BIG KLONDIKE NUGGET

To Be Presented to King Edward by Citizens of Dawson

Was Discovered on No. 1 Claim, French Creek, and Had Been Thrown on to Waste Heap as Worthless

[Special to The Daily News]

Vancouver, Sept. 20.—Dawson advices just received state that the biggest Klondike nugget yet discovered is now on exhibition in that city.

The nugget weighs 85.43 ounces and does not contain a particle of quartz. It is valued at $1,280.00.

It was found on Number 1 claim, French gulch, by R. C. McCollum.

When first encountered this valuable nugget was thrown to one side on the waste pile. It looked just like a large quartz pebble, and it was not until some time later that McCollum's attention was attracted by what he thought to be a glimmer of gold. He then began to realize that he had struck something good and hastened into Dawson to have the "pebble" examined.

Upon examination it was found to be as stated above.

When exhibited here public interest was greatly aroused and a project was soon on foot to purchase the nugget by public subscription and present it to King Edward with the request that he have it as a centre piece in his crown and to have it surrounded by gems and precious stones from all parts of the Empire.

This scheme will undoubtedly be carried out and before a great while this Klondike nugget will figure in the great ceremonies of state in the motherland.

THE NEW ANÆSTHETIC

BLUE LIGHT WILL ANSWER IN FUTURE

Washington, Sept. 20—After three years of patient research, two professors of Geneva, Switzerland, have discovered a new anaesthetic, which promises to revolutionize the practice of dentistry. In reporting this to the state department United States consul Liefield at Frieberg Germany states that finding that the nervous system was influenced by colored light the professors soon perceived after experimenting with each hue, that blue had an extraordinary soothing effect on the nerves. The consul says that a tooth may be painlessly extracted with none of the after effects on the system by shutting up the patient in a dark room and exposing his face to the blue light of a 16 candle power lamp for three minutes, causing him to lose all sense of pain, although at the same time retaining his senses.

YANKEE FILIBUSTERS.

An Expedition Feared By Honduras and Guatemala.

Washington, Sept. 20.—Rumors of the formation of a filibustering expedition in the United States directed against one of their number has caused agitation among some of the central American republics. Representatives of Honduras and Guatemala have requested the American state department to prevent the formation and departure of any hostile expedition from a United States port. The state department requested the treasurey department and the department of justice to make an investigation and to enforce strictly the laws forbidding the incubation of any hostile expedition in the United States directed against a friendly government of any other state.

CENTER BRUCE PROTEST.

Dismissed By Chief Justice Moss Who Compliments Sitting Member.

Walkerton, Ont., Sept. 20.—The trial of the election protest against the return of Hugh Clarke, conservative, who represents Centre Bruce in the Ontario legislature, today, was short. Clark being not only maintained in his seat but complimented by chief justice Moss on the clean election contest he had conducted.

U. S. ARMY REGULATION.

Officers Not to Marry Without Permission of Secretary of War.

Washington, Sept. 20.—Major general Henry Corbin, adjutant general, commanding the U. S. Atlantic division and department of the east, has issued the following regulation: "That no army officer be permitted to marry until he has first secured the permission of the secretary of war and satisfied that official that his income is sufficient to support himself and family, and that he is entirely free from debt."

General Corbin says in explanation: "Our army is over-married. The pay of a subaltern officer is barely enough for a proper support and the expenses of equipment and uniform. If to this is added the inevitable expenses attached to a family, it is not only probable but almost certain that when an officer strikes his balance at the end of the year, he will be behind if he has no income but his pay."

General Corbin favors the re-establishment of the canteen and says:

"If it were possible by my act to absoultely stop the manufacture and use of intoxicating drinks of any kind, I would do so; if it were possible by my act to prevent the use by any persons in the military service of intoxicating drinks, I would do so; but realizing that the impossible, however desirable, must give way to what is possible and practicable, I firmly believe that it would be in the interest of discipline to establish the canteen feature of the post exchange, recognizing that in this way the use of drink can be minimized."

BURGLARS AT CHURCH.

Break Open Offertory Boxes and Secure The Small Change.

Montreal, Sept. 20.—At an early hour this morning the Roman Catholic church at Cote St. Paul was ransacked by burglars, who did considerable damage and committed wanton sacrilege. Between $30 and $40 was secured from one of the boxes and about $100 from the house of father Bessette, which was also opened. The outrage has created great excitement in St. Paul and residents are determined that the miscreants shall be hunted down.

DIED AT HIS DESK.

Albany, N. Y., Sept. 20.—Former supreme court justice W. L. Learned, for years the presiding justice of the general term for the third judicial district, was found dead today, while seated at his desk in his law office. Although 83 years of age, judge Learned had kept up his active professional practice and was apparently in the best of health when he arrived from Selkirk, his summer home, a few miles from this city, this morning. When discovered he had been dead for an hour and the end was probably due to heart failure.

OLD BATTLES REFOUGHT

FIFTIETH ANNIVERSAY OF ALMA HAPPILY CELEBRATED.

DINNER GIVER BY CRIMEAN VETERAN LUSCOMBE.

Yesterday was the fiftieth anniversary of the battle of the Alma, memorable as the opening land battle of the long struggle in the Crimean peninsula which ended with the fall of Sebastopol, as the first occasion on which Russian and British infantry crossed bayonets, and also for the fact that the Anglo-French army attacked a line of heights occupied by an equal force of Russians, and dispossessed them.

Thomas Luscombe, who fought at the battle, decided to celebrate the anniversary of his first battle, and invited all the old soldiers in Nelson to dine with him and spend the evening talking over the stirring events of other days.

About 8 o'clock a dozen guests sat down to a table tastefully decorated by Mrs. Luscombe and laden with all that the hearts even of veterans could desire. Mayor Hamilton sat at the head, E. A. Crease was vice-chairman, and round the board sat Col. Jarvis, Thomas Kinehan, Thomas May, Christopher Sutcliffe, W. J. Hatch and the host himself, also some younger soldiers whose fighting began in South Africa, and a few civilian guests.

After dinner was over and cigars were lighted and glasses filled, the mayor proposed "The King," which was duly honored, and the national anthem was sung. Walter Clayton in response to "The Empire," eloquently spoke of the winning of the empire, and expressed the loyalty of Canadians.

With "The Army and Navy" were coupled the names of Col. Jarvis and Thomas Kinehan. Col. Jarvis began speaking of the army and his old comrades when his voice failed. Thomas Kinehan whose active service began with the famous march to Kandahar, recounted many of the unpublished incidents, some of them humorous, of that campaign. His remark that he had always found hearts lightest when danger was greatest was characteristic of an old soldier and an Irishman.

After "The day we celebrate" the host gave a graphic account of the march to the Alma and the battle on the hill side. He described the feelings of the soldiers, to many of whom that was the first campaign, their sufferings from want of water, and emphasized the invariable orderly and moral conduct of the British soldiers. Mr. Sutcliffe then gave an account of his experiences in the army.

The toast list was long, nothing was forgotten; Nelson, for which the mayor replied; the press, the ladies and the host and hostess were all drunk with honors.

During the evening W. J. Hatch played "Men of Harloch" and "The Red, White and Blue," on a flute, the chorus of the latter, and "Auld Lang Syne" and several "Jolly Good Fellows" were enthusiastically sung.

Many a good story was told of little incidents of campaigns which have escaped the research of historians. One story was of a duel in the face of the British and Afghan armies before Cabul. An Afghan chief rode out waving his sword in challenge to any opponent. Having secured his leader's permission Neville Chamberlain, nephew of field marshal sir Neville Chamberlain, who commanded the British force on the Ridge at Delhi, rode out and killed his man in single combat.

The dinner was a very pleasant affair not only to the veterans who "fought their battles o'er again," but to those who had the privilege of listening to stories of great events told by men who were there and took part.

Mr. Luscombe and all his guests thoroughly enjoyed the evening. Men who are almost veterans of banquets and have spoken and listened at more formal and ambitious gatherings never heard more interesting speeches, more simply or eloquently delivered.

Next year will bring round the hundredth anniversary of the battle of Trafalgar. There are probably no survivors but old navy men should not slight the memory of the greatest sea fight in the world's history.

ONE OUT OF TEN

Dies of Consumption According to a Chicago Doctor.

Ottawa, Ill., Sept. 20.—Of the 90,000,000 people in our land today 9,000,000 will die of tuberculosis unless we develop methods for its prevention. Of these deaths 500,000 will occurr in Illinois and 200,000 in Chicago.

