VOL. 8 NELSON B. C., TUESDAY MORNING, JULY 27, 1909 NO. 83

NOT RESIGNING

David Henderson, M.P., Disposes of Yarn

NO CHANCE FOR DAN MANN

EVEN IF HE SHOULD RETIRE CONSERVATIVES OF HALTON WOULD SELECT SUCCESSOR FROM THEIR OWN RANKS—TRIBUTE TO B. C. MEMBER

"There is not the slightest foundation for the story sent out from Toronto that I intend resigning my seat in the house of commons to let D. D. Mann fo the Canadian Northern have it," said David Henderson, M.P. for Halton, who spent yesterday in Nelson. "And what is more," he continued, "even if I did resign Mr. Mann would not get the seat, for the conservatives of Halton have enough good men in their own ranks from whom to select a successor to me when the time comes to do so, without going outside the riding for a candidate. Of course, it is said that Mr. Mann was born in Halton and that he therefore could appeal to the people of the county with good grace, but I may say that such a plea would not be very effective as a vote getter. As I remarked before, the conservatives have ample material from which to select a candidate when for any reason I retire."

Discussing the matter further, Mr. Henderson said that he was now getting up in age, being 68 years old and it was only natural that he should begin to think of retiring for when the next election came round he would be well over 70 and might not consider himself physically fit to undertake the work of a rigorous campaign in which case the party, of course, would have to find another candidate. He had drawn the attention of the conservatives of Halton to this aspect of the matter at their last meeting and had advised them to be looking round for another man in case he should not be in a position to again accept the party candidature. This was absolutely the only talk of his retirement he there had been and on that occasion he had intimated his intention of holding his seat during the present parliament if spared to do so.

Mr. Henderson, it may be said, has represented Halton in the house of commons since 1888 and if he sits until the close of the present parliament will have served through 23 or 24 sessions, according to the date of dissolution. This, he pointed out last night, would in itself be a pretty fair record and there was no wonder that he had come to thing that the time was approaching when in the ordinary course of events he would have to make way for some younger and more vigorous man.

Mr. Henderson, who is on a trip through the country in which he is combining pleasure with the discharge of his public duties, is accompanied by Mrs. Henderson and their daughter, Mrs. (Dr.) McKeague of Winnipeg, and her daughter. They went through to Victoria, visiting also Vancouver and other points in thhis province and are proceeding home by way of Nelson and the Crow's Nest route. They leave this morning on the Kuskanook and will make their next stop at Frank, where Mr. Henderson has business to transact. After a short stop there they will go on to Macleod and from there to Edmonton, whence thhey will proceed direct to Winnipeg.

Discussing his trip last night Mr. Henderson said that the portion of it through British Columbia had proved especially interesting and in many instances a revelation to him. He was through the province to Vancouver 19 years ago and marvelled at the many changes he had seen at the coast on the occasion of his present visit. His only misgiving with regard to what he had seen was the real estate boom in Vancouver. There was no doubt but what Vancouver was going to be a great city but it was possible that people were at present discounting its future too freely, and that a reaction might come as had occurred in Winnipeg a few years ago.

This was his first trip through this part of British Columbia. He now realized for the first time the absolute necessity for railways and transportation facilities in this country and would approach questions relating to these affecting this province in an altogether different spirit when they come up in the house of commons again. Until his present trip he had thought himself pjretty well informed on western matters, having made a personal study of conditions in Manitoba and to a lesser extent in Saskatchewan and Alberta. Now he could go home with some idea, albeit a most incomplete one, of the greatness of the province of British Columbia. He was of the opinion that every eastern member should thoroughly familiarize himself with conditions in the west wherein to a large extent lay the dominion's future. That was one of the principal objects of his present trip. All he was sorry for was that he had not visited British Columbia frequently in the years gone by and familiarized himself with the situation here.

Discussing politics generally, Mr. Henderson said that the five conservative members sent to Ottawa by British Columbia last fall had already made their mark and that as long as they represented this province its people could depend their interests would be well looked after. While Messrs. Cowan, Barnard and Taylor had discharged their duty to the full in regard to matters affecting the coast, Messrs. Goodeve and Burrell had done equally well for the interior. The showing put up by the five Conservative members had without doubt been the feature of last session of parliament and their usefulness would undoubtedly increase as time went on.

With Nelson Mr. Henderson was delighted. He was surprised to find such a solid little city here. One thing that particularly pleased him about it was that there was no evidence of a real estate boom. There weren't real estate agents on every corner trying to load visitors up with lots of more or less doubtful value. Inquiry had shown him that there was a good, legitimate demand for property here and that while there was no boom neither was there stagnation. As the districts around here developed Nelson would come into her own.

"And, before you go," said Mr. Henderson, as the representative of The News was leaving, "I think that it only fair to state that in all our trip we have not stayed at a more comfortable or better appointed hotel than the Strathcona, nor one where the general service was better—and we have stayed at what was considered the best in every city visited. Such enterprise deserves support."

FAVORS MALE TEACHERS

HEAD OF CALGARY COLLEGE EXPLAINS OPINION

BOYS OVER THIRTEEN SHOULD HAVE MEN INSTRUCTORS

Rev. A. O. MacRae, principal of the Western Canada college, a flourishing educational institution in Calgary, has been in the city for the past few days and left last night for the Seattle exposition whence he will go Victoria and Vancouver, returning by way of the main line.

Discussing the methods of teaching and the schools generally in British Columbia Rev. Mr. MacRae stated that from what he had seen as he came through the Crow's Nest district and while in East Kootenay and Nelson he had formed a distinctly high opinion of both the schools, the teachers and the method of tuition. He considered that the work done by Alexander Robinson, the superintendent of education, of a very high order. With regard to Nelson particularly, great strides had been made since his visit here two years ago. He was very favorably impressed with the magnificent new building and wished to say a special word of praise for those responsible for the plans for having constructed the building of two stories only. He thought that it was of the utmost importance, as a protection against accidents during possible fires or other mishaps, that no school should consist of more than two stories. Dr. E. C. Arthur, secretary of the school board, and the members of the board, deserved the deepest gratitude of the citizens for the good work they had done for the school.

Speaking of the proposed British Columbia university Rev. Mr. MacRae said he did not know what steps had been taken towards it establishment but that he considered it of vital importance to the future of the province. Owing to the larger population at the coast cities and to the gigantic distances between the coast and the in land towns he felt that its site would certainly be at Victoria or Vancouver.

With regard to the administration of the public schools in Canada as a whole Rev. Mr. MacRae expressed himself as being very strongly in favor of letting no boys over 13 years of age be taught by any but male teachers. Continuing, he said: "That is the greatest weakness in the public schools of Canada today—the preponderance of lady teachers. I do not, of course, mean that they are less efficient than men but it seems to me one of the most important principles of education for boys that they should be taught by men directly they have reached the age of 13. I consider that some efforts should be made to build up a profession of male teachers instead of letting the work, as it is at present, be merely a stepping stone to other employments. In Germany, for instance, the aristocracy of intellect is to be found among the school teachers, and this is due to the fact that the teachers in that country are comparatively well paid, after they have proved themselves to be suited to the work, become eligible for a pension from the government."

Rev. Mr. MacRae mentioned that before leaving Calgary he visited the fair there and was much struck with the Kootenay exhibit. In his opinion it was far ahead of anything of its kind at the exhibition and must have been a great revelation of the wonderful possibilities of this district for the fruit grower and farmer to the thousands of persons visiting Calgary during the fair.

CARRIED LONG DISTANCE

ALEXANDER MUIR'S BODY FOUND AT BRIDGEPORT

WAS DROWNED AT PATRICK'S MILL A MONTH AGO

Information has been received in Nelson of the finding in the Columbia river at Bridgeport, Washington, a distance of 3?0 miles from Slocan Junction, of the body of Alexander Muir who was drowned in the Slocan river on June 29.

It will be remembered that Muir, who was about 30 years of age and a native of Scotland, went out, with a companion, in a boat for the purpose of freeing some logs which had been entangled in one of the booms which were lying some distance up the river from the Patrick Lumber company's dam. Muir leaned out over the side of the boat in order to catch hold of the boom with a pike pole but in some manner the pole slipped and he and his companion were precipitated into the water. Both were good swimmers and Muir's companion succeeded in reaching the shore. Muir, however, was carried down stream and, until the information was received from Bridgeport nothing more was heard of him.

Muir had in his pocket a receipt from the Kootenay Lake General hospital and it is from this that his identification has been established. The information received here is in the shape of a letter which tells of the finding of the body on July 12. An inquest was held and the body buried.

The provincial police here have written the authorities at Bridgeport asking that more detailed information be sent and it is not at all unlikely that the body will be exhumed and brought back to this city, in which case an inquest will have to be held here before burial.

