DEMANDS OF COAL MINERS

Negotiating With Operators for New Agreement.

TWENTY-FIVE PER CENT INCREASE

New Agreement to Terminate Next Year—Price List for Supplies.

(Special to The Daily News.)

FERNIE, B.C., March 3—The negotiations looking to a new agreement were entered into today at Calgary by the Mine Workers presenting their demands and the manner in which they wished to treat upon them, to the operators.

As to wages, the basis of the demand is the rates paid in district 27, U. M. W. of A., which lies south of the boundary, in the state of Montana.

Second, the fixing of contract rates in long wall work in some of the Coal Creek mines and some of those at Michel and of all long wall work in the mines at Blairmore, Frank and Bankhead.

The third demand is that all inequalities in the price of timbering in the district and the contract rates in Nos. 2, 3 and 4 at Michel and at Bear Valley, Lille, Lethbridge, A. R. & I., Royal Collieries, Canmore and Hillcrest are all to be dealt with before the general agreement is taken up.

Also an advance of 5.55 per cent on all contract and dead work after adjustments are made is asked. The new agreement is to terminate on Aug. 1, 1912, instead of April 1, 1913.

A uniform price list for supplies is also asked for.

These demands are now before the operators and today's discussion was upon the long wall proposition. The new demands aggregate about 25 per cent of a raise.

PROCTOR RETURNS FROM BUSY TRIP

Deals With Nelson-Balfour Road, K. & S. Railway, Reciprocity, Mining in Kootenay and Other Questions.

T. G. Proctor has returned to the city after a trip to Vancouver, Victoria and Spokane, during which he has been, in conjunction with Harry Wright, M. P. P. largely instrumental, as representative of the Nelson board of trade, in obtaining a total grant of $14,500 from the provincial government for the construction of the Nelson-Balfour road this year; assisted in the negotiations which have resulted in a syndicate of Kaslo men taking an option on the K. & S. railway line; addressed a bankers' convention in Spokane; boosted a Spokane-Nelson automobile road while at the Inland Empire capital; and, among other matters, told the Vancouver press of the anti-reciprocity feeling of the fruit growers and mining men of the Kootenay. These are only Mr. Proctor's main achievements during the trip as he also found time in Spokane to discuss certain details in connection with the Lucky Jim mine and to learn from the mining brokers of that city that they are watching the progress of the development of Kootenay's mineral wealth very closely and that, attracted by the success achieved at the Standard, Hewitt, Van Roi, Rambler-Cariboo, Lucky Jim and other properties are very much on the qui vive for favorable opportunities to invest money in the Slocan district.

Regarding the K. & S. option Mr. Proctor said that he could add very little to what had already been published, except that he felt confident that the option would result in the early re-operation of the road. He thought also that it was probable that the C. P. R. would build through from Three Forks to the Lucky Jim mine within the near future.

At Victoria, in addition to obtaining the grant of $14,500 for the construction of the road between Nelson and Balfour, he had received an assurance that engineers should be sent to look over the suggested sites for bridges across the Kootenay river this spring and summer and that a grant would be made by the government as soon as practicable. "Harry Wright was of the greatest assistance to the district in helping me to obtain the grant for the road to Balfour," said Mr. Proctor. "He attended meeting after meeting with me and at which we urged upon the members of the government the importance of Nelson becoming connected with outside points by wagon road. For Nelson Mr. Wright obtained $4000 for the hospital; $2000 for the erection of a poultry building at the fair grounds; and a substantial grant for the rifle association. Another grant that will be of immense importance to Nelson is that of $5000 for the construc-

PROV. LIBRARY

tion of the road between Salmo and Ymir. This will ultimately be part of a fine automobile road which I expect to see before long between Nelson and Spokane."

Nelson-Balfour Auto Road.

On this subject Mr. Proctor gave the following interview in Spokane:

"T. G. Proctor, a prominent mining operator of Nelson, B. C., who was at the Hotel Spokane yesterday on his way home from Victoria, states that the provincial government has agreed, in connection with its automobile wagon road from the coast to Alberta, to construct a thoroughfare of the same character from Nelson to Waneta, where connection could be made with the wagon road highway to Spokane.

"He is very anxious that local mining men should take steps to insure the improvement of the wagon road between Spokane and Boundary, so that eventually it would be easy and convenient for parties visiting the Kootenay district to make the trip to Nelson in their own autos.

"He believes that a through highway adapted to such traffic would be instrumental in increasing interest in the mines in the territory traversed and of the Salmon river and Nelson (B. C.) districts especially."

While in Spokane Mr. Proctor was honored by an invitation to a banquet following the annual meeting of the Spokane Clearing House association and there told the financiers of the immense possibilities of mining in the Kootenays.

JOHN HOUSTON FUND SUBSCRIBERS MEET

Decide to Leave Question of Memorial Over Until Lists Are in—Library Question

At a meeting of the subscribers to the John Houston fund held in the board of trade rooms last night it was decided that the question of the selection of a memorial should be left over until the sum that is to be realized from the subscription lists is known. It was pointed out that this would enable the Nelson Library association to commence a campaign to raise the Houston fund to a sufficient amount to build a public library for the city if the sum realized from the lists now out should prove in the neighborhood of that required.

Among those present were: J. J. Malone, chairman, J. W. Holmes, Edward Kerr, G. C. Mackay, W. Shackleton, C. G. Simpson, J. A. Irving, J. L. Buchan, F. A. Starkey, J. H. Matheson, S. M. Brydges, secretary.

There was a lengthy discussion as to whether a drinking fountain should be definitely decided upon as the form of memorial or the matter should be left over until the lists have been called in at the end of this month. W. Shackleton thought that a suitable library building could not be erected for less than $15,000 and J. J. Malone thought that $20,000 would not be putting the figure too high.

F. A. Starkey did not agree with these estimates and contended that a suitable building could be put up for a much smaller sum. The city did not need a building of marble, a brick structure with a marble front would be quite sufficient.

J. L. Buchan said that the Library association would be willing to commence a campaign to raise the balance required to make up the cost of a library after the total on the subscription lists was known.

Mr. Starkey pointed out that it would be inadvisable to make any decision as to the form of memorial until the sum realized was known and a motion to leave the question open until after the end of the month was seconded by J. A. Irving, and passed. Mr. Irving said that he considered it only fair to the Library association to give them an opportunity to carry out a campaign if they so wished when the lists now out were all turned in.

CIVIL SERVANTS AND GARNISHEE

Minister of Justice Wants to Prevent Them from Being Harassed by Creditors

OTTAWA, March 3—This was one of the dullest days of the session in commons. After a little preliminary business had been disposed of Mr. Beauparlant of St. Hyacinthe, discussed the question of the immunity of civil servants from garnisheement of wages. He claimed that it was not fair to creditors and asked the government to amend the civil service act accordingly.

Several speakers supported the view but Sir Allen Aylesworth contended it was in the public interest that the best work should be got out of public servants and this could not be done if they were to be harassed by creditors.

A. S. Meighen, Portage la Prairie, contended that the argument of the minister of justice lacked common sense.

Mr. Nantel, member for Terrebonne, gave notice that on Monday P E. Blondin, M.P. for Champlain, would bring to the attention of the house matters affecting Adelaide Lancelot, Liberal member for Richelieu. The opposition members say that charges which will necessitate an inquiry before the privilege and elections committee will be made.

FAMOUS MINES AGAIN SHIPPERS

Molly Gibson Resumes After Long Quiet.

KOOTENAY BELLE SHIPS A CARLOAD

Athabasca's First Shipment of Year—Ore Returns for Week.

Two of the shipments to the Trail smelter the current week, as recorded in the returns, are particularly significant, the Kootenay Belle gold mine of the Sheep creek camp, and the Molly Gibson silver-lead mine, on Kokanee creek, near Nelson, both resuming shipment after a long period of quiescence. It is a matter of some years since the Molly Gibson was one of the most prominent shippers of the Kootenay, while the Kootenay Belle last shipped in 1909.

Ever since the Consolidated Mining & Smelting company took over the old Molly Gibson group last summer, that property has been under development, while the transport of ore over the eight miles between the mine and the lake has been rendered easier by the construction of a second tram, which reduces the distance for teaming to four miles. The large bodies of low grade ore of the Molly Gibson are what the smelter requires, and it is generally expected that this property will be one of the heavy shippers of the year.

Pushing Kootenay Belle Cross-cut.

The Kootenay Belle mine is now owned wholly by the Rogers Syndicate, and since the long cross-cut tunnel to give depth reached the first and smaller of the two veins that figure in the upper workings, the property has been a centre of interest. Since the vein was cross-cut, work has been actively carried on by a force some times as large as 15 men, and a drift on the vein has been carried 55 feet west and 35 feet east the point of intersection, showing for the whole distance about two feet of ore, most of it shipping ore. From this shipping ore the present carload was made up. The cross-cut has also been carried 25 feet beyond the first vein, and should catch the large vein in 75 feet or less. For the balance of the winter development work will be pushed, it is understood, and with spring a large mine force will be put on. A three horse power gasoline engine has arrived from the coast and is being installed, to give air for ventilation. A portion of the present drift is under the 60 foot blind shaft and stope of the upper workings, and a raise will be made of 120 feet, which will connect the two levels.

The Athabasca made its first shipment of the year this week. This famous old Nelson mine also sent over a shipment about the last week of the old year, and ever since has been steadily taking out gold ore and producing bullion and concentrates.

The following are the figures of the ore production and movement for the past week, and for the year to date:

BOUNDARY SHIPMENTS

Granby	16,338	192,664

KASLO & SLOCAN NEGOTIATIONS

(Special to The Daily News.)

VICTORIA, March 3—The long vexed question of the restoration of the Kaslo & Slocan railway has now reached a stage in the negotiations when a definite arrangement is expected within a few weeks. The Great Northern is considering the offer of $25,000 made by a syndicate of Kaslo, who plan to restore the line and either themselves operate it or to secure future operation by the C. P. R. The offer, although the Great Northern regards it as inadequate, will probably be accepted.

Total	7,388	70,637

The total receipts at the smelters for the week, including concentrates, were 32,348 tons, and for the year to date, 352,410 tons.

MANUAL TRAINING AT REVELSTOKE

School Board is Likely to Establish a Class—New Uniforms for Boy's Brigade

(Special to The Daily News.)

REVELSTOKE, B.C., March 3.—For the theft of several pieces of silverware from the tables of the Windsor hotel, F. E. Ellison was yesterday morning fined $50 or in default three months' imprisonment. Counsel for the defendant pleaded in extenuation that the prisoner had only taken the stuff as a joke and intended returning it as soon as the opportunity offered itself. Chief of Police Parry, who was prosecuting, held that the accused had attempted to dispose of the stolen articles. The case came up primarily on Monday, the accused pleading not guilty to the charge, and asking for a remand. When the case came up up yesterday morning for final disposition the prisoner changed his plea to that of guilty.

This city will probably have a manual training school established here before the snows of next winter fly. H. Dunnell, provincial inspector of manual training, was in the city yesterday and met the school board last night. After explaining the nature of the training the cost of initial apparatus and maintenance, together with the assistance offered by the government, the board expressed themselves as very favorably inclined toward purchasing the necessary equipment and establishing a class. However, the matter was left over for consideration at a regular meeting of the board.

Boy's Brigade

The local officers of the Boys' brigade have secured from Glasgow costumiers 15 new sets of uniforms for the boys, together with three new suits for officers. The boys look particularly smart in these suits and have decided on a church parade next Sunday morning.

Two Hebrew peddlers appeared before Magistrate Foster yesterday morning charged with peddling jewelry on the streets without a license. M. Hackett was ordered to pay $75 and costs for the offense, he having previously appeared here on the same charge, and H. Lomax was fined $50 and costs, this being his first offense here.

D. McDonald, one of the teachers of the Central school here, has been ordered away for an extended holiday on account of failing health. He left for the coast this morning. The vacancy will be filled by Mrs. Phil Parker.

KETTLE VALLEY HAS ADVANTAGE

Protest Filed by Vancouver, Victoria & Eastern Against Location of Coquahalla Route.

(Special to The Daily News.)

VANCOUVER, B. C., March 3—The management of the Vancouver, Victoria & Eastern railway has filed a protest with the railway commission against the location plans of the Kettle Valley railway for its Coquahalla branch over the Hope mountains. It is probable that the commission will send an engineer to personally inspect the routes desired by both parties. The Kettle Valley line parallels the Vancouver, Victoria & Eastern for 30 miles along the Coquahalla, the latter line being several hundred feet below that of the other railway. The Kettle Valley line has the advantage in the contest as its route map for the section has been approved by the minister of railways, preliminary to presentation to the railway commission, while the Vancouver, Victoria & Eastern line along Pass creek has not yet been officially approved.

MARCH 4, 1911
Coupon No. 6

This coupon, with one from each of the other issues of The Daily News of the week ending, March 4, and 10 cents entitles the holder to a photo-gravure reproduction of Fred Morgan's picture, entitled "London Bridge is Falling Down." Coupons and money should be presented at The Daily News office any time after Sunday next. If pictures are to be mailed, 5 cents must be added to cover postage. "La Cegale" may also be secured on these coupons.

ANOTHER BAKER STREET BLOCK SOLD

Hall Building Purchased by Fuel Company.

BUILDING PERMITS SHOW BIG INCREASE

Many Sales of Residential Property Are Made During Week.

One of the most important deals in Baker street realty that have been reported for some years has been consummated whereby the Kootenay Ice & Fuel Co. has purchased, from Dr. G. A. B. Hall of Victoria, the block at the northeast corner of Baker and Ward streets. The consideration was $30,000.

The building stands on a 50 foot lot and is of two stories. On the ground floor, facing on Baker street are the offices of the fuel company, the Nelson News depot, and the Empire picture theatre while on the Ward street side are located Annable & Hunter, McQuarrie & Robertson, Rutherford's drug store, the Kootenay Orchard association, I. & M. Leece and G. Willey.

Activity in other city property was also very marked during the past week many sales of residential property taking place. Alec. Cheyne, secretary of the Western Canada Investment Co., reported the transfer of a residence on Josephine street to Dr. Frank; the sale of D. S. Husband's house in Fairview; the sale of Mrs. Robert Ritchie's house on Robson street to John Lamont, and the transfer of two lots in Fairview belonging to J. J. Hawkins to Thomas Rimmer.

McQuarrie & Robertson made one of the largest deals in residential property put through during the week, disposing of Hamilton Byer's ten room house on Vernon street to E. W. Widdowson.

J. E. Annable reported the sale of a ten acre block at Thrums to George Reolko who has taken up his residence on the property and will commence clearing in the spring.

Two deals were consummated without the medium of an agent. Donald McLeod purchased from J. H. Ellis a residence on Mill street; and Arthur Herod bought a house and lot in Fairview. Another purchase of Fairview property was made by J. St. Denis of Slocan City, who has acquired a residence in that suburb.

The building permits issued at the city hall during the past two months, show an aggregate value of construction work of $9170, a tremendous increase over the same period last year, when the total was only $470. During January and February ten permits were issued and of these four were for new residences. The balance concerned improvements. These figures relate only to the actual city and building operations in Fairview and other additions are not included.

Builders and others wishing to erect houses or make improvements are reminded that there is a bylaw in force which makes it necessary for a permit to be obtained before work commences. A city official said yesterday: "It is not only essential that the construction of buildings should be regulated but it is extremely valuable from a publicity point of view for the city to be in a position to quote figures as to actual operations."

CAPACITY OF FIVE HUNDRED BOXES

Proprietor of Fernie Maccaroni Factory Visits Nelson—Fifty Thousand Dollars Invested

Among the visitors to Nelson yesterday was C. Marinaro of the Columbia Maccaroni works, a new industry recently established at Fernie and one which gives every promise of achieving great success. Mr. Marinaro is at present on his way home after a business trip to the Boundary cities and to Rossland and Trail.