With this prophecy Dr. Homer M. Thomas, of Chicago, began an address before the Chautauqua assembly. He continued:

"I desire to plead for such restrictive measures that this universal white plague which claims for its victims those in the flush and bloom of youth, in the prime of life, coming from the ranks of the fairest and best in our land with all the possibilities of life opening before them, may be saved from tuberculosis.

"The age of those dying from tuberculosis averages from 18 to 40 years. This is usually the most productive period of life. The best results of education, culture and labor are then achieved The climax of one's usefulness to the world is at its zenith. What an appalling fact to appreciate then that these deaths results from a disease which is absolutely preventable.

"Viewed from the standpoint of money loss alone, $10,000 being the legal amount a human life is valued at in Illinois, all the expenses of maintaining our great government are not to be compared with the financial loss sustained by the nation from tuberculosis. The annual economic loss in Illinois is over $36,000,000, or at least $100,000 daily."

MORGAN'S COSTLY COLLIES.

New York, Sept. 20.—J. Pierpont Morgan, in purchasing four imported collies for $10,000, has not only obtained for his celebrated kennels at Cragston, four magnificent animals, but has reached the top-notch in the matter of price for this breed. The four dogs in question arrived in this country last Monday on the Victorian, in charge of their owner, W. L. Mason, of Freshfield, near Liverpool, England. They were to be exhibited at the St. Louis, Newport and other dog shows, but Mr. Morgan bought them at the owner's price and at once shipped them to his place.

The dog's names are Southport Strategy, Champion Parbold Purity, Champion Parbold Patentee and Annandale Iccolo. They are of the bluest blood in without peers.

GREENWOOD WILL BOOM

OPERATIONS OF MONTREAL AND BOSTON WILL BE EXTENSIVE

BOUNDARY FALLS SMELTER TO BLOW IN NEXT WEEK.

[Special to The Daily News]

Greenwood, Sept. 20.—W. A. Munroe, of Munroe Bros., Montreal and New York, through whose energy the Montreal and Boston Consolidated became an established fact is in town. Mr. Munroe reports that a number of his directors will leave New York in a private care on the 23rd inst. and reach Greenwood about the 30th inst.

A gang of men is at work on the smelter getting everything in readiness for smelting operations which will be resumed on 28th instant.

The different properties of the Consolidation are being put into shape for ore shipments as rapidly as men and money can do it. Work is being pushed on the Brooklyn and Stemwinder, and the Rawhide particularly. Ore will begin to arrive from the dumps of the two former mines almost immediately.

The resumption of mining and smelting by this company will have a material effect on the business conditions of the town and district. The number of men both at the smelter and the mines will be increased as fast as they can be profitably employed. Within a very few weeks from date this company will be mining and smelting 1000 tons of ore a day.

BORDEN IS WARY.

Declines to Go on Record on Prohibition Question.

[Special to The Daily News]

Toronto, Sept. 20.—R. L. Borden, leader of the conservative opposition, refused to put himself on record on prohibition today at Blenheim and Chatham, but said it was a matter for the provinces to deal with, and accused the liberals of violating their pledges on the issue.

DAMAGES FROM C. P. R.

[Special to The Daily News]

Winnipeg, Sept. 20.—R. Blain, of this city, has secured $4,000 damages from the C. P. R. on a charge of assault. He was twice attacked by a fellow passenger on a C. P. R. train between Brampton and Toronto. The conductor refused assistance.

INTER-IMPERIAL TRADE.

[Special to The Daily News]

Winnipeg, Sept. 20.—Sir Howard Vincent addressed the representative business men of this city today. He declared that the inter-imperial trade propaganda was making great strides.

QUEEN OF CARNIVAL.

Vancouver, Sept. 20.—Voting for queen of the carnival closes at midnight Thursday. Miss Ida Todd, of Vancouver, is ahead with 1,183; mayor Keary's daughter, New Westminster, is second with 1,110.

ADVANCING ON MUKDEN

General Kuroki Reported to Have Crossed the Hun Unopposed

Has an Army of 100,000 at His Back—Anxiety at St. Petersburg Over Fate of Port Arthur

Port Arthur is again the centre of interest. A general attack by land and sea is regarded as likely to follow the Japanese assault upon the redoubt protecting the water supply of the fortress and town, and the participation of the fleet under admiral Togo is looked for. In this latter event it is expected that the remnant of the Russian squadron in the port will rally forth to engage the Japanese ships.

Eight and possibly nine Japanese divisions are reported to be advancing on Mukden and another battle between the armies under general Kuroki and general Kouropatkin is imminent.

ANOTHER BATTLE IMMINENT

Mukden, Sept. 20.—A battle is imminent. The Japanese are advancing with eight and possibly nine divisions. The crops of tall millet have nearly all been harvested affording a better field over which to fire on the flat plains. The river Hun is the direct front of the Russian army.

St. Petersburg, Sept. 21.—(4.05 a.m.)—Interest is again centered upon Port Arthur storming of the fortifications there has begun. A few belated telegrams from general Stoessel, the commander at Port Arthur, published Tuesday afternoon, recording the repulse of the Japanese and continued attacks, strengthen confidence in the ability of the defenders to hold out despite the furious onslaught of the Japanese.

The last attack mentioned by general Stoessel took place the night of September 14, and was directed against redoubt No. 8, which protects the water supply of the city. The redoubt is about two miles beyond the line of permant forts and the attack upon this shows that the Japanese are not within striking distance of the main fortress. Reports from Shanghai that some of the defences had fallen into the hands of the Japanese as a result of the general assault on September 8th are not confirmed.

The latest telegrams brought to Che Foo by prince Radziwill have not yet reached the war office. It is understaad that these despatches contain details of the landing of strong Japanese reinforcements at Dalny, which would tend to confirm the belief that it was the intention of the Japanese to storm the fortress and that the warships will probably take part in the attack. In this event, rear admiral Wiren' decision was probably to go out and engage the Japanese fleet. All Russians are anxiously awaiting news from the beleaguered garrison. Public feeling has been aroused to a high tension by the dreadful picture given by prince Radziwill of the sufferings of the Russian army there.

The sensational announcement that general Kuroki has crossed the Hun river unopposed and that the whole Japanese army is advancing upon Mukden is overshadowed by anxiety for Port Arthur. Moreover, the announcement does not receive complete credence here, as being in direct contradiction of official news issued by the general staff. General Kouropatkin announced only two days ago that there was not a single Japanese east of Bentiaputze. How, it is asked, could general Kuroki, with 100,000 men, slip past general Rennenkampff's Cossacks and cross the Hun river near the Fushan coal mines, 30 miles east of Mukden. Fushan is situated on the road from Bentiaputze where general Kuroki crossed the Taitse river. This road is carefully watched by general Kouropatkin's outposts between Mukden and Sintsintsin. A strong guard has been placed at the Fushan mines which general Kouropatkin will not give up without a struggle, as the loss of the mines would involve the cutting off of the coal supply for the whole of the Manchurian railway. Nevertheless it is considered more than doubtful is general Kouropatkin will make a decisive stand south of Tie pass.

KOUROPATKIN'S REPORT.

St. Petersburg, Sept. 20.—The following despatch has been received from general Kouropatkin: "The reconnaissance made September 17th, established the fact that the Japanese position at Bentiaputze is strongly held by a brigade with guns. There was no enemy east of Bentiaputze, but the Japanese reinforcements arrived September 18, in the vicinity of the village. Large Japanese forces from Liao Yang have already crossed to the right bank of the Taitse river. A Cossack patrol attacked a Japanese convoy west of Bentiaputze and captured 30 horses with their loads."

SIEGE OF PORT ARTHUR.

General Assault Now In Progress—Two Forts Captured.

Che Foo, Sept. 20.—Authoritative information has been received here of a general assault upon Port Arthur by the Japanese forces which began yesterday before daybreak and continued until dark. All indications point to an effort to capture certain of the northeastern main forts.

This is the attack for which the Japanese have been preparing for the past 19 days, with slight hopes of success. The attack was directed against the northeast front, the main object being to capture the fortifications on Kikwan mountain, Rihlung mountain and the intermediate forts. The foregoing comes from a Russian of standing, whose previous information has been correct. He said that the attack at the end of August, which was reported as two different assaults, really constituted a ten days' battle, but the fighting was heaviest during the first three days and the last four days of that period. Although the Japanese retired August 31st, along the greater part of their line, they remained in four supplementary forts in the northeast front which they had captured from the Russians. These include two forts within fifty yards of Rihlung mountain, and two others at a still greater distance. Since August 31st the Japanese have bombarded very slightly, while the Russians have been throwing approximately 1,000 shells daily against the four Japanese positions mentioned. Small sorties in efforts to capture the position have been uniformly unsuccessful.