TO KEEP AHEAD

English Government Choose Strong Policy

FOUR NEW DREADNOUGHTS

REGINALD M'KENNA MADE ANNOUNCEMENT YESTERDAY—FOREIGN NAVIES—MORE CANADIAN SUCCESSES AT BISLEY—KING EDWARD RETURNS

LONDON, July 26—The navy camp has again won the day and four additional super-Dreadnoughts are to be added to the current year's shipbuilding program. Reginald McKenna, first lord of the admiralty, officially confirmed this in the house of commons this afternoon, saying that after a very careful consideration of the ship building conditions of foreign countries, the government had come to the conclusion that it was desirable to take all necessary steps to insure the laying down of four additional Dreadnoughts to be completed in March, 1912.

Mr. McKenna went on to say that foreign shipbuilding had developed apace. Italy and Austria-Hungary, according to the ample evidence collected by the government, have each definitely committed themselves to the construction of four battleships of the largest size and the largest type. The first lord of the admiralty mentioned that of the two big ships to be laid down in November the government had decided that one should be an improved cruiser, as the admiralty had plans of cruisers more powerful and faster than the Invincible and Indomitable types. Mr. McKenna said that during the three years that the British government was doing its best to restrict the growth of the armaments, Germany laid down 11 large armored ships to Great Britain's eight. After these three years of experience he considered it to be unsafe to continue on these lines and that the time had arrived to take steps to secure British predominance on the sea.

The radical and labor members protested against the increased expenditure and premier Asquith begged them to believe that the program was not introduced in the spirit of aggression but because a month's anxious deliberation had forced the cabinet to the conclusion that the enlarged program was the only one which with proper regard for the safety of the empire, they could honestly ask parliament to accept.

BISLEY, July 26—In the Martin challenge cup, a rapid firing competition, Lieut. Morris in 10th place, won £5; Sergt. Mitchell in 23rd place, won £3; Sergt. Steck, Sergt. Richardson, Lieut. Mortimer, Sergt. Huggins, major Jones and Sergt. Smith in 13th, 58th, 96th, 101st, 105th and 109th places respectively, each won £2.

Inn the Service Rifle championship competition, Sergt. Blackburn in second place won the silver jewel, while bronze medals were won by Sergt. Richardson, Sergt. Mitchell, Lieut. Morris, Sergt. Smith, Sergt. Huggins, Sergt. Freeborn, Lieut. Smith in 3rd, 13th, 14th, 17th, 26th and 56th places, respectively. The jewels in this competition are given by the National Rifle association to which is attached the Financial Times challenge cup presented to the N.R.A. in 1900 by the proprietor of the Financial Times. In the Harmsworth competition at 900 yards, Sergt. Blackburn in 17th place, won £1.

SILCOE, July 26.—King Edward, having concluded his week end visit to the United States ambassador and Mrs. Reid at Wrest Park, this morning motored down the finely timbered avenue, lined with cheering school children, on his return to London. The king was delighted with his visit and expressed the keenest pleasure on bidding farewell to Mr. and Mrs. Reid. It is hoped his majesty will revisit Wrest Park during the shooting season.

(Canadian Associated Press)

LONDON, July 26—Kent beat Surrey by an innings and 62 runs, and Yorkshire beat Warwick by 5 wickets. In the fourth test match started today at Manchester, the Australians were all dismissed for 147, England all out 119.

(Canadian Associated Press)

LONDON, July 26—The king this afternoon inspected six officers and 33 petty officers and men of the Australian naval contingent who have been trained in England prior to departure for Australia where they will form the nucleus of a naval force.

LONDON, July 26.—The bishop of Calgary states that he has been unable to obtain the help he requires for his diocese, namely, 20 to 40 clergymen and means for their partial support for the first couple of years, and is making another appeal.

OFFICERS INSTALLED

Meeting of Boundary Knights of Pythias—Grand Forks Notes

(Special to The Daily News.)

GRAND FORKS, July 26—All the Knights of Pythias lodges of the Boundary, which includes lodges at Phoenix, Greenwood, Midway and Grand Forks, were in session at Midway last week, where a joint installation of officers for the present term was held, George Chapple of this city being the installing officer. Some twenty-five members of the different lodges were in attendance, and a very enjoyable time is reported by the members from this city.

The following are the officers installed:

Midway—C. C., C. Bugar; V. C., S. A. Crowell; P., G. S. Stoske; M. of W., J. O. Thompson; K. of R. and S., F. M. Stevenson; M. F., H. Eldridge; M. E., P. Hitscher; M. at A., A. Logan; I. G., R. Munro; O. G., G. Wellwood.

Greenwood—C. C., C. Birce; V. C., A. J. Logan; P., W. Lawson; M. of W., N. Morrison; K. of R. and S., J. W. Greer; M. F., W. T. Thompson; M. of E., W. Johns; M. at A., C. Dagman; I. G., A. J. Lind; O. G., W. Rowe.

Phoenix—C. C., R. H. McCracken; V. C., W. X. Perkins; P., J. Bateman; M. of W., R. J. Gardner; K. of R. and S., F. C. Graham; M. F., G. Kay; M. E., R. Lundie; M. at A., H. Reed.

Grand Forks—C. C. Stewart; V. C., F. Latham; P., C. Hennifer; M. of W., D. M. McDonald; K. of R. and S. and M. of E., W. E. Hadden; M. at A., P. A. Z. Pare; I. G., R. Curran; O. F., F. J. Miller.

The following officers were installed this week in the local lodge of the I. O. O. F. for the current term: P. G., W. R. Dewdney; N. G., G. Henderson; V. G., R. Faulkner; R. S., J. Hugter; F. S., J. Allen; W., R. Franchi; C. C. Wolfram; R. S. N. G., D. Wiltreide; L. S. N. G., H. Hickans; R. S. V. G., H. Chemann; Y. S. V. G., W. Hadden; I. G., W. J. Shannon; O. G., George Chapple.

Mayor Fripp of this city some time ago offered to donate a gold medal to the pupil from here who obtained the highest number of marks in the McGill university matriculation examination, and the medal has been earned by Miss Ida Hartinger who obtained a total of 4?? marks or a percentage of ?1; Miss Hartinger also obtained first class honor standing in English and Latin composition and eight translations and botany. Miss Dell Doran received a total of 4?? marks, or a percentage of 6?, as well as first class standing in Latin composition and eight translations. The presentation of the medal to Miss Hartinger will take place next month.

The regular weekly shoot at the rifle range in this city has been declared off for the present by the range officer. The Saturday shoot will take place as usual.

J. C. and Angus McDonald, proprietors of the Grand Forks Structural Iron and Steel works in this city, have decided to move their plant to Vancouver, where the field for operation in their line of business is of a large scope. The transfer will take place about the end of the present month.

Tracklaying on the Great Northern is progressing rapidly towards Hedley. The big bridge at Ashnola, not being completed, held up the tracklaying machine for a few days, but as the bridge was last week completed the work is again being rushed.

The volunteer fire department will hold a meeting in the No. 1 hall this evening at 8 o'clock.

The Colonial Gold Mining company, owning the Apex mine near Hedley, last week commenced operations again, and several men are employed on the property.

The Golden Eagle mine up the North Fork has cut its force down to four men, which will be employed for the next few weeks, when the working force will be increased to between 30 and 40 miners. A six inch seam of free milling gold is reported this week from the North Fork in the vicinity of Bannock City, some 15 miles above this city.

IS DROWNED IN LAKE

ITALIAN WORKMAN LOSES LIFE LEARNING TO SWIM

ACCIDENT OCCURRED JUST BEHIND C. P. R. SHOPS

Raphelo Pisacreta, an Italian, 19 years old, was drowned on Sunday afternoon while learning to swim. The last seen of him was when he left his home after announcing his intention of going in swimming. Some hours later his clothes were found on the bank of the lake, at a point just behind the C.P.R. roundhouse, just about where Cottonwood creek enters and about 200 yards west of the city limits.

Pisacreta, who was unmarried, has been employed as a laborer at the sawmill of the Yale-Columbia Lumber company. He came to Nelson about two years ago from Italy and has two brothers residing in the city.

Shortly after noon on Sunday he left his residence near the gas works stating that he was going down to the river to take his first lesson in swimming alone, an accomplishment which he had long been desirous of attaining.

