Pinning that on his coat he mingled with the deputies and finally slipped from the place unobserved.

**Notes of Sport.**

Shifting now one way and then another, the odds on the Attell-Welch battle at Los Angeles next Thursday have stopped for a moment with Attell an 8 to 10 favorite.

**American Defeated.**

MELBOURNE, Nov. 24—A. F. Wilding of Australia yesterday defeated A. B. Alexander, the American in the final of the Victorian singles in the tennis championship contest. The scores were 4-6, 6-0, 6-0, 6-2.

The third annual tournament of the western bowling congress next year will be held in Seattle from May 29 to June 6 inclusive, and in all probability the meetitng hall will be the old Madison park pavilion. These dates and the selection of the bowling hall were practically agreed upon at an informal meeting on Thursday of a special committee.

A Spokane dispatch says: "Fred S. Radcliff, sheriff of Whidman county, who towers six feet and two inches in his stocking feet and weighs 375 pounds, and Dr. T. E. Callaghan of Spokane, six feet and four inches from crown to sole, with 200 pounds to his credit, will meet in the roped arena with padded gloves within two weeks to decide the amateur championship of the inland empire Giants."

Ketchell and Papke are matched to fight 20 rounds November 26. Expectations are that Papke will beat Ketchell.

The Montreal A. A. A. members officially announce that they are out of professional hockey for keeps, and make the candid admission—somewhat belated, of course—that it was no place for an association such as the M.A.A.A. aspired to be.

## NO DISEASE IN CANADA

### EFFORT BEING MADE TO CONVINCE BRITISHERS

### THIS ONE RESULT OF OUTBREAK IN STATES

(Western Associated Press.)

OTTAWA, Nov. 24—In official circles it is hoped that as a result of the outbreak of foot and mouth disease in the United States, the British government will be compelled to acknowledge that there is no disease among Canadian cattle. The department of agriculture here is endeavoring to convince the people of Britain through the high commissioner that no disease exists among Canadian herds anywhere from the Atlantic to the Pacific and has put into force the most absolute quarantine ever effected between coterminous nations. This quarantine not only applies to cattle and their products but includes horses as well. In addition to the precautions at railway points on the frontier, special inspectors are stationed at every highway crossing on the frontier in order to further safeguard Canadian interests.

The cables have been kept hot between Canada and England in regard to the cattle quarantine. Lord Strathcona has been most insistent in his demands for a declaration that no cattle disease exists in Canada and even went so far upon the receipt of a press message on Saturday to the effect that the disease had been imported into Buffalo from Canada, to suggest that a certain section around Toronto should be quarantined. But the department after telegraphic communication with its officers was convinced that no disease existed in Canada and it wired back to the effect that the suggestion was impossible because it would be casting reflections upon Canadian herds. The quarantine regulations were today extended to include the state of New Jersey.

**PILES FOR FOUR YEARS**

Only those who suffer from piles can know the agony, the burning, throbbing, shooting, stabbing pains which this ailment causes and the way it wrecks the sufferer's life!

Zam-Buk is blessed by thousands who used to suffer from piles, but whom it has cured. One such grateful person is Mrs. Elizabeth Taylor of Greenwood Avenue, Toronto. She says: "For four long years I suffered acutely from bleeding piles. During that time I spent an immense amount of money on 'remedies' and doctor's prescriptions but I got no ease. Zam-Buk was different to everything else I had tried and it cured me. I am grateful for the cure, and as I have never had piles once since, I know the cure is permanent."

Another thankful woman is Mrs. A. E. Gardiner, of Catelina, Trinity Bay. She says: "In my case Zam-Buk effected a wonderful cure. For 12 years I had been troubled with blind, bleeding and protruding piles. I had been using various kinds of ointments, etc., but never came across anything to do me good until I tried Zam-Buk which cured me! That this may be the means of helping some sufferers from piles to try Zam-Buk is the wish of one who has found great relief."

Zam-Buk is a purely herbal balm and should be in every home! Cures cuts, burns, bruises, eczema, ulcers, blood-poisoning, itch, cold-sores, chapped hands and all diseases and injuries of the skin, etc. All druggists and stores at 50c box, or from Zam-Buk Co., Toronto, for price.

USE Zam-Buk The Balm that benefits You OF ALL DRUGGISTS 50c A Box

**Clark's Seedling Strawberry Plants**

Do you want to grow strawberries for profit? Do you want to grow a berry that will stand up under long distance shipments and go into the markets solid, firm and in good salable condition?

If you do, then plant the Clark's seedling, as it is the berry and THE ONLY BERRY that has proven itself possessed of these qualities.

I have over one million of the choicest plants to offer and am booking orders for spring planting.

Price in thousand lots or more $2.50 f.o.b. cars Hood River, Ore. Less than one thousand 75c per hundred.

## BUSINESS OUTLOOK

Looking over the dominion at the close of the last month but one of the present year it is decidedly satisfactory to note that manufacturers and wholesalers are practically unanimous in asserting that busines has steadily improved during the fall and that the outlook is very encouraging.

The improvement in business is on a very healthy basis because it is not being rushed and because it is not a local matter but is spreading all over the continent just as the depression did. Railroad traffic is steadily recovering, a hopeful tone prevades the stock markets, the managers of loan companies report satisfactory settlements in payments of interest and principal and as a rule the banks admit that current paper is being well met. There has been a splendid harvest and wheat is bringing a high price.

In the west among other things that should create confidence is the enormous rush for lands. The number of homesteads and pre-emptions taken up recently is unprecedented. In September the greatest land business ever transacted in any country was done in western Canada. Two and a half million acres were disposed of to actual settlers under agreement that the land should be cultivated. In other words, nearly 16,000 homesteaders took up quarter sections, and the activity in the settlement of western lands was continued last month, although the business done was not as large as in September. If it is true as asserted, that the lands have been taken by bona fide settlers a big increase in acreage may be looked for in the next year or two.

It is reasonably certain that British Columbia will obtain a good share of the better times clearly ahead and the indications at the coast just now point to a period of rapid and widespread expansion.

In Kootenay the number of settlers who have taken up land is away ahead of any former year and this is especially true of the district of which Nelson is the commercial center.