The Japanese have been taught wholesome respect for the resisting power of the fortress according to every Japanese who has recently arrived here from Port Dalny. If they succeed in capturing Rihlung mountain or other forts, they will realize that this will be only one step, although an important one, toward the capture of Port Arthur. The Japanese are endeavoring to proceed slowly but surely.

During the fighting in August the attempt to capture Kikwan mountain cost the Japanese an entire regiment. This statement has been absolutely confirmed and indicates the monumental proportions of the task of capturing the fortress, which is composed of many forts exceptionally strong.

Shanghai, Sept. 20.—The general attack upon Port Arthur which began yesterday and in which the Japanese fleet is co-operating was resumed this morning. The Japanese captured two forts on either side of Suiszeying, north of Port Arthur.

MUST PROTECT HERSELF

RUSSIA'S POSITION ON QUESTION OF CONTRABAND.

TO BE SET FORTH IN DECISIONS OF ADMIRALTY COURT.

St. Petersburg, Sept. 21. (12.30 a.m.)—Russia's position on the question of contraband will be officially promulgated in the form of decisions of the admiralty court in the cases of the Calchas, Arabia and Allanton, when they come up on appeal.

Professor De'Maartens, president of the commission which decided the Russian interpretation of contraband, will appear on behalf of the government, thus insuring the acceptance of the principles formulated by the commission. He will be in possession of the British and American notes. The contentions of these governments will be practically before the court.

Russia's position has been authoritatively stated to the Associated Press as follows: "Russia does not desire to interfere with the United States' legitimate commerce with Japan, but she has the right to, and must, protect herself as far as possible against shipments which may aid the enemy in prosecuting the war.

SAVED THE WATER WORKS.

Two Desperate Assaults by Japanese Repulsed.

St. Petersburg, Sept. 20.—Lieutenant general Stoessel, commanding the Russian military forces at Port Arthur, reports by telegraph that on the night of September 16, the garrison repelled two attacks on the redoubt protecting the water works.

The text of general Stoessel's despatch is as follows: "Port Arthur, Sept. 16.—The enemy continues daily to bombard the forts and batteries south of the fortress, but without showing any great activity. The wounded are recovering and are eagerly resuming their places in the ranks. They are heroes. The troops are in excellent spirits. At about 3 o'clock this morning at least one Japanese battalion attacked the redoubts protecting the water works. The garrison of the redoubt repulsed the attack, but the nemy received reinforcements and renewed the attack after half an hour. The garrison again repulsed them with rifles and machine guns, supported by artillery. The Japanese sustained great losses and did not attempt to take the offensive again."

BALTIC SQUADRON STRENGTHENED

St. Petersburg, Sept. 20.—It is reported here that the Russian Baltic squadron has been reinforced by four warships purchased from Argentina.

ORLOFF DID NOT SUICIDE.

St. Petersburg, Sept. 20.—The report in circulation in certain quarters that major general Orloff, (who has been held responsible for general Kouropatkin's retirement from Liao Yang, owing to Orloff's failure to obey his orders), has committed suicide, is absolutely denied.

NEW RUSSIAN WARSHIPS.

St. Petersburg, Sept. 20.—It is reported here that four warships purchased from Argentina have arrived at Libau.

JAP GENERAL RECALLED.

Seoul, Korea, Sept. 20.—general Haraguchi, commanding the Japanese forces in Korea, has been recalled to Tokio.

JEWS ON THE RAMPAGE

Serious Rioting Between Orthodox and Non-Conformist Members

London, Sept. 20—The Day of Atonement was opened in London by serious rioting in the Jewish quarter of the east end. Over 2000 Jews engaged in a disturbance and nearly 300 police had to be called out before the disorder was qualled. The trouble arose over the action of the non-conformist members of a Social Democratic club at Spitalfield, situated in the heart of a district containing about 20,000 Jewish inhabitants. The socialists openly paraded in disregard of the fasting injunctions, and made a celebration with wine at the club house. The orthodox Jews were angered and surrounded the club house and stoned it. The socialists threw bottles at the crowd, and soon the two or three narrow streets in the vicinity were choked by a fighting mob. Ambulances were called out and the doctors had many minor cases to attend to. Finally the police cleared the streets in the disturbed district and made several arrests. Excited groups of orthodox Jews, however, continue to parade the streets and the houses of several socialistic Jews were stoned.

The magistrate, in sentencing the various rioters, brought up in the later part of the day for trial, said it was deplorable that a class of persons who for centuries had been distinguished by the fiercest persecution should, when in the one free country in the world, turn upon those who disagreed with them upon religious grounds and stone and even prosecute their co-religionists.

CROWNING KING PETER

PREPARATIONS FOR TODAY'S BIG —CEREMONY.

STREET DECORATIONS RUINED BY HEAVY RAIN FALL.

Belgrade, Sept. 20.—King Peter has received a personal letter from emperor Nicholas written in a friendly tone. The representative of prince Enerdinand of Bulgaria, at the coronation of king Peter here tomorrow, arrived at Belgrade today, accompanied by four hundred Bulgarians. He was warmly welcomed. All the street decorations have been ruined by rain, which continues to fall.

The coronation postage stamps, bearing the double relief the heads of king Peter and his grandfather, Karageorge, founder of the Karageorgevitch dynasty, with the years 1804 and 1904, were issued today. The royal insignia at 5.30 p.m. today was solemnly conveyed from the palace to the cathedral where it will be guarded throughout the night by soldiers. The procession passed through the principal streets, headed by a cavalry officer and two heralds and followed by a detachment of guards, carrying the king's standard, the crow, orb and sceptre, borne respectively by the premier, president of the Skupshtina, war minister and president of the state council, in state coaches. The body guard company of the guards brought up the rear. The regalia was received by the Metropolitan and three archbishops, who placed it on the high altar and consecrated it according to the orthodox ritual. Only invited guests were admitted to the cathedral during the ceremony. The regalia is simple. The sceptre is ornamented with one large diamond.

FESTIVITIES AT YMIR

Marriage of Miss Keefe and T. H. Rotherham—K. of P. Anniversary

[Special to The Daily News]

Ymir, Sept. 20—A very pretty wedding took place here this morning at 8 o'clock when Miss Nellie Keefe became the bride of Thomas H. Rotherham, both of Ymir. The bride, who was daintily attired in a handsome blue travelling gown, was attended by her sister, May, and was given away by her brother, Richard, while Mr. William Bremner assisted the groom. The ceremony was performed by Rev. J. Althoff, after which a wedding breakfast was served and the newly married couple departed for Spokane at 9:30 amid a shower of rice and old shoes. The bride and groom upon their return will reside at the Ymir Gold Mines cyanide plant, where Mr. Rotherham occupies the position of cyanider for the company. Many valuable and handsome presents were given.

The first anniversary of Ymir lodge No. 32, K. of P., was celebrated last evening in their hall in a manner befitting the occasion. During the evening three members were put through the first degree, while one member took the third degree, after which some 40 members sat down to a banquet. A toast list was gone through with William Coffey acting as toast master, a position he filled admirably, the list being as follows:

The Order, A. J. Hughes; the Lodge, Finley McLeod; Our Country, J. G. Dewar; Our Neighbors (U. S.), Dan Campbell; Our New Members, S. H. Seaney; Visiting Brethren, W. B. McIsaac; The Ladies, Myles McInnes. Song and music were further indulged in during the evening and at 3 o'clock a.m. the gathering broke up.

W. J. Bowser, K. C., M.P.P. of Vancouver, accompanied by J. A. Dewar, arrived in Ymir this morning on an official visit to the Ymir Masonic lodge in the capacity of grand master

Dr. Dixon and Thomas Flynn have been inspecting a number of mining properties on Sheep creek.

MONTREAL FIRE

Whole Business Block Threatened at 2:30 This Morning

Montreal, Sept. 21—The building of the Canada Hardware company and contents, valued at $75,000, are doomed by the fire raging in Debresoles street this morning. At 2:30, the outbreak threatens a whole business block.

VIEWED C. P. R. SHOPS

Montreal, Sept. 20—The visiting British civil engineers viewed the shops of the C.P.R. this morning, where the workings of the immense plant were explained to the visitors by the officials. Luncheon followed at which speeches were made by local members of the reception committee and responded to by sir William Whyte, the eminent engineer.