Nothing more was heard of him until shortly before 4 o'clock when a man named E. A. Travers who was passing the place where the deceased had apparently stripped off his clothes and entered the lake saw the clothing hung up in a tree and, thinking that the unfortunate man might have found the water too cold at that point and had changed his quarters, stayed there some 20 minutes when the conclusion forced itself upon his mind that a fatality had taken place and he decided to notify the police of what he had seen. Coming up town he located constable Reid who immediately went to the scene. On arriving there he found provincial constable Jensen who had, in the meantime been notified of the occurrence by another passerby and who was investigating the matter. Constable Jensen, after making enquiries had immediately come to the conclusion that the man must have been drowned and had decided to grapple the lake for the body. He proceeded to remove the clothing which consisted of a pair of trousers, shirt, shoes and stockings and also a towel, the deceased not having worn a coat or hat when going down to the river on account of the comparatively short distance he had to go to reach the water. In one of the pockets he found the sum of $1.70. Leaving constable Reid on the scene he went up to the provincial police office in the court house to obtain grappling hooks, taking with him the deceased's clothes.

During his absence a boy named Chester Hensley, 12 years of age, who was out in a boat, saw the body at a point, as near as can be judged, 20 feet from the shore, in about six feet of water and on the bed of the lake. He notified those on shore and two friends of the deceased who had by this time arrived, brought the body to the bank, where it was carefully wrapped in blankets and allowed to remain awaiting developments.

Constable Jensen on returning, immediately notified coroner W. O. Rose who, directly on the conclusion of the Oullen inquest went to the scene. He examined the body and pronounced life to have been extinct for about two hours.

In the face of the evidence adduced which proved beyond a reasonable doubt that the deceased had met his death accidentally, coroner Rose decided that no inquest was necessary. The body was therefore removed to the undertaking parlors of the Standard Furniture company to await burial.

CITY ENGINEER

Matter Was Definitely Settled Last Night

HANDS IN RESIGNATION

G. C. MACKAY IS AT PRESENT IN CHARGE — VERNON STREET NARROWING—CITY SOLICITOR'S REPORT—PROGRESS OF NEW CEMENT SIDEWALKS

At the meeting of the city council last night a letter was received from E. E. Coley resigning his position as city engineer and it was stated by the mayor that G. C. Mackay had been taken on for one month's trial from Tuesday last and that the latter had since that date been superintending the city construction work. The question of the narrowing of Vernon street in response to a petition from the residents on that thoroughfare was again brought up and and a letter was read from the city solicitor in which Mr. Johnson gave it as his opinion that the city had no legal right to grant the request without special legislation from the provincial legislature.

There were present the mayor and aldermen McMorris, Hale, Steed, Kerr, Kilby and Matthew. The minutes of the previous meeting having been read and adopted a letter was read from E. E. Coley with regard to the matter of retaining walls: as to whether they should be built on the street or on the property of the person owning the lot in front of which the sidewalk was being built. Mr. Coley pointed out that he had considered that the property owners had a right to choose whether the retaining wall should be built on his property or on the city's and with the exception of two cases the walls had been built on the lots.

The mayor thought that this matter of the retaining walls should be dealt with. On Silica street the walls were far from uniform. After some discussion it was decided that the retaining walls should be placed on the streets unless the city council decided otherwise.

The mayor stated that he had on Tuesday morning engaged G. C. Mackay for one month on trial as city engineer and that since that time Mr. Mackay had been in charge of the construction work.

It was moved by Ald. Matthew, seconded by Ald. Kilby and passed that the resolution passed on the previous week asking Mr. Coley for his resignation as city engineer be rescinded.

A letter from Mr. Coley resigning his position was then read and it was moved by Ald. McMorris, seconded by Ald. Kerr that Mr. Coley's resignation be accepted and that the city council be instructed to supply the late city engineer with recommendations.

The following report on the progress of work during the past week from Mr. Mackay was then read and adopted:

"Cement Sidewalks—That portion of the sidewalk on the east side of Ward street between Baker street and the postoffice has been completed and will soon be open to traffic on or about Wednesday next. All of the retaining wall necessary on the south side of Baker street between Ward and Stanley, is completed and two-thirds of the curb has been reset to the proper grade and alignment. The necessary filling is being done prior to putting in concrete.

"There has been a slight delay owing to a shortage of cement, but a carload arrived today and six more cars are expected within the next two weeks. This should obviate further delay from this source.

"A culvert is being constructed at the west end of Vernon street and the surface of the road is being made up with gravel. The various transfer companies of the city kindly donated one team one day each for this work and contractor Burns is loading these teams with gravel free of cost to the city.

"Grading work is being proceeded with on Mill and Ward streets, the earth from the school grounds being used for the purpose."

The following letter from the city solicitor with reference to the petition from some residence on Vernon street that the road should be narrowed, was also read:

At the request of the mayor I have looked into the question of the powers of your body in respect to the petition of property owners on Vernon street in the city, suggesting that you narrow Vernon street to make its width uniform with other streets in the city and that such part thereof may be narrowed or cut off or conveyed by the city to those owners of thhe contiguous lands in consideration of such owners defraying the cost of cement sidewalk for the entire length of the street.

"By section 42 of the Municipal Clauses act the possession of every street or other highway in the municipality shall be vested in the municipality.

"As you are aware the city of Nelson (in so far as lot 95, group 1, Kootenay district is concerned) was laid out by the government of this province with the C.P.R. company and by them Vernon street was dedicated to the public.

"There is a well established maxim in law, 'Once a highway, always a highway,' for the public cannot release their rights and there is no extinctive presumption or prescription.

"By section 142 of section 50 of the act you have power to pass a bylaw for 'altering roads or streets,' and by section 168 of the same section you have power to pass a bylaw disposing of a public street or highway in exchange for adjacent rotoculland stree exchange for adjacent or contiguous lands expropriated for the purpose of improving any public street or highway.

"This subsection in my opinion only gives you power to exchange streets for adjacent lands which might be necessary for the purpose of improving a street, but I find nothing in the statute which gives you power to dispose of a street or a portion of a street which you may have closed, and receive in exchange anything other than lands.

"I can only suggest that an application might be made to the legislature at its next sitting to give the city power to deal with Vernon street as it saw fit but the cost of such application would have to be considered and I think should properly be borne by the petitioners."

The letter was filed.

In a letter from Ronald S. Fraser, a complaint was made concerning his dismissal from the position of timekeeper, in which he had been employed in connection with the city construction work Mr. Mackay explained that Mr. Fraser was a strong, well built man and well able to use a pick and shovel. He had dismissed him from the job of timekeeper because he knew another man, a cripple, who was quite incapable of any hard work. He had offered Mr. Fraser a position with a pick and shovel. The pay in each case was the same. He thought that it was only fair to give such jobs as that of timekeeper to men who were not physically fit for harder work.

The thought Mr. Mackay's principle was an excellent one. On motion of Ald. Kerr, seconded by Ald. Steed, the letter was ordered to be filed and Mr. Mackay was asked to give a letter of recommendation to Mr. Fraser.

Albert Bunker in a letter addressed to the council asked that some rent should be paid him for the use of his lots, Nos. 12 and 13 over which a flume was at present situated. The matter was referred to the board of works.

A letter from Smith, Kerry & Chace, signed by Cecil B. Smith, was also read in which Mr. Smith asked that, although certain electrical machinery had not been ordered through him, he should be paid his full fees and also that the city should pay $1000 on account.

The mayor stated that the city was in possession of a letter in which Mr. Smith agreed to take $320 in full settlement of his claims.

After some discussion the letter was referred to the city solicitor and left over until the next meeting of the council.

The mayor brought up the question of the city water mains connecting with the C.P.R. wharf. There had been considerable discussion for the past two years as to how much the railway company should pay for the use of the water. They now offered $20 per month, stating that they only required it for purposes of protection against fire. The mayor was given full power to deal with the matter on this basis of payment.

R. A. Brown, city electrician, reported that owing to an insulator at the substation being touched by lightning the power had to be shut off for about two hours yesterday afternoon. He also gave a brief report of the death of, and the inquest on the body of George Oullen, who was electrocuted at the power plant on Saturday.

In connection with this the mayor mentioned that he had arranged that the city would pay the late Mr. Oullen's funeral expenses up to $200, but that the arrangements should be in the hands of the dead man's relatives.

FRUIT LAND SALES

Forty Acres Will be Disposed of at Thrums

Charles A. Waterman & Co. will sell by auction at 3 p. m. today at the office of George Horstead, in the opera house block, 40 acres of land at Thrums, a point exactly 20 miles west of Nelson, near the junction of the Slocan and Kootenay rivers. The land is of first class quality and clear of stones and stumps. It has been divided into four 10-acres blocks in order that the land may be more easily handled especially by the small investor. Although Thrums is one of the new settlements in this district it already has quite a thriving little community of fruit ranchers. The soil is very similar to that of the West Arm and produces crops equally good both as regards quality and quantity. As an instance of the good land at Thrums and what the soil will produce it may be mentioned that one of the other residents of the district this year had a proportionately enormous crop off a few trees. The berries were of such a fine size that the manager of the firm in the east to whom the gooseberries were sold wrote back to the Thrums grower and, while telling the latter that he might continue sending along as many berries as he had, to the buyer, had asked only for gooseberries and not for water melons. Another point of interest in Thrums is the excellent fishing and hunting to be obtained in its vicinity.