The history of the Columbia Maccaroni works, which are owned by Mr. Marinaro and his brother, is an interesting one. Last summer Mr. Marinaro visited Fernie and was at once struck by the possibilities in the way of a maccaroni factory, a business in which he had been engaged in Pittsburg. He lost no time in seizing the opportunity. In August he bought a plant and soon after commenced the erection of a concrete building in which to house it. So well had Mr. Marinaro laid his plans that within but a few days over three months from the time he commenced construction he had his plant installed in a two story concrete building, "L" shaped, one wing of which is over 100 feet long and the other over 75 feet, while the width of each is 32 feet, and was turning out maccaroni. In addition to this he also erected in this time a 16-room house for the use of himself and his brother. As an instance of rapid construction it may be mentioned that within five days from the time the first nail was driven the roof was on this house and the clapboard walls had received their first coat of paint. The walls had been double boarded with paper between and generally all work had been of the best character. Mr. Marinaro personally superintended this work as well as the construction of the factory building and the installation of the plant.

Altogether Mr. Marinaro and his brother have invested $50,000 in their factory and residence, but they look for a good return on their investment. The factory has a capacity of 500 boxes of maccaroni daily, and in addition it is the intention to manufacture a special breakfast food for which Messrs. Marinaro expect to build up a good market. Mr. Marinaro leaves for home this morning.

FOURTEEN HORSES BURNED; FIREMEN HAVE FIERCE FIGHT

OTTAWA, March 3—Fourteen horses were burned or smothered today in a fierce fire which gutted the livery stables and undertaking establishment of J. Landreville, Sparks street. The firemen had a terrific struggle with the smoke and flames, water pressure being lower than it ever has been in the history of the city.

PROSPECTS FOR BRISK BUSINESS

Spring Trade Opening Up Satisfactorily —Western Business Conditions Continue to Improve.

NEW YORK, March 3—According to dispatches received by Dun's Review from branch offices of R. G. Dun & Co. at leading cities in all sections of Canada, trade conditions throughout the Dominion continue to make steady progress, spring business opening up satisfactorily with a remarkable uniform feeling that all indications point to a very favorable season. The volume of wholesale trade at Toronto was very fair, good spring orders being received from the country lists and the general feeling is optimistic.

Millinery openings were fewer for the week and sales were large, while trade in staple dry goods was in a satisfactory volume. Increasing inquiry appears for hardware and metals and demand for building materials was noticed. Groceries are in active request and there is a great demand for leather but hides are unchanged. The grain trade is dull and provisions are quiet. The far west conditions continue to show improvement.

Conditions at Saskatoon show little change, jobbers reporting steady improvement and prospects very satisfactory. Fine weather at Calgary has stimulated retail trade and a snow fall is regarded as having been of great benefit to agriculturists. The general feeling is that there is every indication of an active season at this centre Gross earnings of all Canadian railroads reporting weekly the first three weeks in February, show some improvement. The total aggregates $4,698,566, an increase as compared with the same period last week of 2.7 per cent whereas last week the same report showed a loss of 1.9 per cent.

Commercial suspensions for the month of February make an unusually favorable exhibit numbering only 108 with defaulted indebtedness of $560,604 as against 142 last year for $1,789,087 and 156 in 1909 for $1,059,574. Failures for the period numbered 35, against 30 last week, and 28 the corresponding week last year.

Encouraging in West.

WINNIPEG, March 3—The Commercial in its weekly review of the business situation will say tomorrow:

"The general trade situation in the west continues encouraging and a steady tone is maintained in all branches of activity. The demand for all classes of goods is increasing and the movement of merchandise is heavier than usual for this season of the year. Transportation companies are making great headway in their attempts to catch up with deliveries. Railway business has been extremely active and earnings are far above those of the corresponding period last year.

CELEBRATION OF KING'S BIRTHDAY

Will Take Place on Actual Day in June —Regulations for Firing of Salutes

OTTAWA, March 3—Saturday's Canada Gazette will contain a dispatch from Downing Street stating that it is the wish of his majesty the King that his birthday should be officially celebrated in the Dominions beyond seas on the actual date of the anniversary, June 3.

Another dispatch fixes the following dates for the firing of salutes: Anniversaries of the birth, accession and coronation of the reigning sovereign, the birthday of the consort of the reigning sovereign, the birthday of the queen mother, on which days a royal salute shall be fired at noon from all his majesty's ships in port and from all forts and batteries from which triumph salutes are usually fired.

AS MINISTER OF RAILWAYS

Hon. Thomas Taylor to Be Sworn in Next April.

RESIGNS FROM SOCIALIST PARTY

J. H. Hawthornthwaite May Seek Seat in British or Dominion House.

(Special to The Daily News.)

VICTORIA, B. C., March 3—It is announced that J. H. Hawthornthwaite, leader of the Socialists and member for Nanaimo in the provincial legislature, has resigned his membership in the Socialist party and will shortly resign his seat in the local house. It is said he will follow Joseph Martin's example and seek a seat in the Imperial house. Other rumors credit him with the intention of opposing Ralph Smith for the federal house as a Conservative at the next election opportunity.

Department of Railways.

It is understood that Hon. Thomas Taylor will be sworn in as minister of railways about April 1, when the new department is organized and the public works department reconstructed. W. Foster of Revelstoke, is spoken of as likely to be deputy minister of railways and F. C. Gamble, chief engineer, while J. E. Griffiths will probably become deputy minister of public works. Hon. Thomas Taylor leaves in three weeks on his annual spring tour over the roads of British Columbia. Hon. W. J. and Mrs. Bowser leave with the premier and Mrs. McBride about the end of May for London to be present at the coronation.

INDIANS WANT LITIGATION

Claim Title to Unsurrendered Land—Premier Refers Them to Indian Department at Ottawa.

(Special to The Daily News.)

VICTORIA, B. C., March 3—Ninety-six Indians and delegates who, in the language of their spokesman, had dragged their weary bodies great distances to ask for justice, appeared before the provincial executive this morning to discuss the question of title to unsurrendered lands in British Columbia. The Indians through a memorial read by their spokesman, Chief P. Kelly, who is in charge of the Methodist mission at Hartley bay, claimed that they hold full proprietory rights in the unsurrendered lands of the province. Their claim they said was acknowledged by Sir James Douglas, by the colonial office, and afterwards by a former governor general, Lord Dufferin. As it was denied by the provincial authorities they now asked that the question be submitted to the courts.

Chief John Chilkleetsa of Douglas lake said: "We wish to hear from you whether you claim that this country of British Columbia belongs to you and your government or does it belong to the Indians. If you claim that it belongs to you then we are of the opposite opinion and I desire that we should go together to some big court house to have it settled."

Words of Government.

Premier McBride said that the government had given the matter careful attention and had come to the conclusion that the Indians had no title to the unsurrendered lands. The Indians had been given large reserves, larger in fact than they needed as many of them remained unoccupied. And if they wished they could take up homesteads after the manner of white men. This question of title he said would never have been raised were it not for the pernicious activity of some white men who should have known better. If they had any legitimate grievances these should be presented for consideration to the Indian department at Ottawa as they were the wards of the Dominion government. The delegation consisted of the principal Indians from every section in the province.

SAYS UNITED STATES ARMY EXTRAVAGANTLY MANAGED

WASHINGTON, March 3—Representative McLachlan of California, injected into the house debate today sharp remarks about the United States army. Speaking in behalf of a bill to organize the army on the basis of the "division" of 20,000 men as a tactical unit, he charged that the army was wretchedly organized and extravagantly administered. It is in no case a modern military force, nor is it prepared to exercise its final function, which is fighting. He declared that all appropriations for the army would be a criminal waste of funds unless it were reorganized on a modern military basis.

WESTERN FLOAT.

(By R. T. Lowery.)

Bitter Creek is troubled with blind pigs.

Potatoes retail for $50 a ton in Port Alberni.

The Hudson's Bay Co. will open a store in Rupe.

Fire destroyed Sam Lee's laundry in Kelowna.

A pipe band is being formed in North Vancouver.

The hospital at Rupe has been insured for $10,000.

The city market in Vancouver has proved a failure.

Meat by the quarter is 18 cents a pound in Fort George.

Saloons will be abolished in British Columbia early in 1914.

A branch of the Royal bank has been opened at Sardis.

Murdock McLeod will open a general store at Yahk.

Tom McGovern has joined the fire brigade at Stewart.

Masked balls are the rage in the society circle of Quesnel.

The C.P.R. will reopen its telegraph office in Chilliwack.

The Stewart fire brigade has bought a new hose reel for $152.

Last Saturday was the 17th anniversary of the big fire in Kaslo.

The Cariboo road is full of pitchholes between 83 and 15 mile posts.

During January there were four deaths and eleven births in Prince Rupert.

At Kamloops an Indian was sentenced to 30 months in jail for horse stealing.

Eckstein & McTaggart of Fernie have opened a law office in Vancouver.

The total cost of running the schools in Penticton this year will be $4165.

Percy Hook is teaching the musical people of Calgary how to play the piano

John Tait who recently died in Kamloops had lived 40 years in that place.

This year British Columbia will be deluged by big game hunters from Europe.

This year an attempt will be made to grow tobacco at Vernon and Enderby.

This winter there have been hundreds of destitute and unemployed men in Calgary .

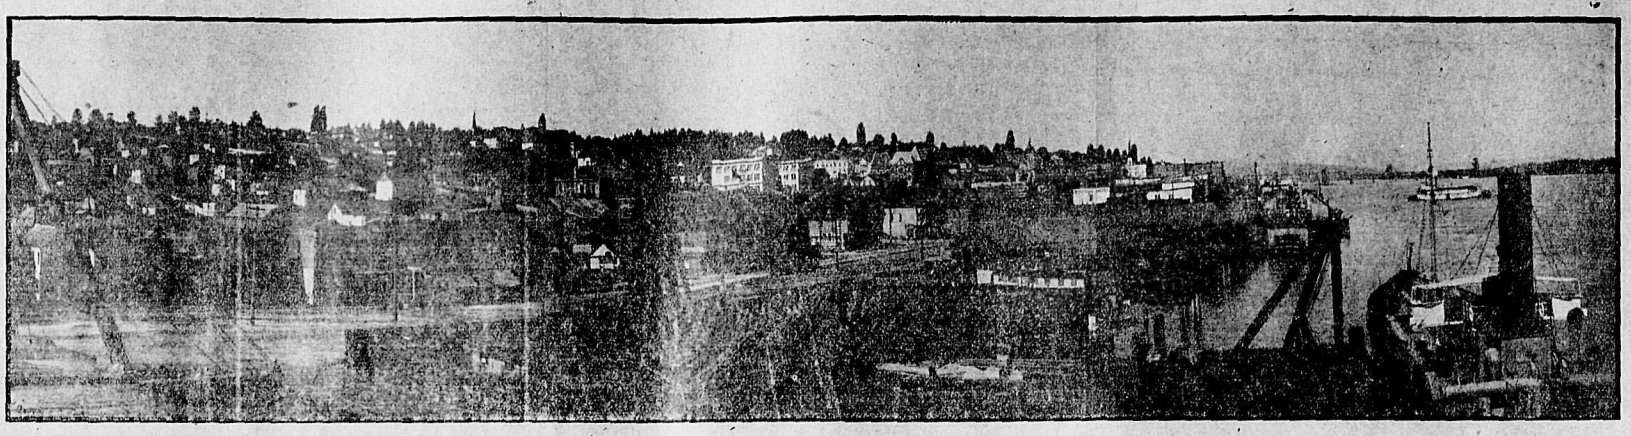
The price of beef has advanced at Mission City and other towns in the Fraser valley.

White fish fry will be deposited this year in the inland waters of British Columbia.

J. R. McDonald has been appointed superintendent of the coal mines at Bellevue.

The government will build a $25,000 postoffice building in Chilliwack this summer.

It is reported that an hotel, costing $30,000 will be built in Port Alberni next summer.



New Westminster Is Making a World's Record in Growth, Development and Enterprise

Last year the increase in property values under the new assessment was $5,000,000.

Last year the B. C. Electric Railway expended over $5,000,000, a great part of this sum being used in new carlines converging at New Westminster.

No other city in Canada of the same population has such an array of advantages.

The following projects are now under development in or adjacent to the city:

Western Steel Co.	$2,500,000
Canadian Northern Railway.	2,500,000
Fraser River improvements..	1,250,000
Provincial government	1,000,000
New Westminster Waterworks	378,000
New Westminster paving ..	150,000
New Westminster sewers ..	100,000
New buildings, estimated ..	1,000,000
Great Northern	100,000
B. C. Electric Ry.	200,000
Fraser River Mills	300,000
Tool Works	125,000
Wire Nail works	100,000
Total	$9,703,000

It has been reported that an English company with a capital of $10,000,000 has secured a site near Port Mann for iron and steel works. Also a large Montreal firm for structural steel.

New Westminster already has nearly one hundred manufacturing plants, 400,000 acres of tributary farm lands ,a great fresh water harbor, six great railway systems there, or building, radial carlines, immense timber resources, river and sea fisheries.

Only ten short blocks from the center of the city, with carlines, streets, sidewalks, (water, telephone and electric light going in) we are offering lots 35x110 feet, $300 to $350; $20 down and $10 per month with extension of time if required. We sell for these prices, right on the ground.

Our next subdivision will be $50 higher in price and not so close in. Don't wait.

The Wright Investment Co., Ltd. Nelson, B. C.

This winter Frank Asam ran a traction engine on runners from White Horse to Dawson.

In High River a Chinaman has been fined $100 for giving liquor to a siwashed individual.

CITY AND COMPANY EXECUTE CONTRACT

Text of Agreement Signed by Mayor Selous and Mr. Breed Respecting Correction of Trouble.

The arrangement between the city and Allis-Chalmers-Bullock in respect to correcting the trouble in No. 2 unit of the city power plant, to which the city council assented on Monday night, has been embodied in a binding agreement, which has been signed and sealed, and is now in effect.

The full text of the agreement is as follows:

Preamble.

Memorandum of agreement made the twenty-eighth day of February, in the year of our Lord 1911; between, Allis-Chalmers-Bullock, Limited, (hereinafter called the company) of the one part; and, the corporation of the city of Nelson, (hereinafter called the corporation), of the other part.

Whereas the company on the 22nd day of March, 1909, by contract in writing under seal agreed to supply the corporation with a hydro-electric unit which has since been installed at the power plant of the corporation and is known as "No. 2 unit" of the corporation.

And whereas certain difficulties have arisen in connection with the operation of the said unit.

And whereas certain tests have recently been made of certain parts of the said unit, which tests have not proved conclusive to the satisfaction of either party.

And whereas the parties hereto have mutually agreed to install a new coupling connecting the bottom and centre section of the shaft in said unit.

And whereas the said company and the corporation have already incurred expense in making the said tests amounting to $1933.48.

And whereas the parties hereto have further mutually agreed to suspend further tests of the said unit until such time as the new coupling shall be connected with said shaft, and to leave the said unit, its foundations and method of attachment, in the same state and condition as it was when shut down for repair.

Coupling Ordered.

Witnesseth that it is hereby mutually agreed between the parties hereto as follows:

1. The corporation hereby orders from the company, and the company agrees to supply the corporation, with a new coupling from their works in Montreal, P. Q., the order for such coupling to be telegraphed in the terms of the telegram hereto annexed signed by E. M. Breed, representing the company, and R. A. Brown, electrician for the corporation, representing the corporation, which telegram is deemed to be and forms part of this agreement.

2. Said coupling to be constructed and shipped with all due speed to Nelson, B. C., consigned to the corporation. Such coupling to be supplied at cost, f.o.b., the factory of the company, Montreal, P. Q.

3. The cost in any event of the said coupling not to exceed the sum of $500.

4. The corporation agrees to pay the freight on the said coupling in the first instance.

5. On the arrival of the said coupling at Nelson aforesaid, the same is to be subject to the inspection of the said R. A. Brown, electrical engineer for the corporation, and when inspected and accepted by him on behalf of said corporation, the said coupling shall be deemed to be a perfect coupling.

Joint Installation.

6. On the arrival of said coupling at the said power plant of the corporation, the company agree to supply a construction expert to instal said coupling and to place said unit No. 2, in running order to enable said parties to test the said unit to ascertain whether the same will operate properly.