C. P. R. TRAINS COLLIDE

Westbound Express Run Into Whilst Standing at Medicine Hat

Train From West Came in on Main Line and Head-on Collission Occurred Before Action Could be Taken

Medicine Hat, N. W. T., Sept. 20.—A collision occurred at the station here yesterday that might have been attended by serious loss of life. As it was several passengers on the west bound transcontinental express were more or less badly injured.

The west bound express was standing at the station on the main line when the limited came round the curve and before any action could be taken had crashed into the express. Fortunately the limited had slowed down to enter the station and the impact did not result so disastrously as the frightened spectators momentarily anticipated.

The cowcatchers on both engines were smashed and several cars were partially wrecked.

Eight passengers were injurerd, including Mrs. Akroyd of Vancouver. The wreckage was soon cleared away, the injured attended to and both trains continued on their journey.

JOHN L. AT WORK.

St. Louis, Sept. 20.—The hand that shook king Edward's hand is shoving booze over the bar down at J. W. Gillespie's boozarium in Market street, and the man that knows more about one side of the bar busines than any man living is now lesrning the other end of the game, the great and only John L. Sullivan has become a barkeep and as a mixologist and dedicatologist he has bishop Henry C. Potter skinned a block.

TORONTO WAS BEATEN.

Rochester, N. Y., Sept. 20.—The Rochester county club defeated the Toronto Hunt club 5 to 2 at polo here today, in the annual game for the international cup which was won by Rochester a year ago.

PARLIAMENT OF LABOR

DOMINION TRADES AND LABOR CONGRESS IN SESSION

SABBATH OBERVANCE AND SALE OF LIQUOR ON LABOR DAY

Montreal, Sept. 20—This morning's session of the Trades and Labor congress was almost entirely occupied in receiving and hearing delegations from the Lord's Day Alliance. The delegation sought to impress upon the congress the necessity of co-operation in securing better observance of the Lord's day and president Flett assured them of this, pointing out that the position of labor could be seen from the fact that wherever possible it had secured double time for work done on the Sabbath.

The convention adjourned early in order to allow committees to prepare business for presentation to congress.

The greater portion of the afternoon session was occupied in a discussion on a resolution that the dominion government be asked to pass legislat on forbidding the sale of liquor on labor day. Verville of Montreal, said that this was necessary because the presence of open saloons gave opponents of labor an opportunity to declare that labor day was only a drunken orgy. Against this it was pointed out that it would be an insult to let labor go to parliament with such a proposal. It was also pointed out that if such legislation was granted it would be ineffective as could easily be judged by the law forbidding the sale of liquor on election day. The front doors of the saloons were closed but no one had any difficulty in obtaining liqur on election day. Finally the motion was thrown out in favor of one urging the different unions to institute a bylaw amongst their branches insisting upon complete sobriety on labor day.

RUSSIA'S BALTIC FLEET.

Berlin, Sept. 21.—The orrespondent of the Lokal Anzeiger has telegraphed from Revel an interview with vice-admiral Rojestvensky (in command of the Russian Baltic fleet), in the course of which the admiral declares that he expects three additional vessels before long and that with the augmented squadron, after necessary manoeuvres, he will leave for the far east. The correspondent dimly intimates that the arrival of this squadron at Vladivostock need not be expected before spring.

NO RESPECTOR OF PERSONS.

Dayton, Ohio, Sept. 20.—Paul Lawrence Dunbar, the Afro-American poet, is critically ill of consumption. The doctors say he probably will not live longer than a month.

RULED HIM OUT.

Berlin, Sept. 20.—Beauchamp, of Louisville, Ky., who has been riding most successfully at the Hoppegarten meeting, has been deprived of his license by the stewards on account of an unsatisfactory ride.

OLD TIMER HONORED.

Atlanta, Ga., Sept. 20.—L. B. McFarland, of Montreal, was elected a member of the executive committee of the Old Timers' Telegraphers today.

STEAMSHIP RATE WAR

London, Sept. 20—The first break in the steamship rate war occurred yesterday when the North German Lloyd raised its steerage rates to $15.

BORDEN'S TARIFF POLICY.

"I would give adequate protection to the Canadian manufacturer, while at the same time offering a preference to the British manufacturer, so that the latter would not be outdone in our markets by the foreign manufacturer."

The foregoing is leader Borden's own definition of his tariff policy should he be called upon to administer the affairs of the dominion.

What does it mean?

The Canadian manufacturers claim that "adequate protection" will necessitate the imposition by Canada of a tariff at least as high as that imposed by the McKinley and Dingley laws, and that this tariff must apply as against the world, including Great Britain.

Any advantage therefore that Great Britain is to have in our markets over the United States and other foreign countries will have to be secured by the imposition of a tariff as against foreign countries higher than that of the McKinley and Dingley laws. This will mean high protection with a vengeance, but it will obviously give no real preference to Great Britain.

The tariff considered adequate by the Canadian manufacturer would completely bar Great Britain from our markets, the mere fact that higher duties were imposed on foreign products would not better the situation for the British manufacturer in the slightest degree.

Such a policy is manifestly totally at variance with the imperial fiscal policy advocated by Mr. Joseph Chamberlain and quite contrary to the British preference policy inaugurated by finance minister Fielding.

If all that was needed to ensure prosperity in Canada was the enrichment of the eastern manufacturers the policy outlined by the leader of the conservative party might prove to be the real thing, although Canada's past experience under a conservative high tariff policy does not warrant even that assumption. But the prosperity of Canada is not wrapped up in the profit makings of the manufacturers, though that section of our population is entitled to a fair share of consideration.

The consumer must be considered and under such a policy as promised by Mr. Borden he would fare very badly.

Sunlight Soap is useful in more ways than one. It will demonstrate its wonderful cleansing power in every cleansing operation. 9B

EDITORIAL NOTES.

Elsewhere in this issue we republish from the Lardeau Eagle an interesting statement of present mining conditions in that section. The article is well worth the careful perusal of those who are following the development of the newer mining camps in the Kootenays. The record established by the mines of Lardeau is an enviable one and good as past results have been the indications are that infinitely better results will be obtained from now on.

It needed a painstaking German, observes the Boston Transcript, to figure for us a set of statistics long desired, but of a sort that nobody cared to tackle the tedium or the difficulty of comparing them. These figures are the annual number of tourists in Europe and the amount of money they spend. The German's estimates cover the totals in both items. Switzerland, he says, entertains through the year 3,000,000 visitors, who spend $30,000,000. Italy, the Riviera and Spain, between them, attract an expenditure of $60,000,000. The various great capitals in all cull $45,000,000, that come from the pockets of 900,000 visitors to Paris, the 600,000 to London, the 500,000 to Berlin and the 350,000 to Vienna. The baths and seaside resorts accommodate 12,000,000 guests, who spend $16,000,000.

The Inland Revenue department has recently been making analysis of wheat flour collected throughout Canada. The chief analyst states in part: "No indication has been found of the admixture in these samples of flour of any other or lower priced grain. Such an addition would in the case of maize flour be economically possible, but would result in lowering the quantity of gluten yielded by the sample. All those samples in which the percentage of dry gluten was less then 10, or in which ratio of dry gluten to proteids was less than 1.2 to 1, have, however, been examined under the microscope without the discovery of any foreign starch. The number of samples so examined amounts to 37, and it was thought quite unnecessary to examine the others. It is, therefore, safe to conclude that no suspicion of adulteration by foreign grade attaches to any sample of Canadian flour."

The Toronto Globe's interpretation of Mr. Borden's tariff policy so far as British preference is concerned is summed up in one word, "flim-flam." In the first place, Mr. Borden is going to give adequate protection to the Canadian manufacturer. That means that the duties against the British manufacturer will be higher than they are now—high enough, indeed, to virtually exclude him from this market. But, then, he will have the satisfaction of being assured that he is our beloved kinsman, and that high as the duties on his products are, those on the products of the hated foreigner will be higher still. That of course will be a source of immense satisfaction to him.