Killed in Auto

NEW HAVEN, July 26—Going down a steep hill at a rapid rate yesterday, a trolley car struck an automobile owned and driven by Charles C. Buckingham, who met instant death. Mr. Buckingham's wife and two others were injured. Mr. Buckingham is a prominent piano manufacturer of New Haven.

Hero Killed

NEW YORK, July 26—Lawrence Halleran, inspector of the dock department who received a medal for saving 16 lives during the burning of the steamer General Slocum, fell from a train trestle of the Long Island railroad yesterday near Goose Creek and was killed.

Fatal Big Gun Accident

TOKIO, July 26.—While the crew of the Japanese battleship Asahi were engaged in gun practice at Ise Bay yesterday one of the 12 pounders of the vessel blew up, killing four men and wounding five of the gunners. Among the wounded were two of the officers of the battleship.

Northwestern League

At Tacoma—Seattle 5, Tacoma 2.

At Spokane—Aberdeen 7, Spokane 5.

TALKS TARIFF

Follower of Chamberlain Gives His Views

MUIR WILSON IN NELSON

TWICE UNIONIST CANDIDATE FOR ATTERCLIFFE DIVISION OF SHEFFIELD PAYS VISIT TO THIS CITY IN COURSE OF TOUR OF CANADA

There arrived in Nelson last evening Muir Wilson of Sheffield, England, one of Joseph Chamberlain's tariff reform lieutenants, who is visiting Canada a second time as a tariff reformer. He has been intimately associated with this movement for some years and has twice contested the Attercliffe division of his native city as a tariff reformer and has made great progress for the conservative and tariff reform cause in a constituency which has always been true to liberalism.

Mr. Wilson's policy briefly is perfect free trade between the mother country and all her dependencies with a tariff of retaliation against foreign countries including the United States in respect to goods manufactured or produced in the mother country or the colonies and all raw material and food from any country. He is strongly in favor of the "All Red" route advocated by lord Strathcona. His policy in regard to both these matters he considers offers the best means of finding employment for the masses of the British isles.

His proposals as set forth by him are as follows:

To bring the colonies into closer touch with the mother country by the "All Red" route and by arranging preferential tariffs with them.

To impose on imports from the United States and every other foreign country tariff duties on all manufactured goods coming into the British isles which can be produced there or in any of the colonies and also on all luxuries.

To impose a tariff on foodstuffs or raw material imported into the British isles from any country.

The result of a policy of this kind Mr. Wilson thinks would be to put new life into British industries and so supply the work for which many laboring men are at present looking for in vain.

Concerning the "All Red" route, Mr. Wilson says further:

By the All Red route is mean the British highway between Great Britain, New Zealand and Australia by way of Canada along which the objective point shall be entirely in English territory or under British control. The proposition now under consideration is to take advantage of that route and to provide rapid communication for mails and passengers between the motherland and these dominions beyond the seas and utilising in Canada the transcontinental lines and on the Atlantic and Pacific oceans steamers whose speed and accommodation shall be of the best and most up to date character.

The following are the advantages of the proposed route:

"1. The service would improve the communication between the United Kingdom and Canada and enable mails and passengers to be conveyed between the two countries more rapidly than at present.

"2. It would draw a certain portion of Canadian travel which now passes by way of New York back to its proper channel and by its geographical advantages and quicker service to the United States secure many American passengers and some of the mail traffic to western points.

"3. It would provide a faster service than at present to New Zealand and Australia, saving at least 10 days to the former and two days to the latter.

"4. It would utilize an alternative route to the east possessing natural advantages which have not been properly utilized.

"5. It would strengthen Great Britain's position in the Atlantic and furnish additional armed cruisers to aid in keeping the route open in time of war.

"6. It would assist Great Britain in retaining the control of the Pacific trade, which may pass out of our hands if the route is not utilized.

"7. It would provide armed cruisers on the Pacific.

"8. It would be available for the conveyance of troops and suplies to the east and be less liable to interruption than any other route.

"9. It would bring the different countries into closer touch with each other and help the consolidation of the empire.

"10. It would be provided at the cost of the different parts of the empire and not fall entirely upon one or another.

"11. It would supplement the Pacific cable to Australia, which is under joint government control.

"12. It would supplement other steamship routes and could not fail to assist the commercial expansion of the different parts of the empire as well as lead to extra travel.

Aeronauts Decorated

PARIS, July 26—Orville and Wilbur Wright, the American aeroplanists of Dayton, Ohio., and Henry Farman, the English aeronaut, were today decorated with the legion of honor for their great achievement in aviation.

Prominent Divine Dies

NAHANT, Mass., July 26—Rev. Dr. William R. Huntington, rector of Grace Episcopal church, New York, died early today after a lingering illness caused by intestinal trouble. He was 71 years of age.

Our Great Midsummer Clearance Sale

To make room for our full stock we intend clearing out all of our summer goods in men's furnishings and will make some startling reductions in price.

Mind you, this is not a sale of bankrupt stock or shelf worn merchandise, but a sale of right up to the minute merchandise that's guaranteed to give satisfactory service. Always bear in mind this fact, that you'll be many dollars to the good at the end of each year if you buy your apparel, groceries, etc., from reliable firms who back everything they say with their reputation, and who'll go out of their way to give you satisfaction because they want your trade in the future. We don't tell you that we're selling $20 suits for $7.19 or any such ridiculously low prices, for that is an impossibility, unless we pick up a lot of out of the sweat shop merchandise just to sell at these prices. Therefore it behooves you to use a little judgment when buying your wearing apparel and not go altogether on the price you see advertised. It is undoubtedly true that when we cut $2.50 on a suit it is a higher sacrifice than when many other merchants cut $5.50 and $6 on the price, for our margin of profit is considerably less than that used by many other stores in this line of business.

WE'LL QUOTE BRIEFLY

CLOTHING

Two Piece Suits:

Regular price	$10.00.. Now	$ 5.00
Regular price	12.50.. Now	7.50
Regular price	15.00.. Now	9.75

MARATHONERS MATCHED

MARSH AND SHRUBB WILL RACE AT VANCOUVER

DATE IS SET FOR THE MIDDLE OF NEXT MONTH

VANCOUVER, July 26—A match race between John Marsh of Winnipeg, holder of the American record for the Marathon distance, and Alfred Shrubb, who has been setting eastern tracks afire for the last few months, is being arranged for Vancouver on Saturday, Aug. 14. Marsh was in Vancouver Saturday and had a talk with Cos. Jones, president of the Vancouver increase club, regarding a race. It did not take long for Marsh to come to terms with the local promoter for a 15 mile match with the speedy Englishman at Recreation park.

Mr. Jones offered to hang up a purse of $1500 and that looked good to Marsh. The winner will take down $1200 and the loser $300. A wire was sent to Shrubb last evening to their effect and a favorable answer is expected today. If Shrubb accepts, the race is on.

Marsh is the only man in America who has a victory over Shrubb to his credit at 15 miles. He is the fastest runner of any of the Marathon stars. He beat Rowan at Nanaimo very early on Thursday. He went south from here to Aberdeen to run a race a week next Sunday. From Aberdeen he will come back to Vancouver for the match with Shrubb, and from here he will go to Spokane to run in a big Marathon Derby to be held there next month. Then he will compete in the great Seattle Marathon Derby on Labor day. Just now he is at the top of his form and he is anxious for a match with Shrubb. He is willing to back himself for $500 to beat the latter.

VANCOUVER TENNIS TOURNEY

American Competitors Carry off all the First Prizes

VANCOUVER, July 26—The American champions took all the best prizes at the lawn tennis tournament in Saturday's finals. J. Tyler of Spokane met B. Rhodes, a Vancouver boy, and beat him 8-6, 6-4, 6-3. Tyler had matters all his own way and was an easier winner than the scores indicate, not exerting himself any too much. With this victory Tyler can now claim the title of champion for the British Columbia mainland.

The ladies' mainland championship was won by Miss Hotchkiss, who met Miss Ryan of Santa Monica, Cal and beat her 6-1, 6-4.

Tyler and McRae beat Gillat and Jones in the men's doubles by 6-1, 10-8, 6-4. The match was a good one although the victory of the Americans was never in doubt.

Miss Hotchkiss and Miss Bol, were victorious by 6-4, 6-4 in the ladies' doubles over Miss Ryan and Miss Pitts. The mixed doubles gave another first to Miss Hotchkiss, who, playing with P. H. V. Andrews, easily won from McRae and Mrs. Pearson, 6-4, 6-2.