The west, and this province in particular, wants lots of more capital, successful mining and lumbering on a large scale requiring large initial expenditures and the outlook as the year draws to a close for the advent of capital is more encouraging than it has been for a long time.

With mining, lumbering and fruit growing all on the up grade Nelson is peculiarly well situated to reap the full benefit of the rising tide, an opportunity that the enterprising residents here will beyond question make the most of.

The rise in the price of copper, which gives every promise of being maintained is another factor that must not be lost sight of in making an estimate of the business outlook.

Referring to the outlook for lumber the Canada Lumberman in its last issue says: "Reports indicate that large consumers are beginning to appear in the market again. The markets in United States are renewing their demands Building operations in the large cities are unusually extensive for this time of the year and all conditions point to not only a renewed demand, but an exceptionally heavy one from now on. The threatened reduction in woods operations during the coming winter may be largely averted. Large firms are undoubtedly expecting a strong demand for all kinds of lumber and the manufacturer who is ready with the goods when the demand is on will reap a handsome profit."

From one end of Canada to the other in all lines of business the outlook at the present time can only be described as most decidedly healthy and satisfactory.

## EDITORIAL NOTES

The Hindus in B.C. have objected strenuously to being sent to British Honduras ever since the project was first mooted and if the delegates sent to spy out the land were bribed to make a favorable report as stated in the special despatch from Vancouver yesterday, the whole scheme may fall through. To be successfully carried out the plan of deportation must commence at once as employers of labor in Honduras make their contracts by Dec. 15 for the year and must immediately have some idea of the likely supply from B.C. There are no means of forcing the Indians to leave the province if they do not wish to go and it looks now as if the only thing to be done is to coax them to return to their own land.

The presence of John D. Rockefeller on the witness stand at the hearing in connection with the United States government's suit against the Standard Oil company is, according to some American newspapers, an event of wide public interest. The agitation over the border against trust domination has been acute for more than twenty years and the Sherman law has been passed over eighteen years. Yet now, for the first time, the man responsible more than any other for the conditions which have provoked that agitation, the creator of the most offensive of existing monopolies, is brought into court to tell his version of the story of Standard Oil. The fact that Mr. Rockefeller has been able to successfully defy the law and public opinion all these years is eloquent testimony to the power of mere wealth in the American republic. Outside of Mr. Rockefeller's pleasantly told reminiscences of the origin and rise of the great monopoly, the two leading features of his examination last week were the figures referred to, showing the capital involved and the present income of the oil trust, figures that make the head swim for the ordinary individual, but which seem to have no particular significance for the witness and in addition Mr. Rockefeller's pronounced statement that coercive methods were never practiced during the upbuilding of Standard Oil and that only fair negotiations were made throughout the history of the organization when dealing with competitors and with the public. Presumably the oil king's idea of "fair negotiations" and the generally accepted definition must be widely apart or else the most wealthy American has been a much maligned man.

When the present liberal administration came into office in England it was generally understood that a reduction of the army and a decrease in the construction program for the navy would form a prominent feature of the party's policy, indeed, such a change was practically promised. Public opinion, however, has driven premier Asquith to anounce at the Lord Mayor's banquet on Nov. 9 that naval construction would proced upon an increased, rather than a diminished scale, and now lord Roberts' plea for a standing army of a million men to resist a possible invasion, is likely to result in a second change of policy. The statements made by lord Roberts of England's unpreparedness to successfully cope with a German army suddenly landed on her shores, the apparent ease with which the invasion could be carried out and the dreadful picture of Britain's humiliation sketched by the nation's greatest soldier, will make Englishmen uncomfortable for some time to come. "Bobs" has raised a spectre that will not be laid until the whole question is thoroughly gone into by the public.

## PROFESSIONAL HOBOES

### Labor Agent's Opinion of Those Living on Charity In New York.

NEW YORK, Nov. 24—That most of the unfortunates who stand shivering in New York's bread line waiting for dry bread and a cup of coffee, are liars and professional hoboes, who would not work if employment was offered them, is the opinion of T. V. Powderly, a government labor agent, who has made a study of conditions here at close range. Mr. Powderly has suggested that the state purchase farms where the professional receivers of charity shall be forced to work. If they refuse to do service there, his plan is to place them in the hands of some other state department for handling and correction.

### Tariff on Pig Lead.

NEW YORK, Nov. 24—A conference of representatives of the leading pig lead interests of the country was held in this city today to discuss the attitude of those interests on the matter of tariff revision, and to consider the advisability of placing the views of the manufacturers before the ways and means committee which is now giving hearings on the tariff in Washington. A committee was appointed to go to Washington to appear before the committee of congress tomorrow but whether its members will favor a reduction in the tariff has not been made known.

## FARMERS' MEETINGS

The regular fall meetings of the West Kootenay Farmers' Institutet will be held as follows:
Burton, Wednesday, Nov. 25.
Nakusp, Thursday, Nov. 26.
Revelstoke, Friday, Nov. 27
Kaslo, Monday, Nov. 30.
Crawford Bay, Tuesday, Dec. 1
Nelson, Wednesday, Dec. 2.
Creston, Thursday, Dec. 3.
Cranbrook, Friday, Dec. 4.
W. J. Brandrith of Ladner, B.C. will address these meetings on the subject of fruit growing.

## KILLS HIS DAUGHTER

### New York Baker Also Wounds His Son.

NEW YORK, Nov. 24—Returning to his home in the upper east side early today after an all night absence, Carl Loos, a baker, opened fire with a revolver upon the members of his family, who were at breakfast, instantly killing his 24-year-old son Frederick, a Lutheran minister. He was disarmed by his son John, 19 years old, before he could fire a third shot. He was arrested charged with murder. He refused to give any reasons for his action and the police have been unable to learn any motives for the crime.

Frederick, the wounded son, was rushed to a hospital within a few minutes after the shot was fired. There is a bullet in his abdomen and the doctors say there is almost no chance to recover. John, who disarmed him father, has been detained as a witness. Loos is 57 years old.

## VON BUELOW'S VIEW

### What he Says Regarding Alleged Text of Kaiser's Interview.

PARIS, Nov. 24—A special dispatch from Berlin quotes chancellor von Buelow as saying with respect to the extracts from the alleged interview with emperor William, recently published in the United States:

"No one will contradict me when I say that the attributing to the emperor the stupidly absurd statements which he could not have made or even declared constitutes a reprehensible act.