The Slocan Drill attaches a great deal of importance to the establishment of a zinc enriching plant at Rosebery. Besides the direct benefit to be derived from the employment it will give to a large number of men, the Drill points out that it marks the first step in the establishment of zinc reduction plants in the Kootenays and that means Canada so far as zinc is concerned. It is true that there are several concentrators that turn out zinc concentrates, but it is intended that the produt of these concentrators shall be sent to the Rosebery plant and the gangue in them will be still further reduced and the percentage of zinc increased, as a preliminary to being reduced in the smelter that is to be erected later at Fernie. We already have smelters for the reduction of our silver-lead and gold-copper ores and mills for the reduction of ores that are free milling. Now that foreign capital in recognition of the fact that we have a very valuable asset in the zinc deposits of the Slocan, has come forward and is commencing the erection of plants for its reduction it may be said that the real foundation for a large and valuable industry, and one which will lead to the mining and reduction of a good many thousands of tons annually, and which will increase in a marked degree the prosperity of the Slocan, is just being laid.

A NEW ISSUE REQUIRED.

Mayor Hamilton's Views on the Power Plant Debentures.

Mayor Hamilton stated yesterday that the city power plant debentures have been returned from England as ordered and are now in the custody of the Bank of Montreal in this city. A decision in regard to the disposal of them will probably be reached at the next session of the council on report from the finance committee.

His opinion is that it would be impolitic to offer the same debentures for sale again. They are now nearly two years old which leaves only eighteen years for the payment instead of twenty. It is extremely unlikely that any better offer would be received for them than that which the council refused this year.

The mayor is confident that a new issue without the restriction as to liability that were attached to the first could be sold without delay or difficulty and for a much better price than the present issue would bring. Financiers as a rule avoid investments on the credit of a city or its property when the wording of the by-law authorizing the raising of the loan obviously suggests a desire to limit the security. The possibility of litigation which would tie up even temporarily the capital so invested, in the event of any unforeseen disasters or change, and such an event must be considered, makes capital cautious and causes such investments to be considered undesirable.

The mayor is in favor of the cancellation of the debentures and the issue of new ones less restricted in their security, on the credit of the city which he believes is good, and only liable to impairment by an attempt to raise a loan for the city's use without offering its whole security.

In reference to the dispute between the city and J. Fred Hume about the latter's electrical light account, the mayor said that during the year several attempts were made to compromise. The city conceded that Mr. Hume had suffered from unsatisfactory lighting, but so had everyone else and it was due to causes over which the city had no control. But Mr. Hume's maximum offer was one which the committee refused to accept and the council without a dissenting voice ratified the decision of the committee.

While the amount involved in the dispute, $44, is small, if a rebate were granted to Mr. Hume, other claims would undoubtedly be presented, and with just as strong grounds for consideration. The course taken by the council was the only one open to them, they could not allow the city's authority to be defied.

Emory & Walley, Nelson, B.C.

MONEY MAKING MINES

PROSPEROUS CONDITIONS PREVAIL IN THE LARDEAU CAMPS.

ACTIVE DEVELOPMENT IN PROGRESS ON SEVERAL PROPERTIES

The Lardeau Eagle, published at Ferguson, is doing excellent work for that promising section. The last issue contains a carefully prepared account of things doing in and around the mines. The article merits wide circulation as it conveys in concise form a valuable statement of the actual conditions in one of the richest of the new mining districts in the Kootenays.

From this statement it will be apparent that those who have pinned their faith to the future prosperity of the several Lardeau camps have excellent grounds for the confidence they have displayed.

Our large mines, says the Eagle, chiefly the Silver Cup, Nettie L., Triune, Eva, Oyster-Criterion, Goldfinch and Beatrice are being worked with financial success. The Oyster-Criterion has now resumed all its old-time activity; the tramway which was wrecked by the snowslide of early spring has been repaired, and is now running like clockwork; the Silver Cup with recent development is showing, up splendidly and values at depth are increasing. The Nettie L. and Silver Cup are yet in their infancy, but still the output to smelter for 1893, realized $139,891.41, and the recent heavy shipments of bullion from the same company's mill derived from the treatment of low grale base ores, will have reached up in six figures. With the advent of capital, similar mills will be constructed, and the illimitable low grade properties in the Lardeau will be yielders, to the lasting benefit of the country. Success is bound to come. A country such as ours will stand any test; even lack of capital and troublesome litigation cannot prevent its progress.

Better transportation facilities are promised us, and in the interval the primitive modes of transport will go merrily on. The Old Gold shipping high grade ore as fast as a pack train can bring it down, the Mohican is being mined by a large force of men, and shipments are about to be made; the company controlling the Surprise group are determined on pushing for a winter campaign, and every available man will be employed; the Badshot is being financed by a syndicate of local gentlemen, and several car lots of ore have been forwarded to the smelter; the Black Prince is continuing to ship clean ore, another tribute to local enterprise; the Spyglass at Poplar has been purchased outright, and the company operating there are bent on business of the right kind, last month's pay roll at this mine was $1200. It must be remembered that Poplar is but 15 months old, and that the camp has had to buck up against litigation, claim-jumpers, and an army of knockers. Poplar is all right, and two years hence will be a great city. Of other properties and mines which have recently added fame to the Lardeau, and from whence local enterprise is about to reap its reward, may be mentioned the Winslow, a free-milling property located last fall which is yielding enormous gold values and improves with development; the Silver Dollar, on which a fine lead of steel galena some 20 inches in width was uncovered a few days ago, and at which mine a ten-drill compressor has been installed; the Mammoth, where rich ore is being sacked and the lead is improving with every shot; the Jumbo and Union Jack, two wonderful concentrating propositions; the Rambler, a recent grass-root shipper; the Raven, a claim in which we have unbounded confidence; the Tonowanda, Equitable and Mountaineer, on which properties we lately reported rich strikes; the Invincible, As You Like It, Rosy P., Horn Silver, King and Golden Eagle group. These and a few others are being continuously developed by local men. To do justice to most of the last named properties capital is required, but the outlook is exceedingly bright. Ferguson will become the most important mining town in the province, because we have the mines, and the wealth of our hills to back us up. Trout Lake will not give way to despondency because just one of her many resources has been temporarily crippled; at Camborne the increased output of quartz warrants the immediate installation of a hundred stamps, and a move is on foot to augment the present number; at Beaton, everything points to prosperity, and the recent fire will yet prove a blessing in disguise. The lumber industry throughout the Lardeau was never in a more flourishing condition. It is to be deeply deplored that the fine mill at Trout Lake should be in trouble, but that is a coincidence, and does not in the least indicate that the country is in any way responsible. We have the men, the mineral, and the timber right here, and there is no better country under the canopy of heaven for the careful investor to cast his lot in with.

BECAUSE PROPERLY CURED

Y Pharaohs have been called a "Health cigar" and this is why: Every leaf of tobacco I work into Pharaoh is absolutely free of "gum."

You must know that a "gummy" tobacco will make a poor smoke and act injuriously on the throat and stomach. The gum, dissolved by the heat of combustion, is drawn into the mouth--becomes mixed with the saliva and finally reaches the stomach.

The membrane that lines your throat and stomach is pretty tough--but it won't stand the harsh, irritating action of this dissolved gum.

You'll have sore throat if you smoke the "gum" cigar--you'll have heartburn, indigestion, and a disagreeable taste in your mouth from an injured stomach.

With every particle of gum properly "sweated," cured and aged out of the leaf I use as filler for my Pharaoh, I can guarantee you a pure, cool, sweet, fragrant smoke--free from disagreeable tastes and injurious actions on the inner man. 107

J. Bruce Payne, LIMITED
GRANBY, P.Q.

None genuine unless branded PHA-RO

week, in an entirely new repertoire, with one exception. The plays which will be presented by this sterling organization, commencing Sept. 26, are as follows: "The Iron Master," "Trilby," "In the Hands of the Enemy," "Moths," "Jack O Diamonds" "Rip Van Winkle," and the matinee bill to be selected.

The theatre goers of Nelson need no introduction to this capable company because during their former engagement they made a reputation second to none as an organization of merit. The same care will be exercised in the stage settings that characterized this company during their former engagement in Nelson and nothing will be left undone to bring each production up to a high point of excellence.

Mr. Cranston, the new manager, has had the house thoroughly renovated and the entire floor plan changed so that every seat in the house is almost equally good. The inside of the house has been re-decorated and presents a pleasing appearance.

Seats will be on sale for the entire engagement next Saturday morning at Mcdonald's. Prices 50 and 75 cents.

HE BOHEMIANS

Clever Concert Company at the Success Club Tomorrow Evening

MR. HERBERT TAYLOR

A brief sketch of the Bohemians may be of interest to our readers. Mr. Herbert Taylor, the basso of the party is a singer of considerable note, although quite a young man, he has appeared with all the greatest stars in the musical world, such as Patti, Albani, Antoinette Sterling, Sims Reeves, Edward Lloyd, Stanley and others, besides being a member of the world famous Royal Carl Rosa opera company, which has many times been commanded to appear before the late queen Victoria and our present king and queen. Mr. Taylor is out on a trip from England and intends returning very shortly.