The tournament was a most successful one in many respects, the cloudless sky which obtained throughout adding in no small way to its success. The victories of Tyler and Miss Hotchkiss were most popular, their splendid playing arousing much enthusiasm.

Big Surprise in Baseball

PHILADELPHIA, July 26—One of the baseball surprises of the year was the announcement made Saturday that Mike Donlin, the star outfielder of the New York Nationals who refused to play with that club because of differences over the question of salary, will manage the Philadelphia National team, succeeding William Murray, who has been asked for his resignation. Donlin will play one of the outfield positions and will also captain the team. In addition to this it is given out that a new figure has entered the baseball field in the person of Felix Isman, well known in real estate and theatrical circles of Philadelphia and New York, who has acquired an interest in the local club. Donlin comes to Philadelphia, the local management announce, through a deal with New York but on what basis the deal was made the club owners will not say. It is said that Sherwood, not Magee, the hard hitting outfielder of the Philadelphians and pitcher Fox will figure in the transfer, but this cannot be confirmed.

Flanagan's Latest Record

NEW HAVEN, Conn., July 26—John Flanagan, of the Irish-American athletic club broke the world's record at throwing the 16 pound hammer here Saturday at the annual games of Clan Na Gael, hurling 184 feet 4 inches, in competition with Matt Mongrah of the New York club and Con. Walsh, the Canadian champion. Flanagan not only broke his own record but established a new record as well. The New York athletic club's first and second teams won the first and second places in the mile relay. A. C. Gilbert of Yale, was the sole entry in the pole vault and cleared 12 feet 6 inches.

Beaten by Three Amateurs

NEW YORK, July 26—Geo. Sargent, the open gold champion, was beaten by 1 up at the Forest park links on Saturday morning in a match against the amateurs Devereaux Emmet and C. T. Sweeney of the Brooklyn Forest park golf club. The contest was of a most spirited nature. Sargent had no previous knowledge of the links which gave the amateurs, who had learned their game on the links, a decided advantage.

Boston Team Wins

BOSTON, July 26—The eastern championship doubles play in the 19th annual tournament of the Longwood cricket club came to an end tonight with a victory for L. W. Nilis and A. S. Rabney, Harvard intercollegiate champions, known as the Boston team, who defeated the New York team, R. D. Little and E. P. Larned, in a five set match.

Change in Pitchers

DTROIT, July 26—The exchange of pitchers Cheek and Ryan of the Boston American league team for pitchers Karger and Hall of the St. Paul American association is announced. Karger and Hall will join the Boston team at Boston and Cheek and Ryan will join the St. Paul team at Toledo.

Stomach Blood and Liver Troubles

Much sickness starts with weak stomach, and consequent poor, impoverished blood. Nervous and pale people lack good, rich, red blood. Their stomachs need invigorating for, after all, a man can be no stronger than his stomach.

A remedy that makes the stomach strong and the liver active, makes rich red blood and overcomes and drives out disease-producing bacteria and cures a whole multitude of diseases.

Get rid of your Stomach Weakness and Liver Laziness by taking a course of Dr. Pierce's Golden Medical Discovery—the great Stomach Restorative, Liver Invigorator and Blood Cleanser.

You can't afford to accept any medicine of **unknown composition** as a substitute for "Golden Medical Discovery," which is a medicine of KNOWN COMPOSITION, having a complete list of ingredients in plain English on its bottle-wrapper, same being attested as correct under oath.

Dr. Pierce's Pleasant Pellets regulate and invigorate Stomach, Liver and Bowels.

AN INEXPENSIVE WAY

The reader of a newspaper will readily agree that it is necessary for a merchant, with any pretension of agressiveness, to advertise. Merchants are also aware of this fact. Therefore it would seem that it is simply a question as to what form the advertising will follow.

Newspaper Advertising is the Most Inexpensive Way and Brings Larger Direct Results than Any Other Form of Advertising

The Daily News

has an average daily circulation of 3,000 copies distributed on the day of publication in the cities of Nelson, Rossland, the Boundary country, the Slocan Valley and East Kootenay district, covering the line of the C. P. R. from Pincher Creek, Alberta, to Midway, B. C., and there is not in B. C. a more progressive section of country than that in which The Daily News circulates; the varied industries consisting of farming, fruit growing, lumbering, metalliferous mining, coal mining, and smelting, making it an extremely favorable field for advertising articles of every description suitable for a purchasing public engaged in the above mentioned industries.

Kootenay's Publicity Medium

Will Place Your Story in the Hands of 3000 Subscribers Every Day at the Rate of 2-3 of a Cent. per Inch per 100 Circulation

Mr. Advertiser you cannot circularize or personally canvas the field for that amount, so be progressive and use the means and resources at your hand to increase your business.

For advertising rates or further information phone 144 or address News Publishing Company, Limited, P. O. Drawer 1119, Nelson, B. C.

Town Lots for Sale in Nelson

It Takes TWO—Are You One of Them?

If, of the two people it takes to make a bargain, you are ONE, how much would it be worth to you to find the other one. Would it be worth the cost of a classified ad? Would it be worth the cost of a small—but determined—"campaign of want advertising?"

The "other one" necessary to "make a bargain" is found, in nine cases out of ten, through advertising—often through want advertising, and, in this city, USUALLY through want advertising in THIS newspaper.

"The other one" watches the want ads. pretty closely—but, of course, has to be convinced. If your offer is "right," that will be an easy task.

One cent a word will tell your story to readers of

"THE DAILY NEWS"

A ten-word classified advertisement costs only 40 cents for six insertions, when paid in advance.

RESULT OF CARELESSNESS

CORONER'S JURY'S VERDICT ON GEORGE OULTEN'S DEATH

ACCIDENT WAS DUE TO THE DECEASED'S OWN ACTION

The inquest into the death of George B. Oulten who was killed at the city power plant on Saturday afternoon took place at the court house on Sunday afternoon before coroner W. O. Rose and a jury composed of W. H. Jones, foreman, T. Kinahan, W. E. McCandlish, J. G. Nelson, F. W. Swannell and E. G. Robertson, and resulted in a verdict of accidental death, the officials of the city electrical department being exonerated from blame. A. M. Johnson was present in the interests of the city.

After the jury had been sworn in by coroner Rose they proceeded to the undertaking parlors of the Standard Furniture company where the body was viewed and it was seen that the electric current from the 12,000 volt lightning arrester with which the unfortunate man had come in contact had entered the body through the back, coming out through the feet. He had fallen a distance of 12 feet which had caused a nasty bruise on the back of his head. The clothing of the deceased was also examined and the jury then returned to the court house to proceed with the inquiry.

Evidence was here given by Len. Steel, foreman at the plant, John McPhee, Blanchard Johnstone, A. M. McKay and R. A. Brown, city electrician.

The jury then retired to consider their verdict and after 30 minutes' deliberation, foreman Jones announced that they had agreed upon the following: "That the said George B. Oulten came to his death by accidentally coming in contact with the lightning arrester at the power house of the city of Nelson and that the said accident was caused by negligence on the part of the deceased, who approached the lightning arrester although he had been warned that it was unsafe to do so and that his duties and orders did not require him to be in the position he was when death was caused.

THE NEWS' DAILY PATTERN

LADIES' COMBINATION UNDERGARMENT
Paris Pattern No 2709
All Seams Allowed

Fine cambric, Lonsdale muslin, jaconet, Persian lawn or nainsook are all suitable materials for this serviceable little undergarment, which is a combination of three—corset cover, drawers and petticoat. The fulness of the round neck is regulated by a narrow ribbon run beading and finished with Valenciennes lace edging, the armholes being finished with similar beading and edging. The lower edge has a medium wide ruffle of the material, finished with the edging. The pattern is in seven sizes, 32 to 44 inches bust measure. For 36 bust the combination requires 3 1-2 yards of material 36 inches wide; 3 1-8 yards 42 inches wide; 2 5-8 yards beading, 3 yards of ribbon 4 1-8 yards of narrow edging and 6 yards of wide edging.

Patterns may be secured through The Daily News. Price 10c.

April 1st, 1909.

A fire-box which consists of several pieces merely bolted together is not a safe fire-box. Bolts are liable to work loose, allowing the pieces to spring apart.

Gas, smoke and dust escape—to say nothing of the heat wasted—and find their way all through the house, which is bad for your house furnishings and worse for your health.

And that's the kind of fire-boxes common furnaces have.

But the "Magnet" fire-box—it's different. Consists of only two pieces of heavy cast iron, securely fastened together by our famous "cup joint."

Picture shows a section of the fire-box of

McClary's Magnet Furnace

and illustrates this feature better than words can describe it.

Upper and lower sections are accurately fitted together and lined with a layer of asbestos cement, which unites them so firmly together that they become practically one piece. Can never come apart. Furthermore, the two sections are tightly bolted together every five and a half inches—which adds additional strength to the "cup joint."