"We shall be placed in an impossible situation if the fabrication of imperial interviews becomes the favorite sport of certain inventive minds."

## FISHERIES COMMISSION

### Americans Are Preparing Their Side of the Case.

WASHINGTON, Nov. 24—Representatives of the fish commissions of a number of bordering states had a conference here yesterday with Prof. D. S. Jordan, the American representative of the international fisheries commission organized by the United States and Great Britain under a treaty approved April 11, 1908, for the purpose of considering the proposed internatitonal relations for the protection and preservation of the fishes in the tributary waters of Canada and the United States, from Eastport, Maine to Vancouver, B. C.

At the conference were representatives of the states of Maine, Vermont, New York, Pennsylvania, Ohio, Michigan, Wisconsin and Minnesota. Others interested in the proposed uniform international regulations were in the city to make suggestions. Prof. Jordan will hold a conference with Prof. E. E. Prince of Canada, the representative of Great Britain on the commission, and an attempt will be made to lay the proposed regulations before congress for approval this winter.

### Scotch View.

EDINBURGH, Nov. 24—The Scotchman says anent J. J. Hill's speech that it warns free traders of the danger of future trade reciprocity between Canada and the United States.

**This woman says she was saved from an operation by Lydia E. Pinkham's Vegetable Compound.**

Mrs. Frank Emsley, Lindsay, Ontario, writes to Mrs. Pinkham:

"When I wrote to you some time ago, I was a very sick woman suffering from female troubles. I had inflammation of the feminine organs and could not stand or walk any distance. At last I was confined to my bed and the doctor said I would have to go through an operation, but this I refused to do.

"A friend advised Lydia E. Pinkham's Vegetable Compound. After using three bottles of it, I feel like a new woman.

"I most heartily recommend Lydia E. Pinkham's Vegetable Compound to all women who suffer with female troubles."

**FACTS FOR SICK WOMEN.**

For thirty years Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, has been the standard remedy for female ills, and has positively cured thousands of women who have been troubled with displacements, inflammation, ulceration, fibroid tumors, irregularities, periodic pains, backache, that bearing-down feeling, flatulency, indigestion, dizziness or nervous prostration. Why don't you try it?

**Mrs. Pinkham invites all sick women to write her for advice. She has guided thousands to health. Address, Lynn, Mass.**

MR. G. BRISTON, Bath, Ont.

**COULD NOT LIFT 10 POUNDS**
**HE WAS SO WEAK.**

This was the condition of Mr. George H. Briston, of Bath, Ont., when he commenced taking PSYCHINE four years ago. He says: "About thirteen years ago, I caught a severe cold which settled in the Bronchial tubes and on my lungs. I was rapidly sinking and was unable to go about the house without pushing a chair ahead of me to steady myself. I was so weak I could not pick 10 pounds off the ground, and seeing your advertisement, I *decided to try* PSYCHINE. *In three days from* taking PSYCHINE I could walk without the chair and I gradually found myself getting stronger, until at the end of one year I was able to discontinue the treatment. Since that time (three years) I have not had a return of the disease, and would recommend anyone suffering from Throat or Lung trouble to use PSYCHINE." It is no wonder that Mr. Briston recommends PSYCHINE to his friends, for he has discovered the Greatest of Tonics, PSYCHINE. A remedy that cures to stay cured, as thousands can testify. PSYCHINE is sold by all druggists and dealers. 50c and $1.00 a bottle.

YOU CAN TRY PSYCHINE FREE!

Mail this coupon to Dr. T. A. Slocum, Limited, Toronto, and you will receive a TRIAL BOTTLE FREE.

PSYCHINE (PRONOUNCED SI-KEEN)
THE GREATEST OF TONICS FOR HEALTH AND ENERGY

**Do You Belong to the Want-Advertising "Four Hundred" In This City?**

If you could make a list, in this city, of the four hundred people who make the most effective uses of the want ads., you would have a list of the most alert, thrifty, practical, up-to-date, prosperous *people in town. No other test would so surely include the people* who have most to do with the practical things of the city's daily life —who promote its activities—who boost and boom it—who create all about them that optimism which makes for healthful activity in all lines of business.

If YOU belong, already, to the city's "want ad. four hundred," you are prosperous, enthusiastic about life and the business of the day, and are "making money." You are in touch with all of the little opportunities to "earn a dollar" (or a hundred dollars) which come to the careful reader and answerer of the classified ads., and you turn naturally and quickly to the use of the small ads. whenever you want anything, or have anything to sell.

As in New York society, the "400" consists of at least a thousand people, so, in this city, the "want ad. four hundred" may be stretched into an indefinite number. Perhaps, if you "wake up" promptly you may become *the four hundred and first member of the* 'want ad. 400."

**Phone 144**
**The Daily News**

## PARENT IS BELLICOSE

OBJECTS TO CRITICISM OF RAILWAY COMMISSION

HAS DEMANDED APOLOGY FROM LONDON TIMES

OTTAWA, Nov. 24—Simeon Napoleon Parent, chairman of the transcontinental railway commission, said today that if any reputable journal either at home or abroad makes any charge against the honesty of the commission it will be given every opportunity to prove its charge in the courts. The commission, he said, was doing its best to build the railway as economically as possible *and did not propose quietly to submit* to calumny and unwarranted criticism.

The commission had already taken steps to vindicate its honor against attacks in the London Times on the eve of the recent election and had instructed Charles Russel, Canadian legal adviser in London, to demand a retraction and an apology from the Times.

### COUNTERFEITERS CAUGHT

**Police Captures Gang That Has Been Making Spurious Money.**

CHICAGO, Nov. 24—That the counterfeit $5 bills which have been freely circulated in Chicago and other cities in the last two months were manufactured by an organized gang operating in Chicago and that this gang is broken up, was the statement made last night by United States secret service officers following a number of arrests. The men arrested are declared to have made confessions, saying that $30,000 worth of bills were made, that plates were engraved by one of the gang and the false money was struck off in wholesale lots at a place in West Adams street in Chicago. With Lee Brown, Edward Whead and Edward Westcott, under arrest are Dr. W. H. Young, George Anderson and Iola Berkinson, the latter three held in connection with the circulation of the bills.