7. The parties hereto agree to assume joint responsibility for the work of the expert engaged in attaching said coupling, and in lining up the shaft and placing No. 2 unit in running order, to the extent only that, if it is subsequently ascertained that said expert did his work improperly, the parties hereto agree to divide equally the cost of his services, and the cost of remedying any defects due to such expert.

8. The assuming of such responsibility for the work of such expert by the corporation, or any payment made by the corporation for the work of any expert, shall not in any way release the company from any obligation imposed upon it by the terms of the hereinbefore in part recited contract of the 22nd day of March, A. D., 1909; and such assumption of such responsibility by the corporation, or any payment made to such expert in connection with his work, or the cost of remedying same, shall not in any wise be deemed to be a waiver by the corporation of any rights that they may have against the company under said contract.

9. The corporation agrees that the expert in attaching said coupling, and in lining up said shaft, and in placing said No. 2 unit in running order, shall in no wise alter the foundations, supports or method of attaching unit to same. This clause shall not operate to prevent the said expert from moving any part of the machine in order to align the same providing that any part or parts so moved by him are re-attached in the same manner. The corporation to have the right to instruct said expert to attach the machine to its foundations in the same manner as it was attached at the time the same was shut down.

10. After the said coupling is attached and shaft lined up, the corporation shall run the said unit for a period of one month thereafter, under ordinary commercial load, and under all varying conditions, if the said unit will run that long to ascertain whether the said certain difficulties develop.

11. If the unit works satisfactorily during and at the expiration of the said one month, it shall be assumed that the previous trouble was due to the old coupling, in which case the parties hereto agree to divide equally the expenses already incurred as mentioned above, and to be incurred in connection with the inspection, installing and testing same and reporting thereon.

Next Independent Expert.

12. If the said unit does not work satisfactorily during the said period of one month, and at the expiration thereof, it shall then be assumed that the old coupling was not then the cause of the trouble, in which case the parties agree to engage the services of an engineering expert to be mutually agreed upon between the parties to report upon the said unit, its installation and foundations, and to locate if possible the cause of trouble.

13. If upon the inspection of the said engineering expert his report states that the said unit or erection, or any part thereof, is defective or not properly constructed so as to have caused the unsatisfactory operation, the company shall at their own expense rectify the same and place the unit in running order in accordance with the terms of the original contract; then, and in any such case, all costs and expenses incurred by either party hereto in connection with the tests, examination and installation of said unit, and any work done thereon, (other than the costs of the said new coupling and the freight thereon) shall be borne by the company.

14. If the report of the said engineer shows that no defects exist in said unit, and that its failure to operate satisfactorily is due to no defect of construction or erection of the same, but that the failure to operate satisfactorily is due to defects in the building, or to some other cause over which the company has no control, then and in every such case the expense incurred in connection with the tests, installation and inspection of said new coupling, and work done on said unit, and the reports thereon, shall be borne by the corporation.

15. For the consideration as aforesaid the corporation agrees to pay the company the sum of $1657.48, being the amount of their expenses already incurred in connection with making said tests and examination. The payment of such sum, however, not to prejudice the rights of the corporation under the original contract of the 22nd day of March, A. D., 1909. Provided always that if it shall be hereafter ascertained that the cause of the trouble was due to the original coupling as set out in paragraph 11 hereof, then the company agree to refund the corporation the sum of $828.74, being one-half the amount so paid. Provided further that if it shall be hereafter ascertained that the cause of trouble was not due to the original coupling the company shall indemnify the corporation in respect of their costs and expenses as set out in paragraph 13 hereof, then, and in such case the company agree to repay the corporation the sum of $1657.48.

16. Save as is herein mentioned nothing herein contained shall be deemed to alter, waive, merge, or affect the rights or liabilities of either parties hereto as contained in said original contract of the 22nd day of March, 1909, and the said contract shall be deemed to be in full force and effect save as is hereby otherwise altered or modified.

In witness whereof the corporation have caused these presents to be executed and their corporate seal to be hereto fixed the day and year first above written, and the company have caused these presents to be executed by their manager for the province of British Columbia.

The above agreement was signed by Mayor Selous, for the city, and by E. M. Breed, for the company.

Telegram.

The telegram referred to in the text as forming a part of the contract, is as follows:

"Nelson, Feb. 28, 1911.

"The Allis-Chalmers-Bullock, Limited, Montreal, P. Q.

"Enter order immediately and ship at earliest possible moment consistent with perfect workmanship, one clamp coupling to connect lower and middle section of shaft of number two unit at Nelson city power plant; coupling to be a perfect casting of homogeneous metal and of same design as the one originally furnished on this unit except that centre section of coupling is to be bored with slightly larger diameter than ends instead of being left rough; the bore of coupling to be accurate and not to vary more than five ten-thousandths of an inch from the true bore; a new set of keys to be provided with and fitted to coupling but no bolts to be furnished. This coupling to be billed at the city of Nelson at cost which cost is not to exceed $500. Brown states that the two shaft ends to be held by this coupling are not of exactly the same diameter; have you necessary dimensions on drawings or do you require pin guages. If so wire Brown and guages will be expressed immediately."

The above wire was signed by R. A. Brown and initialled by E. M. Breed.

VARSITY VICTORS IN INTERCOLLEGIATE

Defeat Laval Fourteen to Five—Have Margin of Ten Goals on Round.

TORONTO, March 3—Varsity won the senior intercollegiate championship when they defeated Laval before the smallest senior crowd of the season, by a score of 14 to 5, the local collegians leading at half time by 8 to 2. This game gives Varsity a margin of 10 goals on the round, they having defeated Laval in the first game by one goal. Laval, while showing improvement over their previous performances here, were no match for the winners. The game developed into a farce with players on both sides roaming all over the ice.

KINGSTON EXPERIENCES FIRST DEFEAT OF SEASON

ORILLIA, March 3—Orillia defeated Kingston Frontenacs here in the first of the home and home games in the O. H. A. finals. It was Kingston's first defeat this season.

PHOENIX CHALLENGES FOR STANLEY CUP HONORS

OTTAWA, March 3—Still another challenge for the far famed Stanley cup has been received by Trustee William Foran. The latest club to seek the silverware is that of Phoenix, British Columbia. Mr. Foran received a lengthy telegram from the officers of the Phoenix club, in which they signified a desire to send a team east in quest of the cup. They have won the British Columbia hockey championship, also that of the Border league and of the state of Washington.

OXFORD-CANADIANS WIN

OXFORD, March 3—Once more the Oxford-Canadians successfully defended their title to the hockey championship of England, and retained possession of the handsome Challenge cup, by defeating Prince's (of London), on their own ice. Everything was in favor of the challengers. The smallness of the rink necessitated the playing of six men a side, and an altered formation of the line up. Instead of the regular line up each team played three forwards, two "backs" similar to those in field hockey, and a goal. The Prince's team was considerably strengthened by the presence of three Canadians, Haig, Baker and Grant, on the line up. On the other hand, the Oxford-Canadians were much weakened by the absence of Adamson from the defence. Lanctot moved out of goal to fill his place, and Mitchell, who did not go on the European tour, played goal in his stead.

The game started with a rush, and as nine of the 12 men on the ice were Canadians, the first half saw some pretty lively hockey. The pace was very fast, and the teams almost evenly matched. The score at half time was Oxford-Canadians 2, Prince's 1.

But in the second half condition began to tell. The Londoners could not stand the pace, and the Oxford-Canadians added to their score with ever-increasing rapidity. There was soon no doubt as to the ultimate issue of the game. As a matter of fact, the Oxford-Canadians won out by the safe margin of 11-2. They intend to challenge the combined Oxford and Cambridge Varsity teams as a result of this victory.

SPORTING SPOTLIGHTS

The good wishes of every hockey fan in British Columbia will travel east with the Phoenix hockey team if that aggregation's challenge for the Stanley cup is accepted.

Because of the big reversal of form that the Wanderers have shown in the past two weeks, it is rumored that last year's champions will not be taken to Gotham, the Renfrew seven being substituted instead. Renfrew now look good to finish ahead of the Wanderers and they intend making a strong bid for the jaunt to the American metropolis.

They have not yet stopped talking about that Beresford-Drexel boxing bout in high life. New York seems absolutely satisfied, although the Yankee gilded youth was knocked out, the satisfaction being based on the fact that they either saw or have been able to read about a boxing match in which the brother of a real- live lord took part. That comes near enough to the peerage to tickle the fancy of a typical and really patriotic United Stateser. The interest taken in the affair suggests the latent possibilities of the peerage. If the brother of a peer in a back parlor, impromptu, amateur match can create such interest, what could not a real peer with fistic ability accomplish in the prize ring, with his coronet hung up on one corner of the ring fence and his family tree on the program? Such an affair would set the American public in a frenzy of excitement, and there would be millions in it for the promoters.

A bonus for "exemplary conduct" is not always an easy prize. It is difficult for almost any one to live up to the standard implied by the formidable word, conduct, but when it comes to exemplary conduct, the list of possible competitors is wonderfully shortened. A man named Camnitz, but who in spite of his name was pitcher last season for the Pittsburg Pirates, went before the directors of the National league and claimed from Pittsburg a bonus of $1200 on the ground that it had been promised, provided his conduct was exemplary. His claim was not allowed, another proof of the difficulty of living up to the trying combination, "exemplary conduct."

PETERBORO VICTORIOUS

PETERBORO, Ont., March 3—Hockey results exhibition game, Peterboro 11, T. A. A. C. 6.

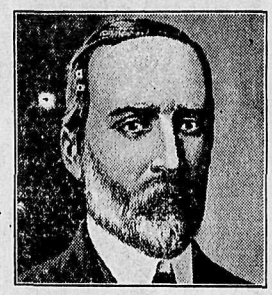
EVERY GENERAL STORE-KEEPER NEEDS "FRUIT-A-TIVES"

INKERMAN, ONT. Sept. 23rd, 1910.

"I am in the General Store business and have been a resident of Inkerman for thirty-seven years. Since I started this store four years ago, I have found your remedy "Fruit-a-tives" the most satisfactory one I have sold. Many of my customers have used "Fruit-a-tives" with the most beneficial results and I know of two cases that have been completely cured of Dyspepsia.

I recommend "Fruit-a-tives" on every possible occasion and would say that if every general store keeper, who stocks medicine, would keep "Fruit-a-tives" prominently displayed, he would increase his business many fold"

ALEX. LARUE.



"Fruit-a-tives" is the only remedy in the world made of fruit and the only remedy that will positively cure Constipation, Indigestion, Pain in the Back, Headaches, Rheumatism and all Kidney and Bladder Troubles.

50c. a box, 6 for $2.50, trial size, 25c. At dealers, or from Fruit-a-tives Limited Ottawa.

S. J. HUNT, Rossland

MEETING OF LOCOMOTIVE ENGINEERS

LOGANSPORT, Ind., March 3—Between five and six hundred members of the Brotherhood of Locomotive Engineers, representing practically all of the railroads of the middle states, are in Logansport attending a two-day conference of the order. The gathering is largely of a social nature, called for the purpose of increasing the interest of the members in the work of the organization. W. S. Stone, grand chief of the order, and other high officers are in attendance, together with the officers and many prominent members of the grand international auxiliary of the order. Elaborate entertainment has been provided for the visitors by the two local divisions of the order.

BIG EVANGELISTIC CONFERENCE.

ATLANTA, Ga., March 3—Many well known leaders of the Methodist Episcopal church have arrived in Atlanta to take part in the ten days' conference on evangelism, which has its formal opening tonight in Wesley Memorial church. Foremost on the list of speakers are Dr. G. Campbell Morgan of London, Dr. H. C. Mable of New York, Rev. Melvin Trotter of Grand Rapids, and Bishops Hoss, Kilgo and Candler of the M. E. church.

Minard's Liniment Cures Colds, &c.

$3.50 Recipe Free for Weak Men

Send Name and Address Today—You Can Have It Free and Be Strong and Vigorous

I have in my possession a prescription for nervous debility, lack of vigor, weakened manhood failing memory and lame back, brought on by excesses, unnatural drains, or the follies of youth, that has cured so many worn and nervous men right in their own homes—without any additional help or medicine—that I think every man who wishes to regain his manly power and virility, quickly and quietly, should have a copy. So I have determined to send a copy of the prescription free of charge, in a plain, ordinary sealed envelope to any man who will write me for it.

This prescription comes from a physician who has made a special study of men and I am convinced it is the surest-acting combination for the cure of deficient manhood and vigor failure ever put together.

I think I owe it to my fellow men to send them a copy in confidence so that any man anywhere who is weak and discouraged with repeated failures may stop drugging himself with harmful patent medicines, secure what I believe is the quickest-acting restorative, upbuilding, SPOT-TOUCHING remedy ever devised, and so cure himself at home quietly and quickly. Just drop me a line like this: Dr. A. E. Robinson, 4659 Luck Building, Detroit, Mich, and I will send you a copy of this splendid recipie in a plain ordinary envelope free of charge. A great many doctors would charge $3.00 to $5.00 for merely writing out a prescription like this—but I send it entirely free. 96

Fertilizer Talk

Swift's Animal Fertilizer adds humus to the soil, furnishes plant food to both young and old orchards, increases the yield of your berries and gives them better flavor; adds to the richness of your apple crop, also increases the yield of potatoes, and gives them a well matured, mealy body.

Remember Swift's Animal Fertilizer in addition to increasing your yields and profits, also strengthens and gives new life to your land. Extensive tests have proved this.

SATURDAY, MARCH 4

HAWTHORNTHWAITE RETIRING.

Rumors from Victoria speak of the retirement of Mr. Hawthornthwaite from the provincial house as practically assured. In politics nothing is ever sure until it is done, but it looks very much as though this were very nearly certain.

This is in some respects a matter for regret. It is not important that an opposition in a legislature should be strong numerically,—indeed it is not even desirable. But it is important that the opposition should be strong in ability. And the retirement of Mr. Hawthornthwaite means the retirement of the ablest man on the opposition side of the local house.

The prospect before him in local politics was hardly worthy of his ability. The Liberals would not fall in line behind the Socialists. They had rather remain in opposition than support a Socialist government. And the people of this province would never place a revolutionary Socialist government in power. Revolutionary Socialism is, in this country, a purely academic sort of thing. It is merely an "educational" propaganda. Men who want to accomplish something tangible must occasionally get very tired of devoting themselves to a visionary campaign of "education," directed at nothing practicable in this generation.

CANNOT IGNORE THE BOUNDARY LINE

Nothing could be more puerile than to say that Canada's future as a nation independent of the United States has nothing to do with the question whether or not the reciprocity agreement is a good one.

If there were no political boundary line between Canada and the United States there would be no reason for any tariff whatever between the two countries. No one would propose to place duties on goods going from one part of a country to another part of the same country.

Similarly there would be the same tariff in both countries against all the rest of the world. That is what would be the case if there were no political boundary between them.

Anyone who thinks that the question of Canada's national existence has nothing to do with the question of reciprocity, must, if he is consistent, also believe that there should be no tariff whatever between the two countries and that both should have the same tariff against the rest of the world. That is the logical conclusion from his premises.

But those premises are incorrect. The question of Canada's national existence has everything to do with the question of reciprocity.

To base our industrial and commercial fabric upon a market in the United States, is to base that fabric upon a market of whose permanence we have no certainty. And the reason why we have no certainty is exactly because it is on the other side of a national boundary line. A government in whose choice we have nothing to say, and over whose acts we have no control, can shut our goods out of that market at any time it sees fit.

The only way we can ensure the permanence of a market there is by political union. If we frame our trade policy so that the permanence of the United States market becomes essential to our prosperity, then we are putting ourselves in this position,—that our continued prosperity will depend upon something that we can make sure of only by political union. As Mr. Sifton phrased it, "we shall put our heads into a noose."

At present we are doing very well. Under the agreement we shall put ourselves in a position where, in ten or fifteen years, the government at Washington can do again, and on a larger scale, what it did when it abrogated the reciprocity treaty,—force us to choose between annexation and commercial disaster. Why should we put ourselves in that position?