Miss Gertrude Marrack, an Australian by birth, is a contralto of great power and sweetness. Very few voices of the kind are to be found, in the low register, which is, exceptionally fine, the singer would be taken for a man, instead of one of the fair sex, were she hidden from view. Miss Marrack is one of the most brilliant accompanists in Canada.

Little Glen is a very clever child. She hails from Victoria and in the capital city has made a great name for herself through her successes in comic opera. Quite recently she took part in "The Pirates of Penzanet," which drew crowded houses at every performance.

It is not often that the people of Nelson have an opportunity of hearing such talented singers as the Bohemians and a crowded house ought to greet them tomorrow evening. Owing to the opera house undergoing repairs the concert will be held in the rooms of the Success club.

EXHIBITION POINTERS

Matters That Exhibitors Should Carefully Bear in Mind

All entries close Saturday, 24th instant.

All exhibits except live stock must be in the building by Tuesday, 27th instant, the day before the opening of the fair.

Owners of dogs exhibited will place them in their kennels in the building on the morning of the first day, may remove them the same evening and return them Thursday morning, before 9 o'clock.

Membership tickets, which may be obtained at $2 each, admit members only and entitle to all privileges of the association, but do not cover the price of admission to the grand stand.

Exhibitors who are not members will be charged an entry fee of 10 per cent of the aggregate value of prizes in the class in which the exhibit is entered.

Entry slips will be found on the last page of every prize list.

The baby show will be held at 11 a.m. the first day of the fair, Wednesday, 28th.

KASLO'S ZINC SEPARATOR

Editor The Daily News—In your issue of the 17th instant you state: "The bylaw at Kaslo yesterday in the matter of granting George Alexander freedom from taxation for seven years in consideration of his putting in an electric plant, was carried by a five to one vote."

I am calling your attention to the matter not only on account of this information being entirely incorrect, but more particularly because the real facts are of especial interest to the mining community at this juncture. The bylaw recently passed by the city of Kaslo made it possible for the Kootenay Ore Company to obtain electric power, in addition to exempting them from taxes, thus enabling them to add to their sampling works a customs plant for the magnetic separation of zinc ores. The importance to the district of having such a plant as this at their disposal will be considerable, as it is by this means that the zinc tonnage, which has hitherto been thrown away in mining and milling silver-lead ores, will be made a marketable commodity. It is therefore satisfactory to know that the Kootenay Ore company has already commenced breaking ground for a building 80x100 feet in addition to their present works, in which will be installed within the next two months the most modern machinery for zinc separation on a large scale. Yours truly,

W. E. HODDER

Kaslo, B. C., Sept. 19, 1904.

THE SHIRLEY COMPANY

Will be at the Opera House During Fair Week—Excellent Repertoire

The opening attraction of the Nelson opera house under the management of Mr. W. Cranston, will be Miss Jessie Shirley and her popular company, who will play a return engagement during fair

Indigestion

It isn't always the stomach's fault that food is not digested. Torpid liver brings Constipation. Bile gets in the stomach. The kidneys become affected. The whole process of digestion is weakened. No wonder you feel so uncomfortable after eating.

Fruit-a-tives

or Fruit Liver Tablets

make digestion complete by making the liver strong and active. They cause more bile to be excreted, thus effectively curing Constipation. They tone up the stomach, regulate the kidneys, build up the whole system. Made from pure fruit juices, their medicinal action is intensified by a secret process of combining them.

In tablet form, 50 cents a box.
At all druggists.

FRUITATIVES, Limited,
OTTAWA.

SIMPSON'S
CHEMICAL ERASIVE
SOAP

—FOR—
CLEANING COAT COLLARS
And Extracting
Grease, Paint, Tar, Oil, Sperm and Kerosene from Silks, Cloths, Carpets, etc., of Fast Colors

Price - - 25 Cents

Directions for Use—Rub a little of the Soap on the spot or stain, dip a brush in warm water, and rub gently for a few seconds; then wipe thoroughly off with clean water and all will disappear. If the spots be hard, such as paint or sperm, rub the garment together after applying the soap.

N. B.—Simpson's Soap removes Scruff from the head, Tartar from the Teeth, Fur from the Tongue, and cures Cuts, Sores, Ringworm, Chilblains, and Outward Piles by simply washing with it.

CAUTION—See that each cake bears the words "SIMPSON'S ERASIVE SOAP, REGISTERED," in raised letters, without which none is genuine.

If your druggist does not keep it, write for sample cake, enclosing 25 cents stamps or postal note, to Australian Agency, Room 1, (ground floor) Molson's Bank building, Vancouver, B. C.

MOHLER, General Agent, Spokane, Wash.

Synopsis of Regulations for Disposal of Minerals on Dominion Lands in Manitoba, the Northwest Territories and the Yukon Territory,

of the location.

Placer Mining.—Manitoba and the N. W. T., excepting the Yukon Territory.—Placer mining claims generally are 100 feet square; entry fee, $5, renewable yearly. On the North Saskatchewan River claims are either bar or bench, the former being 100 feet long and extending between high and low water mark. The latter includes bar diggings, but extends back to the base of the hill or bank, but not exceeding 1000 feet. Where steam power is used, claims 200 feet wide may be obtained.

Dredging in the rivers of Manitoba and the N. W. T., excepting the Yukon Territory.—A free miner may obtain only two leases of five miles each for a term of twenty years, renewable in the discretion of the Minister of the Interior.

The lessee's right is confined to the submerged beds or bars of the river below low water mark, and subject to the rights of all persons who have, or who may receive entries for bar diggings or bench claims, except on the Saskatchewan River, where the lessee may dredge to high water mark on each alternate leasehold.

The lessee shall have a dredge in operation within one season from the date of the lease for each five miles, but where a person or company has obtained more than one lease one dredge for each fifteen miles or fraction is sufficient. Rental $10 per annum for each mile of river leased. Royalty at the rate of two and a half per cent collected on the output after it exceeds $10,000.

Coal.—Coal lands may be purchased at $10 per acre for soft coal and $20 for anthracite. Not more than 320 acres can be acquired by one individual or company. Royalty at the rate of ten cents per ton of 2,000 pounds shall be collected on the gross output.

Quarts.—Persons of eighteen years and over and joint stock companies holding free miner's certificates may obtain entry for a mining location.

A free miner's certificate is granted for one or more years, not exceeding five, upon payment in advance of $7.50 per annum for an individual, and from $50 to $100 per annum for a company, according to capital.

A free miner, having discovered mineral in place, may locate a claim 1500x1500 feet by marking out the same with two legal posts, bearing location notices, one at each end of the line of the lode or vein.

The claim shall be recorded within fifteen days if located within ten miles of a mining recorder's office, one additional day allowed for every additional ten miles or fraction. The fee for recording a claim is $5.

At least $100 must be expended on the claim each year or paid to the mining recorder in lieu thereof. When $500 has been expended or paid, the locator may, upon having a survey made, and upon complying with other requirements, purchase the land at $1.00 an acre.

Permission may be granted by the Minister of the Interior to locate claims containing iron and mica, also copper, in the Yukon Territory, of an area not exceeding 160 acres.

The patent for a mining location shall provide for the payment of a Royalty of 2 1-2 per cent of the sales of the products

Dredging in the Yukon Territory.—Six leases of five miles each may be granted to a free miners for a term of twenty years, also renewable.

The lessee's right is confined to the submerged beds or bars in the river below low water mark, that boundary to be fixed by its position on the 1st day of August in the year of the date of the lease,

The lessee shall have one dredge in operation within two years from the date of the lease, and one dredge for each five miles within six years from such date. Rental, $100 per mile for first year and $ per mile for each subsequent year. Royalty, same as placer mining.

Placer Mining in the Yukon Territory.—Creek, gulch, river and hill claims shall not exceed 250 feet in length, measured on the base line or general direction of the creek or gulch, the width being from 1,000 to 2,000 feet. All other placer claims shall be 250 feet square.

Claims are marked by two legal posts, one at each end, bearing notices. Entry must be obtained within ten days, if the claim is within ten miles of a mining recorder's office. One extra day is allowed for each additional ten miles or fraction.

The person or company staking a claim must hold a free miner's certificate.