Fire-box is absolutely proof against the escape of foul gases, smoke or dust. And heat is kept in the inside, where every unit can be utilized for your comfort.

It's a safe, trustworthy furnace, built to last, is the "MAGNET."

Built for wood, but will also burn coal.

Sold by enterprising dealers everywhere.

Cowan's

Milk Chocolate Stick, Medallions, Croquettes, Cream Bars etc. are truly delicious.

The Hudson's Bay Stores

Special Clearance Sale

Of Hurley's and Burt's High Grade American Boots

The excellent quality of these goods is well known but, for many people, they come a little too high, and consequently they are not moving off our shelves as fast as they should. However, we imported them to sell and if we cannot get what they are worth, they must go for what we can get. For the balance of this month we offer them at about what they cost:

Ladies' Boots, all styles, in Black and Chocolate Vici Kid, Tan Calf and Brown and Grey Suede.

Regular Price $6, now offered at $4.50

Regular Price $5.50, now offered at 4.00

Hurley's American boots for men, Patent and Velour Calf Blucher

Regular Price, $7, now offered at $5.50

Patent Blucher, Regular price $4.50, now offered at $2.95
Plain Patent Laced, regular price, $5.50, now offered at $4.00

This is a genuine clearance sale and had best be taken advantage of at once and while we have all sizes.

Your Enjoyment of your Summer Outing would be greatly increased by the presence of a MUSIC MACHINE An Edison, Victor or Columbia.

The reproducing qualities of these machines have been brought to such a state of perfection that they are a source of pleasure to the most highly cultivated taste.

They will afford you any form of entertainment you may desire, vaudeville, the popular song hit of the hour, the old favorites, grand opera by the world's greatest singers, band music, orchestra music and instrumental solos on almost every instrument.

A small cash payment and $1 a week or $5 per month will put you in immediate enjoyment of one.

It will prove one of the greatest sources of pleasure and education that your money can buy.

Ask for a catalogue and information. Write or phone us if you cannot come in person.

THE TEACHING PROFESSION

In an interview published in this morning's issue of The Daily News Rev Dr. McRae, president of the Western Canada college of Calgary, strongly supports the view expressed by Prof. Adam Shortt in his recent address before the Canadian club of this city, that every effort should be employed to make teaching a separate profession, especially for men, instead of a stepping stone for something better. Dr. McRae emphasizes the necessity for having male teachers for all boys over 12 years of age, but there are many who will take the view that it would be better to have male teachers for boys at an even earlier age. Be that as it may, Dr. McRae is right in his main contention that men should be encouraged to take up teaching as a profession.

In this connection it may be said that this is the very policy that has been introduced in British Columbia by Hon. H. E. Young, minister of education. Dr. Young has announced that as a first step in this direction the government is going to provide for increased salaries for school teachers and is also going to give teachers the benefit of the civil service superannuation measure which the government proposes introducing. This is directly in line with the policy which Dr. McRae says is followed in Germany, which has one of the most advanced educational systems in the world, and of which he heartily approves.

In regard to this matter, as in others, the government has shown that it is keeping pace with the spirit of the times. The benefits of the policy which it is inaugurating in regard to educational matters may not be seen by some people at the present time but the coming generation will realize its advantages and will admire the statesmanship which prompted its adoption.

EDITORIAL NOTES

At last a man has successfully negotiated the English channel in an airship. What would Napoleon Bonaparte have given to have lived in these days. He might have attempted by air what he could not accomplish by water, an invasion of England.

The London, England, Mining Journal, one of the oldest and most conservative publications of its kind in the world, recently came out in a greatly improved form, being changed to what is known as the standard trade magazine size and being otherwise brought more in keeping with modern ideas. There is, however, to be no change in its columns so far as reliability goes.

Flanagan's Latest Record

NEW HAVEN, Conn., July 26—John Flanagan, of the Irish-American athletic club broke the world's record at throwing the 16 pound hammer here Saturday at the annual games of Clan Na Gael, hurling 184 feet 4 inches, in competition with Matt McGrath of the New York club and Con. Walsh, the Canadian champion. Flanagan not only broke his own record but established a new record as well. The New York athletic club's first and second teams won the first and second places in the mile relay. A. C. Gilbert of Yale, was the sole entry in the pole vault and cleared 12 feet 6 inches.

Minard's Liniment cures Diphtheria.

Lindsay's Dancing Pavilion

Eagles' Band Every Tuesday Night

THAT AWFUL PAIN IN THE BACK

Is a Sure Sign of Congestion of the Kidneys. Take "Fruit-a-tives."

Lots of men, and women too, are limping about the house—groaning in easy chairs—or tossing about the bed—because of that nagging pain in the back. The old standbys—hot vinegar, porous plasters, liniments, etc.,—don't do any good any more. You see, you are a bit older now. The kidneys are not as strong as they used to be. And even those "blistering" liniments and plasters won't stimulate the kidneys.

Your trouble is kidney trouble. The kidneys are not diseased, they are overworked and strained. The bowels and skin—which help the kidneys to rid the system of waste matter—have not been doing their share of the work. The kidneys have had to do too much.

What you need is a medicine to cure the bowels, liver and skin. This medicine must cure the Constipation by acting on the liver and thus make the bowels move regularly and naturally. This medicine must heal and strengthen the kidneys, and thus relieve the congestion. "Fruit-a-tives" is this medicine. It is the most effective Kidney Remedy known, and keeps these vital organs in a vigorous, healthy condition. For aged people, for those who work hard, for tired-out women, "Fruit-a-tives" never fail to stop that severe pain in the back and build up the whole system. 50c a box, 6 for $2.50, or trial box, 25c. At dealers or from Fruit-a-tives Limited, Ottawa.

MRS. HOPE, Morpeth, Ont.

Terrible Effect of La Grippe

How many people there are who know from bitter experience the evils which follow in the train of La Grippe! The whole system is run down, appetite entirely fails, there is a continual feeling of languor and weakness, and life seems scarcely worth living. In many cases the lungs are attacked, and the victim gradually declines, until prematurely carried off by the dreaded "white plague."

What would not the sufferer give to know of a SURE remedy—of some medicine that would not only arrest the disease, but build up the wasted system, and restore permanently the lost health and strength; in a word, give new life and hope? SUCH A TONIC IS PSYCHINE.

Mrs. Hope (née Cattle), of Morpeth, writes: "My lungs were in a terrible state, I had had La Grippe, and it had settled on my lungs. I kept steadily getting worse, and got so low that I was confined to bed, and could not even sit up. I consulted several doctors, but they said nothing could be done for me. Then I started taking PSYCHINE and it has certainly done wonders. I am now as strong as I was before my sickness, and can truly say that PSYCHINE saved my life." Such testimony as this is convincing.

If you are suffering in a similar way, and have almost despaired of ever recovering the health you once enjoyed, why not send for a sample bottle of PSYCHINE and test it for yourself? There is no reason why you should not be restored. PSYCHINE has proved the sovereign remedy in hundreds of other cases. Why not in yours? PSYCHINE is sold by all druggists and dealers at 50c. and $1.00 a bottle. LIFE IN EVERY DOSE.

IS RAPIDLY EXTENDING

CANADIAN NORTHERN RAILWAY'S WONDERFUL PROGRESS

FIVE THOUSAND MILES IN OPERATION OR BEING BUILT

The announcement that Messrs Mackenzie and Mann are to link Niagara and Ottawa with a new railway is the most important development in transportation circles for many a day, says the Toronto News. The Canadian Northern is to lay down tracks across southern Ontario from the great cataract around the head of lake Ontario and through Toronto, Port Hope and Belleville to the dominion capital. The money for a portion of the undertaking is in hand and construction work begins shortly. When some months ago Mr. Mackenzie came to the rescue of local capitalists by taking over control of the Electric Development company he secured the right of way for his railway between Niagara and Toronto. The line will follow the Development company's power line.

The Mackenzie-Mann transcontinental takes form rapidly. The Toronto to Sudbury line is to be extended around the north shore of lake Superior by a route now pretty well located to a junction with the company's western lines at Port Arthur. Thus will be bridged the great gap between the Mackenzie and Mann system in Old Ontario and Quebec and the Mackenzie and Mann system extending west from Thunder Bay to and through Manitoba, Saskatchewan and Alberta. There will still remain the problem of linking the lines in Nova Scotia with those in Quebec by a line across New Brunswick, and also the extension of the Alberta trunk road across British Columbia to the Pacific coast. There is something yet to be done but a great deal has been accomplished since the company's directors met at Port Arthur seven or eight years ago to drive the last spike in the line between that lake port and Winnipeg.