### FIRST AIRSHIP LINE

**Proposed to Carry Passengers Between Boston and New York.**

BUFFALO, Nov. 24—A special to the Express, from Hammondsport, N. Y., says that Thomas H. Baldwin, who recently constructed a war balloon for the government war department at Fort Meyer, near Washington, has returned to Hammondsport. He will at once begin the construction of two motor balloons. Capt. Baldwin also has contracts for building several dirigible balloons for the Glidden syndicate, to be used in a proposed passenger service between Brooklyn and New York. That will be the first attempt to employ airships in the passenger business.

### NEWS FROM FERNIE

**Streets Are in Bad Condition—Citizens Ticket for Council.**

(Special to The Daily News)

FERNIE, Nov. 24—The wet weather of the last week has placed the roadways in the city in a shocking condition and in some localities they are in an unsafe condition forr vehicular traffic. Yesterday afternoon a heavily laden furniture wagon delivering goods from the station, turned turtle on the main street, owing to a large hole being made in the road by the rains and the contents were dumped out into the deep mud and badly damaged.

Municipal politics are now engaging the attention of the public and already a "Citizens Ticket" has been chosen by the various unions. The platform is a comprehensive and reasonable one and plainly shows that the ratepayers are determined to have a council elected that will be capable of dealing in an intelligent and business like manner with the important problems that will confront the municipality during the coming year. A mass meeting is to be held this week to discuss the affairs of the city, and it is probable that names will be submitted by the "Citizens Ticket" to fill the position of mayor and council.

### REGINA LIBEL CASE

**Premier Scott Submits Charges Against Mr. Laird.**

REGINA, Nov. 24—The Laird-Scott libel case came before the courts again yesterday and the order of the judge that the defense file particulars of the graft charges against Mr. Laird was complied with. Alex. Ross for premier Scott, filed a lengthy document in which he alleged that in October, 1905 Mr. Laird received from the contracting firm of Dobson, Jackson and Fry, the sum of $1500 and in February of the same year he received $500 from the McComb Sewer Pipe company. It is alleged that these were Mr. Laird's share for giving the contracts awarded. It is also alleged that during every month of 1904 Laird received from Dobson, Jackson and Fry excessive rental for storage for cement in his warehouse in Regina.

Another charge made is that Mr. Laird used his position as alderman of the city to secure water works connection for one Reginald Kirk, located in Eastern Annex, in which Mr. Laird was interested. It is also alleged that he used his position as alderman to secure *the removal of the slaughtering houses* from before his Eastern Annex property. No argument was heard yesterday and the case will come up again next week.

## COMMUNICATIONS

Letters to The Daily News on current topics are cordially invited, subject to the following terms:

The letters must be plainly written (typewritten preferred) on one side of the writing paper only, of reasonable length and must be signed by the writer for publication.

The Daily News is not responsible for the views expressed by correspondents.

**Makes Denial.**

Editor The Daily News—Sir—I wish to contradict the local appearing in your paper this date, stating that our society had purchased 3000 acres of grazing land on Pass creek.

We have not purchased any land on Pass creek and have sufficient land here to meet our requirements for the present.

DOUKHOBOR SOCIETY
John Sherebinin.
Brilliant, B.C., Nov. 24.

**Is Elected Senator.**

DES MOINES, Iowa, Nov. 24—By a vote of 106 to 35 governor Amherst B. Cummings was elected to the United States senate this afternoon to succeed the late William B. Allison. At the close of the joint session senator Cummings tendered his resignation as governor. The oath of that office was administered to lieutenant governor Garst. Governor Cummings was elected to the unexpired terms of senator Allison ending March next. His re-election in

# MEAGHER & CO.

The reservoir of the OXFORD CHANCELLOR is the ideal reservoir construction for a first-class range.

It can be detached or attached by anyone in a few minutes.

It is constructed of planished copper of the highest grade, and has a capacity of from 6 1-2 to 11 imperial gallons.

We have also a cast-iron, copper-lined reservoir, which, in some styles, is attached to the right hand end of the range. This affords ample hot water. Either style can be supplied.

# An Owner's Sacrifice

This beautiful property must be sold, owner forced to realize; only $1650 required to purchase this desirable property and not all cash.

HOUSE AND THREE LOTS, CORNER CEDAR AND HOOVER STREETS.

This property occupies the best corner at the intersection of the streets named. The house is of frame construction, well and substantially built, and consists of parlor, dining room, kitchen, two bedrooms, large bathroom having good bath with hot and cold water and modern toilet, pantry, vestibule and a splendid wide verandah on two sides of the house, providing a magnificent view of the lake.

The rooms are of good size, lath and plastered, and well lighted. Dining room is nicely papered. The sink (hot and cold water taps) usually in the kitchen, is in this instance in a separate room off the kitchen, which is a good feature.

From the kitchen a convenient stairway leads to the basement which extends under the whole of the house. It has a high ceiling and the floor is on the same level as the ground outside. The basement is very large and could readily be partitioned off to provide a summer kitchen, washroom, furnace room, and even an additional bedroom, and yet have sufficient space left for wood, coal and stores. There is also a shed outside at the back end of the lots, suitable as a chicken house.

The grounds are ample (75 by 120 feet) and well laid out, and have several bearing fruit trees.

The house is in splendid repair, has just been renovated and well painted on the outside, and the whole property has a very attractive appearance.

See Toye, Taylor & McQuarrie about this Snap

# Burton City 10-Acre Tracts

Our 10-acre lots at Burton City are absolutely the finest land that the Kootenay district boasts of. Perfectly level, free from stone, well watered, situated close to lake shore and within one mile of post office, general store, hotel, regular steamboat landing and with good roads leading there, too. You can make no mistake in buying at our price $100 per acre.

Terms arranged to suit purchaser. Plan and full information furnished for the asking.

You Would Gladly Mortgage Your Business to Pay for a Policy of

# "Profit Insurance"

Wouldn't You?

If you would take out a policy of insurance which guaranteed you certain dividends from your store, or business enterprise, securing against losses, you would be glad to lose a little sleep in securing such a form of insurance—wouldn't you?

And yet, in any business under the sun, what amounts to such a policy of insurance is embraced in an intelligent advertising campaign.