The publisher of the best Farmers' paper in the Maritime Provinces in writing to us states:

"I would say that I do not know of a medicine that has stood the test of time like MINARD'S LINIMENT. It has been an unfailing remedy in our household ever since I can remember, and has outlived dozens of would-be competitors and imitators."

PARTNER IN CRESTON FIRM SELLS INTEREST

New Anglican Church Dedicated by Rural Dean—Chickens Lay Freely All Winter.

(Special to The Daily News.)

CRESTON, B. C., March 3—A big deal was completed here last Monday morning when Charles Faas, president of the Creston Mercantile company sold out his interest in the Creston Mercantile company to T. J. Crawford for a large sum. T. J. Crawford, the new partner in the Creston Mercantile company is no stranger in Creston, having been in business in the district for many years. He is a keen business man and at the same time a general favorite with the public and there is no doubt that by his identifying himself with the Mercantile company as a partner he will be a strong factor in the further building up of this already large business. Charles Faas, the retiring partner left on Monday last for Spokane after which he will proceed to the coast and after visiting there will make a trip east and will finally, most likely, locate near Cobalt and engage in mining as he is an experienced mining man. It was some 12 years ago that Charles Faas and W. H. Crawford came to Creston and started business, later on they formed the Creston Mercantile company, which business under their careful guidance has become a large concern.

Church Dedicated.

On Sunday last Christ church, Creston, was dedicated by the Rev. E. P. Flewelling, rector of Cranbrook (rural dean) assisted by the Rev. P. C. Hayman, vicar. The services during the day were well attended, appropriate and well known hymns were heartily sung. At the close of Evensong, Charles Moore rendered a solo.

A. Smith, paying teller at the Canadian Bank of Commerce, while coasting about a week ago, injured his leg, since then nasty symptoms have appeared.

The annual "At Home" of the local K. of P. lodge was held on Monday evening last in the Speers hall. Progressive whist and dancing were the order of the evening. The first ladies' prize in the whist tournament was won by Miss J. McGillivray, while M. Barton carried off the booby prize. The first gentleman's prize was won by Al Cockrell, while Edward Grady walked home with the booby prize. The music was good being provided by Mrs. Foster as pianist and F. G. Smyth, of Movie, who handled the fiddle with great effect. During the evening delicate eatables were in evidence in abundance. The guests numbered about 125.

Eggs All Winter.

Rev. P. C. Hayman, is probably enjoying more real good luck with his chickens than many of the ranchers. Mr. Hayman has in all only 23 birds and he has had eggs all winter. During February his hens produced 231 eggs. One double yoke egg is now on exhibition and is quite a curiosity with its thick shell. Mr. Hayman says that Creston is an ideal spot for raising chickens and he strongly recommends a liberal use of the oyster shell when feeding.

F. J. Smyth, editor and proprietor of the Moyie Leader came in on Monday last to take in the K. of P. "At Home."

Died—At Creston at 6 a. m. on March 1, Edner, the seven-months-old infant daughter of Mr. and Mrs. Frank Lewis.

There will be an important meeting of the Creston Farmers institute on Saturday evening, the 4th inst., at 8 o'clock in the old school house for the purpose of taking immediate steps to incorporate the Farmers' institute.

The regular monthly meeting of the board of trade was cancelled, owing to the fact that Secretary P. B. Fowler could not attend.

NO MORE DISTRESS FROM THE STOMACH

Dyspepsia, Gas, Indigestion and Heartburn Vanish and You Feel Fine in Five Minutes

Every family here ought to keep some Diapepsin in the house, as any one of you may have an attack of Indigestion or Stomach trouble at any time, day or night. This harmless preparation will digest anything you eat and overcome a distressed, out-of-order stomach five minutes afterwards.

If your meals don't tempt you, or what little you do eat seems to fill you, or lays like a lump of lead in your stomach, or if you have heartburn, that is a sign of Indigestion.

Ask your Pharmacist for a 50-cent case of Pape's Diapepsin, and take a little just as soon as you can. There will be no stomach gas or heartburn, fullness or heavy feeling in the stomach, Nausea, Debilitating Headaches, Dizziness or intestinal griping. This will all go, and, besides, there will be no sour food left over in the stomach to poison your breath with nauseous odors.

Pape's Diapepsin is a certain cure for out-of-order stomachs, because it prevents fermentation and takes hold of your food and digests it just the same as if your stomach wasn't there.

Relief in five minutes from all stomach misery at any drug store, waiting for you.

These large 50-cent cases contain more than sufficient to cure almost any chronic case of Dyspepsia, Indigestion or any other Stomach trouble.

POOR OLD BILL GETS TWENTY YEARS

Notorious Train Robber Will Not Revisit New Westminster Just Yet—Pleads Not Guilty

GAINESVILLE, Ga., March 3—Geo. Anderson, alias "Old Bill" Miner, was given a prison sentence of 20 years and George Hanford and Charles Hunter were sentenced to 15 years each here today for the robbery of the express car on the Southern railway express near White Sulphur Springs recently. After being sentenced the prisoners thanked the judge for not imposing heavier sentences. Anderson pleaded not guilty, but Hanford and Hunter pleaded guilty and turned state's evidence. They said Anderson was the leader of the gang, which was organized in Pennsylvania with the avowed purpose of committing a train robbery in this state. Anderson is 65 years old.

ONTARIO CONSERVATIVES ARE OPPOSED TO RECIPROCITY

TORONTO, March 3—"There will be a reciprocity motion introduced in the legislature," said Sir James Whitney this afternoon. There is no foundation for the statement in an evening paper that there had been difficulty in arriving at a conclusion. There are no two opinions in the government party on the subject and there has been no delay in coming to a conclusion.

Irrigated Orchard

17½ acres, including 15 acres of level cleared land, all in orchard, (3 years old) consisting of the choicest varieties of apples as a main crop, together with peaches, plums, apricots, prunes, quinces, etc. Two acres timber.

Five room house, barn and hen houses. Water is piped underground with hydrants on crowning points. Also in house and barn. Good pressure.

Situated half mile from railroad station, school, store, postoffice and hotel.

Price $4500; cash $1500, balance three annual payments at 6 per cent for quick sale.

ACTION TO SET ASIDE WILL

Dr. Stevenson of Unsound Mind—Foundation for Unmarried Women of No Religious Belief

(Special to The Daily News.)

VANCOUVER, B.C., March 3—What will be a noted will case opened here this morning when solicitors for the heirs of Dr. Stevenson opened suit against the city and the Royal Trust company to set aside the will of Dr. Stevenson who died two years ago, leaving the greater part of his estate consisting of valuable property in the heart of the city as the foundation fund for the relief of unmarried women who are of no religious persuasion. The contest is being made on the ground of unsound mind of Dr. Stevenson and expert medical testimony will be given on the question.

Y. M. C. A. EVENS UP WITH SCHOOL BASKETBALL BOYS

Win Fast Game by Three Points—Last Minutes of Play Were Thrilling

The fastest game of the basketball season was witnessed by a crowd of enthusiastic spectators at the Y.M.C.A. last night when the high school played the "Y" quartette.

The teams were well matched and fast, and every man played the game. There was no weak spot on either team. Waldo Ferguson played the star game. He was particularly fast and tricky, and used head and body as well as hands and feet. His brilliant play and the excellent combination work of the high school boys were the features of the game.

Although the high school got the first goal, the first half was all for the "Y", the score at half time being 20 to 8 in their favor. The high school started the second half with a rush and scored eight points in as many minutes. Every minute of this half was filled with a dozen exciting plays. The checking was hard and the shooting good. With only three minutes to play the score was 27-26 in favor of the "Y". In that three minutes Waldo Ferguson and Graham both scored for the "Y" and Dosey for the high school, the game ending 31-29 in favor of the "Y."

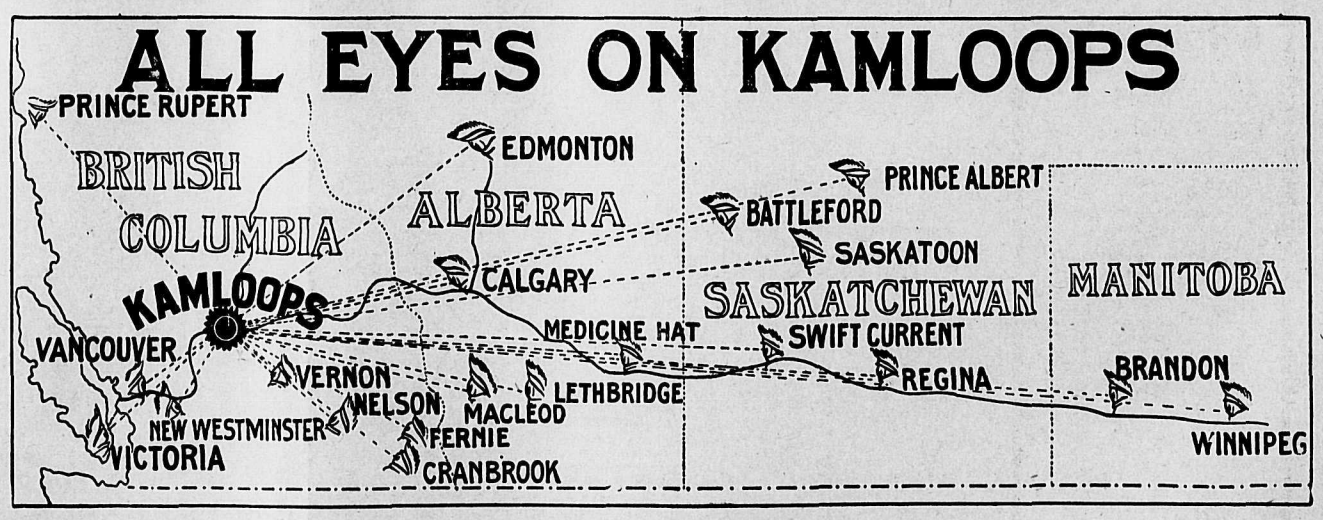
ALL EYES ON KAMLOOPS



B. C. United Agencies

Agents for West Kootenay

Baker Street Nelson, B. C.

F. E. SIMPSON

(formerly of Cranbrook)

Real Estate Broker, Kamloops, B.C.

General Agent.

WHY?

Every town is gauged by its present condition and future. Kamloops can stand the closest inspection in this respect. It is as solid as the Rock of Gibraltar, it is conceded that its climate is the best in Canada, it is one of the most beautiful towns in the west, the surrounding country is the best for fruit growing and grazing and it is firmly believed by those who have investigated the situation that the population, now 4600, will be doubled within the next twelve or fifteen months.

WHY?

Because a conservative estimate shows that the expenditures in and immediately around the city will be between $2,250,000 and $2,500,000.

HOW?

The Canadian Northern Railway is building into the city and it is stated on the best of authority that the C.P.R. is building an alternative freight route from Red Deer, Alberta to the Yellowhead Pass, and down the North Thompson to Kamloops. This explain the unusually large expenditures being made by the C.P.R. at Kamloops this year. The city will expend $250,000, the province will expend $300,000 to $350,000, the Dominion government will expend $25,000 to $50,000, the new hospital will cost $125,000, the combination traffic and railway bridge to be built by the Canadian Northern and the province will cost $250,000, the new Old Man's Home will cost $200,000, the C.P.R. bought $250,000 worth of property last year, and it is stated that they will spend $800,000 more in extending yards, enlarging shops, building new depot and other substantial improvements, and the rest will be expended in new business blocks already under construction or with plans ready to build, and many new residences. That is why all eyes are on Kamloops this year. The people know that money invested there will bring good returns. One of the best buys is lots in

BECKMAN'S ADDITION

located only 12 blocks from the highest priced property in town, a beautiful building site with a magnificent view of the entire valley. Lots will be on sale on March 6th, at $210.00 to $490.00; terms one-eighth down and the balance in monthly payments of 5 per cent of the amount due. Only one half of the addition will be sold, the even numbered lots, as the balance will be held until next year. This arrangement shows my faith in the property, as I am satisfied I will make more money by holding half of the lots. You can get in on the same basis now. If this was not a gilt-edged investment, those who know me in the Kootenays know I would not be handling it. Get in early for there is going to be a rush.

FINANCIERS FALL BEFORE HARDWAREMEN

Wood-Vallance Hockey Septette Wrest Victory from Bankers by Margin of One Goal

The bankers' hockey septette last night met the Wood-Vallance aggregation and lost by one goal, the score being 6-5 against them. The game was very fast and proved exciting in spots. For the bankers Swannell put up a great game and the Reilly brothers played fine hockey for the hardware men. There is a possibility of a return match in which the financiers will be given an opportunity to avenge their defeat. Eddie Bishop referred. The teams lined up as follows:

Bankers	Hardware
Goal	
Stevens	R. Reilly
Point	
.....	Sharp
Cover	
Appleyard	W. Reilly
Rover	
Lane	Etter
Centre	
Swannell	Patterson
Left wing	
Swan	Kettlewell
Right wing	
Whitebread	Boyce

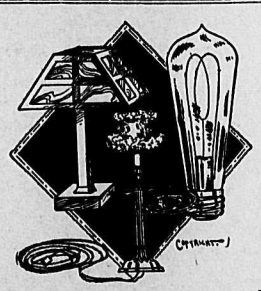
For the bankers Swan scored two goals; Swannell, two and Whitebread, one. The goals scored by the hardware aggregation were divided up: Sharp, one; W. Reilly, three, and Kettlewell, two.

HOCKEY AT SALMO

(Special to The Daily News.)
SALMO, B.C., March 3—There was more hockey at the rink last night. The girls put up a game and there was also a game between two men's teams. In the first game the Black and Whites defeated the Red and Greys to the tune of 2-0. There were some changes in the lineup of these teams this time and the score was reversed as a result. Honors are even now and it is not likely that another game will be arranged this season as the days are getting warm and the ice cannot last much longer. There was not a great deal of star play on either side but some of the girls demonstrated that they are learning the game with all its fine points.

The second game resulted in a win for the team representing the hockey players in town who are not interested in the skating rink, the score at the call of time being 8-3. The game was not very exciting and there were not many star plays made, but it was free from the usual slugging. The rink boys were in hard luck all the time and failed to score when it looked as if they should have. They were under somewhat of a disadvantage for most of the regular players were on the other side. In fact four of the opposing team were regulars while the rink boys had but three who had played in the regular team and some of them had not played this season. All had a good time, however, and furnished the Salmo fans some excitement.

After the games all the players and their friends gathered at the home of Mr. and Mrs. McCaslin where the ladies had prepared a sumptuous repast in the shape of ice cream, cake and coffee.



Just now we are selling our electric chandeliers at exceptionally cheap prices.
Come in and see them before they all go.

The Herpicide Girl

Advises Gentlemen

At Mrs. Blank's reception I met a gentleman who fulfilled my ideal of a man in all but one particular. He had a good head, fine physique, perfect manners, was a most interesting personality, and bore himself with the distinguished air of a gentleman. His linen was immaculate and his clothes faultless as to cut and material, but all the pleasant first impression was ruined when I discovered the collar and shoulders of his dresscoat covered with loose hair and flakes of dandruff.

To me this was an indication of personal carelessness. I wanted to tell him to get a bottle of Newbro's Herpicide. This remarkable remedy would in a short time remove every trace of dandruff from his head, stop his hair from falling and prevent him from becoming bald. I don't like baldheaded men; they look old whether they are or not.

Dandruff is caused by a germ and Newbro's Herpicide kills that germ. The itching, which is so frightful with dandruff stops almost instantly.

Herpicide is the Original Remedy that destroys dandruff. There is nothing in the world just like it, nothing that is "just as good."

One dollar size bottles are guaranteed by all druggists to give satisfaction.

Applications obtained at all good barber shops.

Send 10c in postage for a sample bottle and booklet to The Herpicide Co., Dept. R., Detroit, Mich. The Poole Drug Co., special agents.