The discoverer of a new mine is entitled to a claim 1,000 feet in length, and if the party consists of two, 1,500 feet altogether on the output of which no royalty shall be charged, the rest of the party ordinary claims only.

Entry fee, $10. Royalty at the rate of two and one-half per cent on the value of the gold shipped from the Yukon Territory to be paid to the Comptroller.

No free miner shall receive a grant of more than one mining claim on each separate river, creek or gulch, but the same miner may hold any number of claims by purchase, and free miners may work their claims in partnership by filing notice and paying fee of $2. A claim may be abandoned, and another obtained on the same creek, gulch or river, by giving notice and paying a fee.

Work must be done on a claim each year to the value of at least $200.

A certificate that work has been done must be obtained each year; if not, the claim shall be deemed to be abandoned, and open to occupation and entry by a free miner.

The boundaries of a claim may be defined absolutely by having a survey made and publishing notices in the Yukon Official Gazette.

Petroleum.—All unappropriated Dominion lands in Manitoba, the Northwest Territories and within the Yukon Territory are open to prospecting for petroleum, and the Minister may reserve for an individual or company having machinery on the land to be prospected, an area of 640 acres. Should the prospector discover oil in paying quantities, and satisfactorily establish such discovery, an area not exceeding 640 acres, including the oil well and such other land as may be determined, will be sold to the discoverer at the rate of $1.00 an acre, subject to royalty at such rate as may be specified by order-in-council.

Department of the Interior, Ottawa, February, 1904.

JAMES A. SMART,
Deputy of the Minister of the Interior.

Mortgage Sale

STARTLING PRICE REDUCTIONS

WHAT we have been doing during the past few weeks has been of a preliminary nature; only now have we got the sale in full swing. Costs are quite lost sight of. A $25,000 stock has to be realized on within the next sixty days. The early buyer gets the

CHOICE BARGRINS

WALL PAPERS

No more opportune time for a wall paper sale; winter is approaching, when people live more than ever *indoors*. Nothing goes so far for the small outlay, to give brightness and life to the home than nice freshly papered walls. Never before has such an opportunity been offered in papers at so small a cost, the entire stock over $1500.00 worth must go this month. Even if you do not intend papering till spring get your paper now.

CORRESPONDENCE STATIONERY

Many have already availed themselves of the opportunity to lay in a year's supply of really good correspondence material at unheard of prices. There is still an almost unlimited supply. Papers, large and small, ruled and plain, light and heavy. You really owe it to yourself and to your correspondents too, to secure a few of these special bargains.

BOOKS

The reductions in this department have already tempted hundreds of buyers; all express themselves as astonished with the bargains that are offered. Fiction, nicely bound, Children's gift books, suitable for Christmas. The Poets in cloth at 55 cents, and in leather at 85 cents. Mining Books, Technical Books and several thousand 25 cents standard books at only 10 cents each.

FANCY GOODS

In no department is the over-stock so great as here. Good saleable lines, perfect goods, but far too many of them. Only this accounts for the surprisingly low offerings we are making to clear them quickly. Anticipate your Christmas wants. $1.00 now will do the work of $3.00 later on and do it better..

MUSICAL INSTURMENTS

Violins, Banjos, Guitars, Mandolins, Zithers, Accordians, prices just cut in two. Even if you do not play yourself you should have a few of these instruments in the house for the use of the friends who do. Never before has there been such a chance to get a really good instrument for a mere song—so to say.

It will pay you to look over our daily announcements of Specials, and to keep an eye on our daily Window Displays.

COAL FOR G.N.R. LINERS

COMOX ANTHRACITE WANTED FOR HILL'S NEW STEAMERS

COAST-KOOTENAY LINE NOT YET DECIDED UPON

[Special to The Daily News]

Montreal, Sept. 20.—A party of Great J. D. Farrell, assistant manager, F. E. Ward, general manager, and R. T. Farrington, second vice-president, are in the city today. The object of the trip is announced to be one of inspection of the various lines connected with their system.: Mr. Farrell also stated that they had a purpose in view in connection with the obtaining of coal from the Comox anthracite deposit for their big trans-Pacific steamers Minnesota and Dakota. On this question they interviewed James Dunsmuir this morning. It is understood that the Great Northern also seek coal from this island for use by their locomotives. The duty imposed is the precluding cause.

Mr. Ward was questioned as to the intention of the company to build the Coast-Kootenay line of railway. He said: "Before the snow flies we expect to be into Phoenix."

That was, he said, a move in the direction of a Coast-Kootenay line. When the road would be built, however, it was impossible to say. During the summer survey parties had been in the field seeking a pass through the mountains south of Okanagan and about Princeton. There were great difficulties to overcome there, he said, owing to the low lying valleys. Mr. Ward thinks that British Columbia is going to develop very much during the next few years.

A RESIDENT JUDGE.

His Honor Judge Forin's Views on This Important Subject.

"I think the only solution of the present difficulty in legal circles throughout the Kootenay is the appointment of a resident supreme court judge."

This was the deliberate opinion of his honor judge Forin, given to a representative of The Daily News last evening in response to a query from the scribe. Continuing his honor said: "As it is now, by the sweeping amendment made at the last session of the provincial house, certain county court judges are compelled to do a large amount of the work of the supreme court. This does not apply to the county court judges at the coast but it does very much apply to the county court judges in the Kootenay and it works out in a way that is quite unfair to us, interfering with our regular duties and over crowding us with work that we should not be called upon to take. My own jurisdiction, for instance, covers a very large extent of territory, the regular work of which is daily increasing. Down in East Kootenay there is a growing demand for county court criminal sessions, the cases under the Workmen's Compensation Act are increasing and arbitration matters are being more frequently referred to county court judges, all this of course, in addition to our regular routine county court work. Owing to our somewhat isolated condition so far as supreme court judges are concerned, the only remedy possible in my opinion is the appointment here of a resident supreme court judge as recently asked for by the local bar association here, and at Kootenay points. The objection by a single member of the bar appear to me trivial and not worthy of consideration, when compared to the immense convenience that would result to the general public, as well as to the legal fraternity. I sincerely trust that in making the next judicial appointment in this province the dominion government will make the provision that the appointee shall reside in the Kootenay."

FIELD DAY ON FRIDAY.

Col. J. G. Holmes, D. O. C., Will Inspect Nelson Company R. M. R.

Colonel Holmes, district officer commanding military district No. 11, comprising British Columbia and the Yukon territory, with headquarters at Victoria was registered at the Strathcona yesterday on his annual tour of inspection through the Kootenay. Col. Holmes spent Monday in inspecting the Rossland or No. 1 company of the Rocky Mountain Rangers, when for the first time in the Golden City a field day was held, in place of the usual drill shed inspection. This morning the D. O. C. will go to Kaslo to inspect No. 4 company R. M. R., captain W. H. Holmes commanding, and will return here on Thursday evening, preparatory to the annual field day and inspection of the Nelson or No. 2 company of the R. M. R., captain H. E. Macdonell commanding, which will take place at the rifle ranges Friday afternoon at 3 o'clock.

As has been customary here the local company will parade at the armory Friday afternoon and proceed to the rifle ranges. Each man will have served out to him 120 rounds of ball cartridge, and after the company has been inspected by the D. O. C., a field day will be held including firing at the targets in skirmishing order. Just what other movements will be gone through has not yet been announced but presumably will depend upon the orders of the D. O. C. The Maxim gun squad and the gun will take part in the parade. Captain Macdonell said last night that his company was one of the first to include a field day with the annual inspection, the obvious advantages of which need not be set forth.

It is to be hoped that all the members of the local company will promptly turn out for Friday's parade.

From here Colonel Holmes will proceed to east Kootenay.

CONGRESS OF FREE THINKERS

Rome, Sept 20—The congress of Free Thinkers assembled here today at the Roman college, erected by Gregory XIII. There were over 5000 delegates present, the Frenchmen alone numbering 1000. Spain had 300 representatives and ten delegates came from America.

CAUSED BY BAD WATER

St. Catherines, Sept. 20—A strange epidemic of diarrhoea, accompanied in many cases with nausea, struck the city on Saturday and spread with alarming rapidity on Sunday and Monday. Many people were taken sick, many requiring medical assistance and some being so ill for several hours that it was feared they would die. The cause is attributed to bad water.

PERRY PROMOTED.

Vancouver, Sept. 20.—Private Perry, winner of the King's prize at Bisley, has been promoted to the rank of sergeant.

NELSON'S NEWS OF THE DAY

Conrad P. W. Schwengers, representing E. G. Prior & Co., Ltd., arrived from the coast last night.