No advertising campaign that was well-devised and carried out with unflinching persistence ever failed to furnish actual "Profit Insurance" for a business.

The cost of this insurance for a store or other enterprise is not "beyond your means,"—unless you are one of the folks who ought not to be in business at all, WHICH YOU ARE NOT! This cost cost is partially payable in cash, of course, but only partially. A large part of it is payable in INTELLIGENCE, and in the capacity to profit by experience, in what is generally known as "grey matter." This does not mean that you must "worry." It means that you must think—that you must plan and execute.

You Can Make Your Advertising Campaign Your "Policy of Profit Insurance" by Using the Columns of - - -

## BURGLAR IS SHOT DEAD

KILLED WHILE ESCAPING FROM ROSTHERN STORE

CLERK IN PLACE FIRED AT HIM IN DEFENCE

ROSTHERN, Sask., Nov. 24—An attempted burglary of E. E. Ruttle's general store here had a fatal termination in the early hours of yesterday morning. It appears that Mr. Ruttle who has a burglar alarm in his residence connected with the store, about a quarter of a mile away, was awakened about 2 o'clock yesterday morning by the ringing of the alarm bell.

Calling one of his clerks, Emil Tadel, they quickly dressed and hurried to the store. Ruttle went to guard the rear of the premises while Tadel went to the front. Tadel found a man standing in front of the store and on asking him what he was doing received the reply, "Nothing." On Tadel moving closer to see to whom he was speaking, the man ran into the store to warn his accomplice.

Tadel then whistled to Ruttle and on hearing this both men made a rush for the front door, one of them firing two shots at Tadel, which passed close to his head but did not hit him. Tadel then fired in self defense; one of the men ran about 30 yards and fell in a heap. His companion rushed up to his fallen comrade, secured his revolver and disappeared.

When picked up the injured man was breathing but expired on the way to the hospital. Inquiry revealed the fact that the first seen of the men was on Saturday night, when about 1 o'clock they entered the Queen's hotel and applied for rooms. The dead man registered as W. F. Ames and his companion as W. F. Salfrey. They gave up their rooms on Sunday morning stating their intention of leaving town, but on Sunday night again registered at the Queen's.

Minard's Liniment Cures Diphtheria.

## PUBLIC WORKS REPORT

IT IS SUBJECT OF DEBATE IN COUNCIL MEETING

ALDERMEN DIFFER OVER JOSEPHINE STREET WORK

The only debate there was on Monday night at the council meeting was over the report of the public works committee presented by Ald. Procter and eventually adopted as submitted. The report read as follows:

"We have attended to the matter of getting a sidetrack in at Miles' Ferry. In connection with this matter I have had a letter from Mr. Coleman advising that the price would be $206.25. This, however, includes the ties, so Mr. Procter and the city engineer waited on Mr. Coleman to see if this figure could not be reduced. Mr. Coleman stated that he expected his successor in the course of the next day or two and would recommend that the C.P.R. furnish the ties for this temporary track, which would reduce the cost to about $80, which would be satisfactory.

"With regard to opening the road on Hoover street, between Kootenay and Falls streets, this work has made favorable progress, and teams have passed over the road on Saturday. Two or three days more will conclude this work, the cost up to the present being about $300.

"The new city jail is about completed, the partitions and doors being hung today. This will be ready to move into within two or three days if necessary.

"With regard to excavation at the foot of Josephine street, your committee would recommend that the city grade the first 15 feet adjoining the property of the Kootenay Jam company at a cost not to exceed $100. This work might be undertaken by the present contractor. The balance of the dirt might be left in place for future use."

In connection with the spur track at Miles' Ferry for the delivery of supplies for the new power house Ald. Procter explained that Mr. Coleman had promised to stop the car with the lumber for the scow for carying the supplies across the river, at the place where the latter was to be built, if the city would have men there ready to unload it while the train waited.

Ald. Kerr asked why the work at the foot of Josephine street should be done by a contractor instead of by the city engineer. He was in favor of all such work being done by the people and the city, who would be paid the union rate of wages. Men in the city supporting families should have this work.

Ald. Procter replied that the city engineer had estimated the amount of earth to be removed and it would be cheaper to have the work done this way. The men who would be employed would be residents of the city, just as much as if the work were done under the direction of the city engineer. The Jam people had made a tender to him of $100 for this work, and he was submitting it.

J. C. Dufresne, city engineer, explained that he could not do the work for $100. In his opinion it would cost $150 to do it the way suggested by Ald. Kerr.

Ald. Procter moved that this portion of the report be adopted, and Ald. Kerr moved in amendment that the work on Josephine street be done under the direction of the city engineer. Ald. Procter's motion carried.

### Roosevelt Invited.

LONDON, Nov. 24—President Roosevelt, has accepted the invitation of the president of the Royal Geographical society to deliver an address before the society on his visit to London in April, 1909. The subject of the address has not been decided upon, but it probably will be to deal with his impressions on his African tour.

## ANTI-JAPANESE RIOTS

CHINESE OBJECT TO ENDING THE BOYCOTT

SHOPS LOOTED AND OTHER OUTRAGES COMMITTED

VICTORIA, Nov. 24—With 3500 tons of hemp and general merchandise and 47 Chinese, the steamer Teucer arrived last night from Liverpool and the orient. A strong southeast gale was encountered with high head seas and the steamer was put about with the wind on Nov. 16. Head winds and a strong head swell were afterwards encountered and the gale did not settle for three days.

When the Teucer was at Hongkong there were serious anti-Japanese riots going on and many ships and godowns were looted by an organized mob of rioters as a result of the displeasure of the Chinese because of the efforts of the government to put down the boycott against Japanese. Armed police were called out to disperse the mobs and 12 Chinese were arrested. The opening of the rioting was at the two godowns of the Chinese firms of Kao-shing street. The firms dealt extensively in Japanese goods, particularly dried fish. Two hundred rioters broke open the doors and threw goods to the value of $6000 into the street. At 7 p.m. on Nov. 1, the rioting grew in violence and seemed well organized. The Chinese godowns and shops containing Japanese goods had been marked and a plan of campaign seemed to be followed. As the police dispersed the mobs, they regathered, smashed doors open, looted and fled. In many places the rioters showed fight when the police came and the police, assisted by some sailors, replied to showers of stones from the mob with charges in which there was some vigorous hitting and a good many sore heads. At one stage the police fixed bayonets to prevent attempts at the rescue of prisoners.