BIG CROWD EXPECTED AT MONDAY'S MATCH

The hockey match on Monday night Between the Rovers and the Y.M.C.A. promises to give the fans a full measure of excitement. The Rovers have had a very good season, having played seven games, losing none. They have lately returned from a tour of the Crow where they beat Fernie intermediates and tied with the Cranbrook aggregation twice on their own ice. They are a clean and fast bunch and put up a scientific game.

The Y.M.C.A. team has fallen twice to their opponents but are fully confident of victory Monday night. Fast hockey is anticipated by the backers of both teams who are practising their respective aggregations in great style. This being probably the last exhibition of its kind between the Rovers and Y.M.C.A. this season many are expected to turn out for the game.

NVITES CHICAGO ASSOCIATION TO VISIT WINNIPEG

WINNIPEG, March 3—Mayor W. Sanford Evans wired today an official invitation to the Chicago association of commerce to visit Winnipeg on the trip that the association is taking to the Orient. The trip is to begin on March 17 and end about the middle of June. Mayor Evans' invitation draws attention to the fact that Chicago and Winnipeg hold similar positions in their respective countries, both being the trade capital of each country west and calls attention to the value of the Chicago party becoming closely acquainted with the Canadian west.

Minard's Liniment Cures Garget in Cows.

EXPOSURE WAS CAUSE OF DEATH

Indian Woman Died From Cold, Following Fall Down Cliff—No Evidence of Violence

That Mary Ann Christy, the Indian woman found dead on Thursday morning near Castlegar came to her end through exposure to the cold while practically incapable of making her way to shelter owing to sickness is the conclusion drawn from the investigations of John T. Black, chief provincial constable, and J. D. Wightman, provincial constable, and the medical examination of the body made by Dr. Gilbert Hartin, coroner.

From the information gathered by Chief Black and Constable Wightman, it appears that the woman left her home at the Junction of the Kootenay and Columbia rivers on Tuesday morning and not on Monday as stated by Alec. Christy, her brother. She went to Westley and disposed of the three skins to the store keeper there. She did not, however, receive any money in payment but returned to Castlegar, taking with her a package of cartridges for her brother's rifle. At Castlegar she told J. H. Farmer that she felt sick and asked him to write a letter to a woman friend of her at Colville, Kash., making a request that this woman would come and stay with her for a short time. She bought some coal oil and a few other small articles and then left for home, sometime in the afternoon in a perfectly sober condition. That was the last that was seen of the unfortunate woman and what happened later is only to be judged from the tracks in the snow.

From the store she proceeded in a homeward direction and seemed to get along well until she reached a big knoll located at some distance above the river, and dropping down on one side almost perpendicularly. Here the sun had melted the snow and the woman appeared to have selected the place in order to rest. It seemed that she had leaned against a large fir tree standing at the edge of the bluff, for close by Constable Wightman found the bottle of coal oil, a small parcel and a hair comb. The bottle was unopened.

Find no Other Tracks

Between the trail and this grassy knoll there was some eight feet of snow which showed only the tracks of the woman, thus precluding any possibility of her having been attacked at this point by a man, as suggested by her brother Alec. In fact neither the Indian, who was at Castlegar yesterday, nor the police were able to find these tracks of which Alec seemed so certain on Thursday.

Mary apparently sat down against this tree on account of feeling either tired or sick, probably the latter, and from marks left on the steep bank beneath, became dizzy and fell over backwards, landing some 50 feet below in the snow. At this point the police could see from the marks left by her head, hands and toes, where she had continued to roll, with only one attempt to get on her feet, for a distance of about 75 yards. This brought her to within a few feet of the water's edge and the snow showed how she had continued to roll along the bank for about 50 yards further.

Partly Undressed

When found she was lying on her back with a fur necklet beneath her body and her coat and skirt lying beside her. The two latter articles had been unbuttoned and showed no signs of rough handling. It is thought that, effected by the cold the woman became drowsy, believed that she was going to sleep and from force of habit commenced to undress. There were no other tracks, except those of Alec at this point. Dr. Hartin examined the body and found no scar, mark or blood which would lead to a theory that death was the result of foul play.

With these facts in view Dr. Hartin came to the conclusion that death could only have resulted from exposure following the attack of sickness and the fall down the cliff and ordered the body handed over to the dead woman's relatives for burial.

The police brought with them on their return to the city, Andrew Folton who was arrested at Castlegar and is being held on a charge of vagrancy. The arrest had no connection with the death of Mary Christy.

CANADIAN LEGISLATORS TO ATTEND CORONATION

OTTAWA, March 3—The Canadian parliamentary party which will go to the coronation will probably consist of 13 members of parliament and five senators. Of the 13 members of the commons eight will be Liberals and five Conservaitves.

Constipation is the root of many forms of sickness and of an endless amount of human misery.

Dr. Morse's Indian Root Pills,

thoroughly tested by over fifty years of use, have been proved a safe and certain cure for constipation and all kindred troubles. Try them.

WHEAT STEADY

WINNIPEG, March 3—In spite of weaker cables a generally firmer tone to the American markets succeeded in holding wheat at fairly steady prices on the local exchange but advanced it on United States markets. Liverpool closed ½d to ¼d lower, which was followed by markets opening ⅛c to ¼c lower on this continent, but with the advance of the morning strength returned and bulls were able to advance prices.

Reports from Washington state that it is rumored that a vote is to be taken on the reciprocity agreement tomorrow, and this is claimed to have somewhat strengthened the market. Should this agreement not go through it is expected that the price on American markets will immediately advance 5 or 6 cents and Winnipeg possibly a cent or two.

Trading was active at times but was mostly of a scalping nature, although some shorts took advantage of the low prices early in the morning to cover. Export bids were reported to be 3c out of line and the demand for cash wheat only fair. At the close Winnipeg May was unchanged to ¼c higher. July was unchanged to ¼c lower than the previous close, while Chicago advanced ¼c for May and ⅛c for July and September. Minneapolis May was also up ⅜c, July ⅝c to ½c, and September ¼c. Oats were dull and fractionally lower, while flax dropped 2c for May and 3c for July.

BEARS TAKE SECOND WIND

WINNIPEG, March 3.—Markets held up well during the early trading today, and there were few evidences of weakness. Prices opened at about the close of yesterday and gained large fractions during the first hour. The strength was ascribed to one or two reasons, either the bear crowd was pausing for second wind, or the effect of unfavorable developments had been sufficiently discounted.

STOCK MARKET IRREGULAR

NEW YORK, March 3.—Movements on the stock exchange today were affected largely by the tenor of reports from Washington. The market was irregular with an upward tendency in spite of the difficulties which beset bullish operators, but few material net gains were recorded at the close. Apprehensions of an extra session of congress, with the possibilities of tariff changes, overshadowed all other influences, and the conflicting reports heard on Wall street from Washington made the market nervous all day.

Buying movements in the morning were *interfered with by* operators when the improvement was well under way but in the afternoon drew somewhat steady and prices moved upward slowly. The course of the market as a whole seemed to indicate that those who are in control regarded the legislative situation at the capital as second in importance only to decisions in the anti-trust business. Officials of various western railroads denied reports that curtailment of operations had been decided upon because of the freight rates decision. A number of additional reports of earnings for January were received, among which that of Newhaven road was conspicuous because of its increase in net earnings of $883,000. Illinois Central, Chicago, Burlington & Quincy, and Missouri, Kansas & Texas reported less striking gains, and decreases were shown by Pittsburg & Cincinnati, Chicago & St. Louis, Atlantic line, Baltimore & Ohio, Chesapeake & Ohio, and Louisville & Nashville.

C. P. R. EARNINGS INCREASE

MONTREAL, March 3.—Hudson's Bay was stronger again in London, and closed at £115¾. C.P.R. was stronger at 213. Canadian Pulp was easier. The Montreal stock exchange today listed 3,750 common and 11,000 additional preferred shares of the Canada Car & Foundry company. Canadian Pacific earnings for the last week of February showed an increase of $329,000.

STOCKS IRREGULAR AND PRICES REACH LOW EBB

LONDON, March 3.—Money was scarce today, but discount rates were weaker on reports of another £1,000,000 in gold coming from Brazil. The stock market was irregular. Consols, West African mines, and Grand Trunk shares were about the only firm issues, while the rest of the market declined on profit taking. The closing, however, was above the lowest. American securities opened quiet and about unchanged. Prices advanced a fraction on light covering during the forenoon. The market sagged in the afternoon in Wall street offerings, but revived sharply in the late trading and closed steady.

WHEAT PRICES DEPEND ON RECIPROCITY OUTLOOK

CHICAGO, March 3.—The assertion that the reciprocity bill would fail, and that there were serious doubts about the extra session had much to do with the advance in the price of wheat. The market closed firm at a net gain of ⅛c to ½c. It was a day full of nervous changes in the wheat pit. Shorts showed unmistakable signs of being easily frightened, but there was not enough new investment buying or sufficient buying on the part of the speculative bulls to cause a genuine stampede. Moderate advances brought forward invariably a few large shorts willing to supply them. Diminishing primary receipts form an important part in favor of an upward turn. There was evidence, too, of an increasing demand for flour, as shown by diminished stocks at loading centres. Moreover, farm *reserves in the United States* were said to have fallen 12,000,000 bushels under last year.

On the other hand, world's shipments promised to be heavier, and the fact was apparently made clear in the day that congress would promptly be assembled if reciprocity was not acted upon by tomorrow in a manner entirely satisfactory to President Taft. Previous reports, however as to the outlook at Washington had been *so conflicting that a decidedly unsettled* feeling was manifested at the close.

MORE LIBERALS WILL OPPOSE RECIPROCITY

OTTAWA, March 3—Lloyd Harris, Liberal member for Brantford, made a definite statement today that he would speak against the reciprocity agreement. W. O. Seeley, Liberal of Wentworth, will move that the fruit schedule be struck out, but will, it is understood, support the main proposals.

ADDRESSES LIFE UNDERWRITERS.

JACKSON, Miss., March 3—Henry J. Powell of Louisville, president of the National Life Underwriters' association was the guest of honor and principal speaker here today at a special session of the Mississippi Life Underwriters' association.

Living at High Tension

To overdue in order to keep up with the parade is the tendency of the age.

Living at such a high tension, is it any wonder that our nerve sanitariums and rest cures are filled with nervous, overworked, broken-down men and women.

When one begins to get into this condition there is only one cure— a complete rest, together with a wholesome diet and a good blood-making tonic and strength creator. There is nothing in this line that can possibly excel the medicinal elements of the cod's liver combined with tonic iron. This simple combination is found in Vinol. It contains no oil or grease and agrees with everyone.

A well known college professor states that he considers Vinol a truly wonderful tonic and strength creator. He was himself overworked and rundown to a critical point. A friend asked him to try Vinol. He did so, and is now enjoying perfect health, and its curative powers cannot be too strongly extolled.

We recommend Vinol to build up and strengthen the run-down and over-worked, weak women, old people, delicate children and convalescents. In case anyone is not satisfied after taking one bottle, we always refund their money. This does not happen often however, because Vinol's percentage of cures is very high. W. Rutherford, Druggist, Nelson.

SENATE ACCORDS HONORS TO COMMANDER PEARY

WASHINGTON, March 3.—The plans of the friends of Capt. Robert E. Peary to secure a congressional recognition of his polar achievements progressed rapidly today when these by a vote of 154 to 34 passed an amended senate bill according him honors. The original senate bill authorized the president to appoint Capt. Peary a rear admiral in the navy to be carried as an additional number in the grade and to place him upon the retired list at the highest pay in the grade. The house amended this so as to authorize the president to place him on the retired list of the corps of civil engineers with the rank of rear admiral to date from April 6, 1909, and to tender the thanks of congress "for his Arctic explorations resulting in reaching the North pole."

MATHIEU'S SYRUP

of Tar and Cod Liver Oil

This famous remedy is made of two curative agents of proved efficacy in diseases of the throat and lungs.

Beech Tar directly relieves a cough or cold, and at once begins to heal the delicate passages; Cod Liver Oil strengthens, and builds up the system. These two ingredients are scientifically combined in the pleasant tasting Mathieu's Syrup.

Mathieu's Syrup does not merely suppress the symptons of disease, it removes their cause. It not only relieves—it cures.

There is nothing better for children. They like it, and should take it on the first appearance of a cold. Keep a bottle always at hand. When feverish take Mathieu's Nervine Powders as well as the Syrup—25 cts a package, containing 18 powders.

Mathieu's Syrup large bottle 35c.

Mathieu's Nervine Powders 18 in box 25c.

PLAN Y. M. C. A. CAMPAIGN

SIOUX FALLS, S. D., March 3—Awakened to the fact that South Dakota is the only state of the union that does not have a single building owned by and devoted to the use of a Young Men's Christian association, a number of association leaders and other persons interested in the work of the organization met for a three days' conference in this city today to discuss the situation and to plan a campaign that will result in placing South Dakota in line with the neighboring states in the matter of Y. M. C. A. activities and membership.

YALE DINNER AT WHITE HOUSE.

WASHINGTON, March 3—President Taft is to have a jolly party at the White House tomorrow evening, after congress adjourns. The president will have as his guests practically all of the surviving Yale men who graduated with him in the class of 1878. The party is expected to number about 100.

Page for Wage Workers

By R. P. Pettipiece.

News, Views and Activities of Those Who do the World's Work—Local, Provincial, Dominion and International Events Indicative of Industrial and Political Growth and Development.

An "Open Shop" Ode.

"But we're going to beat the union, and
we're going to make men free;
And we'll drive the agitator from the
land of liberty;
Then the wage will have no bottom,
and the hours will be a mob,
And if you do not like it, you'll be free
to quit your job."

"Love is the only bow on life's dark cloud. It is the morning and the evening star. It shines upon the babe, and sheds its radiance on the quiet tomb. It is the mother of art, inspirer of poet, patriot and philosopher. It is the air and light of every heart—builder of our home, kindler of every fire on every hearth. It was the first to dream of immortality. It fills the world with melody—for music is the voice of love. Love is the magician, the enchanter, that changes worthless things to joy, and makes right royal kings and queens of common clay. It is the perfume of that wondrous flower, the heart, and without that sacred passion, that divine swoon, we are less than beasts; but with it earth is heaven and we are gods."—Robert G. Ingersoll.

The various unions connected with the building trades in Vancouver have notified employees of an advance in wages all along the line, the increase to come into effect on May 1, except as to a few trades, where April 1 has been noted as the date for the advance. The bricklayers and plasterers have already served formal notice on their employers that after April 1 a wage of $6 per day will be demanded for the eight-hour day, instead of the present wage of $5.50. The carpenters have also presented their demand for an increase from May 1, the new daily wage being $4.50 per day, or 56 1-4 cents per hour instead of the 50 cent per hour rate now prevailing. In the field of electrical workers, builders' laborers, etc., it is stated the demands cover an increase in the daily wage of 50 cents.

The International Typographical union has, since the establishment of the burial benefit system, paid 8810 burial claims, amounting in the aggregate to $562,975.

At the stonecutters' meeting recently at Toronto, Canada, a sub-committee was appointed to draft their demand for an increase of wages and a new agreement with their employers.

The Socialist members in the British Columbia legislature, who are now the "second party" in that body, introduced an amendment to the speech from the throne when the legislature was assembled a few weeks ago to strike out all of the address after the fourth line (or customary introductory) and incorporate the statement that all legislation proposed by the government is of little real value to the working class, that the further development of capitalist production merely results in further misery and poverty to the toilers, and that, therefore, be it resolved that the inauguration of the collective ownership of the means of production and the abolition of the wage system will alone remedy existing evils of society. Of course, the Conservative politicians will vote down the amendment, but the Socialists will make a fight for their principles and bring them to the attention of the people.—Cleveland Citizen.

The agreement entered into in 1905 between Japan and Canada for the restriction and regulation of the number of Japanese entering Canada, is likely to be abandoned before long. The agreement provided that either country could terminate the arrangement by giving six months' notice. Dispatches from London indicate that Japan has served notice on Canada that it desires to substitute a "scientific tariff" (whatever that means) for the present treaty. Wage-workers on the Pacific coast will watch developments with interest.