Rev. F. H. Graham will hold divine service at the residence of T. Symes, south end of Stanley street this evening at 8 o'clock.

Fred Starkey left yesterday morning on a business trip to the Boundary, which will probably occupy him until the end of the week.

Ed Rinker, formerly night clerk at the Strathcona, and lately of the steamer Moyie, left yesterday morning via Spokane, for his home in Kincardine, Bruce county, Ontario.

Today being the festival of Saint Matthew, there will be a celebration of the holy communion at St. Saviour's church at 10 o'clock this morning.

A M Whiteside, barrister of Greenwood, came in last evening and is at the Strathcona today. He is counsel for the defense in the murder trial on the assize list at Greenwood.

J. A. Macdonald, barrister of Rossland, passed through the city last night on his way home from inspecting the properties of the London & Richelieu Consolidated at Pilot Bay.

The regular fortnightly meeting of the city council will be held tomorrow evening, when the question of reissuing the power plant debentures will probably be discussed in all its bearings.

J. A. McDonald, the wholesale fruiter, yesterday received a consignment of prunes and plums from Myer's Falls. The shipment just filled a car and consisted of 1000 boxes of each fruit, in prime condition.

No. 2 company R.M.R. held another drill parade at the armory last evening preparatory to the annual inspection by the D.O.C., which will take place next Friday afternoon at the rifle range. There was a good turnout last evening and the company is in good shape for inspection.

Mr. Sheriff Tuck has already issued his summons to the grand jury for the approaching assizes which will open on Oct. 3rd, with Mr. justice Irving on the bench. The process of summoning the petit jurors is now in progress. It is stated that R. W. Hannington will conduct the crown business.

James McGregor, provincial inspector of mines, and Mrs. McGregor have left on a trip to the coast. Mr. McGregor will return at the end of a fortnight, the period for which he has been granted leave. Mrs. McGregor will probably remain away for a month. They will visit friends in Vancouver, Nanaimo and Portland.

The young people's society of Christian Endeavor was organized in the Baptist church last evening. It is proposed to hold weekly meetings and judging from the personnel of the society it should be a decided success. The membership is not limited to Baptists but is open to all who are in sympathy with the movement.

There are several cases of typhoid fever in the Kootenay Lake general hospital and the medical fraternity report a general prevalence of typhoid fever the district over Possibly the extra dry season through which we are passing, resulting in very low water in all the creeks, may have something to do with the outbreak.

H. N. Galer of the Granby company, but of late more closely connected with the International Coal company of Coleman, of which he is vice-president, will be married today at Grand Forks to an estimable lady of that city. The newly married couple will leave the Boundary city for Vancouver today via Robson and the Columbia river line.

A meeting of the board of managers of the Success club was held in the club rooms last night at 8 o'clock. It was decided to hold a meeting in the same place Friday afternoon at 4 o'clock to organize a ladies' auxiliary. Several committees reported progress. The program committee's report was referred back with the request that it complete its work by securing speakers for debates and lectures and leaders for the mock parliament.

Jim Burrows, the pride of Fernie, who will box Jack Curley for the championship of western Canada, in this city a week from tomorrow is training in Fernie and will not arrive here until a couple of days before the contest. Burrows says he will be in great form when the event comes off. Curley is training hard at the Bodega and his backers are well satisfied at his progress. The two men were matched once before for $1000 a side at Fernie when Curley won after a hard fight of nine rounds.

The attendance at the Nelson schools is now about 400, the high school having near 40 and the public school a little over 360. These figures are the highest in the history of the local schools.

Henri Stuart, advance agent for Stuart's comic players, has been in town for the past few days arranging for the appearance of that company at the opera house on Monday and Tuesday, October 3rd and 4th. On the first night "U and I," a farce comedy, will be the bill. The following evening "Irish Aristocracy" will be put on.

President Shaughnessy, Wm. Whyte and the other members of the president's party now touring the province are expected to reach this city from the Boundary country on Saturday ngiht. The party consists of sir Thomas Shaughnessy, president of the C.P.R.; sir George Drummond, vice-president of the Bank of Montreal and a director of the C.P.R.; R. B. Angus, E. B. Osler of Toronto; and C R Hosmer of Montreal; William Whyte, second vice-president of the C.P.R. and Mr. Tye, chief engineer; R. Marpole, western divisional superintendent; H. E. Beasley, superintendent; Messrs. Cambie and Webster, engineers. and Mr. and Mrs. C. G. Henshaw.

Some boys with an odd sense of humor have lately been in the habit of amusing themselves in a way that caused annoyance to others. They have made the stable back of the opera house, on Ward street, their headquarters and by the simple device of a black object, cloth, or stick or brush, and a rope have given passerby the impression that some small animal was crossing the sidewalk. The acting chief of police captured the offenders Monday night, when their stock in trade consisted of a black stocking stuffed with straw. Its shape made it resemble a snake when drawn in. The boys caught were contrite and profuse in promises not to offend again. As the boys had clean records so far their promises were accepted. If the offense is repeated by them or any others an example will be made of those captured.

SIR SANDFORD FLEMING

Distinguished Canadian Spending Today in This City.

Among the arrivals in this city last evening was sir Sandford Fleming, K.C.M.G., of Ottawa, who is returning to the east from a visit to the Pacific coast.

Sir Sandford has played an important part in the development of Canada. He was chief engineer on the construction of the Intercolonial railway, which was completed in 1876. From 1871 to 1880 he was engineer in chief of the Canadian Pacific railway, and took part in the work of surveying the routes through the Rockies and Selkirks, when these mountains were little known to Canadians.

In 1880 he was elected chancellor of Queen's university, Kingston, a position to which he has been re-elected eight times and still holds.

He has ever been a public spirited Canadian and a thorough imperialist. He was the chief and for some time the only advocate of the Pacific cable as a first link in a chain that is to bind together the various parts of the empire. He is now steadily advocating fast steamship services from Canada on the Atlantic and Pacific to enable this country to reap the full benefit of its geographical position on the shortest route between Europe and the orient.

He was among the first to advocate the 24 hour time reckoning which has been adopted by the railway companies. He has tried to secure the adoption of a uniform method of reckoning for the world and a common prime meridian.

He is the author of many books and pamphlets, chiefly dealing with scientific subjects, or with Canadian history and statesmanship.

Sir Sandford is accompanied by his daughter, Miss Fleming, Mr. Exshaw, his wife and son, Miss Smith and major Jones, all of Ottawa. The party remain here today and will then make a tour of the Boundary country.

OUTWITTING UNCLE SAM

CHINESE WOMAN'S METHOD OF EVADING DEPORTATION

THROUGH MATRIMONY TO FREEDOM OF THE STATES

Portland, Sept. 20—According to the Telegram a decision rendered by United States commissioner Staden yesterday in the case of Doeguem Yip, a Chinese woman held for deportation, will throw open the doors of immigration to celestial women without number so long as the woman marries a regularly admitted Chinese after arrival. The Yip woman was charged with being illegally within the precincts of the United States. After her arrest she married a Chinese citizen, according to the laws of the United States, and this according to commissioner Staden's decision, entitles her to residence in the United States, even though, as the commissioner expresses it, he was certain the marriage had been performed for the purpose of enabling the woman to remain in the country. So long as such marriages conform with the marriage laws of the United States, the woman is not liable to deportation.

BRITISH FOOTBALL TEAM

Returning From Australian Tour by the All-Red Route

[Special to The Daily News]

Vancouver, Sept. 20—A cable message by way of Bamfield Creek, says that the British football team touring Australia, returns home by the All-Red route through Vancouver. They are now in Suva and will be picked up by the Aorangi, and arrive here October 27. It rests with the Vancouver Rugby champions to arrange a game.

VIOLATED GAME LAWS

Victoria, Sept. 20—For shooting game out of season, Edmund Wall, Richard John, and James John were fined $70 each, and Richard John, jr., $40, the distinction being made on account of his age. The fine is to be paid within a week or in default 30 days' imprisonment.

BOUND FOR KOOTENAY

Victoria, Sept. 20—Sir Thomas Shaughnessy and party left this afternoon on their return journey east. While in the city the C.P.R. president and officials viewed the work on the foundation of the new C.P.R. hotel, which is now under way.

A RAILWAY LOCKOUT

Susquehanna, Penn., Sept. 20—When the 300 boiler makers and their helpers employed in the Erie railroad company's locomotive works here, reported for work today they were notified that their services were no longer required. Two carloads of non-union men have been set to work in the shops.