The cause of the riots was an effort made by the Chinese merchants interested in importing Japanese goods to end the boycott and one of the promoters of this was waylaid and one of his ears cut off.

Capt. Parkinson of the Teucer, was one of the fifteen survivors of the wreck of the Great Eastern railway company's steamer Berlin, on Feb. 20 last off the Hook of Holland, when 127 lives were lost. He was washed overboard after the steamer broke in two and was in the icy water 20 minutes before being rescued by a life boat. He acted splendidly throughout the disaster and was the recipient of warm praise from queen Wilhelmina and crown prince Henry.

News was brought by the Teucer that arrangements are being perfected for a steamship service by the Toyo Kisen Kaisha between Japan and Salina Cruz. Mr. Shirashi is supposed to have concluded satisfactory arrangements with the government of Mexico annd the Japanese authorities are willing to grant a subsidy to the line which will give the Japanese shippers a direct connection with the ports of the Atlantic via the Tehuantapec railroad.

### How to Treat a Sprain.

Sprains, swellings and lameness are promptly relieved by Chamberlain's Pain Balm. This liniment reduces inflammation and soreness so that a sprain may be cured in about one-third the time required by the usual treatment. For sale by all druggists and dealers.

day getting in touch with the various duties connected with the position.

The school board is to meet in Dr. Arthur's office at 8 p. m. tonight.

Next Sunday will be the festival of St. Andrew, the patron saint of Scotland.

The Pythian Sisters, Nelson Temple No. 10 will meet tomorrow evening in K. of P. hall.

The executive of the Fruit and Produce Exchange will meet at Revelstoke next Tuesday afternoon.

Sunday next will be the first Sunday in Advent and the commencement of a new year in the Catholic church.

The stretcher bearer corps of the 102nd regiment will parade in drill order at the armory at 8 p. m., city time, tonight.

The annual meeting of the B. C. Curling association is called for Wednesday evening at 3 p. m. at the board of trade offices in this city.

On Friday evening next there will be a special New England supper in the parors of the Presbyterian church from 6 to 8 p. m.

A drill parade of the 1st Nelson company, Boys' brigade, will be held this evening at 7:15 sharp in the church hall and all members are expected to attend in uniform.

W. J. Brandrith will address Farmers' Institute meetings at Burton City tonight and Nakusp tomorrow night. On Friday night Mr. Brandrith will speak at Revelstoke.

The National Sanitarium association, of which J. S. Robertson of 347 King street, west, Toronto, is secretary-treasurer, are issuing Christmas stamps at one cent each to help in the maintenance of poor patients at the Muskoka Free Hospital for consumptives and to stamp out the dread white plague. These little stamps in red and white, costing only one cent each, have fought a valiant fight in Denmark, where their annual sale has built and financed a hospital for consumptives since 1904. The American Red Cross society of Delaware tried this Danish idea last Christmas and in less than three weeks sold 400,000. The banks, departmental stores, drug stores, stationery and many other stores sold them. Women's clubs and church organizations helped—the boys and girls helped, in fact everybody joined in the popular movement. This year the National Red Cross has taken up the Christmas stamp and it will be on sale all over the United States. Canada also is to have a Christmas stamp, and it has been issued for the Muskoka Free hospital for consumptives It will not carry any kind of mail, but any kind of mail will carry it—and carry too the happy season's greetings from sender to receiver. The stamps will be done up in envelopes of ten, twenty-five, fifty and one hundred for ordinary selling, and large users will be supplied in quantities. The price for ten or for one thousand is one cent each. Everybody everywhere may help in forming an army of willing workers to sell the stamps al over the Dominion.

## NO MISERY IN STOMACH

### GIVE YOUR STOMACH A GOOD EAT WITHOUT DREAD

### DIAPEPSIN WILL RID YOU OF STOMACH TROUBLE FOREVER

As there is often some one in your family who suffers an attack of indigestion or some form of stomach trouble, why don't you keep a case of Diapepsin in the house handy?

This harmless blessing will digest anything you can eat without the slightest discomfort, and regulate a sour stomach five minutes after.

Tell your pharmacist to let you read the formula plainly printed on these 50 cent cases of Pape's Diapepsin, then you will readily see why they cure indigestion, sour stomach, heartburn and prevent at once such miseries as belching of gas, eructation of sour undigested food, nausea, headaches, dizziness, constipation and other stomach disorders.

Some folks have tried so long to find relief from indigestion with the common every-day cures advertised that have about made up their minds that they have something else wrong, or believe theirs is a case of nervous gastritis, catarrh of the stomach or cancer.

This is a serious mistake. Your real trouble is, what you eat does not digest; instead, it ferments and sours, turns to acid, gas and stomach poison, which will putrefy in the entire digestive tract and intestines, and besides, poison the breath with nauseous odors.

A hearty appetite with thorough digestion, and without the slightest discomfort or misery of the stomach, is waiting for you as soon as you decide to try Pape's Diapepsin.

One candy-like Triangule, taken after eating, will promptly digest all your food the same as a strong, healthy stomach would do it.

### How to Cure a Cold.

Be as careful as you can you will occasionally take cold, and when you do, get a medicine of known ability, one that has an established reputation and that is certain to effect a quick cure. Such a medicine is Chamberlain's Cough Remedy. It has gained a world wide reputation by its remarkable cures of this most common ailment and can always be depended upon. It acts on nature's plan, relieves the lungs, aids expectoration, opens the secretions and aids nature in restoring the system to a healthy condition. During the many years in which it has been in general use we have yet to learn of a single case of cold or attack of the grip having resulted in pneumonia when this remedy was used, which shows conclusively that it is a certain preventive of that dangerous disease. Chamberlain's Cough Remedy contains no opium or other narcotic and may be given as confidently to a baby as to an adult. For sale by all druggists and dealers.

### STRUGGLE JUST BEGINNING

#### Radical View of Germany's Constitutional Fight.

BERLIN, Nov. 24—During the further discussion of the finance bills in the reichstag today, Herr von Payer, radical said that the whole country still thrilled with excitement over the subject recently debated in the house.