Keir Hardie, speaking at Merthyr a few days ago, referred to the crusade against consumption. The proposal to establish sanatoria, he declared, was beginning at the wrong end. Consumption was due to bad conditions of life, bad food, overwork, etc., and it was the mission of the organized labor movement to attack these causes at the root.

During 1910 the Brotherhood of Painters, Paperhangers and Decorators of America increased its membership by 11,000, making the total 75,000. Organizer Scott, who has charge of the Canadian territory in the west, is expected to reach British Columbia points some time next month.

Says Phil Obermeyer in the Hamilton Herald: "The Northwest Bricklayers' unions have come out openly in favor of the support of the parliamentary candidates of the Socialist party. This is a rather startling innovation on the part of bricklayers' organizations, which are supposed to be most conservative institutions where politics are concerned. The resolution unanimously adopted by the recent Calgary conference doesn't leave any doubt as to where the bricklayers in the northwest provinces stand in political affairs in their section of the Dominion."

Over 30 of the largest unions in British Columbia are now affiliated with the B. C. Provincial Federation of Labor. District No. 6 of the Western Federation of Miners will be represented at the first annual convention on March 13, at Victoria, by First Vice-president J. A. McKinnon. The question of affiliation of the miners is being submitted to referendum vote. It is expected that the British Columbia membership of District No. 18 of the United Mine Workers will affiliate in the near fautre; thus, for the first time, the organized labor forces of the province will have been federated into one central organization. Credentials filed indicate that over 50 delegates will be in attendance at the convention. The success of the federation is no longer in doubt.

The legislative committee of organized labor on the coast have been particularly active during the past few months, and plans are under way for further developments in this respect. Many unionists who tabooed politics a few years ago are today beginning to appreciate results accomplished by this line of action on the part of the workers.

The executive of the Trades and Labor Congress of Canada is making an effort to secure the re-affiliation of Nelson Trades and Labor council.

A traitor is oftimes one who unsuccessfully resists tyranny. When successful he becomes a patriot.

Upon representations made to the Vancouver school board by delegates from the Building Trades council and the Trades and Labor council a clause will hereafter be inserted in building contracts calling for the payment of the union rate of wages on all classes of work. It involves an expenditure for 1911 of over $800,000. An endeavor to have the wages of school teachers raised $10 a month all round was turned down on the grounds that the estimates for the year had already been sent in to the city council.

While a number of new appointments have recently been made in the federal printing bureau at Ottawa, the statement given out by Phil Obermeyer in the Hamilton Herald that P. M. Draper had received the position of superintendent is without foundation in fact. And thus another of the vagaries of old-party politicians in the east has been exploded. Secretary Treasurer Draper will be a candidate for re-election at the Calgary convention of the Trades and Labor Congress of Canada.

Edmonton Trades and Labor council has succeeded in securing, at the last session of the Alberta legislature, an amendment to the city charter providing for a householders' franchise in municipal matters. The council has been working to this end for the past three years, but had met with such strong opposition from city councils of property owners, elected by property owners, that progress was slow. However, by persistent work the wage-workers won out. Hon. C. W. Cross, ex-attorney general, introduced the amendment and was ably supported by "Uncle Charlie" O'Brien, Socialist member for Rocky Mountain riding. The central labor body has now appointed a civic registration committee and hopes at the next election in December to place one or more labor men on the council.

Advices to hand say that ex-Commissioner Howell of Salvation Army immigration note, is now engaged in inaugurating a matrimonial market. Five hundred Old Country women are to be shipped to Western Canada as prospectives wives for farmer bachelors. Just how the selections are to be made after arrival is not stated. All of which goes to prove that wives are cheaper than hired help.

District No. 18 of the United Mine Workers of America, in annual convention at Lethbridge, Alta., last week, elected a special committee to see that governmental authorities provided some means of sanitation in the various mining camps in which its membership is employed. Other resolutions of interest to wage workers were passed, and a great deal of routine business was disposed of.

Says the Miners' Magazine of Robert Bandlow's death: "He was loyal to principles and while he died poor he left behind him a name that is rich with deeds that will keep alive his memory."

Tea Time Talks

1300 Varieties of Tea

Of the 1300 kinds of tea, some must be better than others. Among these better teas **"Salada"** Ceylon Tea towers high as the sunny mountain slopes on which it is grown.

The plantations of **"Salada"** have the best advantages of soil and climate. The tea plants are the choicest, and only the tender leaves and buds are used. **"Salada"** comes to you in sealed air-tight packages preserving its delicacy and excluding all outside taint of dust and dirt.

Yearly Sales Over 20,000,000 Packages

Ask your grocer for "Salada" Tea or send for a free trial package which makes 25 cups of delicious tea. We will mail it to you without charge. Say whether you use Black, Mixed or Green Tea and the price you pay per pound.

SECRETS OF ABDUL HAMID'S REIGN

Murder of His Own Six-year-old Child One of His Blackest Crimes.

While Abdul Hamid ruled Turkey, he and the Czar of Russia were probably the subjects of more newspaper and magazine writing than any other European or Asiatic rulers. Yet it is only now, after the incidents of his reign are becoming a blurred memory, that the really authentic biographical sketches are coming to light. Had it not been for the revolution, the material for these articles never would have been surrendered. Only an enemy of the old regime would have given C. Chryssaphides and Rene Lara access to the documents that they make use of in the Fortnightly Review, and these are only a dozen or so selected from a mass that occupies 300 chests in the Turkish archives. The others contain evidence of such corruption and intrigue on the part of Turkish officials that their publication might almost bring on a civil war, and the Young Turks prefer to let the sleeping dogs lie.

A Colossal Fortune.

The documents are, for the most part, the record of twenty-five years' activity on the part of Abdul Hamid's spies; and they were discovered when the Young Turks overran the Yildiz Kiosh. Afterwards they were turned over to a commission for examination and classification. This work has now been completed, and the great mass of the documents have been filed away to crumble into dust. The contents of some of the others have been made public, and from them we learn, for instance, that the total value of the treasure found at the palace was about $20,000,000. Besides this, much greater sums had been placed by Abdul in London, Berlin and Paris banks. There, we suppose, one of the greatest of the world's fortunes awaits the order of the ex-Sultan. Abdul had no fixed civil list, and he used to help himself liberally from the state treasury, which he regarded as his private property. He was an exemplary man of business, and his administration of the dominions of the crown hardly could have been improved on. It is curious to note that despite his hatred of Armenians, it was always an Armenian to whom he entrusted the management of his business affairs.

The Palace Labyrinth.

Yildiz Kiosk was a creation of Abdul, for when he came to the throne it was merely a single cottage surrounded by a park. The two existing palaces of Dalma Bogtche and Tcheraghan were on the coast, and he feared that they might be rapidly surrounded in case of revolution. He determined to make a palace of Yildiz, and to this end "bought an immense extent of ground around the old park, surrounded it with walls, and built within it several palaces, kiosks, houses, offices, galleries, towers, menageries, aviaries, a theatre and workshops; he had lakes hollowed out, on which he went in an electric boat, and a secret subterranean passage, which led to the palace of Tcheraghan, on the Bosphorus. All those buildings, so dissimilar in form, architecture and purpose, formed a huge labyrinth of lobbies, mysterious passages, secret doors in the wall, traps, oubliettes, rooms without apparent entrance, the existence of which no one, beyond the Sultan and some persons on whose fidelity he could rely, suspected. And for thirty-three years there lived in this "unspeakable" Yildiz, fed, lodged and fattened at the expense of the Sultan 5000 persons; palace dignitaries, secretaries, chamberlains, servants, women of the harem, eunuchs, cooks, gardeners, astrologers, dervishes, hodjas, grooms, coachmen, wrestlers, prestidigitateurs, jesters, slaves, artisans, sbirri of every kind, good-for-nothings of all sorts, familiars of "the cord and the sack."

The Murder of His Child.

It has been known for a long time that the ex-Sultan used to carry a loaded revolver with him when he went from one room in the palace to another. This habit, we are now informed, was responsible for the blackest crime in his career. One day, as he sat with the revolver on a table at his side, one of his little daughters, a child of six, came in and succeeded in amusing him with her laughter and chatter. She spied the revolver, and picking it up asked her father what it was for. With a bound he sprang on the child exclaiming, "You want to kill me! You are the instrument of my enemies!" He knocked her down, and inflicted such a beating on her that when the attendants carried her out she was dead. His terror of assassination never left him in his waking hours. It was this dread that made him insult the emperor of Germany when the latter proposed a visit. He would not receive the kaiser until he reached the very gate of the palace, but William, with his own end to gain, persisted and gained the interview.

Why Abdul Was Caught.

Abdul's reason for not flying before the revolutionists is now explained. He had plenty of warning and could have got out of the country, but he hoped to be able to make terms with his enemies. He had decided to grant every demand, thus hoping to be permitted to continue as Sultan. However much authority was shorn from him, he felt confident that his unfailing genius for intrigue would reassert itself, and that in a year or two he would become a despot once more.

JOSEPH WHARTON 85 YEARS OLD.

PHILADELPHIA, Pa., March 3—Joseph Wharton, founder of the Wharton school of finance and commerce of the University of Pennsylvania, quietly celebrated his eighty-fifth birthday anniversary today at his magnificent home at Oak Lane. Mr. Wharton was born in Philadelphia, March 3, 1826, and has always been a resident of this city. Of late years he has made liberal benefactions to various educational institutions from the great fortune that he accumulated as a manufacturer of white lead and as a leader in the iron, steel and kindred industries in Pennsylvania.

COTTON RATE UP FOR HEARING.

MONTGOMERY, Ala., March 3—Judge Clements, chairman of the Interstate Commerce commission, came to Montgomery today to hear testimony in the case of the commercial and industrial association of Union Springs, Ala., against the Central of Georgia and other railroads of this section. The case is regarded as one of great importance, as the decision will affect the interests of every cotton planter and buyer and every railroad in the cotton-growing states. The complaint of the commercial and industrial association alleges unjust discrimination by the railroads against cotton buyers, cotton merchants and compressors.

A TESTIMONIAL IN VERSE.

She laughed at my Suit
When I asked her to wed;
She laughed at my Suit—
'Go to Curzon!' she said
As she knew that I knew
In smart Suitings they led
She knew that I knew
What she meant when she said

'GO TO CURZON' ! ! ! ! !

We have received testimonals in all languages and from all countries. This in itself is not surprising, since our business and our fame are world-wide. Recently we received the above poetic effusion. There is much truth in it.

Every man interested in himself and inspired with the desire to success, in no matter what walk in life, should pay regard to his personal appearance.

Our speciality is Tailoring to Measure, and our unique methods and the gigantic extent of our business place us in a position to offer the best value in the world. Moreover, we guarantee each and every client's unbounded satisfaction or refund money in full. Indeed, our business has been built up on this guarantee.

If our Suits at $8.60 are not equal in cut, quality and style to thousands advertised and sold at $20 you can keep the Suit and we will refund you your money.

There is a reason why we give better value than other firms. You will find all particulars in the booklet which we will send you along with patterns, free and post paid.

Send Post Card for FREE PATTERNS.

Together with patterns, we send you fashion-plates and complete instructions for accurate self-measurement, and tape measure. We fit you, no matter where you live, or refund the full amount of your purchase-money.

One Silver and Two Gold Medal Awards.

Read our unique list of unsolicited testimonials. $25,000 forfeited if not absolutely genuine.

$20 SUIT to Measure

Carriage and Duty Paid, for $8.60.

A REPLY TO A TESTIMONIAL IN VERSE.

She beamed on my Suit
When I next her espied;
She beamed on my Suit—
'Been to Curzon?' she cried,
As I knew that she knew
That her counsel I'd tried,
She knew that I knew
That she'd now be my bride

THANKS TO CURZON ! ! ! ! !

(With apologies to the writer of the testimonial in verse on this page.)

Clothes do not make the man, of course, but the happy, contented, self-confident air about a well-dressed man inspires the confidence of others. To be well dressed is not to be over-dressed but to be attired in suitable raiment.

This is where we specialise. We have studied the needs of the present day. We are practical tailormen, who have given years of study to the question of men's clothes. That is why our business is so large to-day. We make friends and customers; this is not very difficult, but we do even more—we keep them.

Our Suits to Measure have gained for us a world-wide reputation. This is not altogether surprising, because the value is marvellous. If you have not seen our patterns we invite you to send us a post-card at once to our Agent's address below, when by return you will receive a collection of materials which, for beauty and variety, are unequalled by any selection in any tailor's shop throughout the world. These patterns are sent carriage paid, free of cost. Together with patterns you will receive latest fashion-plates and an interesting booklet explaining our methods of business. Included in this booklet is a self-measurement form cleverly arranged whereby you may take your own measurements in your own home with a certitude of accuracy.

OUR GUARANTEE.—If garments made to your own measures fail to give absolute and unqualified satisfaction, we undertake hereby to refund money in full. That is our guarantee.

Fortune Telling

Does not take into consideration the one essential to woman's happiness—womanly health.

The woman who neglects her health is neglecting the very foundation of all good fortune. For without health love loses its lustre and gold is but dross.

Womanly health when lost or impaired may generally be regained by the use of Dr. Pierce's Favorite Prescription.

This Prescription has, for over 40 years, been curing delicate, weak, pain-wracked women, by the hundreds of thousands and this too in the privacy of their homes without their having to submit to indelicate questionings and offensively repugnant examinations.

Sick women are invited to consult Dr. Pierce by letter *free*. All correspondence held as sacredly confidential. Address World's Dispensary Medical Association, R. V. Pierce, M. D., President, Buffalo, N. Y.

Dr. Pierce's Great Family Doctor Book, The People's Common Sense Medical Adviser, newly revised up-to-date edition—1000 pages, answers *in Plain English* hosts of delicate questions which every woman, single or married, ought to know about. Sent *free*, in plain wrapper to any address on receipt of 31 one-cent stamps to cover mailing only, or in cloth binding for 50 stamps.

"Sunkist" Oranges
The Finest Fruit Grown

This Genuine Rogers Orange Spoon FREE

Save 12 "Sunkist" Orange (or Lemon) wrappers and send them to us, with 12c to pay charges, etc., and we will present you with a genuine Rogers Orange Spoon, of beautiful design and highest quality. Begin saving wrappers today. Send 12 "Sunkist" wrappers and 12c for each additional spoon.

In remitting, please send cash when the amount is less than 25c; on amounts above 25c we prefer postal note, money order, express order or bank draft.

We will be glad to send you complete list of valuable premiums. We honor both "Sunkist" and "Red Ball" wrappers for premiums.

The orange is the most luscious and healthful fruit. California excels in quality of oranges. The best of the California oranges are now packed in individual wrappers labeled "Sunkist."

Five thousand orange farmers in California do their own packing, shipping and selling. They grade and select their crop into "firsts," "seconds," etc. The firsts are fancy, tree-ripened, hand-picked, seedless, fibreless, thin-skinned oranges—every individual orange a perfect specimen of the finest variety of oranges. They are not only more healthful and more palatable than other oranges, but they are actually cheaper, for they are nearly all meat and nourishment.

Your dealer sells "Sunkist" Oranges. Ask for them. You will know them by the tissue paper wrapper in which each "Sunkist" Orange is packed. On the wrapper note the label, "Sunkist." Keep all the wrappers. They are worth money to you.

Best California Lemons Come in "Sunkist" Wrappers

You can judge lemons by the "clothes" they wear. If they wear "Sunkist" wrappers they are juicy and good, for they are not thick-skinned or pithy. They are just as fine as "Sunkist" Oranges, and their wrappers are equally valuable.

CALIFORNIA FRUIT GROWERS' EXCHANGE
(51) 105 KING ST. EAST, TORONTO, ONT.

The perfect sound-reproduction

which established the supremacy of the Edison Phonograph lies in the point of contact between the Phonograph and the Record—the sapphire reproducing point.

This is the point that conveys the sound from the Record to the audience. And right here is the secret, the perfect lifelike tone of the Edison instead of a metallic, nasal tone.