Throughout Canada today the Mackenzie and Mann interests have approximately 4457 miles of completed road in operation. Within a month or two the Ottawa-Hawkesbury and the Garneau Junction-Quebec roads will be giving a regular service. This will bring the length of operated track up to 4592 miles. There are besides under construction in the Canadian west a considerable mileage. This year's program includes a 50 mile extension of the branch from Rossburn, Man., westward to connect with the Saskatchewan-Calgary through route. From Oak Point, Man., an extension is being built towards the west shore of lake Winnipeg. From Halboro 70 miles of road are being constructed in a westerly direction through central Manitoba. The Greenway-Wakopa branch is being lengthened 12 miles along the southerly boundary of the same province. The St. Rose de Lac extension of 12 miles and the Maryfield extension of 125 miles are included in this year's program.

More and more does the Canadian Northern system in the oldest provinces resemble a spider of which Winnipeg is the body and the numerous branch lines the far reaching legs. In Saskatchewan the Goose lake branch of which 40 miles are already in operation, is being extended for 55 miles further towards Calgary. Thirty miles of new road through a fine farming country will form a convenient cutoff from Prince Albert to Battleford. In addition 100 miles of road are being built toward the Peace river country. Eighty-nine miles of the Hudson Bay line from Erwood to Pass Mission will be completed this autumn. Altogether the Canadian Northern railway's construction plans for 1909 cover 621 miles of new track. This exclusive of the projected Niagara-Ottawa branch and the eastern Ontario and Quebec branches now nearing completion. There is also a line north from Sudbury which will this winter carry passengers to within 30 miles of the heart of the great Cow Gauda country.

By provinces the total mileage of the Mackenzie and Mann lines in operation and under construction may thus be summed up:

Province	Miles
Ontario	652.1
Quebec	582.68
Nova Scotia and Cape Breton	457
Manitoba	1766.8
Saskatchewan	1318.6
Alberta	334.2
State of Minnesota	42.7
Total	5213.3

Five thousand miles of track constitute a considerable installment towards realization of a third coast to coast system. Nothing has been said of the company's plans in British Columbia. The railway's engineers are now working in the neighborhood of Kamloops in order to locate a direct route through the mountains to a Pacific coast port. Vancouver will probably be the chief western terminus.

British Association for the Advancement of Science

WINNIPEG MEETING

August 25th to Sept. 1st, 1909.

The local secretaries have printed and distributed a FIRST LIST OF MEMBERS attending the meeting and have in preparation a

SECOND LIST OF MEMBERS

It will greatly facilitate the work if those who intend to join the association will send their names without delay to the undersigned, from whom all information, forms of application, circulars, etc., may be obtained.

DELEGATES FROM POINTS: MISSION JUNCTION AND WEST, AND WEST KOOTENAY LANDING IN BRITISH COLUMBIA.

Members and associates from this territory will be sold return tickets at the rate of single fare on presentation of their membership tickets, or other proof that they are bona fide members of the association, and will not therefore be required to obtain certificates to cover their return journey.

Tickets may be purchased from August 20th to August 31st, inclusive, and will be good to reach initial starting point on return trip up to and including October 31st, 1909.

To enable those who wish to attend the meeting to secure the return fare privilege, it will therefore be first necessary to join the association by paying the membership fees as follows:

Life member (lady or gentleman) at.....$50
Annual member (lady or gentleman) at 10
Associate, (lady or gentleman) at..... 5
Ladies' ticket (transferable) at..... 5

AN ECONOMICAL TEA

Blue Ribbon

Tea selling at 25c or 30c a pound is not really cheap, but is extravagantly dear.

Because so much of it is usually required that the cost per cup is actually more than if a good tea like Blue Ribbon were used.

A pound of Blue Ribbon Tea will make 250 cups of good rich tea, so, even at 50c a pound you would get four or five cups for one cent.

Not a very dear drink, is it?

And as for flavor, there is simply no comparison between Blue Ribbon and the "cheap" teas.

Just try a pound, and see.

Our Meats

Are Alway's Juicy and Strictly Fresh

Why?

Because we dress our meats daily at our Nelson abbattoir. We have only the best meats and handle them with absolute cleanliness. Everybody appreciates this and our own self-respect demands it.

NELSON NEWS OF THE DAY

The Young People's society of the Baptist Church will meet tonight at 8 o'clock. Topic, "Missionary Facts."

Henry Tatham Goodeve of Rossland has been appointed to be a notary public for the province of British Columbia.

Fourteen men are now working at the Aurora, says the Moyie leader, and the lower tunnel which was started recently is in 40 feet.

Thomas K. Knox has been appointed to be secretary to the board of examiners at the Coal Creek collieries vice George O'Brien, resigned.

A meeting in the interests of horticulture will be held in Kamloops on August 18 and amongst the speakers will be Martin Burrell, M. P., and Prof. John Craig of Cornell university.

The Moyie-Birchdale company, general merchants of Moyie, have assigned to E. B. McDermid of this city. A meeting of the creditors will be held on Wednesday next at the office of Harvey, McCarter & Macdonald, Cranbrook.

The Dominion Express company will sell by public auction on Friday next at Vancouver all the unclaimed shipments that have been on hand previous to June 1 at offices in Saskatchewan, Alberta and British Columbia located west of Swift Current, Saskatchewan.

Notice is given in last week's issue of the B. C. Gazette of the formation of a company to be known as the International Railway and Development Company, Limited, with its object the building and operating of a tramway from Vancouver to the international boundary. This is, in reality, a part of the B. C. Electric company and is in furtherance of that company's project to connect Seattle and Vancouver by tramway.

Before His Honor Judge Forin in chambers yesterday morning in Mighton & Cavanaugh vs. Swedberg, James O'Shea obtained an order for examination de bene esse; in the case of Katrina Shankin, under the Workman's Compensation act, James O'Shea was granted an order for the distribution of moneys paid into court; in the estate of Herbert Lee Jordan, deceased, A. M. Johnson obtained an order for letters of probate; and in the matter of the Plans Cancellation act, Neil F. Mackay obtained an order for the cancellation of the plans of the townsite of [illegible], in the Slocan.

The Dixie Troubadours are coming to town with another swell show in the present musical comedy "A Trip to New Orleans." This company has been so in the habit of doing things well that a mere announcement of its performance in any city is sufficient to pack the house to the doors. It is one of the most popular and successful road companies in America, and can always be relied upon to give a [illegible] top show. All the music is spick-brand new this season, the fun and comedy in "A Trip to New Orleans" has new laugh provoking scenes and situations and is of a kind that will make you sit up and take notice. Sofa Green appears in the leading role as the prima donna of the company in which she is so capable of doing. George Taylor, the greatest of all colored comedians, has the star comedy role, and as "Slim Green" is making the hit that he justly deserves. They will appear at the opera house on Friday and Saturday next.

Owners of music machines are advised that the July Edison and Victor records are to hand at W. G. Thomson's bookstore, and are invited to call and hear them. 852

Directions for Making Iced Tea

Warm the teapot. Put in a heaping teaspoonful of "Salada" Tea for every two cups. Pour on freshly boiled water and allow to infuse from 5 to 8 minutes. Pour the liquor off the leaves and let cool. "Salada" Tea iced is a most delicious and refreshing beverage. A small piece of lemon will add to its flavor.

Rainier Beer is the Best Beer.

Minard's Liniment Cures Colds, Etc.

Ask any of the good dressers you meet anywhere. You'll find they favor this store. Anything particularly nice you want to wear you'll be apt to find it here. It will be right too.

PERFECT FITTING TROUSERS

Now we're ready for our regular summer trouser sale. We're pants by the ton or by the pair.

We're Over-Panted

We are going to give our patrons a pant benefit.

We're pants of all kinds—good ones, the best ones and for all purposes.

Imagine the feelings of our pants when they are being sold at these prices.

Now, Sir, Is the Time!

Men's Tweed and Worsted Pants	$2.50,	now $1.90 and $2.00
Men's Flannel pants	$3.50,	now $2.90 and $3.00
Men's Imported Tweed pants	$4.00,	now $3.15
Men's Imported Worsted pants	$5.00,	now $4.00
Men's Imported Worsted pants	$6.00,	now $5.00

And so on down the line. To see is to know the value. We invite you.

NELSON NEWS OF THE DAY

D. St. Dennis came in last evening from Slocan.

Rev. C. H. Reynolds of Harrop is a guest at the Hume.

The temperature yesterday varied between 49 and 85 degrees.

L. J. Edwards, C. P. R. agent at Nakusp, is at the Hume.

Alex. Lucas, assessor, of Kaslo, was a guest at the Hume yesterday.

A. Carney of Kaslo, provincial timber inspector, reached the city last evening.

J. S. Airheart, manager of the Highland mine at Ainsworth, is a guest at the Hume.

Fred Adie, of Wanita, assistant provincial fruit inspector, is a guest at the Queens.