"Everybody sees," he said, "that we are only at the beginning of the struggle for legislational guarantees. Everybody sees that the position occupied by the reichstag is exceptionally strong for it poses for the settlement of this question, something that it never possessed before, namely, power."

The Kreuz Zeitung says that chancellor von Buelow took with him to Potsdam last Tuesday on the occasion of his interview with the emperor, a document for the emperor to sign, which has not yet seen the light of day. The Tageblatt has ascertained in parliamentary circles that this was the pledge to impose self restraint upon himself in talking with strangers and particularly with journalists, but apparently the emperor failed to affix his signature. The paper states that the chancellor has shown the document to several of the ministers and conservative members of the reichstag, including president Stohbergh-Weingerod.

---

The Christmas numbers of Graphic, Illus. London News, Pears Annual, Black and White, Holly Leaves, (Sporting and Dramatic News,) are now to hand at W. G. Thompson's Bookstore. ## NELSON NEWS OF THE DAY

H. F. Annable, Taber, Alta., is on a visit to his brother J. E. Annable and leaves in the morning for his home.

The annual social evening of the Carpenters' union will be held this evening in Miners' Union hall commencing at 7:30 p. m., city time. A first class program has been arranged and every member should be in attendance.

J. Laing Stocks has instituted an action against the China Creek Lumber company, *limited, for the recission of an* agreement for the sale of land dated July 8th, 1907, and the return of the sum of $9860.50, which has been paid on account, on the ground of fraud and misrepresentation. A. M. Johnson is acting for the plaintiff.

*The funeral of* Henry, the five year old son of Arthur Choquette, who died on Sunday night after a short illness took place yesterday afternoon, the mass for the dead being said at the church of Mary Imaculate By Rev. Father Althoff. A large number of school children and citizens attended as a mark of sympathy with the bereaved parents.

The Churchman's club concert in the opera house tonight promises to be a big success, the advance sale of tickets at Rutherford's store being extremely encouraging to the promotors of the event. The program, which was published in full in these columns yesterday, is unusually attractive. The doors will open at 8 o'clock and the curtain goes up at 8:45, city time.

A special meeting of the University club will be held at the public school building on Sateurday evening next at 8:30 p. m., ceity time, when Rev. D. Mc Kay, of Westminster College, Vancouver will address the club on "University Prospects" and "Modern Educational Fallacies." Dr. McKay, who was formerly pastor of Crescent street Presbyterian church, Montreal, expected to arrive on the Slocan train on Saturday evening.

Nelson Aerie No. 22, will hold its fortnightly *meeting at 8:30 p. m. tomorrow* evening in Fraternity hall, on which occasion offices for the coming year will be nominated and a number of candidates for initiation will be taught the art of flying to and from the Eagle nest. A report will also be presented by the building committee and several matters of importance with regard to the new Eagles' hall will come up for *discussion.*

The preliminary investigation into the charge laid against two Chinamen by the Procter Lumber company for stealing lumber came up for hearing before stipendiary magistrate Bullock Webster yesterday in the police court when the two men were committed for trial. If Judge Forin returns in time, the case will be heard before him tomorrow. The men were admitted to bail in the meantime.

According to the "Canadian Military Gazette an Ottawa despatch says: It is stated in military circles that Lieut-Col. J. C. MacDougall, in command of the Wolseley barracks, London, is to be appointed adjutant- general upon the retirement of Major-General Lake, Inspector Inchief of the general staff. General Lake's retirement leaves way for the promotion of Adjutant-General Lessard, whose place is to taken by Col. MacDougall. Col. MacDougall, it will be remembered, conducted schools of instructions at various points throughout this province, including Nelson, Rossland, Kaslo and Fernie, a year ago last winter, at which many of the officers of the R. M. R. obtained thir certificates of qualification.

**Laugh, and the world laughs with you; Eat onions, and you weep alone**

You will not, however, have any cause to grieve if you purchase one of our Hobberlin or Progress Suits.

The house of Hobberlin are in a class by themselves in Style and Get-up that few merchant tailors can equal.

The Progress brand of Clothing is *one of* the *best ready-to-wear* make, at the price, in the market today, which retains its shape and is stylish and durable.

Our line of heating stoves is complete: The famous air-tight, round oak, bonny oak, Stewart oak, Stewart hot blast, prize base burner, box stoves, air-tight heaters in cast tops and plain; all sizes from 20 to 36 inches. We have the heater to fill your requirements any size or pattern. Remember we are offering a reduction of 10 per cent. this week on all heating stoves.

**The J. H. Ashdown Hardware Co., Ltd.**

Nelson Branch .·. Nelson, B. C.
WHOLESALE RETAIL

The Arcade Moving Picture show goes up to Kaslo today and will remain there tomorrow, Friday evening and Saturday there will be shows as usual in the Arcade when some specially good pictures will be put on.

A meeting of the senior hockey team is called for Thursday evening at 8 o'cock sharp in Fife's barber shop, and it is desried that all lovers of the game as well players will turn out, as matters of great importance in connection with the club's program for the winter will come up for discussion.

Thursday next will be the last day for setting down cases for the sittings of the supeme court which are due to open in this city on Tuesday, Dec. 1st. Up to yesterday afternoon eight cases had been entered for trial, among which was the libel action of Lennie vs. Liberal Publishing company and Odlum.

The special rates committee of the board of trade held a meeting last night to finally prepare the city's case as to reduction of freight rates preparatory to the confenence with Messrs. Walsh and Biddner, the experts of the Canadian Manufacturers' association, which is to take place tomorrow at 4 p. m. at the board of trade offices.

The work of putting in the cement foundation and abutments for the fence around the new court house is now well under way. When completed this foundation will be capped with two tiers of marble on top of which there will be marble pillars with iron posts and railings in between. The new fence will extend up Ward street from the provincial jail to the corner of Vernon street and along Vernon street right across to the registry office. The north side of Vernon street near the registry office will then be filled in and levelled up, which will vastly improve the appearance of that thoroughfare. In the spring a cement sidewalk will be put in from the registry office right around to the foot of Ward street.

The New England supper in the Presbyterian church parlors on Friday next is advertised in a manner which already awakens a hearty appetite. The provision is so ample that no guest is likely to go away hungry. The ladies' aid has under way the construction of new tables for the occasion, and when *the time comes the tables will groan* under the weight of good things provided. During the intervals of waiting there will be music and conversation. The young helpers at the candy table will be prepared to part with a tempting variety of sweetmeats.