Edison Phonographs

$16.50 to $240

Edison Standard Records, 40c. Edison Amberol Records (play twice as long), 65c. Edison Grand Opera Records, 85c. to $2.50. There are Edison dealers everywhere. Go to the nearest and hear the Edison Phonograph play both Edison Standard and Edison Amberol Records. Get complete catalogs from your dealer or from us.

FREAK PATENTS HAVE BEEN ISSUED

Device for Extricating Live Person From the Grave—Exerciser for Fat Cats

Almost 1,000,000 patents have been issued by the United States government since the establishment of the Patent Office, and approximately 700 new patents are being issued every week. That is one reason why some freak patents have been isued. It is inevitable that a device that is nothing more or less than a curiosity will slip by the examiners now and then when so many thousands of applications are being considered.

Another reason is that the law guarantees a patent to the inventor of any device that is new and useful. A freak device is always new, and its creator can usualy make a vigorous representation of its utility.

To Make Chickens Behave.

For example, any one will concede that a device that will keep a chicken from scratching up a garden or a flower bed is useful, so what was the Patent Office to do but issue papers when a man came along with such a device that was undeniably new. The device is a sort of hobble so geared that every time the chicken stops to scratch the scratch becomes a step and the chicken finds itself walking right on out of the garden.

Whether the device is practical and will be generally used is altogether a diferent question and one for the inventor to settle with the prospective buyer. At any rate the device suggests an answer to the old question. Why did the chicken cross the road? Answer: Because it tried to stop and scratch.

Chickens, or more particularly the gentle hen, have inspired many inventive geniuses. In addition to the chicken hobble patents have been issued on devices for registering the time when a hen laid an egg, identifying the hen that laid a particular egg, and preventing the robbing of hens' nests. Some of these devices take the form of trap nests; others are attachments to be adjusted to the hen.

Cast Iron Fighting Cat.

Cats have come in for a fair share of the attention of the inventive mind. One genius, whose nights had evidently been made hideous by back fence concerts, devised a cast iron cat with steel claws to fight live cats to the death. It contained a clockwork arrangement, and all that was necessary was to wind up the cast iron cat and place it on the fence where it would meet and vanquish all comers. Another feline novelty is a phosphorescent cat, designed to frighten away rats and mice.

Another device is caled an exerciser for cats, and the application for a patent says that it is intended primarily for "well fed, fat and lazy cats." It consists of a large ball to be filled with catnip—in brief, it is a medicine ball for tabbies. The cat gets a whiff of the catnip and pursues the ball and bats it about until it has had a thorough working out. Three weeks' work with the ball is guaranteed to bring any old cat back into form.

The problem of getting people up in the morning is as old as the hills, and one of the early patents issued covers a scheme for ringing a kind of alarm on old fashioned wall clocks. By this arrangement when the hands on the clock had journeyed around to the desired hour for the alarm a spring was released that dropped a weight on a tin pan that had been placed under the clock. A more modern device consists of a mechanism to be rigged up on the head of the bed so that when the alarm was sounded a netlike afair is dropped on the face of the sleeper to tickle him until he awakes.

Alarm and Waking Bed.

But, progressing beyond the alarm clock feature, Adolph J. Nordmann, of San Francisco, in 1885 patented a combination "alarm and waking bed." It was so arranged that if the sleeper did not hop out of bed immeditely on the sounding of the alarm the upper part of the bed dropped suddenly and he found himself standing on his head. The only way of beating that was to sleep with your head at the foot of the bed.

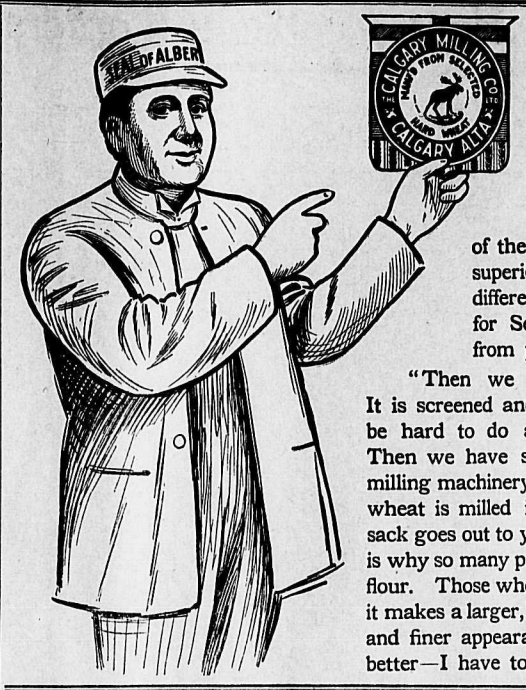
In 1892 G. A. Seaman of Brooklyn came along with a time alarm bed that you couldn't beat. When the alarm went off the bed performed some sort of convulsion that effectually ejected the occupant. This undoubtedly did the business, but apparently it was a little rough, for in 1894 Mr. Seaman came back with an application for a patent on an improvement on this bed. The improved bed did not throw a fit and eject the sleeper when the alarm sounded, but merely rolled him gently out on the floor.

As a kind of companion piece to these devices Linus H. Shaw, of Brockton, Mass., patented an anti-snoring device in 1981. It consisted of a simple harness designed to prevent one's sleeping with the mouth open.

Mention should be made of a pair of suspenders patented by George C. Hale of Kansas City, in 1885. The novel feature about them is that they were to be of greatest utility when they were not being worn. They were constructed with a long cord woven into them that could be readily unravelled, "thus," says the application, "enabling a man trapped on the upper floor of a burning building to lower the cord and pull up a rope upon which he might descend to safety."

To Prevent Being Buried Alive

The horror of being buried alive has evidently spurred inventive geniuses to unusual efforts, for patents have been issued in a number of devices for extricating one from that unfortunate predicament. Six years ago Edwin S. Crosby and Eli Ray Henry, of Lake Charles, La., patented an intricate apparatus for signaling from graves. By this mechanism the slightest manifestation of returning consciousness on the part of a supposed corpse that has been interred flashes a signal on top of the grave and sounds an S.O.S. alarm in the house of the sexton, which is continued until the grave has been opened. The mechanism also supplies oxygen to the interred pending the arrival of the relief expedition.



The Miller says:—

"SEAL OF ALBERTA is a better flour, because I follow it through every stage. First, I am mighty particular in the selection of the wheat, and that counts a lot. In fact, it is one of the very biggest factors in making a superior quality of flour. There is a big difference in districts, you know, and for Seal of Alberta we select wheat from particular districts.

"Then we are careful about cleaning it. It is screened and scoured and washed. It would be hard to do any more than that, wouldn't it? Then we have searched the world for the finest milling machinery, and we have it here. When the wheat is milled it is tested and aged, and not a sack goes out to you until it is just right. And that is why so many people say Seal of Alberta is a better flour. Those who use it know it is better, because it makes a larger, lighter, whiter loaf of better texture and finer appearance. Those who use it know it is better—I have told you some of the reasons why."

ANTI-QUEUE CRAZE IS ON IN CHINA

Barbers Proclaim New Life in Celestial Empire—Shearing Festivals—Cut Off Queues by Thousands

A revolution in social custom of far-reaching significance is now sweeping over China. This is the cutting off of the queues.

Starting with the radicals of the New China party, the docking of the queue was urged by them as the visible and necessary sign of an acceptance of new ideas. Patriotism demanded that the Chinaman should rid himself of all the customs of the dark ages, said the reformers, and there was no better evidence of emancipation from conservatism than the absence of the queue.

It was not more than three years ago that the New China party started the queueless crusade, and so rapidly has the movement spread that before the end of last year a rescript from the dragon throne itself advised the wholesale cutting of the hair, and the new, half-organized Tzucheng Yuan, or National Parliament, passed a measure commanding the removal of all queues.

This change is all the more significant in that it came from Chinese inspiration, and not through foreign suggestion. Thirty and more years ago the foreign missionaries in China attempted to make headway against the practice of foot binding,and their suggested innovation was at first bitterly resented. It was not until within the last ten or fifteen years that anti-foot binding societies composed of Chinese made any great headway against the evil, and now the reform is by no means general.

Spreads Rapidly.

But so rapidly has the queue-docking idea spread throughout all the provinces that a foreign paper published in Hong Kong estimates that in December alone over 40,000 Chinese in that city and its vicinity cut off their queues. A despatch from Pekin, published in the North China Daily News in December, says that all the officers in the imperial navy and in the army in the northern provinces have fallen in line with the reform, that the members of the Wai-wu-pu, or Board of Foreign Afairs, now appear queueless, and that instructions will soon go out to all representatives in the diplomatic and Consular services ordering them to dispense with the appendage of darkness.

In December there were hair-cutting festivals in Canton, Hong Kong, Amoy, and even in Manila, where on Christmas Day over 1,000 Chinese underwent shearing. In Singapore and other cities of the Straits Settlements, down in Mafavia, throughout the cities of Japan and Corea, the snip-snip of the progressive shears has been sounding the knell of the old regime.

In Shanghai the craze has been deep-rooted. At one time 4,000 Chinese gathered inn a market place in the heart of the native city and patiently stood in line under a blazing sun until each could take his turn at the shaving stools of the corps of barbers. Each man picked up his once precious queue as it fell from the shears and carried it home with him in the sleeves of his blouse.

The North China Post describes a remarkable scene which occurred in Hong Kong recently. The occasion was the shearing of six of the oldest and most influential Chinese of the city.

A congregation of Chinese packed the largest hall available in the city and the six old men took their seats on the rostrum. Then, while all who could found seats on the floor and tea was passed round, five of the leaders in the New China party addressed impassioned oratory to the multitude.

The old men sat nursing their queues in their hands meanwhile, not seeming at all ardent in their desire to fall so suddenly into this new regime. Then when the speeches were finished the six old men stood up while a camera snapped them in two positions, back and front. They had said that at least they wanted to preserve a record of how they had looked.

That done six barbers advanced to the stage. Every whisper was silenced and the whole assemblage sat in breathless awe while the barbers snipped the grey queues from the heads of the six patriarchs. Then when the six thin wisps were held up there was a great cheer, and the old men left the platform with tears in their dimmed eyes.

No. 82B (1909)

CERTIFICATE OF REGISTRATION OF AN EXTRA-PROVINCIAL COMPANY

CANADA
Province of British Columbia.
Companies Act
(July 1st, 1910.)

I HEREBY CERTIFY that "Interstate Rubber Co.", an Extra-Provincial Company, has this day been registered as a Company, under the "Companies Act," to carry out or effect all or any of the objects of the Company to which the legislative authority of the Legislature of British Columbia extends.

The head office of the company is situate at the city of Spokane, state of Washington.

The head office of the company in this province is situate at the city of Nelson, and W. Mark DeCew, lumberman, whose address is Nelson aforesaid, is the attorney for the company, not empowered to issue or transfer shares or stock.

The amount of capital of the company is One hundred thousand dollars, divided into one thousand shares of one hundred dollars each.

The company is limited and the time of its existence is fifty years from the 17th day of May, 1907.

Given under my hand and Seal of Office at Victoria, Province of British Columbia, this 14th day of February, one thousand nine hundred and eleven.

[L.S.] D. WHITESIDE,
Registrar of Joint-Stock Companies.

The objects for which this company has been established and registered are:

To carry on and conduct a wholesale and retail business for the purpose of purchasing and selling all manner and kinds of rubber goods and accessories, cotton and leather belting, all kinds of hose, couplings, fittings and accessories, and in general to buy and sell all kinds and manner of goods of every nature, kind and description that may be convenient in carrying on the general business as above stated or which may be found necessary and be profitably handled in connection with said general class of goods as above specified; to purchase, own, acquire, sell and convey such real and personal property as may be found necessary and proper for the purpose of using in the conduct of said business or in prosecuting the object of said company; to create all manner and form of indebtedness and to evidence such indebtedness by its promissory note or other evidence of such indebtedness in writing, and to mortgage, assign, transfer and hypotheeate any or all property owned as security for any existing indebtedness or any indebtedness then created or to be created; and in general to do all things necessary and requisite for the purpose of carrying out the object and purpose for which said corporation is formed; to purchase, own, acquire and convey in every manner stock of other corporations.

WATER NOTICE

Notice is hereby given that an application will be made under Part V. of the "Water Act, 1909," to obtain a license in the Ymir division of Kootenay district.

(a) The name, address, and occupation of the applicant: G. A. Rempel, rancher.

(b) The name of the lake, stream, or source (if unnamed, the description is): West fork Dog creek.

(c) The quantity of water applied for (in cubic feet per second): One-half cubic foot.

(d) The character of the proposed works: Flume and pipe.

(e) The premises on which the water is to be used (describe same): Block 21, Subdivision Lot 8063, Renata, Arrow lakes.

(f) The purposes for which the water is to be used: Irrigation.

(g) If for irrigation, describe the land intended to be irrigated, giving acreage: Block 21, 65 acres, 40 acres can be irrigated.

(h) Area of Crown land intended to be occupied by the proposed works: None.

(i) This notice was posted on the 11th day of February, 1911, and application will be made to the Commissioner on the 22nd day of March, 1911.

(j) Give the names and addresses of any riparian proprietors or licensees who or whose lands are likely to be affected by the proposed works, either above or below the outlet: C.P.R. lands; J. Siemens, Rosthern, Sask. (Blk. 22); J. Friesen, Rosthern, Sask., (Blk. 23); P. Abrams, Renata, B.C., (blocks 20 and 24).

18-2-11-30d. G. A. REMPEL, Renata, B.C.

WATER NOTICE

Notice is hereby given that an application will be made under Part V. of the "Water Act, 1909," to obtain a license in the Nelson Division of Kootenay District.

(a) The name, address, and occupation of the applicant: W. Owens, Thrums, B.C., rancher.

(b) The name of the lake, stream, or source (if unnamed, the description is): Spring creek, running from N. E. corner of L. 9142 southeasterly across L. 6893 Gl.

(c) The point of diversion: Near the N. E. corner of lot 9142.

(d) The quantity of water applied for (in cubic feet per second): 1-1000 cubic feet.

(e) The character of the proposed works: Iron pipe.

(f) The premises on which the water is to be used (describe same): N. E. corner of district lot 4598 Gl, Kootenay district.

(g) The purposes for which the water is to be used: Domestic.

(h) This notice was posted on the 23rd day of February, 1911, and application will be made to the Commissioner on the 25th day of March, 1911.

(i) Give the names and addresses of any riparian proprietors or licensees who or whose lands are likely to be affected by the proposed works, either above or below the outlet: P. M. Hansen, Gopher Head, Alta.

25-2-11-30d. W. OWENS, Thrums, B.C.

OPTICIAN AND JEWELER

BOSWELL RANCHERS FORM UNION

Many Matters of Importance Discussed —Restock Lake with Indigenous Fish—Officers Elected

(Special to The Daily News.)

BOSWELL, B.C., March 3—At a general meeting of residents of Boswell and Sanca held at Byworth ranch on the 28th ult., there were present: Price McDonald, J.P., W. A. Marsden, W. Ginol, W. Nack, G. Bartly, A. Kennedy, D. A. Davidson, J. Wilson, S. J. Cummings, R. T. Hickes, F. J. Oatts, W. Tangye, L. Hepher, H. Beaumont, K. Walince and F. Picton. R. T. Hickes was voted to the chair with D. A. Davidson as secretary. A letter of regret at inability to be present was read from James Johnstone, and an expression of sympathy was delivered from S. M. Brydges.

The following matters were brought forward: An improved mail service for Boswell, at present there being but two mails per week—four days now to be asked for. The establishment of a post office at Goat (or 12-Mile) creek. The improvement of the landing facilities at Boswell by the erection of a wharf and shed by the Dominion government. The connection of Boswell by means of the extension of the existing telephone line to the south and its subsequent extension to Gray's creek, Crawford Bay, Pilot Bay and Proctor to the north. The increase of the existing bounty on cougars from $15 to $25, and the placing of a small bounty (say of $1) on horned owls. That Mr. Cunningham, the provincial inspector of fruit pests, be requested to visit Boswell in the spring. The restocking of Kootenay lake with fish indigenous to its waters. Co-operative buying and selling. The getting out of ties and poles on lines similar to those followed by the Arrow lake ranchers.