A meeting of the committee of the Nelson Cricket club will be held at 8.30 as arranged.

Born, at the Home hospital, yesterday, to the wife of W. H. Courtenay, of Winlaw, a daughter.

The laying of the cement sidewalk along the east side of Ward street, between Baker and the alley near the post office, having been completed work was commenced yesterday on the portion along the ... side of Baker street, between Stanley and Kootenay streets. Work is progressing favorably on the section between Ward and Stanley streets.

The Sheep Creek Development Syndicate, limited, has been incorporated with a capital of $100,000.

Frederic Keffer, of the British Columbia Copper company, Greenwood, was a visitor to the city yesterday.

R. Bruce Scott has opened a real estate office on Baker street, two doors west of Patenaude's jewelry store.

The concentrator at the Highland mine near Ainsworth was in operation a few days last week for testing purposes.

The Eagles' orchestra will hold their regular weekly dance in Lindsay's pavilion this evening, commencing at 9 o'clock.

Otto Lachmund of Arrowhead, president of the Mountain Lumber Manufacturers' association, is a guest of the Strathcona.

W. H. Aldrige of Trail, manager of the Consolidated Mining and Smelting company, registered at the Strathcona last evening.

Robert Percival McKenzie, M. D., of Rossland, has been appointed to be a coroner in and for the province of British Columbia.

Erskine Hazard, mining engineer of Ainsworth, has been appointed the new attorney of the Highlander Mill and mining company.

C. R. Hamilton, K. C., of Rossland, spent yesterday in the city on legal business. Mr. Hamilton was a guest at the Strathcona.

Mr. and Mrs. Injach of Ottawa, the parents of Mrs. A. N. Frith, are the guests of Rev. and Mrs. A. N. Frith of this city.

The Eagles' band will give an open air concert tomorrow evening from 7.45 to 8.30. The regular business meeting of the lodge will be called at 8.30, half an hour later than usual, so as to give the members an opportunity of taking in the band concert and after the business has been disposed of a social has been arranged at which Edgar Mason and C. H. Holloway have consented to render selections.

In the provincial police court this afternoon H. J. LaBrash of Nakusp will answer to a charge of having assaulted J. Cadden at that place on July 17.

The funeral of George B. Dalton, who was killed at the city's power plant on Saturday afternoon, will take place today from the Presbyterian church.

The funeral of Raphaele Pisacreta, who was drowned on Sunday afternoon, will take place tomorrow morning from the Church of Mary Immaculate at 7.30 o'clock.

Patrick Clark of Spokane, who is interested in mining, came in last evening and, after spending the night at the Strathcona, went up to Kaslo on the steamer Kaslo this morning.

W. H. Peck of the composing room staff of the Victoria Post, was a visitor to the city on Sunday and left yesterday on his return to the capital. Mr. Peck was formerly a resident of this city.

A movement is on foot to organize a football club of this city. Any person interested in the project can obtain further information from A. Haselden, Dominion express messenger.

C. W. West of Willow Point was in the city yesterday. He states that while there are still a few crates of strawberries being shipped the season is now practically over, and that the early apples, especially the Wealthies, will soon be ready for shipment.

Nap Mallette, manager of the Eagles' Baseball club, yesterday received a letter from the secretary of the Cranbrook team stating that the members of that aggregation were desirous of arranging for two games with the Nelson nine to take place in that city in the near future.

Richard Brash, secretary of the Merchants' Protective Association of Canada, is in the city with a view to organizing a Nelson branch of that organization. He states that he has already got the support of a large percentage of the merchants of the city and that a meeting will be held shortly for organization purposes.

Muir Wilson of Sheffield, England, has kindly consented to give a lecture on Japan and her people in the Empire theatre this evening, commencing at 8.30 o'clock. The proceeds will be divided between the theatre and the Kootenay Lake General hospital. The lecture will deal with Japan politically, socially, religiously, commercially and artistically and is the result of a personal visit to Japan in 1907. The lecture will be illustrated by 170 specially chromatically colored lantern slides, of which 100 have been prepared by special permission of Mortimer Menpes from his book "Japan."

There will undoubtedly be a large attendance at the moonlight excursion this evening which is to be held under the auspices of the local lodge of the Knights of Pythias. The steamer Kaslo will leave the city wharf at 7.30, rain or shine, and a good time is promised all who attend. The city band will be in attendance.

R. O. Thompson, representing Canada Life and Resources, an eastern publication with offices in Montreal, Toronto and Winnipeg, has spent the past few days in Nelson and leaves shortly for Vancouver from which place he will go to Dawson. M. Thompson is gathering information as to the conditions prevailing in British Columbia, paying particular attention to Kootenay.

Among the visitors to the board of trade offices during the past few days are the following: C. Cranshaw, Black Hill, North Dakota; A. E. Turnbull, Laurier, Man.; W. Finch Page, W. Leash, New Westminster; G. B. Halsett, Ottawa; H. Hume, advertising representative of The World, Vancouver; W. Baker-Headley, England; T. Shumm, Coffeyville, Kansas, and R. O. Thompson, Montreal.

The Baptist Sunday school picnic which is to be held tomorrow at Procter, promises to be a big success as preparations have been made for giving everybody a good time and the price of the trip is considerably lower than usual. Attention is called to the fact that through an error this picnic has been advertised for Friday, but the necessary corrections have been made in the advertisement this morning making it read Wednesday, July 28.

E. E. Phair of the Strathcona hotel has received from G. Waldo Paine of the Spokane and Inland Empire Railroad company at Spokane, Washington, a neat device comprising a thermometer and a map of the company's system, which includes 225 miles of electric railway system and connects Spokane, with Hayden Lake, where is located the Hayden Lake tavern formerly run by Mr. Phair, Coeur D'Alene, Colfax, Palouse and Moscow.

Count de Chastremerle de Villette, Count de Ferrand de Laurizin and Count de Baillencourt-Courcol, all of Paris, France, arrived on the Crow boat on Sunday evening and registered at the Hume. They are interested in the Mansfield group of mines near Kaslo, and left on the Kokanee yesterday afternoon in company with W. E. Boie, a mining engineer from Spokane, in order to make an inspection. While in the Kaslo district the party will also spend a considerable amount of time in hunting and fishing.

August Thomas returns this morning to Tacoma after spending ten days at Halcyon Hot Springs and about a week in this city. Mr. Thomas, prior to his removing to Tacoma, was a resident of Nelson for nearly 33 years and has still interests here which he has been looking over taking opportunity at the same time to visit old friends throughout the district who are numerous. "We look for The Daily News at my home in Tacoma more so than we do our local papers," said Mr. Thomas last evening, "and never stop sending it regularly unless you are looking for trouble. I have subscribed for The Daily News since its initial issue and will continue to do so. I consider it the best daily paper published on this continent in any town of Nelson's size." Mr. Thomas will be accompanied on his return by his 12-year old nephew, Wesley Callack.

LATER BERRIES SUCCESS

NEW VARIETY INTRODUCED FROM OLD COUNTRY.

LIEUT. HALLETT'S GIVONNE'S LATE ARE BONANZA.

For some time past it has been realized by many of the Kootenay fruit growers that the later strawberries were likely to be far more profitable than those ripening earlier. It is, of course, well known that this section of British Columbia has the advantage of being, as far as the strawberry crop is concerned, a couple of weeks or so later than the coast and the Hood River country and about a week later than the Okanagan. It is unnecessary to point out that owing to this the Kootenay is able to send its berries to the eastern market when the bulk of the crop from competitive districts has already been sold. The greater part of the strawberries produced here are at present, however, of what would, if grown at the coast or Hood River, be considered the early varieties and it is clear that berries ripening a week or so later would command an even more satisfactory price than have Kootenay berries this season.

This has been proven by the new variety which has been recently imported from the old country by Lieut. Gordon Hallett of Harrop. These berries, in addition to their late ripening properties, are also large and delightfully flavored and ship in perfect condition to the farthest eastern points on the prairies. Lieut. Hallett is, in fact, still shipping while practically the whole of the berry crop on the lake and West Arm, apart from the Givonne's Late, has already been gathered and shipped. He is, for this reason, quite unable to supply a sufficient quantity of the new variety to fill the orders which are crowding in on him.

With regard to price Lieut. Hallet told a representative of The Daily News yesterday that he had received considerably better returns from the Givonne's Late than from his earlier berries and that he thought it certain that he would find, when the full returns were in that his crop of the later berry, taken as a whole, would make a record as regards the prices received by the growers in this district. He intends to plant out several acres of the variety next year as, in addition to the good prices realized, the production was proportionately much greater per acre than that of the earlier berries on his ranch.