At the meetitng of the Presbyterian Young Peoples' society last evening F. Wilford Jones gave a very interesting address on where the Bible is needed with many fresh illustrations from his *varied experience in many lands. Judge* Forin's lecture on his recent visit to famous scenes in the metropolis of the empire will be given next Tuesday evening.

W. R. McLean, who is collecting fruit *exhibits for the Spokane apple show* on behalf of the Nelson Agricultural and Industrial association, reports that exhibits are coming in in a very encouraging manner.

The series of weekly dances given at the Alice roller rink by the "Nelsonites," the first of which takes place tomorow night, promises to become a popular feature. Each week prizes will be offered for special dances, next week's one being offered to the best lady waltzer.

The moving pictures to be shown at the opera house on Thursday and Friday evening are likely to prove of more than usual interest, comprising as they do, subjects of international repute suchh as the Oxford and Cambridge boat race, the Grand National steeple chase, the cup finals in the English championship football matches, seventeen rounds of the Driscoll-Bowker fight for the championship of England, launch of an *English battleship and the* only film in existence of the Fernie fire, a picture of local interest in which can be easily recognized such familiar faces as mayor Tuttle, etc.

A meeting of the committee of the Nelson branch of the Canadian Bible society was held in the Presbyterian church hall yesterday evening, Rev. F. H. Graham in the chair. The committee welcomed D. Wilford Jones, secretary of the B. C. Auxiliary and heard from him a statement of the aims and plans of the Auxiliary. It is proposed to send a colporteur in the beginning of next year to undertake work in the Kootenays under the direction of the Nelson committee. The committee heard with deep regret of the recent death of Malcolm Macdonald, who worked as colporteur in the Nelson district during the summer of 1907. As an instance of the needs of bible circulation, Mr. Jones said that he himself had sold during the past eight months at the coast 572 Japanese new testaments. The society had in stock in Vancouver the scriptures in 40 different languages and were preparing to add stock in 20 or 30 more languages spoken in Canada. The committe congratulated Mr. Jones on the gratifying success which had attended *his efforts in canvassing for subscrip*tions. It is probable that the contributions of the Nelson branch for this year will amount to more than $130.

As an illustration of the expanding business of M. J. Henry, the foremost nurseryman of western Canada, it might be mentioned that recently shipments were made from his head nursery, 3013 Westminster road, Vancouver, to St. George, Bermuda, to China and to Bellray castle, the home of sir Arthur Middleton, Northumberland, Eng. Mr. Henry recently supplied the full order for ornamental trees, shrubs and vines for the Empress hotel, Victoria. This order was secured in open competition with many outside points. The total weight of the shipment was over four *tons, probably* the largest shipment ever sent to a single purchaser on Vancouver island. This is only another instance of the phenomenal development of this great industry.

The regular meeting of the Young Conservative club of Nelson and Fairview was held in the club rooms at 8:30 last evening. President C. H. Sewell in the chair, D. Wilson acting as secretary and a good attendance of members. After routine business had *been disposed of, a discussion* of the formation of the club hockey team was held. Upon request of the Nelson Hockey club executive it was decided to defer any further action until after the meeting of the hockey club next Thursday evening. An invitation was extended to Martin Burrell, M. P. for Yale-Cariboo to address the club in the near future. The use of the rooms was also tendered the hockey club for their organizatiton meetings. The matter of forming a hockey team will again be taken up at the regular meeting of the club Thursday evening, Dec. 2.

## AT SLOCAN JUNCTION

### ERECTION OF A SCHOOL IS DECIDED UPON

### GOVERNMENT'S OFFER OF ASSISTANCE WILL BE ACCEPTED

SLOCAN JUNCTION, Nov. 24.-A well attended meeting of the residents in this district was held today at the residence of Martin Anderson, which was kindly lent for the occasion. Among those present were Mrs. Jones and Messrs. Lambert, Oliver, Cottam, Kelly, P. Johnson, Negus, Shipley, Fenwick, Martin, Anderson, Gerald Ashby, Humphrey.

Gerald Ashby, Sunnyside ranch, was unanimously elected chairman. He explained briefly the objects of the meeting and stated that Martin Anderson, at the request of several of th married residents, had approached the government officials with the result that the government had promised a grant of $50 per month for a teacher. The chairman gave the figures he had secured as to the number of children in the district which would probably include Bonnington, Crescent Valley and Lancaster and in his opinion the time was ripe for the acceptance of the government's offer and the formation of a *district school. The objection being of a* non married ratepayer was met by the chairman with the remark that his present position can be quickly remedied.

The chairman then put it to the meeting seconded by Mr. Lambert, "that a school should be erected in the Slocan Junction district." This was. caried unanmously.

A lengthy discussion then ensued as to *the location of the school house in which* Messrs. Cotetam, Shipley, Anderson Lambert,P. Johnson, Oliver and Humphrey took part, and it was proposed by Mr. Humphrey and seconded by Mr. Lambert that the school house be erected within half a mile of Slocan Junction C. P. R. depot.

An amendment was proposed by Mr. Cotsam, seconded by Mr. Shipley, that the school house should be erected at the most central position of the district. The chairman pointed out that the amendment was vague, but he put it before the meeting. Only three *voted for it. He* then put the original proposition which was carried by a large majority.

Gerald Ashby offered a free site for the school as did also Mr. Humphrey and Martin Anderson.

It was then unanimously resolved to leave the entire management of the matter in the hands of a committee who were to approach the *government authorities* on the subject generally with power to select the site and generally to act. Later on another meeting will be called to elect trustees under the school act.

The committee are: Gerald Ashby, chairman, with a casting vote, Martin Anderson, R. Oliver, O. Humphrey.

The chairman proposed and it was seconded that a vote of thanks be given Martin Anderson for kindly lending his house for the meeting. A hearty vote of thanks was passed to Gerald Ashby taking the chair.

**Attention**

and good feed are necessary a season of the year, if you are g get eggs.

We have good wheat, and lots also barley, oats and groats; and overlook the good results ob from the use of beef scraps, c bone, crushed shells, etc.