An association was formed under the title of Boswell Kootenay Lake union, with the following officers: Hon. president, Lord Howick; hon. vice-president, James Schofield, M.P.P., Ymir district; president, Raymond T. Hickes; vice-president, Alan H. Coomber; secretary, A. Kennedy; treasurer, Lawson Hepher; executive, for the north, G. Bartly and J. Wilson, for the south, W. Ginol and S. J. Cummings, for the centre A. Beeden.

The members at present number 28. It must have been most gratifying to the promoters of the meeting to see such a representative and so enthusiastic a gathering—as each subject was brought up it was most minutely examined and thoroughly discussed before it was decided what action should be taken. Determined action is to be taken on every matter brought up and with such a strong executive results should be attained.

EYE BLOWN OUT BY PREMATURE BLAST

Work Will be Resumed on Elkhorn Mine—Mining Recorder Resigns Position

(Special to The Daily News.)

GREENWOOD, B.C., March 3—The Elkhorn mine was sold at the sheriff's sale today to Charles Kinney for $650. Work will begin upon this property in the spring.

George W. Rumberger is spending a few weeks in southern California.

A. F. Thomas has opened a real estate office in San Francisco. He at one time operated drug stores in Phoenix and Greenwood.

Charles Kauppi had an eye blown out by a premature blast while working on the railway grade near Bull creek.

J. W. Nelson has sold a half interest in his Carmi hotel building, lots, etc. to J. B. Sheridan for $1500.

Primo Zampani has been sent to the insane asylum at New Westminster in charge of Constable Wheeler.

Thomas Hawkins died from pneumonia at his ranch on the Bridesville road, aged 80 years.

There is no chance of Cleve Newman being pardoned, although he may be liberated on the parole system in four or five years. He is serving a 20 year sentence in the New Westminster penitentiary for a hold up that occurred in Bridesville in December, 1908.

Resigns Position

George Cunningham has resigned his position as mining recorder and will leave for the coast this month.

Ben Hart is now serving a long term in the Walla Walla penitentiary for stealing horses near Chesaw.

George Hambly has been discharged from the hospital. He was injured some time ago by his horse falling on him, while riding down the trail from the Tip Top mine.

The Big Tunnel is in 1500 feet. It is not expected that much ore will be encountered until the tunnel has been driven a distance of 2300 feet.

Tom Trenary formerly of Greenwood, is now running a hotel at Rosebery and backing the New Denver brass band during his spare time.

Archie Gillis has bought six horses and the Midway stage line from Jerome McDoney. In a short time he will put on a Concord coach, driven by four horses.

MUTINOUS CHINESE KILLED BY MATE OF STEAMER

DOVER, England, March 3—Two of the mutinous Chinese crew of the steamer Bannockburn, stranded off here, were shot dead by the English mate of the vessel today. The Chinese rushed the officer with drawn knives The mate emptied his revolver into them. Two dropped and two others were wounded, but the remainder came on and would have killed him had not the captain appeared and driven the mutineers back into their quarters.

RELIEVE

Neuralgia

"I have awful spells of Neuralgia and have doctored a great deal without getting much benefit. For the last two years I have been taking Dr. Miles' Anti-Pain Pills and they always relieve me. I have been so bad with Neuralgia that I sometimes thought I would go crazy. Sometimes it is necessary to take two of them, but never more, and they are sure to relieve me." MRS. FERRIER, 2434 Lynn St., Lincoln, Neb.

Price 25c at your druggist. He should supply you. If he does not, send price to us, we forward prepaid. DR. MILES MEDICAL CO., Toronto.

START CAMP FOR CUTTING POLES

Forty Men to Get Out Fifteen Thousand Poles at Fruitvale—Rebuild Burned Home

(Special to The Daily News.)

FRUITVALE, B.C., March 3—The Rev. Archdeacon Beer of Kaslo is expected to arrive here on Saturday and will hold Church of England services in the school house on Sunday. The following services will be held: 10:30 a.m. morning service and holy communion; 7 pm., evensong and address.

The news of the farm demonstration train which the Washington state college in conjunction with the Great Northern will operate over this line will be received with genuine satisfaction here in that Fruitvale is to be one of the Kootenay towns where this train will stop. Needless to say the special feature of this farm train to the ladies will be the domestic science demonstrations and exhibits which will be held on the train.

Building House

"Willing hands make likht work" is being most emphatically demonstrated in the case of building a house for Miss Tasker, who it will be remmbered lost everything by fire. To demonstrate their sympathy to Nurse Tasker every man in the valley volunteered to help on the building and by their efforts one of the most attractive looking bungalows is near completion. The building was only commenced on Monday last, but things certainly hum when nine or ten men are at work at one time. It will no doubt be a record in house building, which the residents are watching with interest.

G. H. Leece of Nelson is in the valley this week taking orders for fertilizers.

H. Stephenson, traveller for the Swift Canadian Co., Ltd., of Nelson was in town recently in the interests of his firm.

W. A. Powne returned today from a trip to Nelson.

T. Herbert returned home today, having been out for the winter months.

R. J. Bush made a business trip to Waneta and Boundary this week.

Clyde VanHemert and Neil Boutilier are in the valley looking over the large area lately sold to a Lethbridge syndicate. They are putting in a large camp for cutting poles, having 15,000 to cut at once and expect to employ 40 men. This will be the first local industry and will be a very great advantage for Fruitvale.

MURDERER BREAKS DOWN BUT MAKES NO CONFESSION

CALGARY, Alta., March 3—Apparently in a state of nervous breakdown. Fisk, shortly after being returned to his cell at the barracks to wait the execution of the death sentence, asked that Rev. W. G. Kirby be sent for. Mr Kirby is out of the city, however, and Rev. Mr. Martin, assistant pastor at the Central Methodist church, responded to the call. He is now at the barracks in the cell with Fisk.

The authorities were hopeful for a confession for such would completely vindicate the action of the jury and the court. After he had been out at the barracks and engaged in a long private conversation with John Fisk, the Rev. Martin informed the Herald that no confession had been made to him at least. "Fisk is pretty badly broken up," he continued. The Robertson case was to have commenced this morning but has been postponed until the May assizes.

INTEREST IN EARL GREY TROPHY COMPETITION

WINNIPEG, Mar. 3—As the date for the closing of entries in the Earl Grey musical and dramatic trophy competition approaches interest increases and there is every prospect of the week, during which it will be held, being a red letter in the history of Winnipeg. Entries have been received from east and west and friendly rivalry will be keen. In addition to the two big trophies for the main event the local committee is offering a number of prizes for solo singing male and female piano and violin. The age limit is 23 years and students from all over Canada will compete. Entries close March 15 and should be made to the honorary secretary, Ernest Beaufort, Winnipeg.

The Children's Hair

A Little Extra Care Now May Save After Years of Regret

Children play so hard that the head perspires and the hair has a tendency to mat and get sticky on the scalp Soap and water doesn't seem to remove it, but the hair must breathe to be healthy. Just try Nyal's Hirsutone. Rub it into the roots of the hair with the balls of the fingers. The children like it and will ask you to use it. Hirsutone loosens up the accumulated dust and perspiration and the hair and scalp can then be easily and thoroughly cleaned. After it is dried give another application of Hirsutone. After you have used it for a while you will admit it is the best you have ever used. Your Nyal Drug Store will cheerfully guarantee Hirsutone to do all that is claimed for it

Sold and guaranteed by The Poole Drug Co., Ltd., and W. Rutherford, Nelson.

COST OF LIVING INCREASES IN TORONTO

TORONTO, March 3—The legislation introduced into the provincial parliament to tax hotels on bar earnings over $40 per day will mean an increase in the cost of drinks in the Toronto bars. The increase will affect those drinks for which the consumer has been paying at the rate of two for 25 cents, as the price will be increased to 15 cents straight.

Stock Chances

Kootenay Gold Mines, limited.—The Granite-Poorman property is so well known to all interested in mining propositions in this neighborhood as to require little recommendation to the investor looking for returns on his investments. On an eight months run last year it produced an actual profit of over $25,000 or 10 per cent on the authorized capital of the new company. The property is under the same management and it is safe to predict that with improved facilities it will be a dividend payer from the start.

Shares $1, payable in instalments. We are local agents for this stock. Ask for prospectus.

NELSON NEWS OF THE DAY

(Additional News Notes on Page Seven.)

Mrs. L. Wallace of Cranbrook is at the Strathcona.

Archdeacon Beer of Kaslo, was a guest at the Hume yesterday.

John W. Holmes, of the Bayonne gold camp, is a visitor in the city.

Mr. and Mrs. H. Lacey of Victoria are guests at the Strathcona.

A. J. Becker superintendent of the Lucky Jim mine returned last night from Winnipeg.

A practice of the Nelson Male Voice party will be held this evening at 8 o'clock at the Y.M.C.A.

An at home will be held in the Catholic hall on the evening of March 16, by the Knights of Columbus.

F. E. Coombe reached the city from Kincardine, Scotland, last night and is registered at the Strathcona.

The funeral of the late Joseph Gaskell took place yesterday afternoon, Rev. J. P. Westman officiating. A large number of floral tributes were sent. The pallbearers were W. Heddle, D. Doyle, J. Jerome, J. Peak and J. Smith.

John Keen of Kaslo arrived in Nelson yesterday morning, and is registered at the Hume. He leaves for Kaslo today.

The night school opened on March 1 by the school board is an undoubted success. Thirty students were present at the session Thursday night.

There will be a meeting of the Woman's Hospital Aid society on Monday afternoon at 3 o'clock, in the schoolroom of the Presbyterian church.

The monthly meeting of the Nelson and District Woman's institute will be held this afternoon at 3.30 o'clock in K. P. hall. All ladies are invited to attend.

Charles Morris, of the Trites-Wood company, Fernie, has arrived in Nelson, and is spending a few days renewing acquaintance with his many friends.

The Y. M.C.A. Bible class will meet as usual tomorrow afternoon at 4 o'clock, when it is expected that Herbert Booth will give an address. All men are welcome.

T. A. Robley and Albert Askew, who have been conducting a real estate and employment agency business under the firm name of the B. C. Agencies, have dissolved partnership. The business will be conducted in future by Mr. Robley.

D. Small, of the firm of D. Small & Co., arrived on Thursday from his trip to Chicago and St. Louis, and spent yesterday shaking hands with friends and patrons. Mr. Small has a faculty of absorbing new ideas connected with tailoring.

It was nearly 2 o'clock this morning before the passengers from Rossland, who were due to arrive at 7 o'clock last night, reached the city. The delay was caused by a freight wreck east of Smelter Junction. The passengers and baggage were transferred and brought into the city by the train leaving here for Rossland at 8 o'clock.

F. K. Smith of Creston arrived at Balfour last night by the Kuskanook, with his well boring machine. He has been engaged to bore the well for the Kootenay house, the C.P.R. tourist hotel. This work is part of the contract of the Bearisto Plumbing company, of Winnipeg, W. K. Bearisto, the manager, having arranged this special matter when here about a week ago.

The anniversary services in the Methodist church tomorrow are interesting from the fact that the speaker is the son of the Great Salvation Army general, William Booth. The son, Herbert Booth, is spoken of in the coast papers as the present Henry Irving. Three services will be held on Sunday, the morning and evening services at the usual hour, and then a great mass meeting at 3 o'clock. On Monday evening Mr. Booth will give his celebrated lecture, "The Early Christians." This address will be illustrated by over 200 views and moving pictures. Wherever this is given the building is always crowded.

PIXIE PHOTOS

Today for the Fairies Pictures. Children be sure and be at Campbell's Art Gallery, 715 Baker street, at 1.30 today, under instructions of your director, Mr. W. A. Milne, as all Fairy children are asked to be photographed. Try not to be late. 272

AT THE THEATRES

There will be a full chorus rehearsal of "Patience" in the Y.M.C.A. building at 7.30 p.m. this evening, and on Monday evening of all principals and choruses at 7.30, when everyone taking part in the opera is particularly requested to on time.

For their opening bill on Monday next the Allen Players will present "Merely Mary Ann," which is a delightful comedy drama, something entirely different from the usual run of comedy dramas. Miss Verna Felton will essay the leading role of Mary Ann.

A distinct novelty in the field of musical comedy, or comedy with music, is "Managing Mildred," the sparkling creation of Walter S. Lockwood, which comes to the public school assembly hall on March 8, under the direction of C. P. Walker. The play tells the story of two girl chums whose success in college dramatics fills them with longing to see their names on electric signs as real Broadway stars. Their lives become consecrated to this ambition and their waking hours are employed in studying, rehearsing and discussing stage technique, much to the discomfort of the brother of one of the girls the brother *also having a deeper interest in the other girl.* In his attempt to cure the ladies of their hallucination the brother wires fir his best friend to come, impersonate a famous theatrical manager and either frighten or disgust the prospective candidates for steller honors into being satisfied with a less exciting career. This deception leads to many amusing complications through the three acts, and only at the fall of the curtain does the fun cease. During the action of the piece some 20 song hits are introduced, a feathre being made of the last two scenes of Verdi's masterpiece, "Il Trovatore," which is sung in costume. A splendid orchestra is carried by the company, and the famous English Opera Singers will be heard in the principal roles. A handsome scenic production, complete in every detail, is promised.

CHURCH NOTICES TOMORROW

All changes for church service announcements must be handed in or phoned to The Daily News office before 6 o'clock on Friday. If not received by this time the notices will be omitted from Saturday's issue.

The services announced for tomorrow in the churches of Nelson are as follows:

ANGLICAN—Corner Ward and Silica. First Sunday in Lent. 8 a.m., Holy Communion; 11 a.m., Matins and Holy Communion; 2.30 p.m., Sunday school and Bible classes; 7.30 p.m., evensong. Rev. Fred H. Graham, rector.

PRESBYTERIAN—St. Paul's corner of Victoria and Kootenay streets. Services 11 a.m. and 7.30 p.m; Sunday school, 2.30 p.m. Rev. J. T. Ferguson, D.D., pastor. Sacrament at morning service.

METHODIST—Corner Josephine and Silica. Services 11 a.m. and 7.30 p.m.; Sunday school and Bible classes 2.30 p.m.; mass meeting 3 p.m.; 7.10 p.m., orchestral program. Herbert Booth speaks three times. Rev. J. P. Westman, pastor.

BAPTIST—Stanley, near Mill. 11 a.m., "Before Three Witnesses"; 2.30 p.m., Sunday school; 7 p.m., "An Evening of Fellowship." Rev. Eugene Hooper, M.D., pastor.

ROMAN CATHOLIC—Corner Ward and Mill. Low Mass 8 a. m.; High Mass, 10.30 a. m.; evening service 7.30 p. m. Rev. J. Althoff.

CHRISTIAN SCIENCE—Services at 11.30 a.m. and 7.30 p.m., in the Congregational church, corner Stanley and Silica streets. Wednesday evening service at 8. Reading room in church building, open daily 3 to 5.30. Visitors cordially welcome.

SWEDISH EVANGELICAL LUTHERAN—Service will be held by Rev. J. A. Levin tomorrow evening at 8 o'clock at Miners' Union hall, 312½ Baker street; Sunday school at 3 p.m. All are cordially invited and welcome.

GOOD MEETING OF LITERARY SOCIETY

Program Given Yesterday One of the Best of the Year—Sessions Will Close After Easter

What was regarded as the best meeting of the High School Literary society for *the current year was held yesterday afternoon.*

Miss Olive Bealby rendered a pleasing piano solo, "Autumn idyl," which was followed by a striking sketch of "Oliver Cromwell as a Man and Soldier," depicted by Miss Lobb. A particularly effective rendering of "The Anvil Chorus," by Miss Belle Montgomery, called for an encore, which proved to be "The Maiden's Prayer." Miss Mabel Astley next discussed "Tolstoi" in a most interesting manner, treating incidentally of the influence of his family life on ...s labors. A humorous reading, "Music and Sculpture," by the president, Miss Georgia Patrick, concluded the program.

The literary meetings will close after Easter, and will not be resumed until the new term.

KENNEDY WANTS DIVORCE
